

Chapter 1761 - Experience killing the enemy

Lu Yang stood up instantly and looked down at the sound. At 80 meters away, a player was slowly approaching. This man is a blonde European player wearing a fire spirit lower level suit and using a vial of magic to restore potions.

“Good strategy.” Lu Yang said with a sneer. At this time, he can no longer pick things up. If he picks up the things in his backpack, at this moment, he may be given seconds by him.

Since this person can come, Lu Yang first thinks that his reaction speed is less than 0.1 seconds. If it is, the time he bends over, the opposite side has already reached him.

It is estimated that this man is the captain mentioned in the mouth of Golden Lion. The reason why he appeared after he played the monster was drinking the little bottle. The only explanation was that he had just arrived.

Because the distance was too far, when reaching 110 meters away, Lu Yang had already killed the elite strangers. Fearing that Lu Yang picked up the equipment, he deliberately made a sound, and then used the ember skill to jump to the 80 meters position.

He does not continue to use embers. One is to fear that he finds out, and the other is to worry that if he does not kill himself, he will not have the magic to fight himself.

“Overwhelming, it looks like you already know who I am?” The captain smiled and approached Landing Yang.

Lu Yang's magic is not much, there are 60 points left, and he is weaker than the opponent by three points, so he can only stand still and wait for the opponent to reveal the flaw, but the captain is far

away, and the other one, although it seems to be Simple movement, but there is no slight flaw in the whole body.

“No wonder dare to come to trouble me, is also a master.” Lu Yang smiled and said to each other.

“I’m really honored to be praised by your President Lu Yang.” The captain stood 30 meters in front of Lu Yang. At this distance, the reaction distance within 0.1 seconds of the limit of both sides is also a real competition reaction. The distance of speed, a little careless 0.1 seconds will be defeated.

Lu Yang looked at each other curiously and asked, “I’m also very strange. Why do you have to kill me? Besides honor, can you give me another reason? I don’t think you killed me just for the sake of face. “

The captain’s slick blond hair showed a wicked smile on the corner of his mouth, saying: “In fact, it’s okay to tell you some secrets. We are the most special organization in this game. You will see more news about us later, but I Guarantee, it’s not news that makes you happy. “

Lu Yang asked: “But why do you do this? I don’t understand.”

Captain showed a mysterious smile and said, “We like it.”

Lu Yang is speechless, this is a ghost answer, this group of people must have other purposes, the world in this last group of people disrupted the chaos, he will soon unify the new continent, and force Liu Jie to a dead end, he does not want to What happened.

“Since you don’t want to say that, let’s compare our real strength. Let’s see if your reaction speed is fast or my reaction speed is fast.” Lu Yang moved his body.

The captain smiled and said, “Your mana is only 60 points, but I have 160 points. Why should you fight me.”

Lu Yang sneered. He didn’t use his skills. He just moved around the body and leaned towards the captain.

The captain suddenly opened his eyes and said, "You are a method, but are you afraid that your reaction will be slower than mine?"

Lu Yang does not speak, but just keeps approaching. He believes that his reaction speed must be faster than the other party, because, five years, five years of training, get up at 5 am day after day, and use his potential to stimulate every day. Way to stimulate the body to the limit.

There are also large-scale national wars, each of which lasts between a few days and a month or two. The long-term mental concentration and oppression have created Lu Yangyuan 's conscious reaction intensity and conscious reaction speed. .

Lu Yang does not believe that some people in this world react faster than his consciousness. This self-confidence comes from self-discipline and strength.

30 meters

25 meters

20 meters

.....

The captain watched that landing Yang was getting closer and closer. The cold sweat on his forehead was flowing down. The distance of 30 meters was already the limit reaction distance. Originally he wanted to oppress Lu Yang, but did not expect to be oppressed by Lu Yang.

As Lu Yang got closer, he was betting that Lu Yang could not bear it before him, but it was about 10 meters away. Lu Yang did not mean to retreat, he did not dare.

"Damn, let me die, Shenyan explodes." The captain was furious and a pure golden flame appeared in his hand, aiming at Lu Yang and launching it.

The flame speed is extremely fast, as the same streamer reaches Lu Yang in an instant. This distance has exceeded Lu Yang's limit reaction speed. What he can do is judge based on the speed of the captain's arm shaking.

The body of the **** unlocks the limit speed of the player's body, that is to say, the shaking speed of the player's arm can be less than 0.1 seconds, but that requires the increase of agility points.

Captain Lu Yang gambles because he has too little intelligence and is worried about playing monsters. He currently does not increase the agility points. In this way, under normal circumstances, his arm swaying speed is about 0.12 seconds, which he can react to.

Sure enough, Lu Yang gambled right. At the moment when the captain's arm lifted to release his skills, Lu Yang's body quickly turned around and backed away, avoiding the flame burst released by the captain.

At this time, neither of them dared to release Di Shi Tianhuo, and whoever releases it will have 1 second of stiffness, and stiffness will die!

The captain couldn't hit it, and his eyes widened in horror. He didn't dare to stay in place, launched his ember skills, and turned into a streamer to disappear in front of Lu Yang.

If it is on the ground, Lu Yang must release the embers to change the position, so as not to be jumped behind by the captain, but this is in the lava sea. The instantaneous movement of the fire system is not to break through the space, but to shuttle at a rapid speed, so the captain When moving, the feeling from the water surface made Lu Yang instantly know the position of the captain, above his head.

"Shen Yan Tian burst"

The captain was frightened by the trick Lu Yang just evaded, and in anger, he fired a flame at the top of Lu Yang's head, but this time, Lu Yang did n't even need to look up, his body was drawn with the left foot as the fulcrum. A semicircle.

The pure gold fireball posted on the back of the sun hitting the armor hit the bottom of the sea, splashing a piece of sand, the captain saw Lu Yang escaped again, said in horror: "This is impossible, this is absolutely impossible."

Lu Yang looked at the captain and said, "If I am right, your mana is only 40 points, 20 points less than me. Why should you fight me?"

"You ..." The captain panicked. Since becoming the next god, he is one of the strongest players in the team. No one has been able to keep up with his reaction speed. He only needs to release two Shenyan Skybursts to strike Kill each other.

But Lu Yang was different. He even avoided it. At the same time, because he released the embers and moved too far, his 160 mana is really like Lu Yang said, only 40 points left.

"It's impossible, you absolutely can't hide. How did you do it?" The captain asked in horror. He didn't believe that Lu Yang's reaction rate had been as low as 0.05 seconds, which was not reached by their boss.

Lu Yang looked at the captain with a smile and said, "I did it. Let's meet next time. If you don't understand the next time, then we will exchange information. You tell me what you are. I tell you. , How did I do it. "

"Ember"

Lu Yang appeared on the back of the captain instantly. At this time, the captain was no longer the captain who had no flaws in his body. He was already in a mess.

In this kind of battle where the reaction speed is less than 0.1 second, the chaos will be the same as death.

"Ember"

The captain did not dare to stay in place and disappeared in an instant, but Lu Yang, who was where he was, was clearly aware of the lava sea, and he pointed his left hand under his feet.

“Shen Yan Tian burst”

A pure golden fireball instantly flew towards the bottom, and with a loud bang, the middle of it just appeared on the head of the captain 30 meters below Luyang.

“-80”

Captain has half of the blood, he can't stand Lu Yang's next attack, scared him to run again, but unfortunately, he has not discovered that Lu Yang sensed him through the change of sea water.

“Shen Yan Tian burst”

A pure golden fireball flew to Lu Yang's side, and there was a bang, this time, the captain did not resist, and died instantly, blasting out a lot of things, and a few fire equipment also burst. Two pieces came out ~ which are Legs of Fireblade and Belt of Firesling.

The rest exploded were items such as deity fragments and divine light. Lu Yang picked up the equipment and put it on his body. The intelligence increased by 5 points, the physical strength increased by 5 points, and the defense and magic resistance increased by 15 points and 12 points, respectively.

Lu Yang looked at the captain's disappeared body with some emotion. It seemed that the captain had not been in the lava sea for a long time. The number of battles with people in the sea is estimated to be the first time. If the time is long, he will also discover the secrets in the lava sea.

This reminded him not only of the previous life. At that time, among all the maps of level 190, the one that could most improve the player's reaction speed and combat ability was this map of the Lava Sea.

Other maps such as the Temple of Wind, the Undersea Vortex, and the Ancient God Prison are helpful to improve the player's way of fighting monsters, but they are not like the lava sea. If you want to divide the victory and defeat here, you have to be tough.

It's been known for a long time that if you avoid each other's spells, you will find that it is better to fight hard with your weapon in front of you to see who can hit the other party's unprotected face or release the spell in close proximity. This is the same as the Western Cowboy's. Just like a duel, it depends on who shoots fast.

When Lu Yang came to the Lava Sea in the past, the major guilds had already come. At that time, the Lava Sea was already a map of chaos. Lu Yang not only was not killed from the Lava Sea, but also took his brothers to stand here. With his feet, he controlled an area. How could his captain compare his experience and strength.

Well now, the captain has to fight against himself if he does n't believe in evil, and if he is dead, he has lost two pieces of equipment, which are exactly what Lu Yang did n't have, and there are a pair of boots below. Lusi Fire Spirit 8 piece set, he has gathered 5 pieces.

Chapter 1762 - Saint Organization

Lu Yang returned to the monster that he had just killed and replaced the Fire Spirit Boots.

Les Fire Spirit Boots (Artifact · Level 2)

Grade: Lower God

Physical Defense of God: 1-5

God's Magic Defense: 2-4

Intellect of God: +3

Strength of God: +2

Movement speed: +50

This is a new attribute of the artifact set. Previously the player's movement speed was fixed, but from the artifact, the speed can be changed.

Lu Yang looked at several other items, including a skill book.

“Focus”

Type: Fire God

Distance: 50 yards

Consumption: God's Mana 10 points / second

Description: The scorched earth field appears within 50 yards of himself, regardless of whether it is in the sky or underground, any entry within 50 yards will be injured.

Lu Yang smiled, but he didn't expect this skill book to burst out so quickly. This is the best skill book in the last generation known as the pseudo field or small field. It is also one of the most important skill books.

With this, it is not so difficult for Lu Yang to kill male and female praying mantises. He learned the skill book, and there is an icon in the skill column that is full of flames.

Other items on the ground include 4 medium-sized god's spell recovery potions and 2 medium-sized god's qi and blood recovery potions, one increased by 80 points and one increased by 60 points.

After Lu Yang picked it up, he rose 150 meters in height, and began to look for the next boss lair. At the same time, he also looked around, and whether there were any golden lions and captains.

On the bottom of the open lava sea, it is a terrible thing to look around like this. The top of the head is red, you can see the sea at a glance, the left and right sides are also red, and you can see 200 meters away at a glance. dark.

In this extremely open environment, not only must you beware of the monsters below, but also beware of the monsters that occasionally swim up and around, as well as the enemies that may appear at any time. If you do n't have a tough nerve, it 's very It is about to collapse.

Fortunately, Lu Yang has such a nerve, and he is familiar with the monsters here, otherwise, he has to beware of strange monsters coming out to attack him, which is even more speechless.

While Lu Yang was searching around, all of a sudden, something like a stone in the distance was floating in the sea of lava, and he slowly approached him.

"This luck, no one." Lu Yang said excitedly.

Millions of kilometers of wide lava sea, there are many such floating stones, but this piece is only a few hundred, because they are alive.

The shape of this thing is not much different from ordinary stones, but for people like Lu Yang who specialize in finding such stones in their early years, they can be recognized at a glance.

He is called the elite warrior of Octo. It is a creature that does not belong to the group of Les Fire Spirits, but a race that has hatred against Les Fire Spirits. This involves the branch plot of the New World.

The Octo family originally lived near the lava sea with the Les Fires. The two families had a war because of their residence. The winner was the Les Fires family. The Oktos were almost annihilated. Only a few were strong. Of the Okto people ran out.

One of the elite Okto warriors is one of the running people, they have a powerful ability to change, they can turn themselves into an ugly rock, floating in the lava sea.

Once someone approached, they raided each other quickly, and then disappeared quickly. They could n't find it. The previous life did n't know how many people were attacked by Octo. For a long time, players who came to the lava sea must see the floating rocks. Let's attack first and see if there is Octo hiding in it.

Lu Yang can recognize it because the rock layers of Octo's change are very obvious, just like this floating rock, the outer shell is like an old rock, and it can be seen at a glance that they have seen more people .

As Lu Yang was about to attack, suddenly, two women appeared 80 meters from the side, and they were still approaching quickly.

Lu Yang immediately frowned, looking at the two women, and these two women were also very curious about Lu Yang. They even flew over and stopped at a position 35 meters away from Lu Yang. It was just 20 meters in front of Otto.

The two women were not very old, one was twenty-five or sixteen, and the other was twenty-two. The older woman frowned and asked, "Who are you?"

Looking at the two, they felt that they were black-haired, but they were still Europeans. They frowned and asked, "Who are you? Organized by the temple?"

"Shrine." The two women glanced at each other and said to Lu Yang arrogantly. "The shrine is something. We are organized by saints. We are chasing down a person called the captain. Have you seen it?" "

Lu Yang smiled, he found his luck today is really good, another special organization saints in his last life also came out, this organization is more mysterious than the temple.

If the shrine is still showing its face in front of the public, the saints are almost faceless, and occasionally they meet in the wild, and no one knows what they are going to do. Those who are full of maps only collect conversations about the characters in the game. Grab the site.

This group of people has principles and will not conflict with the player. Lu Yang's vigilance has also been relaxed, saying: "The captain let me kill."

"It's you alone?" The young woman stared at Lu Yang with big eyes and said in disbelief: "The two of us are sure to kill him. Why did you beat him?"

Lu Yang smiled and said, "Whether you believe it or not, I did kill him, and I advise you two to leave here as soon as possible, there is a blame behind you."

"Nonsense, there is only one stone behind us." Said the younger girl.

Older women also saw behind them when they just came, and there was indeed only a small stone that would pass under their feet and would not pose a threat to them.

"Can you tell me more details, I want to know the specific situation." The older woman asked.

"Let's talk later, flash off, and flash off again, you both have to die." Lu Yang sank and pointed his hands at the stone only 5 meters away from the two women.

"Shen Yan Tian burst"

Like machine guns, Lu Yang's left and right hands fired pure golden fireballs with an attack speed of 0.1 seconds.

The two women were startled. They thought Lu Yang wanted to kill them. They instantly disappeared into flames and jumped to the position 30 meters above. Just when the two women wanted to fight back, they suddenly found that the fireball was not a rush. They went, but they really went towards the stone.

"Bang"

“Bang”

.....

In just an instant, 10 fireballs hit the rock. Ordinary stones that should not have shed blood instantly gave a roar, and a black light came out of the body, turning into a type of human creature with a beard and hands. There was also a brass hammer.

Chapter 1763 - Fire Spirit Jar

Lu Yang carefully watched Octo's footsteps and released the Shenyan Skyburst while drinking the medicine. Pure golden fireballs hit Octo one by one.

“How is this possible? With such a high speed of movement, Lu Yang can still hit monsters?” The young girl has recognized Lu Yang, but she can't accept Lu Yang's strength to this extent.

The older woman sighed and said: “The people of our family were the first to enter this game. I thought that the strongest of this game would only be born from us. Unexpectedly, some people came up and reached this height. “

“The speed of reaction needs to be tempered for many years. How did he do it, born?” The young girl asked.

“If it is, it will be terrible.” The older woman sighed again, and said, “Report it to them, let them decide what to do about it.”

The two women retreated like this, and did not try to attack Lu Yang, nor did they ever think of luring Lu Yang, which made Lu Yang somewhat puzzled, but he prepared this lava pool to pit those who wanted to kill him.

“Sure enough, the saints are more mysterious than the previous life.” Lu Yang shook his head, and he was more curious about these people in his heart.

“Roar ~!”

There was a roar in the distance, and the elite Okto warrior was anxiously hit by Lu Yang’s continuous hits. The speed of walking back and forth was faster, and Lu Yang had to concentrate all his mental attacks.

Two minutes later, the elite Okto warrior can no longer carry the attack, and his body burst to the ground with a bang, and 8 items were also exploded.

Lu Yang came closer and showed a surprised expression on his face. He couldn’t help but clenched his fist hard and said, “I know you have a chance to explode this.”

Fire Spirit Jar (Artifact · Level 2)

Grade: Lower God

Intellect of God: +3

Strength of God: +2

God’s Magic Recovery +0.5

Stunts:

Storage Spirit: For each boss killed, you can get 1 Fire Spirit, but Fire Spirit can be used. It recovers 200 mana in 4 seconds and is applied to the target. Within 5 seconds, it causes 100 Holy damage and Fire Spirit obtains unlimited.

Fire Spirit Jar-If there are many items in the current level, which one can be regarded as a real artifact is the Fire Spirit Jar in front of you.

The normal explosion rate of this thing should be about one in 10,000 or even one in 50,000. Lu Yang can explode, presumably because he is a pioneer.

Fire spirit jar seems useless, just a magic recovery, but this thing is actually too useful.

One of the most classic fighting methods of the last life is that a player killed a median **** with the fire spirit of the fire spirit pot. In the PK, the fire spirit pot is also terrible. The current player's blood volume is less than 100 points. It can be said that this is a second person's item.

The fire spirit pot does not need to be placed in the equipment bar, it does not occupy the jewelry grid, and can be used normally in the backpack. Lu Yang put the fire spirit pot into the backpack. He looked at the fire praying mantis below and began to go from room to room. Found it.

On the other side, the captain was also resurrected next to them. All the players in the temple saw the captain died and all showed incredible expressions.

Golden Lion said excitedly: "Boss, you, how are you ..."

The captain looked at the 60 men around him, he could no longer face their eyes, and he was angrily said, "Call me Tom, I want to make Lu Yang uneasy."

The woman frowned and asked worriedly: "Boss, it is illegal for you to do this, let the above know and will not let you go."

“Huh, above? They are all overwhelmed now. How can you take care of us, take all the inventory, send it to Tom, Lu Yang dares to offend me, and I want him to pay it back a hundred times.” The captain said furiously.

Golden Lion said: “I will go now.”

In the warehouses of the captain and the golden lion, the debris of the personality, the light of the gods, and the ancient **** suit can create nearly 100 fully equipped lower gods.

Soon, Golden Lion contacted Tom, but after some discussion, Golden Lion gritted his teeth and scolded: “Stupid, unsustainable sludge, waste.”

The captain was next to him and asked, “What’s going on?”

Golden Lion hung up the phone angrily and said: “Tom said that no one under him has been able to reach level 180, and all levels are below level 175, which has been scrapped by Lu Yang.”

The captain punched the stone and gritted his teeth, saying, “Go to Gerz, we will work with him.”

Golden Lion nodded and the group went to discuss it. The woman looked at this scene. She thought about it and decided to report it to the top. As for how to decide it, it was not her business. If she did not report it, she would be punished in the future. Willing to pay for the captain.

The other side.

Tom was looking at the ceiling desperately at this moment. The 100 lower gods were sent for free, but he could only see and could not take it. He looked at his deputy Pierce and asked, “Are we really finished?”

Pierce said: You are indeed finished, I have surrendered to the Brotherhood of Blood, not to mention other people, and on the surface concerned said: “Boss, these things are up to you to decide, you have to fight, I will fight with you to the end. “

Tom's heart eased a little bit, at least not all of his men are like Hermon, and he treats him sincerely, saying: "You go down first, let me think about it."

Pierce nodded, walked out of the room, found a secluded place, he immediately called to report the content of the phone call Tom received to Tu Feng.

Tu Feng turned his head and reported the news to Lu Yang, saying: "Boss, suddenly came out personally to give Tom 100 sets of artifacts and transfer materials. Who can this be?"

Lu Yang smiled and said, "I know who they are. They should be the people of the temple. You don't have to spread the word first. There are currently two organizations called the temple and the saints. I killed it. It is estimated that they were looking for Tom because they were not willing to fail.

As for the saints, I mainly met peace, but I met them, but they left after seeing me, and the contact information was not left. There are several strange organizations such as Dark Samurai and Ankara. I know where they came from, but all of them are subordinate gods. I do n't know how many people there are, but at present, they are under some kind of restraint and they do n't easily participate in the war in the New World. You don't have to worry about getting more subordinate **** equipment. "

Tu Feng said: "It's really a wave after another. I thought we had taken the lead. I didn't expect there is a stronger presence than us."

Lu Yang said with a smile: "Don't care, it's all temporary, we will soon surpass them."

He has already killed 10 fire mantises and female mantises. There are 10 fire spirits in the fire spirit pot. Soon, he will be able to collect more fire spirits and go to the fire tower to get the baby.

Lu Yang looked at the time, it was already late at night, he returned to Heaven Territory God City to rest, and waited until the next morning, after exercising, he returned to the game.

Returning from Tianyu Shencheng to the lava sea, Lu Yang is still in the lava pool area. He continued to kill the fire mantis full of maps. The location of the Vulcan Tower is at the big crack of the lava sea. past.

Three hours later, he found a crack at the bottom of the lava sea. His eyes lit up, knowing that this was a special feature near the big crack, he continued to swim forward, half an hour later, The fissures on the ground are getting bigger and bigger. Finally, a giant seafloor fissure appeared in front of Luyang. The dark red lava seabed and the sea water beneath it. .

At the entrance of the top of the tower, there is a bridge connecting the rocks on the side of the canyon. Lu Yang swims to the side of the fissure, and a huge pressure presses Lu Yang against the rock on the seabed.

There is an immortal prohibition around the Vulcan Tower. Players can only walk in and cannot cross over from the upper part. If they fall off the bridge, the player will die immediately.

In fact, this is a very good place to kill. Lu Yang has thought a lot in recent days. If there are temples and saint organizations to kill him, he will bring them here, but both the temple and the saint organizations As he had never heard of him, no one ignored him.

Lu Yang felt he was more hearted. He shook his head, strode to the door, and pushed the door into the Vulcan Tower.

System prompt: You have entered the first floor of Vulcan Tower

There was a flash of light. When Lu Yang opened his eyes, he had entered the inside of the Vulcan Tower. What he saw was an area without lava. Just like on land, the entrance was a 7-step down.

Under the steps, it is a huge platform with an area of more than 2,000 square meters, a room height of more than 20 meters, and a crystal lamp every few meters on the ceiling, which illuminates the inside of the tower.

At this time, there is no strange in the tower, but as long as Lu Yang walks down the stairs, it will trigger the prohibition. In the area opposite 200 meters away, Les Fire Spirits will begin to fly out in groups of 12 every 10 seconds. , There will be another batch, if you can not kill a wave of monsters within 10 seconds, the more you will accumulate later, the player will soon be unable to bear to die.

There will be more than 300 flaming fire spirits on the first floor of the tower, and there will be a flaming fire spirit every 10 waves. Killing him will also explode some gains with unlimited duration. Towers will accumulate certain rewards until the player dies from the tower.

I remember the official said that this tower is an unlimited number of layers, and how good the rewards can be. It depends on the number of lower layers under the player. The last player in the next **** level is the highest layer under 200. Is the Fire Spirit Jar.

In this tower, it cannot be teleported back to the Celestial God City. Once you leave, you will be abstained. Therefore, you can only rely on the potion in the player's backpack to support it.

If it can go below 50 layers, it will give Les Fire Spirit Sword, a sword with a lot of magic damage. If it goes down to 70 layers, it will give a gem that increases the intelligence of God. Yang didn't want it anymore, what he gave was so good, it's unlikely that he would kill 200 stories at a time.

He put the hammer behind his back, moved his shoulders and wrists, and walked down 7 steps. Just after landing, a ray of light emerged from the portal 200 meters across from the Fire Tower, and 12 Les Fire Spirits came out. .

“wakaka”

Twelve Les Fire Spirits immediately aimed at Lu Yang and rushed towards him in a Z-shape. Lu Yang stood on the spot and raised his hands to aim at Les Fire Spirit.

“Shen Yan Tian burst”

“Shen Yan Tian burst”

.....

His two hands were like two machine guns. The small fireballs of solid color shot out from the center of his two hands one by one. They struck a beautiful golden light in the air and hit the Les fire spirits that rushed over. Body.

“-212”

“-212”

“-424” (crit)

.....

The blood volume of a flaming fire spirit is 1080 points. Luyang averaged 4 fireballs to kill one, and the time for launching fireballs was only 0.4 seconds.

What is really difficult at this level is not the problem of legal injury, but the problem of hitting the Les Fires, because they walk in a zigzag shape and move very fast. It only takes 5 seconds to walk at a distance of 100 meters. It is a complete test of the player’s reaction speed.

In other words, this is a treasure for rewarding players with fast response consciousness. As long as the reaction speed is fast enough, and there are enough magic injuries, the number of layers in front of the Fire Tower is not difficult.

It took only 7 seconds for Lu Yang to kill the 12 Les Fire Spirits, but also wasted 5 bottles of medium magic recovery potions, showing how much magic value is needed here.

Lu Yang took the time and waited for the next wave of monsters to come out. He drank the sixth bottle of medium magic recovery potion and continued to attack.

Killed 9 waves in a row, and by the 10th wave, there was no Les Fire Spirit this time, but a female mantis flew out, throwing a whip at the landing sun.

Lu Yang can easily avoid the attack of the female mantis in the lava sea, not to mention on the land, facing the drawn whip, he just escaped the attack just by turning sideways.

“Shen Yan Tian burst”

“Shen Yan Tian burst”

.....

A whip attack is 1.2 seconds Lu Yang can use this time to hit 12 Shenyan skybursts, the blood volume of the ritual sacrifice is 3800 points, and the damage of each golden fireball of Lu Yang is 162 points, he It only took 2 seconds, the ritual of Luz fell to the ground, and with a loud bang, it turned into ten thousand fires. At the same time, a pure blue hexagonal spark burst out and flew around in the tower, no track. Follow.

Lu Yang’s eyes lit up, and his body turned into a flare towards the blue hexagonal Mars. As soon as Mars appeared blue for less than 1 second, it began to flash, and the flashing light was red.

The flashing time is 3 seconds in total. This Mars has four colors. Blue increases the spell recovery speed by 5 points per second.

Red is a thunder, which can be stored and used to blow up all the monsters in the audience, regardless of the level and health.

Golden is to increase the spell damage, each time you eat, you can increase the spell damage by 10.

Green is blood, which can restore the magic value for the player.

There is also a colorless time and space, instantly controlling all the targets in the field for 12 seconds, including the speed of the monster, all controlled.

At present, what Lu Yang needs most is to increase the speed of spell recovery. This thing can be accumulated. If there is not much accumulation now, it will not be accumulated in the later period. As for the increase of magic damage and thunder, it is only used later. He was not in a hurry.

System Tip: You have obtained the spell recovery effect, increasing the spell recovery ability by 5 points per second!

Lu Yang ate the blue hexagon star in an instant, and he jumped back to the door position. There was still 8 seconds before the monster got out, and took out a bottle of magic potion to recover.

Chapter 1765 - Pure fire

Just when Lu Yang thought about being a stranger or a les fire spirit, suddenly, a golden les fire spirit appeared with the team.

Lu Yang's eyes were all bright, his face was full of excitement, he had to sigh, and his luck was too good.

Les Fire Spirit (variation)

Grade: Lower God

Qi and blood: 100 / 100

The mutated Les Fire Spirit has a small amount of blood, but it moves very fast, and his trajectory can be seen clearly only between a reaction speed of 0.1 seconds.

This kind of flaming fire spirit is not subject to attacking the player. He also takes the Z-shaped direction and will also avoid the player's skills. His ultimate goal is to escape. Once he escapes to the position of the wall behind Lu Yang, an explosion will occur. , Causing 80 Holy damage to Luyang.

But if Lu Yang can kill him, then the mutant Les Fire Spirits will burst out and the Les Fire Spirits will be the same hexagonal stars.

If Lu Yang came here for the first time, he must not be able to hit the mutated Les Fire Spirits. The novice may still be curious about what this is, but Lu Yang knows it very clearly. In the last life he hit this place After playing for half a year, the chance of killing the mutated flames has reached 100%, and there has never been a miss.

“Shen Yan Tian burst”

“Shen Yan Tian burst”

Luyang 's left and right hands simultaneously fired the Shenyan Skyburst skill, the one on the left fired first, and the one on the right stopped for 0.2 seconds, aiming at the 8-meter position on the left side of the mutant Les Fires.

The pure golden fireball aimed at the mutant Les Firelings instantly shot in front of the Mutation Fireing Spirit. The Mutation Fireing Spirit instantly changed direction and moved towards the left, just moved to the 8 meter position.

“Bang”

There was a muffled noise, and it was hitting the second golden fireball shot by Lu Yang. The mutant Lüsling was instantly turned into a gorgeous firework, and a blue hexagonal star flew out.

“Ember”

Despite these little monsters, Lu Yang hit the blue planet for the first time, and the mana recovery increased by 5 points to 10 points per second.

The remaining 11 les fire spirits were moving in a zigzag shape, and Lu Yang was within the range of their movement. They all raised their weapons and rushed towards the landing Yang.

“Shen Yan Tian burst”

Lu Yang did not shy away, stood on the spot with his hands raised, and started shooting at the Les Fire Spirits 10 meters away.

Pure golden fireball attack speed is extremely fast, Lusi fire spirit did not wait to rush to Lu Yang 5 meters, they were all killed.

Lu Yang slowly retreated to the bottom of the steps. As soon as he reached the position, the twelfth wave of monsters appeared, and at the same time, another mutant les fire spirits flew out.

This made Lu Yang express his admiration, smiled and killed the wave monster, and at the same time harvested 5 mana recovery effects, which became 15 magic points per second.

While Lu Yang continued to brush monsters on the other side, on the other side, Golden Lion had found Gerzi and reached an agreement with him. Golden Lion and others who did not care about money still received Gerzi 's \$ 100 million in gold. .

Evening.

Lu Yanggang just reached the ninth floor of the Vulcan Tower, and Tu Feng heard the news, saying: “There was an accident. On the Gerzi side, 100 fully equipped lower gods suddenly appeared, all wearing ancient **** suits, Gertz also became After the next god, he personally took hundreds of thousands of players to demonstrate to us the orange fortress opposite the Fire Dragon Fortress. “

“100 lower gods?” Lu Yang frowned, saying: “They shouldn’t have lower gods, they can’t have so many, and it’s impossible to get the equipment so fast, it seems that the temple is doing it.”

“What shall we do?” Tu Feng asked.

Lu Yang said: “You don’t have to take care of them. Gertz now has no money to fight against us. He just wanted to get back to the game and told us that he also has a subordinate god. Let us not fight against him easily. Tell the brothers, What to do and how to do it, if Gerds dare to cross the border, all of our subordinate **** professions will be sent over. “

Gertz is a counselor. Lu Yang does not believe that he dares to fight against himself. Both Sanyouweimen and Rogers have an agreement. They ca n’t fight within half a year. It was Radvedev, or the winner between Liu Jie and Steiger, but Radvedev was preparing to attack Stephen, and Liu Jie and Steiger had not yet divided.

As for Tom, who is now creating resistance to the Iron-Blood Brotherhood, it is only a way for Lu Yang to give benefits to his players in order to weaken the strength of players in the Tom area.

The next **** class and equipment are only available to players who reach level 180. It is extremely difficult to upgrade from level 170 to level 180. Without more than a year, most guild players cannot upgrade to level 180 .

Before entering the lower gods, the 170-level dark gold set and the 160-level dark gold set are still the mainstream equipment in the game, and they will not devalue their equipment because of the lower-level **** equipment.

Tu Feng said: “I will find the white lion, let him scold Gerlze back, and look upset.”

Lu Yang said with a smile: “Also, go.”

He turned off the intercom. It happened that he ended the attack on the ninth floor of the Vulcan Tower. I have to say that Lu Yang ’s luck was really a blast today. Perhaps it was the first time he entered here. , Lu Yang actually encountered 32 mutant Les Fire Spirits, plus 3 bosses on each floor, Lu Yang got a total of 59 stars.

Among them, 40 are blue stars, which increase Luyang's 200 mana / second mana recovery effect. The remaining 19 are replaced by Luyang to thunder. The reason for this is that at the 10th level, at least 9 are needed. In the past when Lei could fight, Lu Yang spared 10 more.

According to the normal situation, the tenth level should be encountered a big boss, but who can think of, the tenth level of the Vulcan Tower not only has a big boss, but also a variety of mobs that release attack skills remotely.

System prompt: You will enter the tenth level, please be prepared!

The light flashed, and Lu Yang was automatically teleported to the tenth floor of the Vulcan Tower. Upon entering, Lu Yang did not look around and quickly used the red star.

"Vulcan Thunder"

A fierce white light blasted around Lu Yang as the center. At the same time, at this moment, there were more than 100 humanoid fighters with a lizard tail 50 meters away from Lu Yang's location. Shot a red fireball against Lu Yang.

The damage of the crimson fireball is 10 points. These more than 100 attacks together will definitely die if they are all hit. However, Lu Yang released Vulcan Thunder. At this moment, all the fireballs were offset by the explosion of Vulcan Thunder. In addition, more than 100 fighters were killed in seconds.

Vulcan Thunder is a treasure that can be used for seconds except for the boss. No mobs can be spared.

"Some strengths, but you stop there." A low voice came, and Lu Yang looked up, and a giant Lusi warrior with a height of 5 meters came out of the teleportation array.

Luffman 1st Army Regiment Captain Lefman

Grade: Lower God

Qi and blood: 10000 / 10000

Luffman opened a mouth to Landing Yang and spurted a red laser light. Lu Yang evaded his skills, and at the same time, he quickly released Shenyan Skyburst.

A series of small golden fireballs hit 10 and all hit Lefman's body, causing 1000 damage.

"You angered me, come out, my children." Lefman screamed, and the walls around the tower turned into a teleportation array, and more than 100 fighters appeared.

"Vulcan Thunder"

Lu Yang quickly threw a bomb and killed all the mobs, even with Lefman also knocked out 1,000 points of blood.

This is the reason why Lu Yang should get Shenlei. If it is a newcomer who has just come a few times to break into the Vulcan Tower, he will definitely work hard to get gold stars to increase the damage, but once they reach the 10th floor, they will definitely Lost by Lefman's mob.

Lu Yang is now easy to play. Although his damage has not increased, he is lucky today and got an extra 40 blue stars. Even if it is difficult to play at the 11th level, he is almost infinite blue, playing a little more, It's better than no blue output at the back.

After 1 minute, Lefman was killed by Lu Yang's Vulcan Thunder and Shenyan Skyburst, and two treasures exploded from Lefman, one of them was the fireball, the other was A piece of jewelry.

Pure Fire (Artifact · Level 3)

Occupation: The next god

Intellect of God: +8

Stunts:

Fire energy increase: After opening, an additional 30 spell power, duration 30 seconds, cooldown 40 seconds.

Lu Yang smiled, he raised his eyebrows, but this is a rare good thing, Lu Yang's magic injury is not enough, with this, Daguai speed can be much faster.

Chapter 1766 - Instant Blast

Luffman also exploded a blue star. This time Lu Yang and other stars became golden, before they were captured, and they successfully increased the magic damage by 10 points.

The light flashed, Lu Yang entered the 11th level, he was still on the south side of the tower, and the yellow-green tower wall on the north side 200 meters away suddenly turned into a silvery silver, a firelike spirit that was only half a meter high and resembled a butterfly. When they flew out, they were all reddish red, with a red circle on the upper part of the wings on each side.

Fire Butterfly

Grade: Lower God

Qi and blood: 1300 \ / 1300

"His ~!"

The fire butterfly screamed, and the red circles on the wings on both sides suddenly fired a red fireball, with a firing rate of 1.3 seconds at a distance of 200 meters, because 12 fire butterflies attacked at the same time. In the blink of an eye, 12 fireballs shot towards the landing sun .

Lu Yang took a small step to the left instantly, raised his hands at the same time, turned on the pure fire and attacked the flying butterfly.

Fire Butterfly shoots slowly, it takes 2 seconds, but they win a large number, and they are still approaching the landing sun. Lu Yang needs to continually avoid their attacks and launch counterattacks. For a time, the north and south of the tower Red fireballs on both sides flew alternately.

This is where the Fire Spirit Tower is really difficult. Starting from the 10th level, although there is only one boss in one level, the blame has begun to understand long-range attacks. The player must not only fight the monster, but also avoid the monster 's attack. Faster, and, as they get closer, the shorter the reaction time for players.

Lu Yang must kill them before they enter the 80-meter range, otherwise, within the 80-meter range, Lu Yang can only make a pre-judgment attack, otherwise he will also be attacked by the fireball of Fire Butterfly .

Fortunately, Lu Yang had good luck. He just got a golden star and got a pure fire. After opening, with an additional 30 points of magic damage, his magic damage reached 102 points, which is counted as Shenyan. Explosive skills, the damage reached 202 points.

On average, every 8 Shenyan sky bursts can kill a fire butterfly, which is 0.8 seconds. When 12 fire butterflies enter the 100-meter area, they are all dead.

Lu Yang looked at the medicine in his backpack. At this time, about half of it was left. He knew that he would start collecting golden stars under him.

After the 9 wave monsters, they arrived at the boss level, and a huge fire butterfly two meters high flew out of the silver portal.

Fire Butterfly King (boss)

Grade: Lower God

Qi and blood: 5000 \ / 5000

Fire Butterfly King is not difficult to fight, because his attack skills are single, he will not be close to Lu Yang, and will only attack remotely. The only problem is that this butterfly will summon small butterflies, and summon 12 at a time.

However, this little butterfly is a trouble for others, but it is a treasure for Lu Yang, because among the small butterflies he summoned, there may be mutant butterflies, just like the mutant fire spirits, which can burst out small stars.

Lu Yang decided to take a gamble, how many levels can be played behind this game, this fire butterfly occupies a very important proportion, he is going to consume half of the magic bottle in his backpack here, and strive to get 10 to 15 Golden stars.

If that's the case, his mana consumption and recovery speed will be flat. It stands to reason that he should take the blue star and continue to increase the magic value, but the small butterfly will approach Luyang, and the blood volume of the next level will increase. At 10 o'clock, if you let them approach the 80-meter line, when Lu Yang needs to rely on prejudice to avoid, the consumption of consciousness for him is very large. It is likely that he did not wait for him to reach the last level. The consciousness will automatically break because of the serious wear and tear. If you open the connection, you will lose more than you pay for.

"His ~!"

The Fire Butterfly King screamed, and there were 4 circles on his pair of wings. At the same time, he shot 4 pure golden fireballs against Landing Yang.

Lu Yang flew to the side, avoiding this attack, he did not use embers, this blue-consuming skill, he did not need any one, as far as possible to save magic value.

Fire Butterfly King failed to hit, moved 5 meters to the left side, and then fired the ball, so that 10 consecutive times, he moved to the far left, seeing that he still did not hit Lu Yang, his body radiated a reddish light, behind the water The silver enchantment suddenly brushed out 12 fire butterflies, and the color of one of the fire butterflies was blue.

Lu Yang opened his hands and quickly killed the blue fire butterfly, bursting out a small blue star. His hands were pointed at the other fire butterflies, and he attacked while avoiding it. At the end of the last fire butterfly appeared at 100 meters. Time, kill it.

It happened that the little star turned golden. After Lu Yang evaded an attack, he launched his ember skill and immediately hit the star.

System Tip: Increase your spell damage by 10 points!

Lu Yang 's basic law injury became 82 points. He continued to avoid the Fire Butterfly King, and at the same time used the rules to brush the blue Fire Butterfly. To the surprise of Lu Yang, it may be really good luck today. He brushed 99 waves of Fire Butterfly In fact, 31 mutant fire butterflies appeared, increasing his magic damage by 310 points, so that his magic damage reached 372 points.

System prompt: your nerve connection with the helmet is 95%, please pay attention!

Lu Yang sighed a little, he could no longer wave, attacked and evaded continuously with a reaction speed of 0.1 seconds, his consciousness began to enter the fatigue period, he raised his hands.

“Shen Yan Tian burst”

.....

Played 15 pure golden fireballs within 1.5 seconds, and the Fire Butterfly King was killed by Lu Yang. He watched the golden fireballs exploded and ate it, causing his magic damage to become 382 points.

The light flickered, he came to the 12th level, this level is still the fire butterfly, but the qi and blood are 10 more than the previous level to take you, but Luyang's magic damage is 320 more than before, and the pure fire 3 attacks are launched. You can kill a fire butterfly.

After Lu Yang evaded a round of volley attacks from 12 fire butterflies, he raised his hands and Shenyan Skyburst quickly fired. Before the opponent's next volley, he killed 5 fire butterflies. Fly forward less than 10 meters.

This was repeated three times in succession, and all 12 fire butterflies were dead. It took Lu Yang a total of 4 seconds. In this way, he had a rest period of 6 seconds.

Although the time is very short, Lu Yang's consciousness can be rested. In this way, the fire butterfly is killed 9 times. When the boss arrives, Lu Yang's consciousness connection no longer drops, but gradually starts to rise. The next boss is still the Fire Butterfly King. Lu Yang did not dare to brush it again this time. He quickly killed the Fire Butterfly King and got a rare 2 minute rest time.

So quickly reached the 20th level, and saw the guard boss, a bigger butterfly, with three wings on one side, a total of four wings, and 12 attack circles.

Les Fire Spirit Squadron Leader Hof

Grade: Lower God

Qi and blood: 11000 \ / 11000

Lu Yang was not afraid of this. He used the ember skill at the moment when the other party launched the attack, jumped 1 meter away from the side, and raised his hands to launch the Shenyan Skyburst.

From the 11th level to the 20th level, he ate 20 golden stars, the magic damage reached 392 points, opened the pure fire, each attack was about 500 damage.

Hough only resisted for 3 seconds, and was killed by Lu Yang. This was the last life. Lu Yang was absolutely afraid to imagine it, but it really happened now. This time, he even prepared the fire spirit he prepared before. The cans are useless.

Looked at the items exploded on the ground, one was fire beads, he now has two, as long as he is built to transport him, he can bring two people over.

Lu Yang looked at other items, and one of the skill books was very conspicuous.

“Instant burst”

Type: Fire God

Distance: 500 meters

Consumption: 50 mana

Description: The lower gods of the fire department can use the law to condense mana within the range, producing an instantaneous explosion effect, causing a stun effect for 1 second to the target, and causing spell damage +250 damage.

Chapter 1767 - Firestone

Instant Blast is a delayed release skill, which is a delay of 0.5 seconds, and then produces a burst effect on the 1 meter area of the target range, stuns all the targets in the range, and causes high damage.

Lu Yang learned the skills of “Instant Explosion” in the skill bar. Looking at the extra skill icons, he couldn’t help but show a wry smile.

This is a standard pre-judgment skill, or a pre-judgment attack carried out within the reaction speed range of 0.1 seconds or less. Under the premise that there is no other skill that can control the current, once controlled for 1 second, 10 Shenyan days Blasting can hit them one after another, killing each other.

The last generation of Lu Yang was one of the best masters used in “Instant Explosion”. Within a reaction time of less than 0.1 seconds, he can predict the position of the opponent’s escape and also release his skills 0.5 seconds in advance. Except for Lu Yang, there are only about 7 people who can do it, which is one of the reasons why Lu Yang’s previous life was reported as the Fire Emperor.

Among these seven people, Lu Yang is the best one because Lu Yang predicts that it is not the foot of the target, but the head of the target, because this skill is neither falling from the sky nor leaping from the ground. It came out but appeared out of thin air, so he could burst at any point in the air.

If the position of the explosion is the head, it will naturally produce 2 times the effect of ignoring the magic resistance of the equipment, and the damage will be higher.

I do n’t know how many great god-level players in the last life, and they tried their best to avoid it, but he was still hit by this move and was instantly killed on the spot. It was Luyang ’s most exciting year.

“Shrines, saints, dark warriors, I want to see, how strong are the people in your organization.” Lu Yang muttered to himself.

He did n’t believe that the temple and the saints were much stronger than him. Just looking at the captain ’s equipment and no support, he could know that the temple and the saints were only half a month to a month faster than they came here, and the lava This island in the depths of the sea was the first one he discovered, otherwise he would not be able to get fireballs. Since he is still on the same starting line, he is not afraid of the trouble of the temple looking for him.

System prompt: The next layer is about to enter, please be prepared!

Lu Yang's body glowed with white light. When the light disappeared, he came to the 21st floor. The strangeness of the 21st floor is more difficult. This layer is a fire bee.

Fire Bee

Grade: Lower God

Qi and blood: 1410 / t1410

The light flashed, and 12 fire bees refreshed in the middle of the north wall. Each one was only 30 centimeters in size. Twelve came together, less than 1 meter in diameter. A swarm of bees flew towards the left side of the map, They moved very fast, flying 12 meters in one second, and at the same time, they also fired flame spikes at the landing sun.

"Instant burst"

Lu Yang moved sideways to avoid the spiked attack, raised his finger to the 6-meter position in front of the fire bee swarm, and suddenly burst violently in the air without warning, and a huge fire ball with a diameter of 1 meter rose into the sky. , 12 fire bees just hit the fireball.

"-532"

"-532"

.....

A piece of injury flew up on the head of the fire bee swarm, Lu Yang held his hands flat, and turned on the heavy machine gun mode according to the fire bee swarm.

Every pure gold fireball hits the fire bee's head, it will have a crit effect. Originally 382 points of magic damage, plus 100 points of skill damage, now again crit, a fireball is more than 900 damage It only takes 2 fireballs to kill a fire bee.

When the time of 1 second was over, 12 fire bees were killed and 5 left, and 7 remaining blood continued to fly to the left while attacking Lu Yang.

The cooldown of Instant Blast is only 2 seconds. Lu Yang hides the skill for 2 seconds and then starts the Instant Blast to stun the remaining 7 animals. This time, each one has less than 500 health. By the way, Lu Yang killed one skill.

The battle took only 5 seconds from start to finish!

Starting from the 21st level, the time of the outburst was extended by 5 seconds. In this way, Lu Yang had another 10 seconds of rest time, he could have enough time to recover his energy, and the consciousness connection was quickly improved. .

At this time, the Fire Bee level, which should be very difficult, is no longer difficult in Luyang. He has reached 30 levels in a row. The guard boss that appeared is the Fire Bee King, and Lu Yang 's instant detonation and Shenyang are not blocked. Sky burst, once again burst out a fire bead for Lu Yang, and at the same time, there was a staff.

Scepter of Divine Flame (Artifact · Level 3)

Grade: Lower God

Physical Attack of God: 16-30

God's Spell Attack: 50-50

Intellect of God: +10

Power of God: +7

Strength of God: +10

Special effects:

Both spell attacks and physical attacks have a certain chance to trigger Shen flame, which increases spell damage by 50 points.

Lu Yang couldn't help but laugh. Originally, he wanted to come to the Nares Fire Sword, but he didn't expect to get a higher-level **** flame scepter. This is the highest magic damage of the third-order artifact. This spell attack is not ordinary. Powerful, 34 points more damage than his ancient hammer, almost tripled.

He immediately put on the scepter and at the same time looked at the other items given, the last one given was a stone.

Shenhuo Crystal

Description: The spar spawned by the energy of the lava pool, no one knows what he used for.

Lu Yang shook his fist with excitement, and compared it with the Shenyan scepter, this Shenhuo crystal was the most valuable.

The most important item in the "Shenjing" expansion is this **** fire crystal, because this thing is used to forge artifact equipment. To what extent can it be forged, it depends on the quality of the **** fire crystal.

A high-quality Shenhuo crystal can forge a 5th-level artifact, but it is almost impossible to see a 5th-level artifact in the lava sea. Only a very low probability can be found in only a few subordinate gods. It burst out, and none of these lower gods can be beaten by Lu Yang.

Lu Yang immediately put the Shenhuo crystal in his backpack. This thing can't see the quality now, but Luyang knows that there are bugs to see. If he can buy more high-quality Shenhuo crystal, Lu Yang can create it. A group of high-level god-level players.

If the ordinary lower **** players are light tanks, they are like main battle tanks. Light tanks cannot even break their armor, and they can kill a light tank with one shot.

System reminder: Time goes into the night, players can pre-store progress, continue to challenge tomorrow!

Lu Yang's eyes lit up. He really didn't know there was this thing in the last life. This progress can be stored in advance. He carefully looked at the terms and found that the player had a chance to save progress every 30 levels, but only once, and The time is limited to 8 hours, and you must continue to pass tomorrow morning, otherwise it will be regarded as abandonment.

"Maybe it's the humanized design just given in the expansion pack." Lu Yang shook his head. When he came here in the last life, he was already much slower than others, and a lot of time has passed. Maybe it may be that the revision has changed this Setting, however, is now a good thing for him, he can take a break for a while.

Chapter 1768 - Blowout's next god

Lu Yang chose to suspend and the light flashed. He was transported to the Heavenly City God City. After finding the hotel, he rested, but what he did not know was that on the other side, a corner of the Heavenly City God City, a group of people found Lu Yang's behavior.

"How can he go down 30 floors?"

"How do I know that we have just explored that place, I have just hit the 10th floor, and have not yet figured out the rules inside."

"Damn, we can't rely on our own strength to explore, we have to support a group of people."

“It’s not good, won’t it violate the rules? After all, our eight organizations have agreed on it.”

“Well, what has been agreed, the temple has already made a move, and the saints have met Lu Yang. I suspect that the saints have dealt with Lu Yang.”

“Will not tell the secret between us.”

“It shouldn’t be that, let’s ignore these for the first time, we must also support our own forces and contend with the saints and the temple, otherwise, in the future, we will be unable to move from the 180th level to the 200th level.”

.....

Has the same idea as this organization, there are several other organizations, almost at the same time, they all decided to foster the forces in the game.

Early the next morning, Lu Yang just landed in the game after exercising. Tu Feng, who was in charge of the job, came to Lu Yang and said nervously, “It’s a big deal.”

“What happened?” Lu Yang asked.

“Sanyou Weimen, Rogers, Stephen, Radvedev, Liu Jie, and Steiger have a large number of the next **** professions at the same time. The number of each guild is about 200, and a batch of people have appeared in our family. The next **** has killed many of our players. “Tu Feng said.

Lu Yangmeng frowned, saying, “Why do the major guilds have lower gods? What’s going on?”

Tu Feng said: “The news from the secret agents came back last night. Several organizations found these guilds one-on-one at the same time, providing materials for the transfer of the lower gods and the first-level equipment of the lower gods.”

With a sigh, Lu Yang shook his head slightly and said: "This is becoming more and more noisy in the New World. Those mysterious organizations have already started to find partners. We have to be greatly restrained. What is happening outside now? "

Tu Feng said: "Fortunately, outside, Sanyou Weimen and Rogers have a half-year agreement with us. None of the lower gods sent to the front line. They all went to the 180-level map to play equipment, materials and skill books. I judged that they wanted to get More subordinate **** occupations and equipments are prepared for the war half a year later. "

Lu Yang nodded and asked, "What is the situation inside? Who funded these people, and how many lower gods are messing with us?"

Tu Feng said: "At present, there are known people who make trouble, there are 12 players who withdrew from the Group of Eight and 7 players in our country. Their source of the next **** equipment is a fan. Before these people were elite casual players, even There are no gangs, and it is not within our surveillance. "

Lu Yang said: "It seems that it is necessary to send someone to pack them up, find out their coordinates, and I will send someone."

"Now there are 7 people who took a break after making trouble in Dingzhou City, and the direction to see them should be to go to Hukou." Tu Feng passed the video to Lu Yang.

This video is a picture of the 7 players attacking Dingzhou City. Dingzhou City, which is completely unprepared, was beaten down by 7 lower gods within 1 minute. Faced with the powerful output of the lower gods, it was on duty at night. Players have no resistance at all, all are seconds.

Tu Feng's face is full of sorrow when watching this video. Now, one-fifth of the New World is controlled by the Iron-Blood Brotherhood, and there are thousands of fortresses. If they are so troubled, the Iron-Blood Brotherhood will become a mess.

Furthermore, these people are all subordinate gods. Even if they send the subordinate gods to chase down, with the skills and attacking ability of the subordinate gods' profession now, the strengths of the two sides are not much different. They are completely incapable of chasing and succeeding. Being dragged into the quagmire, unable to support the frontline battlefield for a long time.

Tu Feng sent a video to Lu Yang again, saying: "In the G8 area, these 17 people are also attacking our strongholds indiscriminately. They are all a group and gathered together. Some are responsible for killing and some are responsible for robbing. Equipment, and others are responsible for destroying the teleportation array. "

When Lu Yang watched this video again, he found that the two videos had one thing in common, which made him smile and said, "Don't worry, these two groups of gods are all rubbish, they can't dare to fight easily Any changes. "

"Can it be done?" Tu Feng asked.

Lu Yang said with a smile: "Although you have also been transferred to the lower god, but you don't know where the lower **** is really strong, it unlocks the conscious reaction speed below 0.1 seconds. I have seen these 24 lower gods By the way, the speed of conscious reaction is about 0.5 seconds of waste, which is not a fear. "

He took the phone and called Han Ying, saying, "Your three sisters left the Tom area on the line, returned to Tiger Mouth to ambush the seven gods who were in trouble, and then issued orders to Han Yu and their 12 little guys to let them Go to the G8 area and get rid of the 17 lower gods. "

Han Ying said confidently: "Brother rest assured, they will hand over to our sister."

Lu Yang hung up the phone with a smile, looked at Tu Feng who was trying on the side, and said, "Sister Han's brother, it was at this time that he really stood at the peak of the game. You will see from them what is tough. "

After several years of physical exercise, Han Ying and Han Yu and their little guys have the physical and conscious reaction ability not less than Lu Yang. After unlocking the 0.1 second reaction limit, they will become the true gods of this game, only The intensity of consciousness is lower than that of Lu Yang, who was a man of the two worlds. The overlapping of souls makes Lu Yang's consciousness much stronger than ordinary people.

Tu Fengmeng reacted and asked, "Boss, do you mean that Han Ying and the people they cultivated with Uncle Han Zhong are very close to your strength?"

Lu Yang nodded and said, "Very right, look at it, in the future you will find that our Jagged Brothers Alliance is truly powerful."

Han Zhong cultivated more people than Han Yu and his group. Two years ago, he trained another group. Although he has not yet reached the ability to participate in the war, their consciousness reaction speed will also enter below 0.1 second by the end of the latest. .

As for the existing personnel of the Iron-Blood Brotherhood, those who can enter the response speed within 0.1 seconds, except for Han Ying, only Zhou Tianming, the hard-loved half-life and Sun Yu have the four people of Xia Yuwei's Hansha, including Xia Yuwei and Bai Xiong Including Zhuojiu, their reaction speed is less than 0.1 second, which was discovered when they changed jobs, but Lu Yang did not say it.

"Let everyone gather, we should have a meeting." Lu Yang said, he sent messages to Zhuojiu and Baishi and others, inviting them to enter a special space.

The light flashed.

Lu Yang saw that everyone was here. He told everyone about the speed of conscious reaction. Suddenly, the inside exploded, and the faces of Xia Yuwei, White Lion, Zhuojiu, Tianyao and others were not very good-looking.

White Lion said excitedly: "Boss, my reaction speed is not enough? Me, me ..."

Lu Yang patted his shoulder with a smile and appeased: "Don't worry, the four of them can do it. It has something to do with their talents and perseverance. Your talents are not bad. If you follow the exercise method I taught you, you still Have a chance. "

"This battle is over, I exercise every day." White Lion gritted his teeth, which was too shameful for him, also the main vice president, he was worse than Zhou Tianming, hard-working half-life and Sun Yu, Not only that, he was worse than the cold sand of Xia Yuwei's men, which made him totally unacceptable.

Xia Yuwei's eyes were eager to try and said, "I thought this game was just like this. I didn't think that what we did before was just a beginning. Now that I have entered the topic, I will work hard."

Lu Yang said: "It's still the main job to kill Tom first. He won't stick with it for long. We have to change our tactics and we can't kill people anymore. Be careful. Some people get a bunch of lower gods in the Tom area, which makes us worry. Now. "

Everyone nodded.

Lu Yang motioned for the disbandment. He used the teleportation scepter to fly back to Tiger's mouth first. He was still curious about the seven Chinese gods. At least he had to know who was in trouble.

Chapter 1769 - Old Enemy Collection

At present, the affiliated guilds of the Brotherhood of Blood are still alive. Lu Yang did not dissolve them, but let them use the six months to integrate and solve the existing problems as soon as possible. This is the biggest love Lu Yang gave them. Noodles.

Lu Yang suspected that these 7 people were not from those 30 affiliated guilds, but rather new people. They could use the attitude of the Brotherhood of Blood to treat the people. The people had no reason to mess with him.

The light flashed.

Lu Yang appeared in the teleportation array at Tiger's mouth. He had just replaced the dragon and came to the sky. He found that the three younger brothers Han Ying, Han Fei and Han Yu had already fought with 7 players on the ground outside Tiger's mouth.

These seven players are obviously not the opponents of Han Ying's three sisters, they are obviously the lower gods, but their reaction speed is almost 10 times worse than that of Han Ying's three sisters. Seeing it is about to lose.

Lu Yang ordered Feilong to come over their war and looked closely at these seven people, and they also found Lu Yang with Han Ying.

"President of the Brotherhood of Iron-Blood Brothers?" One of the seven men in their 20s looked angry and shouted: "Don't care about others, kill him together."

The remaining six people nodded and raised their hands together towards Landing Yang. The skills such as Shishi Tianhuo, Mad Thunder Sky Penalty, Jingshi Shengguang, etc. shot one by one towards Landing Yang.

Lu Yang frowned. This was the first-level skill. He did n't even have Shenyan Tianburo and Qingguang Shenlei. He dared to come here to make trouble. He disappeared in the blink of an eye. The next second, he appeared in the third sister Han Ying. Brother's side.

Han Ying was originally worried about Lu Yang being killed. Seeing Lu Yang appear beside them so easily, all three were relieved.

"Is there any useful news?" Lu Yang asked.

Han Ying shook his head and said: "I haven't asked it yet. These people are like us with a deep hatred. We don't ask any questions, just to kill us."

Lu Yang smiled, looked at the dumbfounded seven people, and asked, "Who are you, are all Chinese, what are you doing with our troubles, are you able to find trouble with outsiders, and no matter how bad you go to those affiliated guilds The presidents or vice-presidents are better than me here. "

When seven people heard Lu Yang's words, they all sneered. The headed man pointed to Landing Yang and said, "Lu Yang, I ca n't think of you today. You remember, we will continue to make troubles for you until you and yours Until the guild is destroyed. "

Lu Yang frowned. He looked at the man carefully. He couldn't recognize the long breath and said with a sigh: "It turns out to be you. Let me look at the woman next to you. I can't think of people like us. Meet in this way. "

The men headed by these seven people were no other people. The old man who was officially angry at that time vomited blood, and later was avenged by Lu Yang, he vomited blood to qi, and laid his fortress, eliminating the lord of the Red Moon fortress Mai Lizhe.

Although his appearance has been slightly modified, his expression Lu Yang can still remember, and the women around him are more easily recognizable, it is the woman who conspired with Mai Lizhe to want to harm Blue Feather.

Mai Lizhe didn't expect that he would be recognized by Lu Yang, and he gritted his teeth and scolded: "Just recognize that we are here, Lu Yang, you lose this time, and even dare to provoke the temple, our temple is not I'll let you go, wait for the bad luck. "

Lu Yang sneered and said, "Let's not mention the shrine or the shrine. What are you doing with my troubles? You were defeated in those years, but I have mercy on your hands. Are you doing this now, is it too bastard?"

Qian Qiansi snorted coldly and said, "President Lu Yang, we will show mercy to you when you are defeated in the future, okay."

Lu Yang applauded and said: "The crooked truth is still a set. The sinister villain behind you is not going to be successful this time. The next **** does not mean level 0. I want to see if you are killed. What can I do if I go out of the next **** realm. "

He condensed his strength, and the next second, when Mai Lizhe and Qianqianyu did not respond, a flame burst in the center of their seven people, five of them were killed by the flame, and the remaining two were stunned. 0.2 seconds, but this is 0.2 seconds. Two pure golden fireballs hit the heads of the two. In an instant, they all died, leaving only 8 pieces of equipment in place.

The younger brother of Han Ying looked at Landing Yang in surprise. Han Ying asked in surprise: "Brother, what skill are you, so strong?"

Lu Yang said with a smile: "If I turn around and hit you, I will bring it to you. In the past two days, you will try your best to kill them. After these two days, I will take you to the next place."

Fire Spirit Tower can not only enter the Fire Department, but also other professions. You can fire the Fire Tower once a day and stick to it for a month. Not only does the speed of conscious reaction and the ability to approach combat increase a lot, but the weapon equipment can also be changed for a generation.

"I'm going first." Lu Yang took out the teleportation scepter and went to the Firebird Fortress in the G8 area. According to the news sent by Han Yu, they had already hit the Firebird Fortress and 17 subordinate gods.

The light flashed.

Lu Yang appeared in the teleportation array of the Firebird Fortress. After changing to the flying dragon, he flew to the outer city, near the teleportation array, and 17 players were surrounded by Han Yu.

"Brother, they have been blocked by us and can't run away." Han Yu saw Lu Yang and shouted immediately for praise.

Lu Yang flew to them with a smile, after lifting the mount, he said: "It's a good job, can do their blues, you are capable."

The next **** had no magic, and it was as easy to die as the soldiers did not wear armor. Lu Yang looked at them and asked these 17 people: "It's a matter of management, who are you, why are you messing up?"

"Hum ~!" A player standing in the crowd came out, staring at Landing Yang and said: "We meet again, President Lu Yang."

Lu Yang frowned. He looked closely and found that this person was also familiar. Suddenly, he remembered and pointed to the other party and said, "Green Water Ghost, you are Green Water Ghost."

“I didn’t think I could make President Lu Yang remember, it’s an honor.” Lushui Gui bit his teeth with a terrible face.

Lu Yang shook his head and asked, “Who brought you together? How much hatred does this person have against me? I killed a guild, and he accepted the president of a guild. How long have you been waiting? . “

Green Water Ghost laughed sarcastically and said, “Do you think I will tell you the actual situation? Stop dreaming.”

Seeing that the other party was about to start, Lu Yang quickly signaled that the Green Water Ghost was not in a hurry. Mai Lizhe and Qianqian Yu were deadly enemies with him. This could not be asked. But Green Water Ghosts are not deadly enemies. Being destroyed, it has nothing to do with him.

“Don’t worry about it first, let’s talk about the conditions?” Lu Yang asked.

“Talk about conditions? What do you mean?” Green Water Ghost asked.

Lu Yang said: “I support you to re-establish the guild, and also guarantee that the two of us will form an alliance forever, how?”

The Green Water Ghost was questioned. He blinked and looked at Lu Yang. The anger in his heart was suddenly reduced by half, but when he hesitated, a player beside him scolded and said: You have forgotten why, and forgot our hatred, Lu Yang, I will never let you go and die for me. “

A player rushed towards Landing Yang. Lu Yang looked at this more vividly, easily blocked the opponent’s hammer with a scepter, and asked, “Who are you?”

This man seemed to be about the same age as Lu Yang, and he looked a bit familiar, but he could n’t remember it. The young man could n’t see a hit, continued to wave a hammer at Landing Yang, and shouted while smashing, “Who I do n’t matter , Importantly, you **** it. “

Lu Yang blocked him several attacks in a row, and suddenly, this young man's movement reminded him and asked, "Who are you Tianlong?"

"He is my brother!"

Lu Yang understood that, a pure gold fireball exploded on his head, then, he launched a continuous attack with lightning speed, 15 of the remaining 16 people within 1.5 seconds All killed, leaving only a green water ghost standing in shock.

"Let's talk, is it possible for us to cooperate?" Lu Yang asked.

Lvshui Gui looked at Landing Yang dumbfounded and said: "How is it possible, your strength, your strength?"

Lu Yang said: "Don't feel strange, the brothers and sisters around me are similar to me. This game is not only a temple, you are not the main force of their recruitment, otherwise, they will not give you the flame I just used. Attack skills like Skyburst, tell me the truth, what is going on? "

The Green Water Ghost thought about it for a long time, and finally shook his head and said, "Lu Yang, I can only tell you that I have nothing to do with the temple. Now the situation you have encountered has only accumulated over the years. Things are not well understood, just a little pawn, but I dare not betray them, they are too strong. "

Lu Yang nodded and raised his hand to kill him with a golden fireball. He looked at Han Yu and others who were worried about his face and said, "Don't be afraid, we've been fighting this way. Kill them to the point where they are separated from the next god. "

"Yes." Han Yu and other 12 little guys nodded together.

System prompt: When the storage time is up, do you enter the Fire Tower?

Lu Yang knew that he should go, now there are hands behind the scenes pushing things in a direction that is not good for him, he needs to upgrade his men's equipment as soon as possible.

Chapter 1770 - Reward levels

Lu Yang clicked to return to the Fire Spirit Tower, a flash of light flashed, he came to the 31st floor, entered this layer, the type of monster is different, and began to have two kinds of ordinary monsters with high speed and high defense.

System prompt: The battle is about to start, please be prepared!

The walls around the 200-meter-diameter tower turned into a flowing silver enchantment at the same time, and 12 red monsters that looked like kobolds were refreshed.

Blazing Devil

Grade: Lower God

Qi and blood: 1600 \ / 1600

“Roar ~!” The 12 Blazing Demon roared at the same time, rushed towards the landing sun, and the movement speed was about half of the normal player’s movement speed.

They do not move diagonally like the monsters before the 30th level, so Lu Yang can have a long attack chance even if the attack power is low. This group of monsters come straight, depending on how strong Lu Yang’s magic damage is. .

Happens to be that Lu Yang’s magic injury is very strong. He raised his hands and aimed at the blazing demon rushing in front of him. His hands burst into flames one after another.

“-482”

“-482”

.....

A piece of damage was hit. The blood of the flaming demon was only 1700 points. An average of three fireballs could kill one. At a time, the flaming demon died a lot.

After killing 3 waves in a row, by the time of the 5th wave, among the 12 flaming demon who brushed out, there was a particularly huge flaming demon, just like the boss, but did he have the blood of the boss, the gas The blood is only 2700 points, which is 1000 points more than normal.

If ordinary players come here, it is estimated that their magic damage will not be too high. Even if Lu Yang comes here again, I am afraid he will not have such good luck, so that his magic damage becomes so high, and the magic is restored. The speed is so high.

In the face of the 2700 blood fiery devil, Lu Yang still raised his hands flat, he did not need to avoid it, so he started to shake up, and the batches of strangers were killed by Lu Yang in large numbers, waiting until the 31 level At the end of the day, a giant flaming demon in armor appeared, with a blood volume of more than 10,000 points, which was still irresistible and was easily killed by Lu Yang.

From level 31 to level 49, Lu Yang hardly consumed any consciousness, but he did not take the golden stars along the way, but all the red bomb stars, because starting from the 50th level is the key to this game.

In level 50, there is a reward level, how many stars you can get, it depends on how many bombs the player has.

System prompt: You enter the 50th level, welcome to the reward level, please be prepared!

Lu Yang landed in the middle of the platform inside the tower at the 50th level with a ray of light. His eyes widened sharply, and the prompt sound just ended. The walls around the tower became mercury enchantments at the same time. At the same time, a total of On each of the 8 faces, 12 flaming demon were brushed out. Among them, 3 of the flaming devil have a mutant with nine-color light flashing all over the body.

“Roar ~!”

The flaming demon of 8 faces roared at the same time and rushed towards the landing sun. If they were killed at this level, it is not counted as death, and they will be sent directly to level 51, but how rare is this level? So many blame, where to find this good thing to brush the mutant.

“Bomb”

Lu Yang threw out the bombs in his backpack at the moment when the fiery demon rushed to the front. At this time, he had 37 bombs, so he was not afraid.

A fierce ray of light lit up, and the 96 monsters brushed out were instantly killed by Lu Yang, and the 3 mutant monsters also exploded into stars, because they were too close to Lu Yang. After death, all the stars hit On Lu Yang’s body, two of them are gold and one is red.

System Tip: Please prepare for the next wave of battle!

The voice just fell, and 96 monsters were brushed out on 8 faces, 2 of which were with nine-color light.

Lu Yang threw a bomb again!

The third wave, Lu Yang threw a bomb.

The fourth wave, Lu Yang continued to throw bombs.

The fifth wave, Lu Yang also threw a bomb.

.....

Lu Yang threw bombs all the way, and he did n't even know how many were thrown. Until he did n't have a bomb, he looked at the icon in the upper left corner, which showed 95 waves, proving that Lu Yang had smashed 95 waves here. .

He looked at his magic damage, which had reached 1700 points, and the monster that was refreshed was no longer an ordinary monster, but a 2 person tall, wearing a black armored flame demon, but they were no longer being bombed. Blow up to death, but need 2 bombs, because they have resurrection skills.

If it were not for this reason, Lu Yang could explode farther. Looking at the flame demon with 6700 points of blood, Lu Yang knew that he was gone, and he did not force it to attack. So he watched the flame demon killed him.

System prompt: Players enter level 51, please prepare for battle!

A flash of light flashed, Lu Yang sent to the entrance area on the southwest side of the 51 level, and on the wall on the northeast side, 12 double-headed fire demons were suddenly painted.

Two-headed fire monster

Grade: Lower God

Qi and blood: 1700 \ / 1700

Lu Yang smiled. Is there anything easier than fighting monsters here? He raised his hand and aimed at the two-headed fire demon walking towards him.

“Shen Yan Tian burst”

A pure golden fireball hits the two hands of the fire demon, and directly kills the two hands of the fire demon. With only 12 fireballs, Lu Yang finished the first wave of monsters, and the magic consumption returned to fullness in an instant.

He smiled and looked at his hands. He knew that the following dozens of levels would be fine.

.....

The rise of Lu Yang's killing on this side, on the other side, the people of the temple finally found the Vulcan Tower, and they also began to try to fight.

After half an hour except for three people in the whole team of the Fire Temple, dozens of others came out. After another 10 minutes, the woman who had met Lu Yang before came out uncomfortably. Said: "Why is it so difficult, I passed the 11th level."

"You are pretty good, the most of us have passed 10 levels."

As soon as the words fell, the golden lion was ejected by the gate of the Fire Spirit Tower, and the woman also came out, cursing unpleasantly: "I only passed level 12, when did you come out?"

"I am one less than you." The woman spread her hands and said, "Look at how many levels the boss can pass, and then we exchange information with each other to see if there is any missing information."

"I went to rest there, it's too wasteful of consciousness." Golden Lion walked aside to rest.

After another 10 minutes, the captain was also ejected from the gate by a ray of light. Seeing that everyone was there, he did not feel surprised and asked: "I reached level 19, but level 20 couldn't get through at all, saying What kind of feelings have you encountered? "

The woman walked over with the Golden Lion and others, and told the captain of all the things they knew, and when they had finished, the captain began to sum up and think, and on the other side, inside the Fire Spirit Tower, Lu Yang had gone down To the 99th floor.

Relying on high-level injuries, Lu Yang killed the mobs all the way, without feeling the slightest difficulty. It was as simple as hitting a gopher. The hardest thing was that two Shenyang Skyburst killed one, and he got 49 more. The star, and he, has also reached the second reward level of level 100, but this reward

level is different from the previous one. He needs to do more, and the reward is higher, because this level is a Watershed.

Chapter 1771 - Find tom

System prompt: Level 100 is about to start, players please prepare!

The light flickered, and Lu Yang appeared in the middle area of the 100th-story tower. The walls in eight directions simultaneously turned into water-silver light. Then, eight monsters resembling jellyfish, and some monsters like red peony blooming from eight Painted out of the wall.

Crimson Queen

Grade: Lower God

Qi and blood: N \ / N

If you are a novice player, you will be shocked when you see qi and blood, because they do n't know what it means. From the beginning of "Second World" to the present, no strange blood volume is displayed like this. This kind of qi and blood appears because this level is not to fight monsters, but to hide monsters.

What kind of rewards can be given depends on how long the player insists, 100 points for 1 minute, 10 seconds is a critical point, from the 11th second, the reward points doubled, starting at the 20th, give Points doubled, and so on.

Before Wu Tian had 99 floors, the points had been as high as 390,000 points. Normally it should be 99,000 points, but Lu Yang had to play monsters at the butterfly level, which made the points nearly 300,000 points.

“His ~!”

The eight Crimson Queens roared at the same time, and a large number of small golden **** of light were ejected from their flower-like heads. Each one could eject more than one hundred, and the eight together added up to nearly a thousand. .

Lu Yang knew the power of these little golden balls. One injury had 100 points. He could n't even afford two small golden balls, so he could avoid them with all his strength.

The moving speed of the small golden ball is not fast, nor is it a directional attack, but it is radiated randomly, and the purpose is to fill the entire space.

Although Lu Yang's reaction speed is fast, it is still impossible to hide these balls, especially because he cannot predict the light **** that are blocked behind, so to pass this level, you need to use the fourth kind of star, White stars.

“Time and Space Ban”

The 49 levels that Lu Yang had passed before were all white stars, and their use was all prohibited by time and space. Each star can ban the time of space and time for 5 seconds.

Lu Yang needs to analyze all the positions of the light **** attacking him in all directions in this 5 seconds, and then quickly avoid the past.

Although it seems difficult, Lu Yang's reaction speed is 0.42 seconds. These 5 seconds, for his reaction consciousness, is more than 200 seconds in the eyes of others.

The white light flashed, centered on Luyang, and the entire 200-meter space was suddenly shrouded in white light. Nothing else could be seen around it. They were all white, and only a thousand light spots around him could see clearly .

Lu Yang 's head quickly calculated the location of these light spots. He wanted to know where he appeared at what time. 200 seconds seemed very long, but it was actually not enough.

If the calculation does not understand once, Lu Yang needs to use it a second time, but as a result, his reaction consciousness is hurt.

The light spots sprayed by the eight Crimson Queens are getting faster and faster, so Lu Yang tried his best to pass through the light spots when they appeared in front. In addition, during the time and space prohibition, the game is not time, that is, Say, it's still 3 seconds to start.

After 5 seconds, it was time for Lu Yang to complete the calculation. Like a drunk man, he landed on one foot with his body in a flat posture and his arms were still open.

This posture, called drunken man's 108 styles, is a move developed by countless masters of the past to specifically solve this 100th level.

Every time you breathe, you only need to make a simple three moves at a fixed time to avoid a light ball attack. I do n't know how many times here in the last life. This one hundred and eighty styles are almost backed by Lu Yang. By the way, even in the next life, he remembered it as well.

At the moment when he took this posture, a large number of small golden **** stuck to Yang's body and flew past, and even one really didn't hit him.

Lu Yang looked comfortable on the surface, but inside he was counting seconds.

1.3

1.4

.....

2.2

Lu Yang turned to a body under the bow, a seemingly hunched posture, allowing him to escape the light ball that followed.

He pre-read for 3.1 seconds, and unfolded the third posture, just like the white crane spreading its wings. After the three postures ended, the first batch of light **** escaped.

“Huh, it’s okay.” Lu Yang remembered the scene of the last life brushing here with disgust. He shook his head and continued to stare at the eight Crimson Queens, waiting for their second refresh.

After all the little golden **** merged into the surrounding eight walls, the eight crimson queens shook their heads violently, and then ejected a light ball. This time the light ball speed was obviously one third faster than before, Lu Yang took the second A white star, hit it hard again.

“Time and Space Ban”

The space was solidified again, and Lu Yang continued to observe.

.....

On the other side, outside the Fire Spirit Tower, the captain and others were still studying, and even a group of people joined in to study together, but unfortunately, they were still controlled in front of the 13 levels of the Fire Spirit Tower.

“Strange, how did Lu Yang brush more than 30 levels, there must be a secret in it.” The captain scolded.

The woman said: “It should be the reason for the stars. It may be that Lu Yang was lucky and brushed more stars.”

The captain looked upset and said, "Everyone continues to test. We entered the game so long before Lu Yang. They are not as good as he knows the game. It is too shameful to catch up with him."

Everyone nodded.

In the Tom area of the New World, the Legion of the Blood-Blinded Brotherhood once again launched a siege and interception of Tom. From the day to the afternoon, another legion of Tom collapsed.

"We don't fight anymore, we admit defeat." The head of the regiment, Ham, took the initiative to contact the foreign managers of the Brotherhood of Blood.

Tu Feng received the news for the first time and passed the content to Zhou Tianming, who was chasing down the Ham Corps, saying, "They gave up and are willing to provide a hidden location for Tom and his other regiments."

Zhou Tianming's eyes lighted up and said, "I am worried that I can't find them. Let him tell us the specific coordinates. I will directly find Heiyan, and let him use the ban to smash the area and it will be done. "

Tu Feng nodded with a smile and sent a message to tell Ham to let him dismiss the player on the spot. He announced his confession on the forum and the World Channel. The Iron-Blood Brotherhood will not blame him and his men. At the same time, he was ordered to quickly arrive Reported.

"Brothers, I'm sorry." Ham looked at a group of his brothers whose equipment had been annihilated, almost crying and posted the message of confession on the forum and World Channel.

More than 10,000 players saw this news, and at the same time they cried into tears. They persisted for too long, almost three weeks, and the Brotherhood of Blood, like the ruthless devil, attacked them round after round. kill.

Even if they choose to defend on the mountain, within 3 minutes, the sky will fall into a forbidden curse rain. At the same time, the shielded players of the Iron-Blood Brotherhood will attack the mountain with batches of output professions.

“This is how we played back then. Why are we all learned by Huaxia players now.” This is the most difficult fact for all American players who have been attacked by the Brotherhood.

It’s a pity that this happened right in front of us. Ham is lucky here. Unfortunately, another 300,000 players led by Charlie, another large army commander, launched a sneak attack with the Iron-Blood Brotherhood in the desert area near the Blood Language City.

Once the Iron-Blood Brotherhood was attacked, more than 100 lower **** players came to the air and came to the front like a tank, leading the other 170-level dark gold players to counterattack.

Fully equipped lower gods players are not afraid of the output of any occupation below the lower gods, but Tom does not have a lower gods. In the face of the counterattack team led by the lower gods, Charlie’s 300,000 army is constantly defeated.

Defeated for nearly two weeks in a row, and finally, Charlie could not resist, surrendered to Tu Feng, and at the same time, also guaranteed to hand over the detailed positions of Tom and the rest.

Zhou Tianming brought both of them to the side and looked at the two of them and said, “Well, let me tell you, where is Tom? First of all, well, I can represent my boss, Hermon’s name is stinky, it is impossible to be a Tom area. Agent, now you need to choose a new one. You are all senior leaders of the Tom Guild, one is the head of the large army, and the other is the head of the elite army. Who can provide more information, I am willing to support him to become a new one in this area the host.”

“Really?” Charlie and Ham looked at Zhou Tianming in shock, their eyes full of surprise, but this is a considerable income, no one can care.

Zhou Tianming said: “Of course it is true, I still have this right. Of course, it depends on which of you two is more useful.”

“I first say that Tom and nearly a million main forces are hiding in the Blood Rain Mountain, and concentrate everyone on the banned cover can definitely kill them all.” Ham said excitedly.

He is the elite commander who is closest to Tom. He was sent out because he believed him, but Tom did not expect that Ham would betray him after all.

Zhou Tianming looked at Charlie, but found Charlie's face depressed, and said: "What he said should be true, and I guess the blood rain mountain."

"Well, let's go into the Blood Rain Mountain." Zhou Tianming's big sword waved, and more than 2 million players turned around at the same time, heading towards the Blood Rain Fortress from the areas of Guiquan Fortress and Diming Fortress.

The Blood Fortress is already a fortress in the border area. Three more fortresses have been turned over. This is the Claudio area, which should now be called the Gerz area.

"Black flames, please ask for support. Brothers can rely on you to make contributions this time." Zhou Tianming said with a laugh.

"Found Tom's hiding place?" Hei Yan asked.

"Of course, in the Blood Rain Mountain, please mobilize all the forbidden magic masters, I will blow up the Blood Rain Mountain." Zhou Tianming said.

"No problem, you build a sentry tower, and I will rush over with all the main force." Hei Yan said.

"Wait for my news." Zhou Tianming said with a laugh.

Now he is really happy. Whoever thinks that, because of his strong willpower, he has become a top-level master with a 0.1 second reaction speed. Not to mention the blessing of misfortune, he also came to a double happiness, and even Tom's home has been found. .

This time he must prevent Tom from escaping. Since he has to block him, he has to block it all. He called the group phone, including all the main vice presidents such as Baishi, Zhuojia, Bitter Love, Tianyao, etc. Everyone received the invitation.

Chapter 1772 - The Truth of Truth

“What’s the good thing.” The bitter love half a lifetime asked with a smile.

Zhou Tianming said: “Brother, I eat meat, I can’t help but let you drink soup. I found Tom’s Lair. I’m going to defend around the blood rain fortress, and the cemetery is handed over to you. I’ve found black inflammation to cover the blood Yushan, give me the frontal attack and give you the assistant.”

“This gives you stinky.” Tian Yao said jokingly.

Zhou Tianming laughed and said, “Good luck, it’s pure luck!”

Zhuojiu and the White Lion all smiled and shook their heads. They did not mind being an assistant. Now they all want to end the war earlier so that they can exercise, otherwise they will really not keep up with the boss.

“I am responsible for 12 fortresses in the southwestern area of the Blood Rain Fortress.” Tian Yao said.

“I am responsible for 12 fortresses in the western region.”

“I am responsible for the 12 strongholds in the north.”

“I am responsible for 12 fortresses in the southeast.”

.....

The eight main vice-presidents each took over the area, and most of the blood-brothered brothers players who had ended the battle were bored searching, at this time.

“The Seventh Army of the Iron-Blood Brotherhood gathers.”

“The eighth legion assembly.”

“The 72nd Legion Assembled.”

.....

Like a military order, all players who heard the command online quickly rushed to the nearby main city to gather. In less than 2 hours, the tens of millions of players of the Iron-Blood Brotherhood had finished gathering.

In order not to frighten the snakes, all the main vice presidents did not gather around the blood rain fortress, but gathered in the area seven or eight forts away from the blood rain fortress. Later, they arranged people to defend the necropolis and slaughter the surrounding villages. , While gathering towards the Blood Rain Fortress from all directions.

“I have to say that the cooperation of the Brotherhood of Iron-Blood Brothers is really perfect. The relationship between these nine vice presidents is so intimate. How can they do it? They can act in such a unified way, although it seems that Tom did not notice it, but Even if he is aware, he has no ability to lead the team to break through. “Du Bin looked at the video and said.

At the request of Zhou Tianming, this time let him put the broadcast area to Ayala where they killed American players, although the number of viewers in the live room dropped rapidly, but Dubin fight this time, he would rather a while Rebroadcast, and then tell everyone what the war is all about.

This is also what Dubin has been able to do recently. After much consultation, Dubin ’s boss bought the exclusive broadcast rights for the Battle of the Jagged Brothers League, and others are no longer eligible to rebroadcast, not even the dynamics of the Jagged Brothers League. Inquire.

Inside a cave in Blood Rain Mountain.

Tom looked blankly at the forum announcement issued by Charlie and Ham, who had announced his surrender. The vice president looked at Tom excitedly and said, "Boss, we can't stay here anymore. Ham knows your Location, Charlie can guess, we must hurry. "

Tom shook his head and stubbornly shouted: "They can't betray me. They must be forced to surrender without a way. I don't believe they will betray me."

The vice president sighed. Now that they can gather less than 500,000 players, they have been betrayed by the traitors several times in a row. Now the rest are the most loyal and the last card of the Truth Book Association. Even if these cards are lost, then Tom is really finished.

"Boss, don't hold too much hope, even in case we just have to leave." The vice president said.

Tom's eyes were red, and when he was thinking about whether he would listen to his advice, suddenly there was a burst of hiss and vultures in the sky.

"It's not good, the Iron-Blood Brotherhood found us." The vice president looked up and looked at the phoenix flying over them.

Tom's horrified eyes were widened, and he quickly shouted: "Damn bastard, he should betray me, and he will order everyone to retreat to the depths of Xueyu Mountain."

Commands are issued level by level, but they haven't waited for them to pass through level by level. The sky has been clouded, and countless beating elves are flying and rotating around the players under Tom.

"It's over, we're locked by the ban." The vice president murmured to himself. He now reacted. The vultures appeared in the sky, not the enemy's reconnaissance team had just arrived, but had already arrived. They just flew too high, they could n't find it, but the enemy could use eagle eyes to observe below from high altitude, find out the exact location of their personnel, and issue instructions to report that they had come to the nearby forbidden spell master group to use The super forbidden curse makes a directional attack.

“Super Electromagnetic Storm”

“Partition the world”

“Forbidden Curse-Demon Flame”

“Forbidden Curse-Mad Thunder Prison”

“Forbidden Curse-Frozen Miles”

.....

A clear sound of banned spells came from all directions in the blood rain mountain. In the peak areas of the blood rain mountain, there were sentry towers that sent batches of banned magic masters. Under the unified command of the United States, they carried out a cover attack on Xueyu Mountain.

There are now more than 1 million banned magicians in the Iron-Blood Brotherhood, and this time all the members were sent in batches.

The whole Blood Rain Mountain Range is very large, but no matter how big it is, it can't help the cover-up blows of so many banned spells. Du Bin received Zhou Tianming's message and switched the signal to Blood Rain Mountain. It was covered after being seen. According to legend, Tom and his last half a million people were trapped in Blood Rain Mountain. If it is true, Tom will completely withdraw from the game stage of “Second World” and he completely lost. “

Dubin pulled the camera closer. For a time, in the Blood Rain Mountain, there were indeed countless players of the Book of Truth Guild. In the case of a super-electromagnetic storm, they could not use magic, and they cut off the world. Returning to the Celestial City, everyone can only desperately scatter to escape the banned spell.

Some people were lucky to hide under the stone, some people were stabbed and killed by the ground drilled under their feet, and others hid in the cave. All at once, they were all messed up, and at the foot

of the mountain, Zhou Tianming personally took 200 The next **** rushed to the Blood Rain Mountain and launched a final siege against Tom.

If at the beginning of Lu Yang 's war against Tom, the players of the Truth Book Society were willing to shake up for a while for Tom and the Jagged Brothers League, now they have completely lost their fighting spirit, and they have been attacked by the Jade Brothers players in pieces. kill.

A large number of people died from Blood Rain Mountain, just resurrected from the necropolis, and then killed to the next necropolis, and the next necropolis was resurrected, and was killed to the next necropolis. No more.

【World Channel】 Zhou Tianming: All players of the Book of Truth listened to, and all those who withdrew from the guild will not be held accountable. As long as they withdrew from the guild, they will not be pursued and killed again.

.....

In the same sentence, Zhou Tianming kept posting on the World Channel, and the truth book players in this area were really dead. Finally, someone was the first one who could n't stand it, in a state of soul. , Tore off the guild badge, opted out of the guild, and said: "I am worthy of Tom. It will take at least two months to return to the original level and equipment. I am not sorry for him."

"I also left. Not only did we not be sorry for him, but he did harm us, he did not honor his promise."

"He is a liar."

.....

A large number of Truth Book Guild players could not bear it, and they chose to withdraw from the Guild. For a time, it became a trend, and millions of people in the entire Guild took turns in turn.

There were only guilds with less than 5 million people left, and millions of people left. Except for zombie players who did n't go online, there were actually less than 3 million people in guilds, but these people

were either hiding in the Celestial God City. Dare to come out, or hide in a certain copy, the Book of Truth can form a guerrilla war against the Iron-Blood Brotherhood, leaving only a small player team of three, and this team, even 10 members of the Iron-Blood Brotherhood. The team can't beat it.

Zhou Tianming looked at Tom trapped in place, sneered, and said: "President Tom, I finally saw you, how are you going? Continue to fight?"

Tom didn't seem to hear Zhou Tianming's words, so he bowed his head and didn't say a word. Xia Yuwei, White Lion, Zhou Tianming, Zhuojiu and Tianyao, etc. Around Tom, this scene suddenly inspired Dubin to burst. He quickly took screenshots at various angles and directions, and at the same time passed it to some of the world's most famous oil painting masters.

In this world, no matter who it is, you know what the game "Second World" is like, even the master oil painting clearly knows what this scene represents, this represents the fall of a king, and it also represents iron blood. The heroic merits of the nine main vice presidents of the Brotherhood.

Without Lu Yang's leadership, they completely defeated a top guild on equal footing with them, and forced the president of the guild to sit in the same place without saying a word.

Tom is a president who controls millions of players. Think about the way he was energetic, and then look at how he is down now. No one can imagine what kind of pain he has experienced.

This painting feels like a miserable situation when a defeated king is surrounded by victors, and it is also like the victor finally defeating the enemy and suppressing evil to speechless scenes.

For a time, many oil painting masters burst into inspiration and asked Du Bin to pass on the video. They watched the video carefully, compared the photos, and began their inspiration creation.

Tom did n't expect that he would fail so badly even if he failed. What 's more important is that his failure really carries such a tragic color. This is a perfect story of loving the beauty and not loving Jiangshan, because Al Themis, he lost the support of Christina, and then, the guild split, gave Lu Yang and Gertz the opportunity, and ultimately, triggered all these defeats.

Chapter 1773 - Tom defeated

Tom suddenly looked up at the sky, then sighed his head, looked at the people around him with a smile, and asked, "What about Lu Yang? Why didn't he come?"

Zhou Tianming put away his arrogance and sincerely said: "Our boss can't come out in a special map, otherwise, he will definitely come to negotiate with you personally, not to humiliate you, you are the first to allow the Iron-Blood Brothers Alliance to have absolute Under the advantage, it still blocked us for three weeks. It is also the first person who resisted the two strongest guilds and supported three weeks. You have proved your strength. "

Tom's anger was dissipated by Zhou Tianming's words. He laughed at himself and said, "Maybe people of my character are doomed to fail, okay, if you fail, you will lose. I declare, the truth The Society of Books is disbanded. Within three years, I will not enter the game in any form anymore. My family is also yours. It 's just that the heart of the artifact I keep selling money. I believe that President Lu Yang will also agree with me. Ask for it. "

Zhou Tianming nodded and said, "I can't contact the boss, but I believe he will agree. Please dissolve the guild first. Follow-up matters. Before this evening, our boss will definitely give you an answer. Let 's take a break.

There are many follow-up things, although Tom disbanded the guild, but so many people who followed him, he could n't throw it away, then he would have to be pointed out by thousands of people. In any case, he must give an explanation to his men. Everyone was chilling.

"Okay, I promise you, exactly, I also need a good night's sleep." Tom said mockingly, he hasn't slept for a long time.

"Ms. Artemis has been invited to the game by me, and she will be with you." Xia Yuwei said, he just passed the invitation from Qingqing Zimeng, Artemis also agreed.

"Okay, let's go." Tom opened the guild interface and looked at the red button for disbanding the guild. After hesitation, his finger finally pressed the button to understand the dissolution.

[World Channel]: Player Tom dissolves the Truth Book Guild!

.....

One stone caused thousands of waves, and the whole New World was shaken. This is the second strongest guild to date. The first is the dissolution of Olma. Unlike Olma, Tom is an American player. The Brotherhood actually disbanded the strongest guild of the United States. This kind of vibration is a huge earthquake like Mars hitting the earth.

“Lu Yang is really crazy, didn’t he think about revenge afterwards?” Radvedev said.

“How much capital will come in, Lu Yang is in trouble.” Rogers sighed.

“Lu Yang, do you really think I can’t beat Tom? I just don’t dare to fight, now it’s okay, he’s finished, I’ll fight him again, it has nothing to do with me.” Jerzy said with a laugh .

Sanyou Weimen murmured with tea in his hands: “We have known this problem with Tom for a long time, but why haven’t we eliminated him for so many years, just because the stealth strength behind him is too strong, now it seems that Lu Yang Poke the horse honeycomb myself. “

.....

Almost every strongest guild president who knew that Lu Yang had destroyed Tom was sighing for Lu Yang’s stupidity. On the other side, Lu Yang was still fighting in the Fire Spirit Tower and knew nothing about the outside.

System Tips: Congratulations to the player who has passed 100 levels, rewards: Fireball X1, Shenhua Crystal X1, Shenhua Staff X1, temporary suspension 1 time!

Lu Yang smiled. These are just the things he needs. He put all the items in his backpack. He chose to pause once and played all day. He was also tired and needed a rest.

He glanced at the points. His score in the Vulcan Tower has reached 1.35 million. The points for this level of reward are equivalent to more than half of the previous 99 levels. This is the point after the card bug. Obviously, this There are too many points for a reward.

With such high points, the rewarded items are generally the lower-level God's Tier 3 and Tier 4 suits, or items such as Shenhua spar, and even rare items, but this is not enough. Lu Yang's goal is to impact 3 million integral.

Remember that some people have rushed to 3 million points before. According to legend, it can be used to upgrade materials for the upgrade of artifacts such as the Devil's Heart, which is what Lu Yang wants most.

The light flashed.

Lu Yang teleported back to the Heavenly God City, just after landing, he found countless news inside his friends.

"Dididi"

"Dididi"

.....

Lu Yang opened it and looked at it one by one. The first one was sent by Zhou Tianming. He reported to himself that he had defeated Tom, followed by the messages sent by Zhuojiu and the White Lion and others, which described the specific situation of the war. Tu Feng's report.

He glanced briefly, sent a message to Zhou Tianming and Tu Feng and others, and returned to the Guild Hall, and found that Vice Presidents Zhou Tianming, Bai Shi, Zhuojiu and Xia Yuwei were waiting for him in the hall.

"Boss." Nine people saw Lu Yang coming back and immediately gathered around. Zhou Tianming said with some anxiety: "People caught it."

Lu Yang asked with a smile: "What do you do with a frustrated look? You thought you lost."

Zhou Tianming smiled awkwardly and said, "Isn't this an accident?"

Zhuojiu signaled that he shouldn't worry and said, "There is such a problem. When Tom announced the dissolution of the guild, many people came to us to talk to us a lot of words. Some of the most prestigious people in the game, even some big stars, come to join in the fun, Germany, France, Japan, the United States, which countries have them, the nine of us just took a lot of effort to receive them . "

Xia Yuwei said: "They mean that Tom can't just wipe it out, otherwise it will cause some privileged classes to be overlooked."

Lu Yang smiled and said: "So you are a little worried, afraid that those people will secretly gather forces to find our trouble."

Turbid wine said: "We are not afraid of things, but we are afraid of causing trouble to the boss."

Lu Yang nodded. Sure enough, he was still the most important. He looked at the nine people with awe and said, "Today, I'm sure one thing with you. Do n't be afraid of offending people. We are so powerful in the game that it will make many people watch it. But eyes, I want to wipe out more people, if we are afraid of this and that, we can not develop today, believe me, whoever is in trouble, just do it and beat him in death, in reality we are all Ordinary people, but in the game, we are the gods, whoever disobeys will destroy them. "

Zhuojiu and the White Lion smiled and looked at each other, each with a relief expression on their faces.

The white lion said disgustedly: "I was scared to death. I told you that the chairman of our biggest chamber of commerce in China just now said that the old man grabbed my neck collar and told me that I was saving you ~~! That expression, Fortunately, I closed my eyes and shut my mouth, otherwise his saliva would spray into my mouth, and I was disgusted. I can't call him, he is kind! "

Everyone laughed.

Lu Yang said: "Persuade them to go, thank them for their kindness. This is a game is not a reality. Our guild is neither listed in the US stocks nor the company is in the United States. This is a completely independent company. They ca n't manage them. There are things. Solve it in the game, but in the game, who are we afraid of? "

This is not Lu Yang blowing, but the Brotherhood of Blood Alliance can really do this. All the guilds of the New World together ca n't destroy the Brotherhood of Blood Alliance. Of course, if all the organizations including the temple and the saints come, then The Iron-Blood Brotherhood can't bear it, but can they join together, or can they really help a guild?

I have to say that when I think of them, the sense of urgency in Lu Yang's heart really came out, saying: "The battle is over, dismiss the players, let everyone free to fight monsters and upgrade, we quickly get more subordinate **** equipment and materials, It is important to improve the player's strength. In addition, everyone should try to find players with quick response under their hands. Some of these things are born and some can be trained. When they find good seedlings, they are recruited into the game city. We focus on training. "

"Yes." Zhuojiu and the White Lion left.

Lu Yang went to the second floor and saw Tom who was chatting sweetly with Artemis in his parlor. He smiled and said, "President Tom, it looks like you are in good spirits."

Tom saw Lu Yang, his face stiffened, and then resumed his cynical smile, spread his hands and said: "There is no way, born with this character."

Lu Yang smiled and asked, "Do not mind if I come in."

"Of course, this is your guild." Tom shook his head and said, "Just hate you hypocritical people. Why do you talk with Sanyou Weimen with false politeness?"

Lu Yang smiled and shook his head, said: "Sanyou Weimen's routine is learned from us and we are called Zhili etiquette, they are called fake polite."

Tom's expression with too lazy to ask, "Speak, what do you want me to do in the future?"

Lu Yang said: "All your existing assets belong to you personally, we will not move at all, if you have the heart of the devil, you want to sell and sell, and we will not stop, asking for only one, as you said, three years It's better if you do n't enter the game anymore. In addition, you can be a commentator or commentary guest. We do n't limit it."

Tom chuckled and said, "You're the way to go. Many TV stations have hired me to explain at a high price. I'm thinking about thinking from another angle."

Artemis glared at the landing sun and asked, "Did you let Qing Qing Zi Meng deliberately approach me?"

Lu Yang nodded with a smile and said, "Don't blame me. Although this is a game, it is also a battlefield. I can use everything I can use, not only for you and Tom, but for Orma and his brothers, these I have used all the tricks, otherwise Orma is not so easy to defeat."

"You're real." Tom stood up and stretched out, saying, "Comfortable, I don't have to face the tiger girl anymore, and I can finally live my own free life."

Lu Yang said: "Congratulations."

"Congratulations to you, it seems that you are not far from unifying the New World, but be careful of this area, you only defeated half of me, and half of the strength is in Christina's hands, he has a lot of subordinate gods, and he did not participate in the war Just because I do n't want to help me, be careful, do n't be defeated by him, then I will be more embarrassing." Tom took Artemis away.

Lu Yang nodded his head, which was in line with reasoning. He was still thinking about how the temple organization would find Gerzi instead of Christina. Obviously, the temple had invested in both aspects, but Christina did n't want to help Tom, So, obviously, the next war is to see who Christina is teaming up with.

He called Tu Feng and said: "Focus on tracking down the power of Christina in the game. He has many lower gods in his hand. Lock the position of these lower gods as soon as possible. Also, the lower gods of other major gangs must also keep statistics. To provide detailed data for the next war. "

Tu Feng said: "Yes."

The war is basically over. The next stage of the war will take place during the summer vacation. This is the best time for Lu Yang to eliminate Christina and Gertz. At that time, the armistice contract between Sanyou Weimen and Rogers has not yet expired, even if there is only one The month is enough for Lu Yang to kill Christina and Gertz.

He clicked on the video connection and sent it to Ayala, Li Wenxing, Padu and Hilde respectively.

The light flickered, and the projections of the four people appeared in front of Lu Yang almost at the same time. They said respectfully to Landing Yang: "Boss."

After the battle against Sanyou Weimen and Tom, the four people looked at Lu Yang's eyes full of worship and admiration. With his own strength, he killed the Iron-Blood Brotherhood from the northeast corner of the New World to the hinterland of the New World. The rest of the seats, consecutive defeats of Park Ren-yi, Tianlong, one step to the sky, Galga, Heisha, Orma, Alice, and many other opponents they felt afraid of when they thought of them, they completely surrendered to Lu Yang. Surrender inside and out.

Lu Yang looked at the expressions of the four of them with satisfaction. Now he can understand why the wise emperors of all generations are willing to fight. It turns out that fighting is the best way for people to submit. These four submissions represent his control. Regional peace and stability means that a steady stream of money will flow into the accounts of the Brotherhood of Blood from the area they control, and there will be funds for the next war.

Lu Yang sat on the chair and said to the four people with a relaxed expression: "I see your credit for this battle. Today, Tom is defeated. I will reward your existing area according to the previous agreement. for you all."

The four Ayala looked at each other, and all looked at Lu Yang excitedly. Ayala couldn't help but bowed to Lu Yang and said, "Chairman Lu Yang, thank you for your generosity. These are rich. Local, we will make more money. "

Padao bowed to Landing Yang at the same time and said in unison: "Thank you President Lu Yang for his generosity."

Lu Yang smiled and said, "Are you guys rehearsing now? Don't be polite with me, this is what you deserve. As long as you continue to follow me, I will take you to wipe out the new continent. , When making money, I will let you make money just like me. "

The four people were sincerely convinced that the area that Lu Yang arranged for them to belong to was a grid area, and they were definitely given to them without really determining these areas. Now Lu Yang has done it. The area for them is the nearest fortress to the enemy. 4 fortresses, that is to say, even if there is a war in the future, their fortress is not the border, and will not be the first to be attacked, which means that Lu Yang gave them the richest area, and the most dangerous The area is left to myself, which is also the key to the four of them, which shows that Lu Yang is sincere to them.

Padu was worried that Lu Yang was testing them, and could n't help but ask, "Do you really need us to help you defend the border area?"

Lu Yang smiled and said, "The border area is too expensive. If you want to operate a border fortress, you must invest all the funds. I will not harm you, so you can rest assured that the border area is for me. Defense. "

The four nodded in exclamation again. Indeed, as Lu Yang said, the defense requirements in the border area are too high. Since the skill of "Break the World" came out, all guilds no longer dared to put all the supplies into the Heavenly God City Inside the warehouse, but all hidden in the fortresses defended by heavy soldiers.

“Partitioned World” is too arrogant, no matter how many reserves you have in this guild, and how many people in this guild, if you are in the partition world, if you can't return to the Celestial God City to get equipment, you will be attacked by players of the same guild. Heaven will lose all equipment and only accept the fate of failure.

For this reason, the major gangs can only increase capital investment in the new continent and provide a new round of defense to the major fortresses. Therefore, the border area has become an important town.

This important town means not only to place a large number of spies in the enemy's fortress, but also to buy the other's personnel to provide intelligence, but also to build your own fortress like a steel hedgehog. The most important thing is to have every day. Tens of thousands or even hundreds of thousands of players are defending near the fortress, and there must be a subordinate **** profession, otherwise they will be attacked by the subordinate god, and the valuables in the warehouse will be lost.

Although they are affiliated guilds of the Brotherhood of Blood, they have 20% of the fortress resources in their hands. Even if they have enough fortresses, they still cannot afford this cost. Only Lu Yang can afford it.

Padu bowed again and said gratefully: “Thank you President Lu Yang for understanding us.”

Lu Yang said: “Although the defense in the border area is difficult, but the border area will also have a good income, I will not suffer too much, and, in order to make the area more prosperous, I will gradually open up the business system, everyone can In all of our regions, trade is free, the monopoly of the monopoly, the exclusive exclusive, you write a plan yourself and submit it to Tu Feng for review. If he passes it, there is no need to contact me. “

Border trade is now an important economic source, not to mention other positions, let alone the border trade between the Jagged Brothers Alliance and the Japan and Rogers regions, the daily trade volume is more than 100 million US dollars, and sometimes it can reach 5.6 billion trade. scale.

Both sides have materials that are in short supply in the other area. It is difficult for players to get to the next level of gods. This requires a lot of experience and money to support, and also need to learn enough high practice to transfer.

Together, these troublesome things make players below level 180 still the mainstream of this game, and the next **** is just a few people's carnival.

The full server has a population of nearly 4.5 billion people, of which more than one billion are in the Jagged Brothers League. The materials for border trade are all available to these more than one billion players. In this way, the net profit earned every day Both have billions of dollars.

This money is not only enough for Lu Yang to pay the defensive fortress players, but also the surplus is used to prepare for the future war. Of course, although this thing makes money, but he pays too much, he needs to talk to Ayala and Li Wenxing Make it clear, so as not to cause unnecessary misunderstanding.

The four Ayala knew what Lu Yang meant. In fact, they were not stupid. They knew that border trade made money and knew the danger of border trade. Before the Jagged Brothers caught Tom, they each understood the account. They knew what they should and should n't, but they did n't expect that what Lu Yang said was what they wanted, and they did n't need to speak at all.

As for Lu Yang 's internal profit, this is the welfare that Lu Yang gave them to the affiliated guilds and the headquarters of the Brotherhood. The northeast region needs supplies from the central region, and the east region also needs supplies from the northeast region. Yang does not open the fortress to send, only the ability to send to the headquarters of the Brotherhood of Blood and the affiliated guild will allow them to monopolize the trade of these necessities, so that the money will be earned for them. The so-called consultation is that The prices that players in all regions can afford are just a few.

"Boss, rest assured, we will do everything to satisfy you and not cause you trouble." Li Wenxing said excitedly.

Sidell thought for a while and said, "President Lu Yang, there is one more thing I hope you can help us."

Lu Yang said: "The next **** thing, materials and equipment, I can only give you 50 servings per person, 100 bottles of medicine per day, and others, you need to work hard to fight yourself."

The eyes of the four people turned on, they thought Lu Yang would not give it, you know This medicine Lu Yang sold for a high price, but unexpectedly Lu Yang was willing to give them for free, which made them overjoyed.

“Thank you for your generosity.” The four of them bowed again.

Lu Yang said with a smile: “Go busy.”

The four people bowed, and Lu Yang closed the video connection. Tu Feng had detailed data of the four affiliated guilds. Basically, each affiliated guild had a level 180 player with a bonus of 1,000 people, and was able to promote to the next god. It is just that he has no materials, equipment and potions. Now he provides the four guilds with materials and equipment for 50 people. The potions are basically in an unlimited state, enough for them to lay down the materials and equipment of the gods. , It depends on their own skills.

Ordinary subordinate gods are not difficult to obtain. What is really difficult to obtain is a subordinate **** with a response speed of less than 0.1 seconds. There is no such kind of person. When fighting, they are thousands of enemies. The most important thing is to find such talents. .

Lu Yang had always worried that there would be elite subordinate gods entering their area to find trouble, but now it seems that even the organization of the temple type, it is difficult to find how many elite subordinate gods, as for those subordinate gods who were cultivated by them I can't figure out how to fight the war, just like the old enemy who appeared before, it's the same as death.

Since they can't figure it out, then don't blame Lu Yangkeng for them. Although the lower **** is invincible to players below level 180, it is relative, he has a way to crack it, but it must be through the fire spirit. Only after the tower.

Now everything in the guild has been solved, everything has been solved, he can also take a good rest, and tomorrow will officially deal with the 101st floor of the Vulcan Tower.

Chapter 1775 - Demon God's Heart (Artifact)

That night, Lu Yang rested. This was the first time he had a good night's sleep since playing against Sanyouweimen to Tom, but his self-discipline did not make him get up late, but instead got up at 6 o'clock as usual and exercise. Then enter the game.

Tu Feng reported at breakfast. The main opponents Gerds, Radvedev, Rogers, Sanyou Weimen, Liu Jie, and Steiger all began to waste their 180-level subordinate maps in their territory, and there is no trouble, and the energy is not distracted.

Zhuojiu and the White Lion and others brought the nearly 500 subordinate gods in the guild to Lu Yang's side, and Zhuojiu said: "We have also played equipment."

Lu Yang said: "People who meet Christina don't want to go to war easily, and they're sure of their number."

White Lion and Zhuojiu and others nodded their heads, and each happily took people to the 190-level map.

System prompt: When the storage time is up, will you return to the Fire Tower?

Lu Yang chose to return, and a flash of light flashed. He appeared on the 101st floor. From this level, the monsters he encountered changed back to the monsters encountered in the first level, that is, the fire spirits, but these Sholing's blood volume more than doubled from the first level.

Les Fires

Grade: Lower God

Qi and blood: 2400 \ / 2400

Not only do these Fire Spirits have more blood volume, but their movement speed also increases. It turned out that they needed 15 seconds to move to Lu Yang, but now it only takes 10 seconds. That is to say, Lu Yang must kill within 10 seconds. Die them.

Now Lu Yang's magic damage is 482 points, and the total damage is 582 points when he counts the skill damage. The kill is still not difficult. This is the result of the accumulation of bugs in his card before. Now I see the newly painted Les Fire Spirit. , He raised his hands flat.

“Shen Yan Tian burst”

.....

The red fireballs were shot one by one, and soon, he reached the tenth level again. Similarly, Lu Yang started to blame again, but this time it was not so easy to get stuck. He only got 50 mutant butterflies. Can't get stuck anymore, but fortunately he got enough golden stars and bombs.

He then passed the level, so that when he repeatedly brushed to the 200th level, finally, his body couldn't hold up. This time, there was no longer a pause, and he could only fight.

Lu Yang escaped all the light balls, and reached level 201. His points also reached 2.999 million, which was only 100 points away from the 3 million points. He only needs to kill one more monster.

But the strange thing in level 201 is that Lu Yang can't resist it now. Lu Yang's consciousness connection is almost disconnected from the helmet. He barely launched the suspended white star and used his skills to kill a small one. strange.

System prompt: Congratulations to player Lu Yang for reaching 3 million points!

The next second, Lu Yang only remembered to pre-read the back-to-city roll, and forced to quit. He almost fell to his knees in the room with his head covered, leaving the black and white at the gate with a horrified expression, and ran over and asked : “Boss, what's wrong with you?”

Lu Yang waved his hand and gritted his teeth, said: "Use your brain too much, don't worry, just recover after a while, help me go to the sofa."

Black and White quickly picked up Lu Yang and put him on the sofa to rest. When Lan Yu came to take care of him, Lu Yang slept on the sofa for one night, but when he got up the next morning, Lu Yang found himself The spirit is better.

"Strange, not only does my head hurt, but there is also a sign of increased reaction speed." Lu Yang said.

Lan Yu said distressedly: "Go for a bath first, then have some breakfast."

She knows that the man she loves has ideals, so she will not hinder, but will only accompany and help.

Lu Yang said with a smile: "I'm fine."

Before he killed Liu Jie, he would be fine. After a brief wash and breakfast, Lu Yang returned to the gym and worked hard.

More than a dozen people such as White Lion and Zhuojiu are exercising, and every one is sweating like rain. Obviously, they have been here for a long time.

"Early ~!" Lu Yang smiled and watched them greet.

"Boss early." Duojiu and White Lion shouted as they exercised more than a dozen.

Zhou Tianming and Kuaiban Bansheng both laughed and watched Zhuojiu as they became individuals. The bitter love of Bansheng said with a look of sorrow: "Let you not exercise at ordinary times, let me, Zhou Tianming and the boss exercise every day. Lose it, lose it, brother torture you ten. "

White lion, white tiger, white wolf, who along with three teeth and liquor bitter love staring at the half, Xia Yuwei upon her fist and said: "Hold your little bitter, so we exercise ended, non-hit you can not. "

“Agree.” A group of people said together.

“Uh ...” In the embarrassment of bitter love for half a life, he scratched his head and said with a smile: “Well, I won’t disturb you anymore, I also went to exercise, we work together, work together, and progress together.”

A group of people no one talked, all stared at him with death, scared and bitter love quickly ran to exercise.

Lu Yang couldn’t help but smiled and shook his head, said: “Everyone cheer, as long as I teach you how to enter 0.1 seconds is not a problem.”

As for entering 0.1 seconds, it depends on talent. This is not something that can be forced. Genius is fully applicable in this game.

The white wolf looked at Landing Yang depressedly and said, “Boss, you are so god, how can you still exercise and leave no way for people to survive.”

Baihu said: “This time you can’t beat it completely.”

Lu Yang smiled, exercised with a treadmill first, and said: “You insist, who knows where your limits are, maybe I can break through.”

Everyone: “...”

The lovely queen was not far from Lu Yang. Looking at Lu Yang, the little girl wiped tears from the corners of her eyes and said, “The old lady is also fighting, too painful, woo ~~!”

Lu Yang laughed, and the lovely queen usually did n’t like to exercise anymore. This time it seemed to be hit. In the state of the lower god, Lu Yang showed them a demo video. They could n’t even see how Lu Yang attacked. .

Not only moves fast, but also attacks the skills quickly. It is a game of competition speed. It is impossible for them and their management to not exercise. If they do not work hard, they will command the battle in the future, they will not understand.

Zhuojiu said while running: "Boss, I just reported to you about the situation. In the morning, we made a few statistics. There were more than 500 subordinate gods. The number was 2,500, but the equipment was lacking. If we can add equipment to these 2,000 people, we are confident that the geometric multiple will increase the number of lower gods. "

Lu Yang said: "I will go online for a while. I completed a special task yesterday to see if I can give what I want. If it is given, I will be fully in charge of these people."

Everyone's eyes lit up, and they were curious.

Shook his head in black and white and said, "Don't fight like that. Last night, you were automatically disconnected by the helmet. Your head hurt like that. I almost carried you to the hospital."

Zhuojiu and the White Lion were surprised, and they looked at Lu Yang and asked, "What's going on."

Lu Yang looked at black and white with a smile, and said, "What are you doing?"

He said to Zhuojiu and others: "It's okay, challenge the limit, it seems to be successful, what you give, you have to enter the game to know."

After all, he popped out.

Now, no one like Zhuojiu or White Lion has lazy emotion anymore, his boss is so arrogant, so rich, and so prestigious, so desperate, they have no reason not to desperately. .

For a time, everyone increased the amount of training. After three hours, Lu Yang and everyone finished the exercise. He re-washed and returned to the game. Now he urgently wants to know what good things the Fire Ling Tower can give. But he scored 3 million points, and he can give the highest reward, but the highest reward has five kinds of items, he only needs one of them, it all depends on it.

The light flashed.

Lu Yang appeared in the safe area of Tianyu Shencheng, and was being stared at by a group of people watching the play.

“Wake up, he wakes up.”

“It’s really the president of the Brotherhood of Blood, not just looks like.”

.....

Lu Yang found that he had been seen as a monkey, he couldn’t help but smiled and shook his head, secretly thinking: “You can’t be so reckless next time, and it won’t take long for the Space Law God to send the 200-level lord monster to safety Come inside, the safe area is not safe. “

It was Monster Slaughter City at that time, and it was a good opportunity to become rich!

Regardless of the surroundings, he opened his backpack and looked at what he had obtained. The Shenyang Scepter received a total of 7 pieces. Shenyang helmet, clothes, pants, shoulder guards, wrists, handguards, belts and shoes It’s all done, a whole set of Shenyang equipment and Shenyang jewelry, he glanced at his attributes.

Luyang

Look at this attribute If there is no word of God in front, it is like returning to the game just started. This attribute is not as high as the Devil's Heart.

He continued to look down. A red blood clot stayed quietly in Lu Yang's backpack. When he saw the blood clot, Lu Yang's eyes widened, and he could n't help but say excitedly: "I got it, I really got it . "

Demon God's heart is broken

Description: The last composition of the Demon God's Heart. Using this, you can turn the Demon God's heart into a true Blazing Devil's heart.

Lu Yang clenched his fist hard, this thing should normally be a 200-level monster, that is, it can only burst out of the upper gods. It may be thought that Lu Yang has completed the impossible task set by the official, and has fallen to the 201th floor. The number of layers is not the main one. The main thing is that Lu Yang swiped more than 3 million points and got the highest reward that can be rewarded.

Perhaps the official setting of this reward just meant something. He did n't think anyone could get it. However, Lu Yang really got it. Looking at the blood clots in his backpack, he knew that it was time to synthesize the heart of the demon.

“Magic Space”

Lu Yang turned into a ray of light and disappeared in the same place. The next second, he appeared in the Demon Temple and quickly came to the apse. Above the altar, the 9th-level Demon God 's heart was shining crimson light, and Lu The blood clot of the devil's heart in the Yang backpack seemed to echo, followed by a red glow.

Chapter 1776 - Invincible existence

He put two objects on the altar together.

System prompt: Is it synthetic?

Lu Yang chooses, synthesizes!

A fierce light suddenly detonated in the altar. In a blink of an eye, Lu Yang was shrouded in crimson light. In this light, he could not open his eyes at all, but he seemed to have a heart-to-heart feeling, the demon **** The heart is like his heart, so slowly approaching him.

This time is very short, but it feels very long, as long as six years, but it really only took 6 seconds.

The heart of the Demon God flew to Lu Yang and suddenly disappeared. The next second appeared in Lu Yang 's right chest cavity. Blood vessels appeared, reconnecting the blood vessels in Lu Yang to form a

double heart operation. The reason is that it is because From then on, unless Lu Yang took the initiative to take out the Demon God's heart, otherwise, the Devil God's heart will never fall and be connected with him for life.

A news came in Lu Yang's mind.

System prompt: The heart of the demon is promoted to the lower artifact!

Lu Yang smiled, he looked at the attributes of the Devil's Heart.

Heart of the Demon God

Level: Lower God Level 1

Power of God: 10 points

Intellect of God: 50 points

God's agility: 10 points

Endurance of God: 10 points

Physical Strength of God: 10 points

Shenhuo skill level +1

With special skills: Demon God Control

Lu Yang looked at the final skill and smiled more on his face. This is a super control skill. He instantly turned his arms into the target with flames. After he caught it, he caused spell damage +300 spell damage every 0.1 seconds. Duration 1 second, and grab the target to the specified location.

This skill is Lu Yang's most lacking control skill now. With this, it is easier for him to fight monsters. He continues to look at other items, all of which are fireballs. There are 12 in total, including 7 previously. He can bring 19 people to Lava Sea.

He sent a message to 19 players, such as Little Fireball, Vulcan M16, and Black Flame, who got the lower gods of the fire department, and said, "Quickly report from Thunderfire Fortress, take you to the fire department equipment."

"Yes." 19 people including Heiyan quickly left the current battle and flew to the Thunder Fortress.

The light flashed.

When Lu Yang came to the Thunderfire Fortress, Heiyan and they had arrived. When he saw the little guys coming over, he gave them the fireball and said, "Take this and run to the Lava Sea, be careful on the road, if you encounter someone, immediately use the invisibility potion to hide. The person you meet must be the temple. There are more than 60 of them. Do not fight them directly. Wait until the coordinates I have given you, and then send me a message."

"Okay." Heiyan said.

Lu Yang looked at Heiyan and said: "You have a good chance to enter within 0.1 second, continue to work hard, don't fall behind."

"Yes." Heiyan could feel Lu Yang's care for him. Recently, he was also very depressed. Before he and Zhuojiu and others saw his boss exercise every day and thought it was his habit. Increase the speed of conscious response in the stage.

They only exercised with Landing Yang for three years and did not exercise, which led to a huge difference between Lu Yang and Han Ying and Han Fei after opening the Shenjing expansion, which made him I have been trying hard to improve myself recently.

Lu Yang said: "I flew in first, there are too many things to do, you lead the team in."

He took out 7 more Shenyan scepters and handed them to Heiyan, then put on the flying dragon and flew straight into the lava sea.

The edge of the lava sea.

"In the future you must listen to our arrangements, and I will tell you what to do."

"There are the middle **** and the upper **** behind the lower god, this game is not as simple as you think, you just master the fur."

.....

Christina is leading more than 100 people behind the Golden Lion and the captain, watching the chattering arrogance of the two in front. Christina's eyes are full of coldness, and she secretly said: If you don't need these people to help, I really want to dump these people. He does n't look at his identity.

Although Christina doesn't know who they are in reality, but they know from their conversation that this is a group of poor ghosts who have never seen the world. Usually such people are his servants, but now they look tall. , She has reached the extreme, but now she needs to rely on this group of people.

Originally she had decided to quit the game, but many people found her, hoping that she would continue to lead the team in the game, and the players under her had the same idea. Without any way, Christina returned to the game again.

At this time, she had more funds than Tom had at the time, and the American regional players who had been killed and collapsed all agreed with Christina, hoping that she could recapture Tom's area and drive away the Iron-Blood Brotherhood.

Now that she has people and money, she lacks equipment and levels. At this time, Golden Lion and the captain took the initiative to ask them to cooperate. At first, Christina was not happy with them, but

when the captain defeated all the players around Christina alone, Christina realized that these people were extraordinary, and they agreed to each other's conditions, but this was for cooperation and interest, but these people were not qualified to speak to her in such a brave tone.

"Look at everyone, heaven." Vice President Quentin excitedly pointed at the golden flying dragon in the sky.

Everyone looked up and saw that this flying dragon was familiar to them. It was the key reward of the Fifth Global Competition, and it was the only pet rewarded to Lu Yang alone-Flying Dragon!

"Everyone will hide." The captain lowered his voice and quickly pulled everyone into the black forest beside him. When Lu Yang flew away, he showed his body and scolded: "This **** must go to the Fire Spirit Tower again." Now. "

Quentin and Christina looked at each other in surprise, then looked at the captain and said, "Aren't you a temple organization? Why are you so afraid of Luyang?"

The captain looked at Quentin coldly and said, "What do you know? Lu Yang's reaction speed has reached a very high level. Although he does not know what his equipment is, it is definitely not what we can fight now. Yes, the upper levels of our temple are capable of fighting him, but I can't reach this kind of battle. "

The golden lion said more freely: "I'm not afraid of you jokes. None of our 60 subordinate gods beat him. Do n't even think about it. You can honestly improve your equipment and increase the speed of awareness. At his level, we can't beat it. It can't be beaten, it can't be beaten by sneak attacks, hard power crushes everything. "

Christina and Quentin and others have been tired of the arrogance of the captain and the Golden Lion these days, and suddenly they heard them praise others, so they were very surprised, and they were very comfortable They boasted that Lu Yang was unhappy again.

"I heard you said that the speed of consciousness reaction can really make people achieve a response speed of less than 0.1 seconds? Isn't it the same as the phantom?" Asked another vice president, Diesel.

The captain sneered, and the body instantly transformed into three phantoms in situ, asking: "Do you know which one is me?"

Christina looked closely, pointing at the left and saying, "This is the one on the left."

The captain smiled, he suddenly slowed down, and the curious expressions of Christina's three people gradually became stunned, because they found that the three phantoms were all the captain himself. It was not a skill at all, but because His speed was too fast, which gave their eyes an illusion.

"Scientific research has shown that the human eye is a visual animation stop function, which is about twenty-fourth of a second. As long as I use the ember effect to move at high speed, I can create this effect. When attacking, I can achieve three phantoms. The attack is almost simultaneous, but if it is a person who reacts under 0.1 second, he can catch the flaws exposed by my attack and kill me." The captain said.

Christina widened her eyes in shock, and said, "Isn't Lu Yang invincible?"

The captain said: "There are two ways to defeat him, one is to delay the time, and the other is to have enough people. Therefore, I have spared no effort to train you. At the same time, I hope that some of you can increase the reaction speed to less than 0.1 seconds. to help."

Christina understands it and put it bluntly, Lu Yang is invincible now, they can't beat, so they need the help of these people.

Chapter 1777 - Divine Skills-Demon God Control

Again, these people are not too mysterious, and they can't beat Lu Yang, which proves that as long as more people with a reaction speed of less than 0.1 seconds can be found, these so-called temples and saints are not afraid to be organized. Too.

Christina stared at Lu Yangyuan's figure in the sky, and sent a message to his real men, saying: "Find a professional instrument to test the speed of consciousness reaction. We will pay a lot of money to anyone who has a consciousness reaction speed within 0.1 second."

"Yes."

Christina sneered to close the chat box, and doing this nationwide was not too difficult. He already felt that he would soon surpass the temple organization.

Unfortunately, Christina did not know that the president of the strongest guilds in the world, who are being trained by saints and dark warriors, also has the same idea as her. This also includes people such as Zhuojiu and Tu Feng .

sky.

Flying Lu Yang received a call from Tu Feng and asked, "What is it?"

Tu Feng said: "According to the information obtained by our spies, the strongest guilds are preparing an open draft event to find people whose reaction speed is less than 0.1 second. Let's do one."

Lu Yang smiled and said: "Forget it, let me tell you the truth, you can't select 10 people if the whole country is added together. It is not worth wasting this time and effort. It is better to train a group of people with our own methods. . "

The last sea election method has long been used by major guilds. At that time, a draft event was launched around the world. The strongest guilds in various countries were looking for players with a response speed of less than 0.1 seconds.

Remember that the reward for players at the time was three million dollars in annual salary! As a result, there are more than 2 billion players participating in the sea elections in the world. Under such crazy screening, out of these 2 billion people, only 127 were found!

Think about the reaction of human beings around the world when they heard the news. Almost everyone is crazy. This is equivalent to one person out of 1.7 million people.

The strongest guilds in countries all over the world thought that they could hold sea elections nationwide with financial resources, and then get tens of thousands of players with a response speed of less than 0.1 seconds, which is simply impossible.

Tu Feng quickly understood Lu Yang's meaning, and asked with some surprise: "Boss, it turns out that the most precious thing in your hands is the method of conscious exercise, but you haven't hidden us from us."

Lu Yang smiled and said, "I'm hiding what you do, you are all amazing. I'm happy that it's too late. Besides, this thing is more about self-discipline. It can't be done strictly according to what I said, and it can't increase the speed of conscious reaction. . "

This is based on a strong self-discipline. Those who can have such self-discipline. In the Iron-Blood Brothers Alliance, except Lu Yang, only the remaining 20,000 soldiers at the training base did not come out, including Tu Feng's relatives.

Tu Feng said with a smile: "If these little guys know, they must be very happy, they thought you forgot them."

From the elimination of black yarn to the defeat of Tom now, these 20,000 soldiers watched other brothers and sisters make money, and made meritorious deeds, even if they were training stupidly, they couldn't get excited.

Lu Yang knew the situation over there and said, "Train them well. This secret can tell them. With them there, this is my greatest reliance on various organizations such as temples and saints. Another one, Liu of the Spider Bloodline Corps. Juan, among these little girls, the number of players with a response speed of less than 0.1 second is not small. Notify Yu Wei and let her pay more attention. "

Lu Yang hung up the phone. In the end, the 20,000 people were deliberately left by Lu Yang. This was the result of his consultation with Han Zhong. During the training, Han Zhong left the most hard-working person at the end.

Talking about the level of exercise with Liu Juan, these 20,000 children did not lose Liu Juan. According to the data sent back by Han Zhong, this batch of children, most of them will enter the 0.1 second reaction rate at the end of the year. Strong, depends on their own talents.

However, one thing is for sure, the current limit reaction rate that players can enter is 0.01 seconds, that is to say, except for a few people like Lu Yang who can exercise with talent and hard work to 0.01 seconds, the rest of the world All of them are between 0.01 seconds and 0.1 seconds. In this way, some so-called great god-level masters are not invincible. They will also be beaten to death by the crowd.

For example, the captain was besieged by three people who were slightly slower than his reaction speed by about 0.03 seconds, and he would definitely die. This is Lu Yang's intention to train those 20,000 people. Furthermore, Lu Yang matched.

In the last life, many people have researched ways to increase the speed of consciousness response, including temples and saint organizations. There are also methods leaked out. None of the methods developed by ordinary people are stronger than the mysterious ancient method of Luyang. As for the temple It was not as good as Lu Yang's leaked with the Saints organization, but Lu Yang did not compare with their core members. I do n't know how their core skills are, but it is estimated that they will not be stronger than him.

Here Lu Yang continued to fly deep into the lava sea. Soon after, Xia Yuwei called and said excitedly: "Boss, Tu Feng told me about the speed of reaction just now, Liu Juan, they really hope that?"

Lu Yang lost her smile and said, "What am I doing to you, how are these little girls doing recently?"

Xia Yuwei gritted his teeth and said: "Most of the family's affairs have been solved by me. Sometimes I really can't make sense, but fortunately this group of people sees that we have given us more money, and Liu Juan is also arrogant and they dare not It's trouble to find us, these little girls have made a lot of money recently, they have always wanted to find an opportunity to thank you. "

Two wars, one against Sanyou Weimen and one against Tom, Lu Yang spent a total of nearly 7 billion US dollars in cash, plus Liu Juan's own plunder and kill, everyone earned in this war To a large amount of money, Liu Juan, the most, earned nearly 500,000 credit points.

With such a large sum of money, Liu Juan and these little girls were so excited that they could not sleep for several nights. I always wanted to thank Lu Yang. Xia Yuwei also said it twice, but the sudden appearance of the temple disrupted all the rhythms of Lu Yang. .

Lu Yang said: "Find opportunities to see them. If some of these little girls react within 0.1 second, they are eligible to become core members."

Xia Yuwei said: "Relax, I will strictly control and will not let anyone who threatens the game city enter."

"Believe your ability, you have to work hard, be careful not to understand the command in the future." Lu Yang said with a smile.

"Got it, isn't this trying hard." Xia Yuwei was extremely depressed, and her talents were increasing, but she was behind.

"That's it, I'm going to do the task." Lu Yang nodded, hung up the phone, the outline of the black island gradually became clear on the lava sea.

Ten minutes later, Lu Yang landed on Lava Island. Not far away, the souls of the three heroes of the old continent were watching him excitedly. The elf king Mondz asked loudly, "Young man, how come back so late? Is there a problem? "

Lu Yang shook his head with a smile, walked over to them and said, "I went into the Fire Spirit Tower, and after being rushed through 200 levels, I was teleported out, delaying some time."

The three of Mondz's eyes widened at the same time, and Casque said excitedly: "You broke through 200 levels in the Fire Tower?"

Lu Yang nodded and said, "It is 201 level to be exact, but unfortunately I can't equip it, there is no way to break through more levels."

"Very good, very good." Casque said excitedly: "I can feel the resentment of the Les Fire Spirits from you. This is a reward for you."

A forging figure appeared in front of Lu Yang.

Forging: Scepter of Divine Flame (Artifact · Level 3)

Lu Yang clenched his fist hard. This is the mission exploded by the previous player. As long as he can challenge 200 levels, he can get the forged figure of Shenhuo Scepter here.

He put the forged drawings into his backpack and said to Casque, "Thank you."

Casque said with satisfaction: "Since you are so powerful, go and help us to do a task. In the deep area east of the lava, there is an underwater cave, killing the lower **** Fish in it."

Mission Tip: Kill the lower **** Fish, do you accept it?

Lu Yang chose to accept the task and turned to swim towards the east side of the lava sea. He still remembers this task. On the east side of the lava sea, there is a seabed cave, which is closer to Vulcan, one of the nine pillar gods of the New World.

Pure fire energy will be ejected from the bottom of the karst cave. Sometimes it hits the rock wall and hangs on it to gradually form a crystal, that is, the crystal of Shenhuo, which is specially used for making Shenyang equipment.

Luyang enters this lava cave, not only can do tasks, but also collects a large number of Shenyang crystals for missions. This is also one of Luyang 's favorite areas in the 180-190 level area, both Can do missions and get spars for manufacturing equipment.

However, this mission has a big disadvantage, that is, the distance is too far. From the 170-level fortress, Lu Yang spent nearly 3 hours flying in the air, and then swam to the depths, which cost 2 Hours, then go to the cave, if it goes well, it will take more than 1 hour.

Is equal to seven hours for this one-way trip. If you fight monsters again, the medicine in your backpack, even if you have a 400-pack backpack, is not enough.

Although it is troublesome, it is also the most attractive place for players in the Shenjing area. This is the best place to kill people and the best place to grab things. Here, no one can be spared. Then, when I hit another pack of equipment, I was attacked and killed by someone. I had a few lucks and had a few explosions. If I had bad luck, I would lose all the harvest in one day or even a few days.

Lu Yang is more fortunate. He has the artifact demon heart in his hand. The demon heart promoted to the artifact can open the demon temple. He does not need to be so troublesome when he has no medicine. Find a place where no one returns to the demon temple to get the stored potions. That's it.

Another one, if you want to survive in the lava sea, you must always pay attention to the changes around you and be careful of being attacked, but at the same time, there is another method that can also avoid the tracking of most players. This method is called dyeing.

If you like to watch fish, you will find a feature in the fish pond. The colored fish is very easy to see within one meter of the water, but the black fish is very difficult to identify. Looking at the surface there are no fish, but when you throw fish food into the water, you will suddenly find that you can't see the fish in the water. Those black fish float up, because the color of the fish is similar to the color of the water.

In order to solve the problem of being attacked in the lava sea, many players in the last life came up with a way to buy red fashion. A red robe fashion was covered on the equipment. The color of the fashion was exactly the same as the color of the lava sea. The players within 50 meters were very It's hard to see someone there.

Lu Yang thought that since there were temples and Christinas in this area, he would need to get such a fashion. He opened the fashion purchase interface and bought this set of clothes. The whole body of red clothes made Lu Yang Integrating with the lava sea, he continued to swim towards the lava cave on the east side.

Another hour later, Lu Yang saw under the crimson seabed, there were giant seabed caves with a diameter of more than 100 meters, just like giant bowls.

Lu Yang approached the first karst cave. Looking down from above, these karst caves are about 100 meters deep. The surrounding rock masses are irregularly shaped, as if the karst cave was formed by a huge force bursting from below. .

This is indeed the case. In the official records, the fire spirits in this area are more advanced than the fire spirits of Zeles. They are called Zede fire demon. Most of them are based on the appearance of lizardmen, when they are projected on the old continent. They have a title called Lava Lord and like to turn any area they see into flames.

“His ~!”

At the entrance of the cave, a Zede fiend swam out, as if patrolling his site.

Zede Fire Demon (Elite)

Grade: Lower God

Qi and blood: 3000 \ / 3000

3000 blood Zede fire monster is not easy to kill, they move very fast, like to use physical attacks to kill the target, if they are approached, although Lu Yang has 950 points of blood, but can not carry him two physical attacks.

Normal Lu Yang is very strenuous to kill them, but it is not the same now Lu Yang has a mysterious weapon. He backed away to 80 meters, his hands were directed at the Zede fire demon, and the spell was spoken in his mouth.

“Shen Yan Tian burst”

The pure golden fireballs smashed one by one towards the Zede fire demon. When the first one hit him, the Zede fire demon roared, and the body turned into a virtual shadow, flying towards the landing sun. .

At a distance of 80 meters, Zede Fire Demon took only 1 second, but when he appeared in front of Lu Yang, preparing to attack with skill, Lu Yang said the spell in his mouth.

“The Demon God Controls”

A huge flame palm with a diameter of one meter suddenly appeared in front of Lu Yang, turned into a fist, and punched Zede Fire Demon with a punch.

“Bang”

With a loud noise, Zede Fire Demon was shot 100 meters away, and at the same time, 1400 points of blood was dropped!

The demon **** controls, the additional skills of the artifact demon heart can be transformed into two forms, the first is a fist, flying the target, the second is the palm, grasping the target to the side, or throwing it into the distance, two skills Both ignore magic immunity and cause 10 times spell damage.

The most shameless skill in the items such as the Artifact Heart of God is the Demon God control skill of the Heart of the Demon God. Because the Master has little blood, relying on this skill does not give melee close opportunities at all. De Huo Mo was beaten out.

“Hi ~” Zede fire monster was irritated, and his eyes stared at Landing Yang, turning into a phantom and rushing towards Landing Yang again. Unfortunately, his blood volume was less than 200 points, and Luyang was a **** Yantian burst to kill.

The current damage of Lu Yang is 140 points. It is too easy to kill these ordinary elite monsters!

Chapter 1778 - bug kill fish

Lu Yang came to the body of Zede Fire Demon and looked at the items he exploded. There were two kinds of them. The first one was the drawing.

Drawing: Shenyang Helmet

Lu Yang was a little surprised. One of the reasons he came here was to brush Zede's Fire Devil's drawings. Unexpectedly, the first one was killed and it burst out. Moreover, Zede Fire Demon could only produce 1 drawing. A monster broke out, save trouble!

The second item is a skill book.

“Shenyang Blaster”

Type: Fire God

Consumption: 50 magic

Distance: 10 yards + percentage of intelligence

Description: A powerful shock wave is released, and the target within 5 yards is pushed back a certain distance, causing spell damage +200 damage.

Lu Yang nodded with satisfaction. Both of these things are good. “Shenyang Blaster” is a very important attack skill and life-saving skill of the lower gods of the fire department. His release speed is comparable to the fist form controlled by the devil. The target is too far away, and can also be used in conjunction with other skills, which is one of several consecutive moves of the lower god.

He learned his skills in the skill bar. His body sank and landed on the edge of the bowl-shaped karst cave. After looking around, he made sure that there was nothing strange around him.

Inside the bowl-shaped karst caves, multicolored colorful fire crystals are attached to the rock walls of the karst cave. There are nearly a hundred pieces, and each piece has the size of a fist. It looks very gorgeous and charming.

However, the more beautiful things are, the more dangerous it is. The same is true for the Shenhua crystal. The entire bowl-shaped seabed cave is like an ant cave. The Zede fire demon takes up almost every space, so that every Shenhua crystal There are nearly a hundred Zede fire monsters around.

If you want to kill the Zede Fire Demon and then collect the spar, it is impossible to do so. In such a intensive situation, attacking any Zede Fire Demon will attract nearly a hundred.

The physical attack of the Zede Fire Demon is around 700 points, Lu Yang 's blood volume is more than 900 points, and the defense is only more than 60 points. Without a crit, two fists must be killed, and in the current situation , No one can play against 100 Zede fiends at the same time.

Even Lu Yang, even in the face of 10 Zede fiends, can only run away, unless there are 10 subordinate god-level anti-wars wearing Tier 3 **** costumes to fight against the monsters, otherwise, it is impossible to fight here.

I remember that in the last life, a large number of players came here, and they could only sigh at the fire crystals, but no one could see them. Even if the guild players came here to open up wasteland, it was difficult to open up wasteland. However, even if it has been played, it is necessary to guard against other players' sneak attacks.

Later, when the official selected the most difficult map to open up wasteland, it was counted as one of them. Lu Yang can still clearly remember the scene of the last world players fighting here.

He couldn't help but smile and shook his head. If the players of the last generation saw his collection method, he would curse the street madly. He pointed a spell at a crystal fire on a rock wall 50 meters away. .

“The Demon God Controls”

A palm made of flame, with a diameter of about 30 centimeters, instantly flew to the Shenhua spar 50 meters away, and he pulled hard.

Collection progress +1

.....

A Shenhua crystal wants to be knocked off the wall, it needs to be collected 10 times. Lu Yang 's Demon God can collect 10 times in one second, but he dare not run out, because the Demon God only has 1 second to control, then Disappeared.

If the Shenhua crystal fell from the rock wall, it fell into the pile of monsters. In case he was blocked by the passing monsters, he was busy working, so he only collected 8 times.

Demon God control skill is used every 2 minutes. After Lu Yang waited for 2 seconds, he aimed at this spar and released Demon God control. In a blink of an eye, the spar detached from the rock wall and then flew to Lu Yang in front of him.

Shenhua Crystal

Description: Essential items for making artifacts!

Lu Yang smiled and put the Shenhua crystal in his backpack, and continued to aim at the next crystal using the skill Demon God to control. The surrounding Zede Fire Demon did not attack Lu Yang because he was not attacked, so that he could collect it with peace of mind .

An hour later, Lu Yang collected more than 100 pieces, all of the fire crystals that could be collected from the first seabed cave, and then he went to the second one, but he just arrived at the second hole, a height The giant fire monster close to 2 meters is patrolling the edge of the cave with a dozen small fire monsters.

Fish (boss)

Grade: Lower God

Qi and blood: 50000 \ / 50000

Lu Yang thought about where Fish was. The nearly 100 submarine caves in front of him were all Fish 's patrol range. He needed a lot of effort to find it. He could n't think that it would be useless for him to find, Fish walked by himself. coming.

He moved a bit of bones and muscles. If he wanted to kill Fish, he could not be alone. Even ten more he could not fight. Fish itself was not terrible. What was terrible was the little fire demon behind him, unlike the Zede fire demon. These little fire monsters are the avatars that fell on Fish. Three little fire monsters are equivalent to Fish 's strength. Now there are twelve behind him. As long as he hits Fish, it is equivalent to facing five at the same time. Fish's attack.

However, he can't fight normally. He has other tricks. With the artifact-level Demon God's heart, Lu Yang can use more bugs. For example, Demon God's space cooperates with Demon God's control. What, the mantra read out.

This is a spell to return to the Demon Temple. After 4 seconds, you can teleport back to the Demon Temple. But in the last second before the teleport, if you control the Demon God before releasing the skill, who Lu Yang caught, then Who can take them into the demon temple.

For example, Fish!

"The Demon God Controls"

Lu Yang took advantage of the last second, suddenly shining a light, and instantly caught Fish, and the next second, Lu Yang appeared in the middle teleportation array of the demon temple.

"Ember"

A ray of fire landed Yang moved instantly to a place 50 meters away. The next moment, Fish appeared in the teleportation array of the Devil Temple out of thin air.

“Roar ~! The humble human, even provoked me to become a god.” Fish was unable to hit, and furiously rushed towards the landing sun.

Fish is extremely fast, and in front of Lu Yang in a blink of an eye, but at this moment, Lu Yang pointed his left hand forward.

“Shenyang Shockwave”

A red-golden half-moon-shaped arc pushed the fish that rushed in front of him to 10 meters away. Before he stood firm, a red-red light appeared at his feet.

“Instant burst”

Fish was stunned for 0.5 seconds. Taking advantage of this opportunity, Lu Yang’s hands were directed at Fish’s head and he continued to burst into flames.

Pure golden fireballs hit Fish’s head one by one, hitting critical effects one after another.

After 0.5 seconds, Fish woke up and rushed towards the landing sun. Lu Yang drank the fire spirit in the fire spirit pot, his body turned into a golden light, and ran up quickly in the room, waiting for 2 seconds. After the clock, the instant explosion, the shock wave of the **** flame, and the control of the devil were all cooled down. He aimed at the fish that rushed in front of him, and said the spell in his mouth.

“The Demon God Controls”

A fist-like red gold flame punched Fish in the chest, flying him to the wall of the demon temple 100 meters away.

“Shen Yan Tian burst”

Lu Yang took advantage of this opportunity to continuously launch his skills. When Fish took 1 second to run back, a large ball of fire rose into the air, Shun Gem stunned Fish, and Lu Yang played 5 more flames. Even waking up again, Lu Yang swipes forward with his right hand staff.

“Shenyang Shockwave”

Fish was retreated to a distance of 10 meters, then landed to Yang and then evaded for 1 second, watching Fish rushing over.

“The Demon God Controls”

He punched Fish again, and in the case where there is a fire spirit pot to provide magic continuously, as long as the conscious connection can persist, he can kill the boss.

Two minutes later, Fish couldn't hold on. The last drop of blood was emptied by Lu Yang's continuous strokes, and fell to the ground with a whine, and Lu Yang burst out a 8X8 range superb big explosion.

Lu Yang looked at the consciousness connection only 93% left, could not help but shook his head, do n't look at him just playing for 2 minutes, in fact, his every second is divided into 10 parts to use, according to Ten times more operations than others, which equals 20 minutes of playing with the boss.

This high-intensity battle made him very uncomfortable, but fortunately he succeeded, looking at the items that were dropped by the boss.

Drawing: Shenflame Spaulders

Lu Yang smiled. The explosion rate of this thing was very low. It was really the benefit of the wasteland development. It burst out once and saved him a lot of trouble. He looked at the rest of the items.

Power of Instant Power

Type: Pharmacy

Description: Immediately increase the target's 100 mana and 100 points of qi and blood after use, no cooling time!

A total of 3 bottles of this kind of potion were put into the backpack by Lu Yang. This potion is the best potion for life-saving and murder at the current stage. He put it in the backpack together. As for other items, it is nothing.

He found a place to sit on the ground and took a rest. The 2-minute battle just made him too tired and needed a good rest.

Uncomfortable sitting, Lu Yang lay on the ground, looking up at the hall of the Devil Temple. In the last life, the use of bugs in this hall was not only such an item.

In fact, this is not a bug, but an officially recognized behavior. Until the eighth year, the official modified this fighting method, officially confirming him as a bug skill.

Lu Yang looked at every corner of the demon temple. Although the demon temple became an artifact at this time, the interior was still ruined. However, all the rooms in this temple were full.

There are a total of 18 rooms in the shrine, each of which has a different role. However, these houses are currently closed. Only when Lu Yang finds the guardian spirit of each gate can he open this room and use this room. ability.

The hall also has guardian spirits and special abilities. In front of the hall statue, there are eight empty positions, representing eight special abilities, including reducing defense, reducing magic resistance, reducing damage, reducing magic damage, reducing movement speed, and reducing casting speed. , Increased damage, increased chance of critical strike, etc.

However, if the guardian spirit of this hall is to be hit, it is necessary to kill the more advanced lower gods, and even the middle gods may burst out. It must be the map of the plot mission, or the brush fire tower. With a chance to fight down 200 floors, there may be a chance to give an ability.

System prompt: Your consciousness connection is restored to 95%

Lu Yang found that after experiencing a high-intensity war, the speed of recovery of conscious fatigue and the speed of conscious reaction can increase. He does not know what the reason is. It may be the accumulation of high-intensity exercise for several consecutive years before, let him There have been signs of breakthrough recently.

He stood up and moved his body. Within ten minutes, the consciousness connection was restored to 96%. He came out of the demon temple and went to the next lava cave, using the demon **** to control the digging of the fire crystal.

This kind of unscrupulous digging of God Fire Crystal is not encountered every day. If the temple and Alice are coming, this will become a battlefield. I want to get God Fire Crystal easily. It's not that easy.

Three hours later.

Lu Yang dug more than 500 pieces of Shenhua spar, counting the 100 pieces he had dug before, already 600 pieces. Just when he wanted to continue digging, the talker rang.

“Dididi”

Lu Yang picked it up and saw it, it was black inflammation that came over asked: “What’s the matter?”

Heiyan looked at the lava island in the distance and said: “Boss, we seem to have found the place you said, and we are preparing to go to the island, but I found that someone arrived early, one of them is Christina, and a group of uniforms. People are also on the island. “

Lu Yang smiled and said: “It should be the temple people, don’t conflict with them for the time being, I will go back and pick you up.”

“Yes.” Heiyan said.

It’s not time to fight now, and it’s still equipment-based. Lu Yang threw the fire crystals from his backpack into the temple and quickly returned to Lava Island.

It happened that Lu Yang saw Christina and the captain in the distance who were about to go to Les Fires area to fight monsters. There were nearly 200 people in total, but Lu Yang was less than 60 meters away, but they did n't. Find.

Because Lu Yang is wearing a red dress and is the same color as the Lava Sea. Even if he attacks in this place, I am afraid that neither Christina nor the captain will know who did it. However, if you use the ember skills, your position will be exposed. Entangled with the captain is not suitable.

He waited in the same place. In a short time, Christina and her party entered the depths of the lava sea. Lu Yang returned to the island. After sending a message to Heiyan, he first came to the three heroes of the old continent and said: "Fish I was killed. "

Casque nodded with satisfaction, said: "I have felt the death of Fish, you did very well, this is what you deserve."

Drawing: Shenflame Breastplate

Lu Yang clenched his fist hard, the third-order Shenyang suit, he had nearly four pieces together, and another 5 pieces left, he could come up with one set.

Chapter 1779 - Alien God Battleship-S...

"Boss." In the distance, Heiyan took 19 people to Lava Island and ran towards the landing sun.

Lu Yang waited for them to approach, and took them to the Fire Spirit Tower. While there was no one left or right, he told them the way the Fire Spirit Tower played.

There are too many materials for the Fire Tower, and Lu Yang will not be able to sort them out in a moment and half, so it's better to talk to them in person and record the video at the same time.

Here, he also attached a video of his fire spirit tower. Under the guidance of Lu Yang, a successful teacher, Hei Yan and their understanding of the fire spirit tower is very fast.

Lu Yang was not in a hurry to let them go down for more than two hours. After they had studied almost, he said to everyone: "Try to go down again, the score is not important, and slowly get familiar with the situation inside."

"Yes." 19 people said together.

The people who chose to enter the Fire Spirit Tower this time are all genius players in the Fire Department of the Iron-Blood Brotherhood, including Black Flame, Vulcan M16, and Luo Siyu, as well as six foreign players he recruited.

The names of these six people are called Flam, Briz, Vulcan, Most, Kannu, and Jokot. They glance at each other, and they still cannot believe it.

"Boss, you actually believe us so much, this level of secrets will be shared with us, you really are." Flam did not know what to say.

Briz and Volican and others nodded their heads, they looked at Lu Yang's eyes full of disbelief.

This is the perfect way to play the Fire Tower. They do n't need to explore. They can do it according to Lu Yang's teaching method. Not only can they get a lot of equipment, if they sell this information, they can make money, Enough to keep them from working for the next ten years.

Lu Yang looked at them with a smile, he also thought about this problem, but as the president of the strongest guild in the new continent, Lu Yang has this confidence. He believes that Flam will not betray themselves, and that they will be the Brotherhood of Blood Treat yourself as your home.

“I don’t doubt the use of the person, I don’t need the person, I believe you, work hard, the Iron-Blood Brotherhood has not appeared a foreign vice president, I hope to be among you.” Lu Yang said with a smile.

In the glorious and splendid history of China, at any time, the powerful empire had foreign legions, such as the Huns servants in the Han dynasty, the Xianbei servants in the Tang dynasty, the Turkic servants, and even the Song dynasty.

As of the Ming and Qing dynasties, foreigners in the Qing Dynasty became senior officials in the Chaotang. Lu Yang was looking forward to the appearance of a true foreign legion in the guild.

Flem and Britz and others did not expect that Lu Yang could allow them to rise to the position of vice president. For a time, everyone’s face was filled with excitement.

“Boss, we will do our best to protect the game city.” Flam said respectfully.

Lu Yang nodded with a smile and said, “Go, hit as many fireballs as possible.”

19 people nodded together, turned around and entered the Fire Spirit Tower.

Lu Yang looked at the time, and it was almost evening. He was determined to go to the next area to make drawings, but the time was no longer allowed. He flew directly to the seabed cave and continued to collect the Shenhua spar.

Three hours later, Hei Yan and Luo Siyu and others gradually came out of the Fire Ling Tower and reported the Luyang fighting situation. The layer with the largest number was Flam, and the 68th layer was under the rest. Hovering around the 60th floor.

They all had good luck, and a total of 22 fire spirit beads were hit, so that 22 people can join the battle tomorrow.

Lu Yang is not in a hurry now. He took a rest that night and waited for the early morning of the next day. He asked Heiyan to transfer another 22 to the Fire Spirit Tower. He took enough gold coins and swam towards the lava Hainan side.

This time he was pure luck. In the lava sea, there is a special thing called the broken star wheel.

Star Wheel, strictly speaking, is an alien spaceship, which is actually the spacecraft aboard alien gods who invaded the New World.

After the alien gods were defeated, all those who could not escape were hiding, and some of them were hiding in the lava sea. They are also gods of the fire system, relying on the pure energy in the lava sea to provide energy to the broken star wheel, so that their The star wheel can be invisible.

If you can find the star wheel, you can accept the hidden missions provided by the protoss inside, which are very good reward missions, which is exactly what Lu Yang needs.

As for how to find the star wheel, the players of the previous generation have already cracked the approximate location of the star wheel, but they still need to take luck. If you are lucky, you can go in when you go.

Another one, the star wheel is also a good place. If you have a good relationship with the star spirit in the star wheel, this star wheel can also provide players with a lot of convenience.

Recalling the extensive role of the previous star wheel, Lu Yang couldn't help swimming towards the star wheel.

Two hours later, Lu Yang came to the area on the south side of Lava Island. On the bottom of the lava sea, in a large fissure, Lu Yang looked carefully.

Suddenly, in the purple rock area near the fissure, there was an almost invisible ripple. Yes, it was the sea floor ripple. Normally, it should be caused by something swimming on the sea floor. Here, it appeared out of thin air.

Lu Yang shook his fist hard, he knew he had good luck recently, he hit the star wheel!

“Ember”

A red golden light flashed, Lu Yang appeared in the ripple area instantly, the next second, Lu Yang’s body disappeared into the lava sea.

System prompt: You found the star wheel!

After the strong light dissipated, Lu Yang opened his eyes with a smile and saw what he saw. He was in a pure white space. Dozens of strange creatures with a height of 2 meters, white skin and a shape like aliens were holding purple. The spear made an attacking stance, staring at the landing sun.

“You don’t belong here, tell me, what kind of creature are you?” An alien headed came to Lu Yang with a cautious and alert expression in his eyes.

“Ask him what he is doing? Kill him, or we will expose it.” Another alien said angrily.

“No, he is different from the creatures here, we have to find a way to release, this person may be the key.” The alien headed turned his head and continued to stare at the landing Yang, his eyes full of curiosity.

Lu Yang smiled, exactly the same as the Raiders burst from the last player, he slowly said his situation one by one, and finally concluded: “I am a human being, a dead enemy of all creatures in the New World.”

A variety of aliens showed a surprised look, led by the aliens put away their spears, walked to Lu Yang and said excitedly: “My name is Akobo, the commander of this star wheel, human beings, I represent the Protoss, welcome Your coming. “

System prompt: You have opened the reputation of the Protoss!

Akobo did not give Lu Yang the opportunity to speak, and continued to introduce their origins and the difficulties they are now in.

“In short, we need a lot of gold coins. If there are gold coins, we can pretend to be Les Fire Spirits and trade with other Fire Spirits outside to exchange some of the necessary items. If you can provide us with money, then we Willing to exchange some items with you.” Akobo said.

An interface popped up in front of Lu Yang, with:

Alchemy Recipe: Elixir of God’s Magic Recovery Price: 1000 gold coins.

Alchemy formula: God’s Qi and blood recovery potion, price: 1000 gold coins.

Drawing: Shenyang Belt, selling price: 1000 gold coins.

Drawing: Gauntlets of Shenyang, price: 1000 gold coins.

.....

Lu Yang sighed. Sure enough, he was a black-hearted businessman. Each one is so expensive, but these are the things Lu Yang needs most. He bought these four formulas.

“Thank you for your generosity.” Akobo is even happier.

System Tip: Your reputation in the star wheel is increased by 4000 points, and your reputation in the star wheel is friendly!

Lu Yang had a golden light on her body, and the alien creatures were all put away and left. Obviously, Lu Yang was no longer regarded as an enemy.

Akobo’s head appeared a blue question mark, Lu Yang asked: “Is there anything I need to do for you?”

“The star wheel needs more energy to start, I hope you can provide us with more Zede fire monsters.” Akobo handed Luyang a cage.

Forbidden God Cage

Description: The weak target is trapped in the cage and cannot be escaped.

Lu Yang took the cage and said to Akobo: “I have no problem catching the Zede Fire Demon, but I need your help. The spaceship should not leave this area, lest I come back and find you.

Akobo thought about it and said, “I can give you 5 hours, beyond this time, I can’t guarantee that we can stay here safely.”

“Thank you.” Lu Yang flew back to the lava sea through the teleportation array. He knew that this task of Akobo was for the fireball. Every time he caught 10, he could get as many as many missions. Fireball.

The light flashed.

Lu Yang found himself appearing near the sea cave, and the star wheel turned into a huge lava sea rock, floating in the upper part of the cave, he smiled, it was so simple, he did not need to run back and forth to delay time.

The so-called forbidden **** cage traps the weak target in the cage, which means that the target’s blood volume is less than 50% of normal health.

Zhede Fire Demon’s blood volume is 3000 points, and Lu Yang reads a spell at the following Zede Fire Demon.

“The Demon God Controls”

Flame energy turned into a huge palm, instantly caught this Zede fire demon, with the blood damage damage +300 damage value every 0.1 seconds, while returning toward the landing sun side, while dropping blood.

As soon as he arrived, Lu Yang raised the forbidden God cage in his hand, and a flash of light flashed, and Zede Fire Demon entered the cage.

System prompt: The arrest was successful!

Lu Yang smiled and launched an attack on the next Zede Fire Demon. His arrest speed was very fast. His skill cooling was 2 seconds. On average, he could catch 20, and an hour was 1200.

Wait for 5 hours to pass, Lu Yang actually caught about 6,000 Zede fire monsters, and completely emptied two submarine caves.

He handed the cage to Akobo and said, "Fortunately, it is not humiliating."

Akobo's eyes were bright, he received 6000 Zede fire monsters, and handed them to Luyang with 600 fire beads. He said: "With this batch of Zede fire monsters, our spacecraft can operate normally for a long time. It's time. "

A fat alien next to him came closer. His shape was closer to humans, but his tail was longer. He spread his hands and said to Akobo: "I'm sorry to disturb your interest. Another part of our spaceship is broken. , We need more parts to supplement. "

Akobo showed a helpless look and said to Lu Yang: "Man, I'm afraid we will be separated for some time. In order to obtain parts, we need to go deep into the lava sea. There are many wreckages of our other spaceships. The areas under the enemy's control will be attacked by the enemy forcefully once we appear, which is very dangerous. "

This is not a lie, it is not only very dangerous, but also very very dangerous. It is the marginal area between the lower **** and the middle god. With Luyang's current strength, it is no problem to pick a single middle **** monster. If he singled out two, he would have to run away.

Lu Yang had never received this task since last time, because when he came here, the only task of the star wheel was completed. Obviously, the task he received now is the only task. It is estimated that the things given are good He said: "Let me go with you, I will find the parts, at least if I go, it will not cause too much hostility to the enemy."

If these eccentric plane gods appear, they must be killed by the gods in the lava sea, and if they fail, the star wheel will have to be exploded.

The previous star wheel was not exploded. If he was exploded here, he would be miserable. He also expected the star wheel to become his mobile spaceship.

Akobo was also worried about Lu Yang's thoughts, and said gratefully: "Our friends, if you can help us retrieve the parts, I really appreciate it."

Lu Yang smiled, which was not solved by a word or two of thanks. He said to Akobo: "I can help you, as a friend, I also hope you can help me."

"You said." Akobo said happily.

Lu Yang said: "I hope this can become a teleportation area for me to become a player of my guild. Let me build a sentry tower here and send them all over. At the same time, I hope you will not let non-guild players enter again Your star wheel. "

Akobo thought for a while and said, "The first request is ok, the second one is not."

Lu Yang lamented that it was good to get the first request. The second one was difficult for some strongmen, but this is not impossible. In the last life, there was indeed a guild that blocked the star wheel for more than half a year before the star wheel It is estimated that the relationship between Lu Yang and Akobo is not good enough.

"Let's go get parts." Lu Yang said.

“Let’s go to the Golden River.” Akobo ordered loudly that the entire spaceship turned into an invisible and shot toward the distance.

Chapter 1780 - Golden River

The Golden River is an area in the Golden Trench area on the east side of the Lava Sea where the energy of the New World flows.

In the memory, the official had a great historical background of the “Second World” complete story chain. The Golden River and the Golden Trench were not originally called this name, but called the Temple of Fire.

This is one of the Nine Pillar Gods of the New World, the residence of the deity of the Fire God Aktomas. At that time, the alien **** invaded the new world. In the process, Aktomas was suppressed throughout.

The two sides fought for several days and nights, and the Temple of Fire was torn apart. After Aktomas tried his best to defeat his opponent, and was about to be killed by the other party, Aktomas decided to use the energy of the New World.

The so-called new continent’s original energy is the blood of the planet of the new continent, and it is also the basis of the ability of the creatures of the new continent to use spells.

They have huge destructive power. At the same time, they are also the birthplace of the Nine Pillar God. Therefore, the fire **** Aktomas, one of the Nine Pillar Gods, can mobilize this source energy.

At that time, Aktomas faced Ashbur’s full blow, breaking the earth barrier with a single punch, mobilizing the energy of the New World’s original energy, and defeating Aktabor in one fell swoop, and,

taking this opportunity, Ak Thomas attacked everywhere, defeating other kings who invaded the new world one after another, completely ruining the hopes of the gods outside the world.

Aktomas and the other nine-pillar gods did not expect that the power of the source energy is so strong, but when they are excited by the enemies of war, the earth core barriers are disintegrating, and finally, the source energy overflows, pounds Meng's power almost destroyed the New World.

Faced with this situation, Aktomas believed that it was his sin. Therefore, he used the ontology as a barrier to block the gap, but small gaps still appeared from time to time, and the source energy flowing out through the gap was Golden River.

Because the source of the New World was too strong, it was in the original area of the Temple of Fire, which washed out such a big trench, and the wreckage of the Temple of Fire and the Spaceship of the Outsider were all on the shore of the Golden River.

Since Aktomas entered the geocentric area, the Temple of Fire was built near the geocentric area, but the original energy flowing out was protected by Aktomas, and a lake was naturally formed at the end of the Golden River. There are creatures that absorb the original energy, and Aktomas sends the Vulcan Legion to protect them.

The closer to the end and the source area, the higher the level of the Vulcan Army, and the lower level of the Vulcan Legion in the middle area, but the problem is that the wreckage of the spacecraft mainly gathers between the end and the middle area. So for a while, sometimes there is a neutral god, sometimes a lower god, everything depends on luck.

Lu Yang prayed in his heart that it was best to meet the lower gods this time. Do n't touch the middle god. He walked to the cockpit of the spaceship.

The cockpit is completely composed of unknown transparent crystals, like glass, you can clearly see the situation outside the spacecraft. The pilot sits in the middle of the second floor and controls the star wheel to avoid the flying stones floating in the lava sea at any time.

"The front is coming, are you ready, my friend." Akobo came from behind and said to Lu Yang with a smile.

Through the glass of the cockpit, you can already see the golden river flowing in the distance, but as the distance gets closer, Lu Yang's brows become tighter and tighter. Finally, when the star wheel comes only 200 meters away from the Golden River At the distance of meters, Lu Yang couldn't help but scolded and said, "It's terrible, what luck."

On the right bank of the Golden River, there are countless lower gods, middle gods and upper gods gathered together. Not only that, not only are the fire gods, but also the water system, thunder system, wood system and dark system, etc. All the gods under the Nine Pillars.

Akobo and other alien gods are also ignorant, they have not dared to move, come to such a close distance, a little careless, they will be found by the upper **** below.

"How come there are so many gods gathered together, are they celebrating?" Akobo could not help scolding.

Lu Yang glanced at him sideways and muttered to himself: "They are really celebrating."

To commemorate the Golden Trench and the Golden River, the gods of the New World will gather here once a year to celebrate their victory over the evil world god. During this period, a large number of upper and middle gods will arrive here.

Lu Yang accused himself of being stupid, why did he forget to watch the time, and ran into it, just when he scratched his head and didn't know what to do, suddenly, the lower gods who gathered on the bank of the Golden River suddenly automatically Divided into two columns, the middle area was transferred.

"Roar ~!"

A roar came from a distance, followed by a dull grounding, and Lu Yang looked down at the sound. Two 10-meter tall human-shaped minotaurs pulled the two golden chains with all their strength, and the other end of the chain, Attached is a female alien spirit, very similar to Akobo and others.

The feet of a female alien **** were tied and pulled by a gold chain, and his hands and head were also tied with a gold chain. At the other end of the chain, there were three golden metal monuments.

The font on the inscription is very peculiar, and usually does not show color, but each time it is pulled, the font will emit a reddish light, and at the same time as the metal stele is pulled, the body of the female alien **** seems to be pulled off. Heartbreaking howl.

Luyang and Akobo and other alien gods opened their eyes at the same time. Luyang was excited because of the metal monument, and Akobo and others were excited because of the woman.

“She is still alive, she is still alive, we are going to rescue her.” Akobo shouted with arms.

Dozens of aliens nodded at the same time, but an elderly alien with a sigh shook his head and said, “It’s too difficult. There are too many enemies below. We can’t fight.”

“But that is your daughter, our partner.” Akobo said excitedly.

Elderly aliens still sigh, and other aliens around have shook their heads, and they all felt it was too difficult.

“We still have disguise coats, people who can pretend to be theirs, find a chance to rescue her.” Akobo was still not convinced.

“Our smell is too obvious, we can still use a camouflage coat from a distance, the distance is close, and the filling is exposed.” The elderly shaped eyes have been cloudy.

The voice just fell, and the following female alien **** wailed again, screaming wildly: “Kill me, kill me ~!”

Akobo and other foreign gods saw this scene kneeling on the ground almost at the same time, many foreign gods shed tears.

Lu Yang saw this scene, his eyes lit up, walked in front of Akobo and said: “Pretend to give me a coat, I will help you save people.”

Akobo looked at Lu Yang crying, shaking his head and said, "There is no way to do it, there are too many enemies below."

Lu Yang said with a smile: "How can I know if I don't try it, I am not a stranger, and I won't be found when I get close to them."

Akobo saw a glimmer of hope in his eyes and said, "My friend, are you really willing to take risks for us?"

Lu Yang said with a sincere face: "Of course, of course I am willing to be able to help you, which is the happiest thing for me."

These alien gods are **** who invade the old continent in the future. So far, these alien gods have not regarded Lu Yang as a friend, but an object that can be used. Lu Yang has been looking for opportunities to let them listen to their own. This star wheel is lent to his own use, and now this is an opportunity. If he can grasp it, he will have a large number of subordinate **** professions to challenge the Fire Spirit Tower.

Akobo did not expect that Lu Yang was so "stressful", and excitedly gave the camouflage coat to Lu Yang, saying: "This is given to you as a gift. If you can do it, I, Captain Akobo, Willing to admit you as a friend and be willing to do anything for you. "

Lu Yang smiled and said, "Well, we are the best friends."

He took the camouflage coat, which looked like a white tights made of nano-materials. After wearing it, Lu Yang pulled the button on his chest, and a pop-up window appeared in front of him.

Please choose to change your appearance:

Les Fires

Zede Fire Demon

Qiu Enhuo Warrior

Akobo said: "These three races are the races we often deal with. Therefore, our camouflage outerwear can change into these three forms. You can choose one of them, but I must remind you that they just become them. It's not enough, you have to be familiar with their behavior and language and culture, otherwise, as long as you appear in front of them, they will show their stuff. "

Elderly aliens said: "You also have to be careful about the relationship between them. Some of the lower gods know each other or have enmity with each other. If you encounter such a situation, it is best to leave quickly and change into a new form."

"Thank you." Lu Yang had an unstoppable smile on his face. If anything else, he might be worse, but if he studied the relationship between the lower gods of the new continent, Lu Yang knew better than anyone.

There are novels in the official, when Lu Yang card bug hit the high **** is really boring, he read the official novel, because the writing is so beautiful, Lu Yang read more than once, so that Lu Yang can now clearly remember , The relationship between the many lower gods, middle gods and upper gods, and the main gods in the New World.

Who is friends with whom, how to greet them, and how the lower and middle gods or the upper gods greet him, he all knows.

He chose to become Zede Fire Demon, and changed to Fish's appearance. As the King of Zede Fire Demon, although Fish was killed, he was killed by Lu Yang or yesterday. This matter has not spread outside the Zede Fire Demon, so it is easiest to act as Fish.

The light flashed.

Lu Yang's body swelled into a human-shaped fire lizard nearly 2 meters tall. He looked at Akobo, his linear eyes stared at him for a second, his right hand was raised high, and he roared: "The supreme God is eternal life Immortal! "

Akobo looked at Landing Yang excitedly and said, “You actually know how Zede Fire Demon speaks and behaves?”

“Of course!” Lu Yang said: “Open the teleportation array, I will rescue your companions as soon as possible.”

Akobo nodded and led Landing Yang back to the teleport hall. When Lu Yang stood in the middle of the teleportation array, a ray of light flashed by. Lu Yang appeared in the middle of the lava sea out of thin air.

A group of New World spirits saw Lu Yang, and they all showed a contemptuous look in their eyes, especially the central and high gods. When Lu Yang approached, they just raised their arms symbolically.

Lu Yang shouted with a face full of admiration while walking, shouting: “The Supreme God is immortal ~! The Supreme God is immortal ~!”

“Why is this **** here?”

“We didn’t invite him.”

“Legend is he not dead? How is he still alive?”

“We did not invite him.”

.....

The reason why many gods hate Fish is that Fish is only a lower-level god, but he occupies the Shenhua spar mine, and the communities of those middle-level and upper-level gods do not have such a good area.

The reason why Fish can occupy the Shenhua crystal mine is because of his slogan, no matter who he sees, the first sentence he meets is that the Supreme God is immortal, and the Supreme God in his mouth is nine. Vulcan, one of the pillar gods.

When Vulcan broke the earth core barrier and used the power of the source to fight against the enemy, the power of the source was spewed out, destroying the area that was originally trapped by the force of the source, and dense small holes appeared.

The Zede Fire Demon area where Fish is located is one of the holes, so he can hang the God Fire Crystal from time to time. Fish and their lower-level lower gods are not qualified to control this area. He is completely heavenly. Luck off the pie.

Vulcan, one of the Nine Pillars, originally wanted to take back this area, but Fish saw everyone shouting to the High God for eternal life, and Vulcan was embarrassed to do so, not only recognizing the area that Fish controlled It also specifically announces all areas of the lava sea. It is strictly forbidden for any gods to attack Fish's area. The **** fire spar karst cave, eternal life belongs to Fish.

When Lu Yang saw this section, he always felt that Fish was okay, because he controlled the mine, although most people looked down on him, but everyone wanted to get the Shenhua spar. Business, therefore, Fish can eat wherever he wants. Everyone does not want to see him, but he has to treat him as a guest.

This is like a driver led by each unit. If it is clearly nothing, it will drive a car, but everyone has to look at him high, talk to him and compliment him, or let him.

"Fish is coming."

"Welcome."

"I will sit there for a while."

.....

Lu Yang played the role of Fish, greeted everyone all the way, shouted slogans all the way to the front of the crowd.

Is responsible for this activity is the higher **** Baptism, he watched Fish walk to the front, smiled and asked: "Fish, how come?"

Lu Yang hurried up two steps and came to Baptis's side. He put two pieces of Shenhua crystal with a quality of more than 100 into the big hands in Baptis's big clothes and said, "I'm late. Sorry sorry. "

Baptis showed a satisfied smile on his face, and said, "Stand to my left, you stand in the first row."

Respect for the left in the gods, this statement came out, proving the position of Fish in Baptism, Lu Yang raised his fist with a smile, shouted that the Supreme God is immortal, and walked to the left of Baptism , And a group of upper and middle gods became the first position.
