

Chapter 133

Leon kissed her for a while, but she didn't respond. He was instantly bold. His hand gently rubbed Alyssa's slender leg. But just as he placed his hand on her leg, Alyssa moved, and Leon hurriedly withdrew his hand.

Snap!

Alyssa's hand rested on his shoulder.

He was still in a daze.

Alyssa had come over and burrowed her little head into his arms.

He gave her a subconscious hug. Her body came toward him unpredictably. She seemed to sleep in comfort.

After a few minutes, feeling Alyssa sleep deeply, Leon started to move his hands again.

But he dared not do anything but gently rub her body.

She slept very well under his rubbing.

As if she had been comforted.

She even snored.

Leon looked at her little face nestled in his arms. She tilted her head with her eyes closed, like Snow eating rabbit food.

Leon touched her little cheeks. At that moment, the little girl in his arms suddenly moved a little. He lowered his head to see Alyssa looking at him. He hurriedly hugged her tightly apologetically.

"Did I wake you up?"

"Hug ..."

"Hmm." Leon nodded and hugged her gently.

Alyssa, who was being hugged, had a smile on her face.

"So happy?"

"Well, because you're my husband."

"Do you like that I'm your husband?"

"Yes, I like you very much."

Alyssa had a dream. She dreamed about the fire in her last life. She subconsciously grabbed Leon's hand tightly, "Don't leave me, honey. Don't leave me, stay by my side forever, okay?"

"I won't leave you."

Seeing that Alyssa seemed to be dreaming, Leon hugged Alyssa tightly.

Alyssa soon fell asleep again.

Early the next morning.

Alyssa was awakened by the scent.

But after waking up, she realized that it was still early. She glanced at the time. It was just after five in the morning.

When she moved, Leon moved too.

"Why are you awake so early?" Leon thought it was still early. But when he thought of her pregnancy, he was worried that she was not feeling well. So he asked softly, "Are you not feeling well?"

"No, I'm hungry."

Alyssa was a little embarrassed by her words.

But, she was really hungry.

Now, she couldn't smell anything after she woke up.

She had just been dreaming about eating delicious food.

She felt like she was so greedy.

So, she was still in self-reflection.

At that moment, Leon's big palm came over and gently rubbed her hair, "Are you hungry?"

There was no mockery in his voice, only concern.

Alyssa nodded. Leon's attitude made her feel warm. She said openly, "I want to eat chicken legs."

"You can sleep a little longer. I'll ask the maid to do it." Leon stood up and walked out. He took two steps and then stopped and turned his head to look at her, "What else do you want to eat?"

"Cake, pizza, burger, anything."

"I'll ask the maid to prepare them for you."

Leon turned around and walked away after saying that.

Looking at Leon's back as he left, Alyssa smiled softly.

Anyone could see that he was good to her.

A few minutes later, Leon returned with some cool air on him.

"It's cold today. I told Wendy to get you some thicker clothes." Leon had just gone outside and seen the trees shaking. Wendy said there was a strong wind today and it would be colder.

The doctor had warned him that Alyssa should not catch a cold when she was pregnant. There were so many medicines that pregnant women couldn't take.

Alyssa nodded.

She couldn't sleep now.

Alyssa went next door to see Snow and Yummy.

She got Snow and Yummy's food ready. They didn't eat much, but they still needed to have enough food available. She was worried that they would starve to death while she was away.

Watching Alyssa keep feeding the two bunnies, Leon gently warned, "Don't give them so much. They are still small. If they eat too much, they will not feel well."

The palm-sized bunnies had small stomachs.

Alyssa hurriedly took away the rabbit food and nodded, "You're right."

Alyssa was a little dull now, a little different from her normal self who had everything planned.

Seeing Leon staring at her, Alyssa was about to ask him. When she looked up, she saw the cook suddenly squatting on the floor and opening the cabinet below.

The cabinet below was empty. When she lived here after she and Leon got married, there was no cook here. Wendy was hired by Leon later. At that time, everything in the villa was put in place by her personally.

Because she and Leon didn't eat much, only the top cabinet in the kitchen held food.

Although she rarely went to the kitchen after the cook came, she knew that there should be nothing down there.

So what was she doing?

Alyssa naturally began to suspect the cook, but the cook was hired by Leon, so it was better for her to ask, "Leon, can we trust the cook in our house?"

"I got her randomly before because I was in a hurry."

At that time, he was indeed in a hurry. Alyssa worked hard every day to cook and even burned her hand, so he just wanted to find a cook as soon as possible.

It was true that this cook was dedicated to her work at home.

But trusting her or not was another thing.

Hearing Alyssa ask this, Leon was a little curious, "Why are you asking this?"

"We're the only ones in the house. The top cabinet in the kitchen has enough food for us. She just kept looking for something in the bottom cabinet. I think there's something wrong with this cook." The more Alyssa thought about it, the more she thought something was wrong, "I'm going to go see what's happening."

"You're just going to go like this? If the cook isn't what you think, then it's fine, but if she really is what you think, you'll be exposed."

After hearing Leon's words, Alyssa knew Leon already had a solution.

Seeing that Alyssa didn't move, Leon came up to Alyssa's side and whispered something.

"So you had sensed it long ago. I thought I was smart enough to detect such an important issue."

Alyssa didn't think Leon was stupid at all. It turned out that he had suspected the cook a long time ago.

Leon smiled and said, "I also suspected her only when I just heard you talk about this. When we came back last night, she had been hiding in the corner watching us. I thought she was being lazy and didn't want to help Wendy. But now it looks like a different story."

Alyssa thought about it for a moment. She had been a little tired when she came back yesterday, so she hadn't seen anything.

It still seemed that Leon was more attentive than she was.

After they talked it over, Alyssa went to release Yummy and Snow out. The two bunnies did exactly what she thought they would do and ran around as soon as they were released. Alyssa screamed in the room and Leon went to get help.

Wendy and the cook came over to help catch the two bunnies, and Leon took the opportunity to get his bodyguard to go to the kitchen to get evidence.
