

## Chapter 1841 - Wind Spirit Tower bug

“Young challenger, you are welcome to come here.” The old man said to Lu Yang with a smile, his back had two pairs of wings, but they were both broken and obviously seriously injured.

Lu Yang walked in front of him and said with a smile: “Hello old man, please ask me how to challenge.”

The old man said: “Your challenge is simple, as long as you can defeat the demon Petas who guards the tower, you can get rewards from me.”

The Wind Spirit Tower is different from the Fire Spirit Tower. This is a one-level illusion. In this illusion, players need to rely on killing monsters to obtain temporary attributes and can also temporarily acquire skills.

In the Jiuzhushen’s trial tower, Fengling Tower has always been considered the easiest one and the one with the most bugs.

Lu Yang knew all the bugs of this Fengling Tower, and one of the most useful to him was the fire demon on a high ground behind the old man.

Arson

Level: Lower God

Qi and blood: 500/500

Eight arsonists are surrounded by a treasure chest. If you want to open the treasure chest and get the items inside, you must kill the arsonists and burst the key.

At this time, it is a stage to look at the face, can you burst the key, it depends on personal luck, Lu Yang's current magic injury has about 200 points, if it is just entering the lower god, the magic injury is only 10 points, he I really can't beat the arsonist, I can only start from the first level of mobs.

But now it's different. He came to a position 100 meters away from the arsonist evil demon, and he aimed the evil monster together with both hands.

"Shen Yan Tian burst"

...

Each golden fireball hits the arsonist at a speed of 0.1 seconds, and an average of 2 fireballs can kill one.

One of the eight arsonists was attacked, and they rushed towards the landing yang together, but Lu Yang did not need to move. The fireball continued to be released in his hand. The last arsonist demon ran to a distance of 50 meters from him and fell. Off the ground.

It's a pity that the key didn't explode, and Lu Yang was a little depressed. He could only sit on the spot and wait. It only took 10 seconds to brush out 10 bad demons.

"Shen Yan Tian burst"

...

Lu Yang continued to attack, killing three waves of monsters, and then a golden key fell to the ground. He shook his head silently, took the key to open the treasure chest, and a skill book appeared in front of him.

Temporary skill: Wind Spirit Ball

Type: Wind

Cost: 50 mana

Distance: 50 yards

Description: Throw a wind spirit ball at the pointing direction, inflicting 50% damage to the target within the range of spell damage every 0.1 seconds.

Lu Yang shook his fist, what he wanted was this skill, the wind spirit ball attack speed is extremely fast, normally passing a target's body, can cause 0.3 seconds of damage, which is 150% of the damage, but this map is full of bugs, It is easiest to brush bugs with this Feng Ling Ball

He turned on the acceleration skills and returned to the old man. Taking the old man as the coordinate point, he ran towards 11 o'clock.

If this map is for novice players, it will definitely get lost, because this environment is too big, there is a hill after another hill, one accidentally can not find the position of the old man.

Without the coordinate point of the old man, it is difficult to find the location of the customs lord, because there are strange on the map, you need to avoid the monster, but once the monster is hidden, it is easy to deviate, the previous life did not know how many players caused by this Lost, they can only give up customs clearance and come back again.

There is no reward for coming again. Lu Yang does not want to make such a low-level mistake. He determines the position of the old man every few minutes. He has been running for half an hour under the condition of ensuring that he has not been off course. Finally Near a giant rock, a giant demon with a height of 5 meters was seen.

Great Devil Fistal (lord level)

Level: Lower God

Qi and blood: 1000000/1000000

Fistal's body is black and purple, with a huge pair of fleshy wings, but he also has a Komodo dragon-like body. The huge body prevents him from taking off at all.

"Human, you are the \*\*\*\* Fengshen sent to kill me, let you taste the uncle Feistal's children." The big devil stepped heavily on the ground, his right hand appeared a black ball out of thin air, toward The landing yang lased.

"ember"

Lu Yang launched his skills and jumped directly next to the giant rock, hiding in the place where Fistal could not see. Fistal's attack was empty, roared, and chased in the direction of landing Yang.

Lu Yang ran a small circle around the stone, and after making sure that Falstar's body was on the stone, a smile appeared on his face.

"ember"

A golden fire flashed, and Lu Yang appeared in front of Fistal, his left hand pointed forward.

"Wind Spirit Ball"

A huge cyan spherical aura with a diameter of 1 meter hit Fistal at a very fast speed. Although Fistal's body was 5 meters long, he was only attacked 8 times. Passed through his body and hit the stone behind.

Normally, the Wind Spirit Ball should continue to move forward, but it is blocked by the rock. The Wind Spirit Ball has stopped moving, although it is still turning, but he can't move forward a bit. In this way, the Philip standing in front of the rock Starr is constantly being attacked by the spinning wind ball.

"-200"

"-200"

The blood drops every 0.1 seconds, and one second is 2000 points of blood. Even if Falstar has 1 million points of blood, he can't bear such damage.

"Give me death, the light of darkness!" Fystal will only be a long-range attack skill. When Lu Yang stands 10 meters in front of him, he will constantly throw black \*\*\*\* filled with undead breath.

If it is an ordinary player, within a distance of 10 meters, it is absolutely impossible to avoid the black ball, but Lu Yang's reaction speed is less than 0.1 seconds, he is too easy to avoid this skill.

The duration of the wind spirit ball was 7 seconds. Lu Yang played the second wind spirit ball after 7 seconds. It took less than 5 minutes. Fystal fell to the ground and burst out A pure white heart.

Angel heart

Description: Fiestal, who was once an archangel, degenerated into a demon, but did not expect that his heart was still pure!

Lu Yang smiled and received the Angel Heart, looked at other items, and put down a wind spell equipment of the same order as the Shenyang suit.

He put all his equipment in his backpack, after choosing to exit Fengling Tower, he sent videos of his Daguai to 12 young girls such as Han Ying's third sister and Han Yu, and all the reaction speeds within the gang reached about 0.1 seconds. Player.

"Everyone gathers, starting today, let's brush the Wind Spirit Tower together." Lu Yang said.

Unlike the Fire Ling Tower once a day, the Feng Ling Tower is brushed casually. After all, if you want to fight normally, there is no way to fight like Lu Yang.

Han Ying and others saw Lu Yang's videos smiling, and after Lu Yang established the sentry tower, he sent them to Lu Yang.

“Brother, how can I send it here?” Han Fei asked curiously.

Lu Yang said with a smile: “Fengshen is a particularly good god.”

Everyone has a black line in their heads.

“You deceive people.” Han Fei entered the copy, He didn’t believe Lu Yang’s words. Their brother knew what they knew best, and they liked to cheat them.

“We went in too.” Han Ying took Han Yu and they entered the copy together. While fighting monsters on this side, Tu Feng and Pongs were also integrating players in the Gerz area.

“Dididi”

Tu Feng called and Lu Yang pressed the call button and asked, “What’s the matter?”

“Boss, found an important talent, Gertz is too stupid, even such people are not necessary.” Tu Feng said excitedly.

Lu Yang smiled and asked, “Who makes you value you so much?”

Tu Feng said: “This man is called Babes. He is a master of the next \*\*\*\* with a response speed of 0.1 seconds. He was the leader of the army in the highest position in the gang before, but this man has a fate. He is the first to follow Gertz Yes, but the others are either deputy helpers or chiefs of the army, but when I found him, he was at home and the position was still a captain.”

“Captain?” Lu Yangle came and asked with interest: “What’s the matter specifically?”

## Chapter 1842 - Persecute Chapters

Tu Feng said: "Babesi is a person who dares to speak, and often finds Gerds for the bottom players, but such people do not know how to live, nor are they good at running their own circle of friends. Although he is very strong, but In the Gertz team lined with factions, they were quickly isolated, and no one wanted to take care of him, let alone promote him."

According to Tu Feng's account, Lu Yang knew the ins and outs of the matter. It's very simple. Jerz's gang is a gang formed after multiple financings. He is a Jerz's person, but he will not live for others, and is not subject to Jer. I'll see you later.

The rest of them have their own men who need to be promoted, and no one will think of using Babes, and Babes is a person who does not bend, causing his family to live well and play in the game, but no one can deny, Even if he only leads one team, this team is Gerst's strongest team.

After two months of war, this team's level is still above 178. This is a rare team in the two guilds of Gertz and Luyang.

Tu Feng said: "The reason why I mentioned him is not only that he has a reaction speed of less than 0.1 seconds, he also understands air combat. Before that, he was also a professional angel, and it is the talent we need."

Lu Yang nodded and said, "Well done, tell me where he is, I personally went to ask him."

Now the Jagged Brothers' occupation of the Gerds area is very unsuccessful. After all, it is the occupation area that has just been laid. Unlike areas such as Orma and Heisha, Lu Yang stopped them from messing with a song, but There are still a lot of people doing destruction here, Gertz.

Obviously, the entire southern area should become one of the three richest areas in Luyang's hands, but now all the fortresses here are being attacked every day.

Why Lu Yang can't fight Liu Jie now is because the rear is unstable, but if Lu Yang can recruit Babesi, relying on his reputation alone can make at least tens of thousands of people settle down. Furthermore, Babesi Being a strong man, if it can really be used for him, it is a very good thing.

Skyland God City.

In the sunset tavern in Xicheng District, Babesi was sitting alone in a chair, drinking whiskey after cup.

The whiskey in the game perfectly mimics the taste and dizziness in reality, so that Babesi can feel the pain of forgetting the pain while spending very little money.

"I didn't think Gertz would be defeated. This idiot is really wasteful."

"The point is, I was so mad at me by crushing that waste 10 gold coins to win."

"You say where he is now, I will beat him up."

"I'm afraid I'm hiding in the arms of a woman for comfort."

"Haha."

...

The four people at the next table made a burst of laughter, and Babes slammed the glass on the table, and got up and scolded: "You are a thing, and you are also qualified to evaluate Gertz, a group of waste."

"Dare you scold us?"

...

The four were furious and scolded around Babes, which caused the rest of the bar to show their helpless expressions. This area has been a gathering of defeated players under Gerz recently. They know the three people and they also know Babes. .

If Gerds was still the president, everyone would give Babes a three-pointer, but now, they blazed Babes on him.

Babesi was not good at scolding, but at the sight of scolding four of them, he pulled out his weapon and hacked at them.

“drop”

“drop”

...

A whistle came from around the room, and dozens of 200-level guards rushed forward, holding Babesi firmly under control.

“Bring me into the dungeon and follow my rules. This is the Heavenly City.” The soldiers glared at everyone present and took Babes away.

A spy of Pons was among these people. After seeing this scene and passing the news back, Lu Yang originally wanted to go to the bar to find it, but there are many people with mixed eyes, which just saves the trouble now.

“We go to the dungeon.” Lu Yang said with a smile.

Ponce nodded and led Landing Yang towards the dungeon of the Celestial God City. On the other side, Babes, who had just entered the dungeon, was thrown into the area of a light criminal.

The dungeons in Celestial City can spend money to avoid disasters, but the price is extremely expensive. Even the lightest punishment is 1 day in prison, it takes 100 gold coins to be rescued, that is, 30,000 cash.

What Babesi lacks most now is money. In the absence of money, he can only sit in the jail for a day. Fortunately, there is still wine in his backpack, which can save him from thinking about so much in reality. trouble.

When Babesi had a sip of whiskey without a sip, suddenly, a player appeared outside the prison door, and Babesi stared intently, showing a trace of sarcasm on his face, turning his head to continue drinking.

Ponce was a little embarrassed and said, "Babes, are you still mad at me?"

"Where do you dare, Mr. Chairman, now we can all rely on you to maintain the Liberty Army, you are the savior." Babesi sneered.

As soon as Gerz was defeated, Ponce announced that he had taken over the Liberty Army and announced that he would surrender to Luyang. Although there were a lot of support from the bottom players, there were still many high-level Liberty Army hostile.

Pongs sighed and sat ridiculously outside the prison door, and also took out a bottle of wine. He paid a respect to Lu Yang who was standing not far away. He looked at Babesi inside the prison door and said, "You think I think, but What can I do, I don't want to be a traitor, but a loyal minister, who is not happy?"

Babes glanced at him sideways and asked, "Don't tell me the sounding words, I don't want to listen."

"Whoever speaks fake big air today is not a person." Pongs also fought, sipping a sip of wine and scolded: "Lao was pitted by my wife, and he charged Lu Yang 10 million euros."

"What?" Babez's eyes widened sharply and he looked at Pons unknowingly. "You, have you betrayed for a long time?"

Ponce nodded and said, "Yes, Lao Tzu has long betrayed, and he betrayed a year ago."

“You...” Babes didn’t know what to say.

Pons didn’t feel guilty at all, and said straightforwardly: “But do I want that? I don’t want to support my family? Don’t I support my brothers? By Gertz? That miserly ghost would rather give the new player three thousand a month. The euro is not willing to give our old brother two thousand euros a month, you tell me, how can I tell my brother, tell them to generate electricity for love?”

Babesi is speechless. This is the place where all the old players in the gang hate Gertz. Gertz is very willing to believe the words of others, but he is not willing to believe the words of his brother.

Pang Si took another sip of wine, his choking voice was uncomfortable, but he still said sternly: “My wife, quarreling with me every day, poor, no money, let me find a way to make money, but I can embezzle his brother’s money? You Knowing who I am, you also know why I can still be the vice president. It is not Gertz who values me. It is only I who can help him manage ordinary players. You can’t do it. You can only manage thousands of people. Don’t understand.”

“Nonsense.” Babesi was anxious and scolded: “How can I only control a few thousand people? Besides, your wife thinks you are poor, you don’t want to pit your brothers, just pit Gertz, he said you are what you say Boss.”

“The \*\*\*\* boss, I knew how to use people. I almost got rid of him a few times. Do you know? Seven times! It was all from me. I didn’t want to be betrayed, but my wife took me to be betrayed, and I didn’t even give up. He did it, what happened to me, let’s talk about it, didn’t he lose the same without me? How much did I do to Lu Yang? The main thing is to help Lu Yang aftermath, Lu Yang gave me 2 million a year. Why should I not give Lu Yang an annual salary.” Pons said.

Babes was speechless.

Pons said: “I came to you today for one purpose. It turns out that the thousands of brothers under your hands are almost nowhere to be bullied. You don’t care.”

“What’s going on?” Babes asked quickly.

Pongs snorted and said, "They all have a bad temper with you, and they have to mess with the Brotherhood of Blood, but the leader is still a fool, and the big Druid Army of the Brotherhood of Blood is besieged near the Black Bull Fortress. , They are afraid they will be killed below level 160."

"Nonsense? Looking for death." Babesi was anxious and quickly sent a message to his men, only to find him in prison.

"Damn, let me go." Babes growled.

Pons said: "Don't think about it, you can't get out before this time tomorrow, even if you go out, you will die."

Babes stared at Pons, he understood, and said with a sneer: "I know, you still come to persuade."

"Nonsense, but am I trying to help Lu Yang? So far, I've been helping my brothers. If you don't want to, I'm not reluctant. Gertz is finished. One day sooner or later, your brothers will also Following his footsteps, here will eventually be unified by Lu Yang, you just wait." Pons said with a sneer.

Babesi is speechless, because, this is the truth!

Chapter 1843 - Continue to surrender

Pons said: "You think about it, would you like to surrender, if you are willing to surrender, and run this area with me, let's not care about Luyang or Gertz, let's improve the quality of life of our brothers."

"Then I am not a traitor?"

“Jells are all dead, who did you betray?”

“That’s also a traitor.”

“Will you watch your brother die?”

“Unwilling.”

“Then you surrender.”

“Isn’t that a traitor?”

...

Perhaps because of competition, Babesi couldn’t get out of the bend. Lu Yang listened to the conversation between the two. After Pence was furious, he walked to the prison door and smiled at Babesi inside the prison door. He Did not say a word.

Pons was still roaring with Babesi, but Babesi had stopped and looked blankly at Lu Yang’s smile. At this moment, he took a sigh of relief and said, “Chairman Lu Yang, you have my temperament. Take it, I’m willing to follow you.”

Babesi is already the captain, and he has dozens of people under his control. Although he still has some influence, at this time, Lu Yang can take the initiative to come to him and prove that Lu Yang really values him. I don’t know why. At this moment The anger in his heart is gone!

Lu Yang paid bail for Babesi and said: “Welcome to join the Brotherhood of Blood Brothers, go to the people you called.”

“Yes.” Babesi left like this, without leaving a word to Lu Yang.

Lu Yang knows that people like Babes like to use facts to prove, rather than lie, and look at Babes's back, Pong mumbled: "Geek, you have to lift the bar with me, you will come out, He didn't have a word, he was even cheaper than me."

Lu Yang smiled and said, "Don't give up on yourself. I know you have a hard time in your heart, but Gertz has been sorry for you. You are only making sacrifices for family and brothers. Although we all lost this time, we can give The task of making money is very suitable. In the future, taking the brothers to make more money is also an explanation for the brothers."

Ponce nodded and said, "I know."

This kind of heart knot can't be easily solved. Pongs also knows that Lu Yang is right. But when it comes to this matter, his heart is awkward, but he thought about it and said: "Boss, I still I have to recommend a person to you. The Liberty Army can support it. Besides me, three other people have played a decisive role. If you can hire them to join the guild, Gerz can quickly settle down."

Pons didn't say it because the general president wouldn't do it. This is equivalent to the activation of one-third of the old department of the Gerz gang. Once these people re-invest in Gerz, it attracts Gerz Come out again.

It doesn't matter at ordinary times, and it will be easy to rebel soon. If it is at a critical moment, when the Predator Brothers and the enemy are fighting, such a thing may cause the Predator Brothers to collapse as a whole. Like the last straw that crushed the camel.

The reason why Pence dared to say this time was because he found that both Tu Feng and Lu Yang were in a state of thirst for talents, and he didn't care if the identity of the person he was using was the old part of Gerz, he felt Lu Yang is really a president with a big heart.

Lu Yang is indeed looking for talent and eagerness. If he can quickly settle the Gerds area, he doesn't care if the people who started it are the old part of Gerlds and asks: "Who are there?"

"The vice president, Elvasa, nicknamed the Queen, the female players in the gang are willing to listen to her."

“Vice president, Kushchak, nicknamed Wanjinyou, one of the guild investors, if he can restore his previous status, one-third of the players will end the noise.”

“Vice president, Malik, nicknamed the traitor, the only vice president who did not contribute in this war. He was originally the president of other guilds. When he was fighting with Jerz, he actively joined the guild of Jerz. I did not expect this. When he was about to lose during the Second War, he took his men out of the fight. Now he is in trouble, and one-third of them are in trouble.”

Lu Yang smiled and said, “You said earlier, why did I waste so much manpower and material resources, let’s go, let’s recruit one by one.”

Pons shrugged his shoulders and quickly followed Lu Yang’s footsteps. On the map outside the Skyfire Fortress, he saw a woman with a full body but a Scandinavian sturdy body at first sight.

She was only about 20 years old, but her face did not have the gentleness that a girl of this age should have, but instead was a fierce face, holding a giant axe, when chopping monsters, he chopped his face specifically, and the special effects, monster Red blood splashed her face.

“Er, she has always been like this, in terms of the woman’s sexual orientation, er, you know.” Pang Si explained that Lu Yang was disgusted and walked away.

Lu Yang shook his head with a smile, and walked straight to the front of Elvasa. The flame in his hand exploded for a second.

“Who dares to disturb the uncle’s interest.” Elvasa was furious and turned his back to stare at the landing sun, but when he found out that it was Lu Yang himself, he immediately wrinkled and looked at the left and right and asked cautiously: President, what do you mean?”

Lu Yang spread his hands with a smile and said: “Don’t worry, it’s only me and Pons, I’m not malicious.”

“Pons, you traitor.” Elvasa found Pons approaching and chopped toward him with a battle axe.

“Bang”

Lu Yang blocked Elvasa's axe with one hand and smiled at him and said, "How about we talk?"

"What are you talking about? Make me betrayal? I wouldn't do this kind of thing?" Elvasa said angrily.

Lu Yang sighed a little and said, "Don't you think about your sisters? Because you don't surrender, they will have endless wars. I remember you also had a guild, but it was incorporated into freedom. In the legion, I give you this freedom, and take your sister to re-establish a guild, hang in the name of my blood-brother brother alliance, I will also give you 9 fortresses, as your independent area, how?"

"The deal." Elvasa thought for a while and agreed directly, saying, "First of all, I am not for you, but for my sisters."

Lu Yang nodded with a smile and said, "As long as you don't make trouble, I will not fight you. My purpose is to unify the new continent, not to get angry with a guild or a player, go, take your sister group away, Tu Feng will assign you 9 strongholds."

"Thank you." Elvasa left.

Lu Yang looked at Pons and said, "Next."

He knew that things would go well. These people were beaten for several days, and they all knew they wouldn't win. Now it is the easiest time to recruit them.

Pons did not anticipate that Lu Yang could recruit these people so easily. He nodded excitedly, and landed Yang to Wanshu Forest.

At this time, the Wanshu Forest has returned to its original appearance. It is not the players of the Brotherhood of Blood, but the original Gerzi players who came here to fight monsters.

Because Lu Yang ordered players to go to the Wind Spirit Tower in large numbers, and arranged people to brush the Fire Spirit Tower, so there is no one to manage it for the time being, and it is cheaper for some senior players under Gerz.

However, in the Wanshu Forest at this time, Gertz's old men were divided into two factions, one of them stood behind a dark mage, and the other stood behind a paladin.

It's just that the Paladin has more people and the Dark Mage has fewer people. It's at a disadvantage. This makes the Dark Mage look angry and endure the anger pointing at the other Paladin. What are you calling me?"

"If it weren't for a \*\*\*\* like you who led the mutiny, how could the guild lose so fast." Kushchak pointed furiously at the dark mage.

The two were not other people. It was Pang Si's mouth that Wanjin Oil Kushchak and the betrayal Malik, without much speculation, the two sides quickly fought together.

When Lu Yang and Pons arrived here, they just saw Malik's side being beaten out of the Wanshu Forest. If Malik was not running fast, he would be killed.

"This bastard, I will kill him when I call out." Malik said cursedly while drinking the potion to restore the blood demon.

"Bang"

Malik found himself hitting someone, and looked up and scolded: "Blinded, I don't know how to make way."

But when Malik saw who the other party was, he overjoyed Malik and said, "Isn't this Pons? Hey, President Lu Yang is here too."

With a black line in his forehead, Lu Yang sent a message to Pons and asked, "Are you sure it is useful to recruit him?"

Ponce replied with a helpless expression, saying: "This person is a villain's face, but this person is very good against opponents, even if the players under him are still in his side, he still follows him. Was pulled away alone."

Lu Yang understood that this was another person who had to make a helpless choice for his men. He looked at Malik with a smile and said, "No need to follow me, we can communicate as friends."

Malik froze for a moment, then showed a complimented expression, and said flatteringly: "Well, how can you be the General Assembly, I'm a small person, how can I have that ability, don't kill me, I will tell you..." "

Lu Yang interrupted Malik with a smile and said with some sighs: "I'm really telling you, Pons introduced you to me. I know your difficulties. I also had such an experience in those years. I asked for help for my brothers. Help, most of what can be harvested will be cold-eyed.

Even if I find someone to help, I can only give a little emergency. After that, I am still poor. I need to bring my brothers to work hard to make money. But how can there be so much money in the game, not to mention we are ordinary people, all the way When he came, he could only be sneered and ridiculed in the most humble identity, and even a lot of infamy went north. "

Malik took a deep breath, as if something was blocked in his heart, he looked at Lu Yang blankly and asked, "How do you..."

Lu Yang smiled and said, "I was so difficult back then. No matter what you thought, Pons recommended you to me, saying that you can help me reinstate a large part of the rebellion. In that case, I will give you 9 fortresses as Where you and your players make money living, as long as you don't betray, these 9 strongholds will always belong to you."

“Really?” Malik’s eyes suddenly became sharp.

Lu Yang took out the contract with a smile, and said: “Look at this contract, if there is no objection, sign the name, it will take effect.”

Malik hurriedly looked at the contract. After reading it carefully, he showed an ecstatic look, looked at Lu Yang and said, “This kind of generous treatment will really give us forever?”

50% of the income of 9 fortresses belongs to Malik and his men. As for how to distribute, it is Malik’s business. Even during the period of Gerz, Malik did not control the 3 fortresses and gave him income. Only 20% of the three fortresses.

Now Lu Yang has given him so much, Malik sighed and said: “Chairman Lu Yang, I accept your recruitment, you can rest assured that my people will no longer have any rebellion, and the surrounding rebellion, I will also Help you settle down.”

Lu Yang said with a smile: “Talk to Tu Feng, he will tell you how to do specific things, I will go to the meeting.”

Malik looked back and said, “The goods are just a mallet, oil and salt won’t enter, you should be careful.”

Lu Yang laughed and let Pons wait outside. He walked in alone. If Malik represents the interests of him and his brothers, Kushchak is a loyal fan of Jerz, and only represents Jer. Interest.

“Lu Yang, you dare to appear here, I killed you.” Kushchak rushed towards the landing Yang without any hesitation.

“Shen Yan Tian burst”

The golden fireballs in Lu Yang’s hands were shot one by one, and all the people around Kushchak were killed on the ground, leaving only Kushchak alone, still stray blood.

“You...” Kushchak’s face was horrified. He wanted to run, but he didn’t dare to move.

Lu Yang sneered. He knew what Kushchak was afraid of. The light of Kushchak’s lower \*\*\*\* was already weak. Obviously this was his last chance to die. He fell below 180 after he died. The divinity of the next god, it is impossible to come here again.

“I will only tell you once, and now I choose to surrender with your men, otherwise, I will mobilize the main force of the Brotherhood of Blood, and specifically kill your Kushchak.” Lu Yang said.

“Hey, I will be scared? Tell you that the players of the Liberty Legion have no gangsters, we will continue to fight this way, you will never last long.” Kushchak roared.

Lu Yang threw the three contracts in front of Kushchak and said, “Look at this and talk about it.”

Kushchak frowned and looked at the contract. With only one glance, he widened his eyes in horror and said, “Well, this, Elvasa, Malik, and Babes have surrendered? How is this possible?”

Lu Yang said: “I gave them the most generous treatment, and now it is up to you. If you don’t agree, I can mobilize the players who besieged the three areas to you, just because I have no place to vent my anger. You are willing to let your hundreds of thousands of people give away their heads and equipment. I am very welcome.”

“You.” Kushchak was furious. He was a typical diehard. After Jerz withdrew from the game, he had found Jerz many times and came out again. Now Kushchak admits defeat. Can’t do it.

Chapter 1845 - Excellent conditions

“I will never surrender. It’s a big deal. I quit the game and stop playing.” Kushchak scolded and turned away.

Seeing this scene, Lu Yang showed a surprised expression. He did not expect this Kushchak to be so decisive. However, when Kushchak left, Lu Yang found a problem.

Before leaving, Kushchak also picked up the equipment that had just burst out on the ground. Lu Yang showed a sneer expression and said to Pons: "This person can recruit."

Pongs was shaking his head and sighing. Hearing this, he asked a bit dazedly: "This can still be recruited. You can send the player to kill him. It's too hard."

Lu Yang shook his head with a smile, said: "He is not stiff at all, look at it."

He sent a message to Qingqian Zimeng and said, "Order Action 3."

"Yes." Qingqian Zimeng quickly responded to the news. A little famous Polish female star took the initiative to find Kushchak that evening.

"Mikalina, I'm right, are you really?" Kushchak was borrowing wine in the bar of the game, and a slender woman sat opposite him, let Kushcha G instantly revealed a look of surprise.

Mikarina sat elegantly in front of Kushchak, looking at Kushchak with a glass of red wine and said, "It looks like you are in trouble?"

The two had known each other before. When the Liberty Army became famous, Kushchak had been interviewed and had taken commercials with Mikarina, a star who had just debuted.

Mikalina looked at Kushchak with a smile and said softly: "Don't drink alone, how about I accompany you."

"Alas." Kushchak sighed and looked at Mikarina with some disappointment. "We have failed. You should already know. How is it in America?"

Mikalina shook her head with a smile, and said with a weak but stubborn expression: "It's good, I've been more leisurely recently, come and see your old friend."

Kushchak is a human sperm. How could he believe this, he shook his head with a smile, and said: "You will be fine with me, let's say, what the \*\*\*\* are you for?"

Mikarina played Kushchak with a playful hand and said, "It's still so smart, you can't pretend not to know, let me play a little longer."

Kushchak smiled. If Mikarina continued to pretend, he would turn around and leave. There would never be an extra second, but Mikarina's free and easy words were all spoken out, which made Kushchak relax. Come down and ask: "Lu Yang sent you here."

Mikarina nodded and said, "Do you remember Hei Sha? After he was defeated by Lu Yang, he willingly served Lu Yang. She knew I knew you, so she asked me to be a lobbyist. I was originally I don't want to, I respect your choice, but after Hei Sha said something to me, I think I should come."

Kushchak asked: "What did he say?"

Mikarina said: "This is a game, it has nothing to do with reality, and it has nothing to do with loyalty and faith. You are working in a company in Gerz, and his company is closed, so you should go to another company to continue working, or build your own. A company, not a failed company, cannot help itself."

Kushchak was undecided.

Mikarina went on to say: "From another perspective, you are working hard for Gertz, but before that, you were not the main vice president, but because you had good relations with the major affiliated guilds and strong coordination skills. Without these, Gertz will not use you, he treats you as an employee, why don't you just treat him as the boss?"

Kushchak hesitated. He hadn't thought about it before. He just wanted to get revenge. But when Mikalina said that, he found that he was a little self-confident, other than having a good reputation. nothing.

Mikalina continued: "Let Lu Yang talk to you again, maybe Lu Yang can give you a satisfactory price."

“What price?” Kushchak asked.

Mikarina shrugged her shoulders and said: “It’s not clear, but it must be a good price, otherwise, he doesn’t need to use my star to persuade you, my price is also very expensive.”

Kushchak laughed, did not agree to the negotiations, and did not disagree, but Mikarina knew that Kushchak agreed, so, half an hour later, he led Kushchak to the Brotherhood of Blood In a secret room in the Heavenly God City.

Lu Yang looked at Kushchak at the door and smiled and said, “Welcome.”

Kushchak was undecided, and found a place to sit down and said: “Chairman Lu Yang grew up with a pen, and even I know everything about Mikalina.”

Lu Yang looked at Kushchak with a smile and said, “Did you know? My guild spends 17% of the guild’s total funds on intelligence every year, that is, more than one-sixth of the funds, about 50 I used more than 100 million in cash for intelligence.”

Kushchak was a little dazed, and said blankly: “What do you do with so much money for intelligence.”

Lu Yang said: “So let’s say, before the war with Gertz, dozens of players of your guild’s regimental commander level had rebelled. Although you don’t know, on the frontal battlefield, and the side battlefield In the past, they played a huge role, which is why I can win Gertz so quickly.”

Kushchak nodded unequivocally and said, “Some are not visible.”

Lu Yang smiled and said, “I am the president of a guild and I am also the boss of this company. I have to face not only the actual gun combat in the game, but also various conspiracies and tricks in the real world.

Not only did I arrange a large number of people in your guild, I also arranged and counteracted a large number of people in the guilds of Sanyouweimen, Roland and Radvedev. “

“You tell me this, are you afraid of me?” Kushchak asked with a sneer.

Lu Yang said: “I sincerely hope that you can help me, and I also believe that in the end, you will choose me.

If you promise, I will let you establish a guild by yourself, you only need to be anchored under the Iron-Blood Brotherhood, and I will give you 9 fortresses, all under your control. My people will never enter your fortress to find your trouble. In the future, if one day, you want to take the whole guild out of the Brotherhood of Blood, you pay enough, and I will let you take the whole guild together. “

Kushchak was stunned. When did he see such favorable conditions, and asked blankly: “Well, don’t you tease me.”

Lu Yang smiled and said, “Why the affiliated guilds of my countries are willing to follow me, because the conditions I gave them are the same as yours, I am not afraid that you will betray me in the future, and the new continent cannot exist forever, If we separate the next map, and someone wants to buy you away, I don’t mind letting you leave. At that time, if you want to be my enemy or be a friend, it’s another matter.”

This is Lu Yang’s self-confidence and his confidence. The Iron-Blood Brothers Alliance is strong enough, and he is not afraid of these affiliated guilds leaving in the future. In other words, if the Iron-Blood Brothers Alliance cannot do this, these people will not be willing to help.

Chapter 1846 - Ancestor fruit

The four main rebels in the Gerds area were all included by Lu Yang, which allowed the Gerds and Claudio areas to gradually return to their original business status.

After earning money, the Iron-Blood Brothers Union gradually recovered its vitality. Late at night, after finishing the meeting with Vice Presidents such as Zhuojiu and Baishi, Lu Yang determined the development tone of the entire region, and he entered alone. Tree forest.

Fruit, the most important item in the map of Wanshu Forest, is actually something called ancestral tree fruit.

In the official history, the reason for the formation of Wanshu Forest in the past was that Kwagmat, one of the four main gods under the Slyma, the \*\*\*\* of the ancestral tree, one of the gods of the Nine Pillars, came here and discovered the time when the planet was formed. The primitive magic forest formed by body cells and hair after the death of the Supreme God.

Kwamat immediately regarded this place as a settlement, using his own divine power to spawn primitive magic forests, and let the seeds they produced drift around, forming the Wanshu Forest today.

In the process of spawning, some of the trees that can produce fruits in the original magic forest and the newborn forest mutated again, and the original tree people and ancestor elves jumped out of the fruit, but they were in a state of ignorance.

Kwamat believed that they were born of their own magic, and they were their own children, and taught them their own magic. These primitive treemen and ancestor elves regarded Kwamat as the supreme \*\*\*\* and obeyed Kwamat. 'S command became the guardian of Wanshu Forest.

Kwagmat himself stayed in the center of the Wanshu Forest because of excessive use of divine power, and turned into an ancient tree, and he connected his soul with all the ancient trees.

Now in this forest, fighting any ancestor elf or primitive tree man is actually fighting Kwamat.

Why did Gerz lead the team to develop so hard before, and could only expand to the area within 10 kilometers of the forest, because, if you go inside, it is the area that Kwamat really controls.

Once Kwamat found that someone had entered, he would send his army to encircle the target. That is to say, even if a person entered, he might face the siege of hundreds of ancestral elves.

Therefore, normally, this forest cannot win, unless Lu Yang brings the main force of the Iron-Blood Brothers, and relies on killing God Lei and Space Time Locking God Lei all the way, but Lu Yang does not have so much money.

After the guild's status is restored in the future, Lu Yang can try it out. Now, the only thing he can do is to steal the fruits of a few original magic forests. If this thing is picked before it is conceived, it can be exchanged in the Heavenly God City. High-level items.

...

"Human, I found you." In the depths of the Wanshu Forest, an elf hidden in the shadow of an ancient tree suddenly showed his body, and the sharp wooden thorn in his hand thrust into the neck of the landing sun.

Ancestral Tree Elf

Level: Lower God

Qi and blood: 500/500

The Ancestral Tree Wizard is extremely fast, and the distance of 30 meters is almost instantaneous, but his speed is slow in Lu Yang's eyes.

"Shenyang Shockwave"

Lu Yang turned back suddenly, his left hand pointed forward, a red gold shock wave spurted from his palm, flying the ancestor elf 30 meters away, and died without waiting for the landing.

"-700"

The magic resistance of the ancestor tree elf is 30 points. Normally, this value is already high in the lower gods, but who is Lu Yang? He has lowered the fire spirit tower to more than 300 layers. God's

Code, the artifact-level Demon God's heart, let his magic damage have more than 500 points. Counting the 200 damage that comes from the top skill of the next \*\*\*\* he got, he killed these monsters, just like the 20th-level player returned to the novice village. , Hitting anyone is a second.

Lu Yang looked at the items exploded on the ground, and there was nothing valuable. He continued to walk forward. After 10 minutes, a magic forest with a light green light appeared in front of him.

System prompt: You found the original magic forest!

Lu Yang's eyes lit up. From here, he was in the area of the original magic forest. Kwagmat had already been able to perceive him. That is to say, from here, he needed to be careful.

He carefully looked at the left and right, slowly walking towards the front, at the same time he carefully stared at the shadow of the surrounding trees.

Going forward for nearly a hundred meters, a towering tree with a diameter of hundreds of meters appeared in front of him. The tree was a few hundred meters high. On the branches above the trunk, there were several huge blue fruits, that is, Zu Tree fruit.

“ember”

Lu Yang turned into a shadow of fire and sent him to jump on a branch that was 100 meters high. In front of him, there was a huge fruit about 1 meter in diameter.

Picking this kind of fruit is simple, but you need to guard against the surroundings. Generally, around each fruit, there are either poisonous snakes or poisonous spiders.

As Lu Yang approached the fruit, suddenly, on top of Lu Yang's head, a branch suddenly shot towards Landing Yang Ji.

“The Demon God Controls”

Lu Yang's Demon God's heart instantly launched, turned into a fist and hit the branch, flying it 50 meters away.

“Roar~!”

The branch gave a roar, and Lu Yang took a closer look, where is the branch, but a giant python nearly one meter in diameter.

Ancestor Python

Level: Lower God

Qi blood: 700/700

Ancestral pythons cannot be killed, as long as the fruit is not picked, they will be resurrected indefinitely.

Normally, it is very uncomfortable for players to encounter the ancestor python, bloody, anti-high, fast, killing and resurrecting in place, it is impossible to lead him to leave, only one person can carry it, others Go hit the root of the ancestral tree fruit.

However, for ordinary people, for Lu Yang, has become simple.

“Shen Yan Tian burst”

Lu Yang took advantage of the ancestral giant python to rush over, the golden fireball continuously bombarded the roots of the ancestral tree fruit, 15 consecutive attacks, it took only 1.5 seconds, the root of the ancestral tree fruit ruptured, The fruit fell to the ground and the shell was torn apart.

The ancestor python has rushed to less than 1 meter in front of Lu Yang at this time, no matter how slow the blink of an eye, Lu Yang will be killed by the ancestor python, but this is less than a second, Let Lu Yang survive, the ancestral giant python disappeared from the sky.

Lu Yang jumped under the tree. After the shell of the fruit shattered, the fruit inside was revealed. In fact, the fruit body is very small, only about 10 cm.

Ancestor fruit

Description: Very useful things, the essence of divine power!

Lu Yang received the fruit in his backpack and ran towards the next ancestral tree fruit. For three days, Lu Yang was here to hit the fruit. He waited for him to hit 500 before he stopped. He knew The fruit of this data can be exchanged for what he wants.

Chapter 1847 - Association of Poisonists

Early next morning.

Lu Yang returned to the Heavenly City with a storage bag of ancestral tree fruits. However, instead of doing the task immediately, he waited leisurely in the box of a tavern.

Not long after, a long-lost figure walked into the box, and did not wait to come to the side. The pungent and strong perfume smell let people know who this person is.

“Alice, I haven’t seen you for a long time.” Lu Yang looked at his teeth and teeth, but he appeared to have another beautiful Alice.

“Yeah, I haven’t seen you for a long time.” Alice snorted and sat across from Lu Yang. She didn’t have any elegant temperament. Instead, she resembled a shrew. She said angrily: “We won’t talk nonsense. Give me 200 million euros. I Give you 20 poisonous hearts.”

Lu Yang smiled and looked at Alice. He could see a small wrinkle on Alice's face, and Alice herself was no longer so charming, but had a tired and old feeling.

In the war of that year, Alice thought that she had captured Zhou Tianming's heart and used Zhou Tianming to attack the Brotherhood of Iron-Blood Brothers. However, Zhou Tianming had rebelled on the spot, and while Alice was defeated, she became a laughing stock for players all over the world.

Later, Alice had a harder time, the war in the New World became more and more clear, and the living space of the white devil was further squeezed. Before that, they could still be among the radvedev, stephen, jertz and tom surviving in the cracks, but once found, the three guilds will chase them without hesitation.

Who let them have the heart of an artifact, they can also deal with it for a short time after such a kill, but now Tom, Gerds and Stephen have been killed, leaving only Lu Yang and Radvedev.

There are only a few high-level maps in the game. Among the thorn bird organizations, there are only three people with a response speed of less than 0.1 seconds. The original high-end team of all servers has become a quasi-first-class team.

At the same time, it makes people want to negotiate with Lu Yang. Alice and White Devil have only two roads. They are either chased to death by Lu Yang or Radvedev. Chase to death.

No matter which side, the White Devil can't afford to offend, Lu Yang has the God of Thunder, Radvedev has the Water God Thunder, and he will die after two shots, but Lu Yang and Radvedev have both It is mass-produced.

Not to mention Alice, Lu Yang couldn't think of how to get rid of this ending if he was in the position of the white devil.

Alice didn't know, and the White Devil didn't even know that after the two were recently hunted down several times by the teams of Radvedev and Lu Yang, Alice decided to negotiate with Lu Yang.

Lu Yang looked at Alice and sighed again, saying, "I will give you 200 million Euros. Not only that, I also allow you to upgrade and equip your equipment in my area, as long as your people do not actively attack me, I will definitely not trouble you."

Alice gritted her teeth and stunned her face and asked randomly, "Is it pity us? I don't need it."

Lu Yang shook his head and said: "It's not pitiful, you just think I want to make a good relationship, Feng Shui turns, now I look at everything, just like you, contempt everything, but who knows the game is revised, Made you ordinary at once?"

I don't want to form a deadly hatred with anyone. At first, we each had our own ideals, but we were desperate for our own ideals, not because of hatred between you and me, desperate for hatred, right. "

Alice was a little surprised and nodded subconsciously.

Lu Yang then said: "Since Zhou Tianming is fine, he doesn't mind anymore, then, there is no hatred between us. Since there is no hatred, and the event has a final outcome, we don't want to be enemies anymore, be friends. how is it."

Alice looked at Landing Yang confusedly. She didn't reply immediately. Instead, she took out 20 poisonous hearts from her backpack and put them on the table. She said, "Let's trade first. Other things will be discussed later."

Lu Yang knew that Alice would not be able to turn around for a while, smiled and took 20 poisonous hearts, and then transferred Alice 200 million euros.

System prompt: the transaction is completed!

Alice gritted her teeth and finally said to Landing Yang: "Thank you."

After speaking, Alice quickly left.

Lu Yang couldn't help but shook his head with a smile, a wave of emotions filled his heart, the thorns bird organization has come to an end, if they don't quit the game, greet them, only demise, but this has nothing to do with him, he should do I have done everything, and I have to talk about it. The rest is up to White Devil and Alice.

He stood up and left the private room, put on a mount, and quickly came to the door of the house with an area of 2 hectares near the city wall of the Xicheng District of Tianyu God City.

System prompt: You found the Association of Poisonists!

Looking at this plaque, Lu Yang smiled deeply in his heart. Even in the last life, the Poisonist Association is the most mysterious organization. It is extremely difficult to get a task from here and complete the task.

First of all, to obtain missions, only players starting at level 110 and insisting on doing poison-type tasks to achieve level 180 all the way can open their reputation in the Poisonist Association.

Another one is that only those who have pressed the poisonous heart can start the prestige mission here, and the prestige mission of the poisonous heart is to upgrade the ordinary poisonous heart to the next \*\*\*\* stage.

The specific need is the fruit of the ancestral tree!

Normally, if a player wants to get the ancestor tree fruit, it is necessary to advance to the lower god, after a few months to hit the lower \*\*\*\* level 3 equipment, there are a lot of players to help, and more players together In the case of a wasteland with ten thousand trees, only one of the ancestral trees can be lucky.

Only Lu Yang, relying on the advantages of the rebirth, first went to the Fire Spirit Tower. The nearly 300-story Fire Spirit Tower allowed him to obtain the third-level lower artifact equipment and the code of rebellion that should not be available at the current level. Something, so I got so many ancestral tree fruits in advance.

The artifact-level poisonous heart is a good thing Not to mention, this is for an item that can form a large poisonous array, as long as there is a large poisonous array, he can put a All the lower-level monsters in the region were poisoned to death, allowing them to quickly upgrade, which is why he bought so many poisonous hearts.

Recalling the previous life, the most powerful guild in the game, Qingtian Yijian, relied on the poisonous heart to quickly upgrade the ranks of his men. In just two months, his men broke through to the median god, which is 190. Level of level.

Now in the whole game, except for him, other regions are at war. He happened to take the opportunity to upgrade quickly. Thinking of this, he stepped to the door of the Association of Poisonists.

“Who? The Association of Poisonists does not accept outsiders.” Two elderly demons carrying various poisons stared at Landing Yang and asked.

Lu Yang took out a poisonous heart from his backpack and said, “Is this ok?”

“Very toxic heart!?” An elderly demon suddenly expressed an excited expression, said: “Please follow me in, the elder elder will be very happy to see you.”

Lu Yang nodded happily and followed the old demon into the door of the Poisonist Association.

## Chapter 1848 - Kill God Poison Array

Inside the door of the Association of Poisonists, there is a very large “workshop”, yes, it is “workshop.”

In the huge workshop, each row has a variety of experimental tables with test tubes and cooking dishes, as well as various reagents.

One or two pharmacists are standing on each experimental platform. They are just like workers, staring at the drugs on their respective experimental platforms.

The medicament on the first experiment table was completed, and the flow was transferred to the next experiment table, so it was transferred from the first flow to the last one.

Lu Yang went to the second floor of the workshop with the old demon. This is a more advanced place. Although it is still a workshop, this is a small workshop, each with its own room, with a nameplate attached to it, reducing defense and reducing magic resistance. , Reduce qi and blood...

“Please come here.” The elderly demon led Landing Yang to the innermost room. After pushing the door open, a humanoid demon wearing glasses and a height of 2 meters was reading a book in a wide mage robe.

“Gulas, you came to me with the young people around you, what are you going to do?” the humanoid demon asked curiously.

The old demon bowed and said, “Dear Vals Alchemist, this man has a poisonous heart in his hand, I think, you will want to see him.”

“What?” Vals Apothecary stared at Lu Yang fiercely and asked, “Do you really have a toxic heart?”

Lu Yang took out a poisonous heart from his backpack and said, “Is this right?”

System prompt: Congratulations to player Lu Yang for opening the reputation of the Poisonist Association!

“Yes, yeah, this is it, I really can’t think of it. I can still see this baby, which really excites me.” Vals couldn’t help but stare at the poisonous heart in the hands of Yang Yang. .

Gulas said to Lu Yang: “Don’t mind, Elder Vals is like this. The poisonous heart was originally created by our ancestors, which is comparable to the artifact. Later, our ancestors died when fighting against alien

gods, and then we The poisonous heart created is also lost, and you can't expect it to be recovered by you."

Lu Yang smiled and asked, "Do I need to return it to you?"

"No need." Vals' voice sounded like Hong Zhong. He proudly looked at Landing Yang and said, "You have got something from our ancestors, which proves that you have obtained their approval, and we have made such things even more. Advanced, this thing will be reserved for you."

Lu Yang smiled and bowed slightly, said: "Thank you."

"You're welcome, young man, if you can complete my task, you can buy some interesting things from me, which may also help you to upgrade the grade of the poisonous heart, is there any interest." Vals asked .

Lu Yang was waiting for this task, and said with a smile: "Of course I am interested."

System prompt: You have received the task of Elder Vals and bring back a ancestral tree fruit, he will give you a good reward.

Vals said: "We need the fruit of the ancestral tree too much, but you know, those stiff and serious tree people will absolutely not allow others to enter their area to pick up the fruit of the ancestral tree, even if they are former comrades."

Lu Yang shrugged his shoulders with a smile, took a ancestral tree fruit from his backpack, and said, "Is this right?"

"Oh, yes, boy, this is the thing." Vals showed an excited expression, took the ancestor tree fruit, and handed Lu Yang a courier box, said: "I don't know what is inside, open him, you You will be pleasantly surprised."

Lu Yang smiled at the courier box in his hand. This was the most famous task of dismantling the courier in the last life. When I thought about it, this is the favorite place of all female players. .

I don't know how many male players have died, just to let my girlfriend, or my beloved girl, play the courier mission here for the sake of the size of the ancestral tree.

I have to say that women are really a magical species. Even if they let them unpack the courier in the game, they still enjoy it. One ancestral tree fruit can be exchanged for a courier, and they can tear them down for a day here.

Lu Yang was a little depressed about this task. He did not like to disassemble the express delivery. After thinking about it, she found Shen Mengyao and said, "Wife, this job is for you."

"Small meaning." Shen Mengyao looked at the 500 couriers in front of him, and his big eyes showed an excited look, and quickly opened it.

Lu Yang sat next to him and looked at it. It took only half a day for 500 couriers to be demolished successfully. Shen Mengyao showed an unexplained expression and said, "It's too easy. If there is such a thing, call me anytime."

"My wife is walking slowly." Lu Yang wiped his cold sweat, and quickly sent away the magical wife, looking at more than 60 demon cells in his backpack, and nodded in satisfaction.

The demon cell is a necessity for upgrading the highly toxic heart from an ordinary treasure to an artifact. In the official introduction, the highly toxic heart is derived from the cells of the founder of the Association of Poisonists.

10 demon cells can upgrade a highly toxic heart, and Lu Yang upgraded 6 highly toxic hearts in one go.

Toxic Heart

Level: Lower God Level 1

Power of God: 10 points

Intelligence of God: 10 points

God's Agility: 10 points

God's Stamina: 10 points

Physical Strength of God: 10 points

Poison Skill Level +1

With special skills:

Killing God's Poison Fog: Inflicts 50 points of God's Qi and Blood damage to the target for 30 seconds.

Killing God Poison Array: To kill God Poison Fog continuously, you must have 5 poisonous hearts to activate. The more poisonous hearts you read, the greater the scope of the poisonous array.

Lu Yang clenched his fist hard, all he wanted was this baby, and with this thing, he could quickly upgrade his rank.

So far, the elite monster of the next \*\*\*\* has only 2800 points of qi and blood, but killing the poisonous fog of the \*\*\*\* for 30 seconds can cause 1500 points of damage.

As long as Lu Yang chooses the right place and releases this God-killing poison array, he can let his players quickly upgrade their levels. As for the preferred target, Lu Yang chose the Wanshu Forest, because the ordinary ancestral elf blood is only 500 points. It can only resist for 10 seconds. This god-killing poison array is used in the Wanshu Forest with special terrain, which is no longer suitable.

He sent a message to the pride and said: "Bring 1,000 people over and the boss will take you to upgrade."

“Yes, I’ll be here soon.” The pride of the heroes is taking the players down to upgrade the level. In the last battle, the death and injury of the Blood Wolf Corps under his hands were too heavy. Basically, the levels fell below the lower gods.

Lu Yang sent him a coordinate. Half an hour later, at the entrance of Wanshu Forest, Lu Yang saw the pride and the thousands of players who were running fast.

#### Chapter 1849 - Blood Wolf upgrade

“Boss, I’m here.” Wan Zong saw Lu Yang from afar, and yelled to Lu Yang in the form of a giant wolf.

Lu Yang couldn’t help but smile and shook his head when he looked at the pride, and this kid was like an Erha in front of him.

Ever since the great pride and his 300,000 blood wolves have played their prestige in front of the world, players all over the world have realized that there is such a fast, bloodless legion in the game.

But as they became famous and hated their enemies, they gave the affair a nickname, called the evil dog legion. As the name was called by players around the world, fans who liked the blood wolf legion were furious. Immediately, they rectified their names for the pride and replaced them with the name of an iron-blooded wolf.

The two sides are arguing about the name so much that it has caused numerous scolding battles on the forum. When any party mentioned the evil dog army while discussing things, it immediately attracted a scolding, which led to a scolding battle.

Because the incident was getting louder and louder, the official sent a reporter to interview the pride and emotion. When faced with this question, the pride and emotion said with a smile: "I am not a blood-blooded wolf nor evil. Dog Legion, I am the boss's loyal dog myself, and the Blood Wolf Legion under my hand is the watchdog of the Brotherhood of Blood-Blood Brothers. Who wants to move the Brotherhood of Blood-Blood Brothers must first ask us whether 300,000 Bloodwolves disagree."

At that time, the reporter was utterly ignorant when he heard this. Who could have imagined that the great enthusiasm in the game was so great that in all the wars, he rushed for thousands of miles, winning less and winning more and more blood for the Iron-Blood Brotherhood. The head of the Wolf Corps, and at the same time, the number of fans in the game after Lu Yang, Zhou Tianming and Xia Yuwei, ranked fourth in the traffic king, actually described himself as such.

But when the reporter asked, she learned why she described herself with such pride and enthusiasm. At that time, his guild had lost everything. He even owed a lot of debt because of borrowing.

If Lu Yang did not save him, his parents would have to sell a house to pay off his debts. Therefore, he chose to commit suicide by jumping off the building, so as not to leave his parents in his later years.

But when he was about to jump off the building when he was finally watching the game that day, Lu Yang appeared, not only saved him, funded him to pay off his debts, gave him a lot of money, and also established the Blood Wolf Corps to let his men Cheer up again.

Since then, for four full years, all supplies of the Iron-Blood Brotherhood must have given priority to supplying his blood wolf army.

Equip them with the Blood Wolf Legion first to get and upgrade experience for Lu Yang to find a special place for them. Lu Yang will pay for the skill book for them, and even the subsequent bloodline upgrades are helped by Lu Yang.

Later, with the advent of the scrolls, the Blood Wolf Legion is like a fish, a tiger, and a tiger. This is not a heroic contribution, but the logistical work has provided them with enough. In each battle, the Blood Wolf Legion brings hundreds of The reel went out.

They have everything from resurrection scrolls to secondary banned scrolls, and even banned scrolls. Such a team can't win in battle. This is simply smashing with money.

What moved me even more was that Lu Yang did not exploit them, nor did he give them any advice. From the beginning to the end, Lu Yang treated the heroes and his players like brothers.

The earliest 10,000 blood wolves, which could only be called mad wolves at the time, were all assigned to a house in the game city of Donghai City.

Once they were just ordinary players, relying on games can not only feed themselves, but also feed their parents and wives, and their children can get the best education.

Not only that, the follow-up blood wolf players still have priority to enjoy these treatments. Perhaps their people are temporarily unable to meet the conditions for room sharing, but their children can go to school here.

Lu Yang gave Pang Chong and his blood wolves everything he could give, but Pang Chong and his blood wolves could give Lu Yang only normal war.

Now there is a voice out of the Iron-Blood Brothers as a whole, the number of people who are willing to be Zhou Tianming's second is countless, and the enthusiasm cannot be made into Zhou Tianming now, so he thinks that his Blood Wolf Corps is the gate of the Iron-Blood Brothers. dog.

After this incident was reported, there was an uproar in the world. When countless people thought that the Blood Wolf Corps would have a large number of players leaving the Blood Wolf team, they found that the Blood Wolf players enjoyed this title very much, and no one withdrew, and In an interview, I thought my boss was right.

The outsiders did not know that they knew their own affairs from their families. It was because they were too jealous in the guild. All the good things were provided by them first. Even the Phoenix Corps and Lu Yang of the Grand Druid Corps. Starbreaker archers, blood oath shaman and other legions are not as good as them, let alone describe them as loyal dogs, some people simply call themselves Erha.

The pride and enthusiasm are particularly satisfied with this title, so that he simply lives in the guild as Erha, and Lu Yang has some helplessness, but the advantage is that Liu Yunpeng and the lovely queen are not so jealous of the pride.

“Come back, I will take you out, do you want to lose face.” Lu Yang said with a smile.

“It’s an honor to be able to go out with the boss. It doesn’t matter what your face is.” Wan Zongwan returned to his human form and said blankly.

Lu Yang lost his laugh again, and took out five poisonous hearts from his backpack. He said, “Find five army commanders to follow me with the poisonous hearts.”

“Yes.” Wan Qing Wan waved his hand and came to the five legion chiefs, each of whom was a blood wolf with an Erha expression.

Lu Yang made them all humanoid without words, and led them into the depths of the Wanshu Forest. In an open space, after he had emptied the trees, he let the five regiment leaders take a poisonous one. The heart stood in the form of a five-pointed star, and said, “I count three two one, and you will launch the God-killing poison array together.”

“Yes.” The five said together.

“three”

“two”

“One”

“put.”

The heads of the five blood wolf regiments simultaneously opened the God Killing Poison Formation Suddenly, a thick green light emanated from the poisonous heart of their five people, and after each meeting, a thick green Pentacle pattern.

The system prompts: The killing \*\*\*\* poison formation is formed!

Originally, a poisonous heart could cover a range of 50 meters in diameter, and five of them added together, even covering a range of 2500 meters in diameter. The trees in it suddenly suffered 50 points of damage per second. A large number of trees He rushed towards this side, but before they ran to the neighborhood, they were all poisoned to death.

The system prompts: You got 300,000 experience points (killing the lower gods adds an additional 500,000 experience points!)

“So much experience!” The pride is a bit ignorant. At this rate, several of them re-raised to the next \*\*\*\* level, which is a day’s business.

Lu Yang said: “You let other people come and take charge of the monsters in the surrounding area. I go deep into the Wanshu Forest to attract monsters. I strive to explode several groups of poisonous hearts today, so that your players will be promoted to the lower position as soon as possible. God.”

“Yes, thank you boss.” Wanzong Wanzong’s face was excited. He knew that the 300,000 blood wolves under his hands would usher in a new opportunity.

## Chapter 1850 - Thousands of Poisons

Among the 1,000 blood wolves that followed, more than 100 people immediately ran over and followed the pride and enthusiasm to run around to blame.

Lu Yang also ran into the forest. Now he doesn’t need to fight monsters like he used to. He just needs to gather the monsters into the killing gods to kill them, so he opened it this time. The ember skill rushed towards the ancestral forest.

The fields of vision of the ancestors and elves are very wide. Lu Yang jumped in like this and was soon discovered by them. Suddenly, a large number of elves rushed towards the landing sun.

Lu Yang did not stop at the same place, but continued to open the ember skills to move forward. He ran to the depths of the ancestral tree forest for two kilometers before he ran back. At the same time, he brought back three or four thousand trees. People and elves.

"I'm dizzy, why are there so many." Wanzong Wanzhuang was just nearby. Seeing this, he quickly signaled the blood wolf players around to make way.

Lu Yang led these monsters to the depths of the killing of God's Poison Array. Not long afterwards, all the elves and the Shuren died.

Looking at the various transfer materials and wood skill books that burst out on the ground, Lu Yang said to Wang Wanzong: "Collect them together and hand them over to Tu Feng."

"Yes." Wan Qing said with great pride.

Lu Yang turned and rushed into the forest again, and then pulled out thousands of elves and treemen. In such a round-trip time, the number of treemen and elves deep in the ancestral tree forest has been reduced by 40,000 or 50,000. Unfortunately, the photo Compared to millions of elves and ancestors in the entire forest, this click to kill is nothing.

However, Lu Yang is not in a hurry. On the one hand, he is upgrading with his men, and on the other hand, he is also trying to obtain the fruits of the ancestral tree.

Tens of thousands of monsters have been killed here. The ancestral fruit in the area they control is only guarded by monsters near those fruits.

He took the pride and other people and quickly picked all the fruits back. There were more than 1,000 pieces in total. The pride and unrestrained asked: "Boss, what is this, so important."

Lu Yang smiled mysteriously and said, "This is a must-have item to make the Toxic Heart an artifact, but he also has another, even greater effect. Now I won't tell you first, you will know after a while."

He took these fruits back to the Heavenly God City, found the elders of the Poisonist Association, and exchanged more than 1,000 couriers again.

In order to dismantle the courier faster, Lu Yang bore Xia Yuwei and Qingqian Zimeng together, and then Shen Mengyao disassembled the courier.

A few girls broke apart, and more than a thousand couriers were completely demolished in less than three hours.

Lu Yang looked at the expressions of their girls who had been satisfied in life, and couldn't help but rolled their eyes. After they were busy, they used all 20 demonic cells to give the remaining 20 dramas. The poisonous heart is upgraded to the highly poisonous heart of the artifact level.

So far, Luyang's Wandu Formation has formed a small part, but this small part is enough for 10,000 people to quickly upgrade.

He returned to Wanshu Forest, watching Wanzong Wanzong still commanding the upgrade. He gave the other 20 poisonous hearts to Gaozong Wanzong, saying: "Available at a distance of 2,500 meters, I will get 4 more God-killing poison arrays out. ."

"My God, there are so many." Wanzong Wanzhao only knew how lucky he and his men were, and quickly ran with them to prepare.

Lu Yang looked at them as they were assembling and sighed. In fact, this venomous array requires not only the venomous heart, but also the addition of the venomous totem and the venomous spirit.

There are also three poisonous totems and poisonous spirits in his warehouse, which he had obtained after he broke through the main cities of several countries during the national war in the old continent.

Unfortunately, this number is far from enough. Normally, a country has a poisonous heart, a poisonous totem and a poisonous spirit.

There are more than 120 countries in the game, that is to say, 120 poisonous hearts, 120 poisonous totems and 120 poisonous spirits are needed to complete this poisonous array.

In the last life, someone once completed this feat, because the Wandu Formation was so powerful that the official had to modify the Wandu Formation, and it only appeared for one day, and then retreated behind the scenes. But the damage to monsters has not been reduced much, but the damage was much lower when hitting people.

Lu Yang felt that he could try to gather the Thousand Poison Grand Array. It happened that his spies already knew a lot of similar news. He could try it, but if he could buy it with money, he decided to use it first. Buying it with money saves at least a lot of trouble and won't be criticized by too many people in the game.

Without him, Lu Yang's control of the area is too large. He has almost become the king of the new continent. As a king, he also wants to \*\*\*\* the poisonous heart in the hands of ordinary players. Give others an overbearing impression.

What Lu Yang needs to \*\*\*\* is still the poisonous heart in the hands of foreign players. If you are not careful, you may cause a riot in the foreign player area because of a poisonous heart.

After thinking for a while, he took a phone call to Tu Feng and said, "Purchase the Toxic Heart, the Toxic Totem and the Toxic Spirit in the name of a hidden account. Don't care about spending as much as you want."

"Okay." Tu Feng said.

Lu Yang now has money in his hands. He is not afraid of wasting , and even if he has no money, he can go to Steig and Radvedev to get the money.

The two are now in a very bad state. Radvedev is in a state of suppression, and Steiger is also in a state of suppression. Now the only way to break the deadlock on both sides is to enter the field to fight.

But Lu Yang and his men have done tactical simulations. If Lu Yang now helps Radvedev to deal with the Sanyouweimen, the ending must be Steiger and Liu Jie to stop the war, and the two men will leave the Sanyouweimen area to help the three friends. Wei Men attacked the Brotherhood of Blood.

If Lu Yang wins in the end, the only possible outcome is that Radvedev raked in, and while the Iron-Blood Brotherhood is weaker, give the Iron-Blood Brothers the strongest blow.

Lu Yang didn't want to find this trouble for himself, so he would rather watch the two sides fight for life and death, and finally win the game equally, he will fight the winner again, so that the odds are still bigger, at least, he can know how You can win. If you join the war now, everything is unknown, which is too inappropriate.

While Lu Yang was thinking about these things, on the World Channel, Tu Feng's trumpet sent out news of the acquisition of the Venomous Heart, Venomous Totem, and Venomous Spirit. For a time, the entire world made a mocking voice.

Chapter 1851 - Rich Steig

"Oh, there are people who want artifacts!"

"Funny, is it a joke? The poisonous heart can still hurt."

"As the next god, I want to feel the power of the poisonous heart."

"Poor, once an artifact, now garbage."

...

Players ridicule wave after wave on the World Channel, but this is not to blame them. Recall that the highly toxic heart was so frightening in the old continent.

In any national war, the figure of the highly toxic heart is indispensable. At that time, the gold did not change the poison and killed the multinational fleet to grab the ship. A poisonous fog snatched many large ships worth millions of cash.

In the later period, players from all over the world followed the example, and the highly toxic heart that rose to level 8 or higher in the anemia of the Old World era was also famous for artifacts such as Devil's Heart and Thor's Heart.

Unfortunately, in the New World period, the player's blood volume was calculated in millions and tens of millions. Players with so much blood volume made the highly toxic heart lose his original power.

In the early days of entering the New World, guilds with a highly toxic heart can also use it to \*\*\*\* some sites, but slowly when players reach level 110 with dark gold equipment, when they use the toxic heart again, they have been met The thief sneaked into his side and assassinated.

It is conceivable that even thieves can break through the poison fog and rush to their side. How low is the damage of the highly toxic heart for players.

Therefore, from the 110th level to the 180th level, for three consecutive years, the poisonous heart has been in a silent state, and almost no one has discussed the problem of the poisonous heart.

At that time, an artifact worth 200 million credits, or even 250 million credits, in the past three years, no one bought it when the value dropped to 20 million.

Many holders can only comfort themselves while scolding their mothers. When the poisonous heart is a souvenir, it is placed in the most corner of the warehouse.

Some people are now buying on the World Channel, which makes many players with a very toxic heart ecstatic, and the second reaction is to wonder if there is any other use for the toxic heart, but the New World is so big to accommodate The map of the next 4 billion players, where do these people with poisonous hearts find this use?

Therefore, many people contacted Tu Feng's trumpet for the first time. When discussing the price, Tu Feng simply lowered the price to 15 million credit points. In less than a week, he bought 10 highly toxic hearts, 30 poisonous spirits and 55 poisonous totems.

The huge amount of expenditure made Lu Yang feel the pressure instantly. On this side, he hit the ancestral tree fruit for a synthetic poison weapon in the past few days, and continued to increase the number of players who have enthusiasm. The other side, he aimed his attention at the Steiger engaged by Liu Jie.

"Boy, I heard that you haven't been in a good fight recently. Do you want to buy some lower-level \*\*\*\* materials to ensure quantity and quality?" Lu Yang looked at Steiger in a special space.

The battle between Steiger and Liu Jie has been going on for almost a month. The two sides have no difference in victory and defeat, and no one can do anything. The key issue is here in Luyang. If it was not Luyang who gave Steiger a batch of equipment, Stey Ge was finished.

But now Steiger is very annoyed with Lu Yang, not a general annoyance, it is the kind of annoyance of looking at Lu Yang for a meal. Every time I meet, Lu Yang asks Steiger for money, but every time Lu Yang Come to him, they are very accurate, when he needs help most.

"Did you get any news?" Steiger frowned. He had just got the news. The dark samurai group behind Liu Jie rushed day and night to provide Liu Jie with a batch of more than 10,000 people.

So far, in the comparison of the number of lower gods between Liu Jie and Steiger, Liu Jie is 100,000 and Steiger is 80,000. Except for the initial anxiety on both sides, they are now fighting for logistic forces, depending on who Can endure each other.

Liu Jie has almost no money under his hands. A large number of African tribe players work for Liu Jie in the game for free. They are true fans of the game and are subject to the control of the tribal chiefs. As long as Liu Jie gives enough protection to the chiefs below, they can be exchanged back Their unconditional support.

On the other side, Steiger is really rich, and the investors behind him have become Deutsche Bank. Steiger has changed from 40% to 3.23%, including Daniel and Blood Butcher, among others. Most of the

stocks were paid off to Deutsche Bank. Now it is equivalent to Deutsche Bank fighting Liu Jie. In terms of money, Steiger has a lot of cash to squander.

Lu Yang took a fancy to this point and found Steig, rubbing his hands and said with a smile: "Would you like a 50,000 sets of lower \*\*\*\* equipment, I will sell it to you cheaply, it will cost 1 billion euros. I killed Liu Jie."

Steiger thought Lu Yang wanted to sell him 10,000 sets of 10,000 sets. He didn't care much. He suddenly heard Lu Yang set him 50,000 sets and suddenly looked at Lu Yang in surprise. you sure?"

Lu Yang said with a smile: "Of course sure, but we have to have a condition."

Steiger knew that Lu Yang was not so good at talking, and asked: "What conditions?"

Lu Yang said: "Within half a year, you and I can't fight."

Steiger frowned and said, "What do you mean?"

Lu Yang said: "Simple, I gave you 50,000 sets of materials. You have more subordinate \*\*\*\* players than me. You suddenly have a truce with Liu Jie. The two teamed up and beat me. My The League of Iron-Blood Brothers is not finished."

Steiger sneered and said, "Do you think that Liu Jie and I can fight like this?"

Lu Yang said: "Don't be so absolute, we are not ordinary players anymore. It is more appropriate to say businessmen. There is a deadly hatred between businessmen. I have to guard against it. Give a happy word, this matter is not for you. The bad, do it or not."

Steiger took a closer look at Lu Yang and found no problems. After thinking it over, he nodded and said, "Okay, I promised to sign a contract with you, but the same, you need to send the equipment immediately. Without any delay."

Lu Yang said: "This is natural, you have the money ready, I will send all the equipment, we settle it once, and sign a good contract at the same time."

In this transaction, Lu Yang really did not hang Steiger, his purpose is simply to make money, to say that there is a little idea, is to hope that Steig and Liu Jie rush to a war, let both sides The player's level is lower.

The Battle of the Iron-Blood Brotherhood was too tragic, and now the materials and equipment for the promotion of the next \*\*\*\* in the guild are almost 100,000 sets, and only 30,000 are available to players, and the remaining 70,000 sets are idle there.

It's not that he doesn't want to give it, but that his players have insufficient levels and want to wait for them to return to level 180 in large numbers, at least half a year.

Including the current situation, the number of players in the Iron-Blood Brotherhood is still under the gods, only more than 30,000 points.

Of course, although the number is small, these more than 30,000 people are veterans of a hundred battles. The strongest among the gods below, Lu Yang depends on them for his equipment.

Here, 50,000 sets of equipment and materials were taken. Although some injuries to the Iron-Blood Brotherhood, it was very minor, and Lu Yang could bear it. In this case, Lu Yang decided to complete the transaction with Steiger now.

At the moment, the two signed a contract. In the hotel in Tianyu Shencheng, Lu Yang gave Steiger the 50,000 sets of materials and equipment, and Lu Yang received 1 billion euros in cash. The cost of the heart not only makes up for it, but also has a lot of surplus.

Chapter 1852 - Zhou Tianming's difficulties

In the live room.

“There was a fight, there was a fight, the battle between Steiger and Liu Jie was fought again, and Steiger suddenly had 50,000 more gods.”

“Unbelievably, Liu Jie is going to collapse this time, and Steiger is going to win this time. There are 30,000 more subordinate gods and 30,000 more subordinate gods. This plays a decisive role in the current war and is absolutely decisive. Works.”

...

When the major anchors roared wildly, Lu Yang Youzai withdrew from the live broadcast room. He knew that the fight between Steiger and Liu Jie was finally started. It is estimated that this time he had such a big advantage. Tiger, won't give up the offense easily.

However, it was not so easy for him to kill Liu Jie. From the spies, he learned that Liu Jie had accumulated a lot of materials like God of Thunder, and the war on both sides would not end in a short time.

Lu Yang looked at the war between Sanyouweimen, Roland and Radvedev on the other side. Both sides were still fighting. After the pain in the early days of the war, Radvedev had eased. Both sides were in Radvedev. Engage in war across the vast land of the region.

Judging from this situation, Lu Yang does not need to do anything for the time being. He gave the 1 billion euros of cash to Tu Feng to let him continue to buy the highly toxic heart.

On the other side, the 10 poisonous hearts, 55 poisonous totems and 30 poisonous spirits that I bought this time were upgraded to the artifact level by Lu Yang. The materials for the totems and spirits were also given from the Association of Poisonists There is no trouble in opening the box.

At this point, Lu Yang had 120 poisonous artifacts in his hand. Looking at these artifacts, Lu Yang couldn't help but reveal an excited look.

Tu Feng asked curiously: “Boss, even if this poisonous heart reaches the level of artifacts, it will soon be eliminated. I haven't seen how useful you are to buy them.”

Lu Yang smiled at him and said, "Follow me and show you a special formation."

Thousands of poisonous arrays, according to official historical records, if you want to launch this large array, you need 360 highly toxic artifacts, divided into three directions, forming a triangle.

At each point of the triangle, exactly 120 poisonous hearts are needed, that is to say, although Lu Yang can't form a large poisonous formation, he can form one of the sub-branch formation methods of the poisonous formation-Poison God Formation.

The layout of this formation is very simple, requiring only one. How to connect 120 players with highly toxic artifacts to allow them to connect when they release the highly toxic poison.

When these poison fogs are connected, the poison fog damage stacks up, such as a normal five-person slain God Poison Array. The damage caused is 50 points per second. For each additional God slain Poison Array, which is five players, the damage increases. 10 points, but the premise of this increase must be 120 talents with poisonous artifacts. If it is Lu Yang, there were only 25 poisonous artifacts before, and they cannot be superimposed.

In the last life, although no one from the Thousands of Poisons succeeded, many of the 120 highly toxic hearts had come together one after another. Because of the seizure of highly toxic artifacts, the major guilds started a large-scale \*\*\*\* battle. .

At that time, because of the design of the poison \*\*\*\* array, it also caused players to scold on the forum. Some people thought that the plum blossom array should be used, and some people thought that the gossip array should be used.

Among them, the most used is the Eight Diagrams array, that is, the poison \*\*\*\* array is not used before, and when the enemy enters the encirclement circle, with the two groups of players in the middle as the double center, the periphery quickly forms the poison \*\*\*\* array.

Lu Yang does not need such trouble to fight monsters, but it is still necessary to practice the formation method, which involves the problem of who controls the highly toxic artifact.

"Dididi"

The sound of the talker rang. Lu Yang picked it up and found that it was Shen Mengyao. He was a little surprised that Shen Mengyao rarely called during his game because Shen Mengyao knew that Lu Yang must be challenging a difficult monster. Distracted, there should be something happening this time, he pressed the call button and asked, "wife, what's the matter?"

Shen Mengyao said: "There seems to be something in Zhou Tianming's side, and has been sullen recently. We asked him, and he refused to say again."

Lu Yang frowned and asked, "Do you know what it is?"

Shen Mengyao said: "We asked the people around him, but the people around Zhou Tianming refused to say anything, only you came."

Lu Yang nodded, called Zhou Tianming directly, and asked, "Has something happened recently?"

Zhou Tianming was stunned for a while, and said a little stupidly, "No, nothing."

Upon hearing this, Lu Yang knew something was wrong and said, "You and I are brothers. Say something. Our guild has become so powerful. I don't think you have anything about the guild. I am the boss and I will help you solve it. No way."

Zhou Tianming froze for a while, did not speak for a while, Lu Yang did not worry, just waited on the phone, his relationship with Zhou Tianming has far surpassed the friendship between friends, can be entrusted to life and death brother.

Zhou Tianming's business is his business. He can call Zhou Tianming to say that if Zhou Tianming thinks that Luyang can do it, he will definitely say, if not, he will discuss with Luyang.

Sure enough, Zhou Tianming still spoke, saying: "Boss, I don't want to cause you trouble, it's my original thing."

The players who followed my betrayal at the time, I used the thunder method to expel them all from the guild. Although they were sorry for the Blood Brotherhood, they didn't sorry for me. Now most of them are having a hard time. Many people find Me, but I..."

Lu Yang understood that no wonder Zhou Tianming would be so embarrassed, and he didn't tell himself immediately when something happened, it turned out to be the traitor's thing.

At that time, these people were mainly divided into three major categories. The first category is those who believe that Zhou Tianming will follow him as long as Zhou Tianming speaks. The second category is speculation, who want to take advantage of opportunities to seek higher positions and prosperity. The three types are people who have no conscience. No matter how good you are, he does not appreciate you. Betraying you is as simple as turning around.

After Zhou Tianming announced that he was a betrayal, these three types of people followed his heart and returned to the gang, but were greatly excluded and many people withdrew from the gang.

The speculative and unconscientious reorganization of the guild took part of the domestic players to participate in the war between Gertz and Tom, but they followed Tom with no sight, and were sent to the frontline by Tom. They did not wait until the war between Lu Yang and Tom. Just in the first battle between Tom and Gertz was beaten.

Later, these people experienced the exclusion of Tom's men again, and then ran to the Gerz area. As a result, they were no longer seen in the Gerz area. The guild was completely disbanded, and these people were scattered in the Gerz area.

The demise of the guild makes ordinary players who follow them more confused. In fact, the victims of this incident are ordinary players of the Brotherhood of Blood. Those high-level runners who ran and escaped, although they also failed, they themselves occupied a lot of resources. There will not be too much loss in exiting the game, but ordinary players will be miserable, and there is no source of income originally. In this way, after a few wars, their lives are even more difficult.

Lu Yang said: "I set a tone here, all players who have experienced your event, no matter what happened afterwards, they are all players of the Brotherhood of Blood, and the Brotherhood of Blood will open the door, if they are willing to come back, I will accompany you to welcome them back."

“Boss.” Zhou Tianming didn’t expect Lu Yang to be so generous. He didn’t know what to say for a while.

According to common sense, with Lu Yang’s status today and such a huge family property in the game, a small Zhou Tianming is already a man who can be put into the cabinet at any time, or even directly removed, but Lu Yang has even returned to him. He was so moved by such sentimentality.

## Chapter 1853 - Game Tuntian

Lu Yang asked: “Tell me about it, what’s the reason they are looking for you recently?”

Zhou Tianming sighed and said, “Some people are sick, some people fail business, and some people have difficulty finding me at home. But the boss, you know, my money was already subsidized to many brothers. I can’t manage it. Now.”

The 17 million full members of the Iron-Blood Brotherhood, of which 2 million are completely under the jurisdiction of Zhou Tianming, this is 2 million people, everything is there. Zhou Tianming, who works for justice, sees no subordinates suffering from poverty and suffering. His salary and dividends Most of them were given to the brothers.

Not only him, but also Xia Yuwei, Zhuojiu, and the White Lion. This is especially true for those whose family members are ill and looking for them to borrow money. It is not uncommon for them to borrow one hundred and eighty thousand at a time.

Lu Yang feels that he should set up a special team to make money. In the war between him and Gertz, don’t the parties throw tens of billions of euros in the game every year to conduct simulated combat?

Dozens of countries add up to hundreds of billions of euros. The official used this money to open a new player called the Sims series.

In fact, the purpose of this series is to give players in the game a way to make a living. It is not that in this era of population explosion and large numbers of machines replacing human work, humans have no room for survival.

According to the official plan, players participating in The Sims can work in the game for 12 hours a day and get a minimum of 10 euros in cash.

It seems that this amount of money is very small, but it can meet the needs of a variety of materials that a human needs in a day. If you are willing to work for 18 hours, you can also earn an extra cash of about 4 euros. A player desperately spends a month in the game. Not only do you have no problem eating yourself, but you can also have a normal life outside the game.

As for the work in the Sims, it is simply such jobs as planting flowers, planting trees, breeding, mining, errands delivery, and dart delivery.

Since the beginning of this activity, there has not been a good way to make money. Most players can't stand this 12-hour boring life. Only a few people can stick to 12 hours a day, and most people do four or five hours. Just tired of running out to upgrade Daguai.

The reason why Lu Yang wanted to do this project was that in the last life, the president of a Chinese guild put forward a famous theory of making money called the game Tuntian Theory!

This is a theory that if a large number of players in the game work together to make money, they can also use some of the funds to supplement the guild.

Take fishing as an example. A player who fishes for 12 hours normally earns about 10 Euros. When he is young, it is only 8 Euros, and when he encounters adventures, it is only about 12 Euros.

But if 10 players work together to fish, they can earn about 15 euros per day. Of course, no one can mess with them, and no one can kill them maliciously. If such a problem occurs, they will not even earn 8 euros.

Just because someone is making trouble, a large guild can do much more. The guild sends people to protect these fishing players and only charges a small amount of protection fee, so that they can safely fish in an area.

Many of these profitable fishes require special experts to catch special bait to catch them. If you catch such fishes, you need the cooperation of 30 or even 50 people. The average person's daily profit can be increased to From 30 to 50 Euros.

The guild can also allocate resources reasonably. If there are more players fishing, let others grow crops or farm, because the price of aquatic purchasers will decrease with the increase of fish.

The area controlled by the Iron-Blood Brotherhood is very, very large. Two-fifths of the entire New World. If Lu Yang wants to build several such areas, it is not too difficult.

Lu Yang told Zhou Tianming: "In this way, those players whose parents are seriously ill will be sent to our hospital in batches, and the hospital will be treated for free.

As for the family who are struggling with life, all go to the black yarn area. The guild has invested heavily to open the Sims Tuntian system to ensure that they make more than 20 euros a day and want to make money. "

Zhou Tianming looked at Landing Yang in surprise and said, "Don't be brave, boss, this is too much a burden on the guild."

Lu Yang shook his head with a smile, and said: "The early burden is quite large, and it is also an effort that is not very pleasing, but since the brothers under the money are lacking, we can't watch them suffer, not just yours, I It will also open up the system to all members of the Guild. You tell Xia Yuwei and Zhuojiu that they will all gather at the Blue Island Fortress."

"Yes." Zhou Tianming moved to call.

Lu Yang returned to the game, took out the teleportation reel and flew to the blue island fortress, standing on the city wall, looking at the endless sea in front of him, he could not help but sigh, soon, this sea area will be occupied by countless players, People everywhere are fishing and doing business.

He took the phone and called the official director, asking: "Since the fishing system is out and the fishing boat is open, can the warships I bought were used as fishing boats? You can't bully people too much."

Officials have always owed to Lu Yang for the last war, and they even owe it to the Iron-Blood Brotherhood. They know that if this matter no longer meets Lu Yang's requirements, it is likely that Lu Yang will trouble them.

For a player who has such a great influence in the game, the official does not want to tear his face too much. Therefore, the official has already made predictions about the requirements that Lu Yang may make.

"President Lu Yang, we can meet your requirements now. You can ship all your warships to this sea area and use them as fishing vessels." The official director said with a smile.

Lu Yang couldn't help rolling his eyes. He found that he was still too tender. This group of people was fine every day. He just hung up the phone and was too lazy to take care of this group of people.

Pieces of light shone.

Zhuojiu and the White Lion appeared beside Lu Yang, and everyone bowed together and said, "Boss."

Lu Yang looked back at them and said, "Follow me to the beach, and I tell you what it means to Tuntian."

Just now Zhou Tianming had relayed Lu Yang's words to Zhuojiao and others. A group of people all understood the general meaning of Lu Yang and came to the seaside with Landing Yang.

Lu Yang opened the Sims system. In a special system bar, a warship appeared. These were all the warships that Lu Yang followed him to fight in the old continent to conquer the world.

There were more than 2,000 ships in total. Looking back on the naval battles, Lu Yang felt another wave of emotion. His arm waved and a black pearl appeared in front of him. He led the crowd to jump up.

“Isn’t this the Little Black One, boss, you brought him over.” White Lion said with an excited hand stroking the black pearl’s ship board.

Lu Yang said: “The official owes us, in order not to let me find their stubble, gave us a green light, first transferred all the warships we left in the war, now all in my Sims system In the column.”

“I miss them so much.” White Lion said with a smile.

Lu Yang said: “I came to you today to prepare to promote the Tuntian system. I will first teach you how to cooperate in fishing. Today we have a total of 30 people here and we will start catching big fish.”

He bought the bait from the official, in fact, this bait can be found in other waters, but it is hard to get up and sell it alone. If there is a large-scale fishing like Luyang, At a loss.

Lu Yang purchased 30 guns from the official, and said, “Everyone gets a gun. Once they hit a big fish, listen to my order to fire a harpoon together, and then we will catch the fish together.”

“Oh~!” Xia Yuwei and Zhuojiu and others felt very fun, and they shouted one after another, and landed with the sun.

The big ship needs someone to control it. Normally, there is a person who is responsible for the lookout. One person is responsible for sailing, and someone needs to control the sails. It is very cumbersome.

After half an hour.

The ship came to a blue sea, the sea was vast, and no land could be seen around. Lu Yang threw the bait in his hand. Soon, a giant 30-meter-long marine fish jumped out of the water and swallowed the bait in one bite.

“shooting”

Lu Yang shouted, 29 people fired harpoons at the same time, and they were hit by 29 harpoons without waiting for the big fish to fall into the water. Lu Yang launched when the big fish fell into the water. The ember skill came to his harpoon position, and launched the skill to hit the last harpoon with the body of the giant sea fish.

Chapter 1854 - No less than one

“Pull together, pull the big fish up.” Lu Yang shouted.

Thirty people work hard together. This kind of cooperation no longer needs Lu Yang to be able to remind. Everyone has a spirit, as if acting alone.

For six years, Zhuojiu and the White Lion are like Lu Yang’s left and right hands. Even with a look or even an action, everyone knows what to do next.

“Bang”

The big fish was easily pulled out of the water and thrown into the cabin.

“It’s that simple,” the lovely queen said incredulously.

Lu Yang said with a smile: “Try to switch to other people. The uncoordinated movements will make it difficult for big fish to pull up. And this is the cheapest big fish. Good fish need good bait, and there are 10 other people. You can only pull him up by attacking the big fish with a steel fork. Such a fish is really valuable.”

The big fish caught this time is only worth 5 euros. 30 people fishing for one day can only earn two or three euros more than one person. It is also laborious. If there is a mistake in the middle, it will cause misunderstandings.

Zhuojiu and Baishi and others knew too much about these things, and nodded their heads in unison. Zhuojiujiu said: "We first use the official players as a field test, let those players who work together all year round, 20 copies and 40 Team players of the human copy team do fishing, and they cooperate well."

Lu Yang thought for a while and said, "Yes, let's leave our main players first, and when it's time to graduate and work for a year, there must be a lot of people who need to quit the game to work and earn a living, if this job can make a lot more money than they go to work, Then fight for the brothers to stay, and I will find a way to feed them."

"Uh." Zhuojiu and the White Lion each contacted each other by sending a message.

Guild Channel Zhuojiu's eyes: The first regiment of the First Corps quickly flew to Blue Island to report.

Guild Channel White Lion: The first regiment of the Second Corps quickly flew to the blue island to report.

...

The first and sixth legions of the Iron-Blood Brotherhood were the earliest 60,000 players after the establishment of the Iron-Blood Brotherhood.

Although there have been new additions after years of withdrawal, the first regiment of each legion is always the earliest group.

Some of them are special. In fact, there are many old players like them. But the capable ones have already become the head of the regiment and the legion, and even the head of the big army. They are good people, but they are not good for command. All attempts made the team messy.

There were even accidents on several occasions. If it wasn't Zhuojiu and Baishi, their vice presidents, if Luyang really cared about them, these people would have been expelled from the guild.

In order to resettle these people, Lu Yang is benevolent. Although they are allowed to do the work of ordinary players, everyone has given the position and salary of the captain.

That is to say, even if these people do not work, they can still get a salary. Although the money is not too much, they can live a life. However, they are now over 24 years old, and they are also faced with future survival problems.

Now they are still the absolute main force on the battlefield, but four years later, can they still have the strength of today? Therefore, many of them are thinking about whether they should go out to work and no longer drag Luyang.

Inside the copy.

A 40-player team of old players are sitting together and chatting. They are all over 22 years old. When they chat, they are always very happy, especially in the battle with Gerz. It was hearty, but today, they are very dull, with sadness on everyone's face, 40 people form a circle, and everyone still has a bottle of wine in their hands.

"The boss now owes more than 30 billion euros, and still feeds us every day, it's really not a taste in my heart." Captain Qing Mianhu said with exclamation.

"We have been favored by the boss for 6 years, I think, we should go, don't drag on the boss, such a big game city, how difficult it is to feed so many people, but also support our group of old guys." Deputy Captain If there is nothing to say.

"Alas." Everyone sighed when they wanted to say anything.

A player named Tianzhen said: "I'm thinking about this recently too. Have you heard that there is a community nearby to recruit security guards and give more than 3,000 yuan a month, otherwise we will go to work there during the day."

“Haha, the murderous madman in the game, the war madman who has been fighting for 36 hours in a row. In reality, if you want to be a security guard, are you willing to go?” said Ai Jiaxue, who was next to the treatment.

Tian Hen smiled freely, and loved to add blood and said, “What is it, how about we go together? I am standing outside. You are pretending to give me blood inside, and I can stand for 36 hours.”

As soon as the words fell, the green-faced tiger and Ruoran Wu’s tears blew down. The two broke down and wept bitterly. Their six-year-old brother, the brother who had not yielded once in the game, now even To succumb in reality, the green-faced tiger and Tianhen hate to find a ground seam to get in.

“Don’t cry, two bosses.” Tian Hen smiled freely and said: “If it weren’t for our brothers, you two would have gone out to lead the team to become the head of the army or even the head of the army. Our old brothers dragged on. You two.”

At the beginning, these thousands of people have made great contributions, and no one newcomer can take them. Only old players and their old bosses can control them. The green-faced tiger and Ruoyou Ruwu and several other regiment leaders took the initiative to initiate this task. Also delayed their development.

“If you say this again, believe it or not, I will kill you.” The green-faced tiger scolded before he could wipe his tears. He was willing to pay more attention to his brother than to make money and merit, rather than making so much money, rather Not famous, but also with the brothers.

He cried and said, “You are gone, and I will definitely go. The brothers are all gone. What do I do if I stay alone.”

“I’m wrong, I will punish myself for a cup.” Tianzheng hammered the green-faced tiger’s shoulder hard and took a sip.

The mage Cang Yan next to him did not expect that the atmosphere would become so dull. He deliberately adjusted the atmosphere and said with a clenched fist: “I didn’t know how to say goodbye to everyone. It turns out that everyone has already thought about this problem, so I will take a step first. Recently, my family contacted a steel factory for work. Brothers and brothers, I will go to the steel factory to make blast furnace later.”

“You are a fire mage who makes blast furnaces, and you will find yourself alive.” The green-faced tiger scolded, crying and laughing, but he was even more sad.

“Hey, then I said that too. My dad asked me to go home as a cook. I’m afraid there will be one of me among the people who leave this year.” The thief chopper on the left said.

...

Everyone around opened the conversation box, one-third of them were ready to leave, and their work was finished. Tianhen thought he was the only one who was going to leave, but he didn’t expect that so many people were going to leave. The sentence of separation has been held until today.

“Brothers, on the day of our parting, we must drink without getting drunk. This time, we will meet again next time, but we don’t know what year, my brothers.” Lived, and burst into tears.

If there were Ruowu and Tianren and others who originally wanted a decent separation, they could be made by the green-faced tiger, and all cried with the collapse.

As there are more than one situation on the side of the green-faced tiger, the old players of one to six legions, in this graduation season, they are more painful than the separation of their classmates. Many people are similar to the green-faced tiger. problem.

At this time, these people received orders from their respective vice presidents.

“Strange, why did the boss find us at this time.”

“Blue Island hasn’t been there for more than two years. What are you doing there?”

“Go away, hurry up, there must be something big for the boss to call.”

...

For a time, thousands of people flew into the fortress of Lanlan Island and walked out of the south gate of the fortress. The front is the sea. In an instant, many people's red eyes lighted up.

"Black Pearl."

"My marauder."

"Jihad, did you see that? It was my Jihad. I drove him to kill many enemies. How did the boss get these old antiques out."

...

Everyone was excited to run towards their warships. At that time, they were driving these warships and desperately fighting with players from various countries. It was also because of them that they defeated the siege of various countries and entered the new continent for the Predator Brothers. Advantages laid the foundation.

Lu Yang and Zhuo Jiu and others smiled and watched these excited players, stroking their hands admiringly, and waited for their excitement to pass before they saw Lu Yang and Zhuo Jiu and others standing on a stone not far away.

"set."

"After a while, let's go to the boss first."

...

They were really close to Lu Yang, Zhuojiu and others. Otherwise, they wouldn't expect to leave the Iron-Blood Brothers Alliance and a group of people ran around to Lu Yang.

Lu Yang waited for them to be quiet, and said with a smile: "Old folks, our group of people haven't sat and chatted together for a long time."

Everyone was recalled by Lu Yang's remarks, wasn't it? The guild was from scratch, and now it is so huge, they are all experienced people, but when they think of themselves, they are a bit sad like the outsiders of this huge organization. .

Lu Yang was keenly aware of the change in the expression of everyone, staring at the green-faced tiger and asking, "What happened?"

The green-faced tiger reacted violently, and the group of them was going to negotiate with themselves, and they would definitely not tell Lu Yang to add chaos to Lu Yang.

He scolded him for being stupid, and said with a deliberate hey smile: "What's the matter, our old brothers are good."

Lu Yang raised his eyebrows and stared at the green-faced tiger. "Is it right? I have been with this boss for six years. I haven't seen any changes in your expressions since you have been with each other for six years. Hurry and say, start with you, don't say anything, See how I clean up you."

The green-faced tiger was ignorant. He was most afraid of Lu Yang talking to him like this. With six years of support, he did not dare and would never lie in front of Lu Yang. Let him say, he...

"Boss, we, we have just discussed withdrawing from the Jagged Brothers League to find a job." Green-faced Tiger told the truth.

Lu Yang almost didn't catch his breath in a single breath, his eyes turned red, staring at the green-faced tiger, and the people around him. No one dared to face Lu Yang. They were not ashamed, but said See you soon.

"Okay, I've grown up. I came out to fight the world at the age of sixteen or seven. Now that I'm grown up and my wings are hard, I want to go out and do it by myself?" But don't, and anger his useless.

The green-faced tiger's tears fell down, crying and said: "Boss, 30 billion euros in debt, the brothers don't want to make you upset."

"Nonsense." Lu Yang directly interrupted the green-faced tiger, staring at the green-faced tiger and scolded: "Your kid doesn't grow his head and grow old. Isn't it? Your gang left, and my money can be paid back Got it? Am I a bit short of nine cents?"

"But!" The green-faced tiger still wanted to speak but dared not say it again. He was afraid Lu Yang was sad.

Lu Yangqiang endured his anger and said: "I came to you today because the Guild has a new plan called Tuntian. According to my method, I can make each of you earn about 40 euros in the game every day for a month. It is 1,200 Euros, which is converted into 12,000 credit points.

Boss, I put my words here. If you find a better job than this, I let you leave without stopping you from getting rich. Otherwise, you will stay with me and no one will leave. "

The green-faced tiger was a little ignorant and blinked and asked: "Boss, the life profession in the game only earns up to 100 yuan a day. What are you doing? You can earn so much, won't you subsidize us again? , Let's not."

Lu Yang was anxious and pointed to the team of Green-faced Tigers, scolding: "Everyone boarded the boat with me and opened video sharing, letting you see for yourself how to make money."

The green-faced tiger and Ruoyou Ruowu and others hurriedly landed behind the cat with their waists and cats. Among the ten people traveling together were muddy wine and white lion.

As before, Lu Yang led the green-faced tiger. They caught a big fish, and told everyone how to sell the fish and how to make money in the live video. The green-faced tiger and others realized that Lu Yang really found them. A road to making money.

"Boss, I won't leave, so I'll follow you." Green-faced tiger faced Lu Yang's gaze, quickly scratched his head with a laugh.

Lu Yang shook his head, pointing at him and said, "The last time, I dare to do something without telling me to make a decision first, to see how I clean up you."

The green-faced tiger smiled all over his face, but he was very moved.

Lu Yang pulled these people into a group alone, started a voice call, and said: "Try fishing, keep a sufficient distance apart, I don't need to teach you, there is one more thing, 10% of your money You can't pay them all. This is the protection fee."

Everyone laughed, if everyone can earn 40 euros a day, what about 4 euros? There is still more than 10,000 credit points in a month. This salary is more than the deputy chief of the general company. This is still the case. Their favorite cause.

"The boss is assured, we must deliver on time." Green-faced tiger shouted standing on the bow.

Lu Yang was too lazy to take care of these gangsters and left them with muddy wine. The follow-up was easier. There were thousands of warships, enough for more than 100,000 people to fish, except for the first 6,000. He specially approved 500 ships to Zhou Tianming, and the remaining vice presidents divided the remaining ships equally.

## Chapter 1855 - Safeguard plan

Once the guild hall in this fortress was the only guild hall of level 7 in the Iron-Blood Brotherhood. Now it has been upgraded to level 9 and reached the highest level.

Perhaps it is the official encouragement to engage in life occupations on the scale of the guild. If the guild hall reaches level 9, you can apply for several new buildings. This is also a new item after the Sims documentary comes out.

The first one is called the acquisition station. Players can establish an acquisition station in the fortress where the 9th-level guild is located, and hire specialized acquisition personnel.

The role of the acquisition station is very large. The acquisition station of the fortress can greatly shorten the distance for players to buy and sell items. Taking the player without the acquisition station of the fortress as an example, they need to fly back to the Heavenly God City with the supplies after fishing. Ran to the official acquisition station location sales.

Tianyu Shencheng is too big. If you want to run from the teleportation array, it will take about 20 minutes to ride the horse, but the fortress is different. Luyang clicks on the construction interface and directly establishes the aquatic product acquisition station on the left side of the teleportation array. 100 meters away.

This is equivalent to allowing the players of the Iron-Blood Brothers League to sell aquatic products 20 minutes in advance, and the price of aquatic products fluctuates with the number of sales. If you sell too much, the price will drop. It is the first time after the refresh to sell the price of aquatic products to the highest level, and there will be no loss.

The acquisition station was built here, and Lu Yang then built a mission station called a signboard, just 50 meters away from the aquatic product acquisition station.

There will be a lot of emergencies during the fishing process. For example, when you meet an old man and buy some fish, some pirates want to exchange treasures with you. If you have received a task before, you can complete the task when you meet these people. If you do not receive the task, you can only miss it!

These tasks give excellent things. Like winning a lottery ticket, there are 2 yuan and 5 million jackpots. It is very likely that a player can use an unremarkable ordinary pearl to redeem the lower \*\*\*\* skills and equipment worth tens of thousands of dollars. .

Another one, the bait missions required for fishing can also be picked up uniformly at the mission station, there is no need to go to the sky to fill the map.

After the construction was completed here, there were several pages of tasks on it. Lu Yang looked for them one by one and saw a task called killing the magic fire and flamingo, and the reward was called the fire worm.

Flame worm is an essential material for catching colorful magic fish. Only with this thing can the colorful magic fish be led out. As for \*\*\*\* the flamingo, there is no bug available for this. It can only be hit hard, and the person must fight Lower \*\*\*\* level.

Although it is a copy of the nightmare difficulty of 10 people, as long as you have equipment and skills, you can fight in the past, but after all, you need to have 10 lower gods.

Lu Yang decided to summon 10,000 people to come here to brush flamingos in exchange for flamingoes. The refreshing quantity in one day should satisfy 500,000 people for fishing.

As for the places where flamingos are brushed, there are such copies in every area of the New World, and there is one near the Red Sun Fortress.

When Lu Yang mobilized the next \*\*\*\* in the special legion and other special legions to come over to make copies, Shen Mengyao called on the other side.

“The hospital has already begun to accept patients. The first batch of immediate family members of Zhou Tianming’s brothers have begun to receive treatment. We have an official interview here, which requires you to accept.” Shen Mengyao said.

The hospital that Lu Yang spent a lot of money on has been completed, and related medical equipment and high-level doctors have also entered the hospital.

Lu Yang had never thought about such a big fanfare, but the propaganda said that accepting this propaganda was beneficial to the positive image of the guild, and Lu Yang accepted it.

There is just time here, Lu Yang said: “Start today, let them wait for me in the conference hall.”

“Okay.” Shen Mengyao hung up the phone.

Lu Yang quit the game and came to the conference hall downstairs after a little preparation. As before, there were more than 100 media this time.

Because of an iron-blooded brotherhood, more than one hundred media have arranged their own personnel to stay near the game city and report on the game city.

Because Lu Yang has too many surprises for everyone, before Lu Yang built supporting elementary schools, middle schools and high schools, it has made people feel incredible. This time the hospital built, everyone thinks that Lu Yang is a show, will it not be What a hospital that is too big, but when I went to see it, I knew that it was a large international hospital.

There are more than 5,000 beds, more than 100 operating rooms, and hundreds of expert doctors digging from all over the place. Each one is an elite. Everywhere in the hospital is modern and professional.

The first impression of these reporters is how expensive the hospitalization fee is in this hospital. However, after careful inquiry, I realized that this hospital is completely free.

For players and family members of the Brotherhood of Blood, treatment in this hospital does not need to cost a penny, and even when the medicine is prescribed, it will be distributed free of charge. The key is that many of the medicines are imported medicines.

This is a concept. There are more than 400,000 players in the game city of the Iron-Blood Brothers, and their immediate family members together add to more than 1 million people. Lu Yang wants to give this one million people free medical treatment.

Even if each patient only needs to spend a few hundred dollars, it will cost hundreds of millions in this year. Counting various costs such as medical device maintenance and medical staff salaries, such a hospital needs to spend at least one billion yuan a year. Cash above.

In fact, this is not the main thing. The main thing is the meaning behind it. If Lu Yang can really do this, it means that players who join the War Studio in the future can work with confidence in the game.

The most domestic concern is medical care. If there is no problem with medical treatment, they do not have to worry about what serious illness they will get. Now Lu Yang will solve the problem of treatment. As long as the guild does not collapse, they will not worry about life problems throughout their lives.

As for the collapse of the guild, will these people who have benefited from it benefit the guild from collapse?

At the thought of this, every reporter has a fanatic light on his face. Now even they want to quit their jobs and enter the war studio as an ordinary player. This life is too worry-free.

Looking at the eyes of these reporters, Lu Yang could feel their excitement, and said with a smile: "Slightly say a few words, building this hospital is just like what you see. I want to set up a home for my brothers. Let them worry about the future.

At present, the number of people I can treat is still relatively small, but in the future, this hospital will face the official players in the Jagged Brothers League, and it will gradually expand. It is their family members. It is now time for questioning. Right. "

A reporter took the lead to raise his hand. After obtaining consent, some fanatics asked: "President Lu Yang, your guild has owed 30 billion euros of debts. You are still building infrastructure like this, and you are not afraid that the guild will not be able to carry it. Is it closed?"

Lu Yang said with a smile: "I'm afraid, . I am also worried that one day the guild will not be able to carry it, but I believe my brothers will support the guild with me and let the blood brothers go further. ."

A female reporter asked excitedly: "Are you really going to face all members of the Brotherhood of Blood Alliance?"

Lu Yang nodded with a smile and said, "In fact, the so-called total number of members is not as much as expected. There are more than 17 million people in total, but the guild has a large flow. To become a full member, one needs to have There are enough guild points, and the other one must be long enough in the game."

Not all players in the Iron-Blood Brotherhood are willing to work hard for the guild, and some people draw water. Before the hospital is built, the relevant rules will be formulated by the company, and only those who meet the standards can enter.

“What is your standard?” the reporter asked.

Lu Yang said: “All players who participated in the two tiger-mouth defense battles, regardless of their previous guild points, all count.

Anyone who joined the guild from the beginning of the establishment of the guild and has followed it all the way up to now, the majority of the battles have participated, and this is also counted. “

Chapter 1856 - Warm response

This sentence is very general, but this made the reporter hear an important voice, that is, the boundary given by Lu Yang is too broad, and a large number of players of the Brotherhood of Blood Alliance can be the beneficiaries of this matter.

Lu Yang went on to say: “My purpose is very clear, that is to give players who have always paid for the Brotherhood of Blood to have a better guarantee in the future. The Brotherhood of Blood will be taken care of in one day. The Brotherhood of Blood will be at 50. In 2015, I raised my brothers for 50 years!”

The reporters have sighed that they can no longer sigh. They no longer know what to say. The most obvious thing is that they know the ultimate purpose of Lu Yang.

In their view, Lu Yang is really a perfect idealist and practitioner, he really did what others dare not think and dare to do.

The hospital that was originally built seemed simple, but when they relayed the news, more than 17 million players from the Iron-Blood Brotherhood will do their best to serve the guild.

There are many subsequent wars. The main enemies are Radvedev, Sanyoumen, Roland, Steiger, and Liu Jie. As long as the Brotherhood players fight hard, they and their families will have such medical insurance. Protection is equivalent to saying that the Iron-Blood Brotherhood will have more than 10 million players loyal to the guild.

A female reporter still didn't understand it. She stood up and asked: "President Lu Yang, although your plan looks good, it still gives me a feeling of bragging and emptiness. Players can spend time in the game and it's not long. If you say that for five more years, they will face the problem of work."

Lu Yang smiled at the female reporter and said, "Do you think it's easy to find a job now?"

The female reporter shook her head and said, "It's not easy, but they will eventually live outside the game."

Lu Yang said with a smile: "This is the second purpose of my development meeting today. I am here today to officially announce to you that the Predator Brothers will stop all foreign wars from now on and carry out the Tuntian plan in the Sims series. Everyone who participates in this plan can earn more than 6,000 yuan a month. In addition to pension insurance, they don't need to pay any insurance. The medical is covered by the Brotherhood of Blood. As long as they work hard, I So that all my brothers can have a good life."

"6000 yuan?"

...

In an instant, many reporters on the side of the scene were shocked. Their monthly salary was only a little higher than this. If they could make money while playing games, and there was medical guarantee, they felt that they could quit their jobs and enter the Jagged Brothers League to work. Too.

A reporter couldn't help but ask: "How do you guarantee?"

Lu Yang said with a smile: "With my reputation and the signature guarantee of the Iron-Blood Brothers Alliance, the first batch of targeted players are old players of the Iron-Blood Brothers Alliance. We have already conducted experiments to prove that the Tuntian policy can indeed guarantee a monthly income of more than 6000. After the first batch of 6,000 people learn, they will spread out and teach the second batch of 240,000 players to join, and wait for the second batch to learn, and then teach the third batch, and strive to make the Iron-Blood Brothers Alliance 600 within a month. More than 10,000 players all participate in the Tuntian project."

Every reporter felt something blocked in his heart. This was not an uncomfortable one, but an excited one. It seemed to shake for a long time but Coke had a bottle cap there, and there was a possibility of an outbreak at any time.

A male reporter asked excitedly: "Chairman Lu Yang, why do you want to go to Tiantian, you don't lack money."

Lu Yang said with a smile: "It is true that I don't lack money, I don't have the Brotherhood of Blood, and I don't lack money either. Every year in the competition, I am the champion of the individual competition, and this position is unmoved.

For these five years of bonuses, I have taken hundreds of millions of euros. If I want, I can enjoy a better life at any time. I can take my wife to travel around the world, or I can find a quiet and small city in Yunnan. To enjoy a comfortable life with a slow pace.

But I can't do that. I'm the president of the Brotherhood of Blood, and the boss of all my players. I have my responsibility. They trust me, join my guild, and trust me. The initial reason is that I want to lead them to build an organization where no one can bully them.

As this organization has grown, our goals are constantly changing. Now there are more than 10 million people who follow me. They are willing to fight with me for my command and I will be responsible for them. I will not let them down. They paid for me in the future. In the future, the Brotherhood of Iron-Blood Brothers will be the home of all players. I and the vice presidents of Zhuojiu, Baishi, Yuwei, and Zhou Tianming are the parents of the members. When we are in one day, I will not let them be wronged again, and then embarrassed by work and illness. "

applause!

Applause like thunder!

More than 100 reporters felt a deep affection from Lu Yang's words. This is a person willing to work hard for the guild players. So, even if there are no conscience reporters, in the subsequent editing process, There is no one more sentence of blame for Lu Yang, but full of praise and envy of the players of the Iron-Blood Brotherhood.

Live channel.

Du Bin received the manuscript. After reading it briefly, he cut off the content to be broadcast live, but said in an excited voice: "Brothers and sisters, tell everyone an important news about the Brotherhood of Blood Yes, from now on, the players of the Brotherhood of Blood will no longer have to worry about working and seeing a doctor. Listen to me and tell everyone..."

Not only Dubin, all the domestic live broadcast stations, TV stations and all print media are bombarding this matter. The people all over the country are discussing this matter in one day. Some people feel incredible and think this is not Possibly, but more players know that what Lu Yang has said so far has never been uncounted, not to mention that this time Lu Yang is still guaranteed by the sign of the Brotherhood of Blood.

Inside the game.

The players of the Brotherhood of Iron-Blood are discussing frantically, and a large number of players send messages to their army commanders and army commanders.

People such as Chen Qiang, De Bu Tiao Shi, Zhen He Hao and Liu Yun Peng had to gather players from their respective teams.

"Boss, is it true."

"It's incredibleThe boss has a way for us to make money?"

"If I can, I won't leave the game to find a job."

“I’m not going anymore, I can continue to fight in the game, who wants to go out to do manual work.”

...

Chen Qiang looked at the players and he was crying. When Lu Yang was developing the cloth meeting there, Zhuojiu and the White Lion gathered all the heads of the big army and the heads of the army to announce this.

Chen Qiang and their team leaders have strong comprehension skills, and soon they knew what Lu Yang was going to do. With excitement, they spoke out Lu Yang’s plan. For a time, when these players heard the specific way of working, they all laughed. .

Fishing, farming, farming, these things are too simple for them. A few players have not done these things in the game. When they need to make money, do they use these methods for emergency.

Now Lu Yang brings everyone together to do things that they couldn’t do before. For them, it’s what they always wanted to do.

#### Chapter 1857 - Agricultural reclamation

Chen Qiangqiang kept crying and said: “Brothers don’t worry, the boss is making batch-by-batch arrangements, the fastest week, the slowest month, everyone can make money in the game, we no longer have to worry about separation, now My brothers, the Red Sun Fortress, asked me to sign up, and I and the heads of the regiments and heads of staff are waiting for you.”

As soon as the voice fell, countless rays of light appeared at the four teleportation positions of the Red Sun Fortress. A large number of players ran to the position of the gang hall in the middle, where Chen Qiang was waiting for them.

“Boss, our team applied to join.”

“We can farm.”

“We can fish, our strengths.”

“There are us breeding, and our brothers have raised pigs in the game.”

...

A large number of players signed up as teams, and in several other strongholds, White Lion and Zhuojiu and others also accepted the registration of their players.

The entire Brotherhood of Blood Brotherhood exploded with great enthusiasm for solidarity in this separate season, which surprised everyone, especially the official.

At an emergency meeting, a European official frowned while holding his glasses and asked: “Is it Luyang’s violation of this rule? I think we should ban him.”

“Yes, he seriously harmed our interests by doing so, and we gave him all the money we earned.” Another European official was even more dissatisfied.

The opinions opposed by European officials are simple. Europeans do not have medical pressure. Every European has free medical insurance. Even if they get a serious disease, the state will treat them, and when they can’t afford it, The treatment given is free, and even pays the patient money at the window for buying medicine.

China is different. China’s medical pressure is increasing. Once seriously ill, it may be necessary to sell the house to cure the disease.

Why Europeans do not work all day but still live well, the main reason is that the treatment of people is managed, the birth of children is managed, and the salary is still high.

Now Lu Yang has raised the treatment of 6 million people to the same level as Europeans. The key is to take the military expenses shared by all countries, which makes Europeans jealous.

Officials from the China region sneered, facing a crowd of Europeans who were still chattering, suddenly stood up and patted the table and said, "This is a matter of principle. I will not discuss it with you. Which rule did he violate? What did he do?" Isn't that what we expected? Don't be jealous of our Huaxia guild because your country's guilds are unable to integrate. I tell you that there is no room for discussion on this matter. There is nothing wrong with Luyang's work. We must support it."

"I agree to support."

"I also agree to support."

...

A number of justice official directors also shared their opinions. If this question is a simple money issue, many people will be eyeing Luyang's ability to make money, but the core issue of this matter is to solve the employment pressure and population pressure.

In doing so, Lu Yang is tantamount to solving the employment of at least 6 million young people in China. Currently, there are more than 15 million university graduates every year. Their employment is a very difficult problem. Now Lu Yang alone has solved one third Jobs.

After only brief discussion, this meeting formed a consensus. This behavior of Lu Yang can be promoted. If the interests of the majority of players are the mainstay, then this matter is worth doing.

Without Lu Yang knowing it, Lu Yang has survived one of his biggest crises. If the official disagrees, what Lu Yang is doing will be instantly defeated, and the Iron-Blood Brotherhood will also lose a lot of the main force.

Inside the copy.

Lu Yang has ended the interview at this time, and is taking a new batch of combat members trained by Han Zhong to follow him to kill the magic fireworks and flamingos.

Since the last time Han Zhong told him to train a group of new people, it has been two and a half years now. Each of these newly joined young guys is just 16 years old, just when he was young.

This time, Han Zhong has trained 90 people. The 9 people in front of Lu Yang are the captains of these 90 people.

Originally Han Zhong meant to put them in a dark place and was responsible for helping Lu Yang deal with some special things. Although Lu Yang was unwilling, Han Zhong forced each of them to use fashion and should change his face.

Their names are also very special, and they are called the names of magpies, cranes, peacocks, and other birds. At this time, Lu Yang has taken them to the front of the last boss, which is the magic fire flamingo.

“This monster is not easy to fight. His flame skill damage is relatively high. Let’s go together.” Lu Yang said.

The magpie and others nodded their heads, and as Lu Yang rushed to the fat magic flame fire flamingo from all sides, the bird could no longer fly and could only breathe flames on the ground.

Despite his high damage, facing Lu Yang and others wearing Tier 3 Shenyan suits, he was still unable to resist for 5 minutes and was killed on the ground.

Lu Yang picked up the flamingo egg and said, “You should all know how to play, go back to your respective teams and continue to lead the team to fight monsters.”

“Yes.” Magpie and others left.

Lu Yang passed the video to the mailbox of 10,000 elites who were ready to go, saying: "The play in the video is relatively simple. Today everyone is specifically responsible for firing Thunderbird bird eggs and then handing them to the logistics players waiting at the door. Redeem them as flame bugs and give them to the fishing players."

The leader in charge is the Prison Hades, saying, "The boss is assured, leave it to me."

Lu Yang nodded and flew to the Blackwater Fortress using the recursive scroll. If there are currently the least people in the Iron-Blood Alliance, it is undoubtedly the black yarn area of the year.

From Lalgag Fortress and Sky Soul Fortress, to Tianhe Fortress and Crescent Fortress, including some fortresses in one step to the sky, almost no player can be seen.

It is really that the area occupied by the Jagged Brotherhood is too large. and the best area for doing business and making money is also the area with more European players, such as the Spanish area where Ayala is located. Union area, Gerds area and Claudio area.

In this way, the players who were still in the black yarn area, because of the large number of merchants leaving, they also had to leave. Gradually, this place became deserted.

Although it is deserted, it now has an important purpose. To the east of the Blackwater Fortress is the vast Qingling Plain, and to the west of the Blackwater Fortress is the vast Blue Dream Plain.

Since there are almost no players on these two plains, Lu Yang's idea is to carry out reclamation here, and use these two great plains as the first agricultural experiment point.

He sent a message to Zhou Tianming: "Let your batch of players come over, they are responsible for the reclamation operations in Qingling Plain."

"This is coming, I've already prepared it." Zhou Tianming said excitedly.

Countless lights flashed through, the first batch of 10,000 players appeared in the Blackwater Fortress, at this time they were all a bit riotous, because they were once the traitor of the guild and the defector who left the guild, twice Leave, so that they now have no face to face Lu Yang.

#### Chapter 1858 - Green Devil Vine Fruit

Gradually, the players were not talking, and the buzzing under the city wall disappeared instantly. Everyone looked at Lu Yang curiously. They wanted to know how Lu Yang gathered hundreds of thousands of them this time.

The light flickered.

Zhou Tianming appeared beside Lu Yang and said with a smile: "Boss, everyone is here, look."

Lu Yang patted Zhou Tianming on the shoulder, motioning him to not be so embarrassed, and said with a smile: "Your brother is my brother. I will not give them the same reasonable arrangement as other players."

Zhou Tianming took a deep breath and nodded with emotion, no longer worrying about these people any more, and stood comfortably on the side.

Lu Yang looked at the 10,000 people below and used a loud speaker to speak loudly: "From the time I announced my acceptance of you to today, people have kept telling me that I should not accept you, and some even vowed to say, When I recruit you back, I recruited a group of unstable factors, which may harm the Jagged Brotherhood at any time."

The minds of more than 10,000 people below were severely blocked. Lu Yang saw the embarrassed expressions on their faces, and then said: "But I didn't listen to them. I still decided to call you together for you and other official players of the Jagged Brotherhood. The same treatment."

“It’s not that I pity you, nor that I take care of Zhou Tianming, but that I think you should come back, the Jagged Brotherhood, or your home.”

The 10,000 people below the voice were all stunned. So many of them had betrayed the Jagged Brotherhood, but this sentence from Lu Yang told them that this is still their home! They didn’t expect, never expected.

Lu Yang could feel the complex feelings of these people, and said with a smile: “Back when you people left the Jagged Brotherhood, some of you were loyal to Zhou Tianming. You left because you betrayed the guild and had no face to come back.

Some people are speculators, and they want to follow Zhou Tianming to other guilds to raise their status.

Some people are trying to judge the situation and see that the Jagged Brotherhood is no longer good. They want to take this opportunity to quickly change to a guild. They don’t want to work hard for the guild, but only want to make personal gains.

This is human nature, I can understand, as the saying goes, which family does not have two prodigal children, right?

For more than two years, I believe that after 2 years of training outside, you are also tired. The so-called tired bird comes home. Go home. The Jagged Brotherhood is still your home. Live for your family, work hard, and renew To gain the recognition of your brothers, as long as you work hard, the people in the family here will accept you. “

After wandering outside for more than two years, these people have suffered continuous defeats, and they have long lost the spirit and calculation of the past. Lu Yang can give them a job and let them and their families have medical insurance, and they will already feel content.

“Boss, rest assured, we will try our best to repay the Jagged Brotherhood, and we will never have any other ideas.” The leading player bowed deeply to Lu Yang.

Lu Yang sighed and said, "First, 100 people will come and go outside the city with me. I will tell you how to cultivate."

There are rice seeds in the Sims system and a professional \*\*\*\* for reclaiming wasteland. They came to the great plain outside the Blackwater Fortress, and Lu Yang guided them step by step to complete the reclamation task.

The planting task is different from the fishing task. If many people complete the fishing task, the reward is high. The planting task is dominated by a single person. The difference is that the larger the planting area, the more things you can harvest.

It should be noted that the wild monsters spawned around and the sneak attacks of other people will trample on the crops. If other players come to grab the rice before the harvest, the player's harvest will be much lower.

Another problem is that a player must set aside enough land for planting. If the amount is small, it will cause conflicts between players and players.

As long as these three problems are managed well, nothing else is a problem. As for this problem, it is also very simple. Lu Yang blocked the teleportation array of 22 fortresses in the black yarn area and 8 fortresses in the one-step Tongtian area and the gates of the surrounding fortresses.

Players who want to do business between the fortresses can teleport in the fortresses outside the black yarn area and the one-step climbing area. If anyone dares to enter this area, they will be treated as spies and robbers and killed on the spot.

It's easier to divide the land. Zhou Tianming personally participated, and assigned a fixed position for each player, and marked positioning.

While they were marking, Lu Yang used the teleportation rod to fly to the entrance of the Ten Thousand Trees Forest. In the Ten Thousand Trees Forest, there was a treant called the Green Demon Vine, which exploded green heart fruit seeds.

Planting green heart fruits and selling them to the system is one of the most valuable fruits.

Lu Yang had been hesitant about who to give the poisonous artifact before. Now he had an idea. He set up a separate special department to select players with high prestige in previous wars to enter and control the artifact.

Lu Yang gave this army a name-Artifact Legion!

The first batch of selected was the brothers recommended by Zhuojiu and White Lion. Now they have all obtained the artifact and are killing the Green Demon Vine Tree Man in the Wanshu Forest.

“Boss, you are here.” Wanzong of pride ran to Lu Yang excitedly. Among his 300,000 people, 100,000 will be able to return to the lower \*\*\*\* after tonight.

Lu Yang asked, “How many seeds have been collected by ?”

Lofty Wanzong said: “At least 10 million seeds, this thing explodes too many, a green magic vine tree person can explode more than 100 seeds, I don’t know what this thing is for, why don’t you follow me Say, I won’t let my brothers pick it up.”

Lu Yang smiled and shook his head, and followed the heroic Wanzong to the location where the seeds were stored. A large number of storage bags were placed under a big tree, and they were all green magic vine seeds.

“From tomorrow, I will bring a thousand people to the coordinates I gave to get the fruits.” Lu Yang sent a coordinate to Zhuojiu and said, “The second pilot is behind the Tianjian Fortress, which is our headquarters near the Chiyang Fortress. “

For Zhou Tianming’s 600,000 subordinates, Lu Yang’s attitude is to temporarily adopt them. If they are sure that there is no problem, they will be given the seeds of the green magic vine in the future, but now, these top seeds must be given to those of the Jagged Brothers League. Veteran player with outstanding merit.

“Yes.” The dirty wine is still arranging the warship. Although the whole situation is proceeding in an orderly manner, it still seems a bit chaotic.

Lu Yang didn't worry about this. Now the Jagged Brotherhood has no war, and he has plenty of time to deploy his subordinates.

Chapter 1859 - Catch wild boar

Early the next morning.

Outside the Chiyang Fortress.

The 100,000 players belonging to the Jagged Brothers League are queuing outside the fortress. Each of them holds a bag of green magic vine seeds in their hands.

These seeds are enough to plant 10 acres of farmland. Looking outside the Crimson Sun Fortress, on several large plains, there are farming players everywhere.

Although it is a laborious task, every player has a smile on his face. They know that if they follow Lu Yang's method of farming, the cash they can earn is at least 8,000 yuan a month, which is more than they make a lot of money by working outside.

Beginning 20 years ago, there has been a saying in the elite circles that it is difficult to have noble sons among the poor. There was a set of statistics that year.

Among the national college entrance examination students, 62% are from rural families, but how many children from rural families are admitted to the so-called 985 and 211 universities in China? Sadly, less than 30%, while Tsinghua University has only 16%, and Peking University even less, only 10%.

In other words, a large number of students have actually been admitted to provincial and municipal higher education institutions, and these so-called higher education universities are some ordinary second-degree and junior colleges, and the jobs they find after they come out are all ordinary jobs.

There was once a famous teacher who said that it was right that top companies such as Huawei and Apple would never go to an ordinary university to recruit.

Although a student who has just graduated from university does not mean that he will not enter a good company in the future, this proportion is too low.

This was the case 20 years ago. Today, 20 years later, the gap between the rich and the poor has become even greater. Therefore, these players would rather make this money in games than go out to work.

In addition, they are all elite players of the Jagged Brothers League. Even if they are too busy with the wine, they did not cause any panic. A large number of players received the seeds in an orderly manner and began to farm.

Because they are all good brothers who have been fighting side by side for two or three years, even if there are some disputes about border issues between these players, they all laugh and scold each other.

Lu Yang felt funny watching him, but he was also excited in his heart. What are the founding soldiers? Now these people in front of him are the founding soldiers.

These people followed the Jagged Brothers League and participated in at least the offensive battles against Gerz, Claudio, Tom, G8, Orma, Blacksha, and Santoemon. They also participated in two battles to defend the tiger's mouth. Just as the ones who killed Pu Renyi and Tianlong are not mentioned for the time being, these previous battles alone have honed these players into the top players.

Perhaps if they were taken out by a single one, their techniques and abilities were worse than others, and even worse than the masters, but when they were 5 people together, 10 people together, or even 100 people together, To launch the offense in a team mode, the same 100 top masters have to escape with the same equipment.

Their shortcomings in personal abilities are seamlessly compensated by the cooperation of the team, even up to two or three steps.

If Lu Yang loses this group of players, he can only recruit players again, train new players, and turn them from rookies into battlefield masters. This will take another year or two.

In other words, if Lu Yang wants to attack Sanyouemon and Roland and others, he will have to wait for more than a year, and it is not certain whether he can win or not.

But now it's different. With so many founding soldiers under Lu Yang, he no longer needs to worry about the cooperation of players on the battlefield in the future. This group of team battle masters who are already full of blood can fight when they are pulled out.

As long as the Jagged Brotherhood has a buffer period of about six months, he will be able to lead this group on the battlefield again after he has survived the initial repayment difficulties.

"Boss, see if the plant I planted is correct." A player in the distance shouted and jumped to Lu Yang.

Lu Yang smiled and looked at the past. It was his own brother, the breeze returning to the guest, who has been following Zhuojiu. He was one of the first players to enter the Jagged Brothers League. He had existed as early as the establishment of the Jagged Brothers League.

Now he is the commander of the army under Zhuo Jiu. He also works in the war studio. He usually stays with Lu Yang and Zhuo Jiu and the others. After so many crises, they have come back to the guests with their great help, but after success, they have never Do not ask for credit, but continue to do things silently, is a very good little brother.

Lu Yang walked to Qingfeng Guike's side, looked at his planting method, nodded and said, "It's basically correct, it looks a little bit."

"That is, my family is in the countryside. I am best at this job." Qingfeng returned to the guest very proudly, said: "Games are better than reality. In reality, the income from farming is less than 5,000 yuan a year. A month's income is not as high as the boss promised."

He has never doubted what Lu Yang said, and everything Lu Yang said has been realized one by one. Therefore, Lu Yang said that if he can earn more than 6,000 yuan a month, he can earn more than 6,000 yuan.

Lu Yang laughed and said, "Remember to water and remove insects more after the crops have grown. These things are not simple. If you ignore a little, you may be finished."

Qingfeng said with a smile, "Boss rest assured, I promise that there is no problem, and I will guide my brothers."

Lu Yang smiled even more. He knew that Qingfeng's main purpose was to instruct others. With Qingfeng's current income, he had more than 20,000 yuan a month. He didn't need to do this job at all, and he would do it with his own hands. It's just to figure out the principle.

Here Lu Yang accompanied Zhuojiu and Qingfeng with them for a week, and more than 1 million players from the Jagged Brothers League entered the Chiyang Fortress to the area of Dingzhou City to plant land.

On the other side, Wanzong with pride called and said, "Boss, 100,000 of my brothers have become the lower gods. What are we going to do?"

After more than a month, relying on the Ten Thousand Poison Array, the first batch of 100,000 people who were passionate and arrogant became the lower gods.

Lu Yang said: "There is a task to be handed over to you, please do it well for me."

"Boss, who do you want me to hit?" Wangqing Wanzong asked excitedly.

Lu Yang laughed and said, "Just thinking about fighting, can you go out now? If you go out, Sanyou Eemon, who is not terrified, will immediately cease the war, and quickly take 100,000 people with me to Guangming Castle and catch wild boars."

“Catch... the wild boar~!” Wanzong was stunned and said depressed: “We are the wolf army, catch the wild boar.”

Lu Yang was amused by the kid and said, “Hurry up and stop the ink. I’ll give you 10 minutes to organize the team. If I can’t come, I’ll go downstairs and beat you.”

“Here’s here.” Wanzong regained his energy in an instant, and hurried to the whole team.

Now that the Jagged Brothers has a big business, so many people gather in one area, whoever can have a good relationship with Lu Yang will be more respected.

If Lu Yang really went downstairs to beat up his heroic Wanzong, not only would he not feel that his heroic Wanzong had fallen out of favor, he would also think that the heroic Wanzong was the closest person to Lu Yang, but he didn’t need to do that. He knew that he himself No one can shake the relationship with the boss.

After 5 minutes.

The blood wolf of 100,000 promoted to the lower \*\*\*\* appeared outside the city of Moonscar Fortress. When Lu Yang rode a flying dragon to the outside of the city, he saw the lined up of heroic Wanzong and 100,000 blood wolves. With a smile, Wanzong gave a look of pride, and the 100,000 blood wolf followed Lu Yang’s Feilong closely and ran towards Guangming Castle.

Chapter 1860 - easy

The road to Light Castle is very long. This area that exists on the 180-level map needs to run from the 140-level moonscar fortress to the 170-level map, and then run from the 170-level map for more than an hour to pass through a grand canyon. arrival.

Along the way, Lu Yang ordered all the blood wolves to turn on the Sims system to buy traps and sacks, which were used to catch wild boars.

The holy light wild boar is a newly added wild monster. They don't know how to attack. They run when they encounter players. Killing them can get 5 times the experience value. They can also dig very good wild boar, and the price is very high.

But Shengguang wild boar is not used in this way. The best way is to catch the Shengguang wild boar and take these wild boars back to the farm, so that the second generation wild boar will be born from the wild boar and common wild boar.

The meat of the second-generation wild boar is the most fat. After being raised, the price is very high, and it is only cheaper than some rare pets.

But the problem is that the holy light wild boars are not easy to catch. Don't look at these wild boars, but they move very fast. If a player chases him, the wild boars will run in random directions. To catch them, there must be a lot of them. Of players work together.

It is best to intercept tens of thousands of people in three directions, forcing the wild boars in this area to only get into traps. Once they step on the trap, they will be controlled, and then they will be caught by the Sims. Among the special sacks bought in the system, even if the arrest is successful.

Pride Wanzong and 100,000 Blood Wolf thought it was a particularly difficult task, and laughed when they heard such a simple thing.

Leaving aside other things for the time being, when it comes to cooperative combat, the Blood Wolf Legion is not only in the Jagged Brotherhood, but in this game, the ability to cooperate is second to none.

Who has seen a team that has no treatment daring to attack thousands of miles? If there is no good cooperation, it would have died long ago and can't die again. Where can there be so many glorious records?

“Boss, just look at us, and promise there is no problem.” Haoqing Wanzong shouted to Lu Yang as he ran and jumped.

“The task is not one day, but in recent months you have to stay here and catch wild boars for me every day.” Lu Yang scolded with a smile.

“Obviously.” Wang Qing Wanzong raised a wolf paw in a salute posture, running on three legs with great joy.

...

After 2 hours.

Lu Yang brought 100,000 blood wolves to a golden castle that was extremely magnificent and high-tech. Countless castle guards stood guard at the gate. They were also angelic, holding a huge long stick in their backs. With the wings all in the body, he walked back and forth on the ground.

“This is Bright Castle, it’s magnificent,” said Wanzong with pride.

Lu Yang said, “Let’s go to the forest on the side and clean up all the monsters inside.”

The forest was full of mobs of the lower \*\*\*\* level, and Wanzong with pride rushed in with 100,000 blood wolves, and easily killed the mobs, leaving only a group of panicked golden wild boars.

“Brothers, follow me and lay down traps side by side.” Commanded Lofty Wanzong.

100,000 people placed 10,000 animal traps side by side and recruited 10 rows in a row. After that, Wan Zong commanded 100,000 people to drill into the forests on both sides and circled a large circle to encircle the holy light wild boars in the depths of the forest.

Soon, a large number of wild boars spotted them, groaning in horror, and ran towards the middle. But when they ran to the middle position, they found that the depths of the forest were surrounded by blood wolves. Can run outside the forest.

Lu Yang stood high in the sky and could see clearly. Only with this meaning, the 100,000 blood wolves, which are full of pride, brought out more than 20,000 wild boars, but the holy light wild boar, which is twice the normal player's movement speed, could not run through blood. The wolf was quickly chased up. Under the continued compression of the space, the Holy Light Wild Boar had no other direction to escape, and could only run more desperately in the direction of the trap.

In less than 5 minutes, this group of wild boars was driven to the trap area. Looking at the large swaths of traps placed in the grass, the holy light wild boars were not stupid, they were desperately trying to avoid, but they were very proud. The 100,000 blood wolf army formed an inverted U-shaped encirclement. The wild boars were crowded together and could not run to the sides. In desperation, they all ran into the trap.

"Humph~!"

"Woo~!"

...

The screaming sounds of various wild boars were mixed together. Large swarms of wild boars were trapped by the traps and fell to the ground, while the wild boars in the back directly crossed their bodies and continued to run forward, and then hit the rear catcher. Beast clip on.

Countless golden wild boars just fell to the ground in pieces. When the blood wolf players who followed after came closer, they picked up the sacks and packed them in.

System prompt: You caught a holy light wild boar!

System prompt: You caught a holy light wild boar!

...

Countless reminders came, and it took less than half an hour until the first wave was over.

Lu Yang built a sentry tower outside the forest. When Wang Qing Wanzong brought the wild boar, Tu Feng was already waiting there with more than one hundred logistics players.

After they received the wild boar, they immediately sent it to the Tiger's Mouth Fortress of the Jagged Brotherhood, where 100,000 players were building pastures under the leadership of their respective army commanders.

"Brothers work hard, the boss treats us elite players the best treatment. He used the funds of the Jagged Brotherhood to build a large ranch for us. Everyone has a large ranch several hundred meters in diameter. , If you spend your own money, it will cost thousands of dollars." The lovely queen said loudly.

This legion is the main force known as the pro-army of the Iron-Blood Brothers League. They are all special professional players, including Liu Yunpeng, Wan Zhonghui and others.

At this time, the ranch has been built. Because of the high cost of the initial investment and the need to buy official feed and various materials, Lu Yang worried that his players had no money, so he paid them first and asked them to pay back to himself slowly. .

100,000 people know that Lu Yang treats them well, In order to make money, com is desperately taking care of his room.

After Lu Yang and Tu Feng came over with more than 20,000 wild boars, they distributed one to each family and bought them another sow from the government.

"Boss, how do you get this stuff?" The lovely queen looked at the wild boar and the sow in her nest standing in a corner, with a question mark on her face.

Lu Yang smiled and said: "The wild boar is enough for one day and night in the game, then you don't have to worry about it, just buy a second sow, and so on, everyone buys 50 sows."

“Oh.” Liu Yunpeng and Wan Zhonghui understood, they shouted loudly, but the lovely queen who was a girl blushed and whispered, “I see.”

Lu Yang shook his head with a laugh, and said, “There are still many people coming. You have to be prepared and quickly figure out how to raise this thing.”

“Yes, boss rest assured.” said the lovely queen.

Lu Yang nodded, using the teleportation scepter to fly back to the outside of Guangming Castle.
