

Chapter 1432 Ye Fan's Concerns

Ye Fan's deep resounding voice reverberated through the atmosphere.

What? G-grandpa? "Could he be..." The security guard stood in a daze with his eyes wide open.

Although he had only worked for the Ye estate for barely half a year, he had heard a little about how the Ye clan made their fortune.

He heard that the Ye family used to be an unknown family from the countryside.

However, one of their progeny was a prodigy, so the entire family rose to power.

The true dragon in their family propelled the insignificant Ye family to become the most powerful clan in Fenghai overnight.

Even a family as powerful as the Lei clan in Fenghai had to show them respect.

The Ye family's dragon was Old Master Ye's daughter's son.

A swarm of people came to the entrance while the security guard contemplated in

shock.

At their lead was Ye family's Old Master, Ye Guang-Kun, who was already about 80 years old.

"Fan, is it really you? So you actually still remember that I exist!" Old Master Ye spoke with his voice trembling and tears in his eyes the moment he saw the young man at the door.

He walked over and promptly hugged Ye Fan affectionately.

The security guard was dumbstruck.

His lips quivered as he spoke in shock, "Heavens! I-is this young man the dragon they were talking about?"

The security guard felt a chill running down his spine as he howled in shock inside his heart.

He was so startled that his legs froze.

Since he had offended someone important, he was bound to lose his job.

Chapter 1432 Ye Fan's Concerns

However, the security guard had thought too highly of himself.

Why would someone as powerful as Ye Fan care about insignificant things like this?

"Fan, where have you gone all year? Why didn't we hear from you at all? Your mother only said you were out on a business trip."

Ye Fan's close relatives were all in the hall.

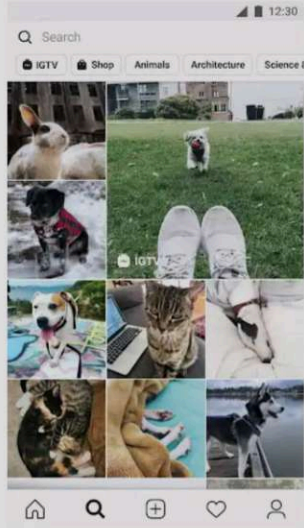

Even Ye Tian and Ye Ya, whom Ye Fan had just spoken to, were next to Old Master Ye.

"Yes. I met with some problems and got held up, but everything is fine now," Ye Fan explained superficially with a smile.

"Oh yes. Have you visited your mother in Yunzhou yet? She left for several months without even calling me, just like you. She doesn't care about me anymore," Old Master Ye sounded upset when he brought up Ye Fan's mother.

"Hmm? Grandpa, what are you saying? Has she not contacted you in months? What

about Mu-Cheng? Have you spoken to her recently?" Ye Fan sensed something amiss and frowned.

"Mu-Cheng? Before your mother left Fenghai, she did visit me. Since Mu-Cheng is always concerned that I might get worried, she didn't share any bad news with me. I know it isn't easy for her to keep the company running on her own in Yunzhou. It's good that your mother went over to help. Otherwise, the girl would be exhausted. Don't worry about the Fenghai branch. I told your uncles to keep an eye on it. Speaking of the company, I have to say this. Even if your uncles made mistakes, we are family. Why did I hear that you made an outsider the head of the company? You should rethink that decision. Since your uncles and aunt are all present, we should sit down and talk about it." Old Master Ye suddenly brought up work halfway through the conversation.

Ye Tian, Ye Ya, and Ye Jian had clearly complained to Old Master Ye about what Ye Fan did before he arrived.

Since they were incapable of controlling Ye Fan, they sent Old Master Ye to do it.

Chapter 1432 Ye Fan's Concerns

“Grandpa, I don't want to talk about work. I only want to know where Mum and Mu-Cheng are. You said that you saw Mu-Cheng before Mum left. What happened after that? Did Mu-Cheng talk to you in the months after Mum left?” asked Ye Fan anxiously in a deep tone.

Old Master Ye contemplated. “I don't think so, but she might have called. I'm too old to remember. I have too many grandchildren calling me that I can't be certain.”

“Never mind. Lend me your phone. I will try and call them.” Ye Fan finally felt something was amiss.

After all, his mother was a filial daughter, so it was odd for her not to visit Old Master Ye for months on end.

In hindsight, it was completely abnormal for his mother to leave Fenghai for months.

Ye Fan quickly borrowed his grandfather's phone to call his mother and wife worriedly.

Ye Fan already lost his phone in one of his fights.

Chapter 1432 Ye Fan's Concerns

To a martial artist, a mobile phone was considered a consumable.

It might survive one battle, but it would die before long.

“Hmm? Mum’s and Mu-Cheng’s phones are both off. I wonder what happened.”

Even though Ye Fan called several times, none of the calls got through, so he was awfully worried.

“Grandpa, my mother left home for months without calling back. Why didn't you send anyone to Yunzhou to check?” asked Ye Fan.

“I got Jian to go over to check once. Right, Jian?” said Ye Ya.

Ye Jian nodded. “Uh huh. I went over for a look but didn't manage to see her. She didn't pick up when I called either. I thought she was busy, so I didn't hang around and came back on the same day.”

Ye Fan instantly frowned even harder.

He clenched his fists tightly as he asked once more, “How did she leave?”

Chapter 1432 Ye Fan's Concerns

“Someone came to pick her up and said Mu-Cheng sent them. When Sis received the call, she just told Dad about it and left in their car. Now that I think about it, she left in quite a rush, but I thought she was in a hurry to talk about business,” explained Ye Tian.

“So you don’t know who took Mum, and you don’t know if she has actually really gone to Yunzhou?”

Ye Fan’s voice gradually turned cold with a solemn look on his face.

“Er...” Ye Tian and Ye Ya looked at each other but were incapable of retorting.

“Fan, don’t worry. Your mother and wife should be fine. Otherwise, they would have gotten in touch with us ages ago,” consoled Ye Ya.

Ye Fan was incapable of staying calm now.

His eyes were filled with worry, and he didn’t want to linger a minute.

He quickly left the estate in an instant.

“Grandpa, I’m going to Yunzhou. I won’t be eating.”

His solemn words came from the door.

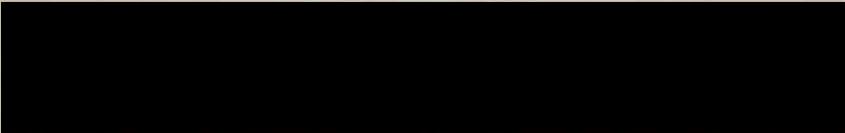

When the rest of the family turned to look, the young man was long gone.

He hurried to Yunzhou overnight.

HUUU!

Cold wind gusted.

It was dark at night as cold night wind swept past Ye Fan’s ears.

Chapter 1433 Did Something Happen in Yunzhou?

Despite the raging cold wind and chilliness, Ye Fan didn't pause for a second while worry burned in his heart.

Even though he was uncertain about what happened, Ye Fan had an ominous feeling about this.

He had a nagging feeling that something had happened to his mother, and probably even Qiu Mu-Cheng was in danger.

Otherwise, his mother wouldn't have gone without a word for months.

Both his mother and Qiu Mu-Cheng's phones were off.

Was it a coincidence?

Certainly not.

His mother's sudden departure meant something had happened in Yunzhou.

Also, his mother and Qiu Mu-Cheng were uncontactable for months.

All signs were suggesting that something had happened to them.

Ye Fan couldn't wrap his mind around it. Considering his control of Jiangdong and Mufan Group's power, barely any forces in the nation were capable of posing a threat to Qiu Mu-Cheng and his mother.

Could the Yanjing's elite have done something? The Lu and Xur families might have made a comeback when they realized Ye Fan had died abroad and moved in on Mufan Group.

Ye Fan contemplated but threw the possibility out of his head instantly when it came across his mind.

After all, the Xur clan had lost all power after the crisis in Jiangdong.

All the people with power in the family either died, collapsed, or were thrown into jail. Even their patriarch had perished in the process.

There were survivors, but they were on their last breath, so they were incapable of going against him even if they tried.

It was even less likely for the Lu clan to be behind this.

Ye Fan was bestowed the title of the Unrivalled by the head of the state.

The Lu family was incapable of attacking him even at their peak, considering the power that came with the title.

After all, the title wasn't a matter of glory but gave him political power.

If anyone found out the Lu clan had touched his family, their political career would be forever tarnished.

If the Lu family had any brains, they wouldn't have done something to put them at such disadvantage.

Then who else would have touched Ye Fan's family if not these elite families?

"Could it be the Indra, Brahma?"

After Ye Fan eliminated the possibility of an attack from a mundane force, Ye Fan considered the martial arts world's forces.

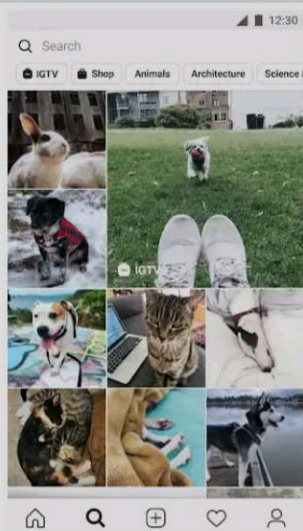

After all, Ye Fan had even more enemies in the martial arts circle, and they posed a greater threat.

However, Ye Fan didn't think Chu Sect was behind it.

Even though Ye Fan and Tang Yun were now standing on opposing sides, he didn't think she was capable of moving in on someone's family.

She wouldn't have done that and would even have stopped Chu Sect from such lowly actions, so after eliminating Chu Sect, the answer became clear.

It must have been Brahma!

Brahma had the motivation and ability to harm his family.

Since he was a supreme grandmaster, if he wanted to kill his family, not even the nation's six pillars could save them.

Ye Fan's face turned solemn just thinking about this and felt cold in his heart.

If he was right, it boded ill for his mother and Qiu Mu-Cheng.

Half a year was enough time for a supreme grandmaster to kill them countless times.

“It’s my fault. I shouldn’t have gone into cultivation. I should have come back to Jiangdong to recuperate!”

....

“I shouldn’t have gone to South America. I should have created the Invoke the Celestial Sky Formation before leaving.”

.....

Even though Ye Fan had yet to arrive in Yunzhou and this was all his speculation, his mind was already in chaos.

He blamed himself and felt guilty and afraid.

He was worried that he would end up learning of his family’s demise when he arrived at Yunzhou.

Ye Fan felt guilt-stricken. He should have finished the Invoke the Celestial Sky Formation, sent someone from the Dragon God Hall to stay at Yunzhou before he left, or went straight home to recuperate after leaving South America.

If Ye Fan had made any of the above

Chapter 1433 Did Something Happen in Yunzhou?

arrangements, this wouldn't have happened.

But was he to blame?

After all, the God of War claimed that the most powerful opponent in South America would merely be imminent grandmasters before Ye Fan left for the trip.

That was the reason Ye Fan felt he would be back in no time from South America, so he had acted carelessly.

He only left Green Dragon Force in Yunzhou to protect them.

Even though the God of War and Ye Fan thought it would be an easy trip, he nearly died.

Everything ended up far more serious than Ye Fan and the God of War expected.

They were only human.

Even the God of War and Ye Fan were capable of committing mistakes.

However, now was not the time to think about this.

Instead, he had to hurry over to Yunzhou to find out what happened.

“Mum, Mu-Cheng, I hope you are okay.”

Ye Fan roared deeply in the darkness anxiously.

His words of concern ended up shattered by the raging wind.

Ye Fan ran even faster.

In the cold night, Ye Fan looked like a ray of light at his speed.

He resembled a sword plunging straight towards the heart of Yunzhou.

Late at night.

A silhouette stood outside Mount Yunding once more after a year's absence with a worried look in his profound eyes.

He stood firmly and looked weary from his travels.

Chapter 1433 Did Something Happen in Yunzhou?

It was none other than Ye Fan who had traveled from Fenghai overnight.

“Mu-Cheng? Mum? I’m home. Where are you?”

Before he even made it to the doors, Ye Fan’s anxious voice had already echoed throughout Mount Yunding.

Other than the streetlamps flickering by the side, there was complete darkness and silence.

Ye Fan noticed that the recently rebuilt villa already had its doors tightly shut.

There was nothing but darkness inside.

It seemed as though no one had lived here for a long time.

Who would have guessed that the luxurious Mount Yunding Villa would become completely different and seemed cut off from the world in just a year?
