

Chaotic 1881

Chapter 1881: A Godking's Pursuit

t

“The location of the whatever gave off that fragrance should be quite far away from me. It’s a pity that the rainbow miasma is affecting my vision and senses of the soul, so I am unable to see as far as where the heavenly resource is. I can only determine its direction from where the fragrance comes from,” Jian Chen stared in the direction of the fragrance and immediately hurried off in that direction.

Like a ghost, Jian Chen silently moved through the miasma-covered mountain ranges. He moved extremely quickly.

Along the way, he naturally came across many dangers. He only ended up entangling with some powerful plants. However, with Jian Chen’s current strength, there was basically no organism that could threaten him as long as he did not come across any Godkings. As such, he obviously dealt with them all with great ease. Unfortunately, none of them possessed cores.

The number of cores at the level of Overgods on Jian Chen was the same as before, only amounting to six.

This was a huge harvest to him, far greater than the high grade divine crystals he could have collected from killing other Overgods.

If it were not for the fact that the plant cores and monster cores possessed poison, any single one of them would be worth several dozen blocks of high grade divine crystal.

After Jian Chen had travelled a hundred kilometers in the direction of the fragrance, he came to a sudden halt. He frowned as he stared at the coiling miasma up ahead. He sensed that something was off.

“What is this heavenly resource? Its fragrance is able to travel so far even in the unique environment of the Yin Mountains of Sevens Despair. I’ve travelled for a hundred kilometers, yet I haven’t even been able to get a glance of the heavenly resource,” Jian Chen thought. The light in his eyes flickered with uncertainty. He did not continue on his way for a while.

“Logically speaking, the miasma in a place like these mountain ranges would affect the fragrances from all heavenly resources, causing the range of the fragrance to shrink. However, the fragrance I can smell has travelled a hundred kilometers at the very least. Is there someone trying to bait me over, or is the heavenly resource just at a terrifying grade, having surpassed the ninth grade of the Immortal Tier and reached the legendary God Tier?”

As soon as Jian Chen thought that it was likely to be a God Tier heavenly resource, his heart began to beat uncontrollably.

However, he calmed down very soon. He stared ahead and became determined. He said to himself softly, “If I keep advancing, I’ll be entering the very depths of the mountains. It’s the most terrifying part of this place. Rumors have it that even Godkings can die there.” Although Jian Chen was confident in himself, he was not arrogant. He could move around in the general region of the mountains, but he was extremely wary of the very depths. He did not dare to set foot in there so easily.

Even Godkings could die there. He, a mere Overgod, was an ant-like existence before Godkings. If he came across any terrifying dangers, he would be doomed.

However, the fragrance from in there had indeed piqued Jian Chen’s interest. It was almost a fatal attraction to him, and it basically caused his blood to boil.

This was because a ninth grade Immortal Tier or even a God Tier heavenly resource was extremely rare.

“The greater the risk, the greater the reward. A high grade heavenly resource like that is worth it for me to take the risk. Moreover, I have a god artifact to protect me. Coupled with the toughness of my Chaotic Body, I think I can retreat no matter what dangers I come across.” Finally, Jian Chen made up his mind. He took out the armor from his Space Ring and put it on before continuing into the very depths of the mountains.

The ancestor of the Mo family had completely repaired the external form of the armor. It wrapped around Jian Chen’s body, only revealing his eyes.

At the same time, a thin film protected even his eyes. It was truly air-tight.

Jian Chen became cautious when he set foot in the depths of the mountains. He advanced carefully as he paid close attention to his surroundings. He was extremely vigilant.

His current location simply did not allow for him to be careless. In a place where even Godkings could die, he would be doomed if he was inattentive for even the slightest moment.

“After I’ve entered the depths, all the sounds of the birds and beasts have vanished. It’s deathly silent. That all means that it’s extremely dangerous and extremely terrifying here, so terrifying that the poisonous beasts that are on par to Overgods dare not to set foot here,” Jian Chen’s eyes shone. He advanced extremely cautiously in the direction of the fragrance.

After advancing for a few more kilometers, a huge cave appeared before Jian Chen. The cave was gloomy and because of the miasma, Jian Chen was unable to see through the darkness.

However, the fragrance that had spread to a hundred kilometers away originated from this cave.

Jian Chen erased his presence. Under the complete protection of the god artifact, he approached the cave carefully.

However, just when Jian Chen had advanced half way, he suddenly came to a halt. He sensed the presence of death looming over him rapidly. At that moment, his body had become abnormally cold. Even his blood seemed to stop flowing.

Jian Chen responded extremely quickly. He directly retreated as quickly as he could while forming a seal with one hand. He used the Linear Lightning Release without any hesitation to flee.

At the same time, a thick vine burst out from the ground where Jian Chen had just been standing. It basically brushed past Jian Chen’s chest, shooting towards the sky with a powerful pulse of energy. It had almost struck him.

“Godking!” Jian Chen’s heart shivered. Without thinking too much, he used his sword technique and a light surrounded him. Afterwards, he turned into a bolt of lightning and directly fled outwards.

“You want to go? It’s not that easy. Stay behind for this king,” a powerful mental pulse shook through the forest. It was filled with fury and extremely heavy killing intent.

With that, the ground cracked and huge vines burst out. Each vine possessed terrifying energy. The energy was so great that space shook, and the surrounding miasma dispersed. It possessed a devastating might.

Swish! Swish! Swish...

The vines burst through the air. It seemed to break free from the limits of space, shooting into the distance in a single instance. It pursued Jian Chen, who had transformed into a bolt of lightning.

However, even though the vines were extremely fast, Jian Chen’s Linear Lightning Release was even faster. The distance between the two of them rapidly increased.

“Duo Ti, stop him,” another mental pulse appeared when the vines could not catch up to Jian Chen. The pulse directly emanated to another cave nearby.

“Qi Zang, you owe me a favor,” a rough and heavy voice boomed out from the cave.

With that, Jian Chen suddenly felt his body tighten. The space around him froze in that instance, trapping him there firmly like a jail. He struggled to even move a finger.

“Profound Sword Qi!”

With a thought, a finger-sized sword Qi appeared above his head. It radiated with surging sword intent, which was extremely surprising.

Boom!

The Profound Sword Qi directly struck the frozen space, causing it to shake violently. The jail formed from frozen space broke apart loudly.

“Hmm? This intruder has some skill,” an interjection of great surprise rang out from the second cave.

However, after Jian Chen was stopped temporarily, the thick vines caught up. They wrapped around him in layers, completely binding him.

Jian Chen’s heart sank. He directly launched the second strand of Profound Sword Qi at the vines.

However, the vines were far tougher than he could imagine. The Profound Sword Qi only managed to cut through two of them. Not only did it fail to get through all the vines on him, but it had even caused more vines to wrap around him.

Chapter 1882: A Desperate Stand

More and more vines wrapped around Jian Chen, growing tighter and tighter. In the end, every single vine seemed to have become an extremely tough wire that was countless times more powerful than steel. It wrapped around Jian Chen with an extremely terrifying force as if it was trying to crush Jian Chen.

Jian Chen was completely immobilised. The vines were extremely powerful such that no matter how he struggled and no matter what technique he used, he was unable to break free.

Now, even with his strength at peak Overgod, he was unable to even move a finger.

This was because he currently faced a Godking. At the same time, he felt that this Godking was far more powerful than the Grand Imperial Protector from the Divine Kingdom of Pingtian.

Creak...

The tightening vines rubbed against his armor, producing an ear-splitting sound.

If it were not for the god artifact, the vines probably would have crushed Jian Chen’s body to pieces.

“Hmm? I didn’t think the intruder would be wearing a piece of armor. It’s a god artifact, something that even Infinite Primes don’t possess. It’s just a pity that the armor is damaged and no longer perfect,” a heavy, rough voice boomed out from the second cave again. It was filled with much interest.

“Qi Zang, you can’t use this god artifact, so you take the person, and I’ll take the armor. I’ll count it as you returning the favor,” as the voice spoke, an extremely burly, bare-chested and bald man emerged from the second cave.

The man’s appearance was nothing special. The only thing that stood out was an imprint between his eyebrows.

The imprint radiated with the power of laws. It seemed to disturb the surrounding space, causing the space around him to tremble gently as if he controlled it.

“You can take the armor, but just don’t let him escape,” Qi Zang produced a mental pulse.

“Don’t worry. I control this space. No matter how fast he is, he won’t be able to escape,” the man said confidently.

The vines around Jian Chen suddenly loosened, and he immediately regained mobility.

However, the vines did not retreat. Instead, they filled the surroundings, forming a huge cage that trapped Jian Chen, preventing him from escaping.

The bald man also stood within the cage of vines. He stared at the god artifact on Jian Chen’s body as he seemed to covet it.

Even though Jian Chen knew it was very difficult for him to escape, he could not just sit there and wait for his death after he regained his mobility. He took out a few Soul Recovery Pills and ate them to replenish the power of the soul he had depleted from using the two strands of Profound Sword Qi. At the same time, he formed seals with his hands to fend off the man with his full strength.

Daluo Sword!

Taiyi Sword Technique!

With a flash of gold and silver light, Jian Chen basically used the two techniques together. They radiated with sword intent as they shot towards the bald man.

The bald man stood there with his arms crossed. He stared at Jian Chen scornfully. He directly ignored the two strands of sword Qi from Jian Chen.

The two strands of sword Qi really were very powerful. They were enough to pose great threats to late Overgods, but they were simply too weak in the eyes of the Godking.

But surprisingly, before the two strands of sword Qi could approach the bald man, they collided together and produced a great boom. Powerful ripples of energy and scattered sword Qi wreaked havoc in the surroundings, forming an extremely frightening storm. It directly rammed into the cage formed by the vines.

However, the vines were extremely tough. The energy was enough to cause the expressions of Overgods to change, but it was nothing to Godkings. The storm of energy was firmly locked within the cage.

Jian Chen's intentions were never to have the storm of energy burst through the vines. At the moment the explosion happened, a teleportation formation disc appeared in his hand. Borrowing the storm of energy as a cover, he activated the disc as quickly as possible.

"You're a mere Overgod. If you really escaped before me, would I still have the dignity left to see other people in the future? Freeze." The bald man made fun of him. When he said these final words, Jian Chen's body became immobilised instantly. The space around him had suddenly frozen.

Not only was his body affected, but the explosion of energy from the two strands of sword Qi also froze at that moment as well.

Jian Chen's heart sank. He looked at the bald man. His control over space had reached such a powerful level. Even if Jian Chen exerted his full strength, he could break through this simple space freeze.

"Godkings are actually so frightening," Jian Chen's heart completely sank. This was the first time he had fought against Godkings. He discovered that he was unable to resist against them at all.

"The god artifact is mine now," Duo Ti's burly body appeared before Jian Chen like he had teleported, and he removed the armor from Jian Chen's body.

Since Jian Chen was unable to refine the armor, he only wore it on him, so Duo Ti was able to take it off him easily. He examined it in his hand fondly as he smiled. He was extremely delighted.

"Qi Zang, I'll leave this intruder to you." After taking the armor, Duo Ti directly left. Even though the space around him had returned to its previous state, Jian Chen became entangled by the thick vines again.

The ground shook violently. As thick cracks spread out rapidly, a colorful flower that was several hundred meters in width gradually burst out. It shone with rainbow light, which was an enchanting sight.

"So it turns out a flower is keeping me trapped," Jian Chen's eye narrowed when he saw the flower. Jian Chen had seen the flower before. He had once killed a flower like that soon after he had entered the mountains. Aside from the size, everything else was the same.

The vines around him were the countless strands of roots from the flower.

"Intruder, you killed my clone. I want to suck you dry, devour your flesh, and then torture your soul. I'll let you understand pain that is worse than death to avenge my clone," the huge flower was unable to speak, so it emitted a furious mental pulse.

After Jian Chen lost the protection of his god artifact, the roots wrapped around him penetrated into his flesh. All the blood that flowed out was sucked dry by the roots.

Jian Chen truly faced a threat of death right now.

At the same time, in Jian Chen's Space Ring, Kai Ya's eyelashes actually trembled gently within her crystal casket as if she wanted to open her eyes.

The Seven-colored Heaven-devouring Beast on the casket sensed something. It suddenly opened its eyes and stared at Kai Ya. Its clever eyes were filled with doubt as well as some eagerness.

Unfortunately, Kai Ya's eyelashes only trembled and that was all.

Outside, even though Jian Chen faced death, he was composed. He stared at the huge flower calmly and said, "Is that so? The flower I killed before was actually your clone. However, killing me won't be that easy." With that, a streak of azure and violet light surged towards the sky from Jian Chen's body. It was dazzling, bursting through the colorful miasma and directly into the sky. It turned into two swords that caused the surroundings to pale in comparison.

"Twin swords fusion!"

Jian Chen roared out. The voice seemed to possess endless charm, ringing across the entire mountain range and even penetrating the rock.

His left eye had actually become completely azure, while his right eye had become completely violet. They shone with startling light.

"Master, the chance of you surviving is less than ten percent if you fuse the two swords," the voices of the sword spirits rang out in Jian Chen's head, but they did not stop him. They understood what kind of danger he was facing right now.

Chapter 1883: Nine Godkings

"Even if my chance of surviving is less than ten percent, it's still a chance for survival. If I don't do this, I'm dead for sure. From what the Godking flower has shown, it's far more powerful than the Grand Imperial Protector of the Divine Kingdom of Pingtian. I can only rely on the fusion of the two swords to survive now."

"Moreover, even if my soul disperses after the fusion of the two swords, I can't let this flower have it easy. It must pay a heavy price..."

Jian Chen said in his head. His eyes were determined. He had already run out of options.

The flower was so powerful that he could not threaten it at all, even if he used the Profound Sword Qi.

This was because the disparity between their strength was just too great.

“If you fuse the two swords, the flower will be dead for sure. But you, master...” The sword spirits sighed.

Two strands of azure and violet sword Qi hovered above Jian Chen’s head. They tore through the colorful miasma, directly reaching for the skies, giving off a devastating might.

Under Jian Chen’s control, the two strands of sword Qi gradually approached each other. They were about to be fused into one.

Immediately, as the two strands of sword Qi constantly drew closer, a terrifyingly devastating pressure gradually charged up in the surroundings. It became more and more powerful, weaving chaos into the surroundings. The space in the area shook violently.

The pressure was just too great. Before it, the world seemed to shake in fear.

“W- what is this?”

Qi Zang used its roots to wrap around Jian Chen tightly. In its eyes, Jian Chen was an existence as insignificant as an ant that could be slain in a single strike. However, at this moment, the terrifying presence that Jian Chen gave off actually made him shake uncontrollably. A sense of terror it had never experienced before filled its entire body silently.

This was because it could taste the presence of death. It was so close.

“God dammit, what is this secret technique? It’s so terrifying that even I feel shivers.” The man who had taken Jian Chen’s armor emerged from his cave again. His eyes had widened completely as he stared at Jian Chen in shock and disbelief.

“The intruder is using a devastating secret technique. Qi Zang, what’re you hesitating for? Kill him. Don’t let him finish charging up.” In the distance, a huge, ancient tree made its way over with its roots. An ancient face appeared on its thick trunk that was filled with wrinkles. The face was stern.

This was an ancient tree that had developed a consciousness. It also possessed the strength of a Godking, and like Qi Zang, it was no ordinary Godking. It was much more powerful than the Grand Imperial Protector of the Divine Kingdom of Pingtian.

The appearance of the ancient tree caused Jian Chen’s eyes to narrow as he tried to fuse the swords. He never thought that there would actually be three Godkings hidden within the depths of the mountains.

“Kill him quick, Qi Zang...”

“Hurry up and do it...”

...

However, it did not stop there. There were far more than three Godkings hidden within the depths of the mountain range. After the ancient tree appeared, a few more figures emerged from the colorful mist. The presences they gave off were extremely shocking.

“Eight Godkings!”

Even Jian Chen had become stunned now. In such a small mountain range, there were actually eight Godkings hiding.

At this moment, a hiss rang out. A snake that was only as thick as a bowl and frighteningly long slithered out from the depths of the miasma. It also stared at Jian Chen sternly with its small, beady eyes.

The long, thin snake possessed a gold and silver stripe all the way from head to tail.

“A Golden-striped Silver Snake!”

Jian Chen’s heart jumped. He recognised this thin, long snake instantly. It was of the same species as Nubis.

The snake was also a Godking.

“Nine Godkings!” Jian Chen felt bitter inside. Only now did he understand just what place he had come to. There was actually a nest of Godkings hidden in this area, and they were all experts that could use poison.

In the next moment, Jian Chen bellowed out. His body shone with bright, azure and violet light as he poured all his strength into fusing the two swords.

With his current strength, he was unable to fuse the two swords instantaneously. He needed to charge it up.

However, Jian Chen basically wished that the swords could fuse instantaneously right now.

Blood oozed from the corner of his lips. The fusion of the two swords was just too terrifying. Even before they had fused, he already had to endure the backlash.

“Even if I have to die here today, I’ll drag a few of you down with me,” Jian Chen had already embraced death.

At the same time, Qi Zang struck out as hard as he could in an attempt to stop Jian Chen from fusing the swords.

Suddenly, something happened. A gentle light descended from the sky. It pierced through the layers of miasma and surrounded Jian Chen as a screen.

The screen of light seemed thin, but it was extremely powerful. When Qi Zang's full-powered attack landed, it was actually unable to smash through the paper-thin screen.

"What powerful laws. Who is it?" Qi Zang produced a mental pulse as the huge flower swayed gently. Each petal rapidly closed up as it began charging up a great power.

The screen of light that had blocked its attack was not powerful by itself. Instead, it was the laws that were powerful.

The expressions of the other eight Godkings in the mountain range changed slightly. They all looked at the screen of light before Jian Chen, and they became stern.

Naturally, Jian Chen sensed the sudden change. He stared at the layer of gentle light around him as a sliver of joy appeared on his face.

He was extremely familiar with the gentle light. He was so familiar with it that he immediately thought of a beautiful figure.

"You better stop your secret technique soon. I don't know what it is, but it's far more powerful than what you can use right now. You'll end up paying an unimaginable price if you use it."

A familiar voice rang out in Jian Chen's head.

A woman in a white dress slowly descended from the sky as pure-white moonlight revolved around her.

Her beauty was striking. A bright moon seemed to exist behind her, making her seem like an immortal crossing the moon. She seemed otherworldly, having transcended mortal affairs. The presence she gave off was as tremendous as the ocean, and it directly enveloped the entire mountain range. It was extremely terrifying, and it was enough for the surroundings to shake and the clouds to churn.

Her cold eyes gradually scanned past the nine Godkings. They possessed some contempt as if she was looking at nine ants.

Chapter 1884: Fairy Hao Yue Steps Forward

“Fairy Hao Yue!”

Jian Chen’s voice was filled with delight. He had never thought that in this moment of great danger, the fairy Hao Yue who had left several dozen years ago would actually appear here. Moreover, she was actually so powerful, far greater than she was when she had originally escaped from Godking Duanmu’s dwelling.

Just a layer of protection she cast down now could easily block Qi Zang’s attack.

Jian Chen understood that the great problem he was facing would be resolved with fairy Hao Yue’s appearance. Without any hesitation, he immediately stopped the fusion of the twin swords.

At the same time, the sword spirits secretly assisted Jian Chen as well. They used their full strength to separate the two swords that were just about to fuse together.

Jian Chen experienced a powerful backlash again during this time. Blood completely drained from his face as he became haggard. He gave off a sense of weakness.

The backlash from the fusion of the two swords was simply too powerful. Just the process of fusion, before they had actually fused together, had made Jian Chen become so heavily injured.

If it were not for his Chaotic Body that was extremely tough, he would only have half a life left even if he managed to avoid death.

“We belong to the ninth prince of the Blood Sun Empire. Who are you? Which clan or sect do you belong to?” Qi Zang’s huge petals were closed tightly. He produced a mental pulse that was filled with sternness.

At the same time, the other eight Godkings hidden in the depths of the mountain range emerged as well. Some of them had already assumed human form, while others remained the same as before, similar to Qi Zang.

They stood with Qi Zang. All of them stared at fairy Hao Yue extremely sternly.

Fairy Hao Yue did not pay attention to the nine Godkings. She turned around to study Jian Chen and frowned, "Didn't I give you a jade talisman to contact me when I left? Why didn't you crush it to contact me now that you're in danger? If it weren't for the fact that I just happened to be passing by, you'd probably die today."

Jian Chen smiled bitterly, "Before me, there are nine Godkings. Although I can't tell what their exact strength is, they must be beyond early Godking. I have no idea just how much strength you've recovered in a few short decades. If I called you over, and you weren't their opponent, wouldn't I have doomed you instead?"

"Moreover, if you were extremely far away, how would I be able to ask for help in such a short amount of time. I don't even know if you can make it in time."

"That's somewhat reasonable. However, the nine people before you are all late Godkings. They're indeed on a whole different level compared to early Godkings," said fairy Hao Yue. Afterwards, she took out a pill and gave it to Jian Chen. She said, "This is a God Tier healing pill. Eat it."

"God Tier pill?" Jian Chen was secretly tongue-tied. God Tier pills were on a whole different level compared to Immortal Tier pills. Every single one of them could be worth cities. Even many Godkings did not possess pills at such a level.

He had never thought that in just a few short decades, fairy Hao Yue could even take out God Tier pills.

"I'll return the god artifact to you. Sir, please leave immediately," the bald man said emotionlessly and reluctantly tossed over the armor that he had not even managed to wear.

Duo Ti decided to hand back the armor in such a straightforward manner because the armor was damaged, so its value had been greatly reduced. Moreover, he could tell that fairy Hao Yue was powerful. There was no reason to gain such a powerful opponent for just a damaged god artifact.

Fairy Hao Yue caught the god artifact. A sliver of surprise appeared in her eyes, and then she handed the armor to Jian Chen. She said, "Jian Chen, you probably haven't come here without reason, right? You should be searching for something."

"That's right..." Jian Chen explained why he had come to the Yin Mountains of Sevens Despair.

The expressions of the nine Godkings all changed when they heard that Jian Chen had come here in search of heavenly resources that could heal the soul.

"You really have come to the right place for heavenly resources that can heal the soul," fairy Hao Yue smiled gently. She stared at the nine Godkings with deep meaning and said, "According to my knowledge, you lot just happen to have a Voidcloud Flower with you. The flower has reached the first grade of the God Tier, and its main effects are to heal the soul. Moreover, it can be used as nourishment for a Flower of Ways."

"What do you want to do?" The eyes of all nine Godkings sharpened. They became filled with caution.

"You should understand what I want. Are you going to hand it over yourselves, or do I have to come to retrieve it myself," fairy Hao Yue said in a composed manner.

"The Voidcloud Flower belongs to the ninth prince. Are you certain you want to take the ninth prince's things? You have to understand that the ninth prince is the person most likely to succeed the Blood Sun Empire as emperor. Even Infinite Primes have to show him some respect," the ancestor tree said in an attempt to scare off fairy Hao Yue.

"Who's the ninth prince? I really haven't heard of him before. However, not only do I want the Voidcloud Flower, but I also want the Flower of Ways you have planted here," said fairy Hao Yue.

Jian Chen basically understood everything from that. The ninth prince of the eternal Blood Sun Empire of the southern region had probably stationed the nine Godkings here with the intentions of raising a Flower of Ways.

As for fairy Hao Yue, she had clearly come for the Flower of Ways.

"I just wonder what the Flower of Ways is. It seems quite precious," thought Jian Chen.

"The Flower of Ways is extremely crucial to the ninth prince. If you want the Flower of Ways, you'll have to step over our corpses first," said the old tree.

Fairy Hao Yue's face sank. She said, "If that's the case, I can only retrieve it myself then."

Suddenly, fairy Hao Yue began to shine brightly. She seemed to have become a huge moon, illuminating the surroundings with sacred and gentle light. It purged the thick miasma from the surroundings and filled the entire mountain range with a silvery glow.

The moonlight engulfed all nine Godkings. The moonlight possessed the power of time. It could turn back time and mix the past with the future.

Under the moonlight, the nine people's appearances changed drastically. They became younger, while the tree and Qi Zang's originally tremendous bodies shrank at a visible rate.

An unbelievable thing was happening to their bodies. It was as if everything they had experienced in their lives were receding from them, returning them to the past.

The even more terrifying part was that even their strength rapidly regressed. They fell from late Godking to mid Godking, and then to early Godking.

"This is an ability of time. Oh no, she has made us return to the past," the nine Godkings cried out as their faces became ugly.

"Are you certain you want to take the ninth prince's things? The ninth prince will not spare you. Even if you are an Infinite Prime, he'll be able to cause you quite some trouble with his authority," Duo Ti called out.

Chapter 1885: Such Puny Godkings

Duo Ti would have been better off if he did not say that. A vicious light immediately flashed through fairy Hao Yue's eyes in response to his words. She immediately glared at the nine Godkings who were gradually regressing under her ability and revealed cold killing intent.

“If that’s the case, I can only kill all nine of you. Once you’re all dead, that ninth prince won’t know what happened here.”

“Even if he learns what happens here, he won’t know who took away the Voidcloud Flower and the Flower of Ways,” fairy Hao Yue said coldly. Originally, she did not come here with the intent to kill. She only wanted to take away the Flower of Ways, as it would be of great help in restoring her strength.

However, Duo Ti’s words made her want to kill them.

Although the Blood Sun Empire was the eternal empire of the southern region and was extremely powerful, fairy Hao Yue did not treat them with any importance at all. She was only worried about whether it would bring trouble to Jian Chen’s Tian Yuan clan.

It was exactly because of that that she changed her plans all of a sudden, making up her mind to leave no one alive.

Fairy Hao Yue grabbed at the space. A surging essence of the moon condensed in the air, instantly forming into a jade-white scepter in her hands.

Even though the scepter had only been condensed from energy, it seemed exactly the same as the Moon God Scepter she had given to You Yue in the past.

Fairy Hao Yue gripped the scepter as a moon shone brightly behind her. Extremely bright moonlight wrapped around her, illuminating the surroundings and the mountains.

She gently swung her scepter, and nine beams of light appeared simultaneously above the heads of the nine Godkings. Every single beam produced powerful pulses of energy and contained the power of laws that far exceeded Godking. Each and every beam was destructive.

The nine Godkings from the mountains glowed. Powerful pulses of energy emanated from their bodies. They were unwilling to just die like this. Even though they knew that they were not fairy Hao Yue’s opponent, they resisted with their full power, striking the beam of light above them as hard as they could.

Boom!

With a deafening sound, surging energy formed a storm. The laws in the surroundings wove into a mess. The collision created an extremely shocking disturbance as if it was about to rip through the space in the area.

The entire mountain range trembled violently from the strikes as if a huge earthquake was happening. It was like the world was ending. Mountains collapsed, and the earth ripped open into huge chasms. The mountain below everyone was reduced to dust instantly.

The nine Godkings' attacks against fairy Hao Yue really did possess the power to destroy worlds.

If this were a provincial city like the one in the Dong'an province, these attacks would be enough to flatten the entire city. Even Overgods would not be able to avoid death.

"So powerful!" Jian Chen stood in the air behind fairy Hao Yue. The terrifying ripples of energy before her were unable to reach him. He only stared on in awe as he felt extremely shocked inside.

He felt that with his current strength, just the devastating ripples of energy were enough to leave him heavily injured.

Fairy Hao Yue stood as still as a mountain. A screen formed from the power of laws stood before her. No matter how violent the energy was, it was unable to even ruffle her clothes.

However, blood spurted from the mouths of all nine Godkings, along with pieces of their internal organs. It fell like rain. The blood of Godkings had dyed the space red.

All of them were pale and haggard now. They were extremely injured.

Fairy Hao Yue was so powerful now that even when they worked together, it was basically a futile effort.

“Fall into formation!”

A Godking called out. The Godkings ignored their injuries and fell into a formation as quickly as possible. They poured their strength together.

Immediately, an even more tremendous pressure emanated from them. After working together, their resistance against fairy Hao Yue’s ability grew stronger and stronger. Their strength that had been suppressed to early Godking recovered to mid Godking at that moment.

“A World Set By Laws, Sword of Chaos and Annihilation!”

The nine Godkings bellowed out, and their voices rang through the surroundings. Between the nine of them, a blinding sword Qi silently condensed. It directly shot towards fairy Hao Yue with great pressure.

The sword Qi moved extremely fast, far quicker than Jian Chen’s Linear Lightning Release. It whistled through the air and seemed to punch through space, appearing before fairy Hao Yue in a single instance.

Jian Chen’s face changed. The sword Qi simply moved too quickly; it was so quick that he could not even react to it. He was not even able to see the sword Qi with his naked eyes, and he could only sense the pressure it gave off.

However, fairy Hao Yue’s face did not change at all. She remained just as composed as before. She lifted a slender hand of hers and gently extended it forwards.

Fairy Hao Yue’s movements clearly did not seem quick. As a matter of fact, it felt extremely slow. However, when she completed all her movements, the sword Qi that was just about to strike her had only managed to advance a single inch.

This scene would confuse many people. There seemed to be a difference in time between the two, where the flow of time was different.

“Disperse!”

Fairy Hao Yue called out gently and extended a finger. Immediately, the power of laws that had completely exceeded the level of Godkings descended, directly wrapping around the strand of sword Qi.

In the next moment, the sword Qi that contained the power of nine Godkings dispersed just like that. The laws that belonged to the Primordial realm had directly ground it away.

The expressions of the nine Godkings changed drastically. All of them stumbled backwards uncontrollably as they stared at fairy Hao Yue in complete fear.

However, in the next moment, they looked at one another. As if they knew what each other was thinking, they all used their techniques and tried to flee without any hesitation at all.

Some of them used secret techniques to escape, while others took out teleportation formation discs.

“In my domain, I can’t let you escape. You’re done for,” fairy Hao Yue said calmly.

As expected, all nine Godkings became despaired. The ones who had used secret techniques discovered that they remained stationary, while the ones who activated formation discs did not see any teleportation energy appear.

“I didn’t want to kill you originally, but I have to kill you now,” fairy Hao Yue said emotionlessly. Killing intent appeared in her eyes, and with a wave of her staff, nine powerful strands of Moonlight Force engulfed the nine people with laws that belonged to the Primordial realm.

This time, the nine Godkings were unable to resist at all. They had already been heavily injured, and their strength had been reduced. Their souls were directly wiped out under a single strike from fairy Hao Yue.

From the beginning till the end, fairy Hao Yue had not moved from her position at all. She could suppress the Godkings with a wave of her hand and managed to slay nine late Godkings in just a few moves. She was extremely composed throughout the entire process. Clearly, she had not used her full strength.

Jian Chen watched this happen with his tongue-tied. He felt like he was dreaming all the way until all nine Godkings had died. He struggled to believe that this was real.

A few decades ago, fairy Hao Yue was only a soul. Even an Origin realm expert could wipe her out. She was truly ant-like.

However, now, she killed nine Godkings with the flip of her hand.

Since when did Godkings become so puny?

Chapter 1886: God Tier Heavenly Resource

“Fairy Hao Yue, have you completely recovered your strength?” Jian Chen stared at fairy Hao Yue’s back. He was at quite a loss. Before him, there stood an extremely great expert, which made Jian Chen rather absent-minded.

This was because he struggled to connect the invincible fairy Hao Yue right now to the fairy Hao Yue he had met on the Tian Yuan Continent.

Fairy Hao Yue turned around and stared at Jian Chen with her beautiful eyes. She shook her head, “My cultivation level is only at early Godking, but I’ve restored eighty percent of the power of my soul. I can use the power of laws from the Primordial realm, which is why I could kill those nine Godkings so easily.”

With that, fairy Hao Yue suddenly gazed into the distance. Her deep eyes pierced through space and plunged into the very depths. She could see what was happening extremely far away.

“The disturbance we caused here is quite large. Quite a few people are hurrying over here right now. Let’s go get the Flower of Ways and the Voidcloud Flower,” said fairy Hao Yue. With a wave of her sleeve, there was a terrifying ripple of energy that belonged to Godkings. Along with the power of laws that belonged to the Primordial realm, they wrapped around Jian Chen and directly took him downwards.

Jian Chen did not resist at all. Even though fairy Hao Yue had not recovered her full power yet, her strength was still evident. She could be called supreme among Godkings with her comprehension at the Primordial realm even though she was only an early Godking right now.

“Maybe, even protector Shui, who is ranked ninth on the Godking’s Throne, isn’t fairy Hao Yue’s opponent,” Jian Chen thought. He could not help but compare protector Shui to fairy Hao Yue.

In the past, protector Shui had heavily injured the strongest Godking of the God clan, Audriana, reducing her to just a soul. That had completely shocked Jian Chen.

In Jian Chen’s heart at that time, Shui Yunlan was the most powerful existence. She had reached a state of power that he struggled to even imagine.

Many mountains in the mountain range collapsed, so the Flower of Ways and the Voidcloud Flower the nine Godkings planted there were naturally buried under the rubble.

Fairy Hao Yue brought Jian Chen straight to the very bottom. She erupted with her Godking cultivation and began to clear away the surroundings, unearthing the Flower of Ways and the Voidcloud Flower.

Both flowers were snow-white. One possessed nine petals and was surrounded by a white mist, obscuring the nine petals at times.

The other flower only had three petals. Complicated and profound patterns covered each petal. They blurred from time to time. Moreover, the patterns seemed to be still, but they also seemed to change at all times, resonating with the world and presenting the mysteries of laws.

The two flowers did not grow in the soil. Instead, they grew on a huge, jade platform. A powerful formation was carved into the platform, protecting the two flowers.

“The Flower of Ways has not matured yet, so its effects will be greatly reduced, but I can’t care for that much right now. Even if it’s wasting it, I have no regrets as long as I can recover some of my strength,” fairy Hao Yue said to herself gently. She stared at the flower with three white petals, and with a wave of her hand, it flew into her hand automatically. She tossed it into her Space Ring casually.

Afterwards, the other flower with nine petals landed in fairy Hao Yue’s hand as well. She passed it to Jian Chen and said, “This is a Voidcloud Flower; it is a first grade God Tier heavenly resource. It’s extremely effective for both healing the soul and recovering the power of the soul. Of course, the flower

will be even more effective if it's refined into a pill. Unfortunately, there are just far too few alchemists who can refine God Tier heavenly resources into pills. They're just too hard to find."

Jian Chen did not hold back, directly accepting the Voidcloud Flower. However, he frowned very soon and smiled bitterly. He passed the flower back to fairy Hao Yue and said, "Fairy Hao Yue, the formation on it has already reached the level of Godkings. I can't remove it."

Fairy Hao Yue nodded, "The people are almost here. Let's leave first and find a safe place so that I can remove the formation for you. If they see us here and that ninth prince hears about it, it'll be extremely bad for you. It might even lead to a disaster."

"Wait, let me take away the corpse of this Golden-striped Silver Snake. It's of great use to me," said Jian Chen. He arrived before the Golden-striped Silver Snake quickly and directly put the corpse away.

Jian Chen also rummaged through the corpses of the other Godkings. There was only a single human among the nine of them. The others were either magical beasts or plants.

In the end, the Godking level plant cores and monster cores obviously ended up in Jian Chen's hands as well.

However, fairy Hao Yue took away all the Space Rings on the Godkings. She wanted to use the resources in there to recover her strength as soon as possible.

After all that, fairy Hao Yue waved her sleeve. She made the air in the surroundings churn. The laws at the Primordial realm descended and erased Jian Chen's presence from the mountain range, leaving behind only her presence. Then, she departed with Jian Chen.

Soon after fairy Hao Yue and Jian Chen had left, five figures shot over with lightning speed. They seemed to have fused with space, moving through the air silently and with great speed. They seemed to be able to traverse a huge distance in a single instance.

In the blink of an eye, they arrived on the outskirts of the Yin Mountains of Sevens Despair. Even though the five of them were Godkings, they had all erased their presences and acted with a low profile. They stared at the very depths of the mountains sternly.

“It’s the presence of the laws from a Primordial realm expert. Has a Primordial realm expert flattened the Yin Mountains of Sevens Despair?” A middle-aged man asked gruffly. He was wearing purple and gold dragon robes.

The four other Godkings remained silent. They stared into the depths of the mountains as they struggled to remain calm inside.

These five Godkings were the peak experts from the nearby Divine Kingdom of Datian and Divine Kingdom of Qingyang.

Two of them wore dragon robes and seemed dignified. They were the divine kings of the Divine Kingdom of Datian and the Divine Kingdom of Qingyang.

The disturbances within the Yin Mountains of Sevens Despair had drawn over all the Godkings in the two divine kingdoms.

Moreover, as time went on, more and more Godkings gathered there. They came from the Divine Kingdom of Nine Stars, Divine Kingdom of Scarlet Clouds, Divine Kingdom of Kaiyuan, Divine Kingdom of Aethercloud, Divine Kingdom of Balaj, and so on.

Basically, all the Godkings from the nearby divine kingdoms had hurried over. Even the Grand Imperial Protector of the Divine Kingdom of Pingtian had come. They all entered the very depths of the mountains.

However, it had already been reduced to a mess in there. The shockwaves from the battle had basically flattened the mountains while the corpses of eight Godkings laid in the rubble. The presence of laws that belonged to Primordial realm experts permeated the surroundings, giving off a great pressure. All the Godkings who entered the place shivered in their hearts.

Chapter 1887: Supreme Quality Saint Artificer

t

All the Godkings in the nearby divine kingdoms had gathered here. They stared at the eight Godking corpses in the rubble, and all of them fell silent.

None of them were able to remain calm at this sight. Their hearts were in turmoil.

Before long, the Godkings all dispersed. They did not touch a single thing there. Even for the Godking corpses, they only looked at them from afar. They did not dare to approach it, as that could lead to some unneeded problems.

At the same time, the divine king stood very casually on the tallest structure within the royal palace of the Divine Kingdom of Pingtian in simple, white clothes. His deep eyes were fixated in the direction of the Yin Mountains of Sevens Despair.

He had already expanded the senses of his soul. It crossed through the entire Divine Kingdom of Pingtian and the Divine Kingdom of Qingyang, plunging into the depths of the mountains.

“This person is so powerful!”

After quite a while, the divine king said this sternly. His face was extremely solemn.

“Jian Chen’s presence has completely vanished from the Yin Mountains of Sevens Despair. The Primordial realm expert forcefully removed it. If it weren’t for the fact that I knew already Jian Chen had entered the mountains, I definitely wouldn’t have known someone else had entered the mountains beside the Primordial realm expert...”

“I can basically conclude that the Primordial realm expert who devastated the mountains is the soul that appeared in Godking Duanmu’s dwelling before.”

“However, I just wonder whether she has returned to her peak condition or not. The power of laws that have permeated the mountains has surpassed most Primordial realm experts already. If she still hasn’t recovered to her peak condition, then she is just too powerful...”

The divine king murmured to himself softly. The light in his eyes flickered uneasily.

In an ancient mountain range within the Divine Kingdom of Pingtian, Jian Chen and fairy Hao Yue stayed in a temporary cave that they had created. A huge luminous pearl was wedged into the ceiling, giving off gentle light that illuminated the cave.

Jian Chen sat on the ground. He stared at fairy Hao Yue, who also sat on the ground before him, or more accurately, he stared at the Voidcloud Flower in fairy Hao Yue's hands.

The Voidcloud Flower was similar to the Flower of Ways. It was planted in the huge piece of jade and slowly absorbed the jade's formation to grow. Formations at the level of Godkings protected the flowers and the jade.

Fairy Hao Yue was currently removing the formations.

However, with her strength at the Primordial realm, removing formations at the level of Godkings was naturally a piece of cake. The formation was destroyed after two hours.

If it were not for the fact that fairy Hao Yue was worried about damaging the flower, there would be completely no need for her to spend two hours with her strength. Once the laws of the Primordial realm had descended, she would only need a single strike to obliterate the formation.

Jian Chen held the Aethercloud Flower and sniffed its familiar fragrance. He was extremely excited inside. This was a God Tier heavenly resource. He was basically completely confident he could wake up Kai Ya with the flower.

"The Voidcloud Flower is precious, but it's only used to nourish the Flower of Ways. The Flower of Ways is what is truly precious," said fairy Hao Yue. She stared at him and said sternly, "The most precious part of the Flower of Ways is not the terrifying essence hidden inside, which can be used to increase a person's cultivation. Instead, it's the comprehension of the laws of the world within the flower. It can basically increase a Godking's chance of reaching the Primordial realm by fifty percent."

"Moreover, not only is the Flower of Ways effective for Godkings, but it can even assist Infinite Primes to a certain degree as well. It can increase the chances for a breakthrough between minor cultivation levels by twenty percent."

“As a result, I can basically conclude that the Flower of Ways is a treasure for the ninth prince to break through to Infinite Prime. Its importance to him is evident. From today onwards, you have to be careful about the ninth prince. Once he finds any traces that lead back to you, it’ll be extremely bad for you. After all, I can’t always be by your side.”

Fairy Hao Yue warned Jian Chen seriously and sternly. Jian Chen was still weak right now after all. He was completely powerless against the ninth prince who possessed authority in the eternal Blood Sun Empire of the southern region.

This was because the eternal Blood Sun Empire was basically the ruler of the southern region.

Jian Chen nodded seriously. He also understood the importance of the matter.

Afterwards, Jian Chen remembered something. He took out all the Overgod plant cores and monster cores he had collected from the Yin Mountains of Sevens Despair and asked fairy Hao Yue to refine the poison within them.

The monster cores at the level of Overgods were filled with poison. With his current Chaotic Body, he was unable to absorb it directly. He needed a Godking to refine the poison inside with the power from their cultivation.

Now that there just happened to be an expert like that before him, Jian Chen would never miss the opportunity.

Naturally, Fairy Hao Yue did not turn him down. She erupted with the cultivation of an early Godking and directly refined the cores.

The refinement lasted for an entire day. Only then did fairy Hao Yue remove all the poison within the six cores. Only extremely pure and turbulent energy was left.

After handing the six cores back to Jian Chen, Fairy Hao Yue said, “I still can’t refine the Godking level cores on you with my current cultivation, so I’ll leave them with you for now. Once I reach the Primordial realm, I’ll be able to refine them.”

“Oh right. I came across this piece of armor accidentally. It’s a supreme quality saint artifact and possesses extraordinary defence. Just the armor itself can withstand several attacks from Godkings. It’s useless for me, so you take it.” With a flip of her hand, an exquisitely crafted armor appeared. She directly tossed it to Jian Chen like it was garbage.

Afterwards, fairy Hao Yue bid farewell to Jian Chen. She left by herself, planning on using the Flower of Ways to recover some of her strength.

Jian Chen sat in the cave by himself after her departure. He held the supreme quality saint artifact as his feelings became mixed.

It had been painful for him to buy a high quality saint artifact in the past, yet now, he had obtained a supreme quality saint artifact, and it was a defensive one at that.

Defensive saint artifacts were worth far more than offensive saint artifacts at the same quality. Meanwhile, the armor he held right now had already reached supreme quality. It was so valuable that Jian Chen struggled to fathom its value.

Supreme quality saint artifacts were treasures that were the closest to god artifacts after all!

Jian Chen sucked in a deep breath and slowly calmed himself down. An Albumstone Heart Flower, a Voidcloud Flower, six Overgod level cores, eight Godking level cores, the corpse of a Golden-striped Silver Snake, and a supreme quality saint artifact. He directly sighed about his trip to the Yin Mountains of Sevens Despair. He had benefited far too greatly.

“It’s time for me to go back. With these six cores, I should finally be able to make a breakthrough with my Chaotic Body.”

“It’s already very difficult for me to find opponents among the level of Overgods. If I make another breakthrough with the Chaotic Body, just what level will my battle prowess reach?”

Jian Chen felt his blood boil when he thought up to there. He was filled with anticipation.

Chapter 1888: Kai Ya Awakens

Jian Chen returned to the Tian Yuan clan and immediately entered a secret room. With a wave of his hand, the crystal casket flew out of the Bright Moon Divine Hall.

The fist-sized Seven-colored Heaven-devouring Beast lied on the crystal casket. However, it was different from before. It was not cultivating. Instead, it stared at Kai Ya's face. Its intelligent eyes were rather doubtful. At the same time, it was filled with anticipation.

In reality, it had been like that for a very long time already. Ever since Jian Chen fought the Godking in the Yin Mountains of Sevens Despair, it had been like that.

Naturally, Jian Chen paid no mind to the Seven-colored Heaven-devouring Beast's abnormality. He arrived before the crystal casket and slowly lifted the lid. He also activated the formations around the room.

Only after doing all that did he take out the Albumstone Heart Flower and the Voidcloud Flower he obtained from within the Yin Mountains of Sevens Despair.

Instantly, a heavy fragrance permeated the surroundings. Just a single breath was enough to clear the mind and make people feel extremely comfortable.

The fragrance had been firmly isolated within the tiny room and did not drift out.

Otherwise, the fragrance would have spread across the entire provincial city in an extremely short amount of time.

After all, this was a Voidcloud Flower that had reached God Tier.

The eyes of the Seven-colored Heaven-devouring Beast immediately lit up. It finally looked away from Kai Ya and stared at the two flowers in Jian Chen's hands. It became excited as it revolved around Jian Chen happily while buzzing its wings.

It was as if it was already certain that Jian Chen would be able to wake up Kai Ya this time.

Jian Chen hesitated slightly with the two heavenly resources before he finally decided to use the Albumstone Heart Flower first.

If the flower could awaken Kai Ya, he would be able to save a God Tier heavenly resource.

Very soon, Jian Chen fed the flower into Kai Ya's mouth. Instantly, it turned into a ball of energy that gathered towards Kai Ya's soul.

Jian Chen stared at Kai Ya without blinking at all. Deep concern flooded his face, along with some anticipation.

Time passed silently. Very soon, it had already been four hours since Kai Ya ingested the Albumstone Heart Flower. She still had not roused.

"Looks like I won't be able to save the Voidcloud Flower," Jian Chen thought before feeding the God Tier heavenly resource into Kai Ya's mouth without any hesitation. He could not help but think to himself, "You're clearly just a Saint Emperor, but you need so many heavenly resources for your soul. This is the first time I've ever seen something so weird."

"However, the Voidcloud Flower is a heavenly resource at the highest grade I have ever obtained. If that doesn't work, I'm really out of options."

"Kai Ya, you have got to wake up..."

Jian Chen was eager. He and the Seven-colored Heaven-devouring Beast currently paid complete attention to Kai Ya.

However, at this moment, Jian Chen's expression changed. The jade talisman with a sliver of the power from his soul he had originally left in the Tian Yuan clan had shattered.

Jian Chen's expression changed slightly. Now that the talisman had shattered, it meant that the Tian Yuan clan faced a huge threat. The threat was so great that it could directly affect the survival of the clan.

Jian Chen immediately turned around and left. He appeared in the clan and directly charged for the discussion hall.

All the elders had already gathered in the discussion hall. They sat on their seats sternly, causing the atmosphere in the entire hall to be rather heavy.

“What has happened?” Jian Chen sat down on his throne and asked sternly.

“Patriarch, the Divine Kingdom of Three Cauldrons was devastated three days ago. Two of their three Godkings were killed by the commander of the ninth army, with only the divine king escaping with wounds.”

“However, just then, we received news that the seventh and eighth armies of the Emyrean Demon Cult have been mobilised together. They’re currently meeting up with the ninth army, and they’re directly heading towards our Divine Kingdom of Pingtian,” Mo Ling stood up and said sternly.

Jian Chen stood up from the patriarch’s throne. The light in his eyes flickered with uncertainty, and he said sternly, “This matter is probably far more complicated than it seems for three armies of the Emyrean Demon Cult to be mobilised together. It probably has nothing to do with the three Overgods I killed a few days ago. Three Overgods aren’t enough for the Emyrean Demon Cult to send three armies.”

“Report!”

At this moment, a guard rushed in. He dropped to one knee and called out, “Patriarch, special messengers from the royal capital are currently waiting outside.”

“Let them in,” said Jian Chen.

“Yes, patriarch!”

Very soon, a few Gods hurried in from the outside sternly. They were special messengers from the royal capital who especially carried the divine king's words, so their statuses were great. However, after they entered the Tian Yuan clan, all of them concealed their arrogance.

The special messengers bowed towards Jian Chen politely. Afterwards, one of them said extremely politely, "Esteemed patriarch of the Tian Yuan clan, we have come under orders from his majesty to ask the patriarch to visit the royal capital and discuss important matters."

"I understand. When you return, please tell his majesty that I will arrive soon," Jian Chen said to the special messengers.

While Jian Chen was discussing important matters with the upper echelon of the Tian Yuan clan, Kai Ya's eyelashes began to tremble once again in the formation-ridden room.

The trembling was unlike last time, which had only lasted for a single moment. Instead, it continued to tremble, trembling more and more intensely as if she was trying very hard to open her eyes.

Naturally, the Seven-colored Heaven-devouring Beast sensed this, as it had always been paying attention to Kai Ya. It cried out happily and constantly revolved around the crystal casket. It was in high spirits.

Finally, Kai Ya opened her eyes slowly.

What kind of eyes were they?

If Jian Chen saw Kai Ya's eyes, he definitely would have doubted whether the person before him was Kai Ya or not.

This was because the eyes were cold and merciless. They were terrifyingly frigid as if she did not possess any emotion at all.

Inside, there was even indifference towards life. It was like an invincible, supreme ruler that controlled the universe looking down at the lives in the world, viewing them all as ants.

The Seven-colored Heaven-devouring Beast stopped flying. It remained in the same position as before, except an invisible energy had frozen it in space and completely immobilised it.

The origin energy and the ripples in space within the room were frozen as well.

At that moment, the time in the secret room where Kai Ya stayed seemed to have come to a stop. Everything stopped changing as if the scene had become frozen for eternity.

At the same time, in outer space beyond the tremendous Cloud Plane, far beyond the range of what Godhood experts could sense, extremely terrifying laws silently condensed.

The laws were so powerful that they seemed to be able to replace the laws of the world and represent the will of the world.

As a matter of fact, its appearance formed a huge disturbance to all three thousand laws of the world.

All the ancient existences in the super organisations within the five regions of the Cloud Plane roused from their cultivation. They raised their heads towards outer space as shock filled their faces.

Chapter 1889: Departure

“What terrifying power of laws. It has basically reached the limit. Even the other laws have become suppressed and disturbed. Who is this? Since when did the Cloud Plane possess such a powerful figure...”

“These are heavenly laws. Anyone who can achieve something as great as this in terms of laws has basically fused with the laws of the world. They represent the world. W- who is it that has reached that level of cultivation...”

“This person is so powerful. With my abilities, I can only sense the power of laws in space. I can't find the person at all...”

...

All the ancient existences who had been around for who knows how long from the super organisations in the five regions of the Cloud Plane cried out at that moment. All of their eyes were filled with angst as their hearts churned.

Along with those emotions was a desire to stand at such a level.

At the same time, countless powerful senses of the soul spread across the five regions of the Cloud Plane from various places. Every single one of them could engulf the entire Cloud Plane.

The range that was covered was simply shocking.

However, even though the ancient existences managed to cover the entire Cloud Plane in just a single instance, they failed to find the person. Aside from the frightening power of laws that charged up in outer space, they did not even manage to detect the presence of this person at all.

The terrifying senses of the soul from these ancient existences were extremely well-hidden. As a result, very few peak experts discovered the senses. Even Infinite Primes were unable to sense it at all.

Kai Ya's body slowly hovered into the air within the secret room of the Tian Yuan clan. Her cold, emotionless eyes seemed to have shards of light drifting around and changing. In that short instance, she understood her past life.

At that moment, she suddenly looked backwards. The inscriptions of the laws of the world seemed to flicker in her eyes. She seemed to have fused with the world, becoming a part of the laws of the world. She was able to learn the past and future with a single glance.

She saw everything she had gone through while she was unconscious. She saw Jian Chen carry her crystal casket all the way from the Tian Yuan Continent to the Saints' World.

She saw Jian Chen leave her in the Bright Moon Divine Hall as he struggled all by himself in the Saints' World, fighting difficult, bloody battles.

She also saw how Jian Chen had almost lost his life when he directly entered the very depths of the Yin Mountains of Sevens Despair in order to wake her up with the Voidcloud Flower.

Kai Ya's gaze became cold and emotionless once again. Her face was cold, without any emotion at all. She gazed through the room and directly saw Jian Chen, who was hosting a meeting in the discussion hall.

"Since you've assisted me, I should gift you a huge fortune. Unfortunately, you're with the Immortals' World and you obtained the twin swords," Kai Ya murmured softly. At that moment, her voice had already changed completely. It was no longer the same as before. Instead, it was extremely strange. Her voice seemed to contain all the sounds in the world.

It sounded male if someone believed it to be male.

It sounded female if someone believed it to be female.

As a matter of fact, if someone believed it to be the cries of birds and beasts, it would sound like the cries of birds and beasts.

This was because all the sounds in the world were contained in the short sentence she had just spoken.

"Whatever. Since you have formed karmic ties with my reincarnation, I'll leave this reincarnation behind so that she can resolve all the ties you have formed. From now onwards, this reincarnation has nothing to do with me anymore," Kai Ya murmured to herself. As she said that, an extremely powerful ball of light hovered out of her forehead. It was a soul, and it formed a hazy figure.

The light of the world surrounded the figure, so it was impossible to tell whether they were male or female.

The figure in the light gradually extended a finger towards Kai Ya's forehead. After sending in some power of the soul that was basically insignificant to it, it removed some memories, only leaving behind the memories that the reincarnation should have possessed.

Afterwards, she looked at the Seven-colored Heaven-devouring Beast and said, "Cai'er, I never thought you'd survive the disaster. However, your damaged soul went through samsara, and you lost all your memories. You need to find them yourself."

The Seven-colored Heaven-devouring Beast was trapped there. It stared at the figure of light with both angst and confusion.

The figure of light was just too powerful. It made it feel fear, but it became completely confused after hearing what the figure said towards the end.

Vaguely, it felt an intense familiarity from the figure of light. It originated from its very soul, making it feel extremely safe. At the same time, it experienced a sense of belonging.

This feeling was the same as what it felt from Kai Ya. It was exactly because of this that it had followed the much weaker Kai Ya of its own accord, spending all its time near her.

In the end, the figure of light extended its hand and gently brushed past the centre of the Seven-colored Heaven-devouring Beast's eyes. It sealed up that short memory.

The Seven-colored Heaven-devouring Beast closed its eyes and immediately fainted. A gentle power laid it down on the floor.

At that moment, Kai Ya's eyes had closed as well. She returned to the crystal casket.

At that moment, the figure of light suddenly vanished completely, having left silently. The formations around the room outside were completely useless against it.

Jian Chen finished his meeting in the discussion hall of the Tian Yuan clan. He announced that the entire clan would be on high vigilance, and the teleportation formation he had prepared would be ready to be used at any time. Once the Divine Kingdom of Pingtian fell, all the people of the Tian Yuan clan would leave through the formation.

Jian Chen immediately hurried back to the secret room after the meeting.

The unconscious Seven-colored Heaven-devouring Beast opened its eyes at that moment as well. It looked around at its surroundings in some confusion, and it seemed to remember something. It suddenly flew up from the ground and arrived before the crystal coffin.

Right now, it had completely forgotten what had happened earlier as if the memory had been erased from its head.

Jian Chen walked into the room from the outside. He looked at Kai Ya, who remained within the crystal coffin, and he frowned. He murmured, "How come she's still not awake? Is a Voidcloud Flower not enough to wake Kai Ya up? It's a God Tier heavenly resource after all." Jian Chen arrived before the crystal coffin and stared at Kai Ya, who laid there peacefully. He felt rather troubled inside, unsure as to what to do.

"What's a Voidcloud Flower?"

However, at this moment, Kai Ya who laid in the coffin said something absent-mindedly. Afterwards, her eyes finally opened.

The sudden voice made Jian Chen's face jump. When he saw Kai Ya's eyes open, jubilation flooded his face.

"Kai Ya, you're finally awake. Do you remember how long you've been unconscious for?" Jian Chen asked happily. The Voidcloud Flower really had not disappointed him.

"How... how did I fall unconscious?" Kai Ya was slightly confused, but gradually, she remembered the past. She remembered when an Origin realm expert from the World of Forsaken Saints took her away during the war.

"Jian Chen, did you save me? How long have I been unconscious for? And where is this?" Kai Ya looked around in confusion.

Chapter 1890: Chanlong's Chance at Survival

"You've already been unconscious for a hundred years. In that time, a lot of things have happened. We're no longer on the Tian Yuan Continent. Instead, we have arrived in a higher world. This place is

called the Saints' World," Jian Chen said. He explained everything that had happened after Kai Ya fell unconscious, without missing any detail at all.

This included the ceasefire between the Tian Yuan Continent and the World of Forsaken Saints as well as the catastrophe with the evil spirit that had happened afterwards and so on. He even told Kai Ya about how he founded the Tian Yuan clan in the Saints' World.

Not only did Kai Ya share the same homeland as him, coming from the same world as him, but she was also a good friend of his. As a result, he naturally hid nothing from Kai Ya.

Kai Ya fell silent after learning that so many things had happened while she was unconscious.

To her, the hundred years had been a dream. She had no idea when it passed, and now that she had woken up, the world around her had completely changed. Clearly, she needed time to digest and accept this fact.

"I never thought I'd actually be in another world after I woke up," Kai Ya mumbled. She seemed rather dejected and sad.

She could not help but think about her life back in the sea realm. She thought about her devastated clan and her dead father.

She knew that it would probably be very difficult to return now that she had come to the Saints' World. Even if she could return, she had no idea how long she would have to wait.

The Seven-colored Heaven-devouring Beast flew to Kai Ya's shoulder, as it sensed her sadness. It rubbed its small head against Kai Ya's cheek gently, trying to comfort Kai Ya in its own way.

"Thank you for saving me, Jian Chen. I want some time by myself," Kai Ya said to Jian Chen. Her voice was very gentle, and it possessed a faint sense of sadness.

Jian Chen nodded. He did not disturb Kai Ya any longer, leaving the secret room.

At the same time, in the extremely distant Heavenly Moon Empire, a white-robed old man with white hair sat in the best room within an inn in the imperial capital. He held and studied a palm-sized azure disc.

“Jian Chen is becoming more and more powerful. There’s probably very few people who can match his rate of progress. At this rate, he’ll reach Godking even sooner than me. The Heavenly Moon Empire isn’t small, but it’s just too close to the Divine Kingdom of Pingtian. Looks like I have to travel further away or even leave the Cloud Plane,” the old man murmured to himself as he sat on his bed. He seemed slightly worried.

The old man was master Chanlong.

With master Chanlong’s abilities, even if Jian Chen was more powerful than him, there was no reason for him to fear Jian Chen so much. At most, he could just find an organisation to join and use them to eliminate Jian Chen. It was nothing difficult to him.

However, in the past few years, the trapped soul had constantly mentioned that it could see the future, and it could see the moment when Jian Chen killed him.

If it were someone else and not the trapped soul, master Chanlong would have never believed it. He would snicker at them instead.

However, in all these years, he gradually discovered that the soul really did seem to be able to tell the future. He truly experienced everything it had once mentioned in the past, which gradually affected master Chanlong’s head, making him believe that he really was doomed. Even if he joined a powerful organisation, he would still die to Jian Chen.

As a result, master Chanlong only hoped to be further away from Jian Chen right now. He wished to avoid this calamity.

This was all because everything that the trapped soul had said affected him greatly.

“However, now that the Emphyrean Demon Cult is turning on the Divine Kingdom of Pingtian, I really do hope tht Jian Chen dies to the hands of them,” said master Chanlong.

“Old man Chanlong, quit dreaming. I can see countless karmic ties Jian Chen has with the Emyrean Demon Cult. It’s so complicated that it has exceeded anyone’s imaginations. The Emyrean Demon Cult is both a blessing and a curse to Jian Chen. Keep dreaming if you want Jian Chen to die to the Emyrean Demon Cult. I can already see your future. No matter how hard you try, you won’t be able to avoid death,” said the trapped soul. His voice directly drifted out from the Space Ring. It was still sealed within a set of formation banners.

“Hmm?”

At this moment, the soul suddenly produced an interjection of surprise. It seemed to be experiencing a high, and it loudly said, “It has changed, it has changed! There’s a change! Old man Chanlong, go to the Dong’an province of the Divine Kingdom of Pingtian. I can see a chance at survival for you. It’s your only hope, so don’t miss it.”

...

Xi Yu currently stood within the sea of flowers in the gardens of the Tian Yuan clan. Her lonely and black figure seemed to possess a trace of sadness.

She tightly held a jade pendant that was only three fingers wide.

The jade pendant was made from some unknown material. It was extremely tough, and its design was extremely exquisite. It depicted a dragon and phoenix while the two words, Xi Yu, were carved into its centre.

Xi Yu always carried this jade pendant with her. To her, it was the most important object in her life. In the past few years, she took it out frequently and stood in a daze in a quiet place where no one could disturb her. She did not think of anything, remaining in a daze quietly.

She had not been born into the Mo clan. When she was young, the patriarch of the Mo clan had found her outside. She was only a newly-born infant back then.

Even until now, Xi Yu still had no idea who her true parents were and whether they were still alive in the world or not. There was only the jade pendant that was extremely likely to be left behind by her parents.

Her name, Xi Yu, came from the jade pendant as well.

“What are you thinking about?”

When Xi Yu returned to her senses, a familiar voice rang out. Jian Chen had already arrived beside her at a certain time, and he was staring at the jade pendant in her hand curiously.

“Patriarch,” Xi Yu responded politely, but she seemed to be in low spirits.

“Can I see the jade pendant you’re holding?” Jian Chen asked.

Xi Yu hesitated lightly before giving the pendant to Jian Chen.

Jian Chen took the pendant and examined it in his hand. His face gradually grew stern.

Xi Yu said in low spirits, “My foster father said that when he found me outside, this jade pendant was the only thing on me. Perhaps it was left for me by my parents. Patriarch, why do you think they’re cold-hearted enough to abandon their own daughter?”

“This jade pendant is extraordinary. Although I don’t know what has been used to craft the pendant, I can tell with a single glance that it’s precious.” Jian Chen returned the pendant to Xi Yu. He stared at her with mixed feelings and said, “Your parents must have experienced inexplicable reasons for abandoning you. Maybe they were being hunted down by their enemies, so they had no choice.”

Jian Chen sighed gently after reaching there. He said, “In the past, I was the same as you. I too was an infant. I did not know who my parents were, and even until I died, I did not find my parents...” Jian Chen could not help but think of his former life.

In that life, he was alone. He used the incomplete Azulet Swords Law to practise a sword style that was enough for him to dominate the Jianghu. In just his twenties, he became the greatest swordsman in the Jianghu.

Fortunately, the world did not abandon him. In his second life, which was his current life, he had a family, allowing him to experience the warmth of one.

Xi Yu stared at Jian Chen in a daze. She never thought that Jian Chen had actually experienced something just as pitiful as herself. She actually experienced sympathy in that moment.

Jian Chen dismissed his feelings. He took out a single Origin-gathering Flowers he had obtained from the divine king and said, "This flower can gather the energy of the world. Xi Yu, there'll probably be a great battle soon. Use this flower to cultivate and become an Overgod as soon as possible.

"With your talent and the comprehension of the Laws of the Sword that I've engraved, becoming an Overgod shouldn't be difficult at all."

Xi Yu was already a late God now.

Ever since Jian Chen engraved his comprehension of the Laws of the Sword, Xi Yu's strength had soared. She could be described as making great progress every day.
