

Campus Master 751

Chapter 751

When he saw Ji Feng's smiling look, He Hongwei knew that no matter how he explained to him today, he would not believe it, so he just stopped talking and shook his head lightly and smiled.

Zhou Fei Fei, however, untraceably glared at Ji Feng, seemingly blaming him for talking nonsense, but also seemingly containing other meanings, the look in her beautiful eyes, very complicated.

"Knock, knock, knock!"

The box was suddenly knocked on and a row of waiters came in carrying dinner plates.

"Exquisite Blood Want!"

"Thousand knife fish!"

.....

One by one, dishes were brought up and placed on the table, and in a few moments, the originally empty table was piled up with various dishes.

"Please enjoy your meal, several people!" The lead waiter smiled warmly and said.

"Thank you!"

He Hongwei said with a gentle smile.

The smile on that waitress's face suddenly grew even more enthusiastic as she smiled sweetly and walked out with quick steps. It would always be a pleasant mood to encounter a polite and courteous guest.

"Ji Feng, I got this from my family's old man by the way, he doesn't drink wine, so it's a bargain for me!" He Hongwei picked up the bottle of red wine next to him and placed it on the table, "You kid is blessed today."

"I've driven here." Ji Feng covered the wine glass, "You don't want me to make a mistake! I'll stick with the drinks."

"Don't worry, I've heard about your drinking capacity, you were a formidable man during the New Year." He Hongwei laughed harshly, "Even if you get drunk today, someone will send you back."

Ji Feng raised his eyebrows and moved his hand away, but his heart was aghast.

He had a drinking spree with people from the side line during New Year's Eve, and that was only a family feast, but He Hongwei knew about it!

"He Da Shao is He Da Shao, your news channels, they are really pervasive!" Ji Feng said smilingly.

"You don't misunderstand." He Hongwei waved his hand with a smile and said, "This is something that Ji Shaojun inadvertently said when he was drinking with a few close buddies in a bar."

"Let's not talk about that, drink!" Ji Feng laughed.

“Cheers!”

The three glasses clinked together and Zhou Fei Fei also took a sip with her lips, her face couldn't help but flush a little, but she didn't know if it was because of the drinking or because of what Ji Feng said.

“Young Ji, we had some misunderstandings when we were in Jiangsu and Zhejiang, I'll drink to you, I hope you won't take it to heart!” Zhou Fei Fei lifted up just being and said with a complicated expression.

In fact, Zhou Fei Fei's heart was also very complicated.

If he hadn't interfered, no one would have uncovered the case back then, and Zhou Fei Fei should hate him.

But she couldn't feel the slightest bit of hatred. Perhaps the entire Zhou family didn't dare to show their hatred for Ji Feng because they were forced by the huge power of the Ji family, and they didn't dare to secretly get Zhou Shilin out of prison, they just stiffened their heads and let Zhou Shilin be dealt with according to the law. But Zhou Fei Fei was aware that the family still had some pimples in their hearts about this matter.

But Zhou Fei Fei was different, she really didn't have any hatred at all.

Whether or not Ji Feng sent Zhou Shilin to prison to deal with the Zhou family or not, or for the power of the Ji family to enter Jiangsu and Zhejiang, none of this mattered. What mattered most was that he had given Zhou Fei Fei the chance to make up for the mistake Zhou Shilin had made.

If Ji Feng hadn't stirred up this case, they would have been kept in the dark until now.

If other members of the Zhou family were aware of what Zhou Shilin had done back then, Zhou Fei Fei could not guarantee it, but she herself really did not know anything about it, otherwise, she would not have let Zhou Shilin get away with it.

Therefore, for Ji Feng who interfered in this matter, Zhou Fei Fei's feelings were also very complicated.

On the one hand, Zhou Fei Fei was grateful for what Ji Feng had done, but on the other hand, she also felt a bit disgraced in front of Ji Feng, after all, her own brother had done something like that, and she could hardly guarantee that Ji Feng would not look at her in the same light, thinking that she was a bratty and downright unreasonable rich girl, to the point of being disgusted!

Especially when she had run to Ji Feng to plead for mercy and excuse her brother Zhou Shilin after what had happened, even if she had been in her shoes, she would definitely have thought that way.

Ji Feng smiled, lifted his cup and clinked it with her, laughing, “I couldn't care less about those things, I'm just a student. But I still kind of suggest that in the future, if you encounter such things again, can you put yourself in the other person's shoes and think about it!”

“Young Ji is right in his lesson, Fei Fei will definitely remember!” Zhou Fei Fei said and took a sip of red wine.

Ji Feng shook his head and said, “I wouldn't dare to say that, I'm not teaching a lesson, just a bit of advice.”

“Well, you two should stop pushing back and forth like that.” He Hongwei laughed, “Let’s all three of us toast together!”

After a meal, Ji Feng didn’t drink much wine, and he was a bit strange in his heart, wondering what He Hongwei had suddenly come to find him for.

But he also knew very well that there was a big difference between this and talking about business. If it was business talk, a large part of the business would have been concluded at the wine table, but now that he and He Hongwei were drinking together, a lot of things could not be said at the wine table.

Besides, with a Fei Fei Zhou following next to him, it would be even more impossible to talk casually. You know, it is possible that if they say something casually, they will accidentally reveal a lot of important information.

Therefore, either He Hongwei would talk about what he had seen and heard, or Ji Feng would talk about interesting stories from school, and with such a charming woman as Zhou Fei Fei to liven up the atmosphere, there would be a burst of laughter in the compartment from time to time, and the three of them were quite pleasant.

Ji Feng was a bit surprised that He Hongwei was actually likely to get together with Zhou Fei Fei, which was indeed a bit out of his expectation. According to He Hongwei’s status, his family should not agree to this marriage, comparing the Zhou family, although also very powerful, but only confined to Jiangzhe, far from many real giants, there is still a big gap.

It seems that Zhou Fei Fei should be a woman whom He Hong Wei has kept outside, after all, this kind of thing is really commonplace in the big families of the world.

However, remembering Zhou Fei Fei and He Hongwei’s denial before, Ji Feng was a bit hesitant.

If that was the case, it was a clear sign that the He family’s power in Jiangsu and Zhejiang had made great strides again.

However, before making an accurate judgment, Ji Feng would not rush to talk to his father.

After about forty minutes, all three of them had almost finished drinking and a lot of the dishes on the table had been eaten, a flush appeared on Zhou Fei Fei’s pretty face as she said softly, “Enjoy your meal, I’m going out!”

After Zhou Fei Fei had left the box, He Hongwei handed Ji Feng a cigarette, and only after the two of them had lit it separately did he say, “Ji Feng, today I invited you here, drinking is not the main purpose, in fact, I want to thank you in person.”

“Thank me?”

Ji Feng laughed: “Mr. He, I didn’t lend you any money, and I didn’t give you any benefits, so what’s there to thank you for?”

“Do you still remember this restaurant?” He Hongwei asked, “The first time you and I met was at the entrance of this Taste and Fragrance Restaurant, at that time, you saved my life.”

“It’s just a coincidence!” Ji Feng laughed.

“Coincidence or not, in any case, if you hadn’t appeared in time, I might have been buried in the cemetery by now.” He Hongwei laughed, “What’s more important is that you and Xiang Yongzhan together exterminated Western Xia and captured important figures of the dynasty, forcing all the dynasty’s people to evacuate, so that I don’t have to be careful and wary all day long, do you think I should thank you?”

“Then I’d say it’s well deserved!” Ji Feng nodded and said loudly, “Whether it was saving you or dealing with the dynasty, it wasn’t that safe, several times I risked my life to do so .....”

“Haha, your temper, it’s to my liking!” He Hongwei burst out laughing.

Ji Feng laughed: “No way, people are poor, you haven’t said how to thank me yet!”

“There will be a chance!” He Hongwei nodded seriously and said.

“Don’t bother!”

Ji Feng said at once: “To thank you, you have to take some practical action. You called me all the way here, and just saying a few words of thanks won’t do!”

“You kid, when it’s time to be thick-skinned, you’re much thicker than Ji Shaolei’s.” He Hongwei laughed out loud, “Ji Feng, don’t worry, I, He Hongwei, don’t like to owe people, but I owe you twice, I will definitely pay it back!”

Ji Feng lifted his wine glass, clinked it with him and laughed, “I’m joking, no need to take it seriously!”

“Haha .....” He Hongwei laughed and pointed at Ji Feng.

Ji Feng also smiled knowingly, we are all smart people, there is no need to be so clear. Besides, it would be very damaging to keep talking about this.

At least, Ji Feng and He Hongwei, this private, still kind of admire each other, there is absolutely no kind of explicit fight between the He family and the Ji family. Therefore, both of them unconsciously maintain this friendship between each other, hoping that they will not become enemies because of family matters!

What’s more, He Hongwei’s gratitude to Ji Feng was definitely from his heart, rather than using any polite words to perfume Ji Feng.

The reason for this was because of all the things that Ji Feng had done some time ago, the most obvious being that he had once given up his life to save He Hongwei at the entrance of the Flavour and Fragrance House on Jinling Road.

At that time, Ji Feng knew that the other party was a killer, but he still dared to drive his car directly into it, just this time alone, He Hongwei was like owing Ji Feng a life.

What’s more, Ji Feng’s subsequent actions were like a blessing in snow for He Hongwei.

Chapter 752

Perhaps Ji Feng was unaware of how much trouble his previous series of actions had caused Dynasty, and how much pressure it had relieved He Hongwei and the entire He family.

The power of Dynasty was definitely beyond everyone's imagination. He Hongwei had the most direct and deepest feeling about this, as his Tianyao Group and other branches were sniped by various forces in the market, especially the shares listed on the New York Stock Exchange, which were continuously sold off in bad faith some time ago.

Moreover, this force was extremely large, and was actually able to mobilise many financial predators in Rice, opening their bloody mouths to reveal their sharp and bloody fangs to the Tianyao Group, just ready to swallow it up in one gulp.

If it wasn't for the continuous mediation between the He family and the top management of China, Tian Yao Group would have been hurt even if it was able to pull out of the New York Stock Exchange, and even if it returned to China, there was no telling how many years it would take to recuperate.

This move alone was enough to make the He family fall on its face.

With the mediation of the top brass of China and the Ho family, the Ho family has only been hurt, but not shaken to its foundations, which is a great blessing among misfortunes.

In fact, it is not only in Rice that they have suffered strong sniping, even within China, they have also suffered considerable hindrance. Many companies that used to cry out for cooperation with the He family and the Tianyao Group have now suddenly cancelled their contracts with the Tianyao Group.

For a while, the Tian Yao Group's business was in an extremely difficult predicament.

It was because of Ji Feng's Tengfei Pharmaceutical Factory's vigorous supply of special effects current and the military's bulk purchase that the Tian Yao Group did not fall into chaos.

In this way, Ji Feng had indirectly helped the Tian Yao Group, which was tantamount to helping He Hongwei and the He family.

The most crucial thing was that Ji Feng and Xiang Yongzhan had struck a powerful blow to destroy Western Xia in an instant, and then Ji Feng grabbed an important figure of the dynasty in China, causing the dynasty to flee to the grass like a frightened viper and hide in the deep forest.

Another large part of it, on the other hand, went to the island country.

In the chaos, Dynasty did not even bother to deal with the Tian Yao Group, allowing the overseas branches of the Group to seize the opportunity to pull themselves out of the quagmire of malicious sniping.

After this change, the Tian Yao Group has become even more consolidated, and although it has lost a lot, it has lost a lot of fat around its body, and what remains are muscles with huge explosive power, which are more refined and have more power and potential.

This is tantamount to an all-round surgical operation, which can be described as a blessing and a curse.

Now, even if someone wants to deal with the Tianyao Group, it is no longer that easy. Even if some international financial giants want to move the Tianyao Group, they will have to think it over and calculate the gains and losses properly.

Unless someone is willing to fight to the death with the Tian Yao Group, otherwise, as long as they are vigilant and do not blindly enter the market, the Tian Yao Group will not be in any trouble in the near future.

And all of this was caused by Ji Feng. Just think, what He Hongwei owes to Ji Feng is not just a small favour?

Although Ji Feng was not clear about the change, but very Hongwei was very sure that someone in the Ji family must know, like the Ji family's old man and Ji Feng's father and other people, that are people who have been in the earthly world for an unknown number of years, how could they not see through this?

What's more, He Hongwei was not in the habit of not repaying a favour he owed, even if the other party didn't know about it, he would still try his best to repay it, not to mention that the person he owed now was still Ji Feng?

It's just that there's no need to say too many things clearly, we're all smart people and we can't understand each other!

In fact, since this series of events, the strategy of the He family towards the Ji family has been gradually changing, but for various reasons, these signs are not obvious and few people can see it.

Among these few people, there were definitely a few people from the Ji family, and it was not for He Hongwei to know whether the others could see it or not. Although he was known as one of Yanjing's three greats, along with Ji Shaodong and Xiang Yongzhan, it was only for the juniors. In the eyes of those above, they were also just juniors, and there were many things above that they could not reach.

"He Shao, you brought Miss Zhou along with you today, for ....."

Ji Feng's words had not finished asking, He Hongwei immediately laughed: "Older brother, I know what you want to ask, I can tell you clearly, I have nothing with Zhou Fei Fei, put it this way, she came over this time, in fact, just want to come to you, the result is that you kid directly hang up the phone of others, do you think she is looking for my help? It's just that I happened to be in Jiangzhou, and it just so happened that I had agreed to come out to dinner with you, so that's why it was such a coincidence."

"That's all?" Ji Feng was stunned.

"You think so!" He Hongwei laughed, "Thought she was my woman?"

"Then what did she want with me?" Ji Feng asked.

"That's a question that you can only ask her yourself, but I don't know." He Hongwei laughed.

Ji Feng did not intend to ask Zhou Fei Fei, he believed that since Zhou Fei Fei was looking for him for something, she would definitely say it, and if he took the initiative to ask it himself, it would instead have a feeling of interrogation, which would make Zhou Fei Fei feel uncomfortable, and might instead end up making a mess of things.

The first thing that I did was to go out for a long time, but I didn't come back, so I couldn't help but wonder, there was a bathroom in this box, even if Zhou Fei Fei was too embarrassed to go to the bathroom in this box, but went to the bathroom outside, it shouldn't take so long to come.

After a moment of contemplation, Ji Feng realized that Zhou Fei Fei had gone out on purpose in order to give himself time to talk with He Hongwei.

“This is a very smart woman!” Ji Feng couldn’t help but secretly say. In fact, from the time he was in Jiangzhe Hang City before, Ji Feng knew that this woman was very smart, and now he got proof once again from this move of the other party.

And Zhou Fei Fei’s actions also indirectly proved one thing, that what He Hongwei had just said was all true.

If Zhou Fei Fei was really He Hongwei’s woman, then, on many issues, she would not need to avoid them. Now that she was out, it proved that her relationship with He Hongwei was not yet deep.

Ji Feng was also influenced by his preconceptions, which led him to mistakenly believe that there was a relationship between He Hongwei and Zhou Fei Fei.

It was only after a full forty to fifty minutes that the door of the compartment was opened and Zhou Fei Fei’s pretty face was flushed red as she walked in with a faint smile on her face.

“Fei Fei, you’re finally here, young Ji has been missing you for half a day!” When He Hongwei saw Zhou Fei Fei come in, he immediately laughed and joked.

“Shao He, what are you talking about!” Zhou Fei Fei’s already somewhat flushed pretty face turned even redder after hearing these words, she pouted and didn’t comply, but then subconsciously glanced at Ji Feng, her pretty face swishing red.

It turned out that Ji Feng had been staring at her, causing her body to go soft and she almost didn’t directly fall limp on the sofa.

Ji Feng, however, could not help but frown slightly and asked with a smile, “Miss Zhou, I saw that when you came in just now, there seemed to be a hint of anger in your eyes, what’s going on?”

Just as his words fell, he heard some noisy sounds faintly coming from outside, as if someone was arguing and there was the sound of dishes smashing on the floor.

“There’s a quarrel outside?” Ji Feng asked.

“Mmm!”

Zhou Fei Fei nodded slightly and said, “It’s a woman, arguing with the hotel lobby manager and the waiter, I watched for a moment, that woman seems to be a teacher from some school, she was accidentally soiled by the waiter during dinner, and is now asking the waiter for compensation!”

“And then what?” He Hongwei asked.

“That female teacher was wearing all designer clothes, the fur coat alone was almost ten to twenty thousand dollars, how could that waiter afford to pay for it? The manager said he would clean it for her, and she was unwilling, so he made that waiter compensate, saying that it was okay not to compensate, apologize on his knees, slap himself in public, and let that waiter go.” Zhou Fei Fei shook her head slightly, also very indignant.

"I remember ..... The furs you women wear, if they're designer brands, a coat would cost at least several tens of thousands, right? How come the one that woman is wearing is only ten or twenty thousand?" Ji Feng asked curiously.

"That's a second-tier or higher brand you're talking about, the fur that female teacher is wearing should be a third-tier brand!" Zhou Fei Fei said.

"What a big money! So imposing, worthy of being a teacher!" Ji Feng sneered.

Nowadays, teachers had also become synonymous with merit and villainy, so Ji Feng would always stick to his viewpoint no matter what time it was, teachers and teachers, were two completely different groups, calling those teachers in schools as teachers, that was really too much of an exaltation.

A teacher is a person who passes on to teach and solve problems! Once a teacher, always a father!

Such a person is a real teacher.

They have nothing to do with words like nobility, greatness and selflessness. All they care about is how many high-achieving students they produce and how many bonuses the school gives them, or how many benefits the parents of the students give them, and that's all.

In Ji Feng's opinion, nowadays, the people who can really carry called teachers are those teachers who do not ask for anything in return and really give quietly, such as those who teach in the border areas with a passionate heart, such as those who persevere in the mountains and teach for decades like a day, they, are the real teachers, worthy of respect!

Bang!

"Go out and take a look!" He Hongwei slammed the table and said in a deep voice.

Chapter 753

Ji Feng was stunned and lost his smile, "Young Master He, when did you become so hot-blooded? This doesn't look like your style!"

"What words!"

He Hongwei grunted and said coldly, "Although I, He Hongwei, am a gentleman, it doesn't mean that I won't be angry, especially when faced with brutes who pretend to be gentle, I can't suppress my anger!"

Ji Feng immediately laughed, "Good, it's rare to see such a hot-blooded side of you, Young Master He, why don't we go and see it together?!"

"Go!"

He Hongwei nodded and took the lead and walked out.

The two bodyguards followed closely behind, escorting He Hongwei down the stairs in stride.

Ji Feng smiled heatedly, "Miss Zhou, see, even Young Master He can't see honest people being bullied, how can I, a cynical and impulsive hot-blooded young man, sit back and do nothing? I'm going too, do you want to come along?"

“Go!” Zhou Fei Fei immediately said, “Besides, Ji Shao, can you just call me Fei Fei, or call me Zhou Fei Fei either, calling me Miss Zhou is also too ..... Hey!”

Before she could finish her words, she saw Ji Feng’s body shake and he was out of the box in the blink of an eye, leaving only Fei Fei Zhou alone.

“What kind of speed is this!” Zhou Fei Fei couldn’t help but be secretly staggered, this speed was simply as fast as a cheetah, the most powerful bodyguard around her didn’t have such speed, it was really surprising that Ji Feng still had such powerful body skills.

In between thoughts, Zhou Fei Fei also hurriedly followed, she was also very uncomfortable with the kind of female teachers who wore inferior furs but looked imposing, otherwise, she wouldn’t have come back with an angry look in her eyes. What was happening downstairs was simply too much for her to watch.

.....

Taste and Fragrance Residence, Jinling Road, ground floor lobby.

Dozens and hundreds of guests were standing around the hall, looking at the group in the middle and whispering.

In the middle of these guests stood a dozen male and female students, as well as two young men and women, who were clearly dressed differently from the students, the man in a suit and wearing gold-rimmed glasses. The woman, on the other hand, had a permed haircut and wore a tight knitted jumper underneath and a peculiar style of women’s trousers.

In her hand, she was also holding a white fur coat and was talking fiercely about something.

In front of them stood a middle-aged man, as well as a waitress. The waitress, with tear marks on her face and a bright red handprint, had her head bowed and did not say a word.

It was obvious that she had been slapped before this, and the strength of that slap was certainly not light.

“This is the female teacher?!” Ji Feng turned his head and asked.

Since he had come down a little late and found that He Hongwei had already squeezed in with his two bodyguards, he simply stood on the periphery to see how things were going before he did.

When he thought about it, Ji Feng found it funny that when he saw He Hongwei in the past, he always looked like a gentleman, but today, perhaps through the strength of alcohol, he actually wanted to be a hero for once!

When Ji Feng’s gaze fell on the female teacher with the fur in her hand, her expression suddenly cooled down and she asked a question indifferently.

Zhou Fei Fei who followed closely down nodded slightly and said, “That’s right, it’s her, when I passed by here earlier, this woman was vicious and was forcing the waitress to kneel down and apologize and flash herself or she would have to pay for her coat.”

Ji Feng smiled faintly, "It's really very intimidating."

"This lady, do you think this is okay? Your coat is only stained with some juice, if you wash it in time, it can still be washed off easily, why don't you let us take care of washing your coat for you, in addition, today's meal, even if it is our restaurant to make amends to you, all the bill is free, is this okay?"

The middle-aged man next to the waitress asked, "After all, it's not a big deal, besides, our waitress's salary is not high, and her family is also very difficult, she is only a part-time student, how can she afford to pay for it? Why don't we just be more forgiving, you're a teacher too, you know how difficult it is for students, right?"

"Right, my ass!"

The female teacher threw her head back, like a fighting chicken, and said in a sharp voice, "What do you mean by that? Am I not tolerant enough? Do I deserve to die for being a teacher? Is it wrong to compensate for dirtying my clothes? If this waitress can't afford to pay, you can lend it to her. Trying to get rid of us with a meal, you've made a mistake!"

"We lent her the money, that's fine of course. But your clothes are just dirty, not damaged beyond repair, and you are asking for full compensation, that's a bit unreasonable isn't it? So I suggest we each take a step back, you be more forgiving, our waitress knows she's wrong, so why should you be so fussy with a child?" That manager advised kindly.

"No, don't you say anything, she either has to compensate me 50,000 yuan, or, let her kneel down and apologise to me and slap herself in public!"

The woman said disdainfully, "I'm doing this to let her know that she has to pay for her mistakes! I am also educating her, for her own good. Poor people have to behave like poor people, knowing that they can't afford to pay, they have to be more careful in what they do, otherwise, this is what will happen to her!"

"I... I ..... It's not all my fault!" The waitress, her face full of tears, tilted her head to distinguish, "I was serving you drinks, you were the one who flung your coat and spilled the juice, why should I alone be held fully responsible?!"

"How dare you argue!"

The female teacher waved her hand violently, "Bring her here, see if I don't slap you to death today!"

"You're so powerful!" A snicker came out of nowhere, "As a teacher, you don't teach and educate people at school, but instead you make things difficult for a female student who works part-time outside.

"It's more than that!"

Another graceful and feminine voice came, "The fur she is wearing is only a third-tier brand, even if it's new, it's only 20,000 yuan which is considered to be the top of the sky, and she actually asked someone to pay 50,000 yuan, so I guess the money she bought the fur was also blackmailed like this before?"

"It's very possible!" The first voice agreed loudly, "Why don't we go and ask her?"

“Sure, that’s what I was thinking!” The flirtatious female voice giggled, “Let’s go together and meet this kind of teacher who says 20,000 as 50,000, I’m afraid the maths was taught by a language teacher.”

“She’s a teacher herself, of course she’s self-taught, and there’s no telling what the students she teaches will look like! Just don’t count a family of one equals three!”

“Hahahaha ……” Everyone burst into laughter, and a few people who were standing inside near the female teacher laughed even more exaggeratedly, laughing outright, leaning forward and backward, exaggerating beyond belief, yet also mocking even more.

Originally, everyone was still watching, but when they saw how excessive that female teacher was, they looked at each other in disgust. However, because of the attitude that it was better to do more than one thing, or because they saw that there were too many people on the teacher’s side, the onlookers were all a bit scandalized and did not dare to speak easily.

However, they did not expect that two people would mock them so unmercifully, so how could they hold back at this moment and burst out laughing.

“Who is talking, stand out if you have the guts!” That female teacher’s face turned blue and white with anger, and she couldn’t help but shout shrilly at once.

“This is our private matter, it seems to have nothing to do with you all, right? I hope the person who speaks will be more careful, otherwise, they will be responsible for causing conflicts!” The young man who was standing next to the female teacher said loudly.

“Responsible? I like to be responsible!” A young man parted the crowd and walked in, but it was the svelte He Hongwei and his two bodyguards, “What kind of things are you, as a classroom, instead of going back to teaching and doing your job, you bring your students to this kind of high-end restaurant, eating, drinking and having fun, is that how you are a teacher? What kind of bullshit teacher are you!”

“You’re the dog shit! Your whole family is bullshit!” The female teacher shouted in a shrill voice as she became furious with shame.

“Haha, you’re finished, you’re really finished!”

Ji Feng and Zhou Fei Fei also parted the crowd and walked in with big strides. Ji Feng’s face wore a gloating smile as he looked at the iron-faced female teacher and pointed at the grim-faced He Hongwei next to him, laughing harshly, “I say this unqualified teacher, you’re finished, with this statement that your whole family is dog shit, I can guarantee that this time you’re going to be unlucky! ”

“And who are you! What are you barking in front of me!” The teacher was like a bitch that had gone mad, biting everyone she saw!

Swish!

Ji Feng’s face also turned gloomy as he stared coldly at that female teacher: “What did you say?! If you have the guts, just say it again!”

“Hahahaha ……” He Hongwei, who originally had a gloomy face, immediately laughed out loud, “Older brother, this woman is really funny, this time we are big brother don’t laugh at second brother, we are all scolded by her, what do you say?”

“Cool it!”

Ji Feng coldly hummed, his icy eyes swept over the female teacher, “Our account, we’ll settle it later!”

He walked in stride to the beaten waitress, Zhou Fei Fei gave the female teacher a pitying glance and hurriedly followed behind Ji Feng.

At this moment, the middle-aged man who had followed Fei Fei Zhou was standing on the periphery at this moment, looking at the female teacher with incomparable pity, and couldn’t help but secretly sympathize with her.

How pitiful, cursing the young masters of the two great families, the Ji Family and the He Family, at the same time, and cursing them so justifiably and so unpleasantly, how unlucky should this person be to do such a death-seeking thing!

What had she done in her past life that had caused her to encounter such an incident today?

When following Zhou Fei Fei, the middle-aged man had already learned about the identities of He Hongwei and Ji Feng, although he did not know them in detail, he was still more or less clear about their origins.

He naturally knew what a bold move this female teacher who didn’t know whether to live or die had made by insulting Ji Feng and He Hongwei.

Not knowing whether to live or die!

This was the definition that the middle-aged man had given to that female teacher.

Chapter 754

“It’s you?!” Ji Feng had just arrived in front of the waitress, he instantly realized that this waitress was actually the girl who had led him in, and at that time, her smile was so warm that Ji Feng was still in love with her, but to think that now she was beaten and blackmailed.

“You’re still a student?” Ji Feng asked.

The waitress nodded slightly, but didn’t say anything.

“Which school?” Ji Feng asked with a frown.

“It’s the freshman from Jiangzhou Jiaotong University in front .....” The waitress said in a low voice.

“Tell us what happened!” Ji Feng said, “Don’t worry and speak boldly, with me here, I won’t let you be bullied for no reason!”

“They, they just came over and I was responsible for receiving them .....” The waitress explained aggrievedly.

“This kid, he ran off to comfort the women himself, he still has to let me do the rough and heavy work!”

He Hongwei couldn’t help but shake his head slightly, took out his phone and dialed a number: “Hey, Mayor Li, right? Oh .....” I’m He Hongwei ah, yes, yes, I’m here in Jiangzhou, but I’ve run into some

trouble ..... Well, good, I'll wait here, don't worry, my safety is no problem ..... By the way, Ji Feng is also with me, this matter has something to do with both of us!"

On this side, Ji Feng's face was completely gloomy. Through this waitress's explanation, he sort of completely understood the original reason for the matter.

It turned out that the female teacher and her companion had come to the hotel, saying that they were going to hold some kind of party. But since the private rooms had been filled up long ago and there were only two subs left in the lobby, the group looked very unhappy, and their attitude towards the waiter was extremely bad, picking their noses at each other.

The waiter put up with them and started serving them according to the menu they had ordered.

However, when the drinks were served, the teacher seemed to be talking to the students and took off her fur coat and threw it off with a jerk, which hit the waiter who was serving the drinks and spilled the juice on her fur coat.

The female teacher then started to be unforgiving and slapped the waiter with her hand, and then demanded compensation.

What happened next was just like what Ji Feng saw, the waiter couldn't afford to pay for the female teacher's fur coat, so the female teacher also made the request for the waiter to kneel down in public and slap herself.

"Why is she so unrelenting? Did you guys know each other before?" Ji Feng asked with a frown.

"Don't know ....." The waitress shook her head aggrievedly, "I don't know why she's like this, it's not my fault alone!"

"Of course it's not your fault alone!" Ji Feng said indifferently, "But now, it's become her fault alone!"

"Hmm?!" The waiter was a bit unsure.

Ji Feng hummed and said, "Watch, you don't have to pay a dime today!"

"Maybe, ah, you'll even get a large amount of compensation!" Zhou Fei Fei followed suit.

"Huh?" The waiter was stunned, "But, they've just called the police, if I can't afford the compensation, they'll have to arrest me!"

"Just wait!" Fei Fei Zhou smiled faintly, "This slap you received, can't be in vain, whoever hit you, will be responsible!"

"The police station isn't run by their family either, they don't have that ability to cover the sky with one hand yet!"

Ji Feng turned around and gave the female teacher a cold look, and then looked at He Hongwei, who was standing next to him, who nodded slightly.

"Who the hell are you people, what business is it of yours, you need to stop interfering!" The female teacher screamed when she saw that Ji Feng and the others didn't even put her in their eyes.

Ji Feng shook his head slightly, "You are a teacher, not to mention bringing your students to a high-end restaurant to eat and drink, but actually treating a waitress who came out to work part-time like this in front of your students, what kind of teacher are you, what kind of thing are you!"

"What are you again!"

The female teacher screamed, and the youth next to her said coldly, "I advise you to mind your own business and don't ask for trouble!"

"I tell you! My boyfriend's father is the vice president of the Foreign Language Institute, and all the leaders of this Jiangzhou, big and small, are his friends, so if you don't want to go to jail, get lost right now!"

"Fuck you!"

Ji Feng was furious, and took a step forward, slapping the young man's face fiercely, knocking him to the ground, "The son of the vice headmaster is great!"

"Good fight!"

"Good!"

"That's the way to deal with these bastards! They can't even recognise their mothers!"

"It's better to beat them to death!"

.....

Those people around them roared their approval, they had long been uncomfortable with these people, and now Ji Feng's action was really a great pleasure.

These people were so happy that they actually clapped and applauded.

Zhou Fei Fei, however, was stunned, she really did not expect that Ji Feng would just do it when he said he would, this seemed too violent.

Even more shocked than Zhou Fei Fei, there was the female teacher, she was stunned for a long time, before she suddenly screamed: "You guys, what are you still standing there for, kill this bastard, kill this pair of dogs and men ....."

Slap!

Ji Feng fiercely slapped the female teacher's face, instantly causing her entire body to leave the ground, and then fell heavily to the ground, covering her face and screaming in shock.

"Laozi has wanted to hit you for a long time!" Ji Feng coldly said, "I don't feel ashamed at all to beat a woman like you!"

The students who had followed them, however, surrounded them.

Ji Feng's face sank as he said in a cold voice, "Following such a teacher fooling around, not even distinguishing between right and wrong, I don't think you're any good students either, just beat all of you to death!"

“Beat him to death!” A student shouted, and a dozen boys instantly pounced on him.

Swish!

In the next moment, Ji Feng reached those students with just a flash of his body.

He gave a fierce kick.

Bang!

A student was sent flying by his kick just before he met him, knocking a table down and falling to the ground screaming in agony.

Bang, bang, bang, bang!

These students hadn’t even experienced many real fights, so how could they be Ji Feng’s match?

In a flash, Ji Feng was like a tiger entering a flock of sheep, smashing one down with a punch, kicking one away, in just a few breaths, all these students were beaten like mud, lying on the ground screaming miserably, none of them could get up.

Ji Feng’s cold gaze went back to the few remaining girls, he looked at their red or yellow hair in disgust and cursed angrily, “A bunch of trash, why did your parents give birth to you in the first place! What a bunch of scourges!”

“Good!”

The onlookers applauded, but Ji Feng’s gaze flashed and he immediately gave a wink to He Hongwei on the opposite side.

He Hongwei instantly understood and turned his head to say a few words to the two bodyguards.

Soon, those two bodyguards began to walk around the crowd a few times, and several mobile phones were brought over, with all the videos taken inside being deleted.

“I’m sorry, but we’ll buy your phone! The card can be given to you!” He Hongwei filled out a few cheques and returned the cards to the owners of those phones, but the phones were left behind.

Those people felt sorry, but when they saw the amount on the cheques, the trace of regret in their hearts disappeared instantly without a trace; these cheques were all in denominations of ten thousand dollars.

The owner of the phone could not help but secretly praise the generosity of others, but they did not know that He Hongwei had written the cheques with a hard head, and that he had never written a cheque for less than 100,000 yuan in all his life.

He Hongwei, however, secretly praised that in this kind of impromptu contingency, Ji Feng’s reaction was much faster than his, and his consideration was much more thorough, at least He Hongwei did not consider that there might be someone who would record everything that happened at the scene.

In fact, it was a case of coming from a different background and being exposed to different things, so it caused a big difference in thinking habits as well.

Ji Feng grew up from a poor background and, like the vast majority of students, liked to read some gossip on the internet and listen to others talk about some current affairs, so he also knew the attitude of ordinary people towards something new and was then able to make a timely response.

However, what He Hongwei did not expect was that Ji Feng had such a violent side to him, actually beating him whenever he said he would, without even the slightest warning beforehand.

But remembering that female teacher's behaviour, He Hongwei couldn't help but exclaim in praise, a painful fight!

"How about it, when will your reinforcements arrive?" Ji Feng came to He Hongwei and asked with a smile.

"How did you know that I called someone?" He Hongwei was immediately taken aback.

Ji Feng laughed, "Of course I heard it."

Although the sound was noisy just now, but with Ji Feng's ear power, He Hongwei's phone call was clearly heard by him.

"Mayor Li will send someone soon!" He Hongwei didn't hide it and said indifferently.

Ji Feng then smiled and nodded, but in his heart he smiled slightly, when did Li Weidong's father get on board with the He family?

Seeing Ji Feng's expression, He Hongwei knew what was going through Ji Feng's mind, but he just smiled without saying much. In fact, Mayor Li did not have a very close relationship with his He family, and with Ji Zhenguo in Jiangzhou, who else could put their hands on him?

"You guys, you dare to hit me? I won't let you guys off!" The female teacher didn't react until this time, covering her face and screaming, "You'll all go to jail, for life!"

"Noisy!"

Ji Feng's face sank, "Jail time is a certainty, but we don't know who exactly will be in jail yet!"

Being a teacher, wearing designer brands, leading students to high-end restaurants for food and fun, Ji Feng just couldn't believe that this female teacher's bottom was really that clean!

"Today's matter is definitely not finished until we investigate it to the bottom!" Ji Feng said in a cold voice.

Not long after, a dozen police officers walked in quickly, and the one in the lead asked loudly, "Who reported the police?"

"It was me who reported it, this female teacher is bullying people with her power, insulting other people's dignity and instigating these students to beat up my friend, I hope you can deal with it impartially." He Hongwei said indifferently.

"This ..... They assaulted your friend?" The policeman in charge saw the dozen or so students lying on the ground moaning and screaming, and couldn't help but be stunned, who was beating who, anyone who wasn't blind could tell, right?

Chapter 755

“Captain Zhang!”

As soon as the female teacher lying on the ground saw the police coming, she immediately screamed, “Captain Zhang, hurry up and arrest them all, they actually dared to beat me, even my boyfriend ah, I want them to go to jail, arrest them all!”

Ji Feng suddenly looked aghast, weren’t these police officers called by He Hongwei?

Idiots!

The policeman in the lead couldn’t help but curse, there were so many people watching, you called me directly, who didn’t know that I was on the same side as you?

“Captain Zhang, arrest them all immediately!” The youth lying on the ground, the female teacher’s boyfriend, also shouted angrily.

Captain Zhang frowned at once, he was still late, Principal Xu’s son had actually been beaten up too.

“Call an ambulance and take all the injured to the hospital! Take all the rest away!”

Although in his heart he had already typed Ji Feng and the others into the column of criminals, but in front of so many people, it was not good for the policeman in charge to favour anyone, so he could only grit his teeth and take all the people away.

But in reality, by doing so, he was already favouring the female teacher’s side. Anyone could see that all the people on the teacher’s side, except for a few female students, were lying on the ground, and whether they were injured or not, they were all considered injured. If this police officer’s orders were followed, they would all have to be taken to hospital.

In this way, it was Ji Feng and He Hongwei and the others who were really taken away!

“Hey, this is how you act as a police officer, it’s too indiscriminate, isn’t it?” The onlookers couldn’t stand it anymore, “It’s obvious that the female teacher is too cheap, these few people are out to fight for justice, okay? How can they be taken away too?”

“That’s right, we still think the beating was too light, how can we just take them away? How can they be taken away?”

“Don’t you understand? These police officers are here for the son of the so-called vice-principal, they are really a family of police and people!”

“That bitch and that greasy-headed guy only got two slaps, what kind of injuries can they get? At most, they’ll lose face in the future!”

“That’s right, it’s obvious that they want to arrest someone for being brave, and they are still talking so grandly, what are they?”

“Dog’s legs!”

"I can't help it, she has a father who is a vice-principal, didn't you hear that bitch say that her boyfriend is the son of the vice-principal of the Foreign Language Institute, damn!"

"....."

In a moment, the onlookers were all discontented and spoke sarcastically, even directly blocking the entrance to the gate to prevent those police officers from going out.

Ji Feng also stared coldly at the policeman in charge and asked, "Which division are you from? Do you know what's going on?"

"Cut the crap, take it away first, after we return to the police station, we will naturally investigate clearly!" When the policeman in charge saw this, he was furious and waved his hand, "Take him away!"

"I'll see if any of you dare to move!" He Hongwei shouted and looked coldly at the policeman, "Is it appropriate for you to take people away without distinguishing between red and white?"

"After taking him back, we will naturally investigate him properly, if you dare to obstruct him again, you will be disrupting official business!" The policeman said in a cold voice.

Ji Feng asked with a smile, "Younger He, this is not the person you called here, is it?"

"How should I know!" He Hongwei said in a bad mood, he turned his head to look at the policeman and said indifferently, "As a policeman, after coming to the scene, the first thing you should do is to ask about what happened, and only after you have generally determined the cause of the matter, can you take the person away, without saying a word, you directly want to arrest someone, is this the normal procedure?"

"What exactly happened, we will naturally investigate!" The policeman saw that Ji Feng and He Hongwei were still so calm, he couldn't help but feel a bit uncertain in his heart, his tone also eased up a lot and waved his hand, "Ask the witnesses first, what exactly happened!"

In his heart, he was extremely angry, in all his time as a police officer, no one had ever dared to contradict him in public like this. If it wasn't for the fact that there were so many people around, he really wanted to arrest these guys and give them a good beating.

But now, he didn't dare to act in a blatant manner, the crowd was much tougher than before. In the past, when the police wanted to arrest people, who dared to resist?

But not anymore, these people are all talking about laws and regulations, they seem to know more about the law than the police, and with so many eyes on them, it's not easy to arrest people!

What's more, these two people looked very impressive and were able to come to such an upscale restaurant for dinner, so they were obviously not ordinary citizens either.

So although this policeman was entrusted by someone to help that Xu Gongzi, now it seems that things are not as simple as he thought, and the person who clashed with Xu Gongzi seems to be of some origin.

However, there was no need to ask about what had happened, as the people who were present at the scene spoke up, and some extremely angry people even cursed from time to time as they spoke, soon telling the whole story.

The policeman in charge, Captain Zhang, couldn't help but frown slightly, cursing in his heart at the stupidity of Duke Xu's girlfriend, how could she do such a thing so openly! Now at a glance, it was clear that this was causing public outrage!

"Well then, now that the matter is generally understood."

The policeman at the head of the group looked at Ji Feng and said in a deep voice: "This was originally none of your business, but you struck out and injured someone, now how serious the injured person is still needs to be identified by the hospital, but in terms of this matter, you have broken the law, come with us!"

He turned his head to those who were watching and said, "If you are willing to be a witness, you can also follow us to the police station!"

"Hold it!"

Suddenly, a loud shout came from the entrance of the Taste and Fragrance House, and everyone turned their heads to look, only to see another group of policemen appearing at the entrance and striding in.

The leader was a burly policeman in his thirties, who took a few quick steps and came to the middle, staring at that Captain Zhang and asking, "It happened in our district, which division are you from? Don't you know that it crossed the border?"

"This ....."

That Captain Zhang was stunned and secretly said, "Oh no! This must be someone called by the other side to come over, and they are still in possession of reason, "It's like this, we happened to pass by here and found a clash inside, so we came in to take a look."

"Humph!"

The burly policeman stared at Captain Zhang with an unpleasant expression and coldly snorted, "In that case, then thank you for your timely appearance, but now you can go, we will take over the matter!"

He turned his head and shouted, "Check the injuries of the injured, send them to the hospital if they are serious, if they are not, help them all up ..... Investigate what happened and bring those responsible back to the police station!"

"Yes!"

All the policemen who came with him answered loudly at the same time.

"You, this ....." Captain Zhang, however, did not know what to do, people were obviously much stronger than him, and he was still not in the right, so he really could not say anything.

"Captain Zhang, Captain Zhang!"

The female teacher was shrieking in shock: "What's going on, what are these police officers, why haven't you arrested those bastards, they beat me, they beat me up! And my boyfriend, he's the son of the vice president of the Foreign Language Institute ..... Let go of me, what do you want!"

"Shut up!"

A policeman shouted coldly, "Be honest!"

The vice-principal's son said arrogantly, "I'm warning you, no matter where you're from, listen to me, arrest those guys who beat people up immediately, or else I'll skin you all!"

"Not a bad mouth!" The burly policeman sneered, "Just by your words, don't think of leaving like that ..... Take them all away!"

"Stand still, you ....." That captain Zhang was about to speak when he saw the burly policeman snapped back and stared at him coldly, "Since you are a peer, let me give you a word of advice, don't be ignorant of the good and the bad, if you think I have mishandled the situation, you can go and file a complaint against me!"

"Take it away!" He snapped with a wave of his hand, "Take the one who hit him away with you!"

"I'll definitely go and file a complaint!"

Captain Zhang looked angrily at the burly policeman and snorted coldly, "We'll have plenty of opportunities to deal with each other later! Go!"

He huffed and left with his own men, and the onlookers burst into laughter.

"Good!"

"The dog that lost his home!"

"Playing the bully didn't work, did it, haha ....."

.....

The people on the sidelines were not afraid of them, they were already upset by the police officers who were clearly biased towards the female teacher's side, and now that they were leaving in the dust, they were naturally in an even better mood.

"This police comrade, we have CCTV footage here, what happened, it was all recorded, I'll just ask someone to get it!" That manager said at once when he saw that Captain Zhang and the others had left.

"That would be perfect." The burly policeman immediately said, while ordering, "Bring the video, and all the parties involved, back to the police station!"

"Young Master He, let's go and feel what it's like to be caught up in the police station!" Ji Feng harrumphed and said without a care in the world.

"It's to feel what it's like!" He Hongwei laughed.

"Count me in too, I've never been arrested in before either!" Zhou Fei Fei said with a smile on her face.

The dozen or so students who had been beaten, one by one, were all covering the places where they had been beaten, shivering in pain, yet they were still taken away.

In fact, although Ji Feng was very angry before, but his hands were very measured, these people were at most hurt by the beating, but nothing serious, but it will be painful for several days, even if they go to the hospital, it is still the same pain!

And that's the price they pay for learning to be bad!

As for the female teacher and her boyfriend, it was a different story. Ji Feng had used bio-current for that slap, and now that his control of bio-current had reached an extremely high level, perhaps the bruises on that female teacher's face would gradually fade away, but in the following period of time, her face would become more and more abnormal, and what would happen in the end, Ji Feng didn't know, because he hadn't tried it on anyone else's body yet.

However, since she thought she could be so arrogant and domineering by virtue of her beauty and having a vice-principal's son as her boyfriend, Ji Feng would like to see how she could still be proud if her beauty disappeared and she became ugly and unpleasant!

Chapter 756

In the end, both the teacher and her boyfriend, the vice-principal's son, were taken away with their faces covered. They only felt a slap on the face, some numbness and vague pain, but they didn't think it would be too serious and didn't take it seriously.

Compared to the pain on their faces, being hit in the face in public was what made them most humiliated.

Especially for Xu Gongzi, who had ever dared to treat him like this since he had grown up? To him, this was a great shame!

On the way to the police station, the woman was still in the car constantly screaming, "Hubby, look at my face he hit, it still hurts unbearably even now, I feel like my teeth are a bit loose, hubby you must not let those bastards go, not a single one of them, make them go to jail, for life!"

"Let's see the results of the investigation first!"

Xu Gongzi, however, covered his face and said in a muffled voice.

"Look at the results of what investigation! Let your father come over and see which one dares not give your father face!" The female teacher suddenly said in a shrill voice, "Husband, can you just bear to watch your wife being beaten up by someone and do nothing about it? It's not me he's hitting, it's hitting you in the face, how can you still be a man if word gets out later!"

"Shut up!"

Duke Xu finally couldn't hold back and snorted coldly at once, "That's enough! I know what to do, I know it by heart, so don't you whine in front of me, if you hadn't been so unreasonable, how would you have gotten into this damn trouble, and you still have the nerve to say this in front of me?"

"I... I ....."

That female teacher froze for a moment, she looked at Xu Gongzi with teary eyes, her eyes rolled a few times, then she immediately leaned on Xu Gongzi's shoulder again, and said in a sweet and cloying voice, "Aiya, why are you still angry, I've been beaten, are you still not allowed to say a few words, you're a big man, you're still angry with me!"

After a pause, the female teacher lowered her voice again and whispered in Xu Gongzi's ear, "Big deal, I'll just let you toss me around at night!"

"Really?!" When that Xu Gongzi heard that, his eyes immediately lit up.

"But you have to help me out with this first, to make them all go to jail!" The female teacher sweetly pouted.

"Don't worry, I've just called my father, he will come over soon and will definitely satisfy you then!" Xu Gongzi said immediately.

"Really? That's great!"

That female teacher was instantly surprised and just wanted to laugh, but then she pulled her face and immediately bared her teeth in pain, just like a monkey in a zoo, comical, but without any semblance of a teacher.

At this time, Ji Feng, He Hongwei and Zhou Fei Fei arrived at the nearest police station with peace of mind, talking and laughing, without any psychological burden.

After arriving at the police station, since the people had not yet arrived, the examination did not begin, but they were only made to sit in the office with two policemen on guard, one of whom even poured a cup of hot water for each of them. As for He Hongwei's two bodyguards, they were instead taken to another office, and since they were not involved in the matter, only a simple questioning was needed.

"Ji Feng, what do you plan to do with that female teacher and her boyfriend?" He Hongwei asked with a smile.

"That's not true, I'm not a police officer, what can I do with them?" Ji Feng couldn't help but shake his head and smile, "Except, I'm just curious, a vice headmaster's father-in-law is that rich, his family owns a bank, huh?"

"Since you've already intervened, you're not going to check it out?" He Hongwei asked smilingly.

"I do have this in mind ..... Let's finish dealing with the matter at hand first." Ji Feng laughed.

Not long after, the burly policeman came in and took a look at the three people who were lounging around in front of him, and immediately laughed bitterly in his heart. These three guys, each one of them was terrifyingly big, those students and teachers, how could they have messed with them, this was really looking for death!

"Young Ji, Mr. He, I have to trouble you to make a trip, I'm really sorry!" The burly policeman smiled and walked over with big steps, saying with a smile.

Ji Feng couldn't help but be slightly stunned, but his face didn't show it in the slightest: "You know me?"

"Of course, when the Tengfei Pharmaceutical Factory was officially put into operation, I once went to the ribbon-cutting ceremony with the old leader, and I met young Ji once at that time." The burly policeman laughed.

"So that's how it is." Ji Feng faintly nodded his head.

“By the way, what happened before, we have seen it in the surveillance video, it proved that although the other party was also at fault, but Ji Shao you hit someone, after all, so many people were watching too .....” The burly policeman smiled, but spoke hesitantly.

From the other party so enthusiastic to come over to greet, Ji Feng knew it would be this result, after all, the people sent by Mayor Li, can impartially enforce the law, it is already very good, and this is also the minimum requirement of Ji Feng. So for this policeman, he didn't have any repulsive emotions.

After hearing this policeman's words, he asked, “Then what do you plan to do about it?”

“It depends on what the other party asks for.” The policeman said smilingly, “However, I have just checked the injuries of those students and the two teachers, and there is nothing wrong with them, so in this way, you can be considered as an ordinary fight and brawl, and at most, you will be fined!”

“Two teachers? That what's-his-name's son, the vice headmaster's son, is also a teacher?” Ji Feng asked in amazement, “What's wrong with all the schools nowadays? How come any kind of cat or dog can be a teacher? Those students are too pitiful, aren't they?”

The policeman could only laugh bitterly, he could not follow this kind of question, the leader had reminded him beforehand that as long as it was something that did not violate the principle, these few people should try to satisfy whatever they wanted to do, otherwise, if in case they pissed them off, no one could save themselves at that time.

“In that case, how much should the fine be paid?” Ji Feng asked.

“According to the punishment regulations, you should pay two thousand dollars.” The policeman said, “Young Ji, this money, we can just advance it for you, you shouldn't have so much change .....”

“Change?!”

Ji Feng almost didn't bite his tongue, he waved his hand and said, “Don't ever do that, although it hurts me to pay a two thousand dollar fine, but what I should pay, I definitely won't renege on it.”

Are you kidding, two thousand yuan is change to Ji Feng?

Although this was in fact true, given Ji Feng's current worth, two thousand dollars could be described as pocket money, but he, who had been simple since childhood, would never dare to treat such a large amount of money as pocket money; in the past, this money would have been enough for him and his mother to live for a little over half a year.

Even so, Ji Feng was not above asking these policemen to pay the fine on his behalf.

The burly policeman smiled and said, “Well then, I'll bother young Ji.”

He Hongwei smiled at the side without saying anything, just watching quietly. Zhou Fei Fei did likewise, staring up and down at Ji Feng with considerable curiosity.

They found that there were many unique things about Ji Feng, such as the fact that he was very careful with his money, which seemed like he could even be described as a bit stingy. One had to know that for them, a day's expenses might be more than 20,000, while Ji Feng was still calculating about the two

thousand dollars, completely lacking the grandeur of those worldly gentry who threw a thousand dollars away.

On top of that, Ji Feng's violent side was also completely devoid of the high and mighty feeling of those worldly gentry.

If what happened today had been encountered by those other worldly gentry, even those with a sense of justice would have waved their hands and asked their bodyguards to give the female teacher and the others a severe beating. Or, they would have made a phone call and called a group of police officers to take them away.

Instead, Ji Feng was furious, punching and kicking all the people hard, not even worrying at all about losing his identity by fighting with those city dodgers.

This is indeed a very interesting guy!

In the past, although He Hongwei and Zhou Fei Fei had also dealt with Ji Feng, but at that time, Ji Feng was calm and steady and looked very wise. At this time, Ji Feng had no such feeling at all, he was just a hot-blooded young man who would be impulsive, would use violence, and would punch those who did not look good to him, even regardless of the consequences.

Yet on the contrary, they looked very agreeable, as if Ji Feng, at this time, was more likely to make them feel good.

Especially Zhou Fei Fei, she found that at this time, Ji Feng seemed to be easier to get close to, this was a young man with flesh and blood and feelings, not the high and mighty young master of the Ji family.

"What about the female teacher?" Ji Feng asked.

"It depends on how the two sides negotiate, we also watched the CCTV footage at the time, the fault really doesn't lie with one side, so that female teacher's request for full compensation from the other side is definitely unreasonable." The burly policeman said.

Ji Feng nodded slightly and said, "That's good, give her the clothes to be cleaned, forget about this matter, let that waitress go back first, don't delay the work of others."

"As for the issue of compensation ....." Ji Feng's eyes flashed with a cold light, "That female teacher beat up the waitress, this account, and how should we settle it?!"

"This also requires negotiation between the two sides, really can't, it can only go to court, after all, that female waitress was beaten, but did not cause any substantial injury, so it can't involve legal responsibility, if she asks for compensation, it can only be civil compensation." The burly policeman said.

"Understood!" This result was similar to what Ji Feng had expected, if he went through the normal legal route, he could only ask for compensation through the court, and that was all. However, Ji Feng would not just let the female teacher off so easily.

Knock, knock, knock!

At this moment, there was a sudden knock on the door.

Immediately afterwards, a policeman walked in and whispered a few words in that burly policeman's ear.

"I'm very sorry, young Ji, a few of you, I'll have to excuse myself for a moment, that female teacher's father is here and is making a lot of noise!" The burly policeman said.

Ji Feng gave him a look full of deep meaning and said indifferently, "It's alright, let's go over there and take a look too, the vice headmaster, ah, what a big official!"

## Chapter 757

Together with the burly policeman, Ji Feng and the three of them arrived outside an office door. Before they could open the door and enter, an angry growling voice came from inside.

"It's unbelievable!"

A middle-aged man roared in a voice that could be heard clearly even through the door of the room, "That bastard is too arrogant, he actually dares to hit my daughter, he doesn't want to live anymore?"

Ji Feng and He Hongwei glanced at each other and couldn't help but shake their heads and laugh at the same time, what a big bully!

The burly policeman also couldn't help but curse in his heart, how could this family be such people, did they really think that no one could rule them in this Jiangzhou?

They didn't even look at the people they had offended!

He opened the door to the room, and Ji Feng instantly found that in the office, apart from the two policemen responsible for taking statements and the female teacher and her boyfriend, there was also a middle-aged man who was ranting with a face full of anger.

This middle-aged man was about forty or fifty years old, with greasy combed hair, so fat that his neck was almost as thick as his head, and wearing a black overcoat, he looked like a big meat ball, and when he ranted, all the flesh on his body seemed to be twitching, looking comical.

"Dad! He's the one who beat us up! That's them! You quickly tell the police to arrest them all and send them to jail!" The female teacher screamed as soon as she saw Ji Feng and the three He Hongwei enter.

"Principal Xu, is it? I'm the senior captain of the criminal police ....." Before that burly policeman could finish his sentence, he was interrupted by Principal Xu.

"I don't care who you are, now you immediately arrest these bastards, dare to beat up my son and daughter-in-law, I'll get them killed!" Headmaster Xu roared in anger.

"What a great official authority!" He Hongwei's face suddenly turned gloomy as he said coldly.

Ji Feng, however, said coldly, "I'll remember this from you, if you can't get me killed, I'll get you killed, I promise you, I'll do what I say!"

"Revolted, this is really revolting!" Headmaster Xu was furious and pointed at the burly policeman, asking angrily, "What are you still standing there for, arrest them immediately, do you hear me?!"

“They haven’t committed a crime, I don’t have the right to arrest them!” The burly policeman said indifferently, but in his heart he was disgusted, although this Principal Xu was much higher than him in terms of rank, but we belonged to two different systems and had no relationship at all, what right did he have to shout in front of him?

“What? You don’t have this right, well then, I’ll call your chief right now, I’d like to see if you still have this right when your chief comes!” Headmaster Xu said angrily, taking out his mobile phone and about to call.

“I advise you not to do that!” The burly policeman said nonchalantly.

“Now you know you’re afraid? Then arrest them immediately!” Headmaster Xu’s body was shaking with anger, “Look at this, beating my son and his girlfriend like this, isn’t that still a crime? Do you have to kill them before you’ll arrest them? It’s outrageous!”

Next to him, half of the young man and the female teacher’s face had swollen up high, especially the female teacher, the left side of her face had swollen up so much that she couldn’t even open her eyes, and blood continued to trickle down from the corner of her mouth, looking miserable.

“My daughter-in-law, she is a woman, how dare you do it?!” Headmaster Xu shouted in anger, “I think you guys don’t want to live anymore!”

“You’re the one who doesn’t want to live! And your daughter-in-law!” Ji Feng said coldly, “You’re heartbroken that your daughter-in-law was beaten, so how come you don’t feel heartbroken when your daughter-in-law beats others?”

“That’s deserved!”

Headmaster Xu growled, “A little waitress, so what’s the big deal if you beat her up? Who are you guys, how dare you touch my daughter-in-law too!”

“Good!”

Ji Feng bellowed and said aloud, “Just because you said that, I won’t even let you go, remember!”

After saying that, he turned his head and left.

He Hongwei also gave that Principal Xu a cold look and said to the burly policeman, “This comrade captain, please bring their personal data, we have the right to know.”

The burly policeman’s heart thumped, hearing this he knew that these young masters were really angry, asking for Principal Xu’s and others’ personal data, this was going to strike at them ah. Although he didn’t know the exact identity of He Hongwei, the call from above just said it was a valuable guest, but that Ji Feng’s identity, he knew it!

If Ji Feng really wanted to deal with anyone, not to mention a vice headmaster, even if it was a full headmaster, that would have to be weighed up properly!

“Okay, okay!” The burly policeman nodded his head in a panic, not to mention that He Hongwei’s request was reasonable and legal, even if it was unreasonable, he had to cooperate. If he didn’t

cooperate at this time, and the other party was in a fit of anger, there was definitely a chance that his anger would be directed at him at that time.

He would not touch this bad luck for no reason.

“You, how did you let them go! Quickly arrest them!” When Principal Xu found out that this captain not only didn’t arrest Ji Feng and the others, but instead treated them so respectfully, he became angry and couldn’t help but growl.

“Shut up!”

The burly policeman bellowed, “If you want to find death, go yourself, don’t bring me along! Who should be arrested and who shouldn’t, we’ll follow the law, no need for you to dictate here!”

“You .....

Headmaster Xu was so angry that he couldn’t speak, but then, he suddenly reacted, “You, what did you just say? I’m looking for death?”

“What are you looking for if not death?!” The burly policeman gave him a disdainful look, “Do you know who that person is that you just asked me to arrest? The person the mayor personally called to ask for protection, and you still dare to ask me to arrest him, do you think it’s a death wish!”

“What!?”

Headmaster Xu was instantly shocked, “You, you .....

“Our police officers have already given you a clear account of what happened, yet you are still being so unreasonable, if you want to arrest someone, you can do it yourself, but if you break the law, I will arrest you just the same, even if you invite our chief here, it’s still useless!” The burly policeman said indifferently.

“I... I .....

Headmaster Xu’s face turned miserably white with a swish, a face so pale that his body couldn’t help but tremble a little.

“Dad, what is that guy? You hurry up and call someone to arrest them!” The female teacher said in a shrill voice.

“Snap!”

Headmaster Xu didn’t know where the strength came from and slapped the female teacher violently across the face, growling hysterically, “Shut up, you woman who doesn’t know how to live or die!”

“Dad .....

The woman was instantly hit and stumbled, but she was so intensely shocked that she forgot about the pain and covered her face and looked at Principal Xu dumbly, “You, how did you hit me?”

“I hit you? I’ll also beat you to death, you sweeper, bitch!” The more Principal Xu said, the angrier he became, and finally he couldn’t help but raise his hand again and hit her again.

The female teacher screamed in agony, and Principal Xu's son tried to pull his father back, but he was thrown away, and for a while, the whole office was in a frenzy!

The burly policeman looked at the scene and couldn't help but grimace, but only pretended to pull a few times, and when he couldn't, he let them go.

The more he thought about it, the angrier he became. This damned woman, who could not afford to mess with anyone but this kind of people, this is a good thing, whether he can keep his position as vice-principal or not, it is not clear.

In fact, the reason why Principal Xu was so angry was that on the one hand, it was Ji Feng who had offended him, thus offending Mayor Li, and on the other hand, he was more afraid that if Mayor Li became angry and ordered an investigation into himself, then he would really be finished!

Losing the vice-principal's position may not be terrible, but remembering the dirty deeds under his ass, the things he did before ..... Headmaster Xu had the heart to want to die.

"What can I do about this!"

Headmaster Xu was tired of fighting and sat on his buttocks, his face was pale, he suddenly remembered something else and hurriedly looked at the burly policeman, "I say this comrade captain, look, can't you help to make peace in the middle? Don't worry, I know what to do, as long as it's something I can do, just ask ....."

The current Principal Xu was like a drowning man who saw the last straw and desperately tried to grab it.

The strong police officer is unable to help but shake his head, himself in the middle to say peace?

People know who they are!

Not to mention that he was following the director, who was also Mayor Li's man and was already somewhat at odds with Secretary Ji, and just his rank alone, he simply couldn't talk to a big young man like Ji Feng!

"Sorry, I can't help with this favor." The burly policeman immediately refused, "You, ah, think of another way!"

"It's over now ....." Headmaster Xu was instantly desperate.

At that moment, the female teacher and her boyfriend, who also seemed to have realized what was going on, also became pale and did not even dare to breathe.

The female teacher couldn't figure out how a small waitress could possibly know any big shots.

But if she knew such a powerful person, why did she have to work as a waitress?

She had never realised that it was not because the waitress knew someone big that had brought her to this state, but because her arrogant and domineering behaviour in bullying the weak was the cause of her own death!

Perhaps this is the sadness of such a person, who has not yet realised what she has done wrong!

She still thinks that she is bullying the wrong person, not that she should not be bullying at all!

I am afraid that this is also the sadness of all the students she has taught, they are unfortunate to have met such a teacher, just like those students who were beaten by Ji Feng today, if they had a good teacher, they certainly wouldn't have met such a thing.

A teacher who misbehaves can really mislead the students!

If you are a teacher, then you should teach and educate people in a proper manner, and be worthy of the salary you receive and what the word teacher stands for. If she can really do this, the teaching profession is still very admirable!

Chapter 758

After leaving the police station, Ji Feng's face was still very unattractive, his chest, it was as if he was pressing a big stone, it was heavy and almost made him unable to breathe up.

"Young Ji, there's no need to get angry over this kind of person, your own body is the most important!" Seeing Ji Feng's extremely ugly face, Zhou Fei Fei could not help but comfort him.

"As a teacher, is this how you teach and educate people?" Ji Feng coldly snorted and gritted his teeth, "Did you see, not only does that woman not have the slightest bit of remorse, but she is more arrogant than anyone else, to this point she still doesn't think she's wrong, instead she feels she's being bullied! What a bastard!"

"There are many such people, if you are going to get so angry over such people, then there is something to be angry about." He Hongwei said indifferently.

"I don't care about other people, but since I've come across them, then I can't just ignore them!"

Ji Feng said coldly, "If that woman only had an arrogant attitude and domineering behaviour, then it would be fine. But look what the hell she's done! Bullying a small waitress, forcing people to apologise in public, blackmailing them by saying that their 20,000 dollar dress was 50,000! What's more outrageous is that she actually brought such a group of students to do such things, what kind of thing is this? Is this how she is a teacher?"

"If killing is not a crime, I'll kill her alive!" Ji Feng said in a murderous voice.

He Hongwei and Zhou Fei Fei felt a chill instantly at the same time, and the two of them were instantly aghast, Ji Feng's killing intent was so intense that it almost made them feel like they were enveloped in death, it was just too terrifying.

Especially when Ji Feng's eyes swept over unintentionally, it made their whole bodies cold and almost made them want to run away.

What kind of look is this!

Neither He Hongwei nor Zhou Fei Fei knew about the so-called killing aura, and they naturally didn't understand how such a terrifying aura could be released from Ji Feng, but that didn't stop them from feeling it directly.

Hoo!

He Hongwei's two bodyguards simultaneously took a step forward and stopped in front of He Hongwei, their muscles tensed up, and their eyes were even filled with vigilance and amazement, this kind of aura was just too amazing, making them all feel like they were being watched by a poisonous snake.

"Ji Feng, you ....." He Hongwei was a little hesitant.

"Hmm?!"

Ji Feng was stunned, then this was his reaction, he took a deep breath and soothed some of his emotions, "Sorry, I lost my temper a bit just now, it's just that that woman is just too abominable, it's even better for a person to be abominable, he actually has to teach all the children of others to be like this as well, it's really ....."

He couldn't help but shake his head slightly, really didn't know what to say.

The two of them, He Hongwei and Zhou Fei Fei, likewise let out a long breath of relief. The aura that Ji Feng exuded just now was like a fierce tiger that was choosing people to devour, making them feel the pressure.

As soon as Ji Feng spoke, they felt the aura recede like a tidal wave and disappear without a trace, as if it had never existed before. However, both of them knew very well that that was definitely not an illusion, but they really felt that chilling murderous and terrifying pressure from Ji Feng's body!

The two of them looked at Ji Feng again, their gazes couldn't help but change a lot, this Ji Feng was much more terrifying than they had imagined!

He Hongwei couldn't help but be secretly surprised, Ji Feng was known as the first grandson of the eldest family of the Ji family, this was where the status was, there was no way to choose. However, for Ji Feng to be able to gain a firm foothold in the Ji Family so quickly, this was not something that an ordinary person could achieve.

It seemed that Ji Feng's ability to gain the approval of the Ji family was inseparably related to his own ability!

And before that, perhaps everyone had misjudged, Ji Feng was not a simple country boy, just this aura that he had just exuded, He Hongwei had to be scandalized, outsiders' understanding of Ji Feng definitely did not even reach one tenth of it ah!

The Ji family had definitely added another tiger to its ranks!

He Hongwei originally thought that he had already assessed Ji Feng very highly, but now he suddenly realised that Ji Feng was definitely more powerful than he had imagined, and was also more deeply hidden.

No wonder Ji Feng was able to join hands with Xiang Yongzhan and pull out the Western Xia branch of the dynasty, this guy, he was really something!

Zhou Fei Fei was also looking at Ji Feng with astonishment and suspicion, her beautiful eyes were full of different colors, as if she wanted to see Ji Feng through to the end before she would give up.

“Why are you looking at me like that?” Ji Feng looked at Zhou Fei Fei and He Hongwei in confusion, “Do I have flowers on my face?”

“There are no flowers on your face, but there are in your body!” He Hongwei secretly took a deep breath, tried to calm himself down and said smilingly.

Zhou Fei Fei also smiled sweetly, “Yes, not only do you have flowers, but you are also very attractive!”

“Don’t ever look at me, I already have a girlfriend!” Ji Feng half-jokingly said, “Two, that’s all for today, it’s getting late, the road is hard to travel, I’m going back.”

“Ji Feng, can you take me for a ride?” Zhou Fei Fei, however, suddenly said.

“Are you going the same way as me?” Ji Feng asked with a smile.

“I guess so!” Zhou Fei Fei smiled and said.

“Then your assistant .....” Ji Feng looked at the middle-aged man.

“You were drinking just now oh, he happens to be in charge of driving and can get you home safely!” Zhou Fei Fei smiled, “I wonder if we have this opportunity?”

Ji Feng nodded and smiled, “Of course there’s no problem! I also have to thank you guys a lot!”

“In that case, then I’ll go back first.” He Hongwei chuckled, “Here is the personal data of that female teacher and the others, you are the host in Jiangzhou, so I won’t interfere, otherwise, it could be a bit noisy.”

Ji Feng smiled and nodded, took the sheets of paper and smiled, “Then, let’s say goodbye to this, see you next time!”

Afterwards, Ji Feng and the others hailed a taxi and went straight to the Flavour and Fragrance Residence on Jinling Road, his car was still in that car park.

Looking at the taxi disappearing at the end of the road, He Hongwei couldn’t help but turn his head and ask his two bodyguards, “Were you two very nervous just now?”

“Boss, that friend of yours, the danger of his identity!” One bodyguard said.

“Extremely dangerous! Even the best special forces soldiers don’t have that kind of dangerous aura, it’s very scary!” Another bodyguard added.

He Hongwei was instantly astonished in his heart, these two bodyguards of his were both from real special forces, their skills naturally went without saying, moreover, the battles these two had experienced were definitely not as simple as one or two battles, yet even they said that Ji Feng was so dangerous, that was enough to show how terrifying Ji Feng was!

“If he hadn’t suddenly revealed his killing intent just now, we wouldn’t have been able to find out that this person was actually still an absolute super expert!” A bodyguard said with a palpitating heart.

He Hongwei couldn’t help but ask, “If the two of you fought him, what are your chances of winning?”

“Just with the killing power he displayed just now, we might lose our lives in a single encounter!” The other bodyguard said frankly, “We are definitely not his match!”

“What? One light?!”

He Hongwei was instantly appalled, Ji Feng could be so powerful?

Once again glancing at the direction Ji Feng left, He Hongwei couldn't help but secretly staggered, the Ji family, this time they were really blessed, a son who grew up in the countryside, actually had such a skill, coupled with his wise mind and his identity, this was definitely an extremely terrifying person!

“Fortunately, I didn't make enemies with him!” He Hongwei couldn't help but say in a dark voice.

Looking at the direction Ji Feng left, he mused, his gaze flickering, not knowing what was going through his mind.

.....

After arriving at the Flavor and Fragrance Residence, Ji Feng and the others sat in his car, and the middle-aged man who had followed Fei Fei Zhou was in charge of driving.

“Wait a moment, I have something to say to the manager of the Flavor and Fragrance Restaurant!” Ji Feng suddenly said.

Zhou Fei Fei immediately understood: “Is it about that waiter?”

Ji Feng couldn't help but secretly praise this woman's intelligence, he nodded and said, “That's right, after this incident, the manager of the Flavour and Fragrance Restaurant will probably fire that waitress, since we can help, we always have to help people out.”

“Let Old Wang go!” Zhou Fei Fei sat next to Ji Feng and smiled sweetly, “You've been drinking, don't scare people!”

“That's true!” Ji Feng nodded and laughed.

Even though drinking those drinks before was not a problem at all for Ji Feng, he nevertheless nodded and agreed because he knew that Zhou Fei Fei had stopped him not because of this reason, but most likely because she had something to say to herself.

Sure enough, after Old Wang got out of the car, Zhou Fei Fei then said quietly, “Ji Feng, do you think that between He Hongwei and I .....”

“What?!” Ji Feng was stunned and did not react.

Zhou Fei Fei's shell teeth bit her red lips before she said, “Did you think that I was He Hongwei's lover?!”

“What makes you think that?” Ji Feng laughed, “Absolutely not!”

“Then how did you ..... at the wine table before?”

Ji Feng immediately laughed: “Just joking before, don't mind, by the way, how is your brother doing in prison?”

He couldn't help but secretly laugh, at first he saw He Hongwei and Zhou Fei Fei sitting in the box waiting for himself, plus He Hongwei flirted with Zhou Fei Fei because he had inadvertently hung up on her, so he subconsciously thought that Zhou Fei Fei was He Hongwei's lover, but then after Zhou Fei Fei went out, He Hongwei had made a note to clarify the relationship between them, and Ji Feng understood.

Now that Zhou Fei Fei asked about it, Ji Feng naturally couldn't admit it.

"Don't change the subject!"

Zhou Fei Fei gave him a blank look and said slightly sulkily, "Am I such a woman in your eyes? Although He Hongwei is the son of a big family, there's no need for me to have to be his lover, right?"

Ji Feng smiled sarcastically and said, "That what, I didn't think so, you should have misunderstood!"

"Is it really me who misunderstood?" Zhou Fei Fei's body suddenly leaned towards Ji Feng, her red lips lightly opened and she exhaled like an orchid, "Don't you think so?"

"Ahem ....."

Ji Feng cleared his throat and flirted as if nothing was wrong, "Miss Zhou, it's a big night, there are only two of us in the car, and you're doing this ....." Can I understand that you are tempting me?"

Chapter 759

"Ahem ....."

Ji Feng cleared his throat and flirted as if nothing was wrong, "Miss Zhou, it's a big night, there are only two of us in the car, and you're doing this again ....." Can I understand that you are tempting me?"

"Do I still need to tempt you?" When Zhou Fei Fei heard this, she was again a bit sulky, her beautiful eyes whitened at Ji Feng: "In the first place, you even looked at people's bodies, but still did not react at all, do I still need to tempt you? I'm afraid that in your eyes, it's no different whether I'm wearing clothes or not, right?"

Although Zhou Fei Fei was wearing an overcoat, the fragrant smell, as well as the unique softness and charm of women, was a direct stimulus to Ji Feng, making his heart burst with evil fire.

Without a trace of a deep breath, Ji Feng laughed: "It was a special situation, you are so beautiful, how could there be no difference?"

"Really?!" Zhou Fei Fei asked.

"Of course it's true, I'm a normal man, how could I not be moved at all when faced with a beautiful woman?" Ji Feng laughed.

The dim light of the car park shone in the car, causing a hazy look on Zhou Fei Fei's pretty face. Her beautiful eyes flashed, staring at Ji Feng's face, trying to see if he was lying.

Ji Feng, however, had a natural face and could not see half the same.

“Count on your honesty!” Zhou Fei Fei smiled sweetly and sat up straight, which immediately made Ji Feng couldn’t help but brighten up.

It had to be said that Zhou Fei Fei was definitely a top-notch beauty. She was extremely different from any other woman Ji Feng had ever seen.

Flirtatious, moving, competent and wise, she lacked none of them, and what’s more, she was sexy!

When faced with such a woman, any normal man would have pleasure in his heart, this was not philandering, but an appreciation.

Ji Feng was also the same, only that, while appreciating, he was secretly relieved in his heart.

At that time in Hangzhou, he was extremely annoyed because he knew what Zhou Shilin used to do, and that’s why he didn’t have the slightest good feeling towards Zhou Fei Fei. At that time, not to mention that Zhou Fei Fei was leaning on his arms naked, even if she took the initiative to serve him, he would definitely ignore it.

Although, Zhou Fei Fei is a charming and sexually stunning beauty.

If it were the usual case, if Zhou Fei Fei had tempted Ji Feng like that, he would have definitely reacted normally, in fact, no matter if it was any normal man, when faced with the temptation of such a beautiful woman, he would not be able to resist reacting.

However, the situation at that time was too special, and Ji Feng would not have raised the slightest interest in the person he loathed.

The most important thing is that being interested doesn’t mean that you have to do anything. For example, most men like to admire beautiful women, but admiring a beautiful woman doesn’t mean that you have to hit on her. This is especially true for those who have a girlfriend or a wife.

But those who have a sense of responsibility and are true to their girlfriends or wives will not do anything out of the ordinary.

Maybe the bad ones will have a little secret masturbation in their hearts, or they will flirt a bit with other beautiful women, but it is unlikely that they will actually do anything.

Of course, for men who think with their lower bodies, it’s different, but it’s also destined that once their behavior is known by their wives at home, a breakup is a certain outcome.

Ji Feng also likes to admire beautiful women, but if he were to take any practical action, he would never do it. He is already content with the company of Xiao Yuxuan and Tong Lei by his side.

Especially for this kind of communication, which was not the slightest bit emotional but completely physical, Ji Feng was not even half interested!

The actual fact is that, in the face of Zhou Fei Fei’s questioning, Ji Feng is really a bit overwhelmed with the rush, especially when Zhou Fei Fei’s body is leaning on his arm, the kind of fragrance secretly exhaled, the feeling of the fragrance diffused, is simply the best aphrodisiac, let Ji Feng heart has a suppressed evil fire.

And Zhou Fei Fei sat up straight, Ji Feng but can not help but breathe a sigh of relief, otherwise, in the face of such a sexy youkai, Ji Feng is also hard to endure.

“So what .....” Ji Feng cleared his throat, weighed his words and asked, “Miss Zhou, you asked me to stay, it’s not just to clarify with me the relationship between you and He Hongwei, right? If you have something to say, just say it plainly!”

“Does there have to be something between us before we can sit and talk together?” Zhou Fei Fei gave him a blank look and said, “Also, call me Fei Fei, the title Miss, I’m not used to it!”

“I’m not used to it either!” Ji Feng laughed.

“Well, I’m looking for you today, I do have something I want to discuss with you.” Zhou Fei Fei also knew that it was okay to get close to Ji Feng, but she must grasp a degree, if she acted too much, she would make a mistake, she had not forgotten Ji Feng’s intimidating aura before.

“What is it?” Ji Feng asked.

“I want to cooperate with you!” Zhou Fei Fei said directly, “Technically speaking, it should be a cooperation between Shengshi Group and your Xiao Pharmaceutical Factory!”

When Ji Feng heard that, his eyebrows suddenly frowned slightly, “First of all, for the record, Xiao’s Pharmaceutical Factory is not mine, but my girlfriend’s. In addition, your Zhou family’s Shengshi Group directly holds Yuantai Group, that is a pharmaceutical group ah, Zhou ....., Fei Fei, is it appropriate for the Shengshi Group to cooperate with Xiao’s pharmaceutical factory?”

The Yuantai Group in Hangzhou, Jiangsu Province, was itself a large pharmaceutical group. This large pharmaceutical group, which had cooperated with almost all pharmaceutical companies across the country and had sales channels all over the country, was already quite good purely in terms of strength, and was completely comparable to some large state-run pharmaceutical factories.

If it were not for this, Xiao Changhe would not have gone to the Yuantai Group for cooperation in the first place.

And as the first major shareholder of Yuantai Group, it was naturally self-evident how huge the strength of the Zhou family’s Shengshi Group was. Under such circumstances, wouldn’t it be inappropriate for Fei Fei Zhou to actually say that the Sheng Shi Group wanted to cooperate with Xiao’s Pharmaceutical Factory?

This is like, an adult wanting to cooperate with a child who is just a toddler, it will always make people feel awkward.

Although for many small pharmaceutical companies, being able to work with a behemoth like the Shengshi Group is certainly a rare opportunity. But Ji Feng didn’t think so. Besides, both the Yuantai Group and the Xiao Pharmaceutical Factory were companies that mainly produced medicines, and between the two companies, there was no room for cooperation at all!

“You’re right, Yuantai Group is indeed a pharmaceutical group.”

Fei Fei Zhou nodded slightly, "However, the Shengshi Group is more than just pharmaceuticals, it also includes drug agency and sales, as well as businesses in several other industries. Xiao's Pharmaceutical Factory is rising rapidly, so what is inappropriate for the two sides to cooperate?"

"Why should we choose to cooperate with Xiao Pharmaceutical Factory?" Ji Feng still felt a bit awkward and couldn't help but ask.

"Young Ji, as of now, the Kang Yuan slimming powder produced by Xiao's Pharmaceutical Factory is so hot in the country that I think there are certainly not many pharmaceutical companies that can sit still, how can I, Shengshi Group, miss such an opportunity?" Zhou Fei Fei pursed her lips and laughed, "I wouldn't be greedy either, I only want the agency rights for the Jiangsu and Zhejiang regions!"

Ji Feng laughed and said, "This cooperation thing, you should go directly to Xiao's Pharmaceutical Factory."

"Young Ji, I won't say anything in front of a clear person, if I have Young Ji's support, I will be more confident that the cooperation with Xiao's Pharmaceutical Factory will be successful. But if Young Ji doesn't give his nod, I think there is no need for me to go to this Xiao Pharmaceutical Factory." Zhou Fei Fei said.

Ji Feng couldn't help but smile slightly, it was obvious that Zhou Fei Fei already knew that this Xiao Pharmaceutical Factory was his, but knowing was one thing, whether he admitted it or not was another.

Even if everyone knows that the owner behind the Xiao Pharmaceutical Factory is him, as long as he doesn't admit it, legally speaking, it has nothing to do with him.

At most, he would only be an honorary advisor to the Xiao Pharmaceutical Factory.

But since Zhou Fei Fei had already said this, Ji Feng could also feel her sincerity, she really wanted to come and cooperate.

However, Ji Feng is still a bit strange, according to reason, if the Shengshi Group took the agency of Kang Yuan slimming powder in Jiangsu and Zhejiang, it can definitely make a fortune, which is obviously correct. But the problem is, with the size and assets of the Shengshi Group, this agency right should not be that important to Zhou Fei Fei.

There was absolutely no need for Zhou Fei Fei to come to herself specifically, and then because she had inadvertently hung up on her, she went to He Hongwei to act as an intermediary.

She went to such lengths to move just to get the agency rights of Kang Yuan Slim Powder in Jiangzhe region?

"Young Ji, please believe in my sincerity, the sales of Kang Yuan Slimming Powder are already hot and predictable, so strictly speaking, this is also considered that we have taken advantage of Young Ji, that's why I'm asking Young Ji to be able to raise his hand!" Zhou Fei Fei said with a delicate smile.

"Huh ....." Ji Feng couldn't help but shake his head and smile, Zhou Fei Fei's words were obviously complimentary in it, although the sales of Kang Yuan slimming powder was very hot, but there were still some problems in between.

Besides, with the strength of the Shengshi Group, cooperating with Xiao's pharmaceutical factory is still a great help to the pharmaceutical factory. So strictly speaking, it should be considered that Xiao's Pharmaceutical Factory has taken advantage of the situation.

"How about this, I will say hello to the pharmaceutical factory side, you can just send someone over to talk directly!" Ji Feng said, "However, I'm just a titular honorary advisor, whether or not I can succeed depends on how well your talks turn out!"

He thought about it again and again, but still agreed to do it, because the cooperation between the two sides, the Shengshi Group could not take advantage of anything, instead it would benefit the Xiao Pharmaceutical Factory.

In addition, being able to get involved with the Shengshi Group would be of great help to Xiao's Pharmaceutical Factory's future development.

Of course, Ji Feng could not completely rule out whether Zhou Fei Fei had any other purpose for doing this, but at the moment he could not think of any place in the Xiao Pharmaceutical Factory that Zhou Fei Fei wanted to plot, not to mention, he was not afraid of the other party's mischief.

"Then, thank you very much indeed, Young Ji!" Zhou Fei Fei was immediately overjoyed, smiling coquettishly, a time of charm and charm, moving the heart, looking at Ji Feng can not help but some thumping heart.

He coughed lightly and hurriedly turned his head to the other side, not daring to look any further. The actual fact is that you will be able to get a good deal on your own, and you'll be able to get a good deal on your own.

## Chapter 760

Having an agreement with Zhou Fei Fei, Ji Feng then greeted Xu Yuan and told her that the Jiangsu and Zhejiang Shengshi Group would be sending someone to talk about cooperation.

In fact, because he wanted to give some face to He Hongwei, Ji Feng even thought of handing over to Xu Yuan that even if his side suffered some losses, as long as the other side's demands were not too excessive, they could be accepted.

But after careful consideration, Ji Feng still did not say it, after all, although this pharmaceutical factory is his own, but, Xu Yuan and Yang Dezhao have both invested a lot of effort in it, he could not possibly hurt their enthusiasm just for the sake of his own personal favor.

Since he was going to gradually formalise the business, it was better to keep such favours to a minimum.

In fact, when Ji Feng greeted Xu Yuan, the latter understood what it meant, that this Shengshi Group must have approached Ji Feng, and might have made some kind of request.

So, in the end, Ji Feng just said that he would try to cooperate with the Shengshi Group, after all, this was also considered an opportunity for the pharmaceutical factory.

If this opportunity could be seized and with the influence of the Shengshi Group in Jiangsu and Zhejiang, I'm afraid that apart from the home base of Jiangzhou, Jiangsu and Zhejiang should be the easiest area to promote.

The Xiao Pharmaceutical Factory is now at a stage where it is about to take off, but has not yet completely taken off.

In terms of the current, Xiao's Pharmaceutical Factory since the network as a carrier for strong promotion, making its product Kang Yuan slimming powder after the explosion of the country, has been one after another with the country's seven or eight provinces of pharmaceutical distributors to establish a cooperative relationship, of course, which is not all in the form of bidding to get the right to represent.

There are several pharmaceutical companies that have obtained the agency rights solely on the basis of their own strength and sufficient influence in the local area. In fact, the agency fees they offered were often not as high as those offered by some medium-sized pharmaceutical companies. However, in view of the channels and other issues, Xu Yuan and Yang Dezhao still gave the agency rights to the large pharmaceutical groups.

In this process, Xu Yuan and Yang Dezhao were strict in their gate-keeping, striving not to let any pharmaceutical company take advantage of the loopholes, so it has been nearly two months since the product's sales were expanded to seven or eight provinces.

This time if we can establish a partnership with the Shengshi Group, to deal with the opening of the rich Jiangsu and Zhejiang regions of the market, absolutely has a great boost, just Shengshi Group's sales channels and its own influence in the Jiangsu and Zhejiang regions, will be enough to let Xiao's pharmaceutical factory save a lot of effort.

This is also the reason why Ji Feng finally agreed to cooperate with Fei Fei Zhou.

Now Xiao's Pharmaceutical Factory, can only be said to be the wind, but not yet stable, so far, there are still more than a dozen provinces are blank areas, the national pharmaceutical market, Xiao's Pharmaceutical Factory only accounted for a third, and still a single product.

Only when Xiao's Pharmaceutical Factory really will Kang Yuan slimming powder to the national market, and each province's pharmaceutical distributors have established long-term stable relations of cooperation, this time, Xiao's Pharmaceutical Factory, can be said to be the real rise.

And this is precisely Ji Feng's goal.

Once it has established a firm foothold in the national market, Xiao's Pharmaceutical Factory can be considered as stable as a mountain, and only then can it start the next strategic layout – to establish its own pharmaceutical distribution channels.

Once it has its own stable sales channels, it will not be restricted by others, and it will also be able to maximize its profits, so that Xiao's Pharmaceutical Factory can truly be among the ranks of the pharmaceutical industry giants and become a truly large pharmaceutical group.

After greeting Xu Yuan, Ji Feng did not ask any more questions, after all, how to negotiate with the Shengshi Group and what kind of conditions will be reached in the end, it is all up to Xu Yuan and Yang Dezhao to make the decision.

If Ji Feng asked too many questions, it would put pressure on them and they would feel like they couldn't get out of the way, which is not what Ji Feng wanted to see.

The next few days, Ji Feng's life once again returned to calm.

This time, the first semester of the sophomore year's final exams, also coming soon, Ji Feng does not want to fail the subject, so can only honestly be a good student, every day normal classes and classes, after class time, are buried in hard reading, and even from time to time to borrow the notes of classmates to read.

Ji Feng's memory was indeed extraordinary, but even if his memory was good, if he didn't even read the books, he wouldn't pass the exams either!

Moreover, during this period of time, Ji Feng has indeed discovered a lot of problems in himself through the process of managing the pharmaceutical factory, lack of experience and inability to consider many aspects, which are only minor problems. However, being informal in many aspects, and even having a lot of uncertainty when considering the future development path, this is the problem of ability.

Therefore, he read the book more seriously, after all, he studied economic management, and usually had practical experience, now once he read the book he realized clearly that many examples could be found in the book.

Only at this time did Ji Feng understand why many people say that in junior high and high school, what is taught in school is some basic knowledge, and only at university is what is learned to make a living.

Now it seems that this is indeed true.

Although some of the theories written in books are very hollow and often seem incomprehensible, such as some economic phenomena and other things, it is a headache, these things are invisible and untouchable, many people then feel useless to learn.

However, with practical experience, Ji Feng found that much of the knowledge in the book was actually very useful in real life, especially when considering future development plans, almost everywhere you can use the knowledge in the book.

For example, now, when Ji Feng was reading the book, every time he saw a theory or a practical case, he could find a corresponding example in his own pharmaceutical factory.

Although the actual and the theoretical will be more or less the same, but that is just more or less the same, the essence is actually the same.

Ji Feng's stable life like this also put Xiao Yuxuan and Tong Lei's hearts at ease.

The old days of not knowing when they would suddenly encounter danger had really worried the two women for a while, especially after they had seen that ugly transformer.

That kind of horrible monster could actually lift even a car, what would be the consequences once they touched it?

Even though the two women knew that Ji Feng was quite good, but how strong he was, neither of them was quite sure. Besides, even if Ji Feng was able to defeat those reformers, it would be better to be safe than to fight and kill all day long, right?

However, this was not what Ji Feng had in mind. Although he was outwardly at peace with his studies and his daily life had become regular, in reality, he was very clear that he had many enemies hidden in the shadows.

For example, the person who made a threatening phone call to him last time, the intense anger contained in those words and the hatred that seemed to come from his bones made Ji Feng very wary.

Although he was not so afraid, there is always nothing wrong with being careful and on guard. Even a tiger can have a nap, and Ji Feng did not believe that he would always be so vigilant. If the other party took advantage of his slackness to make a surprise attack, the consequences would be unthinkable.

More importantly, Ji Feng was worried that the other party would shift its target to Xiao Yuxuan and Tong Lei, who had no experience in combat, not to mention dealing with attacks from the shadows.

Even if they were protected by Little Shadow, it would be quite tricky if the other party was determined to deal with them.

Therefore, during the day, Ji Feng read books seriously, accompanied Xiao Yuxuan and Tong Lei in their free time to chat, and occasionally joked with Xiao Ying. But at night, he would start training hard to enter the third stage as soon as possible.

It was only when he really started training that Ji Feng understood what was meant by the third stage.

It wasn't that starting to practice the third set of body-building exercises was the same as entering the third stage of the Super Agent Training System.

In fact, to Ji Feng's surprise, there was no third set of body-building exercises in this so-called Super Agent Training System!

The third set of gymnastics that the intelligent brain spoke of was a very unique training method, completely different from the previous two sets of gymnastics.

This third set of gymnastics did not have any physical movements.

After completing the second stage of training, Ji Feng once again entered the training space in his mind, only to find that this time the intelligent brain did not give a training plan for the third set of gymnastics, and on the ground in front of him, there were small metal balls sprinkled all over the ground.

These little balls, which were about the same size as those glass balls he had played with as a child, but were all opaque, spread all over the ground.

"What's going on here?" Ji Feng looked at the small metal balls all over the ground with some consternation, "Wise Brain, the third set of body-building exercises, it has something to do with these small metal balls?"

"Yes, master." The intelligent brain explained, "This third set of body-building exercises requires the use of these obstacle balls for training!"

"Obstacle balls?"

Ji Feng was stunned, looked at the dense metal spheres on the ground and asked, "You're talking about these? That's an odd name for obstacle balls ..... Then how should I train? What about light and shadow?"

In the past, when practicing the previous two sets of aerobics, there would be a light shadow making a movement first, while Ji Feng followed and imitated it, and so gradually practiced before learning the previous two sets of aerobics.

But now instead of seeing light shadows, the ground is full of ..... The ball of obstacles, Ji Feng can't help but be a little surprised, is it to let yourself walk over these balls, is considered the so-called practice over obstacles? What kind of training method is this?

"Master, the third set of bodybuilding exercises, do not need light and shadow for assistance, only with the help of these obstacle balls, can be effective training." The intelligent brain said.
