

Campus Master 991-

Chapter 991

It was just before dawn, and the darkest time of the night.

It was at this time that a dozen figures, silently flashing by, did not startle any waves, and even if there was a slight sound of footsteps, it was overshadowed by the huge waves.

It was an island not too large in size, and the very place where Xiang Yongzhan and the others were besieged.

After travelling at full speed in a submarine for half a night, Ji Feng and his group of sixteen people finally arrived here at this dawn, and were not discovered by anyone.

At this time, Ji Feng and the others were all soaked to the skin, with water dripping down from their clothes and bodies, because they had been sent to shallow water by the submarine, so they all swam across armed, and arrived at the island with difficulty in the roaring sea wind and waves.

Ji Feng's heart was very anxious, because just in the process of coming, the submarine detected that there were quite a few ships in the sea in this vicinity, apparently all armed ships of certain forces, and their purpose of coming here was self-evident.

Xiang Yongzhan and the others were in danger!

Ji Feng and the others quickly ran across a section of the beach and arrived at the nearest tree, they still didn't make a sound, they just quietly looked around. At the same time, one of the warriors untied the belt around his waist, tied it directly to his feet and quickly climbed up the tree with the help of friction.

Soon, a branch fell from the tree, and Ji Feng and the others immediately understood that the vicinity was safe for the time being.

They squatted down, leaning against each other, but with a clear division of labour, with those in charge of watching and alerting and those in charge of watching the equipment, without any panic.

"All listen, next, we may encounter the enemy at any time, but remember, don't shoot, don't move your knife, just break the other party's neck, and don't presume to capture a live one for interrogation until we find our target we will definitely not be exposed, do you hear me?" Gu Chao asked in a low voice.

Firing a gun will alarm the enemy, while using a knife will leave blood on the ground, and there is likewise the possibility of being discovered by the enemy, therefore, directly breaking the neck, which is the most direct but the most suitable method for concealment.

Immediately, all the men gestured at the same time, and that was sign language, meaning nod.

Even in the darkness, this sign language was equally very useful, because anyone who was familiar with it could tell exactly what gesture the other man was making, as long as there was still so much light.

"Sir, do you have anything else to add?" Gu Chao asked.

Ji Feng said, "After you finish the person off, hide the person with a branch and don't let the other party's companions find out, otherwise, we will likewise be exposed. Other than that, there's nothing more."

Gu Chao then nodded his head and waved his hand, "Action!"

Immediately, the crowd quickly dived into the woods and disappeared.

Because he knew his own strengths and weaknesses, Ji Feng then handed over the command of this operation, to Gu Chao, while he assisted at the side, because compared to Gu Chao, he himself could only be said to be familiar with these warriors, while Gu Chao, on the other hand, knew the points and weaknesses of each and every one of them.

Therefore, Ji Feng then made a sensible choice, his aim was to understand to save Xiang Yongzhan and the others, not to fight for the right to command.

If it was the right that he wanted, Ji Feng could get it at any time.

On the way, there was darkness everywhere and the crowd could not light up, so it was Ji Feng who led the way, with Gu Chao and the others trailing behind. The group weaved through the dense forest, trying to find a way into the dense forest.

Because he was worried that the enemy had laid traps, Ji Feng just led the crowd through the dense forest, circling along the outer beaches and, at the same time, looking for the enemy.

To save the people, it would be necessary to feel out the other side's false situation, because if the receiving submarine could not arrive in time, when the time came, in the event of a battle, it would be necessary to rely on these fighters of the Red Arrow Brigade to eliminate the other side.

Suddenly, Ji Feng jerked to a halt because he heard a sound.

Even though it was only a very faint sound, with his keen ears, he could hear it clearly. There should be someone in front of him. For, he had just heard whispering, and although it was disturbed by the sound of the waves not far away, Ji Feng could be sure that it was indeed someone talking.

He gestured fiercely and at once a warrior quickly climbed up a tree and raised his eyes to look out.

Soon, the warrior came down and he made a series of hand gestures.

Gu Chao lowered his voice to an extremely low level and said in Ji Feng's ear, "Sir, there is no movement detected up ahead."

Ji Feng then frowned slightly, "No sighting?"

Gu Chao nodded his head.

Ji Feng immediately gave Gu Chao a hand signal and said in a low voice, "You guys wait for me here, I'll go over and take a look!"

Gu Chao nodded his head and waved his hand. The others understood what was meant and hid separately into the bushes beyond, not moving as if they had never been there. From this, one could see the literacy and single combat ability of these people.

Ji Feng was alone in the dense jungle, heading in the direction where he had just heard the sound. All along the way, he was careful, not daring to make any half-hearted movements for fear of alerting the enemy.

Finally, Ji Feng found it!

When he came under a big tree, he immediately saw that in the bushes next to that big tree, there was a pile of fallen branches and quite a few leaves covering it. These tropical trees, the leaves of which were not small, were so piled up together that it looked like a messy corner of the jungle.

But in fact, Ji Feng could see the person inside, only that he was too far away to see it too clearly.

The other person seemed to be lying on his back, so Ji Feng could only see part of the other person's body and could not see the whole picture at all, but there was someone in the place covered by the branches and leaves.

Because he was in the dark and didn't know where the enemy was hiding, Ji Feng didn't dare to act rashly. He came to a place only a few meters away from the bush before he quietly stopped, thinking quickly in his mind about the way to act.

As his mind was racing, Ji Feng raised his hand and a wave of bioelectricity quietly struck out. All of a sudden, the bush shook slightly and then there was no movement, not even a sound was made.

However, Ji Feng did not rush to make a move, because he was still not sure how many people were in the bush, and how many people he had just ambushed. Before a clear judgment was made on these, any rash move might cause unimaginable consequences.

Perhaps there really was more than one person on the other side, and when he rushed over, someone would fire a warning shot, then everyone on the other side would know, and then not only Xiang Yongzhan, but even Gu Chao and the others would be in danger.

As for Ji Feng himself, he didn't think he had the ability to be invulnerable to swords and guns now!

Therefore, he had to act more cautiously. Ji Feng first waited for some time before he found that there was no more movement in the bushes, and only then did he take advantage of the cover of the sound of the waves to rush over.

Whew!

Ji Feng's body was like a swimming snake, drilling straight through the gap in the bushes, and the next moment, his hand was already on a person's neck, threatening to snap the other person's neck at any moment.

Once Ji Feng got a good look at the other person's appearance and was sure that he was not a Chinese, he laughed coldly and lifted the person away directly from the bush!

In fact, even in some countries near the same Asia, people have a lot of different looks, even the kind of countries that are close to each other, they can likewise tell the difference. Even the legendary Chinese descendants of the Kaitou people are very different from the Chinese.

As for the odd-looking people like San, I'm afraid that the smell alone is enough to indicate which country he is from.

Therefore, even if one had never seen a foreigner before, after seeing this guy who was caught by Ji Feng, one could tell at a glance that this guy was definitely not a Chinese.

Since he wasn't a Chinese, he definitely wouldn't be from the Special Operations Brigade!

It was also in a short moment that these thoughts had flashed through Ji Feng's mind, and then, he had already mentioned the man to Gu Chao and the others and thrown him on the ground.

"Sir!" Liu Xin was the first to rush out.

Ji Feng pointed at this guy on the ground and said quietly, "This guy was hiding in the bushes and I found him, ask him something about this place, if he doesn't tell me, I'll deal with him, I don't believe I can't pry his mouth out!"

"Sir, don't worry." Liu Xin came to the man, squatted down and said a few words in a jabber.

But the man did not open his mouth, just closed his eyes as if he was already unconscious.

Ji Feng sneered secretly and grabbed the man's wrist, a biological current was input into his body, the man's eyes instantly widened, his body twitched violently, a whimpering sound came out from his throat, looking extremely painful.

"Ask again." Ji Feng said in a low voice.

Liu Xin nodded and asked once more in a gibberish voice.

This time, the guy finally couldn't hold back, the pain caused by the bio-current striking his body was not something anyone could endure.

"Sir, he's just a minion in charge of a dark sentry, he said he didn't know the other side's setup and the other people's divisions either, but what he did come up with was the signals they tell each other, how many of them there are, and the general location of the other dark sentry" Liu Xin whispered.

"Other than that, there's their alert reporting times and so on but none of it is particularly important."

"It's already important, it's good to know the distinguishing signals and reporting times, let's go" Ji Feng waved his hand.

Liu Xin snapped the man's neck and hid him again, and then the group quickly disappeared into the jungle.

Despite knowing some general information about the enemy, Ji Feng did not drop his guard in the slightest. Because it should be easy to feel their way in from the outside, after all, they were sent to the shallow water area by the submarine and swam straight through, the other side simply did not have that ability to find out.

But the problem was, how to bring Xiang Yongzhan and the others out and not to alert the other side, that was the most important and the most difficult.

Chapter 992

Because the key problem was that Xiang Yongzhan and the others were poisoned and were unable to fight at all. At this time, if Ji Feng and the others took them with them, it would undoubtedly make the Red Arrow Brigade's combat power also drop terribly, and there were actually dozens of people on the other side, so it wasn't that easy to break out.

So Ji Feng gritted his teeth, since this was the case, then while Xiang Yongzhan and the others had not fallen into the hands of the other side, take out those people who surrounded the special combat brigade, all of them quietly!

Even if they couldn't all be taken out, they would have to have their combat power halved, so that once the two sides exchanged fire, the Red Arrow Brigade's men wouldn't say that they were suppressed by the others' firepower.

And what we have to do now is to race against time, to make sure that we take out as many of the other side's men as possible before it gets light out!

In fact, it was not only a race against time, but also a race against the other side's alert time.

Liu Xin retrieved a contact device from the first guy who was taken out, and thought that the talking sound Ji Feng heard just now was this guy reporting the situation to his superiors, but at that time he hadn't found Ji Feng and the others yet, so the report should be that everything was normal.

This was also confirmed from Liu Xin's interrogation.

It was also because of this that Ji Feng and the others became even more anxious and quicker on their feet. Although the other side had just conducted a vigilance debriefing, they did not have much time because the other side had to conduct a debriefing every twenty minutes and could be considered heavily guarded.

Whether or not the next debriefing could be muddled, Ji Feng and the others had no idea in their hearts, so they had to take out as many enemies as possible within those twenty minutes.

Time was ticking away as Ji Feng and the others circled the island, quickly traversing through the dense forest. Under the effect of bio-current, Ji Feng was in the dark jungle as if it was daylight, constantly pulling out the other side's secret posts. After interrogating three or four secret posts in a row and finding that there was no difference from what the first person had said, these few secret posts had completed their mission and all of them were taken out.

Twenty minutes had passed in the blink of an eye, and Gu Chao and the others had long since expended a lot of physical strength. This kind of hasty march, especially in the middle of the dense forest, was even more difficult, and one had to always be on guard to see if the other side had set up any traps, and if there were any hidden sentries, and so on.

"Sir, it's debriefing time" Liu Xin whispered.

When Ji Feng waved his hand, Liu Xin understood, and he immediately pulled away from several other people who were proficient in other countries' languages, and followed the signals from the previous interrogation to conduct a vigilance report.

However, what surprised Ji Feng was that among these few people who were proficient in other countries' languages, there was actually Ji Shaoyun.

"This kid, he's really grown up." Ji Feng nodded secretly in satisfaction, no wonder he was also sent to follow him, it seemed that he had really learnt his skills in the Red Arrow Brigade, that was good.

After the debriefing, everyone was waiting anxiously, afraid that something had gone wrong and the other side had detected the unusual situation, in that case, they could kill their way out, but Xiang Yongzhan and the others would really have no way to live

Snap!

The connection of the communication device was disconnected, Gu Chao and the others' eyes instantly showed joy, this was a sign of successful reporting, according to the previous explanation of receiving the secret sentry, after reporting, the other end of the communication device would be directly disconnected, that's why they didn't know the rest of the situation, but the top knew their situation.

"Continue!" Ji Feng waved his hand violently, and they had another twenty minutes!

Next, they took out a few more secret sentries. Then, Ji Feng gave the order and started to move deeper into the island. They couldn't keep an eye on the hidden sentries anymore.

On the one hand, Ji Feng and his men were limited, there were only sixteen of them in total, and a few of them, including Ji Feng, were not proficient in the other side's language, so if they took out too many secret sentries, they would be exposed when it came time to alert and report.

On the other hand, these secret posts were only responsible for alerting, not attacking. Earlier, when they knocked out those few secret posts, they were trying to eradicate potential threats and also clear the way forward.

Now, it was time to start moving deeper.

Fortunately, this island was full of dense forest, dawn had already arrived, and because of the dense jungle trees covering it, it was also dark and poorly lit, almost indistinguishable from night, which made the march more difficult, but also allowed Ji Feng and the others to get better cover.

Buzz~~!

Suddenly, Gu Chao's waist vibrated a few times, and he immediately took out a mobile phone-like object, looked down, and circled around again, then he jerked a hand and made a series of hand gestures.

Ji Feng then saw that there was danger a few hundred meters ahead.

For this thing in Gu Chao's hand, Ji Feng had once seen it during the first operation against Xixia.

It was a heat detector, set to the standard that it was most sensitive to the temperature of the human body, and as long as there was heat within the detection range that did not fall within the setting, the instrument would issue a warning.

The group advanced quietly, and when they were about to get close, Ji Feng finally got a good look at the scene in front of them, there were five or six people, who were Ken something to eat, it was a group of people wearing green camouflage uniforms, moreover, the looks were similar to those few dark sentries in front of them, they were indeed from the same side.

Ji Feng waved his hand, and Ji Shaoyun and Liu Xin and the others immediately touched over quietly.

At this moment, those few people on the other side were sitting on the ground eating, and from time to time, they were using leaves to pocket some water and pour it into their mouths, which should be the dew accumulated during the night.

They were eating, obviously not anticipating the sudden appearance of the enemy, so when Liu Xin and Ji Shaoyun suddenly rushed out, they had not yet picked up the weapons they had placed at their sides.

Ka-ching! Ka-ching! Click!

After a series of crunching sounds, all these people turned into breathless corpses and were dragged and hidden away.

While at this time, Ji Feng similarly captured a guy from the side and hit his body with bio-current, instantly causing him to lose his fighting ability and twitch all over.

“Interrogate!” Ji Feng said in a low voice.

It was still Liu Xin who was in charge of the interrogation, while Ji Feng and the others were on guard at the side. This time, there was no need for Ji Feng to torture with bio-currents again, because he would not be merciful to these people, he directly dealt a heavy blow, if he didn't want to keep the guy alive, he would have turned into a corpse by now.

The result of Liu Xin's interrogation was still very satisfying, they at least knew from this unlucky guy that there were almost three gathering points for the other side, with a total of almost twenty people or so.

“Finish them off!” Ji Feng said without hesitation.

Gu Chao immediately nodded, and after disposing of that guy, they immediately moved forward cautiously.

Ji Feng thought for a moment before saying, “Let's divide our troops into two, I'll lead the first way, Gu Chao, you take the first way and keep in contact!”

Gu Chao immediately nodded, “Yes!”

This line of sixteen people, Ji Feng and Gu Chao each led seven, and headed straight for the other side's gathering point. Ji Shaoyun and Liu Xin, both stayed on Ji Feng's side, while Gu Chao led the other few.

This was an extremely dangerous rescue operation, as the target had no resistance left, and the enemy was too numerous, so Ji Feng had to stay back. And in the middle of this dense forest, the heat detector obviously played an extremely important role, at least so that Gu Chao could accurately discern the location of the other side in the jungle.

Of course, for Ji Feng these things were not needed, he could clearly see the other side in the dark, not to mention that it was now light out.

Next, all three gathering points were successfully pulled out. When the last gathering point of the enemy was pulled out, Ji Feng and Gu Chao met again, but they didn't have any conversation, they just made a distant hand gesture, and then there were each separated and went deeper into the dense forest in two directions.

Only, what made Ji Feng's mood a little worse was that when the second gathering point was plucked, the transformers finally appeared!

Even though they were only the most ordinary transformers, not even as good as the Wolverine he had seen before, but after all, they were transformers and were definitely much tougher than these normal people just in terms of their physique. Even if the people from the Special Combat Brigade and the Red Arrow Brigade had started practicing body-building exercises, they might not be able to fight the transformers head-on in a short period of time.

The appearance of the reformers cast a shadow over Ji Feng's heart.

Because apart from that in person, Xiang Yongzhan and the others were also poisoned. With their experience, what kind of treacherous environment had they not seen before and they could still be poisoned?

There was only one explanation, someone more powerful had been involved in the attack, which had caused them all to be poisoned.

Then who was the more powerful person, now that I think about it, it was either a more advanced reformer or a mole!

Once he thought of these two possibilities, Ji Feng's mood became even worse, because whether it was a more advanced Transformer or a traitor, they were not that easy to deal with, or at least, they would definitely not be as easy to deal with as those ordinary fighters before.

Moreover, the appearance of the transformers also proved that this matter was definitely not unrelated to the dynasty!

"Simply damned!" Ji Feng's heart was filled with murderous rage, yet he was a little worried, "I also wonder how Xiang Yongzhan and the others are doing now"

.....

In a very hidden cave in the deepest part of the island, a dozen people were hiding inside, these people, were none other than Xiang Yongzhan and the warriors of the special battle brigade he led. Of course, the White Spider was also here, guarding Xiang Yongzhan's side.

The faces of these men were all blue and purple, some even black, and they were in a trance, unable to muster a single ounce of strength, like Xiang Yongzhan, whose lips were already dry and cracked, and whose eyes were covered with blood.

In the whole cave, apart from the extremely faint sound of breathing, there was no other sound.

Chapter 993

Compared to the other soldiers, Xiang Yongzhan's condition was even worse.

At this moment, Xiang Yongzhan's face was black, his lips were dry and cracked, and even vaguely purple, his eyes were tightly closed, and even his exposed hands showed signs of blackness, while his neck was very pale, this situation really looked incomparably weird.

If it wasn't for the fact that his chest was still slightly heaving, I'm afraid no one would have thought he was still alive.

White Spider was the only one among these warriors who did not appear to be in any unusual condition, but she alone was unable to protect a dozen warriors and had to take care of the weakest Xiang Yongzhan.

When he was poisoned, he had already sensed that this situation would arise, so when he felt his combat strength and stamina decreasing rapidly, he immediately led White Spider and the others to retreat to the depths of the dense forest and found a cave to hide in.

The cave was not very big, but it was relatively deep, and the entrance was not very big, and it was only half a metre high, so a person would have to crawl in and out of it.

Even if someone found the cave, but because of the light, the people inside the cave could see the people outside at a glance, while standing outside they could not see the scene inside the cave.

This is a good place to hide, but if someone finds the cave and suspects that it is occupied, then Xiang Yongzhan and the others inside are in great danger.

The people outside can simply light a fire at the entrance of the cave and set off smoke, which is enough to kill the people inside. In addition, they can also pour water into the cave, etc. There are countless ways to kill the people inside at will. So, hiding in this cave is the best option, but if you say that you are defending here, it is no different from looking for death.

Fortunately, there was one white spider among these people who was not poisoned, so she alone, armed with a weapon, could keep the cave entrance, which was the main reason why Xiang Yongzheng chose this place.

However, hiding here was not a long-term solution either. On the one hand, Xiang Yongzhan and the others were showing signs of poisoning, and no one knew when they would die, maybe in ten minutes or an hour, but definitely not for too long.

As they watched Xiang Yongzhan and the others grow weaker and weaker, threatening to die at any moment, the white spider was incomparably anxious, looking out through the gaps in the tree branches from time to time, hoping to see the rescuers.

"White white spider" Xiang Yongzhan suddenly spoke, his voice as thin as a swimming silk.

The white spider was startled and whispered in a panic, "Captain, don't worry if I'm here, don't talk, you need to rest now"

"No!"

Xiang Yongzhan's lips moved, "Remember, never let me fall asleep, I'm worried, once I fall asleep, I'm afraid I'll never wake up again Has Ji Feng arrived yet?"

The white spider shook his head, "Not yet."

Xiang Yongzhan let out a soft breath and said softly, "It seems that the enemy surrounding us is very strong, all of about ten hours have passed, but Ji Feng hasn't arrived yet, they're having a hard time walking."

The white spider was instantly shocked, Xiang Yongzhan's combat literacy was just too strong, even in this deeply poisoned situation, he could actually still clearly remember how long had passed, this incomparable perseverance alone was not something that ordinary people could possess.

"White Spider, if I do die, remember, tell Ji Feng everything you know about the dynasty's stronghold." Xiang Yongzhan added, he could feel that his life seemed to be slowly starting to drain away, so he had to give his last words in advance so that when he suddenly died, he would not be able to leave anything behind.

The white spider shook her head and said softly, "Captain, let's not talk about that, what you need now is rest."

Xiang Yongzhan grinned, but he was too weak to smile anymore.

In her heart, White Spider was a little hesitant, she knew that Ji Feng's identity must not be simple, with such an identity, could he personally risk coming here to rescue him? He should have sent someone to rescue him.

If that was the case, then even if she told Ji Feng everything she knew about the dynasty stronghold, what use would it be?

It would be better to just tell the military people!

Seeing Xiang Yongzhan's weak appearance, White Spider also did not say these words out, Xiang Yongzhan was afraid that he could not bear the blow, once some more stimulation, he was afraid that he might die at any time.

However, Xiang Yongzhan was aware of what she was thinking and couldn't help but say, "You don't need to have the slightest concern, as long as you tell Ji Feng, he will definitely do something about it."

"You trust him that much?" White Spider couldn't help but ask.

In Bai Spider's impression, Ji Feng was a person with several characteristics, flirtatious, ruthless and sinister It could be said that all these characteristics fit the most standard character of a family's son. Such a person would not really befriend others?

Especially in this extremely dangerous situation, Ji Feng is afraid that he will not really risk his life for Xiang Yongzhan.

Xiang Yongzhan closed his eyes and said, "You don't understand the friendship between men, nor do you understand Ji Feng's character, otherwise you wouldn't have asked this."

However, his words came to an abrupt end here, the white spider instantly turned pale, reached under Xiang Yongzhan's nose and found that he was still breathing, but was already extremely weak, it was obvious that he was unconscious, and from his current condition, he could die at any time.

The white spider could not help but feel compassion in his heart, just now Xiang Yongzhan was afraid that he had used his last strength to give his last words

"A son of a family, is he really worth that much trust?" The white spider could not help but secretly say.

But it was clear in her heart that she could only trust Ji Feng to come now, otherwise, with so many enemies on the periphery and this being a lonely island, even if they could escape the encirclement, they would definitely not be able to leave the island and would end up dead.

"Why am I the only one who is not poisoned when they are all poisoned? What is wrong and how can I save them?" The white spider, however, did not want to just wait for death, she wanted to find out the cause of Xiang Yongzhan and the others' poisoning and try to cure them, although she had already thought about it countless times before, now, she had to think carefully again from the beginning

沙沙沙沙

There was a sudden sound of footsteps outside the cave, and the white spider was instantly aghast as she immediately manipulated a micro-charge and leaned against the wall at the entrance to the cave, staring out warily.

A burst of gunfire suddenly rang out.

A burst of gunfire suddenly rang out, and a flurry of birds flew through the woods in surprise.

The white spider did not move a muscle, but his eyes were fixed on the outside. The more the situation was, the more he could not panic, otherwise, there would be nothing but death waiting for him.

Perhaps because of the habits she had developed as an assassin, the White Spider was incomparably calm, and at the same time, she was calculating the various situations she might encounter, and the various ways to deal with them.

The White Spider's calmness had a very good effect.

Within a short time, five or six armed men, armed with weapons, walked past about ten metres in front of the cave, occasionally firing a shot deeper into the dense forest, trying to find the target they were looking for in this way.

These men were searching, and they hadn't found the cave!

The white spider couldn't help but have a cold glint in its eyes. If it wasn't for the fact that Xiang Yongzhan and the others had all lost their fighting ability, a sudden attack at this time would definitely be able to have an unexpected effect.

But helplessly, now they had no other choice but to hide!

"Poof! Poof! Pfft"

All of a sudden, a low muffled sound suddenly flashed by, and in the blink of an eye, no movement could be heard, not even, the footsteps of those few armed men just now could be heard. The white spider's heart thudded at once, and he became even more alert.

What had those armed men been searching for?

This was the first reaction of the White Spider when she heard the movement, but then she dismissed her guess, if they had searched for something, the armed men would have fired, so the White Spider immediately thought that they were under attack!

In a flash, the white spider realized that things might have changed, it seemed that a third party had arrived here.

Could it be that Ji Feng and the others had arrived?

The white spider looked back at the shielding instrument at the entrance of the cave and could not help but hesitate a little.

This shielding instrument, a product of the military, serves to shield the opponent's detection signals, such as infrared detection, etc. They are hiding in this cave, if they don't have this thing, the opponent can definitely find them easily as long as they detect in this vicinity.

It was because of the existence of the shielding device that they had been able to avoid search after search.

But the problem now was that if the shielding device continued to be on, in case the ones who had just attacked those armed men were Ji Feng and the others, or other people who had come to rescue them, they would definitely not be able to find where they and the others were hiding.

Should we remove the shielding device?

The White Spider was caught in a dilemma. If he removed it, in case the other party was not the one who came to rescue him, or if his judgment was wrong and the armed men had not been attacked, then removing the shield would undoubtedly be like exposing himself and the others to the enemy's eyes.

But if they didn't, what if someone did come to their rescue?

The White Spider looked back and saw that most of Xiang Yongzhan and the others were unconscious, and the few that weren't were extremely weak, so it was difficult for them to make an accurate judgement in this situation.

What to do?

.....

In the jungle, Ji Feng and the others hid the bodies of the few armed men, and then, they hid as well. After having carried out an attack and kill, it is necessary to stabilize first. Every step forward here must be taken with utmost care, and there is no room for half-heartedness.

The combat power of Xiang Yongzhan and the others was naturally self-evident, but even they had fallen here, which undoubtedly showed how terrifying these enemies were, so one had to be careful.

Chapter 994

“Sir, there’s no one within a hundred metres of here!” Liu Xin looked at the display on the detector, made a gesture and lowered his voice to an extremely low level.

It was thanks to the fact that this isolated island was all dense jungle, in which there were quite a few birds and animals, and the faint sound of waves in the distance as well as the occasional bird song that rang out from time to time, that the sound of their voices speaking was not easily detected at all. If it wasn’t for this reason, they would have had to use hand gestures to communicate, which was more or less difficult for Ji Feng, who was still not too familiar with sign language.

“Where did Gu Chao and the others get to?” Ji Feng asked.

Liu Xin shook his head and said, “Can’t contact them for now, in order to maintain silence, they will turn off all the contact instruments at regular intervals.”

“Let’s ignore them for now, or act on the signals we set before. Our main task now, is to search for the target, let’s move.” Ji Feng said.

Their group was definitely not too far away from Gu Chao and the others, as both sides had agreed before they separated that they were all heading deeper into the dense forest, and Gu Chao and the others would also turn on their contact instruments regularly, so there was no need to worry about this.

Ji Feng and the others continued to move forward, not fast, but extremely stealthy.

However, they had just gone a short distance when Ji Feng waved his hand violently, and in the next moment, all of them stopped, quickly concealed themselves and entered the alert state.

Liu Xin looked at Ji Feng and made a questioning gesture, he was asking the direction of the target. Since Ji Feng suddenly stopped, there must be a situation, no matter if it was an enemy or a friend, he always had to identify the direction before he could determine his action.

Ji Feng, however, slowly turned his head back and his gaze fell deep into a jungle with quite high ground.

From his position, the jungle in front of him should have a slope, only because some accompanying plants on the ground were too dense, it was difficult to determine how high the slope was, after all, there were some tall trees with canopies next to each other, and if you just look at the canopies and trunks, you can’t see any difference in height.

However, Liu Xin and the others understood what he meant, that there should be a situation in the jungle just ahead.

The next moment, without waiting for Ji Feng’s command, Liu Xin immediately conducted another detection scan, but, in the end, there was no result, there were quite a few objects with heat scanned, but the outline of the object was some flying birds, there was no one at all.

“Sir, there is no one” Liu Xin whispered.

Ji Feng, however, shook his head slightly and walked quickly through the dense jungle.

Liu Xin was slightly stunned, but he also waved his hand and all of them followed, while they kept a high level of alert and were ready to fight.

White Spider obviously sensed someone approaching, she couldn't help but raise her guard, and the micro-charge in her hand was also aimed at the outside of the cave, her finger on the trigger, once the other party found the cave, she would immediately strafe it.

Although the white spider also hoped in her heart that the people coming were coming to rescue them, but in this situation, there was absolutely no room for any half-lucky mentality, so she had to be doubly careful.

Ji Feng stopped after walking for about a few dozen metres. Through that gap in the leaves, his gaze stared straight ahead at the bushes, and he didn't move for a long time.

At the side, Liu Xin and the others, however, had already divided their positions, from the configuration of firepower to the angle of alert and defence, all were flawless. As long as there was a situation in front of them, they could give extremely intensive fire coverage, even if there were more people on the other side, they would still be able to press the other side to lift their heads up.

Ji Feng, however, gestured and said, "Wait for me here!"

He had clearly seen that there was a cave in the woods in front of him, and that there was someone in the cave, only that he couldn't see exactly who it was yet, because the cover of the leaves was too dense and very much affected his vision.

So after a moment's hesitation, Ji Feng immediately dived and headed straight for the cave.

He wanted to see what kind of people were hiding in the cave. Even if the people hiding inside were enemies, Ji Feng would still want to break in, just in time to end them all. But if it was really Xiang Yongzhan and the others inside, then this time he would have found his head.

"Prepare to cover!" Liu Xin immediately gestured and whispered.

The white spider gripped the micro-charge tightly, her beautiful eyes staring deadly outside, ready to shoot at any moment.

Suddenly, he saw some low branches and vines swaying a few times in the woods in front of him, but she was unmoved, just sweeping her gaze over.

However, in this slight moment of distraction, a black shadow suddenly flashed in from the side.

Subconsciously, White Spider was about to pull the trigger, but suddenly she felt a looseness in her hand, and the micro-charge was taken away from her. Immediately afterwards, her neck tightened and her whole body went numb, and she froze in place, without the strength to even move her fingers.

However, at this time, those special combat brigade warriors who had lost their combat power, but they were on the ground at once, although their movements were a bit sluggish, but they were still very keen compared to ordinary people.

This is the special warriors, although they are already very weak, but their fighting instincts are still there.

“Don’t be afraid, I’m Ji Feng!” Ji Feng shouted lowly while quickly sweeping through the cave, directly knocking all the guns out of the hands of those warriors to prevent them from shooting.

When they got a clear look at the person coming, all the warriors couldn’t help but let out a slight sigh of relief that it was really Ji Feng!

These warriors, were all those who had worked with Xiang Yongzhan and Ji Feng and participated in the operation against Western Xia, they certainly knew Ji Feng.

At this moment, the white spider also reacted that it was Ji Feng who had come!

With a strong shock in her eyes, Bai Spider looked at Ji Feng. She really did not expect that Ji Feng was so powerful, they were hiding so concealed and Ji Feng was able to find them.

More importantly, it was Ji Feng’s skill, which was really too powerful, one could even say it was terrifying. Just with that hand of Ji Feng just now, flashing in instantly and crushing all of them in a breath or two, not to mention that they were all poisoned, even if their combat power was not half weakened, they were definitely not Ji Feng’s opponent.

This one person, Ji Feng, could simply be worth the combat power of an entire special operations brigade, and in some specific situations, he was even more capable of fighting than a special operations brigade, especially in this kind of covert operation.

“Finally, we’ve found you guys!” Looking at the look on White Spider and the others’ faces, Ji Feng couldn’t help but follow suit and let out a sigh of relief, asking again, “Why isn’t Old Xiang’s mobile phone on?”

No one answered him, and there was silence in the cave. Only then did Ji Feng react, the white spider had been restrained by him, the others had no more strength to talk, right?

He first came to the entrance of the cave and gave a greeting to Liu Xin and the others who were not far away on the opposite side, before he came to White Spider and patted her on the shoulder, who immediately regained her strength, as if her whole body had thrown off the shackles that were suppressing her.

She couldn’t help but glance at Ji Feng in amazement, what kind of ability was this? How was it possible to control someone’s body?

Ji Feng turned his head to look and found that Liu Xin and the others had quickly arrived at the entrance of the cave and were guarding the surroundings, only then did he nod slightly, grabbed White Spider’s arm, wrapped his arm around her waist and pulled her up.

Although she was only incapacitated and paralysed by the bio-current, the bio-current flowing through her body would still prevent her from fully recovering for a short period of time, and her body would still be more or less paralysed, which was inevitable.

The white spider also obediently leaned on Ji Feng’s body and stood up, there was no difference between men and women at this time, being able to survive and break out, this was the most important thing.

“Where is Old Xiang?” Ji Feng asked in a deep voice. Because White Spider was still a little unsteady on her feet, Ji Feng still put his arm around her and didn’t let go.

White Spider pointed at the pile of warriors that had fallen to the ground next to him and said, “Right there.”

Ji Feng asked, “Can you stand still now?”

White Spider nodded and said, “No problem, let go of me.”

Only then did Ji Feng let go of her and hurriedly took a few quick steps to find Xiang Yongzhan lying on the ground, only to find that his face had turned black and his eyes were tightly closed, while his two hands were clenched tightly, showing how resigned he was in his heart.

Ji Feng couldn’t help but frown and turned his head to ask, “What the hell is going on here, what kind of poison have you guys been poisoned by?”

White Spider shook her head and said, “I don’t know, ever since we eliminated the dynasty’s stronghold on the island in front of us, the captain felt that something was wrong with us, so we immediately evacuated, but in the process of evacuating, the captain realised that we might not be able to return, so he turned and retreated to this island.”

“Another island?” Ji Feng was slightly stunned.

“Yes!” White Spider nodded and said, “About a few dozen miles away from here, there is an island that is a stronghold of the dynasty.”

Only then did it dawn on Ji Feng, no wonder he didn’t see any artificial facilities on this deserted island, it turned out that this wasn’t a stronghold of the dynasty, but just an island near the stronghold.

When he thought about it carefully, Xiang Yongzhan’s approach was indeed the most correct.

If they had been poisoned, they would not be able to withdraw safely to the country, and if they were poisoned in the sea, they would only be buried at the bottom of the sea. Therefore, retreating to this island to hide and wait for help was the best option.

It was too late to think about anything else, and Ji Feng immediately checked Xiang Yongzhan’s condition. At the same time, he communicated with the wise brain in his head, hoping to find a solution.

“Wise Brain, do you know what kind of poison they were poisoned with?” Ji Feng asked darkly, “Is there a solution?”

“Master, there is no information about this toxin in the database, but according to the data comparison, this toxin can be completely lifted.” The intelligent brain said.

Ji Feng was instantly happy, “How to solve it?”

“Master, first use the special effect current to stimulate their potential, and then master use the bio-current to comb their bodies, then the toxin in their bodies can be cleared.” The intelligent brain said.

Ji Feng couldn’t help but frown slightly, “And use bio-currents? They have all used it once already, will there be any problems if they take it again?”

Chapter 995

After examining Xiang Yongzhan's body, Ji Feng had already found out that they had already taken the bio-current before, if they used it again, I was afraid that it would drain Xiang Yongzhan and the others of their potential, which would do them absolutely no good.

"Master, don't worry, the special effect current won't drain the body potential of those who take it, it's just that they will be weaker after the effects of the medicine, but as long as there is bio-current to absorb external energy to nourish their bodies, they can recover, just at a slower pace." The intelligent brain said.

Only then did Ji Feng feel relieved, Xiang Yongzhan and the others had practiced body building exercises, although he didn't know how far they had practiced yet, but Ji Feng could already detect traces of the special effect current from their bodies.

So obviously, Xiang Yongzhan and the others must have noticed that their physical strength was weakening after being poisoned, so this is why they took the special effects current, otherwise, they wouldn't have been able to last until now. By careful calculation, it had been more than ten hours since Ji Feng received Xiang Yongzhan's distress call, and they should be at their weakest now.

"It's good that they came in time!" Ji Feng couldn't help but secretly say, the special effect current had stimulated their potential, but after the effect of the medicine had passed, the human body would become very weak, plus the toxin intrusion, Ou Nuo individual was afraid that they wouldn't be able to last much longer.

It was believed that if Ji Feng had come a little later, I was afraid that what he would have seen would have been just Xiang Yongzhan's corpse.

"Brat, count on your life!" Ji Feng shook his head and laughed, and then he didn't delay any longer, but turned his head and asked the White Spider, "Can you act alone?"

The White Spider nodded and said, "No problem."

"Good then!" Ji Feng immediately took out a small bottle from the pocket inside his jacket and handed it over, "Take the pills inside and feed one to each of them."

As he spoke, he first took out a special effect current from the bottle, broke open Xiang Yongzhan's mouth and fed it to him, before handing the bottle to White Spider and asking her to feed it to the other warriors separately.

After that, Ji Feng then grabbed Xiang Yongzhan's wrist and began to use the bio-current to comb his body.

.....

Just a few hundred meters away from the cave, deep in the jungle, there was an extremely dense area of low vines very thickly clustered together, looking as if it was a small hill.

In reality, beneath this dense vine was a huge tent. In this tent, there were a lot of sleeping bags, in addition to a few monitors, as well as a lot of guns and weapons and other things, so it could be said that this was a small base.

However, compared to those large bases, this place was not formal, and there was not much equipment inside, but it was much better than the cave where Xiang Yongzhan and the others were hiding.

At this moment, seven or eight people quietly sneaked over and hid in the jungle, in front of the patch of trees.

These people, none other than Gu Chao and the others, had felt their way here, not knowing how many enemies they had swept away, and finally, after detection, they arrived here.

“There is a signal response ahead.” A warrior said in a low voice.

Gu Chao gestured and lowered his voice, “Touch through, be careful

The group of them approached slowly, and eventually, at a distance of about a few dozen meters from that bush, they could not advance any further, otherwise, the other side might hear their footsteps.

Gu Chao picked up his binoculars and lay down among the vines, watching. He found that there were several men sitting in this small base.

They were all big, burly men, and by the looks of them, they should all be Asian. They were all wearing rough vests and uniform hats, and they looked as if they were regular military men.

But if you look closely you can see that these military-looking guys do not seem to have much discipline, as they are sitting in a very casual position, and some are smoking thumb-thick cigars, and some are even drinking, which is obviously not the regular army.

What was most striking was that there were two large, brawny men sitting in the corner with their eyes closed.

Although these two men were also dressed in the same way as the others, both wearing rough vests and hats.

But what one could not help but feel strange was that these two men were actually wearing long shirts underneath their rough vests and gloves on their hands.

Even underneath their hats, there were two long pieces of cloth attached to them, overlapping from side to side, just enough to cover their faces, so that only their eyes could be seen, and apart from that, no skin could be seen on their entire bodies, which was really strange.

Although these two were so strange, no one in this small base dared to laugh at them, or even to look at them.

Even if someone did occasionally glance at them, it was a sweep of their gaze, and then they dared not look again. And yet, their gazes carried an indescribable emotion, seemingly fearful, seemingly bizarre

In fact if you look closely, you can vaguely notice that these two men, with their faces tightly wrapped in pieces of cloth, are somewhat bizarre.

Their cheeks, which looked to be somewhat slim near the eyes, but the cheeks near the tip of their noses, were so fat that at first glance they looked as if they were pug-like, with the flesh drooping off their faces.

In fact, if their clothing had not been so fat, it would have been possible to see that the same was true of their bodies, with all the flesh drooping as if it were a string of flesh hanging from the bones.

“What kind of monster is this?” Gu Chao could not help but frown darkly when he saw this scene, “Could it be that are transformers?”

Gu Chao couldn't help but giggle in his heart, if these two guys were really transformers, then there was some real trouble. Seeing the outline of these two people's bodies, Gu Chao immediately recalled the Transformer he had seen in Jiangzhou, the flesh of that person's body seemed to be separated from the bones, it was very weird.

Then he looked at the two guys in the small base in front of him, they were really similar!

“No wonder Xiang Yongzhan also fell on his face, so they had actually encountered an advanced transformer!” Gu Chao couldn't help but secretly say. He really knew the combat power of the advanced transformers too well, that speed, that strength, it was simply inhuman, no wonder Xiang Yongzhan and the others were no match.

Facing such monsters, I am afraid that only aircraft cannons can deal with them, right?

Constantly, there was another person who could deal with these monsters!

In Gu Chao's mind, Ji Feng's figure came to mind, back in Jiangzhou he had captured the advanced transformers, so he thought that this time, it shouldn't be any difficulty either.

Suddenly, there was a movement from the base, Gu Chao immediately looked over.

“Two two, we are all very familiar with the terrain of this island, as long as all our personnel are deployed, we can definitely catch all those bandits in the shortest time, why do we have to wait here?” At this time, a leader-like person asked cautiously.

Only, they were speaking a language from nowhere, and Gu Chao couldn't help but frown slightly, “It seems to be a Boundary Tent language What are these people saying?”

Although he had come into contact with the languages of many countries, he was not a language expert after all, so there were many languages he had not learned in depth, and at most he could only understand a general idea, but when the other party spoke fast, he was a bit confused.

A soldier next to him who was proficient in the language immediately translated for him, and Gu Chao immediately gave a secret sneer.

He cursed, “Damn it, this time I'm just here to save people, if it was a combat operation, I'd have to kill all these bastards to get rid of them!”

He couldn't help but grumble secretly, and only then did Gu Chao continue to pay attention and listen, while looking through the binoculars to observe the people in the small base.

The two big men dressed in tight clothes glanced at him, and the latter was startled and subconsciously took a step back, he then realized that he had lost his temper and could not help but laugh dryly.

“Wait!” One of the reformers said dryly, the voice was very dry, like the sound made by a broken bamboo pole being drenched by rain crashing, hearing this sound, one could not help but have one’s scalp explode.

“Hm? Wait?” The leader couldn’t help but be slightly stunned.

“This is close to China, if they’re not in a hurry to escape, someone is bound to come to their rescue.” A reformer said, “These people destroyed one of our bases, we want more of them to come with them!”

“Tell your scouts to be vigilant, since they dare to come to the rescue, the people coming must not be simple, don’t let them get away with it!”

“But since the people they are coming from may be very powerful, should we also call for help, I am afraid that those of us” The leader’s words were interrupted before he could finish.

“They are powerful, and that is only for you losers, so don’t worry about it.” A reformer said.

“.....” The leader choked and cursed in his heart, “We’re trash? You guys are still monsters!”

Only, he didn’t dare to say this, they had seen the terror of these two monsters before, so naturally they didn’t dare to actively seek death!

Outside, after listening to their conversation, Gu Chao couldn’t help but shake his head slightly, this reformer was really crazy, he really regarded himself and the others as bean sprouts on their plate, eating them as much as he wanted?

He knew that he would not be able to hear any more useful information, so he waved his hand slightly: “Take down the coordinates, withdraw!”

However, at that moment, not far behind them, there was a sudden rustling sound, and Gu Chao’s face suddenly changed, someone was coming.

Hoo!

The two warriors immediately dived over and found that it was two armed men, they directly and cleanly put each other down, however, just at this time, there was a sudden cry of alarm from the side, but it was another armed man, who found the scene of his companion being taken out.

Exposed!

Without hesitation, Gu Chao immediately shouted angrily, “Fight!”

Chapter 996

“Ta-da-da~~~!”

Almost in this short moment, Gu Chao and the others of the Red Arrow Brigade, exchanged fire with the enemies in the small base in front of them.

It was undeniable that the armed men in the small base were quite good, almost as soon as Gu Chao's angry shout was uttered, these men were already on the ground, and a few even rolled to the ground and came outside the entrance of the base, and were about to fire in this direction.

However, the soldiers of the Red Arrow Brigade are even better, these soldiers can be said to be the most elite in special warfare, if we are to say fighting large-scale warfare, perhaps they are lacking because of their small numbers and lack of experience in large-scale combat.

But when it comes to special warfare, for them, it has become like eating and sleeping, it has become their instinct.

Gu Chao's face was very gloomy, this accidental exposure might not be a big deal to him, even if there were two terrifying transformers in the small base in front of him, it would be no big deal, in the end, it would just be the same death.

But the problem was, now that his side was fighting so much, it would definitely alert the enemies on the whole island, and then Ji Feng's side would definitely not be safe either, then the mission to rescue the special battle brigade warriors would be a complete failure.

"You two cover, the others retreat with me!" Gu Chao pondered briefly before he shouted lowly.

The most important thing now was Ji Feng and the Special Combat Brigade, Gu Chao intended to retreat deeper into the dense forest to draw the enemy's fire and attention away, thus allowing Ji Feng and the others to have a chance to escape.

After all, Xiang Yongzhan and the others were all poisoned and had to be assisted to leave, whereas Gu Chao and the others were alive and well, and if they wanted to escape, then they could do so at any time.

But there was one thing, now it was necessary to know exactly where Ji Feng was, otherwise, in case the direction in which he and the others retreated was exactly the direction in which they were, then it would be a problem.

Thinking of this, Gu Chao immediately turned on his contact device and prepared to contact Ji Feng, but at this moment, the light from the corner of his eyes suddenly noticed that two shadows suddenly flashed past from the entrance of the small base.

Almost subconsciously, Gu Chao's heart instantly went on alert, and the sweat hairs on his body seemed to stand on end.

Although he did not see clearly just now, he was almost certain that those were definitely two people coming out of the small base, needless to say, it was definitely the two transformers, otherwise, the two soldiers of the Red Arrow Brigade alone would have been enough to suppress the other side, after all, the exit of the small base was so big that almost an automatic rifle could block the entrance.

The transformers had come out, and what's more, the other party was an advanced transformer!

The vigilance in Gu Chao's heart instantly rose to the highest level, and he simultaneously shouted lowly, "Retreat! Pay attention to the all-round alert!"

With the terrifying speed of the other party, it would be extremely disadvantageous to fight against that kind of monster in this dense forest, not to mention, the other party's combat strength was also very terrifying.

I believe that if they were to fight with their bare hands, the eight men of the Red Arrow Brigade together might not even be a match for those two monsters!

Therefore, the best option was to withdraw immediately and lure them away!

Gu Chao did not know that in the dense forest not far away from them, there were two pairs of eerie eyes, as if they were hungry wolves, staring deadly at them.

One of them stared at Gu Chao and the others who were quickly crossing cover and retreating, a dry and raw strange laugh escaped from his mouth, "Your reinforcements have finally arrived, I just don't know, has that Ji Feng that Little Duke said, come yet, gah gah gah"

In a flash, the two of them quickly chased after each other, like ghosts in the dark night, silent and scary fast, very scary.

.....

"Hoo~~!"

In the cave, Ji Feng would let go of a warrior's wrist and couldn't help but let out a long breath, "Finally, it's done!"

Together with Xiang Yongzhan, there were a total of thirteen poisoned warriors in this cave, and after they had all taken the special effect current to stabilize their situation once again, Ji Feng used the bio-current to freshen up their bodies.

Even with the strong concentration of bio-current in his body, doing so would be enough to consume most of his bio-current, which was obviously unwise given the current situation.

There were reformers outside!

Ji Feng had not forgotten this, he had encountered the transformers on the way here, so he was convinced that there must be even more advanced transformers outside, so Ji Feng had to conserve his strength.

Therefore, he fed a bio-current into each of them, together with the medicinal effects of the special effects current, nourishing these people's bodies.

Fortunately, Xiang Yongzhan and the others had all practiced body-building exercises and had been insisting on practicing again, so when Ji Feng fed them the bio-current, it immediately stimulated the weak bio-current that existed in their bodies themselves. The bio-current in their bodies was very weak, but it originated from themselves and was extremely beneficial to their bodies.

Because of this, Xiang Yongzhan and the others recovered quickly. When Ji Feng fed the last warrior the bio-current, Xiang Yongzhan's face had gradually regained its red colour, although it was still slightly abnormal in colour, but it was much better than the black and bruised face before.

Regarding this effect, Ji Feng nodded his head in satisfaction and secretly said, "The effect of bio-current is really wonderful, moreover, there must be many other effects that he has not fully discovered yet, I'm looking forward to it!"

"Young Ji, are you alright?" Seeing that Ji Feng was a bit strained, the white spider hurried up and asked.

Ji Feng waved his hand and smiled, "No big deal, this tired and tired, I'm used to being tired"

"Huh?" White Spider was slightly stunned, but did not understand Ji Feng's meaning.

Naturally, she didn't know that Ji Feng was talking about his breaking into that primeval forest in the training space, the exertion from that time was absolutely unprecedented, this little exertion now would be nothing.

"Well" a muffled sound suddenly came, Ji Feng and the two of them were slightly stunned, and they instantly saw that Xiang Yongzhan, who was lying on the ground, had slightly opened his eyes.

Ji Feng let out a low laugh: "You kid recovered really fast, it seems that you are also someone who knows the goods and knows that bodybuilding exercises are good!"

He had noticed when he was grooming Xiang Yongzhan's body that the bio-current in Xiang Yongzhan's body was obviously thicker than the other warriors, obviously because he had practiced body building exercises to a greater extent.

"I knew you would come!" Xiang Yongzhan also saw Ji Feng and couldn't help but grin.

Ji Feng walked over, pulled him up to sit against the cave and asked with a smile, "Old Xiang, how come you've been so miserable, it's only been so long since we've seen each other, and you almost even lost your life?"

"I couldn't help it, the other side used poison, I couldn't defend myself!" The other side used poison, I can kill him ten times and so on, failure is failure, he is a hard-blooded soldier, naturally he will not overdo it.

The first thing you need to do is to get rid of the problem. I heard from the white spider that your battlefield was not here, but on an island a few dozen miles away from here?"

This was what Ji Feng was most puzzled about, there were fourteen of them in the group, counting the White Spider, but, apart from the White Spider, all the others had been poisoned, which was a bit puzzling, or at least, suspicious in his mind.

What was the reason why all the others had been poisoned?

Xiang Yongzhan shook his head slightly and said, "It's strange, isn't it? Oh" I know what you're thinking, in fact, I had the same thoughts as you at that time, but only later when I was poisoned did I have time to think carefully."

"Oh? Tell me, it wouldn't be that you guys were foolish enough to hold the explosive pack and go blow up someone's poison gas depot, right?" Ji Feng teased with a smile.

"You kid", Xiang Yongzhan shook his head and laughed.

The two spoke slightly ambiguously, but the white spider next to them understood what they meant, there was no doubt that they were suspecting themselves, and were discussing their suspicions of themselves in front of their own faces without any qualms.

This, on the other hand, did not leave any other thoughts in the White Spider's mind.

To be able to speak out the doubts in her mind in front of her, this was undoubtedly a kind of trust in her, so whether she was suspicious before or not, it didn't matter anymore.

Of course, her heart was nevertheless very appreciative and admiring of these two men's wisdom and boldness.

At this moment, Ji Feng had more or less changed his image in her eyes, at least, this worldly son, was still very bold and did not care about face like other gentry.

"Actually, that island in front of us is already the third base of the dynasty that we have destroyed in this period of time." Xiang Yongzhan said, "At the time of destroying this base, everything was normal up front, we took out the secret sentry to avoid surveillance and felt our way in, and after that, everything went smoothly according to the plan of action."

"Then where did it not go smoothly?" Ji Feng asked with a smile.

He knew that the reason why Xiang Yongzhan didn't say the exact details of the operation behind him wasn't because he wanted to save time, now that all the other warriors hadn't awakened yet, they had plenty of time, Xiang Yongzhan didn't say anything because the course of their operation might not be suitable for him to know.

"I'm afraid they've stolen important information from others, right?" Ji Feng said darkly.

"Afterwards, we blew up their base." Xiang Yongzhan said, "But just as we were preparing to retreat, we suddenly encountered a Transformer, a monster that was very terrifying."

"How terrifying?" Ji Feng came to be interested, it was very likely that the problem was with the last Transformer.

"He was extremely fast, if we weren't specially trained, I'm afraid our eyes wouldn't be able to keep up with his speed"

Chapter 997

He was alone and erratic, our guns were almost useless, so we had to throw away our weapons and fight him with our bare hands," said Xiang Yongzhan. I didn't think that this would be very effective instead, the monster threw a punch at one of our fighters, wounding the fighter badly, but the monster also threw his hands away and retreated a few steps, he seemed to be afraid of getting on our bodies"

"What he was afraid of shouldn't be your bodies!"

Ji Feng listened and deliberated for a moment before shaking his head slightly and said, "I guess, since he dared to attack you guys and attacked you with his fists, he should not have any weapons, not even

cold weapons, so how could such a person be afraid of coming into contact with other people's bodies? Otherwise, how else would they attack others, beating the bull across the mountain?"

"Oh? Then you mean" Xiang Yongzhan was slightly stunned, "That monster isn't afraid of our bodies? What is it that's afraid of then?"

"Don't know yet, maybe" Ji Feng shook his head, hugging his arm, tapping his fingers on his arm, in deep thought, then he reacted and asked with a smile, "Then what? "

"We thought at the time that he was afraid of our bodies and didn't dare to make physical contact with us. So, we all threw away our weapons and just fought him with our bare hands." When Xiang Yongzhan said this, he couldn't help but shake his head and laugh, "Although that monster was terrifying, our bases weren't bad and there were many of us, so we fought with him and it was a fair fight."

Ji Feng smiled and nodded, they themselves were extremely good special forces soldiers, plus they had practiced body building exercises, so their strength was naturally not ordinary.

Besides, no matter how powerful that reformer was, there was always a limit, unless they met that kind of advanced reformer, then count Xiang Yongzhan and the others as unlucky.

But since they had come here, it meant that they had definitely not met an advanced reformer, otherwise, even if Xiang Yongzhan and the others could escape, they would still have to pay a great price.

At the very least, a few warriors would have been lost.

"Go on." Ji Feng said smilingly, "How did it go back there, how did you guys escape to here?"

"You kid are listening as a story, right?" Xiang Yongzhan cursed with a laugh and couldn't help but cough a little.

Ji Feng waved his hand, "Forget it, you'd better rest first, we'll continue talking after you recover."

"How about this, let White Spider talk to you below. If she misses anything, then I'll add it on the side so that you can also listen to the full picture." Xiang Yongzhan looked at the white spider, "White spider, tell Ji Feng about the following."

Ji Feng nodded and smiled, "That's fine, listening to you ramble on as a big man is not as pleasant as listening to a beautiful woman."

The white spider pursed her lips slightly next to her and said softly, "Young Ji, actually what the captain said was almost at the end" Later on, both of us kept fighting furiously, and as a result, the monster weakened rapidly and its combat power dropped drastically, and as a result... ..he suddenly exploded on his own."

"Exploded by himself?"

Ji Feng was stunned, "This guy is really non-human, not only is he ruthless to others, he's even more ruthless to himself!"

The white spider couldn't help but laugh dumbly, unexpectedly Ji Feng spoke but so funny.

“Right, since that monster can explode itself, then he must also have a biological bomb inside him?” Ji Feng suddenly had a thought in his mind and couldn’t help but ask.

“That’s right, it’s indeed a biological bomb.” White Spider nodded and said, she was very familiar with biological bombs, after all, she had also been implanted with a biological bomb in her body back then, and she had later witnessed an example of a biological bomb exploding.

Ji Feng couldn’t help but ask, “How did you guys manage to dodge it?”

Regarding this biological bomb, Ji Feng still knew a lot about it. Don’t ever think that a biological bomb is not powerful because it is just that little. Or that the biological bomb was only a deadly threat only for the host, and that it was no threat to others.

In fact, this is definitely not the case.

Although the biological bombs were small in size, they were extremely powerful.

According to Ji Feng’s understanding, some biological bombs were even more terrifying than conventional bombs of the same size.

For example, the biological bomb inside the white spider was the size of a fist, and it was only as small as a baby’s fist, but once it was detonated, it was powerful enough to put all the creatures around it within a few meters, or even ten meters, in mortal danger.

Imagine having a biological bomb of that power inside the White Spider alone. Then, what kind of bombs would be implanted in the bodies of the high-level transformers who were even stronger than the White Spider?

Just thinking about it was enough to send shivers down one’s spine, not to mention Xiang Yongzhan and the others who were still fighting that Transformer at that time, so Ji Feng was curious as to how they had managed to dodge it?

“So that’s where the strangeness lies.” Xiang Yongzhan, who had rested for a while, suddenly spoke up.

“Strange? How?” Ji Feng asked.

Xiang Yongzhan said, “At that time, that Transformer blew himself up, but the strange thing is that the bio-bomb only blew that guy to pieces, yet, it didn’t do much damage to us Perhaps, it was during the explosion that we were poisoned.”

“The bomb contained toxins?” Ji Feng immediately asked.

“That should be the case, because after the bomb exploded, there was a pungent smell, at that time we only thought that was normal, after all, there is a pungent smell of sulfur when you set off a cannonball, not to mention the bomb.” Xiang Yongzhan said.

“So when did you guys feel poisoned?” Ji Feng asked with a frown.

“After we took care of that Transformer, that base was completely destroyed by us, so we evacuated.”

Xiang Yongzhan said, “But not long after I had just gotten into the kayak, just under twenty minutes, I felt something wrong with my body.”

“Then the captain ordered us to retreat to the nearest island to the base and wait for rescue. That way we could avoid enemy probing on the one hand, and on the other hand, it would be easier to hide.”

White Spider took over, “At that time, we were worried that once the enemy knew that their base was under attack, they would send someone over, but we didn’t expect that there was actually an enemy presence on this deserted island! And it also didn’t occur to us that there were a lot of armed men coming over from the nearby island, and we got trapped here.”

“This is also because I was careless.” Xiang Yongzhan shook his head slightly and said, “There were already so many people in their base, I’m afraid there wouldn’t be too many people on the outer perimeter even if there was a guard, but I didn’t expect the other side’s people on several nearby islands to actually rush over.”

“Maybe people are waiting here specifically for you!” Ji Feng laughed.

But Xiang Yongzhan’s face changed, “That’s a possibility! I took out several of their bases in a row some time ago, so I think they are already prepared It seems that I was still careless!”

Ji Feng nodded slightly and couldn’t help but frown and ponder, “This matter, it’s already clear”

“How so?” Xiang Yongzhan asked.

“You think carefully, when you end several bases of the dynasty in a row, they can find a pattern from it, no doubt, these bases are known to the white spider, and she is beside you, then obviously the other side will definitely be on guard.” Ji Feng said.

“That’s not possible!”

White Spider immediately said, “The targets of our operation are all bases that I have not been to before, it’s just that I learned some information about these bases when I was in Western Xia before, how could they possibly judge our targets?”

Ji Feng laughed, “Maybe, the dynasty is more cunning than you think!”

White Spider and Xiang Yongzhan then nodded thoughtfully, indeed, the people of the dynasty were not only scary, but also very cunning.

Ji Feng, on the other hand, was in deep thought, these words spoken by Xiang Yongzhan and White Spider revealed a lot of information. For example, why did that Transformer seem to be afraid of physical contact with Xiang Yongzhan and the others?

Why would the white spider be fine when the biological bomb exploded, even if it contained toxins?

There were few answers to these questions, but in Ji Feng’s heart, he already had some guesses, only that he couldn’t confirm them yet.

“Well”

A whispering sound suddenly came, Ji Feng several people immediately turned back, but found that, while several people were talking, the warrior next to him gradually came to his senses.

Ji Feng laughed: “It’s done, just rest for a few more minutes and there will be no more problems.”

Xiang Yongzhan couldn't help but say, "It's lucky you came, otherwise, we would have really all been planted here this time. It really didn't occur to me that we weren't planted in battle, but were restrained by poison"

This is indeed a bit depressing, for a soldier, dying on the battlefield, that is indeed nothing good to say, conquering the sands and wrapping the corpse in horse leather, this is the portrayal of a soldier.

But if one is poisoned, and does not even know how, then it would be too much of a shame.

"It was also an accident that no one could have expected, now"

Ta-da-da~~~!

Before Ji Feng could finish his words, he suddenly heard a burst of gunfire not far away, followed by increasingly dense gunfire.

Several people's faces changed slightly, and Xiang Yongzhan said in a deep voice, "This is the sound from our automatic rifles firing, could it be that we have exchanged fire with each other?"

"It's Gu Chao!" Ji Feng immediately thought of this possibility and he jerked to his feet, "You guys wait here, I'll go check it out!"

"I'll go over there too!" Xiang Yongzhan also stood up, "I've almost recovered my strength."

"We'll go too!" The other warriors also said.

Xiang Yongzhan waved his hand, "Then let's go together, and if we can, we'll take the opportunity to kill them all this time, if it's possible to do so!"

Having been surrounded for so long, Xiang Yongzhan had long been suffocating in his heart, now that he had regained his strength, what else was there to say.

In a word, fight!

Chapter 998

Although most of the soldiers of the Special Combat Brigade have not really recovered their strength, they can now walk without any problem, but not enough if they are fighting.

However, for Xiang Yongzhan, this was enough. As long as the youngsters below could keep up with him, there would be no problem, because fighting the armed men of the dynasty would not require the soldiers of the Special Combat Brigade, with Ji Feng and the Red Arrow Brigade around, where else could these wounded men worry about?

Now it was too late to say anything more, because Ji Feng had already concluded that the ones who had exchanged fire with the dynasty were definitely Gu Chao and the others, so they had to hurry to reinforce them.

If it was a sneak attack battle, or some other special warfare, then Ji Feng naturally did not have to worry, after all, the Red Arrow Brigade's combat ability was not a cover, one of the most outstanding special forces in China, this name was definitely not blown out of proportion.

But the problem is, now he can't figure out the situation of Gu Chao and others, if and when they are deep in the jungle, if Gu Chao and others are fighting guerrilla warfare, or fighting while walking, then there is absolutely no problem.

The only thing he feared was that they were trying to cover themselves and others, and thus confronted the enemy head-on, and that would be a real disadvantage.

As the saying goes, a good man cannot resist a large number of people, that is the truth.

Therefore, Ji Feng took three or two steps out of the cave, where Liu Xin and his men were already waiting and were on tight alert.

Ji Feng waved his hand, "Go for reinforcements!"

"Yes!"

Everyone's lips twitched and they saluted, before they quickly touched over in the direction where the gunshots came from under Ji Feng's leadership. Xiang Yongzhan and the others followed behind them, with Xiang Yongzhan and White Spider walking at the end, as they were responsible for guarding against a sneak attack from behind.

At this time, Gu Chao's squad had suffered a very serious loss.

"Ga Ga Ga" The sound of a dry, strange laugh resounded continuously deep in the jungle, making people's scalp tingle and their sweat hairs stand up at the first hearing.

At this moment, four of Gu Chao's eight men had already been seriously injured, and not lightly, and their combat power had dropped dramatically, so they could only hide behind the four remaining comrades and grit their teeth as they retreated.

These four men, all of them, had very serious injuries on their bodies. Some were carrying wounds and their clothes were torn, while others had both arms drooping, obviously with broken bones.

"Fuck!"

Seeing this situation, Gu Chao cursed angrily, "Everyone listen to the order, fire cross cover, no need to distinguish when you encounter a target, just shoot! Make sure to finish off those two bastards for me!"

These men were his brothers in arms, they had been born and died together many times, even if they were surrounded by regular troops, they were able to kill them.

Gu Chao's eyes were bloodshot and his fierce gaze swept through the jungle from time to time. The other three uninjured soldiers were also extremely angry, their eyes were like those of wounded wolves, once they saw the shadow of the other side, they casually fired a shot, without even needing to aim, they simply took the other side down.

It was through this precise shooting that the other side almost dared not take a step forward, and could only lie at the entrance of the base, not daring to move for a long time.

However, their terrifying marksmanship could not do much damage to the two monsters.

The two monsters were like two ghosts, they were so unpredictable, so fast and so unpredictable that it was impossible to hit them.

They were also like two killing machines, moving with precision and ruthlessness. Every time they dodged, they made a deadly move. If these warriors did not have excellent skills, I am afraid that those four warriors would have been killed instead of injured.

However, instead of having any sense of celebration, Gu Chao and the others were even more annoyed.

When had they ever been beaten so badly by others? It was as if they had no power to fight back, just two of them had swept through their small squad, which could simply make people explode in anger.

However, now was not the time to dwell on it, so Gu Chao could only order his brothers to cross fire and cover, if they dwelled on it any longer, I was afraid that they might all be lost here.

"I don't know what's going on at Sir's place either!" This thought flashed through Gu Chao's mind, and immediately afterwards, a shadow suddenly flashed in front of him.

Bang!

Gu Chao flung his hand and fired a shot, at the same time, a soldier beside him threw out a grenade: "Go to hell!"

Boom~~~!

An earth-shattering explosion slammed out in the jungle, and fire splashed everywhere.

Taking advantage of this opportunity, Gu Chao and the others immediately continued to retreat.

"Gu Chao, don't panic, counterattack on the spot!" A violent shout suddenly came from not far behind, and the next moment, a human figure had appeared beside Gu Chao, but it was Ji Feng who had arrived.

"Sir!" Gu Chao said at once, "There are two reformers on the other side, they are too fast, and four brothers were injured by them."

Ji Feng frowned slightly, "What transformers are so powerful, are they advanced transformers?"

Only a moment ago Xiang Yongzhan had told that a few of them had fought with a Transformer on a nearby island, eventually forcing the other party to detonate the biological bomb in his body, and now this Transformer was so powerful?

Unless was an advanced Transformer.

"It should be." Gu Chao nodded and said, "They are too fast and far more powerful than that half of the transformers."

"Then it's time to go and meet them for a while!" Ji Feng snorted coldly.

At this time, Liu Xin and the others also arrived, and Xiang Yongzhan immediately ordered the Special Combat Brigade's warriors to stand guard in place while he and White Spider took a big step forward.

"The other side probably has advanced transformers, and there are two of them!" Ji Feng said.

"It seems likely that they are using us as fish bait." Xiang Yongzhan said with an unpleasant expression on his face.

If the other side really had two advanced transformers, then wouldn't it take them ten to twenty hours to search such a small deserted island? I was afraid that a few hours would be enough.

But the other side had delayed in finding them, this was not necessarily because of how well they were hiding, I'm afraid that the other side had not really put in a lot of effort to search for them, but rather used the method of surrounding and attacking the reinforcements, using the men from the Special Combat Brigade as bait, while attracting reinforcements, and then finally wiping everyone out in one go!

"What a good plan!" Xiang Yongzhan sneered and squatted down, picking up an automatic rifle from a soldier's body next to him and racking it up.

"Ji Feng, I'll overstep my command for once?" Xiang Yongzhan asked with a smile.

Ji Feng smiled and nodded his head in agreement. He knew that Xiang Yongzhan had been suffocating for the past one to twenty hours, and now that he wanted revenge, he had no reason not to support it.

Besides, if Xiang Yongzhan was in command, he could be much better than him, and there was no way he would do something like that to the detriment of others.

"Good then, whether it's the Special Combat Brigade's or the Red Arrow Brigade's warriors, all of them, focus on beating up the other side's ordinary armed men first, regardless of means or process!" Xiang Yongzhan bellowed, and turned his head to look at Ji Feng, "Ji Feng, can you handle those two reformers alone?"

Ji Feng nodded, and next to him, White Spider said, "There's also me, I can fight them too!"

"Good then, one of us!" Ji Feng harrumphed.

Xiang Yongzhan waved his hand violently, "Fire!"

The two special detachments, a total of nearly thirty men, excluding the injured ones, also had a full twenty fighters. These men were divided into four platoons under Xiang Yongzhan's orders, each crossing fire and forcing their way step by step towards the small base in front of them, fighting steadily.

This time, the combat power of the Red Arrow Brigade and the Special Combat Brigade was suddenly fully revealed, and even with their wounded men, they were still strong enough to crush the other side to the ground.

The gunfire from this side caused the enemies all around to come in fast, however, they were unable to break through the fire blockade of Xiang Yongzhan and the others.

In just a few minutes, this side turned defence into attack, infinitely closing in on the other side's base, hitting the other side in the base and not daring to show their heads at all, with only occasional sporadic gunfire, but in front of the dense and accurate firepower of the two special combat teams that was, it couldn't make any difference at all.

The two teams' eyesight and the two teams' combat power are all great!

Especially Xiang Yongzhan's eyesight was even more precise. He could see at a glance that in the current situation, the other side's armed forces had to be taken care of first, otherwise, even if Ji Feng had the ability to take care of those two transformers, but under the threat of the other side's armed forces, his hands would be tied, his strength would not be brought into play, and he might even be countered!

And now, the two special combat teams would take care of the other side's armed men, while Ji Feng and the white spider would guard against the company of transformers, in this way, those two transformers would definitely not dare to come looking for death easily, and their armed men, would only be obediently taken care of.

Thinking of this, it suddenly occurred to Ji Feng that if the other side had such a brilliant command staff before this, and also followed this method, I'm afraid that Gu Chao and the others would have all been solved, right?

Ji Feng could not help but secretly say a fluke, I am afraid, the dynasty has not yet realized the importance of a commander ah.

The strength of an excellent commander, combined with sufficiently powerful warriors, could be absolutely terrifying.

It was easy to understand why Xiang Yongzhan and his men dared to go around attacking the dynasty's bases, they had the ability to do so!

Only, this time, they had encountered an eccentric transformer, but in reality, this base had also been destroyed!

Boom~~!

As they approached the other side's base, a grenade was thrown directly into it by Gu Chao, and it exploded with a loud bang, and that small base was instantly overturned.

"Hoo~~!" Just then, behind a few people, but suddenly a faint wind sound came from behind them, and it struck like lightning!

Chapter 999

Swish!

The moment the strong wind hit him, a cold aura flashed from Ji Feng's eyes. And at this moment, the white spider, likewise, also sensed the difference behind him.

Both of them were standing on the periphery, and that strong wind wanted to attack those warriors, it would have to rush past Ji Feng or past the White Spider, but that was obviously impossible, and the two of them were standing on the periphery for the purpose of defending against those two transformers.

"I'll do it!"

Bai Spider was just about to make a move when Ji Feng shouted violently, and in a flash, he fiercely blasted his fist towards that strong wind, which came right at him, and the two sides directly collided without reservation.

Bang!

This was an unreserved collision, one side came in like lightning, the other side, standing still, turned around violently, relying on the power of the waist and arms stacked together, and blasted out violently, this kind of collision, that was definitely as intense as a comet hitting the earth.

As soon as their fists came into contact, Ji Feng's face changed slightly and he secretly said, "What a strong force!"

The other party's strength was indeed strong, with this punch, I believe it could be comparable to Xiang Yongzhan's peak period, if such a punch hit an ordinary person, I'm afraid one punch would be enough to kill him.

"Poof!" A sound.

A huge force pressed down on Ji Feng's body, but his body was like steel and iron, the other party could not shake it at all. However, the tremendous force was so great that it pressed him straight down that both of his feet sank into the mud raw.

From this, one could see how terrifying and powerful this punch of the opponent really was!

However, the man who had suddenly come at him exclaimed, "What?"

The man was also very clear about his punch, even a strong and powerful man would not dare to take his punch head-on, even a low-level reformer would have to dodge it. But this guy in front of him, he actually caught it hard?

In a flash, a name suddenly came to this man's mind, "You, you are Ji Feng?!"

Swish!

A cold aura flashed across Ji Feng's eyes, "You know my name? It seems to be an acquaintance after all! But coming is not a gift, after you're done fighting, it's my turn then!"

The man who had attacked him was wrapped up in a tightly woven cloth, even his face was wrapped in cloth, and he had a hat on his head and gloves on his hands, so it was as if he was a mummy wrapped up in a bag.

However, since the other party knew his name, Ji Feng could be sure that even if this guy was not someone he knew, he was definitely related to someone he knew!

So in an instant, Ji Feng decided to leave him alive and capture him first.

The guy who was wrapped up in a body, once he heard Ji Feng's words, was abruptly shocked and subconsciously kicked like lightning.

At this time, Ji Feng's left hand had already clenched his palm into a fist and punched out violently.

This fist and kick instantly clashed together, and the two of them once again came to a realistic collision.

"Bang!"

With this punch, Ji Feng used a full 80% of his force, instantly hitting the man with a violent stumble, staggering backwards three or four steps before he could stand firmly on his feet.

“Is that all you’ve got?” Ji Feng snorted.

The man gave Ji Feng an astonished look and said in a deep voice, “You really have some skills!”

At this time, there were four warriors already pointing their guns at him, surrounding him with a murderous aura. Just now, because of his sneak attack with another person, the Red Arrow Brigade had lost four people alive, and these warriors had been holding a fire in their hearts for a long time.

Now that they saw that this bastard was about to fall into their hands, how could they be polite?

Ji Feng waved his hand, “You guys go deal with those armed men, you don’t have to worry about this guy, I’ll take care of him!”

As he spoke, he gave a wink to White Spider, telling her to follow them to Yongzhan as well, to prevent the other Transformer from suddenly launching a sneak attack.

Those four warriors immediately nodded and immediately followed the group quickly along with White Spider.

In this jungle, only Ji Feng and that Transformer were left.

Ji Feng smiled faintly, “Covering up so tightly on a hot day, aren’t you afraid of getting covered up? Or is it that you’ve been altered so much that your face is not afraid to meet people?”

“Although you have great kung fu, you are not invincible with swords and spears anymore, you will die just the same.” As soon as that man heard Ji Feng’s words, a sharp aura flashed in his eyes. Only, his voice was incomparably dry, leaving him with no power at all.

“That’s!”

Ji Feng couldn’t help but snicker, “Unlike you, I’ve been transformed into bronze skin and iron bones, so I must be invulnerable to swords and spears, right?”

“Your words are too much!” The man said angrily, “But that’s the end of it.”

Hoo~~!

A man suddenly jumped down from the tree and stood right behind Ji Feng, so that he suddenly joined the first reformer and formed a front and back attack on Ji Feng.

“What for, trying to bully me with the number of people?” Ji Feng asked with a smirk, “I didn’t bully you just now on account of the number of people, so doing so is a bit unkind, isn’t it?”

“You’re the one who’s too conceited, you can’t blame anyone!” The reformer who was standing in front of Ji Feng, rattled his laugh, “Thinking that just because you are better at kung fu, you can not put anyone in your eyes?”

“No need to talk nonsense to him, while he’s alone, just capture him, we’ll finish the mission and hurry up!” Another reformer said.

Ji Feng's heart immediately moved: "It looks like someone ordered you guys to capture me? Who gave you guys the order? How did you guys know I would come?"

This doubt, Ji Feng had never been able to figure out, but now it seemed that his previous guess was not accurate, Xiang Yongzhan and the others were indeed fish bait, but what these people wanted to fight was not just reinforcements, their main target was themselves.

Add to that the fact that they knew their names, and this was going to be a lot more interesting.

"When we get you back, you'll know who's out to get you." The reformer in front of him grunted and suddenly made his move. The reformer behind him also made his move at the same time.

Ji Feng sneered, not dodging at all, he fiercely charged forward, and at the same time, his leg was raised high, and then he smashed down like lightning.

"Seeking death!" The reformer in front thought that Ji Feng still wanted to fight with his strength, and was immediately delighted in his heart, as long as he wrapped himself around him on this side, he would not be able to run away again and would definitely be caught.

Ji Feng's strength was great and his kung fu was also very powerful, but in this reformer's opinion, no matter how powerful Ji Feng was, he was still far from being a match for the two of them.

Both of them moved surprisingly fast, and in just an instant, the two of them collided together once more.

Just then, the reformer behind him was also delighted in his heart and pounced on Ji Feng, ready to smash him down directly from behind. He still had great confidence in his companion's strength, and he had seen the collision between his companion and Ji Feng clearly just now.

However, in the next moment, his eyes instantly widened and his heart suddenly thudded.

"Ah...!"

A miserable scream instantly emitted from the mouth of the reformer in front of him, and together with his dried up and raw voice, the scream was truly miserable.

And at the same time, his whole body was like a cannonball, instantly flying out and hitting a big tree heavily, his body twitched a few times, and then he didn't move anymore and passed out.

Ji Feng didn't even look at that guy, he just turned around and looked at the shocked transformer behind him and snorted, "So transformers can faint too, I thought you guys even had your internal organs and brains artificially transformed!"

"You, you" The second reformer looked at Ji Feng in shock, and for a moment, he actually forgot to have any reaction.

Ji Feng couldn't help but shake his head slightly, this is the reformed man ah. Personal power is powerful, but, this power, also makes them extremely obsessed and revered for their own power, now once they were defeated head-on, their hearts are a bit overwhelmed.

If they were soldiers from the Special Operations Brigade or the Red Arrow Brigade, even if their companions were defeated, they would not look so shocked, this is the huge gap in combat literacy.

And Ji Feng also confirmed a suspicion in his heart through this encounter, a discovery that made him a million times happier.

Perhaps, he had found a way to deal with the Transformer, but he still needed to confirm it a little more. And this, too, was the reason why he talked so much nonsense to these two reformers, otherwise, these two guys would have been taken down long ago.

Ji Feng hooked his hand towards this reformer: "Not going to take me back? Your people should be pretty much cleared out by now, beat me and you can leave, but if you lose, there's no one who can help you"

"Ah..."

The reformer roared out and pounced on him.

Ji Feng smiled faintly, it was good to make a move. He fiercely stepped forward with a padded step and reached out to block the reformer's fist.

"Ah!"

As soon as that reformer's fist came into contact with Ji Feng's hand, he immediately let out a shriek of surprise and took a few steps back in a panic, looking at Ji Feng in disbelief, "You, you have something weird on you?!"

"You can't beat me and you say there's something weird?" Ji Feng snorted, "You reformers all look like this ghost?"

"Shut up!" The transformer roared, the drastic change in his appearance after being artificially transformed was a scar in the hearts of all senior transformers, but at this moment it was uncovered by Ji Feng without mercy, this transformer immediately became furious and pounced once more.

Ji Feng smiled faintly and threw a fierce punch. This punch looked fierce, but in reality it was light and almost devoid of force.

This punch, however, contained a hint of bio-current.

"Pop!"

Ji Feng's fist struck the man's chest, and in the next moment, the transformed man shrieked in shock and hurriedly took a few steps back, looking at Ji Feng in shock.

"It's really true!" Ji Feng looked at his fist and nodded in satisfaction, "So, you guys have a nemesis too"

Chapter 1000

Snapping

Ji Feng's fists continuously struck that Transformer's body, causing the latter to continuously shriek, and every time Ji Feng touched him, he panicked and backed away, as if Ji Feng's hands carried something that he was incomparably afraid of, not daring to make contact with Ji Feng at all.

Ji Feng then became even more certain that this Transformer was really afraid of bio-currents!

His previous guess was completely correct.

In fact, from the moment he described to Yongzhan how they had fought with that Transformer on the other island at that time, Ji Feng had his suspicions.

It was reasonable to say that the transformers were all extremely powerful and could simply be described as super warriors, so it was basically impossible for them to be afraid of a few bare-handed special operations brigade warriors, but according to what Xiang Yongzhan said, that transformer was indeed afraid of making physical contact with them.

Therefore, Ji Feng then had a vague feeling that there must be something that the Transformer feared on Xiang Yongzhan and the others, but it was definitely not their bodies.

This was because both the White Spider and Liu Xin and the others had fought with the transformers before, and at that time, the transformers did not show any fear of the normal human body.

Then, what the transformers were afraid of would only be the bio-current on Xiang Yongzheng's body and theirs.

And before that, because the time that Xiang Yongzhan and the others had practiced body-building exercises was still very short, there was no bio-current generated in their bodies, so those transformers were not afraid, but now it was different, after such a long time of practice, bio-current was generated in their bodies, although it was very weak, but there was indeed bio-current.

Therefore, Ji Feng then surmised that what these transformers were really afraid of was the bio-current in their bodies.

The performance of this Transformer just now also fully proved this point, and this result made Ji Feng very satisfied that the method to restrain the Transformers was already called for.

–Bio-current!

“You, your hands” The transformer looked at Ji Feng in horror, no longer having the confident look he had before, instead he was very alarmed, “What do you have on your hands?!”

Ji Feng smiled and said, “Want to know? Then tell me, who actually sent you, how did you know my name, and also, how did you know that I would definitely come? Tell me all this, and I'll tell you what I have in my hands!”

“Don't you dare!” The reformer roared.

Ji Feng shrugged, “Then there's nothing left to say, we can only take you back and interrogate you slowly.”

As soon as his words fell, his entire body suddenly surged, instantly arriving in front of that Transformer and punching out fiercely.

That reformer was instantly terrified and subconsciously had to retreat, however, a big tree behind him blocked his retreat, so that he could only watch Ji Feng's fist come.

It turned out that the reformer had just been beaten and kept retreating, and had long since retreated to the front of the big tree, and was now beyond retreat.

In fact, even if he still had a way to retreat, he definitely could not escape Ji Feng's attack. Although his speed was fast, there was still a big gap compared to Ji Feng.

Before, Ji Feng only wanted to verify some questions on him, that's why he didn't exert his full strength, but now since some doubts had been verified, there was naturally nothing left to say, let's grab him back first!

Bang!

That reformer was hit by Ji Feng's fierce punch in the stomach, and instantly fainted, not even half-responsive.

At this time, Ji Feng's face changed abruptly, and with a fierce step, he arrived at the first reformer. At this time, the latter had actually woken up, a resentful light shot out of his eyes, and one hand was pressing his chest, as if he wanted to do something.

Without hesitation, Ji Feng gave a fierce slap down.

"Slap!"

The reformer let out a muffled cry and his body twitched violently for a few times before he couldn't move anymore.

"You you" The reformer could barely speak although his body had lost the ability to move, only his voice was much weaker.

"If you are trying to answer my questions, I can let you fully regain your ability to speak, if not, then you can stay honestly!" Ji Feng said indifferently.

That reformer immediately shut up tightly and didn't say a word.

Ji Feng smiled and did not fight with him, just turned his head and scanned around for a week, found that the sound of gunfire around that area had been much less, there were also a few occasional scattered gunshots, it was obvious that at this time, those armed men had almost all been cleared out.

Ji Feng nodded slightly, really have to admit, Xiang Yongzhan lead soldiers really have a set, he and Xiang Yongzhan cooperate, is also considered seamless.

The two transformers that suddenly appeared earlier, if we follow the normal thinking, those warriors would definitely take care of these two guys first before dealing with the other enemies. However, Xiang Yongzhan ignored this side and went straight to kill those armed men.

Even if Ji Feng's side was under a bit of pressure, as long as he could hold out until Xiang Yongzhan and the others had finished clearing out the other armed men and then free up their hands, the two reformers would not be able to run away if they wanted to.

Ji Feng was under pressure, but he had held two reformers in check by himself, removing a large part of the threat to the special operations team, and then the rest of the minions would be cleaned up at will. What's more, even if Xiang Yongzhan and the others stayed behind, they probably wouldn't be of much help and would become a liability instead, so they might as well split up now and attack each other.

Therefore, Xiang Yongzhan's approach was the best choice.

In fact, this was exactly what Ji Feng had in mind. By coming to deal with these two transformers, he could, on the one hand, relieve a huge amount of pressure on Xiang Yongzhan and the others, and on the other hand, he could also verify many of the suspicions in his mind, which was a two-for-one thing.

Therefore, it could be said that this was a very perfect match!

After about ten more minutes, the gunfire stopped completely, leaving a few people on guard, Xiang Yongzhan then led his men to come over quickly.

When he saw that the two reformers were actually both stacked up together, and Ji Feng was sitting on their bodies and was leisurely smoking a packet of cigarettes from who knows where, Xiang Yongzhan was staggered.

"You kid can really" Xiang Yongzhan shook his head and laughed bitterly, usually a reformer can make their body's nerves tense, but Ji Feng is good, instead, he easily took care of the two guys, and so leisurely!

Xiang Yongzhan couldn't help but feel that in this special warfare, the ability to fight alone was really too important. When the initial operation took place, if their special operations brigade could have had a super expert like Ji Feng, it wouldn't have been so difficult to say that they were all poisoned and then besieged on this deserted island.

The two guys who were sitting under Ji Feng's ass at this time were also senior reformers, so there was no need to say much more about their strength, as evidenced by their ghostly speed during the sneak attack.

However, Ji Feng had taken care of these two senior reformers in such a short time, which was really surprising.

If White Spider knew that Ji Feng didn't even use his full strength against these two guys, but knocked them down with three punches and two kicks, I'm afraid he would have been even more surprised!

"Finished?" Ji Feng asked as he smiled and threw a cigarette to Xiang Yongzhan.

Xiang Yongzhan nodded, looked at the two reformers, and also came to Ji Feng and joined him, sitting side by side with the two guys.

Relieve the hate!

“The armed men have basically been cleared out and a few live ones captured. Others may have slipped through the net, but in the middle of this jungle, unfamiliar with the terrain, it’s hard to find them for a while, I left a few people on guard.” Xiang Yongzhan laughed, “This time it was an enjoyable fight!”

Ji Feng laughed, “What’s next?”

Xiang Yongzhan twisted his head to look at the two reformers under his butt and laughed, “This time the combat mission was over completed, so it’s time to go back. Even if there are still a few minions left in the jungle, they won’t be able to make any waves.”

Ji Feng nodded his head and waved his hand, “Tie these two guys up and take them away!”

“Yes!”

Ji Shaoyun answered loudly, his little face flushed with excitement. This time he had fought to his heart’s content, it was the first time he had participated in such an intense battle, which made him very excited.

Quickly tying up the two reformers and taking a few other captured armed men with them, the group picked up the pace and headed for the beach.

On the way, Xiang Yongzhan made contact with the top and asked the submarine to come and pick them up.

At this time, several warriors carried out several large packages from the small base of those armed men, and quickly rushed up as well.

“What is this stuff?” Ji Feng asked.

“Inflatable rafts, fortunately they weren’t blown up just now, otherwise, it would have been a bit of a problem.” Xiang Yongzhan laughed.

Ji Feng couldn’t help but laugh, “That’s much more convenient.”

He knew that there were a lot of reefs and things like that near the coast, so the submarine couldn’t get in at all. They had come by armed swim across, but now they still had a few prisoners and wounded with them, so it would be difficult to swim across again.

At this time, the inflatable raft came in handy.

On the way, Ji Feng also learned about the situation outside. It turned out that the ships of several neighboring countries were already rushing this way, and the ships of the boundary tent were even cruising on the sea in the vicinity, whose intentions were naturally self-evident.

Therefore, they could only leave by submarine, otherwise, in case they were surrounded by those ships, they would become their captives.

Ji Feng couldn’t help but snort coldly, “A bunch of jumping clowns, jumping around more than anyone else.”

It was just as well that the dynasty and the boundary tent were inextricably linked, now they had actually sent warships, which was clearly intended to stop the Chinese ships, and those two reformers had spoken Ji Feng’s name, as if they were waiting for him specifically here

“The boundary canopy” Ji Feng’s eyes flickered with cold light, he was being watched ah.

“Let them bounce around, old me will cripple him sooner or later, see how he can still bounce around!”
Xiang Yongzhan couldn’t help but snort coldly as well.

Ji Feng, however, was thoughtful.
