

Chaotic 2051

Chapter 2051: The Prince's Wife

"Your highness, you must have seen it as well. When we entered the Divine Medicinal Garden, Xin'er and them were under attack from basically all the Godkings here. Under such tight circumstances, Xin'er had no other choice but to consume the Spiritual Root of Heavenly Ways. I hope your highness can forgive her for this," Yun Lianqing said uneasily from behind the fifth prince.

The fifth prince before them possessed great authority in the Sky Empire. Countless people would respond to his call. He was one of the three princes who were most likely to succeed the emperor. As such, he was greatly favored by the current emperor. and he had the support of peak sects in the Sky Empire. He was so powerful that their Yun family could not afford to offend him at all.

The hearts of all the Godkings from the Yun family sank completely when they saw how the fifth prince remained silently with a darkened expression.

Suddenly, the fifth prince's closely furrowed brows loosened. He let out a warm and enchanting smile, immediately making the people of the Yun family experience a pleasant feeling like they were standing in a spring breeze. It was as if all the negative emotions within them had vanished at that moment.

"Congratulations on consuming the Spiritual Root of Heavenly Ways, miss Yun Xin. If your journey in cultivation is successful, becoming a Chaotic Prime won't be an issue at all for you," the fifth prince smiled at Yun Xin. Afterwards, he clasped his fist towards her gently under her surprised gaze and said, "Miss Yun Xin, you must know my identity already. I hope that you can marry me. I wonder if I will be able to satisfy miss Yun Xin."

Although the fifth prince spoke warmly and politely, there was some sharpness in his gaze towards Yun Xin. All the people who understood the situation knew that the consequences would be horrible if Yun Xin did not agree.

Yun Xin's pale face became even whiter. She wanted to decline, but she could not bring herself to say it. This was because the fifth prince had already phrased it in a way that no matter what reason she used to decline him, she would be finding him unsatisfactory.

Without a single doubt, the Yun family would face a huge dilemma in the Neptunean Divine Palace. They might even face a disaster.

At the same time, Yun Xin constantly heard secret but helpless messages from the Godkings of the Yun family, telling her to just agree to it first.

In the current situation, the people of the Yun family were out of choices. Only through compromising could they ensure the safety of the clan.

Yun Xin gritted her teeth. Despite her reluctance, she still agreed to marry the fifth prince.

"I will definitely devote myself to cultivation in the future. When I truly become powerful, I will make the fifth prince regret today," Yun Xin made up her mind inside after the humiliation she experienced today. Right now, it was only a verbal agreement at most. As long as they did not get married, they would not be husband and wife.

The fifth prince laughed aloud, "Good, good, good. From today onwards, your Yun family will be one big family with me. Xin'er, once we return to the Profound Thunder Plane, I'll immediately report this to father before holding a grand marriage together." The fifth prince's unhappiness completely vanished. Although he had failed to obtain the Spiritual Root of Heavenly Ways, the root would not end up in the hands of others from a certain sense as long as Yun Xin became his wife.

Moreover, he would definitely possess an advantage in the fight for the throne through his connection with Yun Xin.

"Xin'er, let's go. You'll accompany me in the future. I'll show you the scenery of the Neptunean Divine Palace." The fifth prince made his way up and directly held Yun Xin's hand.

Yun Xin frowned as she twisted her body unnaturally. She wanted to break free from the fifth prince's grasp, but she discovered that she was unable to resist at all. Immediately, her face changed slightly, and she looked at Jian Chen beside her.

Previously, for the sake of the Spiritual Root of Heavenly Ways, he had engaged in a great battle against Mo Cheng before stopping so many Godkings in the garden. Yun Xin had witnessed all the hardships he had gone through. When she saw how he was all bloodied and covered with horrific wounds, she felt a pain in her heart for some reason.

Yun Xin could not help but have two regretful streaks of tears run down her cheeks. She thought about how she had made trouble for Jian Chen time and time again because they had taken up the three spots that originally belonged to her good friends as well as how she had treated him when they first entered the Neptunean Divine Palace.

The fifth prince saw all of this. He looked at Jian Chen and asked gently, "Xin'er, who is he?" There was deep disdain towards Jian Chen in the fifth prince's voice.

"Your highness, our Yun family encountered the three of them along the way here. Due to the fact that we have limited Godkings, we offered the remaining three spots to them. In exchange, they became temporary guards for Xin'er to ensure that she would not be injured," Yun Lianqing immediately explained before Xin'er could say anything. He understood the fifth prince quite well. Now that Xin'er had become in wife in name, he was afraid that the fifth prince would bear grudges and turn on Jian Chen and the others as a result.

"Xin'er, is that true?" The fifth prince looked at Yun Xin.

Yun Xin nodded and remained silent.

The fifth prince glanced at Jian Chen deeply before leaving the garden with everyone.

Master Chanlong emerged from his formation with the fifth prince's departure. He let out a long sigh, "And I had thought we were definitely going to be in for a battle, so I cast down several formations as quickly as I could. But fortunately, this battle didn't happen, or else even with my formations, we would struggle to stop that group of people. One of them has a god artifact after all."

Jian Chen sighed gently, "I wonder whether getting Yun Xin to eat the Spiritual Root of Heavenly Ways was the right decision or not. Although she gained a great fortune, she basically went from out of the

frying pan and into the fire. Before she truly powers up, she won't be able to cut her ties with the fifth prince."

Kai Ya made her way out as well. She stood beside Jian Chen and looked at his bloodied figure before showing a sliver of mixed feelings. She said calmly, "Was it worth it?"

"Some things can be done, while some can't. It's not about whether it's worth it or not. But this matter is in the past already, and Yun Xin has left with the fifth prince. Our agreement with the Yun family is basically completed." Jian Chen continued after some thought, "But the fifth prince completely saw what Yun Xin showed when they departed. The fifth prince is not a kind person. Who knows whether he'll move against us or not."

"As a result, we can't stay in the Divine Medicinal Garden for now. We need to leave immediately. I just need some time to increase my cultivation, and at that time, I think there won't be many people who'll be able to pose a threat to me anymore. Afterwards, we can come to harvest the God Tier heavenly resources here."

Chapter 2052: Entering Seclusion in the Neptunean Mountains

Kai Ya and Chanlong had no objections to Jian Chen's suggestion. They all understood that even if their group no longer feared regular late Godkings when they worked together, they were still not the opponents of extremely powerful late Godkings.

Mister Shu, who accompanied the fifth prince, was far more powerful than a regular late Godking.

Aside from Mister Shu, there were probably other supreme Godkings from the Godkings' Throne. Once they encountered them, they would struggle to emerge victorious even if they worked together.

As a result, they urgently needed to increase their strength. After all, many Godkings had already gathered on the eighth floor of the Neptunean Divine Palace, unlike the floors below that mainly consisted of Overgods.

"I also need to enter secluded cultivation so that I can break through to Godking as soon as possible," said Kai Ya. Late Overgods would be disadvantaged in terms of both cultivation and comprehension when they fought against Godkings.

After making up their minds, Jian Chen and the others immediately left the Divine Medicinal Garden. Xiao Zheng did not plan on leaving by himself, so he stuck with Jian Chen's group.

"Fellow Jian Chen, if you are in search of a place for secluded cultivation. I know somewhere that's extremely suitable for you." Xiao Zheng had already entered the Neptunean Divine Palace many times, so he was extremely familiar with its interior. He led the way without even being asked, "Fellows, please come with me."

Afterwards, Jian Chen's group covered a distance of over a million kilometers in an extremely short amount of time under Xiao Zheng's lead. In the end, they stopped before a verdant mountain range.

Jian Chen was surprised as soon as he entered the mountain range. Not only was the origin energy there over ten times thicker than elsewhere, to the point where it even formed mist, but Jian Chen even seemed to feel that the laws of the world had become clearer in the mountain range.

“According to ancient records, this mountain range is the holiest collection of mountains in the Daoist Sect of Neptunea. It’s called the Neptunean Mountains. It’s said that the Neptunean Mountains are also the most blessed lands of the Daoist Sect of Neptunean. There are extremely profound formations in the centre of this mountain range, and it’s exactly because of these formations that the Neptunean Mountains can directly take the fortunes of nature and gather the mysteries of the universe. Not only is the purest origin energy gathered here, but cultivating here can even deepen your understanding of the laws of the world. As a result, cultivation is significantly easier here.” Xiao Zheng clearly knew a lot. He studied the mountain range in amazement as he explained to the trio, “It’s said that the strongest ancestor of the Daoist Sect of Neptunea had close ties with a Grand Exalt. The formations in the Neptunean Mountains were cast down by the Grand Exalt personally, so it was an ungodly piece of work. All the formations abide by nature and contain the truths of the world.”

“The Neptunean Mountains were originally located outside the Neptunean Divine Palace, and it was a place especially provided to core disciples for cultivation. However, it was only moved in here when the Daoist Sect of Neptunea faced the calamity, so it has always remained here.”

“Xiao Zheng, it looks like you really do know a lot,” Jian Chen said calmly.

Xiao Zheng chuckled, “The Daoist Sect of Neptunea was originally located on the Heniu Plane, and I was born there as well. I’m from the same place as the Daoist Sect of Neptunea, and I’ve already entered here several times. Coupled with me inquiring everywhere, I do know a little more about this place.”

As they exchanged these words, the four of them had already entered the depths of the Neptunean Mountains. Along the way, Jian Chen could clearly sense that there were many powerful presences within the mountains. Clearly, quite a few people chose to cultivate here.

In the end, the four of them chose a secluded cave as a place to cultivate. Master Chanlong cast down formations to separate them from each other. It was to protect them and prevent any disturbances.

Jian Chen immediately entered secluded cultivation. He had already prepared the resources he needed for a breakthrough with the Chaotic Body. Not only did he have the Godking level monster cores he had obtained from the Yin Mountains of Sevens Despair, but he also had the energy crystals from the space beasts they had killed during their journey. These resources were enough for him to reach the twelfth layer successfully.

Kai Ya and Chanlong entered seclusion as well. Kai Ya healed first before beginning to cultivate. She comprehended the mysteries of the world in an attempt to break through to Godking.

As for Chanlong, he took out the Space Ring he had obtained from the seventh floor and checked through the items in there.

Clearly, the owner of the Space Ring was a formations master. Chanlong found quite a few records and comprehension for the Way of Formations in the Space Ring, so he immediately went through them closely.

The fifth prince of the Sky Empire and his people stopped beside a small stream to tidy up. This place was over a million kilometers away from the Neptunean Mountains. Many of the guards were covered in blood, clearly having just emerged from a battle.

The fifth prince sat on a boulder as he examined a fist-sized brown fruit in his hand. He smiled faintly as he murmured, "A Dark Spiritual Fruit. It's the main material for refining a Soul Purifying Pill of Earthen Spirit. That is a fourth grade God Tier pill, and it can rinse the soul of impurities and purify your mind. It's quite a rare item. These people really haven't disappointed me. They sure do have some pretty good things on them."

The fifth prince had just stolen the Dark Spiritual Fruit from a group of people. Even though they were not weak, the people he brought in had still slaughtered them easily.

"Xin'er, this Soul Purifying Pill of Earth Spirit will have extremely obvious effects on you right now. It can amplify your resonance with the laws of the world such that comprehension will become even easier. I'll collect all the materials for the pill in the Neptunean Divine Palace, and I'll especially ask a subject of the empire to refine it for you," the fifth prince held the fruit as he turned his head to talk to Yun Xin beside him. He spoke very gently.

Yun Xin, on the other hand, was in a daze as she sat on the boulder. Her gaze did not shift at all, making her seem like a statue. She completely missed the fifth prince's words.

"Xin'er!" The fifth prince could not help but speak louder.

"Ah. Fifth prince, what is it," Yun Xin looked at the fifth prince in confusion as if she had just woken up from a dream.

"Xin'er, look at my eyes," said the fifth prince. He stared at Yun Xin without blinking, and in the next moment, a grey swirl suddenly appeared in his pupils. It possessed a mysterious power as if it was going to suck away Yun Xin's soul.

Yun Xin immediately fell into a daze. Her attention was completely drawn away by the grey swirls in the fifth prince's eyes as she became lost.

"Xin'er, tell me, are you thinking about that person called Jian Chen?" The fifth prince asked. His voice was very simple, but when Yun Xin heard it in her current state, it was enchanting, sucking in her attention.

"Yes," Yun Xin replied stiffly. In such a situation, she was unable to hide any secrets at all. She told him the truth.

Nearby, Yun Lianqing's face suddenly changed. He could not help but worry for Jian Chen's safety, but he knew that there was nothing he could do.

The other people of the Yun family became stern. They were not worrying for Jian Chen. Instead, they were worried whether there would be any consequences for Yun Xin.

The fifth prince's face sank as he had already crushed the God Tier heavenly resource in his hand. Sticky and fragrant juice covered his entire hand.

"I- I- I just-" Yun Xin returned to her senses, and as soon as she thought of her reply, she paled.

Although her mind had been temporarily lost just then, she completely remembered what she just said. She thought about it herself and realised that she was just referring to 'thinking' about the days she had spent with Jian Chen's group.

However, when the fifth prince heard Yun Xin's answer, the meaning naturally changed completely.

She wanted to explain, but she understood that whatever she said might just be taken as an attempt to cover it up.

"Let's go." The fifth prince did not delve on the matter. He called his people and set off once again. However, he secretly said to a few people behind him, "Bai Qi, Bai He, go with Hei Ya to find that person called Jian Chen. Execute anyone who's with him, including Jian Chen himself. Find a time to leave secretly, I don't want Xin'er to know about this."

Bai Qi and Bai He were the two most powerful people in the fifth prince's group apart from mister Shu.

The fifth prince directly sent the siblings to deal with Jian Chen's group. Clearly, he could tell that they were extraordinary as well.

"Hehe, Hei Ya just happens to have seen that kid in the past. No matter how far away they are, as long as Hei Ya has seen them, he can find them. Your highness, don't worry. I guarantee you that we will complete this perfectly," Bai Qi responded secretly.

Chapter 2053: A Grand Exalt's Formations

In the blink of an eye, Jian Chen's group had already stayed in the Neptunean Mountains for a month.

During this month, everything in the mountains was peaceful. It was like a pure land within the Neptunean Divine Palace, where all the bloodshed in there failed to reach the mountains.

In an obscure cave covered with formations, Jian Chen, Chanlong, Kai Ya, and Xiao Zheng currently cultivated in seclusion as they ignored the outside world.

After a month of cultivation, Jian Chen had already consumed over half of the Godking level monster cores and the energy crystals from space beasts. He had already refined all the pure and violent energy in them, transforming it into surging Chaotic Force.

Jian Chen's chaotic neidan had reached the peak of the eleventh layer. He was just about to break through.

It was also at this time that Jian Chen's statue-like body suddenly quivered. At that moment, his chaotic neidan had exploded loudly as terrifying Chaotic Force charged through his body rapidly like a loose, wild horse.

At this moment, he finally broke through from the eleventh layer and was consolidating the twelfth.

Jian Chen was already well-versed with the breakthroughs of the Chaotic Body. He endured the intense agony that felt like a million ants gnawing at his bones as he devoted himself to condensing a new chaotic neidan.

At the same time, Kai Ya sat in another region in the cave. The Laws of Creation, Destruction, and Fire formed three different lights as they enveloped her. Every single light fused with the surroundings, calling at the supreme laws of the world as they seemed to resonate.

If other Godkings were present to see the power of laws around Kai Ya right now, they would definitely be extremely shocked, as the power of laws was extremely dense and pure. It was possible to tell from this alone that Kai Ya's grasp and usage of the laws had reached a level of mastery.

If all the Godkings in the Saints' World only possessed a surface level grasp over the laws of the world, then Kai Ya had truly grasped their essence.

This was also why Kai Ya was basically invincible among her level of cultivation without any particular cultivation method or battle skill through her grasp over laws alone.

Kai Ya's understanding and comprehension of laws basically increased evidently every single day during the month of seclusion.

Moreover, it was not just a single law. The Laws of Creation, Destruction, and Fire advanced at the same time, where none of them fell behind.

As Kai Ya's comprehension of the laws of the world constantly deepened, she suddenly had an extremely strange thought. She always felt like her soul was a fusion of the three laws because she felt a great sense of familiarity towards the three laws. However, there seemed to be an invisible, mysterious power that blocked her connection with the three laws.

Whenever she comprehended the laws, the mysterious power would seem to weaken by a sliver, allowing her grasp over the laws to deepen and rapidly advance towards the level of Godkings.

Both Jian Chen and Kai Ya benefited from the month of cultivation. However, Xiao Zheng, who cultivated as well, failed to benefit.

Compared to Jian Chen and Kai Ya, Xiao Zheng's talent was rather ordinary. It had taken him close to a hundred thousand years to become an early Godking, so a month of cultivation naturally had no effect on him.

As for master Chanlong, he had already looked through everything the Infinite Prime on the seventh floor had left behind on formations. Even though the information he left behind was tremendous, Chanlong was a prodigy in formations as well. Not only did Chanlong get through all of it in a short month, but he had even completely understood and grasped it as well.

An early Godking had used a short month to grasp all the secrets an Infinite Prime formations master had left behind. If this matter made it out, it would be enough to cause a great uproar.

"Although this Infinite Prime is a formations master and his mastery over formations had reached an extremely profound level, his understanding of formations remains at a surface level in my eyes. Aside from the various tools required and personal cultivation, you also need to secretly use the power of the Laws of Formations in order to cast a truly powerful formation that's difficult to destroy."

"Moreover, from my deductions, I believe that there's completely no need to use the power of your cultivation or any formation banners to cast down formations at a high level. Only the power of the Laws of Formations is needed, and they can be created one after another with a single thought. Not only is a formation like that completely natural, but it also secretly contains the might of the world, making it truly perfect. There are no crucial points or weak points at all."

“It’s just that my comprehension of the Way of Formations still hasn’t reached that level, so I can’t cast perfect formations.”

Master Chanlong thought to himself. He viciously picked out many areas that dissatisfied him from the legacy the Infinite Prime formations master left behind.

At this moment, master Chanlong’s eyes lit up. He looked at the Neptunean Mountains as he thought, “According to Xiao Zheng, the formations at the core of these mountains were personally cast down by a Grand Exalt. A Grand Exalt’s mastery over the Ways of Formations is definitely far greater than mine. I wonder if I can observe these formations. If I can just comprehend a sliver of it, it’ll be a huge fortune for me.” Master Chanlong did exactly what he thought. Immediately, he expanded the senses of his soul, sending it all into the Neptunean Mountains.

It was unexpectedly successful. The senses of his soul that were not particularly powerful actually penetrated the Neptunean Mountains easily.

Master Chanlong could clearly sense an outline within the rocks of the Neptunean Mountains that concealed the inscriptions of a tremendous formation. The inscriptions were extremely packed, stretching out like a spider’s web. Every single part of it contained the supreme mysteries of the world.

“It truly is worthy of being a formation personally cast down by a Grand Exalt. The Way of Formations here is like the boundless universe.” Master Chanlong was immediately alarmed as he felt secretly amazed. Without any hesitation, he continued to penetrate the place with the senses of his soul.

It was quite strange. Even though there was a formation so terrifying that it was basically heaven-defying in the Neptunean Mountains, the holy mountains of the Daoist Sect of Neptunea, the senses of master Chanlong’s soul was like a fish in water. It reached the true core region of the Neptunean Mountains effortlessly, without experiencing any obstructions along the way at all.

Countless inscriptions formed a ball of light in the true core region of the Neptunean Mountains. It was only the size of a head, giving off a mysterious presence. The ball of light seemed like a miniature universe. The ball of light flickered, constantly invoking the laws of the world and affecting the region where the Neptunean Mountains stood, creating its own order.

Master Chanlong felt lost when he saw the ball of light. Through it, he seemed to see another world, a world that only belonged to the Way of Formations.

Aside from that, he could feel a strange sense of familiarity from the ball of light. It was an indescribable feeling of nostalgia.

Chapter 2054: Two Grand Exalts

“That’s strange. Why do I feel a sense of familiarity? I feel like I know this formation, but I clearly haven’t seen it before. I’ve never come across such a great formation in my entire life,” master Chanlong was stumped.

However, at this moment, master Chanlong’s sense of the soul suddenly lost control and rapidly approached the ball of light.

It was as if the ball of light suddenly emitted a terrifying suction, drawing in master Chanlong's senses of the soul. Even when he resisted with his full strength, it was useless.

Master Chanlong's face suddenly changed. Immediately, he wanted to sever this portion of his senses, but as soon as he considered it and before he could actually do it, the suction from the ball of light had already established a connection with the senses of the soul. It locked onto master Chanlong's soul, and in the end, under his terrified gaze, his soul left his body and was sucked up by the ball of light.

This had all happened just too quickly. Master Chanlong could not even think much of it, and his soul had already arrived inside the ball of light.

However, to master Chanlong's surprise, not only did the ball of light pose no threat to his soul, but he even felt a warm presence instead. It calmed down the unease he felt and allowed him to settle down gradually.

Master Chanlong did not observe the core of the formation. All his attention was concentrated ahead right now.

A thumb-sized speck of light hovered there, shining with rainbow colors. It was enchanting.

The rainbow light seemed to form an obscure connection with Chanlong's soul, causing him to lock onto the speck of light through this vague connection as soon as he entered the core of the formation. His soul actually lost control and began to approach the speck of light.

This was not a result of master Chanlong being careless. Instead, it was completely instinctual, originating from the depths of his soul.

In the end, master Chanlong's soul fused with the rainbow light, and his soul suddenly quivered. At that moment, he felt like thunder had exploded in his head, completely stunning him on the spot. An extremely blurry image appeared in his head.

The background of this image was the vast outer space. Two figures surrounded by the light of laws stood there. They both gave off terrifying, boundless presences, causing the entire universe to tremble. All the stars lost their color, seemingly submitting themselves to the two people. Even the supreme laws of the universe were affected, falling into abnormal disarray.

The two figures were so powerful that they were enough to make people shiver in infinite fear. They stood at the apex of the universe and were existences just like the laws of the world. They were paramount and controlled the laws of the world, where they could interfere with the process of the universe with a single thought, setting down their own order.

They basked in the light of laws, which obscured their presences. A disc of laws revolved above the head of one of them, completely filling up outer space and invoking the mysteries of the world. With a single thought, it could turn into a supreme formation that could destroy the universe, annihilate space, and change the trajectories of the laws of the world.

The other person had six images of samsara behind him. Each image was boundless such that they seemed to form six major worlds, and each world possessed a different kind of samsaric power.

With the six images together, they gave off terrifying, boundless might like a supreme god that could suppress the laws of an entire world.

The image suddenly halted before shattering in the next moment. Even though it had only appeared for a split second, Chanlong felt like he had completely submerged into it. The influence on him was so great that he struggled to calm down even after a long time.

“Grand Exalts! The two figures were definitely Grand Exalts! One of them must have been the senior who cast down the formation in the Neptunean Mountains, while the other Grand Exalt must have been the Samsaric Immortal Exalt of the Immortals’ World.” Master Chanlong’s soul shook violently as he was extremely shocked.

“What is this rainbow light?” Master Chanlong directed his attention to the speck of rainbow light. Now that the speck had fused into his soul, he knew nothing about it apart from the fact that it did not threaten him at all.

However, his soul was unable to peer into the light and see its secrets. The rainbow light obstructed it.

Suddenly, master Chanlong’s soul shuddered once again. He felt great surprise and joy. He discovered that his soul was actually able to fuse into the core of the formation and seemingly become one with it. He could clearly observe the entire formation through the core.

In the next moment, the tremendous formation within the Neptunean Mountains cast down by a Grand Exalt no longer hid any secrets from Chanlong. He was able to inspect all of its details as he wished. He even began to feel like he could control the power of the formation as well as the entire Neptunean Mountains. It was to the point where he possessed supreme control over every inch of the land.

“Are the Neptunean Mountains a mountain or a treasure?” Chanlong was stunned. However, he soon gazed into the distance.

Through the Neptunean Mountains, he discovered three familiar figures fly into the Neptunean Mountains.

“It’s the people with the fifth prince,” Chanlong immediately recognised them.

The three of them were the two siblings and Hei Ya. They had come under the fifth prince’s orders to claim Jian Chen’s life.

Hei Ya was a tall, skinny young man. He seemed ordinary, without any special features. However, his cultivation was powerful, having reached late Godking.

“Bai Qi, Bai He, that kid called Jian Chen should be in the vicinity of the Neptunean Mountains. I can sense that we’re getting closer and closer. We should be almost there,” Hei Ya could not help but slow down as he began to conceal his presence. He silently made his way directly towards where Jian Chen’s group had entered seclusion. He looked backwards and said to the sibling quietly, “Be ready for battle. We have to complete the fifth prince’s mission. We can’t let anything go wrong. Although Jian Chen and the others aren’t powerful, and we can easily kill them with our strength, they still have two supreme Overgods after all. Who knows if they’re hiding some life-saving trump card. If they escape, we won’t be able to explain it to the fifth prince.”

“Don’t worry. With the two of us taking part, they definitely can’t escape. Even if they have life-saving measures, they won’t be able to use them in time unless they’re also late Godkings,” Bai Qi sniggered.

Chapter 2055: Jian Chen Emerges

Although the two siblings and Hei Ya were still extremely far away from where Jian Chen’s group cultivated, Chalong had already fused with the Neptunean Mountains. He could observe everything happening in the surroundings with a single thought. Nothing would be able to escape his senses.

It felt like the entire region where the Neptunean Mountains sat on had become Chalong’s domain while Chalong himself had become the supreme ruler of this domain.

As a result, Chalong completely heard the exchange between the three people.

“The three of them have come to kill us. They have ill intentions,” thought master Chalong. With a thought, his soul had already returned to his body. However, the speck of rainbow light in the core of the formation seemed to have wormed into his soul, following his soul back to his body.

Right now, master Chalong had no need to fuse his soul into the core of the formation. He could vaguely feel a connection with the Neptunean Mountains, allowing him to control the formations in there at any time.

He closely sensed the power he grasped right now, and master Chalong could not help but become confident. He murmured, “I’d be forced into defence if it were me from before, but now...”

With a flash, Chalong left the cave and sat down on a branch of a large tree outside. He leisurely waited for Bai Qi, Bai He, and Hei Ya’s arrival.

When Hei Ya entered the depths of the Neptunean Mountains, he moved slower and slower. A mysterious power that permeated the world there affected him to a certain degree such that his senses of Jian Chen’s group became hazy. His innate ability was extremely affected.

“It truly is worthy of being a formation personally cast down by the Grand Exalt of Ancient Paths for it to affect my innate ability so drastically. I can actually only sense three of the four people. I can’t find the other person at all,” Hei Ya was amazed. He moved slower and slower, as he was afraid that he would suddenly lose track of them.

After almost half a day, Hei Ya stopped at a place with the two siblings. The three of them concealed their presences as they moved about silently, without alarming anyone.

“It’s right here. There’s an obscure cave below. It’s covered up by a formation. Jian Chen and the others are in there,” said Hei Ya as he pointed at an inconspicuous stone wall. Then, he frowned slightly as he looked at Bai He and Bai Qi. He said with a strange expression, “However, my innate talent can only sense three of them. The fourth person completely vanished earlier. I still can’t find him even now.”

“Completely vanished?” Bai He raised an eyebrow as she giggled, “It’s certain that the four of them are in the Neptunean Mountains. Surely the person who has completely vanished hasn’t died after an accident happened during cultivation, right?”

“That’s impossible. Even if he’s dead, I can still find his corpse with my innate talent, and even if the corpse is destroyed, I can sense where he died,” Hei Ya said firmly.

“Whatever. If we can’t find him, then let it be. Let’s kill the other three quickly, and then reunite with the fifth prince.” Bai Qi took a step forwards as he stared at the cave with much interest. Heavy killing intent flickered through his eyes, “The defence of this formation is impressive, but we have to smash through it in a single strike to stop the people inside from escaping. Sister, let’s use our combined attack. Hei Ya, keep watch outside.”

As they said that, the siblings had already begun to store up power to unleash a powerful strike.

“The three of you, we have no grievances with you, so may I ask why you want to kill us?”

Just as the siblings were about to unleash their combined attack, an old voice suddenly rang out from nearby.

The sudden voice stunned Bai Qi, Bai He, and Hei Ya. They immediately looked towards the origins of the voice and saw Chanlong seated leisurely on the tree with a single glance.

Their eyes immediately narrowed as they stared at Chanlong. They were astounded. This was because the tree where Chanlong sat on was close to the cave. He did not try to conceal anything at all, yet the three of them had completely failed to sense his presence. Even when they scanned the region with the senses of their soul, they still found nothing on the tree.

“I- i- i- impossible! How is this possible?” Hei Ya stared at Chanlong in shock as he stammered heavily. His heart churned. To no surprise, the person he was unable to sense with his innate ability was Chanlong.

However, now that Chanlong was right in front of him, he was still unable to lock onto Chanlong with his innate ability.

Chanlong seemed like he had completely fused with the surroundings, truly becoming a part of the world there. He could only be discovered through sight.

“Who are you?” Bai Qi growled as he became rather grim.

“It doesn’t matter who he is. He’s just an early Godking. He probably has some treasure or has grasped some special secret technique, which is why he’s able to avoid our senses,” Bai He said gruffly with a sense of wildness. She opened her hand, and a red orchid hovered in her hand, drifting towards Chanlong.

The orchid expanded in the air, instantly becoming several dozen meters across. Each petal was extremely large, shining with a demonic red light. It engulfed master Chanlong from above, where the petals wrapped around him in an attempt to envelop him completely.

The orchid was originally just a seed. It had fallen from outer space, landing right before Bai He incidentally. Bai He knew that the seed was extraordinary, as it possessed an extremely powerful life force, so she raised it. The seed germinated into a beautiful orchid before gradually developing consciousness. In the end, it grew until its current state from devouring the flesh and blood of cultivators, making it extremely powerful.

Once bound by the orchid, even late Godkings would not necessarily be able to escape.

Across the years, countless Godkings had died to the orchid.

When the orchid dealt with Chanlong, Bai Qi, Bai He, and Hei Ya all paid close attention. Chanlong was weak, only an early Godking, but he was just too abnormal at that moment. He was actually able to evade their senses and render Hei Ya's innate talent useless.

Bang!

At this moment, the orchid that had engulfed Chanlong suddenly exploded without any prior signs. The orchid was instantly reduced to pieces.

The expressions of Bai Qi, Bai He, and Hei Ya all changed drastically as they became filled with shock. The three of them had always been paying close attention, but they failed to detect anything abnormal at all.

"What just happened?" Hei Ya said with a trembling voice. He completely understood the strength of the orchid. It had easily devoured many late Godkings, yet it had just exploded for no apparent reason before him.

Bai Qi and Bai He were confused as well, having no idea what power had slain the orchid.

Only Bai He's face became rather pale. Her face was filled with pain when she saw the orchid die.

Master Chanlong sat on the tree without moving at all as his eyes shone. He was delighted as he struggled to hide his joy.

"Why have you come?" At this moment, a deep voice rang out. Jian Chen passed through the formation and emerged from the cave where he cultivated in seclusion. He glanced at the orchid that had exploded in the air before glaring at Bai Qi, Bai He, and Hei Ya.

Right now, an extremely powerful presence revolved around Jian Chen. He was filled with an explosive power, clearly having reached the twelfth layer of the Chaotic Body successfully.

"The three of them have especially come to kill us," master Chanlong said calmly.

Chapter 2056: Overwhelming Bai Qi

Jian Chen snorted coldly when he heard that. His gaze towards Bai Qi, Bai He, and Hei Ya was as sharp as a sword as he said coldly, "May I ask the three of you how we have offended the fifth prince, where he has sent you to kill us?"

The siblings and Hei Ya did not reply. They all stared at Chanlong with shock, confusion, and some fear.

"How did you deal with my Heavenly Sacred Flower? Why did my Heavenly Sacred Flower explode for no reason?" Bai He asked Chanlong firmly as she felt both surprised and furious.

"This is a power that you won't be able to understand or believe in. It's best if you don't know, or your minds probably won't be able to accept it," master Chanlong said calmly and leisurely. However, in truth, his heart had already begun churning after he killed the orchid, where he was unable to calm down.

“Hmph, you’re just trying to seem mysterious!” Bai Qi snorted coldly as killing intent flickered through his eyes. A huge mace appeared in his hand, and he directly smashed it towards master Chanlong from over a thousand meters away.

The mace became extremely huge the moment it fell, where the handle was several hundred meters long, reaching towards master Chanlong. The head of the mace had become over a hundred meters wide now as energy surged with it. It truly did seem destructive.

Master Chanlong’s expression remained the same. He was connected to the formations of the Neptunean Mountains, so the entire region seemed to become his domain. As for him, he had become the god of this domain, where he could control the lives and deaths of everything in the area.

With this geographical advantage, Chanlong was extremely confident. He felt like even if Primordial realm experts had come, they would not be able to injure him at all.

This was all because of the supreme formation in the Neptunean Mountains.

Just when master Chanlong wanted to move and stop Bai Qi’s mace with the formation, Jian Chen charged into the sky instead. His hair and clothes fluttered as he gave off a surging presence. He directly struck out with his hand at the falling mace.

The powers of the Laws of the Sword shone with resplendent white light on his hand while Chaotic Force permeated the inner layer as it gave off a presence of destruction.

“Hmph, you want to block my strike with your bare hands? What do you think you’re doing?” Bai Qi could not help but scoff slightly when he saw Jian Chen’s actions. He understood the power of his strike extremely well. Let alone Jian Chen, someone who had just become a Godking, even a few regular late Godkings would not dare to take it on directly.

Boom!

In the next moment, the collision happened, producing a violent sound. Terrifying energy burst out in the sky like fireworks as they spread out in all directions.

Such a powerful storm of energy was enough to destroy an entire city in the outside world, but in a place like the Neptunean Mountains, it failed to harm anything around.

Bai Qi’s sneer froze up at that moment, and his face changed rapidly. It was quite a spectacular sight. His eyes became filled with disbelief.

When Jian Chen’s hand struck the mace, Bai Qi only felt a terrifying force pass through his weapon, causing his body to tremble uncontrollably before he was forced to step backwards. His sleeves around the hands that he used to hold the mace turned to dust instantly while the webbing between his thumb and index ripped open.

“No, impossible! You’ve clearly just become a Godking, so how can you be so powerful?” Bai Qi cried out as he stared at Jian Chen like he was looking at a monster.

On the other side, the eyes of Bai He and Hei Ya, who did not take Jian Chen seriously originally, narrowed at that moment. They all stared at Jian Chen as disbelief also filled their faces.

There were many late Godkings around the fifth prince, but out of all of them, Bai Qi was a great expert only second to mister Shu. Despite this being the case, he had actually been forced back by an early Godking just now. This had completely destroyed their preconceived ideas.

“If I wasn’t this powerful, I’d be a corpse below your feet already,” Jian Chen said emotionlessly. As soon as he emerged from seclusion, he met the three of them who had come to kill him. It made him extremely furious as he experienced heavy killing intent.

Bai Qi’s battle prowess was very great. Although it was not as great as those supreme Godkings from the rumors, he was still far more powerful than regular late Godkings. If Jian Chen had not broken through, he would truly be in life-threatening danger when he faced the three of them.

Jian Chen lunged forwards and crossed over a thousand meters, appearing before the shocked Bai Qi like he had teleported. He shot out a strand of Daluo Sword Qi just by raising his hand and began to engage in an intense battle against Bai Qi.

Jian Chen’s strength was so great now that it was truly indescribable and unfathomable. When he fought against Bai Qi bare-handed, every single move and strike from him contained terrifying energy that was as tremendous as the seas. He firmly suppressed Bai Qi, who had a supreme quality saint artifact.

“Argh!” Bai Qi roared out, and his presence erupted. He struck out with his full strength, using various powerful Truth Tier Battle Skills in the battle against Jian Chen. There would be powerful storms of energy every time they clashed, spreading out through the surroundings in a vigorous manner. Although they were unable to damage anything on the Neptunian Mountains, they had already alerted all the people cultivating there long ago.

In the distance, several dozen Godkings had already gathered silently. All of them stood in the air as they observed the battle from very far away.

“That late Godking should be from a major organisation. His origin energy is thick and pure, so his cultivation method must be extraordinary. At the same time, the battle skills he possesses are also some of the best. They are all at the ninth grade of the Truth Tier. His current strength is only slightly worse than those deviants who have made it onto the Godkings’ Throne...”

“The truly amazing part is his opponent. He seems to have only reached Godking recently, yet he possesses such terrifying and astounding battle prowess. It really is unbelievable...”

“It really is hard to imagine just how powerful he was when he was an Overgod now that he can fight late Godkings after having just become a Godking himself...”

...

The Godkings in the surroundings all sighed in amazement as they looked at Jian Chen fearfully.

“This person will definitely become a supreme Godking on the Godkings’ Throne once he becomes a late Godking, and he’ll definitely be able to make it into the top hundred. He might even surpass me and reach the top ten,” said a Godking in black robes. He was surrounded by a group of people. Clearly, his status was very great. He was commenting on Jian Chen.

The Godking seemed to be in his early thirties. He had concealed his presence. He seemed just like an ordinary person, but he also seemed to possess a vague bearing of a supreme lord.

He was like a future king, a formidable ruler of the world that was still growing!

“Young master is correct. This person is indeed very extraordinary, and his future is limitless. Of course, that’s given that he can mature successfully. After all, many powerful deviants have appeared throughout the history of the Saints’ World, but most of them pass away before they can fully mature. At the same time, there aren’t a lot of people who make it to the very apex,” a ruddy old man said from behind the black-robed Godking.

Chapter 2057: Subduing Hei Ya

The deafening sounds constantly rang out like thunder in the sky. It boomed through the entire place, echoing in the mountains.

Jian Chen and Bai Qi’s battle had not lasted for long, but they fought extremely intensely. Bai Qi was immediately forced into a retreat when he faced Jian Chen’s barrage of attacks, showing signs of defeat.

He was already quite injured as slashes covered his body, soaking him in blood.

His sister, Bai He, and Hei Ya stood to one side as they watched on. They were completely astounded. Clearly, they struggled to accept this.

The three of them had come together to kill off Jian Chen’s group under the fifth prince’s orders. Originally, they did not treat their targets with any particular attention at all. In their eyes, killing Jian Chen’s group was a piece of cake and would be completely effortless. They even wanted to use some more powerful attacks to kill them in a single strike so that they could prevent them from escaping through some mysterious method.

However, the sight before them right now seemed completely dramatized. Let alone killing them in a single strike, even victory alone was uncertain.

“Brother, let me help you!” Bai He called out, and she rushed into the battle with a thin sword. She fought against Jian Chen with Bai He.

The siblings were out to kill. They struck out mercilessly, all in an attempt to kill Jian Chen. They seemed like they would not stop until Jian Chen was dead.

Jian Chen was not afraid. His Chaotic Body had already reached the twelfth layer, so his body had experienced a qualitative leap. It had basically evolved, becoming extremely tough. His hand shot into the air as a blur coated in Chaotic Force, striking Bai He’s sword with unimaginable great strength.

Thrum!

Bai He’s sword produced a deep resonance as it trembled from Jian Chen’s powerful strike. A powerful force moved through the sword and struck Bai He, immediately causing her expression to change. She let out a grunt as the bones in her right hand that held the sword seemed to crack.

At the same time, Bai Qi bellowed out. He condensed powerful energy around his mace, causing it to shine brightly as he swung it with a powerful battle skill.

Jian Chen remained extremely composed when he faced the attacks of the siblings together. He used a strand of Daluo Sword Qi to block Bai Qi's battle skill as he stabbed out with his other hand. With a resplendent white glow, the hand headed towards Bai Qi's chest.

Spurt!

Jian Chen's hazy hand was unstoppable. It directly pierced through Bai Qi's armor and emerged from his back.

Blood spurted into the sky from Bai Qi's mouth. He retreated with lightning speed, instantly appearing a thousand meters away. His gaze was filled with shock.

He actually felt extremely confused. When he saw Jian Chen in the Divine Medicinal Garden before, Jian Chen did not seem very powerful at all, yet he was so strong now.

"W- what is this power?" Bai Qi was astounded inside. He obviously knew that Jian Chen's battle prowess came from the destructive power under his control and a body that was comparable to high quality saint artifacts. There was also his sword techniques.

"Brother, let's kill him with our combined attack!" Bai He and Bai Qi reunited with each other. Bai He called out, and the two of them immediately used a secret technique. A blinding light surrounded them as they combined their strength to produce their most powerful attack.

Immediately, energy pulses appeared in the sky. A huge pillar of energy, possessing both the power of their cultivation and laws, swung towards Jian Chen with lightning speed.

Facing the combined attack, Jian Chen felt like his presence had been locked onto, and he could not dodge. However, he did not feel fear because of that. With a single thought, he used the Taiyi Sword Technique, turning into a sword with his tough Chaotic Body.

Boom!

Jian Chen destroyed the siblings' combined attack in a single strike. Jian Chen continued onwards without slowing down at all, turning into a huge sword as he was surrounded with light. He shone like the sun, piercing through where the siblings stood like a hot knife through butter.

The light around the siblings vanished and revealed them again. Right now, both of them were stunned, and their eyes were hollow. Then they fell out of the sky.

A tiny slash, almost invisible to the naked eye, had appeared on their foreheads. It had destroyed their souls.

Even though the siblings could not defeat Jian Chen, he was not necessarily able to stop them if they wanted to flee. However, the two of them had never considered running. They wholeheartedly wanted to kill off Jian Chen's group. After which, they would return to the fifth prince to report their success. As a result, they died on the spot.

Jian Chen removed their Space Rings and stowed them away without even looking at them. He was also covered in blood. However, it did not belong to him but the siblings.

“Argh!” At this moment, a miserable cry rang out in the distance. Hei Ya wanted to flee when he saw how the situation was against him, but he ended up running into an invisible barrier. His head was bleeding now.

Jian Chen looked at Hei Ya, and he showed some doubt. In the next moment, he appeared before Hei Ya and asked emotionlessly, “Why does the fifth prince want us dead?”

“It’s because of Yun Xin...” Seeing how it was impossible to escape anymore, Hei Ya reported everything he knew obediently while his face was covered with blood.

A cold light flickered through Jian Chen’s eyes after he learnt about the background behind this matter. He revealed heavy killing intent. He had never thought that the fifth prince wanted to kill him over the simple fact that Yun Xin missed him a little.

“I’ve already killed Bai Qi and Bai He, so my grievance with the fifth prince has basically been set in stone.” Jian Chen’s gaze at Hei Ya immediately became icy when he thought up to there.

Sensing Jian Chen’s killing intent, Hei Ya shivered from the bottom of his heart. He said, “Don’t kill me, don’t kill me. I swear that if you keep me alive, I’ll be useful to you.”

Chanlong also made his way over and appeared before Jian Chen. He studied Hei Ya and said to Jian Chen, “Jian Chen, this person really does have a unique ability. Keeping him alive might be useful.”

A cold light flickered through Jian Chen’s eyes as he stared at Hei Ya, “Tell me how you can be useful, and give me a reason why I shouldn’t kill you.”

Hei Ya’s despaired eyes immediately lit up. As if he had somehow found a sliver of hope of surviving, he explained in a hurry, “I have an innate ability where I can clearly sense the location of anyone I’ve seen as long as their cultivation doesn’t surpass mine by too much, regardless of how well they’re hidden or if they’ve changed their appearance and presence. As a result, I can find them.” Hei Ya looked at Jian Chen uneasily. He hesitated slightly before continuing, “We were able to find your location with such accuracy this time because I saw the four of you earlier, so you can’t escape from me no matter how well hidden you are.”

Jian Chen’s eyes lit up from that. Hei Ya’s ability was indeed extraordinary. It would be of great use under certain critical situations.

“I’ll give you a chance then. Swear your loyalty to me, and I can spare you. Otherwise, you need to know that I will never leave someone like you alive, especially around the fifth prince who’s targeting me,” said Jian Chen.

Chapter 2058: The Immortal Devouring Orchid

Hei Ya was immediately rendered speechless with that. Then, he became troubled. Submitting himself to Jian Chen was equivalent to betraying the fifth prince.

“Are you unwilling to agree?” Jian Chen said in a deep voice.

“I-” Hei Yu hesitated. After a while, when he thought about how Jian Chen could easily kill Bai Qi and Bai He when they worked together right after he became a Godking, Hei Yu seemed to make up his mind. He said through gritted teeth, “It’s not impossible for me to submit, but you must guarantee that the

fifth prince's entire group won't leave the Neptunean Divine Palace. Otherwise, if the fifth prince learns that I've betrayed him, my clan will be devastated."

"If you can't do that, then I'd rather die to your hand than destroy my clan." Hei Ya had no attachments to the fifth prince, as he was not actually willing to become a guard of the fifth prince. Instead, the fifth prince threatened him with his clan and forced him to join, so he had always resented the fifth prince slightly.

"Alright, I agree," Jian Chen replied without hesitation. Hei Ya's innate ability delighted him. It would be of great use sooner or later. Moreover, he had already fallen out with the fifth prince after killing the two siblings. The fifth prince would never just let the matter be, so there would be a battle between them sooner or later.

Afterwards, Hei Ya immediately swore a blood oath, offering his loyalty to Jian Chen. However, he did reiterate that as long as the fifth prince was still alive, he would not be on Jian Chen's side.

"I need to leave first and find a place to hide. I can't let the fifth prince know that I've betrayed him, or once he leaves here alive, my clan will be done for," Hei Ya said grimly.

"You can stay in the Neptunean Mountains. It's very safe here. No one can threaten you. If the fifth prince comes here, even if he has the protection of experts from the Godkings' Thorne, it's certain death," said master Chanlong.

Hei Ya looked at master Chanlong and could not help but think about Bai He's orchid exploding for no reason. He asked fearfully, "Did you secretly pull some strings when I tried to run away earlier?"

Master Chanlong nodded.

"Alright, I'll stay in the Neptunean Mountains for now then," Hei Ya agreed in an extremely straightforward manner.

Afterwards, Hei Ya found a nearby cave to dwell in. Jian Chen looked at Chanlong, on the other hand, and asked, "It looks like you've had a fortuitous encounter. You've even surprised me when you killed that orchid, and I had no inkling at all when you stopped Hei Ya."

Chanlong exhaled deeply, "I did indeed experience a fortuitous encounter. Jian Chen, if I say I can effortlessly kill Primordial realm experts here, would you believe me?"

Jian Chen's eyes shone brightly as he stared at Chanlong. He was extremely stern as he studied Chanlong carefully. After quite a long while, he said, "I believe you. But just how did you get such great strength all of a sudden?"

"I can control the Grand Exalt's formations in the Neptunean Mountains. The entire region of the Neptunean Mountains is my domain," Chanlong hid nothing from Jian Chen and told him the truth.

Jian Chen's eyes narrowed in shock as he struggled to remain calm.

After a long time, he let out a deep exhale and slowly calmed down. He stared at the severed pieces of the orchid. He now knew that it had been slain by the Grand Exalt's formations under Chanlong's control.

Suddenly, Jian Chen's eyes narrowed. With a flash, he appeared among the broken pieces and discovered a thumb-sized seed within a piece of broken root. It shone with a hazy light. A powerful vitality was hidden in there. It was very extraordinary.

"Hmm? Master, this is an Immortal Devouring Orchid," at this moment, the sword spirits' voices rang out in Jian Chen's head once again. It had been quite a long time since they last communicated with him.

"Immortal Devouring Orchids come from the Immortals' World and only grow in the Immortals' World. This orchid can cultivate through devouring all life forms, allowing it to grow at astonishing speeds. It's a very special organism, and even in the Immortals' World, it's rare. Many large sects and organisations would especially nurture an Immortal Devouring Orchid as a guardian spirit for their organisation," said the sword spirits.

"Although the Saints' World and the Immortals' World stand on different sides, some people still cross the worlds. This Immortal Devouring Orchid came from the Immortals' World. There's no doubt about it. It's just that in the Saints' World, many people don't recognise the Immortal Devouring Orchid, nor do they know of its true value. Otherwise, it would never just be overlooked like this."

"But the Immortal Devouring Orchid is already dead now. There's only a seed left," Jian Chen sighed as he shook his head.

"Master, Immortal Devouring Orchids are grown from seeds like these. The seed in your hand is equivalent to the descendant of the Immortal Devouring Orchid that just died. You need to drop your blood onto the seed so that it gains your presence. This way, once the seed germinates, it will treat you as its only owner. Moreover, master's blood is chaotic blood, so the Immortal Devouring Orchid will evolve with your blood. The orchid is a special organism. It grows extremely quickly. I believe it'll be of great help to master very soon," Qing Suo's crisp and gentle voice rang out in Jian Chen's head, urging him to make the orchid his own by dripping blood on it.

Jian Chen did not drip his blood on the seed immediately. Instead, he asked Chanlong for the seed while holding it. After all, the Immortal Devouring Orchid was slain by Chanlong, so it was his spoils of the battle logically.

"Since you're interested in this seed, just take it," Chanlong did not mind. In reality, he and Jian Chen had gone through thick and thin during the journey from the Cloud Plane. They had gone through countless battles of life and death together and had truly traversed mountains of corpses and seas of blood together. They had already formed a deep friendship.

Jian Chen no longer hesitated, and he dripped a droplet of his chaotic blood onto the seed. The blood fused into it silently.

After absorbing the chaotic blood, the pulse of life in the seed became visibly more vigorous. At the same time, it shone brighter.

"This seed really has evolved. The evolution will probably last for quite a few days," Jian Chen could not help but become secretly eager as he sensed the internal changes with the seed. He knew that the sword spirits were not liars. Since the seed would turn into great help very soon, it really was a joyous surprise for him.

“Jian Chen, what happened here?” At this moment, Kai Ya emerged from the cave and stared at Bai Qi and Bai He’s corpses as well as the blood on Jian Chen. She frowned.

“Kai Ya, you’ve also become a Godking,” Jian Chen stared at Kai Ya and immediately became excited. He told her about everything that had happened earlier.

Kai Ya’s eyes turned cold after learning about everything. She said frigidly, “This fifth prince truly is ignorant. Does he think he can do whatever he wishes with that tiny amount of power he has?”

Jian Chen’s face froze. He stared at Kai Ya blankly as he asked in concern, “Kai Ya, are you fine?” For some reason, the Kai Ya at that moment seemed slightly unfamiliar to Jian Chen. Her frigid voice seemed to possess a hint of condescension as if she looked down on everyone in the world.

There were almost fifty people around the fifth prince, including the god artifact wielding mister Shu. This was quite a powerful force, yet it had been described as a ‘tiny’ power in Kai Ya’s words.

Kai Ya was not like this according to Jian Chen’s understanding. Even if she was powerful enough to completely overwhelm the fifth prince’s people, she would not say something like that.

Chanlong stared at Kai Ya in surprise and doubt as well. Although he had met Kai Ya recently, he knew what kind of person she was and what personality she had. Chanlong also felt that what Kai Ya had just said seemed somewhat foreign.

However, this unfamiliarity also seemed to be extremely familiar as if it was supposed to be. It made Chanlong feel conflicted inside.

Chapter 2059: Cleaning out the Divine Medicinal Garden (One)

“I’m fine,” Kai Ya said calmly as if she did not realise just how out of character what she just said was.

Jian Chen did not continue the conversation. He looked at Kai Ya with surprise and doubt.

“An increase in strength can indeed make people more confident. And with Kai Ya’s battle prowess when she was still an Overgod, her current strength should be no weaker than mine after becoming a Godking. Has her mental state changed because her status is increasing due to her increase in strength?” Jian Chen thought. He could not help but worry for Kai Ya.

He did not know what had happened to Kai Ya, nor did he know whether it was good or bad. If this continued, would Kai Ya become even colder and even more emotionless when she broke through to the Primordial realm?

According to his knowledge, many supreme experts would become emotionless in both the Saints’ World and the Immortals’ World, viewing all life forms as ants.

“Kai Ya, aren’t you progressing too quickly? If this continues, your mental state won’t be able to adjust. You should slow down in the future and focus on your mind,” Jian Chen said sincerely and sternly.

“Yep,” Kai Ya’s heart warmed up when she saw Jian Chen’s care, and she answered gently. Her face became gentle once again, no longer cold and serious like before.

“What should we do next? Directly deal with the fifth prince?” Master Chanlong asked.

“Since you’ve agreed to Hei Ya, we can’t let the fifth prince go,” Kai Ya looked at Jian Chen and said.

Jian Chen lowered his head in thought, “There’s no hurry in dealing with the fifth prince. He still has quite a lot of people around him right now, so killing him will pose some difficulty. However, battles are commonplace in the Neptunean Divine Palace. I think he won’t be able to avoid various battles as long as he moves about in here. And as long as there are battles, his people will definitely become injured or sustain losses. Once his people have suffered heavy casualties, we can deal with him, and it won’t be too late either.”

“Aren’t you afraid that Yun Xin will die?” Kai Ya suddenly asked.

Jian Chen shook his head with a smile, “Our relationship with the Yun family is only as business partners. Although Yun Xin has left with the fifth prince, preventing us from keeping up our end of the deal of protecting her for a month, we’ve allowed the Yun family to obtain a Spiritual Root of Heavenly Ways after all, which is more than enough to make up for everything. As a result, we don’t owe the Yun family anything. Whether the Spiritual Root of Heavenly Ways turns out to be a curse or a blessing for Yun Xin will be up to her.”

“Of course, if she can conscientiously leave the Neptunean Divine Palace sooner, she’ll be much safer. However, we’ve already done everything we can. What Yun Xin chooses now has nothing to do with us.”

“Let’s go to the Divine Medicinal Garden. With our current strength and master Chanlong, harvesting the God Tier heavenly resources there should be much easier.”

The three of them were all confident. Not only had their strengths increased drastically, but they also had the Neptunean Mountains as a path of retreat. Even if they encountered opponents they could not defeat, they could retreat to here.

Afterwards, the three of them hurried back to the Divine Medicinal Garden with Xiao Zheng, leaving the vicinity of the Neptunean Mountains. Jian Chen asked Chanlong secretly, “Master Chanlong, can you control the formations of the Neptunean Divine Palace right now?”

Chanlong tried to sense his connection silently and shook his head, “I can’t. I can only control the Grand Exalt’s formations within the Neptunean Mountains.”

Jian Chen nodded. He understood the situation now.

Very soon, they returned to the Divine Medicinal Garden under Xiao Zheng’s lead. However, just when they were about to enter the garden from the winding path, they were all surprised.

The huge garden was covered with God Tier heavenly resources, which gave off pure pulses of energy. However, it was completely devoid of people at this moment.

“There’s something wrong. This is very abnormal. Unless the Neptunean Divine Palace is about to close up, it’s impossible for the garden to be completely empty. There must have been something that happened recently. I’ll go ask someone about the situation,” Xiao Zheng said sternly before immediately heading out to investigate the matter.

Very soon, Xiao Zheng returned. He said to the trio, “A Chaotic Prime’s legacy appeared several hundred thousand meters away from the Divine Medicinal Garden. The legacy is somewhat different, where it

goes to whoever gains its recognition. As a result, many people have hurried over in hopes of trying their luck. All the people in the garden should be there as well.”

The light in Jian Chen’s eyes flickered from that. He asked Chanlong, Kai Ya, and Xiao Zheng, “Are you interested in a Chaotic Prime’s legacy?”

Chanlong and Kai Ya both shook their heads.

“It doesn’t matter if I’m interested. Without even thinking, there must be a lot of people gathered there. The difficulty of gaining the legacy’s recognition goes without saying, so it is basically the same as wasting time. It’s much better if we do something useful with that time instead,” Xiao Zheng sighed gently. He knew himself very well.

Jian Chen nodded. He no longer paid attention to the Chaotic Prime’s legacy and directly began to break the formations around for the heavenly resources.

The formations protecting the heavenly resources were extremely tough, but no matter how tough a formation was, they needed a source of energy. As a result, master Chanlong cast down his Heaven’s Blockade Formation around a Flower of Ways, which cut off the formation’s power source. As a result, it was impossible for the formation to replenish its energy.

“I’ve already cut off the formation’s energy source. I’ll let you attack it and waste its remaining energy. That way, we can control our power better,” said master Chanlong.

Afterwards, the four of them attacked the formation. Multi-colored pulses of energy surged out as the entire garden turned into a huge storm.

The formation around the Flower of Ways was very powerful. Even with Chanlong’s Heaven’s Blockade Formation that had cut off its power source, it took them an entire day to waste away all of the formation’s energy.

Crack! With a gentle sound, the formation collapsed, and the Flower of Ways protected in there was completely presented before them.

Jian Chen’s breathing became slightly ragged as he looked at the Flower of Ways with a burning desire to possess it. He could clearly remember that fairy Hao Yue had gone as far as to offend the ninth prince of the Blood Sun Empire over a single Flower of Ways, flattening the Yin Mountains of Sevens Despair.

“It’s said that the Flower of Ways can increase the chances of a peak Godking’s breakthrough to Infinite Prime by fifty percent. It’s extremely precious in the Saints’ World,” Xiao Zheng looked at the Flower of Ways eagerly as well. He coveted it deeply.

Jian Chen immediately took out a jade box and stored the Flower of Ways away carefully. He said, “There is still quite a few Flower of Ways in the garden, over a dozen of them. Let’s dig them all up before splitting them.”

No one objected. Master Chanlong continued to cast down the Heaven’s Blockade Formation around a second Flower of Ways.

In the blink of an eye, the four of them had already remained in the Divine Medicinal Garden for half a month, and they had dug up all the Flower of Ways there, leaving none behind. Only the roots remained, which would allow it to bloom once again after quite a long time.

They did not stop. After digging up the Flower of Ways, they continued onto other God Tier heavenly resources.

There were many God Tier heavenly resources in the garden, and there were many varieties as well. They did not recognise most of them, where even the knowledgeable Xiao Zheng had no idea what they were. They were only certain that these heavenly resources were extremely precious, where their value was unimaginable.

All the Flower of Ways that had been dug up were like a drop in an ocean compared to the other God Tier heavenly resources in the garden.

At this moment, a burly, middle-aged man appeared in the Divine Medicinal Garden. He watched Jian Chen carefully stow away a God Tier heavenly resource and was immediately stunned. Afterwards, he subconsciously looked around and discovered that the Flower of Ways had all been dug up, reduced to a few roots. His face immediately changed, and he cried out in shock, "Y- y- you've taken away all the Flower of Ways?"

"Trap him. We can't let this matter be exposed," Jian Chen's face sank, and he charged towards the man without any hesitation, striking out firmly.

Kai Ya attacked at the same time, erupting with shocking battle intent. She used the Laws of Fire and the Laws of Destruction together against the man with Jian Chen.

The man was only a mid Godking. Both Kai Ya and Jian Chen could kill him easily when they were alone, let alone now when they fought together. From a single clash, he was trapped. Then Jian Chen rendered him unconscious with a single punch.

"Do you want me to place down a formation at the entrance to stop people from coming in?" Master Chanlong asked.

Jian Chen turned down his suggestion without any hesitation. He said, "Wouldn't that just make it obvious? We can't do that. We need to get through these formations faster." As he said that, Jian Chen took out the Anatta Tower and threw the man in there.

The man would wake up very soon. Even if he was immobilised, it was impossible to ensure that he would not spread the news through some other method. Jian Chen would only stop worrying after he had thrown him into an isolated world like the Anatta Tower.

Suddenly, Jian Chen's eyes narrowed as he stared at the Anatta Tower. An idea flashed through his eyes. Suddenly, he raised the Anatta Tower into the sky, and under his mental control, it rapidly expanded, becoming ten meters tall. It directly fell on the formation that protected the God Tier heavenly resource.

Immediately, the formation's light flickered rapidly, and its power weakened at an unbelievable rate.

With just that, the formation had lost as much as eighty percent of its power.

Jian Chen's eyes lit up. He carefully controlled the Anatta Tower's power and made it crash down a second time, wanting to break through the formation in a single stroke.

Bang!

In the end, the Anatta Tower directly crushed the formation and struck the ground with force several thousand times greater than a mountain. It caused the entire ground to tremble heavily as if an earthquake had happened.

It went without saying that the God Tier heavenly resource had been crushed to pieces.

However, the four of them did not feel any pain because of it. Instead, they were all overjoyed.

"I never thought that this tower is actually so powerful. It's basically a god artifact that specialises in breaking formations. Fantastic, this is absolutely fantastic. With this tower, we can collect these heavenly resources much faster. We can even clean out the entire garden. However, we have to control the power and only use it once. We can't use it twice on the formations," master Chanlong said excitedly.

Chapter 2060: Cleaning out the Divine Medicinal Garden (Two)

"Chanlong, you handle the Heaven's Blockade Formations, and we'll break through the formations. We have to move as quickly as possible and collect as many God Tier heavenly resources as we can before the other people make it back," Jian Chen said urgently. These heavenly resources were just far too important to him, as they represented a huge amount of wealth. It would play a direct role in his visits to the Skyfire Plane and the Ice Pole Plane.

With the Anatta Tower, they managed to get through the formations several times faster. Formations that took them twenty hours originally now only took four hours.

Their method of getting through the formations was very simple. Every single one of them was first surrounded by a Heaven's Blockade Formation to cut off its energy source. Then, they would crush it with Jian Chen's Anatta Tower once, which would instantly drain seventy to eighty percent of its power. The remaining energy would be wasted away by a barrage of attacks from Jian Chen, Kai Ya, and Xiao Zheng.

"It's a pity that I don't possess complete control over all the power of the Anatta Tower, so I can't use it to smash the formations a second time. Otherwise, we'd be able to get through the formation in a single stroke with just a few motions from the tower. We'll speed up quite a lot again," Jian Chen looked at the damaged tower in his hand that had shrunken to the size of a palm as he felt some pity.

For the next period of time, the four of them were extremely busy with collecting heavenly resources. They completely forgot about time and would be able to collect five heavenly resources at the very least every day. As a result, in just over a month, they had collected over a hundred God Tier heavenly resources of different grades.

During this time, Kai Ya, Chanlong, and Xiao Zheng had to rest several times due to consuming too much origin energy. They used up supreme quality divine crystals to recover.

Only Jian Chen did not seem exhausted over the entire period due to the fact that he cultivated Chaotic Force, which was consumed at an extremely gradual pace.

Only he could vaguely sense that the chaotic neidan in his dantian had shrunken slightly compared to before.

“Sigh, what bad luck. There were so many Godkings, yet they all lost to a mere Overgod, allowing that tiny Overgod to obtain the Chaotic Prime’s legacy.”

“Yeah, it really is difficult to accept. That’s a legacy from a Chaotic Prime. Even if we can’t get it, at least some other Godking would get it. I never thought it would end up with an Overgod.”

“不过那名主神也不会好过，一位混元境强者的传承，可不是这么好拿的，传承之地外面，可是有不少神王留下啊，一点她从传承之地中走出来，那些神王可不会放过她”

“But that Overgod won’t have it easy either. A Chaotic Prime’s legacy isn’t so easy to take. There are quite a few Godkings who have remained outside where the legacy is. As soon as she emerges, they won’t let her go.”

“That doesn’t matter anymore. Our talent is limited after all, nowhere close to those supreme prodigies. It’s far too unlikely for us to obtain the legacy of a Chaotic Prime. It’ll be much better if we stay in the garden and get a Flower of Ways so that we can prepare for the breakthrough to the Primordial realm in the future.”

At this moment, five men and women in similar attires but with varying ages walked in from outside as they conversed with one another. They directly arrived in the garden.

But very soon, the five of them became stunned. They all stared ahead at the same time.

All they saw was a ten-meter-tall tower hovering in the sky. The tower was very damaged, and all nine floors were covered with sword slashes. It had been ruined to the point where it seemed nowhere like its original shape.

However, even though the tower was severely damaged, it still gave off an extremely powerful presence, pressuring the five of them greatly to the point where they found it to be suffocating.

Boom!

Under their gazes, the tower fell down on a formation with the force of a mountain. With a heavy rumble, the energy that supported the formation weakened at an unbelievable speed.

“Oh my god, is there something wrong with my eyes? Just a single smash from the tower has drained eighty percent of the formation’s energy.” The five people were left speechless on the spot when they sensed the energy vanish from the formation. They stared at the tower with burning desire.

“It’s a god artifact for destroying formations. It’s literally made for getting through formations. The formations around the God Tier heavenly resources are basically like nothing before the person who possesses it.”

“All the Flower of Ways are gone, with none left. Were they all taken away by the four of them?”

The five people from the same organisation cried out as surprise and joy filled their faces. They all stared at Jian Chen.

The ten-meter-tall tower had already shrunken to the size of a hand. Currently, it sat in Jian Chen's palm. Jian Chen looked at the five people who had just entered coldly.

Chanlong, Kai Ya, and Xiao Zheng stopped as well. They also looked at the five people as their faces sank slightly.

The group of five was composed of three males and two women. Aside from a female mid Godking, the rest of them were late Godkings.

It was not difficult to kill them all with the strength of Jian Chen's side, but they could not prevent these people from fleeing.

Among the five people, the light in the eyes of an older middle-aged man flickered by an undetectable amount after studying all their cultivation. He immediately clasped his fist at them and said, "We come from the White Cloud sect of the Skyfire Plane. Greetings to you all."

"The Skyfire Plane? You come from the Skyfire Plane?" Jian Chen was immediately surprised from that.

The middle-aged man was surprised as well by Jian Chen's reaction. He smiled, "That's right, we come from the Skyfire Plane. Do you come from the Skyfire Plane as well?"

"I'm not from there, but I do have someone close on the Skyfire Plane," Jian Chen said as the light in his eyes flickered.

The middle-aged man chuckled aloud, "It looks like there is some fate that has brought us together. Fellows, now that the Chaotic Prime's legacy already has an owner, the people who left here will return to the garden very soon. You don't have much time left." With that, the middle-aged man continued, "There's not much time left even with your strength and the formation-destroying treasure, so the amount of heavenly resources you can harvest will be limited. However, we're willing to help you get through the formations, and we only want a Flower of Ways."

"Sure!" After a moment of hesitation, Jian Chen agreed in the end. One reason was because they were from the Skyfire Plane, so he could learn a little about the Daoist Sect of Divine Sound from them. Another reason was that they did not have complete confidence in preventing all five of these people from leaving. As long as one escaped, there would be great trouble.

Afterwards, with the addition of the five Godkings from the White Cloud sect, they got through formations even faster. The four hours had shrunk down to around one hour, so in just half a day, they managed to get through over a dozen formations.

However, due to the addition of outsiders, both Jian Chen and Kai Ya became wary. They held back their strengths, suppressing it to the level of early Godkings.

"What a profound formation. It can actually cut off these formations' contact with the world, preventing them from replenishing their power through the Neptunean Divine Palace," the five Godkings of the White Cloud sect were amazed by master Chanlong's formations. However, when they saw the Anatta Tower, they showed extremely well-hidden desire and greed.
