

Campus Master 651

Chapter 651

This noblewoman's hair was permed in big wavy curls and draped over her shoulders. She was wearing a string of diamond necklaces around her neck, the middlemost diamond was bigger than an adult's fingernail, and she was wearing turquoise jade bracelets on her wrists, the whole person looked bejewelled and simply aristocratic at first glance.

Of course, the reason why Ji Feng thought that this woman was a noblewoman was not only because of her pearly whites, but also because of her figure and dress.

Ji Feng even suspected that this woman, who was slowly walking down the stairs, might be heavier than himself.

Beside this woman, a teenager of about eighteen or nineteen years old was following.

This teenager had clear eyebrows and looked very stable, and purely in terms of physical appearance, he did not resemble the woman at all. But if you look carefully, you can still more or less see that this teenager has a slight resemblance to that woman in his eyebrows.

"This guy, he should be the Kuang Wei that Xiao Yu has often mentioned to herself along the way, right?" Ji Feng secretly thought, "The obese woman next to him is his mother and the owner's wife of this Dark Fragrance Cafe?"

Ji Feng looked over again, behind this obese woman, there was also a slightly slim middle-aged man, this fat and thin, but formed a stark contrast, let people look at it, can not help but laugh secretly.

"This middle-aged man is the owner of this cafe?" Ji Feng secretly said, but he was also a bit puzzled.

Although this Dark Fragrance was not ranked at all in the entire Yanjing City, its assets were still quite a lot, and according to Ji Xiaoyu's introduction, Ji Feng had learned that the owner of this Dark Fragrance Café had actually opened several branches and was preparing to expand the market according to a chain approach, hoping to make the Dark Fragrance Café bigger and bigger.

So, from Xiao Yu's introduction alone, it sounded like the owner of this Dark Fragrance Café was actually quite capable. However, if the slim man behind this obese woman was really the owner of the cafe, then it would really be a lot of fun.

A boss's wife who was so obese, and a boss who was so thin, this added up to be too conspicuous.

Of course, this was only Ji Feng's guess, and in fact he did not know the relationship between this slim middle-aged man and the boss's wife.

Moreover, when he looked at Kuang Wei carefully, Ji Feng found that he and the slim man he had seen did not look similar either in terms of body shape or appearance.

As the cafe owner slowly descended from the stairs, the entire cafe was instantly silent except for the snapping sound of her high heels walking on the stairs, and all the waiters looked nervously and seriously at the owner's wife who was walking down the stairs, and the middle-aged man beside her.

Some of the waiters who had been working for a little longer were even more nervous because they knew how the boss's wife was, and they couldn't help but look around secretly to see if there was anything they had done wrong, in case they were caught by the boss's wife, they would either have their money deducted or be scolded.

The boss's wife is so sarcastic that no one dares to touch her.

Moreover, because this time of the day was not a meal time, there were only a few customers in the front room besides Ji Feng, so it seemed especially quiet, and it appeared that the boss's wife had authority.

The first thing you can do is to look at the situation and see that it is rare to see a boss's wife who can be so feared by the staff.

.....

The obese woman, accompanied by the teenager and the middle-aged man, came to the front room, and her unemotional gaze swept around the front room like one of those big shots inspecting the territories of their men, and that aura was, indeed, extraordinary.

"Mrs. Kuang"

A voice that was crisp with a few flirtatious touches suddenly came from the direction of the back hall.

The crowd immediately turned their heads to look, and they found Zhou Jin, who was wearing her work uniform but deliberately left one button open, swaying her body and walking quickly from the back hall. On this way, she could be said to be looking around and her eyes were darting, and her charming attitude was quite charming.

However, Ji Feng secretly laughed in shame as he listened.

Nowadays, this society is really strange!

In mainland China, it used to be that in the old society, these women were called Mrs. So-and-So, but in the new society, anyone who was called Mrs. So-and-So again felt as if it was a disgrace, a proliferation of so-and-so ideas.

As time went on, the more people who had a little money but were not really rich and powerful, the more they liked to have their wives called Mrs., and those women, too, were proud of this. It was as if being called 'Mrs' made them more noble than anyone else.

However, when introducing their wives to others, those who are really wealthy or powerful say, "This is my beloved!"

Or, "This is my wife."

Ji Feng couldn't help but wonder, did it mean that being called a wife, that class, that quality, and all those despicable and disgusting flaws, all changed for the better at once?

Whether others believed it or not, he didn't believe it anyway.

But Ji Feng could see that the obese woman in front of him was deeply proud of the title 'Mrs.'.

When she heard Zhou Jin call her Mrs. Kuang, Ji Feng clearly saw that the originally expressionless woman could not help but reveal a smile on her face. Immediately afterwards, this smile kept blossoming on her face, and then covered her entire face.

It was not known whether it was because she was too fat or because she was laughing too happily, anyway, Ji Feng saw that this woman's pair of eyes were narrowed into a slit.

This kind of laughing eyes was as if such tiny eyes had appeared after someone had taken an incomparably sharp blade and made a lightning-like slash across an otherwise eyeless face.

"Zhou Jin, this shop has been carefully looked after by you and your father, but it's been hard on you." The fat woman said with a happy smile on her face.

"Mrs. Kuang, this is what we should do, Mrs. Kuang is too kind." Zhou Jin smiled gently, "It's Mrs. Kuang and Mr. Kuang who have to go back and forth between several branches every day to inspect them, and are also busy developing the market, that's what I call hard work. If Dad and I can't share some of the burden for Mrs. Kuang and Mr. Kuang, then how can we still have the face to stay in this position?"

"If every waiter underneath was like you, then our shop would be full of business every day." The obese woman giggled.

The middle-aged man behind that obese woman, also smiled in satisfaction and nodded slightly, "Yes, Mrs. Kuang, since Zhou Jin and I have been appointed by you and Mr. Kuang to be in charge of this branch, we naturally have to do a good job, so Mrs. Kuang should not praise the child too much, I am afraid she will be proud."

"Manager Zhou, that's not right, it's only good that the child will be proud, that's what shows that, she's motivated." The obese woman turned her head and said, taking Zhou Jin's hand again, she smiled, "Child, do a good job, you will definitely not be treated badly."

"Thank you, Mrs. Kuang." Zhou Jin smiled sweetly at once and said, "Right Mrs. Kuang, would you like to have a look in the back hall, there are many things that cannot be seen just by looking at the surface."

"Hmm, yes, we need to take a look in the back hall, Zhou Jin, you lead the way in front." The obese woman nodded her head slightly.

Zhou Jin immediately smiled and said, "Mrs. Kuang, Young Master Kuang, please follow me."

An embarrassed application immediately surfaced on that teenager's face, his face slightly red, "Sister Zhou, you, you should just call me Kuang Wei, the title of Young Master, I can't afford it."

"Who said that?"

Zhou Jin immediately laughed and retorted, "Mrs. Kuang, you don't know, since everyone knows that young Kuang is your son, everyone calls him young Kuang, moreover, I don't know how many girls are expecting to be young grandmother, giggle"

When joking, Zhou Jin's eyes flashed a cunning look, then a cold aura flashed in her eyes, and became motionless again, unable to see any clues.

Not far away Ji Feng heard this, immediately his brow raised, Zhou Jin is this is the topic towards Kuang Wei's personal relationship problems This woman, she is clearly reminding the boss lady!

As a matter of fact, once the obese woman heard this, she coldly snorted and turned around and said, "Little Wei, don't you want to call that girl out for mum to see?"

Kuang Wei looked very reluctant and said helplessly, "Mom! There's really nothing between me and her, who the hell did you hear that from? That's all nonsense, why do you believe it?"

"I think you're the one who's talking nonsense!" The obese woman glared at Kuang Wei and tensed her face, "Do you two look like you're not in a relationship when you're talking and laughing on the surveillance video? What, do I have to find her directly before you'll admit it?"

Kuang Wei coldly glared at Zhou Jin, grunted and said, "Zhou Jin, go and call Ji Xiaoyu here, remember, only allow her to be called directly, nothing else is allowed to be said, otherwise, you can just call in your resignation!"

"Young Kuang, this has nothing to do with me, you're" Zhou Jin was just about to complain when she was interrupted by Kuang Wei.

"Is it that you can't understand what I'm saying?" Kuang Wei asked coldly.

Zhou Jin's chest rose and fell violently a few times, his face flushed red, and he said patiently, "Yes!"

"Little Wei, you're so powerful now!" The obese woman saw her son getting angry and immediately reprimanded with a sullen face, "How much has Manager Zhou, father and daughter, given to our Dark Fragrance? How can you treat her like this?"

"According to your concept, she is just a part-time worker, to get this salary, she has to be able to bear enough, am I wrong to do this?" Kuang Wei said unconvincingly.

"How dare you!" The obese woman was furious, she turned her head to the slim middle-aged man and said, "Manager Zhou, the child doesn't understand, don't take it personally."

"No, I won't." Manager Zhou was still all smiles, "Little Wei is still young, we, as parents, should understand."

Only then did the obese woman's face ease slightly and she turned her head, "Next time if you dare to do that again, see if I can spare you!"

Ji Feng smiled secretly at the side, this Kuang Wei, was still a bit interesting.

Chapter 652

Despite knowing that Zhou Jin had already gone to call Ji Xiaoyu, Ji Feng still sat steady as a mountain, just stirring his coffee leisurely. Although there was no sugar added to this coffee, there was some milk put in it, and it wouldn't taste too good without stirring some.

In fact, it wasn't that Ji Feng didn't want to protect Xiao Yu, he treated her like his own sister, so how could he not protect her?

But he knew that if he was always so protective of her, then she would never grow up.

What's more, Ji Feng also wanted to see how Kuang Wei was as a person by the way, through this matter. It's not that he agreed with Xiao Yu's affair with Kuang Wei, at least, he should also know how Kuang Wei's temperament and character is, even if he is just being friends, he should get in touch with people of good character.

Those who are close to the vermilion are red, those who are close to the ink are black.

This saying is not without merit!

As for how Xiao Yu's marriage is going to be in the future, who she will be friends with and other things, that doesn't have much to do with Ji Feng, at least he can't make the decision, he still has to let his younger uncle or the old man make the decision.

Of course, with the strength of the Ji family, it's obvious that they haven't fallen to the point of using Xiao Yu for marriage, even though she's also a direct granddaughter, but she's a girl after all.

In a big family, among the top echelons, how can a marriage be decided by a single alliance?

The marriage is only a nominal deterrent, so that the rival forces will not act so recklessly, after all, the marriage still has the advantage of making the other side to have some fear, but it only stops there, the rest, there is no more benefit.

So in Ji Feng's opinion, Xiao Yu's marriage will most likely fall on her own shoulders, according to her own ideas.

Of course, if she looks for a boyfriend, little uncle really can not see, then it is not easy to say.

.....

Snapping Not long after, a sound of high heels tapping on the floor gradually approached, and all eyes looked over.

Zhou Jin strode along in style, the indignation and irritation on her face long gone, replaced by a bland but apt smile, followed by a somewhat apprehensive looking Ji Xiaoyu behind her.

"Mrs. Kuang, according to your and young Kuang's instructions, I've called the people here" She pulled Ji Xiaoyu to her heels and said to the obese woman with a smile, "Mrs. Kuang, her name is Ji Xiaoyu, she is our waitress here, she usually works very hard and is very smart, many people like her!"

"A lot of people? I think what she cares most is whether or not Kuang Wei likes her!" The obese woman sneered and looked at Ji Xiaoyu with a haughty and critical look, "Your name is Ji Xiaoyu?"

"Yes, boss lady." Ji Xiaoyu's eyebrows knitted slightly, feeling very uncomfortable with the boss lady's interrogative tone.

The obese woman, however, frowned, and a look of displeasure suddenly appeared in her eyes.

How dare she call herself the boss's wife?

It was abominable!

In the obese woman's opinion, the name "boss's wife" was only used by street vendors or the lowest class of businessmen to call the boss's wife. She was the wife!

So, just because of this one name, in this obese woman's eyes, Ji Xiaoyu became even more ignorant, and the boss's wife naturally had an even worse impression of her.

"Ji Xiaoyu, since there aren't many customers here either, they're all from our shop, then I'll just say it straight" This obese woman looked at Ji Xiaoyu with some disgust and said coldly, "I heard that you are in a relationship with our family Kuangwei, I am trying to tell you that from today onwards, immediately dispel this idea, you two are not suitable!"

"Mom, you" Converse, who was standing next to him, got a little angry.

"You shut up!" The obese woman directly interrupted Kuang Wei, "Let you come to this shop to exercise, and you ended up hooking up with such a vixen, how old are you, and you're learning to fall in love, and you're still thinking of climbing up the ladder, so how can you do that in the future?!"

"Boss lady!"

Ji Xiaoyu's face changed and she stared indignantly at the obese woman, "You can tell me not to fall in love with Kuang Wei, that's fine, because there was nothing between me and Kuang Wei in the first place. You can also look down on me, but, you can't just humiliate me, let alone attack me personally, I don't live any worse than you, what you have in dignity, I have, what you don't have in character, I also have, you are not qualified to say that about me!"

"You" That obese woman glared at Ji Xiaoyu, her face red with anger, "You, you actually dare to talk to me like that, really, really pissed me off, you get out of here right now, get out of here right now!"

"Of course I can leave, but instead of rolling, I'm quitting my job!" Ji Xiaoyu huffed, "Also, according to the contract, as long as I work beyond the three-day trial period, I will get my salary, that's what I deserve."

"You still want wages?"

The obese woman glared at Ji Xiaoyu and said in a sharp voice, "Get out! Get out immediately!"

"Mum!"

Kuang Wei glared angrily at his mother, "If you want Xiao Yu to go, then I'll go too, you can't even tolerate someone as good-tempered as Xiao Yu, who else can you tolerate?"

"You're leaving too?"

The obese woman was furious and growled angrily, "Go, you go too, all of you go, don't let me see you again."

"Mrs. Kuang, you mustn't be angry, young Kuang, he was just speaking in a moment of anger, don't be too insensitive to him" Zhou Jin hurriedly looked extremely concerned and stepped forward and said, "Young Kuang is your son, don't you still understand his temper?"

"What, he is my son, so I am to blame for this matter?" The obese woman said angrily.

Zhou Jin cursed her ignorance, but on her lips she hurriedly said, "Mrs. Kuang, this is not your fault, think about it, if it wasn't for Ji Xiaoyu's matter, how obedient would young Kuang be? There's no way there would be conflict between you two!"

"Right!"

The obese woman then reacted, she looked at Ji Xiaoyu coldly, her face green and white for a while, her chest bulging violently, obviously holding back great anger until half an hour later when she managed to calm down a little.

"Ji Xiaoyu, go to the finance and settle your salary, I think it's time for you to know what to do below, right?" The obese woman asked in a condescending and cold manner.

"No need for you to remind me!" Ji Xiaoyu said indignantly, "Even if you beg me now, I won't stay any longer, humph!"

Even as angry as she was, she would not curse, at most she could only grunt coldly and then argue reasonably.

In fact, in the past she wouldn't even argue reasonably.

"Xiaoyu, Xiaoyu!" Kuang Wei hurriedly pulled her back and said eagerly, "You can't go, didn't you say you still want to get the Excellence Award? I promise you, I won't let anyone drive you away, no one!"

"Converse!" The obese woman glared at her son, "She's just a poor girl, what's there to keep? Is she good enough for you? If you dare to keep him again, I won't ask about you in the future!"

"If you don't ask, you don't ask!"

Kuang Wei said angrily, "Mom, why do you always have to classify people by rich or poor, what's wrong with being poor, didn't you and dad used to come from abroad to work in Yanjing, you can't even write your name in full by now, what can you do if you are rich again?"

Slap!

A fierce slap slapped Kuang Wei's face.

The obese woman was shaking with anger, which was enough to show how angry she really was at this moment. However, this anger was not because her son had contradicted her, but because, by saying those words, her son had exposed her scars.

Since she was a child, she could not afford to study, she could not read or write, she came to Yanjing to work and did the dirtiest and most tiring jobs These experiences, for her who now considers herself to be an upper class person, are simply a disgrace that cannot be mentioned, and she wants to be a wife, how can she allow others to talk about these things from her past?

This simply made her ashamed of herself, how could she not be annoyed?

"Get out! Get out of here!" She roared like a madwoman.

"Mrs. Kuang, don't get angry, don't hurt yourself" Zhou Jin was beside her and hurried to console her.

“Oh

Looking at this scene as if it was a farce, Ji Feng couldn't help but chuckle.

However, at this time when everyone was afraid to speak, he laughed so much that it seemed so harsh that everyone couldn't help but be stunned.

The obese woman couldn't help but swish red as she looked in Ji Feng's direction in annoyance, “Brat, what are you laughing at?!”

“What else can I laugh at?” Ji Feng unhurriedly put down the cup in his hand and said mockingly, “This brat of mine, of course, is laughing at those ignorant women who are not even as good as ordinary people, but who still have to consider themselves as high class people. The old story and be taken as a laughing stock by everyone, wouldn't that be embarrassing?”

“Who are you talking about?!” The obese woman screamed in anger, “Get out of here, we don't do business with you, get out now!”

“Mrs. Kuang, he's not a guest, but Ji Xiaoyu's brother.” Zhou Jin immediately added a timely comment from the side.

The obese woman suddenly realized, and she immediately sneered, “I thought it was someone, it turns out to be the brother of that little vixen, a nest of no good! A poor man, and you still want to come here and pretend to be a big spender and drink coffee? Get the hell out of here right now!”

Ji Feng couldn't help but shake his head slightly, he finally understood just how ignorant a person could be.

He stood up and took a few steps to Xiao Yu and laughed, “Silly girl, see, there are many people, there is no way you can reason with her, the best way is to wake her up with a hard slap, to let her know how ignorant she is!”

Saying that, Ji Feng took out his mobile phone and dialed a number, “Back to Yi, immediately tell Gu Chao to bring a small team over to

Chapter 653

“I bah!”

Ji Feng had just put down the phone when the obese woman, Manager Zhou, and Zhou Jin, the foreman of the front office, immediately burst out laughing. Zhou Jin was even laughing as she opened her front and back, covering her stomach to hold back her laughter, pointed at Ji Feng and cackled, “And fighting orders? Who can you fight with? With the yellow earth? With those livestock you keep at home?”

“Better go home and farm, don't make a scene here, we are a business place, not a slaughterhouse, let alone your countryside bazaar” The manager Zhou, who always had a gentle smile on his face and whose expression did not change half a bit even when his daughter was scolded by Kuang Wei, could not help but smile after hearing Ji Feng's words, the intense to the core laughter in his eyes was something that could not be concealed.

“Shut up, you guys!”

Ji Xiaoyu, however, turned red with anger, "You guys, how can you say that about my third brother, he's much better than all of you!"

"Yeah, he's definitely better than us in terms of bragging and talking big." Manager Zhou smiled and nodded his head.

Zhou Jin was secretly pleased, not to mention how Xiao Yu was, just the fact that Ji Feng had made such a scene here today, plus the fact that Kuang Wei had actually dared to expose the boss lady's fat woman's scars in public for the sake of Ji Xiao Yu, this time, the boss lady's eyes would definitely no longer be able to accommodate Ji Xiao Yu.

Her threat had instantly disappeared without a trace!

And now, she preferred to treat Ji Xiaoyu and Ji Feng, the two brothers, as a joke, just to see what rare things they could do.

"Xiao Yu, since your brother likes to fight and give battle orders to others, then you should hurry up and take him home and command a bunch of chickens, ducks, pigs and cows and go around fighting others That would be quite fun too! Giggle giggle" Zhou Jin was laughing heartily.

Even the obese boss lady, who was originally furious and blue in the face, could not help but reveal a mocking smile at this time.

Kuang Wei also couldn't help but secretly shake his head, thinking to himself that this brother of Xiao Yu's was really the same, weren't things messy enough now? Why is he still here beating a fat face, really.

"Xiao Yu, hurry up and take your third brother back first, I'll come back to you when I'm done with this side of things, okay?" Kuang Wei eased his emotions and asked gently.

"You, what kind of person do you take my third brother to be!" Ji Xiaoyu was furious, she looked at Kuang Wei with anger, and after half a day of anger, she only uttered, "You all don't look at people through the door and put them down! My third brother is much more powerful than you all think!"

"These two siblings, but they are really interesting" Zhou Jin said in a nonchalant manner, swirling and giggling, an intense sarcasm that caused Ji Xiaoyu to instantly turn red on her pretty face.

"Third brother" Ji Xiaoyu turned her head over and said aggressively, "Let's go, I don't want to work here anymore."

Ji Feng nodded with a smile and said, "There is no need to work here anymore, because, this cafe will soon cease to exist, well, in the whole Yanjing, all the dark fragrance of fragrance, from today onwards will not exist."

"Hahahaha"

Once he said this, the others burst into laughter again, even those waiters, couldn't help but slightly skewer, thinking, Xiao Yu's brother looks handsome and very manly, I can't imagine that he is actually so capable of bragging

Ji Feng, however, smiled faintly in a good manner and pulled Xiao Yu's to sit down in front of a table.

“Hey! Who allowed you to sit here?!” The obese woman was annoyed when she saw that Ji Feng had actually sat down leisurely, not putting her in her eyes at all.

This poor man, how dare he not put himself in his eyes, this was simply abominable.

To be despised by a poor man whom everyone despised was a great humiliation to the obese woman, and she immediately screamed, “Are you still not leaving? Security – security -”

“Squeak-!” The sharp sound of a sharp brake suddenly came from outside the door, followed by a series of crunching footsteps approaching rapidly.

“Bang!”

The door of the cafe was pushed open at once, and a security guard ran in in a panic, his lips trembling, even a little breathless, one finger pointing back: “Boss lady, outside, outside there are many soldiers coming, all, all with guns!”

“What’s wrong with soldiers, look at you panicking like that!” The obese woman immediately scolded angrily, “No bearing at all, do the soldiers have to come for us?”

“Yes, yes, a whole truckload of soldiers, after they jumped out of the car, they immediately came running in the direction of our cafe” The guard stammered, “They looked pretty mean.”

“.....” No one in the cafe could speak anymore because those soldiers that this security guard was talking about, had already entered the door and were standing behind him.

“Slap!”

A soldier slapped that security guard on the shoulder and he was so scared that his legs went weak and he almost didn’t sit on his butt on the floor, but the soldier grabbed him and made him stand to the side. The soldier then took two quick steps and came to Ji Feng, standing at attention and saluting.

“Little Chief, the action squad has all arrived, please give your instructions!” The soldier’s voice was full of mid-air, and his voice was like thunder, shaking everyone in the cafe to the core.

Ji Feng turned his head to look at the people who were already scared to death and could not help but smile slightly.

This smile fell in the eyes of the obese woman, but it was so frightening.

In fact, no one among those present would have thought that Xiao Yu, a girl who claimed to be from an ordinary worker’s family, would actually have such a strong and powerful brother who called in so many loaded soldiers with just one phone call.

When I think of the mocking mentality I had just now when I heard the words battle order, it really seems like a thick irony now!

Ji Feng pointed inside the cafe, with a faint smile on his face, but the words he uttered were icy cold as he said, “Smash every corner of this cafe, every decoration, for me. Be careful not to hurt these people as long as they don’t resist.”

“Yes!”

The soldier immediately shouted in response, "All of you, get on the combat shovels, combat picks, smash!"

"Smash!" All of them shouted at the same time, these people were all soldiers who had really experienced battlefield fighting, their aura alone was enough to make people scared.

The obese woman was already scared to death, her legs were trembling and she couldn't say a word.

Zhou's father and daughter were equally shocked and did not know what to say, but subconsciously backed away, afraid that those wolf-like soldiers would come for them.

The waiters, too, were blank in their minds at this moment.

Who would have thought that Ji Xiaoyu, who in everyone's eyes was just an ordinary worker from an ordinary family, actually had such a powerful brother!

"Wait, wait a minute!" Kuang Wei suddenly reacted and hurriedly took a few quick steps, saying hesitantly, "Xiao Yu, I know this matter is all my mother's fault, but, but this For my sake today, just let things go like this, okay?"

Now Kuang Wei has also realized that Xiao Yu, who has a gentle and unassuming personality, is not a simple worker's family origin, so he does not dare to speak to Ji Xiao Yu in that buddy tone anymore, and can only ask carefully.

Ji Xiaoyu is also a bit hesitant, with her personality, she is still very uncomfortable with this kind of fighting and killing scenes.

"Third brother" Ji Xiaoyu pulled Ji Feng's sleeve, "Forget it, okay?"

Ji Feng glanced at Zhou Jin and the others and found that they were looking at him with a face full of fear and a hint of hope, he couldn't help but smile slightly, "Of course it's okay, you'll be the one to decide what to do today."

"Thank you, Third Brother." Ji Xiaoyu instantly let out a sigh of relief and said sweetly.

When the others heard this, they were immediately overjoyed in their hearts.

Zhou Jin was the first to come over, with a pale look still on her face, barely squeezing out a smile, but it looked ugly as hell: "Xiao Yu, look at the mess this has made The actual fact is, we're still colleagues, right? What happened before was all my fault, I apologize to you."

"Sorry, I can't afford it for a poor girl!" Although Ji Xiaoyu had softened her heart, she was still indignant when she remembered what these people had just said.

Zhou Jin was instantly embarrassed, but she couldn't say anything numbly.

The obese woman, on the other hand, was even more embarrassed, her face was blue and white for a while, with a wonderful expression.

She also knew that if she didn't come up and apologize to Ji Xiaoyu, this matter would obviously not go through.

But if you put your body down to apologize You are Mrs. Kuang, how can you apologize to a little girl?

“Boss lady, please settle my salary, that’s what I deserve!” Ji Xiaoyu, however, did not care if others said they were sorry or not, she just wanted what she deserved.

“Huh? Oh, oh!” The obese woman then came back to her senses and said in a panic: “Quick, settle her salary, just according to a month”

“There’s no need for that.” Ji Xiaoyu interrupted her, “I only take what I deserve, I don’t need your handouts.”

“Yes, yes, yes.” The obese woman was instantly embarrassed, but she could only smile sarcastically, “Quickly go and get the finance settlement!”

“I’m on my way.” Zhou Jin said in a panic, it was too good to let her go and inform the finance for the settlement, just so she could leave the place, and even if anything else happened next, it would not affect her.

“Xiao Yu” Kuang Wei looked at Ji Xiaoyu with a complicated expression, but he didn’t know what to say.

“Kuang Wei, thank you for taking care of me some time ago.” Ji Xiaoyu nodded slightly and said, “I don’t blame you for what happened today, I know it well in my heart.”

Kuang Wei smiled awkwardly and glanced at the expressionless Ji Feng again, numbly unable to say anything.

A few moments later, Zhou Jin panted and brought Xiao Yu’s salary, handing it over to Xiao Yu with a complicated expression, opening her mouth but not daring to speak.

Then, without saying a word, Ji Xiaoyu turned around and walked out.

Ji Feng waved his hand and also walked out with a smile.

Looking at their backs, both the obese woman and manager Zhou’s father and daughter stood there in a daze, not moving for a long time.

Today’s encounter was tantamount to a few hard slaps on their faces, enough to make them remember it for the rest of their lives.

Chapter 654

“Gu Chao, good work.”

Outside the door of the Dark Fragrance Café, Ji Feng smiled and patted Gu Chao’s shoulder, even though Gu Chao was a few years older than him, the two of them did not feel anything wrong, during the last military operation against Western Xia, Ji Feng had already established an extremely high prestige, and Gu Chao and the others had even more respect for him.

“You are welcome, sir.” Gu Chao immediately smiled and said, “Sir, the brothers all want to see when you can go back, and this time I came out with a mandate from all the brothers in the whole brigade.”

Ji Feng thought about it and said, “I don’t have time to go over recently, let’s wait until the New Year’s Eve, by that time your first set of body-building exercises are believed to have been almost mastered.”

“That’s good, sir, we can make a deal!” Gu Chao said with a smile.

“It’s a deal!” Ji Feng smiled and nodded his head.

Swish!

Gu Chao saluted and said, “Sir, I’ll go back first then.”

Ji Feng smiled and nodded his head.

Looking at Gu Chao’s back, Ji Feng couldn’t help but smile slightly, the character of these soldiers was what he liked the most, straightforward, daring to take charge, and heavy on emotions.

This was so much better compared to many people in society.

“Xiao Yu, let’s go back too.” Ji Feng smiled and patted Xiao Yu’s head.

“Oh!” Ji Xiaoyu said in a somewhat sullen manner.

Ji Feng couldn’t help but ask with a smile, “What’s wrong? It looks like you look upset, still angry about what happened just now?”

“Not really!” Ji Xiaoyu shook her head and said, “Third brother, do you think people nowadays are all particularly snobbish? How can they judge a person’s character by being rich or poor? Isn’t a person’s wealth or lack of it, good or bad family conditions, all given by their parents? What does this have to do with an individual’s character!”

Ji Feng was slightly stunned and smiled bitterly, “Xiao Yu, this question I really have no way to answer you.”

Indeed, just like what Ji Xiaoyu said, the vast majority of people would look at others with such snobbish eyes, for the rich, or people with status, everyone always tends to rush to them, offering their smiling faces and even dignity without stint.

But for the poor or the lower strata of society, there is no concern, and for the worse, there is outright contempt.

This kind of situation is really innumerable and too commonplace.

As for why this is so, Ji Feng really doesn’t know how to explain it to Ji Xiaoyu, or perhaps this can only be such a situation that has arisen under the increasingly rampant gold worship.

Or maybe, this was in itself a bad human nature, Ji Feng couldn’t say.

“Third brother, is money really that important?” Ji Xiaoyu asked with some distress.

Ji Feng smiled and nodded, "Yes, in modern society, money is really important, if you don't have money, you can't even eat, you'll be out on the streets and be looked down upon"

In his mind, he couldn't help but think of his old life again, all those years of his mother's hard work, wasn't it just to be able to feed herself and have a good meal?

"It's really hard to understand." Ji Xiaoyu was a bit puzzled, "What's the point of dressing well and being rich, and not living a few years longer than others!"

Ji Feng smiled, but didn't say anything more. Ji Xiaoyu was born into a high cadre family, so naturally, she did not worry about food and clothing, so she could not appreciate how hard it would be for people once they had no money.

However, Ji Feng hoped that Ji Xiaoyu would continue to maintain this character of hers and not become less innocent for the sake of money.

In this materialistic society, there is always that part of people who are not polluted and whose hearts are still so clean, such people are the happiest and the most enviable.

"Xiao Yu, keep it up." Ji Feng said with a smile.

"What did you say, Third Brother?" Ji Xiaoyu didn't hear clearly.

"Nothing, it's getting late, let's hurry back." Ji Feng chuckled.

.....

Perhaps it was because the incident at the Dark Fragrance Café had affected Ji Xiaoyu, making her look a bit sullen for a few days in a row. Perhaps in her little head, she still couldn't figure out why money was so powerful, and could make a person so snobbish and desperate for many people.

By the time she understands, she will have grown up too. This is the process of growing up.

Ji Feng felt that there was a saying that was very true, the process of growing up was actually the process of the human heart starting to deteriorate and decay.

But it was useless for anyone to enlighten her on such matters, she could only let her experience it slowly on her own, but in Ji Feng's opinion, with Xiao Yu's character, it would definitely take her a few days to become lively and cheerful again, and it was hard to grow up completely without really experiencing something.

So Ji Feng didn't ask any more questions, instead he would talk to the old man on the phone once a day and visit a few relatives' homes in passing. These relatives, too, included people from the side lines.

From the first time he acknowledged his ancestors, Ji Feng showed his strong hand twice in a row, so that no one in the side line dared to underestimate this first grandson of the eldest family, who grew up in the mountains, and even some elders, such as cousins and uncles, would not deliberately put up a show of eldership in front of him, and their mentality was gradually changing.

In fact, people in the extended family are the ones who know best how to see the wind and are the ones who can put aside their narrow pride most quickly. Because they themselves live in a circle, they know that they have to abide by the rules, and when you are better than him, he will definitely yield to you.

In fact, when Ji Feng visited those people this time, he didn't mean to demonstrate per se, he just paid a polite visit, which was something that a junior should do.

After that, Ji Feng stayed at home with his mother every day, and spent his evenings boiling telephone porridge with Xiao Yuxuan and Tong Lei until he called his mobile phone until it ran out of battery and switched off automatically.

Apart from that, he occasionally visited the place where his father worked and also befriended his father's secretary. At the same time, it also gave many people in the department, an initial impression of him.

In fact, this was enough, how could those people around Ji Zhenhua not notice his son? Not to mention having seen him once, even if they had only seen a photo, they would still have Ji Feng's looks dead in their minds.

Ji Zhenhua, who saw all this in his eyes, was secretly nodding his head. He could see that his son was starting to lay out his own network, which was a good thing.

This regular life of Ji Feng was broken by a phone call from Han Zhong on the sixth day of his return to Yanjing.

"I say, Big Boss Ji, have you had enough of playing this hands-off boss? It's about time you showed up and came to see us, the toiling masses, right?" As soon as he picked up the phone, Han Zhong's grumbling voice came in.

However, his address was changed, although he only playfully referred to Ji Feng as 'Big Boss Ji', it was clear that he was preparing himself to directly open his mouth and call him boss in the future.

Ji Feng couldn't help but smile, "Good, I'll go back as soon as possible."

He also knew that Han Zhong must have been tired enough during this period of time. Ever since the last incident of moths in the pharmaceutical factory, Han Zhong's pressure had increased, not only did he have to contact experts to formulate new rules and regulations taking into account the actual situation of the pharmaceutical factory, but he also had to be busy with the construction of the new factory building and the new dormitory building, worrying about everything big and small, it was strange that he wasn't busy.

"You'd better come back as soon as possible, well, tomorrow would be best." Han Zhong said helplessly, "Now that the new factory building has been built and even the equipment has been assembled, we are just waiting for you to start work when you return."

"So soon?!" Ji Feng was immediately taken aback.

"It's still fast, it's been most of a year, okay?" Han Zhong laughed bitterly helplessly, "You're too comfortable as a big boss, you don't even know when your factory will be built When will you be back?"

“Most of the year?” Ji Feng couldn’t help but laugh, “I’ve been so busy lately, in that case, I’ll go back tomorrow.”

“Well, the first batch of workers have also been trained over at the branch factory now, just waiting for work to start over here, and they will be ready for production immediately. Two of the dormitory buildings have also been completed and are all decorated” Han Zhong quickly went over the progress of the pharmaceutical factory during this period of time, “Now everything is ready, just waiting for you, the big boss, to make a decision on when to start work.”

The company’s main business is to provide a wide range of products and services to the public. Has the transfer station been built?”

Once the pharmaceutical plant started, the special effects current would be produced continuously, and the cooperation of Tianyao Group would be indispensable for the transit, transportation and sales.

“It’s already been contacted, the transfer station was completed half a month ago, and the personnel structure is also out, so it can be put into use at any time.” Han Zhong said.

Ji Feng was instantly delighted to hear this, which meant that his Tengfei Pharmaceutical Factory, was really going to start taking off.

“I’ll go back tomorrow!” Ji Feng said immediately.

“Good then, once it’s confirmed, I’ll pick you up from the airport tomorrow.” Han Zhong laughed, “You’re here as a shirker, don’t dare not come to greet me, or else no longer give me a few months of disappearance, I can’t even find a grave to cry on.”

“Fuck off!” Ji Feng cursed with a laugh.

After hanging up the phone, Ji Feng was fist-pumping with excitement.

“It’s finally about to start.” Ji Feng said secretly in excitement, having waited for such a long time, just to wait for the pharmaceutical plant to officially start production. As soon as the machinery of the pharmaceutical plant started, a large amount of money would flow into Ji Feng’s pocket, and by then, many of the things he wanted to do could start

“We’ll go back tomorrow!” Ji Feng paced back and forth, “The pharmaceutical factory is starting to take off, the online company should naturally start to take off as well, and the first product that will shock the industry should be on the agenda.”

“What should I do to make something good 3d technology? A browser? Or maybe a software program?” The technology he knows keeps flashing through Ji Feng’s mind, his eyes bursting out with a stern light, his heart soaring with ambition!

Chapter 655

The next day, Ji Feng boarded a flight to Jiangzhou.

Sitting on the plane, Ji Feng slightly closed his eyes and began to close them to recuperate.

Although he looked very energetic, in reality, he had stayed up all night yesterday just to think about the blueprint for future development and the direction of development at the moment.

The pharmaceutical factory has started to take off, and there is no doubt that the next long period of time will be the stage when Tengfei Pharmaceutical Factory will really take off.

The needs of the military will be the biggest and most stable customer of the pharmaceutical factory. China has the largest army in the world and the largest military, the amount of special effects needed will be astronomical.

Even if one thinks on one's heels, one can see how brilliant the Tengfei Pharmaceutical Factory will be in the future.

However, there was a prerequisite for all this – the He family acted as a bridge in the middle, connecting the military with the Tengfei Pharmaceutical Factory.

If this bridge is broken, the Tengfei Pharmaceutical Factory will be cut off from the military, and Ji Feng has to guard against this.

The other side of the coin is that no matter how strict the secrecy means, there will be times when it is not strict, as the saying goes, a hundred secrets is a slip, that is the truth. There is a saying that even a tiger has a time to nap The special effects current produced by the Tengfei pharmaceutical factory will definitely fall into the hands of people with an interest after a period of time.

Ji Feng also does not dare to guarantee that there will be someone who will analyze the ingredients and production method of the special effect current.

Therefore, Ji Feng must ensure that he is always ahead of others, be the leader of the industry and set the industry standard!

And to do this, he needed better products, a more rationalised management system, and better talents. All this is what Ji Feng had to think about.

System and talent, that's all well and good.

The actual situation of the pharmaceutical plant, coupled with consulting those real experts, will definitely be able to develop the most optimal system, in fact, this is not a difficult task, just look at how many large companies in the world inherited dozens of centuries still do not show signs of decay, you can see how important a reasonable system, of course, to develop such a system, is not something difficult to do.

As for the talent

Ji Feng remembered that Han Zhong once said something that made Ji Feng think deeply.

Han Zhong said, "In the land of China, there is a shortage of everything, but not a shortage of talents."

China is a vast country with a great number of people, so it is definitely not difficult to find a few talents. It is only that many people in power cannot reasonably place their men in the most suitable positions, which is why they have the impression that the majority of them are mediocre.

Everyone has a role to play and is a talent, but the most crucial thing is to see if the person who uses them can make the best use of them!

For example, a giant in the catering industry in China was originally just an honest farmer who did not go to school for a day, only knew his name and could not write But now, he is sitting on tens of billions of dollars and is strongly in the list of rich people.

When people interviewed him about what experience he could pass on in terms of management, he also just said one thing – putting the right people, in the right positions, with a reasonable management system, can create the birth of a giant.

So, there is no shortage of talent in China, what is lacking is a manager who can know the right people and make the best use of them!

As the saying goes, there is a bole in the world, and then there is a thousand-li horse. A thousand-li horse is always there, but a bole is not always there. A long, long time ago, our old ancestors knew this truth.

In Ji Feng's view, although Han Zhong was not an extremely good manager, he was not bad either. At least up to now, there had not been any big mistakes in the pharmaceutical factory, although there were hints of collusion between the sales department manager and the director of the salvage recycling department, ready to empty the company, but after all, it had been discovered before it became a big disaster.

Moreover, Han Zhong could not be blamed for this matter, but rather the pharmaceutical factory did not have a reasonable and effective management method at that time.

Objectively and fairly speaking, Han Zhong is still a very good manager.

However, Ji Feng did not realise that a good manager was also considered a talent. It was only because Ji Feng put him in the right position that the pharmaceutical plant could be put into production so quickly, and it was also because Ji Feng boldly used Yi Xingchen and others, who were not deep friends before, to take full charge of security work that the pharmaceutical plant has not had a single safety-related accident up to now.

In fact, the one who really knows how to make the best use of people is Ji Feng himself, but he himself does not have this awareness.

The actual fact is that the one who knows how to make the best use of people is Ji Feng himself, but he doesn't have this awareness. He doesn't even realize that the issues he is considering now are actually what a real person in power should consider.

.....

“There are just too many drugs that are better than the special effects current” Ji Feng rubbed the corner of his brow and secretly pondered, “It's not that hard to stay ahead all the time. But the question is, how can we preserve the strength of the pharmaceutical factory and not break the bones when major changes occur”

In Ji Feng's memory, there were indeed a lot of good drugs, but how to ensure that the sales path was opened and a path opened up beyond the cooperation with the He family was what Ji Feng pondered the most.

"Walking on two legs is the only way to go steady." Ji Feng shook his head slightly, "At this stage, the leg destined for the pharmaceutical factory's cooperation with the He family is the thickest, and the other leg, has not yet started to take off. This is equivalent to having polio ah"

"We can't go on like this, we must pick up the other leg as soon as possible!" Ji Feng secretly decided that once the new factory located in the industrial park started production, then the original Tengfei Pharmaceutical Factory, would have to start the development of another drug.

Ji Feng wasn't afraid that He Hongwei would know that, in business, one should always seek diversification.

What's more, whether it's Ji Feng or He Hongwei, they will never treat each other with their hearts out, this is something that everyone knows, then, Ji Feng as long as he doesn't take the initiative to do something to undermine the cooperation between the two sides, He Hongwei will not be able to say anything.

However, in order not to stimulate He Hongwei, Ji Feng also does not intend to make much noise out, since the original Tengfei Pharmaceutical Factory is developing No. 53 slimming medicine, then, now also continue this project

"Whew-!"

The first thing you need to do is to get rid of the problem. However, if someone has an intelligent program, that can be a much different story"

In fact, what had been worrying Ji Feng the most was still what the previous dynasty had organized its manpower to look for, and he was really afraid that his and Wang Xin's speculation was true. If that was the case, it was very likely that the section of intelligent program had now fallen into the hands of the dynasty.

With the support of a piece of intelligent program, it was hard for Ji Feng to imagine to what extent Dynasty's strength would skyrocket.

The recklessness of Dynasty's attack on He Hongwei had already shown Ji Feng how crazy this organisation was, if the other side had another piece of intelligent program, it would turn the sky upside down?

And what worried Ji Feng was that he and Dynasty would always collide with each other, consciously or unconsciously, so he always had a very strange feeling, as if he and Dynasty were always at odds, and there was even a good chance that a fierce battle would break out

"This gentleman, may I ask where you are not feeling well?" A crisp voice rang out from the side.

Ji Feng immediately opened his eyes and found a flight attendant looking at himself with a smile on her face.

"You're asking me?" Ji Feng asked hesitantly.

“Yes sir, I see you’ve been rubbing your forehead, are you airsick? Do you need any help?” The flight attendant asked politely.

Ji Feng smiled and said, “No need, thanks a lot.”

He couldn’t help but secretly wonder, when did domestic airlines have such considerate service?

Of course, this kind of service was not strange in first class, because most of the people who could afford to fly in first class were rich and powerful people, or some rash people, and such people would not have a good attitude.

But now that he was in regular class, this stewardess had such an attitude?

Some people jokingly call the transportation industry in China, called the iron boss, the black boss, who is more black than who! Aviation line, high pressure line, who is higher than who!

These two simple words were enough to illustrate the service standard of the airline, but now, the behaviour of this flight attendant made Ji Feng impressed, could it be that this airline had also started to implement a real people-friendly service?

He couldn’t help but shake his head and smile, he didn’t think about it anymore, seeing that the air hostess politely smiled and left, he then continued to close his eyes and continued to think about other issues.

However, Ji Feng did not know that after leaving the ordinary class, the stewardess came straight to the first class cabin and stopped in front of a middle-aged man.

The middle-aged man’s eyes were slightly closed, as if he was asleep.

The flight attendant bent down slightly and whispered a few words in his ear.

A cold light flashed in the middle-aged man’s slightly narrowed eyes, and he nodded slightly before leaning back against the seat again, as if falling asleep again.

The stewardess subconsciously glanced once again in the direction of the normal cabin and gave a dark cold snort.

“All passengers, flight xxxx is about to arrive in Jiangzhou” On the radio, came the sweet voice of the plane announcer, prompting people that Jiangzhou was about to arrive.

Ji Feng also opened his eyes and looked out the window as the white clouds drifted by.

No matter what, the Tengfei Pharmaceutical Factory, in the next few hours, was really going to take off!

Chapter 656

“Big boss, you’ve finally shown up.”

At the exit of Jiangzhou International Airport, when Han Zhong just saw Ji Feng, he gritted his teeth and looked at him with hatred, “Is it that if I don’t call you to hurry you up, you’ll just keep acting like your hands-off boss, right?”

Ji Feng snorted and laughed, "That's nothing, I'm back, right, how is the construction of the new factory, hurry up and show me."

"Don't give me a diversion!" Han Zhong waved his hand, directly exposing Ji Feng's intention, this time he was full of fire, last time agreed to invite experts and professors from the United University to formulate the development plan and rules and regulations of the pharmaceutical plant, but then, Ji Feng directly became a handful, leaving everything to Han Zhong, for this decision of Ji Feng, Han Zhong also agreed.

After all, the last time there was a mistake in the pharmaceutical factory, Han Zhong was also shameless, holding his breath to make the pharmaceutical factory better, not to be ashamed of Ji Feng's trust.

But who knows, Ji Feng is also too trusting, since then, he actually did not show a face, even as long as he did not call him, he never knew to give himself a call to ask the situation of the pharmaceutical plant!

Even if he didn't call, Han Zhong would never do anything because Ji Feng wasn't there, because he wanted to be worthy of Ji Feng's trust in him, and at the same time, he also wanted to prove himself through his actions in the pharmaceutical factory, so that his family and those in the Han Group could see that he could control a large pharmaceutical factory even though he was young.

However, after all the rules and regulations and development plans were made, Ji Feng actually still didn't call. Han Zhong called the phone, but found that he couldn't reach Ji Feng.

If you, the big boss, didn't come to make the decision, who else could make the decision?

Han Zhong called Ji Feng every day for a week, but the final result was that he could not be contacted without exception.

This time, the work of the pharmaceutical factory came to a halt.

Because the plant had been built, the equipment had been assembled and tested, there were no problems at all, the last of the dormitory buildings were being renovated, there was no more work at all, everyone was waiting for Han Zhong, while Han Zhong was waiting for Ji Feng, the heads of several departments underneath, ran to Han Zhong almost every day, how could Han Zhong not be anxious?

But Ji Feng couldn't get in touch with him!

So as soon as he saw Ji Feng walking out of the airport in this leisurely manner, Han Zhong was instantly furious, Ji Feng, this guy, still remember that he is the big boss of the pharmaceutical factory?

"Say, why have you been out of touch all this time, don't you know that the pharmaceutical factory is now just when it should be completed?" Han Zhong asked through gritted teeth.

Ji Feng gave a sarcastic smile and said, "So what, it was my mistake, I apologize to you and promise that this will not happen again Come on, have a cigarette to cool down."

"Humph!"

Han Zhong coldly snorted, his face then eased a bit, "I say, brother Feng, you are the boss, how can you completely do away with it, even those big bosses of multinational conglomerates have to listen to regular reports from their men, right? You're putting me under a lot of pressure by doing this!"

Ji Feng smiled and lit a cigarette for him, put on a low profile and laughed, "Fine, fine, I'll definitely run to the pharmaceutical factory often in the future, okay?"

"I'm telling you, now I can't fully trust your words anymore, this time I'll reserve my opinion for now to see what happens later!" Han Zhong took two fierce puffs of his cigarette before saying, "If you still dare to do this next time, I'll resign!"

Ji Feng lost his smile and said, "There's no need to make it so serious, right? Take the heat off, huh"

Seeing this playful look of Ji Feng, Han Zhong also couldn't help but laugh, "I say, where is your little boss look now, even a shareholder is more serious than you, Brother Feng, just take pity on us people, okay?"

"Fine, fine!"

Ji Feng smiled and put his arm around Han Zhong's shoulder, "So what, show me the new factory, has the assembled equipment been commissioned?"

Han Zhong nodded and said, "Of course it's been debugged, everything is fine, the warehouse has also been built and now it's also starting to stockpile raw materials, this was supposed to ask for your permission, but I couldn't reach you even after calling for a week straight, so I had to take matters into my own hands."

Han Zhong also spoke in a much softer tone, he was actually only angry at Ji Feng because he was under too much pressure and Ji Feng had 'disappeared' for so many days, which was why he was a bit resentful.

But he couldn't stay angry, after all, Ji Feng was the boss, and had already softly spoken to make amends, so if he chirped any more, it would be insensitive.

In the process of getting along with Ji Feng, Han Zhong had been trying to adjust his mentality, from a little sense of superiority when they first met, to a kind of awe after vaguely knowing Ji Feng's identity, to a subordinate relationship when they started working together, Han Zhong had completely adapted to working under Ji Feng and had found his place.

Therefore, being angry at Ji Feng was just a way of expressing grievances, but not the tone in which an employee should speak to his boss.

Ji Feng didn't care about this, he just smiled and waved his hand, saying, "This matter is indeed my fault, there was a bit of business to take care of and it was inconvenient to bring my mobile phone"

Of course he knew when Han Zhong was referring to the few days he was missing, it was exactly the few days he had gone with Xiang Yongzhan to take part in the operation against Western Xia, so naturally he could not bring his mobile phone with him. Because many times a small signal could reveal a lot of information and would cause the operation to fail not unlikely, Ji Feng, who had been trained by the Super Agent Training System, would naturally not make such a low-level mistake.

Han Zhong then couldn't help but roll his eyes and laughed bitterly, "This inconvenience of yours is giving me a headache, even the supply agreement signed by the root supplier is only a temporary agreement, with a duration of only two months."

“Sign a one-year agreement first!” Ji Feng said directly, “The two-month period is too short, the price aspect will definitely not be negotiated, moreover, if the supply quantity is too small, the supplier will not set up a transit station nearby, which is not good for our development.”

“So yeah, we have to wait for you to come before we can make a decision on all this!” Han Zhong said with a bitter smile.

Ji Feng nodded with a smile and said, “Don’t worry, if I want to go out in the future, I will greet you in advance.”

As the two of them spoke, they had already walked out of the airport.

After getting into the company’s car, the two of them went straight to the industrial park, and Ji Feng could not wait to see the new plant. The scene of how many production lines were running at the same time was so hot that it made people’s hearts stir.

Especially when the production lines are all his own, it’s an even greater sense of achievement.

Being called the eldest grandson of the Ji family and having an illustrious background, Ji Feng did not have the slightest sense of achievement in his heart, but rather a sense of pressure and responsibility.

Relying on his background and his own kung fu to clean up some fops and those bastards who didn’t know the sky was the limit, Ji Feng didn’t have much sense of achievement either, because always fighting with idiots would easily make others unable to distinguish who was the idiot.

Therefore, Ji Feng would generally try to avoid going up against those people.

His greatest sense of achievement was that with his hard work, he had become an expert, and at the same time, using his ability to make money gambling on stones, as well as using those knowledge he had learned, he had gotten big predators like the Tianyao Group to come and work with him.

Of course, because of his family background, he was able to get the Tian Yao Group to work with him, instead of buying him out or swallowing him up.

He was also lucky enough to get a smart brain, a luck that could not be replicated, and Ji Feng felt that this was God’s love for him.

But other than that, it was all earned by his own efforts, and Ji Feng felt a sense of accomplishment!

So he couldn’t wait to see the new plant, to see everything he had worked so hard to create!

.....

Rows and rows of steel-framed factory buildings with white walls and colorful steel and blue tiles, which didn’t look too big but were very neat, warehouses with mixed brick structures, as well as steel-framed office rooms, all along with two brand new dormitory buildings, all appeared one by one in Ji Feng’s field of vision, causing his mood to become steeply excited.

Ji Feng got down from the car and looked at the rows of factory buildings, and his face, he couldn’t help but reveal a smile.

When he came to the dormitory building and looked at the steel-framed factory buildings and office rooms below, he took a deep breath and subconsciously opened his arms, as if he wanted to take it all in his arms.

Han Zhong stood behind him diagonally, smiling as he watched it all. Perhaps it was because the morning sun was too solid, or because Ji Feng's figure was too sturdy, causing Han Zhong to squint his eyes slightly, and he faintly felt that at this moment, Ji Feng had an aura of looking out of the world.

"Our dream is finally starting to take off!" Ji Feng said loudly, "It starts today!"

He turned his head: "Han Zhong, immediately convene a mobilization meeting for all employees to prepare for official production Let's go to the plant now and take a look at the equipment."

He strode downstairs with great enthusiasm, and Han Zhong followed him with a smile as he began making phone calls to inform the supervisors underneath to prepare for the official start of production.

"Have all these equipment been tested?" Ji Feng looked at the rows and rows of assembly line equipment and turned his head to ask.

"They have all been tested, there are no problems, and there are also organic repairers stationed in the factory, so if there are any problems, they can be solved in time!" Han Zhong nodded his head and said.

"Good, good!" Ji Feng said rather emotionally, "Finally, we've waited for this day"

"Boss, isn't it a good idea to have a ceremony, like a ribbon cutting for the opening or something like that, and invite some people over to hold up the front." Han Zhong suddenly asked.

"Is that necessary?" Ji Feng was stunned.

"Although there are many factories in this industrial park, there are relatively more people, and there are also many hooligans and gangsters, many of whom are wearing the same trousers as those in the police station, so if we hold a ribbon-cutting ceremony and invite some dignified figures to come over, we can also avoid a lot of trouble." Han Zhong explained.

Chapter 657

"That's true."

Only then did Ji Feng understand Han Zhong's intention, remembering that last time when dealing with Wang Zhiqian, the manager of the sales department, that guy wasn't just screaming to make the employees of the pharmaceutical plant not dare to go to work, and even threatened to threaten himself and Han Zhong to make something happen to the employees of the pharmaceutical plant

Moreover, it is too common for police station officers to wear the same trousers as those hooligans and it is difficult to avoid such things.

And to prevent future trouble with the gangsters, the police station people deliberately refused to send the police, to hold a ribbon-cutting ceremony, invited a few dignitaries over, that is really the most appropriate. As long as people know that this pharmaceutical factory has a background and not just anyone can mess with it, I think many people will brighten up their eyes and dare not come to cause trouble easily.

“This is a very good idea of yours, I didn’t think of it.” Ji Feng couldn’t help but nod his head in admiration.

Han Zhong chuckled, “It’s mainly because I’ve seen a lot of it. It’s actually not just to prevent punks from coming and causing trouble, but also to give a deterrent to competitors. Not to mention others, even those small shops on the street opening, don’t they also invite a lot of friends? In fact, very often, they invite their friends for a lively time, but more often, they want to show other shop owners how extensive their connections are and how much energy they have, so that they don’t dare to bully them!”

“No problem, just do as you say!” Ji Feng nodded and smiled, “You arrange the ribbon-cutting ceremony, I’ll be in charge of inviting people, and when the time comes, invite the chief of this industrial park police station as well, just like you said, we’re not here to bully people, but to make others not dare to bully us easily.”

In business, it’s more about peace and prosperity, if there’s constant trouble, no matter who wins in the end, it’s not good for business.

So if you can avoid trouble, you should try to avoid it as much as possible.

“What do you think about setting it for the day of the official production?” Han Zhong asked, “Let the Tianyao Group send someone too, when we started the construction of our new plant before, we only saw a ceremony, which was not enough to illustrate our company’s strength, now we might as well make it grand.”

Ji Feng pondered for a moment, but still shook his head and said, “I don’t think we need to make such a big fuss, because as of now, we are only cooperating with the Tianyao Group, so we don’t need to publicise it, it’s better to keep it simple!”

“You’re the boss, listen to you.” Han Zhong smiled and nodded his head.

“You guy” Ji Feng couldn’t help but shake his head and laugh, “Right, don’t move the staff over at the branch factory, what should be done is still done, you just focus your energy mainly on this side now, new staff, new equipment and new rules, all need to be slowly broken in, there are still a lot of things you need to be busy with. And I have other plans for the branch factory.”

Han Zhong nodded and said, “Don’t worry, as long as you don’t suddenly disappear again, there shouldn’t be too many problems on my side. However, some important decisions still need to wait for you to take the plunge”

The two of them joked and started from the dormitory building and walked all the way to the factory, office room, warehouse

Every place Ji Feng walked all over and looked very carefully.

In that spacious plant, a brand new equipment quietly and neatly lying there, does not look cold at all, but has a kind of spurting momentum, look at the Ji Feng face smile has not been broken.

“Is it noisy when these equipment are running?” Ji Feng suddenly thought of a question, if the sound of the machines was too loud, working in such an environment every day would not be good for the health of the employees.

Han Zhong smiled, "Don't worry, they are all new machines, the noise is minimal. Besides, didn't we also consider this problem when we decided to use this steel structure at the beginning? This kind of plant is stronger and can achieve a large span, it also reduces noise and has better sound insulation"

Ji Feng nodded with satisfaction and said, "Han Zhong, it's been hard for you this time."

"No way, who let us be a poor life, if all of us are like you, like a hands-off boss, then this factory will not need to open." Han Zhong said with a self-deprecating smile.

Ji Feng was dumbfounded and lost his smile

.....

"Alas, it's a loner again" Looking at the empty villa, Ji Feng couldn't help but shake his head helplessly, Xiao Yuxuan had gone home, Ji Feng hadn't had time to tell her that he had returned, Tong Lei was still staying in Yanjing, waiting for school to start before she could come over, and there was still half a month to go.

In the whole villa, there was only Ji Feng left.

Ji Feng first went through all the guard devices in the villa and checked them carefully, after making sure that there were no problems and no record of anything being broken, he then went upstairs, came to the bedroom, lifted the bed cover covering the bed, and a faint musty smell immediately reached his nostrils.

He couldn't help but shake his head slightly, it just wouldn't do without a woman in the house. With a woman, it was like a home.

Ji Feng quickly moved all the utensils from several bedrooms to the balcony to dry, and at the same time moved all the sofas and other furniture from the living room on the ground floor directly to the courtyard – with his strength, it was really hard for him to do these things.

Afterwards, Ji Feng cleaned up everything he could, including the cars parked in the garage, before sitting on the steps at the entrance, lighting up a cigarette and smoking.

Ji Feng couldn't help but think of Xiao Yuxuan again, and his heart was on fire.

It had been a long time since he had seen Xiao Yuxuan, and it really wasn't much fun to just be flirting on the phone every day, so he immediately took out his mobile phone and wanted to call Xiao Yuxuan.

But he pressed a few keys, but then put the phone into his pocket, since he came to Jiangzhou, naturally he had to go directly to his home to see Yuxuan, and also to visit Xiao Changhe.

The first thing is that Xiao Yuxuan is his beloved person, and not a tool that can be called upon to come and go, Ji Feng himself has an apology for Xiao Yuxuan, at this time is naturally more to treat her well. This good, but is reflected in the details.

The fact is that Xiao Yuxuan's own family situation is good, not worried about food and clothing, she herself does not want material pursuits, all that is sought is Ji Feng's sincerity and affection.

So, Ji Feng still gave up the intention of calling Xiao Yuxuan to come over and decided to go in person.

.....

The Xiao family.

The time had reached eleven o'clock at noon and Xiao Yuxuan was busy in the kitchen with her mother.

Xiao Changhe was busy in the company and hadn't returned yet. Ever since he almost fell in Hangzhou last time, Xiao Changhe had put all his thoughts back and was running his own acre of land without worrying, and no longer had any intention of going out to expand the market.

In fact, the market in Jiangzhou is already very big, but it is just more difficult to do. But with Lin Shengping as a talented person in the company, it has been able to steadily improve, just a little slower, but stable.

This is what Xiao Changhe would like to see the most now, steady development and eventually handing over a healthy and healthy company to his daughter, this is his greatest wish.

It was because he was not as aggressive that Xiao Changhe came home on time for dinner every day, and today was no exception.

This is why Xiao Yuxuan and her mother and daughter were busy cooking.

The mother-daughter duo sat on a small bench picking celery, talking from time to time in a cordial way.

Xiao Yuxuan's tone was gentle and she was especially close to her mother, especially when she saw that her mother had already grown a few Chinese hairs, her heart was even more sour.

Her memory of her mother was still stuck in her junior high school days.

Ever since high school, Xiao Yuxuan had been living in school, sometimes only going home once every few weeks, and even when she returned home, she was burying her head in homework or trying to sneak a glance at the television, and had very little time to talk to her mother, and even had very little time to even look at her mother directly.

Then came university, and she went home even less, going shopping with her friends, either sleeping in the dormitory, and then meeting her ex-boyfriend

It was only when she returned to Jiangzhou to work that she suddenly realized that, unknowingly, her mother had grown old. The mother now is no longer the one who reprimanded and educated herself because she didn't study properly, and who would come and put the covers on herself in the middle of the night because she liked to stir up the blankets in her sleep.

Nowadays, my mother has grown hair and wrinkles at the corners of her eyes The mother is starting to get old.

Xiao Yuxuan suddenly felt that the time she spent with her mother was too little, so the moment she noticed that her mother had gray hair on her head, hot tears almost came out of her eyes.

In fact, many people are like this, when they were young and unaware of their mother's hard work, they spent their teenage years studying and laying the foundation for their future lives. When they are young, they are busy falling in love and perhaps just starting their careers.

When one reaches middle age, one suddenly realises – ah! It turns out that parents are already old

“Xuan Xuan, you’re living with Xiao Feng now, right?” Xiao’s mother suddenly asked.

“Huh?”

Xiao Yuxuan was instantly startled, her heart thumped, and she surprisingly did not react for a while, just froze there, not knowing how she was reacting.

When Mother Xiao saw this, she instantly let out a sigh in her heart, it was really just as she had guessed.

In fact, from the last night when Ji Feng came to stay at home, Xiao’s mother already knew about his intimate relationship with her daughter, and from her daughter’s demeanor and the charm she showed between her hands and feet, it was enough to show that she had already become a woman.

Combined with the fact that on these few holidays, her daughter would always return a few days late, Mother Xiao naturally guessed that her daughter must have been living with Ji Feng.

“Mom, you, why are you asking about this all of a sudden.” Xiao Yuxuan blushed shyly and asked in an embarrassed whisper.

“Can’t mum ask?”

Mother Xiao glared at her and asked again, “Then when are you planning to get married?”

“Ah?”

Xiao Yuxuan’s heart suddenly trembled and she said in a panic, “Mom, Ji Feng is still in school, how can we get married at this time, it’s better to wait two years”

Chapter 658

“And continue to wait?”

Xiao mother hummed, “You girl why don’t you know how to hurry, in a few years you will be thirty years old, you have become an old girl, still not married, when will your father and I be able to hold a grandchild? Besides, Xiao Feng comes from a good background, he must have been tempted a lot outside, if you don’t hold on to him, he will definitely not be yours in the future, maybe he will be snatched away by someone else”

Xiao Yuxuan nodded with a bitter smile, but in her heart she was secretly saying, my good mother eh, you don't know, from the beginning, it was your daughter who was stealing other people's boyfriends

Xiao Yuxuan believed that if her mother knew that she had such a ridiculous life with Tong Lei and Ji Feng, I wonder if she would take a broom and beat herself out of the house!

"Or else it would be like this" Xiao mother suddenly remembered another idea: "Xuan Xuan, you and Xiaofeng first registered to get married, as for the wedding and banquet, not to have it first, you can wait until after Xiaofeng graduated and then have a big event, however, you are at the best age to have a baby, if it is any later, it will not be good for your health, and the baby you have will not be healthy You guys let me hold my grandson first!"

Xiao Yuxuan was suddenly dumbfounded, "Mom, you're is too open-minded, right?"

"What openness! Didn't I let you register your marriage first? After registering, you are even a legal couple, won't it be normal to have children at that time?" Xiao mother said.

Xiao Yuxuan laughed bitterly, "Mom, Ji Feng is still under the legal age of marriage, how can he register his marriage?"

"It's also really"

Xiao mother humanly complained, "To say that Xiao Feng this person is also quite good, he is also nice, his family is also good, it looks like he treats you well, it is just that the age gap between you two is a bit big, by the time he reaches the legal age for marriage, you will already be considered an advanced maternal age"

Listening to her mother's nagging, Xiao Yuxuan couldn't help but fantasize about the scene where she gave birth to Ji Feng's child She hurriedly patted her rolling face, what are you thinking, I wouldn't want to give birth to a child for that little rascal!

However, if I can give birth to a child for him That also seems to be good oh.

Xiao Yuxuan forgot to work for a while, and just sat there, dully thinking about her mind.

"What are you thinking about, hurry up and pick vegetables." Xiao mother said.

"Oh!"

Xiao Yuxuan then snapped back to her senses and nodded her head in a panic in response, but in her heart she was secretly muttering, was the little rascal really willing to let himself have children for him?

Moreover, so many times before, did not take any safety measures, but also did not get pregnant ah

For a while, Xiao Yuxuan could not help but think a little in her heart.

"Ding" The phone in the living room suddenly rang, Xiao Yuxuan was stunned, panicked, wiped her hands on her apron and said, "Mom, I'm going to take a call."

.....

Ji Feng drove to the gate of Xiao Changhe's villa before dialing Xiao Yuxuan's number.

"Little rascal, why did you remember to call me at this time?" Xiao Yuxuan was a bit surprised to receive a call from Ji Feng, but at the same time, she was also a bit strange. In the past, Ji Feng always called her at night, but today he called at noon.

Ji Feng laughed: "Something is indeed up, are you at home? Open the gate."

"You, you've come to Jiangzhou?" Xiao Yuxuan immediately reacted and ran towards the front door in a panic, she pulled open the door of the living room at once and immediately saw that Ji Feng's car was heard at the front door, he was standing by the car, smiling and waving at himself.

"Little rascal" Xiao Yuxuan's heart was hot, and she hurriedly turned back and pressed open the gate, while quickly running over.

Ji Feng drove the car into the courtyard and parked it, and as soon as he got out of the car, he saw Xiao Yuxuan, who was standing by the car and looking at himself with a smile.

"Yu Xuan, did you miss me?" Ji Feng took Xiao Yuxuan's hand and asked with a smile.

"Thought about it"

Xiao Yuxuan's heart was cocoa, and her beautiful eyes had an uncontrollable joyful look in them, "Why are you coming over now?"

"The new plant of the pharmaceutical factory is built, I came over to take a look, and I haven't seen you for a long time!" Ji Feng smiled and pinched Xiao Yuxuan's charming face" It was still so tender and smooth.

"Stop it, my mum is inside, in case she sees how embarrassing it is!" Xiao Yuxuan gave Ji Feng a flirtatious white glance and lowered her voice again, "Little rascal, my mother and I even mentioned you just now, she means to rush us to get married and have children" Don't be surprised if she tells you about these issues when we go in later."

"Marry and have children?" Ji Feng was stunned, and then he laughed bitterly, "Yu Xuan, it's really hard for you"

"OK, OK, it's all my own fate, what does it have to do with you?" Xiao Yuxuan's heart was also a bit uncomfortable, after all, she could not marry Ji Feng openly, this was also considered a knot in her heart, and also a knot in Ji Feng's heart.

The first thing he could do was to do his best to be as good as he could be to Yu Xuan and Lilai, and to be as good as he could be.

It seems to feel the apology in Ji Feng's heart, Xiao Yuxuan squeezed Ji Feng's hand, a gentle smile: "Don't think so much, it's not possible, I'll showdown with my mother, tell her it's me seducing you, not you sorry me, my mother even if how angry that is my mother, she will only acquiesce to our two relationship in the future" "

Ji Feng said in a hurry: "Never, can hide it until when, until when, perhaps later things will turn around, your parents themselves will realize it is not good to say, subliminal transfer it. If you talk so vehemently, they will definitely not be able to accept it."

He could hear that Xiao Yuxuan had obviously not been thinking about it for a day or two when she said this, otherwise she would not have said it so thoroughly.

However, he could almost predict that if Xiao Yuxuan had said all this out loud, the Xiao family would definitely erupt into extremely sharp conflicts. No parent in any family would be willing to see their daughter go and work for someone else as a lover, unless they were the kind of beastly parents who wanted to make money out of their daughter.

Xiao Changhe and his wife were both respectable people, so how could they tolerate such nonsense from their daughter?

It was not even impossible for them to get angry and come to a bad end.

Ji Feng could only hurry to stop Xiao Yuxuan, fearing that she would really mess up, and at that time it would really be unmanageable.

"Don't worry, I definitely won't do that if things don't come to a certain point." Xiao Yuxuan smiled sweetly, tickled Ji Feng's palm and quietly threw a winks.

This goblin!

Ji Feng couldn't help but be angry and amused, and subconsciously he was about to slap her hard on her plump, round, arse, but the light from the corner of his eyes suddenly saw a figure flash past the villa door, and he immediately restrained himself from this thought, but the expression on his face was very odd.

Because, when Xiao Yuxuan was turning around, she deliberately rubbed her elastic arse against Ji Feng's belly while smiling flirtatiously, "Come in quickly"

This is a double entendre!

Is it to let me into the villa, or is it to go in Ji Feng's gaze could not help but fall into her plump, fat buttocks

This demon, once moved, will be passionate like fire, but on the contrary, also very naughty, really owes a spanking, should be a hard spanking.

Xiao Yuxuan and Tong Lei, one was as passionate as fire and flirtatious, the other had a cool personality but a sweet feeling, no matter which one, Ji Feng was in love with them all.

"Auntie!"

Ji Feng had long seen Mother Xiao, and it was because he saw her that he didn't hit that slap, only to be molested by Xiao Yuxuan in turn.

“Little Feng is here, come in quickly.” When Xiao’s mother saw Ji Feng, she couldn’t help but smile as her eyes narrowed, “Xuan Xuan is really the same, it’s so hot outside and she won’t let Xiao Feng come in to talk.”

Xiao Yuxuan was instantly displeased, this was not even married yet, how come she started to look towards him?

Ji Feng carried two gift boxes in one hand, as well as a shopping bag, and smiled, “Auntie, I came in too much of a hurry and didn’t bring much, I just brought some tonic products, I wish you good health and all the best!”

Mother Xiao instantly smiled like a flower and nodded her head repeatedly, “Ai Ai, good.”

“Horse’s ass.” Xiao Yuxuan couldn’t help but grimace, when she was with herself, why didn’t she see this guy being so eloquent?

Xiao mother, however, glared, “Stinky girl, what are you talking about.”

“I’m going to cook.” Xiao Yuxuan giggled and turned to run into the kitchen.

But Xiao’s mother hurriedly said, “This girl, why is she so windy Xiao Feng, you sit down for a while, I’ll go get her.”

As she walked towards the kitchen, she muttered, “This is also really, when Xiao Feng is here, instead of accompanying him, you ran to the kitchen to cook by yourself, you don’t know anything at all”

Ji Feng couldn’t help but be secretly happy, Xiao’s mother was also quite an interesting person.

This kind of person is relatively easy to get along with, and has no bad intentions, just like an ordinary housewife, except that she is much happier than many housewives, because she has a daughter who understands things, and a husband who loves her, and a family with a superior living environment!

There are not many people who can have all three, so it is said that Xiao’s mother is happy.

Chapter 659

Xiao Yuxuan and Ji Feng were sitting in the living room whispering, the former throwing a wink at Ji Feng from time to time, causing Ji Feng’s heart to itch and he wanted to put him on the spot, but he was concerned about the presence of Xiao’s mother in the kitchen, in case she came out and saw that exciting and fragrant scene, it would be embarrassing

In fact, Ji Feng and Xiao Yuxuan also wanted to go to the kitchen to help, but they just entered the kitchen, they were blown out by Xiao mother, for Ji Feng, the prospective son-in-law, Xiao mother is more than satisfied, so Ji Feng came she felt very happy, doing things are also starry-eyed, where can still let Ji Feng haphazardly interfere?

She wanted to make something delicious to entertain her future son-in-law, although her daughter’s cooking skills are also good, but after all, she does not have the heart in it, or she did it herself is better, to save the future married, Ji Feng bullying Xiao Yuxuan.

In desperation, Ji Feng and the two of them had to come to the living room, where they whispered and also waited for Xiao Changhe to arrive.

However, perhaps because they hadn't seen each other for a long time, both Xiao Yuxuan and Ji Feng were somewhat impressed, but they couldn't do anything indiscriminate, and could only pull hands or give a secret kiss to console their longing for each other.

"Little rascal, when you were in Yanjing, did you go out to a room with Lei Lei?" Xiao Yuxuan suddenly asked, smiling charmingly, her eyes displaced and flirtatious.

Ji Feng, however, immediately shook his head and said, "No."

There was no such thing, of course he would not create something out of nothing, moreover, even if there was a rooming out, he absolutely could not say it, otherwise, Xiao Yuxuan did not say anything on the surface, her heart would definitely be a little uncomfortable.

"Really no?" Xiao Yuxuan asked with a delicate smile.

Ji Feng couldn't help but lose his smile: "Why do you always dwell on this issue Getting a room is not, but instead, we went to the Gobi desert and fought with others, which was quite interesting."

"Ah!?"

Xiao Yuxuan was scared out of her wits and asked in a panic, "So, are you okay then? Didn't hurt anywhere, right?"

Ji Feng laughed, "Look at me now that I'm alive and kicking in front of you, what else can happen? Don't worry, it's just a small operation, it's nothing. By the way, how is it over at the orphanage?"

Before leaving, Ji Feng had instructed Xiao Yuxuan to occasionally visit the Morning Glory Orphanage located in the southern suburbs of Jiangzhou if she had time. On the one hand, because it was the place where Wang Hu and Wang Xin grew up, even though it had been relocated now, but after all, there was still the old home, so it was a kind of virtue to take care of the old home and the children, which was also a kind of virtue and good deed, and at the same time, it could also make Wang Xin and Wang Hu feel grateful, so it was two birds with one stone.

On the other hand, Xiao Yuxuan's visit to the orphanage is actually to help Ji Feng to check if the orphanage is in any trouble.

The private secondary school that Qiu Pengfei had mentioned at the beginning had all the facilities, so there would naturally not be any problems with the hardware, but what was most feared was that someone in that vicinity would see that the orphanage was full of widows and orphans as well as some peasants from the countryside, and then go and bully them.

"Don't worry, those children in the orphanage are living very well, a clinic doctor my dad knows, overheard my dad talking about the orphanage, so he willingly went to the orphanage, to be the school doctor, my dad's side is also providing medicine to the orphanage for free, basically the normal needs can be met!" Xiao Yuxuan said.

Ji Feng nodded in satisfaction and said, "This I am relieved, as long as the orphanage is stable, the hearts of the two Wang Xin siblings will also be stabilized."

Wang Hu was good at fighting and Wang Xin was highly skilled in computers, both of them were rare talents, so Ji Feng naturally wanted to keep them.

However, from this matter, Ji Feng inadvertently found that Xiao Yuxuan also seemed to have a good talent in management, she spoke in a clear manner and had clear priorities, so if she did management, she thought it should be good.

But Ji Feng didn't bring it up, because when he was just about to say it, Xiao Changhe came back.

"Uncle Xiao" Ji Feng stood up with a smile and handed a cigarette to Xiao Changhe.

"Little Feng is here, have a seat!" Xiao Changhe was full of smiles, there was no doubt that he too, like his wife, treated Ji Feng as a prospective son-in-law.

Of course, if he knew that this son-in-law-to-be of his actually had another woman to share with his daughter, I'm afraid he wouldn't be so pleasant.

With the addition of Xiao Changhe, Ji Feng and Xiao Yuxuan could no longer whisper to each other, moreover, they had to speak in a moderate manner, after all, molesting someone's daughter in front of the future Old Tai Shan, Ji Feng's cheek was not that thick.

So the vast majority of the time, it was Ji Feng and Xiao Changhe who were talking, with Xiao Yuxuan listening with a smile on her face and only occasionally interjecting.

Ever since Ji Feng helped Xiao Changhe to solve the trouble in Hangzhou last time, so that he would not lose all his money, all of Xiao Changhe's energy had been put into Jiangzhou city, steadily developing the company, and it was quite effective by now, not to mention the steady increase in assets, and the company's business was gradually expanding in addition to being stable.

Moreover, every circle has its own network of contacts, and the same is true for the same industry.

Many hospitals in Jiangzhou are now also aware that there is a pharmaceutical company with a very deep background that has established partnerships with several of the city's tertiary hospitals.

Then, naturally, some other small hospitals will not be too harsh when negotiating with Changhe Pharmaceutical Company, who knows what background they actually have, in case they give themselves a little trip behind their backs, it will all cause big trouble.

Sometimes a small medical dispute can cause a hospital to close down if the top speaks up, so any company or unit that is directly caught by the top will do their best to play nice with the top and try not to offend those with a background.

It was for this reason that the development of Changhe Pharmaceutical Company became smoother and smoother.

Xiao Changhe's mood, naturally, was also very comfortable, compared to the situation when he was struggling and anxious in Hangzhou, it was really a world of difference.

Ji Feng himself did not talk a lot, but every word was on point, and he was knowledgeable, so Xiao Changhe was still very interested in the conversation.

Xiao Yuxuan watched from the side as Ji Feng got along so well with his father, and her heart couldn't help but feel relieved, for such a scene of harmony between father and son-in-law was a very rare one.

It was not until it was time for lunch that Ji Feng and Xiao Changhe called it a day.

"Little Feng, be sure to eat more" Mother Xiao smiled as she looked at her daughter and Ji Feng, and from time to time, she pinned dishes for these two juniors, but she was extremely satisfied in her heart.

"Thank you auntie." Ji Feng nodded politely and smiled.

"This child, we're all family now, what's the point of thanking." Mother Xiao said with a smile, "You two, as long as you can get married as soon as possible and let me hold a grandson, that would be the best thanks for me."

"Ahem" Xiao Changhe almost didn't choke on his soup, he hurriedly wiped his mouth and said in surprise, "This is a bit too urgent, isn't it? Little Feng is still in school right now. How can you get married and have a child at this time?"

Ji Feng also nodded awkwardly, even though Xiao Yuxuan had already reminded him before, he still felt too surprised, after all, he was weak in his heart.

"What's the hurry? Yu Xuan is not young, it's the right time to get married and have a child, if we are a few years later, it will be difficult to have a child, what if there is danger then?" Xiao mother glared at her husband and couldn't help but grunt.

"Xiao Feng, do you think that my words are right?" Xiao mother turned her head and asked Ji Feng.

"Hehe" That what" Ji Feng snorted, but he didn't know how to respond.

"Mom, it's not like Ji Feng can make the decision alone on this matter, he has to ask his family members to do it ah, you just don't say anything." Xiao Yuxuan could only speak out to relieve Ji Feng.

"Yes, Xiao Feng's family is different from ours, some things always require a gradual process, there is no rush." Xiao Changhe knew Ji Feng's identity and was a little uncertain in his heart, would Ji Feng's family agree to him finding a woman a few years older than himself as his wife?

If they didn't agree, this could be a bit

"That's true." Mother Xiao nodded slightly and said, "Little Feng, ah, when you go back, communicate with your parents, tell them what I mean and seek their opinion, okay?"

What else could Ji Feng say?

He could only nod vigorously and say, "Auntie, I understand."

After finishing lunch, Xiao Changhe said goodbye to Ji Feng and rushed back to the company once again. Ji Feng and Xiao Yuxuan helped Xiao's mother clean up the dishes.

"Xuan Xuan, you are going back with Xiao Feng this afternoon, right?" Xiao's mother suddenly asked.

"Huh?" Xiao Yuxuan's pretty face suddenly turned red, glanced back at Ji Feng who looked rather embarrassed, shook her head shyly and said, "Mom, I'll stay at home with you."

Ji Feng, however, cackled in his heart, it was obvious that Xiao's mother had realized that she was living with Yu Xuan, otherwise she would never have said that. Only, how did she know? Did Xiao Yuxuan leak it, or was it

"Forget it, where does this old woman of mine need company, go and play!" Xiao mother waved her hand and said with another double entendre, "Be safe."

"Mmm." Xiao Yuxuan's face turned red with shyness and her voice was as mosquito-like as she gave a muffled muffled sound, but her heart was throbbing violently. She certainly knew that her mother's words 'pay attention to safety' were not just to tell her to pay attention to her personal safety, but to remind herself not to get killed before she got married.

Ji Feng, however, did not realise this, he just secretly wondered, Xiao's mother knew that she was living with her daughter and did not give herself a couple of lectures?

It was only when Xiao Yuxuan secretly gave him a wink that he reacted: "Ahem Then what, aunty, we'll go back first, we'll come back to see you and Uncle Xiao another day, if you have any problems, you can call me anytime."

"Go on go on." Mother Xiao waved her hand with a smile, but in her heart she was secretly thinking, a man as good as Ji Feng should let her daughter hold on tight, originally it was fine if she didn't know they lived together, but now that they do, is it

Chapter 660

Xiao Yuxuan and Ji Feng were sitting in the living room whispering, the former throwing a wink at Ji Feng from time to time, causing Ji Feng's heart to itch and he wanted to put him on the spot, but he was concerned about the presence of Xiao's mother in the kitchen, in case she came out and saw that exciting and fragrant scene, it would be embarrassing

“Little Feng is here, have a seat!” Xiao Changhe was full of smiles, there was no doubt that he too, like his wife, treated Ji Feng as a prospective son-in-law.

Of course, if he knew that this son-in-law-to-be of his actually had another woman to share with his daughter, I’m afraid he wouldn’t be so pleasant.

With the addition of Xiao Changhe, Ji Feng and Xiao Yuxuan could no longer whisper to each other, moreover, they had to speak in a moderate manner, after all, molesting someone’s daughter in front of the future Old Tai Shan, Ji Feng’s cheek was not that thick.

So the vast majority of the time, it was Ji Feng and Xiao Changhe who were talking, with Xiao Yuxuan listening with a smile on her face and only occasionally interjecting.

Ever since Ji Feng helped Xiao Changhe to solve the trouble in Hangzhou last time, so that he would not lose all his money, all of Xiao Changhe’s energy had been put into Jiangzhou city, steadily developing the company, and it was quite effective by now, not to mention the steady increase in assets, and the company’s business was gradually expanding in addition to being stable.

Moreover, every circle has its own network of contacts, and the same is true for the same industry.

Many hospitals in Jiangzhou are now also aware that there is a pharmaceutical company with a very deep background that has established partnerships with several of the city’s tertiary hospitals.

Then, naturally, some other small hospitals will not be too harsh when negotiating with Changhe Pharmaceutical Company, who knows what background they actually have, in case they give themselves a little trip behind their backs, it will all cause big trouble.

Sometimes a small medical dispute can cause a hospital to close down if the top speaks up, so any company or unit that is directly caught by the top will do their best to play nice with the top and try not to offend those with a background.

It was for this reason that the development of Changhe Pharmaceutical Company became smoother and smoother.

Xiao Changhe’s mood, naturally, was also very comfortable, compared to the situation when he was struggling and anxious in Hangzhou, it was really a world of difference.

Ji Feng himself did not talk a lot, but every word was on point, and he was knowledgeable, so Xiao Changhe was still very interested in the conversation.

Xiao Yuxuan watched from the side as Ji Feng got along so well with his father, and her heart couldn’t help but feel relieved, for such a scene of harmony between father and son-in-law was a very rare one.

It was not until it was time for lunch that Ji Feng and Xiao Changhe called it a day.

“Little Feng, be sure to eat more” Mother Xiao smiled as she looked at her daughter and Ji Feng, and from time to time, she pinned dishes for these two juniors, but she was extremely satisfied in her heart.

“Thank you auntie.” Ji Feng nodded politely and smiled.

“This child, we’re all family now, what’s the point of thanking.” Mother Xiao said with a smile, “You two, as long as you can get married as soon as possible and let me hold a grandson, that would be the best thanks for me.”

“Ahem ……” Xiao Changhe almost didn’t choke on his soup, he hurriedly wiped his mouth and said in surprise, “This is a bit too urgent, isn’t it? Little Feng is still in school right now. How can you get married and have a child at this time?”

Ji Feng also nodded awkwardly, even though Xiao Yuxuan had already reminded him before, he still felt too surprised, after all, he was weak in his heart.

“What’s the hurry? Yu Xuan is not young, it’s the right time to get married and have a child, if we are a few years later, it will be difficult to have a child, what if there is danger then?” Xiao mother glared at her husband and couldn’t help but grunt.

“Xiao Feng, do you think that my words are right?” Xiao mother turned her head and asked Ji Feng.

“Hehe …… That what ……” Ji Feng snorted, but he didn’t know how to respond.

“Mom, it’s not like Ji Feng can make the decision alone on this matter, he has to ask his family members to do it ah, you just don’t say anything.” Xiao Yuxuan could only speak out to relieve Ji Feng.

“Yes, Xiao Feng’s family is different from ours, some things always require a gradual process, there is no rush.” Xiao Changhe knew Ji Feng’s identity and was a little uncertain in his heart, would Ji Feng’s family agree to him finding a woman a few years older than himself as his wife?

If they didn’t agree, this could be a bit ……

“That’s true.” Mother Xiao nodded slightly and said, “Little Feng, ah, when you go back, communicate with your parents, tell them what I mean and seek their opinion, okay?”

What else could Ji Feng say?

He could only nod vigorously and say, “Auntie, I understand.”

After finishing lunch, Xiao Changhe said goodbye to Ji Feng and rushed back to the company once again. Ji Feng and Xiao Yuxuan helped Xiao’s mother clean up the dishes.

“Xuan Xuan, you are going back with Xiao Feng this afternoon, right?” Xiao’s mother suddenly asked.

“Huh?” Xiao Yuxuan’s pretty face suddenly turned red, glanced back at Ji Feng who looked rather embarrassed, shook her head shyly and said, “Mom, I’ll stay at home with you.”

Ji Feng, however, cackled in his heart, it was obvious that Xiao’s mother had realized that she was living with Yu Xuan, otherwise she would never have said that. Only, how did she know? Did Xiao Yuxuan leak it, or was it ……

“Forget it, where does this old woman of mine need company, go and play!” Xiao mother waved her hand and said with another double entendre, “Be safe.”

“Mmm.” Xiao Yuxuan’s face turned red with shyness and her voice was as mosquito-like as she gave a muffled muffled sound, but her heart was throbbing violently. She certainly knew that her mother’s

words 'pay attention to safety' were not just to tell her to pay attention to her personal safety, but to remind herself not to get killed before she got married.

Ji Feng, however, did not realise this, he just secretly wondered, Xiao's mother knew that she was living with her daughter and did not give herself a couple of lectures?

It was only when Xiao Yuxuan secretly gave him a wink that he reacted: "Ahem Then what, aunty, we'll go back first, we'll come back to see you and Uncle Xiao another day, if you have any problems, you can call me anytime."

"Go on go on." Mother Xiao waved her hand with a smile, but in her heart she was secretly thinking, a man as good as Ji Feng should let her daughter hold on tight, originally it was fine if she didn't know they lived together, but now that they do, is it
