

## Chaotic 2411

### Chapter 2411: Danger (Two)

“Kai Ya, we can’t remain on this spatial battleship. We must leave immediately.” Jian Chen made a decision on the spot. He made his way out with Kai Ya, finding the experts from the Float Empire once again.

“What did you say, fellow Yang Yutian? You want to leave the spatial battleship right now?” One of them was immediately surprised when he learnt of Jian Chen’s intentions.

Although Infinite Primes experts could travel through outer space, it was definitely not as safe as remaining on a spatial battleship.

Moreover, the spatial battleship was much faster than Infinite Primes. It was impossible for experts below Chaotic Prime to outspeed the ship.

They were just about to reach the Star Brilliance Plane, yet Jian Chen said he wanted to leave; this confused the experts of the Float Empire.

“I have something I must attend to. I won’t be going to the Star Brilliance Plane,” Jian Chen said without going into too much detail.

Formations enveloped the spatial battleship as it travelled, sealing up the entire ship. If he wanted to leave, he needed the protectors to stop the ship and open the formations.

“If that’s the case, take care.” The protector did not say much. He immediately ordered the ship to be stopped and the formations to be opened, letting Jian Chen and Kai Ya leave.

If someone else requested this, he would have never agreed, as not only would they waste quite a lot of time if the ship was stopped, but they would also have to waste a sizeable amount of energy to accelerate once again.

However, Jian Chen’s status was extraordinary in the hearts of the protectors. Coupled with his strength, they naturally did not dare to decline his request.

Jian Chen and Kai Ya left the spatial battleship. After that, Jian Chen took out a smaller spaceship from his Space Ring. They quickly flew off in another direction, vanishing very soon.

Half a day after Jian Chen and Kai Ya’s departure, the huge spatial battleship suddenly shook violently.

The space around the ship seemed to have suddenly condensed from a tremendous pressure. It was as if the ship was moving through mud. It faced great resistance, moving slower and slower before coming to a grinding halt in the end.

In the next moment, a blue ocean appeared in the surroundings. It seemed like a tremendous ocean. Seawater churned and waves collided within it.

The ocean had abruptly appeared in such a strange fashion in outer space, enveloping the spatial battleship.

The spatial battleship was like a tiny, lone boat in the strange ocean. It seemed insignificant. In just a single moment, it was swallowed by the blue ocean, completely vanishing.

From afar, it was possible to see that the blue ocean had formed a giant sphere. It wrapped around the spatial battleship completely.

The ocean was not regular seawater. Instead, it had been condensed from terrifying energy and the power of laws. It possessed a tremendous pressure.

The pressure alone was enough to make the protective formations around the spatial battleship to shake violently, causing them to rapidly disperse.

The six Primordial realm experts who served the Float Empire immediately sensed the situation outside on the highest floor of the spatial battleship. All of their faces changed drastically, becoming filled with fright and shock.

Even Yi Jianping lost his usual composure, becoming extremely stern.

“We’re from the Float Empire of the Jadedfluid Plane. Please show mercy, senior!” Yi Jianping and his five companions cried out and arrived on the deck as quickly as they could.

“We’re from the Darkness clan of the Jadedfluid Plane. The most favoured son of our patriarch, young master Anye Jiuyou, is on this spatial battleship. Senior, please show mercy...” The Spectral Elder also charged over as quickly as he could, immediately stating his identity.

“We’re from the Myriad Water Estate of the Jadedfluid Plane...”

...

At the same time, all the peak clans on the spatial battleship received the message from Yi Jianping and the others, so they hurried to the deck and stated their origins.

Soon, all the Primordial realm experts as the representatives of the various peak organisations had gathered on the deck.

They all stared at the blue ocean around the spatial battleship and paled.

They could clearly sense a terrifying pressure enough to make the depths of their souls shake from the ocean.

A figure appeared from the blue ocean. He stood with his arms behind his back, and he completely fused with the colossal ocean.

He was a hook-nosed old man with short hair. He looked at the spatial battleship below him, and undisguised excitement filled his eyes.

He was the Elder of Mountains and Seas.

However, the Elder of Mountains and Seas seemed rather haggard. It was like he was not at his peak condition and was injured instead.

Clearly, the Elder of Mountains and Seas had been injured in his battle against the Goldensword Beast Sovereign.

“Hehe, Jian Chen, I’ve finally caught up with you. As long as I capture you and get the Anatta Tower from you, it’ll be worth it even if I ended up getting injured by the Goldensword Beast,” thought the Elder of Mountains and Seas. Thanks to his innate ability, he had caught up with the spatial battleship. He was confident that Jian Chen was on the ship.

“Senior, we’re going to the Star Brilliance Plane to celebrate the young star lord’s birthday. If you kill us here, not only will it be a slap to the young star lord’s face, but you’ll put the young star lord’s birthday celebration in jeopardy as well,” someone called out from the spatial battleship. They hoped the Elder of Mountains and Seas would retreat after knowing what he was dealing with.

Offending the young star lord was basically offending the Nine Brilliance Star Lord.

Who was the Nine Brilliance Star Lord?

Not only was he a disciple of the Bloodtear Grand Exalt, but his personal cultivation was close to perfection as well. He had become a Ninth Heavenly Layer Grand Prime many years ago, making him one of the most powerful experts below Grand Exalt.

“Hehe, don’t worry. I have no interest in you. I’ve come for someone else,” sniggered the Elder of Mountains and Seas.

“May I ask who senior is looking for? We’ll hand them over immediately,” said one of the protectors of the Float Empire.

The Elder of Mountains and Seas shook his head and smiled strangely. “You really won’t be able to find this person. Only when I personally take action will I be able to pick him out from the crowd.” With that, the Elder of Mountains and Seas closed his eyes and used his innate ability again, sensing for Jian Chen’s position.

There were simply too many cultivators on the spatial battleship, and Jian Chen had the disguise from a treasure. As a result, the Elder of Mountains and Seas was unable to tell who was Jian Chen from the crowd either. He could only use his innate ability.

However, his face changed slightly very soon. Suddenly, he turned his head and looked in another direction. His sharp gaze seemed to be able to pierce through space and see the depths of the cosmos.

“What a scheming brat. He’s actually not on this ship. But since you’ve already caught my eye, you’re done for.” The Elder of Mountains and Seas gritted his teeth. He did not remain where he was for a second longer, vanishing in a single moment.

With his departure, the endless ocean that surrounded the spatial battleship disappeared as well. The terrifying pressure was gone in a single moment.

All the cultivators on the deck became relieved now that the spatial battleship had broken free. They felt like they had just survived a great danger.

“Grand Prime! The senior earlier was a Grand Prime!” said Yi Jianping grimly as he stared in the direction that the Elder of Mountains and Seas had vanished.

“Grand Prime? But who was he looking for? It looked like he definitely came with ill intentions,” said the Spectral Elder of the Darkness clan grimly.

“The direction that he has left in s- seems to be the same as fellow Yang Yutian’s!” At this moment, Fa Yun cried out.

#### Chapter 2412: Pursuit in Outer Space

Yi Jianping and the other Primordial realm experts from the Float Empire looked over as well. Their eyes narrowed slightly.

They had not been paying much attention earlier, but now that Fa Yun had brought it up, they realised that the Elder of Mountains and Seas had really travelled off in the same direction as Yang Yutian, who had a mysterious background.

At that moment, all the Primordial realm experts on the spatial battleship thought of the same time. That terrifying Grand Prime was chasing Yang Yutian.

Moreover, he did not seem to have good intentions. He was cold. This chase was very likely to be chasing to kill.

“This has nothing to do with us. Let’s all go back and start up the battleship so that we can continue on our way...” At this moment, Yi Jianping swung his hand and left.

With his departure, the Primordial realm experts from the Float Empire and the people of various peak organisations gathered on the deck returned to the cabins.

“Yang Yutian, I wish you luck!” Fa Yun roughly gazed in the direction that Jian Chen had left in. After a soft prayer, he left the deck as well.

Jian Chen had sold a god artifact to him for a lower price, and Fa Yun had used this god artifact to successfully exchange for the two-handed sword in the Darkness clan’s possession. As a result, he finally owned a low quality god artifact that suited him. He felt some gratitude towards Jian Chen.

Now, it was extremely likely that Jian Chen faced the pursuit of a Grand Prime, so he could only pray for him secretly.

At this moment, a tiny spaceship only several dozen metres long tore through the pitch-black outer space as a streak of silver light, moving with great speed.

Jian Chen and Kai Ya were grim as they piloted the spaceship, moving forwards as quickly as they could.

A metre-wide piece of supreme grade divine crystal was placed on a formation in the spaceship. The tremendous energy within the supreme grade divine crystal was rapidly drained away by the formation, propelling the spaceship forwards.

A block of supreme grade divine crystal was equivalent to a million standard sized divine crystals.

In the eyes of many Godkings, this block of supreme grade divine crystal was wealth that they could not afford to ignore, yet Jian Chen had used it as just a source of energy to propel the spaceship forwards.

“The sense of danger is becoming greater and greater. I wonder who’s chasing us,” Jian Chen muttered as he stared straight ahead.

Although he could not see who was chasing him, he firmly believed the sudden ill omen he felt.

“We’ve already left the spatial battleship, but the person still tails us closely. We can basically be certain that he has come for us, and he’s obviously not targeting me but you.” Kai Ya looked at Jian Chen. At this moment, her senses were even sharper than his. She could vaguely sense a powerful presence rapidly approaching them from an extremely distant region of space.

Moreover, she could even vaguely sense the person’s precise location.

It felt like her soul had fused with the cosmos such that her senses were even greater than Jian Chen’s.

However, she would not always possess this ability. It only happened from time to time.

Moreover, she discovered that her strength did not change at all even when her senses strengthened.

“But I’m wearing a mask that can completely conceal my presence. Even if peak experts stand before me, they won’t be able to tell who I am. How did the person behind us find me? Moreover, we’re already so far from the Desolate Plane.” Jian Chen was also in doubt. He could not understand this no matter how he thought about it.

After all, he had worn the mask for many years on the Desolate Plane, preventing the Grand Primes from finding him at all, so why did he suddenly catch someone’s eye now that he was off the Desolate Plane?

“These peak experts all have exceptional abilities and countless methods to achieve what they want. Even if you wear your mask, you won’t be able to achieve true flawlessness. Perhaps, they had some methods of bypassing your disguise and finding you among the sea of people,” said Kai Ya.

“Hmm?” At this moment, Kai Ya suddenly let out a sound of surprise. A strange light appeared in her eyes.

“What happened?” Jian Chen looked at Kai Ya.

Kai Ya said softly, “The person who’s chasing us is veering off in the wrong direction. He’s following the direction that we left the spatial battleship before, and he’s travelling straight. He hasn’t altered his direction.”

“You can sense his precise location?” Jian Chen’s eyes lit up. He already knew Kai Ya’s senses were extremely powerful such that even the Anatta Tower was not enough to block them. However, he never expected them to be so astonishing.

Even he was unable to correctly sense the location of the expert behind him yet Kai Ya could. This ability was just too shocking.

Kai Ya nodded and said, “He has stopped.”

The light in Jian Chen’s eyes flickered. He did not say anything in response.

However, a short while later, Kai Ya's face changed slightly. She cried out, "Oh no, he's moving again. He's moving towards our current location. He has located us precisely."

With that, Jian Chen immediately controlled the direction of the spaceship, heading off in a different direction.

An hour later, Kai Ya said, "The person has passed by where we were before, but he did not stop. Instead, he kept flying. He's getting further and further away from us."

Jian Chen was secretly astonished. Kai Ya's senses were so powerful that they were unimaginable. After all, even his soul that had fused with a strand of true Chaotic Force was unable to sense someone so far away.

"You're right. That person indeed has a wondrous method to bypass the mask and find us," Jian Chen growled. He was extremely stern.

"He has stopped again..."

"He's heading in our current direction again..."

...

Afterwards, Kai Ya constantly reminded Jian Chen and paid attention to the location of the person. Jian Chen changed directions again and again.

After changing directions several times, Jian Chen was finally certain about one thing. The mysterious expert chasing them was unable to sense their locations at all times. Instead, he needed to stop once in a while and use some unknown secret technique to relocate them.

However, even with that being the case, the distance between them was gradually being closed. The mysterious expert was just too fast. The smaller spaceship could not match the larger spatial battleship in terms of speed, so he was obviously unable to shake the expert off.

"Why do I feel like this ability is similar to Hei Ya's?" Jian Chen thought. Afterwards, with a thought, he immediately let out Hei Ya.

Hei Ya was a Primordial realm expert now. Obviously, he saw Jian Chen as soon as he emerged.

As Jian Chen wore a mask, both his appearance and stature were different, so Hei Ya failed to recognise Jian Chen immediately. He was slightly surprised.

"Hei Ya, immediately use your innate ability and see if you can sense my location." Jian Chen cut right to the case.

"You're master?" Hei Ya immediately determined Jian Chen's identity from that.

"Alright, let me try." Afterwards, Hei Ya closed his eyes and began using his innate ability.

Jian Chen stared directly at Hei Ya. He knew that Hei Ya's innate ability allowed him to find anyone he had seen, no matter where they were.

"I wonder if senior Mo Tianyun's mask can cover me from an innate ability like Hei Ya's," Jian Chen wondered.

#### Chapter 2413: The Fruit of Ways is Ripening

A while later, Hei Ya stopped using his innate ability. He opened his eyes slowly. His gaze towards Jian Chen contained a sliver of hesitation. He said, "Master, I can only sense your position roughly, and it's sometimes wrong. My innate ability seems to be under the influence of a mysterious power, making things seem hazy. It's not as easy as finding others."

"Perhaps my senses have become blurry due to master's increase in strength. My innate ability isn't actually effective against everyone. Once I encounter someone who's far more powerful than me, my innate ability will become useless."

"Hei Ya, then do you know any methods to avoid being detected by your innate ability?" Jian Chen asked. Now, he was basically certain that the mysterious expert who pursued him possessed a similar ability to Hei Ya.

Hei Ya's senses were very blurry because of the difference in strength. The person who chased them was a peak expert, so sensing their position was obviously a piece of cake with his impressive level of cultivation.

Hei Ya furrowed his brows and pondered for a while before shaking his head to express that he did not know.

A sliver of disappointment appeared in Jian Chen's eyes. He let Hei Ya back into the divine hall. Although Hei Ya was also a Primordial realm expert, there was nothing he could do to help out given the current situation.

"Jian Chen, the mysterious expert is getting closer and closer to us. Once we enter the range of the senses of his soul, he'll lock onto our position firmly. We'll be caught up in a split second," said Kai Ya. She was also worried.

Currently, they were located beyond the range of a regular Grand Prime's senses of the soul, so the Elder of Mountains and Seas was unable to find their precise location. He could only constantly use his innate ability to sense for them.

However, if they were closer, and the Elder of Mountains and Seas' senses of the soul had locked onto them, the Elder of Mountains and Seas would only need a single moment to stop Jian Chen and Kai Ya.

"We can only leave this place now and enter a spatial crack," Jian Chen said coldly with determination.

Afterwards, he left the tiny spaceship and appeared in outer space. Wielding the shining Nine Star Sword of Heavenly Ways, he ripped open a gash that was several metres long in space.

"Let's go!" Jian Chen called out. He stowed the Nine Star Sword of Heavenly Ways away and entered the crack with Kai Ya.

The spatial crack was filled with terrifying streams of energy and temporal vortices, making it extremely dangerous. Even Primordial realm experts would face life-threatening danger in here.

Jian Chen became cautious after he entered the spatial crack. Even after reaching the fourteenth layer of the Chaotic Body and possessing battle prowess that could match up to Sixth Heavenly Layer Infinite Primes, he did not dare to act recklessly here.

“I hope we can shake him off here,” thought Jian Chen. Then he took out the Anatta Tower and entered it with Kai Ya. He moved through the spatial crack as quickly as he could by relying on the Anatta Tower’s toughness.

Probably only peak god artifacts as powerful as the Anatta Tower could move through somewhere as dangerous as a spatial crack fearlessly.

Soon after Jian Chen and Kai Ya entered the spatial crack, the Elder of Mountains and Seas appeared where they were before.

He closed his eyes and sensed for them for a while before becoming surprised. He murmured, “They’ve actually vanished. I can’t sense their location anymore. It looks like they really have sensed me, which was why they constantly changed directions. How did they find out?”

The Elder of Mountains and Seas gradually smiled coldly. “But that doesn’t matter. They definitely won’t be able to escape from me.” With that, the Elder of Mountains and Seas’ gaze immediately deepened. Laws interwove, and the ways changed in his eyes, becoming mysterious.

His gaze seemed to see through the source of time, allowing him to peer into the past and future and witness the supreme mysteries of the world. It seemed like the many secrets of the world were clearly presented before him.

The Elder of Mountains and Seas was a Grand Prime. He had comprehended the laws to an extremely deep level. Even though he was nowhere close to Grand Exalts, who had basically become the heavenly ways, he was still extremely powerful. He knew various unbelievable and exceptional techniques.

Very soon, the Elder of Mountains and Seas’ gaze returned to normal. As if he had discovered where Jian Chen and Kai Ya were when they left, he sneered and also ripped open space, entering a spatial crack.

The Elder of Mountains and Seas was still able to sense Jian Chen’s position within the spatial crack. However, the laws were chaotic, and the environment was horrendous, affecting his ability quite a lot. As a result, he needed a little more time to use his ability whenever he activated it.

Up ahead, Jian Chen and Kai Ya piloted the Anatta Tower to travel at full speed, constantly changing directions.

“This person definitely isn’t as fast as the Azure Peng King. Hopefully, we can shake him off here,” Jian Chen thought, but very soon, the sense of danger appeared again.

This made his heart sink. Clearly, they were being chased once again.

Immediately, he controlled the Anatta Tower to charge towards the most dangerous places. He headed towards the temporal vortices.

He could clearly remember that this was how he had managed to shake off the Azure Peng King last time.

Immediately, the Anatta Tower turned into a golden streak of light and passed through temporal vortex after temporal vortex.

It was a good idea, but the Elder of Mountains and Seas was not the Azure Peng King in the end. When he chased them and encountered the temporal vortices, he would avoid them cleverly. He did not charge through them recklessly like the Azure Peng King.

If he wanted to dodge, the temporal vortices would not be able to do anything to him with his cultivation as a Grand Prime.

Even if he could not avoid them, he could simply take a detour.

Even when he had to avoid the temporal vortices, it would not take up too much of his time. At most, he would just catch up to Jian Chen a little later.

The Elder of Mountains and Seas was evidently more careful than the Azure Peng King.

As a result, Jian Chen's idea was not particularly effective. His distance from the Elder of Mountains and Seas closed bit by bit. If this continued, being caught was only a matter of time.

At the same time, a figure sat in the air within a majestic palace that stood at the very centre of the Prosper Plane.

The endless light from the ways surrounded and masked his figure, causing him to be blurry and hazy.

However, this person seemed to give off a terrifying presence enough to make the world tremble. Just by sitting in the air, it seemed like the entire world, the entire universe, knelt below his feet.

It was as if he was the supreme ruler of the world!

It was as if he was the only god in the world!

At this moment, he opened his eyes slowly. They were a pair of cold, emotionless eyes. He gazed ahead leisurely.

Right before him, the space suddenly twisted and turned into a mirror. Within the mirror was the scene of Jian Chen and the Elder of Mountains and Seas moving through the spatial crack.

Whether it be the Anatta Tower that constantly changed direction or the pursuing Elder of Mountains and Seas, they were all presented clearly.

The cold gaze landed on the Anatta Tower. His gaze seemed to be able to penetrate the Anatta Tower and see all the things going on in there.

"The fruit of ways is ripening..." He murmured. His voice seemed to possess all the sounds in the world, making it impossible to distinguish his gender.

Afterwards, he closed his eyes slowly, and the scene conjured before him vanished as well.

Chapter 2414: From the Moon God Hall?

Within the spatial crack, the damaged Anatta Tower had already shrunk to the size of a fist. They travelled as quickly as they could in a zigzagging fashion. No matter how powerful the streams of energy

were, no matter how terrifying the temporal vortices were, the Anatta Tower would not try to avoid them. It flew as a faint golden streak of light.

It specially travelled towards the more dangerous places.

The Anatta Tower was truly able to rampage about fearlessly like a bull in this chaotic space where even Primordial realm experts had to be cautious. Nothing could stop it.

The laws within the spatial cracks were incomplete; the five elements were reversed, and yin and yang were a mess. A sense of time did not exist.

Jian Chen and Kai Ya had charged through many dangerous regions for who knows how long, but the sense of danger remained in Jian Chen's heart.

This allowed Jian Chen to understand that he had not managed to shake off the peak expert behind him. Instead, the distance between them gradually lessened.

"Let's leave this place!"

Jian Chen knew that he could not continue on like this. He immediately made a decision and emerged from the Anatta Tower. Wielding the Nine Star Sword of Heavenly Ways, he slashed out as hard as he could under the illumination of countless stars.

Immediately, the space before him twisted violently, and a crack was ripped open. Powerful pulses of energy scattered out in the surroundings with sword Qi.

At that moment, the unstable space became affected and became even more chaotic. Many streams of energy surged out in the surroundings, ramming into Jian Chen with force that could make even Primordial realm experts pale.

However, Jian Chen's body only shook a little. The terrifying streams of energy did not harm him at all.

The fourteenth layer of the Chaotic Body had gifted Jian Chen with unimaginable toughness. Even though the streams of energy were very powerful and could even heavily injured some Infinite Primes, it was nowhere close to harming Jian Chen.

Jian Chen ignored the streams of energy that battered him. He just grabbed the fist-sized Anatta Tower. Without any hesitation, he entered the crack with a flash and returned to the Anatta Tower.

Afterwards, he took out the small spaceship again, entered it, and continued on his way. Kai Ya emerged from the Anatta Tower and stood within the spaceship with Jian Chen, constantly paying attention to the expert behind them.

"The person behind us should catch up very soon. He has a secret technique to sense my position, so we can't shake him off. All we can do now is find a teleportation formation as quickly as possible and venture to the Prosper Plane," Jian Chen said sternly before immediately taking out a star chart. He looked for the closest teleportation formation that could take him to other planes.

The star chart was clearly labelled with the forty-nine great planes and eighty-one great planets of the Saints' World. Some regions in space occupied by powerful space beasts were noted as well. Even though it was incomplete, it was like a guiding lantern in the dark. It was extremely useful.

“The place closest to us is actually the Star Brilliance Plane. It’s only slightly closer than other places,” Jian Chen found their current location very quickly and immediately changed directions, charging off in a straight line.

The peaceful period was very short. After three days of peaceful travel, Kai Ya warned him again, and Jian Chen felt an ill omen as well. He knew the expert had locked onto their direction.

Immediately, he used the same trick as before, fleeing into a spatial crack and moving through it in the Anatta Tower.

“Jian Chen really is a slippery little worm.” A while later, the Elder of Mountains and Seas appeared where Jian Chen had vanished. He stared at the space before him as he ground his teeth.

He could not understand how Jian Chen was able to sense him when he concealed his presence and purposefully covered all of his traces.

“It’s a pity that I couldn’t lock onto you with the senses of my soul, or it would have been impossible for you to run for so long with your strength,” said the Elder of Mountains and Sea resentfully. Although he was a Grand Prime, and the senses of his soul were extremely powerful, Jian Chen maintained a distance that was beyond his range the entire time.

Moreover, all secret techniques that could peer into matters were useless when it came to Jian Chen, forcing the Elder of Mountains and Seas to rely on his innate ability. He was unable to locate Jian Chen.

However, when he arrived at Jian Chen’s previous location with the use of his innate ability, Jian Chen would have changed directions already. If he continued onwards in a straight line, it would be extremely likely for him to deviate from Jian Chen, widening their distance as a result.

As a result, he was forced to sense for Jian Chen’s position again every once in a while.

It became several times more arduous for him, a Grand Prime, to catch up to Jian Chen who was only an Infinite Prime in outer space.

Suddenly, space was ripped open, and the Elder of Mountains and Seas followed Jian Chen, entering a spatial crack again. Their chase continued in the horrible environment of the spatial crack.

Jian Chen sensed it soon after the Elder of Mountains and Seas entered the spatial crack. He was unable to locate the Elder of Mountains and Seas, but the danger he sensed grew in intensity.

This time, he was clearly much more composed. He piloted the Anatta Tower to continue on his way calmly.

At this moment, Jian Chen’s eyes suddenly narrowed. He discovered a corpse slowly drifting over up ahead. Even though the corpse was completely lifeless, it still gave off a dense pressure.

Under Jian Chen’s control, the Anatta Tower stopped before the corpse. Jian Chen pulled the corpse into the Anatta Tower before continuing on his way.

The corpse that Jian Chen had pulled in laid on the ground stiffly. It was the body of a middle-aged man with four eyes. Clearly, he belonged to a separate race. There was a finger-sized hole between his eyes, piercing through his entire head. His soul had already been destroyed.

“Ninth Heavenly Layer Infinite Prime!” Jian Chen was slightly shocked when he studied the corpse. He immediately determined the man’s cultivation. He was actually on the same level as Yi Jianping from the spatial battleship.

What shocked him even more was that the man was seemingly killed with a single attack.

Even a Ninth Heavenly Layer Infinite Prime had been killed with a single attack. Just how powerful was his killer? Were they a Chaotic Prime? A Grand Prime?

However, Jian Chen was not concerned with this issue. He looked at one of the corpse’s fingers, specifically the Space Ring on his index finger.

Although the Primordial realm expert had died, his Space Ring was not taken away.

The light in Jian Chen’s eyes flickered, and he slowly removed the Space Ring. He checked its contents with the senses of his soul.

Immediately, a dazzling array of items were presented before Jian Chen. The dead man was extremely wealthy. He had countless God Tier pills and heavenly resources that were stacked up in a huge pile. He even had over three thousand five-colored divine crystals.

At this moment, Jian Chen’s eyes suddenly narrowed. With a flip of his hand, he removed a hand-sized medallion from the Space Ring.

The medallion was white and lustrous. It shone with a faint glow like the moon. A large moon was imprinted on it.

What caught Jian Chen’s attention were the three words carved fancily onto one side of the medallion, ‘Moon God Hall’.

“The Moon God Hall?” Jian Chen murmured. Fairy Hao Yue in snow-white clothes suddenly appeared in his head.

Fairy Hao Yue had left the Cloud Plane many years ago. She ventured to the Ice Pole Plane, and there had been no news of her ever since. Who knows how she was doing now.

For a moment, Jian Chen fell into a daze as he stared at the three large words on the medallion. He played around with it and unintentionally saw its back.

The back of the medallion also had three large words, ‘Nan Potian’.

“Nan Potian!” Jian Chen’s heart suddenly shuddered when he saw this. His eyes shone brightly.

He had heard of this name many times from fairy Hao Yue. He was the greatest enemy of fairy Hao Yue. He was even the person responsible for fairy Hao Yue’s soul arrival on the Tian Yuan Continent.

Now that Nan Potian’s name had actually appeared behind the medallion, Jian Chen completely understood what it represented. Nan Potian was now in charge of the Moon God Hall.

“Does this person come from the Moon God Hall? Who killed him? Was it fairy Hao Yue? Or was it someone else?” Jian Chen looked at the corpse once again, and his feelings immediately became mixed.

## Chapter 2415: Kai Ya in Love

Back on the Cloud Plane, fairy Hao Yue had become especially powerful after she recovered. She had killed her way into the Empyrean Demon Cult alone. Even when the three vice-leaders worked together, they could do nothing to her. In the end, she punched a hole through the headquarters of the Empyrean Demon Cult and basically swaggered out.

Now, after so many years, fairy Hao Yue had probably become a Chaotic Prime.

“Nan Potian of the Moon God Hall was a peak Chaotic Prime already many years ago. I wonder if he has broken through to Grand Prime now. However, even if Nan Potian hasn’t broken through, it’s impossible for fairy Hao Yue to be his opponent. I hope fairy Hao Yue is safe,” Jian Chen thought as he worried for her safety.

However, he also understood that he himself was in trouble right now and would not necessarily survive. He was currently being chased by a mysterious expert, so he was in no shape to help fairy Hao Yue.

“I can only hurry to the Prosper Plane as quickly as I can. As long as I personally return the Anatta Tower to the Heavenly Palace of Bisheng, the merit will be very great. Not only will I be able to exchange for a large amount of cultivation resources for my sister, but I’ll also be able to spare the effort to help out fairy Hao Yue. With the strength of the Heavenly Palace of Bisheng, settling the Moon God Hall’s problems is only a matter of a single sentence.” Jian Chen became eager. He wanted to reach the Heavenly Palace of Bisheng immediately.

At this moment, Jian Chen flipped his hand, and a single talisman appeared in his hands.

“Is this a Cosmic Movement Talisman?” Jian Chen’s eyes lit up as he stared at it.

He had obtained several Cosmic Movement Talismans from the Grand Prime’s Space Ring back in the Neptunean Divine Palace.

Those Cosmic Movement Talismans were of extremely high quality. They could transport people incredibly far away. Once they were activated, it was even possible to escape from regular Grand Primes.

Now that he had found a talisman that was basically the same as them, Jian Chen immediately rejoiced.

The mysterious expert pursuing them could find his position in the sea of stars with precision through a wondrous secret technique. Jian Chen could not shake him off no matter how he tried. The appearance of the Cosmic Movement Talisman was basically giving him exactly what he needed when he needed it the most.

“No, this Cosmic Movement Talisman is of a very low quality. It can’t be compared to the ones I obtained from the Neptunean Divine Palace.” However, very soon, Jian Chen sighed in disappointment.

The quality of the Cosmic Movement Talisman was insufficient. Let alone the fact that it could not transport them very far away, even when he activated it, it was extremely likely for foreign powers to interfere with it, causing it to fail.

As a result, he might have been able to escape from some Chaotic Primes with the Cosmic Movement Talisman, but it would be far too difficult to escape from Grand Primes using it.

“Jian Chen, he’s catching up,” Kai Ya warned at this moment.

With that, Jian Chen stowed the Cosmic Movement Talisman away and ripped open space, returning to the Saints’ World.

Very soon, this flight and pursuit had already lasted for half a year. In order to avoid the Elder of Mountains and Seas, Jian Chen alternated between the Saints’ World and the spatial cracks, maintaining a certain distance from the Elder of Mountains and Seas the entire time, avoiding the range of the senses of his soul.

During this time, the Elder of Mountains and Seas had used hastening secret techniques several times to lock onto Jian Chen with the senses of his soul. Unfortunately, Jian Chen had Kai Ya. Kai Ya’s senses were unimaginably powerful, locating the Elder of Mountains and Seas precisely. She would always be able to remind Jian Chen before his arrival, which caused the Elder of Mountains and Seas much anger.

“Jian Chen, even if you flee to the ends of the world, you won’t be able to escape from me,” the Elder of Mountains and Seas roared out furiously from behind. He had gradually become impatient after half a year of pursuit. He became agitated.

The longer he took, the worse it would be for him. Once other experts received the news, all of this would end up as wasted effort.

“There are two more days until we arrive on the Star Brilliance Plane.”

A small spaceship tore through the dark outer space, moving with great speeds.

Jian Chen looked at his star chart inside the spaceship and finally became relieved. Once they reached the Star Brilliance Plane, they could just leave through a teleportation formation. By then, even Grand Primes would not be able to catch up to him.

Teleportation formations across planes were faster than almost all Grand Primes.

Jian Chen felt extremely fortunate along the way, as the location when he returned to the Saints’ World through a spatial crack would be unstable. Shifts were commonplace. They could even be taken to forbidden regions in space.

These forbidden regions of space were places where space beast sovereigns resided. Even many Grand Primes would not have the courage to venture into such places.

However, he had not experienced too great of a shift every time he returned to the Saints’ World from the spatial cracks. He remained in the surroundings of the Star Brilliance Plane, and the shifts even allowed his smaller spaceship to reach the Star Brilliance Plane a few years earlier than the larger spatial battleship from the Jadedfluid Plane.

“The Star Brilliance Plane is right ahead,” said Jian Chen. He felt a sense of relief. He could clearly see the tremendous plane of land that belonged to the Star Brilliance Plane.

Due to being too far away, the Star Brilliance Plane was only the size of a fingernail to Jian Chen right now. It was like a piece of earth, floating quietly in outer space without moving at all.

The Heavenly King of Azure Brilliance could cross this distance in a single moment, but Jian Chen needed two days.

Looking at the Star Brilliance Plane up ahead, Kai Ya, who stood beside Jian Chen, did not seem to lighten up at all. Instead, it seemed like something was weighing on her mind.

This was because she experienced an intense sense of threat during this entire half a year. The threat was so great that she felt like she was facing the heavens, where there was nowhere she could hide. The only thing she could do was wait for its arrival and accept it.

At this moment, Kai Ya suddenly looked at Jian Chen. The light in her eyes flickered as she hesitated.

It was as if there was something she wanted to say to Jian Chen, but she struggled to open her mouth about it.

“Kai Ya, what’s the matter?” Jian Chen was an Infinite Prime now. He was so powerful that even though he placed all his attention on the Star Brilliance Plane, he still sensed that there was something off with Kai Ya.

Kai Ya turned away and looked at the Star Brilliance Plane as if she was avoiding Jian Chen’s gaze. After a while of silence, she finally worked up the courage and said softly, “Jian Chen, there’s something I’ve actually always wanted to ask you, but I never dared to. Originally, I planned on burying it in my heart without anyone knowing, but I have an intense feeling that if I don’t say it now, I might not get a chance to in the future.”

Jian Chen was surprised when he heard that. He glanced at Kai Ya deeply and remained silent.

He was not dim. He could clearly tell what Kai Ya was trying to say from her tone and expression.

Kai Ya had clearly fallen in love with him.

This troubled Jian Chen. He actually had no idea how to handle this situation.

Kai Ya was born in the sea realm in the lower world. Jian Chen could still clearly remember the first time he met Kai Ya. Back then, he and Nubis sought refuge in the sea realm to avoid the many experts of the Beast God Continent.

Back then, Kai Ya was the daughter of a patriarch of a tribe within the sea realm. They had been brought together through some crystal coins, which led to everything else that followed.

Afterwards, he obtained the Octoterra Emperor’s cultivation method and passed it to Kai Ya, but unexpectedly, it caused the destruction of Kai Ya’s tribe. The entire tribe was exterminated, forcing Kai Ya to flee into a danger zone of the sea realm to survive.

Many years later, when Kai Ya emerged from the zone of danger, not only did her strength increase drastically, but she had even tamed a true divine beast, the Seven-colored Heaven-devouring Beast. As a result, she stood at the apex of the Tian Yuan Continent. Afterwards, she was heavily injured in the war against the World of Forsaken Saints and was unconscious ever since.

In order to heal Kai Ya, he brought her to the Saints' World and only managed to save her after strenuous effort.

Jian Chen admitted that he had gone to great lengths to awaken Kai Ya, even risking his life to venture into the Yin Mountains of Sevens Despair just to look for heavenly resources that could heal the soul.

Although he had done a lot for Kai Ya, he only treated her as his best friend. He felt no attraction towards her.

He had never expected Kai Ya to actually fall in love with him.

Chapter 2416: Reaching the Star Brilliance Plane

"Kai Ya, you've known me for quite some time. You should understand me," said Jian Chen slowly after a while of thought. His voice contained deep powerlessness.

Some matters could not be prevented, such as Kai Ya falling in love with him. It was impossible for him to prevent that. As a matter of fact, it would have been better if he did not know this.

He had always treated Kai Ya as his best friend. He did that since the Tian Yuan Continent. Especially when the two of them had fled the Cloud Plane due to Huai An's pursuit, the hardships and difficulties they experienced along the way had deepened their friendship.

Of course, it was only friendship.

It was exactly because of this friendship that he was unwilling to harm Kai Ya at all. Hence, he felt powerless about Kai Ya's love towards him.

Kai Ya was in low spirits. She did not look at Jian Chen and looked at the pitch-black space gloomily instead.

"Jian Chen, do you feel that I'm not pretty enough?" Kai Ya asked gently. She revealed her true feelings.

She had said something she had kept buried in her heart for many years, causing all the feelings she had repressed during those years to suddenly erupt like a volcano. It was extremely intense.

At that moment, she seemed to have become fearless. She felt no shyness about being a woman. She had gained courage.

Jian Chen sighed gently. The suddenness of the matter had caught him off-guard. Unprepared, he was immediately left at a loss about how to handle this situation.

Even though Kai Ya's appearance was not alluring, she was still rather pretty. She was not as ugly as she believed herself to be.

Of course, Jian Chen had already seen through materialistic concepts at his level of cultivation. Appearances were nothing to him. No matter how beautiful someone was on the outside, that was only surface level. Once the surface was removed, they were just a combination of flesh and bone.

As a result, Jian Chen had already broken free from the outlook of mortals with his current level of cultivation. He found no difference in beauty and ugliness.

However, Kai Ya was a Godking, yet she still cared about her appearance; this made Jian Chen realise just how deeply in love she was with him.

The love had obscured her. It had disorientated her, preventing her from seeing the essence of things.

“Jian Chen, when I was heavily injured on the Tian Yuan Continent and entered a long period of slumber, you might have thought that I had lost contact with the outside world completely and had no idea what was happening around me.” Kai Ya turned around and looked at Jian Chen. Her face was mixed, and she continued, “But in reality, it was the exact opposite. I knew exactly what you did during the time I was unconscious. I even knew you went to the Yin Mountains of Sevens Despair and encountered nine Godkings there. Only by risking your life did you find the heavenly resource that could heal souls, the Albumstone Heart Flower. It was exactly because of the Albumstone Heart Flower that I awakened from my slumber.”

Kai Ya spoke very softly. Her eyes that looked towards Jian Chen were filled with a tenderness she had never displayed before.

Now that the final barrier in her heart had been pierced, she revealed her true feelings. She no longer hid the feelings in the depths of her heart.

Jian Chen was shocked when Kai Ya mentioned the events that happened in the Yin Mountains of Sevens Despair.

After all, not only was Kai Ya’s cultivation puny back then, not even at the Origin realm, but she was unconscious as well. Despite all that, she was still able to sense what happened in the Yin Mountains of Sevens Despair; this was unsettling for him.

Kai Ya had displayed extraordinary abilities in many aspects in the past. They could even be called utterly shocking, making Jian Chen guess that it was extremely likely for her to be the reincarnation of a certain expert. However, it was impossible for her to know so much as just a Saint Emperor.

Fairy Hao Yue was a reincarnated Primordial realm expert from the Saints’ World, but let lone Saint Emperor, it was impossible for her to possess Kai Ya’s heaven-defying ability even when she was at the Origin realm.

“Is Kai Ya a reincarnation of a Grand Prime?” Jian Chen thought. At the same time, he felt puzzled.

If she was a reincarnation, why did Kai Ya still not show any signs of awakening her memories now that she was already a Godking?

This was clearly different from fairy Hao Yue and the founders of the ten great protector clans on the Tian Yuan Continent.

Fairy Hao Yue had reincarnated with all her past memories, while the founders had also gone through samsara. Out of the ten of them, Feng Xiaotian, Guihai Yidao, and Yang Lie all recovered their memories when they were Saint Kings.

While Jian Chen was pondering about all this, Kai Ya thought back to the past. She was gloomy and dispirited. She said softly, “It was also from then on that your shadow gradually appeared in my heart,

and it grew deeper and deeper. Actually, I can sense that you only treat me as a friend and not a partner at all, so I always buried my feelings for you such that it was a secret that only I knew.”

“I planned on hiding this secret for the rest of my life, where I would never tell you. As long as I could remain by your side and see you often, it would have been enough. However, I suddenly don’t feel like hiding it anymore. I want you to know because I have a strong feeling that I probably won’t get the chance to say it in the future if I don’t say it now...”

Kai Ya’s eyes gradually moistened when she reached there. They clouded up before condensing into two translucent tears that slowly flowed down her face.

There was something she did not explain to Jian Chen, and that was the strong feeling she experienced. It was as if she did not have much time left with Jian Chen, as if they would separate soon.

The separation this time might be forever!

Jian Chen obviously had no idea that Kai Ya was referring to eternal separation. He fell into a long period of silence after he listened to Kai Ya’s words.

A while later, he sighed gently and said, “Kai Ya, we can only be friends.”

Kai Ya’s heart gently trembled. She did not say anything. Instead, she looked at the space outside gloomily; she seemed rather miserable.

She knew that this would happen.

They did not talk for the remaining portion of the journey. It remained silent within the spaceship. Both he and Kai Ya said nothing.

Before long, they reached the Star Brilliance Plane. As spaceships could only be used in outer space, he stowed the spaceship away after reaching the plane. Without any hesitation at all, they immediately flew towards the nearest city.

Very soon, Jian Chen and Kai Ya arrived in an extremely bustling city. They immediately paid a hefty price to locate the closest teleportation formation that could take them to other planes.

Before long, Jian Chen gained a more detailed understanding of the Star Brilliance Plane, learning even more than what he had learnt from Yi Jianping and the others.

The Star Brilliance Plane was where the Nine Brilliance Star Lord cultivated. As a result, in order to express their respect towards the Nine Brilliance Star Lord, no one dared to found kingdoms or empires on the entire Star Brilliance Plane. No one dared to take the name of emperor. The various organisations all stood on the Star Brilliance Plane as sects or clans.

The overall power of the Star Brilliance Plane ranked towards the top of the forty-nine great planes of the Saints’ World. It was basically only second to the seven sacred planes. As a result, there were over a hundred teleportation formations that could take people to other planes on the Star Brilliance Plane. They were controlled by several dozen peak clans and organisations.

Jian Chen learnt that the city where he currently stood was actually only under the control of a sect with Infinite Primes.

A sect like that was only average on the Star Brilliance Plane, or even slightly worse than the average. It was obviously impossible for them to have teleportation formations that could take people across planes.

Jian Chen finally learnt after some investigation that the closest interplanar teleportation formation was located in the territory controlled by a peak sect called the Five Point sect.

Afterwards, he and Kai Ya immediately went to a teleportation formation to travel to the territory of the Five Point sect.

Just when Jian Chen and Kai Ya were about to make their way to the Five Point sect, the space in a region extremely distant from the Star Brilliance Plane twisted, and a huge crack suddenly appeared. The Elder of Mountains and Seas appeared there like a ghost.

As soon as he appeared, he closed his eyes and used his innate ability. When he opened his eyes, coldness flashed through them.

“I’ve found you. You seem to be on the Star Brilliance Plane. Hmph, don’t you even think about escaping through the teleportation formations on the Star Brilliance Plane!” The Elder of Mountains and Seas became frantic. He did not dare to waste any time, so with a single movement, he vanished. He hurried off towards the Star Brilliance Plane as quickly as he could.

“I’ve chased you for so long, so I can’t let you enter the teleportation formation no matter what...” The Elder of Mountains and Seas snarled inside.

#### Chapter 2417: The Five Point Sect

Jian Chen and Kai Ya were already standing within the teleportation in the bustling city. The teleportation formation was slowly activated and bright, white light appeared. They were about to be transported to the Five Point sect.

However, at this moment, Jian Chen’s heart shivered. The intense sense of danger appeared once again.

“He has already located us. Before long, the mysterious expert will arrive on the Star Brilliance Plane. We have to be fast. We need to reach the teleportation formation before he makes it to the Star Brilliance Plane,” Jian Chen said sternly. With that, the teleportation formation exploded with light, and they vanished under its great power.

The Five Point sect was one of the several dozen peak organisations on the Star Brilliance Plane. They were extremely powerful, ranking ninth on the entire Star Brilliance Plane.

Even though they were only ninth, the Star Brilliance Plane was a place only second to the seven sacred planes after all. There was a myriad of sects and clans, and the plane was covered with experts. It was evident just how powerful the Five Point sect was to be able to stand out among them and reach such a high rank.

The ancestor of the Five Point sect, the Point Cloud Venerable, was a dazzling figure renowned throughout the Saints’ World.

This was because the Point Cloud Venerable grasped both the Laws of Time and Space. The two laws complemented each other, unleashing astonishing power. This gave the Point Cloud Venerable supreme battle prowess, enough for him to claim to be invincible among his level of cultivation.

The Five Point sect controlled three interplanar teleportation formations. One of them was located in the Five Point sect and was specifically for disciples, while the other two were located in two super-sized cities that the Five Point sect administered.

Firelight City was one of the two super-sized cities out of all the cities the Five Point sect administered.

The central square of Firelight City was busy. Cultivators constantly moved about, and the several dozen teleportation formations established there constantly flickered, transporting people between regions.

At this moment, one of the teleportation formations flashed, and Jian Chen and Kai Ya appeared in Firelight City.

As soon as they arrived, Jian Chen and Kai Ya approached the interplanar teleportation formation nearby.

The teleportation formation was unusually quiet. It would go without use for ten days or more each time, which was a stark contrast to the several dozen teleportation formations around it.

The person who watched over the teleportation formation was a middle-aged man in the Five Point sect's uniform. He was a First Heavenly Layer Infinite Prime.

Interplanar teleportation formations were an unignorable piece of property to all organisations. As a result, not only would each teleportation formation be protected by powerful formations, but the people who watched over them would usually be Primordial realm experts as well.

Jian Chen let out his presence slightly and disguised himself as a Third Heavenly Layer Infinite Prime. He negotiated with the Infinite Prime who watched over the formation.

"I want to go to the Prosper Plane."

"The Prosper Plane is extremely far away from the Star Brilliance Plane. I can't transport you there directly. I can only send you to the Hematophagis Plane," replied the Infinite Prime.

"Then I'll go to the Hematophagis Plane," Jian Chen said calmly. However, he was slightly frantic on the inside.

The sense of danger was becoming greater and greater. The mysterious expert pursuing him was rapidly closing the distance. He needed to leave as quickly as possible.

The Infinite Prime from the Five Point sect looked at Jian Chen and Kai Ya. He said indifferently, "It's fifty five-colored divine crystals each to go to the Hematophagis Planes, so one hundred for two. Moreover, you can't carry any living organisms in your spatial treasures, or there'll be consequences once the formation detects it."

Jian Chen nodded. Fifty five-colored divine crystals per person was a fair price. It was much cheaper than when he left the Desolate Plane.

He immediately handed over a hundred five-colored divine crystals. He passed through the testing formations with Kai Ya and entered the teleportation formation.

Although he carried spatial treasures on him, and Hei Ya and Qing Yixuan were within them, they were inside the Anatta Tower. As such, it was naturally impossible for the formations to find anything with the Anatta Tower's quality.

At the same time, the Elder of Mountains and Seas approached the Star Brilliance Plane with terrifying speed. The plane of land rapidly expanded in his eyes.

He was hundreds of times faster than Jian Chen.

As he drew closer, he became able to sense Jian Chen with greater and greater precision.

"Jian Chen is actually in the boundary of the Five Point sect. The Five Point sect has three teleportation formations that can take people between planes. He's currently at..." The Elder of Mountains and Seas flew quickly as he used his ability again. Suddenly, his face changed, and he cried out, "Oh no, he seems to be in Firelight City right now. Firelight City just happens to have one of those teleportation formations."

The Elder of Mountains and Seas' face became extremely ugly. There was still some time before he could set foot on the Star Brilliance Plane. If Jian Chen was near a teleportation formation right now, he probably would have left before the Elder of Mountains and Seas had even set foot on the Star Brilliance Plane.

If he was really teleported away from the Star Brilliance Plane, there really might be no more hopes of him catching up to Jian Chen and taking the Anatta Tower away from him.

This was because he could guess that Jian Chen would undergo consecutive teleportations and reach the Proper Plane before him. It would be difficult for him to stop Jian Chen.

If Jian Chen returned the Anatta Tower to the Heavenly Palace of Bisheng before he could catch up, there would be no more point in hunting him down.

"I have to stop him." The Elder of Mountains and Seas gritted his teeth. The light in his eyes flickered as he thought, "I do have some ties with the Point Cloud Venerable of the Five Point sect. It looks like I can only send a message to him."

Making up his mind, the Elder of Mountains and Seas immediately took out a jade talisman for messaging.

A white-robed old man sat in the air among a mist-covered mountain range within the forbidden grounds of the Five Point sect. He did not give off any presence at all, making him seem just like an ordinary person.

However, the space around the old man seemed to beat like a living heart. It throbbed rhythmically. As the space beat, the time there seemed to be affected as well, forcing it to become extremely unnatural. It would be slow at times and fast at other times. Unbelievably, time would even reverse.

The Laws of Space and the Laws of Time were present on a single person. This old man was the supreme existence of the Five Point sect, the Point Cloud Venerable!

At this moment, a jade talisman appeared in the Point Cloud Venerable's hand. He looked at it and murmured, "It's from the Elder of Mountains and Seas from the Gloomwater sect of the Aqua Plane. Why is he suddenly looking for me?"

The senses of the Point Cloud Venerable's soul immediately entered the talisman. He received a message from the Elder of Mountains and Seas from so far away.

"Point Cloud Venerable, seal up the three interplanar teleportation formations within your Five Point sect. I'm about to set foot on the Star Brilliance Plane. I'm willing to give you two droplets of hell water in exchange." The Elder of Mountains and Seas' voice rang out.

"Two droplets of hell water!" The Point Cloud Venerable cried out as his eyes immediately became extremely bright.

Hell water was a speciality of the Aqua Plane. It came from the few hell springs on the Aqua Plane. They were divine liquids that could consolidate the soul and cleanse impurities. Even to Grand Primes, they were extremely useful, which made them very precious.

A single droplet of hell water would only condense after a million years. They were extremely precious, making them a treasure that had all demand and no supply in the Saints' World.

However, the Elder of Mountains and Seas had offered two droplets of them all of a sudden, and it was just to make the Five Point sect close their interplanar teleportation formations. This made the Point Cloud Venerable believe the Elder of Mountains and Seas had lost his mind.

"Alright, two droplets of hell water. That's what you promised." The Point Cloud Venerable agreed without thinking too much about it as if he feared the Elder of Mountains and Seas would rescind the deal.

Jian Chen and Kai Ya stood in the centre of the teleportation formation in Firelight City. It had already been activated, causing white light to rise up and shine brighter and brighter. Gradually, it enveloped Jian Chen and Kai Ya.

The teleportation formation was charging up. Very soon, Jian Chen and Kai Ya would be transported off the Star Brilliance Plane and to the Hematophagis Plane.

However, at this moment, the mind of the Infinite Prime who watched over the teleportation formation shuddered. The powerful senses of the soul surged over.

The arrival of the senses of the soul immediately made the middle-aged man show great respect.

In just five seconds, a gleam of light shone through the eyes of the middle-aged man. He suddenly looked at Jian Chen and Kai Ya, who stood within the activated teleportation formation. He immediately formed seals with both hands, sending a power into the teleportation formation.

Immediately, the teleportation formation stopped gathering power. The shining light from the teleportation formation that was just about to be fully activated gradually dimmed, returning to normal very soon due to its energy source being cut off. The teleportation was halted.

Chapter 2418: End of the Line (One)

Jian Chen stood within the teleportation formation and sensed the strengthening power. He finally became relieved.

He had taken a teleportation formation across planes before. Although the formation needed to gather power for a while, he could definitely leave the Star Brilliance Plane before the mysterious expert arrived.

As long as he made it onto the Hematophagis Plane, he would be able to take a second teleportation formation and directly travel to the Prosper Plane.

Provided he continued with his teleportations, the mysterious expert who pursued him definitely would not be able to catch up, even if they were a Grand Prime.

At this moment, the blinding teleportation formation suddenly dimmed. Even the power rapidly weakened.

Very soon, the teleportation formation that was charging up to send them to another plane came to a complete stop.

“What’s going on? Why has the teleportation formation stopped?” Jian Chen suddenly looked at the Infinite Prime responsible for the teleportation formation, and his face became sunken.

“I’ve just received orders to temporarily close down the interplanar teleportation formation. No one can leave through our Five Point sect’s teleportation formations,” the middle-aged man said helplessly. However, his gaze towards Jian Chen and Kai Ya contained a hint of suspicion. He wondered to himself, “Strange, why has the ancestor suddenly shut down the teleportation formation? That rarely ever happens. Is it because of the two of them?”

Jian Chen’s heart sank. He could already guess that it was related to the mysterious expert who was chasing them. He did not say anything. Instead, he immediately pulled Kai Ya towards the several dozen teleportation formations that were limited to taking people around the Star Brilliance Plane.

“There are several dozen teleportation formations that can take people to different places on the Star Brilliance Plane. Since the Five Point sect’s is unavailable, we’ll go elsewhere. I refuse to believe he can close all the interplanar teleportation formations on the Star Brilliance Plane,” Jian Chen said coldly before immediately stepping into a teleportation formation nearby and leaving the territory of the Five Point sect.

The ancestor of the Five Point sect, the Point Cloud Venerable, remained seated in the air. Although he did not take a single step out of the forbidden grounds, nothing on the Star Brilliance Plane could be hidden from him if he wanted to know.

This was because the senses of his soul were so powerful that he could envelope the entire Star Brilliance Plane.

“It looks like the Elder of Mountains and Seas has come for the two of them. Who are they? They’re only a mere Infinite Prime and Godking, yet they’re enough for the Elder of Mountains and Seas to pay such a hefty price to prevent them from leaving the Star Brilliance Plane,” thought the Point Cloud Venerable. He had become extremely curious about why the Elder of Mountains and Seas had used two droplets of hell water to stop two measly figures that did not raise his attention at all.

Hell water had extremely significant effects on even Grand Primes, so its value went without saying. Despite that being the case, the Elder of Mountains and Seas was actually using two droplets for the two of them. Such an act did not suit him at all.

“I heard the Elder of Mountains and Seas recently went to the Desolate Plane to get the Anatta Tower from Jian Chen. Is one of them Jian Chen in disguise?” The Point Cloud Venerable’s eyes lit up. He immediately stood up, and a terrifying presence radiated from him; it made mountains tremble and space twist.

The disturbance caused by the Anatta Tower had spread across the entire Saints’ World long ago. The Point Cloud Venerable naturally knew about it, but since there were just too many experts gathered on the Desolate Plane, the Point Cloud Venerable knew it was very unlikely for him to obtain the Anatta Tower. He might even end up offending all the organisations, so he did not take part back then.

But now that it was extremely likely for Jian Chen to be in the territory of his Five Point sect and that no one else apart from the Elder of Mountains and Seas knew, the Point Cloud Venerable immediately became interested. Even if he obtained the Anatta Tower, he would not need to worry about all the experts coming to fight him for it.

“Hahaha, what a heaven-sent blessing, what a heaven-sent blessing. All the other people want the Anatta Tower so that they can return it and benefit from the Heavenly Palace of Bisheng. But with my methods, if I plan things properly, I can prevent anyone else from learning about this. I might even be able to take the Anatta Tower for myself.” The Point Cloud Venerable chuckled aloud. The Laws of Time and Space wrapped around him. He had already begun to use his exceptional techniques to obscure the heavenly secrets.

However, at this moment, his heart suddenly thumped. A sense of unease silently rose up in his heart.

The Point Cloud Venerable was surprised. After a moment of thought, he seemed to fuse with the world. Under the complementary Laws of Space and Time, a river of time appeared beneath his feet.

The light in his eyes flickered as he peered into something. He gave off a dense presence of ways as he looked along the flow of time, gazing into the future.

Gradually, the Point Cloud Venerable’s excitement vanished. He became stern.

Very soon, the river of time vanished, and the presence of ways around him disappeared as well. He hovered in the air as he stared into the distance. He was stern and surprised.

“I never thought the Anatta Tower would be such a huge piece of karma. It’s a disaster. I can’t possess it. Although I can’t see the source of this karma and I struggle to see the origins of the disaster, I did see the destruction of the Five Point sect and my death.”

“If I interfere and take the Anatta Tower for myself, it might end up with me, but my final fate would be death...” The Point Cloud Venerable struggled to remain composed. He became rather pale.

He possessed wondrous abilities with the combination of the Laws of Time and Space. He could see fate and the future. He had managed to avoid many calamities with this ability, which was why he firmly believed what he saw in the river of time.

The Point Cloud Venerable gradually calmed down. He sat back down and decided to no longer interfere.

To another side, Jian Chen had already left the territory of the Five Point sect through a teleportation formation. They had arrived in a second city with an interplanar teleportation formation. After paying the five-colored divine crystals, they tried to teleport away as soon as possible.

The sense of danger within him was becoming more and more powerful. He knew that there was not much time remaining.

However, at this moment, a powerful senses of the soul descended from outer space, directly enveloping the city where Jian Chen was located.

Jian Chen could clearly sense the suffocating senses of the soul from within the teleportation formation. It surged through the dense power of the formation and enveloped him.

The senses of the soul were so powerful that it actually interfered with the operation of the teleportation formation. Immediately, the power around the teleportation formation pulsed with instability. The teleportation formation could not charge up anymore.

“Oh, no!” Jian Chen’s face changed. The mysterious expert was even faster than he had imagined.

Chapter 2419: End of the Line (Two)

Rip...

In the next moment, space was ripped open. An old, shrivelled hand instantly reached out towards the teleportation formation that could take people to other planes.

The hand contained unbelievable power, and the laws had condensed around it as well. The thick layer of power around the teleportation formation seemed as fragile as a piece of paper before it, unable to stop the hand at all.

“Stop! This teleportation formation belongs to our Rakshasa sect. Senior, if you ignore the rules and destroy the teleportation formation of our Rakshasa sect, aren’t you afraid of angering the Rakshasa Ancestor?” called out the Primordial realm expert who watched over the teleportation formation.

As the teleportation formation operated, all of the protective formations would be shut down, so the teleportation formation was completely open right now. Not only did the arrival of the shrivelled hand disrupt the stability of the teleportation formation, but it could even cause irreparable damage to the structure and inscriptions.

After all, this was a teleportation formation that could take people across planes, not any old formation. The construction of every single one of them cost a tremendous amount of wealth. Even peak organisations would not have many of them. They would be extremely difficult to repair once damaged.

“I, the Elder of Mountains and Seas, will pay for all your Rakshasa sect’s damages two fold,” said the Elder of Mountains and Seas. He stepped out of the rip, and the blue light around him enveloped the entire city as an ocean. With the power of ways weaved in between, it obscured the sky and hid everything happening within it.

Afterwards, he suddenly wrenched his hand back. Jian Chen and Kai Ya, who stood within teleportation formation, immediately felt a mysterious power restrain the space around them. As a result, the two of them were pulled out of the teleportation formation.

As this happened, neither Jian Chen nor Kai Ya was able to resist at all. After all, they faced a Grand Prime. The difference in strength was just too great.

Swish!

With a flash, the Elder of Mountains and Seas departed with Jian Chen and Kai Ya. He had vanished.

The Primordial realm expert from the Rakshasa sect nearby immediately crushed a jade talisman.

In the next moment, powerful senses of the soul emanated over and revolved around the sky above the city.

“The Elder of Mountains and Seas...” A voice that seemed to emerge from hell rang out in the space there vaguely. Afterwards, the powerful senses of the soul expanded and enveloped the entire Star Brilliance Plane.

罗刹宗的老祖，已经在整个星耀州搜寻海山老人的下落。

The ancestor of the Rakshasa sect searched for the Elder of Mountains and Seas across the entire Star Brilliance Plane.

In an extremely remote region of the Star Brilliance Plane, the Elder of Mountains and Seas stood proudly within a water-blue barrier. He was unable to contain his excitement.

Before him stood Jian Chen and Kai Ya. They were both stern. Now that they faced a Grand Prime, their hearts had completely sunken.

“My Heaven-obscuring Barrier of Flowing Water can obscure the heavenly secrets and hide from the senses of the soul of most Grand Primes, so don’t even think about waiting for other experts to arrive here then fleeing during the chaos. Jian Chen, you’ve fled under my watch for so long. I would like to see how you’ll be able to escape this time.” The Elder of Mountains and Seas sniggered as if victory was within his grasp.

Indeed, there was no reason for him to worry at all now that Jian Chen was trapped within his Heaven-obscuring Barrier of Flowing Water.

The Heaven-obscuring Barrier of Flowing Water was equivalent to a miniature world. Unless the miniature world was destroyed, no one could escape from it.

However, Jian Chen would be dreaming if he wanted to destroy a Grand Prime’s barrier with his strength as an Infinite Prime.

“Senior, you went to such great lengths to chase us because of the Anatta Tower. I can give you the Anatta Tower, but you must spare us,” Jian Chen said sternly.

The Elder of Mountains and Seas shook his head when he heard that. He smiled strangely and said, “Jian Chen, if you had come up with that earlier, I really might have spared the two of you. However, it’s too

late now.” The Elder of Mountains and Seas’ face turned cold and became filled with killing intent. He continued, “You made me chase you for so long in outer space, and I even came across a Goldenword Beast Sovereign because of you, injuring me a little. You angered me long ago. This time, even if you hand over the Anatta Tower willingly, I will never spare you.”

“I know you have some connections with the God clan. If the God clan was at their peak condition, I might have been a little afraid, but the God clan is different from before. As long as you’re dead, the hall elders and great elders of the God clan will never take action for someone as measly as you.”

“Are you really determined to kill us?” Jian Chen’s face sank. Determination flooded his eyes, and he secretly communicated with the sword spirits.

He had run out of options now. The only way for him to fend off this disaster was through the fusion of the twin swords.

Although this would expose his identity, he was out of choices now.

The Elder of Mountains and Seas said nothing. Killing intent rose up in his eyes, and he no longer wasted any words on Jian Chen. He directly struck out.

He extended a hand, and the power of laws surged. A blinding, blue light turned into a huge wave, sweeping towards Jian Chen and Kai Ya.

As if he faced a great opponent, Jian Chen became extremely stern. He was about to fuse the twin swords.

He did not hide inside the Anatta Tower. Although the Elder of Mountains of Seas could not get through it, he could simply take it away. Once the Anatta Tower ended up in the Elder of Mountains and Seas’ hands, he would only need to refine it slightly with his exceptional abilities as a Grand Prime, and they would be reduced to sitting ducks.

Boom!

However, at this moment, a deafening sound suddenly rang out. The Elder of Mountains and Seas’ Heaven-obscuring Barrier of Flowing Water trembled violently. Gradually, a crack appeared in the barrier that could block attacks from Grand Primes.

“Point Cloud Venerable, don’t get in my way. Once I obtain the Anatta Tower, I’ll give you half of the benefits,” the Elder of Mountains and Seas snarled. His barrier was extremely well-hidden, enough to hide from the senses of Grand Primes’ souls. Apart from the supreme Nine Brilliance Star Lord, only the Point Cloud Venerable could find him through the truths of space and time on the entire Star Brilliance Plane.

“I don’t want the Anatta Tower. The Anatta Tower is an object that ties into huge karma. Once I try to take it, I will face a massive crisis. Jian Chen, I am the Point Cloud Venerable of the Five Point sect. I will destroy the Heaven-obscuring Barrier of Flowing Water for you and end the tie I created with you earlier. Whether you can escape or not will be up to your luck.” The Point Cloud Venerable’s voice rang out slowly. The Laws of Space and Time weaved together above the barrier, forming an invisible blade that landed on the barrier viciously.

## Chapter 2420: The End of Ties

Immediately, the Heaven-obscuring Barrier of Flowing Water shattered.

“Kai Ya, leave with the Anatta Tower!” Jian Chen responded extremely quickly. He cut open space with the Nine Star Sword of Heavenly Ways and shoved the fist-sized Anatta Tower into Kai Ya’s hands. At the same time, he activated the Cosmic Movement Talisman he had found from the Primordial realm expert of the Moon God Hall without any hesitation and stuck it on Kai Ya. Then he pushed her into the spatial crack.

His thought process was very simple. He wanted Kai Ya to take the Anatta Tower, and then activate the Cosmic Movement Talisman in the spatial crack so that she would be taken to somewhere unknown.

Kai Ya would face no danger in the spatial crack if she possessed the Anatta Tower.

He could only remain behind to cover her, using the fusion of the twin swords to handle the Elder of Mountains and Seas or even kill him.

As long as the Elder of Mountains and Seas remained alive, Kai Ya would be found once again even if she left with the Anatta Tower.

However, at this moment, Kai Ya actually forcefully flew back out from the spatial crack. She smiled faintly and seemed liberated. She said slowly, “Jian Chen, if you want to leave, leave by yourself. I hope you will think of me often and not forget about me once I die,” Kai Ya said gently. She pecked Jian Chen’s cheek gently with her lips.

“Hmph, you’re facing death, yet you’re still in the mood to act lovey-dovey? Do you think you still have the opportunity to escape before me?” The Elder of Mountains and Seas snorted coldly. His terrifying presence crushed the space there, causing it to seize up. Jian Chen immediately felt like he had been immobilised.

However, Kai Ya was unaffected. She could move about as she wished in the frozen space. She used the Laws of Creation, Destruction, and Fire simultaneously, knocking the immobilised Jian Chen into the spatial crack.

“Kai Ya!” Jian Chen’s face changed drastically as he fell into the spatial crack. He cried out.

Kai Ya stood on the Star Brilliance Plane and looked at Jian Chen with a smile. She seemed to be at ease, showing no fear as she faced death.

Afterwards, she looked at the Elder of Mountains and Seas indifferently.

Immediately, a blue light enveloped Kai Ya. The blue light had been condensed from the Elder of Mountains and Seas’ ways. It was the power of laws, containing unbelievable might. Kai Ya’s body began to disintegrate at a visible rate under the blue light, leaving nothing behind.

“Kai Ya, no!” Jian Chen bellowed out furiously. His eyes turned bloodshot; he wanted to charge out again.

He watched Kai Ya die before him helplessly. The grief and sorrow he suffered were enough to cause him to end himself.

However, at this moment, the Cosmic Movement Talisman activated. A dense power surged out and vanished with him. The spatial crack gradually closed up as well.

“You’re dreaming if you want to escape after ending up in my hands,” the Elder of Mountains and Seas was furious. He had managed to corner Jian Chen after chasing him for so long in outer space and expending so much effort. How could he just allow Jian Chen to escape before him?

The Elder of Mountains and Seas extended a finger. The power of laws descended, and a terrifying energy ripped through space. He was about to pursue Jian Chen.

He could tell from a single glance that Jian Chen’s Cosmic Movement Talisman was not of particularly great quality. Even if he were transported away, he would not be far.

Kai Ya’s body rapidly disintegrated as all of this happened. She was reduced to dust from the Elder of Mountains and Seas’ attack, dispersing into the surroundings bit by bit.

It was her legs first, before spreading to her waist, and then the upper half of her body in the end.

In an instant, Kai Ya’s entire body vanished completely, leaving only her head behind.

The head rapidly disintegrated as well.

There was no fear in her eyes at all. There were only sorrow and deep reluctance.

She knew she was about to die. She did not fear death because she should have died back in the lower world. She had only awakened again because of Jian Chen. Her sorrow and reluctance came from the fact that she understood she would not be able to accompany Jian Chen ever again. She would not be able to fight at his side again.

At this moment, Kai Ya’s face suddenly stiffened up. The light in her eyes suddenly vanished as if she had forgotten about her pain, her worries, and all feelings.

In the next moment, a cold gaze appeared in Kai Ya’s eyes, directly gazing towards the Elder of Mountains of Seas.

Under the icy gaze, the Elder of Mountains and Seas who had ripped open space and was about to pursue Jian Chen quivered inside. A strange coldness filled his entire body.

The Elder of Mountains and Seas unintentionally glanced at Kai Ya’s head, and his gaze just happened to lock onto her eyes.

The Elder of Mountains and Seas immediately shuddered when they made eye contact. The gaze seemed to possess the might of the heavens and infinite power. Just a single glance had filled his entire soul with fear. His body turned cold, his blood stopped flowing, and a chill ran down his spine.

What kind of eyes were they? They were cold, emotionless, just like the eyes of heaven. They looked down on all existences like they were ants. Even for someone as powerful as the Elder of Mountains and Seas, he could not help but grow cold inside. An inexplicable fear filled his mind completely.

Even though he was a Grand Prime, he was unable to remain unaffected.

Fortunately, this gaze only lasted for a split second before Kai Ya's head completely disintegrated and dispersed into the surroundings. Nothing was left behind, including her soul. The gaze that struck fear into the heart of the Elder of Mountains and Seas had vanished with it.

The Elder of Mountains and Mountains froze up there. He did not move, nor did he pursue Jian Chen, as he could not forget the terrifying gaze he had just witnessed.

Even though it was just a split second, the split second had left a permanent mark in the heart of the Elder of Mountains and Seas. He still had not recovered from the coldness in his heart even now.

However, what the Elder of Mountains and Seas failed to realise was that once Kai Ya died, a spiritual light that no one could sense was left behind. The light was extremely well-hidden, and even the Elder of Mountains and Seas failed to sense it at all despite their proximity.

With a flash, the light vanished. It flickered through the stars at a shocking rate. It could cross the distance of a plane or even several of them with each flicker such that even Grand Primes would be astounded by its speed.

In just a few seconds, the light basically crossed through half of the Saints' World. It passed by over a dozen great planes and entered a majestic, golden divine hall.

A figure stood in the depths of the divine hall. He shone with a hazy glow, concealed by the light from the ways. He seemed to be a part of the world.

The light arrived before the figure. With a flash, it vanished between the figure's forehead.

The figure shrouded by the light trembled gently. He slowly opened his eyes and revealed a pair of emotionless eyes.

However, very soon, a ripple appeared in his eyes. His eyes seemed to gain some color as if many scenes were flickering through the eyes. It was as if a stone had been cast into a lake—they were no longer calm.

However, this only lasted for a short while. He closed and opened his eyes again, and he recovered the prior coldness.

"My ties... with you... end here..." he murmured to himself. The voice was utterly emotionless, and it was impossible to distinguish his gender from that. Afterwards, a jade-white hand extended out from the light into the space in front.

The space before the hand was like a lake of clear water, allowing the hand to sink into it silently.
