

Campus Master 721

Chapter 721

Looking at the young man in front of him, whose face was pale and whose hands did not know where to put them, Ji Feng's expression was cold and his eyes were even more stern.

The young man was a good man, a good man, a good man, a good man, a good man, a good man, a good man, a good man.

For such people, although Ji Feng hated them, he would often maintain a tolerant attitude.

However, because of the difficulties and problems encountered in the promotion of Kang Yuan slimming powder for a period of time, are not natural difficulties, but someone sincerely create problems, especially Shang Qiongggen, that nature is worse than Hu Yigui and Ma Dewang, especially he sabotaged the recruitment meeting, openly came to Xiao's pharmaceutical factory with generous terms, those pharmaceutical distributors pulled away a lot, and sabotage the recruitment meeting, this is simply from the root of the pharmaceutical factory to a kettle of fire ah!

In this way, if it is not Kang Yuan slimming powder really extraordinary effect, this time the notoriety of the pharmaceutical plant can really spread, I am afraid that within a few years will not be able to turn over, or even this will be a failure, the pharmaceutical plant bankruptcy is not possible ah.

If it was in the past, he would have kicked that Shang Qiongggen out of the Sunshine Pharmaceutical Group and let him lose his position and power to see how he could still be arrogant.

However, now Ji Feng, who was completely enraged, did not want to do that. He wanted Shang Qiongggen to continue to climb up the ladder, to continue to mix, and the more powerful he was, the better, the more unbeatable he was.

If Shang Qiongggen can mix with great authority and be quite powerful in Jiangzhou, that would be great.

What Ji Feng wants to do is to give Shang Qiongggen a blow to the head when he thinks he is most complacent and successful, so that he loses everything and has nothing to lose.

The most painful thing in life is not to have nothing, but to suddenly have nothing and lose the most precious thing after being very rich and very wealthy.

Since he, Shang Qiongggen, wanted to cut off the development path of Xiao's Pharmaceutical Factory, Ji Feng would have to cut off Shang Qiongggen's belief in being a human being, he would make this bastard not even have any hope of living from now on, turning him into a man with nothing!

If you want to retaliate, then be ruthless, directly hit the other party never to turn back!

If not, there will be consequences, and this Shang Qiongggen is a perfect example. When he resigned from the pharmaceutical factory, he threatened to take revenge on the pharmaceutical factory and Yang Dezhao and others, but Ji Feng did not take it seriously. But this time, he really almost brought down Xiao's pharmaceutical factory!

This lesson, however, caused Ji Feng to break out in a cold sweat when he thought about it many times afterwards. This time, he wasn't going to be half-hearted anymore.

The experience he had during this period of time had made him understand that if he was soft-handed, if he just wanted to do his job and be a good old boy, he would never be able to get along in society, and in the end, he would only let others eat him without even having any bones left!

He was still wondering how Shang Qionggen knew so much about Xiao's pharmaceutical factory, but it turned out that Shang Qionggen had a good informer who tipped him off!

However, when Ji Feng saw the young man's nervous look and that desperate look in his eyes, he couldn't help but feel a little soft again.

Taking a deep breath, Ji Feng tried to calm himself down and told himself in his heart that this was Shang Qionggen's accomplice, and that he must not be soft again, or else the hospital's promotion would be blocked, as well as the recruitment meeting would be ruined, that would be a lesson from the past!

"You What's your name?!" Ji Feng finally opened his mouth, he coldly looked at this young man with a pale face and asked indifferently.

"I... My name is Fan Xiaohuan." The young man whispered, perhaps because he was too nervous, his voice was trembling a little.

"Can you tell me what you've done?" Ji Feng asked indifferently, "For example, why are you with Shang Qionggen, can you give me an explanation?"

Fan Xiaohuan lowered her head and didn't say anything, except that her body was trembling a little, obviously nervous.

"If you don't want to say, I won't force you." Ji Feng's expression gradually went cold, "But the pharmaceutical factory won't want you anymore, and because you made a mistake in the first place, your salary for this month, will not be paid to you, and last month's salary is still a few days away, and again, there is no share for you, get lost!"

"Ah!"

Fan Xiaohuan suddenly blushed white and said in a panic, "First, sir, if I am living on my salary, if I am not paid, I really have nowhere else to go."

"Bang!"

Ji Feng slapped the case violently and said angrily, "Bullshit!"

Fan Xiaohuan was instantly scared and trembled, but did not dare to speak again.

"You are to eat, do the others in the pharmaceutical factory not want to eat?!" Ji Feng said angrily, "Shang Qionggen is clearly trying to bring down Xiao's pharmaceutical factory, but you still helped him provide information, and you actually have the face to ask for your salary now?"

Fan Xiaohuan lowered his head and couldn't say a word, his heart was incomparably remorseful.

In fact, he had always been very uneasy about helping Shang Qiongggen against the pharmaceutical factory, but helplessly, Shang Qiongggen had helped him before, and now he was saying that he was ungrateful, so he could only help Shang Qiongggen.

“You’re keen to stay?” Ji Feng suddenly eased his tone again and asked.

Fan Xiaohuan was stunned, then nodded vigorously, although the pharmaceutical factory was not large, but it treated its workers very well, the wages and other treatment were also very good, whether it was local workers or foreign workers, the factory leaders all treated them as if they were regular workers, if possible, Fan Xiaohuan certainly did not want to leave.

“If I let you stay, what benefits can you bring to the factory?” Ji Feng asked indifferently.

“I’ll definitely work hard!” Fan Xiaohuan hurriedly said.

“Everyone works seriously, the factory doesn’t lack you for that!” Ji Feng hummed, “That’s not much of a benefit, say something useful!”

“Then What do you want me to do?” Fan Xiaohuan asked cautiously.

Ji Feng couldn’t help but hum, “You’re not stupid, if I ask you to promise that you won’t even help Shang Qiongggen again, can you do it?”

Fan Xiaohuan immediately nodded, “I can do it!”

“Then, today’s matter is over, in the future, if I know that you reveal our factory to Shang Qiongggen, I don’t need to say much, you roll your own bunk and get out!” Ji Feng said coldly.

“No more, never again!” Fan Xiaohuan said in a panic.

“Alright, go to work.” Ji Feng waved his hand.

Fan Xiaohuan thanked him profusely before he carefully and quickly walked out.

Guo Tao couldn’t help but ask, “Boss, you only reprimanded him a few times, isn’t that a bit too light? If a person makes a mistake, there is definitely a first time and a second time, maybe he will do it again next time

“Hehe” Ji Feng smiled faintly, “What I need is this second time! This person might still be useful in the future

All right, let’s not talk about that, let’s go see how the talks are going over at Manager Xu’s side.”

Guo Tao nodded thoughtfully and seemed to understand a little.

The two were talking when the door to the office was pushed open and Xu Yuan and Yang Dezhao walked in with red faces, both of them looking very excited, obviously the talks were successful.

“How did it go?” Ji Feng asked with a smile, “Everything still went well, right?”

“Boss, everything went as you predicted, very smoothly!” Xu Yuan nodded excitedly and said, “I proposed to them that they should help promote it first, with a time limit of one month, and within that

month, whoever has the best promotion effect and the biggest sales, we will give the agency to whoever is in their region, otherwise, we will give the agency to another pharmaceutical company!”

“Those people have agreed?” Ji Feng asked with a smile.

“Agreed! I can see that they are all ready to do something big!” Xu Yuan was excited, “Boss, we’re about to succeed!”

“Great!”

Ji Feng said happily, “Xu Yuan, contact the Tengfei network company, and start the promotion on the internet! In addition, you immediately send someone to contact those people who have taken Kang Yuan slimming powder, and discuss with them about advertising for us, you can negotiate the specific terms, this time, we must thoroughly promote Kang Yuan slimming powder!”

“Yes!” Xu Yuan immediately answered loudly.

“Uncle Yang, this factory management, still need you to bother more, I am not proficient in this area!” Ji Feng laughed.

“Boss, don’t worry, I’m here at the factory, there will definitely be no chaos.” Yang Dezhao immediately patted his chest and assured him.

Ji Feng nodded and said, “From today onwards, the promotion of our Kang Yuan slimming powder will officially be on track, within a month’s time, we want to make the whole of Jiangzhou known to everyone, while radiating to the surrounding areas. At the same time, we will hold a launch event to open up the market completely!”

Looking at Xu Yuan and Yang Dezhao, who also looked excited, Ji Feng waved his hand vigorously and said with great energy, “Our Kang Yuan slimming powder has finally opened up! Our efforts have not been in vain, you all have worked hard!”

“Boss, this is what we should do, to be able to single-handedly cultivate a brand from scratch, from small to large, this is more fulfilling than anything else!” Xu Yuan said excitedly.

Ji Feng nodded and couldn’t help but laugh haha.

.....

“Kang source slimming powder, a slimming product that is completely harmless to the human body!”

“A wonder among slimming products – Kang source slimming powder”

“The manufacturer promises to give free medicine within thirty days, and if there is no effect in one week, the manufacturer will compensate at one hundred times the retail price. Note: Jiangzhou area only!”

“Xiao’s Pharmaceutical Factory is offering a million dollar reward to find obese patients who have taken Kang Yuan Slimming Powder without any effect! Restricted to the Jiangzhou area.”

.....

When people habitually open the Internet or turn to the newspaper, an eye-catching news item occupies almost all kinds of newspapers and networks that people are familiar with, and the whole Jiangzhou is boiling over because of the boast made by Xiao's Pharmaceutical Factory!

Chapter 722

In this highly informative era, any news will spread throughout the country in the shortest possible time and be known by everyone!

In recent times, the most popular news is a reward notice.

"Xiao's Pharmaceutical Factory is offering a million dollar reward to find obese patients who have taken Kang Yuan slimming powder and are ineffective!"

"Restricted to Jiangzhou area."

This heavy reward attracted a huge amount of eyeballs, and everyone commented on it. There was no one who was not moved by this heavy reward of one million dollars, and they all went online and left comments saying that they would go for the free Kang Yuan slimming powder. There were also many who scoffed at the idea, believing that it was a publicity stunt by Xiao Pharmaceuticals to spend the million to advertise their own slimming products.

However, regardless of the evaluation, and no matter how others view the news, one thing is undeniable, that is, all the news and advertised locations of the free Kang Yuan slimming powder are blocked by those who come for the free slimming powder.

In an instant, the whole of Jiangzhou was abuzz with excitement!

The new slimming product produced by Xiao's Pharmaceutical Factory, Kang Yuan Slimming Powder, and the high reward of one million dollars, became the focus of everyone's conversation.

Before this, the official website of Xiao's Pharmaceutical Factory had been officially launched with an announcement on it, indicating the details of this reward campaign, such as the detailed usage of Kang Yuan Slimming Powder, and the people for whom it is suitable and those for whom it is not suitable, and various other rules and details of the campaign.

The details of the campaign were given in detail in the announcement.

Each customer should register their details and have their weight measured in the presence of a notary public when they request their free slimming powder.

In addition to this, the details of the campaign also indicate the range of drug content in the blood of those who normally take the slimming powder.

This was done, on the one hand, to prevent anyone from claiming the one million dollar reward, and also to prevent the end result from being suspect, as everyone would be upset if a public event was involved and the benefits did not go to them.

Backroom deals, gimmicks, bluffing The most important thing is that you can get a good idea of what you're doing.

In fact, Ji Feng and the others were most worried about this point, so they had been hesitating whether this activity was really feasible and whether there would be any bad consequences.

However, this doubt was put to rest by Kang Yuan.

It was because of the previous free drug giveaways and the promotion by those few pharmaceutical distributors, including Xiao Changhe's help in promoting it, that Kang Yuan had collected enough data, and after adding sophisticated tests, combined with the results of previous clinical trials, Kang Yuan came up with strict and precise figures, as well as the most important basis for the campaign to be held – The range of drug content in the blood of the person taking it!

Is a person taking Kangen slimming powder normally, what are the changes in the usual diet The answer to all of these behaviours can be found in the level of the drug content in the blood.

It is because of this range of data that falsification and cheating by everyone has become impossible and the campaign can run smoothly.

Because no one could cheat, Ji Feng and the others were neither worried that something might go wrong, let alone that they might accidentally botch the test, so Xiao's Pharmaceutical Factory issued an open reward campaign.

Of course, in order to ensure the future sales of slimming powder, so restricted to the Jiangzhou area, because itself Xiao's Pharmaceutical Factory is the enterprise of Jiangzhou, so no one can say anything, even if the field is not able to participate in the people, at most will only curse two, that is completely also just a kind of eating grapes to say grapes sour psychology, for the promotion of Kang source slimming powder, without the slightest impact!

In fact, the strongest reaction to this campaign was from those girls who felt that their bodies were not too good.

There is a free slimming pill to take, which is not harmful to the human body, and even if it doesn't work, there is still a million dollar reward waiting for They are still waiting for the Kang Yuan slimming powder to not have any effect!

The actual fact is that you can find a lot of people who have been in a position to get a good deal on a lot of the things that you need to do.

.....

The fire of the slimming powder collection, after four or five days, obviously appeared a fall, people's enthusiasm is always not long, three or four days, is enough to consume a person's entire enthusiasm!

However, when a week later, the collection of free Kang Yuan slimming powder, there was a sudden big climax.

One week was enough time for the Kang Yuan Slimming Powder to be effective enough for that magical effect to appear, making everyone, especially the young beauty loving girls, go crazy!

Even some middle-aged women, too, went crazy and flocked to the location where the Kangwon Slimming Powder was distributed for free.

What made them helpless was that there were only a dozen pharmacies that distributed the slimming powder for free, and they were located in different areas of Jiangzhou, but the number of people who wanted to receive Kang Yuan slimming powder was too many, so many people queued up for almost a whole day, but they didn't get it!

All of this made them impatient and resentful, emotions were slowly brewing, and gradually, the call for Xiao's Pharmaceutical Factory to spread the Kang Yuan slimming powder to all pharmacies in the city, became higher and higher.

There are even many netizens who have started posting on the internet, denouncing Xiao's pharmaceutical company's fishing tactics and calling on all netizens who have not received Kang Yuan slimming powder to boycott Xiao's pharmaceutical company together, unless Kang Yuan slimming powder is fully available!

This kind of overwhelming momentum has shocked the entire pharmaceutical industry in China, they have never seen any drug that has such momentum before it is launched, except when there is an outbreak of a pandemic or an epidemic disease and the people are scrambling for vaccines and disinfectant drugs, this is simply unbelievable.

All the pharmaceutical groups were horrified, they all realised that with just one product, Kang Yuan Slim Powder, the previously unknown Xiao Pharmaceutical Factory was about to rise, and the momentum of its rise was simply irresistible!

Of course, in the eyes of the pharmaceutical groups, Xiao's pharmaceutical company is not a newcomer at all, but a profiteer!

However, regardless of whether it is a new noble or a mob, all in all, Kang Yuan slimming powder in the shortest possible time for the people of the country known, Xiao's pharmaceutical factory, really to rise.

In fact, when Xiao's Pharmaceutical Factory's free medicine giveaway began, that kind of hot scene, indeed, Ji Feng can not stop smiling, even for several days, he even sleep with a smile on his face.

However, as time went by, Ji Feng gradually calmed down, success was worth being happy, but after the joy, Ji Feng was more reflective.

The first time he participated in the promotion of a new product, Ji Feng had accumulated extremely valuable experience and left a very deep impression on him, these were valuable assets!

At this moment, he was making notes in his book.

"The failure of the promotion at the First Hospital, as well as the coldness at the recruitment meeting, all stemmed from the poor channels, the timing, the location and the people, Xiao's Pharmaceutical Factory did not occupy any of the same, therefore, at that time even if this same free medicine giving activity was taken, it would not have been successful."

"And now, because of the example and also the guarantee in terms of channels, the full support of those pharmaceutical distributors, the campaign can be carried out so smoothly, the time and the place, the people and the situation, the three have all three!"

.....

In this era where many people have gotten used to typing with computers and have even forgotten how to write with a pen, Ji Feng used a black fountain pen and recorded his insights and experiences word by word in his notebook, very focused and serious.

The following details are left to Xu Yuan and Yang Dezhao to work on, and once again, Ji Feng is a hands-off person.

These, however, are things that Ji Feng is not good at and he does not know much about, so he simply does not get involved at all, so that it will not affect the decisions of the three Han Zhong, and will allow them to maximize their intelligence.

In fact, Ji Feng is not really doing a handful, he is also constantly learning, constantly summarizing, only in this way, can progress, and will not make the same kind of mistakes as before.

The reason why the promotion of Kang Yuan slimming powder in the first hospital was blocked, although there were reasons for Hu Yigui and Ma Dewang, but Ji Feng now realizes that the decision itself was wrong. Promoting it from the hospital would be too slow and the effect would not be too significant, because the patients who come here are most concerned about being well and not too concerned about what kind of medicine they are taking!

This is what Ji Feng thought of later, but of course, this is the evil result of inexperience!

Ji Feng thought about it, added this one too, and continued to write carefully, even when Xiao Yuxuan walked upstairs and put a cup of coffee on the table for him, he didn't even notice

Chapter 723

A month's time passed in the blink of an eye.

According to the records, during this month, more than 60,000 people came to Jiangzhou for the free Kang Yuan slimming powder, but no one could take away the high reward of one million!

This matter caused a great sensation in the whole Jiangzhou, and even in the whole country, and the name of Kang Yuan slimming powder reached almost everyone's ears.

This advertising effect was so good that people couldn't believe it!

And if you do the math carefully, the cost of advertising for Xiao's Pharmaceutical Factory was only the advertisements in the newspapers and on the internet, and the rest, that is, more than 60,000 copies of Kang Yuan Slimming Powder were given away for free!

Other than that, Xiao's Pharmaceutical Factory spent almost nothing!

The promotion of Kang Yuan slimming powder by Xiao's Pharmaceutical Factory was unanimously considered a classic marketing case by people in the advertising industry, and there was even a detailed analysis done on it.

There were even a number of guests invited to the TV show to explain this brilliant marketing tactic adopted by Xiao's Pharmaceutical Factory, which, apparently, is also a topic of concern to the current audience, so the ratings were not low.

According to the analysis of those so-called marketing experts, the main reason why the promotion of Kang Yuan Slim Powder by Xiao's Pharmaceutical Factory has become so popular and later become an iconic representative of the rise of the pharmaceutical industry is because of the great success of the network and the extraordinary quality and effectiveness of Kang Yuan Slim Powder, both of which are the most crucial to the success of Xiao's Pharmaceutical Factory.

"Because of the extraordinary quality and effectiveness of Kang Yuan Slimming Powder, the leaders of Xiao's Pharmaceutical Factory, therefore, dared to put out a million dollar reward for their brave words. And because of the convenience of the internet, this high reward from Xiao's Pharmaceutical Factory has spread through the streets of Jiangzhou in the shortest time and at the fastest speed, and even in China it is already unknown to everyone!"

On the TV, the marketing expert invited by a certain programme was talking endlessly about the successful marketing strategy of Xiao's Pharmaceutical Factory, "With these two key factors, Xiao's Pharmaceutical Factory immediately entered everyone's attention, and the million dollar reward made its popularity spread explosively, which is the most brilliant thing about the leaders of Xiao's Pharmaceutical Factory!"

"So in your opinion, is this way of success for Xiao's Pharmaceutical Factory perfect? Do you think it is possible for other companies to replicate this successful business operation model if they want to?" The TV host asked.

"First of all, in response to your first question, I have a different opinion, Xiao's Pharmaceutical Factory's marketing strategy this time is actually not perfect, in fact, on the contrary, this strategy still has a lot of flaws Of course, I'm not talking about the strategy itself being flawed, but rather that the people who are implementing this strategy, in the process of implementing it, have made mistakes."

That expert spitefully said, while not forgetting to tidy up his already completely bald, leaving only a few long hairs covering the top of his head, quickly said: "If we carefully study the launch time of Kang Yuan slimming powder, it is not difficult to find that in fact, from the time Xiao's pharmaceutical factory's Kang Yuan slimming powder began to be promoted, until today's million reward exploded all over the city, no one in the country knows In such a process, there was a gap period!"

"What you mean is" The host was a little confused.

"Let's take a closer look, the introduction of the Kang Yuan slimming powder produced by Xiao's Pharmaceutical Factory was two months ago, however, the campaign for the million reward was started a month ago, that is to say, there was a month in between, Xiao's Pharmaceutical Factory had been doing preparatory work without any build up in publicity!"

The expert was holding a piece of paper in his hand and looked decent as he analysed it, "Perhaps the leaders of the Xiao Pharmaceutical Factory were deliberating on the details of the campaign and other strategies, but taking a month to prepare is a bit too long, so I think that the leaders of the Xiao Pharmaceutical Factory made a mistake in this regard! If they could have avoided this mistake, I'm afraid

that by now, Kang Yuan Slimming Powder would have been on the shelves of all the pharmacies and large shopping malls in China, instead of just starting to be rolled out as it is now!”

“So in your opinion, is there anything that can be done to improve this method?” The host asked again without missing a beat.

“This question, in fact, is tantamount to the second question you just asked.”

The expert said, “It is the question of whether other companies, can replicate this marketing strategy successfully, and my answer is, absolutely!”

“Then may I ask if you have any specific methods of implementation?” The host asked again.

“Of course, in fact, with reference to the marketing process of Xiao’s Pharmaceutical Factory, it is not difficult to find that the two main tools of their success – the network and the quality of their products – are two factors that have played an immeasurable role in this marketing process of Xiao’s Pharmaceutical Factory.”

The expert, who really looked like an expert scholar, narrated, “So if other companies want to launch any new products, as long as they have confidence in the quality of their products, then they can completely replicate this marketing model successfully in the past. After all, the tell-tale development of the internet nowadays makes any news spread through the streets in the shortest possible time, which is a very terrifying propaganda tool, and product quality, in turn, is fundamental to a product’s long-term existence, so to say, this marketing method is very simple, as long as these two factors are grasped, everything will not be a problem!”

“In addition, I would like to give a piece of advice to those companies who are ready to copy this marketing model, don’t make a similar mistake like Xiao’s Pharmaceutical Factory, and seize the time to spread the goods first, instead of hunkering down at home and discussing strategies!”

The expert looked completely serious, “Because products are produced to be used for sales, so we can absolutely lay out the goods first, and in the process of laying out the goods, then discuss specific action strategies, or campaign details, it’s not too late, is it?”

“Okay, our issue of

Snap!

Inside Xiao’s pharmaceutical factory office, Ji Feng casually turned off the TV and turned his head to ask: “How about it, do you guys think, does what this expert said make sense?”

In the office, apart from Ji Feng himself, there were also Han Zhong, Xu Yuan and Yang Dezhao, which was the reason Ji Feng had specially invited the three of them here to watch such a program. Moreover, this program is not broadcasted now, but Ji Feng overheard it when he was at home, so he simply cut such a video from the Internet, intending to learn.

From the promotion of Kang Yuan slimming powder, Ji Feng realized that he had a lot of shortcomings, and that other people’s evaluation of himself should be more objective, and that the mistakes he made would be seen a little more clearly, so Ji Feng studied this program carefully.

However, he did not expect that the more he studied, the more absurd he felt. The expert's words sounded reasonable at first, but if he thought about them carefully, he would find a lot of holes.

However, Ji Feng was worried that it was because this expert was evaluating himself that his mind was unable to look at people's evaluations properly, so he had deliberately invited all three of Han Zhong over, just to correct his mind.

"At first I thought what he said was quite reasonable, only later the more I pondered it the more wrong it became, so I came to ask you guys for advice." Ji Feng laughed.

"Bullshit reasoning!"

Han Zhong couldn't help but snicker, he completely scoffed at this expert's words with a disdainful face: "He doesn't know anything, he's just talking nonsense on TV, and after all is just two words, the two great tools of the internet and product quality There are many good things, but those that do not sell account for the vast majority, many products of poor quality, but in the marketplace, this is why?"

Xu Yuan also nodded slightly and said, "Boss, you should not be fooled by these so-called experts, this person's words sound very hollow, no substance at all, and it also sounds as if there are some amateurs, I think he may not even know exactly what marketing is all about!"

"No, your words are also very hollow ah, I just want to know what is wrong with his words, say something specific!" Ji Feng said immediately.

"Oh"

Han Zhong laughed and said, "It's actually very simple, look, ah, other things we will not say first, just alone just to say that his last advice to other companies, what first laying goods, and then negotiate the details Just in terms of our promotion of this Kang Yuan slimming powder, if we really spread the goods first, then, the activity will not want to do."

"Mr. Han is right!" Xu Yuan nodded approvingly from the side, picking up the conversation, "For example, once the goods are spread out, the next thing can be a problem, because if a reward event is held, then are all the points of sale holding events? That's obviously impossible, not to mention that we don't have that many staff, and just that many freebies would be an astronomical amount. So, just a few of them are targeted?"

"That's not realistic either!" Han Zhong chuckled, "How can we guarantee that the other sellers or retail outlets won't take advantage of the opportunity to raise prices if we just target a few of them? How can we guarantee that they won't secretly play small tricks on each other? If the scope is large, we won't be able to control the situation, and when the event is not held, it will be messed up instead, and the reputation will be ruined and the products will be wasted, so to speak, the name and profit will be empty!"

"When you guys say that, I understand." Ji Feng was suddenly enlightened, although he always felt that there was something wrong with what this expert said, but he just couldn't remember exactly what was wrong, now that Han Zhong and Xu Yuan had pointed out so much, he immediately understood.

"In that case, his analysis of our preliminary promotion is also incorrect!"

Chapter 724

“In that case, his analysis of the strengths and weaknesses of our preliminary promotion is also incorrect!” Ji Feng said with a nod.

“Of course it’s not right!”

Yang Dezhao, who hadn’t spoken all along, couldn’t help but hum, saying, “That guy doesn’t know our actual situation, he only sees our current hot scenario, but doesn’t know how cold our pharmaceutical factory was in the early stage These experts, all of them are hindsight, there is no use!”

“Hehe” Ji Feng couldn’t help but smile slightly and said, “These experts’ words are really People like me who don’t have much experience might really be fooled by him.”

“Boss, in fact, to put it bluntly, these experts are just making a living from this, look at the end of his program, and remind those so-called enterprises who want to copy this marketing model of ours, what to do, in fact, he is waiting for those enterprises to call him to take up a position like a consultant, to help those enterprises to develop strategies and so on This is really too common and has long since formed a profession, you’re seeing less and more!”

Han Zhong said disdainfully, then he laughed heatedly and teased Ji Feng twice, “However, it’s very rare for our boss to have this kind of learning mentality, ah!”

“Fuck off!” Ji Feng cursed with a laugh.

Xu Yuan pursed her lips and smiled lightly, and Yang Dezhao also laughed.

“Boss, in fact, marketing is just like that, it’s about finding ways to sell things to others, and to sell more and sell faster!” Xu Yuan was afraid that Ji Feng would also be fooled in the future, so she said patiently, “As long as we can think of this method, that is the most successful marketing, as for the words of those experts, some can be believed, but some can’t, very often we have to look at it in the context of our specific actual situation!”

“What you said is very reasonable.” Ji Feng nodded his head with deep empathy and said with approval.

“Actually, it’s not just that, boss, you may not have much experience in this area right now, it doesn’t matter because you’ll naturally learn it later when you’ve experienced more.” Xu Yuan added, “But you mustn’t be in a hurry, or else you’ll easily make mistakes!”

Ji Feng nodded and laughed, “Don’t worry, I’ll pay attention, this is not just to invite you guys here, if you can’t tell right from wrong, I’ll ask you guys, if you can’t decide, you can also come and ask me, we learn together and make progress together!”

Several people laughed at the same time, while Xu Yuan and Yang Dezhao, in their hearts, were secretly nodding their heads, this learning mentality of Ji Feng made them very satisfied and admired.

Generally at an age like Ji Feng, who has created a career at a young age with his own hands and has achieved a lot, it is inevitable that he will be a bit drifting, always thinking that he is invincible, or that no one can compare to him, so where would he still have this learning mentality?

It has been proven that those who become famous or establish a career at a young age, in fact, their career rarely lasts long, generally can be more than five years are very few, the majority of them in two or three years, their career failed, such people in the rapid flow of the Yangtze River, but only a small wave, some even can not even turn the wave, and disappeared without a trace.

It all has a lot to do with their mindset.

To be able to set up a business at a young age shows that those people are not bad at all and that they have enough brains.

But the problem is that when they first become successful, they are proud, arrogant and no longer open-minded to learning.

Especially after becoming a boss, the wonderful feeling of holding power in their hands makes them instantly lose themselves

The actual fact is that Ji Feng is different, completely different from those people.

When the Kang Yuan slimming powder was not promoted successfully, Xu Yuan and others could not see the sadness from his face, still with a smile on his face, calm and very steady. Every day he was with Xu Yuan and others, researching how to promote the slimming powder, that kind of struggle mentality, showing nothing, two consecutive setbacks, did not let him lose his fighting spirit!

And by the time the Kang Yuan slimming powder exploded all over the city and was known throughout the country, Ji Feng began to learn again with an open mind, and this attitude alone could already make Xu Yuan and others foresee that with such a boss in control of the big picture, the pharmaceutical plant would only get better and better!

Unless One day Ji Feng will become arrogant and arrogant too!

But at least for now, he hasn't.

This was one of the things that Xu Yuan and Yang Dezhao appreciated quite a lot, and it was one of the shining points in Ji Feng's body.

"Right, boss, there's something I need to ask you to decide!" Xu Yuan suddenly remembered something and took out a document from the bag with her, "This is the evaluation report of Changhe Drug Company, a survey I conducted together with a few employees of the factory, I think that with Changhe Drug Company's current strength and sales channels, at most it can only take on the role of our general agent in Jiangzhou region, but not the ability to take on the role of the general agent nationwide!"

"And you made an assessment?" Ji Feng was stunned.

"Yes." Xu Yuan nodded her head.

Ji Feng couldn't help but smile, "It's hard work for you, but I'm sure that Changhe Drug Company will have the ability to promote us is slimming powder to the maximum extent."

"Boss, this agency is not a child's play, with the current hotness of the slimming powder, if you come to bid for the agency, just in this one city of Jiangzhou, if you want to take the agency, it will be at least above ten million, and this is just a conservative estimate." Xu Yuan said sharply, "If it's the whole

country, that's simply an astronomical figure, moreover, who the agency is given to, it's also related to the sales of the slimming powder in the future, boss, you have to consider it carefully!"

"This I naturally know."

Ji Feng nodded and said, about the agency fee, he had long understood it privately, and also referred to many books on this subject in the school library.

But in Ji Feng's opinion, the agency fee was not a problem. Although there was no difference between one's own people and outsiders in the shopping mall, they were all partners, but Xiao Changhe was not someone else after all. Ji Feng felt that it was perfectly fine to give the agency right to Xiao Changhe first, and then give the agency fee to himself when he had made money.

Ji Feng immediately told his idea, because Xu Yuan and Yang Dezhao didn't know what kind of relationship Xiao Changhe had with himself yet, so Ji Feng just vaguely said that Xiao Changhe was a relative of his and was completely trustworthy.

"Boss, in fact, it's like you said, the agency fee is only a minor issue, but what about the fading of Kang Yuan slimming powder in the future?" Xu Yuan asked, "I have a brief understanding of the sales channels and strength of Changhe Drug Company, frankly speaking, if in Jiangzhou, this company's channels can barely be considered manageable, but what about sales in other parts of the country?"

"Yes, boss, this agency right can be more than just giving the agency fee and everything will be fine." Yang Dezhao also said next to him, "In this, to give agency rights to a certain company, it must be considered comprehensively, and as Mr. Xu also said earlier, the channel is a big problem in the first place. Changhe Drug Company does not have enough channels, even if our Kang Yuan slimming powder is more famous, it may not be able to open the market, this preliminary steps to occupy the market, directly related to how our pharmaceutical factory should develop in the future!"

The first step to occupy the market is directly related to how our pharmaceutical plant should develop in the future!" Ji Feng couldn't help but frown, these are not something he hadn't considered, but in his vision, the Changhe Pharmaceutical Company is actually equivalent to a franchise shop, and other customers, is equivalent to those who come to the shop to buy things, how to promote through channels, how to transport and other issues, should be completely by those customers themselves to figure out.

The company's reputation for quality of service and speed, if Xiao Changhe's company can't keep up with the expansion of the slimming powder's fame, I believe there will be a situation where sales and fame are extremely incongruous.

After pondering for a long time, Ji Feng looked up and asked, "So, what do you guys think we should do?"

"It's actually very simple, since the boss wants to take care of this Changhe Drug Company, it's not impossible, we will simply give the agency rights of Jiangzhou to Changhe Drug Company, as for the agency fee, you still need to negotiate For the agency rights of other regions in the country, we implement a bidding mechanism, whoever offers more money, who we consider first, then we will look at the channels and comprehensive strength of these people and finally determine who exactly to give the agency rights to!"

“And how do you plan to divide the regions? By province?” Ji Feng asked.

“That’s right, this is the simplest and at the same time the most effective way, each agent, will try to safeguard his own rights and interests, they will ensure that the market price is not confusing and the channels are not crossed Together with our supervision, I believe we can completely guarantee the smooth and fast promotion of Kang Yuan slimming powder to the whole country!” Xu Yuan said confidently.

After this period of honing, the kind of habitual compromise she originally developed while running business has now completely disappeared, replaced by a competent and confident, her body, overflowing with an amazing charm and charm!

“Just do as you say!” Ji Feng immediately nodded: “It was my poor consideration before, Xu Yuan, Uncle Yang, thanks to your arguments, otherwise, I would have made another mistake. I hope you guys can keep it up like this in the future, the pharmaceutical factory needs everyone’s joint efforts if it wants to continue to grow.”

“Boss, just don’t worry, we don’t want the pharmaceutical factory to collapse, otherwise, who will pay our salaries if we lose our jobs?” Xu Yuan giggled and charmed.

Yang Dezhao also nodded and smiled, but in his heart, he was extremely appreciative of Ji Feng’s submissiveness, there were too few people like Ji Feng.

Nowadays, people, especially young people, once they have achieved a little, they will immediately drift away, how can they still listen to other people’s opinions, let alone different views.

Ji Feng is different, he is not at all shy about revealing his shortcomings, likes to learn, and is even more amenable to good advice As long as it is good, he will listen carefully, if he has a different view, he will debate with you seriously, either you will convince him or he will convince you

With such a person in control of the pharmaceutical plant, there is no worry that the pharmaceutical plant will not have a bright future.

.....

I have been updating for a long time now, very unsatisfactory, two updates a day, ridiculously slow, I know myself, and I have broken my promise before, so I have not dared to look at the book review section, and I am not looking at the same now, but there are certainly many people who scold me, I have brought this on myself, I understand very well.

The normal update will resume next Monday and there will be at least three to four updates a day.

This promise is not only to all my fellow readers, I have also told my editor that if I don’t update normally next Monday, I promise never to write again and Anshan Fox will never appear on the internet again.

We’ll see what happens, folks!

Chapter 725

The fame of Kang Yuan slimming powder has finally been established, and the problem of agency rights has been solved, so Ji Feng can finally relax for a while.

In response to the agency issue, Ji Feng specifically sought out Xiao Changhe and explained his plight. In fact, for someone who had boasted before and promised to give all the agency rights to Xiao Changhe, and now told someone that he could only give you the agency rights of Jiangzhou, and the agency rights of other regions, there was no part for you!

–This really requires courage!

Ji Feng couldn't help but feel quite embarrassed when he was talking to Xiao Changhe about this.

Who knew that Xiao Changhe was unconcerned, but instead appeared to be very happy.

Only then did Ji Feng realise that, as it turned out, Xiao Changhe also thought that he did not have the ability to be the general agent for the whole country, and that he was content to be the general agent for Jiangzhou.

The reason why Xiao Changhe is happy, but also because he did not because of the relationship with Xiao Changhe, it is reckless, and only in this way, the pharmaceutical plant will be able to long-term stable development. Otherwise, at most, it would be a flash in the pan, rising quickly and falling apart quickly.

Through this matter, Ji Feng learned a lesson, more no longer easily promise, especially for their own do not understand things, before not understand, not even published views.

With the gradual enrichment of experience, Ji Feng became more stable and at the same time was growing rapidly.

The loss of the pharmaceutical plant finally came to an end, and only then was Ji Feng a sigh of relief, Kang Yuan slimming powder from the successful development until the promotion, which was used for nearly three months, in the process, Ji Feng almost did not think about other things, completely put all the energy into the promotion of Kang Yuan slimming powder.

It has been proven that with effort, coupled with the right approach, there will be a return!

An internet campaign and a heavy reward, as well as the extraordinary quality and effectiveness of Kang Yuan Slimming Powder, made this newly launched slimming product known to everyone in less than two months after it was launched.

Not only is this popularity almost comparable to those health products that are bombarded with announcements all day long, but more importantly, the cost to Xiao's pharmaceutical factory is almost unbelievably small!

Of course, if you take into account the free stockpile of slimming powder that Xiao's pharmaceutical factory has made during the past month, the cost is not small, although the price of those ingredients is not high, but the quantity is too huge!

Perhaps for those wealthy pharmaceutical groups, this kind of promotion is nothing at all, their annual investment in the major TV stations TV advertising costs, is an astronomical amount, this money is simply not in their eyes.

Only, for Ji Feng and Xiao's Pharmaceutical Factory, this amount of money is actually already considered extremely huge.

Not to mention anything else, according to the statistics of the finance department's Tian Nan and Yang Jun duo, the slimming powder given away in this month alone was the pharmaceutical factory's profit for two consecutive quarters.

In other words, this one month of free drug giveaways had actually caused Xiao's Pharmaceutical Factory to lose all of its profits from the previous five months!

However, it was all worth the investment, which was evident from the current hotness of Kang Yuan's slimming powder.

"Why don't you go to the pharmaceutical factory? All busy?"

Seeing Ji Feng lying on the sofa in the living room, leisurely flipping through the newspaper, Xiao Yuxuan couldn't help but smile sweetly and ask.

Ji Feng turned his head, but found that Xiao Yuxuan was holding two apples in her hand, he casually took one over, rubbed the apple casually on his body a few times, and opened his mouth to bite it.

"Wait a minute!"

Xiao Yuxuan suddenly grabbed Ji Feng's hand and complained, "Really, from whom did you learn this bad habit? You always have to wash it before you eat it, right?"

"You didn't wash it?"

Ji Feng turned his head to look at the fruit plate on the coffee table and found that it was indeed unwashed, he laughed: "It's not dry, no disease when you eat it, nest and live forever"

"You!"

Xiao Yuxuan lovingly gave him a blank stare and softly said again, "I'll go and wash it for you!"

Ji Feng, however, hugged her and rolled over so that Xiao Yuxuan also lay down on the sofa, hugging her sultry and soft body tightly, and laughed heatedly, "It's better for us to go wash together!"

Xiao Yuxuan instantly blushed, of course she knew that Ji Feng was not talking about washing apples, ever since the last time the two of them had taken a bath together, this bad guy had become addicted, thinking of bathing with himself all day long

"Wow!"

Xiao Yuxuan's delicate body suddenly trembled and a delicate and incomparable moan subconsciously escaped from her exhaled red lips, she hurriedly bit her lips and her small hand grabbed the big hand that had climbed onto her chest, "Little rascal, it's broad daylight!"

Her body was softened by Ji Feng's touch, her legs involuntarily clenched, her heart bursting with desire, and she almost couldn't help it.

However, when she remembered that this was still in the living room and Xiao Ying had gone out with Lei Lei and didn't know when she would return, the desire in her heart immediately disappeared without a trace.

The three of them had been together for a crazy number of times, and there was no longer any privacy or secrets between them, and she and Tong Lei were almost like close sisters, with deep feelings.

However, if Xiao Ying saw it, Xiao Yuxuan would simply not have the face to see people again.

Ji Feng also knew that this was not the place to be, he looked up at the time and found that there was still some time before Tong Lei finished school, he could not help but heave a smile: "Yu Xuan, thinking about it, right? This period of time has been too busy, also no kung fu to accompany you, today I'll make it up to you, okay?"

Xiao Yuxuan's shy eyes closed slightly as she murmured, "No good, just don't give it, hurry up and kill you, this little rascal"

"Do you give up?" Ji Feng grinned, and the action on his hand increased in strength again.

"Mmm!"

Xiao Yuxuan clenched her red lips, her beautiful eyes were misty, and she whimpered, "I failed again, I surrendered before you every time"

Ji Feng instantly laughed, rolled down, picked up Xiao Yuxuan's light as nothing delicate body, quickly went upstairs and entered the bedroom.

In a short time, the bedroom resounded with bloodthirsty moans, Xiao Yuxuan had already been stripped naked, the tender and smooth body like silk like satin, was pressed under Ji Feng, her pair of small hands fiercely and unconsciously scratching at Ji Feng's back, a pair of tender white feet constantly trembling, the delicate little jade toes, like crystal like jade, were constantly bending and stretching out, bending and stretching out again

When the clouds closed and the rain stopped, everything finally calmed down, leaving only Xiao Yuxuan's unconscious panting.

Ji Feng looked at her lazy and delicate appearance and could not help but smile slightly, kissing her on the forehead and hugging her still somewhat hot and delicate body tightly, while thinking about something in his mind.

Ever since the conflict with the dynasty, Ji Feng found that his routine broke down at once. Especially during the time when White Spider entered the United University as a teacher, everything Ji Feng did revolved around preparing for the attack of the dynasty. Although it was said that the matter of White Spider was properly resolved later, however, it did not mean that everything was finished.

What worried Ji Feng the most was the man behind the curtain who sent the white spider to Jiangzhou, that was the most terrifying because the other party was hiding in the darkness while Ji Feng was in the light, which was simply impossible to defend against.

Especially after seeing the strength of the senior reformer, Ji Feng couldn't help but be secretly shocked, with Hui Yi and Liu Xin's skills, they actually couldn't stop that senior reformer, thus it was enough to

show how powerful the other party was. In that case, it was simply more difficult to defend against such a person's sneak attack.

When he thought that he didn't know when this kind of advanced transformer would appear to attack Xiao Yuxuan and Tong Lei, Ji Feng couldn't help but be on guard.

In fact, he originally wanted to strike while the iron was hot, and after uncovering that advanced reformer, he would then uncover which figure was hiding, behind the scenes.

But things were not as they should be, from Xiang Yongzhan's words, it could be heard that this time it seemed to involve a lot of people, moreover, the other party was also quite powerful, actually able to make even Xiang Yongzhan have a headache, Ji Feng had to temporarily shelve this plan, however, he has not given up his intention in this regard.

In fact, when you think about it, Ji Feng can't help but feel a little funny, the people behind the other side should be estimated to be in over their heads to make such a faint move.

The more huge the relationship used, showing the other party's great energy, in fact, the easier it is to reveal the other party's true identity.

Imagine how many people there can be who can use their connections behind the scenes to give even Xiang Yongzhan a headache?

Moreover, the more connections the other party uses, the less secrecy the matter will have. If Ji Feng was the one behind the scenes, he would never be stupid enough to use so much power to stop Xiang Yongzhan from investigating.

Now that Xiang Yongzhan is investigating this matter, that's the country he represents!

No matter how powerful the dynasty was, how could it fight against the state in this part of China?

—stupid behaviour!

This was the comment Ji Feng gave to the other party.

However, while laughing at the other side, Ji Feng had to guard against the other side jumping to the wall or trying to deal with himself in spite of everything.

Therefore, Ji Feng then intended to contact Xiang Yongzhan, on the one hand to find out the results of the investigation, and on the other hand, to get timely information so that he could make plans for the future.

"Apart from that, since I've been idle, it's time to settle the scores of Hu Yigui and Ma De Wang!" Ji Feng coldly snorted in his heart and a cold light flashed in his eyes.

Hu Yigui and Ma De Wang were different from Shang Qionggen, for the latter, Ji Feng took a laissez-faire attitude, since he wanted to crack down on the other party, he should make him lose what was most precious to him when he was most proud!

This is the most ruthless revenge!

For people like Shang Qionggen, Ji Feng did not intend to hold back in the slightest.

The two bastards, Hu Yigui and Ma Dewang, Ji Feng did not put in his eyes at all. He did not clean them up before because he did not have his hands free, but this time, he had to think of a way to

“Just because of you two, let me just start to promote the slimming powder, I have suffered a headache, how should I thank you!”

Chapter 726

Ji Feng pondered how to deal with these two bastards, Hu Yigui and Ma Dewang, who were even more odious than Shang Qionggeng's revenge. For Ji Feng, this was the first time he had to take the initiative to deal with someone else, so you can imagine how furious he was in his heart!

However, it was not that easy to clean up these two people. Even Ji Feng could not clean up the vice president of Jiangzhou First Hospital for no reason, and if Second Uncle found out about it, he thought he would not be able to escape a reprimand.

He likewise wouldn't use despicable means like framing and secretly laying hands on him. If he had to use such means to deal with these two bastards, Ji Feng wouldn't have to be in the business.

Therefore, Ji Feng could only look for opportunities privately on his own.

After thinking about it carefully, he decided that he would leave this matter to Yi Xingchen.

In any large hospital, to say that there was no foul play in it, Ji Feng would not believe it to death. And Hu Yigui, as the vice president of the hospital, would most likely be involved in these foul play, and what Ji Feng was looking for was evidence of this.

When he had made his decision, he picked up the mobile phone on his bed and looked at Xiao Yuxuan, who was already asleep, and prepared to quietly get up and go out to call Yi Xingchen. However, just at that moment, the phone suddenly rang.

“Ding”

Ji Feng frowned slightly, then immediately hung up the phone, he turned his head to look at Xiao Yuxuan and found that she had not been woken up, then he was slightly relieved, quietly got up and covered Xiao Yuxuan with the blanket before walking out.

When he came to the living room, Ji Feng casually tapped on his mobile phone a few times and found that the call was from his second brother, Ji Shaolei, he couldn't help but smile slightly.

Moreover, I heard that the recent progress between second brother and Xiang Yurou was going very well. A few days ago, second uncle Ji Zhenguo called to focus on Xiao's pharmaceutical factory, and also talked about second brother, and it seemed that the two might get engaged in the near future.

Ji Feng then secretly guessed that he must be calling his second brother for his engagement to Xiang Yurou.

He pressed the callback button and called Ji Shaolei.

The call was quickly answered, and Ji Shaolei's voice came from inside: “San'er, why did you hang up just now?”

“Oh, I was a bit busy just now, it’s fine now ……” Ji Feng gave a vague snort and immediately changed the subject: “Second brother, why did you suddenly remember to call me? Is it because you and your sister-in-law are getting engaged?”

“Not that soon!”

As soon as Xiang Yurou was mentioned, Ji Shaolei’s voice was immediately filled with excitement, “However, it won’t be too long to wait, San’er, that bodybuilding exercise you taught me is really good, I’ve been practicing it consistently, and now I can already fight Xiang Yurou on even terms ……”

Ji Feng couldn’t help but chuckle and said, “Second brother, this is still called not bad? Have you been slacking off? Or is your sister-in-law’s hand too powerful? If you had stuck to practicing, you should have been able to defeat her by now!”

It had been almost a year since he had taught Ji Shaolei the aerobics, and now that the first semester of his sophomore year was almost over, Ji Shaolei had actually not yet defeated Xiang Yurou, which was an efficiency that Ji Feng really dared not agree with, thinking that with his dodgy nature, second brother was probably lazy in his practice.

“Third child, brother I’ve been persistent and haven’t slacked off for a single day! Even when I’m drunk while socialising, there’s definitely not a single day I’ve fallen behind.” Ji Shaolei said with a chuckle.

“Then why are you progressing so slowly? Is there something wrong somewhere?” Ji Feng was stunned, according to his experience in practicing aerobics, there shouldn’t be any problems during the exercises, and the fact that Second Brother’s progress was so slow, was it because the movements weren’t done properly, so the results were not good?

“My progress is not slow anymore!” Ji Shaolei laughed, “If I were to do it seriously, Yu Rou is no longer a match for me now. The reason I’m not in a hurry to defeat her now is because I want to slowly cultivate my feelings, understand?”

Ji Feng was instantly filled with black lines, there was actually such a thing?

It was true that fighting each other was able to cultivate feelings, but that was mostly for the kind of friendship between men and men, as the saying went, no fight, no deal, sometimes the friendship that came out of fighting was more solid than those friends who had known each other for many years.

But between a man and a woman, it is possible to have a no-fight, no-deal relationship?

Even if they are happy enemies, there is no such thing as being enemies over fists and kicks, right? Second brother is really different!

“Third child, do you find it hard to understand brother’s thoughts? That’s what you don’t understand!” Seeing that Ji Feng did not say anything, Ji Shaolei knew that this third brother must be slandering himself in his heart, he could not help but laugh and said, “Tell you what, between this man and woman, ah, sometimes it is like a rally match, you can’t push too hard and you can’t be too gentle, you have to slowly master the fire of this ……”

“Especially with some women, you can neither be too soft nor too tough all at once. If you are weak, they will look down on you and will not be half interested in you, but if you are too strong at the beginning, they will likewise be disgusted and think that you are too arrogant a person”

The actual fact is that you will be able to get a lot more than just a few of the most popular and popular items on the market. The first thing you need to do is to get a good idea of what you’re doing.

Ji Feng cried and laughed as he listened, saying, “Second brother, what kind of theory is this, you didn’t call just to tell me this, did you?”

The fact is that Ji Feng has no idea what to do with these strange ideas of Ji Shaolei, but he also knows that Ji Shaolei is such a jumpy nature that people can’t take his pulse.

In fact, in Ji Feng’s opinion, I’m afraid it’s only a woman with a strong character like Yu Rou who can withstand such a soft and hard approach from her second brother. If there was another woman, she would either have been bored to death with her second brother or would have already given her away, so where would she give him the opportunity to show his skills?

Ji Shaolei laughed: “Forget it, I knew you wouldn’t learn this set of mine, alas, what a pity, originally wanted to pass it on to you, the result is that you are good, actually still do not appreciate it”

“I thank you, that theory of yours, it’s better to save it for passing on to others, I’m too brainy to learn that!” Ji Feng chuckled, “Second brother, say it, what do you want from me.”

“You brat” Ji Shaolei cursed with a laugh and said, “It’s not me looking for you, it’s Xiang Yongzhan who wants to find you, but it’s not good to ask you, so he asked me to intercede, if you’re free now, come to the military district guest house, I’ll wait for you at the intersection in front of the guest house.”

Ji Feng immediately frowned and asked, “What is it that he can’t tell me personally, and he has to ask you to intercede? It’s something unpleasant again, right?”

“Not really, it’s not very good to talk about it over the phone, it’s better to talk about it when we meet.” Ji Shaolei laughed: “Actually, it’s not certain if you can help.”

Ji Feng deliberated slightly, thinking that he also happened to be looking for Xiang Yongzhan and prying into the matter of that mastermind behind the white spider, he nodded his head and agreed, “Alright, I’ll leave now, I’ll be there in about an hour.”

After hanging up the phone, Ji Feng couldn’t help but frown slightly, what second brother said on the phone was vague, what with asking for his help and not necessarily being able to help

Ji Feng shook his head, it’s useless to think about this now, it’s better to wait until after we meet.

The actual fact is that you will be able to get a lot more than just a few of the most popular and most popular items on the market.

The first thing you need to do is to get up and go upstairs and look at Xiao Yuxuan, who is sleeping soundly. He couldn’t help but smile slightly, kissed her smooth forehead, took out a pen and wrote on a sticky note that he was going to his second brother’s place and put it on the bedside table next to him before leaving quietly.

Before leaving, Ji Feng turned on all the guard devices at home, and then he drove straight to the military district guest house.

.....

At this time, two visitors came to the Xiao Pharmaceutical Factory.

Xu Yuan's pretty face was expressionless, but her gaze was tinged with a hint of displeasure as she looked at the two people in front of her.

The young man's figure was slightly slim, his cheekbones slightly high, his face appeared somewhat pale, and his gaze carried a hint of frivolity as he looked up and down Xu Yuan's body across the table.

The middle-aged man, on the other hand, was wearing gold-rimmed glasses and was slightly blessed, but did not look fat, but rather looked like a successful man.

However, his gaze, like that of the youth, carried a hint of frivolity. Only this middle-aged man hid it better, and if one did not look closely, one would not be able to see it at all.

But what kind of person was Xu Yuan?

When she was working in sales, she had met too many people, all kinds of people, good people, bad people, decent people, and hungry people too.

Although one of them was well disguised and the other was pretending to be serious, the flirtatious look in their eyes caught Xu Yuan's eyes, causing her to frown slightly.

At this time, the staff poured a glass of water for each of them and was about to leave, but Xu Yuan called out to her.

"Go and call the director of the factory Yang, these two gentlemen are here to talk about cooperation, there are some things that need to be decided by him!" Xu Yuan instructed, "Be quick!"

She then stood up and smiled apologetically at the two of them, "Sorry, I have other clients to receive on my side, our factory director will be here immediately, please wait for a moment."

With that, she was about to get up and leave.

Chapter 727

Nowadays, Xu Yuan is no longer the saleswoman who had to smile under the flirtatious eyes of those lecherous men in order to close a few more deals; she is now the general manager of Xiao's pharmaceutical factory, managing a total of several hundred employees under her.

Under such circumstances, she would not have put up with the gaze of these two frivolous people here.

If it wasn't for the business of the pharmaceutical factory, Xu Yuan would have stood up and blown these two people away.

She could clearly feel the eyes of these two people sweeping over her important parts from time to time, especially her breasts, which were the focus of their attention, which made her very angry and annoyed.

In order to avoid getting angry with herself, Xu Yuan then asked the staff to call Yang Dezhao, to talk to them with a man instead, to see how frivolous they could still be!

“Wait!”

The young man, however, suddenly spoke up and stopped, “Mr Xu, you’re so eager to judge that we’re here to talk about cooperation when you don’t even know where we’re from yet?”

“Why, didn’t you two say to our doorman earlier that you were here to talk about cooperation?” Xu Yuan’s eyebrows knitted up as she asked indifferently, “Then, I wonder what exactly is the purpose of the two of you coming to our pharmaceutical factory?”

“General Xu, it seems a bit impolite for you to stand and talk to us like this, doesn’t it?” The middle-aged man also frowned slightly, “Is this how Xiao’s Pharmaceutical Factory treats its visiting guests?”

Xu Yuan had experienced too many such scenes, how could she be squeezed by these two words from the other side?

“Sorry, Factory Director Yang will be here soon, when you have any problems, you can speak to him directly, he can make the decision on all matters in the factory, it will be more convenient for both of us then!” Xu Yuan smiled lightly and turned to leave.

“Bang!”

The young man immediately slapped the case and said angrily, “Mr. Xu, I think you are sincere in not wanting to cooperate, right?”

“What the hell do you want!?” Xu Yuan’s face immediately sank, not to mention the frivolous eyes of this duo, but now they were actually so unreasonable, and their attitude was even more arrogant and domineering, making Xu Yuan’s heart disgusted.

“What for? Of course we’re here to talk about cooperation, but unfortunately, Mr Xu doesn’t seem to be that interested in cooperation!” The young man said coldly, “Mr Xu, you should think it over, if you walk out of this office, it won’t be easy for any of your medicines to enter the Central Plains Province in the future.”

Xu Yuan was instantly stunned, “You are from the Central Plains Province?”

These three words of Central Plains Province made Xu Yuan’s will to leave not so resolute. One should know that although the Central Plains Province was not the most developed province in China, it was an extremely vast market with a large population and an extremely promising market. If the promotion of the pharmaceutical factory’s Kang Yuan slimming powder in the Central Plains Province was affected because of her own unfriendliness, it would be too bad for Ji Feng’s trust.

Seeing Xu Yuan stop in her tracks and give a slight beat, the young man couldn’t help but reveal a smug smile and said, “First, let me introduce myself, I, Su Aigong, am the head of the business department of the Northern Pharmaceutical Group in Central Plains Province, and this, is our department manager, Zhao Jingzhong.”

Xu Yuan nodded slightly and said, “We have already met.”

In her heart, she couldn't help but feel a sudden jolt, the Northern Pharmaceutical Group, it was really a huge deal!

In the field of medicine, if one had not heard of the Northern Medicine Group, one would certainly be laughed at for not having seen anything, just as one would look so ignorant in the real estate world if one did not know about the real estate giants, in the martial arts world if one did not know about the Shaolin Temple, or in the field of daily necessities if one had not heard of Procter & Gamble.

The Northern Medicine Group, an iconic private enterprise in the Central Plains Province, is like the private flag of the Central Plains Province. From this it is enough to imagine just how strong the Northern Medicine Group is.

I can't imagine that these two people are from the Northern Medicine Group, it is really a bit out of Xu Yuan's expectation, fortunately just now did not completely tear the face, otherwise, one has inadvertently set up such a horrible enemy for the pharmaceutical factory, at that time even if Ji Feng does not say anything, he definitely has no face to continue to stay in the pharmaceutical factory, Ji Feng trusts himself so much, and he has made things so The company's business is a very good one.

Xu Yuan took a deep breath quietly, trying to calm herself down, no longer thinking about Su Aigong and Zhao Jingzhong's lecherous eyes, but asked, "I wonder what guidance you two have come to our little pharmaceutical factory?"

"I can't talk about instruction, we're here because we've been ordered by the company to talk to Xiao's Pharmaceutical Factory about cooperation." The middle-aged man, Zhao Jingzhong, said indifferently, "I think Mr. Xu should have some understanding of our company, right?"

Xu Yuan nodded slightly and said, "Of course I understand, the strength of the Northern Pharmaceutical Group, but anyone who works in the field of medicine will know something about it, it is an honour for our pharmaceutical factory to be seen by the Northern Pharmaceutical Group I wonder how you two plan to cooperate with us?"

"It's good that you know!" That young man Su Aigong had a hint of arrogance on his face, the eyes that contained a strong desire swept over Xu Yuan's chest, looking at those magnificent bosoms, he couldn't help but swallow a mouthful of saliva secretly and said, "Actually, it's very simple to cooperate, you give us the agency of Central Plains Province, the promotion and sales of Kang Yuan Slim Powder in Central Plains Province, etc., will be taken up by our Northern Pharmaceutical Group bear all the work."

"This matter"

Xu Yuan forced a disgusted look, just pretend not to see the other party's disgusting eyes, but slightly shook his head and said, "I'm sorry, I can not make the decision alone, need to discuss with our factory director, please both of you first listed out your cooperation plan in detail, such as the duration of cooperation, the way, and the agency fee, etc., we will discuss it before deciding whether there We will discuss this and then decide whether we have the honour to cooperate with your company!"

Xu Yuan's words were very polite and decent, not deliberately belittling herself, nor did she put the Northern Medicine Group on a pedestal, but more importantly, for the sake of Xiao's Pharmaceutical Factory's business in Central Plains Province, she forcibly endured the lustful eyes of the other party, which was enough to show her sincerity.

However, that Su Aigong was giggling, “You still want agency fees? What a big joke!”

“What, you plan to take away the agency rights of our Kang Yuan slimming powder for free?” Xu Yuan’s eyebrows knitted together once again, “Gentlemen, this is not in line with our rules You two better list out the details of your cooperation plan first, I’ll go and ask the factory manager to come over here.”

“Joke!”

Su Aigong laughed coldly, “Your Xiao Pharmaceutical Factory really has a big head, negotiating cooperation with our Northern Pharmaceutical Group and actually asking for agency fees? I think you are crazy for money, right? I think you are crazy about money, right? When did we, the Northern Pharmaceutical Group, ever pay agency fees when we cooperated with other pharmaceutical companies? Mr. Xu, you should know the strength of our Northern Medicine Group, I think you have a good idea of how much sales you can bring in the future, just the future profits alone will be enough for you to make a lot of money.

Xu Yuan gave him a surprised look, her heart was odd, she didn’t know if this Su Aigong was used to being arrogant or just an amateur, how it seemed that they didn’t understand business cooperation in the pharmaceutical industry at all.

The agency fee, no matter which company you work with, is essential, not to mention the Northern Pharmaceutical Group, even those pharmaceutical giants, when they share a lease with another company, the agency fee will still be paid, this Su Aigong even opened his mouth to mock himself?

Although the Northern Pharmaceutical Group was strong, if they didn’t pay the agency fee, Xu Yuan thought that there was no need to continue to talk about this issue.

“Both of you, you’d better list out the details of the cooperation first and give us a detailed document, we will pay high attention to it, after all, it’s an opportunity for us to cooperate with the Northern Medicine Group!” Xu Yuan said indifferently.

That middle-aged man, Zhao Jingzhong, however, frowned, perhaps Su Aigong could not hear it, but he understood it, Xu Yuan was avoiding the issue of agency fee, obviously he was going to push back.

“General Xu, you should think carefully, if you leave our Northern Medicine Group, the promotion of your Kang Yuan slimming powder in the Central Plains Province, can be greatly affected, there is no pharmaceutical company more influential than our Northern Medicine Group in the Central Plains Province!” Zhao Jingzhong said indifferently, his words full of warning.

Xu Yuan’s face changed, and then said, “Of course I know that, but I think that a group as big as the Northern Medicine Group should be more trustworthy and disciplined than some small companies! Please wait for a moment, I will go and ask our factory director to come over.”

“No need!” Zhao Jingzhong casually took his business card out of his pocket and put it on the table, “Mr. Xu, this is my contact information, if you think about it, you can contact me, we will all stay in Jiangzhou for this next half month, goodbye!”

Su Aigong was still a bit confused, but seeing that Zhao Jingzhong had gotten up, he couldn’t stay much longer, he just took another hard look at Xu Yuan’s towering breasts, before following Zhao Jingzhong to leave.

Watching Zhao Jingzhong and the two of them leave, Xu Yuan's face was very grave, as if she was thinking about something.

.....

At this time, Ji Feng was unaware of what was happening in Xiao's pharmaceutical factory. According to the address Ji Shaolei said, Ji Feng drove to a junction about a few kilometres from the Jiangzhou Military District Guest House and found Ji Shaolei sitting in his car smoking, he shook his head and drove the car over.

Chapter 728

Ji Feng got out of the car and came to the car of his second brother, Ji Shaolei, and found that Ji Shaolei was smoking while watching the car TV, occasionally raising his hand to check the time, so leisurely.

It was not clear what programme Ji Shaolei was watching, and from time to time, he was heckling and laughing.

"Knock knock knock!"

Ji Feng couldn't help but laugh dumbly and knocked on the car window, "Second brother, what are you watching, so happy?"

"Third child?"

Ji Shaolei was startled and seemed to be taken aback, when he saw that the person coming was Ji Feng, then he relaxed and directly opened the car window and said, "Nothing, just watching some comedy, you really don't say, this Wanran acted really well, a youthful jade girl, actually came to play a comedy, and she didn't act badly at all, tsk"

"What wanran?" Ji Feng directly pulled open the car door and sat in, smiling and asking, "What youthful jade girl?"

"San'er, you kid don't even know about Wanran? I think you've been too busy lately, haven't you?" Ji Shaolei looked at Ji Feng in amazement, "Don't you usually pay attention to some news?"

Ji Feng shook his head and said, "I've been busy lately, second brother, who is this Wanran? Is she on the news too?"

"Hey!"

Ji Shaolei shook his head with a smile and said, "The news I'm talking about is not the kind of news you think of on TV or in the newspapers, but the gossip that is circulated privately in the circle, but the authenticity of the news is not in doubt, this circle is like this, if there is something, within a day, it can definitely be spread to everyone!"

The circle that Ji Shaolei was talking about was actually the circle that these fops were in, they had nothing better to do all day, they just thought about how to make money and play with women, they didn't do anything serious at all.

"To tell you something new, it's about this Wanran!" Ji Shaolei laughed, "See, that's her!"

Saying that, he pointed to the screen of the car TV.

Ji Feng looked in the direction Ji Shaolei pointed and instantly noticed that a woman dressed in ancient costume, holding a sword, was dancing.

This woman could indeed be called beautiful, I don't know if it was because of the filming technique or if the woman herself looked very spiritual, just see on the TV screen, when this woman was dancing with the sword, there was always an ethereal feeling, it was as if she didn't look like a mortal.

What's more, when Ji Feng watched her dance with the sword, every move she made, she looked very atmospheric, but with a very special feeling.

She knew kung fu!

That was Ji Feng's first feeling about her, and moreover, this woman must have practiced swords before, and her skills should be very good. Otherwise, if it was someone without the basics, they wouldn't be able to do such movements. Moreover, this woman's eyes were so sharp that if one didn't look closely, one wouldn't be able to tell at all.

"Not bad, this woman is beautiful!" Ji Feng said with a serious nod, "She has a very special aura about her, well, it's very good!"

"Right, you also said she was very nice, right?" Ji Shaolei laughed and said, "If she's not pretty, can she be called a youthful jade girl there?"

"She's a martial arts actress, right? Oh, it's called Action star!" Ji Feng said.

"What action star, she's not a real kung fu star like Michelle Yeoh, this sword dance, ah, it's all the action director's designed moves for her, and then she learns to practice it!" Ji Shaolei said, "But these are not important, what I am going to say ah, has nothing to do with kung fu, you kid don't have everything to do with kung fu, okay?"

Ji Feng laughed, but in his heart, he was secretly thinking, this star called Wanran, her own kung fu is definitely not bad, but she is not famous by kung fu, it is strange, few people would give up their advantages and not use them.

But after thinking carefully, Ji Feng was relieved, just with this woman's city-defying looks, it was enough to make her famous in the shortest possible time, all over the north and south of the country!

"I tell you ah, two days ago a new thing happened, is this Wanran And this movie you are seeing now, accidentally fire, two days ago at a celebration party, it turned out that the female number two in this movie tried to help a kid thread a needle, and ended up being slapped by Wanran on the spot."

Ji Shaolei said excitedly, "That kid wanted to make a move, the result is that Wanran actually brought her sword with her when she held the celebration party, she directly drew her sword and placed it on that kid's neck, almost about to really kill him, scared that kid almost pissed his trousers on the spot, haha"

"Which kid?" Ji Feng asked in wonder.

“It’s a little word from Yanjing, his brother was even taught a lesson by me in the past!” Ji Shaolei laughed, “It’s really unexpected, this woman is actually still so tough, you really can’t tell from the outside.”

Ji Feng couldn’t help but shake his head with a smile and said, “So that’s the case, I think, it was this Wanran who showed mercy, otherwise, I’m afraid that kid in your hand would have been in the morgue by now.”

“She really knows kung fu?” Ji Shaolei was stunned and couldn’t help but ask.

Ji Feng nodded and said, “At least from the looks of it, yes, she definitely knows kung fu, but exactly how good it is, it’s still hard to say because I haven’t seen it with my own eyes.”

“No wonder, but this woman is not too bold, not only did she dare to make a move, but afterwards it was said that the kid was so scared that he didn’t dare to look for trouble again!” Ji Shaolei laughed.

“Could it be that just because he was scared once, he wouldn’t dare to retaliate? Then is that still the character of a dude?” Ji Feng asked with a smile, “I say, second brother, there couldn’t be some inside story in between that you don’t know about, right?”

“That’s hard to say, I’m in Jiangzhou, so there’s no way to know many things in detail.” Ji Shaolei nodded in agreement and suddenly asked again, “San’er, do you think this Wanran would not be someone with some big background? Otherwise, it’s strange that the kid she beat up could easily stop!”

Ji Feng laughed: “Who can say that Second brother, you called me here just to introduce this Wanran to me?”

“No!”

Ji Shaolei waved his hand and laughed, “I can’t stop talking about it once it’s all said and done. It’s like this, Xiang Yongzhan wants your help to save the White Spider, but he can’t ask you for help, so that’s why he found me.”

“What’s so bad about him asking?” Ji Feng asked with a smile.

“You are not sincerely squeezing people, the white spider and the people behind her wanted to disadvantage you before, moreover, even now Xiang Yongzhan has not provided you with the latest information in time, how can he ask you to ask, not to mention that the person you want to save is also the white spider!” Ji Shaolei laughed.

Ji Feng hummed and said, “He really dares to think of asking me to save the White Spider How am I capable of saving someone?”

“Then we go back now?” Ji Shaolei asked, “I haven’t told Xiang Yongzhan about you coming here, just to hear your opinion first.”

“Don’t go back first.” Ji Feng shook his head and said, “Let’s go find Xiang Yongzhan.”

Since Xiang Yongzhan had been investigating the black hand behind the white spider and that advanced reformer, Ji Feng had to ask who was actually doing it to himself!

It was obviously very unusual for someone from the dynasty to know that he was involved in exterminating the Western Xia branch, and Xiang Yongzhan's investigation was also about this, because since the other party knew about this, it meant that there must be someone from the dynasty within China. This was something that Ji Feng and Xiang Yongzhan had been very sure of long ago.

What Ji Feng wanted to ask now was this person behind the curtain.

Ji Feng had never been afraid of the dynasty. No matter how rampant this organisation was, it was no more powerful than the power of one country, China, so they could only strike in secret.

So what Ji Feng wanted to do was to cut off all the opponent's secret forces in China, so that they would become a tiger without claws. Even if the dynasty was more powerful, if they wanted to send someone into China, it would not be that easy. Even if they enter China and try to make a move, they will not be able to hide it from the eyes of the intelligence department.

Therefore, the key now is to find out who is behind this and eliminate them completely, especially for those senior reformers, we must not let any of them escape, even if there are any remaining ones, they cannot make any waves.

Once the senior reformers were eliminated, the other reformers would no longer be much of a threat, and the safety of Xiao Yuxuan, Tong Lei and the others would be guaranteed at that time.

This was Ji Feng's ultimate goal.

As for how to treat the dynasty in the future, that was already a self-evident matter, having formed such a grudge with the dynasty, even if one wanted to dissolve it, there was no possibility, only the path of confrontation to the end. Moreover, Ji Feng never wanted to reconcile with the dynasty. For such an organization, it was best not to get involved, but now that he did, he had to do his best to destroy it.

The first thing that happened was that the company's employees were not able to take advantage of the situation.

At that time, Ji Feng would not forgive himself even if he died.

"I must ask who, exactly, is trying to lay hands on me and the people around me behind my back!" Ji Feng said indifferently, but his eyes were showing murderous intent!

Ji Shaolei also felt the icy murderous intent in Ji Feng's heart, he immediately nodded his head and said, "Good then, I will contact Xiang Yongzhan now, he should be inside the military district right now"

.....

Ten minutes later, Ji Feng and Ji Shaolei met Xiang Yongzhan, who was dressed in military attire.

It was just that when he saw Ji Feng, Xiang Yongzhan's expression seemed a bit embarrassed, only his face was a bit dark, so if you didn't look closely, you couldn't really tell.

"Great-uncle, I've invited our family's oldest brother for you, but as for what to do next, it's none of my business!" Ji Shaolei said playfully, "Yu Rou is inside, right? I'll go find him!"

Perhaps because he felt embarrassed to see Ji Feng, Xiang Yongzhan automatically filtered out even Ji Shaolei's 'big brother' and didn't put on a cold face like he did before.

Of course, if it wasn't for the fact that Ji Shao Lei was pursuing Xiang Yurou, with Xiang Yongzhan's status, even if his rank was no longer high, he wouldn't have that qualification to put on a face with Ji Shao Lei, the old man of the Xiang family is no longer around, while the old man of the Ji family is still in good health, if we are serious about comparing, the Ji family is still slightly better.

It is only because of the strategy adopted by the Ji family in recent years, which has always been to fight with the Xiang family for good, while fighting with the He family in secret, that the position of the Xiang family has been maintained.

If not, even if the Xiang family were more powerful, it would never be able to be on an equal footing with the Ji family.

Of course, these issues are no longer the focus now, the most important thing is that Ji Shaolei is about to marry Xiang Yurou, the relationship and nature of the two families will be further changed.

Although marriage is not something that can determine everything in such a big family, but after all, there is such a name here, others have to consider the relationship between the two families when they do things, even if the marriage is just a formality, it still has its meaning in it.

The corners of Xiang Yongzhan's mouth twitched as he watched Ji Shaolei leave with a big smile, but he still didn't say anything.

Ji Feng frowned at him and said, "Grand Duke Xiang, the waiting period you mentioned is really not a short time, almost a few months have passed before and after, but you haven't made a single move? I don't believe that the efficiency of your Special Combat Brigade is that low."

He hesitated for a moment before nodding, "Ji Feng, I know you will definitely misunderstand, but there are some things that cannot be explained over the phone, and I have been considering whether I should tell you about this matter, so I have been dragging my feet. This is my fault and I definitely won't deny it. However, I asked you to come here today, but I still hope you can do me a favour!"

"And ask me for a favour?" Ji Feng spread his hands and said, "I'm sorry, Grand Duke Xiang, how can I say it now, I'm also considered half a businessman, and I won't interfere in matters that don't have benefits indiscriminately. Besides, even if there is an advantage, that also depends on whether I have that ability to help!"

Xiang Yongzhan had expected this kind of reaction from Ji Feng, if he didn't get what he wanted, Ji Feng would never nod his head, and for Ji Feng's character, Xiang Yongzhan more or less understood it.

He nodded and said, "Alright then, you come with me."

Ji Feng raised his eyebrows and followed anyway.

Under Xiang Yongzhan's leadership, the two of them arrived at the basement of one of the military district's heavily guarded buildings. Ji Feng recognized this place, where the senior reformer and his two companions had been locked up after they were captured in the first place.

The area of this basement was not small, even larger than the area of the building on the ground, and there was much more space.

In fact, because many things in the military area were kept secret, the buildings in the military area were also much lower than those in the city. For example, this building, although not small in size, was only six storeys in height. And the basement of this building, looking at the indication of the underground lift, was actually on the negative fourteenth floor!

This meant that the basement downstairs was, surprisingly, a full fourteen floors. When he first captured that senior reformer, because the situation was rather urgent and it was at night, so Ji Feng didn't look closely, but now that he saw this, he was instantly astonished.

There was a lot going on in this military area.

He thought that even if half of the people entered the building, they would definitely not be able to get anything useful. Ji Feng was sure that at most, there were some civilian staff working upstairs, and those army leaders were just pretending to be in it, but the real confidential things were definitely in the basement.

It was much harder to get into this basement, all the way here, Ji Feng saw that there were fifteen or sixteen barriers alone, moreover, each level had to be punched and scanned for fingerprints and irises, very strict.

Xiang Yongzhan brought himself in and had to undergo strict registration. Just this kind of strict guarding made people feel weak in their hearts.

Ji Feng carefully calculated that if he wanted to sneak in, it would be easy to come in without the drawings, but it would be much harder, I should say almost impossible, to not alert the guards at the barrier.

If it was a building on the ground, it would be easier, but this underground building, even the exit was still unknown to Ji Feng, there was simply no way to start!

“Dang!”

The sound of the lift stopping sounded and Xiang Yongzhan said, “Ji Feng, we're here, follow me!”

The fifth underground floor!

Ji Feng swept a glance at the lift and didn't say anything, he just followed him out of the lift, then he took a few quick steps down the corridor and arrived at one of the offices.

Although it was underground, one actually didn't feel suffocated or depressed at all inside, the space on each of its floors was far more spacious than that on the upper floors, and the lighting was so bright that it didn't look like being underground at all, but rather like entering a spacious and bright stadium.

Ji Feng observed slightly for a few moments, then came to the office, sat down under Xiang Yongzhan's gesture, and casually lit a cigarette.

“No smoking underground!” Xiang Yongzhan said.

Ji Feng was stunned, and immediately just wanted to put out the cigarette, when he stopped Xiang Yongzhan suddenly said again, "But this is my private office, it's still okay to smoke here, but the doors and windows should be tightly closed, and you have to smoke by the sink."

Saying that, Xiang Yongzhan casually brought a washbasin from the side and placed it in front of Ji Feng, "This will comply with the rules!"

Ji Feng hummed and still didn't say anything. Now he was waiting for Xiang Yongzhan to speak first, after all, he hadn't given himself half a word for several months, Xiang Yongzhan should know that he was in the wrong.

Sure enough, after a moment of deliberation, Xiang Yongzhan spoke. Only, his first words took Ji Feng by surprise.

"Ji Feng, you might not know that the three reformers we caught before are all dead." Xiang Yongzhan suddenly said.

Ji Feng was stunned, "What did you say? All three are dead?"

"That's right, and it was less than a month after we caught them, and they died." Xiang Yongzhan laughed bitterly, "With their deaths, things instantly became tricky"

"You wait a moment!" Ji Feng interrupted him and asked with a frown, "Grand Duke Xiang, you're not kidding me, are you? After capturing them, didn't you already have the biological bombs in their bodies under control?"

Ji Feng clearly remembered that at that time, except for that senior reformer, the remaining two guys, the biological bombs inside their bodies were taken out, only that senior reformer, because of the special part of the biological bomb inside his body, so a special method was taken to control it, in this case, how could they still be allowed to die?

"It's true that they were controlled, but, they still died!" Xiang Yongzhan stretched his hands.

"How did they die?!" Ji Feng asked with a frown.

"Starved to death!" Xiang Yongzhan laughed bitterly, "The way to prepare it, it should be because their bodies lacked nutrition and energy, so they just starved to death alive!"

"What the hell?" Ji Feng almost didn't want to believe his ears, he looked at Xiang Yongzhan in amazement, "..... Starved to death?! Grand Duke Xiang, didn't you give them anything to eat? I don't know how important these three people are!"

"If they could eat and be fine, it would really be fine!" Xiang Yongzhan looked very distressed, "You are unaware that when ordinary times reached their stomachs, it did nothing at all, so our technicians guessed that their body structure might have changed, and took their blood for laboratory tests, while giving them first injections of our own developed nutritional fluid to barely keep them alive in the first place. "

"And then what happened? They died?" Ji Feng asked with a frown.

“That’s right, those three guys died before we could figure out what to do.” Xiang Yongzhan shook his head helplessly and said, “According to one of the transformers, the things they used to eat were not ordinary times, but a special liquid that was combined with the special food developed by the dynasty to keep their bodies from going wrong.”

“This means that those transformed people can’t actually be considered human anymore, they don’t even eat the same food we normally eat That’s ironic, actually being starved to death!” Ji Feng couldn’t help but shake his head, feeling rather incredulous, “Then they didn’t bring some of their unique ‘food’ with them when they came out on their mission?”

“Of course they did, but unfortunately, our side had only just tested the ingredients and hadn’t even studied how their food was configured, and these three people starved to death alive!” Xiang Yongzhan said.

“It’s really pitiful that they don’t fall into your hands, although these three guys live like humans and ghosts, but after all, they still have life, and when they have food to eat, they can be alive and well.” Ji Feng couldn’t help but laugh, “But after falling into your hands, they were actually starved to death, it’s so wrong!”

Xiang Yongzhan glared at him without good humor, “You kid don’t say cool words either, you said that what you developed The special effect current you developed is so effective for ordinary warriors, how come it’s not useful at all for these transformers?”

“Can you blame this on me too?” Ji Feng lost his smile and said, “Xiang Yongzhan, if you have something to say, just say it, no need to pressure me in the future, I have a clear conscience.”

Xiang Yongzhan’s intentions, Ji Feng saw at a glance, the three guys starved to death of responsibility, let himself also share some, and then open his mouth to say things, it will be much better The actual fact is that you can find a lot of people who are not able to get a lot of money from the internet. The actual fact is that you can not help but secretly slander.

Chapter 730

“Alright!”

Once Ji Feng saw through his intentions, Xiang Yongzhan couldn’t help but smile and rub his head, in fact, he didn’t intend to use this matter to put pressure on Ji Feng, after all, those three guys starving to death really had nothing to do with Ji Feng at all. The reason why Xiang Yongzhan had to say this was actually just to steer the conversation to the aspect he wanted to talk about, that was all.

“It’s because these three guys starved to death so quickly that we haven’t had time to make any preparations, let alone get any useful information from their mouths, therefore, the progress of the investigation at a later stage has not been very smooth, plus there are people in it who are constantly obstructing, making it difficult for our side, in these few months, although some progress has been made, it is still far from our expectations, there is still a big gap.”

Xiang Yongzhan couldn’t help but shake his head and said, “Moreover, although our investigation has made some headway, the results of the investigation are somewhat beyond our expectations, and of course, this is one of the reasons for not telling you.”

“What results?” Ji Feng frowned and asked, “..... It wouldn’t have anything to do with me, would it?”

“Although not hit, it’s not far off.” Xiang Yongzhan tugged a rare text, he deliberated for a moment before saying, “I think there are some things you already know, such as the Royal Club of Yanjing and other things, in fact, these above have known for a long time, just never moved, just to find the director there, but, that director is very cunning, and there are several understudies, before there is no complete certainty, the above I didn’t do anything.”

“I do know something about this, the Royal Club could be a stronghold of the dynasty!” Ji Feng said with a nod.

When he first received a call from his cousin Ji Xiaoyu and rushed to the Royal Club in Yanjing, it was said that Cozy had been kidnapped by a few foreigners and one of them was able to take off his arm Ji Feng was there and found the lubricant and other liquids used by the reformers, so he could be sure that the Royal Club must have a deep relationship with Dynasty.

“In fact, the results of our investigation at this stage, the spearhead also points to the Royal Clubhouse!” Xiang Yongzhan said, “Since the destruction of Western Xia, this place seems to have cooled off somewhat, and many of the customers who used to enjoy spending money here have rarely come in recent months Of course, these anomalies are sure to be there, as long as this is really a dynasty stronghold.”

Ji Feng nodded slightly and did not interject again, but listened quietly.

“However, it was only when we cooperated with the intelligence department above to investigate that we discovered that there was actually a special character in this clubhouse – Qiao Rong!” Xiang Yongzhan said.

“You said Qiao Rong?”

Ji Feng couldn’t help but be slightly stunned before he nodded, “That’s right, she was there at the Royal Club, and I even clashed with her a bit at the time, but I thought at the time that she was also here to spend money, but I didn’t think Is that why you didn’t inform me in time because of Qiao Rong?”

He suddenly reacted, no wonder Xiang Yongzhan had just said that the matter was related to himself, if it was really because of Qiao Rong, Xiang Yongzhan would definitely have had scruples, not only could he not tell himself first, but instead he had to pass the news to the top, after all, who in the whole Yanjing, I’m afraid there was no one who didn’t know that the old man of his own family was protecting the Qiao family!

“That’s right!” Xiang Yongzhan nodded frankly, “We found that some of Qiao Rong’s behavior was also suspicious, so”

For this point, Ji Feng was not much surprised, that crazy woman, not to mention joining the dynasty organization, even if one day someone suddenly told Ji Feng that it turned out that Qiao Rong was not from Earth, her hometown was from Mars!

If someone really said that, Ji Feng would definitely not be half surprised, this woman is really not like a normal person, she is crazier than anyone else, and Ji Feng also knows very well that this woman’s

hatred for herself is definitely not something that can be described with words, if such a person doesn't do something, Ji Feng would only find it strange!

"The supervisor you just said" Ji Feng pondered slightly, "Qiao Rong shouldn't be that supervisor, right?"

Xiang Yongzhan slowly shook his head and said, "Of course not, according to our understanding, she joined later, and her purpose"

Speaking here, Xiang Yongzhan gave Ji Feng an odd glance before saying, "If I'm not wrong, her purpose for joining the dynasty is most likely to use the dynasty's level of extraordinary technology to heal her son Qiao Gakai, or perhaps, she also has the intention of using the dynasty's power to deal with you"

Ji Feng couldn't help but laugh dumbly, nodded his head and said, "It seems that this matter was really facilitated by me, which is my sin."

Ji Feng knew very well how much damage the bio-current in his body would cause once he used it to attack others, just like the first time he used bio-current to fight with Qiao Gakai's master brother Tian Guodong and others, since then, that guy was lying in the hospital for several months, I heard that in the end, it was only when the experts from the Xuan Yin Sect came to Yanjing that those people were cured.

Imagine being in that big hospital for several months and the doctors were at their wits' end, it was enough to see how terrifying the bio-current was.

Then Qiao Gakai and the two elders of the Xuan Yin Sect sneaked into Jiangzhou and tried to make a secret move against themselves, only to be preempted by themselves, Qiao Gakai was seriously injured, and until now there has been no news of him getting up again, so I guess he is still bedridden!

If Qiao Rong had joined the Dynasty because she wanted to cure her son and hated herself to the bone, that would be the most reasonable explanation.

Otherwise, what reason would Qiao Rong, as a member of the Yanjing Qiao family, have to join an organisation that hid in the dark? It was impossible that Qiao Rong would not know how serious the nature of this matter really was.

Of course, Ji Feng couldn't help but shake his head and smile, with Qiao Rong's crazy nature, she might really be able to do something that others could hardly understand, perhaps she really joined Dynasty because of her personal interest, it was also possible!

"Actually, that's just my guess, but there's no proof either." Xiang Yongzhan laughed.

Ji Feng just nodded and smiled, but it was clear in his heart that if he didn't have complete certainty, Xiang Yongzhan wouldn't have been so credulous, after all, the involvement of this matter could not **** forced Qiao Rong, the focal point of the Qiao family, to have no place to stay and was finally forced to join the Dynasty organization, although this was not a crime, however, it could also leave an extremely bad impression on the top.

"Just how capable and domineering are you, Ji Feng, to force away someone from a big family?" That was certainly the first impression people from above would have after hearing about this matter.

“The people from the Ji family are a bit too domineering!”

“This time it was the Qiao family that was dealt with, so which family will be dealt with next?”

All of these views were certainly possible, and they were often very unfavourable to the Ji family.

Therefore, if he did not have complete certainty, Xiang Yongzhan naturally did not dare to speak indiscriminately.

The only thing is, Ji Feng doesn't care about this, what kind of person Qiao Rong is, the grudge between Qiao family and Ji family, I think there must be many other people who know about it, those people will at most only make an issue of this matter, other than that, they can't bring any substantial harm to the Ji family.

And what Ji Feng should do, he still has to do. Doing anything that others would have a different opinion on, you can't just stop doing anything because you're afraid of what others might think, right?

“Alright, let's leave the matter of Qiao Rong aside for now.” Ji Feng shook his head slightly and changed the topic away from Qiao Rong, “How did you guys treat the Royal Club?”

“We didn't touch the people at the Royal Club, we just conducted a close surveillance!” Xiang Yongzhan said, “In addition, for those members of the Royal Club, they all found the opportunity to have a private conversation But no contact was made with Qiao Rong.”

Ji Feng nodded slightly and asked again, “What are the gains?”

“Their people were prepared, the combatants have all moved on, that supervisor has also disappeared, the Royal Club, now there is only a Qiao Rong and some insignificant people from the dynasty left holding the fort!” Xiang Yongzhan shook his head and laughed, “This time, Qiao Rong is kind of taking the blame for others, I'm afraid she's also in a frenzy right now!”

“Transferred?”

Ji Feng didn't gloat over Qiao Rong's embarrassing situation, he was just surprised and asked, “Didn't you guys keep a close watch? How could you still let them move?”

“We were monitoring it in conjunction with the intelligence department above, before we deployed it, there was no movement at all in the Royal Club, and only later did we learn that at that time, apart from some insignificant personnel in the club, the rest, were all doubles!” Xiang Yongzhan shook his head slightly, “I have to admit, we were fooled by them! I believe they sensed something was wrong even before the intelligence department above conducted surveillance, so they probably withdrew long ago.”

“Really”

Ji Feng couldn't help but shake his head slightly and cursed, “A bunch of idiots!”

Xiang Yongzhan raised his eyebrows and said dissatisfiedly, “Ji Feng, you're not right, the other side had sensed it long ago, besides the previous order from above was only to monitor, not to act, when our side started to act, but found out that people had already completed their actions This is caused by a number of factors, not that I want to shirk responsibility, I have never shirked responsibility when I made a mistake to Yongzheng!”

"I only asked for the results, but now you are giving me an answer that is not at all certain, those people moved, where did they move to? Are they still within China and when will they launch their attack? You didn't say any of these things!" When Ji Feng heard this, he was instantly fired up, what he cared about was not who had joined the dynasty, let alone who had done what.

Chapter 733

In desperation, Xiang Yongzhan had no choice but to speak up and said, "Alright, count on you kid, tell me, what exactly do you want before you are willing to save the White Spider!"

Ji Feng couldn't help but be slightly stunned and asked in bewilderment, "Grand Duke Xiang, how come you've identified me, I've already told you, I really don't have the means to break the biological bomb inside the white spider, even if you give me a gold mountain, I don't have that ability, I can't do anything about it!"

"Well then, you tell me, if you were to give your all, and you needed anyone to assist you, in this case, do you think it's possible?" Xiang Yongzhan asked.

Ji Feng frowned slightly and stared at Xiang Yongzhan for half a day before saying, "Without seeing anyone, I have no way to be sure."

"What if you were allowed to see someone?" When Xiang Yongzhan heard this, his heart was immediately happy, Ji Feng's words changed, which proves that he really has special skills that he doesn't know about, and it should be possible

"How can I give you an answer now?" Ji Feng hummed.

"Well then, you will go with me to see the white spider now." Xiang Yongzhan said immediately.

Ji Feng looked at him with a smirk, but didn't move.

Only then did Xiang Yongzhan react and said helplessly, "Say, what do you want?"

Ji Feng held out two fingers, "If I can crack the biological bomb inside the white spider, first of all, I want a female guard, the kind with great skills, don't just give me a muddler! And, a retired one, not an active duty soldier. As for the rest, I haven't thought about it yet."

"You're actually asking for so much? And a first second?" Xiang Yongzhan grunted with extreme dissatisfaction, "Come with me first, if you have a way to break the biological bomb inside the white spider, as long as it's a request that doesn't violate the rules, I'll agree to it!"

Ji Feng immediately said, "I'll say something ugly first, I'm just taking a look at the situation, there's no guarantee that I'll be able to crack it, if I can't crack it, you can't say I didn't try my best."

"Don't worry, I can tell the difference!" Xiang Yongzhan hummed, "Let's go!"

Led by Xiang Yongzhan, the two of them took the lift and continued down, not knowing exactly which floor they had come to, as Ji Feng saw that it was clearly at the bottom on the lift, but Xiang Yongzhan continued to lead him to a room on the bottom floor, continued down the stairs inside the room, went down to the base level again, and then took the lift again before finally reaching a floor.

“Do you know which floor we are on now?” Xiang Yongzhan walked ahead and suddenly turned back and asked.

Twenty floors underground!

Ji Feng replied in his heart, but on his lips he said, “You’re going around so much, how do I know which floor this is!”

Xiang Yongzhan gave him a big look, smiled faintly and said, “You are still the first outsider to enter this floor, the rest who came here are all active duty soldiers.”

“I’m not honoured!” Ji Feng said indifferently.

“Hehe ……” Xiang Yongzhan chuckled, “Come with me, the white spider is in a room in front.”

Ji Feng did not look away, while the light from the corner of his eyes was constantly surveying the layout and environment of this underground 20th floor.

It was so different from what was staged in the movie!

This was Ji Feng’s most intuitive impression of this military underground base, which was not at all like what was portrayed in the movies, what with alloy doors everywhere, dense with organs, often able to see scientists in white coats doing some kind of experiments, or some rooms made of metal or something like that.

This place looked like the most ordinary room, and many places were made of stone and cement, with only steel plates added, so it looked very dilapidated and did not have the appearance of a high-tech base at all.

However, Ji Feng did not dare to take it lightly, because he could clearly feel the undetectable vibrations coming from below as he stepped on the ground.

It was obvious that someone was doing some kind of violently vibrating activity in one of the rooms on this floor, yet not a single sound could be heard, so obviously this place wasn’t as simple as it appeared to be.

“We’re here!” Xiang Yongzhan suddenly said.

Ji Feng immediately looked, only to see that in front of them, a circular gate had appeared, which did not have the shiny glow of the TV, but was only white with a darker alloy colour.

Xiang Yongzhan took out his card and swiped it in the card slot next to the door, then verified his fingerprints and iris, before the door split down the middle and contracted into the wall twice. A spacious space then appeared in Ji Feng’s line of sight, followed by the arrangement within the space, and the white spider.

It was a suite like space, with a living room outside, complete with furniture, and a small door inside, which looked like the door to a bedroom.

The white spider was sitting in the sofa watching TV, not looking too impatient, as if she was bored and staying at home watching TV to pass the time, very relaxed.

“How are you guys” Seeing Xiang Yongzhan and Ji Feng come in together, the white spider looked surprised and hurriedly stood up, saying, “Please sit down quickly, what would you like to drink? I only have tea and a little simple drink here.”

Ji Feng waved his hand, indicating that he didn’t need it.

Xiang Yongzhan said, “White Spider, I invited Mr. Ji here to ask him to help you break the biological bomb in your body, so you don’t need to work on it first.”

White Spider was stunned and looked at Ji Feng with some surprise, in her impression, Ji Feng was only strong in his body, but when it came to cracking the biological bomb, she was more or less amazed.

“I just came to take a look, I didn’t say I could definitely crack it!” Ji Feng added, he surveyed the surroundings and suddenly laughed: “Isn’t it also good to live here, the environment is comfortable, not humid at all, and the ventilation and light are also very good, this is not the slightest difference from home at all, if it were me, I definitely wouldn’t think of going out, how dangerous the outside world is, always be on guard against being attacked. ”

A gloomy look flashed across the eyes of the white spider and she forced a smile, “Mr. Ji is joking.”

This guy is really not mentioning the pot, this is not a sincere blow to people.

Ji Feng hummed and waved his hand, “Come here.”

Bai Spider was a bit hesitant, she had long felt that Ji Feng did not have any goodwill towards her, and it was not a good sign that he was using words to squeeze her as soon as she entered.

In fact, Bai Spider also knew that she had tried to deal with Ji Feng and his girlfriend, it was already quite good for him to come and see her, and to expect him to come over with a smiling face, that was certainly impossible.

“Come here!” Ji Feng’s face sank, “If you don’t cooperate, I won’t be able to use my methods even if I have them!”

“White spider, come over, Ji Feng won’t do anything to you, otherwise, he wouldn’t have saved you that night, wouldn’t he?” Xiang Yongzhan smiled and rounded up the situation, “He’s just such a stinky temper, don’t be afraid!”

White Spider nodded slightly and walked over. In reality, she was not afraid, as a former assassin, who would she be afraid of? It was only because she was sorry for Ji Feng, plus Ji Feng’s tone was not kind, which made her heart uneasy. If another person had spoken to her like that, she would have gotten angry long ago.

“Do not move!”

Ji Feng grabbed Bai Spider’s wrist and pulled her to sit next to him, while saying indifferently. Bai Spider instantly dared not move around.

Afterwards, Ji Feng grabbed one of Bai Spider’s wrists and stared straight at her face, expressionless.

The uneasiness in Bai Spider's heart intensified, Ji Feng's attitude made her somewhat afraid to face it, but she didn't dare to break away, so she could only move her gaze elsewhere while saying apologetically, "Mr. Ji, I know I was wrong in the past"

"Shut up!" Ji Feng said coldly.

White Spider's words came to a screeching halt and his face turned red.

Xiang Yongzhan gave Bai Spider a reassuring look, and then curiously observed Ji Feng's movements.

From the posture alone, it seemed that Ji Feng was taking the pulse of the white spider, other than that, there was nothing out of the ordinary, which was very strange.

Xiang Yongzhan guessed that Ji Feng must have other steps.

However, what struck him as strange was that he had been waiting for ten minutes and Ji Feng had remained in such a pose, not even changing his gaze or blinking his eyes, as if he was a statue, just fixed in place.

"What kind of approach is this" Xiang Yongzhan was wondering, but seeing that Ji Feng did not move, he also forced himself not to speak.

The white spider was equally apprehensive, wondering what exactly Ji Feng was doing here, was he trying to humiliate himself with this method?

The two were unaware that at this moment, Ji Feng appeared to have his eyes open, but in fact his consciousness had already entered his mind and communicated with his intelligent brain.

When it came to cracking biological bombs, Ji Feng really had no experience at all, and had never even heard of common sense in this area, so he could only ask the wise brain for help.

Ji Feng had information on biological bombs in the database of the Wise Brain, and had learnt how to use them, but apart from that, he hadn't had much more to do with them.

This was because according to the system's tutorial, as a super agent, in the course of carrying out a mission, one could seldom use biological bombs, and most of the time what one used were homemade improvised bombs, which were usually used when controlling others.

However, now the intelligent brain is able to help. The information it had in that database was extremely valuable. With this information, Ji Feng would be able to know exactly how to break the biological bomb.

Right now, what he hoped for most was that the information on the biological bomb in the database of the intelligent brain matched the biological bomb in the white spider's body, if the two were not the same, then there was nothing Ji Feng could do.

Chapter 734

"Wise Brain, transfer the information on the biological bomb to me immediately." In his mind, Ji Feng was using his consciousness to communicate with the wise brain.

"Yes, master!" The intelligent brain immediately responded.

Immediately afterwards, Ji Feng felt a large amount of additional information in his mind, all about biological bombs, from principles to structure, to various classifications and characteristics, and so on and so forth, everything was included.

This is the advantage of the intelligent brain, perhaps there is not much information on other aspects in the database of the intelligent brain, however, for these weapons, there is really all kinds of information, it may be a bit too much to say that the intelligent brain is a future military encyclopedia, because there is very little information on military fighting, but if the intelligent brain is called a future weapons encyclopedia, it is absolutely not too much!

It was precisely for this reason that Ji Feng dared to say that he would examine the White Spider's body before saying anything. In fact, if we go by common sense, since Ji Feng had agreed to examine the body, the impression given to Xiang Yongzhan was that Ji Feng should have a way to break the biological bomb, and if he didn't have the backing of the wise brain, how could Ji Feng do such a thing to get himself into trouble?

Ji Feng carefully 'checked' the information provided by the intelligent brain about the biological bomb, and he found that his guess might be wrong, the information given by the intelligent brain out about the biological bomb was too much, there were hundreds of classifications of the bomb alone.

For example, the factors for detonation of biological bombs were divided into dozens of body temperature sensing, light sensing and so on, and there were other types of biological bombs that exploded based on changes in body conditions.

Ji Feng really couldn't be sure which kind of bombs belonged in the White Spider's body, just reading the information would not help him, at most, he would understand part of the types and principles of biological bombs, but if he wanted to crack it, he still had no clue.

"Intelligent brain, how can I tell which type of biological bomb inside the white spider belongs to?" Ji Feng frowned and asked, there was no detailed description of the characteristics of the biological bombs on this information, what was there was only a general direction and concept, which could not be of much use in deciphering the biological bombs.

"Master, biological bombs are very difficult to detect, and it is also very difficult to make a detailed and accurate classification. Because many biological bombs, when they are designed, are not set to have a single detonation factor, but at least two or more, one should be a detonation factor that can be controlled from the outside, such as a remote control, or some kind of induction from the outside."

The intelligence brain explained in detail, "In addition, there must be another kind of detonation factor that is set according to the environmental changes inside the target of the implanted bio-bomb. Perhaps there are other factors as well, so it is basically impossible to strictly classify a particular biological bomb unless one can know the original setting of the biological bomb."

Ji Feng then couldn't help but have a bit of a headache, if he wanted to get the original settings of the biological bomb in the White Spider's body, then he would have to find the person who had implanted the biological bomb in her in the first place, but that was obviously unrealistic. If the person could be found, there would be no need for Xiang Yongzhan to come looking for himself.

This was indeed a troublesome matter!

Ji Feng couldn't help but scratch his head, but in his heart, he was unwilling to give up such an opportunity.

If he were to look at his personal connections, it would be difficult, at least for the time being, to hire a female warrior with extraordinary body strength who was also retired from the military.

But any female warrior who could possess extraordinary skills should basically be a key figure in the army, and such people, even if they were retired, were afraid that their information was still kept secret. It was difficult to obtain such information as one was not in the army, let alone invite them here.

So, this time was a good opportunity.

Because if Ji Feng could crack the biological bomb inside the white spider, in exchange, how could Xiang Yongzhan show that at least this request of his own he would still meet.

Ji Feng couldn't help but fall into deep thought, secretly pondering how to crack the biological bomb inside the white spider's body.

"Master, if you want to crack the biological bomb, there is actually not no way." The intelligent brain suddenly said.

Ji Feng looked up sharply, "What solution?"

"To crack the biological bomb, we need to figure out the detonation principle of the biological bomb, as long as we can do it without touching the detonation factor of the bomb, then the bomb can be safely removed from the target's body." The wise brain said, "And the master's greatest advantage is the possession of bio-currents."

"How so?!" Ji Feng hurriedly asked after him.

"Master should know that bio-current is the highest level of energy that can be stored in a person's body." The intelligent brain said, "If the master tries to wrap the bio-bomb with bio-current and use it to imitate the environment inside the target's body, such as temperature, heart rate and so on, the bio-bomb will not explode!"

"Bio-current still has these effects?" Ji Feng asked in amazement, "How come I didn't know that before?"

"That's right. The bio-current is very wonderful, and its effects are just too many." The intelligent brain said, "Master didn't know that bio-current also has these effects, actually because master's current level is not yet, these methods of using bio-current are only learned from the third stage, master has only just completed the second stage at the moment, so he hasn't been exposed to this knowledge yet."

"So that's how it is!" It dawned on Ji Feng, he had only just mastered the second set of body building exercises proficiently at the moment and had not yet started learning the third set of body building exercises, so technically speaking, he was still only at the second stage, and was still a long way from entering the third stage.

"Since this method needs to enter the third stage before it can be used, then if you're telling me this now, isn't it just a mirror image, there's no way to use it at all!" Ji Feng suddenly remembered the situation he was facing again and couldn't help but laugh bitterly.

The intelligent brain said, "Master, you have now completed the second stage of learning and are about to cross over to the third stage, at this time, you are fully capable of trying, only the chance of success is still very low, but it is not impossible!"

"What are the chances of success?" Ji Feng immediately asked.

The intelligent brain said, "Ten percent."

"....."

Ji Feng couldn't help but shake his head helplessly, ten percent, that is, a ten percent chance of success, this can no longer be considered a gamble, it's completely a gamble on life! Moreover, the gamble was not on the life of the white spider alone, but on the lives of both the white spider and himself, because although the biological bomb was small in size, the power of that explosion was not small.

If Ji Feng wanted to break the biological bomb inside White Spider's body, he would have to come into physical contact with her, and then he would definitely not be too far away from her, at most an arm's length away, but once the biological bomb exploded, both of us would definitely lose our lives.

Ji Feng was silent for a while before he gritted his teeth and said, "If I enter the third stage, what will the chances of success increase?"

"Fifty percent!" The intelligent brain said.

"Can't it be higher?" Ji Feng asked somewhat undeterred, a fifty percent chance of success meant that there was still a fifty percent chance that it would fail, and the consequence of failure would be never having the chance to try again, so Ji Feng had to be cautious.

"Doing anything, there is a possibility of failure, in the database of the intelligent brain, there is only a maximum of fifty percent chance!" The wise brain said.

"....."

Ji Feng asked helplessly, "So, if I start learning the third set of body-building exercises immediately from today, approximately how long will it take before I can officially enter the third stage?"

He knew very well that starting to learn the third set of body-building gymnastics was not the same as entering the third stage, because for each stage, there was a standard, and only when the standard was reached was one considered to have entered a certain stage. For example, the second stage required the bio-current storage in Ji Feng's body to reach a certain level, and at the same time, Ji Feng's mastery of the second set of aerobics had to reach a certain level before he could be considered to have officially entered the second stage.

By the same token, the same was true for the third stage. Although Ji Feng did not understand until now what exactly was the difference between the third stage and the second stage, based on this gradual progression, the difference should not be too great.

"With master's current physical condition and how hard master has been working out, I believe that in two months at most, he will be able to officially enter the third stage, of course, if master devotes more time to exercise, I believe the time used will be even shorter!" The intelligent brain said.

Ji Feng nodded slightly and said, "I know Starting from this evening, I will officially start learning the third set of body-building exercises!"

"Yes, master!" The intelligent brain immediately responded.

.....

"Hoo-!"

After ending the conversation with the intelligent brain, Ji Feng's consciousness receded from his mind, he couldn't help but let out a long breath, and then he saw the both puzzled and hopeful expressions of the White Spider and Xiang Yongzhan.

Ji Feng slowly shook his head and said, "Unfortunately, I don't have the ability to break the biological bomb inside the White Spider's body yet, if I do it by force, the success rate will be 10% at most.

The White Spider and Xiang Yongzhan could not help but lose their heads slightly at the same time, especially the White Spider, who even forced a smile, but could not say anything. With a biological bomb inside your body that you don't know when it will explode, those who haven't experienced it will never know the feeling of not being able to hold on to your life.

Because you don't know when the bomb will suddenly explode, and you may wake up only to find that you have become a lonely ghost, this kind of life is definitely an extremely painful ordeal!

This is also the reason why those Dynasty assassins do not dare to resist.

If they didn't resist, the dynasty would control the biological bombs inside these killers and not let them explode, in this way, those killers would at least live with peace of mind and not have to worry that the bombs would suddenly explode one day.

"Ji Feng, it really won't work?" Xiang Yongzhan asked with a frown.

Ji Feng shook his head slightly and said, "At least, I'm definitely not going to take that risk right now."

"Think of another way!" Xiang Yongzhan handed Ji Feng a cigarette, "I can hear that you seem to have another way, otherwise, you wouldn't say that you can't do anything for the time being, just because you can't do it now doesn't mean you can't do it in the future, what do you have to say, no need to hide it, say it clearly!"

"In two months time, I have a fifty percent certainty that I can crack the biological bomb inside the white spider!" Ji Feng said indifferently.

"Swish!"

Xiang Yongzhan and White Spider's eyes lit up at the same time, "When really?!"

Chapter 735

"In two months' time, I'm fifty percent sure that I can crack the biological bomb inside the white spider!" Ji Feng said indifferently.

"Swish!"

Xiang Yongzhan and the white spider's eyes lit up at the same time, "When really?!"

"If nothing unexpected happens, there should be no problem!" Ji Feng did not give a definite answer, because these two months were also a not too short period of time, no one knew what would happen within these two months, and if there were really irresistible factors involved, there was nothing Ji Feng could do about it.

Although it was only a rather vague answer that he would need to wait for two months and was still fifty percent sure, it was good enough for Xiang Yongzhan and the White Spider.

In fact, it had been several months since the White Spider's submission, but the experts in the military zone had been unable to do anything about the biological bomb inside her. But now Ji Feng said that in two months' time at most, he had a 50% certainty of cracking the biological bomb inside White Spider's body, so how could this not surprise Xiang Yongzhan and White Spider?

Xiang Yongzhan couldn't help but secretly sigh. At that time, he was lucky to have held a firm belief that Ji Feng must have extraordinary abilities that no one else had, so he kept pushing him, but he never thought that his guess was true and that Ji Feng actually had this ability, and while Xiang Yongzhan was surprised, his heart was also shaken.

Where did these extraordinary abilities of Ji Feng come from?

He had guessed that Ji Feng must have other means just from some of the skills he had shown, and had been convinced of his guesses, which were now finally confirmed.

If Ji Feng knew what was going on, he would have been amazed. He had to admit that not all of the children of these families were grassroots and fops, and there were many capable people.

In fact, although there are many grassroots and fops among the sons of the family, in the vast majority of cases, these people are far from being compared to the children of ordinary families. On the one hand, it is because these children of the family have grown up in an environment that ordinary people cannot even come into contact with, so they have a much wider range of insight and vision than the children of ordinary families.

On the other hand, even if the children of these families are not worthy of success, the training they receive is definitely not comparable to that of ordinary children.

All these factors determine that the resources occupied by the children of the family are far higher than those of the children of ordinary families. Under such circumstances, unless they are fools, the knowledge absorbed by these children of the family alone is already more than that of the children of ordinary families.

The reason why those grassroots and fop kids appear to be such a scourge is because they have that capital to enjoy, they simply don't need to struggle as hard as ordinary people do, so there is less sense of crisis and they gradually turn into real fop kids.

However, this does not mean that they are really ignorant.

Of course, although these family sons occupy more resources and have a wide range of knowledge, but, precisely because they have no motivation to move forward, they are like flowers in a greenhouse, unable to withstand the wind and rain, and are simply not as resilient as ordinary families or poor sons.

Imagine how strong those sons of the family would be if they had the motivation to move forward and had gone through enough trials and tribulations.

Xiang Yongzhan was clearly such a person, as the third generation leader of the Xiang family, the resources he enjoyed were clearly beyond the imagination of ordinary people, and yet he did not act like other fops, greedy for enjoyment, but instead, like his elders, entered the army, starting from the grassroots, experiencing an unknown number of vicious battles, and walking up step by step to become the brigade leader of the special operations brigade today.

How powerful would such a person be?

I am afraid that only those who have really dealt with them can have the most personal experience.

But right now, Ji Feng wasn't thinking that much, what he was thinking about was what conditions he should mention to Xiang Yongzhan once he had cracked the biological bomb inside the White Spider's body.

Because the matter of the white spider entering the United University as a teacher came to an end, so now Hui Yi and Liu Xin and others have long since returned to the army, Ji Feng's side, and only Xiao Ying is left alone, but Ji Feng is still a bit uneasy, after all, Xiao Yuxuan and Tong Lei can't be together all the time, at least one more guard is needed to do so.

So, to ask for a retired female soldier with Xiang Yongzhan, this is something that must be mentioned.

As for the rest, Ji Feng really had to give it some thought. Because even if Ji Feng's training had entered the third stage, the success rate of breaking the biological bomb was only about fifty percent, which could not be said to be gambling with his life, however, it was also extremely dangerous, so Ji Feng naturally would not take the risk for no reason, not to mention that the object to be saved was actually the white spider who had once had evil thoughts about Xiao Yuxuan, so Ji Feng would have to think about it even more.

"That's it for today!"

Ji Feng put out his cigarette, stood up and said, "Once I have the ability to crack the biological bomb, I will contact you."

"Alright then, I'll see you out!" Xiang Yongzhan nodded and said, while giving White Spider a reassuring look, before walking out of the room with Ji Feng.

Just as the two of them went out, the door to White Spider's room slowly closed automatically. The two of them were just going out, and the door of the room slowly closed automatically. Before it closed, the white spider looked at the back of Ji Feng and Xiang Yongzhan with a complicated expression, and her heart was complicated and hard to understand.

.....

"Ji Feng, how is the condition of White Spider's body?" In the lift, Xiang Yongzhan suddenly asked.

"I don't know!" Ji Feng shook his head with a smile.

"What? Don't know?!" Xiang Yongzhan was stunned, "Then what were you doing just now when you were grabbing people's wrists and taking their pulse again?"

"I took is pretend!" Ji Feng smiled faintly and said frankly, "I just know a bit about biological bombs and have learned a bit about detection, so I used the action of taking a pulse to pretend."

"You kid" Xiang Yongzhan could not help but be stunned, and for a moment, he actually did not know what to say.

After a long time, Xiang Yongzhan asked again, "Since you haven't even examined the White Spider's body, how dare you promise to have a fifty percent certainty of cracking the biological bomb inside the White Spider in two months? Ji Feng, this is no joke, if you don't have that ability, don't promise down, otherwise, once the bomb explodes"

Ji Feng smiled faintly: "When the time comes, I'll be the one treating her, I'm not even worried, what are you worried about?"

"Can I not worry?!" Xiang Yongzhan said in a good-natured manner, "You are the one I hired, if anything happens to you here with me, when the time comes, your family will have to fight with me, your family's old man will have to knock me to death with a walking stick!"

Just kidding!

If something really happened to Ji Feng in the process of breaking the biological bomb, Xiang Yongzhan couldn't even take the blame if he wanted to. Ji Feng was the eldest grandson of the Ji family, and if he died here in Xiang Yongzhan, the whole Xiang family would be implicated, and it would be strange if Elder Ji wasn't angry then.

That old man's anger is not something that anyone can withstand!

Ji Feng didn't explain much, he just smiled lightly and said, "Don't worry, of course I have my own methods, I'm not so stupid that I would risk my life."

"I'm relieved about that, for these two months, let's temporarily condescend to the white spider, I hope you'll be able to succeed in two months' time!" Xiang Yongzheng nodded and said.

"Is it possible to help me pick a retired female warrior first?" Ji Feng asked, "Two months later, the day when I crack the biological bomb inside the White Spider, I am going to claim someone straight away!"

"Don't worry, I, Xiang Yongzhan, haven't gone back on my word!" Xiang Yongzhan laughed.

"That's good."

Ji Feng hummed, "I hope you won't do what you did last time, making me wait for months and having to come and ask in person before you get any news!"

With that, he didn't care if Xiang Yongzhan was embarrassed or not, as soon as the lift arrived, he directly took the lead and walked out.

“This kid” Looking at Ji Feng’s back, Xiang Yongzhan couldn’t help but shake his head and cursed with laughter.

Ji Feng, who walked out of the basement, could not help but secretly feel, “It seems that there is still a lot more to learn about oneself”

Just from the words of the intelligent brain, one could hear that this third stage of training seemed to be somewhat different from the first two stages, thinking that it was something new again.

“Buzz!”

Ji Feng’s mobile phone suddenly vibrated, he immediately took it out, but was slightly stunned, it was a text message from his second brother, Ji Shaolei, saying that he had gone back alone first and would not wait for Ji Feng. Apparently, Ji Shaolei and Xiang Yurou did not know where they had gone to talk about love again, leaving Ji Feng behind.

However, what made Ji Feng feel strange was that the text message was actually sent half an hour ago, and as a result, it was not received until now.

“Can’t the phone get a signal in this basement?” Ji Feng turned his head and asked to Yongzheng.

“Shhh...!”

Xiang Yongzhan made a silent gesture, nodded slightly and said, “Even within the military zone, a lot of things still can’t be said.”

Ji Feng then nodded in understanding and smiled, “Since that’s the case, then I’d better hurry up and leave this military restricted area before I do, you don’t need to see me off, I can leave alone.”

As he walked away, he waved without looking back and left with very dashing strides.

“This guy, he’s got a lot of secrets hidden in him” Xiang Yongzhan rested his chin and secretly mused, “It seems that He Hongwei’s suspicion of him is really not unfounded!”

.....

“This fellow, Xiang Yongzhan, could actually think of asking himself to save the White Spider, how did he know that he might be able to do that? Was it a guess, or did he investigate something?”

After leaving the military area, Ji Feng’s face immediately gloomed, after deliberating for a long time, he then started the car and prepared to go home.

“Ding”

Ji Feng had just started the car when his mobile phone suddenly rang, he immediately put his headphones on and picked up the phone while driving, “This is Ji Feng, who is it please!”

“Boss, this is Guo Tao, something has happened at the pharmaceutical factory, I need you to come and deal with it!” Guo Tao’s voice came over.

Chapter 736

Ji Feng smiled and asked, "What's going on? Is it Shang Qionggen who's going to get into trouble? Or is there a worker fight?"

Since the call was from Guo Tao, it was obviously a security matter, and there were only two possibilities for security issues that Ji Feng could think of.

"Neither, boss, this time there seems to be a bit of trouble, it's a business representative from the Northern Pharmaceutical Group who came to make trouble, and as a result, Factory Manager Yang was grumpy and gave the other party a slap on the wrist, and then it got out of hand" Guo Tao immediately succinctly said the key points, "Now the security guards have controlled the situation, however, the other side is refusing to stop, and speak very hard, Yang factory director and general manager Xu are furious!"

"Northern Pharmaceutical Group?" Ji Feng frowned and asked, "Did Factory Director Yang hit someone? Was the other party injured?"

"No one on the other side was injured, but they refused to stop, and threatened to make our Kang Yuan slimming powder unpromulgated in the Central Plains Province, and, it seems that the other side also acted furtively towards General Manager Xu, and by the time we heard the brawl in the meeting room outside the door and subsequently rushed in, Factory Manager Yang had already moved his hand" Guo Tao said.

"How dare you!" Ji Feng was instantly on fire, "Who gave them the dog's guts to actually dare to move their hands and feet against General Manager Xu?!"

Guo Tao immediately said, "The people are now under control, but the other party is very arrogant, boss, it's better for you to come over and take a look!"

"I'm on my way!" Ji Feng grunted angrily, turned off the phone and slammed on the accelerator, the BMW x6 immediately roared up and sped away!

.....

On the office building of Xiao's Pharmaceutical Factory, there was a room of almost twenty square feet, which was one of the reception rooms specially prepared by Xiao's Pharmaceutical Factory for visiting clients.

However, right now, in this reception room, which was almost the size of a bedroom, there were fully a dozen people standing in it at the moment.

It was clear to see that these dozen people were divided into three parties.

Xu Yuan and Yang Dezhao were on one side, and beside them, several security guards were on alert, and two of them were standing in front of Yang Dezhao, seemingly protecting him, but also seemingly blocking him. Xu Yuan's face was blue as she stood beside the guards, an extremely angry look in her eyes.

Opposite them were a young man and a middle-aged man, it was Su Aigong and Zhao Jingzhong who had come to visit before.

At this moment, these two also looked very angry and were staring angrily at Xu Yuan and Yang Dezhao. Su Aigong, in particular, was even more annoyed as he covered his forehead, bright red blood flowing out from his fingers, leaving his face stained with blood, looking wretched and miserable.

At Su Aigong's feet, there was also a glass ashtray that had been broken, and on top of that broken glass, there was still a trace of blood, obviously before this, this ashtray had been in close contact with Su Aigong's head.

There was another faction, but three people, two men and one woman. One of them was a middle-aged man and two young men and women.

These three people were obviously led by that middle-aged man. The pair of young men and women stood behind the middle-aged man, looking nervously at the scene in front of them, as if it was hard to believe their eyes, but there was more worry in their eyes.

The middle-aged man even looked helplessly at the scene before him, smiling bitterly, but not knowing what to say.

In this room, there was another person who looked very solid, this person was no other than the manager of the pharmaceutical factory's security department, Guo Tao.

At this moment, Guo Tao was staring coldly at Zhao Jingzhong and Su Aigong, with a cold light in his eyes and an icy expression.

"Two dogs, you really fucking think you are some kind of big shot? You are simply blind to your dog eyes!" Yang Dezhao looked furious and, with a violent temper, he even cursed, "Motherfucker! How dare you put your hands on our general manager in our factory, you are simply bullying people! If you want to touch a woman, go home and touch your mother!"

"Your Excellency, keep your mouth clean!"

As soon as Zhao Jingzhong heard Yang Dezhao's angry scolding with this word, his originally gloomy face turned iron blue at this moment, he said gloomily, "You have now injured my colleague, this already constitutes a crime, if you go too far again, you will be responsible for the consequences at that time!"

"Conceit your mother!"

Yang Dezhao immediately cursed angrily, "When you were putting your hands on our general manager, why didn't you think about the consequences? Let me tell you, I beat this beast, that's all light, if it was put in my old temper, I would have smashed his motherfucker to death alive right now!"

"In that case, is your Excellency planning to just go on like this?" Zhao Jingzhong asked in a cold voice.

"Fuck you!" Yang Dezhao instantly glared, "Don't fucking distort the facts here, it was you who first came to our pharmaceutical factory to cause trouble, and now you're saying we're causing trouble, do you think you're the only one who's smart and no one else has grown a brain?!"

He snorted, "I'm telling you, I'm not finished with you today! Our security manager has already called the police, and when they arrive, I'll see how you can explain yourselves!"

“Yang, Factory Manager Yang, I don’t think there’s any need for the police to come here, is there? This is all business for us, it’s not too appropriate to have the police come over, don’t you think so?” The third-party middle-aged man who hadn’t said anything, when he heard that Yang Dezhao had actually called the police, he was startled and hurriedly said, “I think, why don’t you all calm down first, and let’s sit down and talk calmly, what do you think?”

“Yes!”

As soon as the middle-aged man’s words fell, the young woman beside him giggled and said, “Today, both sides may be a bit at fault, but we businessmen are all in the same boat, we’re all in the business world, and we’re all in the pharmaceutical field, we don’t see each other, so why do we have to get so stiff?”

The young man next to her just nodded along, his mouth moved, but he could only speak and stop, not knowing what to say.

It was obvious from what they could see that this young woman was much more competent than this man, and also much more shrewd.

However, what they had not expected was that Yang Dezhao’s temper was far more irascible than they had imagined, and had no intention whatsoever of giving them a step down.

As soon as Yang Dezhao heard this, he became furious: “What both sides are at fault? What’s wrong with us? This beast molested our general manager, and we can’t resist? This is outrageous! I tell you, even if we go to the edge of the sky, we still have a sense of reason, there is no need for you to intervene in this matter today.

The middle-aged man smiled awkwardly, but he didn’t know what to say anymore.

The young woman, however, had her eyes rolling, as if she was thinking of some idea.

“Humph, incomprehensible thing, why are we thinking of coming to do business with you!” Zhao Jingzhong snorted coldly and said with disdain, “Little Su, let’s go! First go to the hospital and get the wound on your head bandaged, then we’ll call the police immediately, someone broke your head, this can already be considered a crime.”

With that, Zhao Jingzhong pulled Su Aigong and was about to leave.

Bang!

Guo Tao stomped his foot on the ground, stepped forward, blocked the doorway and said coldly, “I’m telling you, there’s no need for you to call the police, I’ve already done so Until the police come, none of you will take half a step out of this room, otherwise, you can try all you want!”

“What, beating someone doesn’t count, so you want to be illegally imprisoned, huh?” Zhao Jingzhong sneered.

“I tell you, even if you kneel down and beg us today, it’s useless, not to mention threats and hats, I’ll take the blame, but don’t try to shirk yours!” Yang Dezhao snorted coldly.

Zhao Jingzhong frowned, "You'd better not say such things now, and you guys don't spout blood, we're just here to talk about cooperation, when we can't, you guys hit people, this is something that everyone knows, even if the police come, you have no reason to say anything!"

"I'm sorry!"

Guo Tao said coldly, "To tell you the bad news, in order to ensure the safe production of our pharmaceutical factory, as well as the personal safety of our employees, we have installed surveillance cameras in these reception rooms and meeting rooms as well as workshops and other public places, everything that happened in this room before, your every move, all of them have surveillance video!"

He smiled wickedly, "So, you don't have to put labels on us either, and don't think of putting all the blame on our factory manager, let alone shirking your own responsibilities Just wait for it guys!"

"Humph! Unreasonable!" Zhao Jingzhong snorted coldly at once and said with disdain. In his heart, however, he couldn't help but stutter, there were actually surveillance cameras in this reception room? This time, things might become bad, Zhao Jingzhong's heart started to feel a little weak and he secretly regretted it.

Because it is useless to say anything now, when the police come and take a look at the camera, everything will be clear, and then

"Whether or not it can be justified, wait until the police come, everything will be clear." Guo Tao said coldly, "Until then, you two bastards should stay here honestly and don't move any small thoughts, otherwise, I know you, but the police baton in my hand doesn't know you!"

Bandits!

Zhao Jingzhong cursed, but there was nothing he could do, the whole room was now almost full of people from Xiao's Pharmaceutical Factory, and he and Su Aigong were the only two people here, if the other party really wanted to make a move, they might not even know how they would die.

Therefore, although Zhao Jingzhong's heart is angry, but also no longer say anything, a good man does not eat the loss in front of him, just put up with it first, when the police arrived, do not believe that those police still treat themselves like this.

ps: the following content does not count towards the charged word count.

After a month of weakness, it's time to say something to the brothers.

So far, the foxes have not broken, but the weakness of last month's updates is really deplorable, and I hate it a lot. I'm not going to explain what the reason is, but now that it's all behind us, things are busy, and we have enough manuscripts in storage to update normally every day. By the way, just to clarify, the stockpile is not for breaking out, but for other purposes, but the fox will definitely take the time to try to break out.

I know that because of the weakness of this month, many brothers must have left, no matter if they stayed or left, the fox is very grateful, after all, everyone has supported me, without your support, there would be no achievement for me, I really thank you.

The next until the end of the book, the fox will not appear before this situation, unless there is some earthquake flood or other reasons, otherwise, will certainly maintain a stable and normal update, there will be things will take time off in advance, which day if the update is less, the back will certainly make up.

In a word, the fox is back and raring to go again, so please continue to support me!

I'm not sure if I'll be able to do it again.

I bow and thank you all!

This November, let's work hard together!

Chapter 737

"Well then, I'd like to see just how much your police in Jiangzhou are siding with your locals!" Zhao Jingzhong grunted and spoke in a stern voice, pulling Su Aigong to sit down on the sofa next to him.

Slap!

Yang Dezhao violently lined up a slap on the table, "Who told you to sit down, you are not welcome to sit here, all of you stand up for me!"

"You"

Zhao Jingzhong immediately rose to a red face, pointing at Yang Dezhao, unable to speak in anger. Of course he could not stand up, otherwise, he would have lost all face today, that kind of humiliation, but he could not forget it for the rest of his life.

Su Aigong even sat there in hatred, staring at Yang Dezhao in annoyance, not moving.

They really didn't believe that in front of others, this Xiao Pharmaceutical Factory would really dare to make another move, if that was the case, who would dare to work with them in the future? If that were the case, who would dare to work with them in the future? There was no way that the people of the Xiao Pharmaceutical Factory would not consider this!

However, they did not understand Yang Dezhao's nature. For those who treated him well, Yang Dezhao would give his heart to the other party, but for those who had malicious intent, especially this kind of bad behaviour of molesting women, he absolutely could not tolerate it, usually regardless of his own business, he would at most scold him twice or pretend not to see it, secretly shaking his head.

But now, how could he put up with it?

"Lift them up!" Seeing that Zhao Jingzhong and Su Aigong were sitting on the sofa like a scoundrel and not getting up, Yang Dezhao was furious as he waved his hand violently, "If they really want to sit that much, then let them sit on the floor, Laozi's floor is not afraid of getting dirty, let them sit!"

"Yes!" The two security guards immediately responded and were about to step forward.

"Stop!"

Seeing this, Zhao Jingzhong hurriedly pulled Su Aigong to stand up, his heart was humiliated and resentful, but there was nothing he could do, "Your Excellency has humiliated us like this, you will definitely regret it later!"

"Regret or not, that's a matter for later, it's not your turn to speak now, shut up!" Yang Dezhaoh cursed angrily and sat down behind his desk.

Xu Yuan's chest bullied violently as she kept taking deep breaths in an effort to calm herself down.

After a few moments, she finally spoke, "Boss Huang, please sit down, the three of you, don't keep standing."

"You don't have to be polite, Mr Xu!" The middle-aged man from the third party waved his hand repeatedly, but sat down with a difficult face, and the pair of young men and women beside him followed suit.

In this way, the situation in this reception room changed at once. Xu Yuan and Yang Dezhaoh were sitting, and several security guards were standing by their side, ready to pounce at any moment, as if they were bodyguards.

Boss Huang and his two assistants were also seated, as if they were guests.

In the reception room, Zhao Jingzhong and Su Aigong were the only ones left standing alone, looking so conspicuous.

"Your Excellency, you are treating us like this, but you are unlawfully imprisoning" As soon as Zhao Jingzhong spoke, he was interrupted by Xu Yuan.

"Shut up!"

Xu Yuan said coldly, "I don't want to hear your voices again!"

"You"

Zhao Jingzhong and Su Aigong both felt extremely humiliated in their hearts, but looking at Yang Dezhaoh who had a furious look on his face, and then looking at those few ice-cold looking security guards and their sturdy figures, they dared not speak out in anger, and could only grit their teeth and endure.

The reception room was suddenly quiet, with only the occasional sound of Su Aigong's painful backward intake of cold air ringing out from time to time.

Zhao Jingzhong listened with a secret frown and looked at Su Aigong, who was covering his forehead with a resentful expression, and he couldn't help but curse in his heart.

This bastard is just really, come to wreak havoc, then honestly wreak havoc, why do you have to be unruly with that woman by the way? And also in the reception room where there are cameras, this is not asking for trouble!

This pharmaceutical company is also really, that the production workshop and laboratory and other important places installed the camera is not enough, why also in this reception room installed the camera!

Zhao Jingzhong couldn't help but secretly regret that he had fallen under Su Aigong's spell and had gone to this Xiao's Pharmaceutical Factory to take advantage of it! This was not a pharmaceutical factory, it was clearly a bandit's den!

In fact, what scared Zhao Jingzhong the most was not that Su Aigong had molested Xu Yuan, the general manager of Xiao's pharmaceutical factory, which was also a crime, but after all, it was a matter for Su Aigong alone, although he had the same idea in mind, but before he could put it into practice, Su Aigong was smashed directly on the head by Yang Dezhao with an ashtray, which also made Zhao Jingzhong's heart tremble.

What Zhao Jingzhong was really afraid of was that once the police came, their true identity might be exposed, and by then, the people of Xiao's pharmaceutical factory would not have the slightest scruple, and with Yang Dezhao's fiery temper and the fierce and vicious appearance of the pharmaceutical factory's security guards, it would be good enough for them to leave Jiangzhou alive by then.

What's more, once the police came, there was a good chance that the company would be notified by the police of today's incident, and by then, the job in the Central Plains Province would definitely not be saved, so this was really a disaster!

Just then, the sound of a sharp brake rang out in the courtyard outside, followed by a siren that was gradually coming in the distance.

Zhao Jingzhong's legs immediately went weak and his heart shuddered, how did the police come so quickly

Because of fear, he has not even carefully analyzed, this siren sound is still in the distance, while the sound of brakes is in the courtyard, how can the person coming be the police?

The first thing you need to do is to get a good idea of what you're getting into.

The first thing you need to do is to get out of the car and close the door and walk upstairs.

This employee did not know that Ji Feng was the owner of the pharmaceutical factory, but had seen him several times in the pharmaceutical factory, so she did not suspect Ji Feng's identity and motives, so she thought he was here to talk about cooperation, and nodded and said, "Hello sir, our factory director and general manager are receiving other customers in the reception room at this moment, please wait for a moment, I will go and report, can you? "

"No need, I'll go straight there myself!" Ji Feng said indifferently, while his feet did not stop, but walked up in big steps.

"Hey!"

The employee wanted to stop, but found that in the blink of an eye, Ji Feng had already gone upstairs, and she couldn't stop him even if she wanted to.

"Bastard!"

Ji Feng cursed in his heart as he went upstairs, where the hell was this bastard from that dared to molest his general manager in a pharmaceutical factory?!

It was no wonder that Yang Dezhao had taken action, if things were really as Guo Tao had said, this beating was still considered light, if it was Ji Feng, he would definitely throw that bastard who had made a move on Xu Yuan down from the stairs!

Not to mention that Xu Yuan, as the general manager of Xiao's pharmaceutical factory, represents the face of the company, how can such a person be molested by others?

The company's main business is to provide a wide range of products and services to the public.

In fact, this matter Ji Feng can understand the original reason just by simply thinking about it.

The name of the Northern Pharmaceutical Group, Ji Feng had also heard of, that is a huge thing, absolutely not Xiao's pharmaceutical factory such a small pharmaceutical factory can be compared to, their staff attitude arrogant and arrogant, it is only natural, if they are not arrogant, it is really a bit strange.

Otherwise, they wouldn't dare to molest the general manager of the pharmaceutical plant in Xiao's pharmaceutical plant, which is like barging into someone's home to molest their wife, arrogant and extremely humiliating!

"I'd like to see how many heads this bastard has grown and how dare he be so arrogant!" Ji Feng was so annoyed in his heart that he arrived outside the door of the reception room with big steps.

"Bang!" With a bang, Ji Feng kicked the door of the reception room open, and the person inside was startled, only to see an iron-faced Ji Feng outside the door.

Ji Feng's gaze swept around the room, looking at Yang Dezhao, who had a furious face, or Xu Yuan, who was obviously unhappy, and then at the two men and one woman sitting next to him, and finally, his gaze fell on the two men standing in the middle of the room, one of whom was still covering his forehead with his hand, with blood flowing out from his fingers, staining half of his face with blood.

Ji Feng pointed at Su Aigong, whose forehead was bleeding, and then looked at Xu Yuan, asking in a cold voice, "Is he the one who misbehaved with you and moved his hands?"

Zhao Jingzhong and Su Aigong's faces changed at the same time, this was a bad question to ask, the visitor was not good.

Xu Yuan nodded and glared angrily at Su Aigong and Yang Dezhao, but her heart was a bit hesitant, the boss seemed very angry ah, he would not do something that could not be ended, right? If the promotion of the pharmaceutical factory's business in the Central Plains Province could not go ahead because of herself, then her own sin would be a big one

She wanted to speak, but remembered that she was speaking out of place now, and if she opened her mouth to dissuade Ji Feng, it would make Su Aigong and Zhao Jingzhong even more arrogant, and the cooperation would likewise be unsustainable at that time.

Therefore, Xu Yuan could only give Ji Feng a wink, hoping that he would not make a move.

"Very well!" Ji Feng, however, pretended not to understand Xu Yuan's meaning, he smiled grimly, quickly took out his mobile phone and pressed it twice while saying to the two men and one woman next to him, "Three, please go out and wait a little, okay?"

As he spoke, he pressed the phone a few more times and then put it in his pocket. Immediately afterwards, he began to take off his jacket and placed it on the desk in front of Xu Yuan and Yang Dezhao, his face grim.

Everyone could not help but thump in their hearts, looking at Ji Feng's attitude, it did not look like he was going to reason with Zhao Jingzhong and Su Aigong, he looked like he wanted to take action!

Chapter 738

"Okay, okay!" That boss Huang was originally sitting here on pins and needles, at this moment when Ji Feng asked him to go out, he was naturally eager to do so, he hurriedly stood up and led the pair of young men and women to go out.

"All of you, go out too, I'll just watch here." Guo Tao said to the few security guards again.

"Yes!"

Several security guards nodded and quickly walked out.

Apart from the original few security guards left behind at the Xiao Pharmaceutical Factory, the rest were all veterans recruited, they were naturally more disciplined than ordinary people, and at the same time, they were never ambiguous when it came to obeying orders, and more importantly, they would not talk nonsense, let alone ask questions.

After they went out, Guo Tao immediately closed the door of the room with understanding and nodded slightly to Ji Feng.

"This, this gentleman" Zhao Jingzhong felt that he had to say something, otherwise, with this young man's aggressive appearance, he was almost about to eat himself and Su Aigong alive, and his fate would definitely not be any better.

However, as soon as Zhao Jingzhong opened his mouth, he suddenly noticed that Ji Feng's face sank, while a black shadow flashed before his eyes.

Bang!

Zhao Jingzhong shouted miserably and felt that his face had been hit hard and his whole head was almost about to split open.

Bang!

Ji Feng kicked out again, hitting Zhao Jingzhong's stomach, surprisingly causing Zhao Jingzhong, who hadn't completely fallen to the ground, to instantly fly out sideways, hitting the chair next to him heavily, accompanied by a miserable scream, causing him to completely pass out.

Immediately afterwards, Ji Feng casually swung a chair from the ground and violently smashed it towards the dazed and pale Su Aigong.

"Ah!" Su Aigong reacted to the fact that Ji Feng was going to hit him, so he shrieked in fear and hurriedly ran with his hands on his head.

Clang!

A chair made of solid wood, after smashing on Su Aigong's body, instantly split into pieces, the legs of the chair broke a few pieces, and the broken wood fell all over the place.

Looking at Su Aigong again, the whole person, however, let out a miserable scream and directly rolled his eyes and fainted, only that the person was lying on the ground, twitching continuously, and both arms also showed an abnormal bending, obviously being beaten and fractured.

Clatter~~!

Ji Feng threw the only remaining piece of chair backrest in his hand, onto the ground, he coldly swept a glance at Su Aigong and Zhao Jingzhong who had both passed out, and gave a heavy cold snort.

"Why do you need to treat such beasts nicely when dealing with them?" Ji Feng said coldly, "Although our pharmaceutical factory is small in scale, it is not spineless! Guo Tao, remember this for me, in the future, anyone who dares to act in such a disorderly manner again, don't consider the issue of development or not, directly break their legs first, and those who dare to go further, directly throw them down from the upper floors, don't talk so much nonsense to them, remember?!"

"Yes! Boss!" Guo Tao immediately nodded and answered.

"This is the first time, everyone is inexperienced, so forget it." Ji Feng glared at Guo Tao before saying, "From today onwards, I'll make a rule that from now on, but all the main leaders of the factory, as long as they are talking about business, whether at home or outside, have to be followed by security guards. Remember, use trustworthy and reliable security guards."

Guo Tao immediately nodded his head and said, "Yes, boss, I remember."

Only then did Ji Feng's face ease up a bit, but he still had anger in his heart, "These two bastards, they've simply eaten their heart and leopard's guts, they've never seen a woman in 800 years!"

"In fact, from the first time these two people came, they were a bit unruly towards General Manager Xu, but that was only in their eyes and looks, but they didn't put their hands on him, and General Manager Xu put up with it for the sake of the company's Kang Yuan slimming powder to be successfully promoted in Central Plains Province!" Yang Dezhao said indignantly, "These two people rely on the fact that they are representatives of the Northern Medicine Group, not only do they offer unbearable conditions, even their behavior is so unbecoming, I am to blame for this matter, although I was angry at the time, but because I was too busy, I did not pay attention today, and as a result, those two bastards slipped in!"

"They've come once?!" Ji Feng's face turned a few more shades darker, "When did they come over?!"

"It was the morning they came, they offered to take the agency rights of our Kang Yuan slimming powder in the Central Plains Province, but they weren't going to pay the agency fee, and they spoke very domineeringly, I could see that they didn't have any sincerity, so I politely refused." Xu Yuan said.

"These two bastards, they deserve to die!" Ji Feng gritted his teeth and cursed, then glared at Xu Yuan and said in a deep voice, "And you too, since this already happened in the morning, how come you didn't draw attention to it and didn't tell me about it?"

"I" Xu Yuan's mouth moved, her face flushed red from the scolding, but she didn't know how to explain. In reality, she was worried that because of herself, the relationship between Xiao's

Pharmaceutical Factory and the Northern Medicine Group had completely deteriorated, if that was the case, I believe that even if the effect of Kang Yuan Slim Powder was good, it would definitely be difficult to completely promote it in the Central Plains Province.

You should know that the influence of the Northern Medicine Group in the Central Plains Province, that is simply not Xiao's Pharmaceutical Factory such a small factory can compare to you, the Central Plains Province sales channels, the Northern Medicine Group definitely accounted for a large part. What's more, like those large pharmaceutical groups, they actually all have a tacit agreement in private.

Although they all compete with each other, they will never bid maliciously in order to grow themselves, because this will only cheapen the pharmaceutical companies for nothing.

This is also a kind of unspoken rule in the pharmaceutical industry, if those pharmaceutical companies make good drugs, they have to find the right agent, so that the channels are smooth and there are no problems in sales.

In fact, although pharmaceutical companies are also very profitable, in China's pharmaceutical industry, the two most profitable segments are actually the channels and the terminals. In terms of channels, the most profitable ones are, of course, those pharmaceutical distributors, and of course, those pharmaceutical groups that have the agency rights of many pharmaceutical companies for many kinds of drugs in their hands, such large pharmaceutical groups, in a specific region to form a tacit agreement between each other, on the one hand, can suppress the purchase price, and on the other hand, they can also raise the shipping price.

The difference in profit between these two is simply astronomical.

A simple but most commonly used medicine, such as a certain cefradine capsule, costs only four or five dollars to buy, but sells for more than twenty dollars!

This is still the better raw material used, if it was the old spiramycin or something like that, the difference between the evolution and the retail price would be ten times as much!

This is the horrible profit of the channels and terminals, and also a kind of unspoken rule in this pharmaceutical industry.

Just imagine, even some small pharmacies are able to do this, let alone the Northern Pharmaceutical Group, the pharmaceutical giant of Central Plains Province?

If they really offended the Northern Medicine Group, the loss to Xiao's Pharmaceutical Factory would certainly be an astronomical amount!

This is what Xu Yuan was most worried about, as Ji Feng trusted her and made her the general manager of Xiao's Pharmaceutical Factory, she naturally could not bring such a huge loss to the pharmaceutical factory because of her personal preference, that was not what she should do.

But Xu Yuan did not expect that Ji Feng would instead come to blame himself. Even though she knew that Ji Feng was caring for her, this tone of voice still made her feel a little aggrieved.

But Ji Feng was doing it out of good intentions again, and she didn't know how to explain.

“Boss, General Manager Xu is also thinking of our pharmaceutical factory, so don’t say anything about her!” Yang Dezhao saw that Ji Feng was very angry, so he hurriedly came out to round up the situation.

In fact, Yang Dezhao also heard about this matter from the staff member who was responsible for accompanying Xu Yuan and receiving Su Aigong and Zhao Jingzhong at that time, and he also asked Xu Yuan in the morning if he wanted to tell Ji Feng. But Xu Yuan did not tell Ji Feng out of consideration for the future development of the pharmaceutical factory in the Central Plains Province.

“Xu Yuan is the manager of our pharmaceutical factory, as long as she is in the pharmaceutical factory for one day, then she is our family for one day, the woman of our own family is being molested by others, this is a shame for all the men in the family!”

Ji Feng gritted his teeth and said in a deep voice, “The company’s business is nothing! If we watch our own family members being molested just for the sake of doing business, where is our dignity and can our conscience be at ease? A person who doesn’t even have dignity and conscience can’t be called a human being then. Even a beast will fight to the death against other animals to defend its children and spouse, let alone a human being!”

The three people present, Yang Dezhao, Xu Yuan and Guo Tao, couldn’t help but shake in their hearts and couldn’t help but nod heavily at the same time, especially Yang Dezhao and Guo Tao, Ji Feng’s words simply spoke to their hearts, making them very much agree.

Yang Dezhao even secretly sighed in admiration, originally he thought that Ji Feng was calm and smart, but he never thought that Ji Feng actually had such a strong side.

It seems that in the matter of men and women, that should be Ji Feng’s bottom line.

As long as you don’t misbehave in this area, then no matter what excessive things you do, Ji Feng can still be calm and steady, whatever tricks you have, just use them, I’ll take them all!

You know, before Shang Qiongggen came to mess up twice in a row, Ji Feng did not even show such an annoyed look, even then he did not even change his face in the slightest, but now, Yang Dezhao had already beaten Su Aigong, but Ji Feng still felt that the beating was not enough, he even directly beat people to death, this is enough to show what kind of character he is!

Yang Dezhao had to admit that although Ji Feng was still very young, but as a man, Ji Feng was good!

When it came to doing things, he was calm and steady, full of atmosphere, quite like a great general. When it comes to women, he doesn’t give an inch, just like a lion chief, defending his own territory, not letting the women in his territory be harassed by others, whether they are his own women or not, he is exercising the rights of a man, defending the dignity of all!

Chapter 739

When she heard Ji Feng’s powerful words, Xu Yuan’s heart was warm and her nose was sore. She hurriedly turned her head away, not daring to let Ji Feng and the others see her tears.

It seems that ever since she left home, there has been no place to shelter herself from the wind and rain, but only the lustful eyes of those old perverts.

All these years of hovering between those people, just to be able to earn some money and make a stable life for herself.

Originally, Xu Yuan did not even hope to meet someone who could protect her from the rain, because she knew from her childhood that people in this world are all utilitarian, and they will never simply be good to anyone.

Later on, after leaving home, she was exposed to this society which she felt was very dark and dirty, and she dared not even hope that there would be someone who could protect her.

From her childhood experience, she had already been told that in this world, the only person she could rely on was herself.

However, today, Ji Feng's arrogant stance, powerful words and his ruthless tactics almost gave Xu Yuan a feeling of being lost.

"Xu Yuan, just now I spoke too impulsively, don't take it to heart." Ji Feng calmed down a little and realised that his tone just now was really too harsh, so he couldn't help but ease his tone and said.

Xu Yuan just tilted her body sideways and shook her head slightly, but did not say anything.

In fact, up to now her nose was still a little sore, but her heart was warm.

"Boss, have a cigarette to cool down your fire." Yang Dezhao smiled and handed Ji Feng a cigarette, then handed Guo Tao another one before laughing, "To say the least, today is indeed enough of a nuisance, damn it, those two bastards actually bullied people into our home, this is simply too much bullying!"

Ji Feng shook his head slightly and said, "This is mainly because our work is not done, Guo Tao also does not have the experience in this area, and you and Xu Yuan, likewise do not have the experience in this area, the slimming powder is too hot, so we are all a little bit not quite adaptable, but from now on, it is necessary to learn to be a pharmaceutical factory is rising rapidly to the top, otherwise, our mindset can't keep up with the speed of the pharmaceutical factory's development, it will definitely slow down the pharmaceutical factory!"

If it wasn't for the lack of experience, there would have been security guards around when Xu Yuan was talking to those two guys, or if there were security guards and staff accompanying those two guys in today, this wouldn't have happened.

All of this was caused by the rapid development of the pharmaceutical factory and the lack of experience of Xu Yuan and Yang Dezhao and the others.

But there is no rush, everyone has a growth process.

Although Yang Dezhao used to be the owner of the pharmaceutical factory, in the past, the factory only received orders from others, bought a few simple prescriptions and then begged those pharmaceutical distributors to sell their drugs, which was not too profitable and did not have the hot scene that it has now, so Yang Dezhao and the others could still manage.

But now it is different, the rapid rise of the pharmaceutical factory, many provinces and cities of pharmaceutical dealers have taken the initiative to come to the door, before it was the pharmaceutical

factory salesmen begging those pharmaceutical dealers, but now it is those pharmaceutical dealers to beg the pharmaceutical factory.

It is because of this huge contrast, Yang Dezhou and Xu Yuan afraid of any mistakes, so this is personally on the battlefield, and did not set up a business department, and this is the situation today.

“Another thing, you guys try to draw a few more people from the original staff in the factory and set up a business department, specialising in external contact work, and in the beginning you guys personally keep an eye on it, so we can all grow together.” Ji Feng sat down on the sofa next to him, “When it’s all stabilised later, you guys won’t have to work so hard.”

Yang Dezhao nodded slightly and smiled, “Mr. Xu and I were discussing this matter earlier, but the staff in the factory, apart from the pharmaceutical experts introduced by Kang Gong in the laboratory, are Tian Nan and Yang Jun from the accounting department, who are educated, but they don’t have much experience in business. I think we can only transfer people from the sales department first, but I don’t think there are many who can do the job.”

“Let’s take our time first, when we’re done with this busy period, then we’ll do the recruitment, the pharmaceutical factory will always need talents if it wants to grow.” Ji Feng smiled: “In the future, it will definitely not be just one product, Kang Yuan slimming powder, then we will promote it, our pharmaceutical factory structure will have to be formed slowly.”

At this time, Xu Yuan had already adjusted her mood, she turned around, nodded and said, “Boss, don’t worry, we will try our best to do a good job.”

“If something else like today happens, how can I rest assured?” Ji Feng shook his head slightly and said, “Still the same thing, whether business is done or not, that doesn’t matter, but we can’t let people bully us.”

“I’ll remember.” Xu Yuan said with a serious nod.

“Tell me, what’s going on today, and who were those three people just now?” Having tentatively agreed on some strategies for the rest of the day, Ji Feng was again concerned about what had just happened.

“That middle-aged man just now was surnamed Huang, also the owner of a pharmaceutical company in the Central Plains Province, only, this pharmaceutical company is a bit small, just about the same as those pharmaceutical companies that had cooperation with our pharmaceutical factory before, and they came just to get the agency rights of a city.”

Yang Dezhao said, “But I don’t know where the two bastards Su Aigong and Zhao Jingzhong got the information from, once they heard that the other boss Huang was also from the Central Plains Province, they actually came over and threatened them directly, saying that if Boss Huang dared to take over our agency, he would be going against the Northern Medicine Group.”

“And then you had a conflict?” Ji Feng asked with a frown.

“Of course we wouldn’t let them threaten our customers, and spoke out to discourage them, but it turned out that Su Aigong was swearing a lot, and when Mr. Xu went up to discourage him, he actually molested him and put his hands on him, so I got angry, and it turned out to be like that just now!”

Even now, Yang Dezhao was still furious, "That's just because I'm old, if I had been in my temper back then, I would have broken their legs!"

"It should be broken!" Ji Feng said with a nod, "It's really arrogant, not to mention running to us and threatening our clients, but actually"

He shook his head slightly, coldly snorted and said, "Uncle Yang, Xu Yuan, you guys don't need to care about this matter, I'll take care of it, you just need to manage the pharmaceutical factory without worry."

"Boss, this way we will be completely offending the Northern Pharmaceutical Group, the promotion of Kang Yuan slimming powder in the COSCO Group may be very affected."

"Don't worry!"

Ji Feng faintly shook his head and said, "With less butcher Zhang, we have to eat pigs with hair? I really don't believe it, apart from a Northern Pharmaceutical Group, there are no other pharmaceutical companies in Central Plains Province? Let's wait for a while, if all those pharmaceutical companies are really afraid of the Northern Pharmaceutical Group and dare not come to cooperate with us, then we will take the initiative to go to them, the big deal is to give up some profits."

"Boss, things aren't as simple as you think!" Xu Yuan shook her head, "The unspoken rules in the pharmaceutical industry are far deeper than any other industry, and although there is also very fierce competition between pharmaceutical companies in the same province, they all have the same attitude when it comes to treating pharmaceutical manufacturers and consumers"

Xu Yuan quickly went over some of the unspoken rules she knew about the pharmaceutical industry and what the consequences would be if she offended the Northern Pharmaceutical Group.

"Other pharmaceutical companies, even if they want to take our business, will also have concerns, after all, the sales channels in the pharmaceutical industry, in fact the vast majority of them are in the hands of those large pharmaceutical groups, they also do not dare to easily offend ah." Xu Yuan said helplessly.

If it wasn't for this reason, how would she tolerate Su Aigong and Zhao Jingzhong being so arrogant? When they first came in the morning, Xu Yuan would have simply kicked the duo out.

But because of these various factors, it made it impossible for her to do so.

"Don't worry!"

Ji Feng shook his head with a smile and said, "Businessmen go after profits, this is unchanging throughout the ages, no matter what time it is, making money is the first pursuit of businessmen, only when they have made enough money will they think of other things, until then, this goal of theirs is unwavering. If not, then what business are they in? Just switch to another line of work!"

"That makes sense!" Yang Dezhao nodded and said, "Although there are many unspoken rules in the pharmaceutical industry, and the network of relationships and channels is rather complicated, but no matter how complicated it is, it is not that it is that airtight and watertight."

"That's right!"

Ji Feng laughed: “Just now I already said, about the promotion of the Central Plains Province, let it go for a while, cool down for a while, see if any dealers will take the initiative to come to us, if not, then we will go and take the initiative to find them In fact, we don’t have to worry at all, look at that boss Huang, didn’t he also take the initiative to come to us? What’s more, even the Northern Medical Group has taken the initiative to find the door, which means what? It means that our Kang Yuan slimming powder is still very attractive to them, and they want to get profit from it!”

“Even the Northern Pharmaceutical Group is moved, can those slightly smaller pharmaceutical companies not be moved?” If they have a long-term vision, as long as they dare to cooperate with us, I believe that they will surpass the Northern Pharmaceutical Group and become the new giant of the pharmaceutical industry! This new giant is created by us!”

Chapter 740

“Boss, you’re full of confidence.” Yang Dezhao laughed, “Well then, since we have offended the giants and they might give us a hard time, then we will create a giant of our own and see who can still stop us!”

With Ji Feng’s powerful words to back him up, Yang Dezhao was inevitably energized.

With a product as effective as Kang Yuan slimming powder and the huge reputation accumulated during this period of time, how much more do you have to fear that the product will not sell?

..... It’s a joke!

Ji Feng said confidently, “Even if the Northern Pharmaceutical Group is extremely powerful and those pharmaceutical companies are afraid, they will definitely not give up the fat meat that is right at their mouths.”

Xu Yuan nodded slightly and said, “That’s true, but boss, a large part of the channels are in the hands of those large pharmaceutical groups, moreover, many local and municipal pharmaceutical companies are cooperating with those large pharmaceutical companies, if the Northern Pharmaceutical Group to obstruct this, those small pharmaceutical companies estimated that it is difficult to open the situation ah!”

Ji Feng waved his hand with a smile and said, “We don’t have to worry about this at all, although the large pharmaceutical groups are extremely powerful, however, there are also some pharmaceutical companies that are at a node that is not too big or too small, they just need an opportunity to rise quickly, such companies, will definitely welcome our products into their hands! If it’s not possible, you guys will work harder, go and conduct a research, and then decide which company to choose.”

“I’ll arrange it!” Xu Yuan immediately nodded her head.

Ji Feng smiled, “Don’t worry, if it really doesn’t work out, it’s no big deal for us to give up the Central Plains Province, China is so big, even if we just take up 30% or 40% of the market, it’s still enough for us to make a lot of money.”

Yang Dezhou and Xu Yuan couldn’t help but smile, in fact, what was said was also true, although the pricing of Kang Yuan slimming powder is very low, but, can’t help but the sales volume is really too big,

just the orders placed by those customers who are now cooperating, and the agency fees they pay, that is to use billion as a unit.

There are now seven provincial agents who have signed agreements, and the majority of them are large pharmaceutical companies like the Northern Pharmaceutical Group, which has no shortage of agency fees.

Of course, in order to take care of the affordability of consumers, Ji Feng has long been the Kang source of slimming powder factory price is very low, each bag of slimming powder, after deducting labor costs and various other expenses, only earn 10 cents! This box of slimming powder has a total of ten bags, which is only a profit of one dollar.

On top of that, Xiao's Pharmaceutical Factory has already given guideline prices for those pharmaceutical companies that have signed agreements, and it has been written in the signed agreements that the retail price must not exceed a certain level, otherwise, Xiao's Pharmaceutical Factory has the right to unilaterally cancel the contract.

In doing so, although it could not strictly limit the price of Kang Yuan slimming powder in the end market to be too expensive, however, this is all that Ji Feng could do.

After Ji Feng and other people's estimation, according to this kind of purchase price, Kang Yuan slimming powder to the terminal market, almost each box is about fifty dollars.

This is still the result of Ji Feng's best efforts to compress the cost, otherwise, if you want to advertise on TV and implement advertising bombing, then the cost will go up swiftly, and then the market terminal retail price will definitely reach hundreds of dollars per box!

For example, the factory price of Brainxx, a health product that is now popular throughout the country, is almost less than ten dollars, but when it comes to the market, anything less than one hundred and thirty is counterfeit and shoddy, so we can see how huge the profit in the middle is, and it is also enough to explain how much price has been added to the product from the factory to the hands of the distributors and finally to the hands of the consumers!

It is for this reason that Ji Feng strictly limited the price of Kang Yuan slimming powder, it is only natural to make money doing business, but, the heart cannot be too black.

However, even so, Xiao's pharmaceutical factory this short month of profits, that is an astronomical amount. In Xiao's Pharmaceutical Factory account, the figure of that amount is also constantly jumping, almost every day there will be new changes.

So it was definitely not arrogance for Ji Feng to say that he could completely give up the Central Plains Province, but he really had the capital and the stamina to say that!

But in Xu Yuan's opinion, no one would be too much money, the Central Plains Province is a province with a large population, if the Kang Yuan slimming powder is really promoted there, the profits generated will certainly be very impressive, therefore, Xu Yuan does not want to make Ji Feng lose such a large profit for nothing because of herself.

But this worry is obviously not a problem now, with Ji Feng nodding her head, Xu Yuan knows what to do.

“The company’s business is a very important part of the company’s business. ”

Ji Feng laughed: “Don’t trust professional managers, although this profession is not yet fully prevalent in China, but as long as you are on top of the gatekeeper, and you make the important decisions, those people just need to complete their jobs, the operation and business of the factory will not have any problems!”

It is very necessary to form a team of professional managers, with the rapid development and growth of Xiao’s pharmaceutical factory, it is necessary to have those who are experienced and have the vision and ability to take charge of the actual operation, it does not matter if the leader’s ability is not enough, as long as the right people are put in the right position and the leader is above the gatekeeper, it is enough to make the pharmaceutical factory develop smoothly and quickly!

Xu Yuan and Yang Dezhao nodded their heads and wrote down Ji Feng’s words. Although Ji Feng also has no practical experience, but, his big picture and long-term vision, but Yang Dezhao and Xu Yuan very trust, Kang Yuan slimming powder promotion process has proved that, although Ji Feng also make mistakes, but he can all correct in time, and his overall ideas, are right.

woo woo woo

The sound of sirens was already close at hand, Guo Tao immediately opened the door and went out to have a look, then came back and said, “Boss, the police have arrived.”

Ji Feng nodded and smiled, “Hand those two bastards over to the police and sue them for indecent assault and for disrupting our normal business! With the CCTV footage as evidence, let’s see what they have to argue.”

“Boss, then the footage of you hitting someone just now wasn’t also recorded by the security camera?” Xu Yuan suddenly thought of something and asked with concern, “Or else we should hurry up and edit it now and delete all the images behind it?”

Ji Feng waved his hand and laughed, “There’s no need for that, I already turned off the camera before I did it.”

“Turned it off?” Xu Yuan and Yang Dezhao were both stunned, they suddenly remembered that Ji Feng had only pressed a few times on his phone before he did it, so how did he turn off the camera?

“The surveillance footage from the factory is also linked to my phone!” Ji Feng waved his phone and laughed.

“So that’s how it is!” Only then did Xu Yuan let out a long breath.

“Alright, let’s go together and see those two fallen dogs!” Ji Feng sneered.

.....

“Brother Zhao, what should we do?” In the front compound of Xiao’s Pharmaceutical Factory’s office building, Su Aigong covered his head and squatted on the ground side by side with Zhao Jingzhong, their faces full of depression, both in a very bad mood.

However, they were in a bad mood not because Su Aigong had been beaten up, let alone because the cooperation with Xiao's Pharmaceutical Factory had gone bad, but because, once the police got involved, they thought they would definitely feed the real situation back to the Northern Pharmaceutical Group, and that was when the two of them would be truly unlucky.

"What should I do?" Zhao Jingzhong laughed coldly, "How do I know what to do? Why did you dare to make a move on that woman in front of so many people? Once the headquarters finds out about your actions, both of us will have to go down with you!"

"Me, how would I know that people over here are so savage? They say that men in Jiangzhou are little men, why are they so fucking strong in character?" Su Aigong said helplessly.

Zhao Jingzhong was instantly furious, "You kid are still saying such things even now? Headquarters only sent us here to test Xiao's Pharmaceutical Factory's reaction first, but they didn't ask you to molest the general manager of someone else!"

"Now you're blaming me instead?"

When Su Aigong heard this, he immediately glared and hummed, "Zhao Jingzhong, when the headquarters sent us here, they didn't say that we wouldn't pay the agency fee, right? This is your own idea! If it wasn't for the agency fee, then Xiao's Pharmaceutical Factory would still be bent on cooperating with us? You yourself thought of taking credit and asking the headquarters to reward you, and now you still have the nerve to talk about me?"

When Zhao Jingzhong heard this, he choked for a moment.

Half a long time later, he said helplessly, "Xiao Su, now we should stop blaming each other, the key is how to put this matter to rest, the facts are now in front of us, although Xiao's Pharmaceutical Factory is small, but they are not afraid of our Northern Pharmaceutical Group, looking at them like that, they may really not care about the market in Central Plains Province! So, it's just up to you now."

"What can I do?" Su Aigong said in annoyance, "My head is still bleeding even now, fuck, the people from this Xiao Pharmaceutical Factory are too ruthless, they broke my head, but they didn't even say to send me to the hospital, they actually didn't even let me leave!"

Zhao Jingzhong glanced at the two security guards standing not far away, looking at their sturdy stature and fierce appearance, he could only shake his head helplessly, "A strong dragon cannot suppress a snake on the ground!"

"Hmph! I just don't believe it, the fucking Xiao Pharmaceutical Factory will really not want the market in the Central Plains Province!" Su Aigong gritted his teeth and said, "As long as I know that their Kang Yuan slimming powder has entered the market of the Central Plains Province, I will definitely spoil it for them!"
