

Chapter 1441 - Fudge Le Sever

“Do you have a lot of antiques?” Lu Yang asked, pretending not to understand, and then looked at other stores. There were still many antique sellers nearby, which meant he could choose at will.

For the first time, Rousseff encountered a master who could identify antiques. Where could he be allowed to go to someone else’s house, he quickly said, “Enter the house, let’s talk in detail.”

Lu Yang thought for a while and said, “Well, wait for me for a while, and I’ve finished all the things I want to buy, let’s talk again.”

He now has three bloodline avatars, and considering that he is a total of 4 characters, he has just found a bronze armor, which is 3 short of it.

Russell is not good at staying, he can only say: “We have more antiques in the shop.”

Lu Yang nodded, turned and walked to the shop next to him. He had identified the shop in Le Sever, and the rest of the bronze statues were fake.

When he was here, Lu Yang called out and called Xue Yiming, “Go online and give you a new task.”

Xue Yiming returned to the East China Sea for a month to heal his wounds, and his body was almost healed, but Lu Yang’s delay in giving him a new assignment made him very anxious. On the one hand, he was afraid that Lu Yang would not use him anymore; Revenge, what is wrong in my heart.

Now, after finally waiting for Lu Yang’s phone call, Xue Yiming immediately logged in to the game and asked, “What task, is there a new way to find Liu Jie?”

“I’m going to let you take over the city of Ming for me,” Lu Yang said.

“Ming City?” Xue Yiming knew what Lu Yang was creating. He frowned and asked, “Does this have anything to do with finding Liu Jie?”

Lu Yang said, “The place where Liu Jie is hiding is too hidden. If we can’t find it for the time being, let’s change the method. You use a new identity to control the city in the game. The market is on the bright side, but you want to use this market. Gather intelligence and buy and sell news. “

In Africa, Xue Yiming has spread a good network. In the game, spread a network at the same time. The combination of the two will definitely have more clues for Liu Jie, and now it is not Liu Jie who wants to destroy him, he was on a single wooden bridge under the **** of the New World. Anyone in front of him wanted to destroy him.

Lu Yang said: “You not only need to find clues for Liu Jie, but also collect clues for any large guild. In the future, you will be my third eye of Lu Yang. I want you to do it. Whatever the winds of any guild, You have to be the first to know. “

Xue Yiming showed a surprise. He did not expect that the mission to Africa was unsuccessful. Not only was he not abandoned by Lu Yang, but he was more reused. He said excitedly, “You can rest assured that I must do this well.”

Lu Yang opened the video sharing to Xue Yiming to see his perspective, and said, “Hurry up to Tianyu Shencheng, and replace me into an organization.”

“Who?” Xue Yiming asked excitedly, this is his specialty.

Lu Yang said: “One of their staff members was accidentally exposed. I didn’t expect to be met here today. They are selling antiques, and I just know how to appraise them. They want to hire me. I plan to promise them. You come instead of me. “

Just when Lu Yang and Le Seve communicated, they used camouflage coats, and the other party did not know his appearance.

Xue Yiming frowned and asked, "But I don't know how to identify."

Lu Yang said with a smile: "I teach you, every time the other party asks you to identify antiques, you call me to open a video sharing, I will tell you which is true and which is false."

Xue Yiming nodded and said, "I see, I'll be there soon."

Lu Yang closed the speaker, walked around the market, and quickly bought another three bronze armors, and Xue Yiming also came to the commercial street. The two crossed the road in an alley, and Lu Yang used his skills to disappear. Only Xue Yiming, who became Lu Yang's camouflage coat, remained.

Xue Yiming replaced Lu Yang's antique shop instead of Lu Yang. In a few words, Xue Yiming agreed with Le Saifu's suggestion and promised to become an appraisal master of antique shops.

"Then I'd like to ask you to change back to your original appearance, and we will sign the contract," said Rouseff.

Xue Yiming quickly changed back to what he was. After Lusefer signed the contract, Lusefer took Xue Yiming into the antique store's warehouse and said, "Please see which ones are true."

Xue Yiming was sharing it with Lu Yang. Lu Yang helped him identify 200 antiques in succession and found 5 real products.

Lusefer originally wanted Xue Yiming to appraise, but Xue Yiming falsely claimed that his appraisal ability can only be used 5 times a day, and he has used it, and he will not be appraised for antique stores in the future, because he will also buy antiques for himself.

At this time, Lusefer was excited about Xue Yiming's ability and didn't care about it. He laughed and said, "With you in the future, our antique shop must make a fortune."

Xue Yiming took the opportunity to ask: "Boss, is there a studio behind you? Why are there so many antiques?"

Lusefer smiled proudly and said, "Dude, do it well, there will be more and more antiques in the future. Behind me is not just a studio. It is a huge force. You follow me and make money."

Xue Yiming said with a look of intoxication, "I love money. Seriously, I think I understand. If you are rich, you will be called alive. If you have no money, you will be a dog."

For a moment, Russell was able to say that he must be a person with a story. He had never inquired about Xue Yiming's identity and asked curiously, "Why do you say that?"

Xue Yiming Hu Yan said, "Why do I know antiques My family was rich before. My father loved European and African antiques. My life was also at ease. My Rolls-Royce did not Buy it, but I have Lamborghini, how many beautiful women take the initiative to give it away. "

LeSever came to understand and asked, "What happened later?"

Xue Yiming said: "Later, during the economic crisis, my family went bankrupt, the car was gone, the antiques were gone, and the beauties were gone. I went to look for them again, and they will remember my eyes in this life."

Rousseff burst into a feeling of sympathy and said with excitement: "You are right, I am like you, but also broke down at home in the economic crisis. Those snobbish eyes, see that I have no money, as a brother Severe ties with me. All women give me eyes and ridicule. I have to take revenge. I have to take revenge. "

Xue Yiming thought for a moment, and thought: I'll just talk about it, and I still meet your feelings.

"Yes, they will be rich in the future, and they will come to us again, and we will draw an eye on the money they gave them, and scold them as white-eyed wolf." Xue Yiming said angrily.

"Good idea." LeSeph's excited eyes were all gleaming.

Chapter 1442 - Bronze mask

“But the quantity of antiques in our hands is not enough. It is too small. It is so real that it is unrealistic to get rich.” Xue Yiming frowned.

Le Sevre also found the problem, he pondered for a moment and said, “You wait.”

Xue Yiming looked at Le Sever standing in place, as if he was communicating with someone. He secretly sent a message to Lu Yang, saying, “It seems that the forces behind Le Sever are about to step in.”

Lu Yang agreed, sending a message saying: “Be careful, first look at the opposite.”

Xue Yiming sent an ok, just as Liseffer looked up and said, “A new batch of antiques is immediately sent over there.”

Xue Yiming said, “That’s great.”

“You stand farther away.” Lusefer walked to an open space, and said in his mouth a spell, and after a while, a teleportation formation was completed.

A flash of light flashed, more than thirty players appeared in the position at the same time, said the first one wearing a silver mask: “unload things immediately.”

This kind of teleportation team can only persist for 2 minutes, and more than 30 people quickly throw out all the antiques in their backpacks.

Just when they threw it, Lu Yang was looking at these 30 people through Xue Yiming’s perspective. He took screenshots of all these people. If they didn’t guess wrong, these people are the core members of the Thorn Birds Association.

The silver mask man was the first to finish throwing out his equipment and looked at Le Sev and asked, "Is this the master you said?"

"Yes, all five antiques have been identified by him," said Rousseff.

The man with the silver mask turned his head to look at Xue Yiming. Even if he could not see his face with the mask, Xue Yiming could still see the sharp colors from the eyes of the other party.

"You are very good, keep working hard." The silver mask man turned into a light and disappeared, while more than 30 other people also disappeared.

Rousseff looked proudly at the thousands of antiques around him and said to Xue Yiming, "Dude, you have a task, come and identify."

Xue Yiming shrugged his shoulders and said, "You're busy, you can go. I'll be able to identify here by myself. It is estimated that it will take two or three days to see it all."

Le Sever looked at these thousands of antiques and got a big head, turned around and came to the shop leisurely to greet local players.

Xue Yiming watched Lerssee go away, he secretly sent a message and asked, "What next?"

Lu Yang said with a smile: "Identified antique magpies, and I just saw what good things the thorny **** have got."

The antiques in front of him make Lu Yang feel familiar. He knows that it must have been played in some secret realms. After level 150, there are many more secret realms in the game, but before Lu Lu tried to attack the eastern mountains, he brought With 300,000 elite brush battlefields rose to level 160, 150 levels were ignored.

Now it is the hottest time in the various secret places of level 150. Unfortunately, there is no attraction to him as a person of level 164.

The batch of antiques of the thorn bird was made from the 170-level secret, and what Lu Yang needs now is to improve his bloodline.

From the beginning of the game to the present, he has only upgraded the clone blood once. With each promotion, the extra attribute points will increase by 10,000 points. He did n't need to pay attention before, but the global competition is about to start. He also needs to add some additional attributes to his clone. Already.

Starting from level 100, there are separate bloodlines, and then can be upgraded once at 130, 150, and 170. Each time you upgrade, you can learn additional advanced bloodline skills.

Players all over the world are not optimistic about Lu Yang's ability to win the four-time individual championship. The reason lies in the bloodline skills. The bloodline of the avatar is just multiple avatars, which does not improve the skill level learned.

If Lu Yang wants to win them, he must have more mixed skills so that he can win! Therefore, even if there is no thorn bird at this stage, Lu Yang has to find ways to improve his blood.

"Bronze compass, this thing is real."

"Bronze skull, fake."

...

The appraisal was continued for a day, and when Lu Yang appraisal was a bit tired, suddenly a bronze masked statue surprised him with his eyes widened.

"It's here," Lu Yang murmured to himself.

"What's wrong?" Xue Yiming asked.

“This thing works for me. I want to find a way to sell it outside. I’ll come over here.” Lu Yang said.

“Simple.” Xue Yiming casually threw the bronze mask into the pile of items identified as fakes.

When Lu Yang arrived, Xue Yiming deliberately yawned and called: “Leseffer, 300 pieces have been identified, I can’t stand my eyes, and I’m off line.”

Russell hurried back in surprise and asked, “What are all true?”

Xue Yiming pointed to the five on the left and said: “These are all true, the rest are fake. You can sell them outside, I suggest you sell a big sale or something. valuable.”

He said with a smile: “It makes sense that I will let these five people identify, and I will take them out.”

Xue Yiming put up a too lazy to stand up to his posture, and quit the game directly.

Lerseefer was also not angry, and gave all the miscellaneous “counterfeit goods” to the intelligent salesperson for sale. He went to the appraisal center for identification by himself.

Lu Yang, wearing a camouflage coat, was standing in the shop in Le Sev, and when he saw the new product, he rushed out of the four masked bronze masks, and 9 bronze masks appeared in an instant, and people bought it in the first instant. .

Lu Yang was shocked, and quickly looked at the other eight. Fortunately, the real bronze mask was ranked eighth. When he found it, he immediately shot it and bought it. When excited, he directly selected the appraisal, a ray of light. Flashing past, the bronze mask appeared alive and glowed reddish.

Bronze mask

Grade: 1

Description: Teleport Token in Crudo's Realm. Click on him and you will have unexpected surprises.

Lu Yang shook his fist hard. This Crudo's secret teleport token is a place where the blood of the clone is broken. His hybrid spell is to release more types depending on the career of the clone. For each additional clone, Lu Yang can release one more top spell.

He can't wait to click on the bronze mask The system prompts: Whether to send into the mystery

Lu Yang's choice was a flash of light, and Lu Yang appeared in a huge virgin forest.

"Hello ~!"

A roar came from him, and a demon with a pair of curved corners on his head glowed with black light. In the next second, one demon turned into two.

Crudo Corner Demon (Elite)

Level: 170

Qi and blood: 200000000/200000000

Lu Yang looked at this familiar scene and showed a helpless wry smile. The most annoying part of this mystery is here. Every Crudo corner demon understands scoring and fights with them. He must kill them with a set of combos. Otherwise, coming out of the clone is enough to cause headaches for a long time, because the blood of the clone is the same as the body, and the attack and double antibodies are 40% of the body. It seems not much, but once the number increases, it is difficult to fight with the clone. Already.

Chapter 1443 - Crudo Demon\'s Secret

“Those who break into the Crudo Temple, die!” Two Crudo corner demon rushed towards the landing sun at the same time, the movement of the steel fork waving in his hands was exactly the same, which could not tell which was true and which was false.

Lu Yang took a bottle of stealth potion from his backpack and drank it.

System prompt: You are invisible!

Crudo’s corner demon lost his target for a moment and stopped in his place and looked around.

Lu Yang sneered and walked past him. It was too time-consuming to kill such mobs. He knew the secret of this copy and ran all the way to the location of several giant stone men in the distance.

The official history of China introduces that the Crodo devil is a creature created in the New World by one of the supreme gods equal to the nine pillar gods, a thousand-faced death.

They worship the **** of death. Whenever they want to kill a high-level living body, they will be sent to the altar in the mode of sacrifice, and the altar burns the fire of the soul, which will quickly kill the living body and transfer energy. Passed to death.

Lu Yang came to the altar in stealth. This is a very magnificent altar. Behind the sacrifice pit burning with dark green flames is a 50-meter-tall cloak of death sculpture, standing below looking up, as if you can feel the majesty The **** of death despised the general gaze.

Around the statue of death, there are three statues each, six inferior gods under the seat of death, and under the rightmost statue, there are a large number of Crudo demon **** various Captives enter the sacrifice pit.

Every prisoner who entered was instantly engulfed by the green flames and disappeared without a trace, and there was no time to scream.

The secret he knows is here. These captives seem to have been killed by the green fire. The energy generated did not enter the death temple, but was intercepted privately by the king of the crooked corner devil. Already.

Whenever it is 12 o'clock in the evening, after the sacrifice is over, the Devil King will secretly come here, take out the soul cup buried under the altar, and take their energy as their own.

As long as Lu Yang waited until 12 o'clock here, the Devil King came here to kill him alone, which saved him the trouble of breaking into the Crudo Temple.

Lu Yang looked at the time. At this time at 10 pm, he found a place to rest. When the sacrifice was over at 11 o'clock, he waited for another hour. When it was 12 o'clock, it was dark. The figure slowly came over from a distance.

"Everything is dead, everything must be obeyed, great death, such a precious title, I don't know how far I am from you." The dark shadow murmured to the sacrifice pit, stretched out his hand to The black soul cup was taken out.

The flame magic in Lu Yang's hand suddenly turned on, and he turned around to release the magic, but at this moment, Lu Yang felt that something was wrong.

In the last life, it wasn't him who was the developer of the mysterious land. He just looked at other people's strategies and knew how to play, but there was a feature in this game. Generally, all the strange words at the beginning of the game had hidden tasks.

When he had a clever idea, he said aloud, "The King of Devil's Corner, it's really ironic that you should have stolen the power dedicated to death in the middle of the night."

The system prompts: You trigger the Crudo corner quest, please think carefully about every sentence you say, this is very important to you! !! !!

Sending three exclamation marks in a row, and with such an extra sentence, Lu Yang could not help but clenched his fists, he knew that there was definitely a hidden task.

Crudo's cornered demon king just wanted to drink the energy in the soul cup, but he heard Lu Yang's words, he paused for a moment, he quickly looked at Lu Yang's position, and his right sickle pointed directly at Lu Yang's head.

"you wanna die!"

A magic of death energy blasted towards the landing sun.

Lu Yang ducked away easily and said, "Stop attacking, otherwise I will immediately use the forbidden spell to attract all the crudo corner devil, and then see how they will treat you as the king."

"You ..." Crudo's cornered demon's next magic had converged on the front of the sickle, but he still hadn't played it, so it disappeared without a trace.

"Damn man, what do you want to do?" Crudo snarled at the demon king.

Lu Yang breathed a sigh of relief, and he bet it right. Sure enough, the devil was also afraid of being found by his men. He said, "I want to be friends with you."

"Friend?" Crudo frowned.

Lu Yang said with a smile: "I think your goal should be to replace the **** of death, just right, what I want to do in the future is to kill the **** of death. Our two goals are the same, shouldn't we be friends?"

Crudo angled the devil for a moment and said, "How can I trust you?"

Lu Yang said, "If I want to hurt you, just call someone, right?"

Crudo nodded his devil and said, "Okay, we can be friends. My name is Suhabi. You can call me that in the future."

The system prompts: You have obtained the friendship of Suhabi, and your reputation in the crooked corner magic camp of Crudo is friendly.

The name on Suhabi's head became his real name, and the color changed from red to green.

Lu Yang's heart was full of excitement. In the last life, he had never heard of anyone who became friendly with the level 170 monster camp. He was the first one.

In order to get closer to Suhabi, he asked, "Can you tell me why you are against Death?"

Suhabi frowned at Lu Yang and asked, "Would you like to listen? This is a long story."

Lu Yang said, "Of course."

Suhabi sighed, drank all the energy in the soul cup, and slowly recounted his life experience. In fact, Suhabi's life experience is very simple, both parents worship the **** of death. A believer, but by accident, his parents did not offer a sacrifice to the **** of death in time, and the **** of death was angry and killed his parents.

Although Suhabi inherited the position of his parents, he hated death in his heart. Occasionally he got the soul cup. At this point, he began to retain the energy contributed to death, hoping that one day he could be as strong as death, and then to his parents' revenge.

Lu Yang asked, "So how far are you from Death now?"

Suhabi smiled helplessly and said, "It's as far away from **** as human beings."

In Lu Yang's speechlessness, the difference between **** and **** is not distance, but two levels. He said, "Is there any way to provide you with energy quickly?"

Suhabi said: "Yes, kill more monsters, the more you kill, the more power the Soul Cup can provide me, but my tribe is too small to take on too much war."

Lu Yang thought for a while and said, "Let me temporarily borrow the Soul Cup. I will help you gather strength."

Chapter 1444 - New method for speed brush experience

Suhabi suddenly stared at Luyang, angrily: "You want to steal my soul cup?"

System prompt: You are suspected by Suhabi, please explain quickly!

Lu Yangmeng felt that he had said something wrong. The Soul Cup is Su Habi's most important item, how could he easily give it to others.

He quickly said: "I don't care about your soul cup. I'm a flame mage. The soul cup is useless to me."

Necro magic can only be touched by a few professions, such as Warlock and Necromancer. It has no bonus to fire mage, and can not even be carried.

Suhabi's eyes gradually eased and he said, "Sorry, the Soul Cup is so important to me that I cannot easily lend it to others."

Lu Yang said, "I understand. I was reckless just now, so let's change the method. Why don't you take the team to attack other enemies. Let me help you win.

Suhabi said: "The day after tomorrow, a tribe will attack me. Let me see your strength."

Lu Yang naturally had no opinion and said, "Can you open up the quartermaster for me? I need to buy something."

Suhabi raised her hand with a smile and said, "Since you are my friend, the quartermaster is naturally open to you, and you can always find me when you buy items."

An interface appears in front of Lu Yang. The first one in the friendly column is the voucher for the cloned blood level +1, and the price is only 1 gold coin.

Lu Yang bought it without hesitation. Compared to killing Suhabi, these 300 credit points were nothing at all. He bought the upgrade bloodline certificate and used it immediately.

System prompt: Congratulations to the player Luyang Bloodline level rose to level 3

Lu Yang didn't summon the third clone immediately because he hadn't figured out what career the third clone would use. He told Suhabi: "I'm offline, I will definitely participate in your attack tomorrow morning."

The 2 days in the game happened to be 8 hours. Lu Yang slept for one night, and landed at 10 am the next day. The light flashed. He appeared in the Demon Temple. Last night, he did not return to Tianyu. God city, use the spell to enter the demon temple and rest.

"return."

Lu Yang meditated on the spell, and his body glowed red. After 3 seconds, he returned to the altar, and Suhabi was waiting for him there.

"The war is about to begin, and our enemies are just outside the city." Suhabi said with a solitary expression.

Lu Yang rushed to the gate of the city gate and looked out. Countless faceless people were gathering 100 meters outside the city. A faceless man headed by them was waving a double knife.

Faceless (elite)

Level: 170

Qi and blood: 20000000/20000000

Lu Yang's eyes were bright, only 20 million blood, ah, unexpectedly the secret mission has such a benefit, this is the same as giving away experience to him.

Suhabi stood behind Lu Yang and said, "Don't underestimate these faceless people. They are staunch followers of the **** of death. They have very high magic resistance, and their attacks ignore defense and cause very high damage. "

This is a special setting in the game.

Lu Yang grinned, his demon heart ignored 70% of the magic resistance, plus the equipment on his body, the monster on the opposite side is the same as no magic resistance.

"The city gate was handed over to me for defense. Before I was dead, no one was allowed to participate in the attack." Lu Yang said.

Suhabi frowned and looked at Lu Yang and asked, "Are you going to die? I don't need a friend to die."

Lu Yang said silently, "Listen to me, believe me, I have no idea of giving away."

Suhabi was still skeptical, saying, "Well, if the enemy didn't rush to within 30 meters of the gate, I would not let my men participate in the attack, but within 30 meters, I will not worry about you anymore."

Lu Yang jumped off the city wall excitedly and came to the gate location. The reason why Suhabi set a distance of 30 meters was because the gates of the Crudo Devil family had already been destroyed, and there was a space of more than 90 meters between the two walls. .

“Damn Suhabi, you betrayed the **** of death, and I will punish you instead of the **** of death.” A slightly taller faceless man in the faceless camp pointed at Suhabi with a knife.

Suharbi said sarcastically: “You are stigmatizing, I am loyal to death.”

The faceless furiously said: “Damn liar, I will prove to the **** of death that you are the biggest traitor, the first echelon attack.”

“Wowa ~~!”

In the middle, countless faceless people rushed towards the city gate, and the number was no longer available. There were 50,000 or 30,000 or 40,000.

Su Habi and the defensive Crudo demon on the city wall stared nervously at the enemies who rushed. Many people looked at Lu Yang’s position, because Lu Yang must be the first to stand in the middle of the gate. Was killed.

100 metres

90 meters

80 meters

...

50 meters

Lu Yang still didn’t act, which made Su Habi and a group of Crudo demons think that Lu Yang had been frightened. Su Habi didn’t even shout about Lu Yang’s thoughts and shouted, “All prepare.”

As soon as the words fell, Lu Yang’s mouth, standing 30 meters in front of the city gate, said a spell.

“Summon avatar”

Three rays of light shone behind him at the same time. On the left was the second clone water mage, on the right was the third clone wind mage, and behind him was the fourth clone. There was no class 0 trumpet.

The three mages spoke the spell almost simultaneously.

“Fire Spell-Fire Dragon”

“Water Spells-Drunk Clouds”

“Wind Master-Storm Wind Curse”

The system prompts: The hybrid spell is released successfully!

“Mixed Spells-Fire and Wine Storm”

The centered Lu Yang’s right-hand staff pointed forward, a huge fire faucet that was 90 meters wide and 450 meters long roared forward and bumped into the faceless person who rushed forward.

“27129388”

“28394846”

“27049568”

...

Countless more than 20 million injuries emerged from the head of the strange group, and for a moment, all faceless people in the 450-meter-long area in front of Lu Yang died.

System prompt: you get 370,000 experience points

You gain 10 reputation with Crudo Corner Magic

...

Countless reminders flew in Lu Yang's current window, and Lu Yang didn't know how many faceless people he had killed only knew that the fourth avatar behind him changed from 0 level trumpet to 52 level small.

"Yes, it is good to gain both reputation and experience." Lu Yang said with satisfaction.

He looked back at the stunned Suhabi and said, "Remember what I said. No offense is allowed from 30 meters away."

Suhabi screamed excitedly, and all the crooked corner demon screamed in excitement, all shouting for Lu Yang's drums.

Lu Yang was very satisfied with this scene, and looked back at the head of the faceless man on the opposite side and exclaimed, "Come on, there is no one to die."

"Asshole, kill him, come together and kill me." The faceless leader was provoked and ordered more people to participate in the attack.

Lu Yang was very satisfied with the offensive speed of the people. With a distance of 450 meters, they ran for 15 seconds, which was just the time when Lu Yang's cooling was over.

"Fire and Wine Storm"

Lu Yang spit again, another faceless person fell to the ground!

Chapter 1445 - Top quality antiques

Numerous experiences were skipped in Lu Yang's window bar. The trumpet rose to level 69 in an instant, and four bodies flashed at the same time. His reputation in the crooked corner magic camp reached respect.

"Dear Lord Lu Yang, you are the hero of Crudo." Countless demon horns shouted at the same time.

Lu Yang turned back and yelled at his right hand with a strong fist. This is the respect for the corner devil to respect him after reaching the respect. Although he doesn't know what it is for, it looks pretty cool.

"The third enemy is coming." Suhabi shouted.

Lu Yang turned around and looked at the strange group. The third group of faceless people had begun to charge. He thought about it. The total amount of blood in the enemy could not be so small. If the enemy's blood in the back was large, he would be in trouble. You also need to use special skills. In this case, it is better to cover the ground with lava.

"Lava Eruption"

"Lava Eruption"

...

Lu Yang was idle and bored, and began to release lava to the ground. A diameter of 30 yards hit 6 waves of monsters in a row, and he covered the lava within 100 meters in front of him.

“Boss, I want to identify again, there is a reminder.” Xue Yiming sent a message.

Lu Yang spit out a fire and wine storm, killed the 11th wave of monsters, and continued laying lava. He said, “Open me a video sharing, let me identify.”

“Good grin.” Xue Yiming has arrived at L’Esfer’s shop and chatted with L’Esfer for a while. When L’Esfer was almost unhappy, he sent a message to Lu Yang. He sat in the warehouse and told the new Typed antiques continue to be identified.

Lu Yang helped the appraisal, and continued to fight monsters on the other side. There was no delay on both sides. When it was noon, Lu Yang did not go offline, and continued to brush.

Originally, he thought that this morning’s attack by the faceless man should have ended in the morning, but seeing that the number of enemies was still half, at least it would last until night.

He wasn’t in a hurry, just spent it, waiting for the other party to identify a number of valuable antiques, even he was a bit distressed, but he still helped the thorn bird organization to identify.

Bronze Blood Devil

Grade: Level 1

Description: Put him in the backpack, you can add 2 million points of blood, Note: There can be no more than 2 pieces in the backpack.

Bronze Dragonscale

Grade: Level 1

Description: Put him in the backpack, you can add an additional 200,000 points of physical defense.
Note: There can be no more than 2 pieces in the backpack.

Bronze Dagger

Grade: Level 1

Description: Putting him in a backpack can increase the physical attack power by 200,000 points. Note: There can be no more than 2 pieces in the backpack.

...

Rousseff overjoyed and said, "Brother, you are really our blessing. Even if you sell these 500 gold coins, some people will buy them. You are really willing to identify us."

All of them are top-level babies with increased attack and damage in Level 1 antiques, many of which are added blood and double defense.

At present, only antiques can be produced, and the level of all players cannot rise to more than 170. In this case, the only thing that can increase blood and equipment is antiques, and global competition is imminent. Babies that improve the survivability and killing ability of the arena are extra valuable, and there are countless people willing to spend money to buy them.

Xue Yiming can know the value of these equipments even if he does n't understand the game and see Lercerfer 's expression. He smiled and said, "Since I have agreed with you, I will not do wicked things. You think I will tell you that it is fake, Then I'll find someone in private to buy it. I won't do that kind of thing. "

Russell felt that he was really making a profit this time and said, "You continue to appraise, I still have something to do."

He immediately contacted the White Devil and said, "Boss, there is a nice brother. Can you join our formal organization?"

The White Devil was interested and asked, "Who makes you so happy."

"The antique appraiser I recruited is really interesting. I successively identified five antiques worth more than 500 gold coins. I sent someone to privately talk to other players who bought things here, and confirmed him. No one was missed, nor were we deliberately pitted us. "

The White Devil laughed and said, "This is a good person. Check his identity. If you are sure there are no problems, you can introduce them to the outside world. Our industry is very large and requires a lot of help. If you can get one more, you can do more. Important things. "

"I think so too," said Rousseff.

He hung up the intercom, looked at Xue Yiming who was appraising, and said, "Man, where is your family?"

Xue Yiming and Lu Yang have already compiled a set of speeches, including his identity. In the design of the two, Xue Yiming's identity is a descendant of a Chinese businessman who lives in Italy. During the financial turmoil, their family in a wave it went bankrupt.

He drowned in the game every day, until the antique business appeared, he didn't find a way to make money, and it is only today.

"How about the two of us meeting each other in reality?"

"Of course you can. What about tomorrow? I can't do it tonight. I'm going to date my favorite Monica. He knows I'm rich again, and I want to draw an eye." Xue Yiming said proudly.

Lusefer Haha laughed and said, "Good idea, then I won't disturb your interest today. I just need to fly, so we will meet tomorrow."

"No problem." Xue Yiming hung up the phone and immediately sent a message to Lu Yang. "I must leave tonight and prepare a woman named Monica for me."

Lu Yang said with a smile: "Of course, no problem. You will have a chic but dilapidated house in Rome. You will also have a snobbish girlfriend who sees money and opens his eyes. He is a netizen and lives at a distance of 5 kilometers from you. Outside, you always like to go while her parents are away. "

Xue Yiming lamented Lu Yang's ability is too scary, even such a thing can be prepared in such a short time.

Where did he know that with Lu Yang's money offensive, Qing Qianmeng's internet celebrity had penetrated widely in Europe, and it was still easy to find a loyal girl or two. As for forgery, only a call by Song Sisi was needed.

A set of information is completely arranged, but 20 minutes, Lu Yang continued to fight monsters, and sure enough, as Lu Yang thought, monsters began to appear with more than 20 million blood.

Faceless Elite Warrior

Level: 170

Qi and blood: 27000000/27000000

Some of Luyang's fire wine can be sprayed to death, and some can't be sprayed, but the unsprayed ones also have less than 2 million blood, and they died when they entered the lava eruption.

After playing for one afternoon in a row, at night, the attack was finally over. Lu Yang's experience also reached 92% at 164 level, which is 8% less than the experience to be upgraded. His reputation in the crooked corner magic camp is also Respected 47%.

Chapter 1446 - Faceless Lord

Lu Yang breathed a sigh of relief. He was really tired after playing for a day, but he was very satisfied with the speed of his experience. According to this speed, when the global competition started at the end of the month, his level was around 170.

“Damn man, you dare to destroy all my faceless legion, I will definitely avenge you, you remember it to me.” The faceless lord jumped up violently, pointing at the Landing Roar.

Suhabi suddenly appeared next to Lu Yang, frowning frowningly, “Be careful, the Lord of the Faceless is very strong. Even if he is alone, we have to pay a heavy price to eliminate him.”

If this is the first time the player has played this story, he will definitely follow the advice of Suhabi and become cautious, but Lu Yang knows that the faceless lord is a rookie coward, and his next action is to run away.

If you missed it, next time you want to kill him, you will have to find him in his area. It is a complex castle, very troublesome, and the explosions are random. If you kill him now, you will be 100% explosive. Unearthed special spells, he is sure to get the faceless Lord.

“Destroy Heavy Artillery”

Lu Yang’s staff pointed at the ground under the faceless person’s feet, and a ray of light shot from the front end of the staff. At that time, a taupe glow emerged from the feet of the Faceless Lord.

“I’ll be back tomorrow.” The Faceless Lord yelled sharply and slammed down into the ground.

The ground speed is very fast, only 1 second can get into the ground, but when the faceless lord ground down to the next head alone.

“boom”

The Destruction Heavy Artillery carried a ray of light in the center of the bull's eye, and a stun symbol appeared on the faceless head, but only 0.5 seconds.

This is enough!

At the moment when the heavy artillery was destroyed, Lu Yang's body glowed a reddish light.

“Remnant Flame-Activated”

A red light followed the destruction of the artillery and came to the faceless person. With a bang, Lu Yang appeared in front of the faceless person.

“Fire Anger Skill-Devil Slash”

A fiery blaze of light draws a perfect half-moon from the bottom up. At the same time, the faceless lord's body is picked up into the air with the half-moon. At the same time, the faceless lord's health is displayed.

Faceless Lord Borjak (Lord Level)

Level: 170

Qi and blood: 4313840000/4313840000

The faceless lord just now is in the story mode. Although attacked, he will not lose blood! Now, it is considered a formal attack mode.

However, once the faceless lord landed, he still chose to run away. When he merged into the ground, he triggered the non-attack mode again, that is, once he landed, he would recover full blood.

To kill him, Lu Yang needed to prevent the Lord of the Faceless from landing. Since the last battle, he found that his reaction speed was a few tenths of a second faster than before. He was confident that he could kill the Lord without landing. he.

“flicker”

Lu Yang instantly jumped to the place where the faceless lord landed 20 meters behind him. While he was still falling from the air, he spelled out in his mouth.

“Yanyang mask”

A red gold mask enveloped him all at the same time, and the Faceless Lord was about to land.

“Earth to Earth”

Lu Yang struck the staff with his right hand to the ground, and a sky-fire flame erupted from the faceless Lord’s landing position, pushing him into the sky, flying backwards a distance of 10 meters.

“Blazing Heart”

“Pyroblast”

“Pyroblast”

Three spells were played in succession, and the faceless lord flew a distance of 5 meters.

“Remnant Flame-Activated”

Lu Yang appeared momentarily behind the faceless lord’s landing, with a spell in his mouth.

“Polynuclear explosion”

A fierce fire burst out from Lu Yang’s body. The Lord of the Faceless Person was just in front of Lu Yang’s oblique position. Pushed by this force, the Lord of Faceless Person flew forward for 20 meters.

“Pyroblast”

...

After 4 consecutive blasts, Lu Yang flew back a distance of 10 meters, and read the spell in his mouth.

“Earth to Earth”

The lord blame jumped back another 10 meters, and Lu Yang saw his anger value reached the full value again, he no longer hesitated.

“Hot Boxing”

Lu Yang appeared in front of the lord monster with a blaze of fire. He grabbed the lord monster’s legs. Even if the lord monster was 5 meters high, it still triggered the hot boxing special effect, and charged the lord monster with a fierce charge back 50 meters away.

“boom”

The Lord Monster was hit hard by Lu Yang on the wall next to the crooked corner of the Devil’s Gate. The Lord Monster was slammed and leap over Lu Yang’s body, and fell back 10 meters away.

“Escape The Dagger”

Lu Yang jumped to a distance of 55 meters behind him and read the spell in his mouth.

“Earth to Earth”

The third flame blasted the Faceless Lord into the sky again, and the landing site happened to be the wall location. Lu Yang was waiting for this location.

“Lava Eruption”

A piece of lava appeared in front of the wall.

“Remnant Flame-Activated”

Lu Yang appeared instantaneously 1 meter in front of the faceless Lord’s landing site, and at the same time, the Lord’s feet were about to land.

“Fire Anger Skills-Flame Overkill”

Lu Yang’s body burned with a crimson eggshell, and four imaginary shadows like him spun around him in madness. Each emptiness hit the faceless lord and backed away, but behind him was the wall. Unable to act, the Lord of the Faceless was thus controlled by Lu Yang in front of the wall.

It takes 2 squares of anger to release Fire Blaze, and the duration is 10 seconds. Lava eruption and the sunshade both cause 1 damage in 1 second. Combined it is 20 damage, which is 20 anger.

In a rogue way, Lu Yang released the flames indefinitely to kill the faceless lord. In less than 10 minutes, the flame lord had super high health and was still killed by Lu Yang. A silver book page , And a golden villain fell out at the same time.

The system prompts: You killed the Faceless Lord You and the Crudo Corner Devil defeated the Faceless Legion together.

With this hint, the monsters that appear tomorrow are not faceless. Although the reputation is not full, it is enough to get the skill book in advance.

He picked up the silver pages.

The Earth Crash

Type: Earth Spell

Cost: 10,000 magic

Distance: 100 yards

Description: Deals 60% of magic damage to targets within 100 yards, causing stun for 1 second.

Taking this skill out alone is of no use. Any soil-level high-level bloodline level 3 or higher player has a skill that has multiple times the damage of "Earth Crack", but this skill and the fire skill "Eight Wildfire" The wind spell "Concussion Storm" combined together is the famous mixed spell-Fire and Earth Storm.

Chapter 1447 - Deep sea magic fish

As for how the "Eight Wildfires" and "Concussion Storm" were obtained, they were hidden in the hands of the crooked devil King Suhabi. As for how to obtain them, his reputation has reached the respect and he can start the follow-up mission.

"Drink ~!"

“Drink ~!”

...

Listening to the sound of drinking behind him, Lu Yang turned around and came in front of Suhabi on the city wall, saying, “Fortunately, I have destroyed all the enemies.”

Suhabi grabbed Luyang’s shoulders with excited hands and said excitedly, “Your strength has been recognized by me. Now, my race can obtain temporary peace, and we will return to the castle.”

He turned back and said to everyone, “Throw the enemy’s body into the sacrifice pit, and worship our gods.”

“Drink ~!” A large number of crooked corner demon walked out of the door, picked up a corpse and walked towards the altar.

Lu Yang returned to his splendid castle with Suhabi. When Suhabi sat on the throne, his face showed sadness, and said, “Although we won the battle, my people are very lacking. Grain, if there is enough food, we crudhorns can multiply quickly. “

“What food do you need?” Lu Yang asked.

Suhabi said: “Deep sea magic fish, if you can help me find it, I will give you a generous reward.”

The system prompts: Do you accept Suhabi’s deep sea magic fish capture mission?

Lu Yang chose to say, “Of course you can.”

This is a super rich experience, and the items given are also super rich, a task he will never forget in his life.

Suhabi looked surprised, saying, "The location of the deep sea magic fish is not easy to find, and we don't know where, I hope you can find it."

After speaking, Su Habi stopped talking about Lu Yang and began to discuss the post-war affairs with the ministers around him.

Lu Yang knew that the task had been completed and Suhabi would no longer take care of himself. He turned and walked to the side hall of the castle. In a garden, he found the elder of the crooked corner devil-Billy.

"It's Lu Yang warrior, what do you want me to do?" Billy asked with a cane and smiled.

Lu Yang also asked with a smile: "Do you have a lot of equipment for fish and fishing here? I need to catch deep-sea magic fish."

Surprised in Billy's eyes, he smiled and said, "You've found the right person. I do have two things here. When I was young, I used them to fish. But now I am old and the place to fish. It's too dangerous and I've never been there again. Since you are going, I will lend you these two things temporarily. "

A dark blue fishing net and a jar appeared in front of Lu Yang.

System prompt: You got Siren's fishing net

System prompt: You got the Crudo's pot

Siren Silk Fishing Net

Type: Special Items

Distance: 30 yards

Consumption: None

Description: The fishing net made of Siren's hair is extremely tough!

Crudo's Pot

Type: Special Items

Distance: 0

Consumption: None

Description: The ancient treasures of the Crude Crooked Demon Family can hold 99,999 fish.

Lu Yang felt a sigh of relief secretly. As expected, he put two treasures in his backpack, put on a flying carpet, and flew towards the west.

The area where the Crudo Bend Demon lives is near the sea on the west side, not far away, and can be reached in half an hour's flight time. As for the area where the magic fish is, you need to explore by yourself.

In the last life, many players did not take the magic fish mission seriously. Most people sought to upgrade and fight equipment. Even if they got this mission, they ignored it.

Until there is a level 170 life player, his goal is to catch and change every kind of fish in the New World for cooking, so he embarked on the journey to find the magic fish.

As the name suggests, the deep-sea magic fish must be in the deep sea, but as far as the fish hides, this player even swims to the point of exhaustion and has not found it, but he does not give up, searches many times, and finally, in the ocean The deepest part of the road was found only after passing 12 hours and passing 7 sea islands in a row.

You know, after entering the deep sea, you can't open the map, and there is no coordinate display. Even Lu Yang, as long as you fly into the sea for half an hour, the land is not visible. It can be imagined that the player was looking for the deep sea magic fish. How much effort was spent.

Lu Yang knew the location of the deep-sea magic fish. It was also because the mission became too famous. The mission gave him so much experience. He ran back and forth countless times to do this mission. Now let him go again. He still remembers, more Besides, he is not swimming, but flying, it is easier to find the island.

As for the search method, during the day, you can see where the sun is every hour, and at night, you can see the direction of some stars, which are all discovered by that player.

An hour and a half later, Lu Yang found the first island, took a short rest, rested his flight fatigue, and continued his flight.

After another hour, he found a second island and continued to rest for an hour. Each island was very small. If it was a high tide, you could only see a small crescent-shaped beach. If it was foggy, Lu Yang could only wait for the fog to disperse. Fortunately, luck was good, and there was no fog along the way and no high tide.

...

Six hours later, Lu Yang found the seventh island, and he landed on the beach of the island.

The system prompts: You have found an unknown island!

These islands have no name, but there is only such a small island around here, and it looks exactly the same as when he came in the last life, he confirmed that it is here.

The island is not large, only the size of a football field, there are no monsters on it, there is only a coconut forest.

Lu Yang took a break in situ, and when the fatigue mode was gone, he went through the coconut forest to the west side of the island. On a black rocky cliff he took out the goblin robot and started to build the sentry tower.

When the sentry tower was built, he looked at the water below. Countless black magic fish were tumbling on the water. He took out his fishing net and threw it towards the water.

The fishing net opened with a diameter of 30 yards. Just after it fell into the water, a large number of deep-sea magic fish were trapped in the fishing net. He fished hard.

System prompt: You have captured 112 deep sea magic fish

Lu Yang lifted the fishing net up, opened the magic pot, the light flashed, and all 112 deep-sea magic fish entered the magic pot.

He went off the net again.

“Ding”

A pleasant and crisp voice made Lu Yang’s eyes bright. He looked at the fishing net, and three red deep-sea magic fishes were caught in.

System prompt: You have caught 3 red devil fish

System prompt: You have caught 79 deep sea magic fish

Chapter 1448 - Ming city opens

The experience of a deep-sea magic fish is 1,000 points, and the experience of a red-magic fish is twice that of an ordinary deep-sea magic fish. The quantity is scarce, but it is not difficult to obtain. It only takes a few seconds to go off the net at a time. Already.

The main thing is not the red magic fish. There is also the color magic fish. This is the most valuable. Lu Yang went on four nets in succession and successfully caught 1 color magic fish. Each experience is 200 times that of ordinary magic fish. This is the most valuable!

Lu Yang looked at the time. It was almost early in the morning, he quit the game, went back to the room and fell asleep, and waited until 10 am the next day, he woke up.

“Dididi”

Lu Yang’s phone rang. He pressed the connect button and asked, “Who?”

Tu Feng said excitedly: “Look at Ming City, there are too many people, at least one tenth of the players in the game are here.”

“Wait at the entrance of the market.” Lu Yang turned off the phone, logged in to the game, and the light flashed. He appeared in the hotel in Tianyu Shencheng, put on a flying carpet, and he flew straight to a plain outside the east gate of Tianyu Shencheng. Here is the location he specified.

Tu Feng and Qing Qian Zimeng were waiting at the entrance. When they saw Lu Yang coming, the two greeted him.

Lu Yang dropped the flying carpet and looked surprised at the crowds in front of him. He said, “When I was watching in the sky just now, why are there so many people?”

Tu Feng said: “A large number of merchants and players have come to join in the fun, and the market is twice as large.”

Lu Yang nodded. No wonder so many people. From the sky just now, I feel that there are more people than there are in the Celestial City, just like a small city.

Qing Qian Zimeng said: “Many of our players are doing business. Let’s go and see?”

Lu Yang nodded eagerly, and he also wondered if this market would allow his players to make money.

Different from the previous era of the great continent of the old continent, at that time he did not need to go to conquer one by one, as long as the place where the ship can sail, he just took people to grab it, but the new continent is different. You must first clear the enemies around you, otherwise how he beats Liu Jie will be chilly behind him.

Once he attacks Liu Jie with all his strength, whoever pits him secretly, he may be all over. Moreover, the New World does not have a fixed main city. If he does not occupy this area and rules them, they can still do covert destruction.

It was a last resort that he stopped the big voyage mode and changed it to one by one now, using the fortress to support players in other countries and earn money through trade, but this mode was too slow.

He is struggling to make money, and his players are even less able to make money. After many battles, he can only use the accumulation method to let players sell their previous income in such a place to exchange money. He feels right in his heart. Brothers who couldn't hold their hands, after all, fought so many big battles with him.

"Boss, you're here." Flame Knife rushed to Landing Yang and beckoned not far.

Lu Yang smiled, walked in front of him, looked at the booth and said, "Your boy is also selling things. How is the business?"

Flame Knife said with a smile: "It's good, things are almost sold, I'm in the top position, and my business is the best. This time I have more than 150,000 income, which is a big profit."

Lu Yang nodded with satisfaction. The flame knife belongs to the top management. He can make so much money, and there will not be too few players below him.

He walked into the market. The distance between the left and right stalls is about 10 meters, which is enough to accommodate 20 players walking side by side. The players here are still reliable. Everyone

knows that there is no PK here, only negotiation, and no appearance Bringing pets across the city and blocking others' roads.

Lu Yang walked around, and it was time for the afternoon, during which he asked many players of the Jagged Brothers League that the average player's income was in the range of 20,000 to 30,000.

"It's a small harvest, at least for the brothers to have a fat year." Lu Yang said.

Tu Feng said: "This is very good. If there is another war in two months, the brothers can make one more time."

Lu Yang nodded in agreement. Now there are two enemies in front of him, one is He Peng, who occupied the area he evacuated, and the other is the Group of Eight.

"Dididi"

Zhuoshu called and Lu Yang pressed the connect button and asked, "What's the matter?"

"Boss, it's time for you to let me inform you," said Zhujiu.

Lu Yang patted his head and forgot about the military school class, saying, "I'll go there."

He used the remote listening mode, and the school also made an exception to allow him to listen like this. There was no way. His men were gone. He had to look at the guild.

Lu Yang asked Tu Feng and Qing Qian Zimeng to stare at the intelligence business of the market. He flew back to the unknown island to continue fishing with a teleportation scepter, and at the same time he opened a video of the military academy.

In the picture, a middle-aged man with two bars and four stars just entered the classroom. Lu Yang didn't know who he was, he listened carefully.

When he heard that he had caught 990,000 fish in his magic pot in the afternoon, Lu Yang took out the teleport token, flew to the gate of the magic city corner of Crudo, walked in, came to the palace, and put the magic pot. He handed it to Suhabi and said, "This is the fish I caught."

Suhabi looked surprised, saying, "So much! This is my reward for you."

System prompt: you get 3.3 billion experience points!

A golden light flashed, Lu Yang's level rose to 165, and at the same time his reputation increased a lot. He took the magic pot back and said, "Is there anything happening these days?"

One day in reality is three days in the game.

Suhabi frowned and said, "The news of the death of the Faceless Lord has spread. Some of his friends want to get revenge on me. They are expected to arrive three days later. They are very powerful. I don't know if I can resist."

Lu Yang calculated the time which is equivalent to a one-day relaxation period, which is enough for him to increase his popularity to worship to purchase the "Eight Wildfires" skill book.

He took out his teleportation scepter, flew to the unknown island, and continued fishing. The continued fishing time was long enough to catch more and more colorful magic fish, so that he gained more experience.

The time here is in the afternoon, and it's just noon in Italy. Xue Yiming's phone call came in.

"Boss, our friend has arrived at the door. Would you like to see my performance?" Xue Yiming asked.

Lu Yang's catching fish was boring. He smiled and said, "The performance is good and it doesn't look good."

"You don't know if you can't see it!" Xue Yiming said with a smile.

Lu Yang said, "Let me see."

"No problem, black and white students, please open a video." Xue Yiming said.

The black-and-white voice came from not far away, laughing and cursing: "Just do it."

Chapter 1449 - Secondary antique

A video call application appeared in a pop-up window in the lower right corner of Lu Yang. When he pressed the consent button, a black and white face appeared instantly.

"Uh, boss, you see." Black and white pointed his phone lens at the door.

From the perspective of Lu Yang, the location hidden in black and white is opposite the house of Xue Yiming. This is a villa area on the outskirts of Rome. This was specifically bought by him for Xue Yiming. Exposure appeared in the fall.

At the door of the room, Xue Yiming came out with a smile, and behind him was a woman wrapped in a pyjamas. Even in winter, when the temperature was only 8 degrees below zero, the woman still ignored the cold and grabbed Xue Yiming's arm and covered his face Crying.

"Dear, you can't leave me, you love me, right, we are not over yet, we still have a future." Angelina said with a plea.

Xue Yiming pushed away the woman's arm as she walked. Haha laughed and watched Lercefer and the other two men who came to her, saying, "Welcome."

LeSeph and the two men looked at Xue Yiming and the woman in surprise, and LeSeph asked: "What is it?"

Xue Yiming looked at the woman who rushed up with a smile, and said disgustingly, "Take off your arm, didn't you see that I was talking to someone? Stand aside!"

Angelina didn't dare to speak, and she stood beside her, looking down at the ground with an uneasy head, her hands unconsciously in front of her, and the chest of the pyjamas had a black, oil paint eye.

Le Sever understands instantly, haha, smiling at Xue Yiming's shoulder, thumbs up and said: "Good job, I admire you so much."

Xue Yiming also laughed, and the two crossed each other into the room.

Lu Yang shook his head with a smile. This Xue Yiming was indeed lacking in morality, but a fatal move caught the heart of Le Sever, and it seemed that there was no problem.

He continued fishing and waited for four hours. Xue Yiming called back and said with a sigh of relief: "It's all done, Lusefer completely believed in me, now it depends on my antique appreciation ability, and they let me go online to help tomorrow. Identification of antiques. "

Lu Yang said: "It is best to identify a few more valuable antiques, put your name out, and then disclose your news, so that several other companies can give higher contracts to persecute the thorn bird organization. The executives are looking for you. "

Xue Yiming said: "The hero sees the same thing, and Le Sever told me that there is a batch of antiques of higher grade, and asked me if I would appraise them. I didn't dare to say everything, but just tried my best."

Lu Yang said, "Just let them bring it tomorrow."

Xue Yiming lay comfortably in bed and said, "It's enough for you!"

Lu Yang hung up the phone with a smile. As long as it is not a special antique above level 3, he can basically identify it. Level 2 is not difficult for him, but at this stage, it is immediately a global competition. Level 2 antique The value is even more immeasurable, and it is very difficult to obtain a

second-class antique, and the authentic product is even more rare. Once the identification is successful, it can be imagined that the thorn bird organization will pay more attention to Xue Yiming.

He quit the game and fell asleep, waiting until the early morning of the next day, Lu Yang continued fishing, and at about 3 pm, Xue Yiming sent a video sharing application.

In the picture, Xue Yiming shows silver antiques. Although the staff made of magic silver metal is only one foot in size, it is exquisitely beautiful.

Rousseff's voice came, and he said in pain: "Brother, you must carefully evaluate, this thing is too expensive."

Xue Yiming frowned and looked at Le Sever, and said, "Shut up, don't disturb me, don't I know it is precious? The appraisal fee is 300 gold coins."

For a Grade 2 antique, nearly 100,000 credits are required, but once this thing is verified, it is worth at least 500,000 credits.

Rousseff shut up quickly, and even a woman beside him wanted to speak was stopped by Rsever. Several people looked at the antiques in Xue Yiming's hands, and from time to time they glanced at the hundreds of antiques in the same shape.

"Damn official, the cost of each appraisal is so expensive, and so many are produced at one time, who can spend the money for appraisal?" The woman gritted.

Even if the Thorn Bird organization faces hundreds of second-class antiques produced at one time, they dare not identify them all. If only one or two are true, they will lose money.

"Will you ever?" The woman looked at Xue Yiming for 5 minutes, but still had no results, she couldn't help asking.

Xue Yiming didn't know the appraisal at all, but he studied Egyptian antiques for a while, muttered some professional terms in his mouth, looked up at the woman, and said, "Will you come?"

“You?” The woman was anxious.

Rousseff quickly rounded the field and said, “She doesn’t make sense, don’t care about her, go on, go on.”

Xue Yiming looked back at the antique again, and said dejectedly, “To make you so delayed, you have to start over again. Do you know that the identification of this thing is a test of mathematical ability?”

“Mathematics ?!” Both the woman and Lusefer questioned.

Xue Yiming ignored the two and quietly typed and asked, “They are almost impatient.”

Lu Yang said, “This thing is true. Let them identify it.”

Xue Yiming proudly raised his head to look at Le Sever, and said, “Congratulations, this is a genuine product. Let’s identify it.”

“Really?” LeSeph and the woman asked at the same time Of course. Xue Yiming stretched his arms and said, “I haven’t understood what I’ve identified yet. Go ahead and verify what I say and you will know. “

“Let’s go.” Lasseffer excitedly ran to the appraisal center not far away to appraise, a flash of light flashed, Lasseffer Haha said with a laugh: “Authentic product, this is authentic, class 2 antique.”

All the people around looked at L’Esser. Suddenly, L’Esser knew that he had made a mistake, and quickly lowered his head and ran back to the antique shop.

Several antique shops were very close. At the time of Lassefer’s appraisal, people in other shops were also appraising. After seeing this scene, they went back to their own shops and told the boss behind the scenes.

Le Sever also felt that he did something wrong just now, but he was a otaku player, not a spy, how could he pay attention to such details at this time, he did not take it seriously at this time, only thinking of his own The antique shop is about to become famous. When they return to the shop, they excitedly say to the woman and Xue Yiming, "The real thing is really the real thing. It raises 500,000 magic damage, which is 2.5 times higher than that of the first grade. It is mainly worn two. 160 damage can reach 3.5 million, which is too buggy. "

Chapter 1450 - The truth about to surface

The woman said excitedly: "At least 1,500 gold coins can be sold. Continue this way, our army can be formed faster."

Rousseff hit the woman quickly and gave him a hard glance. The woman reacted and shut up immediately.

Le Seph looked at Xue Yiming in shock, and found that Xue Yiming was also watching him. Suddenly, Le Seph looked embarrassed and said with a strong smile: "Haha, brother, your identification technology is great, continue, let's continue. "

Xue Yiming put on an expression that was too lazy to talk with Le Sever, and took an antique and continued to appraise it. At this time, several appraisals were fake by his side.

"It's still a fake." Xue Yiming threw it away and continued to take one. After two consecutive hours, the antiques brought back by Russell and others were identified by him more than half, except for the first one, which were all fakes.

Le Suffer and the women looked at the fakes all over the place for a while, and the real thing was 1500 gold coins. If there was real in it and Xue Yiming didn't identify it, they would lose money.

"Would we like to identify it," the woman asked in a message.

Lusefer frowned and replied: "We can't decide. One is 300 gold coins. There are more than 50 coins in it, which is 15,000 gold coins. Xue Yiming identified ten to exchange them back."

The woman said, "But these fakes he identified are so exquisite, and they are no different from the authentic ones."

Russell was also agitated, saying, "I ask."

He went up to the second floor, found a quiet place and called the White Devil, explained the situation, and asked, "Boss, what now?"

The White Devil also scratched his head for a while, thought about it, and said, "Take these 50 for identification, if we are sure, we will trust Xue Yiming in the future."

Le Sever understands the idea of the White Devil. At present, only Xue Yiming can identify this thing. They cannot find the second one that can be identified and understood. Now there is no way to distrust Xue Yiming. This time it can only be regarded as the final test.

"Okay, I'll go now." Lusefer hung up the phone and returned to the second floor, smiling at Xue Yiming who was appraising, "I'm going out, so I'll take out the fakes."

Xue Yiming didn't raise his head, and waved his hand to signal him to leave without disturbing him. Lusefer didn't want Xue Yiming to see him, gave the woman a look, let him be optimistic about Xue Yiming, and went out with 50 fakes.

At the appraisal center, he handed over the unverified silver antiques to the appraiser.

The system prompts: You have lost 300 coins!

"Sorry, your item is a fake!"

The system prompts: You have lost 300 coins!

"Sorry, your item is a fake!"

...

Five, ten, fifteen, and twenty were counterfeits. At this time, sweat was dripping on Rousseff's face, which had cost 6000 gold coins. It was also a large number when converted into euros. No company can be such a waste of money.

He looked at the remaining 30 in his backpack, still a little worried, and continued to come out for identification.

"Fake!"

"Fake!"

...

From the 21st to the 49th, they were all fakes. At this time, he had completely trusted Xue Yiming, but with the last hint of doubt, he took out the 50th.

"Fake!"

Le Sevre breathed a long sigh of relief and drew a mouth on his own, his heart filled with remorse, but he was a bit lucky because Xue Yiming did not lie to them.

He called the white devil and said, "It's all fake."

The White Devil couldn't help but draw his mouth and said, "It doesn't matter. This proves that Xue Yiming is a trustworthy and ethical person. Let's continue with the identification. There will be another batch of antiques here."

"Sure."

He hung up the phone and returned to the antique shop, and sent a message to the woman who looked at him, explaining the situation just now.

The woman nodded.

Although Xue Yiming did not see the expressions of the two, he guessed that they could guess what they had done just because he doubted him. He sneered and pointed at a silver jewelry next to him: "This is true, take Go and appraise. "

"That's great." Lerceffer was crying with excitement. He spent so much money just now and finally made up for it.

Xue Yiming stretched his waist and said, "I'm tired, I need to rest for a while, and go to bed offline."

"But there are still so many to be identified!" The woman pointed at the remaining 30 or so.

Xu Yiming glanced at her angrily and said, "You treat my eyes as gold and do not need rest."

Women dare not refute.

Xue Yiming went offline directly.

Lusefer sighed and said, "Sure enough, there is a craft that is very good, not like working for us."

The woman took off her kerchief and said depressed, "It's crazy."

"This person is very interesting. Without black, we have a piece of equipment. The boss is willing to trust him more. Maybe in a while, you will replace me as the manager, and he will be the deputy manager. You have to find a way Get along with him. "

The woman sneered and said, "It's not easy for men to get along."

Lusefer smiled helplessly. He felt that Xue Yiming was not such a person. People who had undergone a transformation would not be so passionate about women.

Xue Yiming does not easily fall in love. At this time, he is lying in bed and talking with Lu Yang while looking at antique books.

"I think at night, you can take the next move." Xue Yiming said.

Lu Yang nodded and said, "I'll arrange it."

Three in the afternoon, Italian time.

Xue Yiming went online again, after identifying 30 antiques in succession, it was confirmed that these 30 were counterfeits, but before he rested more, another batch of antiques was sent over.

"Who is your boss, who is so strong, but where is it?" Xue Yiming asked curiously.

Rousseff proudly said, "I'll tell you later, come to work."

"Let me breathe I have just finished the 100 pieces, and dozens of them have come again. I go out for a walk." Xue Yiming said dissatisfied.

But did not wait for Xue Yiming to come to the door, two people came in, headed by a middle-aged European fat man, looked at Xue Yiming with a smile and said: "Brother, would you like to come to my antique shop, I definitely have what you want s things."

Le Sevre's eyes were widening, and he could recognize that the European fat man was the one standing next to him when he identified the real thing in the morning.

"What are you doing here for me?" Russell hurriedly walked to the fat man and asked warily.

The fat man glanced proudly at Leverph and said, "I said how did you identify the antiques. It turned out to be a master hidden, it must be the Huaxia brother."

He reached out and smiled at Xue Yiming, "My name is Francis, an American businessman."

Xue Yiming blinked, he remembered that the person Lu Yang sent over was not an American or a fat man, how could this guy come out, he thought to himself.

Chapter 1451 - 8 Wildfire Skill Book

"Uh, hello." Xue Yiming subconsciously reached out and shook the other side, and asked, "What's the matter?"

"I'll add your friend, let's talk later." Francis took the initiative to add Xue Yiming as a friend, turned away with a smile.

Le Sevre and the woman Francis, who looked at the leaving with gritted teeth, could not do anything, because the two recognized it, this person is a member of the American Black Skull Studio, and the huge black skull ring on his hand was too obvious.

Xue Yiming looked at the two men and found that they didn't tell him anything, so they walked out of the store by themselves and sent a message to Lu Yang at the same time, asking: "A person named Francis wants to add me. Do you know what started?"

Lu Yang was fishing and asked, "Are there any characteristics?"

"There is a huge black skull ring on my hand." Xue Yiming said.

Lu Yang smiled and said, "It looks like I don't need to send someone out. Someone else has noticed your existence. Don't worry, this person belongs to the Black Skull Studio in the United States. By comparison, it looks like you can easily see each other's top management. "

"I see. Now I just need to be better, isn't it?" Xue Yiming asked with a smile.

Lu Yang said, "Yes."

A level 2 antique with 500,000 credits, good luck, the money that can be earned in a day is millions, and the money made in a year can not be counted, any guild or organization will not let go of such talents.

"Then we will perform well." Xue Yiming smiled and sent a video connection with Lu Yang, walking leisurely on the street, and soon, the black skeleton found Xue Yiming.

On the other side.

The reason why Le Sever did not stop Xue Yiming just because he knew that blocking was useless. Since the Black Skull took the initiative to participate, it was not his responsibility to do so. He must call the White Devil.

"What shall we do?" Russell called and asked the White Devil.

The white devil rubbed his forehead and said with a headache, "You are too reckless to do things, and you shouldn't be so happy in the appraisal center."

Russell said, "Sorry, it's my fault. What now?"

"I think about it." The white devil hung up and sighed.

A familiar and charming voice came by her side, and Alice asked, "What happened?"

The White Devil told the story again and said, "I worry that the Black Skull will pay more to **** Xue Yiming."

Alice looked surprised, and said, "Someone really knows antiques. Give them to me, and we must be in this hand."

"You go to him?" The white devil looked unhappy at the game.

Alice snorted and said, "Can you catch him?"

The white devil showed his anger, and he could not have any influence on Xue Yiming, because Xue Yiming is a person who can make money without entering the fighting world. Where fighting is not allowed, he can only use interest to bind each other, but he does not think that you can give more benefits than Black Skull.

With a charming smile on Alice's face, she walked to the white devil and stroked his cheek, and said, "My dear, I won't let him take advantage. I only love you."

Then the white devil showed a relieved expression and said, "Okay, then you go."

Alice smiled gracefully. From the white devil, Xue Yiming's contact information was required, and she called the other party.

"Dididi"

Xue Yiming just ended the conversation with Black Skull and went to the street to receive a friend's application from a stranger. He pressed the consent button and asked: "Are you?"

Alice smiled gracefully and said, "My name is Alice."

"Alice ?!" Xue Yiming and Lu Yang were surprised at the same time.

“Or you can call me the Pink Queen.” Alice thought Xue Yiming didn’t know, and said in a cat-like voice, “Can we meet in reality? You are very curious.”

Xue Yiming had goosebumps all over his body and sent a message to Lu Yang asking: “What to do?”

Lu Yang smiled and said, “Your boy’s peach blossom has arrived. If you meet her, you will have an unexpected gain.”

Xue Yiming blinked, and said brightly on his face, “Okay, now?”

Alice said, “I’m in Rome. How about meeting at 6?”

“Of course, of course.” Xue Yiming said excitedly.

“Then, queen hotel, see you.” Alice hung up the phone smugly.

After Xue Yiming confirmed that the call was hung up, he excitedly said to Lu Yang, “Does this mean that Alice is dating me?”

Lu Yang said with a smile: “Of course, this woman’s nickname is a pink bus. She is dedicated to finding capable people to embrace her. She is extremely beautiful. Most men can’t hold it. You must be careful.”

Xue Yiming laughed proudly and said, “I’ll try this. Don’t worry, I have a wife and daughter, and I won’t be interested in such people.”

Lu Yang nodded and said, “Go check it out, I didn’t expect the White Devil to have a connection with Alice, and tapped for more information from them. I feel there is a big problem behind this scene.”

What I can confirm now is that He Peng Bacheng has a relationship with Alice. If the Thorn Bird Organization is also related to Alice, their target was the eastern mountain area before the contact.

Basically, it is certain that Alice's original purpose was to occupy the eastern mountain area. Use Sanshou to set up a stronger guild organization. High-level elites are members of the Thorn Birds, and ordinary players are Sanshou members.

But now He Peng occupies the area that he evacuated, and the thorn bird has recently made a full effort to make money. Lu Yang feels that there is a bigger conspiracy inside.

Xue Yiming said: "Leave it to me I must understand it."

Lu Yang hung up the communicator and continued fishing. Xue Yiming was there to meet Alice in reality. He could n't help. Only black and white could help. What he could do was to improve his strength as soon as possible. .

From daytime to 2 a.m., Lu Yang handed in the deep-sea magic fish three times, raising his experience to 165 level 33%, and his reputation in the crooked corner magic camp reached reverence.

King Suhabi looked at Lu Yang with reverent eyes, saying, "Heroes of the Crudo tribe, what do I need to do?"

"I want to buy something," Lu Yang said.

A purchase interface appeared in front of Lu Yang. Lu Yang opened the worship prestige purchase interface and bought the skill book "Eight Wildfires."

He closed the interface, put on a flying carpet and left Crudo Castle, flying all the way east, and seeing a distant mountain peak straight into the sky, he flew straight in.

The system prompts: You found a trembling mountain

Chapter 1452 - Hybrid Spell-Fire and Earth Storm

Every non-element mystery in the game contains elements of the various parts of the New World, so that the space of an ordinary mystery can be guaranteed.

The crooked corner magical mystery is just a normal mystery, so there is a wind element in it, just on the top of the mountain.

“Neighing”

A group of humanoid monsters with huge red bat wings flew over 50 meters in front of Lu Yang.

Yafeng Yasha

Level: 170

Qi and blood: 43000000/43000000

At present, there is no air combat, they are almost invincible. Although Lu Yang can kill them, he will also fall into hard battle.

Lu Yang carefully looked to the left and right to confirm that no other Yasha was nearby, and then he continued to fly forward, passing through the clouds, his eyes lit up, and a beautiful mountain peak appeared in front of him.

On the hilltop, a jeweled gold treasure chest was emitting a dazzling light, and he confirmed that this was what he was looking for.

“flicker”

Lu Yang's body turned into a white light and appeared at the top of the mountain instantly, holding the mountain in his left hand, holding the treasure chest in his right hand and choosing to open it.

The treasure chest was not locked, a simple rotary switch would open the treasure chest, and a silver book page inside made Lu Yang look satisfied.

“Concussion Storm”

Type: Wind Spell

Cost: 10,000 magic

Distance: 100 yards

Description: Releases a violent storm that attacks creatures within 100 yards, dealing 100% spell damage and causing a stun effect for 0.1 second on the target.

This skill is one of the strongest wind magics before Wind Magic 2 turns to the bloodline exclusive spell.

Lu Yang put the skill book in his backpack, took out the teleportation scroll and flew back to the crooked corner magic camp, and then entered the demon temple to rest.

At this time it was 10 o'clock in the evening, and he needed to take a rest. As for Xue Yiming, Lu Yang shook his head with a smile and he was afraid that the boy had already entered Wenrou Township.

No words overnight.

Early the next morning, Lu Yang returned to the game. Xue Yiming had not contacted him, and Lu Yang didn't care. There was a 6-hour time difference between Huaxia and Italy. His side was 8 am and there was 2 am.

[World Channel] Everlasting Monarch: Roar ~! Uncle Ben reached level 170, and roared, hahaha ~!

Lu Yang looked at the translated text a bit frowning. This is an American. I haven't seen it on the ranking list before, and it suddenly popped up. It is so popular that it must have other intentions. He is number one in the rankings.

Tu Feng called and said, "This person is the boss of Yongye Studios. He just joined the Tangerlus Guild of Olma yesterday."

[World Channel] The Lord of the Night: This year's individual heads-up title, I announced that he and I must be the Tangerus Guild.

Lu Yang smiled and said, "Here is coming at me."

Tu Feng said: "It is estimated that in the next half month, many people in Yongye Studio will rise to level 170, and they will try their best to find level 170 equipment for King Yongye. , It is not difficult to create a set of 170 dark gold sets for the Lord of the Night. "

General silver and gold can be created, but if you want to participate in the global competition, you must be dark gold or above.

Lu Yang understands that these people are still suppressing themselves, knowing that the Jagged Brothers League has experienced wars, the level photos are on average 3 levels lower than the other largest and strongest guilds, and they use such words to stimulate, just want to see his joke .

"Huh." Lu Yang sneered and said, "Don't worry about them, I will catch up with them soon."

Tu Feng knew Lu Yang's strength and hung up.

Lu Yang came out of the demon temple and returned to the city gate. This morning, it is time for the second wave of demons to attack the crooked corner magic city of Crudo. He needs to come and help.

“咚咚”

“咚咚”

...

The drums of war outside the city can be heard before the door. He quickly flew to the wall and came to Suhabi, asking, “What’s the matter?”

Suhabi frowned, looking out of the city, and said, “I didn’t expect the comer to come, they are strong.”

Lu Yang looked out of the city, with a rhino face, a huge horn on his head, two huge corners on both sides, and a height of more than 3 meters. The muscular black devil was snarling and looking towards the wall.

Vulture

Level: 170

Qi and blood: 40000000/40000000

“Like the last time, let me fight.” Lu Yang said with a smile.

Su Habi looked at Lu Yang in surprise and said, “Our warriors, there are too many enemies, and their vitality is twice as strong as the last faceless person. Don’t be stubborn.”

Lu Yang said: “Trust me, they have no difficulty for me.”

Suhabi was even more surprised, saying, “Well, it’s still the same as last time, as long as they don’t rush to within 30 meters of the city gate, I won’t let my men act.”

Lu Yang nodded, jumped off the city wall, and came to a position 30 meters in front of the city gate.

“Summon avatar”

...

Three consecutive rays of light appeared next to him: the water body, the soil body, and the wind body. He moved his body a bit, and his consciousness shifted back and forth between the three body parts. After making sure that there were no problems, he looked forward.

He is not afraid of these monsters. If I did n't get the three skill books of “Eight Wildfires”, “Concussion Storm” and the previous “Earth Breakdown” last night, today he would destroy the countless vicious devil alone. It is impossible, even if the forbidden spell and the secondary forbidden spell are all used, they cannot be beaten.

It's different now. With these three skill books, you can compose a mixed spell-“Fire and Earth Storm”, with the same power and fire and wine storm.

Fire and Earth Storm

Type: Mixed Spell

Cost: 30000 magic

Distance: 200 yards

Description: Release a super-mixed spell with a diameter of 500 yards, causing 8 times spell damage to targets within range, and stun targets within range for 3 seconds.

Lu Yang now has about 2.6 million French injuries, 8 times the French injuries is more than 20 million, plus more than 20 million fire and wine storm, 40 million blood blame him can be killed with a set of strokes, at the same time, "Fire and Earth Storm" His skill cooldown is also 15 seconds, and he can be quickly released.

"Su ~ ha ~ bi ~! You killed my friend Faceless Lord Borjak. Today, I will make you pay a bitter price, Vicious Legion, attack ~!" Vicious Lord Kang Ruiz said with a large axe pointing at Suharbi.

"Hello ~!"

The first team of 1,800 vignettes rushed towards the gate. Their movement speed was not fast, but the ground shook every step.

Lu Yang watched the enemy rush into the area within 50 meters of him, and the appearance of the 3-meter-high curved corner demon was clearly visible. He could see bloodthirsty and madness from the blood-red eyes of the dark corner demon rushing at the front.

"Fire Spells-Eight Wild Fires"

"Earth Spells-Earth Cracks"

"Wind Spells-Shock Storm"

combination!

"Mixed Spells-Fire and Earth Storm"

The two energies in the hands of the wind mage and the earth mage were gathered on the fire mage of Lu Yang's body. He slanted his right hand forward, and an extremely fiery three-color storm emerged from the tip of the staff. When the three-color storm merged Come together.

For a moment The world seemed to be quiet for a moment. A huge fire storm with a diameter of about 500 meters rose instantly from the ground, and the light from the towering flames turned the whole world into the red color of the flame. .

A large number of numbers rose from the head of the Veil Demon, each of them was hit by more than 20 million injuries, and at the same time a 3 stun symbol was on the head.

In Lu Yang's mouth, the spell continued, and the fire, water and wind systems combined again.

“Mixed Spells-Fire and Wine Storm”

A flame dragon with a width of 90 meters and a length of 450 meters was ejected from the front end of Luyang's staff, and 1,800 vultures were once again annihilated by the flames when the fire ended.

System prompt: You killed the Veil

You get 370,000 experience

...

After a piece of experience came down, Lu Yang's experience slot improved a lot, and several clones also gained a lot of experience value.

Chapter 1453 - Bloodline

It takes 36 billion experience points to upgrade from level 165 to level 166. If there is no accident, he is enough to reach 20% of the experience of level 166 today. The three avatars can improve several levels.

“Hello ~!”

The second wave of monsters arrived, and Lu Yang continued to attack.

“Dididi”

The intercom sounded.

Lu Yang thought it was Xue Yiming’s call, took a look, and found that it was Han Zhong’s call, and asked, “Master, what’s the matter?”

Han Zhong said: “Han Yu, they were sent out by me.”

Lu Yang asked, “What have you done?”

Han Zhong said, “Aren’t you going to set up some hidden affiliated guilds? I sent them all out.”

Upon hearing this, Lu Yang was anxious and said, “Master, they are still young, so tired to do such a thing at such a small age.”

Han Zhong said: “They are not young anymore, they should also exercise. It’s all set. You say to Tu Feng, you can help when appropriate. They have started to attract people.”

Lu Yang scratched his head and said, “Well, I asked Tu Feng to give them financial support, and it would be good if they could exercise a few.”

He knew that Han Zhong wanted to help him. Han Yu’s children have been with him for almost 4 years, just like his brothers and sisters. During this period, Han Zhong had a lot of experience. They were strong in reality and responded quickly in the game. It is also very fast. Even the top 100 players in the world may not be able to win them. It is just as appropriate to let them go out and practice.

“That’s it.” Han Zhong hung up.

After Lu Yang called Tu Feng to explain the situation, he continued to fight against monsters. From day to night, until late at night, Xue Yiming finally went online.

“I wipe it, I’m exhausted.” Xue Yiming complained to Lu Yang by making a video call.

Lu Yang laughed and said, “How come back so long?”

Xue Yiming sighed and said, “I’ll be fine if I can come back. I’ll tell you, this Alice is a stealthy cat. It wasn’t me who made it, it was she who made me. Last night till now If it weren’t for her tiredness, I wouldn’t have come out. “

Lu Yang cursed with a smile: “You have two sons. Generally men are thrown out by that night, uh, you can persist to this day, it is very good.”

Xue Yiming said, “I am super strong. She asked me about the Egyptian cultural relics for a long time. The buddies responded so well. I guess she didn’t know if she had broken her head. That was what I learned by watching TV.”

Lu Yang laughed.

Xue Yiming said proudly: “He still wants to keep me here, but he took a call and said that the White Devil was coming, I had to leave. It seems that the White Devil is more important than me.”

Lu Yang put away a smile and said, “Of course, the White Devil is the boss of Thorn Bird Studio. This studio has at least 1 billion credit points per year, and there are a large number of top masters. Of course, she attaches great importance to it. Come on, what’s the news? “

Xue Yiming nodded and said, “A big news, He Peng is indeed Alice’s men. Not only him, but also seven other scattered groups are all Alice’s men. Now these people are gathering in the area where He Peng is. , Preparing to set up a new guild called the Sanhedrin, and the chairman is Alice. “

Lu Yang sneered and said, "She is not brave enough to dare to create a guild between me and Gelgar, so you are not afraid that I and Gelgar will swallow him first?"

Xue Yiming said: "This is what I will say next. I don't know what Alice thinks. Galga agreed with Alice's request, and Alice is going to form a joint army to launch the Iron Brotherhood after the year. The attack was probably around the Spring Festival. "

Lu Yang frowned, and said, "Did the enemy dare to hit us during the Spring Festival? Is there any water in their heads? It seems that they still want to use our internal staff to bring us down."

Xue Yiming said: "I also analyze this situation, and now I am officially hired as the owner of the antique shop, and can pay 10% of the total annual dividend."

Lu Yang was not surprised, saying, "As expected."

Xue Yiming sighed and said, "Unfortunately, I couldn't ask the White Devil where they played antiques, but they gave me privileges. The antiques will all be shipped to me in the future. I can also go to Alice's warehouse to pick something Counted as Alice's reward to me. "

Lu Yang was interested and said, "Take me to see if I can find anything good."

Alice's warehouse is equal to the warehouse of the Thorn Birds organization. This is not an ordinary place. The warehouse of one of the top studios in this game has absolutely nothing in the Jagged Brothers warehouse.

"No problem." Xue Yiming walked up to Alice hidden in the warehouse of Tianyu Shencheng, opened the warehouse door with a password lock, and a small warehouse appeared in front of him.

The surrounding walls are full of shelves, each of which has six floors, and is filled with a variety of items of level 170 and above.

"I can't see it, Alice is very sincere." Xue Yiming walked to the first shelf with a smile and looked up.

Lu Yang glanced over the items on the shelf and said, "There is nothing worthy for me in the first row. Continue to look at the others."

Xue Yiming walked to the right and asked: "A lot of things are good, gems of level 15 and dark gold equipment of level 170. You don't want to."

Lu Yang smiled and said, "None of these are what I need right now. Keep looking. I need bloodline jewelry."

"There are accessories that can increase blood level?" Xue Yiming was surprised.

Lu Yang said: "In this game, there are nine levels of blood veins, which normally rise to level 200. You can raise the blood vein level to level 5. The other 4 levels of blood veins can be found in the secret area or complete some special tasks. Bloodline equipment, which is an item that does not need to be equipped on the body, can be effective in a backpack. "

"I'll look for it." Xue Yiming opened the list of goods and looked for it, but he could not find it at the bottom. He put the list in front of Lu Yang and said, "It doesn't seem to be here."

Lu Yang glanced around and couldn't find it. He shook his head and said, "It looks like the White Devil hasn't found this kind of thing."

After finishing talking, Lu Yang's eyes swept across the bottom row of the shelf, and a medal-like item was being placed there.

"Bring me the medal below Lu Yang said with excitement.

Xue Yiming picked up the medal on the ground and looked at the attributes.

Strange Medal

Description: No one knows what it does.

“This has no attributes.” Xue Yiming frowned.

Lu Yang laughed and said, “Just choose him and mail it to the bank. I’ll get it.”

“Okay.” Xue Yiming was a little bit puzzled and asked, “What am I going to do next.”

Lu Yang said: “Sleep well and take over Tu Ming to take charge of Ming City when I have time. I can identify antiques at any time.”

“Okay, I’ll find Tu Feng soon.” Xue Yiming said.

Lu Yang hung up the phone and continued to blame. Not long after, a message came from the mail, prompting Xue Yiming to mail the item to the bank.

Chapter 1454 - 4th clone

“Fire and Wine Storm”

Lu Yang quickly killed this wave of monsters and came to Suhabi and said, “You yell at them for a while, and I will be back soon.”

The yelling and cursing mode is equivalent to stopping the mob, Suharbi said: “I can delay their offensive time by up to 30 minutes.”

“Enough is enough.” Lu Yang took out the back to the city scroll and flew back to Tianyu Shencheng. After the bank took out the strange medal, he took him to the blood temple of the avatar.

The blood cloak temple is very magnificent. This is a temple composed of five nine hundred meters high mage towers connected together.

Lu Yang looked up at this temple. There are many stories in this temple. The last generation did not know how many players experienced despair or surprises in this temple. This is a place that completely depends on the player’s own strength to determine his destiny.

Counting from left to right, the eighth-floor spiral staircase of the second shrine has a clergyman in red with hands and feet shackled.

Even a novice rookie, seeing this person knows that 80% of the red priest has a task, but many people talk to him, and he does not speak.

In the last life, many people posted this to the forum for the secret of the priest, and countless people tried to communicate with the priest for a while. Unfortunately, the priest for everyone who came to him Head down and closed your eyes.

At that time, special NPCs similar to the Red Priest could find several daily. After players could not crack the Red Priest task within a few days, they were attracted by other cracked tasks. So far, the Red Priest The task was shelved to level 200.

The reason why it could be discovered was because a top-level clone master wanted to go up to the 33rd staircase. It happened that he had a strange medal on his body and was suddenly stopped when he passed the Red Priest.

The bloodline player was overjoyed and quickly communicated with the Red Priest. Then he knew the beginning and end of the mission. It turned out to be on this strange medal.

The red priest was originally a faithful believer in the Lord God. During a prayer, he was given a medal by the Lord God to honor him for spreading the glory of God, but that night, the medal was stolen.

The priest was therefore severely punished by the archbishop, and he was put on heavy fetters and handcuffs. When did the priest find the medal, and when did he count to redeem his sin.

For the next hundreds of years, the priest in red was looking for this medal, but he couldn't find it. Later, he lost confidence and thought that this was God's test for him, so he no longer insisted on searching and stayed there every day Mage Taneh repented, but deep down, he still hoped to find the medal.

Lu Yang took the badge to the corner of the 8th floor, and just saw what the priest in red was whispering, as if praying.

Suddenly, the priest in red looked up at Lu Yang, his eyes tightly fixed on the medal in Luyang's hands.

"The Lord God is up. I have no dazzle. This is the medal you gave me. Now he is back?" The priest in red walked quickly to Lu Yang and stared excitedly at the medal.

The system prompts: You have triggered the missing medal mission. Would you like to return the medal to the Red Priest?

Lu Yang chose to put the medal in front of the red priest and said, "Is this your thing, I found it by accident, and if it is yours, I will return it to you."

The priest in red took the medal with excitement, and it flashed a dazzling light. He knelt on the ground and looked out the window, praying sincerely.

"The Lord God is up, you presented me with the medal, and finally came back, I pray for your forgiveness."

His voice came from a distance.

"Brez, a century-long trial has proven your nature. From now on, I will promote you to the archbishop and take charge of this mage tower."

The voice disappeared, a frantic expression appeared in the red priest Blaze's eyes, the light flashed, and the shackles on his body disappeared.

Blaze worshipped the Lord God respectfully again. After standing up, his eyes had become brighter, and the whole person's appearance became different.

"Young man, thank you for helping me complete the test. In order to express my gratitude to you, please subordinate this gift." Blaze returned the medal to Lu Yang.

Medallion of God (avatar)

Level: Artifact

Description: Put him on your chest, your blood rank is +1.

Lu Yang's face showed an excited look. If this item was worn on clothes, he would not even occupy the grid of the backpack. He would wear the medal on the left chest of the clothes.

The system prompts: Your blood level is +1, your blood level reaches level 5, you can summon another clone.

Lu Yang did not hesitate to choose the avatar as the Lei avatar. Naturally, there are only five types of quintiles. He does not choose Lei.

Looking at the 0-level Thunder clone, Lu Yang couldn't help laughing, and an additional blood level added 10,000 attributes. Even for a 0-level Thunder clone, there are 50,000 unadded attribute points in the attribute column.

He didn't hurry up and looked at Blaze and said, "Thank you for your gift."

Blaze's body is gradually becoming a light spot. He told Lu Yang: "If you feel strong enough in the future, you can come to me on the 32nd floor of the mage tower and I will open a test for you."

Lu Yang shook his fist vigorously, and the blood test finally started. When each class reached blood level 5, blood test was opened.

The bloodline profession is not as easy to use as imagined. Lu Yang's use of hybrid blood spells with mixed spells seems arbitrary but this is because he has experience in rebirth.

A novice, not to mention the bloodline of the clone, just to say that the high-level bloodline of the fire department is the level 2 bloodline skill of the angry bloodline. If it is the automatic release, each bloodline skill has a 1 second delay time and a 5 second countdown time. Even if there is a spell acceleration, it takes at least 2 seconds to release one.

If it is manually released, it can be released as fast as 1 second. The 5th-level skill of the Sky of Fury can summon 9 fire dragons to wind around the body. One is automatically released, the other is manually released. The manual release can make the automatic release connected. He couldn't get his hands out and died on the ground.

This is still non-incorporated blood. If the player uses infused blood, and the mixed spell is released by several people, the difficulty will increase several times. The error of the mastering of that time must not exceed 0.3 seconds. Once it is exceeded, the skill cannot be released.

Officials have set up a test mode in order to allow players to become proficient in bloodline skills, while avoiding making them too difficult for the official to blame.

The rewards of the test mode are very generous, including skill books, legendary 170-level cloaks and a lot of gems. Even Lu Yang cannot remain indifferent to the rewards of the test.

There are two conditions for the blood test. The first is blood level to level 5, and the second is that the level of each clone must be greater than 100.

Lu Yang's avatar is only level 0, and can't be tested for the time being. He is not in a hurry, and returns to Crudo's secret place with his avatar, and continues to fight monsters in front of the city wall.

At four in the afternoon, Xue Yiming went online and said, "They urged me to be the boss, and it looks like there are a lot of things to be identified."

Lu Yang looked at the level of the trumpet, and it was level 85. He handed the teleporting scepter to the thunder trumpet and transferred it to the unknown island, letting him go fishing automatically.

"I can come here busy, go." Lu Yang said.

Xue Yiming nodded and walked towards the antique shop after closing the phone. When he was on the road, Xue Yiming was full of thoughts. Lu Yang was really a genius, and a head could be divided into several halves, which he could never do.

The antique shop is not far away, and the masked woman is standing at the door anxiously waiting for Xue Yiming, seeing him coming, with a hint of anger on her face, saying unpleasantly, "Why are you here?"

Xue Yiming walked to the woman and looked down at the woman's blindfolded eyes, jokingly said, "It seems that I am the owner of this antique shop now, right?"

"You!" The woman was anxious and said, "I'm the deputy manager."

"Would you like to listen to me?" Xue Yiming Yuyou asked on the bench in the shop.

The woman wished to kill Xue Yiming, but she still did not dare to disobey the order of the White Devil and gritted her teeth and said, "Yes, I need to listen to you."

“Very good.” Xue Yiming said with a smile: “My first order to you is to take off the silk scarf and let Uncle Ben see your whole picture.”

“You!” The woman was anxious and said, “Asshole.”

Xue Yiming said dumbly: “I am like this, either take it off or get out of it.”

The woman almost cried and was very grieved. She wore a gauze because she didn’t want others to see her in the game. As an ancient noble descendant, although the family was down, she received education and made money by playing games. It is a pitiful and shameful thing for the aristocracy.

“Don’t you hear what I said?” Xue Yiming continued to force: “Either take it off or get out of the way, I don’t want to keep my head out.”

The woman glared at Xue Yiming, with murderous roar in her eyes, and finally took off the silk scarf covering the lower half of her face with her hands, revealing her beautiful face.

“I will wipe it.” Xue Yiming opened his eyes hard. He just persecuted the woman just now, on the one hand to allow time to connect with Lu Yang, on the other hand, to let the people in the store divert their attention, so as to avoid unnecessary Trouble, I did not expect to see a beautiful woman.

“Why did I get married so early? This woman is not under Alice.” Xue Yiming typed and said to Lu Yang.

Lu Yang had already connected to Xue Yiming’s perspective at this time, and also saw the woman’s appearance, and sighed, this was not one of the most famous European beauties in the last life, and was called a black widow.

A trembling in his mind, combined with all the previous clues, he finally understood it. In the last life, the black widow occupied a large area in the 200-level map, and evolved with several other scattered groups of the same level. The guild formed a strong alliance, and many people did not understand the relationship between them. Now it seems that these are the ghosts behind Alice and the White Devil.

However, now that he has discovered it, he will definitely not allow Alice and the White Devil to succeed. He needs to think about how to crack Alice's trick.

Of course, you must save Xue Yiming, the second good, and he said, "Excuse you, don't be too close to her. This woman is sick and likes to torture people."

"Uh ..." Xue Yiming typed and asked, "What's the situation, such a beautiful woman likes torture?"

Lu Yang said with a smile: "I know this woman and the descendants of the downcast aristocracy. There is something wrong in my heart. I like to see the pain of others. I don't care about her, otherwise you won't be able to stop in this life."

The biggest feature of Xue Yiming is to listen to people's persuasion. He watched the woman change her face instantly, and said "sincerely": "You are so beautiful, put it on quickly, I will be satisfied at a glance, put it on ~! No! Let others see your beauty and I will be jealous. "

A woman is hating Xue Yiming. When she heard these words, she was inexplicably sweet and said, "You know what you know." Lengheng put on a black gauze and ignored Xue Yiming.

Xue Yiming looked around and several shop assistants showed strange eyes. He smiled and said, "Work, let's work, give me the antiques."

A total of three shop assistants sent the antiques in front of Xue Yiming in batches, and he took the pretend appraisal.

Lu Yang looked at the mountains of antiques piled up again, and he felt very deeply. Without this two-month war, he would now take a lot of antiques with him every day. Why sit here and watch the antiques of others? Dazed.

But this is also good, he also saved the wasteland energy, Xue Yiming tried twice, and Alice gave his life. The white devil will not doubt Xue Yiming anymore. There are really good antiques. He can put them in his own pocket freely. No doubt.

At this stage, antiques are mainly divided into two categories, one is attributed, and the other is the secret category. In these two categories, the real value is the secret category.

As he looked at the antiques, he remembered how to deal with Alice. Last night he thought about it for a long time. Since Alice wanted to attack him during the Spring Festival, he must use his internal players and be used by him. It is likely that there are several small guilds that have recently emerged.

The Brotherhood of Iron Blood blocked the attack of the seven strongest guilds at the Tiger Fortress. Although the Brotherhood of Iron Blood suffered heavy losses, players under his protection did not suffer much.

It seems that many people saw that the Brotherhood of the Iron Blood was in a weak state and had other thoughts in his heart. He sent a message to Tu Feng and said, "Send spies into several recently emerging Chinese guilds."

Tu Feng said: "A total of sixteen newly-raised guilds have been sent in. It is expected that before the New Year, they can climb to the rank of legionnaire. As for their chairman, Qing Qian Zimeng is already infiltrating. Can get detailed information. "

Lu Yang said with satisfaction: "This is a good job."

Tu Feng regretfully said: "Summary of the last lesson, this time I will not repeat it."

With the words of Tu Feng, Lu Yang was relieved and asked, "How are these little guys like Han Feng, Han Sha and Han Yu?"

Tu Feng said, "Do n't look at it, it only took a day, but these kids have made a name for themselves. Few people in the arena are their opponents. They have attracted many people to form a guild. If ten little guys can If it is successful, it will be ten guilds, and I will do my best to help. "

Lu Yang nodded with satisfaction, saying, "Keep watching the trends in all aspects, it's a good job."

He hung up the phone and there were no internal problems. The next problem was the South Korea, India and Nine Star Alliance regions.

In his vision, the South Korean region, the Nine Star Alliance region, and the India region were not used as the main force of the war. His idea was to make money in these regions, and he would use a stable rear source for the Iron Brotherhood. Provide financial support.

It is a pity that although he thinks well here, there are problems in the international situation. The sticks and the bosses of the white elephant family are fanning the flames again.

He called Padu and Li Wenxing and asked, "What's the situation with you two now?"

Parto scratched his head and said, "Boss, it's not a few of us who are not willing to work hard. It's a recent change in the situation and it's difficult for us."

Li Wenxing sighed and said, "I am the same here."

Lu Yang said, "You are not required to be able to organize a war in the near future, but you must ensure that there are no major problems inside and that you can suppress the hostile forces inside."

"This can be done," said Padu, "when we bounce here, they dare not act rashly."

Li Wenxing said: "So here I am, as long as I don't leave, those who want to make trouble don't dare to move."

"That's enough." Lu Yang couldn't be more demanding, so to speak, if there weren't all the envelopments he had before, Padu and Li Wenxing would have taken the lead in rebellion.

Fortunately, the interests of these people are tied to the Brotherhood of Iron and Blood. Under the glory of one glory and the loss of all, they dare not help to block this wave of civil unrest. As for letting them participate in the attack, Lu Yang did not have the idea .

After the level 200, the map will change and what it will look like in the future. He is not sure. He would rather weaken India and South Korea from now on, rather than put players from the two countries under his protection after level 200. Developed, but turned his finger and attacked him.

Furthermore, it is enough to provide him with a large gold mine in the eastern mountain area he does not care too much about the money provided by those two places.

“If there is something, contact me in time.” Lu Yang said.

Patho and Li Wenxing nodded respectively.

Lu Yang hung up the phone and continued to identify and fight monsters. Although he was multi-purpose, he was used to it. The corner monsters had always been easy to fight. Every wave of monsters was destroyed 30 meters in front of him. The antiques in his hands were also destroyed. More than 30 were identified.

The black widow was standing next to Xue Yiming, her face eased a lot, and she was learning how to identify with Xue Yiming, but Xue Yiming didn't know how to run the train with his mouth full.

Lu Yang shook his head with a smile. It is estimated that Xue Yiming was still surprised by the appearance of the black widow, and he could not slow down for a while. He said, “The next one, this is fake.”

“Fake.” Xue Yiming threw the antique handily, picked up the next one and continued to identify.

Perhaps it was the official that changed the odds. Lu Yang spent more than half a day, even identifying more than 80, and did not identify a secret, only two first-class antiques, the rest are all fakes.

Chapter 1456 - Suhabi advances

He didn't want to stay in the antique shop anymore, explained Xue Yiming a few words, and withdrew from the perspective. It just happened that the monsters in front of him were finished, and there was only one Dark Lord lord monster, Rui Rui, who was preparing to escape.

"Stop him." Suhabi rushed towards the Lord of Dark Angles. In the air, a three-meter-high body suddenly emitted a black light, and five identical Suhabis appeared at the same time.

This is the unique skill of Krudo Bend Demon, which can divide 3 ordinary monsters, damage only 30% of the body, and 5 monsters, the damage is 100%.

Veil Lord Conris had just summoned the magic circle and could escape in another 3 seconds. He saw Suhabi flying towards him with a mocking expression on his face and said: "Stupid waste, you Can't kill me. "

"I'll know it before I try." Crudo pointed at Conrad with a right hand, and a white light appeared on Conrad's body.

"call out"

When the sound appeared, half of Conrus entered the teleportation array, but disappeared from the teleportation array at the same time. At the same time, Crudo and his 4 avatars disappeared in the same place, and Concord appeared at the same time in the company. The middle area of the line position.

"The Fissures of Reality-Cut and Kill"

Five Crudos raised their sledgehammers at the same time and smashed against Conrad's head.

"噔"

Kang Ruisi's blood volume dropped violently, and immediately before Kang Ruisi reacted, Crudo's body left a white light in his left hand.

“Arrow of Chaos Space”

Conruth's head was hit, and he was stunned for 10 seconds.

“Hurry up and kill him.” Suhabi shouted to Lu Yang excitedly.

Lu Yang's eyes lighted, and the mantra was spoken.

“Remnant Flame-Activated”

Lu Yang appeared with a flare behind Kang Ruisi, in a straight line with the direction of the city wall.

“Hot Boxing”

There was a fiery flame from Lu Yang's left hand. He grabbed Kang Ruisi and stormed towards the city wall. After 1 second, he was still 40 meters away from the city wall.

“Boom”, the hot fist triggered, Kang Ruisi backwards a distance of 10 meters.

“Remnant Flame-Activated”

Lu Yang jumped behind Kang Ruisi's landing, and read the spell in his mouth.

“Polynuclear explosion”

A violent fire burst out from Lu Yang's body, and Kang Ruisi was hit 20 meters toward the city wall.

“Destroy Heavy Artillery”

Lu Yang’s right-hand staff pointed at Kang Ruisi, and a red ball full of energy hit him.

With a bang, Kang Ruisi backed up another 10 meters and hit the wall heavily.

“Yanyang mask”

Lu Yang’s body came up with a crimson mask, and his right hand was pointed at the foot of Conrad.

“Lava Eruption”

After all preparations, Lu Yang’s body suddenly burst into a fierce red-red light.

“Angry Skills-Fire Kill”

Four blazing figures exploded and attacked Kang Ruisi madly, and he said to Suhabi, “Don’t use your crack of reality to kill him by normal attack.”

Once Reality Rift is used, it is possible to rescue Conrad from the corner. Suhabi is a smart NPC and said while attacking, “Rest assured, I know how to do it.”

With the help of the Flame Super Kill and the corner, Kang Ruisi can be infinitely controlled. When he woke up, he still couldn’t move, so he was controlled by Lu Yang until he was killed by Suhabi.

The system prompts: You have killed the Dark Lord Lord-Conrad

Lu Yang looked at Kang Ruisi’s fallen body and asked Suhabi curiously, “Why kill him?”

Suhabi's face showed an anthropomorphic excitement, and he fumbled on Kang Ruisi's body, and took out a black-green orb.

"I'm looking for this," Suhabi said with the orbs at the tips of his nails.

"What is this?" Lu Yang asked.

"Come back with me, I'll tell you." Suhabi turned around and threw his robe, and he walked towards the castle with a laugh, while he said, "Gather the corpses on the ground, all sacrificed to His Highness Death."

Lu Yang was a little curious. He had never seen such a black-green orb. He picked up the 170-level gold equipment dropped from the ground, and followed Suhabi back to the castle.

Castle hall.

Suhabi sat on his throne, looked back to the left, and looked at the floating orb in his hand. He couldn't help laughing again.

"The ancestors of Crudo's Bend Demon went up again, and I actually got this thing." Suhabi said with a fascinated look at Orb.

Lu Yang asked, "What the **** is this?"

Suhabi looked at Lu Yang and said, "My world has three kinds of energy: nature, purity, and chaos. The thing in my hand is called the tears of the **** of chaos. He is the chaotic energy naturally formed by heaven and earth. Very rare, there are only hundreds of trees on the tree of the death temple every year. I did not expect that the **** of death would give Conris the tears of this chaos god. "

Lu Yang asked, "Does it help you a lot?"

Suhabi said proudly: "Today's Soul Cup has collected the energy of the Dark Angle Devil, and I serve this tear again, and I will be successfully promoted to the superior lord, which is one step closer to my goal. "

Lu Yang was a bit surprised. It was 170 to promote a lord to become a superior lord, but the difficulty was quite high. Originally, Lu Yang thought it would take a month or two to succeed so quickly.

He accompanied Suhabi until 12 o'clock in the evening, and the two came near the altar. Crudo dug out the soul cup from the bottom of the altar. At this time, there was a lot of green energy liquid in the soul cup again.

Suhabi drank the energy in the soul cup against the full moon, and then he took out the black and green **** tears from his backpack and swallowed them.

"Boom"

The sky and earth changed color instantly, and a clear night was suddenly shrouded in dark clouds. Numerous fuchsia thunder and lightning were intertwined near the altar. A black-green light and shadow appeared in the sky. Among the light and shadow, there was a strange figure. Painted lightning.

"Ah ~! Roar ~!"

Suhabi was struck by lightning, and he knelt on the ground with severe pain, but his face was full of excitement, at the same time, his body was quickly wrapped in black lightning.

Feeling the power of heaven and earth, the crooked corner demon ran to the altar. The elder looked at Suhabi in the middle of the thunder, and said in horror, "What the **** happened? ? "

Lu Yang shrugged his shoulders, before waiting for him to speak, the black thunderbolt in the sky suddenly disappeared, and Suhabi's voice came from the shell formed by the black lightning.

"My beloved elders, and my lovely children, me, the descendants of the devil king of Crudo, officially announced that I have evolved."

The light shell formed by the black lightning suddenly became large upwards, and stopped until 3.5 meters. A left arm protruded from the light shell. The strong arm let the elder and all the corner devil shake.

Immediately after that, there were the stouter legs, right arm, and abdomen, and finally, Suhabi's head was exposed.

Crudo Corner Devil-Suhabi (First Class Lord)

Level: 170

Qi and blood: 83000000000/83000000000

Chapter 1457 - Faction Conversion Mask

System prompt: Crudo Devil King successfully evolved

The elder elbow of the corners knelt down on the ground, looked up at the sky excitedly, and roared: "My Crudo corner devil family finally ushered in a revival."

Tens of thousands of Crudo demon horns knelt on the ground at the same time, and everyone's eyes burst into worship.

While looking at his strong muscles, Suhabi walked to Lu Yang, his gaze glanced at the bending demon kneeling around, and finally fell on Lu Yang's body.

"I can make a breakthrough. You have made great achievements. All the corner demon monsters have orders. From now on, Lu Yang officially becomes a member of my corner demon family. I appointed him as the deputy commander of the corner devil. He can dispatch any corner warrior to obey his orders. "Suhabi exclaimed.

System Tip: Congratulations to player Lu Yang for successfully starting the formation system. From now on, the angled magic camp will become your formation race!

When Lu Yang saw this reminder, his eyes were all shining, and his body trembled involuntarily.

It turned out to be a cultivation pattern, and he came across the cultivation pattern by accident.

The development mode is one of the most famous modes in Second World. Once any player has his own development race, then he has the potential to become the top group of players in this game.

The specific strength depends on the strength of this kind of race formation and the tasks given by this race, but the worst race formation, as long as it develops, will greatly benefit players.

Suhabi took a mask from his backpack and said, "Put on him and you will be my clan."

The system prompts: you get the crudo corner devil transform mask, put on him, you will change camp.

Lu Yang knows this thing, but only knows that the mask of the last generation was often exposed on the forums, but it was only available to top guilds or super lucky players.

He put on the mask, and a golden light appeared on his body. When the light disappeared, Lu Yang turned into a crooked demon with a height of more than 2 meters.

The system prompts: You and your 4 avatars have turned into a corner demon!

Please set your name in the corner magic camp!

Changing the camp can give another name, which made Lu Yang interested. He thought about it and named himself the two kings of Crodo Curved Devil.

System prompt: Your name in this faction is the two kings of Crodo Corner Devil

Your title in the camp is Deputy Commander

Lu Yang feels that his name is very NPC-like. There is a reason for this name. Remember that in the last life, the official decryption specifically mentioned the players who formed the camp.

If the player is converted to the NPC camp, then they can gain experience by killing players. The experience given at level 100 is 50,000. Stacked according to the level, the level 140 can give about 100,000 experience.

Lu Yang remembers it right, tomorrow, the official launch of the Lord's Monster before Christmas will be held, when he disguised as a monster and entered the central mountain area ...

"Hey, I have the opportunity to catch up with the level, I can just go to the middle of the country and greet a few, and say hello to some of my old friends." Lu Yang's face was full of unhappy smiles.

[System Channel]: Extraordinary good news, starting at 8 am tomorrow, the full server will open the monster siege, the explosion rate will increase 3 times, I wish all players a happy Christmas!

Players on the World Channel are boiling. This is three times the explosion rate. Things that are not easy to hit are now bursting out, such as escaping daggers and wind elves.

Moreover, the monster siege is to send players equipment, players around the world can't wait.

Lu Yang looked at the messages from several major guild players in the central region on the World Channel, a sneer appeared on his face, a spell was in his mouth, and a light from Lei's detached body was transmitted to him.

Ray Clone has been fishing in automatic mode, and after more than half of the night, the magic tank is full of 990,000 fish.

He controlled the Thunder clone to give the magic fish to Suhabi, a flash of light flashed, the Ray clone's level rose to 100 instantly.

"I can just do the bloodline mission." Lu Yang took off his mask and changed back to the player camp. He took out the city roll and teleported it to the Celestial City.

Double blood temple.

Blaze was standing in front of an idol and watching the books in his hand. A footstep came. He looked up and found that it was Lu Yang, which made his face smile.

"Young man, what am I to do here?" Blaze asked.

Lu Yang could feel the cordial voice in Blaze's words and said with a smile, "I want to take the test."

"Your blood has reached level 5?" Blaze was surprised.

Lu Yang nodded and said, "The medal you gave me has brought me to level 5 and now each of my avatars has reached level 100. I want to try a challenge."

"Of course you can." Blaze was satisfied with Lu Yang's confidence.

The system prompts: Whether to start the challenge now!

Lu Yang summoned four avatars, a flash of light flashed, and the water avatar, soil avatar, wind avatar, and thunder avatar appeared on his left and right sides.

He chose to challenge, and the golden book in Blaze's hand glowed a reddish light. The next second, Lu Yang and the four avatars were sucked into the golden book.

When Lu Yang sees the surrounding situation clearly, he is now in a circular room with a diameter of about 50 meters. There are five portals around him, and his five avatars are fixed at five points with a diameter of 5 meters at the center point. On the line of the door only the area around 1 meter can be moved.

Lu Yang is familiar with this test. Five portals will randomly shoot a person from a certain portal. This person may be a mage, a priest, or a thief and a hunter. Lu Yang only has 2 seconds to react. To avoid the opponent's skills, kill the opponent.

Now the blood groove on the head of each of his characters is only 10 squares, which means that if any one is attacked 10 times, his five people will die!

The system prompts: The first level test is about to start. Players please prepare, countdown 3, 2, 1, start!

Lu Yang quickly looked around, a thief player suddenly appeared directly opposite his body, and the opponent instantly launched a shadow step for hours.

“Pyroblast”

Lu Yang turned his head back to the front of the staff, and did not need him to aim, as if the thief actively hit his Pyroblast, and the thief was killed.

Immediately after the action, Lu Yang's consciousness flew across the four avatars, and each avatar could monitor three portals. As soon as he reached the wind avatar, the portals shined brightly.

Chapter 1458 - Bloodline test task

“Wind Blade”

Lu Yang raised his hand and hit a light cyan arc. The character in the portal was just hit by the arc and then collapsed.

Before waiting for him to rest for a second, Moisture Body was shining towards the position portal, and his consciousness instantly entered Moisture Body.

“Water column”

A slight blue light appeared on the ground before the teleportation array, and then a skyward water column emerged, crushing the light and shadow that had just come out.

Killing three enemies in a row, Lu Yang’s consciousness did not feel a trace of exhaustion, but made him more excited. If an official saw Lu Yang’s attack, he would definitely feel crazy.

When they designed the game, they knew that the blood of the avatar was strong. No matter how weak five people were, they were stronger than one person.

In order to prevent the family from being dominated in the latter part of the bloodline, they not only enhanced the other bloodlines, but also increased the difficulty of magic release.

Nearly a hundred testers and thousands of internal beta players have tried the bloodline career. Faced with the difficulty of magic release and the burden caused by the constant change of consciousness, everyone agrees that bloodline is simply unusable.

The official is not assured of this, but also specifically found a human with a special constitution to test the blood of the clone. In the end, only a few people can barely control the five bodies among the many special constitutions, but the distance is free to control. Five people are like controlling one person. A long distance.

After having such multiple guarantees, the official blood was released. Unfortunately, they never know where the height of humanity is.

In the middle and late period of the previous game, nearly 5 billion people flooded into the game. In the face of the strong blood of avatars, countless people tried to use it. Although countless people failed, many people succeeded.

There are many ways for them to succeed. The most common one is to raise the line puppet. The player is a master of macro commands and outputs instructions by himself. When fighting, they use their extraordinary ability to understand the game and control it with a normal head-up perspective. The four avatars and the body evade or attack.

If you are lucky, you can get the eyes of God, and you can fight a little easier with the sky perspective, but generally use the line puppet.

The second player has super sensitive ears. Their ears are not normal human ears. They are like super powers, but not super powers.

Lu Yang has seen a player with his eyesight. His eyesight is normal, but when he communicates with people, his ears go first. Just like a blind person communicates with a person, he uses his ears to listen to people first.

The man was most amazing at throwing water balloons down from the 60th and 70th floors. He could tell from which floor the water balloon was dropped.

Such people are wizards. When playing games, they put on helmets to maximize the sound of the game, so that they can find enemies attacking them 100 meters away from the game, and their consciousness instantly enters the attacked. Dodge within the body.

Of course, there are ten such players in the world, but each one is a top-notch player who looks at it.

There is a third one, which is Lu Yang. Their innate consciousness is stronger than others. After professional training, they are many times stronger than others.

From the beginning of his rebirth, Lu Yang felt that his consciousness was much stronger than that of the previous life. He has deliberately exercised his body and strengthened his willpower over the past three years. He has also improved his consciousness a lot, and one more thing, after countless battles, he tried his best every time. Full strength, even overdrawing the body, I don't know why, this also improves the consciousness a lot.

Therefore, this first-level challenge did not have any difficulty for him. In 5 minutes, he easily persevered, and none of the five bodies suffered a slight injury.

As the five teleportation arrays disappeared at the same time, a voice came from his ears.

System prompt: Congratulations to player Lu Yang for completing the first phase of the test. Scoring: S.

You got the skill books “Ear Spear Spike”, “Yanlong Kill”, “Thunderstorm Field”

The light flashed, Lu Yang was teleported out of the book pages, and returned to Blaise. He looked at the three additional skill books in his backpack, with a satisfied look on his face.

These three skill books can be composed of mixed spells-Red Lotus Blast Kill, attack range 500 meters, when released, countless ground spears from the ground are intertwined with flames and thunder and lightning on it, just like a blooming red lotus, Powerful, 9 times the magic damage.

Lu Yang handed over the three skill books to the clone and the ontology respectively. He told Blaze: “I want to participate in the second phase of the test.”

Blaze was a little surprised and asked, “Do you need to take a break?”

Lu Yang said, “No, I just warmed up.”

Blaze laughed and said, “Very good, I like your momentum, ready, the second phase of the test has begun.”

The light flashed, Lu Yang and the five avatars entered a special space. Just as before, this test is an intermediate test. An enemy appeared in 2 seconds, and an enemy appeared in 1 second.

If you want to get a skill book, only the S-grade score will be given. The following scores are for experience or golden equipment, which is not useful to him.

Although it seems that the time has only increased by 1 second, the requirements for the player have been increased by several levels, because he flew the enemy randomly from 5 directions, which requires Lu Yang's consciousness to constantly rotate in 5 avatars. between.

There is a trick here, because each body can see three portals, so Lu Yang's consciousness only needs to switch back and forth in the two bodies on the diagonal at any time Although the battle scene looked a little ugly, the results were very good. It took Lu Yang five minutes to win the battle without any injuries.

System prompt: you have completed the intermediate test, score: S

You get the skill books "Dance of the Fire Serpent", "Drink of Alcohol", "Hurricane Burst"

These three skill books can form a mixed spell—100 Snake Kills. This is the strongest single attack skill. It instantly releases a hundred fire snakes on a fixed target and attacks them at the same time. Each fire snake has 300% spell damage results. Although this damage method is to first subtract the magic resistance from the opponent and multiply it by three, but except for some special occupations, this trick cannot be carried away.

However, similarly, this move is almost unattainable. Only the defensive profession like the two dumbs in the arena will let Lu Yang release this move.

The light flickered, and Lu Yang returned to Blaise again. At this time, he only had one top-level test, and this test, he remembered that the skill book given was the strongest bloodline skill, and the five series of mixed spells— A nose hell.

Chapter 1459 - 5 Series Mixed Spells-Ah Bi Hell

After Lu Yang finished studying the three skill books, he turned to Blaise and said, "I want to take a high-level challenge."

Blaze's face had no surprise, and he asked with satisfaction: "If you can complete the S-level challenge three times in a row, I will give you Abi Hell, one of the nine high-level skills in mixed spells, and I will give you one more. A legendary cloak, are you ready? "

Lu Yang is most looking forward to this task, and said with a smile: "Please start."

"Good." Blaze turned the book in his hand to the middle page, a flash of light flashed, and the entire 33rd floor room became a battle scene.

System prompt: Combat is about to begin, please be prepared!

Lu Yang looked around. The 33rd floor was originally a hexagonal room with a diagonal diameter of 100 meters and a very large room.

At this time, a black portal appeared in each prismatic position of the room, and Blaze turned into a flame and appeared in front of Lu Yang's body.

"These six portals will teleport a character every second. He needs to attack 3 times to die, and they know how to release control skills. If they want to complete the S-grade score, each character cannot be harmed."

Lu Yang nodded clearly, this task he had played in the previous life, but unfortunately when he came, he did not get an S-level score three times in a row, and did not get Abi **** skills.

Six portals, one enemy per second, need to attack 3 times to kill, the enemy also knows the control skills, the player itself can not take a bit of damage, which is completely beyond the range that normal players can afford.

Once a career like Warlock or Shadow Priest appears, any group of fear or screams can make Lu Yang fail.

Fortunately, this type of group control skills is released close-up, as long as the other side is not allowed to close-up, there will be no problems.

The real difficulty in this level is the individual control skill. This skill can be released over a distance of 50 meters. The distance of 50 meters gives Lu Yang a response time of less than 0.5 seconds. Lu Yang also needs to take into account 5 avatars. , There are 3 portals appear warlock or dark animal husbandry, it is difficult to fight normally.

However, Lu Yang knows how to solve this problem. The real test of this level is not only the player's ability to control the five series of basic spells, but also the player's reaction speed. It also tests the player's ability to adapt to the scene. This last point is the most important.

He said to Blaise, "Go ahead, I'm ready."

Blaze nodded with satisfaction, his body flew backwards, and stopped above the portal. He waved his left hand, and the portals of the six teleportation arrays glowed red at the same time.

System prompt: Combat is about to start, countdown, 3, 2, 1, start!

Lu Yang concentrated his energy instantly. The light on the door opposite him flashed, and the first one appeared was the warlock.

"Fear"

Lu Yang didn't stun the opponent with the impact of the flame for the first time, but allowed the opponent to release the spell. At the moment when the opponent used the skill, his body moved half a step to the side.

At the last level, Lu Yang's body and the four avatars can move freely. There is no space limit. His own reaction speed is fast enough to avoid the opponent's single fear technique.

After evading his head, he controlled the body and the three avatars to release the skills at the same time. Three magics hit the warlock, and the first enemy died.

At this time, 1 second has passed. The two portals he saw had no enemies, and consciousness immediately jumped over the water body and the thunder clone. When he reached the thunder clone, the opposite portal brushed out a warlock again, and Fear has come out.

Lu Yang's consciousness quickly entered the Feng Fen's body, turned on the entire attack mode, and spoke a spell at Lei Fen's mouth.

“Wind Binding”

A gust of wind controlled Thunder's avatar in place to prevent him from running around, and at the same time consciously passed on the body fire, avatar earth mage, and water mage, and ordered all three to attack the warlock opposite Lei avatar at the same time.

Three magics have been played, and the warlock was killed before the warlock released his skills. Without waiting for Lu Yang's tone, it was the position of the thunder clone again. An enemy appeared again, an orc warrior!

“Roar ~!” The orc warrior roared and launched the charge skills towards the Thunder clone. If the Thunder clone was charged, it would automatically drop 1 hit point, and then Lu Yang's S-grade score would be over.

“flicker”

Lu Yang's ontology of fire suddenly appeared in front of Lei's clone with a white light, and was in a straight line with the wind's clone.

“Resistant Fire Ring”

A fire flared up, and in a matter of seconds, Lu Yang collapsed into the Orc Warrior and the Orc Warrior at the same time 0.1 seconds before the Orc Warrior bumped into the Thunder Warrior.

The orc warrior moved backwards by 20 meters, and the Thunder clone hit the wind clone 5 meters away and stopped.

Lu Yang's consciousness flowed, the fire mage's body, water body, and soil avatar attacked at the same time, and the orc warrior died.

The duration of the single fear was 30 seconds, and Lu Yang made two consecutive siege attempts for Thunder, and only 3 seconds passed.

Lu Yang didn't expect to encounter such a troublesome thing right after the start, but this made him more and more excited. He obviously felt that since the last breakthrough, his ability to control the body is getting stronger and stronger, although there are only 4 left The body, but he is getting more and more free.

The light flashed, the third portal appeared a shooter, facing the wind clone, and behind the wind clone was the lightning clone. Lu Yang's consciousness instantly entered the water body.

"Water prison"

The archer's bow and arrow did not wait to shoot out, but was forced to stay in place.

"Pyroblast"

"Wind Blade"

"Ground Burst"

Hit three skills and the shooter dies!

Just now, if Lu Yang controlled the wind avatar to avoid it, he would most likely be hit by the shooter, and he chose to attack.

The cooling time of the control skill is 8 seconds and the control time is 30 seconds. He now has 4 strong control professions, and can control any person at will without worrying.

1 minute

2 minutes

3 minutes

Lu Yang attacked continuously. During this period, three warlocks have been brushed out. Although the danger is surrounding, Lu Yang spends each time safely.

Normally A player controls the body of three professions to attack at the same time, and the frequency is changed, the connection between consciousness and helmet gradually becomes problematic, but Lu Yang has no problems, he continues attack.

When the last two minutes were over, his consciousness was still tenacious, and in the eyes of Blaze's unbelievable eyes, the battle was over.

The light flashed, and the thirty-three towers returned to their original form. Blitz closed the book. He looked at Lu Yang with a surprised look and said, "You are the first one to complete this task. There is nothing abnormal, your The brain is different from ordinary people. It's terrible. "

Lu Yang smiled and said, "Maybe luck. Okay, my reward?"

Blaze didn't say anything, his left hand shone for a while, and five skill books were suspended in front of Lu Yang, namely: "Huang Quan", "Earth Sword", "Purple Thunder", "Liu Huo" and "Fengdao".

Lu Yang could not help but clenched his fists, and handed these five skill books to the corresponding bodies to learn.

"I can go somewhere in the central region." Lu Yang's face was cold with a smile.

Chapter 1460 - Mythical Cloak (Legendary)

Blaze called Lu Yang and said, "Wait a minute, I'll give you one more thing. This is a legendary cloak of level 170, it's for you."

Mythical Cloak (Legendary)

Level: 170

Defense: 73280-73280

Magic resistance: 73280-73280

Intelligence: +112580

Constitution: +138860

Additional Spell Damage: +1578820

Additional Spell Penetration: +1578820

Additional Spell Critical: +1578820

Description: As we all know, five people in the blood of the clone attack together, which is equivalent to one person pulling the hatred of five people, so, uh, it is easy to be taken care of by the lord. This cloak can slightly reduce the hatred of one of them. Good luck, I hope you don't die too bad in the copy!

Lu Yang took the cloak of the forehead black line. The last description is too annoying. Who knows that the blood output of the clone is too high, but there is no solution.

In the previous life, Lu Yang did not know how many times he died in the copy, each time it was caused by the high hatred value of the clone blood, and he did not want to.

The best way is to get five such cloaks at one time, which was officially disclosed in the last life. This cloak can reduce the hatred to one-fifth. Five people wear this cloak just like one person.

However, now that I can get the blood to level 5, I am afraid that only the top masters can complete the 3S blood test. I am afraid that he is the only one. This cloak has no chance for the time being. He still wears a level 20 dress. The cloak of spores can also reduce part of hatred.

“You guys, you are very strong, I hope you continue to work hard, and I look forward to seeing you at the next time,” Blaise said.

Lu Yang nodded and said, “I’ll be stronger next time I meet.”

He can take a good rest now. He will go out to kill and upgrade early in the morning, so there is a good opportunity for monsters to attack the city for cover, but only once a year, he must make good use of it.

The light flashed, and Lu Yang controlled the five entities to return to the demon temple to rest. When he entered the game the next morning, he felt the festive atmosphere.

[World Channel] Player A: Guys, the siege is about to start. Come and form a team. A team of 160 and 20 people is missing a cure.

[World Channel] Player B: 160-level violent battle with trumpet upgrade, 160-level map kill siege mobs, 5 gold per person, 10 missing 3.

...

Almost all of the channels on the channel are shouting words about team formation, or taking advantage of this good opportunity to do business, or wanting more babies to prepare for a big game, the festival atmosphere is strong.

Lu Yang came out of the demon temple and returned to Tianyu Shencheng. Today, the festive atmosphere of Tianyu Shencheng is more intense. Christmas trees and Santa Claus can be seen everywhere on the street, snowflakes falling in the sky, and many small snowballs and Christmas hats, socks. And other accessories.

This is another small task specially prepared for low-level players. Pick up small snowballs and Christmas hats and socks and give them to Santa Claus in the center of each country. They pile a few huge snowballs in the center area.

Each mission will give experience points, and will randomly give various small rewards. It is a relatively fun project, and players who like leisure and entertainment can experience it.

Seeing this activity, Lu Yang couldn't help thinking of the events of the last life. During the last life, Liu Jie controlled the northeast area. In order to create high-level players, he held a charter in several large areas to collect snowballs and Christmas clothes. cap.

In a short Christmas, he created hundreds of 180-level players. True, this method can make him powerful in a short time, but he pits most Chinese players.

Ordinary players do not feel the joy of the festival at all, but they are useless to scold them online. Liu Jie ignores them at all, and still behaves as they do.

Lu Yang wouldn't let his brother-in-law brotherhood do this kind of wicked thing, the festival, the picture is happy and happy, everyone is happy and happy, just as boring as enemies.

However, if he does not do this, he may cause his rank to fall behind. Some of the strongest guilds in the New World will soon respond. This is a good opportunity to upgrade quickly. I am afraid that there will be several shameless guilds doing this. There must be Liu Jie among them.

“Dididi!”

The voice of the intercom sounded, Tu Feng called and asked, “What do we do with the snowball mission?”

Lu Yang said with a smile: "I guess you will ask me, don't act now, and let the players gather slowly, I'm going to pack He Peng."

Tu Feng smiled and said, "Okay, I'll arrange it."

Lu Yang hung up the phone and sent him the news of He Peng's preparations to the White Lion and Muddy Wine to make them ready.

Since He Peng had a clear relationship with Alice, he had to do everything that could make Alice angry.

Packing up He Peng is just one of them. The other is even better. Didn't Alice set up an antique shop? Lu Yang knows the appraisal of antiques. He stands at his door every day to appraise the antiques, and almost all of them are fake. The two are really good. As long as he buys them, Alice's antique shop will be closed. At least that will make Alice earn nearly one million less each month.

Once the antique shop was pitted and He Peng was killed, Alice's minions and money bags were hit, but it didn't make sense to do so. Instead, it made Alice hide deeper, and it was better to let him show more tails together. Strike, that's when it works.

He withdrew his thoughts and teleported to the crooked corner magic castle and entered the hall. Suhabi was changing outfits with his servants' clothes. When he saw Lu Yang, he said with a smile: "My brother, great The Lord God summons us to the main plane to fight, would you like to walk with me? "

Lu Yang looked at the time. Now it is 8.50 in the morning of China time. The siege monsters in China are about to be launched.

His goal this time is to enter the area of Olma. What Lu Yang thinks of Olma feels like Manchester United midfielder Pogba. The more he looks the more annoying, this **** is always hesitant.

From the information gathered by Qing Qian Zimeng, Olma intends to challenge him in a global competition this time. The King of the Night is one of Olma's chess pieces. Lu Yang wants to see what Olma has. Dare to challenge yourself like this.

However, the launch time of each country is different. At this stage, the official release is based on the number of players in the area occupied by each country, which is also a form of official abduction by players.

Olma is in the Sudan area, and there is a five-hour time difference with Huaxia. His release will have to wait until 2pm China time, so Lu Yang can only find He Peng to play with now!
