

## Chapter 1381 - Lose one after another

Alice said confidently: "Everyone listen to me, the total number of our parties is tens of millions, of which the number of players above 150 is more than 300,000. We have fought each other before. This time, we We must come together to make Lu Yang helpless to us. "

Ye Wuhen, Tianyi, Bancheng Yanyu, and others looked at each other and found that this was the only way. Before Alice came, they had already decided to do so.

"Okay, let's get together so that Lu Yang doesn't dare to attack us easily." Ye Wuhen said.

The girl Yaran asked, "But where shall we retreat?"

The smoky rain of Bancheng pointed at the endless forest and the high mountains below on the east side of the fortress. "We retreat here. The dense forests and mountains are good places to hide. As long as Lu Yang dares not step in easily, we can Return safely to Tianyu Shencheng and regroup. "

"It's easy to say. Can Lu Yang let us retreat so easily?" The Blood Demon asked.

A helpless smile appeared on Ye Wuhen's face, saying, "I can only abandon some people as my backing."

"Who isn't stupid is not good for anyone who is backing up to find abuse." The downcast poet said.

They all heard it. Ye Wuchen's original intention was to let all parties handle the players who are not loyal, the level is also junk, and the equipment is worse. They sell it to Lu Yang as a meat shield to kill, but these people are not stupid and do no good. They ran away the first time.

Ye Wuhen said: "I have a suggestion. You see, our main forces first took a wave with their brothers. Anyone who died in the battle, was resurrected in the necropolis as a unit of thousands, and immediately went to the star picking fortress. Gather at the entrance to the Phantom Night Forest. "

“This is a good suggestion,” said the downcast poet. “In this way, our main force can be kept, and we will be able to fight Lu Yang again with the supply tomorrow.”

People like Falcon and Blood Demon frowned, but after thinking for a long time there was no better way, they only nodded in agreement.

“If there is no better way, this can only be done.” Said the girl Yaran.

The presidents of the several largest affiliated guilds have agreed in succession, and the rest are not good at saying anything. Although this move is shameful, it is not their main force that is lost, but ordinary players who may quit the guild at any time, and they do not care.

“I agree.”

“I agree.”

“I agree.”

...

Alice’s expression always kept smiling, but her eyes showed contempt never before, which was a kind of contempt.

The most important thing for a guild to be strong is not how much benefit you can give to some players, but that you can be fair and just, and have a strong charm of yourself, so that others can obey your orders and work hard for you.

Alice has already understood why these people promised to follow her to betray Lu Yang. It turns out that these people are all ruthless and meaningless villains, and the players under them are just a group of poor people.

Ye Wumen saw that everyone had agreed with his proposal, and was very proud of himself. He regarded himself as a speaker and said to Alice, "We will retreat. I hope you can make the seven strongest guilds and Shi Tai. Ge and others at this time stepped up their offense and disrupted Lu Yang's sight. "

Alice looked at Ye Wujin sarcastically and said, "Did you lose the ordinary players, and you can continue to fight with Lu Yang tomorrow if you leave only the elite?"

Alice yelled suddenly and secretly: "Stupid, stupid is amazing, how did your head think of such a stupid idea?"

Ye Wumo was upset, but he did not dare to be angry with Alice, and asked embarrassingly, "Why am I and my idea stupid? Didn't they all agree?"

Alice looked at Ye Wujin and glanced at the people around her, looking away. Some people looked down, but others took it for granted.

"Hehe." Alice chuckled and said, "How many elites do you have, if you don't keep ordinary players tonight, it won't take you tomorrow morning. After they were pitted by you tonight, Lu Yang said a few words. Let them betray you, or quit the guild, or join Luyang's camp. At that time, you told me, how do you fight tomorrow morning? "

In these affiliated guilds, ordinary players are on average 4 to 5 times as elite players. Small guilds have a larger proportion. It is very difficult to pull out a 200,000 affiliated guild. It is very difficult to have 40,000 elites. The rest are ordinary. Player.

If ordinary players exit the guild in large numbers or do not go online, tomorrow morning, relying on the elites of more than 100 guilds, it will not be enough to add up to 2 million people.

Yancheng, Bancheng and Ye Wuhen and others thought about it and understood things, and suddenly felt that something was wrong.

"This method cannot be used, we must not lose ordinary players." Said the girl Yaran.

“But how can we retreat without them standing in front of us? Besides, how can we ensure that they are willing to participate in the battle tomorrow?” Asked the downcast poet.

Alice chuckled and said, “It’s not easy to block them. You should keep your elites behind and let ordinary players run first. They will definitely appreciate it. After all returning to the night forest, tell them that it will be sent tomorrow Equipment and supplies to participate in the battle, and then show affection for them, will not ordinary players die for you? “

Playing a game is a brotherhood. It is the so-called brother-free game. Some bosses are savagely damaged and let ordinary players go first. How can ordinary players in the guild not be touched? Furthermore, they can be supplemented with equipment and potions for free. , They are more loyal to the guild.

“That’s a good idea, I agree.”

“I agree.”

“It is indeed Alice.”

...

The guild leaders nodded.

Alice went on to say: “I suggest that you re-organize the team and assign management rights. The current chaotic management model is not conducive to the retreat.”

It is not difficult to assign management power during battles Everyone manages the offensive in one direction, or launches the offensive together. If they fail, no one will complain too much, but the retreat is different, everyone is It’s normal for irrelevant people to run for their own interests.

The downcast poet frowned and asked, “I’m afraid it’s not easy to assign. I don’t want to be used as a stepping stone by some people.”

The girl Yaran said, "I think so."

No one believed in each other, and was deadlocked for a long time. The blood demon suddenly gritted his teeth and said, "I am the head of the demon cow village and are willing to follow me and stand behind me. I promise to follow my brother and return to heaven before me. City of Gods. "

Players in the Demon Village battlefield heard their words brightened.

"The boss of Gorefiend speaks, I believe you."

"I believe you too."

...

Dozens of guild leaders successively stood behind the Blood Demon and chose to believe him.

Chapter 1382 - Prevent

The blood demon nodded with satisfaction, looking at Alice and said, "I'm fine here."

Alice said with a smile: "It is indeed the chairman of the first affiliated guild of the Brotherhood of the Iron Blood, and it really has courage."

The blood demon snorted and said, "That's all in the past. Now I want to form a guild myself."

Alice nodded and said, "You can take someone back."

The blood demon beckoned, and returned to the new continent with the presidents of these dozens of guilds, and immediately began the retreat from the demon village.

Alice looked at the remaining dozens of guild leaders and asked, "How did you choose?"

Several chairmen in the Xingxing Village area looked at each other, and finally Yifeng stood out leisurely and said, "I'll lead the team."

The guilds such as Crimson, Jin Mao, and Yuhuashi didn't say anything. Although the relationship was normal, they could only nod at this time.

In the end, only the fortress area of Chiyang remained, and Tian Yan, Tian Wu, Ban Cheng Yan Yu, and others did not accept it. After choosing it for a long time, Ye Wujin did not know how to communicate privately to the support of the two presidents. Ye Wujin became the leader.

"Since there is no problem, then retreat quickly, Lu Yang will not give you too much time." Alice said.

Ye Wuzhen nodded, and quickly exited the special space. He said to Teana: "Now the Brotherhood of Iron and Blood is defense-oriented. We just use this time to escape. Everyone listen to me and immediately order that the players who are resurrected in the necropolis should not continue to participate in the battle. Players who are attacking on the battlefield are gradually shrinking. "

"Iron brothers are not stupid, don't you know we're going to run?" Teana said unhappily.

Ye Wuhen sneered and said, "Unless we have traitors here, it is absolutely impossible for Lu Yang's men to guess that we are about to escape."

"Why?" Tianwu asked.

Ye Wujin said: "How long have they been fighting on the battlefield, the Brotherhood of Iron Blood has been defending, and we will make any adjustments, and the other party will be frightened and will take the initiative to attack."

Tianyi and Tianwu felt reasonable, so they gave up the argument, and each of them couldn't make an order.

On the battlefield.

The hard-blooded Brotherhood Alliance players are indeed in a state of extreme tension, as Ye Wuhen said. They fight against each other with players that are nearly twice the enemy, and their levels, equipment and skills are not dominant. The only advantage is that the players on the Iron Brotherhood have better cooperation, which is why they can continue to the present.

But letting bitter love take the initiative in his life, he didn't dare, not only him, but even Zhou Tianming and Tian Yao, etc., all of them had to wait hard.

"Woo ~~~~~!"

The horn sounded on the battlefield, the attack of the enemy players who were besieging the Iron Brotherhood began to slow down, and the main force regrouped in the east direction.

Painful love was watching the battlefield for a long time, frowning mutteringly, "What is the opposite?"

Zhou Tianming and Tian Yao and other vice presidents are not around, they are all directing the battle on the front battlefield. There is only one Xu Cailiang who can spend half of his life discussing it, but Xu Cailiang knows the battle array, but he is not very good at conspiracy and deceit, plus the defense for a long time It was as numb as Ye Wuhen said.

"I don't know, wait and see." Xu Cailiang said.

Nostalgia nodded for a long time and said, "Wait a little longer, let's recover."

On the battlefield, Zhou Tianming and others quickly formed the team, but they were also curious about the enemy's ideas, and they were a little confused for a while, but after a while, White Lion suddenly shouted in the simulation group: "The other two The battlefield on the side has noticed that this group

of grandsons are going to run. The ones on my side have already run away and lied to me. I am chasing them. “

“Want to run?” Suffering half-life sent a message and asked: “What do you mean?”

Tu Feng suddenly sent a message saying: “The exact news is that the enemy is worried about the overall collapse because of the boss’s assistance. More than 100 guilds who attacked us decided to run in three teams in the direction of the night forest.”

At this time, Lu Yang had just brought more than 20,000 people to join the Vulcan M16. He also saw that the enemy had regrouped and was slowly retreating.

He quickly said, “Don’t chase it. Be careful and cheat. Everyone will share the video and let me see the situation of the enemy.”

The commanders nodded bitterly for half their lives, and they did not dare to chase them easily. The fortress of Chiyang was 3 million to 6 million, the demon village was 2 million to 3 million, and the star village was 600,000 to 1.4 million. There are a lot of opponents and their formations are not chaotic. They dare to fight. Besides, the players are exhausted and need to rest.

System prompt: bitter love half-life sent a video sharing application

System prompt: White Lion sends video sharing application

Lu Yang chose to agree, and there were two shared videos in the lower right corner in front of him. It was the shared video of the bitter half-life and the white lion.

In the video of the White Lion, the main force of the Brotherhood of the Iron Blood is fighting the main forces of the betrayal of the Guild, such as the blood demon demon. Although it is a retreat, the enemy is not chaotic, and all who remain behind are elite. Cheap, still in a state of war damage.

“Damn, the enemy didn’t arrange for ordinary players to back up, all of them are the main force of the blood demon.” White Lion said.

Lu Yang thought about it, and soon came to understand, saying, "Pause the chase, we send them into the forest."

The white lion stunned and asked, "Boss, they can't catch up after entering the forest."

Lu Yang said indifferently: "This is the case for all parties. We will send them into the forest tonight. We will discuss the following battles."

"Okay Although the White Lion and the half-loving half-life were unwilling, they still obeyed Lu Yang's order, so they stopped chasing, and took the large army to send the enemy into the night forest.

The same is true for Lu Yang. At the entrance of Fantasy Night Forest, he saw the last batch of Yifeng Youran and a drunk party.

Half an hour later, the white lion and bitter love also followed, and the three enemies merged into two, all hidden in the fantasy night forest, and in the vast mountains and woodlands behind, many of them are dangerous. Pass, only few people can pass.

Han Fei and the light and dark thieves came back to investigate the news. The three told Lu Yang their information. At this time, Lu Yangzheng and the White Lion discussed the losses in the war.

The white lion frowned and said, "My average player has dropped at least 1 level."

Suffering for half a life said sadly: "Me too, the one-third of the 140-level dark gold sleeve in the warehouse of Chiyang Fortress has been used."

Lu Yang patted his shoulder and said, "It's been done well. Tonight, let the brothers back to the Star Picking Fortress on duty. The rest will rest. Let's discuss the next battle."

## Chapter 1383 - Late night discussion

Everyone's faces were a little dull, with Lu Yang returning to the picking fortress.

On the other hand, with the smooth escape of more than a hundred betrayal guilds, the seven strongest guilds outside the tiger mouth fortress and the gods cavalry regiment and the African army outside the sky sword fortress also withdrew from the battle.

The two sides returned to confrontation again, especially the seven strongest guilds. Because of Lu Yang's fierceness, he did not let 100,000 blood wolves come back to fight, causing them, one million people, to dare not rest outside the fortress, and all retreated to five hours away. Towering fortress.

Lu Yang, Zhuo Jiu, and others settled on the city defense and on duty, and took all the vice presidents, such as White Lion, Xia Yuwei, and Elderly Man, back to the conference room of the main city of the star fortress.

Because the war was too fierce, every vice chairman at the scene was physically and mentally exhausted, but everyone's face was with a determined look.

Zhou Tianming said fiercely, "Boss, tonight, let me lead my army to raid the night forest and kill all their left-behind people."

The White Lion scrambled, "Let me go, I must kill the \*\*\*\* of the blood demon."

"I'll go too," Xia Yuwei said.

Lu Yang projected a three-dimensional map on a circular table and looked at the fantasy night forest and said: "Now they should all hide back to the Heaven City God City, not only tonight, but even tomorrow we and the seven strongest guilds and Before the Cavalry of the Gods fight, they will not come out of the Celestial City. It doesn't make sense for you to go now. "

The Celestial City is a map where no fighting can take place. Everyone's attacks there are invalid. Only when they leave the city can they kill people outside the city.

Xu Cailiang said: "I agree with the boss's point of view, these more than 100 affiliated guilds have fought with us today, knowing that they were beaten up front, but we will definitely come out again when we fight with foreign players tomorrow."

The bitter love was a little irritable, and said, "This group of grandsons are lacking in morals. They are looking for our weaknesses. Tomorrow, the seven guilds can come to more than 10 million people. Under crazy attack, the tiger mouth fortress can hardly be blocked by defense. Yes, those people attacked at this time, and we are sure to lose the fortress. "

The faces of the people were darkened, all with rage, but there was no solution at all.

Lu Yang is also thinking, but what he thinks is not the same thing as half-life bitter people. He asks: "If we have a tiger mouth fortress, a sky sword fortress and a magic night forest on three sides at the same time, we can stick to it. how long?"

Tu Feng said: "Ten million people drop an average level a day, no more than 7 days, if it is only to defend the Tianjian Fortress and Tiger Mouth Fortress, it is more than enough."

Without these traitors, the Brotherhood of the Iron Blood could easily defend these two fortresses, without even having to use too many ordinary players, allowing them more time to collect blood, upgrade levels and special equipment.

"I was angry at the thought of the traitors," the White Lion scolded.

Tu Feng said: "In fact, the hardest thing is not the player, but the logistics reserve. If we continue to fight this way, we can't persist for 3 days. I am afraid that all the reserves will be used up."

The logistic reserve includes medicaments, mixtures, cooking, scrolls, and the most important equipment. Fortunately, the pharmacy and mixtures are fully provided by the Song and Blood Pharmacy Store. Cooking is not difficult to obtain. I feel that it can also add more than half, but the scroll can not

be supplemented. There are only 500 scroll production teams, and the 100,000 Blood Wolf Legion's daily scroll usage cannot be supplied without sleep.

The most important thing is the equipment. The stock of 140 dark gold sets is fairly good. The hardest is the 160 level dark gold sets. Lu Yang had prepared two sets for everyone. If the enemy took them away, Lu Yang did n't Method of timely supply.

Moreover, the level continues to drop like this, I am afraid that the 200,000 level 160 players under his hands will become level 159 on the third day. Only 100,000 blood wolves are supported outside and cannot resist the enemy's attack.

"It looks like we must lose." Lu Yang said.

Xia Yuwei said anxiously: "Boss, we will fight desperately, we will never let the fortress be lost in our hands, you believe us."

Lu Yang smiled and said, "Guys, I have a dangerous move. Maybe I can succeed. If we succeed, we can stop the attack from each other."

Failed, the Huaxia area was lost, but he did not say.

The White Lion asked in surprise: "what a dangerous move?"

Lu Yang shook his head with a smile and said, "In this battle, India and South Korea cannot help. It is estimated that they will not be able to separate people to help in a few days. We can only rely on ourselves. I Give you a dead order, you listen. "

Zhuojiu, White Lion, Xia Yuwei, bitter half-life and Tianyao were all at the same time.

"Boss, you said," said Zhuzhuo.

Lu Yang pointed to the tiger's mouth, the sky sword fortress, and the magic night forest area, and said, "Stay for three days."

"Gone?" The White Lion asked.

Lu Yang said, "Nothing!"

"That ..." White Lion wanted to ask what the danger was, but didn't ask, and blinked and said, "OK."

Zhuo Jiu said, "Tell me the Sword Fortress. The Cavalry of the Gods will never step in. As for the number, give me 1.2 million."

Lu Yang was surprised and asked, "Is there a lot of 1.2 million people?"

Zhuoshu said, "Enough."

Lu Yang patted him on the shoulder. He knew the meaning of muddy wine, and the level of 1.2 million people would be seriously affected.

The White Lion said: "The tiger mouth fortress was handed to me. I only need 1.2 million people. Then 200,000 elites will take you to fight the magic night forest."

He bitterly said for a long time, "Why don't you two give it to us, and I don't need the 200,000 elites. The boss asked me to direct a war, 5 million people, and I have the confidence to defeat more than 100 Renegade Guilds. "

He has this confidence. After a big war, bitter love has figured out how to fight each other. The more large-scale battles, the worse the combat ability of these betrayal guilds, because their poor coordination ability, the more Small-scale battles, on the other hand, have a fierce fight against the Brotherhood of Brotherhood.

Lu Yang smiled and said, "It's okay for you to command again, but my 200,000 and 160 elite elites have no place to use. You don't want me to go where?"

The three men of turbid wine, white lion and bitter love laughed.

Tu Feng said, "Boss, why don't you bring 200,000 people to support India or South Korea. I will bring over 2 million reserve teams to fight with equipment. All parties need support. I will send someone to the battlefield at any time."

Lu Yang thought for a while and said, "Leave 1 million people to be the reserve team, and the remaining 1 million will be all sent to the White Lions. I have a feeling that the battle at Tiger Mouth Fortress will be unprecedentedly fierce, and 1.2 million people will have a bit of defense."

The White Lion hurriedly wanted to argue, but Lu Yang motioned him not to argue, saying: "Hit first, if you don't need to retreat, remember that the number of city walls lost every day must not exceed two."

There were only 15 city walls, and two were lost every day, which was unstoppable on the eighth day.

#### Chapter 1384 - No pit leaves

The White Lion also knew that the situation was fierce on his side, and said, "Okay, I must defend with all my strength. The fortress will never be lost until the boss has finished his plan."

Lu Yang nodded with satisfaction and said, "Let's go to rest, keep your spirits up, and fight again tomorrow."

The crowd nodded, and each went to rest.

Tonight are Lu Yang, bitter love half-life, muddy wine and white lion. These three flew to the fortress where they are located, and Lu Yang flew to Tianyu Shencheng with a light purple dream and Tu Feng.

Tomorrow's war won't happen in the morning. China time is 5 to 12 hours earlier than the attack on his seven strongest guilds.

The reason why the seven major guilds have been so long in the past few days is that a large part of them are caused by the different schedules of players in various countries. The fastest enemy must also be online at noon tomorrow in China time. When the assembly is completed in the afternoon, they will travel for another five hours. The attack was launched after 10pm.

More than 100 guilds who betrayed the Brotherhood of Iron Blood would never take the initiative to launch without the support of the seven major guilds. Therefore, Lu Yang could allow his men to rest peacefully for a whole day, while also giving Lu Yang has enough time to plan.

In fact, Lu Yang's strategy this time is very simple, that is, divorce, the other party has more than 100 guilds, and there are more than 100 presidents. These people cannot be one heart. Of course, these people are now trying to prevent it. Being killed by him must be one-hearted, but many times, a word or an action can make these 100 people stale and even kill each other.

The light flashed.

Lu Yang appeared on the Oriental Street of Tianyu God City, and he said to Tu Feng beside him: "Take me to find the guild president Ye Wujin."

Tu Feng froze and said, "Would you like to change one? That kid's notoriously treacherous tricks are not easy to implement."

Just when Lu Yang retreated with a large force, Tu Feng and Qing Qian Zimeng took the opportunity to quickly enter the betrayal of more than 100 guilds to inquire about the information. Now these more than 100 guild presidents and vice presidents The location of the company, as well as other major fulfillment news, were arranged in Tu Feng's mailbox.

Along the way, Lu Yang told his thoughts on the implementation of alienation. Tu Feng and Qing Qian Zimeng also agreed, but the two did not expect that Lu Yang wanted to alienate the enemy team. .

Qing Qian Zimeng also said, "Yes, boss, this person has a bad reputation. He likes pit people most, let's ..."

Lu Yang smiled and said, "Do you want to say that I was pitted by him?"

Qing Qian Zimen flushed and said, "It's a bit."

Lu Yang laughed and said, "Go with me and you will know. Today, the boss will give you a long experience and show you the way."

What is the highest state of a pitman? You did n't pit him. He jumped into the pit himself. Ye Wujin, a man Lu Yang understands, treacherous is very treacherous, but all are clever. They always think that these little tricks can harm others. , But did not know that it was him who eventually pitted himself.

Who can be the president, how can there be a big fool, let him pit one or two times, who would still believe him, he must be three meters away from him before talking, so as not to be smoked by him.

Of the more than one hundred presidents, two small guilds have betrayed. Knowing that they have been used as guns this time, they do not want to be used again, especially the two people heard Ye Wujin from Tianyuan at the time. I want to abandon them and let them act as a backstop to block the Iron Brotherhood.

Of course, what these two people heard was also a false story told by Teana, because they did not compete for the position of leader Ye Wujin, Teana was also playing a trick, trying to attract more support and bring these millions of people Leadership in his own hands.

Everyone knows that the greater the leadership power, the greater the benefits, especially when all the benefits need to be obtained from the Seven Great Guilds. Whoever has the right, who can get the most things, has to grab it.

Qing Qian Zimeng said as he walked, "Now one of the two presidents who betrayed Ye Wuhen is beside Ye Wuhen. They are in the Qingya Restaurant in the street in front of us. More than 20 guild leaders accompanied. "

Lu Yang changed into a camouflage coat and quickly walked into the Qingya restaurant. Tu Feng and Qing Qian Zimeng also changed into the camouflage coat and entered the restaurant together.

It happened that on the first floor he saw Ye Wujin and more than 20 presidents sitting at a large bar table and chatting.

"Brothers rest assured that the things to be equipped from the Seventh Guild will be wrapped in me, and I will make you satisfied." Ye Wuhen said with a laugh.

"It's all up to Ye Wuzhen, and we'll confuse you later."

"If we lay the fortress, you can be the chairman, just give me a vice chairman."

"Me too, me too."

...

Lu Yang sneered at the entrance of the stairs, went up to the third floor, entered a private room, and said to Qing Qian Zimeng, "If you go and invite Ye Wujin, I will ask him for something."

Qing Qian Zimeng asked, "Will he come?"

Lu Yang snorted and said, "Did you see it? Ye Wujin is iron-hearted and wants to be the boss of the fortress. His current purpose is to attract more people to join his guild. The fortress is broken in the future. Grab one or two fortresses to make money. For this, he will do whatever he can, including meeting me in a video to show his determination to betray. "

Qing Qian Zimeng nodded and said, "I'll try."

downstairs.

Ye Wuhen continued to laugh wildly and said, "Brothers, Lu Yang is bound to be unstoppable this time. For up to seven days, the world's seven strongest guilds will be encircled heaven and earth together Offensive, Lu Yang just wanted to hold on to these two broken fortresses. It was simply a dream.

"Everyone just follow me. In the future, the Tiger Mouth Fortress will be broken. I will grab two fortresses in disorder. Our brothers will rely on the fortresses to get rich, and even occupy more fortresses to make more money."

With more than 20 presidents with excited expressions on their faces, they shouted in unison to thank Ye Wuren Boss.

Qing Qian Zimeng just came to the first floor. When she heard Ye Wuhen, she was really told by the boss. She changed her camouflage coat. Qing Qian Zimeng showed her original appearance. She walked to Ye Wumen with a smile. In front of him, said: "No trace boss."

More than 20 presidents turned back to see Qing Qian Zimeng, all leaning back like a ghost. Who knew that Qing Qian Zimeng was one of the two spy chiefs under Lu Yang. Above him is Tu Feng. Since Qing Qian Zimeng came, there must be nothing wrong.

Ye Wuhen also had a tense emotion in his heart, and asked in a panic, "You, what are you doing?"

Qing Qian Zimeng smiled, pointed upstairs and said, "My boss asked me to ask you to come upstairs to talk."

Chapter 1385 - Kill the Heart

"Your boss?" Ye Wujin was even more panicked, and asked, "Do you mean Lu Yang is looking for me?"

Qing Qian Zimeng asked sarcastically, "Why, dare you?"

Ye Wuhen was stopped, he turned his head and looked at the more than 20 presidents around him, and found that everyone's eyes were looking at him. At that moment, Ye Wumen didn't think of Lu Yang for him. Set up a set, but he has to make a courage that the chairman should have.

If he does not dare to face Lu Yang now, then he will leave an indelible and cowardly impression in the hearts of more than 20 presidents. The thing that may be triggered by this is that some of these 20 people betrayed him and fell to others. .

Ye Wujin gritted his teeth and said, "I have nothing to dare, Lao Tzu has reversed. Before, our brothers didn't apologize to him. They should be desperate for the desperate ones. You show the way, I'll see him."

"Yes, we don't owe him."

"It's all due."

"Yes, that's right."

...

More than 20 people yelled for fear that others would not hear them, but in the eyes of Qing Qian Zimeng, these people were just bluffs to cover their inner fears, otherwise why wouldn't anyone dare to take the initiative to accompany Ye Wujin See Lu Yang?

"Come with me." Qing Qian Zimeng turned and walked upstairs.

Ye Wujin was afraid at this time, and did not respond to the false words of more than 20 people around him, and he dared to mention the guts, and walked towards the stairs with Qing Qian Zimeng.

Halfway through the road, Ye Wuchen's eyes kept turning around. He had previously thought of meeting Lu Yang again, but that was after Lu Yang's defeat. Even if he met, he would also face Lu Yang. Crying and crying, he said he was also persecuted by his brother at the time, and he did not want to betray him.

After all, there are tens of millions of brothers in the Jagged Brotherhood, as well as the vast areas of India, South Korea, the Nine Star Alliance, and Spain. The camel is larger than a horse. He does not want to succeed. .

Once it is, when Lu Yang revenge, he will be the first to trouble him. At that time, there are few people who are willing to help him around. At that time, he wants to reach the glory of the Iron Brotherhood. It is not short. It can be done in just a few months.

Unfortunately, Lu Yang didn't give him this opportunity, and found him on the first night of the battle. He didn't want to quarrel with Lu Yang just like that, so he decided to go back and forth to Lu Yang in a gentle way, but he couldn't Let others see his fear.

"System, open the video." Ye Wujin decided to quietly record what he met today. As long as there was evidence, he did not agree to Lu Yang's conditions and did not cause Lu Yang's hatred, even if he succeeded.

"We're here." Qing Qian Zimeng's voice came from the front.

Ye Wuhen looked up fiercely and saw that Qing Qian Zimeng had opened the door of the private room. Looking at this door, Ye Wuhen's legs were a little soft, and Lu Yang's pressure was too great, even without the Iron Brotherhood, Lu Yang alone, and his elites, could destroy his existing guild.

I have to say that Ye Wujin is also a character. In this case, he still dared to step into the door and stood in front of Lu Yang, shouting respectfully.

"Boss Luyang."

Lu Yang was looking at the pedestrian outside the window with his back to his back, turned to look at Ye Wujin, and said with a smile: "Okay, even mixed with the leader of more than 20 presidents, why, ready to create a new guild and be the boss himself?" Anymore? "

Ye Wuhen's face was a little embarrassing. In the three years that he fought side by side with Lu Yang, Lu Yang had no place to be sorry for him. With Luyang, he gradually developed from a studio with dozens of people to a 200,000 person. For the Grand Guild, half of the credit goes to Lu Yang.

"Boss, I have no problem with this, my brothers want to have their own fortress, and I was forced to helpless." Ye Wujin said.

Lu Yang smiled and said, "Not to mention these. In the first two years, you fought with me from the national service to the national war, and then to the new continent. Every time I heard people say that you stay up all night to fight for me, at most once. After three days and three nights, I am very grateful. "

Ye Wuchen said, the fool just stayed up late for three days and three nights, that's what I did, let my men spread it for me, you really believe it.

But with a generous expression on his face, he sighed and said, "Isn't it? Recalling that time, we followed you to fight externally, and we have always been invincible, and the game is fun."

Lu Yang sighed and said, "I'm also ashamed to say that, then I will compensate you and your brothers five ..."

At this time, Lu Yang stopped, and Ye Wuhen's face showed an excited expression. He knew that Lu Yang wanted to spend money to bribe him and stop him from fighting, but the fool stopped at this time. Yet.

He has betrayed the Iron Brotherhood, and then betrayed more than 100 guilds. When Lu Yang settled the rebellion, the days of his guild's existence will come to an end. At this time, he must stand firm with these 100 guilds Together until Lu Yang is destroyed.

Now as long as Lu Yang speaks the latter words, his polite refusal is enough to prove his determination to carry Lu Yang, and he can let more small guilds stand on his side. This will not only expand his strength, but also in Lu Yang After being broken by the Seven Great Guilds, he also has the ability to occupy one or two fortresses to protect himself.

Ye Wuwen quickly asked five questions? But would Lu Yang give him a chance to speak, and then asked: "Who are the more than 20 guild presidents who follow you?"

Ye Wuhen blinked, and some did not know what Lu Yang meant, and said blankly: “The invincible hero of the guild, Athena, the president of the mythological guild, and the ruined knight of the chaos mirror ...”

Lu Yang listened to Ye Wuhen and spoke out this group of people. He sighed with a pretense and said, “These people have been with me for two years, and they were with me at the same time as you. Fight.”

Ye Wuhen said: “Well, if you don’t say far, just say the closest, Park Renyi and Tianlong, they all followed with great efforts.”

Lu Yang sighed and said, “I owe them, so, for me, I’ll give them one ...”

Lu Yang didn’t say any more. He paused for a second, while Ye Wuhen watched him continue to speak, he stepped forward and yelled at Ye Wuhen and said, “Good brother, this is the case, I go.....”

There was a mantra in his mouth, and a red light appeared from his body. After 4 seconds, he flew into the demon temple, leaving only Ye Wuzhen, who had stupid eyes left in place.

“What Lu Yang said was covered in mist, what was he talking about?” Ye Wumark murmured frowningly.

I just talked so many words, what he wanted Lu Yang to say, Lu Yang didn’t say a word, so I left without a word, and I left.

Where does he know? In fact, what Lu Yang said to him today was a word that had been thought out for a long time. It was a pitman’s remark. In ancient times, Cao Cao used it. Ma Chao and Han Sui used it. A letter altered on a key issue deceived both Han Sui and Ma Chao, and sent them away from Germany.

Lu Yang used it today for the present. In fact, what he and Ye Wuhen said was that he intended to persuade Ye Wuhen that they would return to their own side. He intentionally used the things that had fought side by side for two years to influence Ye Wuhen and promised to give him 50 million Cash, and the presidents of the more than 20 guilds each gave 10 million cash, but he said the beginning numbers five and one, and the other words did not say.

Lu Yang bet that, based on Ye Wuchen's meticulous person, in order to prevent him from talking with Lu Yangmi, he would definitely record on the spot. Therefore, whenever he reached a critical moment, when he wanted to talk about the amount of money, it all stopped.

Now that the technology is so developed, it is very easy to re-edit a video and change the time above. Anyone who does the video will be able to do it. Therefore, once the chat between him and Ye Wujin is known by other chairpersons, and watch when it came to the video recording, Ye Wuzhen couldn't tell the story even though he was full of mouth.

Of course, to do this, we need to add a few conditions.

The light flashed, and Lu Yang used the Guild Teleportation Scroll to teleport to the Guild Hall of the Brotherhood of the Iron Blood in Tianyu Shencheng, walked to the second-floor conference room, and Tu Feng and Qing Qian Zimeng were already waiting there.

"How?" Tu Feng asked nervously.

Lu Yang said with a smile: "Look at Ye Wuhencong being not smart. If he is a fool and has no video, my boss will be wasted in this performance. If he is smart enough to video, then we will win."

Tu Feng and Qing Qian Zimeng smiled relaxedly.

Qing Qian Zimeng said: "Ye Wujin is a smart man, he must have opened a video."

With a smile on Lu Yang's face, he said, "Early tomorrow send two groups of spies into Ye Wuhen's team and the Blood Demon's team to spread rumors."

"What rumors?" Qing Qian Zimeng asked.

Lu Yang said: "To the ordinary players under Ye Wuhen, Ye Wuhen has been bought by Lu Yang, their upper ranks have betrayed, and they are ready to rejoin the Brotherhood of Iron Blood, and Lu Yang is willing to give them a fortress and fight now. It's just pretending. "

“Can they believe it?” Qing Qian Zimeng asked.

Lu Yang said, “We do n’t do anything. They naturally do n’t believe it, but if I let bitter love spend half of my life, most of the offensive players are sent to attack the part of the blood demon. The main player who fights Ye Wujin is the defensive player. You say Will they still believe it? “

Qing Qian Zimen blinked and said, “This is really possible.”

Lu Yang said with a smile: “Even if they don’t believe it, it’s too late. As long as there is a shake on the battlefield, we spread rumors on the blood demon side, saying that Ye Wujin and Lu Yang reached an agreement, and on the battlefield, the blood demon side The loss is serious, but Ye Wuhen has nothing to lose. The blood demon devil must find Ye Wuhen to talk about it. You say, what will happen when Ye Wuhen takes the video out? “

#### Chapter 1386 - Buried trap

Tu Feng said with a smile: “He is dead when he takes it out. If he doesn’t take it out, he won’t be innocent. We will send out the video at that time.”

Lu Yang said with a smile: “It’s still an improved video.”

He sent the video to Tu Feng and said, “I have dubbed my words. You should go to a professional and give me Ye Wuren’s words.”

AI can change face in 2020, now it is 2043, not to mention dubbing, even if you find someone to restore the scene.

Tu Feng frowned and said, "Will there be some extravagance? Reminding the enemy of AI technology is not good for us."

Lu Yang said, "Let's not show it to everyone, only to people at the regimental level and let them pretend to tell the players at the regimental level secretly. This is what happened."

The words are terrible, three people become tigers, and one person is not terrible. When everyone says this, the blacks are white.

Tu Feng arched his hand and said, "I see."

Qing Qian Zimeng said, "I understand."

Lu Yang said with a smile: "Go ahead and arrange, I'll find bitter love for half my life."

Tu Feng and Qing Qian Zimeng went down to arrange it. On the other side, Ye Wujin hadn't figured out what happened, and went back downstairs, meeting with more than 20 presidents.

At this time, more than 20 people were nervously waiting for the news of Ye Wuren. When they saw Ye Wuren coming down, they all gathered around nervously.

"What did Lu Yang say?" The run-down knight asked anxiously.

On the way back when Ye Wuhen thought about Lu Yang's words, he thought about how to talk to the people downstairs. Although he didn't understand what Lu Yang said, he knew what he wanted to say.

"Hey, Lu Yang wants to buy us all. I refused on the spot. We don't owe Lu Yang. In this battle, we are going to fight him to the end. We have our fortress upright and have nothing to do with him." Ye Wu The mark exclaimed.

"The Incognito Boss does a beautiful job."

“We will be a grand guild in the future.”

“I respect the President. I admire Lu Yang, who is hard and positive.”

“Yes, Mr. President, a cup.”

The rundown knight and others raised their wine glasses excitedly.

Ye Wuchen’s heart was already drunk at this time. In a blink of an eye, he changed from a chairman of 200,000 to a chairman of more than 3 million. The feeling was different. The feeling of flirting with Fang Yan made him look like With the same ability as Lu Yang shoulder to shoulder.

“Come, I also respect the Vice Presidents for a drink, and we will be one family in the future.” Ye Wuchen laughed.

“Cheers.”

The party raised the glass, but did not notice that the chairman of the two small guilds secretly passed on Ye Wuzhen’s conversation to Tu Feng and Qing Qian Zimeng, and the two passed the video to Lu Yang.

Pick the Star Fortress.

Lu Yang is discussing the battle with bitter love for half a life, and it is difficult to defend the entire Imagination Forest and the Devil Hills below with 5 million people.

What I thought of for half a lifetime was to draw all the enemies out for a decisive battle. You can hear Lu Yang say this, and half a lifetime said with a smile, “The enemy is bound to fall, but I can’t do it on both sides.” Taking into account, you also need to be in charge of defensive operations alone. “

Lu Yang patted the shoulders of bitter love for half a life and said, “Take the defensive battle over to Tianyao, and you will lead the team to attack the blood demon.”

“Xie Boss,” bitter love said excitedly.

The defensive war must have a comprehensive thinking senior commander in charge, and if you change to another guild, you may worry about it, but on the side of Lu Yang, you are really troubled by happiness.

Among the main vice-chairmen of the Jagged Brothers League, Zhuo Jiu guards the sky sword fortress and the white lion guards the tiger’s mouth. Apart from these two people, the half-loved, the old man, Tian Yao, Liang Yun, and Zhou Tianming have the ability to become commanders Senior commander on one side.

No matter who Lu Yang uses, the other ones are not convinced! Especially Zhou Tianming, among these people, on the battlefield command, he was not worse than half-life, but Lu Yang did not use him. This was not that Lu Yang did not trust him, but had other uses for him.

On the front battlefield of the game, the Brotherhood of Iron Blood is already arrogant enough, but internal problems are becoming more and more prominent. This time, the betrayal of more than 100 guilds is a wake-up call for him.

This time he had confidence to prevent it because the affiliated guild was not strong or united, but next time a member of the vice chairman level within the Iron Brotherhood was countered by the enemy, then a big problem would arise.

He needs to take the initiative to give the enemy a point to allow the enemy to contact. As long as the external forces in the next war want to subvert the Brotherhood of the Iron Blood by Zhou Tianming, Lu Yang can severely hit them once.

Of course, the enemy’s use is their problem. Lu Yang needs to prepare for this in advance. If the enemy never uses it, he does n’t need to worry about such things. However, if the enemy really has this idea, he is not prepared. Then there will be a big problem.

Zhou Tianming didn’t know about it yet, but he didn’t sleep tonight, but instead watched the rest of the people, he voluntarily pressed the doorbell of the elevator on the 33rd floor.

Black and White is protecting Lu Yang's safety, but in order to maintain sufficient vigilance, he arranged the Black Knife and five other people to be on duty outside the gate.

Looking at Lu Yang in black and white, he didn't come out in the virtual helmet. He went to the desk and pressed the connection key, and asked, "What's the matter?"

Zhou Tianming said, "I'm talking to the boss."

Black and white said, "Wait."

He telephoned Lu Yang's communicator in the game. Lu Yang was ready to exit the game. He took off his helmet and pressed the elevator switch. Zhou Tianming went up to the 33rd floor.

Zhou Tianming walked out of the elevator with a smile, and came to the opposite side of Lu Yang with a little embarrassment, and said, "Boss, I have something to do with you."

Lu Yang smiled and asked, "Do you want to be a commander in lieu of half-life?"

Zhou Tianming shook his head in embarrassment and said, "I think I can command the battle, too."

Lu Yang motioned him to sit on the sofa area, and he got up and sat down on the sofa, saying, "I have a task to give you. If you don't want to, I will let you replace the muddy wine or the white lion immediately."

Zhou Tianming's eyes suddenly became calm and asked, "You said, I'm willing to do anything good to our guild."

Lu Yang stood up and looked at the night scene outside the window. The game city at night was not a dark place. Players who had fought for nearly 16 hours at this time were walking out of the gate of the studio and eating on the snack street. chat.

“This scenery is beautiful,” Lu Yang asked.

Zhou Tianming looked with a longing on his face and said, “What I want to protect most is this scene. The world can never find such a second beautiful place.”

Lu Yang said, “I’m the same as you, so I was the first to think of you in this matter. The vice president of our guild must have a careful mind and sufficient prestige and strength. Only you are the most suitable.”

“What’s the matter?” Zhou Tianming asked.

Lu Yang said, “I want you to complain. Starting tomorrow, you will continue to complain, not only to ordinary players, but also to other vice presidents and me, to make the enemy look unwilling to submit.”

Zhou Tianming asked in surprise: “Boss, you suspect that someone in the guild betrayed you?”

Lu Yang stared at Zhou Tianming’s eyes and said, “I’m preparing for the next war. I want you to be the object of the enemy’s countermeasures. Let them put all their hopes on you. Then we pit them fiercely. Once, can you do it. “

As long as there is a slight hesitation in Zhou Tianming’s eyes, Lu Yang will give up. What makes Lu Yang happy is that Zhou Tianming didn’t have a slight hesitation and immediately said, “I promise.”

Lu Yang said, “If you think about it, this is not an easy task.”

Zhou Tianming said firmly, “This is the only one that suits me best, and I am willing to do it.”

He is a smart man, and his head can reflect the reason why Lu Yang used him in this way. It is nothing but bitter love for half a life. He used to be a spy for Lu Yang. Pretending to surrender, he exchanged important information about the Fire Dragon Master for the Brotherhood of the Iron Blood, and fiercely pitted the bloodthirsty domineering. Therefore, he could no longer do this kind of thing for half a lifetime, and no one believed it.

Zhuoju is generous and never competes with others. They fight on the front line. When they make profits for their brothers, Zhuoju takes people to guard the Tianjian Fortress. They do not compete with them at all. They have opinions and he tries to appease them. Such a person has the most vitality and cannot betray Lu Yang.

The Baixi Sanxiong will not be able to do so anymore. These three people are reckless husbands. They will not change their whole life after recognizing the boss. They will always rush to the front with Landing Yangdong, and the enemy will not persuade them if they are not stupid.

The old man at dusk is 63 years old. He is one of the top 100 wealthy people in the country. Playing games is fun, and there is no place to make him tempted, unless he can find him immortal.

Shooting Sirius can't be countered His wife is one of Lu Yang's two biggest spy bosses, and shooting Sirius pitted Steige twice for Lu Yang. When the sun is heavy, it cannot be countered.

As for Tian Yao, like the old man in the twilight, the family is also very rich. When the orcs were laid down, his family helped him a lot, but now, his family earns more from Lu Yang, and it is impossible for him to betray him.

The families behind Xia Yuwei, Pride and Jiang Ze are all Lu Yang's \*\*\*\* supporters, and they will not betray them.

The only person who could be countered is him. He didn't have the support of his family. He was able to own a fortress in the Terrans because their two brothers talked about morality, everyone respected them, but they really talked about strength, and their two brothers did not have an advantage.

Although they later joined the Jagged Brothers Alliance, and before Tianyao and Liangyun, they could talk about family and closeness. Both of their brothers are the farthest from Luyang in the Jagged Brothers Alliance.

Why did Zhou Tianming make money in the first place, and also invested the money into his players, in order to improve his status in the Brotherhood of Iron and Blood, but he wanted to understand that before he could make great contributions, he was still the main vice chairman Here, the farthest from Lu Yang, so this time Lu Yang Gang raised the matter and he agreed.

## Chapter 1387 - Rumors 4

Early the next morning.

At the battle meeting, after Tian Yao learned that he had become the commander of the defensive army, the excitement on his face was difficult to restrain, and Zhou Tianming showed no dissatisfaction without pretending, and he was on the spot to fight for half his life and heaven. Both Yao couldn't step down.

As it happens, this is not a small conference, but a large conference with a lovely queen and some main army commanders.

The cute queen's big mouth secretly told her good sister Luoshen on the spot, and then Luoshen told her another good sister, and said that this incident only told her one person, so she should never tell others .

So, this thing went on ...

At two o'clock in the afternoon, the most important vice presidents of the Brotherhood of the Iron Blood quarreled because of command and spread around the world.

Not to mention the spies of the major guilds, major domestic and foreign media and major Internet TV platforms have sent people to interview Lu Yang.

For the first time, Lu Yang encountered such a big battle. There were almost thousands of media calls. Everyone was asking about it, and he was so annoyed that he didn't mention it deliberately. Even if someone asks about it, he will say that there is no such thing. At the same time, he thoroughly checked the chat records of all people and found that the cute queen's big mouth and her "stricken mouth" good girlfriend Luo Luo.

Pick the star fortress inside.

Lu Yang looked at the cute queen with a scared expression and Luo Shen next to her and said, "You two are very good, your mouths are very tight."

The cute queen knew she had made a mistake, she didn't dare to speak with her head down, and Luo Shen had a small expression that she had done something wrong.

"Speak, why not talk at this time?" Lu Yang angered.

The cute queen was startled and cried and said, "Boss, we know we're wrong, and never dare."

Luo Shen looked and cried.

Lu Yang said silently, "Okay, remember, let's stop this matter. Now that the war is imminent, I will not punish the two of you. If this battle does not perform well, see how I can clean up the two of you."

"Thank you, boss." The cute queen ran out with tears in her eyes, of course, her inner world was that the boss's task was completed.

In the game, the wars in various regions have not yet begun. Ten million players from the seven strongest guilds have gathered more than half of the points. At 2 pm in China, it is only about 9 am for players in Europe and the Middle East. , Most players are just online.

The same is true of Steige and Liu Jie, both of whom are replenishing logistics, and the more than one hundred guilds in the rebellion are even more afraid to come to the trouble of the Brotherhood of the Iron Blood, all of them in Tianyu Shencheng to receive supplies from the seven guilds.

In the open space outside the east gate of the Celestial City, there are countless players gathering, roughly divided into two parts, each of which is led by the Blood Demon and Ye Wuhen.

The \*\*\*\* demon who handled so many people's logistics for the first time only tasted Lu Yang's hardships, but at this time he was more confused by excitement.

Even if a calm person suddenly becomes 5 million people, it will be difficult to control himself. Even if he knows that many of them are not convinced by him, he must show a look that makes most people think he is a worthy one. Trustworthy, fair and just people.

Therefore, at this time, the blood demon has been busy from morning to night, and has no time to think about Ye Wuhen. He just heard someone say that Lu Yang had found Ye Wuhen last night, let him surrender, but he was caught by Ye Wuhen. Yan Ci refused, and he didn't go to his heart too much. In his heart, he didn't believe that Ye Wuhen would be recruited by Lu Yang. How could any traitor go back and have a good end.

Ye Wujin didn't have time to deal with the blood demon. Some guild leaders such as Tianyi and Tianwu disobeyed him, which caused him to arrange very hard work. Although the overall progress was slowly progressing, they did not know the following. But there have been rumors.

"Have you heard? Ye Wujin was recruited by Lu Yang last night. We're afraid it won't be long before he becomes a Jagged Brother." One of Tu Feng's ace spies was mixed in the crowd, knowing that he was facing the surroundings. People said.

"really."

"impossible."

...

People around were dubious.

"You idiots, don't believe it." The ace spy looked at these people angrily and said, "Think about how much Lu Yang has. If he is willing to give it, one hundred million, two hundred million. , Is it not easy to buy Ye Wujin's Guild? Or is it not easy to buy him to betray? "

“Betrayal? What do you mean?” Someone asked.

“It’s not easy. He took us to do our best to snooze with Lu Yang. When Lu Yang killed the blood demon, he will let us dissolve, and the crisis will not be lifted?” Said Ace Spy.

“No,” some of the people around began to believe.

People are afraid of this thing, especially ordinary players who do n’t know the inside story. They always think that what they hear is the truth. They always think that they know the inside story and can get rid of the fate of being a pawn. But is this possible? After entering this board, everyone is a chess piece, it depends on what you are.

The Ace Spy is the thunder on this chessboard, which is the most vulnerable place for the enemy, ordinary player groups.

“I’ll tell you.” The ace spy deliberately lowered his voice and moved people closer, and said, “When fighting for a while, don’t rush forward silly, look at the situation on the opposite side. Let’s fight hard, then it must be true, right? “

“It makes sense that if the other side didn’t hit us with all their strength, that would definitely be the deal reached above, but just didn’t tell us these little pawns.” The reckless player immediately became angry.

“Let’s stop playing, and watch it for a while.” Even more players have an idea, but this is exactly the wish of the ace spy.

“Yes, let’s watch first. If the other side slams with us, it proves that Ye Wuzhen is okay, and it is worth our life for him. After all, people send us equipment and supplies, but if he plays us, then I’m sorry. Grandpa no longer waits, “said the ace spy.

“Just do it.”

“If he dares to sorry for us, I can’t spare him.”

...

Such a scene not only occurred in this area. In order to create confusion for the enemy, Tu Feng sent hundreds of spies out of him. Lu Yang also changed his account and disguised himself as an ordinary player under Ye Wuji, and mixed into the team. Inquire about the situation.

After some embarrassment, he found that the enemy's credibility and player loyalty were so poor. Basically, he could conclude that the battle was stable.

From the afternoon to 9 pm, until the seven strongest guilds brought tens of millions of people to the Tiger Mouth Fortress, the army of the Cavalry Regiment and Liu Jie 's African Legion were pressed under the Tianjian Fortress, and Lu Yang returned to his account. , Flew to the tiger mouth fortress to watch the battle.

Tiger mouth fortress.

The white lion pointed at the black crowd of players 1km away and said, "Just do n't taste the dead. They have observed it. The seven guilds have come to more than 9 million people, mainly 140-level players. It can be said that this is the enemy's main offensive means. More than 2 million people are protecting Zhenghe and 50,000 stone throwers. It is estimated that they will never participate in the war, and they must guard against 100,000 bloodwolf guards.

Lu Yang sneered and said, "As long as the blood wolves are not caught by them, the 2 million people will not dare to move. Of these 2 million people, I am afraid that they are mainly 150 people."

De Bu tasted the corpse and nodded and said, "Exactly, there are at least 600,000 level 150 players guarding the trebuchet, and the remaining 1.4 million are mainly paladins."

The White Lion continued: "On the left and right sides of the trebuchet, the enemy is divided into seven parts, and each guild governs one part. Depending on the situation, the enemy is preparing for a guild and a guild to take turns to attack."

Lu Yang said with a smile: "Just right, you can feel the strength of the main vice presidents and legionnaires of various guilds in advance. We will fight out one day so that we can deal with them."

The White Lion smiled and said, "I was just looking at their strength."

Among the seven strongest guilds, there are dozens of deputy chairmen and legionaries who have made a name. These people have gained their reputation and status by strength, so no one will accept any management. According to common sense, the seven guilds should gather the most The strong forces attacked together, and now it is divided into seven parts because of this reason, it is compelled to do so.

Such a problem cannot be dealt with even by a high-intelligence guild leader such as Sanyouweimen. He looked at the tiger fortress that is only 500 meters wide in the distance and said, "Lu Yang is ready, we are ready for the decisive battle. It's time. "

Olma stared at Lu Yang on the fortress and said, "My man is the first one, and you see how I can kill Lu Yang."

Sanyouweimen quickly held down Olma and said, "Don't worry, let's talk with Lu Yang first, at least we want to mess up his military heart."

"What do you mean?" Olma looked confused.

Sanyou Weimen said with a smile: "Go to the host's home and knock on the door Always report your own name. We have been fighting with Lu Yang for so long, but we never talked to others. It is our rudeness. , We should take the initiative to speak to Lu Yang. "

In fact, Sanyoumonmon had the intention of persuading the enemy to reduce their war intention before the battle, but before the battle, the official also talked with some of their presidents. The official will have a global live broadcast, hoping that the two sides will play better.

Sanyouweimen just took this opportunity to talk to Lu Yang in person to let the world know his guild, and also to know him as a person, which can attract investment, can also receive advertising sponsorship, and can also gain a lot of fans In short, this conversation is appropriate.

“Let’s go and talk to Lu Yang.” Stephen said violently with a reins.

“Go together,” Jerz said.

Gelgar and Daniel also followed.

On the first wall of the fortress, Lu Yang watched the enemies come up, and he felt an upset in his heart. He knew the intentions of the enemies, but it was true that he couldn’t break the official face at this time. He had to let these people report to his family.

Chapter 1388 - War tiger

At a distance of 100 meters from the fortress, the seven presidents lined up, and the hosts of major live broadcast platforms and TV stations of various countries were roaring with excitement.

“It’s going to start, it’s going to start.”

“Several presidents are here.”

“This is a real battle. Don’t miss it.”

...

Among the host’s crazy shouts, the three presidents of the three countries, namely Tomokaemon, the president of Japan, Olma the sultan, Jerz, the five Polish nations, Radvidev, the twelve nations of South Africa, Stephen the twelve nations of South Africa, the United States, Austrian President Roland has successively reported himself.

Sanyouweimen bowed strongly to Lu Yang and said, “Chairman Lu Yang, after a few days, our joint legions of the seven strongest guilds finally came under your fortress. Next, we will officially launch a launch for you. War, but before the war, I still want to persuade you to surrender. As long as you are willing to dissolve the guild, we are willing to give 200 million credits each to buy your property. “

Olma laughed and said, "Lu Yang, it's better to give up, but we are willing to pay."

Lu Yang laughed and said loudly: "Since the establishment of the Brotherhood of the Iron Blood, the two words have never surrendered. If surrender is possible, why did I not surrender the bloodthirsty domineering, why not surrender Liu Jie, why not surrender Park Renyi, Why not surrender Tianlong, why not surrender one step through the sky, why not surrender to the Group of Eight, tell you that the players of the Brotherhood of the Iron Blood have been known for their blood since joining the guild, and they have won one game after another with me This battle, like this one, will end with my final victory, and you will lose. "

Stephen sneered and said: "Unknown to the current affairs, we are not the waste you won."

Lu Yang grunted coldly, raised his wand in his right hand and said loudly, "Let the enemy listen to our voice, Jagged Brotherhood!"

"kill!"

Two and a half million people roared at the same time. For a split second, the sound came out from the Tiger Mouth Canyon, and the sound of trembling and killing made the faces of Sanyouweimen and Stephen instantly change.

Sanyou Weimen said coldly, "Everyone returns and we are ready to attack. This will only increase morale for Lu Yang, which is not good for us."

Stephen said: "It's worthy of being a brotherhood of iron and blood. It's a hard bone, but I like it."

"Hey, gather the best of our seven guilds to attack, no matter how many people he has, what can he do?" Jerz said.

Olma said: "I'm going to prepare for the offense. You contact the garbage of Huaxia, and let them quickly return to the night forest to participate in the offense."

Sanyouweimen nodded, and he immediately called Alice and issued an order. Alice, who was far away from Tianyu Shencheng, was with the blood demon, Ye Wujin and other people outside the east gate. Ten million people gathered more than 8 million. In just one night, more than one million players were no longer participating in the battle. No one knows the reason, but more than 100 guilds have reduced staffing to varying degrees. Fortunately, it is mainly ordinary players, not elites.

Alice said: "The tiger's mouth was closed, and everyone quickly led the team back to the magical night forest and the demon hills. We jointly attacked and tried to win the star fortress once."

The blood demon looked at Ye Wujin and said, "Let's go together, let's attack together, and we can't take care of the waste of half-life."

Ye Wujin said: "Rest assured, I've assembled in the hills, and I will inform you as soon as possible."

The blood demon was always worried that Ye Wuzhen was playing a negative move, but now he couldn't control that much anymore. He sent a collective message to his subordinates and ordered them to return to the night forest with him.

Ye Wuhen, who was forced to join the team, flew to Tianmo Gorge. At the same time, the spy reported the rebellion guild to Tu Feng, and Tu Feng was picking the stars. The fortress, he immediately told bitter love half-life and Tianyao.

"Good time, I'm going to arm myself," Tian Yao said.

"I'll go get rid of the blood demon and let his grandson know that we are great."

The two of them looked at each other and each flew outside the city. Their two teams have been assembled for a total of 5 million people, of which 3 million masters attacked here for half their lives and 2 million masters defended at Tianyao. The main one Yes, Tianyao has 10,000 priests and priests, as well as 400,000 three-turn anti-war and anti-riding.

Tianyao came outside Tianmo Gorge. He immediately called Lu Yang and said, "I have arrived at the scheduled place."

Lu Yang was attacking Orma above the tiger mouth fortress. For the first time, Orma invested 1 million 140 players and 2,000 trebuchets. When he died, he would also send the trebuchet to the battlefield safely. .

The first city wall has been restored to its original appearance after last night's repairs. The 20,000 Lightning Tower is attacking enemies within 500 meters in a frantic attack.

Allma's defense and anti-riding are carrying shields in front of them. Similarly, the enemy also has the archbishop priest constantly using the ability to reduce damage. The three-round defense has powerful defense skills. Priest, Lightning Tower's 5 million damage was reduced to just over 500,000.

More than a dozen lightning towers attacked at the same time to kill a defensive battle. At one time, the enemy quickly approached a position 100 meters below the fortress.

Suddenly, countless flame boulders poured down from above. It was the slinger in the fortress. There were 20,000 slingers in the first line of defense. They attacked at the same time. Although the damage was only twice that of the lightning tower, it was so dense. At the same time, the first wave of assault players under Olmar killed a large number of players.

The priest was too late to brush his blood. More than 20,000 three-turn shooters on the wall of the Iron Brotherhood were firing wildly. Among the three-turn shooters, there were super powerful broken arrows, which could greatly reduce the magic resistance of the battle and the lightning tower attack. Suddenly, the defense against death was faster.

However, there was still no way to defend the entire 500-meter-wide area, and Olma also worked hard. Regardless of his casualties, he continued to rush behind, and soon the enemy rushed to a position 80 meters away from the fortress. At this time, The three-turn priest comes into play, and all the purification magic will purify all the buffs in the three-round defense battle. For a time, the defense will die faster.

The entire 10,000-man squad had all been wiped out before reaching the city wall, and the third and fourth 10,000-man teams just rushed to the 100-meter range.

Orma didn't care about the death of his men, he shouted, "Forbid the mage, prepare for the first wave of attacks, and the army of the three or four is ready to accelerate the reel attack."

Behind him, more than 300,000 forbidden wizards are standing there, and the first batch of 10,000 forbidden wizards began to spell immediately.

In 10 seconds, the clouds above the fortress were covered with 10,000 secondary forbidden spells. At the same time, even above the first fortress, hiding in places with anti-magic baffles did not help. Both time and space magic and soil magic could hurt the player. For a time, the priests and shooters on the city wall died in large numbers.

The heads of Olma's Third and Fourth Corps suddenly pulled out the acceleration scrolls at the same time, and with a pinch, the two 10,000 regiments accelerated 100% at the same time and rushed towards the fortress.

However, when they ran to the 50-meter area, a thunderous thunder sounded. In the area 50 meters before the fortress, the flames soared into the sky, and more than half of the 20,000 regiment died instantly. This result was pre-buried by the Master of Fire and Thunder. Stealth fire thunder.

Just when the remaining players of the two 10,000 regiments were dumbfounded, a large number of bows and magic were suddenly shot out of the two rows of holes in the first city wall, and the rest were all dead.

In just one face-to-face, in less than 10 minutes, the seven strongest guilds died 40,000, and the Brotherhood of the Iron Blood killed 30,000.

Orma had a gloomy expression on his face. Although he expected it would be difficult to fight, the fierceness and variety of the Jagged Brothers League still made him uncomfortable.

"The Fifth Army to the Tenth Army are preparing to attack," Olma shouted.

The commanders of these legions have understood that the first batch of them to be rushed was the mines, and there was no possibility of rushing to the fortress.

Six people are also too lazy to talk nonsense, leading people to rush up. Although the Iron Brothers players on the city wall were killed by the curse, each of them was tied with a soul stone, and the resurrection was used at the moment when the curse stopped. Stone is resurrected, so is the priest.

“Rapid supply, ready to fight.” Bai Hu roared loudly as he sat on the front line of the town.

Fighting is on the ground, and there is also a big war in the sky. In order to fight for air supremacy, the two parties have sent air combat forces.

Although this type of large-scale battle, both sides are in the form of live broadcast, but both parties have the right to hide specified things. For example, when sneaking on, the official will never broadcast live. Therefore, the two sides want to know where all the personnel are, and both are riveted. Enough to win the air supremacy.

Fortunately for Lu Yang, his 14,000 air combat druids are all 160 and 160 dark gold sets, 10 levels higher than the enemy, and although they are three times less than the opponent, they will still be in the fortress. The sky is firmly in his own hands.

“Boss, you don’t need to stay here, just leave it to me to command. I promise, the enemy will never break the first line of defense before tomorrow morning The White Lion was a little unwilling.

If Lu Yang doesn’t leave, it is equal to his command of the battle here. Previously agreed, Lu Yang was responsible for packing up the traitors. He came to block the enemy’s attack for Lu Yang. Now Lu Yang stays here as if he did not trust him. This makes the White Lion face unstoppable.

Lu Yang smiled and said, “Okay, then I’ll go somewhere else. You promised me that the first fortress will not be lost before tomorrow morning.”

“I lost you and withdrew me,” the White Lion said with a terrier neck.

“I’ll go now.” Lu Yang silently used the teleportation scepter and flew to the side of Tianyao outside Tianmo Hills.

The White Lion was almost at the last second, and he smiled and said, "Boss walk slowly, come back tomorrow."

Lu Yang was too lazy to talk to the White Lion. This became more and more intelligent. He knew that he would coax people after leaving.

Tian Yao was waiting next to the sentry tower and saw Lu Yang coming, saying, "Boss, the enemy is gathering in the hills. There are more than 30 exits here. I have sent someone to launch a defense."

#### Chapter 1389 - Secret Canyon

Lu Yang opened the map and looked at it. Each of the more than 30 exits was more than 200 meters wide. In terms of military arrangement, all anti-war and anti-riding arrangements were evenly arranged, and there was no professional match.

He understood, saying: "You have been fighting with me lately. I have no time to control the following. I am not sure about the skills after three turns. Today I will teach you a way to use these professions to arrange defense."

Tianyao is annoyed by this problem. The three-turn professional match needs a long running-in time to find the best match. In a hurry, he can only follow the original two-turn arrangement, but how he looks awkward.

"Boss, you said." Tian Yao said.

"Let's go to the front, and I'll talk about you as you move." Lu Yang said.

Tianyao nodded, and quickly led Lu Yang to the first defensive position of the front line Tianmo Hills. At present, there are 60,000 players armed, and their occupations are anti-war, anti-riding, priest, healing knight, and healing shaman.

Lu Yang pointed to the front lineup and said: "Our players in the Jagged Brothers Alliance have completed three transfers of blood. In the transfer of defense, there are three common bloods, which

are \*\*\*\* warriors of the human race. , The blood sea warriors of the orcs and the natural guard of the elves.

In addition to these three, there is also a common human anti-riding bloodline-the town devil knight. Although the druid's bear form also has a defense mode, it is not suitable for players to use in large-scale battles with players, so , Lu Yang did not let Xiong De enter the war.

Although these four defensive occupations are regular occupations, they are the essence of the minds of all game designers, because they apply to everyone.

The \*\*\*\* warrior skills are the light of the underworld, absorbing 10 million damage, and use it every 30 seconds. The underworld war body and the front defense increase by 50%, which can be superimposed with the iron wall, that is, the front attack only takes 25% damage. And if the damage suffered reaches 10 million, it will automatically want to launch the underworld wave around, causing damage in the range of 10 million, regardless of the number of people.

The third skill is called the voice of the underworld. It is an active skill that reduces the player's attributes by 30% within 50 meters. It is released every 20 seconds and cannot be superimposed. The fourth skill is called back light. 10 seconds, and it is triggered automatically.

The last skill is called resurrection. After the war of the underworld soldiers is dead, they are full of blood and resurrected in blue, which means that a soldier has three lives.

After the enemy's first wave of attacks, \*\*\*\* warriors stood in front to resist all the damage. A row of 200 people stood in 20 rows. In the shield array formed by \*\*\*\* warriors, a natural guard soldier was hidden in it. Natural There are 6 very strong guard skills.

The first is called Aura Armor, which can be applied to the target, reducing his damage each time by 30%, and then the magic immunity and physical immunity skills, each of which can last 10 seconds.

The fourth is a space-time obstacle. Like a simultaneous air barrier, a semi-circular air fortress with a width of 5 meters can be set on the ground. It cannot be broken. When the enemy charges, the space-time barrier is used to force the enemy to attack more and more. The narrower.

The fifth skill is the guardian of the elves, which can summon 9 elves, each of which restores 100,000 blood to the target every second. Except for the time and space barriers, the first four skills can be used by the \*\*\*\* warriors. “

Tianyao immediately issued an order to change the first 20 tiers of the mixed occupation to all \*\*\*\* warrior defenses, interspersed with natural guards.

Lu Yang went on to say: “In the 21st row is the Blood Sea Warrior, they put a skill-the cemetery. Once the enemy attacks, let them throw the Blood Sea skill behind the 6th row Hell Warrior, the Sea of Blood can Summon the bleeding ghost within 100 meters. As long as the sea of blood is still present, the enemy cannot enter. “

This is a classic defensive tactic of the last life. The sixth row of \*\*\*\* warriors is shield-to-sky. It is responsible for defending against sky attacks. The blood of the sea of blood is only 10 million points, which can be found under the sea of blood under countless shields. It will not be harmed at all. A sea of blood can last for 10 minutes and be used every half an hour. With the number of 10,000 blood sea fighters in each area, it is enough to release in turns without an attack interval.

Behind the Blood Sea Warrior, there is a three-turn anti-riding-the town magic knight. The town magic knight has an undispellable skill called the Holy Light Shield, which reduces the total damage by 20%.

In this way, the rigid \*\*\*\* warrior on the front can reduce the enemy’s damage by more than 90%. The Priest’s Purification does not work on the Paladin’s skills, because both sides are pure divine magic and they are not restrained. The three-turned magical knight who rushed over to punish the angel could not break through this special line of defense.

Tianyao is not stupid, and soon learned this simple and practical skill. He ran down and arranged one by one. During this time, Lu Yang called bitter love for half his life and asked, “Did you fight over there?”

“I haven’t found my enemies in the deep forest, but they seem to be waiting and don’t take the initiative to attack.”

Lu Yang frowned. After thinking, he smiled and said, “It is estimated that the Blood Demon has heard the following rumors. Ye Wuzhen does not advance, he will not fight.”

With a bitter smile, he said with a smile, "If you are so jealous, you dare to hit our Jagged Brotherhood. They can't help it."

Deep forest.

The blood demon is indeed like Lu Yang said. He heard rumors spread from the spy from below. For the time being, no matter what Ye Wuzhen's character is, even a character like muddy wine will be encountered when cooperating with strangers. The doubts of strangers, not to mention Ye Wujin, who is often badly rated, thinks that this person is sneaky and sneaky, loves to take advantage of small ones, and likes to betray others, doing things that harm others. The presidents of the public associations did not agree to attack first.

The girl Yaran stood next to the blood demon demon, and said, "Just got to know, Ye Wujin just finished the team."

"The grandson must be intentional. There are fewer people than us, and the whole team is even slower than us." Yi Zuifang cursed.

The crowd nodded, but in fact they really wronged Ye Wujin. Although he wanted to let the Blood Demon attack them first, he didn't want the whole team to be caught by Lu Yang and attacked slowly, so he was in the best team. However, people like Tianyi and Tianwu are dragging their feet, which is the only way to make them slow.

After all, the team was over. Ye Wuhen found that the Jagged Brothers Alliance outside Taniguchi had changed. This made him feel very depressed. He asked, "How is the blood demon side?"

Night Demon said next: "The whole team was finished early, but didn't start, I don't know what to wait for."

"Why don't they call?" Ye Wuhen was furious. He called the blood demon and asked, "Why don't you call? What do you mean?"

The blood demon is hating Ye Wuhen for being slow, and cursing: "You don't fight and you say me."

Ye Wuchen was speechless and said, "At this time, we are still skeptical of each other. I only finished the whole team. Tianyi and Tianwu didn't agree with me. I managed to play it down. Hurry up and fight together. , I will attack now. "

The blood demon thought for a while, and felt Ye Wuzhen was right, suppressing the doubts in his heart, and said, "Then fight together, I will order the attack."

Ye Wuhen said, "I also ordered."

He closed the intercom and watched the more than 4 million people who had gathered around shouting, "Brothers, our good day is coming, listen to my orders, and all attack!"

If you want to say this person, sometimes it's so bad. Ye Wuhen shouted that it would n't be so hard for skeptics to listen. Originally they suspected that Ye Wuren had surrendered to Lu Yang. More skeptical.

But the order came down, and the vanguard sent by Ye Wujin and Tianyi, Tianwu and others had already started the offense, and the rest also rushed out towards the mountain.

"Kill ~!"

Ye Wumo's first army chief Ning Shuang rushed to the exit of the first valley, and when he thought that the enemy outside the exit would attack them, a shield appeared in front of them.

"Well, I'll go ~!" Ning Shuang was dumbfounded and murmured, "What's the situation, why is it all a shield."

He jumped on a stone and looked back, and found that the back 50 rows were all shields, which stretched back more than 100 meters. There was no place outside the valley that was not a shield, and no attacking profession could be seen.

"What's the situation, why is the other side all defensive?" Ning Shuang asked blankly.

The elite players who followed him were also stunned, everyone looked at the shield in a daze, and some people curiously walked to a position 50 meters away from the Iron Brotherhood player, and tried to move forward.

The first step is no trap.

In the second step, there are no traps.

...

I went to the front row of the Brotherhood of the Iron Blood, and I reached out to touch the shield of the Brotherhood of the Iron Blood, and there was no trap.

The player turned back dumbfounded and said, "No trap, what's the matter."

Ningshuang, they also commit suicide You ask them, what do you mean. Shouted Ning Shuang, standing 50 meters away.

This Paladin player is also a good thing. Turning his head to look for the shield gap and looking inside, he just saw a shield battle of the Iron Brotherhood, and asked, "Brother, what do you mean?"

"Don't you know?" Shield War asked.

"Know what?" Paladin players asked blankly.

"When I didn't say, how do you fight and how do we fight, we do not fight back." Shield battle expression of a person who you are not yet aware of.

The Paladin suddenly shone, and asked, "I heard that our boss, Ye Wujin, has surrendered to the boss of Lu Yang. Is it true? If you tell me, I won't fight anymore. It's a family, so why bother? Then. "

The shield war gave the other person a look you understood, saying, "I can't say, I don't know anything, don't ask, just hit it, we won't fight anyway."

#### Chapter 1390 - Attacking the Blood Demon

The Paladin was even more curious, and asked, "But do you live defensively? I opened the punishment angel. Your defense is invalid."

Shield battle he smiled and said, "You try."

The Paladin was a good thing. He really punished the angels and slammed the shield with his big sword.

"5002"

"I wiped it." The Paladin jumped up, and he stunned into the gap of the shield and asked, "Brother, I've opened a disciplinary angel, how can the damage be so low?"

In a shield battle with more than 6 million health, this 5000 damage is just like tickling.

Dunzhan said with a smile: "You will know it later, it is still a secret."

"Then I will fight or not."

"Hit, you can't move anyway, just play, anyway, you won't be playing tomorrow."

"Shut up, you said it was missing."

"Yeah, there is something wrong, tell me quickly."

...

The paladin for this good thing just talked to the shield battle of the Brotherhood of Iron Blood, and the frost at the back looked angry.

“That paladin, what’s going on with you, talking, you’re chatting with people.” Ning Shuang was anxious.

“Ah?” The Paladin glanced back at Ningshuang, and said with a secret expression on his face, “What’s the point of not hitting it? It’s all that.”

“That’s what happened.” Ning Shuang asked anxiously: “You make it clear.”

“Ask the boss, I’m too lazy to fight.” The Paladin was still unhappy.

Ning Shuang was silent, and he heard the gossip coming from below, and there was some suspicion in his heart. The paladin was even more skeptical when he said that, just as he hesitated, Ye Wuchen arrived.

“What is the matter, what are you standing here for? Not yet attacking?” Ye Wumark asked sharply.

When Ning Shuang saw Ye Wuren running over, he said, “Boss.”

“What’s going on?” Ye Wumark cursed, and he relied most on Ningshuang’s first regiment. He didn’t attack and couldn’t advance overall.

Ning Shuang asked directly, but he looked around, but still got to Ye Wuchen’s ear, and whispered, “Boss, the Brotherhood of Iron Blood has set up an iron bucket array. None of them is an attacking profession. There are no traps, it seems that I don’t want to fight with us at all.

I sent a paladin to explore the road. The paladin asked the other party, and the other party said that you had surrendered President Lu Yang. Today is acting, so we can’t fight it. “

“Nonsense.” Ye Wujin was anxious, and scolded: “Why would I surrender to Lu Yang? Lao Tzu has betrayed, and then surrender, is there a way to go? All of them attacked Lao Tzu. I went up first and followed me to attack, Up ~! “

Ye Wuhen buzzed in his head, he suddenly figured out what Lu Yang said to him last night. This is what Lu Yang used to do to him, but he just couldn't help it. Those words were the same as deliberate cuts. When he thought that if he hadn't attacked yet, the blood demon must think that he had surrendered, then the whole situation was over, so he rushed first.

The surrounding players saw Ye Wujin rushed forward, and rushed forward to attack, but they rushed to the front and found that they could not move at all. They were driving the three-turn paladin who punished the angel. The physical attack was only 5000 points. The two-handed sword's professional physical attack approached zero infinitely, and some even hit single digits.

Shamans and warriors in the two-handed sword profession have a maximum of three digits of damage. The only thing that can be moved is magical damage, which can be turned into pieces of magic. The damage caused by a single piece is only a few thousand points. Only a few hundred thousand together, any one treatment wave returned to full blood.

Ye Wujin was stunned. He was a three-turned paladin. His attack was on the shield battle of the Brotherhood of Iron Blood, as if he estimated that he had changed a set of low-level equipment to fake.

“What's the situation?” Ye Wuzhen cursed. At this time, he wanted to step back to the valley to check the situation, but found that all people were behind him, and he couldn't go out at all. Out of the phone called Teana.

“What's happening over you?” Ye Wumark asked.

Teana led his team at the exit of Canyon No. 2 and was still stunning. The situation he encountered was exactly the same as Ye Wujin. He said, “Iron Brothers has a problem in the defense. I do n't know what happened. Do not move.”

“What about the others?” Ye Wumark asked.

“The same is true of Tianwu and Bancheng Yanyu. They just contacted me,” Tian said.

Ye Wuhen didn't want to say anything else, hung up the phone and called him with a good relationship, only to find that it was all the same situation with him, which left Ye Wuhen out of his mind.

“What does Lu Yang mean?” Ye Wujin thought.

But he didn't know. When he was thinking in situ, the anti-war behind the shield opposite him heard every word he said through the gap, and reported it to Lu Yang intact.

Behind the battlefield.

Lu Yang snorted and said, “He's right if he can't figure it out, now is the best part of this battle.”

He said to Tianyao: “You continue to defend, I'll be there for half my life.”

Tian Yao nodded.

Lu Yang took out his teleportation scepter and turned into a ray of light appearing at the entrance of Fantasy Night Forest. At this time, in the Fantasy Night Forest, the two sides were confronting each other.

The Iron-Blood Brotherhood's forbidden mages are in the Skysword Fortress and Tiger Mouth Fortress. These more than 100 guilds have less than a thousand forbidden mage, and they are scattered in two teams. The skills are not enough to destroy too many. Trees, so it looks like both sides are still attacking in the forest.

The bitter love half-life is standing on a soil \*\*\*\* created by the joint release of six earth dragons, next to him is the sentry tower.

The light flashed, and Lu Yang appeared next to the sentry tower. At this moment, everyone on the battlefield could see Lu Yang's arrival.

“Boss is here, Jagged Brothers, kill ~!”

“Fuck them, here’s our chance to perform.”

“At this time I want to join the war studio, give me the energy to feed and do them.”

...

On the battlefield, the attack power of the Brotherhood of the Iron Blood brothers has increased more than doubled, and the rebels who are about to hit the forest were immediately beaten back.

The blood demon also saw Lu Yang, and scolded with a bit of fear: “What is he doing here, shouldn’t he be at the tiger’s mouth fortress?”

Whoever knew the presidents around him was scared.

Lu Yang looked scornfully at the rebels in the forest and asked, “To what extent?”

He loved for a long time and said with a smile: “It has already started a full-scale war, and the enemy’s main force is in a combat state.”

Lu Yang said: “Very well, then I will start harvesting.”

“I’ll go with the boss.” Said bitter love for a long time.

Lu Yang said with a smile: “Today you are the commander and I am the obedient commander of the army. If you order me to lead the team, I will go wherever I go.”

“Ah?” Biting a bit dumbfounded.

Lu Yang said: "Don't dare, I dare not change Zhou Tianming."

"Dare, is there anything you dare not do." Suffering half-life hastily courageously said, "Boss, then I really ordered."

Lu Yang said, "Hurry up, you've been fighting for a long time. Why don't I know what to do, how can I tell you, let me fight?"

Pointing at the south side of the magic night forest for half a life, I said, "There is a team led by the girl Yaran. The weakest, you go around from there. If you need to change the route, I will call you anytime."

"That's right." Lu Yang turned and jumped off the high platform. Below this, 200,000 and 160 elites are waiting here.

Because of the proud character of the white lion and the muddy wine, these 200,000 people did not go on either side, but stayed here, and Lu Yang just used them to pit dead leaves without traces and blood demon monsters.

"Brothers, although there is a group of black people across from it, there are also many affiliated guilds that have followed us as our Brotherhood of Iron and Blood. The overall command is not working, but the ability of individual soldiers is not weak. Do n't have any thoughts of belittle the enemy. Hit it, we spent half a night, and they dare not even resurrect the necropolis." Lu Yang said loudly.

"Boss rest assured, we will never underestimate the enemy." Said the king of Hell.

"I will treat them as the enemy of life and death." Liu Yunpeng said.

"They are the biggest enemy of our Jagged Brotherhood. I hate the betrayer most." Wan Zhonghui said.

"Hey, my brothers and I will let them know the price of betraying our Brotherhood of Iron and Blood." Liu Ruohuai said.

...

There were fires in the eyes of the 20 legionnaires. This group of people betrayed when the Brotherhood of Iron and Blood was the most dangerous. They had hated them. They were unable to participate in the main battlefield for the time being. Then find this group of people to avenge each other. Get angry.

Lu Yang's eyes glanced at everyone, he was very satisfied with Liu Yunpeng's attitude, pointing at a woman riding on a Komodo beast on the south side of the magic night forest, said: "Liu Yunpeng opened the road, and the White Lion can only support it until tomorrow morning. At five o'clock, you have only four hours. "

"Boss is assured that it is enough." Liu Yunpeng roared: "War tauren, follow me Wan war tauren charge forward with Liu Yunpeng, while running Liu Yunpeng while directing, 10,000 people quickly swing Open a long snake array.

Behind the Tauren are the shadow warriors, knights, blood warriors, and blood oath shamans, followed by the ice mage and the starbreaker shooter.

The Yaran girl riding on the Komodo beast is dumbfounded. Komodo is 3 meters high. Standing on it can let her overlook the battlefield. Therefore, he saw Lu Yang with 200,000 160 elites at a glance. He ran over, especially the war tauren in the first row, the moment inside her head exploded.

"It's Lu Yang's elite army. Everyone is ready to defend." The girl with a sharp voice rang through the audience.

At that moment, everyone's eyes were focused on the girl Yaran. Almost everyone could see her expression of horror. The next second, they looked forward and saw that the 10,000 war tauren had already set aside. The formation is taking charge of the 160-level elites, such as the Shadow Warrior and the Blood Oath Shaman, towards the position of the girl Yaran.

"Iron brothers, kill ~!" Liu Yunpeng yelled and jumped off the war horse, and charged towards the enemy on the battlefield.

## Chapter 1391 - Sneak attack on the fortress

The 10,000 war tauren followed the charge, and then the battlefield fell over ...

Lu Yang didn't need to participate in the battle, but just behind the war tauren. On the plane of 10,000 meters in front, no enemy could stand.

The Blood Demon instantly found the situation here, and he shouted in horror: "Quickly send the 150-level elites to control the army and block these 200,000 people."

This is an army consisting of 200,000 level 150 players, 500,000 level 140 control systems and Paladin players. Most of the level 150 are mage players, while the level 140 control system mainly includes druids, space-time mages, and soil. Mainly Mage, Warlock and Ice Mage.

The druid has a special magic called the Thorns, which can control enemies within 100 meters for 30 seconds, regardless of magic immunity.

The time and space mage sometimes has space barriers, and the earth system mage has a ground dragon. It can cut these 200,000 troops. The warlock can release fear in a small area, forcing players to attack normally. Timely support.

Lu Yang was most worried about this legion, so this was the direct reason for him to let the bitter love command on the high stage behind him.

After half a lifetime of bitter love, he quickly discovered the enemy's development through spies and on-site observations. He immediately ordered: "The 66th Army to the 88th Army merged in the direction of the boss and blocked on their flanks to prevent the enemy from controlling the army. The boss led the team. Retreat. "

The 23 army commanders immediately moved 230,000 people towards the flank, and Lu Yang immediately ordered everyone to stop hunting and retreat backward.

Where did the several presidents responsible for hunting down Lu Yang react at this time? Lu Yang was using tactics. He was afraid that Lu Yang would attack their hinterland and urged the 700,000 people to move forward at full speed.

Lu Yang's retreat, they only thought it was a reforming formation, but did not expect that one head and more than 20 legions supported by the flanks collided together.

"Boss, you can continue to attack, let us hand them over here and make sure to block them for an hour." The half-life deputy is the leader of the 22 legions, he shouted to Lu Yang.

Lu Yang nodded and rushed towards the enemy's flank with 200,000 people. Suddenly, the enemy's flank was killed, and the 700,000 people were entangled in the place by these 22 legions. It was impossible to run out in time, because the 22 legions were also based on control skills, and neither side was killing, but limited.

The 200,000 people who looked at Lu Yang with the blood demon eyes were like a rice harvesting machine in an autumn rice field. They swept all the way forward. Five million people under his hand were hit in less than half an hour. Killed more than 1 million.

"Damn, go and support our control army, you must rescue them, you can't let Lu Yang fight like this!" The blood demon's eyes were bloodshot, shouting like crazy.

But he is not Lu Yang. Lu Yang can direct his players to fight, but he is not so easy to command, and the small guild players around him do not know how to carry out such large-scale operations.

The swarm of bees has long been outdated. After blindly following the betrayal of Lu Yang, they also discovered their own shortcomings, and now no one dares to take the initiative to attack.

Live channel.

Dubin looked at the scene where the Blood Demon was in, and said with a sigh of relief: "Now the people with good eyes can see it, the little guild president near the Blood Demon will not dare to fight, and will not fight."

The guest nodded and said, "The group of blood demon monsters has no ability to change the status quo. These 200,000 people are too powerful. You must know that Alfonso's eastern mountain area was hit by them."

The second guest said: "Unless there is a problem with the Tiger Mouth Fortress or the Sky Sword Fortress, the suspense of this battle has been killed."

Dubin nodded, and he switched the screen to the Tiger Mouth Fortress. He just lifted his breath suddenly and looked at the screen with surprise and said, "Why is the Seventh Strongest Guild so arrogant."

The first line of defense of the Tiger Mouth Fortress has been hit by the Stephens of the seven strongest guilds. Players on both sides are fighting on the first line of defense. White Tiger standing on the first line of defense will not help. It's very embarrassing.

"No, brother, I can't stand it here." While resisting the enemy's attack, Bai Hu reported to the White Lion through the intercom.

"Stop it for me. I have issued a military order with the boss. The first fortress will never be lost before tomorrow morning." The White Lion roared.

"Brother, I did my best." Bai Hu said.

The white lion is furious. True, the white tiger has done his best, but the scene is too ugly. If he loses a fortress today, he is still robbed by the enemy. He has no face to see Lu Yang, and no face to face the other vice president .

The white wolf couldn't help but said, "Let me support, and I will definitely fight the enemy down."

The White Lion did not speak, and the White Wolf's team was a special army group specially organized by his men. In fact, it was an ordinary three-turn punishment rider-an arbitration knight.

The arbitration knight's offense and defense are very average, but after the punishment angels are turned on, their instant bursts are very high, and they have a certain life-saving ability. A very important force for the Lions.

"Can't wait any longer, if lost, we can't explain to the boss." Shouted the white wolf.

The white lion sighed angrily and said, "You rushed up with someone, and you must grab me the first wall."

"Yes." The white wolf immediately rushed up.

Fantasy night forest.

Although Lu Yang was leading the team to attack, he had ample time to observe the situation in various areas on the battlefield. The Tiger Mouth Fortress was the area he focused on. He found that the first fortress could not be held immediately, and he was anxious.

"Plenty of lofty sentiments, immediately led through the blood wolf legion through the fortress." Lu Yang ordered.

Outside the fortress.

At the request of Lu Yang, two thousand hours ago, he had arrived in a gorge on the side of the fortress one hour away. It was a 160-level area. The terrain was so dangerous that the enemy's thieves could not jump up, so there was no Find them.

At present, the players defending in the Sky Fortress are 14 affiliated guilds under the seven strongest guilds. Each guild has 50,000 people. Unlike the northeast region, the situation in the central region is fierce. An affiliated guild can have 50,000 people. To choose a camp, it is absolutely impossible to expand.

700,000 people are responsible for the direct defense of the fortress. In addition, more than 30 guilds are ready to support, and are specifically used to defend Lu Yang, the 100,000 blood wolf.

Just these guilds will spend hundreds of millions of credit points every day on the seven strongest guilds. Fortunately, they are evenly distributed and not much money falls on everyone.

Because of their rich support, these guilds are very strict in defending the fortress. Not only is there a thief investigation in the area outside the fortress for half an hour, but there are also thieves and stealth shooters in the jungle.

Above the city wall, there are more than 120,000 people defending at any time. Ordinary players are aiming for the guild points. Defending for an hour will have 100 guild points, which is usually impossible.

The spy news sent by Tu Fengfeng through Tu Feng, and the spies ambushing outside the city by the light and dark thieves have cleared the surroundings of the fortress.

“Boss rest assured that this fortress can’t be prevented by relying on the affiliated guild.” Said with pride.

Lu Yang said: “You have only one hour to attack the city.”

For more than an hour, I am afraid that the enemy will completely occupy the first fort and attack the second fort.

“Leave it to me. I can’t hit the fortress’s main house within half an hour. I volunteered to be removed from office.” Said with pride.

“Okay, go.” Lu Yang hung up.

Pride Wan Wan shouted back to the 100,000 blood wolves and shouted, “Brothers, brother and I have issued a military order and entered the fortress within an hour. Can everyone do it?”

“Ha ha, boss, rest assured, 40 minutes is enough, the waste on the city wall can’t stop us from a wave of attacks.” Said the head of the first blood wolf regiment.

He laughed with pride and said, "Blood wolf form, the whole army is attacking."

"Woohoo ~!"

The 100,000 blood wolves screamed in the sky. In the forest below the valley, the thieves and shooters in charge of the investigation immediately reported the information to the six presidents of the defender.

"This is the blood wolf legion of the Jagged Brothers Alliance. Sure enough, they came to attack us. I will report it to the three friends of Weimen and Stephen." The president of the Divine Guild, Han Zhan, said.

"The enemy hasn't shown up yet. Would you like to wait for a while? It's not very good." Cang Long, the president of the Tianyu Guild, asked.

"Yeah, it's too early."

"At least I see people."

...

The other chairmen also supported waiting.

The chill said silently: "You are not unsure about the speed of the blood wolves being 650%. We ran for an hour, and they arrived in ten minutes or so. After seeing them, we were too late to pass the news. "

Cang Long and the other chairmen hesitated a little while, while they were thinking Suddenly, a thief sent a message.

"A hundred thousand blood wolves are here, 40 minutes from the fortress."

The chills quickly opened the map. The 40 minutes mentioned by the thieves were only a few minutes for the blood wolves.

“Damn.” The chill glared at Canglong and others, and quickly took out the phone and called Sanyou Weimen, saying, “Lu Yang’s 100,000 blood wolves are approaching the Tongtian Fortress quickly, at least 8 minutes later. Will siege. “

Sanyouweimen has long been anti-landing, but he never thought that his own reporting staff had only left him 8 minutes.

“Asshole,” Sanyouweimen scolded, “how did you say that my team was sent back, and there was no way to arrange the formation from the safe zone in 8 minutes.”

The shiver quickly apologized.

Sanyouweimen was too lazy to listen to the shudder of the chill and hung up the phone. He said to Olma and Stephen and others, “The Blood Wolf Legion really attacked the fortress behind us, and we must send someone back immediately. To a team time of 8 minutes. “

## Chapter 1392 - Assault Olma

Olmar, Stephen and others were holding back, looking at the first line of defense that was about to be taken off and said, “Do you mean to get our main force back?”

Sanyou Weimen said: “The 2 million people who are guarding the trebuchet cannot move. Lu Yang sometimes has an empty mage. Once he flies over and throws a curse, it may have an irreversible impact. Only those who are preparing to attack.

Olma said: "I go back, I immediately take my team back, the blood wolf legion is afraid to fight us for a long time."

"I asked the Air Combat Team to return a few people and let them track the Blood Wolf Legion," Stephen said.

Sanyou Weimen bowed and said, "Please."

Olma immediately returned with someone, and Stephen sent a few smart and capable fliers back from the Angel Corps.

French television.

"Sir, what do you think of this war until now." The beauty host asked with a smile.

This lord is a retired military officer. His job is to earn money by participating in various media programs. This time, the French game channel invited him to come. It is also the first!

The chief didn't start the game originally to make money. This program gave the most, and just as people discussed, this one was also the most discussed. He came to the show with a look of disdain.

But after fighting for a long time, his expression changed and his heart changed. He left-pointed at the battle on the screen and said, "I have to admit that my previous view was wrong. This is not only a game, but also A microcosm of war, the presidents of various guilds are very powerful, but they have no real staff officers. If I were on the scene, the White Lion would not be so easy to lose the first line, and the blood demon would not be beaten so miserably , The Blood Wolf Legion is likely to be surrounded by my design. "

The host was very excited, and what their TV station wanted was this effect. Now the chief has voluntarily acknowledged the status of the game and saved them a lot of tongues.

Sky Sword Fortress.

Ru Yue Taishan was watching this video and said with a sneer: "You come, you come and lose even more."

Liu Jie looked back at Ruyue Taishan and asked with a smile: "Remember the past?"

As Yue Taishan looked forward to the battlefield, their African legion was attacking the fortress. In order to look more like Liu Jie, he sacrificed the level of his 150-plus players and let them all drop the level to approach 150.

Steige stared closely beside him, and someone had secretly complained that Liu Jie was not doing his best, but in his eyes, Liu Jie really did his best, but the African Legion was too weak and the discipline was loose.

For example, Yue Taishan clearly saw the scornful look in Steiger's eyes and said to Liu Jie: "I used to look down on this game too much and suffered a big loss. If I had the knowledge of the game now, I would definitely win. Lu Yang. "

Liu Jie said: "I believe what you say is not only you, but if we had the understanding of the game today, Lu Yang could not win us."

The dead man said with a smile: "It's okay, aren't we rising again?"

Liu Jie nodded with a smile and said, "Yeah, as long as we annex the site of the Cavalry Regiment, our area will be larger than Lu Yang. By that time, we will fully recruit players, and we will really be able to compete with Lu Yang is fighting. "

Ru Yueshan asked in surprise: "Are you ready to attack the Cavalry of the Gods at this time?"

Liu Jie nodded and said, "It's almost a week later, if Lu Yang completely calms down the civil strife, we won't have a chance to completely destroy the Cavalry of the Gods."

The dead grass smiled at Ru Yue Taishan, "It's time to get ready to re-establish your place in the game."

If Yue Taishan nodded.

Seeing that Liu Jie and others were chatting in a low voice, Steiger showed a scornful expression on his face, saying: "This is like Yue Taishan who still comes from the army, and even the chance of the African Legion can't be controlled, I really doubt his strength."

Tolmy said sarcastically: "How can the indigenous people listen to Yue Taishan, they only listen to the chief."

Steiger laughed and said, "That makes sense."

Gadafi frowned. "The defense of the Sky Sword Fortress is too strong, and we are afraid it will be difficult to beat."

Steiger said, "It depends on whether there is enough pressure at the Tiger Mouth Fortress. If they can maintain the pressure, Lu Yang will have to redeploy manpower to support the Tiger Mouth Fortress. Maybe that's our chance. Now. "

Rennes said: "I agree. Now we just need to keep the offensive. Even if we have losses, Liu Jie's losses are greater than us, and Lu Yang is the same."

Steig nodded, he just clicked on the video of the tiger fortress, saw Olma on the battlefield with millions of use back to the city scrolls, frowned suddenly, and asked: "how did Olma go."

"Look at the Fortress of Heaven, there is a fight over there." The sound of dead grass came from a distance.

Steige quickly switched to the Fortress of Heaven.

Gate of the fortress south gate.

From the ground, 20 dirt slopes with a width of 10 meters are connected all the way up to the south wall of the Tongtian Fortress. Among the 100,000 blood wolves, one tenth has rushed to the top of the city. Two shots can kill a melee player.

The battle between the two sides was not a level at all. Soon the Blood Wolf Legion stood on the south wall, killing all the enemies on the wall.

Pleasantly shouted: "Ready to break into the city."

"Wait a minute, Olma is back with 1 million players and is in the safe zone," shouted the head of the army.

With a bloodthirsty look on his prideful face, he said, "Guys, lead them out and let them go again and again."

"I'll go." The commander of the First Army asked.

Looking at the large open space below the city, he said, "Brothers, save some scrolls, we don't have so many supplies."

Now it's very difficult to transport supplies. Even a space-time mage can't carry a storage bag. The only thing is that the space-time mage flies over with a logistics player and throws everything on the ground. gone back.

Moreover, the supply of logistics is not enough. 500 reel makers can not supply 100,000 blood wolves a day of war consumption. It takes three to four days to make up the consumption of one day. This will still work day and night. Now each reel The producer's eyes are the same as the pandas.

The commander of the First Army said, "Boss, don't worry, the fool at Olma knew how to storm. I watched his video and knew how to lead him."

He nodded with enthusiasm, he believed in his men and said, "Go."

The First Corps made a long shout, and the number of people with only one brigade rushed towards the safety zone, and the pride was immediately deployed in Nancheng District.

In the safe area, Olma was anxious to ask his men to quickly team up, and suddenly saw 1,000 blood wolves running over.

“Asshole, bully me, isn’t it?” Olma yelled and shouted, “The Tigers, follow me and stick to them.”

Olma can become a tiger, a tiger warrior, behind him there are thousands of tiger warriors like him, and at the same time become a tiger, with Olma launching an attack.

The ice mage, fire mage, and other professions in the back saw Olma rushing up, and they did not care about the other, and rushed up with it.

Olma’s idea is simple. This is in the city, using himself as a bait. As long as he sticks to the enemy, his million players can trap the 100,000 blood wolves.

In the sky, an angel player was observing the situation of the Blood Wolf Legion, and he soon discovered that the Blood Wolf Legion was designing a circle.

“Boss Olma, can’t charge anymore, there is a siege in front of the enemy,” said the angel player.

“Encirclement? How do 100,000 people design encirclements?” Olma stared, disbelieving.

“There really is a siege circle. It is estimated to be slaying you. Let the large troops pass you and go up again. Don’t send it to death.” Said the angel player.

“You’re the death.” Olma was furious. He was someone who could listen to other guild players like this, and continued to storm with others.

But when he rushed 500 meters away from the South City Gate, on the top of a three-story building on the left, he was transformed into a blood wolf and suddenly launched a charge in a volley, predicting Olma's in midair. position.

"Mad torn bite"

Pride and bow with two claws, and shoot the softest spot in Olma at the same time.

"3394826" (Critical)

"3384956" (critical strike)

Under the damage of two high critical strikes, Olma fell to the ground without any reaction.

"Woohoo ~!" Plenty of love and longevity of heaven and sky, countless blood wolf players standing on the roofs of both sides took out the secondary forbidden scroll and threw a wave, then turned and ran.

The lofty sentiment followed the retreat, but just after he retreated 10 meters, Olma was revived in the presence of a soul stone.

The tiger warrior under his command quickly rushed up to or protected him by using a scroll or blocking him in front.

Orma never thought he was killed by a vice president of the Jagged Brothers Alliance. He was furious and cursed with pride: "Don't run with courage."

The \*\*\*\* gesture of arrogant wolf claws to Olma said: "You have the ability to chase us, do you dare to leave the city?"

How could Olman dare to leave the city? When he was angry, he could only scream and stand, but there was no way to be arrogant.

“Don’t dare, I’m leaving.” With a long cry of pride and laughter, with a hundred thousand blood wolves, he ran quickly towards the forest on the south side.

The angel player in the sky immediately chased after him, but entered the dense forest, but the angel player did not dare to fall down, and could only watch the blood wolf disappear into the dense forest.

“Reporting the boss, the sneak attack was completed. Olma returned to the Tongtian Fortress with 1 million people. We withdrew in time without any blood wolves.” Lu Qingwan sent a message to Lu Yang.

“Good job,” Lu Yang said.

#### Chapter 1393 - Wonderful show

On the main battlefield of the Tiger Mouth Fortress, the enemy loses 1 million attackers from the main players, which will inevitably cause a lot of trouble for the enemy’s attack. Even if the enemy changes the player to lead the team, there will be a certain time interval.

Furthermore, the blood wolf disappeared in the forest. Who knows if the enthusiastic ran with the 100,000 people to the tiger mouth fortress, the enemy’s 2 million reserve team can only rotate offense, and dare not have it when defending Slightly relaxed, this way, the enemy needs to consume a lot of energy, which is good for the White Lion.

The White Lion did not know what Lu Yang was doing. At this time, the White Wolf had taken back the first line of defense with the Paladin of three turns, and at this time, the enemy’s attack appeared to be separated, which gave White Wolf and White Tiger has more time for rearrangement.

“Blamed me for not being good. You brought the trump card for the first time.” Bai Hu said angrily.

The white wolf said: "Don't worry, for the first time I contacted the Seven Strongest Guilds. Who knew that they also had a mixed army like me, and they had more people than us, if not the lightning tower of the second line of defense. Fire support, it's really not easy for us to take it back. "

Bai Hu nodded and said, "Big brother downplays the enemy."

The White Lion appeared behind the two, and said, "I did make a mistake. Blame me this time. The Paladin was behind the first line of defense. Once the enemy rushed to prevent it, the White Wolf immediately took them up. "

The white wolf said, "Yes."

The white lion opened his loudspeaker and sighed, saying, "Brothers have to work harder. This time, it is a battle about the survival of our brother-in-law brotherhood. We must not take it lightly. If we lose, our game city is afraid Are disappearing. "

The eyes of tens of thousands of players around changed at the same time. Game City is their spiritual belief. This must not disappear.

"Boss looks at us, this time the problem will not happen next time."

"Leave it to us. I haven't been to Game City yet. He must not lose it."

...

The white lion looked at the firm eyes of the players around him, relieved slightly, and said, "Let's get ready, the enemy is coming up."

Under the city.

Having said that, Orma, there are only six strongest guilds left. After discussion, they decided to start the affiliated guild from tomorrow. One of the strongest guilds will be responsible for defending the Fortress Fortress. This logistics supply base must not be lost.

And in order to prevent Lu Yang's time and space breakers from interfering with the teleportation array, they expanded their search outside the fortress and did not give Lu Yang the opportunity.

The time and space breaking man who wants to interfere with the teleportation team needs 5 minutes to cast. This period cannot be disturbed. Therefore, the space and time mage can not use the trick.

Sanyou Weimen said: "Sure enough, there is also a three-turn Paladin in the hands of the White Lion. It seems that this war will evolve into a long battle, and everyone, don't worry, we can just attack slowly."

There were 15 lines of defense. The first day was the most difficult. But in the next few days, they took shifts to rest and attack the fortress day and night. These 15 lines of defense were difficult to persist for 7 days. Every president knew this.

Jerz said: "It's my turn to attack now, look at me."

He ordered his deputy chairman to bring people to charge, but this charge was still the same army, but the players in a different country were changed, but the situation was different, and Jertz's people did not even charge the city wall.

"Damn, why is your defense suddenly so strong?" Jerz cursed.

Where does Sanyou Weimen, Stephen and others know that the beliefs of players under the White Lion have been stimulated, defending the fortress is just like guarding the faith, and playing against Jerez's people, but in the eyes of Sanyou Weimen, Some contempt for Jerz and his men.

Jerz saw the meaning in the eyes of these people, and was more angry to urge his men to attack. A total of 1.4 million people took turns to attack once and played for 3 hours. At this time, it was 5 AM in the Chinese time. At this time, the first line of defense did not resist after all, and Jerz ate it hard.

The white lion looked at the first line of defense that collapsed, and the players under Jerez standing in cheering on the ruins of the line, with a helpless expression on his face, but quickly covered it up and said in a loud voice: "We have completed the delivery of the boss Our mission, on the first day, with our 1.2 million people, blocked the offensive of the enemy's tens of millions of players, you are proud. "

The discouraged players had a relaxed expression when they heard these words, but everyone's exhaustion was written on their face. White Lion said: "Let's keep on, the boss will soon win out. Lost, we are about to receive reinforcements. "

On the main battlefield of Fantasy Night Forest.

With the cooperation of 200,000 elites and half a lifetime with 3 million main forces, Lu Yang has killed at least 10 times each of the 5 million people killed by the Blood Demon, completely destroyed them, and can fly away. All of them flew back to Tianyu Shencheng immediately. Those who did not fly away were blocked in the necropolis and continued to die. The death of one necropolis and necropolis did not end until they escaped by skill and flew back to Tianyu Shencheng.

The bitter love half-life stood on the high platform and looked down. The whole night magic forest, because of the battle between the Brotherhood of the Iron Blood and the blood demon and other rebels, almost no tree could be seen, and they were all wiped out by magic and sword.

On the bare grassland, at this time only the players of the Iron Brotherhood were still standing there. Although everyone's face was also exhausted, they were even more excited. This night, they were cool.

"I want to take someone to support the White Lion."

Lu Yang was aware of the situation there and said: "Not yet, the White Lion has completed the scheduled plan, and I have received news that the Seven Greatest Powers Guild has stopped attacking and is arranging players to return to the Fortress Fortress to quit the game."

Bitter love half relieved, he said: "That we are not able to tidy up leaves no trace, and I wanted to hit him for a long time."

Lu Yang said with a smile: "Not yet, he has already returned to the canyon. Look at it, there will be a good show right away."

"What a good show?" Bitter Ai asked half a lifetime.

Lu Yang said: "Don't worry about this, you take the team back to the star picking fortress, arrange the watch on duty, and the rest go to bed immediately. Tonight is another battle."

"Yes." Suffering for half a life immediately led the team and began to return to the fortress to rest.

Tianyao also received Lu Yang's order and led his team back to the picking fortress to rest.

The white lion watched the enemy retreat and reported to Lu Yang: "Boss, I still lost a wall."

Lu Yang said: "Don't be so discouraged, you have already fulfilled my request outstandingly, come to the heaven city \*\*\*\* city, the boss I invite you to have a good show."

"Ah?" The White Lion was still sad. He needed to be strong before his hands, but in front of Lu Yang, he could safely expose his weakest side, because he knew that the boss was a hundred times stronger than him.

"What a show, I'm not in the mood to watch," said White Lion.

Lu Yang laughed and said, "Because you only used 1.2 million people to defend the tiger's mouth fortress, and you only lost one of the great scenes from the city wall. Would you like to watch it?"

"Eh, well, I'll fly over here," said the White Lion.

"Shang Baihu and Bailang and gather in the old place." Lu Yang said.

The white lion made a sigh, and ordered his team to go offline. Sun Yu and Jiang Ze took over the white lion vigil. The three white lions flew to a tea house on the third street in the eastern part of Tianyu Shencheng. Standing bases are known only to their main vice chairmen.

It was soon known that Lu Yang came in with a bitter love for half his life and looked at the three people and said, "It is only after we have arranged the rest of our 200,000 brothers that we will go and follow me to watch a good show."

"Where are you going?" The White Lion asked.

Lu Yang said: "In the restaurant where the 100 betrayers discussed things."

In a restaurant on Fifth Avenue, a murderous and sky-high resentment was gathering in the lobby on the first floor, and more than 300 people split into two angry faces.

The blood demon is the leader on the left. Each chairman also has two vice-chairmen. All of them seem crowded. There are about 150 people on his side.

At this point, the blood demon had become extremely angry, and he glared at Ye Wujin and cursed, "You can do it, you can do it. Everyone on my side has killed the Iron Brother Brothers at least 10 times. Individuals have lost 1 level, 1 level. You didn't fight? "

Ye Wuchen was stared at by more than 150 people on the Gore Demon side, even though he didn't have a ghost in his heart, but he was also embarrassed, mainly because Lu Yang didn't hit him. This is unreasonable. Tell anyone that he didn't trust Lu Yang, and no one believed it.

"Say, what the \*\*\*\* is going on." Alice asked angrily, and she also knew about it, and she flew in this time to solve it.

Ye Wuhen looked at Alice with a helpless expression and said, "If I know what's going on, I'll say it, but Lu Yang won't hit me, and I don't know what's going on. What do you want me to say?"

Alice frowned and said, "Lu Yang is not going to arrange this tactic. This time he brought 5 million people to fight you. Even if both sides attack at the same time, you can't help it. He doesn't need to fight this way."

"But he hit it like that Ye Wumark argued.

The girl Yaran pointed at Ye Wuhen angrily and said, "How can we listen to our servants that you have been bought by Lu Yang. Today's battle is just a fake fight?"

Ye Wuchen was anxious and said, "Are I stupid? I surrender Lu Yang now and turn my head to help him defeat you. Doesn't he find me an old account? Even if he doesn't look for me, can he let me go? "

Alice felt Ye Wuren's words believable and said, "That's true."

The Blood Demon frowned and said, "Your words are indeed credible, but what happened today is also a fact. So, you can take out the video of you and Lu Yang's secret meeting. After we have seen it, we will judge your innocence."

"How do you know there is a video?" Ye Wumark asked.

The blood demon said: "If you and Lu Yangmi don't even record the video, then you are a traitor."

Ye Wuzhen was speechless, thinking for a long time, and only came up with a video.

Chapter 1394 - Rebellion civil strife

Video footage from the perspective of the blood demon and Alice and others.

After Lu Yang and Ye Wuhen talked about fighting together in the same year, they just said that buying Ye Yewen also had money. The video was stuck and the picture continued. Lu Yang and Ye Wuhen talked about the 20 small guilds and said they wanted to buy them. The video is stuck again.

“Ye Wujin, I’ll kill you.” The blood demon madly waved the chair around him and smashed at Ye Wuhen.

Ye Wujin knew that he had taken out this video of Lu Yang to be unlucky. He had been carefully watching the surroundings, watched the chair fly over, he hurriedly avoided, and shouted: “Don’t attack here, the attack here is to be sentenced. Imprisoned. “

Although the players around the small guild hated Ye Wuhen, they were afraid that the blood demon would be impulsive, and they would not be able to command the battle tomorrow. A few people around him quickly grabbed the blood demon.

“Don’t be impulsive,” said the girl Yaran.

The blood demon has become very angry, cursing: “You let go of me, today I must kill this bastard. We battled Lu Yang in the front, but he surrendered Lu Yang with more than 20 guilds in private and talked about it. What coalition, shit, I’ll kill you. “

“Yeah, Ye Wujin, you are too much of a thing. This video must have been edited hurriedly by Lu Wuzhen. Lu Yang must have promised him the benefits, and he betrayed us.”

“Tomorrow, we will kill Ye Wujin and these 20 \*\*\*\* first, and then fight with Lu Yang.”

“Can’t spare them.”

“He wants to surrender Lu Yang, we kill him first.”

...

Except for those who stopped the blood demon, the chairman and deputy chairmen of the side of the blood demon pointed at Ye Wuren and scolded, and even another wave of people, such as Tianyi and Tianwu, hid and followed the accusations. Ye Wujin and the presidents of more than 20 small guilds around him.

The presidents of these 20 or so little guilds are neither walking nor staying. It is embarrassing to stand behind Ye Wujin, but the fighting of the little guild president is clear to this day. These so-called iron brothers The affiliated guilds seem to be powerful, but they have no command experience in large-scale battles. In two wars, they could not play several commanders of the Iron Brotherhood. They were pressed against each other by their opponents, but they did not have the ability to fight back. They Don't want to fight anymore.

Watching the video in the video, Lu Yang talked with Ye Wujin and talked about the fact that more than 20 small guilds had fought side by side with the Jagged Brothers, and that Lu Yang promised to give money. Blended together.

Lu Yang took a white lion and other people into the crowd, and listened to their discussion. Several people laughed at each other.

The white lion whispered, "It's really interesting that these little guilds are still behind Ye Wujin."

Lu Yang sneered and said, "It's just trying to be opportunistic. I want to follow Ye Wuji to ask me for money."

"Boss's video is going on, isn't it true?" Bai Lang asked.

Lu Yang said: "Of course it's fake. If we were beaten by a fortress today, would you think that more than 20 \*\*\*\* would surrender us? We had scolded us for waste and thought about playing more fortresses tomorrow. This is revenge. "

The white wolf let out a sigh of relief.

On the court.

Facing Qianfu's allegations from timidity to irritation, Ye Wuhen suddenly yelled, "Shut up to Lao Tzu and listen to me."

The Blood Demon cursed, "You still have to make sense."

Ye Wuhen pointed at the blood demon and cursed: "The killing still pays attention to the truth. I watched a video and said that I betrayed. Are you out of your mind or mentally weak, so let me justify the two sentences so hard?"

The blood demon stunned and felt Ye Wuhen's statement made sense. They scolded for a long time, Ye Wuhen did not leave, did not admit it, and the excuse was normal, saying, "You say, let me listen and see, let's give His chance. "

The surrounding people calmed down.

Ye Wuhen said angrily: "This video was recorded intact, and Lu Yang just told me that."

"that....."

"This is wrong ..."

...

A group of people started arguing again, but Ye Wujin suddenly yelled, "I shut up for Lao Tzu, I didn't finish it."

Alice stretched out her hand to signal silence, and said coldly, "Listen to him."

Ye Wuhen gave Alice a grateful look and said, "This is really what Lu Yang told me intact. If I edited it, I would n't have cut it all. If I leave such a few unclear words, I will do it today. For a day, I did n't understand, but at this time I understood that Lu Yang was alienating us and made me the target of criticism. If I was suspected by you, we would be messed up by yourself, and you came to hit me. Attack, we lost completely. "

Teana pulled Lengzi and said, "But what if you really betrayed? After all, today's things are there."

Everyone looked at Ye Wujin.

Ye Wuhen stared at Tianyu and said, "At this time, we still have suspicion? We have been defeated today, and we need to be united. If you doubt me, I will withdraw my commander position, but I absolutely He will not surrender Lu Yang. He has betrayed it. What's the point of surrendering again? How can Lu Yang let me go after winning? "

The blood demon stared at Ye Wujin's eyes. In Ye Wujin's eyes, all he saw was panic, which gave the blood demon's heart an answer.

"Everyone listen to me." The blood demon raised his hand to signal to everyone to shut up. He and everyone around him were quiet, and said, "I believe Ye Wuhen is telling the truth. If he betrays us, he can fight today. God sounds to them, and we won't be able to survive tonight. "

Everyone looked at the blood demon in surprise, and no one thought that the first to believe Ye Wujin turned out to be the most angry blood demon just now.

"But what if he is countered by Lu Yang's policy? Let's fight like this, but he has nothing to do with it, and we can't tell his brothers."

"Don't say brothers, we can't get through this level. In case he really betrays us, we will be in bad shape."

...

People around were still unbelieving, Ye Wuzhen's panic eyes were already desperate, and he was stunned.

far away.

He loved half a life and said with a smile: "Boss, this is a killer for you, Ye Wujin was killed by you."

Lu Yang snorted and said, "It's not over yet. Look at it. Ye Wuhen's suspicion will be lifted today, and Alice's woman will believe Ye Yemen."

"Ah?" Bitter Ai asked in surprise, "why."

Lu Yang signaled a bitter love for half a lifetime and looked forward. Alice, who was sitting on a chair, suddenly stood up. She walked between the two parties. Suddenly, she stopped talking on both sides. Thanks to today's war, it was possible to persist. The great \*\*\*\* of wealth, Alice, will have to rely on the \*\*\*\* of wealth, Alice, to fight for supplies tomorrow, and no one dares to offend her.

As Alice walked, she showed a satisfied look. The feeling that the power of life and death were in her hands made her a little intoxicated.

"Da"

Alice went to the middle of the two sides, and the Blood Demon and Ye Wuhen stood in front of each other, and the crisp voice of high heels passed into everyone's ears.

She smiled and looked at the Blood Demon and said, "You are an excellent commander. You have worked hard today, and I will let the Seven Guilds replenish you with all the supplies."

The blood demon's face looked pleased and said, "Thank you."

Alice turned to look at Ye Wujin, and also smiled, saying, "I believe you are not a traitor. Lu Yang only used this trick to disturb our internals and undermine your determination to fight him firmly."

Ye Wuchen breathed a sigh of relief and said, "Thank you."

Alice went on to say: "Although I trust you, you can no longer be a commander. If Lu Yang continues to use this as an essay, even if everyone here agrees with you, the players under their hands know that tomorrow you have not yet Being attacked, they are afraid that it will be difficult for them to persist in attack. "

Ye Wuzhen nodded, he was not stupid, knowing that he had committed public anger, and said helplessly with a smile: "If Lu Yang still does not hit me tomorrow, then I really have a hundred mouths that I can't tell, and I have not surrendered. It has become a real surrender, not only you, but my people will believe it. "

Alice chuckled and said, "You are very clever. In that case, I would leave the commander's responsibility to Tencent and you wouldn't have any opinion."

Ye Wuhen sighed and said, "Yes, at the same time, I applied to take the team to the blood demon and follow him to fight Lu Yang, so that it will not cause doubt again."

The blood demon was a little surprised, but he thought for a while and said, "No, you still stay in Tianmo Gorge."

far away.

The White Lion asked curiously, "Why didn't the Blood Demon promise?"

Lu Yang snorted coldly and said, "There are 10,000 believers in his heart, but there is a hint of doubt. He would not dare to take bets of more than 100,000 men and his future. He would rather Ye Wujin betray him in Tianmo Gorge rather than be willing to. He betrayed him with a knife. "

"Hey I'm really curious what will happen to Ye Wujin?" Said Ai Ai for a long time.

Ye Wuchen was mad and angry, he said excitedly to the blood demon: "I can't play the striker, I'm the first to rush up and fight with Lu Yang, you look behind, when is my person dead, you And then on."

The Blood Demon was unmoved, saying: "Sorry, I have already run in with my brothers. You will join in here and re-run, which is not good for the entire lineup."

Ye Wuchenming knew that the blood demon was talking nonsense, but there was no way to look at it. He looked at Alice and said, "You say, where shall I go?"

Alice also felt a headache and thought for a while, and said, "You are still in Tianmo Gorge. Cooperate with Tianzhang. Don't have any resentment. Lu Yang's scheme is deep, and no one knows what plans he has."

Teana proudly walked to Ye Wuhen and said, "I believe you are not a traitor. Let's cooperate well and strive for a canyon tomorrow."

Alice shook her head and said, "Don't fight in the canyon. After the assembly of the team is finished tomorrow, quickly go to the fantasy night forest to meet the blood demon demon, and concentrate on the decisive battle with Lu Yang in the vast terrain of the fantasy night forest."

Chapter 1395 - The real purpose of Lu Yang

Ye Wujin said, "This method is good."

Everyone: "..."

The bitter love in the distance chuckled half a lifetime, and said, "Boss, nobody believes him."

Lu Yang sneered, saying, "Take the blame."

"Even if they are gathered together, the more people they lose, the more they lose command. On a large scale, there is no one who understands them," said bitter love for a long time.

Lu Yang said with a smile: "That's not necessarily true. What would you do if Alice invited a commanding master to help out from the Seventh Strongest Guild?"

After a bitter love, I scratched my head and said, "I can still win. After all, the newcomers are unfamiliar with their staffing. The corps heads and heads of the affiliated guilds and small guilds are of average ability. Without close cooperation, I can Collapsed them all with 40% war damage. "

Lu Yang nodded with satisfaction, saying, "I also believe you can do it, but these grandchildren are chess pieces that are used by the Seven Great Guilds. They will not consider their equipment and levels, or even their rest status. First, You can win the next day, and I believe you can still win the next day, but after the third day, the other party has run through. Can you still win with 40% of your losses? "

I thought about it for a long time, and said with a bitter smile: "It takes about 60% of the battle damage to win."

Lu Yang nodded and said, "It's good to have self-knowledge."

Fearful half-life frowned and said, "But we can't fight like that. Now we call every day from 9 o'clock to 5 o'clock the next morning. Our players can't carry it. If you go to work, you can talk for three days. Students can endure it. Stay, but I won, I'm afraid I won't be able to support White Lion and Muddy Wine. "

This is the most troublesome thing. The Jagged Brothers League stays up late at night, and the enemy launches attacks during the day. The seven strongest guilds are evenly distributed on all continents, and the jet lag is not the same as that of Huaxia. These guilds must be next. The offense will be launched at their most comfortable time, but the Jagged Brothers need to defend at all times.

The most hateful thing is these more than 100 betrayal guilds. If the attacks are launched every night at night, the players of these more than 100 guilds will collapse in less than five days, but the ordinary players of the Iron Brotherhood will also collapse.

The white lion frowned and said, "I can hold on for another day. You don't have to call the 200,000 elite back."

Lu Yang smiled and said: "The 200,000 people in the defensive battle are useless. Standing on the fortress, several rounds of trebuchets attacked, and they had to die."

The white lion said depressedly, "So too."

The white wolf was anxious and said, "Boss, think of a way, you can't be so deadlocked."

Lu Yang smiled and said nothing, watching the Alice Ribbon go away. He motioned to the White Lion to leave with him. The group returned to the restaurant room where they had assembled before. After seated, Lu Yang said to the bitter love for a long time: "Tomorrow is in fantasy During the night forest battle, you still don't fight Ye Wuren. "

"He hit me." He asked bitterly for half his life.

Lu Yang sneered and said, "Relax, tomorrow Ye Ye will not betray, and his men will certainly betray."

"Man?" The bitter love half-life and the White Lion and others stood up in surprise.

Lu Yang said, "Did you all think that my intention was to make Ye Wujin suspected by the other party?"

"Yeah," Bai Hu said.

Lu Yang said: "The enemy thinks so too, but my real intention is to confuse ordinary players under Ye Wuji, and this is the weakness of the people on the opposite side."

The bitter love half an instant came to understand, and said, "Boss, do you mean to use these affiliated guilds and small guilds, the president and the ordinary players are not sufficiently connected?"

Lu Yang nodded with satisfaction, saying, "Correct, where the little guilds have so much funds to manage ordinary players, most of them just use them to help elite players. Only those elite players can really get benefits, and ordinary players. Too often to stay, no president of a small guild has the leisure to talk more with ordinary players below. "

This is the biggest common problem of small guilds. They do n't want to pay. They can only use ordinary players without guilds and ca n't find the team 's mentality to recruit some ordinary players. It happens

that small guilds also need these players to help, but after each help, these small guilds The president of the guild will not share the benefits with ordinary players, which will cause a large loss of ordinary players, but they don't care, anyway, there are still the next batch of people joining the guild.

So are those affiliated guilds!

In the Huaxia region, among all the guilds, only a guild such as the Iron Brotherhood can achieve a certain degree of fairness and justice. Anyone who has contributed to the guild can use the guild points to exchange things. They have done a good job and have been recommended. You can also be promoted.

At the level of the captain and the head of the team, there will be a formal salary. No matter how good the job is, you can get a formal contract. No matter how good you are, you will enter the game city to work.

This level-by-level promotion system guarantees the loyalty of the Jagged Brother Alliance players to the guild. Furthermore, the Jagged Brother Alliance has always been strong and players have a more sense of belonging to the guild.

In the ranks of captains and heads of small guilds and affiliated guilds, only the elite teams are paid. Other ordinary teams, such as Ye Wujin, have a salary of 100,000 elites and another 100,000 The head of an ordinary player, without a penny of salary, is an honorary title and has management rights.

This time, Lu Yang looked for Ye Wuhen's loopholes. This is what he found. It is not Ye Wujin itself. This policy loophole is too big. Anyone who understands things can know that Ye Wujin is innocent. But the above things , I don't know below.

Ordinary players only know that they didn't hit them on this day. This is enough. While fighting today, Lu Yang ordered Qing Qian Zimeng to use the beauty spies they broadcasted to contact Ye Wuhen and The heads of more than 20 small guilds and several heads of general regiments.

Lu Yang tapped the table with his index finger on his right hand and said, "I give 30,000 credits to the commander of the army, and 10,000 credits to the commander of the army, and promised them to form a guild instead of the original president after helping the Brotherhood of the Iron Blood to win the battle. And there is a sanctuary of the Jagged Brotherhood. "

Love for half a life and the Three Lions are stunned.

He bitterly looked at Lu Yang for half a lifetime and said, "Boss, how did you come up with this method? This and this is a fatal blow."

Bai Xi Sanxiong nodded together, with an excited expression on his face. In the battle on the battlefield, the president issued orders to the commanders and heads of the regiments, and they led the team to fight. If the heads and heads of the army betrayed, That's not something that can be solved simply by kicking out of the guild. They are the people who are most familiar with ordinary players. The chairman is a stranger to them. They are even willing to betray the chairman for the commander of the army and the commander.

"If the head of the army and the president are betrayed, those presidents will not be able to control their players." Bai Lang muttered to himself.

Lu Yang said with a smile: "People, the most unbearable thing is the test. Go to bed. The battle tomorrow will be the same as today. You have to hold on to the White Lion and wait for the good news on our side."

"Yes." Bitter love for half a life and Bai Shi Sanxiong went offline with an excited expression.

Lu Yang also quit the game. The first time these people were bought through, Lu Yang arranged for them to take the fastest flight to the East China Sea. Since they chose to take the money, they must show sufficient sincerity.

These dozens of people don't have any extra thoughts. They are all on the plane now. It is estimated that they can arrive before 12 noon. When they arrive, the direction of war will be completely different when they fight tomorrow.

On the other side.

Ye Wujin, who has been calculated by Lu Yang, and his more than 20 presidents do not know that there is a problem. The president of the Little Guild has gone offline to sleep, and there are only dozens of

former affiliated associations of the Iron Blood Brotherhood. Grew up in a conference room with Alice to discuss the battle plan.

Ye Wujin made a strong self-recommendation, saying: "Tomorrow's battle will begin. I hope to bring my brothers first to rush up. Where is Lu Yang's main force, I will take a wave of people first. What do you think?"

Teana and Blood Demon looked at each other.

"If you take someone to fight Lu Yang first, then your suspicions will be completely relieved, and no one will talk about it in the future." Yancheng of Bancheng said.

Ye Wuhen arched his hand and said to Banyu Yanyu: "Thank you."

The blood demon demon thought for a while and said, "Okay, my side is fighting too hard today, there is almost no damage on Lu Yang's side, but everyone on my side has dropped an average level, leaving Ye Wuchen to go first. , We can also explain to our brothers. "

Teana said, "I agree."

Alice watched the crowds finally unite again, and said, "Very well, then fight like this. I will go to the equipment tomorrow morning, and when the equipment is complete, I will officially attack."

The seven strongest guilds originally thought that the supply would be cut off after the first day, but Lu Yang's serial attack disrupted the plans of the seven guilds. There were problems within the more than 100 guilds. The attack was smooth. The presidents of the seven strongest guilds, Santoemon and Stephen, have agreed to provide another day of supply Tens of millions of players 'daily supply of medicine is 70 million, and the equipment cost is 3 One hundred and seventy million is not evenly distributed to seven people, but no one wants to spend more on such wrongs. Alice had to waste a lot of effort to get there.

She looked at the ecstatic presidents with a sneer inside.

The players of the Huaxia server have rested here. On the other hand, the players of the seven strongest guilds also rested after returning to the fortress. However, they went to bed from 9pm to 12pm, and the Iron Brotherhood was more than 5am.

In the early morning of the next day, the game was peaceful, but in the real world, the players were insane. They learned the intensity of the battle last night through the battle clips broadcast by major TV stations.

Players from all over the world have new idols in their games and favorite guilds, just like football clubs and football stars.

Businessmen from various countries also focused on these guilds, naming them for advertising, and when they went live in the afternoon, when major TV stations broadcast live, they found that each of the seven strongest guilds had sponsors, and each guild Players have advertising signs on their chests.

#### Chapter 1396 - Final Fantasy Forest Battle

“Aha, it’s getting more formal.”

“Yeah, these seven strongest guilds also have sponsors, and they are not lost to Lu Yang.”

...

Hosts and anchors from related countries cheered these guilds.

For China.

Dubin frowned, holding his arms in both hands in the live broadcast room. “Lu Yang is in trouble. The seven guilds have been sponsored at the same time, which will definitely bring great morale to their players. I am afraid it will be difficult to fight tonight.”

Hitomi said, “As a result, the morale of the players in the Jagged Brothers League has dropped a lot.”

Outside the Tiger Mouth Fortress, four of the seven strongest guilds gathered: the Free Army Guilds of the five Polish nations, the Green Light Guild of Austria and Ireland, the Diamond Sword of the twelve South African nations, and the Russian and Moroccan federations. Four guilds of the eagle.

Many people are yelling and yelling when they are 500 meters away from the fortress.

The white lion stood on the second wall and snorted, saying, "The Artifact Archer Team, kill me those who are trying to die."

"Yes." Six shooters such as Mu Yi and Han Yu were standing behind him, and six men opened their bows and aimed at the same time.

500 meters outside the fort.

"The mouse hiding on the wall, open your eyes and look at our clothes." The Austrian player shouted arrogantly at the clothes.

"Haha, they dare not show their heads, they are a bunch of timids." Irish players said loudly.

"Down your fortress tonight, leaving you nowhere to hide."

"Nowhere ~ to hide ~!"

"Nowhere ~ to hide ~!"

...

Excited, they even started to dance in a circle, shouting rhythmically, because of their actions, the four guild players behind the array were all excited.

“嘭”

“嘭”

...

Suddenly, six bows and arrows smashed into the position of these dozens of people with a fierce light. After a dazzling light and a violent sound, dozens of people were instantly full seconds.

“Good job.” The white lion laughed.

“Hello ~!”

The morale of the Iron Blood Brothers players on the walls was boosted.

Lu Yang watched the situation at the Tiger Mouth Fortress through a video, and nodded with satisfaction. He said to the bitter half-life and Tu Feng around him, “The White Lion doesn’t have to worry about it for now. “

In the fantasy night forest, the blood demon regrouped the players who were scattered in various places last night, plus those who did not go online and did not come, there are still more than 4 million people, still strong.

Ye Wuhen and Tianyi returned to Tianyu Shencheng in the Tianmo Hills last night. Therefore, today they return to the New World and still appear in the Tianmo Hills.

It takes two hours to walk from the Devil Hills to the Magic Night Forest. At this time, the leader has changed to Ye Wuhen.

Ye Wuhen and the presidents of his 20 small guilds were all placed at the bottom of the team. Although the plan set last night was Ye Wuhen’s first attack, Tian Yao was not an open-minded person. He

deliberately crowded out Ye Wujin and the more than 20 small guilds who listened to Ye Wujin, leaving them at the end as a punishment.

“Tianxian that \*\*\*\* dared to humiliate me so much.” Ye Wumark scolded indignantly. Anyway, he was also one of the top affiliated guilds of the Iron Brotherhood, so he was ranked last.

The thing that made him most angry was that the team of nearly 5 million people on their side formed a long team of several kilometers. After a while of battle, he wanted to take the lead and needed to run from the back to the front. It will take a long time, and the whole team will be in front of the two armies. The opposite side is the Brotherhood of Iron Blood, which is exactly stepping his face on the ground.

But this is not the thing that makes him the most angry. The thing that makes him the most angry is the presidents of the more than 20 small guilds around him. Everyone is secretly sending him a message asking about the video. He explained it yesterday. However, today they are still asking questions. Obviously, they are afraid of fighting, and they are greedy to get the money that Lu Yang never said in the video.

“Lu Yang, you’re suffering for me.” Ye Wumark murmured to himself.

The old leader of the main army glanced at Ye Wuhen without a trace, and asked, “Boss, I will give the main task to me in a while. I will rush up with my brothers. You will be able to direct it behind, without charge.”

Ye Wuhen sighed with relief. His main army chief, Old Song Rumeng, often had the same duties as the vice chairman. They usually cooperated well. Ye Wujin commanded the army from a high place. Old Song Ru Dream is the general commander in the team, conveying Ye Wuren’s combat ideas.

The reason why he has never been promoted to vice chairman is because all the vice presidents are occupied by Ye Wuren’s relatives. His two cousins are vice presidents, one is in charge of logistics, and the other is to assist Ye Wuren in name. All players.

“Brother, it’s all up to you this time. After this battle, I’ll promote you as vice chairman.” Ye Wuhen said, patting the old song like a dream on the shoulder.

The old song sneered like a dream, thinking long ago, now it's too late. Lao Tzu should not only be the vice chairman, but also the chairman, just rest.

“Boss rest assured, trivial.” When the old song talked like a dream, it was still bland, as usual.

Ye Wujin didn't think about the old song like a dream at all. Even if the old song is different from the usual, he would hardly find it, because all his thoughts now are why Lu Yang wanted to separate him and these 20 The president of the guild, what is the intention, and how to get rid of the suspicion of these 20 people.

The old song looked like Ye Wuhen casually and then stopped talking, knowing that Ye Wuhen agreed, he immediately sent a message to other betrayed regiments and regiments.

They and Lu Yang had a simulated group, and the old song Rumen said: “I have obtained the guild's battlefield attack right.”

Ningshuang said, “I will cooperate fully.”

“Me too.”

“I just got I'm ready.”

...

Dozens of people sent messages one by one to indicate that the scheduled tasks were completed.

Lu Yang looked at the words in the group and said with satisfaction: “Very well, the battle will start in a while, you follow my orders.”

He closed the interlocutor and stood still waiting for the Blood Demon to arrive, but the Blood Demon was not stupid. He could not wait for the 5 million people in the heavens, but he would not be in the night forest.

Lu Yang was not in a hurry. After waiting for an hour, the tiger fortress was up, and another half an hour later, the Blood Demon stepped out of the night forest with a large army.

The blood demon looked at Lu Yang in the distance. At this time, his heart was full of passion. For the first time, he brought Lu Yang to face up with nearly 10 million players.

He led the team to a place 500 meters away from Lu Yang and stopped. He looked at Lu Yang with pride and said, "President Lu Yang, we have met again."

Chapter 1397 - Ye Wujin 0 mouths

Lu Yang smiled and said, "Study well today, everyone is put together? Aren't you afraid that Ye Wujin and the more than 20 guilds suddenly attacked from behind you?"

While talking, Lu Yang secretly sent a message to 20 elite 160-level army commanders such as the lovely queen standing in the first row and the king of \*\*\*\* and the two men who loved half-life and Tianyao.

"Look at my gestures for a while, I put the staff on the ground, and you immediately launched an attack." Lu Yang said.

"Yes." Pluto and the lovely queen and others familiar with Lu Yang's routine did not look back or move, as if Lu Yang didn't talk to them.

The blood demon stared at Luoyang's eyes, his face was very tense. Suddenly, he felt a scent, and looked over to Alice.

Alice snorted and looked at Lu Yang and said, "You have done Lu Yang too much."

Lu Yang smiled and asked, "What do you mean?"

Alice smiled, and said with a cold look: "If you haven't mentioned the leaves without traces, we really don't feel relieved, but you can say it yourself, we can be sure that this is your plan for alienation, you don't want to be alienated. we."

The Blood Demon reacted and said, "Yeah, if Ye Wujin and they are traitors, you wouldn't say it here, Lu Yang, I can't think of you, the president of a grand grand guild, who would do this kind of thing."

While talking about the blood demon while looking around, the many presidents who were next to him laughed loudly, and Ye Wujin, who was standing at the back, saw the situation through the video. There was a feeling of crying, He was finally proven innocent.

"I said it was Lu Yang who framed me, seeing no, seeing no." Ye Wuhen laughed and said the surrounding presidents: "He is afraid of me, he is afraid of me."

There were no more than 20 presidents around him. Originally they thought of surrendering. They could live comfortably with a large sum of money, but now their dreams are shattered. No one is too lazy to talk to Ye Wujin, just with a face on his face. Awkward smile.

Tian Yan also stood next to the Blood Demon. He was still guarding Ye Wujin, and he was monitored by video. You can see Ye Wujin's appearance. He closed the surveillance video disgustingly, and whispered: "Give this The grandson was sorrowful. "

Tianwu whispered, "I'm afraid he'll have to take command again after playing tonight."

Teana was annoyed for a while, and said, "I won't let you. Let the people behind make way. Ye Wuzhen will fight first tonight, and wait for his strength to consume for a while before we go on."

Tianwu nodded and ordered the rear team to go.

Alice saw the small movements of Tianyi and Tianwu, which made her feel a little upset. Normally, these presidents should stay in their own guild team and take charge of commanding the battle, but they don't know who came from below. Now big businessmen from all over the world are thinking about investing in advertising in the game.

As a result, these presidents ran into confrontation with Lu Yang in order to obtain the nihilistic advertising contract. The purpose was to copy the way of the seven guilds and self-reports in front of Lu Yang, but they did not want to think about those big manufacturers. How could they look down on them? Besides, could they survive the five days without knowing?

“Lu Yang, do you remember my nature? I will defeat you tonight with my brothers. Huaxia is more than just a talented person,” Tian said loudly.

Lu Yang frowned and looked at Teana, and said, “Stupid.”

“Sorry, I only remember brothers, traitors never remembered, especially those who were traitors when foreign guilds attacked me collectively.” Lu Yang talked while inserting the wand in his hand to the ground, holding his hands to the law. Staff, as if not in a hurry to attack.

What Alice is most looking forward to is that the longer the fighting stalemate here, the better, so that Lu Yang can't separate his staff to support the Tiger Fortress.

The Blood Demon thinks so, but his claim is that the later he fights, the sooner he will end, and the less he loses.

The other presidents of the guild did not want to fight. They were waiting for Tian Ye to finish. They also introduced themselves in front of Lu Yang. Now TV stations and thousands of websites around the world are broadcasting live. Yang scolded him and wanted to refute it.

But just when nobody wanted to fight, all of a sudden, dozens of roars broke out in front of the Iron Brotherhood.

Twenty heads of army such as the lovely queen, Hades, Liu Ruohuai, and Wan Zhonghui pulled out their arms and pointed at the sky and shouted, “Iron brothers, kill ~!”

“Kill ~!” 200,000 players already knew the inside story and got orders to launch an attack at the same time. With a speeding scroll and wind elves at a distance of 500 meters, they were riding a war horse for only 10 seconds.

When the players on both sides did not figure out what happened, Liu Yunpeng's tauren warrior had rushed into the enemy's position with a totem pole.

"Scramble"

...

Seeing the battle in front of me for half a life, I yelled, "The whole army is attacking."

Tian Yao shouted, "Follow me to the wing."

Five million people were divided into two parts. Three million people rushed forward for half their lives, and two million people followed Tianyao to the wing.

"Go offense and block their attack."

"Come on, stop them."

...

Alice and the Blood Demon and others shouted and yelled, Lu Yang's sudden attack almost knocked them out of their internal injuries.

Their team is lined up front, with more than 10,000 people, but only the one directly opposite them is learning how to play Lu Yang. Various defensive occupations are superimposed. Ordinary players in the rest are too late. To manage.

The cute queen and the prison \*\*\*\* king were not stupid. They did not rush to the enemy directly opposite Lu Yang, but penetrated into the defense teams of ordinary players on both sides, as if two steel knives were inserted into the soft underbelly of the enemy, and the scene was chaotic.

Fortunately, there were enough of them. After the panic, the Blood Demon reacted and shouted, "Fastly adjust the people without leaves to come up. Their team is complete and they can face Lu Yang."

Tianwu said, "I've given way to them. It should be coming soon."

Alice looked back, Ye Wuhen's figure had already appeared on the road to give up on the left, he shouted proudly: "Everyone in a hurry, I have Ye Wuhen here, see if I can get everyone back."

The blood demon shouted excitedly: "Brothers rely on you."

Lu Yang's surprise attack on the battlefield made the Blood Demon extremely uncomfortable. Normally, the two sides talked about the attack, and everyone attacked together, but Lu Yang attacked. His command system was not as strong as Lu Yang's. Chang and Hu were all around, and the entire command system was semi-paralyzed.

If Ye Wujin could resist more than 20 million guilds with more than 2 million people to resist Lu Yang's attack, and withstand a little more than half an hour, he would be able to slow down and regroup, and then attack Lu Yang again, and they Not so badly beaten.

Bancheng Yanyu also shouted, "Brother, it's up to you."

"Stop it for us. Support for 20 minutes. I'll help you when the team is ready."

"This time you carried it, I recognize you as the boss."

...

The voices of dozens of presidents in the front made Ye Wuzhen very excited. When he was 300 meters away from the battlefield in front of him, he jumped to a dirt \*\*\*\* on the left with a big wave of his hands and a ground dragon. The scroll appeared in his hands, which Lu Yang gave him.

"Booming"

Tupo responded and turned into a 30-meter-high cylindrical platform. Ye Wuhao stood arrogantly on it with his hands behind his back, and commanded: "The old song is like a dream, go around from the flank, and fight against the Iron Brotherhood. The wing of 100,000 people. "

The old song looked back at Ye Wuren, who was standing on the stage, with a look of ridicule on his face. At this moment, he just rushed to a place 100 meters away from the Iron Brotherhood, and he was standing beside him. This is the middle position of more than 100 betrayal guild coalition forces.

The betrayal group, the priest group, and the forbidden mage group are all here. He raised his weapon and suddenly shouted, "Brothers, the boss has officially returned to the embrace of the Brotherhood of the Iron Blood. Now, let 's give the Brother Iron Blood. The alliance is dead, listen to my orders, the whole army will attack, kill ~! "

"Kill ~!"

Loudly roaring with the dozens of commanders around the old song Rumeng at the same time, obviously it was agreed. Ye Wujian's players originally suspected that the boss had surrendered to Lu Yang. Now they see their army commander and a dozen The head of the command all ordered.

200,000 people turned to the right collectively and rushed in towards the positions of the priests, cursed mages, and shooters of the Blood Demon Demon and Tencent.

Before the battle.

The blood demon is dumbfounded.

Alice was dumbfounded.

Teana was dumbfounded.

Bancheng Yanyu was dumbfounded.

On the high platform, Ye Wujin was dumbfounded.

“What am I ...” Ye Wuzhen suffered an internal injury for a while, and he shivered, totally unaware of the situation.

Before the battle Blood Demon pointed at Ye Wuren with his fingers, almost exhausting his whole body and cursed: “Ye Wuren, you \*\*\*\* me, I killed you.”

Alice was also mad, her charming face twisted like a poisonous snake, her eyes staring at Ye Wuzhen and cursing: “I will never spare you.”

The guild leaders such as Tianyi, Tianwu and Bancheng Yanyu even scolded.

Facing the scolds of everyone, Ye Wuhun was stagnant in the place like a lightning strike, but suddenly he shouted frantically: “Who has ordered you to rebel, old songs are like dreams, what words do I have to surrender to Lu? Yang, what do you tm blindly command?”

Frost? What’s your joke like, what time did I tell you I surrendered? Those ten heads, when did I say surrender? “

No one can hear, no one can hear! On the battlefield, countless people screamed, and the blood demon demon and many presidents were scolding each other. When a person speaks loudly, how can he hear what people say 300 meters away on the noisy battlefield?

In the eyes of the Blood Demon and others, Ye Wujin was like a mad patient at this time, and no one knew what he was doing.

Chapter 1398 - Coalition collapse

“I personally took someone to destroy Ye Wujin. My team is nearby. I have the ability to resist his attack in a short time. You take the opportunity to quickly organize a team to counterattack.” Bancheng Yanyu said.

But he didn't wait for the action, and there were dozens of yells suddenly in the distance.

"Brothers, the boss has told me that he followed Ye Wuhen to surrender to the Jagged Brothers Alliance, and the target half-city smoke and rain team, kill ~!"

"Our boss also followed Ye Wuhen to surrender to the Jagged Brothers Alliance, and the target team of God is to kill!"

...

Dozens of heads and legions of more than 20 small guilds betrayed the camp at the same time. Originally, the players of more than 20 guilds had watched the video like Ye Wujian's players, and thought their boss had surrendered to Lu Yang. .

Now Ye Wuhen betrayed, and they hesitated. Now their heads of regiments and regiments shouted, and they didn't care about the others.

"Already prepared."

"I know that's the case, it's better to follow the Brotherhood."

"Fuck them."

...

For a while, tens of thousands of people rushed into the rebel coalition side by side, and other ordinary players in the more than 20 small guilds, seeing this, did not care about the other, and rushed in, and the scene was immediately disrupted.

The presidents of more than 20 small guilds were also dumbfounded at this time.

“What’s the situation, I’ll betray any time.”

“I didn’t tell my men either.”

“No, it must be Lu Yang’s ghost.”

“Hurry up and explain to the Blood Demon and Alice.”

...

More than 20 people hurriedly called the Blood Demon and Alice, but they couldn’t get through to anyone. Even all the guild leaders, including Tian Di, broke the phone at this time, facing Lu Yang’s attack, and Ye Traceless betrayal, they kept calling their subordinates to convey orders, where there is still time to control them.

In the dialogue bar of the blood demon and Alice and others, all the player’s shouting records are also recorded. Only a sentence in the 10 cm high dialog box can’t be saved for 1 second, and it will disappear. Whatever messages they send can not see.

“It’s over, we can’t figure it out right now.”

Someone reluctantly said, “We can’t just be put together by Lu Yang and order our men to withdraw from the battle and reorganize.”

More than 20 people looked at the scene. Their people had already fought with the blood demon’s coalition. It was impossible to retreat.

“What, what can I do? I just called the head of the team and asked the grandson why he did it. He told me that he had been bought by Lu Yang, not just him, but the heads of ordinary players under us. He and the regiment were basically bought. “

“Half of us are out of our control, this, this ...”

None of them more than 20 of them knew what to do, they just stood there staring, but they didn't know what to do, they knew it.

“Retreat, can't fight, the whole army retreats.” The blood demon shouted.

Nearly ten million people in the coalition on the battlefield have been smashed by the iron brothers alliance, and at this time, Tu Feng and Qing Qian Zimeng saw the opportunity, had a good example, and made phone calls to the major players on the battlefield. Inside the corps of ordinary players below the guild.

“Lead his men to withdraw from the battle, 20,000 credit points, and counter-attack 30,000 credit points on the spot.”

...

The common players of the coalition commander saw that the situation on the field was already like this. In large numbers of rebellions, even the commanders of the blood monster demon had betrayal. At this point, tens of millions of coalition forces completely collapsed, and the remaining millions People rushed away.

Some people wanted to escape into the demon hills, but that area was blocked by Tianyao from the flanks, and the other side was close to the Vajra fortress. They didn't dare to go, so they all ran back.

“Boss, we have won, you are a terrible move.” Said bitterly love and excited for a long time.

Lu Yang looked at the defeated enemy in front of him with a sneer, and said, “Everyone, whoever has money, depends on whether you dare to spend it.”

He called out to Tianyao and said, “Fly your 2 million people to the Tiger Mouth Fortress immediately to support the White Lion.”

“Okay.” Tian Yao immediately ordered the team to stop chasing, and 2 million people flew to the Tiger Mouth Fortress.

At this time, the tiger mouth fortress was like a meat grinder. The four strongest guilds took turns to attack. The 1.2 million people of the White Lion could not defend, and the two sides of the second city wall occupied alternately and could not defend.

“White Lion, I’m here with support.” Tian Yao shouted.

The White Lion looked back, and the safety zone was full of people, which made him breathe a long sigh of relief and shouted excitedly: “Hurry up with people.”

“Leave it to me.” Tian Yao immediately ordered his players to rush to the second city wall for support. Suddenly, the two sides hanged together.

Under the city.

Sanyouweimen frowned and said, “Why did the enemy have a new team to come to support, how did Alice do it?”

Stephen said, “Will something go wrong there?”

Mitomonemon called Alice and asked, “What’s wrong with you?”

Alice had just died once, and was escaping with the Blood Demon and others. She said anxiously: “Lu Yang used a conspiracy and tricks to spend money to buy over 20 guild presidents to let them face rebellion. My side collapsed Now, they are running away with the team. “

“Asshole.” Sanyouweimen cursed: “Why are these people so wasteful and waste our supplies.”

Alice thought for a while and said, “I have seen for the past two days. The Blood Demon and the God of War have no experience in large-scale operations, nor do they know how to distinguish spies and deploy

tactics. I suggest you not to give them up immediately. Some senior commanders will guide them, and the remaining people can still annoy Lu Yang. “

Sanyouweimen was still dissatisfied, but he knew that being angry would not help, and said, “Let’s have a few discussions, you can reorganize the team as soon as possible.”

Alice was hung up by Mitomon This is the first time she was hung up by a man. But at this time, she didn’t have time to get angry. She looked back and was frightened. , Lu Yang actually took the 200,000-level main force and 3 million 140-level players who loved half a lifetime to chase after the title.

In the Night Forest behind them, shouts and kills of the Jagged Brother League players are everywhere, not to mention other people, Alice was frightened by this murderous spirit.

The blood demon and other people were scared even worse, more than 100 guilds collapsed at the same time, and they were chasing after Lu Yang’s crazy title, so that they could not find a place to rest temporarily, even if they were resurrected from the necropolis Return immediately to Tianyu Shencheng, or continue to escape.

“Brothers, please don’t return to Tianyu Shencheng. If you go back, you won’t be able to come back again. Lu Yang will not let us go. Listen to me and continue to run to the east. Everyone gathers slowly. Let’s find a chance to fight back, “shouted the Blood Demon.

The surrounding presidents nodded one after another and sent messages to their subordinates, but the players of these guilds were not stupid and obviously could not win. Ordinary players basically ran back to Tianyu Shencheng, and the rest were from their respective guilds. Elite, still thinking about the president’s affection, this has not left, but if they continue to do so, they will have to run.

Chapter 1399 - Lu Yang personally defends the tiger mouth

“Damn, why would Lu Yang chase us in person, wouldn’t he go to see Tiger Mouth Fortress and Tianjian Fortress?” Tian Yan scolded as he ran.

“There was a white lion looking at the tiger’s mouth for him, and a muddy wine looking at the Tianjian fortress for him. He didn’t have to worry about it at all.” Bancheng Yanyu pantoic acid said.

Everyone was silent and could only continue to bury their heads and escape.

With more than 3 million people just behind him, Lu Yang chased and killed all the way, this time he was really angry, and he had no sympathy for these people.

From the afternoon to late at night, the four major guilds outside the Tiger Mouth Fortress stopped attacking and took turns to rest. The other three guilds took the offense. At that time, there were 12 remaining walls in the tiger mouth fortress.

But the war only hit the middle of the night!

After a bit of love and hunting down with Luyang, he asked, "Should you send someone to reinforce the Tiger Fortress?"

Lu Yang was also hesitating, but he thought for a long time and said: "Without reinforcements, the White Lion has about 2 million players at night, which is enough for him to defend. This time it is only a mistake of him. I believe him and continue to chase me."

Looking at the map bitterly for half a lifetime, he chased after nearly 8 hours. Players on his side can still keep up with less than 300,000 people. Anyone who can't keep up is sent to the tiger mouth.

"Follow me," said bitter love for a long time.

Lu Yang nodded, and chased after him personally. From late night to the next morning, less than 3 million people were chased by the coalition forces of more than 100 guilds. The rest ran away, and at this time Lu Yang has chased them into the desert on the easternmost area of the map.

In the yellow sand of the sky, the blood demon demon and others fortunately encountered a dust storm and hid inside to escape the vision of hunting and killing the player. Lu Yang stopped.

Looking at Lu Yang for half a life, he said, "Boss, you are so cruel, you shouldn't offend you."

Lu Yang gritted his teeth and cursed, "I guess they are lucky. Without this dust storm, I chase them to death."

Love half a life and the exhausted players around laughed.

"Oh, I laughed." The cute queen covered her stomach and said, "Boss, don't dare offend you. This offends you. You can remember a lifetime of revenge. The blood demon will never forget to be chased by you today. Things that didn't dare to stop overnight. "

Lu Yang said proudly: "Don't offend me in the future, this is my offense, go, let the brothers take offline to rest for 5 hours."

Everyone laughed, they all knew that Lu Yang was joking, and each issued an order, and the players took out the scrolls back to the city to return to the picking fortress and take a rest.

Lu Yang also took a rest, but he and his 200,000 players had a rest time of only 5 hours. When noon was reached, Lu Yang was woken up by an alarm clock. After he went online, the 200,000 main force also went online.

Lu Yang took them to the tiger's mouth. At this time, there were only 11 walls left on the tiger's mouth, and one was just killed by the enemy.

The White Lion stood above the 11th line of defense in person, and looked at the battle below with \*\*\*\* eyes, and Tian Yao persuaded, "Take a break, I'll take it for you for a while."

"Don't bother me, I personally guard the 11th fortress, the white tiger and the white wolf you two waste, back to me." The white lion scolded.

The white tiger and the white wolf did not dare to speak back. For the first time in the three brothers, the white lion was so angry with the two of them for the first time, but they were also angry with each other. They were obviously the same players, but they could n't keep it. The fortress made them both blame themselves.

Lu Yang just saw this. He quickly stepped on the 11th city wall and came to the white lion and said, "What's wrong?"

Seeing Lu Yang, the White Lion almost cried, and gritted his teeth and said, "Boss, I am sorry for you. I lost 4 walls in less than 2 days, and I am not qualified to be the vice chairman."

Lu Yang smiled, and patted his shoulder lightly, and said, "What's this saying, it's so good to be able to defend the city, let's quit the game first."

"Why?" The White Lion looked at Lu Yang in shock and said, "You, you no longer trust me?"

Lu Yang said: "I will give you 8 hours of rest time. After 8 hours, this position is still yours. I have personally tried with these people during this period."

"The coalition won?" The White Lion asked.

He loved for a long time and said with a smile: "The boss chased them down one day and one night, and tens of millions of people chased down and left about 3 million. Before the day after tomorrow, they could not ride the star fortress."

In the middle and late stages of the hunt, because everyone in the coalition was killed once, they all fled on horseback after the resurrection in the necropolis.

In order to chase them, Lu Yang drove the scroll to kill them. Although it was one day and one night, they ran back. Without the scroll, they would run for two days even if they were riding.

The cute queen calmed down and said to the White Lion, "You haven't seen it, the boss chased them. Who would chase them after a day and a night? It would be useless to beg for mercy. If there was a sandstorm in the desert, the boss could chase."

White Lion: "..."

Bai Hu: "..."

White Wolf: "..."

Tianyao said: "Uh, boss, you must chase them out of psychological shadow."

"Cut ~!" Lu Yang rolled his eyes and said, "Let 's all take a break here. You do n't have much rest time. I can only do it for you for 8 hours. After that, I will help South Korea and India. , It's settled over there, we can settle the battle over here. "

"I'm going to sleep." White Lion said, he led the team out of the city wall, and soon, nearly 3 million players followed the line to sleep.

Lu Yang stood on the eleventh wall and looked at the enemies outside. Today, the four-member guild of Stephen, Jerz, Radvijef, and Sanyouemon.

At this time, all four were 500 meters away from the fortress, holding a telescope to look at the city wall, and all saw Lu Yang standing in front of the gate building.

"Damn, those Chinese wastes were smashed by Lu Yang in just 2 days. It was a waste of my money to give them something." Radvedev angered.

Stephen said: "Lu Yang should be at the fortress with the 200,160-plus elite. We are afraid that it will be difficult to fight today."

Sanyou Weimen said: "Tentatively hit a wave."

Radvidev said, "I'll try."

He turned back and yelled, "First to Fifth Army, ready to attack."

50,000 people made it out and rushed towards the fort.

“Kill ~!”

“Chong ~!”

...

Lu Yang stood on the city wall and sneered, saying, “Starbreaker shooter, the ice mage told them, you are here.”

“Yes.” Pluto King Zhenlian raised his right hand coldly, and the 10,000 Starbreaker shooters were evenly distributed on the 500-meter-wide wall, while bending his bow and arrow 60 degrees upward.

When the enemy was about to rush to 230 meters below the city, the King of Hell suddenly called out, “Hash arrows, let go.”

10,000 people release arrows at the same time, and the free-scatter arrow mode releases 20 bows at a time. At a 60-degree angle, or when the city wall is hit under the wall, 200,000 arrows quickly fly over a distance of 200 meters, just landing Among these 50,000 people.

“4239484” (Critical Strike)

“4834946” (critical strike)

...

More than 8,000 people died on the spot. More than 8,000 players continued to charge, but bows and arrows continued to fire. When entering the 100-meter area, there were only more than 30,000 people left.

“Ice master, cold storms, let go!” The lovely queen’s voice ran through the fortress.

“Cold Storm Snow”

“Cold Storm Snow”

...

10,000 magics of 30 seconds and 50 yards envelop the area 100 meters outside the fortress.

For every one who could resist the storm, more than 30,000 people collapsed. No one rushed forward and all ran back. But when they ran back, they were shot and killed more than 20,000 people. In the end, only About 10,000 people fled back.

500 meters away.

Mitomonemon and Radvedev watched the scene in shock.

“It’s worth the dark gold equipment of level 160. It’s so easy to play level 140.” Jerz said.

“You taunt me,” Radvedev angered.

Sanyouweimen quickly opened Radvedev and said, “We are allies now, don’t get instigated. I believe Jerz doesn’t mean that, but Lu Yang is too strong.”

Jerz reported that he had been ridiculed by Radvedev in the last time he failed to attack, but said, “I’m not all 140 here.”

Radvedev glanced at Jerz and stopped talking.

Sanyou Weimen sighed and said, "It looks like we are going to reorganize the offense, and we need to add our strengths to form a joint offensive team."

The so-called joint attack is firstly that the conventional defense players have their shields in front, and various defensive skills are set on them, with the advantage of reducing the damage by 90% to withstand the attack of the Jagged Brotherhood.

Below the shield formed by regular players, there are 150-level three-turn paladins, who are responsible for punishing angels to attack these 200,000 people.

Sanyouweimen and others successively commanded, and soon a team came together. Thirty thousand \*\*\*\* warriors formed a square array, some of them were up and some were forward, like an iron tortoise shell. Under them, it was 13,000 saints. knight.

"Well, 30,000 people can send 13,000 people to the battlefield at one charge It's not necessarily up." Sanyouweimen shook his head for a while.

"I'm mobilizing trebuchets. After this charge, the next charge can follow." Stephen said.

Sanyou Weimen said: "Forbidden spell mage also prepare, the enemy will not let us go up so easily."

"Offensive." Radevjeev growled.

A team of 43,000 people, like a square iron shell, rushed towards the fort.

Lu Yang saw the enemy approaching to a distance of 300 meters and shouted, "Forbid the curse wizard group, come 20 people to put the curse."

Hei Yan dispatched 20 forbidden spell mages to release meteor fire rain at the same time. Suddenly, these 40,000 people were shrouded in forbidden spells and had to release their skills in advance.

“Sure enough.” Sanyouweimen shook his head helplessly and said, “Let them come back, and wait until the trebuchet comes.”

Radvieff nodded.

Chapter 1400 - Meat grinder 1 battlef...

The combination of Catapult, Forbidden Mage, Anti-Battle Corps, and Level 150 Elite Players is a complete attack formation. This is the only method developed by the seven strongest guilds that can restrain the Level 160 Elite Brotherhood.

Lu Yang knew the method of the opposite attack through the spy. First of all, the stone thrower hit the bomber and the curse was thrown. The Iron Blood Brothers players on the fortress could not be defended. At this opportunity, the iron shell array composed of \*\*\*\* warriors covered the 150 elites. attack.

These 1 million 150-level elites are all special occupations, namely ninjas, samurai, wrestlers, rest priests, monks, divine warriors, jungle hunters (shooters), nature guards (elven warriors), and angry army (fire mage) ) This kind of occupational composition with extremely high output or strong explosion.

Once they were boarded by the city walls, the trebuchets of both sides could not be used. The trebuchets' attack did not distinguish between the enemy and me, and all within the range would be equally damaged. In this case, Lu Yang could only send 160 players to attack and recapture. The city wall has 160 to 150 advantages, but under long-term consumption, the enemy has a great chance to occupy the city wall.

In order to cope with this enemy's move, Lu Yang also made corresponding preparations. He dared to withdraw the front to the tiger mouth fortress, and had already made preparations in this regard.

In fact, the way to deal with it is very simple. The forbidden mage throws forbidden spells in large quantities, forcing the seven guilds outside the fortress to successfully send the 150-level elites to the fortress with the iron shell army, and then cooperate with the rear lightning tower attack. , Hard to eat the enemy boarded the walls and the team below the walls.

In such a fight, the two sides became a meat grinder fighting method, but the Iron Brotherhood was a meat grinder and the other side was meat. What he never expected was that the woman Alice did not know where it was so big The ability to make so many rebel affiliates.

Coupled with Liu Jie and Salman agitating hostile players in South Korea and India to rebel, causing the Iron Blood Brotherhood to be stretched, otherwise, Lu Yang can now rely on the 300,000 people in his hand and can easily hold the tiger mouth fortress. .

At most, the two sides were tied. The level of 160 players in Lu Yang dropped to about 155, but the average level of 150 players in the seven guilds will fall back to about 140, and a large number of 140 players will fall to 130. Level around.

At that time, the battlefield also fought for seven days, and both sides were exhausted. The seven guilds retreated by themselves. Although Lu Yang was beaten badly, he lost one step to the sky and some G8 areas, but he got one more. The money-earning land of the eastern mountain area is generally very suitable.

“Unfortunately, people are not as good as heaven.” Lu Yang murmured to himself.

Outside the fortress.

More than an hour later, Sanyouweimen and Stephen and others adjusted the team. Tens of thousands of catapults rushed towards the fortress at the same time. Just 500 meters from the fortress, there were 10,000 lightning towers in the first row of the fortress wall. At the same time, the electric light shone.

“Zi ~!”

Tens of thousands of blue lights flashed, and hundreds of trebuchets were destroyed. At the same time, tens of thousands of trebuchets threw flame megaliths at the same time, and thousands of lightning towers on the city wall were destroyed.

At this time on the city wall, the players of the Brotherhood of the Iron Blood were hiding in the innermost area of the city wall. The entire city wall was 50 meters wide, and the enemy's catapult could not hit this position.

Lu Yang saw through the video that behind the enemy's slinger, there were a large number of iron shell soldiers, that is, the \*\*\*\* warrior's defense team came out carrying the shield and was marching toward the fort.

Although he couldn't see any professions under the shield, Lu Yang could be sure that the enemy's main force was below. He called Hei Yan and said, "Come 100 forbidden spells and aim at the position 500 meters ahead."

"Yes." Hei Yan was leading the 50,000 cursed mage under the city wall, and shouted immediately after hearing the command: "100 mixed curse mage, 250 meters ahead, let it go."

"Meteor Fire Rain"

"Icy Roar"

"Space-Time Cutting"

...

Nine major types of secondary injunctions are aimed at the location 250 meters outside the fortress at the same time. After 10 seconds, from 500 meters in front of the trebuchet to the fortress, the forbidden spells such as ice, hurricane, sandstorm and fire spread all over this area, like \*\*\*\* general.

The leader of the Hell Warrior Corps in it thought that Lu Yang was still attacking with 20 forbidden mages. If there were only 20 people, they would still be able to resist without the rear town magic knight, but they did not expect that Lu Yang was released at one time. 100 secondary forbidden spells.

Even if the damage is reduced by 90%, there are still more than 20,000 attack power, and 100 people are released at the same time, just like 2 million damage per second, not to mention the first batch of \*\*\*\* warrior commanders did not promptly order the rear town magic knight. Put on a shield.

“29675”

“30293”

...

In the same second, 100 damages were on the head of the \*\*\*\* warrior at the same time. Many \*\*\*\* warriors died during the crit, and the rest priests and samurai under the shield did not wait to show their super attack and died. In the curse.

“Damn, this crap.” Stephen scolded, and the first to attack was the commander of his army, but he didn’t expect to be ashamed at the beginning.

Sanyou Weimen said: “It doesn’t matter. Continue to attack. We have already prepared for a fierce victory and don’t care.”

Stephen eased his face and shouted, “Keep attacking, attack.”

Subsequent millions of players immediately became the protagonist of the battlefield. The whole, like the same pork chop, entered a large meat grinder in an orderly manner.

Among the major live broadcast platforms.

The British host said bleakly: "This war is moving in the direction of favoring the Jagged Brotherhood. The seven strongest guilds will pay an extremely heavy price under the Tiger Mouth Fortress."

The French host said dissatisfied: "Why are these Chinese players so wasteful, tens of millions of people can't even stop Lu Yang for three days, and now the seven guilds of the Tigers Fortress's offensive and defensive battles are at an absolute disadvantage.

...

Numerous foreign media who want to see the unlucky brotherhood of brotherhood show their ugly faces They used to talk about Lu Yang with sympathy and regret, but now they can't help yelling.

The only official praise for the Iron Brothers Alliance is Huaxia's official TV station.

Du Bin looked at the battlefield of Hukou with arms, and said with satisfaction, "This time the Iron Brothers Alliance is stable. The remaining 11 city walls are enough to block the seven guilds for more than seven days. We will stand here quietly. Just watch the Brotherhood of the Jagged Brothers kill the players of the Seven Guilds. "

The players who watched the battle in China were just like a cold drink in the summer, and their whole body was cool from the inside out.

"Haha, let this group of grandsons attack together, it's awful."

"The Jagged Brothers Alliance will win."

"Ha ha, it's won."

...

People like Blood Demon and Ye Wujin also watched this video, especially when they heard Du Bin saying that Lu Yang was stable, their faces turned red and white.
