

Campus Master 631

Chapter 631

When he saw that it was Little Uncle calling, Ji Feng was instantly happy, thinking that there was news from his father and the old man's side, he immediately picked up the phone, "Little Uncle, there's news?"

"You brat, you don't know how to greet Little Uncle first?" Ji Zhenping cursed with a laugh, then added, "That's right, kid, the matter you mentioned, the old man approved it. I've also communicated with your father, and he has also agreed."

"Really?!"

Ji Feng instantly laughed and said, "That would be really great."

"Don't be too happy first, I have to remind you, this time going to work is not a good thing, every minute is in danger of life, your grandfather and your father decided to agree to your request, this is still hidden from your mother, you must be careful yourself!" Ji Zhenping said in a good-natured manner.

He really does not understand, like those children of other families in Yanjing, their minds are probably full of how to enjoy life, and which starlet they have their eyes on, and where to go and how to enjoy etc etc

The first thing you need to do is to get a good idea of what you're doing. But even if you don't want to be a dude, don't be a desperate man, is it that easy to fight a war? This is not a game between children!

But Ji Feng's heart flinched and he asked in a panic, "Little Uncle, my mother still doesn't know?"

"Anyway, I didn't tell her, not even your little aunt me, just because I was afraid she would talk too fast and it would get to your mother's ears." Ji Zhenping said, but he knew how worried his sister-in-law would be once she knew that Ji Feng had gone to war, back then he had only led the team to the west for the operation, his old mother was so worried at home that she couldn't help but give the old man a good scolding in the end.

Ji Feng is even the boss's only child, if his sister-in-law knew about it, she would definitely react even more fiercely and it's not even easy to say whether she would come to settle scores with herself!

"That's good, that's good!" Only then did Ji Feng let out a faint sigh of relief, he was also negligent, he had not thought of reminding his younger uncle before that he must not tell his mother about this matter. And later on, it was not good for him to call Little Uncle, because no matter what he said, at this time, it would kind of rush Little Uncle, which was very unwarranted.

"Don't be happy yet, I won't say anything, but whether your father will say anything, it's not certain!" Ji Zhenping laughed, "All I advise you to give your father a call, or just come to the capital for a trip, and have a good unification with your father, so that you don't wear out your welcome then."

When Ji Feng thought about it, he immediately nodded and said, "That's good, as soon as I'm ready on my side, I'll go to Beijing immediately."

“Right, when you come to the capital, you should still come to my place first, since the old man has promised to let you go along, then this matter of selecting personnel will be handled by you!” Ji Zhenping admonished again.

Ji Feng smiled and nodded, saying, “Okay, little uncle, I’ll be in touch when I return to Beijing!”

Hanging up the phone, Ji Feng couldn’t help but shake his head slightly, he couldn’t eat whether his father would tell his mother about this matter, in case he really let her know, it would be strange if he could go.

“We must go into the capital as soon as possible!” Ji Feng secretly deliberated.

Immediately, Ji Feng snapped his head again and secretly said, “Oh no, why did I forget to mention the equipment to my little uncle?!”

He immediately took out the phone and was ready to call his little uncle. But after a second thought, he put the phone down again.

Since he had already planned to go to Beijing as soon as possible, he thought that even if Little Uncle gave him the equipment, he would not have time to go and get it himself, after all, this round trip would take an unknown amount of time.

Ji Feng pondered while getting down from the attic: “Where the hell are we going to get those military equipment military?! Doesn’t military equipment Xiang Yongzhan just happen to be from the military?”

He suddenly felt enlightened, his own eyes have been limited to a very narrow range, this look at the eyes to know, in fact, there are many things are so, as long as the vision is open, you will find, in fact, there are still many solutions to things.

“Just go and find Xiang Yongzhan!” Ji Feng fist his palms together and made a decision.

When Ji Feng came downstairs, all three of them, Xiao Yuxuan, were in the study on the first floor, playing a very simple single-player game. Ji Xiaoyu was sitting in front of the computer playing happily, while Xiao Yuxuan and Tong Lei were sitting next to them watching.

“Lei Lei!” Ji Feng stood at the door and waved his hand, Tong Lei was cold in nature and watching Xiao Yu play the computer in the study was not too interesting, having Yu Xuan accompany Xiao Yu would have been enough.

“Ji Feng, what’s wrong?” Tong Lei walked out and asked in a low voice, since Ji Feng had called himself out, there must be something he couldn’t say in front of Yu Xuan and Xiao Yu.

“It’s not a big deal, it’s just that I’m going to Yanjing in a couple of days, there’s something going on there, it will definitely take me a while to come back, so I’ll tell you guys in advance now.” Ji Feng said with a smile.

“You’re going out again?” Tong Lei was stunned, but her heart was still a bit reluctant.

Ji Feng smiled and pinched her soft face, laughing, “You and Yuxuan are going home anyway, so let’s just go together!”

Xiao Yuxuan would have to go home to live during the summer holidays, otherwise, Xiao Changhe and Xiao's mother would definitely know that their daughter was already living with Ji Feng, and once they asked about it, it was inevitable that Xiao Yuxuan would say something.

In order to avoid such a situation, Xiao Yuxuan pretended that nothing was wrong every time and did what she had to do.

The same goes for Tong Lei.

In the summer holidays, Tong Lei is going back to Yanjing, after all, the old man of the Tong family is gradually getting older, and most of these juniors underneath will go back whenever they can, after all, they can leave some good impression in front of the old man, and maybe before the old man is 100 years old, they will arrange a prosperous path for themselves.

Even though the Tong family is not a top-level family in Yanjing, it is not difficult to arrange a good way out for a few people.

Tong Lei nodded slightly and said, "I'm just afraid that Sister Yu Xuan won't be able to let go of it!"

Ji Feng then couldn't help but scratch his head a little, indeed, according to reason, this should be done, after all, now Xiao Changhe still doesn't know that Xiao Yuxuan is already living with himself, if he knew that his daughter was living with himself along with Tong Lei, I'm afraid his expression would be wonderful.

Under such circumstances, Xiao Yuxuan could only go back whenever she could for the time being.

However, she was extraordinarily sad to leave.

Especially before each separation, although Xiao Yuxuan still smiles very charming and moving, but the reluctance in her eyes, Ji Feng is to see clearly, the heart is also very torn, a moment but there is no good solution he can't run to Xiao Changhe and tell him, your daughter can't marry me in this life, I There are other women!

People, always have to have a conscience!

This kind of thing, but anyone with a little conscience, can not do it, not to mention Ji Feng, if he does so, it is purely looking for a draw.

However, this long time apart, Xiao Yuxuan's heart will always be very reluctant to let go, looking at Ji Feng's heart is also a bit difficult to feel.

"What are you guys talking about?"

Just when Ji Feng was torn, Xiao Yuxuan's voice suddenly sounded next to her, she didn't know when she came out from the study, "Why do you all look unhappy? Ji Feng, how many times have I told you, no frowning, then Lei Lei and I will be heartbroken!"

Ji Feng sighed lightly, took Xiao Yuxuan's hand and said softly, "Yuxuan, following me has made you suffer!"

Xiao Yuxuan then couldn't help but feel a little strange as she laughed lightly, "What's wrong with you guys? Did something happen?"

"You just pick at accidents all day long!"

Ji Feng couldn't help but glare at her with a smile and shook his head, "I might have to go to Yanjing in a day or two, Yuxuan, do you want to stay at home, or go back to your house?"

"..... I'll go home!" Only then did Xiao Yuxuan know where Ji Feng's kind of guilt was coming from, she couldn't help but feel a burst of warmth in her heart, "Ji Feng, you don't have to worry so much, if it's like this every time, then we won't be happy together in the future following you, I'm very happy and happy, my parents there I will go say!"

The softest place in Ji Feng's heart was touched, but he couldn't say a word, he could only nod slightly and said, "I'll go shopping with you guys later!"

"Really?!" Tong Lei asked delightedly.

Xiao Yuxuan also said with a smile, "That's what you said yourself, if you dare to go back on your word, see how Lei Lei and I will clean you up!"

Ji Feng immediately nodded and smiled, "I definitely won't back out, don't worry, I'll do what I say today."

He had a guilty conscience, since the two girls followed him, he hadn't really had the experience of accompanying them shopping together a few times, and many times it was with others, or simply Xiao Yuxuan and Lei Lei going shopping together, while Ji Feng went about his business.

"I owe too much to them!" Ji Feng was ashamed in his heart.

"Alright then, I'll go get Xiao Yu" Tong Lei was just about to turn around when she was pulled back by Ji Feng.

"Just the three of us will go together today, Xiao Yu won't be with us!" Ji Feng laughed, "This girl is a quiet nature, even if you go and call her she won't go!"

"Nonsense!" Xiao Yuxuan laughed and slapped him, leaving Xiao Yu alone at home while the three of them big ones went shopping, what does it look like! Not to mention that others would laugh when they found out, even Xiao Yu himself would definitely not be comfortable in his heart.

"Lei Lei, go get Xiao Yu!" Xiao Yuxuan said softly.

"I'm on my way!" Tong Lei smiled cheekily and turned to go into the study.

Xiao Yuxuan looked at Ji Feng and softly said, "Little rascal, I know you are good to us and attentive to us, we all understand that, no need to deliberately try to please us like this, this will make my heart hurt"

Ji Feng heatedly smiled, "I'm not going to please you, then you come to please me at night, okay?"

"Bah!" Xiao Yuxuan suddenly had a slightly red pretty face, "Rascal!"

Chapter 632

As expected by Ji Feng, when Tong Lei went to ask Ji Xiaoyu to go shopping with her, the girl, Xiaoyu, immediately and wisely refused. In fact, this time in for Xiao Yu, has been very happy. In her old home in Yanjing, her father was very strict and there were few interesting classmates, so she rarely went shopping and had even less time to frolic with others.

But ever since she came to Jiangzhou, Ji Feng and the two girls, Xiao Yuxuan, had been accompanying her, making her happy. Besides, she had disturbed Third Brother and his two sisters-in-law for so many days that she had long been embarrassed, and now that Third Brother was going shopping with his two sisters-in-law, she was not going to be a light bulb.

“Third brother, you have to keep Sister Yu Xuan and Sister Lei Lei company!” Ji Xiaoyu plausibly admonished Ji Feng, “If you treat them badly, I won’t care about you!”

Ji Feng suddenly shook his head and lost his smile, “You girl, what do you know!”

“Who said I don’t understand!”

Ji Xiaoyu was immediately a little unconvinced, “I forget it, I won’t talk to you anymore, Third Brother, Sister Yu Xuan, Sister Lei Lei, you guys hurry up and go, the weather is still cool now, when another hour or two passes, it can really get hot, then it won’t be a good idea to go again.”

She waved her hand and tried to put on a mature look, looking at the three of Ji Feng and couldn’t help but shake her head and laugh.

Ji Feng smiled and nodded, “Then we can really go, you won’t be bored at home alone, will you?”

“Not at all.” Ji Xiaoyu smiled cheekily, “I’m almost done beating my game, I’ll definitely be able to get through it when you guys come back.”

It’s good to have something to play!

Ji Feng knew that this was Ji Xiaoyu’s way of reassuring herself, despite Xiaoyu’s quiet personality, staying at home alone was always a bit boring, but of course, if it was Tong Lei then it would be a different story.

Given Tong Lei’s character, she could spend the whole day with a book and a cup of tea and not feel bored, and she might even be a bit happy.

However, since Ji Xiaoyu had said so, Ji Feng would naturally oblige her, and he smiled, “If I come across anything good, I’ll bring it to you.”

In the midst of Xiao Yu’s farewell as she shook her small white hand, the three of them drove out of the courtyard.

“Ji Feng, is it really okay to just leave Xiao Yu at home alone like this?” Xiao Yuxuan was still a little worried that if Ji Feng’s elders found out, would they think that she and Lei Lei didn’t like Xiao Yu and thus have any further opinions?

Ji Feng had lived with Xiao Yuxuan for so long, how could he not understand what Xiao Yuxuan meant?

“Yu Xuan, you guys can rest assured!”

Ji Feng laughed: “It’s not like you guys haven’t met my family before, they’re not that nosy, so how could they blame you guys? Besides, you guys should know your status, not just anyone can talk about you!”

“Yes, yes, yes! You’re the tz of the Ji family, who dares to cross you!” Xiao Yuxuan gave him a white look.

Ji Feng laughed, but in his heart, he couldn’t help but shake his head, so what if he was the tz of the Ji family? Some people would not get close to him just because he was a tz of the Ji family. In fact, there may be many people who could have been friends, but are hostile to themselves just because they are the tz of the Ji family.

Ji Feng went to Yanjing a total of two times, and on both occasions, he had the feeling that he was being treated with hostility by people, both from within and from outside, to name a few.

“Where are we going?” After leaving the villa area, Ji Feng slowed down the car and asked with a smile.

“Lei Lei, what do you think?” Xiao Yuxuan turned her head and asked.

Tong Lei thought about it and said, “Let’s go to the City God Temple, I want to go there to get a few watches custom-made.”

“A few watches?” Ji Feng was stunned, “What do you need so many watches for? Even as a gift, watches aren’t too appropriate, right?”

Xiao Yuxuan then couldn’t help but give him a blank look and hummed, “You said what do you need so many watches for, it’s not because you’re a philistine!”

Ji Feng couldn’t help but be stunned, because of me?

“I wanted a custom-made couple’s watch, but, people’s couple’s watches are two paired together, we are three” Tong Lei said with a delicate smile, “Do you think it’s weird that you’re not to blame?”

“Ahem” Ji Feng cleared his throat and rubbed his nose with a bitter smile, but he couldn’t say anything.

Yes, people’s couple watches are two matching pieces, and once they want to buy any couple matching objects, they have to buy three of them to do so biased Tong Lei brought it up, and they can’t not buy it!

The City God Temple in Jiangzhou is extremely famous in the country and its popularity is not much worse than the most prosperous Jinling Road in Jiangzhou.

Whenever there is a holiday or some important celebration or other event, the city god temple is bustling with lion and dragon dances, temple fairs and so on. Of course, in direct proportion to the bustle, there is also the level of consumption here.

The last time Ji Feng passed by here on an errand, he got off and ate something, asking for a bowl of dumplings, but he was not full, not even half full, but when he settled the bill a hundred yuan bill was

actually not enough. Ji Feng even wanted to ask, "Are these dumplings filled with gold and silver skin? How else could they be sold at such a high price!

However, when he saw that the customers around him were generous with their money, and some even gave tips, he was too embarrassed to talk to others about the price, so he took it as a sign that he was following the customs.

From then on, the City God Temple in Jiangzhou left an extremely deep impression in Ji Feng's heart.

About forty minutes later, Ji Feng arrived at the Jiangzhou City God Temple and found a large watch shop. After asking about the price, Tong Lei was ready to customize three watches according to her idea.

But the receptionist looked at the strange combination of a man and two women in front of her, and muttered in her heart, "This must be a rich young man from which family is messing around with women, to say that these two women are really, both so beautiful, why do they have to be other people's lovers?"

However, when she saw the price quoted for the watches that Tong Lei wanted to have made, she couldn't help but be a little staggered and at the same time vaguely envious.

The three watches together amounted to nearly one hundred thousand dollars.

One watch is more than 30,000 ah, this is not too bad if you wear it on your own hand to be adopted by a rich man.

The first time he and Xiao Yuxuan and Lei Lei bought something together, and it was also quite a commemorative watch, so he always had to buy something good.

As for what other people thought, he had never thought about it.

However, the change in attitude of the receptionist before and after he bought the watch did not escape Ji Feng's eyes, but he did not care. There are a lot of people who judge people by their appearance. To put it bluntly, it's a dog's eye view, but the eyes are on other people's faces, so it's not up to them to decide how to look at them.

What's more, he's seen a lot of people like this, so he's not surprised anymore.

After the watch was ordered and the deposit was paid, it was already early ten o'clock in the morning, so Ji Feng began to stroll around the City God Temple. At this time of the year, the City God Temple should be at its busiest at this time of the year.

Because the weather in Jiangzhou is too hot, people generally choose to shop in the morning or evening, but some of the stalls and hawkers at the City God Temple are a bit better, their time is free and it is not a problem to operate until the early hours of the morning, but those shops, Dao will close at 7pm, so there is no way to shop.

All the shoppers usually leave in the morning and start to go home at around 11am.

Despite the fact that the current crowd is the most crowded, but Ji Feng three is a rare enjoy this relaxed time, along the way Xiao Yuxuan and Tong Lei two women's faces have not broken the smile, see the Ji

Feng is also with a smile on his face, secretly decided, in the future as long as there is time, will definitely accompany them more.

When the sun was getting high, the three of them finally finished shopping and drove back home.

In the afternoon, Ji Feng dialed Xiang Yongzhan's phone number and agreed to meet at the Jiangzhou Southeast Military District Guest House.

For this meeting, neither Ji Shaolei nor Xiang Yurou showed up, only the two of them, Xiang Yongzhan and Ji Feng, met alone in a private room.

"Ji Feng, I received a call from your little uncle." When the two sat down, Xiang Yongzhan said directly, "Your family is really relieved, they actually dare to let you go with me!"

Ji Feng laughed, "They're trying to get me to follow you and study for a while."

"Excuses!"

Xiang Yongzhan hummed, "Although you are much better than your second brother, you are also not honest and talk too much in a roundabout way, the way you talk like this will not be appealing to people in the army."

Ji Feng shook his head and laughed, "What do I need so many people to like?"

"All right!" Xiang Yongzhan was obviously not good at fighting, he immediately changed the subject, "Ji Feng, since your family has agreed, then we are settled, when will you go to Yanjing and bring the Red Arrow Brigade?"

"From where?" Ji Feng asked, "If we depart from Yanjing, the day after tomorrow."

"Then it's up to you to depart from Yanjing." Xiang Yongzhan said casually.

Ji Feng couldn't help but be stunned, this was a military operation, could a decision be made so casually?

"Don't ask so many questions now, the day after tomorrow at four in the morning, we will meet in Yanjing on time, by then you will know where to go and what to do" Xiang Yongzhan smiled slightly and waved his hand with quite an air: "The first time we work together. I hope we can have a celebratory drink!"

"Definitely!" Ji Feng said indifferently, but the firmness in that tone of voice was unquestionable. He was a modest person, but never modest in his work, and all this was based on self-confidence and strong strength, as the saying goes, do things in a high profile and behave in a low profile.

Xiang Yongzhan gave him a thoughtful look and nodded.

"Right, there's something else I need your help with" Ji Feng took out a piece of paper from his pocket and handed it over, "This is some equipment I need, can you get it before we leave? "

Chapter 633

Xiang Yongzhan took the paper in Ji Feng's hand and removed it.

It was a piece of a4 printed paper, filled with dense writing, and quite a few special symbols, and even many parts were directly replaced with foreign languages, so even if the average person got this paper, they wouldn't be able to read what was actually written on it.

In fact, what was written on it were some of the equipment that Ji Feng lacked now. Although he had found his second brother, Ji Shaolei, many of the core components still needed to be obtained through Xiang Yongzhan, and it would naturally be best if he could get the high-performance classified equipment used by the military.

The printing paper was filled with so many foreign languages, not because Ji Feng loved to show off, and likewise not to show his language skills and talent in front of Xiang Yongzhan.

The reason he did this was that there were many devices that did not have Chinese names, and even if they did, they were code names, for example, like certain flying devices, which were called [Eagle] or something like that, and Ji Feng was not particularly familiar with these code names within the bureau, so he had to look up the original names of these devices online and print them out directly.

In fact, there are many special devices in the military, and these devices have a certain gap with the ones on the market, so Ji Feng was afraid that the devices he got for himself from Xiang Yongzhan did not meet his requirements, so he had to do this.

In fact, a lot of equipment, with just a slight alteration, has a huge gap.

For example, take firearms, general rifle bullets have strong penetrating power, even from a few hundred meters away, they can easily penetrate a person's body, but in this case, if the bullet does not hit the vital point, it cannot cause much damage to the target.

For example, if it hits the leg and only punctures a hole, in an emergency situation the person's movement will barely be affected and at most there will be a loss of blood.

However, if the bullet tip is slightly sharpened and a further groove is cut in it, the bullet will hit the target and explode due to uneven forces.

Imagine what it would be like if it exploded after hitting the human body.

The power of the bullet is a far cry from that of a moderate bullet.

And this, is only a slight modification of the size and structure of the bullet, if it was one of those more advanced devices, after some slight modification, what kind of difference would the effect be?

Therefore, Ji Feng had to make sure that the equipment that Xiang Yongzhan got for himself was of standard performance. As for how to modify it, that was his own business.

Only, there was one more prerequisite for all this, and that was, Xiang Yongzhan was willing to provide him with this kind of high performance military classified equipment. If Xiang Yongzhan was not willing to do so, then all of this would be a pipe dream.

As expected, Xiang Yongzhan only took a few brief glances at the names of the equipment on the printout and could not help but frown slightly.

He glanced up at Ji Feng and asked with a frown, "Ji Feng, what do you want these devices for?"

“My home is a bit unsafe, and I don’t know how long I’ll be delayed if I go on the operation with you. I’m hiding my beautiful wives at home, and I’m afraid that others will hit them, so I can only make some preparations in advance.” Ji Feng said half-truthfully, “I don’t have your life, I still have people to protect me when I go out, like me, I’m not at that level yet!”

Although the door of the compartment was closed, Ji Feng knew that there were two tall and cold soldiers standing outside.

Xiang Yongzhan hummed and said, “Your rank is not enough, but your means are enough I can’t get this batch of equipment.”

“How so?” Ji Feng frowned and asked, “Although these devices are all military high performance, they are not yet at the point of absolute secrecy, right? I just want to get some back to protect my family too, so this won’t work?”

“It’s not impossible, it’s not impossible to give you these devices, the key is that I don’t have these devices here now.” Xiang Yongzhan said indifferently with both hands, “And I don’t have the time either, my brothers’ lives are not yet guaranteed when they participate in this operation, I have to be busy training them so that they can become stronger as soon as possible, where would I have the time to go all the way to Yanjing to get you these equipments?”

“You’re even more of a businessman than a businessman!” Ji Feng snorted coldly, “I just can’t see which part of you looks like a soldier!”

As soon as Xiang Yongzhan spoke, Ji Feng immediately understood what he meant, the other party was saying: it wasn’t impossible to ask for this equipment, but the problem was, you hadn’t taken out that training method yet!

To put it bluntly, it was an exchange.

The reason why Ji Feng sneered was because Xiang Yongzhan’s appetite was not small, he only wanted to get a batch of equipment, he actually wanted to exchange the training method for himself, this calculation was really loud.

“You can also look for your little uncle!” Xiang Yongzhan chuckled again.

Ji Feng frowned at once, and then he smiled: “Since we are going to act together, it wouldn’t be right if the brothers’ strength is too poor, I happen to have a training material here, you can take it to them, of course, how much it can be improved in such a short time is beyond my grasp, but practicing is better than not practicing.”

Saying that, he took out a flash drive straight from his pocket and casually threw it onto the table.

Xiang Yongzhan instantly laughed: “With this training method, although it is not so much that it can make the brothers’ strength rise by a large margin at once, but with more life protection, the possibility of surviving is also greater Right, those equipment you want, now there is also time to get it, at most the night. Just get it for you!”

The first thing you need to do is to get the equipment you want.

“You really don’t know what to do, you want the military district to use a plane to transport the equipment for you?” Xiang Yongzhan asked with no good humour, “It just so happens that there will be a plane coming from Yanjing to Jiangzhou in the evening, I’ll ask them to bring it for you, if you want to use the plane temporarily, I don’t have the right to do so, you can figure it out yourself!”

Ji Feng was immediately a little embarrassed, “Then it’s better to follow the planned plane, I can’t add trouble to the country.”

Only then did Xiang Yongzhan smile, “Ji Feng, this training method, there is a follow-up, right?”

Of course he knew that it was naturally impossible for Ji Feng to bring out the best training methods for reasons that were simply too complicated, and Xiang Yongzhan himself did not have the luxury of getting all the training methods at once, so he was only asking casually.

“Wait until the set of methods you have in your hands is fully promoted before you can follow up, trying to eat a fat bite, that’s not realistic.” Ji Feng was not ambiguous either and said indifferently.

Xiang Yongzhan then knew that there must be a better training method in the hands of this good family, but thinking that Ji Zhenping was the brigade leader of the Red Arrow Brigade, he knew that if this method was not promoted in the Red Arrow Brigade, he was afraid that it would not reach his hands.

Afterwards, both of them stopped talking about anything else and simply chatted about some precautions to be taken during the operation. Ji Feng did not ask what the target of this operation was, nor did he ask where the destination was, nor did Xiang Yongzhan take the initiative to mention it, both of them knew very well that although this was a military district guest house, it was not too much of a safe and confidential place, especially as Xiang Yongzhan’s identity was known to quite a few people, so maybe if they spoke now, it would reach some people’s ears a few minutes later.

After making an appointment with Xiang Yongzhan, Ji Feng drove straight back to the villa.

And as expected, around six o’clock in the evening, Xiang Yongzhan’s phone call came again, informing that the equipment had arrived.

Ji Feng then used the fastest speed to familiarise himself with the performance of the equipment and then installed it inside and outside the villa overnight.

Early the next morning, Ji Feng received a call from his second brother, Ji Shaolei, who had also gotten a batch of equipment.

With these two batches of equipment, Ji Feng’s confidence had risen so much that he had almost equipped the villa inside and out to be watertight, so that not only could ordinary people not get in, but even real super experts would be helpless in front of the villa.

Even if someone were to descend directly onto the roof, they would be turned into charcoal by the strong electric current from above. Unless someone used heavy weapons, if they wanted to break through the villa’s defence, they would have to pay a price that was definitely not ordinary!

After doing this, Xiao Yuxuan also returned home in Ji Feng’s company, watching Ji Feng leave, she was always a little reluctant to leave.

On the morning of the third day, Ji Feng said goodbye to Xiao Changhe and his wife, and said hello to his second uncle, Ji Zhenguo's family, before he took Tong Lei, Zhang Lei and Ji Xiaoyu on a flight to Yanjing.

According to the agreement between Ji Feng and Xiang Yongzhan, they would rendezvous in Yanjing after midnight this evening. All arrived in Yanjing, Ji Feng first called his father, but did not dare to go home, once his mother knew that he had come to Yanjing, he would certainly not let himself go away for a summer vacation, then it would be a problem!

"Little Feng" This was the first time that Ji Feng heard his father's voice after he decided to take part in this operation. In Ji Zhenhua's voice, there was a rare hint of more hesitation, and even more of a hint of gravity, as if he wanted to say something but couldn't.

"That's just it, since you have already decided, I, as a father, won't say anything more, remember, make sure you come back safely!" Ji Zhenguo let out a light sigh, "Go to your grandfather's place, he still has important things to arrange."

Ji Feng was stunned, what important matters?

Chapter 634

Since his father said that his grandfather was looking for him to arrange something important, Ji Feng naturally complied and came to the courtyard where his grandfather was located, not to mention what the important thing was, just to be able to make his father dictate so carefully, he thought it was not simple.

The fact is, Ji Feng heard a strong sense of concern from the hesitant tone of his father Ji Zhenhua's phone call, and he couldn't help but have a warm current flowing in his heart.

In fact, whether it is an ordinary citizen or a family in a high position, there may not be a strong bond between brothers and uncles, but between parents and children, there is always an inseparable emotion, after all, blood is always thicker than water!

However, although my father was worried, he did not say anything to stop it. Men are always subtle in the way they express their feelings.

In fact, even when the great man, his son wanted to go north to assist his neighbours in resisting Rice, the old man was still worried beyond measure, but did not say anything about it all the same, and finally he still fell in an air raid by Rice, the old man's grief could be imagined.

Ji Feng did not dare to compare his father to a great man, but this fatherly love he had for himself was not in the least worse than anyone treating his own son.

"Father, just rest assured, I will definitely come back alive, and I won't disgrace you!" Looking away from home, Ji Feng said secretly in his heart.

Once again, when he came to the courtyard, Ji Feng had already made light of the situation, but his car could only be parked in the hutong of the courtyard. No matter what your identity was, the two rows of loaded guards would faithfully and firmly adhere to their duties.

Want to break in?

Then you have to ask those guards about the automatic rifles in their hands first.

The first thing you need to do is to ask the guards for their automatic rifles.

It was the height of summer, and the robins on the trees were constantly chirping, as if to remind everyone that summer had arrived. The trees in the courtyard were lush and green, making the summer heat a little cooler and lifting people's spirits, which had been a little shrivelled up.

The old man is sitting on a deckchair under a tree, leisurely reading a newspaper.

Although the old man was reading it casually, it was clear to Ji Feng that the information he could discern between the lines of the seemingly bland newspaper was far beyond what ordinary people could imagine.

In fact, the information revealed in many of the news in this newspaper was extremely important.

Even though the old man had already retired and spent his days planting flowers and grass in the courtyard, as if he no longer cared about world affairs.

However, Ji Feng knew that those heads and brains would often come to report on the situation and ask for instructions. There was not a single decision that was of great importance that the old man did not give his nod. If the old man did not speak, it would be difficult to make those decisions and even more difficult to promote them.

Although the old man has retired, his every move still has an extremely important impact.

Therefore, lying on this recliner and resting leisurely, these leisurely moments that are readily available to other ordinary old people, are so rare for the old man.

Seeing Ji Feng approaching, Tie Jun suddenly appeared from nowhere, he looked at Ji Feng and shook his head slightly, signaling Ji Feng to keep quiet.

Ji Feng immediately nodded and smiled, he was just about to turn around and go to the front yard when the old man had already opened his eyes and said in a slow voice, "Little monkey, come over here!"

Swish!

Tie Jun immediately flashed his body and disappeared behind the big tree once again. His duty was to do his best to guard the old master's safety and ensure his daily routine. Now that the old man was awake, then he would naturally continue to be his shadow.

Ji Feng smiled heatedly, took two quick steps and arrived in front of the old master, smiling, "Grandpa, you're not asleep!"

"Am I asleep, don't you know, little monkey?" Elder Ji scolded with a laugh.

Ji Feng hemmed and hawed, the old man was right, Ji Feng's hearing was absolutely terrifying, he could naturally feel whether the old man's breathing was really steady or not. There was always a subtle difference between breathing when sleeping and when awake.

“Little monkey, we’re leaving today, right?” The old master suddenly asked.

Ji Feng nodded with a smile and sat down on the stone bench not far from the old man’s side and said, “Yes, we are leaving this evening.”

“At your mother’s place, you didn’t tell her, did you?” The old master asked.

Ji Feng nodded and said, “No.”

“You should have told her.” The old master said in a slow voice.

Ji Feng smiled, “Let’s tell her when we come back, otherwise, I’m afraid I won’t be able to go, and besides, there’s no time now.”

“Mm!”

The old master nodded noncommittally, and then suddenly asked, “Those little girlfriends of yours, have they all settled down?”

“What?” Ji Feng was stunned, those girlfriends? The old man had heard of what, where did he get ‘those’ girlfriends, weren’t they just Yu Xuan and Lei Lei?

“You have grown up, you have to learn to take up the responsibility you should.” The old man’s speech was slow. At this moment, the old man was like an ordinary old man who was giving his grandson earnest advice, teaching him the principles of being a man and how to deal with people.

Ji Feng’s nose was a little sour, he knew that this was the old man’s unique way of expressing himself, and that he was equally very worried about his going on this operation.

“You have too many women, that’s not good, don’t learn from those untalented boys little monkeys, men are too flirtatious, that’s irresponsible, remember?” The old man’s words turned and pointed directly at Ji Feng’s private life.

Ji Feng instantly sweated, he coughed dryly and said, “Grandpa, I’m not that unpleasant, I’m just a little naughty.”

“It’s good that it’s not.” The old man couldn’t help but smile and said, “Too many women can sometimes be a great strain on you, making you unable to let go and fearful, and in the end, no matter what decision you make, it will cause you a lot of pain. Jude remembered that this was the case with the old man”

The old man pointed at the sky.

Ji Feng immediately dawned on him, he naturally knew who his grandfather was talking about, he couldn’t help but nod slightly and said, “Grandpa, I’ve been taught.”

“Come on, you were criticised as soon as you arrived, you’ll be too scared to come in the future.” The old master laughed and said, “Little monkey, this time when you go out, learn more, see more and think more.”

Ji Feng knew that the old master was teaching himself, he listened carefully and did not interrupt.

“When you come back, also come to my place, so that grandpa can see what you have learned this time out.” The old man said at last.

“Yes, grandpa.” Ji Feng immediately nodded his head and said, “When I come back, I will definitely not let grandpa down.”

“You always have, I’ve never been disappointed,” the old master nodded in satisfaction, a smile covering his face, showing how much he loved this grandson.

Because time was too tight, Ji Feng did not stay at the old man’s place for too long, but until he left the quadrangle, Ji Feng did not hear the old man say anything particularly important about the arrangements, but only admonished himself about some precautions.

..... Perhaps in the old man’s mind, urging himself to be safe is the most important thing of all, Ji Feng thought secretly.

Of course, because of the limitation of the number of people, Ji Feng’s side could only bring at most ten people to participate, while the rest, were all people from Xiang Yongzhan’s side, as long as there were exactly how many people, Ji Feng did not know.

More than that, Ji Feng did not even know the target of the operation, the destination, and the process and plan of the mission until now. However, he did not ask more questions, because before he started to participate in the operation, this information was the most confidential, and once the news leaked out, the consequences were unthinkable.

Therefore, as long as it was not the moment of final departure, Ji Feng would not ask too much about it.

But according to the tone of voice of little uncle Ji Zhenping and father and grandfather talking to themselves, it seems that they already know what the target is this time, to say that father and grandfather know, that’s fine, but little uncle also knows the red arrow brigade and the special combat brigade of Jiangzhou military district to which Xiang Yongzhan belongs, that is separate from two different military districts, how the action of the special combat brigade, even the red arrow brigade knows, is there any secrecy to speak of?

The first time I saw it, I was able to get to the bottom of it.

Since he couldn’t figure it out, Ji Feng stopped thinking about it.

When he arrived at the Red Arrow Brigade’s station, Ji Feng called his younger uncle Ji Zhenping.

About twenty minutes later, Ji Zhenping’s security guard, Hui Yi, arrived quickly in a jeep, “Mr. Ji, please get in!”

Ji Feng nodded with a smile and quickly got into the jeep while asking, “Hui Yi, my little uncle is in the office, right?”

“The chief is at the training base.” Hui Yi said, “The chief ordered for you to go there as well, all the team members are already assembled there.”

The training room was still the same as when Ji Feng came last time, nothing had changed, the only difference was the number of soldiers in the training room, which was quite a lot more than the last time, the whole training room was almost too big to stand in.

“Little Uncle!” Ji Feng saw his little uncle Ji Zhenping standing at the door of the training room with a few instructors, and he immediately walked over with a smile.

“Brat, you have to call the big captain here.” Ji Zhenping grunted.

Ji Feng instantly lost his smile and said, “Fine! Senior Captain, I’m coming.”

Only then did Ji Zhenping nodded in satisfaction and said, “Now all the other team members are already gathered here except for those who are outside on a mission, so go in and pick as many people as you need.”

Chapter 635

Ji Feng shook his head and laughed, “Little Uncle, I don’t know all these players too well, it’s better for you to help me choose, ten people will do.”

“That’s fine.” Ji Zhenping nodded slightly and said, “Since that’s the case, then pick one person for each squad, you few, carry it out immediately!”

“Yes! Senior Captain!” Several instructors immediately stood at attention and shouted in response.

Ji Feng watched quietly with a smile on his face beside him. On the way here Ji Feng had already figured out that it was undoubtedly the best choice to leave the selection of people to Little Uncle, because not only did Little Uncle know these people in the Red Arrow Brigade like the back of his hand, but at the same time, he was also likely to know exactly what the contents of the operation he was about to take part in this time were.

Then, the people that Little Uncle helped to select would definitely all be the most suitable to take part in this operation, which was better than bumping around like headless flies by yourself.

“Report to the First Captain, the personnel have been selected, please instruct!”

Soon, the several brigade captains who had originally gone in had come out, and behind them were followed by ten soldiers with lean bodies and cold faces.

Ji Zhenping barked, “Ten of you come with me, the rest of you, continue training!”

“Yes!” Several instructors immediately bellowed in unison.

“Little Feng, let’s go.” Ji Zhenping waved his hand.

Behind them, the ten people who had been selected automatically formed a column and followed behind Ji Zhenping.

When Ji Feng got into the jeep with Ji Zhenping, he turned to look at the ten members who were running along behind him and could not help but frown slightly, saying, “Little Uncle, it’s not good to have them running and following behind, is it? It’s not a short distance from here to the office!”

Ji Zhenping grunted, "I used to run out like this, what's wrong with that? I think it's fine!"

Ji Feng laughed bitterly, but he couldn't say much about how Little Uncle trained these soldiers, so he could only change the subject and ask, "Little Uncle, how are these people doing with the gymnastic union?"

"You'll know soon." Ji Zhenping smiled faintly.

"What?" Ji Feng was a bit puzzled.

"Read on, you'll find the answer." Ji Zhenping waved his hand, but was unwilling to say more.

Ji Feng couldn't help but mutter secretly, little uncle was still playing mysterious with himself?

However, since Ji Zhenping was not willing to say more, Ji Feng naturally did not ask any more questions.

About twenty minutes later, Ji Feng realised that he would soon know exactly what his younger uncle meant when he said that he would know.

The ten members of the Red Arrow Brigade who were running behind the car had been running for twenty minutes straight, and were running right behind the jeep, definitely much faster than even those robed athletes. Yet, none of these men had fallen behind.

Not only that, after twenty minutes of fast running, these ten people did not show a trace of fatigue, all of them were full of energy, except for a little sweat and a slightly red face, there was no other sign of fatigue.

If it were an ordinary person, it would not be difficult to run for twenty minutes continuously, but it would be difficult to maintain such a high speed all the time. Even an ordinary soldier marching in a hurry might not be able to achieve such a speed, not to mention that these ten people could obviously be faster and could run for longer periods of time.

"That body-building exercise you taught, although it was very difficult to practice at first, I have to say that the effect is really surprisingly good, it's only been half a year, and it has already doubled their physical fitness by more than a fold, if they persist, the eventual achievement is really unimaginable." Ji Zhenping said with emotion.

Ji Feng nodded slightly and smiled, "Little Uncle, how many moves have they mastered now?"

"Less than half yet." Ji Zhenping said, "That's precisely why I'm so excited about their subsequent achievements, if they learn all of that body-building exercise you taught them, I won't be too worried even if I drag these people to the international special forces competition."

"Little Uncle, this idea of yours is biased." Seeing that Little Uncle was so excited, Ji Feng was a bit intolerant of hitting him, but had to say, "When you first practice this set of movements, the changes in your body are obvious, and the effect is indeed very good. However, as the practice progresses, the improvement in human body quality is slower and slower, and at the end of the day, even if one can do this set of body-building exercises skillfully, even if one also persists for several years, it is impossible to improve again like now."

“That’s surprising?” Ji Zhenping couldn’t help but be stunned, “I had envisioned it too well. According to you, this set of body-building exercises should just be able to bring the human body’s quality to a limit, and it would be impossible to improve it any further, is that right?”

Ji Feng shook his head slightly and said, “I don’t agree with the word limit, I think, it should be that a bottleneck has been reached, when the human body has improved to a certain level, wanting to improve again, and still using the same old method as now obviously the effect is not very obvious anymore, at this time, a new method should be used.”

Swish!

Ji Zhenping’s eyes instantly lit up, “Little Feng, you still have a new method?”

Ji Feng nodded slightly and said, “Actually this is just one method, only divided into several sets of movements, what these soldiers are learning now, are the first set of movements, there is a second set behind, and a third set When I return from this mission, I will give you the video of the second set of movements.”

“Really there?!” Ji Zhenping was immediately overjoyed and said, “Little Feng, you are doing me a great favor, if I can promote this set of training methods of yours to the whole army, by then the combat effectiveness of our troops can really be

When he said this, he couldn’t help but hesitate a bit again, slapping his thigh with hatred and his excited face a bit gloomy.

“Unfortunately, some people do not think like me ah, they treat the troops as their own family’s private army, the original simple barracks, but also to make a mess, if this method is taught to them hum!” Ji Zhenping snorted coldly, obviously indignant in his heart.

Ji Feng couldn’t help but be silent, what little uncle was talking about should be something at the top, although he didn’t understand it, he could also understand that absolute power was an absolute corruption of people.

When a person holds enough power, but no one can control him, or no checks and balances exist, then that person’s greed and selfishness will be extremely inflated.

The Chinese people’s human nature has always been a selfish strategy, and this is what is meant by the saying that each person should sweep the snow in front of his own door and not worry about the frost on others.

Even if some people have the ability to take care of it, they will turn a blind eye to it because of various factors. As long as it does not endanger them, why bother to offend others?

The middle way is a fine traditional virtue in China for thousands of years, but in many cases, this virtue, too, can become a liability.

“Little Uncle, in fact, not only in our China, but even in those countries like Rice, which prides itself on being a free country, isn’t this the same kind of thing happening?” Ji Feng laughed, “Wouldn’t it be enough to not let those who are too selfish get this kind of training method?”

“Easy for you to say.”

Ji Zhenping hummed and said, "Little Feng, you might not know that the emergence of this new training method has actually broken some of the balance within the military, many people are on the scent of it, how can those with selfish motives not be moved? Once the balanced pattern is broken, the power in their hands will be weakened, who will be willing to do so?"

Ji Feng shrugged his shoulders and laughed, "That wouldn't be something I need to worry about, you guys just need to tell me what to do instead, specifically why I should do it, it's not something I can consider and weigh up yet."

"My opinion is not to take out the second set of movements for the time being, and my side, even the first set of movements are not out there, there are many excuses well, such as being groping practice stage, or that this system of training methods are not yet used to mature" Ji Zhenping sneered The actual fact is that, in a word, it's not going to be passed on."

Ji Feng deliberated for a moment before saying, "In fact, I think that even if some people get it, it's useless, little uncle, I actually have another thing to tell you this time, that is, I promised Xiang Yongzhan that I would give him the training method."

"I already know about this matter." Ji Zhenping nodded and said, "Although the Xiang family is also mixed, at least, their hearts are still good."

Ji Feng laughed, "However, the training method I gave them is the easy version"

"What?" Ji Zhenping was stunned.

Ji Feng nodded and said, "That's right, according to common parlance, it's a training method that lacks pounds and pounds, the effect is equally good, however, it's unlikely to reach much height, even with the subsequent training method, at most, it can be similar to the effect of mastering the first set of movements under normal circumstances."

In fact, before Ji Feng made the deal with Xiang Yongzhan, he had already agreed with the intelligent brain to simplify the bodybuilding exercises, and modified all those important movements, before finally forming a simplified version of the bodybuilding exercises.

The gymnastics provided by the intelligent brain is probably unique in the world, so how could Ji Feng easily take it out?

Everyone has selfishness, and Ji Feng was no exception either. The fact that he was able to take out the simplified version was actually quite good. You know, for an ordinary person, maybe this set of bodybuilding exercises is just a set of fitness moves, however, for an army, this can raise their single combat ability to a breathtaking height.

Different things, to different people, are naturally of different value.

The body-building exercises that Ji Feng provided, even if they were a simple version, were naturally of inestimable value to Xiang Yongzhan.

"You kid" Ji Zhenping excitedly patted Ji Feng's shoulder, "Kid, you've helped me solve a big problem, little uncle really didn't love you for nothing!"

Ji Feng instantly smiled, dare to say that he completely helped him solve the trouble, this is not in vain pain, before there is no credit?

Chapter 636

In a nondescript building in the western suburbs of Yanjing, a few people were talking about something under the bright lights, gathered around a map. The two of them were none other than Ji Feng and Xiang Yongzhan.

This was a very dilapidated area of private houses, and few people would come here.

It was a bit gloomy during the day, but at night it was equally gloomy, making people's hearts shiver.

However, few people know that this is actually a military base, but it is not on the surface, but in the vast underground space beneath the dilapidated dwellings.

Ji Feng and Xiang Yongzhan are currently in one of the underground rooms, although from the surface, this residence is dark and looks chilling and hairy. However, where Ji Feng and Xiang Yongzhan were located, there was a bright light.

In front of the two of them was a military map the size of a square table. On the map, there were dense markings everywhere, and in one of them, a red circle was drawn, and on top of the circle, a red cross was drawn!

And the first words of Xiang Yongzhan sent a shock through Ji Feng's heart.

Taking the map away and spreading it on the table, Xiang Yongzhan said indifferently, "The target of this operation – Western Xia!"

Swish!

A strange light flashed from Ji Feng's eyes, and he couldn't help but look at Xiang Yongzhan in surprise and asked, "I said, is there such a place in our China? Western Xia? Isn't this an ancient dynasty?"

"This time, the operation may be very dangerous because according to the intelligence sent by our personnel, one of the branches of Western Xia within our Chinese territory may have fully hundreds of people" Xiang Yongzhan, however, did not answer Ji Feng's question, but continued to introduce some of the circumstances of this operation.

"What is worth noting for everyone is that the other side is not only large in number, but more importantly, they are all very strong in combat, or at least, their single combat ability should not be any worse than ours." Xiang Yongzhan said, while giving Ji Feng a meaningful glance and a grin, "According to the intelligence, the primary transformers that the other side has this time, there might be a dozen of them, the exact number is yet to be checked in detail, but this is already enough to draw our attention."

Transformed people?

Ji Feng was a little bit confused by Xiang Yongzhan's meaningful smile, and he couldn't help but ask in confusion, "What transformers? Could it be that we are not going on a mission this time, but are going to make some kind of science fiction movie?"

In fact, just after hearing about transformers, a name immediately popped into Ji Feng's mind – Dynasty!

Ji Feng had once met a Transformer with his own eyes, and it was in that car accident in Jiangzhou that was created by him, but of course, the purpose was to save He Hongwei's life.

Later on, in the Royal Club in Yanjing, some lubricating fluid was seen, and I think it was also used exclusively by those reformers, because warmth once said that she witnessed the foreigner taking his arm down and rubbing something without a doubt, it must have been rubbing lubricating fluid.

Apart from that, Ji Feng could have never heard of any transformers again.

But he couldn't imagine that the operation he wanted to take part in on a whim this time was actually related to reformers again.

"Could it be that there are other organisations or countries that have reformers apart from the dynasty?" Ji Feng couldn't help but secretly wonder, but it was not a good idea to ask this, because the matter of the dynasty was too important.

Xiang Yongzhan seemed to see the doubt in Ji Feng's heart, he said bluntly, "Ji Feng, it's not the first time you've dealt with reformers, talk about your views and insights on dealing with reformers."

Ji Feng couldn't help but be stunned, "Where do I have any opinions, Grand Duke Xiang, what the hell are you up to?"

Xiang Yongzheng laughed: "Ji Feng, since we've come to this point, there's no need to hide anything, right? Tell us."

Ji Feng instantly understood that his own actions in Jiangzhou and Yanjing had not escaped the eyes of many people with a heart, and among these people were the Xiang family and even Xiang Yongzhan.

In fact, if you think about it, Ji Feng, as the eldest grandson of the Ji family in Yanjing, once he surfaced, it would be difficult not to attract attention, and what he did was even more attention-grabbing, because everyone knew that his every move might represent the overall intention of the Ji family, and the attitude of this pang was naturally striking and a cause for concern.

If the Ji family were to make any major moves, I am afraid there is no telling how many people would not be able to sleep at night and would be anxious.

But the Ji family is in the hands of Elder Ji and Ji Zhenhua, both of them are what they are, almost all of them are sophisticated old foxes, their thoughts are beyond the reach of others to speculate, the only one who is concerned about the younger Ji Feng.

In fact, Ji Feng's disguise in Yanjing was not too successful, only those who did not get specific information would really think that he was just an out-of-touch dude, while those who knew Ji Feng's true character would never think so.

When Ji Feng first returned to the Ji family, he was incomparably strong, causing the side line to lose face, and even causing the leading figures of the side line, Ji Shao Hong and Ji Shao Jun, to suffer defeat in front of him.

How could such a person be some useless fop?

So, Ji Feng's actions still fell into the eyes of those who had a heart.

And naturally, his two encounters with the reformer could not be concealed from some people, only that everyone kept quiet, just looking at it and keeping it in their hearts.

But now it was different, it was time for action, so naturally Xiang Yongzhan couldn't let him hide anymore, who in Yanjing didn't know Ji Feng's formidable hands?

Ji Feng also thought about this, and he laughed in relief, "To say that I have experience or something like that, I can't talk about it here, after all, I have never fought the transformers you guys are talking about head-on, so I have no idea whether the other side is strong or weak, nor do I know any other specific information."

"But one thing I do know is that transformers can die too, they are not invulnerable to swords and guns, I once accidentally ran over one."

The others burst into laughter.

Xiang Yongzhan said, "In fact, what Ji Feng said is exactly what I want to say, transformers are also afraid of death, and they are not invulnerable to swords and guns, primary transformers, they have a fatal weakness, that is, the metal used to cast their spine, the quality is not up to par, or rather, the technology is not too advanced, so their spine is fragile, a violent impact is enough to make their spine break"

The first thing you need to do is to take a look at the actual experience you've had with the transformers and pass it on to everyone in the room, just like he said.

The more I listened to Xiang Yongzhan, the more I felt that the Xixia they were talking about was so similar to the dynasty?

Both are such ancient names, Xi Xia is a frontier imperial dynasty in ancient China, and dynasty, the same is the name of the ancient imperial era are transformed people, both have broken vertebrae the Xi Xia they are talking about, should not be the dynasty that they know about, right?

I don't dare to think about it again, Ji Feng again dispelled himself of this idea, West Xia and dynasty may have a connection, but it may not be the same place, otherwise, Xiang Yongzhan they directly call it dynasty not on the line, why need to say West Xia?

Xiang Yongzhan finished all the notes before saying, "When you guys go back, make sure you tell your teammates about this information, the other side is not weak, we don't want to touch the bad luck.

"Yes, I remember!" All of them shouted and answered.

Ji Feng turned his head and said, "Gu Chao, remember what Captain Xiang said, and make sure to instruct the brothers below you properly later."

“Yes.” A sturdy man immediately answered.

This was a young man of twenty-six or seven years old, his head was even vaguely taller than Ji Feng’s, his face was cold, his short hair was up at the roots, he looked in great spirits, and at first glance, he was an absolute soldier.

Gu Chao, was the temporary captain of those ten men that Little Uncle Ji Zhenping had helped to select, and was highly praised and trusted by Little Uncle.

So after Ji Feng took over the ten men, he also made Gu Chao the captain, and since Little Uncle had such trust and praise for him, there was naturally no problem with his ability.

Ji Feng nodded again with a smile and asked, “Grand Duke Xiang, are there any other arrangements?”

“Yes!”

Xiang Yongzhan said, “Ji Feng, because this time there are two separate units, the Special Warfare Brigade and the Red Arrow Brigade, participating in the operation, in order to facilitate the operation and command, I intend to lead a separate operation team with you, and we will work out a plan for joint operations, what do you think?”

Ji Feng didn’t have any experience in this operational matter, so since Xiang Yongzhan said so, he naturally wouldn’t have any other opinions, so he nodded and said, “You can just decide on such matters.”

“Alright then, the others will go to gather and prepare first, you captains, make sure you remember to pass on all the words I just said to everyone.”

“Yes!” The rest of the few people all immediately answered, including Gu Chao, everyone quickly left, leaving only Ji Feng and Xiang Yongzhan in the room.

“Our trip to Western Xia this time might not go too smoothly, has the family all settled in?” Only after everyone had left did Xiang Yongzhan relax and casually took out a cigarette, handed it to Ji Feng and asked with a casual smile.

Ji Feng, however, frowned and asked, “I want to know, what is Western Xia?!”

“Xixia?”

Xiang Yongzhan couldn’t help but be stunned, “You don’t know what Western Xia is? Then after you had contact with the dynasty before, your family didn’t tell you about the dynasty?”

Ji Feng shook his head slightly and said, “I am a person who can’t sit still, as long as my family members are lecturing, I threw away had known that our operation this time had something to do with the dynasty, then wouldn’t it have been much better if I had listened carefully in the first place!”

He said this half-truth, his family told him it was true, but there was no mention of Xixia, he had some premonition that this so-called Xixia, might be important!

Chapter 637

Hearing Ji Feng's words, Xiang Yongzhan also couldn't help but smile slightly, he naturally knew that not many of these gentry boys like to be lectured by their parents, basically for their parents' words are more into the left ear and out of the right ear, it's strange to be able to take it to heart.

"Simply put, Xixia is a division of the dynasty." It wasn't time to leave yet, so Xiang Yongzhan planned to introduce it to Ji Feng, anyway, these things Ji Feng would definitely know sooner or later, besides the two of them are now comrades in arms, in such issues, it is best not to hide anything.

"The branch of the dynasty is Western Xia? What does that mean?" Ji Feng asked, stunned.

"Do you know what Huaxia is like now?" Xiang Yongzhan suddenly asked.

"What?" Ji Feng was stunned.

"The current China is like the Great Song, which has been weak for a long time, although it can still be considered affluent, but the country is not strong, the force is not strong, and there are countless tigers and hungry wolves around it watching." Xiang Yongzhan said, "Simply put, China is like a piece of fat meat that anyone would like to come and take a bite."

"Then what about the Western Xia you mentioned?!" Ji Feng asked with a frown. Even though he knew that what Xiang Yongzhan said was the truth, China currently seemed to be strong, but in reality it was just weak, and anyone dared to come and bully it twice, even a few nearby neighbours that were too small to be provoked by China, which was indeed very irritating.

However, it still made Ji Feng feel very uncomfortable when this came out from the mouth of Xiang Yongzhan and others.

You are a soldier, how can a soldier say such demoralising words? Even if it was the truth.

"I've just said it, the so-called Western Xia is actually a branch of the dynasty around China, they named it as Western Xia, that is, they see China as a piece of fat meat and want to nibble on it hum, and they are not afraid of chipping their incisors with too big an appetite!" Xiang Yongzhan said disdainfully.

Ji Feng frowned and asked, "You mean to say that the dynasty is targeting China?"

"I don't know about that, I only know that the existence of Western Xia threatens the security of our country and the safety of the people, as soldiers, we have the obligation to protect our country." Xiang Yongzhan said forcefully.

Ji Feng nodded thoughtfully, but in his heart he vaguely understood something.

Dynasty should be the general name of an organisation, and each of its divisions, with a different name, like this time, the target of himself and Xiang Yongzhan, Xixia, was the name of a division.

Ji Feng had to admit that if the Dynasty was really just an organisation hiding in the darkness, then its appetite was really too big, it actually dared to target a country.

If you want to make money, where can you not?

No matter which place or line of work, you can make money, why do you have to go against a country?

Even if a country is weak, once all its forces are mobilised, it is still terribly powerful.

Of course, if it were some small countries in Africa, a few hundred soldiers could overthrow the regime of those countries, and with the power of the dynasty, it would definitely be able to turn the clouds into rain, naturally it cannot be compared to China.

But China is not one of those small countries. Even if the nation is weak today, once it explodes, the power is not something that can be resisted by a single organisation.

“The dynasty is either crazy, or they really have something else to fall back on.” Ji Feng secretly guessed, and to be able to let the dynasty regarded as a reliance, and dared to use this to strengthen the courage, dare to take on the Chinese nation, such a power, the world is only a few, in the end who is behind the dynasty, that is naturally a clear picture.

Of course, if the dynasty is not backed by any force, but its own leader has gone mad, and the members of this organisation have gone mad, then it is another story.

“What is our goal this time?” Ji Feng opened his mouth and asked, “Is it to destroy the other party’s branch, capture some of its people, or just wipe it out?”

Xiang Yongzhan raised an eyebrow and said, “Capture the leader, capture the rest if you can, if you can’t

He didn’t say how to do if he couldn’t catch them, but his hand was his own neck in front of making a beheading pose, that meant obviously, if he couldn’t catch the live ones, then he would turn them into corpses!

Ji Feng couldn’t help but frown slightly, he was more or less uncomfortable with this kind of coldness, even though it was just talk, he could only change the subject and asked, “When will we leave?”

“When the plane is ready.” Xiang Yongzhan said, “Go and rest first, get your strength up and wait for the thunderbolt.”

Ji Feng smiled, “Call me when we leave.”

Returning to the lounge along the brightly lit corridor, Gu Chao and the others were checking their weapons, and when they saw Ji Feng enter, they stood up at once.

“All rest first.” Ji Feng smiled and waved his hand, casually sat down on a chair and asked, “Are they all ready?”

“Little Chief, it’s all ready.” Gu Chao immediately stood up and said.

Ji Feng smiled, “You guys don’t need to be so polite, my name is Ji Feng, you can just call me by my name directly.”

He was really ashamed of the three words “Little Chief”, it was better to call him by his first name to sound comfortable.

However, Gu Chao and the others refused, and Ji Feng said, “This is an order.”

“This

Gu Chao and the others looked at each other, but they refused to agree.

A rather smart-looking soldier stepped forward and said with a smile, "Little chief, if you don't admit that you are the chief, then how can we listen to your orders?"

Ji Feng couldn't help but smile, he remembered this soldier's name, I think it was Liu Xin, because of his super fast reaction, which had left a deep impression on Ji Feng.

Ji Feng laughed, "Then, I will order you as chiefs to call me by my name directly, and not to call me Little Chief or Chief in the future, is that alright?"

"Yes!"

The ten men answered in one voice.

Gu Chao thought about it and added, "We won't call you Chief, but it's not good to call you by your first name, how about this, why don't we just call you Sir, Mr. Ji."

"Yes, yes, that's a good name." Liu Xin laughed.

The others also nodded in agreement and echoed their voices.

Ji Feng could only nod his head and smiled, "Alright then, let's call it that from now on, it's just a name, there's no need to be so serious."

He couldn't help but feel a little strange in his heart, from the first time he met these ten people, he noticed that the way these people treated themselves seemed a little off, they were a little too enthusiastic.

It seemed like he didn't have any dealings with them, was it because of little uncle?

"Sir, you can rest first, I'll call you when it's time to leave." Gu Chao smiled and said.

Ji Feng nodded slightly and said, "Then it will be hard for you guys."

"No hard work, no hard work." The others said one after another.

Ji Feng couldn't help but wonder, these people's attitudes were a bit too nice, which was a bit strange. But he couldn't directly go and ask, "Why is your attitude so good?"

This kind of idiotic question was something that Ji Feng naturally couldn't possibly ask. He shook his head slightly and smiled kindly at Gu Chao next to him before he closed his eyes slightly.

Gu Chao and the others looked at each other and could not help but smile heartily at the same time.

In fact, the reason why Gu Chao and the others had such a good attitude towards Ji Feng, and could even be said to be so respectful, was not because of Ji Zhenping, but because, the set of training methods that Ji Feng had imparted to them had caused their physical quality to soar after they had persistently practiced for most of the year, and they had shone in the military district competition.

And they, too, could clearly perceive that they were getting stronger.

And at the same time, they likewise remembered clearly the powerful look when Ji Feng had defeated all the instructors in the training room.

This was what they really respected about Ji Feng. In the army, the strong are always worshipped, and since Ji Feng was truly strong, he would naturally gain the respect of others.

Ji Feng also casually picked up an automatic rifle, quickly took off all the parts of the gun and wiped it down skillfully, that perverted speed, the others couldn't help but look stunned.

In fact, to Ji Feng, this was no speed at all, at this point he was acting completely subconsciously, these skills of dismantling firearms had long since become his instinct. Not to mention the most basic firearms like this, even heavy weapons like laser cannons, he could disassemble them almost without thinking.

Of course, right now, even if he wanted to, there was no laser cannon for him to disassemble.

And the reason why Ji Feng's speed was not too fast now was simply because his mind was still thinking about other things.

Through Xiang Yongzhan's words, Ji Feng finally understood why his father and his second uncle did not deny the matter of the dynasty when he mentioned it, and they did not even have any half-hearted worries to speak of.

Only now did Ji Feng realise that it was not that the top brass above did not do anything, but that they had already had a targeted strike against the dynasty. This could be heard from Xiang Yongzhan's words, their actions against the dynasty were definitely not the first time, otherwise, otherwise, Xiang Yongzhan would not be so familiar with the reformers, and even grasp their structure and weaknesses.

If he hadn't seen a Transformer with his own eyes, Xiang Yongzhan would never have been able to speak so accurately and clearly about the Transformer's weaknesses.

Moreover, for many things about the dynasty, the top obviously knew much more than he did, and Ji Feng was even speculating whether the top had started taking action against the dynasty since a long time ago, and this action was just one of them.

Ji Feng couldn't help but be glad that he had offered to take part in the operation when negotiating with Xiang Yongzhan, otherwise, he would certainly have missed out on a lot of excitement.

"Dynasty ah" Ji Feng couldn't help but sneer, no matter what Dynasty was up to or how ambitious this organization was, but there was always one thing, China seemed to be weak, but in reality, this nation, was definitely not as weak as it appeared to be.

Even at its weakest, when the island invaded and the beacons were burning, the backbone of the nation was still so straight and strong.

The Chinese nation, has it ever bowed its head?

Ji Feng was reminded of the words of a foreign writer who commented on China.

This nation, in her most difficult time, some people betrayed her, some abandoned her, and some even humiliated her. But many more have willingly fought for this nation in blood, and her backbone has never been bent.

No nation has ever had so many people love her as the Chinese nation!

Chapter 638

“Quick! Keep up, be quick!” A yell rang out in the silent underground space, followed by a rapid and neat sound of footsteps coming quickly, as if a thousand horses were running again in this night.

The short moments before dawn are always the darkest of times.

In this darkest of hours, a low rumbling sound suddenly came from a certain dilapidated residential area on the outskirts of Yanjing.

If one came here in the daytime, one would have noticed that a not too wide dirt road in the middle of this residential area had slowly split down the middle.

Immediately afterwards, a light emanated from the crack, making the darkest part of the night brightly lit and the surrounding dwellings clearly visible.

The crack continued to widen, and when it reached the end of the residential area, a smooth passage, sloping upwards, emerged so abruptly that anyone who saw it could not help but marvel at it. For no other reason than the fact that this 30 or 40 metre wide crack reveals more than just a dramatic change in the ground.

From above, the dwellings appear as one, moving slowly and simultaneously, as if they were two doors lying on the ground, being slowly pulled open from both sides!

Beneath the dwellings was a huge underground space, just the sloping upward passage, which seemed to be a couple of kilometres long, not to mention the various facilities and other spaces at the end of the passage.

This is simply an underground world!

Buzz~~!

With a roar of engines, a military transport plane, appeared at the end of the passage and began to climb rapidly along it.

As the transport plane broke out of the runway and disappeared into the night sky, the residential area moved slowly in the opposite direction once again, and eventually, it came together with a bang, with no trace of anything else except for the road, which was still a bit muddy and bumpy.

The underground military base disappeared once again.

In the transport plane, Ji Feng and Xiang Yongzhan sat side by side, both of them uniformly changed into camouflage uniforms, wearing steel helmets on their heads and holding automatic rifles in their hands, the only difference from the other soldiers was that both of them had a dark yellow cloth belt tied around their right arms. This is a special kind of cloth belt that shows up under infrared detection.

And under visual inspection, it is likewise more visible.

In this operation, a total of thirty soldiers were deployed, which also included Ji Feng and Xiang Yongzhan.

The rest of those twenty-eight were all elite warriors who had been through a hundred battles, only that the Red Arrow Brigade had previously been responsible for carrying out other missions, and this was the first time they had dealt with the dynasty's transformed people, so Gu Chao and the others were all a little excited and at the same time a little curious, asking the people from the special operations brigade about what kind of monsters those transformed guys were.

Listening to those people whispering, Ji Feng couldn't help but laugh, "Actually, just listening to the verbal descriptions, one can never imagine what it's really like to have people whose bones are made of metal all over their bodies, after all, that's too hard to imagine."

Xiang Yongzhan nodded approvingly and said, "One has to admire those bastards from the dynasty, they can actually take a living human being and turn him into a monster, and still make their combat power so many times stronger."

Ji Feng laughed, "But you have to admit that their level of technology is still quite good, to be able to replace all of a person's skeleton with metal and still be able to move around freely is a technological advancement of sorts."

"Hm. If turning people into monsters is considered progress, then it can only be described as a sadness." Xiang Yongzhan grunted, "I have dealt with transformed people several times before, and I have found a pattern, but all those who have been transformed appear to be very rampant and extremely ferocious, despite the cruelty of war, monsters like them take this cruelty to the extreme."

"This is perhaps a broken mentality, one can no longer be a human being, and that kind of pain is perhaps the root of their berserkness." Ji Feng laughed.

"Maybe so."

Xiang Yongzhan nodded slightly, sort of agreeing with Ji Feng's words, "But some people are not like that, I once met a reformer, that was the first time I saw such a monster, we caught him, and it turned out that the man was so strong that it was unimaginable. He could easily throw a man ten metres with one hand, it was as easy and simple as throwing a brick.

Only, this person, however, did not volunteer to be a transformer, he was caught and transformed unconsciously, but after the transformation was completed, their bodies were filled with biological bombs, and as soon as they dared to disobey orders, the bombs in their bodies would immediately be detonated, and they would end up being blown to pieces, not even a single intact limb could be left behind."

"That person, is he a Chinese?" Ji Feng frowned and asked in a deep voice.

He very much hoped that Xiang Yongzhan would shake his head, it was already very sad to be transformed, it was equally very sad to watch one's own kind being transformed into a monster, but if the person being transformed was also one's own compatriot, that kind of sadness would be even more unacceptable.

However, Xiang Yongzhan nodded and said, "It's a Chinese."

"Damn." Ji Feng snorted coldly.

Xiang Yongzhan nodded and said, "Do you know why I've been targeting the dynasty for the past few years? And this time, it must be to destroy Western Xia?"

"To eradicate this organisation?" Ji Feng asked.

"This is only one of my purposes, in fact, my other purpose is to find a proven method to deal with the dynasty, I don't believe that the dynasty is only one kind of reformer, there must be others, we just haven't used to discover them yet, I want to accumulate more experience so that I can extend this experience to the whole army, in the future, even if we really go to war I want to gain more experience so that we can spread this experience to the whole army, so that in the future, even if a war does start, we won't be at a loss."

Xiang Yongzhan said indifferently, "What's more, since these bastards of the dynasty established the Western Xia, this is only just over a year, there are dozens of Chinese people missing, obviously captured dare to use our Chinese people for transformation experiments, I will not let this devil's cave go!"

Ji Feng frowned, "Western Xia is also conducting experiments on transforming people?"

"If the intelligence is not used wrong, they are indeed conducting experiments on transformers, and they are said to be working on even more advanced transformers." Xiang Yongzhan nodded and said.

Ji Feng was stunned, "More advanced transformers?! By the way, I also heard you say something about primary transformers before, could it be that transformers are also divided into levels?"

"Primary reformers, they can only be injected with a drug that makes their muscles harder and can explode with great strength, at the same time, the bones in their hardest parts have all been replaced with metal, this kind of people, ordinary good soldiers would not be their opponents, very powerful."

Xiang Yongzhan described in detail, "But this kind of reformer has a huge flaw, that is, their strength and speed, are derived from the overdraft of life, all such people generally have a short life span and limited power, we will call them primary reformers."

"What about the advanced ones?" Ji Feng asked.

"Perhaps the level of technology in the dynasty has developed tremendously, the advanced transformers, the ones you saw in Jiangzhou back then, there is not a single bone in their entire body that is not metal, the power of such people is much more powerful than the primary transformers, and their lifespan is also much more long." Xiang Yongzhan slightly asked for his head and sighed softly, "But this kind of transformed human, however, is not the best."

"There are even higher grade transformers?!" Ji Feng asked in astonishment.

This primary reformer and advanced reformer were already very powerful, especially the advanced reformer, whose bones were all metal, so that their strength and speed, could be imagined.

Now there are actually even more advanced transformers, does this still make those other soldiers live?

"According to the intelligence, what Western Xia is doing now is an even more advanced transformed human. According to our speculation, this kind of transformed human, should have bones all made of metal, and the flesh and blood all over their bodies should be special biological tissues, which are not afraid of gunshots and knife cuts at all. Moreover, even if they are wounded, as long as they have

energy, they can recover in the shortest possible time.” Xiang Yongzhan said, “I also don’t know if they have developed it successfully.”

“Isn’t that Wolverine?!” Ji Feng felt that his scalp was a little fried, if a large number of Wolverines appeared in this world, if they couldn’t be beaten and killed, who would still be their opponent?

Xiang Yongzhan snorted coldly, “I don’t care what kind of wolves he is, even if they are hungry wolves, as long as they dare to do wrong within China, I will definitely scrape them alive!”

“Impressive!” Ji Feng gave a salty praise, but in his heart he didn’t have much confidence in getting rid of them, with the way the dynasty acted, I’m afraid it wouldn’t be that easy for the others to catch the pain.

What’s more, according to Xiang Yongzhan, those transformers were equipped with biological bombs in their bodies, so that they were simply killing machines.

They had minds, they could think more than robots, they were more powerful than ordinary warriors, and when the two were combined, who else could resist?

“Ji Feng, since this is your first time participating in this kind of operation against the dynasty, this time you’ll take the Red Arrow Brigade and set up on the side, while me and the others take care of the main attack, what do you think?” Xiang Yongzhan asked.

Ji Feng instantly asked with a smile, “What, still afraid that I’ll steal your credit?”

“I am well-meaning.” Xiang Yongzhan said sincerely, “The horror of reforming people, you will know after you have experienced it yourself, then you will understand that I did not use exaggerated words, and that such a decision is for your own good, for the good of your soldiers.”

Ji Feng harrumphed and said, “Don’t worry, I understand what you mean. Then let’s do what you want, and when you’ve finished with all the strong enemies in front of you, I’ll help clean up the battlefield and catch any fish that slip through the net by the way.”

Chapter 639

When Ji Feng and his group arrived at the western border of China, the transport plane had landed about one or two hundred kilometres away from the military base, and under the leadership of Xiang Yongzhan, Ji Feng and the others directly entered the Gobi Beach and disappeared into the vast desert.

At the same time, a certain department in China openly declared to the public that it would conduct a practical exercise in a certain area in the west some time in the future, aiming to strengthen the cooperation between our mountain division and other military types in actual combat, and also to accumulate experience in desert combat to keep up with the times

The world has been speculating whether this live exercise is a deterrent in response to a certain country in the northwest’s overreaching remarks about Chinese territory some time ago.

This is because from the configuration of the troops announced by the authorities, the time of the exercise and the exercise plan, this time, the actual exercise is completely aimed at a certain country’s elite troop types to study the method of restraint

But very few people know that this military exercise is actually just a cover for the operation of a small army, to divert the attention of the outside world, to confuse the public, or even to let the Western Xia let down its guard and give this small army an opportunity to take advantage of it, so that they can accomplish their mission better and easier.

.....

Yanjing, the Royal Club.

Inside a clean office, a man with a mask on his face half reclined on a soft sofa, looking at a newspaper in his hand, a light flickering in his eyes.

On the opposite side of the coffee table sat a man and a woman, the man was none other than the terrifying foreigner that Cozy had once seen at the Royal Club, while the woman, was none other than Ji Feng's arch rival, the second generation leader of the Qiao family today – Qiao Rong.

"A military exercise?!" The masked man casually threw the newspaper on the coffee table and said in an indecisive voice, "What is the Chinese high command up to again? Qiao Rong, for this information, you should more or less know something about it, right?"

Qiao Rong deliberated for a moment before asking cautiously, "Lord in charge, this military exercise, it has something to do with us?"

She really didn't know how the Lord-in-Charge could pay attention to this boring military exercise, this kind of thing happened almost a few times a year, as the leading figure of the Qiao family, how could Qiao Rong focus on this?

What she usually concerned about is just some changes in the current situation, or who has been promoted, who has been demoted and things like that, concerned about the rise and fall of her own family and when the Ji family will be unlucky.

It would take days and nights to talk about Qiao Rong's hatred for Ji Feng, based on all the grudges between her and him. Since her son was beaten up twice, until this last time he never got up from bed, and is still paralyzed in bed, almost broken in spirit, Qiao Rong simply hates Ji Feng to the bone.

The two had a personal vendetta that could never be resolved.

And her hatred for the Ji family was likewise extremely strong. In fact, the root cause of Qiao Rong's enmity with Ji Feng still lay in her grudge against the Ji family, only that it was difficult to make these things clear even now.

In fact, even if Qiao Rong knows that the fault lies with her, she will never admit it, some people are like that, the mistake is always someone else's and the grievance is always their own.

Therefore, Qiao Rong even didn't miss any opportunity to hit Ji Feng, the more unlucky Ji Feng was, the happier she would be. If the Ji family suddenly collapsed now and the building came crashing down, Qiao Rong would definitely throw a feast and celebrate in a big way for three days and nights.

Just like now, she still did not forget to strike Ji Feng.

“Lord in charge, is this military exercise against us? That must be the Ji family’s stunt!” Qiao Rong was actually still a shrewd woman, because she heard that the tone of the lord in charge was a bit unkind when talking about the military exercise, so she immediately realised that the lord in charge was angry, so she simply directed this anger towards the Ji family, whether it was related to the Ji family or not anyway, and gave the lord in charge a preconceived impression first.

If Ji Feng had heard these words, he would have admired Qiao Rong, no matter what dirty water it was anyway, throwing it on the Ji family first, this was the highest level of false accusation ah.

“The Ji family?”

The masked man sneered and said, “You’re right, the Ji family is definitely not off the hook in this matter either, which decision at the top of China’s hierarchy doesn’t have the shadow of these few giants?”

“Lord in charge, so should we now give the Ji family a taste of their own medicine?” Qiao Rong immediately asked, “I heard that that little beast Ji Feng has arrived in Yanjing, we can’t move the Ji family for the time being, but we can totally start with Ji Feng’s body. As long as Ji Feng is in trouble, the Ji family will definitely be left to fend for themselves, and by then”

“That’s enough!”

The masked man snorted coldly, interrupting Qiao Rong’s gushing words, “Qiao Rong, I have already said that the first thing we have to deal with now is the He family. If you dare to lead this nonsense again, I will definitely not let you off, don’t make me repeat it a third time!”

Qiao Rong was instantly frightened and her body trembled as she said in a panic, “Yes, Lord in charge, I won’t do it again.”

The masked man’s tone softened slightly and said, “I know you hate the Ji family, but now is not the time. In modern times, the economy comes first and the military assists. If the military in China is out of our reach for the time being, we must first take down the He family, the leading commercial player, and everything else, can be pushed back, remember?”

“Yes, Lord in charge.” Qiao Rong secretly hated in her heart, but her mouth dared not say anything.

“This military exercise, looking at its troop configuration, is obviously aimed at San’s elite troops. This should be a signal sent out by the top brass of China, as a way to show their tough attitude, and also a response to San’s provocation some time ago.”

The masked man analyzed indifferently, Qiao Rong and the tall foreigner did not dare to speak, but just listened quietly.

“All these, are the speculations of the domestic and foreign media and some military commentators, but I always feel that behind this military exercise, there should be some other intention, we just don’t know it yet” the masked man mused, whirling and raising his voice: “Qiao Rong, give you a task: make sure you find out what other intentions are hidden behind this military operation in China in the shortest possible time!”

“Yes, Your Excellency!” Qiao Rong immediately replied.

"This matter is settled, how is our plan to target the He family progressing?" The masked man asked again.

Qiao Rong said cautiously, "Lord Supervisor, I have made tentative contact with the people of the He family, that He Hongwei is too shrewd, although he looks civilized and wears a smile all day long, no matter what he does, he does not move, this person is very difficult to deal with. However, his younger brother, He Hongqiang, is something that can be used."

"Go on." The masked man said.

"Yes."

Qiao Rong continued, "He Hongqiang is a famous fop in Yanjing, like his uncle, and is known as the big and small fop of the He family, both with heads and no brains, so I was thinking, can we start with He Hongqiang as well as his uncle's body?"

"Oh?" The masked man became somewhat interested, "And how do you intend to do that?"

"Your Excellency, I plan to use He Hongqiang and his uncle as a breakthrough to find evidence against them, and try to kick He Hongwei out of the chairmanship of the Tianyao Group, and at the same time, get his father to move, then I will use some connections to try to get a loser to take control of the Tianyao Group, at that time, Your Excellency will then use the strong economic power of the organisation, enough to use the fastest the fastest speed to destroy the Tian Yao Group."

Qiao Rong kept analysing, the more she spoke the brighter her eyes became, "As long as the Tianyao Group falls, then some other private capital will not be able to resist much!"

"This is not a bad idea, but after all, He Hongqiang and his uncle, are only two insignificant figures, the organisation has thought of starting with them before, but all that was gathered was something insignificant, how can you find evidence that can bring down He Hongwei as well as his father?" The masked man asked.

Qiao Rong said, "What Lord in charge said was that He Hongqiang and his uncle were indeed just two assholes, irrelevant, and even if they had made any mistakes, no one would deliberately make things difficult for them. However, they were nonetheless fops, the direct descendants of the Ho family. If they make an unforgivable mistake, I'm sure the others will speak up, because the whole of Yanjing is not an ironclad family, and the conflicts are still fierce."

The masked man frowned slightly, "Committed an unforgivable mistake?"

"Yes, Lord in charge, but it will take us to guide them," Qiao Rong said meaningfully.

The masked man burst out laughing, "Good, this is a good solution, it seems that I was limited in my gaze before, I just didn't think of this solution Qiao Rong, you are really a full-fledged conspirator."

"It is my honor to serve the Lord in charge." Qiao Rong immediately said with a smile on her face.

"Hm!"

The masked man nodded in satisfaction, "For the sake of you being so loyal to the organization, the organization will not treat you badly Regarding your son's injury, I have already applied to the

organization and a specialist will arrive soon, and by then you will definitely be returned to a living, breathing son!”

“Thank you, Lord in charge, thank you, Lord in charge!” Qiao Rong was instantly excited and said with a face full of gratitude.

“Alright, let’s stop here for today.” The masked man waved his hand.

Qiao Rong and the tall foreigner instantly stood up with good sense and quickly retreated.

Just as Qiao Rong was about to walk out of the office, the masked man suddenly spoke up and asked, “Qiao Rong, does your husband know about you joining the organisation?”

“Him?!”

A look of disdain appeared on Qiao Rong’s face and she brushed her lips, “What does that punk of his know? Please don’t worry, Lord in charge, I definitely won’t let him know.”

The masked man’s eyes instantly turned cold, and his breathing sharpened slightly, but he quickly adjusted his mood again and waved his hand.

Qiao Rong immediately left respectfully.

Bang!

The door to the office was closed, and the masked man’s eyes were cold and frightening, “Qiao Rong, you are really a good wife

Chapter 640

It was midday on a hot summer’s day in July when a group of explorer-like people came along the Gobi beach in the western frontier of China. The group was dressed in ordinary field sportswear, with sun hats, large bags on their backs, and compasses and water bottles hanging from their waists.

Such a group of people is not uncommon on the Gobi Desert. In fact, every once in a while, there are always groups of explorers who come here to investigate and research, either to explore the landscape or to do scientific research, to name but a few.

What is surprising, however, is that this group of explorers, all young men in their twenties, and without guides, just about a dozen of them, seem to be walking aimlessly.

But in fact, if one looks closely, one will see that although these people look lazy and seem to be walking with great difficulty in the hot sun, their gazes, hidden under their visors, are so sharp that they are frightening. On their wrists, they all had high-precision satellite positioning devices, but the devices looked as if they were just watches, which seemed very inconspicuous.

Moreover, although the formation of these people appeared to be very loose, as if they were moving at random, in fact, if one looked closely, one could vaguely see that there was a certain pattern to the formation of these people, whether it was the direction they were moving or the distance between them, this pattern existed.

Moreover, no matter how these people moved, the distance between them did not change much, and it looked as if they were one whole.

“Number one, how much further do we have to go?” A young man at the front of the line turned his head and asked his companion.

“Sir, according to the position marked on the satellite map, we are currently approaching the target.” A young man next to him said.

“Close to the target? How much longer exactly?” The young man in the lead frowned and asked.

“Half an hour at the most.” The young man next to him looked at the electronic map and said in a low voice.

“That’s almost half an hour away, and if we march briskly, we can get there in ten minutes at most Has the special operations brigade sent word yet?” The young man asked again.

“Not yet.” The young man next to him said.

The young man leading the group pondered for a moment and said, “Alright then, find a hidden place, we’ll take a break for now and be careful not to reveal our target.”

“Yes!” The young man next to him said immediately, and with a wave of his hand, he bellowed lowly, “Find a place to rest! Number nine and ten are in charge of the vigilance!”

Several people quickly found a rock pile that had been weathered and sat down on the leeward side.

“Finally, we’re getting there.” Leaning his back against the not-so-hard rock, the young man in the lead took a sip from his water bottle and said, “Cheer up, we’ll approach as soon as the signal comes from the special operations brigade, everyone pay attention, there are reformers among the opponents this time, be careful.”

“Yes!” The others replied with one voice.

This group of people was none other than Ji Feng and the ten special soldiers of the Red Arrow Brigade he was leading. The one in the lead was naturally Ji Feng, and beside him were the duo of Gu Chao and Liu Xin.

In order to avoid revealing their identities, Ji Feng and the others were addressed by code names to each other. Ji Feng was made sir, Gu Chao was number one, and Liu Xin was number two The ten people were arranged in order, from number one to number ten.

The reason why Ji Feng and the others appeared in this Gobi Beach was only to avoid the target being too big and exposed, so this is why they came separately from the special combat brigade led by Xiang Yongzhan, relying on the satellite positioning system and the electronic map for separate operations. According to the previous agreement between Ji Feng and Xiang Yongzhan, this time the battle will have Xiang Yongzhan’s special operations brigade to carry out the main attack, Ji Feng and others are at the side to assist, responsible for covering the special operations brigade, as well as catching the fish that do not slip through the net, other than that, there is no need to ask.

Regarding this arrangement, Ji Feng did not have any objection.

This was because he knew that the people in the Special Combat Brigade had already been through a hundred battles and had very rich experience in dealing with reformers, something that the current Red Arrow Brigade could not compare to. So in order to learn from the experience, Ji Feng agreed to do so.

In fact, if we were to analyse the two teams purely in terms of their individual combat capabilities, the soldiers of the Red Arrow Brigade were more suitable for a strong attack than those of the Battle Brigade, knowing that since most of the year ago, the soldiers of the Red Arrow Brigade had started practising body-building exercises. Purely in terms of physical fitness, the soldiers of the Special Combat Brigade are slightly inferior to those of the Red Arrow Brigade.

However, on the battlefield, although the ability to fight alone was important, when it came to strong attacks, what was more important was the ability to fight together, which the Red Arrow Brigade did not lack, however, they lacked the experience to deal with that reformer.

Ji Feng could not help but look up at the sky, under this hot sun, even the lizards and some other creatures most suitable for living in the desert did not dare to come out indiscriminately, this kind of environment, I believe the opponent would not be too vigilant, indeed it was the most suitable time to attack.

Moreover, this Gobi beach was extremely full of boulders that had been weathered and the terrain was uneven, which was very conducive to hiding. The route chosen by Xiang Yongzhan and the timing of his attack were extremely precise, so it seemed that he had really put in some hard work.

“No.1, once the battle starts later, if you have the chance, try to capture a few living reformers. Of course, this is if all the brothers can guarantee safety, if that’s not possible, just shoot the other side, safety is the first priority.” Ji Feng admonished.

Gu Chao immediately said, “Sir, please don’t worry, I will try to catch them alive.”

In Gu Chao’s opinion, sir wanted to capture the live ones, probably because he didn’t want the Special Combat Brigade to be exclusive, but no matter what sir’s purpose was, Gu Chao only had one answer – to resolutely carry out the order!

“Also remember one more thing, if you do find a reformer escaping from the Special Operations Brigade’s attack, and thus get into a fight with us, remember that you must not engage in close combat with the other side, and if you can solve it with guns, you must do so, and even if you want to capture one, you must first beat the other side to the point of no fighting ability before you go to capture them, do you hear me!” Ji Feng once again admonished.

“Yes, sir!” Gu Chao immediately passed Ji Feng’s words down with a special hand gesture, and the others immediately saluted, indicating that they understood and would resolutely carry out the order.

Ji Feng couldn’t help but nod in satisfaction, although it was only on the plane on the way here that he had improvised the special sign language of the special forces, but with Ji Feng’s horrible memory, he had already memorized all the common sign language, otherwise, he wouldn’t dare to command Gu Chao and the others easily.

A leader who does not care about the lives of his men will certainly not be embraced.

It was midday and the weather was getting hotter and hotter, and as you looked out over the horizon you could clearly see the heat rising from the ground, as if it were burning in a furnace below. Even Ji Feng, whose body is superbly regulated, could vaguely feel a wave of heat coming over his face, so he could imagine how hot it really was here.

“Drip drip drip”

Ji Feng’s watch suddenly rang, he immediately raised his hand to look at it and shouted lowly, “Everyone get ready, our companions have sent a message, prepare to assist the attack!”

Zizi~~!

Ji Feng and the others immediately and quickly unzipped the large bags they were carrying, and at the same time, took out their weapons and equipment and camouflage uniforms.

“Ka ka ka!” The sounds rang out at once, incessantly, as everyone was looking down and checking the automatic rifles and other weapon configurations in their hands.

“Drip – drip – drip – !”

Ji Feng’s watch let out another slow chirp, and he instantly looked aghast, Xiang Yongzhan and the others were starting to move!

According to the prior agreement, the sharp chirping of the watch meant that Xiang Yongzhan and the others were close to the target, and once this slow sound was emitted, it meant that they had loved was an attack, and a very stealthy one at that.

“Ta-da-da-da-!” A faint sound of gunfire came, and then there was no more sound.

“Make a move.” Ji Feng instantly looked aghast as he shouted lowly, “All of you, disperse, keep in contact and pay attention to safety!”

After saying that, Ji Feng put his steel helmet on his head and was the first to rush out, holding his automatic rifle, and quickly ran towards the target location shown on his watch.

All those who participated in this operation had a multifunctional military watch with a screen half the size of the palm of their hands. On this watch, there were various functions such as satellite positioning, signal tracking, short-range communication as well as police. Moreover, it was also possible to input an electronic map and set the target, and the satellite navigation would be automatically activated, guiding the owner all the way to the target.

“Go!” Gu Chao waved his hand and rushed out after him.

Ji Feng was all alert and extremely fast, following those weathered boulders in the Gobi and quickly approaching the target. Not far behind him, Gu Chao and Liu Xin and the others followed closely, each on guard.

As Ji Feng and the others went deeper, the environment began to change, and a fault line appeared on the barren Gobi beach.

It was as if a wall had appeared in front of Ji Feng and the others.

The feeling was as if one was walking forward and a straight cliff suddenly appeared in front of them.

Although what Ji Feng and the others had in front of them was not a cliff, it was like a fault in the earth after an earthquake, as if the half of the land in front of them had suddenly risen up to a height of more than ten metres.

Previously, because of the terrain, Ji Feng and the others had not noticed this fault from a distance, but now, this fault had become a major obstacle to their progress.

“Sir, should we go around?” Gu Chao came to the front and said in a low voice, “We don’t have any climbing tools with us, it’s too high to climb up.

”

Ji Feng looked around, the fault stretched for what looked like at least a few miles, so it would be too delayed if they went around it.

Bang!

“Wait a minute.”

Suddenly, Ji Feng was startled, he seemed to hear the sound of a fight.

Ji Feng’s gaze, fell on this huge fault in front of him, and he looked at the fault with consternation, his eyebrows tightened.

“This sound seems to be coming from inside the fault?” Ji Feng asked with uncertainty.
