

Campus Master 561-562

Chapter 561

“Buzz~~!”

The roar of the engine rang out continuously, showing how powerful the car’s motor was.

The black BMW x6 sped down the road, Guo Tao’s driving skills were extremely good, and coupled with the high performance of the BMW x6, it made the car so smooth that if you didn’t look outside the car, you simply couldn’t feel that it was moving!

Ji Feng sat in the back seat with his eyes slightly closed, looking as if he was asleep. But in reality, at this moment, he was meditating with his eyes closed, and some impressions about the destination of this trip – Hangzhou – came to his mind.

Hang is not the nearest city to Jiangzhou; there are several other county and prefecture-level cities in the vicinity of Jiangzhou, and all of them are still quite developed, some of them are almost completely industrialised small cities, and the population of just such a small city is less than a tenth of that of a second-tier city in the northern or central regions, but the total output value of the city is similar.

This shows how industrially developed this little county-level city is!

However, as the capital of Jiangsu and Zhejiang, Hangzhou has advantages that are hard to match with those smaller cities, both in terms of location and policies, which are extremely obvious!

Perhaps it was for this reason that Xiao Changhe and Lin Shengping had set their sights on Hangzhou.

After all, if they could open up the market in Hangzhou, it would be much easier to form a huge sales network by radiating towards the nearby cities.

Only, Xiao Changhe and Lin Shengping had been deceived this time, but that did not mean that their choice and vision was wrong!

If one were to follow normal thinking, even if it were Ji Feng, he would have made the same choice as Xiao Changhe.

What was unfortunate for Xiao Changhe was that he and Lin Shengping had met a con man whose tactics were not very clever, but very effective, and the other party had taken advantage of their eagerness for success, thus setting a trap.

The journey from Jiangzhou to Hangzhou was almost two hours if one drove fast, which was not that far.

Ji Feng had to have a rough plan of action within these two hours, otherwise, when he arrived in Hangzhou, he was unfamiliar with the city and would definitely be restricted in every way.

It was a must to rendezvous with Xiao Changhe and Lin Shengping after arriving in Hangzhou.

It was imperative to pay off all the money from the bidding and first of all, to free Xiao Changhe from legal responsibility, at least for the time being, not to have any entanglement with the officials.

In addition, Ji Feng will have to take a good look at the director of the pharmaceutical factory, who is able to fool Xiao Changhe and make him pay out money even though he is helpless, this person's ability is definitely not ordinary, and I believe he is not a simple person, so we should pay attention to him and also be vigilant.

Since the other party dares to cheat so blatantly, they will obviously have something to fall back on, or at least, they have the bottom line, they are not afraid of you to find!

Under such circumstances, Ji Feng would have to be even more vigilant, after all, that was Hangzhou City, not Jiangzhou.

Moreover, this matter from the beginning until the end, it looks very much like a formal operation, the ID card was also handed over by Xiao Changhe on his own initiative, with the other party's style of action, I believe there will never be any evidence left for you to check. This kind of situation even in Jiangzhou, if from formal channels, Ji Feng is also helpless.

To put it bluntly, this is actually a fraudulent purchase!

It was nothing more than having Xiao Changhe spend a large amount of money on raw stones that were originally useless, things were that simple.

"This is a difficult character" Ji Feng couldn't help but secretly shake his head, this time he might really have to spend money to buy a lesson!

Subsequently, Ji Feng changed no longer think more, because from the current situation to analyze, there is nothing you can do, only wait to see Xiao Changhe, and then ask about the details in detail, before you can think of a solution.

Ji Feng and Guo Tao started their journey at seven o'clock in the morning, and it was just after ten o'clock in the morning when they arrived in Jiangzhe Hangzhou.

When Ji Feng and Guo Tao had just left the toll station, they saw a black Mercedes waiting at the exit just off the highway.

There was also a man standing by the side of the car, but it was the general manager of Changhe Pharmaceutical Company, Lin Shengping.

Ji Feng smiled at once, and could see that these two were really in a hurry. Otherwise, how could Lin Shengping have come directly to the toll station to wait? It was almost as if he was greeting the leader who had come to inspect!

"Guo Tao, stop in front of that black Mercedes, that's the person we're looking for!" Ji Feng said with a smile.

"Yes!" Guo Tao immediately answered and parked the car a few meters away from the Mercedes.

Once he saw Ji Feng get out of the car, Lin Shengping hurriedly walked over, shook hands with Ji Feng and said, "Mr. Ji, the boss is waiting for you at the hotel!"

Ji Feng smiled and nodded, saying, "Let's go, you lead the way in front."

Lin Shengping immediately said, "Okay, you guys follow me!"

The duo got back into the car and headed straight for the hotel where Xiao Changhe was staying.

The hotel where Xiao Changhe and Lin Shengping were staying was called the West Lake Hotel, a four-star hotel.

When Ji Feng arrived here, Xiao Changhe was frowning tightly, smoking a cigarette and walking back and forth in the hotel room, looking very irritable and restless, completely devoid of the steadiness that he used to have. Obviously, this matter had made him very anxious.

In fact, if you think about it carefully, you will be relieved to know that Xiao Changhe has reached middle age and has worked hard for one or two decades to achieve the current size of his company. Originally, he had wanted to take advantage of this good momentum of development to take the company one step further and expand to Jiangsu and Zhejiang. However, he did not expect to step into the trap dug by others and fall headlong.

Xiao Changhe originally wanted to leave his daughter a stable and growing company, but now, all he can leave her is a pile of debts, which makes him extremely frustrated!

Furthermore, Xiao Changhe had never been so ambitious in his life, but he was just about to fight for his life again, but he was now in such a situation, which was a great blow to him.

Under such circumstances, how could he be quiet, where would he still be stable?

"Uncle Xiao!" As soon as Ji Feng pushed the door in, he saw this dishevelled look of Xiao Changhe, the room was filled with smoke, and a pungent smell of smoke almost made it impossible to open one's eyes.

"Ji Feng, you're here!" When Xiao Changhe saw Ji Feng, he couldn't help but blush with an old face and asked with some embarrassment.

"Uncle Xiao, you're" Ji Feng couldn't help but shake his head slightly and said, "It's no big deal, it's just a deception, no one can guarantee that they will be successful in their lifetime, just a little bump in the road, don't take it to heart!"

When Xiao Changhe heard this, he could only shake his head and smile bitterly, sighing, "Xiao Feng, Uncle Xiao has never suffered such a big loss in his life, the other party is obviously a fraud, but I still have to bashfully go and give money to others, this is really alas! It's a loser!"

"Boss, it's all my fault, if I hadn't strongly suggested to expand the company's business, we wouldn't have fallen for the scam" Lin Shengping said apologetically from the side.

Xiao Changhe waved his hand and said, "How can I blame you for this, you also have good intentions, it was me who didn't recognize the other party's tricks, that's why"

Ji Feng gestured to Guo Tao, who immediately pulled a chair over and sat at the door to prevent anyone from eavesdropping.

"Uncle Xiao, this is not the time to pursue responsibility, I want to know the details of the process after you came to Jiangzhou!" Ji Feng said.

Xiao Changhe shook his head slightly and said, "It's better to let Shengping speak!"

Ji Feng nodded, with Xiao Changhe's mental state at this moment, it really wasn't suitable for him to present the situation either. His gaze looked towards Lin Shengping and said with a smile, "General Lin, tell us about the situation!"

Lin Shengping then nodded slightly and said, "When we first arrived in Hangzhou, the first thing we contacted was a pharmaceutical company called Yuantai Pharmaceutical, at that time we went directly to the Yuantai building, made an appointment with their receptionist and agreed to meet with their sales head the next day."

"Yuantai Pharmaceuticals this I know, a large pharmaceutical group that you can often see on TV commercials!" Ji Feng nodded slightly, this Yuantai Group is still very strong, in various local TV stations and CCTV are often able to see, like what xx oral liquid ah, what what what special effect medicine and so on, advertising is simply overwhelming.

If we could establish a business relationship with this large group, it would indeed take Changhe Pharmaceutical Company to another level.

Nodding slightly, Lin Shengping continued, "The next day my boss and I went to Yuantai Mansion again, this time we were received by a director of the sales department, some employees also called him manager, this person's name was Zhou Chengxin!"

"Called what? Zhou Chengxin?!" Ji Feng was instantly filled with black lines, "If this kind of person can be called honest, then what else is dishonest?"

"No, it's called Zhou Chengxin! New as in new old!" Lin Shengping wrote the name quickly on the coffee table before saying, "This man is svelte looking and looks like a cadre of a state-owned enterprise, besides, there are his documents, and when Yuantai's employees see him, they call him Manager Zhou and also Director Zhou, so we have no reason to doubt his identity!"

"That's true!" Ji Feng nodded slightly, "You go on."

"After contacting this Zhou Chengxin, he also came up with some vetting procedures for agents, which included requirements for various aspects such as the company's registered capital" Lin Shengping gave a general overview of these professionalities. "For the most low-level agent, our company is slightly worse in sales channels, but the difference is not much, which started the PR!"

"Then after playing for two days, he took you guys to the original stone trade fair?" Ji Feng asked.

"Yes!" Lin Shengping nodded.

"This Zhou Chengxin's identity, is he really the manager of Yuantai's sales department? Can you be sure?" Ji Feng went straight to the point and asked.

Chapter 562

Hearing Ji Feng's question, Lin Shengping was stunned, "This either his documents or formalities, as well as his office is also inside the Yuantai building, so we never suspected his identity!"

Ji Feng laughed: "I also just ask so, maybe that Zhou Chengxin is really the sales manager of Yuantai, let's not talk about that first, what's the matter with those gross stones?"

"It's still just some broken stones, we looked at them at the original stone fair and many insiders said that those are all scrap stones that have been deconstructed and have no value for gambling at all." Lin Shengping said helplessly. That was nearly fifty million dollars that had gone down the drain, leaving just a dozen broken stones!

"So, after what happened, did you guys ever look for that Zhou Chengxin? Find him for a statement?" Ji Feng asked.

"We searched, but Yuantai's staff said that Zhou Chengxin had gone away on a business trip and didn't know when he would return." Lin Shengping said indignantly, this was simply a rogue act. But that was precisely why Lin Shengping and Xiao Changhe had no doubts about the identity of that Zhou Chengxin.

Imagine, even a large group like Yuantai had come out to cover up for Zhou Chengxin, there was no doubt that this Zhou Chengxin was indeed the manager of Yuantai.

"Uncle Xiao, when you were bidding on the gambling stones, apart from using your ID card, you should have been asked to sign it, right? Did you not read what was written on that subscription guarantee and just sign it in such a muddled manner?" Ji Feng asked with a frown.

He had participated in the original stone trade fair once, and although he had only participated in the retail trade at that time, he had made an extremely detailed understanding of some of the processes of the auction. Before the auction, if you wanted to bid and obtain a bid tag, you had to qualify for the auction before you could get a seat number and a bid tag, in the middle of which you needed to sign a subscription agreement and go through some other formalities.

All these formalities require Xiao Changhe's signature. If Xiao Changhe did not sign, even if someone else got his ID card, there was no way to get the bid plate.

"This" Xiao Changhe couldn't help but shake his head slightly and let out a long sigh, "I don't know what's going on, what I signed in the first place was only the letter of intent to cooperate with Yuantai Group, I didn't sign any subscription agreement at all!"

"Mr. Ji, actually this matter really can't be blamed on the boss, when the boss called someone to ask for help yesterday, someone else said something and we only knew what this subscription letter was about!" Lin Shengping said, "A friend of the boss said that many scammers in the jianghu nowadays, want to cheat you out of your signature, especially in cases like the boss's, the other party will adopt a very common method, just like the letter of intent to cooperate that was signed before!"

"How exactly does it work?!" Ji Feng frowned and asked.

"They will prepare two agreements in advance, using a special glue, the letter of intent to cooperate pasted on top of the subscription letter, in fact, the boss signed, is signed on the subscription letter, but the text on it is the letter of intent to cooperate, it looks flawless" "Lin Shengping Shaking his head and laughing bitterly, he said, "We only found out yesterday when we heard from the boss's friend, but anyone who plays with antique calligraphy and paintings will know that there is a technique for faking calligraphy and paintings, just like this!"

“Tsk!”

Ji Feng couldn't help but let out a sigh of admiration, “To actually use even the technique of faking antique calligraphy and paintings, this is really elaborate and painstaking”

“Yes, this really confuses us all, the sales manager of Yuantai, how can he do this!” Lin Shengping said indignantly.

“Did you call the police?” Ji Feng asked again.

In fact, Ji Feng also knew that it was useless to call the police for this kind of thing, after all, Xiao Changhe did not have any evidence to prove that he had been cheated, and there was even a possibility that people might mistakenly think that he did not want to buy it after bidding, and maybe it would be Xiao Changhe who would be investigated by the case.

As expected, Lin Shengping shook his head and said, “The ID card is the boss's, the subscription agreement is also the boss's signature, the police people will certainly not accept it, so there is no police”

Ji Feng rubbed his chin, nodded and said, “Now it looks like the tens of millions must be given”

“There are still two days left, if the payment is not made by then, the organizer of the trade fair will go through legal channels to settle the matter, and by then the boss may have to be” Lin Shengping glanced apologetically at Xiao Changhe who was sitting next to him, if it wasn't for his adventurousness, the boss wouldn't have been in such big trouble this time.

Ji Feng shook his head and said: “Don't rush first, things may not be without room for de-escalation” Let's do this, I'll find someone to ask around and see if we can get the other party to return some of the money, the appetite is too big and it won't do them any good, since their methods are so skilled, I believe it's the same people who often do this of people, they may not necessarily do things that badly!”

“Uncle Xiao, if the other party can return part of the money, this matter will end for the time being, right?” Ji Feng asked, “First maintain the normal operation of the company, as for the rest of the matter, I will slowly solve it, what do you think?”

For Xiao Changhe, these tens of millions of dollars were his entire fortune, and he might not be able to pay for it with all his money, and he might even owe a debt.

Besides, it is certainly impossible not to pay after the shooting, after all, there are laws there, even if it is a subterfuge, you still have to abide by the law, at least for Ji Feng, he can't take the initiative to send the handle to other people's hands.

Xiao Changhe nodded and sighed: “If the other side can refund the money, that's naturally good, but I'm afraid that the other side will simply ignore us, we went to Yuantai several times, the other side didn't even put us in their eyes, they just sent some receptionists to send us off”

Xiao Changhe was helpless, the encounter in Jiangzhe made him truly understand that his tens of millions of dollars, in the eyes of the other side, is actually just a small harvest of a scam.

Ji Feng nodded and smiled, “Let's try it first, if it doesn't work, we'll think of another way!”

After a moment of careful deliberation, he took out his mobile phone and called his second brother, Ji Shaolei.

“Third son, what’s the matter?” When he answered the phone, Ji Shaolei asked with a smile, “I haven’t seen you over lately, your second aunt has been talking about you a lot!”

Ji Feng laughed, “I’ve been so busy lately that I couldn’t get away, and now I just got free and something happened again.”

“What’s going on?!” Ji Shaolei was stunned.

“Second brother, it’s something on this side of Jiangsu and Zhejiang” Ji Feng immediately said Xiao Changhe’s experience quickly, “Second brother, do you have any acquaintances on this side of Jiangsu and Zhejiang, help negotiate, they can leave some of the money, two million. Two million, let’s say, it’s considered making a friend, the rest, let them all return it!”

“The” side of Jiangsu and Zhejiang?” The first thing you need to do is to get a good idea of what you want to do. You also know that some of our family’s connections are not in Jiangsu and Zhejiang, and that area has almost become the He family’s backyard, so it’s hard for us to intervene.”

“The He family?!”

Ji Feng frowned slightly and said, “He Hongwei?!”

“That’s right, He Hongwei is still very powerful over in Jiangsu and Zhejiang, the weight of what he says is definitely not something I can compare to, just like when I speak in Jiangzhou, it’s far from something He Hongwei can do,” Ji Shaolei said.

Ji Feng nodded, then shook his head and smiled: “After all is said and done, it actually comes down to He Hongwei!”

Ji Shaolei said, “San’er, this fifty million is a lot, but if you find He Hongwei because of this matter, it’s the same as owing him a favor, so you should think it over.”

“I know, then okay, I’ll think about it again!” Ji Feng said.

After hanging up the phone, Ji Feng couldn’t help but deliberate, if he approached He Hongwei, perhaps the matter would be resolved quickly, but there was no doubt, as Second Brother had said, the matter was small, but it was a favor.

He Hongwei’s favor is not that easy to owe!

What’s more, it was still at the juncture of Ji Feng’s cooperation with He Hongwei, and there would definitely be other cooperation in the future, and by then, even if He Hongwei didn’t mention it, Ji Feng would have to make a certain degree of concessions, which wouldn’t be good for the two sides’ cooperation!

“Little Feng, isn’t it very bad?!” Xiao Changhe saw Ji Feng frowning and pondering, thinking that things were difficult, so he couldn’t help but ask in a voice: “If things are difficult, don’t make it difficult, let’s pay the money first, then I’ll go back to Jiangzhou to raise the loan, hopefully we can get through this!”

Ji Feng shook his head slightly and smiled, "It's not difficult, it's just that I haven't figured out which approach to take yet, Uncle Xiao, you don't have to worry about it, I will definitely solve this matter for you, I will definitely not let those people get away with it after cheating us!"

At the end, Ji Feng's voice suddenly turned cold, even if he cheated people, his appetite was still so big, cheating 50 million at once!

Even after deducting the taxes and other expenses, the other party would still have more than 40 million in their hands, which for many people would already be considered an astronomical amount!

Xiao Changhe, for example, had worked hard for a decade or two, but his fortune was only twenty to thirty million, and this included some of the medicines in stock.

This is intolerable!

Ji Feng coldly snorted and said, "Uncle Xiao, don't pay the money first, wait until the deadline to pay, tomorrow, I'll go visit Zhou Chengxin of Yuantai, I'd like to see, what is this sacred"

Chapter 567

At night, the nightlife in Hangzhou has begun. In May, the city has gradually taken on the flavour of summer, and at night, handsome men and beautiful women dressed in cool clothes begin their crazy nightlife.

Inside the discotheque, the dj was roaring wildly, igniting everyone's excitement. The men and women on the dance floor were constantly twisting and turning, showing off their toned muscles or seductive bodies, sending secret glances, or sticking close to each other, ear to ear, enjoying the indulgent and joyful time.

On a seat near the entrance to the disco were several hooligans dressed in strange and bizarre costumes and with colourful hair. Each of them had a slight bulge at the waist, but it was not clear what was inside because it was blocked by a t-shirt or by a shirt.

What's more, the faces of these hooligans were completely devoid of the immodesty and effrontery of street hooligans, their faces were stoic, with a cold glint in their eyes from time to time, and they did not look like ordinary hooligans at all.

If you look carefully, you will find that these hooligans are actually wearing a headset in their ears, but the headset is extremely inconspicuous and hidden by their hair, so it is hard for anyone to notice.

"Bang!"

A hand slapped on the table, and these young hooligans immediately turned their faces sober and looked around to see a young man, also dressed oddly and with yellow hair dyed on his head, holding a hot girl in a revealing dress in his arms, looking arrogantly at these young hooligans: "Guys, give up your seats, will you? I see you guys don't order anything and you don't go dancing, you've just been sitting here for most of the hour, it's not good to stand in a pit like that and not shit, is it?"

"Fuck off!" A young man at the table gave a cold snort in a low voice.

The yellow-haired young man's face suddenly changed: "Brothers, you still don't know who I am, do you? This street is all covered by Brother Pao, I'm Brother Pao's cousin, a few of you, know what to do?!"

"Cut!"

The hot girl who was being hugged by the yellow hair, disdainfully brushed her mouth and hummed, "You guys, you still dye your hair like others and pretend to be hooligans? Don't even look at who's standing in front of you! If you know what you're doing, get lost!"

This hot girl looked like she was only about twenty years old, but she spoke with arrogance, not putting the few people at the table in her eyes at all.

The yellow hair immediately rewarded the hot girl with a kiss on the cheek, and he laughed: "You're really good at talking, reward you well tonight, I'll make you feel good until you die!"

"Nasty~~!" The hot girl giggled at once.

Yellow Hair snapped his face, turned his head to look at the few people at the table and coldly snorted, "You few, don't get lost yet, do I have to do it?!"

Swish!

A cold light suddenly flashed in front of Huang Mao's eyes, and he only felt his eyes blink as a cold sensation spread from his neck to his whole body, causing goose bumps to instantly form in his neck.

The man at the table had stood up at some point, and a shiny and cold dagger was pressed against Huang Mao's neck, and with a little force from the man, Huang Mao believed that a bloody hole would be pierced through his neck in an instant!

"This, this big brother, there is something to say, there is something to say" Huang Mao was so frightened that he stammered in his speech.

At this time, a young man sitting at a nearby table, with his back to Huang Mao and the others, said indifferently, "Don't cause any trouble, get down to business!"

"Yes!" One of the people at the table said. Immediately afterwards, his gaze turned to Huang Mao, and the other's icy voice rang out, "Get out! Get the hell out of here right now!"

"Good! Good! I'll get lost!" Panicked, he was instantly pardoned and hurriedly pulled the equally frightened hot girl with him and ran away in a panic. When he got to the door, he still looked back with palpitations, these guys, they were so fierce, with those eyes, they were like killers wandering in the dark!

It was really too scary!

"You guys, don't forget what you're here for today, that kind of little people, when the day is over, feel free to clean up whatever you want!" The man sitting at the other table gave a cold snort, "Sit here honestly, and when the time is a bit later, you will do it immediately!"

"Yes!" The majority of the rare and odd people at this table immediately answered at the same time.

If anyone familiar with the situation was here, they would have instantly recognised that the young man sitting with his back was no other than the young master of the Zhou Clan and also the acting chairman of the Yuantai Group, Zhou Shilin!

At this moment, Zhou Shilin's gaze was looking at the West Lake Hotel across the road through the glass at the entrance of the disco.

"Ji Feng ah Ji Feng, you are so arrogant, really annoying, no matter what your origin is, after tonight, in this world, there will be no more you as a person" Zhou Shilin's eyes flashed with a strange light, the corners of his mouth hung with a slight cold smile, but his heart was thick with hatred.

Whether in Yanjing, or in Yuantai Mansion, Ji Feng was so rampant, even brought him incomparable pain, and in a short time, at most a few hours later, Ji Feng will become a corpse, Zhou Shilin felt incomparable pain when he thought about it, that feeling, it was really wonderful!

Time passed by, when the people in the disco had reached the peak of the most high, everyone had almost fallen into madness, screaming loudly, twisting their bodies wildly, the whole disco was deafening, the heavy metal music was making the tables shake!

"Dang!"

Zhou Shilin put the cup in his hand on the table and said in a deep voice, "It's time to go!"

"Yes!" The few people on the table next to him answered in a low voice.

Immediately, these few people pretended to have played to their heart's content and quickly walked out of the disco

.....

In the suite of the West Lake Hotel, all the lights were turned off, even the curtains were pulled shut, the room was dark for a while, without a single ray of light!

Ji Feng stood at the window, holding a pair of binoculars that Guo Tao had temporarily bought back, and lying at the window through the gap between the curtains, looking down at the road below. And next to him, there was only a computer that was still humming, but there was not a single ray of light on the screen, obviously in standby mode.

"Guo Tao, how are you doing there, is there anything going on?!" Ji Feng asked. On his ear, there was a headset hanging, which was one of the ways he kept in touch with Guo Tao.

"Boss, there's no problem in the hotel now, I've been in the lobby and haven't found any suspicious people." Guo Tao immediately said, "All the people in the hotel have rested now, only a man and a woman on the night shift at the front desk are left, and two security guards are standing at the entrance, except"

"But what?!" Ji Feng immediately asked.

"Boss, do you remember, when we came back in the afternoon, there was no male receptionist at this front desk, but now, from where there is an extra man?!" Guo Tao said with some hesitation, "So I think"

“There’s something wrong with that man?!” Ji Feng frowned and immediately asked, “What part of the hall were you in? Can that man see you?”

“I’m behind the small pine tree placed next to the stairway, which is very tightly packed, no one should be able to find me!” Guo Tao whispered.

Ji Feng then laughed, “Good then, be careful, don’t let anyone else find out As for that male receptionist, ignore him, he should be here to spy on us, it certainly won’t be him who really does it!”

If that man wanted to kill himself and Guo Tao, he certainly would not have stayed in the hotel lobby for so long, on the one hand because there are surveillance devices in this hotel, on the other hand, but also because there are so many guests staying here in the hotel, if others find that there is suddenly an additional male receptionist at the front desk, and then there is a murder in the hotel, and then the male receptionist disappears, even a fool would know that there must be something wrong with that male receptionist

“Boss, the male receptionist seems to have received a phone call he went upstairs, he took the lift, it is still not known how many floors he went to” Guo Tao’s voice kept coming over.

Ji Feng said in a deep voice: “First, do not care how many floors he is going to, if he really came to spy on us, when he moves, it means that the other side’s action may start, you pay attention to the people coming from outside.”

“Yes, boss the lift has stopped on the third floor!” Guo Tao suddenly said, “Boss, the hotel’s surveillance room is on the third floor!”

“The other side is about to make a move, be careful!” Ji Feng said immediately, “Be careful someone will come in outside the door!”

Snap!

Just as he finished his words, he suddenly felt the light dim, the whole hotel actually suddenly lost power!

“Here it comes!” Ji Feng instantly smiled faintly, he used the remote control, turned on the dv that had been adjusted long ago, turned on all the other equipment as well, at the same time, he also turned on the computer, a blurred scene immediately appeared on it, but it was the surveillance screen from the hotel corridor!

“Boss, here comes a total of six!” Guo Tao’s deliberately low voice came from the headset.

“Got it, wait for them to make their move first, then we’ll outflank them back and forth, remember not to let the other side find out!” Ji Feng said, “After they go upstairs, you immediately go to the third floor first, restrain that male receptionist, then come to the room!”

The two quickly discussed a plan of action, and Ji Feng pulled one of the single sofas aside and sat down just like that.

In Ji Feng’s left hand, he held a pistol, but in his right hand, was a three-pronged military spike.

The pitch-black three-pronged military spike, reflecting the soft glow of the computer screen, emitted a burst of coldness!

“Stomp stomp stomp”

But in just a few minutes, Ji Feng heard a light footsteps coming from the corridor outside the door, he immediately frowned slightly, these people’s footsteps were not in the least bit chaotic, it looked like, Zhou Shilin had also found a few experts!

Click~~!

The door to the room was easily opened, however, when they saw that there were still computers working in the room, they were instantly shocked: “Ee?!”

But soon, they immediately reacted and aimed at a shadowy figure sitting next to the computer, pulled the pistol directly from their waist and pulled the trigger!

Bang, bang, bang

Chapter 568

Dense gunfire rang out at the entrance of the room. Although the gunfire was extremely dense and flaming, the sound of this gunfire sounded extremely dull, and it was obvious that it was fitted with a silencer.

The dull sound of gunfire lasted for more than ten seconds before it stopped, and the eyes of the few killers at the door fell on the blurred figure.

There was a thud!

The figure fell to the ground at once, his body twitched a few times, and before he could even let out a scream, he just planted himself on the ground, without a sound.

“Go over and take a look, make sure he’s dead!” A man said in a low voice.

The two assassins immediately came over, their guns tightly gripped in their hands, pointing at the figure on the ground, even though the man on the ground looked like there was no chance of him surviving, they still didn’t let their guard down, they could tell that these people were definitely veterans!

“Strange, why is there no sound in the headset?” A man asked in surprise, he was about to report the situation to Zhou Shilin, but he suddenly realised that the headset was silent, there was no sound at all, “Is it out of range?”

“There’s no sound in my headset either!” Another man standing in the doorway whispered.

“It should be out of reception range!” Another man said, “But still, be careful not to gutter!”

“Click, click!”

Two sounds of gun bolts being pulled, if one was familiar with firearms one would have immediately heard that it should be the sound of a semi-automatic rifle or an automatic rifle when the bolt was pulled.

The two men standing in the doorway, long guns clutched in their hands, reflected the light from the computer screen and pointed at the figure lying on the ground. The light was hazy, but there was no problem seeing the man's silhouette clearly.

The two men in the room, however, approached cautiously, with a wary look in their eyes; they would not let down their guard as long as they did not confirm that their target was dead.

The two men slowly arrived in front of the figure and immediately pulled the trigger.

Bang Bang Bang

"Something's not right, something's flying!" A man shouted lowly, "It's duck down not good, this on the ground is not a person, it's just a rolled up quilt"

Before he could finish his words, he suddenly saw a flash of black shadows in front of him, and in a flash, a sharp pain that started from his wrist and spread instantly throughout his body.

He fiercely opened his mouth wide, and a cry of surprise was about to issue, while in the next moment, his eyes went black, an errant sound came from his throat, and his whole body just fell headlong to the ground without a sound.

Bang!

The other man also fell to the ground in the same way, his body twitched a few times and he didn't move anymore.

The four remaining men at the door were shocked, but before they could pull the trigger, they suddenly felt a flash of silhouettes in front of them, followed by a pain in the back of their heads, and two of them fell to the ground with a muffled cry.

The remaining two men, however, had already been knocked unconscious from behind and thrown into the room.

Bang!

Another figure was thrown through the door and landed heavily on the floor.

"Hoo-hoo!"

A man came in outside the door and gestured twice, while the figure inside the door, waved his hand, and the man outside retreated at once.

Snap, snap, snap!

A few moments later, all the lights in the hotel came on and electricity was restored, and the room was similarly lit up, a bright light that looked extraordinarily clear.

Ji Feng leaned against the wall at the entrance, holding a three-pronged military spike in his hand, and looked coldly at the seven people in the room, six of whom were dressed oddly, looking as if they were street punks.

The other one, on the other hand, was wearing the hotel's work uniform.

This was the same man who was standing at the reception desk in the ground floor lobby acting as a receptionist; Guo Tao had found him in the surveillance room and had restrained him and thrown him in.

The man who had been killed in the first floor of the building was the same as the man who had been killed in the first floor of the building.

Ji Feng walked up quickly and quickly activated the bio-current in his body, nudging each of these seven people's bodies a few times.

"Well!"

These seven people instantly woke up, but suddenly changed their faces, each with wide eyes, the veins on their foreheads rising high, their faces turning red as if they were being choked, extremely ugly.

In fact, at this moment, a bio-current was raging wildly in their bodies, destroying their bodies from within.

The pain that seemed to come from the soul was still fresh in Ji Feng's mind even now, let alone these few killers who had never undergone such training.

These seven people were like being in hell at this moment, in unbearable pain, but for some reason, it was as if their bodies did not belong to them, they had no control over them at all, not even the ability to move a finger. Yet the unbearable pain was clearly transmitted to everyone's mind.

Every second of this was an extremely painful ordeal, as if they were in purgatory.

If it were possible, these seven men would want to kill themselves right now, but their bodies were not moving at all, and they looked as if they were lying on the ground resting, which seemed strange!

"All of you now know what happens when you are a killer, right?" Ji Feng finally spoke, he pulled over a chair and sat down in front of the seven people, saying indifferently, "Now, I want to ask a few questions, I don't know if a few of you are willing to answer!"

The seven men had the heart to die, so how could they be unwilling to answer?

But the problem was, they couldn't move!

"It seems that I hit too hard just now, several of you are unable to stand up for a while, how about this, if anyone wants to answer the questions, just blink and I will help you up, what do you think?!" Ji Feng smiled faintly and asked indifferently.

At this moment, how could several people dare to say half a word no? At the same time, they blinked hard, afraid that they would be slower than others, where was the coldness and strength of a killer?

Ji Feng smiled faintly and said, "It seems that the hearts of several people are not bad, that's great!"

He stepped forward and slightly probed his body, quickly nodding a few times on each of the seven people's bodies, those seven people immediately let out a long sigh of relief and their entire bodies were relaxed, but the clothes on their bodies were already soaked with cold sweat.

"All sit up!" Ji Feng said indifferently, "First question, what did you guys come to do when you broke into my room, shooting and turning off the lights!"

The seven people looked at each other at once, how could this man ask that?

Even a fool should know that they were here to kill someone!

Although their hearts were puzzled, these few people did not dare not answer the question Ji Feng asked, one of them said honestly, "We came here to, to kill you!"

"Kill me?!"

Ji Feng, as if he was very surprised, asked again, "Why did you come to kill me? Who sent you guys here?!"

"We don't know why we want to kill you either, just that someone asked us to come and kill all the people in this room and then make it look like a suicide, but we don't know the exact reason" another person replied quickly.

This interrogation technique is really effective!

Ji Feng secretly praised in his heart, but his mouth was a fierce cold snort: "Simply damn, who sent you?!"

At the sight of Ji Feng's anger, all of them were startled, and one of them said in a panic, "Yes, it was Duke Zhou who sent us here!"

"Say something specific, don't make me ask more questions!" Ji Feng's face suddenly went cold as he bellowed low.

"Yes, yes, yes!" A few people were instantly astonished and nodded their heads.

One of them said, "This gentleman, it was Zhou Shilin of the Yuantai Group who sent us here, we are all the Zhou family's hit men in the shadows"

This man seemed to be really frightened by Ji Feng, and spoke incessantly about his origins and purpose without hiding anything, even some of the evil things Zhou Shilin usually did. However, Ji Feng regretted that although this man said so, he did not have any evidence, and even if the police were called, it could only be used as a human witness.

With the Zhou family's energy in Jiangsu and Zhejiang, when the time comes, as long as there is a little operation, Zhou Shilin can easily get off, there will not be any serious consequences at all.

But for the current Ji Feng, what this man said would have been very useful, and he didn't expect to immediately move Zhou Shilin down, let alone think about wiping the Zhou family out of Jiangsu and Zhejiang, even if he wanted to do so, it wasn't something he could do right now.

After hearing this man finish, Ji Feng hummed and turned his gaze back to the male receptionist in the hotel overalls and asked, "So, do you think he's right?"

The man, however, immediately nodded and said, "Yes, what they said is correct."

"Then" Ji Feng smiled faintly and asked, "Don't you have anything to add?"

"What they said was already very detailed, more specifically, I don't know, after all, I'm just a small errand boy" the male receptionist immediately said.

Ji Feng, however, laughed: "It seems that you really look at me as a fool!"

The man was stunned and looked at Ji Feng with some confusion.

"Don't give me that look!" Ji Feng snorted coldly, "Don't you forget that we met this morning at Yuantai Mansion!"

The man's face immediately changed, he only thought about how to get out of it, but forgot that he himself was present when Ji Feng clashed with Zhou Shilin at Yuantai Mansion in the morning, and he was Zhou Shilin's bodyguard at that time!

"Now, do you have anything to add?!" Ji Feng asked indifferently. Although his tone was bland, his eyes were filled with murderous intent.

That male receptionist's face changed somewhat, and finally, after gritting his teeth, he finally said, "Zhou Shilin once forced himself on a female student in a clubhouse, resulting in a human life" At that time, I was responsible for handling the surveillance footage, because I knew too much about the matter and was afraid that Zhou Shilin would get murderous towards me, so I didn't destroy the footage completely at that time, but saved it to stay!"

Swish!

Ji Feng instantly lit up, like this, it's only a little bit interesting!

Chapter 569

"Where's the video?" Ji Feng immediately asked.

"It's hidden in the house where I live" The male receptionist immediately told the address where he lived honestly, not daring to hide the slightest bit.

Ji Feng smiled faintly and said, "Very good, very good!"

After a pause, he suddenly laughed, "If you were handed over to the police, do you think that Zhou Shilin would save you?"

These seven people's faces suddenly changed, Zhou Shilin was a thin-skinned person, they did not get the job done, and even sold Zhou Shilin out, how could they expect Zhou Shilin to save them? I'm afraid it was lucky that they were not silenced.

Especially the male receptionist, as Zhou Shilin's personal bodyguard, he couldn't have known Zhou's character better. If he wasn't worried that Zhou Shilin would get rid of himself at any time and silence him, he wouldn't have secretly kept the video of Zhou Shilin raping and killing the female student!

Now when they heard that Ji Feng was going to send them to the police, these people could not help but feel fear in their hearts, because if that was the case, what awaited them would definitely be Zhou Shilin's poisonous hand!

But they also knew that even if they pleaded with Ji Feng, the other party would definitely not let them go.

Even if they were in Ji Feng's shoes, they would definitely not let go of the person who tried to kill them, this was no longer some simple grudge, but they and the others were ready to take Ji Feng's life, it was strange that he would let them go!

"It seems that you guys also know that Zhou Shilin will not save you!" Ji Feng smiled faintly, he saw the look on these people's faces and knew the status of these people in Zhou Shilin's mind, "So, now I'm giving you a way to save yourselves, it's up to you to choose or not!"

"What road?!" No need for anyone to organize, these seven people already asked in one voice, whether it was a killer or a bodyguard, as long as they were not specially trained as killing machines since childhood, they would all have a fear of death, these seven people were no exception either, they were only a bit more powerful in their hands and mentally tougher than the average person, but when they encountered an interrogation expert like Ji Feng, they could only be led by the nose.

"What road?!"

Ji Feng chuckled and said indifferently, "It's actually very simple, later on when we get the evidence, I will let you guys go and won't order you to do anything, only that when the time comes, you guys provide me with some information about the Zhou family in the shadows, how about this condition?"

"You're asking us to be the inside man?!" That male receptionist's face was a bit unpleasant, "But if we don't succeed in killing you this time, we won't be reused after we return, and we won't be able to help you much!"

"That may not be so!" Ji Feng smiled: "Maybe you won't be reused in a short time, but there is always a day when you will be reused you can think about it, I have plenty of time tonight, no need to rush to give me an answer!"

He sat on a chair, leisurely took out cigarettes, lit one for himself, and threw the rest of the pack over, "If you want to smoke, take it yourself!"

None of the seven men moved first, they all fell silent.

They all knew very well that if they didn't agree to Ji Feng, they would definitely be sent to the police station, and what awaited them then would be Zhou Shilin's very spicy methods, and their fate would naturally be self-evident, they would definitely turn into a cold corpse, be thrown into the crematorium, and finally turn into a pile of ashes.

However, if they were to agree to Ji Feng's conditions, they had the same heavy concerns.

First of all, there were too many people who knew about it!

The six killers were deeply attached to each other and might not betray each other, but there was no friendship between the bodyguard and them, so if something happened, it was likely that they would be sold out!

And secondly, once they agreed to Ji Feng's terms, they would have the chance to be subject to Ji Feng in the future and be blackmailed at all times, and they might never have a chance to turn around in this life!

Ji Feng was not in a hurry, he just smoked beautifully and waited for these people's answers.

The time just passed by minute by minute, and Ji Feng did not speak, his cigarette had long since finished, at this time he was sitting on a chair, seemingly asleep.

The seven people who were still sitting on the ground at this time were getting more and more anxious in their hearts.

Especially the four of them whose wrists were pierced by the three-pronged military thorn, they were even more anxious. The three-pronged military thorn was too vicious, and there was a blood groove on it, which was specifically used for bleeding. These four men's wrists were directly pierced by Ji Feng with the military spike, not only did their bones hurt to the core, but more importantly, their blood flowed even faster, even though several of them had pinched their arteries, but the speed of this bleeding was really frightening!

These four men's faces were getting paler and paler, and their hearts were struggling even more.

Finally, they looked at each other for a few moments and all saw the helplessness and determination in each other's eyes, and immediately, they gritted their teeth and one of them said, "This gentleman, we are willing to be your inside man!"

"That's right, we are willing to be the inside man!" The other three followed suit.

"Very well!" Ji Feng nodded slightly, "I didn't force you guys to do this, but you agreed to do it yourselves!"

"....." These four people were about to break into a cussing fit, this wasn't even called forcing? But now the situation is not as good as others, so they have to bow down!

"Yes, we did it voluntarily, not forced by sir!" These four said bitterly, in front of Ji Feng, they didn't even have the slightest ability to resist, they could only nod bitterly and agree.

However, after they agreed, their hearts were instantly relieved, as if a big stone had just fallen down, and they no longer had any burden.

Apart from having to work for Ji Feng at a critical moment and being blackmailed by him, there was no harm, at least for a short time, in not having to die!

Although these few people were all outlaws as well, however, no one was willing to die for no reason, unless they were killing machines without the slightest bit of emotion.

“So, what about you three?!” Ji Feng asked with a smirk, “Of course, you all likewise don’t need to rush to answer, there are still a few hours before dawn, we have plenty of time!”

The four people before them cursed in their hearts, “You have plenty of time, but we don’t have much time, if we go on like this, even the blood bank will run out of blood!

Ji Feng seemed to know what these people were thinking, he took out a bottle from his pocket, took out a pill from it and handed it to the four people, saying, “You guys take this, it will slow down your injuries!”

The four men were somewhat skeptical, but now that Ji Feng did not nod, they could not leave even if they wanted to, so they could only take the pill and swallow it.

However, the moment the pill went down, they felt their spirits lifted and even the pain was alleviated. The four of them immediately looked at each other and felt amazed, what this man was giving them couldn’t be some kind of magic pill, right?

Just when Ji Feng and those four were having a leisurely conversation, the remaining three, on the other hand, were even more apprehensive. Especially the two remaining killers, seeing that their companions had already succumbed, they gritted their teeth and could only agree to do so.

“This gentleman, we also agree to your terms!” Those two assassins said at the same time.

Ji Feng nodded and smiled, “Good! You will soon know how wise your choice is!”

“This gentleman, I also agree to your conditions!” The male receptionist saw that everyone had agreed, so he finally couldn’t resist and could only grit his teeth and agree, he didn’t want to be the only one among the seven to be thrown into prison, and when the time came, even if he didn’t suffer from Zhou Shilin’s poisonous hand, he definitely wouldn’t end up in a good place!

Ji Feng laughed and stood up at once, took two steps to the window, pulled the curtain open a crack and took out a dv from inside, the light on it was faintly flashing, proving that the dv was working.

These seven people were immediately aghast in their hearts. They could never have imagined that Ji Feng had prepared a dv here beforehand, thinking that the whole of what had happened before had been recorded. In this way, even if they were able to run away, they would have absolutely nowhere to go by then!

Only at this time did they suddenly understand, no wonder Ji Feng had just said that they would know later how wise their choice had been!

Now it looked like the choice to agree to Ji Feng was indeed too wise!

“Boss, we’ve got the stuff” In the headset, Guo Tao’s voice suddenly came.

Ji Feng smiled faintly and asked, “Have you read the contents?”

“After a brief look, it’s the same as what the other party said, the main character inside the video is indeed the one we saw this morning, Zhou Shilin, very abominable!” Guo Tao said in a hateful voice.

Ji Feng gave a hint and said, “Then, good, you wait outside first!”

He turned his head to look at the seven people in the room and said, "Tell us your names, and contact information and such!"

"My name is Zhu Huaichun." That male receptionist immediately said, having seen Ji Feng's tactics, he finally had no more extravagant hopes in his heart and could only resign himself to his fate.

"Chen Fei"

.....

These seven people quickly gave their names and contact information one by one, but none of them dared to ask Ji Feng's name and contact information, they just waited for Ji Feng to give orders.

"Well, you guys can go now, what to say to Zhou Shilin, you guys can see for yourselves!" Ji Feng said indifferently, "But there is one thing, I don't want anyone else to come and disturb again tonight, this is kind of the first request for you guys, can you do it?"

"Can!"

Several people looked at each other and finally agreed with a grit of their teeth.

Ji Feng smiled faintly and said, "Go ahead!"

The seven people nodded their heads and took a look at the dv who was still working, finally letting out a long sigh in their hearts as they limped away.

Seeing these seven people leave, Ji Feng could not help but secretly sneer, Zhou Shilin was just a small grasshopper, not even on stage, Ji Feng wanted these seven people to go undercover for himself, what he was plotting was the whole Zhou's!

Of course, the current Ji Feng only thought of this step, as a backhand, but he could not imagine how important these seven people would be in the near future!

Chapter 570

"Boss!"

Guo Tao flashed in from the doorway, then immediately closed the door behind him and quickly walked in, lowering his voice and saying, "We got the stuff, this Zhou Shilin, he should be killed!"

His face was ugly, and the cold light in his eyes flashed with killing intent.

Ji Feng frowned slightly and shook his head: "Since it was Zhou Shilin who raped and killed a girl, the picture must not be very nice world family children, this is the well-dressed world family children, ah, underneath the surface of the beautiful and shiny clothes, hidden, but dark and rotten, disgusting!"

Guo Tao nodded with an ugly face, hesitated for a moment, but wanted to say something but stopped.

Ji Feng did not notice Guo Tao's expression, he directly took the flash drive Guo Tao handed over, inserted it into the computer and opened one of the video files.

At once, a surveillance screen appeared on the computer screen, and Ji Feng's face suddenly turned blue.

Through this surveillance screen, Zhou Shilin's face could be seen very clearly, and at this moment, his body was a little shaky, and he seemed to have gotten a little drunk.

He was frantically tearing a girl's clothes, that girl was desperately resisting, but she was steeply slapped to the ground by Zhou Shilin, in turn, he pounced, but was tickled by that girl, he went crazy

In the middle of the process, Ji Feng really could not watch it anymore, he directly pulled the video to the end, but saw that Zhou Shilin was panicking and getting off the girl who was not covered with an inch, even the crotch of that word was clearly visible, Ji Feng did not know whether he should praise the advanced of this security camera or should angrily curse, this damn camera let himself see such a disgusting picture!

Ji Feng's face had been completely gloomy stay, he saw on the screen, two more people came in from outside, then several people seemed to be discussing what to do with this matter until that girl's body was dressed and then thrown straight down from the window, only then did the screen finally stop

Bang!

Ji Feng violently stomped his foot on the ground, that wooden floor was actually split apart by his foot, and even the sofa next to it was pried!

Guo Tao was instantly shocked, his face suddenly changed colour, this foot of Ji Feng had such a terrifying power!

"Zhou Shilin, damn you!" The murderous intent in Ji Feng's heart was so thick that it almost burst his chest, his eyes shone with a cold light, "I can hardly swallow this grievance without killing Zhou Shilin!"

His chest rose and fell violently, the kind of disgust on this image was simply unbearable!

Guo Tao also nodded approvingly, yet he was a bit hesitant, he thought about it, but still said in a low voice, "Boss, Zhou Shilin seems to be very powerful in Jiangsu and Zhejiang, if we hand over the evidence directly now, I'm afraid we won't get any results!"

Ji Feng nodded, he lit a cigarette and took a few strong puffs before saying, "Yeah, not only will there be no results, by then the evidence that was there will probably be destroyed, even some of the witnesses will be silenced These people, who have no other skills, just kill to silence and play with conspiracy and trickery than anyone else!"

He shook his head slightly and said, "This matter, absolutely cannot be done in Jiangzhe, it must go somewhere else!"

"To Jiangzhou?!" Guo Tao asked.

"Jiangzhou won't work either!" Ji Feng slightly shook his head and coldly snorted: "Jiangzhe is not the jurisdiction of Jiangzhou, can not manage the things in Jiangzhe, at most, it can only be suggested to the top, and then the result is still the same Moreover, this matter we can not just make a decision so easily!"

There are many things that can't be done just because you want to, even if you take advantage of the right time, the right place and the right people, you still have to consider many factors, because Ji Feng doesn't represent an individual, but the Ji family. If he made a move, many aspects would be involved in him at that time, which was not what Ji Feng wanted to see.

In fact, Ji Feng sometimes preferred that he was not the first grandson of the eldest family of the Ji family, in which case he could act without fear.

But then again, if he wasn't the first grandson of the Ji family's eldest family, he probably wouldn't have that ability to manage this matter, and in many matters, he wouldn't even have the right to speak!

"Guo Tao, bring me a new flash drive!" Ji Feng said.

Guo Tao was stunned, and then nodded, "Okay!"

He immediately handed the flash drive he had bought back earlier to Ji Feng.

Ji Feng copied the video of Zhou Shilin raping and killing the schoolgirl onto another flash drive, and at the same time searched for the schoolgirl on the internet according to the name of the club Zhu Huaichun had mentioned.

However, he did not find the female student's detailed address.

"That female student, not from Jiangsu and Zhejiang, but from Wan Dong She's still my hometown!" Ji Feng's face was extremely ugly, a female student had been raped and killed just like that, but the internet had actually implemented information control, this was really

..... their lives and jobs, I'm still in charge!"

"Yes!" Guo Tao immediately nodded his head and said.

"The address on this is not exact, you let them ask around there, I believe that something like the daughter being raped and killed will definitely be spread around, it must be easy to find out right!" Ji Feng said, "Remember, as long as it's the family of this female student, bring it back to Jiangzhou must pay attention to the way and method, never let people be scared!"

"Yes!" Guo Tao answered.

"Wait a moment first" Ji Feng deliberated for a moment before saying, "No, just if Old Yi sends someone, there is still no guarantee that the parents of that female student will believe, it seems that there must be an official position to do so! "

He clenched his teeth and said, "Guo Tao, wait for the dawn, you go to the street light railing in front of the hotel or on the station sign, look for that small advertisement for a fake ID, wait for Lao Yi to send someone, then do a few documents, well just do the Jiangzhou Police Department's documents! "

Guo Tao was stunned: "Do fake IDs?!"

Ji Feng waved his hand and said, "Can't care so much now, we have to do special things!"

Guo Tao then nodded and responded, "Yes!"

“With the documents, we can convince them and then get them to Jiangzhou, although by doing this, I won’t be able to get justice for their daughter for the time being, but at least the safety of that female student’s family is guaranteed!” Ji Feng sighed lightly and said, “You go ahead and do it!”

“Yes! Boss!” Guo Tao nodded and immediately went to make the call.

Ji Feng looked at the video that was still being copied and couldn’t help but gently shake his head, “Zhou Shilin, you really deserve to die

“Knock knock knock!” The sound of knocking on the door suddenly sounded.

Ji Feng was stunned, then he grabbed the three-pronged military spike next to him and walked over quickly. He arrived at the door and asked in a low voice, “Who?!”

“Little Feng, it’s me, why was there so much noise in your place just now?” Xiao Changhe’s voice came from outside, “Is something wrong?!”

Ji Feng was instantly relieved, but he didn’t open the door, instead he laughed, “Uncle Xiao, you heard wrong, right? It was a sudden power outage just now, that’s why it was a bit noisy!”

“Oh! So that’s how it is!” Xiao Changhe said with relief, “In that case, then you should rest!”

Listening to the footsteps leave, Ji Feng then shook his head slightly and turned back again.

He sat in front of his computer and lit a cigarette, carefully deliberating, hoping that he could find a way to properly handle the case of Zhou Shilin’s rape and murder of the schoolgirl. He picked up his mobile phone, wanting to call his father to ask about it, but then he realized that it was late and his father had probably rested long ago, so he dismissed the idea for the time being.

“Boss, Boss Yi has sent his men off, a total of five men and three vehicles, all fully equipped, and they will be in Hangzhou at dawn!” Guo Tao walked over and said in a low voice.

Ji Feng nodded and said, “Good then, it’s getting late, you should also rest early.”

Guo Tao nodded, but did not leave immediately, but waited for Ji Feng at the side.

Ji Feng didn’t say much more, he just made two copies of the video and then saved the video from the dv into two copies of the flash drive as well, after doing all this, he let out a light sigh and said, “Let’s rest!”

.....

“Bastards! A bunch of rice buckets!” Zhou Shilin looked at the seven people in front of him with a grimace on his face and suddenly gritted his teeth, “What can a few of you bastards do?! Seven people, seven people, all armed, and you were actually cleaned up by one or two people?!”

Zhu Huaichun lowered his head, not daring to say a word, but in their hearts they were apprehensive, afraid that someone would tell them that they were Ji Feng’s inside man, in that case, Zhou Shilin could scrape them alive!

“Zhou, young Zhou, those two people are just too powerful, and no one knows how they are so alert!” Liu Fei said in a low voice.

“They’re armed too!” Another man also whispered.

“What are you saying? Ji Feng has weapons too?!” Zhou Shilin was stunned and subconsciously clenched his fist, it was that hand that was pierced by Ji Feng with chopsticks when he was in Yanjing

If in the morning at Yuantai Mansion, Ji Feng made a move on him again

Zhou Shilin couldn’t help but winced and said in a stern voice, “It’s cheaper for him today, all of you, get out of here!”

After everyone had left, he couldn’t help but grit his teeth and said, “A bunch of rice buckets, it pisses me off Ji Feng, I won’t let you go!”

.....

The next morning, Ji Feng got up early, now there was still a day before Xiao Changhe’s payment, yet he had to wait and could not act rashly.
