

Chaotic 2791

Chapter 2791: The Glazed Fruit of Scarlet Blood

“This vice hall master is here. Hahaha, I only came to get an understanding of what was going on, to see whether your organisations outside could actually fulfil our fifth divine hall’s request or not, but I never thought you would’ve already brought it in. The Hundred Saint City really hasn’t disappointed us.”

Just as the envoy from the Heavenly Lightning clan was about to venture to the capital city of the Darkstar race to invite over the upper echelon of the fifth divine hall, clear laughter suddenly rang out from outside the Pantheon Divine Hall. It possessed immense power and great dignity, accompanied by the pressure that belonged to the Primordial realm.

Jian Chen recognised the voice instantly to be the weakest out of the three vice hall masters of the fifth divine hall, Bing Yuan.

It was exactly because he was the weakest in the fifth divine hall that he ran errands for various matters. He was basically tasked with all the miscellaneous matters in the fifth divine hall that required someone important to handle.

The eyes of the prodigies from the Heavenly Lightning clan and the Jade Pill sect lit up. Lei Yun could not help but laugh aloud. “So it’s sir vice hall master! We’ve failed to welcome you from afar, so please forgive us.”

Before Lei Yun had even finished talking, an extra person appeared in the Pantheon Divine Hall silently. He was a vice hall master of the fifth divine hall, Bing Yuan.

Apart from Jian Chen, no one present sensed Bing Yuan’s arrival, much less when he entered the Pantheon Divine Hall. When everyone discovered Bing Yuan’s existence, they found him standing there at perfect ease, as if he had stood there for a very long time already.

Bing Yuan ignored all the prodigies present. The moment he appeared in the divine hall, his gaze had been fixed on Lei Yun. He did not even look at the other people.

It was as if the cultivators within the Hundred Saint City were absolutely nothing in his eyes. If it were not for completing the mission his hall master had given him, he would not even want any contact with these cultivators.

“What our fifth divine hall requires are heavenly resources or pills that have reached God Tier and can heal the soul. Has the item your Heavenly Lightning clan brought in really fulfilled our request?” Bing Yuan’s gaze was locked on Lei Yun. He slowly released the pressure of the Primordial realm, crushing down on Lei Yun like a mountain.

Although it seemed like a reminder, it was actually a warning. It was for everyone to understand that it was fine if they could produce nothing, but if they were to produce something, it had to satisfy the fifth divine hall. After all, the fifth divine hall was not an existence that could be toyed with.

All Lei Yun felt was a suffocating feeling. He was unable to breathe normally. His face immediately paled slightly.

He was just an early Godking, and he had broken through recently. Now that he had to endure the pressure of a Primordial realm expert, he felt much more strained than anyone else.

“Don’t worry, vice hall master. The item from our Heavenly Lightning clan definitely won’t disappoint you.” Lei Yun used everything within him to speak with great difficulty.

“Oh? Then I’ll have to wait and see. I hope you don’t disappoint me.” Bing Yuan slowly withdrew his pressure as his eyes shone with a sliver of eagerness.

None of the prodigies in the Pantheon Divine Hall said anything. All of their gazes gathered on Lei Yun, flickering with various thoughts.

For a moment, Lei Yun had become the point of focus.

Under everyone’s gazes, Lei Yun could not help but become slightly complacent. Afterwards, he patiently pulled out a jade box around a meter long from his Space Ring.

The moment the jade box appeared, the senses of over a hundred souls wrapped around it. As the jade box was not covered in any high level formation that could block out the senses of the soul, they easily penetrated the box.

However, when the owners of these senses detected what was in there, they were all slightly taken aback before becoming perplexed and confused.

Bing Yuan had sent in the senses of his soul too. He had also sensed the item in the jade box clearly, and he was also taken aback at first. However, his face then sank. Just when he was about to erupt with fury, Lei Yun’s voice rang out, “Please hold on, vice hall master. What you see right now is incomplete. Please wait a moment, vice hall master, and prepare to witness an unbelievable miracle.”

With that, Bing Yuan’s eyes shone. His eyes were filled with doubt as he stood to one side and remained silent.

Everyone in the Pantheon Divine Hall, including Jian Chen, became slightly curious, as they already knew that the heavenly resource in Lei Yun’s jade box had not reached God Tier. Instead, it had only reached the ninth grade of the Truth Tier.

If they were outside, then they could nurture it further and evolve it to God Tier. However, that would require an extremely lengthy amount of time, calculated in tens of millennia or even longer.

However, they were in the Darkstar World right now. Even if they ignored the limiting environment of the Darkstar World, which made it unsuitable for growing heavenly resources of the Saints’ World, could the fifth divine hall really wait that long for it to evolve?

“Don’t tell me the Heavenly Lightning clan has a way to make this ninth grade Truth Tier heavenly resource reach God Tier in an extremely short amount of time?”

Jian Chen was filled with doubt too. As a Primordial realm expert, he possessed vast knowledge, so he completely understood the difficulties of such a matter.

In the Saints' World that was filled with experts, existences of great power and mastery could indeed complete some impossible feats if they were willing to pay the price, but this was the Darkstar World, a place affected by countless limitations.

Matters that could be achieved in the Saints' World could not necessarily be achieved in the Darkstar World.

At this moment, Lei Yun opened the jade box and took out a small tree that was less than a meter tall. There was only a single, cherry-sized, red fruit on the tiny tree. It shone resplendently; it was almost crystalline, like a gemstone.

"The Glazed Fruit of Scarlet Blood. This is indeed a heavenly resource that can heal the soul. Though, I'm just very curious about how you'll elevate this ninth grade Truth Tier Glazed Fruit of Scarlet Blood to God Tier, Lei Yun..." said Ping Yisheng of the Empirelotus Sword sect.

"Looking at its maturity, you'll probably need several dozen millennia at the very least if you want this Glazed Fruit of Scarlet Blood to evolve into a God Tier heavenly resource," said the leader of the Heaven's sect.

Lei Yun smiled mysteriously and did not answer them. Instead, he pulled out another wooden box from his Space Ring, placing it carefully on the table. He performed a great bow in pure respect and sincerity towards the wooden box before opening it, removing three white fist-sized pieces of jade from within.

He placed the three pieces of jade around the Glazed Fruit of Scarlet Blood before taking out some blood-red soil from his Space Ring. He scattered the soil onto the three pieces of jade.

"Soil of Divine Blood!"

The moment the blood-red soil appeared, a series of cries immediately rang out in the Pantheon Divine Hall. All of them looked at the Soil of Divine Blood greedily.

The Heavenly Crane clan was not the only one that required the Soil of Divine Blood. Many peak organisations in the Saints' World were in desperate need of it too, as all pills that were related to vitality and vital energies would undergo a qualitative transformation if the Soil of Divine Blood were added to their refinement process.

As a matter of fact, the Soil of Divine Blood was a primary, crucial material to some legendary, God Tier pills of higher grades.

Chapter 2792: Seeds of Time

However, although the Soil of Divine Blood only appeared in the Darkstar World, it was clearly extremely scarce. Whenever it appeared, the peak organisations in the Hundred Saint City would undergo a fierce bidding war, or they would reach an agreement with other organisations in the city to split the Soil of Divine Blood.

As a result, obtaining Soil of Divine Blood became difficult. This was why a few prodigies almost began to drool the moment Lei Yun took out the Soil of Divine Blood.

However, most of them stared at the three pieces of jade. The jade seemed extremely ordinary no matter how they looked at it. There was nothing special about them at all. They did not even possess the

slightest energy. However, Lei Yun had sprinkled something as precious as Soil of Divine Blood over them, which made everyone curious.

The vice hall master of the fifth divine hall, Bing Yuan, stared at the three pieces of jade too. Doubt appeared on his face, as he actually failed to see what the three pieces of jade were hiding with his cultivation as an Infinite Prime.

Within the huge Pantheon Divine Hall, only Jian Chen sensed something. Not only had his soul surpassed the First Heavenly Layer Infinite Prime that Bing Yuan was, it had mutated, having ceased to be ordinary a long time ago. As a result, he could sense that the three pieces of white jade seemed to be hiding something.

He furrowed his brows and thought hard. Only after a careful analysis did he gain an inkling. "There seems to be three invisible seeds that no regular person can sense hiding within the jade. These seeds have something to do with the Laws of Time. They seem to be the seeds of the Laws of Time?"

When he reached this conclusion, even Jian Chen gasped despite his knowledge. He had no idea how laws could be transformed into a seed, nor did he know whether these seeds were formed naturally or had been condensed by someone through great power. However, its existence was a miracle in and of itself.

Most importantly, these seeds of the Laws of Time did not possess any inherent energy, and the Laws of Time contained within had reached early Godking at most. As a result, they could not be regarded as items of the God Tier, which was why they could be brought in from the outside world without breaching the limit of the passageway.

At this moment, the three pieces of white jade began to change. The Soil of Divine Blood Lei Yun had sprinkled on them suddenly shone with a blood-red glow. Immediately, extremely pure vital energy seeped out. It was turbulent and tremendous. The pure vital energy was enough to force back the prodigies in the surroundings.

Jian Chen's expression changed slightly. Perhaps due to his special soul, he could sense much more from the vital energy. That was an emotion, an emotion filled with regret, resentment, fury, and blazing hatred.

This made the vital energy seem like it had come alive, giving off its own emotions.

However, Jian Chen knew that the emotions within the vital energy had been left behind by its past owner. However, the owner of the vital energy was just too powerful and just too terrifying, possessing the power to turn even the foul into the wondrous. Even though he was already dead, the blood was contaminated by his will from when he was still alive. Even after all this time, the will still had not dispersed.

At this moment, a portion of the vital energy within the Soil of Divine Blood actually merged with the three pieces of jade, sucked away one by one in the very end.

Perhaps, it was better to say that the seeds within the jade were absorbing a mysterious power within the vital energy. This mysterious power seemed to be extremely beneficial to the seeds of time within

the jade. After absorbing this power, the three seeds of time actually grew with startling speed. As they grew, the intense power of the Laws of Time began to pulse, unable to be concealed any longer.

As for the vital energy that had seeped out from the Soil of Divine Blood, they seemed to lose their backbone after the seeds of time had absorbed the mysterious power. They were unable to remain in their condensed state, so they vanished into thin air and merged with the world.

Time passed silently. In five minutes, the vital energy from the Soil of Divine Blood had completely dispersed. The Soil of Divine Blood that the major organisations all coveted had been reduced to a clump of regular soil under everyone's gazes. As for the three seeds of time, they seemed to have received sufficient nourishment and completely began to grow. Slivers of the power of the Laws of Time they leaked out with accidentally seemed to influence the flow of time in the space around the jade, causing the area to become rather hazy.

Bang!

Suddenly, the three pieces of jade exploded with no prior signs at all. The three seeds of time hidden within the jade were no longer restricted anymore. All of the power of the Laws of Time erupted completely like horses freed from their reins, forming a temporal vortex a meter wide. The Glazed Fruit of Scarlet Blood, which had been placed to one side, was enveloped by the temporal vortex too.

In the temporal vortex, time flowed at an extremely alarming rate. The Glazed Fruit of Scarlet Blood underwent changes at a speed visible to the naked eye. The fruit that was only the size of a cherry swelled up, becoming even redder and even more crystalline.

The Glazed Fruit of Scarlet Blood was growing at an unbelievable rate. It was currently evolving towards the God Tier.

All the prodigies in the Pantheon Divine Hall were dumbfounded. Even Bing Yuan, a Primordial realm expert, was dumbstruck by this sight.

Although he was respected as a Primordial realm expert, Bing Yuan's knowledge and insight probably could not even match the Godkings in the Pantheon Divine Hall.

That was because the strongest expert Bing Yuan could come in contact with in the Darkstar World was the Ninth Heavenly Layer Infinite Prime, the Darkstar Emperor. As for experts higher up, Chaotic Primes, they were just a legend within the Darkstar World. They could only learn a little bit about them from ancient records or the mouths of outsiders.

As for the Godkings in the Pantheon Divine Hall, they had even seen Grand Primes, let alone Infinite Primes. Many of them could directly contact them too.

As a result, the prodigies in the Pantheon Divine Hall obviously surpassed him in terms of knowledge and insight.

However, even these prodigies who had witnessed plenty of miracles from great experts were stunned, let alone Bing Yuan. After all, he was basically no different from a country bumpkin, someone who had yet to see the world.

Before long, the temporal vortex dispersed as the power of time ran out, and the Glazed Fruit of Scarlet Blood had experienced a mysterious amount of time in there. In short, when it reappeared before everyone, it already gave off a heavy fragrance.

Just a single whiff of the fragrance could cleanse everyone's minds, as if their souls had been purified.

In that moment, the Glazed Fruit of Scarlet Blood had truly evolved to the God Tier.

Looking at the Glazed Fruit of Scarlet Blood and sensing the pulse of energy it gave off that had truly reached God Tier, the prodigies' eyes were close to falling out from how wide they had become. Their faces were filled with disbelief and inconceivability.

"I never thought God Tier heavenly resources can be nurtured rapidly like this. This is truly a wonder, truly a wonder..."

"Speeding up time will interfere with the laws, and heavenly resources don't just need time and energy to evolve to God Tier. It isn't that simple. They have to undergo a baptism of the ways of the world too. As a result, nurturing God Tier heavenly resources through speeding up time has already been disproven by many peak experts in the Saints' World, as it's just impossible. I have to say, it's a miracle that this Glazed Fruit of Scarlet Blood could succeed with it..."

"The reason why the Glazed Fruit of Scarlet Blood could succeed is definitely not just because of the Laws of Time. The Soil of Divine Blood must be the actual component vital to it all..."

...

For a moment, discussions rose up everywhere in the Pantheon Divine Hall. Many peoples' eyes lit up. At that moment, they all thought the same thing. If the Soil of Divine Blood really was capable of something like this, did it not mean they could nurture large quantities of God Tier heavenly resources as long as they possessed sufficient Soil of Divine Blood?

Chapter 2793: New Hope

Perhaps because he could tell what everyone was thinking, Lei Yun could not help but sneer. He said in a rather mocking manner, "I'd advise you to give up on it, as today has probably been the first time this method has been used to nurture a God Tier heavenly resource. A method as inconceivable as this is completely irreplicable."

"And, even if supreme experts skilled with the Laws of Time manage to replicate it, the cost will completely outweigh the benefits, as the value of Soil of Divine Blood is probably enough to rival dozens or even more heavenly resources like these. Moreover, the Soil of Divine Blood is something precious that has absolutely no supply in the Saints' World."

"Why don't you ask yourselves this? Just which organisation would be willing to use Soil of Divine Blood that's worth several dozen God Tier heavenly resources to nurture a single God Tier heavenly resource when the losses clearly outweigh the gains?"

Hearing Lei Yun's explanation, most of the light in the eyes of the prodigies there immediately subsided. They understood the value and worth of Soil of Divine Blood extremely well. This was an important material for refining high level God Tier pills. If Soil of Divine Blood was included for some high level pills,

not only would their quality increase, but they would even become several times more potent. Its value had completely exceeded several dozen God Tier heavenly resources.

Using something so precious to nurture a single God Tier heavenly resource was truly a bad deal. They would only use something as precious as Soil of Divine Blood on a heavenly resource that was only at the Truth Tier regardless of the costs with the predicament they currently faced in the Darkstar World.

“Although this is a completely unworthwhile method of nurturing heavenly resources, it’s the only way to fulfil the fifth divine hall’s request in the Darkstar World.” Many people thought. They immediately began to record the entire metamorphosis process of the Glazed Fruit of Scarlet Blood evolving to God Tier, planning to contact their clans outside and have them come up with ideas.

Lei Yun could obviously tell what they were thinking. However, he was unfazed. He did not worry at all that his method of nurturing the Glazed Fruit of Scarlet Blood would be replicated.

If it were the Saints’ World, a few peak organisations could achieve this easily. However, there were many limitations in the Darkstar World. Only their Heavenly Lightning clan could achieve something like this.

Or more accurately, it was the organisation behind their Heavenly Lightning clan.

With a wave of his hand, the Glazed Fruit of Scarlet Blood that had just evolved flew into Lei Yun’s hand. He held it in a single hand carelessly as undisguised pride and arrogance filled his face. Afterwards, he smiled at Bing Yuan. “Esteemed vice hall master, may I ask if this God Tier Glazed Fruit of Scarlet Blood satisfies the fifth divine hall?”

Bing Yuan took in a deep breath. Having personally witnessed the evolution of the Glazed Fruit of Scarlet Blood, he felt like he had witnessed a miracle. However, he also understood that such an unbelievable method would only appear in the Saints’ World that was filled with experts. As for his Darkstar race, he did not even know if there was a chance for them to break out of the cage in his lifetime.

“Correct. It has indeed reached God Tier, and it’s a heavenly resource that can heal the soul. However, as for whether we’re actually satisfied or not, we’ll still require our hall master to personally appraise it,” Bing Yuan said.

“If that’s the case, then Lei Yun will hand this Glazed Fruit of Scarlet Blood to vice hall master Bing Yuan. I hope the vice hall master can pass this item onto your esteemed hall master for appraisal.” Lei Yun was riding on the crest of success. As he passed the Glazed Fruit of Scarlet Blood to Bing Yuan, he continued, “Only our Heavenly Lightning clan can nurture a God Tier heavenly resource like this throughout the entire Saints’ World. In order to provide a God Tier heavenly resource to the fifth divine hall, our clan has gone to extremely great lengths, as the value of those three pieces of jade that contain the Laws of Time are completely beyond imagination.”

“I’ve taken note of its value. You don’t have to worry. Before our hall master appraises the Glazed Fruit of Scarlet Blood, our fifth divine hall will continue to protect you until our hall master orders us to stop,” Bing Yuan said sternly. The hall master of the fifth divine hall had yet to return, so even when he accepted the God Tier heavenly resource from the Heavenly Lightning clan, he was afraid to make the decision himself. After all, he had no idea whether the God Tier heavenly resource was effective on their hall master’s soul at all.

“Our Jade Pill sect will definitely refine a pill that satisfies the fifth divine hall. However, the pill is still being refined right now, and it’ll probably only be delivered later. The moment it arrives, our Jade Pill sect will immediately contact the vice hall master.” At this moment, the person from the Jade Pill sect spoke too, also brimming with confidence.

He already knew that the ancestors of the Jade Pill sect were personally refining the pill. Since even their ancestors had emerged, failure would be completely impossible.

“Good, good, good!” Bing Yuan was delighted and nodded constantly. He had already been surprised over how he obtained a God Tier Glazed Fruit of Scarlet Blood. If he could obtain a God Tier pill too, it would definitely be extremely beneficial to the recovery of his hall master’s soul.

“Vice hall master, you’ve seen it already. Only the Heavenly Lightning clan and the Jade Pill sect can produce God Tier heavenly resources and God Tier pills. As for us who can’t produce what you require, we will definitely be chased out of the Darkstar World by the seventh divine hall once we lose your protection. I hope the vice hall master can speak for us before the hall master and give us an opportunity to remain in the Darkstar World. We’re willing to make it up to the fifth divine hall through other means.” At this moment, He Qianqian suddenly stood up. With a pleading gaze, she lowered her head slightly and clasped her fist at Bing Yuan, asking him submissively.

At that moment, she seemed to have forgotten she represented the Heavenly Crane clan. She was willing to lower her noble head before an Infinite Prime that only seemed like a slightly larger ant in the eyes of the Heavenly Crane clan, just in hopes of being able to remain here.

This was because the resources from the Darkstar World had just too great of an impact on the Heavenly Crane clan. Once they lost their foundation here, the entire clan’s strength would plummet.

Standing behind her, Jian Chen’s emotions immediately became rather mixed when he saw how close He Qianqian was to bowing and scraping. In the end, all he could do was sigh inside. He said nothing at all.

This was because he had been in contact with Bing Yuan. Even with his flawless disguise, he did not want to attract too much of Bing Yuan’s attention.

As a result, Jian Chen had only become even more discreet after Bing Yuan entered the Pantheon Divine Hall.

“Miss Qian is correct. We may not be able to produce God Tier heavenly resources and pills, but we can do a few things for the fifth divine hall in other aspects, such as hunting down some Life-devouring Beasts. I’m aware that there are many Saints’ World organisations that work for the fifth divine hall in the Darkstar World, but in terms of strength, these organisations don’t even have the right to lick our boots...”

“I’ve heard that the Darkstar race is purchasing the remains of Life-devouring Beasts en masse lately, even offering a price several times greater than normal and placing great rewards for Godking Life-devouring Beasts. If you were to ask who possesses the greatest ability to kill Godking Life-devouring Beasts within the Darkstar World race right now, it would definitely be our Hundred Saint City if we ignore that Gu Qi who made a mess in Darknight City before going missing...”

...

After what He Qianqian said, a few prodigies immediately spoke up too. They thought of the same thing as He Qianqian. They were reluctant to yield to the Jade Pill sect and the Heavenly Lightning clan, yet they refused to give up on the abundant resources in the Darkstar World. As a result, all they could do was take a step back and find another method, just so they could obtain the fifth divine hall's protection.

Listening to these people, Bing Yuan began to hesitate. The day of the great ceremony was growing closer and closer. The ceremony required large numbers of Life-devouring Beasts. High level Life-devouring Beasts like those at Godking were crucial, but their race only received a pitiful number of their corpses, just a handful. Instead, they had purchased a huge pile of low level Life-devouring Beast corpses.

The situation right now really was like what these people described it to be. The outsiders who worked for the various divine halls were much weaker than the Hundred Saint City. They were more than enough for hunting down Overgod Life-devouring Beasts, but obtaining Godking Life-devouring Beasts was extremely difficult.

If they could get the people of the Hundred Saint City to hunt down Godking Life-devouring Beasts, it would be quite a good idea.

Thinking up to there, Bing Yuan seemed to make up his mind. Determination appeared in his eyes as he said, "Since you're pleading with me, then our divine hall will give you a chance. If you can provide large quantities of Godking Life-devouring Beast corpses to our fifth divine hall, I can ask our hall master to show some mercy to you."

Chapter 2794: Hunting Operation

With that, all the organizations that were unable to produce God Tier pills or heavenly resources beamed with joy. In that moment, they felt like the moment before they drowned, they had suddenly grabbed a straw, giving them the hope of surviving. This obviously touched their hearts.

Hunting Godking Life-devouring Beasts was a test of life and death riddled with difficulties from the perspective of other outsiders. Just the slightest carelessness could annihilate their entire group. However, this was not completely impossible to the organisations in the Hundred Saint City.

This was because they all had experience moving around in the Two World Mountains, making frequent contact with Life-devouring Beasts. They had truly accumulated quite a lot of valuable experience. Combined with the numerous sacrificial Godkings under their command, hunting Life-devouring Beasts was not impossible as long as they made sufficient arrangements. It would even be easier than when they moved through the Two World Mountains.

That was because they were in a completely reactive position as they moved through the Two World Mountains. Every single battle had occurred extremely hastily, with no path for retreat either.

But now, they would be proactive with the Darkstar World behind them. They could be on the offence and on the defence. Moreover, they had time to set up a series of arrangements, so hunting would obviously become much easier.

Compared to their exhilaration, the people from the Jade Pill sect and the Heavenly Lightning clan's faces became as warped as possible.

They had already reached an agreement in the past, planning to use this opportunity to rearrange the standings of the organisations in the Hundred Saint City so that they could maximise their benefits. In the end, just a single sentence from Bing Yuan had shattered their wonderful dream. As the two organisations were filled with regret, they also began to resent Bing Yuan slightly.

"God dammit, why would it be like this? Our Heavenly Lightning clan has gone to such great lengths to nurture a Glazed Fruit of Scarlet Blood to satisfy the fifth divine hall, yet these people actually just need to do something as simple as kill a few Godking Life-devouring Beasts, and they'll get a chance to be protected by the fifth divine hall? This is unfair! This is unfair!" Lei Yun fumed inside, but he was just unable to show it. This was the territory of the Darkstar race after all. No matter how powerful the Heavenly Lightning clan was, they were unable to lecture people in the Darkstar World.

"Vice hall master, Godking Life-devouring Beasts may be worth a lot, but you still can't compare it to the God Tier pill and heavenly resource provided by our Jade Pill sect and the Heavenly Lightning clan. Their values are on completely different levels. If other organisations just need to provide some corpses of Godking Life-devouring Beasts, and they'll be able to enjoy the same treatment as our Jade Pill sect and the Heavenly Lightning clan, that'll be far too unfair." The prodigy from the Jade Pill sect stood up and grumbled. In order to produce the pill that the fifth divine hall required, the ancestors of their Jade Pill sect had even emerged from secluded cultivation, personally creating the pill formula. They were going to much greater lengths than just killing a few Godking Life-devouring Beasts.

"You don't have to worry at all. Your Jade Pill sect and the Heavenly Lightning clan have provided our hall master with what he needs, so the majority of the merit obviously goes to you. If our hall master is satisfied with your pill and heavenly resource, our fifth divine hall will reward you depending on your merit. By then, you'll have plenty of benefits. As for them..." Bing Yuan looked around and said indifferently, "I only said I'd only ask the hall master to show some mercy to them if they provide us with Godking Life-devouring Beasts. I can't guarantee whether the hall master actually recognises them or not in the end."

The people of the Heavenly Lightning clan and the Jade Pill sect eased up slightly with that, while the other organisations in the Pantheon Divine Hall became rather uneasy after their excitement. They were afraid of spending all their efforts hunting down Godking Life-devouring Beasts, only for it to go to waste.

However, they also understood that if they hunted down Life-devouring Beasts and handed them over to the fifth divine hall like what Bing Yuan had said, there was a chance that they could obtain the fifth divine hall's protection at the very least. Otherwise, they would not have any chance at all, and the end result would be either yielding to the Jade Pill sect and the Heavenly Lightning clan or abandoning their business here.

Vice hall master Bing Yuan did not remain in the Hundred Saint City for very long. He returned to the fifth divine hall very quickly with the Glazed Fruit of Scarlet Blood that had evolved to God Tier. With his departure, the many organizations gathered in the Pantheon Divine Hall obviously dispersed, returning to their own territories and immediately doing two things.

The first thing was to record down the Glazed Fruit of Scarlet Blood's process of evolving to God Tier in detail before immediately sending people to deliver the information back to their clans in the Saints' World.

The second thing was to gather numerous sacrificial Godkings in their divine halls.

Three or four hundred sacrificial Godkings had already been gathered in the Heavenly Crane Divine Hall. They stood in a neat rectangle in front of He Qianqian, showing great respect.

The Heavenly Crane clan had brought in almost a thousand sacrificial Godkings. A few fell in battle as they crossed through the Two World Mountains, with around seven or eight hundred people remaining. Currently, the sacrificial Godkings gathered in the Heavenly Crane Divine Hall already amounted to half of the remaining number.

He Qianqian sat on the throne sternly, radiating with coldness, which made the entire hall seem like a cavern of ice. It was extremely cold. She glanced past the sacrificial Godkings below sharply before landing on the white-clothed Jian Chen, who stood indifferently. She spoke with a voice that she believed to be very authoritative, "Yang Yutian, you're a member of our Heavenly Crane clan when you're in the Darkstar World, so any business of our Heavenly Crane clan is also your business. Protecting the interests of the Heavenly Crane clan is also part of your responsibility. The Heavenly Crane clan needs you now, so will you fight for the Heavenly Crane clan?"

Jian Chen smiled and clasped his fist. "That would obviously be an unavoidable duty of mine!"

"The clan requires you to venture to the Two World Mountains and hunt down Godking Life-devouring Beasts. I'll dispatch half of the sacrificial Godkings from the clan to you. They will listen to your command. I hope you don't disappoint us," said He Qianqian.

"It's just that miss Qian, I've only emerged from the Two World Mountains recently. Why do you have to send me back in so hurriedly and so soon?" Jian Chen smiled bitterly.

He Qianqian was helpless. "We've already reached a critical moment that determines whether our Heavenly Crane clan can remain in the Darkstar World or not, and in the clan, you happen to be the strongest, so I have no other choice."

"But you don't have to worry. When I leave here, I will definitely personally report the sacrifices you have made for your clan to the clan so that you earn a greater reward."

"Fine then. I'll hunt down these Godking Life-devouring Beasts, but I won't be needing these sacrificial Godkings. The strength they can offer is unnecessary to me, and I've grasped the Laws of Space, so it's actually much easier for me to move around alone. It'll actually be inconvenient if I have them around," said Jian Chen.

He Qianqian nodded. "If that's the case, I won't allocate these people to you. However, you must be careful when you move around alone. The threats you face definitely aren't as simple as just the Life-devouring Beasts of the Two World Mountains. You have to be careful about the Darkstar race too. If the Darkstar race learns of your strength and talent, they definitely won't spare you according to how they've behaved in the past."

“And, you need to be a little more cautious about Chu Jie, Zhou Zhi, Zhao Wenbin, Kong Feiying, and Gong Ruize.”

“Due to the situation in the Darkstar World, none of the people in charge of the organisations can leave the city without proper reason, so we can’t partake in the hunting operation. However, I’m afraid that they’ll send sacrificial Godkings to deal with you, so you must remain vigilant,” He Qianqian reminded him sincerely, revealing her concern for him.

Chapter 2795: Space and Time

Jian Chen smiled mysteriously and said without minding at all, “If I were that easy to kill, I would have died in the depths of the Two World Mountains a long time ago. Why would I still be alive right now? You don’t have to worry, miss Qian. I don’t even have to take Chu Tian and the others seriously.”

He Qianqian shot an exasperated glance at Jian Chen. “I know you’re very strong. I’m just warning you, so you’ll be prepared, just in case you get caught off guard.”

Afterwards, He Qianqian warned Jian Chen about a few things seriously and in great detail, regardless of whether Jian Chen knew about it already or not. In short, she explained everything she knew about the Two World Mountains and everything that required Jian Chen to be careful of patiently to him. She supplemented all aspects of Jian Chen’s knowledge regarding the Two World Mountains.

Jian Chen was a powerful Primordial realm expert, enough to move around freely in the Two World Mountains, and he possessed an extremely deep understanding of the Two World Mountains already, but he still benefited greatly from what He Qianqian told him. He learnt about many secrets he had yet to uncover.

After all, the Hundred Saint City had already operated in the Darkstar World for countless years. They had entered the Two World Mountains even more than the Darkstar race, so their understanding of the Two World Mountains even surpassed the Darkstar race in certain aspects.

Jian Chen left the Hundred Saint City alone. He did not disguise himself at all, just swaggering his way over to the Two World Mountains.

As for the several hundred sacrificial Godkings gathered in the Heavenly Crane Divine Hall, He Qianqian split them up into multiple groups and sent them into the depths of the Two World Mountains.

She could not rely on Jian Chen alone to hunt down Life-devouring Beasts, as she knew that just a single corpse or two would never be enough. Only when they gathered a lot, so much that the fifth divine hall was unable to ignore them, could they earn the fifth divine hall’s promise of protection.

As a result, in order to hunt down as many Godking Life-devouring Beasts as possible, she needed to send as large of a force as she could muster into the Two World Mountains.

He Qianqian was not the only one who took action in the Hundred Saint City. Many peak organisations sent out many sacrificial Godkings too. Even Jin Hong was not an exception.

Although Jin Hong had already received the ancestor’s notice, giving him permission to abandon their operations in the Darkstar race at any time, that would be a decision he would make when there was no hope at all. Now that a ray of hope had appeared, he obviously had to grasp it.

Jin Hong currently stood in the doorway of the divine hall that belonged to the Dire Wolf clan. His gaze was fixed on the city gates. He could not help but frown. "He Qianqian has actually still chosen to send Yang Yutian into the Two World Mountains. Doesn't Yang Yutian know that those who resent him have been keeping an eye on him the entire time? He didn't even try to disguise himself when he left the city."

"Guards!" Jin Hong suddenly called out.

"Young master!" Two Overgods of the Wolf clan immediately appeared, but from their attires, they seemed more like caretakers than guards.

"Send people to keep an eye on the Chu family, Gong family, Zhao family, Cangqiong clan, and Yuqiong sect immediately. Contact me the moment they make any movements," Jin Hong said.

"Yes, young master!"

...

At the same time, many sacrificial Godkings gathered in the divine halls that belonged to the Chu family, Gong family, Zhao family, Cangqiong clan, and the Yuqiong sect. Chu Jie, Gong Ruize, Zhao Wenbin, Kong Feiying, and Zhou Zhi all sat high up, making a series of arrangements.

A while later, the five of them put on their disguises, blending in as members of the sacrificial Godkings. Not only had their appearances changed, but even their presences changed through the use of a few special items.

Although their method of disguise seemed rather rough, such that they could easily give themselves away at a close range, it could fool the senses of souls to a certain degree.

After disguising themselves as sacrificial Godkings, the sacrificial Godkings they replaced underwent the same procedure to replace them.

"Remember, before I return, you are forbidden from taking a single step out of the hall, nor can you activate the formation in the hall. Even if you speak, you have to copy my voice, understood?"

After exchanging identities, the five of them sternly instructed the sacrificial Godkings replacing them.

"Yes, young master!" The sacrificial Godkings all answered.

Afterwards, Chu Jie, Gong Ruize, Kong Feiying, Zhao Wenbin, and Zhou Zhi all blended into the sacrificial Godkings, setting off from their respective divine halls and flying towards the city gates.

The moment the five of them set off, the senses of Jin Hong and He Qianqian's souls swept over, completely enveloping these sacrificial Godkings. After circling around for a short while, they failed to discover anything wrong, so they both withdrew the senses of their souls.

Although the leaders of the various organisations in the Hundred Saint City had all reached an agreement to remain within the city due to the situation of the Darkstar World, to prevent the people of the seventh divine hall from scheming against them in the wilderness, He Qianqian and Jin Hong were clearly worried that they would still make a reckless move. As such, they constantly paid attention to the movements of the five.

“The Chu family, Gong family, Zhao family, Cangqiong clan, and Yuqiong sect have all sent out part of their sacrificial Godkings. It completely matches the strength required to hunt down Life-devouring Beasts. However, even if these sacrificial soldiers want to do something to Yang Yutian, they shouldn’t be able to match his speed.”

“Yang Yutian, all I can do right now is keep an eye on Chu Tian, Zhou Zhi, Zhao Wenbin, Gong, Ruize and Kong Feiyong for you. As long as the five of them aren’t present, the sacrificial Godkings won’t be able to fall into formation, and without the Primordial realm formation, they shouldn’t be able to threaten you.” He Qianqian stood on the top of the Heavenly Crane Divine Hall in white clothes and muttered to herself as she stared in the direction of the city gates.

“Young master, we’ve just received news that Chu Tian, Gong Ruize, and the others are all in their divine halls.” On another side of the city, Jin Hong received the report of their investigations, and he immediately eased up a lot. After waving his hand and dismissing the servant, he crossed his legs and sat on the throne, sinking into his thoughts.

He could not help but think of the sight when he could barely suppress the power of his bloodline whenever he approached Yang Yutian again, as well as the emotions of extreme craving it pulsed with.

“Just what does Yang Yutian possess? I may be mistaken, but the reason for the rousing of my bloodline is not because of some item, but because his bloodline is also unique, sharing the same origins as our Dire Wolf clan.”

“Should I find an opportunity to ask him once he returns?” Jin Hong thought to himself. He had ruminated over this for just too long, but he had his qualms. He was afraid of affecting his relationship with Yang Yutian, which was why he had never mentioned it.

...

Outside the Hundred Saint City, Jian Chen flew at an altitude of a thousand meters as he made his way towards the Two World Mountains at a steady pace. However, he did not travel along a straight path. Instead, he detoured slightly to one side, avoiding the shortest path that constantly flowed with people.

However, the corner of his mouth seemed to remain curled the entire time. Sometimes, a sneering light would flash through his eyes.

At this moment, the space around Jian Chen suddenly blurred. At the same time, the flow of time in the blurry space underwent an upheaving change. The flow of time actually sped up by several dozen times in that instant.

Moreover, Jian Chen could clearly sense that the space he resided in seemed to be forcefully changed into a miniature world that differed from the Darkstar World. Not only did the space become independent, but the space also possessed its own Laws of Time.

“Is this the Laws of Space and the Laws of Time? I never thought I’d run into a prodigy who’s grasped both space and time in the Darkstar World. Even in the Saints’ World, people like that are like mythical existences.” Jian Chen stopped and hovered in the air with his arms crossed, making a small remark to himself at complete ease. At the same time, he closely sensed the changes in the space with a hint of interest.

More accurately, he was sensing the Laws of Time that filled the surroundings and altered the flow of time.

Chapter 2796: Falling into an Encirclemen

t

There were many people who had comprehended the Laws of Space in the Saints' World and plenty who had comprehended the Laws of Time. However, basically all of these people only grasped one of the laws. There were extremely few cultivators in the Saints' World who had comprehended both the Laws of Time and the Laws of Space. Describing them as mythical existences was no exaggeration at all.

This was because a slight connection existed between the Laws of Space and the Laws of Time to a certain degree. Once both laws were grasped, the difficulty of comprehension would multiply, sometimes by as much as several dozen fold or hundred fold.

Yet now, Jian Chen had run into a cultivator who had grasped both the Laws of Time and the Laws of Space, and his cultivation had reached an impressive Godking realm.

If this were a cultivator of the Darkstar race, then Jian Chen would not have been so surprised, as cultivators of the Darkstar race had plenty of time to slowly comprehend. However, what mattered was the person who had comprehended both the Laws of Space and the Laws of Time was an outsider.

What did this mean? This meant he was less than a thousand years old, or he never would have been able to set foot in the Darkstar World.

In a single millenium, he had elevated his comprehension of both the Laws of Time and the Laws of Space to Godking. The difficulty of that was unparalleled to comprehending other laws. His talent could truly be regarded as unprecedented.

"He's already an early Godking, yet the space he's created is so tough that even mid Godkings will struggle to destroy it. A combination of the Laws of Space and Laws of Time really is powerful." Jian Chen sighed in admiration. According to his observations, the space was already enough to trap most late Godkings. This was simply unimaginable.

"You possess impressive insight, sir. I never thought you'd already see through the toughness of my World of Heaven and Earth before I've even done anything. However, you've still underestimated my World of Heaven and Earth. More correctly, even late Godkings will struggle to destroy my World of Heaven and Earth. As for mid Godkings, no one can get through it unless they're prodigies that possess the talent of supreme Godkings and can challenge those at higher cultivation levels."

A peaceful voice rang out. A young man in white robes appeared out of nowhere a hundred meters in front of Jian Chen. He did not seem old, only around eighteen or nineteen. He had fine facial features, and he seemed like he was still wet behind his ears at first glance.

He gave off a peaceful presence, enough to bring peace to the surroundings, which made his presence merge perfectly with the world around him. It was as if even his body was a part of the surroundings. He had truly attained "becoming one with nature".

“The World of Heaven and Earth? You call this domain the World of Heaven and Earth?” Jian Chen asked. However, he did understand that calling this domain composed of the Laws of Space and the Laws of Time a “world” made perfect sense, as the space had already become completely independent, just like a real miniature world. The flow of time here had completely separated from the Darkstar World.

“That’s right. To me, time is heaven and space is earth. A combination of time and space creates a world, so this world of mine is called the World of Heaven and Earth,” the young man said with composure. He stood with his arms crossed, also levitating at an altitude of a thousand meters. He did not take any action.

“Did the Chu family, Gong family, Zhao family, Cangqiong clan, and Yuqiong sect send you to deal with me? Are you really that confident you can keep me trapped in your World of Heaven and Earth?” Jian Chen stared at the young man, and his gaze gradually sharpened.

The young man did not deny that. He nodded gently. “Yang Yutian, I’ve already heard you possess extraordinary battle prowess, enough to rival the young master of the Dire Wolf clan who’s obtained a Grand Exalt’s legacy. While my World of Heaven and Earth won’t be able to keep you trapped for long periods of time, keeping you trapped for a while won’t be a problem.”

“There normally aren’t any good consequences awaiting those who oppose me. Have you ever considered the consequences of opposing me? Even in the Saints’ World, you’re a supreme prodigy to be able to comprehend both the Laws of Time and the Laws of Space to Godking at such a young age. If you just die, that’s far too great of a pity. If you leave right now, I’ll turn a blind eye to everything you’ve done,” Jian Chen said coldly.

“Apologies. I’m just acting on someone’s request. Since I’ve already agreed to it, I must uphold my word.” When he reached there, the young man smiled mysteriously. He stared at Jian Chen like he was looking at a dead man and said, “Moreover, even if you can defeat me, you won’t get the chance, as if nothing goes wrong today, you shouldn’t be able to leave.”

“World of Heaven and Earth—Open!” The young man suddenly spread his arms. All of his limbs sprawled out. The Laws of Time and the Laws of Space revolved around him, merging together and disturbing the space around him, such that the region that he resided in became a new miniature world. The miniature world suddenly expanded outwards with his cry, forcefully increasing its area by several fold in that instant.

As the miniature world expanded and absorbed even more space, the people who were originally on the edge of the original miniature world were naturally enveloped too.

These people were split into five groups, amounting to almost four thousand people. Every single one of them radiated with the aura of Godkings.

The five groups of people were the sacrificial Godkings of the Chu family, Gong family, Zhao family, Cangqiong clan, and Yuqiong sect, while the people leading them were Chu Tian, Zhao Wenbin, Gong Ruize, Kong Feiying, and Zhou Zhi.

As soon as they saw Jian Chen, their eyes became flooded with hatred. In particular, with Chu Tian, not only did his eyes explode with killing intent, but his hatred was so extreme that it twisted his face. It made him seem especially vicious.

“Hahahaha. Yang Yutian, we’ve finally gotten the chance to catch you! Weren’t you pretty arrogant back then in the Two World Mountains? Why’re you all scared now? Do you feel afraid inside?” Chu Tian stood among the sacrificial Godkings and laughed in delight, as if he had finally obtained the opportunity to redeem himself for the humiliation in the past.

“Yang Yutian, never did you think you would face something like this, did you? Only a single fate awaits those who offend us, which is death...”

“Yang Yutian, weren’t you pretty impressive back then in the Two World Mountains? I’d like to see just how many attacks you can last before our formations...”

“Today, you’re done for...”

“No one can save you...”

Gong Ruize, Kong Feiying, Zhou Zhi, and Zhao Wenbin all sneered too. They all looked at Jian Chen with surging grievance, as well as extremely, extremely deep hatred.

This hatred, this grievance, all originated from the humiliation they had originally suffered.

They had been humiliated in the eye of the public!

Back then in the Two World Mountains, the five of them had lost many sacrificial Godkings. Even they themselves had almost died at Yang Yutian’s hands. Now, the five of them were teeming with confidence, as if victory was already within their grasp. They did not take Yang Yutian seriously at all, as they had already fallen into formation beforehand.

Right now, their power and the power of the many sacrificial Godkings merged together through the formation. They were all Godkings, but they possessed the battle prowess of the Primordial realm.

Chapter 2797 – The Scion of Five Point

t

The young man who grasped the space and time glanced at the five of them indifferently. Even though the five of them already possessed the battle prowess of the Primordial realm through the formations, the young man was not fearful of them at all. Instead, he showed faint disdain, as if he looked down on them slightly.

“I’ve completed your request. Don’t forget about your promise,” the young man said nonchalantly.

“Scion of Five Point, you don’t need to worry at all. We will definitely uphold what we’ve promised to your Five Point sect.” Kong Feiying laughed aloud.

“That would be for the best!” The young man known as the Scion of Five Point nodded in satisfaction, about to withdraw his World of Heaven and Earth. Once Chu Tian and the others began fighting and

erupted with the power of the Primordial realm, his World of Heaven and Earth would be as flimsy as paper, even though it could temporarily stop late Godkings.

However, when Jian Chen heard the Five Point sect, his eyes flashed. He turned towards the Scion of Five Point in surprise and asked, "Are you from the Five Point sect of the Star Brilliance Plane?"

Gong Ruize seemed to think of something from that. Suddenly, he laughed aloud. "Hahaha, that's right, the Scion of Five Point comes from the Five Point sect, one of the ten great organisations on the Star Brilliance Plane. Moreover, his status in the Five Point sect is extraordinary. He's the chosen scion of the entire sect. His status only pales in comparison to the sect master's. Yang Yutian, don't tell me you're trying to claim you have some connection to the Five Point sect at a time like this?"

The Scion of Five Point said nothing. He hovered in the air and stared at Jian Chen calmly.

Jian Chen came to a realisation. He ignored Gong Ruize and said to the Scion of Five Point, "No wonder you could comprehend both the Laws of Space and the Laws of Time to Godking at such a young age. So you actually come from the Five Point sect. The Point Cloud Venerable of the Five Point sect is one of the few experts of this day and age who has comprehended both the Laws of Space and the Laws of Time to Grand Prime. It's rumored that he received the guidance of the Space-Time Elder in the past, giving him extremely great mastery over the Way of Space and the Way of Time."

The Scion of Five Point changed slightly in expression. "You actually know my master received guidance from the Space-Time Elder in the past? That's not something an independent cultivator should know. Let alone independent cultivators, even the descendants of peak organisations won't be able to come into contact with that information unless they've achieved sufficient status. Just who are you?"

"Your master? The Point Cloud Venerable is actually your master? Now that's surprising." Jian Chen was rather taken aback. He could not help but study the Scion of Five Point properly. "The Point Cloud Venerable has helped me out in the past, even though I could tell he had other intentions in mind when he assisted me. Though, I must admit, the assistance he lended me back then was of extremely great use."

"Since you're the Point Cloud Venerable's disciple, I'll spare you today for the Point Cloud Venerable's sake. However, you may have escaped death, but not punishment." With that, Jian Chen directly struck. In that instant, he became surrounded by powerful sword Qi in the form of dazzling, scorching-white light. Afterwards, it turned into a huge strand of sword Qi that stabbed towards the Scion of Five Point.

The strand of sword Qi was completely condensed from the Laws of the Sword. Even though it was just at the level of mid Godkings, the sword intent it contained was powerful enough to influence the Scion of Five Point's World of Heaven and Earth.

Under the powerful sword intent, the World of Heaven and Earth trembled violently. The space twisted viciously as the flow of time was forcefully interrupted.

The Scion of Five Point changed in expression. He immediately pointed at the space before him and said gently, "Worlds Differ! Inches Away, but Worlds Apart!"

As he pointed out, the entire World of Heaven and Earth underwent a drastic change. This independent and incompletely miniature world seemed to split in two in that instant, separating Jian Chen and him into two completely different regions of space and time.

The result was they seemed less than a hundred meters apart, but in reality, the space between them was under influence, elongating the distance between them such that it became hundreds of kilometers, thousands of kilometers, tens of thousand kilometers, or even longer.

The time it would actually take to cross through this region would be incalculable.

That was because not only did this touch on space, but there was interference from time too.

“The combination and supplementary effect between the Laws of Space and the Laws of Time truly is profound. It’s just a pity that your cultivation is too low. You can’t restrain me.” Jian Chen’s voice rang out. The sword Qi under his control suddenly exploded with light, as if it could destroy space and cut through time. It tore through all the restraints of the World of Heaven and Earth like it was unstoppable, reaching the Scion of Five Point instantly.

In that instant, the Scion of Five Point was unable to maintain the same composure as before. His face changed drastically, overcome by shock. The power of space around him surged violently, as if he was trying to forcefully alter the space around him so that he could avoid the sword Qi.

However, the sword Qi’s power had completely surpassed the Laws of Space he had grasped. Even the power created from a combination of the Laws of Space and the Laws of Time was unable to influence Jian Chen’s sword Qi at all.

Boom!

With that, Jian Chen’s sword Qi slammed against the Scion of Five Point mercilessly. It did not penetrate the Scion of Five Point like something sharp. Instead, the sword Qi automatically exploded when it approached the Scion of Five Point under Jian Chen’s precise control. In the end, it turned into a ball of energy and light that contained the same sharpness of the sword Qi and sent the Scion of Five Point flying viciously.

At the same time, the Scion of Five Point’s World of Heaven and Earth completely crumbled and collapsed.

The Scion of Five Point had been blasted far away with a pale face. The luxurious robes on him had already been reduced to dust, revealing a set of tight-fitting armour.

The armour was a supreme quality saint artifact, but it had already dimmed now, covered in tiny cracks.

“Y- you actually defeated me in a single attack! T- that’s impossible! That’s completely impossible...” A thousand meters away, the Scion of Five Point rose up in the air in a horrible shape. His face was filled with disbelief, as if he was unable to accept this.

He had learnt about Yang Yutian’s various feats in the Two World Mountains before all of this, and he had gained a rough idea of Yang Yutian’s strength too. He was confident that with his combination of the Laws of Space and the Laws of Time, even defeating Yang Yutian was not impossible, let alone trapping him.

However, never did he think that reality would be so cruel and so difficult to accept. He could not even withstand a single blow from Yang Yutian.

If it were not for the fact that the attack did not contain killing intent, he would probably be dead, or close to death.

To the other side, Chu Jie, Zhou Zhi, Gong Ruize, Kong Feiying, and Zhao Wenbin were shocked by how Jian Chen had defeated the Scion of Five Point in a single attack. The battle prowess that Yang Yutian demonstrated right now seemed to be even greater than what he possessed in the Two World Mountains.

However, they had already fallen into formation, already possessing the power to contend with the Primordial realm. As a result, even though Yang Yutian's performance had taken them by surprise, they did not show any fear at all.

At the same time, Jin Hong sat on his throne with his eyes shut, resting in the divine hall of the Dire Wolf clan in the Hundred Saint City. He was not cultivating, but constantly keeping an eye on the movements of the divine halls that belonged to the Chu family, Zhou family, Gong family, Cangqiong clan, and Yuqiong sect. He was watching over Yang Yutian in the Hundred Saint City so that he could prevent Chu Jie and the other leading figures from secretly slipping out and using the Primordial realm formations against Yang Yutian.

However, just as the Scion of Five Point's World of Heaven and Earth was destroyed, Jian Chen's surging sword Qi was freed from the restraints of the World of Heaven and Earth and leaked into the Darkstar World. Jin Hong seemed to sense it in his divine hall, and his eyes suddenly snapped open, immediately shining brilliantly. With a sway, he appeared on top of the divine hall instantly, directly throwing a punch at the Chu family's divine hall from afar.

Boom! Jin Hong immediately left a ten-meter-deep dent in the Chu family's formation. Afterwards, the senses of Jin Hong's soul flooded in through there.

Within the divine hall, he discovered the sacrificial Godking disguised as Chu Jie. Both his presence and appearance was exactly like Chu Jie's, but he was still a sacrificial soldier after all, let alone one that had consumed a Hundred Tribulations Godking Pill and only had the lifespan of a century.

As a result, under Jin Hong's close inspection, the sacrificial Godking who posed as Chu Jie immediately had his cover blown.

"What a substitution!" Jin Hong was furious. His face darkened, and he immediately charged out of the Hundred Saint City. He did not even bring a single sacrificial Godking with him, rushing towards the place of the battle alone.

"The World of Heaven and Earth has been destroyed! The disturbance here will probably reach the Hundred Saint City very soon! We don't have much time! Let's do it and finish him off quickly!"

To the other side, Chu Jie suddenly bellowed out and launched an attack without any hesitation at all. The power of several hundred sacrificial Godkings gathered in him through the assistance of the formation. He swung the sword in his hand violently, and the weapon immediately erupted with light, conjuring a huge strand of sword qi a hundred meters long. It slashed towards Jian Chen.

His attack contained the power of the Primordial realm. The tremendous might within it immediately churned up the sky as the colossal pressure flooded out in the surroundings, alarming all cultivators within a range of several hundred kilometers instantly.

In the instant Chu Tian struck out, Zhou Wenbin, Zhou Zhi, Kong Feiying, and Gong Ruize all took action as well.

Immediately, five powerful attacks that had reached the Primordial realm hurtled towards Jian Chen, sealing off all of his paths of retreat.

Chapter 2798: Unkillable

Just as Chu Jie and the other four launched their attacks, the pale Scion of Five Point hovered in the distance, staring straight at Jian Chen. He had been extremely confident in his strength. He was just an early Godking, but the combination of the Laws of Space and Laws of Time had elevated his battle prowess far beyond his current level. Even regular mid Godkings were not his opponent once he used the World of Heaven and Earth.

Yet, despite his confidence, he had not even managed to last a single attack against Jian Chen. As a result, Jian Chen became almost unfathomable in his eyes despite also being a Godking.

“Yang Yutian is just too powerful. I wonder whether he can survive the attacks from five existences akin to Primordial realm experts,” the Scion of Five Point thought to himself. He was rather eager, as if he wanted to witness Yang Yutian’s true strength through this battle.

On the other side, an undiscoverable sneer flashed through Jian Chen’s eyes as he sensed the five powerful attacks around him. In Chu Jie and the others’ eyes, these Primordial realm attacks were what allowed them to stand and protect themselves within the Darkstar World, their greatest trump card against the Darkstar race. However, in Jian Chen’s eyes, they were so futile.

With the toughness of his Chaotic Body, the Primordial realm attacks they had launched through the formations could not even touch a hair on him even if he stood there defenceless.

That was because attacks at the First Heavenly Layer of Infinite Prime were no longer enough to damage his Chaotic Body. It could not even leave a scratch on him.

However, with the Scion of Five Point spectating on the side, Jian Chen obviously could not display his Primordial realm battle prowess. Just when their attacks were about to land on him, Jian Chen gripped a supreme quality saint artifact sword and stabbed out five times with lightning speed. Every single stab surged with light and was unbelievably fast. Especially when imbued with the Laws of Space that Jian Chen had purposefully lowered to Godking, it led to an illusion where he clearly just stabbed out once, but five attacks appeared instead.

Boom! Boom! Boom! Boom! Boom!

The five strands of sword Qi collided with the attacks violently. With a great rumble, a terrifying storm of energy wreaked havoc in the surroundings. The sword Qi Jian Chen had launched was forcefully dispersed before the five powerful attacks, while the five attacks weakened slightly, worn away by the sword Qi. Afterwards, they struck Jian Chen at the same time with their remaining might.

Boom!

Within the rumble, Jian Chen collapsed on the ground from the attack. His white robes had already been reduced to ashes, revealing an armour made from beast hide.

The beast hide armour was also a supreme quality saint artifact, but under the five Primordial realm attacks, it had become tattered. It was already half-destroyed.

"I never thought you'd actually have a defensive supreme quality saint artifact on you. I've underestimated an independent cultivator like you. However, even if you have a defensive supreme quality saint artifact, it can't change anything today. It'll just make you last a little longer. Yang Yutian, have you ever imagined you would suffer a fate like this?" Chu Tian laughed viciously. When they attacked Jian Chen, they had also used their Primordial realm powers to disturb the space there, making it unstable, so the Laws of Space would be rendered almost ineffective. This was to prevent Yang Yutian from escaping.

"Chu Jie, why're you blabbering all that nonsense? The Hundred Saint City will learn about the battle here very soon. Once Jin Hong and the others get here, killing Yang Yutian won't be that easy anymore. If we want to kill him, we need to be quick!" Gong Ruize said coldly. The power of the Primordial realm gathered in him. He seemed to be merged with the many sacrificial Godkings as he mobilised everyone's powers to launch a strand of sword Qi towards Jian Chen below.

"Don't worry. Once we strike together, Yang Yutian will be dead for sure. Killing him won't take much time at all. He won't be able to last until his reinforcements arrive." Chu Tian laughed aloud before charging towards Jian Chen with everyone else from all directions. All of their eyes were filled with cold killing intent. They were extremely determined to kill Jian Chen.

A sliver of cold light flashed through Jian Chen's eyes too. Today was supposed to be the day when he would kill the five of them. However, the spectating Scion of Five Point on the side prevented him from unleashing his true strength, just in case it would lead to unwarranted trouble.

"The Scion of Five Point is the disciple of the Point Cloud Venerable, while the Point Cloud Venerable has assisted me before. As a result, I obviously can't kill his disciple. However, if I don't kill him and unleash my true strength, he'll see all of it. Once news of it reaches the Darkstar race, it'll be extremely bad for me. My identity as the fifth hall master might even be given away."

"But if I continue to hide my strength, it'll be impossible for me to kill them today." Jian Chen weighed his options inside. As he did that, he clashed with the five of them again. In order to conceal his strength properly, he was forced to reduce the armour on him to dust and create a few wounds for himself, so he seemed heavily injured.

Only with that could he avoid suspicion. Otherwise, if a Godking emerged unscathed even from five Primordial realm attacks, it would be far too shocking. Only those who had reached peak Godking and ranked in the top ten of the Godkings' Throne could achieve such an astonishing feat.

"Looks like all I can do is capture the Scion of Five Point and release him when I leave the Darkstar World," thought Jian Chen. This was the only idea he could come up with. However, just when he was about to take action, his heart suddenly skipped a beat. In the direction of the Hundred Saint City, he discovered a figure flying rapidly towards this place through the senses of his soul. He had used some

kind of secret technique, allowing him to move startlingly fast. He had actually erupted with speed on par with Primordial realm experts despite being a mid Godking, shattering through space and crossing thousands of kilometers each moment.

“Jin Hong is actually coming!” Jian Chen frowned. As a Grand Exalt’s successor, who knew how many ancient secret techniques he had inherited. It was nothing strange for him to possess this kind of speed. However, that would mean his plan to capture the Scion of Five Point and unleash his Primordial realm strength to kill Chu Jie and the others had fallen through.

“Looks like all I can do is last a little longer.” Jian Chen was helpless inside. Jin Hong’s arrival forced him to continue with his act. Blood sprayed everywhere from his mouth as his strength deflated like a balloon. His face became sheet-white, extremely heavily injured as if he was on the brink of death.

“Hahaha, he can’t last much longer. He’s going to die soon!” As Chu Jie launched vicious attacks at Jian Chen, he laughed with cruelty. Looking at how pitifully weak Yang Yutian had become and comparing it to his arrogance in the Two World Mountains, he felt great satisfaction. He seemed to finally vent the sense of humiliation and frustration he had repressed for so long.

Nearby, the Scion of Five Point watched on indifferently. He had no intentions of interfering. In his eyes, Yang Yutian’s fate had nothing to do with him. Even if Yang Yutian had mentioned his master, the Point Cloud Venerable, he still had no intentions of assisting him. The reason why he had remained here was because he wanted to personally witness just how long the expert who had defeated him in a single strike could last in an encirclement of five Primordial realm experts.

Or in other words, he wanted to see how Yang Yutian would die.

“Sigh, a prodigy is about to die young. Master is right. The vast Saints’ World has never lacked monstrously talented prodigies, but ninety-nine percent of these people will die young on their path of growth. Less than one in a hundred can truly become great experts.” The Scion of Five Point had already changed into a new set of white robes. He crossed his arms as he hovered in the air, sighing to himself.

In the battlefield, powerful pulses of energy constantly tore through the surroundings and booms rang out endlessly. The five of them continued to launch wild attacks at Jian Chen, and their rhythm sped up.

That was because the five of them had noticed something strange. Yang Yutian was already heavily injured from their attacks. He was covered in blood, and his life force extremely weak, as if he was on his last breath.

However, he just did not die.

Whenever they thought Yang Yutian was about to give in, only requiring a single strike to easily kill him, the outcome when their attacks landed on him would be coughing up a few mouthfuls of blood and becoming even more heavily injured in his near-death state. However, he just did not die.

If it were just once, then so be it. However, this continued for several times in a row, which almost drove the five of them crazy.

In that instant, they even began to wonder how many lives Yang Yutian possessed. How was he still alive after taking on so many fatal attacks? He was simply unkillable.

Chapter 2799 – A Grand Exalt’s Legacy

“God dammit, just how hard is he to kill? Why is he still alive?” Chu Jie finally could not help but curse aloud. With how heavily injured Yang Yutian was, just a single glance of him was enough to send a chill down his spine. If regular cultivators had suffered wounds as severe as his, who knew how many times over they would have died already. Yet, Yang Yutian just hung on.

“Damn it. He’s already so injured. I refuse to believe we can’t kill him today. Attack his soul.” Zhou Zhi grinded his teeth. His eyes had become slightly bloodshot. He seemed to be going crazy.

“Yang Yutian’s flesh is very, very tough, and the head is the toughest part of the body. I’ve struck him three times in the head with the strength of the Primordial realm, yet I haven’t even put a dent in it.”

“Even if we can’t destroy his head, we have to shake apart his soul. Everyone, let’s use our full strength and target his head with secret techniques.”

...

Immediately, the five of them ground their teeth as they began to use powerful secret techniques.

These secret techniques were powerful attacks the ancestors of their organisations had personally emerged from seclusion and specially created for the formation they used. It could make their attacks even greater.

In the Darkstar World, they had used this secret technique a total of two times. The first time was when they took back the Hundred Saint City, when they encircled the vice hall master Duff, forcefully elevating their battle prowess at the First Heavenly Layer to repel the Second Heavenly Layer Duff.

The second time was when the seventh hall master, Getti, personally arrived at the Hundred Saint City. They had used this secret technique to endure Getti’s attack. Even though it was almost useless before Getti, the secret technique’s power made it their greatest trump card, something that they took pride in.

However, it would place an extremely great burden on both them and the sacrificial Godkings in the formation when the secret technique was used, so they could not afford to use it unless it truly mattered.

Immediately, a terrifying pressure that rivaled peak First Heavenly Layer Infinite Primes radiated out. A blurry figure appeared in their formations, radiating with chilling, terrifying pressure.

These figures were the ancestors of their organisations. They had used the secret technique to conjure a figure of their Grand Prime ancestors. Even though the energy was limited to the First Heavenly Layer of Infinite Prime, it did contain an indescribable power of ways.

Of course, not everyone’s secret techniques were the same.

An illusionary sword would appear out of nowhere in one of their formations, radiating with blinding light.

The sword was their clan treasure, a high quality god artifact, wielded by their strongest ancestor.

There was also a formation that condensed a pitch-black finger out of pure energy, radiating with chilling, black light.

In short, the figures they condensed with their secret techniques all varied, but it all reached the peak of the First Heavenly Layer, or even approaching the Second Heavenly Layer.

In the next moment, the five secret techniques hurtled towards Jian Chen with enough power to make any Godking pale.

This time, they all targeted Jian Chen's head.

Boom!

Within the rumble, Jian Chen was launched far away. The powerful shockwaves wreaked havoc in the surroundings as the ground below was reduced to a mess, covered in great fissures.

The five of them were slightly out of breath as they stared right at Jian Chen's head. They wanted to see whether their strongest attack had managed to shatter Jian Chen's head or not.

However, their hearts sunk slightly very soon, as they discovered that Jian Chen's head was still intact apart from being covered in blood. It had not shattered like they had been hoping.

"Even if his head hasn't shattered from such a powerful attack, his soul must have been shaken to pieces," said Gong Ruize as he stared straight at Jian Chen, who had been launched away.

This time, Jian Chen flew several dozen kilometers away before falling to the ground, laying there without moving. However, this only lasted for less than ten seconds under their nervous and uneasy gazes. Jian Chen climbed up "with difficulty" from the ground. His face was covered in blood, which was quite a vicious and horrifying sight. They could no longer make out his face.

"He's still not dead?"

"How is he still alive?"

...

Chu Jie, Zhou Zhi, Gong Ruize, Kong Feiyang, and Zhao Wenbin all behaved like they had seen a ghost. Their eyes were wide open as their faces were filled with disbelief.

Nearby, the Scion of Five Point who had been spectating the entire time blinked his eyes as hard as he could. He too was filled with disbelief.

"Hahahaha, I obtained a Primordial realm expert's legacy. I possess many methods to protect myself, or I would have never been able to emerge from the Two World Mountains. Your strength right now is still not enough to kill me..." Covered in blood, Jian Chen laughed aloud. His presence was extremely feeble as his flames of life wavered, as if they could go out at any time.

But at this moment, an extremely powerful and pure vital energy suddenly blossomed in his body. Even though just a tiny sliver of it leaked out of his body, it immediately affected the world around him. The wind began to blow, and the sky within several hundred thousand kilometers turned blood-red in a single instant.

It was as if this vital energy possessed an absolute power that could change the world. Even just a sliver of it could shake up the world and alter time and space.

As a matter of fact, the vital energy could interfere with the ways of the world to a certain degree.

It was as if the vital energy itself was a manifestation of ways.

Chu Jie and the others' faces changed rapidly. They could sense a paramount pressure from the vital energy, along with an extremely ancient and weathered sensation. This feeling was like a great power hiding unfathomable mysteries, which led to an extremely severe influence over their souls. As they felt shock, the urge to drop to their knees and yield bloomed inside them.

"W- what is that..."

"W- what kind of legacy is that? Why do I feel like yielding before this vital energy? It's even more intense than when I face our ancestor..."

"This presence seems... seems... seems to be rather similar to Jin Hong..."

...

Immediately, the five of them shuddered inside. They stared at Jian Chen with their eyes wide open as their faces were plastered with extreme shock, disbelief, doubt, and joy. These emotions flashed across their faces rapidly, which was quite an interesting sight.

This was because they all thought of the same thing at that moment. It was exactly this thought that made their hearts surge.

They had always known Yang Yutian obtained the legacy of a Primordial realm expert. Originally, they thought it was just a regular Primordial realm expert, so they never cared about it. But now, the vital energy he gave off was extremely similar to the presence Jin Hong emitted when he used his Grand Exalt's secret techniques in the Two World Mountains, which immediately made them connect the dots and arrive at a conclusion so terrifying that they struggled to believe it.

"A Grand Exalt's legacy. Don't tell me Yang Yutian has obtained a Grand Exalt's legacy?" Their heart began to beat faster as blood surged through their body. It was no wonder Yang Yutian could last so long under their attacks. He had actually obtained a Grand Exalt's legacy.

Now, there was no longer a need for them to say anything else. They all knew what they had to do. At that moment, the five of them completely forgot about their hatred towards Yang Yutian. Their eyes had already become filled with joy and greed. They all rushed towards Jian Chen madly.

"Stop!"

At this moment, a great voice boomed out from the distance like thunder, erupting in their ears. It was filled with anger.

Chapter 2800: Counter Attack

Jin Hong finally arrived. He had used a secret technique, pushing his speed to the limit and crossing a tremendous distance in a flash. He was currently flying towards Jian Chen. Before he arrived, the senses of his soul had already expanded over, giving him a complete grasp of the situation here.

He saw the Primordial realm formations that Chu Jie and the others had assembled, radiating with surging pulses of energy.

He also saw the bloodied Jian Chen, who had become heavily injured by their Primordial realm strength. His life force was so weak that it seemed like it could go out at any time.

Jian Chen's circumstances made Jin Hong furious. He was unable to remain relaxed and indifferent to everything like before anymore. He surged with fury as his eyes shone with icy killing intent.

At the same time, the power of the bloodline within him reacted to the vitality that the ancient Skywolf's essence blood gave off, riling up as a result. The sense of desire it gave off was unprecedented. The intense temptation and attraction rammed against Jin Hong's will power as a bewitching force, expressing what it felt to Jin Hong.

However, Jin Hong completely ignored the activity from his bloodline. With his iron will, he forcefully suppressed the effects of the bloodline on his mind. His eyes were filled with raging fury as he drew closer at extreme speeds with killing intent.

Because he was still several million kilometers away from Jian Chen, it still took him some time to cross this distance even with the speed he moved at right now.

Perhaps it would not take too long, but he could see that Jian Chen was already between the jaws of death, unable to last much longer. Facing such dire circumstances, just a few seconds were enough for too many irreversible matters to occur.

"Oh no, Jin Hong has actually come..."

"How has he come so quickly? Qu- quick, we have to kill Yang Yutian before Jin Hong arrives, or all the arrangements we've made today will go to waste..."

...

Their faces changed and immediately became frantic, as they knew that once Jin Hong arrived, it would probably be impossible for them to kill Yang Yutian, let alone obtain the fortuitous encounter that Yang Yutian possessed.

None of them dared to underestimate Jin Hong. He was the successor of a Grand Exalt after all. Just that identity alone made them extremely cautious and fearful.

The five of them immediately unleashed their powerful secret techniques again, regardless of the costs and consequences.

Immediately, the figures of the Grand Prime ancestors and high quality god artifacts appeared again, pulsing with alarming energy.

"How dare you!"

Jin Hong's voice boomed out. His rage was unstoppable. He immediately performed a series of seals before pointing out.

The gesture seemed to possess paramount power. With that, the laws in the space before him immediately descended into chaos, as if it had been interfered with by something invisible. The space became extremely disorderly.

Jin Hong directly rushed into the disorderly space. He vanished instantly. By the time he reappeared, he was already several million kilometers away, appearing like he had teleported.

He had crossed the distance in a single instant, such that he was only a thousand kilometers away from Jian Chen now.

Afterwards, his energy gushed out like a tsunami, and a tremendous pressure filled the surroundings. The illusionary figure of the ancient Skywolf had appeared behind him silently. Afterwards, all of his energy surged, and he let out a howl at the sky.

Immediately, a howl seemed to fill the entire Darkstar World. With that, the very ground shook as the yin and yang of the world inverted. Everyone seemed to yield in subservience, and the world trembled.

Just when the five of them were prepared to launch their condensed secret techniques, the wolf howl arrived. The howl pierced everything, bypassing all defenses and directly penetrating the protective energy of their Primordial realm formations. It reached their minds like a clap of thunder.

The howl possessed an indescribably terrifying power to stun. It moved through their ears and directly interfered with their souls, making their very consciousness halt for an instant. They were thrown into a daze, frozen in the same postures as before.

This was an extremely strange sight, as if Jin Hong's howl had made space freeze and time halt. It made the brains of the five of them and the several thousand sacrificial Godkings short circuit, throwing them into a complete daze.

In the next moment, a string of explosions erupted in the formations. The formations that linked their powers suddenly collapsed. In a mere five seconds, the Primordial realm formations that the five of them depended on the most collapsed just like that. Even the powerful secret techniques they had condensed seemed to lose control with the destruction of the formations, dispersing in the surroundings as tremendous energy.

This sight stunned the Scion of Five Point, who was watching on from a distance. He was overcome by shock.

He knew extremely well how powerful the Primordial realm formations were, yet a formation as powerful as that had actually collapsed from a single howl from Jin Hong. They seemed so feeble.

"This is... a Grand Exalt's secret technique..." The Scion of Five Point gulped. In that moment, his fear towards Jin Hong ran so deep that it reached his bones.

Then he looked at Jian Chen. Although he had not been able to roughly identify the origins of the vital energy that Jian Chen gave off like Chu Tian and the others, as he did not have any contact with Jin

Hong, he could still tell it was something extremely impressive from the startling might the vital energy gave off. As a result, he too was tempted to a certain degree.

However, after weighing the consequences, he chose not to act recklessly in the end.

This was because neither his identity or the power of the sect behind him could support any reckless actions he took in the Hundred Saint City.

At this moment, the five of them all returned to their senses. They gazed at the collapsed Primordial realm formations and at Jin Hong, who was a thousand kilometers away. Their faces paled. As they felt shocked over how easily Jin Hong had destroyed their formations, they also found this extremely difficult to accept.

They were not afraid of Jin Hong, as even when they knew they could not defeat Jin Hong, Jin Hong would never actually kill them.

They represented the clans behind them. Even though their status was nowhere close to Jin Hong's in the Wolf clan, they still carried some of their clans' pride and dignity.

What they refused to accept was how they could only watch helplessly as they brushed past the possible Grand Exalt's legacy on Yang Yutian.

They could only watch helplessly as a tremendous fortune that could potentially change their lives brushed past them. The tremendous feeling of disappointment made them develop intense regret and resentment.

This resentment was obviously directed towards Jin Hong!

"Hahahaha, how are you going to kill me now without the Primordial realm formations? Looks like the one who'll die today is not me, but you." At this moment, Jian Chen let out a roar of laughter with his bloody mouth. The vital energy that the essence blood from the ancient Skywolf had been condensed with all the power within him into five meter-long arrows of vitality before shooting towards the five of them like red bolts of lightning.

Of course, the arrows of vitality were just a cover, as Jian Chen was still unable to control the power of the essence blood as he wished, much less use the power to injure anyone.

The true killing intent in this move was a feeble strand of sword qi hidden within the vital energy.

The sword qi was feeble, but the power it contained would be described as earth-shattering in the Darkstar World.

That was because this was a terrifying strand of sword qi that could kill Primordial realm experts.

At this moment, Jian Chen had finally found a suitable opportunity. He used the vital energy as a cover to launch a counter attack.

This counter attack would result in certain death!
