

Chapter: 1061

Sure enough, walking further along the road, I still saw some corpses, dead in the tunnel, or burned to death, and even shot to death by countless bows and arrows.

But no matter how they died, it was very miserable, but it also made Chen Feng and others more curious. Even if one person fell into the trap by mistake, but so many people fell into such a simple trap, it seems that it is really difficult for people to fall into such a simple trap. understand.

Chen Feng curiously approached one of the guys who had been nailed to the wall.

He opened the opponent's eyes, it was full of blood, it seemed that he was very excited before he died, and other places were also somewhat congested to varying degrees. This should not be the emotion that should be when facing a trap, facing death, even if it is a Ruthless people, but the kind of fear that should have seemed to be completely invisible to them.

"What kind of poison might they have before they died?" Chen Feng told everyone what he had discovered.

Chihiro Qian also walked to Chen Feng's side, and personally inspected the corpse just now, but the conclusion he got was the same as Chen Feng's.

"It seems that they are not simply unable to hide from the organs here, but some poison that confuses their minds before that has caused them to finally die under these organs."

Speaking of it, Qian Xueqiu naturally looked at the people in the Sea Lion Tower with a smile, hoping that the other party could give some answer.

Being watched in this way, and originally Chen Feng and the others discovered the key, the person in the Sea Lion Tower didn't conceal too much. If you are strong, you will basically be recruited, but after being poisoned, you will become extremely excited and lose your ability to judge."

Sure enough, I still can't underestimate this place, just relying on this magical purple mist, that is the biggest danger.

But as for the people in the Sea Lion Tower, they didn't remind them at the beginning, and Chen Feng and the others didn't care too much. After all, the cooperation at the beginning was not simple.

It's just that now that you know that there is such a thing, both Chen Feng and Chihiro Qian must be extra careful. No matter how powerful the martial arts, the sentence is enough to shock Chihiro Qian, the master.

The road behind will be much simpler then, even those who have been caught in the trap will be much better. Only in a long period of time will they occasionally encounter one or two dead people. It seems that it is also because of the deaths of those in front. Let them know the horror of those purple mists, so they should be prepared.

“I have come here now, but we still haven’t found the trace of that guy. I think it’s better to rest for a while. I can’t solve the current predicament in a hurry,” Chen Feng suggested.

In fact, because of the seizure of Emperor Taihao, the people in the Sea Lion Tower were very anxious, and even kept urging Chen Feng and the others to be quicker along the way.

But there is nothing to be solved in anxiousness, they are just a group of headless flies ramming there.

And a few people did walk for a long time. It was too big here, and it seemed that there was nothing for a while. Taihao, who originally thought it was full of wealth, was only facing the bare rock now.

Those people in the Sea Lion Tower had no choice but to sit down and agree.

But just after a few people had just sat down for a long time, the two people who came from the intersection on the side should be the other people who entered together, and Chen Feng looked familiar.

“Have you found anything?” Chen Feng asked them.

But the two of them didn’t react at all. After approaching, they suddenly accelerated and rushed towards them.

The two closest to the Sea Lion Tower were also entangled by each other first. Once they shot, they were swift, but the other two seemed to be faster. When Chen Feng and the others reacted, the other two were bitten one after another. Up the neck.

Like terrible monsters, they were sucking blood from the necks of the two of them, and they were constantly squirming at their Adam’s apple, and the blood slowly entered their abdomen.

Suddenly, even the few people in the Sea Lion Tower forgot to come forward and rescue them, but looking at them, it is estimated that they can’t be rescued.

It’s just that these blood-sucking guys are no longer normal human beings.

“What’s the matter with them?” Qianhiro Ken asked.

But the people who looked at the Sea Lion Tower, they also shook their heads. It seemed that they didn’t know these things, but they weren’t discussing these things now, because the two guys had also rushed towards them.

Chen Feng did not dare to step forward immediately. They still wanted to protect Qian Xueqiu. Because the people in the Sea Lion Tower were so close, the four of them rushed up together. One of them shouted, “What are you waiting for? The two are obviously strengthened. If we don’t get rid of them, we won’t even want to run away together.”

From the previous battle, we can already know that the two people are indeed better than the average person, and the few people in the Sea Lion Tower are also right. If they are not excluded, the two crazy guys will never let go. Anyone here.

And now they can’t completely abandon the people in the Sea Lion Tower, Chen Feng and Qianhiro Qian said, “You stay here, I will help them.”

Qianxunken also knew the importance of Qianxueqiu, so he agreed.

And with Qianxun Qian staying there, Chen Feng can still rest assured, as he said, he already rushed up.

At one point, six people surrounded each other. Although the two were extremely fast, they were still a little tired of coping in the constant involvement.

When a person from the Sea Lion Tower was about to be hit, Chen Feng hit the guy's head with a fist. Although they seemed not afraid to die, they still couldn't stand up again.

Just this punch killed this guy.

And there was only one left, and it was a lot easier at once, and within a short while, one of the people in the Sea Lion Tower had his head chopped off.

The scene was a bit bloody. Everyone stepped back to one side and looked at the lives that were still alive just now. Now there are only four corpses left, which inevitably makes Chen Feng and the others also have the sadness of a rabbit and a fox.

"It seems that there is not only a toxin like Ziwu in this secret hiding place. The two people must also be poisoned, but it also poses a threat to other people."

Chen Feng said slowly.

Everyone was silent, and they also thought of a worse possibility. If the person who was poisoned was Qianhiro Ken, then none of the people who came in this time might be able to go out safely.

But then Chen Feng abandoned this idea. If it does happen, it can only be an escape, and there is no other possibility.

Although it was something like this, everyone still wanted to stay and rest.

Chapter: 1062

The crises that have been encountered now are enough to make people feel terrible, and what are the crises still hidden in the depths, Chen Feng and others still don't know, even the dark shadow that took away the gift of Emperor Taihao, what he will do is also unpredictable.

But sitting here now, with the corpses beside him, makes people feel a little desolate.

In the end, Qian Xueqiu broke the weird silence. Although he was a little panicked in the battle just now, he was not scared yet. This was already a good response. After all, he was just an ordinary person.

"If we feel that we can no longer move forward, I think we can go back. After all, the price of going further is far from what we can get."

He said this in a suggestive tone, not with the attitude of the Patriarch of the Thousand Family, so Qianhiro Ken was also thinking about it seriously.

Naturally, Chen Feng and several people from the Sea Lion Tower heard this.

Qianhiro Ken said, "I have no opinion."

Chen Feng glanced at him. The most important treasure buried in Taihao's Secret Treasure may also be the secret that can break the restrictions of the grandmaster in the legend, but for Qianhiro Ken, he is the grandmaster, this thing is really meaningless, and He came in naturally only for the consideration of the thousand families as a whole, and now that even the owner of the thousand families has said to leave, he can indeed agree.

But for the other people, their thoughts are different. Chen Feng still has an ancient book of "Return to the Sea" to look for. In his heart, he actually wants to look for one or two more, but he didn't say anything and wanted to read it again.

The people who reacted the most were the people in the Sea Lion Tower.

They lost the gift of Emperor Taihao, and two of them are still dead here. They go out, then the price they have paid is already high enough. Instead of this, they might as well want to fight, maybe there is no inside. It's so difficult to imagine.

"I don't agree." said the leader of the sea lion building.

But his decision does not seem to be able to convince the members of the Thousand Family. He knows it himself, and then said: "And now you can't go out. You have lost the gift of Emperor Taihao. The stone gate outside is almost closed now, and It will never be possible to go out again with manpower."

Chen Feng looked at him a little annoyed. The meaning of these words meant that only the Emperor Taihao who would bestow him could go out, but he had already been snatched away.

He rushed over and confronted the person in the Sea Lion Tower and asked, "What you said is true?"

And his strength is not weaker than Chen Feng, so he didn't panic at all, just said indifferently: "If you don't believe it, you can go back and take a look at it now, and what you see must be a closed stone gate."

He was very confident. Chen Feng had actually trusted a lot from his tone, but he was still wary of him trying to deceive himself. Chen Feng turned around and said to Qian Xueqiu, "We have to check."

Qian Xueqiu didn't answer him directly, but asked, "When you stole things away, you didn't rush in immediately because of this reason?"

The man smiled and said, "It's too late for you to think about it, but originally we had to come in after discussing it. We must not lose the things in the treasure, but we didn't expect you to be with us. So this kind of thing, we naturally It is agreed, after all, it will be a lot of help."

Qian Xueqiu asked coldly: "Then why did you say it again now?"

That humanity said: "Because now you have no choice. You can't get out, but you have powerful force. But if you want to get out, you have to rely on everything we know. That's why we now have real cooperation. On the basis of continuing, we are cooperating in the fairest position."

Chen Feng was annoyed and really wanted to beat up this arrogant guy directly, but he also knew that it had become a fact now. He seemed to have only compromised, but it was Qian Xueqiu who made the decision, and he still looked at him.

Qian Xueqiu would be much calmer, but he was also angry, but it was not obvious.

He said: "As you said, we seem to have no choice, but before that, we must go to the door to confirm it again. If it is really closed, then we agree to cooperate with you."

The man was very self-confident: "Yes, I don't care about these times anyway."

Since even Qian Xueqiu is helpless, it seems that it can only be so.

A few people got up again, just said a word, and then ran towards the entrance again, but they were surprised that they were on the road, as if they saw a few more corpses than when they entered, and they might also want to escape back. But he died on the way back.

At present, only Chen Feng and his group have seen more than 20 deaths, but only 70 or 80 of the people who came in, this is close to a quarter of the death rate, and it is not counted in the depths. More people are dying.

But it was also helpless. Even when passing by, he just took a cold look, and didn't even have any thoughts.

Finally, a few people walked back to where they were when they entered, and as expected, the Shimen was completely closed.

Chen Feng also deliberately stepped forward to take a look, but the tiny gap couldn't even see what the scene was outside.

"Well, can you believe it now?"

Originally he was angry, but he was recognizing the facts. Instead, he calmed down. Chen Feng said, "You don't need to be proud of anything, but now we are all trapped here."

The man was stunned for a moment. He really didn't have any pride to rely on, and he even seemed to realize that he actually still needs to rely on Chen Feng and the others.

Qian Xueqiu said, "There is no need to say more about this, just thinking about how to get out."

Chen Feng said: "Is there any other way? We can only find the dark shadow, and even pray that he will not die in an unknown corner, so that we will never find it."

However, the people in the Sea Lion Tower said, "If he really is dead, we can always find him in a trap somewhere."

Chen Feng was unwilling to pour more cold water, and said faintly, "I hope so."

A few people didn't talk any more. After being exhausted for so long, a group of people were already very tired. They each looked for a place near Shimen, then sat there and began to rest.

Because today was not a very pleasant day, so they all lost their voices, and just waited quietly for the next day.

But in this kind of place, how could it be possible to sleep peacefully, just close your eyes as much as possible and let yourself nurture your spirits.

I don't know how long it took, and there were shouts from nearby, as if they were running towards here.

Chapter: 1063

When hearing this voice, almost all of them opened their eyes. It seemed that they were the same as Chen Feng, and they couldn't fall asleep.

The direction of the sound was very close, and the person in the Sea Lion Tower whispered, "Listening to the sound, that person is running for his life, and behind him there are very light footsteps chasing him."

Chen Feng didn't hear these subtle voices, but there was no need to question them, because he soon saw the guy chasing behind.

He is a very ordinary guy. Chen Feng has seen him in the crowd before, but now it seems that his previous impression should be wrong.

However, it seems that the man who is only 30 years old makes no sound when he walks, or even walks slowly, but the chased guy always seems to be unable to escape his chase.

The escaping in front finally saw Chen Feng and the others, and he hurriedly called for help.

But none of Chen Feng who knew the situation stepped forward to make a shot, and when the man finally leaned in, he suddenly rushed forward, as if he had tripped over something.

But Qianhiro Ken exclaimed, "What a quick hidden weapon."

Chen Feng was also taken aback. Although it is very dark here, Chen Feng is confident that if it is really a hidden weapon, he should be able to see it, or just hear the sound of breaking through the sky.

But he neither saw nor heard anything, but the guy not far away did not stand up after he fell. Except that he was dead, Chen Feng didn't think he would lie down after he fell. there.

After this person died, the chaser directly faced Chen Feng and the others. He could see a few people standing in front of the stone gate, and he stood there, no longer walking forward.

"Brother, please report your name."

The people in the Sea Lion Tower took the initiative to say.

If speaking, the Sea Lion House has a list of participants this time, but obviously the person in front of him will not be the fake name reported on the list, and they will ask this question too.

The man said faintly, "I'm sorry to disturb some of you."

The person in the Sea Lion Tower said: "This is not an important thing. I just want to come and see that the stone gate is now completely closed. And here is the only way out."

The man took a serious look at Shimen before he said, "You want to tell me that only you can open the Shimen, and you can only go through you when you want to go out?"

"Almost the same meaning, but unfortunately, we have no way to open this door, but you don't have to worry, we know how to open him, but now we need some help from you."

Chen Feng finally understood what he meant, and it turned out that he wanted to recruit this person over.

But after thinking about it, Chen Feng understood what he meant. Maybe he felt that in front of Qianjia's force, he just knew that there was not much protection in the secret area, so he would only see the strength of this person. , And talked to him about the truth, hoping to let him balance their respective situations after joining the group.

After knowing this, anyone must seriously consider their own survival issues, but that person coldly said: "I never thought about going out!"

This remark not only shocked the people who persuaded him in the Sea Lion Tower, but also made Chen Feng and the others wonder how there are still people who are unwilling to go out.

Could it be that he came here deliberately, and deliberately wanted to die.

Naturally, ordinary people can't understand it.

"Since you have to choose to stay here, why kill people? Is it possible that you are here to kill people."

"I killed him to save him. He was already delirious. Even if I didn't kill him and approached you, you would still kill him."

Hearing what he said, everyone thought of the two guys who had been poisoned by the psychedelic poison before. Maybe this guy who flees just saw something terrifying chasing him.

Naturally, Chen Feng had also thought about whether he was lying, but since he could kill the opponent instantly, then there was no reason for him to run in front of Chen Feng and the others.

So his words are still credible.

"Since you are not trying to kill or hunt for treasures, is there any reason you have to stay here to let you choose to die here." Chen Feng asked curiously.

The man looked at Chen Feng, his eyes were very cold, as if he was dead still. He looked around, everything here seemed to be so dark, but he looked at it and felt very calm, and he had never It's been so peaceful.

He said to Chen Feng: "I don't care where I will die. I just came here and then fell in love with it, so I don't want to leave."

This is really a very strange reason. No one can understand. Chen Feng is even more confused, but Qian Xueqiu seems to understand something. He said: "Death is not an easy choice, but you choose to be quiet. Dying, I think you must have unresolved grief in your heart. I won't ask why, just hope you can see the world more."

Listening to Qian Xueqiu's words, the man naturally turned his gaze to Qian Xueqiu. He was a little annoyed, as if he had been seen through his heart. This was something he didn't want to expose.

"You don't understand anything, so why can you say me?"

"I really don't understand anything, but I know life is precious."

The person's eyes became cold, as if he could penetrate Qian Xueqiu, and he said fiercely: "If you dare to say one more word, I will kill you."

Immediately, Chen Feng and the others became nervous. They knew the strength of this person. If they wanted to kill Qian Xueqiu, it would be just a matter of flicks.

The child even looked at Qian Xueqiu and told him not to say more with his eyes, but Qian Xueqiu seemed to have not seen it. He said to himself: "Don't punish yourself with other people's mistakes."

After he finished speaking, everyone thought that the man was going to do something, but he was silent. He just glanced at Qian Xueqiu quietly, then turned and left without saying a word, not knowing whether he understood it or not, but I feel extremely lonely from the back.

Maybe this is life. When you are in pain, cowardly death is the only choice.

After the person left, the vicinity of Shimen fell into silence again.

However, everyone was no longer able to rest safely, and simply got up and prepared for the next thing.

In fact, it was just looking for the whereabouts of the dark shadow.

Each ate some dry food, drank some water, and started to explore downward along yesterday's road.

The place is very big. It was only one-third of the way yesterday. If you continue to walk, you should get away from their goal very quickly.

Chapter: 1064

"What is this?" The people in the Sea Lion Tower discovered something strange.

When Chen Feng and others heard the sound, they also rushed over immediately.

They looked at the huge pit in front of them, and the gloomy bones over and over clearly revealed the fact that how many people were killed in the pit.

Perhaps this was originally a battlefield, and the people who died here were sacrificed soldiers, or these people were slaves who were slaughtered here, or they were craftsmen.

But whatever it is, this terrifying pothole makes people shudder.

Someone in the Sea Lion Tower said: "They are slaves used to bury them, and their lives are the property of the monarch Taihao, so after Taihao's death, they must also be buried."

The system of slavery has passed for so long, but now it seems that everything just happened yesterday, so clear.

However, the people in the Sea Lion Tower were a little excited and said, "Since the corpse for the burial has been found, the monarch's mausoleum must be nearby."

This is indeed a pleasant thing. Chen Feng looked around as if he had seen a familiar figure.

"Aji!" Chen Feng shouted towards there.

But after hearing the sound, the voice ran away at a faster speed.

Chen Feng thought he was scared and wanted to chase him, but he was stopped by someone. Later, he looked at Chihiro Ken and asked, "What does this mean?"

Qianhiro Ken said: "Don't you feel it, are you deliberately leading you there?"

Chen Feng was stunned for a moment before he felt that there was some truth, and in such a strange place, if he really fell out of the line, it might mean the danger of death.

He thanked Qianxunken and glanced in the direction where Aji had just left. Naturally, there was no one there anymore.

And this is like an episode in itself, Chen Feng didn't chase it, and nothing happened.

Several people in the Sea Lion Tower were looking for the direction of the mausoleum according to the location of the tomb pit. It took a while before they determined it.

Passing by the burial site of this piece of bones, it seems that a gust of yin wind is blowing slowly, the wind seems to be blowing on the face, it really feels like the whole person is chilling.

Perhaps it was a psychological effect. Everyone's steps accelerated a bit, and they passed through this place very quickly.

He hadn't been far away just now, and Chen Feng saw the figure again. He was walking in front, and Chen Feng didn't know whether he should yell or not.

And this time it was not just him, but several others saw it.

"He seems to be in front of us deliberately, I don't know what his purpose is." Qian Xueqiu said.

Although he agreed to follow in, he didn't know exactly what kind of person he was. The strange behavior now made people feel curious.

Chen Feng thought for a while, then suggested: "Let's take a look at the past together."

This is naturally much safer than being alone, but since you know it is a danger, there is no reason to try.

The people in the Sea Lion Tower said, "Just keep walking at our pace. If he really wanted to meet us, he could have come by himself, and he couldn't use this trick to attract us."

Chen Feng also looked at the other people, and they seemed to have the same idea, so he didn't say anything.

However, after continuing to walk, Chen Feng has been paying attention to A Ji's figure, but it seems that A Ji also knows that Chen Feng and the others will not come up, so the figure gradually disappeared.

And when they went down in this direction, they found more things, including precious gold and jade artifacts, which proved that their direction was right. As long as they went down, they would definitely find the monarch's mausoleum.

But things didn't seem to be that simple. Finally, when Aji couldn't attract them, he took the initiative to stand up.

Coming in front of everyone, stopped them from moving on.

“You can’t go on going anymore!” He said in the first sentence after meeting.

Chen Feng looked at him earnestly, as if he wanted to see some signs of poisoning from him, but it was a pity that he looked like a completely normal person without any madness.

Qian Xueqiu laughed and said, “Mr. Aji, can you tell me the reason you did this? If there is any danger ahead, we will follow your hope.”

Aji said, “There is indeed danger ahead. If you continue to walk, you will all die here.”

It was very alarmist, but Aggie said it very seriously, and people couldn’t help feeling that this was the truth.

Qian Xueqiu said, “What kind of danger is it, is it a trap, or is the shadow waiting for us? But if it is a known danger, then there is a way to solve it. If it is an unknown danger, then How did Mr. Aji know?”

Qian Xueqiu said very plainly, but every question went straight to the core of the question, which made it impossible to refute.

Lian Ji didn’t know how to respond.

But at this moment, someone walked out of the corner, walking very close, so light that Chen Feng only found him when he appeared in front of Chen Feng and the others.

“We meet again!”

Qian Xueqiu said lightly when he looked at the person who suddenly appeared last night and wanted to die.

The man only glanced sideways at Qian Xueqiu, and ignored his words, but looked at Aji.

“You are here. If they want to, let them in.”

Like someone who came to persuade, he said to Aji like this.

Aji naturally refused to let it go. He insisted: “Don’t you know he is inside?”

Who is this “him”, Chen Feng and several people have questions in their hearts, but it is estimated that only the dark shadow can be guessed.

“I know!”

“Since you know he is inside, it is impossible to let these people in. He has waited too long, and there is no more time to wait.” Aji sighed.

“But I don’t think he deserves it. He is just a thief. He can abandon anything for his purpose, including you.”

Aji looked a little annoyed. He couldn’t accept the other party’s evaluation. He couldn’t help raising his voice a little bit and said, “I don’t allow you to insult him.”

After speaking, he even rushed towards the other side.

Just making a big fight with a word inconsistent, it really made the people around feel incredible.

Aji is very strong, but the person is not weak. Only by looking at it at will can he feel that the strength of the two sides is actually not much different. They exchanged their fists and feet, but they all found that the other side had won.

Chapter: 1065

But the two didn't seem to be a real life-and-death duel. Aggie just wanted to teach him the words he had just said. Finally, Aggie punched the man in the chest, which opened the distance.

People coughed slightly, and it seemed that the power of the punch was not weak. He slowly said, "But even if you don't agree with those stolen things, you will tell him that he is a complete man. thief."

The words were heavier than before, Aggie's reaction should have been greater, but he just glared at the other person, his lips moved, and there seemed to be no way to say what he wanted to say.

Standing there looking at Aji and the others, Chen Feng didn't know what had happened, but suddenly there was a loud noise and everyone woke up.

They looked in the direction of the sound, not too far from here, and immediately thought that maybe the mausoleum had been opened, and they simply ignored Aji. A few people in the Sea Lion Tower rushed in the first place, Qianjia and Chen Feng naturally. Not to be outdone, but also ran over with Qian Xueqiu.

Aji originally wanted to stop them, but the man said, "What the hell is this? His business has nothing to do with you. You have to lean towards you. In the end, you can only be injured."

Aji said paranoidly, "I don't care."

Saying that he could catch up immediately, the man shook his head, not knowing whether he was sighing Aji's persistence, or regretting that he had not succeeded in persuading the other party, but he also followed.

On the rocky wall, there are countless murals carved with dragons, or Luan birds. Although simple and unpretentious, the entire huge drawing surprised everyone who saw this scene.

A straight and flat road, with numerous stone lamps lit on both sides, leading directly to the rock wall, and the two stone gates on the rock wall have been opened. Chen Feng and the others are standing at the other end of the road, looking forward, inside the stone gate. It is a piece of darkness.

"That's Taihao Mausoleum." The people in the Sea Lion Tower called out in shock.

The man rushed towards Shimen after he finished speaking, but before he was halfway there, suddenly a huge spear flew out from the rock wall and shot at the person just now at a very fast speed. A dodge escaped this fatal danger.

But where he was just now, the spear has been inserted deeply into the ground, and the smooth ground has cracked into the surroundings.

Leaning on the stone lamp in a panic, I thought I had passed the catastrophe, but I did not expect to touch the hand on the stone lamp, and took it back abruptly, seeming to be stung by something.

Chen Feng and the others also noticed his actions. They didn't even figure out what happened, they watched the guy scratching his hair frantically, but after a while, his head was bled.

The scene was extremely cruel, he abruptly scratched his scalp, and then he bleeds to death.

Such a brutal toxicity is really rare, and it also deterred Chen Feng and the others, preventing them from entering rashly.

And Aji had already come to his side. He looked at the people and the people who had died not far away and had become corpses, and he knew what happened after thinking about it.

"This is the consequence of you wanting to break in." He can also explain to everyone.

The people in the Sea Lion Tower immediately looked at him angrily, and some even took action, trying to make him speak out the possible danger.

But Aji also easily avoided the past, he said: "If you feel confident to go in, then I won't stop you."

Seeing that they could not subdue Aji, the people in the Sea Lion Tower said to Qianhiro Ken, "Since you have arrived here, are you still going to go back? This guy must know something. Let him speak so that we can go out safely."

Just want Qianhiro Ken to take action against Aggie.

But Qianxunqian looked at Qian Xueqiu and seemed to be asking for his opinion. Qian Xueqiu said: "We naturally want to go out, but this Mr. Aji is kind to me, and I really can't do anything to do with him. This is ungrateful."

As he said this, the people in the Sea Lion Tower became even more annoyed, and said, "Now that you still care about this meaningless thing, you just wait to be locked in here for the rest of your life."

Qian Xueqiu shook his head and ignored him. He just looked at Aji. He said, "Mr. Aji, you don't want us to enter, but you can't always keep us trapped here. Our idea is very simple. , That is to leave here."

Aji knew that this request was not too much, but he still hesitated.

"I'm really sorry, for his sake, I can only wrong you all."

"When are you going to be crazy?" The person before stood up again and asked Aji.

Aji turned to see him and said, "I can do anything for him, including murder."

The man shook his head, he seemed to have lost patience with Aji, and said: "If this is the case, I can only let you stay with me."

After speaking, his wrist shook quickly, and something flew past in an instant.

Aji turned over and dodged immediately, but then another thing flew over. The thing was very thin. It was really impossible to see his appearance in the dimness, but the hidden weapon that Aji had just avoided was deeply nailed aside. On the stone lamp.

I saw a tiny hole left on the stone lamp, which penetrated directly.

It's almost something like a steel needle, but with such a strength, even a stone pier of more than ten centimeters can be penetrated, which shows how strong the man's wrist strength is.

People can't help but feel a little more jealous about his strength.

After avoiding a few times in a row, Aji's movements began to be a little chaotic, and without the agility he had just now, it seemed that he had been forced to the end.

A steel needle passed through his body and directly brought up a bloody flower. Aji knelt and sat there weakly, his eyes full of unwillingness, but he was helpless.

"Do you think you won?" Aji said, "You have already lost. From the moment you were given up by him, you were a loser."

The man's mood fluctuated slightly, but he maintained a very flat posture and slowly said, "I will not blame anyone, nor will I blame him. Everything was what I deserved, so I chose to stay. Here, in this place where he most hopes to come, and then slowly die."

Everything seemed to be related to that dark shadow, whether it was Aggie or this mysterious guy.

And choosing to come here, the reason for everything should be caused by the dark shadow.

But looking at the road in front of him, there is still Aji kneeling down there, all he can think of is that they have to go inside on their own, even if they know that it is a dangerous road.

Chapter: 1066

Aggie felt pain, not just the pain in his body, but also in his heart.

This place seemed to be a place of treasure, but to him, it was just pain. He liked that woman, and Aji could do anything for her.

The blood of the person who had been killed was just to allow her to take a look at herself.

Unfortunately, she is a ruthless person, she is just taking advantage of Aji.

Aji knew that he knew it from the first sight of the woman, but he could not keep the impulse in his heart, he could dedicate everything for this woman.

But Leng Feng asked him to give up. He knew that Leng Feng should have given up.

Where Aji was sitting on his knees, the pain from his abdomen let him know that he didn't have too much time, maybe he would die, no, he was bound to die here, but he looked at Leng Feng's faint expression. I hope I can look a little bit away like him.

"I like her, do you know?"

The guy called Lengfeng was cold, and it softened a bit. He said, "I know."

Aji smiled bitterly again and said, "But she told me that she likes you."

Leng Feng shook his head and said, "She is just lying to you. She has never liked anyone, and she will always only like herself."

Aggie was very reluctant to accept it. Even when he was about to die, he still couldn't hear others slander his love. He said, "No, no. She is a flesh and blood person, not a machine."

But Leng Feng was no longer willing to argue with him. He just said: "When she approached me, it was for the record of Taihao's tomb. I gave it to her, but she was not satisfied. I told her that these were all wrong. Possibly, once we failed, it is even more impossible now."

It turned out that what happened hundreds of years ago was not done by Sombra, but by the person in front of him.

Chen Feng was slightly moved, but reason was difficult to overcome greed. He was curious about the woman who made the two fall in love at the same time.

Aji said, "She will get what she wants, and that's it, I will be enough."

His breath gradually weakened. Just now, the steel needle tore through his internal organs. Hua Tuo was alive and lacking skills. After he finished speaking, he stepped aside and couldn't get up anymore.

Qian Xueqiu looked at his corpse, but also remembered something. If he hadn't been there, he might have already died in the hands of those desert wolves, but everyone has his own destiny. Aji could save him, but he can't save Aji, this is Aji's life, and also his life.

Leng Feng looked at Aji, walked to his side, and silently carried him on his back.

"I met him after all. Although he has lost a lot, he is more persistent than me. I don't even know which one is right between him and me. But no matter what, he is dead now. As a friend, I also want to let him enter the soil for peace." He said to the others.

Love is one of the most complicated things in the world. Without experiencing pain, it is impossible to persuade them to give up.

Chen Feng just nodded with him, and didn't say anything.

When Leng Feng left, the person in the Sea Lion Building anxiously hoped that everyone could get inside quickly. It has been a long time since the mausoleum opened, so he was very anxious about what happened inside.

Qian Xueqiu also knew that they actually had to go in, and if they wanted to go out, they had to go through this dangerous road.

Someone has already walked the road in front of him, and he also died miserably there, which is also the biggest warning to Chen Feng and the others.

When I passed by, I was very careful and didn't dare to touch the stone lamp on the side, but I didn't encounter anything when I went all the way.

Stopped in front of the two opened stone doors, each with a hideous monster face carved on the left and right sides of the stone door. They are like door gods guarding here, guarding this ancient king's tomb to intimidate those who break in without permission. .

It is a pity that the tranquility here is still disturbed by these unprovoked greedy people.

It was dark inside. After entering the door, there was a long corridor. The corridor stretched forward, and a group of people still walked forward vigilantly.

Finally came to the inner palace, this is a huge square, and walking out of the corridor, the road extends to the front high platform, and on the high platform, a beam of sunlight from the top of the head shines on the throne, illuminating it with incomparable light. .

Even standing at this end of the road, you can still see the dead body on the throne that has already turned into withered bones.

In front of the corpse, a figure stood.

From the back, it looked like a woman with a graceful figure, slender and slender, but she just stood there quietly, staring at the bones in front of her.

She seemed very quiet because she was thinking of something.

Chen Feng's group quickly walked under the high platform, and the woman seemed to have noticed the visitor. She didn't panic at all, but slowly turned her head back.

"Hello!" the woman said, greeted lightly.

But knowing that she is not as weak as she looks, and no one despises her because of it.

"We are not very good," said the person in the Sea Lion Tower.

"Is it because of me?" The woman laughed, like a child who was worried that she had done something wrong, a little timid.

The answer that was available was quick and unfriendly, only to listen to them sternly shouting: "Hand over things."

Qing Yao felt a little boring. She knew that if these people could come in, then Aji who was outside would have died, otherwise he would have followed.

But she still asked: "Did you see Aggie?"

Chen Feng proactively said, "He is dead."

Qing Yao looked at Chen Feng who was answering her words, took a look, and said thank you.

Chen Feng didn't respond.

Qing Yao asked again, "You killed it?"

Chen Feng shook his head: "No, it's another person."

Although Chen Feng did not report who the other party was, Qing Yao seemed to have guessed it: "It shouldn't be your hands."

Chen Feng said: "It's really not us."

The people in the Sea Lion Tower were very impatient, and shouted at the two of them: "Now is not the time for you to chat, hand over things, or we will have to do it."

Qing Yao was attracted by their words again. She said, "I just asked about my friend's situation. Now I know that he is dead, and you still want to influence me to remember. It's really annoying. One of the guys."

Before the words were over, Qingsi threw something out.

The man wanted to hide, but the thing that flew over seemed to have eyes.

Chapter: 1067

What hit his face was not a hidden weapon, but a black spider. A spider half the size of a palm moved slowly on his face like that.

He naturally wanted to remove the spider, but Qing Yao smiled and said, "You'd better not move. If it bites on your head, you will die soon."

For the fear of death, he stopped his hand movements, even his accomplice wanted to help him to take it down, he also stopped aloud, just staring wide-eyed watching this terrifying thing crawling on his face.

Qing Yao said: "Now you should be able to be quieter."

It's more than quiet, his legs that he's already scared are trembling.

And Qing Yao looked at Chen Feng again, she became very gentle and smiling, if it weren't for her behavior just now, Chen Feng might treat her as a lovely woman.

Qing Yao said, "Where is the one who killed Aji? Why didn't he come in?"

Although a little lamented about the woman's viciousness, Chen Feng didn't suffer too much. He still said plainly, "He is going to find a place to bury Aji."

Qingyao nodded slowly, and then said: "This is what he should do. They were good brothers, but because of me, they are not so good. But now people are dead, and those sorrows Complaints are meaningless."

Chen Feng was silent, there was no emotion in those words, even if she knew that Aji was dead, there was no sadness in her eyes, as if a stranger had died.

Chen Feng felt that she was a very indifferent woman. She was so indifferent that she would not believe anything she said, because an indifferent woman was also a woman who was particularly good at deceiving people.

"Do you think I am strange?" Qing Yao suddenly asked Chen Feng.

Chen Feng shook his head.

Qing Yao said, "I don't think you know the relationship between me and Aji."

Chen Feng said: "I have heard him say that you used him, and he is just a tool for you."

Qing Yao laughed. She didn't think there was anything wrong with this evaluation. She said: "But all of this is his willingness. I never said anything to him, and I didn't take the initiative to ask him."

Chen Feng looked at this woman's smile, and just thought about it and felt that it was not worth it for Aji. No one would really care about you, except for himself.

But how many people will understand this truth, they are too lonely.

"That has nothing to do with me, that is Aji's business, and he is dead now, his death is very peaceful."

Qing Yao was stunned for a moment. She seemed to realize that she was talking too much, and she was talking to a stranger. She thought about it, and stopped talking to Chen Feng, but looked at the spider that was still crawling. Said: "I will bypass you today."

After she finished speaking, the spider jumped off his face as if he had heard her.

The people in the Sea Lion Tower were also relieved, but they looked at Qing Yao, but they were even more angry.

Qing Yao took back the spider that she had crawled back, put it on the back of her hand, and gently stroked the fluff on the spider's body, her eyes were also petting, but it made people look terrifying.

After she retracted the spider, a figure also walked from the hallway.

Leng Feng changed his previous ease, he collapsed in three steps and two steps, and it didn't take long before he came to the side of a few people.

Chen Feng and the others looked at him, but he had always been looking at Qing Yao on the stage, and ignored Chen Feng and the others.

Qing Yao said to Leng Feng, "I didn't expect you to come in. Could it be that you came to see me?"

Leng Feng said, "Before I came in, maybe I was still thinking in my heart that I was looking for you."

Qing Yao said, "Isn't that anymore?"

Leng Feng nodded and said: "Now it is too, but now I just want to take you to die here, let all the pain disappear, and bring Aji's share of pain together."

It's like a person who wants to die for love, he doesn't care about the so-called worldly pleasures, as long as he can die together, he is already satisfied.

Qingyao's face changed slightly. She didn't expect Leng Feng's purpose would be to kill her and make her die here, but she still said coldly, "Don't you think this is unfair to me?"

Leng Feng also said coldly: "There is no fairness, it is not a fair thing in the first place."

Qing Yao knew that Leng Feng's determination had been made, even if he said more words, it would not help. She took advantage of the gap between his words, and it was better to kill Leng Feng first than to die in his hands.

The black spider had taken the lead to fly out. Unlike Qing Yao who dealt with the Sea Lion Tower, the spider went directly to kill the opponent.

But her movements were so fast that even Chen Feng and the others did not react.

I can imagine that with the strength of Leng Feng, there should be no difficulty in avoiding it, but when they looked at Leng Feng, he just stood there, and he didn't even evade.

And that spider had already injected his own venom into Leng Feng's body.

It wasn't just Chen Feng who was surprised, Qing Yao also couldn't understand that she knew Leng Feng's strength, and even if she wanted to kill him, she just tried her best, but it was very difficult.

Qingyao stared her eyes and asked, "You know that my spider is incurable."

Leng Feng's face was pale, and it seemed that he was only trying to suppress the spread of toxicity. He slowly said, "I know, I have fed it myself."

Qing Yao said, "Then why don't you avoid it, are you injured?"

Naturally, Leng Feng was not injured. He killed Aji so easily just now, and there was no sign of injury, but he did not avoid it, which is really hard to understand.

Leng Feng said, "I didn't avoid it, just because Aji told me that you still love me. I want to prove that what he said is true."

It's like a childish child, asking a childish question. Among the few people who may be standing by, no one will think this is a legitimate reason, but he will feel that Leng Feng's head was dazzled by love. Will do such irrational things.

Qing Yao gave a wry smile and said, "So now you know?"

Leng Feng naturally nodded, Qian Xun Qian had already sealed the acupuncture point for Leng Feng just now, but it seemed that he was only delaying his death.

He is getting weaker. It took a lot of effort to nod his head just now, not to mention speaking now. He slowly said, "It seems that what I said is right, you only love yourself."

By the time he finished speaking, a mouthful of blood was spit out, and toxins attacked his heart, he was no more than half a step away from death.

Qing Yao said, "If you knew this earlier, I might be the one who died."

As soon as the voice fell, Leng Feng closed his eyes.

Chapter: 1068

Leng Feng got his answer, but this answer paid a huge price, and it was in exchange for his life.

Qianhiro Qian touched Leng Feng's neck and finally confirmed Leng Feng's death.

The death of a person will always make people feel sad. Chen Feng looked at Qing Yao who was still standing on the stage. The original coquettish face now looks very ugly. Both men died for her. One reason She died, one was killed directly by her.

If there is no such hard-hearted emotion in it, no one can give up their lives for them.

Maybe some people will never meet one in her life, but Qing Yao was lucky enough to meet two people. Unfortunately, the two of them met an extremely indifferent woman, just like a tease from heaven.

"He is dead." Chen Feng said coldly.

Qing Yao still couldn't see any sadness on her face. Even if she saw Leng Feng died in front of her, she knew that this man chose to die in her hands deliberately, but she was still indifferent.

Qing Yao said, "What do you want to tell me? I think I shouldn't kill him, but haven't you heard that he is here to kill me, I don't do it, do you still have to wait for him to kill me?"

This sounds very reasonable, and everyone has heard that Leng Feng did say so.

But Chen Feng knew that this was only the result she deserved, and Chen Feng said, "You think you are not wrong."

Qing Yao didn't wait for Chen Feng to finish, but directly replied, "I'm not wrong."

Chen Feng stared at her and said, "But the moment you made them fall in love with you, you already killed them. Their death was only postponed until now. You have killed two lives. It's your fault."

Qingyao frowned, her eyes fixed on Chen Feng, her hatred might make her act on Chen Feng at any time, and the spider had already unknowingly returned to her shoulder and shrank there, like a small Decorations.

But Chen Feng didn't have anything to be afraid of. Qianxun Qian was right in front of him. If Qing Yao wanted to do something, he would have to pass this master.

However, Qing Yao also seemed to see Qianxunqian's strength, and she did not rush to make a move.

But some people can't contain the anxiety in their hearts.

The people in the Sea Lion Tower didn't know when, someone sneaked under the platform, lurking, as if preparing to attack Qing Yao, and there, Qing Yao just couldn't see him.

Everyone just pretended not to see it.

Qing Yao laughed suddenly and said, "Even so, so what? Their death only allows me to get what I want, but you will all die here, and I will leave with the greatest wealth of the secret store. "

Chen Feng was shocked, knowing that she had said this, there must be something to rely on, the person hiding on the edge of the platform also heard that something was wrong, and ignored the waiting, so he jumped up and flew to Qing Yao.

The sudden appearance of the figure made Qing Yao also shocked, but she still reacted quickly, lifting the dagger in her hand to block the incoming sword.

No one can do it, but one is changing, but Qing Yao doesn't fight with him, and takes a step back.

But a hole suddenly appeared on the ground that was only flat. Qing Yao's retreat happened to fall into the cave.

I have to catch up to inspect it again, but the hole has been sealed, and there is no way he can do it.

"This hole can't be opened." The man tinkered a bit, but gave up.

Chen Feng and the others also saw Qing Yao's sudden disappearance, and they hurried to catch up.

But what I saw was only a closed platform, where there was still a shadow of Qing Yao.

Then, several people surrounded there, trying to find a way to open the mechanism, but they were busy for a while and found nothing.

This made everyone very annoyed, but Qian Xueqiu was surprised to see the sunlight shooting down from the sky.

He thought for a while, and said, "Maybe the agency is in this sunshine."

The others set their sights on him. Chen Feng asked, "What did you find?"

Qian Xueqiu looked at the sunlight and said, "The time just now was almost noon, that is, the angle of the sun's direct rays, and at this time, it should have triggered some mechanism, that is, when she smiled and said that sentence."

Chen Feng remembered that Qing Yao laughed and mocked everyone, that is, at that time, people thought she was going to do something. If you think about it carefully, Qing Yao doesn't have to wait for Chen Feng and the others to come in. If she knows how to open the mechanism, The earlier you enter, the better.

That can only explain one thing, she is waiting for time, that is, when the sun directly enters inside at noon.

After hearing Qian Xueqiu's explanation, everyone understood, but still didn't know how to turn on the mechanism. Someone asked, "Then what should I do now to turn on the mechanism again? Is it necessary to wait until noon tomorrow? If it's that time, maybe That woman had already emptied everything in the secret store."

Although they were very complaining, it was true. They couldn't really wait until noon the next day.

But the mechanism is designed in this way, and time is not their control. If the sun can be turned back, then they will have no trouble, but naturally the idea is very unrealistic.

"I think there may be other ways to open the door, let's look for it carefully."

This is a stupid way, but it is better than looking at the beam of light there in a daze.

However, Qian Xueqiu shook his head and said, "We have searched for it just now, but we didn't find anything. I don't think I can find anything after searching again?"

The man in the Sea Lion Tower became unhappy. He said, "Aren't we just doing it like this?"

These words were also annoyed by Chen Feng and the others, but Qian Xueqiu said indifferently: "If you want to unlock this mechanism, I think it's still in the sunshine."

He thought for a while, and no one bothered him anymore. After a while, as if thinking of something, he said, "No matter how the mechanism perceives the sunlight, he just turned it on and immediately turned it off. In fact, it is very unreasonable, so I think that the design of the mechanism is only to turn on once after the irradiation, and then wait until it is dark, and then re-enter another circle."

Chen Feng understood, and thought of a way, but someone still didn't understand and asked: "You don't have to wait until the night has passed for you to say this. How is this different from nonsense?"

Chen Feng stood under the beam of light, with the dead bone on the side, but the owner of this cemetery, no one cares until now, he didn't even look at it. If he were to survive, he might be caught again. Pissed off.

Chen Feng thought for a while, then bowed slightly to the dead bone.

Chapter: 1069

Then he looked around and found a slate, which looked a little bigger than the size of the beam of light.

After I felt it was right, I walked to the light beam and directly blocked the sunlight with a stone slab. The size also covered the light beam completely without leaking to the bottom.

Everyone looked at Chen Feng curiously, Qian Xueqiu smiled, his thoughts were the same as Chen Feng.

Chen Feng also waited for a long time deliberately, fearing that there was not enough time to trigger the key points of the mechanism, and then he removed the slate and let the sun shine on the ground again.

Sure enough, the opening of the hole opened once, although it was closed quickly, it was indeed a way to open the mechanism.

Seeing the opening of the hole, everyone smiled with joy.

"Now you know what it means?" Chen Feng asked the man just now.

And knowing the way, there is no need to wait for anything, one by one starts to act.

Originally, Chen Feng was worried about whether anyone was worried about the danger of jumping, so it would be more difficult to choose the first one to enter, but he did not expect the people in the Sea Lion Tower to be anxious, and the first three would be them.

Qianjia and Chen Feng didn't say anything. With the three of them going to explore the road first, they naturally agreed with them.

After the three of them entered, Chen Feng followed in, followed by Qian Xueqiu and the other two.

Falling into it is a long slide, which slides downwards by gravity.

It took about two minutes before landing slowly.

A haystack was placed on the ground for buffering. When Chen Feng came down, the three people in front had already stood up and looked around.

Chen Feng asked, "Did you find anything?"

They shook their heads and said, "There is only one way. It must be going forward. Let's follow up soon."

Chen Feng said: "Wait for the people behind."

But they were very anxious, just glanced at Chen Feng, and then ignorantly chased after them. Since they thought there was only one person on the other side, it was enough to rely on three of them.

Chen Feng was helpless, but he couldn't catch up immediately, so he could only wait until Qian Xueqiu and the others came down.

After landing one by one, Qian Xueqiu asked, "Where are they?"

Chen Feng said aside what had just happened.

Qian Xueqiu said, "When we get here, they are the same as us, knowing nothing, and there is no difference between not being with them."

Chen Feng also nodded. If it weren't for Qian Xueqiu's discovery just now, they wouldn't even be able to get in.

The four of them checked and there was no problem, and they walked forward on the only road here.

The journey is very short, and the surrounding walls are painted with a lot of totem pictures. It seems that it should be the scene of people's life at that time, or a rather simple way of life.

But soon I came to a door, the door was opened, but on one side you can see the same circular mark as the door when you entered, it should be the door that can be opened with the gift of Emperor Taihao.

Several people glanced, and then continued to move forward.

The square stone room, the thick granite stone, the protection here is very tight no matter how you look at it, but there is no shadow of any treasure at all.

It is hard to say that this is not a treasure trove either.

In fact, everyone's hearts couldn't help but raise this question.

While hesitating, the three people were seen in front of them, and they flashed past in a hurry.

Maybe they found something, and Chen Feng and the others immediately chased it up.

The stone room is very large, and there are many compartments. It didn't take a while to catch up, but it lost its track. It would be difficult to find it again.

But after a few people stood there for a while, the other party came out on their own.

But the three of them all flew out sideways, and several of them rushed over to inspect, and the three of them had pale expressions, just like the scene when Leng Feng died, they were all poisoned to death.

It seems that Qing Yao killed them.

“Catch up.” Qian Xueqiu shouted.

So the few people continued to chase in the direction where the corpse flew out just now. This time, the stone room they entered was completely different.

There is gold piled up everywhere, almost filling up the entire stone room. The stone room is very large, but the amount of gold is also a lot.

All kinds of gold cakes, gold beans, and even these kinds of gems are mixed in them. If this gold can be shipped out, it will even have more gold than the three gold mines Qian Xueqiu said.

Although several people are well-informed, they still keep their eyes straight when they encounter such a scene, but some people wake them up from this obsession.

“This is the place where Taihao Secret Treasure really is. If you want, you can let you take out the gold here.” The voice came from the front, and there was only Qing Yao sitting on a golden seat. .

She looked at the four people standing at the door, as if they were a queen, and the wealth here was like a private property that she could squander.

Chen Feng said, “If you weren’t for this treasure, then why are you deliberately breaking into it?”

Qing Yao picked up a golden cake next to her and put it in her hands. She said, “Wealth is something outside of her body after all, and only her own strength is the last word.”

Chen Feng said: “You are also for the mystery of the master hidden here, but this is just a legend. I don’t know if he is here.”

Qing Yao laughed, and the woman’s smile became more graceful in front of the golden gold.

She said: “Legend? If it were only a legend, there would be so many people rushing, so many people would be bloodied to come in and kill them, and it is even more unlikely that after so many people came in, they would never be able to get out again. . Do you know, what they are doing is the legend in your mouth. But if it’s just a legend, it won’t make so many people crazy.”

She seemed to be partial to this unfounded statement, and even used human greed as evidence, but Chen Feng did not dare to assert that there was no such thing, so he rationally chose to remain silent.

However, even if the secret exists in this stone room, it may not be easy to find it from the mountain-like gold.

Qing Yao also seemed to know that it would be difficult to rely on her.

She said: “I wouldn’t mind sharing this secret with you, how, are you interested in cooperating, and apart from that secret, you can take everything here, I don’t need it at all.”

She and Chen Feng looked at them seriously, and from her expression, it could be seen that Qing Yao was not joking.

Looking at Chen Feng and the others, they seemed unmoved, and continued: "This is my greatest sincerity. The purpose of your coming here is not for these, but to cooperate with me, you will not lack anything."

Chapter: 1070

Greed for a woman seems to be rare.

But if they really want to get what they want, they will be more unscrupulous than men.

And the woman in front of Chen Feng and them seemed to be one of those hardworking guys.

No one ever denies the importance of effort, but almost crazy effort can make people feel scared.

"Then why did you want to kill those three people just now? You can use the same conditions to invite them." Chen Feng asked curiously.

Qing Yao seemed to be a little annoyed by mentioning those people, and said with a slight change: "Do you think I haven't said it? But they don't put me in their eyes at all, and even want to drive me away, do you think Can I tolerate it?"

"So you killed them?" Chen Feng asked coldly.

Qing Yao smiled and said, "If it were you, would you still let them go?"

Chen Feng also thought about it seriously, he found that he might not let them go, because their purpose was to kill Chen Feng and several people from the beginning.

Chen Feng shook his head and said, "I will kill them too, but not for the treasures here."

Qingyao didn't understand Chen Feng's meaning, but she still smiled and said, "That's it, you have no reason to blame me."

Chen Feng was silent, he looked at Qian Xueqiu and the people, Qing Yao said that he could not make a decision on the condition that Qing Yao said.

As for this idea, Qian Xueqiu has been seriously thinking about his possibility since Qing Yao said it.

But if it's someone else, Qian Xueqiu might have agreed, because it's a business that won't lose money, but what they are facing is indeed Qingyao. This woman's heart is not as good-looking as it seems, and Qian Xueqiu also wants it. Hesitate again and again.

But Qing Yao said impatiently, "Time is precious, don't you just look at the gold all over the ground and not be moved?"

Qian Xueqiu also seemed helpless in the end. He nodded and said, "We agree."

Qing Yao laughed, she was like a victorious king, sitting on her throne, staring at the loser in front of her.

Chen Feng was a little confused. With their strength, it was not that difficult to deal with this woman, and as long as they got the gift of Emperor Taihao, their problem of going out was also solved.

So thinking about it this way, Chen Feng could only look at Qian Xueqiu with doubts.

But Qian Xueqiu didn't answer him, but gave him a comforting look, as if telling him, don't worry about anything.

Chen Feng naturally believed in Qian Xueqiu, maybe he had his own thinking, or he was worried about something, but Chen Feng knew that Qian Xueqiu must have already figured out a countermeasure.

Qing Yao said at this time: "Then everyone, start searching."

Qian Xueqiu waved his hand and said, "Hold on!"

Qing Yao was stunned. She thought Qian Xueqiu was going to repent again, and immediately brought some sorrow on her face: "Do you want to repent?"

Qian Xueqiu shook his head and said: "Naturally not, I just think your method is problematic. I think if you really search here, you will never find the most precious thing in the secret store."

Qing Yao asked incomprehensibly, "What the hell do you mean?"

Qian Xueqiu said: "Since it is an extremely precious thing, then in the ostentation of the Emperor Taihao, he will not let them mix with these golden gems. That monarch looks down on these things, otherwise he would not accumulate them. It's all over the floor."

Qingyao felt that Qian Xueqiu's words had some truth. She nodded and asked, "But I have checked the stone chambers here. Except here, there is no other place where there are treasures."

Qian Xueqiu said: "Even so, now is not the time to rush to search for these gold. Only in the end will there be no other way to make this kind of worst decision."

Qing Yao asked, "Then what should you do now?"

Qian Xueqiu said: "Look for clues."

Qing Yao didn't ask any more, she knew what Qian Xueqiu meant, but she was looking for a hidden place that might exist, and the real treasure must be placed in that hidden place.

But Qingyao couldn't make a decision immediately. She was also wary of Chen Feng and the others. Just as Chen Feng thought, her strength was definitely not as good as that of the Grand Master. If she really fought, she is bound to lose, but she can be fearless, because of the gift of Emperor Taihao, if she dies, these people will also not be able to go out.

It's just that if the investigation is scattered, she is really afraid of nights and dreams.

However, she could only take a gamble and said, "Okay, just do what you want."

And how to find this clue is naturally still in these stone chambers, because the most likely place for things to be stored is here.

The layers of institutions guarded it, not just a decoration, it must be to guard the most precious things.

In addition to those treasures, it is another organ that hides even more precious things. If you want to find them, you can only find them continuously.

However, they must also be the most difficult.

Walking out of the stone room just now, Chen Feng asked his questions.

“Why didn’t we just grab her and ask her, she would definitely say to give Huang Taihao come.”

Not only Chen Feng, but the other two also had the same question, and they both looked at Qian Xueqiu seriously.

Qian Xueqiu had no choice but to say: “I naturally thought about what you said, but gifting Emperor Taihao is no longer important. Could not open.”

Everyone was surprised, everyone didn’t know why Qian Xueqiu had such a judgment.

“Then why are the people in the Sea Lion Tower so anxious to find the Emperor Taihao, don’t they know?” Chen Feng asked again.

Qian Xueqiu said, “They are not looking for Emperor Taihao, but the woman.”

Chen Feng wondered, aren’t they the same? Finding Qingyao means finding Emperor Taihao.

Qian Xueqiu immediately saw what Chen Feng was thinking. He smiled and said, “Ci Huang Taihao is only a door that can be opened, but there is no door to go out, but the woman knows how to get out. This is the difference between the two.”

Chen Feng followed along all the way, but he did not see any such evidence to prove it, so even if it was Qian Xueqiu, he questioned and asked, “This is your own guess, or is there any evidence?”

Qian Xueqiu shook his head and said, “I know you need evidence to believe it, but unfortunately, this is just my guess.”

What he said made Chen Feng not know how to pick it up. He didn’t like this conjecture because it was so nonsense.
