

Chapter 1721 - Earth king

Not every guild can be like the Jagged Brotherhood. The president does not seek to make money, and keeps making money.

Jertz wants to rely on this to make money, so the vast majority of their guild money, in addition to the high operating costs during the war, the rest of the time the player's salary is very low.

Especially for Ponzi and his second-tier corps, Ponzi is the first deputy chairman in name, but in fact, he is because of his too many people, most of them are second-tier players, so he ranked first according to the number of people One person.

In the absence of war, the salary of these legionnaires can only be subservient, and they would prefer to obey Pons and start a war.

There is a five-hour time difference between Poland and the United States, that is, when Poland enters late at night, the United States has just arrived in the evening.

In the past three days, Tom was leaving the game in order to compensate for Artemis. Every day, he was called work. In fact, in the hotel room where Artemis lived, all the work of the guild was given to Christina. His men and his men.

So, when Pence slammed Tom Fortress with 800,000 players, Tom had nothing to do with it. Tom and Jerz were originally allies. Although there was a little friction in Claudio area, it was ultimately between brothers. Friction, no one really thinks of fighting.

Ponce this time broke the fixed friendship between the two. By the time Tom was called online, Ponce had already laid down six fortresses in the Claudio area, including one fortress, that is, Without breaking this barrier, none of the six areas snatched can be recovered.

Inside the hotel, when Tom knew the news, he quickly logged in to the game and looked at the fortress that had been lost. He gritted his teeth and called Jerz, scolding: "Jerz, since you want to play, then I Play with you to the end. "

Jerz was sleeping. He didn't hear what happened, but the spy whom Jerz arranged under Tom knew what was happening and quickly called Jerz to report.

"What? You said that Ponzi attacked Tom with 6 million fortresses with 800,000 second-tier players?" Jerz felt that the world was crazy, and even so honest Ponzi would even do this kind of thing.

"Wait for me to go online." Jerz quickly logged in to the game, he quickly went to Ponce to stop the war, but when he connected Ponce, the number of Ponzi was not 800,000, but 3 million. .

In just ten minutes, in the case of Ponce's victory in the war, players who had already watched Tom's fortress join the war.

Jerz knew that he was finished, he couldn't control this war, and Tom couldn't control it anymore. It wasn't the matter of the two of them, but the matter of his millions of players.

If the two of them forcibly stop the war, then they will not be far away from the guild. Jerz will not look for Tom, but will open a special space and invite Pons.

The light flickered.

Ponzi entered into the special space and looked at Jerz with a poor face. For the first time, Pong stiffened and said, "Report the boss, the enemy hit us first."

Jerz's nose was almost crooked, pointing at Pence, but he wanted to get angry but knew that it was not the time, he waved helplessly and said, "Forget it, don't care about you, you continue to fight with people, fight Come down to you more or less. "

"Thank you, boss." Pence ran away.

Jerz is full of helplessness. Second-tier players have the least control. This is a group of players who can only give points but not money. He doesn't have so much money to give.

"Issued a summoning order, all players who can go online are online to participate in the battle, already online quickly come to me to gather." Jerz issued an order.

I thought for a moment, and he called out to Lu Yang and said, "Are you interested in killing Tom?"

Lu Yang smiled and said, "Not interested."

"You!" Jerz hurried and said, "Are you kidding me? I'm all up, you tell me I'm not interested."

Lu Yang shrugged his shoulders and said, "I don't really have much interest. Defeating him, what good can I do?"

Jerz said: "Evenly."

Lu Yang sneered and said, "No, you can play casually, I will never intervene."

After speaking, Lu Yang hung up the phone directly, and he was not stupid. This battle will eventually be mediated by Radvidev and Mitomonemon. The end result is that Tom and Gyor might be the best. Armistice is here, and they will fight together with Radvidev.

After all, it is a game. There is no real death, and it is impossible to end it. If you say that you can lose money, apologize, and equip you, you can turn the enemy back into a friend.

Lu Yang can't take risks. This time it is enough to see them fighting. In another month, the players' level will reach level 170, and they can change the 170 level dark gold sleeve. His 100,000 smelt monster pot The main force has also gradually risen to level 180, which can transform four stronger equipment.

as expected.

After playing on both sides for a whole day and night, the anger of Tom and Jerz fell. As the players of both sides gradually rested, Radvidev and Mitomonemon and others jointly persuaded, and finally, persuaded the matter to reconcile, but Jerz lived forever, and only agreed to give some money. For this reason, the hatred between Tom and Jerz was buried.

Lu Yang, Tu Feng, Tian Feng, Zhuo Jiu, and others gathered together and continued to look at the map. Lu Yang said: "Everyone said that there should be a close attack when fighting, and there is only one Japan left in the vicinity. I think we should have some points with Germany. Contradictions, or make them contradictory. "

"Do you want players from the Blood Stele Guild and the War Elephant Guild?" Tu Feng asked with a smile.

Lu Luyang smiled and nodded, and said, "Smart."

Sanyouemon's guild is composed of three major guilds, namely Sanyouemon's own Iakai guild, Nigeria's Blood Stele guild, and Bangladesh's war elephant guild The three guilds are united to form a guild called The Battle of the Blood Residents Association, in which the players of the Three Friends Guards are elite, and the Blood Stele and War Elephant guilds are the main forces for external combat.

The president of the Blood Stele Guild Cardos and the president of the War Elephant Guild Achoor are smart people and have always recognized the command of Sanyouweimen, but they have suffered a lot from the recent command actions of Sanyouweimen. Loss.

In particular, Lu Yang washes all the fortresses under the Sanyoumen gate. Sanyoumen gate did not explain this and did not compensate for the losses. According to the information obtained by the Brotherhood of Iron and Blood, several large army commanders in the Blood Stele Guild. Quite critical of Sanyouemon.

Lu Yang said: "These people have no brain army legion, they are all local kings. This is a position with more power than the chief and an important constituent member of the Blood Stele Guild. In fact, the entire Blood Stele Guild is these soils. The king was united together, and President Cardos is just their agent, which may be replaced at any time. "

"Tou, what is the right?" The cute queen asked curiously.

Lu Yang said: "Just treat them as the emperor of the earth. The chiefs in each area are all banned by them. The ordinary people in the region are not qualified to shake hands with the chief. They can only shake hands with the feather feathers held by the chief. Think about it. , How big is the power of the earth king. "

Tu Feng said: "Recently, these earth kings close to the Stege area have found a way to the Stege area on the level 180 map. I suspect they want to rob, but have not made up their minds yet. "

Lu Luyang said, "Order the spies to help them make up their minds."

Chapter 1722 - Garden of Tears

It is said that people die for wealth and birds die for food. Lu Yang believes that each guild has excellent managers who are in charge of the general direction of the guild and commanding specific battles. However, it is undeniable that each guild has Ascaris.

There is also the Brotherhood of Iron Blood Brothers, but under the stimulation of Lu Yang's money and generous treatment, the tapeworm is also working hard, so that the entire Brotherhood of Iron Blood looks iron-clad, without any flaws.

This is not the case for other guilds, such as the Sanyouweimen guild. The maggots in his guild are not obvious because no one investigates these earth kings. After all, it is a small country in southern Africa. You do n't know where you do n't look at the map. .

Without knowing their culture and language, he couldn't figure out what these earth kings were thinking, but other guilds didn't do it, but Lu Yang did.

Wu Tufeng's intelligence department learned about these native kings through the local Chinese, and with the help of the Chinese brothers, he found more than a dozen native wife who love money.

Just like what happened to Pez, the first vice president of Jerz, Tu Feng opened his way with money. Three nights later, Lu Yang sat leisurely in the room on the top floor of the office. Tu Feng, muddy wine, White Lion, Xia Yuwei, and Black and White accompanied him.

Xi Lanyu's carefully prepared dishes are placed on the table. On the TV opposite the sofa, live pictures of dozens of local kings and hundreds of thousands of their own players are sneaking on the Staig Fortress.

Xia Yuwei shook her head and said, "I can't understand, how could these earth kings be bought so easily."

Xi Tufeng said, "How much money is spent."

The white lion frowned and said, "But don't they know that this will ruin their guild?"

Lu Yang smiled, sighed while drinking, and asked: "You said that when Han Gaozu Liu Bang was besieged in Bai Mountain, how could her wife be willing to persuade him to release Liu Bang for money?"

因为 "Because they are strong?" Asked Zhuzhuo.

Lu Yang shook his head with a smile and continued to ask: "When Qin Guo destroyed the Six Kingdoms and hit Zhao Guo, so many generals of Zhao Guo were defeated. Li Mu, who was defending the Huns, had to be transferred back, and Qin was killed. The Lien Chan has lost in a row, and the well-known

Wang Xi can't beat Li Mu. But Qin Guo bought Zhao Guo's officials to make a statement. Li Mu was charged with rebellion and was killed after being transferred from the front. This is why What about? "

"Because of fear?" Tu Feng said.

Lu Yang still shook his head and said, "Because of greed, since the ancient times, a word of greed has destroyed countless heroes and heroes, and money has lost both eyes, so you will not worry about what will happen in the future. It has nothing to do with them. "

Everyone was silent.

Lu Yang went on to say: "Not only the three friends of Weimen and Jerez, look at it. The next one is Roland, Radvijef and Stephen. I will let them attack each other one by one until There are many contradictions and they do not help each other. "

His method is the method of Qin destroying the Six Kingdoms during the Warring States Period. He spent money again and again and again and again and again. The Six Kingdoms were quite united. As a result, the six families were enemies. I didn't see any of them.

Black and White asked curiously: "You can think of this way, I'm afraid they can think of it too."

Lu Luyang smiled and shook his head, saying, "I bet they can't think of it, because their history is not as long as ours, and there have not been so many conspiracy and wars of war and controversy in our country."

Everyone smiles.

Lu Luyang said, "I bully people with a long and long historical avenue. No matter how much they resist, they will eventually be destroyed. This new continent is ours sooner or later."

On TV, a sudden roar came, and Steig appeared, and the raging Steig personally led people to slay the King's team. After the fierce fighting between the two sides, the King led his team to retreat.

清 In the early morning of the next day, the forum was covered by the news that Sanyouweimen attacked Staeger by night, and the two sides fought overnight. The news of Sanyouweimen retreated.

Inside a special space.

He pointed at Sanyouweimen and yelled, "You're crazy, you send someone to hit me, believe it or not, I'll take the lead now to beat you, and let Lu Yang kill you."

Also in the special space are Radvijeff and Stephen. Several people quickly grab Steiger to keep him from being too angry, and on the other side, Sanyou Weimen interposed and explained: "It's not me. The order is the personal behavior of those earth kings. "

"Lies are all lies." Steiger pointed at Sanyou Weimen and cursed: "Can your men take hundreds of thousands of people to sneak up on me without listening to your arrangement, do you think I will believe it?"

Sanyouweimen shrugged his shoulders and said, "You can't believe me, but I can tell you that this is definitely not my intention. It was the poor kings who wanted to attack you. I am willing to compensate you. Lose, you can make an offer. "

"30 million euros." Steiger was polite.

San Miemon frowned and said, "Why so many."

He thought that giving a few million would be enough.

Steiger sneered and said, "Do you know how many people I have mobilized? Ten million, I thought your main force came over. I have to guard not only against you, but also Liu Jie. It's just gathering people. Money is an astronomical figure. "

Sanyou Weimen said: "I can only give you three million I hope you can accept it."

I was beaten by Lu Yang a while ago, it was difficult to read his book, and he gave 30 million euros to Steiger, unless he was crazy.

“You can feed three million dogs.” Steiger exited the special space directly.

Radevjev and others looked at each other, and finally persuaded Sanyou Weimen to get more money. In the end, Sanyou Weimen did not give a penny, and the two sides settled hatred.

When Lu learned about this, Lu Yang was taking Xia Yuwei and other main forces to the 180-level map of God Tears Garden. Looking at the world of flowers and plants around the fairyland, people like White Lion and Muddy Wine were a little surprised.

“I don’t think there is such a place in the New World?” Xia Yuwei said.

Lu Luyang said as he walked: “From here, we officially entered the period of war with demigods. In the game, this area is called the battle of myths.”

The Garden of Tears of God is a plot map. Here Lu Yang, the first area of the humans’ counterattack of the protoss, lives here. Most of them are descendants of God. They are the nine pillar gods and many gods under the seat born to different species of this planet. Come out from the son-in-law.

Because of their natural body, they are all demigods. In order to prevent them from being bullied, Jiuzhu God jointly built hundreds of such paradise in the New World. The Garden of Tears is one of them.

Lu Yang took them to fight this copy, on the one hand because the main defense of the guild Xiao Liang, Zhang Zibo and several other people have complete 180 sets of dark gold sets, on the other hand, it is here to produce the light of God, so that they can It has special forms such as the body of the warrior, and further transforms into a lower god.

Chapter 1723 - Son of the Ancient God

“Hello ~!”

A roar came from a distance, a four-legged monster with a height of 50 meters, came slowly from a distance.

Ancient Demon (Lord)

Level: 180

Qi and blood: 100000000000 / 100000000000

“A lord has so much blood, how can demigods fight?” Suffering for half a life is a bit embarrassing.

This is not a copy map, but a field map. Even if 10 people attack, the monster’s health will double.

Lu Lu smiled and said, “Do you think he is strong?”

“There are stronger?” Asked bitter love for a long time.

As soon as the chanting voice fell, a number of purple tentacles suddenly appeared on top of the ancient demon’s head to firmly control the demon, and then a **** mouth appeared, swallowing the ancient demon 50 meters high into the huge mouth full of teeth.

“What happened? The ancient demon with 100 billion blood was swallowed by the tentacle monster?” Suffering for a long time was stunned.

The white lion and the muddy wine were also shocked. This scene is beyond their comprehension. In the past, this kind of strangeness required their close cooperation to fight it, but in the Garden of God’s Tears, it is another strange sip. Swallowed food.

Wu Xia Yuwei asked, "When we fight for a while, this will not happen."

Lu Luyang said, "No, we are hitting the tentacle monster that swallowed the ancient demons."

Everyone: "..."

"Can this fight in the past? I don't think we can swallow it enough." Jiang Ze said.

Lu Yang pointed to himself and said, "I can't be swallowed if I have it. The lower **** has divine power to suppress it. The tentacle monster cannot swallow me directly, but can only attack me. Therefore, I will be responsible for attracting strange monsters for a while. The mobs summoned by the demigod, and the rest attack the demigod, and we must kill the demigod in the shortest possible time. "

This is an easy way to kill demigod monsters. Lu Yang also came to try it out. If he can win, he is not very confident.

Lu Luyang led the crowd into the square of the Garden of Tears. He asked the crowd to wait outside. He himself came to the place where the tentacle monster had devoured the ancient demons, and he just stood below.

"Roar"

怒 A roar sounded in the sky, a space opened in the sky, and a tentacle monster nearly 200 meters tall jumped out from the inside. He was like a meat ball, with only one eye, on the top of the big meat ball.

There are hundreds of tentacles in the lower part of the meat ball, supporting his body. At the bottom of the meat ball, there is a big mouth of blood.

Son of Elder God Bodos (Demigod)

Level: 180

Qi and blood: 200000000000 / 200000000000

When Bodos looked at people, the whole meat ball was in the direction of Lu Yang. The huge meat ball seemed to fall to the ground. The middle eye was 30 meters in diameter, like a meteorite.

“I haven’t tasted the blood of God for a long time, even the next **** is so delicious, let me taste your taste.” Burdos laughed, his body was extremely uncoordinated, his eyes were happy, but the place where he laughed was Behind, it feels nondescript.

Lu Luyang said: “The defense is ready to pick up mobs, and everyone attacks together.”

“Vulcan Body 3 Section + Fire Demon Transformation + Fire Phoenix Transformation”

Lu Luyang’s whole body burst into tears, and in a blink of an eye, the flames rose to a length of 50 meters in the wind.

“Neighing ~!”

With a groan, Lu Yang turned into a 50-meter-long fire phoenix and flew into the sky. This is the ultimate demigod form of Lu Yang.

His wings flickered, and he flew into the wind, flying into the sky, and fired at the fire of Bodos.

“Meteorite Fall”

“Meteorite Fall”

Uh ...

50 Meteorites in the sky with a diameter of 50 meters fall down like meteor showers, averaging one every 0.2 seconds, smashing piece by piece on Bodos's body, smashing his blood volume rapidly.

“Death Ray”

Puppetus was irritated, his eyes were directed at Lu Yang, and a black beam with a diameter of 30 meters was blasted out. Lu Yang tried to avoid it, but he was hit with wings and his blood volume dropped 30 points.

His total blood was only about 100 points. If he was hit three more times, he would be dead. When he was thinking about how to avoid the opponent's skills, Zhang Zibo and Xiao Liang yelled at the same time.

System prompt: Your teammate Zhang Zibo died

死亡 Your teammate Xiao Liang is dead

Lu Lu frowned, and found that the two were killed by a large number of level 180 lord monsters sprayed by two tentacles of Burdos.

“Stop output, everyone withdrew from the battle.” Lu Yang shouted quickly.

People such as Zhuojiu and White Lion fled, Lu Yang tried his best to run Bodos for more than ten minutes before he flung him away, and the group returned to the gate of the Garden of Tears. Everyone's face was a little depressed. They haven't encountered such a situation for a long time.

Lu Luyang looked at the two defenses and asked, “Why did you die so fast?”

Zhang Zibo scratched his head and said, “This strange tentacle sprayed out 12 level 180 lords at a time, and I couldn't carry it at all.”

Xiao Xiaoliang said: “I sprayed 9 out of this side and couldn't carry it.”

Lan Yu said, "They were instantaneous, too late to add blood."

Lu Yang said in embarrassment, "It looks a bit difficult to hit this now."

Wuzhuo Jiu said: "Let's think about it again. We can't call for more defenses. We are now in the bottleneck period. If we can't quickly break through Level 180, it will become increasingly difficult to fight later."

The game of "Second World" is like sailing against the water. If you don't advance, you will retreat, especially all players around the world are staring at the Brotherhood of Iron, such a large area, as long as the Brotherhood of Brotherhood shows a little fatigue, or Let them think that there is a possibility of catching up, and the result must be the destruction of the Brotherhood of the Iron Blood.

Don't look at the current scenery of Lu Yang, in fact, it is really like abyss, like walking on thin ice. If he takes the wrong step, he must return to the tiger's mouth, and then return to the situation of being hunted down by players from all over the world.

Zhou Tianming said: "I'm afraid this is not just a few more defenses. At least 22 defenses are needed to resist the lord, and one person can only fight one in the past."

The White Lion said: "22 defenses will require 22 treatments. Counting the output, at least 80 people will have to spend 200 billion. This so many people fight together, I am afraid it will exceed 1 trillion. can't beat it. "

Zhou Tianming was a little worried and said, "I'll think of a way again."

Xia Yuwei, White Lion and others were thinking hard. Lu Yang looked at their expressions and said, "Everyone is back in the city, we will not fight anymore, I will tell you something."

"What is it?" Everyone was a little curious.

Lu Yang did not speak, took out the scroll back to the city, and flew to Tianyu Shencheng. After taking off the line in the hotel, he quit the game and sat in the office to meditate.

Lan Yu brought tea and drinks. Before long, the door bell rang, Lan Yu opened the elevator for them to apply, and Xia Yuwei, White Lion, and Zhou Tianming and other vice-chairmen came up.

“Boss, what can’t be said in the game.” Asked bitterly for half a life.

Lu Yang smiled, motioned them to sit down first, and said, “I told you, you can’t say in the game, you must go offline.”

“Is there a bug?” Xia Yuwei asked in surprise when she sat down.

“No, the game is at level 180, and the official has cleared up the bugs early,” said bitter love for a long time.

Lu Yang smiled and said, “There is really a bug, but this bug is too powerful. It is the same as playing a demigod that kills 180 levels.”

“Really? What bug?” Zhou Tianming asked.

Lu Yang said: “Tonight, everyone bought a ticket with me to go abroad. Let’s buy a helmet in another country and then buy a temporary account. Remember, we must never let anyone know. Go home now to pack and we will tomorrow. Depart in the morning, and wait for enough demigod equipment in that country, let’s return. “

The white lion and muddy wine were happy, and there were such bugs. They went back home to pack up, simply brought a few clothes, and that night, as Lu Yang took a plane to the most technologically advanced Great America.

Just after the landing, Lu Yang found Qi Yun and asked, "Give me 10 special helmets."

"No problem." Qi Yun said with a smile.

Here is a registered technology company that specializes in finding loopholes in gaming helmets. One of the loopholes is making the helmet lose the character recognition function.

For example, Lu Yang puts on a helmet online. Normally, it must show that it is Lu Yang. But after researching, they put something on the player and then put on the helmet. The display is not the player himself, he can be anyone As long as the player is not online during that time period, there is no problem.

These accounts bought by Qi Yun have special channels, and they can be required to log in to the game in the near future. He gave 10 helmets to Lu Yang and gave 10 accounts, saying: "They will not log in to the game within a month. , You can use whatever you want. "

"Thank you very much." Lu Yang patted his shoulder and said, "Be careful to keep secret, don't let people know that this matter has something to do with you, or let people know that it has something to do with us."

Qi Qiyun smiled and asked, "What are you going to do with these accounts, so mysterious?"

Lu Luyang said: "There is a major bug in the game, I will use it to seriously break the balance of the game. Once people are known to have a relationship with us, they will face an official heavy penalty."

Qi Qiyun shrugged his shoulders and said, "Well, I will keep it secret, and my schedule will be changed to ensure that my whereabouts will not be leaked."

Lu Yang nodded, and said to the white lions and Xia Yuwei, 9 people around him, "Follow me into the game, and I will show you how it feels to be a god."

"Become a god?" Bitter love smiled and put on a helmet.

People like Xia Yuwei and White Lion also happily put on helmets, and everyone's eyes were full of curiosity.

The light flashed.

Lu Yang appeared in the security zone of Tianyu Shencheng. He took the initiative to add Xia Yuwei and others' new accounts as friends. He looked at them. The ten account levels are all three-turned warriors who have just reached level 180. It is a 180-level dark gold case.

The puppet class has 5 blood oath shamans, 2 healings, 2 shield battles, and 1 mage. Lu Yang himself uses blood oath shamans. This is to prevent others from recognizing who he is through usual habits and actions.

"Everyone is adjusted to do-not-disturb mode, no communication, no typing, and waiting for me at the first antique shop in Xicheng District." Lu Yang talked and exchanged 1 million gold coins with the bank card of the Virgin Islands that Qi Yun handled. .

He first bought a teleportation scepter, then bought a construction robot, and then came to the antique shop. Seeing that White Lion, Xia Yuwei and others had arrived, he entered the antique shop, which is an official antique shop.

There are hundreds of thousands of antiques in it, and one or two are really refreshed every day. To find them with eyesight, Lu Yang takes a lot of time, but today Lu Yang is not here to buy real antiques. What he wants to buy is Fake antiques.

Among the many fake antiques, there is a level 3 antique called glazed jade, which is the only enchanted antique, and it will have an effect in the backpack, but only one glazed jade is invalid. In order to succeed in enchanting, it must be true glazed jade pendant, false cannot be enchanted.

Originally this could not have been a bug, but in the last life, a player accidentally discovered a problem. If the durability of the fake glazed jade is 0, it can be enchanted, and how many fake glazed jade are in the backpack. Add as many enchanting attributes.

For example, the unique magic enchantment of antiques can add 2 million spell damage and 50,000 crit chances. A player counts an extra backpack and has a 400-capacity backpack capacity. If the backpack is filled with glazed jade, it is equal to extra Increased 80 million spell damage and 100% critical strike chance.

Lu Yang bought the antiques for everyone and took them out of Tom's Linshan Fortress. He looked at a nearby 50-meter-high cliff and said, "One treatment is left, and the rest follow me to jump off the cliff and must fall. dead."

Everyone: "..."

They couldn't speak, only to follow Lu Yang, then jumped and fell to death, and fell 10 times in a row. Each time they fell, a bunch of antiques came out. Lan Yu resurrected everyone one by one, picked up the antiques and then fell. .

After waiting for everyone to fall 10 times, and the durability of antiques has become 0 o'clock, Lu Yang said, "Follow me to Tianyu Shencheng Auction House."

The group took out the teleportation scroll and flew back to Tianyu Shencheng with Landing Yang. When he came to the auction house, he found an antique enchantment column and said, "Enchant all antiques. The anti-war enchantment is physical resistance and law resistance. Half, export and heal occupations, and enchant them according to their spell and physical damage. "

Xi Xia Yuwei, Lan Yu and others looked at Lu Yang in surprise. Their antiques were fake, but they saw that Lu Yang had begun to buy, and they couldn't help but enchant them.

When they started enchanting, everyone's eyes were stunned, and they looked at each other, and found that the other person's eyes had the same expression, and they knew that this was true.

Xia Yuwei uses Master Lei. After she filled 400 fake antique enchantments, the magic damage became 80 million points 100% critical strike rate, counted as a level 180 dark gold sleeve, his The total law injured more than 90 million.

The muddy wine uses a blood oath shaman. The physical damage of his enchantment is 2.5 million. After 400 enchantments are completed, his physical attack power exceeds 110 million.

The son of the ancient **** Bodos has 200 billion health. In other words, under the condition of 100% crit rate, he counts the defense value of Bodos and cuts 1500 at most, and Bodos dies.

If 10 of them go, it's 150 for each of them. If you count 6 of them as blood oath shamans, the 180-level samurai blood oath shaman has a high chance of triggering blood oath strike, almost every three swords Triggered once, and output 8 consecutive blood oath blows. In fact, 6 of them are equivalent to 16 output.

Seeing the excitement in their eyes, Lu Luyang said, "Let's go to the area of the Brotherhood of Iron and Blood."

He and his party nodded, replaced their mounts, and ran to the ruins of the fortress with Luyang, all the way to the area of Shen tears garden.

The dysentery went on for a whole day and night, and then Lu Yang ran to the Garden of Tears of God. Lu Yang said, "You are waiting for me here, and I'll get out of Podos."

Bitter love for half a life and Zhou Tianming, two people in defense of the war, automatically walked to the front, raised the shield, Lu Yang came to the position of the son of the ancient god.

"Roar"

A black hole appeared in the sky, and the ancient god's son, Bodos, appeared again. His tentacle smashed towards the landing sun, and Zhou Tianming held the shield on top.

"-1"

Zhou Tianming scratched his head and looked at Burdos with a smirk in his face.

Lu Yang said, "Stop him."

Chapter 1725 - Kill God like Cut Vegetables

Xia Yuwei and the White Lion fired.

"Blood Oath Strike"

The white lion was chopped on the tentacles of the son of the ancient god.

"-200000000"

"-200000000"

Uh ...

He gave out 1.6 billion damage in an instant, and the son of the ancient **** was in pain and roared. Zhang Zibo launched his skills and pulled the hatred back.

Qiu Xia Yuwei launched her skills, a lightning strike hit 28 times the critical damage, and instantly killed the ancient god's son 2.3 billion health.

The total blood of the sons of the ancient gods was only about 200 billion. In the face of the full attack of Lu Yang and others, he died in less than 3 minutes.

Lu Luyang walked to the son of the ancient **** and burst out of a **** fragment and a piece of equipment.

Elder God's War Boots (Artifact, Tier 1)

Level: Lower God

Divine physical defense: 1-5

Divine magic defense: 2-4

Luyang picked up the equipment and saw that they were all excited and wanted to speak, saying, "Speak, just be careful."

Bitterly loved the first time to release control, and said excitedly: "It took only 3 minutes to kill a demigod, which is cool."

"Yes, go on like this, we can sweep this place today." White Lion said.

Lu Luyang said, "Let's go to the next lord and remember, don't leave any clues when talking."

Everyone nodded again, very cautiously, and continued to move forward. Soon, there was a monster with a ram head and a 50-meter-high monster holding a sledgehammer named Pino, the son of the ancient god.

两 As much as 200 billion HP of blood, he was killed by Lu Yang for 3 minutes, and the light of God and the fragment of the godhead burst out, as well as an ancient **** ring.

Ancient God Ring (Artifact · 1st Order)

Level: Lower God

Divine physical damage: 1-3

Divine magic damage: 1-2

Lu Yang said while walking: "At present, a player in the game with a Level 175 weapon holding a ghost suit has a maximum physical damage of 20 million points. According to the new conversion method, when attacking the next god, the damage is divided by 1 million, which means that A level 175 player attacks the lower **** and deals only 20 points of damage.

Calculated according to the ancient **** series equipment of the first-level artifact, the physical defense of a set of ancient **** equipment will not be lower than 40 points, that is, the occupations below the lower gods will not be able to hit the **** level and lose blood. "

The white lion and turbid wine laughed.

Lu Yang said: "However, it is not invincible. It still has control skills. Although it only has a 0.1 second charge effect, it can not help but have a large number of enemies. If they are released one by one, the lower **** is still charged to death. Therefore, the lower **** cannot Act alone. "

The power of the lower gods is here. Even if they are charged, they still cannot be killed. Even if they are offline, it is not possible to kill them below the lower gods. Even the warlock's doomsday judgment skills still do nothing to the lower gods. The damage was just a brief control of him for a second or two.

Lu Yang went on to say: "The defense is invincible and the output is very powerful. If the ancient **** necklace, ancient **** jewelry and ancient **** ring have the same damage, the five pieces of equipment alone will increase the attack power by 15 points, according to the weapon's 16 points of damage. The calculation is 31 points of damage. According to the official regulations, 150 times the damage of occupations below the lower gods is calculated. It is 46.5 million damage, or sacred damage that ignores magic. Now there are not many non-defense occupations with more than 4000 health. Thousands, basically one skill kills one. "

This is the divine power suppression system. If Lu Yang can gather 100 lower gods in a short period of time, relying on them and other players to cooperate, they can easily level a strongest guild.

Lu Yang led the team to continue to kill monsters. He encountered demigods and demigods along the way, and met lords to kill lords. In a day, he killed more than 200 demigods, and more than 600 lords, and 150 of them burst out. Light of God and 167 pieces of God. In terms of equipment, there are 112 pieces of ancient **** helmets, shoulder armors, clothes, wristbands, hand guards, belts, leggings, boots, plus rings, accessories, and necklaces. Unfortunately, , Can not make up a set of equipment.

That night, Lu Yangfei returned to Tianyu God City, pretending to sell these things to Tu Feng, and sold a billion credit points in packages.

I waited until the next day, Lu Yang took the white lion and brushed them. This time they entered the center of the garden. They were lucky and started to explode their weapons.

Ancient Sword (God level 1)

Level: Lower God

Physical damage: 8-16

Spell damage: 8-16

(Attack speed 2.0 \ / second)

Special effects:

Divine Wrath: A physical attack that has a certain chance to release Divine Wrath, causing 11 additional damage to the target.

After one day, the equipment and the light of the **** were not much different from the previous day, and it was sold to Tu Feng at a price of 100 million yuan.

For 10 days in a row, including a total of 100 ancient **** suits including weapons.

When the system goes online on the 11th day, Lu Yanggang logs in. The system prompts: Your account is suspected of cheating and has been blocked!

Lu Yang quickly put down his helmet and said, "Brothers, hurry up and be found."

"Get your clothes fast," said Zhujiu.

Everyone hurried back to the house to pack their clothes, and returned to the East China Sea by plane overnight. In fact, the account was seized this time. It is not equal to the identity information. It is suspected that other devices can be used to replace the original player online, which only blocked the account.

Lu Yang and the White Lion returned to the East China Sea. As usual, log in to the account to play the game. At this time, the fifth global competition is about to begin, and everyone is busy preparing for the game.

Lu Yang and White Lion waited at home for almost half a month and found no abnormalities. In the office, Lu Yang scratched his head and said, "Are we overstretched? It seems all right."

Xi Tufeng said, "Be careful, you still don't have to change your job Just change your job alone."

The White Lion nodded again and again and said, "I agree, wait for the contest to end, be careful, this equipment is too hard to play, I don't want to try again."

Zhou Tianming and bitter love half-life nodded.

Lu Luyang said, "Well then, I'll be alone in the ancient **** suit."

Inexplicable, Lu Yang felt as if he had forgotten something, but recently he was too excited to hit the artifact, and he couldn't remember it.

“Where is the registration office?” Lu Yang asked.

Wu Tufeng said: “This year's registration is in the center of various areas of Tianyu Shencheng, and you can register at any time, any time.”

Lu Yang nodded, and led them together, walked to the registration point, but he just clicked to sign up.

System Tip: Registration fails because there are less than 5 players at the next level of God level!

“I ...” Lu Yang patted his thigh and said depressedly, “I remember it, I can't sign up.”

Bai Shi and Zhuo Jiu have signed up. When they heard this, they looked at Lu Yang curiously. Zhuo Jiu asked: “What's going on.”

Lu Yang said: “Any sufficient number of people can sign up for any competition. It's just me who can change the server to the next god. At least 5 people are officially required. I can't stop the competition alone. what.”

Everyone: “...”

“What should I do, you four consecutive championships do not participate, what a personal competition.” White Lion said.

“I'll contact the official.” Lu Yang quickly went to the official phone.

Chapter 1726 - 5 consecutive championships awarded in advance

At the top of the "Second World", Lu Yang knew two-thirds. During the four-year contest and various official events, Lu Yang had not fallen, and he was familiar with them.

He thought about it, or just called their general manager, Grace. After two calls, the call was connected. Grace asked with a smile: "Man, you rarely call me actively. Is there anything wrong? "

Lu Luyang felt that his voice was not right, and raised his eyebrows and asked, "Did you already know something?"

"Haha." Grace couldn't help laughing, and said, "How could it, how could I know what?"

Lu Yang was speechless, and said, "Co-authoring, you all know if I can't participate this year."

Griess covered her mouth and smirked and said, "Where can there be any, this can't blame us. Become the next God's player. You are the only one in the world, and you have no opponents."

"I ..." Lu Yang was even more speechless, saying, "That won't work. If I don't compete, the bonus won't become someone else. There is also a flying carpet. How much I contribute to the company this year. In the war game of World, you will not give me benefits and you will not let me participate. "

"Don't worry, don't worry." Grace is even happier, and has already won four consecutive championships. If the fifth is still Lu Yang, this is no suspense.

几天 After Lu Yang triggered the next **** version a few days ago, they met to discuss this issue. Obviously there are no other players in the game to advance to the next god. Then, Lu Yang will not be able to participate this year, but they really can't treat Lu Yang.

Gries sighed and initiated a screen application. Lu Yang's three-dimensional avatar appeared in front of him. He looked at Lu Yang seriously and said: "The Board of Directors of" Second World "decided to commend the outstandingness of President Lu Yang Contribution, you will automatically become the champion at the next **** level, with a 200 million US dollar bonus, and this year's reward for your mount is no longer a flying carpet, but a flying dragon. "

Lu Yang Yile said, "It's still like it. My five consecutive championships were almost lost to you."

Grace regained her smile and joked, "Whoever made you upgrade so fast, the reward can now be given to you, but you have to promise me one thing. You have to be a commentator in this game. Aggrieved, please comment and bring new people. "

Lu Yang said: "Looking at your kindness, I agreed."

"Say well, I'll send you the contract over here." Griess was afraid of Lu Yang's remorse. He sent the contract now, with 200 million US dollars in cash and a golden flying dragon.

Lu Luyang signed the contract. On the other hand, official forums, live broadcast rooms, and major print media and television stations received copies of the contract, which caused a worldwide sensation.

"Lu Yang Feng Shen, Chairman of the Jagged Brothers Alliance, Cannot Join the War"

"Four-time champion has no opponents due to too fast upgrade"

"Shocking, the four-time championship was deprived of participation due to this incident"

"Four championships are doing something terrible and disqualified"

Uh ...

The live broadcast on TV was not bad. Lu Yangya, the headline party of the print media, was itchy. By the early morning of the next day, Lu Yang had just entered the game and was pulled by Dubin into the live broadcast room.

“Brother, you are really a guarantee of sales and attention. Last night the whole network reported your things. We calculated that the audience rating for you at that time period was close to 40%, and 40% of the world’s people are watching you. . “Du Binyi landed and laughed.

Lu Luyang said, “I’m probably happy that I won’t participate in the competition.”

Dubin said: “That is of course, who wants to play against you, you do not play, individual registration this year is active, the number is three times the previous year.”

Lu Luyang said: “This shows that there are too many people afraid of me.”

“That’s right, let’s enter the live broadcast room. You God, please judge the competition of new players this year.” Du Bin said.

Lu Yang shrugged his shoulders and said boringly, “Will I still end? Let’s go.”

For a warrior, the most annoying thing is that he can’t fight at his peak age, sitting on the guest seat, how uncomfortable is how Luyang sits.

A few minutes later, Dubin opened the live broadcast 10 minutes before the start of the game. At the beginning, the screen was swiped instantly.

“Iron Brothers fans come to report.”

“Lu Yang’s support team came to report.”

Uh ...

Nothing can be seen on the screen anymore, all of them are **** fans of Lu Yang, not only Huaxia, but also many other countries, are diehard fans.

Lu Luyang was touched and chatted with everyone happily, saying, "Thank you for your support."

"Boss you are the best, the world is invincible and I have exclusive respect." The flame knife emerged.

"God is already sitting on the throne, isn't it boring to watch mortals perform?"

Originally said this sentence alone, but later swiped the screen, Lu Yang found that the live broadcast was also very fun, and talked to them.

After 10 minutes, the game officially started, and Lu Yang also began to explain the game. The official commentary on Lu Yang was carefully arranged. The first game was the second in the world last year-Lawrence.

He played against the 20th place in the world last year, and is also a fire method. The name is Little Fire Dragon. He is a German player with a level of 175 on both sides and a full-body ghost set.

Dubin asked: "Do you know anything about them?"

Lu Yang shook his head and said, "A little understanding is Lawrence The business he did with me last year, sold the blood of spiders to me, and then I used this blood to sneak attack on the transportation of Tangerlus Guild team."

Dubin's eyes brightened and he said, "Tell us about your sneak attack. This is big news. We didn't know it before."

的 The audience watching the live broadcast were also stunned. They saw the situation on the battlefield, but under the battlefield, how the Brotherhood of Iron Blood operated, they did not know at all. Now Lu Yang broke the news in person, everyone was excited.

Lu Yang said with a smile: "The course of the matter is relatively simple. Our intelligence personnel knew from Olma that he had a batch of things ready to be removed. Therefore, I sent a spider army. Liu Juan and their little girls were originally in the dark. The yarn is outside the line of defense, but they are very familiar with this area. They easily cross the line of defense and then enter the territory of the Tangerus Guild in batches.

I was also at the time of the ambush. Heifeng did not have any disadvantages. Before entering the forest, the shooter flares searched for the hidden ambush player. At that time, he had already photographed us, but only the spider profession was hiding in the leaves. . "

The audience who listened to the live broadcast then came to understand how Lu Yang attacked. Among them were defeated Hei Feng and Turabi. They knew how they were defeated.

It can be said that that battle was a turning point in the entire battle. Lu Yang introduced it briefly, so that players can understand how much effort the players behind the Iron Brotherhood have put in to complete the sneak attacks again and again, and let the entire battlefield The direction that is not conducive to the Jagged Brotherhood has become the key to the victory of the Jagged Brotherhood.

Chapter 1727 - Sub-god skills

Players who listened to the live broadcast were excited and asked for more news.

"Inside story, seek inside story."

"I want to know more details about the battle of the Brotherhood of Blood, and the things under the battle are more fascinating."

"List of excellent legion chiefs of the Iron-Blood Brotherhood."

Lu Yang smiled at the news and said, "You are willing to listen, I will pick you up and tell you secretly, and say two more news about how the black yarn failed."

Heisha has been developing very well in Hollywood in the past six months. Although there is a lot of scolding, the more scolding it gets, the more famous directors have cooperated, and there are new big brothers behind him.

"Heisha's defeat can only be said of time and fate. It is not that she is not strong enough, but that she started too late, and she has a lot of hands on the famous players, and there are many in her hands on the professional team. The key problem is A few companies around us are too strong. If she is given two years of development time, she can also become a hegemon in the New World, but the timing is wrong. "Lu Yang said.

Du Bin asked with some gossip: "Many people say that you can defeat the black yarn because of other reasons, can you specifically talk about it?"

Lu Yang shook his head with a smile, and said: "A lot of times, the defeat of a force is not due to a certain thing, but under the open battle, the result caused by the cascading of countless reasons, her failure It 's not that she is n't strong enough, it 's because we are too strong around us. "

It is not a big secret that Lu Yang used money to corrode Heisha's men one after another. He said these things and protected the dark side of Heisha that could not be shown.

Heisha, who is also in a live broadcast room in the United States, is also paying attention to this issue of Landing Yang. Hearing Lu Yang's complete evaluation of her, Heisha was relieved, and the last trace of dissatisfaction in her heart was relieved, saying: "After all, it is caused by the current situation, not my strategic problem."

The American host looked at Hei Sha and said with a smile: "Among all the presidents who defeated the Iron-Blood Brotherhood, you are the only loser praised by Lu Yang. Is there anything you want to say?"

Hei Sha knew that the other party was joking, and gave him a charming look, with an expression of infinite emotion on his face: "As he said, I started too late. I have no entanglement about the war. It 's also good, I like it here. "

Inexplicably, the voice of scolding her in the live room was much lower. On the one hand, it was the relief of Lu Yang. On the one hand, they felt that it would be boring to scold a girl who had confessed.

In the live broadcast room of Lu Yang, he spoke out about the behind-the-scenes incidents of Hei Sha's failure one after another, which caused countless players to sigh. They only knew clearly that the real reason for Hei Sha's defeat was not so related to her. The problem is the following players, and Lu Yang's strong strength.

In the battlefield, Lawrence and the players on the other side officially started the battle. Dubin started the game and pulled the topic back. He said: "Comment on the two on the battlefield. The strength of these two people is not simple."

Lu Yang is now more than a hundred battles, he saw through the two's fighting style at a glance, said: "Lawrence's progress this year is not small, the reaction speed is at least 0.07 seconds faster than before, his spider profession is really powerful, the other party wants it's only necessary to defend his next game. "

Dubin was a little surprised and asked, "Are there any attacks from spiders?"

The two started out playing against each other for a while. Lawrence was big and attacked the opponent's upper body, not the lower body once.

As soon as the words fell, Lawrence suddenly changed back to human form, focusing on attacking the opponent's lower body. The opponent was too late to react, was hit three consecutive big moves, and died out of the game.

Dubin looked at Landing Yang in surprise, and said, "How do you know he is going to lay down."

"This kind of routine is very common, but the other party has not seen it, Liu Juan has used it many times in this way." Lu Yang said.

After all, a person can't compare to 10,000 people's practice of a certain profession. Liu Juan and they each practice spider blood veins, and have already developed the routine to the extreme.

Lu Yang asked: "Who will fight with whom in the next game?"

Dubin looked at the information and said: "Two new masters in the UK, one is the ice mage and the other is the blood oath shaman."

The screen switches to the next arena and the battle begins.

The blood oath shaman launched his slamming skills, and jumped across the 30 meters to the ice mage. The ice mage responded quickly, flashed away at the first time, and returned with two ice arrows.

Lu Yang saw this scene and chuckled, said: "The ice mage is set up. The blood oath shaman starts with a swat. There must be a purple lotus staff and a senior escape dagger. The ice mage is finished.

The voice just fell.

The blood oath shaman really as Lu Yang said, escaped the dagger and followed the ice mage's route, and fell precisely behind the ice mage, just appeared.

"Purple Lotus Staff"

Mage Bing was forbidden by the demon in panic, and did not wait to launch the badge. At this moment, the body of the blood oath shaman turned into eight phantoms.

"Blood Oath Strike"

The two-handed sword hit the ice mage eight times in a row, killing it in place, and the opening ended.

Du Bin was as excited as he was passing through the clear spring, and he said with incredible face: "How do you see it, how can I not understand it."

Lu Yang said: "From the beginning of the blood oath shaman, I know he has carefully studied the battle video of the ice mage. In fact, there are hundreds of types of play and routines for each profession in the game. Predict. "

People like him on the front line of battle all year round are familiar with the cooperation between various occupations and special items. They can no longer be familiar with it. They can know how to fight each other without three moves.

Du Bin nodded his head in amazement and said, "You are really experienced. It can be said that this game is not richer than you. From the game to the present, the battle you have experienced is enough for others to play the game for a lifetime. Now. "

Lu Yang said: "Okay."

In these five years, he has experienced too many battles, he is too lazy to count, he has fought countless times in every profession, and explaining the battle is completely boring.

In the next battle, the German Fire Master vs. Lei Master, Lu Yang saw at a glance Lei Master 's routine, and every subsequent follow-up was said to be precise and clear by Lu Yang.

The live broadcast room was bombed by Lu Yang.

"Great God ~! No wonder the God is sealed? I dare not fight the Great God. What tricks are used to know clearly. The reaction speed is faster than us. What are you doing?"

"I feel that my back is cold, how can I still play it, hurry up and come out with a new version, or face President Lu Yang, any play is useless."

Players have collapsed in marvels, especially after watching Landing Yang explain the battle routines and play styles on both sides one after another. No one wants to compete with Lu Yang anymore. Where Yang is strong is Lu Yang's strength.

A series of seven or eight days of competition, Lu Yang explained to the players every day, which also included a lot of Lu Yang's understanding of the game and various professional skills, as well as secrets between the major guilds that were not known to ordinary players, which directly led to daily The number of people entering the Dubin live room is increasing. By the tenth day, the number of people in the live room exceeded 1 billion, and it collapsed!

Du Bin scratched his face, looking at Land Yang and said, "The server collapsed."

Lu Yang asked: "What's wrong."

Dubin said excitedly: "The background said that 1 billion people came in to watch it, and our server can't bear it and collapsed."

Lu Yang smiled and said: "It looks like you can change your equipment."

Du Bin said with exclamation: "You don't know, yesterday the number of people in the background was more than 800 million. The boss asked me at the time, saying that don't make so many fake people, look too fake, there are tens of millions, I It's true to tell him, he does n't believe it yet, this is all right, the server crashed, and he should believe it too."

Lu Yang smiled and looked at his watch and said: "It seems that today's live broadcast will not be available. I will go offline first. Some advertisers are looking for me to take advertisements today."

Taking advantage of the recent availability, Lan Yu helped Lu Yang receive a lot of advertisements, on the one hand to improve the image, on the other hand to increase some income for the guild.

Iron Brotherhood is really too expensive to operate now. It can earn more. In the future, war will reduce the pressure of some guilds.

Over the past few days, Lan Yu helped Lu Yang find advertisements in more than 30 industries, and received a total of nearly 1 billion US dollars in endorsement fees.

This money seems to be a lot, and it can be put into the guild, which is the consumption of 5 days of normal war. He participated in the live broadcast in the morning and shot the advertisement in the afternoon. When the offline game was over, all the advertisements were finished. Norway, participated in the interpretation of the offline game.

This time, the Bronze Brothers League has a good record. The Bai Xiongxiang and the hard-working half-life five-man team have entered the top ten. In the individual competition, Mike and the first blood master Zhang Yuan, as well as Han Ying and Han Fei have entered the ten In the strong game.

In a top-level event, five people belong to the Jagged Brothers League, which makes the world players marvel at the high-end fighting power of the Jagged Brothers League. In the end, after five consecutive days of battle, the champion of the individual match turned out to get three turns Shadow.

At this point, Han Ying was crowned the Queen's Crown and became the first women's competitive champion in the game. On the same day, Han Ying was officially pulled by the "Second World" to shoot a lot of promotional videos.

Lu Yang specially hired a bodyguard team for Han Ying to protect her, and this time the trio champion was taken away by a new combination, and the Bai Xiongxiang took second place. For this result, the three brothers were a little depressed, but they were all Accepted, the other three are specialized in fighting in the arena. The three of them still have millions of brothers to manage. The two sides are not in a level of cooperation.

As for the five-member champion and the two-man champion, the two brothers Zhou Tianming and the five brothers who had been in love for half a lifetime were not awarded, but they were all within the top three.

And his party returned to the East China Sea. In Luyang's office, they lay on the sofa for half a lifetime, and said with their heads raised: "Unfortunately, it's a pity to lose. This gang was really strong."

The white lion drank a sip of water and said, "Our mentality is different now. If we put it before, we must be depressed. It is now treated as a game. It is also good to support the backward movement."

Zhou Tianming smoked a Cuban cigar and said sorrowfully: "Well, we are the bosses of millions of people one by one, and it is not a shame to lose the game."

Due to physical reasons, Zhou Tianming sometimes needs to use cigars to paralyze his pain. Lu Yang looked at Zhou Tianming distressedly and said, "Pay attention to the body, don't smoke too much of this thing."

"It's okay." Zhou Tianming didn't mind at all and said, "I don't tell you that I really like this thing, I'm not addicted, and don't have a taste."

Lu Yang knows that Zhou Tianming is deliberately comforting him. This kind of fault that can be solved for a lifetime is not something that can be solved by others. He said: "Everyone will follow me into the game, I will take you to play some fun things . "

Zhou Tianming's eyes lit up and asked, "Can we be promoted to the next **** today?"

Lu Yang nodded and said: "Of course, you are promoted first. In the next war, you are the main force on the battlefield. Including me, we players who ignore all attacks from the lower gods are the main force on the battlefield in the future."

Like any ultimate game in any game, Lu Yang and Zhou Tianming, who were transferred to become the next god's profession, is the ultimate service on the battlefield at this stage, or the ultimate service that is immune to some damage.

The light flashed through ten of them entered the game at the same time, and took out the light of God and the fragments of personality that had been prepared from the warehouse, Xia Yuwei, Zhuojiu, Bai Xi Sanxiong, hard love half life, Zhou Tianming, Xiaoliang, Tianyao, Liangyun, Jiang Ze and Han Fei and Han Yu also changed jobs at the same time.

System Tip: Player Xia Yuwei is promoted to the next god!

System prompt: Players will be promoted to the next god!

System Tip: Player Zhou Tianming was promoted to the next god!

Uh ...

Zhou Tianming looked at his new attributes, and then put on an artifact set. All of a sudden, the attributes of the whole person made him feel crazy.

Under the new attributes, including Lu Yang, the entire body of 14 artifact suits has turned everyone's health into 60 points, physical attacks 39 points, spell attacks 41 points, defense 56 points, and magic resistance 70 points.

"Eh?" The bitter love half a lifetime scratched her head and asked: "How come physical defense and spell defense are so much higher than physical attacks and spell attacks."

Lu Yang said: "The lower gods beat the lower gods, using the original attack skills is invalid, so, we have to replace the new attack skills, today I will take down the transition copy to go, we burst all the new skill books. "

"Is it easy to fight?" Xiao Liang asked, he didn't have a shield in his hand, and he was holding an ancient **** warhammer.

Lu Yang said with a smile: "Everyone can feel it, hitting the copy is unprecedented pleasure."

Everyone laughed. When Lu Yang said this, they knew that playing this copy was definitely a pleasant trip, and they accompanied Lu Yang to the location where the copy was.

Chapter 1728 - Cut off the world

A copy of what Lu Yang said was on a high mountain in the middle of the two strongholds of the rainforest and iron and stone in the Orma region, where there is a map qualified for the lower level 180 gods-Tu Ling Pavilion.

Tu Ling Pavilion, according to the official introduction, this is the area where the Kensya tribe is one of the three bathing gods of the Nine Pillar God, one of the three main gods of the bathing god.

After three hours, Lu Yang took Zhou Tianming and others to the top of the mountain and looked at a huge rock main city in front of him. Everyone showed a surprised expression.

“This city is so beautiful, like the area where the gods live in mythology.” Zhou Tianming said.

On the way to come, they looked like the **** city, it should be a pile of earth elements, stone people living in a desolate area full of sand and rocks, but in front of the main city of the Kenyans, they saw a super modern city of.

There are hundreds of meters of pure white spiral-shaped buildings abound. From time to time, the people of the Kensya tribe fly through the sky. Each of them has a flying rock at their feet, and the appearance of the Kensya tribe is not A stone man, or a stone monster composed of earth elements, is a type of human creature with a metal body.

They are 5 meters tall, their heads are hexagonal, their bodies are all cast in metal form, and there is also a metal tail behind them, shining with light.

Kensia Warrior (Elite)

Grade: 180

Qi and blood: 1000000000 / 1000000000

Lu Yang looked at the hundreds of Kensian warriors standing at the door and said: “Their blood volume is still the normal blood volume, and the same is true for offense and defense. Just kill me directly, no difficulty.”

Normally want to come here to play, it takes a lot of effort, but Luyang they come from the level of the next god.

Everyone's physical attack is 39 points, spell attack is 41 points, multiplied by 1.5 million damage, it is 58.5 million physical attacks and 61.5 million magic damage.

Take Lu Yang as an example, his crit damage can hit up to 10 times the crit chance, that is, an attack is 600 million, and the face of these monsters is only 1 billion. It is almost two strokes to kill one. Using mixed spells, three strokes kill hundreds.

"Mixed spell-Fire and Wine Storm"

"Mixed spell-Firestorm"

"Mixed spell-Red Lotus Blast Kill"

Lu Yang turned into a fire **** body, three hundred seconds to kill hundreds of Kensian warriors in front of the door, burst out of the equipment in one place.

"It's too tough, I'll try it too." The bitter love and Jiang Ze ran in excitedly.

Lu Yang said: "One person is responsible for one piece and quickly cleans up the surrounding monsters."

Everyone nodded and rushed in to fight monsters.

Luyang is also responsible for cleaning up a piece. Every 50 monsters inside the city gate are bosses, but the boss hits Luyang, and he still does not lose blood. Luyang kills them with only 6 skills.

System prompt: You killed the elite warriors

The elite warriors here are bosses. Lu Yang looks at the falling items and picks up a skill book.

《Di Shi Tian Huo》

Type: Fire God

Distance: 100 yards

Cost: 1 spell

Description: Deal god-level magic damage +60 points of flame damage to the target in front!

Lu Yang shared the skill book with everyone and said, "I have learned all the skill books that I can use, and give me the unusable ones."

"This damage is high enough." Zhou Tianming said.

Lu Yang said: "It will not take too long, the official will update again, our existing skills will be canceled, that is to say, now we can take advantage of the old skills to fight monsters, it is our luck."

"No, will the original skills be recovered?" Kuai Ai said for a long time.

Lu Yang said: "It won't take long for the official to launch the basic skills of the lower gods, similar to the fireball technique, but the damage is extremely high. This is a big shuffle."

From now on, all professional skills will be simplified, and the lower gods of the fire department like Lu Yang will only have 8 skills, including the residual flame skills that Lu Yang learned before.

Originally, Lu Yang wanted to take advantage of his current skills to launch large-scale wars, but he was afraid that the official would temporarily modify the data, so that he would lose his skills during the war, and the battle would become embarrassing.

This kind of thing is officially done. When there were two major guilds decisive battles in the previous life, the skills of the lower gods on both sides were lost, resulting in a very complicated war on both sides. The winning side paid a great price, and because This war caused him to be swallowed by other opponents.

Lu Yang would rather play more skills now. When the weakened, he still has enough new skills to deal with the war.

Xia Yuwei, White Lion and others didn't care much about this aspect. Hearing here, they have accelerated the speed of Daguai to find skills.

Not long ago, Xia Yuwei's warriors found the skill "Elimination of the World", looking at the introduction of the skill book, some helplessly said: "I feel that I will just rush to the front of the meat shield and add output."

Lu Yang shook his head with a smile, and said, "No, in the future you will be the commander rushing on the front line, and you do n't need to worry about the rushing too early and the enemy will set off the fire seconds, unless it is the other **** of the same level. Come and attack you, UU reading Otherwise, you can either kill on the front line or command the battle on the front line. "

Xia Yuwei, White Lion and others realized this, especially the three White Lion brothers. White Lion said: "In the future, our three brothers can form an arrow and take the team to the enemy team!"

Lu Yang nodded. The player who held the artifact in the last life rushed into the enemy's position in this state. No matter how many people the enemy was, they could not cause damage to them.

Lu Yang then said: "In your present state, the artifact can be delivered to your hands. After a while, I will take you to upgrade the artifact to level 10. On the battlefield, you are a real god."

Items such as the Devil's Heart can now be upgraded to level 10, although it is troublesome, but it is not impossible. Once the white lion and Zhou Tianming, players who can both command and participate in the war, hold a level 10 artifact in the next **** form The heart of the battle, the general on the battlefield is invincible.

“Then I will be invincible.” Bai Langhe said with a smile.

Lu Yang smiled and said, “Everyone keeps playing, we will get more skill books.”

“Oh ~!” Everyone nodded together. Suddenly, Han Fei issued a skill book on the channel and said, “Look at what this is.”

“Partition the World”

Type: time and space next god

Distance: 50 km

Consumption: 100 points of magic

Description: Skills that can be learned after the time and space breaker is transferred to the next god. Using him, you can separate the new continent from other planes, such as the old continent, Tianyuan Shencheng and Tianyu God City. The skill duration is 24 hours.

Chapter 1729 - Target Tom

“How come there is such a skill?” Zhuojiu said in shock.

“This skill, this skill is not going to change the game pattern and fighting style?” Zhou Tianming said.

All are experts at warfare. At a glance, you can see the special status of the skill of “Partitioned World”. The original players did not need to store materials in the map of the new continent. They were defeated at any time, and they could return to Tianyu Shencheng or Tianyuan Shencheng Take the equipment and come back to the war.

But once the skill of "Partitioned World" became popular, the war in the New World was no longer the war mode of the past. Such a skill could prevent players within 50 kilometers from returning to the city. That is to say, a fortress with outside combat Players are unable to return to the Celestial God City for supplies.

"This is too important. This skill must not be revealed. With this skill, we can pull out multiple fortresses of our opponents in one battle and invalidate their defenses." Tian Yao said.

With this skill, Tian Yao, Zhou Tianming, and White Lion, their vice presidents who are good at attacking, can rest assured that they will attack the enemy's strongholds and force their opponents to fight for equipment. Once they have robbed the equipment, they will immediately withdraw, under such circumstances. If the enemy does not get timely supplies, he will slowly withdraw from the fortress, and the Brotherhood of Iron-Blood will naturally occupy the fortress.

Lu Yang said: "Not only that, we can also carry out siege aid, encircle the fortresses that the enemy must protect, ambush the players who come to reinforce them, and further consume the enemy's equipment. This skill has completely changed the game's pattern. "

Zhou Tianming asked: "Boss, do you have any other ideas?"

Lu Yanghe said with a smile: "That Miss Artemis can play, but I miss her a little bit."

Xia Yuwei and White Lion all showed clear expressions.

Everyone in the world knows that the New World is going to fight again, because now it's winter vacation, Radvedev is ready to wipe out the guilds on the west and northwest, and establish a confederate brotherhood that controls two thirds of the east. Regional area.

Steiger and Liu Jie are also ready to compete with each other to see who can dominate the northern area, but they dare not fight first, just waiting for the Brotherhood of Blood.

Now there is a strange phenomenon. If Lu Yang sends troops to fight against Sanyouweimen or Tom, Steiger and Liu Jie will definitely fight. If Lu Yang fights Liu Jie, Steiger will fight desperately to protect Liu

Jie, and Tom will also He will attack Lu Yang desperately and form a new round of siege of the Iron-Blood Brotherhood.

Lu Yang wants to kill Liu Jie indefinitely, but all the guilds around him want to kill him. On the other hand, they do n't look good with each other. The only difference is that Lu Yang is their best The unpleasant one.

"This time we are fighting, we must collect as much as possible 170-level dark gold equipment and 175-level ghost equipment, and also prevent our level from being hit by our opponents below 170 and 175. The battle is not so easy. Be careful Be cautious. "Lu Yang said.

Players are now clearly divided into several steps. The first step is that they are the presidents of the big guilds and a small number of wealthy local tyrant players. They can be upgraded to level 180, but they can be transferred to the lower gods except for the Iron-Blood Brotherhood. Except for a few studios such as the White Devil, no one else can do it.

The second ladder is for players above level 175. These people are the main force of the Brotherhood of Blood and the major guilds. Among them, the number of Brothers of Blood is much larger, because he spent nearly 500 million US dollars to find the mysterious man, and bought a few. Hundreds of demon refining bottles have cultivated 100,000 players above level 175, but the level is limited. The highest level is only level 177, and the level 20 will fall to level 175.

For the current battlefield, a large-scale battle is about to die more than 20 times. If it is to wipe out a national annihilation battle like Tom, an average player must die at least 30 times, and the main force should die at least 60 times.

Because it is winter vacation, the merchants in the game have already seized this opportunity, and they purchased a large amount of dark gold sets and ghost equipment at 160, 170, and 175 three months in advance, so that now a set of 170 The dark gold set requires more than 1,000 credits, and the 175-level ghost set has a starting price of 10,000 yuan, which is not yet retail.

After four months of training and upgrading, the Iron-Blood Brothers Alliance has more than 5 billion US dollars in the guild's funds. Lu Yang does not need to count. The world's major media have understood Lu Yang. The Winter-Blood Brothers Alliance must be launched. A decisive battle.

What's more, Radvedev's lack of attention has already taken the lead in preparing for war, and now players around the world are staring at Landing Yang, staring at the actions of the Brotherhood of Blood.

Lu Yang took the white lion and others to play for a whole day, and got more than 100 lower **** skill books, including 20 of "Partitioned World".

Lu Yang felt that the number was still not enough. On this side, he asked his men to continue to fight. On the other side, he ordered Tu Feng to bring the players in the war studio to gradually transport the 170-level dark gold equipment to the Ruins Fortress, Karst Fortress, Tenjin Fortress, Among Bit Fortress and Demon Fortress.

Each fortress has placed 1 million sets of 170-level dark gold equipment. As for the ghost weapon set, even here in Luyang, there are less than 100,000 sets of spare and used together. Although the middle-level strength is insufficient, the top-level strength, the Jagged Brothers Alliance Has 136 lower gods.

When the Predator Brothers prepared here on the other side, Qingqian Zimeng and Bagley played a role again, the latter was ready to record the video, the former personally found Artemis .

Inside the hotel.

Artemis wore thin gauze pyjamas to show her perfect figure. She called Tom's phone and said softly, "Dear, are you off work?"

"Oh, my angel." Tom was very excited. For some time, Artemis was cold and passionate for him for a while, leaving him in heaven and **** every day, and he almost collapsed.

Even if Artemis is an ordinary woman, this woman is his soul mate, she can understand his soul, and it is so elegant, beautiful and charming, more importantly, this woman does not need money.

When he last broke up, Tom decided to give Artemis a breakup fee of 10 million dollars, but the woman threw it directly into the river and turned away.

At that time, Tom felt crazy. Later, when he recalled, Tom was completely fascinated by Artemis, and he was no longer willing to part with her, as if looking for abuse, chasing Artemis every day.

This trick was taught by Qing Qing Zi Meng to Artemis, and Qing Qian Zi Meng was also taught by Qing Qian Zi Meng. Of course, all this was learned from Bagley.

“I’m leaving work now, and I will arrive at your hotel on time at 6 pm.” Tom said excitedly.

“Waiting for you.” Artemis hung up the phone and looked back to Qingqian Zimeng: “6pm.”

Qing Qian Zi Meng told Bagley and Lu Yang.

Chapter 1730 - Gertz joins the league

Not long after, Tom came to the Artemis hotel. In a building opposite the hotel, at the height of 55 floors, Tom saw Artemis carefully dressed and couldn’t help but rushed straight up.

Although the curtains were not pulled, he believed that this height could not be lined up by paparazzi, and even less likely to be discovered by the media, but it was in the dark room opposite the building. The lingering film was complete.

“The task is completed, you can take a break to take a break.” Bagley comfortably raised his waist.

Qing Qing Zi Meng nodded, and she left. When Tom was still asleep early the next morning, the world was detonated by a news.

“The President of the Book of Truth Tom Extramarital Mistress Artist Artemis”

“An indescribable night by President Tom, he did such a thing to the goddess Artemis”

...

The title party is well-known in the country, and it is more advanced abroad than at home. I dare to write anything for the sake of eyeballing.

Before he woke up, Tom was quarreled with countless calls. One of them was his vice president Hermon. He said to Tom: "Your excellency, you hurry up and something is wrong."

"Oh, is it the Iron-Blood Brotherhood?" Tom groaned dizzily.

Hermon sighed and said: "Your Excellency, although I am glad that you have connected your phone, I want to tell you that this time the situation is worse than that of the Brotherhood of Blood to attack you. You and Arte What Miss Mies did last night was secretly photographed by gossip media. Now the world is a video of you and Miss Artemis together, your wife ... "

"What?" Tom stood up sharply, sweating down in cold sweat, looking at the pale skin and shy Artemis around him. Tom was completely awake and asked the phone, "What the **** is going on."

Hermon talked about the things he saw in the newspaper, and finally, he said: "Your wife should be on the way to get there, don't deal with it, otherwise, the guild will be finished."

Tom said: "The guild launched a red warning, it must protect the security of the fortress, and absolutely must not give the Iron-Blood Brotherhood any chance."

"Yes." Hermon said.

Tom hung up the phone, and several consecutive calls to his vice president and Sanyou Weimen and other presidents. For a time, the smoke of the New World gradually rose. When he was busy with all this, the door was thumped. .

Christina stood at the door like a roar of the Hedong roared and said: "Tom, I know you are inside. I will give you 10 seconds. If you do n't come out, I will blow up the door and let you be with that woman. To die. "

Christina is crazy, usually Tom loves to find a woman, she has tried to make it as clear as possible, but now it is different, Tom was actually taken a video, which is equivalent to let the world know that she Christina 'S man has an affair outside, and she no longer knows what to do.

Tom was in the room, hearing Christina 's intimidation, and the whole body shivered, and said in horror: "I will come out here, this will come out, wait for me."

Artemis has opened his sleepy eyes, looking at this panicking man she loves with great interest, seeing that he can't find a coat, pointing at his clothes, and saying, "Under that, dear . "

Tom glanced back at Artemis and said quickly: "Thank you." Then he rushed to the door. After opening the door, he closed the door vigorously and looked at Christina. "My dear, listen to my explanation. "

"Come with me." Christina didn't make excessive moves and took Tom away.

It 's not that she did n't want to go in and kill the woman, but she could n't do it. More than 300 cable and print media in the United States gathered on this floor of the hotel, just in the corridors on both sides of Artemis 'room, Christina 's every move , Under their lens.

Christina had lost enough shame, and then she let go of Artemis willingly, but Christina forgot, Artemis dared to do so, and would not give up easily.

When Tom left with Christina, countless media rushed to the door of Artemis' room and knocked on the door. When these media thought Artemis would choose to avoid it, Artemis took the initiative. Opened the door, and as always elegantly said to many media: "Please come in and say, I will tell everyone what happened."

The media went crazy. After only two hours of interviews, the reporter set out what Artemis wanted to say and did not want to say. Then, TV interviews, online interviews, print media interviews, etc. followed in the afternoon.

Tom was sitting at home, in front of the TV, facing Christina's stormy roar and scolding. On the other side, in the live room, Artemis looked at the screen with a smile and said to Tom: "Today is you Birthday, let me sing a birthday song for you, celebrate for you, my dear. "

“Happy ~? Bi

thday ~? to? ~ you ~! “

...

Tom looked at Artemis with a charming and elegant smile on the TV, and then looked at Christina around him, and countless thoughts came up in his heart.

When Tom does not understand here, on the other side, Sanyouweimen, Roland, and Gertz are all concerned about the dynamics of landing Yang. If Lu Yang has the idea of attacking Tom, they also have different ideas.

Sanyou Weimen and Roland meant to keep Tom, Gertz and Tom almost torn their faces, but now he wants Lu Yang to kill Tom He and Lu Yang divided Tom’s area.

Gertz called Lu Yang and asked, “Are you sending troops or not?”

It was late at night, and Lu Yang smiled and asked, “Why, did you agree?”

“Of course, but only if I want half of Tom’s area.” Gertz said.

Lu Yang said: “Unreasonable, I am an attacker, you are an auxiliary attacker, but you don’t contribute much, but you want to account for half, I am not suitable.”

Gertz sneered and said, “Don’t forget, if I don’t support you, Sanyouweimen and Roland will come over, you may not be able to stop it.”

Lu Yang said: “This is also true, well, I promise you.”

Gertz was a little surprised. He didn't expect Lu Yang to talk so well. For a time, he was a bit suspicious.

In fact, Gertz is very skeptical. This time Lu Yang hit Tom. The next step is Gertz. In the future, Lu Yang will establish an eastern region and cut a quarter of the new continent map to him. Within the scope of the rule.

Chapter 1731 - The next **** is in place

hang up the phone.

Lu Yang said to the white lions and others around him: "A week later, the war began and everyone prepared for the war."

"Yes." White Lion and Zhou Tianming said together.

The War Machines of the Iron-Blood Brotherhood immediately went into operation. More than 400,000 players living in the game city gradually entered a large-scale deployment activity. All relevant personnel in important positions must not go home to rest or make another call.

From the outside, there is nothing unusual in the Iron-Blood Brotherhood, but the inside has entered an extremely tense state. Within a week, mobilizing tens of millions of players to participate in combat is not a simple matter.

Now that Tom is in trouble, the eyes of the media around the world have gathered on the Jagged Brothers Alliance and his Lu Yang. As long as the players of the Jade Brothers Alliance dare to send players to the ruins, caves, gods, bites, and magic bull fortresses, then, all The world knows that Lu Yang is going to attack Tom.

Lu Yang didn't want people to focus their attention on himself, because it was Gertz who was attacking with him. He thought about it and decided to hold an online media conference.

8 am.

Lu Yang sent a message to the outside world. After 1 hour, thousands of media from all over the world sent an application letter. Lu Yang invited them to his special space. This is a venue similar to a press conference. He opened the door and told everyone : "The Jagged Brothers League has absolutely no idea of attacking Mr. Tom. Now the Jagged Brothers League has digested all the forces in the Group of Eight and Orma regions. Therefore, please look around our three friends Mr. Weimen, Mr. Roland and Mr. Gertz is assured that I will never attack Mr. Tom. Let him handle his family affairs with peace of mind. We will watch the changes. "

Tom is explaining to Christina that if there is a problem with their marriage, Lu Yang will take advantage of it, but suddenly seeing what Lu Yang said on the TV, Tom almost smashed the TV, Scolded: "Asshole, fall into the rock."

Sanyou Weimen also saw Lu Yang's live broadcast and said with a sneer: "Ghost talks."

Gertz said in the conference room: "A sign of action."

Roland sighed and said, "Hope not to fight, it's not a good day to fight."

All parties have different attitudes. Although they do not believe, they all want to know what Lu Yang is going to do. In the video, Lu Yang then said: "In order to commend the Spatial and Time Breakers of the Spanish Golden Legion against the Brotherhood of Blood in all wars Help, I decided to invite Chairman Ayala to bring 20 outstanding players of time and space law breakers to the Headquarters of the Brotherhood of the Iron-Blood Alliance in Donghai City to receive the commendation. "

As soon as this remark came out, including Sanyou Weimen and Jerz and others, it was ignorant. This is an open event. If the Bronze Brotherhood has been busy with this matter recently, it is really impossible to attack the Tom area.

“It’s strange, what does Lu Yang mean?” Sanyou Weimen and others, for a while, could not understand Lu Yang’s ideas.

On the other side.

Ayala had already been informed that he took 20 time and space breakers with a level of 175 to fly to Donghai City.

From Spain to Huaxia, the distance was more than 12 hours. By the early morning of the next day, Ayala and his team arrived in the East China Sea. When they got off the plane, Lu Yang brought nine main vice-chairmen of the Iron-Blood Brotherhood to the airport.

The TV station reported that Liu Jie was dumbfounded, and they looked at each other with dead grass. The dead grass said blankly: “The evil gate is here, and the nine main vice presidents have arrived. Whoever organizes the players to gather and wants secrets Gathering, it is impossible for a few of them not to come forward in person, is it true that Lu Yang really does not want to fight Tom. “

Liu Jie shook his head and said, “It’s impossible. This is his best chance. If he doesn’t fight, he won’t have a chance.”

As soon as the words fell, his men came to report and said: “Someone found Gerr’s anomaly, as if Gerl was about to start Tom.”

“How is this possible? Absolutely impossible, Gertz is not that stupid.” Liu Jie said.

The dead grass frowned, and said, “What is his military deployment?”

Menhuihui reported: “Gerz is mobilizing at least 3 million elite players and nearly 5 million main players. The 1 million people who have assembled now are in the area near the orange fortress.”

“Xiemen.” Liu Jie frowned a little.

On the other side.

Tom was dumbfounded and quickly called Gertz by video call and asked, "What do you mean."

Jerz's face was uncomfortable, and said: "What can I mean, of course, I am ready, Lu Yang will definitely fight you, you hurry to arrange your defense, although you do not know when, but this time you quarrel, Lu Yang does. If he hits you two, who will he hit?"

Tom frowned and asked, "Did you really hit me?"

Gertz said: "What good is it for me to beat you, can I ever beat you?"

Tom nodded and said, "We are pretty good. No one can beat anyone, then I thank you for your help, and I will pay you later."

hang up the phone.

Tom looked at Christina imploringly and said, "My dear, now the two of us can't quarrel. If we go on like this, our guild will be finished."

Christina sneered at Tom and yelled, "We are already, completely, and over. I can't have this business, can you? Fool!"

Not to mention how Tom begged Christina, the Predator Brothers side, after Ayala and his party arrived in the East China Sea, they took them on the first day to give awards. From the next day, during the day, Lu Yang personally took Ayala People visited Donghai City and waited until late at night, and these 21 people all entered the game.

Lu Yang took out the experience dan, **** light and **** fragment, the ancient **** suit and the skill book of "Partitioned World" that he had prepared earlier, and said, "You guys, congratulations on your formal transfer to the next god."

Ayala and others were a little surprised. After some upgrades and transfers, Ayala looked at his attributes and said in surprise: "Boss Lu Yang, you have so many ancient **** equipment, how can you do it? "

Lu Yang smiled mysteriously and said, "Of course it was made out, but I have a full-time understanding of the history of the game and the huge research team immersed in the Tianyu God City Library."

Ayala and others were surprised. After being a full-time law-breaker, he became the next **** of time and space. Captain Eduardo sighed and said, "It is indeed the First Guild. What do we need to do now?"

Lu Yang said: "The mission is to play. All the rest of the work will be done for you. Believe me, this will be a very comfortable battle. You will be invincible on the battlefield unless the other party also has a lower god. I can guarantee that their subordinate gods must not have as much equipment as you. "

Chapter 1732 - The current situation in the New World

Eduardo and others naturally had no opinion. The group followed Lu Yang's words and spent the whole day in Donghai City. On the other side, Lu Yang sent a message to Gertz, saying: "The team is preparing for it and will start full battle next Monday."

Gertz knew that Lu Yang would n't lie to him in this matter, so he tried his best to prepare the player, starting with the orange fortress, the black fortress in the west, the purple fortress in the south, the blue fortress farther away, elite players and The main players began to gather one million and one million, and the face of Tom looked green.

Tom wasn't stupid anymore, he saw through Gertz that he was about to hit him, but to his surprise, Lu Yang still didn't move, as if he didn't want to hit him.

“It is inevitable that Lu Yang will allow Jerz to attack me, the purpose is to give all of my area to Jerz to confirm that Jerz fell to him in full?” Tom muttered to himself.

Was with him only a few vice presidents at this time. As for Christina, he couldn't find it and didn't know where he was.

“Really damn, where did Christina go?” Tom scolded a little irritably.

He Meng drooped his eyes and looked at the map. He had been countered by Lu Yang for a long time. Now is a good opportunity for him to show his purpose. He said to Tom: “Your Excellency President, we must send the main force to sapphire, screen, fire dragon This line of area, at least blocked Gerritz's attack. “

Tom looked at the map, then at Hermon, and asked, “Are you sure of blocking Gerrard's attack?”

Hermon nodded happily and said, “The problem of blocking is not big. We are not operating these fortresses for a day or two. The fort cannons and the defenses are very adequate. The only problem is the area below the Fire Dragon Fortress until we The Claudio area occupied, such a large area, we do not have too high defensive strength, which requires you to send more people. “

Tom didn't reply immediately. He thought for a while and said: “You bring the 500,000 elite players from the headquarters to the Dragon Fortress. I will send you 2 million main players. You must defend the Dragon Fortress area.”

“Leave it to me.” Tom looked excited. This was the first time he had command of so many players. Until now, he has become a true vice president.

Several other vice presidents disdained Tom, as if he was looking at the villain's face. The first vice president, Deguss, said: “I'll defend Sapphire Fortress and Screen Fortress. These two areas have always been My zone. “

Tom nodded, with more than 3 million players in Digus's hands, plus the sturdy sapphire fortress and screen fortress.

He looked at Yuga, the second vice president, and said: "The Claudio area will be handed over to you. Gertz does not get through the sapphire and dragon fortresses. He dare not break into our other fortress areas for too long."

The majority of the players in Yuga's hands are Claudio's old department, which adds up to about 2 million people, and counts Yuga's own 1 million people. The total number is about 3 million people.

These players are all players who have reached level 170 and received a dark gold set of level 170. They are also the main force of two-thirds of Tom's men. As for the other one-third, they are all upgraded in the fortress of Canyon Fortress and Linshan Fortress. The offense of the Iron-Blood Brotherhood.

At this point, the fortress in the Tom area has become a fortress defended by the affiliated guild. Tom's elite players and main players do not have the ability to defend at all. At the same time, Tom's eyes are mainly concentrated on the Jerz side.

Originally, Tom hadn't thought that Gertz would turn against him completely. Although there are two large areas between the two, a dozen fortresses are bordering, and there are some minor contradictions between the two, which can evolve into this way. I can't think of it.

Because there are too many borders between the two, Tom wants to break his head and does not know how Gertz will deal with him. On the other side, Roland, who borders Gertz, faced this situation. The floor is also discussing countermeasures.

Vice President Bakarev is a big fat man, and said with a smile: "I suggest that we still wait and see the changes, let them play enough, and wait until they lose both defeats, we will attack."

Roland is trying to take advantage of this opportunity to attack the Brotherhood of Blood, because this time, with the help of Sanyou Weimen, it seems that the odds are greater.

"Can this be done?" Roland asked.

Bakarev said slowly: "There are tens of millions of defensive players on our side of the Iron-Blood Brotherhood. Although the strength is not very good, after all, it is a large number of people. Let Sanyou Weimen first try it out. If you can fight, it's not too late for us to fight. "

Second Vice Chairman Spicey said suddenly: “No, I think we should attack with Sanyou Weimen. This opportunity is rare. If we win, we can completely defeat Lu Yang.”

Bakarev shook his head and said slowly: “I still suggest that we should not be so impulsive, first look at the situation and talk about it.”

The third deputy chairman Tamas said: “I agree with Bakarev’s simplicity, we still have to wait first. There are too many uncertainties in this war, it is better to let Sanyou Weimen fight Luyang first, wait for them. When the fight is indiscriminate, we will participate again.”

Sparcy looked at Tamas and Bakarev with some surprise. In the past, the two had a normal relationship. This time, they stood on the same front against him, which made Spicer a little puzzled.

Roland trusted his three vice presidents. After thinking about it, he said, “Well, let’s defer to join. Let’s talk before we talk.”

In fact, Roland did not know that the three vice presidents under him had different ideas. The first vice president, Bakarev, had already achieved the greatest strength. He was the first under Roland. Vice President, no matter how he beats the world, he couldn’t get promoted and his salary was over.

If the battle is won, it will not be of much benefit to Bakarev. If he loses, his first vice president has the greatest responsibility.

Spicy’s idea was to replace Bakarev, which was naturally the main battle, and his vision was extremely accurate. If Roland listened to him, Lu Yang would have suffered this time, because the Roland side also had a lot of “Magnetic Storm” Lei Master.

Not only did he have it, but also the Sanyouweimen in Japan. The last time Lu Yang defeated Orma, everyone clearly saw the impact of “Super Electromagnetic Storm” on the war. This is a superpower that makes non-physical occupations lose their ability to attack. Strong skills, he returned the war to its most primitive state. Any party who possesses such skills in a certain area will occupy a great advantage.

Now Roland and Sanyouweimen can organize more than 15 million players. This is during the winter vacation. If there is a big decisive battle, only 30 million players of the affiliated guild of the Iron-Blood Alliance can't stop this attack. .

It's a pity that Lu Yang is doing destruction everywhere. Gertz and Tom turned against each other. Roland and Sanyou Weimen didn't dare to cooperate sincerely. Radvedev and Stephen had their own offensive goals. Under such a gap, Lu Yang finally had Hope to break the game.

City of Heaven, the headquarters of the Brotherhood of Blood.

Lu Yang listened to the news from the agents and laughed and said, "Roland, who is so foolish, wants to take advantage of the fisherman."

Tu Feng nodded excitedly and said, "In this way, we only need to guard against a Sanyoumen in the area of the borderless land, and we don't need to pay too much attention to Roland in the west sky fortress area."

Zhuojiu nodded, pointing at the map and saying: "The defensive strength of the Sky Sword Fortress is still enough with 500,000 people. I don't need too many people to help."

Lu Yang looked at Zhuojiu and said, "You have worked hard and you have to defend this fortress. This time I will give you the Mage of" Super Electromagnetic Storm "to make it easier for you to defend."

As the player's level rises, to the 170-level area, high-level skill books are more and more easy to obtain. This time, 20,000 "Super Electromagnetic Storm" skill books were hit in the Indian area, and there were more than 8,000 in the China area. There are more than 7,000 copies in the South Korean region, more than 5,500 copies in the Nine-Star Alliance region, and more than 7,000 copies in the Spanish region add up to a total of 27,500 copies.

Turbid wine thought for a while, and said: "The minimum configuration, Steiger and Liu Jie will eventually decide a win and lose, there will not be too much time to control me."

Lu Yang said: "More than 7,000 Lei Masters in the South Korean region and more than 5,500 Lei Masters in the Nine-Star Alliance region are all under your command. You must guard the Sky Sword Fortress. That is our fundamental. If the Sky Sword Fortress is lost, We are like being spine broken. "

The Iron-Blood Brotherhood has extended such a large area from the tiger 's mouth, including the original one-step ascent area, the Spanish area, the black yarn area, the G8 area and the Orma area. These six areas seem to be important, but they are still in China. This area.

If this part of the China region is lost, there will be rebellion in the three major regions of South Korea, the Nine Star Alliance and India, and there will be a crisis in the Spanish region. Furthermore, the tiger mouth and Dingzhou fortress are both external defenses, and there is no defense inside. Once they were attacked, these two areas could not defend internally and were lost in a blink of an eye.

The task of muddy wine seems simple, but in fact it is the most important every time. What he guards is the spine of the Iron-Blood Brotherhood. The spine is constant. It can be repeated 10,000 times. The spine is broken and it is completely destroyed.

Lu Yang seriously said to Zhuojiao: "Brother, the battle outside can be defeated, but you alone can't afford to fail once, I know you are wronged, there is no chance for you every time you attack, but stability Come, no one here can compare with you, you have to work hard, you have to defend here. "

The turbid wine nodded abruptly and said, "Relax, the Sky Sword Fortress will be handed over to me without any problems."

Chapter 1733 - Gertz

Lu Yang dares only let Zhuojiu carry 500,000 people to defend the Tianjian Fortress, which is also based on the war between Steiger and Liu Jie. Since they cannot win or lose in a short time, then the Tianjian Fortress There will be no problem, let the turbid wine be careful, just in case.

He looked at White Lion, Xia Yuwei, Zhou Tianming, Tian Yao and Jiang Ze, and said; “The whole army is ready, and war breaks out at any time.”

Xia Yuwei asked: “Shall we not do it first?”

Lu Yang smiled mysteriously and said, “I used to think this way too, but the idiot Gertz gathered so many people first. The gathering of tens of thousands of people is not a simple matter. The daily consumption is in the unit of billions. Moreover, they are still Europeans, their salaries are higher, Gertz ca n’t afford it, we wo n’t fight, wait for him to fight first, leaving half of the army, Jiang Ze, Liang Yun and the old man of Dusk are responsible for the ruins fortress, cave fortress and Tenjin fortress For the defense, the rest of the vice chairman took me to the sky fortress with us, let’s play for Sanyoumen. “

Everyone laughed.

Lu Yang can be said to have pitted Gertz again, but it can also be proved from another angle that the system of the Brotherhood of Blood is far superior to the other strongest guilds in the New World.

At the very least, the rest of the strongest guilds dare not gather millions of players without attacking. They ca n’t afford this economic loss. The Predator Brothers Alliance does not rely on the guild to make money. The purpose is to unite the entire new continent and dare to gather thousands. Millions of players without playing.

But the result of this method is that the more the Blood Brothers do n’t want to make money, the more they earn. The half-year dividend last year, and not to mention the money received by the White Lion and Xia Yuwei, their vice presidents, is only a big captain level player. , Have received more than 20,000 dividends.

Coupled with the victory of the previous series of wars, the Brotherhood of Blood plundered a large amount of equipment from players in the Olma region and the Sanyouweimen area. At that time, a set of 160-level dark gold set was priced at 500 yuan, and any player could not stop in the battle. Gathered together, at that time, players earned money in units of ten thousand.

Therefore, even if the Iron-Blood Brothers Alliance does not give money, only gives Guild Points when gathering, players are willing to participate in the battle, and more is hoping to enter the first battle

sequence, for this reason, Lu Yang has heard many groups. The leader of the Changhe Legion gave gifts to the White Lion and Xia Yuwei, hoping to take their main team to the battle.

With such a morale, Lu Yang can be said to be as stable as Mount Tai. He said to Xiao Muyu, who was standing next to him, "Sister, give you a day to send the most elite mine masters under your thunder system. I need 80 An elite thunder mage."

Mu Yu was also curious about why she was called at this meeting, and she looked cute and said: "Brother ~! That person will have to talk to you about the conditions. You can't let them come in vain. They have to join the war studio."

Lu Yang was amused by the cuteness of the little girl, rubbing her little head, and said: "You will say I will also agree, they will be promoted to the demigod profession when they come, and I will leave them too late."

"Ah, you have to let them enter the game city." Mu Yu blinked and found that he seemed miscalculated.

Lu Yang nodded with a smile and said, "Yeah, but since my sister talked about the conditions, then I agreed with the situation. Okay, you can call them over."

Mu Yu's face was very wronged, turned around and walked and said: "Sure enough brother is a big liar."

Lu Yang, Zhou Tianming and others laughed, and had to say that Mu Yu's coming and going became more and more beautiful, and his character was still so cute. This credit goes to all the seniors in the studio. , Bai Xiaoxiao and Han Yu, these little girls are very fond of.

"Ah, I don't know which cheap boy will be cheaper in the future, Mu Yu is in freshman year, and I'm about to fall in love." Lu Yang muttered to himself.

Yuwei said: "You have to ask Lan Yu, but she is the little girl's mother. From the parent meeting to the school to organize activities, all Lan Yu went."

Lu Yang's respect for Lan Yu is also here. Han Yu and Han Sha and their little guys are all taken care of by Lan Yu. The youngest has been with Lan Yu since he was 14 years old.

It is also the reason that Lan Yu did not have extra energy in the game. Almost five years later, these children without parents were taken care of by Lan Yu very well. At least, there will be no other parents picking up the children. Mu Yu can only take care of themselves after school Home situation.

Lu Yang said: "I have the opportunity to ask Lan Yu in the future. I still can't take care of these. We will go on to fight God's Light and Divine Fragment. I feel that I can tolerate a week to two weeks. Gertz fights Tom first, let's watch the show. "

Everyone smiled.

Early the next morning.

After Lu Yang's training, he took the White Lion and Xia Yuwei to the 180-level map to destroy the abyss and looked at the next **** who walked in the distance. Lu Yang said to everyone: "Here is also a plot map. Divine Light and Fragment of Personality. "

The Abyss of Destruction is a map slightly higher than the Garden of the Tears of God. The bosses in it are of the lower **** level. According to official records, this is one of the nine pillar gods, the living area of the third fighting race Tern under the Dark God.

In fact, the monsters here are the junction of 180-level players and demigod-level players. Players who are promoted like demigods, especially equipped demigod-level players, come here to fight monsters as easily as using a kitchen knife to cut watermelon. Players of level 180, even a ghost weapon set, even a level 200 demigod set, struggle to fight.

Lu Yang took the white lion and more than 20 of them came here to fight monsters. They were all a full set of ancient **** suits. It was extremely easy to kill. He pointed to the goalkeeper at the door and said: "Xiao Liang resisted the shield and went to 8 people to kill him. "

One-eyed · Boss

Level: Lower God Level 1

Qi and blood: 500 \ / 500

Luyang has a physical attack power of 39 points. 20 of them can kill the boss with one hammer per person, but not 20 people together. That way, the system will determine the number of copies of the combat, and the blood of the boss will be 10 times.

White Lion, Xiao Liang and Zhou Tianming took the initiative to step forward, one person with three hammers, and Terence Ze died on the ground, bursting out the divine light and the fragment of divine personality.

Lu Yang picked it up and put it in his backpack. He continued to lead the crowd forward and fought all the way to noon. Mu Yu found 80 Mage Lei.

In the special space, Mu Yu said happily: "Brother ~! They are the strongest and most loyal to the Lei Brothers in the team of Lei Master. They are the first to register each time they fight. Now they are also the Lei Master Group. The rank of head of the army and head of the army. "

Lu Yang looked at these 80 people and could see them. Everyone's eyes were full of longing expressions, and it was a glorious thing to enter the war studio.

"Have you thought about it? Once you enter, you have to work for at least five years. Although the treatment is excellent, you pay more than others. You may not be able to contact your family in time. Maybe they do n't know what you are doing for a few days." Lu Yang said.

80 people looked at each other and one of the three headed came out and said to Yang Lu respectfully: "Boss, this is the place we all want to come to in our dreams. You don't have to persuade us, we have already made all the preparations . "

Lu Yang looked at Mu Yu and asked, "This is this?"

“Lei is one of the three major commanders of the Super Forbidden Mage Regiment, Thunder Wanjun.” Lei Ting Wanjun bowed to Landing Yang. This is his sincere action. Lu Yang created a dream place for them. The master of this dream is worth it. He bowed to salute.

The master on the left side of Thunder Wanjun also bowed to Landing Yang and said, “Team leader Tian Ce Lei Long.”

The mage on the right also bowed to Landing Yang and said, “Lion Commander Zilei breaks his soul.”

The 73 heads of groups reported their names in sequence. Before that, these people were all managed by Mu Yu. Lu Yang did not intervene once, and it was Lan Yu who assisted her. Lu Yang was more at ease.

Now Blue Feather can let Mu Yu take them alone, proving that these people are credible, and they are also loyal and powerful enough.

Lu Yang looked at them with a smile, and said: “Welcome everyone to officially join the war studio, give you a day to pack your bags, and arrive at the Jagged Brothers League tomorrow afternoon to report, work hard, the guild is building a batch of new buildings, if your guild points Enough, you will also be assigned to the house, and your family can move in and live together. “

“Thank you boss.” 80 people said excitedly together.

Lu Yang scattered the special space and continued to fight the Divine Light and the Fragment of Divine Personality. Lu Yang played happily on the other side. On the other side, the full-service guilds were repulsed, especially Gerzi.

According to Lu Yang’s request, he has gathered more than 17 million people It can be said that the whole army is dispatched, from the orange fortress to the original Claudio area fortress, all in the state of combat readiness, As long as Lu Yang launched the offensive, Gertz decided to cooperate with Lu Yang to get rid of Tom.

But after waiting for two days, Lu Yang just did n't fight. Sitting in the conference room of the Orange Fortress, Gertz yelled and said: "What the **** do you want to do, Lu Yang, a day's consumption is more than one billion dollars. , Did my money come in vain? "

The first deputy chairman, Pons, thought about it and said, "Will this be deliberately done by Lu Yang?"

"What do you mean?" Gertz asked.

Pangs frowned, saying: "I feel that Lu Yang wants us to fight with Tom first, and when we lose to both defeats with Tom, he will sit back and take advantage of it."

"Dare? Believe it or not, I now withdrew all the fighting teams and made peace with Tom?" Gertz scolded excitedly.

Pangs sighed and said: "He is so dare, we have already entered Luyang's thief ship and can't get off."

"What should I do, am I really fighting? Isn't it cheaper to fight Lu Yang?" Gertz said excitedly.

Pons said: "Is there any other way? Let's play first. If we withdraw, Lu Yang will start playing. When we gather the players and start attacking again, Lu Yang doesn't know what to do with Tom. The scary thing is that Tom simply retracted into the Claudio area. If he suddenly concentrated his power and knocked out the Claudio exit area that we controlled while we were disbanding, then we will suffer a big loss this time. "

There are two strongholds in the Claudio area, one in Tom's hand and one in Gerz.

Chapter 1734 - There is cause and effect

Gertz stared at Pons and scolded: "I really take Lu Yang right?"

Pons looked at Gertz calmly and said, "Lu Yang puts you in this position. I don't know how to crack this game."

“I asked Lu Yang to go!” Gertz was angry, but still called Lu Yang and asked, “What the **** do you mean, why haven’t you hit it? How many days have passed? Do you know that my military spending is wasted?” How much was it? “

While killing the demigods, Lu Yang said with a smile: “Brother, don’t blame me. The Sanyou Weimen has Chen Bing near the Sky Fortress. He is always attacking my area in Olma, and Roland, with an ambiguous attitude, if I’m playing Tom now. If you don’t fight with Tom, you’ll fight me instead, and with Roland and Sanyouweimen, I’m done. So, to ensure that you are really cooperating with me, it is better to fight first. “

“How come it becomes a suspicion that I am not really cooperating with you?” Gertz anxiously pointed to Lu Yang who came from the three-dimensional projection screen. “Aren’t you pitting me? I’ll fight him first, and then you Sit for fishing, I will not lose. “

Lu Yang said: “I’m afraid it’s not easy to pass this time. Sanyou Weimen seems to hate me. I swept his area last time. He wanted to take this opportunity to attack my affiliated guild in the Olma area. The equipment of the 30 million people cannot fall into his hands. Otherwise, I will not have a good life in the future. “

Gertz chuckled and looked at Landing Yang contemptuously, saying: “I don’t hide what you said, I want to beat your 30 million affiliated guild players, I don’t understand what you think. What do the guilds do, what can they do, except to send equipment and medicine. “

Lu Yang smiled and said, “It wasn’t the same at first. I didn’t expect them to be so dissatisfied, but I can only do my best to protect them. After all, I cultivated them. I have to protect them.”

The dissatisfaction of these guilds is reflected in their internal struggles, and it is also a evil door. Lu Yang decided not to participate in their equity issues, which led to these guilds finding rich bosses outside, but these bosses have a lot of them. Part of it is not to play games, but to leave to earn a ticket.

They used the equity in their hands to grab the management rights of these affiliated guilds, and some of them could not grab the management rights, and robbed other authorities. In short, these 30 guilds are now in chaos. The original second half of last year was a good one. Development time, but most of these guilds are trapped in power struggles.

Just like those listed companies and family companies, the equity was bought by outsiders, and unrestricted internal fighting began. The boss who injected capital learned the experience of Steiger and brought these companies to the market. Many people took a wave. The money went away, and as a result the guild left an empty shell.

The big guild has less than 10 million in operating funds and may go bankrupt at any time. Lu Yang couldn't see it, but he made a decision at first. If he didn't participate, he couldn't participate.

It's even worse now. Before that, they were protected by the Brotherhood of Blood. They waved their stocks up, but there was a muddy water company, but they were short-listed companies. They took advantage of this decisive battle in the New World and went short within a week. The listed companies in the seven affiliated guilds have all gone bankrupt and liquidated.

Lu Yang told Gertz one by one to these things and said, "You said what I can do, I don't understand them. Finally, I beat Tom and also cheapened Sanyouweimen. In the future, Sanyouweimen will use this 3000 The equipment of 10,000 people can continue to attack me for two months. What can I block? "

Gertz was anxious and said, "With you, you really want me to fight Tom first. I don't care about any reason for you, you must go to war immediately."

Lu Yang said apologetically: "I'm sorry, I can't do it. It's not as good as this. You can get as much as you can. I don't take advantage of you. As for my participation in the war, half of the things I fight are for you This will not work. "

"Are you sure?" Gertz was a little emotional. In his eyes, if he could take the complete Claudio area, and a small part of the Tom area as a buffer zone between Lu Yang and him, then Roland and Sanyou Weimen's attack, Lu Yang will not do anything.

Even if he betrayed the alliance this time, but in the face of the strong enemy of Lu Yang, in the face of right and wrong, he firmly believed that Sanyou Weimen and Roland would still form an alliance with him.

Lu Yang said sincerely: "Of course you are sure, you can rest assured that I will never take advantage of you, you know, my ultimate goal is Liu Jie, but I just hit him now, you all fight Me, am I right? I can only get rid of those around me who want to hit me first. "

Gertz said, "I'll go back and think about it."

The light flashed.

Lu Yang returned his gaze to the lower **** in front of him, raised his eyebrows, and said, "Jerz can't help it anymore, he should start."

Xia Yuwei asked: "Do you really want to give half of the Tom area we will lay to Gerrze?"

Lu Yang chuckled and said, "I gave him the area from the canyon fortress to the Boyue fortress. You said, will he come flying and beat me."

White Lion: "..."

Turbid wine: "..."

Xia Yuwei couldn't help rolling her eyes and said, "Boss, you really lack morals."

Lu Yang said: "When they united together to fight me I haven't called them lack of virtue. He was idle in Gertz, and I followed him 180 thousand miles away, followed by Sanyouweimen They came to beat me together, I still haven't spoken, I don't pit him, who do I pit? "

If it wasn't for Gerz and their joint attack, how could Lu Yang develop such a slow place, especially the few **** battles at Tiger Mouth, and the blood-blooded brotherhood collapsed almost all, relying on him to bring muddy wine and they worked hard kill.

Recalling the most dangerous one, more than 10 million enemies outside Tiger 's mouth, more than 3 million enemies inside, Tianlong regional mutiny, millions of enemies, Korean regional mutiny, more

than 2 million enemies, together, at that time the Brotherhood of Blood When reaching 10 million people, they have to fight against nearly 30 million people and finally win. Lu Yang feels that he is favored by God.

“Maybe it’s the system’s help. During the attack, everyone’s crit once or twice may change the outcome of the war.” Kuai Ai half-life sighed and said.

At that time, he was responsible for directing internal battles, and when he thought of it, he felt like a fool. The kind of life-threatening battle made him never want to have a second time.

Bai Shihe smiled and said, “It’s okay on your side. I almost turned my face against my two brothers. I watched the defensive walls being attacked by the enemy one by one. My heart was like a broken one. I almost wanted to kill me. The two brothers quarreled when they met. They dared not go to sleep every day. They closed their eyes and dreamed that the fortress was broken. “

The white tiger and the white wolf nodded together, and the white tiger said: “I was on the front line of the fortress at the time. The overall quality of the joint army of the grandsons was better than ours. I tried hard to defend and couldn’t resist. I lost a city wall. Stubborn to die, but then lost the next one, beat Gertz, don’t be polite. “

Everyone recalls the battle that year, and it is not a taste in my heart!

Chapter 1735 - Lu Yang officially attacked 3 friends Weimen

Lu Yang said: “Now, although Gerlz seems to be with us, but you remember, if we are in the awkward position now, Gerlz will not hesitate, so, you want Remember clearly that these people are all enemies.
“

Everyone nodded.

Lu Yang said: "We continue to fight monsters and watch the war between Gerds and Tom. I gave this war a name, called framing."

"Oh?" Xia Yuwei asked with a smile: "Why is this name?"

Lu Yang beat the staff and sang aloud in the tone of the Yu opera: "Thinking back then, the ten heroes fought against the tiger's mouth, but now, one death and one defection, the brothers changed their hearts, the brothers and sisters were handicapped, and the five people looked cold ...

...

While Lu Yang sang loudly on the other side, on the other side, the news of the New World came. The Chairman of the Liberty Legion Jerz started 17 million soldiers, along the black, orange, purple and blue forts, up to the Claudio area Launch a full-scale war against the Truth Guild.

In the middle of the night, in the Qingyue Fortress, Sanyouweimen closed his eyes to the south and lamented: "What is this, what is this."

At this point, he reminded him that the ten guilds jointly siege the Iron-Blood Brotherhood at the Tiger Fortress, and now Galga withdrew, Daniel and Kerim led the remnant army into the Steig's guild, and Heisha quit the game and entered the game. In the entertainment world, Alice retreated to the second line without asking the game.

Orma's defeated Lu Yang's hand withdrew from the game and was sent to prison by Lu Yang in one step. Liu Jie and Steiger were afraid to confront Lu Yang in a corner. Radvedev and Stephen no longer participated in the alliance. Separately attack the city.

The ten people who worked together in the past are now completely disintegrated. However, Sanyou Weimen can't understand why Jerz betrayed their alliance.

He didn't know that Gerlze could get to this step, completely forced by Lu Yang, and also by Tom himself. As a boss, he committed a major taboo that he dared not commit.

Furukawa Wu stepped on the wooden clogs and walked to the side of Sanyouweimen. He asked respectfully, "His Excellency, are we attacking the canopy of the sky?"

Sanyouweimen shook his head sadly with his eyes closed and said, "I can't fight, Lu Yang didn't participate in the war. We are now playing the Sky Fortress, which is to fight against Lu Yang's main force. With the strength of our guild, we can't win."

"But we have gathered a large number of players, and the daily military expenditure is extremely expensive." Furukawa said with some anxiety. More than 100 million US dollars of military expenditure a day, few people can afford it.

It was like this before the war. When fighting, no one could imagine how much money would be consumed. Recently, Sanyouweimen got an investment of 500 million US dollars, but this is only enough for five days, including his guild. The more than one billion yuan recently earned here can only continue to take more than ten days.

"Someone will pay for us." Sanyou Weimen picked up the phone and called Tom, saying, "I need your military support. Give me at least 100 million dollars a day."

Tom was working on a defense plan. When he heard this, he frowned and asked, "Why, I can't give you so much money now, I don't know if I can hold it."

Sanyou Weimen said: "If you don't pay me military expenses, I can only disband the team. This money is one hundred million dollars a day, and the total amount of funds in our guild is more than one billion. I can't afford it."

Tom knew that if Sanyou Weimen disbanded the team, Lu Yang would drive straight in and gritted his teeth, saying, "I will give you 50 million military expenses, and another 50 million will be responsible for yourself."

Sanyouweimen thought for a while and said, "Looking at the face of friends, I accept your price and hope you can stick to it."

“Thank you.” Tom hung up the phone and shouted: “Defense with all strength, be sure to block Gerrard’s attack. As long as we hold on for more than 5 days, Gerrz’s attack power will decrease sharply. Our chance to counterattack. “

Hermon and the other two vice presidents nodded and quit the special space to continue their defense. On the other side, Tom worried about Lu Yang’s sneak attack and personally sat in the canyon fortress, with nearly five million players, defending day and night.

It’s a pity that he is more hearted and Lu Yang doesn’t want to attack at all. As long as he continues to drag on like this, the first one who can’t afford to drag is Tom. In the face of the same strongest Gertz, there is less 5 million main forces. What does he take? Fight with Gertz, but with the stronghold gun and solid defense, he can’t win the war.

For three days, Lu Yang did not move, and Tom stayed up for three days and nights. On the morning of the fourth day, Jerz called a screen call. He stared at Land Yang ’s eyes and said, “If within three days, I can’t win Tom, I will negotiate with him to end the war. “

Lu Yang smiled and said, “Why, I’m going to play Sanyou Weimen here. You can hold on again.”

Gerl snorted and hung up the phone.

Listening to the beep in his ear, Lu Yang knew that this was the last ultimatum Jells had given him. If he did not send troops within three days, then he would retreat. Unfortunately, Jerz forgot one thing. , How could it be so easy to retreat.

If the Iron-Blood Brotherhood is incapable of dealing with Japan at this time, and loses more and wins less, Tom will definitely be under the anger and attack the area of Gertz. How could this war be so easy to end?

“All the vice presidents obeyed. Old Man Twilight left Liang Yun to confront Tom. The rest of them went north with me, and we went to fight with Sanyou Weimen.” Lu Yang said.

Xia Yuwei, who played the skill book with Lu Yang, and others were amazed at the same time. At the same time, he immediately called his men. The Iron-Blood Brothers League had more than 10 million players, and his body lit up and flew to the Sky Fortress.

The whole team at noon, and around 5 o'clock in the evening, 10 million players of the Iron-Blood Brothers gathered outside the Sky Fortress. Lu Yang stood on the back of the flying dragon, overlooking the 10 million players under his hand, and said loudly: "Today From now on, we launched a war against Sanyou Weimen. This war is about what matters. I think you are very clear. Only victory is allowed, not defeat. The whole army follows me. "

Thousands of people have expressions on their faces.

Lu Yang turned his head, and the first one flew towards the front, flying behind Lu Yang, not only the Phoenix Golden Regiment, but also Ma Jingming's Vulture Legion.

On the ground, there are only 6 million players in the headquarters of the Iron-Blood Brotherhood, and the remaining 4 million are the Indian Army, the Korean Army, the Spanish Army, and the Hilde Army (formerly G8 players) who strongly demand to participate in the war.

It seems that the Iron-Blood Brothers spend a lot of money, but they do n't really spend much. The requirements of the affiliated legions are not money, but honor. They all want to start their own names, because, when they see the New World, they are going to be punished. Lu Yang's direction of unity is gone, and they must express themselves with all their might.

On the way, the presidents of Padu, Darvi, Ayala and Xia Yuwei and other vice-chairmen of the Iron-Blood Brothers Alliance gathered for a chat.

"Aren't you going to use the lower **** this time?" Both Padu and Darvi and others received the transfer of the lower **** and the ancient **** suit and skill book from Lu Yang to them. Understanding.

Ayala looked at Xia Yuwei and said, "Don't we destroy the Sanyou Weimen in one fell swoop this time?"

Xia Yuwei looked at Lu Yang and recalled what Lu Yang had said to him before, saying: “No way, we can’t hit the Sanyou Weimen. Once he is hit by the top, Roland and Radvedev will Come immediately to help.”

“Why?” Darvey asked.

Xia Yuwei said: “The position of the Sanyouweimen is at the upper center of the central area, and the middle of the Roland area is the boundary line guarding the western area. If any of them are captured by the Iron Brother , Then we can attack any of the fortresses of Radvedev and others on the west side of the New World at any time. Be aware that they are not fortified near these fortresses. ”

This is how everyone understood.

“So what are we doing this time?” Pado asked.

Xia Yuwei said: “You are defeated, you remember, we can only be defeated this time. The war with Sanyouweimen everywhere must result in failure. Only in the last battle can we end in victory.”

“Isn’t that difficult?” Ayala was a little depressed, and said: “If the Golden Army’s first battle is too costly, I can hardly face the condemnation of domestic players.”

Lu Yang suddenly fell beside them, put on a mechanical motorcycle, and said: “Resistant to the momentary suppression, when the final victory, everyone will take you to the highest point.”

Ayala and Padu looked at each other and nodded one after another. Ayala said, “Listen to you.”

With the skills of “Break the World”, Ayala knew that it was only a matter of days to wipe out the strongest guild.

Here the Iron-Blood Brotherhood chats, and on the other side, Sanyou Weimen also starts his combat preparations, outside the Qingyue Fortress.

Sanyouweimen stood on the city wall and shouted: "Everyone is ready for defense. In this battle, we must completely disintegrate the confidence of the Brotherhood of Blood, and let the enemy know how powerful our strength is. We are the strongest guild. "

Tens of thousands of people gathered together roared in unison. How about Qingyue Fortress, Yangyan Fortress, Shenyin Fortress, and Cave Fortress, Sanyouweimen gathered more than 15 million players.

Each of the four fortresses is two hours apart, and there are tunnels between each of the two fortresses. This is not a tunnel, but a tunnel group consisting of 30 tunnels. Each tunnel is 2 meters wide and can be walked at the same time. 4 players, 120 players in a row.

No matter which fortress is attacked, the rest of the fortresses can provide support at any time, and the Sanyoumen are not hiding in the fortress defense, but they are the same as when Olma defended the last three fortresses, digging outside the fortress Trenches, and a large number of fortresses and lightning towers are built below.

The engineering profession also built a variety of wooden cars that hide magic damage, as well as a large number of catapults. In this war, Sanyouweimen treated this war as a battle of national destruction.

Looking at the players who were ready to fight in the city, the Sanyouweimen's face showed a satisfied smile, his hands were inserted into the sleeves of the kimono, and said: "This is the strongest line of defense I have set, and it is also an upgraded version of the Orma defense line. I believe that with my strength, I can definitely block the blood brothers in front of these four strongholds and can't do anything about it. "

Unlike Orma's lack of defense on all four sides, the Sanyouweimen only need to guard the four fortresses, which is equivalent to covering all the fortresses behind him. In the boundary of the winter and snow fortresses controlled by the Sanyouweimen, here is to block the middle The starting point of the mountain range in the region and the northern region, so if the Sanyouweimen area comes normally, it is a very difficult area to win.

Coupled with such a large strategic indulgence, even if one of the four of them is lost in the Qingyue Fortress, when most of his levels are around 175, he can withstand 50 deaths per player. Because, even if he died 50 times or more than level 170, he still wears a level 170 dark gold cover.

Furukawa Taken walked in front of Sanyou Weimen and said respectfully: “Your Excellency President, I believe you will succeed in defense. My 2 million elite players have already made preparations.”

Sanyou Weimen looked at Furukawa Takeshi with satisfaction, and said, “Very well, now I command you to take these 2 million people by-pass to the rear of the Iron-Blood Brotherhood, and attack all their affiliated guilds in the fortress of the rainforest fortress. In the area, grab their equipment. Once Lu Yang returns, you will run away with these 2 million people. Lu Yang will leave, and you will attack again. “

“Fatigued tactics, brilliant.” Furukawa took a look of laughter and said, “I will provide you with equipment at any time, waiting for my good news.”

Sanyouweimen nodded and watched Furukawa Take away 2 million people. This was the plan they had made earlier. Once Lu Yang attacked him, he sent Furukawa Take to fight those uncontested affiliated guilds under Lu Yang.

In the eyes of Furukawa Taken, every affiliated guild is a weak chicken and can be bullied casually. Of course, it is indeed the case. They have more than 170 players and 170 dark gold suits. It can't condense together to form combat power, it is a bunch of weak chickens.

However, what the Sanyou Weimen did not know was that Lu Yang had already placed spies in his guild. It happened that these elite spies were among them in this attack, and Lu Yang knew their movements clearly.

On the way to march.

Tu Feng found Lu Yang and asked, “What shall we do, whether we will withdraw some players and chase down Furukawa's legion.”

Lu Yang shook his head and said, “We can't catch up. Unless we all retreat and chase and intercept the 2 million people, otherwise they have two wind elves accelerating for every 10,000 people. We have no way to pursue them. “

This legion of 2 million people was created by Sanyou Weimen, who gathered all the abilities of his guild, and it was also the foundation of his establishment of the guild. It is not that the Iron-Blood Brotherhood can easily win by simply producing a legion.

Tu Feng asked: "What about the affiliated guild, their equipment must be taken away, we will be exhausted."

Lu Yang smiled and said, "Originally, I wanted Ayala to fail a few times. Now it's okay. There is no need to fail. Someone has defeated the battle for us. If they lose their equipment, they will lose their equipment. They say no. I need to intervene in their housework, what can I do. "

The directors and presidents of these guilds demanded that Lu Yang must abide by the rules they had set before, and not to intervene in the internal affairs of their guild, even if Lu Yang wanted to help them, he was powerless.

Tu Feng said: "I know."

Lu Yang led the team to continue to move forward. In the distance, the frontier position of Sanyouweimen was clearly visible. The defensive team of millions of people extended along the defensive zone of the Qingyue Fortress for 50 minutes.

Lu Yang walked here for only an hour, and he bordered the enemy's front. He looked at the battlefield, and then looked back at the vice presidents and affiliated guild presidents standing beside him. In the pre-war plan, the Iron-Blood Brotherhood was responsible for attacking the Qingyue Fortress, Li Wenxing attacking the Shenyin Fortress, Padu and Darvi Allied forces attacking the Yangyan Fortress, Ayala led the Golden Army to attack the Winter Snow Fortress, our four fortresses fight together, remember Live, only lose, not win! "

"Yes." The four aspects are somewhat listless.

For a time, the main force of tens of millions was divided into four. Lu Yang ordered his 6 million people to extend it. He said in a loud voice, "The hard-working half-life will fight the left side of Qingyue fortress, Zhou Tianming will fight the right side, and White Lion and Xia Yuwei will attack with me. In the middle area, a full attack. "

“Yes.” Xia Yuwei and Kuaiban Bansheng and others responded in a stern voice, and ran back into the team. For a time, the team of 6 million people divided into three directions and moved towards the center of the Qingyue Fort.

“Woo ~!”

“Woo ~!”

“Woo ~!”

...

A deep horn sounded, and Sanyou Weimen, who was rushing to the front line, heard clearly. He knew that this was the offensive order of the Iron-Blood Brotherhood.

Ten minutes later, he came to the front line, and happened to see Lu Yang, who was in the formation and preparing to attack. He sneered and said, “President Lu Yang, we haven’t seen you for a long time.”

Lu Yang also saw Sanyou Weimen wearing a kimono fashion and smiled and said, “It’s really been a long time since I saw you.”

Sanyou Weimen bowed to landing Yang Yi and said, “Since the last time I was defeated by Yang Jun I felt painful and I came up with a defensive strategy again. This is specially prepared for you. I hope you like it. “

Lu Yang looked at the defensive lines arranged on the left and right sides like modern trenches, and said with a smile: “You are really bothersome, why, are you so afraid that I will hit you? Don’t you dare to attack head-on?”

Sanyouweimen bowed with a smile and said, “The way of playing wars is not only offensive but also defensive. I prefer to play defensive battles with you, which is more beneficial to me. Why do I not use favorable terrain, But it’s about standing on the same line with you, right? “

In the words above, both of them did not give up, seeing that they could not reduce the morale of each other, Lu Yang no longer talked nonsense, waved his hand, Mu Yu stepped forward, and Master 10,000 Lei appeared at the same time.

“Super Electromagnetic Storm”

“Super Electromagnetic Storm”

...

10,000 Thunder Masters released the “Super Electromagnetic Storm” skill, and controlled the players in the area where the Sanyou Guardian was unable to use magic. At the same time, the white lion roared and said: “All attack.”

He didn’t rush up first, but sent the Flame Sword as the representative, rushed up for him, which made Sanyou Weimen a little puzzled.

“It’s strange. Bai Sanxiong likes to charge on the battlefield. Why didn’t he spoil him this time?” Sanyou Weimen murmured to himself.

The deputy chairman around him said, “Did they change the style of play?”

Sanyouweimen shook his head. He couldn’t be sure of the significance of Bai’s Sanxiong, but he always felt abnormal.

Where does he know that if the three brothers White Lion, White Tiger and White Wolf charge together, their three lower gods can directly penetrate the team of the Sanyouweimen, you know, there are also lower gods under the Sanyouweimen, but the number There are only 3, and there is no equipment. In this case, the lower-level **** is not as crisp as the 175-level ghost weapon player.

Chapter 1736 - Sturdy line of defense

“Forget about it for the time being and order our Legion Mage Legion to release” Super Electromagnetic Storm “to this area. We can’t release the skills, and don’t want to release the skills.” Sanyou Weimen said.

After the last failure of Olma, after all parties’ conclusions, everyone agreed that if Lu Yang did not own the” Super Electromagnetic Storm “legion, the Brotherhood of Blood would definitely not defeat Olma within a month. In fact, it takes at least two or three months to fight.

Therefore, not only Luyang has the Super Electromagnetic Storm Legion, but also the Sanyouwei men. The number is only two-thirds less than that of Luyang, but it is enough for local wars.

After all, they need to defend a smaller area, so after just a few seconds, the super-electromagnetic storm army of Japan that was let go later also released their skills. For a time, the frontal attack area of the Iron-Blood Brotherhood, both sides Can’t use skills.

But in this case, the Sanyou Weimen side also had the support of catapults, fortress cannons, and lightning towers, but the Iron-Blood Brothers side did not.

The elite players of the Brotherhood of Iron and Blood, facing this situation, a large number of players were killed or injured for a time.

Seeing this scene, the men of Sanyouweimen shouted and laughed loudly, and the Sanyouweimen were also full of relief. They said loudly: “I knew that the Iron-Blood Brotherhood could not win us at all, everyone continued to work hard, We block the attacks of the Brotherhood of Blood. “

In the live room.

Dubin and the anchors of all countries in the world have their eyes on the war in the Sanyouweimen area. Seeing the situation on the battlefield, even Du Yang, a **** fan of Luyang, has to say with

exclamation: "The Japanese side The defensive strength is really sufficient, the Brotherhood of Iron-Blood meets the opponent this time. "

Hitomi said aside: "This time Japan's defense is really unique. For example, the first layer of tunnels, the normal first layer of tunnels should all be offensive players. They are the first position responsible for the output, but the Japanese side is the first. The players in the first floor of the tunnel are all anti-war and the treatment of the paladin. The tunnel they dug has an area to avoid magic skills. The paladin class hiding in the innermost area will still not be affected by the super electromagnetic storm. Fighting and adding blood. "

This is the most proud place of Sanyoumen. In each tunnel, there is a hole where players can rest. Paladin players hide in the hole, and then use a unique magic defense baffle to block the hole. Disturbed by a super electromagnetic storm.

Under such circumstances, before the Battle of Shield and the Iron-Blood Brotherhood, they gave the Shield Battle the Holy Light Beacon and the Blessing of Sacrifice. While adding blood to themselves, they could add blood to the target of the Beacon and also Being able to rely on the special effect of sacrificing blessings and taking 50% of the damage for the target not only reduces the damage suffered by the shield battle, but also improves the survival time of the shield battle.

Under such circumstances, the rear catapults and lightning towers and film shooters, they become the main force of the output, especially the shooters, no one thought that these shooters are specially made by Sanyoumen, he added these shooters The attributes are all punctures.

No crit, no damage, only piercing effect, so that the first-line shooters of these hundreds of thousands of people, each person's armor piercing effect is more than 50%, which is equal to ignoring the 50% armor effect.

In this way, the single output of the shooter may increase the puncture because of gems, enchants, antiques, etc. without increasing physical attacks, resulting in little damage, but when they ignore the armor, once the number is sufficient, they form a super strong Of the attack surface, for a time, a large number of melee occupations of the Brotherhood of Blood on the front line were shot and killed in large numbers.

Sanyou Weimen watched this scene more excitedly, screaming and clenching his fists, and his mustache was raised, and he said with a laugh: "Our tactics worked, and the Iron-Blood Brothers couldn't even break our first line of defense."

All Japanese players and affiliated guild players stood in the distance and cheered, while on the other side, the players of the Brotherhood of Blood were discouraged.

Standing on a high platform in the distance, Lu Yang looked at this scene with some exclamation and said: "Sanyou Weimen really is a powerful opponent. If we don't cut off the world and the next **** profession, we want to break his defense line, we must pay a very heavy price. "

Jiang Ze and Tu Feng stood beside Lu Yang. Jiang Ze said: "After all, we are fighting a tough battle. Here is the three-month defense team carefully prepared the defense line for 6 months. If we break easily, then it must be inside. There is a conspiracy. "

Lu Yang smiled and said, "That's right."

As soon as the words fell, Tu Feng frowned and said: "Furukawa Taken led 2 million players to march quickly, and has now arrived at the Rainforest Fortress. The president of the affiliated guild there sent us a message for help."

Lu Yang said: "Let them get close to the defensive fortress, all affiliated guilds stop fighting inside, defeat this enemy, only 2 million people, they have 30 million people, even they can pile them up, I can't support them."

The battle has begun in full swing. Even if Lu Yang wants to go, he has no ability to go. He can only hope that the affiliated guilds will not fail so badly.

On the other side.

Under the rainforest fortress, Furukawa Takes the imitation of the daring wolf legion, using the ground dragon skills to build ten large slopes leading to the top of the city wall under the city, and 2 million people swarmed in.

After only half an hour's fight, the defense of the Rainforest Fortress was completely broken, and Furukawa took a call to Sanyou Weimen excitedly and said loudly: "Your Excellency, break the Rainforest Fortress, kill 1 million enemy players, and rob 200 Ten thousand more pieces. "

“Good job.” Sanyou Weimen was excited for more than six months. He could finally vent all his dissatisfaction and held his fist. “Continue to attack, I want to see you break through the iron fortress, Hydra Fortress, Dead Sea Fortress, and all Luyang’s fortresses affiliated with the Guild, robbed them of equipment, lowered their ranks, and attacked their morale. “

“Yes.” Furukawa hung up the phone and continued to lead the attack.

On the other side.

Tu Feng said to Lu Yang: “The rainforest fortress is lost, what shall we do?”

Lu Yang said: “If we send 1 million people back, it will take time and effort to say that they will be wiped out by Furukawa Takeshi. If 2 million people are sent, Furukawa Take will hide and seek, and on the battlefield, because there are 2 million fewer people, There may be a defeat in the front, and I ca n’t send people to let them gather together. In the same words, 30 million people gathered together and spit in one person, drowning those 2 million people. ”

Tu Feng nodded and went back to the affiliated guild.

Lu Yang stood on the spot, he had a hunch that the fruit of victory in this battle was much larger than previously expected.

The blood brothers and Sanyou Weimen were excited here. Far away in the northern region, Liu Jie and Steiger finally reassured themselves. At the border, the two who had already been ready to go started a new round of fighting.

In the far west of the new continent, Radvedev received news of the battle between the Brotherhood of Blood and the Three Friends, and said with a sneer: “I finally have the opportunity to wipe out these small guilds in the west. All of them. “

These free guilds and neutral guilds haven’t sold Ladvidev’s face very much. Now, he can attack at will After knowing the news of Sanyouweimen, Roland called and asked: “I’m on the whole army, why don’t

I send a part of the Super Electromagnetic Storm Legion to you first, how about supporting you to fight Lu Yang?”

Sanyouweimen is on his head, he can hear Roland’s intention to take advantage of the fisherman in one sentence, and said with a smile: “Okay, I need the Super Electromagnetic Storm Legion, you can help me, I’m very happy . “

His tactics can’t be cracked in a short time by the Iron-Blood Brotherhood. On this side of the defense, the other side is attacking, and within ten days, not only will he not fail, but he will get more 170-level dark gold equipment to make the guild change. To be more powerful.

As for Tom who is most concerned about the Luyang War, he watched the Iron-Blood Brothers fight for a night without fighting, and said with a sigh: “It is still the method of the Sanyou Weimen. I also learn from him. In addition, 4 million people are sent back. Fire Dragon Fortress, Lu Yang does not need to defend here. “

In just one night, 30 affiliated guilds were breached, and the Jagged Brothers ’Alliance did not completely break the first line of defense. Tom had reason to believe that Lu Yang was already trapped in the quagmire set up by Sanyou Weimen. .

Inside the orange fortress.

Gertz was stunned to hear that Lu Yang did not agree to the Sanyou Weimen, but he saw the defense line set by the Sanyou Weimen and understood why Lu Yang had not fought.

“If it were me, I wouldn’t be able to beat it.” Gertz murmured.

Vice President Pongs said: “Your Excellency President, we have to find a way quickly, otherwise, we can only insist on two days. After two days, if we still cannot win, we must retreat.”

Gertz looked at Tom’s already loose line of defense and couldn’t retreat at all. He gritted his teeth and said, “Try again, if you still can’t win, then retreat.”

Chapter 1737 - Army Collection

Three consecutive days.

Lu Yang not only did not break the defense line of Sanyoumen, but was attacked by Sanchuanweimen's men Furukawa Takeshi 30 fortresses, and 30 million players were killed by Furukawatake.

Faced with this situation, domestic players blamed Lu Yang, and players from various affiliated national guilds also discussed whether the Blood Brotherhood is worth following.

The affiliated guild within the country did not say much this time, because they all knew that it was too shameful, 30 million people let two million people lose their temper, and they did n't know how to blame Lu Yang.

The morning of the fourth day.

Lu Yang is still in charge of the battle. From the first day of the war to the present, the Iron-Blood Brotherhood has only advanced 169 trenches, which is a distance of about one kilometer.

This length is not enough for him to control the flying dragon to fly forward for one minute. On the high platform, Lu Yang leisurely looked at the battlefield.

Ayala came over, looked at Landing Yang, smiled helplessly, and said: "Your excellency, I really don't know how you can still be so leisurely, I have been scolded by you outside."

Pada said with a smile: "We are also under a lot of pressure."

Lu Yang looked at the two girls and smiled, and said, "Why don't you care, I know you will all stand firm to support me. When you win the war, all the problems will disappear, right?"

Li Wenxing said excitedly: "I believe President Lu Yang will definitely win the war."

Hiddle frowned, saying: “Your Excellency, although I don’t know how you want to fight, it is really not a way to fight like this. Do we have to find some paths and cross the defense line formed by these four fortresses and hit them directly.”

No matter how perfect the defense of Sanyoumen is, the trails on the mountains on both sides have a great chance of passing a few people, but the way in the past is too troublesome.

Lu Yang knew that there was more than one way. He smiled and shook his head. He said, “Don’t worry, I’m waiting. Please be restless, there will be a result today.”

Except for Ayala, the presidents of the other affiliated guilds were somewhat unintelligible by Lu Yang. They did not know that the players of the Iron-Blood Brotherhood who participated in the attack during the day were not the same group.

Lu Yang gathered more than 10 million players this time, only within the Jagged Brothers League, he recruited 15 million. The four affiliated guilds, Li Wenxing, Pado, Ayala and Hidal recruited 300 respectively. The total number of affiliated guilds is 12 million, and the total number is actually 27 million.

It’s just that they were recruited in batches. The rest of them didn’t find out. They were also tricked by Lu Yang by tricks. The method of cheating is very simple.

Every day, Lu Yang put the 6 million people who were recruited in advance into the battlefield, playing for two days in a row, and on the fourth day, the 6 million people withdrew from the battlefield, replaced with the newly recruited 6 million people to fight, and played for three days. The 6 million people who could be evacuated were not disbanded, but were dispersed by Lu Yang to India, South Korea, Heisha and the Group of Eight.

The task given by is to get the news that there are affiliated guilds to betray, and they are responsible for rebellion. In this way, these people not only did not disperse, but more and more prepared to stand by.

In this way, in fact, each team did not suffer much damage. They played for three days, and Lu Yang did not let them all do their best. Only one million of them were attacked, which is 100 on the frontal

battlefield. Ten thousand people hit the most tragic, the remaining five million people were injured very slightly, and did not lose their fighting power.

Has a rest period of three days or even longer, and their equipment has been returned from the copy. Although the morale is somewhat low, there is not much problem on the whole.

Lu Yang was initially worried that he could not cheat Sanyou Weimen and other players around the world with this method, but it was unexpected that on the one hand, the players of the Brotherhood of Blood were really very careful, and no one leaked secrets.

On the other hand, Sanyou Weimen was dazed by victory. The 30 million players of the domestic affiliated guild were killed by his men. Sanyou Weimen even said to the outside that he wanted to exchange positions with Furukawa Takeshi. Enjoying the thrill of killing, it can be seen that Sanyouweimen has been completely immersed in the sense of victory in strategy and strategy, and has not found that Lu Yang did not do his best.

As for the rest of the forces, they are all about to fight their time to the decisive battle. No one cares about the Jagged Brothers League. The most interesting is the major media, as if they have seen the Jagged Brothers League completely failed. Reported desperately.

Although Lu Yang thinks he has hidden these millions of secrets, everyone who finds them hard will find clues, but unfortunately, no one cares about these things, everyone is immersed in the news that the Predator Brothers will be defeated on the main battlefield. among.

Padu asked curiously: "Boss, what are you waiting for?"

Lu Yang laughed and said nothing, which made some of the vice presidents around him feel a little puzzled. At this time, Tu Feng jumped up from below and said to Lu Yang: "Jerz retreated, Tom did n't. Forgive him and lead the main force into Gerz's area. "

Lu Yang showed such a smile on his face, and said: "Tom's mortal blow, it was really strong enough, Gertz is going to be unlucky."

Tu Feng nodded and said, "The war in Radvedev has entered a critical stage, and within a week can win or lose."

"How about Liu Jie?" Lu Yang asked.

Tu Feng said: "Liu Jie and Steiger were in full-scale war, and Vice President Zhuo Jiu explored the news every day, and also changed his account into the main battle area of the two. . "

Lu Yang asked: "What do Roland think?"

Tu Feng said: "Roland still has no intention to send troops and is still in the border ink, not even 3 million people have assembled."

Lu Yang smiled, stood up, took a breath, and said, "This time I can rest assured that I will recall White Lion and Xia Yuwei and report them immediately."

"Yes." Tu Feng sent a message that the eyes of the white lion and others who were commanding on the battlefield ran to the platform.

Lu Yang looked at Padu and others and said, "Don't hide the reserve forces, and order them to gather to the east of the Sky Fortress after an hour."

"Yes." Although Padu and others did not understand it, they issued orders in accordance with Lu Yang's request.

It was at this time that White Lion and others jumped onto the high platform and watched Landing Yang said: "Boss, you finally decided whether or not."

Lu Yang nodded and said, "The time has come."

“Great, I can’t help but go to the battlefield.” The white lion jumped and said, watching his brother’s charge failed again and again, his subordinate **** wanted to rush up and beat the enemy, but if he went up This shows up.

Lu Yang looked at the White Lion and others with solemnity, and said, “Order, the 15 million Jagged Brothers who have been recruited will gather on the west side of the Sky Fortress within an hour. Starting today, we will officially fight against the Sanyouweimen. Within three days, the Sanyouweimen will be completely defeated. “

“Yes.” Everyone answered in unison, and each issued orders to go.

On the battlefield.

The 6 million players of the Iron-Blood Brothers began to withdraw from the battle in an orderly manner, and the 4 million affiliated guilds also gradually withdrew from the battle, leaving the enemies who were defending and attacking a little bit confused.

“Return?”

“Confessed?”

“Why did they leave?”

.....

In a curious voice, Sanyouweimen stood on the high platform with an excited expression, shaking his arms and shouting, “We win.”

He has received news from his men that Gerrze lost, and Tom led two-thirds of the main attack into Gerrze ’s site.

“Looking for it, Lu Yang either helped Gertz to interfere with Tom, or he was afraid that Tom would copy his back and take the initiative to admit defeat.” Kentaro Miyano, the first vice president, said excitedly.

Sanyouweimen looked back at the several vice presidents under his hands, and said with a laugh: “Order all players to prepare to switch from defensive battle to offensive battle. All the strongholds in the horse area merge the Orma area into our site. “

“Yes.” The eight vice presidents present responded loudly, issued orders, and prepared their men to go.

More than 10 million players came out of the trenches and began to gather, but as they assembled, the vice president of the spy system, Ryosuke Sakura, suddenly shouted loudly: “Ca n’t leave the trench, everyone will go back immediately . “

Sanyou Weimen was pleased, turned his head and frowned and asked, “What are you shouting about?”

Ryosuke Sakura came to the Sanyouweimen excitedly, and sent the video that he was playing simultaneously to the Sanyouweimen. He said in horror: “Lu Yang is not retreating, but preparing more people to participate in the attack. A large number of players are gathering, and the number is not less than 20 million. “

“What?” Sanyou Weimen only felt cold all over the body, and quickly looked at the video, but found that it was exactly like what Sakuda Ryosuke said. From a height, the Sky Fortress was divided into two areas, and the east area was for foreign players. , The west area is Chinese players.

The players on both sides gathered together, and the area was even larger than the fortress. This is obviously only achieved by more than 20 million people.

Sanyou Weimen quickly shouted: “Everyone returned to the trenches to prepare for defense, and all of them were doing defense.”

Tens of millions of players can only return to the trenches, but they have no video, and they are all confused.

The live broadcast of Dubin and other major anchors is playing the retreat of the Iron-Blood Brotherhood.

“Oh, the Iron-Blood Brothers League can’t bear it after all.” The American host said happily.

“The great testimony that the Sanyou Weimen successfully blocked the Brotherhood of Blood, and let Lu Yang taste the first defeat in life.” The Japanese host said excitedly.

“Lu Yang was finally defeated, hahaha, Smecta, we finally saw Lu Yang defeated.” The South Korean host said.

.....

Among the many voices, Du Bin was the most depressed. Looking at the landing of Yang Yang, he did not want to say a word. The whole channel seemed very dull, even depressed.

Hitomi was sorting out the information transmitted by the guide below. Suddenly, she saw the live video of the Sky Fortress from the guide, and her eyes widened quickly sent to Du Bin, saying: “Lu Yang seems not to be defeated, but to Prepare for a stronger attack. “

Du Bin was stunned when he saw the video. With surprise, he shouted: “Iron Brothers Alliance was not defeated, Lu Yang did not retreat. Everyone look at the Sky Fortress. What is this, my God, Lu Yang has gathered two Tens of thousands of people, what is he doing, I am going crazy, and use the strength of the whole country to attack the Sanyouweimen? “

With the roar of Dubin, the audience watching the live broadcast across the country was shocked. The video has been replaced by the Sky Fortress. Sure enough, as Dubin said, the tens of millions of players who have returned to the Sky Fortress have gathered with the recent The players come together to form two huge squares.

“The computer calculated it automatically. There are 12 million players on the east side and 15 million players on the west side of the Jagged Brothers League. The total population launched by Luyang this time has reached 27 million. It’s not the 30 million Chinese guilds that have no combat power. It’s the fighting power of foreign affiliated guilds defeated by Lu Yang one by one. It’s the main fighting player

who can break the wrist with any strongest guild. This is what to do, how much money it will cost.
“Dubin hysterical shouted.

Depressed for too long, for six days in a row, he wanted to vent too much, and now, once vented out He no longer knows how to express his excitement.

Fortress of the sky, on the north side of the fortress, two huge legions, like the two big tongs of the crab, wave out from the left and right sides of the fortress of the sky.

The Chinese players and European players in the team have a crazy feeling. The flame knife has been playing with a low momentum these days, but he can be astonished at the scene.

“Sidell, the main legion left by the Group of Eight, how can he follow some of Olma’s main force behind him.”

“Ayala didn’t take only one million people, how come another two million golden legions.”

“Li Wenxing’s main force is out there. Isn’t it defensive in China?”

“Dalv brought all 300,000 cursed legions, it’s terrifying.”

Affiliated country guild players were also ignorant.

“How come there are so many people under Lu Yang.”

“All of them wear the emblem of the Brotherhood of Blood, and the level is still above 170, which is crazy.”

The affiliated guild still does not know that the number of players in the Jagged Brotherhood guild has already exceeded 100 million. After these six months of adjustment, a large number of players have risen to level 170, so it is not surprising that there are 15 million people today.

“All attention.”

“All attention.”

“All attention.”

.....

More than a dozen vice presidents such as White Lion, Xia Yuwei, Jiang Ze, Half-Life, Zhou Tianming, Ayala, Darvi, Pado, Li Wenxing, Sidall suddenly issued commands with loud speakers, more than 20 million Players looked at it curiously.

Chapter 1738 - The next **** attack

In the middle of the sky fortress, a dozen platforms suddenly rose. From a distance, there was only one villain on each platform, but in a second, these dozen villains suddenly expanded ten times.

“Heart of Artifact”

“Martial God Body”

The two are superimposed, from a player with a height of only about 2 meters, suddenly turned into a giant with a height of about 20 meters. When all the ten giants became so big, they looked at the clouds above.

“His ~!”

The sound of the dragon roared, the clouds broke open, and Lu Yang, 20 meters tall, appeared slowly on a flying dragon that had been spurred by the swelling agent into a length of 80 meters.

Lu Yang looked at the more than 20 million players below, raised his magic wand, and said aloud: "My brothers, from today on, I will take you to level all the control of Sanyou Weimen again. Everyone listens to my orders. , Proceed in accordance with the previously planned deployment. "

"Target the winter and snow fortress, move forward."

"Go to the Fortress of Yangyan and move forward."

"Target God Hidden Fortress, move forward."

"Go to the stronghold of the moon and move forward."

.....

27 million people are divided into four parts, of which 15 million people attacked the three strongholds of Shenyin, Yangyan and Dongxue respectively, and 12 million main forces all gathered at the Qingyue stronghold.

Sanyou Weimen quickly judged that Lu Yang 's main target was still Qingyue Fortress. He sneered and said, "If you want to attack me with superior strength, then I will see how you win."

The defense force of Qingyue Fortress is more than 5 million people, and the population ratio on both sides is 2.5 to 1, which is equivalent to each of the three friends of the Weimen, playing against 2.5 players of the Brotherhood of Blood.

In fact, this is not the case. If you count the towers, catapults, and artillery cannons of the Qingyue Fortress, and one trebuchet counts as one person, the population ratio of the Qingyue Fortress should be 1.5 to 1, or even lower. .

On the damage side, the damage caused by the catapult to the player is higher than the damage the player hits. In this way, the two sides are still 1: 1.

Miyano Kentaro proudly said: "Please rest assured, Your Excellency, we must defend the Qingyue stronghold, no more people from Luyang have any meaning."

Sanyou Weimen was very confident in his defense. He put his hands in the sleeves of the kimono and said, "I believe you can do it, but not carelessly."

"Chairman, please rest assured that I will let Lu Yang taste the pain of failure again." Kentaro Miyano said loudly.

Sanyouweimen nodded. He glanced around the crowd. He was about to give an impromptu speech, but saw Sakuta Ryosuke frowning, as if thinking about something, and asked, "Sakurada Ryosuke, what can you do not understand? Say it? Do you have questions about our victory? "

Ryosuke Sakura raised his head and said, "Your excellency, I'm curious about one thing. Look at the Luyang team, there are more than 200 people about 10 meters tall, and they have several faces, so strange What about? "

Sanyouweimen looked at it and said with a sneer: "Not scared, but only some of the subordinate **** professions, it is estimated to be used to frighten people. I also have dozens of subordinate gods here, they are not equipped, without skills, it is estimated that Lu The same is true in Yang, do n't worry. "

Miyano Kentaro said with a laugh: "It is estimated that it is used for contact, standing high and looking far."

A dozen people on the side of the Sanyou Weimen burst into laughter.

Sanyou Weimen continued: "There is one other thing I didn't tell you, if Lu Yang recruited all the main players in various regions, the daily money consumed by Lu Yang is at least 1 billion US dollars. The League understands that the funds in their hands will not exceed 5 billion, which means that as long as we defend for 5 days, the Brotherhood of Blood will collapse itself. "

“Then we won, and defending for 5 days, there is no pressure for us.” Kentaro Miyano said excitedly.

“If Lu Yang collapses, we might still be able to counterattack the hinterland of the Brotherhood of Iron-Blood.”

.....

Everyone laughed again.

The other side.

Twenty-seven million people have been separated on the road from the Sky Fortress to the Qingyue Fortress, and 12 million of them marched slowly with Luyang.

Originally walked for an hour, and walked for more than two hours. It was almost 1 pm before finally reaching the first line of defense of the Qingyue Fortress.

Looking at the Sanyouweimen standing in front of the first line of defense, Lu Yang rode a flying dragon to the sky 50 meters in front of him and said, “President Sanyouweimen, we have met again.”

Sanyou Weimen raised his head and smiled at Landing Yang. His hands were still inserted in his sleeves. He said: “It seems that President Luyang still refuses to lose. Since that is the case, don’t blame me.”

Lu Yang smiled and said: “President Sanmen Weimen, I have always respected you, but this time, I can only say sorry, so, before the battle, I will give you a quasi message, even if I win It wo n’t occupy your area, as long as you pay for it. “

Sanyouweimen still has a smile on his face, and sighed: “It’s worthy of being the president of the Brotherhood of Blood, and the testimony before the failure is very touching. If it’s me, I agree with you. When I win you, you As long as I pay money, I do n’t want your land. “

Lu Yang lost his laugh. He knew that Sanyouweimen did n't even believe he could win. Finally, he glanced at the smile of Sanyouweimen. He flew back to his position and said to Ayala: "Order Eduardo and his men to clear Qing The 1,000-kilometer area near the Lunar Fortress launched the skills to cut off the world. "

"Observe the orders." Ayala nodded happily and sent a message to Eduardo: "Synchronize the release of skills to cut off all contact with the outside world from Qingyue fortress."

Eduardo and his 19 gods of time and space have already arrived at their scheduled location. He did not look at the friendly troops behind him, raised his staff, and issued a command: "The **** of time and space," Break the World ". "

The remaining 19 people received news at the same time, each raising their staff in the 50km area under their control.

"The God of Space and Time," Partition the World "!"

"The God of Space and Time," Partition the World "!"

.....

Almost at the same time, with the center of the Qingyue Fortress as the center, within 500 kilometers from the left and right, the players in the Sanyoumen Gate were swept across the body by a fast blue flash.

System prompt: You are in the skill of cutting off the world!

system hint:.....

.....

"Strange, what skill is this."

“I do not know?”

“No effect?”

Sanyou Weimen also hit the blue flash. He frowned at the system prompt and asked, “What does this mean?”

“I don’t know.” Ryosuke Sakura shook his head. As a vice president of intelligence, he had never heard of this skill.

Sanyou Weimen frowned, saying: “There is a problem here, absolutely there is a problem. Hurry and find out the meaning of this skill. Lu Yang will not release this skill for no reason.”

The voice just fell, and the entire battlefield was covered by “Super Electromagnetic Storm” again. Everyone on the Sanyoumen side did not dare to quit the game and could not chat remotely.

Lu Yang looked at the forefront position of the Yueyue Fortress that had been covered by the skill, and there was a sneer on his face. The two groups in front of him released the skill, which is the most famous guild war joint skill in the last life-Storm World.

The two skills are used together. Players in it cannot return to special maps such as the Celestial God City, nor can they communicate with other people. In this way, everyone competes with the number of personnel and on-site command skills.

However, Luyang has a subordinate **** with complete equipment and skills. The subordinate **** does not eat any control skills below the **** level. That is to say, when both sides cover the battlefield with “Super Electromagnetic Storm”, the Jagged Brotherhood On this side, there are occupations that can use skills. The number of people is still more than 200. More importantly, the defense and magic defense of these more than 200 people are unbreakable by the enemy.

In the first row of the Iron-Blood Brothers League, more than 50 people including White Lion, Zhuojiu, Zhou Tianming, Xia Yuwei, and Hansha were in a row.

Lu Yang jumped from the dragon and stood in the first row. He launched the Vulcan Body and the Demon God's Heart and became a 20-meter-high giant. He held the ancient **** warhammer and looked back at the player behind him, roaring. Dao: "Iron Brothers League, kill ~!"

"Kill!" White Lion and others roared loudly, and ran towards the enemy's front position along with Lu Yang.

The hostile players responsible for the first row of defense are ignorant.

"The chairman of the Iron-Blood Brotherhood is the first to participate in the attack?"

"How is this possible, how did Lu Yang rush over as chairman."

"Are he afraid of dying, burst out the heart of the artifact?"

"Quick report boss."

"Report not to go out."

.....

Noisy, Lu Yang stepped into the "Super Electromagnetic Storm" area and came to the first Japanese player with shield defense. His right-handed warhammer smashed on the opponent's shield.

"117000000" (crit)

The shield player fell to the ground in an instant, and died, the shield battle around him quickly wanted to come up to fill the position, Lu Yang pointed his head with his left hand.

“Di Shi Tian Huo”

The flame with a diameter of 100 meters was ejected from Lu Yang’s left hand in a straight line and scattered in a cone. The players holding shields outside the 5 trenches at the same time were sprayed by the flame.

“61500000”

“61500000”

.....

All players in the range were killed. Paladins who were hiding in the potholes and prepared to add blood at any time also suffered 50% of the damage, and were killed together with a second.

On the battlefield, not only was this killing so crazy, Mu Yu took her 80 thunder gods to the battlefield, on the left and right sides of Luyang.

“Thunderbolt”

“Thunderbolt”

.....

Thunder and lightning like Di Shi Tian Huo fell on the body of Sanyou Weimen. All the anti-wars that were hit were all killed in seconds.

Watching the Sanyoumen gate on the battlefield on the high platform in the back 10 minutes, I was shocked by this scene and shouted in horror: “What skills are used by the other party, who can tell me what skills these people are Why does my defense not work. “

No one can answer his words, everyone is in a confusion, because they can't understand it. Obviously such a strong defense line, once resisted the Iron-Blood Brothers Alliance for 6 days before losing the 169 tunnel defense line, this time only attack, More than 20 items were lost.

Not only that, because of the loss of the defense line, the rear catapults and lightning towers were all exposed to Lu Yang. The players of the Brotherhood of Blood Jade rushed into the defense line from the gap of more than 200 meters wide, and threw the stone. The catapult and the defense tower were all shattered.

Sanyouweimen's heart is bleeding, it's all money, he quickly shouted: "Order everyone, concentrate on attacking Luyang and their group of lower **** professions, as long as they are killed, we can still defend the line of defense. , The order passed on. "

"Woo ~ !!"

"Woo ~ !!"

.....

Nearly one hundred horns sounded at the same time. This is how the Sanyouweimen researched it and how to connect the rear with the front line when they could not be contacted on the battlefield.

The catapult on the front line, while stopping the other players attacking the Iron-Blood Brotherhood, all aimed at Lu Yang, their group of lower-ranking gods standing in the first row.

"Release."

"Kill them."

"Attack."

.....

A line of more than 2,000 catapults threw flaming boulders at the same time. The next second, Lu Yang and their hundreds of lower gods were surrounded by boulders.

The eyes of everyone in the Sanyou Weimen side showed a happy look, but the next second, when the fireworks dispersed, Lu Yang and they came out without incident.

Chapter 1739 - 3 Youweimen defeated

“How is this possible?” Sanyou Weimen almost glared out his eyes and said excitedly: “How come they are all right.”

Miyano Kentaro looked blankly at the fashions of Landing Yang and others, and said with some horror: “The only possibility is that Lu Yang and all his subordinate **** players wear all the equipment of the **** level, our attack, Can’t touch the god-level equipment. “

“This is impossible.” Sanyou Weimen absolutely did not believe it, and shouted: “We have played the next **** equipment, those monsters can’t fight at all, why Luyang did them.”

No one could answer. All the vice presidents were silent. Kano Miyano looked at the battlefield that had been torn open and said to Sanyou Weimen: “Your Excellency, we need to think about remedial measures.”

“Do you have any suggestions?” Sanyou Weimen asked.

Miyano Kentaro said: “I suggest ordering the two-winged players of the second-stage defense line to squeeze in the middle, let Lu Yang and more than 100 people come in, and specifically kill the main force of the behind-blood brothers.

Sanyouweimen arranged a total of three main lines of defense in front of the Qingyue Fortress. The first line is mainly for defense, the second is for attack, and the third is for the city. The two are combined with each other.

On the battlefield.

Lu Yang, Mu Yu and others have already broken through the first line of defense of Sanyouweimen and are rushing towards the second line of defense.

There are many catapults and lightning towers in the second line of defense, but these skills hit Lu Yang on them, and they still don't bleed, but this trick of Sanyouweimen has effect.

In spite of Lu Yang and their more than 100 people, the players of Sanyouweimen launched a desperate counterattack on the Iron-Blood Brotherhood.

"Kill ~" A Japanese player stabbed a Chinese player with a knife.

"Give me death." A Chinese player who saw a chance next to him pierced a Japanese player with a sword.

.....

The two sides launched a deadly battle within a vast range of 1,000 kilometers. At this time, the Iron-Blood Brotherhood did not have the advantage, and the Sanyouweimen did not have the advantage. Both sides were fighting for consumption.

Lu Yang saw this scene, a satisfied look appeared on his face, and said, "We won."

Mu Yu nodded, the skills of "Partitioned World" have been used, and players in the Sanyouweimen within a thousand kilometers have no way to use the back-to-city skills to return to the Heavenly City and replace the equipment.

In turn, the Brothers of Blood Alliance can be replaced at any time, the war continues in this way, even if it is a war of attrition, the Brothers of Blood Alliance wins the Japanese players.

Sanyouweimen didn't know the role of the world at this time. Seeing that the following legion was killed, he quickly shouted: "Order the logistics supply team to prepare the supply immediately. Players, after registering, return to Skyland God City for additional equipment. "

"Yes." Kentaro Miyano said, and he immediately issued an order.

In the safe area of the Qingyue fortress, players who were resurrected by Sanyouweimen heard the news, and everyone's face showed the expression as it was. This is why they are willing to work hard for Sanyouweimen. Weimen will add them, so that they can fight without worry.

"All back to Heaven Territory God City, with equipment we fight back again." Some players shouted.

"Yes." A large number of players are ready to return to the Heavenly God City, but when they launch their skills, they are ignorant.

"No, I can't use my skills to go back to Heavenly God City."

"I can't go back."

"Damn, what the **** is going on."

.....

The resurrection of the Sanyouweimen players in the city was disrupted. Several army commanders immediately calmed their emotions and ran to the frontline of the Sanyouweimen command.

"Your Excellency, we can't go back to the Heavenly God City. What happened?" The leader of the legion shouted at the Sanyouweimen on the high platform.

Sanyou Weimen is frowning at the front line. The two sides are fighting so hard and a little carelessly. He must immediately send his hands to the reinforcement loophole without giving a chance to the Brotherhood of Blood. At any moment, a large number of players die in battle.

Suddenly heard this sentence, Sanyou Weimen suddenly turned back to stare at the captain of his army, and asked sharply, "What are you talking about?"

"We can't go back to the city." The commander of the army said in panic.

Sanyou Weimen hurriedly tried, but found that he could not return to the city, and shouted in panic: "What is going on, why can't we return to the city."

Miyano Kentaro sighed and said, "Will this be the" Break the World "skill that Lu Yang just used?"

Sanyou Weimen couldn't care about anything else. He quickly contacted the official customer service, and the answer he got was exactly the same as Kentaro Miyano gave him.

"" Partitioned World "can't return to the Heavenly God City!" Sanyou Weimen looked at the battlefield in front of her, already panic legs trembling.

How cruel this battlefield is. He is very clear. Every second, hundreds or even thousands of people are killed in battle. The two sides dare to fight this way. The first condition is that the inventory and equipment are sufficient.

Sanyou Weimen's inventory of 170-level dark gold sets is very sufficient, but these equipments are in the warehouse of Tianyu Shencheng, and there is no inventory in the Qingyue Fortress.

"It's over, the Qingyue Fortress can't be kept." Sanyou Weimen stared in horror at Luyang who was approaching the high platform in the distance.

Lu Yang also saw the Sanyouweimen, and there was a sneer on his face, so he stood in the crowd and stared at the Sanyouweimen who was 50 meters away and shouted: "How about the gift I prepared for you? It was originally intended for Tom, But, I think you should receive it first. "

Sanyou Weimen didn't know what to say.

Lu Yang also ignored the Sanyou Weimen and continued to say loudly, "Give up resistance and take the initiative to concede defeat. I came this time. The logistics team brought enough 170-level dark gold sets for me to play for five days. I bet you are nothing. I did n't prepare equipment in the fortress. Now your people are dead and there is no place to supply them. My people are dead. The cemetery can change equipment and continue to fight. Why should you fight me? "

Sanyou Weimen looked at Lu Yang and the White Lion standing in the flames of war, and then looked at the players with blank expressions on his side. Instead of speaking, he turned and left the battlefield.

"Sanyouweimen ran away!"

"Crashed, Sanyouweimen ran away."

"Iron Blood Brotherhood won."

Sanyou Weimen, Zhou Tianming, and Hard Love Half-Life used a loudspeaker to suddenly publicize on the battlefield.

The players under Sanyou Weimen were fighting fiercely. Hearing this, they looked at the high platform one after another, but found that their president had indeed left.

"Asshole, he's gone, why do we even desperately."

"What exactly is going on."

"Stabilize, continue to attack, do not retreat."

.....

Sanyou Weimen's players were in a state of chaos, and the position was suddenly unstable. In contrast, players in the Jagged Brothers League showed a strong morale.

"Kill ~! Lay the clear moon fortress." The White Lion took the lead back to the team and stormed with the team.

Lu Yang jumped on the high platform and looked around for the Sanyouweimen. It was easy for him to find the Sanyouweimen who had escaped at the gate of the Qingyue Fortress.

In that area, "Super-Electronic Storm" did not include it, and it was seen that the Sanyouweimen just jumped on the city wall and immediately stood still in place, entering a special space.

In a special space.

Sanyou Weimen stood solemnly on the spot. Not long after, Steiger, Liu Jie, Radvedev, Roland and Stephen were all called by him.

"What do you mean to find us, mediate the war between me and Liu Jie's bastard?" Steiger saw that Liu Jie was there and immediately became angry.

Liu Jie sneered and said, "The dog of the bereavement."

"I will kill you sooner or later." Steiger was furious.

"Don't make a noise." Sanyou Weimen suddenly roared, hitting the fists on the table, staring at everyone on the scene, and said, "It's a big deal, I crashed."

"What?" Everyone who was not dealing with this heard this, and at the same time looked at Sanyouweimen silently, with an incredible expression on everyone's face.

“How is this possible? In the morning, you fought a victory, forcing the Jagged Brothers to retreat. Even if he attacked with all his strength, why can’t you hold on for 2 hours?” Radvedev frowned.

“Isolate the world and the lower **** equipment.” Sanyou Weimen said.

“What do you mean?” Stephen asked.

Sanyou Weimen said with great pain: “Lu Yang got the lower **** skill to cut off the world. In this skill, everyone can’t return to the Heavenly God City.”

“What?” Steiger and Liu Jie were dumbfounded.

“How come there is such a skill?” Liu Jie asked.

Sanyouweimen looked at Liu Jie and Steiger and said, “I suggest that the war between you two should stop immediately. If I didn’t analyze the error, this time I was carrying mine for the two of you. Lu Yang should use it. This skill comes directly to hit you, but there is Tom in the south, and me and Roland in the west. He chose to counter Gerds to attack Tom, and he actively took the lead to hit me. “

Neither Jie Liu nor Steiger were stupid, and the two of them understood it as soon as they thought about it.

Steiger asked: “What do you mean by lower **** equipment?”

Sanyou Weimen opened a video and cast a screen in front of all of them, saying, “Look for yourself, 10,000 trebuchets hit Lu Yang’s body without breaking him a drop of blood, he was already dressed With the artifact equipment, our damage is invalid to him. “

“This ?!” Radvedev said in surprise: “How could it be so strong, the equipment of the lower gods, we couldn’t even fight, how did he get it.”

Sanyou Weimen said: "I don't know, but he got more than one set. It is more than 200 sets. Now there are 80 thunder gods in the crowd who attacked me. Once a thunder wipes out, I will die here. Thousand people.

The ordinary players behind followed these lower gods, as if the infantry were behind the armored tanks during World War II, but our side is still the weapons and play of World War I, and it is completely the same as the attacks of the Brotherhood of Blood. "

This time the explanation of Sanyou Weimen is completely correct. Lu Yang 's play is just like the tank and infantry propulsion method. The lower **** attracts firepower, rushes to the designated position with the main player, and then the main player and the enemy decide the victory. .

Radvedev and others watched the video disappear and everyone's face was extremely dignified. Radvedev asked, "What do you think now?"

Sanyou Weimen said: "My suggestion is that all of you will intervene in this war. If Lu Yang does not retreat, you will lead a team to rush into his area. Although Lu Yang has a lower god, there are only so many 200 people. , Is not enough to have a decisive impact on the war, please. "

Radvedev, Stephen and others glanced at each other, Stephen said: "This is okay, but Lu Yang did not agree to withdraw so easily, even if we save you, your compensation to Lu Yang is not a small number. And, I suspect that when you admit defeat, it is the beginning of Tom 's demise. "

Sanyou Weimen nodded and said, "I have the same idea as you. When I decided to quit the battle, it was Tom who died. We had no reason and no way to stop Lu Yang from attacking him and Gertz. I'm afraid everyone wants Facing a reality, in the near future, the Brotherhood of Blood will occupy the entire eastern region and part of the central region of the New World, and a quarter of the map in the game will belong to him. "

Everyone's expression is more solemn.

Stephen said: "We can't fight anymore, and quickly study how the next god's equipment will be launched. Otherwise, by the end of this year, Luyang will be able to equalize all our guilds and occupy the entire new continent."

Liu Jie and Steiger glanced at each other, and both of them were gone, and Liu Jie said: "A truce, return to the previous state."

Steiger thought for a moment said: "It is not as good as our joint action, how about sneak attack on the Tianjian fortress, even if Lu Yang can come back, we can make Lu Yang uncomfortable for a while."

Sanyou Weimen looked at Steiger gratefully, looked at Liu Jie again, and said, "Please help me this time."

Liu Jie owes a great favor to Sanyou Weimen. After thinking about it, he said: "After this time, we don't owe each other."

Sanyou Weimen bowed and thanked again.

Steiger and Liu Jie each exited the special space. The Cavaliers and Liu Jie's players who were fighting in the northern region suddenly stopped the exchange of fire. The players on both sides were quickly recalled to their fortresses.

Zhuojiu was changing his account. He was in the team of Liu Jie. He looked at the head of the army curiously and asked, "What happened?"

The head of the army frowned and said, "It's okay, don't have so many problems."

He was about to be annoyed by muddy wine. When something went wrong, he ran over and asked him, if it wasn't for brave wine to fight bravely, the head of the regiment expelled muddy wine.

The muddy wine was also boring, and the head of the regiment did not say it. He ran to the head of the regiment and asked him to know the ins and outs of the matter. Moreover, he quickly concluded that Liu Jie and Steiger might have to attack the sky Sword fortress.

Although this conclusion is ridiculous, he immediately quit the trumpet, logged into his muddy wine account, and said to the Vulcan M16 and Mao Qiu around him: "Calling everyone to prepare for battle, Liu Jie and Steiger Maybe you have to gather all your strength to fight. "

“I think they will hurry up and beg them.” The Vulcan M16 is almost mad, and regardless of the truth of the turbid wine, he called all the army commanders to summon the players.

Chapter 1740 - Lu Yang turns to Tom

On the other side.

On the main battlefield.

Lu Yang has already boarded the fortress of the Qingyue Fortress. The players of the Sanyouweimen all withdrew from the first-tier defense zone of the Qingyue Fortress and ran to the fortresses of the Shenshan and Firefly fronts for defense. equipment.

What makes Sanyouweimen feel painful is that when he has more than 10 million players, when he retreated from the four fortress lines of Shenying, Qingyue, Yangyan and Dongxue, almost everyone died and lost At least 15 million pieces of equipment will be given to the Brotherhood of Blood.

Outside the defense of the Shenshan Fortress, the Iron-Blood Brotherhood has chased over and is attacking the frontier position, but the defensive position of the Shenshan Fortress line is not as strong as the defensive position of the first line of the Qingyue Fortress. Temporary design.

“Asshole.” Sanyou Weimen shot the wall and scolded: “Lu Yang is deliberately destroying my players to **** our 170-level dark gold suit.”

Miyano Kentaro looked at Lu Yang and other inferior gods, who were running closer and closer, and said, “Have they not come yet?”

Sanyou Weimen shook his head and said, “It should be fast. I didn’t let my men release” Super Electromagnetic Storm. “Lu Yang was about to receive the news.”

In another special space.

Radvedev is entertaining Lu Yang, pouring a virtual vodka to Lu Yang, and said with a smile: “My friend, you are surprised to me this time, can you tell me how you did so much Is it the equipment and skill book of the next god? “

Lu Yang smiled at Radvedev and said, “Why, it is the Sanyouweimen who sent you to sum up.”

Radvedev shook his head and said: “No, it is forcing you to stop the attack. If you dare to swallow the territory of the Sanyouweimen, all of us will stop attacking to attack you, although you have a lower god, but we also have, But it’s just some artifact equipment. I believe that in less than half a month, we can also gather a small amount. For an extra month, the number of subordinate **** players and equipment added by all of us will far exceed you. . “

This is a fact. The guilds of Radvedev alone can’t do this, but once Lu Yang’s persecution is over, let these guilds unite together, they will definitely be able to do it.

The New World is too big. Even if Lu Yang wants to stop them from playing the magical equipment, he can run from the Sky Fortress to Radvidev’s site for ten days.

Lu Yang shrugged his shoulders and said, “You are right, but I can’t just quit, I need to compensate.”

“What do you want?” Radvedev didn’t expect Lu Yang to talk so well and asked quickly.

Lu Yang said: “For the sake of the two of us being friends, I don’t have many demands. Sanyou Weimen took out 2 billion US dollars, and I let him live a life.”

“2 billion?” Radvedev was shocked and said excitedly: “You are asking for the net income of the Sanyouweimen area for one and a half years. He cannot promise you.”

Lu Yang sneered and said, “Then I can only kill him. I have played for 6 days. The total cost has exceeded 2 billion US dollars. My trip is not only in vain, but also money. , This makes no sense.

If you do n’t agree, I would rather rob the entire Sanyouweimen area. I will not pay the players, let them robbery at will, and wait for you to come, then I will take the people back. “

“Don’t, you are ruining Sanyouweimen, I will talk to him.” Radvedev quickly quit the special space to find Sanyouweimen.

Lu Yang sat relaxed and sat down and tasted the taste of vodka. I have to say that even in the game, this wine is still very good.

The other side.

Radvedev entered the special space of Sanyouweimen, and said, “Lu Yang will ask for 2 billion US dollars and give him away.”

“Asshole.” Sanyou Weimen exasperated, said: “Where did I get so much money, he is going to ruin my guild, I absolutely will not agree.”

Radvedev shook his head, grabbed the collar of Sanyou Weimen, and said: “This is the only condition I can talk about. Lu Yang said that after playing for 6 days, he has already spent 2 billion US dollars. Can not give him 2 billion to let him leave, he would rather stop paying his men, let this more than 10 million Chinese players and more than 10 million affiliated guild players from various countries looting the area you occupied again, think about which one is right for you It hurts more. “

The former just hurts Sanyoumen, but as long as he is willing to reduce his shares to raise funds, the guild will soon return to the right track. In the latter case, the first looting will leave fewer players in the Sanyoumen area. After a tenth, if a second plunder occurs, the players in this area will be at least four tenths away.

The number of players is the basis of a region. If there are no people, the guild cannot be operated at all, because the money is earned from these players. Once the number of players exceeds half, the Sanyouweimen must fight the players The number of people is reduced by half, otherwise, the salary will not be paid.

“Let me think about it.” Sanyou Weimen sat in a chair in depression, once he experienced such a big defeat.

Last time, Orma pitted him, but this time, Lu Yang really crushed him with strength, and he felt such despair for the first time.

The light flashed.

Miyano Kentaro appeared in a special space. After bowing to the presidents, he quickly walked to the front of Sanyouweimen and said, "Your Excellency, you are leaving the city wall. Lu Yang rushed over with someone."

"Damn." Sanyou Weimen said excitedly: "Lu Yang is forcing me to surrender intentionally. Why did he spend 2 billion yuan? In the early battle, he invested in batches. Those who are not on standby, Take the guild points, converted into money, if 20 million people are added together, it is not enough to be 100 million US dollars, even if they are combatants, the total is less than 500 million yuan. , Pit me over one billion dollars at a time. "

Stephen said: "You must make a decision immediately, Lu Yang will not give Ladvi Jeff too much face, wait too long, be careful that Lu Yang thinks you do not agree, if you continue to attack the fortress of Shenshan, your loss will be even more Big."

Radvedev said: "I think you should give money, after all, there is still a chance to win back, losing money is always more important than losing the trust of players in the region."

Sanyouweimen was extremely depressed, but he nodded and said, "Well, I promised that, let Lu Yang come and sign a contract with me now. Within six months, the two sides will not allow war. I will give him 2 billion. US dollars. "

Radvedev shrugged his shoulders, turned around and entered Lu Yang 's special space, and after passing the matter, Lu Yang naturally agreed and smiled and said, "Then I would like to thank his 2 billion, we are now Just sign the contract, I should go find Tom's trouble. "

"Don't worry." Radvedev smiled and stopped Lu Yang, said: "Man, I've helped you a lot, and now I have given you time to occupy the territory of Tom and Gertz, should you express Thank you. "

“What thanks?” Lu Yang asked with a smile, he found that Radvedev has changed a lot recently, and would be kidding.

Radvedev said: “I want to get the equipment of the next god.”

Lu Yang said: “I’m stupid, I’ll tell you here, you will share it with Sanyou Weimen, and you will come and beat me together half a year later, am I not looking for death?”

Radvedev shook his head and said: “I’m not afraid to tell you that I defeated the Western Freedom League. The next step is to attack Stephen. I need the equipment of the next god. Will you still tell me?”

Lu Yang was a little surprised. I remember that in the last life, Radvedev killed Stephen. I did n’t think that Radvedev still did not change in this life, but still wanted to kill this former partner.

In memory, Radvedev started to change during this period. His change was very special, as if stimulated by something, not only destroyed Gertz, but also loyal to the head of the guild. Nearly 10,000 players were expelled from the guild, and a group of new recruits were hired. It is said that at that time, it was the transfer method and artifact set of the next god.

After having these two items, the commander’s role of command has dropped a lot, and they are more of the task of being the vanguard of the charge.

Lu Yang shook his head. These things had nothing to do with him. Since Radvidev wanted to die, he would complete him. He said: “Pharmacist, find a pharmacist who knows the ability to mutate, and get a 50% increase in resistance. Elixir, mutant pharmacist can double the attribute, it will become 100% resistant to some kind of magic, you know, some monsters that devastate the next **** and equipment are single spells, once the magic is free, the spell is invalid, so, You can beat it. “

Radvedev’s eyes lit up and said: “It turns out that this is the case. My guild has no mutant pharmacist, but I can buy it. Thank you.”

Lu Yang said with a smile: “Now you can go.”

“Of course.” Radvedev took Landing Yang into the special space of Sanyouweimen. The two sides immediately signed a truce agreement, and Sanyouweimen handed Luyang 2 billion dollars.

At this point, there was only one Roland who was harmless to humans and animals on the west defense of the Jagged Brothers League. On the spot, Roland said that he would not intervene in the war and let Lu Yang fight Tom and Gertz at will.

“Happy cooperation, we will see you next time.” Lu Yang smiled and waved with them, exiting the special space.

Soon afterwards, the Iron-Blood Brotherhood and the affiliated guilds of various countries gradually stopped the attack. More than 20 million players were divided into five parts, which were transferred to the Relics Fortress, Cave Fortress, Tenjin Fortress, Bit Fortress and Demon Fortress.

Lu Yang stood outside the walls of the Tenjin Fortress, watching the players who had completed the whole team, and said aloud: “The whole army is advancing, aiming at Tom, mission, and destroying the country!”

Tom, who is attacking Gertz, withdrew all the main forces from the frontline area of the orange fortress for the first time, leaving only 3 million people to defend, and the remaining more than 12 million people were all armed in the canyon fortress to the cloud fortress. Three areas.

As for the remaining fortresses and the other fortresses below, Tom has been unable to take care of them. The three areas with the strongest defensive capabilities are these three fortresses.

As Lu Yang marched on this side, on the other side, Liu Jie and Steiger suddenly came to the walls of the Sky Sword Fortress with millions of elite main forces.

What shocked both Liu Jie and Steiger was that the turbid wine dumplings had already brought 500,000 people ready to go on the city wall, and the turbid wine standing at the forefront directly turned into the form of Wushen’s body, even taking him by his side. Twenty people have all become martial arts bodies.

Zhuojiu smiled at both Steig and Liu Jie, and said, “The two presidents, when they visit suddenly, they are far away from us, why not? Let me talk to you about it?”

“The next **** legion, ready to attack!” Vulcan M16 roared, the flame in his hand could not help but spray out.

“Damn, how did Lu Yang find the muddy wine, he didn’t have any flaws, and the whole army retreated.” Liu Jie dare to fight the next god, knowing that he won’t be able to occupy the fortress, and he doesn’t want to waste time.

Steiger didn’t expect Liu Jie to be so counseling. Seeing him run away, he ran away with him.

Lu Yang was leading his team towards the Canyon Fortress. When he received the news of the muddy wine, he sneered and said, “There is muddy wine in the Tianjian Fortress. They can’t fight in this life. They will wait for me to be relieved. “

Is watching Tom’s simultaneous live broadcast Originally, he thought Liu Jie and Steiger could slow down Lu Yang’s offensive speed, but he didn’t expect the two to dare to fight and ran away.

“Damn, we’re done now.” Tom said angrily.

There is Lu Yang on the right and Gertz on the left. Tom is like the piece of meat in the middle of a hamburger, and he ca n’t escape his fate.

“Let us contact Gertz, he should understand that we have been wiped out, which is not good for him.” The first vice president said.

Tom frowned and asked, “We just killed and killed Jertz, can he agree?”

“Try it.”

Tom nodded, picked up the phone and called Gertz.

On the other side, Gertz was cheering for victory in the black fortress, but at this time, Gertz's phone came and he pressed the call button and asked, "Why, do you want to reconcile?"

Tom was so angry that he broke his mouth and scolded: "Idiot, Lu Yang came over, I was destroyed. The next one is you, why do you still think I want you to sum up."

Gertz sneered and said, "How can Lu Yang have the ability to hit me here, is he unlimited in money? You slowly carry it yourself, you have resisted for 7 days, I will have one more month to study With the equipment of the lower gods, you can resist for 10 days, and I will be able to get an extra month and a half. I 'm not stupid, you should carry it slowly. "

Anyone can figure out how much money Lu Yang has in his hands. No matter what, Lu Yang cannot run out of all the money at once. He must reserve a part to prepare for unexpected needs and emergencies, so, Lu Yang brought more than 20 million people with him. With nearly 6 billion US dollars in his hand, he could fight for up to 7 days.
