

Chaotic 1771

Chapter 1771: Separation

However, Jian Chen did not defend against Shen Jian's attack at all. He smiled as he stood there leisurely with his hands behind his back. He wanted to use the toughness of his body to resist Shen Jian's attack.

With dazzling light, Shen Jian's Cloudstream sword landed on Jian Chen's chest. It radiated with powerful sword Qi, and Jian Chen's clothes were immediately reduced to dust; not a single shred remained. It revealed his stature, which was rather slender.

The dark Cloudstream sword pressed against Jian Chen's chest with its sharp edge as it shone brightly. However, to Shen Jian's disbelief, Jian Chen stopped the attack with his body and emerged completely unscathed. Shen Jian's attack that was even stronger than the attack of regular mid Gods had failed to even leave a mark on Jian Chen.

The surging light around the Cloudstream sword completely failed to injure Jian Chen as well.

Shen Jian's eyes narrowed suddenly at this sight as disbelief flooded his face. He already knew that Jian Chen's body was extremely tough. Back when Jian Chen fought Xiong Zhong on the Tian Yuan Continent, he was clearly not as powerful, yet he managed to drive back Xiong Zhong thanks to the toughness of his body and superior regeneration.

Afterwards, Shen Jian personally fought Jian Chen in outer space. The battle had cleaved the moon in half. Back then, Shen Jian's strength had completely exceeded Jian Chen's, but in the end, Jian Chen managed to cause heavy wounds to both sides thanks to the toughness of his body and unimaginable regeneration.

However, Shen Jian had never thought that Jian Chen's body would reach such an unbelievable toughness today. His full-powered strike had failed to harm Jian Chen at all.

This left Shen Jian utterly shocked.

Looking at his unscathed chest, Jian Chen was pleased with himself and nodded. He said, "I estimate that mid Gods are unable to harm me at all. Only when attacks have reached the level of late God can they draw blood."

“What a tough body,” Shen Jian could not help but sigh in amazement as he drew back the Cloudstream sword. Let alone Overgods, even Godkings could not endure an attack from a mid God and emerge unscathed without blocking at all. In fact, even some Primordial realm experts might not be able to achieve that.

Gods were unable to threaten Overgods or Godkings because the origin energy they possessed was far more powerful. Even the laws they had comprehended were more powerful. Overgods and Godkings only needed to use origin energy or the power of laws to cast down a layer of defence and Gods would struggle to get through it.

If they did not use origin energy or the laws and used their body instead, even Godkings would probably end up having the sword driven through their entire body. Even some weaker Primordial realm experts would not be able to endure an attack from a God.

Of course, that was unless they practised a cultivation method that forged the body, making their bodies extraordinary tough.

It was also exactly because of this that in both the Saints’ World and on the Tian Yuan Continent, people who were clearly much weaker could kill a few heavily-injured experts, even if the disparity in strength led to the weaker party being looked down upon as ants.

It was exactly due to the fragility of their bodies. Once they lost their powerful cultivation, even the existences that they had treated as ants in the past could threaten their lives.

However, Jian Chen’s Chaotic Body was an exception. Even if he was heavily injured, even if he was unconscious, mid Gods would not be able to kill him thanks to the current toughness of his Chaotic Body. They would fail to even leave a mark on his body.

“I’m confident about facing late Gods with my current strength. Even if I can’t defeat them, I can last for quite a while with the recovery of my body and healing pills. The only pity is that my abilities with Radiant Saint Force have fallen behind,” Jian Chen said confidently. His Radiant Saint Force remained at the 9th Class, making it equivalent to Saint Emperor. However, his cultivation had already reached the level of Gods. Class 9 Radiant Saint Force was unable to help him much anymore.

Shen Jian nodded sympathetically, "If your Radiant Saint Force can catch up to the strength of your body, your recovery rate will be even more impressive. Any wounds you receive will probably recover before you're able to receive a second wound. They won't be able to kill you unless they completely exceed you in strength."

"Oh right, why can't you continue to progress with the cultivation of your Radiant Saint Force?" Shen Jian asked again. He felt like the weakness of the Radiant Saint Force had become a flaw in Jian Chen's defences.

Jian Chen furrowed his brows as he sank into his thoughts. He said, "After I condensed my soulcore with Radiant Saint Force, I've been unable to advance any further. I heard from fairy Hao Yue in the past that once I condense the soulcore, the seven-colored flower must bloom, and I must condense a soultree."

"Making the seven-colored flower bloom and condensing a soultree should be the upcoming cultivation levels for Radiant Saint Force. It's just that no one has ever reached such a level on the Tian Yuan Continent, and I've only learnt a limited amount of information from fairy Hao Yue, so I don't know what it's about."

After a moment of silence, Shen Jian said, "I think you just lack the cultivation method for Radiant Saint Force. Your Radiant Saint Force will only continue to progress after you find the cultivation method."

"That's what I was thinking too," Jian Chen agreed. Not only did he lack the further cultivation methods for Radiant Saint Force, but he also lacked the techniques and method to use Martial Soul Force.

Nodding gently, Jian Chen stopped thinking about the matter. It was useless if he thought about it right now anyway. Soon afterwards, he waved his hand and two blocks of high grade divine crystals suddenly appeared. They landed on the ground with heavy thuds.

Jian Chen had directly taken out two of the three blocks of high grade divine crystal he had obtained from the dwelling of Godking Duanmu's disciple. He pointed towards the two blocks and said to Shen Jian, "I'm going to Godking Duanmu's dwelling immediately, and I might be able to help fairy Hao Yue in time. Shen Jian, take these two blocks. You can break them up in the royal city into mid grade divine crystals for cultivation."

A block of high grade divine crystal was a meter in length, width, and depth, while a standard divine crystal was one centimeter in length, width, and depth. As a result, a block of divine crystal was equivalent to one million of the corresponding standard divine crystals. Two blocks of high grade divine crystals would be equivalent to two hundred million standard mid grade divine crystals.

Shen Jian did not hold back. He put the two blocks away straightforwardly.

He would probably be unable to reach mid God if he directly absorbed the two blocks of high grade divine crystals, but once he broke them up, it would be enough for him to reach late God.

Afterwards, Jian Chen and Shen Jian decided to separate for the first time after coming to the Saints' World. Jian Chen directly headed off for Godking Duanmu's dwelling while Shen Jian headed to the royal city with the two blocks of high grade divine crystal.

The two blocks of divine crystal were very valuable, but with Shen Jian's current strength, no one was able to threaten him unless he encountered Overgods. Chapter 1772: Fairy Hao Yue Recovers

The Dark Cloud Mountains were several million kilometers away from Godking Duanmu's dwelling, but it was really nothing to Jian Chen. Before long, Jian Chen had crossed the distance and arrived outside Godking Duanmu's dwelling.

The entrance to the dwelling was opened up many years ago, so the dwelling that had been hidden away for countless years was now revealed before everyone. Anyone could enter and exit without obstructions.

Originally, there was no origin energy in Godking Duanmu's dwelling, but as the entrance was opened up, the space inside was reconnected with the outside world. All the dense origin energy in the outside world poured into the dwelling, causing it to become filled with origin energy. In the past, there was only Radiant Saint Force inside.

Jian Chen erased his presence and stood outside the dwelling with a low profile. He gazed around, observing the surroundings habitually.

Although the Godking's dwelling had been open for many years now, there were still many people gathered in the surroundings; these people ranged from the Origin realm to Gods. Without any

exception, the people would glance towards the entrance from time to time, and even when they conversed with the people beside them, they would pay attention to the entrance.

Jian Chen hovered in the sky. There were people all around him, and people would enter or leave the dwelling from time to time. As a result, his arrival was nothing special and did not catch anyone's attention.

This was because people would constantly arrive or leave the dwelling.

Jian Chen only glanced around out of habit, but his face changed very soon. Even though many people moved around, he could clearly sense that a few of the people who stood without moving seemed to be in positions that followed certain laws as if they stood in a tremendous formation.

"There's someone setting a trap here?" Jian Chen was surprised inside. He carefully observed where the people were standing without his expression changing at all and confirmed his thoughts even more. The people just happened to be standing in position for a tremendous formation.

"This formation does seem rather familiar. Why does it seem like a teleportation formation..." Jian Chen became rather stern. After checking it again, he finally confirmed that the people were standing in a teleportation formation. As he had studied the teleportation on the Tian Yuan Continent a little, he was able to recognise it very quickly even though he did not possess any mastery over formations.

"Someone is scheming against fairy Hao Yue or the Overgods in the dwelling. Once people enter the formation, they'll be sent to somewhere else; it'll be extremely dangerous, or even a zone of danger." Jian Chen's expression became ugly as he felt relieved that he had made it here in time. Otherwise, someone would probably ambush fairy Hao Yue once she emerged from the dwelling.

Fairy Hao Yue was very powerful in her former life, a Primordial realm expert, but Jian Chen refused to believe that she could recover her peak strength from Godking Duanmu's possessions alone.

At the same time, over thirty Overgods barraged the layer of power from laws in the depths of the dwelling. The layer of power was powerful, but it was only being worn away as it had no way to replenish itself. As a result, the layer had become extremely fragile after withstanding against attacks for so long.

Fairy Hao Yue was no longer an illusionary soul now. She had condensed her body, and after a period of recovery, her cultivation had reached peak God as well. She was only a step away from Overgod.

Godking Duanmu's remains beside her had vanished, replaced by a white pile of ashes.

"Quick, everyone put in some more force. The layer of power is about to be dispersed, and Godking Duanmu's possessions are going to end up in our hands..."

A late Overgod called out among the Overgods who were attacking the layer of power. He immediately struck out as hard as he could, hitting the thin layer of power heavily.

All the other Overgods gathered their energies as well and struck out with full force. Although fairy Hao Yue had taken away Godking Duanmu's Space Ring, were they really supposed to fear a soul that had just condensed a body with so many people present?

Boom!

The layer of power finally collapsed after withstanding everyone's full-powered attacks, and it slowly dispersed, finally exposing fairy Hao Yue who had always been protected in there.

As soon as the power of laws collapsed, late Overgod Yang Kai turned into a blur and shot towards fairy Hao Yue as quickly as he could. His powerful hands directly reached towards the Space Ring in fairy Hao Yue's hands as his eyes burned with desire.

Everyone present could sense that fairy Hao Yue was only a late God, so they did not take her too seriously.

As soon as Yang Kai moved, the other late Overgods moved as well as they rushed towards fairy Hao Yue. They were no slower than Yang Kai.

Behind them were the mid Overgods, and there were even a few other early Overgods. They were slower, so they fell behind.

Even though they were not as powerful as the late Overgods right now, they felt no fear, deciding to take part in the fight for the Space Ring.

Very few of them were bold enough to provoke late Overgods during other times, but they had all abandoned their fear now that Godking Duanmu's treasures were presented before them.

"How dare you!" At this moment, fairy Hao Yue's eyes snapped open from her seated position in the sky. She stared coldly at the fierce Overgods, and her face appeared dignified.

At that moment, she seemed to have become a great god as if she could look down on everything like ants. Even her gaze towards the Overgods was as if she was looking at ants she could crush with a finger.

The Overgods immediately shivered from her gaze. Even though fairy Hao Yue had not recovered, the dignified manner she possessed remained. With that, just a single glance was enough to cause the Overgods to experience chills.

However, she had not recovered her strength yet. The Overgods knew that she was only a late God, so she was unable to deter them.

Fairy Hao Yue's face turned cold. Even though she had only recovered to the point of late God right now, she felt no fear against over thirty Overgods. She raised a finger and a bright full moon condensed in a single moment. Chapter 1773: Slaughtering Overgods

The full moon shone extremely brightly with strands of clear moonlight that enveloped fairy Hao Yue.

Fairy Hao Yue became filled with a sacred beauty under the pure and gentle moonlight. She seemed like a fairy that had come from the moon. That was how otherworldly she seemed. An unpredictable presence permeated her surroundings.

Suddenly, a heavy, icy-cold killing intent began to radiate from the picturesque scene. The moon above her head suddenly began to shine brighter as it emitted an extremely thick pillar of light towards the Overgods with lightning speed.

The Overgods who charged towards fairy Hao Yue did not treat fairy Hao Yue's attack with any seriousness at all. After all, fairy Hao Yue was only a late God. She was unable to threaten them. Even if she used a powerful battle skill, it would only be able to make early Overgods become stern.

However, the Overgods were no longer able to remain composed as the pillar of light enveloped them. All their faces underwent overwhelming changes, and they were now filled with shock.

Indeed, they had no need to take the energy hidden within the pillar of light seriously, but there were extremely powerful laws in there as well.

At that moment, everyone immediately felt their bodies pause when the moonlight enveloped them. They had been frozen in the same posture as the moonlight enveloped them as if they had become stuck in a picture, unable to move at all.

"W- what is this ability?"

"I actually can't move! W- what is going on!?"

The over thirty Overgods were greatly shocked. They immediately circulated their origin energy as they tried to break free. At the same time, strands of power from laws condensed, attacking the constraints of the moonlight as chains of laws.

Fairy Hao Yue paled after using the ability, and a smear of weakness appeared on her face. However, she did not hesitate at all. She drifted over and arrived before a late Overgod with lightning speed, directly extending a finger towards his forehead.

Even though the late Overgod was trapped, he could still utilise the powerful origin energy within him. The origin energy burst out of his body and enveloped him as a barrier. At the same time, he controlled his power of laws to attack fairy Hao Yue.

However, regardless of what defensive measures he tried to take, they were useless before fairy Hao Yue's finger. His power of laws dispersed while the origin energy around him collapsed. Fairy Hao Yue's finger directly pierced through his forehead with a strand of Moonlight Force and wiped out his soul.

However, fairy Hao Yue became even paler after claiming the life of a late Overgod. She seemed to become even weaker than before, but she did not stop. Her gaze was cold as she extended a finger towards a second late Overgod.

Spurt!

Fairy Hao Yue easily killed a second late Overgod under everyone's attention. Even though fairy Hao Yue was only a late God right now, she was able to kill late Overgods like ants. They were unable to put up any resistance before her at all.

It was just that the movement took a great toll on fairy Hao Yue. She seemed to become even weaker after killing two late Overgods, and her face had even become rather haggard.

With that, all the Overgods paled. All of them gazed towards fairy Hao Yue in fear, but they were all trapped and unable to move. They could only watch fairy Hao Yue make her way towards them like a god of death. They had been reduced to sitting ducks.

Gritting her teeth, fairy Hao Yue extended a third finger. Her target was Yang Kai from the Divine Kingdom of Pingtian.

Yang Kai's eyes narrowed to the size of pinheads. As he watched fairy Hao Yue's finger grow closer and closer, he became extremely worried. He was filled with a sense of dread that he had never experienced before. His body was trapped, and he was immobilized. Let alone fighting back, he was not even able to dodge.

"If you kill me, Jian Chen's death is certain!" Yang Kai brought up Jian Chen in this desperate situation. Even Yang Kai knew that he was speaking groundlessly. It could even be described as an immature joke, as Jian Chen had been saved long ago and was not present. Moreover, even he feared Jian Chen's two strands of Profound Sword Qi very much.

However, there was nothing else he could do aside from bringing up Jian Chen in a lie.

As expected, fairy Hao Yue's finger came to a halt when she heard Yang Kai's words.

It was at this time that Yang Kai bellowed out. Origin energy surged out from him, and he finally broke free from the restraints with the other Overgods. He directly threw a punch towards fairy Hao Yue.

At the same time, the other Overgods behind him launched full-powered attacks towards fairy Hao Yue.

They could tell from fairy Hao Yue's face that she was extremely weak right now. They were certain that it was impossible for her to keep casting her powerful techniques.

"Sigh, my soul is too weak right now. I can't fully use my comprehension of the laws of the world, so I can't even last for long even with the techniques that take the least toll on me," fairy Hao Yue sighed inside. She did not put up a fight against the Overgods. With a wave of her hand, she took away the Space Rings of the two late Overgods before directly flying towards the exit.

Over half of the Overgods pursued her from behind. They constantly sent strands of sword Qi towards her. The sword Qi struck the surrounding rock in the dwelling and emitted constant rumblings. They could tell that fairy Hao Yue was already a spent force. She no longer possessed the might that allowed her to slaughter the two late Overgods so easily before.

The remaining Overgods had all been stunned by how fairy Hao Yue had killed the two late Overgods. They did not dare to pursue.

Yang Kai happened to be one of them. He glanced past the corpses of the two late Overgods as cold sweat covered his forehead.

"So close. I avoided dying here by just this much," thought Yang Kai. He stared in the direction which fairy Hao Yue had flown off with lingering fear, and he seemed rather dejected. He had clearly given up on Godking Duanmu's Space Ring.

At this moment, Jian Chen's face suddenly changed as he stood outside the dwelling. He suddenly looked over towards the dwelling.

The disturbances in the dwelling were just too great. Let alone Jian Chen, but even a few Gods sensed the great disturbances in the dwelling. Chapter 1774: Jian Chen Interferes

“Fairy Hao Yue has succeeded in condensing her body?” Delight immediately appeared on Jian Chen’s face as he looked towards the entrance.

But the next moment, he frowned and became extremely stern. He could already see fairy Hao Yue fleeing with a pale face as many Overgods pursued her aggressively.

Jian Chen’s face became sunken. He directed his gaze towards the huge formation that had been created silently, and a gleam of cold light flashed through his eyes. It was filled with cold killing intent.

The teleportation formation was completely formed from cultivators at various levels standing in specific places. It seemed like a mess that lacked any order; only those who knew about or were familiar with formations could notice the mysteries hidden within.

As a result, basically no one else apart from Jian Chen discovered the teleportation formation outside the dwelling.

However, as fairy Hao Yue rapidly fled from the dwelling, the people who stood in formation began to move. Clearly, they wanted to send fairy Hao Yue away as soon as she emerged.

“Don’t panic, listen to my instructions,” an old voice rang out in the heads of all the cultivators who took part in the formation. Only those in the formation could hear the voice.

The owner of the voice was an extremely ordinary young man who hid amongst the crowd. The strength he revealed was not great; it was only at the level of early Gods.

He did not raise the attention of the people gathered outside the dwelling at all with his strength. Coupled with his apparent ordinariness, no one noticed him.

At this moment, the young man’s eyes shone brightly. He stared at the dwelling eagerly and excitedly. He thought inside, “Fight, fight. The more fiercely you fight, the better. It’s best if you all become injured. Only then will I be happy. Hmph, the possessions of Godking Duanmu are destined to be mine. No one will be fighting over it with me.”

The young man slowly extended his right hand. He held an eight trigrams disc in his right hand, and a huge sleeve covered it.

The rumbles from the dwelling became even more intense. Fairy Hao Yue rapidly approached the entrance. Right now, even the many Gods and Deities gathered outside the entrance could see her clearly.

Many people immediately began to retreat rapidly, backing away from the entrance. They were afraid that they would become innocent casualties of the shockwaves from the battle between Overgods.

However, many people chose to remain where they were. To no surprise, these people included the many cultivators who took part in the teleportation formation.

“Get ready!” The young man also became nervous in the crowd as he communicated with all the people in the formation. It had already reached the moment of truth now.

Finally, under everyone’s gazes, the white-clothed fairy Hao Yue flew out of the dwelling. A layer of clear moonlight surrounded her.

“Activate the formation!” The young man basically bellowed towards the people in the formation secretly. At the same time, he threw his eight trigrams disc into the sky.

Immediately, a powerful beam of white light shot into the sky, and the huge teleportation formation outside the dwelling was activated. It shone with light as terrifying energy rolled through the surroundings, causing the expressions of everyone outside the dwelling to change.

“It’s a formation. This is a formation...”

“Someone actually secretly cast down such a powerful formation outside the dwelling. Heavens, I actually failed to sense it at all when I was standing in it...”

“This tremendous formation has actually been cast using several tens of thousands of people. Heavens, what extravagance. The person who cast down this formation must possess great mastery over formations...”

...

Many cultivators stared at the formation in shock as they cried out outside the dwelling.

At the same time, fairy Hao Yue frowned as she gazed at the formation in the surroundings. Fury had covered her face, and she snorted coldly, “It’s actually a teleportation formation. Looks like the place where I’ll be sent to has already been set up long ago. Hahaha, I never thought that I’d be reduced to the point where I would fall for the schemes of ants.” Fairy Hao Yue laughed coldly. She had already entered the teleportation formation now. Immediately, with a single movement, she shot towards the exterior as quickly as she could.

Suddenly, an eight trigrams disc flew over from the distance. It shone with a hazy light as profound formations flickered and revolved around the disc.

The appearance of the disc had caused the space there to thicken. Space actually froze at a visible rate, suspending the origin energy there and disturbing the region of space.

Fairy Hao Yue was affected as well. She moved extremely slowly as a mysterious power sealed up her surroundings.

Fairy Hao Yue’s eyes were cold. Even though she had fallen into a horrible situation, she did not panic. She remained as calm as she was normally. However, her pupils gradually whitened. They shone with pure-white light like moonlight as if her pupils had become moons.

Fairy Hao Yue’s comprehension of laws in her former life had reached an extremely profound level. However, she still had not recovered her soul, so she was unable to use the power of laws from her peak condition. However, now that she had run out of choices, she was prepared to burn her soul again and use the power of laws from the Primordial realm.

At this moment, extremely powerful sword Qi soared into the sky outside the teleportation formation. Jian Chen, who had been hidden within the crowd all along, moved. Densely-packed, raindrop-like specks of sword Qi gathered around him. Even though the sword Qi was weak and unable to harm Overgods or even kill Gods, it was fatal to Deities and Origin realm cultivators.

Gods and Deities took up a tiny portion among the several tens of thousand people who stood in the formation. Most of them were at the Origin realm.

Fairy Hao Yue could not help but become startled when she sensed the sword Qi suddenly appear. She quickly turned her head towards Jian Chen and immediately stopped burning her soul. She could not help but smile faintly.

Jian Chen was stern as icy-cold killing intent shone in his eyes. As he extended his finger, the countless strands of sword Qi around him immediately shot towards the people in the formation as a huge, silver-white chain.

Countless strands of sword Qi ripped through the sky as they shone with dazzling white light. From afar, it seemed like a waterfall that was extending and spreading across the sky, creating an extremely grand scene. Chapter 1775: Chanlong's Scheme

The young man that was hidden amongst the crowd and commanding all the cultivators almost leapt up when he saw Jian Chen's actions as if Jian Chen had crossed his bottom line. His face completely sank and powerful killing intent and surging fury raged in his gaze towards Jian Chen.

"Jian Chen, if you dare ruin what I've set up, I'll never forgive you!" The young man bellowed out as terrifying killing intent permeated his surroundings. He immediately charged over as quickly as he could in an attempt to stop Jian Chen's strands of sword Qi.

As the young man charged towards Jian Chen, his presence steadily rose as well, and it instantly reached his limit. He was no early God and was clearly an Overgod.

"A late Overgod?" Jian Chen became stern as he glanced towards the young man. The sword Qi that shot towards the people in the formation moved even faster than before now.

The young man charged over; he let loose a furious roar as his presence surged. He had reached his full speed, transforming into a streak of light. He wanted to use his body as a shield to block all the sword Qi.

However, even with his strength at a late Overgod, he was still a little slow. When he arrived before the dense cluster of sword Qi, a small portion had already approached the huge teleportation formation, heading towards the people in the formation.

Immediately, miserable cries rang out. In the blink of an eye, several hundred Origin realm cultivators and Deities were riddled with holes. Sword Qi had even passed through the heads of a few people, wiping out their souls.

Just this single attack claimed the lives of several hundred or even over a thousand Origin realm cultivators and Deities. Blood splashed into the sky and fell, making it seem like it was raining blood. Swathes of lifeless corpses fell from the sky.

Even though there were several tens of thousand people who took part in the formation, the formation was so detailed that the teleportation would fail even if a minute error occurred. The deaths of all the people directly damaged the teleportation formation severely, preventing it from continuing its operation.

The huge teleportation gradually dimmed. The deaths of the people had prevented the formation from filling up with energy and continuing to work. As a result, the other people in the formation suffered a powerful backlash, and they all vomited blood and became heavily injured.

“Jian Chen, you’ve ruined everything! I will never forgive you!” The late Overgod roared out angrily. He was utterly furious as terrifying killing intent permeated his surroundings; it was enough to cause people to shiver.

“So close! It was so close! If you gave me just a little more time, I would have been able to transport her away. At that time, everything she obtained from the dwelling would have been mine. I could have even learnt about many more things from the soul that recovered her body. God dammit. It was just the final step...” The young man roared out furiously inside. His mood had changed so drastically that he had almost gone berserk.

He had expended so much effort and a paid a hefty price to secretly cast down a teleportation formation under the noses of all the people present. Just when he was about to watch it all succeed, Jian Chen unexpectedly killed his way over, reducing his efforts to nothing.

At the same time, all the Overgods who pursued fairy Hao Yue saw the young man. All their faces paled from anger.

“Master Chanlong, it’s actually you...”

“Master Chanlong, didn’t you say that you wouldn’t be taking part in the fight for Godking Duanmu’s possessions, so you left the dwelling? I never thought you would be so sly, secretly casting down such a great teleportation formation outside the dwelling...”

“Master Chanlong, your actions don’t seem to match your status...”

“The other side of the teleportation formation must be extremely dangerous. If we were transported, we would probably be as good as dead. Master Chanlong, we will remember this. Let’s wait and see what happens in the future...”

The Overgods all called out angrily. Many of their faces sank because fairy Hao Yue was not the only one who had fallen into the formation earlier. There were several pursuing Overgods as well. Once the formation was activated, fairy Hao Yue would not be the only one who was transported away.

The young man completely ignored the insults the Overgods spewed. He charged towards Jian Chen furiously. As he swung his hands, he immediately threw out banners for formations that flew towards Jian Chen.

His appearance also underwent a drastic change at that moment. He became a gray-haired old man. He was master Chanlong.

Jian Chen drifted backwards gently, avoiding master Chanlong’s formation banners from afar. At the same time, he launched strands of sword Qi towards the formation banners.

Master Chanlong formed a seal with his hands. Every single banner he had tossed out shone with dazzling light as powerful ripples of energy expanded. The banners he threw out actually connected in that moment. In the end, it formed a huge python that was several hundred meters long.

The python was completely assembled from the inscriptions of the formations. The presence it gave off was no weaker than late Overgod. As master Chanlong extended a finger towards Jian Chen from the distance, the huge python immediately charged towards Jian Chen as it wriggled its tail.

On the other hand, Master Chanlong charged towards fairy Hao Yue.

“We can never allow a sly bastard like Chanlong to succeed...” A person immediately cried out among the Overgods. Soon afterwards, all the Overgods who had never forgotten about Godking Duanmu’s possessions charged towards fairy Hao Yue as well.

However, under the disturbance of master Chanlong’s disc, the space there thickened, causing the Overgods to all slow down when they charged into the area.

Master Chanlong was the only one that remained unaffected.

On the other side, Jian Chen battled against master Chanlong’s huge python that had been constructed from formation banners. Jian Chen formed a seal; immediately, a golden sword Qi condensed, shooting towards the python’s head as a golden streak of light.

Boom!

With a deafening boom, the python emerged unscathed after taking on Jian Chen’s Daluo Sword. Jian Chen’s attack had only slowed down the python slightly. Chapter 1776: The Trapped Soul

“This python is very difficult to deal with. Master Chanlong’s mastery over formations really has reached an extremely profound level. He has broadened my horizons over how formations can be used. He could actually produce something so powerful,” Jian Chen thought. He ignored the python and flew towards fairy Hao Yue.

However, the python did not let him go unhindered. Although it had only condensed from a formation, it was extremely intelligent. With a sweep of its tail, the tail turned into a blur and shot over with lightning speed.

Bang!

The tail struck Jian Chen's back with unimaginably tremendous force. It directly reduced his clothes to shreds. His entire body was blown away while his back was reduced to a bloody mess.

Jian Chen's gaze turned cold. He circulated his Chaotic Force as the injury on his back immediately healed at an unbelievable rate. It closed up in the blink of an eye.

"What a tough body. That's the first time I've ever seen such a tough body," at this moment, a mental pulse emerged from the python; its tone was filled with amazement.

However, soon afterwards, another mental pulse emerged, "What! How is that possible? Just how did you make a full recovery? My eyes must be seeing wrong. Yes, it's my eyes. I've seen wrong. How can your recovery rate be so fiendish? I must have seen wrong. It must have been my eyes. Sigh, I've already weakened to a point like this where I see illusions, and it was so realistic as well."

Jian Chen's eyes narrowed. He stared at the python that was constructed from flickering inscriptions, and a sliver of surprise gradually appeared in his eyes. He suddenly discovered that the huge python was not just a series of inscriptions. There was quite a powerful soul hidden in the python as well.

Jian Chen estimated that the soul was a late Overgod's.

"There's actually a trapped Overgod's soul?" Jian Chen said in surprise. He could already tell that the late Overgod's soul was trapped in the formation to strengthen the formation. At the same time, it seemed to have become the spirit of the formation.

However, Jian Chen's words seemed to have offended the soul trapped within the formation. The trapped soul roared out, "So what if I'm trapped? Kiddo, let me warn you. Don't look down on trapped souls. Even trapped souls have dignity."

“You’re trapped within the formation, so you’ve become master Chanlong’s puppet. It must have been against your will to end up like this. Move. I don’t want to fight you,” Jian Chen said coldly.

“What!? You’re a brat who’s still wet behind the ears, yet you want me to move? Hmph, I’m not going to move. I’m going to stand in your way. What can you do about it? Come hit me if you have the ability,” the soul caused a clamour cockily.

On the other side, fairy Hao Yue dodged master Chanlong’s attacks closely. She managed to avoid each attack by the skin of her teeth. She was in an extremely precarious situation.

However, she was completely composed and did not become flustered at all. She was ready to burn her soul at any time. However, the price she would have to pay for burning her soul was extremely great. She really did not want to do so unless she ran out of choices.

Jian Chen’s face immediately turned cold when he saw the dangerous situation fairy Hao Yue faced. With a thought, two strands of Profound Sword Qi appeared above his head, and they radiated with powerful sword intent that even shocked Overgods.

As soon as Jian Chen’s Profound Sword Qi appeared, it attracted the attention of everyone present. At that moment, whether it was master Chanlong or the other Overgods who pursued fairy Hao Yue, they all focused on Jian Chen. A sliver of fear appeared in their eyes as they became cautious.

Every single Overgod feared Jian Chen’s Profound Sword Qi, including late Overgods. Although a single strand of Profound Sword Qi was not enough to kill a single late Overgod, it could still deal almost fatal damage to them.

“Brat, w- what is that? W- what are you trying to you? If you don’t want to die, put that away...” The soul within the formation stuttered slightly. Anyone could tell that he feared the Profound Sword Qi too.

After all, he was only a fragile soul now. He could only display the strength of a late Overgod through the formations. Once he lost the formation, he would become extremely weak without a body.

Cold light flickered through Jian Chen’s eyes as he stared at the huge python that blocked his way. He was just about to shoot the first strand of Profound Sword Qi. The soul controlled the huge formation

that created the python. If it wanted to keep Jian Chen busy, Jian Chen really could not break free, so he could only use the Profound Sword Qi.

The trapped soul immediately became flustered, perhaps due to seeing the coldness in Jian Chen's eyes. He said, "D- d- don't look at me like that. W- what are you trying to do? Don't shoot, don't shoot. Brother, please don't shoot. I'll let you through. I'll let you through, alright? If you're still unhappy, just direct it all towards Chanlong. Treat me as if I don't exist, like you hadn't seen me." The trapped soul immediately became cowardly before the terrifying power of the Profound Sword Qi. It fled far away, no longer blocking Jian Chen's path.

At this moment, master Chanlong's palm struck fairy Hao Yue in the distance. She vomited blood and became heavily injured.

Jian Chen ignored the fleeing huge python. He glared at master Chanlong, and without any hesitation, he immediately sent out his first strand of Profound Sword Qi.

Swish!

The Profound Sword Qi turned into a strand of silver-white light as it shot out with unbelievable speed. Even late Overgods were unable to capture it with their naked eyes, forcing them to rely on the senses of their souls to follow its trajectory.

Even late Overgods were unable to dodge this attack that possessed such terrifying speed. They could only face it head-on.

Master Chanlong had raised his guard against Jian Chen's Profound Sword Qi long ago. The moment it shot out, master Chanlong pulled back his eight trigrams disc that influenced the space in the surroundings. The disc flickered with profound inscriptions as it turned into a huge shield before master Chanlong.

Boom!

The Profound Sword Qi struck the disc and emitted a great boom. A terrifying force emerged, which pushed the eight trigrams disc into master Chanlong's body.

Spurt! Master Chanlong vomited blood as he was blown far away with his disc.

The space immediately returned to its previous state without the disturbances caused by the eight trigrams disc. Hao Yue and even the Overgods recovered their speeds.

At that moment, terrifying pressures permeated the surroundings. The Overgods all attacked fairy Hao Yue as chains of energy shot towards her. At the same time, they held treasures in their hands to prepare against Jian Chen's second strand of Profound Sword Qi at any time.

Fairy Hao Yue's body was not as tough as Jian Chen's. Moreover, master Chanlong's palm strike had injured her, so she was now heavily injured. She was unable to dodge all the attacks from the Overgods.

After all, she was just a late God right now.

Swish!

With a flash of silver-white light, Jian Chen launched his second strand of Profound Sword Qi. However, he did not target a single person within the group. Instead, he aimed at the attacks launched from all of them.

Boom! Boom! Boom! Boom...

With a string of rumbles, the Profound Sword Qi directly tore through ten attacks before dispersing. The chains of energies from six remaining mid Overgods continued towards fairy Hao Yue aggressively.

Chapter 1777: Escape

After using the two strands of Profound Sword Qi, Jian Chen's power of the soul was completely drained. Dizziness descended, making him seem tipsy.

Jian Chen bit down on his tongue, and heart-wrenching pain immediately flooded out, causing his head to immediately quiver. His consciousness snapped back from the dizziness and sleepiness.

“Daluo Sword!”

“Taiyi Sword Technique!”

Determination flooded Jian Chen’s eyes as a sliver of madness appeared in them. He used his sword techniques as quickly as possible, sending out two strands of sword Qi.

Boom! Boom!

Jian Chen’s two strands of powerful sword Qi collided with two chains of energy. Even though his sword techniques possessed extraordinary power, the power of the Laws of the Sword he could use right now clearly could not compare to the power he wielded at his peak condition. After all, the power of his soul had been completely drained. As a result, the sword Qi was far weaker than usual.

Jian Chen’s two strands of sword Qi dispersed, while the two chains of energy continued onwards without slowing down at all. They hurtled towards Jian Chen, only becoming much weaker.

Jian Chen circulated Chaotic Force as he pushed the defences of the Chaotic Body to the limit. He used his body to stand before the injured fairy Hao Yue. Along with an angry roar, he swung his fists toward the two chains of energy. Chaotic Force surrounded the fists, radiating with a destructive presence.

It was very difficult for him to use his Laws of the Sword at the level of Overgod now that the power of his soul was drained. He had blown up the Flying Snow sword as well, so the only weapon Jian Chen possessed right now were his fists.

Using the twin swords before so many Overgods was just asking for trouble. Although it was unlikely that Overgods would recognise the twin swords as even many Godkings would not recognise them, he was afraid that the news would make it out and experts who did recognise the swords would get wind of it.

Jian Chen struck the two chains of energy heavily with a boom. His body shook violently as his hands turned into bloody messes. They bled profusely.

Jian Chen frowned from the intense pain. At that moment, he could feel that he had almost lost all sensation in his hand. Numbness accompanied the pain, and it even made him wonder if his arms remained or not.

At the same time, the chains of energy from the four other mid Overgods landed on Jian Chen's body. He immediately vomited blood and was blown away.

Behind Jian Chen was fairy Hao Yue. He naturally struck her immediately, and the two of them basically stuck together as they were blown into the distance.

Jian Chen could smell the special fragrance of a woman and some softness against his back, but he was in no position to think about these things right now. His face had paled, and he coughed up blood. He was heavily injured.

His Chaotic Body was very powerful, but his opponents right now were mid Overgods, and there were over a dozen of them.

Jian Chen did not possess any advantages in the Laws of the Sword before mid Overgods, and his personal cultivation was much weaker as well. He did not possess a weapon either. Aside from the toughness and regeneration of his Chaotic Body, he basically possessed no more advantages.

"Jian Chen, you clearly already made it out alive, so why did you return?" Fairy Hao Yue's voice rang out in Jian Chen's head.

Even though fairy Hao Yue was heavily injured and basically in a hopeless situation, she remained extremely composed. She was not flustered at all as if she did not realise just how hopeless the situation she faced was.

"What do you think? I've come back for you, or you probably would have fallen for master Chanlong's trap already. You would've been sent to a place he has already prepared. Don't talk so much now. You go first. There are too many of them. I can't last for too long," Jian Chen said sternly. Afterwards, he pushed fairy Hao Yue far away. At the same time, he swallowed a healing pill he had obtained from Godking Duanmu's dwelling and rapidly circulated his Chaotic Body, healing as quickly as he could.

Fairy Hao Yue watched Jian Chen push her far away with rather mixed emotions while he faced off over a dozen Overgods. She sighed gently inside and immediately stopped. She quickly charged back towards Jian Chen.

“What’re you coming back for? We’re not their opponents.”

Jian Chen panicked when he saw fairy Hao Yue actually return, and he called out with some frustration. He could last a short while against over a dozen Overgods with his Chaotic Body. Once fairy Hao Yue had fled, he could run away with the Linear Lightning Release.

However, now that fairy Hao Yue had returned, Jian Chen’s plan for escape fell through. He was no longer able to use it. He did not feel confident about escaping from the Overgods with fairy Hao Yue at all.

“What do you think? I’ve come back to save you. Do you think you can still escape from the pursuit of over a dozen Overgods? Moreover, there are even late Overgods among them,” fairy Hao Yue said sarcastically. She quickly arrived before Jian Chen, and before he could react, her arm grabbed around Jian Chen’s waist. At the same time, she burned her vitality through a secret technique, and a huge moon immediately appeared. It enveloped Jian Chen and fairy Hao Yue, shining with blinding light.

The light was so bright that no one dared to stare at it directly. Even the Overgods could not help but close their eyes before the light. The light came and went quickly; when it vanished, the huge moon had vanished as well, along with fairy Hao Yue and Jian Chen.

“Oh no, we’ve let them escape...”

The Overgods all swore as they stared at the empty space with sunken faces. The senses of their souls blanketed the region as they searched for traces of the two. However, they found nothing in the end.

Let alone their traces, they even failed to find their presence in the region enclosed by the senses of their souls.

Clearly, Jian Chen and fairy Hao Yue had departed from the region that they could cover with their souls in a short instance.

Master Chanlong flew over from afar with a sunken face. He stared at where Jian Chen and fairy Hao Yue had vanished from as his entire body shook from anger. Chapter 1778: Reunion

“Impressive, impressive. That kiddo really is just too impressive. I really must hold him in high esteem. He clearly hasn’t been cultivating for long, yet he possesses such great strength. What a prodigy! He must be a prodigy, a supreme prodigy as a matter of fact,” the trapped soul flew over from afar and constantly muttered beside master Chanlong, “Master Chanlong, you really have caused trouble for yourself now. You actually offended a supreme prodigy.”

The soul acted as if he had sunk into his thoughts and said seriously, “With my eyes that can see through the mysteries of the world, I can tell that the kid hasn’t cultivated for a thousand years. No, no, no, a thousand years is too long. It should only be a few hundred. Even a few hundred is a little long. It should be even shorter...”

“Are you trying to say he has only cultivated for a century?” Master Chanlong could not help but sneer in response to the soul’s exaggerated praise from Jian Chen. He snickered at the soul’s words.

“Yeah, it should be a hundred years. That shouldn’t be too far off,” the soul nodded seriously. However, he soon became stunned. He said in complete surprise, “Hmm? Chanlong, how did you know that the kid has only cultivated for a hundred years? Can you see through the mysteries of the world like me?”

Master Chanlong laughed scornfully. He no longer bothered with the trapped soul. His hand seals changed, and the huge python before him immediately turned into several formation banners, which he now clutched in his hand.

“Chanlong, I haven’t even told you yet. How did you know that kid has only been cultivating for a hundred years?” A mental pulse emerged from the formation banners.

“Reaching Overgod in a hundred years? Do you think I’m as easy to trick as a kid?” Master Chanlong sneered. He stared at the soul like it was an idiot check, and with a wave of his hand, he directly put the formation banners away in his Space Ring.

...

Jian Chen and fairy Hao Yue sat beneath a large tree in a mountain range that stretched for millions of kilometers. They had consumed healing pills, and we're currently working on their wounds.

Although Jian Chen had withstood the attacks from several mid Overgods, he used just two hours to make a full recovery thanks to the toughness of his Chaotic Body.

Jian Chen opened his eyes after healing. He saw fairy Hao Yue sitting nearby and knew that it was very difficult for her to achieve a full recovery without a few days to do so. As a result, he arrived somewhere nearby and took out the Bright Moon Divine Hall from his Space Ring. He entered it by himself.

"Big brother, you've finally come to see us. We haven't seen you in so long. I miss you so much."

A familiar voice rang out as soon as Jian Chen entered the Bright Moon Divine Hall. Xiao Ling in a white dress bounded over excitedly, and she tightly clung onto Jian Chen's arm.

Jian Chen glanced over and discovered that everyone was not actually cultivating. They sat in a hall as they spoke with the people from the Mo clan and the Ando clan. However, everyone was looking at Jian Chen now.

"Mu'er, you've reached late Reciprocity?" Jian Chen's gaze landed on the purple-dressed Shangguan Mu'er first, and he immediately beamed.

Shangguan Mu'er could not help but smile when she saw Jian Chen. She said, "You better look carefully. I'm not the only one who has reached peak Reciprocity."

Jian Chen immediately looked around carefully when he heard that and discovered that indeed, Shangguan Mu'er was not the only one who had reached peak Reciprocity. Houston, Xiao Jin, Xiao Ling, the white tiger, and the Seven-colored Heaven-devouring Beast had all reached peak Reciprocity. Although Rui Jin, Hei Yu, and Hong Lian had not reached peak Reciprocity yet, they had reached early Reciprocity.

Even Nubis, who always wore golden robes, had reached early Reciprocity.

Among the five people from the World of Forsaken Saints, Xiong Zhong had reached peak Reciprocity. The strengths of the four other Returnance elders had increased drastically as well, reaching mid Reciprocity.

Although it had not been very long since they came to the Saints' World, everyone had progressed extremely quickly. It was something that was unimaginable if they remained in the lower world.

"Good, good, good! Looks like there are going to be Godhood experts among the people from our lower world," Jian Chen was extremely pleased and could not help but laugh aloud.

"We're only able to cultivate so quickly because of big brother's divine crystals. Our cultivation speed would be far slower without them," said Xiao Jin. He had grown now that a few years had passed. He seemed around eight or nine now.

Of course, that was not his actual age. It was just that he was a metal spirit, a natural spirit of the world, so his body grew extremely slowly.

"If it were not for how fragile this divine hall is, I could have reached Godhood at any time," the white tiger said proudly. The laws of the world were the key to Godhood, but he had already grasped them back on the Tian Yuan Continent.

Houston also walked over. He stared at Jian Chen benevolently and said, "Jian Chen, how's the situation outside? It's best if you find a time to let us all out. Quite a few of us have reached the limits of cultivating here. Continuing to cultivate would be pointless. At the same time, we need to comprehend the laws of the world to reach Godhood. We can only become Deities sooner outside. At that time, this old bag of bones will be able to help you out with your problems."

"Although it's very difficult for a Deity to help, don't forget that I cultivate the Emyrean Demon Arts. Coupled with the Emyrean Demon Orb, I'll be able to share a part of your burden."

Jian Chen laughed aloud, "Uncle Xiu, just focus on your cultivation. Your current strength isn't much if you compare it to the Saints' World as a whole, but it'll still be enough for you to gain a stable footing in the Divine Kingdom of Pingtian. You'll all be able to go outside and see the Saints' World before long." Jian Chen also became filled with eagerness as he said that. He really could reign supreme in a region within the divine kingdom with his current strength. He planned on settling down in the Dong'an

province with everyone once the matters of Godking Duanmu's dwelling were resolved. He could potentially settle them down there for the time being.

After all, he could not run around all the time. Moreover, even Jian Chen had no idea if he could continue to keep his special identity a secret. Once it was revealed, he was worried that he would become the public enemy of the Saints' World.

Afterwards, Jian Chen provided guidance to everyone's cultivation and shared his own personal experiences with cultivation and comprehending the laws of the world. He also searched through the Space Rings of the Gods and Overgods he had slain, removing some helpful cultivation methods, battle skills, and so on. He handed it all over, hoping that it would be helpful to them.

He did not let them out immediately, as he had just managed to escape from the hands of over a dozen Overgods earlier. He had no idea whether the Overgods would come looking for him. Right now, he still had not completely evaded danger, so letting them out now would be extremely inconvenient.

This was because what he worried the most about was their breakthroughs being disturbed. If an Overgod just happened to arrive when they were all breaking through, it would pose a great problem.
Chapter 1779: Going Separate Ways

In the blink of an eye, three days had already passed. Jian Chen's face suddenly changed as he was guiding everyone in the Bright Moon Divine Hall. After bidding farewell to them all, he directly left the divine hall and appeared in the outside world.

Fairy Hao Yue's white clothes ruffled outside the Bright Moon Divine Hall. Her black hair draped down her back, and her face was flawless. She stood outside the divine hall indifferently as she gave off a sacred presence.

She seemed just like an otherworldly goddess that had transcended mortal affairs.

"You've fully recovered?" Jian Chen said indifferently as he calmly gazed at fairy Hao Yue.

Fairy Hao Yue stared at Jian Chen and did not reply immediately. However, after a moment of silence, she replied with the same type of calmness, "Yep! I've fully recovered, except I haven't fully recovered my strength. I've used up everything in Duanmu's Space Ring that would help me regain my strength

and create my body. The remaining items all belong to you. There are still a few precious items in there.” With that, fairy Hao Yue tossed Godking Duanmu’s Space Ring to Jian Chen.

Jian Chen did not hold back. He directly extended his hand and caught the Space Ring. He played around with it in his hand. He did not immediately check the contents.

Fairy Hao Yue continued, “Duanmu’s legacy isn’t in there. There’s nothing that’s related to a cultivation method in there. Duanmu’s true legacy must be the sword.”

“Ling Hougong has already obtained the golden flying sword. He really is quite lucky, except he has now offended a vice leader of the Empyrean Demon Cult, Huai An,” Jian Chen sighed gently. He really did not know whether it was worth it for Ling Hougong to make a decision like that.

“Jian Chen, what do you plan on doing next?” Fairy Hao Yue asked.

After a moment of silence, Jian Chen replied, “I plan on returning to the Dong’an province and gain a footing there for now. That way, I can provide a safe cultivation environment for the people who came up with me from the lower world.” At this moment, Jian Chen seemed to think of something, “Oh right, I’ve confirmed where we are currently located. We are on the Cloud Plane of the forty-nine great planes. I wonder how distant your Moon God Hall is.”

“The Cloud Plane,” fairy Hao Yue murmured. She immediately frowned, and after a moment of silence, she said, “The Moon God Hall is on the Polar Ice Plane that one of the seven Grand Exalts, the Ice Goddess, oversees. It’s extremely distant from the Cloud Plane, and I’ll have to cross through over a dozen planes in total to reach there. The only way back is through a plane-level teleportation formation. The costs to use them was nothing to me in the past, but it’s an astronomical figure to us now.” Fairy Hao Yue furrowed her brows tightly.

With a wave of his hand, Jian Chen took out the remaining block of high grade divine crystal he possessed without any hesitation. He said to her, “Take this block of divine crystal. I only have this block and a few smaller pieces.”

Fairy Hao Yue immediately became stunned when she saw the block of high grade divine crystals before breaking out into laughter. She said to Jian Chen, “If you use this single block, it’ll be nowhere near

enough to make it to even the closest plane. Even if you take out a hundred times that amount, it won't be enough."

"What!? Using a teleportation formation costs so much?" Jian Chen was the one to be shocked now. A block of high grade divine crystal was a rather large sum to him already, yet it was not even enough to use a teleportation formation.

"Using plane-level teleportation formations requires five-colored divine crystals. Your block is equivalent to one million standard high grade divine crystals. If you convert them into supreme quality divine crystals, it'll only be ten thousand standard size divine crystals, yet a one-colored divine crystal is worth a hundred times more than a high grade divine crystal as well. As a result, your block of divine crystal is only worth a hundred standard one-colored divine crystals."

"From the one-colored divine crystals to the five-colored divine crystals, each additional color increases its value by tenfold. Your block of divine crystal is worth a standard three-color divine crystal."

Jian Chen also frowned. Only now did he understand that it was actually so expensive to use a plane-level teleportation formation.

Fairy Hao Yue also became worried, "Only Primordial realm experts possess colored divine crystals. Looks like I won't be able to return to the Polar Ice Plane immediately. I wonder how my father is doing."

"Your worry is unneeded right now. Although I have no idea what your father is facing, you won't be of any help at all even if you hurry over immediately with your current strength," said Jian Chen.

Fairy Hao Yue nodded, "You're right. I am indeed too weak. I might even end up dead on the way back. My priority right now is to restore my strength." After making up her mind, fairy Hao Yue's gaze became determined. At that moment, her presence underwent a tremendous change as well.

Jian Chen's eyes narrowed as he stared at fairy Hao Yue with some surprise. At that moment, he could suddenly feel a chilling presence from fairy Hao Yue. It had even given him the impression that even though fairy Hao Yue was only a late God, she could crush him like an ant, where he would not be able to fight back at all.

“She really is a Primordial realm expert,” Jian Chen thought as his gaze towards fairy Hao Yue changed as well.

“I need to go restore my strength. Jian Chen, take this jade talisman with you. Whenever you encounter danger, just crush the talisman, and I’ll head over as soon as possible. Of course, it’s best that you use it after five years have passed from now,” fairy Hao Yue passed a pure-white token to Jian Chen before directly leaving.

She wanted to try her own luck to restore her strength back to her peak as soon as possible.

Jian Chen watched fairy Hao Yue leave. He finally looked at the token in his hand after she had completely left. The token was snow-white and made from precious jade. A small moon was sculpted onto it. Jian Chen could sense an imprint of fairy Hao Yue’s soul within the small moon.

Jian Chen put the token away and left the place with the Bright Moon Divine Hall. After gaining his bearings, he directly flew towards the Dong’an province.

As all the treasures of Godking Duanmu’s dwelling had been taken away, the disturbances its appearance had caused gradually died down. The Overgods that had gathered in the dwelling left one by one as well.

However, there was still a large group of people gathered within the dwelling as they searched with determination. There were many Origin realm cultivators as well as a few Deities and Gods. They combed through every inch of the dwelling seriously in hopes of an unexpected blessing.

There were also a few people who comprehended the Laws of the Sword that gathered in the second stone hut aside from them, studying the slashes left behind by Godking Duanmu.

People poured in and out of the great city gates of the provincial city of the Dong’an province. Luxurious carriages drawn by rare beasts rolled along quickly. Chapter 1780: Coming Across Chanlong Again

There were not just the natives of the Dong’an province within the provincial city. There were many other people from the other thirty-five provinces of the Divine Kingdom of Pingtian as well. There were even a few merchants, adventurers, and so on from other divine kingdoms. With the great flow of people, the city was extremely busy.

An ordinary young man who only seemed to be in his twenties made his way through the crowd. He followed the people into the city, wearing luxurious robes while maintaining a low profile.

The young man's appearance was nothing special, and his strength was average. He was only at the peak of Reciprocity. He was the type that could be found in large numbers within the Dong'an province.

"Stop. What's your name, and where do you come from? Why have you come to the provincial city?" Just when the young man was about to enter the city, guards stopped him like everyone else and asked the same questions.

"I'm Yang Yutian. I come from the Swordseeking Province. I've obviously come to the provincial city with plans of settling down," the young man clasped his hands and smiled indifferently.

The guard who stopped Yang Yutian glanced at him. Seeing his luxurious robes, the guard determined that he must have possessed some background, so the guard immediately stopped blocking him. The guard smiled, "Take this. This is your jade pendant for identification. Just pay a hundred low grade divine crystals, and you can enter. I hope you can settle down in the provincial city. Remember, don't forget to charge up your identification token. If you get caught by guards, don't blame me for not reminding you."

Yang Yutian paid a hundred low grade divine crystals for the identification token. He discovered a number of a hundred on the token. He could not help but smile when he read the explanation behind the token, and he said, "It's one low grade divine crystal per day in the provincial city. That means it's over three hundred for a year. Once the number on the token reaches zero, the guards of the city will even capture you. Looks like not everyone can enter the provincial city. Just a single year costs over three hundred low grade divine crystals, and that's not including living expenses. You can't just cultivate on the streets in the provincial city, or the guards will capture you for that as well."

"But there's a large scale energy-gathering formation in the city. The origin energy here is several times denser than the outside world. It really will be much faster cultivating here than outside."

Yang Yutian strolled through the streets aimlessly as he murmured to himself.

He was clearly Jian Chen who had changed his appearance.

Jian Chen was in no hurry to reveal himself within the provincial city. Instead, he silently entered the place to check on the situation. He and fairy Hao Yue had benefited the most from Godking Duanmu's dwelling. At the same time, they basically offended all the Overgods who had gathered there. He really did worry that the Overgods would expect him to appear in the provincial city and were waiting for him here.

Although he no longer feared most Overgods with his current strength, he was afraid of being surrounded, so he had to be careful.

Suddenly, Jian Chen froze slightly. He raised his head towards the sky, and he gradually became grim. He carefully let out the senses of his soul as he cautiously expanded it.

Suddenly, Jian Chen's face changed. Without any hesitation, he immediately flew towards outside the city.

At the same time, the space pulsed gently. A huge formation hidden there appeared in an instance, releasing extremely powerful pulses of energy. It enveloped the entire provincial city.

"Linear Lightning Release!" Jian Chen formed a seal with his hand, and he turned into a bolt of lightning. Just when the formation was about to envelope the entire provincial city, he escaped by a hair's breadth and avoided the trap.

"You really have come to the provincial city. Where do you think you're going? You're staying right here!" Master Chanlong suddenly appeared in the sky above the city. His expression was rather strange; he was filled with excitement as he pursued Jian Chen with his full speed.

At this moment, the formation that master Chanlong set up earlier had engulfed the city. It was an extremely powerful trapping formation, preventing anyone in the city from leaving the place.

The presence of several dozen Gods appeared at virtually the same time across the entire city when the formation engulfed the entire place. Whether it was the people from the powerful clans or the Gods from other places, they all roared out angrily as they charged towards the sky. They directly attacked the formation over the city.

“Who is it? Who is bold enough to seal up the entire provincial city...”

“The provincial city is the capital of one of the thirty-six provinces of the Divine Kingdom of Pingtian. Are you not afraid of the divine king’s rage, sir...”

...

The ancestors of the powerful clans all bellowed out. All their faces had sunken.

However, master Chanlong had already shot off into the distance in pursue of Jian Chen, leaving behind no trace.

Jian Chen hovered in the sky with a cold expression a million kilometers away from the city as he stared coldly as master Chanlong.

He had only used the Linear Lightning Release earlier to escape from the formation. After all, master Chanlong’s skill with formations was so great that even late Overgods would struggle to smash through them. Once he became trapped in the formation, he would be forced into an extremely bad position.

“Jian Chen, why aren’t you running anymore? Go on, keep fleeing,” master Chanlong smiled at Jian Chen with his eight trigrams disc in hand, acting like Jian Chen was done for today. At the same time, he was secretly surprised by the accuracy of the trapped soul’s prediction. It had actually predicted that Jian Chen would appear in the provincial city.

“Master Chanlong, do you want what I obtained from Godking Duanmu’s dwelling?” Jian Chen stared at the dignified, sage-like master Chanlong.

Master Chanlong immediately stopped smiling when he heard that. Cold killing intent appeared in his eyes, and he said, “That’s only the first matter. You ruined my plans, so how can I spare you?”

“Do you really think you can kill me just by yourself, even if you’re a late Overgod?” Jian Chen said coldly.

“Do you really think you can act as you please before me with your two strands of powerful sword Qi?” Master Chanlong growled. With a wave of his hand, he immediately tossed out a few formation banners. As his hand seals changed, the banners joined together. In the blink of an eye, it reassembled into a huge python again.

“Hmm? Kid, you’re actually here too.”

To no surprise, the trapped soul remained within the huge python. He saw that it was Jian Chen with a single glance and spoke in surprise.

But soon afterwards, he turned his huge head towards master Chanlong and said proudly, “Chanlong, I told you this kid would appear in the provincial city of the Dong’an province back then. Do you believe me now? I was right.”

Master Chanlong, “Looks like you have guessed right this time. Listen up; you have to stop him no matter what this time.”

However, Jian Chen became filled with shock when he heard the trapped soul’s words.

“How does that trapped soul know that I would go to the provincial city?” Jian Chen thought in disbelief.
