

Chapter 1611

Originally, Elsa only felt that Charlie's rhetoric could barely pass, but there were always some things that made her feel that something was wrong.

However, Charlie's self-deprecation directly swept away the only little doubt in Elsa's heart.

She thought that when Charlie was in school, he was looked down upon by all kinds of people, even his classmates from the same background could bully him wantonly.

But he never cared about others, let alone argue or quarrel with them, it seems that everything has nothing to do with him.

With Charlie's personality, it is indeed impossible to tell her about Sara.

Moreover, even if he said it, no one would believe it.

Thinking of this, she admired Charlie somewhat.

Knowing the Gu family and commensurate with Ms. Sara's siblings, but never told anyone about it, and would rather be looked down upon by others than thought of using this relationship. This is indeed is very rare.

However, she still has a little faint worry.

Because just now, she saw Charlie and Sara behave intimately, so she always felt that there seemed to be something abnormal between the two.

So she asked Charlie tentatively: "Charlie, did you know your relationship with Miss Sara at first?"

Charlie smiled and asked, "Do you know JX Weisan?"

"I know." Elsa nodded and said, "Isn't this the super hot gastric medicine with amazing effect during this period? Oh, by the way, it seems that Miss Sara is the endorsement of it!"

Charlie asked her again: "Then do you know that the manufacturer of JX Weisan, JX Pharmaceutical, is an Aurous Hill company?"

Elsa continued to nod her head: "Well, I know."

Charlie smiled and said, "When Sara went to Aurous Hill to shoot an advertisement some time ago, she also ate dinner with Claire and me, but because Sara is a public figure, I didn't tell you about it."

"That's it..." Elsa suddenly realized, and asked Charlie: "At that time Claire knew that you two had known each other a long time ago?"

Charlie shook his head: "In fact, I didn't tell Claire the truth at the time, because Sara was going to work at that time, and I didn't want others to know about my affairs with Sara, lest I would drag Sara's back legs. , So I didn't tell Claire or anyone about this at that time. In fact, if I didn't happen to meet you today, I wouldn't tell you."

Elsa nodded gently, and when she heard Charlie always laugh at the name pauper, she felt a little distressed in her heart, so she said: "Charlie, don't be so arrogant all the time. In fact, you are very powerful, I think few people can compare themselves to you!"

Elsa's remarks came from the heart.

She really felt that Charlie was very unusual. If nothing else, the strength alone was by no means comparable to that of ordinary people. At the beginning, Oliver Vincent had no ability to counterattack before him.

Judging by Charlie's terrifying combat effectiveness, those who insulted him in the past were actually not his opponents at all, but Charlie never cared about them.

Sara on the side hadn't spoken all the time. She knew that her unintentional remark just now almost caused trouble. Fortunately, Charlie's brain reacted quickly, otherwise it would be really hard to explain this matter.

Chapter 1612

Seeing that Elsa believed his words, Charlie said: "Elsa, it's late, we'll leave first. See you at the airport tomorrow."

Elsa nodded slightly, remembering something, and hurriedly said: "By the way, you just saved me again!"

Charlie smiled and said: "The old one is not you, it's the little girl. She really ran into you. You shouldn't have any big problems, but the little girl may be in a little danger."

Elsa deliberately curled her lips and said in a very stubborn tone: "Thank you for that too!"

Charlie smiled helplessly: "Okay, we have to go, so I won't be polite with you. Remember this, don't tell Claire first."

Elsa nodded: "Okay, I see, it must be tight-lipped. It's getting late and we both left."

Elsa and her cousin parked their car in a nearby parking lot. Charlie and Sara just parked their car in Gu's courtyard, so everyone was not in the same direction, so they said goodbye on the edge of the ice rink.

After the separation, Charlie finally breathed a sigh of relief. It seemed that today this incident was barely cleared.

After Charlie and Sara turned and walked out several tens of meters, Sara asked him in a low voice, "Charlie, why do you keep concealing your identity? If you show your identity, how dare those people in Aurous Hill bully you!"

Charlie smiled slightly: "I left Wade's house with my parents and fell into Aurous Hill. To put it bluntly, I'm just like an ordinary orphan. What could I do even if I showed my identity? Others may not believe it."

Sara asked again: "Then after Uncle and Aunt passed away, you could obviously contact the Wade family and let them pick you back."

Charlie shook his head and said indifferently, “The situation in the Wade family is complicated, far beyond what I could control at the time. What’s more, my parents just didn’t want to bow their heads to the Wade family before leaving Aurous Hill. Although I was young, my body was flowing. It’s their blood, how can I take the initiative to bow their heads to the Wade Family and return to the Wade Family to enjoy the glory and wealth after their death?”

Sara’s eyes soon turned red. She hugged Charlie’s arm tightly and choked up and said: “I feel sorry for you for having suffered so much and suffered so many grievances for so many years. They looked down on you and can bully you...”

Charlie patted the back of her hand, and said with a smile: “Humans are like this. They have to withstand the ups and downs and be complimented by others for a lifetime. Maybe they don’t know the dangers and sufferings of the world for a lifetime, so it is very likely that they will suffer in the future. Unfortunately, unlike me, I have seen the warmth and coldness of the world since I was eight years old. These experiences will be a precious asset for my future life.”

Sara nodded slightly, tears running down the corners of her eyes.

She really felt sorry for Charlie’s life over the past ten years. Even if Charlie said so lightly, she felt like a block in her throat every time she thought of it.

He was the young master of the Wade family, but he lived in Aurous Hill and suffered from the bottom of the society. Sara couldn’t imagine how he survived so many years.

Although she is younger than Charlie, she hopes to keep him in Eastcliff forever when she thinks of these things. She doesn’t do anything by herself. Every day, she will do everything possible to treat him well and make up for him for so many years.

At this moment, Charlie suddenly sighed: “I will leave tomorrow. Let’s see Stephen today!”

Sara asked in surprise: “Charlie, are you going to see Uncle Stephen?”

Charlie nodded and said: “My parents’ things back then, I still need to ask him face to face.”

Sara blurted out, “Then I will go with you!”

Chapter 1613

Charlie was not overly wary of Stephen.

This is because he can analyze that Stephen has absolutely no malice towards him.

Even for so many years, he was able to grow up in Aurous Hill safely, thanks to Stephen’s secret protection.

Therefore, if Stephen had malicious thoughts about him, he would not wait until now.

This is also one of the few people who can absolutely be trusted, so he is going to contact Stephen and ask him to meet to learn some details of the year.

Stephen was in the Wade Group at this time.

In the high-level conference room of the Wade family group, all the children of the Wade family gathered here to participate in the family meeting.

It was Zhongquan Wade, the Old Master of the Wade family, who presided over the meeting.

Nearly twenty descendants of the Wade family were all sitting in the meeting room.

At this moment, the Old Master said with emotion on his face: "Old Master walked in a hurry yesterday and went directly to the airport from Waderest Mountain. I didn't even see him for the last time. What a pity!"

Charlie's aunt, Cynthia, asked, "Dad, did you let us come to the meeting for the old master's return to the United States?"

Zhongquan waved his hand and said: "The old master had told me a long time ago that the reason why he stayed in Eastcliff and the country after the completion of the Waderest Mountain was to wait for a chance that belongs to him. He is gone, presumably he has gotten the opportunity he has been waiting for for years."

Everyone nodded, and a cousin of Charlie's generation asked: "Grandpa, is there anything important that you let us over today?"

When the Old Master called the entire Wade family's direct descendants for a meeting last time, and decided to move the ancestral grave, the Wade family's family business was too big after all. The children were in charge of various ministries and scattered across the country. If it was not an extremely important matter, there was no need to Everyone got together with great difficulty.

Zhongquan sighed and said: "At the beginning, the old master told me that after the dilemma of Dragon's sleepy shoal of the Wade family broken, Wade's would have the opportunity to soar into the sky and rise to the next level, but I still couldn't understand it, Dragon Wade Where is the opportunity to soar into the sky."

Everyone looked at each other for a while.

The current strength of the Wade Family ranks second among the big families in the country, second only to the Su Family. If one were to rise to the next level, wouldn't it mean to surpass the Su Family and become the first family in the country?

As a result, everyone was a little excited.

Charlie's third uncle, Changyun Wade, said: "Dad, did the old master give some general clues? For example, where will this opportunity appear? Who is it? Or through what can we find relevant clues?"

Zhongquan shook his head and said: "The old master only said that the Wade family will usher in a god-given opportunity, but as to what the opportunity is and where to look for it, he didn't confide half a word, just said that it is a secret opportunity that should not be revealed!"

Cynthia smacked his lips and said, "Then this range is too broad. We can't catch clues if we want to!"

Zhongquan said: "If you can't catch it, you have to find a way to take the initiative and search for it!"

After speaking, Zhongquan said again: "I have been thinking about a question for the past two days, that is, how can we surpass the Su family."

"Surpass the Su family?"

Chapter 1614

All the descendants of the Wade family, when you look at me and when I look at you, they all think this incident is almost a fantasy.

Compared with the Su family, the Wade family is similar, and the comprehensive strength of the Su family is about 20% higher than that of the Wade family.

However, because the Su family's and Wade family's property base is too large, the difference in money between the 20% gap is also astonishing.

If the Wade family wants to surpass the Su family, it will be possible to increase their assets by at least a few hundred billion.

The size of the Su family is stronger than that of the Wade family, and the development speed is naturally faster than that of the Wade family, so the gap between the Wade family and the Su family is actually slowly widening.

Now wanting to go up against the trend and catch up with the Su family all the way is not only difficult, but more like a fantasy.

Zhongquan could not help but sighed when everyone was silent. "Twenty years ago, when Changying was still alive, under his leadership, the Wade family almost surpassed the Su family. At that time, Changying formulated a strategy to dominate the country. Eastcliff's big family believed that the Wade family would inevitably surpass the Su family and become the top of the country..."

Having said that, Zhongquan was silent for a moment, his eyes full of compassion and said: "But, after Changying left, you people are really not as good as one..."

When Cynthia heard this, she was very dissatisfied and said, "Dad, it would be boring if you say that. We always say that we are not as good as Changying and that is not as good as Changying, but you drove away the Changying family. Driving him away, maybe the Wade Family had now achieved the goal of dominating the country."

"You..." Zhongquan pointed at Cynthia angrily, trying to yell at her, but then he put it back.

He sighed and said to everyone: "What happened back then is over. Let's focus on the present."

Cynthia said, "Do you always have any good ways to shorten the distance between us and the Su family?"

Zhongquan hesitated for a moment, and said: "The Su family has always been a prosperous male lead. Father Su has five sons and thirteen grandchildren, but he seems to have only two granddaughters. One of them is 22 years old this year and has reached the age of marriage, and the other is a minor, these two granddaughters are like pearls in the hands of the Su family. If the Wade family's grandchildren can marry the Su family's granddaughter, it will definitely help the Wade family!"

Charlie's aunt, Cynthia, said: "Dad, Su's granddaughter is very much loved in Su's family. If you want to marry her, at least it must be our eldest grandson!"

Wade's grandson is the son of Cynthia.

At this time, Cynthia sighed and said: "He has already signed a marriage contract with the Norwegian royal princess last year. The wedding will be held this summer. Almost all Eastcliff knows about this. There is no room for mediation!"

"Yeah." Charlie's cousin said: "The Zhiyu of the Su family, I have been in contact before. This woman has a cold personality and rarely participates in social activities. Many domestic and foreign celebrity gatherings have changed. She has never accepted the invitation. To pursue her is as difficult as going to heaven. What's more, I have a marriage contract. If I go to pursue her, the Su family can see my motives at a glance."

One of Charlie's cousins, Hawade, the eldest son of Changyun, the eldest third of the Wade family, couldn't hide his excitement and said, "Grandpa, why don't I try?"

Andrew, Charlie's first Uncle, glanced at this plain-looking nephew, shook his head and said, "Hawade, the strength of the Su family is above us, even if you are the eldest son of Brother, you may not be able to enter the eyes of the Su family. Not to mention you?"

Changyun said a little displeased: "Brother, what you said is boring. Who stipulated that Su's parents and granddaughters must marry someone else's eldest son? Maybe our Hawade has this charm?"

Andrew chuckled: "The third, if you are not convinced, you can let Hawade give it a try. I'm just afraid that Hawade won't even have a chance to meet Zhiyu. In that case, it would be a laugh."

Elder Wade couldn't help sighing, splashing cold water and said, "Want to marry the Su family, Hawade is really too far behind."

As he said, he suddenly remembered something, his eyes flashed, he looked at Stephen, who had not spoken, and said, "Stephen, do you think that if the son of Changying is allowed to marry the Su family, can he agree?"

Chapter 1615

As soon as Mr. Wade said this, the whole audience let out a surprise!

The son of Changying, isn't that Charlie?

In fact, as early as when Elder Wade asked Stephen to buy the Emgrand Group, in Aurous Hill to give it to Charlie, and invite him to return to the family, everyone knew the news that Charlie was still alive.

Except for the Old Master, everyone else was very wary of him, even extremely repulsive in their hearts, for fear that he would return to Eastcliff and compete with them for the Wade Family's property and power.

Fortunately, Charlie rejected Stephen's request and did not return to Wade's house, so everyone breathed a sigh of relief and slowly relaxed their guard.

However, even if Charlie didn't come back, everyone was extremely dissatisfied with the matter of the grandfather throwing hundreds of billions and giving him the Emgrand Group.

The Wade family's assets exceed trillions, but after all, the population is large.

Charlie's grandfather has four sons and two daughters.

Except for the second child, Changying, who died young that year, the other three sons gave birth to seven grandchildren and six granddaughters.

Although the two daughters were married, they both held important positions in the Wade family's financial empire. Therefore, even if they were evenly distributed, it would not be possible to reach the level of 100 billion per person under the circumstances of many children.

Therefore, Charlie got the Emgrand Group alone, which really made many Wade family members very jealous.

At that time, there were also many people who jointly opposed and strongly protested the eccentric approach of the father.

But the Old Master resisted the crowd and insisted on doing so on the grounds that the Wade family owed too much to Changying's family.

Although everyone was dissatisfied with 10,000 in their hearts, fortunately, Charlie did not plan to return to Eastcliff to compete with them for more property, so everyone reluctantly accepted all this.

In the eyes of everyone, it is actually quite good to let Charlie be a feudal king outside, at least it will not affect their fight for the position of Wade Family Patriarch.

However, the Old Master actually wants Charlie to come back, and he also wants him to marry the Su family. Isn't that for them to lead the wolf into the house?

Therefore, Andrew, blurted out: "Dad! The son of Changying has been outside for so many years. He has not received high-end education, has not experienced family training and experience, and is completely a wild man. Let him marry the Su family. , Doesn't it make people laugh out loud? And, I remember, he has already made a family in Aurous Hill!"

"Yeah, dad!" The old third Changyun also hurriedly said: "Which one of our Wade family's grandchildren is not the top domestic private school and has been studying from kindergarten to high school? Which one is not studying at a top overseas university? Which one is not from childhood not receive the top-notch education combining Chinese and Western? Not only learning knowledge, learning business, learning management, but also learning multi-language, learning aristocratic horsemanship, learning golf, the son of the second brother, grew up in an orphanage, not even a university he's been to, how could Miss Su's eldest in the Su family look at such goods?"

Others also agreed with him.

Stephen said blankly at this time: "Mr. Charlie has been to university, but he has not been in college for four years. Moreover, I have some contact with him. In my opinion, Mr. Charlie has the demeanor and courage of the second master. , It is definitely a dragon and a phoenix among people!"

Someone shouted sternly: "The surname is Stephen, there is no place for you to speak. Don't look at who is around you, we are all named Wade! You are a domestic slave with a foreign surname, what are you talking about here??"

Stephen said neither humble nor overbearing: "Although I am not named Wade, my life was given by second master, so Stephen had already sworn that this life will belong to the Wade family, so for every word I say, I have a clear conscience!"

Hawade said coldly: "You think we don't know you? You are not loyal to the Wade family at all, you are loyal to my second uncle, so you did everything possible to hide Charlie, and you did everything possible to fool grandpa to buy assets for him. An imperial group, do you still want to fool Grandpa to get him back to Eastcliff? I think your selfishness is actually trying to help Charlie win the position of the Wade Family Patriarch, right?!"

Everyone's expressions changed as soon as this was said!

Chapter 1616

Even Old Master Wade couldn't help being stunned.

Stephen said in a cold voice at this time: "I never thought of letting Mr. Charlie come back. I just tell you objectively that today's Mr. Charlie is not inferior to Changying Wade, who was so powerful in Eastcliff back then! As for the marriage, it is The master proposed it, not me!"

"Besides, you don't have to be frightened here. Mr. Charlie doesn't want to come back at all. With my understanding of him, even if I kneel down and beg him, he will not come back, let alone abandon his wife and go with Su family marriage!"

When everyone heard this, they were relieved.

Won't come back?

It would be better not to come back!

Elder Wade's eyes narrowed slightly.

After pondering for a while, he said seriously: "Actually, I think if Charlie comes back, I can't say that he can really marry Zhiyu successfully."

"How is it possible?" Andrew blurted out: "The Su Family's eyes are higher than the top, and our outstanding Wade parents and grandchildren may not be able to do it. He is a vulgar person who has been outside for many years, why should Su Family be admired?!"

Elder Wade looked at Andrew coldly and grinned.

Andrew was shaken by the Old Master's glance, and he felt as if he could see through his mind at once.

Elder Wade knew in his heart that the reason why Andrew was here to belittle Charlie was because he was afraid that Charlie would really come back, and he was even more afraid that Charlie would really agree to marry the Su family.

Because of fear, so belittle.

It seems to be justified, but in fact it is just to cover up his inner panic.

Others also agreed at this time, everyone's reason was simple, it was just that Charlie grew up in a humble environment and couldn't be worthy of Su Family girl.

Changyun said with a sneer on his face: "Dad, although Charlie is the son of my second brother, he has been the sling in the mouth of a young man for so many years. How can a sling be compared with a lady of heaven like Zhiyu?"

Seeing everyone objected, he thought that Elder Wade snorted and said, "You? Do you know that back then, Zhiyu's mother, the eldest daughter-in-law of the Su family, wanted to find life and death for Changying? Back then, she chased Changying for many years. As long as Changying nodded, she would be the second daughter-in-law of the Wade family. Today, she also worships in front of Changying's grave every year. Do you understand this kind of love for the house and the Wus?"

In a word, the audience was in an uproar!

Andrew only remembered those past events at this time.

Changying back then, in the entire Eastcliff, that is really the dominant existence.

Don't know how many wealthy daughters, they dreamed of marrying him.

This includes Zhiyu's mother and Su's eldest daughter-in-law.

Back then, countless men were deathly jealous of Changying, including his eldest brother.

If the Old Master said that Zhiyu's mother loved Changying, then Charlie and Zhiyu's matter is really possible...

Chapter 1617

Just when everyone in the Wade family had their own ghosts, thinking about what reasons they should use to convince the Old Master to give up this idea.

The Old Master patted the table and said excitedly: "I think if Charlie nodded in this matter, the success rate is very high!"

Andrew hurriedly said: "Dad, Charlie is already married! Do you think it is possible for the Su family to marry the eldest granddaughter who is like a jewel in the palm to a married man? Even if Charlie is divorced, it is a second time marriage!"

Elder Wade said indifferently: "As long as the charm is big enough, what about the third marriage, even if it is not divorced, do you know how many wealthy daughters Eastcliff had back then, would rather give Changying a little? , They had no complaints, this is the charm of Changying!"

Andrew said grimly: "Dad! Times are different! Now young people admire, how can they be willing to wrong themselves?"

Elder Wade said coldly: "Will he or not? It's not you or me. It's the facts! How can I know if I don't try?!"

After that, he immediately said to Stephen: "Stephen, go to Aurous Hill as soon as possible, and when you see Charlie, tell him about this matter."

Stephen said earnestly: "Master I don't think Mr. Charlie will agree."

"What?" Wade Old Master frowned, pointed at the other Wade Family heirs, and asked: "They don't want Charlie to come back, don't you want it as well?"

Stephen hastily explained: "Master you have misunderstood. I am looking forward to Mr. Charlie's return to the Wade family day and night. However, based on my understanding of Mr. Charlie, it is indeed impossible for him to agree to marry the Su family, and he is very attentive to his current wife. When talking about the marriage, don't forget that he and Miss Sara's always have a marriage contract. That is the order of his parents and the words of the matchmaker. Mr. Charlie counts. Miss Sara who considers the Gu family will not consider Zhiyu from the Su family either!"

"f*ck..."

Everyone thought of a fact that they had ignored for many years.

As early as when Charlie was young, he had already betrothed to Miss Sara, who is now the big star!

Grandpa Wade suddenly cast a golden light in his eyes, and said excitedly: "Oh! I am dull! It turns out that the opportunity to soar into the sky that the old master said is on Charlie!"

Others looked at Old Master Wade, wondering why he suddenly said this.

Elder Wade sighed at this time: "Although the strength of the Gu family is much weaker than that of the Su family, but the Gu family is not less! Philip owns 25.5% of the Gu Group's shares! This does not count as his other assets. Adding up is afraid that it will reach the trillion level, even if there is no one, it will be infinitely close. The most perfect thing is that he has only one daughter, and everything about him in the future will belong to his daughter, in other words, it will also be his son-in-law!"

Everyone was jealous to death.

Real or fake?

So Charlie has been outside for so many years, and he still carries the marriage contract with Miss Sara of Gu family? !

This is too d*mn enviable, right? !

At this moment, the Old Master stood up excitedly and said to Stephen: "Stephen, give you a task, I don't care what you use, within half a year, Charlie must divorce the woman in Aurous Hill, and then return to the family!"

Stephen nodded: "Master I must go all out."

The other Wade family members were all annoyed.

According to the current trend, it depends on whether the Old Master must get Charlie back.

Moreover, once Charlie comes back, he is very likely to become the son-in-law of the Gu family, and also likely to become the son-in-law of the Su family.

At that time, he had become a real person in the Wade Family who could make ends meet.

Chapter 1618

This is an unacceptable situation for other cousins!

All of a sudden, everyone began to think desperately about the countermeasures.

Elder Wade's mood suddenly cleared up, and he could already determine that the opportunity for the Wade Family to take off that the old master Lai Qinghua said was Charlie.

This immediately solved the doubts that had troubled him for four years and made him feel good.

So he laughed, stood up, and said loudly, "Okay, that will be all for here today, let's end the meeting!"

Everyone's expressions were a little strange, but no one dared to say anything against it, but everyone had their own ghosts in their hearts. The vast majority of them were unwilling to see Charlie return to the Wade family in high profile.

After the meeting ended, Stephen returned to his office and just sat down in his seat, he received a call from Charlie.

With joy in his heart, he hurriedly connected to the phone and asked respectfully: "Master how do you think of calling me?"

Charlie asked, "steward Stephen, is it convenient for you to speak now?"

"Convenient, yes." Stephen hurriedly said, "I'm in my own office. It's very safe and confidential. You can say anything."

Charlie gave a hum, and said lightly: "I am in Eastcliff and want to see you. Do you have time?"

Stephen asked in surprise, "Master have you come to Eastcliff? When did it happen?"

Charlie said: "I have been here for two days, came over to do some things, plan to go back tomorrow, I want to see you before I leave."

Stephen immediately said, "It's okay, young master, please move to the Hot Cup Teahouse in Huguang Guild Hall."

Charlie said: "Okay, then I will pass by now."

Stephen hurriedly said, "I'll set off immediately!"

Huguang Guild Hall was a Qing dynasty building. It was used to entertain people from Huguang area who went to Eastcliff to rush for the exam. It is a bit similar to the Qing Dynasty Huguang office in Eastcliff. Later, it gradually developed into old Eastcliff people listening to music and having tea. Great place for an outing.

Stephen invested in a teahouse in Huguang Guild Hall. This teahouse is antique and charming. Stephen often comes here to rest or entertain friends on weekdays.

With Stephen's current status as the chief steward of the Wade family, he is considered to be the number one person in Eastcliff. In addition to the top families, the patriarchs of other families have to be respectful in front of him, so his teahouse business is very well, many people with good looks like to come to join in.

When Charlie arrived at Huguang Guild Hall, Stephen had already arrived one step ahead of him.

He personally greeted him at the door, seeing Charlie coming with a woman wearing a mask, stunned.

Stephen has been cultivating in Eastcliff for many years and has extraordinary insight into many things. He can almost see at a glance that the woman wearing a mask who came with Charlie is Sara.

At this moment, Stephen was extremely happy and said excitedly: "Master and Miss Sara, how did you two meet together?"

Sara smiled and said, "Uncle Stephen, I'm all dressed up like this, and I can't hide from you!"

Stephen smiled and said, "Ms. Sara has an extraordinary temperament. How can a mask cover it."

After that, Stephen hurriedly said again: "Young Master Miss Sara, it is not convenient to speak here, please follow me to the backyard!"

Chapter 1619

Hot Cup Tea House is divided into front yard, middle yard and back yard. They are all typical antique wooden buildings. There is also a stage inside. People often talk about cross talk or sing Peking opera here.

The front yard and the middle yard are both open to the outside world. Members of the tea house can consume here, but the back yard is not open to the outside world. This is Stephen's private domain, which is extremely confidential.

Stephen respectfully invited Charlie and Sara into the private living room in the backyard.

After entering, Stephen immediately distracted all the service staff, personally invited Charlie and Sara to sit down on the sofa, and at the same time personally used his set of precious Jianzhu tea set to make a pot of tea for the two.

After passing the fragrant tea cup to the two of them, Stephen couldn't hide his excitement and said, "Master I really didn't expect you to come to Eastcliff, and you are still with Miss Sara... "

Stephen had actually longed for Charlie to be willing to come back, and he had also longed for Charlie to come together with Sara.

He has been in Eastcliff for many years, and he knows the situation of Wade family and other big families very well.

Based on his mastery of the entire Eastcliff family situation, he felt that the best choice for Charlie was to divorce his current wife, and then leave the small city of Aurous Hill, come to Eastcliff, and get his Wade's Er The identity of the young master, and then marry Sara openly.

In Stephen's opinion, no one in this world is more suitable for Charlie than Sara. The two of them are simply a match made in heaven.

This is not only because Charlie and Sara originally had a marriage contract, but also because Philip is a righteous person, and their family of three values loves and righteousness.

More importantly, the Gu family has extraordinary strength and only has one only daughter. If Charlie marries Sara, it is equivalent to putting half of the Gu family group behind him.

In that way, Charlie is not only the second young master of the Wade family, but also the Super-rich, no one can match in Eastcliff.

Therefore, now that he saw Charlie and Sara together, he was very excited.

Charlie said lightly at this time: "I came to Eastcliff this time mainly to take a look at Uncle. Didn't he have a bad health some time ago, so I came to see him."

Stephen was shocked and blurted out: "Master Chairman Gu suddenly recovered from a serious illness, and the whole person looks a lot younger on TV. Should be your help behind?"

Stephen paid no less attention to Charlie. Although he didn't know many things, he still heard about Charlie being regarded as a master in Aurous Hill. He knew that the second young master had some abilities that ordinary people did not have.

Facing Stephen's problem, Charlie smiled slightly, nodded gently, and said, "I also got a good medicine by chance, so I rushed over to give it to Uncle. Fortunately, the good medicine worked well."

Stephen trembled and said with emotion: "Master the effect of your good medicine is more than good! It can be described as superb! Having lived for so many years, I have never heard of any medicine that can cure it. Good for advanced pancreatic cancer. From this we can see that your good medicine is definitely a miracle medicine!"

Charlie nodded noncommittantly and looked at Stephen seriously: "steward Stephen, I have prepared a copy of this good medicine for you. If you need it in the future, I will definitely deliver it to you."

Rejuvenation pills, Charlie has them of course.

Chapter 1620

If it is really necessary, he can take it out and give it to Stephen at any time.

But the reason why he said he would wait until Stephen needed it was that he wanted to use Rejuvenation Pill to increase Stephen's reliability.

It was not that he had doubts about Stephen, but that he felt that it was always right to be cautious under any circumstances.

Stephen hangs with the Rejuvenation Pill, and Stephen's loyalty to him will inevitably increase.

As soon as Stephen heard this, his whole expression was stunned, and he immediately thanked him: "Master with your words, I will die without regret when I go up to the sword mountain and down to the sea of fire!"

Stephen is not only a loyal person, but also a smart person.

Although he didn't know exactly what Rejuvenation Pill was, he could also get a glimpse of it through Philip's performance.

First of all, the good medicine Charlie said must be a miracle medicine that can cure all diseases. Even advanced pancreatic cancer, a severe disease with a fatality rate of almost 100%, can cure it. Then there may be no disease without a cure in this world.

Secondly, Philip's whole body state on TV was better than when he was healthy, which proves that this good medicine can not only cure diseases, but also prolong life.

With these two effects, it can almost be called the world's treasure.

But now, Charlie actually promised to prepare a copy for him, which not only made him excited, but also moved him extremely.

Charlie nodded lightly and asked Stephen, "Steward Stephen, I came to see you this time to know the details of my parents being forced to leave and the murder after that. Do you have any more clues? For example, behind the scenes. Who is it etc.?"

Stephen hesitated for a moment, and said, "Master at the outset, your father clearly offended the Rothschild family, which has dominated the West for many years, but actually offended the entire Eastcliff family."

Charlie frowned and asked him: "Why would my father offend the entire Eastcliff family?"

Stephen sighed and said, "Back then, your father led the Wade family to start transnational finance and trade under the tide of opening up the market economy. At that time, many large families in China knew nothing about overseas financial markets. It is very traditional physical trade, such as exporting some domestic products to overseas, and then importing some products from overseas to return to China. This kind of transnational trade is the most basic. Our ancestors have been doing this since the Wang and Song Dynasties, even in the Song Dynasty. Our country had become the largest foreign trade country in the world. Quanzhou Port, one or two thousand years ago, could be said to be the busiest trading port in the world..."

Speaking of this, Stephen sighed and said, "However, until your father was young, the foreign trade of our domestic entrepreneurs was almost the same as that of the Wang and Song Dynasties, with little technical content, while Europeans and Americans had already played multinational finance. It's supernatural, stocks, futures, oil, gold, private equity funds, hedge funds, venture capital, these are the housekeeping skills of Europe and the United States..."

"At the time, Asian countries were still relying on the hard-produced goods of workers to go overseas to exchange for money. When a little bit of little money was accumulated, their hedge funds went directly to Asia to wreak havoc with a lot of hot money. The financial turmoil can also legally steal the fruits of

labor in Asian countries for years or even decades, causing a country's financial collapse, stock market collapse, and property market collapse..."

"Back then, the Rothschild family aimed at the blood-sucking goal of the big family in China. When everyone could only be slaughtered by others, it was your father who stood up and organized the entire Eastcliff family to work together against Rothschild. This family finally caused the Rothschild family to retreat in embarrassment and dare not come to China for ten years..."

When Charlie heard this, he couldn't help frowning: "According to what you said, the Eastcliff families should have thanked my father. How did my father offend them?"
