Chapter 691

Ji Feng's heart sank at once and asked, "You know how the black widow is our school teacher, the white spider?"

"Don't you forget that we also have an intelligence department!" Xiang Yongzheng laughed.

"Then, according to you, this White Spider teacher in our school is the Black Widow, the leader of Western Xia" Ji Feng asked in a deep voice, "This means that she doesn't have much energy in China, the key is the person, or an organization, that is helping her in the dark, right?"

"That's right!" Xiang Yongzhan nodded slightly and said, "I have fought with the White Spider not once or twice, although we have never met, but we are too familiar with each other, whether it is each other's fighting style, temperament, ability and so on, we know each other very well. And from what I know about White Spider, she definitely wouldn't have that much power in Mainland China."

"What I want to know is how many members of the Dynasty Organisation who followed this Black Widow to the mainland this time, how many of them there are, what kind of people they are, what their abilities are, and where they are now!" Ji Feng said.

"Her men have all been wiped out by us, who else can come with her?" Xiang Yongzhan sneered, "Now she's a loner, if it wasn't for someone helping her, she wouldn't be able to turn the tide half the time."

"Can't make waves? Then how did we get attacked yesterday?" Ji Feng asked with a wry smile.

Yesterday's incident, not only did the Ji family lose face, but there was also a mole in the military, and his family's face was no better. The company's main business is to provide a wide range of products and services to the market.

Instead of using more people and more power, the result of the battle was pitifully small, only one Black Wolf was captured!

"What do you want me to do?!" Ji Feng asked indifferently. Although he was very dissatisfied with what Xiang Yongzhan and the people of the special operations brigade he belonged to did, and Ji Feng had ruthlessly swept him off his feet, he couldn't help but give him a step, after all, the two sides could now be said to be in a cooperative relationship, and it was always better not to make the relationship too stiff.

"You don't need to do anything!" Xiang Yongzhan seemed a bit depressed, "Just take care of your own safety and accept their protection honestly."

"Protect me?!" Ji Feng was stunned for a moment, and then he lost his smile, "Do I need someone else's protection? If you guys really want to, you might as well send me a few female guards to protect Yu Xuan and Lei Lei, they're the most dangerous right now!"

"You're just as dangerous!" Ji Shaolei instantly glared at him, for this cousin who was a bit outrageously strong in kung fu, Ji Shaolei really had no choice, they say that people with high skills are bold, and it seemed that this guy was no exception.

“Yu Xuan and Lei Lei have someone there to protect them, Xiao Ying has been ordered to come and protect you this time.” Ji Shaolei said, “The biggest threat now is not that teacher at your school, she has now become a bare-bones commander, it’s true that she alone can’t make any waves, but those people hiding in the mainland will threaten you at all times, and until we find out who those bastards really are, you must have someone to protect.”

Ji Feng pointed at Gu Chao and the others and said, “They’re all here to protect me?”

“Only Gu Chao and Xiao Ying will stay, Hui Yi and Liu Xin, have another mission.” Ji Shaolei said.

“And then what? What do you plan to do with that teacher Bai from our school? Are you going to arrest and interrogate him directly, or” Ji Feng asked.

Xiang Yongzhan shook his head slightly and said, “That’s the next question we’re going to talk about”

He jerked to his feet and said, “You come with me.”

Ji Feng frowned slightly, uncomfortable with this commanding tone from Xiang Yongzhan, but he still stood up and followed Xiang Yongzhan to another room within the suite.

“Grand Duke Xiang, there’s no need to treat me like one of your men, so you can just say what you have to say.” Ji Feng said indifferently.

“Ji Feng!”

Xiang Yongzhan said seriously, “Now I’ll convey the instructions given to you from above”

“Wait a minute!” Ji Feng immediately interrupted him and frowned, “What instructions from above? What order does it refer to?”

“This is your little uncle’s meaning, originally it was supposed to be conveyed to you by your second brother, but I feel that since we have fought side by side, it is more appropriate for me to say it.” Xiang Yongzhan said in a deep voice: “According to Captain Ji’s instructions, from today onwards, your task is to be in charge of monitoring White Spider, don’t let her escape or have any other accidents, and until you receive new orders, you can’t take private action against her, and at the same time, let alone let others silence her!”

Ji Feng frowned at once: “My little uncle’s orders? Why didn’t he tell me personally? Also, from what you’re saying, this is to ask me to protect the White Spider? This is bullshit!”

“Do you think that the other side

“Sorry, I’m not a soldier in the first place!” Ji Feng stretched out his hand and then asked, “The phone isn’t secure anymore either?”

“A phone without encryption is indeed no longer safe.” Xiang Yongzhan shook his head slightly and said, “The other party’s infiltration ability is too strong, now we have been investigating, it is estimated that many people will be involved, and they are all characters of great weight” It’s useless to talk to you about all this, you just have to be responsible for the White Spider not being silenced under the premise of protecting your own safety, that’s enough.”

“Do you think I have that ability to protect the white spider at all times?” Ji Feng snorted, “Don’t think of me as so powerful, okay?”

“Hui Yi and Liu Xin will help you.”

Xiang Yongzhan pointed outside and lowered his voice and said, “If we move the White Spider now, not only will it not have any effect but it will alert the snake, she is only the head of Western Xia, she doesn’t know a lot of things about our Chinese mainland, we now have to follow the vine and find out who actually reached out in that incident yesterday, as long as we knock those people off first, then we will move the White Spider, when the time comes A two-pronged approach, trying to knock out the bastards hiding on our side, along with them!”

Ji Feng pondered for a moment before asking, “What you mean is that Hui Yi and Liu Xin are responsible for monitoring and protecting the White Spider, while Gu Chao and Xiao Ying will stay behind to protect me and my girlfriend, is that right?”

“That’s right!”

Xiang Yongzhan nodded slightly and said, “The reason why I would invite you over and relay this instruction to you is actually because I am worried that someone is going to silence White Spider, and Hui Yi and Liu Xin are not capable enough to protect her, so this is the time when you need to step in.”

“Shit!”

Ji Feng instantly laughed coldly and couldn’t help but burst out a foul mouth, “Dare I say that you guys are treating me as a free fighter? If even Hui Yi and Liu Xin can’t handle it, what’s the point of me stepping in?!”

For him, it couldn’t be simpler to just knock off the white spider and clear a vacuum of safety around himself first, and then knock off whoever dared to come the rest.

If you leave the White Spider behind now, you’re leaving a big problem behind. God knows if the other side will send a few sick and desperate killers over, in case there’s another suicide attack, and then we’ll all die together, then there’ll be no place to die.

“Just now you also said that you are not a soldier.” Xiang Yongzhan sneered, “Since you’re not a soldier and Xiao Ying and Gu Chao are protecting you, shouldn’t you pay something?”

“I ……” Ji Feng was just about to speak when he was interrupted by Xiang Yongzhan.

“You don’t need anyone to protect you, but what about your girlfriend?” Xiang Yongzhan asked.

“……”

Ji Feng looked at him with hatred, and only after a long time did he spread both hands, “Okay, count on you being cruel, I agree, deal!”

“That’s right!” Xiang Yongzhan grinned at once, but his voice remained low, “Then again, we’re in a win-win situation. If the other side sends high-level reformers to exterminate them, Hui Yi and Liu Xin really may not be able to handle it, and at this time only you can stop them, and the protection of Gu Chao and Xiao Ying will also make you a lot less troublesome, don’t you think it’s great?”

Ji Feng coldly snorted: "It's you guys who are good, right? By the way, dividing us up properly, so what are you guys doing? Watching the show from the side?!"

"The special combat brigade, is not owned by any one person, many warriors have to go out on missions, while the rest, will do their best to clear out the killers infiltrating into Jiangzhou I just said that I want you to take a shot, that is only for the leaky fish, normally there should not be many people who can mix in!"

Xiang Yongzhan said confidently, "Don't think that our intelligence department are all dried up, their ability, you can only understand if you have experienced it!"

"Alright, alright, don't brag to me!" Ji Feng waved his hand, "By now you guys still don't even know who was in that Buick that ran away yesterday, and you still dare to talk to me about the intelligence department I probably know more than even you guys! Instead of having this effort to idly grind your teeth with me here, why don't you go to Yanjing and put an end to that whatever Royal Club, you're guaranteed to catch some big fish!"

"It's your brother-in-law's place of responsibility, it's up to him to decide what to do, I have no right to interfere!" Xiang Yongzhan said frankly.

Ji Feng was immediately speechless, he hummed and asked, "There's nothing more to do, right? Then I'm going out!"

"I said" Xiang Yongzhan suddenly grinned, "I heard that that white spider is extremely beautiful and can be said to be a demon, if you can get close to her with the beauty trick and get everything she knows out, that would be a great achievement!"

"Fuck off!"

Ji Feng cursed, directly opened the door and walked out.

Chapter 692

The change of events was somewhat unexpected, making all of Ji Feng's original intentions disrupted at once.

However, Ji Feng was able to accept this change, after all, the arrival of Gu Chao and Xiao Ying had ensured the safety of Xiao Yuxuan and Tong Lei, and for the strength of Gu Chao and Xiao Ying, Ji Feng was still at ease.

Only for the white spider, but to change the strategy, originally to kick her away, but now suddenly to protect her, this is really

The first thing you need to do is to get rid of the problem.

Therefore, Ji Feng simply ignored the matter of the white spider and pretended that nothing had happened before.

In fact, for the white spider, Ji Feng did not hate her.

The reason is that strictly speaking, the grudge between him and the white spider was caused by his own initiative. From a personal point of view, the white spider had a reason to hate him, but he had no reason to hate the white spider.

In fact, if you think about it from another angle, it is indeed true. Ji Feng had teamed up with Xiang Yongzhan and directly destroyed the Western Xia branch of the dynasty organization, making Bai Spider, the chief administrator, a bare-bones commander, and perhaps even a loss of something else, so it would be strange for her not to hate Ji Feng.

Therefore, for several days in a row, Ji Feng was just normally busy between the school and the pharmaceutical branch, and he had the right to pretend that he didn't know about Bai Spider's affairs.

As for other matters, he let Xiang Yongzhan and the others go about their business.

In the daytime, there were Little Shadow and Gu Chao's guards nearby, and at night, there was Little Shadow accompanying them closely, not to mention the white spider, even if a few more people came, they would not be able to harm Xiao Yuxuan and Tong Lei.

This, too, completely solves Ji Feng's worries, allowing him to relax wholeheartedly, while also reducing a lot of trouble.

However, Ji Feng is also clear that this is not a long-term solution, because Xiao Ying and Gu Chao are active duty soldiers after all, and the two of them are on a mission, which is why they can stay by Ji Feng's side. However, there will always be a day when the mission is over, and when the time comes, they will still have to leave, and the safety of Xiao Yuxuan and Tong Lei is still a problem, and now it is only temporary.

Therefore, Ji Feng secretly decided that the security department under the pharmaceutical factory should recruit a group of female escorts as soon as possible. The security department is an independent department in the pharmaceutical factory, and is also open to the public, there are many times need to use female guards, so it is necessary to recruit a group of female guards with excellent skills and quality.

Ji Feng then immediately communicated this issue to Yi Xingchen, and then just waited for the result of the recruitment.

However, this is not something that can be rushed, for Ji Feng, the security guards that he requires must have excellent hands and the same quality, preferably female ex-soldiers, or ex-guards or something like that

However, such people are indeed somewhat hard to find, and it all takes time.

Fortunately, there is now Little Shadow with him, and Ji Feng only hopes that he will be able to find a suitable female escort before Little Shadow and Gu Chao and the others finish their mission.

Only under the premise of ensuring that both brother ah Yu Xuan and Tong Lei are safe, Ji Feng will be able to have enough time and energy to do other things, otherwise, his energy will be distracted not to mention that Xiao Yu Xuan and Tong Lei may also be attacked, after all, he can not be with both of them at the same time all day and night, the two may be a bit what other things to separate, such as Xiao Yu Xuan to go home to see

At this time, Ji Feng is divided.

“If we could have an expert like Xiao Ying, Yu Xuan and Lei Lei would be much safer.” Ji Feng was somewhat hopeful, but such a person is not very easy to find

After the safety of Xiao Yuxuan and Tong Lei was solved, Ji Feng put all his energy into the 53 slimming pill being developed by the pharmaceutical branch.

Kang Yuan, a capable expert, has now found substitutes for many of the ingredients in the No. 53 slimming pill’s prescription, and now only the last ingredient is missing before the drug can be officially synthesized.

Of course, after the substitutes were found, there was still a need to go through a period of clinical trials and observations, and Ji Feng also asked the intelligent brain for advice in this regard, but what was stored in the database of the intelligent brain was fixed data, and there was not much record of this kind of reduction in the effectiveness of the medicine.

Therefore, Ji Feng could only let Kang Yuan figure it out on his own. At this time, it was also the right time to highlight Kang Yuan’s important role.

It is only by relying on Kang Yuan’s solid foundation and extremely rich experience that he can make the best medicine.

.....

Time flew by, and in the blink of an eye, a month had passed, and time came to October, when another long holiday began.

The actual fact is that Ji Feng did not go anywhere, just nestled at home, enjoying a rare time of leisure.

In fact, Ji Feng originally planned to go to Yanjing to find his younger uncle and father to ask them about the white spider, but considering that there was still no news from Xiang Yongzhan, Ji Feng knew that the progress of this matter might not be too good, either because there was too much resistance or the other party was too cunning.

Ji Feng then

“Pah!”

Ji Feng casually threw the newspaper on the coffee table, couldn’t help but rub his eyes and said helplessly, “What efficiency, it’s been a month and there’s no progress at all, and he still says he’s an elite”

Gu Chao and Xiao Ying both couldn’t help but give a bitter laugh, they both knew that Ji Feng Ji Feng was talking about Xiang Yongzhan and the military’s intelligence department, despite the fact, but neither of them could conveniently comment on anything.

“You ah, it’s better to care about the issues you should care about, Xiao Yu is already looking for me to complain, saying that it’s been a month since school started and you haven’t visited her once, she’s not even happy.” Xiao Yuxuan handed him an apple and pursed her lips as she laughed.

Ji Feng laughed: “Who said I haven’t seen her? It’s just that she’s been in military training this month, so she doesn’t know when I go there.”

"It's only right that if you go to see her, you have to let her know." Tong Lei said in a brittle voice, "Xiao Yu is still young and is childish, she looks up to you as her third brother so much, so she wants to let the other students know that she has such a loving brother, but you are so good, you hide away every time you go to see her!"

Ji Feng laughed, "Good, when the long vacation is over and she returns from Yanjing, I'll go to her class to see her."

The freshmen at Union University started, and Ji Xiaoyu was also known as a freshman at Union University, only that they were in military training throughout September, and Ji Feng also wanted to make Xiaoyu's soft character stronger, so he didn't go to see her directly, but he didn't expect that he had actually caused this girl to be sad.

"By the way, how is Liu Xin's side?" Ji Feng turned his head and asked.

"Sir, the captain and the others haven't found anything yet, the target is currently living a very regular life, apart from the teachers and students at the school, he hardly has any contact with anyone else, he can't see any problems." Gu Chao immediately replied.

Ji Feng then nodded and smiled, "It seems that she can really stay calm, don't worry, as long as a fox is a fox, its tail will always reveal itself. Besides, even if she doesn't reveal anything, once there's any progress on Xiang Yongzhan's side, she won't be able to get away!"

Liu Xin and Recollection, the two of them, were responsible for monitoring and protecting the White Spider. To facilitate their movements, they both worked as guards in the school's security section and had to patrol the school from time to time every day, which was just right for surveillance.

Therefore, almost every move of the White Spider in the school could not escape their eyes. Moreover, the two of them would regularly exchange the information they gathered with Ji Feng through Gu Chao, so that Ji Feng could formulate a suitable plan and take the most appropriate action.

The fact that the white spider lived such a regular life at school was somewhat out of Ji Feng's expectation. Although up to now, he could not be sure if the White Spider was the leader of the Western Xia, there was one thing that Ji Feng could be sure of, and that was that the White Spider was hostile to Xiao Yuxuan and was equally, if not more, hostile to himself.

Keeping such a person would always give him something to worry about. Liu Xin and Hui Yi were always watching over the school, which put Ji Feng's mind at ease a lot.

"Ding"

Just as Ji Feng was contemplating, his phone suddenly rang, he picked it up and saw that it was Kang Yuan calling.

Ji Feng smiled and picked up the phone, "This is Ji Feng, auntie, what's up?"

According to the generation, Kang Yuan was Hong Gu's husband, that was also Ji Feng's aunt, so Ji Feng would address Kang Yuan by this title every time.

But Kang Yuan was a little embarrassed, he said, "Boss, you can just call me Old Kang" Boss, big happy news!"

“What happy news?” Ji Feng was stunned.

“That slimming pill you mentioned, No. 53, I have found all the alternative ingredients, and I can already synthesize it today, and then I can start doing clinical trials!” Kang Yuan said excitedly.

Ji Feng was also delighted and asked excitedly, “When will the trials start?”

“Anytime, I just called to talk to you first, we are preparing for the synthesis of the drug right now.” Kang Yuan said excitedly, “Boss, according to the preliminary deduction, after the alternative ingredients we found are synthesized into the medicine, there shouldn’t be any safety problems, and although the efficacy is not as good as that prescription you gave, boss, the effect is definitely much better than the similar products on the market!”

“Good!”

Ji Feng also nodded happily, “Then I’ll go over there now, and if it’s really successful, we’ll have a celebration party for all the staff of your lab this evening!”

Pop!

Hanging up the phone, Ji Feng laughed: “Yu Xuan, Lei Lei, the substitute for the slimming pill should be out, Kang Yuan has succeeded I’m going to go to the pharmaceutical factory now, are you guys going?”

“I won’t go, I don’t understand this kind of thing either Sister Yu Xuan, are you going?” Tong Lei asked in a brittle voice.

Xiao Yuxuan also shook her head.

Ji Feng laughed: “Well then, since none of you are willing to go, then I’ll go and enjoy this pleasure alone!”

Chapter 693

“Boss, this is what I call a substitute for Slimming Pill No. 53.”

In the laboratory of the Tengfei Pharmaceutical Branch, Kang Yuan pointed to a small bottle of white powder on the test bench and said excitedly, “According to the analysis of the ingredients and medicinal properties in it, this medicine can completely replace some of the functions of No. 53 Slimming Pill, only that there is still more or less a gap between it and No. 53 Slimming Pill in real terms.”

Ji Feng laughed: “Auntie, you can just call me Xiao Feng directly, don’t ever call me boss, I can’t afford it!”

“How can that work!” Kang Yuan waved his hand and said, “This is a company, not a home, you can’t call it that, otherwise, it would be chaos?”

Ji Feng then nodded with a bitter smile, he had seen Kang Yuan’s stubbornness before and naturally knew that if he argued with him on such an issue, then I was afraid that there would be no result even if he argued until nightfall. So on this issue, Ji Feng wisely chose to back off.

“Well, auntie, this substitute is almost exactly the same in terms of slimming compared to slimming pill 53, both of them can make fat get burned and release energy, making the body slimmer. And there is no harm to the body, it can be completely said to be a harmless medicine.” Kang Yuan said excitedly, “It’s just that after the fat is burned, the two drugs work a little differently.”

“How is it different?” Ji Feng immediately asked.

He had to understand clearly what the characteristics of this new drug that had come out were, although in the domestic health care market, the drug market, were all chaotic and shocking, but Ji Feng did not want to be one of them.

What he wanted to do was a truly harmless product, only then could he live up to his conscience!

If he wanted to hide his secret and make people take harmful drugs, then he would rather not do this, or just produce Slim Pill 53, even if it was exposed, it was still better than endangering other people.

The ancient people of the martial arts world, the people who endangered the jianghu became great devils, became scum, in fact, in Ji Feng’s opinion, anyone who endangers others is scum, is a great devil!

“Slim Pill No. 53, after the fat is burned, will make the energy burned in it can be converted into its own energy and stored, which can be used to nourish the body, making one’s body stronger.” Kang Yuan explained in detail, “However, this substitute that we have developed will only allow this energy to be excreted from the body in other ways after the fat has been burned

In other words, after taking Slim 53, the person’s body will lose weight, but the body will be stronger instead. However, if we take this substitute, the person will also lose weight, but the person will not be stronger, and if we take too much, it may also make the person slightly weaker, and this is the biggest disadvantage of the substitute.”

“So that’s how it is

Ji Feng nodded slightly and pondered for a moment before saying, “That is to say, this substitute that we have developed will not be harmful to the human body if taken normally, but if taken in excess, then it will make a person weakened, is that right?”

“That’s right!” Kang Yuan nodded and said.

“Is there really no effect at all?” Ji Feng frowned and asked, “A substitute is a substitute after all, it can’t have no effect at all, right? As the saying goes, there are three poisons in a medicine, no medicine is completely harmless, unless the raw material used to synthesize the medicine itself is an absolutely harmless raw material, but I think, on this earth of ours, I’m afraid no such raw material exists yet, right?”

Kang Yuan shook his head slightly and said, “Boss, in fact, not to mention our alternatives, just that prescription you gave alone, which is Slimming Pill No. 53, is harmful to the human body from the principle. After all, it’s forced fat burning, which will definitely be harmful. So, not to mention the alternatives we have developed.”

“Since that’s the case, then you’re still saying it’s completely harmless?” Ji Feng was immediately a little upset, “Aunt father, it doesn’t matter if there are problems with the product, it’s perfectly fine for us not

to produce it if there are problems. It's not a matter of life and death whether we make more or less money, it's only important whether we will cause harm to others! So on this point, you can't lie to me!"

Kang Yuan's face suddenly broke into a smile, "Boss, do you know why I've been staying here to follow you?"

"Why?!" Ji Feng asked.

"Just because you have always insisted on making drugs that are harmless to humans, unlike those black-hearted guys who do even poison as long as they can make money, that's why I'm willing to stay!" Kang Yuan said with a smile.

"I'm just acting according to my conscience." Ji Feng waved his hand.

Kang Yuan laughed: "Boss, in fact, the hardest thing for people to grasp is their conscience, because this kind of thing can easily be ignored by its owner."

Ji Feng lost his smile and couldn't help nodding, but he couldn't imagine that Kang Yuan, a wooden intellectual and pure technician, could actually say this

"What the boss said is right." Kang Yuan suddenly said, "Whether it's Slimming Pill No. 53 or this new alternative we've developed, it's harmful to the human body. Forcibly burning fat will definitely damage the human body's health. However, boss, you may have forgotten that the human body is actually a very wonderful thing, so wonderful that it is unbelievable. Those seemingly harmful factors, on the contrary, become less harmful after the human body takes them."

"What does that mean?" Ji Feng wondered.

Kang Yuan explained, "Boss, you should know that everyone's body has the ability to purify itself, just like a person's body has antibodies, so if a virus invades, is it harmful to the human body? But just because of the antibodies, it makes the human body not be affected at all!"

"You mean to say that 53 slimming pills and the substitutes we developed, although they seem harmful, after reaching the human body, they are self-cleaned by the body, so the final result is that they are not harmful to the human body at all, is that what you mean?" Ji Feng immediately understood Kang Yuan's words and couldn't help but ask.

"That's right, that's what it means!"

Kang Yuan immediately nodded and said, "When the virus invades, it is protected by antibodies, and after a battle, the antibodies will eventually win. The drug we developed, on the other hand, will cause harm to the human body while forcibly burning the body fat. However, the energy generated from burning fat will compensate for this harm done to the human body, so the end result, is harmless!"

"So that's how it is" Ji Feng suddenly dawned on him and couldn't help but reveal a satisfied smile, "Not bad, this is good!"

"Boss, in fact, the biggest difference between the 53 slimming pill and the substitute we developed is that the energy produced by burning fat in the former can be absorbed by the human body in its entirety, so that it not only replenishes the damage done to the human body, but also strengthens it. The latter, on the other hand, can only barely compensate for the damage that the human body has

suffered, and the rest of the energy, will all be expelled from the body, and this is the biggest difference between the two!” Kang Yuan said.

“It’s good that it’s not harmful, it’s good that it’s not harmful!” Ji Feng nodded happily and said, “That’s good!”

“The boss has always insisted on making drugs that are harmless to humans, so how dare these people underneath us mess around?” Kang Yuan laughed, “There is a saying that the top beam is not right and the bottom beam is crooked, but in my opinion, we call this, if the top acts right, the bottom will stand straight!”

Ji Feng laughed, “Aunt father, you are patting yourself on the back, that’s not good.”

The two of them burst out laughing.

A moment later, Ji Feng asked again, “Aunt father, now that the drug has been developed, when can we conduct clinical trials?”

“Actually, clinical trials can be conducted now so that data can be collected.” Kang Yuan smiled, “The test is also very simple and convenient, it only needs to be divided into two steps, the first step is to buy some pigs and test it on their bodies, after making sure there are no problems, then the clinical trial can be conducted.”

“How long will it take to market?” Ji Feng asked.

“As long as the boss runs the various formalities and then applies for a patent, it can be marketed anytime!” Kang Yuan said.

“So soon?” Ji Feng was taken aback, “Didn’t they say that a drug would take at least a few years of testing from development to market? Aren’t we being a bit too hasty here?”

“You can’t say that, because you’ve already given various experimental data of the 53 slimming drug before, which helped us a lot, the substitute is off the 53 slimming drug, as long as we compare the experimental data of the two drugs, and then calculate the usage, dosage and a few other aspects that need attention, the rest won’t have any problems!”

Kang Yuan laughed, “Boss, don’t worry, I’m not going to joke with my head. If anything goes wrong, can I still live?”

Ji Feng nodded thoughtfully and said, “How about this, you guys conduct clinical trials first, tell me what you need, and when everything is ripe, then decide on the market.”

“Boss, I do have something I really need your help with, it’s the issue of choosing the hospital for the clinical trial!”

Kang Yuan said, “Generally speaking, pharmaceutical manufacturers will have their own laboratories, looking for the kind of people who are willing to test drugs, or cooperate with certain large hospitals, but, we are not qualified to recruit test drug people, or cooperate with any hospitals, to conduct clinical trials, is it some more or less still a bit difficult!”

Ji Feng was stunned, and then laughed: “This problem is good to solve, just leave it to me.”

This is indeed not a problem, not to mention that now that the Tengfei Pharmaceutical General Factory is cooperating with the Tian Yao Group, there is no telling how many hospitals want to get a foot in the door, just this brand of the Tengfei Pharmaceutical Factory alone is enough to find many hospitals to cooperate with.

What's more, Ji Feng also knows that everything should not be eaten alone, cooperating with hospitals can also solve a lot of trouble, this point even if Kang Yuan does not say, Ji Feng also plans to do so.

Because the promotion of alternatives has to start from the hospital first!

Chapter 694

"Boss, give our replacement a name first." Kang Yuan laughed.

"You're really confident." Ji Feng smiled faintly, "This is not even a clinical trial, and you think it must have passed? Oh Also, let's call it Kang Yuan Slimming Pill, or Antigen Slimming Capsules or something like that."

"Boss, this" Kang Yuan how did not expect that Ji Feng would actually use his name to name the slimming pill, he is very clear, once this slimming pill to the market, as long as the promotion is effective, that the sales of the hot, absolutely will not be the general health care slimming pill can be compared.

It is definitely a great honor to be able to name it after yourself.

Seeing Kang Yuan's excited look, Ji Feng couldn't help but smile, "Aunt father, this drug was developed by your hard work, it's only natural and right to call it by this name!"

"Good, good!" Kang Yuan nodded repeatedly, "This drug is most suitable to be made into a powder and washed down, call it Kang Yuan Slimming Powder, what do you think?"

"Mm, no problem!" Ji Feng smiled and nodded, to be able to use the name of a drug to make Kang Yuan, an expert, die, he couldn't ask for more!

"That's all for now, auntie, you've done a great job, but you've helped me a lot." Ji Feng said seriously, "Aunt, I decided, to give you 10% of the dry shares, I mean this pharmaceutical branch where we are, although this 10% of dry shares is very little, but after all, it is also a little bit of my heart"

This is the idea that Ji Feng has long had, to give all the main department heads, as long as they are sincerely working for the pharmaceutical plant, will give dry shares, only to tie them together, there will be enough energy to burst out, the pharmaceutical plant will grow stronger and stronger.

Who knows, but Kang Yuan shook his head repeatedly and said, "No, no, no, boss, you mustn't do that, the salary I get now is already high enough, I can't ask for more dry shares."

"Auntie, don't push back, Auntie Hong needs money there too, so does the family, the consumption in Jiangzhou is so high, your little salary may not be enough." Ji Feng waved his hand with a smile and said, "Besides, you deserve this, to be able to develop a replacement for Slim Pill 53 in such a short time, you deserve a lot of credit!"

Kang Yuan was about to speak when Ji Feng waved his hand, "It's settled! Auntie, you now hurry up with the clinical trials, and I'll contact the hospitals for cooperation."

Kang Yuan could only nod his head, but his heart was incomparably grateful.

“Let’s go.” Ji Feng said with a smile.

“The few brats in this Ji family, only Ji Feng and his brothers are more affectionate ah. Those brats from the side line” Watching Ji Feng drive away, Kang Yuan couldn’t help but secretly say something and slightly shake his head. Thinking about those things he experienced in the past, he smiled to himself.

.....

Because the work was in Jiangzhou, with the help of Ji Feng, Kang Yuan’s wife Ji Yinhong and two children came to Jiangzhou, and the period of time they came to Jiangzhou was the happiest they had ever been.

No one sneered at them anymore, and no one deliberately bullied their two children, which all made them extremely content.

Now, Ji Feng had given Kang Yuan 10% of the shares, although the formalities had not yet been completed, but naturally, Ji Feng would not go back on what he had said, and Kang Yuan felt happy in his heart.

At night, Kang Yuan went home from work. His home was in the staff dormitory of the pharmaceutical factory. Although the house was a bit old, it was very comfortable to live in and very quiet, and Kang Yuan’s family all liked it very much.

“Old Kang, why did you make it so late again, you leave early and come home late like this every day, is your work that busy?” When Kang Yuan returned home, it was almost ten o’clock, Ji Yinhong was bringing her husband’s food out of the pot while she was a little uncomfortable in her heart, “Little Feng is really the same, if he is not happy to take you in, he could have told me explicitly, why keep you so busy, this is not taking people for granted!”

“What are you talking about!”

Kang Yuan instantly glared, “Have you forgotten what kind of life we used to lead? To be able to come to Jiangzhou and have a job with a decent salary, a stable income, and have your children’s household registration and schooling procedures all sorted out, what don’t you have to be satisfied with?”

Ji Yinhong was also a bit embarrassed and said, “I’m just worried about your health, you go out every day at five or six in the morning and come back at eleven or twelve at night, even an iron body can’t take it. Did Ji Feng make you work so much overtime every day?”

“It’s voluntary, Ji Feng often doesn’t come to the pharmaceutical factory for a few days, where does he know what it’s like when I’m at work?” Kang Yuan said, “He helped me find a job, and Shao Lei also found you a job with a low salary, so what else do you have to complain about?”

“Then you can’t work so hard, don’t you want to lose your body?” Ji Yinhong complained.

“This is a critical period, we are in the clinical trial stage of a new drug, when the trial is finished, my work will be easier.” Kang Yuan laughed, “Didn’t I explain this to you long ago?”

“Ugh!”

Kang Yuan laughed, "It will be ready soon."

"Hurry up and finish it." Ji Yinhong said, "Tomorrow I'll also talk to Ji Feng and ask him to find a few more people to help you share the work, you can't just be the only one busy!"

"That's fine, go find him, ask him to help find someone to share the work for me" Kang Yuan grunted, "In that case, my 10% of the dry shares will have to be shared with others as well!"

"What?!" Ji Yinhong was instantly shocked, "Old Kang, what did you just say!"

"I just said that Ji Feng just saw me working hard and gave me 10% of the dry shares of the pharmaceutical branch, and you're going to share this with others?" Although Kang Yuan was mute, he was not stupid, otherwise, he would not have achieved a certain level of success in the field of medicine.

"Of course not!" Ji Yinhong said immediately, and immediately smiled with her eyebrows, saying, "So Little Feng is still good, knowing that you've worked hard, well, we haven't misjudged anyone"

"Now you're not going to go and settle accounts with him?" Kang Yuan asked.

"No go no go, people are so kind, how can we still go to him? That's not making ourselves look bad!" Ji Yinhong said with a smile on her face, "Old Kang, you're really the same, Ji Feng gave you 10% of the shares, then you should have told me earlier, although our family can still afford to eat and wear, but we are living in a tight situation, the consumption in Jiangzhou is really too high, now with this 10% of the shares, it will be much better!"

Although Ji Yinhong didn't know how much the 10% of the shares were worth, she should have known just by thinking about the scale of the pharmaceutical factory that the 10% of shares must be worth a lot of money, and she was extremely satisfied.

Seeing his wife's happy face, Kang Yuan could not help but smile and shake his head.

He knew very well that although his wife was kind-hearted and honest and modest, she had a high regard for money, which was probably due to the hardships of her life in the past, making her the way she was now.

Thinking about the old days, it was really hard for her!

Kang Yuan's heart couldn't help but be grateful to Ji Feng, if Ji Feng hadn't given her a lift, her family might still be living in hardship now.

Ji Yinhong's happy look made Kang Yuan die even more to Ji Feng.

Technicians and intellectuals like them didn't think too highly of money, but if they knew how precious it was, coupled with their straightforward and simple character, they would definitely know how to repay the favour.

Such is the case with Kang Yuan!

.....

Ji Feng, however, did not know how fruitful his move to buy hearts would be.

Since that day, Kang Yuan worked as if he was playing with his life, just doing tests on pigs, he did seven to eight hundred heads in a row, the cost on this amounted to nearly one hundred thousand.

At that time, Ji Feng was not too distressed about the money, but he was curious as to why many of the tests were done on pigs and not on other animals such as mice.

Ji Feng's curiosity was satisfied by Kang Yuan's answer. It turned out that, according to Kang Yuan, among all the animals, the one that was most similar to humans in terms of physiology was not primates like monkeys or gorillas, but pigs!

This answer was more or less ironic, making Ji Feng laugh dumbly.

When many people scolded others, they liked to use pigs as a metaphor, belittling them as worthless, or even synonymous with filth, stupidity and laziness.

For example, "You're as dumb as a pig."

"You're as lazy as a pig."

"You sleep when you're full, you're just a pig!"

.....

There are countless examples like this, but surprisingly few people know that pigs are actually the most similar to humans in terms of physiology, which is true

However, this answer, which is full of irony, is just a hiccup in the process of clinical trials of KangYuan Slimming Powder. After the clinical trials were done on pigs, KangYuan came to a conclusion after comparing the data of KangYuan Slimming Powder with that of Slimming Pill No. 53.

— The efficacy of KangYuan Slimming Powder was exactly as expected!

In other words, Kang Yuan Slimming Powder is really harmless to the human body!

However, for the sake of safety, Ji Feng still felt that he had to try it out in the clinic for a period of time to ensure that no problems would arise before it could really be put on the market.

The chaos of the domestic health care market is really a big headache to mention, in fact, not only the health care market, those food and medicine, as well as some other products, but anything that involves the human body, are simply unsightly.

The people are so exhausted by these things that they don't even know who to trust.

At this point in time, if something goes wrong, the brand will be absolutely devastated, unless someone from above is deliberately covering it up.

Chapter 695

Therefore, Ji Feng must ensure that Kang Yuan slimming powder after the market, absolutely can not have any problems, not a single problem.

And to have such a guarantee, it is necessary to do experiments, clinical trials or data comparisons, over and over again before the interview, and each time without the slightest carelessness.

In fact, now Ji Feng is not in a hurry at all.

The actual fact is that you can find a lot of people who have been in the business for a long time.

In the process of waiting for the clinical trial results of Kang Yuan slimming powder, Ji Feng is more concerned about the progress of the white spider, who is hiding in the United University as a teacher, and Xiang Yong Zhan.

The actual fact is that this woman's existence is always a problem, and to get rid of it, Ji Feng would really like to.

However, this woman seems to have forgotten the purpose of her visit to the United University, and she is just doing her job as a teacher, and other than that, she doesn't seem to be moving at all.

However, Ji Feng knew that the more normal it seemed, the more abnormal it was.

Bai Spider, the woman who was suspected to be the leader of Western Xia, must be waiting for the right opportunity or making some kind of plan, which was not a good sign.

What made Ji Feng even more startled was still a piece of news that Xiao Yuxuan told him.

"Ji Feng, today the white spider suddenly came to see me." Xiao Yuxuan suddenly said.

Squeak-!

Ji Feng, who was driving, suddenly braked sharply, and he turned his head in shock to look at Xiao Yuxuan, who was sitting in the back seat, and said with incomparable surprise, "Yuxuan, what did you just say?"

"Today, the white spider came to my office to look for me." Xiao Yuxuan pursed her lips and laughed, "Nervous, right?"

"Nonsense!"

Ji Feng said in an unpleasant manner, "A female devil went to look for you, can I not be nervous? Hurry up and tell me, what is she looking for you for, do you sense that kind of danger again?"

Xiao Yuxuan giggled, "I'm happy to see you so nervous."

A few black lines sprang up on Ji Feng's forehead, and he glared at her with no good grace, "This is what time it is, you are actually still thinking about these"

"Then you don't know oh, the issues that girls and boys are concerned about are actually different" Xiao Yuxuan blinked, her beautiful eyes filled with laughter, "Lei Lei, am I right?"

"Mm!" Tong Lei nodded her head vigorously.

The two women looked at each other and smiled heartily at the same time.

In reality, whether it was Xiao Yuxuan or Tong Lei, they were both the most traditional of women. To them, their men were the sky, and they lived under the blue sky, relying on their men for survival.

They give their hearts to their men and will not change their minds.

However, they want to get more care from their men.

It was for this reason that Xiao Yuxuan was asking Ji Feng like this now, for her, even the smallest detail was enough to move her.

Ji Feng couldn't help but rub his forehead and said helplessly, "Could it be that you still don't understand my feelings for you guys?"

"Of course I understand, but I still want to hear you say it, giggle" Xiao Yuxuan smiled flirtatiously and pursed her lips, "Want to know exactly why White Spider is looking for me today?"

Looking at Xiao Yuxuan's little daughter posture, the softest part of Ji Feng's heart couldn't help but be touched as he laughed lightly, "No matter why she's looking for you, I won't let you guys get hurt, not at all."

"Come on, talk so fleshy, Little Shadow is laughing at you." Xiao Yuxuan's pretty face was slightly red, although her heart was sweet, she was still more or less embarrassed with Little Shadow in the car.

Ji Feng turned his head to look at Xiao Ying, who was sitting on the passenger seat, and immediately laughed, "Xiao Ying, you won't laugh at us, right?"

Little Shadow pursed her lips and shook her head, saying, "No, Little Chief."

"See?" Ji Feng smiled smugly.

Xiao Yuxuan couldn't help but give him a white look and said, "Come on, getting cocky again. To tell you the truth, the white spider invited me to go shopping together over the weekend."

"Shopping?"

Ji Feng instantly frowned, "You promised her?"

"What can I do if I don't say yes?" Xiao Yuxuan said helplessly, "This woman is really too eloquent, she said that I didn't go to the last gathering, the whole professional teachers are just a stranger to me, asking me if she is not welcome" I really couldn't talk her out of it, and there were other teachers in the office, so I couldn't push back and had to agree to it."

Ji Feng sneered: "This woman is really not dead set on it na, in that case, you should just tell her that you have something to do over the weekend, and if she wants to do something with you, ask her

"Come to the house?" Xiao Yuxuan was stunned, "Didn't you say, she's not a good person? Bringing this kind of person to the house, isn't this like leading a wolf into the house, that's not very good, right?"

Ji Feng chuckled, "Maybe she wouldn't dare to come?"

"I think" If I really say it, she should come." Xiao Yuxuan said hesitantly, "This woman doesn't know if she's doing it on purpose or if she's really slow to react, I've said very clearly that I have something for the weekend, but she still pestered, as if she couldn't understand, and kept talking to me."

Ji Feng laughed: "If she's also stupid, then there really aren't many smart people in this world. The more she does this, the more she wants to get close to you You're right, if you really dare to invite, she'll really dare to come."

"Yes oh, those guard devices in our house, maybe she'll be interested too." Tong Lei said from the side.

Ji Feng nodded slightly and said, "Maybe she's really waiting for Yu Xuan to invite her right now Well then, Yu Xuan, why don't you just invite her to your home, people have come all the way here, how can we also show a little welcome!"

"Really invite?" The first thing you should do is to invite her. Didn't you say before that those people have some kind of biological bombs in their bodies? In case it explodes in our house, we won't be able to get away from anyone then."

"That's true!"

Ji Feng rubbed his eyes, restarted the car and deliberated, "But if we don't get close to her, there's no way to know her goals and plans, and getting close to her, yet it's dangerous, it's really troublesome"

All the way home, Ji Feng still hadn't come up with a suitable solution, and now the white spider had started to make some moves, but Ji Feng didn't expect that her first move would actually be to find Xiao Yuxuan directly, which caused Ji Feng to be in a dilemma.

When he returned home, Ji Feng parked his car in the garage, then he directly dialed Xiang Yongzhan's phone number, but listening to the busy tone coming from the phone, he couldn't help but coldly snort, "Bastard, it's been more than a month and there's actually no progress at all, now he's not even turning on the phone!"

For Xiang Yongzhan's efficiency, Ji Feng was extremely dissatisfied, it was just a few people to investigate, but it actually took so much time, and he said that the intelligence department was not a vegetarian, it was all bullshit!

After thinking about it, Ji Feng directly dialed his second brother Ji Shaolei's phone number again.

"Third son, are you waiting anxiously?" As soon as Ji Shaolei received Ji Feng's call, he knew that this kid must be waiting impatiently.

Ji Feng's eyebrows were raised and he couldn't help but say, "Second brother, you also know I'll be waiting impatiently, you guys are just checking a few people, it's been more than a month and there's actually no news at all My side of the white spider but already started to take action, I do not have so much energy to play with her, if you guys do not have news again, then I can use my own method to solve this matter."

"Don't!" Ji Shaolei was instantly anxious, "San'er, you must not be impulsive, this matter is not as simple as you think, there are too many people involved, exactly what the situation is, I'm not too sure, but from the few people I know who are involved, to put it mildly that's a figure who is often in the news"

Ji Feng hummed: "How did I get into such a mess!"

“Who let you end people’s lair, it’s strange that they don’t seek revenge on you.” Ji Shaolei laughed, “Wait a bit longer, there is no news from this side yet, your second uncle also won’t let me get involved in this matter, now it’s all Little Uncle and the Xiang family boss who are busy, I believe that when there is news, Little Uncle will definitely tell you.”

“What if the White Spider takes any excessive action?” Ji Feng asked with a frown.

“If it really doesn’t work, of course, we should ensure your safety first before we can talk about other issues This is even if we talk about where, no one can say anything.” Ji Shaolei immediately said in a decisive manner, “Your safety is more important than anything else, remember?”

“Then let’s leave it at that for now!” Ji Feng said helplessly.

“San’er, don’t worry, I believe there will be results soon, wait a little longer!” Ji Shaolei said comfortingly.

Ji Feng nodded with a bitter smile before hanging up the phone and pacing slightly in the courtyard, secretly deliberating, “This White Spider, according to reason, if she is really the head of the West Xia branch of the dynasty and wants to come here to seek revenge on me, she shouldn’t keep approaching Yu Xuan.”

In Ji Feng’s opinion, since the white spider had been following him all along, then she should know where she lived and just come directly if she wanted to take revenge, so why did she need to play so many tricks?

“Hiss...!” Ji Feng suddenly stopped in his tracks and a light flashed in his mind, “This White Spider, does she just want to get close to Yu Xuan, or rather, she just wants to come close to herself, but, she doesn’t want to take revenge?”

“What’s all this nonsense thinking!”

Ji Feng felt that he couldn’t think of a clue even if he was thinking about it until dawn, so he just stopped thinking about it, the big deal was that the soldiers would come and go, that’s all!

Chapter 696

At 2am, it is late in the morning and even those who are used to the nightlife are already planning to go back to bed at this time. Only in some entertainment venues are the red men and women still swaying and dancing wildly, or the young men and women who have not yet found their preferred hunting partners and refuse to leave so easily, still looking around for the best person to relieve their loneliness.

On the streets of Jiangzhou, apart from the flashing neon lights and the cars that whiz by from time to time, it is hard to find anyone else.

There is no longer the hustle and bustle of the daytime in the vast city of Jiangzhou, only the silence of the late night.

All the teaching and dormitory buildings have their lights out, except for a few searchlights on the side of the road, which are still sweeping by from time to time.

The security section at the entrance of the university was also lit up, but there seemed to be no one inside, and on the beds in the security lounge there were two men wrapped up tightly in quilts – both guards were sleeping.

No one noticed that just around the corner of a fence not far from the Security Section, three dark figures were leaping quickly into the fence and disappearing in a flash into the woods by the fence.

These three black shadows seemed to be very familiar with the terrain of the school, they didn't even pause for a moment, they just followed the paths in the school directly, specially picking the kind of paths that were interspersed with lush trees, so that even if someone passed by, they would never see them.

When they crossed the path and came under the school building, they suddenly became cautious because the lights near the building were much stronger, especially the several searchlights that shone through from time to time, making the rows of school buildings almost no place for people to hide.

However, the three black shadows seemed to be very familiar with the pattern of the searchlights, and they took advantage of the light of the searchlights to sweep by before moving forward quickly, their bodies hidden in the darkness all the time, without the slightest flaw!

These three black shadows passed through the school building and entered the living area of the United University, where student dormitories, staff flats, senior citizen activity centres and other buildings are located.

And looking at the target of those three black shadows, it was obvious that they were heading straight for the faculty and staff flats.

In this living area, because there were many teachers at the university, and the university was also concerned about the accommodation conditions of the staff, and often raised funds to build houses, there were more than a dozen staff flats here.

If one were new to this area, one might not be able to find a certain place prepared, not to mention at night, even in broad daylight. But these three black shadows were different. These three went straight to one of the moving faculty flats, dodging the searchlight headlights several times and thus disappearing into the dark corridor.

"There are three stairway entrances to this building, you two go to the entrances on each side in case the woman senses in advance that she will choose to escape" One of the dark shadows lowered his voice and said, "I'll go up alone, you two guard the entrances to ensure that absolutely nothing happens."

"Yes!" The other two immediately nodded and then ran to the stairs at each end of the flat.

In the darkness of the night, a dark figure clung to the wall and stepped on the stairs with both feet, going up silently.

However, the next moment, suddenly another black shadow flashed next to it, and in a flash, an incomparably blindingly bright light suddenly shone through.

Swish!

The black shadow who was going upstairs hurriedly used his hand to shield his eyes, if he was suddenly illuminated by the bright light in this dark night, his eyes might be a green light for a few minutes, and it would be just like being blind.

However, the man on the opposite side seemed to be waiting for just the right opportunity, a weapon appeared in this man's hand at some point and suddenly smashed into the back of the former's head.

Bang!

The dark figure who was on his way up the stairs, couldn't even dodge in time, and just fell head first to the ground, fainting to death.

"Tsk" The remaining black shadow couldn't help but mutter, "This is the so-called advanced reformer? It's not that great What a disappointment!"

At the same time, the black shadow at the entrance at the other end of the flat was also subjected to the same attack.

However, this man was not sneered at by his opponent, for after knocking him unconscious, his opponent quickly tied him up with a rope that he found somewhere, and then rushed straight upstairs.

At the other end, a man likewise rushed upstairs

.....

In the darkness of the night, the white spider lying in bed, her cicada swaying from side to side, through the light shining through the cracks in the curtains, could vaguely see that her face was very pale, her forehead was covered with sweat, and a look of panic appeared on her face from time to time, it was obvious that she was in a nightmare!

In the dream, the white spider seemed to dream about her past.

That miserable childhood, the happy life in the orphanage, and later being bought out only to be sold again

The horrible devil training, the helplessness and sadness of being controlled

Those past events, which she originally did not want to remember, surfaced in her mind one after another, causing her to struggle in her sleep, as if she wanted to escape.

Snap!

A slight clang sounded outside the door.

Swish!

The white spider strip

She did not wear shoes, but walked barefoot on the ground.

If she wore shoes it would be easy to make a noise, bare feet made the least noise.

As far as the White Spider knew, there were several top assassins in the international arena who always went barefoot when carrying out assassinations because it was the least likely to alert the target.

The Vicious Beauty Snake Killer preferred to use this method, after emptying the target's body, and then use this method to kill, almost without fail, unless the target was on guard!

The white spider walked silently to the door and looked out through the cat's eye on the door.

Although it was dark, the room was far darker than the outside, so although the White Spider could not see the outside clearly, she could see a shadow of a figure shifting outside the door.

Someone was really here!

The white spider sneered in his heart, if he wanted to kill himself like this, he might as well just detonate the biological bomb inside him. It's not that easy to kill yourself head on!

Knock!

The sound of the spring beating in the lock was so crisp that the White Spider's eyes instantly glowed.

The door was gradually opened, but the White Spider did not move, except that the dagger in his hand was slowly raised, ready to strike at any moment.

The figure outside the door seemed to be unaware that danger had descended, and the figure slowly walked in.

Swish!

The pitch-black dagger with a hint of blue light stabbed down violently.

"Poof!" With a sound, the dagger struck the other side with lightning speed.

However, the white spider was shocked, because the moment the dagger struck the other party, she suddenly felt as if it had struck a steel plate, and no matter how hard she tried, she could not stab deeper.

— The dagger couldn't hurt the other party at all!

"Advanced Transformer?!" The white spider exclaimed in shock at once. Subconsciously, she jerked back, the incoming person was definitely an Advanced Transformer, and this was definitely not something a dagger would be able to deal with.

"Supervisor Black really has good eyesight, it's just a pity that you're about to die." The man outside the door laughed heatedly and walked in with big strides.

This man was dressed very oddly, it was not even winter yet and he was wearing a long overcoat with gloves on his hands, a hat on his head and a mask on his face, wrapping himself up so tightly that apart from a pair of eyes, no other skin could be seen.

The white spider's heart flinched and he said in a cold voice, "I'm afraid it's not that easy for you to kill me!"

“It seems that Supervisor Black is quite confident in his own body, then.” The man said in a low voice, “Supervisor Black used to be the head of the Western Xia branch, so I guess he should know something about high ranking warriors like us, you are no match for me! So I advise you, it’s best not to resist”

Snap!

As he spoke, the man had already walked in, he casually pressed the switch at the door, and the lights in the room lit up at once.

The white spider subconsciously squinted her eyes slightly, but did not close them completely.

She knew very well that once she closed her eyes, then it would be her time to die. This fellow opposite her was no kind man or woman.

“Aren’t you advanced reformers, you haven’t completely succeeded yet? How dare they let you out?” The White Spider asked in a deep voice as she tried to think of a way to stall for time.

The White Spider holding the dagger was simply like a black widow in the tropical jungle, ruthless and terrifying, but the overwhelming attack just now had not caused the other party any half damage at all, and the White Spider then immediately realised that the two sides’ defences were simply not on the same level.

If she hit her opponent countless times, it would probably be in vain, but if she let him hit her once, she would definitely be the one to die!

So she had to find a way to stall for time in order to find a suitable solution.

“It didn’t work completely, but it was enough to deal with you.” The man on the other side smiled grimly and then closed the door behind him, making the room closed again, “Supervisor Black, put down the dagger in your hand and I will give you a painful, You’re a teacher now, you can’t just drag others into it, don’t you think?”

“Are you so sure of killing me?” The white spider sneered, “Don’t forget, I still have a biological bomb in my body, big deal, we’ll die together!”

“Oh”

The man on the other side of the table took another step forward and snickered, “Supervisor Black, do you know what a biological bomb is? A biological bomb is detonated not by those broken remote controls, but by a change in your physical condition, which should not be unfamiliar to you, right? And yet, you can’t detonate it yourself, Am I right?”

White Spider’s heart was sinking, this advanced transformer was far more powerful than she had imagined, and it looked like she was in for a bad day.

However, her mouth sneered, “In that case, I’m dead today?”

“That’s not necessarily true, if you know how to cooperate, you might not have to die either” The man across the table said with a heated smile, meaningfully, “The key, depends on how you cooperate”

chapter 697

“Oh?”

The white spider sneered, “How do you want me to cooperate?”

The man looked at White Spider, who was wearing a translucent silk nightgown, with a strong look of greedy lust in his eyes, and a pair of slightly scarlet eyes, staring deadly at White Spider’s pair of high peaks, as well as the two hidden snow-white and slender legs.

He jerked a step forward and laughed heatedly, “Ever since I became a warrior, I have never had a normal life, which makes me angry and long for it, but my body does not allow me to do that

As the man spoke, he was already about to come in front of the white spider, who immediately took a step back warily, the dagger in her hand gripped tightly. At the same time, she sneered, “You can also be called a warrior? A reformer is a reformer, no matter how much you disguise it, you are still a reformer and will never be a warrior!”

“Call it what you like, but I like the name warrior, reformer

The man laughed heatedly and began to take his coat off, “All of this, was changed when I became a senior warrior, after being called a senior warrior, I became a real man again, all the parts you normal humans should have, I have all of them, and moreover, much more powerful than a normal man!”

The white spider’s face instantly changed, of course she understood what the other party meant by that, this bastard, even wanted to talk to her

“You bastard!” White Spider sneered, “Dream on!”

“No, no, no!”

The man raised his index finger and wiggled it, “I’m not dreaming, you’re already under my control, there’s no possibility of resistance

As he spoke, he continued to take off a pair, his jacket had been removed, leaving his upper body with only a shirt.

“Supervisor Black, you must not be afraid, you should hold an attitude of enjoyment, otherwise, in the end, it will be you who suffers!” The man laughed harshly and took off his own shirt as well.

The white spider was shocked!

Not because of the man’s actions, but because of, the other man’s body!

In the White Spider’s sight, the man was topless, and shockingly, his body, was so odd!

Where was this a human body, it was clearly a complete monster!

This man’s flesh and skin, which was completely different from a normal person, appeared so loose and drooped downwards, completely out of sync with his body’s movements.

It was as if Inside this skin, there was another person who was wearing this skin directly as if it were clothes!

That's right, it was this weird feeling, his flesh and bones seemed to be completely separated seemingly, not at all like a normal person's flesh and blood meridians were connected, it was just too bizarre.

"Please put away your eyes, I hate it when you stare like that!" The man was furious when he saw the shocked look on the white spider's face, he roared lowly, "Supervisor Black, if you don't want to die right now, then cooperate honestly and immediately, I believe I will make you feel good to the limit"

The white spider sneered and asked, "It's all this flesh and skin on your body that blocked my dagger?"

"Of course!" The man replied smugly.

"But, I heard that you advanced transformers, don't you look like normal people? How come your" White Spider asked with a twinkle in her eyes.

"Hmph, that's a low level warrior you're talking about, how can they be compared to our high level warriors!" The man suddenly said proudly, "Only low level warriors, have the same flesh and blood as normal people, how can that kind of flesh and blood block a fierce attack?!"

"That said, I do prefer those low level transformers, because at least they still look like human beings, but you You can no longer be considered a human, only a monster!" The white spider looked at him with pity, "What's the point of living when you don't even have a normal skin?"

"Nonsense!"

The man said angrily, "The organization's technology is advancing at a rapid pace, in a short time, we will have flesh and blood that looks like normal human beings, but in reality, that kind of flesh and blood is something that even bullets can't pierce!"

"So, this skin and flesh you have now, still can't stop bullets?" The White Spider asked.

"Who says it can't, it's just that" The man said this and was startled, then he laughed and said, "Cut the crap, my clothes have been taken off, now it's your turn, do you want to take them off yourself or do I have to do it?!"

"You'd better go to hell to take them off!" The white spider sneered, not knowing when there was a pistol in her hand, the black muzzle pointed right at the horrible reformer, "I'd like to see if this stinking skin of yours can stop the bullets!"

As she spoke, she pulled the trigger violently.

Bang, bang, bang, bang!

Three shots in a row, three bullets headed straight for the other party's face, chest and throat.

Anyone familiar with Black Widow knew that she was very terrifying when she was holding a dagger, but no one knew that she was actually even more terrifying when she was holding a gun!

However, the next moment, the white spider was instantly chilled as she jerked forward

“Heh heh” The man stuck out his scarlet tongue and licked it over his loose and wrinkled lips, his eyes staring greedily at the white spider, “Don’t waste your strength, you won’t be able to kill me, although my body still can’t resist bullets fired at close range, my bones, however, allow me to exceed the limits of human speed” Accept the reality!”

“Bang!”

The white spider once again pulled the trigger without warning.

With a clatter, the bullet shot through the glass on the window, but still missed the transformed man.

“Monster!” The white spider cursed angrily, turned around and opened the door before running downstairs.

There was really no way for this duel to continue, a monster that wasn’t afraid of knives and could dodge bullets, even the most powerful person, as long as they were a normal human, was definitely not a match for such a monster, unless they were that legendary martial arts master.

But the white spider was not, so she could only choose to run away.

“Hehehe” The reformer looked at the cavernous room door, he suddenly smiled grimly: “I know you’ve been a killer before, one hit and you’re far away from a thousand miles” It’s just a pity, no matter how clever your escape technique is, you can’t fly on wings, there will be someone waiting for you at the stairway!”

As soon as the words left his mouth, his body suddenly swayed, as if a gust of wind, and he thundered out of the room and disappeared.

The white spider gritted her teeth and ran, she kept admonishing herself to be calm, only by being calm would she not make a mistake, otherwise she would definitely die today.

In a flash of lightning, the White Spider did not choose to escape through the stairway, but ran straight to the end of the corridor and jumped straight down, through the window of the corridor.

Clap!

That Transformer chased after the window, smashed the glass with one fist, grabbed a piece of it with his hand and flung it out in the direction where the White Spider had jumped down.

Whoosh...!

A strong wind instantly hit her from behind, and the White Spider, who was in the air, could not even turn around before she suddenly felt a sharp pain in her back, and the next moment, she fell heavily to the ground.

The White Spider’s abdomen reeled and she could no longer hold back a mouthful of fresh blood.

But she had no time to pause, gritting her teeth and forcing herself to endure the sharp pain and dizziness as she ran towards the woods next to her flat, where a small electric car she had hidden there long ago was her last measure to save her life.

And at this time, she faintly heard the sound of a fight coming from the flat, in which there seemed to be the voice of the creature.

White Spider didn't dare to delay for half a second, she gritted her teeth and drove away from Union University through the side roads.

"Go and find Ji Feng, now you can only go and find Ji Feng I hope he can deal with that monster"

.....

In the villa, Ji Feng embraced Xiao Yuxuan and Tong Lei and was sound asleep.

This evening, he once again toned the two girls' bodies for three hours, causing him to expend a great deal of energy.

However, Ji Feng's efforts were not in vain, and now after this period of conditioning, the two girls had long since been able to easily adapt to the changes in their bodies, causing the two girls to no longer have that trouble of their consciousness not being able to keep up with their bodies.

However, Ji Feng still insisted on conditioning the two girls' bodies every day, because as the two girls continued to practice for body-building exercises, their bodies were changing stronger and stronger, and only when their physiques kept up would they not experience that kind of trance in their vision and murmur in their ears again.

In fact, Ji Feng was very happy to be able to condition the two daughters' bodies.

He very much hoped that the two daughters could also become real experts, so that their safety could also be guaranteed, not to mention that the healthier the two daughters were, the happier Ji Feng would be, and this was something that no amount of money could buy.

"Dangling" A sharp phone ringing suddenly remembered, Ji Feng jerked awake from his sleep, he immediately picked up the phone on his bed, "Hello, this is Ji Feng."

"Sir, this is Hui Yi." A very urgent voice came from Hui Yi on the phone, "The White Spider has encountered an attack, we knocked out two people, but there is another person who is very powerful, Liu Xin is injured, and the White Spider is nowhere to be found."

"What?!"

Ji Feng was stunned, "The other person defeated the two of you by himself? And injured Liu Xin?"

"That's right, sir, that person has saved his two companions, now we are chasing after them, they went up to Science Avenue" Hui Yi said sharply.

Science Avenue?

The road in front of the villa, isn't it Science Avenue?

Ji Feng immediately asked, "Which direction did they go in?"

"It's in the direction of where you are, what should we do next, please give instructions sir!" Hui Yi said.

Ji Feng pondered slightly and immediately said, "You guys just follow behind them, don't make any easy moves, I'll be right over!"

After hanging up the phone, Ji Feng immediately put on his clothes quickly.

At this time, Xiao Yuxuan and Tong Lei had also been awakened, and Tong Lei asked with hazy eyes, "Ji Feng, where are you going?"

"Going out for something, you guys go to sleep first, I'll be back soon!" Ji Feng gave them a reassuring smile.

Chapter 698

Ji Feng first activated all the security devices in the villa, and even the homemade bombs had all been turned on, so that as long as someone touched the security devices, the bombs would immediately explode.

Only after this was done did he drive along Science Avenue and head in the direction of the school.

The only good thing about this university town was that there were fewer people and the roads were spacious, but there were not many main roads, there was only this one Science Avenue, and all the other roads were connected to Science Avenue, apart from that, there were hardly any side roads.

So Ji Feng only needed to follow the Science Avenue and it was enough to block the three guys that Hui Yi had mentioned.

Ji Feng dialed Hui Yi's phone again and asked, "Hui Yi, are you still on Science Avenue? Have those three guys made a turn to change direction?"

"Sir, no turn yet, I saw a car in front of me They seem to be chasing that car!" Hui Yi said.

Ji Feng's heart immediately moved, "Is that a white spider in that car?!"

"It should be." Hui Yi said.

Ji Feng gave a hint: "Just stay on the phone, keep in touch all the time, I'm heading in your direction Remember, don't take it lightly, ensure your safety first, as for the white spider If you can save it, save it, if you can't, forget it, there's no need to risk us for a woman from the dynasty!"

"But" Hui Yi was a bit embarrassed, although he also disliked the white spider, after all, this woman is the head of a branch of the dynasty, but, the mission he received was to protect the white spider, if he watched the white spider die just like that in front of him, how can this not be justified.

Ji Feng laughed: "Don't worry, White Spider is not that easy to kill, how many of those kinds of women are simple?"

"Alright then, as long as the white spider doesn't die, I'll try not to make a move!" Hui Yi nodded and agreed, then added: "Sir, if you meet that monster, you must be careful, that monster is very powerful, ridiculously fast, and very ugly looking, that is simply a humanoid tyrannosaurus!"

Ji Feng laughed, "Don't worry, I won't take any chances easily either."

Since the white spider had once moved against Xiao Yuxuan to kill her, Ji Feng would naturally keep it in his heart, now it was good enough to rush over to help, and he still wanted him to go to a life and death battle with someone else for the sake of the white spider? It's simply a dream!

"However, it's not bad to go and see what that monster really is!" Ji Feng smiled faintly and slammed on the accelerator, the car picked up speed again and headed straight for the direction of the school.

.....

"Sir, the two cars in front of us are colliding They're exchanging blows!" Hui Yi's voice suddenly came over from the phone, "Two people are surrounding the white spider one, and that monster is watching from the side!"

Ji Feng immediately laughed, "Those two people who attacked the white spider were the ones you guys knocked out earlier?"

"Yes, we had them tied up, but that monster suddenly rushed down from upstairs, Liu Xin and I were no match for him, but he didn't seem to want to tangle with us, and after saving his two companions, he got in the car and left."

"That was your luck, even you two were no match, that monster must be extremely strong in battle, if he wanted you two dead, I guess you wouldn't have been able to get away." Ji Feng laughed.

"Sir, you're right, that guy can actually dodge bullets, his speed is ridiculously fast, the pistol can't hit him at all, what a monster!" Hui Yi said with emotion, "ee White spiders are so powerful!"

Ji Feng smiled faintly and immediately accelerated his speed, a few moments later, he finally saw two cars that were straddling in on the road with another car behind them, with its headlights on.

Under the light, three people on the road were fighting fiercely. And in front of one of the cars, a man who seemed to be somewhat bloated was sitting on the bonnet, watching the three people who were fighting.

Ji Feng drove closer, but did not get out of the car immediately, but honked the horn twice: "Tee-hee!"

The three fighting men couldn't help but pause, and just when the other side was in a daze, the dagger in White Spider's hand steeply slashed through the two men's bodies.

Poof! Poof!

Two bloodstains soared from the throats of those two men, and the two of them immediately covered their necks and retreated in disarray.

"Good stance!" Ji Feng instantly gave a secret praise, he instantly recognized the white spider wearing a nightgown, this woman was barefoot and still had such a severe stance, very good indeed.

"Fighting someone in a nightgown" Ji Feng couldn't help but shake his head and laugh, he wasn't laughing at this woman's ugly appearance, in fact, White Spider herself was incredibly beautiful, wearing a nightgown, she was even more seductive, that wonderful figure dodging and moving on the road, especially under that strong light of the car, it looked even more flirtatious, one couldn't help but have lust rising in one's heart.

The real ridicule of Ji Feng is that this woman does not know whether she is bold or ignorant, actually a little vigilant

The three people who were chasing after the White Spider were obviously dynasty reformers, otherwise, they wouldn't have been described as monsters by Hui Yi, which means that the three people chasing after the White Spider could actually be strictly described as a few of them dogging it out, or infighting and extermination.

If this is the case, the white spider actually did not notice anything beforehand, which really makes Ji Feng a bit puzzled.

Not to mention anything else, even an ordinary person would be a bit wary when they arrived in the field, right?

Is it ignorance, or is it the courage of the artful?

Ji Feng couldn't help but chuckle, "This is not a bad stab, a bit of a look!"

After those two people were wounded by the white spider, the white spider also seemed to have been somewhat exhausted, she slowly took a few steps back and leaned against the car, her chest heaving uncontrollably, but still looking at the other three people warily.

The two sides seemed to confront each other, no one moved first.

Ji Feng could tell at a glance that the three guys, now, were scornful of Hui Yi who was behind them, because according to him, the monster could only dodge bullets, but it didn't say that the monster could stop bullets, which were two completely different concepts.

He hemmed and hawed twice, "This is no way to confront each other, since the fight is so exciting, don't stop, keep fighting!"

"Tic-tac-!" Ji Feng honked his horn twice more vigorously, seemingly urging their vehicles to leave, but in reality, it was breaking that confrontational momentum between them, causing them all to lose their rhythm and either leave or continue the fight.

As expected, Ji Feng only saw the only man who did not make a move, fierce a harsh gaze over.

Ji Feng, however, was not afraid in the slightest, he just let the car's headlights flash a few times and honked the horn twice: "Teeheeheeheeheehee-!"

The man was furious and waved his hand so violently that the two injured men immediately came towards his side in an aggressive manner, while he, himself, lunged violently straight towards the white spider.

"Shit, botched" Ji Feng was dumbfounded, how come he thought he was such a good bully, sending two injured people to deal with himself, isn't this looking down on people?

The next moment, Ji Feng but a sudden shock, "What a fast speed!"

Only to see that the only uninjured person, just a body shake, in the blink of an eye appeared in front of the white spider, a punch out, the white spider subconsciously dodge.

Bang!

With just one punch, that person had actually dented the car door raw, that look was just like an extremely intense car accident had happened!

“Really an expert!” Ji Feng instantly gave a secret praise, just from this strength and speed, this man was definitely more powerful than the previous Tian Guodong’s stream, however, after this man dodged the white spider, he didn’t even pause in the slightest, his body turned around and pounced on the white spider again!

“That punch just now, he actually hadn’t used his full strength!” Ji Feng instantly frowned, this man, made even Ji Feng feel a little tricky.

The man punched several times in a row, and the white spider could only dodge in a wretched manner, without any half strength to fight back.

Even so, Bai Spider’s athletic body was amazing to Ji Feng, and he couldn’t help but give a secret praise: “This woman’s body skills are probably even more beautiful than her looks!”

“Hoo-hoo-hoo-hoo!” Just when Ji Feng was carefully observing the fierce fight between the white spider and the man, the two guys next to him came to the front later, and they didn’t know where they got the strength from, they actually pulled off an iron pipe directly on the guardrail of the road, and raised their hands to hit towards the car.

“Looking for death!”

Ji Feng suddenly coldly snorted, he did not even open the car door, just put the car window down, the whole person directly jumped out through the car window, “Even the knife did not cut your necks, I would like to see, how hard your necks really are!”

He suddenly accelerated on his feet and instantly arrived in front of one of the guys and grabbed him by the neck.

Starting up, crouching slightly, turning around, and firing!

These few movements were completed in just the blink of an eye, and before that guy could react to what was going on, he felt a tightening of his neck, and immediately his whole body flew in the air.

“Thud!” A sound.

The guy just fell hard to the ground, his body twitched a few times, and he never moved again.

At this time, Ji Feng had already grabbed the other guy’s neck, he ran two steps wildly and punched that guy in the stomach. This extremely explosive punch instantly made that person like a sandbag being thrown away, and the whole person smashed directly towards the monster that was chasing the white spider.

“Sir this is too strong, right?” Hui Yi, who was sitting in the car, saw incomparably clearly the scene of Ji Feng throwing two people directly away with one hand, and the cold sweat on his forehead came down.

There was no shortage of experts in the army, and there was no shortage of people with great strength, but none of them could be as terrifying as Ji Feng, and that was enough to make anyone gasp in awe, both in terms of speed and strength.

“That monster, definitely not a match for Mister!” I don’t know what was going on, but Hui Yi had such a firm belief.

Chapter 699

Hoo-!

The guy who was thrown out by Ji Feng smashed straight towards the monster that was chasing the white spider, who suddenly accelerated on his feet and then caught his companion with one hand.

However, the next moment, he found that a great impact suddenly came from his companion’s body, causing his hands to sink violently and his body to become unstable.

Stomp, stomp, stomp!

The man took four or five steps backwards in a row before he could barely stop his steps, his eyes showing a fierce light as he stared straight at Ji Feng who was slowly walking towards him.

“My lord!” That companion shouted in a low voice, “This man is terrifying.”

“Rubbish!”

The man snorted coldly and casually threw his companion out, flinging him to the ground with a heavy thud, without reservation.

The white spider also saw Ji Feng, she immediately let out a long breath, if she fell into Ji Feng’s hands now, she might still have room to turn back, but if she fell into that monster’s hands

“Ji Feng, you have to be careful, this man is an advanced reformer, his bones can support him, making him incredibly strong and fast!” White Spider hurriedly spoke out to warn.

Ji Feng didn’t even look at her and walked directly to the opposite side of the monster, when he got a good look at the creature’s appearance, he immediately frowned.

“No wonder Hui Yi would say that this guy is a monster Using the word monster to describe him, that’s really lifting him up.” Ji Feng muttered darkly in his heart.

Across from him was a bald, topless human man.

It was impossible to tell the age of this man, as the man started from the top of his head and went all the way to his entire upper body, the skin and flesh all seemed to be completely flabby and drooped all over his body, his eyelids were also drooping and his eyes only showed a slit, in which a fierce light was constantly flickering.

“Phew – that’s really weird!” Ji Feng couldn’t help but shake his head slightly and said, “I know you’re very powerful, but you’re no match for me, come with me to a place, and I promise I won’t hurt you while I have you in my hands!”

The man on the other side of the table suddenly had shifting eyes, with fierce flashes of light from time to time.

The white spider on the side was incredibly relieved to hear this.

Just half an hour ago, that monster had said the same thing to himself, but to think that in just half an hour, these words had been returned in their original form by Ji Feng, it was really a relief to her!

“Back to Yi, that monster is definitely not a match for Mister!” Liu Xin sat in the car and likewise saw the scene where Ji Feng sent those two guys flying, he bared his teeth and shouted, “Sir, hit that monster hard, beat him so hard that he can’t even recognize his mother, ouch”

Hui Yi instantly laughed heatedly, “Just the way he looks now, his mother can’t recognize him anymore.”

The monster, however, was unusually angry in his heart and looked back at Hui Yi and Liu Xin who were sitting in the car, the fierce light in his eyes showing.

What he hated most was when people called him ugly, and if Ji Feng hadn’t been present, he would have strangled those two guys who were talking about him to death!

However, he was very scared of Ji Feng, just from the fact that this young man opposite had just thrown his companion with one hand, but he actually couldn’t even catch it steadily, this was enough to show how terrifying this young man opposite was.

He should not be a match for him, this young man is right!

However

A strange laugh came out of this monster’s mouth as he suddenly took out a vial from his pocket and opened his mouth and poured it into his stomach, “Woo~~~”

From his mouth, a weird whimpering sound came out, which seemed like crying and laughing, bizarre as hell.

“This, this is” The white spider looked at the man’s change and instantly his face changed, “Back up quickly, this this is transforming!”

“What transformation?!” Ji Feng frowned and asked in a deep voice.

“I’ve only heard about it, but I’ve never seen it before. It is said that the organization

It is said that there is a type of advanced transformers whose bodies are not actually completely transformed successfully, but they can explode all the energy in their bodies through a drug with a strong stimulating effect, instantly becoming extremely powerful and faster than lightning!”

“Bullshit!”

Ji Feng snorted, he might still believe in becoming stronger in strength, but this becoming faster than lightning, what is this if not bullshit?

However, the next moment, Ji Feng’s eyes flinched.

He found that the flesh on this man's body, which was originally slack and drooping, had started to slowly squirm, and the appearance was as if countless worms were gushing about, extremely frightening and strange, making one's scalp explode!

"What is this?"

Ji Feng frowned tightly, "His body is all shrinking?"

The white spider's face also changed drastically and he backed up in a panic, a somewhat frightened look in his eyes, "He's stimulating the energy of his whole body, back off, you're no match for him!"

Ji Feng turned his head and frowned at her, this woman really thought she was in cahoots with her

With a cold snort, he looked at the monster again.

At this time, the monster's body had stopped changing, at this time, he was completely different from before, the skin and flesh that had been loosely drooping, had been tensed up tightly, no different from a normal person, his body was covered with high bulging muscles, and his entire appearance had also changed greatly, he looked completely like an incomparably fit person.

"Hehehe" The monster stuck out its scarlet tongue, licked its lips and smiled grimly, "Kid, you shouldn't have let me finish transforming, now, your time to die has come."

"Less nonsense, I haven't encountered any decent experts for a while, and I'm looking for an opponent to move my muscles" Ji Feng smiled lightly, "If you have any skills, feel free to use them!"

"Good!"

The monster nodded, and in a flash, his figure surged and he instantly reached Ji Feng's heels.

Ji Feng had no fear on his face, he just punched out with one punch.

Bang!

The fists of the two clashed together and Ji Feng's body shook, while the monster, however, was stiffly shaken to the point of taking two steps back.

A glance could tell which was stronger and which was weaker.

"How is this possible!" The monster exclaimed in shock, how could he have not thought that he was still unable to defeat Ji Feng after transforming his body, where did this youth get such great strength?

The monster stopped comparing strength with Ji Feng and started using his speed to his advantage, his feet lashed out and in the blink of an eye, he arrived behind Ji Feng and attacked like lightning.

Bang!

The monster only felt a sudden sharp pain in his back, and the next moment, he flew up and fell heavily to the ground.

"You, how did you" The fall was not a big problem for the monster, but what shocked him was that Ji Feng's speed was actually faster than him!

When he thought of going around behind Ji Feng to sneak attack, Ji Feng had actually gone around behind him, this young man was so powerful that it simply sent chills down his body!

“Transformation, it’s only that, a monster is a monster!” Ji Feng sneered, after testing out this monster’s reality, he no longer made the slightest reservation and struck out with all his might!

Ji Feng’s speed and strength were almost to the extreme, his kung fu, there was no routine, they were all the simplest movements, a punch was a punch, a kick was a kick, there was not the slightest pattern.

However, it was such simple punches and kicks that contained immense power. Although the monster could barely block them, each of Ji Feng’s punches was enough to make the monster’s body shake and retreat in distress.

Everyone looked dumbfounded, whether it was Hui Yi and Liu Xin, or the White Spider who had retreated to the back, they all froze as they watched Ji Feng’s great power, beating the monster without any ability to fight back.

“It’s terrifying!” This was the most profound feeling of all those who saw Ji Feng’s strike, “Just how terrifying that monster was, it actually couldn’t even block Ji Feng’s fist, if that fist hit its own body

The monster was suffocated by Ji Feng, but there was nothing he could do, he couldn’t even disengage if he wanted to, Ji Feng’s attack was just too fierce.

However, although Ji Feng’s punches were fierce, they could not bring any substantial damage to the monster, his body, was not that of an ordinary person, if he could not block such a little punch or kick, who was he to block the white spider’s dagger?

Ji Feng, on the other hand, was hitting very easily and freely, but he was aware that his fist wasn’t able to cause any damage to this monster, because when his fist hit this monster’s body, he could obviously feel a slight elasticity, this was definitely not normal human flesh!

However, Ji Feng was in no hurry, his gaze, kept wandering over this monster’s body, he was looking for where the bio-bomb was on this monster, only when he solved the bio-bomb first, would he be safe and be able to subdue this monster again.

However, after searching for half a day, Ji Feng did not find half a trace of the bio-bomb, this monster’s whole body bones were all metal, and there was nothing foreign in his internal organs and other parts, he actually did not have a bio-bomb installed?

Ji Feng didn’t believe it, so he once again activated the bio-current on his eyes and looked at the whole body of the monster, and finally found nothing foreign.

Now that he had confirmed it, Ji Feng didn’t stop in the slightest, he quickly activated the bio-current on his fists and slammed his lightning-like fist into the monster’s chest.

Bang!

The monster let out a strange cry, as if his strength had been instantly taken away, his body shriveled up on the ground in convulsions, his limbs were trembling, his whole face had been distorted, the appearance was terrifying.

Ji Feng clapped his hands and said, "If I had known that you didn't have a biological bomb in your body, where would I have talked so much nonsense to you"

"It's really It's horrible!" White Spider leaned against the car, staring blankly at Ji Feng, and the monster lying on the ground shivering, full of disbelief.

She couldn't help but mutter, and didn't know exactly who she was calling horrible!

Chapter700

"San'er, how did you manage to do that?"

Looking at the monster whose hands and feet were both fixed to the rack, Ji Shaolei asked with a face full of consternation.

At this moment, it was already around five in the morning, and the two of them were in the interrogation room of the Jiangzhou Military District, and beside them stood Hui Yi and Xiang Yongzhan and the others, as well as the White Spider!

The monster and his two companions were locked up in three separate interrogation rooms.

As for the White Spider, she had been pierced through the chest by a piece of glass, and it was already very good that she was able to stand up now, if she was put into the interrogation room again, I believe it would not take long for her to simply die.

What's more, Xiang Yongzhan really didn't intend to lock her up. It was obvious that nowadays, he couldn't even wait for Xiang Yongzhan to find out all those internal spies, the other side would probably get rid of the white spider, so the previous plan didn't work anymore, so he could only think of another way.

After the night's events, Ji Feng directly called to inform his second brother, Ji Shaolei, as well as Xiang Yongzhan, that it was better for them to handle the matter, after all, White Spider had already been involved, so Ji Feng wouldn't need to guard against her all day long.

So, Xiang Yongzhan then directly led the men to bring back the injured White Spider, as well as the three monsters that had been restrained, together with Ji Shaolei, who also rushed over afterwards.

Although he had already known about the existence of the transformer, but now that he saw it with his own eyes, Ji Shaolei still felt very shocked. It was not known whether it was because of the two to three hours of exertion or because the bio-current delivered by Ji Feng had taken effect, anyway, the monster was no longer in that state of taut flesh and skin, but had become like before, with loose flesh and skin, as if there was a person wearing a dress made of flesh and skin. It was as if a man was wearing a suit made of skin, which was terrifying.

Therefore, when Ji Shaolei saw this kind of transformed person, he was shocked beyond belief. Especially when he heard about the combat power of this transformed man, he was even more astonished.

Originally, he only knew that Ji Feng's force was strong, and even the experts of that Xuan Yin Sect could not withstand Ji Feng's three punches or two kicks, but he did not expect that Ji Feng could actually even beat the transformer directly as if it was three dead dogs, which was out of his imagination

Ji Feng smiled and said: "Is there anything surprising about this? They don't stand up to beating, so that's how it is."

Ji Shaolei: "....."

These people don't stand up to beating?

It was an international joke, if they didn't stand up to beating, then would the dynasty still waste so much effort to develop these transformers? It's not like they've had enough!

Ji Feng's light-hearted words also left Xiang Yongzhan and the others speechless for a while, everyone looked at Ji Feng with a hint of consternation, it was the first time they heard someone say that the transformers did not stand up to fighting, how different was this from someone saying that the earth was square?

–This is no different from someone saying that the earth is square?

But the facts were there, and no one could say anything to refute them, they had brought them back unharmed.

There could only be one explanation, and that was, Ji Feng's skills were just too perverted, other than that, there was no other explanation.

"By the way, that whatever biological biological bomb, has it been taken out yet?" Ji Shaolei asked with concern.

Although they were looking at these modified people through the glass of the interrogation room, but if there were still biological bombs inside these people, once they detonated, at that time God knows if these glasses could stop the bombs, Ji Shaolei was not half confident anyway, especially for these domestic producers, that was more than trustworthy.

Ji Feng laughed: "Second brother, just rest assured, the bombs inside these two people have been frozen, they can't be activated for the time being, as for the ugliest guy, he doesn't have a biological bomb installed in his body"

"That's good, that's good!" Ji Shaolei was then relieved and couldn't help but nod his head.

Ji Feng frowned, "It's really strange to say, their people, in almost all the lower level transformers, are equipped with bio-bombs, but, in these higher level transformers, they are not doing anything, isn't this a bit of drilling the head and not caring about the butt? Can't tell which is more important!"

"What is drilling without regard for the buttocks?" Ji Shaolei was stunned.

Ji Feng lost his smile and said, "Oh, this is just a vernacular of Mang Shi County, meaning that an ostrich encounters danger and wants to hide itself because it is afraid, and as a result, it only buries its head in the soil and its butt remains outside"

"That's really funny!" Ji Shaolei was amused and couldn't help but laugh.

"There's nothing strange about it, it's actually very simple, this guy can't be called an advanced transformer right now, he can only be considered a half-finished product, until he's completely called an

advanced transformer, he's always needed regular medication and other energy supplements, all these things, he needs to rely on the dynasty

Xiang Yongzhan explained beside him, "If these guys want to be called transformers, then they still need to undergo at least one or even more times of surgery, of course, maybe they call it differently, I call it surgery anyway. It is only when they have the last surgery that they are implanted with a biological bomb, which saves a lot of effort on the one hand, and reduces the danger on the other Supervisor Black, am I right?!"

"I think so, I don't know too much about the details, I just heard that although I am the supervisor of Xixia, I don't actually have access to higher things within the dynasty, because the highest officer in a division is not actually the supervisor, or rather, the supervisor is actually only responsible for a certain aspect, it's like your country, the commander-in-chief is a politician, while those who carry out the fighting, are soldiers, and the dynasty is the same" The White Spider said a little weakly.

"So, what are you in charge of?!" Ji Feng asked with a frown. As he spoke, he stared at the white spider with a deadly gaze, trying to see if she was lying.

However, White Spider was calm as she looked at Ji Feng and said, "What I am in charge of, is only the combat squad, other things, are not under my control. So when you guys say I'm in charge of Xixia, it's actually not accurate."

"Still an iron lady, huh!" Ji Feng sneered, "It's just a pity that it doesn't go the right way."

White Spider also sneered, but did not reply, seemingly disdainful of Ji Feng's words.

Xiang Yongzhan waved his hand, interrupting the tit-for-tat between the two, he said, "Ji Feng, since things have come to this point, this means that our work has been so effective that someone up there can't sit still anymore, which is why they want to silence The white spider doesn't need to go back to school either, from today onwards, your mission to protect the white spider, is automatically cancelled, and you can live freely."

"That's more than enough!" Ji Feng said without good grace, "Since that's the case, then I don't want any reward or anything like that, but Xiao Ying must stay, she's used to living here, she doesn't need to go back to Yanjing, Lei Lei and Yu Xuan both need her protection too. As for my mother's place, if she wants Xiaoying to go back, then please send me another female guard"

"Xiao Ying's work is also over, she needs to go back as well!" Xiang Yongzhan said.

"Bullshit!" Ji Feng scolded without mercy, "Why didn't you guys say that when you asked me to protect the White Spider? I'm telling you, there's no window, let alone a door, it's either Little Shadow or another female guard, you choose one of the two!"

Xiang Yongzhan frowned, "This matter, you can discuss it with your parents personally, there is no need to go around a circle from me, right?"

Ji Feng hummed twice and sneered, "Is there really no need for this? I think it is very necessary. In the beginning, it was you who came to talk to me, then I am looking for you now, and it has nothing to do with my family because I have not received any notice or order from them, only you act like a big tail

wolf, running to me and asking me this and that, and finally removing all the female guards around my girlfriend

The first thing you need to do is to get rid of the problem.

Ji Feng grunted, "Sorry, that's how I talk. If you want to push back, don't blame me for speaking harshly."

"What if I don't agree? Xiao Ying is an active duty soldier, how can he be a guard for you? It doesn't matter who your parents are, but you're just a commoner now!" Xiang Yongzhan said in a deep voice.

Ji Feng chuckled, "If you don't say yes then that's fine, I promise you that if you don't say yes now, there will definitely be a day when you beg me later, and you know what I will do then!"

"You're that sure?" Xiang Yongzhan asked, frowning.

"I dare not say I'm sure, but whether there will be that day, you know better than anyone in your heart!" Ji Feng said indifferently.

Xiang Yongzhan stared at him for a long time before he finally nodded and said, "For now, Xiao Ying will stay with you for now, when I find a suitable female guard, you let her go back to Yanjing, after all, she belongs to the Central Security Bureau, we belong to different systems, I don't have the right to order her to do anything! Also, if you don't have much status, sending a guard is just as bad as a name, so you need to come and put a name on it in the military or in some department."

"That's what you need to worry about."

Ji Feng smiled faintly and said, "I'll wait for your news There's nothing more for me down there, right? I'll go back first"

"You kid, you're even tougher than your big brother!" Xiang Yongzhan hummed and said, "I've agreed to your terms, shouldn't you do something too?"

"I've done enough already" Ji Feng waved his hand and said, "Second brother, are you leaving?"

"Let's go together!" Ji Shaolei nodded and smiled.

"Ji Feng!"

White Spider, who had not spoken at the side, suddenly spoke, "Thank you for saving my life today, count me in your debt. If I don't die, I will definitely repay you."
