

Campus Master 661

Chapter 661

Unfortunately, the two of them drove all the way to Tengfei Network, but Ji Feng did not figure out who was the most suitable person to be in charge of Tengfei Network, Zhang Lei was obviously going to take the career path, Han Zhong was in charge of the overall situation, Zhao Kai's interest was obviously not in business, according to Ji Feng's guess, he was also from a cadre family, so he thought the possibility of taking the career path in the future was not small.

The other two are the same.

As for the others, Ji Feng did not give much thought to them, in fact there were only a few people he knew.

"It seems that the only way to recruit is through headhunters as well." Ji Feng secretly said. Other than that, he really didn't have any good methods right now.

"Are we there yet?" Xiao Yuxuan looked at the desolate environment and couldn't help but ask strangely, "Why did you open your company in this place?"

Ji Feng laughed, "It's quiet here."

"Then how do the employees get to and from work?" Xiao Yuxuan couldn't help but ask strangely, she hadn't really seen a company like this, it wasn't even convenient for transportation, how else could they get to work?

Ji Feng pointed to this office building and said, "See, the basement and the first floor, they were all bought by me, the employees of the company all live here temporarily and go home once in a while. Moreover, many of the employees' families are not in Jiangzhou, and they are still eager to have a free place to stay. Besides, this place is under construction now, and when all this office building is built, it will be open to traffic."

"You can really toss and turn, isn't this a disguised restriction on the employees' freedom of movement." Xiao Yuxuan gave him a blank look, if she was allowed to work in this environment, she definitely wouldn't be able to hold on.

Ji Feng smiled: "When you work in technology, you need a comfortable environment. Right now the network company is all still in its infancy, apart from the two cooks and a few logisticians, almost all the others recruited are technical staff, they are different from the general staff and don't feel bored living here."

Ji Feng once came here one weekend, when he came because there was nothing in the company, he saw a programmer playing a programming game, and when he left after staying for half a day, he found that the programmer was actually still playing this programming game, even he hadn't even changed his posture.

This was really an eye-opener for Ji Feng. It turned out that a real technician could be so self-indulgent.

If Ji Feng were to sit there for half a day without moving a muscle, he would be perfectly capable of doing so, but if he wanted to find pleasure in this, unless he was cultivating, otherwise, even the most stoic nature would find it boring.

It is only now that he has compared himself with the programmer that he realizes that there are people outside of people, and there are days outside of days.

While the two of them were joking, Ji Feng took Xiao Yuxuan directly into the two storefronts.

Yang Yu was wearing black-rimmed glasses and was looking at the computer, crackling away at the keyboard with a serious expression on his face.

Several other employees were also busy with something at their computers, and no one even noticed Ji Feng and Xiao Yuxuan entering.

“Yang Yu.” Ji Feng called out.

“I told you to wait first, I’m busy!” Yang Yu said with some impatience.

Ji Feng couldn’t help but lose his smile and said, “Yang Yu, your temper is not small oh.”

Yang Yu suddenly looked very impatient, he jerked his head up and was about to get angry, but found that the person standing in front of his desk was actually Ji Feng.

Hula!

Yang Yu hurriedly stood up, “Boss, you, why are you here?”

Ji Feng laughed: “Came to see you guys Why did you get so angry just now? Did you encounter any problems?”

“Not really!”

Yang Yu said with some embarrassment, “I was busy writing a section of the program, and Old Wang below kept calling me to go for breakfast, my thoughts were interrupted”

“Then I’m really sorry.” Ji Feng hurriedly apologized, but he knew that once his train of thought was interrupted, it was very painful. Especially for these technicians and people who lived off their brains, inspiration was often worth more than anything else, a flash of light could be an extremely brilliant idea, but if it was suddenly interrupted, it would be very difficult to pick it up again.

Because people have different ideas at many times.

Yang Yu immediately shook his head and said, “Boss, you can’t be blamed for this, it’s me who didn’t follow the company’s work and rest time, I’m still the vice general manager, but I’m the one who took the lead in breaking the rules, I, I’ll ask for punishment!”

“Forget it.” Ji Feng smiled and waved his hand, seeing Yang Yu’s somewhat darkened eyes and the slightly pale face, he couldn’t help but say, “Yang Yu, you, the deputy general manager, can take the lead in violating the rules, but, do you listen to my words?”

“Yes! Boss, I will listen to your words!” Yang Yu said immediately. Since the last time Ji Feng had lifted him out of the detention centre unharmed and cleverly bailed out WX, the current general manager of Tengfei Network Company, Wang Xin, these two events had greatly changed Yang Yu’s opinion of Ji Feng, and he could even say that he trusted him immensely.

He would naturally listen to Ji Feng’s words.

“Since you listen to me, then good, I will

Yang Yu immediately nodded his head and said, “Boss, I remember.”

“Mm.”

Ji Feng then revealed a satisfied smile, nodded and said, “Go eat breakfast, I’ll go find Manager Wang.”

“Yes!” Yang Yu said loudly and immediately headed out.

Ji Feng looked but his eyebrows were slightly furrowed, he could tell that Yang Yu’s legs were shaking slightly as he walked, obviously his body was already weak.

“How long has Yang Yu been working here?” Ji Feng asked with a frown.

An employee next to him immediately said, “Boss, Chief Yang has been sitting here for more than thirty hours since the night before last.”

“Nonsense!”

Ji Feng instantly sank his face, yet he also understood why Yang Yu was so weak. Not to mention that his body was already a bit weaker than an ordinary person, even a person with a stronger body couldn’t stand it if he worked for more than thirty hours straight!

“You guys continue to work, but you should also take rest when it’s time to rest!” Ji Feng waved his hand, then turned around and walked out, his face gloomy, “This Yang Yu, even if he is working harder, he can’t not take his life, it’s really”

Yang Yu is a rare computer talent, if unknowingly exhausted, not to mention the loss of the Tengfei network company, even when facing Yang Dezhao, Ji Feng also has no way to explain to him.

What’s more, it’s not good to be lazy, but it’s even worse to work desperately, and Ji Feng doesn’t approve of this way of working.

Xiao Yuxuan was also staggered, this is a real workaholic, once he works, he doesn’t even want to live!

Ji Feng took Xiao Yuxuan with him and walked around to the front door of the office building with big steps and walked straight in.

The office building had actually been completely renovated, but there were still a few office buildings nearby that had not been renovated, so the place was not open to traffic, but the property and security guards had already taken up residence in the office building where the Tengfei Network Company was located.

So a security guard stopped Ji Feng: “This gentleman, may I ask who you are looking for?”

“Tengfei Network.” Ji Feng had anger in his heart and walked in directly and quickly, “Yu Xuan, you stay here and register, I’ll go up first.”

The security guard opened his mouth, but the words to stop him didn’t come out.

It wasn’t that he didn’t want to say anything, but he didn’t dare.

Although Ji Feng was dressed simply, he had an aura that ordinary people did not have, so he was not an ordinary person at first glance.

Nowadays, according to the Tengfei Network, all the employees work on the first and first floors, and the employees eat and live in the basement.

Ji Feng came directly to the door of the general manager’s office on the first floor and knocked on the door, but no one responded.

Bang Bang Bang!

Ji Feng knocked hard a few more times, but there was still no response. He was just about to turn around and go back when he suddenly heard a voice coming from behind him, “Boss?!”

“Wang Hu, come here!” Ji Feng drank with a sullen face, without looking back.

Wang Hu immediately scowled in fear and hurriedly walked over, “Boss.”

“I’m asking you, where is everyone in this office? Where is Wang Xin?” Ji Feng asked in a deep voice.

“The general manager she, she is downstairs ……” Wang Hu said carefully, although he didn’t understand why Ji Feng was angry, he knew that Ji Feng was angry, “Boss, I’ll go get her here.”

“No need, let’s go down together!”

Ji Feng waved his hand with a sullen face and said in a deep voice. He found that this network company was so bad that it was completely out of his expectation, the place was almost out of shape.

When Wang Hu saw Ji Feng get angry, he didn’t dare to say a word more, he just followed closely behind Ji Feng and went downstairs.

“Boss, the general manager is in the No. 1 facade.” When he came downstairs, Wang Hu reminded.

“She’s the general manager, what’s she doing down there if she’s not staying in the office?” Ji Feng asked in a deep voice, “And that Yang Yu, he actually made himself so weak that a gust of wind could blow away seemingly ……”

“Boss!” Wang Xin quickly ran over from the other facade, Ji Feng took a look and was instantly more angry in his heart, she was also wearing two black circles under her eyes and looked a bit pale.

“How did you get into this state too?” Ji Feng asked helplessly.

“The last few days have been a bit busy, so that’s why I ……” Wang Xin was a bit vain and didn’t even dare to look at Ji Feng’s eyes.

Wang Hu whispered next to him, “Boss, the general manager also hasn’t slept all night ……”

“What a mess” Ji Feng couldn’t help but scratch his head hard, angry in his heart and not knowing how to vent it, he could only stand in place gnashing his teeth in hatred.

Chapter 662

“Tell me, what is the reason, why are you all working like desperate men, working all night long, don’t you want to die?”

Inside the general manager’s office on the first floor of the office building, Ji Feng rubbed his forehead and asked helplessly. Sitting on the sofa opposite him was a row of seven employees, including Yang Yu, who had already eaten breakfast, and General Manager Wang Xin.

Including the two of them, all of them had two dark circles under their eyes, especially Wang Xin and Yang Yu. If they were to play humanoid pandas, they could have gone on stage without make-up.

Yang Yu, in particular, was walking on weak legs and had a pale face, looking as if he had been very ill and his body might collapse at any moment.

The first time I saw him, he was shaking his head in disbelief. This is clearly a case of not wanting to live.

“Why isn’t anyone talking?” After waiting for a while and finding that no one answered, Ji Feng couldn’t help but frown and said helplessly, “Although I’m the boss, I’ve never asked you guys to work so hard, work is important, but your body is more important than work, ah.”

Ji Feng couldn’t help but feel secretly glad that it was lucky that Han Zhong had suddenly called himself back and that he had hurriedly come here to take a look at the network company, if he had come a few days later, it was possible that something might have happened.

He then wondered, what was the reason for this Wang Xin and Yang Yu to be so desperate?

If Yang Yu and Wang Xin were allowed to work around the clock like this, their bodies would collapse sooner or later, and without them, the company wouldn’t have to run.

Wang Xin is obviously not fit to continue managing the company, she can’t even manage herself, how else can she manage the company?

As for Yang Yu

Ji Feng looked at the pale Yang Yu and couldn’t help but shake his head slightly, he wouldn’t have to think about it, it seemed that he could only bring in management talents from outside through a headhunter.

“Still not talking?”

Ji Feng looked at the few employees who had been silent, and his voice couldn’t help but raise a little.

Xiao Yuxuan touched him unobtrusively at the side, signalling him not to get angry easily.

“Since none of them are willing to talk, then fine, Wang Hu, you come and say what’s going on here!” Ji Feng looked at the only one who didn’t have a black eye, Wang Hu, this guy was in charge of security work, because it was summer vacation and Du Shaofeng had gone home, so the company’s security department was left with only one person, Wang Hu, and two security guards.

However, Wang Hu, who was originally in charge of the security department, which had the largest workload, instead looked well rested and in good spirits, without any semblance of fatigue, while the other few employees who worked regularly from 9 to 5, were all too tired to lift their heads, which was really too strange.

“Boss, I don’t know much about their technical department, and I’m not sure exactly what’s going on.” Wang Hu smiled bitterly and spread his hands.

Ji Feng nodded and gave Wang Xin and the others another glance before saying, “Alright, the few of you all go back and rest first, take two days off and have a good rest. Yang Yu and Wang Xin stay behind first.”

“Yes!” Several other employees glanced at each other and immediately nodded at the same time, stood up and hurriedly left.

“Wang Hu, you also go wait in another office first, I’ll have a few words with the two of them.” Ji Feng said.

“Yes, boss.” Wang Hu also hurriedly stood up and quickly left.

The only four people left in the office were Yang Yu and Wang Xin, as well as Ji Feng and Xiao Yuxuan.

Ji Feng sighed lightly and said, “Now that the irrelevant people are gone, can’t you two talk about what’s going on here? Yang Yu, you have the most straightforward personality, you speak.”

He felt that there was something wrong with the atmosphere, it was true that Yang Yu and the others were burying their heads in the sand, but there was not that fervent atmosphere at all, instead it seemed a little stagnant.

“Boss, it’s actually still because of that incident last time.” Yang Yu said in a sullen voice.

“What was it?” Ji Feng asked in surprise.

“It’s that last time you asked us to look for that thing and Wang Xin and I didn’t get it done.” Yang Yu said somewhat ashamedly, “Boss you trust us so much, but we couldn’t even get such a little thing done, this all feels a little I feel a little ashamed.”

“Just because of this?” Ji Feng’s eyebrows instantly furrowed, “Then you guys are now working so hard just to find that thing?”

Yang Yu immediately shook his head and said, “Boss, it’s actually because we didn’t find that thing and you never came to see the company, Wang Xin and I both thought that you were disappointed in us So we just wanted to make something happen to show you that we’re not that useless.”

Ji Feng was stunned at once.

He could never have imagined that Yang Yu and Wang Xin were fighting so hard to prove to themselves that they were capable, that they weren’t useless!

“Just because of this, you guys are so desperate?” Ji Feng couldn’t help but ask with a frown.

“This is really” Ji Feng was really amused and angry, these two guys actually” They actually want to prove themselves so desperately because they didn’t complete the task they were given, even going so far as to use their physical health as a capital, they simply can’t tell which is more important!

However, at the same time as the atmosphere, Ji Feng’s heart could not help but rise up with a feeling of pride.

Having such an employee is a blessing for any boss, and Ji Feng felt deeply honoured!

“Wang Xin ah Wang Xin” Ji Feng didn’t know what to say for a while before he shook his head and said, “Yang Yu he doesn’t know what we are looking for, but you should know ah, you should know better, we are facing a powerful opponent, compete with them, failure is not something unacceptable, why do you need to”

“All in all, it’s me who failed to complete the task you gave me, and failed to live up to your trust.” Wang Xin said with some shame. In fact, it was because she knew what she was looking for and also vaguely knew that her opponent was powerful, so she felt even more guilty for not completing the task.

Because she knew very well how much trouble it would bring to her boss once that thing fell into the hands of someone who was hostile to him! That could simply be said to have endless consequences!

The boss had saved her, dealt with the ungrateful bastard Xie Hongjun, and found new accommodation for the children in the Morning Glory Orphanage, and even improved their various living conditions, which to Wang Xin, who had grown up in the orphanage, was a great favour!

But she can’t even do the only thing her boss has asked her to do, and there is still no trace of the item. According to her speculation, it is likely that it has been obtained by her boss’s rival, which is tantamount to adding another powerful rival to her boss.

Under such circumstances, how could Wang Xin not feel guilty?

“Forget it, I didn’t have much hope for this matter in the first place.” Ji Feng couldn’t help but shake his head and said, “I’ll repeat, I’m not disappointed in you guys, and you guys don’t need to feel guilty even more, the fact that you can recruit excellent technical talents and develop a superior program is already the best reward for me.”

“That’s exactly what we did!” Yang Yu said in a sullen voice.

Bang!

Ji Feng slapped the table fiercely, “Then you can’t joke with your body! If I had come a few days later, I think you would have been sent to the hospital, how can you still work?!”

Yang Yu’s head shrank and he didn’t dare to speak.

“Boss, we know we’re wrong.” Wang Xin hurriedly said, she really saw Ji Feng angry for the first time, her heart could not help but also some timid, hurriedly explained: “But this time is a special case, we are developing a browser, now is at a critical moment, overtime, almost half a month will be able to make the general framework, the rest of the work will be simple”

Ji Feng couldn't help but be exasperated: "You really dare to say that, just Yang Yu this body, still can work overtime?"

"It's me who didn't notice" Wang Xin said with some shame.

Ji Feng waved his hand and said, "It's not that you didn't notice, but you simply didn't put your energy into management, Wang Xin, I don't think you are quite suitable to be the general manager of the company, I plan to put you in charge of the technical department exclusively, do you have any ideas?"

"I agree!" Wang Xin immediately blurted out, and then said with some embarrassment, "Boss, actually I really can't manage it, when I get busy, I forget about everything else."

Ji Feng hummed, "If you still don't pay attention next time, you can't even be in charge of the technical department, so just go and be a small employee."

"Giggle" Wang Xin couldn't help but spit out her tongue and giggle.

Ji Feng's expression also eased as he said, "Actually, it's also my fault, at first I thought you were much more resourceful than Yang Yu, and the company doesn't have many employees now, so you should be able to manage it well, but I didn't expect" Never mind, I will find a suitable manager as soon as possible and will supervise you then, whoever dares to play it safe like this again, I will just kick him out of the company!"

"No more, definitely not!" Yang Yu and Wang Xin shook their heads at the same time.

Only then did Ji Feng reveal a smile and said, "Alright, you've been scolded and informed, hurry up and go rest, I'll come back after I find a suitable manager."

"Boss, would you like to see the browser we designed?" Yang Yu asked excitedly, with the look of a little child offering treasures to an adult.

Ji Feng suddenly hummed and said, "I'm not looking at anything now, you go to the dormitory now and rest immediately, or else you won't be involved in the future work, or go back to the pharmaceutical factory and be your deputy director!"

"I'm going to rest now!" Yang Yu was instantly startled and stood up at once, opened the door and ran away in a huff.

Ji Feng looked dumbfounded and laughed, then added: "Wang Xin, you also go and rest first, your body is the most important, everything else is secondary, remember that in the future."

Moved in his heart, Wang Xin nodded seriously and said, "Boss, I remember."

Chapter 663

"Little fellow, these few employees of yours, they are really good!"

After Wang Xin and Yang Yu and the others had all left, Xiao Yuxuan couldn't help but say in admiration, "Nowadays, employees like this are nowhere to be found."

Ji Feng nodded approvingly and said, "You're right, employees like this are indeed hard to find again, and they can make it this far, and that's because they themselves have a grateful heart, otherwise, who would work their asses off for someone they don't have anything to do with?"

The reason why Wang Xin and Yang Yu both feel guilty is precisely because they possess hearts that know how to be grateful. It was because they knew to remember how good others had been to them and knew how to repay the kindness, which was why they had done this.

If they were the kind of people who were ungrateful and did not come once in a long while, they would not be so desperate. Even more so, if they met the kind of people who were not right-minded, they would have to thank God if they did not mess up the company.

"It's a blessing for me to meet such employees!" Ji Feng smiled faintly.

"Actually, it's also a blessing for them to have met you." Xiao Yuxuan said beside her, "You are different from other bosses, in your body, there is no brassiness like that of a businessman, and this is probably one of the reasons why they are attracted to you."

"Ha!"

Ji Feng immediately laughed, "You flatter me too much, don't you? Is this the legendary lover's eye?"

"Bah!" Xiao Yuxuan gave him a flirtatious white glance, "Shame on you, I'm your lover, but you're not a Western beauty, it should be an Eastern beauty."

"Hehe"

Ji Feng couldn't help but grin, "That's not the right word to use, to punish"

He wrapped his arm around Xiao Yuxuan and gave her two hard kisses on her delicate red lips before releasing her, "How about this punishment?"

Xiao Yuxuan's eyes were displaced and she smiled flirtatiously, "Don't you tease me oh~~!"

"Ahem"

Ji Feng coughed dryly and immediately turned his head away, saying, "Let's walk up and down to take a look."

"Is it to see the browser they were talking about just now?" Xiao Yuxuan asked with a smile.

Ji Feng faintly shook his head and said, "We can't go now, we have to let them rest properly. Besides, I still have great faith in Yang Yu and Wang Xin's abilities, the things they worked through the night to produce will definitely not be anything ordinary, I'm looking forward to the scene where they create something that will shock others."

"You're that confident?" Xiao Yuxuan asked in amazement. Those two people just now, one looked like a nerd, and certainly like the character of a mute technician. And the other one, that girl, was so pretty and spoke in an even sweeter voice, someone like that, even if she went to be a star, those entertainment companies would definitely rush to hire her, such a person, and she was actually a professional technical person?

“Of course I have confidence.” Ji Feng immediately laughed, then lowered his voice and said, “You know the cyber extortion ring that was all the rage a while ago, right? At that time, Yang Yu and Wang Xin, were the main force of the police and that gang respectively, and as a result, the two of them fought to a standstill, so do you think my have confidence in them?”

“Ah?!”

Xiao Yuxuan was instantly taken aback, “It was actually them?! That’s really not at all obvious!”

Ji Feng laughed, “So yeah, it’s called people can’t be seen.”

Xiao Yuxuan couldn’t help but nod deeply and said, “That’s true, just like you, for example, whoever sees you, the first impression of you must be honest and reliable, honest and naive, but in reality LOL”

Ji Feng’s face instantly sank: “In fact how?”

“Actually ah” Xiao Yuxuan pursed her lips and smiled: “In fact it is so bad, so bad!”

Ji Feng instantly laughed and pulled Xiao Yuxuan’s hand out of the office.

After putting everyone in the company on a two-day vacation, Ji Feng had Wang Hu seal the facade and the offices on the first floor, while instructing him to pay attention to secrecy.

Now that Yang Yu and Wang Xin were developing a new type of browser, Ji Feng naturally knew the weight of it, and he certainly couldn’t let others take advantage of the opportunity to enter at this time.

Afterwards, Ji Feng, together with Xiao Yuxuan, went to the basement again under the leadership of Wang Hu to look at the living environment of the staff.

When he saw the rooms that had been partitioned out in the basement, already that neatly arranged, then he nodded his head in satisfaction. If you want to retain talent, you have to make an effort in all aspects, and very often, even the smallest details can change the outcome, and the living environment is also very important.

These few employees are also really too tired, to the head to sleep, not much time to call through the door to wear out, Ji Feng can not help but a slight smile, can sleep and eat, the body can be good The body is good, in order to help themselves more money.

In fact, although Ji Feng did not rush to see the browser that Wang Xin said he was developing, he had actually already taken it to heart. The new browser that Yang Yu and Wang Xin were developing together would definitely not be inferior to the current browsers on the market in terms of function and form.

Otherwise, Yang Yu and Wang Xin wouldn’t have thought of using this new browser to make up for their disappointment, so this browser obviously wouldn’t be too bad!

This thing could explode almost instantly if it was developed well and operated successfully.

The main reason Ji Feng wasn't in a hurry to see it was because he didn't know how the business side worked, so he had to hire a manager who knew what he was doing to take control of Tengfei Internet Company.

"Wang Hu, just now were all pissed off by Yang Yu and the others There's one more thing to explain to you." Ji Feng walked out of the door of the network company and suddenly said, "It's like this, in two days the new plant of the Tengfei Pharmaceutical Factory will be officially put into operation, I plan to hold a ribbon-cutting ceremony, when the time comes you guys wait for my notice and go together to attend and relax a bit by the way, okay?"

"No problem, no problem!" Wang Hu immediately nodded his head and said. He usually liked to have a good time, but here in this network company, apart from a few technical staff, there were only two ex-soldiers who worked as security guards, and the three of them were simply too busy to get around, not to mention having time to relax.

Now when he heard that there was such a good thing, he was overjoyed.

When Ji Feng saw him like this, he deliberately teased him, "What are you happy about? I am letting Yang Yu and Wang Xin go over there, with them gone, the security of the company becomes even more important, you have to stay here with the other security guards to protect the company!"

"Ah?!" Wang Hu was dumbfounded and froze in place.

Ji Feng secretly laughed in his heart, but his face was a serious one as he pulled Xiao Yuxuan and turned around to leave.

Buzz~~~!

Hearing that Ji Feng had already started the car, Wang Hu then suddenly reacted and ran over in a panic, "Boss, boss! Don't you think about it anymore? On the day of the ribbon-cutting ceremony, you will definitely need people to help maintain order, and I'm good at doing that!"

Ji Feng lowered the car window and pretended to deliberate for a moment before smiling, "I'll think about it."

"Hey hey!"

Wang Hu was instantly overjoyed and nodded in a panic.

Ji Feng smiled, stepped on the accelerator and sped off in his car.

"You really like that Wang Hu just now?" Sitting in the car, Xiao Yuxuan asked with a smile. She knew Ji Feng's temper, and she hadn't seen Ji Feng take the initiative to joke with people who didn't see eye to eye before.

"Yes!" Ji Feng nodded slightly and said, "He's very nice, with a simple and reliable personality!"

Xiao Yuxuan couldn't help but say with emotion, "Little fellow, I really didn't expect that, without realising it, your men have brought together so many talents."

Ji Feng was stunned for a long time before he nodded and said, "I didn't expect that either"

If you think about it, it's not like that!

The one in charge of the big picture is Han Zhong, the security talents under him are the four Yi Xingchen, Wang Hu, and a potential stock – Du Shaofeng. In terms of security, there is a lot of talent.

In terms of technology, it goes without saying that Yang Yu and Wang Xin's technology is not to say that it is the best in the country, but at least it is invincible in Jiangzhou, which can be seen in the previous incident of the boisterous cyber extortion gang.

As for other aspects, there is the pharmaceutical branch of Han Rui Chao and other people, and through the last handling of the pharmaceutical plant sales department manager Wang Zhiqian in the matter, it can be seen, Liang Chunhui is also a talent

The only thing that is missing is the management aspect.

The only thing that is missing now is the professional talent in management.

The only thing that is missing now is the professional talent in management. It is definitely not enough to have Han Zhong alone. The middle managers, who have to understand the intentions of the top management, while giving detailed implementation plans to the most basic executives in detail.

If we compare the top management to the human brain, then the middle management is the human joints and meridians, while the most basic executives are the human limbs and hands and feet.

The brain conveys instructions and needs joints and veins to drive them for the hands and feet to follow the brain's instructions.

There is no shortage of people at the grassroots level. What the company lacks most now is the middle link, that is, the middle management.

"We can only go to a headhunter." Ji Feng raised his hand and looked at the time, it was only a little after ten in the morning, he thought about it and decided to put the matter of going to a headhunting firm aside for now.

The most important thing now was to invite the guests to the upcoming ribbon cutting ceremony.

"Where are we going next?" Xiao Yuxuan asked.

Ji Feng pondered for a moment before saying, "To visit the guests."

According to his agreement with Han Zhong, the new factory would be officially put into operation two days later, and the ribbon-cutting ceremony would also be held on that day, so Ji Feng had to go and visit some guests in advance, those people were very busy with their daily work, and in case they couldn't find the time then, it wouldn't look good on either side.

Chapter 664

For most of the next day, Ji Feng began his busy visiting schedule.

He drove to the pharmaceutical factory first, got the invitations he had already prepared from Han Zhong, filled in the names of all the guests he needed to invite, and then drove to visit those guests one by one.

Among these people, there were only a few that Ji Feng wanted to invite, including Ji Zhenguo, a senior city official, who was also Ji Feng's second uncle. Zheng Yuanshan, the deputy director of the city bureau, and Qiu Yaxing, the district governor of Wanjiang District, father and son

After a long time of careful consideration, Ji Feng still put both Li Weidong and Li Ruonan's names on the list.

According to private unspoken rules, as long as it's not anything too major, the secretary and the mayor normally don't appear together for events, and Ji Feng has never had any encounters with Li Weidong's father, and he hasn't even met this great mayor Li until now.

The two of them are often at odds with each other, but they should always be able to save face.

As for Li Ruo Nan, she should be considered as Ji Feng's personal friend. It seems that Li Ruo Nan has a good relationship with Xiao Yuxuan, so Ji Feng couldn't not invite her.

There was another person, and Ji Feng ended up putting her name on it. This person was Qin Shujie.

For Qin Shujie's mind, if Ji Feng said he didn't know anything, he would definitely be lying, but he couldn't respond positively because he knew that there were still Xiao Yuxuan and Tong Lei at home, and having both of them at the same time himself was outrageous enough, and if he messed up again at this time, he didn't even know how to face Xiao Yuxuan and Tong Lei.

However, not responding positively to Qin Shujie's heart did not mean that he could not be friends, so Ji Feng still had to invite her.

In addition to these people, Ji Feng also invited Xiao Yuxuan's father, Xiao Changhe, and Yang Yu's father, Yang Dezhao, to the official start of the new plant, others may not be invited, but Yang Dezhao must be invited.

The start of the Tengfei Pharmaceutical Factory began when Yang Dezhao transferred the pharmaceutical factory to Ji Feng.

Therefore, strictly speaking, Yang Dezhao is still considered as half of the patriarch of the Tengfei Pharmaceutical Factory. Moreover, just because of Yang Yu and Xiao Changhe's face, Yang Dezhao should be invited to the ceremony.

Afterwards, Ji Feng went through all the invitations again, and after making sure that he hadn't missed anything, he started his visit.

The second uncle, Ji Zhenguo, naturally did not need to say much, he knew very well who the owner of the pharmaceutical factory really was.

Even if they had something on their hands right now, they would immediately put it off and come to the ribbon-cutting ceremony.

For these people, being able to show up in front of the leader is the most important thing.

By the time Ji Feng had laid out all the people he was going to invite, the time had come in the evening, and he met up with Han Zhong once again to tell him what he had gained this day.

“Boss, I’ve invited quite a few people on my side too.” Han Zhong said with a smile.

“I know.”

Ji Feng nodded, Han Zhong had already told him before that he might invite some friends and connections from his side of the family over. He understood Han Zhong’s mentality very well, inviting those people would make the ribbon cutting ceremony more lively on the one hand, while on the other hand, Han Zhong could also raise his eyebrows and come to prove himself in front of those people.

According to Ji Feng’s knowledge, the Han Group was not a monolithic group internally, but had long been in fierce conflict, especially between Han Zhong’s father and the other shareholders.

Moreover, Han Zhong had not shown much talent in business in the past, so those people were not very optimistic that Han Zhong would be in charge of the entire Han Style Group in the future.

There are even many shareholders who have already started to make some small moves in private.

Through this ribbon-cutting ceremony, I believe it will make those hot-headed shareholders wake up and recognise the reality clearly.

For Han Zhong’s idea, Ji Feng naturally supported it unconditionally. It was just a matter of being more mercurial, but he was able to help his friends, so why not?

“What I mean is that when the time comes, don’t arrange any seats for them that are too good, the middle to lower ones will do.” Han Zhong laughed, “Those people are all blindly arrogant, hey, when they find out that everyone who comes is bigger than them, see what kind of expression they have”

The first thing you need to do is to take out your anger, you don’t have to show it so deliberately, by then they will definitely realize how stupid they really were before. Don’t worry, I’ll arrange this matter.”

Han Zhong then nodded and said, “That’s fine, it just so happens that I’m too lazy to bother with them, and I’m just going to invite them here this time, just to show them a little, otherwise I wouldn’t even invite them.”

“Hehe”

Ji Feng shook his head and smiled, but he understood this mentality of Han Zhong very well. When he had not yet recognized his ancestors, he had thought more than once that one day when he became rich, he would make sure that those people who had once given him a blank stare, would make

That was the thrill of revenge!

Although later, as he grew older and his mind gradually matured, Ji Feng finally sort of gave up this intention, but when he accompanied his mother back to the Xiao family estate and saw the ugly faces of those people, he still couldn’t help but have a secret feeling of pleasure in his heart.

It was only because of his mother’s face that he could not show it.

But that didn’t stop Ji Feng from experiencing that feeling of ‘thirty years in the east and thirty years in the west’, it was really refreshing!

Obviously, the Han Zhong in front of him was also in this state of mind, only that he might not be as aggrieved as he was at first, so he did not show it too obviously.

However, Ji Feng could still tell from the sharp light that flickered in Han Zhong's eyes from time to time that he was, in fact, very anxious in his heart. He desperately wanted those people to see his success, and he wanted even more to see the wretched appearance of those people falling from high up in the clouds and falling to the ground all at once!

"Han Zhong" Ji Feng felt that he needed to remind him, "Actually, what about revenge on a person, you don't necessarily have to make him unlucky and leave him with nothing, that's not the best way. Sometimes the best way is often that you let him see that you, who were not as good as him, are now better off than him, and he will really feel as bad as a million arrows through his heart, and that is the best revenge, don't you think?"

Han Zhong laughed, "Ji Feng, don't worry, I won't do anything wrong, I know what I'm doing. Now I'm the general manager of the Tengfei Pharmaceutical Factory, with an unlimited future, naturally I won't be so stupid as to fight with those idiots, that would be too degrading."

Ji Feng laughed, nodded and said, "That's right."

"By the way, apart from these guests written on the invitations, I've also invited some people." The corners of Han Zhong's mouth spread a bad smile, "But the invitation was very special and did not use an invitation"

Seeing this look on his face, Ji Feng instantly laughed, "Who has offended you again? Look at you like this, you are trying to fix someone."

"That's the word!" Han Zhong hemmed and hawed and said, "I'm not calling this fixing people, I'm just giving people a chance to show" I called the chief of the new industrial park police station this morning and asked him to bring the deputy chief to our ribbon cutting ceremony, oh yeah, the original chief, now he's been transferred back as the deputy chief."

"You guy" Ji Feng was suddenly dumbfounded.

Letting the original chief of that police station come to the ribbon-cutting ceremony without even sending an invitation, this was clearly a direct slap in the face.

The reason why he was transferred out and transferred back in, but demoted, was directly because he was wearing the same trousers as Wang Zhiqian and ignored Han Zhong's police calls, which led to this situation.

Now that he was invited back to attend the ribbon-cutting ceremony of the Tengfei Pharmaceutical Factory, how could he still have the face to come?

"You're just smacking your face!" Ji Feng couldn't help but laugh, "You guys are a bit too bad, aren't you?"

"I've said it, I'm not calling it bad, but I'm creating opportunities for them to perform." Han Zhong smiled wickedly, "Originally, that guy was adamantly pushing back and not willing to come and participate. But I told him that senior city officials and the district head of Wanjiang District Qiu Yaxing

and others would be there, and also the grandsons of senior city officials and the mayor's grandson would come, he immediately and desperately agreed to come, and said something about supporting the development of these private enterprises of ours, and volunteered to come and help maintain order, tsk

The first thing you need to do is to get a good idea of how much work you can do.

The three elements of success are boldness, blackness and thick skin, and whoever has them may also be successful.

"OK, since people have taken the initiative to lean over, then you should not be too calculating." Ji Feng shook his head with a smile and said, "Remember to go and send an invitation to them when the time comes, it's a way to let them have some face, you can't strip people's faces too hard, even if you don't look at that deputy director's face, at least that new director has not offended us."

"Okay, I'll go back and take care of this."

Han Zhong nodded slightly and said, "However, we can't be too nice, at least we have to let them know that we are very dissatisfied with that deputy director's previous behavior."

"Then you watch what you do." Ji Feng smiled, "By the way, the hotel is all arranged, right?"

"It's been arranged, just the hotel in the east, I've chartered it for a day, it should be enough." Han Zhong nodded and said.

After everything was arranged, Ji Feng then smiled and said, "Alright, busy all day, haven't even eaten dinner yet, let's find a place to have a couple of drinks together"

"Okay!" Han Zhong heatedly smiled, "With sister-in-law around, I didn't have the heart to offer to find you a drink"

"I don't care about you guys." Xiao Yuxuan, who had been quietly listening to the two of them, was sweetly and shyly called by Han Zhong this 'sister-in-law', but more in her heart was still happy.

Chapter 665

After having enough wine and food, Ji Feng and Xiao Yuxuan sent the dizzy Han Zhong away before driving home.

Because Ji Feng had drunk wine during dinner, Xiao Yuxuan directly glared at Ji Feng and told him to sit obediently in the passenger seat, then took the initiative to take up the task of driving.

In reality this bit of wine didn't affect Ji Feng much at all, and even stronger wine would have little effect on Ji Feng if he wanted to. But if that was the case, there would be no point in drinking this wine, it would be better not to drink it.

With the window down, Ji Feng rested his right hand on the window and closed his eyes slightly, as if he was resting his eyes.

But in reality, he was thinking about the matter he had discussed with Han Zhong.

The lack of middle management personnel was not only discovered by Ji Feng, but also by Han Zhong, but there was no good solution for a long time, after all, management personnel were different from ordinary employees and could not be recruited by just putting up a recruitment advertisement.

It is not that easy to find middle managers who are really capable and not just indiscriminate.

In different industries, different types of managers are needed.

And a good manager is not just a person who manages staff, but also acts as a lubricant to facilitate the smooth implementation of the strategies developed at the top and without compromise.

Such a person is not just enough to have staff

Even if we wanted to train them from the beginning now, it would be too late.

Moreover, the management of a pharmaceutical factory may not be able to manage a network company; these are two different fields, and the vision and insight required are different.

Therefore, according to Han Zhong's suggestion, do not directly deploy managers from the pharmaceutical plant to the network company, it is best to go directly through the headhunting company, looking for suitable managers, at least the normal work of the network company to catch up, and later encounter more excellent managers, you can then change well.

This idea and Ji Feng's intention can be said to coincide.

Therefore, Ji Feng decided to go to a headhunting company tomorrow to have a look around, hoping to find a suitable manager.

"Yu Xuan, will you feel bored after letting you follow me around like this for a whole day?" Ji Feng suddenly asked.

"Neither will I."

Xiao Yuxuan shook her head slightly, driving the car she looked focused but also had a different kind of charm, she said without looking back, "I think, such a busy day is actually quite good, especially if I can be busy with you, it's even better."

Ji Feng chuckled, "Such a day may continue for a while, it's just that you should not shout hard."

"What's so hard about it? Fighting for your dream, it's worth it even if you work hard." Xiao Yuxuan smiled delicately, "What's more, if I don't go, you won't be able to do many things, right?"

"How so?" Ji Feng was stunned.

"How else can I say it, don't you forget, whether it's a pharmaceutical factory or a network company, in the records of the relevant departments, the legal person is me, I'm the boss." Xiao Yuxuan giggled, "If I, the boss, don't go, people will disown you."

"That's also true ha!" Ji Feng nodded and smiled.

"Going to the headhunter tomorrow?" Xiao Yuxuan asked.

“Yes!” Ji Feng nodded slightly, “It can’t be helped, there is a serious lack of management personnel over at the network company now, as you can see, if there is no one to manage it, it is simply chaotic there

“Actually, I do think that there is someone who is very suitable to help you manage the network company.” Xiao Yuxuan suddenly said. While speaking, a strange look flashed in her beautiful eyes, which seemed to have a deep meaning, but Ji Feng didn’t notice it.

“Oh? Who is this person you are talking about?” Ji Feng was stunned, and then asked, “Is it your friend?”

“It’s your friend!” Xiao Yuxuan said with ulterior motives, “Remember, today we went over to the university city and visited a beautiful young woman, well, by the way, she seems to be the old president of a jewellery company.”

Qin Shujie?

Well, technically speaking, Qin Shujie can manage such a big Shu Yao Jewelry Company, so there must be no problem for her to manage Tengfei Network Company as well

Ji Feng immediately turned his head to look, and immediately found that Xiao Yuxuan’s pretty face carried a faint smile as she stared forward, looking as if nothing was wrong.

“Could it be that he really had too much to drink and that’s why he was hallucinating?” Ji Feng couldn’t help but wonder, but in a flash he could be sure that it was definitely not his own hallucination, and it was obvious that Xiao Yuxuan’s tone was just not right.

Suddenly, Ji Feng’s heart thumped, “Could it be that Yuxuan has found something?”

He coughed lightly and asked with a smile, “Yu Xuan, how did you think of General Manager Qin? She runs a jewellery company, how could she possibly come over to help us manage a small company that has just started and doesn’t even have a business?”

“Then I don’t know.”

Xiao Yuxuan said in an extremely irresponsible manner, “Seeing that Mr. Qin is so enthusiastic about you, if you ask, maybe people are willing to throw away everything to help you

This can’t be said oh.”

Hearing Xiao Yuxuan’s flirtation, Ji Feng instantly laughed bitterly, now he could already be sure that Xiao Yuxuan had indeed sent down or realized something, which was why she was acting so wrong. But, between himself and Qin Shujie, there is no intimate relationship ah

It is really no ah!

He added in his heart.

Then, in Xiao Yuxuan’s words, there seemed to be another meaning ah.

“Actually, my proposal is very good oh.” Seeing that Ji Feng did not speak, Xiao Yuxuan silver teeth secretly clenched, but on the surface is as if nothing happened, said: “Today we went to General Manager Qin’s company, I found that she is very good at managing the above, not to say anything else, just look at the staff in her company that are busy in an orderly manner, you can see, busy but not chaotic, very good.”

The corners of Ji Feng's eyes jumped straight, why did Yu Xuan keep mentioning Qin Shujie.

He couldn't help but secretly regret a little in his heart, the reason why he brought Xiao Yuxuan to visit Qin Shujie today was actually to indirectly tell Qin Shujie that he had a girlfriend, but was treating Qin Shujie as a friend.

But it didn't occur to him that this would instead cause Xiao Yuxuan to have such a violent reaction, and it really didn't pay off

"Also, in addition to the outstanding ability of the General Manager Qin herself, people also look very beautiful oh, divorced beautiful young woman, for many young blood, the temptation is not generally great, right?" Xiao Yuxuan hummed delicately, seemingly talking to herself, and seemingly asking Ji Feng.

Ji Feng could only smile bitterly, but he didn't know what to say. If he explained, he would inevitably appear to be weak-minded, which would obviously make Xiao Yuxuan even more angry.

"Why don't you say anything?" Xiao Yuxuan, however, had no intention of letting him go, and when she saw that he didn't speak, she couldn't help but turn her head and ask.

Ji Feng immediately pointed to the front, "So what, don't look around while driving, pay attention to safety."

Xiao Yuxuan gave him a blank look, and Ji Feng couldn't help but give a sarcastic laugh, but he didn't dare to say anything more. Now he could already be sure that Xiao Yuxuan must have seen something, otherwise, she definitely would not have said such words.

But Ji Feng is also not good at defending, if you have to deny that there is not a single thing to do with Qin Shujie

The actual fact is that you can't get a lot of money from the company.

It is undeniable that Ji Feng had a heart for Qin Shujie, and as Xiao Yuxuan said, Qin Shujie's beauty was indeed a great attraction to the young man of blood and vigor. But Ji Feng was not only moved by Qin Shujie's beauty, but also by the woman's strength and the tenderness with which she treated herself.

The company's main business is to provide a wide range of products and services to the public.

Even when Qin Shujie was drunk, her clothes did not cover her body and a large area of her snow-white skin was exposed, Ji Feng definitely did not overstep the mark, but carried Qin Shujie to the bed in a disciplined manner and let her rest.

Many times, people's thoughts and actions are not able to merge into one.

No matter how rich one's thoughts are, one still has to abide by some basic rules, and more importantly, one has to be true to one's conscience.

That's right.

It is true that Ji Feng likes Qin Shujie, but he knows that he is already blessed to have two women, Xiao Yuxuan and Tong Lei, so how can he let down their feelings?

As a man, Ji Feng completely abides by his duties and is even more firm in his stance that he will never let Xiao Yuxuan and Tong Lei, who treat him with single-mindedness, be sad.

It's like being a child and missing out on a favourite toy, you may cry and be sad, but there comes a time when it passes. One's life is very short and it is impossible to keep every favourite thing for oneself.

It is the same with Qin Shujie. Before Ji Feng appeared, she was still living a good life, and Ji Feng could not bear to hurt her, so it was better to just keep a certain distance and be at peace with each other.

Perhaps there will be a day when they look at each other from a distance and still be able to see each other's faces and figures, burying that heart-thumping feeling in their hearts before, and that will be enough.

As for the current heartbeat

The actual fact is that you can find a lot of people who are not able to get the best out of the actual world.

Seemingly feeling the kind of silence in Ji Feng's heart, Xiao Yuxuan couldn't bear to say anything more, but only lifted her hand that was resting on the gear lever and shook Ji Feng's wrist with force as a way to express her feelings.

Ji Feng couldn't help but smile slightly, he knew that Xiao Yuxuan understood what he meant.

"In fact, I can tell that that Qin Shujie really has feelings for you, that kind of feeling comes from the heart, it's definitely not an act."

Xiao Yuxuan suddenly said, "Between the two of you, there must be a lot of interesting stories, right? You must tell me tonight! If you become sisters with her later It is also considered to know about it in advance."

The cold sweat on Ji Feng's forehead instantly came down, Xiao Yuxuan What do you mean?

Chapter 666

At night, Xiao Yuxuan grabbed Ji Feng's ear, Wu Nong softly, forcing him to ask him about things between him and Qin Shujie, especially interested in some details between the two of them.

For example, "Which step have you progressed with her? Did you hold hands? Oh, that's nothing anymore, did you kiss? She has such a nice body, you must be very comfortable holding her?"

Or: "What was going through your mind when you were hugging Qin Shujie, was it a good time? Did you think that this was someone else's wife, someone else's mother, so you felt extra stimulated, making you masculine and tart all night long?"

Ji Feng was thunderstruck, his body was covered in cold sweat, and he looked at Xiao Yuxuan in shock, unable to say anything for a long time.

He had never thought that Xiao Yuxuan would actually ask such thunderous words.

However, after thinking about it carefully, Ji Feng was relieved.

Xiao Yuxuan's own personality is spontaneous, people are even more charming to the extreme, passionate as fire when in love, not the slightest hidden, can let you fully feel her feelings and charming. But when angry, it is cold as ice, not hiding the disgust of your feelings.

She has a strong character and hides a hint of fierceness under her gentle charm. She is not sentimental and dares to act.

Such a person naturally dares to say anything.

What's more, Xiao Yuxuan is a teacher herself, and her exposure to knowledge is naturally very broad, like some books on psychology, criminology, and even psychology of the mentally ill, she can read with great interest, and has a deep understanding.

The first time I saw it with my own eyes, Xiao Yuxuan was holding a book called "The Dark Side of Humanity" and was looking at it very carefully and taking notes, reading all kinds of books that other people don't like to read and growing the knowledge that other people don't know, but not showing off in front of people, which is Xiao Yuxuan's pleasure.

This is the pleasure of Xiao Yuxuan. A woman like her, who is like a demon, naturally has a grasp of human nature and the hearts of others that is not comparable to ordinary people.

However, one has to admit that the questions Xiao Yuxuan asked were right to the point and spoke to the heart of many men. For example, the sentence 'Is it because you think this is someone else's wife, someone else's mother, that you find it extra exciting?' , definitely spoke to the heart of many people.

But Ji Feng was the one who knew that he definitely did not have that kind of interest, that was not his taste. But how should I explain to Xiao Yuxuan? I'm afraid that it would be useless to explain now.

So Ji Feng could only choose to raise his hands and beg for mercy, but not answer Xiao Yuxuan's question.

Seeing that her tough attack did not have the desired effect, Xiao Yuxuan immediately changed her strategy and instead of using such a tough attack method, she smiled and became soft as water, taking the initiative to serve Ji Feng.

When she was covered without an inch, like an octopus wrapped around Ji Feng's body, gently fondling and teasing him, she would gently approach Ji Feng's ear, her red lips flicking open: "Little rascal, look he is up, you want it Tell my sister, has Qin Shujie ever treated you like this?"

A wicked fire sprang up in Ji Feng's heart, and he immediately had to turn over and press Xiao Yuxuan underneath him, tarting and galloping vigorously.

However, Ji Feng was helpless, but Xiao Yuxuan was prepared and directly held both of Ji Feng's arms, making him unable to move.

Ji Feng couldn't help but smile bitterly, this move of grappling was still something he had taught her, but it turned out that she was now using it on herself.

Of course, if this kind of takedown is for ordinary people, it is definitely considered powerful, because Xiao Yuxuan has also gradually mastered the first set of body-building exercises, although she has never fought with people, but her strength is undoubtedly, but the actual combat experience is extremely lacking.

But if Ji Feng wanted to break free, it would only be a matter of a blink of an eye, so it would be a breeze.

But then, Ji Feng could not guarantee that he would not reflexively restrain Xiao Yuxuan, and might even hurt her, so Ji Feng could only be honestly restrained by her, not daring to resist at all.

“Little rascal, but do not resist oh, you taught me those moves, but I have learned all” Xiao Yuxuan said smugly, but she did not know that Ji Feng was afraid of hurting her, so this is why he did not dare to resist.

Ji Feng laughed bitterly: “Yu Xuan, what do you want in the end.”

“Want you to tell the truth.” Xiao Yuxuan smiled flirtatiously and began to tease Ji Feng again

This night, Ji Feng enjoyed the wonderful and painful taste of both ice and fire. At one time it was a strong bullying, and at another time it was a soft and fragrant lingering, making Ji Feng really cry and laugh.

But what made Ji Feng relieved was that Xiao Yuxuan deliberately seduced Ji Feng, but it turned out that she couldn't stand it first in the end, and Ji Feng immediately took advantage of the opportunity to resist and take an advantageous position in one fell swoop.

Soon, Xiao Yuxuan's deliberately feigned vicious and threatening voice turned into a ebullient and delicate cry, causing Ji Feng's animal blood to boil and frantically tart up

The next day, both of them slept in for a rare time and didn't get up until after eight o'clock. It was because last night, both of them were too crazy.

Afterwards, Ji Feng drove Xiao Yuxuan and the two of them went to one of the most famous headhunting companies together.

The person who received Ji Feng and the two of them was a middle-aged woman around forty years old, wearing a professional outfit and looking very competent, but at first glance, people had a feeling of reassurance that this was someone they could trust.

Ji Feng could not help but secretly nod his head, a person's temperament and the first impression they gave to others would very often affect the client's decision, so using people was actually the most important, and in this regard, this headhunting company had done quite well.

“Gentlemen, let me introduce myself first, I am the head of the company's human resources department, my name is Wen Juan. Since the talents you two are requesting are rather special, I will be at your service.” This middle-aged woman smiled and extended her hand.

Ji Feng smiled and said, “Ji Feng. This is my girlfriend, Xiao Yuxuan.”

The two shook hands with Wen Juan separately before sitting down under Wen Juan's gesture.

“Supervisor Wen, just now I heard you say that our request is rather special?” Just after sitting down, Ji Feng asked with a smile, “Since your company is a headhunting company, then, your talent pool should be very rich, right?”

“Indeed!”

Wen Juan nodded and said, "Our company's human resource reserve is, indeed, very rich. But truth be told, the requirements of the two of you are indeed somewhat special. Generally speaking, most of the people who come to our headhunting company to recruit talents are those who need some high-end positions, such as department heads, deputy general managers, operation managers, which are high-level positions, but you two have specified that you want some middle-level or even lower-middle-level talents, which is indeed very uncommon."

"So that's how it is!" Ji Feng smiled and nodded his head slightly.

"In fact, strictly speaking, to say a word against the company's rules, I do think that you two, with this kind of recruitment, would be better off going to the talent market to take a look at our company's human resource reserves, which may not be able to meet the needs of you two." Wen Juan lowered her voice slightly and said.

"How so?" Ji Feng asked in surprise.

"Honestly, as I said earlier, in fact, most of the company's reserves are some high-level talents, so" Wen Juan said with a faint smile.

"Why do you stockpile so many high-end talents? On the contrary, there is such a shortage of middle level talents?" Xiao Yuxuan was a little surprised and asked.

Wen Juan smiled slightly awkwardly, but did not answer.

Ji Feng laughed: "This phenomenon is actually quite explainable, the reason is that the real talents, will actively go to those multinational enterprises or large companies, and actively recommend themselves, rarely will they come to headhunters. The middle level cadres, in a company in the skeleton of the key position, easily will not jump nest. Only this top talent"

He smiled faintly and glanced at that Wenjuan supervisor before saying, "Nowadays, the domestic private capital is booming, and to put it plainly, there are a lot of burgeoning families. These people, wanting to pursue the so-called taste and class, and wanting to follow the example of those really big companies, engage in some over-the-top management, such people, only then will be keen on what has a sea turtle, what MBA and other names of talent, as to say whether these people really to the name, that is not what they can understand, just for a signboard!"

He turned his head and smiled, "Head Wen, am I right?"

Wen Juan nodded slightly embarrassed, this unspoken rule of the industry, how could this young man say it without any scruples.

However, there was more or less surprise in the gaze she looked at Ji Feng.

Although Ji Feng was talking about the actual situation and uncovering the old underbelly of headhunting companies, it was the first time she had seen someone who was able to talk about this phenomenon so thoroughly. This young man, who was only a little older than her own son, really had extraordinary insight.

“Then wouldn’t it be useless for us to come here?” Xiao Yuxuan couldn’t help but frown slightly, since the people this headhunting company had in reserve were all fake, then what was the point of coming here?

Ji Feng laughed: “Fake, because there is value in doing that, these middle level talents, even if they are fake, it doesn’t mean much, so such people, on the contrary, have a higher authenticity.”

A few months ago, Ji Feng had learned in detail about some of the ways headhunting companies operate, and also listened to Han Zhong talk a lot about the inner workings of them, so he knew quite a bit about headhunting companies.

“So that’s how it is ……” Xiao Yuxuan then dawned on her and lightly nodded her head.

Ji Feng turned his head and smiled: “Supervisor Wen, the talents we need are few, so you can first bring me the information of your company’s reserve of middle-level personnel to take a look at. By the way, my requirements are simple, have more than two years of management experience, education is …… I think it’s more than college!”

Chapter 667

“Mr. Ji, Miss Xiao, these are the suitable talents selected according to your requirements. Most of them have more than two years of management experience.” Wen Juan handed over a stack of files, “I’m sorry, our company does not store many files of middle and lower management personnel, and those that meet your criteria are the only ones, so I hope I can let you pick the ones you are satisfied with.”

Ji Feng smiled and said, “These are more than enough.”

He casually flipped through the stack of dossiers in front of him, there were at least two to three hundred of them, and it was definitely enough to select a few suitable ones from these people.

Ji Feng did not need many managers, and, even if he found suitable talents now, he could not immediately put them into the management of Tengfei Network. He intends to first put the talents he finds into the Tengfei pharmaceutical factory, choose to learn for a period of time, adapt to the way of doing things in Tengfei, and then go to the network company to do management.

Besides, with a company as small as Tengfei Network, it would be enough to put in two managers at most. For the rest, we can recruit some grassroots staff and salesmen through on-site or online recruitment. Even if we add in the middle management needed by the Tengfei Pharmaceutical Factory, it would not add up to more than fifteen people.

Selecting a dozen people from these hundreds of profiles, almost one out of twenty, should be enough.

“Supervisor Wen, these people, these information we take back to see, should be okay, right?” Ji Feng raised the information in his hand and asked with a smile.

“Of course it’s no problem, but before taking these information, according to the company’s rules, the two of you need to sign a confidentiality agreement to ensure that you don’t leak information about these talents to other companies in the same industry as us …… I hope you two can cooperate!” Supervisor Wen smiled and said.

Ji Feng nodded and said, “That’s certainly fine.”

He couldn't help but secretly shake his head, all said that headhunters were credible, but in reality, all industries were the same, there were unspoken rules everywhere, and there was darkness everywhere.

As far as he knew, there were quite a few unorthodox headhunters who used such a confidentiality agreement to specifically extract compensation from their clients, instead of thinking of using their integrity to serve their clients so as to earn commissions, they instead took up such a crooked path, which was really lamentable.

In fact, like this information, access to many people, and not completely confidential, no one knows where exactly is the leak, even to consult the customer does not dare to guarantee that they are not inadvertently leaked information.

So when the headhunting company looks aggressive to sue, these customers often choose to spend some money to settle the matter, so as not to cause any bad influence on the company.

This gives those irregular headhunters an opportunity to take advantage of the situation, making it easy for them to get their hands on it.

However, Ji Feng was not afraid that this company would also play this tactic. Since he dared to come to the headhunting company, he was already prepared. What's more, this is already considered the largest headhunting company in Jiangzhou, if all of them play tricks here, then it's really the sadness of the whole industry.

.....

The first thing you need to do is to get a good idea of what you are getting into.

Because in addition to the invited guests, some of the leaders of Jiangzhou, the first and second in command of the industrial park, etc., actually did not invite themselves to come.

Later, even the shareholders of the Han Group, whom Han Zhong had invited, had no place to sit and could only stand behind Han Zhong's father, making it very awkward.

When Han Zhong saw this situation, he was overjoyed.

Especially when he saw the embarrassing situation of the shareholders of the Han Group who were standing and wanted to sit down but had no place to do so, he was about to burst out laughing, and even when he made his speech, the smile on his face was much more than usual, and he almost didn't laugh out loud several times.

If he really laughed out loud, the shareholders of the Han Group would be embarrassed, but the conflict between them and Han Zhong and his son would become more and more intensified and even irreconcilable.

Who would forget such a bitter humiliation? It must be remembered for life.

Fortunately, Han Zhong held back his laughter until the end of the ribbon-cutting ceremony, which not only prevented the conflict with those shareholders from being intensified, but also humiliated those shareholders to the maximum extent.

After the ribbon cutting, Ji Shaolei, dressed in a suit, came over from the side and said in a low voice: "San'er, have you prepared the red packet?"

"What red packet?" Ji Feng couldn't help but be stunned.

Ji Shaolei pointed at the reporters who were sitting down to take pictures and interview, and said, "See, according to the general custom, when these reporters come to interview, they have to give some carriage fee, which is also considered as a benefit fee for making them make a hard trip."

"Another subterfuge?" Ji Feng

"Yes." Ji Shaolei nodded and smiled.

Ji Feng turned around and left, Ji Shaolei hurriedly grabbed him and asked, "San'er, what are you doing there?"

"What else can I do, of course I'm getting them red packets Subterfuge, what a hell, there is subterfuge in every industry!" Ji Feng could not help but shake his head and laugh bitterly, his money is earned through legitimate labor, and he also has the habit of saving, just give it out for no reason, he is more or less helpless.

Ji Shaolei patted him on the shoulder and laughed, "San'er, do you know what the subtle rules are?"

"The so-called subtle rules are the rules that cannot be put out in the open, but everyone has to abide by them!" Ji Shaolei said, "There are no explicit rules, but no one dares to overstep them, because if you don't follow them everyone will ostracise you and exclude you from the circle, because they won't allow anyone to break this rule, otherwise, no one will have anything to gain!"

"There's an advantage to abiding by this unspoken rule?" Ji Feng asked with a wry smile, "Complying with the rules is nothing but letting this vicious circle, continue to worsen, feeding a group of people with vested interests, but suffering the vast majority of people."

"However, it is this group of people with vested interests that hold more power than the vast majority of people, unless you want to be a defender or break the rules, otherwise, just comply honestly!" Ji Shaolei laughed.

Ji Feng nodded his head and couldn't help but curse, "Damn the world."

.....

The ribbon-cutting ceremony was all over and the journalists had all received their red envelopes and were all smiling.

It is foreseeable that tomorrow's newspapers and news will be extremely complimentary to report on the commissioning of the Tengfei Pharmaceutical Factory, that's the subterfuge!

During the meal, the crowd was much more restrained than at the ribbon-cutting ceremony, as there was a senior city official, Ji Zhenguang, in the room, so naturally no one dared to fool around or act in a disorderly manner. No one wanted to leave an extremely bad impression in front of the leader.

Fortunately, Ji Zhenguo only sat down and left. At the same time, there were several other leaders, such as Qiu Yaxing, the district head of Wanjiang District, and others.

As soon as these heads left, the rest of the people were immediately active. Among them, the most active were the original deputy chief of the Industrial Park Police Station and the shareholders of the Han Style Group.

These people came over to clink glasses to Han Zhong, especially the shareholders of Han Style Group, who had mixed feelings in their hearts. Originally, they had delusions of grandeur, wanting to oust Han Zhong's father from his position as chairman of the board and replace him with themselves.

But now they suddenly realised that even Han Zhong, a junior, had risen to power. Even Han Zhong's network of connections had reached the top city officials directly.

These old slickers have immediately put themselves in the right position, using their dignity to exchange for benefits, this is what they are best at.

The original director of the industrial park police station was even more frightened, through today's ribbon-cutting ceremony, he realized that this small pharmaceutical factory, which he once regarded as a soft egg, actually had such a big background, even senior city officials and so many leaders could be invited, and he still didn't know what he was doing to oppose others, he was simply looking for death himself!

The fact that these rich and powerful people want to kill a small director like themselves, it couldn't be easier.

Ji Feng sat at the main table and watched all this with cold eyes, but in his heart he felt quite helpless.

He disliked bullying people, and he disliked these guys with hypocritical masks, but if he wanted the Tengfei Pharmaceutical Factory to develop smoothly, he would have to deal with these people.

"I just hope that I can keep my true colours unchanged in this turbid world and not go with the flow!" Ji Feng secretly shook his head.

But no matter what, the construction of the pharmaceutical factory's new plant was completed and the new production line was officially put into operation, which was something to be happy about. Ji Feng soon forgot about these unhappiness and started to raise a glass with his second brother, Ji Shaolei, and had a drink.

As for Han Zhong, he was too busy to entertain these guests, so Ji Feng thought it was better not to disturb him, otherwise he would not be able to get away.

Looking at Han Zhong's figure shuttling around, Ji Feng couldn't help but heave a smile: "Those who can do more work."

.....

The new factory of Tengfei Pharmaceutical Factory was put into operation, and a large group of workers who were originally trained in the branch factory were transferred to the new factory. The new plant is now a lot colder and has once again reverted to the previous situation where only one or two production lines were open.

However, this was a situation that Ji Feng was happy to see.

Although the main factory had a large turnover and was very profitable, the business was too homogeneous and there was only one channel for the He family, whereas the branch factory had relations with many pharmaceutical companies.

What's more, this place is cold, but can also be said to be clean, Ji Feng here, you can feel free to do what you want to do, such as Develop 53 slimming pills!

Chapter 668

"What? You want to spin off the Tengfei Pharmaceutical Factory?" Han Zhong looked at Ji Feng in shock, "This new factory has just started production, why do you want to split it up? Are you not very satisfied with the status quo?"

This early in the morning, Ji Feng came to the pharmaceutical plant, and after looking at the production situation, he suddenly proposed to split the pharmaceutical plant, which made Han Zhong extremely shocked. The pharmaceutical factory had only just started its official production, the first batch of special effects current had not yet been shipped out, and it had not even been packaged yet, so how could Ji Feng want to do something reckless?

"Of course I'm satisfied! Actually, you misunderstood what I meant."

Ji Feng shook his head with a smile and said, "I didn't mean to say that I wanted to split the pharmaceutical factory, I just said that it would be best to differentiate between the main factory and the branch factories and call them two relatively independent fields, well Let's put it this way, apart from conducting staff training, there will no longer be any other direct relationship between the main plant and the branch plant, for example, the kind of direct transfer from the main plant's account to the branch plant like before will definitely not be allowed to happen in the future!"

"Why?!"

Han Zhong was still a bit confused and said in wonder, "Isn't this quite good? In the past, it was the branch factories that trained the staff for the main factory, so these employees could start working immediately after they arrived at the main factory, without any delay in between and without wasting anyone's energy. And from the time the main factory officially started production, it could be said that it was making money every day and the money was rolling in. When the main factory has money, it is natural to feed the branch factories In fact, if you want me to say, the names of the main factory and the branch factories now are completely called upside down, after all, it was the branch factories that came first, before the main factory"

Ji Feng nodded slightly and said, "Yes, from a normal point of view, you are indeed right, the main factory and the branch factory complement each other and develop together, this seems to be really good."

"Actually it's also really good, it doesn't just seem to be good." When Han Zhong saw that Ji Feng agreed with him, he couldn't help but laugh.

Ji Feng faintly shook his head and said, "But what if something goes wrong? For example, someone wants to deal with our Tengfei Pharmaceutical Factory and cut off our sales and purchase of raw

materials Or even, if it comes to our main factory to check the accounts or something like that, and I am unable to keep the pharmaceutical factory, at that time, will the branch factory be implicated as well?"

"Something like that would happen?"

Han Zhong was immediately taken aback, and then seemed to realize something, snapping his eyes towards Ji Feng, "Boss, you don't you know something?"

"Don't be nervous, I'm just giving an example, it's just a hypothesis." Ji Feng waved his hand with a smile and laughed: "But this kind of hypothesis is not without the possibility of occurrence, it is still better to take precautions."

"It seems that you've had this idea in mind for a long time." Han Zhong nodded slightly and said, "Then if we follow this method you mentioned, what kind of relationship should be more appropriate between the main factory and the branch factories?"

"A cooperative relationship." Ji Feng immediately said, "On the record of the relevant departments, our main factory and branch factories were originally two separate departments, then next, as long as the financial dealings between the branch factories and the main factory are cut off, there will be no problem."

Ji Feng has long thought of having the main factory and the branch factories open independently of each other, but in reality, they are not completely independent, only that there is no longer much relationship between funds and channels, and even if there is cooperation between them, it is purely cooperation, and not involved in other.

In this way, all the business relations of the main factory are no longer linked to the branch factories, so that even if something goes wrong with the main factory in the future, the branch factories will not be involved.

Leave a way out, especially when the business of the main plant is single and variable. It may not seem like a problem now, but when problems arise, you can find out how necessary it is to do so.

In fact, Ji Feng had planned to do this a long time ago. However, it was during these two days that he was prompted to make up his mind.

For some reason, Ji Feng was more or less uneasy in his heart, especially during the ribbon-cutting ceremony, he vaguely felt as if someone was spying on him from the shadows.

Anti-surveillance and anti-tracking were simply too familiar to Ji Feng, yet he did not find the person who was spying on him.

It was also because the ribbon-cutting ceremony was being held at the time and he couldn't show too much, so he didn't make a big deal out of it. However, this was enough to show that the person who was spying on him was obviously not some mediocre person, otherwise, he definitely couldn't escape Ji Feng's eyes.

However, there is no need to explain these issues to Han Zhong, just know it yourself, no need to let him worry along with it.

Although it is not said, but the preparations that should be done must still be done.

So Ji Feng, after much deliberation, came to the pharmaceutical factory office and put forward his idea to Han Zhong to make the main and branch factories of the Tengfei Pharmaceutical Factory independent.

These issues were not too clear to Han Zhong, but one thing he did know was that Ji Feng would never do anything detrimental to the pharmaceutical plant, and as long as there was this knowledge, then the two could easily reach a consensus.

“Then the branch factory side”

“This will be very simple.”

Ji Feng smiled faintly and said, “The branch factory side no longer trains employees for free for the main factory, and any further employee training is subject to training fees, whether you pay or the individual employee pays, that depends on how you decide, as for the management of the branch factory, I do have a candidate, but I’m still looking into it. For the time being, I’ll manage it.”

“You’ll manage it?” Han Zhong harrumphed, “Boss, it’s not that I’m underestimating you, you shouldn’t think that just because the branch factory is small, you think it’s good to manage, Frankly speaking, I don’t think much of you!”

“Brat!” Ji Feng cursed with a laugh and said, “Then let’s wait for me to make achievements to show you.”

It was fun for the two brothers to banter a few times from time to time, and Han Zhong heatedly smiled and said, “Boss, I’ll be waiting then.”

Ji Feng glared at him, and then laughed dumbly.

“By the way, I’ve already interviewed all those people you picked out from the headhunter today.” Han Zhong remembered the matter of recruiting middle management again, “In a word, although these people have management experience, they still need to be examined as to how exactly they are.”

“I’ll leave this matter to you first.” Ji Feng laughed, “Okay, no more nonsense with you, I still have something to do, I’ll leave first.”

“I’ll see you off.” Han Zhong immediately stood up.

“No need, you stay busy here, it’s not like I don’t know the way.”

“That won’t do, you, the boss, are leaving, how dare I not see you off?”

“Get lost!”

“Hehehe”

.....

“Sister-in-law, goodbye.” Coming to the front of the car, Han Zhong looked at Xiao Yuxuan in the car and waved his hand with a smile.

Xiao Yuxuan smiled sweetly, "See you later."

"Get lost, we're leaving." Ji Feng cursed with a smile and started the car.

Han Zhong gave a heated smile and turned around to go back.

"Is the deal done?" Xiao Yuxuan asked.

"Almost done." Ji Feng smiled as he exited the Tengfei Pharmaceutical Factory and drove out of the gate electric telescopic gate and onto the highway.

"Little rascal, school is about to start, tomorrow I have to go to school to prepare in advance, so I can't accompany you everywhere." Xiao Yuxuan said.

"So soon?" Ji Feng couldn't help but be stunned, counting the time, only then did he realize that the summer vacation was actually about to pass, time was passing really fast.

"It's still fast, isn't it still coming day by day?" Xiao Yuxuan smiled delicately.

Ji Feng also smiled and nodded, saying, "When there's something to do, you'll feel that time passes quickly"

Just as the words came to a screeching halt, a cold aura flashed in Ji Feng's eyes and then disappeared.

"What's wrong?" Xiao Yuxuan asked strangely.

"....." Ji Feng put his fingers up in a silent gesture and shook his head faintly.

Xiao Yuxuan instantly tensed up, but when Ji Feng didn't speak, she didn't dare to open her mouth rashly.

Ji Feng slowed down his car, his gaze, staring at the rear view mirror on the left, was thoughtful.

Just a few seconds ago, a figure appeared in that rear view mirror, and in just the blink of an eye, it disappeared around the corner of the pharmaceutical factory's fence, out of sight.

Ji Feng immediately realised that the person watching him had, once again, appeared!

Moreover, what made him feel puzzled was that the figure just now, he would feel vaguely familiar!

It was a woman's figure, and even though that dressing looked neutral, Ji Feng could be sure that it was definitely a woman just now.

Only, Ji Feng quickly recalled all the women he knew in his memory, and found no acquaintance that matched that figure just now

It was really too strange!

"Who on earth could it be?" Ji Feng secretly wondered, who on earth was following him? What was the purpose?

Ji Feng immediately took out his mobile phone, found out Yi Xingchen's number and sent a text message, "Old Yi, beware that someone has infiltrated the pharmaceutical factory, I found a suspicious person outside the door!"

“Understood, as long as the other party dares to come in, they won’t be able to walk out.” Yi Xingchen’s spirit was suddenly lifted and his killing spirit was awe-inspiring as he sent a text message back to Ji Feng.

Ji Feng smiled faintly and put away the phone, before fiercely speeding up the car and heading straight for home.

In fact, Ji Feng was planning to go to the pharmaceutical branch, but after seeing a suspicious person this time, Ji Feng changed his plan. He was worried if someone had put a tracker, or a bug or some other equipment on his car.

There was a whole set of detection equipment in the villa, and the hidden danger had to be solved first.

The car was speeding down the road at high speed, Ji Feng’s face was grim, and his mind kept thinking about where he had seen such a woman

The swish!

Suddenly, Ji Feng’s eyes snapped up and his heart secretly said, “It’s her?!”

Ji Feng finally remembered where exactly he had seen such a familiar back, he could not help but sneer in his heart, so it was her!

Chapter 669

All the way back to the villa, Ji Feng did not say a word, only squeezing Xiao Yuxuan’s hand from time to time to reassure her that she did not need to be afraid.

Although Xiao Yuxuan was nervous in her heart, she did feel a lot more at ease with Ji Feng by her side, so she smiled sweetly in the face of Ji Feng’s comfort, as a way to show that she was not afraid.

“Alright, get out of the car.” When we reached the villa garage, Ji Feng said with a smile.

“Ji Feng, what the hell was just now?” Xiao Yuxuan lowered her voice and asked cautiously, “What was going on?”

Ji Feng smiled, patted her small hand and said in a low voice, “Don’t ask first, go to the attic and bring me that blue toolbox, also, turn on all the villa’s guard devices and block out all the signals in this vicinity.”

Xiao Yuxuan nodded thoughtfully and quickly departed.

Ji Feng casually lit a cigarette and walked around his BMW X6 twice slowly, his eyes blazing.

“This woman, what the hell is her origin” Ji Feng looked at the unexceptional car and secretly pondered in his heart.

With Ji Feng’s memory, once he had met someone, he would definitely not forget it.

And this woman who followed him before actually made him unable to remember who exactly it was for a while, which means that this woman was not familiar with him, or maybe even just a one-sided acquaintance.

In fact it was indeed the same, Ji Feng and her, had only met once, of course, if you counted the one time just now, it was considered twice. But obviously, this time just now, Ji Feng was aware of the woman's existence, and the woman, probably, hadn't realized that Ji Feng had discovered her trail.

After careful recollection, Ji Feng finally remembered exactly where he had seen that woman – it was on the plane!

The more he thought back, the clearer Ji Feng remembered that just a few days before, on the plane from Yanjing to Jiangzhou, he had seen this woman once.

At that time, Ji Feng was resting his eyes and a stewardess mistook Ji Feng for someone who was not feeling well and came over to ask about it. At that time, Ji Feng was still wondering when domestic airlines actually had such a good service attitude, so he couldn't help but look at the back of that stewardess a few more times

Now that I think about it, the back of that stewardess is not the same figure that he saw today near the pharmaceutical factory!

Although that stewardess was wearing a uniform at that time, and the figure today, wearing a more neutral, jeans, white shirt, looks very ordinary, but in Ji Feng's eyes, the two figures can gradually overlap, the owner of these two figures, is clearly the same person!

After thinking about this, Ji Feng suddenly realized that the stewardess on the plane was not how good her service was, she was probably taking the opportunity to approach herself.

But what was her purpose?

This is what Ji Feng wanted to know most urgently. If it was anyone else who was constantly being followed and spied on, they would definitely want to know the other party's purpose very urgently, and Ji Feng was no exception.

"How should I know the purpose of her following me?" Ji Feng secretly pondered, but couldn't find any good way for a while.

"Set up a trap to capture that woman first?" This idea flashed through Ji Feng's mind and he quickly dismissed it. Once he arrested her, it was likely that he would alert the snake because no one knew whether there was someone behind this woman's back or not.

Arresting her might alert the person behind the scenes. Not to arrest, and not to get any useful information

"What a bold woman!" Ji Feng couldn't help but shake his head with emotion, from today's stalking, he realized that not only was this woman bold enough to actually dare to make direct contact with her target, but also, she should be very good at it as well.

Because the woman's figure flashed past in the rear view mirror today, Ji Feng noticed that her movements were very athletic and she looked completely incomparable to ordinary girls, and should have been trained in this area.

Such a woman should be the focus of others' attention wherever she goes, but now she has come to follow herself, the other party's intentions are not small!

Moreover, this woman might not be that easy to catch, which was also a problem.

A sound of footsteps came, Xiao Yuxuan was carrying a blue toolbox and was walking quickly, while giving an ok gesture to Ji Feng.

Ji Feng then knew that the guard devices in the villa had all been turned on, and the signals in this vicinity had all been blocked out.

He immediately took out his mobile phone and found that there was really no signal at all on it.

“Very good!” Ji Feng smiled slightly, his own mobile phone was a high performance military mobile phone, and it was a direct special satellite communication, even this signal was blocked out, proving that the equipment he had made still worked quite well, that little bug and other devices, naturally there was no need to say more.

Open the toolbox, Ji Feng directly took out a circle-shaped thing, in the car one by one to detect.

“Tic-tac-toe” There was a sudden dotted sound on the circle.

There was a signal!

Ji Feng was instantly happy, he directly leaned down on the ground, turned his head to look, and instantly found that on the car’s gas tank bottom shell, a small miniature mobile phone like thing was attached, it was a tracker.

“If the tracker is there, then the bug should be there too.” Ji Feng secretly underestimated.

However, Ji Feng quickly probed the car once, but in the end, he found nothing, except for the one tracker that he had just gotten.

Ji Feng couldn’t help but frown, there was a tracker, but there was actually no bug, did the other party just want to know where he had gone, but didn’t want to know what he was doing and what he had said?

He did not die to detect again, or so the result.

Ji Feng stood beside the car and thought carefully, this situation was very unreasonable, he must have overlooked something.

Suddenly, his eyes lit up.

There was another place that had not been detected, the computer on the car as well as near the instrumentation unit!

He immediately took out his screwdriver and other fears and carefully removed the dashboard casing, which was not difficult for him at all.

Upon taking the casing off, he instantly noticed that there was actually a bug taped to the outside of the magnet coil underneath the car’s intercom!

“Holy shit!”

Ji Feng held his tongue for a long time and finally couldn't help but curse, the other party really dared to think of installing the bug here, this is good, it's strange that he could find it!

The better the car, the more complex the computer control program inside, as well as extremely precise sensors and other components, even with a special detector, it is impossible to accurately detect whether there is something else involved in this.

From this point on, it was clear that the other party was a professional expert!

He carefully took the bug out, examined it carefully and finally came to a conclusion – military, high performance, high precision!

The other party was obviously also a connoisseur, and the stuff was not simple, so it was really an honour to use it against himself. Ji Feng smiled coldly in his heart.

Now that the tracker and the bug were found, Ji Feng still didn't dare to be sloppy and careless, and carefully searched the car again, inside and out, finally making sure that there were no more omissions, and only then did he let out a sigh of relief.

"This is A wiretap?" Xiao Yuxuan asked in awe and disbelief. She had also seen Ji Feng fiddling with these things in her own attic, so it wasn't too unfamiliar, and she was only alarmed because, apparently, someone had installed these things in her own car!

Ji Feng smiled faintly, "It seems that someone is starting to miss me, don't be afraid, they can't afford to make any waves!"

"Then what do we do?" Xiao Yuxuan's eyebrows knitted slightly, "What do these people want?"

Ji Feng faintly shook his head and said, "We don't know what the other party is yet and what purpose they have So let's not make any rash moves now, Yu Xuan, you immediately go to the computer in the attic and download a recording file called 'Life's Trivia' into this memory!"

Saying that, he handed Xiao Yuxuan an object that resembled the shape of a flash drive, but with several buttons on it.

"Life's trivialities?" Xiao Yuxuan was stunned.

Ji Feng nodded and said, "That's right, that's me recording all the insignificant things we usually say while shopping, specifically to deal with this kind of wiretap, hey, let the other party go listen to how we fall in love."

"Bah, you're so boring, actually recording this!" Xiao Yuxuan couldn't help but spit.

Ji Feng then said helplessly, "Big sister, you're thinking wrongly, okay, that recording file was saved after I processed it, there's no half sensitive content in it."

Xiao Yuxuan suddenly blushed slightly, "You're the one who's thinking crookedly!"

She snatched the memory as soon as she could and turned around to leave.

Ji Feng played with the wiretap in his hand and could not help but sneer secretly, "Just keep eavesdropping, I want to see what kind of expression you will have when you find out that all you hear is the content of our love talks"

.....

At this time, at the side of a road in the villa area, a black Audi car was parked quietly, with dark film on the windows, making it impossible to see clearly inside even when one was close to the car.

A young woman with her hair pulled up into a bun frowned at the car, taking off her earpiece and wondering, "No sound? Is it out of reception distance, or has the other side found something?"

Without hesitation, the young woman immediately started the car, stepped on the accelerator and sped off with a bang.

If Ji Feng had seen this woman, he would have instantly recognized that this woman was no other than the beautiful air hostess he had met on the plane back then, and he was not wrong!

Chapter 670

Jiangzhou, inside an ordinary independent villa, on the sofa in the living room, there were two people sitting.

One of them, looked very strange. ta wore a pair of unisex gold-rimmed glasses and, looking at that figure, seemed like a man.

Although wearing gold-rimmed glasses, the pair of shadowy eyes made him appear very cold. Being stared at by him/her was like being stared at by a poisonous snake, which would make one feel uncomfortable all over.

What was even more strange was that underneath these gold-rimmed glasses, there was this soft-looking mask that covered his entire face, so that one could not see his real face, yet there was no way to guess the person's gender, and the person's age, etc., all of which was impossible to guess.

Opposite this man sat a stylishly dressed and beautiful fashionable girl, very beautiful looking, whether it was the delicate features, the long slender legs that were pinned together, and the perfect figure, all of which were enough to attract the attention of any normal man.

This was indeed a beautiful woman who was enough to make any normal man, unable to resist his heart thumping.

If Ji Feng were here, he would definitely recognise that this woman was no other than the very attentive flight attendant he had met on the flight from Yanjing to Jiangzhou.

However, even if he saw this woman again at this time, he would not be able to help but be astonished.

It was because when he looked at this woman again now, her appearance was at most only eight points similar to the one on the plane.

On the plane, although this woman was also very beautiful, her appearance was definitely not to this extent.

What's more, this woman's aura was simply very different from the time she was on the plane. If one was not familiar with her, one would never think that she was the same person as the air hostess on the plane.

With a few changes in appearance and a very different aura, the changes that occur when these two changes are concentrated on the same person can be much greater.

"In that case, it's possible that the target found out you were being followed, so that's why the signal was blocked out?" The man with the mask and gold-rimmed glasses spoke up, "Is that a possibility?"

This person's voice was very odd, seemingly male and female, making it impossible to tell the difference.

But the young woman seemed to be used to this odd voice of the masked man, and she nodded her head and said, "There is indeed such a possibility. But"

"But what?" The masked man asked.

"According to the conclusion you reached after your investigation and speculation on the target, the target is highly skilled and powerful, and should be a formidable opponent in a head-to-head encounter. Am I right?" The wonderful girl asked indifferently, and from the tone of that speech, one could hear that she was not a subordinate of the masked man, or at least the two were of equal status and position.

"Not bad!" The masked man nodded, "From the target's past actions, we can analyse that he is incredibly strong in battle, even the two great experts of the Xuan Yin Sect have lost under him."

"That's right."

The young lady leaned back, lit a lady's cigarette and smiled, "A person with extraordinary force must have enough self-confidence, such people, tend to be more careless than others, as the saying goes, people with high skills are bold. In fact, this saying can also be said to be that those who drown are those who know how to water."

"You mean to say that the sudden disappearance of today's signal is not necessarily because the target found out that you were following?" The masked man asked.

"It could be that the target found out I was following, but it could also be that it wasn't" The wonderful woman said with a smile as she exhaled a few smoke rings gently.

"So, what are you going to do next?" The masked man asked, "Continue stalking, or change the plan and move the target for now?"

The wonderful girl's eyes were cold as she said, "The Chinese military completely wiped out my Western Xia in one battle, except for those who were not in the base at the time who managed to escape, the others, actually every one of them managed to escape, how can I not take revenge for this?"

All of a sudden, an extremely strong aura erupted from the girl's body, and the masked man could not help but let out a stifled cry.

At the same time, two cold lights shot out from the girl's eyes, so cold and full of murderous intent that the masked man's body could not help but tense up, and even the hand holding the cigarette could not help but stiffen up.

Immediately, the wonderful girl spread her face and smiled again, and all the pressure instantly disappeared.

"Whew...!"

The masked man could not help but quietly breathe a sigh of relief, but was reluctant to show it; he or she did not want to appear so decrepit in front of this wonderful girl.

"Whether the target has found something or not, we can't continue to follow it any further, so I'm going to change tactics." The mythical girl said indifferently, "With your influence in China, help me arrange for a person who can follow me without

Looking at the appearance of the wonderful woman who calmly said these vicious words, even with the knowledge of the masked man, he could not help but shiver, and in his mind, once again, the name of this woman within the organization came to mind – Black Widow!

"Good" The masked man said slowly, also to calm that fear in his heart, he pondered slightly for a moment before saying, "Into the target's company, this is not very likely, because it is not in our grasp. Go into school, you could be a teacher" One of the target's women was his teacher before, see if you can take advantage of his weakness in this area"

"Oh?"

The wonderful woman was stunned and then giggled, "Interesting, really interesting" Let's do that!"

"Good then, I'll arrange it for you as soon as possible, and try to make everything in your file flawless before the new semester starts, so that you can enter the United University without any problems!" The masked man said immediately.

"Good then, I'll need to trouble you to help with these formalities" The cigarette instantly shot out and landed precisely in the ashtray on the coffee table, with a fluffy sound, sparks flew from the cigarette, but no sparks burst out of the ashtray.

The masked man's eyes were astonished, and he was secretly astonished, no wonder people called this woman the Black Widow, just her ruthless and unparalleled methods and superb skills were enough to make most people feel afraid.

Still, the masked man could not resist asking, "I say, did you first give yourself a name?"

"Why do you need a name?" The wonderful woman asked.

"When you enter the university as a teacher, you can't still use your current name, can you?" The masked man laughed bitterly.

"Since everyone else calls me Black Widow, I'll be called White Spider" The wonderful girl said casually without question, but as she spoke, her hand subconsciously ran over her arm, "From now on, I'll be called the White Spider. Black widow spider, very cute little thing"

“Okay, I’ll get that done for you.” The masked man nodded slightly, but there was a chill in his heart, is there anything more poisonous than a black widow spider? Also cute

After a pause, the masked man asked again with some hesitation, “Forgive me for asking a question that I should not ask, now our target, should be the He family, even if you want to avenge those dead brothers, you should also go to Xiang Yongzhan, according to the intelligence, this operation, it is likely that the special combat brigade led by Xiang Yongzhan is involved, why would you come to the target at hand? ”

“I’ve been dealing with Xiang Yongzhan for many years and have fought each other I don’t know how many times, he definitely doesn’t have the ability to uproot my Western Xia” The wonderful girl, also known as the white spider, shook her head slightly and said, “According to the intelligence, the target at hand, seems to be involved”

“But that intelligence is just speculation by the people involved, it’s not accurate!” The masked man said.

“Whether it’s accurate or not, it will naturally become clear when I get close to the target.” White Spider smiled sweetly, “If it really is him, I will definitely let him know that the Black Widow’s mighty name, not only in the West, but also in China, will make people beg for their lives and die just as much!”

.....

Just at the same time, Ji Feng, who was sitting on the sofa at home, was talking to someone on the phone.

“Second brother, did you find out?” Ji Feng asked with a smile as he held the phone.

“I say, Third child, you’re not trying to be messy, are you? What’s the point of checking out people’s air hostesses for nothing?” Ji Shaolei couldn’t help but ask.

Ji Feng scratched his head and turned his head to look at Xiao Yuxuan, who was busy cooking, before he laughed and said, “No, I’m just asking around for someone else.”

“Check is found, but the information you gave is too general, on that day’s shift, there were a total of six stewardesses on duty, five of them are professional stewardesses who have been with the airline for several years, only one of them, can’t find out where she came from, and there is no specific description of her looks, even in the surveillance video of the airport and checkpoint, there is only the back of the other party, no frontal video. ” Ji Shaolei said, “However, looking at her back, her body is indeed great, your friend is really quite discerning!”

Hearing that second brother was talking nonsense again, Ji Feng couldn’t help but chuckle and asked, “Is that so, I’m not too sure” Second brother, other than that, is there any other information?”

“Other than that, there doesn’t seem to be anything else.” Ji Shaolei seemed to suddenly remember something and laughed again, “By the way, if you hadn’t asked me to check the information of those air hostesses, I wouldn’t have found out” Guess who’s coming to Jiangzhou.”

“..... Is it someone who has a relationship with me?” Ji Feng’s heart stirred.

“There is a relationship!” Ji Shaolei said, “This person, not only does he have a relationship with you, but he is also intertwined with hatred!”

“Who is it?” Ji Feng was stunned, “There aren’t many people in Yanjing who have a grudge against me Second brother, it’s not Qiao Rong coming, is it?”
