

Campus Master 941

Chapter 941

“Given the current situation, we are at a complete economic disadvantage, which is impossible to defend against.”

Ji Zhenguo frankly admitted the shortcomings of the Ji system, “On your second master’s side, Ji Shaojun is only a small-time player who can’t afford to make any waves, so he simply can’t compete with the Rongpeng Group, while the scale of your side’s assets is too small, and that Tengfei Pharmaceutical Factory, the model is too fixed, so I’m afraid there’s no way to pull out of it, right?”

If you want to compete with the Rongpeng Group, the most important thing is to have sufficient capital, as well as a long-term and keen business strategic vision.

In this regard, Ji Zhenguo did not look favourably on a few kids like Ji Shaojun from the side line, they might be okay to make a small impact, but if they were to play a pivotal role in the big picture, it was obviously impossible.

And here, too, Ji Feng has certain limitations.

The first is the small size of the assets and the lack of funds, in addition, the Tengfei Pharmaceutical Factory now only produces special effects current and also only cooperates with the Tian Yao Group alone, the model is too fixed and cannot fight flexibly.

As for Xiao’s Pharmaceutical Factory, Ji Zhenguo was likewise concerned, but that factory’s asset size was even smaller, so there was no need to mention fighting against the Rongpeng Group!

In fact, this was also a hidden worry for Ji Zhenguo and Ji Zhenhua.

Judging from the current situation, as long as the Wu family and the Rongpeng Group make a move on the economic front, the Ji system is all set to lose!

Therefore, both Ji Zhenhua and Ji Zhenguo are prepared to contract their defences, and if this is not possible, they can only temporarily sacrifice some of their generals to preserve the strength of the whole faction. This is also a desperate measure, and Ji Zhenhua and Ji Zhenguo are also feeling very bad in their hearts.

Those cadres were all extremely capable and had been cultivated by the two brothers. If they were to be beaten down like this, or suppressed from raising their heads, it would be no small loss to the Ji Department!

Ji Feng, however, was silent, and only after a long time did he say, “Second Uncle, maybe I can try to block the Rongpeng Group, but what the outcome will be, I don’t dare to guarantee it now.”

“Oh?”

Ji Zhenguo was stunned, “You have a way to stop the Rongpeng Group?”

Ji Feng shook his head, "I just have a preliminary idea, but there are too many variables in the middle and we are at a disadvantage, so we have to take one step and see, the exact result is not easy to say right now."

"Good!"

Ji Zhenguo instantly slapped his thigh, "This one is not good enough to say, it's already rare!"

Standing at such a high level as Ji Zhenguo, he naturally understood how powerful the Rongpeng Group would be once it moved. It was precisely for this reason that he was forced to be prepared to sacrifice some of his cadres, because he anticipated that with the economic strength of the Ji Department, he was afraid that it would be difficult to deal with the Rongpeng Group's offensive.

Therefore, Ji Feng's phrase "not good enough", Ji Zhenguo naturally understood the weight of it.

The whole Ji Department is struggling to do something, but Ji Feng has a few certainty, how can this not surprise him?

Ji Zhenguo knows this nephew of his, if he is not sure, Ji Feng usually will not open his mouth indiscriminately. Therefore, now that Ji Feng had said this, it proved that he had a way to deal with the Rongpeng Group.

"Little Feng, if it's really not possible, don't force it." Ji Zhenguo didn't ask Ji Feng for a specific solution, but instead admonished, "If it really doesn't work, don't force it."

"I know." Ji Feng nodded, "If I really can't fight it, I won't do it hard, but find a way to stall the Rongpeng Group, that's for sure."

Two years later was the deadline for the replacement, as long as we could stall the Rongpeng Group for two years, for the Ji Department, it would be a victory!

Because by then, Ji Zhenhua should already be in power, and the Wu family would have to face even more pressure if they wanted to attack the Ji Department, while the Ji Department could free up their hands to deal with the Wu Department more easily!

"Good! Bravo!" Ji Zhenguo gave Ji Feng a rare pat on the shoulder, "Since you have this determination, step up your game, and if there is anything you need, I will try to satisfy you."

The battle with the Rongpeng Group, in a small way, might affect the future economic development, and in a larger way, it should affect the power comparison between the two factions, and might even affect the general situation.

Therefore, Ji Zhen Guo takes it extremely seriously.

In the game between these two factions, Ji Feng's success or failure is of vital importance.

Strictly speaking, I am afraid that the power in Ji Feng's hands has now become one of the few chips that the Ji Department has against the Wu Department economically, and it is extremely weighty!

But for Ji Feng, it all came a bit suddenly. Although he was psychologically prepared and knew that the Rongpeng Group would make some moves, so he tried to find some trouble for the Rongpeng Group as much as possible, but things still came a little too fast.

The reason is that from the words of his second uncle Ji Zhenguo, Ji Feng could hear that the small conflicts he had created between the Rongpeng Group and the Zheng family might not be able to stop the Wu family from using the Rongpeng Group to take revenge.

The Rongpeng Group could have conflicts with the Zheng Family, but if the Wu Family gave the word, the man at the helm of the Rongpeng Group would probably do what he had to do even if he was unhappy in his heart.

“If I had known this, I should have delayed the matter of Rongbao Gang for a little longer, preferably for three to five months, so that Rongpeng Group would be exhausted and we could have a little more buffer time.” Ji Feng couldn’t help but say.

“You .....” Ji Zhenguo shook his head and smiled: “What’s due will always come, even if you delay the sentencing of Rongbang’s case, the action that Rongpeng Group should have, will still come. What’s more, if you delay it for a long time, it will be criticized instead, so it’s better to just pronounce the sentence like this now.”

Ji Feng nodded and smiled, in fact, he said this just to soothe his emotions, after all, the Rongpeng Group was really too huge, and the situation on this side was not optimistic either, which brought him no small pressure.

“Second Uncle, I will do my best to do it!” Ji Feng said firmly as he held his head up.

Now that things had come to this point, if they wanted to ensure that the Ji family would not suffer any losses, they had to win this battle!

In fact, at this moment, Ji Feng still did not know that the layout of the Wu brothers and duo against him was already gradually unfolding, and the trouble he would have to face next was not small.

After the conversation with Ji Zhenguo, Ji Feng decided to go back.

But Ji Zhenguo said, “Shao Lei, you go and see Xiao Feng off, if there are any problems, you two brothers will discuss them more!”

Ji Shaolei, who had been listening to their conversation silently, nodded, realising that this time it was time for the brothers to work together sincerely.

This is the reason why Ji Zhenguo asked him to send Ji Feng out.

In fact, Ji Zhenguo has another layer of meaning, this time, it is also considered a test for Ji Feng.

The fact that there is nothing better to do now, it would be better to let Ji Feng go and give it a go, so that he can see this kind of big scene early and have an idea in his mind.

As for how Ji Feng’s future path should be arranged, it will depend on how he performs this time!

.....

After leaving the family courtyard of the municipal party committee, Ji Feng asked with a smile, "Second brother, you won't just keep sending me home like this, will you?"

"Let's find a place to sit .....", said Ji Shaolei casually, "Let's go to Spring River Moonlight Night, this club is nearby, it's not too far away and the environment is not bad."

"Good!"

Ji Feng nodded, he had been to the Spring River Moonlight Night Club a few times, and the first time he went there was because he was involved in gambling on stones for the first time, and when he met Qin Shujie, he went there to sit down.

Coincidentally, he also met Ji Shaolei there, as well as Qin Shujie's ex-husband, Zheng Haoyu.

He went there a few times later and thought it was not bad, at least it was clean.

However, mentioning Qin Shujie, Ji Feng subconsciously missed that ripe and beautiful woman a bit, and also remembered all the ambiguities with her .....

But when he thought about the fact that he already had three girlfriends around him, he could only shake his head and throw these unrealistic thoughts out of his mind. It's already troublesome enough now, one can't afford to think about it indiscriminately.

But in reality, Qin Shujie was indeed a stunningly beautiful mature woman, and would be extremely attractive to any normal man .....

About twenty minutes later, the two arrived at the Spring River Flower and Moon Night Club.

Ji Shaolei had a VIP card here, so the two of them easily opened a private room, asked for a pot of tea and sat down to slowly sip.

"San'er, are you really sure of stopping the Rong Peng Group?"

The duo drank tea for a while and lit cigarettes, then they slowly got to the point, "I don't know much about the specifics of the Rongpeng Group, but if this behemoth really makes a move, it can be extremely troublesome."

Ji Feng nodded with a bitter smile and said, "Second brother, how could I not know this? But you've also heard second uncle say that if we can't stop the Rongpeng Group, we might lose a few of our generals, and it's still our own idea, God knows which person the Rongpeng Group will target?"

"What is said is also ....." Ji Shaolei nodded slightly.

Indeed, as Ji Feng said, the Rongpeng Group had to be stopped. Otherwise, a faction that was actually routed by a private group, that would be a joke!

"So yeah, whether we're sure or not, we have to go for it!" Ji Feng said with a bitter smile.

Ji Shaolei deliberated for a moment before asking, "Then how do you plan to do it?"

"I do have an idea, but I still need everyone's joint cooperation, it's hard to rely on me alone!" Ji Feng said.

“That you can completely rest assured, I dare not say anything else, as long as it is within my ability, I can help you!” Ji Shaolei immediately patted his chest and assured, “From now on, we will work together as brothers, I don’t believe it, the two youngest members of our Ji family tied together, still can’t handle a Rongpeng Group?”

His stubborn temper came back, but this was what Ji Feng liked to see.

“With this word from you, I’m relieved.”

Ji Feng laughed: “The two of us alone won’t work, I still need to unite with others, but the most urgent task right now is for you, Second Brother!”

“What do you need?” Ji Shaolei immediately asked.

Chapter 942

“I want as much detailed information as possible about the Rongpeng Group, including how many subsidiaries there are, what industries they are involved in, what companies they have cooperation with, staffing, etc. ....” Ji Feng said, “But whatever has to do with the Rongpeng Group I want all the information!”

Ji Shaolei immediately said, “This is a bit troublesome though ..... don’t worry, I’ll do it!”

Ji Feng then smiled and nodded, he knew that what he wanted might involve the secrets of the Rongpeng Group and would probably be difficult to get, with the help of his second brother, it would be much more convenient.

“Other than that, what else do you want me to do?” Ji Shaolei asked.

“Spying!”

Ji Feng said, “Pay close attention to every move of the Rongpeng Group, it is vital for us to get first-hand information, but of course, we must not attract the attention of the Rongpeng Group!”

“This .....

Ji Shaolei couldn’t help but frown, “Frankly speaking, it’s difficult to monitor the Rongpeng Group. Because there are too many of them, maybe the actions against us, neither Rong Suyan nor the boss

Rong Peng will personally take action, just send one or two supervisory managers or something like that, it will be enough to hide it from our eyes.”

Ji Feng smiled, “That’s why I want the staffing of the Rong Peng Group, as well as the information of the subsidiaries below.”

“I understand .....” Ji Shaolei understood Ji Feng’s meaning, “Conducting surveillance in the general direction and not committing to monitoring a particular person ..... so It’s indeed much easier. Any more?”

“The rest, that’s what I’m going to be busy with.” Ji Feng smiled, “It seems that the matter of forming a group is going to be on the agenda .....”

.....

The next few days were the busiest time period for Ji Feng.

The Tengfei pharmaceutical factory is still producing smoothly, whether or not outsiders have come in the laboratory, Yi Xingchen and others have not yet found out anything, and this, too, has become a lump in Ji Feng’s heart.

But there was no good way to do it now, so he could only instruct Yi Xingchen to strengthen security and keep a tight guard.

However, in order to improve the fighting ability of Yi Xingchen and the others, Ji Feng passed on the first set of body-building exercises to them, but for the sake of secrecy, he only taught them to Yi Xingchen, Guo Tao, Yao Zhijian and Liu Zejun for the time being, as for some of the other security guards, they had to go through Yi Xingchen’s examination.

You know, if according to Shen Jingyi, this physical exercise can be a magical cultivation method that can send people all the way to the innate realm, so naturally, it cannot be taught to anyone so easily.

After doing this, Ji Feng approached Han Zhong once more to talk about his ideas in detail.

At present, since it had been established that the Rongpeng Group would definitely retaliate against the Ji Department, then, naturally, Ji Feng could not just sit back and wait for death, so it was time to start preparing for the formation of the group.

However, the formation of the group is not that simple.

The newly formed group, how to place the institutions, who can take up the big responsibility, how to equip the various departments ..... these issues, all need to be deliberated in detail, absolutely can not be done overnight, otherwise it will definitely leave the aftermath.

So, for this problem, Ji Feng had a thorough talk with Han Zhong.

For his part, Han Zhong still recommended Liang Chunhui to take over the Tengfei Pharmaceutical Factory and take over his position as general manager.

“What we lack most at the moment is talent!”

Han Zhong hit the nail on the head and pointed out the problem at hand, “In fact, forming a group is not that complicated, it’s just a matter of taking several separate companies and forming a new organisation for unified management, that’s all.”

“The problem is, how to arrange the personnel of this newly formed group, and where to find so many managers, this is a big problem.” Han Zhong said, “If we draw talents up from several companies below, of course it’s no problem, but the companies below also need people .....”

“Draw from the Tengfei Pharmaceutical Factory, and after that, recruit from the society or find a group of people from headhunters.”

Ji Feng said, “Tengfei is currently working with the Tian Yao Group alone, it is relatively stable, even if a group of personnel are drawn out, it will not cause too much impact, and the newly recruited personnel will be able to quickly adapt to the new job.”

“That’s the only way to go, but we still have a serious shortage of talent, how should this be resolved?” Han Zhong asked.

“I do have an idea!” Ji Feng said with deliberation, “For the newly formed group, you should still be the general manager, and you should step in and negotiate with several universities in Jiangzhou to bring in talents directly from them .....”

Ji Feng told Han Zhong about the ideas he had already deliberated on. This included the methods of counterpart training of talents, signing long-term contracts, sponsoring scholarships and so on, and he went over them in detail.

“That’s a good idea!”

Han Zhong instantly lit up, “Frankly speaking, there are indeed many people looking for jobs now, but there may not be many true talents, and even if they are talents, they may not be able to adapt to our positions. If we follow this method you mentioned and let them come to our company for internship from right after graduation, once they enter the workplace, they will definitely catch on quickly!”

With Han Zhong’s vision, of course he could see the benefits of Ji Feng’s approach at a glance.

Perhaps the talents directly introduced from the school were still very young at first and could not play a big role, but in two years’ time at most, these students could mature quickly from young to mature, and they would play a huge energy.

By that time, the talent the group has in reserve is definitely very considerable!

“But .....” Han Zhong frowned slightly and said, “I think, I’m afraid that our school still needs you to step in to solve the problem, with your relationship with the old headmaster, it will be better to say something at that time.”

Ji Feng smiled, “Okay! No problem, I’ll take you there then, but when negotiating, you need to come out personally, you’re the old headmaster!”

Next, the two of them had another detailed discussion on other details of forming the group. The matter of forming the group was settled.

In the following days, Ji Feng approached Xu Yuan and Yang Dezhao, as well as Xiao Yuxuan and Lin Shengping respectively, to talk about the formation of the group. Although the Changhe Pharmaceutical Company was not Ji Feng's property now, sooner or later it would be Xiao Yuxuan's asset.

Therefore, Ji Feng decided to let the Changhe Drug Company be incorporated into the newly formed group in the form of a shareholding at the market price.

This was definitely an excellent opportunity for the development of Changhe Pharmaceutical Company, and extremely beneficial to the newly formed group. This is because the companies to be merged now are none other than Xiao's Pharmaceutical Factory, Tengfei Pharmaceutical Factory, and Tengfei Network Company.

The first two companies are mainly in the pharmaceutical production, if the Changhe Pharmaceutical Company is merged into it, it will have the advantage of being close to the water, with priority sales, enough to make a qualitative leap for the Changhe Pharmaceutical Company!

In this regard, Xiao Yuxuan, after consulting her father, Xiao Changhe, nodded readily.

As for the Tengfei Network Company, Ji Feng doesn't expect to make it profitable yet, everything must be done step by step, one can't presume to eat a fat bite, that's not realistic!

.....

It can't be said that Ji Feng's character is really thunderous.

The first thing you need to do is to get a good idea of what you are getting into.

On the same day, the five companies – Tengfei Pharmaceutical Factory, Xiao Pharmaceutical Factory, Changhe Pharmaceutical Company, Tengfei Internet Company and Tengfei Venture Capital Company – held a press conference to announce their joint formation and integration into the Jiangzhou Tengfei

Group, turning them into subsidiaries of the Jiangzhou Tengfei Group from their original independent companies.

Because of the state's mandatory requirement to have at least five subsidiaries to register a group company, Ji Feng registered another venture capital company, of course, in the name of Xiao Yuxuan.

Only, this company is currently only a shell company, apart from the registered capital, and even the staff only has a few people, and is still temporary to cope with. However, this is the next step of Ji Feng's plan, the investment company must be formed.

Investment companies are still very meaningful to a group.

The establishment of the Jiangzhou Tengfei Group has attracted extremely wide attention in Jiangzhou. The most notable, of course, was because Xiao's Pharmaceutical Factory, a newcomer to the pharmaceutical world, a pharmaceutical factory that had made a name for itself on the basis of its Kang Yuan slimming powder, shining brightly with immeasurable potential, had also been merged into the Jiangzhou Tengfei Group!

This made the reporters at the conference quite puzzled, knowing that what with the Changhe Pharmaceutical Company and what with the Tengfei Network Company, they had never even heard of them before this.

And Xiao's Pharmaceutical Factory has such great potential, but it is actually willing to merge into the Jiangzhou Tengfei Group with these unheard of companies?

It was really puzzling!

However, the formation of the Jiangzhou Tengfei Group is a real fact.

At the press conference, Jiangzhou Tengfei Group revealed that the group has a registered capital of 1.5 billion and the general manager will be Han Zhong. The group is currently committed to the business and development of the pharmaceutical industry, but does not rule out the possibility of entering other industries.

This news instantly caused another uproar.

A one and a half billion dollar group was indeed a big deal.

To invest so much money in one go was not rare in Jiangzhou, but there were definitely not many!

Apart from some large multinational groups, as well as state-owned enterprises, it really wasn't often that a private enterprise was in the public eye, a group that invested fifteen billion dollars at one time.

The reporters have been privately speculating, no wonder Xiao's pharmaceutical plant agreed to be merged into Jiangzhou Tengfei Group, it turns out that this group actually has such a large sum of money, now it seems that it should be the owner of Jiangzhou Tengfei Group, paid a huge sum of money to buy Xiao's pharmaceutical plant, otherwise, some explanation does not make sense.

The reporters were very interested in the owner behind the newly formed Jiangzhou Tengfei Group and asked questions about it.

However, Han Zhong on the podium calmly changed the topic to other aspects and did not reveal anything about the owner behind the Jiangzhou Tengfei Group, only saying that he had no intention of making it public for the time being because the owner did not want to draw attention to himself.

Chapter 943

This made the journalists even more curious. The more unknown something is, the greater the interest and curiosity of people, and this time was equally no exception.

They all decided that they must dig up the boss behind this group, it was good material!

But they didn't know that whether it was Xiao's Pharmaceutical Factory or the owner of several other companies, it was the same person, Xiao Yuxuan!

The press conference had just ended, and reports about Jiangzhou Tengfei Group were already all over the place.

This was especially true on the internet.

At this point, the Tengfei Network Company, once again, played a huge role. Seizing the hype material that Xiao's Pharmaceutical Factory had actually merged into the Jiangzhou Tengfei Group, it quickly made the name of Jiangzhou Tengfei Group widely known.

And this, too, was exactly the effect that Ji Feng and others wanted to see.

After a few rounds of advertising, the name Jiangzhou Tengfei Group had truly entered the public eye.

The Jiangzhou Tengfei Group, a future commercial aircraft carrier, has also begun its maiden voyage, although it is still a small sailing ship!

.....

While the outside world was abuzz with rumors, Ji Feng was hiding at home, pondering the problems he was currently facing and his next move.

The Tengfei Group was currently set up, but in reality, the group's team was basically drawn from the Tengfei Pharmaceutical Factory, and the operation was still very raw for the time being; after all, those employees had to adapt to it, which took some time.

The candidates for several key departments, on the other hand, were carefully selected by Ji Feng in consultation with Han Zhong.

For example, for the manager of the group's finance department, Ji Feng chose Tian Nan, the accountant of the Far Xiao pharmaceutical factory.

But even so, in Ji Feng's opinion, it was still necessary to set up the Tengfei Group.

If you want to confront the Rongpeng Group, this is a necessary step to take.

You know, the establishment of a group, to the outside world, can show the group's strength and attract more talents to work in the group, at the same time, several companies have also gradually grown, and also urgently need a headquarters to carry out unified management.

What's more, if the companies were separated, they would all be too weak, whereas if they were combined into one group, they would appear to be very large.

Although this reason is somewhat bullshit, it is significant.

For example, if the Rongpeng Group rushes into the eastern region to make trouble, at this time, whether Xiao's Pharmaceutical Factory or Tengfei Pharmaceutical Factory, or several other companies, are not suitable to snipe the Rongpeng Group, just to give people the first impression, you know that certainly not the Rongpeng Group's opponent!

The local leaders will not pay attention to it?

The local leaders will not pay attention to it, but in the name of the Tengfei Group, it will be able to attract enough attention, and when the time comes, it will be easier to negotiate conditions and so on.

This may seem like a lot, but in reality, this is the truth.

And there was another factor that made the formation of the group an inevitable choice for Ji Feng, and that was the issue of funding.

If you want to confront the Rongpeng Group, you must have sufficient funds, and the several companies under Xiao Yuxuan's name, which mobilize funds from each other, are not in good standing. Now there is a unified headquarters, then you can mobilize funds at any time, extremely convenient, but also to grasp the opportunity of war, not because of slow action and defeat .....

All of these factors dictate that the Tengfei Group must be established.

However, the group is currently facing a number of problems.

The first is the lack of talent, this situation should be difficult to be completely changed in a short period of time, because this is caused by objective factors, talent is not a leaf in the ground, want to grab a handful to grab, that is to be cultivated, as well as carefully selected!

Secondly, there is the issue of funding.

Although the Tengfei Group has been established, several companies have been combined into one, and the capital has also been combined into one, and the strength has grown a lot.

But in reality, compared to the Rongpeng Group, the Tengfei Group is still just a small shrimp.

How to raise more funds is also a problem.

The last point is the group's development plan.

In the long run, this point is considered to be the most important, and Ji Feng attaches great importance to it.

How to establish a long-term effective mechanism that could ensure that the Group could develop quickly and smoothly, as well as how to deal with the attack of the Rongpeng Group at this stage, both of which, at the moment, were issues to focus on.

"Long-term planning, gathering talents in the short term ....." Ji Feng was lying on the sofa in the living room, rubbing his brow and thinking carefully about countermeasures.

On the coffee table next to him, there was a stack of books, all about management and economics, which he had borrowed from Xiao Yuxuan's textbooks!

Although Ji Feng had already founded two pharmaceutical factories with his own hands and accumulated some management experience, now, he still felt a little lacking in knowledge, far from enough to manage such a large group.

"Now it will only be hard for Han Zhong ....." Ji Feng shook his head, "Yu Xuan should also be able to help a little."

Because the Changhe Drug Company had been merged into the Tengfei Group, Xiao Yuxuan would not need to go to the company every day, leaving it to Lin Shengping to manage, and that would be enough. So she also had time to go to the headquarters of the Tengfei Group and follow Han Zhong to learn the experience and methods of managing a business.

With Xiao Ying following Xiao Yuxuan's side, Ji Feng is also more at ease with her safety issues, plus she herself is studying an MBA course, so she might really be able to help out a little.

The problem with the Tengfei Group is not something that can be solved overnight. After carefully deliberating for a long time, Ji Feng had more or less worked out a clue, but his thoughts were not too clear, so he decided to give up thinking about it for the time being and picked up a folder from the coffee table, flipping it open and reading it.

“Rong Peng Group, founded thirteen years ago, chairman Rong Peng, general manager Rong Suyan, vice president ..... group has many subsidiaries under its jurisdiction, respectively .....”

Obviously, this was a piece of information about the Rong Peng Group.

These information, are Ji Shaolei through his channels tossed several times to get, from the beginning of the abbreviated information, to later for the Rong Peng Group under each subsidiary of the boss, business conditions, business scope, etc. to carry out a detailed analysis of the information, one by one to Ji Feng’s hands.

This information was extremely interesting to Ji Feng, and it could be said that many things in it had involved the business secrets of some subsidiaries of Rongpeng Group, but Ji Shaolei still got his hands on it.

“I don’t know how he managed to get it!” Ji Feng faintly shook his head and lamented.

In fact, it wasn’t difficult to get some information. But what was difficult was that within such a short period of time, Ji Shaolei had actually gotten such a detailed and large amount of information. It could not be described as a fluke or capable.

In Ji Feng’s opinion, there were only three ways to get this information: one, directly through the power of the Ji family, to retrieve the information from official channels. Second, through some private channels, to steal the information. For example, bribing some of the staff of the Rongpeng Group, or sending commercial spies or something like that.

The third possibility was to directly use the internal guards to get the information in some kind of name!

However, Ji Feng thought that it was still the first one that was more likely.

The reason was actually very simple, although it was possible to steal information through private channels, it was absolutely impossible to steal such a complete set of information in a short period of time, so even if this move was used, the effect would be very limited.

And the use of internal guards is unlikely.

You know, just this short while ago, Rongbao just used the internal guard to try to claim the formula of Kang Yuan slimming powder, but ended up getting himself trapped instead. It was impossible for Ji Shaolei to forget this, and wasn’t it because of this aspect that the Wu family had fallen on their face?

Ji Feng believed that the second brother would not be that stupid.

Then, I’m afraid that getting this information from official channels was the only option.

From this, it could also be seen that the importance that the family now attached to this matter had also reached a certain level.

Otherwise, with Second Brother’s influence alone, it would not have been possible to use the family’s power of that magnitude. One must know that it was possible to get such a complete set of information in such a short period of time.

“It seems that not only did Second Uncle intervene in this matter, but Father must have nodded his head as well, only, he didn’t tell me about it .....” Ji Feng deliberated secretly and couldn’t help but let out a soft sigh.

The actual fact is that he is afraid that he is paying attention to his actions from time to time.

In fact, every time his father talked to Ji Feng after he returned home to Yanjing, he could hear that his father knew a lot about him, and even some things that he didn’t even care about, his father had asked about them.

Naturally, Ji Feng understood that his father’s concern for himself was actually just a different way of expressing it from his mother.

The communication between him and his mother, Xiao Sumei, was usually by phone, and every few days, Ji Feng would give his mother a call to talk about what was going on around him.

However, this was not the case with his father. Most of the time, there was a very tacit feeling between him and his father.

For example, this time, even though his father, Ji Zhenhua, had not called Ji Feng half a dozen times, let alone said a word, Ji Feng felt his father’s concern from all these signs.

And Ji Feng, then, intended to use the actual action of blocking or even defeating the Rongpeng Group as the best gift to repay his father!

For a father who is subtle and does not easily express his heart, there is nothing that can make a father feel more gratified and cheerful than his son’s glorious achievement.

Whether this father, in a high position, or in the countryside working as a farmer, the kind of care and expectation he has for his son is the same!

When a son has achieved something, when it comes to floating a big white!

Ji Feng faintly closed his eyes and said secretly in his heart, “Father, just rest assured, this time, I will hold off the Rongpeng Group no matter what .....” at all costs!”

#### Chapter 944

In the evening, Xiao Yuxuan, together with Xiao Ying, drove her red Volvo back to the villa, and saw Ji Feng lying on the sofa in the living room, concentrating on a folder and flipping through it, and on the coffee table beside him, the folder spilled all over the floor, messy and untidy.

“Little guy, Lei Lei doesn’t care about you either, dare I say you’re not cleaning this hygiene, are you?” Xiao Yuxuan gave him a blank look and bent down to clean up the folders on the floor and the coffee table, as well as the scattered papers.

She didn’t know that her posture made her buttocks, which were tightly wrapped under her jeans, sway back and forth in Ji Feng’s line of sight from time to time .....

“Pop!”

Ji Feng slapped on her round and upturned beautiful buttocks, feeling the amazing elasticity, he couldn't help but heave a smile, "Really talk me into being a big young man?"

In fact, at home Ji Feng had basically never participated in anything other than cooking, this cleaning and such, but he had never left behind.

Only, Ji Feng usually did not clean the living room and the rooms, because this indoor work was better to do, so he gave it to Xiao Yuxuan and Tong Lei, and he himself was responsible for cleaning the yard and the garage and the attic and other places, that was the most strenuous place in the whole villa.

"You bad brat ....." Xiao Yuxuan was slapped by him and her body trembled, only to feel a tingling sensation coming from her buttocks, and her legs went limp, almost not sitting on the ground at once.

Remembering that Xiao Ying was coming up behind her, Xiao Yuxuan suddenly turned red with shyness and could only give Ji Feng a fierce white glance, hurriedly moved away and quietly took a few deep breaths before calming down a little and continued to pretend as if nothing had happened and continued to clean up the folders on the floor.

Ji Feng couldn't help but heave a smile, his heart couldn't help but feel a little smug.

As her physique continues to grow, Xiao Yuxuan's sensitive physique is becoming more and more sensitive. Even if Ji Feng touches her slightly in that sensitive area, Xiao Yuxuan will have an extremely strong reaction, and when the two of them are entwined, she is becoming more and more passionate like fire.

The two of them were getting more and more passionate.

Xiao Ying pursed her lips and snickered as she slowly walked over to help Xiao Yuxuan clean up the folders on the floor, but her pretty face was slightly shy, obviously the actions of Ji Feng on Xiao Yuxuan just now had some effect on her.

This, on the other hand, was what Ji Feng wanted to see.

You know, since Xiao Ying and Han Zhen came, Ji Feng usually never had any intimate actions with Xiao Yuxuan and Tong Lei two women.

On the one hand, because of the feelings of Han Zhen and Xiao Ying, the main thing is that Xiao Yuxuan and Tong Lei can't let go in front of others, with Han Zhen and Xiao Ying in, they are more or less restrained.

What Ji Feng wants to do is to let them get used to this life as they gradually become familiar with Xiao Ying and Han Zhen.

In the future, as time went on, there might be more guards around them, and by then there couldn't be even a little bit of privacy left, could there?

In fact, Ji Feng knew that those guards were oblivious to their master's affairs.

"Yu Xuan, how is the situation in the group? You're all still adapting, right?" Ji Feng knew that there was a degree in everything, and that he had to stop at the right time, and could not be too hasty, otherwise, if he made Xiao Yuxuan feel a little humiliated it could be a botch.

So, he promptly changed the subject.

“It’s alright, it’s just that the vast majority of them are raw hands, and every employee is now familiarizing themselves with the information of the subsidiaries underneath, so it’s a bit troublesome for the group to run right now.” Xiao Yuxuan said, “The most important thing is the lack of talents, the framework of the group is established, but still is a large number of manpower.”

Ji Feng laughed: “This problem me and Han Zhong are already thinking of ways to solve it, he did not tell you?”

“Said .....

Xiao Yuxuan nodded slightly and said, “It’s to establish cooperation with various colleges and universities for the counterpart training of talents. This method is good, but distant water can’t quench a near thirst, how can the current lack of talent be solved?”

Ji Feng spread his hands irresponsibly and said, “You’re the boss of the Tengfei Group, right, of course you’re the one to worry about this matter .....

“I’ll wring you to death!” Xiao Yuxuan suddenly hated her teeth, and in a flash, she threw the folder in her hand away, and a jade hand touched Ji Feng’s waist: “I let you be so rogue, I let you be irresponsible .....

Despite feeling that Xiao Yuxuan’s force was similar to scratching, Ji Feng still cooperated by showing a grimace with bared teeth, “So what, I’m wrong, can’t I be wrong?”

“Humph!”

Xiao Yuxuan gave a delicate hum: “Just know how powerful I am, I can tell you, now the group is able to run on, but it’s also a bit barely, if it’s really like you said, to snipe the Rongpeng Group, you surely know the consequences without me saying so.”

Ji Feng nodded with a smile and said, “Hitting a stone with an egg, I know!”

He held up a document in his hand and said, “Yu Xuan, come and take a look at this document .....

Xiao Yuxuan was a bit puzzled as she took the document over and looked down and flipped through it, “This is ..... information related to Rongpeng Group?”

Ji Feng nodded and laughed, “See, there are so many subsidiaries under the Rongpeng Group, just take one out, the scale and strength is bigger than our Tengfei Group, not to mention the Rongpeng Group .....

Xiao Yuxuan naturally understood this, and she couldn’t help but ask, “Then how should we fight against the Rongpeng Group?”

The difference between the two was simply too great, not even in the same weight class, it was like, a child with a stick, going to fight an adult with a machine gun, how else could they fight?

“There’s only one way to do it – fight!” Ji Feng’s face straightened and he said firmly, “Now that things have come to this stage, I don’t have any way out, I can only fight! If I don’t fight, it’s a dead end! If I fight with them, I might have a chance of survival!”

Xiao Yuxuan couldn’t help but have a slight change in her pretty face, Ji Feng was planning to fight for his life?

Seeing her expression, Ji Feng naturally understood what she was thinking and couldn’t help but smile, “Don’t worry, I’m not going to play with them, I’m just going to do my best. Moreover, I will operate this matter, your main task now is to get familiar with the operation of the Tengfei Group as soon as possible, only when you are familiar with it can you help me, right?”

Xiao Yuxuan nodded slightly, this was all she could do now. However, leaving Ji Feng to fight alone was always a bit uncomfortable in her heart.

But it was true that she couldn’t help now, she could only get familiar with the operation of the group as soon as possible.

For Ji Feng, however, this was not the case.

This time, although there was quite some pressure against the Rongpeng Group, Ji Feng did not think that he would fail because he could not afford to lose.

If he lost, he might drag down several generals of the Ji Department, and perhaps, in turn, drag down his father, Ji Zhenhua.

Therefore, there was simply no way back for Ji Feng, there was only one way to stop the Rongpeng Group at all costs.

“Don’t worry, as long as they dare to extend their claws over, I will dare to break their claws!” Ji Feng said resoundingly, “No matter who comes over, I won’t easily admit defeat!”

Admittedly, the operation of the Tengfei Group was still very raw right now, and, those staff members who were temporarily drawn up were simply unable to take charge of their own, as their eyesight had not yet grown to a certain level.

On the other hand, those supervisors and managers of the Rongpeng Group are all veteran oilmen, and there is no comparison between the two sides, either in terms of experience or strength.

In this situation, Ji Feng must personally take action, and also unite all the forces that can be united, and only in this way is it possible to block the Rongpeng Group’s attack!

.....

Early the next morning, Ji Feng went to school with Tong Lei and Han Zhen. However, instead of going to class, he was going to see the old headmaster, Chang Yongqing, to discuss the training of talent counterparts.

Han Zhong also set off directly from his residence to meet up with Ji Feng at the school.

When he saw Ji Feng and the two of them arrive, Chang Yongqing was quite surprised, but he did not rush to ask about it. Instead, he chatted for a while before asking Ji Feng the reason for his visit.

The two of them were not in a hurry to ask questions, but after chatting for a while, he asked about Ji Feng's purpose. Ji Feng then confessed the purpose of his and Han Zhong's visit, and in passing, he also pointed out the relationship between Tengfei Group and himself. Naturally, he could see the point at a glance.

"It's a good thing!"

For Ji Feng's proposal, old principal Chang Yongqing gave a direct affirmation, "Only, there is still a certain amount of trouble in operating this matter, how do you plan to establish a cooperative relationship?"

"This is how we intend to do it, Tengfei Group's inspection targets are divided into three batches, respectively for the three batches of freshmen, sophomores and juniors and seniors graduates, the group will take out a sum of money for the talents needed and fund all their expenses during their time at the school."

When it comes to this, it is up to Han Zhong to answer, "Because the age of the school is different, so our contribution will be different, then naturally, the return for these students will also be different. Our initial plan is that for freshmen students, we will fund their training for four years, but after graduation, they will have to serve our Tengfei Group for five to eight years, with the same salary and benefits as other employees in between, but they are not allowed to jump the nest in between, or they will have to make compensation to us ....."

"And so on, sophomore and junior students, after graduation, have to serve the group for five years, and senior students, the service period is three years!" Han Zhong quickly explained, "Of course, we are not just paying out money, in between there are opportunities to go to the group for internships, as well as other training opportunities, in a word, strive to make the students become talented as soon as possible!"

"So, your training targets, and how should you choose them?" The old headmaster pondered for a moment and asked, "You know, not all students are willing to participate in such a program ....."

Chapter 945

"That's for sure, students' families are different and have different ideas too!"

Han Zhong nodded and smiled, "So, my idea is to release this news in the form of an official school announcement and let the students choose for themselves, of course, because we have limited funds, so the number of places is also limited and we won't want too many people."

"Well, that's a good idea, let the students have more autonomy!"

The old headmaster nodded and said, "However, isn't your service period too long? It's a bit long for a freshman to serve you for five to eight years after graduation!"

Han Zhong smiled, "Old Principal, you must understand that when students first graduate from school, they don't possess much talent, and the group has to spend at least one to two years training them, so five to eight years is not too long."

"So what if a student enrolls but his own talents, however, do not meet your requirements? You will likewise raise them for a few years?" The old headmaster asked again.

Next to him, Ji Feng could not help but nod his head, this was indeed a problem.

For example, if the Tengfei Group financed the training of a student, although this student had good character in school, once he went out into the society, he would not be able to adapt to the work of the Tengfei Group, and then when he signed a long-term contract, it would really be a bit troublesome.

Han Zhong laughed, "Old headmaster, we have taken this aspect into consideration, if it is those students that we expelled, we will not ask for compensation from them, the training we gave them in school before will be considered as the group's contribution to the school ....."

"Hahahaha ....." The old headmaster couldn't help but laugh, "What a contribution made, Ji Feng, Han Zhong, you two are kind of feeding back, right? The school has nurtured you, and now you are likewise thinking of coming to make a contribution to the school, not bad!"

To be able to establish this kind of partnership with a group with billions of dollars in assets and send them talents, this is definitely a very valuable opportunity for a school.

The employment rate of students will increase as a result, and some students who are good in character but from poor families won't have to rely on state loans to complete their studies, and as for the Tengfei Group, they also get talents to fill their group with a constant stream of fresh blood, which can be said to be a multi-benefit event!

"Old Principal is overly complimentary, frankly speaking, our group is also in desperate need of talents now, and with future development, more and more talents will be needed, so there is no question of who is taking advantage of this cooperation!" Han Zhong said with a smile.

Chang Yongqing then nodded his head in satisfaction, this attitude of Han Zhong was very much to his liking.

"Businessmen value profit, this is the same as always, if there is no benefit, even if you are willing to do it, you will certainly not have enough energy, so that is why it is the best choice to win-win!"

Chang Yongqing said smilingly, "Let's do it this way, there is no problem on my side, however, the school is not up to me alone, you first send a letter of intent to cooperate, my side will also meet to discuss, and then discuss matters of cooperation."

Han Zhong nodded in satisfaction, "Thank you, Headmaster! I have this plan with me now, please look at it!"

Han Zhong understood that the plan that Old Principal Chang Yongqing wanted must be a very detailed cooperation plan, for example, various details of the provisions and divisions, and so on, and these terms, he had already discussed with Ji Feng, and the plan had also been made long ago, they were waiting for Chang Yongqing's nod.

Looking at Han Zhong handing over the plan, Chang Yongqing couldn't help but laugh: "Good, you've done all the preparations ..... Are you so sure I'll agree?"

"This kind of mutually beneficial thing, with the old headmaster's wisdom, it's naturally impossible for him to refuse." Ji Feng laughed from the side.

"You brat .....", Chang Yongqing, who had eaten a horse's ass, could not help but laugh, "Well then, I will have a meeting to discuss it as soon as possible."

Seeing that things had basically been finalized, Ji Feng and the two of them also got up and said goodbye.

"These two kids, they are really something, they have actually drummed up a huge group without making a sound ....." After Ji Feng and the two had left the office, Chang Yongqing couldn't help but shake his head and laugh, he casually picked up the letter of intent for cooperation that was placed on his desk and read it.

"What?"

Soon, Chang Yongqing was taken aback, "Xiao's Pharmaceutical Factory? The Tengfei Group actually acquired Xiao's Pharmaceutical Factory as well?"

Chang Yongqing couldn't help but be a little surprised, he had heard of this Xiao's Pharmaceutical Factory, the Xiao's Pharmaceutical Factory and Kang Yuan Slimming Powder, which had been making a lot of noise in Jiangzhou recently, and I'm afraid it could be said that they were known in the streets in Jiangzhou, but he didn't expect that this Xiao's Pharmaceutical Factory was actually a subsidiary of the Tengfei Group!

This time, Chang Yongqing's potential for the Tengfei Group, another high look!

.....

"The first step has finally been taken, below if there is no accident, the United University should become a talent delivery base for our group, this is a no-brainer!"

Leaving the school's office building, Han Zhong looked back again and couldn't help but smile.

"If we can cooperate with United University, the problem of insufficient reserve of talents may be solved, but the current recruitment and absorption of talents, we also need to hurry up!" Ji Feng said.

"Don't worry, I've been grasping two things recently, the first is the operational grind of the group, and the second is the recruitment of talents." Han Zhong laughed, "I reckon ah, if we can have three to six months' time, there will be much less of a gap in terms of talent."

"I just don't know if the Rongpeng Group will give us such a long time ....."

Before Ji Feng could finish his words, his mobile phone suddenly rang.

"Ding ....."

"I'll take a call first!" Ji Feng said with a smile and then picked up the phone, "Hello ....."

“San’er, it’s me, do you have time now?” Ji Shaolei’s voice came over the phone.

Ji Feng was stunned, “Second brother, something’s wrong?”

“It’s a bit of business.” Ji Shaolei said, “Shao Hong is coming to Jiangzhou, arriving around eleven o’clock at noon, what I mean is, if you can spare the time, go with me to the airport to pick up .....”

“Ji Shaohong?!” Ji Feng couldn’t help but be stunned, “Second brother, you mean Ji Shaohong is coming to Jiangzhou?”

It is no wonder that Ji Feng was surprised, to know that he and Ji Shaohong have known each other for almost two years, but in these two years, the two have not contacted each other once, and frankly speaking, Ji Shaohong and the three brothers of the first family over here, the relationship is not too good, and only at the time of New Year, his attitude only slightly changed.

Now but suddenly heard that Ji Shaohong came to Jiangzhou, Ji Feng is not surprised.

“That’s him, and with him is Ji Shaojun.” Ji Shaolei laughed, “Don’t make such a fuss, they’re also from the Ji family.”

Ji Feng instantly laughed, “I don’t mean anything else, I just think, this one is a rare guest, not in contact all year round, this suddenly said to come to Jiangzhou .....”

Speaking of this, Ji Feng suddenly remembered something: “Second brother, Ji Shao Hong shouldn’t be in some kind of trouble, right?”

Ji Feng vaguely remembered that during the New Year in Yanjing, Ji Shaolei seemed to mention in passing that it seemed like Ji Shaohong had run into some kind of trouble at the local level.

And for this matter, when we were having the reunion dinner together, Ji Shao Hong seemed to have said that he would take the time to talk about it together, only that later there was the matter of Rong Baogang kidnapping Kang Yuan, so this was not talked about either, and Ji Feng came back in a hurry.

“He didn’t say exactly what it was about, but I don’t think it’s as if he was bored of staying in northern China so he came to Jiangzhou to take a break?” Ji Shaolei said teasingly.

Ji Feng then laughed dumbly, “Alright then, I’ll go over there now .....” Second brother, your words are too damaging .....”

The fact is that Ji Feng can’t help but shake his head and smile, he can see that Ji Shaolei still has some opinions about Ji Shaohong, but only because of the face of his relatives, so he can’t say it.

In fact, Ji Feng is willing to make friends with Ji Shaohong and others, not for other reasons, no matter how bad the relationship between brothers is, it is still closer than outsiders, right?

The fact is, if you have a few brothers to help out, Ji Feng would not be so strapped for cash.

Besides, if the brothers could all unite as one, the energy would still be very powerful, and it wouldn’t be so bad that people would bully him to the doorstep!

“Ji Feng, something wrong?” Seeing that Ji Feng had finished his phone call, Han Zhong asked with a smile.

Ji Feng nodded, "Yes, a cousin is coming to Jiangzhou from the north, I have to go over to pick up the plane!"

"Then hurry up and go, you don't have to worry about my side, the rest is just a matter of negotiating the details of the terms with United University, there's no big problem!" Han Zhong laughed.

"Step it up!" Ji Feng patted him on the shoulder, "No matter what, make sure to get the group up and running as soon as possible!"

Han Zhong naturally knew the pressure and dilemma Ji Feng was facing at this time, he nodded and said, "Don't worry."

After parting with Han Zhong, Ji Feng drove straight to the airport .....

It was now working hours, and the traffic on the road was quite smooth, so Ji Feng increased the speed of his car by quite a bit. In about an hour or so, Ji Feng arrived at the airport and met Ji Shaolei who was already waiting here.

"Second brother, why did Ji Shao Hong suddenly think of coming to Jiangzhou?" Ji Feng asked, "And Ji Shaojun is also coming with him, are they in the same place?"

"Of course not, Ji Shaohong is now working as the governor of a place called Huahe County in northern China, while Ji Shaojun is in Yanjing with Ji Shaoyou to open a company, I'm not too sure what exactly they are doing, it seems to be some kind of entertainment agency or something ..... who knows what they are up to!" Ji Shao Lei shook his head.

"One in North China and one in Yanjing, but now they've come together ..... put it this way, then they must be even more up to something to come." Ji Feng said with certainty.

"It's useless to make any wild guesses now, it's better to wait until they arrive and then ask." Ji Shaolei waved his hand.

"Also!"

Unknowingly, half an hour had passed, and it turned to eleven o'clock, and the airport's radio also prompted the news that the flight from the one Ji Shao Hong was on had arrived.

Chapter 946

When I saw Ji Shao Hong again, I found that he was more stable than before, and there was no longer that creamy air floating on the surface, it had gradually shown a hint of majesty, the frame of the head of a county.

And next to him, Ji Shaojun, likewise matured a lot, only that frivolity between his eyebrows, but still could be seen, but more, there was a kind of worry.

"Shao Lei, Little Feng!"

Seeing Ji Feng and the two of them, Ji Shao Hong walked over quickly.

Ji Shaolei, however, went straight forward and hugged him, "Shao Hong, you're a rare guest!"

This hug softened the expression between Ji Shao Hong's eyebrows as he laughed, "Good boy, just met and you're trolling me?"

Several people immediately laughed, and Ji Feng also followed that of his second brother, hugging both Ji Shaohong and Ji Shaojun, and some of the barriers between the brothers faded quite a bit.

Only, the kind of lumps before, but also not immediately can be untied, it needs both sides have a reconciliation heart, plus the buffer of time to do so.

"Get in the car, this is not the place to talk, let's settle down first." Ji Feng said with a smile.

Two cars, four people, it was a bit hard to split them up.

After all, Ji Feng and Ji Shaolei had come together, and now that both of them had to drive, then Ji Shaohong and Ji Shaojun were a bit confused as to whose car they should take.

The two of them had to drive. But the key is that a few people are not like other friends, their hearts are still more or less goose bumps, this is mainly between the side of the first line of conflict, so how to take the car also became a problem.

Imagine, if Ji Shaohong and the others took Ji Shaolei's car, this would appear to be a bit of a stranger to Ji Feng, but if they took Ji Feng's car, wouldn't it appear to be a bit of an initiative to get closer to Ji Feng?

This is actually a matter of face, but it has put Ji Shao Hong and Ji Shao Jun in a difficult position.

At this time, Ji Shaojun did not dare to speak easily and could only look at Ji Shaohong.

Ji Feng could not help but secretly shake his head, from such a small matter can be seen, in order to make the side line and the first line really fuse together, still need some efforts.

Don't ever underestimate such a small thing!

Very often, the more insignificant the matter, the more detailed it is, the more you can see the problem.

"Shaojun, you take Xiao Feng's car, I'll take Shao Lei's car, it just so happens that there are some issues that I need to discuss with Shao Lei ....." In the end, it was Ji Shao Hong who spoke up, he smiled, "Today it will be hard for you two to be the driver for once I'll be a driver for once."

Ji Feng laughed: "To be able to chauffeur such a young and talented county governor for once, that's our honor!"

Several people lost their laughter at the same time, and the atmosphere was suddenly relieved.

Ji Shao Hong and Ji Shao Jun could not help but sweep a glance at Ji Feng, and only when they really started to get in touch with Ji Feng did they gradually start to understand that Ji Feng might not be as wild as they thought, but instead was extremely responsive to words, and also very good at seizing the moment to liven up the atmosphere.

After the agreement was made, Ji Shao Hong sat in Ji Shao Lei's car, while Ji Shao Jun also sat in Ji Feng's car, with Ji Shao Lei driving in front and leading the way, and the two cars started off.

Under the leadership of Ji Shaolei, the two cars arrived in front of a hotel called Jian'an Guest House.

After parking the car, Ji Shaolei smiled and said, "This is the Jian'an Group's guest house, it's not bad, Shao Hong, Shao Jun, you guys will have to make do with it for a while."

"Shao Lei, this polite manner of yours makes us feel like outsiders!" Ji Shao Hong laughed bitterly, "If you keep doing that, then I'll turn around and leave."

"No, no, no!"

Ji Shaolei laughed, "We don't need to talk about outsiders between brothers, let's all go in."

"That's right!" Ji Shao Hong laughed.

Ji Shaojun also smiled and nodded next to him, in echoing Ji Shaohong's words.

Ji Feng was even more certain that Ji Shao Hong and the two of them had come to Jiangzhou so suddenly, they must be here for something, otherwise.

It was clear from their current manner of speech that Ji Shaohong was making an effort to close the distance between them, which was a very abnormal phenomenon.

You know, just on the day when Ji Feng first went to the Ji family in Yanjing, there had been a brief exchange of words between the two of them, and later on there was wine fighting, verbal flirting and so on, and the relationship was not cordial.

But since that New Year's Eve reunion dinner, Ji Shao Hong's attitude has started to change, and now he has suddenly come to Jiangzhou together with Ji Shao Jun. I'm afraid no fool would believe it if he said they had nothing to do with it, but only came to enhance the relationship between brothers.

With Ji Shaolei, the boss of the Jian'an Group, personally on the scene, things were much easier. Under the warm and slightly respectful guidance of the waiter, Ji Shaohong and Ji Shaojun soon settled down.

Afterwards, the four of them also took a room at a large bathhouse near the guest house.

This large bathhouse did not have a high consumption, and there was a free lunch provided, so a soak after lunch would be soothing.

Ji Shaolei's arrangement made both Ji Shaohong and Ji Shaojun quite impressed. They had come all this way and were somewhat tired, so it was a pleasure to relax and soothe their pores.

In fact, this large bathhouse not only provides free lunch, there is also a gym, billiard room, chess and card room and other entertainment facilities, unless some outdoor sports are not available here, the rest is completely one-stop service, very comprehensive.

Ji Shaolei originally wanted to take the two of them to play all of them, but after taking a break, Ji Shaohong did not continue and instead proposed to find a place to sit.

So, the four of them opened a private room in a nearby teahouse and sat down to sip tea and chat.

Several people also knew that they had already enjoyed themselves and rested, so it was time to get down to business.

“Shao Lei, Xiao Feng, in fact, Shao Jun and I came to Jiangzhou this time specifically to ask for your help .....” Ji Shao Hong took the initiative to say the purpose of his visit, however, his first words made Ji Feng and Ji Shao Lei astonished at the same time.

“What did you say? Asking us for help?” Ji Shaolei was stunned, and then asked with a smile, “Shao Hong, you’re not joking, are you?”

Ji Feng also had a mental shock, his guess was indeed correct, Ji Shao Hong was not only in trouble, but also in no small amount of trouble, otherwise, he would not have said something like asking for help.

Ji Feng couldn’t help but look at Ji Shao Hong, waiting for his next words.

“The matter is a bit complicated, not a couple of words can be said clearly .....” Ji Shaohong weighed his words.

Ji Feng smiled, “It doesn’t matter, there’s plenty of time today anyway.”

Ji Shaohong nodded slightly, sighed lightly and said, “Actually, this matter has to start with the situation in Huahe County, my county, Huahe County, is not too developed, but there is a medium-sized factory in the area.”

“However, because of poor management, this factory is in trouble, the factory can barely pay salaries and the workers have a lot of opinions.” Ji Shao Hong said, “After I arrived in Huahe County, this factory was already heavy and had to be rectified, but the county’s finances simply couldn’t afford it, and the bank loans had also closed their doors to the factory .....”

“So, you are trying to .....?” Ji Shaolei asked.

“If that’s all it is, then we in the county go out and pull in some investment, maybe we can solve this problem too, although there will definitely be quite a few workers to be laid off as well, but it’s better than dragging on like this all the time!”

Ji Shao Hong said, “Originally, that was our plan too, and I have been working towards it. But now, things have suddenly changed, the deputy secretary of the county party committee Jiang actually got involved with the Red Light Company, and the Red Light Company wants to build a new factory in our county .....”

“Red Light Company? A famous supplier of electronic components in Southern Guangdong? One of the subsidiaries of the Rongpeng Group?” Ji Feng frowned at once.

As soon as Ji Shao Hong mentioned the Red Light Company, information about this company instantly flashed through Ji Feng’s mind.

This Red Light Company was one of the subsidiaries of the Rongpeng Group, a company with total assets of billions and a market value of nearly twenty billion.

Its main business was the production of electronic components, and it was a famous supplier of TV components in Southern Guangdong, and it had cooperation with several domestic TV industry giants, and even several domestic computer industry giants.

Moreover, there are also cooperative relationships with some famous international mobile phone brands, only that the relationship is not too deep, but it is strong enough.

The most alarming thing about Ji Feng is that, according to the information given to him by Ji Shaolei, it seems that Rongpeng Group's main industries are in five sectors, namely electronics, medicine, real estate, etc., of which the production of electronic components is one of the pillar industries!

Such a company, placed in a county, that is definitely a big giant.

What was the Red Light Company doing in Huahe County?

The Rongpeng Group had finally started to make a move on the Ji Department's hinterland!

And the primary target of the Rong Peng Group was most likely Ji Shao Hong!

"Little Feng, you also know about this Red Light Company?" Ji Shao Hong couldn't help but ask in surprise.

In his opinion, although this Red Light Company was famous, it was only an electronic component manufacturer after all, far less famous than some electronic corporate giants like Foxconn, and the Red Light Company was also located in Southern Guangdong, so how could Ji Feng, just a student, know so much about it?

How could he even know that Red Light is a subsidiary of the Rongpeng Group?

Ji Feng nodded: "I've heard of it, but I haven't had any dealings with anyone from Red Light Company."

"Shao Hong, go on, explain the matter first so that we can think of a way to help you." Ji Shaolei said.

Ji Shao Hong then nodded, "Here's the problem, Red Light Company is an electronics manufacturer, and that medium-sized enterprise in Huahe County, is also an electronics manufacturer, if Red Light Company goes there to build a factory, this will be an absolutely devastating blow to that original medium-sized enterprise!"

Chapter 947

"Not right ah, red light to go to your place to build a factory, how to say it is also a good thing ah ....."

Ji Shaolei some not quite understand, "according to reason, there is such a large company as the Red Light Group to build a factory, at least can create a lot of jobs, at the same time, but also, can pull the development of the surrounding industries, for the promotion of economic development has a not small role ....." Is there any change in things? "

Ji Feng also slightly nodded, indeed, Ji Shaolei said very reasonable, red light company can go to Huahe County investment, that is naturally no better, although this has a certain impact on the original Huahe County that medium-sized enterprises, but more employment opportunities for workers, increased fiscal revenue, the economy can also follow the development, what is wrong with this?

"What you say is right, if you follow common sense, it is indeed so ....."

Ji Shao Hong nodded, "But the problem is, in order to rectify that medium-sized enterprise in the first place, the county set up a working group, and I was the head of the working group. And once the Red

Light Company builds a factory, it will have a huge impact on that medium-sized enterprise in our county, and it is highly likely that it will collapse at once, and it might even cause a group incident when the time comes!”

“That Secretary Jiang of your Huahe, doesn’t deal with you?” Ji Shaolei immediately asked.

“More than not dealing with each other, it’s like a needle point against a wheat point.” Ji Shao Hong shook his head and laughed, “He is an old subordinate of a major leader in the city, that city leader is close to the Wu family .....”

This time, Ji Feng two people can be considered to hear a little taste.

According to Ji Shaohong, this medium-sized enterprise restructuring work, he acted as the team leader to take full responsibility, and once the red light company built a factory, this medium-sized enterprise may collapse, at that time, that deputy secretary Jiang got dazzling achievements, while Ji Shaohong is responsible for the collapse of the enterprise!

In this way, Ji Shao Hong the county governor can keep, that also have two say ah.

To know, this kind of enterprise restructuring work, traditionally is the most difficult to do on the local, which is easy to go wrong.

Once the Red Light Company has built a factory, it will be able to fully recruit the employees who originally belonged to that medium-sized enterprise, but it is better to say that at least those employees will have food to eat, and will not be too much trouble.

Ji Shao Hong might only be transferred from his previous job or otherwise punished for causing a serious loss of assets.

But if Red Light plays a little foul or only recruits some of its employees, by the time that medium-sized business collapses, those remaining employees will likewise have nothing to eat.

When a person can’t even eat, he is capable of doing anything, there is no doubt about that.

When the time comes, if someone stirs up a few words in the middle, a mass incident will definitely break out instantly, and by then, I am afraid that Ji Shao Hong will be immediately removed from his post, or even dismissed from his post and investigated!

The person who would benefit the most from this would naturally be their Huahe County’s Deputy Secretary Jiang.

“Direct business practices to target Shao Hong, the county governor, it may really be able to Shao Hong the county governor position to take away! This move by the Rong Peng Group is really vicious!” Ji Shaolei could not help but stammer and curse.

“Motherfucker, they’re making it clear that they want to smack us in the face!”

Ji Feng couldn’t help but be silent as well, Ji Shaolei’s words hit the nail on the head and pointed out how ruthless the Rongpeng Group was.

No matter what, and regardless of the relationship between Ji Shao Hong and Ji Feng, there was one thing that could never be changed: they were both members of the Ji family. Moreover, he was also an extremely important member of the third generation of the Ji family's side line.

Even in the eyes of the outside world, Ji Shao Hong could almost be said to be the most powerful figure in the third generation of the Ji family, apart from Ji Shaodong!

It can be said that in Huahe County and in North China, Ji Shaohong represents the face of the Ji family!

Once the Rongpeng Group uses this method to knock Ji Shaohong down, there is no doubt that the Ji family will definitely lose face, at the same time, Ji Shaohong because of this stain exists, his career path, I'm afraid he will not have much color .....

The Rongpeng Group's plan is not poisonous!

The intention is also not to say that it is not sophisticated!

They are extremely accurate in their choice of points, their targets and strategies, and they can be said to have taken Ji Shao Hong's vitals and put him in an extreme predicament immediately.

"Originally, I was planning to go back to Yanjing, to look for those business friends, to see if they are interested in investing, hoping that this can be used to revitalize that medium-sized enterprise in our county, so that it continues to be revitalized and can stand up again." Ji Shao Hong shook his head in bitterness.

"In fact, it is also true that quite a few businessmen, either for my sake or for the sake of the Ji family, have also gone to Huahe to have a look, but once they heard about this real situation, they could only admit frankly that even if they were to take a stake in that medium-sized enterprise, they would definitely not be able to compete with Red Light, not to mention that behind Red Light stands the Rongpeng Group, such a behemoth!"

In fact, Ji Shao Hong knew very well that if we were to talk about pulling in investments, he could definitely pull in quite a few companies to participate. But the problem was that those investments, however, could not solve the troubles of that medium-sized enterprise that was about to collapse.

Maybe those businessmen are willing to lose money and befriend the Ji family for his sake, but what's the use if you can't save that medium-sized enterprise?

In the end, Ji Shaohong will likewise have to take the main responsibility.

This is also the most difficult part for Ji Shao Hong!

"Didn't you look for some large domestic electronic component manufacturers?" Ji Shaolei frowned and asked, "Let them fund the acquisition of that medium-sized enterprise and then restructure it, so that there might be a glimmer of opportunity ....."

Ji Shao Hong shook his head and said, "It's not that easy! Those large electronic component manufacturers are basically very stable development enterprises, while that medium-sized enterprise in Huahe County is simply a bottomless pit, in order to revitalize it, I'm afraid that all the equipment and production lines will have to be replaced all over again, and I'm afraid that the employees inside will also have to be replaced, which will still cause group incidents ....."

Ji Feng and Ji Shaolei at the same time nodded slightly, now Ji Shaohong is facing the biggest problem, in fact, there are two.

The first, he has to revitalize that medium-sized enterprise in Huahe County, not to cause major losses, otherwise, he can hardly escape responsibility.

And the second problem, is the workers of those factories, what they should do in the future is the way out, how can we appease those workers' emotions .....

These two problems are what Ji Shaohong urgently needs to face, and they are also the most troublesome problems.

"Then what do you want to do when you come to us this time?" Ji Shao Lei asked.

"It depends on what you can do .....", Ji Shaohong said with a bitter smile, "Uncle Zhenhua also heard about this matter from somewhere, it just so happens that I was looking around for a doorway in Yanjing, so he called me to go over. "

"My father looked for you?" Ji Feng was stunned.

"Yes!"

Ji Shao Hong nodded and said, "What Uncle Zhenhua meant was for me to come to Jiangzhou to find you and Shao Lei, he said that you should have a way ....."

In fact, Ji Zhenhua's meaning was more than that.

When he was about to leave Yanjing, Ji Zhenhua said to Ji Shao Hong, "Shao Hong, it's not scary to encounter difficulties, as long as you brothers work together, I believe there is no difficulty that you can't overcome, go ahead ....."

The meaning of these words was for Ji Shaohong to work together with Ji Feng and Ji Shaolei.

Only, Ji Shaohong always had some lumps in his heart because of some conflicts between him and the two Ji Feng before. Therefore, Ji Shaohong did not say the whole thing.

Because now that he had come to Jiangzhou to find Ji Shaolei and Ji Feng, it was already a gesture of bowing down and giving in, and if he were to say some more soft words, then he, as a strong leader of the side line, would really have some embarrassment on his face.

However, although he did not say it, Ji Feng immediately understood what his father meant.

Father is going to let himself out .....

Moreover, father was also taking this opportunity to try to ease the conflict between the side line and the first line, and to bring himself closer to Ji Shao Hong.

"Shao Hong, this situation you mentioned is indeed somewhat troublesome ....." Ji Shaolei shook his head slightly, "The difficulties faced by that medium-sized enterprise are really too great, and there is little that can be done to save it other than to go bankrupt and close it down! !"

"I also know the difficulties, otherwise, I still need to worry so much ah?"

Ji Shao Hong said with a bitter smile, "But even if it is difficult, we still have to save it, otherwise, I will go home and get married and have children. They have to make a living too!"

"It's not just that!"

Ji Shaolei shook his head and said, "Our strength in North China itself is very insufficient, if you leave again in disgrace, it will really be a total loss ....."

The main strength of the Ji family is in Eastern and Eastern China, there is also some in Northern China, but it is only a part of the strength, not the main field, but the geographical location is very important, it is the hinterland!

If the power of the Ji system is eaten away step by step there, it is like having a steel knife inserted into your stomach, it will be fatal!

If this is not done properly, it may cause a chain reaction and the impact will be very bad.

"Save is definitely to save, but the problem is, this thing is really troublesome to do, want to do successfully, with the unusual method, absolutely can not play a big role ....." Ji Shaolei shook his head, "Shao Hong, in your opinion, we What should we do?"

"As far as possible to find strong electronic components manufacturers, let them into the shares or capital to buy that medium-sized enterprises, we county to give enough preferential policies, in this way, slowly can also slow over." Ji Shaohong deliberated his words, "However, even if we find an investor, we have to face the competition from Red Light, it's hard ....."

It can be seen that Ji Shaohong is really being pressured to lift his head a little, after all, the reality is too harsh, want to save a medium-sized enterprise, how easy it is!

However, Ji Feng was pondering for a moment with his head down at the side before he suddenly asked, "You just said that the medium-sized enterprise, is mainly supplying components to TV manufacturers?"

#### Chapter 948

"That's right, originally this business is to cooperate with several domestic TV manufacturers, supplying them with electronic components for TV sets." Ji Shao Hong immediately nodded and said, "Of course, there are also other businesses, such as supplying components to manufacturers of induction cookers and rice cookers, but the scope of business is very small. The production of TV components is their main business."

"Why don't they establish a partnership with some mobile phone and computer manufacturers?" Ji Feng asked.

"Why else? The technology can't keep up. .... Nowadays, mobile phones and computers require high-precision electronic components, and with that factory's technology, they simply can't reach that level."

The factory's technology is not good enough, so gradually people's TV manufacturers are not cooperating with it anymore. ...."

"So that's how it is!" Ji Feng nodded his head and smiled, then said: "Brother Shao Hong, you said so half a day, but never said the name of that factory ah, the basic overview and so on."

Ji Shaohong slapped his forehead: “Look at my brain ..... This medium-sized enterprise in our Huahe County, named De Xing Electronics Factory, has more than four thousand employees .....

Next, Ji Shaohong then generally introduced the enterprise called De Xing Electronics Factory, because some of the previous situations had been introduced, so he now focused on the size of De Xing, staffing and other information.

Ji Feng was listening absentmindedly on the sidelines, occasionally nodding slightly, but most of the time, he was lost in thought, as if he hadn't heard Ji Shao Hong's words.

This kind of performance on his part made Ji Shaojun beside him somewhat dissatisfied.

In any case, now that they had put down their stature to beg for Ji Feng and Ji Shaolei's help, given the relationship between the two sides, this should be considered enough of a concession, right?

But this Ji Feng and Ji Shao Lei duo, apart from saying 'it's difficult' and 'not good enough', there was no more constructive advice coming out of their mouths. Now Ji Feng was not even paying attention to what Ji Shao Hong was saying, this was too arrogant, simply arrogant beyond belief!

Ji Shaolei likewise noticed Ji Feng's bewildered look, he couldn't help but shake his head and laugh, what was San'er up to?

Looking at Ji Shaojun's slightly gloomy face, Ji Shaolei likewise frowned slightly.

It seems that they still have a lump in their hearts .....

Ji Shaolei touched Ji Feng without a trace and asked with a smile, “San'er, Shao Hong has also finished introducing the situation, what do you think, how should this matter be resolved?”

“Solve what?” Ji Feng was stunned.

Ji Shao Hong's face was a bit embarrassed, while Ji Shao Jun, however, directly sank his face and said, “Little Feng, no matter what, you are also the youngest one here, I think, we are also a family, so we should always say something from the bottom of our hearts.”

“What?” Ji Feng was a bit confused, Ji Shaojun suddenly said this, he was really a bit confused.

Seeing Ji Feng like this, Ji Shaojun became even more furious, he said in a deep voice: “Little Feng .....

Ji Shao Hong glared at him and he stopped talking, but he just couldn't help but snort a cold hum between his nostrils, obviously extremely unhappy.

“Huh .....

Ji Shaohong laughed and eased the atmosphere, “Little Feng, Shaojun is this stinky temper, don't be normal with him, just ignore him directly.”

Ji Feng shook his head and smiled, and did not care, but said, “Brother Shao Hong, I understand about the situation you just introduced. De Xing Electronics Factory is not small in size, and labor intensive, with many employees, but no business ..... coupled with some of the situations you mentioned earlier, all things considered, frankly speaking, no solution is good right now!”

“That’s right, that’s where I’m most stumped ah!” Ji Shaohong frankly admitted this, “It seems that I can’t be the governor of this county for a few days .....

“Indeed, I won’t be able to serve for a few days!” Ji Feng laughed.

Once these words came out, the other three people, including Ji Shaolei, all changed their faces, Ji Feng’s words were, indeed, a bit too much.

Even if Ji Shao Hong really couldn’t be the governor anymore, then he shouldn’t have said it, and still so directly!

Imagine, even if two very good friends, one of them is unlucky, the other one is at most to flirt two, or comfort two, but absolutely no such gloating ah!

“San’er .....” Ji Shaolei could not help but have a bit of a headache, what is going on with San’er, he has always said that he wants to ease the relationship between the side and the first line, but now what is he doing?

This is intensifying the conflict!

Ji Feng also realized what was going on, and when he saw the faces of Ji Shao Hong and Ji Feng and the others, it dawned on him.

“Oh .....”

Ji Feng immediately waved his hand and laughed, “It seems that I spoke inappropriately and that’s why I made you guys misunderstand .....”

“Misunderstanding?” Ji Shaojun’s face became even more gloomy, what is this? Schadenfreude followed by, excuse me, I really want to laugh .....

This is just too much of an asshole!  
Ji Shaolei and Ji Shaohong were likewise somewhat slightly pale, and they likewise did not believe Ji Feng’s words.

Ji Feng, on the other hand, didn’t care what others thought, he said directly, “Brother Shao Hong, it’s like this, I think, that De Xing Electronics Factory in your county is now experiencing problems, if you look at it with conventional thinking, there is definitely no way to solve it, one has no business, two has no technology, what kind of factory is this to open?”

That was a bit of a meaningful statement.

Ji Shao Hong couldn’t help but take it seriously, “Little Feng, could it be that you have some unusual ideas?”

“Let’s put it this way, if you believe in me, this matter will be left to me to try, of course, it needs the full support of you, the great prefect, the concessions that should be given can’t be less .....” Ji Feng smiled.

“You have a way to solve it?” Ji Shao Hong immediately asked.

Next to them, Ji Shaolei and Ji Shaojun also could not help but have their spirits lifted, Ji Feng had a solution?

“For the time being, I only have an idea, I haven’t thought of exactly how to implement it yet, wait for me to deliberate and think about it!” Ji Feng waved his hand, he indeed only had a rough idea, before it was finalised, he still needed to think it over and over again.

But even so, Ji Shao Hong was already pleasantly surprised: “Little Feng, if you can really solve this problem, then brother really has to thank you! I’ll definitely treat you to a drink when the time comes!”

“A drink to get rid of me?” Ji Feng harrumphed, “I’ve said it all, as long as my solution is feasible, you, the county governor, ah, I’m afraid you won’t be able to do it for a few days, maybe ah, you might have to be promoted .....

Ji Shao Hong smiled and waved his hand: “can solve the problem of De Xing Electronics Factory, I have thanked God, but also promotion .....

This time, the atmosphere is active, Ji Shaojun also realized that Ji Feng is not laughing at Ji Shaohong, but he already has a solution to the problem.

Seeing Ji Feng that talk and laugh, Ji Shaojun could not help but scratch his head a little, it seems, Ji Feng in terms of momentum, than Ji Shao Hong, ah?

.....

“This time Ji Shao Hong is going to be burnt out .....

North China, Huahe county city, several people gathered in a hotel box, is laughing and talking about laughing.

This is three men and three women six people, of which three middle-aged men, a young man, and three wonderful girls.

If Ji Feng had seen these six people, he would have recognized them at once. Two of the girls, whom he had seen before, were Zheng Yuxiu of the Zheng family in Yanjing and Rong Suyan, the CEO of Rong Peng Group, while one of the middle-aged men was Rong Suyan’s right-hand man, Old Wang, Wang Shuosheng!

And the young man in the middle, if Ji Feng had seen him, he would certainly not be a stranger, this person, but Wu Zhihe!

The one who spoke was one of the middle-aged men wearing glasses and combing his back, this man was the deputy secretary of the county party committee of Huahe County, Jiang Weiping, or the deputy secretary Jiang as Ji Shaohong called him.

The last middle-aged man was the boss of Red Light Company, a subsidiary of the Rongpeng Group.

There was also a wonderful young woman, but Jiang Weiping’s daughter, Jiang Wenwen.

For Jiang Weiping, those who were doing this today were big names that he had to be careful to accompany, and there were two girls present, so he hurriedly called his daughter over.

If he could climb into some relationships with these people here, it would be an absolute joy for him.

“Wu Shao, I just got news from the Beijing office, Ji Shao Hong has left Yanjing in the morning, but the exact direction he went is still unknown .....” Jiang Weiping heatedly laughed, “He didn’t come back, I guess he’s hiding somewhere with a headache to go!”

Wu Zhihe smiled lightly: “Never underestimate Ji Shao Hong, he is always more feminine, good at making moves in secret, don’t be darkened by him!”

“Please don’t worry, Young Wu!”

Jiang Weiping immediately confidently said: “With the support of the Rong Peng Group, the collapse of the De Xing Electronics Factory is only a matter of time, he Ji Shaohong even if he has great ability, but also absolutely can not make any waves, after all, De Xing Electronics Factory is currently there is no way out .....

“Well, that’s good, but your side should also hurry up and try to implement the red light company’s investment as soon as possible, so that Ji Shaohong early roll up and get out!” Wu Zhihe said.

“Young Wu, I will definitely hurry up and do it!” Jiang Weiping immediately nodded and patted his chest to guarantee, “Before the end of the month, we will strive to implement Red Light Group’s investment, build the plant within three months, and within six months, we will definitely make De Xing Electronics Factory completely collapse!”

Wu Zhihe smiled faintly, “That’s the best, Secretary Jiang, as long as you do a good job, I will greet you with the top.”

Jiang Weiping was immediately overjoyed and hurriedly said gratefully, “Many thanks to Shao Wu, many thanks to Shao Wu!”

After the banquet was over, Jiang Weiping did not dare to stay much longer, so he took his daughter Jiang Wenwen back with him.

He was afraid that if he stayed here too long, he would annoy Young Wu, and that would be a problem, it was so hard to make such a relationship, so he couldn’t just ruin it!

“Ji Shao Hong left Yanjing but didn’t come back ..... Could he have gone somewhere to ask for help?” When only his own people were left in the box, Zheng Yuxiu couldn’t help but ask, “Jiangzhou? Or is it East China?”

“Hmph!”

Wu Zhihe sneered, “Call for help? That’s even better, I’ll even stomp out the helpers he hired, too! I’ll let the Ji family know that I can trample on their third generation whenever I want! I’ll strip the Ji Family of their face and make them pay for what they did before!”

Chapter 949

“Zhihe, this Ji Shaohong is just a side son of the Ji family, and he’s still nestled in such a shitty county, what can you do even if you stomp on him?” But Rong Suyan’s eyebrows knitted slightly, “Didn’t big brother tell us to go to the east?”

Rong Suyan was naturally skilled in the business world, and could be considered a handful. However, she did not quite understand some of the ways in the official world.

However, if we look at this matter from a business perspective, Wu Zhihe's choice is far from brilliant, not to mention other things, just the geographical location alone, is a wrong choice.

Some manufacturers of electronic components, most of them are in the south, where there are also other electrical manufacturers, North China is obviously much less, when it comes to logistics and transportation, or other aspects of the purchase of some components, the cost will be greatly increased, which for a businessman, is definitely not the best choice.

On the other hand, Red Light chose to invest in a factory in Huahe County, and the surrounding supporting environment is not too good, which is also not a reason to choose Huahe County.

Plus, when he was in Chang'an, Wu Zhiyong had said that he wanted his Rongpeng Group to make a move, but instead of coming to northern China, he wanted to go to some eastern areas such as eastern China, where the Ji family's real hinterland is.

Therefore, Rong Suyan had never really understood why Wu Zhihe had chosen to come to such a small, dilapidated county as Huahe County in the end. Now seeing his confident look, Rong Suyan couldn't help but bring it up again, not to throw cold water on Wu Zhihe, but to enable him to keep a clear head.

"Zhihe, I know that because of those bastard things that Bao Gang did before, everyone was implicated along with it, even you were transferred to Northern Shaanxi ....."

Rong Suyan said softly, "I also know that you want to take revenge, but the problem is, I don't feel that taking revenge on Ji Shao Hong will do anything for us right now. As you said, on this side of North China, the Ji family does not have many cadres, even if we knock out Ji Shaohong, we will not be able to form a chain reaction, it would be better to just let Rong Peng Group go to East China ....."

However, before she could finish her words, she was instantly interrupted by Zheng Yuxiu: "Ouch ..... cousin, are you teaching Zhihe how to do things? Cousin, don't blame me for saying you ah, your vision, still only stay in business, simply can't see other levels of intention, this can't be ah, you need to understand information in many aspects to do so ..... Of course, maybe you can't contact some things at the upper level, it's no wonder ....."

Rong Suyan's eyebrows frowned slightly, but did not speak to her, but looked at Wu Zhihe: "Zhihe, think about what I said, if you think it does not make sense, forget it!"

The first thing you need to do is to take a look at what you've said, but you can't just look at it in a one-sided way, so I'll tell you this, although Ji Shaohong is only a county governor of Huahe County, it's not too impressive, look, even people like Jiang Weiping are able to bully him, it's indeed miserable enough!

"

He chuckled and continued, "But, apart from that, you have to see Ji Shaohong's ability, potential, and his position in the Ji family. I have carefully investigated Ji Shaohong, he has been in Huahe County for less than half a year, and from being completely suppressed by Jiang Weiping at the beginning, to now, he is already able to arm wrestle with Jiang Weiping, this is a reflection of his ability!"

“Zhi He is right, Ji Shao Hong is not a simple character!” Zheng Yuxiu also said next to him, “Back in Yanjing, he was very powerful and his reputation was second only to Ji Shaodong and the others, so he was considered good.”

“Yes, Ji Shao Hong is a representative of the side line of the Ji family, for someone like that, his own position doesn’t mean anything, it’s the one power he represents that we should pay attention to!”

Wu Zhihe said, “Think about it, if we stomp Ji Shaohong down with one foot, it would be no less than a resounding slap in the face to the Ji family, and it would be an absolutely fatal blow to the Ji family’s side lineage! If possible, perhaps through this matter, we can also intensify the conflict between the side line and the first line of the Ji family .....

“And as for us, we have made certain achievements in Huahe County, holding up a governor and nibbling away at the Ji Family’s territory step by step!”

The company’s main business is to provide a wide range of products and services to the market. I want to toss all of East China into a state of unrest!”

“That’s right, this plan of Zhihe’s is very good!”

Zheng Yuxiu immediately nodded and said approvingly, “If possible, go to Jiangzhou again and toss around for a while, and stomp on that Ji Shaolei, Ji Feng, all of them, so what if the second generation of the Ji family is strong? So what if the second generation of the Ji family is strong? Let’s see where the Ji family’s face will be!”

“I hope so!”

Rong Suyan shook her head and smiled lightly, “Maybe it’s true that I don’t know much about the big picture, but no matter what, Zhihe, I’ll support you!”

“Well, you’ve always been a capable right arm for me as well as our Wu family.” Wu Zhihe said with a nod.

Rong Suyan instantly spread a smile and shook Wu Zhihe’s hand.

However, there was still some uneasiness in her heart. She didn’t know what was going on, but when she talked about the Ji family, that steady youth figure came to her mind, and his eyes that shone with wisdom and sharpness all surfaced incomparably clearly in Rong Suyan’s mind.

Is that youth called Ji Feng really that easy to deal with?

The character of Wu Zhihe is a bit too flamboyant, and compared to the steady and wise Ji Feng, it seems that there is always a slight gap.

Sometimes, it is often just such a small gap that will determine the final outcome!

However, while Rong Suyan was contemplating, Zheng Yuxiu, who was next to her, could not help but feel a bit tasty when she saw the two of them holding hands together.

She had been thinking of ways to divide the relationship between Wu Zhihe and Rong Suyan, to suppress Rong Suyan's position in Wu Zhihe and the Wu family's heart, but now she saw their hands holding together, which was simply too infuriating.

"Zhihe, I suddenly have an idea, I don't know if it's appropriate ....., " Zheng Yuxiu's eyes flickered and an idea came to his mind.

"Tell me about it?" Wu Zhihe said.

"You see, since the current move is also only a red light company, so, now that big brother in northern Shaanxi, also need economic to support political performance well, cousin, or you think of a way to send a company over to support big brother?" Zheng Yuxiu pursed her lips and smiled lightly: "Big brother rising fast, for the entire Wu family can be beneficial Oh!"

Rong Suyan immediately frowned, Zheng Yuxiu's words were really too malicious.

The development of the Rong Peng Group, all have a long-established track, if haphazard development, even the largest group can not withstand the toss. And some of the projects in Northern Shaanxi are exactly what the Rongpeng Group is not involved in. However, Zheng Yuxiu brought it up.

What is she trying to do here?

Obviously, Rong Suyan knew that if she did not say yes, then she would undoubtedly be thinking only of herself and not supporting Wu Zhiyong. But if she said yes, it would be a hindrance to the development plan of Rong Peng Group. No matter what project is done, it needs to go through detailed argumentation and it is not something that can be agreed to so casually.

Rong Suyan deliberated slightly for a moment and could not help but say: "Zhihe, do I need to do that? If needed, I'll get the group's experts to conduct a detailed demonstration ....., "

"Let's talk about it after a while, the immediate task now is to stomp Ji Shao Hong down ruthlessly and without mercy as soon as possible!" Wu Zhihe said coldly.

Rong Suyan then sighed secretly in her heart, Wu Zhihe's utilitarianism was getting stronger and stronger, while the kind of warmth that once existed between the two was gradually fading because of Zheng Yuxiu's appearance.

.....

The training space of the intellectual brain is an endless primeval forest, as far as the eye can see, it is simply impossible to know where the border is, Ji Feng is gritting his teeth and running wildly all the way.

In the process of running wildly, he had to constantly identify the direction and find the most suitable route, so that he could successfully get out of this primeval forest used for training, and then discuss the problem he was facing with the intelligent brain.

Ji Feng didn't know how long he had been running wildly, since he had parted from Ji Shaolei and Ji Shaohong, he drove home immediately, and after a haphazard dinner, he entered the training space, and then just ran like mad.

When he encountered some fierce beasts on the road, Ji Feng didn't pay attention to what was so strange and weird about those beasts, he directly raised his hand to strike a chain made of bio-currents, directly knocking those fierce beasts away, and then continued to run wildly.

Just as the intelligent brain had said, it was impossible to do anything else until one got out of this forest.

As soon as he entered the training space, Ji Feng would automatically appear in the middle of the forest, and there was no other way but to break out.

But the problem was, he needed to get out quickly now, because he had a plan that he needed to discuss with his intelligent brain as soon as possible, only then could he help Ji Shao Hong solve the crisis he was currently facing, and at the same time stop the Red Light Company in its tracks!

"Whew~~!" Ji Feng couldn't remember how long he had been running, but even if his system was as strong as he was, he was still panting, so it was clear how vast the forest was!

But Ji Feng still didn't stop, the matter of Ji Shaohong's side couldn't continue to wait any longer, he had to come up with a solution as soon as possible, so Ji Feng must break out as soon as possible!

"This is an opportunity that can bring the relationship between the first and the second line closer, we must seize it!"

Ji Feng secretly said in his heart, "A united Ji family is definitely much stronger than an infighting Ji family! As long as the brothers can all unite as one, why should we fear any Rongpeng Group?"

#### Chapter 950

"Master, during the running process, if your physical strength is not enough, you cannot use bio-current as an aid!"

Ji Feng was still running furiously, the intelligent brain hovered in the air, following Ji Feng, and reminded in his ear, "Because there will still be a large number of fierce beasts next, and they are even more powerful than the previous ones, if the bio-current storage in your body is not enough, I am afraid that you will not be able to pass this time ....." "

"Don't worry, I know to arrange my physical energy and bio-current reasonably ....." Ji Feng panted.

In fact, if it was under normal circumstances, when did he need to consider the amount of bio-current storage? But now he had to think about it, he didn't know how many fierce beasts he had encountered along the way, some of them could settle the fight in one move, while others, he had to stop and wrestle with them for a while before he could settle them.

Although in this process, Ji Feng's actual operating skills for bio-currents had almost reached the point of being handy, however, even the most subtle skills were somewhat stretched when there were simply too many fierce beasts.

Only now did Ji Feng really realise that this kind of training was not only about training the use of bio-current, but also about storing enough bio-current in the body.

It was a comprehensive strength improvement!

“Roar~~!”

Suddenly, a fierce beast rushed over in an instant without half a sign, that soared up in the air, with sharp fangs and claws, if it were to bite, it would definitely snap one’s neck in an instant!

“Roll!”

Ji Feng shouted violently, like an explosive thunderstorm, at the same time, his right hand struck out with a fierce palm.

“Ow...!” The thick bio-current struck the body of that fierce beast, instantly sending it flying and falling heavily into the dense bushes.

Ji Feng’s footsteps did not even pause for a moment, and he ran straight over .....

.....

“Finally out .....” Looking ahead at the flat patch of wilderness and the dense grass, but no longer the lush forest, Ji Feng was softened and fell to the ground with a thud, breathing heavily, but with a thick smile in his eyes.

“Laozi walked out-!” Ji Feng was limp, lying on the ground with his limbs wide open, shouting at the sky with the last of his strength.

The difficulties he had encountered on this staggering journey were only known to him, but those hardships were deeply imprinted in his mind and could never be forgotten.

On that last stretch of the road, he encountered more beasts than all the previous monsters put together, which made the second half of the road extremely strenuous for him, and if he hadn’t arranged his physical and biological currents in a reasonable manner, he would have been buried in the mouths of the beasts by now.

“Roar~~!”

Deep in the forest behind him, a few roars of beasts came faintly, but Ji Feng turned a deaf ear to them, just lying on the ground, his body was practically devoid of any strength, except for the slight rise and fall of his chest, proving that he was still breathing, the rest of his body was not moving at all.

I don’t know how long he had been lying there, but when Ji Feng felt that he had finally regained some strength, he gritted his teeth and reluctantly sat up, leaning his back against a large tree and panting heavily.

“I ..... shit!” Ji Feng finally couldn’t help but burst out a foul mouth, this experience in the forest was really a super high intensity exertion, both for physical energy and for biological currents.

Even when he had first started practicing bodybuilding, Ji Feng had never been so strained. This time, it was as if his whole body had been drained of energy.

At the end of this section, he gritted his teeth and pulled through with his superior willpower.

“Congratulations, master, for passing this level!” The intelligent brain appeared beside Ji Feng again and said humanely, “May I ask master, do you want to continue with the following training?”

Several black lines sprang up on Ji Feng's forehead, and he couldn't help but shake his head slightly as he laughed bitterly, "You'd better give me a break, if you continue the training, you'll train me to death."

"Master, in a highly fatigued state, the body tissues have the strongest memory capacity, this is the best time for training!" The intelligent brain said.

Ji Feng let out a bitter laugh, "Then do you think I'm still highly fatigued now? This has reached the limit of fatigue alright!"

Regarding his own physical condition, Ji Feng was still relatively clear about it. Although he knew that what the intelligent brain said made sense, and he had practiced according to the fatigue training method in the past, today was different.

As he said, today could no longer be called highly fatigued, but was truly at the limit of fatigue.

Training again at this time would not have much effect, and might even cause some damage to his body. This was because, now that the bio-current in his body was almost depleted, it was simply no longer suitable to continue training.

"Intelligent Brain, since the training has now come to an end, we can go back to the original training scene, right?" Ji Feng asked.

"Yes master." The intelligent brain said.

The next moment, Ji Feng felt a shake in front of his eyes and he was back in the original obstacle ball training space, except that at this moment, he was sitting on the ground with his back against the wall ..... Now he was really too weak and had to recover his strength and bio-current as soon as possible, otherwise, tomorrow when he woke up, he was afraid that he wouldn't even be able to beat a small punk.

"Wise Brain, now that I have also finished learning the basics of networking and communication technology, and have even entered the third stage as well, can I now start learning to create illusory three-dimensional light curtains?" Ji Feng asked.

"Of course you can, master, may I ask if I can start learning now?" The intelligent brain asked.

"That's right, start learning immediately!" When Ji Feng heard this, he nodded excitedly, "Intelligent Brain, let's start quickly!"

Learning to create an illusory three-dimensional light screen was what he had always longed for, the so-called illusory three-dimensional light screen was when Ji Feng first came across the second set of body-building exercises, the intelligent brain, in order to prove to him what the real masters of the Gamma Galaxy were like, played a duel between two Gamma Galaxy people with a light screen.

That amazing duel had left an extremely deep impression on Ji Feng, and the scene that seemed as if it was happening right before his eyes had made Ji Feng interested in that kind of three-dimensional light screen that could be played back.

But helplessly, he hadn't learned how to control the bio-current in his body before, nor had he finished the second set of body-building exercises, nor had he finished the course on network and

communication technology, so his foundation was still very poor. So every time he brought it up, to learn to create that illusory three-dimensional light curtain, he was dismissed by the intelligent brain.

Now it was different, he had finished the basic networking course long ago, and controlling bio-currents was already at his fingertips.

That ball of obstacles all over the ground, as well as the fierce beasts in the forest that had been taught a lesson by Ji Feng, could all prove it!

Therefore, Ji Feng knew that he already had the conditions, to learn the illusory three-dimensional light curtain technique, plus Ji Shao Hong happened to be in big trouble now, so Ji Feng was a bit desperate for it.

“Master, illusory stereo light screen, as the most common terminal playback device in the daily life of the people of the Gamma Galaxy, the technology is not complicated, in terms of softwares, the master has already completed the course on the basics of network and communication technology, there is no problem at all.” The intelligent brain said, “Now all the master has to learn is the manufacture of the hardware, and the technology of energy conversion .....”

“Energy conversion?” Ji Feng couldn’t help but be stunned, “How to convert?”

“Master, according to the external data collected by the program itself, the planet where the master is located is mainly dominated by electrical energy, while the energy of the Gamma Galaxy is mainly light energy as well as thermal energy, what the master has to do is to learn how to convert electrical energy into energy suitable for the illusory three-dimensional light screen .....” “The intelligent brain said.

Ji Feng laughed: “So it’s the same principle as the laser cannon .....” this is good to do, just add an energy converter in the middle, the conversion of electrical energy into thermal energy, which itself is already a commonly used technology on Earth, as for the conversion into light energy, it’s not that difficult!”

“Intelligent brain, now learn hardware manufacturing first!” Ji Feng said.

The problem of converting energy was no longer a problem for him now, on Earth, people often used various kinds of energy conversion in their daily lives, such as cars, which converted the heat energy produced by burning oil into kinetic energy, and electric lights, which used electrical energy to convert into light energy, this was very simple.

So, what Ji Feng has to learn now is the manufacture of hardware, as well as various technical parameters and so on!

“Okay, master, we will now start .....” said the intelligent brain.

Swish!

Ji Feng’s eyes flashed, and the next moment, he appeared inside a laboratory covered with precision instruments.

“After having enough energy, to produce the illusory three-dimensional light curtain, first of all, we need an excitation point, the trigger that allows other forms of energy, to be converted into the light curtain we need .....” In the laboratory, at some point, there appeared An old man with white hair began to explain the various techniques of the illusory three-dimensional light curtain.

The old man was explaining in a light screen, and Ji Feng hurriedly listened carefully, not even daring to blink, for fear of missing important details.

.....

“Whew-!”

When Ji Feng slowly opened his eyes, he couldn't help but let out a long breath.

Last night's training, that level of difficulty was something he had never experienced before, if it wasn't for his body's rapid recovery while listening to the illusory three-dimensional light screen, I'm afraid he wouldn't have been able to get up weakly until now!

“However, this kind of training is still very rewarding .....” Ji Feng couldn't help but smile faintly.

That kind of intense training last night seemed to have enhanced Ji Feng's body's recovery ability by a few more points, moreover, he felt that the bio-current in his body, had also increased.

Only, the degree of increase was not as obvious as before.

This was also a normal phenomenon, as his strength increased, Ji Feng's progress would also gradually slow down, because the increase in strength would always reach a limit, and it was always impossible to increase indefinitely.

Turning his head to look at the sky, a ray of sunlight shone into the room through the gap in the curtains, he sat up and looked at the wall clock, it was actually past three o'clock!

“It's after three .....” Ji Feng subconsciously muttered, and then his eyes widened, “It's after three? It's already afternoon?!”
