

Chapter 1461 - He Peng Followed by Lu Yang

Blue Dream Fortress.

He Peng stood leisurely on the city wall, there were tens of thousands of players beside him, and there were tens of thousands of players outside the city, all of whom were his people.

“As the president of a guild, it is really worth living in this situation.” He Peng stretched a laziness lazily.

Vice President Tang Yuan said with a smile on the side. “There is good news. Tokarev just called and asked if we could give him a fortress.”

“No.” Lao Liu Kong Qing said dissatisfied: “Before we occupied here, we said bad things one by one, and now I see the benefits, I will not give them.”

Several other vice presidents nodded.

“Yeah, where do we have to come, why give them.”

“We are rich and rich now. We are free to live and share with them.”

...

He Peng listened to the words of his brothers, and the smile on his face became more intense. When several people were vented, he smiled and said, "Accept Tokalev's request, Heaven Soul Fortress was given to him."

"Why?" Lao Qi Lu Jian asked.

He Peng glanced at him proudly and said, "How close is the Fortress of Heaven Soul to Lu Yang, we must not find someone to block it for us."

"Well!" Several people nodded, saying, "That makes sense."

He Peng was even more proud, and a pair of Zhizhu was holding it, saying, "We only need to control the fortresses adjacent to the Group of Eight, and those near Lu Yang are unnecessary. Alice's men Anyone who wants to come to a scatter group will give it to anyone. "

"Alice won't be angry." Tang Yuan was a little worried.

He Peng snorted and said, "In the past, we begged Alice, and now Alice asks us, so many people, what management does he rely on, not our brothers.

If only our family would occupy these fortresses, Alice would force us to leave, and we would be okay, but if they all come, Alice can only use this place as a development area. "

"What if Lu Yang comes over?" Tang Yuan asked.

He Peng snorted again and said, "I'm afraid that Lu Yang can't bear the next attack. The last seven strongest guilds jointly attacked. The average rank of the Iron Brotherhood was three levels lower than other guilds. It's even five levels less than the little guilds in his area of control. Do n't those little guilds grow grass? "

Everyone nodded.

He Peng went on to say: "There is even more deadly. India and South Korea have been very bad recently. I am afraid that these two regions will not be able to help Lu Yang for a long time in the future. This time will take at least four years. Only after the end of this term of leadership will it be possible to change. "

The old Wufangtang said: "Would that not mean that Lu Yang now has only one war in the Huaxia region, and he might be betrayed by South Korea and India?"

He Peng nodded and said: "That's why, so we are developing comfortably now. Alice has also recently developed a strong interest in this place. He is also willing to use it as a cutting-edge position. Otherwise, Toka How dare Lev's waste betray Alice and come to us secretly. "

Tang Yuan asked in surprise: "Do you mean this is Alice's idea?"

He Peng said: "It is very likely that this is the case. I am now generously giving up the site, and Alice's investment in us will increase. Look at it."

"Dididi"

The voice of the intercom came, and He Peng picked it up and found that it was Alice calling, with a proud smile on his face, and said, "Look, it's a phone call."

He pressed the connect button and asked with a smile: "Chairman, what's the matter?"

Alice was very satisfied with the title given by He Peng, saying, "The Christmas event has begun, and I hope you can accept all players from other areas in my hand to come to you."

He Peng was a little surprised and asked, "Is everyone?"

Alice said: "Yes, is there any problem with your carrying capacity?"

He Peng said excitedly: "Of course there is no problem. The more people, the better. The more we stand, the more stable we are."

Alice nodded and said, "You start the city teleport, these scattered groups are in the mountains near the Lalbag Fortress, and I let them pass now."

"Okay." He Peng and Alice hung up the phone and said to Tang Yuan and others excitedly, "Alice is going to let all his scattered groups come, we stand firm this time."

Tang Yuan said in surprise: "All come, but there are more than 30 million people, can do a lot of things, will our status be weakened?"

He Peng sneered at Tang Yuan and said, "What you know is a bunch of black people. Even Lu Yang's cannon fodder can't stop a charge, that is, there are a large number of people, they are bluffing, really fight, It's up to us. "

Lu Jian said: "Although so, with them, we can make a lot of income, and we should also charge an entrance fee or something."

He Peng said, "Positive solution, when they all enter the Lalbag Fortress, the first transmission is free, and each transmission will be charged in the future. Earn some money for our brothers to have a fat year."

Tang Yuan and others heard that they wanted to share money, and they started to get busy in excitement. From the Lalbag Fortress to the Crescent Fortress, all the teleportation arrays were opened.

The scattered groups gathered by Alice from all over the world have been hiding all over the world, but with the incidents in South Korea and India, Alice thinks that He Peng's occupation of the area is a good rest point, and orders those players to March here.

Today it is considered to be a place. With 30 million people entering the Lalbagh Fortress in batches, after entering the teleportation array, they have successively flew to 11 fortresses, which is equivalent to 3 million near each fortress. Left and right players.

Here, He Peng was so busy, but did not know that Lu Yang had arrived.

System prompt: Monster siege begins!

Outside the Blue Dream Fortress Hundreds of thousands of level 100 monsters have gathered there, slowly moving towards the Blue Dream Fortress, and on the 170-level map Qingtian Mountain, 10 hours away from the Blue Dream Fortress, Lu Yang has arrived with the crooked demon legion.

The supreme lord Suhabi looked at Lu Yang who turned into a devil, and asked curiously: "Brother, we come out from here, and there are no enemies."

Lu Yang grinned and said, "Going down from Optimus Mountain, it is only 3 hours away from Lanmeng Fortress. Let's destroy Lanmeng Fortress today and then attack Lalbagg Fortress. How about it?"

Sohabi said: "Good idea."

"The whole army goes with me." Suhabi yelled, and more than 10,000 Crudo cornered elites followed him to jump under Qingtian Mountain.

Unlike human players, the crooked devil's feet are sheep's hoofs, which can be flat on a cliff. They can stand on all fours on a 90-degree slope.

Lu Yang laughed and thought that when the 10,000 elite and boss-level Crudo corner demon appeared in the blue dream fortress, it was the time to kill the fortress players.

Chapter 1462 - Corner Devil Attack!

Blue Dream Fortress.

"Fuck him and kill him immediately. Everyone will work harder."

“I’ve killed a lord over here, haha, burst into a level 140 dark gold equipment.”

“I have a Level 3 gem.”

“It’s time to teleport gems, teleport gems, and get rich.”

...

Below the city wall, the players shouted wildly in He Peng’s ears. Tokayev stood beside He Peng and said gratefully, “Thank you to President He Peng for accepting us. This time everyone will be rich. . “

Ould, the head of the new Mauritania group, laughed with big white teeth and said, “Let us cheer President Peng, ha ~!”

The heads of more than a dozen casual groups around him complimented He Peng, which made He Peng’s complexion more rosy and more proud.

“Everyone is up and down. Let’s work together and work together. If there is a need in the future, just mention it. I can help, and I will never quit.” He Peng said with a laugh.

Although Alice had not been promoted to be the president of the region, he suddenly regarded himself as the boss of all scattered groups.

The level of siege monsters outside the fortress is mainly between 100 and 140. Most of the players under He Peng’s level are between 140 and 155, and a small number of them are up to 160. It takes almost no effort to kill.

And there are more than 3 million players in the city, which are scattered evenly throughout the city. Christmas siege monsters refresh hundreds of thousands at a time, and they are swiped every half an hour. They have enough time to destroy the lord monsters. Hit, 3 million people look happy.

Lu Yang saw the situation around the Lanmeng Fortress from Qingtianfeng. He didn't expect that there were so many people on the other side, but Tu Feng just called him and told him that 30 million members of the scattered group had entered He Peng's area. The average fortress is about 3 million people.

At this time, the enemy had spread out to the position an hour away from the main city, that is, at the foot of Qingtian Mountain.

A crooked corner demon scout ran back to Lu Yang and Suhabi, bowed and said, "The enemy was found in front, and the vanguard general requested an attack."

Lu Yang took out the telescope and looked at the number of enemies. This is a small scattered group of about 300,000 people scattered evenly on the vast and light hills. Most of the equipment he wears is a 130-level dark gold jacket.

Suhabi looked at Lu Yang and asked, "Are we attacking?"

Lu Yang said, "Let the brothers move first and kill this enemy."

Suhabi looked at the scout and said, "Order the vanguard general to launch an attack."

"Yes." The scout ran forward.

"Woo ~~"

"Woo ~~"

The dull trumpet sounded suddenly on Mount Optimus, and General Croud cornered and shouted, and rushed down with 3000 class 170 elite soldiers.

This time out of the 10,000 crooked monsters brought out by the Crudo family, there are 3,000 melees, 4,000 shooters, and 3,000 mages. There is a boss for every 100 people and a lord for 1,000 people.

General Vanguard himself is also a lord. Among the 3,000 people he carried, there were 3 lords and 30 bosses. The strength was not ordinary.

The level 170 monster crushes the level 130 dark gold player, and the boss and lord lead the team. The power is even more powerful.

The scattered groups on the hills without light are Vietnamese players. As Lu Yang estimated, it is indeed more than 300,000 people, and the head is Ruan Zhongfei.

“All members pay attention. All the money this time will be taken away by the scattered group. If there are special treasures such as teleportation scepter and wind elves, we must be handed in. We must be united to win.” Ruan Zhongfei Mooing fluttered in the guild channel.

This is how they draw the player’s blood. In the absence of an external channel for making money, they use this kind of money that is constantly extracted from the players’sweat and sweat to put it in their own pockets. This is the status quo of most scattered groups. I think this is a wrong thing, and I followed the scattered groups.

Lu Yang was a bit uncomfortable about attacking and breaking up the group, but knowing the specific situation here, he would not have pity on this group.

They are nominally scattered groups, but in fact they are a very unethical organization, and these people are dead-hearted against the Brotherhood of Iron and Blood. In this case, don’t blame him for being cruel!

Lu Yang uttered a spell in his mouth, summoned a large mount, and ran forward.

Ruan Zhongfei is still spreading his values. He wants to use the guild as his home and everyone to work for this family. Dora members join the association and work together for a win-win situation ...

While he was excited, suddenly, his deputy interrupted him forcibly, saying, “Boss, it’s strange.”

“Brush and brush, just hit, just interrupt, what did you interrupt me, didn’t you see that I just reached the point?” Ruan Zhongfei said dissatisfied.

The deputy looked at Ruan Zhongfei and continued to say no other. He quickly grabbed Ruan Zhongfei’s arm and pointed at the north side of Qingtian Mountain. “Look over there, the enemy is there.”

Ruan Zhongfei frowned and looked at it. On the large **** on the north side of Qingtian Mountain, countless Crudo corner demon rushed towards them, and each of the corner devil’s bright 170 level and elite words Ruan Zhongfei was stunned.

“Class 170? Elite?” Ruan Zhongfei stared dumbfoundedly at the vice chairman around him, and asked, “Isn’t this a 140-level area? How can a 170-level monster appear?”

The vice-chairman has been directing the battle and is more familiar with the terrain here. He pointed at Qing Tianfeng above and said, “There is a 170-level map. I suspect that the battle on our side may have brought them over without news. “

“Fuck, quickly stop them.” Ruan Zhongfei shouted.

The vice chairman was dumbfounded and cursed a fool, saying, “Unstoppable, level 130 dark gold equipment, and level 170 elite can’t blame blood.”

“What do you do?” Ruan Zhongfei asked You can quickly order to run, this can’t beat. “The vice chairman said anxiously.

“Oh, oh.” Ruan Zhongfei suddenly realized, and shouted in the guild channel quickly: “The entire retreat, 170 elites in the north side of Qingtianshan were led down.”

300,000 people, the biggest feature of the scattered group is that they do not listen to the command, the next order can be gathered together for a long time.

Ruan Zhongfei's retreat order was ambiguous, and not everyone was following the guild channel. Therefore, those who saw the news were in a confused state, and those who did not see the news were still fighting, and almost no one Run away.

"Hello ~ ha ~!"

Unfortunately, when they were confused, General Crudo Pioneer arrived with 3,000 people, and the 170-level elite played the 130-level dark gold player, one sword at a time!

3000 people rushed into the crowd, just like a tiger rushed into a henhouse and killed one bite at this time. At this time, Ruan Zhongfei's 300,000 men only reacted.

Chapter 1463 - Snoring group

But they run far less than the speed of the Crudo Devil. Even if they run upright, the Devil Elite's movement speed is 150% of the player's movement speed. They also know the scoring skills.

The corner-cursed General Vanguard rushed to the front. He knew special attacks. Several special attacks in a row, and a golden light shone on his head.

The system prompts: The general of the corner magic pioneer (lord level) is promoted to the first level!

Monster promotion is a setting of the official system. Each monster can be promoted to nine stages by killing the player, and the strength of each stage is increased by 30%.

This is also a kind of development game, and it is also Lu Yang's favorite mode. He very much looks forward to each of the corner demon monsters can be upgraded to level nine, continue to kill, and also upgrade the level.

In the future, he will bring the corner devil to attack other forces in the secret realm. The 9th-degree corner devil will fight the hostile forces of level 0 as if he was cutting vegetables.

However, Lu Yang knows that those forces have good things in it. He doesn't need to use a player to push down a secret place, and he can get a lot of treasures, which makes him feel comfortable.

In addition, after the other forces in the secret realm have been leveled out, they can choose to open to the outside world and let the players come in. Lu Yang can pit hostile players fiercely, and can also upgrade the corner monsters. These corner monsters can be upgraded up to level 200 Ninth-order superior lord.

In the last life, a player who liked to develop the game achieved this goal. During that strongest period of the player, he took a secret monster and leveled a strongest guild fortified defense.

Since then, players have realized the power of the mysterious realm. However, it is extremely difficult to make each corner magic elite rise to the ninth level, and the calculation method of the corner magic kill is calculated separately.

When a corner demon kills a player, it is only counted on the head of the corner devil. The other corner devil will not be counted as killing, that is, only the killing by himself can be counted, and others cannot count.

Lu Yang deliberately indulged He Peng in this area. The original intention was to use them to improve his corner devil level. I did not expect that He Peng, a fool, brought over 30 million people. Lu Yang felt that he would bring more corner devil in the future. After coming out a few times, his corner demon can quickly rise to level 200. By then, without the player, he can destroy a strongest guild with the corner demon.

Suha Bahaha laughed and came to Lu Yang and said, "These humans are really too weak, and I am going to fight."

Lu Yang said, "Let's go together. You bring the mage, and I bring the shooter."

“Yes.” Suhabi yelled, and the 3,000 mage followed him to the right.

Lu Yang clicked the control icon, just like playing a real-time strategy game, 4000 shooters followed him to the left.

“The whole follow me through the hilly slope.” Lu Yang leaned with his finger on the side of the hillside 80 meters high in front of him, replaced the mount, and rushed over first.

Ruan Zhongfei and the remaining 200,000 men are running at full strength at this time, but they not only run slowly, but also are restricted by the terrain.

However, Lu Yang didn't need to consider the terrain. When he took 4,000 shooters through more than a dozen hills nearly 100 meters in a row, he reached the oblique front of Ruan Zhongfei with more than 200,000 players.

“Arranging, the archer fired a scattered arrow and fired forward,” Lu Yang ordered.

4,000 shooters stood side by side on the 80-meter-high hills, while Ruan Zhongfei's men ran under the hills.

“Woo ~!”

Dense bows and arrows gathered together through the air, emitting low and penetrating weird sounds. Ruan Zhongfei, surrounded by enemies, fell and died, and a large number of shooters advanced to the first order.

Ruan Zhongfei was in the middle of the team. He looked dumbfounded at the shooter who was shooting wildly in front of him. He murmured to himself: “This is like someone is directing. They are monsters or players.”

The vice chairman looked at Ruan Zhongfei with scorn, and said, “How could it be a player, this is a monster siege, but the monster is running fast.”

Ruan Zhongfei also felt impossible, but he didn't know that this was true, and it was their nightmare that led the team, Lu Yang!

Lu Yang watched the bending demons upgrade a lot, and he couldn't help it anymore. He could only read it, and flashed four lights at the same time. The water body, soil body, wind body, and thunder body appeared together.

"Just use them to practice mixed spells." Lu Yang controlled the four avatars to stand on the same line as him, and the consciousness flowed. The five bodies chanted the spells at the same time.

The terrain below is a road about 500 meters wide. Most of the players are crowded on the other side due to the attack of the cornered archer, and Ruan Zhongfei is also in it, while he is running and looking to the side.

He found that one corner demon was releasing magic in the archer team, or five were released together.

"Strange, what does this devil do?" Ruan Zhongfei used observation to Lu Yang.

The system prompts: The name of the target you are observing is called Twisted Demon King!

"The King of Devil with Two Corners?" Ruan Zhongfei frowned. "Is it a lord monster?"

The voice just fell.

Lu Yang's mouth spelled out.

"Ear Spear Spikes"

"Fighting Dragons"

“Thunderstorm Field”

The three bodies emit brown, red and purple rays at the same time, when the three-color rays are concentrated in Lu Yang’s body.

“Mixed Spells-Red Lotus Explosion”

Lu Yang’s body, soil clone, and thunder clone simultaneously pointed his right hand forward. At once, the heavens and the earth changed color, centered on Ruan Zhongfei. Within 500 meters around, every inch of land on the ground came out with a sharp ground The thorn, burning fiercely above the ground thorn, was accompanied by a dark purple thunderbolt.

After the “Boom”, the shouts of players within 500 meters came to an abrupt halt, and no sound came out.

Players behind the skills are foolish when they look at the scene in front of them. Honglian Blast Kill is a continuous skill that lasts up to 3 seconds.

They didn’t dare to take a step forward when they looked at the skills appearing in front of them. They waited until the skills disappeared, and then ran forward madly again, but they did not know that their nightmare had just begun.

Lu Yang watched the experience value of flying in the conversation bar just hit that killed at least 30,000 people, watching the player who rushed into his attack range again, he read the second A spell.

“Cracked Earth”

“Eight Wildfires”

“Concussion Storm”

The three bodies emit brown, red and cyan rays at the same time, when the three-color rays are concentrated in Lu Yang's body.

Lu Yang pointed forward with his right hand.

“Mixed Spells-Fire and Earth Storm”

A huge fire storm annihilated more than 20,000 players who came in. When the light passed, 20,000 people died!

Ruan Zhongfei's players are crazy. They only have more than 300,000 people. They have just been killed by a large number of corner devil pioneers, and shooters have killed a large number. Only about 200,000 people are left. With so many people dead, they don't know how to run away.

Chapter 1464 - Lu Yang arrives at Blue Dream Fortress

“Corner Wizards, attack.” Suhabi arrived, and he appeared on the other side of the mountain road.

The 3,000 Elbow Master Elves don't need to chant spells, and they instantly perform a variety of high-level magic. Each hit is more than 8 million magic damage. Because they are monsters, their skills are mostly group attacks, and they also have incremental damage effects.

A non-defense player at level 140 has less than 1 million HP. Even during the defense, his HP is only over 10 million.

The Elbow Demon Elite casually used a lightning connection to increase the damage by 30%. The attack range was 50 yards. After throwing it down, all the people within 50 yards were dead, and the defense was dead!

Ruan Zhongfei's men were completely stunned. On the side of the road that must escape, there was the Army of the Archer of the King of Angles, and the other side was the elite wizard of the King of Angles, followed by the angle of the side of General of the Angles Demon Melee.

There is no door to heaven, no way to the ground!

"Brothers run, I can't control that much." I don't know which player shouted this under the crash.

Everyone around them ran towards the front like a headless fly, even with 200,000 people running forward, but in this way, Lu Yang and the Angle Demon Legion were happy, and left, right, and three sides attacked at the same time. This left The next 200,000 players were killed in less than 15 minutes, and only occasionally hundreds of people escaped. This was deliberately released by Lu Yang in order to continue hunting forward.

Lu Yang looked at his experience slot. After only a while, his Thunder clone experience slot was almost full, killing a 130-level player to give 80,000 experience points.

He has just been using mixed spells in a row. He killed more than 80,000 players and gave him more than 6 billion experience points.

Su Habi looked at the escaping player and asked Lu Yang: "Shall we continue to chase?"

Lu Yang said, "Chasing, let's go to the city."

Today, he is about to launch a killing ring. The 3 million people in Lanmeng Fortress are just the mobs to upgrade him.

"Corner, attack." Suhabi growled loudly.

"Shooter team, follow me." Lu Yang rushed to the front with the army of the shooter, and was on the same line as the general with the angled magic pioneer.

With the soles of sheep's hoofs, the corner devil does not take the road, and runs forward on the hilly slopes as if flat.

While Lu Yang was marching here, Ruan Zhongfei had not reported the situation to He Peng on the other side. In the player's inherent thinking, if the monster was attracted and killed by the monster, the monster would not continue to go. They Will return to the original place.

One more thing, if you run far enough, the monster will stop chasing after half of the chase and return to the original place. Therefore, Ruan Zhongfei now thinks how to gather players to return to the original place to fight monsters, and no longer lead to what should be Curved Demon on Optimus Peak.

Blue Dream Fortress.

Ruan Zhongfei was resurrected in the city. Within an hour of the fortress, there was only such a resurrection point in the fortress. As he ran to the north gate, Tang Yuan was leaving with a group of people, preparing to fight monsters, and the two met at the intersection.

"President Ruan, why are you back?" Tang greeted and asked far away.

Where is Ruan Zhongfei sorry to say that he led the team to fight strangely and accidentally attracted the 170-level elite? Awkwardly said, "Well, what's up, the supplies have run out, and I'll take my brothers back to replenish it."

Tang Yuan looked back and found that Ruan Zhongfei was all behind his players, which surprised Tang Yuan a bit, but as soon as he thought about it, Tang Yuan wanted to understand.

"It is estimated that this group of garbage is too wasteful. When the Lord Monster is hit, too many people accidentally come together, which causes the Lord Monster to upgrade with a large-scale big move." Tang Yuan secretly said.

The siege number of any wild lord monster below level 170 cannot exceed 100. If it exceeds, the lord monster will be instantly upgraded to the strength of the lord monster in the 200 player copy, and a player of the same level can be seconds with any move.

If a shooter team accidentally hits a bow and arrow, or a mage team throws a piece of magic, the system automatically determines that the number of attackers exceeds 200, and the lord is almost invincible.

This situation is often seen in loosely scattered groups. In Tang Yuan's inertia thinking, he thinks that the 300,000 people in Ruan Zhongfei are a bunch of rubbish, so he doesn't take it seriously and leaves.

Ruan Zhongfei looked at Tang Yuan's expression and knew what he was thinking. He was even more depressed. He shouted to the vice-chairman behind him: "Hurry out of the city and tell those who come back to death. Don't delay time. "

The vice-chairman was helpless, and this class of 170-level elites was not him, but he was the vice-chairman. After all, he had to manage it. He could only sigh with persuasion on the guild channel.

"Brothers, you have to be careful. You have to be careful. You can't provoke a 170-level monster. We can't beat it."

...

The party gathered as they talked, and soon the number returned to more than 200,000, and they ran to the position outside the city for half an hour.

This area is Mongolian player Delig, with 200,000 players, and their level is about 140.

Delig has a good relationship with He Peng, so he got the upgraded Dabao area closest to the main city.

"President Ruan, why are you back?" Delig was sitting in the middle of the avenue, and the players around were playing monsters. He only ate experience. When he saw Ruan Zhongfei running out again, he greeted and asked.

Ruan Zhongfei was annoyed by this, and was asked again, suddenly depressed, but before he spoke, he looked stunned straight ahead.

“Nima!”

De Lige was furious, stood up and pointed at Ruan Zhongfei and cursed: “I’ll say hello to you, how can you curse people and look down on me, singled out.”

Ruan Zhongfei looked at Delige and cursed: “Single Nima, run away.”

He saw countless corner demon running towards him on the hilly **** less than 10 minutes in front of him. In front of the corner demon, it was his players.

An anger rushed into his head, and he wished to kill the hundreds of players who came back, how stupid a person could do such a thing.

“Damn all run, everyone runs.” Ruan Zhongfei turned his horse and shouted at the player behind him.

In the setting of “Second World”, the player cannot wear people or blame. Therefore, Ruan Zhongfei turned back and found that his 200,000 people were standing behind him in a 100-meter-long horizontal row, which killed him from the road Dead, if he wanted to run, he would either bypass his men, but where he went and where he went, there was almost no way to turn back, so he could only shout.

In the scattered group, the trouble is here, it is easy for them to go forward, and it is difficult to backward. The elite army of the Brotherhood of the Iron Blood, any order of Lu Yang can be quickly executed, but this is the scattered group, let them After the back team changes to the front team, they will not.

There is no commander in the back team, and there has never been such a clear system of responsibilities. The front team turned around, and the back team didn’t know what was going on.

Ruan Zhongfei shouted for a long time, the people in the first ten rows turned around, and the others behind the ten rows still scratched their heads to see what happened.

As a result, this delay is several minutes!

Ruan Zhongfei is really anxious to take out the city roll and run away, but he can't do that. He ran away, and the position of the leader of the scattered group changed hands.

Chapter 1465 - Depressed He Peng

"Forget it, Lao Tzu confessed death." Ruan Zhongfei decided to give up. Anyway, there was nothing good in him, he died.

He stood depressed in situ, looking at the distant angled demon legion. In order to be more handsome in death, he also posed a shape, raised his chest, opened his arms, and looked fearless.

But he didn't notice that he was looking at him with anxiety, this man was Delig.

"Ruan Zhongfei, I'm your grandfather, are you pretending to be too big?" Delig was so mad that for the first time someone dared to ignore him like this, ignoring even singled out, and posing in an invisible manner.

De Lige rushed to Ruan Zhongfei and pointed at his nose and cursed: "I am a descendant of the Golden Family, you dare to insult me, you must be singled out, or I will start a full war against you!"

Ruan Zhongfei is swinging his head with his head raised, and lowered his eyelids and slanted Delige, scolding: "Stupid."

"Do you dare scold me?" Delig pulled out his waist scimitar, and he was furious.

Unfortunately, without waiting for his attack, a low horn sounded behind him. He looked back and was dumbfounded.

“Isn’t this a 140-level area? Where’s the 170-level elite strange?” Delig murmured to himself.

The corner-curler General Vanguard has reached 3000 meters behind him with 3,000 melee. A light flashed through, and the front-curve monsters collectively launched the real crack skills.

Delig didn’t wait for the reaction to be caught by the Devil General, and put away the sword. Delig fell to the ground without even the ability to resist.

Ruan Zhongfei saw this scene and shook his head with a sigh and said, “Stupid fork, death is not good!”

Next second.

“Fire and Wine Storm”

Lu Yang suddenly appeared in front of Ruan Zhongfei, and a spit of fire wine spewed forward, hitting a huge fire dragon that was 90 meters wide and 450 meters long. Ruan Zhongfei and all the players behind him died.

“It’s the Devil’s Legion, oh dear, how did they chase it over?”

“Damn it, hundreds of silly people led them over.”

“Run away, this thing can’t beat it.”

...

At this time, the players under Ruan Zhongfei reacted, and 300,000 people started running backwards. More than 200,000 people in Delig also knew what was going on, and they cried and ran back. After all, some people were hiding I didn’t turn in the baby.

But this game can't wear people and monsters. Originally, monsters came out at any time along the way. In addition, they have a basic formation. They can't run in the back, and they can't run in the front.

Coupled with occupational skills such as mage and shooter with jumping skills, the people in front can not run fast. The overall chaos is like the scene of a large car accident, all of which can't run on the plain, but no one wants to go back and fight. , Everyone would rather be stuck on the block than dare to face the corner magic elite.

Lu Yang saw this scene, a smile appeared on his face, and a spell was spoken in his mouth.

“Blink, transmit”

A white light appeared behind the crowd, and Lu Yang appeared, followed by four lights at his side almost simultaneously.

This is a special skill of the clone mage. Each clone transmitted to the body or other clones will cause the same damage as the magic damage.

The four avatars combined have injured more than tens of millions. How can these 130 level players be able to resist, and players in the light range are hurt at the same time and die instantly!

Lu Yang looked at the players in front of him who only wanted to escape and shout, and said a spell in his mouth.

“Cracked Earth”

“Eight Wildfires”

“Concussion Storm”

Three rays of light emerged from the three bodies, converging on the staff in front of Lu Yang's body, and his right hand pointed forward.

“Mixed Spells-Fire and Earth Storm, all die for me!”

A huge light array with a diameter of 500 meters appeared in front of him instantly, and the raging flames poured out from the ground. All the tens of thousands of players in the range were killed in seconds.

Three golden lights light up at the same time, his earth clone, wind clone and thunder clone upgrade at the same time. At this time, he no longer retains skills, watching the large open space in front of him, and the frightened players in the eyes on the front and left sides. The spell was spoken again.

“Mixed Spells-Red Lotus Explosion”

Another huge battlefield with a diameter of 500 yards, Lu Yang tens of thousands of seconds, he looked at no one left and right, and spelled out in his mouth.

“Meteor Falls”

A huge fire meteor in the sky smashed into the crowd, killing a person.

“Meteor Fire Rain”

In the sky within 500 meters ahead, a large fireball fell like a raindrop, killing tens of thousands of people.

Lu Yang’s three avatars lit up at the same time, and the avatars were upgraded again!

He secretly whispered, it was too cool, and the speed of the upgrade was absolutely incredible. No wonder so many people in the last life liked to develop secrets, it was really cool.

“My brother, leave me some ~!” Suhabi hurried to Lu Yang with a look of anxiety and said, “You’re almost killed.”

Lu Yang laughed and said, "How about killing faster than anyone?"

"Hum, I'm Suhabi, the superior lord of the corners, and I accept your challenge." Suhabi screamed and stormed into the crowd.

Lu Yang didn't hesitate and continued to attack. While killing the two, they led the team forward. When they killed all the 500,000 players, they also came to the city of Lembongan Fortress.

At this point, He Peng, Tang Yuan and others have discovered the situation in the north. At this moment, they are standing on the north wall and gnashing their teeth, watching the players who escaped from Ruan Zhongfei and Delig and the chasing corner monsters chasing in the distance.

"These two stupid dogs, stupid dogs." He Peng yelled, he was only level 160, and his subordinates were more than 160, but there were no more than 30,000 people, but there were more than 10,000 elite class 170 monsters, including more than 100 of them. Level 170 lord.

"How to fight this?" Tang Yuan asked dumbfounded.

"How do I know." He Peng cursed.

Tang Yuan looked upset at Ruan Zhongfei, who was standing beside him with a smile on his face. Just now they both met. Ruan Zhongfei didn't tell him the truth. Now he's alright, and even he is complained by He Peng. He can't wait to kill him. Ruan Zhongfei.

"Since it's attracted, let's find a way to fight it." Lu Jian eased, seeing that the atmosphere was not right.

"How to fight?" He Peng asked coldly.

Lu Jian said, "Introduce them to the fortress, and then gradually separate the attacks."

Tang Yuan immediately said: "This idea is good. This is all 170 elites and lords. Exploding them is all good things."

He Peng was a little emotional, and said, "Okay, let's try it out and get the brothers ready."

Tang Yuan was relieved and rushed to prepare with Lu Jian and others.

Lu Yang has stopped killing monsters. He is standing in the corner of the demon group and examining the blue dream fortress. It just happened that he saw the city gate open.

He sent a message to Tu Feng and asked, "Ask our spy, He Peng, what are they going to do?"

Tu Feng quickly replied, saying: "Lan Meng Fortress was attracted by Ruan Zhongfei to more than 10,000 level 170 corner devil elites. He Peng is ready to put the corner demon into the fortress to attack."

Lu Yang gave a cold hum. He Peng thought it was good. He said to his neighbor Suhabi, "My friends among human beings told me that they want to lure us into the fortress and then attack us."

"Huh?" Suhabi was furious and asked, "So how do we fight?"

Lu Yang smiled and said, "I have a good idea. After rushing into the city gate, instead of entering the city, we will go to the wall and kill all the enemies who want to encircle us."

"Okay, just do that." Suha Bahaha laughed and immediately issued an order to his men.

"Woo ~~!"

"Woo ~~!"

The sound of the six low-profile corner demon horns sounded at the same time, and the leader of the front corner demon general understood the command and shouted, "Crush into the gate and go up the wall."

More than 3,000 elites swarmed into the opened city gate. Just when He Peng and others imagined that the corner devil would be introduced into the city, the general of the corner devil vanguard charged and reached the top along the city wall stairs. Not far from the gatehouse.

"Corner Demon Legion, attack!" General Devil rushed towards the crowd.

He Peng was standing in the middle of the gate building. The lord blame a charge into the crowd, scared He Peng almost stared out, shouting in horror.

"Everyone is not allowed to attack, no one is allowed to attack, defense, war and treatment, only 5 people are allowed."

There were hundreds of people on the city wall. Once they all attacked the General Demon Vanguard, the General Demon Vanguard would instantly have 200 offensive and defensive powers and health.

Fortunately, under the training of the city walls, He Peng's men were quite qualified. Only a few of them attacked, and most of the others ran backwards.

General Jiaojiaomon was quickly blocked by the defense, and the rest of the players also retreated beyond 100 meters. Tang Yuan, Kong Qing, and others participated in the battle one after another, and General Jiaojiao began to lose a lot of blood.

He Peng saw that it was stable, and took a long breath, saying, "Hurry up, kill him quickly, and don't blame him, be careful."

"Rest assured This time I have escaped."

"It's definitely not to blame."

...

Ruan Zhongfei and Delige stand a long way.

Tang Yuan glanced at them, and said to He Peng with a smile: "Boss, this is a lord monster that I haven't seen before. It will definitely explode. It will explode for the first time."

He Peng also reacted, showing a frantic look in his eyes, and features in the game. Any lord monster that has not appeared before, the first time it is killed, will drop good things.

But without waiting for an extra second of excitement, the staircases on both sides of the gate tower shouted and killed, and a large number of curved corner melee elites rushed up.

"Not good, it's strange. The Elite Squadrons rushed up."

He Peng was dumbfounded, the lord's monster's blood was down by one third, and he yelled with his teeth, "Who led me?"

Chapter 1466 - Slaughtering Blue Dream Fortress

The crowd looked towards the first player to attack, Ruan Zhongfei was running like a dog.

"I tm, I ..." He Peng was mad, he pointed at Ruan Zhongfei and cursed: "You are a silly dog, you are a silly dog."

Ruan Zhongfei was aggrieved, and yelled as he ran, "It's not me, it's really not me, I've been hiding forever."

"Isn't you still me, I saw it. Blame him first." Delig shouted mockingly not far away.

Ruan Zhongfei had just been harmed by He Peng for a while. He was devalued for a while, and he didn't have a chance to vent it. Regardless of whether he saw it, he was willing to do anything that could make Ruan Zhongfei unlucky.

"You see a ghost, Lao Tzu is behind you, and you have eyes behind your head." Ruan Zhongfei was anxious.

"I saw it, I saw it," Shouted Delig.

He Peng was furious and shouted: "It's still noisy at this time. Hurry up and lead the mobs away. Hurry up."

"Oh, I'll take them away." Ruan Zhongfei jumped towards the inside of the city wall, preparing to lead the monster downstairs. Suddenly, he saw a name under the city building-the King of Angles.

"I'm going to your second uncle." Ruan Zhongfei instinctively launched his jumping skills towards the back. Over countless people, Ruan Zhongfei watched the second-angle Devil King farther and farther away from him in the sky, and he felt a little relieved. Did not lead him.

With a bang, Ruan Zhongfei landed. At the same time, a frightened face appeared in front of his eyes. Then, the face became angry and shivering.

He Peng roared: "Ruan Zhongfei, you die for Lao Tzu."

Ruan Zhongfei looked around blankly, only to discover that he had just jumped into the 20-member squad of generals who jumped backwards and jumped off the corner and attacked the general with a corner.

"Hoo ~ ha ~!" The voice of the Elbow Elite Warrior came from not far away. His eyes crossed He Peng's face, and he found that more than 30 Elbow Elite Warriors had just been led away by him. Before it.

It can be determined that the general with a corner devil can't fight. The 30 elite warriors can use the mirroring skills to become 60 elite warriors. Everyone can kill a player with a knife, let alone they have a lot of control skills. And group attack skills.

Ruan Zhongfei looked at He Peng with a grievance and said blankly, "I don't blame me!"

"Dead to me!"

He Peng slashed He Peng in a rage and shouted, "Tang Yuan, you lead them away, and the others continue to attack."

"Well." Tang Yuan launched his skills against more than 30 elite soldiers who had lost their attack targets. Just as he attracted hatred, he didn't know that the two kings of the corner demon Lu Yang had already reached the wall and stood in the city. In front of the gate.

He looked at the faces of He Peng, Tang Yuan and others with a sneer on the faces, the sides of the body shone with light, the four avatars appeared at the same time, and the staff in his hand glowed, pointing at He Peng's direction.

"Mixed Spells-Fire and Wine Storm"

A 90-meter-wide and 450-meter-long dragon spouted flames, and the width of the wall was less than 90 meters. He Peng and everyone around him, and everyone within 450 meters behind him were surrounded by flames. .

Nine times the spell damage, even if it is 9 times the damage result, is not something ordinary ordinary president He Peng can't withstand even antiques.

When the flames disappeared, there was no one around General Vanguard, and everyone was killed by Lu Yang.

General Vanguard, who came to Lu Yang, said with gratitude, "I thought I was going to die. Thank you for your help."

The system prompts: The general of the cornered magic vanguard will increase your favorability by 50 points

In the game, each NPC has a favorable degree, the maximum value is 200 points. After the value is reached, the NPC will give the player a task, but this kind of favorable degree is very difficult, and most NPCs have a good degree of difficulty. Mission rewards are not proportional.

The task given by General Angle Demon Pioneer to 200 points is very good, because he is the beginning of the task of the Angle Demon Presbyterian Church. In any case, Lu Yang cannot let the brother die.

He died, and it would take a lot of effort to start the mission of the Presbytery!

“Don’t rush too fast, follow me, let my shooter team cover for you, and you launch an attack again.” Lu Yang said.

“Okay.” The General Demon nodded.

Lu Yang put on a recovery ring and frequently used small healing techniques to add blood to the Devil’s General. He had more than 2 million spell injuries. Even with Level 1 recovery, the Devil’s General’s blood was also less than 2 minutes. The volume is full.

On the city wall, Suhabi rushed over with the mage and asked, “Are you all right?”

Lu Yang said: “It was just the right time, we rushed into the city.”

The enemies on the north side of the city wall have been killed, and the rest dare not get too close to the city wall, all hiding in the city.

“The whole army is attacking!” Suhabi roared, and rushed into the city with people.

Lu Yang and General Pioneer followed closely, and the Ten Thousand-Corner Demon Legion officially launched an attack on the Blue Dream Fortress.

Except for He Peng and a few tens of thousands of players in the fortress who are at level 160, the rest are all below level 150. Where are the corner demons' opponents? For a time, players in the city are run away by the corner demons.

In just half an hour, Lu Yang penetrated the Lanmeng Fortress and went out from the south gate. There were large-scale players outside.

In the city, players only knew that there were 10,000 and 170 elites coming in, but they could n't help, they did n't pay much attention, and there was some pantothenic acid in their hearts. He thought that under the fortress He Peng in the fortress, he would make a profit Already.

The 170-level equipment is the most expensive time. It is not easy to reach this level. Any 170-level weapon must pass 50,000 credits. They want to immediately rise to the 170 level. A group of brothers accompanied them to rush in and fight. Strange, grab the treasure.

Unfortunately, that is impossible, they can only stay outside the city to kill the siege monsters around 140.

Lu Yang stood on the south wall and looked at the players outside the city who were in a daunting scene with a sneer on his face.

"It's really leisurely, almost a few million people," Lu Yang muttered to himself.

Suhabi stood at Lu Yang and asked, "Kill?"

Lu Yang said, "Of course."

"I drove them together," General Vanguard said.

Lu Yang looked at the plain in front, pointed to a lake in the distance and said, "Pull them all near the lake, on the left of Suhabi, on the left of General Pioneer, I go to the right, and wait until they all enter the lake. Nearby low terrain, attack together. "

"Okay." Suhabi immediately issued an order, and the 10,000-curved demon jumped off the city wall, swarming out against millions of players outside the city, and the players who beat the monster near the city gate were instantly annihilated.

"No, the corner demon rushed out of the fortress, everyone ran away." Players outside the city did not know who shouted escaped as hard as he could.

The 10,000 corner devil is almost in a straight line. The melee controls a distance of 5 meters, and the mage and the shooter control 50 meters, forming a large net of nearly 50 kilometers long.

Nearly a million players were plunged into the low terrain near the lake, and above the lake, there was a curved army of angled demons.

"Melee Legion charged."

"Shooter attack."

"Mage Attack"

Lu Yang, Suhabi, and General Vanguard issued orders at the same time, crushing the one million people. The curved archer could kill more than 20 people with a hash arrow, and the wizard could kill more than 30 with a range of magic damage. Humans, the melee angled demon launches a class of whirlwind skills, and the speed is not slow.

Lu Yang did not rush to shoot, he watched beside the shooter group. As the shooter killed the player, a piece of gold lighted up, 3,000 shooters were promoted, and when more than 1 million players were killed, the shooters were promoted to At level 5, the corner magician and warrior both reached level 5, and their damage increased by 150%.

Chapter 1467 - Auxiliary artifacts-silver clocks

“Happy, killing happy.” Su Ha laughed as excited as the real person, he returned to Lu Yang and said, “What shall we do next?”

Lu Yang looked around and said, “Playing on all sides, sweeping players outside the city.”

“Okay.” Suhabi was excited when he watched his players become Tier 5 players and shouted, “Take a team of 20 people, attack freely, and gather here three hours later.”

The 10,000-curved demon is led by various lords and bosses, and chases and kills players on both sides and directly in front of the fortress along the southern gate of the blue dream fortress.

“Hey ~~ Roar ~~”

The continuous roar of monsters sounded, and Lu Yang looked around, and there were tens of thousands of siege monsters around, including 130 and 140 lords.

Players who are far away from the lake do not think that the blame will actively seek them. After all, the distance is too far, and most of them can't see the situation here. I just heard that some players were blocked by the blame and killed in the lake.

Suddenly, the player still can't beat the psychological greed, and soon his energy is focused on the monster in front of him. You know, Christmas monsters are different from normal ones. Once they explode, they may be sold. Ten thousand yuan, that's a lot of wealth.

It was their group of people that Lu Yang killed. At first, he thought of overthrowing the Brotherhood of Iron Blood with He Peng, and slogged with a group of people, he won and slandered him.

At that time, Lu Yang didn't want to let these **** stain the name of the Jagged Brotherhood, and let them go. This time he had the opportunity to get revenge, he would never let them go.

Just like the guilds that are now preparing to launch a second attack on him in the Huaxia region, the Brotherhood of the Iron Blood has blocked the joint attack of the seven strongest guilds for them, allowing them to upgrade without any hassle. Swallowing the elephants, they actually want to replace the Jagged Brothers when the level of the Jagged Brothers players drops.

With the lessons of the last attack, how could Lu Yang let them chaos inside themselves? The spies in Tu Feng's hands have already entered these guilds one by one. The next outbreak, Lu Yang will let They thoroughly tasted what regrets are.

The same is true for the group of people in front of them. If they had upgraded in the Huaxia area at first, why most people can't reach the 160 level now, and a few who reach the 160 level are also flattery generations.

In the mountainous areas where resources are scarce and you need to hide and upgrade at any moment, how can those 160-levels quickly raise their levels and learn high-level cultivation? Isn't that flattery?

As for the others, they are a group of fools. Like the persecuted delusions, the ease of living in the Huaxia area is uncomfortable. They have to run out of such aggrieved lives. He Peng gave them a smile, as if it was a great honor. The same, and then continue to be exploited with great joy.

Since they wanted to follow He Peng to the end, they were enemies, and Lu Yang would not be soft to them, and started the sweeping journey with hundreds of shooters around him.

There are only 3 million players around Lanmeng Fortress. They are gathered within two hours from the fortress. The crowds are very crowded, and they are still in the midst of a mob. When Lu Yang and the Angle Demon Legion arrived, they All that was left was the cry of the crying father and mother.

Lu Yang kills from the left to the right, and then to the top, waiting for him to circle around the fortress, exactly one and a half hours, suddenly, Lu Yang found a problem.

A large number of players are pouring out of the blue dream fortress. He blinked and reacted. Suhabi and the corner-cursor General Killed Outside. Those who were killed must be resurrected in the city. If so, what is he doing Still looking for someone outside, wouldn't it be nice to stay in the resurrection point in the city?

The more he thought about it, the more he made sense. He waved his hands at more than 200 shooters behind him and shouted, "Follow me into the city."

More than 200 and 170 elite corner shooters and two boss corner shooters followed Lu Yang and rushed in from the south gate of the fortress. When they reached the resurrection point in the central area, they saw a large number of players resurrecting, The north gate of the fortress ran and tens of thousands rushed out every second, but the north gate of the fortress was only 50 meters wide. So many people could not go out quickly and blocked hundreds of meters around the city gate.

"Oh, I missed it. I knew I had been here since the beginning. How many people are here to kill people outside." Lu Yang was so annoyed that at the moment, he ordered only 200 to be left with him. The shooter jumped to the roof around the resurrection point and shot at the resurrected player.

"Mixed Spells-Fire and Wine Storm"

"Mixed Spells-Fire and Earth Storm"

"Mixed Spells-Red Lotus Explosion"

...

Lu Yang threw several big skills in succession, killing more than 100,000 people, and the North Gate was immediately emptied.

"Dididi"

Xue Yiming sent a message and said, "Boss, you need identification equipment."

"Okay, come here, I just take a break." Lu Yang said.

Xue Yiming started sharing videos with Lu Yang. Lu Yang found a safe place to rest and began to help Xue Yiming identify antiques.

“Anything has changed with Alice and the Thorn Bird today.” Lu Yang asked as he identified.

Xue Yiming said: “No, everything is normal.”

Lu Yang frowned a bit. It is reasonable to say that He Peng he killed was so miserable that Alice shouldn't come to help. He shook his head and continued to identify.

The first one is fake.

The second one is fake.

...

More than 20 cases were identified in succession. By the 21st, Lu Yang's eyes couldn't help showing a surprised look, and said, “I didn't expect this thing was found by them.”

“What?” Xue Yiming asked curiously.

Lu Yang looked at the silver clock in his hand and said, “Set this thing aside and find a way to get it to me.”

Silver clocks are a good thing. The effect is that when the blood volume is below 75%, magic immunity and physical immunity are automatically triggered for 2.5 seconds.

This is a must-have antique for killing treasures. Even if the player reached level 200 in the previous life, when the whole body was full of top-level equipment and treasures, the four antique lattices will definitely be left for silver clocks.

Because the antiques are too strong, in the official setting, a player can only bring 4 antiques, and each one has a maximum of two.

There are many types of antiques, but they are generally divided into four categories: auxiliary, attack, defense, and curse. Among the high-end players, the most expensive is this special auxiliary category. Remember that in the last life, the price of silver clocks has never been lower. After 100,000 credit points, we can see that this thing is rare and precious.

"I try." Xue Yiming frowned and glanced at the black yarn sold at the door.

Lu Yang also knows that this is very difficult, but this one is much better than the first-class antique bronze armor. The bronze armor can only block one attack. This can last 2.5 seconds, which is too much for him.

"Next, I will identify." Lu Yang said.

"OK." Xue Yiming continued to pick up the next antique.

The identification here, Lu Yang did not forget the attack. After re-familiarity with the identification, he has been able to do other things while performing the identification. Besides, the attack in front is too easy. There are 200 shooters to protect him. He All it takes is a mindless throw of skills into the safe zone.

An hour later, Lu Yang identified more than 60 antiques, and the three-hour gathering time was approaching. The horn sound of the curved corner magic collection had sounded outside the city.

He looked at the level and killed players for three hours in a row. His Fire Basics rose to level 166 0%, all four avatars rose to level 155 0%, and the remaining 200 Elite Elves behind him all Raised to level 175, level 7.

If Lu Yang had the intention to upgrade the level of his fire body alone, the person who had just been killed for three hours can be directly upgraded to level 173, but he is a bloodline of avatars and must upgrade all five bodies, otherwise the other robes are worn Not up to level 170 dark gold.

The point of resurrection was basically not resurrected by He Peng's men. He stood up and ordered the corner demons: "Let's meet near the lake."

200 people immediately put away their bows and arrows, and as Lu Yang walked out of the fortress, when Lu Yang took the man back to the lake, Suhabi and the General of the Cornered Demon Pioneer had returned to the lake. Everyone was killed a lot beside him. The corner demon, but all the remaining corner demon have been upgraded to elites above level 3, even the boss has been upgraded by at least level 3.

"It's a pleasure to kill." Suhabi was very excited, and said, "In this way, I will have a very elite army. When I go back, I will occupy the entire secret realm, and I will be the king there."

Lu Yang asked with a smile: "How many people are left."

The General Demon Vanguard said: "There are 2082 soldiers left, 1918 wizards left, and 2232 shooters left Lu Yang said:" It's not bad, and summon 4000 elites to stay in the Blue Dream Fortress. At the various resurrection points, we took the rest to the north, and most of the enemy players ran to the Ralbagh fortress. "

"Okay, attack north." Suhabi waved a large hand, and the remaining more than 6,000 cornered demon headed towards the north side.

Along the 140-level avenue leading to the Ralbagh Fortress along the north side, the players who were originally in the Blue Dream Fortress are fighting monsters along the way.

He Peng fled to the Ralbagh fortress. At this time, He Peng had already succumbed to suicide. From the start of "Second World" to today, the first time the fortress boss was taken out by a monster, Doomed, he will be smirked by players for a lifetime.

"Ruan Zhongfei, I will never let you go, I will never let you go, you silly dog, silly dog." He Peng was mad at standing on the south wall of the Ralbagh Fortress. Shouted.

Tang Yuan and Kong Qing and other vice-chairmen stood beside He Peng, and no one dared to come forward to persuade him. This incident was indeed caused by Ruan Zhongfei. The elite players in their hands each died at least 2 times, many more. Five times, this has a huge impact on the guild.

.

Chapter 1469 - The black widow who was miserable by Lu Yangkeng

Heisha and more than 20 people looked at He Peng to organize the team, with impatient expressions in their eyes.

“What a waste, the whole team has been so long.”

“When we were at level 140, we were challenged at level 170 and we really didn’t understand why they were so crap.”

“I really don’t want to wait for them, how about we fight first?”

...

More than 20 people chatted.

Heisha smiled slightly, saying, “Let these wastes open our eyes today, let them know our strength, and save the boss the trouble of future management.”

Everyone nodded.

He Peng, while arranging the team, looked at the black veil and others in the distance, cursing in his heart: a group of people knew that they were watching the scenery without doing anything. Sooner or later, you will have a bad day.

“Can you hurry up and see what we are doing?” Heiyan asked awkwardly.

“That, it’s done right away, it’s done right away.” He Peng was startled. He received the news from his team and hurriedly ran to the black gauze. It’s ready to attack. “

Hei Sha has seen the scenes of the entire top guilds fighting, watching He Peng frown and asked, “Why so slow? The hundreds of thousands of guilds are faster than yours.”

He Peng wiped his sweat and sighed inwardly. He had done his best, but said sorry in his mouth, “blame me, I must be faster next time.”

The deputy captain Wynte said with a mockery: “He is a non-enterprise guild president, what team can he take, don’t delay time with him, let’s fight.”

He Peng’s face turned red, but he still said, “You are right, I will definitely improve in the future.”

Heisha gave an ironic glance at He Peng. He didn’t understand why this Chinese could humble to this extent for rights and money.

“Began to do things, each of them attracted 25.” Heisa ordered.

Twenty people, such as Wyent, nodded one after another, and rushed towards the corner demon team, but they did not notice He Peng’s eyes. He Peng’s eyes were full of jealousy.

But he felt helpless for a while. These people were the top elites sent by Alice. Although he didn’t know where Alice came from, each of them had a level of 170, a dark gold body, and a body. The kind of self-confidence and majesty that emanated, he could guess how these people usually challenge and fight against monsters.

“Don’t let me find your painful feet, don’t let me find your painful feet, otherwise I won’t let you go, I swear, I swear poison.” He Peng stood up and stared at the black veil. .

Lu Yang hid in the forest to watch. The 20 people were wearing black masks, including the black veil. He couldn’t see the features of these people. After thinking about it, he decided to give it a try.

He secretly contacted Suhabi and said, “Twenty people rushed towards the team, and the mage boss set fire to them.”

There are about 2,000 mage left. Among them are 20 boss-level mages, all of whom have reached level 173 and 5th level of damage, and the damage is level 173 boss. The level 5 is increased and the damage is increased by 150%.

The corner magician’s housekeeping spell skills are dark spells-Shadow Wrath, throwing a shadow energy to the designated target location, causing 100 million damage to the 50-meter area around the target. This skill cannot be avoided, only by fighting against the war, the total health of the 170 mage is only over 20 million, and he will die if he hits.

“Leave it to me,” Suhabi replied.

“Mage prepares.” Suhabi smiled and looked at 20 people, such as Heisha, rushing forward, when they entered the 200-meter attack range.

“attack”

The front cornered warriors turned sideways, dozens of level 173 level 5 cornered magicians bosses showed their figures, their respective right-hand staffs pointed forward, the black light turned on, and Wynte and others felt bad immediately, but they just I wanted to leave, but it was too late. The 20 elite players in the Thorn Bird organization did not even react to the instant spell by 16 seconds.

Black gauze was also among the attacked, but he was lucky and had silver clocks on his body. He saved her life at the critical moment, but she only had 25% of her blood, and she was still 100 meters away from the stranger. With only four people left, she responded quickly to this situation and shouted, “Retreat, retreat.”

Four people did n't need her shout, they have already started to retreat. They are lucky and they are all thief professions. When they do n't feel good, they start the magic avoidance effect one by one.

“Shadow Step”

The black yarn jumped back 50 meters quickly, and then a black light appeared from the body.

“Strong Art”

The black gauze hid in the darkness and escaped the sight of the Devil's boss from 250 meters away. Those 4 people also released the same skills.

Suhabi lost his target and sent a message to Lu Yang: “The enemy has disappeared.”

Lu Yang said: “Fast forward, they all have resurrection.”

None of the 14 people who had lost their equipment proved that they had a resurrection stone. As long as they were given a chance, they would immediately jump up and run away.

“resurrection”

A light lit up and 14 people were resurrected at the same time. In the next second, all the life-saving skills were released and they fled, leaving only a blankness in Suhabi's eyes.

“Run away,” Suhabi said in a message.

Lu Yang sighed, these tricks are nothing, any expert can use them, not to mention the elite players in the Thorn Bird organization, he is not discouraged, he never thought that he could kill them all at once, just kill them. The resurrection stone on his body is a victory.

“No rush, wait in place, wait for them to provoke the next time.” Lu Yang said.

“Okay,” Suhabi replied.

Outside the forest.

He Pengzheng and Tang Yuan and others stood together and looked at the distance. He was cursing the black veil and others who failed, but they also knew in their hearts that the black veil would not fail. After all, they were only pulling the 170 elite. It's strange, it's not copying, and there is such a wide space. These people are all elites and should be successful in one go.

He even nervously prepared all his players to be ready to support them at any time, for fear of a fault and then abused by Heisha and the 20 people, but when he was staring at Heisha and others, he saw the group of Heisha. People are blamed for seconds!

“Happy, happy!” He Peng's heart was like taking a sip of cold mountain spring water in the summer, how could he never have thought that this group of people who had just pretended to hang up.

More than 10,000 people, including Tang Yuan and Kong Qing, were stunned. They just looked at them just now, but they just hung up.

At a position 50 meters in front of the position, a flash of light flashed, and 20 thorn bird elites, such as Black Gauze and Wynte, showed their figures.

“Damn, why is this weird vision so far?” Wynth scolded angrily.

“The 170-level boss has a field of view of 200 meters away, which is problematic,” said a Thorn Bird player.

Heyang turned back and stared at He Peng, not far away, just to see 10,000 people staring at them. He Peng's face seemed to write that you are at this level, for a moment, his face was flushed with redness. Fortunately, she was covered by a veil, otherwise she would be complacent.

“Don’t you say that their field of vision is only 100 meters?” For the first time, Hei Sha was ashamed, and she asked He Peng angrily.

He Peng was watching the joke, and he was speechless with a look on his face, and said, “This, this blame me, how can I know.”

“Asshole,” Wynd hurried, cursing: “The most basic intelligence work can’t be done well, is there **** in your head?”

He Peng was very wronged and said, “It is indeed 100 meters. We were all killed this way before. Besides, you won’t let me talk before.”

Some people in Heixa and Wynte had some reasons for loss. When they first arrived, He Peng did not have the opportunity to speak at all. Even the information of the corner devil was only seen from the information reported by He Peng before.

In their hearts, they did not look down on these 170-level elite monsters, let alone He Peng and others.

“Are they all upgraded?” Tang Yuan stepped forward and said with a little dread: “They have all reached level 173, with five stars on their heads.”

Hei Sha said uneasily: “We saw it a long time ago, but this should not be 200 meters away.”

A Thorn Bird player frowned and said, “I observed it just now. It wasn’t the corner warriors in the first row that attacked us, but the corner magician boss behind us. We were thrown away by their skills. . “

The black gauze secretly made a big noise. I didn’t expect that the boss in the strange group was not in the middle area, but it was at the front. But if you think about it, they can also understand that the boss has a far wider vision than the elite, so the boss rushed to the front. It’s normal.

“Forget it, let’s try it again. There are 40 bosses in these 4,000 monsters. Most of them are concentrated in the middle. Let’s go and explore on both sides and follow me invisibly.” Heisha said.

The four thieves moved forward with Heisha invisible, but what she didn't know was that when Heisha and He Peng were discussing, they were too close to the rear position, and the spy who actively took part in the Iron Brotherhood heard all the conversations. Therefore, Lu Yang heard it.

Lu Yang sneered and said to Suhabi: "Order the Lord of the Curved Corners to go to the two wings, and there are 5 invisible ones, kill them."

"Haha, it's easy," Suhabi said.

Lu Yang continued: "Stay one and force him into the forest. I will come out and kill all of them."

Suhabi replied with a word of gratitude, and brought 5 lords to the forefront. He was considered to be a total of 10 lords. In this killing, all 9 who followed Suhabi survived and all rose. At level 173 of the seventh-order state, five of them were beside Suhabi, and the other four were in the forest beside Lu Yang.

The vision range of the lord is not much different from that of the boss, but they have the effect of breaking stealth. The talents brought by the black veil are close to the forest side and walk to a distance of 50 meters in front of the first row of corner demon. Black gauze and another person.

"The inferno is invincible!" General Vanguard roared, jumped out of the battlefield and landed in front of the black yarn with a sledgehammer in his hand.

“嘭”

Black yarn is indeed a master, and the Shadow Step skill was instantly launched to avoid it, but this hiding became apparent, and the pioneer General launched the interception skill again.

The black gauze threw the escape dagger towards the forest in the midst of this round. When the lord slammed into him, a white light appeared. She jumped a distance of 120 meters into the forest. Then, she did not wait for the lord. The strange response came, and her body showed a black light.

“Strong Art”

The black gauze disappeared in place, and she secretly relieved, angrily cursing: "Damn, what a bad luck, even when I met the lord, I will not be so bad again next time."

Failing twice in a row, Heisha's face was a bit unsettled. She turned her head and looked at He Peng and others outside the forest. No need to guess she could think of how He Peng and others laughed at her, even if He Peng now face It was the expression of a dead dad.

Indeed, He Peng is smirking very hard now. If the first time is a mistake, then the second time cannot be said to be a mistake. These people watched Niubi coax, it turned out to be just a bunch of garbage. .

However, this is also good. At least it is not that he is incompetent, but that the corner devil is too powerful. Even if he returns to Alice, he cannot complain that he is not.

He Peng already thought about it. After a while, the black veil came over, and he must comfort her. After all, the other party is a girl, and she also has to face, maybe she can climb friendships, and work together in the future.

Unfortunately, he did not know who the black gauze was. At this time, the black gauze had decided to get rid of He Peng. No one could look at her as shame. Whoever saw it would be worse than her.

Hei Yan took a deep breath, and she decided not to have any general knowledge with He Peng first, and then to kill these strange ones, otherwise she would not be able to explain to the white devil.

"Guru ~!"

As Heisha was preparing to leave the forest, suddenly, a faint sound sounded behind her, and Heiya quickly looked back, but she saw dozens of curved corner archers behind her staring at her disappearing position. what.

She looked carefully into the forest and she suddenly sweated down. In the whole forest, there were more than 2,000 corner magic shooters.

“Damn, I care about it. I didn’t expect that there are curved corner magic shooters here.” Heisha thought in horror, if they accidentally attracted the strange in the forest, maybe the more than 10,000 people who came here would be killed. .

A flash of light flashed, and the thief who followed her appeared with the black yarn with an escape dagger, sighing to the black yarn and said, “Damn, such an unfortunate thing, I was almost killed by the lord, what are you doing in stealth? Go out and try again. “

The black-scarred boss stared in horror. The original beautiful eyes looked at the rogue player like a ghost at the moment, making the rogue player frown, and asked, “What do you think of me like this?”

As soon as the words fell, hundreds of bows and arrows shot through the thief’s body. The thief hung up without even responding, and even fell with his escape dagger.

Black Gauze’s heart was full of panic. This was a level 13 escape dagger. It was extremely expensive. She quickly walked in stealth toward the position where the escape dagger dropped, but just two steps later, she appeared in front of five identical corner demon , Their names are collectively called the two corner magic king.

Chapter 1470 - Capture the Ralbagh Stronghold

“Polynuclear explosion”

A fierce fire broke out from the body in the middle of the two angled demon kings, and the black gauze opened the shadow cape in an instant to break the control. Unfortunately, he was 0.01 seconds slower than Lu Yang.

He Peng was heading for the forest. He thought that the black veil must be too enthusiastic and somewhat inconceivable. He was embarrassed to see them twice. In order to show his sincerity, He Peng prepared a set of speeches and thought about enlightenment. Saree, give each other a step down.

He had just reached 50 meters in front of the forest, and the black veil jumped out of the air suddenly. He frowned, and secretly said in his heart: Why jumped out backwards.

It can also be considered that the black veil has a fast reaction speed. Knowing that everyone outside the forest is watching her, it will normally fall out of the nucleus explosion and must fall to the ground. However, for the sake of face, the black veil reacts with strong consciousness and physical control. , By the impact of a volley backflip, fell steadily to He Peng.

“Good skills.” He Peng turned his thumbs over Heisa and whispered, “It is indeed a master that the president has found. This backflip is so beautiful. I can see everything just now ...”

Where did Hei Sha listen to He Peng’s nonsense at this time? He yelled, “Shut up, let your men run away.”

“Me?” He Peng responded with good intentions as donkey liver and lungs, and the second response was that the black gauze girl seemed to say to let his men escape, and he frowned and asked, “Why did I escape, I finally formed a formation.”

As soon as the words fell, a 173-level, 5th-level curved corner magic archer came out of the forest. At the forefront was a rare elite named curved two-magic king.

“I wipe, why are you attracting so many weirds.” He Penghuai, no matter how stupid, he knows the big thing, these countless corner magic elite shooters chased out the black yarn woman, and now the black yarn woman Behind the standing position is the side of his team of more than 10,000 160 elites.

“Brothers, that silly old lady is so strange, run.” He Peng angrily shouted in a panic.

More than 10,000 level 160 players are watching the situation in the forest, and found that countless angled magic shooters appeared, all of them jumped in shock, and ignored other things, and generally ran away towards the back.

“Mixed Spells-Fire and Wine Storm”

Lu Yang, in the form of two kings with curved corners, blasted a flame forward 450 meters. Players in the range just ran two steps and were killed by thousands of people.

The black gauze had good luck. She was in the shadow cape and was 100% immune to magic. Seeing this, she ignored other things and turned to run away.

Lu Yang pointed forward with his right hand and roared, “Chasing.”

Suhabi shouted at the same time: “Destroy them.”

More than 6,000 corner demon rushed to more than 10,000 people at the same time. How could these people win the corner devil elite without a war horse? A large number of them were caught up and killed, and only a few escaped.

Lu Yang has been chasing the black gauze girl. The distance between the two has not been extended 50 meters. They are both in excellent equipment and have the ability to increase the speed of movement.

Lu Yang didn't dare to release the blistering speed easily, that was not the skill of the corner devil, and it was easy to be discovered by the other party. He was now waiting for the black cloak's shadow cloak time to end.

It only lasted for ten seconds. Now 8 seconds have passed, and the escape time of the escape dagger is 15 seconds.

The black veiled woman is also a rare elite monster with the corner devil. Seeing that there are only five people chasing her, the bold black veiled woman wants to fight back.

The characteristics of the rare elite are low blood, low defense, high attack, and good drop. Now that the battle has collapsed, the only thing that can restore him is to kill this rare elite. If a good thing can burst out, he can also explain to the white devil. some.

“Shadow Step”

The black veiled woman saw that the Twisted Demon King and the other strange distances had spread to 100 meters, and her body turned into a black light, which suddenly appeared behind the middle of the Twisted Demon King.

“Chaos in Time and Space”

A cold light swirled back and forth across Lu Yang’s five bodies.

“Wind Binding”

Lu Yang’s consciousness entered the wind avatar, and a hurricane suddenly appeared, and the black yarn that jumped out of the space to attack was trapped in place.

“badge”

The black gauze girl immediately lifted the wind restraint, and instantly launched her skills to jump back a distance of 30 meters. When she retreated, she spun out a poison dart and hit all five bodies of Lu Yang.

“500000”

Blood was lost on five heads at the same time, and Lu Yang knew what Assassin was the Black Sorceress. This was the sky blood that was rarely available after the second turn of time and space.

If you are a master, you can play this bloodline too well, and it is no wonder that the black girl of the last generation can get the third place in this session.

The poison dart not only has an attack power, but also has a 55% slowdown effect. Lu Yang's five avatars have now reduced their movement speed by 55% and will lose 100,000 HP every 3 seconds for 12 seconds. time.

“Heavenly Sky”

A triangle of lightning struck Lu Yang, spinning and jumping like a dart, hitting all five avatars in succession.

“500000”

“550000”

...

Each ejection increases the spell damage by 10%, and by the last one it increases by 50%, which becomes 750,000 damage.

Celestial Bloodline has a certain ability to control the bloodline of the avatar. Lu Yang can guess what the next move of the black gauze will be. Next, a Celestial Chain will trap five bodies, and use the escape dagger to fall among the five bodies to provoke anger. Skill Sky Dome Shock, and simultaneously launch Sky Dome Lightning to the surroundings. Each lightning bolt blasts the surrounding targets. During the lightning release process, the target will be strongly controlled. The Sky Dome Shock itself has extremely high damage. Lu Yang 's 20 million There is a great possibility that his blood volume will be taken away by him.

Now it depends on who is responding fast. Lu Yang watched that the left hand of the black gauze woman was ready to release lightning, and it would release control skills in another 0.2 seconds.

“Flame Storm”

Lu Yang used one of the simplest initial skills, and threw it at the positions in front of five people. In the next moment, the black yarn woman threw out the sky dome chain and threw out the escape dagger.

The white light flashed, and the black veiled woman appeared in the middle position of the five avatars. At the same time, a flame burst from the black veiled woman's feet and stunned it for 2 seconds.

When the black gauze woman woke up, the proud look on his face was replaced by panic. She never thought that she had made a mistake. Otherwise, how could the rare elite release his skills to him, it must be her speed of throwing away the dagger. Too fast, there is only one such explanation.

Unfortunately, even with countless explanations, she will die now.

“Lightning Chain”

Lu Yang's Lei Fang shook the thunderbolt in her hand, and firmly controlled the black gauze woman in place. Then, the five bodies used skills one after another, and the black gauze woman instantly had blood.

A white light lit on the black veiled woman, and all the control spells disappeared. Under the action of the silver clock, the black veiled woman resumed action.

At this time, the black gauze woman was extremely grateful to Xue Yiming, her body turned into a shadow jumping 50 meters to the side, and her heart said secretly: Thank you for going back.

The light flashed, and the black veil fell on a rock, but before he took a step forward, a fiery golden light hit her head.

“Destroy Heavy Artillery”

Lu Yang predicted that the black gauze girl would fall in that position, and killed it in one shot.

The light flashed, and the black gauze girl was resurrected in situ. She looked back in horror and looked at the Devil King, but what she saw was the second mixed spell released by Lu Yang.

“Fire and Wine Storm”

In a blaze of fire, the black veil was stunned in place. Then she landed and then put a mixed spell, Red Lotus blasted, and two 9x damage mixed spells hit. The black veil fell to the ground and the silver clock fell off. Aside.

Lu Yang flashed to the side of the black gauze woman, picked up the silver clock, a slight smile on her face, and said, “Your escape is too random, so easy for me to predict.”

Shadow step escape is one of the most important life-saving skills of thieves. Every time you run, you can appear at any point. Under normal circumstances, as long as players who have been playing in the arena for many years, they can know the location of the shadow step. It’s really rare that a master of this level, such as Black Sorceress, was easily predicted by him.

Lu Yang looked at the battlefield on his side. Su Habi led the team to kill 10,000 people of He Peng and was pursuing. He followed up. At the same time, he sent a message to Xue Yiming, saying: “Silver clocks in black yarn I was blown out, she will ask you to hide it for her and promise her, but don’t go too close to her, be careful to be used by this woman. “

Xue Yiming raised an eyebrow and said, “Can I still use her?”

Lu Yang said: “Don’t underestimate this woman, look at it. This defeat, He Peng will bear all the responsibilities. There will be no problems with the black yarn. You are only selling well here, there will be no more effects. . “

Xue Yiming nodded in surprise and said, “Okay, I will deal with it carefully, you can rest assured.”

When Lu Yang discussed the strategy here, on the other side, the black gauze had returned to the Lalbagh fortress. Wynd took 20 people and black gauze to sit in a small room, and everyone’s face was depressed. expression.

“This time I fail, I bear all the responsibilities. Let’s break up first. I’ll go to the boss to plead guilty.” Hei Yan took off her scarf and said in tears.

How beautiful the black gauze looks, the core members inside them are very clear, this is the black gauze has been covering their faces, they can't see it, and now she takes off the veil, and Wiente and others are all affected by this pear flower with rain shocked.

"Black veil." Wynte walked in front of the black veiled woman, and I said pitifully, "This is not to blame you. If you blame it, blame He Peng. It was his misinformation and misleading that led us to lose The responsibility lies with him. "

While talking, he winked at the rest of the staff. They were together and did so long a task together. The relationship was very good. At this time, they would rather find a scapegoat than see their brother punished, not to mention this one. Beautiful teammates.

"That's right, what kind of junk intelligence He Peng gave was clearly pitting us, trying to make us thorn birds embarrassed."

"The information is fake, and He Peng is strange. It's all his responsibility."

...

Heisha looked at Wynte and others in surprise, crying, "You have been excused for me. If the boss knew it, you would be punished."

"Well offended, that's what happened," Wynte said.

"That's it." People around him talked about blame for the black gauze, and thought of a way to put the responsibility on He Peng.

Instead, Black Gauze was like an outsider, confessed with several of them, and sent a message to the White Devil.

"What? You failed, and the 170-level elite siege monsters were also led to the Lalbag Fortress?" The White Devil felt that he had heard it wrong.

Heisha hastened to tell the story of the incident. Of course, the story was a “pass” after discussing with Wynte and others.

“He Peng, this waste.” The white devil was holding his forehead. He had some headaches. One was too indulgent last night and the other was lamented by He Peng. He knows his staff very well, without the drag of He Peng. Give them enough time, they can kill these elites, and think of how He Peng is holding back.

“Forget it, you let He Peng take all the men out of the Lalbag fortress temporarily, let’s not fight,” said the White Devil.

Alice listened to the conversation between the White Devil and the Black Gauze clearly, and frowned and asked, “Why not fight? So many elite monsters, all of it is money. Besides, I lost two fortresses in a row, how shameful. “

The white devil shook his head with a smile and said, “No way, He Peng, their strength is too low. I can’t send someone to cooperate with them. Furthermore, my main force is a wasteland copy to defeat Lu Yang and the Iron Blood Brothers. Prepare for the alliance. You don’t want to delay defeating Lu Yang because of the two fortresses and He Peng.

Alice’s face showed anger and said: “Give up the fortress, in order to kill Lu Yang, I can give up the useless waste and let Heisha tell Tang Yuan that he will replace He Peng as the chairman and He Peng will be reduced to the vice chairman. “

The white devil shrugged his shoulders and hung up the phone. He believed that the black gauze had heard it clearly.

After listening to the beep, Heiya secretly relieved, and told the news to Tang Yuan and Wyent, etc., she quickly returned to Tianyu Shencheng, and found Xue Yiming in the antique shop.

“Well, come back so soon.” Xue Yiming was lying down in the shop.

Seeing Xue Yiming’s look, Hei Sha didn’t hit a single spot, but she still came to Xue Yiming, holding back the anger and saying in soft words, “Please do one thing.”

Xue Yiming looked at Heisha in surprise and said, "When you still ask me, what's the matter?"

The black gauze took off the veil, and said with tears in her eyes, "I lost the silver clock, please, can you hide it for me, if the boss finds it, I will lose it."

Xue Yiming sighed in his heart. Fortunately, Lu Yang reminded him, otherwise the woman had such a big contrast. Even if he had a family, he could face such a stunning beauty. Ewha whispered in front of him and asked for it. Personality, it is absolutely impossible not to make fun of it.

But this woman changed her face so fast, how abnormal her heart was. If he did, I'm afraid this woman would have to get him a lot of trouble.

Xue Yiming pretended to be confused by the beauty of black gauze, and quickly stood up and said, "It's all right, I'll identify one more, and then, my identification is not 100% accurate, maybe the one you took out is fake. Well, it is also possible that I identified it wrong. "

Heisha looked at nobody around and whispered, "Thank you."

"Hey, thank you, I can help you with this, I'm a distressed child." Xue Yiming shook his head and sighed, returned to his seat, closed his eyes and hummed the tune, It is Italian vulgar opera.

Hexuan looked at Xue Yiming and secretly gritted his teeth. Not every aristocrat was as ignorant and aggressive as you. I would get back my original glory, and she turned to work.

Fort Lalbagh.

Lu Yang took Suhabi's Corner Devil 6000 Elite all the way to the city. When he was on the road, he heard Tu Feng said that the Lalbag Fortress was emptied. Sure enough, when the city was down, there were almost no players in the Fortress. Some sporadic ones do not obey the command.

He looked at the time, it was already late at night, and he said to Suhabi, "Get here today. You will be stationed and rested in place, and I will rest."

“Fight tomorrow,” Suhabi said.

“Roar ~ Ha!” Thousands of elaborate yells in unison express excitement, and even other siege monsters who went into the city with them also roared.

This way, the elite monsters and lord monsters refreshed by Lu Yang flew together and reached the Lalbag Fortress. Now the entire fortress is a monster base with a number of nearly 200,000.

Lu Yang was really tired. He quit the game and took a break from the offline. He waited until the next afternoon to log in to the game.

Just now, Tianming Zhou called and said, “Boss, Alice seems to send someone to monitor me. They are trying to counteract me.”

Lu Yang smiled and said, “Good job, continue to pretend and give them a chance to counteract.”

Zhou Tianming said, “Look at me.”

Lu Yang hung up the phone, he teleported from the demon temple back to where he left last night, the light flashed, he only came out of a body, standing on the north wall of the Lalbag Fortress in the form of two kings.

Suhabi, the demon king of angles, was standing beside Lu Yang and resting. He saw Lu Yang come out and said, “How do we fight today?”

Lu Yang looked around and asked, “Is anyone here?”

Suhabi shook his head and said, “No one came to trouble us, but my men couldn’t wait to upgrade.”

Lu Yang said with a smile: “It’s not easy, we are going through the Lalbag Fortress to Purgatory Fortress today, and I will take you to kill the true strong enemy.”

“Who is it?” Suhabi looked excited.

Lu Yang said, “One of the most powerful human guilds in the New World, the Tangerus Guild and their president, Olma.”

Thinking of Olma’s face, Lu Yang wanted to go up and kick him, it was too annoying to grow, and he didn’t know how long it was, even if it was ugly, he had a red and green hair on his head. Like a dyed chicken, the skin is still black.

At present, the most hustle and bustle is this Olma. He keeps saying that if the Brotherhood of Iron Blood comes out of the fortress and confronts him, he can destroy the Brotherhood of Iron Blood in minutes. Pack him up first.

Chapter 1471 - Shevoorma

Follow the Lalbagh Fortress to the southwest, passing the Yanyang Desert and the ancient dunes, it took 2 hours to reach the Return Wind Basin, which is 2 hours away from the Purgatory Fortress. Here, it has been entered into the Sultan V Country-the area of the Tangerus Guild.

Purgatory Fortress can be regarded as a point to enter the central area. From this point, you can go to the Japanese area of Sanyoumen gate and go westward.

To the southwest, there are not only the five Sudanese countries, but also the four countries such as the United States and the five Polands further afield, as well as Austria and other countries.

If someone has a complete map of the new continent, you can see that the central region of the new continent is somewhat like the African region on the earth.

Large areas in the central region are covered by desert and rain forest. This is a very magical area. There is a vast desert in front of them, but behind them are large rain forests. It may be sunny in the morning and heavy rain in the afternoon.

The most beautiful thing is that in the central area, rainbows in the sky can be seen at any time, and deserts are also available. Another is mirages. Some mirages here are fake, but some are secret places, and there are some special secret places that can reach antiques.

Lu Yang suspects that the thorn bird organization is now in the central region. Why the relationship between the five central countries and the thorn bird organization is so good, and it can tolerate Alice's occupation of the truce zone between Lu Yang and the Group of Eight as a buffer. The five countries in the central region made secret transactions. They were responsible for helping the major guilds to fight the secret realm, and the major guilds helped them build a super guild comparable to the Jagged Brotherhood.

Despite the knowledge of Lu Yang's speculation, it is likely to be true based on the information now available. Originally, the major guilds would develop elite players like the Brotherhood of Iron and Blood, and let ordinary players suspend participation in the war. On the one hand, it saved costs. On the one hand, it also allows ordinary players to quickly improve their level.

However, the situation now is that Liu Jie's sudden rise has seized a large area of the Cavalry Regiment, and Tolomit, who has been one of the gold masters of the Cavalry Regiment, has rebelled on the spot. Now Liu Jie's power has become extremely huge. You can enter the central plains by crossing the 160-level passage between the north and the middle.

This is why Steige has been defeated, but has received more support from the gold masters, because the three friends such as Weimen and Olma did not dare to let Liu Jie continue to grow, and wanted Steige to restrain each other. Steige has been supported by several consortiums because of the willingness of everyone except Liu Jie to be his friend.

For ordinary people, their support may be astronomical, but for the bosses of these large companies, it is just a negotiation after their meal.

Now football is no longer popular, and football and basketball are far more popular than Second World.

If you want to stand out from the crowd, as long as you say you have the strongest guild, you will immediately become the focus of all bosses.

At this stage, just like the Premier League at that time, whether it is Russia 's hundreds of billions of euros of aluminum and aluminum crocodile, or the super tyrant in the Middle East, or the super family in the United States, or the top rich on the Forbes list, or some want The profit-seekers who used the company name to get more benefits all scattered a lot of money into the Second World.

However, the situation in the New World is now gradually clear. Under the last resort of Lu Yang and many guilds, the guilds of various small countries had to merge, resulting in a situation in the central region where one guild was composed of players from five countries. .

I heard that dignitaries from various countries are exerting pressure on the Second World officials to separate the major guilds as soon as possible. There are many rich people in each country. They are more willing to invest in their own guilds or control the guilds of other countries. It's not like the guilds that are mixed up like this now.

If there is no accident, the official will make a major change in the near future, but this change is several years earlier than the previous life. This is also because of Lu Yang's rebirth. However, Lu Yang has rebirth experience. Will not let him and the guild fall behind.

...

The return wind basin, a desert area in the middle of the New World, has not only a continuous desert but also rolling hills.

The hills are red rocks that have been exposed to the sun after thousands of years of weathering. Just like blood, so is the gravel on the ground. From a distance, this is a red scenic area. You can enter it, but it feels like It's terrifying, like every inch of land here has been soaked with blood.

Lu Yang looked at the surrounding terrain and found a famous circular basin of the last century. The basin is very large, with an internal diameter of more than one kilometer. The surrounding mountains are 80 meters high on average, and the entrance is 80 meters wide, which can hold two hundred. Multiple people entering in parallel is a good place to ambush.

He said to Suhabi: "Take the mage and the shooter to ambush around the three sides of the basin. You are standing in the middle of the local area, and the General of the Angled Demon Vanguard is

ambushing at a distance of 100 meters on both sides of the entrance. I lead The remaining monsters are heading towards Purgatory Fortress. “

“Okay.” Suhabi immediately ordered.

With Lu Yang’s friendship and popularity with Su Habi now, almost 99% of the instructions he issued to Su Habi will obey.

More than 4,000 corner magicians and archers lay ambush on the ground around the three sides of the ring basin, and buried the body with the surrounding red sand. More than 2,000 corner magic were divided into two batches, divided into 100 meters at the entrance. A superior lord than this angled demon, standing 50 meters inside the entrance to the circular basin.

Lu Yang was very satisfied with this layout. He looked at the tens of thousands of siege monsters following him, with a smile on his face, and went to talk to the boss and the boss one by one.

After half an hour More than 100,000 siege monsters marched towards the purgatory fortress. At the same time, it has been found that these siege monster players are running away.

They are just a group of players below level 140. Purgatory Fortress is also a level 140 fortress. Over 100,000 elites, bosses and lords rush over, and ordinary players can’t resist it.

A 170-level map, Olma is bringing a large number of elite players to fight monsters.

“Fuck him, quickly, attack at full speed, kill them.”

“The waste over there, you are so stupid, fight hard.”

...

The voice of Orma's command came frequently. Suddenly, Orma stopped. He listened to the phone call from his men, and his face looked surprised, saying, "The devil turned towards us from the purgatory fortress. Then, there are more than 100,000 140-level elites and lord monsters. Very good. "

He hung up the phone, exclaimed his teeth with big white teeth, and shouted, "Guys, come here to work, call me, we'll go to Purgatory Fortress."

Chapter 1471 - Shevoorma

Follow the Lalbagh Fortress to the southwest, passing the Yanyang Desert and the ancient dunes, it took 2 hours to reach the Return Wind Basin, which is 2 hours away from the Purgatory Fortress. Here, it has been entered into the Sultan V Country-the area of the Tangerus Guild.

Purgatory Fortress can be regarded as a point to enter the central area. From this point, you can go to the Japanese area of Sanyoumen gate and go westward.

To the southwest, there are not only the five Sudanese countries, but also the four countries such as the United States and the five Polands further afield, as well as Austria and other countries.

If someone has a complete map of the new continent, you can see that the central region of the new continent is somewhat like the African region on the earth.

Large areas in the central region are covered by desert and rain forest. This is a very magical area. There is a vast desert in front of them, but behind them are large rain forests. It may be sunny in the morning and heavy rain in the afternoon.

The most beautiful thing is that in the central area, rainbows in the sky can be seen at any time, and deserts are also available. Another is mirages. Some mirages here are fake, but some are secret places, and there are some special secret places that can reach antiques.

Lu Yang suspects that the thorn bird organization is now in the central region. Why the relationship between the five central countries and the thorn bird organization is so good, and it can tolerate Alice's occupation of the truce zone between Lu Yang and the Group of Eight as a buffer. The five countries in the central region made secret transactions. They were responsible for helping the major guilds to fight

the secret realm, and the major guilds helped them build a super guild comparable to the Jagged Brotherhood.

Despite the knowledge of Lu Yang's speculation, it is likely to be true based on the information now available. Originally, the major guilds would develop elite players like the Brotherhood of Iron and Blood, and let ordinary players suspend participation in the war. On the one hand, it saved costs. On the one hand, it also allows ordinary players to quickly improve their level.

However, the situation now is that Liu Jie's sudden rise has seized a large area of the Cavalry Regiment, and Tolomit, who has been one of the gold masters of the Cavalry Regiment, has rebelled on the spot. Now Liu Jie's power has become extremely huge. You can enter the central plains by crossing the 160-level passage between the north and the middle.

This is why Steige has been defeated, but has received more support from the gold masters, because the three friends such as Weimen and Olma did not dare to let Liu Jie continue to grow, and wanted Steige to restrain each other. Steige has been supported by several consortiums because of the willingness of everyone except Liu Jie to be his friend.

For ordinary people, their support may be astronomical, but for the bosses of these large companies, it is just a negotiation after their meal.

Now football is no longer popular, and football and basketball are far more popular than Second World.

If you want to stand out from the crowd, as long as you say you have the strongest guild, you will immediately become the focus of all bosses.

At this stage, just like the Premier League at that time, whether it is Russia's hundreds of billions of euros of aluminum and aluminum crocodile, or the super tyrant in the Middle East, or the super family in the United States, or the top rich on the Forbes list, or some want The profit-seekers who used the company name to get more benefits all scattered a lot of money into the Second World.

However, the situation in the New World is now gradually clear. Under the last resort of Lu Yang and many guilds, the guilds of various small countries had to merge, resulting in a situation in the central region where one guild was composed of players from five countries. .

I heard that dignitaries from various countries are exerting pressure on the Second World officials to separate the major guilds as soon as possible. There are many rich people in each country. They are more willing to invest in their own guilds or control the guilds of other countries. It's not like the guilds that are mixed up like this now.

If there is no accident, the official will make a major change in the near future, but this change is several years earlier than the previous life. This is also because of Lu Yang's rebirth. However, Lu Yang has rebirth experience. Will not let him and the guild fall behind.

...

The return wind basin, a desert area in the middle of the New World, has not only a continuous desert but also rolling hills.

The hills are red rocks that have been exposed to the sun after thousands of years of weathering. Just like blood, so is the gravel on the ground. From a distance, this is a red scenic area. You can enter it, but it feels like It's terrifying, like every inch of land here has been soaked with blood.

Lu Yang looked at the surrounding terrain and found a famous circular basin of the last century. The basin is very large, with an internal diameter of more than one kilometer. The surrounding mountains are 80 meters high on average, and the entrance is 80 meters wide, which can hold two hundred. Multiple people entering in parallel is a good place to ambush.

He said to Suhabi: "Take the mage and the shooter to ambush around the three sides of the basin. You are standing in the middle of the local area, and the General of the Angled Demon Vanguard is ambushing at a distance of 100 meters on both sides of the entrance. I lead The remaining monsters are heading towards Purgatory Fortress. "

"Okay." Suhabi immediately ordered.

With Lu Yang's friendship and popularity with Su Habi now, almost 99% of the instructions he issued to Su Habi will obey.

More than 4,000 corner magicians and archers lay ambush on the ground around the three sides of the ring basin, and buried the body with the surrounding red sand. More than 2,000 corner magic were divided into two batches, divided into 100 meters at the entrance. A superior lord than this angled demon, standing 50 meters inside the entrance to the circular basin.

Lu Yang was very satisfied with this layout. He looked at the tens of thousands of siege monsters following him, with a smile on his face, and went to talk to the boss and the boss one by one.

After half an hour More than 100,000 siege monsters marched towards the purgatory fortress. At the same time, it has been found that these siege monster players are running away.

They are just a group of players below level 140. Purgatory Fortress is also a level 140 fortress. Over 100,000 elites, bosses and lords rush over, and ordinary players can't resist it.

A 170-level map, Olma is bringing a large number of elite players to fight monsters.

"Fuck him, quickly, attack at full speed, kill them."

"The waste over there, you are so stupid, fight hard."

...

The voice of Orma's command came frequently. Suddenly, Orma stopped. He listened to the phone call from his men, and his face looked surprised, saying, "The devil turned towards us from the purgatory fortress. Then, there are more than 100,000 140-level elites and lord monsters. Very good. "

He hung up the phone, exclaimed his teeth with big white teeth, and shouted, "Guys, come here to work, call me, we'll go to Purgatory Fortress."

Chapter 1473 - Attacking the Purgatory Fortress

Allma and the more than 30,000 people he brought with him died.

The reason why Abi Hell is so strong is not only because he is 20 times the magic crit, but also because this skill cannot avoid it.

No matter how you protect the battle, after all, there are dead ends. There are yellow springs and earth swords below, wind around, thunder above, and ubiquitous high temperature. In addition to using the invincible skills of the Paladin, or bronze armor, etc. Antique artifacts, otherwise, with Lu Yang's more than 2 million law injuries, there will be no doubt.

Lu Yang was confident that he would win the championship again this time. It was also because of this move that he went to the place where Olma dropped his items and picked up a silver clock and a 160-level dark gold sword.

"Olma is in a hurry right now." Lu Yang gave the silver clock to Moisture, and he already had two silver clocks, including his own.

The silver clock is too rare. It is estimated that Olma was lucky enough to get it. In exchange for the president of other strongest guilds, he may not have such a treasure.

Lu Yang looked at the equipment dropped by the rest of the people. The 160-level dark gold weapons on the ground surprised Lu Yang the most. The night king turned out to be a 170-level dark gold sword, although rare, Lu Yang didn't look down, so he didn't pick it up.

Suhabi walked in front of Lu Yang and said excitedly: "This battle kills you, where are we going next?"

Lu Yang said with a smile: "Just wait here, I believe Olma will be back soon."

As Lu Yang said, Olma, who was resurrected half an hour away, saw that her baby silver clock had fallen off. She was so angry that she shouted again and again: "Gather, fight back with me, fight back."

The night king frowned and said, "I feel these strange problems, should you wait?"

"Less nonsense, come together." Orma had scolded, no matter who he was, he was not pleasing to the eye.

The King of the Night saw Olma treating him for the first time, and stood a little surprised. Mares and other vice-chairmen were also angry, as if something had happened.

A team of 30,000 people quickly assembled, and Olma switched to the mount, and it took only ten minutes to reach the ring basin.

When he arrived at the entrance, he saw a large block of strange creatures standing in front of him. He breathed a sigh of relief, and said, "Frightened me, it's so strange that no one can get in."

"Have you lost something?" The Dark King asked cautiously.

Olma nodded and said, "I have lost an extremely important antique, that is my reliance on participating in global competitions. With him, I am confident that I will be in the top ten."

The night king was surprised and said, "Is there such a thing?"

Olma smiled proudly and said, "Pick it back for you to see, everyone fights, quickly fights, clears out the surrounding monsters."

Mares and other vice-chairmen and the head of the army led their respective teams and began to clean up the surrounding Christmas siege monsters. After a great deal of effort, the monsters outside the crater were gone. The entrance to the annular basin.

"Rush in," Olma shouted.

Mares responded, the first to lead people into the crater, but before they rushed in, red light appeared around them.

“Mixed Spells-Red Lotus Explosion”

Lu Yang stood behind a group of angled devil in the form of two angled demon kings, pointed his right hand forward, and centered on Olma, a fire thunder spear appeared on the ground around 500 meters. The horse was left with blood instantly, and all the elite players were killed.

“I ...” Orma was mad, still this move, still hurt so high.

“Meteorite Falls”

A huge meteorite fell in the sky, hitting Olma.

Olma, die!

“what’s the situation.”

“How do you fight this?”

“Weird so strong?”

...

The Targrus elite, who was 500 meters away, was dumbfounded. They didn’t know how to play. It was strange that they attacked first, which was beyond their expectations.

“Mixed Spells-Fire and Earth Storm”

Lu Yang's right hand continued to the left, and a fierce fire lit within 500 meters on the left. More than 10,000 people died instantly. He looked at the monster to the right.

Suhabi roared: "Offensive!"

The Devil General rushed out first, followed by Suhabi's wizard group, and finally the shooter group.

The elite players of the Tangerlus Guild did not think of it. One day, the lord blame would take the initiative to attack them. For a while, they ran away and were killed.

"Happy." Suhabi laughed at the scattered players.

Lu Yang said, "The Purgatory Fortress is ahead, it's our turn to attack."

"Okay, let's attack the purgatory fortress." Suhabi took out the horn and blew it hard, and more than 6,000 cornered elves returned to the team and rushed towards the purgatory fortress.

On the other side.

Olma was revived again, and he was already so angry that he rushed back to the circular basin with people, but this time around, only the local monsters brushed out around the circular basin, and the corner devil were all missing.

He ignored others and rushed into the basin with a person. After some killings, he came to the place where he died, but in the equipment everywhere, he did not find the silver clock.

"Where's my antique? Who picked it up? Who picked it up?" Orma stared at the **** eyes with blood-red eyes.

Mares was a little hesitant, and asked, "Boss, it can't be our brother's stealing, will it be somewhere else?"

Olma absolutely does not believe that the previous wave of attacks killed more than two-thirds of the players, but nearly a third of them were not dead. Furthermore, just rushed over, who knows if anyone sneaked into him Pick up equipment in the dead.

“Never go offline or leave, I’ll check them one by one,” Orma said, staring.

Mares was dumbfounded and said, “Boss, this ... this is not good.”

“Is it on you?” Olma stared at Mares’ eyes.

Mares quickly shook his head and said, “How could it be me, I’m the vice chairman, just follow you, what do you want that thing to do?”

“Then you’re going to check it out soon,” Olma scolded.

Mares quickly nodded and went to check one by one.

The night king looked at the angry Olma and asked, “What about those corner devil?”

“I care about what corner devil he is, I just need to find my treasure now.” Olma said grimly.

The King of the Night was helpless, turned to find a place to rest, and watched Olma’s inspection alone. He always felt that there was a problem with the corner devil, but he tried it. The king and the vanguard were normal. The two kings just broke out. Taller, the name is still rare and normal, which makes him think.

He couldn’t think of it. The second king of the corner devil was changed by Lu Yang. When Olma searched for half of his body one by one, what he didn’t know was that Lu Yang took the corner devil to the outside of the fortress. Already.

Purgatory Fortress, although it is built on the desert, is one of the three channels to the G8 in the central region, and is one of Olma’s important player gathering places, with nearly 13 million players.

At this time, it was during the monster siege period. A large number of siege monsters had just been refreshed and slowly moved towards the fortress. Tens of millions of players were standing around the city wall to fight monster explosion equipment.

The appearance of Lu Yang and more than 6,000 corner demon did not attract the attention of the players, because there are hundreds of thousands of monsters around the fortress, and more than six thousand can not be seen.

“Everyone cheer!”

“It’s all experience, a rare opportunity!”

“Today’s defense is over, and I can upgrade.”

...

The excitement of the players reached Lu Yang’s ears, and he led the Elite Legion to push away the other elite monsters blocked in front of him to the gate position.

Those monsters were just like humans. First, they glared back in anger. When they saw a group of elite monsters from level 173 to 175, they evaded to the sides and made way for them.

This is a fortress of level 140. The siege monsters are also between 130 and 150. A group of 170 emerges, and the siege monsters can’t afford it.

In front of the city gate, there is a logistical vice president Tyron, who is under the command of Olma. He guarded the door with more than 5,000 players. Not only did he blame here, he also started business at the door. , Gems, and everything you can buy at the door.

“The doorway is the territory of the Tangerlus Guild. It is only allowed to buy and sell things, and stay away from the monsters.” Tyron himself stood at the door and roared.

There are new players around to quickly avoid, and there are players to buy and sell things, Tyron changed his clothes and said, "Now it is a holiday, the price of gems is 65%, and equipment is 20%."

...

Players who sell things are also very helpless. This is the same as buying strong and selling strong. If you dare not sell, you must be targeted. You all know the personality of Olma and the uncle Tyron in front of him, or he will not trade or only I recognize it.

"Boss Your business is beautiful. If you continue in this way, the money we make in a day is several times more than the money made by the president." Said.

Tyron showed his iconic white teeth, held his big belly, and nodded his face in a frosty face, ignoring Mu An.

Mu An turned back uninterestingly, cursing inwardly: sooner or later, you have a bad day, so many things are here, let people grab, what do you do?

"Hello ~ ha ~!"

Mu An hid under the shield without raising his head, and said subconsciously, "Come on, the mage swarm, the archer scatter arrows, heal and add blood, and defend against the war."

Putting it all together, Mu An is going to be lazy. He is the commander of the army. Although there are only 5,000 people now, he does not need to fight monsters himself. Besides, they are all 130 to 150 monsters, and 140 to his men. For level dark gold players, it's too easy.

Tyron didn't look at the monster position either. His eyes were gazing at the players on both sides, and he also called him to arrange to monitor the players around him and ask which side broke out. Now, he can buy it.

Chapter 1474 - massacre

The front row of anti-battle and anti-riding did not see the siege monsters who rushed over. They just need to hide under the shield that is one meter and five meters high. They have no brain to thunder and dedication to attract hatred. The attack is a mage. Responsibility for long-range output with the shooter and treatment is the responsibility of the priest. The whole battle has nothing to do with them. Some lazy ones have opened live channels to watch the recent hot female anchor performances.

The output of the mage and the shooter is also a brainless attack. Anyway, the shield in front of the defense is all strange. Throwing magic and bows and arrows at a fixed position is good. Knowing that there is healing and defense, they even played the game when they were bored. New cards.

This is a card similar to poker. The gameplay is very simple. There are 5,000 cards in total. Most of the lord monsters from level 10 to 200 are printed on it. Each lord monster has different roles, including attack, Defense, Assist and Curse.

Each round is played by four people. Each start has a city wall and a king. After the start, each player draws 5 cards. Use the attributes of the lord card to increase the defense and health of the city wall and the king, or attack the opponent's. City walls and kings.

Cards can be chosen to attack together. The most powerful of these is that the five cards are all monsters of the same race. You can play them together for maximum effect.

Mage A: "1 Level 30 Skeleton Tyrant."

Master B: "Side dish, two elite corpse kings at level 30."

Archer A: "Look at me, a Level 50 Demon Soul."

Shooter B: "Not as good as me, I have two 80-headed nine-headed dragons."

...

The only real priest in the audience was the priest. Suddenly, the priest stared at his eyes and said, "Look, three 170-level curved lords."

The four big names looked at the priest at the same time and asked in unison: "Who, who has such a good card."

When this card is played, the game is over. Three 170 level lords can start a family in seconds.

The priest looked at the four of them, and pointed at the strange monster in front of the defense with a speechless expression, "He."

The four of them blinked, turning their heads blankly and looking straight ahead, just to see the three lords of the King of the Devil Sawhabi, the King of the Devil and the Vanguard General of the Devil.

"Nima, where's the level 170 lord?"

"It's tm waiting for the lord. It's dead."

...

The four shouted on the spot, and then, the shouts came one after another. All the players who played cards and watched the live broadcast were awakened by the priests around them. Five thousand people were watching the three corner lords and those who appeared at the same time Countless elbows and bosses.

Lu Yang and his four avatars stood in the first row, looking down at the thousands of mage, priest, archer, and dark animal husbandry behind the shield with his 3-meter-high body, a sneer of humanity appeared on his face.

“Finally came to the Purgatory Fortress. Since Olma is so polite and you are so hospitable, then I am not polite.” Lu Yang muttered to himself.

The spell in his soil clone reads: “Earth Spear Spikes”

“Thunderstorm field.” Master Lei avatar.

Fire Law Essence: “Yanlong Kills the Formation.”

Three magical moments merged into Lu Yang’s right-hand front end, forming a terrible three-color light ball. The light ball shot out in the next second. At the feet of Vice Chairman Tai Lun, in the terrified eyes of Lu Lun, Lu Yang roared.

“Mixed Spells-Red Lotus Explosion”

The earth shook violently, and even the city walls not far behind them shook. The rock and soil on the ground suddenly turned into spears, rushing out of the ground with flames and thunder and lightning. With Tyron as the center, every inch in the surrounding 500-meter area. There is a spear on the land, and the players in it, including the anti-war, were all pierced by the spear and died on the ground.

System prompt: you kill the player, you get 70,000 experience points

...

Countless system prompts flew over Lu Yang’s dialogue bar. He looked at the countless bodies and countless equipment in front of him, sneered, stepped forward, stepped on a player’s body, and walked towards Gate location where Tyren is.

“Curved Demon Legion, attacking both wings.” Lu Yang growled.

“Kill ~!” Suhabi and General Angle Demon roared at the same time, and one person led the angle demon and rushed to the sides of the gate.

This is a millions of 140 players! Or players who are fighting the siege monsters, there is nowhere to run.

Lu Yang shouted to the cornered archer behind him: "Army Corps, follow me into the city!"

In this fortress, there are also millions of players. These people are on-hook to set up business. There is no difficulty in killing them. The official stipulates that they must be resurrected 1 minute after death. They are the broilers with Lu Yang's brush experience.

In addition, there are players who were resurrected inside the fortress after being killed by the corner devil on both sides, and those are more.

Lu Yang rushed towards the city gate with a person, but as he passed by Tai Lun, he watched a lot of gold coins, equipment, gems and supplies falling on the corpses of Tai Lun and a dozen players around him, holding back. The impulse to pick it up.

Who would have thought that Tyron had acquired so many good things, the value is definitely over ten million, he shook his head, and just as he was about to leave, he found that there were still many skill books on the ground, three of which were silver. Especially striking.

"Soul Eater", "Hurricane Dance" and "Drink of Alcohol", Lu Yang quickly put these three skill books in his backpack. These three are the combined skills of the Hundred Snakes. I can't think of it here.

"No wonder the world says that killing is the most profitable business, sure enough." Lu Yang laughed secretly and rushed into the fortress.

At this time, the purgatory fortress has no defensive ability. Because of the previous joint attack, the seven strongest guilds temporarily stopped attacking each other. The heavy siege weapons and defensive weapons were either damaged during the war against Lu Yang, It's in the warehouse.

It's Christmas time again. The main players in Olma's hands are fighting all over the place. The only standing unit is trapped in the circular basin by Olma himself, and 30,000 people are searched one by one. It is impossible to end without a few hours.

When Lu Yang entered the fortress, no one defended, only the stupid players and the players who fled in desperation.

“Curved demon enters the city, run away.”

“Fly back to Tianyu Shencheng, this can’t be beaten.”

“Run.”

...

Lu Yang sneered, and now it was too late to run, his five bodies glowed at the same time.

“Mixed Spells-Ah Bi Hell”

Centered 500 meters in front of the gate of the fortress, Huangquan, Purple Thunder, Flame, Earth Sword, and Wind Knife raged. Tens of thousands of players were killed in this blow.

Lu Yang turned his head and looked to the side, where tens of thousands of people were standing still, and tens of thousands of people were running away.

“Let’s accept the punishment.” Lu Yang hated them for attacking his tiger mouth fortress, causing him to be almost destroyed, and his staff pointed forward.

“Mixed Spells-Fire and Earth Storm”

A huge range of flame storms drowned these tens of thousands of people. In the next second, all of them died, and Lu Yang’s five bodies lighted up, and he upgraded!

“Curved magic shooter, attack at will.” Lu Yang ordered.

More than 2,000 corner magic archers no longer protect Lu Yang, rushed to the surroundings, and started crazy attacks. Players wearing a 140-level dark gold sleeve could not bear the three attacks of the corner magic elite archer. AI IQ, several people walk together and use range attack skills. Whenever a player appears, it is a rain of arrows. Each player is attacked by at least seven corner magic archers. Suddenly, one piece is injured and the corner is The golden light on the magic shooters frequently lights up and has been upgraded!

Lu Yang’s first task this time was to upgrade the corner devil. He saw that the player had been defeated, so he no longer participated in the attack. He turned around and took a few corner devil shooters to the main city of the fortress. He had several skills in a row. Hit it, and easily entered the basement of the city’s mansion, he broke the token with a punch.

[System Channel]: Christmas Siege War, the Devil’s Legion successfully laid the purgatory fortress, and now gains control of the purgatory fortress.

Players all over the world are crazy when they see this news. Even if they do n’t pay attention to the game or who the purgatory fortress is, this sentence indicates that the purgatory fortress has been beaten by monsters, and this is already a corner. The third fortress laid by the demon.

Players have asked who the Purgatory Fortress is, and when they learned that it was the Tangerus Guild, countless people mocked Olma on the World Channel.

Who would have thought that Olma, the president of the Tangerlus Guild, one of the strongest guilds in the New World, was so stupid that he couldn’t protect his fortress and was killed by monsters.

Inside the annular basin.

Olma was already mad at this time, he only checked more than 20,000 people, and nearly 10,000 people were not searched, and no silver clocks were found on these people, which made him extremely annoyed.

Mares tried to ask, "Boss, or I'll take these more than 20,000 brothers and take back the purgatory fortress."

Olma stared at Mares for a long time and said, "Well, you'll take 20,000 back first."

Marez finally breathed a sigh of relief and shouted, "Mount the first and second legions and follow me back to Purgatory Fortress."

20,000 people were also pardoned, and they quickly put on a mount and ran out of the circular basin. Only the last 10,000 people remained depressed.

"I'll help too," said the night king.

Olma nodded.

The night king put on his mount, caught up with Mares who was running ahead, and asked, "Do you know what the purgatory fortress is now?"

"It's terrible. Tens of millions of people are being slaughtered in the fortress, or the two kings of the corner devil. One flame can hit more than 400 meters. Any skill is 500 meters in diameter. I have never seen such a strong lord. In just such a few minutes, at least a hundred thousand players died under his fire. "Mares said depressedly.

"So strong?" The Dark Lord was surprised, a lord had such an outburst in a short time, they couldn't believe it.

"Who knows what's going on, get the fortress back quickly, or we'll be dead." Mares said.

...

Inside the Purgatory Fortress.

Lu Yanggang came out of the city's main mansion, a flash of light flashed, and more than 100,000 players appeared in the safe area at the same time. He knew that it was Suhabi and Vanguard that started mass murder.

"Then I'm not polite," Lu Yang said in his mouth.

"Mixed Spells-Red Lotus Explosion"

Tens of thousands of people gathered in the middle area, Lu Yang killed them all, then put a fire and soil storm, and killed tens of thousands of people. Finally, Lu Yang took a spit of fire and wine storm, and killed tens of thousands of people.

These 100,000 people had just resurrected, and they died before they could fly back to the city and fly to the Celestial City. They could only choose to spend a high amount of money to resurrect in the cemetery at a distance of one hour.

Just after they died, another batch of more than 100,000 players died and returned to the fortress. Lu Yang's three skills were exhausted, so he couldn't care less about other things.

"Meteor Falls"

A huge fireball landed on the ground, and all players within 500 meters in diameter were killed in seconds, and then read the spell in the landing sun.

"Meteor Fire Rain"

Countless fireballs in the sky fell like raindrops.

Lu Yang's 2.6 million spell injuries, any fireball can kill a 140-level player, whether he is a defense or a mage, can not resist.

Jin Guang lights up from behind Lu Yang, and his avatar is upgraded again, but his killing speed still can't keep up with the speed of the player's resurrection. He gritted his teeth and would rather be exposed than lose the opportunity to upgrade.

“Forbidden Curse-Demon Flame Burned Out”

With the city's main government as the center, within a range of 2,000 meters, it instantly turned into a reddish light, and a large piece of flame fell from the air. The resurrected players in the four safe areas around the city's main government died.

In 10 seconds, Lu Yanglei's avatars, soil avatars, and wind avatars were all upgraded by 1 level. After another 10 seconds, the three avatars continued to increase by 1 level. After 30 seconds, the three avatars were upgraded by 3 levels to 160 levels.

Unfortunately, even if Lu Yang releases the curse like this, there are still a large number of players resurrected. The severity of the killing outside the city is unthinkable. The level of the general of the cornered magic vanguard has been raised from 175 to 179 and 6. The level reached level 180, and Lu Yang's mission was completed.

Regardless of the task, Lu Yang alone saw the upgrade speed of the General Angle Devil from the team, you can know how fiercely the outside kills, any 140 level players can't stop the general of the General Angle Devil Attack and kill a player with a swipe.

The same is true for Suhabi. His level has reached level 179 and level 8 and he can kill faster than the Devil General.

Lu Yang looked at the resurrected players in the safe area, and the tens of thousands of players who were running towards the other gates. He decided in his heart and read the spell in his mouth.

“Forbidden Curse-Ninth Hell”

With him as the center, all players within 5,000 meters in diameter are attacked by flames at the same time, and the damage is intelligence multiplied by 2.3. This skill consumes a large amount of mana, and it starts with 5 million mana, and then uses 500,000 mana per second.

Lu Yang took the top recovery potion, and only persisted for 12 seconds, and then it was empty, but it was these 12 seconds that his four avatar levels increased a lot, not far from level 160, his body It's 178.

No one knows how many people he killed, even Lu Yang himself could not count. He only knew that anyone who returned from the outside of the city died once at his place, at least six or seven million people, or nearly one Ten million people.

After an hour.

Mares finally arrived at Purgatory Fortress with the King of the Night and 2160 160 players, but when they came to the east gate of the Fortress, they saw only monsters everywhere, and the bodies and countless items of players.

Tyron was staring blankly on a rock one thousand meters away from Ximen. Mares saw Tyron and found that he was in the wrong state. He asked in surprise: "What happened?"

Tyron stared dumbly at Mares. Suddenly, his eyes became fierce, cursing around Mares' neck and cursing: "Where are you going, how did you come, how did you come, the fortress was all The monster captured it. "

Mares frowned and asked, "The whole fortress has fallen?"

Tyron cried, crying loudly and crying, "The evil king of the corners of the devil, the two kings, killed tens of thousands of people with a single flame. The brothers are all dead, and the players who fight against the fortress are also dead. Now, no player is willing to come back. Why did you come here? What use is there? Purgatory Fortress, it's over! "

Whether a fortress can make money or not depends on the number of players. Lu Yang slaughtered the fortress this time. Ordinary players have to go to the surrounding fortresses to fight for life, but this way, if these leaving players are in other fortresses, If I get used to it, I won't come back. Then, the purgatory fortress will only lose money in the future, and it will be difficult to make money again.

Tyron is the boss of this fortress, and he cries for this reason. The fall of this fortress is equivalent to his money bag dwindling, and it is also cheaper to other city owners around. How can he not cry.

Mares knew Tyron's thoughts, and was too lazy to deal with him. It wasn't him who was unlucky anyway. He didn't need to care about it and asked, "What about the corner devil?"

"Curved Demon?" Tyron cried and said, "It's all inside."

Mares nodded, the corner devil didn't have to leave, killing them was considered revenge, and he could play a lot of good things. He shouted to the 20,000 players behind him: "Press the team to attack freely, and quickly enter Inside the city. "

20,000 quickly dispersed and attacked from the surroundings of the fortress in the form of a team of 20 people At this time, many siege monsters came out around the fortress, at least hundreds of thousands, Mares took It took more than 2 hours to kill people before they entered the fortress, but none of the corner devil saw it.

What he didn't know was that as early as 2 hours after he arrived, Lu Yang left the corner devil and his mission was completed. The corner devil king Suhabi and General Vanguard had reached the level of 180. , The men of more than 6,000 corners have almost no damage, all of which have risen to level 180 and level 6.

Lu Yang's fire ontology has been upgraded to level 169, and the four avatars have been chosen to distribute his experience, which has been unified to level 162.

In the mysterious corner of the corner, Suhabi sat in the castle hall and laughed and held a banquet to celebrate victory. He raised his glass like a real person and shouted: "Cheering for our admirable Luyang warrior, it is he who leads us The battle was successfully won, and the time has come for us to revive the devil. "

The crowd raised their glasses and drank, and the elder elbow demon stood up and bowed respectfully to Lu Yangyi, "I apologize for your previous misunderstanding, and thank you for your generous help to the elbow demon legion. To express our sincerity, start today , The Corner Demon Council is open to you. "

Lu Yang made a strong fist, and that's what he wanted.

Chapter 1475 - Inflammatory Bloodline

The Devil Corner Council mission, the most secret task in the secret realm, is also the most difficult task to open. He needs to make the Devil Corner Vanguard and the player's intimacy reach 200 points.

Lu Yang did it. He helped the General Demon Vanguard to level 180 and successfully reached 200 points. Now he can enjoy unlimited rewards brought by the success of the hidden mission.

"Elder Bending Devil, if there is anything I need to do, please tell me." Lu Yang said respectfully.

The system prompts: The Elder Elbow of Angles increases your favorability by 1 point.

The Elder Devil Corner was very satisfied with Lu Yang's attitude towards him, and said, "In our secret realm, there are many annoying time and space dragons. They always kill our people. You kill them. Every time you kill them, Dead one, come to me for a reward. "

System prompt: Kill the Dragon of Time and Space and reward 10 million experience points!

Whether to accept?

Lu Yang shook his fist vigorously. What he wanted was this task. It was no longer possible to go out to kill with the Devil Legion. It would be exposed if he went out again, letting the top players know that he could control a strange monster. It must be strangled by the top studios and the strongest guild, so he can only fight monsters in a normal way.

Normally, a monster can only have 10,000 to 20,000 experience. Killing a 170-level plot elite can give 370,000 experience. However, not all of them can be attacked in a group. A few can, most of them. Still have to fight one by one, so that the upgrade speed becomes extremely slow.

Because of this, the game upgrade is so strenuous, but this task is equivalent to giving away a level, a space-time yulong with 10 million experience. Now the total experience of level-up is only 36 billion, killing 3600 time-space yulong. It 's so easy to raise a level, if you let others know, it will make you crazy.

He chose to accept the task, leaving a native avatar, this banquet can also participate in the avatar, a set of procedures will take half a day, and finally give 30 points of favor.

He came out of the corner devil castle, Lu Yang put on a magic flying carpet, and flew towards the north side of the corner demon realm.

Youlong, a special creature hidden in time and space, looks like a silver dragon fish, and freely shuttles in time and space.

I did n't know how many people accepted this mission in the previous life, but in the first half of the year, no one knew where the space-time dragon was. Later, some players found that the space-time dragon was in the area at the foot of the alpine mountain in the northern part of the bend. It is the only way that the corner devil can go to other secret realms.

The reason why players can't find them is because the space and time dragons know the space and time stealth skills. They can hide their bodies in the void and only appear when they encounter prey. So no one can find these for half a year. Time and space dragon.

Lu Yang flew to the foot of the Dragon of Time and Space, and found a place where no one was. He left a wind clone in place, hid it with the wind concealment technique, and the fire method flew to the Celestial City.

Tianyu Shencheng Dongcheng District Pawnshop No. 1788. This is a house hidden in small alleys of many tea houses and restaurants.

Lu Yang stepped in. The room was small, 60 square meters square, and the floor and counter were made of mahogany. An old man sat behind the high counter, looked at Lu Yang and asked, "What's the matter? "

"I want to buy something," Lu Yang said.

The old man said cheerfully, "This is the first time someone has come to my pawnshop to buy something."

Countless players in the last generation used pawnshops as a place to sell things. Players ran in to sell things and left. They did n't know they could buy things here, and it was a place where strange and strange things were sold.

An item box appeared in front of Lu Yang, with many item names and pictures on it.

Demon Potion

Plane Phantom

...

Lu Yang turned five pages and found the item he needed in the bottom column, the Planar Converter.

Plane converter

Type: Mechanical

Description: A strange goblin item sold, he looks very disappointed, he doesn't know if it will be returned or not. According to him, this item can be used to enter another plane and see a lot of different things.

Lu Yang delivered 10 gold coins, and the plane converter disappeared from the purchase bar. This was the only item, which surprised Lu Yang. The only items had follow-up missions. The player who announced the mission at the time did not say it.

There are many places to buy this type of plane converter, and you don't have to buy it from this pawnshop. He knows this place, just the player who announced the strategy.

He had a plane converter in his hand and thought in his heart that if he could meet the follow-up mission, he must do it. Since the player didn't say it, there must be some special adventure, maybe it is a better thing.

"Transfer"

Lu Yang launched the unique bloodline skills. After 1.5 seconds, the body flew to the corner of the devil, where the wind clone was.

He put the time-space converter on the ground and pressed the on button.

"Zi ~ la ~!"

A burst of electro-optical light flickers, centered on the space-time converter, and the scene around Lu Yang becomes another look.

The mountain is no longer a high mountain, but a large plain. Above the plain, there are several space-time dragons flying at a height of 2 meters above the ground.

Time and Space Dragon

Level: 170

Qi and blood: 4300000/4300000

The body of the Dragon of Time and Space is about 2 meters. They have low physical attack power, low blood and defense, but extremely high magic damage. Unfortunately, this amount of blood cannot support Lu Yang's critical crit.

"Pyroblast"

Lu Yang raised his hand to a large fireball, in the middle of the head of the space-time Youlong, there was no sound, the body of the space-time Youlong spontaneously ignited, leaving only a crystal nucleus.

He picked up the crystal nucleus, left the wind in his place, used the teleportation skills, and returned to the banquet scene with a ray of light. The elder was sitting in a smile with a smile, and Suhabi toasted one by one below.

Lu Yang came to the elder and gave the nuclei to the other party, saying, "The mission is complete."

The elder looked at Lu Yang in surprise, took the crystal nucleus, and said, "Very good, you have completed the task."

System prompt: You get 10 million experience points!

You get 100 reputation with the Devil Corner!

Lu Yang is satisfied with the experience, but he is more concerned about the reputation of the Devil Corner, saying, "I continue to kill."

"The more you can, the better."

The system prompts: You have received the order to kill the Dragon of Time and Space!

Lu Yang left the main body of the fire method in place, and the earth clone was teleported to the wind clone. He killed the time and space dragon with the wind clone, and quickly teleported back to the task.

Then, the fire clone was teleported to the soil clone, and the soil clone had been killed. You dragon, soil clone and then teleport back to the task.

During the mission here, on the other side, Lu Yang took the opportunity to control the water body and teleported to the unknown island for fishing, and only one thunder clone was idle.

...

After playing for three hours in space and time, Lu Yang's two avatars rose to level 160, and at the same time, his reputation in the Demon Corner Council reached respect.

Lu Yang paused fighting and said to the elder, "I want to buy something."

"Of course, you can buy the items of the Devil's Council at any time." The elder opened a purchase frame for Lu Yang. The first item was what Lu Yang wanted to buy.

" Certificate of Transfer of Fire Bloodline "

Description: None

There was a look of excitement on Lu Yang's face, and he finally got this bug bloodline. Among the top bloodlines of the last life, one of the most important bloodlines. Any guild that can get this bloodline must be one of the strongest guilds. .

The bloodline of the flames is simply to turn the fire mage into a profession that uses the array to attack the target. After changing positions, the fire mage can change the attack form to become a flame line to attack.

Once changed into the flame formation, their fire skills will have an additional icon called flame cannon.

The effect of the Fire Cannon is to increase the spell damage by an additional 90%, causing damage to targets within a range of 10 × 10 meters, with a distance of 300 meters.

In other words, once the player has changed into the flame formation mode, after using the flame cannon attack, each attack will be 190% magic damage, and he can launch an attack from 300 meters away.

In the previous life, a player found this bloodline and was ecstatic that it was a top-level bloodline. He immediately changed his bloodline and used the inflammation line. After the replacement, he started the inflammation line and found that the inflammation line took 10 seconds to start. It takes 10 seconds to recover the time, that is to say, this is an output occupation of a fixed station.

There are several lords in the game that allow players to stand and output. Suddenly, players are disappointed. Slowly, ordinary players no longer use this bloodline.

However, what ordinary players don't know is that they cannot be used. For the guild, this is a top bloodline.

The Fire CD's attack CD is once every 2 seconds, with a range of 10X10 meters, which seems ordinary. Once a large-scale cluster attack is formed, this is a group of long-range artillery, and the attack range increases with the increase of blood level, up to 500 meters.

I remember in the last life, at the beginning, the world's top guilds did not find the benefit of this bloodline. It was a large guild in France. They were born with spiritual worship of this remote artillery profession. This guild quickly produced 10,000 Yan Zhen blood, after a battle with the hostile guild, when both masters threw the curse to the opposite side, his 10,000 Yan Zhen Master set up a turret, 500 meters away. Inhumane fire cannon attack on the opposing guild.

When 10,000 people attack an area at a rate of fire every 2 seconds, up to 4 times the damage can be triggered under the condition that 190% of magic damage can still trigger a critical strike. No one except the anti-war and anti-riding Resistance, the battle ended with the victory of the French guild.

At this point, the price of the Yan Zhen bloodline has changed from one silver coin to three gold coins. No matter how this is, the major guilds are still rushing, thinking that in the future war, there will be one more Yan Zhen occupation, and more An artillery.

Lu Yang has 50,000 forbidden spell masters, and their bloodline has not been resolved. One thousand of them are fire forbidden spellmasters. He directly bought the 10,000 blood veins in stock and spent 100,000 gold coins.

“Unfortunately, none of the flames on the market has appeared, otherwise I will buy as many as possible.” Lu Yang shook his head with emotion, sent a message to Hei Yan, and said, “Assemble the 10,000 Fire Department forbidden mage. The inner city of Laogukou Fortress. “

“Yes.” Hei Yan immediately responded.

Chapter 1476 - Recruiting Special Talents

Tiger mouth fortress.

After nearly a month of rest, fifteen walls have been restored and thirteen, and there are craftsmen players in the trebuchet behind each wall.

Behind the last city wall, there is a 200-meter-long vacant lot, behind the city’s main mansion, the wall is covered with trebuchets.

Beneath the city walls are 10,000 fire-forbidden spell mages. These 10,000 people are players who enter the game city to work. They were all playing Christmas siege monsters and the tiger mouth fortress battle. Their levels fell below 160. , Just recently re-raised to level 160.

“How did the boss come to us? There must be something good.”

“Yeah, yeah, it’s been a long time since the boss’s call was received, is it possible that our bloodline can be resolved.”

“Who knows, the boss calls, either to kill or to send money, haha, it’s always a good thing.”

...

Everyone chattered and talked about Lu Yang's admiration. Hei Yan was very proud. His boss was always so respected.

On the city wall, a light flashed, and Lu Yang showed his figure. He looked at the players below the city with a smile on his face. Everyone put on a dark gold sleeve of level 160, which proved that they had returned to level 160. .

"Everyone stands upright." Hei Yan shouted.

"噤"

10,000 people stood in an army position instantly. This is the credit of Han Zhong. Seeing more and more people in the Jagged Brothers Alliance, the discipline has not improved much. For the convenience of management, he and Lu Yang discussed it and began to implement in-game Militarized management.

Hei Yan raised his head and said loudly, "Boss, 10,000 people have assembled, there are 10,000 people, there is no absence."

Lu Yang nodded and said, "Don't be so restrained, just relax and stand. Just come today and bring you something. Hei Yan brought the heads of the regiments to get things."

Just when they were meeting, Lu Yang brought four identities and transported 10,000 bloodline vouchers several times.

Hei Yan and Luo Siyu both had bright eyes and jumped up with 10 heads together. Luo Siyu couldn't wait to ask, "Boss, what's the bloodline."

Lu Yang passed the blood to them with a smile, and explained in detail, "In the future, you are my long-range support forces. Whether the war can be won depends on you."

Having experienced the **** battle of Huoyun Village in the Qingling Plain and the battle of survival for nearly two months with the Tiger Mouth Fortress, Luo Siyu and all the fire methods knew very well the role of the cursed mage after using the curse, which is an ordinary mage. Player.

They very much hope that they can get a few more forbidden spells to support the battlefield, but they also know that even if there are more forbidden spells, there are only 9. If you throw them out and want to use them, you have to wait 8 to 24 hours. During this period, no After the forbidden spell, they still became ordinary mage.

Luo Siyu ca n't wait for every attack to be a curse, but she knows that it is impossible. Now that she has the bloodline of inflammation, her eyes are glistening and said, "It 's great, the range can be up to 500 meters. In the future we will Even if this 10,000 fire method launches a combined attack on an area, it is tantamount to throwing a forbidden spell, or a continuous forbidden spell to attack every 2 seconds. "

Lu Yang said: "There are a lot of special magic attacks on Yan Zhen Bloodline. Slowly, I will gradually get you all together. At 200 level in the future, Yan Zhen Bloodline will be upgraded to the highest level. There will be a skill variant at that time. In the long-range attack, Yan Zhen deserved the first place. "

"Thank you, boss." Luo Siyu was the first to learn Yan Zhen.

Lu Yang said, "Send your skills down, and then you are ready to fight the battlefield with me."

"Yes." Luo Siyu and Hei Yan and others jumped down the walls with blood vouchers and distributed them one by one. As for how to use this blood, Luo Siyu and Hei Yan and others explained it and soon understood.

Lu Yang took out the intercom and called Liu Yunpeng, saying, "Take the 10,000 ancestor tauren to the inner city of Tiger Mouth Fortress."

"Yes, it must be assembled within 10 minutes." Liu Yunpeng said.

A total of 30,000 ancestors were in Tau, but Lu Yang didn't need that much, and 10,000 was enough.

After Lu Yang hung up, he called Chen Qiang.

In the Huaxia area, outside Qianlan Village, a 150-level map near the Chiyang Fortress, Chen Qiang is taking a few Christmas players out of Christmas.

A thief player beside Chen Qiang was called Liu Lei and muttered, "The chairman is not interesting enough. We worked hard for him for two months, and he let us take us to level 150. It's too stingy."

No one spoke.

Chen Qiang glanced at him and said, "Don't blame, don't say it's useless."

Liu Lei said unpleasantly: "It's useless, I can't complain anymore. I was so desperate for him at the beginning, and thought that there could be any extra rewards. He brought someone to give us a little bit of level. I might as well join Alice's Guild. "

Chen Qiang slashed the monster with a stab, and frowned frantically at Liu Lei, receiving: "What do you say? Do you want to betray the Brotherhood of the Iron Blood?"

Everyone also looked at Liu Lei in surprise. For a time, Liu Lei became the target of public criticism.

Liu Lei suddenly felt guilty, but in a blink of an eye he regained his courage and said, "What is betrayal? I just feel bad, can't I?"

Chen Qiang sighed and patted Liu Lei's shoulder and said: "Brother, you have been complaining for a while, I do n't know what the reason is, but today I solemnly tell you, the boss is not sorry for us, a dreadful raven It 's more expensive than anything, which grand guild can distribute to players at will. "

Dreadwing crows have 20 times more critical damage. After level training, their output is not inferior to that of Chen Qiang and others, and the field monster speed is almost twice as fast.

Liu Lei threw away Chen Qiang's arm uncomfortably, walked to the side and said, "So what, this summoned beast is one, and it can't be sold for money, I don't think it's consistent with what I paid."

Chen Qiang smiled helplessly and said, "It's better than letting other countries take over the Huaxia region now. I'm afraid we don't even have a place to fight monsters now."

Chen Qiang can understand Lu Yang. There are more than 10 million players in the Huaxia area of the Jagged Brothers Alliance. Not only them, but also so many others. Even if Lu Yang wants a bowl of water, it takes time. For the time being, let's just say that on the day of the celebration party, Lu Yang paid his respects to him and his cannon fodder on the first night. Chen Qiang knew that Lu Yang would never be sorry to him, and never forget them.

Liu Lei ignored Lu Yang, but muttered in a low voice, "Maybe Alice had them occupied, and we have a better life."

When Chen Qiang heard Liu Lei's words, he frowned, and a suspicion surged in his heart. He felt that the incident was unusual.

"Everyone continues to fight." Chen Qiang ordered, secretly opened the mailbox and prepared to send a message to Lu Yang about the incident.

Before he finished typing, Lu Yang's phone came over. He was surprised and went to a place where no one was. He pressed the connection button and whispered, "Boss, what's the matter?"

Lu Yang asked with a smile: "How are you recently, can you gather 80,000 people, and the boss will take you to upgrade."

As soon as Chen Qiang's heart warmed, he knew that Lu Yang hadn't forgotten him, but he had no time recently. He said, "Boss, let me report something to you first, which may involve our internal affairs."

"What's the matter?" Lu Yang asked.

Chen Qiang said: "I have recently heard more than one ordinary guild member complaining that the pay and rewards of the last war did not match. I suspect Alice or anyone else is countering the players within our guild."

Lu Yang took a breath and said, "Are you sure?"

Chen Qiang frowned and said, "The trouble is here. I don't have the ability to investigate this. Many people listen to other people's complaints and follow them. As for where they listen to and who hears them, I have only asked a few people. They say they are guild players, but they can't be called names."

Lu Yang asked: "Are there any ranks of head and deputy heads?"

Chen Qiang looked back at Liu Lei, and said with some heartache: "Several of them are old players who have been with the guild for several years. The last war also made great efforts."

Lu Yang said: "You make the list, but don't worry, I will send someone to help you, now you call 80,000 players, I will take you to upgrade first."

"Okay." Chen Qiang responded and said, "The leader of the 1000th Army to the 1008 Army led the team to gather. The boss just called and he will take us to upgrade."

Liu Lei looked at Chen Qiang in surprise and said, "The boss called in person?"

Chen Qiang nodded and said, "See, the boss has never forgotten us, but there are too many people and it is difficult to level a bowl of water. You have to give him time."

Liu Lei kept silent and turned to assemble the team. He was the head of the 1000 Army.

On the other side.

Lu Yang scratched his head. He was really worried. He called Tu Feng and said, "Alice seems to have turned against our internal players."

Tu Feng is more worried sighed and said: “The manpower is serious enough. Boss, defense outside the city, defense inside the city, but on my own side, I can’t really adjust one more. Come out, can you find a way to recruit more experts?”

Lu Yang also knows the difficulties of Tu Feng. Now for all the senior members of the Jagged Brothers Alliance, this is not only a game, but a huge company. They are controlling the company to fight with many other external companies.

It is not just a game-level battle, it is simply a large-scale national battle. Talents in all aspects are too scarce. Tu Feng is a person with five or six occupations. If it is not for Qing Qiang, he has talent in this area. To take up another position, he knows that Tu Feng is too busy, and it is time to find some helpers for him.

As for who to look for, Lu Yang pointed his eyes at the army and muttered to himself: “Looks like I’m digging for a high salary.”

There are superior people in the army. Not only are there elites in the military training field, but also a special service discipline that specializes in training talents with special tasks.

Lu Yang remembered that several veterans in the last life knew a lot about this, and he decided to contact them.

Chapter 1477 - 100,000 people battlefield

He called the White Lion’s phone and said, “What’s going on in the military academy recently?”

The White Lion has been mobilizing players over the past few days, ready to rush out of the tiger fortress to attack He Peng, but Lu Yang hesitated to give him any news, which made him a little bit puzzled. Suddenly he asked such a question, and it was even a little hesitant.

“I’ve learned a lot, although it’s still fur, but it’s useful to try it,” White Lion said truthfully.

Lu Yang asked, “Is there an army officer in your military academy who is responsible for teaching intelligence, called Tian Feng?”

The White Lion was a little surprised and said, “There is indeed such a person, and it sounds like he is terrible, but he seems to be a bit unscrupulous and was assigned to a military academy.”

“Can you see him?” Lu Yang asked.

“Yes.” White Lion is taking a class at the military academy and has not yet returned to the studio. He said, “Tian Feng lives in the dormitory of the military academy, and I can find him.”

Lu Yang said: “Help me make an appointment with him. I will arrive at your military academy tomorrow at noon and tell him that I want to buy him a good bottle of wine.”

The white lion smiled and said, “Boss, you have a conspiracy, you want to dig him.”

“Hurry up and help me find someone, boss, but I’m a good person, how can there be any conspiracy.” Lu Yang said with a curse.

“Observe.” White Lion hung up and smiled.

Lu Yang retracted the intercom, and closed his eyes for a while to ponder. Before long, Liu Yunpeng arrived with 10,000 tauren, and not long after, Chen Qiang brought 80,000 people.

“Boss, the level of personnel is somewhat uneven, generally all are above 140.” Chen Qiang came to the wall and said apologetically to Lu Yang.

Lu Yang said with a smile: "It doesn't matter, your level doesn't matter. Someone can come."

There are Masters of the Yan Formation and Liu Yunpeng's heavy-loaded tauren. The battlefield is not unbeatable. Even if they come across other legions organized by the guild, the curse is banned and it is done.

He looked at Chen Qiang's men. Everyone looked at him with bright eyes full of hope. This proved that these people were not really dissatisfied with the Brotherhood of Iron Blood, but the false news of a hostile guild walk, which made some people uneasy. Committed players have complained.

Lu Yang turned on the loudspeaker and said loudly, "Brothers, I have worked hard for everyone recently. Starting today, I will try my best to bring my brothers to upgrade and raise everyone to level 160 as soon as possible. After that, someone will take everyone to play equipment. Estimate that At that time, the enchantments, cooking, mixture, and gems in our warehouse were full again. Everyone has more points in their hands, so you can exchange them at will. "

The eyes of 80,000 people showed an excited look. What they wanted most was to quickly upgrade the level and equipment. Now Lu Yang has given them all, which makes them feel that they were desperately in vain.

Liu Lei also showed a look of surprise. The original complaining mood disappeared without trace, only joy in his heart.

Lu Yang looked at the smiling faces of the crowd and nodded with satisfaction, turned on the team mode, merged Chen Qiang, Luo Siyu, and Liu Yunpeng's team together, turned on the battlefield switch, and selected the battlefield of 100,000 people.

The battlefield of 100,000 people is a battlefield model that has only recently emerged. This is a warm-up for competitive games launched a few months later.

There are three big battlefields. The first is called the decisive battle. The players from the two camps are decisive on a plain. Which side kills 200,000 and which side wins. The second is called the big fight. There is no camp. Who is well equipped? Whoever is the boss, kills the last 10,000 people; the third is

called the artifact battle, two camps, each of which has an artifact, stealing the opponent's artifact to get three victory.

Of the three types of battles, the decisive battle is the most popular and fairest. He chose this map and shouted, "Listen to my order. I count three, two, and one and enter the battlefield of the decisive battle."

It is not allowed to enter the map in team mode. Elite groups such as the Brotherhood of Iron and Blood, a team unified, and other ordinary players do not need to play, just wait to lose, so official regulations Even if they are in team mode, they are randomly assigned when entering the battlefield.

Officials think that this can be fair, but they never thought that there was a small loophole in the game. The battlefield started with 100,000 people. This requires waiting in line. If 100,000 players choose to enter the battlefield at the same time, there are very The chance is that these 100,000 people will enter the same camp on the same map.

Lu Yang used this loophole. After the countdown to 321, 100,000 people in the regiment simultaneously pressed the battlefield application button.

The system prompts: You have selected the Great Plains battlefield, whether to enter!

Lu Yang clicked into the battlefield, and a flash of light flashed. He appeared on the red side of battlefield 10009838. He asked: "The heads of the regiment counted the number, how many people came in, and how many people did not come in."

Less than two-thirds of the people enter the battlefield, this battlefield does not have to fight, it is not suitable.

Luo Siyu, Liu Yunpeng and Chen Qiang quickly counted the number of people.

"Yan Zhen Masters all come in."

"The tauren are all in."

“My 80,000 people came in more than 70,000, and the remaining thousands did not come in.”

Lu Yang nodded with satisfaction. It was good to have so many people. He said, “Let those thousands rest first, Chen Qiang took the people to rest in place, Liu Yunpeng and Luo Siyu took people out with me. ,Ready to fight.”

“Yes.” The three responded.

There are five minutes to prepare before the start of the battlefield. Players on both sides are trapped in a valley. The only channel has a white enchantment, and players are prohibited from going out first.

Lu Yang called Luo Siyu and Liu Yunpeng to his side, opened the battlefield map, pointed at the two peaks outside the valley, and said, “Leave a thousand men of the flame array mage and a thousand tauren at the entrance, and the rest told me When they went out, Luo Siyu and Hei Yan each took 4,500 Yan Zhen Masters to the two peaks, and Liu Yunpeng took 9,000 people to defend around the peaks. “

There are four dwarf mountains in the middle of the map, arranged in a square, and each two are 200 meters apart.

The hills are flat-topped, and each one is about 6,000 square meters. The rest of the area is all plains. Players basically fight around these four hills. Whoever can get control of the hills can win this one. fighting.

Normally, the two players rush out of the map to control the two dwarf mountains in their own direction to form an offensive battle with the opponent. Due to the limitation of the attack distance, the shooter can hit a maximum distance of 150 meters, and therefore cannot hit the opposite peak. Now, the two sides will form a burning battlefield here.

Luo Siyu and Liu Yunpeng saw Lu Yang’s play when they saw these four mountains. The attack range of the Yan array mage is 300 meters. Standing on the edge of a low mountain, you can hit an area within 100 meters of another low mountain, which is equal to It was the instant set fire that dropped the control point on the opponent’s high platform, coupled with the super-attack power of the Flame Array Master and the melee output of the Tauren Warrior, this battle was equal to winning.

System prompt: The battle has 30 seconds to start. Please make the final preparations!

Chen Qiang came to Lu Yang with curiosity and asked, "Did we all need to go out for 80,000 people?"

Lu Yang said, "Yeah, it's enough to have these 20,000 people. You can let the brothers play card games and watch the video."

"Er." Chen Qiang scratched his head and asked, "Are our guilds so strong, or I'll go out with a main force above 140 to do something."

In the game battlefield, the levels are not average. Players between 140 and 169 count as a file. If the opposite players are mainly around 160, Chen Qiang is worried that Lu Yang can't handle it.

Lu Yang patted his shoulder with a smile, and said, "Go out with me and see if you see your name."

Chen Qiang was a little surprised, let Liu Lei and they stay in place to stabilize the players, the game battle began, he ran out of the canyon with Luyang and 20,000 elite players.

The canyon is not long, only 150 meters, and 80 meters wide on both sides. It comes out of the canyon is a very wide plain, 5 kilometers long and 1 kilometer wide. It is as large as more than twenty football fields.

The four hills are arranged on both sides of the mid-circle line. Hei Yan and Luo Siyu both start the acceleration scrolls, and each brings 4,500 Yan array mages to the two low mountains near their side.

Lu Yang stood at the front of the cliff on the left side of the dwarf mountain and shouted, "Yan Zhen Master, open Yan Yan form."

A total of 9,000 mage bodies on both sides emitted a fiery red light array at the same time, forming a five-star star array under their feet. At the same time, a skill called the Yan Cannon was added to the magic column of the Yan array mage.

Below the low mountain, Liu Yunpeng and the tauren arranged the formation, mainly defending at the entrance of the two low mountains to prevent the enemy from sneaking up.

When the Jagged Brothers League was ready to complete, the other player appeared on the low mountain too late. The head of the player was very dazzling, with red and green hairs on his head, donkey eyes, big white teeth and black skin. Lu Yang recognized Olma at a glance.

“The path of the enemy is narrow.” Lu Yang muttered to himself.

Olma also saw Lu Yang. He pointed to Landing Yang and covered his stomach and laughed and said, “It’s really good luck, let me run into it, and see how I can kill you today.”

Lu Yang sneered and said, “Stupid dog.”

“Who are you calling a silly dog?” Olma was furious, pointing at the rounded eyes of the landing donkey.

Lu Yang said: “Stupid dog, you can’t hear you, you are pure silly dog.”

“I, I ...” Olma was anxious.

Lu Yang snorted and cursed, “Stupid dog, I’m your dog head.”

Hei Yan: “...”

Luo Siyu: “...”

Chen Qiang: “.....”

Jagged Brothers Elite: “...”

No one expected that Lu Yang, who was very well-produced, had such a side, and it seemed that he had a high degree of curse.

Where do they know that Lu Yang was a scolding expert, and when the boss played psychological warfare with hostile guilds, he must learn to scold others.

When he was in the old continent, he killed a lot of enemies by scolding him. After entering the new continent, he developed faster and stronger. He no longer needs to use scolding to control the emotions of his opponents, but it does not mean that he is not meeting.

Today, when I saw Olma, Lu Yang couldn't help but have to say that every time I saw Olmar's red and green hair and donkey head, he couldn't help urge to curse.

How could Olma tolerate Lu Yang's scolding of him? When he and Lu Yang scolded him on the spot, he could be the president, and Olma was not vegetarian. Suddenly, the fighting on both sides became a curse in the middle of the two presidents.

Lu Yang scolded while sending a message to Hei Yan and Luo Siyu, asking: "Are you aiming?"

Hei Yan said: "I'm aligning the coordinates, the slowest is 1 minute."

"Okay, I scold him for another minute." Lu Yang opened his mouth and scolded: "You are a stupid dog, the whole family are stupid dogs."

Hei Yan: "..."

Luo Siyu: "..."

The Flame Cannon skill of the Flame Array Master is a projectile attack. It is a very fast radiant projectile with a small arc. Before release, you need to check the coordinates first, otherwise there is a great chance of being distorted.

It doesn't need to be so troublesome to play against ordinary players, but the enemy is Olma, and he has to be careful.

Olma and Lu Yang scolded for two minutes. What made him speechless was that Lu Yang scolded people for as long as 2 minutes, but he was speechless.

"I'm furious, I'm killing you, I'm killing you." Olma was anxious.

Lu Yang was very proud. At this time, he received the news from Hei Yan and Luo Siyu, and the 4,500 Yan Zhen Masters of the two men had aligned their coordinates.

"Lu Yang, there is a kind of heads-up, without the spirit of the demon, you are something." Olma scolded angrily.

"Single-headed, single-headed, you stand there and don't move, Lao Tzu come here." Lu Yang cursed.

"But it's a dog." Olma scolded.

"Yes, the dog that didn't pass is Hei Yan, hit Lao Tzu, I'll pass now." Lu Yang cursed.

Olma originally set up a trap and scolded Lu Yang, but he heard that Lu Yang really wanted to come over and let Hei Yan attack. He felt a strange feeling in his heart. There was no attack range that could hit 200 meters away. There was also a curse. Mage, but for the sake of fairness, the power of the curse of the curse to suppress 50% of the damage in the big battlefield is difficult to kill. He doesn't know what Lu Yang is going to do?

"Yan Cannon, let it go!" Hei Yan and Luo Siyu sang at the same time.

Olmar looked at the mage behind Lu Yang in surprise. He felt a problem just now. Why did these mage have a halo under his feet? He didn't understand it at first, but now he understands it.

On the two dwarf hills, a fierce flame suddenly lit, and 4500 grimace fireballs on each side shot at the two dwarf hills on his side.

Olma felt only a flash of light, and was attacked by dozens of grimace bombs at the same time. He died instantly on the spot. Not only him, but the two low mountains on his side looked as if they were dense from a distance. Fire meteor attacks are average, and all remote players standing on top of it die.

A light and shadow appeared across the battlefield next to Olma's corpse, and Lu Yang showed his figure with a bang. He looked at Olma who died on the ground and said, "I'm here, what can you do to me, silly? dog."

"I'm killing you." Orma was resurrected in situ, seeing Lu Yang stepping on his face, turning over and sweeping his sword.

"Stand to me." How could Lu Yang make Orma hit, and he was ready to use the fire snake restraint skills immediately.

The nine Fire Snakes instantly trapped Olma, and his sword was less than 10 cm from Lu Yang.

"badge"

Olma lifted control, but did not wait for him to swipe, and Lu Yang's spell came out again.

"Yan Yang Suo"

Olma is under control again.

Lu Yang scowled on Orma's face and scolded: "Let your grandson attack me in association with other guilds. See how I can clean you up today."

"Meteorite Impact"

“Resistant Fire Ring”

“Destroy the Sky”

...

Lu Yang hit a set of basic serial attacks, killing Olma, and then he jumped back to his own low mountain before his horse rushed up.

Olma was killed again, and when his men were resurrected, he shouted angrily: “All offense, give me all offense and kill Lu Yang.”

100,000 players rushed towards the landing sun.

Lu Yang took a closer look. There are 50,000 160 players in Olma. He is a guild. It looks like he used the same tricks to participate in the battle, but his luck was bad, only 50,000 came People around, the remaining 50,000 people are ordinary players, from all countries.

He said to Hei Yan and Rose Rain, “Coverage attacks within 300 meters.”

“Yes.” Hei Yan and Luo Siyu immediately issued orders.

Flat shots have radians, low shots do not require radians, and 9,000 Fire Array Masters started firing at players who rushed below the enemy.

The 160-level mages of the flame formation can reach 2.13 million magic damage, an additional 90% of magic damage, which is equal to 4 million magic damage value, and a 160-level dark gold sleeve melee, the total blood volume is only more than 13 million, The French resistance is only more than 400,000, which is equivalent to each attack, can kill the opponent’s health of about 3.6 million, if the critical strike is 7.2 million.

The fire cannon's attack range is 4 square meters, and 9,000 Yan array mages fire in three groups. All players rushing in 300 meters away are killed by the Ghost-Flame bombs.

Chen Qiang stood next to Lu Yang, watching the fire flaming under him, and his face was full of surprise. He couldn't imagine how these Yan Zhen Masters could be so strong.

Olma was also dumbfounded, standing in the distance, staring at the donkey's eyes and watching his own player being attacked by Yan Bo, none of them could rush in.

"What kind of job is this and why is it so aggressive?"

When Olma didn't know what to do here, his men were desperately charging towards the low mountain. In less than a minute, the number of killings exceeded 60,000. On the other side, Liu Yunpeng received Lu Yang's order and took 9,000 ancestors to the side.

When Olma reacted, he quickly shouted, "Stop the attack, everyone stops attacking, and regroup behind the low mountain."

When more than 60,000 people resurrected were running towards the low mountain, Liu Yunpeng roared 100 meters away and said, "Ancestral Tauren Legion, attack ~!"

"Drink ~!"

At the same time, the 9000 ancestor tauren slammed the totem on the ground and rushed into the team of Orma carrying the totem pole.

Lu Yang took the opportunity to order: "Luo Siyu and Heiyan Bandy array mage followed behind the tauren and launched attacks in turn."

"Yes."

9,000 Yan Zhen Masters jumped off the 80-meter-high cliff, and a parachute appeared on the back of each person. This was created by the smithy of the Brotherhood of the Iron Blood. Every elite player had this device on their cloak.

Chapter 1478 - Tian Feng's Dilemma

Lu Yang also jumped down and took Chen Qiangxian to the back of the low mountain. Liu Yunpeng was attacking the Olma Legion in a fan-shaped array. Although Liu Yunpeng began to play an advantage, Olma reacted astutely, and the two sides formed a deadlock.

“Lao Liu, report the coordinates.” Hei Yan shouted loudly as he arrived behind Liu Yunpeng with the 9000 Yan Zhen and was starting the Yan Yan.

“Coordinates 5960.1950, extended firing.” Liu Yunpeng smashed the defensive player in front of him with a hammer. The three-turn defense corps used in combination could resist 90% of the damage, even the ancestor tauren could do nothing for them.

At this time, Orma was directing the anti-war and anti-riding front to resist Liu Yunpeng's attack. With the advantage of numbers, he established the marksman and mage positions. Once they were successfully established, these people will undoubtedly die, and now the two sides are grabbing time.

“Look at us.” Hei Yan's body turned into a state of inflammation, shouting at the position, “everyone prepare, extend shooting, let go!”

9,000 grimace bullets passed through the Patriarch's Tauren Corps, passing a small arc and accurately falling on the treatment and output behind the Anti-Battle Corps in Olma.

“boom”

More than 20,000 people were on the spot!

“The second extended shot was rotated 45 degrees to the left, let it go!” Hei Yan shouted again.

Olma died more than 20,000 people at this time. At this time, Olma saw that it was wrong, but he had no way to change. The air combat player was absent and was seized by Lu Yang. He could not go around and attack high. As a result, he now has nothing to do with this inexplicable fire mage.

The third salvo arrived and more than 20,000 people died on the right.

The fourth volley.

The fifth volley.

...

Olma's side collapsed, who could withstand 190% of the magical damage for the second time, less than 40,000 players fled around, but Liu Yunpeng led someone to the valley entrance to the resurrection point. At this time, the battle was Simple.

Lu Yang ordered Hei Yan to take an array of 9000 mages at the entrance. He fired indiscriminately against the resurrected Orma in the valley. Within 3 minutes, the battle ended and Lu Yang killed 200,000 people. And won the battle.

System prompt: you get 5000 points!

Usually such a battle takes 2 hours to determine the outcome. Lu Yang only played 37 minutes, just a quarter of the normal play time.

Back at the Tiger Mouth Fortress, Chen Qiang looked at Lu Yang excitedly and said, “Boss, this score is too high, and it is too easy to fight.”

5000 points is equal to 250 million experience. You can win a game in half an hour. Playing 15 hours a day is 7.5 billion experience. His players around 140 level can average 1 level in three days.

Lu Yang said: "This is the first time we have encountered the elite army of Olma. Instead, we will fight with us for ordinary players. A battle is about 20 minutes to prepare the brothers. They should take advantage of this time. Learn about a 160-level copy of the fighting video. "

Chen Qiang nodded again and again.

Lu Yang looked at Hei Yan and Liu Yunpeng and said, "We continue to open the battlefield and upgrade quickly."

"Yes."

...

Here, the fire body fights the battlefield. The soil avatars are fishing. The lightning avatars, wind avatars, and water avatars alternately use the teleportation skills to kill the time and space dragon. Lu Yang is full of horsepower. Five bodies are upgrading at the same time. Late at night, he went offline to rest.

The next morning.

After waking up, Lu Yang flew to the military academy where Bai Shi and Zhuo Jiu studied, and on the other side, Tian Feng that Lu Yang was looking for was facing a difficult decision.

"Why is there in this list of people, I'm still young." Tian Feng was incredibly angry with his boss's face.

A new batch of layoffs started, his name is above it, but he was just at level 43 today. It was when a man was the most mature, oldest and most experienced, and he had the last experience. This should have been a career in his career. How old can he not be angry when he is asked to leave his favorite industry?

“Sorry, your age and your position are in this line, Laotian, I don’t want to, sorry.” His boss regretted that if in the war years, he believed that talents like Tian Feng would definitely be on the world stage. It has its place, but this is a time of peace, no longer fighting, and he is on the list and is reasonable.

“But what am I going to do?” Tian Feng was a little crazy, saying, “I joined the army at the age of 18, and I worked hard for five years to get into the Army Officer Academy as a rural baby. I have been doing it until today. I will do nothing except fight. Let me go somewhere at this age, what can I do, what can I do! “

The boss sighed and said, “Two options, one is to go in, but my brother tells you the truth, your family has a relationship, you can go, otherwise, with your temper, when you get there, it is idle.”

Tian Feng grinned and said, “I come from a rural country, how can I have any connections.”

The boss said: “The second is to choose to retire, pay 80% to retire, and once again compensate about 200,000, you choose your own career.”

This is the method chosen by most retired soldiers, but they have learned the skills of commanding combat, what they can do, and those who are capable, re-learning the professional knowledge of an industry in their 40s, and can have a lifelong career Do people in one industry compare?

But if you do n’t choose the second one, the first one has a lower salary. He can only sign his name on the retired document. He does n’t know how he went through the school door.

At the gate of the school, a beautiful woman in her thirties was waiting beside a Corolla car and saw Tian Feng coming out. She walked over and frowned and asked, “Why did you come out?”

Tian Feng looked at the woman with a dodgy look and said, “Sorry, I just made a personnel arrangement and I was asked to retire.”

“Retired?” The woman frowned instantly, and asked, “Are there any changes in wages?”

“It’s 20% less than before, but it will compensate for some money,” Tian Feng said.

The woman's eyes darkened and she said, "It's okay, let's go home."

Tian Feng feels very hurt. He really hurts. The woman in front of him is his wife. He knows that the woman must be uncomfortable now. He is 43 years old. His wife's parents have despised him. Now he has resigned. His wife's parents looked down on him even more.

As the saying goes, living in the world, money is a person's courage. Without money, it is almost impossible to walk. Children's tuition, make-up fees, interest class expenses, daily life expenses, but also a large part of the savings, once both parents When they are ill, they can use their money to take care of them, and they have to save money again in the future to face their son's marriage, buying a house, and buying a car.

His wife turned out to be a college student Because he is a "brother brother", he married her without a second thought, but for so many years, he didn't have the money to buy a beautiful set of clothes for his wife. Female classmates, married to the rich and married to the rich second generation, show off in the group every day, but their wives just don't see it.

Whenever Tian Feng made a bonus and wanted to buy a better set of clothes for his wife, his wife just smiled, pretending that there are no such expensive clothes in the world, and still only buy ordinary goods for one or two hundred dollars. Cosmetics are also the most common. The content of lead is so high that his wife's face is so beautiful that removing makeup has become common.

At this moment, Tian Feng felt that his belief in life had collapsed. He didn't know what he had worked for so many years for, and where he would go in the future.

"Let's go home." Tian Feng said with tears.

The wife smiled as usual, saying, "Okay."

Just then, a phone call came over, Tian Feng picked it up, it was a strange number, pressed the call button and asked, "Are you?"

"Hello, I'm Lu Yang!"

Chapter 1479 - Devil organization established

Tian Feng patted his head, he remembered. Yesterday, the White Lion approached him and said that Lu Yang was going to meet him today, and he had prepared a good wine. He said sorry, "I'm sorry, I might make a contract, today I There is something else. "

Lu Yang said with a smile: "I'm right across from you and see you and your sister-in-law."

Tian Feng looked up and found that Lu Yang was not far from him. He watched in amazement as Lu Yang came over and said with a grin, "Sorry."

Lu Yang said indifferently, "Xunzi is here, let's go to dinner together."

Tian Feng's wife was called Li Ru, and he said quickly: "No, you talk about you, I will go back first."

"No, what you talked about today really has something to do with your sister-in-law, let's get in the car and say." Lu Yang pointed at the Land Rover, not far from White Lion.

"We're driving," Tian Feng said.

Lu Yang said, "Let the white lion come, and you two will ride in my car and I will be your driver."

Both Tian Feng and Li Ru were very surprised. Now Lu Yang's status among ordinary people is the same as when people looked at the Four Heavenly Kings of Xiangjiang in the 1990s.

As long as people find Lu Yang appearing somewhere, there will be countless people swarming up, or rushing to sign, or rushing to take a group photo, posting to the Internet will attract the mad envy of countless friends.

Lu Yang came to be the driver for them. Tian Feng and Li Ru didn't know where they came from. They were a little embarrassed for a while.

The White Lion came over with a smile, took Li Ru's car key, and said, "Teacher Tian, I'll drive the car to the hotel."

Tian Feng was caught off guard. He could only watch the White Lion **** Li Ru's key and got on Corolla. He looked at the White Lion away and looked at Lu Yang. He smiled freely and said: "Okay, then I'll follow you."

Li Ru quietly pulled Tian Feng, but Tian Feng didn't care. In his mind, he had already become like this. There was nothing worthy of being counted by others. Besides, he also had his wife to accompany him. He secretly shook his wife. Hand, signal that nothing is wrong.

Lu Yang smiled and led the two of them into the Land Rover, and led them to the booked hotel.

While on the road, Li Ru looked at the interior of the car with envy, and said, "This car must be expensive. My classmate also has one, but it doesn't look as good as this, and there is no room for this."

Lu Yang looked at the car and said, "Just make up, the three brothers of the White Lion are more aggressive and like this kind of high-powered car. This is a longer version of the Land Rover Range Rover in the future. It seems that this boy spent more than 300 yuan. Wan bought it. "

"More than three million?" Li Ru covered her mouth in surprise and said, "So expensive! Where is it so much money?"

Lu Yang smiled and saw Li Ru's other hand touching the leather seat through the rearview mirror. He said, "The leather seat you touch, 200,000! The skylight is 300,000, and the ashtray at instructor Tian's

armrest 10 Ten thousand, 150,000 curtains on the window, and the golden paint line when the door is opened outside, 100,000. “

Li Ru and Tian Feng looked at the interior decoration in surprise. Li Ru’s hand unconsciously left the seat. She felt that if her seat was damaged, her husband’s income would not be enough to lose money.

Lu Yang felt the distress of the two and said with a smile: “The boy, White Lion, has just bought it, and has shown it off with us, don’t care.”

Li Ru couldn’t believe it, and asked, “The White Lion looks less than 20 years old. Why does he have money to buy this car? Did his parents give it?”

Lu Yang shook his head with a smile and said, “No, it has nothing to do with their parents. They made it by themselves. Their parents are now quite comfortable because of their three brothers. Everyone who sees them says who my son is. Now that their spouses have achieved financial freedom, they travel around the world. “

Li Ru is even more surprised. She has never played games and never likes to play, so it is not clear what is going on in “Second World”. Tian Feng is also the same. Working in the army all year round, one is not allowed, the other is He came to think that playing games was fun and disgusting.

“Can you make such money by playing games?” Li Ru asked for her husband.

Lu Yang said: “It depends on how the game is played. The three brothers of the White Lion are the first brothers who followed me to fight the world, including those who have muddy wine and bitter love for half a life. The guild was established, and I gave them a one percent stake. “

Li Ru responded and said, “I know this. CCTV interviewed you in a set, as if it meant that no one at the time thought that the guild could be established.”

Lu Yang laughed and said, “Isn’t it? At that time, I was just a small guild president with 3,000 people. The enemies were all super guilds with 100,000 players. No one took my words seriously. Later I developed. , Fulfilled their original promise, and now they have achieved financial freedom. “

Li Ru was a little surprised.

Lu Yang slowly slowed down and said, "The front is here, let's go in."

In front of the car is the famous Hilton Hotel. The White Lion is waiting at the door. After Lu Yang gets off, he gives the car keys to the waiter. He said to the Tian Fengs and his wife, "Let's go in."

"I'll guide the way," said the White Lion.

Lu Yang laughed and took Tian Feng and his wife into the hotel. At this time, Lu Yang put on a black mask and put on a baseball cap to prevent people from recognizing himself.

I just walked into the lobby, and when I saw it, it was brilliant. Li Ru had never been in the Hilton Hotel.

"Well, isn't this our school flower? Why is it here?" A strange voice sounded from the side.

The crowd looked over, and a woman in her thirties with heavy makeup, wearing an exposed dress, came over with a middle-aged man.

Li Ru tilted his head and thought, and said, "You are Liu Jing."

"Of course it is me." Liu Jing looked at Li Ru smugly and said, "I heard that you are not married to an elder brother? Why are you rich? Can you come here for dinner?"

Li Ru shook his head and said with a little envy: "How can it be that it's too expensive here, not something we ordinary people can consume."

Liu Jing smiled and happily hugged the man around him and said, "Forgot to introduce, this is my boyfriend. I would like to advise you that it is too expensive, and you must pay 10,000 yuan for any meal. If it is for marriage For a memorial day or any other festival, let's change to a restaurant. Don't swell your face to support fat people, and the money in your pocket will be sinned. "

Li Ru still shook his head, but Tian Feng couldn't stand it. He knew his wife was simple, but the other party's maliciousness was too obvious. He had intentions to say something, but found that the other party's words were right. It was really not his consumption.

The other party is indeed "reminding him"!

Lu Yang saw Tian Feng clenched his fists, touched him with a smile, and said, "Let's go up."

Tian Feng nodded. He understood Lu Yang's meaning. Don't have general knowledge with such people and said, "We still have something, let's go first."

Li Ru waved at Liu Jing and said, "Let's go, let's talk next time."

Lu Yang took Tian Feng and his wife away, but Liu Jing did not leave, but stared at Li Ru's back, sneer and said, "The school flower was a stupid joke."

The man next to him asked, "What happened?"

Liu Jing took a man to find a place to sit down and said, "It was time for the woman who was in school to be ranked first among the top ten beauties, and I was the second place. Unfortunately, we were behind her at that time. Girl did not win her even after trying her best to win votes, and she won the championship without doing anything.

At that time, when we were not convinced, we could only watch her become the focus of the boys in the school. At first, everyone thought that she would marry a rich second generation in the school. Unfortunately, this woman was stupid and eventually married a soldier, as if She was many years older, and later, I heard that his elder brother's husband was a waste in the army, and now it seems to be true, it is far worse than our sisters. "

The man smiled proudly and said, "My boyfriend was just interesting enough. I didn't break through you, and I will reward you for a while."

The woman smiled charmingly and said sloppily, "Brother Tiger, today you bought so many gifts for others, of course I will reward you well."

In fact, a woman is not a man's wife at all, but a third party, and she has not been happy at all.

upstairs.

Lu Yang led Tian Feng and Li Ru into the box. The dishes had already been ordered and the table was full. He sat on the main table and said, "Two people sit, I don't want the box to be big. Let's sit together. It's just right, it's too far away and uncomfortable."

The White Lion came over with a smile and said, "Instructor, my boss prepared a good wine for you, Moutai aged for twenty years."

Tian Feng sat silent.

The white lion poured Tian Feng a drink, and Tian Feng drunk his head and drank directly.

Lu Yang smiled and said, "Teacher Tian is still angry about what just happened."

Tian Feng sighed and said, "Well, the woman was obviously mocking my wife and mocking me, but I didn't ..."

Tian Feng took another sip of depression.

Lu Yang lamented that if it was n't for his rebirth, anyone would tell him that the sullen, downcast man in front of him would be galloping around the world in the future, so that countless top guilds and super rich would hear the colorless rootless water, which was sent Nickname-Devil, he didn't believe it.

But the man in front of him is so downcast, Lu Yang guessed, perhaps because he had precipitated at the bottom of society, so he knew how to forgive and pretend.

Li Ru took Tian Feng's arm and said gently: "Husband, I'm not a jealous person, you know, just say what she likes to say, I don't care if I don't care."

Tian Feng's heart was like a knife twist. The more Li Ru did, the more he felt sorry for his wife. He drank another glass of wine and still did not speak.

Lu Yang said lightly: "Actually, that woman may not be as good as he said."

Tian Feng frowned, looking at Lu Yang and asking, "What do you mean?"

Lu Yang said: "Simple, the wedding ring on the man's hand is worth hundreds of thousands, and the woman's hand does not have a wedding ring."

Tian Feng opened his eyes suddenly and said, "I remember that the woman was wearing very new clothes and the shoes on her feet were also new."

Lu Yang went on to say: "The woman's hair is newly made, and the attitude of the two is too close."

"If it is a former couple, depending on the age of the two, even if they are ten years apart, it is absolutely impossible to be so close." White Lion said.

Tian Feng said awkwardly: "The two of them should be lovers, I ..."

Lu Yang smiled and said, "You don't need to be embarrassed. I know your business. Today you were asked to retire. It was just when you were in a bad mood. In the face of the confusion of life, you simply lost your observation."

Tian Feng sighed and said, "Chairman Lu Yang, I made you laugh today."

Li Ru's analysis of the three was a little confused, but she understood and said, "Did Liu Jing just lie to us?"

Tian Feng nodded.

Lu Yang smiled and said, "Some people in this world seem to be doing well, but in fact they are installed in front of people, in other words, everyone has a siege, and people want to go outside. I want to go inside. "

Tian Feng Yile asked, "Why does President Lu Yang have such feelings?"

Lu Yang sighed and said, "You are the boss of the Jagged Brotherhood, I am not the enemy who has forced me to this position step by step. I do not resist, and my brother will suffer, now I am Is tantamount to carrying a big mountain and urgently needs more people to help me carry it. "

Tian Feng blinked and said with a smile: "You will not ask me to help you, I know nothing about the game."

Lu Yang said, "You are right, I just want you to help me fight together."

"But what can I do?" Tian Feng was really surprised this time, and said, "I have learned nothing from the game in the army, and I am not good at commanding."

Lu Yang said with a smile: "Second World is a game, but it can also be said that it is not a game. He is more cruel than business. Do you know how many people are under me?"

"How much?" Tian Feng asked.

Lu Yang stared at Tian Feng's eyes and said, "Thirteen million players in the headquarters of the Iron Brotherhood, 17 million players in India, 9 million players in South Korea, and 7 million players in Nine Star Alliance. Nearly 50 million people. "

"So much?" Tian Feng was stunned.

Lu Yang nodded and said, "This is still I did not expand the recruitment. If I am willing to expand the recruitment, my guild number will soon exceed 20 million, or even 30 million. There are more people, you know, the spies are here. Also, speculative and high-density emerged, as did those who had been bought off during the rebellion. "

Tian Feng nodded clearly and said with a smile: "You want me to help you set up a spy organization to detect betrayed players inside the Jagged Brotherhood?"

Lu Yang said: "Yes, dare to try."

Tian Feng smiled and said, "This is my specialty. I joined the army at the age of 18, and at the age of 23 I attended the military school. I graduated with the highest grades. For the next 20 years, I worked as an agent and spy. I dare not say anything else, if you dare to use me, I can guarantee that there will not be a traitor under you. "

Lu Yang patted the table and said, "All I want is this sentence of you, let's say, what treatment you want."

Tian Feng blinked. He did not expect that Lu Yang would agree to this, and asked, "You don't ask any more? You just hired me?"

Lu Yang said, "I see people very accurately, and I believe you can do it, unless you don't believe my vision or trust yourself."

Tian Feng laughed and shook his head, saying, "Today I am a bit embarrassed. I was going to be alone for a few days, and then I went out to see what job I was looking for, or I tried to apply for a foreign company, or I was looking for A smaller domestic company has always felt sorry for his wife, and encountered another **** like Liu Jing, which completely broke my defense line. I do n't know how much I 'm worth, nor do you know how you use me. . "

Lu Yang motioned to White Lion to take his document bag, and from there took out two identical contracts and handed them to Tian Feng, saying, "Look if it's not right."

Tian Feng opened the contract, and Li Ru also looked over. The contract was not long. On the previous page, the hired job was marked with the salary in the lower column. However, both Tian Feng and Li Ru did not understand the amount of money.

“Monthly salary, one, ten, one hundred, one thousand, ten thousand, thirty thousand!” Li Ru looked at Lu Yang in surprise, Tian Feng was equally surprised, this salary is five times his in the army!

Lu Yang said: “You read that right. This is the contract I am preparing to instruct Teacher Tian Feng. Your position will be independent. I will only accept the management of my vice president Tu Feng. I will give you five million startup funds. With ten positions, you can hire your employees at will. The salary is uniformly fifteen thousand, and the five insurances and one fund are all paid by the company.

As for the first task to test your abilities, find out the deepest spy in my guild and prepare to betray my group player in the war soon. If you can do it, I will give you more funds. You His wife will give an extra 10,000 cash to raise the children, and your children will also be sent to the best private primary school, all costs will be borne by the company. “

Tian Feng was really surprised. He had never heard of such a high level of benefits. For an officer like him who has been at the bottom for a lifetime this money is an astronomical figure. Well, later can also bring better education to his wife and children, which makes Tian Feng care more.

He looked at Li Ru and asked, “Wife, do you say I should sign?”

Li Ru said softly, “I listen to you.”

Tian Feng gritted his teeth, and stared at Luyang Yang’s eyes and said, “Okay, I signed. You are the first person who believes in me and is willing to use me. Then I will do it with you. If you leave me alone, I will Do it with you. “

Lu Yang laughed. He could feel that Tian Feng’s words were sincere. The soldiers had a plot of gratitude. The most important thing was affection. He believed that in the future, as long as he could treat Tian Feng, Tian Feng would give his life to work for him. !!

He raised his glass and said, “Come on, this glass is dry. This is the most enjoyable time to drink.”

Tian Feng laughed and said, "Yeah, that's when I drank a bit of taste. I drank it, 20 years of old wine. Those two glasses were a waste of me, and I didn't even taste anything."

The white lion also laughed, and the three laughed cheerfully!

Chapter 1480 - Big show opening

Lu Yang himself is not a good drinker. After drinking two glasses, he stopped drinking. Although Tian Feng himself was fine, he was not greedy. After a few chats, the topic turned to work.

"Boss, what do you think is wrong with the Association recently?" Tian Feng asked, and he needed to know the specific information of the Association.

Lu Yang said: "There are many problems. The main problem is that the game has entered a relatively stable period. It is difficult for players to improve their ranks. Their thoughts have gradually shifted to fighting. Many guilds want to replace me. I am inside the guild. The vast majority of ordinary players are not loyal to the guild. If there is better treatment, many people will choose rebellion, especially the head of the regiment. If they rebel, they will take away a group of people. If they face rebellion, I will encounter A lot of trouble. "

Tian Feng said: "My mission is mainly internal. I understand that this is not difficult. I will recruit 10 people to help me and train a group of real spy reporters. The cost will not be too much. , Trivial. "

Lu Yang knew Tian Feng and his men in the last life followed him from the army very well. He said, "Recruit as soon as possible, but there is one thing I have to explain to you, because you are engaged in spying. I Don't let you appear in front of people, your work place will be in a secret place, and your wife will go with you. "

Tian Feng nodded and said, "This is normal, our husband and wife are fine."

It is impossible for spy reporters to go home often. Lu Yang decided to establish such an organization, and this organization must be the most mysterious organization. No one can break him from the outside. As for the inside, the last life before he died, I haven't heard that Tian Feng has been bought by him, or his capable men have been bought by him. I can know that Tian Feng is also the strongest guild to know.

From then on, Tu Feng was in the bright place and Tian Feng was in the dark. As long as nobody knew Tian Feng for a day, there would be no problem in his guild.

Now, it's not far from the next big battle. Alice has found Zhou Tianming. At the same time, she secretly spread rumors among ordinary players in the Iron Brotherhood. As you can imagine, Alice's purpose is very clear. Come and fight against the Brotherhood of Iron and Steel, plus the joint attack of the seven strongest guilds, completely destroy him.

"Dididi!"

The voice of the intercom sounded, and Lu Yang picked it up and found that it was Zhou Tianming. He pressed the call button with a smile and asked, "What's the matter?"

Zhou Tianming scratched his head and said, "Alice asked me, I will not go."

Lu Yang almost didn't hold back, and asked with a smile: "You say it again, to be specific."

Zhou Tianming looked around and determined that nobody was there. He squinted into the phone's microphone and covered his mouth with one hand. "Alice just called me and said she wanted to meet me in private. , She said, she admires me very much. "

"Yeah!" Lu Yang said with a smile: "Dude, can you live? I remember you're still that."

Zhou Tianming's depressed face flushed and said, "So boss, am I not looking for a way to come? Are you still joking about me, but I will tell you first, I promised her to go, otherwise It's exposed. "

Lu Yang smiled and said, "Go ahead, believe me, Alice will make you a worthwhile trip. This woman is at the age of Fanghua Zhengmao, but it is very charming."

"Boss, even this isn't the old cow eating the tender grass, I'm only 18." Zhou Tianming is depressed, but he has a complex and is very resistant to such women.

Lu Yang comforted: "It doesn't matter, just because you don't understand, let her teach you."

"Fuck, I would rather find a woman who really loves me, rather than looking for this pink bus." Zhou Tianming was even more depressed.

Lu Yang thought for a while and said, "Let's hold on, maybe you can survive two or three times, but for the fourth time, I will fight with them before that and keep yours."

"Thank you, boss." Zhou Tianming exhaled.

Lu Yang hung up the phone with a smile, but with a nine-point coldness on his face, he said to Tian Feng: "Go to your ten men and start work tomorrow. The war is about to begin."

Tian Feng's face was a bit surprised, but more excited, he arched his hand and said, "I'll bring my brothers here for you to see."

He turned around and ran out. He knew that the opportunity that belonged to him and his brothers came. These ten people were following his men. He was excluded, and they would also be excluded. Just this time, he joined the Jagged Brothers by chance. League, the spies and enemies in the organization of tens of millions of people, he felt excited to think about it.

Li Ru was still sitting in the room. She was a little speechless of her husband's recklessness, and she threw her away with excitement, looking at Lu Yang and saying, "Boss, I'll take care of it."

Lu Yang said with a smile: "Xunzi, starting today, you must be silent, especially for your husband's work, it is best that you make up a reason for others to not ask you."

Li Ru tilted his head and thought, and said, "It's easy, I said my husband was derailed."

Lu Yang: "..."

White Lion: "..."

"Xunzi, your excuse ... That's great." Lu Yang felt Li Ru's heart was big, but it was also because of this heart that he could tolerate her husband.

Inside the game.

In Alice's unique pink space, a group of people are sitting around her at a table. If Lu Yang is here, she must be very familiar with the last attack, such as Gelga, Olma, and Sanyouweimen. Several of his strongest guild presidents included Steiger.

"What did you ask me to do?" Steiger frowned at Alice.

Alice lifted Erlang's legs gracefully, and the cheongsam slipped underneath, revealing her long beautiful legs. She was very proud of her body, and said to Steiger, "Of course I have good things for you."

"What a good thing?" Steiger was unmoved. He doesn't have much spare time now. Players are desperately upgrading and elites are playing equipment. The investment bosses behind the scenes are also urging him to decisively fight.

Of course, all these outsiders don't know, except Lu Yang!

Alice looked sternly at Steiger and said, "I know you don't have a fort now, so I'll send you a fort."

"Will you be so kind?" Steiger was a little angry. Last time, instead of listening to Alice's words, he stormed Lu Yang. He would not be conspired by Liu Jie and said, "Do you have that strength?"

“Of course.” Alice looked at Steiger proudly, and said, “President Sanyouweimen, President Olma and all the strongest guilds that attacked Lu Yang were gathered here last time. We will be preparing to attack the blood again. Brotherhood, if we win, we are willing to give you one fifth of the Indian region. “

Steiger sneered and said, “Don’t make fun, you couldn’t beat it last time. Why did you beat it this time?”

“Not the same. The guilds were too wasteful last time. This time the Jagged Brothers League has not responded because of our last attack. Many players in the area under his control have the same level as his elite group.” Olma said.

Steiger said, “So what, they have the fighting power of the Brotherhood of Iron and Blood. Don’t waste any effort. With the presence of Lu Yang, the slogan of Brotherhood of Irony Brotherhood is enough to defeat those little guilds.”

Olma stared at the donkey’s eyes and said, “And us.”

“It hasn’t stopped at the fortress of tigers.” Steiger mocked. “Do you have a new attack?”

Olma was furious and was about to refute, but heard Alice grin and said, “If I tell you, what can I do?”

“What is it?” Steiger asked in disbelief.

Alice said proudly: “The last time we made a mistake and misunderstood the strength of ordinary players. Therefore, this time I aimed the strategy against the inside of the Jagged Brothers Alliance. Guess who did I turn against?”

“Who?” Galga asked.

Alice was more proud and said, “Zhou Tianming!”

“Impossible!” Sanyou Weimen stood up and reprimanded: “You’re making a fool, Zhou Tianming is Lu Yang’s capable officer, and the guild shares, how could you be countered by you?”

Alice brushed her hair lightly and said charmingly, “He’s on his way to Italy to see people.”

Everyone: “...”

Galgar frowned, and said, “Alice, you are really beautiful and very charming. We all admit it, but at our level, your beauty is not enough for us to fight everything for you. . “

Alice snorted, and said: Daniel is ready to kill you for me, fool!

But she said, “Do you know why Zhou Tianming was countered?”

Sanyou Weimen said angrily: “It’s simply fake.”

Alice shook her head with a smile and said, “You all don’t pay too much attention to information. You don’t understand. Zhou Tianming is jealous.”

“Jealous?” Everyone frowned.

“Specifically, what do you mean?” Steiger sat in his chair and asked with interest.

Miyoshimonmon and Gerga also returned to their positions. Their external intelligence capabilities were very limited. After all, they had crossed countries. In this regard, they relied heavily on Alice.

Alice watched the presidents of some of the strongest guilds sit down so obediently, with a more proud expression on her face, and said, “This matter starts with the internal system of Lu Yang. His system has one of the biggest The loophole is that the powers and responsibilities are unknown. In addition to the top eight main vice chairpersons, the rest of the people do not accept anyone.

Steiger said: "We know this well. In private, these vice presidents are fighting, but they avoid landing."

Gelga said: "But this will not make Zhou Tianming rebel."

Alice said: "If Lu Yang continues to treat this fairly, there will be no problem, but when you attack the tiger, Lu Yang will make the command ability lower than Zhou Tianming's bitter love for half a lifetime when he attacks the tiger. , And in subsequent battles, let half-life bitterly command Zhou Tianming. "

"If Zhou Tianming and his men can swallow this breath, they can't swallow it, but they have a hard time showing off and taunting Zhou Tianming and their men for half their lives. You know, sometimes, you His behavior is largely influenced by the guild brothers, right? "

Everyone nodded.

Alice went on to say: "Zhou Tianming was looking for the trouble of loving half-life on the day of the celebration, but he was reprimanded by Lu Yang. His brother was angry, but Lu Yang was able to win the bloodthirsty domineering in the early years. He and his brothers have always been excluded from the earliest Brotherhood of the Iron Blood Brothers, and this time they were excluded. Zhou Tianming decided to take his brothers to independence and explained that he would fight the bitter love for half a life. "

Sanyouweimen still didn't believe it, shaking his head and saying, "I need to see Zhou Tianming with my own eyes. I still can't believe this."

Steiger said: "It seems to make sense, but we need to meet with Zhou Tianming. If it is true, I agree in principle to attack Lu Yang."

Olma and others nodded.

Alice said: "Of course there is no problem. I will take him to meet you tomorrow. Why not come to Italy tomorrow and let the little girl entertain you?"

"It's okay," said Sanyou Weimen. "We should respect a vice-chairman like Zhou Tianming."

One of the eight vice-chairmen of the Iron Brotherhood Alliance, the strength is comparable to that of Zhuojiu and Bai Shixiong, and it is one of the biggest heroes of the Iron Brotherhood Alliance. Not only Sanyoumonmon, Olma, Steiger and others There are opinions.

“Okay, that’s it. I’ll be waiting for you at the airport at 8 PM tomorrow,” Alice said excitedly.

Sanyouweimen and others smiled, and each exited the special space.

Steiger returned to the battlefield with a mocking smile on his face and said, “Even if you say that the snow in the Alps has melted, this time I will not participate in the war, and this time I will take this opportunity to recapture My German area, Liu Jie, you wait for me. “

He was about to join the battle, stopped again, thought about it, took out the speaker to adjust it to Chinese mode, and called Lu Yang.

“Dididi”

Lu Yang was sitting in the room waiting for Tian Feng’s return. When he saw the phone ringing, he picked it up and found out that Steiger called. He couldn’t help but smile and pressed the connection key to ask: “Shi President Tiger, have you adjusted the Chinese mode? “

“Do you treat me like you?” Steiger said angrily: “Tell you the bad news, Alice reassembled Sanyoumen, Olma, Radvijef, Jerez, etc. last time The people who attacked you, including me, are planning to launch a joint attack on you in the near future. “

Lu Yang pretended to be surprised and said, “Yeah, dare you come?”

Steiger sneered and said, “When I heard you, I knew you were ready. Don’t worry, I won’t ask you for nothing to fight with you. Go to Alice and those fools. Trouble. I’ll go to Liu Jie’s trouble. Neither of us should influence anyone. “

Lu Yang was too lazy to think about what Steige said, and asked, “Did I pretend not to look so much?”

Steiger sneered: "With the last lesson, if your subordinate Tu Feng still doesn't know the enemy's movements, he is a fool, but according to his performance in the past four years, it is obviously not, so you are lying to me . "

"Okay, okay." Lu Yang said with a smile: "I do know some and have prepared, rest assured, a few of them can't beat me, and I won't trouble you, you are too poor ,I am not interested."

"Hang up." The more Steiger listened to Lu Yang's words, the more angry he was, but he was certain that Lu Yang didn't know about Zhou Tianming's rebellion, which was enough.

"Wait, even if you can defend, it will cost you a lot." Steiger sneered.

On the other side.

Lu Yang watched Busy Voice's phone with a smile and pressed the lock screen key, and said to the White Lion: "See, we haven't done anything yet, and I can't help it in all aspects."

The White Lion said, "Let's get back to the team immediately."

Lu Yang shook his head and said, "Don't worry, the global competition has not yet begun. It is estimated that during the final of the global competition, Zhou Tianming's rebellion at that time will most affect our several games and our guild. Players, if I didn't win the first place at that time, Zhou Tianming rebelled again, or it would be a problem. "

The White Lion thought for a while and said, "It's better that we put Alice together first. While this Christmas event, some of our main vice-chairmen rushed into the area controlled by He Peng and slaughtered."

Lu Yang said, "Smart, I'll let you guys prepare in advance, that's what it means, go, the battle will begin tonight."

A few days ago, he arranged people such as Muddy Wine and White Lion to gather hands to prepare to attack eight fortresses in the area of He Peng. Without moving for a few days, Alice already knew the movement. At this time, she could let the players go. Practice assembling without being suspected by Alice.

“Yes, I’ll go now.” The White Lion turned and left.

Just arrived at the door Tian Feng came back with 10 people and he said to Lu Yang excitedly: “Boss, they are all my best brothers and my most powerful men. I just told them Say, they promised to follow you with me. “

Lu Yang nodded, thinking that these ten people are the most famous ten ghosts of the last generation of Tian Feng, but it has never been proven that it is difficult to dig up to Tian Feng. The betrayal vomited, and probably guessed that this was the case. Ten ghosts.

Ten ghosts managed ten departments, and Lu Yang asked them to report to their families. The ten people were Li Fei, Zhang Jun, Zhou Yaqiao, Pan Yong, Zhao An, Guan Yue, Jin Kai, Miao Zhenyu, Su Zhan, and Tang Long. .

That day, Lu Yang gave them a day to prepare. In the evening, Tian Feng and the 10 people returned to the East China Sea with Lu Yangfei.

Lu Yang did not let them go to the game city, but was written 2 kilometers outside the game city in a small villa under the name of Han Zhong.

Han Zhong, Black and White, and Tu Feng stood next to Lu Yang. Lu Yang pointed at these four people and said, “In the future, you 11 people will only accept orders from these three people and me. Han Zhong will be responsible for teaching you how to play. Responsible is the safety of the entire game city. Tu Feng is now the vice president of logistics, and he is responsible for all information. “
