

Chaotic 2061

Chapter 2061: Movements Exposed

Jian Chen, Kai Ya, Xiao Zheng, and Chanlong did not seem to discover the burning desire in the eyes of the Godkings from the White Cloud sect. They were completely focused on getting through the formations so that they could collect as many God Tier heavenly resources as they could.

During this time, some other people had returned to the Divine Medicinal Garden one after another. However, all of them suffered horrible fates. They were killed off with the teamwork from the Godkings of the White Cloud sect.

Ever since the Godkings from the White Cloud sect had joined them, Jian Chen and Kai Ya could only display strength they should have possessed as early Godkings, diligently wasting away the formation's energy. Naturally, the five Godkings from the White Cloud sect who believed that they were more powerful dealt with the cultivators who came into the garden.

"Elder Ying, I feel like there's something up with Jian Chen and the others," one of the five Godkings, the weakest female, secretly said to a middle-aged man after killing two waves of cultivators.

Elder Ying was the middle-aged man who had initially spoken to Jian Chen. He was the most powerful person out of all the elders from the White Cloud sect. Not a single late Godking elder of the White Cloud sect was his opponent alone, so he naturally became the backbone of the group.

"Elder Xi, what's wrong?" Elder Ying asked.

They communicated secretly, so aside from the two of them, even the three other people from the White Cloud sect could not hear what they were saying.

"Don't you feel that it's too peaceful? They don't fear us at all, and even when we killed the Godkings who entered here before, they did not react in the slightest," elder Xi said as she studied Jian Chen's group secretly.

"Haha, elder Xi, look at how focused they are at getting through the formation. Just that shows that they're definitely not as composed as they seem. Their composure is just an act, a reaction from their nerves. Moreover, the four of them are all early Godkings after all, so how great of a mess do you think they can make?" Elder Ying replied without caring too much. He did not take Jian Chen's group seriously at all.

"But--"

"There are no buts, elder Xi. Do you really lack so much confidence in us? We have four late Godkings and you, a mid Godking. Is that not enough to deal with the people before us," elder Ying cut off elder Xi rather impatiently.

Elder Xi no longer said anything else. She looked at the four of them from time to time. She just felt that something was off, and she suspected that their composure was not an act. It was like her group really was not on their mind.

However, when she reached this conclusion, even she struggled to believe it. She had already used a secret technique of the White Cloud sect to study the four of them, and they were indeed early Godkings. How could four early Godkings pose any threat to them?

Jian Chen also asked about the Daoist Sect of Divine Sound, but to his disappointment, their sects were just too far apart. As such, their knowledge was extremely limited. Apart from learning that the Daoist Sect of Divine Sound was located in the central region of the Skyfire Plane, he learnt nothing new.

As the formations were destroyed one after another, they collected more and more God Tier heavenly resources. Whenever they collected an extra heavenly resource, the hearts of the five Godkings would beat faster. Their deep excitement and burning desire were buried in their hearts.

It was as if Jian Chen was not the person collecting the heavenly resources but they themselves.

“There are another three Godkings. One of them is a late Godking.” At this moment, elder Ying’s face sank slightly. He left Kai Ya, Jian Chen, and so on to break through the formations as they directly advanced to stop the people.

They purposefully chose to fight at the only entrance, as they were afraid that Jian Chen and the others would flee while they were busy.

“So you were collecting the heavenly resources in secret here, and you want to silence us by killing us. Hmph, don’t you dare,” the late Godking who fought against the elders of the White Cloud sect understood everything in the garden very soon and bellowed out. He did not stick around any longer, fleeing rapidly by paying a heavy price.

“God dammit, we let him escape,” the elders of the White Cloud sect cursed. Then they slaughtered the two other Godkings mercilessly before returning with pale faces.

“The news will be leaked very soon. Once other people learn that we have a large quantity of God Tier heavenly resources on us, they won’t let us go. A large group of people will hunt us down, so we have to leave immediately,” elder Ying growled as his expression seemed horrible.

Jian Chen’s group understood the severity of the matter. They immediately stopped attacking the formations. Jian Chen put away the Anatta Tower before leaving with the five elders of the White Cloud sect.

Chanlong removed the Heaven’s Blockade Formation as well. Without it, the formation immediately began to replenish the energy it lost after the Anna Tower struck it through the Neptunean Divine Palace.

Several hundred thousand kilometers away from the Divine Medicinal Garden, there was a dwelling. An extremely powerful formation that radiated with powerful pulses of energy completely surrounded it.

Many experts gathered outside the formation, with both Overgods and Godkings. There were even some Gods there.

“Hmph, I refuse to believe that she can take away the Chaotic Prime’s legacy with so many people guarding this place.”

“All she can blame is that her cultivation is too low. She’s only an Overgod, and she has obtained the legacy of a Chaotic Prime. Not only will it fail to benefit her, but she’ll even end up meeting her fate instead.”

A group of Godkings stood outside the formation. They did not move away at all. They discussed with soft voices as they smiled viciously. All of them stared at the interior of the dwelling.

There was a girl who only seemed to be fifteen or sixteen, standing up straight next to a large tree in the outer layer of the crowd. She also stared at the dwelling nervously.

“Sister Zi Yun, you have to come out fine. You can’t let anything happen to you. You can’t come out. Don’t come out,” the girl clutched her hands as she constantly prayed inside. She worried very much as her face paled slightly.

Her cultivation was extremely low. She was still at the Mortal realm, only having become an Earth Saint Master recently. Let alone the Godhood experts gathered here, even the battle shockwaves from some Origin realm experts would be enough to take the life of such a puny existence. It was extremely dangerous for her to be standing here.

Fortunately, there were no battles in the vicinity of the dwelling.

At this moment, a bloodied Godking shot over from the distance with lightning speed. He called out from very far away, “Someone has a treasure that specialises in getting through formations and harvested the heavenly resources in the Divine Medicinal Garden en masse. They’ve cleaned out a quarter of the entire place, and not a single Flower of Ways is left. Immediately stop them if you want heavenly resources. If you waste any more time, they’ll clean the whole place out.”

“What? They’ve cleaned out a quarter of the Divine Medicinal Garden?”

“Are you kidding me? There are over a thousand God Tier heavenly resources in the garden. Doesn’t that mean they’ve taken over two hundred heavenly resources?”

“Heavens, only a few of the heavenly resources in there are taken away each time the Neptunean Divine Palace is opened. Now a quarter of the entire place has been emptied!”

There was a huge chain reaction. All the Godkings around the dwelling gasped when they heard the news, as they were shocked. There were some people who did not believe it as well, bearing suspicion towards that. They believed that this Godking held other intentions, where he was probably connected to the Overgod who had gained the legacy. He wanted to draw them all away using a diversion.

Chapter 2062: Identity Exposed

“I have been telling the truth, with no lies at all. If you don’t believe me, I can swear on the world, where if I am telling any lies, I am willing for my soul to be destroyed,” the late Godking swore an oath firmly, as he was worried. He said frantically, “Everyone, please go to the Divine Medicinal Garden. We can’t waste any time at all. If they manage to escape far away, it’ll be almost impossible for us to find them. Are you willing to leave with nothing while others have taken away a quarter of all the heavenly resources in the Divine Medicinal Garden happily?”

After the late Godking swore an oath, there were indeed quite a few people who believed his words. A Godking immediately called out from among the crowd around the formation, "It doesn't matter whether he's lying or not. It's not like the Divine Medicinal Garden is far away. It wouldn't hurt to check, and if it's true, we can't let them leave."

"Let's go. Come with me brothers to check on the Divine Medicinal Garden..."

Many Godkings departed from the place, rushing off to the garden in small groups.

Naturally, they moved extremely quickly as Godkings, crossing several hundred thousand kilometers very soon. They appeared in the garden.

However, when they saw the landscape of the garden, all of their faces changed. Indeed, a quarter of all the heavenly resources there had been taken away.

Immediately, some people broadcasted this sight through various means and drew over another large group of Godkings. For a moment, the news that someone had emptied out a quarter of the entire garden surpassed the news of the Chaotic Prime's dwelling, causing all the Godkings outside the dwelling to hurry off to the garden.

"God dammit! Which bastard did this? How did he clean out so many heavenly resources in such a short amount of time? We three brothers stayed here for so long, yet we failed to get through any of the formations even after using all we had. And they've dug up a quarter of everything..."

"Before the Chaotic Prime's dwelling appeared, not a single heavenly resource had been taken away. Now that we're back here, so many of them are actually gone. It's truly unbelievable..."

"You know what this means? This means that they got through over a hundred formations in just under a month's time. Fortunately, we got here early, or the entire place probably would have been emptied out, and we would have known nothing..."

"We can't let those people leave with so many heavenly resources. These heavenly resources should belong to everyone. Everyone is entitled to a portion..."

"That's right. We can't let them leave the Neptunean Divine Palace..."

An uproar immediately exploded in the garden. Many Godkings spoke through gritted teeth, especially when they glanced at how a quarter of the place was empty. All of them burned with envy.

"Calm down, everyone. Allow me to use a secret technique and turn back time so that we can see just how so many heavenly resources were taken away," a ruddy old man in white robes stood forwards from the crowd at a steady pace. Under the eager gazes of all the Godkings, he directly arrived in the centre of the garden and used a secret technique to turn back time there.

Clearly, this was an extremely profound ability. After it was used, the space there immediately became hazy as disorderly time and space clashed together, creating an intense conflict, reducing the image there to chaos.

However, when the chaotic space cleared up once again, it immediately revealed Jian Chen's group working with the five Godkings from the White Cloud sect. The nine of them were presented clearly before all the Godkings in the garden through the secret technique.

“It is actually him. I’ve seen him before. His name is Jian Chen. He defeated Mo Cheng who ranked first on the Overgods’ Plaque when he was an Overgod as well. I never thought he would have become a Godking now...”

“That is indeed Jian Chen. I personally witnessed his battle against Mo Cheng. There were many Godkings that died to his hands. He’s extremely powerful...”

...

Many Godkings recognised Jian Chen with a single glance, and they all cried out. They were just too surprised by this. They had never thought that the person who had taken away all these heavenly resources was Jian Chen.

“Everybody, look. The treasure for destroying formations is in Jian Chen’s hands. What kind of treasure is that? The formations around the heavenly resources are so powerful, yet all their energy were basically wasted away after the tower crushed down.”

The Anatta Tower in Jian Chen’s hand had become the centre of attention. However, the image from the secret technique was unable to conjure the Anatta Tower even though it presented the nine people clearly. As a result, everyone could only see a hazy golden light, unable to see the true appearance of the Anatta Tower.

At this moment, the image shattered like a piece of glass while the old man who had used the secret technique paled and tottered heavily. He stood there trembling as he said weakly, “This treasure is extraordinary. When I used my secret technique, not only did I manage to bring back their presences clearly, but I even brought back a sliver of the treasure’s presence. However, that presence interfered with the secret technique, causing me to suffer an intense backlash.” Before he could finish speaking, the old man vomited a mouthful of blood. He was clearly very injured.

“What is this treasure? It’s so powerful!” All the Godkings were astounded. Strange thoughts crossed their heads, but soon afterwards, they all dispersed. They said that they were going to look for Jian Chen as they left the garden in a hurry. Many of them used secret techniques in an attempt to track the down Jian Chen through various methods.

At the same time, a woman who only seemed to be in her twenties was hidden deep in the Chaotic Prime’s dwelling several hundreds of thousand kilometers away from the garden. She peered through the formation with her beautiful eyes as she carefully observed the outside.

She was the Overgod all the Godkings mentioned, the one who had obtained the Chaotic Prime’s legacy.

In reality, she had indeed obtained the entire legacy of the Chaotic Prime during the days in the dwelling. The cultivation method, battle skills, comprehension of the laws of the world, and the different knowledge from the Chaotic Prime had already entered her mind many days ago, firmly embedded in the depths of her soul. At the same time, she had broken through with her cultivation, becoming a Godking.

However, there were just far too many Godkings waiting outside the formation, so the woman did not dare to leave after obtaining the Chaotic Prime’s legacy.

“Xiao Man is still outside. I hope that nothing happens to her,” the woman worried as she observed the outside nervously. Even though most of the Godkings had left due to what happened in the Divine Medicinal Garden, there were still over thirty Godkings guarding the place, including late Godkings.

Even though the woman had obtained a Chaotic Prime’s legacy, she still had no confidence in escaping from these Godkings.

After all, she had obtained the legacy far too recently. Coupled with the fact that she was always worried about Xiao Man outside, she was unable to calm down and comprehend the details of the legacy.

“It’s a pity that I’ve used up all the life-saving items that master and master’s wife left behind during the days in the Neptunean Divine Palace.”

Suddenly, the woman’s face changed. She silently sensed the surroundings, and her heart immediately sank, “Oh no. I’ve taken away the legacy and also drained all the energy in this dwelling. The formation outside is weakening rapidly. It’ll be useless before long.”

After hesitating for a short while, the woman gritted her teeth and became determined. Without hiding anymore, she charged out of the dwelling as quickly as she could.

Chapter 2063: Greedy Human Nature

“She has come out! She has come out!”

“Miss, hold on!”

The eyes of all the people outside the formation immediately lit up. At basically the same time, they all shot off towards the woman, radiating with the tremendous presence of Godkings. When the several dozen presences merged together in the air, even origin energy seemed to freeze up.

Moreover, under their explicit control, all of their presences crushed towards the woman as if they wanted to use the pressure from the presences to cut off the woman’s ability to escape.

The lady was extremely grim. She did not seem to be affected much at all as she continued to charge outwards as quickly as she could.

“Godking, she has actually become a Godking. No wonder she can endure our presences so easily.”

“It is a Chaotic Prime’s legacy after all. It has only been so long, and it has already made her into a Godking.”

The Godkings struggled to remain calm as they all cried out. Afterwards, their burning desires and greed became more intense.

A late Godking caught up to the lady very soon. She was naturally not a late Godking’s opponent, as she had only become a Godking recently, where she lost the upper hand right from the first clash. Instead, she borrowed the force of the attack and sped up some more. She immediately arrived before Xiao Man, who had been waiting outside. She grabbed Xiao Man’s hand and fled into the distance hurriedly.

“Sister Zi Yun, are you fine?” Xiao Man looked at the blood oozing from the corner of Zi Yun’s lips as she had become completely pale. She felt extremely worried and nervous.

Zi Yun gritted her teeth and said nothing. She used a secret technique as she devoted herself to unleashing her full strength.

“Stop wasting your efforts. You can’t escape.” Over thirty Godkings tailed Zi Yun. The late Godkings, in particular, moved much faster than Zi Yun, so the distance between them was shrinking rapidly.

At the same time, Jian Chen’s group fled with the five Godkings of the White Cloud sect, only stopping a million kilometers away from the Divine Medicinal Garden.

“It should be safe here. We’re already so far away from the Divine Medicinal Garden. Even if people pass us right now, they won’t be able to connect us to what happened in the Divine Medicinal Garden,” said elder Ying. He showed much excitement.

It was not just him. The four other elders were the same as they all stared at Jian Chen.

Jian Chen, on the other hand, directly took out a Flower of Ways and said to the people from the White Cloud sect, “Thank you for your assistance in breaking through the formations. If it were not for your help, we would have never harvested as many heavenly resources. According to our agreement, this Flower of Ways belongs to you.”

The five of them looked at one another before gazing at Jian Chen deeply. One of the elders said rather strangely, “Brother, we’ve helped you get through so many formations, and we’ve killed quite a lot of people who came into the garden. As such, without any exaggeration, it would have been impossible for you to collect so many God Tier heavenly resources without us. We’ve contributed so much, yet you’re only giving us a single Flower of Ways. You can’t treat us five elders of the White Cloud sect like beggars.”

Jian Chen thought it over seriously and said, “That’s right. Your addition has indeed allowed us to collect over twenty extra God Tier heavenly resources. Although we did have an agreement earlier, giving you a single Flower of Ways is indeed too selfish of us. How about this? We’ll split the heavenly resources we collected after you joined us half and half. I can give you three Flower of Ways and over a dozen more God Tier heavenly resources.”

The faces of the five elders did not change. They all shook their head gently.

“Is that still not enough? How about I give you another three heavenly resources?” Jian Chen said.

“It’s too little, far too little. It’s completely different from what we were expecting,” said elder Ying.

“Then how much do you want?” Jian Chen’s face sank as he showed displeasure. However, he secretly sneered inside. He already knew what the Godkings of the White Cloud sect wanted.

“What we want is all the heavenly resources on you. We’ve counted the number of heavenly resources dug up several times, and it comes out to a total of two hundred and sixty-six. We want all two hundred and sixty-six,” elder Ying snickered as he stared at Jian Chen with ill intent. His excitement inside, on the other hand, was about to burst out.

Aside from those organisations that stood at the apex of the Saints' World with great heritage, it was impossible for anyone else to possess two hundred and sixty-six God Tier heavenly resources across the entire Saints' World. If so many of these heavenly resources had appeared in the Saints' World, it would be enough to cause a disturbance and even make Primordial realm experts green with envy.

"It's not just the two hundred and sixty-six heavenly resources on you. That tower you possess also interests us," added another elder as his eyes shone.

"You are going too far," Jian Chen growled.

The elders looked at one another and smiled, "We're not going too far. We're not going too far at all. The only one you can blame is yourself because you're too weak, and you don't have the strength to protect your wealth."

Kai Ya stood forwards. Her eyes were cold as she said emotionlessly, "I feel like even if we give you everything, you still won't let us go."

"It looks like you're not stupid. But there's nothing we can do about that either. Let alone the five of us, even if we involve the entire White Cloud sect, we won't be able to keep over two hundred God Tier heavenly resources. As a result, to keep this a secret, we can only silence you forever," the female late Godking said sternly as killing intent shone in her eyes. She stabbed out at Kai Ya with her sword without any hesitation, moving extremely quickly. It reached Kai Ya's forehead in a single instance. Clearly, she wanted to kill Kai Ya with a single stroke.

When the woman moved, the four other Godkings aside from elder Ying all charged at Jian Chen, Chanlong, and Xiao Zheng. They surged with killing intent.

Elder Ying, on the other hand, stood there with his hands crossed as if victory was already determined.

Kai Ya's face did not change. Suddenly, she raised her right hand. It seemed to move very slowly, but it was extraordinarily quick in reality. A destructive presence emanated from her index finger as she directly pointed it at the sword.

Her movement was extremely quick and seemed to follow a trajectory that abided with the universe, possessing the profound truths of the world. It completely exceeded the late Godking's sword, arriving first despite moving second. It landed on the weakest point of the sword and produced a screeching of metal.

Immediately, the great power and laws on the sword completely leaked away like a popped balloon from Kai Ya's simple-looking gesture. It vanished completely, returning to the surroundings.

It was as if Kai Ya's gesture possessed the supreme power of the universe, directly breaking down the power on the sword from both cultivation and laws.

The late Godking was shocked. She stared at Kai Ya in disbelief as her eyes narrowed significantly. A black light condensed from the power of the Laws of Destruction was clearly reflected in her pupils. It moved through the air and expanded in her eyes, directly moving towards her forehead.

Chapter 2064: Four Dead, One Escaped

Spurt!

A bloody, finger-sized hole immediately appeared in the forehead of the late Godking. Her entire head had been pierced, causing red and white matter to spurt out from the back of her head. Her soul had been destroyed directly.

Her eyes bulged in disbelief. She refused to believe that a mere early Godking could be so terrifying. As a result, even though she was already dead, she could not rest.

At the same time, Jian Chen clashed with a male late Godking from the White Cloud sect. Chaotic Force filled his entire body as he became filled with explosive power. It was extremely terrifying. Moreover, the Laws of the Sword revolved around him, and with a single thought, a strand of sword Qi instantly condensed on his hand. It shone with dazzling light as he slashed out with Chaotic Force, directly clashing with the late Godking head on.

“Not only are you, a mere early Godking, not taking me seriously, but you even overestimate yourself and want to take me on in an open confrontation. You sure are bold, so let me show you the power of a late Godking so that you can personally understand just how great the effects of differing cultivation levels will cause,” sneered the man from the White Cloud sect. He looked at Jian Chen disdainfully as the sword in his hand pulsed with energy. He stabbed at Jian Chen with the power of laws from late Godking.

Jian Chen was only an early Godking right now, so in terms of laws, there was still a great difference compared to a late Godking. Even the fact that the Laws of the Sword possessed the greatest offensive power was unable to make up for this difference.

As a result, when they clashed, Jian Chen did not gain the upper hand in terms of laws. However, his Chaotic Force was extraordinary, possessing unimaginable power. The Chaotic Force in the sword Qi radiated with a violent, destructive presence as it cut through the laws of the late Godking like a hot knife through butter with the Laws of the Sword, directly dispersing it.

“Impossible. This is impossible. You’re clearly just an early Godking, so how did you block my attack?” The man’s eyes narrowed as disbelief filled his face. He was not just shocked about how Jian Chen had blocked his strike, but also due to the power in the strike.

The power of the strike left him completely astounded even though he was a late Godking. It actually numbed his entire right hand, causing him to lose all sensation in it. His hand that held the sword had ripped open, causing blood to pour out while the bones in his fingers had all shattered.

“Y- you were hiding your strength in the Divine Medicinal Garden? B- but you’re clearly just an early Godking, so how can you possess such great strength? A- are you a divine beast of great strength?” The man cried out as his face changed rapidly.

Jian Chen said nothing. His eyes also flickered with cold killing intent, and with a thought, a strand of Daluo Sword Qi instantly condensed. It shot through the man’s forehead with a flash of golden light.

Even though the man was a late Godking, he was not as powerful as Bai Qi or Bai He. Jian Chen could even kill the siblings when they worked together, so killing this person naturally did not take too much effort.

Their battle only lasted for a short moment. Kai Ya and Jian Chen both slaughtered their opponents despite possessing weaker cultivation. However, Chanlong and Xiao Zheng's situation was not as great.

Chanlong was stuck receiving strikes from his late Godking opponent. He was a formations master, so he possessed great mastery over the Way of Formations. If he could use his formations, he could kill late Godkings effortlessly, but without them, even mid Godkings would cause great trouble for him with his personal battle prowess alone.

The late Godking who fought with Chanlong naturally knew that the latter was skilled with formations, so he launched a barrage of attacks right from the start, giving Chanlong no time to cast down formations. As a result, Chanlong vomited blood wildly as he was heavily injured. If it were not for the azure disc that protected him, he probably would have suffered even worse injuries.

Xiao Zheng completely lost the upper hand as well, forced into a retreat by the mid Godking. However, fortunately, Xiao Zheng was not a weaker early Godking even though his battle prowess could not be compared to those supreme prodigies. Coupled with how he had already reached the peak of early Godking and was only a step away from mid Godking, he was able to endure the swift attacks of the mid Godking for a while.

Elder Ying watched the battle in the distance with his arms crossed as he smiled faintly. He began to think about how to split all the heavenly resources after he obtained them all, but his face changed very soon. He stared at the two late Godkings slain by Jian Chen and Kai Ya as his heart churned.

"Oh no, we're in trouble. They're wolves in sheep's clothing. Elder Xi, run away quickly. Go!" Elder Ying reacted extremely quickly and immediately called out to elder Xi. He did not waste any time himself either, turning around and fleeing into the distance without any concern for the other people on his side.

The two late Godkings Jian Chen and Kai Ya killed basically possessed the same strength as him. They had been killed off easily, so the other party could naturally kill off elder Ying effortlessly as well. Elder Ying understood this extremely well, so he chose to flee without any hesitation after seeing the two Godkings die.

"Linear Lightning Release!"

Jian Chen's eyes locked onto elder Ying, and he pursued him as a bolt of lightning, stopping him from fleeing. Kai Ya, on the other hand, went to assist Chanlong, blocking the late Godking for him.

Elder Ying's face became extraordinarily vicious when he faced Jian Chen who was clearly an early Godking but possessed frightening battle prowess. He yelled at elder Xi, who fled in the other direction, "Elder Xi, don't forget to leak the fact that they have two hundred and sixty-six God Tier heavenly resources! We can't let them have it easy, nor can we let them keep so many God Tier heavenly resources effortlessly!" As he said that, elder Ying did not fight with Jian Chen. He used a secret technique to continue fleeing, but a strand of sword Qi punched through his chest.

Elder Ying's words were clearly an attempt to make Jian Chen realise that elder Xi was running away as well so that he could distract him and create an opportunity to escape. However, he failed in the end.

Elder Xi clearly understood elder Ying's intentions. Her face immediately changed, and she cursed inside before activating a simple talisman in her Space Ring without any hesitation at all. It formed a barrier of energy around her as she used a secret technique to speed up by burning her essence blood.

Naturally, Jian Chen did not want to let elder Xi escape, as she would then leak the fact that they possessed so many God Tier heavenly resources. With a thought, he immediately shot a strand of Profound Sword Qi towards elder Xi.

Boom!

The Profound Sword Qi struck the protective barrier around elder Xi, causing it to rumble loudly. The barrier shook violently, but it did not shatter in the end. Elder Xi shot off with terrifying speed after burning her essence blood, instantly vanishing into the horizon.

"That talisman is impressive to be able to block a strand of my Profound Sword Qi. It should come from a Primordial realm expert," Jian Chen was shocked as his face sank slightly. Then he killed off elder Ying with his full strength.

The battle ended very quickly. Aside from elder Xi, who managed to escape, all the other people from the White Cloud sect had been slain. Out of Jian Chen's group, only Chanlong suffered some heavier injuries, while Xiao Zhen was only slightly wounded.

"We can't keep the fact that we've obtained so many God Tier heavenly resources a secret anymore. It looks like it'll be troublesome in the future," said master Chanlong, but he showed no fear at all.

Chapter 2065: The Neptunean Moon (One)

Jian Chen smiled indifferently in response to Chanlong's words and said, "We're different from before. Kai Ya and I have both become Godkings, so there's basically no people left that can threaten us in the Neptunean Divine Palace. Even if that fact gets leaked, I believe we can still keep all the heavenly resources with our strength. Even if it does get leaked, not everyone will believe what they say."

Jian Chen seemed to think of something when he reached here. He gradually became stern and said, "What we should truly be wary of is the people outside the Neptunean Divine Palace. Not only are Infinite Primes from many planes gathered out there, but there are also terrifying existences that are Chaotic Primes. We're as puny as ants before people like that."

"Jian Chen's right. Even if they leak this information, not everyone will believe it, and even those people who do won't be certain that we possess the God Tier heavenly resources without checking our Space Rings. With brother Jian Chen's strength, it'll just be wishful thinking for them to want to check your Space Ring," said Xiao Zheng as he looked at Jian Chen and Kai in admiration.

Jian Chen nodded slightly. He agreed very much with Xiao Zheng's words.

Afterwards, they collected the Space Rings of the four Godkings from the White Cloud sect. Looking at the corpses on the group, Jian Chen pondered for a while. Afterwards, a pink, palm-sized orchid appeared in his hand with a thought.

The orchid had evolved from the seed of the Immortal Devouring Orchid recently. After absorbing a droplet of his chaotic blood that was not exactly pure, it metamorphosed, and when they were

collecting the God Tier heavenly resources, the evolved seed finally germinated, blooming into a beautiful, pale pink flower.

The orchid was very extraordinary. As soon as it had bloomed, it was already self-conscious, possessing a very weak consciousness. It was hazy and still not enough to communicate with Jian Chen, but he could vaguely feel emotional pulses from the consciousness from time to time.

Jian Chen held the young Immortal Devouring Flower close to the corpses of the four Godkings and expressed his thoughts gently.

He had learnt from the sword spirits that the Immortal Devouring Orchid especially grew through devouring immortals, so he wanted to see if these Godkings would be useful to the orchid.

There was not much difference between the cultivators and immortals of the Saints' World and the Immortals' World. They all absorbed the energy of the world and comprehended the laws of the world to strengthen themselves. The only difference was the name.

However, when the Immortal Devouring Orchid approached the corpses, it could not help but tremble violently as its petals shriveled up at that moment. A blurry thought with great fear appeared in Jian Chen's head.

Jian Chen was slightly surprised before understanding the situation soon. He immediately took the Immortal Devouring Orchid far away from the corpses.

Even though the orchid was extraordinary, it was still too weak. The corpses and blood of Godkings were just too terrifying to it. Even just a single droplet of blood possessed enough energy to destroy it countless times over, so it did not dare to touch the corpses, let alone devour them.

"It looks like I need to take it step by step for you to grow rapidly. There are no shortcuts," Jian Chen said softly in quite some disappointment. He stowed the Immortal Devouring Orchid away before travelling off into the distance with Kai Ya, Chanlong, and Xiao Zheng.

Before long, the four of them encountered over a dozen Godkings. When they saw Jian Chen's group, they beamed in surprise and immediately surrounded them without any hesitation.

"Jian Chen, we've finally found you. You've made us search so hard," the Godkings looked at the four of them and could not help but smile. They were all extremely excited.

"Everyone, may I ask why you are looking for us?" Jian Chen's group frowned.

"Why? Hehe, for the God Tier heavenly resources of course. The Divine Medicinal Garden is so big, yet you've emptied out a quarter of it, and you want to keep it all to yourself. Isn't your appetite just a little too big? You need to share some of it with us after all, right everyone?" A Godking sneered.

"That's right. It's not like we want a lot of it either. We just want half, no, a third of it. If you give us a third of everything, we'll leave immediately."

"Hurry up and hand it over. We don't want much, just a third of it."

...

The Godkings all spoke out; they seemed rather urgent. They wanted to take the heavenly resources and leave immediately.

They only want a third of everything because they knew that there were many Godkings on the ninth floor searching for Jian Chen everywhere, and they would constantly increase. If they took everything away, they would not be able to keep it with their strength, so they wanted to leave a portion for the other people and leave the Neptunean Divine Palace while the others fought over it.

“Do you really think that we have all these heavenly resources on us just because of what someone said?” Jian Chen asked. He felt that something was off from the expressions of the Godkings. No matter how he looked at it, it was as if they were extremely certain that he possessed all the heavenly resources and felt no doubt about it at all.

“Hahaha, I knew you would say that. Never would you realise that someone has already turned back time in the Divine Medicinal Garden, reconstructing the past there, so what you did in there is no longer a secret,” a Godking laughed aloud.

“Turning back time? Is that the case?” Jian Chen’s face sank, and even Kai Ya, Chanlong, and Xiao Zheng revealed ugly expressions.

They would not have worried if someone had purposefully revealed this matter, as someone’s word would not be persuasive at all. Very few people would believe it. However, turning back time and revealing the past was completely different, as it was firm evidence that could not be doubted.

“You want God Tier heavenly resources? Go collect it from the Divine Medicinal Garden yourself,” Jian Chen responded coldly.

“Since you’re not going to hand it over, we can only come and get it ourselves. Brothers, let’s get them together. Once we kill them, we’ll split the God Tier heavenly resources evenly. We can’t waste time.” With someone leading the Godkings, they all attacked Jian Chen’s group, engaging in an intense battle.

However, their strength was clearly on different levels. Even though one side had over a dozen people, possessing an absolute numerical advantage, they only had four late Godkings. The rest of them were early and mid Godkings, and their strength was extremely ordinary, so how were they Jian Chen and Kai Ya’s opponent?

As a result, as soon as the battle started, it became completely one-sided. Jian Chen and Kai Ya created a huge mess out of the Godkings with their slaughter, where the early Godkings were slain in a single strike.

Chapter 2066: The Neptunean Moon (Two)

As their opponents were all merciless, wanting to kill them with every strike in an attempt to rob them of their belongings, Jian Chen’s group did not hold back either. As a result, all the Godkings died soon after the battle had begun.

Before long, over a dozen corpses appeared on the ground. All the Godkings who wanted to take their heavenly resources died there, where none of them managed to escape.

Only Xiao Zheng was injured on Jian Chen's side. Chanlong managed to cast down his formations in time, so he could use them against his opponents, allowing him to emerge unscathed. As for Jian Chen and Kai Ya, regular Godkings were no longer able to harm them, as they had become Godkings. They were close to being invincible despite only having broken through recently.

Jian Chen thought about the young Immortal Devouring Orchid again when he looked at all the corpses. He could only sigh in pity. It would have been fantastic if the Immortal Devouring Orchid was powerful enough so that he could feed the corpses to it.

He had thought about collecting the corpses and preserving them for when the Immortal Devouring Orchid was powerful enough, but the sword spirits had already warned him that corpses that had been dead for too long would only be detrimental to the Immortal Devouring Orchid.

After the battle, Xiao Zheng and Chanlong became extremely stern. Chanlong said, "Jian Chen, the development of this issue is rather unexpected. There are probably a lot of Godkings looking for us on this floor. Although we did not fear this small group, once many Godkings band together against us and even supreme experts from the Godkings' Throne take part, it'll be extremely difficult for us to deal with them with our strength. I think we better return to the Neptunean Mountains sooner."

Jian Chen sank into his thoughts from what Chanlong had said. He also frowned gently. Although his current strength was greater than the average Godking, he did not become blinded by confidence at all. He understood that there was still a portion of Godkings who could pose a threat to him in the Neptunean Divine Palace such as the old man beside Mo Cheng and the god artifact wielding mister Shu from the Sky Empire. They all pressured him. Even though he had become a Godking now, he still did not have complete confidence in defeating them.

This was because he knew that they were far more powerful than regular late Godkings, let alone the fact that one of them had a god artifact.

He had no idea how many more supreme Godkings had gathered in the Neptunean Divine Palace apart from the two of them. None of them could be underestimated. If they took part in the hunt for him, he would indeed be troubled or even face the threat of death.

Jian Chen was even certain that there would definitely be supreme experts from the Godkings' Throne among all the Godkings searching for him. After all, their harvest was just too bountiful. They had dug up a quarter of over a thousand God Tier heavenly resources in the Divine Medicinal Garden. This was already enough to attract envy from Primordial realm experts. They would even go as far as to lay their lives down for so many heavenly resources.

Indeed, their current situation was bad.

"We should avoid the centre of attention temporarily and not move around in the Neptunean Divine Palace for some time. I plan on returning to the eighth floor," Jian Chen said after some thought. He looked at Kai Ya and said, "Kai Ya, Xiao Zheng, are you going to return to the Neptunean Mountains with Chanlong first? Right now, it's the safest place for the two of you without a doubt."

The light in Kai Ya's eyes shimmered. She said, "Just let Xiao Zheng and Chanlong return to the Neptunean Mountains. I'll go with you. After all, with my strength, I should be able to provide some assistance to you."

“That... works as well. Let’s just do that then. We’ll accompany Chanlong and Xiao Zheng to the Neptunean Mountains first before going to the eighth floor,” said Jian Chen. Afterwards, they escorted Chanlong and Xiao Zheng to the Neptunean Mountains. At the same time, Jian Chen got Chanlong to hide their presence within a cave there through the Grand Exalt’s formation before taking out all the heavenly resources and splitting them among themselves.

With over two hundred God Tier heavenly resources placed in a small cave, just the heavy fragrance alone would have been enough to spread far, far away. If it were not for Chanlong’s isolation through his formations, probably the presence of the heavenly resources would have been enough to alarm all the Godkings cultivating in the mountains.

“These heavenly resources should be worth quite a few five-colored divine crystals,” Jian Chen was filled with eagerness as he looked at the various assortments of heavenly resources.

At this moment, a fist-sized beast flew out from Kai Ya’s Space Ring. Its eyes shone brightly as it stared at the ground full of heavenly resources. It seemed to drool as it stared at Jian Chen and Kai Ya with its intelligent, bright, little eyes. It was like it was begging them out of desire.

This was the Seven-colored Heaven-devouring Beast that had not been seen for quite a long while. It had always remained beside Kai Ya, hiding in Kai Ya’s Space Ring to cultivate.

“Oh, you little thing. You always come out when you see something good,” Jian Chen could not help but joke as he gently knocked its head with his knuckles.

“Eat whatever you want,” Kai Ya said gently as she looked at the Seven-colored Heaven-devouring Beast tenderly. She could not forget about the help it had provided her with when she was still weak.

The Seven-colored Heaven-devouring Beast was immediately overjoyed. It fluttered its wings as if flew into the heap of heavenly resources as a blur and directly wolfed down three of them in one fell swoop. After that, it returned into Kai Ya’s Space Ring in satisfaction.

In the end, Jian Chen, Kai Ya, and Chanlong split the two hundred and sixty-six heavenly resources evenly, while Xiao Zheng took away a Flower of Ways.

Originally, Jian Chen wanted to give Xiao Zheng some more heavenly resources, but Xiao Zheng declined firmly. He knew that he did not contribute much to collecting the heavenly resources, so a single Flower of Ways satisfied him very much already. He did not wish to take advantage of them.

Afterwards, Jian Chen and Kai Ya did not stay for any longer. They directly left the Neptunean Mountains, heading for the eighth floor of the Neptunean Divine Palace.

At the same time, Zi Yun carried Xiao Man as she fell out of the air while shaking, ten thousand kilometers from Jian Chen’s location. As soon as she hit the ground, she staggered and directly collapsed.

Zi Yun’s face was sheet-white right now, without a shred of blood at all. Her presence was frail, and she was extremely weak such that she seemed like she was taking her last breaths.

“Sister, how are you? Are you alright? Please don’t scare me,” Xiao Man hugged Zi Yun tightly as her small face was filled with worry and fear.

Zi Yun had burnt her essence blood several times to flee, so she had paid a huge price. Coupled with the fact that she fought against some Godkings along the way, she was heavily injured. As a result, not only did she no longer possess the power to flee, but she could not even stand up now.

“Xiao Man, sorry. It’s your sister who doomed you. I shouldn’t have been greedy for that Chaotic Prime’s legacy. Otherwise, we wouldn’t have ended up like this. I can’t last much longer, and the Godkings are going to catch up very soon. I can’t accompany you any further in the future. Xiao Man, run right now. Their target is me, not you,” Zi Yun stared at Xiao Man gloomily as a deep sense of apology and regret filled her eyes. She was powerless even when she spoke.

Chapter 2067: The Neptunean Moon (Three)

However, Zi Yun then smiled wanly. She was filled with bitterness and despair. Where could Xiao Man run off to with her strength? She could die from even the slightest shockwave within the Neptunean Divine Palace. Moreover, this was the ninth floor. To leave, she had to pass through the world of volcanoes on the eighth floor. How would Xiao Man cross through such a dangerous place when she could not even fly?

“Master, mistress, disciple doesn’t know what to do right now. Why did you have to get me to take Xiao Man into the Neptunean Divine Palace? If Xiao Man did not come to the Neptunean Divine Palace, nothing would have happened. However, I’ve taken Xiao Man onto a path of no return now,” Zi Yun thought as she recalled the orders from her master and mistress before they passed away.

“No. Sister Zi Yun, don’t say that. Nothing will happen to you. Nothing will ever happen to you,” Xiao Man held Zi Yun as she called out painfully.

“Hahaha, I knew you wouldn’t be able to last much longer. You really are done for now,” at this moment, a voice rang out from the distance. Several late Godkings flew over with lightning speed as they stared at the collapsed Zi Yun with excitement and eagerness.

“Hand over everything you obtained in the dwelling or die!” A late Godking said coldly.

“You bunch of bad people, I won’t let you hurt sister Zi Yun! You didn’t get the legacy because you didn’t have the capacity. It’s not sister Zi Yun’s fault,” Xiao Man stood before Zi Yun with her arms wide open as she gritted her teeth. Tears pooled up in her eyes as she stared at the Godkings who had pursued her sister relentlessly. Her eyes were filled with resentment.

“Little kiddo, this has nothing to do with you. Piss off and play somewhere else,” a Godking looked at Xiao Man like she was an ant and exposed his presence slightly. Immediately, it heavily injured Xiao Man, causing her to vomit blood as she was blown away.

“Xiao Man!” Zi Yun cried out. Ignoring her own frailness, she immediately flew over to catch Xiao Man.

Xiao Man laid in Zi Yun’s arms with a pale face as she constantly vomited blood. Her face was filled with pain. She was just too weak. A single shred of a Godking’s presence posed a fatal threat to her.

Zi Yun’s heart was torn to pieces when she saw Xiao Man’s current state. She was filled with bitterness inside as she called to the Godkings, “Don’t you just want the Chaotic Prime’s legacy? I’ll give it to you then, but don’t harm Xiao Man, or I won’t give you anything even if I die.”

“It would naturally be for the best if you were willing to cooperate. However, the people behind are going to catch up very soon. We need to go somewhere else. Everyone, what do you think?” A one-armed Godking said before looking at the other Godkings. He seemed like he was pleading to them, which clearly indicated that they were not together.

At this moment, Xiao Man’s blood had completely soaked through her clothes. The blood passed through her clothes and dampened the pendant she wore. When the blood came in contact with the pendant, a mysterious presence appeared from the pendant that all the people present failed to discover. In fact, even Primordial realm experts would struggle to sense it.

The presence was extremely weak, so weak that it only managed to expand across a three-meter diameter. However, when the presence appeared, it caused the ground of the Neptunean Divine Palace that had remained peaceful for who knew how many years to rumble violently. The entire ninth floor shook like a terrifying earthquake was happening.

“What is happening...”

“Such a violent tremble has never happened throughout the history of the Neptunean Divine Palace...”

“Is it a battle between terrifying supreme Godkings...”

“Impossible. The Neptunean Divine Palace is an extremely impressive god artifact. Let alone Godkings, even Primordial realm experts won’t be able to make it shake when they fight in here...”

...

At this moment, the expressions of all people on the ninth floor changed drastically. They stared at the surroundings with unease. If it were the outside world, a rumbling like this would be nothing special, but it was just far too abnormal for something like this to happen in the Neptunean Divine Palace.

However, they did not know that this rumbling was not limited to the ninth floor. From the first floor to the twelfth floor, all of them shook. There was nowhere that remained peaceful in the Neptunean Divine Palace aside from the Neptunean Mountains.

Afterwards, what shocked everyone who had entered the Neptunean Divine Palace was that the sun hanging high in the sky that had not changed for millions of years actually began to set at that moment. A rarely seen sunset in the Neptunean Divine Palace was created.

However, this sunset only lasted for a few seconds before the sun completely disappeared from the horizon. The entire world sank into darkness, and at that moment, a huge moon began to rise slowly in the sky, shining with clear light that illuminated the world.

“It’s the Neptunean Moon. It’s the Neptunean Moon...”

“Heavens, the Neptunean Moon has actually appeared. What does this mean...”

“The ancient records have said that the Neptunean Moon has never appeared ever since the Daoist Sect of Neptunean was destroyed. Yet, it has appeared now...”

...

No one in the Neptunean Divine Palace was able to remain calm anymore. They all stared at the full moon as their faces were filled with shock.

In an unknown place within the Neptunean Divine Palace, an ancient consciousness seemed to gradually awaken from its slumber. At the same time, it emitted a mental pulse, "Master's... b- bloodline, it's master's... bloodline. Master's bloodline has awakened me. I've finally waited until master's descendants have arrived..."

"But I'm too weak. I'm going to fall asleep again very soon... Oh no, master's descendant... is in danger. I must use my will to... control... the laws... to protect master's... descendant..." The mental pulse stammered. It was extremely weak, and after that, it fell silent once again.

At the same time, the Neptunean Divine Palace seemed to undergo some sort of change. Aside from Kai Ya and Chanlong in the Neptunean Mountains, no one else sensed it, including the supreme experts on the Godkings' Throne.

Many spaceships hovered outside the Neptunean Divine Palace in outer space. They varied in size and shape.

These spaceships belonged to various organisations across several planes. They were waiting for their juniors who had entered the Neptunean Divine Palace, and the spaceships also offered them protection.

However, at this moment, several figures appeared in the space closest to the Neptunean Divine Palace. All of them radiated with extremely terrifying presences, where the surrounding space distorted. Every single one of them was extremely powerful.

However, all of their eyes currently shone as they stared at the Neptunean Divine Palace closely. They were all stern.

"After slumbering for over three million years, the artifact spirit of the Neptunean Divine Palace has finally awakened..."

"Since the artifact spirit has awakened, the Neptunean Divine Palace will gain a new master. I must report this huge matter immediately..."

"It looks like it'll be quite rowdy in the Neptunean Divine Palace soon. This time is very likely to be the last time the Neptunean Divine Palace will be opening..."

Chapter 2068: Changes of the Divine Palace

Only a select few people knew that the artifact spirit of the Neptunean Divine Palace had awakened. Even the astonishingly powerful supreme Godkings in the structure failed to sense it at all. Outside, only a few people out of the spaceships from various planes and organisations sensed the awakening. They reported this matter back to their organisations as quickly as possible.

The rumbling of the earth within the Neptunean Divine Palace gradually stopped. Very soon, it became peaceful once again as if nothing had happened at all. Only the sun that had hung in the sky for millions of years was gone, replaced by a huge moon.

The interior of the Neptunean Divine Palace had lost all of its radiance, replaced by heavy darkness. Only the hazy light from the moon provided the dark space with some dim light.

This change cast a shadow in the hearts of all the cultivators within the Neptunean Divine Palace. They all could not help but think about an ancient legend that had been around for who knew how long: when the sun vanishes, and the moon rises once again, a drastic change will happen to the Neptunean Divine Palace.

What kind of change would this be? Would it be positive or negative? No one could answer these questions right now, including the supreme prodigies from peak organisations.

Kai Ya and Jian Chen hovered in the air on the ninth floor of the Neptunean Divine Palace. Both of them raised their heads to stare at the moon high in the sky. They were stern.

They could not help but think about the ancient legend Xiao Zheng had told them about regarding the sun and moon of the Neptunean Divine Palace.

“Jian Chen, did you sense that the world seems to have changed slightly?” Kai Ya looked at Jian Chen as she said with some uncertainty.

Jian Chen sensed his surroundings carefully before shaking his head gently, “Aside from the change of the celestial body and the level of luminance, there’s nothing else different from what I can tell. Kai Ya, have you discovered something?”

Kai Ya remained silent as she closed her eyes and carefully sensed her surroundings. When she opened her eyes, she showed surprise and doubt.

At the same time, Chanlong emerged from the cave in the Neptunean Mountains. He stared at the pitch-black sky and murmured, “The Neptunean Moon has actually reappeared. According to Xiao Zheng, something significant is about to happen to the Neptunean Divine Palace. When I was fused with the Grand Exalt’s formation earlier, I sensed a strange pulse as well as if something changed within the Neptunean Divine Palace in that instance earlier.”

“It’s as if the laws here are different from before, but it has no effect in the boundary of the Neptunean Mountains...”

Several tens of million kilometers away from Jian Chen, the group of Godkings led by the fifth prince of the Sky Empire sat on the ground and meditated. Many of them were covered with blood, and some of them were pale, clearly injured. They were recovering through pills.

Unsurprisingly, the ten Godkings of the Yun family were among them. After Yun Xin agreed to become the fifth prince’s wife, they were bound to the fifth prince. Originally, the Yun family was satisfied with their harvest this time after Yun Xin ingested the Spiritual Root of Heavenly Ways, so the ten remaining Godkings all wanted to leave and escort Yun Xin away. However, the fifth prince wanted them to stay, so they could only stay.

This was because their Yun family did not dare to offend the fifth prince of the Sky Empire at all. There was no need for them to fear this much if their Yun family was distant from the Sky Empire, but they just happened to be located in the empire.

“Bai Qi and the others still haven’t returned. They shouldn’t have taken so long,” the fifth prince said softly as he sat on the ground. However, he stared at the moon in the sky without blinking at all. He was stern.

The reappearance of the Neptunean Moon meant that something big was about to happen to the Neptunean Divine Palace. However, no matter what the change was, even the ancestral emperors of the Sky Empire had no idea, which made the fifth prince feel danger. He wanted to gather his own forces as soon as possible.

This was because a few of the Godkings he had originally brought in had died from all the battles in the past few days, making his forces weaken slightly.

“Please do not worry, your highness. We’ve already left where we were before, so it’ll naturally take Bai Qi and the others some time for them to catch up. The Neptunean Divine Palace is not peaceful either. Bai Qi and the others have probably been delayed by some matter seeing how they still haven’t returned. However, not many people can threaten the two siblings on the ninth floor anymore given their strength. There’s no need to worry, your highness,” mister Shu said calmly from beside the fifth prince. However, his eyes shone brightly as he stared at the horizon, at the moon in the sky. Mister Shu seemed scholarly and harmless, but he was extremely powerful.

The fifth prince glanced at Yun Xin, who was cultivating with her eyes closed nearby. He said slowly, “I’m not worried about anything happening to Bai Qi and them. I’m concerned with whether they’ve completed my mission or not.”

Close to the fifth prince, a small, thin Godking snickered and said to the fifth prince politely through a secret message, “There’s no need to worry at all, your highness. It’ll be effortless for the siblings to kill Jian Chen and the others with their strength. Nothing will go wrong. The four of them should be dead already, and the siblings should return very soon.”

The fifth prince nodded slightly and said in a deep voice, “Let’s heal up as quickly as possible. Who knows what will happen next with the Neptunean Moon’s appearance. We have to face it at our peak condition.”

At this moment, a Godking that the fifth prince had sent out to investigate certain matters returned. He said politely, “Your highness, a major matter has happened recently. Someone entered the Divine Medicinal Garden with a formation-destroying treasure and cleaned out a quarter of the whole place in a short amount of time.”

“What? A quarter of all the heavenly resources in the garden have been dug away? Is that true?” The fifth prince’s face changed, and he suddenly stood up. He knew about the Divine Medicinal Garden. Only God Tier heavenly resources were planted there, and every single one of them was invaluable. However, powerful formations protected them all, so getting through the formations to harvest them was extremely difficult.

Even with the current force he possessed, it would not be guaranteed that he would be able to harvest a single heavenly resource within the ten years the Neptunean Divine Palace would remain open. As a result, he did not attempt to collect the heavenly resources there even though he had gone to the garden before and desired the God Tier heavenly resources dearly.

There would never be more than ten heavenly resources dug up each time the Neptunean Divine Palace was opened throughout history, yet he had just heard that someone had dug up a quarter of everything there. It was just too shocking to accept.

“A quarter of the Divine Medicinal Garden. That’s over two hundred God Tier heavenly resources. Even the imperial vault of our Sky Empire does not necessarily have such a terrifying number of God Tier heavenly resources,” mister Shu gasped in shock as well.

The reporting Godking’s expression became rather strange. He continued, “It’s completely true. I’ve also heard that the people who took the heavenly resources away include Jian Chen’s group.”

Chapter 2069: Another Encounter

With that, the fifth prince’s eyes narrowed, and his face immediately sank. He growled, “When did this appear?”

“It should have appeared today,” the Godking replied.

Mister Shu looked away and turned towards the reporting Godkings. He was slightly stunned. Meanwhile, the fifth prince’s face had completely sunken, where his gaze was extremely icy. He growled, “Jian Chen and his group are actually still alive, and they’ve taken away a quarter of the entire Divine Medicinal Garden. On the other hand, Bai Qi and the others still haven’t returned.”

“This has exceeded my expectations. Either Bai Qi and the others have failed, or they faced some other problems and were delayed,” mister Shu said as his eyes deepened with thought.

The fifth prince fell silent for a while before ordering in a deep voice, “Everyone, stop healing! We’re setting off immediately!” This time, the fifth prince wanted to find Jian Chen with his own group of people. The heavenly resources on Jian Chen interested him greatly such that he wanted to obtain them regardless of the price.

The Godkings of the Yun family and Yun Xin left with the fifth prince quietly. The fifth prince purposefully retained this information, so they did not hear the conversation and had no clue where the fifth prince was going to this time or what he was going to do.

“Kai Ya, let’s go. No matter what happens in the Neptunean Divine Palace, we have to leave for the eighth floor as soon as possible,” Jian Chen said to Kai Ya high in the air as he ignored the Neptunean Moon.

“Do you want to go to the bottom of the lava on the eighth floor to collect fire divine crystals?” Kai Ya stared at Jian Chen.

“That’s right. A single fire divine crystal is worth ten times as much as a piece of supreme quality divine crystal of the same size. We need large amounts of divine crystals to go to other planes or directly return to the Cloud Plane. Although we have a large amount of heavenly resources with us, exchanging them for divine crystals won’t be easy, and it might even lead to some problems. Moreover, I’m not exactly willing to sell those heavenly resources, as we have so many old friends in the Tian Yuan clan who need them,” Jian Chen said in thought.

“You’ve witnessed how terrifying the lava is. Even if you have the tower, it’ll be very difficult for you to collect the fire divine crystals at the bottom of the lava. It’s not like your body can endure the terrifying lava,” Kai Ya said with some worry. She felt angst over the terrifying lava on the eighth floor, where even after she had become a Godking and her strength had increased drastically, she still did not dare to touch it.

“If we don’t try, how will we know?” Jian Chen smiled indifferently. His confidence swelled after breaking through with the Chaotic Body. Even if his body was unable to last in the lava, the Anatta Tower could protect him.

“Hmm?” At this moment, Jian Chen’s eyes narrowed. Like a ray of light that pierced through the darkness, his gaze was locked onto something in the distance. He was surprised as he murmured, “Why would it be them? Why have them come to the Neptunean Divine Palace as well?”

“It’s that little girl you met on the spatial battleship. She’s so weak, so what is she doing here?” Kai Ya stared into the distance as well and was greatly surprised.

“Let’s go over and have a look,” said Jian Chen before directly hurrying over with Kai Ya.

A pale-faced Zi Yun held Xiao Man tightly several dozen kilometers from Jian Chen’s location. She powerlessly stared at the Godkings around her with resentment.

The sudden appearance of the Neptunean Moon had startled the Godkings. They all stared at the moon right now, so it was a perfect time for her to run or launch a sneak attack. However, Zi Yun had lost that ability, as she was heavily injured, and her vitality was greatly drained.

A while later, the Godkings returned from the shock the appearance of the Neptunean Moon gave them, and they stared at Zi Yun once again.

“Something big is going to happen in the Neptunean Divine Palace. Let’s get the legacy from her and leave. It doesn’t matter whether this change is good or bad. I don’t think we should take part in it.”

“That’s right. Take her to a remote region, and we’ll leave immediately after getting what we want.”

Two Godkings said sternly. The appearance of the Neptunean Moon caused them great unease, casting a shadow of uncertainty in their hearts. They felt fear for the unknown.

“Everyone, you’re all mighty Godkings, yet you won’t even let a Mortal realm girl go? Aren’t you far too brutal?” At this moment, a deep voice rang out and caused the expressions of the Godkings to change as they were about to take Zi Yun away. They had all become flustered by the appearance of the Neptunean Moon, so they directed all their attention there, lowering their attention towards the surroundings completely. They actually failed to discover someone had approached the area.

The Godkings followed the voice and looked over. All they saw were two young people, one female and one male, flying over beside each other. They both seemed to be in their twenties. The man was handsome, and his face seemed resolute, giving off a heroic, war-like spirit. It was obvious that he had gone through a baptism of battles. The woman, on the other hand, was nowhere close to being alluring, but she was still pretty and possessed an otherworldly bearing.

“It’s actually just two early Godkings. But since they’ve already discovered us, we can’t let them leave to stop the information from being leaked. Let’s finish them off cleanly by sending some people later,” the Godkings sneered as they relaxed. They did nothing to stop the two, allowing the two to approach them. At the same time, they secretly discussed with one another and reached an agreement very soon.

The two people were Jian Chen and Kai Ya, obviously. They ignored the Godkings who showed different expressions as they directly flew over from afar calmly. They arrived right in front of Zi Yun.

Zi Yun clearly recognised Jian Chen and Kai Ya as well. Jian Chen had assisted them on the spatial battleship from the Cloud Plane before, taking back Xiao Man's jade pendant from the three-eyed Demon King. Zi Yun had always felt grateful towards him for that.

Zi Yun raised her head and looked at Jian Chen and Kai Ya. She smiled weakly, "Have you come for my Chaotic Prime's legacy as well?"

Jian Chen was surprised when he heard that, but he understood the situation very soon. He stared at Zi Yun strangely and said, "I heard that a Chaotic Prime's dwelling appeared near the Divine Medicinal Garden a while ago, but I never thought you were the one who obtained it." Jian Chen's feelings were extremely mixed as he looked at Zi Yun. He had no idea whether he should loathe her or not. It was exactly because Zi Yun had gained the recognition of the legacy that many Godkings returned to the Divine Medicinal Garden, which revealed his entire operation in the garden.

If Zi Yun had obtained the legacy later, the Godkings would have returned later as well, and he would have had enough time to clean out the entire place.

Unfortunately, the rare opportunity was destroyed by Zi Yun, which filled Jian Chen with much pity.

"So you have come for the legacy. Unfortunately, even if I give the legacy to you, you won't be able to leave with it," Zi Yun was downcast as she glanced at the surrounding Godkings.

Chapter 2070: Taking a Saint Artifact

"Who said we came for the legacy?" Jian Chen's expression was strange as he stared at Zi Yun with an odd smile. He said without caring too much, "A Chaotic Prime's legacy is indeed enough for many Godkings to go insane and shed blood over, but it's pretty much useless to me."

Indeed. Jian Chen cultivated the Chaotic Body, and he had made quite impressive progress with it, so he could no longer switch to another cultivation method. As a result, even a Grand Prime's legacy would struggle to interest him, let alone a Chaotic Prime's legacy.

Perhaps, a Chaotic Prime's legacy was not even as great as some five-colored divine crystals to him now.

When the Godkings heard Jian Chen's words, the light in their eyes immediately flickered. Their gazes towards Jian Chen became surprised and doubtful as they tried to make certain connections to certain things. Various thoughts crossed their minds.

An early Godking was not even interested in a Chaotic Prime's legacy. What could that mean?

It meant that he either possessed a great background or his cultivation method was so extraordinary that he could ignore a Chaotic Prime's legacy. Of course, it was possible that he was just lying.

The Godkings could not help but carefully study Jian Chen after they heard his words, but they sneered very soon. They believed that Jian Chen was just lying in front of them, trying to pose as a disciple from a large sect or organisation so that he could strike fear into their hearts or even take away the legacy before them.

However, all disciples of large sects or organisations would have many guards around them. Jian Chen and Kai Ya clearly did not possess that, so the Godkings ruled out that possibility very soon.

A sliver of surprise flashed through Zi Yun's eyes as well as she looked at Jian Chen with some shock. However, she became gloomy once again and said to the Godkings around her, "I can give you my legacy. and I am willing to leave with you. I only have one condition and that is for you to not touch a single hair on my younger sister." Afterwards, Zi Yun looked at Jian Chen and basically pleaded, "Savior, I, Zi Yun, beg you to leave here with my younger sister. If I somehow manage to survive, I am willing to do anything for you."

"Hmph." A person among the Godking snorted coldly after what Zi Yun had said, "We can leave your sister alone, but don't you think that those two can leave here with your sister because they won't have that opportunity anymore." With that, four Godkings struck out at the same time. They swung out with their swords. and multi-colored, resplendent sword Qi shot towards Jian Chen and Kai Ya.

They had already reached an agreement to not let Jian Chen and Kai Ya leave, or once they leaked this information, it would cause great trouble for them. They might even lose the Chaotic Prime's legacy as a result.

Zi Yun closed her eyes painfully in response to the attacks of the four Godkings. Originally, she saw a sliver of hope for Xiao Man to survive with Jian Chen's appearance, hoping that he could leave with her. After all, she did trust Jian Chen more than the Godkings before her.

However, now that the four late Godkings all tried to kill Jian Chen and Kai Ya, Zi Yun became filled with despair. She did not believe that two early Godkings could withstand the attacks of four late Godkings.

"Protect your sister. She won't be able to endure the shockwaves from battles between Godkings," at this moment, Jian Chen's voice rang out in Zi Yun's head. It was calm and composed, completely unflustered.

Jian Chen's calmness was clearly completely different from what Zi Yun was imagining. She subconsciously opened her eyes and just happened to see something shocking. Her eyes widened dramatically.

A golden strand of sword Qi shot out from Jian Chen's hand, shining with resplendent light that illuminated the dark world golden. It collided with a strand of sword Qi condensed from the power of the Laws of Fire, and with a great rumble, the golden sword Qi shattered the sword Qi composed of the Laws of Fire, reducing it into a fiery explosion in the air.

The golden sword Qi did not slow down at all, piercing through the darkness as a golden streak and punching through the body of a late Godking before disappearing into the horizon.

"Argh!" The Godking who sent out the fire-red sword Qi cried out miserably as he stared at Jian Chen in disbelief. His heart churned.

Only when he truly faced the golden sword Qi did he understand its terror. With his cultivation as a late Godking, he was actually unable to endure it at all. He felt a fatal threat.

"T- this isn't the strength an early Godking should possess," the Godking cried out inside as he rapidly retreated.

At the same time, Jian Chen punched out with Chaotic Force and dispersed the other strand of sword Qi as well. Then he lunged forward, arriving before the other Godking who had attacked him in a single

step. Chaotic Force filled his left hand as he gripped the supreme quality saint artifact sword tightly. The sharp edge was unable to cut through his hand.

The Godking was a young man in green clothes with an ordinary appearance. When he saw Jian Chen grab his sword without suffering injuries, his eyes immediately narrowed as he showed a sliver of shock. Immediately, he wanted to draw back his hand, but he discovered that Jian Chen's hand was like a powerful clamp, locking the sword in place tightly. He could not break free.

"After looking for so long and seeing so many supreme quality saint artifact swords, I've finally found one that satisfies me somewhat. I'm taking your sword," Jian Chen said with some delight as he gripped the young man's supreme quality saint artifact. He used his right hand like a blade, and with a sudden swing, he slashed it towards the young man's hand.

The young man's face was shocked. and a high quality saint artifact armor appeared, completely covering his right hand. At the same time, he swung his left hand with all the strength he could muster towards Jian Chen's chop in an attempt to stop him.

Bang! With a heavy thud, the young man felt like Jian Chen's hand was as tough as a god artifact, where it was completely unstoppable. Not only did his left hand completely fail to stop Jian Chen, but his hand had even almost shattered from the force.

Crack! Jian Chen's chop fell and landed on the young man's hand with unbelievable weight. The armor that protected his hand directly shattered from Jian Chen's strike and his entire hand was ripped off.

The young man grunted in pain as he stared at his right arm that spurting with blood. He was utterly shocked inside. Was this person really an early Godking? He had such a tough body and such impossible battle prowess.

Jian Chen studied the supreme quality saint artifact in his hand and murmured, "Although it's not fantastic, I'll have to make do. I'll change it when I find one that's even more suitable." As he said that, Jian Chen poured his Chaotic Force into the sword and removed the imprint the young man had left in the sword effortlessly.

The sword had already become bound to the young man's soul, so when the imprint was destroyed, the young man became heavily injured. He vomited blood before staring at Jian Chen in utter fear.

Jian Chen's presence underwent an overwhelming change as he clutched the sword. An extremely sharp sword Qi radiated from him, plunging right into the sky. It seemed to form an illusionary sword stabbed into the ground as if he was a god of the sword.

The Godkings in the surroundings who had not taken part yet all stared at Jian Chen, and their faces changed drastically. At that moment, they felt like Jian Chen was an ancient beast that had awakened from its slumber. He had become even more terrifying.

Jian Chen hovered in the air with his sword as his hair fluttered without any wind. He stared coldly at the young man and said, "I'll spare you because of this sword." With that, Jian Chen's sword suddenly shone with a resplendent glow as bright as the sun as he swung the sword towards the other Godking that had attacked him.
