

Chapter 1781 - Killing the median god

For a time, countless gods looked at Lu Yang's eyes full of jealousy, contempt, disgust and other emotions, but Lu Yang fully played Fish, not only did not feel anger, but greeted each of the upper and middle gods, A humble look.

According to the tradition of rituals, this ritual is to be held for seven days. Among them, the first five days, the two ox gods took the alien goddess spirit and the metal monument to walk along the river, so that the wailing of the alien goddess resounded through the river bank to comfort New World gods who died in battle.

During these five days, the high priest stood on the sacrificial platform every day and told the merits of those gods of war and death, which lasted 8 hours a day.

Waiting for the evening, it is the time of the fair. The gods who come will take out the items they have collected during the year and exchange them with the fair.

Lu Yang was able to rescue the high priest. It was only in the evening trade fair. As for how to save the goddess from the metal monument, Lu Yang had his own way. However, he needed to be busy at the fair now.

It is not so easy to pass through as a fish. In the official story, Fish can stand so stable in the cave of the Shenhuo crystal mine. Not only does he always shout the slogan of the eternal God of immortality, he also talks to him The use of high-quality fire crystals produced by the fire crystal caves to buy the high priest Baptis is related to other high and middle gods.

Fish fully demonstrated a small person in a god. In the output of the entire Shenhuo crystal mine, he could get less than 20% of his hands, and the rest 80% was all given to the person who managed him.

Among the people who managed him, six came today. They were the upper gods Salamanca, Turkovan, O'Connor, Orsteke, and the central gods Turu and Morojo. .

Lu Yang can't give them the crystal of fire now, standing quietly in the line and watching Baptism talking about the merits of every god.

On the riverside not far away, the female alien **** was pulling with the two **** cows, and she kept wailing. The sound made Lu Yang feel harsh and even hidden in the star wheel. Akobo and other alien gods are irritated.

Dididi

Lu Yang's talker suddenly rang. He was wondering who it was. He opened it and found out that it was Akobo, which made Lu Yang really happy.

In the game "Second World", if the NPC can actively contact the player and become a good friend with the player, this is a very important thing. This proves that in the future, to contact the NPC, you do n't need to go to him. If you have any need, just call NPC directly.

For example, Lu Yang can control the spacecraft remotely, and can also order Akobo to turn on or off at any time, which can give him a great advantage.

Lu Yang clicked the receive button and saw the content. The above urged Lu Yang to save people as soon as possible. Lu Yang replied: "Don't worry, I haven't gained trust yet. I will hold it for five days. I will try my best to save him tomorrow Save it. "

Akobo did not reply again.

Lu Yang continued to wait until late at night, Baptis finished the first part, announced loudly: "Today's sacrifice is here, the gods, the dinner officially started."

The crowd cheered excitedly, and Lu Yang also raised his arm and continued to shout that the Supreme God is immortal. At the same time, he turned back to the six gods who had a relationship, and the six gods also understood and gave him a look. And led him to the dinner area far away from the river bank.

This is a house formed by fire coral, and it is also a temporary camp in Salamanca. The largest house is in Salaman. As for Baptis, he is sent by the Supreme God and is not responsible for it. Specific affairs, so the actual owner here is Sala Kaman.

Lu Yang entered the largest room with Sara Kaman. This house is very luxurious. The hall only has a few hundred square meters. In the middle of the hall, there is a reception area, surrounded by fire coral. In the middle of the sofa, there is a natural table formed by a huge clam shell, which is very dazzling.

Salamanca signaled everyone to sit down. He sat on the throne, smiling at Landing Yang and said, "Fish, your kid has gained a lot this year, and he will give a gift to the high priest when he comes up."

Lu Yang hurriedly walked to Salamanca's side and handed him two 120-point Shenhuo crystals to him, saying, "Thank you for your good harvest this year, and the other Shenhuo crystal mines will be delivered to you on time. In the government, the quality will definitely be better than last year. "

Salamanca laughed with satisfaction, and said, "It's a good job. This doesn't need to be given to me first, but first to the brothers."

Turkowan and O'Connor smiled and shrugged off, and Lu Yang said with a smile: "You are the boss among us, and should be given to you first, other brothers also have their share, all share."

Salamanca is the upper deity and the chief person in charge of the outer area of the lava sea. In this sacrifice, the gods under his hands are the person in charge of this security area. Lu Yang wants to move freely in this area. The first one He will be coaxed.

Salamanca means something. Everyone knows it very well. He laughed and put two pieces of Shenhuo crystal in his backpack.

Lu Yang then walked to Turkowan, and also had two sacred firestones with a quality of 120 points, followed by O'Connor and Olstek.

Here he was busy, he said to Salamanca and others: "Boss, you are busy, brother and I will not bother."

This is the consistent practice of Fish in the official story. He is not the upper **** and the middle god. Many secrets are not available to him. Therefore, at this time, he politely retreated to avoid embarrassment.

Salamanca threw Lu Yang a nameplate and said arrogantly: "Hold this, if someone troubles you, please report my name."

"Thanks to God, the Supreme God is immortal." Lu Yang shouted loudly, and trot all the way back in excitement.

Salamanca looked at Landing Yang's back mockingly and said, "As always the clown gesture, if it is not allowed by the Supreme God, I would have solved him and his tribe long ago."

Turkowan and O'Connor nodded one after another. They also hated Fish's good luck and wanted to replace it.

Outside the camp.

Many gods have already set up to buy and sell things. On the cross street in the middle of the temporary camp, two rows of gods set up stalls in front of the temporary residence, and some gods are visiting the stalls to pick the items they need.

Lu Yang dangled the nameplate on his left hand, learning to watch Fish's consistent walking posture between the stalls, but he was not looking at things, but at the gods. Inside these lower and middle gods, he was looking for something to kill Object.

This is among the many gods who came to participate in the lava sea, not only the fire department, but also all the gods of the nine systems, such as the water system, the wood system, and the gold system.

In this area, the non-fire department is to be suppressed. Even the main god, the non-fire department must be suppressed by 30% of the ability, and below the main god, it must be suppressed by 50% of the ability, as for the restrained Water system and wood system are suppressed to 70%.

How hard it is to kill the boss of the median god, Lu Yang feels difficult to challenge the elite of the median god. In the face of the boss of the median god, there is basically only the escape. But here, the boss of the median **** of the water system and the wood system is suppressed 70 % Attribute, Lu Yang does not take advantage of this opportunity to kill more, he is really a waste of time.

As for the next time I want to meet again, I have to wait for three months. At that time, Lu Yang singled out the central **** and it became a breeze. It is meaningless to come here again. After all, there is no non-fire upper **** here. .

Lu Yang looked at it for a long time and found a wood-based median god. The height is 5 meters. The fireball can't wrap his body inside. It must be outside to protect him. Make the wood-based neutral gods look nondescript.

Lu Yang walked to his booth and took a closer look at the items he sold. The booth here is troublesome. There are not many things that can be sold to players. Most of them are strange items, even if they are Lu Yang did not understand in the last life, nor did he explain what most of the things they sell are used for.

He carefully turned several pages, and suddenly, he counted down to the third page again and found that there are wooden skill books.

“Summon Wooden Man”

Type: Woody God

Consumption: 10 mana

Distance: Close

Description: Create a powerful wooden man that can exist for 5 minutes.

Summoning a wooden man is an extremely powerful skill. This skill can be upgraded. The early strength of a senior wooden man can be comparable to that of a neutral god-level anti-war. The only thing that needs to be paid attention to is the purification skill. Once purified, the tree was broken.

Even if it is shattered when it comes to purification, the defensive power and magic resistance of a level 2 wooden man are higher than the normal melee lower **** defense, which is the best defense.

There are a total of 10 summoning wooden men. Lu Yang's eyes were all bought. For each 500 gold coins, he took out 5,000 gold coins and handed them to the wood median god. He said, "Thank you for your skill book."

"Disgraceful clown, I Sam despise you." The median **** in the wood department received Lu Yang's money, and even condemned Lu Yang with condescension.

This made Lu Yang's face uncomfortable, but he quickly covered up and said with a smile: "It turns out that you are the great God Sam, long admiring your name, what you sell is useful to me, but the money I carry is not enough, can you please do me a favor and follow me to my Shenhua spar mine, I will exchange it for you with spar. "

The look of excitement in Sam's eyes is very high value, and it is also very useful to him. Furthermore, he never thought Fish would dare to attack him, let alone hold Salamanca in his hand. Fish, who issued the brand name in person, actually used Lu Yang in disguise.

"Okay, I'll go with you." Sam said muscularly.

Lu Yang smiled on his face and said, "We are going over there."

To return to the Shenhua Crystal Quarry Mine, he must first swim from the bottom of the Golden Trench to the top, and the Golden Trench is nearly thousand kilometers deep. When Lu Yang took Sam to the top, he looked towards the bottom of the trench, I can't see anything clearly, only the red one.

He felt that there was no insurance here. What to do if Sam's grandson ran away, he decided to take Sam to swim some distance ahead.

There is a flat ground not far in front, there is no rock floating on the top of the head, it can be used to kill people, he led Sam to this land with a smile, standing firm, watching standing 10 meters behind him, With a curious expression on the face, Lu Yang turned around and said with a smile: "Sam, what do you think of this as your graveyard?"

Sem frowned and asked, "What are you talking about, the median **** has just entered his prime, and there are hundreds of thousands of years before death, why do I need a cemetery?"

Lu Yang walked towards Seme step by step with a smile, and adjusted the angle. When he reached the position 2 meters away from Seme, Seme still did not think that Fish, a lower **** dare to kill him.

Lu Yang looked at Sam's blood volume.

The Shepherd-Boss

Grade: median god

Qi and blood: 30000 \ / 30000 \ / 10000 (pressed state)

Lu Yang smiled even more happily. Who would have thought that the 100,000-blooded median **** boss, which was suppressed, only had 30,000 blood left. Generally speaking, the median god's defense and magic resistance are both 200. Above points, it is now estimated to be only 60 points.

"Don't you dare to scold me Fish God, or scold me face to face, and scold me in front of so many people, I will let you know that Fish God knows today, I am awesome." With a scolding foot, when Sam showed a contemptuous expression, he pointed his right hand forward.

"The Demon God Controls-Fists"

A huge flame fist was transformed into a punch on the front of 5 meters high in the abdomen.

“1400”

Sem only felt a sharp pain in his abdomen, and was instantly hit by a boulder 10 meters away. The body was embedded in the boulder.

“Instant burst”

Sam had just reacted and was stunned by Blast for 0.5 seconds. Then, when he woke up again, he saw the pure gold fireballs hit continuously, and his blood volume had dropped. More than 5000 points.

“Roar ~!”

Sam was furious and looked at Landing Yang in disbelief, saying, “Fish, you dare to kill the **** with the god, or kill the middle **** with the next god, I want you to taste the anger of the middle god.”

With Sam as the center, within a range of 100 meters, a large amount of thorn grass suddenly grew on the ground, but before the thorn grass expanded 1 cm high, it was lit by the flames in the lava sea and turned into a black section. Withered grass.

Sem’s skills are suppressed to the limit here, the skills are not useful at all!

Sam’s move was ineffective, and the branches of the body of the small golden ball released continuously by the top landing sun turned into two vine whips and pumped towards the landing sun. However, in the lava sea, the speed of the two vine whips was increased by 70%. The normal attack speed should be 0.3 seconds, but here, it becomes 0.5 seconds.

Lu Yang hides the whip just as easily as skipping a rope. Pure golden fireballs hit Sem’s body one after another. Soon, Sam’s blood volume dropped by 10,000 points, followed by 20,000, 3 Wan ...

When Sam 's blood volume dropped to 0, Sam did n't threaten Lu Yang with any skill except whip. There was a wood-based **** boss, who should have made Lu Yang too busy to beat the high-level monster. So, Lu Yang died in the lava sea like this. It is estimated that the death of the median **** boss will not die.

Chapter 1782 - Need for treasure

Lu Yang walked to Sam's side, looked at the items he dropped, and exploded an 8X8 range explosion under his feet.

Shenmu branches

Grade: Lower God

Power of God: +20

Intellect of God: +20

Strength of God: +20

Stunts:

Summon Treeman Level +3

Lu Yang's amazed Jing Shenmu branch was put into the backpack. This is already considered the best. Normally, it is good to give a summoning tree person level +1, but I didn't expect a +3.

Normal summoning is a 1st-level tree man. When he is promoted to the higher god, the level of the summoned treeman is only 5th level. That is to say, only one tree branch of the **** makes the summoned treeman equal to the level 200 monster.

He looked at the next item.

Shenmu Battle Shield

Grade: Lower God

Physical Defense of God: 170-170

Magic defense of God: 170-170

Power of God: +15

Endurance of God: +20

Strength of God: +15

Stunts:

Tree Spirit Regeneration: When attacked, there is a certain chance to absorb the opponent's energy into the Shenmu Battle Shield and turn it into the user's health.

Lu Yang put this big shield into his backpack too. This is a superb equipment. It is an artifact of the lower gods. This shield can be used not only by warriors, but also by any occupation, including Luyang.

At this level, there is no difference between two-handed weapons and one-handed weapons. After upgrading to Divine Realm, any occupation can be used as a defense or output, everything depends on personal preference.

With this large shield, Lu Yangneng singled out the captain and it was Christina all of them. If, next time, they meet the captain, he sacrificed the large shield and stood there to let them fight. Such a high defense and magic resistance, Captain, they can't break Lu Yang's defense. Even if they can break through the defense, the regeneration capacity of the regeneration skills is higher than the damage of their attack.

Lu Yang sighed that he was lucky. If he guessed right, this should be the first neutral **** to be killed in the New World. Otherwise, so many good things would not burst out.

He looked at other items, as well as a fireball and some potions. He put them in his backpack and looked around for no one. He returned to the temporary camp and looked for the next target.

Had to say that it would be addictive to kill the boss like this. After searching for a while, he locked his target on a neutral **** in the water system.

Water Spirit-Octobo (boss)

Grade: median god

Qi and blood: 30000 \ / 30000 \ / 100000 (pressed state)

Lu Yang walked to the booth of Oktobo and carefully looked at what he was selling. An object called the soul of the sea appeared in front of him. He couldn't help showing a surprised expression, saying: "Austria Mr. Ketobo, why are you willing to sell this thing? "

Oktobo glared at Lu Yang exasperatedly and said, "This is my business. It's not your turn to say anything about your next god."

Lu Yang smiled, looked at the price, and needed 10,000 gold coins. He took 10,000 gold coins from his backpack and gave them to Octopo, saying, "I bought this thing."

"Damn, the ancestral treasure of our family should be sold to a lower god." Oktobo was furious, and the roar attracted everyone around him to look here. He felt more embarrassing and quickly gave the soul of the sea to him. After Lu Yang, he took the money to put away the booth and left.

Lu Yang looked at the soul of the sea in his hand and couldn't help but smile.

The soul of the sea

Description: Soul of Ocean King, only the descendants of Ocean King know how to use it!

In the last life, there were many places that sold the soul of the sea, but this thing was bought somewhere, and you can never buy it again, because the soul of the sea is the only thing.

There are more than 1,000 sea souls in the entire new continent. As long as you find the altar of the ocean, you can summon the avatar of the ocean king. After the kill, the things given are very good. Although it is a lower-grade god, its attributes are direct. Median god.

Lu Yang put the soul of the sea into his backpack and quickly caught up with Oktobo, saying: "Praise the median god, I do n't know if you are interested in exchanging your items for a few godfire crystals."

Oktobo was already swimming 100 meters above the campsite. He stopped when he heard Lu Yang's words, frowning and asked, "What do you want to change? All my most expensive things have been replaced by you . "

Lu Yang smiled triumphantly and said, "I still have more than 30 Shenhuo crystals on my body. Let's go over there and discuss in detail."

October's eyes widened, his eyes rolled in his eyes, and said, "Okay, I'll go with you."

Lu Yang was a little ignorant. He felt how the median **** had the idea of killing him actively. He secretly filled his blood and magic value and flew towards the top of the trench.

Soon, he took Oktobo to the place where he had just killed the shepherd. At this time, Oktobo was getting closer and closer to Luyang.

Lu Yang could already clearly feel the hostility behind him. He couldn't help but shook his head. This game was too much, and even the boss actively attacked the player in order to rob things.

“The Demon God Controls-Fists”

Behind Lu Yang, a fist of flames turned into Oktobo's head and smashed his 5-meter-high body backwards, hitting the rock that the pastoral had just crashed into.

“Damn, you dare to attack the median god, you violated the law ~” Oktobo was furious.

Lu Yang sneered and said, “Less useless of those, you also want to kill me, we are just my hands, let's die.”

“Instant burst”

“Shen Yan Tian burst”

.....

After 2 minutes, Lu Yang easily killed the water spirit god, and his mouth made a loud voice. He came to the body of the water spirit god, and this guy also gave him a superb explosion of 8X8 range. The most striking is A skill book.

“Summon the Spirit of Water”

Type: Lower **** of water system

Consumption: 10 mana

Distance: Close

Description: Create a powerful water spirit that can exist for 5 minutes.

Shui Ling's strength is not much different from that of the wooden man, and it is also a very strong existence. He picked up a blue transparent pendant again.

Shui Ling earrings

Type: Lower God

Intellect of God: +20

Power of God: +15

Strength of God: +15

Stunts:

Summon Water Spirit Level +3

Lu Yang couldn't help but laughed and muttered to himself: "This should also be the first neutral **** in the water system that was killed. The things that burst out are really good."

With the water spirit and the wooden man, Lu Yang can make a few special copies. It is much easier to play equipment in the copy than now. Not only can he hit the fire department, but also other types can also be hit.

He received all the items in his backpack, and looked at the other items that were dropped, all of which were some potions. He also put them into the backpack and returned to the camp.

After killing the two median gods, Lu Yang did not dare to act rashly. If several median gods have disappeared in the sacrifice, they will surely attract the attention of the surrounding gods. However, the task of saving the female alien **** has not been completed yet.

“Return to the Demon Temple”

Lu Yang looked at the time and it was late at night. He quit the game and took a rest. When he had dinner the next morning, Tu Feng said: “I have counted here, and 4,000 people have been transferred to become the next god. Now. “

“What about the surrounding enemies?” Lu Yang asked.

Tu Feng said: “The number of the next gods in Gerz is relatively clear. Their second wife has been completely bought by Bagley, and there are currently more than 800 people who are responsible for the connection with Gerz. It is a temple organization. The person in charge is not the captain, but a person called Tyrannosaurus. There are more than 200 subordinate gods, as if the captain is under Tyrannosaurus. “

Lu Yang thought for a while, and said: “It seems that the temple is either of average strength, or it hides most of its strength, and it has not helped Gertz to produce a large number of lower gods.”

Tu Feng said: “Our analysis team also thinks so, if the temple is really powerful, or willing to help, their subordinate gods will not produce less than us.”

The area controlled by Gertz is actually not much smaller than that of the Brotherhood of Blood, which is probably three-quarters of the Brotherhood of Blood. The key problem is that Luyang is faced with many enemies, and Gertz has only one enemy like Luyang.

Lu Yang asked: "Rogers how many of them have the next god?"

Tu Feng said: "Basically it is about 800 people, but soon they can increase the number to 2000 people."

Lu Yang thought for a while and said: "It seems that we need to kill Gertz before the contract is terminated, otherwise, we will lose."

The war of the lower gods no longer depends on the number of ordinary players to determine the victory or defeat of the war. He depends on the number of lower gods. If the total number of lower gods on the side of the Iron-Blood Brotherhood is less than the surrounding enemies, then, in 6 months After the peace agreement is over, the Iron-Blood Brotherhood will be under their joint siege. At that time, Lu Yang wanted to keep the tiger's mouth out of it.

Although it is a little scary, this is also the fascinating part of "Second World". He forces you to keep moving forward, and if you stop a little, you will be caught up by the enemy a lot, even far worse, a little Mars, just It may cause a fire enough to kill yourself.

Tu Feng said: "Just looking at the current situation, we are not optimistic."

Lu Yang sneered and said, "Don't worry, there are still two or three months, which is enough."

He put down the chopsticks, moved his body briefly, and returned to the game. The light flashed. He returned from the Demon Temple to the Golden River camp. At this time, the gods gathered on the shore of the Golden River while listening to the female The wailing of the alien god, while listening to the high priest continued to recite the glory of the ancient gods.

Taking advantage of nobody's attention, Lu Yang walked toward the lower reaches of the river bank with a nameplate. It is now his chance to go to the wreckage area of the ancient battlefield and steal accessories. While walking, he threw Salamanca in his hand Give him a nameplate for free walking.

On this road, all the central gods under Salamanca are guarding. The minimum blood volume of the central **** is 10,000 points. With Lu Yang's current magic injury, it is just broken defense, which is also a fire. It's a god. In the case of no suppression in the lava sea, it's rare that Lu Yang singled out one, so

he had to play Fish's original appearance, that is, the characteristics of a dog's leg, and pretend to be acting. The guard zone of Salamanca.

Salamanca's men saw Lu Yang holding a nameplate in his hand, and originally wanted to come forward to inquire, so he did not dare to ask. The God's nameplate, all holders, do things, they have no Right to ask.

Lu Yang walked unimpeded all the way for half an hour, and the blurred outline gradually became clear in the distance. It was a huge square surrounded by black rocks. Inside the square, a large number of giant warship wreckage were scattered on the ground. Each wreckage is larger than the star wheel. It can be seen that the status of the alien **** in the star wheel was insignificant during the World War I. That is why they can escape.

"Here are the ruins of the ancient battlefield, no order is forbidden to enter!" The gatekeeper of the ancient battlefield gate is the elite players of Salamanca, headed by a neutral **** boss, he is 5 meters tall and looks disdainful. Staring at the landing sun.

Lu Yang disguised Fish's voice, hopping and scolding: "Blind your dog's eyes, can't see the nameplate in my hand? My brother Salamanca gave it to me personally, let me come here Pick a few kinds of wreckage of the enemy used as an item for the celebration of the dinner, hurry up and let me go, don't you want everyone to scold the Salamanca God for his brother's injustice, or is your subordinate unfaithful? ? "

The blue muscles on the head of the median **** boss collapsed, and he gritted his teeth to look at Landing Yang and said, "Good ~! Please come in ~!"

Lu Yang snorted as if learning Fish, and walked in without giving a face. This is the philosophy of Fish in his life. Whenever he received his gift, he told everyone everywhere that the gift was His brother.

Especially the man's subordinate, but which subordinate would ask if the upper **** really had this problem, and the upper **** would not inquire and chat about such gossip, so Fish just got such a loophole, Relying on shamelessness and nonsense and dare to talk, the pits everywhere are abducted. In addition to the authentic upper gods and median gods looking down on him, other gods, especially those subordinate gods, can only avoid three points by watching Fish.

Lu Yang did not do this in the last life, because when he came, the area was opened up seventeen or eight times, but he had seen the official guide, and now he did it according to the guide, but he was really successful, he just walked in with such a big swing, the median **** behind did not dare to talk anymore.

Among the remains of the ancient battlefield, there are many large spaceships and they can obscure the line of sight. Lu Yang walked through the corner of a spaceship, quickly opened the acceleration skills and got into the aircraft. All the parts that could be removed were dismantled and put into the devil temple. .

The star wheel needs too much material. Normally, a star wheel itself can launch a teleportation method. Lu Yang does not need to build any sentry tower. He is ready to use the opportunity of today and the day to completely repair the star wheel.

Chapter 1783 - Luck

It took a whole day to dismantle here. When it was night, he returned to the camp while he was still praying for 2 hours. While no one was paying attention, he returned to the star wheel.

Akobo saw Lu Yang and said excitedly, "Where have you been this day? Why haven't you implemented a rescue plan yet."

Lu Yang smiled, he knew that Akobo was concerned about chaos, and said: "If I save someone now, how are you going to go?"

"I'm driving in a star wheel." Akobo looked at Lu Yang like a fool. His anthropomorphic expression was like a real person. Even if he was in a special shape, Lu Yang still felt that the one standing in front of him was alive. , People with independent thinking and consciousness.

Lu Yang pointed to the cab of the star wheel and said: "With so many parts missing, can you escape the joint pursuit of the higher god, or can you resist the full blow of the main god?"

"I ..." Akobo was speechless.

The old alien next to him sighed and said, "Our friends are right. With our current ability, we will forcefully take people away, and we will only get us all in."

"But ..." Akobo didn't know what to say.

Lu Yang smiled, took out the parts in the backpack, and said, "Save people, upgrade yourself to the best. This is the part I got back, you said you want to use it, you hurry to repair it Spaceship, the fastest tonight, and tomorrow morning at the latest, I will rescue her. "

"Really?" Akobo overjoyed and gave Lu Yang a hug, said: "Thank you for the parts you brought, I will abide by the agreement between us, this will open the transmission system to your guild, according to your belt I will give you the corresponding number of fireballs. After all, our family has been here for thousands of years, and the number of fireballs is still enough for you. "

Lu Yang said with a smile on his face, "Thank you."

"Come with me." Akobo led Landing Yang to the position of the teleportation array. He placed a spar on it and clicked on it. The red teleportation array suddenly burst into a fierce light. The next second, Lu Yang's conversation System prompt comes from the column.

"Congratulations to player Lu Yang for getting approval from Starship Captain Akko. Your guild teleportation array and starship teleportation array are connected. Please select a designated teleportation array."

This is to request Lu Yang to choose a fixed teleportation array to connect with the star wheel. Lu Yang thought for a while and opened the teleportation array in the inner city of Chiyang Fortress to locate this only teleportation area.

For a long time, the Red Sun Fortress has been the most strictly protected fortress of the Iron-Blood Brotherhood, because this is the only 7-level fortress in the Iron-Blood Brotherhood. It is currently only open to a few players in the Iron-Blood Brotherhood, and most of the rest are unavailable.

"The teleport has been successfully connected. Now tell me, my friend, how many parts did you get?" Akobo asked curiously.

Lu Yang smiled and said, "You have to be prepared."

He opened the demon space, and more than 5,000 parts fell out of it. The eyes of Akko who looked were red.

"My brother, how could you tear down so many." Akobo said excitedly.

Lu Yang smiled triumphantly and said, "I naturally have my way, let me get the fireball."

"500 fireballs, deal." Akobo waved his hand, and 500 fireballs landed in Lu Yang's backpack, and more of them fell to the ground.

Lu Yang collected them one by one and put them in the Demon Temple, saying, "You are repairing the spaceship now, waiting for my news."

He left the star wheel and returned to the temporary camp. At this time, the sacrifice was over, and many gods began to set up stalls again.

Lu Yang pretended to be nothing, walking between the stalls, still holding the nameplate Salamanca gave to Lu Yang. Today's booth is obviously bigger than yesterday's, and many gods came here to participate in the sacrifice.

"Crime notes, sell crime notes, as long as 1,000 gold coins, sold cheaply." One-person fire spirit shouted among the gods.

Lu Yang heard the words "crime notes", and his eyes were green. He glared and turned his head to look at the humanoid fire spirit. He came to him and asked, "Do you have a crime note?"

"Here!" The humanoid fire spirit pointed to a book in red gold and said, "The ghost knows what this thing is used for. I came across it by accident. Although I don't know how to use it, I know it must be Valuable, because this is the diary of the former **** of the fire traitor, Azara. "

"I bought it." Lu Yang gave the 1000 gold coins to the humanoid fire spirit without hesitation, and put the crime notes into the backpack.

Crime notes, the diary of the traitor Azara, said that this diary is to raise the war events in the New World that year.

In the war at that time, the early stage of the invasion of foreign gods, the strength was not enough to open up too much space, so they deceived many high-level gods of the new world to help them open the door to space, they helped these higher gods promoted to the main **** .

There is an insurmountable gap between the upper **** and the main god. Many upper nerves have not been able to become the main **** after tens of thousands of years of cultivation. Under the frustration, they accepted the conditions of other gods.

Azara is one of them, and Azara has the habit of keeping a diary. He records the things that every day gods help them to improve their strength, and records them until the arrival of the army of strangers. Destroy this world.

Azara was very regretful. In the second half of the diary, he recorded his remorse. In the end, he chose to commit suicide, but this note was left. At first, the gods of the New World were kept as souvenirs to warn other gods. Inside the temple of the wind system.

Afterwards, I do n't know where the legend came from. It was said in the crime notes that the way to become the main **** from the higher **** was recorded. It did n't take long for the Temple of Wind to be stolen. Later, no one knew where to go.

Although this matter was widely circulated at the time, later the main gods of the Temple of Wind specially blamed the rumor. There was no way to become the main **** in it. It was just his diary of the mind, but no one believed it.

Later, this diary has been circulated in many places, but there is no text. Normally, this diary can not be bought, only luck, no one knows that this humanoid fire spirit will be a few days later. It will not be killed. If it is killed, this crime note will not know where it is.

Lu Yang originally thought about getting this crime note. After all, this note is of great use to the lower gods of the fire department, but he also knows that this thing may change to others every second in the New World, so he didn't dare to think about this skill book, but he didn't expect it at all, and finally he could hit it here.

He couldn't help but shook his head, lamenting that fate was really wonderful, he put the skill book in his backpack, turned around and continued walking towards the next stall, facing the expression staring at the people around him, Lu Yang smiled The author said: "I just take a memorial, this thing is really useless."

No one believes the gods around.

Lu Yang doesn't care too. Only this one is really useless, but in fact this crime note is a missing item. It needs to be used together with another diary called the apostate to be effective.

You know, the synthesized item is of the higher **** level, that is to say, it can still be used even if it reaches level 200. As to where to find the diary of the apostate, this is a later story, he knows the place, and it is also away from here Not very far.

Lu Yang continued to look at the items sold to the humanoid fire spirit. Among the many items, there was no longer anything to pay attention to. He continued to walk towards the next stall. While walking, he looked at the surrounding conditions.

Walked along this road. At the end of the road was the bank of the Golden River. When he walked all the way outside, he found that no one was behind him, so he walked straight to the two golden metal monuments.

"It doesn't take much time to get here." Lu Yang looked at the metal monument with a smile on his face. Who could think that these two metal monuments are actually items in the demon temple.

When the Demon God was defeated, the Demon God's heart was shattered, and even the shrine with the Demon God's heart was shattered, and the items in the temple fell all over the world.

These two golden metal monuments, with inscriptions on them, are about the achievements of the flaming demon Caldas, one of the four demon gods of **** in ancient times, which was his subordinate. On his 100,000th birthday, Made of the hardest ore found in outer space, it took hundreds of years to sculpt every word on it.

At that time, Caldas was very fond of these two metal monuments, poured into the metal monument with the heavenly divine power, and added a new ability to the metal monument-imprisonment!

Any existence below the level of the **** king, including the **** king, once imprisoned by the metal monument, will never be able to break free. As for the chain and the two pure golden **** cows appearing in the metal monument, it is the magical power of Caldas that year. It is the same as the heart of the devil in Lu Yang.

Why did Lu Yang say that he could rescue the female alien god? Because of this, he didn't need to say anything. He just had to walk in front of the two **** cows, and all problems would be solved.

Kate, the **** cow on the left, was sitting on the ground to rest. Suddenly he turned his head and looked at Landing Yang confusedly, and asked, "Why, I feel a familiar smell in your body."

The right side of the **** cow Lake was a little excited. He stepped on the ground and pointed, saying: "This is impossible. How can a human being have the taste of Lord Caldas."

Lu Yang looked at the two **** cows with a smile, and said: "No need to doubt, I have the devil's heart that Lord Caldas gave me, I believe you are very clear, if it is not the Lord Caldas initiative to give, no one can be taken from him. "

Kate and Lake looked at each other and turned to look at Lu Yang respectfully. Lake said excitedly: "Dear God, you have finally found here, please take us out of here, we miss Caldas very much grown ups."

Lu Yang smiled, he knew it would be so easy, exactly the same as the previous life, in the last life, he recovered these two **** cows, and later killed many higher gods and the main god, two Shenniu helped a lot.

“Blazing Demon Lord is seriously injured, my task is to recollect the debris of the Devil’s Heart. When I reach level 200, I will return to Lord Blazing Devil Lord to accept his new order. I hope you two can help me as soon as possible After reaching 200, we will complete the mission of Lord Demon God together.
“Lu Yang said.

Kate and Lake looked at each other again, nodded together, and said, “Just follow the orders of the angel.”

System tips: Kate and Lake become servants and are allowed to enter the Demon Temple!

Lu Yang said with a smile: “Thank you two for your help.”

Kate asked: “Is there anything we need to do now?”

Lu Yang said: “Really, I need to rescue the female alien **** trapped by you, but not now, as soon as I follow my orders, you two take him into the Golden River, I am at the bottom of the river, At that time, you will find me after entering the river and enter the Temple of Fire immediately. “

This is the best solution Lu Yang can come up with. As for what to do afterwards, he can only try his luck. He discussed the details with the two **** cows, and spoke with the female outsider **** Akobo, etc. After gaining trust in human affairs, he returned to the camp.

In the middle of the night, most of the gods rested. Lu Yang came to the upper reaches of the Golden River. While no one was paying attention, he jumped into the river. Because there were fire beads, Lu Yang did not need to worry about drowning. He traveled all the way. When they reached the location of the Shenniu, they gave instructions to the two Shenniu and said, “Go into the water quickly.”

“Okay.” Lake and Kate responded together.

On the banks of the Golden River, two **** cows were originally pulling female alien gods back and forth, and the screams of the female alien gods continued to hover around the Golden River.

High Priest Baptis and Salamanca were sitting leisurely together drinking tea while watching the female alien **** who was about to be pulled off in the distance.

“It’s really exhausting, there are five days left.”

“Yeah, after a few days of busy work, I welcome the **** Baptis to be a guest. I want to entertain you.”

.....

Even among the gods, there is daily communication. The relationship between Baptism and Salamanca is already good, and it is also a party of the alliance in the Temple of Fire.

While the two were having a good time chatting, Salamanca asked curiously: “Baptis the priest, what exactly are these two metal monuments and **** cows, did the Temple of Fire study understand?”

Baptism shook his head and said, “The two cows refused to say anything, and the body was transformed into the purest flame. The Supreme God did not want to destroy them, and the spell we studied ourselves was not a spell at all. It is the language of communication with the **** cow, praying that the two cows help us, and we provide pure flame energy so that they can continue to exist. “

Salamanca shook his head and couldn’t help saying: “So the two cows pulled back and pulled the metal monument away, it was the result of your communication with them.”

Baptis said with a smile: “I’m not afraid of your jokes, that’s what happened, but this metal monument and golden chain are good things, even if we are, we can’t break free of the control of the chain.”

Salamanca was a little unbelieving, staring at Shenniu carefully, but at this time, Salamanca widened his eyes in shock, and said to Baptis: “Not right, how are these two divine cows? Walked into the Golden River, did you let them in? “

Baptis turned around and looked in shock, but found that as Salamanca said, the two oxen suddenly accelerated, and they were no longer half of the Golden River.

“It’s not good, something serious happened, hurry up and grab the **** cow back, they will run.” Baptis said in horror.

As soon as the voice fell, Shenniu seemed to hear Baptis’s words. The two cows carried the metal stele into the Golden River, and even went with the goddess of the outside world. Give me back . “Salamanca was furious, and at the speed of the upper **** of the fire system, it instantly appeared in the Golden River. The next second, Salamanca saw Fish, who was writing the spell, which was Luyang.”

“Fish, why are you here?” Salamanca was furious, and Lu Yang was about to release his skill for a second, but the next second, Lu Yang smiled.

“The Demon God Controls”

The palm of the flame instantly grabbed Salamanca. The next second, Lu Yang took Salamanca into the Demon Temple. The light flashed. When Lu Yang fell into the Demon Temple, he said a spell in his mouth.

“Blazing Bull God Lock”

Salamanca had just entered the Demon Temple. 0.05 seconds before the Demon God’s control failed, the red gold chain locked Salamanca’s limbs firmly, and on the other side, Kate and Lake’s two golden bulls pulled the chain, Salamanca’s control was incapable of action.

System Tip: Salamanca is prohibited from using physical skills

Salamanca is banned from using spell skills

Lu Yang couldn’t help but make a fist hard, he never thought that he could capture the high **** of Salamanca. This is an unimaginable thing. The big opportunity made him hit him.

The key is too coincidental. It is such a time of 0.1 seconds. Earlier or later, Lu Yang could not bring Salamanca in, but he just appeared in this critical 0.1 second time. The most comfortable angle and time brought in Salamanca.

This is the upper god. No one knows what can be exploded, but it is absolutely believed that one of the items Lu Yang urgently needs can be exploded.

Chapter 1784 - Kill the Thunder

“Damn Fish, let me go out. You dare to save the alien **** and kill the upper god. Every serious sin is enough to make you annihilate.” Salamanca shouted furiously, but there was no way.

Lu Yang changed back to human form, smiled and looked at Salamanca and said, “Sorry, I am a human, and you are already an enemy. Fish died early, and you will soon follow his footsteps.”

“I’m going to kill you.” Salamanca was furious, but there was no way to do it, because he couldn’t get rid of this chain at all.

The female alien **** looked at Salamanca angrily and scolded: “Damn bastard, tortured me for so many years, and finally it was time for my revenge.”

A ray of light hit him in Salamanca’s head.

“-1”

Only forced a little blood, Lu Yang shook his head and said to the female alien god: “Forget it, you can’t touch him.”

“My name is Sara.” The female alien **** looked at Lu Yang gratefully and said, “Thank you for saving me.”

Lu Yang said with a smile: "Akobo is my friend, I am willing to help him, let's go to find Akobo, he and your father miss you very much."

"My father is still alive!" Sarah shed tears excitedly and said, "Take me away."

Lu Yang nodded, used the teleportation scepter, and took Sarah back to Chiyang Fortress, and then flew into the star wheel through the teleportation array of Chiyang Fortress.

"Father ~!" Sarah had just landed and saw her father rushing past.

Lu Yang waited aside, watching Sarah hug and greet everyone one by one, and waited for almost half an hour before Akobo came to Lu Yang and said gratefully: "My brother, all members of our star wheel I officially recognized you, and in the future, you will be a member of our star wheel. "

Lu Yang smiled and said: "Thank you, I would like to trouble you to drive the star wheel to the vicinity of the fire spirit tower. In the future, no one but me and my approved person can let anyone log in to the star wheel."

"No problem." Akobo said.

Lu Yang was relieved. It is conceivable that no one can force Akobo to open the teleportation circle of the star wheel in the next year unless someone can find other scattered people.

With the mobile teleportation array of the star wheel, Lu Yang can continuously send the subordinate gods of the Iron-Blood Brotherhood directly to the vicinity of the Fire Spirit Tower, and no longer have to run for hours and swim for several hours in the lava sea.

System prompt: Star wheel is about to be sent, please prepare for it!

Akobo looked at Lu Yang and said: "Our transmission system has been repaired and can carry out short-distance transmission. We will go to the Fire Ling Tower."

Lu Yang felt a slight flick of his body. The next second, he saw the towering fire tower from the front cab.

“Thank you.” Lu Yang said to Akobo in amazement, and sent a message to Tu Feng: “The secret message of the guild sent 500 remote subordinates to send it over, and immediately started to fire the Spirit Tower.”

He told Tu Feng about the star wheel and the news that he could enter the star wheel through the teleportation array inside the Red Fortress.

Tu Feng was overjoyed and asked excitedly: “What level can this secret be located in, who can tell?”

Lu Yang said: “For the time being, it is fixed on the people who are eligible to participate, and the rest should not tell.”

“Okay.” Tu Feng nodded.

Not long ago, a light flashed near the star wheel, Han Yu brought 500 subordinate gods in batches.

“Brother, here we are.” Han Yu walked excitedly to Lu Yang and looked around curiously.

Lu Yang said: “The way to get to the Fire Spirit Tower will be told by Heiyan and Luo Siyu later, get more fire beads as soon as possible, you know?”

“Well.” Han Yu nodded vigorously.

Heiyan and Luo Siyu have already finished the Fire Spirit Tower today, and they are all familiar with the map nearby. Lu Yang called them back, and several people immediately told them what they knew about the Fire Spirit Tower.

Lu Yang did not stay here. Taking this opportunity, he flew out of the star wheel and swam towards the north side of Lava Island. Now he is going to find the diary of the apostate.

In this huge lava sea, in fact, dragon fish are mixed with many species, not only the gods of the fire spirit series, the outside world gods, but also the traitors.

Back then, after the defeat of the Alien Gods, the rebels were mercilessly slaughtered by the gods of the New World, but these rebels could only flee around.

Among them, a small number of traitors, with the treasures given by the otherworldly gods, let them hide in the depths of the lava sea, that is an eternal shelter, as long as there is the provision of fire energy It will be discovered by the outside world, unless it is Jiuzhushen who came here in person.

The fire column of Jiuzhu has filled the enchantment loophole with his body, so in the lava sea, these batches of traitors will never be discovered.

Normally, these batches of traitors are very difficult to find. It took nearly a year for players of the previous world to explore the sea of lava before they found the refuge.

There are a large number of tasks that can be done in the shelter, and the quartermasters there can provide all the things Lu Yang needs urgently.

Five hours later, it was late at night, and Lu Yang could not continue playing. He quit the game and took a rest. Waiting for the early morning of the next day, Lu Yang continued to swim deep in the lava sea.

When he was bored, he also looked at the higher **** Salamanca trapped in the demon temple. At this time, Salamanca had only one thing left to do, and he scolded when he saw Lu Yang. , Lu Yang was too lazy to take care of him.

With Lu Yang 's current law, killing the upper **** is like a fool 's dream, only the devil **** can control the fist, but the fist can be used well. If it is not used well, it may be possible to use the law to touch Salamanca Break it out of the chain.

If Salamanca came out, it would be embarrassing. Luyang could n't even carry Salamanca with one finger. He could only think of ways to increase the magic damage, or kill Salamanca by other means.

Among the many ways, the skill that comes after using the synthesis of the apostate's diary and crime notes is one of them, so Lu Yang was so worried.

For three days, Lu Yang swam for three days in a row, and finally he found the purple rock wall like a crying face in a big trench in the lava sea.

System prompt: You found the Atonement Cliff

Lu Yang smiled at the system prompt, and ran straight towards the purple rock wall. Just as Lu Yang's brain hit the wall, a gleam of light flashed, and Lu Yang found himself on a ground without lava.

It has been half a month, and Lu Yang finally returned to the land. Looking at the surrounding environment, he is in a huge cave, all up and down, left and right are purple rocks, and there is a portal beside him. Is the place to come in.

"What kind of creature are you?" Behind Lu Yang, the two upright gorillas are the same, but the creature without hair is staring at landing Yang with a giant hammer.

Lu Yang turned his head to look at them and said with a smile: "I am a human of the old continent, and I went to the new continent to find the revenge of the Nine Pillar God."

"Avenge to the God of the Nine Pillars?" The hairless gorilla on the left sneered and said, "Enough arrogance, do you have this ability?"

Lu Yang said: "Come all here, don't try how to know, right?"

The two gorillas looked at each other, or the gorilla on the left said, "Follow me, don't play tricks."

Lu Yang shrugged his shoulders and walked towards the depths of the cave. He had visited this cave many times in the last life and was no stranger to it.

The cave is very large, with a width of more than 300 meters on the left and right, enough to accommodate thousands of people to do tasks here. The length of this cave is very long, and it is also divided into dozens of fork road openings, the middle of which is the position of their patriarch. This is the leader of the renegade organization.

In the distance, the appearance of the patriarch has been clear. This is a humanoid creature with long horns on his head, gray-brown body and muscles.

The smile on Lu Yang's face was more intense. This monster is very similar to a monster in the Old World. When the 30-level map was used, the ancient **** killed by Lu Yang was the ancestor of this patriarch's projection on the Old World.

"Roar!" The ancient **** also recognized Lu Yang, screamed and rushed in front of Lu Yang, pointing to Land Yang and cursing: "You dare to come here, I killed you."

Lu Yang is not afraid, this is the plot setting. Almost every player of the 30th level ancient **** has killed. If he has n't killed, the ancient **** does n't care about him at all, and he ca n't trigger the plot. Because of this, it also caused a Wave returned to the old world to kill the ancient gods.

"His God, I think I should be your friend now, not the enemy, right?" Lu Yang asked.

"Why do you say that?" Ancient God's eyes shone cunningly.

Lu Yang said: "In the old continent, you didn't cause us much trouble. We were only protecting ourselves. To put it bluntly, you belonged to a doppelganger and went to the old continent to kill and play. Our people were killed by you countless, We have n't complained about you bullying people, how can you want to kill us? "

"Don't talk about these nonsense." The ancient **** roared.

Lu Yang said: "That's useful. You people are traitors, so you don't dare to appear in the lava sea. You must be short of supplies. It's not as good as our cooperation. You need me to look for what you need. You pay me. How about the compensation? "

Ancient God's cunning eyes rolled around in his eyes and said, "This method is okay. Forget it. I'm too lazy to find you. Now you are not my opponent at all. You can kill you with your little finger. "

System prompt: You turn on the reputation of the traitor

The current reputation is peace!

Lu Yang smiled at the ancient **** who was arrogant and said, "Thank you for your consideration."

Ancient God said to Lu Yang: "We are in urgent need of a batch of eggs of fire ant beasts, I hope you can help us get them."

Lu Yang said: "Yes."

The diary of the apostate is on other traitors. In a state of prestige, Lu Yang cannot communicate with them. He can only start their mission after the prestige is above friendship.

Furthermore, this fire ant beast is also a very important task. Lu Yang turned away from the shelter and returned to the Atonement Cliff.

The fire ant beast is one of the nine pillar gods, the most important basic corps in the battle between the **** of fire and the **** of the outside world. They are a new species evolved by the fire spirit. There is a gene for the God Eater, one of the strongest species in the New World.

After the formation of such a fused creature, they were born to be extremely powerful, and they regarded Vulcan as the mother god, and they rushed to the forefront each time they attacked.

Among them, the tail of the fire ant beast is the source of their explosion. This explosive can cause great damage to the god. Therefore, if the tail of the fire ant beast can be collected, it can be made into a **** of thunder, and two can kill Die a lower god.

Lu Yang can foresee that in the later battles, the Iron-Blood Brotherhood was able to have more than one enemy, so this killing **** thunder is his most important weapon, he had to get this drawing first.

Chapter 1785 - Code of Apocalypse

It takes 5 minutes to swim from Atonement Cliff to the Fire Ant Beast area. It extends from the bottom of the seabed to the surface of the lava sea. There is a rock every ten meters. If you can't see the surrounding lava sea, you think it's here. In space.

On each rock, there is one or several fire ant beasts. They have a strange shape, with ant-like bodies, but the mouthparts are two sickle-like things, their limbs have strange red hairs, and their bodies are strong. The tail area is particularly huge, like a bomb.

Fire Ant Beast (Elite)

Level: Lower God, Level 5

Qi and blood: 4500 \ / 4500

The most special thing about the fire ant beasts is that they have no wings, which makes them unable to swim in the lava sea. Therefore, there are so many lavas in this area, which are made by the fire ant beasts.

Lu Yang came to the nearest rock at a distance of 80 meters. He aimed at a fire ant beast that was preying with his hands, and said a spell in his mouth.

“Shen Yan Tian burst”

.....

Two hands simultaneously fired four pure gold fireballs. In the blink of an eye, the fire ant beast was attacked four times in a row. He turned his head to look at Lu Yang. While roaring, the six legs worked hard together.

“Ember”

Lu Yang jumped back a distance of 30 meters in an instant. At the same time as his firelight disappeared, the fire ant beast that was 80 meters away had jumped over, and the two sickles bit **** the firelight.

30 meters away, Lu Yang looked at the fire ant beast that had nowhere to go, and the smile of the grandmother wolf appeared on his face.

“Let you jump, you jump again, where there is no borrowing in the water, you jump a ghost.” Lu Yang aimed at the fire ant beast.

“Shen Yan Tian burst”

“Shen Yan Tian burst”

.....

Fire Ants is another place for players to challenge their reaction speed. If they practice regularly here, they can also improve their reaction speed.

Elite fire ant beast defense and magic resistance are very low, and the amount of blood is not much. All rely on physical attacks and the first jump to obtain the support point. As long as you hit the target, you can let him jump twice.

His two sickle mouthparts have the effect of puncture and puncture prevention. For a legal system like Lu Yang, he will die with a knife. Basically, it kills people like art. If more than 100 people come over, a fire ant beast can wipe out more than one hundred people, because he can jump infinitely.

Normal fire ant beasts need to have a shielded warrior class to carry, but in the artifact class, the difference between the defense class and the output class is not very large. Even if the high defense players come, they need to have full treatment and blood to resist live.

Furthermore, the fire ant beast kills the undead target and will not leave easily. They only like to jump with the help of corpses, but if the attack damage overflows by 20%, it will attack the next target.

It's too easy to damage more than 20% of the defensive profession. I can imagine how hard it is to fight the fire ant beast, but this is the charm of "Shenjing", which makes everyone fascinated by it and suffers from mental torture. When talking to people, he was still proud of where he hit the **** realm and how fast he responded.

Recalling that year, in order to improve the reaction speed, Lu Yang practiced here for at least three months. After he could guarantee that he would not be hit by fire ant beasts 100 times in a row, he thought he was out of school.

His understanding of fire ant beasts is deeper than his own understanding. It is precisely because of these fire ant beasts that Lu Yang's reaction speed increased rapidly, which became the object of fear and admiration for everyone.

Four seconds later, Lu Yang killed the fire ant beast. He saw the fire ant beast, picked up the eggs that he dropped, and collected them from the fire sac.

Fire bag

Countdown: 23 hours 59 minutes 59 seconds

Description: The power source of the fire ant beast has a terrible destructive power, but it needs to be used correctly!

Lu Yang shook his head with a smile, the last life, the fire bag came out early, but the ghost knows that this thing can be made to kill God Thunder, and no one can find the location of the shelter, so this thing was rotten in those days. Things on the street are not valuable at all.

Although the explosion rate of this thing is very low, only 1%, but later one group sold 1 silver coin, more people are thrown on the ground.

Later, someone found the sanctuary of Atonement Cliff and got the recipe for killing the thunder from the ancient gods. Only then did the fire sac become valuable, but at that time, the fire sac was no longer available, and the price of a group was as high as several thousand. Gold coins are interesting to think about.

Lu Yang looked around and swam towards a rock above the slope. He was going to hit a wave from bottom to top. Anyway, only 20 eggs were needed. He was not in a hurry. The fire ant beasts on the rocks hit each other. .

Each of the fire ant beasts jumped in front of Lu Yang in an instant, but they were all evaded by Lu Yang. In fact, it is not difficult to avoid the fire ant beast. The reaction speed that is really required is 0.19 seconds, but the fire ant beast The shape is too bluffing, and the moment when you need to find out, the fire ant beast can't jump too early, and it can't be hung late.

Lu Yang slammed into the sea from the bottom of the sea, and just collected 20 animal eggs. He returned to the Atonement Cliff, found the ancient **** and said: "The animal eggs have been collected, here you are."

The ancient **** saw the beast egg, put away the beast egg with a dissatisfied expression, and said, "It is still not enough, I need more."

System Tip: You have gained 20 refuge reputation!

Lu Yang smiled. He knew why the ancient gods wanted animal eggs. The ancient gods did not want to eat the animal eggs, or used them for other purposes, simply because these fire ant beasts produced too fast. Continue to do so, Atonement Cliff And the sanctuary will become the active area of the fire ant beast. In order to avoid this trouble, he only needs the eggs.

The key is that they dare not go out to fight. Once they are exposed, the fire ant beast will definitely report it. Therefore, this is an ancient **** that can be threatened, and it is also the weakness of the ancient **** specifically mentioned in the official story.

Lu Yang said: "His ancient god, don't be content, how difficult it is for the fire ant beast to kill you, it is better to give you some benefits so that I can kill the fire ant beast faster."

"You only got our approval, you want something, there is no way." The ancient **** was furious and almost killed Lu Yang with his fist.

Lu Yang hummed, and after taking a step back, his body transformed into a fish form, and said: "You said, I use this to go to the fire ant beast area, or to find the higher **** Salamanca, saying that I found the traitor What will happen to you? "

The ancient **** saw that Lu Yang had retreated from the beginning, and thought that Lu Yang's clothes had softened, but when he saw Lu Yang turned into a Zede fire demon, he suddenly showed a terrified look and said, "You, how do you have a stranger?" God's transformed clothes? "

Lu Yang said with pride: "There are also some other gods living in the lava sea, relying on the power provided by lava to hide from Tibet like you, I saved one of their female alien gods, they have become friends with me So, I have this thing. Tell me about it. How about it, will it benefit me? "

The ancient **** was depressed, folded his fists and sat on the ground, staring at Landing Yang and said: "Well, all the military supplies and missions are open to you, but the price of all items is the original price, don't expect me to hit you a copper coin the discount of."

Lu Yang chuckled, he was not short of money now, and said, "Tell you, what can you sell me?"

"I sell everything, I have others here, all right." Ancient God's unlucky one-handed chin on his chin, full of anthropomorphic expression, at the same time, a dialog box popped up in front of Lu Yang.

Lu Yang looked down with a smile.

Drawing: Shenflame Legguards

Blueprint: Sacred Flame Boots

Blueprint: Divine Flame Bracers

Lu Yang squeezed his fist hard, and the 9-piece Shenyang suit was all complete. At the very least, in the equipment of the primary lower gods, the equipment of the lower gods of the Iron-Blood Brotherhood was initially stronger than the other lower gods.

Lu Yang continued to look down. On the penultimate page, Lu Yang found the drawings of the apostate's diary and the **** of killing thunder.

Drawing: Kill God Thunder

Material: Fire Bladder, Shenhuo Crystal

Lu Yang bought 20 drawings of Killing God Lei and sold out the drawings. If he wanted to refresh them again, he had to wait a day. He learned one of the drawings and said a spell in his mouth. After 1 second, he returned to the Demon Temple.

Just after landing, the higher **** Salamanca was still struggling desperately, but under the control of the two golden **** cows, Salamanca had no way to break free. When he saw Lu Yang, he pointed to Lu Yang and cursed: "Asshole Fish, I killed you. "

Lu Yang forgot to change back to human form, he didn't care, let Salamanca continue to misunderstand, he walked to the back hall of the demon temple, put the fire bag and the fire crystal together, and chose to synthesize.

A flash of light flickered, and a fire sac wrapped in Shenhuo spar appeared in front of Lu Yang.

Kill **** thunder

Original damage: +800

Lu Yang nodded with satisfaction, and after making another god-killing thunder, he took out the apostate diary and atonement note and placed it on the altar, and chose to synthesize it.

Two notes, one is blue and the other is gold. When the two books are combined, they become a red gold book. On the cover, the pure gold legal array is particularly conspicuous.

Code of Rebellion

Intelligence: +300

Stunts:

Fire of punishment: causing damage of intelligence level X0.017, can be superimposed, up to 11 layers, release interval is 5 seconds.

Lu Yang shook his head in exclamation. His intelligence turned out to be more than 100 points. A code of rebellion increased by 300 points, which is more powerful than all his previous equipment combined, and also comes with a more enhanced horizontal skill.

Of course, at present, this skill can only be used to kill high-level monsters, and there is no other use, but he is not in a hurry. He happily ran back to the upper **** Salamanca and said: "Upper god, you ca n't blame me Ah, I 'm not wrong either, you just have to take more care, let me kill you. "

Salamanca laughed loudly and said, "Just like you, you still want to kill me, try all your skills, can you hurt me with a hair?"

Fire Department High Salamanca (Lord Level)

Grade: High God

Qi and blood: 1000000 \ / 1000000

“One million blood is enough for me to fight for a while.” Lu Yang pointed at Salamanca and said a spell in his mouth.

“The Flame of Punishment”

A golden flame fell on Salamanca.

“-6.8”

Salamanca laughed when he saw the amount of blood he lost, and said, “Fool, you can’t kill me if you are exhausted.”

Lu Yang smiled again, he was too lazy to look at Salamanca’s expression, this kind of wise upper **** was annoying, if you hit him, he would scold you, with various expressions. Easy nightmare at night.

He also walked behind Salamanca, and began to release his skills against his back. There was nothing to attack here. On the other side, Lu Yang picked up the phone and called Heiyan, asking: “Fire Spirit Tower What happened there? “

Hei Yan looked at the 500 people who came out and said excitedly: “Although the tallest one only went down 70 floors, the harvest was very rich. Everyone got at least one fireball, and many got 3 Blaze the fireball, and some of them got the drawing of the magic fire scepter. “

Lu Yang smiled and asked: “It’s good, continue to work hard. Any response speed that enters the 0.2 second range will be counted.”

“Yes.” Heiyan said.

Lu Yang lay down leisurely, he currently has all the equipment he can hit, and the rest depends on the reaction speed of his group of little guys.

From afternoon to evening, Lu Yang killed nearly 8,000 points of Salamanca's blood volume, and there is still a long distance from 1 million. He was not in a hurry and yawned and went to bed.

Wait the next morning, Lu Yang threw all the drawings in the backpack and the crystal stones in the demon temple to Mu Yi, saying, "Little brother, you have to rely on you."

Mu Yi said with a crying face, said silently: "Well, I will build it."

Lu Yang knew that Mu Yi wanted to enter the war, he said with a smile: "Don't worry, give you the opportunity to participate in the war, wait for me to fight out your equipment, as long as your reaction speed reaches 0.2 seconds, I will let you participate in the war."

"Then it is so settled." Mu Yi said.

Lu Yang nodded and returned to the Demon Temple to continue to find Salamanca At this time, Salamanca's blood volume did not recover, and it was still in the state of 8000 points. Salamanca is in a state of being unable to return blood.

"Let's continue, I will continue to abuse you." Lu Yang lay down leisurely, using the flame of punishment against Salamanca.

When Lu Yang attacked here, on the other side, the number of people who became the next gods of the Iron-Blood Brotherhood began the blowout mode. At the end of the first night, 2000 people all got fireballs. In the video and basic materials given by Lu Yang, In some cases, after a few simulations, the 2,000 people who got into the Fire Spirit Tower, each of them reached the 80 level. Although they finally quit the game with headaches, the 2000 people got 6000 fireballs and enough Materials and basic equipment for the transfer of 3000 people.

For five days in a row, by the morning of the sixth day, the number of subordinate gods of the Iron-Blood Brotherhood had exceeded 50,000.

Early in the morning, in the conference room.

Zhuojiu, Baishi and others were all sitting around Lu Yang. Tu Feng said first: "Boss, time has passed for a month. We got all the income of this month. I summarized the net income. There are 4 billion dollars. "

Lu Yang smiled and said: "It's good, enough for us to fight another war."

Zhuojiu and the White Lion all showed their intended expressions. Tu Feng then said: "According to our investigation by the agents, the number of Christina's subordinate gods has just reached 800, and the subordinate gods of Gerz The number is only about 10,000, which is very different from ours. Moreover, the vice president of Gerz has been bought by us. I think that it is time for us to play. "

Chapter 1786 - New round of espionage

Lu Yang smiled and asked: "How is the equipment?"

Zhuojiu said: "At present, there are 5000 sets of divine power sets, and all the ancient **** sets are available."

This is the fundamental reason why the major vice presidents dare to declare war. The strength of the Predator Brothers has reached its peak at this time. It is definitely not something that any other guild can resist, even if two guilds are added together. It is also difficult to contend with the Brotherhood of Blood.

After thinking for a while, Lu Yang asked, "How many people have a response speed of 0.3 seconds?"

Zhuojiu said: "I have counted here, about 10,000 people."

Lu Yang asked again: "How many people enter 0.2 seconds?"

Zhuojiu said: "There are about 3,000 people."

Lu Yang said: "Order all the 7000 to enter the Shenhua Fire Crystal Mine in 0.2 seconds, and kill the Zede Fire Demon with a reaction speed of 0.2 seconds. Still so many people are fighting together, and they should be able to flatten the pit."

"Yes." Zhuojiu said.

Lu Yang then said: "3000 people with a 0.2 second reaction speed, I will build a sentry tower on the line, you come here quickly to fight monsters to upgrade, remember, every coordinate I tell you now is top secret, all participating members, immediately Entering a closed management state, you are not allowed to call or go home. The duration is about 2 months. Ask all members and sign up voluntarily. If you have any difficulties, you want to come to the game city to help solve it. "

"Yes." Zhuojiu and Xia Yuwei all stood up one after another, and everyone's face showed an excited expression. They knew that the next battle of the Iron-Blood Brotherhood was coming.

Half an hour later, everyone logged into the game, and Zhuojiao, White Lion, Xia Yuwei, and Zhou Tianming started the mobilization activity. This time the reaction entered 10,000 people within 0.3 seconds, mainly the masters cultivated by the Iron-Blood Brothers.

35% are the little guys in the training center, 40% are the elite players in the game city, and 25% are from the sister group such as Liu Juan. After learning that all the staff are closed for training, everyone quickly agreed Down.

"Dididi"

Lu Yang is continuing to kill Salamanca in the game. Xia Yuwei called. Lu Yang was curious and pressed the connect button and asked, "What is it?"

Xia Yuwei lamented, saying: "Something happened, Liu Juan and their sisters, there is no problem in themselves, but the sisters' **** parents came over and asked Liu Juan to pay a huge amount of maintenance. Liu Juan earned 500,000 yuan before. I gave them, this group of vampires thought Liu Juan had money and wanted one and wanted a second. "

Lu Yang snorted and said, "I dare to come and let the security guards push them out."

"Fucked, but the person was sitting at the door of the game city. This time there were more than one person, but more than a dozen. The TV station and the media were alarmed." Xia Yuwei first discovered such a disgusting person, said: " There is a bigger problem. Tu Feng and I have just discussed. Among these people, there are likely to be spies from other guilds. And, fortunately, they came before we assembled. If we come after a month, we It 's possible that all their actions will be exposed by them. "

If these people do n't have money for Liu Juan, they 're likely to be used by other foreign guilds after being enlarged by the media, let 's not say anything else, everyone knows that Liu Juan has become the main force of the Iron-Blood Brothers Alliance. The main force, if Liu Juan can't get in touch with them, there is only one possibility.

Lu Yang must not allow such things to happen, he said: "You call Liu Juan and they will ask about the situation one by one. If you want to solve their problems once and for all, you must have a practical solution."

He already had a way, and now he looked at Liu Juan 's thoughts. He quit the game. After 5 minutes, the elevator door bell rang, and in black and white, only Liu Juan and their little girls saw it. They pressed the up button.

The elevator doors opened, and Liu Juan and their dozen or so little girls came to Luyang in tears. Liu Juan said, "Boss, we are sorry for you."

Lu Yang motioned for them to sit down and asked, "Let's start with Liu Juan, let's talk, what the **** is going on?"

Liu Juan said, almost collapsed, crying, "My mother is too eccentric. My sister-in-law went to jail for committing crimes, and even took my brother with him. Now my mother wants me to take money and let my brother do business "

Who would have thought that a parent would be so wonderful that Liu Juan could not understand what he said, and Lu Yang summed it up to understand it.

Liu Juan's brother is already second marriage and has a child. After divorcing her ex-wife, she married her first love. But who can think of it, this first love is a woman who does that kind of thing in the bath. , Want to marry the elder brother, but the elder brother does not want him, found a pick-up man, just found her brother.

If this woman had a good life with her brother, both of them were not good birds. They were looking for someone outside, and the woman also found someone who smoked bad things, which also infected her brother. As a result, the two People have emptied the money.

Liu Juan 's mother spoiled her son and kept looking for Liu Juan to ask for money to help her. When she did n't get enough money, Liu Juan 's sister-in-law wanted to make a divorce. Her mother came to force Liu Juan to give money.

"Boss, please tell me, why should I give the money? I have used the money to buy a house before. I want to pick them up and have a good life in my old age. I still have money now. Do you kill me?" Said Liu Juan crying.

"We haven't dared to eat or wear for so many years, just thinking about letting them live a good life, but why are they so eccentric."

...

A dozen girls have similar experiences.

Lu Yangchang took a breath and asked, "I have a solution, but I'm afraid to scare your parents. I don't know what you think."

Liu Juan gritted his teeth and said: "I will never take care of it again this time. Boss, please tell us what to do."

Lu Yang said: "To make you and your parents cut off the relationship between father and daughter, I have some jerks, but for a while, you must do this, not to make your parents feel, you should feed your brother all your life, that is bottomless hole, you want Adoptive parents, brother and sister-in-law, and their children. Five people per person. Do n't you want to live your own life? Are you not married? Even if you have a fairy face, this is not a TV series It's the real world, who dares to ask you. "

A dozen girls were silent.

Lu Yang said: "The first thing is to temporarily clarify their parental relationship with them. Secondly, I will send them to the detention center in the name of spying on the intelligence of the Brotherhood of Blood for the foreign guild and shut them down for a while. They know If you are afraid, you wo n't dare to come. As for the future, you ca n't give a penny anymore. Your brothers are at least 30 years old, and they should be individuals. "

Liu Juan thought for a long time and said, "I listen to you."

Lu Yang shook his head and said: "Don't worry, you go back and think about it. In fact, you don't come. Your parents come here this time, and there is a big suspicion. I will investigate and obtain evidence by myself. If it proves, you may not have. The Fa has stayed in the Iron-Blood Brotherhood. Do n't blame the boss for not being close to humans. You also know that the enemies around us are surrounded. If you are not careful, you will lose all. "

This time Lu Yang made up his mind. If the sisters group really ca n't stay, Lu Yang would not dare to stay. How much did he spend before he cleaned out the spies inside the Iron-Blood Brotherhood? Tian Feng's funds for their activities are hundreds of millions of dollars, and so much money can't guarantee the cleanliness of the interior. If the **** parents of the sister group are glued, they will all be finished.

Liu Juan had never thought about it. The harm their parents brought to them was not only monetary and spiritual, but also everything they had and hope for the future. For a time, everyone was stupefied.

Lu Yang didn't expect them to understand it now. After letting the black and white send them down, they called Tian Feng and said: "To monitor these women, I want to get their exact information to prove whether they are related to other guilds."

Tian Feng said: "Leave it to me. There are no such coincidences in this world. The parents of these people cannot come together. I also suspect any conspiracy among them. I will check them carefully."

Lu Yang hung up the phone, went back to the game, and said to Zhuojiu and others: "Everyone assembled according to the original plan, but the sister group can only stay in the Fire Spirit Tower and cannot come to the new coordinate point."

He established the sentry tower near the shelter's teleportation array. Soon, a team of players flew over, led by the first one. After seeing Lu Yang, he quickly ran over and said excitedly to Landing Yang: "Brother-in-law, I have reported."

Lu Yang looked at him carefully and smiled and nodded and said, "Your kid is doing well, my brother-in-law, I didn't hurt you in vain."

The person who came was not someone else, it was Lan Yu's cousin, Shen Congfei. Over the years, Shen Congfei had been with Lan Yu. The original Shen family wanted Shen Congfei to succeed Lan Yu's father's company, but Shen Congfei liked games and family members. No one can bear him, and he can only agree to his request.

Lu Yang liked this little guy very much. He took him by the side of Lan Yu when he was 14 years old. He often lives in his own home and eats breakfast and dinner together.

Now that the little guy is only 16 years old, and the speed of consciousness response has entered below 0.1 second, Lu Yang decided to let him out. As long as he has more social experience, he will be able to stand alone.

"Brother, I have come to report too." A little fellow in the back also ran over.

Lu Yang looked at the little guy with a smile, and said: "Tu Feng said that you have not complained about me a little bit, looking back at me not kicking your ass."

"Ah ~!" The little guy quickly shrank his head, scratching his head and said, "Why am I, anyway, you promised to let us go to the battlefield, but never let us come."

Lu Yang shook his head with a smile, this kid is Tu Feng's brother, called Tu Shan, the name in the game is Tu Qianli.

Lu Yang said: "Go and lead the team, this time you have the opportunity to participate in the war."

"Yes." The two ran quickly, complaining about Lu Yang, Shen Congfei also had a share. Although he was his own brother-in-law, in front of his brother, the sale had to be sold or not!

Lu Yang smiled and looked at the two people who ran to the whole team in the distance. They couldn't help but show their expectations. The new generation of the Brotherhood of Iron-Blood Brothers has grown up. This is one of the purposes of the establishment of the game city.

Lu Yang wants to let this game city continue to provide excellent children, so that the game city can continue, otherwise, only relying on him, the game city has no future, but now, look at the game city in You don't need to worry anymore within the next ten years, because these little guys have really grown up.

"Report the boss, the first team is assembled." Shen Congfei came to Lu Yang and said loudly.

The first team is 1,000 people. Lu Yang said: "The fighting videos and materials have been given to you. Eliminate the fire ant beasts outside and get their fire bags back."

"Yes." Shen Congfei and Tu Qianli led 3000 people to walk past Lu Yang. Every little guy looked at Landing Yang with tender eyes, full of admiration.

Lu Yang smiled and watched them leave. Not long after, Zhou Tianming personally led the second team. This is an old player team, only a few hundred people, there should have been a few hundred people, but those people are sister groups. , Dare not let them come.

"Bitter love has been leading people to the Shenhua Mine, and I'm going to fight the ant beasts." Zhou Tianming knew that it was not time for Lu Yang to add chaos, and the whole team quickly took the people away.

Lu Yang felt a little relieved in his heart. It was not easy to train the sister group, and he didn't want to give up. Now let's see what these parents think.

He quit the game and sent a message to Xia Yuwei. Xia Yuwei, who was dealing with the dozen old women at the door, couldn't help but sighed and said to the dozen old women, "Let you quarrel, this time Well, the boss just ordered, Liu Juan and a dozen other girls, all of them were dismissed, and they were held accountable for the losses caused to the guild during their contract. You are here to wait, I will call Liu Juan to pack their luggage. Also, do n't try to run, the police will come right away. "

"What? Dismissal? Still have to recover the loss?" Liu Juan's mother rushed to Xia Yuwei in one step, and said excitedly: "Why do you do this, what are your qualifications to do it, my daughter is your hero."

Xia Yuwei sneered and stared at Liu Juan's mother with cold eyes: "What do you count, what does your daughter count, what can stay in this game city, which is not a hero, your daughter is still in this guild, I see On their face, leave you three points thin noodles, and now they are fired, do you think you are qualified to speak to me Xia Yuwei? Don't look at your identity. "

"You ..." Liu Juan's mother and others were stunned in the same place. They never thought that Xia Yuwei, who looked to them and bullied with her before, looked so bully, so harsh in the next second.

"Black Knife, send someone to watch them. When the people from the Public Security Bureau come over, the boss will send a lawyer to inform them. Don't let them run away. Whatever happened to the Public Security Bureau." Xia Yuwei turned and left.

In less than 10 minutes, the police car arrived. The mother of Liu Juan and others got into the car in panic, and Liu Juan and they entered the police station half an hour later.

"What the **** is going on, my daughter, I will ask you for money, and why have you sent us to jail?" Liu Juan's mother cried.

Liu Juan said indifferently, "We are expelled and have to pay 300,000 guild upbringing fees. Hehe, all the money was taken away by you. Now I don't have a penny. I have to go to jail."

“What?” Liu Juan’s mother was shocked and said, “You can’t go to jail, you go to jail, what about your father, me, and your brother-in-law, and your nephew.”

Liu Juan sneered again and said, “So you also know that I am important, but you also know that I raise five people by myself, so you still act like me.”

“No, no, it must be all fake. You lied to me.” Liu Juan’s mother shook her head frantically.

The police at the police station patted the table and yelled: “What you shout, the court will start in the afternoon. You can’t get the money. Wait for you to go to jail. When the contract was signed in black and white, your daughter earned 500,000 at a time. , I do n’t have any money yet, who do you blame? “

“What can I do ~!” Liu Juan’s mother began to squander thinking that she could pass through, but this is at the police station.

The police and auxiliary police even roared with fright. Soon, Liu Juan ’s mother did not dare to play even the hanging scene. She could only shrink in horror and tremble in the corner.

Liu Juan’s eyes looked at her mother’s unbearable heart, but when they thought about leaving the boss before they left, they still held back. It was also a loss because their boss had this ability. If they were other people, who would solve this for them? If the problem cannot be solved once and for all, they will have to be dragged down by this family in the future.

It ’s not a matter of dragging, at least let them live a normal life, at least will not interfere with the safety of other brothers and sisters in the game city, Liu Juan they also love the game city, here is a pure land, so that they can forget The pure land of all troubles, they do not want to destroy, let alone to destroy the people here.

“At first, if I knew that my daughter who was going to be hurt by the **** would go to jail, I would never have agreed to his request and asked them about the situation of the Iron-Blood Brotherhood.” Suddenly, Zhang Feng’s mother in the distance twitched Howl, all the policemen’s eyes were fixed on him.

“There are really spies.” The director gritted his teeth.

Chapter 1787 - Exposed

A group of women who had never seen the world were taken directly into the interrogation room by the police. It did n't take long. Seven out of 10 people were found to be spies, but who were they behind the scenes? No one could tell the seven women. .

Lu Yang heard the news and came to the police station. He looked for the girls one by one. When he came out, the seven girls cried and took the train back home. They were fired.

As for the mothers of these seven girls, they were detained for 15 days in administrative detention. As for Liu Juan and the three of them, they were also dismissed. However, their mothers were able to leave normally because they did not involve commercial secrets.

At the entrance of the police station, Liu Juan's mother had just walked out of the gate, and her legs fell to the ground, but she did not dare to say anything. Liu Juan did not help her mother, but stood indifferently.

Liu Juan's mother got up from the ground and turned back and scolded: "Unfilial son, your mother will not help you if you fall."

Liu Juan said indifferently: "Thank you, mom, you lost my job. I still have to compensate the 300,000 upbringing fee of Game City. Will you pay this money?"

"How can I have money!" Liu Juan's mother could hear in three streets.

"Will you let me go to prison without giving money?" Liu Juan asked.

“I don’t have money. Don’t look for me. You made so much money before. You don’t want to say this to me deliberately. I tell you, you give me money quickly.” Liu Juan’s mother pointed to Liu Juan roar.

Liu Juan cried. He cried helplessly, pointing to the lawyer letter from Game City and said: “Tomorrow morning, I will go to court for trial. Without money, I have to go to jail. At least five years, five years, you Do n’t save your daughter? Still thinking about asking for money from me? “

“You have money, you quickly take the money.” Liu Juan’s mother is like a crazy demon.

Xia Yuwei passed by the two of them and sneered, saying, “If Liu Juan can’t get the money out, your family will be responsible. If your family is not responsible, Liu Juan will definitely go to jail, so as to be effective.”

The members of the Ten Thousand Sisters Group came to the Iron-Blood Brothers League like Liu Juan ’s family. What other secrets does the Iron-Blood Brothers League have to say? Xia Yuwei ’s firm support for Lu Yang ’s approach is particularly effective for these people. Otherwise, the sister group not only It will not be useful for the Iron-Blood Brotherhood, but will also become a cancer.

Liu Juan ’s mother did not dare to offend Xia Yuwei. At this time, she reacted. It seemed that she had really done it. Her daughter seemed to be really out of money, and said tremblingly, “Our family has no money.”

Xia Yuwei looked at Liu Juan’s mother coldly and said, “Do you want to solve everything if you have no money? What do you want the public security bureau to do? What do you want the court to do? What do you want the prison to do? Now. “

Heidao took someone to dominate Liu Juan’s mother, Heidao shouted: “Repay the money.”

“What are you doing? What are you doing? This is the police station. What are you doing?” Liu Juan’s mother was terrified. The mothers of the other two girls were also shocked.

The three of them turned to the police for help, but the policeman sneered and said, “It’s justified to repay the debt.”

After speaking, the three turned around and left.

Liu Juan's mother and the mothers of the other two girls were completely frightened and tremblingly took out the phone and called their son and husband. They were all waiting for them to ask for money, but they found that not only did they not want money, but also it was paid to 300,000, and no one yelled that there was no money. Some even hung up the phone and asked her to find a way.

Xia Yuwei glanced at the Black Sword and said, "Take them away, when will the family take the money and what will let them go."

"Come with us." Blackknife came to more than 20 people, two of them, driving Liu Juan's mother into the car.

"You can't be like this, you can't be like this." Liu Juan's mother cried and looked at Liu Juan and said, "You are giving money."

"I will go to prison tomorrow. Where do I get the money?" Liu Juan looked at his mother mockingly and said, "In the past few years, you have asked me for money, and now it is time for you to give me money."

"I have no money." Liu Juan's mother cried and cried. Unfortunately, their words were useless. Liu Juan's mother of three girls was caught in the car and taken away.

Liu Juan looked at Xia Yuwei anxiously and asked, "Sister, my mom will be fine."

Xia Yuwei sighed and looked at the three little girls and said: "My three good sisters, your life is too bitter, the sister can only help you so much, three of them will be sent to a broken house on the outskirts of the city, Nominally incarcerated, but they will leave at night with black knives, the door locks are not tight, and the three of them can easily run away, it's okay. "

The three Liu Juan shed tears.

“Let’s leave for a while, the media has reported the whole thing. The ten sacrifices you made today will save everyone in the sister group. You know, our boss does n’t even have a reputation for this matter. Now the media don’t know what to say.” Xia Yuwei sighed again.

Today, there were media reports throughout the process, that is, there was no media in the police station, the Bleeding Brothers League expelled the members of the sister group, demanded payment of 300,000 training fees, and the matter of bringing Liu Juan into prison was spread by the media. Now Lu Yang’s reputation has been ruined.

Liu Juan gritted his teeth and said, “Sister assured, even if you go to jail, I will not be ashamed of Game City and Jagged Brothers.”

In desperation, the three of them must go to prison, so that the unscrupulous parents and brothers of the other sisters would not dare to force them too much.

Xia Yuwei patted their shoulders helplessly and turned to leave, while on the other side, the media from all over the world have magnified this matter infinitely.

“Blood Brothers League is glamorous and dirty inside”

“Game City Lord Lu Yang Forces Girls to Sign Overlord Clause”

“Lu Yang Forced to Sister Members”

“Do not pay money to go to prison, the conscience contract of the Brotherhood of Blood”

...

With the development of online media, there is no need to wait until the next morning and what happened in the afternoon. After half an hour, all major online media and TV stations have carried out comprehensive coverage.

In the headquarters building of the Brotherhood of Blood, Li Mao, Liu Xiang, and Tao Fei, deputy heads of the sister group, came to Lu Yang's office and saw Lu Yang sitting on a chair and rubbing his forehead. bow.

"Boss, thank you." The three girls cried together.

The sister groups are aware of the sacrifices Liu Juan made today, because of this incident, their relatives have called to inquire, and those who want to come and force money, dare not come.

Lu Yang said: "Let's go to work and hope that what I did today will be meaningful to you."

Some people are unable to persuade with words. This thing is wonderful. From small **** to big ones, you do n't want to help him back in adulthood and send him to jail. There should be more **** or more bastards.

"It's time for media interviews, and you should go." Hei He said suddenly.

Lu Yang said: "I will go downstairs."

The press conference had to be opened. There were too many medias below, which had prevented the Iron-Blood Brothers from being able to operate normally. They must be allowed to leave for secret operations.

On the twelfth floor, the reporters were ready. Lu Yang just came in. Lu Yang, who flashed the flash, almost couldn't open his eyes. He came to the middle of the meeting and began to tell the story of the incident.

distance.

Thousands of kilometers away from Africa, Liu Jie and Fortune Grass are watching the live broadcast, Sanyou Weimen is watching the live broadcast, Radvedev is also watching the live broadcast, as well as Gertz, Roland and Christina, etc. Anyone who wants to subvert the League of Bronze Brothers.

Liu Jie looked at the TV and frowned, holding his arms and asked, "What do you think of this?"

The dead grass raised his eyebrows and said: "Christina said that Lu Yang had at least more than 40,000 subordinate occupations. Sanyou Weimen said that his spy felt that the logistics of the Iron-Blood Brothers were not working properly, although it was small. A large amount of potions, equipment, and enchantments are transported to the border, but the accumulation is small, and within a month, you can get enough supplies for ten days of fighting.

There are also Radvejev's spy, Roland's spy, and the news from the Dark Warrior. There is only one conclusion I can draw. Lu Yang is going to work on Gertz. "

Liu Jie smiled and said, "Are you sure?"

The dead grass nodded and said: "Lu Yang must kill Gertz before the end of the contract period, otherwise Roland and Sanyou Weimen will join Gerrard to fight against him. This is undoubtedly, so Lu Yang It will definitely be the first to go to war. It will be summer vacation in another month. When he will not fight at that time, when will he fight? "

"So what do we do?" Liu Jie asked.

The dead grass smiled and said, "You have all become the son-in-law of the Dark Warrior Group. We should logically bury our heads in development, but Gerzi cannot easily lose. We still need him to help us delay time and wait for us It's enough to get rid of Steiger, so we must help him. "

Who would have thought that Liu Jie had hooked up with the daughter of the boss of the Dark Warrior Group. At this point, the Dark Warrior began to help Liu Jie with all his strength. All this was done in secret, and no one else could even know that even high-level people like Yue Taishan Know the news.

"How can I help?" Liu Jie asked.

The dead grass smiled and said, "Aren't we tens of thousands of subordinate gods on the bright side? We all sent over to help, and at the same time, asked Steiger to send someone to help, neither of us two left extra people, is not it."

Liu Jiemeng's eyes widened and said excitedly: "It's my think tank, just do it."

Steiger blocked Liu Jie for two years. Normally, if he develops for two years, Liu Jie is absolutely confident that he can confront Lu Yang directly. But for these two years, Steiger has no way to block it. Nowadays There is finally a chance to break the game.

The Dark Warrior Legion actually helped Liu Jie to cultivate 20,000 lower gods. Even if 10,000 people left, there were still 10,000 people. When these people rushed into the fortress area of Steiger, Steiger could be comprehensive Defeated.

Counting Dead Grass sighed and said, "My strategy will ultimately be built on your strong strength. Without you, I have nothing to do."

Liu Jie entered the game with great joy, and at the same time sent special space invitations to Steiger, Radvedev, Stephen Sanmen, Roland and Gertz.

The light flashed, and the six people came in almost at the same time, but each person's expression was different. Radvedev and Stephen were glaring at each other, and Steiger looked upset at Liu Jie. Sanyou Weimen and Roland With a leisurely look, Gertz looked dignified.

"What's the matter with us? I'm having an emergency meeting." Gertz said frowning.

Liu Jie smiled and said, "It seems that what I said has something to do with your meeting. Just after I got the news, Lu Yang is ready to hit you."

Gertz's brows were tighter and he said, "My think tank is also suspicious. Lu Yang's move is too suspicious."

Roland shrugged his shoulders and said, "Even if Lu Yang is going to fight Gertz, the two of us can't help now. With a \$ 4 billion contract, neither of us can break the contract."

Sanyouweimen put his hands in his sleeves and said slowly: "No hurry, we might as well listen to Mr. Liu Jie's views."

Liu Jie said: "I have some contact with Christina. According to the news from Christina, the number of lower gods in Lu Yang's hands is at least 30,000 to 50,000. If the war starts, Gertz will definitely not be able to block it. live."

"Why are so many people impossible?" Gertz's horrified eyes widened. He got the news that there were only 20,000 gods in the Iron-Blood Brotherhood.

Radvedev, Stephen and others were also stunned. Each of them had only about 10,000 people, but the Luyang family was almost the sum of all of them.

Liu Jie shrugged his shoulders and spread his hands and said: "Christina does not need to lie to us. It is true to want to come. In this case, Jerz can't stop him alone. I have a suggestion."

"What advice?" Sanyou Weimen asked.

Liu Jie said: "Several of us who have no contract, directly sent the next **** to enter the Gertz area to help Gertz defend. If Sanyou Weimen has a contract with Roland, he orders his men to play Aki. After dismissing the contract and entering the Gerds area, we will gather him for 40,000 next gods in case of Lu Yang's sudden attack. "

Gertz looked excited, looked at Liu Jie and said, "Brother, your method saved my life."

He then looked at Radvedev and others, bowed and said: "If you can help me, I must thank you."

Sanyou Weimen and Roland glanced at each other, and the two said together: "We have no problem and can provide 10,000 lower gods."

Liu Jie said: "I can also provide 10,000 people, but need Steig also 10,000 people, otherwise, I am afraid that he will hit me."

Steiger snorted and said, "I also sent 10,000 people."

His spy had touched Liu Jie 's senior management and was working under Ru Yue Taishan. Nowadays, Liu Jie 's most master is Ru Yue Taishan. Therefore, Steiger believes that he is very liable to Liu Jie 's worth. clear.

“That’s really great. We can play as many as we want in the future. Be sure to wipe out Lu Yang first. If he is here, we won’t be safe.” Liu Jie said.

Chapter 1788 - All together

Steiger said: “You’ve never gotten soft with your compatriots.”

Liu Jie smiled and said: “I have a quarter of Finnish origin, not to mention this, we have 10,000 each of our four families, there are already 40,000 people, now to Radvedev and Stephen II Now, what do you think. “

Stephen and Radvedev are glaring at each other. The two of them have fought more than ten times in the border area. There are countless small battles, and both of them are almost dead.

“Now that you have enough 40,000 people, plus Gerrze is 50,000 people, what do you need me to do, I’m gone.” Radvedev directly exited the special space.

“I’m gone too, this **** must wipe me out, sorry, I can’t support.” Stephen also left.

Gertz looked at the two leaving with a helpless face, and Liu Jie also sighed and said: “Unfortunately, the best chance to eliminate the Iron-Blood Brotherhood, so missed.”

“I’m very grateful to keep it. For every 500 million US dollars, I will never let everyone do nothing.” Gertz said.

The four Liu Jie readily agreed.

“Let’s mobilize our staff. At the same time, Steiger and I will take precautions in the border area. If Lu Yang comes in, we will send people back at any time.” Liu Jie said.

Sanyou Weimen said: “We opened the transmission fortress along the way. Everyone passed in advance. On the one hand, we arranged the defense line. We also have a buffer process on our side.”

The area of Gerds that needs to be defended is too large. There are twelve fortresses in the southeast area of the New World bordering Luyang. Once the war begins, these fortresses need to be prepared. There are also two fortresses in the eastern area, which together add up to fourteen fortress.

Not only the frontier fortress needs defense, but the back of supplies and the player’s defense area, many things need to be prepared in advance. If it is said that this time it was not because of the sister group’s mother that the intention was exposed, Gertz may not be able to hold even for half a month. Now it is different.

The five people each showed a smiley expression, and withdrew from the special space. The five guilds adjusted together. This large-scale transfer could not conceal anyone. Tu Feng discovered this problem for the first time, and at this time, Lu Yang It’s still a press conference.

Tu Feng couldn’t care about anything else. He broke into the press conference and came to Lu Yang. He told the news. Lu Yang, who was accepting media accountability, couldn’t help but hit the table with a punch.

“Bang”

The reporters were taken aback. They thought Lu Yang was irritated by them. They were even more excited. The reporter who was speaking asked excitedly: “Are you a bad character by yourself, or do you have a problem ...”

“Shut up.” Tu Feng glared at the reporter angrily, and couldn’t help saying: “What do you know? Just because of these stupid women, do you know how badly they hurt us?”

“How can a few women treat you?” The reporter asked in disbelief.

Tu Feng just wanted to continue talking, but Lu Yang stopped him. He knew that Tu Feng was not good at this. He said: “You tell the brothers first, the plan remains unchanged, let everyone continue to prepare for the war, and the sneak attack becomes a strong attack.”

“Yes.” Tu Feng glared at the reporter and walked away.

Lu Yang stood up, looked at a group of reporters, and said, “I will continue to talk about what Tu Feng said just now, just now, we have held the press conference, the presidents of the four strongest guilds in the New World, Liu Jie, Shi Tiger, Sanyoumen and Roland sent 10,000 lower gods into the Gerds area at the same time to help him defend. “

“What?” Many reporters were shocked.

Lu Yangqiendured his anger and said: “You all know that if the Jagged Brothers can’t defeat Gertz before the end of the summer vacation, they will definitely be attacked by Gertz, Sanyouweimen and Roland, so I will be in a month The battle plan was formulated before, and it was officially implemented in secret today. I plan to carry out the 40,000 subordinate gods cultivated by the Jagged Brotherhood to launch a surprise attack on Gertz at the end of the month. Erz defeated, but you saw it because of the trouble of these dozen women, because of your report, my secret plan was seen by the enemy. “

“How is this possible?” Said a reporter in horror. He already knew the consequences.

Lu Yang smashed a punch on the table and said angrily: “How is it impossible? Hmm? Because of the reports of your idiots, the best chance of the Jagged Brothers to defeat Gerzi is gone. Now, Jagged The Brotherhood can’t sneak attack, and can only think of other ways.

But how much time do I have, two months, I only have two months, if I can’t beat Gertz in two months, then I will face four guilds with nearly one hundred thousand gods Players’ joint attack, you tell me, how should I fight with my blood brothers. “

“What should we do?” A female reporter sneered.

Lu Yang laughed sarcastically and pointed at the female reporter and all the reporters here and said, “What should you do? You have me remembered that if the Brotherhood of the Iron-Blood Brotherhood fails, all the strongholds in the new continent are lost. Bankruptcy, the day the game city disbanded, all of you here are historical sinners, all will be nailed to the column of historical shame, because, the only player in the world, a land of players, a game that attracts worldwide attention The city was leaked because of the random broadcast of you unscrupulous reporters, and everyone will scold you in the future, you bastards. “

He turned and left the meeting place, leaving only the people who were shocked. The female reporter reacted for the first time and said bitterly: “What has to do with us, what should we do.”

An old reporter next to him sighed and said, “First of all, find a way to leave here alive, and then find a way to keep your job. We can’t do this in the reporter’s business.”

“Leave here alive? Why? How dare they treat me, believe me or not?” The female reporter said with staring eyes.

“Shut up, you idiot.” A male reporter next to him couldn’t help but overthrow the female reporter on the ground, scolding: “Don’t take us to death, all government departments and public security departments in the development zone are paid by games. City tax, you are here to find the police, you want to die, you die, do n’t take us. “

Not to mention the hatred of the government against them, just saying that the more than 400,000 players and millions of relatives in the game city can tear them alive, and today Lu Yang said so mercilessly, that is, he did not intend to let them go. , These reporters who understand the matter do not know what to do.

In the office on the 33rd floor, Lu Yang returned to his seat and received multiple calls without waiting for a rest. After dealing with each other, Lu Yang looked at the incoming Xia Yuwei and Zhuojiu and others, sighed and said, “ The sneak attack has become a tough battle, and you must be ready. “

Zhuojiu smiled and said, “With us in, you have a hundred hearts.”

Lu Yang smiled and said, "Be careful, this time the enemy is very strong, and it was not something that could be easily fought before. Gertz has run the guild for more than five years. He is quite experienced, and he has a large number of loyal people. Player, although I have a king bomb in my hand, it is not easy to use it until the critical moment. "

Gertz has been in control of the guild for five years, developing from the weak to the strongest guild, and now annexes Claudio, and Gerzi also uses Huairou means to absorb most of the players in the Claudio area and most of the original guild members. Go in.

With Gerlz's current strength, it is not difficult for a family to mobilize 15 million people. In the case of both players with lower gods, the lower gods are no longer invincible. As long as they fall into the encirclement, the opponents are inferior. The three men of God attacked together and would die if they were hit.

Lu Yang used a virtual helmet to project the map onto the coffee table, pointing to the four fortresses of black, orange, purple and blue in the border area and said: "We focus on attacking, or these four fortresses, only to break in from here In order to completely eliminate the enemy. "

Tu Feng said: "These four fortresses are fortresses defended by the enemy's first group of heavy soldiers. As long as there are 5 million people defending in this area, and the trenches here are not trenches, they are authentic. According to the report of the agent, The super electromagnetic storm can't hit the underground teleportation array. When fighting overhead, the enemy can be transferred in large quantities through the teleportation array. No matter which side is subjected to a large-scale attack, the enemy can respond quickly. "

Zhuojiu, White Lion, Hard-loved Half-Life, and Zhou Tianming all showed surprised expressions. Zhou Tianming said: "If this is the case, we will be difficult to fight, and we must re-enact a tactic."

Originally, Zhou Tianming and Zhuojiao and others thought that the frontal attack, with their more professional command and better players, positively defeated the main force of Gertz, but now it becomes this look, let Zhuojiu them Some will not play anymore.

Xia Yuwei asked: "Why can they make so many holes under the ground? Is this allowed by the game?"

Tu Feng said: "The terrain in Jerz area is special. Their method is officially allowed, but underground transmission is also required. They cannot be transmitted too far at once. Their transmission array is supported by something called Tianjing. Yes, you can only jump 20 kilometers at a time. "

Zhou Tianming reacted and said, "So if we kill their teleportation arrays before each fortress, can we isolate each fortress?"

Lu Yang said: "This is indeed a solution, but the news we have obtained is that the enemy has a complete defense system underground, and the possibility of breakthrough is very unlikely, especially for the mountain sandwiched between the fortresses, the defense is more complete. "

Between the Black Fortress and the Orange Fortress, there is a Flint Mountain, just 1km behind the center of the two fortresses. In order to improve the defense, Gertz turned the two fortresses into the frontiers of defense. Flint Mountain is the command center.

Normally, it is very difficult to break through the defense between the black fortress and the orange fortress, not to mention rushing into the mountain behind, and attacking the enemies with a complete teleportation system in the mountain.

Xia Yuwei saw this place but her eyes were shining. She stood up excitedly and looked at Lu Yang, saying: "Boss, give the sisters a chance to let them attack the Fire Rock Mountain and interrupt the enemy's teleportation."

"Sisters?" Everyone frowned a little. Now that the sisters are a taboo in the Iron-Blood Brothers League, these people sent everyone to call, if not because they were girls, they would not even dare to go out.

Xia Yuwei said excitedly: "I know that everyone looks down on the sister group, but now is an opportunity. The sister group dare not go out, so that they look normal on the outside, but they are given the opportunity inside to let them do their best. The sapphire fort north of the orange fort was dug to Flint Mountain. This is a viable method. Even if it fails, everyone loses nothing, right? "

Lu Yang looked at the map and said, "This is indeed a solution. I promised your request, but it must be guaranteed to be successful. So far, the Jagged Brotherhood has not failed on the battlefield. News of morale. "

“Thank you boss.” Xia Yuwei sincerely thanked Lu Yang for those little sisters, and sincerely thanked Lu Yang for believing her at this time.

“I will talk to them tonight.” Xia Yuwei said.

Lu Yang nodded and looked at the others and said, “Be prepared for mobilization. This battle is treated as the final battle for the future victory of the blood-blooded brothers. If you win, we still take the initiative in the New World. Now, we are all ready to return to the tiger’s mouth, and then face the storm of the enemy. “

Zhuojiu, Baishi and Zhou Tianming and other vice-chairmen rose up together and said to Lu Yang: “The boss is at ease, we know what to do.”

Lu Yang nodded, indicating that everyone could leave.

He returned to his seat, put the gaming helmet on his head, and the light flashed. Lu Yang appeared in the Demon Temple. Looking at Salamanca, who was still swearing in front of him, he pronounced a spell.

“The Flame of Punishment”

Flames continue to attack At this time, Salamanca’s blood volume is only about 3000 points, Lu Yang can be worn to death in the middle of the night, and the time of the war is getting closer and closer. He also wanted to know what this upper **** could burst him out.

When Lu Yang attacked here, on the other side, the Iron-Blood Brotherhood also began to move in an orderly manner, and the nine major vice presidents and cute queens, Liu Ruohuai, Wan Zhonghui and others could stand alone.

The players who are fighting monsters are also aware of the fact that the secrets of the Brotherhood of Blood Alliance have been leaked, and those who know the crisis of the Brotherhood of Blood have a familiar expression on their faces.

“Let Qin Lao Qin, go to the country together, blood is not drained, vow not to truce! 》 On the forum, an anonymous player posted such a post. In the game, I do n’t know who it was, and the first one followed the slogan.

“Brothers of the Iron-Blood Brotherhood, the guild is in trouble. When it is time for our brothers to gather again, we want to destroy the Iron-Blood Brothers League and pass our brothers first.”
Commanders such as Wan Zhonghui, Liu Ruohuai, Jiang Chen and Lu Yuming shouted their arms around the fortresses.

Hundreds of millions of Brothers of the Iron-Blood League started to gather again!

Chapter 1789 - Nothingness

Suddenly in this war, all because of the leak incident, Lu Yang couldn’t make more preparations, and could only call on his players to gather together. The players of the Brotherhood of Blood Alliance went to sapphire, screen, fire dragon, resurrection and blue hole fortress.

In the same way, Gerlz also started to do his utmost to gather players and go to the black, orange, purple and blue fortresses to gather. The first battlefield of the two sides is here, but both sides need time.

The first one needs to determine the number of players in the day shift battle and the night shift battle, and the second one needs to collect materials as much as possible. Therefore, the actual combat time does not erupt immediately, but within the next few days.

Fortunately, the leadership of the war is on the side of the Brotherhood of Blood, Lu Yang is the offensive party, and Gertz is the defensive party, which allows Lu Yang to do more preparations, but it is only a few days longer. Only time.

In the Demon Temple, Lu Yang is killing Salamanca with all his strength. He sees that there are hundreds of blood left. He needs what Salamanca exploded. No matter what, the fire items exploded by the upper god, Can help him.

Salamanca also found himself on the verge of death, and began to become more angry, and even entered a state of madness, but two divine cows and golden chains trapped Salamanca to death.

After 1 minute, Salamanca couldn't hold it anymore, and his body collapsed quickly, leaving only an unwilling roar.

"I am the upper god, how could I fail ~!" Salamanca's body turned into a light in the golden chain, dissipating into the invisible.

An item exploded, the first of which caused Lu Yang to open his eyes and smile.

Vulcan Pearl (Artifact)

Intelligence of God: +200

Special Effects: Temporarily add 500 points of intelligence for a duration of 1 second and a cooldown of 5 seconds!

Lu Yang never thought that killing the upper gods can also explode artifacts. Although the upper gods can occasionally explode, the chance is tens of thousands. Normally, only the presence of the main **** or the **** king level can explode.

He felt that he was really lucky. Although the status of Vulcan Pearl is the same as the current Demon God's heart, they are all artifacts of the lower gods, but Vulcan Pearls are the top-level existence of the lower artifacts.

Lu Yang put the Vulcan Pearl into the jewelry column, his intelligence increased by more than 2 times, and his intelligence value became 308 points. The only pity is that he cannot wear Shenmu branches and

water spirit earrings. If both are worn, his Intelligence can be increased to nearly 400 points, but this is enough to allow him to fight what he wants to fight.

“Hailang and Debu didn’t taste the corpse, and quickly took the nine lower gods in their respective hands to the Fortress of Nothingness.” Lu Yang sent a message to the two, and then sent a message to Xiao Liang, ordering him to come too. At the same time, Lu Yang used the teleportation scepter and flew back to the void fortress in the Indian region.

The so-called Void Fortress is the latest batch of 170-level fortress built in the Indian region, and is also one of the main fortresses making money now.

Lu Yang had just arrived in the inner city of the fortress, and 19 people including Xiao Liang, De Bu Tasteless Body and Sea Waves came together with a beam of light almost simultaneously.

“Boss.” The three saw Lu Yang running over at the same time.

Lu Yang handed over the Shenmu tree branch, the “Summon Woodman” skill book to Debu Tasteless Body, handed the “Summon Water Spirit” skill book and water spirit earrings to the sea wave, and then gave the Shenmu War Shield to Xiao Liang, saying: Change into a mount and follow me to the Temple of Nowhere on the 190-level map. “

“Yes.” The people nodded and immediately put on their mounts. As Lu Yang ran out together, they all knew that they were now racing against the clock.

The Temple of Nothingness is the only area of Nine Pillars in India that resembles the Lava Sea. This is the temple where one of the Nine Pillars of the New World lived.

The place Lu Yang is going to go to this time is the outermost periphery of the Temple of Void, that is, the border area of Void, and go there to kill a lower god.

However, the way to enter the void is different from the area like the lava sea. The void is trapped in a special area. In the official story, the void is originally connected to the new continent. There is no such thing as the void. .

The reason why there is nothingness is because after the alien **** invaded the new continent, many gods in the new continent could not beat the alien god. A third of the alien gods are involved in the void, and they are firmly trapped.

Therefore, in this piece of nothingness, you can not only see the time and space gods of the new continent, but also have the opportunity to see the alien god, and here, the alien **** has established its own control area. The entire nothingness is one. Very special presence.

An hour later, Lu Yang brought the crowd to the entrance of a portal. The portal was extremely huge, several hundred meters high and nearly 100 meters wide.

At this time, a lot of Indian players were gathering around to fight monsters. When Lu Yang and his party were about to proceed, someone kindly shouted: "Don't go in, you can't beat the monsters inside."

Both Lu Yang and De Bu didn't taste the corpses. They all used camouflage coats, otherwise they wouldn't be able to run here and they would have to be robbed.

Lu Yang looked back at the player and found that he was level 177, and said with a smile: "Thanks for the advice, we will go in and see."

This gate is lacking in morality. He is built on the edge of the 180-level map. It makes people think that this gate is also a 180-level strange. Who can think of it, the next **** will be encountered when entering the door. It was lost here in seconds.

The light flickered, Lu Yang first entered the gate, he found himself in a wonderful, space-like area, the ground here is black and transparent, the sky is mainly dark, but there is always a colorful light fly over, it's cool.

De Bu did n't taste the body right behind Lu Yang. He raised the crystal lamp and found that the light could not make the surrounding area brighter. He said: "This area is very strange. I can see something 100 meters away, but how it looks so uncomfortable. "

Lu Yang smiled and said: "It's good to get used to it slowly, here is the void, follow me, we have an urgent time."

Everyone nodded, and replaced their mounts with Landing Yang, avoiding the mobs all the way, and ran to the door of a huge white building not far away.

System prompt: You found the Temple of Thame

“There is a dark place all around. There is such a white temple, which is really awkward.” Hai Lang said.

When I first arrived, the people such as Hailang and Debu Chen didn’t know everything here, and they were instinctively afraid and uncomfortable.

Lu Yang said with a smile: “Don’t worry, the primary shrine here, our task today is to push away here, the Germans don’t taste the corpses and the waves call the baby, Xiao Liang resists the shield, everyone is ready to fight.”

“Yes.” Everyone nodded. Nowadays, the basic material preparation of the God-level Brotherhood League of Gods players is relatively complete. God’s magic recovery potions and qi and blood recovery potions have begun mass production, and there is no need for players to remove monsters. The body burst out, and the 19 people who came were filled with potions.

In terms of equipment, they are all equipped with Shenyan suits. Only Xiao Liang does not use Shenyan Scepter, but uses Shenmu War Shield and Ancient God Warhammer.

“Summon Water Spirit”

“Summon Wooden Man”

After wearing special ornaments, De Bu Tie and Hai Lang both released the summoning technique. In a blink of an eye, a woman who was completely transformed from pure water appeared beside the Hai Lang. Her height was about two meters.

Water Spirit (Level 4)

Qi and blood: 1500/1500

Physical attack: 100-100

Spell Attack: 300-300

Physical defense: 200-200

Magic defense: 250—250

Active skills:

Water Spirit Copy: The body is transformed into a mirror surface, and an attacker can be designated to be transformed into an attacker, which is completely consistent with the original biological state.

“My master, do you need me to do something for you?” Shui Ling showed a cunning expression and circled around the waves. The body made of pure water allowed her to change into a snake or other forms freely.

Hailang raised her eyebrows, looked at Lu Yang and said, “Boss, how can my water spirit feel like a real person?”

Lu Yang said with a smile: “You are just used to it. The water spirit is like this. His active skills are very useful and are the key to playing this temple.”

Water spirit copying can not only copy ordinary monsters, but also boss monsters. It has attributes such as boss's complete attack speed. The only thing missing is time. This thing can only exist for 30 seconds, and it will disappear after this world. Water spirit copies The cooling time is 10 minutes.

In addition, in general, the wooden man who did not taste the corpse was also summoned. De Bo didn't taste the corpse and looked at the wooden man.

A wooden man with a height of 2 meters and a dark green wood all over his body is standing next to him. The key is that this wooden man has a very vicious face, two fangs and red eyes.

Wooden man (level 4)

Qi and blood: 2000/2000

Physical attack: 200-200

Spell Attack: 0-0

Physical defense: 350-350

Spell defense: 400-400

special skill:

Ironwood Control: Summon a wooden shackle, trap the target in a cage, unable to release spells and physical attacks, drop blood every second for 5 seconds.

If Lu Yang could n't get rid of this trick, he nodded in satisfaction, and said, "I will blame the monster later, the wooden man resists the left monster, the water man resists the right monster, Xiao Liang Fight against the middle monsters, listen to my command and attack again. "

"Yes." Everyone nodded.

Lu Yang jumped into the door of the Temple of Thame in a leap, three dark purple bodies, wearing lacquered black armor, black human hammer figures are together.

Tam Guardian (boss)

Level: Lower God

Qi and blood: 15000/15000

Lu Yang aimed at the three **** guards and said the spell in his mouth.

“Di Shi Tian Huo”

A flame instantly hit the three Tam guards, and the three stared at Lu Yang at the same time. In an instant, the three of them appeared in front of Lu Yang when they were small from the spot, and raised their hammers to hit Yang Yang.

“I knew you would come to this trick.” Lu Yang instantly used the ember skills to turn into a flame and jumped to a position 30 meters behind him.

The three Thames guards did not hit Lu Yang with a hammer. Seeing Lu Yang jump long, he launched his skills and disappeared again. At the next moment, he appeared in front of Lu Yang again, but Lu Yang disappeared again.

...

Standing at the door, Xiao Liang, De Bu didn't taste the corpse, and the waves, etc., watching Landing Yang pulled the three monsters back in a teleportation like this, all showing a dumb expression on his face.

“Oh my god, this monster can't walk, can it only teleport? No wonder this is a restricted zone? How many people can hide from them like this.”

“Our boss is the true God. It's terrifying to fight against the monster.”

...

They had just talked for three sentences, and Lu Yang suddenly moved to them, saying, "Prepare to pick up the monster."

In the next moment, the three Thames guards moved to Lu Yang in front of him, but at the same time, a flash of fire suddenly appeared in front of Lu Yang.

"Instant Blast"

The vertigo symbol appeared on the heads of the three Thames guards and was held in place. Xiao Liang, Mu Ren and Shui Ling entangled three monsters at the same time.

Lu Yang shouted: "First kill the monsters of the water spirit resistance, the water spirit defense is too low."

At the same time, 14 people aimed the attack target at the water spirit. A piece of skills was scattered. There were starlight skills, water light skills and golden fireballs. The damage was not low. The damage of each skill was around 100 points. Ten people killed and their blood volume doubled, but they were killed within 5 seconds.

Then he changed the target to kill Xiao Liang, and finally killed the wooden man. When all of them were finished, everyone showed a relief expression, and some people sighed.

"It's dangerous enough." Xiao Liang wiped the sweat on his forehead. He found that he couldn't escape the hammer attack of Tam Shenwei. He looked at it with a hammer, but the attack speed was too fast to see clearly. He only can protect the upper body with a shield to avoid headshots, but this is also blood mad, there are five wooden occupations responsible for blood, three are adding blood to him, barely supporting it.

Lu Yang said with a smile: "Don't worry, just get used to it slowly, this is how it looks."

Anyone who feels uncomfortable for the first time will get used to it slowly. After all, the blame here is this virtue.

Seeing that everyone was recovering, Lu Yang said, "I continue to pull monsters, you are ready."

Everyone nodded There are a lot of guards in the Temple of Thame, all in groups of three. Lu Yang took a long time to kill all the monsters in the main hall. At this time, the door There is only one lord left.

Time and Space Lock-Tam (Lord Level)

Level: Lower God

Qi and blood: 150000/150000

The height of Tam is 2.5 meters, which is also a type of shape. The whole body is purple, and he holds a bigger hammer in his hand.

The monster that Lu Yang was looking for this time was him, and he said to everyone: "For a while, the wooden man will be responsible for fighting against the lord monster. The skills of the Tam Club are not many. The real difficulty is that he will pull the little monster and the boss monster, which requires Xiao Liang came to resist the little monster, and the Water Man came to copy the boss monster, and he would listen to me for a while. "

The characteristic of Tam is that he has a certain chance to launch the time and space backtracking skill and return to the state of a few seconds ago. It is a very disgusting person. There are 20 people here to fight him. As long as he is attacked, his blood volume will be turned. It's 300,000 times, but this is the same. Lu Yang's damage needs to be used by mobs. If there are 10 fewer people, the output is definitely not enough.

Chapter 1790 - Time and Space Locked God Thunder

“Let’s blame.” Lu Yang saw that everyone had recovered, and with his left hand pointing to Tam, he said the spell in his mouth.

“Shen Yan Tian burst”

A pure golden fireball hit Tam’s head precisely. The four eyes on Tam’s face stared at Lu Yang at the same time. At the next moment, he appeared in front of Lu Yang instantly, but at this time, he had already touched Demonstrating the routine does not taste the corpse, and occasionally can’t let the wooden man punch the position in front of Lu Yang.

“Bang”

When Lu Yang disappeared, the wooden man punched Tam in the abdomen and took a step back. At the same time, the high amount of hatred allowed Tam to instantly target the wooden man and raise his hand. A hammer hit the wooden man’s stomach.

“-618”

Lu Yang was relieved, and several treatments were also relieved. They were really afraid that a hammer would be a thousand blood, and their blood-adding skills could only increase by more than 200 points at a time, and then it was over.

Lu Yang watched the wooden man stabilized and shouted: “Slow attack, pay attention to retain the magic value, he will lose his skills when he loses one third of his blood.”

More than 10 people output together, and the blood volume of the lord instantly changed from 150,000 to 300,000. At this time, he began to slowly drop blood.

During the first third of the blood volume, the wooden man will only attack with a hammer. Under Lu Yang’s command, everyone is controlling the consumption of spells. Every time the mana value is

reduced, the magic potion is used in time. When Tam 's When he lost a third of his blood, Tam suddenly roared.

“My servant, come and help me.” There was a teleportation array around Tam, and three Tam guards jumped out of it.

Lu Yang's eyes lit up and shouted: “The wooden man is trapped in one, and the other two Shui Ling and Xiao Liang pick up the monster.”

“Yes.” Hai Lang directed Shui Ling to stop the monster on the left, and Xiao Liang stopped the monster on the right.

Lu Yang then shouted: “Kill the Shui Ling first.”

More than a dozen people put out their full strength. The first Tam guard didn't resist for 5 seconds, and then the second Tam guard was killed. The two guards had just been killed. The Tam guard in the wooden man's stomach jumped. When he came out, Xiao Liang fought against the shield and picked up the monster, and then everyone killed again.

But at this time, Tam roared again: “My servant, following my orders, came out to fight.”

Another portal appeared, and a demon with a height of 2 meters came out. His whole body was bound by a black magic circle, and his face was reluctant.

Time and Space Demon (boss)

Level: Lower God

Qi and blood: 20000/20000

Lu Yang said: “Shui Ling copied him, everyone backed away, don't approach him.”

The waves reacted extremely fast, but this was still a bit slow. He had just issued a command, and the waterman had just released his skills. The two claws of the space-time demon appeared to be in front of the waterman, as if they were not their own bodies.

“Time and Space Blast”

The water man 's body was pierced by two claws, and the blood volume of 1500 was instantly hollowed out. At the same time, at this time, the water man 's broken stomach suddenly broke open, and a creature exactly like the space-time demon jumped out. .

“Time and Space Blast”

He used the same skill with the space-time demon, instantly knocking out 1500 health of the space-time demon.

Lu Yang breathed a sigh of relief and said, “The first team killed me with the space-time demons, and the rest continued to fight the lord monster.”

At this time, his magic damage was equal to three people, and it was not slow to kill. Soon, the space-time demon was killed, and everyone's goals were turned back to Tam.

“All staff's main magic value must be kept at full value, he will continue to summon.” Lu Yang said.

After Tam 's blood volume dropped by a third, every 50,000 points of blood loss will be summoned once. Very disgusting people. Fortunately, Lu Yang brought all elites among the elite, everyone was reluctant Kill Tam in place.

“My body, my body, the soul I devoured is coming out, I can't control it anymore.” Tam roared, his body exploded.

Countless souls came out of him with a howling sound, which lasted for a full minute, and finally, a soul remained in place and did not go.

Alien God Apdus

“Humans? It’s you who rescued me. As a nobleman of alien gods, I thank you for your help.” Apdus looked at Landing Yang and smiled.

System prompt: You have turned on the prestige of Star Guard

Lu Yang walked to Apdus with a smile and asked, “Do I need to do anything for you?”

Apdus nodded and said, “Thank you for sending the space-time crystal dropped by Tam to Star Guard, he is in the northwest of the temple, not far away, if you can help me, I will thank you help.”

Task reminder: Is the **** task accepted?

Lu Yang chose to accept it. He smiled and said to Apdus: “I’ll be happy to help you.”

He picked up the space-time crystal, and Tam dropped a total of three items. The other two were the space-time warhammer, which was from the physics department, and the other was a skill book.

“Time Lock”

Type: God of Time and Space

Cost: 100 magic

Distance: 10 yards

Description: Lock the space within 5 yards, so that the time in the space is still. All creatures in the space cannot move, except the user, the duration is 1 second, and the cooling time is 1 minute.

Lu Yang lamented that this is a divine skill for the orthodox subordinate gods of time and space. This is the only skill that can completely control the target in a large range and cannot move at all. A failure.

Lu Yang put away the skill book, he had to hand it over to a real master, because the skill book had a limited scope of control, and only top players had a chance to control the top subordinate **** master, otherwise, put it in the hands of the mediocre, he definitely can't hit any of the lower gods of this level.

"Let's go." Lu Yang put on his mount, ran out of the temple with Xiao Liang and De Buchen, and ran out to the northwest along the road.

Along the way, everyone carefully avoided the guards in the map, because these guards would be teleporting, and no one wanted to be suddenly jumped in front of the guards by this time.

I ran for more than an hour, and finally, in front of the road, a simple barracks appeared. I did n't know what material the black crystal made of a fence more than one meter high. There was a 5 meter wide fence in the middle of the fence. At the gate, there is alien gods of the same shape guarding there.

Lu Yang ran in front of them, waiting for the alien **** to speak. From the time and space crystal in Lu Yang's hand, Apdus's soul flew out. He looked at the alien **** in front of him excitedly and said, "House, My friends, I am back. "

The captain of the head of the alien god, who saw Apdus, showed an excited look on his face at the same time, and said, "My friend, you are still alive, so good."

Apdus nodded and said, "Don't talk about it anymore. The people who brought me are my friends. They saved me from the Temple of Thame and thank them for me."

House turned to look at Lu Yang and said with exclamation: "Thank you for saving my friend. Xingwei is willing to get along with you as a friend in the future. Can you tell who you are."

Lu Yang smiled and said, "You are not familiar with me, but I am very familiar with you. We are human beings, the creatures who counterattacked from another planet to this continent."

House nodded somewhat clearly.

Suddenly, Lu Yang said, "I have encountered creatures like you in the lava sea. They are in a star wheel. The leader's name is Akobo. Do you know if you know?"

"Star wheel? Akobo? Are they still alive?" House and Apdus said excitedly at the same time.

Lu Yang said with a smile: "Of course alive, did you see the camouflage coat I was wearing? It was given to me by Akobo, and I also saved a female alien god, like the daughter of the old captain on the star wheel. . "

"If the true God comes again, they are still alive. It's so nice, how are they?" Apdus asked.

Lu Yang said: "The condition is not good, the star wheel is damaged to some extent. Although I helped them find some parts, the large parts can't be found. In addition, they can only hide in the lava sea and meet each other. . "

House sighed and said, "We lived without pain. In this **** void, our abilities are greatly compressed, so that the strength of our opponents is even with us, which is really abominable."

Apdus said: "Humans are our friends. Perhaps, we can let our friends help us realize some wishes."

House looked at Lu Yang and said: "If you are willing to help, we are willing to help you to improve your strength. You are too weak, but it is because of your weakness that you can enter this space smoothly."

During the talk, the crowd had entered the camp, and on a cross full of energy, a stranger similar to Apdus was hanging.

"My body, I'm back." Apdus roared excitedly, and flew out of the space-time crystal instantly, and got into his body.

A tremendous amount of energy radiated from Apdus' body, and then Apdus opened his eyes and jumped in front of Lu Yang, saying, "In order to express gratitude to you, you can go to Star Guard The camp buys any necessities you need. "

A purchase bar popped up in front of Lu Yang, and the first piece of equipment was very useful.

Star Shield

Level: Lower God Level 1

Physical defense: 120-120

Magic defense: 110-110

God's Stamina: +3

Lu Yang continued to look down. When turning to the third column, a drawing made Lu Yang smile.

Drawing: Time and Space Locking God Thunder

Requires: Guardian Crystal, Blood of Warcraft

Effect: Throw at the designated target, causing the area to stagnate for 1 second.

Lu Yang squeezed his fist hard, what he was looking for was this thing. Time and space locked the **** thunder, which was specially used for killing **** thunder. The range of the bomb was within 2 meters. , Will definitely be able to kill the target.

Lu Yang bought 100 drawings in a row and said to Apdus: "Thank you very much for your help. I am going to fight now. If this battle can be won, I will come back to help you."

Apdus said with a smile: "I look forward to your return."

Lu Yang sent a message to Tu Feng, saying: "Quickly mobilize all the players of the next **** to come to the void to fight the crystal of the guardian and the blood of time and space warcraft. In close combat, you must carry the star shield, and the money will come from the guild.

Then, he turned and said to De Bu Taste, Xiao Liang and Hai Lang: "The three of you are responsible for leading the team."

"Yes." The three of them said excitedly together. They had already felt that how much more such a time and space locked God Thunder had on the war.

Lu Yang took out the teleportation scepter, returned to the Heavenly City God City, found Mu Yi, and handed the drawings to his hands, saying: "As soon as possible tonight, there will be a steady stream of materials sent to find Reliable player production. "

"Big Brother, rest assured." Mu Yi said.

Lu Yang nodded, he was slightly relieved, and now the Iron-Blood Brotherhood is fully operational, 10,000 people are killing the materials of the God Thunder, 20,000 people are digging the crystals of the fire, and 500 people are searching for intelligence on the front line. There are 20,000 people who were transferred by Lu Yang to the material in which the space and time are locked into the thunder.

This is currently all the 50,000 lower **** players in Lu Yang 's hands. At the same time, they must go to the Fire Spirit Tower every day and then do other things. In this way, the number of lower gods of the Iron-Blood Brotherhood is still It is growing at a blowout rate.

The only pity is that Gertz also gathered 50,000 lower gods, and their growth rate is not weaker than that of the Brotherhood of Blood. The most important thing is that Lu Yang suspects that they also have similar gods and time and space locks in their hands. Shenlei such an item.

After all, organizations such as shrines, dark warriors, and saints do not know how long they have been playing in the gods around the world. After all, they have some special means. This is why Lu Yang is so anxious to make bombs.

Of course, the more important point is that at present, the strongest guilds in various countries have not paid attention to the fact that the response speed has entered 0.1 seconds. Through the intelligence collection of Tu Feng, at least Lu Yang can know that in the hands of Gertz, the temple organization Did not tell them the importance of entering 0.1 seconds Among the lower gods that Gertz chose, more are players who follow him all the year round, and players who are willing to sign stricter contracts with him. In the future, the role of Killing God Thunder and Time and Space Locking God Thunder was magnified infinitely.

“Dididi”

The talker suddenly rang, and Lu Yang picked it up and found that it was Qingqing Zimeng, and asked, “What is it?”

Qingqian Zimeng said: “Christina has formally formed an alliance with Jerz, and they are ready to attack our fortress.”

Lu Yang smiled and asked, “Which fortress?”

Qingqian Zimeng said: “Christina sent his men’s time and space breaker to the ruins of the fortress area.”

Lu Yang said: “I will give you 10 million in cash and lock me the location of these space-time spell breakers. Remember, as long as these time-space spell breakers are trapped, Christina can’t play any tricks.”

“Yes.” Qingqian Zimeng was very excited, and then said: “Another one, when the time and space breakers launch skills one after another, Christina will appear near the wild snake fortress, a total of more than 1,000 subordinate gods participate in the war , The time is at twelve tonight. “

Chapter 1791 - Counterattack Legion Breaker

The reason why Lu Yang sent 10,000 people to kill his 1,000 people was to seriously attack Christina's self-confidence.

A thousand people's equipment and transfer materials, this was made by Christina after abolishing the power of nine cows and two tigers. If Lu Yang exploded all the equipment killed by these people, the level returned from the lower **** to level 180. Not only is the skill of the lower gods gone, but you have to go to the materials again to transfer back.

The temple is fully supporting Gerlz, and Christina is an accessory. If the loss is too serious, the captain will not have the energy to help Christina to play materials and equipment. As for Christina herself, there is no way for the captain to lead the way. In the Divine Realm area, they will be unable to do anything at all. They have no idea where to go for missions and what monsters to fight.

Midnight.

The night shift players of the Iron-Blood Brotherhood are arranging defense lines along the 7-shaped area of the Fire Dragon Fortress Line and Sapphire Line. At present, both sides are ordinary players wrestling, and the Shenjing players are still fighting equipment.

In order to have depth, the white lion and Xia Yuwei, who are commanding on the front line, also arranged a second-line defense system. The fortresses such as warhogs and poison bees behind the fire dragon fort are also arranging players in large numbers, and the 170-level dark gold suits, cooking, Potions of war, such as potions, enchants, gems, mixtures, and magic scrolls, are stored in the area of the fortress behind and the fortress of the magic city.

In the village near the Barbarian Snake Fortress, Christina is hiding in a house. A thousand of the next **** players under his command and the 120 next gods under the captain are all assembled, and they are all standing by in the village.

"Last confirmation, our task today is to **** the materials from the Wild Snake Fortress. After the ruins of the Fortress and the Karst Fortress were cut off by the Space-Time Spellbreaker, we immediately acted and rushed in to steal the tens of millions of things. "Christina's fierce punch hit the barbarian fortress in the three-dimensional projection.

The captain nodded and said with a sneer: “Lu Yang absolutely can’t imagine that we will play east and west. Once they transfer most of the players to the ruins of the fortress, I will immediately destroy the teleportation array of the wild snake fortress, and there will be Gertz. Pretending to attack, Lu Yang’s supplies at the Fortress of Snake will be like smoke, and will disappear. “

Christina looked at the time and said, “It’s almost the same. We are outside the village and we are preparing for a sneak attack.”

The captain nodded happily.

After the two went out of the village and quickly formed a team, more than 1,100 people headed towards the wild snake fortress that was half an hour away. On the other side, more than 2,000 time and space breakers under Christina’s team were moving towards the full moon with a large number of players. , Twin Towers, Yunhai and other fortresses are advancing.

After such a long period of development, the number of time-space breakers in each guild exceeded 5,000. Christina had only 2,000 because the guild was divided into two halves.

But these 2,000 people are well equipped, and everyone can easily destroy a teleportation array in the main city. This time their purpose is very clear, which is to destroy the teleportation arrays of all the strongholds in the area of the Brotherhood of Blood, which will make the Brotherhood of Bloodline clear. The crisis on the surface.

For this action, they began to infiltrate near the fortresses half a month in advance, and played a copy with the local players team, and some simply stayed alone in the village and did not reveal their identity. After five long days of waiting, today, it is finally time for them to reveal their identities.

Under the walls of the Fortress of Relics, player Joey looked at the extremely prosperous fortress of relics and said with exclamation: “Have to bear the grace, the management of the Iron-Blood Brotherhood is good, a fortress can let them grow so big, as prosperous as the main city . “

Because of the existence of space-time spell-breakers and world-blocking skills, a large number of transactions have been moved offline, and the fortress has entered an extremely brilliant period. The number of players in the Jagged Brothers region is also large, so each fortress is making money. There is also a central fortress in every twelve fortresses, making money even more.

The Ruins Fortress belongs to the central fortress. Every day, a large number of players come to the fortress to buy and sell transactions. The Jagged Brothers adhere to the principle of fairness, and almost no one vomits on the forum.

Master Phillips walked to Joey with a smile, his eyes blurred and said, "Unfortunately, this is the stronghold of the Huaxia people, not the stronghold of our Americans."

Joey stunned and said with a smile: "Why so persistent, just a game, we ordinary players, it is better to make money and fight monsters."

Phillips smiled and shook his head. He took two steps back and smiled and said to everyone: "I am more persistent and have dreams. I don't like the way I am now. I want him to be the way I like it."

Between the words, Phillips said the spell in his mouth, and a magic circle formed quickly under his feet. It only took another 4 seconds to destroy the teleportation circle of the Fortress of Remains, which caused this place to panic, but at this moment, two Putting the dagger through the back of Phillips's neck accurately, and then, after a set of dizzy combos, Phillips died on the ground without even a chance to react. Joey and other dozen players who watched were shocked. In place.

"Hey, what the **** happened?" Joey looked at the best rogue player in the team with surprise. He is a Frenchman named Thierry. In the past half month, his relationship with Phillips is the most Ok.

Thierry sneered at the body of Phillips and said to Joey and others: "Sorry everyone, we have to say goodbye to this, and say to this idiot, the game is a game, don't engage in faith like faith, we only To make money. "

Joey understood it and said, "Are you from the Brotherhood of Blood?"

Thierry looked back with a wicked smile and said, "Tier, the first head of the Foreign Legion of the Iron-Blood Brotherhood, bye, my friends."

Joey and others were dumbfounded in place. Everyone's body felt a chill. Who would have thought that a friend who had been with each other for half a month turned out to be a spy, or to kill another person, remembering the pedicle The speculative picture of Eric talking with Phillips everyone feels terrible.

It's not just them who feel this way. This kind of situation happened in every corner of the Predator Brothers region, extending from the G8 region and the black yarn region to the tiger's mouth. Such killings are happening near every fortress.

Lu Yang, Tu Feng, and Zhou Tianming stood on the wall of the Barbaric Snake Fortress, watching Christina and others gradually approaching in the distance. All they heard were reports from their men.

As early as half a month ago, when Christina decided to launch the operation, the vice president who executed the order sold the information to the Predator Brothers, worth one million dollars.

Lu Yang knows every time- and space-breaker on this list, and knows where they are going and what they are doing every day. To deal with these people, Lu Yang found foreign legions and found more than 2,000 from Heidel. A reliable player planned the operation.

"Yes, this is a beautiful job. I haven't missed a single person. I will give you a reward for your intelligence organization." Lu Yang said to Tu Feng with a smile.

After these 2,000 time and space law breakers were killed, they were resurrected in the surrounding resurrection points, and there were already people standing there. To clear them, Tu Feng launched tens of thousands of people.

Chapter 1792 - Siege of Christina

Christina was proceeding cautiously, and suddenly, she stood in shock, unable to say a word.

“What’s wrong?” The captain asked.

Christina looked at the captain in horror and said, “My 2,000 time and space law breakers were all ambushed by Lu Yang’s people.”

“All of the 2,000 people were ambushed?” The captain’s eyes widened fiercely, and he couldn’t believe it: “How could they be scattered to all the strongholds around the Brotherhood of Blood, how could they be ambushed in such a scattered situation? “

Christina gritted her teeth and said excitedly: “All of them were ambushed, and there is a player of the Brotherhood of Blood Brothers hidden around each time and space breaker.”

The captain said in disbelief: “How is this possible, where Lu Yang has such a large appeal, and besides, how can he find every hidden player of time and space breakers.”

Christina turned her head and glared at Vice President Fanels, asking: “It’s you who betrayed me, right. Except for you Vice President who co-ordinates this sneak attack plan, no one else has this ability, right? “

Fanels is a young player, about twenty-seven or eighty years old, looking at Christina with a smile, with no regret at all, saying: “Sorry Ms. Christina, I am also for life.”

“It’s really you!” Christina angered, and instantly came to Fanels, shouting: “I treat you well, how dare you betray me.”

Fanels smiled and said, “Isn’t it good for me? The annual salary is only 47,000 US dollars. Isn’t this also called good?”

“Our guild is lost, but we are re-developing. You have only 2,000 people. I will give you \$ 47,000. Is that less?” Christina didn’t understand.

Vanceles was still smiling and said, “Did you know? I told Lu Yang of the Brotherhood of Iron-Blood Brothers that he gave me a million dollars, which is the sum of my 23-year work with you. You Say, should I betray you. “

“You ...” Christina was speechless. She had a feeling of collapse. She always used money to open the way. She never thought that one day, she would be defeated by money.

The captain suddenly rushed in front of Christina and punched Vanceles with a fist, saying: “We are going away, since he betrayed you, then our plan to attack today must have been exposed, and Lu Yang must be on the way. “

Christina reacted and quickly shouted in the group: “Everyone will retreat, the plan is cancelled.”

There was still some reaction, because they were still immersed in Lu Yang ’s fantasy of giving Milles a million dollars. At this time, a flash of light flashed over, and Mills came back to life, smiling at Christina and the captain Said: “It doesn’t make sense to kill me. Lu Yang has surrounded you and you can’t run away.”

“Woo ~!”

“Woo ~!”

“Woo ~!”

“Woo ~!”

“Woo ~!”

A deep horn sound suddenly sounded from all directions, and the blood-blooded battle flag hunted, and countless players of the Blood-Blood Brotherhood trapped Christina and others in place with a gesture of encirclement.

“Di Shi Tian Huo”

“Mad Thunder Sky Penalty”

“Jingshi Shengguang”

...

All kinds of spells instantly blasted from all directions, Lu Yang did not give Christina any chance to buffer.

I learned from Vanceles that Christina used a decentralized formation in order to conceal the action. The 1200-person team was divided into 100-member teams by him, just like a team of replicas, moving forward in parallel run.

There are many such teams in the vicinity of the ruins of the fortress, which is not special, but in turn, because of their dispersion, Lu Yang sent a team of 4,800 people, each team has 400 people, and they are also divided into a team of 100 people. , It does n't look noticeable, but it 's all around them.

During the fire coverage, every Kristina's 100-man team was besieged by 400 people from the Iron-Blood Brotherhood.

400 people fight 100 people, in the case of better equipment, more people in the Predator Brothers League, or the intention to fight unintentionally, the skills of Di Shi Tian Huo are covered attacks of up to 100 meters, only a wave of attacks, Christina Each squad has a third of the losses.

“Damn, why is the damage so high.”

“Skills are everywhere, and treatment will soon add blood.”

“Fight back, fight back quickly.”

...

No matter what the commander, such as Christina and the captain, shouted, the absolute disadvantage of the number made the player of Christina quickly killed and injured.

“Roar ~!” Long Xiao sounded, and Lu Yang rode on the flying dragon, and slowly fell from the front of Christina and others. Next to Lu Yang, there was Zhou Tianming stepping on the flying carpet.

At a distance of 50 meters, Lu Yang smiled at Christina, who gritted her teeth, and said, “Christina, I have been waiting for so long.”

Christina is furious. She hates the scene in front of her. She is never a loser. Every time she meets Lu Yang, she is suppressed by Lu Yang. She roars: “Lu Yang, you killed I am useless, I will not admit defeat, absolutely will not admit defeat. “

Lu Yang shrugged his shoulders, jumped off the dragon, walked towards Christina, and said: “Do you think I brought only 4800 people this time? To tell you the truth, I brought 10,000 people over, There are still 6,000 people scattered around the resurrection point in this area. Today, I ’m going to explode all the equipment and transfer materials you have worked hard for a month for a thousand people I want Let you all fall back below the divine realm. “

It is not easy to upgrade from level 180 to level 181. Now, including Lu Yang, it has not been upgraded to level 181. That is to say, the lower gods can be scrapped. As long as they die more than 10 times, the lower gods will become ordinary. Of the 180 level players.

Christina looked at Landing Yang in horror, and the captain was shocked by Lu Yang’s determination, and said angrily: “Our temple has materials, and I can create a thousand gods at any time.”

Lu Yang smiled and said: “I thought about it, your temple may be very powerful, but there are many captains like you, they can’t use all the resources on you, let’s say, Christina’s side It ’s already full of holes, I ’m not afraid to tell you, I have not only bought a Vers, but also more people, but this time the mission has reached Vers, one million is a small number for me , I can start at any time, but can you give me such a high salary? “

Christina was speechless, she had no stronghold, it was impossible to give so much money, only relying on taking money from home, her family would not support her to do so.

Lu Yang stared at Christina and said, "Give up, you have no chance."

Chapter 1793 - Gertz's conspiracy

Christina stared coldly at Landing Yang without saying a word. The captain saw that Christina was in a wrong state and said with a sneer: "Lu Yang, don't be too rampant. Do you really think that our actions today will be unmanned? Gertz Now you are attacking your fortress, I see how you defend. "

"Yes, you don't have so many inferior gods in your hand. You can't stop us, you can't stop Jerz. Send someone to the front line, you can't stop my people." Christina roared.

Lu Yang sneered and said, "You two are too naive, and, did you mess up the order of the offensive."

"What do you mean?" The captain asked with a frown.

Lu Yang said: "It stands to reason that Gerz should be the first to attack, why are you? But yes, if it is you, you are successfully attacked by you. My front line may indeed crash, but the chance is too It's smaller, it's more likely that I ca n't balance both ends, and I can only give up the inside and let you do whatever you want, right. "

Both Christina and the captain did not speak. They thought that.

Lu Yang went on to say, "But have you ever thought about a question, is a war so easy to start? Is Gertz ready? Indeed, my frontline commanders told me that Gertz I'm mobilizing the players to launch a full-scale attack on me, but is he really daring to play? Let's bet, I bet Gertz will eventually act like this. The ending of your group is that I killed the wild snake fortress with good luck, You can keep the status of the lower **** and enter the orange fortress. If you are unlucky, you will lose the divinity of this lower god. "

If Lu Yang is correct, this war must have been organized by the Temple and the Saints to force Gerzi to start ahead of time. According to Gerzi's character, he absolutely does not want to fight now.

The president of the strongest guild, in the face of opponents of the same level, is absolutely afraid to attack without the premise of more than 60% of the victory. Also, this is why Lu Yang dared not play Gerzi before. .

Ca n't afford to lose, no one can afford to lose, once lost, assets worth tens of billions of dollars will evaporate out of thin air.

Orange fortress.

Gerz, who was standing on the wall of the city, stared at members of various organizations such as temples, saints and dark warriors, and looked at their arrogant appearance. For the first time in his life, Gerz could not help but anger, pointing at them and scolding Dao: "Idiot, a group of ignorant, arrogant idiots, I swear, if you dare to have any chaotic command again, I will announce the merger with the Iron-Blood Brotherhood, you group of idiots will go to hell, from now, I do n't want to see any of you any more and ask your superiors to come and talk to me, and I will never talk to you idiots anymore. "

"Asshole, how can you talk to us like this, you know, your equipment is all provided by me." The players of the temple glared at Gerzi.

Gertz sneered and said, "I don't need it anymore. Get out and prepare for the next god."

Nearly a hundred lower gods aimed their weapons at the temple player at the same time, and at the same time, the melee lower gods pointed the sword tip of his two-handed sword on the neck of the temple player.

"You, you, what do you mean?" Temple players were stunned.

Gertz forced his anger and stared at the temple player's eyes and said, "This is my guild, extending from this fortress to the hundreds of necropolises around. I have arranged the next god. Will completely ruin you. "

Players of the organization such as the Temple and the Dark Warrior no longer dared to speak. Everyone looked at Gerzi in shock, they could n't understand it, and they had been smiling all the time, how could Gerzi who had obeyed them suddenly become This way.

"Fuck me all, find your boss to talk to me, a bunch of small fish and shrimps, and don't look at what they are, the social scum outside the game." Gerl sneered, waving his hand, this All the members of the special organization were expelled.

Vice President Tracy looked at the gang of special organizations that were driven away, and worriedly said to Gertz: "Will we be retaliated against by doing this?"

Gertz sneered and said cunningly: "Revenge? If they do this before training us, they will retaliate me, but now they have invested a lot of manpower and resources in me, you let them If you give up, they can't bear it. "

Tracy froze for a moment, and said, "But you took them away."

Gertz said: "Well then, the players and equipment of the lower gods are all in our hands. The equipment of more than 10,000 people, as well as the special items that kill the lower gods, used to be our temple, now In exchange, the temple has to beg us. This time the boss of the temple does not come to talk to me personally. I would rather surrender to the Brotherhood of Blood and become a rich man, rather than a confused ghost who does not know how to die. "

After more than a month of contact, Gertz gradually learned about the situation of the members of the temple organization. Although he did not know where their home was, what was their name, but when they talked to them about the real things, Gertz knew that these people It is a group of ordinary people, and perhaps there is a family behind them, but these people are all peripheral members.

The insights and ability to do things are inferior. The most suitable thing for this group of people is the thugs. Therefore, only this time he followed the suggestions of the captain and the temple liaison officer and launched a raid. .

He didn't even ask any questions about Christina's attack first. Christina didn't participate in the management of the game very much during Tom's time, so she didn't understand the issue of war.

This led to the wrong sequence of the battle, which triggered the disaster. Gertz happened to use the question to return the gang of waste and force the shrine to appear.

Lu Yang chased down the captain and Christina and others all the way, killing them from the wild snake fortress to the fire dragon fortress. Almost every subordinate **** died at least 12 times, causing the divine destruction of Christina and her more than 1,000 players. By the way, the captains of their gangs were also destroyed.

Zhou Tianming scratched his head and said, "It's weird, why was it so easy to fight in this war Gertz has retired, which is not like Gertz's style at all. Brain fighting is the same. "

Lu Yang was also a little ignorant, and said, "I feel it's too easy to fight this. Isn't Gerz doing any conspiracy? I'll go back and think about it."

An earth-shattering war that was supposed to be fought was so easy to end, and the players all over the world who were excited were extremely uncomfortable.

"Jerz and Lu Yang have negotiated together, and they have pitted Christina together?"

"How do I feel that Christina was used to sell it."

"It's miserable, except for Christina's bad luck, both Lu Yang and Gertz are safe and sound. It is very suspect that Lu Yang and Gertz have reached an alliance, and the fight between the two is fake."

"Fake a ghost, is it possible that Lu Yang and Jerz merge?"

...

Countless players joined the discussion on the forum and on the World Channel. As a result, among the many conclusions drawn, the most tenable one was that Lu Yang wanted to merge with Gertz.

Chapter 1794 - Before the battle

Amidst the dazed noise of the crowd, only Gerlz and Sanyou Weimen and others knew the specific cause of the matter. After so many years in the society, they quickly figured out Gerlz's approach, and, Study how they talked to the temple organization.

After three hours.

On the wall of the Fire Dragon Fortress where the Iron-Blood Brotherhood is located, Lu Yang stood on the head of the west wall, listening to the reports of Tu Feng and Qing Qian Zi Meng.

"The head of the Space-Time Law-Breaker Legion asked us if we could surrender? And join the Iron-Blood Brotherhood." Tu Feng said.

Who would have thought that a complete sneak attack plan was so flawed that both Christina and the main players were pushed out of the Tom area and defeated all the way to the orange fortress in Gerz.

These time- and space-breaker players have been killed at various resurrection points. Some people have been killed more than 30 times, and they have lost 3 levels in a row. In the case of approaching level 180, this level has been dropped. To make them psychologically collapsed, and even more uncomfortable for them, Christina has no solution to their situation, and does not even give any compensation.

Lu Yang smiled and said, "Allow them to surrender, but don't allow them to stay here to fight monsters and upgrade again, so that they can all be transferred to the fortress in the Indian region. They will not be allowed to return within six months."

The Earth Fortress is a fortress in the northeastern corner of the New World. There is no fortress farther than this fortress. In the wartime state, the teleportation arrays of each fortress except the inner city can not be used. This group of people can't think of returning. , There is no trouble.

“Yes.” Tu Feng said.

Qingqian Zimeng continued: “From the information we have received, Jerz seems to be intentional, because the enemies that followed did not mess with it and remained hidden in the dark.”

Lu Yang shook his head with a smile, and said: “This is temporarily ignored, everyone prepares according to the original plan, the preliminary work of the war is completed, and no one can lift the war, so everyone must tell the brothers, This battle must be won. “

More than 15 million people have assembled in the border area. Who dares to order the dissolution? So many people are waiting to gain benefits through this war.

Zhou Tianming asked: “The players for the day shift and night shift are arranged, and the major affiliated guilds that assist in the battle have also sent people to come. According to your requirements, each family has only come to 1 million temporarily.”

The variables of the war are too great. Lu Yang dared not put everything up in the first place. He has to keep some backhands. The five affiliated guilds that have received actual benefits and the five-billion-game reserve team of the Jagged Brothers Elite is just in case.

Once Radvedev and Stephen are playing fake, and suddenly rushed over to help, Lu Yang can add five affiliated guilds on the basis of the elite of the 5 million blood brothers, and then form a 15 million people. Team.

On the other hand, Lu Yang has only sent so many people to fight now, but there is also his frustration. The eight fortresses in the border area of Gerz have a special terrain. After they deduced from Lu Yang and the White Lion, they found that Gerz invited Gao Ming The defensive experts to arrange defensive positions, the number of players that can be spread around each fortress is less than 2 million.

Lu Yang looked at Xiangzhuo Jiu and said, “You are still in charge of the Tianjian Fortress. I will give you 1,000 lower gods and 500,000 people to defend. Remember, if you feel something is wrong, please immediately ask me for help. The Tianjian Fortress must not throw.”

“Boss, don’t worry.” Zhuojiu nodded seriously, using the transmission reel, and said to everyone during the reading process: “Come on, everyone.”

Everyone nodded.

No one knows how much Lu Yang trusts Zhuojiao. In order to keep the Tianjian Fortress, Lu Yang temporarily transferred some members of the intelligence department to Zhuojiao, allowing him to investigate the situation of the Chief Fortress at any time.

Lu Yang looked at Liang Yun and said: “The responsibility for this defense is still up to you. Unlike before, your mission is very heavy this time. In Tom’s territory, there are a large number of players who oppose us. The enemies who lost to us in the war are also looking for trouble behind us. They are all subordinate gods, and they are always threatening the fortresses that store basic materials such as the fortress of the snake, the fortress of the devil, and the long bridge. This fortress will provide you with 200 lower gods and 100,000 players. Be careful. “

Liang Yun said in awe: “I issued a military warrant and lost a stronghold. I resigned as vice president.”

Lu Yang was a little surprised and nodded and said, “I believe in you, go for defense.”

Liangyun left.

Lu Yang looked at the rest of the people, including White Lion, Zhou Tianming, Half-Life, Old Man, Twilight, Tian Yao, Xia Yuwei, Pride, Liu Yunpeng, Chen Qiang, and Lovely Queen, and said, “You are the attack of the Brotherhood The main force, listen to my orders. “

“Yes.” The people answered in unison.

“Zhou Tianming is responsible for attacking the black fortress.”

“Yes.”

“Old Man Twilight is responsible for the Orange Fortress.”

“Yes.”

“Xia Yuwei, the lovely queen and me are responsible for the purple fortress.”

“Yes.”

“Tianyao took the rest to defend the enemies that the Blue Fortress came to support, and sent people to support frontline battles at any time.”

“Yes.”

This is the best battle plan that Lu Yangneng has researched so far. Each main vice president is accompanied by an assistant vice president and the president of the affiliated guild. For example, the white lion is surrounded by white tigers and white wolves. There is Ayala.

“Dissolve, tomorrow morning, the battle will begin.” Lu Yang said.

Everyone nodded and assembled their teams to prepare for the battle. On the other side, in the blacksmith shop, Mu Yi was working overtime to make the Shenyan suit, kill God Thunder and Time-Space Lock God Thunder.

From the moment he got the drawings and materials in his hands, Mu Yi was making all his efforts, but even so, the Shenyan suit in his hands did not exceed 3000 sets, which was already made by him with all his strength.

As for the killing of God Thunder and the time and space locking God Thunder, only 10,000 pieces of each were produced. This data is not enough to play a day on the battlefield Speed up, speed up again, please Everyone, the winning and losing of the Predator Brothers are all here with us. Mu Yi shouted.

“Oh ~!” 200 blacksmiths and 300 alchemists shouted in unison. They haven’t worked so hard for a long time, which makes them once again go back to the holy sword when they were at level 60 and when they were at level 100. The feeling of making medicine.

Lu Yang entered the blacksmith’s shop and saw the busy scenery inside. He transported the materials around and ran around. No one looked up to see who was coming across. The equipment being rushed was even more concentrated, and no one was lazy.

You know, this is already the middle of the night.

Lu Yang knew that he didn’t need to say anything here. He used the teleportation scepter to fly into the shelter, and found that the 10,000 subordinate gods in charge of life and occupation were still struggling with materials, and no one was resting.

The person in charge of the fight was Han Ying. In this battle, Lu Yang did not let Han Ying take part in the battle, but left him in the lava sea to defend this area and prevent people with temples from secretly destroying. Han Yu was responsible for protecting In the area of the Shenhua spar mine, only the masters of the level of the shrine leader, such as Han Ying and Han Yu, are masters whose reaction speed is less than 0.1 second.

Chapter 1795 - The decisive battle begins

Lu Yang’s arrangement was over here, and on the other side, the spies ambushing in the area of the Brotherhood of Blood Alliance also gathered the intelligence they got at the table in Gerz.

In the conference room of the main fortress of Orange Fortress, Gertz knocked on the table and said: “If there is no accident, tomorrow morning in the China region will be the attack time of the Brotherhood of Blood, and their deployment arrangements are all clear to us. According to the plan, we also Deploy 2 million people in each region and fight day and night with the Iron-Blood Brothers Alliance to see if his Iron-Blood Brothers Alliance is stronger or we are stronger. “

Gertz's eight vice presidents stood up at the same time. Margaret, the vice president of intelligence, was an extremely beautiful female player. She elegantly said to Gertz: "Lu Yang will participate in the battle of tomorrow. The goal is Orange Fortress. "

"Good job, my goddess." Gertz praised and turned to look at Andrei, the sixth vice president, and said with a smile: "My dear professor, it's time to test your defense, Lu Yang himself Come here, don't let me down. "

Andre's eyes showed an extremely excited look, like a lion mad in the cage, his hands firmly grasped the edge of the conference table, said: "I am looking forward to the Iron-Blood Brotherhood coming to die, do you know, in order to arrange this Defence, how much effort my students and I have spent, he will let the Predator Brothers know that this front is the death line, a death line they will never pass. "

Gertz stared at Andre and said, "If you succeed, I will give you the biggest praise."

Andrea spread his hands and laughed exaggeratedly: "No, no, no, the biggest praise is that I successfully blocked the Brotherhood of Blood, and let the so-called world's strongest guild be blocked by my method. This is the biggest. Testimonials. "

"..." Everyone looked at Andrea and thought to themselves: "Crazy."

Gertz laughed more exaggeratedly and said, "I like your confidence."

He looked at the second vice president Gulander and said, "Tomorrow you will follow me with Andre and we will give Lu Yang a big meeting together."

"Yes." Guland said.

Gertz looked at the other five vice presidents and said, "You are defending according to the original plan, and we will give Lu Yang a surprise together."

Everyone responded in unison, and dispersed. The first vice president, Pons, also left the team, but when he left, his expression was different from the others.

At this time, he regretted that he agreed to the request of his wife Anisa, and accepted the 5 million euros of cash sent by Bagley. Because of this money, he promised Luyang to send troops to attack Tom, which triggered Tom and Jell The decisive battle here.

At the time Gertz almost fired him because of this incident, but at that time the war was imminent, Gertz was helpless, but he only scolded him for a meal, and later the war was won, but Pence had been uneasy in his heart.

He is not a fool. He knows that the Jagged Brothers will attack Gerzi next, and he, as a traitor, must provide information to Lu Yang, but he does n't want to do this. He always hopes that his life is clear. In vain.

But ... but, whenever he returned home, he saw the picture of his wife lying down and sleeping happily on the money, watching his wife smile after she bought precious jewelry and limited watches, clothes and cosmetics.

How long has he not seen his wife smile so happily, it seems? It seems that after marrying him, he never smiled so happy.

He likes his wife's smile. Therefore, he never dared to tell his wife to return the money and never to be a traitor. Therefore, he can only pray in his heart that this day will come later and later.

However, this day is still here, this time he is trembling every day, fearing that Bagley or even his wife's phone call, once it is related to the guild war, tens of millions of brothers will be slaughtered by the League of Blood Brothers, he I dare not think about this picture, I dare not think about it at all, but the nightmare comes night after night.

"Slap" a back of his hand suddenly shot on Pons 'back. Frightened Pons' legs softened and he almost knelt on the ground. He looked back and found Gerlze looking at him in surprise, asking: "I Dear Pons, are you okay, have you been too tired recently? "

Pons didn't go home for five days. He ate and slept in the game city of Gerz. He woke up and worked because his workload was indeed huge. The ordinary players of the entire guild were ultimately managed by him.

Including Claudio's affiliated guild players, they are under the jurisdiction of Pons. Every day he has to face various problems and he is too busy.

Gertz despised Ponce the most, but he was the most meticulous of all the vice presidents. This troublesome job could only be left to him. Pons needed more effort over the past, Gertz thought He asked Ponce a few more words, but he was a little embarrassed to see Ponce this way.

Pons thought he had been discovered about this. He was relieved when he heard Gertz's words, and stood up and said, "I'm okay, I can hold on."

Gertz nodded and said: "Must ensure the attendance of ordinary players, can promise them some sweetness, ah!"

Pons nodded, sighing in his heart, and said, "No matter what I honored, you haven't promised. It's not me who came to me."

He turned and left, but just 200 meters away, the phone shook violently.

"Dididi"

Pons was startled again. He thought he was called by his wife, but he saw the name on the phone, glaring his eyes wide, looked at no one on the left and right, he found a hidden position, and barely recovered Fear in my heart, press the call button, lower the voice and say: "Mr. Bagley, hello, what do you want me to do."

Bagley's whisper came from the other side of the phone and said with a smile: "My dear Mr. Pence, I believe you know what I need you to do, you are a smart person, do not need me to repeat, and, in order to show sincerity, I brought you 5 million euros in cash, and your wife has already received it for you. I believe that this money is enough to keep you and your wife happy for the rest of your life. "

“You.” Pence gritted his teeth and sighed, “Well, you are waiting for me at home, and I will go back and tell you.”

Bagley said: “Thank you for your invitation.”

Pang Si was helpless. After hanging up the phone, he found more than 20 deputies. After a brief meeting, he quit the game and returned to his home.

Compared to China Time, it is already 4 o'clock in the morning, Poland time is 6 hours later than China Time, and it is more than 10 o'clock at night.

Bagley's wife, Anisa, is making a huge dinner for Bagley, and has brought out the fine wines in her home.

“My dear Mr. Bagley, this is the red wine I bought at the auction, 20,000 euros. To celebrate your arrival, we drank him today.” Anisa said happily, taking it with you Her large 10-carat diamond ring, sapphire necklace and earrings are revealed.

Bagley stood up elegantly and bowed to Anisa, saying: “This is my honor. You are really too beautiful. The beauty of diamonds and jewelry is overshadowed by your face. They are you. The best foil. “

“Really, you can praise me so much, I'm really happy.” Anisa said excitedly.

She has always wanted to be recognized by a higher level of people. In her heart, Bagley, an elegant nobleman, is the high-level person she thinks can get his praise, making her happier than buying anything.

Bagley said with a smile: “This is my truth, and it does not compliment you.”

Anisa is even happier and asks: “A lot of ladies told me that I should buy more beautiful jewelry and more beautiful clothes, but I always feel that there is a problem, can you guide me?”

Bagley smiled more and said, “This is my pleasure.”

Anisha's eyes lit up and sat in front of Bagley quickly, like a believer, and said, "You said."

Bagley said gracefully: "You shouldn't live here anymore. The people here are no longer in line with your status. They are vulgar and exaggerated. You should go to a more upscale residence, or you can buy one castle."

"It's expensive." Anisa is very emotional, and she feels that she and the people around her are not the same kind of people, and want to contact more "noble" people.

Bagley shook his head and said: "If you believe me, I suggest you immigrate to the UK. Many castles in the UK have no one to take over. Their price is not expensive, about 600,000 to 1 million pounds, buy After the repair, the maintenance cost is not much, about 400,000 pounds. "

Anisa carefully calculated and said, "It's really not much."

Bagley continued: "You can hire several servants by then, they can come from the Philippines, and then send them to Nolan College to study, and then hire a British butler, yes, you need a London The villas in the rich area are about 1.5 million pounds. "

Anisha looked sad, and said, "My money is not enough."

Bagley said with a smile: "Don't worry, this time the battle is over, your husband will let you live the life you want."

Anisha said firmly: "I will let Pons say everything he knows."

Bagley knew that it was easiest to start with Anisha, and said with a smile: "By the lady, you have to go to Tailor Street to find someone to order a dress. As for meals, the baked snails in Spain and the caviar in Russia still There are many delicious, I believe you must have never tasted, I will tell you ... "

Before he finished talking, Pence pushed open the door and saw Bagley, he gritted his teeth and said, "You come with me."

He wanted to beat Bagley first, but Anisa grabbed Pons and pulled into the room, and Bagley heard a familiar voice.

The roar of the man, followed by the roar of the woman, the cry of the woman, and the way Ponse walked out helplessly, he sat in front of Bagley and said, "Well sir, you succeeded in making me a traitor, Now I will tell you the layout of Gertz. "

Bagley opened the recording device and said, "Thank you for your help."

...

Early the next morning.

At 12 noon, at 6 a.m. Polish time, Lu Yang fully heard Bagley 's reports and recordings. He looked at the area of the defense line of the half-hour path in front of the orange and purple fortresses and said with exclamation: "This Ander Lie is really a genius defender. If there is no leak of Pons, we really have his way. "

Within 3 minutes of Jerz 's first line of defense, more than 10 million 180-level alchemy traps were buried. This alchemy trap is divided into freezing, slowing, damage, stun, and damage reduction.

The outer and middle traps are mainly damage. The near side traps are also divided into remote control damage traps and freezing, deceleration and other traps, especially within the last 30 distances. Do n't underestimate the distance of 30 seconds. This is the most initiated charge. The good distance is also the longest distance that the defensive square turret and catapult can shoot.

Xia Yuwei frowned and said: "The most difficult thing is Fengshen Lei. I didn't think there were items similar to our God Lei in the Jerz area. Even if the next **** led the team to attack, it would not be easy."

Pridefully said: "The most hateful thing is that we don't know how they are arranged, and mine clearance is very difficult."

Lu Yang nodded and said, “Unfortunately fortunately, at least we know who the enemies we are facing, and their equipment situation. Today we first tried to attack once, in order to prevent the enemy from using secret roads to reinforce reinforcement, Everyone must attack at the same time as me at 2 pm, and absolutely must not give the opponent any chance. “

During the battle, both sides must turn on the world and super electromagnetic storm skills. Once these two skills come out, ordinary players on both sides of the land cannot use the transmission skills and treatment, and it becomes impossible to use the phone. Therefore, the war between the two sides The first thing to look at is the level of understanding between the commanders of the two battlefields.

If someone from the Brotherhood of Blood starts first, or quits the battle first, Gertz can take this opportunity to easily mobilize players in this area to support other areas in crisis, then the overall battle, the Brotherhood of Blood will not Any chance of winning.

The White Lion, Zhou Tianming, and the half-life of love all nodded at the same time and said, “The boss is at ease. At 2 pm, we will definitely go to war and put the greatest pressure on the enemy.”

Lu Yang said: “The time of the first battle, played for 6 hours, ended at 8 o’clock in the evening, the players on the night shift went online, and then prepared to play the second game, the meeting ended.”

“Yes.” The people answered in unison.

Lu Yang looked at the people with solemnity and said: “The prosperity of the Brotherhood of Blood Alliance is in decline and battle. I wish you all a successful return.”

White Lion, Zhou Tianming and others focused on their heads and used the teleportation scepter to fly to their respective battlefields.

Lu Yang looked at Xia Yuwei and his pride and said, “We should go too.”

The light flickered, and everyone flew outside of the Fire Dragon Fortress with Lu Yang. At this time, the various army commanders and army commanders had gathered their respective players, and more than 2 million people stopped under the west wall of the Fire Dragon Fortress.

“Roar ~!”

The sound of Long Xiao suddenly sounded, and the players who were chatting looked up, and in the sun, a ten-meter-long flying dragon fluttered and flew quickly to the city wall.

“President Lu Yang!”

“The boss is here.”

“The battle is about to begin.”

“Boss.”

“Boss.”

“Boss.”

...

The tsunami-like voice of 2 million people went from chaotic to gradually tidy. For a time, the entire Fire Dragon Plain echoed these two words. In the distance, the birds in the forest were swayed by the sound of the sound, and the beast was huddled. Dare not come out in the hole.

Do n’t look at only these two words, this is the most crazy worship of Lu Yang Brothers players, two consecutive wars, playing three friend Weimen in the north, Tom and Christina in the south, Lu Yang is not taking a penny. Next, everyone under the player is crazy.

The two wars are equivalent to their two years of hard-earned income in the game. From ancient times to the present, they are clever. No guild president can help his players make money in this way. This is at the expense of Lu Yang’s interests to achieve them.

Lu Yang did just that, because Lu Yang, their lives have changed a lot. Their relatives no longer see them as ordinary people playing games in their eyes, and no longer regard them as gnawed by the elderly and their families. Moths are gone, their girlfriends love them more, and they have more face in their friends.

They respect Lu Yang from the bottom of their hearts, so they have such a neat cry!

Lu Yang controlled the flying dragon to a height of 50 meters, overlooking his own 2 million men from above, with a satisfied smile on his face, he raised his right hand staff and signaled everyone to be quiet.

In a blink of an eye, the shout stopped, and everyone was silent, and the entire Fire Dragon Plain became a pin-drop sound that could be heard clearly.

Lu Yang used a loudspeaker and said loudly: "Brothers of the Iron-Blood Brotherhood, we are going to fight again today. This time, our goal is to curl up in the southernmost region of Gerz. This battle has won. In the future The initiative of the New World will fall into the hands of our blood-brothered brotherhood. If we lose, our greatest chance is to roll back to the tiger 's mouth and face the situation of siege by various countries. "

"How many years, any game, when did Chinese players unify all maps, no! Never!"

"Not only China did not, the guild of any country in the world did not do it Today, our Jagged Brothers Alliance was the first to have the opportunity to do all this, and our voice was very short. Half the life we have to grow up slowly, learn knowledge, learn to be a man. In middle age, we have to think about making money to take care of parents, wives and children, care for mother-in-law and elders, not only to face social hardships, but also to experience the family Chai rice oil salt and **** vinegar tea, so, the time left for us to build meritorious service is very short. "

"It 's only ten years, there is only one decade in life. Everyone trusts me Lu Yang and follows me into the game. Then, I hope that everyone will continue to trust me, follow me, help me, we will lay this new continent together. In addition, just for the ideals in our hearts, for us to have a great life, for the day we grow old, our children and grandchildren mentioned the game "Second World", we can all proudly say that the New World, I Hit down.

People are not rampant, teenagers, I do n't care what age you are, what you do in reality, it 's our turn to be crazy. Now people all over the world are watching us, do n't live up to your life, do n't live up to your choices Brothers, follow me. We will level the new continent, aim at the orange fortress, and prepare to move forward. "

Two million people turned around at the same time. Xia Yuwei and Hao Qing Wanzong and other vice-chairmen took orders from many army commanders. For a time, 2 million people, like a giant, took his solid and powerful steps towards the orange fortress. The first line of defense in half an hour walked past.

Chapter 1796 - Lightning play

Among these 2 million people, there are 300,000 blood wolf players, 100,000 ancestor tauren, 200,000 **** blood orc warriors, 300,000 theocratic knights, 200,000 cursed mages, 200,000 archbishop priests, 200,000 star breakers, 100,000 Flame Formation Mage, 100,000 Bloodsworn Shaman, 100,000 Ice Grand Mage Legion and 100,000 Water Soul Mage, and 100,000 Druid Legion.

In the "Shenjing" expansion, the original rare bloodlines became ordinary. When entering the Fire Spirit Tower, these bloodlines exploded in batches. Therefore, the senior bloodline players in Lu Yang's hands increased by more than 20 times.

As the army advances, the blood wolf player's murderous bloodthirsty shaman's bloodthirsty, the power of the ancestor tauren, the wildness of the **** blood orc warrior, the deterrent of the theocracy knight, the elegance of the archbishop's priest, and the great flying in the air The hiss of the Druid Army.

The momentum of the entire battle array surprised all players in front of the TV and in the live game room.

In China Live.

Du Binqiang endured the excitement, and while knocking on the table with a pen, he said: "This is the strength of the Iron-Blood Brotherhood. It is too strong. It is really too strong."

Ma Feng said: "The point is that this is not the full strength of the Brotherhood of Blood. After absorbing the main army of the Group of Eight, Tom and Olma, Lu Yang has too many rare blood lines."

Lu Yang is not carrying all the main forces of the Iron-Blood Brotherhood here. In the hands of Zhou Tianming, there are the same arms in the hands of the Vulture Legion, the Earth Warrior Legion, the Saint Warrior Legion, the Violent Legion, and Lu Yang, each 100,000 people.

The White Lion also has Tom's most famous musket team, a total of 300,000 people, as well as the Samurai Legion and the Saint Warrior Legion.

This time the Brothers of the Iron-Blood Alliance's foreign war, the number of rare bloodline players exceeds 5 million, which equals to one-third of the players are the elite of the elite, not to mention the next **** to participate in the war.

While everyone here is praising and marveling at the Iron-Blood Brothers League, on the other side, Gerz and Andre are also watching the strength of Lu Yang's side through the video.

"Damn, Lu Yang has so many rare professions." Gertz scolded, and his fists hit the table at the same time.

Andre pushed his glasses and said sarcastically: "I will soon let the Predator Brothers know how fragile they are in front of my defense, don't worry, everything is for me."

"Please." Gertz was really a little scared. Although he got the shrine, he also met with the shrine senior officials and achieved constructive negotiation results. Originally, he thought that this time it passed, it was a new one in his life. The starting point, but he did not expect that the basic legion of the Iron-Blood Brotherhood is so strong.

Andre looked at Gertz somewhat sarcastically. He didn't expect his boss to be so unbearable. He turned to use the reel and came to the forefront.

The Red Water River, a large river 50 meters wide, is pale red in color, hence the name Red River. He flows from west to east, dividing the great plain between the orange fortress and the fire dragon fortress.

Near the Fire Dragon Fortress is called the Fire Dragon Plain, and after crossing the Red Water River, the plain is called the Orange Light Plain.

Today, Gerz's first line of defense is at the junction of the Red Water River and the Orange Plain, 200 kilometers along the west side of the Orange Plain to 200 kilometers east, and there are defense tunnels everywhere, but along with others River blocking is different, and Andre's style of play is to block after landing.

The first line of defense from the shore of Hongshui River to the Orange Plains is nearly 500 meters long, and it takes 30 seconds to sprint.

What Andre pursued was to make the enemy think that they could cross the river to rest and then attack. As everyone knows, after crossing the river, they will be attacked by a long-range catapult. This 500-meter distance is filled with various organ traps. There is the next **** defense.

No matter how the Iron-Blood Brotherhood attacks, the ending is to advance towards the catapult and trap. Now the catapult can't do damage to the lower gods, but it can still cause a lot of damage to the 180-level players.

Andrei was so confident in his trap that he looked at the students around him and asked, "Where is the enemy?"

The student said: "It should be here. The team is 5 minutes away from the other side of the river."

"What?" Andre frowned. He felt something was wrong. It stands to reason that the Predator Brothers should be on the opposite side of the river bank. They should not be in advance.

Just at this time.

“Woo ~~!”

“Woo ~~!”

“Woo ~~!”

...

The deep and penetrating horn suddenly sounded on the open plain. Andrea looked closely, and the red flag of the Brotherhood of Blood appeared on the grassland.

There was a dragon roar in the sky, and Lu Yang stood above the flying dragon and appeared in the sky with 100,000 Druids.

The sky and the ground progressed synchronously. When Lu Yang came to a distance of 50 meters from the Red Water River, the combat troops on the ground also came to a position 50 meters from the Red Water River.

There was an extremely excited look on Andre’s face, and he laughed and said, “Come on, Lu Yang and they have finally arrived. Our chance of success in one fell swoop has finally arrived. Everyone is ready to let the Iron-Blood Brothers Alliance know that they are coming What a wrong decision to hit us here. “

“Hoo ~!”

More than 2 million people defending along the river shouted loudly at the same time, but they did not wait for their shouts to end. Suddenly, among the ranks of the Brotherhood of Blood Alliance, 10,000 people lined up, arm in arm, parallel and forward. Charge, jumped over the Red Water River instantly.

“After running 300 steps forward, all the staff stopped moving forward.” The pride screamed and led the man crazy forward.

These 10,000 people are all lower gods, and 7,000 people are wearing Tier 3 flame suits. After running 50 meters into the trap area, 10,000 people step on the trap and run forward.

“Bang”

“Pong”

“boom”

“when”

...

Flames, frost, lightning, holy lights and other traps were instantaneously detonated. Before Andre's reaction, the pride has already ran 300 steps forward with the lower god, that is, 300 meters. distance.

In the blink of an eye, Andre spent a month laying the first line of defense, which collapsed by two-thirds. When Andre responded, they were divided into two groups, facing both sides. Ran past.

“Lu Yang, you old shameless, don't you speak before every war? Why didn't you talk today?” Andre mad, jumped out of the first tunnel and pointed to Lu Yang in the sky. He yelled and shouted, like waving his fists and messing his hair in the air, like a lunatic.

Lu Yang was amused, of course, he was not amused by Andre, but by the lower **** legion under his men, with great enthusiasm, their small pace of running was too disgusting, the small broken step ran, less than 1 In a minute, a safe area with a width of 7000 meters on the left and right and a length of 300 meters on the front and back was opened up.

This is not only the case of Lu Yang, but also the battle area where Zhou Tianming and the White Lion are located. This is the result of the discussion between Lu Yang and everyone this morning. This time he is going to fight blitz, so that the enemy can't reach it. Next, the trap was destroyed by two thirds.

Now that his goal has been achieved, Gertz's turn is irritable.

Chapter 1797 - The consequences of 1 sentence

Lu Yang looked at Andrea who jumped and scolded in the distance, and said loudly: "Professor, I will go through some actual combat in the future. Reading books is useless. How many intelligence officers have I put in your guild? You trap How can I not know. "

Andrea was blue and purple for a while, and he gritted his teeth and scolded: "Vile, shameless, nasty, dirty, dirty ..."

Lu Yang clutched his forehead and made a helpless expression, which caused the players of the entire Brotherhood to laugh a lot. He said to Andre: "Professor, I can't always send people in batches according to your ideas. Go ahead, do you think it's a computer, I've been programmed by you, you must do this. "

"I ..." Andrei was anxious and continued to point at the landing and scolded.

Lu Yang was too lazy to take care of him, and looked at the small Divine Legion, who continued to run away on both sides. He secretly said: he must not let the enemy discover his true intentions. If he is found, he can only attack frontally. .

The real intention of the Iron-Blood Brotherhood is to open the defensive belt between the Purple Fortress and the Orange Fortress, creating an opportunity for the Spider Sisters to enter the Firestone Mountain, knock off the enemy's conveyor belt, and then break into the Orange Fortress.

Before the enemy finds and uses this style of play, there is some time, but once this style of play is used, all the teleportation arrays of the enemy must be destroyed within an extremely short one or two hours. All people will die in the fortress.

Lu Yang, the inferior **** running on the left and right sides of the universal orange fortress, the one on the left is united with the inferior **** attacking the purple fortress horizontally, but the first union cannot attack Fire Stone Mountain, and he must wait for the enemy to slack off. It's only okay, because there are still 200 meters of body traps that have n't been broken and the enemy's lower gods have n't played yet.

Seeing that Lu Yang's men were still running endlessly, Andrei could only do so in a hurry, because he did not have the right to mobilize the lower legion of the Legion. At this time, the two rays of light in the rear flashed and Gertz brought With Guland, come to the frontline battlefield in person.

Gertz came to Andre, looked at him with a frosty face, and said to Gulland: "Send the next **** to intercept Lu Yang's men, be sure to push them back."

"Yes." Guland immediately issued an order and led the chase away.

Andre looked at Gertz frantically and said, "Trust me, my front has not collapsed, and there is still a distance of 200 meters. As long as we keep the distance of 200 meters, Lu Yang will never score our first place. A line of defense. "

Gertz now really wants to strangle Andre. In order to build such a 500 meters wide and nearly 1600 kilometers long line of defense, Gertz spent nearly 500 million euros, but now it seems that three-thirds of them One dollar of money is not necessary.

Gertz is not stupid. He also knows that the back line can stop Lu Yang's players. He just hates Andre's current performance. This is a live broadcast all over the world. Lu Yang just despised Andre and greatly reduced it. The morale of his side has increased, but the morale of the Luyang side has risen even more.

"You help me, let me take command here." Gertz snorted and turned his head to look at Lu Yang in the sky, said loudly: "Chairman Lu Yang, I can't think of you and I got to this step after all."

Lu Yang also felt some emotion in seeing Gertz. At the beginning, the eight strongest guilds besieged the tiger's mouth. If it was not Lu Yang who let Gertz go, he would have been swallowed by Claudio, and now the battlefield is not him. Fighting Gertz, but he and Claudio.

Of course, if it is Claudio, it is more difficult to fight, leaving Gerlze, but it can become easier, because Gerlz's weakness is too obvious, he is the most powerful among the eight strongest guilds in the original Central The weak one is also the one with the smallest pattern and the shortest vision.

Lu Yang looked at Gertz and said: "The battle between us is not about friendship, but for the sake of ideals. After all, this new continent will have to be unified once in a while. I lost. I will assist you to unify the new continent. You lose. I also hope that you can help me with all my strength. I hope that whether you win or I win this battle, the friendship between the two of us will remain the same, and ideals will be the highest goal. "

Gertz sighed, and his pattern was not at the same level as Lu Yang. He raised his head and said loudly: "Well, I promise you, no matter whether I lose or I win, the friendship between us will not change. I lost, I tried my best to help you, you lost, you tried my best to help me. "

As soon as the words fell, Sanyou Weimen, who was watching the live broadcast, smashed the table with a punch, and scolded: "Jerz, this idiot, he lost."

"What's wrong?" Liu Jie asked curiously.

Sanyou Weimen said: "Jerz was led by Lu Yang before the battle started. How could he have beaten Lu Yang? When this came out, how could the players on the Gerz side still work hard."

Roland asked curiously: "Will Lu Yang lose his fighting spirit because of his words?"

Sanyou Weimen said excitedly: "How is it possible that Lu Yang is the offensive party, and when did the Blood-Blood Brotherhood admit defeat, such a guild that has been winning from the establishment of the guild five years ago to the present, how can it admit defeat, even An ordinary player, with an arrogance in his heart, will never admit defeat. "

Liu Jie nodded and said, "Hua Xia players are born with arrogance. This is related to the history of the country. With a history of 5,000 years, Hua Xia people will always be the last winners. Therefore, in this battle, players from Luyang, It will not relax because of this sentence, but will attack more crazily. "

Sanyou Weimen said: "From the player's mentality, the average player on the Gerds side does not have this psychological preparation. They are just born thinking that they are better than the Huaxia people and should not be defeated by the Huaxia people. Afterwards, once they encounter setbacks, they will remember what Lu Yang and Gertz said today. will not try their best to fight. "

Rogers and Steiger were stunned. They did not expect that a simple sentence could lead to so many things.

Steiger looked at the field and said, "Lu Yang's lower **** is back. It looks like he is about to attack."

On the battlefield.

The 10,000 lower gods in Lu Yang's hands have returned to the team. He looked at the pride and said: "According to the predetermined plan, each next **** with 100 paladins behind him, first hurried thunder."

"Yes." Wan Zongwan looked back at all the lower gods and said, "The first wave of attacks on the 2000 lower gods, 200,000 paladins, ready to attack."

"Woo ~~~!"

The sound of the melodious horn sounded, and the Luyang array began to change. The lower gods stood at 20 meters each, and behind them, they were lined up in two vertical knights.

"Attack ~!" The pride started, and he personally walked towards the trap in the last 200 meters of the Gerz side.

Chapter 1798 - Lu Yang came off in person

Liu Yunpeng took the second echelon. He was on the left side of the pride, also 2,000 people and 200,000 players, and said, "Brothers, follow me."

Wan Zhonghui is on the right side of the pride, followed by the commands of the lovely queen and the prisoner of Pluto, and each person takes 2,000 subordinate gods and 200,000 players. A total of 5 teams advance together.

The lower **** commander Gulder on the Gerds side shouted: "The lower **** legion, according to plan 3, quickly reached the designated location."

This kind of play of the Iron-Blood Brothers Alliance was previously expected by the Gerz side, but the Gulander side is a passive defender, so their lower gods are concentrated on Luyang's side. Seeing Luyang's side Play, and then quickly spread out.

On the whole, the Predator Brothers side has a preemptive advantage, but when it is really fighting, it is the other side.

Just when most people had seized the opportunity for the Jagged Brotherhood and felt that Lu Yang would easily break through the defense line, the heads of the major regions of Gerz almost roared at the same time: "The catapult, the lightning tower, aimed at Ordinary players behind the lower gods. "

"Wind God Thunder, kill me the next god."

"Do not shoot freely, shoot in groups of 20, kill one person with precision."

"Mage's big tricks are all used, playing according to the ordinary players behind the next god."

"For the Legion of Liberty, attack ~!"

The players on the Jerz side suddenly poured a lot of skills into the team of the Brotherhood of Blood, especially the Fengshen Thunder. This thing is like the Killing Thunder. They all kill the lower gods and hit two of them.

Use Wind God Thunder to ease the window period before the next **** arrives. This is Gerlz's strategy before the battle. Although the lower **** players of the Iron-Blood Brotherhood know that there is the killing of God Thunder, the speed of this thing is extremely high. Fast, only players with a reaction speed of less than 0.2 seconds can avoid it, so when the first wave of killing gods is generally overwhelming, the Iron-Blood Brotherhood is killed by nearly a thousand subordinate gods.

For a time, the elite players who were protected behind the next **** were exposed, and all kinds of skills were poured out crazy, and a large number of players of the Brotherhood of Blood were killed.

Lu Yang already had this preparation, but when he saw that the enemy's first counterattack was so violent, he was also a little surprised in his heart. You have to know that in order to win this battle, he had trained these lower gods before. Thousands of people can't avoid it, but there are too many people thrown away by Fengshen Lei.

"It seems that I have to end." Lu Yang looked at Xia Yuwei, who commanded the battle next to him, and said, "Here is here for you to direct the battle, and I will fight in person."

"Boss, you can't go down. With so many skills flying around the sky, if you are killed, it will have a great impact on morale." Xia Yuwei said in surprise.

Lu Yang stared at the Temple player who jumped out of the tunnel with a shield badge on his side and said: "I must go out. The people in the temple have participated in the war. I suspect that some people have entered 0.1 seconds in their hands. If Yes, such a person is a bulldozer on the battlefield, and it is not a problem for one person to kill our thousands of gods. "

Xia Yuwei nodded. He had seen Lu Yang's power. He was not at the same level in the field with a reaction speed of 0.1 seconds or less. Even Lu Yang's phantom could not be seen and he died.

"You have to be careful, you can't fight to death." Xia Yuwei said.

Lu Yang smiled and said, "I want to kill me, but it's not that easy.

"Yes." Xia Yuwei said.

Lu Yang came to the front, and said to Hansha who was preparing to take the offensive forward and looking up at Weiguang: "You two are with me. If I use time and space to lock Shenlei to control the target, you must first Kill the opponent with the thunder **** thunder. "

“Yes.” The two said together. They didn’t expect that Lu Yang would personally participate in the war. They still took the two of them to fight together. For a time, they were all excited.

It has been a long time since they have gone to the battlefield with their bosses. Now they have the chance again. They all cherish each other, standing 60 meters away from Lu Yang, ready to keep up with the attack.

Lu Yang was very relieved of these two people. Hansha’s reaction speed went into 0.1 seconds. Looking up at the low light, he was hovering around 0.1 seconds. They are all masters.

The reason why they are so far away is because they must always avoid the skills from the enemy. No matter the primary skills of the lower gods such as divine fire or divine words, the attack range is 30 meters, and they must maintain a sufficient distance to be able to Otherwise, you will be attacked by gathering skills when you are near.

Behind Hansha and looking up at Weiguang are 2,000 players. They are farther away, all 50 meters away. The leader is Xia Yuwei’s cousin, whose name is Three Thousand Killing Sword.

After confirming that everyone was ready, Lu Yang waved his hand and walked across the Red Water River. While walking, he looked at the battlefield in the front. The Gerzi side also had players with a reaction speed of less than 0.1 seconds. There are about 20 people, 7 of which are temples, and 13 are masters sent by Gertz and the strongest guilds.

“Di Shi Tian Huo”

The flame knife in front of the battlefield aimed at the opponent’s lower **** to release his skills. A flame shot straight away, but he just released his skills and a flash appeared beside him. The enemy’s lower **** suddenly jumped in front of him.

“Thunderstorm Dragon”

A dragon-shaped lightning instantly penetrated the body of the flame knife and paralyzed him in place. Just as the lower **** was about to take another skill to kill the flame knife, suddenly, he felt something was wrong and retreated back instantly 2 M distance.

“Instant Blast”

A ball of fire exploded at the position where the lower **** just stood. The lower **** looked over and saw Lu Yang using his ember skills to come to him.

“It turned out to be Lu Yang. said that you are awesome. Today I will let you know. My Ricks is the existence you need to look up to. A bunch of garbage, die for me.” With a grin, the left hand pointed to Lu Yang.

“Thunderstorm Dragon”

A lightning flashed through Lu Yang’s body instantaneously. Just as Rex was surprised and looking up at the glimmer, Lu Yang suddenly appeared on Rex’s side.

“Time and Space Locked God Thunder”

A ray of light passed over Rex’s body, Hansha and the glimmering light slowly passed, and appeared in front of Rex in an instant.

“Kill the Thunder”

The two killing thunders accurately hit Rex, causing a total of 1600 points of damage. Even if Rex was a luxurious lower-level God equipment, he was instantly killed in place.

Lu Yang said: “Don’t be stunned next time, when you meet the lower **** of the same level as me, your stunned **** is enough for the other party to escape at this moment.”

“Yes.” Looking up at Weiguang and Hansha excitedly, they found that their boss was still invincible.

Chapter 1799 - 2 consecutive lines of defense

Lu Yang looked at the front and found that several enemies of the enemy rushed over. He signaled the two to follow and rushed forward.

There are a total of 8 lower gods rushing over. They are all under Gerz, an initial ancient **** suit, and are attacking randomly with Di Shi Tianhuo and other skills.

At a glance, Lu Yang saw that they were not elite players, and continuously launched the ember skills to jump in front of them, his hands pointing at their heads.

“Shen Yan Tian burst”

The pure golden fireball fired from Lu Yang’s palm at a speed of 0.1 seconds, hitting precisely four elite players’ heads.

“-1182” (Crit)

“-1192” (Crit)

Lu Yang’s magic damage is more than 500 points under the addition of the code of rebellion, the heart of the demon **** and the flame set, and the ordinary ancient **** set player’s health is less than 400 points.

The four players of Gertz found Lu Yang, and saw that the chairman of the Brotherhood of Blood Brothers personally went to the battlefield, and they were excited to point their weapons at Lu Yang.

“Shen Yan Tian burst”

...

Lu Yang didn’t wait for them to release their skills. His hands instantly fired four golden fireballs within 0.4 seconds, accurately hitting four of them, killing them all on the ground.

This is the difference between top-level Shenjing players and ordinary Shenjing players. In this state of Shenjing, ordinary players cannot kill the Shenjing players, and the Shenjing players face Lu Yang, leaving only despair!

As soon as the eight lower **** players died, tens of thousands of ordinary players behind them were exposed, and Lu Yang held his hands forward.

“Di Shi Tian Huo”

A flame of red gold sprayed from his palm. The flame of 10 meters wide was as long as 100 meters. It wrapped all the enemies in front of Lu Yang. In the blink of an eye, all those who were sprayed by the flame died.

The flames in Lu Yang’s hands swept horizontally, and the enemies within 100 meters in front were all seconds. No ordinary player could resist his flame attacks. Even if the invincible skills were turned on, they would be instantly seconds away. Ice shield.

The three-thousand-killing swords in charge of the ordinary player team and the players behind them were originally carefully following Lu Yang, but when they saw Lu Yang killing 8 lower gods and thousands of people with such an easy person, they There is a crazy feeling.

Lu Yang looked back at them, raised his right hand and shouted, “Iron Brothers League, kill ~!”

“Kill!” Three thousand killing sword roared excitedly, carrying a shield to open the acceleration skills, and rushed towards the enemy’s last 200 meters front.

These people are all Paladins. They all have holy shields. In a blink of an eye, they rushed to the trap area. Driving invincible, they lined up a 200-meter straight line, and drove more than 100 meters along the trap.

Lu Yang personally opened the way in front of him. When he saw the next god, he killed. No one expected that in such a short time of less than 10 seconds, Lu Yang broke through the enemy’s first front. Players have a crazy feeling.

In the live room.

Du Bin grabbed his head with his crazy hands and shouted: "Invincible, too invincible, Lu Yang is simply the God of War. He even led the team through the enemy's defense zone, and has already reached the trench of the first front. , It 's incredible, is it incredible, is the subordinate **** so powerful? "

On the other side, Gerlz's side was also ignorant. No one expected Lu Yang to go to the battlefield personally. Ricks was not convinced after the battle. He didn't tell Lurz's news in time. Of course, he didn't. Obligation to inform, but not long after he ran out of the city, he heard the inquiry from the upper level of the temple.

"I lost to Lu Yang." Rex said awkwardly.

"Damn, why don't you report, the first line of defense was pierced by Lu Yang." The senior executive hung up the phone angrily.

Rex was also a little ignorant. Although he thought of Lu Yang being very strong, he did not expect that Lu Yangqiang had reached this level, which was no longer in the category of human beings.

On the battlefield.

Lu Yang is still attacking forward, and has played the first line of defense. Lu Yang did not attack the left and right in parallel. He is betting that his second and third lines of defense are based on the lower gods. Set up under the circumstances, if there is no subordinate god, these lines of defense are unbreakable garbage.

He looked at the Three Thousand Killing Swords and asked, "Tell me, how many of you can release Holy Shield."

Three Thousand Killing Swords said: "There are 1500 people, and 500 people are used to break through the front line of defense."

Lu Yang said with a loud voice: "Pay attention to all and follow me forward. I will not stop. You must not stop and move on."

With a wave of his arm, he ran towards the front in person. Both Hansha and Wang Guangwei were already scared. They were really afraid that the enemy's subsequent defense line would be buried with weapons like Fengshen Lei that killed the next god. In addition, if the enemy's next **** rushed over, they were too few and could easily be killed.

But on the other hand, their bosses dare to go, they have no reason to be afraid, the two summoned the courage and followed Luyang on both sides.

On the first position of Gerds, not only was there a trench, but a chain of trenches consisting of 40 trenches.

Lu Yang came to the first trench and looked at the stunned players of the Freedom Legion inside the trench, pointing his left and right hands to both sides.

"Di Shi Tian Huo"

Two hundred-meter-long flames burned all the players in the 100-meter area on both sides, and he looked at the catapults that attacked incessantly in front.

"Di Shi Tian Huo"

Two flames destroyed nearly a thousand trebuchets, and after opening a 200-meter-wide road, Lu Yang hurried towards the front.

Just ran through 40 trenches, and came to the flat ground behind him, a light illuminated under his feet, he touched a flame trap, did not cause any harm to him, he said to the three thousand killing sword behind him: "I At the foot is the trap area, turn on Holy Shield, and push the trap here. "

"Yes." Three thousand killing swords waved, and 500 people lined up, staring at the invincible holy shield and running forward.

As Lu Yang had expected, many traps along the way were detonated by 500 of them, but in the presence of Holy Shield, they would not cause any damage to these Paladins, but when the Holy Shield was gone, in The player in front commanded roared: "Brothers, the cooldown of Holy Shield is 10 minutes, we do n't have that time, we open the way for the brothers, we fight, follow me on the thunder, and the blood-blooded brotherhood, kill ~ ! "

500 people opened the effect of freedom blessing and damage reduction by 50%, and rushed towards the front. The three thousand killing swords behind them saw this scene and their eyes turned red instantly, and roared: "You are crazy, no. The Holy Shield followed me and gave them sacrifices and blessings. We resisted 50% of the damage for them. We added blood to them one-on-one, and the brothers behind added blood to us. Thousands of swords are crazy.

But before he went crazy, he issued an extremely calm and useful tactic is to protect the group of players in front of him.

Seeing this scene, Lu Yang was also somewhat moist in his eyes. His brothers were so desperate, what else could he ask for, he could only walk in front of them and face up with the enemy.

"Xia Yuwei, I have opened the gap and quickly sent for support. From here, we will disrupt the enemy's front." Lu Yang said in a message.

"Seeing that, there are 100 fast-moving subordinates who are behind you, and there are 100,000 people accompanying them," Xia Yuwei said.

"Very good." Lu Yang smiled and hung up the phone to move on.

In fact, this time Lu Yang bet on the right, the front line is almost nobody, only a variety of traps, in fact, the purpose of the second trap is to delay the offense of the Predator Brothers, everyone knows, if the first The front line collapsed, and the second front could not work immediately, so the entire second line of defense played a deferring role.

But Professor Andre did n't expect Lu Yang 's offensive to be so fast, and he did n't predict the strength of the top gods. Therefore, Lu Yang easily broke through the second line of defense, watching the

trenches of the second line of defense almost empty There was no player with a sneer on his face, and he rushed towards the third line of defense.

Chapter 1800 - Kill Rex again

Gertz and Andre and others already knew Lu Yang 's position, and they looked at the map with a terrified expression on their faces.

“You can’t let Lu Yang continue to attack forward, there is no line of defense behind us, no one is stationed.” Andre said excitedly.

The interval between each two rooms is 150 meters. Lu Yang rushed to the third line of defense, which is equivalent to advancing 450 meters. If you continue to push Lu Yang forward like this, it is like a complete piece of cloth. Long mouth.

At this time, as long as the two sides are torn, the whole piece of cloth will be torn into two pieces. Once this happens, Gerrze 's defense line becomes enemies on both sides. When the front and side are attacked at the same time, the defense line Can’t hold it at all.

“Lu Yang must be stopped.” Gertz looked at Gulland roaring and said, “Send 200 lower gods to fight Lu Yang.”

He looked at Marquark, the head of the temple organization next to him, and shouted: “I want to see your true elite stand up to fight Lu Yang, and brag to me all day about how strong you are, but in front of Lu Yang, you are A bunch of waste, waste! “

Marquark’s face couldn’t hold, and he said angrily: “We know our strength, we don’t need you to intervene.”

Most of the elite members of the temple organization are in the copy, and they are fighting with the six bosses of the temple. What can be drawn here is only a small team under each of the six temple leaders.

For Lu Yang, they still despise them. They believe that Lu Yang's reaction speed is below 0.1 seconds, but they absolutely don't believe that Ricks will beat him. Just as Marquark also understood, Ricks was attacked by surprise.

"I will let Ricks lead more subordinate gods to kill Lu Yang. He definitely can't enter the fourth line of defense." Marquark said angrily.

"It's better to be like this." Gertz's face is still not good, in fact, this can't blame Gertz, he really can't pull more people to find Lu Yang's trouble.

The battlefield has been spread out, along the orange fortress to the green fortress. In the area of nearly a thousand kilometers, both sides have gathered nearly 10 million players, and each battlefield is in a state of stalemate.

Regardless of Gerz's deployment of the main force of any region to come to support, it will lead to the collapse of that region. The reason why it will evolve into this way is that Lu Yang forced Gerrez to fight like this, on the other hand, Gerrze I want to face Lu Yang like this.

Before the battle, the members of the shrine and the saints' organization were the same as those of 25,800,000. Even Gerzi was fooled by them, thinking that they could crush the blood brothers on the individual quality of the lower god. Union.

It was only after the battle was hit that I realized that one-tenth of the lower-level **** equipment of the Iron-Blood Brotherhood is a Tier 3 artifact, and the rest are mostly Tier 2 artifacts. The damage is higher by one or two than the Tier 1 artifact players under Gertz grade.

Furthermore, in terms of the qualities of the next **** players, Liu Jie, Sanyou Weimen and other reinforcements are all masters, but none of them has a reaction speed of less than 0.1 seconds, only three of the temples are 0.1 seconds. The following, but the Predator Brothers side is even more terrifying.

It is only now known that there are two people, Zhou Tianming and Kuai Banshen, and the cold sand reaction speed around Lu Yang is also below 0.1 seconds, which leads to Zhou Tianming and Kuai Banshen on both sides of Luyang. The big advantage is attacking Gertz's next god.

Gertz had to send the other two lower gods there to stop Zhou Tianming and bitter love for half a life, so in this place where Lu Yang attacked, he could not mobilize more people, and he could only believe that the master of the temple could Stop Lu Yang.

When Gertz is in pain here, the other side, hundreds of millions of viewers who are watching the live broadcast, have a crazy feeling.

On the third line of defense torn apart by Lu Yang, everyone's eyes were wide on the players on the screen, the three thousand killing sword and the 2,000 gold Paladin under his hand, so shouting the slogan of the Brotherhood of Iron Blood , Using the body as a physical shield, stepping forward step by step to advance the trap.

Because many traps are range damage traps, it is likely that 10 people will take a step forward at the same time, triggering 10 range damage traps, and the damage that erupts at the same time, even if there is sacrifice blessing protection, these 10 people will be directly killed in place.

But even so, after a flash of holy light, these 10 people stood up again, with three thousand killing swords in the first row, not afraid of the drop of their equipment, and roared with their weapons: "Iron Blood Brotherhood, kill Ah ~! "

"Kill ~"

The 500 people in the first row continued to move forward, and the traps arranged by Andre were solved by the players of the Iron-Blood Brotherhood line by line.

"too crazy."

"This is the craziest player I have ever seen."

“No, they are not players, they are the bravest fighters.”

“I salute them. I can’t believe how such a player exists in the Iron-Blood Brothers League. Huaxia’s game city is really a magical place.”

“Worship the game city, I want to visit the game city.”

“They are my idols, and the battle is over, I will go too.”

...

Three Thousand Kills Sword does n’t know that he has become a celebrity. At this time, he is still biting his teeth to destroy the trap. He does n’t want to lose his rank. He wants to upgrade the long and boring torture on the road. , But now it’s time for his sacrifice.

From the day he entered the game city, he knew that this game city is from the origin. It was built by countless players who had experienced many hardships and sacrificed it for almost everyone.

At the gate, the first bronze statue erected was Zhou Tianming. The swearing oath and the glaring glance holding the banner made people feel how powerful the city is.

In the past few years of living in the game city, every day they can hear the players fighting for the game city. Over time, in order to protect this game city, in order to protect the iron-blooded brothers, this idea has been integrated into them. Blood and bone marrow.

When they are needed, no one needs to induce them with interest, they will willingly pay for the game city.

“Hey, brothers, remember that we did n’t think that when the bronze statue of Zhou Tianming ’s boss was erected, we also thought that one day our own bronze statue was erected at the gate. Now, the chance of the bronze statue may not be , But on the wall of honor, we should have the name of our legion, everyone insisted on, continue to move forward. “Three thousand kill sword roared.

“Roar ~!”

2000 people roared at the same time, mixed with the light triggered by the trap, so that the players watching the video were worried. At this time, in the distance, countless flames, frost, thunder and other various subordinate **** skills were suddenly ejected.

Three thousand killing swords and others were instantly killed in place. Lu Yang walked in front of them and was also subjected to intensive attacks. He jumped up and escaped these attacks. From above, he saw it hidden in a tunnel 80 meters away.

The light flickered.

The 200 lower gods suddenly jumped to a position 30 meters away from Lu Yang, led by Ricks, and two others stood beside him, which also appeared to be his auxiliary attacker.

“Luyang, we meet again, this time, you are ready to die here.” Rex pointed at Luyang with his hands.

“Instant Blast”

Lu Yang sneered and pointed his hands under his feet. Ricks didn’t expect Lu Yang to fight again without talking, and quickly fled from the position, but he just started to jump.

“The Demon God Controls”

Lu Yang suddenly activated the Demon God’s heart skills, a golden firelight turned into the palm of the hand to the area 50 meters away from Lu Yang’s side.

What’s even more amazing is that there was no one there, but when the golden palm reached the area in an instant, Rex appeared there.

“Pretty!”

Both Han Sha and Wang Weiguang can only marvel, and they can no longer express any words. They both look at Lu Yang as if they were looking at God. This kind of prediction is based solely on their understanding of the game.

There are too many areas where Rex can jump. Any point in space is possible, but Lu Yang pointed to a position, but it is exactly Rex's position.

Unsurprisingly, Rex was instantly caught in front of Lu Yang's Demon God's control skills. At the same time, two pure gold fireballs hit Rex's head. In the blink of an eye, Rex was killed by Lu Yang. In the air.

"Idiot, I know that I have a broken mouth. I don't want to do it directly on the battlefield. I would like to say a few words first. You thought you were me." Lu Yang glanced at Rix's body with contempt, and turned into a ray of light that hit the enemy. Other lower gods.
