Chapter 621

Hearing the shout from outside the door, Wang Zhiqian's face instantly revealed a smug smile as he smiled triumphantly, "Mr. Han, see, if I leave, no one can guarantee that your pharmaceutical factory will not be harassed because of this, and if something goes wrong by accident, hehehe ....." "

"Even if I agree, do you still have the face to stay?" Han Zhong asked with a sneer.

"That's not right from Han Zhong, it's also good for the pharmaceutical factory if I stay!" Wang Zhiqian laughed heatedly, that look was completely like an old rascal, where was there any semblance of a person who was a manager?

Han Zhong nodded slightly and said, "What you say is also good, if you leave, there might really be hooligans to harass us ....." "

A wide smile appeared on Wang Zhiqian's face as Han Zhong finally gave in.

However, the next moment, Han Zhong was suddenly saying, "Fortunately, we were prepared! In order to avoid this kind of tailspin, and also to guard against shameless villains like you, we deliberately recruited a group of quality security guards, just to deal with those who hit the pharmaceutical factory ..... don't believe it, then let's go out together and take a look!"

He sneered and took out his mobile phone and dialed a number: "Do it immediately!"

As soon as his words fell, he heard the immediate thumping sound from outside, that was someone closing the car door.

Wang Zhiqian's face instantly changed as he hurriedly walked outside.

Ji Feng laughed, "Go together and see the fun!"

"What are you ..... ah-!" A miserable scream suddenly came, and the next moment, there was a booming shouting and bellowing sound that seemed unusually lively.

When a few people arrived at the entrance of the hotel, they were stunned to find that a dozen punks armed with steel pipes had come outside the door, looking vicious as hell.

However, four young men in security uniforms came from nowhere next to them. These men all had batons in their hands, and although there were only four of them, they rushed into the group of punks without fear.

The other three were even more fierce, the batons in their hands were like the scythe of death, those punks couldn't even swing a steel pipe before they were directly smashed down!

The four guards were like four tigers, while the punks were like bluffing jackals, without the slightest ability to resist in front of the king of beasts.

A dozen of the punks were lying on the ground, rolling and screaming with their hands clutching their bruised parts, the steel pipes in their hands had long since fallen to who knows where, each screaming in agony.

The four security guards, however, each tidied up their clothes a little and dressed neatly before quickly arriving at the door, the leader of which said loudly, "Mr. Han, these hooligans and thugs have all been subdued!"

Han Zhong nodded slightly and looked at Wang Zhiqian with a smirk, asking, "How about it, these security guards are not bad fighters, right? I wonder if there are enough of those hooligans and gangsters you know? If there are too few of them, it won't be enough for us security guards to clean up!"

"Yeah!"

Ji Feng also couldn't help but tease, "If there aren't enough people, there's no way to achieve the win-win situation that Manager Wang is talking about, I'm afraid Manager Wang can only go to prison to give orders!"

Wang Zhiqian's face turned blue for a while, but more than that, he was still afraid, how could the security guards in other companies have this kind of power, and how could they have such fighting strength? These were not security guards, they were even more powerful than ordinary police officers!

"Woo woo woo woo-!" In the distance, the sound of sirens finally came.

Wang Zhiqian's face turned even uglier, but a look of resignation flashed across his eyes.

"These industrial park cops, they're finally here!" Han Zhong couldn't help but snort coldly, instead of protecting the safety of these businesses and employees, the police in the industrial park were cowering for an old rascal, simply abominable!

Ji Feng, however, laughed: "You think too highly of them, I'm sure that the ones who came are definitely not the police from the industrial park police station, but the police from the city bureau that I called!"

"You called the city bureau?" Han Zhong was stunned.

"Yes!" Ji Feng nodded and hummed, "I found a lot of problems this time I came, there are problems in our factory, and the security of the entire industrial park is equally problematic. It's just as well that I have the time today, so I'll simply solve all the problems at once, so as not to leave any future problems!"

This time, through the matter of Wang Zhiqian, Ji Feng discovered that some of the systems of the Tengfei Pharmaceutical Factory, as well as many other aspects, were more or less problematic, and these, however, were never discovered before.

Ji Feng intended to use this opportunity to improve the company's system. Whether it is a company or an individual, he is not afraid of making mistakes, but what he is most afraid of is making mistakes and avoiding them, not willing to improve. Ji Feng never hides his mistakes, and when he makes a mistake, he will take stock of it and change it.

The company is the same!

"Let's go to the factory office and talk about it in detail!" Han Zhong gritted his teeth and said, "It's time to tidy up a bit, all the progress has been a bit fast this time, I believe there must be many places where mistakes were made, do you have time now, let's sort it out from the beginning!"

Ji Feng shook his head and said, "It definitely won't work with just one or two people, we need to recruit people, recruit some really experienced and competent people, use their experience, and then draw on the management system of a big company to work out a silly system suitable for the Tengfei Pharmaceutical Factory!"

"When will this take place?!" Han Zhong asked.

Ji Feng pointed at Wang Zhiqian, who had a deadly grey face next to him, and laughed, "Killing the chicken to show the monkey, even if we have to fire him, we still need to let him use some of his residual energy again, so let's use this matter with him to start with!"

Han Zhong immediately laughed; "It seems you are determined to make this bastard lose face ..... This is a really good idea, just drag him around the factory and let everyone come and see!"

Wang Zhiqian's legs went limp and he almost didn't fall head first to the ground, the look he gave Han Zhong was full of fear, this kid, was trying to treat him like a monkey for everyone to see ah, if he really did this, by then even if he came out of the police station intact, he would have become the laughing stock of everyone ah!

This idea is outrageously vicious!

"You, you guys ....." Wang Zhiqian's lips were trembling, his eyes full of fear and resentment.

Ji Feng, however, shook his head slightly and said, "Want to say thank you? Don't rush first, I didn't say I was going to adopt his suggestion ..... In fact, even if we were to drag you to the parade, the police wouldn't agree to it, after all, it's not in line with the rules!"

Wang Zhiqian's heart finally let out a slight sigh of relief, fortunately this kid was not that vicious.

The corners of Ji Feng's mouth pulled up a slight arc, cold intent flashed in his eyes: "Han Zhong, you immediately notify all the employees in the factory who know Manager Wang, give them two hours' leave, tell them to gather in the open space in front of the office, and say that there is something to announce ..... As for this Manager Wang of ours, take him over Organize his own things, you can walk slower on the way well, so big open space, enough for everyone to see his appearance clearly ....."

Wang Zhiqian's eyes went black, his legs went limp and he fell headlong down the steps in front of the hotel.

"Manager Wang! Manager Wang—!" Xie Pingping was immediately shocked and rushed down to help Wang Zhiqian up, "Manager Wang, are you okay?"

But Wang Zhiqian didn't say a word, he just fell limp on the ground, unwilling to get up.

Ji Feng sneered, "Unless you crash to death on the steps now, otherwise, you can't escape the fate of being pulled over and paraded through the streets, I'd like to see if you have the courage to crash to death here or not!"

Wang Zhiqian's hand shook, his face was pale and he looked at Ji Feng with resentment, looking at that look, he simply wanted to eat Ji Feng alive.

“Since you don’t have that courage, just sit there honestly and wait for me!” Ji Feng snorted coldly as he held his arms and stood at the entrance of the hotel waiting for the police to arrive.

Han Zhong threw over a cigarette and lit it separately with Ji Feng, smoking it slowly, but in reality, he was very annoyed in his heart, what this bastard Wang Zhiqian had done simply made him lose face!

Ji Feng saw what he was thinking and laughed: “Don’t think too much, it’s the first time you and I are in control of such a big factory, and there are many things inside and outside that you have to worry about, so it’s harder than heaven not to make mistakes, just learn slowly, no need to rush!”

In fact, from the time he agreed to help Ji Feng manage the pharmaceutical factory, he had always wanted to do as well as possible, but he never thought that something would go wrong, which made him hold a fire in his heart, but he had nowhere to vent it!

Ji Feng smiled and patted his shoulder, saying, “Take your time, there’s no need to rush, we have nothing else, but time!”

Han Zhong nodded more or less sullenly, “Don’t worry, I won’t let off steam!”

Ji Feng and Han Zhong chatted casually, while Xu Yuan and Liang Chunhui and Ji Xiaoyu stood at the back, all looking a little dumbfounded.

Xu Yuan, in particular, quietly poked Liang Chunhui’s arm, “I say, this relative of yours, what exactly is his origin? Even General Manager Han talks to him carefully, this is too scary, isn’t it?”

Liang Chunhui smiled faintly and said, “He, ah, the whole Tengfei Pharmaceutical Factory is owned by him! Who do you think he is?”

“.....” Xu Yuan opened her mouth wide and stared blankly at Ji Feng’s back, not uttering a single word for a long time.

At this time, no one cared about Wang Zhiqian, who was limp on the ground, his face as white as a dead dog, and Xie Pingping, who had a terrified face.

It’s just that others will be somewhat shocked when they see the dozen or so punks lying on the ground screaming .....

## Chapter 622

When Ji Feng and Han Zhong, together with the police, arrived at the new factory building of the Tengfei Pharmaceutical Factory, the employees in the pharmaceutical factory were shocked to see that Wang Zhiqian, who had been the sales manager with a great reputation, was now handcuffed.

Some of the senior management of the pharmaceutical factory were also shocked, how come Mr. Han had suddenly gone after Wang Zhiqian?

There were also a few people who knew Ji Feng and were even more shocked in their hearts that this was Ji Feng, the big boss, going after some of the top brass of the pharmaceutical factory?

At Ji Feng's suggestion, the police officers from the city bureau brought Wang Zhiqian to the flat ground in front of the simple house, and the rest of the employees gathered in the open space.

"Everyone!"

Han Zhong stood on a truck in front, holding a loudspeaker he had gotten from the construction site, and exclaimed, "Everyone, you have all seen these police cars, right? That's right, I called these police officers, and there's also the manager of our pharmaceutical factory's sales department, Wang Zhiqian, in here!"

There was a flurry of discussion among the employees below, and they all couldn't help but look at Wang Zhiqian who was sitting in the police car.

"Everyone must be curious as to why someone is being arrested, and a manager at that!" Han Zhong's face sank as he said, "The reason is actually very simple, this manager, Wang Zhiqian, used the name of the pharmaceutical factory to defraud the public, saying that he could guarantee that he could get the other party to reach an agreement with our pharmaceutical factory, but that he needed a benefit fee and a public relations fee ..... Everyone knows what's going on, right? "

Those employees at the bottom, then it dawned on them, so that's how it is!

"This kind of behavior, already constitutes a crime, and it has caused great damage to the pharmaceutical factory's reputation!" Han Zhong snorted coldly, "Everyone can think about this, such things are always happening, how will others look at our pharmaceutical factory, and who will dare to cooperate with us in the future even if we want to carry out external business?"

"Yes, this Manager Wang is indeed acting in a very unethical manner!"

"Isn't that how people are nowadays? They start playing tricks when they have a little power!"

"Wang Zhiqian has always been like this, who in the sales department doesn't know it, only no one dares to say anything ....." the one who said this sounded like someone from the sales department.

"No wonder the old boss is going after Wang Zhiqian ....."

Although all these employees are talking, most of them are gloating or curious, but do not have enough intuitive feelings, because they are not weak in their hearts, and they do not have half a feeling of fear.

In fact, in private companies like this one, most of the employees are only here to work, they are only responsible for working and getting paid, and they only talk about what decisions the boss of the company makes or who he is dealing with, but they don't care too much.

They would only be concerned about the decisions made by the boss unless they were closely related to them.

"Bringing Wang Zhiqian here is to tell everyone that they should never do anything that damages the company's image and interests, otherwise, if they make a small mistake, they will be dealt with by the company's rules, but if they act like Wang Zhiqian, they will have to use the law to speak!" Han Zhong said coldly.

The people at the bottom looked at Wang Zhiqian, who had a miserable face in the police car, more or less still had palpitations, and they nodded subconsciously.

“Of course .....”

The icy look on Han Zhong’s face gradually disappeared and was replaced by a faint smile, “If you all do your best to work for the pharmaceutical factory and make achievements, the company will not ignore it, in a word, what should be rewarded will definitely be rewarded, and when it comes to punishment, we are definitely not soft .....”

“This guy, really has the aura of a big company boss now .....” Looking at Han Zhong, who was standing in the car and speaking, Ji Feng couldn’t help but smile slightly, he was growing, and everyone around him was growing too, which was good.

“Third brother, you guys are amazing, you’re just a little older than me, and you’re all actually the oldest president of the company!” Ji Xiaoyu couldn’t help but say in admiration.

Ji Feng smiled and said, “It’s all forcing out!”

Ji Xiaoyu couldn’t help but smile cheekily, “Third brother, you’re joking again!”

Ji Feng laughed but didn’t say much. In reality, only he himself understood that he had indeed been forced into his current state.

Whether it was his previous troubled life or being forced by the intelligent brain in the Super Agent Training System, thus playing hard to get training, the result was that step by step, he had come to this point now.

During this process, Ji Feng didn’t know how many times he thought about giving up, especially the painful training in the training system, which was unbearable for Ji Feng.

But with the supervision of the intelligent brain, it was impossible for Ji Feng to be lazy, so he could only grit his teeth and persevere!

This is what led to the subsequent series of events and what Ji Feng is today!

“Chunhui .....”

Ji Feng slightly shook his head, put aside these thoughts, turned his head to look at Liang Chunhui, smiled: “You work in the pharmaceutical factory, I will not give you too much care, everything can still only rely on yourself, but as long as you make achievements, naturally do not need to say much!”

It is natural to use one’s own people, to use people you can trust!

This has always been the case since ancient times.

Just imagine, Wang Zhiqian, the manager of the sales department, could use his power to use the name of the pharmaceutical factory to go under the table to make money, not to mention others? What about those finance staff who hold the financial power in their hands? What would they do if they got other ideas?

Ji Feng had not heard much about financial staff escaping with donations, there were just too many of these types of things.

It's easy to understand why many private enterprises have ended up becoming so-called family businesses, with both large and small positions in the company being given to family members or close ones, even if these people have six out of seven knowledge about business matters, and the rest is one, these bosses have never hesitated!

It's not that they like to use people in the family who don't know how to run a business, but because, apart from these people, they don't know who to trust!

Even if these family members were also horribly greedy and became assholes in the company, these company bosses, would still turn a blind eye, instead of saying that they would give it to outsiders to roll all the money away, why not give it to their own family members!

In fact, these so-called own people, in fact, over time, will become the most terrible assholes in the company, many companies have been destroyed in the hands of these assholes, but many bosses would rather trust them than outsiders, which makes people very helpless.

"Boss, I came to work here because in the pharmaceutical factory, I was able to make the things I learned in college work and have good practice, of course, it would be a lie to say that I wasn't thinking of moving up, but it's not like all my thoughts are pounced on it!"

Liang Chunhui shook his head and laughed: "Moreover, frankly speaking, this idea of yours is very undesirable, the pharmaceutical factory to develop and grow, it must not be a family business, otherwise, people like me, who have been given shelter by you, will flaunt their power outside, and will probably become the assholes of the pharmaceutical factory!"

"You're quite frank, aren't you!" Ji Feng lost his smile at once.

"Because if I want to work in the Tengfei Pharmaceutical Factory, I must be frank, I am still young and don't want to be a moth!" Liang Chunhui said bluntly.

Ji Feng looked at him, nodded and smiled, and said, "Then, everything will be according to the rules, if you do a good job, you will be promoted, if you don't, you will get out! When the time comes, whether you get promoted or leave, it will depend on your performance!"

"That's the best!" Liang Chunhui laughed.

Ji Feng couldn't help but nod and smile too.

"You studied sales in college?!" Ji Feng suddenly remembered something and asked.

Liang Chunhui nodded and said, "On paper, it's called a marketing major, but in fact, to put it bluntly, it's sales! Just learn some more theory, in the actual work, those theories are not very useful, at most, they can only help to understand, the rest can not help anything!"

"University, it's all about learning with a big grin and mixing it up sloppily!" Ji Feng chuckled.

Liang Chunhui also followed and laughed, "That's true!"

Ji Xiaoyu said at the side, "Third brother, you were also like this in college, right? See if I don't go back and tell Eldest Uncle!"

"You girl!" Ji Feng laughed and slapped her on the head, the little girl discontentedly knocked Ji Feng's hand away, "Nasty, it's messing up my hair!"

Ji Feng burst out laughing and said, "Let's go, let's not stand here, go wait in the office!"

Liang Chunhui laughed, "I should also go back to work!"

Ji Feng deliberated for a moment and couldn't help but nod, saying, "Good then, I hope I'll hear good news about you before too long!"

Subsequently, Han Zhong publicly announced the dismissal of Wang Zhiqian, as well as the director of the salvage recycling department, and at the same time, Xie Pingping, who had an ambiguous relationship with Wang Zhiqian, was also dismissed.

Not many employees in the factory knew about the relationship between Wang Zhiqian and the director of the salvage recycling department, but none of them seemed surprised about the ambiguous relationship between Wang Zhiqian and Xie Pingping, as if they already knew about it!

It must be said that Chinese people are most curious and gossipy about such matters!

Wang Zhiqian was handed over to the judicial authorities and Tengfei Pharmaceuticals also sent a lawyer to represent him and sue him for causing great damage to the reputation of Tengfei Pharmaceuticals.

Xie Pingping left in disgrace, her academic qualifications were originally forged and she was not qualified to be recruited by the pharmaceutical factory, forming a fraud. Han Zhong did not hesitate to deduct all her wages that had not yet arrived, and she did not get a single penny except for those months' wages that had already been paid.

After the incident, Han Zhong and Ji Feng immediately started to improve the system, since they found the problem, they had to correct it immediately.

Of course, the development of the system, not a day or two to complete things, and either Han Zhong or Ji Feng, in this area is not particularly professional, so the two decided to hire a special company combined with the actual situation of the pharmaceutical plant, to do a new system.

For these matters, Ji Feng still grasped the big picture, leaving the specific matters still all to Han Zhong.

Han Zhong is holding a fire, although his mouth does not say, but his heart is clear, this time if not done well, he really will not have the face to stay in the pharmaceutical plant.

## Chapter 623

After handing over the matter of improving the system of the pharmaceutical plant to Han Zhong, Ji Feng only made a few general comments and then let Han Zhong go.

In fact, in these few months, Ji Feng has been devoted to the construction of the pharmaceutical plant and the network company, and he has seen Han Zhong's ability in management.

It was indeed abominable that someone took advantage of the flaws in the system of the pharmaceutical factory, but it did not show that Han Zhong's ability was faulty, because at that time when the system was being formulated, it was Ji Feng and Han Zhong who drew on some of the rules and practices of the Han Group, plus listened to the opinions of several newly recruited senior executives, so they roughly formulated a set of rules and regulations on the basis of some of the original systems of the pharmaceutical factory.

As for how effective this set of rules and regulations would be, Ji Feng had no idea in his mind, and Han Zhong also had no idea in his heart.

If a company wants to operate smoothly and develop rapidly, it must have a set of rules and regulations that are suitable and effective for the company, but the pharmaceutical factory is just starting out, plus the system they have developed has never been tested and is only in the trial stage, so problems are inevitable.

So it is absolutely unreasonable to put Wang Zhiqian's problems down to Han Zhong's management skills.

A successful and excellent manager does not mean that he has to be good at everything, let alone proficient in everything, but that he only needs to put the right people into the right positions so that they can make the most of them and create the maximum value, that is an excellent manager!

And a set of effective rules and regulations, only as an auxiliary tool for managers, so that employees work more vigorously, or let employees dare not slack, of course, not to beat the company's ideas!

The system is indeed very important, but it has little to do with Han Zhong's ability.

A mature set of rules and regulations can only be finalised after a series of trials and tribulations!

Ji Feng and Han Zhong naturally understood this point, so the two of them did not say much on this issue, but only focused on if a better set of rules and regulations was formulated. As for whether it was wrong or not, Ji Feng never cared about it, just like what Little Uncle said, there is no human being who does not make mistakes.

Ji Feng and Han Zhong were sitting in a small conference room, discussing which planning company to hire to make a reasonable set of development plans for the pharmaceutical factory, while Ji Xiaoyu was playing on the computer in Han Zhong's office, with the sound of construction faintly coming from outside.

"Ji Feng, I've heard of some of these planning companies in Jiangzhou, but I'm afraid it will take at least a month or two to get them to come over and help with the planning!" Han Zhong was a bit hesitant, "Moreover, whether the system they develop can adapt to the development of the pharmaceutical factory, it's not even easy to say yet!"

Ji Feng nodded and said, "This is indeed true, but the two of us don't know how to plan, and we don't know how to develop, so just relying on the two of us to make any rules and regulations here, this can be somewhat unrealistic ..... you can also see, this matter of Wang Zhiqian, is the evil result of the two of us messing up! "

Han Zhong immediately shook his head and laughed: “How can this be messy, it’s completely touching the stones to cross the river!”

“It’s all the same thing!”

Ji Feng said bluntly, “In fact, I think that those so-called planning companies offer some kind of tailor-made service and make plans for other companies, this is all a bit unreliable! It’s better for us to draw up our own plans!”

“You still want to do it yourself?!” Han Zhong was stunned.

“Get it done yourself!”

Ji Feng knocked on the table and said, “But instead of the two of us working behind closed doors, we’re going to get the entire factory staff involved and make it together!”

“Ji Feng, have you got some more ideas? Or are you just having a brain fever?” Han Zhong frowned and asked, “If you let the employees get involved, then I’m afraid that the rules and regulations they make can’t even be read! Just talking about commuting, they even dare to think about starting work at ten in the morning and finishing at three in the afternoon, believe it or not!”

Ji Feng immediately laughed, “Don’t be in a hurry, just hear me out!”

He paused a little before continuing, “In fact, my idea is very simple, since we have formulated this set of rules and regulations for all employees, let them all participate in it. A thousand, that’s what you propose, then, you fail to complete the task, I’ll fine you a thousand!”

“Well! This is a bit interesting!” Han Zhong’s eyes lit up and he nodded in approval, “They can also offer to work at ten in the morning, not to mention working eight hours a day, they can work only one hour, as long as they can complete the tasks given to them by the company! Otherwise, there will be a corresponding punishment!”

“Actually, punishment is just a means, not our ultimate goal!” Ji Feng shook his head slightly and said, “Our ultimate goal is for the pharmaceutical factory to develop quickly ..... In fact, you don’t have to worry about the employees making any excessive demands, it’s very simple, you just have to tell them that along with any demands you make, you also have to propose punishments! They will naturally consider it seriously, unless they don’t want to work here for a long time!”

“That ..... would be a rather novel idea!”

Han Zhong deliberated, “Only, if the employees alone put forward their opinions, the system finally formulated will definitely deviate, although at this stage is certainly suitable for the development of the pharmaceutical plant, but from a distance, this may not be reasonable ah!”

Ji Feng nodded slightly and deliberated for a moment before saying, “Let the staff participate first, we can state first, but we accept all reasonable opinions, at the same time, we can also ask real experts to help and finally shoot the board!”

“Real experts?” Han Zhong couldn’t help but laugh, “Are there any real experts now?”

“Of course there are!”

Ji Feng couldn't help but lose his smile, "The few old professors in the management department of Union University are still very insightful and capable, professors in schools in general are still very different from the experts in society!"

It's true that in this age where experts are everywhere and professors are as numerous as dogs, it's true that there are no longer many experts that we can trust, but no matter what age it is, there are also always people who can concentrate on their studies, and such people are now either in research institutes or in schools!

And although schools are no longer as pure as they once were, and their students are no longer innocent, there are still true experts and scholars, more or less!

There are some real experts and scholars at the University of the Union, which is a nationally renowned institution, though not many, but there are still some! The Department of Management is one of the better majors at Union University, and there are a few scholars in there who are truly talented.

Han Zhong deliberated for a moment, finally nodded and said, "Well then, let's give it a try first according to your idea, and hope we can achieve good results!"

Ji Feng smiled, "It doesn't matter even if it fails, we have enough time to grow! If it really doesn't work, then we'll hire professional executives, in a word, as long as we can make progress, it's good!"

"Well then, we'll build the plant at the same time as the construction of the company's structure, and I hope, the company's structure will be completed ahead of the plant!" Han Zhong couldn't help but scratch his head and said, "We also have to start training some senior people that we can trust, as well as being responsible for coordinating the cooperation with the Tianyao Group ....."

Ji Feng smiled apologetically, "Han Zhong, sorry for keeping you busy with so many things ....."

Before he could finish his words, he was interrupted by Han Zhong.

"I was just joking, in fact, I originally thought that I would only have the chance to control a company with over a billion dollars in assets on my own after I turned thirty, now I am busy but fulfilled, well, by the way, I still have to find time to go to class ....." Han Zhong rambled on, but Ji Feng listened with a heartfelt smile.

The rest of the work is still left to Han Zhong, and Ji Feng also received a call from Xiang Yongzheng at this time, so he drove away with Ji Xiaoyu.

Ji Feng first sent Ji Xiaoyu back home and let Xiao Yuxuan and Tong Lei play with her, while he himself then went to the Southeast Military Region in Jiangzhou again. In the lobby of the guest house, Ji Feng once again met Xiang Yongzhan in military attire and Xiang Yurou in camouflage, and of course, the playful Ji Shaolei.

What surprised Ji Feng was that the relationship between Ji Shaolei and Xiang Yurou seemed to have gotten a step closer, which was evident enough from the demeanour on their faces, as well as their slightly intimate gestures.

"Second brother, you're here too?" Ji Feng asked with a smile.

Ji Shaolei instantly laughed, "Are you surprised that I'm here?"

He winked and reached out to put his arm around Xiang Yurou's shoulders and he laughed heatedly, "Third child, see, brother has gone one step further!"

Ji Feng was stunned, "You guys have fought before?!"

Seeing Ji Shaolei nod, Ji Feng couldn't help but laugh bitterly, "Second brother, you're still in a genuine hurry! With your current stature ....."

He looked at Xiang Yurou, who was wearing camouflage clothing, and couldn't help but shake his head slightly. Although Ji Feng had not fought with Xiang Yurou before, he had seen Xiang Yurou's simple strikes, and her athletic hands had left a deep impression on Ji Feng.

According to Ji Feng's speculation, the current Ji Shaolei was not a match for Xiang Yurou at all!

"Third child, you underestimated brother again, didn't you?" Ji Shaolei asked with a heated smile.

"You won the fight?!" Ji Feng was stunned.

"Thanks to your blessing!" Ji Shaolei said smugly, "A small victory!"

"Come on, don't show off!" Xiang Yurou gave him a blank look.

Ji Feng then lost his smile, he believed that it must be because Xiang Yurou had deliberately let Ji Shaolei win, otherwise, now Ji Shaolei was definitely not Xiang Yurou's opponent!

That's not bad, the love of a man and the love of a concubine! Ji Feng smiled in his heart!

## Chapter 624

"Cut the crap, come and sit down over here!"

For Ji Shaolei's smugness, Xiang Yongzhan was very unimpressed, he stared at Ji Shaolei's hand that was wrapped around Xiang Yurou with unkind eyes and coldly snorted, "Nonsense so much, go and stay where it's cool, don't get in the way of me and Ji Feng talking here!"

"Brother~~!"

Xiang Yurou's pretty face reddened slightly as she glared at her big brother Xiang Yongzhan.

But as if he didn't see it, Xiang Yongzhan turned his head directly to Ji Feng and said, "Let's go over there and sit down and talk!"

Ji Feng smiled faintly and said, "If my second brother doesn't sit down, I wouldn't dare to sit down first!"

You can refuse to give face to your second brother, Ji Shaolei, but I, as a younger brother, can't refuse to give face, and what's more, if you treat Ji Shaolei like this, I naturally won't give you face!

Sure enough, Ji Shaolei nodded imperceptibly, hehe smiled and said, "Third child, it's better to go over and do it, second brother I am a person who can't sit still, moreover, I have to take your sister-in-law out to play, there is something you two can talk about!"

When speaking, Ji Shaolei deliberately said the word 'sister-in-law' very heavily, the intention is naturally to say to Xiang Yongzhan to hear, to give him eyes on the medicine.

Xiang Yurou gave Ji Shaolei a white look and said, "Just you can, don't go yet!"

Ji Shaolei laughed and waved his hand at Xiang Yongzhan, saying, "Eldest brother, we're leaving first!"

"Hmph!"

Watching Ji Shaolei leave with his sister in his arms in a smug manner, Xiang Yongzhan couldn't help but snort coldly, pointing at their backs and saying to Ji Feng, "This second brother of yours, you just deserve a beating!"

Ji Feng said with a wry smile, "Maybe in a while, it will be his turn to say that!"

"Are you that sure that you can make Ji Shaolei beat me?!" Xiang Yongzhan looked at Ji Feng in amazement.

Ji Feng, however, only smiled faintly and said, "You don't need to set my words either, what I taught him is that same set of body-building exercises, only that in order to be able to marry his wife, he practiced harder, so he improved quickly!"

Ji Feng knew very well that Xiang Yongzhan had never died, he had always wanted to get the method that could make people stronger quickly from his own hands, but how could Ji Feng admit that he had such a method? There were a lot of things that could be done, but could not be said.

"It seems that you still don't agree with my previous proposal?!" Xiang Yongzhan frowned and asked, "Ji Feng, is it possible for you to give a painful sentence, I don't have that much time to wait for you on my side!"

"Can you tell me something specific, like where the target of this operation is and how long it will take or something like that!" Ji Feng asked.

"I won't tell you without signing the confidentiality regulations and if it's not one of my own!" Xiang Yongzhan immediately shook his head and refused, "If you want to know, you have to follow the regulations!"

"I wouldn't dare to sign it if you don't make it clear to me!" Ji Feng said with a bitter smile.

Xiang Yongzhan frowned and asked, "Then you shouldn't ask. However, just asking you to help train a group of warriors so that they can become strong quickly is enough, is that hard? Do you need to ask so clearly?!"

Ji Feng didn't answer immediately, but thought carefully for a moment before asking, "Then, what if I want to act together with you guys? Shouldn't that be clear enough to ask?!"

"What?! You want to participate!" Xiang Yongzhan was stunned.

Ji Feng nodded and said, "That's right, if it's just a small operation, I can participate, but I have one condition, let the Red Arrow Brigade also send some of their men to participate in this operation, those men have good bases and are slightly more familiar with me, so it's easier to get along!"

This was the decision made by Ji Feng after deep consideration.

Since Young Uncle Ji Zhenping said that he would let himself make the decision, Ji Feng had to be thorough in his consideration. However, he was not too clear about some of the things at the top, but there was one thing he was very clear about: if there were benefits, we should all come together. Even if this operation was not considered a good thing, but both sides acting together was like joining forces for a small time, which obviously had a good effect on enhancing the relationship between the Xiang family and the Ji family.

In Ji Feng's opinion, since the Ji family, the Xiang family and the He family are the three main families, it should be a good choice to pull one family to fight another, or focus on pulling one family to slightly enhance the relationship with the other family.

Because in terms of the pharmaceutical factory, Ji Feng is responsible for production and the He family is responsible for sales, so the He family is dealing directly with the Xiang family, and whether any foul play will arise in the middle, who doesn't also know. At least, in this aspect, the Ji family and the Xiang family do not have much intercourse, because there is still a He family in between!

Now that there is such an opportunity to enhance the relationship between the Xiang family and the Ji family, Ji Feng is certainly not willing to miss it.

And most importantly, Ji Feng felt that he still needed to grow up, and the battlefield was the best catalyst for growth!

In the past, Ji Feng had been trained in this area countless times in the super agent training system, but he had not had a chance to spend time there. Of course, it would probably be very cruel too!

"Ji Feng, is this what your little uncle instructed you to say?!" Xiang Yongzhan asked with a frown.

"Yes or no, just give a straightforward and painful sentence!" Ji Feng laughed.

"It seems that it wasn't your little uncle who instructed you to do so, I guess so, although there are quite a few male members of your family who are not competitive, but even if they are no longer wimps, it's not so bad as to let you go to war!" Xiang Yongzhan seemed to be speaking to Ji Feng, and also seemed to be talking to himself.

After a pause, Xiang Yongzhan asked, "Ji Feng, going out with me is not a tourist tour, but a real fight with others, one bad thing, you may lose your life, this matter, you'd better discuss it with your family again!"

"I will naturally discuss it with my family, but I need to ask about Mr. Xiang's attitude first, otherwise it would be a waste of time to ask!" Ji Feng smiled faintly.

Xiang Yongzhan couldn't help but be silent, and for a moment, he surprisingly didn't know how to answer Ji Feng.

Although Xiang Yongzhan was big-hearted, but this was just a result of his personality, he had no less than one heart. Otherwise, he would not have become the third generation leader of the Xiang family.

What he wanted was for Ji Feng to help make his men stronger and to learn body-building exercises so that he could promote them to the whole army. In the previous military competition, the soldiers of the Red Arrow Brigade were so strong that they stunned the whole army.

Since then, the reason for this sudden outburst of the Red Arrow Brigade has become the focus of many people's attention. And the Xiang family, as the mainstay of the military, was naturally even more concerned.

If the political world is where the Ji family's energy lies, and the business world is the He family's foundation, then the army is the Xiang family's fortress. However, these three families are not independent of each other, but each is slightly involved in all circles. For example, the Ho family has heavyweights in politics in addition to the business circle, and the Ji family likewise has considerable power in the business circle.

The Xiang family also has a strong presence in the business and political circles, but this is far from enough.

The main development direction of each family is still different.

Under such circumstances, if the Ji family suddenly exploded in the military and spread its tentacles throughout the army, what would be the point of the Xiang family's existence in that case?

Naturally, the Xiang family would not allow this to happen, so obtaining a method that would allow people to become stronger quickly was one of Xiang Yongzhan's objectives this time.

The reason why he came directly to Ji Feng instead of going to the Ji family to negotiate was actually because they were both young people, and the Xiang family and the Ji family had always been not too far away from each other, so Ji Feng certainly could not refuse. And will not be like those old foxes of the Ji family, taking advantage of the opportunity to ask for a price.

And in order to prevent Ji Feng will teach a hand to keep a hand, Xiang Yongzhan this is why he proposed to let Ji Feng help, first let a group of his men become strong, in this case, Ji Feng even play foul, but also can not hide from his eyes.

However, Xiang Yongzhan did not expect that Ji Feng would actually offer to follow along in the operation!

If Ji Feng followed himself and something went wrong during the operation, by then the relationship between the two families might instantly drop to a freezing point, and it was not impossible to even trigger a fight between the two families!

For that old man of the Ji family, even the old man of his own family, when he was still alive back then, would give him a thumbs up, and even once said that old Ji had only later changed from military to politics, otherwise, the number one family in the military should be the Ji family!

From this, one could see how formidable the old man of the Ji family was.

If something happened to Ji Feng, under the thunderous wrath of Elder Ji, even the Xiang family would have to have a headache.

Naturally, Xiang Yongzhan would not take that risk!

Making up his mind, Xiang Yongzhan said: "Let's do this, as long as your family agrees, my side is naturally fine ..... let your youngest uncle communicate with my father! After all, according to your terms, the Red Arrow Brigade will also have to send someone to participate, it's better for both sides to communicate beforehand!"

Ji Feng then nodded and smiled, "How many more days can you stay in Jiangzhou?!"

"I can still stay for two days! No matter what the final result is, I will wait for your news!" Xiang Yongzhan said, "If your little uncle can make a phone call to my father, that would naturally be better!"

"I guess I will!" Ji Feng nodded and smiled.

He understood what Xiang Yongzhan meant, as long as little uncle called Xiang Yongzhan's father, then if anything happened during the operation, it wouldn't have much to do with him, Xiang Yongzhan. And in this way, Xiang Yongzhan could also get the method to make people stronger quickly, killing two birds with one stone, why not?

The two finally agreed to a certain extent, and both of them could not help but feel more relaxed.

Xiang Yongzhan raised his cup and smiled, "I don't usually drink, but today I'll make an exception, cheers!"

Ji Feng laughed, "I think there will definitely be many opportunities to drink together in the future, cheers!"

The two of them looked at each other and could not help but smile...

Chapter 625

"An agreement was reached between you and Xiang Yongzhan?!"

Little Uncle Ji Zhenping's stunned voice came over the phone, "Did you propose this, or did Xiang Yongzhan propose it?!"

Ji Feng laughed, "I brought it up, Little Uncle, is there any problem with it?"

"It's not that there's any problem, except that the decision you've made is very surprising to me." Ji Zhenping said.

Surprised?

Ji Feng couldn't help but be a little surprised, did he say that Little Uncle already knew about his participation in the operation?!

As he was being surprised, he heard Little Uncle say, "I originally thought that you would at most only agree to teach Xiang Yongzhan body-building exercises, but I didn't expect that you would actually ask for a joint effort between Xiang Yongzhan and the Red Arrow Brigade, Little Feng, you might not know what this means now, if it was in the past, the Xiang family would definitely not agree to it!"

Ji Feng couldn't help but be a little puzzled, this really hadn't occurred to him, at the time he made this decision, he was actually thinking that if there were any benefits, everyone would come together, and if

there were any disadvantages, they would likewise come together, as long as they were acting together, the relationship between the Xiang family and the Ji family would definitely be enhanced quite a bit.

But now it seems, it seems that this decision of their own, or very classy well!

“Little Uncle, besides proposing that Xiang Yongzhan and the Red Arrow Brigade join forces for this mission, I also made a request .....” Ji Feng hesitated and said, “I proposed to take part in this operation!”

“What did you say?!” Ji Zhenping was stunned, “You want to take part in this operation?! Are you kidding?!”

Ji Feng laughed bitterly, “Little Uncle, I really wasn’t joking, when I met with Xiang Yongzhan yesterday, I did make this request, only, he didn’t agree, but said for you to give his father a call!”

“Nonsense, of course he wouldn’t dare to agree to it straight away!” Ji Zhenping snorted coldly, “You are the first grandson of my Ji family’s eldest family, would he dare to just make up his mind about your affairs?”

Ji Feng nodded with a smile and said, “That’s true.”

“Have you figured out the purpose of Xiang Yongzhan’s action this time?” Ji Zhenping asked somewhat helplessly.

“Not yet!” Ji Feng laughed.

“You kid .....” Ji Zhenping shook his head helplessly, “You haven’t even figured out the purpose of this operation and you’re proposing to participate, isn’t that a bit too reckless?!”

Ji Feng laughed: “Little Uncle, no matter what the objective of this operation is, in general, if Xiang Yongzhan can participate, then I must be able to as well, unless what he wants to do is something that endangers the country, but I think if he really wants to pull it indiscriminately, you guys will definitely not agree to it either .....”

“You brat .....” Ji Zhenping cried and laughed, Ji Feng was actually lecturing him about axioms, “You wait first, I can’t make the decision on this matter, I have to ask the old man!”

After saying that, Ji Zhenping hung up the phone directly, he couldn’t help but shake his head and cursed, “This kid, it seems that he has really grown up!”

In fact, Ji Zhenping was more or less caught off guard by this decision of Ji Feng’s.

How could he have not expected that Ji Feng would actually make such a decision, something that was extremely unexpected even for him?

In fact, the reason why he had to let go of Ji Feng to talk to Xiang Yongzhan was to see Ji Feng’s ability to adapt and his outlook on the big picture, but Ji Zhenping did not expect that not only did Ji Feng make the request for Xiang Yongzhan to cooperate with the Red Arrow Brigade, but he actually offered to participate in the operation himself!

This was really a bit out of Ji Zhenping’s expectation, and equally out of Ji Zhenhua’s expectation.

One must know that although Ji Feng had shown extraordinary abilities in the past, this military operation was not like the usual petty fights, a bad one could kill people!

Ji Feng had never participated in any operations before, but now he was rushing to participate in this operation led by Xiang Yongzhan, the danger involved could be imagined.

Other people might not be clear about it, but Ji Zhenping, as the military chief of the Red Arrow Brigade, could not be clearer about this operation of Xiang Yongzhan's. This kind of operation of a small team, in fact, was far more tragic than even some large-scale military operations.

Even in many large scale wars, there is only a move of high-tech weapons, or a few fights between you and me, or at most a tentative exchange of fire.

After all, in the modern world, it is very difficult to have any large-scale wars anymore.

But this small group of troops is acting very differently!

Not to mention the fact that the state can't give its strong support to such small units when they are on a mission, and it's not even clear whether the state will acknowledge such an operation if the mission fails.

This also means that, in many cases, those who take part in such operations may not become martyrs even if they die, and the state cannot, at least in the open, go about publicly honouring these people.

This is the limitation of local operations, and it also means that such small-scale operations will be far more tragic than some large-scale military operations.

Without the support of the state, those who take part in the operation will have to fight each other to the death if they want to complete their mission and return alive.

In addition, there will be many unexpected difficulties during the operation, it is far from being as simple as going on a trip!

Although the previous Ji Feng had a fierce temperament, he had never seemed so aggressive!

Ji Zhenping couldn't help but feel a little headache, it seemed that this matter was something that he had to consult the old man, even his elder brother, Ji Zhenhua, didn't dare to make the decision easily, because Ji Feng was not only his son, but also the eldest grandson of the Ji family, this was something that couldn't be done in a sloppy manner.

"This brat, he's just going to give me a hard time!" In the Red Arrow Brigade's office building, Ji Zhenping couldn't help but scratch his head. He stood up, took his guards back to Yi, and headed straight for the quadrangle where the old man was.

The other side of the phone, Ji Feng, is also helplessly shaking his head, his identity is often a great help, but sometimes, it can also become a constraint, making it impossible to let go.

For example, this time, if he was not the first grandson of the Ji family, but just a sidekick, I think he would not have said anything if he asked to join the war with Xiang Yongzheng, but at most he would have been concerned, but would not have stopped him.

This is not to say that the old man and the youngest uncle do not attach importance to the side line, in fact, Ji Feng can see that in the old man's heart, the side line is also very important, otherwise, with what the side line did before, how would the old man let them off so easily?

According to Ji Feng's understanding, this should be a priority to cultivate the first-born children in a situation where the family's resources were limited.

But if Ji Feng is really just a side line son, it is obvious that he will not be given enough attention again, and will likewise feel a lack of heart in many things .....

So this identity of the first grandson of the eldest family really has both benefits and drawbacks, and cannot be generalized.

The first grandson of the first family is obviously a stumbling block for Ji Feng in the matter of participating in the operation of the Xiang Yong War.

In fact, Ji Feng didn't have to take part in this operation, it's just that since as well as it was brought up, he always had to fight for it, only by seeing the cruelty of the battlefield with his own eyes would he be able to grow up quickly, wasn't it!

"I hope the old man can agree not to!" Ji Feng shook his head slightly, but in his heart he did not hold much hope, with the old man's profound and unpredictable character, he did not know if he would let himself participate.

Putting the phone away, Ji Feng took a deep breath to calm himself down, no longer thinking about these issues, and walked out of the study with big steps.

He came to the living room and found that Ji Xiaoyu was talking to Xiao Yuxuan and Tong Lei, about something, and looking at the smiles on the three of them, it was obvious that they were still in a very happy mood.

"Third brother, so you used to be so cute!" Once she saw Ji Feng come downstairs, Ji Xiaoyu giggled and said in a delicate voice.

Ji Feng instantly frowned, "I see the few of you talking so happily, you can't be talking about me no?!"

"Yes!" Ji Xiaoyu giggled, "Sister Yu Xuan and Sister Lei Lei are talking about when you used to be in high school oh! It's really cute!"

Ji Feng's face was suddenly full of black lines, when he came into this little girl's mouth, he actually became cute?

Ji Feng was cute?

Xiao Yuxuan and Tong Lei are also full of laughter, Xiao Yu this little girl is really some childish look, to say that whether in the past or the current Ji Feng, are not half related to cute not?

"Little girl, no more talking about others' rights and wrongs behind their backs!" Ji Feng coughed lightly, his face sank and feigned anger.

“Hee hee .....” Ji Xiaoyu was not afraid of him at all and laughed delicately, “Third brother, when you were chasing Sister Lei Lei in the past, you didn’t dare to speak up, right? Now you can’t see it at all!”

“Ahem .....”

Ji Feng fiercely glared at Yu Xuan and Lei Lei, and directly turned around and went upstairs, his previous self, indeed, was a bit silly, but being given a straight face by this girl Xiao Yu, Ji Feng’s face was still a bit unbearable.

And Xiao Yuxuan and Tong Lei these two are also really, actually everything with Xiao Yu said .....

However, when you think about the time when you used to go to high school, but it is also worth remembering ....., especially the process of yourself and Lei Lei from meeting to becoming lovers, it is worth remembering.

I will definitely spank them later on in the evening to see if they dare to talk badly about themselves behind their backs in the future.

When he came to the study on the first floor, Ji Feng habitually opened the computer and scanned the surveillance screen to make sure that there was no problem with any of the cameras before he turned off the computer.

It was already Ji Feng’s habit to check the guard facilities every day.

“This kind of guard device is enough to deal with ordinary intruders as well, but if the one who comes is an expert who is on par with or even more powerful than oneself, it will be somewhat insufficient .....” Ji Feng looked up at the ceiling and secretly said. “The third floor is also idle now, it is better to install all the guard devices, maybe in critical moments, it can play an unexpected role!”

## Chapter 626

The villa had a total of three floors, but all along, Ji Feng, Xiao Yuxuan and Tong Lei had lived on the first floor, and apart from a few guards who had lived there when their mother came before, the third floor had almost never been occupied again.

Unless it was every morning when he got up and saw the ceiling, Ji Feng would remember that there was still a floor above the villa.

Because of the simple European style, there were two less rooms on the third floor than on the first floor, only three rooms in total. If one of the rooms was used for a surveillance room, I believe it would be better!

The only disadvantage of this is that it is not too easy to get up and down, and if there is any emergency, it will take a few seconds to get from the bedroom to the third floor. Don’t ever underestimate these few seconds, within these few seconds, it was enough for a lot of things to happen.

Moreover, in Ji Feng’s heart, there was actually another hidden worry, and that was the killers in the dynasty!

Dynasty ah!

Ji Feng felt a sinking feeling in his heart just thinking about it, depressing some very uncomfortable.

Not to mention anything else, just the dynasty's technology that turned all human bones into metal and could even directly separate human limbs was enough to give Ji Feng the chills.

He believed that a transformed person like that definitely possessed extremely strong combat power!

Although Ji Feng had once rammed the car of a Dynasty assassin in front of the Flavour and Fragrance Residence on Jinling Road in order to save He Hongwei, thus driving into it, directly killing those two assassins in the violent impact, which also included that Transformer assassin from Dynasty.

Yet, it cannot be said that Dynasty's assassins are not strong in combat.

In fact, anyone with a little bit of brains would know that if the reformer was not a strong fighter, there would be no need for Dynasty to go to all the trouble. There are many drugs in this world that can stimulate human potential, and although some of them have great side effects, for an organisation like Dynasty, the lives of those killers underneath may not be so valued!

Instead of going to the trouble of extracting human bones and replacing them with metal bones, it would be better to take some drugs to stimulate the potential of the body, which would also be very powerful in battle!

But instead of such a group, the dynasty was dedicated to transforming people, so this shows what kind of power transformers really have!

That's why Ji Feng never dared to take Dynasty's reformers lightly, let alone take Dynasty, an organization hidden in the darkness, lightly!

Then, he had to do his best to be foolproof, or at least, not to let those around him get hurt!

In the past, it was not that Ji Feng had not thought of getting a special monitoring room on the third floor, but at that time, he thought that he would usually be at home and would not go out easily, plus it was difficult to get a lot of equipment, so he shelved this plan for the time being, and after a long time, coupled with other distractions, he put it off.

But now it's different, Ji Feng thinks he will most likely go to participate in this operation led by Xiang Yongzhan, still don't know how long he will go out, before he goes, naturally he has to solve the safety problem of Yu Xuan and Lei Lei first, otherwise, even if he goes out, he will be uneasy, it's better not to go out!

"Dynasty ....." Ji Feng couldn't help but shake his head slightly, up to now, there weren't many encounters between him and Dynasty, but every time, it seemed to be crucial, for example, the first time he came into contact with Dynasty as an organization was at a crucial moment when the other side was going to assassinate He Hongwei.

The second time, on the other hand, was in the Royal Club in Yanjing, which was tantamount to discovering one of Dynasty's strongholds in Yanjing.

This last time, it was in a sparring session with Dynasty, both sides were striving to find the piece of intelligent program that Ji Feng speculated about, only that up to now, Ji Feng hadn't had much luck, Wang Xin and Yang Yu, with such brilliant technology, hadn't even found any traces yet!

Ji Feng vaguely suspected that the thing had already been retrieved by Dynasty's. It was too late for him to do it himself!

If Ji Feng's suspicions were true, then, these three encounters between him and the Dynasty's could be said to be one win, one loss, and one accidental encounter, with no win or loss.

And this, while the Dynasty was dealing with the He family, and those who fought with Ji Feng were all minor minions!

How could Ji Feng not be extremely wary of the Dynasty?!

"What exactly is the purpose of this mysterious organisation?" Ji Feng hugged his arms, looked at the ceiling and decided to start setting up immediately, even though a lot of equipment was lacking now, it was better to set up than to do nothing at all.

He first went to a loft on the third floor, cleaned it up, and then made a general plan, thinking about what equipment would be needed in it and how it should probably be arranged if the loft was to be used as a surveillance room, and then wrote it down one by one with notes.

According to Ji Feng's plan, this attic should not only be made into a monitoring room, but also a general control room. From here, all the guard devices and attack devices inside and outside the villa could be controlled, and the computer in the bedroom on the first floor could be connected to this room, and as long as the program was set, the guard devices could be controlled both in the attic and in the bedroom on the first floor.

In this way, the attic becomes a control centre and the computer in the bedroom acts as a sort of switch.

The advantage of this arrangement is that, on the one hand, it ensures that if something goes wrong with one of the controls in the bedroom or the attic, the villa is not overwhelmed and the guards are not paralysed.

On the other hand, the bedrooms are much quieter and more comfortable to live in without the need for equipment.

Finally, on the first floor, all the bedrooms that are occupied can be controlled, which makes it easier for Yu Xuan and Lei Lei to operate.

Of course, Ji Feng never doubted the attacking power and effectiveness of the device, because, for every device in this, he would personally install it! How effective it was, he knew better than anyone else.

After doing all this, Ji Feng went downstairs, said hello to Xiao Yuxuan and Tong Lei, and then went straight to the pharmaceutical branch plant.

Ever since the new plant of the Tengfei Pharmaceutical Factory started construction, Ji Feng and Han Zhong and the others called the original pharmaceutical factory a branch plant, and the new plant that started construction was directly called the pharmaceutical factory, or the main pharmaceutical factory.

In fact, before starting construction, Ji Feng took Xiao Yuxuan to make a record with the relevant department, so in order to differentiate, both the employees of the pharmaceutical plant and Ji Feng and others called the two plants according to the names on their licenses.

Ji Feng's trip to the branch factory was actually just to find Yi Xingchen. Many of the equipment that Ji Feng needed were in stock in the security department of the pharmaceutical factory, and those that were not, would have to be figured out again.

At the same time, Ji Feng went to Wang Xin and transferred two computers from the network company, he had to make sure that he could manipulate all the guard devices in every room on the first floor of the villa.

The new factory was under construction and everything was already on track, so Ji Feng took advantage of the free time to rearrange the villa inside and out.

As for some of the equipment that is more demanding and not available on the market, we can only wait for our younger uncle Ji Zhenping to call us, hoping to get some of it from him first.

Although this hope is not very big, but Ji Feng still want to make an effort, after all, military equipment in general in terms of performance must be over, this is also Ji Feng valued, otherwise, he simply buy some parts to assemble it himself.

Just as Ji Feng was busy, in a courtyard in Yanjing, Elder Ji held a walking stick in his hand, knocked twice on the ground and cursed with a laugh, "This little monkey, he really can't be bothered!"

Standing in front of Elder Ji was the elder's third son, Ji Zhenping.

At this moment, when Ji Zhenping listened to the old master's words, he could not help but shake his head and smile bitterly, saying, "Father, then you say this matter ....."

"It is right to make contact with the Xiang family!" The old master said indifferently.

Ji Zhenping said with some hesitation, "Father, Little Feng is only so old now and he is going to war, this ....."

"What's that?"

Elder Ji hummed and said, "Back then when I first went to war, I wasn't as old as little monkey, didn't I also follow Tai Zu and fight the island devils out?"

Ji Zhenping could only nod, but in his heart he secretly laughed bitterly, thinking, "What was the situation then, and what is the situation now? How can we compare? But you were just a kid at that time, you could only help with logistics, could you really fight the devils with real weapons?"

But he didn't dare to say this, otherwise, the old man's crutch hadn't been knocked for a long time, he didn't want to set a precedent!

"This world, is not peaceful, if little monkey wants to achieve something, he must experience things that others have not experienced, do things that others cannot do, cannot do, as for safety, you don't have to worry, other people's children can go to war, can't the boss's children go to war?"

Elder Ji said forcefully.

“Father, but if it’s true .....” Ji Zhenping didn’t know what was wrong with the old man, he loved Xiao Feng so much, how could he advocate letting him go to war too?!

The battlefield, is that an easy place to go?!

“If something really goes wrong and your big brother wants to blame it, let him blame me!” Elder Ji said.

Ji Zhenping nodded with a bitter smile, it seemed that this matter was set in stone, just what should I tell big brother?

“Old Third, you have to remember, without actually going to war, you will never be able to understand, what cruelty is!” Elder Ji said, “These things, are what little monkey should experience, he took the initiative to ask to go to war, he is very good .....”

Little monkey is very good!

Ji Zhenping couldn’t help but be secretly staggered, the old man had never given such a high rating to any younger sons and daughters .....

Chapter 627

“It’s almost done .....” Ji Feng looked at the device in the attic and nodded in satisfaction, “The only beauty of it now is that some of the important parts are still missing, and little uncle hasn’t called, so he must still be discussing with grandpa and father .....” Why don’t we try to find the second brother?”

“Ding .....” Ji Feng’s phone suddenly rang.

He took out the phone and found that it was second brother Ji Shaolei calling, he couldn’t help but smile, this was really a brotherly connection, he was just about to look for him, and he ended up calling the phone right away.

“Second brother, what a coincidence that you called, I was just about to look for you!” Ji Feng picked up the phone and laughed.

“You know all about it?!” Ji Shaolei asked, “You kid, hurry up and take care of things, what’s this like!”

Ji Feng couldn’t help but be stunned and asked in amazement, “Second brother, what do I know?!”

He was going to call his second brother, Ji Shaolei, that was to ask about the equipment, because he hadn’t waited for his youngest uncle’s call, so Ji Feng was just thinking if he could get some equipment at his second brother’s place, or ask him to ask his connections to help him get some equipment. He had always been in Jiangzhou all these years and had a much wider social circle than Ji Feng. But now, listening to the meaning of his words, it seemed that there was something else going on. “You don’t know? Then why are you calling me?!” Ji Shaolei was also a bit baffled, “OK, it seems that we are not talking about the same thing, how about this, you hurry up and hit the entrance of the family courtyard of the municipal party committee to get rid of Hu Xuehui, I’m kind of afraid of her .....”

“Hu Xuethui?!”

Ji Feng was immediately a little surprised and asked, "Second brother, how is this involved with her again? What the hell is going on, you say something clear!"

"If I knew what was going on, why would I call you?" Ji Shaolei said, "I hadn't even gotten home yet after I separated from Yurou today, when I heard the doorman say that someone was looking for me, but before I could ask who it was, Hu Xuehui appeared out of nowhere and stopped me, insisting on finding you!"

"She went looking for you?!" Ji Feng's eyebrows instantly furrowed, Hu Xuehui ..... If Second Brother hadn't mentioned it, Ji Feng would have almost forgotten that he ever knew this woman!

In fact, since the last time he met at the Spring River Flower Moon Night Club, Ji Feng had never run into this woman again, and in the days that followed, he had almost completely forgotten about this woman, so how come she popped up again now?

"Nonsense!"

Ji Shaolei said in a good-natured manner, "San'er, just come and take a look, I can't do anything with her, I asked the security guards to drive her away, but she wouldn't leave, if it wasn't for the security guards pulling her, I guess she would have knelt down ..... The family courtyard in front of this noisy, like what, you hurry over and get her out!"

"I'm coming over!"

Ji Feng's face sank and he immediately said.

The two of them are no longer in contact with each other, and it is impossible to have any more contact with each other, so why is she still coming to find herself?

The woman's heart was even more furious, what the hell is this woman doing? It wasn't enough for her to mess with herself, she had to go to the family compound to cut into the face of second uncle?

"What's going on here, Third Brother?!" Looking at Ji Feng hurrying out, Ji Xiaoyu couldn't help but be a little puzzled, "..... He seems to be very angry!"

Xiao Yuxuan and Tong Lei both looked at each other and also felt very strange, in the past Ji Feng had never behaved like this, even if he was angry before, he would tell himself and the two of them what was going on before he went out, how come this time was so strange?

"Maybe there's something wrong with the pharmaceutical factory!" Tong Lei said.

Xiao Yuxuan laughed, "No matter where the problem is, we'll know when he comes back and we ask about it ..... Xiao Yu, come on, let's continue playing the game!"

"Mm!" Ji Xiaoyu nodded and her attention returned to the computer screen once again .....

.....

Outside the gate of the Jiangzhou Municipal Committee's family compound, Ji Shaolei stood in front of the entrance post, helplessly looking at Hu Xuehui who was standing outside the gate with a forlorn face, he couldn't help but frown slightly.

“Hu Xuehui, it’s a bad influence for you to stand outside the gate like this, not to mention I also told you that the person you are looking for, doesn’t live here, you are looking in the wrong place .....” Ji Shaolei said in a deep voice: “If you still want to make such a scene, the guards can only send you to the security room, you are already affecting the normal life of the residents of the family courtyard like this!”

Hu Xuehui, however, just shook her head firmly and said, “Mr. Ji, the only place I can look now is here, I don’t know where I can find Ji Feng, but you surely know, so I can only come here .....”

“Ji Feng doesn’t live here!” Ji Shaolei’s voice was low as he interrupted her, “You’re being unreasonable!”

“I know that I’m causing you a lot of trouble by doing this, but I have no other way, Mr. Ji, can you please help contact Ji Feng, I’m looking for him, it’s really urgent!”

Ji Shaolei’s eyebrows furrowed and furrowed again and said, “How about this, I have just called Ji Feng, he should be here soon, now you come with me first and wait in the car, is that okay?”

For this woman who had humiliated his brother before, Ji Shaolei really did not have any good feelings, if not for the bad influence, he simply wanted to ask the guards to throw this woman out, as far as possible, so that he would never have to see this gold-digging and stupid woman again, and his mood would be much more comfortable.

But now not only the guards at the door, but even the people who had passed by here before himself knew that she had come to see the surname Ji, and if he did that again now, the repercussions would be too bad, and if the old man found out, it would be strange if he didn’t break his legs!

“Really?!” Hu Xuehui, however, as if she had found a savior, looked up at Ji Shaolei in a panic, “Mr. Ji, did you really contact Ji Feng?!”

“Do I have to lie to you?!” Ji Shaolei snorted coldly and said unhappily.

Hu Xuehui’s face turned white, but then she panicked and thanked him anyway, “Mr. Ji, thank you!”

But Ji Shaolei waved his hand directly and said with a bland expression, “There is no need to thank me, if you hadn’t stalked me, I wouldn’t have done this ....., Frankly speaking, I don’t have any good feelings for you, I only did this to get rid of you as soon as possible!”

Hu Xuehui was instantly embarrassed beyond words, but she knew that what Ji Shaolei said was the truth.

Given her status and the things she had done, no matter what angle she was in, Ji Shaolei would not be half as kind to her, and it would be extremely generous of him not to deal with her!

Of course, Hu Xuehui also knew that with her own status, she could not be in the eyes of others, and even if she wanted them to, she did not have that qualification!

“Come with me!” Ji Shaolei said in a deep voice, then he walked directly towards the door, pulled the car door that was parked outside the door and sat on it.

Hu Xuehui followed behind Ji Shaolei with some trepidation, but finally did not dare to take the initiative to get into the car, but walked to the front of the car and stood there honestly, not even daring to say one more word.

“Come on up!” Ji Shaolei said impatiently, “If you stand there, you can be seen as well! Count me as begging you, give our old Ji family less trouble and bring us less humiliation, okay?!”

Hu Xuehui’s face turned red as she lowered her head and sat in the passenger seat.

Ji Shaolei’s heart was greasy as hell, this woman was also really stupid as can be, she could simply make people break down!

“How did you remember to come to my place to look for Ji Feng?” Ji Shaolei lit up a cigarette and asked indifferently. He didn’t have the habit of not smoking when a lady was present, in fact even if he had this good habit, but when he saw Hu Xuehui present, he would deliberately take out a cigarette and light it up.

“I, I heard our manager say that you are the son of a senior city official, and I saw that when you and Ji Feng went to the club that day, he called you brother, so ……” Hu Xuehui said cautiously.

Ji Shaolei couldn’t help but coldly snort, “I said what’s going on, it turns out it was that woman from Spring River Flower Moon Night who sold me out!”

To say that Ji Shaolei’s memory was not particularly good, but for a woman like Hu Xuehui, his impression was particularly deep, when he first saw Hu Xuehui at the Spring River Flower and Moonlight Night club, Ji Shaolei took it to heart.

“What do you want from Ji Feng?!” Ji Shaolei asked again, “It’s not like you still want to break the mirror with him, right?”

Looking at the undisguised sneer on Ji Shaolei’s face, Hu Xuehui’s face was red and hot, so embarrassed that she wanted to find a crack in the ground.

She bit her lips tightly, unable to stop the tears of embarrassment and humiliation from welling up in her eyes.

“Don’t do this, it’s useless for you to shed tears in front of me, I advise you to answer my questions honestly, I’m not Ji Feng, I’ll be coaxed by your casual words!” Ji Shaolei said nonchalantly.

Hu Xuehui’s nose was even more sour, tears pounded and fell, but she bit her lips tightly, not daring to cry out.

Ji Shaolei was also more or less uncomfortable, in fact he was not a person who could be ruthless, especially for women, he was even less ruthless, but when he thought of the things this woman had done before, the insult to San’er, his face could not help but be gloomy, the hint of compassion that had just risen, also instantly disappeared without a trace!

“Alright, alright!”

Seeing that Hu Xuehui kept dropping her tears, Ji Shaolei impatiently waved his hand, “If you have anything to say, it’s better to wait for Ji Feng to come!”

After Ji Shaolei finished speaking, he directly turned around and got out of the car, and the electronic key in his hand was gently pressed.

Bang bang bang bang!

The electronic locks on the car doors inside all opened automatically, trapping Hu Xuethui in them.

Hu Xuethui immediately panicked and shouted, "Mr. Ji, you, what are you doing? Quickly let me out!"

Ji Shaolei stood outside the car and said unhurriedly, "If you still want to come out, shut up!"

Seeing Ji Shaolei's cold eyes, Hu Xuehui couldn't help but shiver, but no longer dared to scream, but only asked in some panic, "Mr. Ji, you, you are ....."

## Chapter 628

"And you don't need to panic, I won't do anything to you ..... For a woman like you, I don't want anything to do with it either! What's more, I don't have that interest!"

Ji Shaolei brushed aside his mouth and said, "You wait in the car first, when Ji Feng comes, I will naturally bring him to you!"

.....

Ji Feng drove his car and sped away.

He raised the speed of his car to the maximum speed limit, and had been taking a detour, bypassing all those slightly busy and congested roads, and had been

The roads he took were all the outer ring roads.

The news that Hu Xuehui had gone to the family home of the municipal party committee to look for herself caught him off guard, and then he was deeply angry.

Had this woman gone mad?

It was not enough that she had humiliated herself, but now she had come straight to the family home of the municipal party committee.

The first thing you need to do is to get a good idea of what you are doing.

The first thing you need to do is to get rid of the problem, and you can even say that you have completely forgotten about this person, even if you still

The first thing you need to do is to get a good idea of what you are getting into.

In Ji Feng's heart, Hu Xuehui once occupied an extremely important position, however, all of this was completely shattered on the first day of senior high school.

However, all this was completely shattered on the first day of senior year. Since then, Ji Feng had hated Hu Xuethui and himself, until later, Ji Feng did not hate anyone anymore.

He completely forgot about this experience. Even if he couldn't forget it all at once, he chose to turn a blind eye to it.

But in reality, deep down in his heart, Ji Feng still hated Hu Xuehui.

It wasn't because of any other reason, just one thing that Hu Xuehui had done once that made Ji Feng unable to let go of it even now when he thought about it.

Ji Feng remembered very clearly that it was the winter vacation of his senior year of high school, when he went to sell vegetables on the street with his mother and ended up meeting Hu Xuethui and her sister and brother-in-law.

husband.

At that time, his mother had been humiliated!

Ji Feng had it engraved in his bones!

It was because of this that Ji Feng was completely coldhearted towards Hu Xuethui.

Now, Ji Feng was able to completely let go of his feelings and was not sad or happy, no longer thinking about Hu Xuehui's actions, which was already extremely generous.

.

Ji Feng would rather be humiliated himself than to have his mother mocked and looked at in disdain.

But Hu Xuethui had touched Ji Feng's bottom line!

Told others that Ji Feng was an illegitimate son, a wild child, and looked at Ji Feng with contempt countless times after the breakup .....

This uninformed woman, with her ignorance and stupidity, provoked Ji Feng again and again. But only that one time, is really let Ji Feng engraved

The only one that really made Ji Feng remember it in his heart.

The car was driving fast on the road, but Ji Feng's face was expressionless, and those things in the past were like a movie playing in Ji Feng's mind one by one.

The past events flashed through his mind one by one, making him laugh coldly in his heart.

"Since we are already strangers, why do we need to come to me again?" Ji Feng secretly sneered in his heart.

Ji Feng had decided a long time ago that anything he did would no longer have anything to do with Hu Xuehui, and if, at some point, the two sides really stood on

If one day, both sides really stand on a hostile position, Ji Feng will definitely not show mercy, because first of all, the two of them are already strangers, and now they have become enemies, so how will Ji Feng be soft on his enemies?

How could Ji Feng be soft on his enemy?

Hu Xuehui was not of this opinion, otherwise she would not have come to Ji Feng.

So Ji Feng found it strange that Hu Xuehui had done something like that before, how could she still have the face to come to herself now?

If it was him who had done those bad things to Hu Xuehui, not to mention going to Hu Xuehui, even if he just suddenly remembered the name Hu Xuehui at a certain moment, he would have come to his heart.

Even if he suddenly remembered the name Hu Xuehui at a certain moment, he would be ashamed of himself and even have cold sweat all over his body.

“How can a person be so thick-skinned as this!” Ji Feng couldn’t help but shake his head slightly, secretly wondering, as a person, one should always have

Some dignity, right, if even the most minimal dignity of being a human being is gone, then what is the meaning of this person living?

Ji Feng really can’t understand!

In fact, if it wasn’t for the fact that Hu Xuehui went directly to the entrance of the family compound of the municipal party committee, Ji Feng wouldn’t have gone to see her even if he knew she was looking for him.

The fact is, if it wasn’t for the fact that Hu Xuehui went straight to the entrance of the municipal party committee’s family home, even if Ji Feng knew she was looking for him, he wouldn’t have gone to see her. It would be better not to see her at all!

“This woman is also direct enough, actually going to second brother’s place to look for herself, this is forcing the palace!” Ji Feng laughed coldly.

He is not a person who likes to be pinned down by others. If Hu Xuehui dares to use this method to force herself out, then she must be prepared to pay the price!

He had to be prepared to pay the price!

From the time he got the intelligent brain until now, Ji Feng had never been tricked by someone and then didn’t return the favor, never!

This time, it was no exception!

The car was fast, so half an hour later, the family compound of the municipal party committee was already in sight, and the black Mercedes Benz of the second brother, Ji Shaolei

also appeared in Ji Feng’s field of vision.

Ji Feng inadvertently glanced at it, but he couldn’t help but frown slightly.

“There is a person in the car, it seems to be ..... Hu Xuehui?!” Ji Feng couldn’t help but be a little surprised, “Why did she go in the car? Second brother treats her is

not also too good some?!”

In Ji Feng’s opinion, this is also just a stranger, why do you need to invite her to sit in the car?

What's more, now she is still harassing herself and second brother, don't lose to sit, to give her a place to stand is already considered to be affordable to her.

Ji Feng secretly snorted coldly and drove the car over, stopping at a place about a few dozen meters away from the Mercedes.

After parking the car at the roadside, Ji Feng dialed his second brother Ji Shaolei's phone number.

"San'er, you're here? Have you seen my car?" Ji Shaolei asked directly.

Ji Feng nodded and said, "I saw it, I say, second brother, this is not like your temper, why did you even invite her into the car?"

"

"Bullshit!"

Ji Shaolei said indignantly, "Can I not invite her into the car? Can I just let her stand at the door and sell her face? Everyone who comes in and out of here knows me.

If word gets out, our family's reputation will be really bad."

"That's true!" Ji Feng couldn't help but laugh.

"All right, don't be poor with me either!" Ji Shaolei waved his hand and said, "I also saw your car, you can just get out and go there.

I'm at the guard post at the entrance of the family courtyard, when you get to the car, I'll open the door directly by remote control.

If you have anything to say, you can walk farther away and talk slowly, or you can drive my car away!"

Ji Feng deliberated for a moment and said, "Then I'll drive the car away!"

"That's fine, the car can also be controlled with fingerprints, you go over there! Remember to leave your car keys in your car, in case I need to use the car it's also convenient for a

Remember to leave your car keys in your car, in case I need to use the car it will be convenient!" Ji Shaolei said. When Ji Feng came, he was finally relieved, and it was much easier to talk.

Ji Feng complied and left his car keys in the car before he closed the door, but did not lock it.

He then walked towards Ji Shaolei's Mercedes.

Hu Xuehui, who remained inside the car, also saw Ji Feng, who was striding towards her. She first had a happy face and opened her mouth just to speak, when she saw Ji Feng

That ice-cold look, at once, not a word could come out.

"Chirp!" A sound of the electronic lock opening sounded, Hu Xuehui was instantly startled, now she was like a scared bird, with

The slightest movement could make her heart jump and she was scared to death.

Ji Feng had already arrived at the Mercedes-Benz, he directly pulled open the door, sat in the driver's seat, pressed his fingerprint, started the car, and then quickly left the family courtyard of the municipal party committee.

The family compound of the municipal party committee left quickly.

Ji Feng was not too familiar with this area, so he just drove the car to a small alley nearby and stopped.

Turning off the car, Ji Feng casually lit a cigarette and didn't even glance at Hu Xuehui, but only said indifferently: "Now you have one minute

If it's something good for me, I'll say thanks first, but if you still want to humiliate me, or

If it's something good for me, I'll say thank you first, but if you still want to humiliate me or use it to justify your existence, then I'm sorry, I'll use my methods to show you how terrible the consequences of doing so really are!

"

Hu Xuehui's eyes turned red, originally, this sturdy man with a cold and calm face should have put his arm around her shoulder and whispered

But because of her previous ignorance, he didn't even look at herself, and even had a strong

He even had a strong sense of wariness towards her.

Hu Xuehui felt uncomfortable in her heart!

But she also knew that she and Ji Feng were really from two different worlds, and there would be no more interactions between them.

But when she thought of her sister, Hu Xuehui could only hold back the extreme humiliation and remorse of escaping through the door and took a few deep breaths, trying hard to calm herself down!

She took a few deep breaths and tried to calm herself down!

"Ji Feng, I know you must hate me very much, in fact I also hate myself ....." Hu Xuehui sighed lightly with a gloomy expression, but was immediately

interrupted by Ji Feng.

"If you came to me just to say this, you can leave now, I don't have that much time to accompany you in your sickless moaning!"

"....."

Hu Xuehui immediately just choked, her heart was miserable, the current Ji Feng, not even interested in talking to himself anymore?

I still remember that in the past, he never listened to himself enough, every time he took his own hand, he would talk endlessly, completely without the eyes of others

The other people's eyes did not see him as mute and inferior.

But now .....

This is all self-inflicted!

“Ji Feng, I came to you this time to seek your help, I don’t know .....”

“Not interested!”

Ji Feng’s cold words directly interrupted Hu Xuehui’s words, “Hu Xuehui, remember for me, I will definitely not help you, and you in the future

And don’t come to me, if you dare to resort to such tactics and play such petty cleverness like today again, I will throw you into the Pu River!”

Hu Xuehui’s face suddenly changed dramatically, she looked at Ji Feng in disbelief, such desperate words, really came out of his mouth?

“What are you looking at?!” Ji Feng frowned and skimmed at her, “If there’s nothing else, you can get lost now!”

Chapter 629

“You, you actually did this to me .....” Hu Xuehui looked at Ji Feng in disbelief, her lips and voice trembling at the same time, “You didn’t used to .....”

“You what you?!”

Ji Feng impatiently interrupted her words and glanced at her, “You just blocked the entrance to the family courtyard of the municipal party committee directly, should I still give you any good looks?”

Hu Xuehui looked at Ji Feng in a daze, and in those eyes, there was a hint of despair, a strong sense of sorrow, and some remorse in them, to name a few.

“Bang!”

Ji Feng opened the car door and waved his hand, “Since you have nothing else to say, then let’s go, I don’t have the time to spend with you here!”

Hu Xuehui looked at the open car door in a daze, her eyes couldn’t help but redden, and her shoulders trembled slightly.

Ji Feng was oblivious to it, not to mention not feeling half guilty about what he had done. Treating a stranger who was worse than an enemy, such an approach could not be considered excessive.

In fact, Ji Feng never considered himself to be a person who repays grievances with virtue, what with others slapping him, and then sticking the other side of his face over until he made others satisfied with the slap.

That kind of person either has an agenda or a problem in his heart.

As Ji Feng did not have the slightest intention towards Hu Xuehui, and his heart was still considered normal, he naturally would not smile at Hu Xuehui, instead of wasting time here, he might as well go

home and stay with Yu Xuan and Lei Lei, even if he went home to lie in bed and sleep, it would be much better than being here.

“Still not leaving?!” Ji Feng asked with a frown.

Hu Xuehui’s body couldn’t help but tremble, she gritted her teeth and said, “Ji Feng, I know you hate me, in fact I don’t have the face to come to you, but I had to come again .....

“No need to wax lyrical, say what you have to say directly.” Ji Feng interrupted her cleanly, “Still the same, I don’t have that much time to chat with you! Even if I had time, I wouldn’t be so bored.”

Hu Xuehui’s expression was gloomy.

After a pause, she could only sigh softly, “Ji Feng, this time I’ve come here to ask for your help!”

“Does what you’re about to say matter much to me!” Ji Feng asked.

Hu Xuehui was stunned, then shook her head and said, “It doesn’t matter much, but .....

“Since it has nothing to do with me, why did you come to me?” Ji Feng gave a shameful laugh, “I’m not your omnipotent brother-in-law, even if you come to me, I can’t help you with anything, so what’s the point of you coming on this trip?”

Hu Xuehui’s heart suddenly trembled, she could see that although Ji Feng said all the harsh words, he didn’t show any sign of anger, which meant that he really regarded himself as an enemy, or a stranger!

He didn’t even want to be angry, so how much affection could he still have for himself? That was simply delusional!

Hu Xuehui gritted her teeth and said: “Ji Feng, this matter does not have much to do with you, but, just think of it as me begging you, can’t you? Just help me once! If you don’t help, my sister will really be dead!”

Ji Feng raised his eyebrows and asked with a snicker, “Why, isn’t your sister happy with that big rich brother-in-law of yours? And how can I help?”

Hu Xuehui felt that today was probably the most humiliating day of her life, her self-esteem, her pride, and even her only remaining hope were all trampled under Ji Feng’s feet without mercy, without a trace of pity!

If it was possible, Hu Xuehui really wanted to leave right now and never see Ji Feng again.

However, thinking about her sister’s current situation, Hu Xuehui could only grit her teeth and sit in the car again, whispering, “My sister and brother-in-law, they have long since separated .....

Hu Xuehui’s heart was humiliated beyond measure and hated even more, she didn’t even know who she should hate.

In fact, it wasn’t until a few months ago that Hu Xuehui realized that her sister and brother-in-law were not married at all, and that her sister was actually just a lover kept by Wu Changqun! And Wu Changqun actually had a wife!

It was also because Wu Changqun's wife knew about the existence of his sister Hu Xueqin that she had ended up in this situation today. Even, even himself had become like this.

Ji Feng looked at Hu Xuehui and frowned, "Get off and go back, let's be straightforward with you, you don't need to bother with me, no matter what you've encountered, I won't help, so just die!"

Hu Xuehui's heart burst into a burst of pain and tears welled up, in fact she knew that based on those things she had done in the past, how Ji Feng could not treat her was not too much. In fact, she herself felt disgusted every time she thought of the previous things, but that had happened after all, and even if she wanted to change, she didn't have that chance anymore!

"Ji Feng, you can not help me, but, can you listen to me for a few words?" Hu Xuehui asked, forcing back her tears.

Ji Feng frowned at once, this Hu Xuethui hadn't died yet. Listening to her say a few words, wasn't that asking for her own help? No matter whether she was expressing her feelings or complaining, even if she was kneeling on the ground and sincerely apologizing, it was nothing more than to get herself to give up her former grudge and go and give her a hand.

If not, she wouldn't have come to herself.

The first thing you need to do is to get to the door of the family courtyard of the municipal party committee to find yourself, even if the words you say are heavy, she has no skin and no shame in not leaving!

"There's no need to talk, I'm not interested in listening either!" Ji Feng said indifferently, he really didn't want to dilly-dally with Hu Xuehui here any longer and said directly, "Get off!"

Hu Xuethui stared at Ji Feng, looked at him for a moment, and finally got out of the car, but she didn't close the car door immediately, instead, she knelt down in front of the car door at once.

With a thud, Hu Xuethui knelt down right in front of Ji Feng!

"What are you doing?!" Ji Feng instantly sank his face and his eyebrows tightened, "Hu Xuethui, do you know, what you are doing to yourself!"

"I know, I only beg you to help me this once!" Perhaps because kneeling on the ground completely crushed Hu Xuehui's last bit of pitiful self-esteem, she finally let out a painful cry, "I'm begging you, can you help me this once?"

Buzz~~~!

Ji Feng directly started the car, and was ready to go away. For those who had once humiliated his mother, Ji Feng's heart was harder than anyone's!

"Ji Feng!" Hu Xuehui let out a harsh cry and scrambled up, blocking the front of the car, "Are you really so cruel that you can't even help me this once?!"

"Am I being cruel?!" Ji Feng laughed, "Then I'd rather stay just this cruel!"

Hu Xuehui gritted her teeth and said, "If you don't help me, I'll crash to death in front of you!"

“That won’t work for me!” Ji Feng grunted.

“Then I’ll crash to death in front of the Municipal Committee’s family courtyard!” Hu Xuehui screamed.

Ji Feng’s expression suddenly went cold, he frowned tightly and said in a cold voice: “You’re looking for death!”

Crashing to death in front of the municipal party committee family courtyard?

Ji Feng sneered in his heart, how could he possibly allow such a thing to happen?

If Hu Xuehui really intended to do this, Ji Feng would definitely throw her into the Pujiang River with his own hands, threatening her with death, she, Hu Xuehui, did not have such a great deterrent power! She didn’t have the power to threaten him with death.

Hu Xuehui stood stubbornly in front of the car, not saying a word.

Ji Feng deliberated for a moment and was a bit indecisive in his heart.

Since Hu Xuehui was able to pull down her face to beg herself today, even threatening death, then even if she helped her this time, the next time she encountered an insurmountable difficulty, she would still come to this.

All things are like this, if there is a first time, there will definitely be a second time, and any so-called next time will not be an example, that is all false.

“Say it, what exactly is it!” Ji Feng finally loosened his tongue. He laughed bitterly in his heart, his own heart was still not hard enough, if it was someone else, I believe he would definitely not be as weak as he was and would have driven away long ago.

But Hu Xuehui was overjoyed, Ji Feng had let go, which meant that the matter of his sister had been settled!

She hurriedly said, “Please save my sister! She’s about to be sold!”

Ji Feng snorted, “Didn’t she get sold a long time ago?”

Hu Xuehui’s face instantly turned red, of course she knew what Ji Feng meant, her sister was only in her twenties, yet she was following that middle-aged man Wu Changqun, so if that wasn’t selling, what was it!

“My sister is going to be sold out of town .....,” Hu Xuehui said in a panic.

Hearing Hu Xuehui’s words, Ji Feng couldn’t help but blush oddly, but his heart was an uncontrollable surge of pleasure, and it has to be said that Ji Feng’s psyche was still somewhat evil.

According to Hu Xuehui, her sister Hu Xueqin did not marry Wu Changqun, but was adopted.

But because of Wu Changqun’s addiction to gambling, he ended up finally being set up in a casino and lost all his money.

Wu Changqun’s wife, on the other hand, didn’t pay a dime, and ended up getting a few people directly to take Hu Xueqin over and hand her over to the casino’s people as an offset!

Hu Xuehui was unfamiliar with Jiangzhou, and her brother-in-law, who was omnipotent in her eyes, also ran away with her luggage, so she could only go to the police station to report to the police, but the police were unable to find out anything.

Ji Feng sneered in his heart, since the other party can open a casino, that background is naturally not ordinary, a girl from out of town to go to the police, it's strange that there can be any result!

"Those people said that in order to save my sister, you have to take money to ransom her, and when the account is paid off, when will they let her go!" Hu Xuehui said sadly, "I go out to work every day, but their interest rate is really too high, I go to send them money every month, but I still owe more and more!"

Ji Feng was sitting in the car and did not have the slightest intention to get off, let alone let Hu Xuehui sit up, he just quietly listened.

"But yesterday I went to deliver the money and met my sister, she said those people were planning to send her to a casino in Jinling ....." Hu Xuehui said in horror.

## Chapter 630

"That's the general situation!"

Hu Xuehui finished and looked at Ji Feng with some apprehension, although she already knew Ji Feng's identity from the front desk manager of Spring River Moonlight Night, but she didn't know if Ji Feng could solve this matter, or if he was willing to go to this trouble to solve it!

"Which casino?!" Ji Feng asked indifferently.

Hu Xuehui was immediately delighted in her heart and said in a panic, "Pengcheng Clubhouse!"

Ji Feng nodded slightly and said, "I know!"

After saying that, he no longer said half a word more, but directly raised the car window, while closing the car door all the way, and directly raised the car long.

"Hey...!"

Hu Xuehui reached out in a panic, wanting to stop the car, but only then did she realize in a flash that she had let her guard down while she was talking, and unknowingly took two steps to the side, resulting in directly letting Ji Feng drive away at a gallop!

"..... ugh!"

Standing in place and watching the Mercedes drive out of the alley, Hu Xuehui eventually couldn't say anything and could only let out a sad sigh, originally, she was able to sit in the car, pampering herself with him, listening to his affectionate words of love, and going to pick her sister up from the casino.

But now it was all just a fantasy .....

And who can blame him?

“Did he say yes, or did he not?!” Under the distress, Hu Xuehui also lost her ability to judge accurately.

She knew that the current Ji Feng was no longer the boy with low self-esteem who was also obsessed with himself. The difference between the two of them is already a world of difference, how could Ji Feng put himself in his eyes?

And Hu Xuehui, too, could not grasp Ji Feng’s thoughts!

Although it was unclear whether Ji Feng had agreed or whether he was deliberately distracting himself so that he could drive away, Hu Xuehui could only put all her hopes on Ji Feng, because apart from Ji Feng, Hu Xuehui really couldn’t find anyone else to help.

.....

“Hu Xueqin was sold?! She was actually sold by Wu Changqun’s wife!” Ji Feng drove his car, his heart could hardly contain his excitement, that kind of happy mood, it was simply more enjoyable than eating ice cream on a June day, he even wanted to yell twice, as a way to express his heart’s happiness!

The fact that she and Wu Changqun drove past Mang Shi County during the winter break of her senior year, and the way she was so high and mighty, was etched in Ji Feng’s mind!

Perhaps for Hu Xuehui, Ji Feng could not quite achieve a heart of stone, but for Hu Xueqin, Ji Feng did not think so much about it.

Right now, all he could think about was gloating.

That’s right, just gloating!

Ji Feng felt that his own psyche was actually dark enough. When he first heard Hu Xuehui say that her sister had been sold into a casino, Ji Feng immediately wanted to let out a loud laugh while asking aloud, “Hu Xueqin, you fucking had your day too?!”

Well, Ji Feng admitted that he was bad, but his happiness was undeniable.

Ji Feng even speculated maliciously in his mind that, given Hu Xueqin’s nature, I was afraid that she might enjoy herself in the pleasure scene instead. Or maybe she wouldn’t want to leave yet!

When he thought of this, Ji Feng couldn’t help but laugh dumbly. If that was the case, then Hu Xuehui would be kneeling for nothing!

And if he really rescued Hu Xueqin, I’m afraid she might blame himself for meddling in the matter instead!

“Zee...!” Ji Feng parked his car at the roadside not far from the family courtyard of the municipal party committee, he took two quick steps and found Ji Shaolei standing in front of the post at the gate, looking at himself with a smile.

“San’er, has everything been negotiated?!” Ji Shaolei asked.

Looking at his second brother’s derisive smile, Ji Feng couldn’t help but let out a bitter laugh, but he didn’t know what to say.

“That woman, she really doesn’t know what’s good for her!” Ji Shaolei said in a deep voice, “Third child, what are your plans? To break the mirror and reunite again?!”

“How is that possible!” Ji Feng couldn’t help but lose his smile.

“Then you are .....” Ji Shaolei couldn’t help but frown slightly, “San’er, let me remind you, since you know her temperament and character, you should never mess with some women again, otherwise, you let Xiao Yuxuan and Tong Lei feel What are you going to do?”

Ji Feng laughed: “Second brother, you are thinking too much, this is not the case!”

“There’s really nothing going on between you and her .....?!” Ji Shaolei asked, “In that case, then I can do things my way!”

Ji Feng was stunned, “What are you going to do?!”

“Teach her a lesson!”

Ji Shaolei said in a gloomy face and a deep voice, “If she has something to find someone from the family home, or has some grievances to reflect, running to the entrance of the family home and blocking it, it’s all normal and justifiable. However, she actually dared to use such a method to force me, and I will definitely not tolerate her! Otherwise, if anyone dares to act in such a disorderly manner in the future, will we still be able to live our lives?”

“Whatever!” Ji Feng nodded his head indifferently.

“You really don’t care anymore?!” Ji Shaolei was immediately a little surprised and the gloomy expression on his face instantly disappeared.

Ji Feng couldn’t help but shake his head with a smile and said, “Second brother, you don’t need to test me like this, I’ve already said it, there’s really nothing between Hu Xuehui and me, now the two of us are even worse than strangers!”

“Then I’m also relieved.” Ji Shaolei nodded and said, “You just said that Hu Xuehui was looking for you for something, what is it?”

“A good thing!”

Ji Feng instantly laughed heatedly and said, “Second brother, how could you have imagined that Hu Xuehui’s sister, Hu Xueqin, had actually been sold to a casino .....”

At this moment Ji Feng, speaking with glee, his originally gleaming eyes almost narrowed into slits, once again showing how strong the gloating in his heart was.

Ji Shaolei couldn’t help but be stunned when he heard this, and then burst out laughing: “What is this called? This is called not unrewarding, the time has not yet come!”

“Hey .....” Ji Feng also grinned straight.

“However, that so-called Pengcheng Clubhouse sounds familiar!” Ji Shaolei said, “I’ve heard of it a few times before, and it’s said to have very hard roots!”

“In fact, it doesn’t matter if the roots are hard, as long as you want to mess with it, unless those guys from Yanjing come over and sit in person, otherwise, it’s useless to replace anyone else who comes!” Ji Shaolei added with a smile.

Ji Feng nodded slightly and said, “Second brother, if possible, wait for a few days to say hello to the Pengcheng Club, let them release the people, whatever conditions they have, feel free to put forward, any ideas can be sat down to talk!”

“Of course it’s no problem, forgive them for not having the guts to make conditions, but then again, are you really going to help that woman? Wasn’t the insult she gave you in the beginning enough?” Ji Shaolei asked with a frown.

“Either that or how I said I would have to say hello to the Pengcheng Club in a few days!” Ji Feng harrumphed, “Since I know Hu Xueqin is at the Pengcheng Clubhouse, if I don’t let her stay in there for a few more days, I really can’t get past this hurdle in my heart!”

Ji Shaolei also laughed at once: “You kid, you’re really .....”

The day more you stay in that clubhouse is an extremely painful ordeal, and Hu Xuehui, who has no one to rely on, doesn’t think it will be a very good day either.

Usually no need to deliberately retaliate, just choose to turn a blind eye at critical moments, it is enough to make the two sisters Hu Xuehui have to suffer!

“Don’t talk about this .....”

Ji Feng shook his head, this thing done after all is not very honorable, more talk on Ji Feng afraid that he will also be more and more guilty, but now go to save Hu Xueqin, his heart but also unwilling, all simply so drag on for a few days to say.

“Right, second brother, I still have one more thing to ask for your help, you have to help me get some equipment .....” Ji Feng said some of the equipment he needed to set up the guard device one by one.

Ji Shaolei immediately frowned and said, “I say, third child, you really think that second brother I am omnipotent, huh? A large portion of these things you want are explicitly forbidden, where am I going to get them?”

Ji Feng laughed, “If it was really that easy to get, I wouldn’t have asked you. In a word, to help or not to help!”

“Help, how dare I not help?” Ji Shaolei said without good humor, “I just found out, but whenever there is something good, you never look for me, as long as you find me, then it is definitely not good! ....., give me some time, almost two days, time is too rushed, I can’t get it!”

“Okay then, contact me when you get it!” Ji Feng laughed, “I’ll go back first.”

“Since we have to hang that woman out for a few days, Hu Xuehui might come back again, when the time comes .....” Ji Shaolei’s face sank and a cold aura flashed in his eyes.

Ji Feng nodded with a smile and said, “I have nothing to do with her at all anymore, just watch what you do, by then, do whatever you want with her, I don’t have any opinion! Let’s go.”

“Since we’re here, do you want to be scolded if you leave now?” Ji Shaolei laughed, “Go in and have a seat, your second aunt is at home, let’s go!”

Ji Feng laughed bitterly, “I’ll just go in empty-handed .....

“Okay, you kid don’t be blindly preachy, what are you pretending to pretend in your own home!” Ji Shaolei said in a good-natured way, turned around and walked towards the family courtyard, Ji Feng could only follow behind in tears and laughter.

After sitting in the second uncle’s house for about an hour, Ji Feng drove back to the villa. In the free time he spent with Xiao Yu, he checked all the guard devices in the house one by one, since they were guard devices, they were like human eyes and ears.

Therefore, Ji Feng must make sure that all the guard devices inside and outside the villa are always working and functioning as they should!

When Ji Feng double-checked the guard devices, his phone suddenly rang, it was his younger uncle Ji Zhenping calling .....
