

Campus Master 741

Chapter 741

“Hmph! I just don’t believe it, the fucking Xiao Pharmaceutical Factory will really not want the market in Central Plains Province!” Su Aigong gritted his teeth and said, “As long as I know that their Kang Yuan slimming powder has entered the market of the Central Plains Province, I will definitely spoil it for them!”

“It’s still too early to say this, our priority now is how to put this matter to rest!” Zhao Jingzhong hurriedly said, “Xiao Su, you are Director Yang’s nephew, call your uncle now, when the police here verify our identities, let him say hello to the people at headquarters and help us cover up.”

“No way!”

Su Aigong said in a cold voice, “Big deal, I’ll quit, humph! My uncle is a director, but he made me a team leader of the business department, I don’t want to do it anymore, it’s better to fire me this time, I’ll see how he can explain to my mother.

Damn you!

Zhao Jingzhong cursed in his heart, you can quit at any time, but what about me? I don’t have an uncle who is a director!

In fact, if it wasn’t for Su Aigong’s encouragement, Zhao Jingzhong would have been greedy and lustful, but at most he would have taken advantage of Xu Yuan’s eyes and satiated his eyes, and would never have offered not to pay the agency fee, nor would he have touched Xu Yuan’s hands and feet!

It is because there is this Su Aigong following, because he has a director uncle of the Northern Pharmaceutical Group, Zhao Jingzhong this is moved to the heart.

The group has a rule that anyone who can create value for the group will be given a certain percentage of reward, and the agency fee alone for the Central Plains province is a large amount of money, so if the agency fee can be waived, the group will definitely reward himself with a large bonus.

This is why, when Zhao Jingzhong first came to visit Xiao’s pharmaceutical factory, he directly proposed not to pay the agency fee, but also to take the agency of Kang Yuan slimming powder in the Central Plains Province.

In Zhao Jingzhong’s opinion, Xiao’s Pharmaceutical Factory as a very small-scale, single product pharmaceutical factory, to be able to cooperate with the Northern Pharmaceutical Group, that is their honor, if it is not because the Kang source of slimming powder market prospects are very broad, the Northern Pharmaceutical Group will not even look at this small pharmaceutical factory!

It was for this reason that Zhao Jingzhong had the courage to do so.

Moreover, he was not unprepared.

If Xiao’s Pharmaceutical Factory was firm and really did not agree, Zhao Jingzhong would use the influence of the Northern Pharmaceutical Group to make other pharmaceutical companies in the

Central Plains Province not dare to cooperate with Xiao's Pharmaceutical Factory, forcing Xiao's Pharmaceutical Factory to cooperate with the Northern Pharmaceutical Group.

If Xiao's Pharmaceutical Factory still resolutely disagreed as usual, then Zhao Jingzhong would give a little agency fee, and in this way, he would also be able to achieve his goal.

However, he did not expect that the people of Xiao's Pharmaceutical Factory were not only not afraid of the Northern Medicine Group, but were also so fierce that they actually took action right away!

This bastard Su Aigong was also, he was not capable of anything, but he was still more horny than anyone else, and as a result, he had created such a thing, which made Zhao Jingzhong not only unexpected, but also very helpless.

"Xiao Su, as long as you make a phone call, this matter can be solved, big deal, we just return the same way, anyway, the company only sent us to make a front road, just to test Xiao's pharmaceutical factory, we have no credit, and do not make mistakes, is not this good?" Although Zhao Jingzhong was angry in his heart, but after all, the only one who could save him now was Su Aigong, who made him the nephew of Director Yang!

"I don't want to find myself scolded!" Su Aigong bristled and said, "Big deal, I'll quit."

"You ....."

Zhao Jingzhong suddenly became anxious: "If you quit, then I have to continue to work, right? If you don't make this call, won't I lose my job? The first thing you need to do is to make a phone call to the company. So it's good for both of us if you make a phone call!"

Su Aigong still shook his head and said, "He feels humiliated enough with a nephew like me, it's no big deal if he loses face one more time!"

"You can't say things like that!"

Zhao Jingzhong was so anxious that he was almost growling in Su Aigong's ear, "Didn't you want to deal with Xiao's Pharmaceutical Factory? Didn't you not want their Kang Yuan slimming powder to be promoted in the Central Plains Province? If you leave Northern Pharmaceutical Group, I ask you, by then you won't even be in the pharmaceutical industry anymore, what else can you use to deal with Xiao Pharmaceutical Factory?"

"If you still stay in the Northern Medicine Group, in the future, if you know which company has cooperated with Xiao Pharmaceutical Factory, you can always think of a way to do it, a little underhanded trick is all right, in this way, you don't even have to appear, you can achieve the purpose of dealing with Xiao Pharmaceutical Factory, don't you think so?!" Zhao Jingzhong lowered his voice, and was purely enticing.

"Eh?!"

Su Aigong suddenly lit up, "Yes, this is indeed the truth, damn it, I'm all pissed off by you and the bastards from Xiao's Pharmaceutical Factory, yes yes yes."

As soon as Zhao Jingzhong heard this, his face instantly darkened, in front of whom he was calling himself Laozi! However, when he reacted, he was instantly happy again, with Su Aigong's words, that meant he agreed?

"Then hurry up and call, the police are on their way!" Zhao Jingzhong forced himself to hold back the displeasure in his heart and hurriedly said. For the sake of his own rice bowl, he could only pretend that he hadn't heard Su Aigong's words.

"Okay, I'll call now, damn it, Xiao Pharmaceutical Factory, I'm not finished with you!" Su Aigong gritted his teeth and said, "And that Xu Yuan, I'll make sure to get her into bed!"

But Zhao Jingzhong cursed in his heart, "With your virtue, it's okay to look at her from afar, but if you want to chase her down, you'd better wait until your next life!

Originally, Zhao Jingzhong did not like Su Aigong very much, if it was not because Su Aigong had an uncle who was a director of a group, he would not have gotten so close to Su Aigong. But now, he can only rely on Su Aigong to avoid being fired from Northern Medical Group.

Therefore, although Zhao Jingzhong despised it in his heart, his face did not show it halfway.

"That's not right!"

Su Aigong suddenly reacted, "Even if I call my uncle to help cover up the past, but, the things we did in the reception room of this Xiao Pharmaceutical Factory just now, weren't they all recorded by the camera? By the time I call, you'll be fine, but what about me?"

"Then what else do you want?"

Zhao Jingzhong's face sank, "You've already made a mistake by putting your hands on someone else's general manager, whether you call your uncle or not, things are already like this, so why don't you try to do the best you can!"

"Damn, following you old thing, the advantage is not taken advantage of, but instead caused a mess, you old boy but nothing happened, but on the contrary, the old man has been wound up!" Su Aigong couldn't help but curse, only then took out the phone and hurriedly dialed his uncle's number.

.....

"Still on the phone?" When Ji Feng came downstairs, he could already see from afar that a police car had entered the factory gate, and then looking at Su Aigong, who was squatting in the corner of the corridor, still holding the phone and talking about something, he couldn't help but sneer, "It's useless to talk to anyone on the phone!"

"Manager Guo, the CCTV footage has been pulled up." A security guard quickly came down from upstairs and handed over a flash drive, "It's all in here, plus the surveillance cameras have been reactivated as you instructed."

"Well done!" Guo Tao took the flash drive and smiled, "Go ahead."

Ji Feng couldn't help but smile slightly as he watched, now Guo Tao was also starting to have a leadership style, giving the people below him some praise and encouragement from time to time was definitely a good way to go.

"Boss, I'll go and greet the police first." Guo Tao said, striding over, now on this occasion, it was most appropriate for him to step in.

Ji Feng nodded and said, "Make it all clear to the police!"

"Boss, what punishment will these two bastards receive?" Looking at Guo Tao's back, and then at Su Aigong and Zhao Jingzhong who were crouching at the corner of the corridor, Xu Yuan asked.

"If we follow the normal processing procedure, I guess it should be a few days of detention, after all, what they did is not too bad in terms of the law to involve criminal responsibility." Ji Feng said.

"These two bastards, just sending them to the police station like this is simply a bargain for them!" Yang Dezhao said with hatred, "If we follow my idea, we should beat them up severely first, at least we can relieve the hatred first!"

Ji Feng laughed, "That's not necessarily true, you guys immediately contact the Northern Pharmaceutical Group, contact their leaders directly, say that the Northern Pharmaceutical Group maliciously sabotaged our Xiao Pharmaceutical Factory's business, we want to sue them, see what they say!"

"Boss, to sue the Northern Pharmaceutical Group?" Xu Yuan asked in astonishment.

"Since the relationship has already been stalled, let's just make it clear, and we're not afraid of the relationship getting even worse." Ji Feng smiled, "At the same time, this will also prevent Northern Medicine Group from taking sides with the two bastards Su Aigong and Zhao Jingzhong, in addition to telling the people of Northern Medicine Group that if they want to solve this matter, they have to severely punish Su Aigong and Zhao Jingzhong, otherwise, we will sue them, in addition to stirring this matter to the media!"

"That's a good idea!"

Yang Dezhao laughed and said, "As a large conglomerate, the Northern Medicine Group still cares a lot about their reputation, they would rather be sued than definitely not want the media to know about this matter."

"Then what if they don't agree?" Xu Yuan asked.

"If they don't agree, then what should be done!" Ji Feng sneered, "The conflict between Xiao Pharmaceutical Factory and Northern Pharmaceutical Group, I believe many media will be interested, this opportunity to do free advertising, don't miss it!"

Xu Yuan and Yang Dezhao smiled knowingly at the same time, the two of them naturally understood that in front of the Northern Pharmaceutical Group, Xiao Pharmaceutical Factory was also just a small dot, belonging to the weak side, and many people tend to sympathize with the weak, when the time came, just this kind of public opinion would be able to make Xiao Pharmaceutical Factory do another free advertisement!

“Besides, this is the first time this kind of thing has happened, but it definitely won’t be the last time, if the conflict between us and the Northern Pharmaceutical Group is reported in the media, I’ll see which other large pharmaceutical company dares to mess up again!” Ji Feng said.

Xu Yuan and Yang Dezhao nodded their heads at the same time, this was indeed a good idea!

Chapter 742

“It’s not too late, now that Su Aigong and Zhao Jingzhong have been taken away by the police, you guys contact the Northern Medicine Group immediately.” Ji Feng immediately instructed, “I just saw Su Aigong seem to be calling someone, it must not be good for us, the faster we act the better!”

“Boss, I’m on my way!” Xu Yuan said immediately.

“Ding .....

Ji Feng was just about to speak when he was interrupted by a phone ringing, he took out his phone and couldn’t help but be a little surprised that the call was actually from He Hongwei, which was a little rare.

Ever since the Tengfei Pharmaceutical Factory was officially put into operation, the cooperation with the Tianyao Group has been completely stable, and there are no ripples in between.

If there is any intersection in the middle, it can only be the drug transit station jointly established by the two companies, which is now a small logistics company, this company mainly does the transportation of drugs between Tengfei Pharmaceutical Factory and Tianyao Group, which is jointly managed by the two companies.

But in Ji Feng’s opinion, there should not be any mistakes in the middle, after all, this jointly established logistics company will rarely do business with the outside world, because it has just been established, and received very little business, so the vast majority of the time, this external business is just an empty word, mainly to do between the Tengfei Pharmaceutical Factory and the Tian Yao Group is the transport of drugs business.

The majority of the time, the external business is just a empty word, mainly to do with the transport of drugs between the Tengfei Pharmaceutical Factory and the Tian Yao Group.

Ji Feng pondered for a moment, nodded to Yang Dezhao and then picked up the phone, “Young master He, why did you remember to call me?”

“Elder brother Ji, you really don’t make any noise, it’s only been half a year since we’ve seen each other, and you’ve actually made such a big noise, it’s really admirable!” As soon as the phone was connected, there came He Hongwei’s cheerful laughter.

“Young master He, you are referring to .....

“What, still hiding with me?”

He Hongwei couldn’t help but chuckle and said, “Ji Feng, Xiao’s Pharmaceutical Factory, it’s also yours, right? It used to be called Tengfei Pharmaceutical Factory, right? This can be concealed from others, but

can it still be concealed from me? Have you forgotten that when the Tian Yao Group cooperated with the Teng Fei Pharmaceutical Factory, your factory hadn't changed its name yet!"

Ji Feng suddenly understood and laughed, "So what Young Master He is talking about is the Kang Yuan slimming powder, yes, I have heard about it too, it is very hot! But I have to correct myself, this pharmaceutical factory is my girlfriend's, not mine!"

"You brat ....." He Hongwei was dumbfounded, "Yes, yes, it's your girlfriend's, it seems that I gave it a wrong."

"Huh ....." Ji Feng laughed and did not say anything.

In fact, although everyone understands that He Hongwei must know that this Xiao's pharmaceutical factory is Ji Feng's, but Ji Feng also has to deny in front of people that this pharmaceutical factory is his own, not for other reasons, speaking to the outside world, you have to be careful everywhere, sometimes many things we all know each other by heart, but as long as you do not admit it, others can not take you.

What's more, this He Hongwei called, just as soon as the pharmaceutical factory, Ji Feng immediately understood, He Hongwei this definitely will not simply call to congratulate himself, otherwise he would have called this phone.

This time he called, he must want to cooperate with himself, as to what degree of cooperation, it is not easy to say yet, but cooperation is a certainty.

The first thing I want to do is to take this opportunity to congratulate you on your girlfriend. On the other hand, there is something I want to discuss with you ....." When is old brother free to come out and sit down together?"

"What, is Young Master He in Jiangzhou now?" Ji Feng asked with a smile as his heart moved.

"I just arrived today, I don't know when is convenient for old brother?" He Hongwei asked with a smile, "It's also been a long time since we sat down for a drink together, I haven't seen you for such a long time, I do miss old brother."

He Hongwei speaks with a bright and poised manner, even if it is a polite word, it can be said in a way that makes you sound like you know it is false, but also feel comfortable in your heart, this is where He Hongwei's personal charm lies, and also his kind of gentle and elegant character is reflected in his words.

With a slight smile, Ji Feng deliberated for a moment before saying, "How about this, since Mr. He has come to Jiangzhou, I should do my best to be the host, I will treat you tonight, and the venue will be decided by Mr. He, how about it?"

"Okay, at 7pm, at Taste and Fragrance Restaurant on Jinling Road, we'll have a good drink!" He Hongwei laughed and said.

Ji Feng's heart immediately moved again, Jinling Road Flavor and Fragrance Restaurant, why does this place sound so familiar?

At once, he suddenly remembered.

He Hongwei's mouth this Jinling Road a taste fragrant residence restaurant, is exactly Ji Feng and He Hongwei first agreed to meet, only that time, but by the dynasty of two killers to spoil, He Hongwei also because in that sudden incident, said the dynasty two words.

And it was from that time onwards that Ji Feng really came into contact with the mysterious dark organisation that is Dynasty.

Now that He Hongwei has once again chosen the meeting place at the Taste and Fragrance Restaurant on Jinling Road, could it be that he does not want to continue to deepen cooperation with himself in medicine, but has something else in mind?

However, no matter how he guessed, since He Hongwei did not say anything, Ji Feng could not guess the exact news, at most, he was just mentally prepared.

Therefore, he agreed with a smile and said, "Alright then, at 7pm, I'll be there on time, Young Master He, can you bring your bodyguards this time?"

He said this to test He Hongwei's intention of coming, whether it was really related to the dynasty matter or something else.

I can tell you clearly that the main purpose of my visit is to revisit my hometown and talk to you about other things, but it has been my wish ..... for a year to come and have a seat at the Aroma House. I'll see you tonight."

"See you tonight!"

Ji Feng smiled faintly and hung up the phone.

His heart was alive, listening to He Hongwei's tone, his so-called revisit to his hometown, the meaning should be to visit the door of this Taste and Fragrance Residence again, after all, it was here that he almost lost his life in the first place. But inwardly, it seemed to be a kind of aspirational and proud return to his hometown!

The dynasty's branch in China seems to have been wiped out, and the ones left behind are just a few fish in the net, all small minions who can't make any big waves.

In this situation, the He family, who had been fighting with the dynasty for a long time, naturally had to clap their hands in joy.

In fact, when Xiang Yongzhan said today that they had already acted, Ji Feng knew that the action mentioned here would definitely not be only military action, but I am afraid that all other aspects had also moved along with it. For example, in the political sector, all those officials who are involved with the dynasty should have been invited to tea by the security services.

And those businessmen and other figures involved with the dynasty have definitely been hit and pressured from all sides. It was definitely from the business sector, and now that his rivals have been dealt a blow, how could he be in a bad mood?

Under all these circumstances, He Hongwei can be said to have his head on his shoulders and his spirits high.

It is only after one has succeeded, or when one feels that one has risen high above the world, that one will revisit the same place and thus develop a sense of grandeur.

The current He Hongwei should be like that.

Thinking of this, Ji Feng couldn't help but slightly shake his head and smile, "This guy, under his gentle and elegant appearance, he still hides a heroic and heroic heart, this is simply a master scholar who is both literary and martial!"

However, in addition to saying he wanted to revisit his hometown, He Hongwei also seemed to say there was something he wanted to talk to himself about ..... What could it be?

The first thing you should do is to wait until you meet in the evening.

The actual fact is that you will be able to get a lot more than just a few of these.

"Uncle Yang, I'll leave the factory to you, I'll go and see how those two bastards are handled!" Ji Feng laughed.

"It's better for me to go!" Yang Dezhao said, "I'm old friends with the chief of the police station in this district, it's better for me to go and talk some"

"That's true!"

Ji Feng smiled and nodded, Yang Dezhao's going was naturally more convenient than going by himself, and it was also better to talk.

Yang Dezhao then dialed the phone number of the chief of the park police station, after exchanging a few pleasantries, he briefly described what Zhao Jingzhong and Su Aigong had done in the pharmaceutical factory.

After hanging up the phone, Yang Dezhao smiled and said, "Boss, the chief happens to be in the office, so I'll go there first."

"Uncle Yang, thank you for your hard work!" Ji Feng nodded and smiled.

After Yang Dezhao left, Ji Feng once again combed through the day's events and found that there were no oversights or omissions, and only then did he slightly put his mind at ease.

Guo Tao and Yang Dezhao followed the police officers to the police station, Su Aigong and Zhao Jingzhong were taken away with drooping faces, and Xu Yuan was upstairs contacting the Northern Pharmaceutical Group, so for a while, Ji Feng really had nothing to do.

After thinking about it, he decided to go home first and meet He Hongwei at the Taste and Fragrance Residence on Jinling Road in the evening.

However, just as he wanted to go back, he saw Xu Yuan quickly come down from upstairs and said with some anger, "Boss, I just contacted the Northern Medicine Group and told them what happened today, and it turned out that one of their directors said that Su Aigong and Zhao Jingzhong were not familiar with the employees of the Northern Medicine Group!"

"What?!" Ji Feng was stunned.

## Chapter 743

However, just as he wanted to go back, he saw Xu Yuan quickly come down from upstairs and said with some anger, "Boss, I just contacted the Northern Medicine Group and told them what happened today, only to have one of their directors say that Su Aigong and Zhao Jingzhong are not familiar with the employees of the Northern Medicine Group!"

"What?!" Ji Feng was stunned, "Not an employee of the Northern Medicine Group? What does this mean? Is it that Su Aigong and Zhao Jingzhong pretended to be employees of the Northern Medicine Group and came to our factory to defraud us under the name of Northern Medicine Group? Or is it something else?!"

Xu Yuan shook her head slightly and said, "I can't say, when I contacted them, the Northern Pharmaceutical Group's phone was directly transferred to a director's landline by their operator. That director of the Northern Pharmaceutical Group said that there were no Zhao Jingzhong and Su Aigong in their group's employee list, saying that this matter had nothing to do with them at all."

"Then did you tell them that if this matter is not handled properly, we will have to file a lawsuit?" Ji Feng frowned and asked. This was really strange, since that Su Aigong and Zhao Jingzhong were not employees of the Northern Medicine Group, then where did they get the courage to be arrogant here?

Could it be that they were frauds? If they were really crooks, Ji Feng believed that he would be able to tell, because no matter how much they pretended to be, they would have some lack of courage. However, these two people were different, looking at their appearance, they were completely arrogant, especially that Su Aigong. To say that Zhao Jingzhong, he has the feeling of an old crook, but when you look closely, he doesn't look much like one either.

Xu Yuan shook her head and said, "I said that, but that director said that this matter has nothing to do with their Northern Medicine Group at all, and if we dare to mess around and affect their Northern Medicine Group's reputation, they will also sue us and make us pay for all the losses we have incurred as a result, and in a very tough tone."

"That's really strange!"

Ji Feng couldn't help but clasp his arms with both hands and tap one hand on his arm as he mused, "By all rights, these two people must be employees of the Northern Medicine Group, this should be correct, it's impossible for a normal scammer to pretend to be so much!"

"It's better to wait for the results of the trial at the police station first!" Xu Yuan said, "If those two people are really liars, then naturally it's better, because then we don't have to directly offend the Northern Medicine Group."

Ji Feng nodded slightly and said, "That's the only way to go, let's wait for the results!"

After a while, he could not help but shake his head and laugh: "This is really ..... After all this, there is actually a possibility that they are just two crooks, thanks to the fact that we are still here studying how to deal with the Northern Medicine Group for half a day, if the other party is really a crook, then we can be really stupid!"

If Su Aigong and Zhao Jingzhong are really liars, then it is really ironic to say that a pharmaceutical factory, so many people, but actually by two liars to play around, say out this face is simply to lose to the grandmother's house!

Xu Yuan pursed her lips and laughed: "Boss, it can't be helped, we still lack experience in this kind of thing, and because the professional manager team has not been established, so in many procedures, we are still lacking."

"Yes, no matter how capable a person is, he or she will finally not consider everything, and only by truly establishing a long-term effective team with strict rules and regulations will the pharmaceutical factory be able to run smoothly in the long run." Ji Feng nodded approvingly and said, "Xu Yuan, I'm counting on you for this."

Xu Yuan nodded slightly and said, "Boss, I will do it as soon as possible."

"The next step is to improve our internal structure, or at least set up the framework first, otherwise, when we launch other products later, it will be even busier, not to mention the two of you and the director of Yang factory. Even if there are ten or twenty more people, they may not be able to handle it."

Ji Feng urged: "The promotion of Kang Yuan slimming powder is estimated to be completely stabilized by the second half of next year, and by then we will have to consider the issue of launching new products, I have already discussed this matter with Kang industry, they are now working on the development of Kang Yuan slimming powder related derivative products, so you must also prepare well in advance."

Xu Yuan nodded, of course she understood that what Ji Feng said was very reasonable. Nowadays, the framework structure of a truly large group, although it cannot be said to be the most reasonable, will at least allow the leaders above to save a lot of thought and put most of their energy into focusing on the big picture.

According to Xu Yuan's understanding, in many companies with sound departments, the cooperation between the various departments is very good, and the boss of the company may only need to look at the various business and financial statements once a quarter, and that is enough.

There are planning departments working on the development of the company, and if they produce good report cards, the company will reward them, and if they fail to produce results, the company will punish them. In this way, there is no need to worry about employees being lazy or engaging in any other foul play.

The business side of the company is naturally the responsibility of the business department, and with the business department, is the after-sales service, which is divided into two departments, the after-sales service department is directly responsible to the boss, if the business department has any mistakes, the boss will always know at the first time.

The same goes for the other departments, and there is no doubt that the company will naturally develop smoothly and quickly.

The most important thing about an industrial company, especially a company like Xiao's Pharmaceutical Factory, are the four departments.

If something goes wrong with the business department, the company will not be able to sell its products, it will not produce profits, and everything else will become empty words. Closely related to this is the R&D department. Good products are just as important, otherwise they won't sell.

The so-called inspirational best-selling books say that selling a brick as if it were gold would be considered truly impressive, but in Xu Yuan's opinion, that's just standing around talking.

There is an old saying that even a donkey can't fall in the same hole twice. It is enough for others to be fooled once, no one would be fooled a second time by the same person, in the same place, for the same product, and if there is such a person, it would be a fool!

Apart from these two departments, it's all about development planning and finance.

The company is stable for the time being with quality products, good salesmen and open sales channels, but if there is no long-term planning, it may go wrong somewhere and collapse instantly.

Especially in today's highly competitive market, long-term development planning is all the more important as everything in the company revolves around the development strategy set out by the Development Planning Department!

The last department is finance.

The last department is the finance department, which holds a lot of money and if it is relaxed a little, there will be big problems.

Only when these four departments are all working properly can the company function properly.

Because of this, it was not difficult for Xu Yuan to understand why Ji Feng attached so much importance to the team of professional managers and the construction of the structure between the various departments of the pharmaceutical plant.

"Boss, I will definitely set up the structure of the various departments of the pharmaceutical plant as soon as possible." Xu Yuan promised in a delicate voice.

Ji Feng smiled, "You can't be too tired either, first set up the professional manager team, after the team is set up, it can help you save a lot of effort."

Xu Yuan smiled and nodded, her beautiful eyes curiously surveyed Ji Feng and said, "Boss, there's a question I want to ask."

"What kind of question?" Ji Feng asked with a smile.

Xu Yuan's pair of beautiful eyes flickered as she sized up Ji Feng's body, her beautiful eyes filled with curiosity, "Boss, I've always wondered how you know so much when you're younger than me and haven't worked in society, and haven't even graduated from university yet?"

"What kind of question is that!" Ji Feng lost his smile, "Usually when I have nothing to do, I like to read books, well, technically speaking, my girlfriend likes to read books, so when I have nothing to do, I will

also read! I've read a lot of books, so I know a lot of things, but if I want to apply it to my work, I'll need some time to practice it, see, didn't I make a lot of mistakes some time ago?"

Seemingly for a moment, Ji Feng suddenly noticed that a kind of seeming embarrassment, and seeming loss, flashed from Xu Yuan's gorgeous pretty face, and then disappeared again.

If Ji Feng was not extremely confident in his eyesight, he would have thought that he had been blinded in that moment just now. But now he knew that a complex look had indeed flashed across Xu Yuan's face just now, and that he had definitely not been blurry-eyed.

Xu Yuan spread her face and smiled, once again regaining that beautiful and matchless moving charm of hers, her small white hand lightly covering her red lips as she pursed her lips and smiled, "Boss, you're really too modest."

In this instant, Xu Yuan's body unconsciously exuded a strong and moving charm.

At Xu Yuan's age, it was the most charming and moving time in a woman's life. At this stage, every move she made and every smile she knitted would reveal a flirtatiousness that would make any normal man's heart flutter uncontrollably.

The same is true for Ji Feng, but now he is also a kind of appreciation of men for women, and there is no other meaning within.

#### Chapter 744

"Cough ....."

Ji Feng held his right hand in an imaginary grip and coughed lightly in front of his mouth to cover up his outburst, "Then what, I'm not being modest, in fact I'm only talking on paper, if I really want to do it, I still have to rely on you and Factory Manager Yang, if I were to do it, it would definitely be a mess."

"Giggle ....." I don't know why, once she saw this somewhat embarrassed look of Ji Feng, Xu Yuan's heart was bursting with amusement and she couldn't help but giggle.

"Then what, I, I'm going back." Ji Feng stammered a bit, "I'm counting on you at the factory."

"You're leaving now?" Xu Yuan asked.

"Gone!" Ji Feng laughed. For some reason, he seemed to see a hint of reluctance in Xu Yuan's beautiful eyes. Ji Feng's heart couldn't help but thud and hurriedly shifted his gaze, not daring to look at Xu Yuan's pair of beautiful eyes again.

In fact, considering his status, Ji Feng did not intend to stay in the pharmaceutical factory for too long, he only hung up an honorary consultant position in the pharmaceutical factory, which is no different from some other housekeeper's son, it looks like so-and-so is the honorary consultant of which big company, but in fact the company is all owned by that person, just to cover his ears, so he took such a detour.

Ji Feng is likewise avoiding this issue, so he generally does not stay too long in the pharmaceutical factory, especially in front of the workers, he rarely appears, because Xu Yuan and Yang Dezhaoh both habitually call him boss, and after a long time, everyone will know that he is the boss.

What's more, Xu Yuan's performance today seemed to appear somewhat abnormal, making Ji Feng's heart more or less .....

"Ee? It's snowing!" Xu Yuan suddenly said in a delicate voice.

When Ji Feng looked up, he really found that tiny snowflakes that were off to the side were wobbling and drifting down from the sky with no trajectory to be found.

"This is the first snowfall of the year, right?" Xu Yuan looked happy, looking up at the sky, her slightly dark red long curly hair cascading behind her head, wearing a white coat, showing more of a mature woman's flirtatious style, yet with a hint of girlish spunk and liveliness.

"I like snow the most."

Xu Yuan slowly stretched out her hands and couldn't help but turn around in place, "Home in the south, it was hard to see snow when I was a child, then I went to university and only then was I exposed to snow for the first time, Jiangzhou hasn't had heavy snow for several years in a row now, and I don't know if there will be any this year!"

"There should be!" Ji Feng laughed, "Wasn't the snow last year big? I remember that it snowed quite a bit last year!"

"Did it?"

Xu Yuan shook her head slightly and said with a self-deprecating smile, "I was always frazzled last winter, busy all day and night, and I wasn't in the mood to care about whether it snowed or not, but this year is different, this first snowfall I happened to encounter, and you were around!"

Ji Feng's heart jumped, but his face was smiling as he said, "The wind has picked up, it's cold outside, hurry up and go inside, I'm going back."

"No, I want to have a good look at the snow!" Xu Yuan shook her head and said, "By the way, I'll see you off!"

"Oh ....." Ji Feng laughed meaninglessly. After handing Xu Yuan a few more words, he drove away, the pharmaceutical factory had Xu Yuan sitting in the town, Ji Feng was still very relieved.

The reason why Xu Yuan appears to be somewhat timid is entirely because she is thinking too much, thus causing her to be unable to let go. As long as she is given the pill of certainty, with Ji Feng as her backing, she will fully play her ability, just like the promotion of Kang Yuan slimming powder before.

As for what was actually in her mind, Ji Feng felt it was better for him not to think about that, otherwise he might get into trouble!

Looking at Ji Feng waved at himself and then got into the car, Xu Yuan couldn't help but smile sweetly and likewise stretched out her soft white little hand and waved, saying goodbye to Ji Feng: "Be careful on the road, drive slowly, the roads are more slippery when it snows, it's easy to get into trouble ....."

Ji Feng nodded and did not speak again, but just started the car and gradually drove out of the pharmaceutical factory.

“He still just left like that .....” Xu Yuan smiled bitterly, “After all, he has to go, after all, he is someone else’s boyfriend, not .....”

“But it’s nice to have Daxue with me.” Xu Yuan giggled again, opened her arms, tilted her pretty face up to look at the sky where snowflakes were sprinkling down, a hint of reminiscence appeared in her beautiful eyes, and her whole person seemed demented.

After a long time, she came back to her senses and murmured, “I will definitely prove myself and make that person who betrayed you, completely regret it! I will definitely do that .....”

Xu Yuan then turned and strutted upstairs to continue her work as the general manager of Xiao’s pharmaceutical factory. It seemed that the lively and cheerful yet charming Xu Yuan who had just opened up her heart was just a dreamy projection that became lost in the blink of an eye .....

.....

The BMW x6 was driving on the outer ring road without hurry, Ji Feng lowered the windows, and from time to time snowflakes drifted in, some falling on Ji Feng’s face, making him feel a trace of coolness.

And Ji Feng’s heart, but some guilty of muttering, Xu Yuan today seems to be very abnormal, with the previous performance is completely different, today it is as if ....., The actual fact is that you can find a lot of people who have been in the business for a long time.

When did it start?

This is not a good sign, Xu Yuan seems to have some private thoughts that are involved in it, and it is inevitable that when we spend more time together in the future, something will go wrong.

But when Ji Feng thought about it, he couldn’t help but shake his head and laugh.

How could Xu Yuan have any thoughts about herself, it should be because she is too sensitive, maybe because of today’s events, making Xu Yuan’s new tide a little up and down, or maybe she remembered something that made her a little out of shape, but all these probably have nothing to do with other things ah!

“Xu Yuan’s family .....” Ji Feng suddenly had a movement in his heart, of all these people he knew, it seemed like Xu Yuan was the only one who never mentioned her family, the others would more or less talk about their families in their usual conversations.

For example, when people talk about something or a certain topic, they will often talk about “how my family is doing” or “what happened in our hometown”, and as long as they are chatting together, it is not difficult to hear such things. It was not difficult to hear this.

However, Ji Feng had never heard Xu Yuan talk about her family, or even her hometown, and Xu Yuan’s accent was not at all clear where her hometown was, her Chinese language was very standard, at least Ji Feng felt that her intonation was much more standard than his own.

Ji Feng clearly remembered that he had chatted with Yang Dezhao and Xu Yuan when work was over, and Xu Yuan would never mention anything other than work. Even if she did talk about the past, she would only talk about her previous business runs.

For example, if she brought up previous matters, she would occasionally tell stories about her previous battles with those old perverts in the hospital's procurement department, or perhaps her understanding and experience in pharmaceutical sales, but other than that, she would never hear about even the bits and pieces of life from her mouth.

Now that I think about it, Ji Feng feels that he seems to have been somewhat negligent in this regard. Xu Yuan never mentioned her family and past matters, not even her usual life, which could be seen, either she was a very vigilant person, or, she was a person with low self-esteem.

Not talking about her family and her own affairs, perhaps because she is afraid that if people find out, they will think something or do something to hurt her, is vigilant.

Either that, or it was because her family was very poor, or there were things that were difficult to say to others that would make her feel embarrassed if she told them, that was why she didn't talk about it, and that was where Xu Yuan had an inferiority complex.

However, in Ji Feng's opinion, it should not be either of these two possibilities. Judging from Xu Yuan's usual speech and mannerisms, although she is very protective of herself, this is quite normal. Just imagine, a woman who usually often circled between those old perverts, if she wouldn't protect herself, then she would have been swallowed to the bone long ago, and wouldn't she be able to be called the general manager of the current Xiao Pharmaceutical Factory?

The fact is that the company's business is not a business, but it is a business, and it is a business, and it is a business, and it is a business.

Unless, of course, it is the kind of person who has undergone special psychological suggestion, is an agent on a special mission, or is an undercover police officer or something like that.

But Xu Yuan was obviously not such a person, so Ji Feng immediately ruled out the first possibility.

Then, it should be the second possibility?

Ji Feng couldn't help but shake his head slightly, obviously not either.

Xu Yuan was not a person with low self-esteem, and when dealing with others, although her words were modest, however, her eyes were full of confidence. According to Ji Feng's observation, her sales skills, apart from having concessions in terms of benefits, she would also use her confidence to conquer others and make them believe in her and be willing to deal with her.

How could such a person be a person with an inferiority complex?

— This is a joke!

Since both of these possibilities had been ruled out, there was now only one last possibility left – Xu Yuan's family, and what had happened to her in the past, was an extremely unpleasant, one might even say painful, experience for her that she did not want to remember, or, alternatively, that she did not want to mention to outsiders.

This is the only possibility that makes the most sense to explain, other than that, Ji Feng can't think of any other reason that would make an outsider not even mention her family.

## Chapter 745

“Xu Yuan used to ..... What exactly happened?”

On the way back, this question kept lingering in Ji Feng’s mind, making him incomparably curious, “By all accounts, as long as a girl from an above average family, even an average family, although she would be very thirsty for money, she wouldn’t surround herself with that kind of old perverted environment for money for a long time .....”

Ji Feng was puzzled, although in this society, gold worship is rampant, many women don’t say just for money to go around among those old perverts, even if she is asked to take turns to accompany those old perverts, she will certainly be happy to agree, as long as there is enough money to take.

Some women even openly say that they would rather sit in a BMW and cry than sit behind a bicycle and laugh, not to mention just accompanying some old perverts.

How wonderful it is to be able to enjoy and make money at the same time!

This kind of life is indeed very good!

At least in the eyes of a large proportion of women, such a life is indeed beautiful, they can not stand that kind of poor to the point that even to go to a restaurant to eat a meal have to calculate how much money, in that case, what to talk about buying a diamond necklace, buy diamond ring earrings, not to mention what to buy brand-name bags, or even to do beauty care, buy brand-name cosmetics.

Driving Audi cars and using Dior cosmetics, this is the kind of life they want to live.

But Ji Feng believed that Xu Yuan was not such a woman, she would never let herself endure that kind of pain just for money, otherwise, with her beauty, she would not need to be a pharmaceutical sales representative at all, just by hooking her fingers, I believe there would be many people falling under her skirt.

However, Xu Yuan did not do that, and Ji Feng also believed that Xu Yuan could not and would not do that kind of disgusting thing. So, why did she become a pharmaceutical sales representative?

The answer is already clear – Xu Yuan needs money!

Or rather, Xu Yuan wants to earn money, but wants to do it with her own skills and abilities, not with her own body.

Why did Xu Yuan need money?

According to Ji Feng’s understanding, Xu Yuan used to work as a pharmaceutical sales representative, and she could get more than 100,000 yuan a year on average. Although such a salary in Jiangzhou was not very high, it was definitely not low. If you save your money, you can save up to 70,000 to 80,000 a year without any problem.

However, Xu Yuan has been working for several years this time, why is this?

“Where exactly does she need the money? And who did this money go to?” Ji Feng’s left hand tapped on the car door and pondered slightly, but he couldn’t think of any clues.

“I used to be so busy with other things, but I paid too little attention to these people around me, which is very unwarranted .....” Ji Feng secretly mused, these employees of the pharmaceutical factory, or the friends around them, were very different from Xiao Yuxuan and Tong Lei duo.

Ji Feng believes that as long as he treats Xiao Yuxuan and Tong Lei sincerely, and they treat him sincerely, nothing will go wrong in between.

But the other friends are different, once you are busy, it is impossible to pay attention to everyone, while they have their own likes and dislikes, once a little inattentive, it is likely that something will go wrong, this is inevitable, no one’s life is smooth sailing.

It is inevitable that no one’s life is smooth. And when something goes wrong, Ji Feng is obliged to help solve it.

For example, if something goes wrong with Xu Yuan, it would be a huge loss not only for Ji Feng, but also for Xiao’s Pharmaceutical Factory.

Xu Yuan’s ability had been proven in this short period of time.

Although Xu Yuan did not do anything side-splitting, but relying only on her and Yang Dezhao to hold up the pharmaceutical factory, this is enough to show how outstanding her ability is.

It is clear that in the pharmaceutical factory, Yang Dezhao is mainly responsible for managing the workers, while Xu Yuan is in charge of all aspects of the factory’s business, purchasing and accounting.

The company’s ability is undeniable.

But if such a capable general manager, for personal reasons, suddenly left Xiao’s pharmaceutical plant, or no longer able to continue to serve as the general manager of the pharmaceutical plant, then whether for Ji Feng, or for the plant’s workers, is a huge loss.

Within a short period of time, Ji Feng really had no way to find a suitable candidate for the position of general manager.

Once he thought of this, Ji Feng couldn’t help but be horrified. It looked like he had to find time to find a way to ask Xu Yuan about the situation.

Through some of his usual mannerisms and occasional small talk, Ji Feng also had a vague feeling that there were many things hidden in Xu Yuan’s heart, but he could not tell anyone to the outside world, or Xu Yuan did not want to tell anyone to the outside world.

Ji Feng felt that it was necessary for him to help Xu Yuan solve her personal problems, and only then would she be able to devote herself to her work.

Xu Yuan was contributing to the pharmaceutical factory, then Ji Feng had to solve her worries!

With this decision, Ji Feng’s mood was slightly lighter, but he didn’t notice that since he left the pharmaceutical factory, all he could think about was Xu Yuan.

Although it was because of Xu Yuan’s abnormality that Ji Feng’s mind was on her, Ji Feng’s thinking, however, had obviously received Xu Yuan’s influence, only that he himself had not yet noticed it.

“Ding .....

Ji Feng was pondering when his phone suddenly rang, he directly put his headphones on and picked up the phone, “This is Ji Feng, who is it?”

There was a moment of silence on the phone, only the sound of breathing if any came through.

Ji Feng immediately frowned slightly: “Who is it? Speak up!”

“Ah...!”

In a flash, a miserable scream suddenly came out, the sound was so harsh that it was as if he was being punished by the most painful punishment in the human world, making people’s bones shudder.

Ji Feng’s eyes were awe-inspiring, however, and he coldly snorted, “Stop pretending to be a god to me, no matter who you are, if you have something to say, just say it, if you have a fart, otherwise, I don’t have so much time to play with you!”

“Ah...” another miserable scream came, followed by a continuous sound of miserable voices, as if the other end of the phone was hell on earth.

Immediately, Ji Feng took out the phone from his pocket without moving, and after scanning it, he found that it was an incoming call without an area code or any display, and even the word ‘unnamed’ was the only one on the caller ID.

“That’s my son’s scream!” A man’s low, hoarse voice suddenly came from the headset, as if with a metallic ringing sound, very strange, “Remember, this is my son’s scream.”

“The screams are very moving!” Ji Feng did not have the slightest fluctuation and said calmly, “A hundred times more miserable than this, I can still listen to it.”

“You must remember, you must remember, the pain my son has suffered, I will make you pay back ten times a hundred times, I will!” The other party’s voice was filled with thick hatred, as if he had an incomparable grudge against Ji Feng, and that voice was as if it was a magic spell from hell.

But Ji Feng smiled blandly: “Do you dare to say this in front of me? I will only remember if you dare to stand in front of me and say this, otherwise, I don’t have the slightest interest in people who hide their heads, nor can I remember!”

As he spoke, he made a few quick taps on his phone, only to see a line displayed on the screen, “Satellite tracking connected .....

“If you have the guts, you can come to Jiangzhou to find me!” Ji Feng smiled faintly, “If you don’t dare, then I’m sorry, this kind of call won’t work for me.”

“I will go!” The man on the phone said in an annoyed voice.

“Pop!”

The phone was hung up.

“Tic-tac-toe .....” Ji Feng’s phone immediately sounded an alarm, and when he picked it up, it was the satellite tracking connection that was broken and there was no more signal from the other party.

“It seems that the other party has sensed something, really cunning .....” Ji Feng coldly snorted, the mobile phone he used, belonged to the military special, there was a specific satellite communication channel, if he wanted to track the other party, reasonably speaking the other party should not detect it.

What’s more, Ji Feng was already very careful when he spoke, and was deliberately stalling for time, in order to find out the other party’s area in the shortest possible time.

But the other party still hung up the phone just after Ji Feng had checked and before he could say a few words. Obviously, the other party was very careful and very cunning, and did not give himself the chance to trace.

What’s more, Ji Feng heard a firm determination in that man’s hoarse and low voice, and he was convinced that the other party would definitely come to Jiangzhou to find him!

In his heart, he couldn’t help but secretly ponder who had suddenly made such a threatening phone call to him?

This caller must be someone who hated himself very much. Carefully speaking, since he had only started to offend people after he got the intelligent brain, and he had offended quite a few people, for a while, Ji Feng could not really think of who it could be.

There was another piece of information in the content of this phone call that impressed Ji Feng deeply, and that was that the miserable scream was made by the son of this person who called.

That meant that the other party hated himself, and it should be because of his son!

Ji Feng thought about it carefully and could not help but laugh dumbly. Among all the people he had offended, it seemed that men made up the vast majority of them, and from this aspect, he could not make any headway in his analysis.

Shaking his head slightly, Ji Feng no longer thought about it alone, he deliberated slightly for a moment and still dialed Wang Xin’s number.

“Boss?” Receiving Ji Feng’s call, Wang Xin looked pleasantly surprised.

“Wang Xin, haven’t had lunch yet, have you? I’m going to treat you to lunch, I wonder if you’ll be willing to give me a treat?” Ji Feng asked with a smile.

Chapter 746

“Wang Xin, you haven’t had lunch yet, have you? I’m going to treat you to lunch, I wonder if I’ll be willing to appreciate it?” Ji Feng asked smilingly.

“Of course it’s no problem, boss, you’re treating me to lunch, I’m more than happy, how could I possibly refuse!” Wang Xin said happily.

“Good then, I’m on my way to your place now, about .....” I can get there in about half an hour or so.” Ji Feng smiled and said.

“Then I’ll wait for you!” Wang Xin said happily.

Ji Feng laughed, hung up the phone and said with hatred, “This is really not even a home to return to! ..... It’s all because of this damn threatening phone call!”

In fact, it would be an absolute lie to say that Ji Feng really didn’t take this threatening phone call to heart. The first time he received such a threatening phone call, Ji Feng still felt quite new, and at the same time the vigilance in his heart was raised a lot.

After all, knowing that there was such a person with strong animosity towards himself hiding in the shadows, there must be more or less squirm in his heart. What’s more, Ji Feng could totally hear that the other party simply wanted to break himself into pieces before he was willing to do so.

Therefore, he was a bit worried.

He himself was not afraid, as he said, the other party would only hide in the shadows and not see the light of day, so there was nothing to be afraid of. What he was worried about was the safety of the people around him.

In particular, Ji Feng was most worried about the safety of Xiao Yuxuan and Tong Lei, and he also realised how important it was to hire someone to protect the two women.

Although Xiao Yuxuan and Tong Lei were already quite good at body-building exercises, they were still far from the killers hiding in the shadows. It was not that they were poorly equipped, but because they had no experience in actual combat, especially when faced with killers who appeared out of nowhere, or who would not appear in front of them at all, but attacked directly from a distance, they could be said to have no experience at all.

Under such circumstances, even if their kung fu was high and their skills were good, they would definitely not be able to deal with those killers who were hiding in the shadows.

Therefore, Ji Feng had to hire someone to protect them again.

“It seems that it is necessary to work hard as soon as possible and strive to enter the third stage in the shortest possible time so that the biological bomb inside the white spider can be cracked in exchange for the retired female warriors under Xiang Yongzhan, so that Yu Xuan and Lei Lei’s safety can be guaranteed!” Ji Feng secretly mused.

In fact, Ji Feng knew very well that even the most powerful bodyguards could not guarantee the safety of their targets 100%, after all, no one knew where the danger would be hidden and when it would come. Even a tiger has its napping time, and the same goes for bodyguards.

Passive defence is never a long-term solution, and this will not only cause Xiao Yuxuan and Tong Lei to lose a lot of freedom, but will also gradually increase the pressure on their hearts.

Although neither Xiao Yuxuan nor Tong Lei said anything, Ji Feng could tell that since Xiao Ying came to Jiangzhou, Xiao Yuxuan and Tong Lei had something more on their minds. Obviously, they also realised that since they had asked Little Shadow to protect them, it meant that a danger was about to befall them.

The more this unknown danger was, the more it would bring great pressure to people.

Therefore, the best way to solve the danger is to remove the source of the danger directly.

This is why the ancient emperors, despite having heavy guards, still went to great lengths to find those who rebelled against them and get rid of them. What they wanted was not only the stability of the kingdom, but also their own lives.

Even if the kingdom is secure, what is the use of being emperor if you don't have the life to do so?

The same is true of these modern-day big shots, who, under the premise of temporary safety, identify their enemies and then do everything they can to beat them to the point of no return.

Ji Feng likewise did not intend to be so passive and defensive all the time, but the other party was so cunning that he could not track it down at all, so he could only go to Wang Xin, and among the people he knew, perhaps only the duo of Wang Xin and Yang Yu would be able to help him track down the guy hiding in the shadows.

However, Ji Feng was not sure if the tracking would still work if the time gap was too long, so Ji Feng subconsciously sped up his car, and it only took him twenty minutes to arrive at the Tengfei Network Company on Tongzhou Road.

When Ji Feng arrived, Wang Xin was already waiting at the entrance. When she saw Ji Feng, she immediately spread a smile: "Boss!"

"Why are you waiting here?" Ji Feng smiled and walked over, looked inside the facade and found it empty, "Where's Yang Yu and the others?"

"They've all gone to eat!" Wang Xin's voice was gentle.

Ji Feng then couldn't help but smile, "Good then, close the door and let's go eat too."

"No need, my brother is still inside, no one else would dare to come in." Wang Xin said softly, "Boss, there aren't any restaurants around here!"

Ji Feng raised his eyes and looked around, he really didn't find any restaurants, he shook his head slightly: "The efficiency of these developers is really okay, it's been more than a year, but there's still not much progress, what it was like, it's still like that ..... Let's go, I'll take you to eat in the street ahead!"

"Mmm!" Wang Xin nodded obediently and followed behind Ji Feng to the car.

The first thing you should do is to take a look at the actual girl's personality and think she can be bullied at will.

The first time I saw her, I remembered that she had never met her before, and she was amazed.

Later, when Ji Feng learnt that Wang Xin's kung fu was learnt from her brother, Wang Hu, he was even more surprised. Just by learning from Wang Hu in her spare time, and without any formal training, she was able to have such skills.

Ji Feng originally wanted to find an opportunity to teach her some kung fu, but when he thought about it, apart from gymnastics, what he had left were only some combat fighting skills that would kill her in one blow, so if he taught them to her, he might scare her.

But now that he saw Wang Xin, Ji Feng's mind came alive again.

In the future, as the network company gradually grows, there is no guarantee that something unexpected will not happen, so if Wang Xin is more powerful, there is no harm.

Especially for the browser developed by Tengfei, although Ji Feng had not yet seen it with his own eyes, but Yang Yu and Wang Xin led a group of technical staff to work hard to come up with something, I think it will certainly not be bad.

Once the browser is introduced to the market, I'm sure there will be people with bad intentions.

With the experience of Xiao's pharmaceutical factory product promotion, Ji Feng was already very familiar with these paths, which seemed like a growth compared to his previous youthfulness.

He could be sure that as long as the browser could be promoted, there would definitely be people looking at it with red eyes, and when the time came, there would naturally be those looking for trouble, and there was no harm in Wang Xin learning some more kung fu.

"Boss, you must have taken a look at our browser this time you're here, right?" Sitting in the car, Wang Xin asked in a soft voice, "You've come a few times and haven't looked at our research results, everyone thinks you don't value us here!"

Ji Feng was stunned, "How did you guys get this idea?"

Whether it was the Tengfei Network Company, or Xiao's Pharmaceutical Factory, or the Tengfei Pharmaceutical Factory, they were all his own industries, how could he possibly care about one and not the other? Ji Feng had never had this kind of idea of favouring one over the other, and this Wang Xin's idea was a little too strange.

The reason why he would often go to Xiao's pharmaceutical factory, that is entirely for a reason, this needs to be considered in a holistic manner. How could it be done one by one? For two companies to rise at the same time, the cost and effort it would take would be absolutely unimaginable!

This is why Ji Feng temporarily put his main focus on Xiao's pharmaceutical factory, but this is definitely not a favoring one over the other!

In fact, for the importance of the network, Ji Feng knows better than anyone, the reason he put the network company last, in fact, he wants to focus on developing the network company!

"It's not what I said, it's just that a few colleagues are talking about it privately." Wang Xin carefully glanced at Ji Feng before saying softly, "They were being lazy once and were reprimanded by the manager, and as a result, when the manager left, they were secretly talking behind their backs."

"Talking about what?!" Ji Feng frowned and asked.

"They said, it's not like we're an important unit here, even the boss doesn't see people once in as many days, why do you, a manager, have to work so hard, and really think of yourself as a good employee who is scrupulous in his duties? The boss is invisible!" Wang Xin mimicked the tone of those people and said cautiously.

Ji Feng shook his head and laughed at once, and asked again, "So, those people who said that, are they technicians, or logisticians?"

"It's the logisticians, the technicians don't have that leisure to be lazy now, they're all still busy perfecting the browser at last!" Wang Xin said.

"The less useful people are, the bigger their temper is still, and the ones who complain the most ..... Logistics staff, casually beckon in the labor market, there is no telling how many will follow, but technical staff, the really technically good people, there are not many ....." Ji Feng smiled and lamented before saying, "Don't worry, I've just been busy with drug promotion lately, so I haven't taken time out. But in the next while, I will come often."

"That's great!" Wang Xin said joyfully.

Ji Feng chuckled and said, "Don't take those people's strange words seriously in the future, they themselves are insignificant little people, that's why they like to say a few strange things, from their subconscious, they want to be taken seriously and want others to know that they exist."

"I understand, they are trying to justify their existence, right?" Wang Xin said with a cheeky smile.

"That's exactly right!" Ji Feng smiled and nodded, "Right now it's mainly because the company doesn't have too strict rules and regulations yet, Wang Xin, you should try to take a break from the technical direction to learn to do management, I'm very uneasy without a caring person in the company!"

"Mmm!"

When Wang Xin heard the words 'a caring person', her pretty face flushed and she nodded obediently, only for her voice to drop for a moment, "I'm just afraid that I won't be able to do it well. I've always done the technical side of things before, I've never done management."

"That's nothing!"

Ji Feng laughed, "Didn't that Bill also come from a technical background, and didn't he also manage such a big company later on? I'm sure you won't be any worse than him! Go for it, Miss Wang!"

"Hee hee ....." Wang Xin was instantly happy and nodded vigorously, "I know."

## Chapter 747

From Tongzhou Road towards the city, about five or six stops away, it gradually starts to get busier. At least, it would not be as desolate as Tongzhou Road, as if it was some kind of ravine where you could not see a single person for a long time.

Ji Feng took Wang Xin, casually found a slightly classy looking restaurant and ordered two dishes.

He didn't order some expensive dishes indiscriminately or go to some high-end restaurant just because he was treating a girl to dinner. The habit of simplicity had already penetrated deep into Ji Feng's bones.

He would only go to high-end places unless others specifically asked him to, otherwise, the concept of enjoyment was never in his mind!

Wang Xin was not a greedy person either, in fact, as an orphan since she was a child, being able to have enough to eat was the greatest happiness, so naturally she would not be fussy.

When the two simple people came together, the waiter was amazed.

He had taken a girl out to eat, but he had only ordered two dishes, and he had even picked up the cheap ones, how stingy!

The waiter took a look at Ji Feng, secretly skimmed his lips, took the menu and left in a breezy manner.

“Hee hee ..... Boss, just now the waiter looked at you so strange oh!” Wang Xin laughed delicately.

Ji Feng also shook his head and smiled, “Can’t help it, I’m used to it.”

“I’m used to it too.” Wang Xin pursed her lips and laughed, “In the past, the old dean used to raise so many of our children by himself, so he was already content to have enough to eat.”

“The old dean is remarkable!” Ji Feng nodded and said, relying on his own efforts, so that so many homeless orphans had food to eat and could grow up healthy, such people were the most remarkable. Perhaps, ordinary but great is said to be this kind of person.

“Boss, are you suddenly inviting me to dinner, is there something going on?” Wang Xin asked.

Ji Feng nodded and said, “It’s a bit of business, there’s a call from a number I don’t know, I need your help to trace the location of the other party, can you do it?”

“This is very simple, whenever a call comes in, it will be through the satellite or wired network, this will be traceable, I believe it’s not a big problem.” Wang Xin nodded and said, “The reason for not showing the caller number on the phone is actually very simple, either it is a number that has not been registered, or the other party has deliberately blocked it, it is not difficult to find out.”

“That’s good!”

Ji Feng was then relieved, “Let’s eat first, you can check it for me when we get back.”

“Check now, it will take a while to serve the food anyway, I’ll try to find out for you before we eat.” Wang Xin said, her interest was instantly piqued when it came to the technical side of things.

“Alright then.” Ji Feng smiled and handed over his phone, “The last call on this is what I’m going to check.”

“Is there a data cable?” Wang Xin took it and immediately asked.

Ji Feng was stunned and immediately shook his head, “I don’t have it with me, so forget it, it’s better to wait until I bring the data cable before checking.”

“It’s okay, without a data cable, you can also connect with Bluetooth.” Wang Xin immediately opened her kun bag, took out a small laptop from it, put it on the table, booted it up and started tapping away quickly.

Ji Feng couldn't help but be secretly surprised, this small laptop of Wang Xin's was more than half the size of a normal computer, yet it was larger than a palmtop computer, this was really the first time he had seen this kind of computer.

Moreover, for Wang Xin to carry a computer with her, it also made Ji Feng feel funny, really worthy of being a computer expert.

Wang Xin, who was working, seemed to have forgotten that there was still Ji Feng's presence across the room, and her beautiful eyes showed a strange look as she stared intently at the computer screen, her hands tapping rapidly on the keyboard.

Ji Feng looked at her small hands tapping on the keyboard and couldn't help but secretly say that it was only a girl like Wang Xin who could be used to this kind of small computer, if it was herself ..... He looked at his own stubby fingers and then at the dense little keyboard on the laptop and couldn't help but shake his head slightly.

If it were himself to hit the keyboard, I'm afraid he would press two or three keys together, that keyboard is just too small.

But for Wang Xin, it was perfect. She just saw her tapping left and right, her pretty face emitting a different look, looking very energetic.

Once she was working, Wang Xin's whole essence was different, and watching Ji Feng couldn't help but secretly nod his head, only when he put his whole heart and soul into a thing like this could he do his best. The fact that Wang Xin was called an expert in computers was not by chance or luck, but was greatly related to this kind of total concentration on her part.

"Ee?!"

Wang Xin suddenly made a surprised sound, "Strange ....."

Ji Feng was stunned, "What's wrong? Is it that you can't find out?"

"No, it's the area where this caller number is located, it seems to be ..... at sea." Wang Xin hesitantly said, "Boss, look, this is the area where the number is located."

She turned the computer around and pointed it at Ji Feng.

On that computer was a topographical map with a red circle of light that was flashing in a regular pattern. Within this red circle of light, there was land on both sides and a large ocean all in the middle. One could easily see that one corner of it was a map of the southeastern coast of China!

"This is ..... the sea between China and the island country?" Ji Feng asked with a frown.

"It's about five hundred kilometres from China, the satellite map doesn't show any islands around here, it should be hitting on the wear!" Wang Xin analyzed.

Ji Feng immediately asked, "Where is the distance from China? Is it this coastal area?"

"That's right."

Wang Xin nodded, "If we calculate from Jiangzhou, it's about seven hundred kilometres."

“How far is it from the island country?”

Once Ji Feng heard that it was in the area between China and the island, he couldn't help but feel a twitch in his heart and immediately asked, “Is it closer to the island, or is it closer to China?”

“Just a moment.”

Wang Xin quickly tapped the keyboard a few times, “It's about three hundred kilometres from the island.”

“In that case, it's almost the same as almost reaching the island's territory, and a boat ride on the island's coast will get you to this area you mentioned in a very short time .....” Ji Feng frowned and pondered darkly, “In that case, it seems that this person who called me should be hiding in the territory of the island, or at least, on an island near the island, otherwise, they would not be able to drive a boat to the sea.”

Ji Feng knew very well that the situation on the sea was not as calm as the inner sea of China, even the fishermen who went out to the sea for fishing did not dare to go out too far. What's more, the island often sends some warships and other vessels to patrol the sea, unless they are legal fishermen or people with relevant procedures and documents, they can appear on the sea at will.

So, to be that close to the island and on the sea, it was obvious that the other party should have set off from the island before reaching the sea.

Then this also meant that the other party was on the island!

“Wang Xin, can you still find out, which area of the island country does this number that called me belong to? Are you sure it's an island number?” Ji Feng immediately asked.

Wang Xin couldn't help but shake her head slightly and said, “The other party has blocked the signal, and there's no instant messaging going on right now, so I can't find out exactly where the caller belongs to, unless the other party is calling you right now, and during the call, I'll be able to make the most accurate trace.”

“So that's how it is. ....”

Ji Feng's gaze once again fell on the computer screen, looking at the area covered by the red circle of light, his fingers gently tapped on the desktop, one by one appeared to be rhythmic, if people familiar with Ji Feng, they would immediately understand that Ji Feng was in deep thought.

“Boss, is this call very important?” Wang Xin asked, and then hurriedly said, “If it's not convenient to say, then just pretend I didn't ask.”

“It's nothing, well, hurry up and put the computer away, the food is coming up.” Ji Feng laughed and didn't answer the question.

Wang Xin then nodded obediently, seeing that Ji Feng did not answer she understood that this question was a bit inconvenient to ask herself.

Ji Feng, however, secretly pondered, this time, it seems to be very fishy ah.

The company's main business is to provide a wide range of products and services to the public. The company's main business is to provide a wide range of products and services to the public.

..... No!

Ji Feng was suddenly stunned, it's not that he hadn't offended the islanders, on the contrary, he and the islanders had really had a fierce fight!

A year ago, the robbery of the Jardine Mansion in Jiangzhou was solved by himself and Yi Xingchen, but there were many islanders who died in his hands, and they were all leaders.

If the islanders' accomplices knew about this, it is not impossible that they would have hated themselves to the bone!

"However, this person who called me clearly spoke the purest Chinese language, and, it seemed to have a hint of a Beijing accent ..... The other person had spent some time in Yanjing? Or did he deliberately speak to himself in this tone?" Ji Feng frowned darkly, but could not come to any accurate conclusion.

"Originally, having someone from the dynasty hiding in the shadows was already enough of a headache, but now such a demon has come out, this is really ..... ee?" Ji Feng had just thought of this when he suddenly couldn't help but stare, "Someone from the dynasty?"

He suddenly remembered that people from the dynasty also seemed to have gone to the island, so could this person who called himself be someone from the dynasty?

But when he thought about it, he had only had a few encounters with people from the dynasty, and there was no son as mentioned in the phone call, so what was this about?

Or maybe his guess was wrong and the other party was not from the dynasty?

For a time, Ji Feng could not help but fall into a deep thought .....

## Chapter 748

This time, Ji Feng did not disappoint Wang Xin and the rest of the Tengfei Network Company again, and after dinner, he went to the network company's office to learn more about the new browser that Wang Xin and the others were developing.

However it was only a few simple words of introduction from Yang Yu and Wang Xin that almost caught Ji Feng off guard.

"Boss, the biggest feature of this browser we are developing, is that it can present a 3d mode, and it is also applicable to all kinds of TV and computer all-in-one machines, that is to say, once this browser is marketed, users simply do not need to run to the cinema specifically anymore, but simply sit at home and enjoy the 3d visual mode. " Yang Yu said.

Ji Feng was stunned: "Is it that evil? I remember that that so-called 3d technology, not from this terminal up view to distinguish from ordinary films, but in the shooting has used 3d technology ah."

"The browser we developed has a transformation function, if it is playing 3d movies, it can completely reach the effect of the cinema, if it is an ordinary mode movie, it can also greatly enhance the sense of

three-dimensionality.” There is no general difference with Wang Xin, as soon as he talked about the technical aspect, Yang Yu’s eyes glowed with excitement, “More than that, when browsing the page, it is likewise very three-dimensional, the user will feel very fresh.”

“In fact, this browser we have developed is just a product to test the waters, the main purpose is to make users feel fresh and try to capture part of the market, which in turn will pave the foundation for our future product promotion.” Wang Xin explained from the side.

Ji Feng was then relieved, and he couldn’t help but nod and smile, “Good, when will this browser be available?”

“About a month or so, it’s currently undergoing final testing and refinement.” Yang Yu said.

Ji Feng deliberated for a moment before asking, “So, how do you plan to promote it? Is there anything I need to provide support for?”

Regarding the publicity and promotion of the computer industry, Ji Feng had no experience at all and did not know much about it, so naturally he would not rashly intervene. Therefore, the best way was to follow Yang Yu’s and Wang Xin’s advice and give them the necessary support, which would be enough.

“Since it’s a test piece, we don’t plan to promote it on all fronts, but mainly on the internet. We are people who frequent various forums, so I believe the publicity effect won’t be too bad by then.” Yang Yu smiled and said.

“In fact, this is most crucial, or a matter of time, as long as there is enough time, I believe that more and more people will know about this browser of ours, and the number of people using it will gradually increase by then ……” Wang Xin also followed and explained.

Ji Feng nodded slightly and said, “Well then, I don’t know much about this aspect either, it’s better for you guys to discuss it, if you need anything, just talk to your manager, or talk to me directly, I will do my best to support you.”

“Boss, to say support, we really do need your support!”

Yang Yu heatedly laughed, “Boss, in fact, according to my plan and Wang Xin’s plan, our web company is not just making products like browsers, this is just a means for us to open up the market for the time being, that is, to let the outside world know more about the existence of our Tengfei network, and also to let them recognize our technology.”

“Then what is your real purpose?” Ji Feng asked with a smile.

This was really strange, as the boss himself, he didn’t even know the ultimate purpose of the network company!

“To gradually open up the market with a browser, so that more people in the industry can learn about our company and thus place orders with us, our ultimate aim is to have software development go hand in hand with other comprehensive businesses, and eventually form a large online company!” Yang Yu said loudly.

Ji Feng smiled and nodded his head, saying, “Good, then I’ll look forward to that day!”

“It will definitely happen, and it’s not far away!” Yang Yu said with confidence.

“Do a good job!” Ji Feng gave him a punch.

Yang Yu immediately bared his teeth in pain, “Boss, you’re also too hard!”

“Hahahaha .....” Ji Feng couldn’t help but laugh out loud, “Alright, you guys keep busy, I’ll go upstairs and take a look.”

“Boss, this way please!” The manager said with a smile.

Afterwards, Ji Feng talked carefully with the manager of the network company, mainly focusing on the working hours of Wang Xin and Yang Yu and others, as well as their logistical support and other aspects.

The manager was newly recruited later, and Ji Feng really didn’t have a deep understanding of his personality and ability, and the news he usually heard was only from Yang Yu and Wang Xin, which was not comprehensive. Therefore, this conversation is also tantamount to reiterating his position that achievements are not the most important, the key is to ensure the health of every technical staff and retain talents so that they don’t feel depressed here!

It can be said that although the network company has not seen any results since its formation until now, but Ji Feng is not worried, he knows that Wang Xin and Yang Yu, two experts in computer, will never waste their time for nothing. But what Ji Feng was worried about was whether the rest of the company would get bored with it, so that’s why he had to have a good talk with the manager.

The actual fact is that the actual manager has no signs of this, so Ji Feng is slightly relieved.

.....

When Ji Feng left the network company, it was already three o’clock in the afternoon, the original noon snowflakes have now turned into goose feather snow, the whole ground has turned into a snow white, in this desolate place, the office building lights, so that this cold winter more than a trace of warmth.

Ji Feng sat in the car, looked at the rear view mirror, could not help but smile slightly, now whether the network company can make achievements, are not important, the key is that they have to stay here, because wait until they are precisely into the third training stage, will start to learn how to make the kind of display light screen of the gamma galaxy, at that time, is the time when the network company really take off!

As for now, it is still just a dormant accumulation stage, if Yang Yu and Wang Xin can get results, then naturally better, it can be said to be an unexpected pleasure.

Even if they couldn’t get any results, then Ji Feng had nothing to be surprised about, after all, the two of them were technicians, there was no systematic planning above, no one went out to receive orders to run business, and even more so, no one gave them tasks.

Therefore, these technicians’ ideas are not consistent, and their efforts cannot be directed to one place, each with their own ideas, and they end up working separately, so it is really normal that they do not produce results.

But now it's different, Ji Feng gave all these tasks to the manager and Wang Xin, set up the structure of the industry network company, set up each necessary department, recruit business personnel and so on.

"It's about time!" Ji Feng said secretly, he would use the fastest speed to enter the third training phase, by then, these various departments of the network company, has also been gradually stabilized, as long as until his own technology is in place, then he can immediately proceed to the development phase.

Before that, Ji Feng must train a caring manager who understands both technology and management, and his candidate is Wang Xin.

On the one hand, Wang Xin was more flexible than Yang Yu, and although she was a girl, she was good at kung fu and in much better health than Yang Yu, and the pressure of managing and managing technology at the same time was relatively high, so Ji Feng had to choose Wang Xin in the absence of a better candidate.

From forming the company's structure, to recruiting business people and training them, to them going out to run business and take orders, Wang Xin would be involved in all these series of activities, so that she could gradually grow up through these things and become a multi-faceted person, rather than a mere technician.

You know, in the future, as the company grows, Ji Feng must have a few caring people in the company, otherwise, he will not be able to completely control the company and something might go terribly wrong in the middle.

That was why Ji Feng made this decision.

"I hope this girl Wang Xin can hold the company up, the future Tengfei Internet Company will eventually take off completely and will definitely grow into a giant existence in the end!" Ji Feng, who was driving, couldn't help but wave his fist vigorously, "I have this confidence!"

But randomly, Ji Feng remembered that threatening phone call from the sea of the boundary tent, and his face sank.

Because he was eating earlier, and after thinking about it for half a day, he didn't come up with any clue, not to mention that he didn't know whose son he had actually hurt, who the other party really was, and why he had made such a threatening phone call to himself, Ji Feng knew nothing more about it.

However, this matter was still lingering in Ji Feng's mind.

"There was a very obvious hint of a Beijing accent when the other party spoke ....." Ji Feng secretly deliberated, he was unable to accurately determine even now whether the other party had spent some time in Yanjing or whether it was because the other party was deliberately imitating the Beijing accent in order to create a misunderstanding for himself, so that he had no way to track down the other party.

"Cunning fellow!"

Ji Feng couldn't help but sneer, "A thing that hides its head ....."

In fact, if it was originally just a simple threatening phone call, Ji Feng wouldn't even put it to heart, a person hiding in the shadows who didn't even dare to show his face, what was there to fear?

This person was not like the kind of organizations like Dynasty and Xuan Yin Sect, which had great energy and hid in the shadows waiting for an opportunity to move, and was able to make Ji Feng feel extremely scare.

However, when the other party called, the kind of ruthlessness and hatred that seemed to come from his bones, as if he had to break his own body into pieces in order to relieve the hatred in his heart, this kind of hatred was too deep, not at all like an ordinary threatening call.

This is why Ji Feng was alerted and went to Wang Xin to help check it out, but the result made Ji Feng's heart amazed that the call actually came from the boundary tent's range!

The moment he mentioned them, he immediately looked like a frightened hedgehog, with all his thorns standing up.

Now that he found out that this call was actually coming from the boundary tent, it would be strange for him not to be alert!

"How can everything be related to the boundary tent people?" Ji Feng couldn't help but cursed, "Damned Boundary Canopy people, how come those two mushroom clouds didn't sink this little Boundary Canopy in the first place! It's only been a few years, and they've started popping up again ..... Motherfucker!"

Under his anger, Ji Feng couldn't help but burst out a foul mouth, which showed how angry he was in his heart.

#### Chapter 749

Now that he knew that the call was coming from within the confines of the island, although Ji Feng did not yet know who exactly had such a great hatred for him that he had to put himself to death before he was willing to do so, it did not stop him from taking this matter extremely seriously.

Because he could not guess who the person who made this threatening phone call to him was, Ji Feng could not come to any conclusion for the time being, so Ji Feng just put this person into a separate party and was on high alert, no different than he was with Dynasty in general.

"No matter who you are, as long as you dare to come, don't even think about going back." Ji Feng coldly snorted, and as soon as his foot stepped on the accelerator, the BMW x6 sped off and raced down the road.

"Ding ....."

Ji Feng had just picked up speed when his mobile phone suddenly rang again, and couldn't help but shake his head with a smile as he slowly slowed the car down and parked it on the side of the road before finally putting on his headphones and picking up the phone, "Who is it please?"

As he spoke, he turned his head and looked around, noticing that the snow on the ground had become very deep and that the flakes were falling more and more rapidly outside. Under such circumstances, it was already quite good to be able to bring the car up to speed, one could not drive and talk on the phone, otherwise, God knows when his hands would shake and the car would slide into the deep puddles on both sides of the road.

“Young Ji?” A crisp and sweet woman’s voice suddenly came over the phone with a hint of sweetness.

“Hmm?!”

Ji Feng was suddenly stunned, a woman looking for himself? Moreover, this voice seemed somewhat familiar, but he just couldn’t remember where he had heard it for a while.

“Which one is the lady?” Ji Feng asked indifferently.

“Young Ji, nowadays, when addressing a girl, you can’t directly address her as Miss Oh, these two words now have an extremely special meaning!” The slightly sweet voice on the phone said softly with a hint of laughter.

Ji Feng shook his head a little, snapped, and hung up the phone directly. At the same time, he started the car and cursed, “Nuts, why do these people like to hide their heads so much on the phone, is this interesting?”

After half a day of talking, he still didn’t know who the other party was. With Ji Feng’s character, he naturally wouldn’t bullshit with the other party any further, although he had a lot of time, but there was no need to waste it on such things as if he was hiding. Xiao Yuxuan and Tong Lei had always restricted him from talking on the phone while driving, not to mention the fact that the roads were so difficult now, and Ji Feng naturally wanted to concentrate on driving.

“This is .....

In a luxurious hotel room in Jiangzhou, a voluptuous and beautiful woman with a beautiful posture was sitting stunned at the head of the bed, holding the handset of the bedside landline phone in her hand, her originally beautiful and matchless pretty face was filled with consternation at this time, and only after a long time could she not help but say, “He, he hung up the phone?”

“Could it be that Ji Feng heard that it was me, so he just hung up the phone? Or was it for some other reason?” The gorgeous woman couldn’t help but hesitate a little, if the other party really heard out that it was himself and still hung up the phone so directly, then this was a question worth playing around with.

But this gorgeous woman could not be sure whether Ji Feng had hung up the phone because of himself, or whether he had hung up the phone for some other reason.

The specific reason, however, was related to what he should do next, which was the most important thing.

“Beep beep beep .....” The gorgeous woman’s white fingers pressed on the telephone keypad several times in succession, but then stopped, she thought about it and still pressed the hang-up port, then quickly pressed a few more numbers, “Shao He, this is Fei Fei ah, it’s like this, there’s something I want to bother you with .....”

It turned out that this gorgeous woman was no other than the eldest lady of the Jiangzhe Zhou family, who had once dealt with Ji Feng, Zhou Fei Fei!

Her younger brother, Zhou Shilin, is still in prison to this day because of Ji Feng's 'meddling'. Ji Feng would never have thought that Zhou Fei Fei, who he thought in his heart would surely hate him to death, would actually come to Jiangzhou to look for him, which is really strange.

"Who is this phone call from?"

Ji Feng restarted the car, but in his heart he was secretly wondering if he hadn't read the calendar today, how come he was receiving such inexplicable calls. Before, it was the threatening phone call from that hatred almost from the bone, and now it was from this woman who sounded like she knew him well.

..... Well, Ji Feng also knew that this last caller's voice did sound somewhat familiar, but who exactly it was, he couldn't remember for a while ..... A woman that you can't even remember can also be called familiar with you?

If not, then why did she speak to him in such a familiar tone as a matter of course? Is it because she wants to get close to herself?

Ji Feng couldn't help but snicker, but he didn't think that the other party was really trying to get close to him!

After looking at the sky, which was already getting dark, Ji Feng was in no hurry to drive, so he picked up the phone and called Tong Lei first.

"Ji Feng, when are you coming back?" Tong Lei's brittle voice came out, making Ji Feng feel much better at once.

"Lei Lei, I have some things to do over here, I might have to come home a little later, so you guys don't have to wait for me." Ji Feng smiled and said.

"Mm, then pay attention to safety when you drive, it's snowing so hard outside." Tong Lei softly admonished.

Ji Feng smiled and nodded his head, saying, "Don't worry, I'll pay attention."

"Then you come back as soon as you can oh." Tong Lei once again admonished, before hanging up the phone.

"It's really nice to have a home." Ji Feng hung up the phone and couldn't help but smile faintly.

Afterwards, he dialed He Hongwei's number again. Originally, the two of them had agreed to meet in the evening, but looking at the current weather conditions, it would definitely be difficult to go at night, so he planned to move up the time of their meeting.

"What do you say, old brother?" He Hongwei picked up the phone and asked with a smile.

"It's like this, I don't know if Mr. He has time now, I might not be able to spare the time in the evening, if you have time now, why don't you come out and sit down?" Ji Feng simply stated his purpose.

"Good, I was just about to call you!" He Hongwei laughed, "I'll go to the Flavour and Fragrance Residence now."

"Call me?"

Ji Feng asked with a smile, "What, do you have other plans for the evening as well?"

"That's not true." He Hongwei laughed, "I came to Jiangzhou with no other business on my side, mainly to find old brother for a few drinks. I say, old brother, your temper is not small, you just hang up the phone when one is not as good as you want."

Ji Feng was stunned: "What do you mean?"

"Oh, it's nothing, then I'll go to the Flavour and Fragrance Residence first, and wait for old brother's arrival!" He Hongwei said with a smile. He then hung up the phone, leaving a bewildered Ji Feng behind.

"What does that mean? Whose phone did I hang up on?" Ji Feng couldn't help but be a bit stunned, He Hongwei was obviously not talking to himself about this without a reason, but, from this morning until now, he had only taken the initiative to hang up on that woman just now ..... The woman?

The woman who called just now couldn't be related to He Hongwei, could she?

When you think about it, if the two of them really had a relationship, or even if that phone call itself was made by that woman at the behest of He Hongwei, then it would not be difficult to explain why He Hongwei said that to himself.

"Shit!"

Ji Feng couldn't help but cursed, what's the logic of not being able to call me personally to tell me what's going on and having to have a woman call herself!

He shook his head slightly, started the car, turned around and headed in the direction of the Flavor and Fragrance Residence on Jinling Road.

.....

Once again, when he arrived at the Taste and Fragrance Residence, Ji Feng could not help but feel a bit emotional. About a year ago, it was here that the first conflict between himself and Dynasty took place, and it could even be said that it was a sudden encounter. From that time onwards, the dynasty's ghosts have been appearing around himself from time to time.

And the series of events that followed could all be said to have started from here.

This time, almost a year had passed, and while one was now a sophomore, Dynasty had suffered a heavy blow in China and now moved to the island country.

"Damn Dynasty, damn Island!" Once he thought of the island country, Ji Feng couldn't help but be filled with resentment, this island country was really a place where dirt was hidden, all kinds of cats and dogs were running to the island country, thinking that if he hid in the island country, there was nothing he could do?

These thoughts flashed through his mind as Ji Feng parked his car and walked into the Taste and Fragrance Residence with big steps.

Even though it was still snowing heavily outside, the Taste and Fragrance House was not cold and even the streets were as busy as ever, as if those pedestrians were not affected by the snow at all, which could not help but make Ji Feng a little puzzled, was shopping more important than the body?

Naturally he couldn't understand the mentality of those people, for many people, feeling the prosperity of Jiangzhou was what they were most happy to do.

"Hello sir, do you have a reserved seat?"

A waitress asked politely as soon as Ji Feng walked into the Taste and Fragrance Restaurant, her face, with a sweet smile, was completely devoid of the professional smile Ji Feng had seen before.

This was still a good shop, and you could tell how the owner of this place was from the waitress's attitude.

At once, Ji Feng had a good impression of this Flavour and Fragrance Restaurant, he shook his head slightly and said, "There's no reservation, I'm here to find someone, my friend's surname is He."

"You are Mr Ji, right?" The waitress immediately asked and when she saw Ji Feng nodding, she immediately said, "Sir, please follow me, your friend has arrived and is waiting for you in the private room upstairs."

"Many thanks!" Ji Feng smiled and nodded, after thinking about it, he still took out a few notes and handed them over, "This is for you!"

"Sir is too polite, however, your friend has already given a tip just now, we have a rule in the shop that we are not allowed to charge double, please forgive me sir!" The waiter said with a sincere attitude.

Ji Feng was instantly impressed and said with a smile and a nod, "So that's how it is."

"This way please, sir!"

Led by the waiter, Ji Feng arrived outside a box on the third floor, and along the way, he walked past, but wherever there was a waiter, when he saw Ji Feng, he would politely say, "Welcome!"

This made Ji Feng feel no less than a restaurant that could survive on Jinling Road, the attitude of these waiters alone was enough to fill this restaurant to capacity.

Ji Feng had been to quite a few restaurants, but to be fair, he had never seen any restaurant whose waiters would have the sincerity and warmth of the attitude of the waiters at this Taste and Fragrance House!

## Chapter 750

In fact, what impressed Ji Feng the most about those waiters in big hotels was still the image of two waiters in a movie he had once seen – 'Crazy Race'.

In this movie, several gang members asked the two front desk attendants of a five-star hotel when they were looking for that Thai athlete they were meeting with.

As a result, out of impatience, one of the waiters slams the table and grimaces, questioning, "This is a five-star hotel, where are your attitudes and manners!"

In the end, instead, it was the gangster who hurriedly apologised, which prevented the two waiters from continuing to lash out again.

This strongly ironic image made Ji Feng laugh at the first sight.

It had to be said that although this was only an exaggeration in the movie, in reality, there were countless waiters with such arrogant attitudes that they thought they were much more bullish than the customers.

Many waiters who work for other people think that they are just getting a dead salary, and that if their attitude is good, they won't get a bonus, and if their attitude is bad, many customers won't be able to say anything, so their attitude is often very bad.

For those who run their own shops, it doesn't matter if they have a bad attitude, I don't want to do your business, right?

It's hard to buy money to make me happy!

This has become their reason and motto for branding themselves.

Ji Feng's impression of this film was extremely deep, and coupled with his usual contact with some waiters, it made him not discriminate against these people, but he definitely did not have a lot of good feelings towards them either, he just turned a blind eye to them and tried his best not to see them.

Of course, Ji Feng also knows very well that such bad attitude waiters are actually only a small number of people, many of them actually have a very good attitude.

It is only because there are a lot of unreasonable customers that those waiters with smiling faces are gradually wearing out their smiles when they encounter rude customers, and eventually turning cold and icy.

This is one of the reasons why the attitude of the service industry is getting worse and worse. As the saying goes, it is not a day's cold to freeze three feet of ice, and this is the truth.

"Sir, we are here, your friend is waiting for you inside!" Following the waiter to the third floor, Ji Feng arrived outside the door of a private room called Yong Hua Ting, and the waiter said politely.

"Hm? Oh, thanks!" The waiter's voice made Ji Feng, whose thoughts had drifted far away, snap back to his senses, he couldn't help but shake his head and smile, what was he thinking about, in this materialistic society, it was better not to think about it, it was better not to see it.

At the entrance of the box, there were two young men dressed in black, when they saw Ji Feng, one of them immediately asked, "Excuse me, is this Mr. Ji?"

Ji Feng nodded slightly, "It's me."

"Please come in, sir, our boss is waiting for you inside." The youth immediately opened the compartment door and said respectfully.

"Thank you!"

Ji Feng nodded politely and walked in with big steps.

However, when Ji Feng took a good look inside, he was a little stunned.

In the box, He Hongwei was sitting on the sofa opposite the door, fiddling with a tablet computer in his hand, not knowing what he was working on. Opposite him, however, sat a gorgeous lady, surprisingly, it was Fei Fei Zhou!

Apart from that, there was also a middle-aged man wearing gold-rimmed glasses, who was sitting not far next to Zhou Fei Fei, looking a little restrained and was whispering something to Zhou Fei Fei.

“Young Ji!”

Zhou Fei Fei was the first to spot Ji Feng coming in, she immediately stood up, smiled sweetly and said, “Once again, we meet again, Ji Shao’s aura is even better than before.”

“Don’t patronise me indiscriminately, I’ll take it seriously!” Ji Feng smiled faintly, collecting the stunned emotions in his heart, and couldn’t help but joke about it.

Zhou Fei Fei couldn’t help but purse her lips and smile, but in her heart, she was slightly relieved, since Ji Feng could joke, it proved that he didn’t have a big prejudice against himself, even if he only did so because he was giving face to He Hongwei, it could be said that it was a good sign.

“Here it comes!” He Hongwei put the tablet down in his hand and laughed, “You wouldn’t be around here, would you? Why did you come so quickly?”

“Your Young Master He summoned me, do I dare not come quickly?” Ji Feng snickered.

“You brat!”

He Hongwei couldn’t help but lose his smile, “I haven’t offended you, have I?”

Ji Feng waved his hand with a smile and said, “You are now my god of wealth, even if you offended me, would I dare to say anything?”

“Ji Feng, that’s a bit of a slap in the face.” He Hongwei laughed, “Now nearly ten percent of Tian Yao Group’s profits come from the special effects current produced by the Tengfei Pharmaceutical Factory, so technically speaking, you’re my god of wealth.”

“I say, you two young masters should stop boasting about each other, both of you are dragons and phoenixes among men, if you continue to praise each other, this little Flavour and Fragrance Residence will not be able to accommodate you two.” Zhou Fei Fei giggled and joked at the side.

Ji Feng laughed and casually sat down on the sofa and asked, “Say, what would you like to eat, I’ll be the host today, you don’t have to be polite, just order.”

“Ji Feng, that’s not right, I’m the one treating you today, how can you take away from the host!” He Hongwei laughed.

“I seem to be the host in Jiangzhou, right?” Ji Feng said.

“Today is different!”

He Hongwei waved his hand with a smile and said, "The main reason for inviting you here today is to thank you, so naturally I'll be the one to treat you, Ji Shao, you must give a chance to return the favour, right?"

"Hmm?" Ji Feng was stunned, did He Hongwei owe himself a favour?

"Let's eat first, we'll talk while we eat!" He Hongwei didn't explain in detail, he just greeted with a smile.

Ji Feng nodded slightly and said, "It's fine, you're a big boss, since you're so sincere in treating us, it's natural to rip us a good meal. Mr Zhou, whatever you want to eat, don't be polite, saving money for Big Boss He would be like not giving him face!"

Zhou Fei Fei smiled and nodded, but didn't answer, just pursed her lips and smiled. She knew very well that the conversation between Ji Feng and He Hongwei was not something that she could get involved in now, and perhaps which seemingly ordinary sentence between these two might have some hidden mystery in it.

Zhou Fei Fei, a businessman like her, was not in touch with high-level matters.

However, she could tell that what He Hongwei had just said about inviting Ji Feng to dinner was true. Perhaps, He Hongwei really owed Ji Feng a favour, and it was impossible to say.

But if that was the case, it was hard to say whether Ji Feng would give himself face later.

For a while, countless thoughts flooded through Zhou Fei Fei's mind.

But Ji Feng did not know the thoughts in Zhou Fei Fei's mind, he came to the table and sat down, he casually picked up the menu, looked at it for half a day, but did not order a single dish, only slightly frowned at the menu, "Hold the moon in your arms, four seas family ..... What kind of dishes are these?"

"Huh ....." He Hongwei laughed, "These menus are all just for show, I've already ordered the dishes."

"You didn't say so earlier!" Ji Feng couldn't help but hum.

At this time, He Hongwei and Zhou Fei Fei had already sat down at the table, but the middle-aged man who had spoken to Zhou Fei Fei did not follow him, instead, he smiled and said, "A few of you chat first, I'll go and see if the food is ready!"

In fact, he left at this point. On such occasions, he, an outsider, could not intervene, nor did he have anything to say. The main characters of today's meal were Ji Feng and He Hongwei, and even Zhou Fei Fei could only be considered a companion.

"Young master He, why did you say before that I hang up on others?" Ji Feng was a bit puzzled, "Whose phone number did I hang up?"

Zhou Fei Fei suddenly blushed slightly and looked more or less embarrassed, but did not say anything, just filled up the wine for Ji Feng and He Hongwei first and sat aside in silence.

He Hongwei chuckled and said, "When Fifi called you earlier, you didn't even ask her name and just hung up."

“Fifi?”

Ji Feng was stunned, then suddenly reacted and immediately looked at Fei Fei Zhou, frowning, “You made the previous call?”

Only then did it dawn on him, no wonder he heard that voice sounded so familiar at that time, it turned out to be Fei Fei Zhou calling.

“Yes, but I didn’t know that young Ji was busy at the time, so I’m sorry for the disturbance!” Zhou Fei Fei said with some embarrassment.

Ji Feng shook his head and laughed: “Sorry, I didn’t know it was you, I wasn’t busy at the time ..... Next time if you call with me, please just give your name, I don’t like to guess!”

This man!

Zhou Fei Fei was instantly embarrassed beyond words in her heart, she said that Ji Feng was busy at that time, but she only wanted to find a step for herself, but unexpectedly Ji Feng was directly tearing down her step, making her unable to get off the stage.

“You bastard!”

He Hongwei immediately laughed: “So tough with a girl too?”

Ji Feng said with a serious face, “I’m not being competitive with Miss Zhou, what I said, is true, I hate guessing calls, if I can’t hear the voice, I’ll just hang up! My time, I won’t waste on that!”

“That’s right, I don’t really like guessing calls either!” He Hongwei, however, nodded in deep agreement.

Only then was Zhou Fei Fei’s heart slightly relieved, it seemed that Ji Feng wasn’t really targeting himself, but just had this distinctive habit.

“Young Ji, I’m sorry!” Zhou Fei Fei said.

Ji Feng waved his hand and laughed, “Far from it, if I knew it was you calling, how could I not hang up, otherwise, Young Master He would not spare me!”

“Hmm?!”

Zhou Fei Fei and He Hong Wei were both stunned, both of them glanced at each other and then looked at Ji Feng strangely. Zhou Fei Fei’s pretty face was even redder as she opened her mouth to say something, but in the end nothing came out.

He Hongwei, however, lost his smile: “Older brother, where are you thinking, Fei Fei and I, we are just friends.”

“That’s right, it’s friends, I didn’t think of it in other ways either!” Ji Feng harrumphed and said, “Absolutely not!”
