

Campus Master 951

Chapter 951

When Ji Feng got up from the bed, he really found that it was already three o'clock in the afternoon, and he had slept until the afternoon?

This was something that had never been done before!

Ji Feng couldn't help but smile bitterly, it seemed that it did take not a short time to grit his teeth and break through that forest last night, it was considered the longest ever.

"The harvest is still huge" Ji Feng stretched his arms, and there was a crackling and popping sound, as if it was a series of firecrackers, showing how fit his body was.

However, this was not the biggest gain. In fact, Ji Feng's biggest gain was that he had learnt how to make an illusory three-dimensional light screen in just one night!

"Thanks for the unforgettable skill!" Ji Feng couldn't help but feel that if it wasn't for his unforgettable skill, he might not have been able to fully learn it, let alone in one night, or even in a week.

Of course, apart from his unforgettable skill, he also had to attribute it to the mechanical as well as weapons knowledge that Ji Feng had learnt in the past.

It was because of the various knowledge he had learnt before that Ji Feng had mastered the technique of creating illusory three-dimensional light curtains extremely quickly. Without the previous padding, even if he could remember what the old man in the light curtain had said, it would not be that easy for him to integrate it.

Shaking his head slightly and putting all these thoughts out of his mind, Ji Feng looked around and found that he was the only one left in the villa, Tong Lei and Xiao Yuxuan had both left notes for him stating where they were going.

Tong Lei was still off to school and Xiao Yuxuan had gone to the Tengfei Group, which left Ji Feng alone.

This, in turn, just gave him time to put his ideas into practice.

Since he had already learnt how to make the illusory light curtain, he naturally had to practice it as soon as possible.

The sooner he could produce the illusory light curtain, the sooner he could put it into production.

In fact, this is the way that Ji Feng came up with to get De Xing Electronics out of its predicament.

The current De Xing Electronics Factory has no sales, no technology, and even no capital, so there is no way out for this kind of factory other than going bankrupt and closing down.

Since this is the case, then simply find another way out, directly from the fundamental change of the original thinking.

However, because De Xing Electronics Factory originally made electronic components for televisions and other electrical appliances, now if the product suddenly changed, those workers could not adapt quickly,

not to mention that the sales channel is also very difficult to open immediately, because there is no mature market channels, want to sell a new product, it is very difficult.

Therefore, Ji Feng decided to start with electronic components, firstly, to acquire the De Xing Electronics Factory, so that De Xing Electronics Factory could directly become a component manufacturing base under the Tengfei Group!

As for the issue of assembling it into a television set, Ji Feng had not yet considered it mature, and he was still unsure whether to let the Tengfei Group really enter the electrical industry.

Of course, this issue could still be discussed later, the main thing now was to create the illusory three-dimensional light screen.

Imagine, once the illusory three-dimensional light screen really enters the market, when the time comes, the huge impact brought, just thinking about it will make people's blood boil feeling.

According to the various technical parameters, Ji Feng first drove to the hardware merchants and purchased tools such as soldering irons.

After that, he bought the materials and tools he needed.

After working on these, it was already evening. After that, Ji Feng dove into the control room in the villa's attic, and on one of the tables, he started his experiment.

To make the illusory three-dimensional light curtain, in fact, with the technology on Earth now, many components could basically be made. The only thing that was missing was a key trigger, because no one had the parameters for it, or few people had bothered to study it, and that was why no similar technology had emerged.

So now, at most, there is only 3d technology, but if you want to present that kind of 3d image in the form of a light screen, it is simply impossible.

And what Ji Feng wants to produce now is this most crucial part – the trigger!

.....

Early the next morning, Ji Feng and the others were having breakfast.

“Ji Feng, what have you been working on these past two days?!” Xiao Yuxuan couldn't help but ask, “Not only did you take a rare nap yesterday, but you've been working so late at night”

Ji Feng laughed, “Working on something that is almost finished.”

“Did you encounter any trouble?” Xiao Yuxuan couldn't help but ask, because after Ji Feng had met Ji Shaohong, he came back and entered the training space, so Xiao Yuxuan and the girls all still didn't know about Ji Shaohong's arrival in Jiangzhou, and they didn't know about the trouble Ji Feng was currently facing.

“It's a bit of trouble, a cousin of mine, he's in trouble in North China” Ji Feng nodded and quickly told the general story of what happened.

Xiao Yuxuan's eyebrows knitted slightly and she said with some boredom, "What the hell do these people want? It's not enough to toss Xiao's pharmaceutical factory in Jiangzhou? Now they've gone to North China to toss and turn, are they so uncomfortable that they can't live if others are better off?"

"No way, the fight is unavoidable, you will find out after entering the mall, in fact, in the mall, if you develop well, some people will be red in the eyes, if you develop badly, some people will want to annex you, your opponents are even more all over the place, and likewise very troublesome!"

Ji Feng shook his head and laughed, "If you want to develop peacefully, it's simply not possible!"

"If those people really go too far, simply defeat them completely, so that they never have the chance to make waves again!" Tong Lei said in a brittle voice next to him.

The others were stunned in unison, and Ji Feng couldn't help but smile as he gave a thumbs up, "Lei Lei, that's the word, you're right!"

"Leilei, when did you become so violent?" Xiao Yuxuan but asked in consternation.

"It's not violence, it's just the situation. The rise of any power is definitely stepping on others to come up." Tong Lei smiled gently, "Sister Yu Xuan, you should cheer up oh, maybe after a few years, we will be able to see a strong woman with great influence!"

"You girl" Xiao Yuxuan couldn't help but laugh, "You make fun of me too?!"

"Sister Yu Xuan, what I said is true." Tong Lei pursed her lips and laughed lightly.

In fact, being born in a big family, Tong Lei had been used to seeing the kind of fights among each other since she was young, unless you do nothing and hide far away, otherwise, living in this society, fights are just inevitable.

"Instead of being a weak person who is bullied, it is better to be a strong person who is feared by others, but not bullied!" Tong Lei said.

"That makes sense!" Xiao Yuxuan nodded in deep understanding, "Speaking of which, I don't see it as well as Lei Lei does!"

"I'm just saying that casually too." Tong Lei laughed lightly.

Ji Feng laughed, "Although this is a bit harsh, it is also the truth. If you want to develop, there will be resistance, and if you can't break those resistances, there's no way to develop."

In fact, the Wu family was more than just resistance, with the hatred they had for the Ji family now, they were afraid that they all wanted to wipe out the Ji family!

In this situation, there was no other way out but to rise up and fight back!

.....

In the morning, Ji Feng drove to the Tengfei Network Company.

The trigger for the illusory three-dimensional light screen, he had already done all the hardware parts, what was missing at the moment, was the softwares, such as the excitation program, and the protection program.

It is the key part of the trigger. Its function is to make the electrical energy turn into light energy through a certain conversion, and then form the light curtain. Without this process, the television would at best glow, but not create a light curtain.

The trigger's protection procedure is a necessary means of self-protection.

In a country like China where cottages are everywhere, without some means of self-protection, Ji Feng can guarantee that within a month, I'm afraid the world will be full of illusory three-dimensional light curtains.

You should know that the technical means of Kang Yuan slimming powder is so advanced that when it is technically impossible to copycat, people will find ways to copycat on the name. So, if one's side launched the illusory three-dimensional light curtain technology, those people would still be crazy to carry out copying?

Therefore, it is absolutely necessary to set up a self-protection program in the trigger.

And although Ji Feng had taken a course in network and communication technology, he had mainly learned about communication technology, and it was better to leave such a highly professional business as writing programs to professionals.

There was no doubt that Wang Xin and Yang Yu, who were definitely superb expert-level people, were naturally the most suitable candidates.

"Boss!"

Seeing Ji Feng arrive, Wang Xin was instantly surprised.

Yang Yu also hurriedly stood up, "Boss! Are you here to inspect our newly developed browser?"

"We'll talk about the browser later, you two come with me to the office!" Ji Feng said with a smile, "I have a more important task for you guys on my side."

Yang Yu and Wang Xin looked at each other and were both a bit pleased.

For such a long time, Ji Feng had not given them any tasks, which made them both a bit anxious, thinking that they might not be able to help Ji Feng, and it was based on this idea that they had set out to develop the browser.

Now, when they heard Ji Feng say that he had given them a task, they were naturally very happy.

When they came to the office, Ji Feng directly took the trigger out of the bag he carried with him and handed it to them.

"Boss, what is this?" Wang Xin asked suspiciously, Yang Yu, who had a mute personality, didn't say anything, but also looked at Ji Feng with some suspicion.

"This is a trigger, today I came to find you guys, I want you to write a program"

For Wang Xin duo, Ji Feng didn't have any concealment, he directly explained the role of the trigger, the principle and so on, all to them, "A section of excitation program, and a section of self-protection program, any difficulty?"

"No!" The duo immediately said loudly.

"Keep your voice down" Ji Feng smiled and waved his hand, "Want the whole world to know, huh?"

Yang Yu and Wang Xin couldn't help but laugh lightly.

"Boss, according to the parameters and theoretical basis you gave, it's not a problem to write the inspiring program, just, this confidential program, what level does the boss want?" Wang Xin asked.

"Well" the more advanced the better, for example, if someone tries to crack the program, the secrecy program will automatically destroy" this is the best!" Ji Feng said, "Of course, if there are difficulties, it doesn't matter if the level is even lower! If you can write the highest level of secrecy program, this is the first business of Tengfei Network!"

Yang Yu and Wang Xin looked at each other and immediately said in unison, "Promise to complete the task!"

Ji Feng smiled faintly, this secrecy procedure, really can't be difficult for them!

He could not help but sneer in his heart, Rong Peng Group wants to collapse Virtue Electronics? I hope you won't be the one to be crushed!

"Once the illusory three-dimensional light curtain comes out, I'll see how you guys can resist!"

Chapter 952

Three days passed in a flash.

On the evening of the third day, Ji Feng and Ji Shaohong gathered together again.

What made Ji Shaohong and the others rush to be amazed was that it had only been a few days since they had seen Ji Feng, and his whole person seemed to have become different.

It was a very special feeling, how can I put it

It was as if Ji Feng's whole person's essence, aura and spirit had all changed greatly, his body was all glowing with a vibrant vitality that made people know at first glance that this person had a very unique aura and was definitely not an ordinary person.

"Little Feng, it's only been a few days, how come you've changed so much?" Ji Shao Hong asked in amazement.

"Change?"

Ji Feng was slightly stunned, "What kind of change?"

"Well" it seems like your whole person has become completely different from the past, very" healthy!" Ji Shao Hong laughed, "To be precise, it should be very spirited! The whole person is full of a spirited fighting spirit, as well as a healthy and optimistic attitude, very enviable!"

Ji Feng shook his head and laughed, "Maybe it's the effect of the recent exercise!"

In fact, he understood that it was because he had broken through the primeval forest in the training space, which had increased the strength and concentration of bio-currents in his body, and that was why he had an extremely vigorous qi and blood, as well as a full spirit.

But these things were also not understandable to Ji Shaohong, so Ji Feng explained vaguely.

"Oh"

The first is to skip class and go out to play, the second is to hide in the dormitory with a few brothers playing mahjong, sitting for a long time, sometimes the waist is too painful to straighten up! "

"Everyone is the same!" Ji Shaolei harrumphed: "But, compared to some dude, we can be considered good, those guys every day in addition to playing with women, is to go out posing, see I have a headache"

Hearing this, next to Ji Shaojun is slightly red in the face, in fact, he is one of those fops, only, he is not so over the top, but the matter of changing a few girlfriends during college is still there. As for posing as a member of the Ji family, he still needed to go out and pose?

"Haha! Shao Lei, you're pointing at the monk and scolding the bald man with these words." Ji Shao Hong instantly laughed, "See, Shao Jun's face is all red!"

"That's nothing" Ji Shaojun coughed lightly with some embarrassment, "It's mainly because I used to be young and didn't know any better" "

Several people suddenly let out a loud laugh, this Ji Shaojun also have embarrassed time?

"Okay, okay, the joke is over, the following talk business!" Ji Feng waved his hand, "Brother Shao Hong, about the current problems faced by De Xing Electronics Factory, I already have a solution, and have done some initial experiments, the effect is not bad. However, there are still some problems that you are facing and need to solve"

"What problems?" Ji Shao Hong asked at once. He did not expect that Ji Feng had started acting so quickly, it seemed that he was still very concerned about his problems.

"Let me first introduce my plan to you guys!"

Ji Feng didn't answer in a hurry, but said, "In my opinion, the situation of the De Xing Electronics Factory is already precarious, so if we use unusual methods, we shouldn't be able to achieve much. Even if we were able to find a powerful group to acquire the De Xing Electronics Factory, it wouldn't do much good if we couldn't compete with Red Light!"

"Yes, the problem of the De Xing Electronics Factory is not difficult to solve, the key now is how we can kill a bloody way out of the siege of the Rong Peng Group and break out!" Ji Shao Hong nodded slightly, "With Red Light's technology and strength, I'm afraid there aren't many companies in the country willing to fight with them in a fire fight!"

"Yes!"

Ji Feng nodded, "This means that now, if we just bring in investment, it's impossible to save the De Xing Electronics Factory. That's why I decided to be innovative!"

"Innovation?"

Ji Shao Hong was slightly stunned, "How to innovate?"

Next to them, Ji Shaolei and Ji Shaojun also listened attentively, they were both people who had been on the field, but they couldn't think of any solutions to the problems of the De Xing Electronics Factory, while Ji Feng had a plan in the palm of his hand, which really made them curious!

"It's actually very simple, I've researched a new technology that allows the TV sets used in ordinary homes now to have an absolute stereoscopic feel when playing, which means it will have the effect of watching a 3D movie in a cinema!" Ji Feng smiled faintly, "Do you guys think that such a product can save the De Xing Electronics Factory?"

"What?!"

Ji Shao Hong's three people were shocked at the same time: "3d technology applied to TVs? Or directly produce TV sets with 3d images?"

"Directly produce TV sets that can play stereoscopic images!" As Ji Feng spoke, he casually took out a plastic box about the size of two palms from the bag next to him, with a few buttons on it, which looked, as if it was a satellite signal receiver.

He also took out a data cable and power supply and placed them one by one on the table.

"San'er, are you going to test this on the spot?" Ji Shaolei asked.

Ji Feng smiled and said, "It's already been tested, now it's just a demonstration for you guys to see, so it's a bit more visual than what I've introduced!"

He quickly connected the power supply and the data cable, and plugged the cable into his own phone.

"I don't suppose any of you are unfamiliar with the videos that play on your phones? It's no different from watching a programme on a computer TV!" Ji Feng laughed, "But after connecting this trigger, you guys take a look again!"

He casually tapped on a movie stored in his phone and then placed the phone on the table.

"Drip" The trigger sounded twice.

The picture on that phone, which was originally playing normally, became distorted, and a bright light was released from the screen, and then the periphery of the screen was wrapped in a soft white glow, looking as if it was covered by a curtain of water.

And the next moment, the faces of Ji Shao Hong and the others went wide.

Only to see that on that originally soft white glow, the movie that was playing in the phone actually appeared, and the picture and the task, it was as if it had come out of the phone and actually appeared in front of them

The faces of the three Ji Shao Hong were written with astonishment, “This, this

To be honest, they had thought of some 3d technology applications of the picture, nothing more than the same as the kind of 3d movie in the cinema, but that also needs to be produced under specific conditions, but never thought that in this box, Ji Feng casually fiddled a few times, they saw such a realistic movie.

And only needed a trigger, and they didn’t even need to wear 3d eyes!

It was just too amazing!

“Pop!”

The light screen suddenly went out.

Ji Feng began to dismantle it with his hands, he laughed: “Sorry sorry sorry, when I developed this trigger, I only developed it for TV sets, the power of the phone is too little, it can only support so much for a while, and when applied on the phone, the picture is also a bit blurry, this needs to be improved additionally

His words came to an abrupt halt as he saw the kind of shocked beyond belief look on the faces of the three Ji Shaolei.

“What’s wrong?” Ji Feng frowned and asked, “Is it bad, or is it too good?!”

“Little Feng, how did you manage to get this thing?” Ji Shaolei felt his throat going dry, as a businessman, no one understood the value of this what-if trigger better than him, once this thing came out, it would definitely set off a rush to buy it, unless the price was ridiculously high.

Otherwise, there’s no one who wouldn’t want to be able to sit at home and see a film so real it’s like it’s happening in front of them, and the same goes for other shows!

“It’s a technicality that can’t be explained in three or two sentences!” Ji Feng laughed as he turned his head again and asked, “Brother Shao Hong, this thing of mine can save the De Xing Electronics Factory, right?”

“If this can’t be saved again, then I really don’t know what else can be done to save the De Xing Electronics Factory

Ji Feng packed up his things and laughed: “Sensational or not for now, we are still facing some problems!”

“What problems?” Ji Shao Hong asked eagerly at once.

Now that the revival of Dexing Electronics Factory was in sight, but Ji Feng said there were still problems, Ji Shaohong was immediately anxious, “Little Feng, what exactly are the problems? If it is a policy problem, you can rest assured, no matter what I am also the county governor, I can always fight for it!”

Ji Feng shook his head and laughed, "It's not a matter of policy right now, it's a matter of the production of the finished TV sets! Frankly speaking, I have no intention of letting De Xing Electronics Factory produce televisions, as we can see from their current development, their technology doesn't work, their sales channels don't work, and apparently, the management is also very chaotic!"

"Then your intention is?"

Looking at Ji Shaohong's puzzled expression, Ji Feng said, "Tengfei Group likewise has no sales channels in terms of electricity, moreover, it is also lacking in terms of capital, just the production line for producing TV sets, the plant, the management and technical talents and so on, this can't be done overnight!"

"So, I've decided to borrow a chicken to lay an egg!" Ji Feng smiled faintly, "To find a collaborator!"

"Looking for collaborators?"

All three of Ji Shaolei couldn't help but be stunned.

"San'er, this technology of yours is definitely a golden chicken that can lay golden eggs, so if we have to look for a collaborator, won't that be cheap for outsiders?" Ji Shaolei frowned, "The problem of sales channels, we can take our time to solve it."

"Slowly how?" Ji Feng laughed, "A year? Two years? By then, I'm afraid the Rong Peng Group will have beaten down half of the east!"

Chapter 953

"That's true."

Ji Shaolei couldn't help but nod with a bitter smile, "The Rong Peng Group is simply too powerful, this is something that we have to admit. With such a huge group in the hands of the Wu Family, it is simply an invincible sword, and it is indeed difficult to counteract it in a short period of time!"

"So ah, our top priority now is to develop as quickly as possible to the point where we can counter the Rongpeng Group, as for making profits, this is also very important, but it's not something that we can't give up."

Ji Feng said, "This is just the beginning, there will be more new products in the future, when the time comes we will make money until our hands are weak!"

This is definitely not bragging, with all the knowledge in Ji Feng's head, just taking out one thing is definitely extremely shocking and technically far ahead of other products in the same industry.

If you want to make money, you don't have to just focus on that!

With the economic strength of the Rongpeng Group, even if the Tengfei Group were to catch up with it, it would be difficult to catch up with it in a short period of time, and if it were to think of developing independently from the start, it would take a long time to catch up with the Rongpeng Group.

Of course, if one were to operate the illusory three-dimensional light screen independently, it would indeed be beneficial for future development if one were to lay a firm foundation at the beginning.

But the problem was that right now, Ji Feng didn't have that much time to lay the foundation.

He had to develop the Tengfei Group to a certain extent before the Rongpeng Group came raging in, or at least, to be able to have a few moves with the Rongpeng Group before he could.

Now, just one subsidiary of the Rongpeng Group was enough to make the Tengfei Group unable to fight against it, so he had to find helpers and think hard about various strategies and methods to deal with it.

This is how powerful the Rongpeng Group is!

Moreover, this trigger that Ji Feng was now displaying was not a fully-fledged illusory three-dimensional light screen.

As he had said, it was only a trigger based on a television set, not a pure light screen like the one shown by the intelligent brain.

It is a simplified version of the illusory light curtain, after all, if the pure illusory light curtain technology is developed now, whether it can still be operated at that time will have to be discussed separately.

You know, this kind of illusory three-dimensional light screen in the gamma system, that is indeed every household has, very common, just like the people's home television set now.

However, on Earth, the illusory three-dimensional light screen technology is not the same as a television set, this technology is absolutely very extensive applications, such as in the military, can be used to simulate training, or in scientific research, using this three-dimensional light screen, is definitely better than that kind of simulated three-dimensional image!

I'm afraid that when the time comes, once this technology is completely available, the military will have to intervene.

I'm afraid that once this technology is completely available, the military will have to intervene. Ji Feng doesn't plan to take out all these technologies yet, he has to take them one step at a time.

"So, what kind of collaborator do you want?" Ji Shao Hong was most concerned about the future of De Xing Electronics Factory and Ji Feng's strategic development plan, "Are you looking for those large domestic TV manufacturers, or are you cooperating with those large electrical merchant companies?"

Ji Feng smiled, "Neither, what I'm looking for are those manufacturers who are both involved in the TV production industry, but don't have enough branding."

"Then there are too many such people", Ji Shaolei said immediately, "You go to the market and take a look, but all those unknown domestic brands basically fall into this category that you are looking for."

"There is another requirement, there must be a perfect sales channel!" Ji Feng said.

"That's not difficult either! But any of these unknown brand manufacturers that can survive, must have his channels."

Ji Shaolei said, "Apart from that, are there any other requirements?"

“The background should be clean, free from any external factors and not subject to geographical influence, someone who can have all these conditions at the same time, that’s the partner we’re looking for!” Ji Feng said.

In fact, the so-called unknown brands are what people commonly call miscellaneous brands!

In the market now, apart from those well-known brands of television sets, there were also many miscellaneous brands. The reason for saying that they are miscellaneous brands is that the market reputation, TV advertising and popularity have not gone up, and when it comes to the quality, it is not really easy to say.

As far as Ji Feng knows, there are some products that the domestic miscellaneous brands may even be of better quality than those produced by some large manufacturers.

However, because they do not have a good market reputation and wide popularity, their sales do not go up and the company is half dead!

By choosing such a company to cooperate with, on the one hand, we can ensure our own advantages, and on the other hand, we can also ensure that sales are not affected, as they have long established sales channels.

If the Tengfei Group were to set up again on its own, it would not only be costly in terms of manpower and resources, but also too late in terms of time.

In industry, products and sales channels, these two things are extremely important.

“San’er, in fact, there are too many such manufacturers that you need to find.” Ji Shaolei said, “You may not understand too well, in fact, many internationally renowned brands of television sets are produced and assembled in our country, only that after they are assembled, they are then labeled with the label of the person they were made for, and in this way, the price soars by more than several times.”

“In other words, many of our domestic manufacturers have actually been reduced to working for those well-known brands?” Ji Feng asked with a frown.

“Yes. That’s the current situation!” Ji Shaolei nodded, “Especially many of those factories along the coast of Southern Guangdong are like that, and the same is true for the ones inland, in our Jiangzhou, I know a few such bosses

“Oh?”

Ji Feng’s heart stirred and he immediately asked, “Second brother, then are there any of those manufacturers you know that meet our requirements?”

“It seems that there are” Ji Shaolei said with some uncertainty, “I’m not too deep with those manufacturers, so I don’t know too much about them” By the way, one of them does meet your requirements, but I just don’t know if he will cooperate with us”

“How so?” Ji Feng couldn’t help but ask.

Ji Shao Hong also looked at Ji Shao Lei, whether he could find a collaborator or not, it was related to whether the De Xing Electronics Factory could be saved or not, he was extremely concerned about it.

“This person’s name is Li Xin, he has a factory under his name that produces and manufactures televisions as well as related components, this person is very capable and has a great business acumen.” Ji Shaolei said, “But the problem is that he is very stubborn, there were quite a few big groups that wanted to acquire his factory in the past, but they were all rejected by him.”

“He refuses to acquire, but he doesn’t necessarily refuse to cooperate.” Ji Feng laughed: “Doing business means that we inevitably have to cooperate with each other, and since you said he is very business-minded, then I believe he should be able to see the potential of this trigger clearly.”

“I hope so!” Ji Shaolei shook his head with a smile.

“Second brother, then how about you contact this Li Xin for me, we’ll take some time to visit him and talk about his mouth by the way?” Ji Feng asked.

“That’s certainly no problem, I’ll contact him now!”

Ji Shaolei immediately nodded and said, “Li Xin is still very happy to make friends, he’s a very generous person.”

As he spoke, Ji Shaolei got up and went out of the box to call Li Xin.

“Ding

And at this time, Ji Shao Hong’s mobile phone suddenly rang, he gestured to Ji Feng and also picked up the phone and walked out.

“Little Feng, I have to say, this thing you invented is really impressive!”

There were only two people left in the box, Ji Feng and Ji Shaojun, and the latter only had the chance to interject, “You also know me, I usually just muddle through, but I’ve seen a lot of things and the world, but the only thing I’ve never seen is something so shocking!”

Ji Feng couldn’t help but smile, “You’re a bit over-complimented.”

“No, no, what I said is true!”

Ji Shaojun said, “Even I can see how much of a stir this technology of yours will cause once it is applied to a television set! And apart from televisions, there are other industries, such as computers, mobile phones, and some other devices, so when you do the math carefully, it’s terrifying!”

The two were chatting away when Ji Shao Hong pushed the door open and walked in, his face a little gloomy.

“Something’s wrong?” Ji Feng asked casually.

“There was another child snatching incident in Huahe,” Ji Shaohong couldn’t help but snort coldly, “I don’t know what those people in the county bureau are really doing! After such a big incident, they actually didn’t even report to me! If my secretary hadn’t called me, I wouldn’t have known about it

“Robbing a child?” Ji Feng and Ji Shaojun were startled at the same time, “How so?”

“It’s some human `traffickers’ who openly rob other people’s children, and specifically target those women who go out with their children, and then run away after robbing them It’s simply heartless!”
The first time I saw this was in a few months, and it’s happened four or five times! But the county bureau has yet to see any action, it’s simply an asshole!”

“Why isn’t your county bureau taking action?” Ji Feng frowned and asked, “This kind of thing should be cracked down on, if you want me to say it, catch those traffickers, you should just shoot them dead!”

These news of child snatching and abduction and the like, Ji Feng had seen too many of them, and if one by one, it was really shocking to the eyes.

For example, those little beggars wandering in the street, some are missing arms and legs, and some are physically deformed Where are there so many deformed children under the sky? Ji Feng also once encountered such children, their bodies, that is clearly considered scars!

Only, the law and order in Jiangzhou is very strict, and for these street children, there is also a special agency in charge, so there are not too many in Jiangzhou.

However, they abound in other places!

Heartless!

These four words are definitely not an overstatement!

Think of the blank and desperate eyes of those children who have been harmed, shooting those culprits 10,000 times would not be enough to relieve the hatred!

Chapter 954

“Brother Shao Hong, after those people snatched the children, what exactly is the purpose of those people, what exactly will happen to those children, we all know very well!”

Ji Feng said with a straight face, “I think, this kind of thing can’t be condoned and condoned, if you find one, investigate and deal with it severely, if it’s within your power, it’s better to take care of it, your eyes can’t just focus on developing the economy!”

“You because I do not want to manage ah?!” Ji Shao Hong laughed bitterly, “I want to manage it more than anyone, but the problem now is that I simply don’t have the ability to do so. If I want to catch these people, I have to go through a mapping exercise and get reliable information before I can use the police force to catch them all!”

“Could there be any difficulties in between?” Ji Feng frowned and asked.

“It’s more than difficult”

Ji Shao Hong shook his head slightly, “Frankly speaking, the only two departments I’ve mastered in the past six months since I went to Huahe County are now a Finance Bureau, and an Agriculture Bureau. Although the other few principal departments are under my name, but you know how fishy the local area is, I can’t say anything about it!”

“You can’t say anything about the police department either?” Ji Feng couldn’t help but ask, “Even if you can’t control it, you can more or less say something, right?”

There is no doubt that in a place, there are three departments that are the most important, the police department, the finance, and the personnel.

As a prefect, it is correct to grasp the financial power in his hands, Ji Shaohong has just been lowered down, he should not be able to intervene in personnel issues, after all, senior county officials will not easily let go of power.

However, the police department also can not say a word?

Even if it is not in control, but the orders issued by the county commissioner, the implementation of the order should always be carried out, right?

Ji Shao Hong couldn’t help but shake his head slightly and said: “The situation in Huahe County is very complicated, and it will take at least another six months to take control of the situation. However, for the child snatching incident, I have already made a report with Uncle Zhenhua and hope to send a few internal guards over, since the police department can’t be used, then I will use the internal guards!”

Only then did Ji Feng’s face ease up a bit, he nodded and said, “The local bureau is very complicated

At this time, Ji Shaolei also pushed the door and walked in, “San’er, it’s done. I just called Li Xin and agreed to meet tomorrow morning, then we will go directly to his factory, you can also take a look at the factory by the way!”

“That’s best!” Ji Feng nodded his head.

“Little Feng, for my sake, I’ve made you and Shao Lei both work hard!” Ji Shao Hong said with emotion.

Before coming to Jiangzhou, he hadn’t expected that Ji Feng and Ji Shaolei would be so cooperative, and could even be said to have spared no effort, a performance that made him feel more than a little emotional.

Ji Feng, however, shook his head and smiled: “Brother Shao Hong, I think you also know that the reason why the Rongpeng Group turned the seedling on you was because the boss of the Wu family was sniped by our family, but the cause of the matter was still because the young master of the Rongpeng Group wanted to make a move on Xiao’s Pharmaceutical Factory, so strictly speaking, it is only right that I dragged you into this... ..”

“That’s not true!”

Ji Shao Hong waved his hand and said, “In fact, even without the Rong Peng Group meddling, I was still doing a very difficult job in Hua He County. The senior county official Shao Yuguang controls the whole situation, and the deputy secretary Jiang Weiping is making waves. In these six months, I have used all my means to take control of the Finance Bureau, so it can’t be said that it’s not difficult.”

In fact, since Ji Shao Hong left Yanjing, he found that without the shelter of the Ji family, it was too difficult to make something happen, it was simply a difficult step.

The surrounding constraints and obstacles are too many, can use the power is also pathetic, the people underneath is even more submissive.

So what if you are a governor parachuted down from above? You issue your orders, we do our job, so that you, the governor of the county is hardly of much use, in the long run, the governor's face how to exist?

Although Ji Shaohong relied on his own ability and wrist, step by step in Huahe County stood firm, and even took control of the Finance Bureau, but he was more and more able to appreciate the importance of family power, no family shelter, no one to help, a person struggling is too difficult.

It is also because of this realization that Ji Shaohong's attitude towards the first family gradually began to change, and when Ji Zhenhua asked him to come to Jiangzhou to find Ji Shaolei and Ji Feng, he also came with a stiff upper lip.

So, Ji Shaohong now understands that there is no such thing as a linkage between him and Ji Feng and the others. Whether they wanted to admit it or not, they were all family, all brothers, and this was something that no one could change.

For example, now, the first family has offended the Rongpeng Group and the Wu family, people do not dare to directly mess with Ji Feng and Ji Shaolei, then the spearhead is aimed at him Ji Shaohong can not even escape!

Understand these truths, that what is involved or not, it is not worth mentioning.

In fact, now Ji Shaohong has gradually understood, sometimes really can help you, or family members, as for the difference between the side line and the first line, it is not so important

After eating, several people left separately.

Ji Feng has a lot of things to do right now and can't stay here for long.

.....

After returning to the villa, Ji Feng accompanied Xiao Yuxuan and Tong Lei and watched TV on the sofa in the living room for a while. Fortunately, Tong Lei and Xiao Yuxuan and the girls didn't like the kind of soap operas that were not nutritious, but only watched some scientific and educational programs, or the animal world and so on, and Ji Feng was able to watch them.

However, he didn't have much curiosity about the various creatures in the animal world. It was because he had seen too many beasts in the primeval forest in the training space, all kinds, from carnivores to herbivores, it was all over the place.

Those animals in the animal world naturally couldn't interest Ji Feng much anymore.

Now the TV is showing a group of African lions chasing their prey. Looking at the lions running wild on the grassland, Ji Feng couldn't help but think out of the blue, if he put the trigger on the TV now, would it bring a surprise to Xiao Yuxuan's two daughters?

He smiled, "Yu Xuan, Lei Lei, you guys wait for me"

Saying that, without waiting for them to answer, Ji Feng quickly ran upstairs, holding a plastic box as well as a power supply in his hand.

“Ji Feng, what are you doing here?” Xiao Yuxuan couldn’t help but ask in a strange manner.

“Inviting you guys to watch 3D TV!” Ji Feng laughed.

Xiao Yuxuan couldn’t help but laugh delicately, “I’ve only heard of 3d movies, this 3d TV is the first time I’ve heard of it

“Right away you’ll know!” Ji Feng laughed.

He plugged the trigger into the power source and pressed the switch

Pop!

On the TV screen, the picture wavered slightly, and in the next moment, a soft curtain of light enveloped the TV screen, and in the next moment, it was as if a group of lions on the TV ran out of the TV screen seemingly and turned into a three-dimensional image.

“Ah!”

Xiao Yuxuan and the others exclaimed in shock at the same time, their four pairs of beautiful eyes staring at the TV, their faces full of disbelief.

“This

Looking at the four girls all looking jaw-dropped, Ji Feng smiled heatedly, “How about it, it’s a 3d TV, right?”

“How did you do that?” Xiao Yuxuan was surprised: “There’s no such product on the market, right?”

“This is the product I developed!” Ji Feng laughed.

Xiao Yuxuan hurriedly picked up the remote control on the coffee table and changed a few channels in succession, finding that no matter the animals or characters on the TV, it was as if they had stepped out of the TV, and there was no difference between it and a 3D movie in the cinema!

“This product will cause a sensation if others know about it!” Tong Lei also said in amazement.

Ji Feng laughed: “That’s what I want to see! Alright, you guys continue watching TV, I still have some things to do, I’ll go upstairs first.”

Leaving the stunned four girls behind, Ji Feng went upstairs with big steps.

“To simplify ah

The trigger that he was making now, he had only made it according to the principle, as for how it looked, whether it was beautiful or not and so on, he didn’t even think about it, he had only one purpose at that time, to make the thing first.

However, it was clearly impossible to fit such a large trigger into a television set with an increasingly thin body.

Moreover, such a large trigger would be easy for others to crack.

Therefore, Ji Feng had to compress the trigger, which was now such a large piece, to the smallest, but at the same time the most efficient point.

The best way to do this is undoubtedly the integrated circuit.

Some people say that the emergence of integrated circuits is a milestone in the history of human technological development and the basis of the modern industrial revolution's life, and Ji Feng feels that this statement could not be more true.

The combination of transistors, diodes and other electronic components compressed together can actually form an integrated circuit card that is only the size of a fingernail, moreover, the operation is very simple, this technology is really a major breakthrough in human technology!

What Ji Feng wanted to do now was to compress the two palm-sized triggers to the smallest possible size and finally install them directly on the TV's motherboard, then it would be a success!

He plugged in the power supply of the soldering iron, placed all the required parts again, referred to the circuit diagram next to him and began to bury his head in the battle

.....

Early the next morning, Ji Feng woke up from his sleep early. Last night, he worked until midnight, he finally considered to have completed the compression of the trigger, as to say whether it can be further compressed, his heart is not sure.

So in the second half of the night, he entered the training space and listened again to the old man in the light screen explaining the illusory stereoscopic technology until about 3 or 4 am, when he went to bed contentedly.

Through the old man's explanation in the training space, Ji Feng finally understood that with his current ability, he could only compress the triggers to this step.

On the bedside table only half a meter away from his head, a block of IC about the size of a peanut shell was quietly lying there This was the trigger Ji Feng had made himself!

Chapter 955

Ji Feng finished washing up and found that Xiao Yuxuan and Tong Lei were preparing breakfast in the kitchen. Xiao Ying and Han Zhen wanted to help, but they didn't know where to start and were eventually driven out by Xiao Yuxuan.

The two Han Zhen girls came out of the kitchen and saw that Ji Feng was in the living room, so their pretty faces flushed slightly and they looked embarrassed.

Ji Feng couldn't help but smile slightly, these two girls, and the girls of ordinary families are extremely different.

When other girls were carrying school bags to school or lounging on the sofa at home watching TV, the two of them were already undergoing harsh training. So, their strengths were not in cooking and cleaning up the house, but Ji Feng was relieved to have them and the two girls as guards for Xiao Yuxuan!

Putting the IC block on the bed in the handbag he carried with him and placing the bag on the coffee table in the living room, Ji Feng then walked out into the courtyard and began to move his body slightly.

While he was moving his muscles, the corner of his eye glanced at a delicate figure, but it was Han Zhen walking out, her big pair of beautiful eyes staring at herself with some suspicion and curiosity, as if she was surveying a rare thing

“What, something wrong?” Ji Feng asked with a smile, “Why are you looking at me like that?”

Han Zhen walked slowly, looked at Ji Feng with some suspicion, and asked, “That thing yesterday, did you really make it?”

Ji Feng instantly laughed bitterly, “What kind of words are these?”

“Did you really make it?” Han Zhen still had some doubt in his words, as if he didn’t believe it, “That thing even the experts in the army couldn’t make it”

“So I’m not an expert in the army!” Ji Feng laughed.

“Experts in the army are real professionals, different from experts in the society!” Once he heard Ji Feng say this, Han Zhen disagreed, “You can’t belittle them!”

“Fine”

Ji Feng couldn’t help but shake his head and smile, “I don’t belittle those army experts, but you can’t belittle me either right?”

“Then I apologize to you!” Han Zhen spoke with a serious look on his face as well.

Ji Feng was a bit puzzled, to say, since Han Zhen came here, she had not really taken the initiative to chat with herself, at most, she would just nod and say hello when she saw herself coming back, but that was all, to say chatting, that was not possible at all.

But today, she took the initiative to talk to her, which is a bit strange, right?

Is it because she saw the 3D TV she made yesterday and was shocked?

Is it that her curiosity was aroused?

He couldn’t help but laugh, “Han Zhen, just say what you have to say, there’s no point in us asking around like this.”

Now Ji Feng could already be sure that Han Zhen was definitely looking for him for something.

“I just want to ask you, did you develop that thing?” Han Zhen was also a little embarrassed, but still looked at Ji Feng bravely.

Ji Feng nodded and smiled, “That’s right, what’s the problem?”

“Then, then can you cooperate this technology with the military?” Han Zhen also seemed to know that it was inappropriate for her to ask this, so after saying this, her pretty face also turned a little red, “You already have so much money, you can’t spend it all even if you make more money, but if you cooperate with the military, you will make a great contribution to the country

“Hehe” Ji Feng couldn’t help but laugh, “Cooperate with the military?”

“Yes, since you know Brother Xiang so well and you are friends, you can not only help the military by cooperating with the military, but you can also help Brother Xiang, wouldn’t that be good?” Han Zhen asked in a small voice.

Ji Feng shook his head and laughed, “It seems that you kinda defend Xiang Yongzhan! However, you are now a guard by my side, but you are looking out for Xiang Yongzhan and still not letting me make money

Isn’t this a bit inappropriate?”

Han Zhen’s pretty face became even redder, she couldn’t help but lower her head, that redness spreading all the way up her neck, “But, but I think, it’s quite good for you to cooperate with the military, and

also I want to repay big brother Xiang.”

“Repay him? Why?” Ji Feng couldn’t help but be stunned.

Han Zhen, however, lowered her head and did not speak, and only after a long time did she say, “If you can help big brother Xiang once, then, I promise to stay by your side forever and protect Lei Lei, is that okay?”

Ji Feng couldn’t help but frown slightly, there might really be some story on this Han Zhen, what exactly had Xiang Yongzhan helped her with? To make her so nostalgic and bent on repaying Xiang Yongzhan!

However, Ji Feng did not continue to ask, he knew that even if he asked Han Zhen would not answer himself.

After pondering slightly for a moment, Ji Feng said: “Han Zhen, I understand what you mean, this illusory stereo technology is indeed somewhat helpful for the military, but not very helpful, because this trigger, is only developed for television sets. For military applications, I have my own arrangements!”

“..... Hmm!” Han Zhen nodded slightly, “Then, then I’ll go!”

Begging Ji Feng to help Xiang Yongzhan and cooperate with the military seemed to have exhausted Han Zhen’s last courage, so she hurriedly turned around and left just as she finished speaking.

It seemed that because she was too nervous and embarrassed, it made her almost trip over the steps in front of the living room of the villa when she entered it, it was so rare that she was able to trip over the steps even with her skills.

Ji Feng frowned slightly, but did not say anything, he made up his mind, wait for Xiang Yongzhan to return from his mission, must ask him properly, Han Zhen in the end what the matter

After eating breakfast, Ji Feng called Xiao Yuxuan to the side and asked in a low voice: “Yuxuan, I asked you to ask Han Zhen what’s on his mind last time, did you do so?”

“Ah?!”

Xiao Yuxuan suddenly spat out her tongue, "I gave it a forget"

Ji Feng nodded and said, "Find a chance to ask her, she is our right hand guard, we can't say that we still don't know if he is in any trouble, that would be unbecoming."

"I understand, it was delayed by other things some time ago." Xiao Yuxuan nodded her head.

"Don't be too deliberate either, just wait until you have time and ask her as a casual conversation." Ji Feng said, "Also, don't be too tired yourself this way, I'll come to your room this evening to look for you"

Previously, Xiao Yuxuan had been studying and enrolled in an MBA course, and then Xiao Changhe had a sudden brain bruise, followed by Xiao Yuxuan starting to take over the work of the Tengfei Group and Changhe Pharmaceutical Company, which Ji Feng naturally understood.

However, before he finished his words, Xiao Yuxuan could not help but blush slightly: "Trying to make bad again?!"

"....." Ji Feng burst into tears and laughter, "What are you thinking in this head."

Xiao Yuxuan giggled, "I just thought you wanted to!"

"Okay okay" Ji Feng laughed bitterly, pinched her soft pretty face and said, "Go to work, pay attention to safety on the way!"

Xiao Yuxuan suddenly smiled sweetly, her small leather shoes clicked on the ground and she left with quick steps.

Looking at her swaying back, Ji Feng couldn't help but shake his head and smile, "Still such a siren, and getting more and more naughty"

Subsequently, Ji Feng took the trigger with him, as well as the integrated block trigger that he had rushed to make last night, and drove to the Jian'an Guest House. He had previously agreed with Ji Shaolei and Ji Shaohong and the others to meet up there.

When he arrived, Ji Shaolei didn't drive, it was indeed a bit of a waste for four people to drive two cars, and his company was just not too far from the guest house anyway, so it was easy to come back.

"San'er, it's better for me to drive, you don't know the place!" Ji Shaolei was laughing as he occupied the driver's seat, and Ji Feng had to sit in the passenger seat.

"Shao Hong, let you, the titular county governor, follow us and squeeze into a car, it's aggravating for you!" Ji Shaolei said flirtatiously.

"You guy, there are no good words coming out of your mouth!" Ji Shao Hong cried and laughed.

Ji Shaolei laughed: "Let's go!"

.....

"Mingguang Electric!"

Ji Feng looked at the four big words at the entrance of the factory and couldn't help but laugh, "Second brother, it seems that Li Xin doesn't just make televisions, right?"

This electrical appliance could not only include TVs, but likewise some other electrical devices, such as induction cookers, rice cookers, soybean milk machines and so on.

If this factory had such a name, it was obvious that it also produced other electrical products.

"The other are just incidental, what is not that a few years ago, the soybean milk machine is hot, Li Xin also incidental to do some soybean milk machine, is to follow the market. And what induction cooker ah and so on, anyway, this kid brain is better, a look at the soybean milk machine is almost saturated, he immediately changed to do other."

Ji Shaolei laughed, "However, television sets are the main product of Mingguang Electric."

"That kid?"

Ji Feng couldn't help but be slightly stunned, "Li Xin is a guy?"

"You think so?" Ji Shaolei burst out laughing, "What Xin is called must be a woman, ah? Women are also called something like tiger or leopard!"

Ji Feng couldn't help but laugh, in fact, when he heard Li Xin, he thought of Wang Xin, so he subconsciously thought that Li Xin was also a woman, but he didn't expect to make a joke

"Let's not be silly and stand around here, let's go in!" Ji Shaolei laughed.

The doorman, seeing that Ji Shaolei and the others were not ordinary people, hurriedly asked them politely what they came for, and after that, immediately called to make a request to the top.

About a few minutes later, a young man dressed in a suit, driving a four-wheeled electric car, arrived quickly!

"Mr. Ji, you're a rare guest!" The young man who got down from the battery-truck was about twenty-six or seven years old, wearing glasses, and the man appeared very civilized, but in good spirits, with a kind of elegant aura.

It was rare to find these qualities concentrated in a young man's body.

Ji Shaolei laughed, "Li Xin, who exactly are you calling with this Ji General? There are four people here with the surname Ji!"

"Hm?!" Li Xin was slightly stunned and subconsciously glanced at Ji Feng and the others.

"Let me introduce them, these are my brothers, brothers of the family!" Ji Shaolei smiled as he introduced Ji Feng and the others to Li Xin one by one.

"Several people, please come inside!" Li Xin said with a smile.

Chapter 956

Sitting on the battery car, driven by Li Xin to the office building of Mingguang Electric, along the way, Ji Feng also generally observed the scale of Mingguang Electric, there were more than a dozen workshops, and they were all in operation, a scene of feverish activity, it looked very good.

“Li Xin, your place is very prosperous.” Accepting the tea brought by his assistant, Ji Shaolei could not help but laugh.

Li Xin waved his hand, “What’s so hot? I’m just following those electrical predators, earning some money for meals, it’s no match for you, the president of a state-owned enterprise!”

“Bullshit!” Ji Shaolei couldn’t help but laugh: “I think there are seven or eight lengthened trucks out there, right? This is still not prosperous?”

Li Xin then laughed, and stopped being modest.

“I’ve heard that many large electrical groups have wanted to cooperate with you, and you’ve turned them all down, yet you’re determined to produce this kind of miscellaneous electrical appliances, but it’s still so prosperous, I have to say, your vision is still very sharp.” Ji Shaolei laughed.

Ji Feng and the three of them were drinking tea next to each other and listening quietly to the two of them chatting and exchanging pleasantries.

“It’s not that I have a sharp vision, it’s just that the high-end market is filled up by those big predators, so I can only take the low-end route!”

Li Xin waved his hand and laughed, “Actually, the high-end market and the low-end market are both equally lucrative. Especially in the electrical industry, the low-end market has a much broader prospect. For example, the extremely wide range of rural areas, the farmers’ income is low and so is their consumption, you ask them to buy a few thousand dollars a TV set, they will hesitate for a long time, or even prefer to buy a miscellaneous brand like mine The more the number, the more the profit will come up!”

Ji Feng was moved in his heart and couldn’t help but ask: “General Li, at the risk of asking, the low-end market is so vast, will this theory of yours work in other industries?”

He thought of the problem of Kang Yuan Slim Powder being copied, and now he hadn’t decided if he wanted to take the high-end route.

Now that he heard Li Xin talking about the low-end market, Ji Feng couldn’t help but associate it with Kang Yuan Slim Powder.

“This is hard to say, the key still depends on the market demand!”

The first thing you need to do is to get a car, but if it’s a car, it’s a different story. Many farmers have little income, and if they have to support one or two college students, they may even have problems eating.

Ji Feng couldn’t help but nod, “That makes sense!”

Li Xin smiled and waved her hand, “I’m just talking about it, I can’t take it seriously!”

Ji Feng nodded and smiled, he appreciated Li Xin's humble gesture, through that simple conversation just now, he could see that, just as second brother Ji Shaolei had said, Li Xin was very business-minded, his thoughts were clear, his vision was sharp, and he was so young.

Usually a person like this would have some arrogance in him or her.

However, Li Xin is very humble.

He is talented, but not arrogant. In this volatile market, he does not blindly follow the wind and recognises his own strengths and weaknesses, which is very rare!

Seeing Li Xin, Ji Feng suddenly remembered a person – the general manager of Jiangzhe Donghai Group, Zhao Yafan!

Li Xin and Zhao Yafan both had a unique temperament, they were wise and intelligent, but humble and without sharpness, and most importantly, they were both extremely capable in business, one person was enough to hold up a huge company!

If we say that Han Zhong has learned some business skills since he was a child, he has made rapid progress in practice and is an outstanding business talent.

Zhao Yafan and Li Xin, on the other hand, are the kind of people who have a keen sense of business.

There is no doubt that they are both extremely talented!

Not to mention anything else, just Li Xin's keen business vision alone made Ji Feng interested in working with him.

"Li Xin, I'm here today to show you something,," Ji Shaolei smiled slightly.

"Oh? What kind of thing?" Li Xin couldn't help but be a little curious, of course he knew that Ji Shaolei had brought a few of his brothers over, it couldn't just be that he had nothing to do to come and visit, moreover, with Ji Shaolei's status, there was no way he would be so bored, he must have brought something good.

"San'er" Ji Shaolei waved his hand and added, "Li Xin, lend you a TV set!"

"That's a good idea, I have a TV in the office in front of me" Li Xin laughed.

Several people came to another office, Ji Feng quickly connected the trigger, because the integrated circuit he developed last night was to be assembled on the main board of the TV, so now he could only use that rather bulky trigger.

"Li Xin, watch out, don't get scared later,," Ji Shaolei said with a bad smile.

"Be frightened?" Li Xin was stunned.

At this time, Ji Feng had already finished installing it and turned on the TV.

Snap!

An illusory three-dimensional light screen appeared, and a completely three-dimensional image appeared on the light screen, as if it was completely alive,3d technology reproduced!

“This, this” Li Xin was really stunned, “Chief Ji, you are”

This unreal stereoscopic technology is really too shocking, not that people have never seen 3d stereoscopic images, but the problem is that the application on the TV set has never been done before, this is definitely a major breakthrough!

“How about it, this technology is not bad, right?” Ji Shaolei laughed harshly. Looking at his gesture, it was as if he had developed this illusory stereo technology.

Li Xin, however, nodded his head repeatedly, “Good, good!”

“Now this trigger is still too bulky, I have an integrated circuit block here, assemble this on the main board of the TV, as soon as you turn on the TV, this stereoscopic image will appear!” Ji Feng laughed: “The TV set produced by such assembly should sell well, right?”

“Not bad! Definitely not bad!” Li Xin nodded, “Not to mention that, as soon as this kind of TV set goes on sale, it will definitely be grabbed like crazy, maybe, it will even be able to form a huge impact on those old TV sets, if the action is fast enough, it will definitely be able to grab most of the market” No, this kind of TV set, should take the high-end route”

Li Xin began to mull it over to himself, his eyes shining, as if he had already seen the tide of television sets being snapped up as soon as they hit the market.

Ji Feng then smiled: “Mr. Li, I’m actually here today to discuss with you, to see if we can cooperate, I’ll provide this kind of trigger, you can produce the TV set, or” other forms of cooperation are also possible, what do you think?”

“Do you have a patent for something like that?” Li Xin, however, did not hastily agree, but asked.

Ji Feng suddenly nodded secretly, knowing that this thing has huge interests, but still thinking so calmly, no wonder Li Xin was able to produce miscellaneous brand TV sets and still make a boom.

“I’m still applying for a patent, both sides at the same time well, we start production first, this side at the same time apply for a patent, anyway, in a short time no one will be able to crack this technology, and certainly no one will be able to imitate” Ji Feng smiled and said. “Now, it depends on whether Mr. Li is interested!”

Li Xin deliberated, he knew that this was an opportunity, but at the same time it was also a huge challenge.

With this kind of technology, not to mention the others, the sales of TV sets would definitely be big and scary.

But the problem was that once this kind of TV set was on the market, it would have a huge impact on the TV sets of other well-known brands, and at that time, once it had angered those large groups, it would face a succession of troubles behind it

“What, does Mr. Li still have any concerns?” Ji Feng asked with a smile, “Worried that after producing this kind of television set, the market sales will not be good?”

“That’s not true, except that” Li Xin hesitated for a moment and still voiced out his worries.

Ji Feng shook his head and laughed: “The rise of any product will certainly cause others to be eye-catching and even vicious, but if we don’t dare to do it because of that, then it’s really just choking. If others want to obstruct it, we can just step over it!”

“That’s true!” Li Xin nodded and smiled, “Well then, the matter of cooperation, we can talk about it!”

Ji Feng then couldn’t help but smile, “Since Mr. Li is so forthcoming, then how about this, I will have someone from the Tengfei Group come to talk to you, when the time comes, you can discuss in detail how you want to cooperate, okay?”

“Tengfei Group?!”

Li Xin was immediately taken aback again, “You’re from the Tengfei Group?”

Ji Feng shook his head, “The boss of the Tengfei Group is a friend of mine, so I’m doing the Tengfei Group a favour of sorts!”

No matter what time it is, it is always right to speak carefully, so Ji Feng didn’t admit his relationship with the Tengfei Group, he just said that he was friends with the boss of the Tengfei Group.

“So that’s how it is” Li Xin suddenly dawned on him, and that last bit of doubt in his heart was dispelled. He had heard of the Tengfei Group, which was now in full swing and had even merged the Xiao Pharmaceutical Factory, which had caused a big stir in Jiangzhou.

With the Tengfei Group as a backing, it could compete with those old TV companies!

After finalising the cooperation with Li Xin, Ji Feng and the others did not stay much longer, they just went to the workshop of Mingguang Electric and had a look around, and then left.

Afterwards, Ji Feng went to the headquarters of the Tengfei Group and explained to Han Zhong and Xiao Yuxuan about the cooperation with Mingguang Electric, while demonstrating the application of the Unreal Stereo Technology once again.

There was no doubt that Han Zhong was also shocked. Xiao Yuxuan was much calmer because she had already seen it last night, but when she saw it again, she was still somewhat shocked.

Han Zhong was immediately interested and decided to personally negotiate with Mingguang Electric about cooperation. The application of this illusory three-dimensional technology, even a fool can see its market prospects, Han Zhong will naturally pay more attention.

After doing this, Ji Feng then called his second brother, Ji Shaolei, and smiled, “Second brother, you should talk to Ji Shaohong, next, we are going to inspect the De Xing Electronics Factory in Huahe County!”

Chapter 957

Time came to the end of April and in the blink of an eye, it was May.

Before that, Ji Shaohong had already returned to Yanjing by plane first, and then transferred from Yanjing to train to Huahe County. Because there was no airport in the nearby cities of Huahe County, the

train became the most convenient means of transport, plus it was about to be a holiday and Ji Shaohong, the county head, had to go back to preside over the work.

What's more, Ji Feng and the others were going to visit the De Xing Electronics Factory in Huahe County, and Ji Shao Hong had to go back early to pave the way for them, so he returned early.

Early in the morning of April 30th, Ji Feng and the others met up at his villa and prepared to take the train to Huahe County.

Ji Feng's party was quite large.

The reason is that before the holiday, the school has been closed, so Ji Feng also intends to take advantage of this opportunity to take Tong Lei and Xiao Yuxuan out for a walk, travel or not, but go out for a walk, but there is always a different taste.

The first time Zhang Lei heard this idea from Ji Feng, he was energized again and decided to take Shen Jingyi with him to Huahe County, and also let Shen Jingyi feel the life of the north in advance.

The team had ten people, plus Han Zhong, who was mainly responsible for visiting the De Xing Electronics Factory in Huahe County, and the two assistants he brought along.

It's quite a party!

Since tomorrow was the May Day holiday, when Ji Feng and the others arrived at the Jiangzhou Railway Station, until they squeezed onto the train, even Zhang Lei and Han Zhong, who had always been in good health, couldn't help but break out in a sweat!

As for Shen Jingyi and Xiao Yuxuan, they were better off. With Ji Feng in front of them, the girls got on the train very smoothly.

"Boy!"

Han Zhong couldn't help but laugh bitterly: "Fortunately we bought tickets in advance, otherwise, I'm afraid we wouldn't even be able to get on the train"

Ji Feng smiled faintly: "That's because you rarely go out, if you take the underground in Jiangzhou, the same is true, especially during the peak commuting period, or during holidays, you can squeeze in are considered capable, in the car feet do not touch the ground is also very normal."

"It's time to improve this traffic!" Zhang Lei also shook his head and laughed bitterly, usually it was fine to go out, after all they all had cars, they could just drive there directly.

But this Huahe County was so far away that it would take at least ten hours to drive, so they could only take the train.

But the traffic situation on the train is also like this

"Now you can appreciate the hardship of those migrant workers when they return home, right?" Ji Feng laughed.

"Alright, you guys stop chatting for now and sit down!" Xiao Yuxuan said.

Several people joked and laughed as they sat down on the seats, Xiao Yuxuan, Tong Lei and Shen Jingyi, the three women, sat opposite the three of Ji Feng, Han Zhen and Xiao Ying, as well as Han Zhong's two assistants, sat on the seats behind Tong Lei.

And at this time, because the train was so crowded, the carriage was full of chirping noises and the cries of small children, a lot of noise.

Ji Feng turned his head to look at another seat opposite the corridor, where a middle-aged woman of about fifty years old was sitting respectively, followed by a little boy of six or seven years old next to her. On the opposite side of the middle-aged woman sat a young young woman, who was also holding a small child of about one year old at most in her arms, but it was impossible to tell whether it was a boy or a girl!

Ji Feng couldn't help but shake his head and smile, small children are very cute when they are small, it is hard to tell at a glance whether it is the gender or not. However, perhaps because it was too crowded, this little one was in his mother's arms, crying in fear, and the young woman could only keep comforting him.

The three women, including Xiao Yuxuan, looked at the little guy who was crying and couldn't help but reveal a smile, and even, in their eyes, there was this glimmer of hope.

Ji Feng couldn't help but be moved in his heart, it is said that every girl is motherly, perhaps, they also want a child?

I also do not know, in the future, their own children, what will be like

It was not until more than twenty minutes had passed that the train finally began to move slowly.

And by this time, most of the people on the train had also found their seats, and passengers with standing tickets had also found a place to stand, and the atmosphere in the carriage had gradually cooled down, and the people could not help but breathe a slight sigh of relief.

"Han Zhong, over in Huahe County, you need to consider sending a few people over there." Ji Feng said, "Is there a suitable candidate?"

Frankly speaking, Ji Feng did not trust the management of the De Xing Electronics Factory. In the beginning, a good De Xing Electronics Factory was actually managed by them into this state, to say that these people who managed into it were not responsible, no one would believe it.

To be a leader, the first thing is to have a long-term and strategic vision, since it has long been known that the technology of the De Xing Electronics Factory is backward, it should start early to introduce new technology.

What is a leader for? That is to develop the business in a good direction!

But look at what the people at the Dexing Electronics Factory are doing?

Han Zhong nodded and said: "There are candidates, it is enough to send a few people to the three areas of finance, management as well as production. However, my biggest concern is that Huahe County is too far from Jiangzhou, how should the electronic components produced be transported?"

“Don’t worry about transportation, it can be done via train or logistics, Huahe County has a direct train to Jiangzhou, it will take at most ten hours to get there by train.” Ji Feng said.

“What about security?” Han Zhong asked, “The market prospect of this trigger is predictable, in this case, someone will definitely hit the idea of De Xing Electronics Factory, which requires strict security

Ji Feng laughed: “The security aspect is even less to worry about. Now Tengfei Network Company has developed an encryption protection program, once someone breaks it, the trigger will be automatically destroyed, at least no one will break this technology in a short time, which is enough to give us enough time to open the market.”

“Then there’s no problem.” Han Zhong smiled.

Ji Feng nodded and said, “Your main task when you go to Huahe County is to pay attention to some of the problems that exist in the De Xing Electronics Factory and its market value, and when we acquire the De Xing Electronics Factory, the problems that exist will have to be solved immediately!”

“Don’t worry, I know what to do!” Han Zhong said with a nod.

Ji Feng then nodded his head.

“Anyway, there’s nothing to do now if we’re idle, why don’t we play cards?” Zhang Lei suggested, “I’ve brought two decks of poker

“Good!” Ji Feng nodded and smiled.

Tong Lei’s nature, naturally, would not participate, while Xiao Yuxuan took out a book on management and buried her head in it.

“I also want to read a book” Shen Jingyi pursed her lips and took out a novel and read it.

Ji Feng immediately lost his smile: “Lei Zi, it seems that no one agrees with your proposal.”

Zhang Lei then got a little depressed, “You guys, no fun at all

Forget it, I’d better sleep!”
The train’s speed gradually picked up and the carriage returned to calm, but it was the two passengers across the corridor that were climbing up the conversation.

“Big sister, where are you going?” The middle-aged woman with the little boy struck up a conversation with the young woman opposite.

The young woman smiled and said, “We’re going back to Huahe County.”

“What a coincidence, you’re from Huahe too?” The middle-aged woman said with surprise, “Then we’re still old-timers, I’m also from Huahe!”

“Oh?”

It was nice to meet a fellow countryman on the train, and the young woman couldn’t help but smile, “That’s a great coincidence.”

“Yes, yes, I didn’t expect to meet a hometown in a big city like Jiangzhou either!” The middle-aged woman also said happily, “Big sister, are you visiting Jiangzhou with your child?”

“No, my sister has found a boyfriend in Jiangzhou, so I came to see him, just as a travel trip.” The young woman said.

“Aiya, you still have the child with you, it’s not convenient to go out.” The middle-aged woman said.

The young woman smiled, “It’s good to get used to it.”

“That’s true!” The middle-aged woman laughed, “What a beautiful child you have, is it a boy or a girl?”

“It’s a boy.” The young woman said.

“Good for a boy, good for a boy!” The middle-aged woman smiled even wider, the wrinkles on her face squeezing together, “Still an only child, right?”

“No, there’s a girl on top, we’re allowed to have a second child there, aren’t we?” The young woman said.

“Yes, yes, yes

It was this simple conversation, but it caught Ji Feng’s attention.

He always felt that the middle-aged woman opposite the young woman, her smile seemed a bit fake, and her eyes had a strange glow that looked very greedy!

That’s right, it’s greed!

This kind of look, like a hungry wolf that has seen its prey, is very strange!

Ji Feng couldn’t help but frown slightly and secretly said, “Maybe I’m overly concerned, people themselves are strangers, it’s normal for their smiles to be a bit fake

But next, the middle-aged woman’s words were more to Ji Feng’s attention.

The reason is that as the two of them talked, the middle-aged woman asked the young woman a few questions from time to time, and the vast majority of them were about the young woman’s children.

For example, what is the name of the young woman’s child ah, how old is the child, born in Huahe County or in Jiangzhou, which hospital and so on and so forth!

These questions, which are simply much more detailed than even a police officer visiting a home to check the household account, are really a bit too much!

And when the young woman in the middle seemed to be going to the toilet, the middle-aged woman enthusiastically tried to help the young woman carry the small child, but was refused by the young woman and instead carried her son with her to the toilet.

Just as the young woman was going to the toilet, the middle-aged woman took out her mobile phone and sent a quick text message, to whoever it was!

When the young woman came back, the middle-aged woman once again enthusiastically climbed up to talk to her.

Ji Feng couldn't help but glance at the faces of the middle-aged woman and the young woman for a few moments, and then, his gaze fell on the little boy that the middle-aged woman was carrying.

He found that the little boy was actually staring straight at the little baby in the young woman's arms as well!

"Something is not right, something is definitely not right!" Ji Feng couldn't help but say secretly.

The young woman who was holding the little baby seemed to similarly sense that something was wrong, and Ji Feng could see a wary glint in her eyes.

"Forget it, I couldn't care less about other people's affairs" Ji Feng shook his head.

Time passed quickly and at 4:00 pm, the train arrived at Huahe County Station and everyone started to get off.

And at this time, Ji Feng saw a wolf-like glint in that middle-aged woman's eyes!

Something was going to happen?

Chapter 958

"Huahe station is here, please get ready for passengers getting off" the voice of the steward, through the announcement in the carriage, reached all the passengers, while another steward was at the door ready to open the door, also announcing the station.

"We've arrived in Huahe County, let's pack our bags and go." Ji Feng said.

Several people then started to pack their luggage, in fact, they didn't bring much stuff with them to come here, most of them were some change of clothes, and they finished packing them with just a suitcase, it was very simple.

"Oops! We're here!"

Just as Ji Feng and the others were following behind the others and preparing to get off, the middle-aged woman across the corridor said at once, "Big sister, let's hurry up and get off!"

"Okay!" The young woman nodded her head.

"By the way, big sister, is someone coming to pick you up?"

The middle-aged woman asked, but her eyes flicked unnoticed to the little baby in the young woman's arms.

The young woman shook her head, "No, the family is a bit busy, no one might come!"

"Oops, you have the baby with you, how can you wake up without someone to pick you up, you still have the baby" The middle-aged woman was shaking her head and said, "Let's do it this way, it just so happens that our family came to pick up me and my grandson, there is also a car, so just drop by and I'll give you a ride!"

“No, no, no!” The young woman also seemed a bit wary, so she shook her head and refused.

Zhang Lei, who was walking ahead, looked back and couldn't help but laugh, “I really didn't expect people here to be so welcoming!”

“.....” Ji Feng couldn't help but shake his head slightly and said with a wry smile, “You said that middle-aged woman was enthusiastic about people? Oh, I don't think so!”

“How do you say that?” Zhang Lei laughed, “People are so enthusiastic about helping, and you haven't seen you go help them out!”

Ji Feng laughed, “Does that young woman really need help? Not necessarily, right?!”

“Is that so?” Zhang Lei looked back with some confusion, “A woman with such a small child and luggage, how can she not need help when she needs someone to give her a hand!”

Ji Feng laughed and didn't argue with him about it, anyway, in Ji Feng's opinion, the middle-aged woman's eyes and behavior were very abnormal, they were definitely not the eyes of an ordinary middle-aged man should have.

“Just now on the road, that middle-aged woman seemed to be getting close to that young woman.” Tong Lei said next to her, “I have a feeling that that middle-aged woman is not a good person.”

Zhang Lei couldn't help but be stunned, “Not a good person? How bad can it be?”

“Ji Feng, are you being too suspicious?” Xiao Yuxuan and the others weren't too convinced either and said, “After all, people are enthusiastic to take the initiative to help, so just don't encourage such behavior, but actually suspect people, this is not a good habit for you!”

Ji Feng couldn't help but smile bitterly: “How come in the end I'm the bad guy instead?”

Xiao Yuxuan pursed her lips and laughed lightly, “Okay, okay, hurry up and get off, don't let people wait outside!”

When they were still halfway there, Ji Shao Hong had already called and told Ji Feng that he had sent someone to wait for him at the exit of the station, now counting, it had been more than two hours.

A few people quickly got off the train and followed the passengers in front of them out of the exit, and they were greeted by a station square of a good size, with yelling and hawking everywhere, and many people asking passengers if they wanted to stay in a hotel, as well as those taxi drivers waiting

It was a lively scene!

The square was equally full of people, and Ji Feng and the others were standing together, looking around for the people who had come to pick up their cars.

Just then, a familiar voice suddenly came from the side: “Big sister, this acquaintance is a kind of destiny, look we are all about to part, this son of yours is so cute, let me give him a hug!”

Ji Feng and the others immediately turned around and saw that about four or five metres away from them, the middle-aged woman was saying with a smile on her face.

The young woman opposite her seemed a bit hesitant, but eventually nodded and said, "Sure."

"You guys look at, " Ji Feng said in a low voice.

Several people were stunned, and immediately followed his gaze, and saw that behind the young woman, three or four people had gathered around, and among them was a woman wearing a red jacket, about the same age as the young woman. What made people frown was that they all seemed to have some kind of odd expression on their faces, which looked very strange.

And at this time, the middle-aged woman had already taken the little baby from the young woman's arms, and at the same time, she shot a wink at the few people behind the young woman.

At that moment, the little boy next to the middle-aged woman suddenly pointed at the young woman and shouted, "Bad man, don't take my brother away!"

The young woman was stunned, and before she could react, she saw several people suddenly rush over beside her, and one of them, a woman in a red jacket, snatched the baby from the middle-aged woman's hand, hugged it and cried out in pain.

"My son! My son, mommy has finally found you, my good son" As the woman in the red jacket cried out in pain, several of her companions who had come with her, stood directly around, blocking the way of the young woman from before.

At this time, the young woman finally reacted, these people, actually tried to use this method to rob her child!

"Give me back my child!" The young woman screamed and was about to lunge forward, but she was blocked by several men, no matter how she struggled, she couldn't get through, she could only scream loudly, "Help, someone is trying to snatch my child, help!"

With this shout, she immediately attracted all the people around her, and they gathered around to talk.

"Help, this woman is trying to rob my child!" To everyone's surprise, the young woman in the red jacket also shouted out, while holding the child and about to run, but was blocked by the onlookers.

"You're nonsense, that's my child, give me back my child!" The young woman from before panicked, crying with extreme sadness and fear, "Give me back my child, give me back my-!"

"You shameless woman, you want to steal my child and you dare to turn it upside down!" The young woman in the infrared jacket was furious, with tear marks on her face, she said loudly, "This is my son, his nickname is Black Egg, his first name is, born in the First Hospital of Huahe County, his birthday is, "

In a short moment, she said some basic information about that little baby, "Say, what is your son's name, his birthday, his birth address, you say it all, let's let everyone comment on it!"

And the young woman was confused after hearing the words of this infrared set young woman, she turned pale and suddenly screamed, "I see, you are all in cahoots, that old thing set me up on the train, and then you united to rob my son! Give me back my child-!"

Yet, as much as she shouted and grieved at this time, everyone around her somewhat disbelieved her, because the young woman in the infrared set had given all the information about the little child, and this young woman couldn't!

This young woman cried and cried, the kind of sadness that the child was about to be snatched away, it was really like a cuckoo crying for blood, but there were several men blocking her, how could she not snatch her child back, finally let out a loud cry, crying that sadness, at this time, I am afraid her heart was broken.

"Motherfucker, a bunch of animals!" Zhang Lei was furious, "In broad daylight, how can these brutes be so bold, actually dare to rob someone's child openly Laozi will get these inhumane brutes to death!"

Ji Feng shook his head slightly: "See, I told you guys earlier that that middle-aged woman who was so enthusiastic might not really be kind, now you know, right?"

"What's the point of wasting words, hurry up and help snatch the child back!" Zhang Lei said.

Ji Feng laughed, "Of course we have to help snatch the child back, but we can't be reckless, look around carefully!"

Zhang Lei was slightly stunned and quickly scanned the week, only to find that among those gathered around, there were a few brawny men who didn't look like good guys and were staring warily at the people around them.

"These bastards are all in it together?" Zhang Lei asked.

Ji Feng nodded: "It should be about the same Lei Zi, you and Han Zhen stay behind to protect Yu Xuan and the others, I'll go and snatch the child back"

Before he could finish his sentence, Zhang Lei rushed over and dropped a sentence, "You protect them, I can't help it, I'm going to kill someone!"

And at this time, the young woman with the infrared jacket was saying, "Shameless liar, still trying to snatch my child, you should let the police arrest you ignore her, let's go!"

"Slap!"

The next moment, a slap fell hard on her face, instantly knocking her entire body to the ground at once, and the child in her arms also came off and was held in Zhang Lei's arms.

"Lowly woman!" Zhang Lei coldly cursed angrily, "I didn't want to hit a woman, but you bitch is so hateful that beating her to death won't even relieve my hatred!"

With this slap, not only did he confuse the woman, but also the middle-aged woman next to him, as well as the men, all froze, how could a man suddenly appear and hit someone directly?

Immediately, those people finally reacted, and one man roared, "Fuck you, go to hell!"

Several people pounced on him and were about to hit Zhang Lei.

“You’re the ones who are going to die!” Zhang Lei was so angry that he shouted, holding the child in one hand, but his two feet were like two iron pillars, and he struck the shoulder of the first man with a lightning bolt, and the man fell to the ground with a miserable scream, rolling around in pain.

Zhang Lei didn’t have the slightest intention to stop, and kicked several people behind him, knocking them all to the ground.

Slap!

Another slap on the middle-aged woman’s face, “You shameless old woman, why don’t you go sell your children if you’re so shameless?”

At this time, several big men hiding in the crowd also rushed over, Zhang Lei let out a fierce laugh: “Grandpa just hasn’t had a good fight yet, you’ve come just in time!”

He shouted and actually took the initiative to pounce on them, and his harsh attacks put down several big brawny men in the blink of an eye.

“Bang!”

Zhang Lei kicked a man, “Bastards! I’ll let you all lose your conscience!”

Chapter 959

Zhang Lei was holding a small baby in his arms, but his two feet didn’t stop, kicking those men and the few big men who came out later to scream in agony, none of them had broken arms or legs.

The two women, especially the middle-aged one and the young one, were not beaten to death by Zhang Lei, which was after all not something a man should do. However, Zhang Lei slapped them several times in a row!

That scene was really a bit shocking.

The onlookers were so frightened that they took a few steps back, afraid that Zhang Lei might get angry and hit them too. They didn’t think Zhang Lei would dare to fight just because there were more onlookers, but there must have been at least seven or eight of them, but Zhang Lei kicked them all to the ground, and none of them could get up now!

With Zhang Lei’s fierce look and his sword-like gaze, and looking at the people lying on the ground who were still screaming, none of the onlookers dared to come up, not even the courage to speak, they could only talk secretly.

Not only the onlookers, but also the mother of the baby, the young woman, was shocked by Zhang Lei’s fierceness.

But soon, she rose from the ground again despite everything and rushed towards Zhang Lei, shouting out of her mouth, “Give me back my son! Give it back to me quickly!”

Zhang Lei carefully handed the little baby over to the young woman, who held the child and let out a loud cry.

Just a little bit, today her child was going to be snatched away from her, that terrified aftermath, and the pain of almost losing her child, made the young woman's entire body fall into a kind of extreme panic, not even knowing what to do or say now, only knowing to hold the child and cry bitterly!

There is nothing more painful in life than parting from life and death!

Today, this young woman was almost separated from her son alive, that kind of fear and panic, how can a woman bear it?

So until Zhang Lei turned to leave, the young woman did not even think of thanking him.

Zhang Lei was gloomy, but not because the young woman didn't thank him, but because he hated those brutes who snatched the child, they had no conscience at all, they were heartless, in such broad daylight, they snatched the child from the hands of a mother, how cruel!

"Lei Zi, you were very powerful just now!" Han Zhong laughed, "Three punches and two kicks, and you beat those beasts with fear, awesome!"

"Hmph!"

Zhang Lei couldn't help but snort coldly, his face was grim, "Those brutes, they have no humanity at all, if it wasn't for the fact that this is a public place, I would want to scrap them all one by one, damn it! Such people are no longer worthy of being human, so what's the point of keeping them!"

Ji Feng couldn't help but shake his head, "These people must have something to fall back on for daring to do this, and, looking at their skilled appearance, it's definitely not their first time."

"Yes!" Han Zhong nodded, "Look at that young woman in the infrared jacket, mother, that's really talking about crying, holding someone else's child, or committing a crime, snatching someone else's child, and actually managing to cry heartbreakingly, looking as if she's even sadder than someone's child's own mother, she can practically go on to become a movie queen! If you didn't have a thousand times of practice, you definitely wouldn't be able to reach such a level!"

"Anyway, today's incident is a lesson, be careful when you go out in the future, you don't know if that smiling 'acquaintance' next to you is a good guy or a bad guy!" Ji Feng couldn't help but shake his head, "Just like today, if it was us that people were trying to set up, and it was on their turf, it would be very troublesome!"

"When you guys say that I do remember!" Zhang Lei suddenly frowned slightly, "It's been so long since it happened, how come the police haven't arrived yet? Crazy, didn't you call the police?"

"I reported it to the police a long time ago, but then I haven't seen any police!"

Ji Feng shook his head and said, "Did you see, just in front where the exit was, there was only one security guard and it was blocked by those onlookers, it was impossible to see what was going on inside, even if he wanted to ask questions, how could he squeeze in?"

"Motherfucker, what kind of law and order is this" Han Zhong also couldn't help but curse, "If it was in places like Jiangzhou, there would be police patrols in the train station square, this small county actually only arranged a security guard! "

Woo woo woo woo~~~!

Suddenly, the sound of police sirens came from not far away and were rapidly approaching.

“The police are finally here!” Ji Feng couldn’t help but smile slightly, “Just like what happened in the movie, they all rushed to clean up the battlefield only after it was done”

Just then, in the direction where the sirens were coming from, there was a sudden burst of angry shouting, as if someone had gotten into a fight. The people who had been beaten by Zhang Lei and were screaming on the ground, as soon as they heard the sirens coming, they were so frightened that their faces turned pale and they didn’t care about the bruises they had received from Zhang Lei, they hurriedly gritted their teeth and got up to escape!

The people around them wouldn’t let them go, to say the least, the more brave the people in these small places are, unlike people in big cities who have all kinds of worries. This county is such a big place, we don’t see each other, and we can’t figure out who the bad guys are now, so no one should leave, they should stay and wait for the police to deal with them.

Those onlookers stopped the people at once.

“Damn it! Get out of my way, all of you!” One of the men who wanted to snatch the child actually took out a fruit knife from his pocket and was about to stab the crowd in front of him, which scared the crowd in front of him and made them move aside.

“That son of a bitch is running!” Zhang Lei was about to chase after him.

“Give me the mineral water!” Ji Feng said.

Han Zhong hurriedly handed the drink in his hand to Ji Feng, who took the drink bottle, weighed it in his hand for a few times, flung his hand violently and smashed it fiercely towards the fleeing guy.

Bang!

The drink bottle smashed right on the guy’s head, instantly knocking him unconscious.

Ji Feng shrugged his shoulders, “Solved!”

“Awesome!” Zhang Lei laughed and gave a thumbs up, Ji Feng and that fleeing guy were more than ten meters away, but Ji Feng casually smashed the guy unconscious, Zhang Lei asked himself, if it was him, he would definitely not be able to smash it so accurately!

The others didn’t dare to run after this smash, they all stood there frozen, some of them were so badly injured that they could only lie on the ground and moan in a low voice.

Ji Feng turned his head and frowned: “Why haven’t the police come yet? This distance of a few dozen metres is so difficult to walk, with a thousand mountains in between, huh?”

“It seems to have been obstructed by the fight!” Xiao Yuxuan’s eyebrows knitted together, “How can it be such a coincidence? Do you think that the fighters and the child snatchers could be the same group?”

“That’s something we’ll have to let the police investigate.” Ji Feng said, “You guys keep an eye on it first, be careful not to let anyone get away, I’ll make a phone call”

“Don’t worry, who dares to run away, I’ll knock his legs off alive!” Zhang Lei said viciously, he hated these heartless people to the core.

However, Ji Feng had just taken out the phone when he saw Tong Lei suddenly say, “Ji Feng, is that the person who picked us up in front?”

Ji Feng was stunned, and following his gaze, he saw a tall sign held up behind the crowd of onlookers, with the words ‘Jiangzhou Ji Feng’ written on it.

“It should be here to pick us up!” Ji Feng faintly nodded his head.

At this time, the person holding up the sign finally pushed his way through the crowd, but was a middle-aged man of about forty years old with slightly balding hair. At this moment, he was sweating profusely in a hurry, looking around and holding his sign up high.

“Hello, this way!” Han Zhong waved, “The person you’re looking for is over here!”

The middle-aged man was stunned and then hurried over, “Excuse me, are you from Jiangzhou? Which one is Mr. Ji Feng?”

“I am!” Ji Feng said.

The middle-aged man instantly lit up and a bright smile immediately appeared on his face, “Hello hello, I’m Fang Damin, the director of the county government office, I was sent here by County Governor Ji!”

This middle-aged man named Fang Damin had extended his hand as he spoke.

Ji Feng smiled and shook his hand: “Hello, Director Fang, I’m sorry to bother you for running”

“No no Mr. Ji, and everyone else, our car is right in front, please follow me!” Fang Damin said with a smile on his face, “Prefect Ji has already arranged a place for you all to stay.”

“Director Fang, don’t rush off first, there’s something over here” Ji Feng pointed to the young woman sitting on the ground holding her child and said, “Just now those bastards tried to snatch her child, but the police seem to have been pestered as well, I don’t know if Director Fang can take care of it?”

“Oh?!” Director Fang was stunned, “There’s actually such a thing? Please don’t worry, I’ll take care of it immediately! Please leave first, the Governor is waiting for you!”

“Then I’ll be grateful to Director Fang!” Ji Feng nodded and smiled.

“Please follow me!” Director Fang immediately brought Ji Feng and the others to the road in front of the square, where three cars were parked, waiting for Ji Feng and the others.

After arranging for Ji Feng and the others to get in the cars, Director Fang didn’t follow them, but went to deal with that child snatching matter.

“Crazy man, why are you in such a hurry to go? We haven’t seen what really happened to those beasts yet!” Zhang Lei was a bit puzzled, “I’m a bit reluctant not to see them locked up!”

Ji Feng couldn't help but laugh, "Why do you have to see it with your own eyes? If we are here, we won't be of much use. If we are needed to testify, it won't be too late to go over there. What's more, it's better to talk to Ji Shao Hong directly about this matter, it's always more useful for him to speak here than us, right?"

"That's true!" Zhang Lei nodded his head, and then said in a hateful voice, "Damn, this only happened in the station square, if it was in a quiet place, I wouldn't have finished until they were crippled!"

"I'm afraid it's not over now either!" Ji Feng said.

"What do you mean?" Zhang Lei couldn't help but be stunned.

Ji Feng hummed, "We should be targeted, I guess, 80% of them are the accomplices of those child snatchers Look behind us!"

Chapter 960

Someone was following?

Zhang Lei and the others were startled and snapped back to look, but they didn't see any suspicious characters, just people constantly going to the station square to look around, it seemed very lively.

"No need to look, even if someone is following then they won't let you find out long ago!" Ji Feng couldn't help but laugh, "Those people not only know how to act, but they are also very well disguised, they casually stand in the crowd, that is an ordinary citizen, no one will notice them."

"But in reality, they are hungry wolves who eat people without spitting out their bones!" Zhang Lei snorted coldly.

Ji Feng laughed: "I reckon ah, this way they will definitely change people to follow, haven't really seen that this gang actually has so many people grouped together, this is simply a large gang"

"That's for sure!" Han Zhong followed suit, "That gang is so skilled at acting, that woman in the infrared jacket could just cry out in pain while holding the baby, and that little boy who is a few years old, he must have been trained too, otherwise he wouldn't have said that the baby was his brother as soon as he left the station... .."

"Their division of labour was very clear, who was responsible for setting up the story, who was responsible for grabbing the baby, who was responsible for covering and picking up these jobs had been assigned a long time ago, otherwise they wouldn't have worked so well together!" Xiao Yuxuan said, "But there is one thing that none of us seem to have noticed, after they snatch the child, where will they send it to? Or rather, to what? Also, who is responsible for sending the child away and how?"

"You mean, talking about some subsequent division of labour!"

Ji Feng nodded slightly, "That's why I said, this matter is far from over, moreover, there are definitely quite a few people in this gang, and since they dare to rob the children right here in the train station square, it means that they are the local ground snake like this, when you girls go out in these few days, you You must go out together, and your mobile phones must not be turned off!"

“Don’t worry, with Zhen Zhen and Xiao Ying and the girls around, who can do anything to us?” Xiao Yuxuan said, “You, don’t worry about it, just get the job done.”

Ji Feng smiled and nodded, but in his heart he was still a bit uneasy, not to mention that who knows when these snakes will strike, in case they really play some tricks, it would be impossible to defend against them, you know, just from what I saw in the station square today, it is enough to prove that those people are very cunning!

Cunning, ruthless and heartless

When such a group of people get together, the ideas they come up with are definitely more vicious than one another, absolutely unguardable and simply unpredictable.

And although Han Zhen and Xiao Ying have extraordinary skills, however, they do not have much social experience, a small tactic of others is enough to make them fall into the way of others, or be directly transferred from the mountain, then the remaining Xiao Yuxuan and Tong Lei, are not in danger?

“This gang is so rampant, why doesn’t anyone take care of it?” Tong Lei is but a slight frown, “small places do not have to be so chaotic ah, the normal should be the big cities chaotic some”

She also came out from a small place like Mang Shi County, naturally she knows that this small place is actually very peaceful, but how come this Hua He County, is actually so chaotic, just got off the train and encountered this kind of thing, those people’s guts are too big, right?

“Since they dare to do so, it proves that they must have something to fall back on” Zhang Lei said mockingly, “I also don’t know what the police in this Huahe County are doing for food, it’s really for cleaning up the battlefield! ”

A few people are shaking their heads and laughing, and do not know what to say, anyway, today encountered this matter, quite let them haunted, especially the gang of heartless beasts, see them, is like eating a fly like, all uncomfortable, more disgusting!

.....

The county town of Huahe County is not very big and not very prosperous, it looks like a very traditional northern county town, the greenery and streets are not too good, there are still a lot of old buildings on both sides of the street, the former kind of private houses, which look very decayed.

However, Ji Feng and others look at it very kindly, because Mang Shi County is also the same, only in the heart of the county, there are some slightly upscale restaurants ah, hotels ah and so on, in fact, the surrounding area is still so dilapidated.

In this respect, the two counties are very similar! So when they came here, Ji Feng and the others were as if they were back in Mang Shi County again, very dear. Although Ji Feng had been in Mang Shi County for more than ten years, what was left there was mostly hurt and mockery, but there was a special feeling of that hometown where he grew up.

What’s more, in Mang Shi County, Ji Feng befriended Zhang Lei, his brother, had Tong Lei, his girlfriend, and met Xiao Yuxuan

About twenty minutes later, a group of people arrived at the county government guest house, and Ji Shao Hong also rushed over.

“Little Feng, it’s been a hard journey!” Ji Shaohong said with a smile.

Ji Feng waved his hand and smiled, “Brother Shao Hong, let me introduce you to

He introduced Xiao Yuxuan and the others to Ji Shaohong one by one, and the beauty of several girls immediately caused Ji Shaohong to marvel for a while, Ji Feng’s peach blossom luck was really enviable.

The two girls, one charming and one beautiful, stand together to complement each other, really make people can’t take their eyes off.

However, Ji Shaohong will not stare at Xiao Yuxuan and Tong Lei, not to mention that they are Ji Feng’s girlfriend, just Ji Shaohong as the head of a county, itself will not indulge in female sex.

He shook hands with Han Zhong and the others and smiled, “Mr. Han, welcome!”

After a few people had exchanged pleasantries, Ji Shao Hong then arranged for them to stay in the guest house. In fact, when it was said to be a guest house, it was only in name. This guest house was not much worse than a hotel, and the various facilities inside were still perfect, and it was very comfortable to stay in.

When everything was arranged, it was already dark and Ji Shao Hong was the host and invited several people to have dinner in the guest house.

Han Zhong first talked about the cooperation with Mingguang Electric, and agreed to visit the De Xing Electronics Factory tomorrow, and then the banquet was officially started.

Ji Shaohong’s side, in addition to himself, there are two county government staff, as well as a deputy county governor for company.

At the table, Ji Shaohong suddenly took the initiative to mention the child snatching incident that Ji Feng and the others encountered at the railway station square today, “Little Feng, Director Fang has already greeted the police, however, tomorrow, you still need to take a statement and give a confession!”

Ji Feng nodded and said, “No problem! But frankly speaking, I can’t compliment you on the law and order in Huahe County, I just got off the train and encountered such a thing, and that gang is still so reckless, it’s simply lawless! But then, after we reported to the police, the police took a full ten to twenty minutes to arrive at the scene

When this was said, the deputy governor and the two staff members beside Ji Shaolei all blushed a bit, after all, this matter is really not very honorable, this is really some

“The police force in the county bureau is limited, this time catching a few, hopefully we can follow the vine and wipe out this heartless gang!” Ji Shao Hong said, “Actually, this kind of thing has happened before and from time to time, but because it happened mainly in rural areas at the time, it was difficult to investigate, so there has been little progress. It should be much better now!”

Ji Feng nodded, he also knew that many of the cases in this local area, when handled, were not like those played out in TV and movies, what kind of divine detective police and so on could see where the

problem was at a glance, that was all bluff, local cases, some of which could not be solved for years or even a dozen years, there were many of them!

“If we could focus on cracking down on a bunch of these child snatching crimes, it would at least make certain people much more restrained, instead of being like what they are now, actually daring to snatch children right in broad daylight, it’s just heartless!” Ji Feng said.

Ji Shao Hong then nodded with a bitter smile, “Yes

The deputy magistrate next to him said, “Mr. Ji, you don’t know anything, since you are the brother of our magistrate, I’ll say it straight, it’s not that our magistrate doesn’t want to crack down on these criminals, but

alas, on the one hand, the police are not very cooperative, on the other hand, everyone has a legend that this kind of case has something to do with some people are involved

Ji Feng’s brow furrowed: “You mean to say that behind this kind of case, someone is backing it up? What kind of person has so much guts?”

“Let’s not talk about that, drink, let’s drink!” Ji Shao Hong then snorted and didn’t continue, just picked up a glass of wine and drank freely with Ji Feng and the others.

And Ji Feng understood through his performance, it seems that the people standing behind these cases, or some of them, at least, let Ji Shaohong all become have the strength but can not use, constraints a lot of ah!

The dinner is over, the guests and hosts are happy.

At the time of parting, Ji Shaohong whispered in Ji Feng’s ear: “Little Feng, half a year’s time, half a year at most, I will finish off those beasts, no matter who is standing behind him. I, Ji Shao Hong, will not disgrace the Ji family, otherwise, I wouldn’t be worthy of being your cousin!”

Ji Feng then gave a thumbs up, “Second brother, good job! I believe in you!”

If we counted the entire third generation of the Ji family, Ji Shaolei was actually the third oldest and Ji Shaohong was the second oldest, so this sentence of Ji Feng, Second Brother, was actually a true acknowledgement of Ji Shaohong as a cousin.

The two brothers looked at each other and smiled, everything was in the air.

“By the way, it seems that Wu Zhihe is also in Huahe County, exactly where he landed, we haven’t found out yet

” Ji Shaohong reminded again.

Ji Feng laughed: “Oh? It’s just as well that he’s here, I was hoping to meet him! Since we’ve already torn our faces off, I’m going to see just how far he can bounce!”
