

Campus Master 761

Chapter 761

“Master, the third set of body-building exercises, which do not require light and shadow for assistance, can be performed effectively with the help of these obstacle balls only.” The intelligent brain said.

Ji Feng couldn't help but be confused, he frowned and asked, “Then exactly, how should I train?”

“Master, you only need to activate the bio-current in your body to control these obstacle balls and make them turn into whatever state you want, or reach whatever orientation you imagine, then you are already training!” The intelligent brain explained.

“Using bio-currents to turn these obstacle balls into the shape I want them to be, or to move them to the orientation I specify Is this what you call the third set of body-building exercises?” Ji Feng asked in amazement.

“Yes, master!” The intelligent brain said, “May I ask master, is the training to begin immediately?!”

“That's quite rare Let's give it a try then!” Ji Feng laughed, looking fresh. Controlling things around him with bio-currents, this kind of play he had never really tried before, and now it seemed as if this method should be quite good.

“First step, please use bio-current to hold up an obstacle ball so that it reaches a position parallel to the master's line of sight!” As soon as he entered the formal training procedure, there was suddenly no trace of emotion in the voice of the intelligent brain, there was just programmed language.

Ji Feng, on the other hand, had long been used to this change in the intelligent brain, and as soon as he heard that the training had begun, he immediately looked astonished, and his entire body immediately entered into a state, and his expression became serious.

Taking a deep breath, Ji Feng slowly activated the bio-current and applied it to his right hand, while he slowly squatted down and tried to drag up a barrier ball with the bio-current.

However, as soon as the bio-current in Ji Feng's hand came into contact with an obstacle ball at his feet, the ball seemed to be hit hard and “popped!” With a sound, it flew out far away and hit the other obstacle balls.

There was a clatter

The whole ground was shaken by this one small ball, one hitting the other, as if it was a domino, the whole ground was shaken by the small ball, the sound was higher than the other, the ear-piercing sound, which made Ji Feng grit his teeth.

It wasn't until half an hour later that these little balls were considered completely quiet, and peace was once again restored in the training space.

“This” Ji Feng was somewhat dumbfounded as he looked at the large number of obstacle balls lying quietly on the ground, somewhat dumbfounded, “Wise Brain, how did this bio-current suddenly run away as soon as it touched these obstacle balls?”

“It’s not that the obstacle balls ran away, but the bio-current within the master’s body contained great energy and knocked the obstacle balls out.” The intelligent brain corrected Ji Feng’s statement.

“Then what should I do so that the barrier ball won’t run?” Ji Feng asked.

“That requires the master to figure out for himself, when the master is able to hold up an obstacle ball, it is considered to be officially in the third training stage!” The intelligent brain said.

“I’ll figure it out by myself? You guys don’t give any hints, you don’t even say the direction of the solution, how am I supposed to figure it out myself” Ji Feng really hated this irresponsible statement from the wise brain.

“This is a program rule.” The intelligent brain said without the slightest bit of emotion.

Ji Feng gritted his teeth and was finally defeated, “Fine, count on you, think of your own way, I really don’t believe that I have to eat pigs with hair if I’m missing Zhang Butcher?”

He squatted down again and slowly activated the bio-current, this time, his movements were much gentler and his heart was a lot more cautious. He couldn’t help it, the lesson from the first time was there, so he couldn’t help but be cautious.

Snap!

Clap!

Just as the bio-current came into contact with a barrier ball, the little metal ball exploded out instantly like a bullet fired from the muzzle of a gun.

In a flash, almost all the metal obstacle balls on the ground were knocked around, and once again, the ear-piercing rattling sounds came in waves like a tidal wave, causing Ji Feng’s scalp to fry a little.

Zizi~~!

“Holy shit!”

Ji Feng suddenly jumped up, his eyes widened and he couldn’t help but curse angrily as his body trembled and his hair stood up at the roots, as if he had been electrocuted.

In fact, he was indeed struck by electricity.

“Wise Brain, why did you discharge electricity to hit me?” Ji Feng asked in consternation, his lips were trembling as he spoke, the electricity was so strong that his body was tingling and his cheeks were twitching from the electricity!

“Master, from now on, you are about to enter the training program precisely, every time you fail, the program will issue a corresponding punishment, the more times you fail, the more severe the punishment will be, please remember that, master!” The Wisdom Brain’s voice rang out, its round light ball body, floating around not far in front of Ji Feng, making him want to grab the Wisdom Brain and rub it fiercely.

“You didn’t say so earlier!” Ji Feng said through gritted teeth.

“There is no automatic reminder program in the system!” Wisdom Brain said.

“.....”

Ji Feng stared at Wisdom Brain dead on, trying to see if this guy was lying or not, and how he felt that Wisdom Brain was deliberately screwing himself.

In the past, when training, didn't it also have a reminder? How come this time there was none instead!

“Count on you!” Ji Feng gritted his teeth, took a deep breath and calmed down completely, “Is it that if I can drag up a metal barrier ball, this level is considered passed? Then I can officially enter the third stage?”

“Yes, master!” The intelligent brain immediately responded.

“Humph!”

Ji Feng snorted coldly and squatted down again.

This time, however, he did not rush to use the bio-current to hold up the barrier ball, because the first two tries had already shown him that this seemingly insignificant metal barrier ball was not so easy to hold up. What's more, there was the kind of punishment that sent shivers down one's spine with electricity that awaited one if one failed again.

“What is it about this damned piece of shit that is so sensitive to bio-currents? How come touching bio-currents is like a mouse seeing a cat”

Ji Feng couldn't help but mutter darkly, “However, when I think back carefully, the scene where the metal barrier balls bounced out just now, it didn't look like they ran away by themselves, it was more like they were knocked away” It seems that these metal obstacle balls, should be repulsive to bio-currents, no wonder they are called obstacle balls!”

After a moment of careful deliberation, it suddenly occurred to Ji Feng that since this metal obstacle ball was so repulsive to bio-currents, using one hand would definitely not work, so what about using two hands and holding it from both sides at the same time? Could the metal barrier ball be held up?

After sorting out his thoughts once again, Ji Feng felt that this method was feasible, using two hands to wrap up the metal barrier ball, so that even if it repelled the bio-current as much as it did, it couldn't be knocked out again, right?

This is like the two poles of a magnet, using one magnet to hold up another magnet, both sides are the same sex, then naturally they repel each other, but if another magnet is added, won't it be easy?

Taking a deep breath, Ji Feng stretched out both hands at the same time, slowly urging the bio-current, and both hands began to gradually approach a metal barrier ball at his feet.

Whoosh...!

Ji Feng's hands had just approached the metal obstacle ball, and before he could wrap it, the obstacle ball was suddenly struck by the bio-current and directly shot upwards, instantly breaking away from Ji Feng's control.

Snap!

The obstacle ball fell and smashed on the ground, instantly knocking the other obstacle balls once more.

That clattering, piercing sound resounded once again.

Zizi Zap!

“I x” Ji Feng cursed angrily and his entire body jerked violently as the punishment descended again.

Ji Feng kept shivering, looking at his two hands that were almost blackened with electricity, he gritted his teeth and said, “I really don’t believe it, this little thing, I still can’t help it?!”

He forced himself to endure the pain that was numbing his body, and his mind quickly thought of a way to hold up the barrier ball.

Letting out just a hint of bio-current, fast The result was a failure, punished by the wise brain.

Covering the obstacle ball from top to bottom, carefully The result is still a failure and that painful punishment comes once more.

Once, twice, three times

At this time, Ji Feng seemed to have reverted back to the time when he first started practicing his first set of body-building exercises, when he was similarly punished one at a time for failing to complete the movements taught by the light and shadow, and how similar the present scene was to that time!

For a moment, the stubbornness in Ji Feng’s bones, as well as his perseverance, was completely stirred up.

He gritted his teeth, as if he wanted to fight for his life against someone, and tried again and again, but time after time he failed, as if he had forgotten the pain of being punished by the current, and kept trying.

From his bones, Ji Feng was definitely a person with great perseverance, otherwise, it was absolutely impossible for him to go from a physically weak guy to the expert he was today. And the recent period of comfort had made Ji Feng feel a bit bored. At this moment, this training of holding up the obstacle ball immediately brought back his long-lost passion and fighting spirit.

Ji Feng began to find the fun in the pain and had fun.

.....

“Whew...!”

Ji Feng lay straight on the ground and let out a long breath. At this moment, his body was scorched black, his face was even like a piece of charcoal, his hair stood up at the roots, and his entire body was electrocuted almost beyond recognition.

After countless attempts, Ji Feng finally realized that it was really impossible to succeed overnight, at least here, there was absolutely no fluke success until one found the right method.

“Never be discouraged!”

Ji Feng gritted his teeth and climbed up with difficulty once more, squatting softly on the ground and looking down at a metal barrier ball in front of him, panting weakly while secretly thinking of a solution.

“The metal barrier ball is extremely repulsive to biological currents, however, the strength of this repulsion is also limited.” Ji Feng secretly deliberated, “This strength acts on the barrier ball to make it pop out quickly, however, if one controls the speed at which the bio-current wraps around the barrier ball and can exceed the speed at which the barrier ball pops out, then one can wrap it up and make it firmly under one’s control!”

Swish!

As soon as he thought of this, Ji Feng’s eyes snapped open, that’s right, this kind of movement, for the manipulation and mastery of bio-current, was extremely demanding, perhaps this was the purpose of the third stage of training, to improve one’s control over the strength of bio-current!

Understanding this, Ji Feng couldn’t help but take a deep breath, and after demonstrating it countless times in his head, he lightning stretched out his hand and grabbed a metal barrier ball!

Chapter 762

“Today, we’re going to scratch the point

From the podium in the classroom, the teacher finally said what the students had loved to hear for most of the semester – to start scratching the key points, which meant that it was another way of saying that the exams were packaged to pass.

All the students instantly perked up and began to follow the rhythm of the teacher on the podium, quickly writing down the key areas that the teacher was talking about, one by one.

Perhaps for many students, this method of examination is one of the most humane strategies in university. In some courses, the answers are simply given to the students privately and then passed on to each other, so that if they memorise them before the exam, they will pass the exam.

However, there are also many students who don’t really enjoy studying even at this critical juncture, so in almost every university, there is a certain elimination rate.

This elimination rate is really only for those students who don’t want to read even before they get to the exam. Apart from them, all other students can basically pass.

Of course, the prerequisite is that one must listen clearly to what the teacher says about where the key areas are and what the content is all about. So, for many students, this is actually the time when they take the whole semester down to the most serious.

However, as the pages of the textbook were turned, the students in the classroom began to become a little impatient.

They found that what the teacher had said about the scope of focus, apart from what optional content was excluded, basically all the other chapters were classified into the scope of focus.

For a while, the students at the bottom became less motivated and complained in small voices. But the teacher on the podium was his usual self, talking quickly about the papers he had produced and which

chapters the exam questions appeared in more Although in the strictest terms, it is this entire book that is considered the key range, but the teacher is still talking about it.

The company's main business is to provide a wide range of products and services to the public.

The book is a good example of how to remember the key points, but if you want to remember them, you have to memorize the whole book.

"This teacher, it's interesting!" Ji Feng couldn't help but smile slightly, perhaps, this is also an interesting phenomenon of university teaching.

"Interesting my ass, cunning is the real thing, saying something about highlighting the key points, but it turns out that the whole book has to be memorized, we have a total of eight classes this semester, if every teacher is like this guy, how can we live!" A boy next to him said sadly.

"That's because you don't usually study hard enough to memorize more books!" A girl wearing glasses in Ji Feng's front row turned around and said.

Ji Feng couldn't help but smile slightly, the entire Economics and Management major was not just their class, and this time it was still a big class with all the Economics and Management students together, many of the students he didn't even know.

For example, the man and woman who were talking, he just looked familiar but couldn't call them by name.

While these two were talking in a whisper, Ji Feng was frozen and somewhat lost in thought.

He could memorize the entire book, so these points were obviously not a problem.

When he was bored, Ji Feng started to turn his pen unconsciously, but his mind remembered the ball-holding training in the training space last night. Those little metal obstacle balls had made him suffer, and even now, he was still sore all over, and even with bio-current regulation, he couldn't completely eliminate that painful feeling.

This was something he had never experienced before during his training!

When he practised the first and second sets of aerobics before, no matter how tired and painful it was, when he woke up in the morning, he would be refreshed and full of strength again, where would it be like now, so painful!

"I must practice more, I'm sure the training will be even harder in the future, and the best way to suffer less is to make yourself grow up fast!" Ji Feng secretly said.

The pain he endured in the training space last night was something he didn't want to experience again, but he also knew that this kind of pain, in the future, would definitely not be less. Ji Feng couldn't help but recall the first time he saw the light screen in his mind, the image played in that light screen gave him a great shock.

A battle between two people, a single punch could actually break a mountain, that kind of terrifying battle power, it was unimaginable!

Ji Feng secretly compared himself and those two people, and he found that the difference between his own strength and theirs could definitely be said to be one in the sky and one in the ground, there was not the slightest comparison at all.

However, according to the intelligent brain, like those two people, they were the real super agents, while he, himself, was moving towards the goal of being a super agent.

Does this mean that one has to reach that level of theirs before one can be called a super agent?

The pain that one had to go through in this process was definitely much more difficult and painful than mastering a few sets of body-building exercises.

So Ji Feng could be sure that the pain he was suffering now, that could definitely only be considered hairy.

When he thought of how much longer he would have to suffer in the future, Ji Feng couldn't help but shiver, there would be a lot of suffering in the future, he had to work hard!

Snap!

When Ji Feng was distracted, the signature pen in his hand fell on the table.

The next moment, Ji Feng, as if by reflex, fiercely stretched out his hand, his five fingers slightly bent, and grabbed the signature pen on the table.

A shocking thing happened!

Only to see that his hand was a full ten centimetres away from the signature pen on the table, the pen actually slowly floated up, as if it was attracted by something.

“Such a long distance?!”

Ji Feng was also shocked by the scene in front of him, his own hand was still a dozen centimeters away from the signature pen, so how did it hold it up?

He remembered that last night he had practiced holding up the metal obstacle ball with bio-current in the training space, and at first the bio-current could not detach itself from his hand at all, and could only run in his hand at most.

After being electrocuted for I don't know how many times, the bio-current could finally detach itself slightly from his body, but at most it could only extend to about a millimetre from his fingers, and even after ten attempts, it might not succeed once.

But now, the bio-current could actually extend to about ten centimetres, it was incredible!

“Could it be that this is the training effect of the so-called barrier ball?” Ji Feng looked at the signature pen that he had grabbed by himself a dozen centimeters apart, and continuously urged the bio-current, making it rotate as if it was floating in the void, “I guess that obstacle ball can not only exercise one's degree of control over the bio-current, but also strengthen the bio-current”

The floating signature pen was constantly rotating as if it had been fitted with a motor, which was very peculiar, and Ji Feng was also excited.

He couldn't help but secretly think, this kind of training of resting on a metal obstacle ball is really remarkable, if he can extend a long distance after practicing for a period of time, the bio-current can leave his body, then wouldn't he be able to fetch things from space?!

More than that!

Ji Feng's mind couldn't help but conjure up such an image of himself fighting against someone, and without the other party even noticing it, his bio-current would have already struck through, that would simply be able to fix the other party's life or death without touching him, and the other party would still be oblivious to it This is even more powerful than a pistol!

Gradually figured out some taste, Ji Feng can't help but also excited, really can't imagine, this bio-current actually has such a unique use method, this is simply killing and arson killing necessary deadly weapons ah!

"Super agent" Ji Feng couldn't help but secretly staggered, the image he saw of the two people battling each other in the light screen at that time was definitely not the final strength of the super agents, if they used all their skills, how terrifying would that be?

Whoosh...!

Ji Feng's finger moved slightly, and the suspended signature pen suddenly shot out, arriving at the corner of the table in the blink of an eye, his finger moved again, and the signature pen kept moving in one quick motion, and eventually, because it was so fast, the naked eye could only see a shadow moving around on the table.

Whoosh!

Ji Feng's finger slightly bent, and that signature pen suddenly rotated and flew around the table, just like a helicopter.

"Not bad, not bad!" Ji Feng was having fun, moving his hands quickly, making the signature pen make all kinds of different movements, with an excited look on his face, just like a child who had gotten a very favorite toy.

Suddenly, Ji Feng's eyes flickered out of the corner of his eyes and his two hands shook.

Pop!

The signature pen suddenly fell on the table again, rolled a few times, and then stood still.

Ji Feng jerked his head up and saw the girl in front of him wearing glasses and the boy sitting next to him, both of whom had the same expression, staring at themselves dumbfounded, as if they had seen a ghost in broad daylight.

The girl's body was even trembling slightly, and her teeth were fighting up and down, obviously terrified.

The boy's face didn't look too good either, and he was equally frightened, swallowing his saliva continuously.

“Bad, got carried away, how could I forget that this was in a classroom!” Ji Feng cackled in his heart, that scene just now, was indeed a bit bizarre, how should I explain it?

“Just now your signature pen was running around by itself?” The girl with the glasses asked, dumbfounded.

“It’s not a ghost, is it?” The boy, however, could not help but rub his eyes and asked with chills all over his body, while he could not help but look around, only to feel the chills rising up, how cold it was all around!

“Cough

Ji Feng coughed lightly, smiled faintly at the two of them and said in a low voice: “You guys can’t say out, this is just a small magic trick, if you are interested, you can perform it to you later!”

Chapter 763

“Magic?!” Both of them froze at the same time.

“That’s right, it’s just a magic trick.” Ji Feng laughed, “It’s a special signature pen that contains magnets, I also smeared magnetic powder on my hand, originally I wanted to perform it for my friend, just now I was just secretly practicing to practice!”

Ji Feng snorted haphazardly, other than that, for a while he couldn’t really find any good reason to explain what had just happened.

He couldn’t just follow the two students and say, “Sorry, it was you two who were blurry-eyed just now!”

It would be strange if they believed him!

In fact, for many people, the more they tell the truth, the less they believe it, but if they tell a lie, they really believe it.

The same was true of these two.

“It’s the same pole repelling each other, right?” The boy immediately responded, “I was scared to death just now, I thought I had seen a ghost in broad daylight!”

“What a coward, I would have guessed it was magic, otherwise the pen would have flown by itself?” The girl gave the boy sitting next to Ji Feng a contemptuous look, seemingly oblivious to the fact that she had just seen that signature pen flying around and was shaking with fear.

“As if you had any more guts than me!” The boy muttered in a low voice as he felt his face was shameless.

“What did you say?!” The girl gave a glare.

“No, it’s nothing!” The boy shook his head hurriedly and said with a smile, “I mean, this student’s signature pen is really nice, I’ll get one too when I have time.”

“That’s more like it!”

The girl proudly held her head high before asking Ji Feng with great interest, "This student, where did you buy your signature pen? Is it expensive?"

"It's at a magic supply shop downtown!" Ji Feng snorted and hurriedly changed the subject, "So what, where was the teacher talking about?"

"Ah!"

That girl was instantly shocked, "All disturbed by you, I have to hurry up and scope it out."

With that, she hurriedly turned back to the teacher and followed him seriously as he went through the book.

The boy seemed to feel stripped of his face and couldn't help but grimace, muttering in a low voice, "With steel braces and glasses and looking like a dinosaur, he still thinks of himself as a princess"

Pfft—!

Ji Feng almost did not bite out a laugh, these students, they were so talented.

Frankly speaking, although this girl did have these flaws, she was not without any merits at all.

Ji Feng could see from the back that this girl's long hair was beautifully soft, it looked much better than the messy hair of many of those girls on the street, and it was long, almost halfway to her waist, so if there was a fresh breeze blowing through it, it would definitely be very pretty.

In addition to that, the girl's skin seems to be very good

Of course, these are advantages that the boy would pretend not to see when he saw it.

"These guys, they're all too bored with idleness." Ji Feng couldn't help but shake his head and laugh, if they were so busy that they didn't even have time to take a sip of water, they would still have the effort to fight here?

—that would be weird!

However, Ji Feng was still envious of the carefree nature of these students.

This kind of leisurely going to and coming from class every day, occasionally skipping classes and doing some small bad things, without having to worry about how to pay for living expenses or whether they will find a good job in the future, as long as they are happy now, it is enough.

Ji Feng but never experienced this kind of life, but he also knows that, probably compared to themselves, they will be more envious of their current life

This is like a siege city, the people inside want to come out, the people outside want to go in.

And in reality, the only person who knows whether the shoe fits or not is yourself.

.....

After this experience in the classroom, Ji Feng realized that this training method of holding the obstacle ball taught by the intelligent brain was definitely more effective than he had imagined.

Moreover, it was also much more than just an introduction to the third training stage.

This training method, in terms of bio-current usage, had a magical training effect!

So as soon as school was over, Ji Feng picked up Xiao Yuxuan and Tong Lei and quickly headed home. He wanted to enter the third training stage in the shortest possible time, so that not only could he ask for a retired female warrior from Xiang Yongzhan to protect Xiao Yuxuan and Tong Lei, but at the same time, he could also take his strength to the next level.

After this short training, Ji Feng had realised that if the first two sets of body-building exercises were equivalent to the basic skills in martial arts, such as tying a horse, punching and exercising physical fitness, then this third training stage was to start learning various combinations on top of these basic skills, and learn how to use these basic skills to bring out their maximum power!

And it is the combinations that are really powerful.

Those who are good at the basics may be able to hit two or three with one, but if they face more enemies, they are not so safe.

But if one learned those powerful combinations, then this would be much more powerful.

Ji Feng was now at the stage of starting to learn combinations and had already tasted the benefits that combinations could bring, so how could he not be excited?

The sweetness that he had tasted was actually the distance that the bio-current could leave his body, which was increasing rapidly.

For example, in the previous class, the bio-current actually left his hand for a distance of more than ten centimeters, and Ji Feng controlled it without any half-hearted feeling of blockage, as if the bio-current that left his hand was also a part of his own body.

..... It's as if your own hand has suddenly become a dozen centimeters longer, without the slightest feeling of discomfort!

Just imagine, if you were to fight with someone else at this time, Ji Feng wouldn't even need to touch the other person, he would directly release the bio-current, and he would be able to hit the other person unknowingly, and the other person wouldn't even have the slightest sense of defense, because they wouldn't even be able to see this terrifying bio-current, it would simply be impossible to defend against it!

This hand alone was enough to double Ji Feng's killing power several times, not to mention that there must be other even more amazing training methods in this third training stage, so how could Ji Feng not be active?

Originally, it was Xiao Ying who had been taking on the role of driver when Xiao Yuxuan and Tong Lei were on their way to or from school. But now Ji Feng had driven her to the passenger seat, and he himself became the driver.

"Ji Feng, you seem a bit strange today, is something wrong?" Xiao Yuxuan immediately asked.

"What can be wrong?" Ji Feng laughed, "I'm just going to perform a magic trick to show you guys."

“What magic trick?” Xiao Yuxuan and Tong Lei immediately became interested, even Xiao Ying, who had always been on high alert, couldn’t help but reveal an interested look at this moment, her beautiful eyes staring at Ji Feng curiously.

Ji Feng laughed: “It’s definitely a magic trick that will amaze you, don’t shout after you’ve seen it!”

“Look at your smug look!” Xiao Yuxuan couldn’t help but give him a white look and laughed delicately, “You’re grabbing the car, you’re not going to show us your car skills, are you? That’s not a magic trick, we all know you’re a great driver!”

“You guessed it right!” Ji Feng laughed: “It’s indeed related to driving, but it’s not a car skill, it’s a kind of unmanned skill Watch this!”

As soon as Ji Feng’s words fell, he had already activated the bio-current and gradually left the steering wheel with both hands, only to use the bio-current to converge into two strands, as if two hands seemed to be tightly wrapped around the steering wheel.

There was not the slightest difference in the car, not even a half change in direction.

“See, this is the legendary driverless!” Ji Feng said smugly.

“Che!”

Xiao Yuxuan couldn’t help but laugh petulantly, “I was what driverless, so this is what you call driverless, huh?”

“Isn’t that enough to show how good I am?” Ji Feng asked smugly.

“As long as the car’s four-wheel alignment is calibrated accurately, plus the transmission system is running properly, any vehicle can be driven for a while without holding the steering wheel by hand, but we’re about to make a turn in front of us, what are you going to do then?” Xiao Yuxuan asked with a smile.

Tong Lei and Xiao Ying were also pursing their lips and smiling lightly, looking pleasant.

In fact, for Tong Lei, it didn’t matter whether Ji Feng could do it or not, what mattered was that he was willing to try in order to amuse himself and Yu Xuan, and he was trying hard, and that was enough. Because from all these things, Tong Lei could feel that he was trying to make himself and Yu Xuan happy, but not deliberately to please himself, but from his heart, he wanted to make himself and Yu Xuan happy.

“Ji Feng, stop it, I know you can unmanned just fine” Tong Lei laughed lightly, “The crossroads is just ahead, be careful driving.”

“Don’t worry, since I said I would show you guys a driverless show, it definitely won’t be that simple!” Ji Feng smiled faintly and gradually slowed down his car, waiting for the green light to turn left in front of him to come on, he immediately said, “All watch out – no one is driving!”

The next moment, only to see his hands about five or six centimeters away from the steering wheel, both hands began to turn.

Swish!

Amazingly, the steering wheel actually began to turn along with it, and the car turned smoothly, as if a skilled person was driving, and it was impossible to tell that Ji Feng's hands had actually left the steering wheel.

All of a sudden, Xiao Yuxuan and Tong Lei, as well as Xiao Ying, all three of them suddenly opened their beautiful eyes wide and looked at Ji Feng in surprise.

"Ji Feng, you, how did you do that?" Xiao Yuxuan asked in shock.

"It couldn't be the new feature of this BMW x6, could it? Your car has been modified?" Tong Lei also asked incredulously.

"Right, Ji Feng, it couldn't be that you've modified the car and are now using this method to trick us, right?" Xiao Yuxuan also reacted at once and asked hesitantly.

Xiao Ying also nodded slightly and looked at Ji Feng curiously.

In their opinion, Tong Lei's guess was the most likely, otherwise, it would be too difficult to explain.

"Modification?"

Ji Feng raised an eyebrow, "What kind of car can be modified so intelligently? Watch this"

Chapter 764

Buzz~~!

The black BMW x6 sped down the road, the engine emitting a low and thick roar, showing that the vehicle was fully powered.

Ji Feng's hands were placed about a dozen centimeters above the steering wheel, and with a slight flick of his wrist, the car turned on its own, and the gearshift paddles were swinging automatically, as if they were being toggled by an invisible hand, bizarre to the extreme.

Xiao Yuxuan looked at Ji Feng with dumbfounded eyes, the scene in front of them was unimaginable, it was like a dream, or it could only happen in those science fiction movies.

"You, how did you do that?" Xiao Yuxuan asked in astonishment. Her charming eyes were filled with a shocked look.

"Now you don't think my car has been modified, do you?" Ji Feng asked with a smile.

Xiao Yuxuan's trio immediately shook their heads, jokingly, what kind of modification technology could allow a person's hands to steer a car without touching the steering wheel at all?

If such technology really existed, it would have taken the world by storm, but up to now, none of them had heard of such technology, unless it was the kind of car that was fully intelligent.

But to use that kind of technology in the BMW X6 is a bit unbelievable.

The always cool and quiet Tong Lei was also full of shock, and her beautiful eyes were staring at Ji Feng, as if she also wanted to know why this was.

The first thing you need to do is to get back to your home and tell you what the hell is going on.

“Little rascal, you’re trying to sell a story again?!” Xiao Yuxuan’s beautiful eyes glared at him and said unhappily.

Ji Feng shook his head slightly and waved his hand and laughed, “Don’t scare me, it’s useless to scare me, this matter absolutely cannot be told in the car It’s better to wait until we get home.”

Just kidding!

Ji Feng knew better than anyone that this ability he was showing now was completely and extremely unbelievable in the eyes of ordinary people, a scenario that would only appear in movies or novels, and would never be seen in reality!

This, too, was something that Ji Feng needed to keep strictly secret, this was his bottom card, and he absolutely could not play it out until the last resort.

Otherwise, once others knew that he had this ability, when the time came, those who were hostile to him might specifically research restraint methods against this ability of his, and those who were just interested in this special ability, I’m afraid that the idea of taking him into the lab as a mouse would arise.

What’s more, he now had several huge enemies hiding in the shadows that could come out and deal him a fatal blow at any time.

Therefore, Ji Feng had to be prepared enough to not expose himself so easily.

Ever since his car had been fitted with a tracker and a bug, Ji Feng had been more careful and rarely talked about important matters in the car, and abilities like this one, which could manipulate or attack other objects with bio-currents, could not be talked about in the car.

Seeing the solemnity of Ji Feng’s words, Xiao Yuxuan and others realized what was going on, so they stopped this aspect of things and just talked about some of the situations in school, after all, exams were coming up soon, and Xiao Yuxuan still had to remind Ji Feng and Tong Lei that United University was not like those ordinary schools where you could pass if you failed a course by spending some money.

In the United University, unless it is really directly from the top to go through the relationship, otherwise, failing the subject is very troublesome.

It is not possible for Ji Feng to use his identity to go to the school’s leaders just because he failed an exam, right?

Even if he didn’t care about his own face, but the old Ji family couldn’t afford to lose this person.

Only, in Xiao Yuxuan’s heart, the three of them were still thinking about Ji Feng’s extraordinary performance just now, the kind of scenario that transcended the norm and could only appear in movies or novels, making them very curious in their hearts.

.....

“Little rascal, tell me honestly, how did you do that just now?”

After returning home, Xiao Yuxuan couldn't wait to drag Ji Feng to the sofa and asked after him.

Tong Lei and Xiao Ying also immediately sat on the sofa and looked at Ji Feng curiously, hoping to hear the answer from his mouth.

Ji Feng laughed, “Actually, as long as you guys catch up on your aerobics practice later, you will also make it this far.”

“What do you mean?”

Xiao Yuxuan was stunned, “Does what you just did have anything to do with bodybuilding gymnastics?”

“Of course, not only is it related, but it's also closely related!” Ji Feng nodded and laughed, “The bodybuilding gymnastics that you all practiced originated from a training system, or a training system. Only now, you have just completed the first stage, that is, you have just learned your first set of bodybuilding exercises.”

“To put it simply, the reason why I have made it this far is because I have completed the second stage of training and am currently hitting the third stage!” Ji Feng said.

“Can we do it too?” Xiao Yuxuan asked.

“Of course we can!” Ji Feng laughed, “I've come from your stage!”

“Ji Feng, you haven't said exactly how you did it!” Tong Lei asked, “The third stage of training will give you that ability to drive without touching the steering wheel?”

“Of course it's more than that!”

Ji Feng laughed dumbly as he swept a glance at the curious eyes of Tong Lei's trio before laughing, “Watch this!”

He aimed at a pillow on the sofa and slowly stretched out his hands to place them on either side of the pillow, but his hands did not touch the pillow. Immediately afterwards, as if he was taking something directly with his hands, he lifted both hands and the pillow was picked up out of thin air.

The distance between the pillow and his hand was more than ten centimeters!

Xiao Yuxuan and Tong Lei were all stunned and stared blankly at Ji Feng's hand, as if they had seen the most incredible thing in the world, almost unable to believe their eyes.

“The third stage of training results not only allows one to drive without using both hands, there are too many other functions that I haven't gotten started with, even now!” Ji Feng said, with a violent flick of his wrist.

Bang!

The pillow in his hand instantly flew up, as if it had been thrown up vigorously.

Pop! The pillow landed on the sofa once again.

“This” This time, not only Xiao Yuxuan, but even Tong Lei, who had always been cool, could not help but be stunned and bewildered, looking at the pillow that landed on the sofa in a daze, her beautiful eyes filled with disbelief.

“What I showed you before can be called the ability to take things from space, and now, it’s the ability to attack!” Ji Feng said, “There are many other functions, I just don’t know them yet. As long as you practice hard, in a year or two at most, you will be able to achieve the effect I have now!”

“Can, can you?” Xiao Yuxuan was so shocked that she couldn’t even speak properly.

“Of course you can.” Ji Feng laughed, “When you guys are usually practicing body building exercises, do you feel a hot current in your body?”

Xiao Yuxuan immediately nodded her head and said, “That’s right, you said that was the bio-current in one’s body.”

“That’s it!”

Ji Feng nodded, “Everything I did just now was by the power of bio-current. And practicing body-building exercises is currently the best way for you to exercise bio-current.”

“Really?!” Xiao Yuxuan and Tong Lei asked in surprise.

“If you practice to a certain point, even if those advanced transformers come, they won’t be able to withstand three or two attacks from you!”

Seeing Ji Feng nodding, the two girls were immediately overjoyed, excitement and thrill written all over their pretty faces, the various abilities Ji Feng had shown were just too amazing. More importantly, if they also possessed powerful attacks, they could protect themselves and even help Ji Feng when facing strong enemies.

This, was what made them feel most happy!

“So that’s why, grab the time to practice body building exercises, the benefits will grow!” Ji Feng laughed.

However, to his surprise, Xiao Yuxuan and Tong Lei were not so excited, instead, their pretty faces were slightly red at the same time, and Xiao Yuxuan even gave Ji Feng a white glance.

What?

Ji Feng couldn’t help but be stunned, did he say something wrong?

But when he saw the shy look of Xiao Yuxuan’s two women, he was dumbfounded, so this is what happened

Ji Feng finally understood, in the past, when the two women were practicing gymnastics, they were all with him, and in bed, naked and frank

No wonder they were shy, saying these things in front of Xiao Ying, they must have thought they were taking the opportunity to flirt.

“Ahem

Seeing Xiao Ying’s puzzled look, Ji Feng couldn’t help but cough lightly, “Xiao Ying, do you want to learn aerobics?”

“Me, can I learn it too?” Little Shadow froze and asked hesitantly.

Ji Feng nodded slightly, “Of course you can, however, you have to promise that you can’t teach it to others at will.”

“I promise!” Little Shadow immediately said without hesitation.

“Good then, let Yu Xuan and Lei Lei teach it to you” Ji Feng laughed. This first set of body-building exercises was not a little difficult for ordinary people, and more importantly, there were many difficult movements in it, and the posture seemed a little indecent, and Xiao Ying was a girl, so it was naturally not good for Ji Feng to teach it to her.

Therefore, it would be perfect for Xiao Yuxuan and Tong Lei to teach her.

“Xiao Ying, don’t pay attention to him.” Xiao Yuxuan pursed her lips, gave Ji Feng a white glance, pulled Xiao Ying’s hand and said, “Go! Let’s go upstairs, Lei Lei and I will teach you.”

Ji Feng laughed and didn’t say anything more.

In his heart, he was secretly relieved, he really couldn’t have imagined that the third stage of this training system would be so effective, the mere fact that the bio-current could leave the body was enough to make Ji Feng overjoyed, one could even say that he was pleasantly surprised.

Because with this bio-current means of attack, Ji Feng believed that his combat power had at least doubled, and now if he were to face that senior reformer again, he could definitely knock his opponent down and render him defenceless within ten moves!

More importantly, if Xiao Yuxuan and Tong Lei continued to practice, they would definitely possess extraordinary strength, and then very few people would be able to hurt them anymore, and that was what Ji Feng was most happy about.

“Ding

The phone suddenly rang, Ji Feng jerked back to his senses and took out the phone, only to find that it was Xu Yuan calling, he picked up the phone

Chapter 765

“Boss, there’s something I need to report to you.”

Ji Feng had just picked up the phone when Xu Yuan’s distinctive charming female voice came over the receiver, “I received an invitation from General Manager Zhou of Shengshi Group, and I’m going to make a trip to Hangzhou, Jiangsu Province next week.”

“General Manager Zhou?”

Ji Feng was stunned and quickly responded, "You're talking about Fei Fei Zhou? What did she invite you for?"

Only a week or so ago, Fei Fei Zhou had come to Jiangzhou and asked to establish a partnership with Xiao's Pharmaceutical Factory to take the agency rights of Kang Yuan Slim Powder in Jiangsu and Zhejiang, and Ji Feng had agreed to it. Now she has invited Fei Fei Zhou to Jiangzhe, what's the purpose?

"President Zhou said that one of her clients will be coming to the mainland from Taiwan next week and may have the intention to cooperate with us. So President Zhou intends to let us make initial contact after her client arrives." Xu Yuan said softly, "I think this should be an opportunity for our products to break into the Taiwanese market and would like to go over there to take a look."

"What client in Taiwan?" Ji Feng frowned slightly, he didn't expect that Xiao's Pharmaceutical Factory would actually deal with Taiwanese companies one day, after all, now that Kang Yuan's slimming powder hadn't been thoroughly promoted in the country, he hadn't thought that the slimming powder would go to Taiwan or the international market.

"According to Mr. Zhou, it should be the Pioneer Pharmaceutical Group in Taiwan." Xu Yuan was worried that Ji Feng was not familiar with it and explained in detail, "Boss, I checked the information of Pioneer Pharmaceutical Group, it is a very strong enterprise with annual sales of billions, not only is it very significant in Taiwan, it also has quite extensive sales channels in the international arena."

Billions

Ji Feng just couldn't help but be staggered, this is really a behemoth, just the turnover is billions, the profit that Pioneer Pharmaceutical Group ends up with must be at least hundreds of millions or even billions!

"Going to Jiangsu and Zhejiang in a week is it?" Ji Feng asked.

"Yes, Mr. Zhou said that one of the vice presidents of the Pioneer Pharmaceutical Group will arrive next week." Xu Yuan said.

Ji Feng pondered slightly for a moment, then nodded and said, "No problem, how about this, I can definitely finish my exams in a week, then if there's enough time, we'll go to Hangzhou together."

"That would be great." Xu Yuan said immediately.

After hanging up the phone, Ji Feng couldn't help but rub his chin and secretly muttered, "This Zhou Fei Fei, when did she become so nice? To think that she is still bent on pulling business for Xiao's Pharmaceutical Factory, what is she up to?"

Ji Feng felt a little unsteady, this Zhou Fei Fei first came all the way to Jiangzhou to talk to Xiao Pharmaceutical Factory about cooperation, and now she's helping to pull business, isn't she a little overzealous?

You know, Zhou Fei Fei's only brother, Zhou Shilin, is still in prison.

And the person who sent Zhou Shilin to prison was Ji Feng.

Although Ji Feng did not personally take action in Zhou Shilin's incident, he was the one who started it, and with him exerting pressure, it was lucky that Zhou Shilin did not have to pay for his life.

Under such circumstances, Zhou Fei Fei was actually still so enthusiastic, and Ji Feng had to think more. Therefore, to be on the safe side, he still decided to try to find time to go to Hangzhou with Xu Yuan, so that if anything happened, Xu Yuan wouldn't have to be on her hands and knees.

Even though the possibility was slim, it had to be guarded against.

After experiencing so many things, Ji Feng's vigilance had been completely raised to its peak.

"Could it be that Zhou Fei Fei is really just doing this out of the goodness of her heart?"

Thinking about the meeting with Fei Fei Zhou more than a week ago, Ji Feng couldn't help but shake his head slightly, who knew what this woman was up to.

Stomp stomp stomp

A sound of footsteps suddenly came from upstairs, Ji Feng immediately came back to his senses and looked up, he saw Xiao Yuxuan was putting on her jacket while quickly going downstairs, with a hurried look.

"What's wrong?" Ji Feng immediately asked.

"The head of the department called just now, saying that there was some kind of emergency meeting, and all teachers who knew the Boundary Tent language had to attend." Xiao Yuxuan said as she walked outside.

Ji Feng was stunned, "Do you know the Boundary Tent language?"

"You forgot" Xiao Yuxuan smiled sweetly, "Wasn't my second foreign language in college the Boundary Tent language?"

"....."

Ji Feng couldn't help but lose his smile: "That's true, our family Yu Xuan big beauty, or a multi-talented and talented girl, this is a double talent!"

"Don't be poor, you stay home with Lei Lei and Xiao Ying, I'll go to school first, don't wait for me for lunch." Xiao Yuxuan said and was about to go out, but was stopped by Ji Feng.

"Yu Xuan, wait for a moment, I will accompany you!" Ji Feng said immediately. He casually picked up the jacket on the sofa, took two quick steps to Xiao Yuxuan and smiled, "There's nothing to do at home with nothing to do anyway, so why not go to school and read books by the way."

"What about Lei Lei!" Xiao Yuxuan asked.

"With Little Shadow protecting her, there's definitely no problem." Ji Feng said.

Little Shadow's hands were already quite good, but Xiao Yuxuan had no one to protect her if she went out alone. Since he had the ability to do so, Ji Feng would not relax in the slightest, let alone give those enemies hiding in the shadows half a chance to strike.

Xiao Yuxuan naturally understood Ji Feng's heart, she couldn't help but have a sweet heart and smiled sweetly, "Go and explain to Lei Lei!"

.....

"Yu Xuan, what exactly is so urgent that you don't even let people eat their meals and just call them over?" Driving, Ji Feng couldn't help but frown and ask, "And it has to be someone who knows the boundary tent language, can't it be someone who knows Chinese?"

"There are more than a billion people who know Mandarin in the whole of China, if you can, why do you have to find us!"

Xiao Yuxuan was immediately amused by him and gave him a blank look, "I heard the head of the department say on the phone that there seems to be some kind of university exchange group from the Kaitopia that has come to China with their cultural mission to conduct academic exchanges with our United University. The university is looking for those of us who know the Boundary Tent language, so I guess they want to set some kind of task!"

"Let's go back!"

Ji Feng's face suddenly sank as he pulled over to the side of the road and said in a no-nonsense manner, "I said what's going on, I dare say this is for you to be hard workers! You know Boundary Tent language, you must be doing translation for those Boundary Tent Boundary Tent people We won't do it!"

"What's your hurry!" Xiao Yuxuan said with amusement, "You hate the Boundary Cave people that much?"

"Exactly!" Ji Feng didn't hide his resentment towards the boundary tent people and immediately nodded his head and admitted, "I just hate the boundary tent people, extremely much."

"You, when did you become a cynic too?" Xiao Yuxuan pursed her lips and laughed lightly.

"Back more than a year ago, that is!" Ji Feng said in an unpleasant manner, "Do you know that a year or so ago, there was a very sensational robbery of the Yihe Building in Jiangzhou?"

"I know, what's wrong?" Xiao Yuxuan asked, somewhat puzzled.

"The one who led this incident was the boundary tent man!" Ji Feng said coldly.

"Ah?!" Xiao Yuxuan froze, she had never heard of these things, and at that time, Ji Feng had not mentioned the details of it to her, so Xiao Yuxuan had always thought that it was the work of the bandits in the country, but she had never thought that it was actually involved with the Boundary Canopy people.

"These boundary tent people, almost none of them are good!" Ji Feng said coldly.

In the initial Jardine Mansions robbery incident, the acts of those Canopy people were still fresh in Ji Feng's mind. The previous invasion of China by the Canopy could be put aside, but this Jardine Mansions incident was something that Ji Feng had personally participated in and witnessed with his own eyes.

Under such circumstances, it would be strange if he could have a good impression of the boundary tent people!

“What about it, let’s go back?” Ji Feng asked.

Xiao Yuxuan thought about it and still shook her head, seeing Ji Feng’s face sink, she immediately said, “Listen to me first, I guess this time the school is looking for us to go over, not as interpreters for those boundary tent people, but as interpreters for the school leaders, after all, when the boundary tent people come to visit China, then they must bring their own interpreters, if we don’t have an interpreter on our side, then wouldn’t we be very passive?”

Ji Feng frowned slightly and pondered for a moment before nodding and saying, “You have a point, but let’s make it clear first, if the school is asking you to translate for the canopians, you won’t go! If anyone dares to force you, I’ll do it for you!”

“Got it, my Young Master!” Xiao Yuxuan laughed lightly, “This stinky temper of yours, when will you change it!”

“Everything else can be changed, but the attitude towards the boundary tent people, I don’t think it will ever change in this lifetime.” Ji Feng hummed and restarted the car, “There’s no way for me to have a good attitude towards those boundary tent people with what they did.”

“Little guy, it’s okay for us to talk about this ourselves, if the Boundary Tent people really come, you mustn’t mess around.” Xiao Yuxuan knew that once Ji Feng’s temper came up, no one could change his decision, so she could only hasten to remind, “You yourself can not care about the repercussions, but if you have a conflict with the boundary tent people, when the time comes, will your home, not be affected?”

Ji Feng nodded slightly and said, “Don’t worry, I have a good idea of what to do.”

“I hope it really does count!” Xiao Yuxuan gave him a blank look and said helplessly. As a girlfriend, Xiao Yuxuan naturally knew Ji Feng’s temper very well, this guy usually seemed very kind and never put up a fight with others, but once he decided to do something, no one could persuade him.

For example, when he first came to the United University, he had a huge problem with his roommate, and in the end, even for his own sake, he still called the police to arrest him, but he didn’t ask those police officers to do anything more in private, just that this was still for his own sake.

You can imagine what temperament Ji Feng is, to put it nicely, this is persistent, to put it badly, that is stubborn!

◦ ◦ ◦ ◦ ◦ ◦

I received a notice from the editor that some forbidden words are to be changed out. So in the future, but wherever ‘island’ appears, it will be changed to ‘boundary tent’, ‘tw’ to ‘treasure island’, etc. I hope the brothers understand, so that it will not affect the reading.

Chapter 766

“Ji Feng, you go back first, I don’t know how long the meeting will take on my side yet!” When they reached the school, Xiao Yuxuan’s red lips tenderly slurped on Ji Feng’s face, then giggled and got out of the car.

Ji Feng suddenly smiled wickedly, stuck his head out of the car window and whispered, “Is one kiss enough? How can we have a wet kiss?”

“Little rascal, don’t make bad, want a wet kiss ah” Xiao Yuxuan smiled flirtatiously, her beautiful eyes blinked twice, “Let’s do it at night, no begging for mercy then!”

After saying that, she giggled and turned around and walked into the campus.

Looking at Xiao Yuxuan’s back, Ji Feng couldn’t help but shake his head, dumbfounded.

It had to be said that Xiao Yuxuan’s charm did not only lie in her stunning looks, but also had a flirtatious temperament that was hard to resist, which was perfectly reflected in her body.

For example, right now, she doesn’t walk with a deliberate flirtatious look at all, yet others just look like they have an irresistible flirtatiousness. Whether it was her long, straight legs or her tall figure in her white coat, it was enough to attract the attention of any normal man.

There are many women who actually walk in a way that is hard to look at. Some of them look deliberate, deliberately swaying and twisting in all sorts of ways, but the impression they give is not flirtatious, but flirtatious.

This is the kind of person who scratches his head and gestures.

There is also a kind of person who looks too small and pretentious when walking, which is very unpleasant for people to look at.

But Xiao Yuxuan is completely different, she walks, neither looks pretentious, but also very natural, completely sets off her kind of beauty and perfect body, very well, let people look really pleasing to the eye.

As she walked all the way through, Xiao Yuxuan’s figure attracted the attention of quite a few people, and there were a few guys who were piling up and were secretly talking about it, looking excited.

“Hehehe!” Ji Feng couldn’t help but smile smugly and secretly said, “It’s useless to talk about it anymore, Xiao Yuxuan is already a famous girl, so you guys will just have to watch with dry eyes”

.....

The actual fact is that you will be able to get a lot more than just a few of these.

Ji Feng parked his car in the square in front of the school’s complex, and then walked straight to the dormitory.

“Young man, wait a minute!” An old man next to him, who was about sixty years old, suddenly spoke out.

Ji Feng was immediately stunned, “Grandpa, is there something wrong?”

This old man is about sixty years old, his right arm Shanghai stay a red armband, what words written on it Ji Feng also did not pay attention to see, because he knew that this old man is the school security section, when he was young in the security section as a patrol security.

Now that he was older, the school also continued to let him stay and gave him a place to live. It was very relaxing, and was a kind of retirement in disguise.

This is something that Ji Feng appreciates, no matter how bad the school is, it is still much better than those enterprises and treats its own employees with a certain degree of humanity, which is not bad at all.

However, what did this old man want with himself?

“Young man, you’re still a student, right?” The old man asked.

“Yes.” Ji Feng nodded his head.

“Young man, the student’s car, from now on, can’t be driven to the school, it can only be parked in the parking space outside the school.” The boss said, “The teacher’s car, too, should be parked outside as much as possible.”

Ji Feng was stunned, “Why? Didn’t it used to be okay?”

“Before was before, now is different, the school has just issued a notice, it hasn’t had time to post it yet.” The boss said, “In a few days, a foreign student exchange group is coming, so the leaders want to keep the school in order.”

“.....”

Ji Feng instantly a mouthful of bad breath rose up, almost did not break into a cursing, he gritted his teeth, then held back, but his tone was still much colder: “Grandpa, he boundary tent to exchange, should be they into the countryside, respect our habits, we have to be so accommodating to them?”

As United University is a nationally renowned institution of learning, and is located in Jiangzhou, the most prosperous big city in the country, the university has allowed students to drive to school in consideration of their financial problems, except that when driving, they have to take the special lane, and cannot steal the lane with other students, once they violate the rules, they will be punished, and after a few times, they will be expelled.

So all along, although there are a lot of vehicles at the Union University, basically there have not been any accidents in the school and everyone is used to this orderly study life.

But now the boundary tent people just said they were coming, this side actually did not allow students to drive, and even the teachers are not allowed to drive their cars into the school!

“That’s not how it is, in the past, teachers and students’ cars were parked in the school and they didn’t see much order, but now that the boundary tent people are coming, it’s actually not working.” To Ji Feng’s surprise, the old man actually agreed very much with Ji Feng’s words, “But young man, this rule still has to be enforced.”

Ji Feng lost his smile, "After all this talk, the two of us are just here to have a good time, the car still has to be parked outside?"

He shook his head and laughed, took out a cigarette from his pocket and handed one to the boss, "Grandpa, take it off, it's useless for us to be angry, everything is the leader's word."

"Young man" The old man smiled and took the cigarette, looked around and said in a low voice: "Go, park your car here today, wait for the notice to come out officially, and save you from running back and forth in vain."

Ji Feng instantly laughed: "That's more than enough boss."

"Thanks for what, I also look at that boundary tent people, my grandson is not even ten years old, last time the Three Kingdoms was shown on TV, that little brat actually said that the Three Kingdoms is a game of the boundary tent, and now it is being made into a TV series by our China, how nice" You say this boundary tent people are really harmful!" The old man hummed.

Ji Feng couldn't help but stand in awe, nodded and smiled, "Grandpa, you're good!"

.....

After bidding farewell to the boss, Ji Feng's mood couldn't help but be annoyed, when did the Three Kingdoms become the boundary tent! This is really fucking

Because Du Shaofeng is in Tongzhou Road's Tengfei Network Company, Han Zhong is not sure if he is in his dorm now, and Zhao Kai lives outside, so Ji Feng did not go to his own dorm, but went straight to Zhang Lei's dorm.

When he arrived outside the dormitory, Ji Feng didn't even knock on the door before he heard a roar of laughter coming from inside.

He pushed the door in with a smile and immediately found that Zhang Lei and his three roommates were laughing and joking at the moment, not knowing what topic they had talked about, each laughing and leaning forward and backward, so happy.

"Crazy, why are you here?" Seeing Ji Feng come in, Zhang Lei immediately asked unexpectedly.

"I was bored at home and came to have some fun!" Ji Feng laughed, greeted the others one by one, casually pulled a chair to sit down and asked with a smile, "What are you guys talking about, laughing so much!"

"What else can there be? It's just that the Canopy people are coming, so let's discuss how to catch those Canopy people in advance!" Zhang Lei laughed, "In the past, we couldn't tease the teachers in the school, they were teachers after all, but this time it's different. When they come, are they going to exchange their boundary tent action movies with us?"

"Hahahaha" The other three burst into laughter again.

Ji Feng was also crying and laughing, the Boundary Tent's action films were indeed very famous, even he, who rarely watched TV and movies, had occasionally glanced at them, they were indeed very shocking and definitely not comparable to ordinary movies.

What's more, this kind of action film has become a kind of cultural industry in the world tent, and the concept of openness in this regard has also penetrated into their marrow.

It is said that if human social scientists want to study some perverted human behaviour, then they had better go to the Boundary Tent, because as we all know, in this world, the rarest and weirdest human behaviour may not happen in the Boundary Tent, but the most perverted things are certainly not uncommon in the Boundary Tent!

In the Boundary Tent, anything you can think of is bound to happen, no matter how perverse!

This is the KAI Tent, and a mecca for many horny perverts who love KAI Tent action films; it's an action film paradise. And in China, this kind of thing becomes a laughing matter for young people to talk about after tea and dinner.

So now when Zhang Lei talked about talking to the exchange group from the boundary tent and having a good time, the other three burst out laughing.

"By the way, madman, why did you remember to come to the dormitory? Where are they?" Zhang Lei asked with a smile, but did not say Xiao Yuxuan and Tong Lei's names, apparently because he was concerned that there were other people in this dormitory and it was not good to say much.

Ji Feng laughed and said, "They are all busy By the way, how did you all know that the exchange group from the boundary tent was coming?"

If Xiao Yuxuan hadn't received a phone call, Ji Feng would still know nothing about the Boundary Tent exchange group until now, so how come these guys knew so quickly?

"It was said that the cadres of the student union had called together some of the pricks in the school, as well as the heads of the various student associations, asking them not to cause any trouble during the few days that the exchange group was at Union University, especially those martial arts associations, such as Han Zhenfeng of the Martial Arts Association and Lu Weixin of the Taekwondo Association, which were all are a few of the more powerful kung fu presidents in the martial arts societies." One of Zhang Lei's roommates said with a smile.

"Bullshit!"

Another person was bristling, this guy wore a pair of black-framed glasses, had a tall, slim figure and looked very civilized, but his words weren't so polite anymore, "What warning them not to cause trouble, I heard that the people from the student council brought these presidents here to warn them not to lay a heavy hand on the exchange group of the boundary tent!"

"What does that mean?" Zhang Lei immediately asked, and Ji Feng and the others also found it very strange and couldn't help but look at him.

Chapter 767

"What else can it mean? I heard that this time, there are several project groups in the student exchange group of the boundary tent, such as some art group, some scientific research group, and some martial arts group and so on."

The student council is afraid that our school's martial arts club will get into trouble if they hit hard, so they asked the president to go there to warn them in advance."

"How do you know that?" Ji Feng asked, puzzled.

Zhang Lei laughed, "This kid Xie Zhao is a good informer, very well-informed, he knows almost everything about the school."

The gentle Xie Zhaoge laughed and said, "No, I just know more people in the school, but nothing else really. However, I do know about their meetings, one of my classmates from high school is in the student council, so I can know some of the news in advance."

"In that case, did the people in the student council really warn those presidents to stay out of trouble?" Ji Feng asked with a smile.

"Yes."

Xie Zhaoge nodded and said, "In fact, not only did they warn them not to cause trouble, I heard from that classmate of mine that ah, this time the boundary tent exchange group came to our school with the purpose of exchange and sparring, among the martial arts societies, there will definitely be sparring and exchange as well, so the people from the student council asked those martial arts societies to be courteous and on point when the time comes. "

"Then what is this exchange?!" A boy asked in amusement, "Then why don't we just let all the students from our school, stand there and just wait for the students from the boundary tent to come and fight, what's the point of a sparring session!"

"Then it wouldn't be called an exchange, it would be called a beating!" Zhang Lei snorted, "It just so happens that I've been practicing a few moves with the Martial Arts Association recently, so hopefully I'll be able to go up on stage and show off a few moves when the time comes."

"Hey, hey, I'm afraid it won't be your turn to go on stage then!" Xie Zhao laughed, "Anyone who can go on stage is probably arranged by the school, ordinary students like us, or those who haven't had any contact with the school leaders, they don't see us for one thing, and they want to make sure there won't be any accidents, so they definitely can't let us go on stage like this!"

"I'm just going through the motions too." Zhang Lei hemmed and hawed.

When the exchange group from the Boundary Tent came over, even if the leaders in the school allowed for anyone who was interested to be allowed on the field, it wasn't just anyone.

Since the Boundary Tent's student exchange group dared to come over, the people who came would definitely not be some kind of rice bucket idiots or other guys, unless they came to disgrace themselves. So anyone who was sane could think that the people who came over from the Boundary Tent would definitely all be elites.

Although Zhang Lei had practiced bodybuilding for some time, but for those who had practiced no martial arts for who knows how long, it should not be enough, Zhang Lei naturally would not go up there to make himself look bad.

If he loses, he will not be the only one to be ridiculed, the story will definitely reach Yanjing, and Zhang Lei's parents and family will not have a good face.

Although Zhang Lei had a tough personality, he was not without self-awareness and would not act recklessly.

"However, the madman can go on!" Zhang Lei suddenly thought of it and looked at Ji Feng, "Crazy, ever thought of showing two hands to that boundary tent bastard? I can guarantee that if you show your hand, you will definitely shock those bastards out of their wits, and then it will be considered as giving our school a face, don't you think so?"

Ji Feng shook his head and laughed, "I'm not on it either, since the school has already arranged it, then at most we'll just follow to see the fun, I think the school is doing this for safety's sake, to the extent that there's no excuse for it."

"That's true!" Zhang Lei nodded slightly, "After all, this is our home turf, if the two sides really clash, these tens of thousands of people in our school, just one mouthful of spittle alone would be enough to drown those boundary tent bastards."

"Forget it, let's wait and see what happens, hopefully the boundary tent bastards from that small boundary tent will also know that we are letting them in and not going too far, so that everyone can live with their faces." Xie Zhao laughed, "Otherwise, if the boundary tent people go too far and the school still presses us, then all the school leaders will have to take the blame this time!"

"As long as they dare to press us, then it means that they are not afraid of carrying a scolding at all." Zhang Lei laughed, "However, if the boundary tent bastards go too far, I believe that no matter how much the school presses, they may not be able to hold it down."

"Let's not talk about that, let's talk about something else, so what, there's no class now anyway The first thing you need to do is to download a Boundary Tent action movie, so we can all enjoy the Boundary Tent's national culture and get familiar with it in advance, so that we don't have to wait for the Boundary Tent exchange group to come, but we'll still be in the dark!" A boy laughed.

Pfft...!

Ji Feng and the others instantly burst out laughing.

In the end, Ji Feng didn't stay and didn't know if those guys were watching the Boundary Tent action movie or not, anyway, he went straight to the square in front of the complex and drove the car directly to the entrance of the school and waited for Xiao Yuxuan.

After listening to the words of Xie Zhaoxuan and the other people who were watching the car, Ji Feng really wasn't half interested in this time when the boundary tent exchange group came to the United University.

Martial arts societies are pressed, can't cause trouble, the exchange can't be even more casual, have to ensure that both sides have to face, Ji Feng guessed that when the time comes to watch the lively, may not even be able to follow the uproar This kind of exchange, watching is really no meaning at all, it is better to go home and read a book, sleep when you are clear, than to come to watch this what bullshit exchange is 10,000 times better.

“It’s better to think about what Zhou Fei Fei really wants!” Ji Feng sat in the car, flattening the backrest and laying with his hands behind his head halfway, secretly pondering.

Zhou Fei Fei’s behavior did make Ji Feng a bit puzzled.

If it is said that she is looking at the huge market potential of Kang Yuan slimming powder, so she personally came to Jiangzhou to discuss with himself, this can also make sense, after all, mosquitoes are still meat, and moreover, Kang Yuan slimming powder is not mosquito meat, this is definitely a piece of fat meat.

But, Zhou Fei Fei is so enthusiastic to pull business for Xiao’s pharmaceutical factory, which really makes Ji Feng a bit puzzled.

“Could it be that she is trying to repair the relationship with herself?” Ji Feng frowned slightly, this should not be very likely, to know that the current Zhou family is more or less connected to the He family, it’s just a difference between far and near.

Under such circumstances, what Fei Fei Zhou did was indeed very puzzling to Ji Feng.

“Forget it, it’s useless no matter how one speculates now, it’s better to wait until we get to Hangzhou and then observe more!” Ji Feng smiled blandly: “If Zhou Fei Fei has any other ideas, the fox’s tail will always reveal itself after a long time. If she is trying to mend her relationship with herself, that is naturally better. But if not

“Ding

The phone suddenly rang, Ji Feng immediately took out the phone and found that it was Xiao Yuxuan calling.

“Yu Xuan, have you finished your meeting?” Ji Feng picked up the phone and asked with a smile.

“Yes, finally finished the meeting, just came out from the conference room, where are you?” The Xiao Yuxuan on the phone also had a feeling of relief, it looked like she had been tossed around by this meeting.

“Don’t move there, I’m going to pick you up.” Ji Feng hung up the phone, immediately sat up and started the car to rush towards the office building.

Who knew that Ji Feng had just driven to enter the gate when he was stopped by a security guard.

Ji Feng pointed at the pass stuck on the windscreen and laughed, “Blinky, right?”

“Sorry, even if you have a pass now, it won’t work, the notice from above just came, student cars can’t enter the campus anymore.” The guard smiled, “Cooperate, and save us the embarrassment.”

“How efficient, it’s the first time I’ve seen such high efficiency!” Ji Feng couldn’t help but give a thumbs up and said sarcastically.

The security guard laughed and didn’t say much. They all knew very well that students who were able to drive into the school were those with wealthy families or backgrounds, and such people, it was fine to

stop them according to the school's rules, but if they were to fight with them and anger them, it would be more than worth it.

What's more, he could also hear that Ji Feng's words were not directed at him, but at the school's leaders sarcastically, so he naturally would not ask more questions.

Ji Feng cooperated by reversing the car and parked it at the roadside, then he called Xiao Yuxuan, now the car could not enter the school gate, so he had to ask her to walk over.

But after calling for a long time, no one had answered.

"What's going on?" Ji Feng frowned slightly, he simply got out of the car and walked directly towards the office building.

From the gate to the office building still needs a distance, in order to prevent Xiao Yuxuan and himself walked not the same road, Ji Feng walking speed is extremely fast, just a short five or six minutes, can already see the office building.

Soon, Ji Feng saw Xiao Yuxuan, who was standing at the bottom of the steps of the office building, and by her side, there was a middle-aged man, who was saying something to her.

Ji Feng hesitated for a moment, the man was dressed formally and looked like a teacher or leader of the school. He was not afraid of the leader, but he was worried that the two of them were now talking about work-related matters, and if he went over, he would disturb them.

Therefore, Ji Feng subconsciously slowed down his steps and walked in the direction of Xiao Yuxuan without hurrying.

But soon, Ji Feng suddenly accelerated his steps, because he saw that while talking, Xiao Yuxuan's face had a somewhat impatient expression, and also looked out this way from time to time, as if she was waiting for herself, only because the distance was still a bit far, plus she didn't drive over, so she didn't notice.

But one thing Ji Feng was sure of, Xiao Yuxuan didn't like talking to this middle-aged man, there was no doubt about it!

Chapter 768

The middle-aged man who was talking with Xiao Yuxuan was about fifty years old and not very tall, not even a hundred and seventy centimetres, and not even a little taller than Xiao Yuxuan in front of him.

This man was wearing a suit with a black coat on the outside and shiny leather shoes, but his body was already blessed and his beer belly was quite obvious, making him look quite spoiled, but despite this, he still looked a bit like a leader or a teacher.

At this moment, this middle-aged man's face was wearing a strong smile as he spoke to Xiao Yuxuan from time to time, his gaze unobtrusively sweeping over Xiao Yuxuan's body, but Ji Feng could clearly see that every time this middle-aged man's gaze swept over Xiao Yuxuan's body, a hint of imperceptible lust would flash in his eyes.

Could it be that this kind of man was an old pervert?

Ji Feng couldn't help but frown slightly.

Seeing that Xiao Yuxuan was somewhat impatient and looked out from time to time, Ji Feng immediately no longer hesitated half-heartedly and immediately stepped forward quickly.

"Ahem"

Ji Feng cleared his throat and immediately drew the attention of the middle-aged man and Xiao Yuxuan both, he smiled, "Teacher Xiao, you said you wanted to tutor me in my homework, do you have time now?"

The middle-aged man's face suddenly pulled down and he said in a deep voice, "You student, why are you so blind, can't you see that I am talking to Teacher Xiao about something? You are so presumptuous to come over, is your homework more important than the leader's business?!"

"What?!"

Ji Feng was stunned and looked at the middle-aged man with incomparable surprise and frowned, "What did you just say? Your matter is more important than my homework?!"

"What kind of tone is that! Did I say something wrong?" The middle-aged man's face instantly sank as he coldly snorted, "Now you leave immediately! I will not hold you responsible, or else Hmph!"

"Hum your sister!" Ji Feng snorted at once, but in his heart, he was annoyed to the extreme and sneered, "What a leader, what a good leader! You're really shameless!"

"What did you say?!" The middle-aged man's face turned green with anger when he heard that Ji Feng actually opened his mouth to curse, he glared at Ji Feng and said through gritted teeth, "Say it again if you have the guts!"

"Say it twice or three times again, listen carefully, I said Hum your sister!" Ji Feng said disdainfully, "You count as a fart, the food you eat, the salary you get, the clothes you wear, the house you live in Which one of them is not from the students' tuition fees? How the fuck do you dare to say that your business is more important than the students' homework, how can you still lick your face and say these things? Your language was taught by a maths teacher, right?!"

In fact, originally, with Ji Feng's temper, when he encountered such a little thing, he would usually just laugh it off or simply ignore it. However, ever since he met that woman who didn't know how high the sky was when he dined with He Hongwei and Zhou Fei Fei at the Taste and Fragrance Residence on Jinling Road some time ago, Ji Feng's mentality had changed.

Especially when he saw that woman's arrogant, domineering and unbearably disgusting posture, Ji Feng simply hated her gnashing of teeth, how could such a person be worthy of being a teacher!

Just now, when he heard that the boundary tent exchange group was coming, the school actually started to restrict this and that, the students could not do this and that, this kind of behaviour already made Ji Feng extremely disgusted. Now, when he saw the teacher in front of him who had said such bullshit, the irritation in his heart immediately rose up in a raging manner, and he could barely control it.

This kind of people, they all grew up eating shit, right?

"If you look at it from my point of view, your brain is not brain matter, but shit!" Ji Feng pointed at the middle-aged man and laughed coldly, "Now, get the hell out of my sight immediately, don't let me see you and save my eyes from getting dirty!"

"Ji Feng, stop talking!" Xiao Yuxuan was startled when she saw the situation, when did Ji Feng's temper become so irritable?

She hurriedly apologized to the middle-aged man, "Principal Gao, you must not take it personally, he is still a student and doesn't know the importance"

Seeing the middle-aged man's increasingly gloomy face, she didn't know what to say, so she had to stop talking.

"You, you"

The middle-aged man pointed at Ji Feng, his lips were trembling with anger, he couldn't even speak clearly, "You, you are simply bastard!"

"Asshole your mother!"

Once again, Ji Feng couldn't help but burst out a foul mouth and said through gritted teeth, "Remember, in front of Laozi, you don't have to pretend to be a fucking leader, for a dog like you, it doesn't mean shit in my eyes!"

He pulled up Xiao Yuxuan's hand, "Teacher Xiao, let's go!"

"You, stop right there!" The middle-aged man shouted at once.

Swish!

Ji Feng snapped back, a chill in his eyes, "What, what else do you want to do?!"

The moment Ji Feng turned around and shot his gaze, the middle-aged man, Principal Gao's heart suddenly thumped, and a bone chilling feeling rose from the end of his spine and began to rise rapidly, exploding in his head and other parts of his body at once.

Being stared at by Ji Feng's cold, icy gaze, Principal Gao felt as if his entire body was enveloped in a cave of ice, and his heart felt as if it had been viciously grabbed, making it a little difficult for him to breathe.

This kind of gaze made him shiver slightly in this instant, and the anger that wanted to burst out was instantly doused by Ji Feng's cold eyes, without even a spark left.

Ji Feng raised his hand and pointed at him, before pulling Xiao Yuxuan away with big steps.

"Huffing and puffing" Looking at the back of Xiao Yuxuan and Ji Feng, this middle-aged man, Principal Gao, was furious, his face was blue, and he was panting violently, but he couldn't say a word.

A gust of wind blew by, Principal Gao suddenly felt a chill on his back, and he realized that his back was actually soaked with cold sweat!

"This student's eyes" Headmaster Gao couldn't go on, how could he not be willing to admit that he was actually scared by the look in a student's eyes.

“Bastard!”

Headmaster Gao gritted his teeth and cursed in a low voice, “Damn it!”

He wanted to call Ji Feng and ask him which major and which class he was from, but, in his heart, he was vaguely afraid to do so, and in the end, until Ji Feng and Xiao Yuxuan’s backs disappeared around the corner of the complex in front of him, Principal Gao didn’t dare to say anything.

“I must ask Xiao Yuxuan later, which class this bastard student is from, dare to insult the headmaster, I must expel him!” Headmaster Gao gritted his teeth and said secretly.

.....

At this moment, Ji Feng and Xiao Yuxuan naturally did not know that Principal Gao was furious and equally frightened.

Now that the two of them are walking down the road, Xiao Yuxuan is complaining in a low voice: “Ji Feng, what’s wrong with you today, how come you have such a big temper! You actually dare to point at Principal Gao’s nose and scold him, aren’t you afraid of being disciplined!”

Ji Feng shook his head slightly and said, “I don’t know why, what I hate most is those who take other people’s money but don’t do anything. Those who are teachers, who are paid a salary, are trying every way to make more money from their students, and those who are doctors are likewise trying every way to make money from their patients If they were just raking in money, that would be fine, after all, anyone who wants to make money doesn’t mind their money!”

“Then what is it that you hate?” Xiao Yuxuan asked.

“What I hate the most is that after making money, these bastards still don’t do anything! What’s the difference between this and those bandits, damn it?” Ji Feng said angrily, “No, there’s still a difference between them and robbers, at least robbers can’t rob so openly or gain a foothold in society so carelessly, but they’re different.”

He pointed to the surrounding school buildings and sneered, “Look at these buildings, these edifices, those human-like things, they always think they are the ones who dominate and master this place, which is nothing really, after all, everyone has been used to it long ago. But you can’t just take the money and not do anything, can you? Look at these people, all of them are eating human food and shit, not something!”

Xiao Yuxuan could not help but be silent, what Ji Feng said these are real, and it is not a very isolated phenomenon, the vast majority are like this now, although there are also a large proportion of teachers who are sincere for the students, but those leaders

“Forget it, don’t talk about this, it’s upsetting to watch but powerless to change.” Ji Feng shook his head slightly, “Just don’t let me see it

“Don’t think about it if you’re upset, wait until you have the ability to change these, then go bother God!” Xiao Yuxuan saw Ji Feng’s tightly frowning brow, her heart was slightly moved with tenderness, and she squeezed Ji Feng’s hand. She could not help Ji Feng in this regard, so she could only try to comfort him and give him as much support as she could.

“Don’t worry, I’ll be fine!” Ji Feng smiled faintly, “Let’s go, since we’re done with the meeting, let’s go home.”

Xiao Yuxuan gave him a blank look, “I haven’t eaten yet.”

Ji Feng harrumphed, “I haven’t eaten yet either, why don’t we just find a place to eat first.”

On the way to find a restaurant by car, Ji Feng suddenly asked, “Yu Xuan, that bullshit Principal Gao just now, who exactly is he? How come I haven’t heard of a Principal Gao in the school before?”

“His name is Gao Dazong, he is the deputy secretary of the party committee of the Foreign Language Institute, a vice-principal with no real power in the school, just a name.” Xiao Yuxuan explained.

Ji Feng couldn’t help but hum, “Just this kind of person is also able to become the headmaster? I feel that there’s something wrong with the way he looks at you, there’s no guarantee that this guy is up to no good, you should guard against him in the future and not get too close to him.”

“You, really, what are you talking nonsense about, don’t always think so badly of others.” Xiao Yuxuan gave him a white look and pouted, “Now that we’re like this, what are you still unsure about?”

Ji Feng hummed, “I’m not uneasy about you, I’m uneasy about that Gao Dasong, just now I saw that when he was looking at you, his gaze was very strange and full of lust, this kind of person, one can’t help but guard against.”

Chapter 769

Ji Feng hummed, “I’m not uneasy about you, I’m uneasy about that Gao Dasong, just now I saw that when he was looking at you, his gaze was very strange and full of lust, this kind of person, one can’t help but guard against.”

“How can people say that they are also the headmaster, which is not as bad as you say, don’t always think too badly of people!” Xiao Yuxuan pursed her lips and laughed lightly.

Ji Feng shook his head slightly and hummed, “I’m just reminding you, otherwise, it will be too late when you suffer.”

“Just talk nonsense!”

Xiao Yuxuan pouted, “He and I are only in contact at work, other times we only see each other once a week on Monday mornings during meetings, so what’s there to guard against? You, just put your heart into your stomach, I know what to do!”

“I’m just afraid that you won’t be able to wipe your face then and will fall for someone else’s trick!” Ji Feng said with a smile, while his eyes scanned both sides of the road, hoping he could find a suitable restaurant.

“You think I’m really as stupid as you think I am, huh?” Xiao Yuxuan couldn’t help but give him a white look and pouted, “I’m usually silly, and that’s only because I’m in front of you. If it was to someone else, I definitely wouldn’t be so silly!”

“Hehe

Ji Feng couldn't help but be happy at once, but his heart was warm, he knew that Xiao Yuxuan was right, it was only when facing himself that Xiao Yuxuan would act silly, after all, there was no need for two people to get along, there was no need to be so shrewd.

There is a saying, home, is not a place for reasoning, it's about love!

"Ee? That Sichuan restaurant in front of us is good, let's go there to eat." Xiao Yuxuan suddenly pointed to a small restaurant on the right and said.

Ji Feng was not driving fast, once he heard that, he immediately stopped the car at the roadside and frowned, "You can eat spicy food? Aren't you afraid of catching fire?"

Xiao Yuxuan pursed her lips and smiled, "Do I get hot?"

"....."

Ji Feng could only look at her speechlessly, and only after a long time did he say helplessly, "Even though you have completed the first set of body-building exercises, and your body has produced a not weak bio-current, you can't be so emboldened, right?"

"It's not because the effect of the body-building exercises you taught me is so amazing!" Xiao Yuxuan smiled sweetly, "Hurry up and get off, if it's any later, we'll have to eat dinner."

Ji Feng shook his head and smiled bitterly, parked the car in the parking space in front of the Sichuan Cuisine Restaurant, and walked in with Xiao Yuxuan.

In fact, the reason why Xiao Yuxuan had such strong confidence was because of an unexpected discovery she and Tong Lei had made.

After nearly a year of persistent practice, the two women had, by chance, one day suddenly noticed that each other's skin was surprisingly much better than before, because the two women's skin was already fair and tender, so the change in their skin was not and they did not notice it.

But once because Ji Feng tossed them too late the night before, it was a little too late to go to work the next day, so Xiao Yuxuan went to work in a hurry, not even having time to put on makeup.

As a result, after coming back at night, Tong Lei unintentionally praised Xiao Yuxuan for her natural makeup, which was really good.

Xiao Yuxuan was stunned to discover that she could actually achieve the same effect as wearing light make-up without make-up!

Then, both women discovered that their skin had changed dramatically, becoming more radiant than before, a discovery that made them both overjoyed.

They found that their bodies, which used to get seriously inflamed when they stayed up late or ate too much spicy food, were now not bothered at all.

The reason why they practice gymnastics is that they just want to be physically healthy, but they haven't thought about anything else.

But the gymnastics had such a miraculous effect on skin whitening that Xiao Yuxuan and Tong Lei couldn't sit still, and their enthusiasm for practising was really high.

"No matter how beautiful a woman is, she is so attached to her skin and appearance." Ji Feng couldn't help but shake his head and smile bitterly, "For women, looks are the most attractive thing!"

For many women, meals can be eaten for a few less meals, but beauty and charm are things that cannot be lost no matter what, because in their opinion, these are the most important things.

Two days later, the final exams for the first semester of sophomore year, officially arrived.

The courses that Ji Feng studied were not many, and according to the schedule of the exams, it only took two days plus one morning for the exams of the economic management major that Ji Feng was in, to be completely finished.

At this time, the exams for other majors were also finished at about the same time. All that remained were some special course exams, such as the physics major, which required a trip to the laboratory to do experiments, allowing the teacher to watch the whole process and then mark it. Or for art subjects such as music and art, a separate exam is also required.

But when you add up the time before and after, three days are perfectly sufficient.

However, when the final exams are over, none of the students can leave the school yet, as it is not yet time for the unified school holiday, plus there are several other majors who are still taking their final exams, so there are still about four or five days between the end of the exams and the holiday.

These days also coincide with the time when the island exchange group will be conducting exchanges with United University.

.....

Early in the morning, Ji Feng habitually woke up early from his deep sleep and slightly raised his head to see the wall clock on the opposite wall, which showed that it was already six in the morning.

"I actually slept an hour longer than usual" Ji Feng could not help but shake his head and smile, and turned his head to look at the sleeping Xiao Yuxuan and Tong Lei beside him. On the delicate faces of the two women, there was still a trace of pleasure after the clouds and rain, and the bed was also a mess, showing how fierce the battle was between the three of them last night.

When the examination was over, the three of them relaxed completely, and Xiao Yuxuan and Tong Lei even hoped that Ji Feng would guide them to continue practising aerobics.

After just a few moments, the two girls' charming demeanour already made Ji Feng's fingertips twitch, and eventually he couldn't hold back any longer, holding one in his arms, he pushed the two girls down on the bed and the three of them had fun.

Seeing the two girls sound asleep, Ji Feng couldn't help but smile slightly and was about to quietly get up.

"She will be your bride" Suddenly, Zhang Yu's "For You" suddenly rang, and Ji Feng immediately frowned and hurriedly had to hang up the phone at the head of the bed.

“Who’s calling?” Xiao Yuxuan grunted and asked in a bit of a daze.

Even though she was in a daze, she knew that it was her phone ringing.

“No one, it’s the alarm clock!” Ji Feng laughed and hung up the phone straight away, not even looking at who was actually calling.

Calling so early in the morning, there must be nothing good, Ji Feng thought it was better to let Xiao Yuxuan sleep a little longer.

“Don’t lie to me!” Xiao Yuxuan’s hazy eyes stretched out a white and tender lotus root arm from under the quilt, followed Ji Feng’s arm and took the phone directly from his hand, and looked at it in a daze for a moment before the words on the screen became clearer.

“Really” Xiao Yuxuan complained discontentedly and casually put the phone under the pillow, with her arm resting on Ji Feng’s chest, she continued to sleep.

“Whose phone is it?” Ji Feng asked with a smile.

“Whose else could it be, it’s that Gao Dasong calling, calling so early in the morning and not knowing what’s urgent.” Xiao Yuxuan said with some dissatisfaction.

Ji Feng just frowned, for that Gao Dasong, he really owed him half a good feeling.

“It’s alright, since it’s not yet time to go to work, don’t pay any attention to him!” Ji Feng laughed.

Xiao Yuxuan was, however, silent, and when Ji Feng turned his head to look, he found that she had already buried her head on her shoulder and was asleep again.

Ji Feng couldn’t help but laugh silently and badly, it looked like last night had really tossed them around.

In fact, even Ji Feng felt very strange, and did not know if it was because he had practiced body-building exercises, making himself in this aspect of male and female pleasure, ability can almost be said to be somewhat outrageous, every time not to toss Xiao Yuxuan and Tong Lei for an hour or two, can not be released.

Other men would dream of being super-strong in this area, but Ji Feng is a little worried that his ability is too strong

The actual fact is that this is a little bit of a cheap statement, but it is true.

Ever since he had his first time with Xiao Yuxuan, Ji Feng found that the amount of time he could last in this regard was slowly increasing, from most of an hour before, to an hour or two now

The first time I saw it, I found that the time I could last was slowly increasing.

If that was the case, then it would not be called a strong ability, but a perversion!

“I wonder if this will change after one enters the third training stage!” Ji Feng secretly deliberated.

In fact, every time he entered the training space, Ji Feng wanted to ask the intelligent brain what was going on with this situation of his, but every time, he was a little bit unable to open his mouth, and in the end, he could only give up.

“Ah!”

Xiao Yuxuan suddenly shrieked and sat up at once, the quilt slipped off, immediately revealing a piece of white and tender skin, as well as the trembling high puffy breasts, almost shaking Ji Feng's eyes, but Xiao Yuxuan was unaware of it.

"Bad, bad, Gao Dasong called, it must be the island's exchange group arriving." Xiao Yuxuan hurriedly had to put on her clothes.

But Ji Feng badly wrapped his arm around her soft waist and pressed her under the blanket again, embracing her delicate body with a hint of fragrance, and laughed: "It's just the exchange group from the island, come on, are you the only interpreter in the school? A hundred dollars a day, the school is really generous!"

Yesterday, Xiao Yuxuan came home and said that the school had decided to give the teachers in charge of the interpreters a subsidy of one hundred yuan a day, which was not even as good as the price of cabbage for the interpreters.

The real translators, that are all paid by the hour, the school is clearly trying to use these teachers for free.

"Not really, there are several translators, but I also count as one of them, it's always a bit bad if I don't go." Xiao Yuxuan smacked Ji Feng's big hand that was making a bad move, "Stop it, hurry up and get up to take me to school!"

Chapter 770

In the end, Ji Feng still sent Xiao Yuxuan to school.

Even though in his heart Ji Feng was very unimpressed with this so-called boundary tent exchange group, but since the school had arranged it, Ji Feng didn't want Xiao Yuxuan to be criticised for such a little thing.

"Little fellow, are you a little upset?"

On the road, Xiao Yuxuan looked at Ji Feng's expressionless face and couldn't help but purse her lips and smile, "Don't be angry, this is a mission arranged by the school."

"The task arranged by the school is of course fine, but the key is that it's a bit bad to deal with the people of the boundary tent." Ji Feng hummed.

"The boundary tent people aren't all bad people." Xiao Yuxuan was amused at Ji Feng's cynical attitude, the previous Ji Feng was stable and mature, and rarely showed his anger or joy in his heart so obviously, "You don't see the Boundary Cave people that much?"

"Not only do I dislike them, I hate them very much, okay?" Ji Feng hummed, "By the way, I heard that the women of the boundary tent are all sluts and the men are all perverts, you should be careful when dealing with them, don't be taken advantage of."

"Just nonsense!" Xiao Yuxuan gave him a blank look, "How do you know that the men of the Boundary Tent are all lecherous?"

“This is something that everyone on earth knows, look at the Boundary Tent’s action movies, they are famous all over the world” Just before saying this, Ji Feng suddenly reacted and coughed dryly, “That what, I just heard, just heard.”

He secretly said, it was so close, he almost got wrapped up in her.

“Really just heard?” Xiao Yuxuan’s charming eyes looked at him with a smile, “Little guy, you’re not being honest like this, I’ve heard that all you boys must have seen those kinds of movies, right?”

“Absolutely not!” Ji Feng flatly denied it.

“Ji Feng, you can’t lie to me.” Xiao Yuxuan said.

Ji Feng said with a serious face, “How could I possibly lie to you, if I haven’t seen it, I haven’t seen it. You’re kidding!”

Snap!

Xiao Yuxuan smacked Ji Feng on the shoulder, gritted her silver teeth and said in a hateful voice: “Brat, no wonder every time you do that kind of thing, you have so many requests, so many tricks, and you want us to pose in that kind of position, so it’s all from watching the movies of the boundary tent, see if I don’t beat you to death!”

Ji Feng suddenly haha straight laugh: “wife, I’m driving, don’t make a scene”

“Then good, I do not hit you, I pinch you always okay!” Xiao Yuxuan’s hand immediately touched Ji Feng’s waist and was about to pinch down.

Ji Feng hurriedly said, “Don’t don’t, how dangerous this is, hurry up and sit down.”

Of course, Xiao Yuxuan did not really want to pinch him, she could not help but hum, “See if you dare to toss us harder in the future!”

This brat, every time he was in bed, he would think of ways to torment himself and Tong Lei.

Last night was even more outrageous, he actually made himself and Lilai, half kneeling and half lying on the bed side by side, and also raised their asses high so that he could do it from behind

When she thought of that humiliating scene, Xiao Yuxuan hated it so much that her silver teeth itched and she wanted to kick this brat, who was full of such thoughts, off the car, but remembering his strong bump and his brutal strokes The actual fact is that you can find a lot of people who have been in the business for a long time.

Ji Feng, however, was secretly relieved, fortunately he was not confused by Xiao Yuxuan and bit the bullet that he just had not seen the boundary tent action movie, otherwise, he might not know how he would punish himself.

“It’s better to hurry to school.” Ji Feng accelerated fiercely, and the BMW X6 was like an arrow that left the string and sped away.

.....

Arriving at the school, Ji Feng could only park the car in the parking space outside the school gate and enter the campus on foot with Xiao Yuxuan.

Seeing Xiao Yuxuan's still somewhat shy look, Ji Feng couldn't help but be secretly pleased that such a beauty could only be enjoyed by himself alone, a wonderful feeling that no one on the other side would ever be able to experience.

"She will be your bride" The duo had just entered the campus when Xiao Yuxuan's mobile phone rang again, she helplessly picked up the phone, "Hello, Principal Gao, I have arrived at the school and am now on my way to the office."

The voice of Vice Principal Gao Dazong came over the phone, "Miss Xiao, you don't need to go to the office now, come straight to the auditorium, the student exchange group from the boundary tent has arrived."

After hanging up the phone, Xiao Yuxuan said, "Ji Feng, I have to hurry over, do you want to come with me?"

"Better forget it." Ji Feng shook his head and laughed, "I might as well go and have some fun with Zhang Lei and the others, the boundary tent people bother me when I look at them. Especially that little moustache they have, it's like a few flies lying under their noses, it's too ugly."

Xiao Yuxuan instantly laughed lightly, "I'll go over then."

"Wait a minute!" Ji Feng suddenly called out to her and asked, "By the way, which school is the boundary tent exchange group that came to our school this time?"

"It seems to be Kyoto University." Xiao Yuxuan said, "Why are you asking this?"

"It's nothing." Ji Feng smiled, "Just casually asking, hurry up or you'll be criticized."

"It's not because of you that I'm being criticized!" Xiao Yuxuan gave him a blank look, and then hurriedly walked quickly in the direction of the auditorium.

Ji Feng, on the other hand, rubbed his chin and muttered, "Kyoto University I've heard of it, go look it up online."

Although Ji Feng was very unimpressed with the boundary tent people, but since the other party had come to the United University, it was natural to learn more about the other party, otherwise in case something happened, the most correct way to handle the situation could be taken.

Because everyone in his own dormitory had moved out, Zhao Kai and the others only came back to live during the days of the exams, and once the exams were over, they planned to move out again, so Ji Feng did not go to his own dormitory, but came directly to Zhang Lei's dormitory.

However, when he arrived at Zhang Lei's dormitory door, he found that there was actually no one here, and the dormitory door had been locked, so he had no choice but to take out his phone and dial Zhang Lei's number.

"Crazy, what's the matter with me?" With the relationship between the two of them, naturally there was no need for any courtesy, as soon as the phone was connected, Zhang Lei asked directly.

“Where are you, why is there no one in your dormitory?” Ji Feng asked.

“In the auditorium surrounding the boundary tent ghosts.”

Zhang Lei said with a big grin, “Originally we all thought that all of the canopy ghosts were crooked, but only after meeting them did we realize that we had thought wrong, you don’t say, there are really a few handsome beauties in this team of canopy people, but I don’t know if they have been treated, I think with the style of the canopy people, they start doing something at the age of 12 or 13 ****, I guess there are The actual people of the world are not really a lot of genuine goods, but it’s still quite eye-catching to look at, so just take it as an action movie.”

The first time I heard Zhang Lei’s long-winded speech, Ji Feng couldn’t help but laugh: “Kid, it looks like you’re very interested.”

“It’s good for the eyes, and I’m here to help our school, we can’t let the ghosts of the border tent overshadow our school, don’t you think?” Zhang Lei laughed, “You’re in front of our dorm now? Do you want to come along and watch?”

“Then forget it, I’m bored watching!” Ji Feng said, “That’s it, if you’re fine at noon, let’s have lunch together and we’ll talk when we see each other.”

“Alright then, I’ll continue to look at the beautiful women in the boundary canopy, hanging up!” Zhang Lei said with a heated smile.

After hanging up the phone, Ji Feng couldn’t help but shake his head and smile, this guy Zhang Lei, he really had no scruples when he spoke, and he didn’t know if he had been heard by the people of the boundary tent when he spoke, if the other party could understand Chinese, his expression would be wonderful.

Now Ji Feng had nowhere else to go, he wanted to go to the library to look at books, but now that the exams were over, the library was probably closed, so Ji Feng had to go to his dormitory.

Although Zhao Kai and the others had already moved out, the beds and bedding and other things were not taken away, so Ji Feng planned to go and sleep for a while, instead of dealing with the boundary tent people, he might as well go and sleep by himself.

On the way, Ji Feng walked leisurely, but from time to time, his eyes could see the flower baskets on both sides of the road and the red banners hanging not far away: a warm welcome to all members of the Boundary Cave Exchange Group.

The roads were cleaner, even the flowers and plants had been trimmed and made neat and tidy, and more importantly, the school was obviously not as lively as it used to be, although it looked clean, it had also become dead.

Seeing all this, his mood, which was still considered good, suddenly turned nasty.

“Humph! What a boundary canopy exchange group!” Ji Feng couldn’t help but snort coldly and immediately quickened his pace.

To Ji Feng's surprise, when he arrived at the dormitory, he found that Zhao Kai, Han Zhong and Du Shaofeng were actually all there. The three of them all had cigarettes in their mouths, and the dormitory was so full of smoke that those who didn't know thought there was a fire inside.

"Why are all three of you here?" Ji Feng was stunned, "Didn't they all move out?"

"You can come back even if you moved out!" Zhao Kai pushed his glasses and threw a cigarette over, "There's an exchange group from the boundary tent coming over today, and we all wanted to see it, so we all came over."

Ji Feng laughed, "You guys are all well-informed, if Yu Xuan hadn't gotten the call, I wouldn't have known about it."

"I'm afraid you're the only one who doesn't care about the boundary tent people's big visit."

Han Zhong laughed, "Yesterday, just after my exams, I heard a few girls chatting about how great and good the Boundary Tent is, how efficient the government departments are, and how the monks in the Boundary Tent are all particularly rich, etc. People only care about celebrities and cosmetics, and girls who think about how to get rich all the time can care about the arrival of the Boundary Tent people, but you are the only one who doesn't see anyone all day."

Ji Feng laughed and asked, "What, those girls want to marry the boundary tent people?"

"Then you can still stop people?" Zhao Kai laughed, "It's also people's freedom."

Ji Feng thought about it and nodded, "That's right, it is indeed their freedom, we are not in charge of it, that's why I don't care about this, so I don't have to be upset when I see it."
