

Chapter 1881 - Old Dragon King-Noabek

Earth Xinglong discovered Lu Yang's existence instantly, with a violent look in his eyes, and suddenly came to Lu Yang in a blink of an eye at a speed of 0.2 seconds. The huge dragon head leaned down fiercely, and bit into Lu Yang.

"ember"

At this moment, Lu Yang's body turned into a ray of light, and he pressed against the mouth of Earth Xinglong's blood basin and jumped onto Earth Xinglong's head.

"Instant Blast"

Lu Yang pointed with his left hand to the big eyes on the side of the walking dragon, and a flash of fire shot away.

"-2862" (critical strike)

The Earth Xinglong wailed in pain, but he was in a state of being stunned by the instantaneous explosion technique, unable to move at all, and fell to the ground weakly.

"ember"

Lu Yang always controlled his position on Earth Traveling Dragon's head, and seeing the Earth Traveling Dragon hit the ground, he simply adjusted it and continued to stay on the Earth Traveling Dragon's head, and at the same time activated the Heavenly Flame with both hands. skill.

The small pure golden fireballs hit the earth travel dragon's eyes one by one at a speed of 0.1 second, and the ground travel dragon that reacted quickly stood up from the ground, roared, and shook his head desperately from side to side.

If you look at it from someone with a slow reaction speed, Lu Yang is like a cat thrown into the washing machine. The moment he is thrown has the possibility of falling off. It is also very funny, but the reaction speed in Han Ying is 0.2 From the eyes of players within seconds, Lu Yang's style of play can only be judged by the subtleties.

No matter how the giant dragon shakes his head irregularly, Lu Yang can always stop on his head at a critical moment, and every divine flame skyburst can hit the earth walking dragon's head. This is a very scary one. Things, this proved that even in the most difficult situation, Lu Yang has the ability to kill the target with a fatal blow.

Han Ying and the others could only respect Lu Yang's actions with the most pious attitude, until Lu Yang killed the Earth Xinglong, and Han Ying and others ran over together.

"Brother, we are afraid we can't do it." Han Ying said with shame.

Lu Yang laughed and said, "If you can do it now, wouldn't I be too embarrassed, brother? This is the micro-level body technique that my brother has studied for a long time. I have all recorded it. Let me tell you. Once again, you learn to use it and see it. If you die a dozen times without shame, you will learn it slowly. Let's use this earth-moving dragon as an experiment."

"Yeah." Everyone nodded.

At the moment, Lu Yang explained to all of them, and then asked them to experiment. He sat aside and rested leisurely. Han Ying and the others learned very quickly, and Earth Xinglong was also very easy to kill. , A total of only 8000 HP, can't help them attacking for 10 seconds, even if you count the shaking speed of the earth travel dragon, there are some fast learning speeds, such as the assassin class, grab the eye socket of the earth travel dragon, one hand it stabbed like a phantom and killed the Earthwalker in less than 10 seconds.

"Uh~!"

“Woo~!”

...

The wailing around him sounded one by one, and the Earth Traveling Dragon began to die in pieces. Lu Yang sighed a little. Although they killed a bit slower than him, it was undeniable that the people Han Zhong handed over to him were all No genius actually died in battle.

Lu Yang shouted, “Collect all the teeth of the Earth Xinglong, the others are not important.”

An Earthwalking dragon has more than 200 teeth in its mouth. If it is used as an arrow, one more tooth can be cut in half, which is equivalent to an Earthwalking dragon, which can provide more than 800 crossbow arrows.

“Oh~!” shouts from everyone around him.

In less than half an hour, more than a thousand ground dragons were killed. Lu Yang got 200,000 teeth, and he threw them into the storage bag.

He led a group of people to move forward, passing through the Earth Xinglong Forest, to the foot of the Green Dragon Mountain, and a few green dragon puppets guarded the door.

When these green dragon puppets fell on the ground, they could see more clearly. Their bodies were 10 meters in length and 20 meters in wings, which was huge.

Lu Yang looked at Flem standing on his shoulders and said, “Now it’s time for you to exert your power, use Longwei to coerce them.”

“Is it useful?” Flim was a little embarrassed. He is a green dragon envoy, but these alien green dragons in front of him are all 9th-level lower gods.

Lu Yang smiled and said: "Of course it is useful. Their genes are dragon genes. They are different from the earth travel dragons outside. They are made of lower-level genes. They are not afraid of everything. These green dragons are in front of you. I'm still very afraid of Longwei, you try it."

"Yes." Flim flew into the air, and immediately aroused the idea of the surrounding green dragon puppets. This made Flim almost fall off with fright. You know, now he can't hold the green dragon puppet twice. Attack is almost death if hit.

"Roar~!"

Just as these green dragon puppets were about to attack Flim, a green energy radiated from Flim's body, covering a thousand meters around it in the blink of an eye. The green dragon puppet suddenly sobbed and crawled in place.

Green Dragon Puppet (coercive state): All speeds are reduced by 200%!

Lu Yang smiled and said to the surrounding Han Ying and others: "Rush up to kill these green dragon puppets and draw their fake dragon tendons."

"Yes." Han Ying rushed over with someone. Normally, the green dragon puppet, which should be bitten 10 times per second, can't bite even 3 times now, and the head turning speed has 2 seconds. For Han Ying and others, who are fighting at a speed of about 0.2 seconds, it is as boring as a normal person watching a movie that is 10 times slower.

"Uh~!"

"Woo~!"

There was a wailing sound. As Lu Yang moved forward, the surrounding green dragons died in large numbers. When Lu Yang came to the halfway of the Green Dragon Mountain, all the puppet green dragons were killed and Lu Yang received another 1,000. The dragon tendon, this dragon tendon is extremely long, and it can be used as a bowstring.

Lu Yang looked at Flem next to him with satisfaction, and said, "Now we have the Green Dragon King. You have to be prepared to see your grandfather."

Flam took a deep breath and said, "No matter what my grandfather becomes, I will defeat him. The green dragon needs the birth of a new dragon king. This is the continuation of the race. He failed. This continuation must fall on me. I have the responsibility to protect the race."

Suddenly, there was a very hollow sound in the distance.

"It is very good, my children and grandchildren, you understand the mission and responsibilities of the Green Dragon King. I, failed, and you let me see hope. You have the heart to inherit the Dragon King. Now, let me see your strength. ."

As soon as the voice fell, a giant dragon with a head of more than 30 meters in diameter suddenly walked out of the cave. With every step taken, the ground of the entire mountain shook violently.

Wood Green Dragon King-Noabek (Lord)

Level: Middle God Level 1

Qi and blood: 100000/100000

Noabek only had one head exposed from the cave, and then stopped moving, and the rest of his body remained in the cave.

"Damn bastard, Noabek, follow my orders. If you dare to resist, I will completely destroy your soul." A strange voice suddenly appeared in the mouth of the wood green dragon king, and the green dragon king's eyes changed from black. The eyes became golden.

"Hehe, how many years have I obeyed your orders, do you think I am willing? I am waiting for my children and grandchildren, my children, although I don't know your name, but since you walked into Green Dragon Mountain, I You feel my blood in your body, and there is not much I can do for you. Now, destroy me, destroy my head, kill me, you will have the strongest heritage of my green dragon clan, and

I can't hold on for long” After the misty voice, the Wood Green Dragon King went into madness, roaring and wanting to struggle out of the cave, but his body didn't listen at all.

Lu Yang said: “The opportunity is here. Everyone immediately attacked Noabek. We only have 1 minute to kill him. If we can't kill him in 1 minute, we all have to die.”

“God Flame Sky Burst”

...

Lu Yang raised his hands and tried his best to launch small golden fireballs, while Han Ying and the other little guys also attacked with all their strength, but the old Green Dragon King's defense and magic resistance were extremely high, and Lu Yang could only deal more than 500 damage from him.

Fortunately, the Green Dragon King couldn't attack at this time. Lu Yang, Han Ying and others could attack with all their strength. The melee lower gods rushed to the Dragon King's head and pierced his eyes.

90 thousand

80000

70 thousand

...

As the time of 1 minute became less and less, the blood volume of the Green Dragon King decreased faster and faster. Finally, in the last 3 seconds when the 1 minute was about to end, Lu Yang's sky burst through the Green Dragon King. Head.

System prompt: You killed Noabek, the green dragon king!

Chapter 1882 - Golden Dragon Crossbow

"I... finally got relief." Green Dragon King Noabek fell to the ground feebly, and a ball of golden energy suddenly burst out of his head. At the same time, another one was ten thousand times weaker than golden energy. The energy entered into Fleck's body.

"How come there is only such a weak energy." Flake looked at Noabek's body in the distance blankly.

From the golden energy in the air, a burst of green energy suddenly appeared, but then it was suppressed by the golden energy and returned to the inside of the light ball.

"Noabek, I will let you know what the traitor's end is like." The ball of light flew away in a flash.

"Hehe, I am not your subordinate. Why did you betray me, my child, it seems that you can't pass the inheritance to you once, and I will be here waiting for your arrival again." Noabek's The sound echoed in the space.

Flake looked into the distance sadly and said: "Lord Green Dragon Envoy, I will uphold your will."

System reminder: Trigger a new mission, Green Dragon Envoy Fleck will build a village in the Wanshu Forest!

Fleck turned his head to look at Lu Yang, and said, "Dear Lord of the Lower God, thank you for your help, but obviously, a single battle did not allow me to obtain a complete legacy of the Green Dragon King. I hope to be able to under your protection. Establish the Green Dragon Village, and you and your subordinates will help me continue to inherit."

Lu Yang was waiting for this Green Dragon Village. This is a good thing. Dragon-like creatures can't do anything else. In terms of finding treasures, it's an expert. Once Fleck establishes the Green Dragon Village, a large number of green dragons will appear here soon. They will issue tasks to players, and players can redeem many treasures from them.

For example, the starry sky gems that must be used to forge mid-level **** equipment, as well as some special items, can only be obtained in the hands of dragons.

"Of course, let me help you with this. The players of the Jagged Brotherhood are very willing to help our Green Dragon friends build a village." Lu Yang said.

"On behalf of the Green Dragon family, I thank you for your generosity." Fleck greeted slightly, then flew out of the copy and left.

Obviously, Fleck also knew what Lu Yang was going to do next, so he wouldn't join in the fun.

After Lu Yang smiled and watched Fleck leave, he came to the dead Dragon King and picked up a drawing.

Forging: Golden Dragon Crossbow

Materials needed: dragon tendons, dragon teeth, golden branches

Lu Yang squeezed his fist hard, what he wanted was this thing. Sure enough, the difficulty of a hundred people in the nightmare, the forging drawing of this golden dragon crossbow is bound to explode.

Although the damage is not visible now, Lu Yang knows that the damage of the Golden Dragon Crossbow is extremely high, and at this stage, this blueprint is absolutely impossible for other players to explode, because outsiders absolutely do not know the top-level lower **** long-range weapon , Can be obtained through this method unexpectedly.

He looked at the other objects on the ground. After all, he was the middle **** lord. A lot of good things were exploded. Among them, the best was a very beautiful staff. His front end was a large gem. The whole of the staff was The golden branches look like those made of pure gold.

Golden Dragon Wrath Scepter

Level: Lower God Level 10

God's physical attack: 100-100

God's spell attack: 150-150

God's Intelligence: +40

God's physical strength: +40

trick:

Dragon Cannon: Whenever a player who holds the Golden Dragon Wrath Scepter deals damage to the target, there is a 10% chance that the target will receive an additional Dragon Cannon strike, causing an additional 200 points of spell damage.

Lu Yang's eyes lit up and he handed the Golden Dragon Wrath Scepter to Han Ying, and said, "This is just right for you."

"Brother, you don't have any weapons yet." Han Ying shook his head.

Lu Yang smiled and put the staff in her hand, and said: "This is the most suitable for you. You have the most continuous damage skills. You can hang 7 continuous damage skills at a time. I am afraid that the damage will not be less than mine."

Han Ying is a lower **** who has been converted into a warlock. Among the primary skills, there are a large number of small skills with only 3 damage points. There are a total of seven, all of which are covered by the monsters, so that they can deal 21 points of damage per second. With the Golden Dragon Wrath Scepter, it's different.

Although the 10% probability of each skill is calculated separately, with good luck, there is often a probability of triggering 3 to 4 skills at the same time, and the damage is very considerable.

"Okay, then I'll take it." Han Ying replaced the Sacred Fire Staff and equipped her with the Golden Dragon Wrath Staff.

Lu Yang looked at other objects again, and a dragon crystal burst out of his head.

Mutant Dragon Crystal

Description: A special thing, no one knows what it can do!

Lu Yang was a little bit emotional. No one knows what this thing is for now, but he knows that with this thing, he can redeem the most buggy air combat class in the game-Demon Dragon. Normally, the explosion rate of this thing is very low. Yes, I didn't expect it to burst out here too.

In the Druid's transformation class, the dragon is normally not ranked in the top ten, because the dragon does not have a special attack method. In the close single challenge in the air, the archangel and the black iron war eagle are all abused. Even the vultures are not inferior to the dragons. The reason why the dragons are strong is because in the lower **** stage, the dragons have the fastest moving speed and the fastest turning speed. There is also a temporary Acceleration skills.

At the beginning, no one noticed the profession of Demon Dragon. Everyone was pursuing the combination of Archangel, Black Iron Warhawk and other arms. Later, some players researched and used Demon Dragon to match the Golden Dragon Crossbow, allowing the Demon Dragon to play in air combat. Splendid.

Lu Yang decided to turn the first Devil Dragon into Yun Yu. He said, "Let's go, go outside and see where Fleck chose to build a village."

Han Ying and the others nodded. As Lu Yang came to the outside of Zijinmeng, they saw Fleck standing not far from the door of the dungeon. At this time Fleck had transformed into a human form, wearing a green costume and a dragon horn on top of his head. .

There were also more than a dozen green dragons around him, each of them transformed into a human form, and the names above them were the elders of the Green Dragon Palace.

“The inheritance I got from my grandfather has greatly improved my strength. Now I can summon my people here. In the future, they will release tasks with me. I think our Green Dragon clan will have Good development,” Fleck said.

Lu Yang smiled and nodded. As his strength increased, Fleck would definitely have more desires to let the Dragon Race possess the strength of the New World Protoss, which was obviously his current idea.

“I will try my best to help you achieve what you want.” Lu Yang said.

Flake eagerly asked, “When will we enter the Zijin Dreamland again?”

Lu Yang said, “Wait for me.”

The golden dragon crossbow needs to be forged. The next copy has something very important. He issued an order, and Mu Yi led more than a dozen blacksmiths over, followed by Yun Yu.

Lu Yang handed him the forging drawing of the golden dragon crossbow, and said, “Follow this.”

“Golden Dragon Crossbow?” Mu Yi studied the drawing with some curiosity, and said: “It looks like a good weapon. I don’t know how it works. I’ll try it.”

Lu Yang nodded and stood aside, watching Mu Yi get busy. The golden dragon crossbow is made very simple, because the golden branch itself is the primitive form of a crossbow, and the middle part of the branch is very wide, and one slot is a quiver. .

The remaining problem is the dragon tendons. One dragon tendon of the flying dragon can be folded six times, and a conveyor belt and an arrow chain can be made inside.

After Mu Yi was busy for 2 minutes, a golden crossbow was made. The length of the whole crossbow was 34 cm, and it could be controlled with one hand.

Golden Dragon Crossbow

Level: Level 9 of the lower god

Physical damage: 30-30

Range: 100 meters

Description: This is a special weapon. It has a huge arrow box that other crossbow arrows do not have. It can store 24 crossbow arrows and the ability to automatically replenish arrows. Crossbow arrows can shoot 24 arrows within 1 second, but it takes 10 seconds to replenish the arrow time.

In other words, the attack cooling time of this crossbow arrow is 10 seconds. Although the damage is high, there are dragon teeth arrows. Each dragon tooth arrow has 20 damage points, which is equivalent to this golden dragon crossbow. The actual damage is 1200 points per attack.

Mu Yi said: "If you give me time, I can still carve a dragon head out."

Lu Yang laughed. Now Mu Yi has really become a master craftsman. Not only is he a master of craftsmanship in the game, but also in reality. The tables, chairs and benches at home are all made by Mu Yi. This kid is also a holy city. Later, his sister Mu Yu married, and he had to make everything from his sister's house. Mu Yu was ridiculed and chased his brother for a long time.

"If you have time in the future, give Yun Yu a try first." Lu Yang handed the crossbow arrow to Yun Yu, and said, "Look at this one."

Yun Yu is still in a state of little understanding of the game, but his sensitivity to weapons is very high. He said with bright eyes: "This weapon is too good. The biggest feature of air combat is that the reaction speed is fast, and the fighters are fleeting. The attack must be continuous. This continuous shooting weapon is very suitable."

Seeing the cooling time, Yun Yu scratched his head again and said, "It's just that the cooling time is too long."

Lu Yang smiled and said, "If I tell you, I will equip you with 6 golden dragon crossbows."

"Six?" Yun Yu was a little surprised. He could see that Lu Yang had just obtained this thing. He hadn't heard of anyone else who came to Game City, but Lu Yang had a team of elites trained by Han Zhong. The individual reaction speed is below 0.2 seconds, but he listens the most times.

Now these elites are following Lu Yang's side to open up wasteland. Obviously, this copy is extremely difficult. In this case, he must be equipped with 6 first. Yun Yu said excitedly: "If it is six, the weapon cooldown time is definitely OK. Loop, but I want to make a request, I want 12."

"So many." Mu Yi looked at Yun Yu in surprise.

Yun Yu stretched out his hands and said: "I am born with a balance between my left and right hands. I can write with both hands. I can also draw a square with my left hand and a circle with my right hand. There is no problem with both hands."

This is an extremely difficult thing. Among 10,000 people, I am afraid that there is no one who can do their own things with the left and right hands.

Lu Yang now understands why Yun Yu was so strong in his previous life. He is equivalent to two people alone, with super-high reaction speed, years of air combat experience, and the ability to do different things with each hand. UU Reading com gave him the upper hand in the heads-up.

"Okay, I will give you 12. Starting today, Mu Yi and the brothers from the forge are here to make golden dragon crossbows and crossbow arrows with all their strength. We are drawing drawings and materials

in the dungeon. Yun Yu and the air force brigade are in Wanshu Forest. Training outside, in a week, the enemy will come, I need to see your results.”

“I will try my best.” Yun Yu said.

Lu Yang handed Long Jing to Yun Yu, and said, “Use this Heavenly God City to find the lord of the city, and you can exchange it for a way of transforming a dragon, I believe you will like it.”

“Uh, I’ll try it.” Yun Yu left.

Lu Yang led people into the copy again. Mu Yi and the people around him began to make it, but someone complained and said: “The boss is too kind to Yun Yu, I really don’t know what this person has.”

Mu Yi said with a smile: “To do our own thing, we need to provide good logistics, and don’t talk nonsense about others.”

“Oh.” The man complained. They were all the elders of the Jagged Brotherhood who started with Lu Yang. They really care about the development of the guild, and they are skeptical of people they don’t recognize.

Chapter 1883 - Yun Yu debut

When Lu Yang led the people to paint the Purple Gold Dreamland again, Yun Yu excitedly ran back to the Ten Thousand Tree Forest, and saw Mu Yi doing a bow and arrow, and said excitedly: “Xiaoyi, the boss.”

“What’s in the copy.” Mu Yi asked with a smile: “What’s wrong?”

Yun Yu said excitedly: "It's incredible. This monster is too perfect for him. With this profession and the golden dragon crossbow, it's really too..."

He wanted to brag, but he was embarrassed in front of outsiders. Mu Yi didn't care. He smiled and handed the other 11 golden dragon crossbows and more than 2,000 dragon tooth arrows to Yun Yu, and said: "Everything Here, the boss said, let you make contact casually."

Someone next to him said: "The boss has never been such a coolie for others. You Yun Yu is the first."

Yun Yu smiled, feeling very moved in his heart, and said, "Don't worry, I won't let the boss give in vain."

As soon as the voice fell, there was a warning sound from the player in the distant sky.

"Be careful, everyone, the remnants of Gerz are here again."

In the sky, more than one hundred archangel players are constantly evading the detection of the Condor Legion under the cover of clouds.

Compared to Stephen's defeat and his cousin taking the opportunity to take the right away, Gerz is also in the same situation. After the defeat, Gerz quit the game and his subordinates went their own way. After being defeated by Lu Yang one by one, they all surrendered. The Brotherhood, the only one that has not yet surrendered, is also the smallest, but also the most difficult one, is the Air Combat Corps led by Gerz's cousin Chavez.

The total number of this air combat corps is only more than 800 people, and it has been erratic in the area from the Orange Fortress to the Moon Shadow Fortress.

Most of the players who saw Chavez under Jelz pretended not to see them and did not take the initiative to attack them. Those surrendered vice presidents were not embarrassed to be enemies with Chavez, and Chavez Si and his men are among the elite of Jerz's men. The average person can't beat them. In several battles, the Vulture Corps defending the internal area was defeated by Chavez. It's getting rampant.

“Guys, the prey has appeared again, let’s kill them.” Chavez found Mu Yi and the others, and flew over Mu Yi with a grinning smile.

Just when they arrived around Mu Yi, a dozen vultures from the Vulture Legion who were responsible for protecting this area flew over and rushed to meet Chavez.

According to Lu Yang’s request, anyone who died in the fight to protect his brothers would be compensated. Therefore, the condor from Thailand was also very desperate.

“If you want to kill, pass our level first.” Nava, the leader of the condor, rushed towards Chavez.

“Give me to die.” The long angel stick in Chavez’s hand lightly slapped Nava’s head, which was changing directions, and Nava was beaten to death in an instant.

Mu Yi looked at the battle in the sky and said with a smile: “It is said that Chavez is a master, it really doesn’t mean to flatter, this person’s reaction speed should be under 0.2 seconds.”

“Did you see Yun Yu? Why was it gone just now? Didn’t you run away?” The person next to him said.

Mu Yi smiled. He didn’t know where Yun Yu was, but he was confident to kill the more than 800 people under Chavez. Compared with others, his reaction speed was very close to that of Lu Yang, in 0.1 second. Next, and his body is full of Thunder of Killing, if Chavez dared to trouble him, he wouldn’t mind destroying the 800-person team alone.

As everyone continued to look into the sky, Chavez had already completed the third kill. Just as he was cheering and shouting in excitement, suddenly, the clouds beside him suddenly burst out with a black giant Player with dragon wings.

“Old and big heart.” The three people around Chavez quickly blocked Chavez’s side with their bodies. At this moment, this person held a golden dragon crossbow in each hand.

“Swish”

“Swish”

...

A series of breaking through the air sounded, and the dragon tooth arrows of the two golden dragon crossbows in Yun Yu’s hand poured out. In the blink of an eye, 48 crossbow arrows hit the two archangels, and after hitting, they passed through the bodies of the two, and shot them. Several players behind them.

“Uh ah~!” The screams continued, six archangels were killed on the spot, and they fell from the air, and Chavez was also dying of blood.

Yun Yu didn’t expect that Chavez would be quite resistant to the beating. He turned and flew away. Chavez saw this scene and cursed violently, “Chasing me and killing him.”

The hundreds of people didn’t need to talk about Chavez, they had already chased Yun Yu in the form they had always been.

The height of the archangels is more than 2 meters, while Yunyu’s dragon is only six meters tall. The dragon in the sky, like a falcon, flies up and down in the air, and will be in the clouds for a while. After being outside the clouds, he didn’t just run away blindly, but constantly made dodge movements.

Mu Yi and others, who stood below watching the chase, frowned, and someone asked: “I don’t think Yun Yu is like fighting, but playing tricks.”

Mu Yi said with a smile: “It’s been a long time since I flew in the sky. It’s rare that there are so many people, he is so happy.”

“Don’t be too happy, play yourself to death.”

Everyone nodded. They still don’t think Yun Yu’s strength. After all, so far, every command of the Iron-Blooded Brotherhood has been played out in **** battles. In front, there are deputy leaders such as Xia

Yuwei and White Lion. There are the big army commanders of special army groups such as Liu Yunpeng and Wan Zhonghui, followed by Li Mao and Tao Fei of the Spider Sisters' **** battle at Flint Mountain.

It was the first one like Yun Yu who suddenly emerged as the commander of the entire air combat corps. The commander of the large army is the vice-chairman above him. The promotion speed is so fast that it is impossible not to be jealous.

Yun Yu didn't care much about it. If Lu Yang hadn't had to let him stand in this position, he would rather be an ordinary instructor, but he enjoys the pleasure of close duels. It is clear that the attack range of the golden dragon crossbow is 100 meters. , Obviously he can fly out of the enemy's circle quickly, but he just enjoys this feeling.

"Death to me." An archangel finally chased Yun Yu, and the long stick in his hand struck Yun Yu diagonally.

This stick is very particular, basically blocking all of Yun Yu's offensive routes, unless Yun Yu uses the golden dragon crossbow, but at this distance, it is too late.

Chavez was very satisfied when he saw the person who chased Yun Yu. This was his number one general. His reaction speed entered the range of 0.13 seconds. He didn't think Yun Yu could escape the chase, but at this moment, Yun Yu In this way, he abruptly avoided the attack of the stick and got to the side of the archangel.

"Long Sword Randomly Cut"

Two war knives appeared in Yun Yu's hand, and they passed the neck of the archangel with an attack speed of 0.1 seconds, and the archangel was killed on the spot with three strokes.

Chaveston showed horrified eyes and roared: "Come on together, kill him for me. This person's reaction speed has entered 0.1 second."

The surrounding archangels rushed up again quickly. but Yunyu did not rely on the golden dragon crossbow, so he took them up and down again and again and suddenly fight at close range, just after 10 minutes, He killed more than 100 archangels.

“Go on and kill him.” Chavez was already mad, and continued to roar and order his men to attack. He couldn’t figure out why 800 people were chasing and killing him. Not only could they kill him, but he also killed him. More than 100 people.

Not only did they fail to understand, but Mu Yi and the others below also did not understand. Not even experts could not see why, but Mu Yi could vaguely see that Yun Yu was actually bullying people.

In the basketball world, there is a saying that seniors sell high, that is, I am much taller than you, and you just can’t get my ball. In the game, there is a saying called sniper.

The two attacked each other at the same time, and the party with the faster reaction speed would attack first than the party with the slower reaction speed.

The archangel is known for close combat, and can only attack with a long stick, but every time Yun Yu attacks, he is in front of the opponent’s archangel. Before the opponent’s stick hits him, the two swords pierce the opponent’s throat at the same time. , And the opponent hit Yunyu after relying on inertia, but it was not considered as injury, because the official judgment was that the opponent was already dead and the dead could not cause harm.

Chapter 1884 - High intensity training

Mu Yi shook his head and said: “Fortunately, it is a comrade-in-arms, otherwise, there is another disgusting person.”

It is not terrible to control the enemy with one move, and the long-range sniper is not terrible. The most terrible is Yun Yu. He seems to be killing him again and again, but he kills the enemy again and again, clearly not losing any blood. But it seems to die at any time.

This kind of player who gives hope to the enemy at any time and keeps the hope of the enemy shattered is the most disgusting person. However, Yun Yu himself in the sky does not have this idea. He purely wants to test the various aspects of the profession of Demon Dragon Index parameters.

After testing more than 100 people in a row, he was convinced that what Lu Yang told him was true. The golden dragon crossbow in this class was really too buggy, so he took out the two-handed dragon crossbow.

In the pursuit of hundreds of people, when he suddenly turned, he reversed the volley, pulled the trigger with both hands, and the crossbow arrows connected in a straight line in the air, instantly hitting four players.

“Uh~!” The four fell from the air, and the feeling of weightlessness caused them to scream.

Chavez watched the four players who stood in front of him died again. He knew that Yun Yu was here for him. He gritted his teeth and roared: “If you have the courage to use long-range weapons, you should fight me one by one. “

“I’m stupid, so many of you.” Yun Yu turned back in a volley again, and when he skipped 50 meters in front of Chavez, replaced the golden dragon crossbow in his hand and fired the crossbow again.

“Swish”

“Swish”

“Swish”

...

Dragon Tooth Arrows crossed the sky, and at high speed, Dragon Tooth even gave out a golden fire light. Players on Chavez’s side clearly saw the fire, but no one could escape and was constantly hit by Dragon Tooth arrows. kill.

In just over half an hour, Yun Yu killed more than 500 people with a golden dragon crossbow alone. Looking at the remaining hundreds of people, Yun Yu smiled on his face and launched another charge.

“Retreat, retreat, all retreat, this man is a lunatic.” Chavez no longer dared to fight Yun Yu, and quickly greeted his men to escape.

Chavez’s players, who had already lost the will to fight, quickly turned around and fled, but at this moment, a large number of archangels appeared behind them.

Zhou Yuntian and Shen Yu took the lead. They received the order and personally brought their men to fly from the Black Rose Fortress to receive training. Seeing the enemy in the air, both of them showed eager expressions, but they didn’t wait for them to catch up. , Yun Yu never left his hand anymore, the golden dragon crossbow kept shooting. When Zhou Yuntian and Shen Yu chased 30 meters away, and they were about to attack, the last enemy was also killed by Yun Yu’s golden dragon crossbow. .

“Master, you, you...” Shen Yu said with an unhappy expression: “Well, keep one.”

“Next time, next time, definitely.” Yun Yu smiled and said: “Master, this requires a record, this time it is stable, and I will take you to fight in the future.”

The two also knew that Yun Yu was under a lot of pressure right now, and he was the commander of the big army at the beginning, which made everyone want to see what strength Yun Yu had.

Zhou Yuntian couldn’t help asking: “Master, how many people did you kill just now?”

Yun Yu said: “More than 800 people.”

“How much?!” Both of them were dumbfounded.

Yun Yu said triumphantly: “There are more than 800 people, of course, mainly relying on the golden dragon crossbow, this weapon is too buggy.”

He sent the pictures of the kill numbers to the group. This thing cannot be faked. Yun Yu's account is new. The upgrade depends on Lu Yang's duck-feeding experience ball. He reached level 181 all the way, so Yunyu account The number of kills on is always 0.

When the two saw this, no one could calm down, not only the two of them, but the other archangels who followed and the blacksmiths behind Mu Yi on the ground were not calm.

A flash of light flickered.

Lu Yang walked out of the copy, and he finished it again. Seeing everyone's excited expressions, he smiled and asked, "What's wrong."

Mu Yi said with a smile: "Brother, where did you find this master, it's too strong. Just now one person singled out 800 people and killed all of Chavez's more than 800 archangels."

When Lu Yang saw the video sent by Mu Yi, he knew how Yun Yu fought in a short glance. He laughed and said, "Let me just say, Yun Yu is qualified to be the commander of the army."

Mu Yi nodded and said, "It's really amazing."

Yun Yu fell on Mu Yi's side and changed back to a human form. He excitedly said to Lu Yang and Mu Yi: "The golden dragon crossbow is too buggy. It must be mass-produced."

Zhou Yuntian and Shen Yu nodded excitedly.

Lu Yang smiled and said, "I'll do my best, but you can see that it takes more than 40 minutes to fight and requires a professional team. It's too difficult."

Mu Yi nodded. There were only so many people in the entire guild whose reaction speed was within 0.2 seconds. Many of them were still monitored in various areas. Areas such as Gertz, Tom, and the G8 were not at peace, and there was always fighting. It's not easy for so many people to come out to make copies.

“You practice first, let’s try our best.” Lu Yang didn’t have a better way. He handed over the second forging formula to Mu Yi, and brought people into the copy.

Mu Yi knew that the time for overtime had come again, and started to make it quickly, after a busy week.

Lu Yang produced more than 60 forging formulas. At the same time, he obtained more than 1,000 golden dragon crossbows, and two million dragon teeth arrows. The most fortunate thing for Lu Yang was that the mutant dragon crystal he got 100 This means that he formed a 100-man air combat brigade.

Han Ying had good luck here, and had obtained more than one hundred golden dragon wrath scepters. At this point, Lu Yang had escaped, and he didn’t need him to follow the copy.

Among the 99 players under Han Ying and his team, melee and long-range each account for half. Now the long-range are equipped with the Golden Dragon Wrath Scepter. The sum of 10 people on uukanshu.com is equal to one Lu Yang.

“Boss, I can’t wait to see when we will go to Chekova and the others again.” Zhou Yuntian asked after returning to Lu Yang after completing the training again.

Lu Yang smiled and said, “You need to continue to practice heads-up combat. Have you seen the reserves this time? At least half of the Dragon Tooth Arrows can be used up before you can go out to fight. Otherwise, this battle will not take you there. “

Zhou Yuntian looked at the two million Dragon Tooth Arrows beside him, showing a serious expression. He knew how hard it was for Han Ying to fight Dragon Tooth Arrows and how difficult it was to fight the dungeon, but Lu Yang still let them use it. If you cut half and join the war, everything is to ensure the victory of the war.

“Boss rest assured, I must take my brothers to train hard to ensure that I win the next war.” Zhou Yuntian said.

Lu Yang nodded in satisfaction and said, “Go, continue training.”

Zhou Yuntian flew away, and on the other side, Lennon was also leading people to fight. There has never been a moment when Lennon was so excited, because the major guilds actually collected 70,000 sets of the archangel for him. He was equipped with job materials and lower gods. Now he has 70,000 lower god-level archangels. He feels that he is invincible in the world.

Chapter 1885 - The first large-scale air battle

Chiefs fortress.

In the temporary meeting hall of the east gate building, Chekova, Mitoemon and others are sitting together and smiling at the 70,000 archangels outside.

“I want to attack. Today I will attack the Tuntian area of the Jagged Brotherhood.” Lennon said excitedly. He doesn’t know who else can stop him, but if he wants to attack, he must have an agreement. The permission of Kova and others, especially the scrolls provided by Chekova, Liu Jie and others.

Chekova, Liu Jie and others glanced at each other, and they both smiled and nodded. Chekova said: “My dear Lord Lennon, the time of the attack was this afternoon, which is the second half of the night in the Jagged Brotherhood. .”

Mitoemon said: “The scrolls and other materials are on the way and will be distributed at noon. I hope you can successfully blow up Luyang’s Tuntian area and win this air battle.”

“Leave it to me.” Lennon’s excited eyes were red.

He turned and left, and jumped into the sky, looking at the men in front of him who were training close-range combat in the air and said with satisfaction: “Brothers, the battle is just this afternoon. Everyone is ready. Let’s go to the iron-blood brothers. The Tuntian area of the League.”

“Roar~!”

Seventy thousand archangels screamed in excitement one after another. They had been waiting for too long, and the day had finally arrived.

The other side.

At noon on Lennon’s side, it was late at night on the side of the Jagged Brothers. Tu Feng immediately passed the news to Lu Yang, which made Lu Yang show a relaxed expression.

During this period of time, Lennon’s 70,000 archangels were like long swords hanging on Lu Yang’s head. He didn’t know when they would fall down.

If Lennon’s sneak attack is really successful and the Tuntian area of the Jagged Brothers is bombed, the damage to the players of the Jagged Brothers is immeasurable.

As long as they are successfully bombed once, it is equivalent to losing more than 3,000 credits. If bombed twice a week, their income will be halved. If bombed more than three times, their efforts this month will be wasted.

This kind of job in Tuntian is very boring and boring. It can make money. Players can bear it a little. If they can’t make money, they can fry the pot.

The fryer of 6 million people would easily bring a devastating blow to the entire guild. Lu Yang seemed to be nothing unusual during this period, but in fact he was always worried about these things.

Now, the enemy’s attack time has finally been determined, and he can deal with it calmly. Now there are 100 members of the Dragon Legion of the Jagged Brotherhood, 30,000 of the Archangel, and 30,000 of the Dark Iron Hawk, including 1,500 of the Dark Iron. The war eagle and 1,000 archangels hold the golden dragon crossbow in one hand.

As for the war in the latter half of the night, Lu Yang was not afraid. Han Zhong also had a lot of night training for the archangel and the black iron warhawk, not to mention that he already knew the enemy's actions.

"Tell all the archangels and the Black Iron Warhawks that the enemy arrived at the Heavenly Sword Fortress at 3 a.m., and now everyone is going to sleep and going online in the middle of the night." Lu Yang sent a message to Yun Yu and Zhou Yuntian and other commands.

The boring Zhou Yuntian and others who had been training for a long time passed on their orders with excitement, and more than 60,000 players quickly quit the game and fell asleep.

Lu Yang also took a rest. He also had to participate in this battle. Although Phoenix was too large and was extremely vulnerable to attack, it was not impossible to solve it. One of the best ways was to reduce the potion.

It is a pity that the shrinking potions that can be used by the lower gods have not been manufactured or exploded so far. The only place that can be found is in the forest of thousands of trees. When the fruits are opened, there is a one-tenth chance that they can be opened. Come out to shrink the potion.

Lu Yang opened the fruits in the Wanshu Forest. The little girls from the sister group were in charge. They no longer knew that they had opened millions of fruits. The satisfaction of opening the fruits every day made them enjoy it. As of today, when we gather together, reduce the potion. A total of 112 were obtained.

Reduction potion (lower god)

Description: The lower **** can be reduced to half its original size. The length of the normal phoenix is about 5 meters, and it is reduced to 2.5 meters, which is similar to the height of the archangel. However, shrinking the potion also has disadvantages, that is, after being touched by the enemy, the potion is reduced. It will immediately fail and return to its normal form.

"Boss, don't take part in this battle. If there are Yunyu and others, can you just watch it?" Li Mao, Tao Fei and others persuaded.

Lu Yang smiled and shook his head, and said, "When you all grow up to be independent, I won't have to go out to fight, the boss. I learn from the big bosses to travel every day and tell everyone how strong our guild is. Wait It's listed, you guys, everyone has a share, and work hard."

Girls like Li Mao and Tao Fei looked at Lu Yang in surprise. They didn't expect Lu Yang to tell them this. Li Mao said blankly, "Really, boss?"

Lu Yang smiled and knocked on her little forehead, and said: "The distance is still a little far away, but you can see that as long as we can completely occupy the New World, listing will become inevitable."

"We must work hard to help the boss occupy the entire new continent." Li Mao said with excitement.

Lu Yang smiled and nodded, and said, "I have done it, and be prepared. The next stage of equipment upgrades depends mainly on you."

"Yes." Li Mao and Tao Fei said together.

Lu Yang used the teleportation scepter to fly to the Heavenly Sword Fortress. Before the enemy came, he also took a rest. He also thought about the company's listing.

After the Jagged Brothers really lays down the entire new continent, he will definitely put the Jagged Brothers on the market. The stocks will be issued to his own people first, and when he returns to the old continent in the future and sells the assets of various countries, the money earned can be used by his men. Every brother makes money, at least for a few years, they don't have to worry about money anymore.

As for himself, he has enough money, he can't spend dozens of his life, and he can't spend it on changing a sports car in a day. For money, he really has no desires.

Zhou Tianming, Xia Yuwei and others came to the wall of the Heavenly Sword Fortress and saw Lu Yang lying on the ground looking at the stars leisurely, and they all lay beside Lu Yang with a smile.

"Boss, I'm in a good mood." Zhou Tianming said.

Lu Yang smiled and said: "You don't know, I am actually very worried about the 70,000 archangel's sneak attack. Now that the stone in my heart has finally fallen to the ground, I am not worried anymore."

Xia Yuwei sighed and said, "We are okay. Your pressure is indeed the greatest, and it makes me feel uncomfortable for you."

Lu Yang smiled and said, "Who made me the boss? I have to bear it. I have to bear it. In fact, I am not afraid of your jokes. I even think about how to deal with the aftermath after being attacked."

Zhou Tianming said solemnly: "Boss rest assured, there will never be the situation you think. We will definitely win today's battle."

After so long of training and the secret weapon, the Golden Dragon Crossbow, he really couldn't think of any failures. The most important thing is that when his group of little guys were training, they were trained by Han Zhong.

Although they have not experienced the battlefield, the killing intent shown by Han Zhong in every training is unknowingly transferring them. These 30,000 archangels are all first-class masters in aerial combat. .

Lu Yang took a deep breath and said, "Believe you, and I believe in myself, you are all my choices, and I won't miss you."

Everyone laughed, and for a while, the wall became quiet. I don't know how long it took, and a voice gradually came from under the wall.

"The first team is assembled."

"The second team is assembled."

...

Zhou Yuntian, Debumeishi and others ordered their men to assemble in advance. In less than 20 minutes, more than 60,000 players had assembled and stood under the city wall.

Zhou Tianming ran down and inspected, and found that everyone was full of energy and not in a state of sleepiness. He returned to Lu Yang and said, "Very good. You can join the war at any time."

Lu Yang smiled and nodded, and said, "Let's go. Everyone lifts off. This time I will join the battle. Let's kill all the 70,000 archangels of the enemy."

"We are here to protect you." Zhou Yuntian said.

Lu Yang laughed, using the shrinking potion to change into a phoenix form, and said, "I am the same height as yours, so I don't need to protect me. Besides, I can also use the golden dragon crossbow with both hands. Don't taste the corpse and become upset. The wings are by my side. Everyone keeps separate positions according to the practice. Don't let the enemy gather fire. Remember, the enemy also has a long-range weapon called the Ten Thousand World Artillery. There are 500 points."

Everyone nodded. Lu Yang had emphasized this matter many times. According to the order, the group immediately flew into the sky and flew towards the chief fortress.

This time, Lu Yang's idea was to suppress the battle in the frontline area of the Chiefs Fortress and not give the enemy a chance to enter the area of the Jagged Brotherhood.

After the action of the Jagged Brothers, the other side, who was on Lennon's side in the afternoon, was also preparing for battle in the Chiefs Fortress.

"What? You said that the Air Force of the Jagged Brotherhood is taking off?" Lennon frowned and asked with the phone.

In the gate tower on the east wall of the Chiefs Fortress, Liu Jie said: "Unfortunately, this is a fact. We don't have spies inside the Heavenly Sword Fortress, but we have spies watching outside all the year round. I just discovered that the archangel of the Jagged Brotherhood Both the Black Iron Warhawk and

the Phoenix Legion have been lifted into the air. It is impossible to determine whether Lu Yang is among them.”

“Damn it, I’m ready to go to war.” Lennon yelled and dropped the phone directly. The flight time from Heavenly Sword Fortress to Chiefs Fortress is still more than half an hour. If the enemy Come here now, his subordinates have not completed the entire team in the air, not to mention that some of his subordinates have not finished receiving the scrolls.

“Ascension, everyone ascends into the sky, the people from the Jagged Brotherhood are here.” Lennon roared.

The Polish archangels who were wandering in the safe area of the Chiefs’ Fortress flew into the sky one after another, and many players who had no supplies also flew to the sky to prepare for melee combat.

Lennon sneered holding the Ten Thousand Realms Cannon and said, “Let the Jagged Brothers Air Force come. I want them to see the power of Ten Thousand Realms Cannon.”

An attack with more than 500 points of damage, except for Lu Yang and a few people, most of the vitality and blood are less than 500 points, which is equivalent to death. Now on Lennon’s side, there are more than 3,000 players holding such artillery.

However, the disadvantage of Lennon’s side is very obvious, that is, each of them only has one artillery, and they have to wait 3 seconds to use it. This is not the case for the Jagged Brothers. Although only more than 1,000 people are equipped with the golden dragon crossbow, each of them There are six.

Chapter 1886 - Advantages of weapons

The biggest feature of air combat is that there are clouds in the sky. They can be used for concealment and sneak attacks, and the range of each cloud is extremely large.

As far as the Jagged Brothers and Lennon's air team are concerned, both teams are mainly close combat teams, so they are trying their best to avoid fighting in the dark clouds.

Especially now in the most primitive air combat, Lennon thought that the Jagged Brothers did not have long-range attack weapons. Therefore, when Lennon saw the Jagged Brothers leading the attack, he directly shouted: "All attack. , Kill the players of the Jagged Brotherhood."

"Kill~!" The 70,000 archangels that Lennon had already lifted into the air lined up in a battle formation with a diameter of five kilometers and a thickness of nearly 100 meters above and below, and rushed towards the side of the Jagged Brothers. .

When Yun Yu saw this scene, he knew Lennon's thoughts. He sneered and shouted: "Rush up and fight the enemy close to you. The Golden Dragon Crossbow Army flew with me to the flank, and we passed through the dark clouds."

The same words were also shouted from Lennon: "Ten Thousand Realms Artillery Legion, follow me through the dark clouds and strike the flanks of the Jagged Brotherhood."

In this way, the long-range professions on both sides accidentally crashed into the dark clouds together. Lu Yang did not follow in. He believed that Yun Yu could lead the air team to defeat the enemy. If he went, it would be a drag on Yun Yu and others. It's better to kill people here.

The air combat players on both sides formed an area nearly ten kilometers wide in the sky. Since the area was so wide, his battle seemed simple. Seeing the dozens of archangels rushing in front of him, he did not evade, his hands appeared at the same time. Golden Dragon Crossbow.

"Swish"

"Swish"

"Swish"

...

Just like a MiG fighter equipped with a heavy machine gun, it swept at the enemy. A single dragon tooth arrow shot more than 50 points of damage. Lu Yang deliberately replaced the physical output equipment, so that Lu Yang shot The Dragon Tooth Arrow that went out actually hurts more than 150 points, and a normal lower-level **** who has just changed his job will never exceed 100 points. Therefore, when Lu Yang strafed like this, the direct result was that he rushed in front of him. These dozens of players were all shot to death.

“Cool~!” Lu Yang secretly said. This fight is cool. It’s more comfortable than a land fight. It’s just like bullying. Anyway, he knows that Lennon’s lower gods have just been transferred for less than a week, Liu Jie and Mitoemon had just gone through a big battle, and it was impossible for Lennon and them to have too good equipment.

It is estimated that they are all the conventional equipment of lower gods from Tier 1 to Tier 2. Lu Yang now kills as he wants to kill. Seeing that the enemy has dozens of people rushing over, he slammed into the enemy, before the enemy came over. Replace the golden dragon crossbow with both hands.

“Swish”

“Swish”

“Swish”

...

Another rain of arrows struck past, and dozens of archangels were killed, which made the archangels around them a little confused.

“What kind of weapon is this person holding. The damage is high and he shoots infinitely. How to fight?”

“No, this person looks so familiar. This is Lu Yang, the president of the Jagged Brotherhood. The shape of his transformation is just reduced.”

“The president of the Jagged Brotherhood, quickly kill him.”

“Go together.”

The surrounding archangels discovered the existence of Lu Yang and rushed towards Lu Yang.

“Protect the boss.” Debu taste the dead yelling.

Lu Yang yelled, “Don’t come here. It’s hard to get around for a while, let me kill you, and you will come back.”

Do not taste the corpse: “...”

Becoming upset: “...”

“Is this okay?” a phoenix flew beside Debumei Corpse and asked.

Debu taste the corpse and said, “Look at the enemy’s equipment, you know that they are all rookies, the boss is going to bully people.”

Just as Debumeishi said, Lu Yang had basically not moved when he stood there. None of the archangels rushing from all directions could approach within 50 meters. From entering the range of 100 meters, it belonged to the shooting range. Within, the archangels rushing towards Lu Yang almost died in pieces.

Even when attacking from the top of his head and from under his feet, Lu Yang never left one. Just like playing a gunfight game, he easily and happily killed hundreds of Lennon’s archangels to the ground.

“Boss, Lu Yang is personally participating in the battle. He is using a weird weapon to continuously shoot and attack. We need support.” The players under Lennon couldn’t see it, so they had to send a message to Lennon.

Lennon who was flying in the clouds heard this, his eyes lit up and said, "Wait, we will be out soon."

As soon as the voice fell, Lennon ran into the flying dragon, Yun Yu, and the two almost collided face-to-face. Fortunately, both of them were quick-reaction players. At the same time, they turned, turned around, and fired at each other.

"Boom"

"Swish"

"Swish"

"Swish"

Lennon only fired a shot, and Yunyu on the opposite side shot 48 arrows with the golden dragon crossbow in his hands. Fortunately, Lennon had a fast reaction speed. He escaped the attack after desperately turning back several times in the air, but was also bruised once.

Seeing the blood tank with a blood volume of nearly 80 points, Lennon was startled in a cold sweat. If he was attacked again, he would have to die, and Yun Yu was also a little frightened. The Ten Thousand Realms Artillery just wiped his cheek. In the past, if he was hit, he would definitely die.

This is the characteristic of aerial combat. It's just a hit if you hit it. If you miss it, you can live. This scene of walking on the tip of a knife and dancing in front of the **** of death makes people always want to stop.

"Come again." Yun Yu was aroused. He did not rush to face Lennon, but with a dexterous posture, he used the golden dragon crossbow to shoot while turning back and dodge from a long distance.

Lennon looked at the dragon's tooth arrow that was shooting over the sky for a while, because Yun Yu's weapon had no attack cooling, but his Ten Thousand Realms artillery had a 3 second cooling time.

“Boom”

After 3 seconds, Lennon finally waited for the weapon to cool down and fired a shot at Yun Yu, but Yun Yu couldn't let it go. Then, Lennon began to be passively beaten for 3 seconds.

Yun Yu also reacted. He didn't need to evade all the time. He only needed to wait for the opponent to shoot and chase him for 3 seconds, and then it would not be too late to evade.

Therefore, Lennon was tragic next. Yun Yu was chasing and shooting 48 dragon tooth arrows in both hands of the golden dragon crossbow for 1 second.

If there was a camera at this time, Lennon would be in a state of embarrassment, just like a person shooting a bird with a submachine gun. The bird was still chained to it and could not run away, so it was shot by the submachine gun in various bursts.

The two chased and beat them for nearly 5 minutes. Lennon couldn't help it, and cursed while hiding: “What kind of weapon are you, how can you keep shooting without cooling down?”

Yun Yu smiled, changed his weapon again, and continued shooting and said: “Yes, it's so domineering, don't you accept it.”

“Absolutely impossible.” Lennon was furious, pointing at Yun Yu and cursing while avoiding, but Lennon couldn't keep this kind of high-intensity avoidance. Finally, in the seventh minute, he was accidentally caught by Yun Yu. Mastered the law of avoidance and hit three arrows in a row.

“Ah~!”

Lennon fell from the air and let out a horrified cry.

On the fortress.

Sanyou Eemon, Chekova and others used binoculars to watch the battle in the sky, and they frowned at Lu Yang's personal participation in the battle and the weapons used.

"Strange, what kind of weapon is that."

"How can I keep shooting."

"It's not easy, this weapon is too lethal."

"You have to find a way to increase the armor of the air combat player, otherwise you can't handle this burst of fire at all."

"It should be very expensive."

...

While they were discussing it, with sharp eyes, they found Lennon who had fallen from the dark clouds.

"Huh, why are you dead?" Mitoemon said with a smile.

"You'll know after a while." Everyone was uneasy.

While they were laughing and chatting, Lennon flew to the wall in a short time, watching Sanyou Weimen and others cursed: "How do you do the intelligence, how can the Jagged Brothers have such a powerful weapon. "

"What weapon? We don't know." Chekova, Mitoemon and others had the same expressions, and they all looked innocent.

In fact, they already knew some inside stories. After all, the news of the air combat in the Ten Thousand Trees Forest was not completely sealed off, but they didn't know what the specific situation was. They only knew that the Jagged Brothers had added a powerful air combat weapon.

Lennon saw that they were so innocent, and felt that he was too much, but thinking of what happened just now, he roared: "They have a weapon that can shoot continuously. My armor is so high that it will lose 80 points when it is wiped. The amount of blood you gave me, and the weapon you gave me can only be hit once in 3 seconds. how to fight, and you tell me how to fight."

"Are there many?" Mitoemon asked.

Lennon shook his head and said, "Not many. I heard from his subordinates that there are more than 1,000 people, which is less than the number of players who have weapons. But the person I played against has a very special profession, like a half-dragon, in the air The turning speed is extremely fast, nearly twice as fast as my archangel. I can't hit him at all."

This sentence made Santomo Eemon, Liu Jie and others all showed surprised expressions. They did not think there was a problem with the former weapon, but the change in the profession of the latter made them feel that it was wrong. At this moment, inside the dark clouds in the sky , A large number of Lennon's archangels fell down.

"Damn it, they were all killed." Lennon scolded angrily.

With the death of a large number of Lennon's archangels, the dragon army fighting in the clouds finally revealed its lineup. This group of small, flexible players began to use the golden dragon crossbow on the flanks to kill the Lennon players, following closely. What rushed out of them were the Archangel and the Dark Iron Warhawk.

For a while, Lennon on the frontal battlefield was extremely passive. In a hurry, Lennon didn't care about talking to Sanyou Eemon and others, and flew directly into the sky to join the battle.

Chapter 1887 - Air combat scam

“Everyone listened to my order, focused on attacking Lu Yang, and killed Lu Yang first. We would be considered victory if we killed him.” Lennon roared.

The players who died after the battle heard the command, gathered around Lennon again, and rushed towards Lu Yang together, but before they rushed in front of him, De did not taste the corpse and became upset and ran into the team head-on. In the midst of the melee between the two sides, Lu Yang used the Golden Dragon Crossbow to continuously kill.

But this time there were too many enemies, so Lu Yang was not allowed to fight sports. However, Lu Yang’s tactics were different from others. Whenever several enemies rushed in front of him, he would throw a piece of thunder.

The moment he dodged, the Killing Thunder exploded, killing all the players who rushed in front of him. During the entire battle, Lu Yang was like a fighter that had two generations ahead of his opponent, not only playing with the enemy.

Mitoemon and others stared at the weapon in Lu Yang’s hand, making everyone show solemn expressions. Mitoemon said, “Can you find out what kind of weapon it is?”

Everyone shook their heads, and Chekova said: “It can be seen that this weapon was only obtained by Lu Yang in the past one or two weeks. Otherwise, he should be equipped by all his staff, not only a few people.”

Sanyou Eemon nodded and said, “I can see how Lu Yang did it. They must have more than 3 such bursts in their backpacks. That’s why they can constantly change their shots back and forth without stopping. , But this method of attack is too wasteful of ammunition.”

Liu Jie said solemnly: “I also found a weapon here, but it is still a bit short of the Jagged Brotherhood. This kind of weapon will probably dominate the future air combat.”

“But we don’t.” Roland said.

The current comparison of the air combat power between the Jagged Brothers and the players of other countries is just like the combat effectiveness of the British Air Force and the Luftwaffe during World War II. At that time, the British Air Force was equipped with the most advanced Spitfire fighters, and the German aircraft was heavier than that of the British. flexible.

I remember that the German Air Force Marshal asked his best air force pilots how to win an air battle. The other party gave them all equipped with Spitfire fighters.

As far as the Jagged Brotherhood is concerned, their Spitfire fighters are half-dragons and golden dragon crossbows. The only difference now is the output speed of half-dragons.

An hour later, the air battle was completely over. No one of the 70,000 archangels under Lennon dared to fly into the air anymore. It was clearly in the area of the Chiefs Fortress, but the Iron Brothers hovered in the air with a victorious attitude. As a result, Liu Jie had to summon a large number of ground players to guard against whether the Jagged Brotherhood had the idea of grabbing the fortress.

Lu Yangfei was in the sky, looking at Lennon, Liu Jie and others who were gritting their teeth on the wall, and said, "I am not ready this time. Next time, when my air force comes, it will be your end. Be prepared. Next time, my goal will be your Tuntian area."

Liu Jie, Sanyou Weimen and others stared at Lu Yang, but no one spoke. They only retreated into the castle mansion of the fortress and sat in the room. Several people looked at each other.

Mitoemon asked, "What do you think of Lu Yang?"

Roland frowned and said, "How do I feel that Lu Yang has a new air combat career, otherwise he would not say such a thing. We must know that we have moved the Tuntian area to an area 1 day away from his fortress. He flies. But it's coming."

Chekova frowned and said, "Don't underestimate Lu Yang. If he really finds a new long-term flying career, it will be a nightmare for us. Let's hurry up and develop an air combat career."

Liu Jie, Steiger and the others nodded together and went back, but Lennon was left in place, embarrassingly wondering what to do.

In the sky.

Lu Yang had already flown to an altitude of 100 meters, because the enemy's archer corps had already approached under the city wall. His goal this time had been achieved, so he didn't say anything more, and instead returned with his men.

As for the areas he said that there are air combat professions that can fly to them, it is actually nonsense. He can't fly there at all. The reason for saying this is to deceive them and let them focus on developing air combat professions.

As for the Jagged Brotherhood, the development of the air combat career stopped here. At least for half a year, with the golden dragon crossbow, they will not lag behind the enemy.

Taking advantage of this half a year, he can vigorously develop ground occupations. On this complete continent, it is the physics occupations on the ground that can really play a decisive role.

Among the strongest physics classes in the lower **** stage, the earth travel dragon form after the druid transformation, the ancient **** of war form after the ancestor tauren advanced, and the titan form after the human advanced.

Among these three professions, the easiest to get is the Ancient God of War form, but this requires players to upgrade to level 185 before they can. As for how to upgrade, Lu Yang has already figured out a way, which is to use the poison of the Spider Legion. Brush the copy.

Back at the Heavenly Sword Fortress, Lu Yang held a grand celebration dinner for Yun Yu and the others, and invited various media reporters. In front of the media, Lu Yang put his arm around Yun Yu's shoulder and said, "I can be very clear. To tell everyone, Yun Yu is the number one master of air combat in our Jagged Brotherhood, even stronger than me. From now on, I will hand over all the air combat corps to Yun Yu for full command and training, and he will do it for me. Constantly bombing the Tuntian area of the enemy's guild such as Liu Jie and Sanyou Weimen."

The reporters were all stunned. It has been almost 6 years since the game was launched. Lu Yang admitted for the first time that someone is better than him. Although it is an air combat area, is not a traditional ground combat, but one appears. Players who are stronger than Lu Yang, this made them all full of curiosity about this person. For a while, everyone rushed to Yun Yu and began an excited interview.

Yun Yu had already known Lu Yang's plan before, so he did his part to put on a very strong posture and explained his resume and understanding of air combat.

Originally, Sanyou Weimen, Liu Jie and others still had some doubts about what Lu Yang said before he left, but he saw that Lu Yang admired Yun Yu so much and was planning to let him take over the entire air combat corps. Leaving aside Lu Yang's thoughts, they knew In order to make achievements and gain a foothold in the Jagged Brotherhood, Yun Yu must desperately bombard them. If he hadn't succeeded in bombing ten times or eight times, he would definitely be unstable.

"To develop an air combat career, we must develop an air combat career."

"Upgrades and ground careers are at a deadlock, and we can only start from the air combat career."

"We must prevent Lu Yang from invading the Tuntian area again."

...

Chekova and others each found a cooperative organization behind the scenes, and began to open up a wider area of air combat.

Ten thousand trees forest.

Just as Lu Yang was leading his subordinates to upgrade, he received news from Tu Feng and Qingqian Zimeng that the major guilds were fully developing their air combat career.

Lu Yang sneered and sent a message to Yun Yu: "Three days later, when Liu Jie and Steiger's Tuntian area were harvested for the first time, they attacked forcibly and let us act more realistically."

"Leave it to me." Yun Yu replied.

Lu Yang smiled and put away the phone, looked at Li Mao and Tao Fei and the others in front of him and asked, "How many fruits of the Golden Treeman did you get?"

The Golden Treant is a new monster encountered in the depths of the Ten Thousand Tree Forest. They are the guardians of the ancient tree **** Slima. The trunks and branches, even the leaves, are all golden.

Normally, the defenses and magic resistance of these ancient trees are terrifying, and there is a lot of blood. Even if Lu Yang is here, it is very difficult to kill, but the only thing these monsters fear is toxins. .

Although the ancient trees have strong self-recovery ability, there are more than 120 low-level god-level poisonous hearts arranged here in Lu Yang, which is still unbearable for the golden ancient trees.

When Lu Yang led the team to fight the Purple Golden Dreamland, Li Mao and the others advanced to the Golden Ancient Tree area and killed tens of thousands of Golden Dryads. While the equipment was exploded, the Golden Dryads had a small chance of dropping. Golden Fruit, so far, Li Mao and the others have hit 7 in total.

"There are only so many, I'm sorry, Boss." Li Mao said embarrassingly, killing tens of thousands of them before exploding 7. They all felt sorry for Lu Yang.

Lu Yang smiled when he saw the fruit, and said, "Your luck is already pretty good. This thing is a bug item. The burst rate is 1 in 50,000. You can get 7 if you kill tens of thousands of them. You are lucky. ."

“Really?” Li Mao looked at Lu Yang in surprise.

Lu Yang smiled and nodded, and said, “Of course it is true. 99 people will come with me. In the future, the sister group will have a very heavy task. All of you must be mentally prepared.”

“Yes.” Li Mao, Tao Fei and others nodded excitedly. They are not afraid of being tired. Can they work with them before they come to the studio?

Serving dishes, washing dishes, enduring foul language from customers, and always worrying about being bullied, as well as heavier work and family calls for money, now they don't feel tired at all, they are afraid that they won't have a job. Yang forgotten.

“Bring a poisonous heart?” Tao Fei asked.

Lu Yang shook his head and said, “The Lovely Queen will take someone to take over your upgrade mission, and the rest will stay here first and stand by.”

“Yes.” Li Mao and Tao Fei immediately made preparations. Soon, the first group of 99 people were selected, and the lovely queen also came with the prison king and Wan Zhonghui, taking over the poisonous heart and continuing. Daguai upgrade.

Lu Yang looked ready. He took out the teleportation scepter and flew to the Sky City with 99 little girls, including Li Mao and Tao Fei, to continue the follow-up mission about the plot of the New World.

According to the memory of the previous life, the main **** of the wind element has been gradually attacking the gods of the earth element. If you want to obtain the equipment of the lower god, the best way is to follow the main **** of the wind to kill people.

However, the main **** of the wind element is a very hypocritical god, he will never come forward and do this as he and other people.

In the plot of the game, in order for human beings to take the initiative to kill the tribe of the earth elemental gods, the wind element master deliberately created an illusion and a false story.

In this new continent, there are not only demons, but also many foreign species, including the Fenglong family who came to look for the ancestor dragon.

At that time, when the Wind Dragons relied on being able to fly and crossed the Earth Spirit Gods, they did not expect that the Earth Spirits in this world were extremely capable of flying, and they also knew various earth element gravity skills. A large number of Wind Dragons were killed by the Earth Spirits. .

Fortunately, those who escaped, thinking that they had escaped the attack of the Earthling clan and could continue on the path they were looking for, but they did not expect to be disguised as the Earthling clan by the general of the Wind Elemental God Sect — Kuadeli. Only the last 4 of the hundreds of wind dragons killed were left.

Under the guidance of the three-sided siege of Kuadli, the four dragons sent them to a grand canyon. Here, it is an illusion built by Fengshen, which can provide the four dragons to rest. As long as they don't go out, they will never be Attacked.

The four dragons rested because of this. The original intention of Fengshen was to use these four dragons to pretend to be cultivated in the New World to kill the Earthlings, but he did not expect humans to appear, giving Fengshen a better idea.

With the same hatred of the enemy, Fengshen will deliberately send people to lead human players to discover these four dragons. It is conceivable that when humans learn about the tragedy of the four dragons, they will sympathize with creatures on the same planet and then go to war against the earthlings.

After all, the creatures of the New World are all enemies of mankind, and the four dragons can also issue some missions, which allows humans to conquer the Earthlings in large numbers, and Fengshen will take advantage of this opportunity to attack the higher gods of the Earthlings. , Deprive them of the nucleus in their brains.

The role of this kind of divine core is to create earth-based creatures. Kuadeli was originally an ordinary lower-level creature in the New World. It was the wind **** who sneaked and killed a higher earth spirit god, and gave the god's core to Kuadeli. Deli became a 190-level median god.

However, Kuadli is not a person who believes in Fengshen completely. On the contrary, he is an atheist, he only believes in power.

Since the clone gave him power, he is still in a situation despised by all the wind masters. In order to kill those who despise him, he thought of an excellent plan of revenge, which is to pretend to be sincere to help the wind gods kill the earth. The gods, in fact, he was secretly assassinating the wind gods.

After getting the **** core in the mind of the wind god, he wanted the **** core of the wind system to be put into his head, so that he could have the spell ability of the wind system, but he was worried about being discovered by the wind god, so he just put him The corpses of the killed wind gods were stored in a special place.

What Lu Yang had to do now was to cooperate with this careerist, and the best way to cooperate was to find a place to store the wind gods.

This place is very special. Players normally can't get in. The only way to get in is to use plant seeds. Under the Sky City, there is a hidden map under the sky that is least noticed by the gods of Sky City. .

The guardian of this map is a wood elemental middle god, his name is Coco, the wood element middle **** is a **** who is not seen by the wood element tribe. At the last meeting of the nine element gods, in order to promote The elements of the New World are balanced, and each elemental **** must send some elements into the area of other main gods.

In this way, Coco was sent to the castle in the Sky City where the Wind Elemental God is to make a green grassland. Coco hates this job very much. At the same time, he is often despised by those Wind Elemental Gods. Come together.

Quandli promised to Cocoa, and in the future, he will also give him other elemental cores. Therefore, Cocoa created a underground palace under the castle of the wind element, which was specially used as a storage place for the corpse of the gods.

This underground palace is all formed by plants and is full of the supernatural power of wood elements. Even if the main **** of wind element wants to visit below, he can't understand what is in the plant, but what can a middle **** do that threaten the main **** of wind element Before, therefore, the Wind Elemental God had never been interested in this area.

But as long as a gap is revealed here, the Master Wind Elemental God will immediately sense the corpses of the clansmen in the underground palace. This is also Lu Yang's handle for threatening praise.

Along the only power elevator going up and down in the Sky City, Lu Yang brought 99 little girls from the Spider Sisters group to the bottom of the Sky City. In the distance, a big tree with a diameter of 50 meters and a height of 100 meters attracted everyone. Human attention.

Lu Yang led them to the front of the big tree. Suddenly, a gap appeared in the trunk of the big tree. A tree man with a height of only 2 meters walked out in a bored look and saw Lu Yang and the others. , Also looked disinterested, but just as the trunk was about to close and the treeman was about to walk past, Lu Yang took out a golden fruit from his backpack.

"Golden Fruit!" An unbelievable expression suddenly appeared on the treeman Coco's face. He snatched it from Lu Yang's hand and swallowed it into his stomach. He instantly showed a satisfied expression.

Coco the Treant ate a fruit immediately, a golden glow appeared on his face, and then he fainted.

Lu Yang left the other six fruits to Li Mao, and said, "Feed him immediately when I wake up, and the others will follow me into the maze."

The women nodded, and followed Lu Yang into the trunk of their respective duties. As soon as they entered, there was a flash of light, and everyone was teleported into an underground maze.

Seeing the green leaves and vines everywhere, Lu Yang smiled on his face and said, "Everyone explores the way forward and uses your spider webs to quickly find the end of this place."

Lu Yang hadn't walked this road in his last life. He didn't know how to get to the underground palace. He just saw someone broke the story on the forum.

Tao Fei led the 98 sisters to explore quickly. In this underground palace, there are many monsters, but Tao Fei and the others are spiders. As long as they are on the web, they are in invisible form. A group of girls quickly searched for it. I found the entrance to the lower second floor.

When Lu Yang killed monsters came to the entrance, the sister group had found the entrance to the third floor, and under the third floor was the place where the corpses were stored.

After half an hour, Lu Yang killed monsters all the way to the entrance and looked at the wrench next to the entrance. He pressed hard and the door opened a gap, but there was a barrier on it, and the divine power inside could not penetrate.

Lu Yang quickly entered the enchantment, a flash of light flashed, and he found himself in a room surrounded by canes.

This room is very large, and there are many coffins. Each coffin has a wooden seed on it. The seed is always expanding. When they cannot bear it, a flower will grow, and then the flower will wither and reform. Seed morphology.

In the official introduction, this is a method that Coco came up with to prevent the divine power of the wind element of death from leaking out too much.

Lu Yang smiled and walked to a coffin, a flame emerged from his hand, and a re-formed seed was smashed with a punch. At this moment, a light suddenly lit up beside Lu Yang. In the next second, one was only 2 meters high. The earth-type demon appeared in front of Lu Yang. His appearance was very ugly, but he knew that he was powerful.

Quandli (Lord Class)

Level: Middle God

Qi and blood: 500000/500000

“Who are you, why are you here?” Quandli looked at Lu Yang in horror. He didn’t kill him immediately, but quickly released the spell to restore the seeds on the coffin.

Lu Yang smiled at praise and said, “I am a human, and I can’t think of the powerful subordinates of the dignified elemental **** of wind, who secretly hide the body of the elemental **** of wind, what do you want to do?”

The cold sweat on Kuadeli’s face came down, and he asked, “What do you want to do? This is my business. Believe it or not, I will kill you now.”

Lu Yang knew that Kuadli couldn’t get out to kill him. A magic appeared in his hand, and he smiled and said, “Believe it or not, before you can kill me, I will burn all the seeds on the coffin first, and then burn through here. The rattan, I think the Wind Elemental God would be willing to see you like this now.”

“No, you can’t do this.” Kuadli showed a frightened expression. He knew very well what kind of torture he would be subjected to if the wind element master saw this scene.

“Please, I don’t mean to kill you, just because of fear, I am willing to help whatever you want me to do.” Kuadeli said in horror.

Lu Yang smiled and said, “My goal is the same as yours. I want to kill the earth spirit **** and the wind element god, but what I want to kill is the middle **** and sell me your unique poison. , I am going to kill them.”

Quandli was stunned and said: “Well, well, I can sell it to you, but I hope we can become friends and help each other.”

Lu Yang smiled, what he wanted was these words, and said, “Of course, the things between you and the elemental **** of wind, or your own dreams, have nothing to do with me. I just want to take my brothers to upgrade. One day I have the ability to kill the elemental **** of wind. If we can still cooperate, I don’t mind helping you kill the elemental **** of wind, but only if you can help me.”

Kuadeli’s eyes lit up and said, “Of course, I can certainly provide you with this help. This is what I should do, my friend, and welcome you to meet the new Kuadeli.”

System reminder: You have been approved by Kuadeli, and you become friends with Kuadeli!

A shopping panel appeared in front of Lu Yang. Among the items available for purchase, the first item was toxins.

Demon Spider Venom

Type: Rare

Damage: 100 points/sec

Description: This is a weird toxin. The Demon Spider is one of the most harmful poisons on the planet. There was no such thing a long time ago. It is suspected to be brought over from the Old World. It does no harm to humans, but it will cause 100 points of damage per second to demon creatures. At the same time, only creatures like spiders can use it, others cannot use it correctly!

Lu Yang clenched his fist hard, what he wanted was this thing. Looking at the price above, one silver coin and one bottle, and one bottle could only be used 100 times, he smiled and bought 20 storage bags with 1000 compartments.

“Where shall we meet next time?” Lu Yang asked.

Quandeli handed Lu Yang a bagpipe and said, “Blow him, and I will be in front of you within 5 minutes. Of course, I will not kill you, only do business with you.”

Chapter 1889 - Mentality comparison

It's not easy to be able to be on call for Quandali, Lu Yang smiled and said, "I believe we will become very good friends soon."

He turned and left the underground palace, returned to the outside, and took a group of girls to fly to a deserted area 2 days away from the Sky City using the teleportation scepter.

Here, the player can see the pyramids, the boundless yellow sand, but not a drop of water or a little green.

"It's the same as the Great Desert." Tao Fei asked, looking around.

Lu Yang smiled and said: "This is the gathering place of the earthlings. It is difficult to see the existence of water here. Only in the most central area of the desert, there is a water source. Of course, don't look at the desert here, but as long as There will be a rain, this will become an oasis, very magical."

The girls were surprised.

There are often such wonders in the desert, but it is not long to be able to see it. Just when Lu Yang and the girls were looking for monsters, suddenly, a soil spirit in the distant desert came over.

Earthen (elite)

Level: Middle God

Qi and blood: 8000/8000

The appearance of the earth spirit is like a rock giant, he is more than 2 meters tall, and his entire body is kneaded with yellow rocks. Although it looks sharp and angular, it gives people a feeling of strength.

With every step, the ground would tremble, which made the girls like Li Mao and Tao Fei jump slightly in place.

Lu Yang looked at their cute little appearances, and said with a smile: "This monster is not easy to fight, don't let him touch it. With your current lower god's blood volume of less than 100 points, being touched by him is death. Slowly poison them with toxins."

"I'll try." Tao Fei quickly turned into a spider form and rushed toward the earth spirit. Just 20 meters away, the earth spirit found Tao Fei, and the huge stone head showed two brown eyes. .

"Sand Waves"

A yellow sand with a diameter of 2 meters wide rushed towards Tao Fei.

Tao Fei had reached the distance of 10 meters from the earth spirit at this moment, and simply dodged to avoid the yellow sand, but before he could react for a second, the earth spirit had rushed in front of him and punched him. She slapped her face.

"I jump."

Fortunately, Tao Fei had six legs. One body exerted strength and quickly jumped to the other side. At the same time, he spit out venom at the earth spirit.

"-100"

"-100"

The earth spirit's blood volume began to freak, and Tao Fei no longer entangled with the earth spirit. Seeing a huge rock group not far in front, he quickly ran to the position of the rock group and spewed out a spider web to hide inside. .

In the blink of an eye, the Earth Spirit lost its target, and could only sway around in place. The toxin lasts for 30 seconds. After 30 seconds, Tao Fei appeared again and sprayed again at the Earth Spirit. Then go invisible.

After spending a minute and a half in this way, Earth Spirit couldn't bear it and fell to the ground, bringing Tao Fei more than 10,000 points of experience.

When the player reaches the lower **** stage, the level of upgrade experience no longer looks so much. Tao Fei needs 500,000 experience points to upgrade from level 181 to level 182, and this monster brings him one-fifth experience. , This made Tao Fei excitedly ran back to Lu Yang, and said, "Boss, this monster has too much experience to kill, and it's so useful for us."

Li Mao saw the experience that Tao Fei shared, and said excitedly: "Then we will soon rise to the middle god?"

Lu Yang looked at them with a smile, and said, "Is there anything bursting out?"

Tao Fei handed a piece of equipment to Lu Yang, and said, "This one burst out. The defense and attack power are so high."

Earthen God Helm

Level: Level 9 of the lower god

Physical defense: 30-30

Spell defense: 25-25

Power of God: +20

God's physical strength: +20

Additional physical attack power: +50 points

Additional physical crit chance: +50 points

Lu Yang nodded in satisfaction when he saw this piece of equipment. This piece of equipment also came with two suit effects, but they weren't ready now, nor displayed.

He smiled and said to everyone: "The equipment of the earth spirit **** is mainly exploded here. I need a lot of earth spirit **** equipment, go and fight."

"Yes." Li Mao, Tao Fei and others rushed into the rocky hills in the yellow sand area and began to kill earth spirits in large numbers.

Lu Yang also walked in and killed the earth spirits along with him. On the other side, Yun Yu had already flown over the Chiefs Fortress with the air combat legion.

Although Lennon can still control his players now, he no longer has that much control. One failure put all his players into deep despair.

Originally thought that 70,000 of them would gather together to form a very powerful combat force, but they did not expect to lose to the Jagged Brotherhood.

When they were depressed, what made them even more unacceptable was that Yun Yu and the others flew over the Chiefs Fortress at three o'clock in the middle of the night on the Polish side.

Liu Jie discovered Yun Yu's actions immediately and quickly called Lennon and asked him to send someone to intercept him. However, the number of players that Lennon could call at three o'clock in the middle of the night was less than one-third. Of the 20,000 players online at night, only more than 30,000 people took off and blocked it.

After being attacked by Yun Yu, he was killed, and then Yun Yu plunged into the vast northern mountains. No matter how Liu Jie sent someone to look for it, he couldn't find it.

Inside the room.

Liu Jie smashed the teacup in his hand and yelled: "This group of people in Lu Yang must be found, otherwise, the farm this week will definitely not be able to keep."

Counting Dead Grass drank tea while looking at Liu Jie who was furious, and said with a smile: "It's actually very easy, but you didn't listen to me."

"How to do it?" Liu Jie quickly looked at the dead grass and asked.

The dead grass said: "I told you before that we need to arrange players on duty in the mountains, but you just don't listen. Now something is wrong."

On the endless mountains on the side of the Chief's Fortress, the dead grass wants to establish a mechanism similar to the beacon tower. If someone shows up near the beacon tower, the players on the beacon will immediately report to them, and you can Prevent the sneak attack of the Jagged Brotherhood to the greatest extent.

But Liu Jie previously thought that this was a waste of budget, so he didn't do it. This project is too large. It is absolutely impossible for a player to garrison. An area must have more than 9 players garrisoned, and there must be patrols. Not only that, These beacon towers must be set up every 500 meters.

In the game, the player's sight range is only 500 meters away. Beyond this distance, nothing can be seen. At night, some players have to fly into the air to patrol. Otherwise, the player will not be able to see if they fly in the air. .

In this way, the player needs to shift to three shifts. This is an extremely troublesome thing, and it is very costly. The key usually does not have any effect. In a boring day, it is easy to cause the player to slack off and sleep at night.

With these concerns, Liu Jie didn't listen to the dead, but he didn't expect the problem to come out so quickly. Lu Yang launched a sneak attack on them in just a few days.

Liu Jie sighed and said, "What should I do now."

The dead grass said: "Let Lu Yang succeed in a sneak attack. Of course, we can't let him attack in vain. How can we kill some of his people? In addition, we will start setting up a beacon tower now to pay these players. Pay high wages."

Liu Jie sighed again and said, "I didn't make any money, so I went in so much first."

Liu Jie, who has been in Africa for almost 4 years, has become poorer and has lost the money he made before. Recently, he has the support of the Dark Samurai family and the support of the bank behind the scenes. Otherwise, he would have long been unable to hold on. Up.

But even so, Liu Jie didn't want to be so controlled by others, hoping that he could find a way to make money, which is why he actively participated in the farming.

Even the dead grass knows Liu Jie's current predicament, and said with a smile: "Don't worry, it will take a while for Lu Yang's air team to develop. After he sneaks on us, we will have to wait 5 days next time when we come again. Recently, an air combat team belonging to us has been rapidly developed, and there is still a great opportunity to defend it."

Liu Jie nodded and said, "Do as you say."

He found Ru Yue Taishan and ordered him to make arrangements.

On the other side, Steiger, Chekova, Sanyou Eemon, and Roland all learned about the entry of the Air Combat Brigade of the Jagged Brotherhood into Liu Jie's area, which allowed them to finally take a restful nap.

Since the last air battle ended, Steiger and Chekova were wondering who Lu Yang's next target would be.

Although they have already withdrawn the Tuntian area to an area one day away, once Lu Yang's air combat team has broken through their defensive area, as long as they find a place with few people to rest, they cannot kill it within these few hours. If you criticize people, the result is that they will easily fly to their Tuntian area and bomb them.

It can be said that they can't make sure that they can defend Lu Yang's air combat team, but now they are relieved, because Lu Yang is not fighting them.

"Asshole, I should have such thoughts." Mitoemon scolded himself and said, "When my air combat team gets up, I must retaliate."

In subtle changes, the strength of the Iron-Blooded Brotherhood has surpassed the five of them. Any two people attacking the Iron-Blood Alliance at the same time cannot defeat the Iron-Blood Alliance. Only three or more guilds can attack together to defeat them. Jagged Brotherhood.

As a Japanese who is very familiar with the history of China, Santoemon feels that they are now like the last years of the Warring States period, and the Qin Dynasty is about to unify the entire China. No matter how hard the other six countries toss, they are inferior to the Jagged Brothers in strength. Piece.

Up to now, Sanyou Weimen didn't want to understand how Lu Yang stood out and became the strongest among them. Not only him, Roland and Liu Jie also couldn't understand how Lu Yang took over the area of the New World. The most massive.

In fact, the reason is very simple. Lu Yang played a small role in it. It was mainly due to the intrigue of all parties. From the very beginning, no one looked at the iron-blooded brotherhood in a corner of peace, so that Lu Yang successively defeated the weak Pu Renyi. He Tianlong controls the entire northeastern region of the New World.

Later, when the Iron-Blood League went south to fight for supremacy, they were still not optimistic about it. When several companies attacked together, they all thought that the Iron-Blood League could be defeated at any time. If they gave their best and worked together at that time, the Iron-Blood League would also live Not coming down, but unfortunately, it was still a few of them fighting each other, and they brought too many people at all times, and the rear was sneak attacked by other people, or some people contributed more and some people contributed less.

Under such circumstances, although the number of Jagged Brothers is small, everyone is united. Faced with this high pressure, talents have emerged one after another. Not only has the Jagged Brothers not been beaten down, it is because of their help. , The players are getting stronger and stronger, and finally become what they are now.

Without the appearance of Chekova and Radvedev alone, Roland and Mitoemon would still not cooperate with Radvedev. The end result is that the Iron Brothers will start a war at the end of the year. Can easily knock down the three of them.

Fortunately, a Chekova, like a glue, re-bonded the three guilds that had been completely broken together. This gave them a chance to equalize with the Jagged Brothers.

But now they are still in a disadvantaged position. Before the end of the year, they dare not fight with the Jagged Brothers. Although the two sides are on the border, the players of the Jagged Brothers are all developing in the direction of the lower gods. The average level of the players under his team is 2 to 3 levels lower than that of the Jagged Brothers.

Organizations such as the Dark Warriors and Saints have special upgrade methods, allowing them to gradually catch up, but this will take time, and still need to wait until the end of the year. To put it bluntly, everything is time.

While several guild leaders here secretly sighed for their current downfall, on the other side, players from the Jagged Brotherhood were excited to upgrade and fight monsters.

During the day, they only need to spare six hours to complete the work in Tuntian. The rest of the time, they are all fighting and upgrading.

After occupying such a huge area, they have upgraded too many points, and in the black yarn area, which is a special farming location, there are no players from other countries.

After two bumper harvests, the 6 million players from the Jagged Brothers League had only one idea in their hearts, and that was to help Lu Yang win the entire New World as soon as possible.

Chapter 1890 - God warrior with 6 arms

Originally, Zhuojiu, White Lion, Xia Yuwei, and Zhou Tianming needed to rely on a lot of personal charm to gather players. Even so, players often procrastinated and wasted a lot of time.

But now it's different. When Tuntian was implemented for two months and they were able to earn tens of thousands of dollars every month, the mentality of the 6 million players of the Jagged Brotherhood has changed a lot. They have a formal The feeling of joining the Jagged Brotherhood.

Originally, they were love and dedication to the guild, but now it is their duty and life. When Zhuojiu, White Lion and others give orders, they will arrive as soon as possible without delay for even a second, just like a soldier.

It originally took more than ten minutes to get tens of thousands of people to gather at the designated place, and then spend a lot of time in line. Now these problems are gone.

Before each action, Zhuojiu and others will design a meeting place and send orders to the army commander in the Tuntian area. The army commander will then issue orders to the following group leaders and group leaders. The first execution of the order was a waste of things. But from the second time on, the players fixed at the designated locations of the five fortresses: Sand Sea, Black Rose, Blue River, Sky Screen and Sky Sword, and then ordered them to gather. It takes 10 minutes for one million talents.

Seeing this speed of assembly, even Zhuo Jiu, White Lion and others felt incredible. When they reported it to Lu Yang, Lu Yang was still carrying the Spider Sisters to fight the Earth Spirit God suit.

"It's good for players to have this mental preparation. Starting today, we need to set up guards in the area along the Blue River Fortress to the Sky Sword Fortress, and even farther away from the Flame Fortress, and arrange those players with poor combat ability to go on duty and take turns. , Tell them that they must not be slacking off, and they must be on duty every day. This involves the question of whether the area they planted will be attacked by the enemy." Lu Yang said.

Just as the dead grass thought, Lu Yang's idea was to set up guards in the border area, no matter which direction the enemy's air combat career sneaked from, it could be found.

The archangel class is relatively rare, and Lu Yang can't equip so many men, but the number of vultures and black iron warhawks in the druid class is still enough.

Lu Yang went on to say: "From now on, the guild will be set up as five defense zones, which will be in charge of five people: Zhuojiu, White Lion, Xia Yuwei, Zhou Tianming, and Kuai Bansheng. Help from the side, allowing each of you to recruit a sufficient number of secretaries and special players to form a theater defense upgrade office."

Zhuojiu was a little dazed, and asked, "Boss, you are a bit ruthless in delegating power. How do I feel that you don't care about what you want."

Lu Yang smiled and said: "One is to trust you, and the other is that the pressure on you is too great. I will find some people to share your worries. Originally, these people were paid by you, but now they are paid by the guild. "

The so-called theater defense upgrade office is actually the current staff of Zhuojiu and Baishi. They have been helping Zhuojiu and Baishi to direct the battle as private staff members. Many of them have been in the previous life. Famous players.

But Lu Yang owed 30 billion euros in debt before, and he had to build various infrastructures such as hospitals. He didn't have much ability to manage these things. So let them develop. Now the Jagged Brothers is relying on Tuntian to make money. , He decided to share this pressure for the Zhuo Jiu and them, and formally set up such a command department, which can also better coordinate from top to bottom.

White Lion smiled and asked, "Boss, is there any limit on the number of people? I have a lot of people."

Lu Yang smiled and said: "There is no limit to the number of people. You can recruit as many people as you need. The position is determined by the staff. You can control the upper and lower limits, and finally report to Tu Feng."

Lu Yang didn't even ask about the amount of money, which moved Zhuojiu and Baishi. They looked at each other and said with a smile, "Boss, then I'm not welcome. It's not a small sum to go back and find someone to pay these guys' wages."

Xia Yuwei, Zhuo Jiu and others nodded their heads. At this time, they all felt a lot of relaxation. Originally, two-thirds of their wages would help their poor brothers, but now they don't need to help.

From the beginning of Tuntian, Xia Yuwei and the others retrieved the poor players under their hands and returned to the game, let them participate in the Tuntian, two consecutive months of great harvest, not to mention giving money, those who were aided players almost returned the money.

Without this burden, coupled with the absence of the burden of staff, their wages can finally be largely at their disposal.

Lu Yang smiled at their relaxed and grateful expressions, and said, "In short, there has never been a day before our Jagged Brotherhood has an absolute advantage and control over the entire game as we do now. As long as we continue to maintain such an upward momentum, By next year, New World will be ours."

Everyone looked at Lu Yang and nodded together. They knew in their hearts that Lu Yang had relieved 90% of the pressure on their shoulders, and they had all resisted his shoulders. They only felt that they had such a boss. Is so happy.

"Boss, a few of them have slowed down at the end of the year, and they will definitely attack us. Are we too relaxed now?" asked the bitter love half a lifetime.

Everyone nodded together, and they also felt that Lu Yang was playing too relaxed.

Lu Yang smiled and shook his head, and said, "You don't need to worry about this. Just continue to upgrade with your subordinates. Try to bring as many people to level 180 as the lower gods by the end of the year. I'm taking the elites. When playing equipment, we look loose on the outside and I am very arrogant, but in fact, we are tight on the inside and loose on the outside, all of which are illusions."

"Are you playing high-level lower **** equipment?" Xia Yuwei asked curiously.

Lu Yang sent the attributes of the earth spirit god's helmet to their mailbox. At this moment, Li Mao typed out another armor.

Earthen God Armor

Level: Lower God Level 9

Physical defense: 100-100

Spell defense: 85-85

God's physical strength: +30

God's Stamina: +40

Additional physical attack power: +120 points

Additional physical defense power: +120 points

Lu Yang smiled and sent it over and said: "If the 8 piece set is complete, this is a set of equipment that can both defensively and output. The attributes are very powerful."

Forget it, the eight-piece set has at least 720 points of attack power, 460 points of physical defense, 320 points of spell defense, and 2880 points of vitality. Compared with the equipment of the lower gods, the attributes of this equipment are Tens of times stronger.

"This equipment attribute is too strong." Xia Yuwei said excitedly.

Lu Yang smiled and nodded, and said, "This is not counting the 5-piece jewelry set. Take good care of your subordinates to upgrade. As long as you reach the lower **** level, you can change into this set of equipment, but my number of fights is limited. There won't be too many sets, depending on your strength, whoever has more subordinate gods will score more points, and those who have fewer will score less."

“Hey, we are all brothers, we won’t fight, right.” A half-life of bitter love looked at them with a grin, and secretly typed in red letters and ordered: “Give me all the upgrades, where is the boss? There’s a baby, if I get less at the end, it’s up to me how I clean up you.”

“That’s right, we are brothers.” The white lion looked honestly at Zhou Tianming and his love for half his life, but privately ordered: “Brothers from the elite group, come to live a big life, here is the boss. There’s a baby again. We still have some of our vice-chairmen to divide it proportionally. It depends on how much you can get.”

Zhuojiu, Zhou Tianming, and Xia Yuwei looked at each other. They all smiled, and each had a humble face, but secretly gave orders.

Lu Yang laughed at them as they were playing cautiously with each other, couldn’t help but shook his head, and said, “Go ahead.”

“Eh.” Zhou Tianming, Xia Yuwei and the others nodded together. When they were about to leave, Lu Yang remembered one thing and said: “There is another one. All the afterimage fighters in your hands must gather together. You must react quickly. For a family of 2,000 people, just 10,000 people can be pooled for me.”

“Uh...” Everyone was a little surprised. After the afterimage warriors were promoted to the lower gods, there was a very obvious problem, that is, the afterimage warriors could have a kind of transmog ability, they could become a six-armed man in a short time. Players.

Because the previous battles were too fierce, no one had time to care about the use of these six arms. Until now, these players who became the afterimage warriors of the lower gods, now called the **** warriors, don’t know that they have so many arms. What can you do.

“Boss, what does this job do?” asked the bitter love half a lifetime.

Lu Yang smiled and said: “Normally, these players will be synonymous with the strongest professional in close combat in the future. They can wield six weapons at the same time, but at this stage, no one can gather so many high-level subordinates for them. God weapon, so I thought of an idea, let them do other professions, you will know after a while.”

This profession is called ultra-long-range strike players, also called local tyrants, because the things they use are high-consumption items, and the price of each item is extremely high. A single use is calculated by credit points. Ten thousand people use it like this, and the consumption of money in battle is extremely terrifying.

“Boss, borrowers are fine, but you have to pay it back in the future, but you can’t confiscated it.” Zhou Tianming said reluctantly.

The white lion and Zhuojiu nodded together. Now the elite players are the babies, especially the elite players with fast reaction speed and good fighting consciousness. They are the babies among the babies. If they don’t return it to Lu Yang, they cry. The heart is there.

Lu Yang laughed. Let them go back separately. It is basically impossible to go back. They will be the next superior class of long-range combat like the Yanzhen Mage, even if this is a very expensive profession, Lu Yang I would rather spend money.

He believes that not only is he spending money now, but other people must also be spending money to get this thing. After all, this thing is too easy to find, it is in the Wanjie Consortium.

He used the teleportation scepter to fly to the 170-level fortress Luna Fortress in the Nine Star Alliance area, and then he replaced the flying dragon and flew towards the distance.

Half an hour later, he came under a high mountain and saw that in a place surrounded by mountains on three sides, a completely mechanized village was built there.

System reminder: You found the No. 77 station of the Ten Thousand Worlds Consortium!

Lu Yang landed in the resident, watching the Prince of Ten Thousand Realms walking up, and said, "My friend, I hope my arrival will not disturb you."

Boggs was more than 2 meters tall and wrapped his whole body in a mechanical suit. He walked to Lu Yang and gave him a hug. He said, "The great President of the Jagged Brotherhood, now half of the New World has your legend. It's an honor to see you here, what can I do for you?"

Lu Yang said, "I want to buy the Ten Thousand World Missile in your hand."

"Myriad World Missiles?" Boggs' eyes lit up and he shook his head and said, "No, no, no, my friend, this is our non-sale item, and we will never sell it outside unless...you can get the wind for me. The wings of the elemental god, you know, I really want to study this kind of thing."

Lu Yang smiled and said, "You have made a good calculation, but you know that in the New World, killing the next **** is equivalent to a death sin. You dare not do it yourself, let me do it."

The Ten Thousand Realms Consortium is an organization that uses money to buy all over the world. They have always wanted to study the wings of the lower gods of the Archangel of the Temple of the Wind Element. But for so many years, no one has dared to take this business, and they themselves dare not kill anyone, Their purpose is to do business and never participate in anything in the New World.

"If you can accept my task, I will open up to you the purchase option of the Ten Thousand World Missiles, and I will also give you an aura dissipating cloak, as long as you wrap yourself with this cloak, your hostility caused by the killing of gods, It will be completely wrapped in this cloak, and Fengshen will never find out that you did it." Prince Boggs continued.

System reminder: Secret assassination mission! Whether to accept?

"Well, I accept your task." Lu Yang took the purple cloak from Prince Boggs, and said, "I'm going to find the lower **** of the wind element. Wait for my good news."

After he built a sentry tower on the spot, he walked towards the outside of the village, and not far away was the Gale Fortress controlled by Yukong Fengshen Shiminkodo, one of the six main gods under the Throne of the Wind Elemental God.

This is after Ximing Kodo's Feng Elemental God defeated the otherworld gods, because of the fief gained in battle. Since he got this place, Ximing Kodo has sealed off this area, except for the wind element gods, no other elements are forbidden. Enter with the demon creature.

Except for daily supplies that need to be transported by other demons, no creatures are allowed to enter or leave the Gale Fortress.

Lu Yang is still very clear about the story line of the Gale Fortress. The reason why Shimin Kodo blocked this place is because Shimin Kodo did not kill the otherworld **** after defeating the alien god, but imprisoned him. stand up.

Compared with the gods of the New World, Simin Kodo has always believed that the spells of the New World are the most powerful spells. He worships this spell very much. But when the alien gods invaded, Simin Kodo discovered that their spells are similar to the alien gods. There is a difference between heaven and earth.

The reason why they were able to win was entirely due to time and space. The mighty ones in the alien gods could not be teleported over, and only ordinary gods could pass through the barrier, but these were ordinary soldiers for the alien gods. It made them feel tricky for the gods of the new world, so Ximing Kodo had the idea of learning the spells of otherworldly gods.

It is a pity that Ximing Kodo not only failed to learn, but was also bewitched by the alien god, and was using his power to build a portal where the alien **** would come again.

Normally, Lu Yang's killing of the elemental **** of wind is not allowed, but now that Lu Yang and Kuadli cooperate, everything becomes simple for killing the elemental **** of wind in the two of them.

Even without Lu Yang's action, a large number of Wind Elemental Gods could be led by Kuadeli to kill, and Lu Yang needed only their wings, and Kuadeli needed their **** core.

However, in order to convince Kuadli and Fengshen, Lu Yang himself needs to enter the Gale Fortress to obtain the token.

Normally, players can only score in, but Lu Yang knew that this task actually had a quick way. This was the simplest one among the most classic strategies explored by players in the previous life.

The Gale Fortress is a fortress suspended in the air. The gods here also need to study spells. Therefore, they need to go out to purchase items. As gods, how can they be such a low-level business as a merchant? Therefore, this task is Handed over to several races attached to the Strong Wind Fortress.

These are very beautiful races. One of them is called the Pure Spirit Race. The women of this race are extremely beautiful. Even if God sees them, they will be moved. Their height is not too big, only about 1.9 meters, which is for the height of two meters. For the four or so angels, it was like looking at a cute girlfriend. Therefore, this important business was handed over to his girlfriend, the patriarch of the Pure Spirit Race, to manage this important business.

The pure spirits are also very close to the Gale Fortress. It only takes half an hour for the archangel to fly there. Therefore, there is a small town in the area where the pure spirits live. This is where the archangels and the pure spirits live.

Although this area looks beautiful, it also has a very practical problem. It is said that where there are people, there are rivers and lakes, and there are also rivers and lakes in the pure spirit race area where the gods are.

Among this race, there is a biggest problem, that is, the girls of the pure spirit race here will be jealous of each other because of the men of the Fengshen race.

After the matriarch of the Pure Spirit clan got the trade business, she handed it over to his subordinate elder to take charge of the business. The second elder became angry and seized the elder's son secretly.

Lu Yang's mission was not to rescue the son of the elder, but to threaten the second elder. He had to take him into the Gale Fortress. Remember that at this time, the son of the elder was hidden next to the town of Pure Spirit. Inside a crypt.

He followed the memory of his previous life and came to this area. Sure enough, among the mountains, he saw a secret dungeon. At the door of the dungeon, two men from the pure spirit race were watching.

Pure Spirit Warrior

Level: Lower God Level 3

Qi and blood: 800/800

Lu Yang showed a smile on his face, raised his hands, aimed at the two pure spirit warriors, turned on the Vulcan Orb, temporarily increasing 500 spell damage.

“God Flame Sky Burst”

Two pure golden fireballs instantly hit the heads of the two pure spirit fighters, and then the two pure spirit fighters were killed.

He came to the dungeon, looked at the son of the elder who was trembling in the dungeon alone, and said with a smile, “Mr., why are you locked up here.”

The elder’s son raised his head to look at Lu Yang, and asked in surprise, “You are not from the second elder? Are you not from our tribe?”

Lu Yang nodded and said, “I am a passerby.”

“Great.” the elder’s son looked at Lu Yang excitedly, and said, “Dear Sir, I want to pray that you open this dungeon and let me go out. If you can do it, I am willing to give You have a lot of gold coins as a reward.”

Lu Yang looked at the prison that could be easily broken, smiled and shook his head, and said, “Sorry, my abilities are limited. I killed those two people just now. It took all my strength. Now I can’t open it. it.”

The elder’s son suddenly showed a disappointed expression, and said anxiously: “I want to go out, quickly find a way to let me out, I order you.”

Lu Yang sneered inwardly, but on the surface he said: "I'm really sorry, my honorable majesty, I have no way to help you, but if you can write a letter for me to give to your father, he will definitely send someone to rescue him. your."

"Yes, yes, you're right, why didn't I think about it, I will write it now." Excited, the son of the elder tore off his shirt and wrote on the shirt with his own blood A blood book detailing how he was captured by the second elder, and begged his father to rescue him, while killing the second elder to avenge him.

"Here you are, now I will send it to my father's elder immediately, and he will give you unexpected rewards." The elder's son said arrogantly.

Chapter 1892 - Gale Fortress

Lu Yang took the scroll and smiled. He could guess how the elder's stupid son was fooled into this place and then imprisoned. He definitely asked for it. This man is too proud.

"Thank you, I will accept this thing." Lu Yang raised his eyebrows and flew to Chunling Town with the scroll.

On the outskirts of the town, there is a convoy about to set off to Gale Fortress. There are many people in this convoy, not only from the pure spirit race, but also with many archangels. The total number of people is more than 100 people, and the flight is carrying supplies. There are more than 200 beasts.

On the periphery of the convoy, he saw the second elder who was personally responsible for organizing the trade convoy today. According to historical records, the second elder deliberately came to do this personally when the elder had to deliver supplies today and reported on the situation in Gale Fortress for nearly a month. , Because he wants to kill the son of the elder elder today, the order has been put down, and then he left, and the son of the elder dies, he will never doubt him.

The elder loves his son very much. It is conceivable that when he learns that his son has been killed, he will be so distraught, and the second elder can take this opportunity to assassinate the elder or take his position directly.

“Check everything carefully, hurry up.” The second elder gave an order while walking to a position not far away to rest.

Lu Yang looked at no one on the left and right, suddenly he strode forward to the second elder and looked at the handsome face of the second elder. He smiled and said, “You are the second elder.”

“Humans?” The second elder Anbas looked at Lu Yang and frowned. He looked down on humans, but the Wind Elemental Lord had given orders to befriend humans. This is why the Pure Spirits saw humans not actively attacking.

Lu Yang smiled and said, “Yes, I am a human being. Today I would like to ask the second elder for help.”

“What’s up, why should I help you?” Anbas gave Lu Yang angrily and got up to leave.

When the friendship with the NPC is not enough, the NPC will not only not help, but will also be angry. Lu Yang watched Anbas leave, smiled and took out the blood book of the elder son from his backpack, and said: “You see this is what?”

The second elder looked back irritably, his eyes widened in shock, and he was about to step forward to **** the blood book, but Lu Yang flashed it 30 meters away and retracted it into his backpack.

This is the most critical step. If the player’s reaction speed is slower than the second elder, not only is it not threatened, but the blood book will be robbed, but Lu Yang’s reaction speed is already about 0.05 seconds, and this reaction speed far exceeds the second elder. He smiled at the gloomy second elder, and said: “It is impossible to grab it, so let’s talk about it.”

“What are you talking about?” The second elder had fallen into boundless fear.

Lu Yang said: “You know very well, if I give this blood book to the elder, what will happen to you, and how much benefit I can get, so I want to get a bigger benefit from you, just It depends on whether you agree.”

“What do you mean?” the second elder asked.

Lu Yang said: "I want to follow your retreat and enter the Gale Fortress. If you agree to my request, this blood book belongs to you, and the stupid son of the elder is still in your dungeon. It is estimated that your people will be able to pass afterwards. Put him in prison in another place, I will leave immediately after I finish my work, and you will never be threatened by this blood book again."

"It's impossible." The second elder said angrily: "What do you do when you enter the Gale Fortress. There is a fortress controlled by the Lord Shimin Kodo. If you let him know that I brought you in, I will be dead."

Lu Yang smiled and said, "If you disagree, you are dead now. The choice is yours, you decide."

The second elder stared at Lu Yang full of anger but couldn't make it out. After thinking for a long time, he said, "Well, I promised to take you in, but then you must give me the blood book."

Lu Yang smiled and said, "Happy cooperation."

The second elder snorted angrily, handed Lu Yang a bottle of potion, and said: "Drink it and you will become a member of my clan within six hours, and then put on a cloak so that no one can see your appearance."

This face was the most beautiful woman of the Pure Spirit family, and was admired by the main **** Ximing Kodo, but this woman was a married woman, and the second elder made this medicine in order to please the main god.

In order to cover for the Lord God, he usually asked his wife to invite this woman to his home as a guest, and he asked the daughter of the family to drink the medicine to become this woman, and then he secretly took the woman and followed the retreat. Gale Fortress.

This time, because the woman was unwell, she didn't follow her, which made the medicine prepared by the second elder useless, but she didn't expect it to be given to Lu Yang.

Lu Yang took the potion and drank it. There was a flash of light, and he became a member of the pure spirit race. Then he walked to the second elder's side and said, "Let's go, we should go back."

The second elder wanted to kill Lu Yang, but found that Lu Yang was ready to escape at any time, making him afraid to start, so he turned around and returned to the vicinity of the motorcade.

“Why is there one more person?” the captain among the archangels frowned and asked.

The second elder looked at the captain and said, “Someone asked to take him there.”

Lu Yang showed his face, and the captain of the archangel instantly showed a surprised face, then showed a humble expression and stopped talking, turned and left.

At the upper level of the Gale Fortress, everyone knows that Shiminkodo has an affair with this woman, but this is a secret that can only be expected and cannot be explained. They have the greatest respect for this woman, as long as he is still treated by Shiminko. Spoiled one more day, so when the archangels saw this woman’s face, no one would say a word, and they all left quickly.

Lu Yang’s expression hidden under the cloak showed a faint smile, he just retreated like this, and walked towards the Gale Fortress with ease.

After half an hour, the convoy arrived under the fortress. Just like the city in the sky, the fortress was suspended in mid-air, and a special elevator took them to the fortress of Galewind.

According to the regulations, the second elders will stay one more day, the purpose is to collect the garbage in the strong wind fortress, and then leave.

Lu Yang entered the elevator, and when he arrived in the strong wind fortress, it was already late at night, and a large number of archangels had entered to rest. Because, on the periphery of the fortress, there were specially guarded archangel soldiers. Inside the fortress, there were only pure spirits. The people from here came and didn’t need to defend at all. Therefore, after the archangels arranged the pure spirits to a fixed rest area, they left. didn’t even warn them not to leave.

Of course, this was mainly because of the woman Lu Yang transformed into. Everyone knew that this woman would enter Simenkodo’s room alone in the middle of the night, and they would leave after staying together for the night.

After the Second Elder General settled down, he frowned and looked at Lu Yang, and said, "What are you doing here?"

Lu Yang smiled and said, "Just take a look, don't worry, I, a human being, can pose any threat to these gods?"

The second elder didn't stop him because he felt that Lu Yang was unable to pose a threat to the gods, and said, "Well, don't walk around, come back as soon as possible."

Lu Yang smiled and turned and left. He was actually familiar with the road of the Gale Fortress. Although it had become a ruin when he came here in his previous life, he could walk and understand the way here with his eyes closed.

The place he was going to was the room of Simin Kodo, because, just below Simin Kodo's room, a **** in another world was imprisoned, and Simin Kodo's residence was in the middle of this strong wind fortress. It is the largest house that I saw after walking 12 streets.

Chapter 1893 - Fengshen Treasure

Wearing a cloak, Lu Yang pretended to walk along the dark part of the house on the street. Many archangels along the way discovered Lu Yang's existence.

"Who?" An archangel blocked Lu Yang's path.

Lu Yang lifted his cloak and looked at the archangel, who immediately showed a respectful expression and left with someone.

Compared to the player who came here in disguise from the previous life, Lu Yang seemed extremely relaxed in his mentality, because in the official Raiders, he specifically described how this pure spirit woman walked in the strong wind fortress.

Because this woman doesn't want to be public, she always walks cautiously in the darkness when she walks, but what she doesn't know is that people who have seen her see her in a cloak, they know what she's doing. Although on the surface respectful, they all taunted secretly. This is a woman who is not loyal to love, but this woman is also helpless. This is the main **** of Gale Fortress. Can she go against the main god's will? Are you afraid of ruining the entire race?

Lu Yang couldn't help but shook his head, feeling pitiful for this woman. This is what the weak have to face in this world full of strong ones. Everything is so cruel and so natural, as if born to be like this.

"Stop." An archangel in golden armor stopped Lu Yang from going.

Lu Yang looked up and found that he had already come to the door of Simin Kodo's palace. He was not allowed to speak. The sixteen golden armored archangels all showed respectful expressions when they saw Lu Yang's face.

The archangel guard captain hammered his chest with respectful hands and said, "Sorry, my lady, the Lord God is in a meeting. Please go in and go in later."

Lu Yang didn't speak, but just nodded and walked into the bedroom with a haggard look. When he entered, the door of the bedroom was automatically closed, and inside the door, there was no guard or maid.

This is because Simin Kodo fears that his secret will be discovered, so anyone is strictly forbidden to enter his bedroom, and his external rhetoric is that he was wounded in the war with the alien **** and was contaminated with the curse of the alien god.

He was able to close the Gale Fortress without being doubted by the major gods. One of the important reasons is the curse of the alien gods. Although it is not contagious, the curse of the alien gods in the past brought great harm to the gods of the new world. No one wanted to come into contact with anyone with a curse, so Simin Kodo closed the Gale Fortress.

Lu Yang walked to the main hall of the palace and looked at the surrounding layout. It was a three-story building covering an area of several thousand square meters. Although it was in ruins when he came here in the previous life, he still Know how to take the road here.

Going forward is his bedroom. The gods of the different world are hidden in the wall behind his bedroom. However, Lu Yang remembers that there is a treasure pavilion on the left side of Ximing Kodo bedroom. Officials once said that there is a treasure pavilion. There are many top treasures.

The player in the previous life came to the front of the treasure pavilion, but he did not know how to open the door of the treasure pavilion. Later, the official revealed that this is a set of code locks. There are only three chances to test. If it fails after three times, Will trigger an alarm.

The player tried twice, and didn't dare to try for the third time, but what he didn't know was that there was actually another way to unlock the lock, that is, the captain of the archangel guard outside the door. The chief steward of Simin Kodo knows everything about Simin Kodo, including the keys in the treasure house.

In fact, the official has already given a reminder, because the key is always hung on the waist of this archangel, but the shape of the key is a bit special, it looks like an armor piece, in fact, the armor piece is the key .

In my memory, there are many treasures in Fengshen's treasure house. Although the inner treasure house cannot be opened, the outer treasure house alone is enough to greatly enhance Lu Yang's strength.

He checked the time, and after waiting for half an hour, he turned and walked out of the gate. Several archangels turned their backs to the gate. Although they heard the sound, they did not turn around, because they knew it must be Lu Yang. .

Just when they were curious, Lu Yang came to the front of the Captain of the Archangel Guard and said, "Sorry, can you go in and do me a favor?"

The Captain of the Archangel Guard was a little surprised, and then smiled and said, "I am happy to help you, my lady."

Lu Yang smiled and turned and walked inside the gate. The Captain of the Archangel Guard closely followed Lu Yang, and the two were less than 2 meters away.

When coming to the main hall of the main hall, the captain of the archangel guard asked curiously: “My lady, what do you need me to do for you?”

Captain of the Archangel Guard (Elite)

Level: Lower God Level 9

Qi and blood: 15000/15000

A smile appeared on Lu Yang’s face. He suddenly turned around and pointed his left hand to the head of the head of the Archangel Guard Captain, chanting a spell.

“Instant Explosion”

The Captain of the Archangel Guard did not expect Lu Yang to attack him. In the blink of an eye, a fire burst out from the position of his head, and he fell into a state of dizziness for 1 second.

“Turn on Vulcan Orb”

Lu Yang’s spell damage instantly increased by 500 points, and he raised his hands flat and aimed at the head of the captain of the archangel guard.

“God Flame Sky Burst”

The small pure golden fireball hits the head of the guard captain of the archangel 10 times in the blink of an eye with a speed of 0.1 second. Because it is attacking the head, every time it is a crit, when the last attack is over, the big The captain of the Angel Guard fell to the ground with a whirr, and there was no reaction time from beginning to end.

Lu Yang walked in front of the captain of the guard, took the key from his waist, smiled and retracted it into the backpack, turned around and walked to the corridor on the left side of the palace. When he reached the end, he saw a golden door.

There are three rows of code locks on it, as well as a row of special tiny jacks. He inserts the key in his hand into this jack and twists it.

“Click”

The golden door opened, and a flash of light drew Lu Yang into the room. After waiting for the next second, Lu Yang could see where he was, and suddenly a surprised expression appeared on his face.

A huge enchantment treasure house appeared in front of him, and at the same time, nine huge red platforms appeared in front of Lu Yang. Each platform was 3 meters high and 10 meters wide. They stood on the platform stairs. There is a gargoyle with a height of 2 meters and a hideous face.

“Stranger, don’t want to break into here and take the treasure.” Gargoyle One on the platform closest to Lu Yang stared at Lu Yang with a grim expression.

Gargoyle

Grade: Special

Qi and blood: immortality

A smile appeared on Lu Yang’s face. He had seen a lot of things like gargoyles. They were all immortal types. It was impossible to kill them.

The attack power of these gargoyles is still very strong, knowing a lot of single attack skills, it is impossible to steal things while resisting, the only way is to fight for speed.

“ember”

Lu Yang's body turned into a red golden light, and suddenly appeared in front of Gargoyle One at an extremely fast speed. The reaction speed of the Gargoyle was about 0.3 seconds, and the arms of the two stone statues hit Lu Yang's head at the same time.

Lu Yang's reaction speed was about 0.05 seconds. The gargoyle's attack speed was six times slower in his eyes. In a disguised form, he dashed to the first platform while avoiding the attack and saw a package here. , He picked up the package and put it in the backpack.

"Damn it, that's my baby." The gargoyle roared, chasing Lu Yang with a punch.

"ember"

Lu Yang turned into a fire again. quickly jumped off the platform. During the landing process, the gargoyle chased him, but Lu Yang kicked towards the column of the platform in mid-air, changing direction in the air and hiding. When the gargoyle attacked, he came to a position 30 meters away.

A gargoyle on a platform seemed to be bound by something, unable to leave the place 10 meters away from the platform, and could only stare at Lu Yang's furious bark on the spot.

Lu Yang opened his backpack and glanced at the contents in the package, his eyes widened suddenly, this thing can no longer be said to be an ordinary treasure, but the top treasure at this lower **** stage.

Green Soul Saint Crystal

Level: Lower God

Wind spell defense: +300 points

Lu Yang clenched his fist hard. This thing is definitely a treasure. What is the reason for the most difficult wasteland dungeon right now? It's because the spell damage of the lower gods of the various elements is too high to resist the past. Now there is the Blue Soul Saint Crystal. Playing dungeons and field lords no longer need to be so strenuous, just carry them directly.

Chapter 1894 - Archangel wings

Lu Yang had already figured out how to use this blue soul sacred crystal to fight against which lord, but at this moment, the Gargoyle One in the distance suddenly screamed from the sky, staring at Lu Yang in front of him. Tao.

“Damn human beings, I will never let you go like this, the barrier opens.”

Suddenly red bubbles emerged from the entire treasure house. These bubbles gradually corroded the space of the treasure house. Any white barrier around the treasure house that was touched by the red bubbles would turn red.

System reminder: Gargoyle activates the treasure house protection system. If the player cannot exit the treasure house within 1 minute, he will be trapped in the treasure house!

Lu Yang cursed secretly. He didn't expect this setting. Looking at the 8 platforms ahead, it was obvious that the closer the platform was to the closed beta, the earlier he knew that he could not wait any longer and had to act quickly.

“ember”

A red golden light flashed, and Lu Yang rushed to the stairway of the second platform. The gargoyle on platform 2 immediately rushed towards Lu Yang, but as soon as he met, Lu Yang crossed his body and came to his. Behind him, he picked up the storage bag behind him and put it in the backpack, and then he repeated the same trick, as he did on the first platform, jumping off the platform while pushing hard, leaving the platform within 10 meters.

“Damn humans.” The gargoyle on platform 2 can only stand aside and scream.

Lu Yang ran to Platform 3 without turning his head. Today, he would rather make his head hurt again, and he must get all these 9 treasures. This is a treasure. It is estimated that the previous players never thought of this. There will be so many top treasures.

Although these things will not be very useful for the middle gods in the future, for the lower gods, these things in front of them are all top things, enough for players to get the best weapons and equipment in the lower gods.

Thinking of this, he couldn't help but opened the second storage bag and took a look. After seeing the contents, he took it out with excitement.

Wind element archangel wings

Type: Rare

Wind element resistance: +150

Wind elemental spell damage: +150

Flying speed: +350

special skill:

Blessing of the Wind God: After use, the movement speed of these wings will increase by 300 points.

Normally, the initial speed of a player's flight is 300 points, which is the movement speed of the archangels, vultures and black iron warhawks, but these wings allow players who can't fly to immediately have an initial movement speed of 350 points, and click on to accelerate. , Can also double the speed of movement.

Since having the air combat career, many people have persuaded Lu Yang to change his career. Druids who can release fire skills are not absent. At least they have the air combat ability, but Lu Yang has never changed.

Relying on his own strength and the smaller potion, he used the Phoenix form to deal with the enemy, but Lu Yang also knew that such a fight was not a way, one day there would be problems like this, but he was absolutely unwilling to change his career.

He would rather not fly into the air or change his fire mage's profession. He also knew about the wind elemental archangel wings, but he also knew that this thing could only explode at level 200.

Lu Yang never imagined that this wing would be directly available here. You must know that even at level 200, players would need to fight a high-level instance to explode the Wind God wings.

But a dungeon requires 100 players to participate, and there is only one wing that bursts out. What's more terrifying is that such a dungeon can only be played once a week. Players entering this dungeon cannot enter other teams to play this dungeon, and can only wait for a week time.

In other words, even when the wings are 100% explosive, it takes 100 weeks to equip 100 people with wings at the same time. It takes only 4 weeks in a month. When the wings are all set, it will take 2 Time of year.

Fortunately, there are 6 other instances that can explode wings, but the explosion rate of wings is extremely low. Remember that in the previous life, Lu Yang used the upper god-level demon heart to make up his brothers' field equipment to Upper God 9 Pushing a level 200 dungeon is like cutting melons and vegetables, but there are still less than 10 people with wings, enough to see how hard it is to explode, so when Lu Yang saw this wing, he Will be so excited.

Lu Yang equipped his wings on his body. This time he directly activated his acceleration skills and flew under the third platform. It may be that the platform had an enchantment and he could not fly up with his wings. He could only walk from the ground. Not worried, he jumped directly onto the stairs.

Gargoyle No. 3 is no longer the two-armed gargoyle on platforms 1 and 2, but a two-headed four-armed gargoyle. The four arms hit Luyang at the same time, almost blocking all roads.

Although such an attack seemed scary, but with Lu Yang Ember's super fast speed and the great confidence in his heart, it was impossible to bluff him at all.

“ember”

Lu Yang flew straight forward, watching the gargoyle’s four-arm nails rubbing his clothes and flying past.

The golden light flashed, Lu Yang fell to the side of the storage bag. He picked up the storage bag and turned and jumped off the receipt. Gargoyle No. 3 jumped off with Lu Yang. At that moment, Lu Yang activated his wings. He quickly flew out of the front of the gargoyle and came to the top of platform 4.

As soon as he landed here, he saw the appearance of the gargoyle on platform 4. It was an even uglier gargoyle, as if three heads were glued together, and the eyes of these three heads also revealed With a crimson light, obviously, this is the eye that can release skills.

This gargoyle also has six arms, each of which is about 2 meters long, and the width of the platform stairs is only 2 meters, this arm occupies the position.

Lu Yang had never fought this monster before, and he didn’t know what skills he had, but he had seen similar monsters in other areas. Generally, when monsters with six arms attacked, they liked rotating attacks.

“You dare to trespass into the treasure house of the Highness of the Wind God, you **** it.” The three heads of the gargoyle No. 3 looked at Lu Yang at the same time, and at the same time, the six eyes showed a stronger red light.

“Reincarnation”

Six crimson rays of light shot towards Lu Yang’s body and surroundings instantly, If Com were a normal player, he couldn’t dodge the speed of the laser at all, and Lu Yang’s movement speed was not as fast as the laser, but what he avoided was the movement of the gargoyle releasing skills.

As soon as the gargoyle releases his skills, he activates the ember skill, not only does not retreat, his body instantly comes to the gargoyle, and he lowers his body to avoid the laser.

“court death.”

The gargoyle saw Lu Yang approaching them, his body spun at a high speed instantly, and his six hands strangling towards Lu Yang like a meat grinder.

There was a sneer on Lu Yang's face. The gargoyle's physical attack speed was 0.3 seconds. In his eyes, after turning around, he had no chance to come in, but at this moment of turning, he could easily pass through his arm. Enter the platform.

“ember”

Lu Yang took a golden light through the arms of No. 3 Gargoyle easily. Before the rotation of the Gargoyle hadn't stopped, he picked up the No. 3 storage bag on the ground and flew to the fourth platform. In total, less than 10 seconds passed.

Chapter 1895 - Green Wind Pearl

While Lu Yang was still in the air, he had already opened the storage bag in his backpack and saw what was in the fourth one, which was a piece of the heart of a magic dragon.

Lu Yang couldn't help showing an expression of excitement. The Heart of the Devil Dragon was very simple. He could turn 100 players into Devil Dragon. This is equivalent to Lu Yang once again getting a Devil Dragon Air Combat Squadron, which is simply better than Lu Yang. I'm still excited when I get the treasure.

He carefully packed the heart of the dragon and looked at the platform No. 4 in front of him. On this platform, he saw that the gargoyle on it was no longer a human form, but a form similar to a dog.

But this gargoyle is also different from a dog. The body of this gargoyle is arched, and its two extremely strong legs support the forward movement of the body. His two arms are like apes, which are stronger than the body.

“No one can pass my level.” The gargoyle roared.

Lu Yang sneered. He knew that this gargoyle was powerful. It was different from the first three gargoyles. The fourth gargoyle was good at speed. The first three were just ordinary and lucky, and the fourth one had special skills. It's called acceleration.

Unfortunately, the official players did not understand one thing. This game judges the strength of a player by reaction speed, not by straight-line speed.

The basic reaction speed of the gargoyle is still 0.3 seconds. Although his charging speed in a straight line is only 0.01 seconds, Lu Yang can't avoid it in the current situation, but Lu Yang can predict it.

“God Flame Sky Burst”

A small red-gold fireball hit the head of No. 4 Gargoyle, and the gargoyle was furious. The arm made a slight shoulder-shrinking movement, and then instantly activated the charge skill and ran into Luyang.

“ember”

Lu Yang was waiting for this shoulder sinking action. As he moved 0.3 meters to the side in an instant, his body came to the platform of No. 4 with a ray of light, picked up the treasure, turned and jumped down, and waited for the No. 4 gargoyle to respond. When chasing, Lu Yang had already flown out of the platform 30 meters away, and he clicked on the treasure to take a look.

Fengshen Blood

Description: The blood shed by the main **** of the wind element

Lu Yang made a fist so hard that he couldn't wait to punch it on the pillar beside him, because the Heart of the Wind God had an extremely special effect, which Lu Yang never expected to burst out here.

This thing has a total of seven functions, the biggest of which is to drop blood on the 9th-level wind god's heart, which can instantly turn the 9th-level wind god's heart into an artifact-level wind god's heart.

After the player reaches the level of the lower god, whether it is a human, an elves or an orc, they can equip more than one heart of the artifact. As long as the heart of the wind **** is equipped, the player can also use the spells of the wind system.

There have been players who claimed that after entering the lower god, Lu Yang no longer possessed the terrifying power of mixed spells before, but they didn't know that after entering the lower god, Lu Yang was the beginning of the real horror.

As long as he can gather all his heart of artifacts on his body, he can release the spells of various departments, although he wants to learn the spell skills of the gods to keep up with the level of the artifacts, which will cost Lu Yang a lot. Time, but as long as Lu Yang can get enough heart of the divine tool, he can sweep all other god-level lords.

If Lu Yang were to obtain 9 high-level god-level artifact hearts, Lu Yang would have the confidence to single out the **** kings of various elemental elements.

Standing on the fifth platform for a short rest, the high-intensity 16-second action gave Lu Yang a slight pain in his head. While there were 44 seconds left, he chanted the spell and returned to the Demon God Space. Next to the Demon God's altar, a heart of the wind **** was found, and he directly dropped the blood of the wind **** on the heart of the wind god.

System reminder: Level 9 Heart of the Wind God is upgraded to the Heart of Artifact Grade Wind God.

Heart of Fengshen

Level: Lower God Level 1

Power of God: 10 points

God's Intelligence: 50 points

God's agility: 10 points

God's Stamina: 10 points

God's physical strength: 10 points

Surefire skill level +1

With special skills: Fengshen's blessing

After use, it will make the player's speed into the extreme under the action of strong wind, the duration is 1 second, and the cooling time is 5 seconds!

Lu Yang chuckled and placed the Heart of Fengshen at his own heart position, and the two hearts of Divine Artifacts were placed side by side.

Lu Yang had seen the skill of Fengshen Power before, but he had not used it before. He only knew that this skill could increase the player's movement speed to a higher level.

He looked at the gargoyle on platform 5 in front of him. It was a gargoyle in the form of a spider with a huge tail, as if it could spit out a spider web at any time.

Lu Yang wanted to try how strong Embers were under the blessing of Fengshen, he released both skills at the same time.

“ember”

“Aeolus’s Blessing”

Lu Yang only felt that his body was accelerated to an extremely terrifying situation. At this speed, even a person with a reaction speed of 0.05 seconds could not react. At a distance of 10 meters, he arrived at the spider before even blinking an eye. In front of him, he almost hit the spider’s leg.

Fortunately, at a critical moment, he turned his body a little bit, passed the spider’s legs to the storage bag position, picked up the storage bag, and jumped off the platform.

Lu Yang now has a feeling in his heart that when the official is designing this link, he has never thought that anyone can come in, let alone that someone can only come in. It is because a fire system has the high-speed movement skills of Embers, or the reaction speed is The top player in 0.05 seconds.

What I didn’t expect was that this fire player also possesses the Heart of Wind God. It is obvious that every one of these things can cause a great sensation in the Tianyu God City, but these things are gathered together, and they are all After being used by Lu Yang, it took Lu Yang less than 25 seconds to obtain five items. It is estimated that if the official saw this scene, he would definitely vomit blood.

You know, normally speaking, any item requires players to enter the top dungeon and play a wasteland for a few weeks before it can be difficult to obtain by killing the dungeon. But Lu Yang can get it so easily. Not only is the official unbelievable, Lu Yang himself couldn’t believe it now.

However, Lu Yang has a new insight for this Ember and Fengshen blessing skills. At least he understands one thing. The reaction speed of 0.05 seconds is not the limit. The player’s reaction speed should be improved, at least it should be improved. To 0.005 seconds.

Ten times, this ten times speed is enough to make many top players in the game feel crazy and unbelievable, but this is what really exists.

The official movement speed can be so fast, and the player’s reaction speed should follow so fast, otherwise the official movement speed will not be issued.

Lu Yang didn't have much motivation to hone his reaction speed. Now that he has these two skills, Lu Yang has the idea of strengthening training.

"Roar~!"

There was a sudden roar behind him. Lu Yang had been paying attention to the spider while he was flying. He always felt that there was a problem with the spider's tail. Sure enough, when the spider saw that he could not chase Lu Yang, his tail was fierce. Spout a slimy stone net.

"ember"

After landing, Lu Yang quickly lit up with a golden light, and escaped the shackles of this 10-meter-diameter stone net by a few millimeters.

He stopped in place and took a breath. The sequelae caused by using the two superimposed skills of Fengshen's Blessing and Embers were a bit serious. At this time, his head was a bit painful.

Lu Yang couldn't help but shook his head, opened the backpack, and saw the contents in the storage bag, he showed a sigh.

Green Wind Pearl

Type: Artifact

Wind element resistance: +200

Special effect: temporarily increase a 500-point wind element spell resistance, duration 1 second, cooling time 5 seconds!

Lu Yang knew that if he left this instance alive today, he could push the wind element lower god's top copy. With the two things, the blue wind orb and the blue soul sacred crystal, the lower **** would never have any. It's rare to be able to survive the elite group of the Jagged Brotherhood.

He raised his head to look at the gargoyle on platform 6. This gargoyle is in the form of a scorpion, but this scorpion is a little different from other scorpions. This scorpion has three tails and is constantly waving towards Lu Yang.

Even though this scorpion seemed to be no different from other monsters, the strength of this scorpion should be the hardest gargoyle Lu Yang had ever seen so far.

This scorpion not only has three tails to guard against the air, but also two pincers to guard against the ground. If you want to go through his side, you have to use Fengshen's blessing and ember skills.

Lu Yang discovered that the officials were really assholes. Obviously, this was challenging the limits of human beings. Lu Yang had a headache because of releasing those two skills. Now he had to release it if he wanted to get the treasure. This made him very worried.

But he couldn't let this skill go, he couldn't hold this kind of monster at all, so he aimed at the position of the scorpion, and said the spell.

"ember"

"Aeolus's Blessing"

Lu Yang turned into a ray of light, and in the blink of an eye he came to the right side in front of Scorpion. Just as Scorpion's two pincers were facing Lu Yang, he immediately changed direction, passing through Scorpion's left side, and then another. Change direction got the storage bag behind Scorpion.

At this moment, the three tails of the scorpion stabbed towards Lu Yang at the same time. Lu Yang originally wanted to rely on the two skills of Embers and Fengshen's blessing to **** the treasure from the platform at once and jump off.

But he had changed directions three times before he got the treasure. now has to change directions when facing the stabbing tail, but when he changed directions for the fourth time, he suddenly felt something cracked in his head, and when he fell to the ground, he blinked.

"It's strange, why doesn't his head hurt anymore?" Lu Yang couldn't touch his head. He felt his head carefully. At this moment, he even felt whether he had fainted, so he didn't feel anymore.

Lu Yang deliberately sent a message to Shen Mengyao to let him see if his body was ill, but he was afraid that Shen Mengyao was worried, so he didn't send it out. He decided to take advantage of the fact that his head doesn't hurt, and quickly put the rest Take away all the treasures.

Of the remaining three treasures, two were also guarded by scorpions. After Lu Yang used the embers and Fengshen's blessing to break through, to Lu Yang's surprise, the two storage bags were also used by magic dragons. Certificate.

As for the last one, it is not controlled by a scorpion, but controlled by a stone figure man. This stone figure man has only two arms and is only one-third the size of a human being, that is, less than one meter in height.

But when he saw this stone figure, Lu Yang became nervous, because this stone figure was too small, and small, it proved that the speed was extremely fast!

Chapter 1896 - Celestial Staff

The dwarf gargoyle held two stone thorns in both hands, staring hollowly at Lu Yang's face, as long as Lu Yang dared to step into the range of the stairs, he would attack.

Lu Yang knew that with his current reaction speed, he would definitely not be able to defeat this dwarf. However, Lu Yang did not necessarily have to fight him. Although this kind of gargoyle would not be stunned or controlled, he did not say that he could not fight. Fly.

He sneered, turned on the Embers skill, and ran into the dwarf gargoyle, and in the blink of an eye, he came to the dwarf, and the dwarf showed a sneer like a human, and two stone thorns instantly pierced Lu. Yang's chest.

The timing, angle, and position of this sting were extremely tricky and harsh. Lu Yang couldn't hide it at all. Seeing the purple-black light that suddenly emerged from the stone sting, if he was stabbed, he would not die and be forced to die. Controlled in place, and at the speed of the dwarf's attack, he is bound to die, but will he die?

“Controlled by the Devil-Heavy Punch”

A red-golden light suddenly gushed out from Lu Yang's heart. In an instant, the golden light turned into a fist shape with a diameter of 1 meter, centered on the two stone thorns of the dwarf.

“Boom”

After a loud noise, the dwarf's stone thorn was beaten crooked, and the scarlet gold fist hit the dwarf's body, knocking it to a distance of seven or eight meters below the platform.

Lu Yang took the opportunity to activate the Ember skill and came to the platform with a golden light. After picking up the last storage bag, he instantly rushed out of the platform 10 meters away, and at this moment, he was far away from Lu Yang. Less than 1 cm away from the back are two stone thorns of the dwarf.

Because he was restricted to activities within 10 meters of the platform, the dwarf was less than 1 centimeter away, and could not reach Lu Yang.

“Damn human, **** human.” The dwarf screamed.

Lu Yang was also startled in a cold sweat, looked back at the dwarf, made a salute gesture to him, and rushed towards the enchantment at the door to activate the ember skill.

At this time, the enchantment had been contaminated by red for 90%, and only the last 10% of the area was still white. Lu Yang accelerated his movement. When the red-contaminated area reached 99%, he finally came to the entrance of the enchantment, and he threw himself Jumped in.

The light flickered.

Lu Yang appeared outside the vault door. Looking back, the enchantment just turned red. A smile appeared on his face. He opened the last storage bag and looked at it. When he saw the contents, he Can't help but look up to the sky and sigh, it's really incredible.

Celestial Staff (Alien Artifact)

Level: 0

God's physical attack: 250-250

God's magic attack: 250-250

Intelligence: +50

Strength: +50

Stamina: +50

Stamina: +50

Agility: +50

Additional physical attack: +50 points

Additional magic attack: +50 points

Additional physical crit: +100 points

Additional magic crit: +100 points

special skill:

Wrath of the gods: After opening, magic and physical attacks hit the target, 100% knock the target back 10 meters away, and add an additional 250 points of spell damage. The duration is 10 seconds and the cooling time is 1 minute.

Lu Yang immediately replaced the Celestial Scepter and put the Sacred Flame Scepter he had worn in his backpack. His spell damage increased by nearly 300 points. After the left and right effects were activated, his total spell damage reached a terrifying 1,300 points. Moreover, the attached attributes will make him burst into attacks.

Lu Yang looked at the staff in the shape of a long stick. It was carved with very beautiful patterns and runes. Like his name, this staff was brought by a foreign god.

As he walked towards Simin Kodo's palace, he recalled the story about this staff in the previous life, and he couldn't help but smile.

This staff had a scientific name in the previous life called the Two Hundred Five Staff. Of course, this is the name of the jealous, because this staff can be used by all 0-level trumpets in the game. Therefore, the price of this staff Extremely expensive.

In many cases, such a staff can be exchanged for 1 million credits. In the early stage, someone even called out 1.3 million credits. It can be said that this staff is a must-have weapon for local tyrants, and ordinary players see To get to this staff, you can only go as far as you can and hide.

The reason for the existence of such a staff was introduced in the official history. When the alien gods penetrated the passage to enter the new world, the large number of intruders in the initial stage were the weakest among the alien gods, even the alien gods. The lowest race in God's Domain.

In the early war, the race sent by the alien gods suffered an extremely serious defeat, causing the alien gods to find a way to change this pattern.

Their first method is to send new-born gods among the otherworldly gods. Although they grow up, they have very strong strength, but they need a long time to grow. The other way is to make gods' staff. Weapons, come to be used by ordinary creatures in the alien gods.

With these weapons, the ordinary creatures in the alien gods also have extremely strong combat strength, even if it is against the mid-level gods, these weapons can also play a great role.

After the defeat of the alien gods, the gods of the New World hated this weapon and ordered their subordinates to collect these weapons and then destroy them. However, some gods liked to collect them, so some of these weapons were left behind, but Lu Yang didn't expect it. Minkodo also collected one.

Normally, a weapon in the lower **** stage, even a Tier 9 weapon, could have a spell damage of 150 points. This weapon allowed Lu Yang to directly possess a middle **** weapon.

The most important thing is the attack effect of this weapon, which is equivalent to keeping Lu Yang in an unbeaten position in melee combat, and no one can attack him in close quarters.

“Dididi”

The voice of the interphone rang. Lu Yang picked it up and saw that it was Yun Yu's call. He smiled and pressed the call button and asked, “What's the matter?”

Yun Yu said embarrassingly: “I just played two games with Lennon's air combat team. I didn't expect this kid to be quite hard. He chose to lure the enemy into deep and attack again. My offense encountered some obstacles.”

When Yun Yu took tens of thousands of air combat brigade to attack Liu Jie's Tuntian area, Liu Jie, seeing that he obviously could not defeat the Jagged Brothers Air Combat Legion, chose to block the second stage.

The so-called second stage is that after the Jagged Brothers players fly into Liu Jie's area, before spreading to a wider area, Liu Jie and Ruyue Taishan order their players to set up ambushes in various necropolises. At the same time, they order Lennon's 70,000 archangels desperately killed the Jagged Brothers players regardless of the cost.

Although the Jagged Brothers had a lot of equipment in their hands, Lennon and Ruyue Taishan chose to attack at night. In the wild, Yun Yu suffered a dark loss.

Lu Yang was not accidental. After all, this was the first air strike. If Liu Jie was defeated so easily, it would not be Liu Jie. His generals are considered dead grass and Ruyue Taishan are the best. Jing, want to beat them, it is definitely not so easy.

"Fumbling slowly, return to the Heavenly Sword Fortress to rectify, and then think of a way. By the way, I will go out and give you a surprise later, I will give you three more Demon Dragon Air Combat Squadrons." Lu Yang said.

Yun Yu is embarrassed. He is most afraid of Lu Yang asking him about his loss. This time he has lost a lot of golden dragon crossbows and spell scrolls, and several players who were attacked in the necropolis have been knocked out of the lower gods. , This was Yun Yu's worst failure, and it was also caused by his ignorance of the game.

But he thought that Lu Yang would trouble him, but he didn't expect Lu Yang to take it seriously. He also told him that he had the profession of Demon Dragon and three squadrons. He couldn't help but asked excitedly: "300 Demon Dragon?"

Lu Yang smiled and said, "Yes, 300 people."

"Great, boss, I will definitely go all out, and I won't have this situation again next time." Yun Yu said.

Lu Yang smiled and said: "Don't blame yourself, I also took too much time to push you down on the front line. Normally, I should give you more than half a year to familiarize yourself with this game. Now you can catch the ducks and fight a few more battles. Only then can you understand how many pits there are in this game, how many pits there are in air combat, and when you are familiar with it, you will be fine."

His meaning is very clear, let Yun Yu fight a few more defeats to know how to play this game, how to play the air combat professional.

Yun Yu was grateful, gritted his teeth and said, "Thank you, boss, I know what to do."

With Lu Yang's words, Yun Yu is not afraid of failure. At least he doesn't care about the impact of rumors on him. He is really afraid of failure. Once he fails, Lu Yang will abandon him. Then he will be ashamed. Big.

Now Lu Yang says that it's okay to let him fight a few defeats. What else is he afraid of? His boss has given him so much trust and freedom. He decided to postpone the large-scale offensive, and instead carefully study how the game is going. Going on.

Yun Yu hung up the phone here, and Lu Yang called Xiao Liang again and said, "How many players do you have in the Prismatic Shield Armor Corps back then? Give me a Corps like this."

"Huh?!" Xiao Liang was following his wife to download a copy, and he asked curiously: "Boss, is the Prismatic Shield Armored Corps still useful?"

Promoted to the lower god, Xiao Liang, because he exercised with Lu Yang all the year round, his reaction speed also entered within 0.1 second, which made him know that at the stage of the lower god, even if he was carrying a large shield with 10,000 points of defense, As long as the body has no defenses, it will be attacked by the faster-reacting lower gods and easily attack the areas without armor, and then kill the opponent.

The player's equipment has become **** to a certain extent. The only thing that is really powerful is the reaction speed. Therefore, when he led the team, he was always cultivating newcomers and looking for experts with fast reaction speed, but he did not expect that Lu Yang even asked him to make a Prismatic Shield Armor Corps.

Lu Yang smiled and said, "Of course it will work. I can get me a qualified Shield Armor Corps in the afternoon at the earliest and tomorrow at the latest. The number is about 10,000."

"So many!" Xiao Liang was surprised. It was not the number of players that he was surprised, but the players who could be trusted. He scratched his head and said, "No problem, we must find all by this afternoon."

Lu Yang smiled and hung up the phone. At this time, he had already arrived in Simenkodo's bedroom. Behind a huge red bed was a huge wall.

It stands to reason that this bed should be extremely heavy, but in fact there is a switch under the bed, he leaned down, and sure enough, the bottom of the bed was hollow, and there was a stone button on each side of the bed.

Lu Yang clicked on the left and right buttons. Suddenly, a roar came from under the bed. He stood up and took a look. He found that the black wall on the side of the bed had opened up, and inside the wall, there was a whole The purple transparent crystal fish tank in the room, in this fish tank, is filled with a thick purple energy liquid, a purple spherical creature is full of cracks and is sleeping.

"My servant, why did you come to me so early today? Is there any question?" The purple globular creature didn't look at Lu Yang, so he closed his eyes and whispered, and this voice could only be heard in this palace.

Lu Yang looked at the spherical creature with a sneer, and picked up a purple spherical wrinkled skin in front of the fish tank. It was the purple spherical creature that faded away. With this, it can prove that what Shimin Kodo was doing was lost.

She put away her skin, closed the door, turned around and walked out of the bedroom. Just outside the door, a few guards were still on duty. Lu Yang walked straight in front of them, but the guards did not dare to ask Lu Yang why. go.

Just seeing Lu Yang walk away, a guard whispered, "Is the Lord God's Highness coming back too late?"

“Shut up, this is not something you and I can discuss.” The other guard said quickly.

“But the boss still...” The first guard also asked.

Another guard glared at him sharply and said, “Shut up and stand guard quietly.”

“Oh.” The first guard stopped talking.

Lu Yang was not far away, and could still hear their chat, with a smile on his face, and walked straight to a place where no one noticed, taking advantage of the fact that there was no archangel on his left, he put on his wings, jumped out of the Gale Fortress.

At the moment he landed, his surroundings lost the **** of divine power, and immediately took out the teleportation rod and flew into the sky city. At the same time, he activated the summoning skill.

Five seconds later, Kuadli appeared in front of Lu Yang, frowned and asked, “Why call me in the Sky City?”

Lu Yang raised his eyebrows and said to Kuadli, “I have good news for you to be promoted and to be more trusted. Do you want to know.”

“Promoted and trusted more?” Kuadli was a little surprised, and asked: “What can you do? I am already one of the most trusted gods of His Majesty the King.”

Lu Yang said, “What if I tell you that Feng Shen Ximing Kodo has done the most unbearable thing God King has done?”

Kuadeli suddenly widened his eyes, and said, “Except for rebellion, there will be nothing that God King cannot bear.”

Lu Yang smiled and said, “It’s a rebellion!”

Chapter 1897 - Attack on Tornado

Kuadli was disbelief when he heard this, and said: “How is this possible? Shimin Kodo is one of the most trusted gods of Fengshen. He can control a fortress. He is on this continent and already has everything except The greatest right besides the king, why would he rebel?”

Lu Yang smiled and said, “Power!”

“Power?” Kuadli frowned and asked, “What do you mean, besides the King of God, where else can he get power from?”

Lu Yang smiled and said, “The otherworld god, I saw with my own eyes that he has been bewitched by the alien god, and the alien **** still calls him a servant.”

“What?” Quandeli’s stunned eyes widened, and he looked at Lu Yang and said, “This, how is this possible, didn’t all other world gods have been killed? Where did he come from?”

Lu Yang took out the skin of the alien **** from his backpack, put it in front of Kuadli, and said, “Help me see if this is the skin of the alien god.”

“Kalavat Lord God.” Quandeli jumped a step backward in horror, and roared: “Don’t let him approach me, I don’t want to be polluted.”

A dazzling green light suddenly lit up in the city in the sky. When the light passed, an archangel with a height of 2 meters, a crown on his head and seventy-two wings behind his back appeared in front of Lu Yang.

Wind Elemental God King-Hames

Level: God King

Qi and blood: N/N

“Your Majesty the King of God.” The archangels and Quadli who ran over because of the smell knelt in front of Hames at the same time.

“Get up all.” With this molting of the Karavat Lord God in his hand, Hamings smiled and looked at Lu Yang and asked, “Human lad, did you get this?”

Lu Yang bowed respectfully to Hames, and said, “His Majesty, the King of God, I got it.”

“Unexpectedly, after tens of thousands of years, I will be able to see our old friends again.” The wind element **** Hamingsi smiled and took the molt into the space storage room. He looked at Lu Yang and said, “Human lad, Tell me where you got it, and I will give you generous rewards.”

Lu Yang originally thought that he could see the Wind Elemental God King by boasting profits. One of the most difficult problems in this game is to visit the God King. This is the case with the Fire Elemental God King, as well as the Wind Element God King and other **** kings. , The missions and rewards given by the God King are excellent, but normally, the players will never see it.

God king, unless it is a clone in the copy, or after attacking the sky city, it is possible to force the **** king to show up.

Lu Yang sighed with emotion. He briefly explained how he entered the Gale Fortress in Shimin Kodo and how he saw the situation in the palace. The content was probably that he had gained the trust of the second elder of the Pure Spirit Clan and was given a mission to give Gale. The fortress sent supplies.

Because he felt the breath of the devil in the strong wind fortress, he followed the breath and found the purple round monster.

Hamings shook his head with emotion and said: "I didn't expect that my most loyal servant would betray me for strength and praise him for profit. I can't bear to kill him. You can solve this problem for me. You are temporarily in charge of the First Army of Angels."

"Yes, my great king." Quadli immediately knelt on the ground.

Hamingsi turned his head to look at Lu Yang, a ray of light fell in front of Lu Yang, and another wind-element archangel wing, Hamingsi said: "Human man, you have merit in reporting this matter. From now on, you can Go straight to my temple to listen to my teachings."

"Thank you, Your Majesty the King of God." Lu Yang bowed excitedly. From now on, he can take the task directly from the King of God. Although the task given by the King of 200 is difficult to pass, as long as it passes, the reward will be all It is unthinkable.

The green light flickered again and again, and the Lord Hamings disappeared, leaving only the first legion of Archangel and the Archangel gradually coming from all around.

Kuadli looked at Lu Yang excitedly, gave a grateful look, and said, "Now I am ordered to conquer the Gale Fortress, are you interested in coming with me?"

Lu Yang said, "Of course, my Jagged Brotherhood can also help a lot."

"Wait for me." Kuadli turned his head to look at the archangels who were gradually gathering, and said loudly: "Listen to my order, everyone will immediately go to the teleportation formation, the target Gale Fortress."

"Yes." Tens of thousands of archangels ran in the direction of the teleportation formation.

Quandli signaled Lu Yang not to speak now, and led Lu Yang to the teleportation array area. The light flickered. He led Lu Yang to appear inside the Gale Fortress. At this time, in the Gale Fortress, the first angel legion had already met Xi The angels of Minkodo fought together.

“You can fight, do you want me to help?” Lu Yang had never participated in this war, and some did not know the fighting ability of both sides.

Kuadeli smiled and said: “Don’t worry, all the members of the First Archangel Legion are the top gods, and they are only one step away from the main god. 50 of them can defeat a main **** by cooperation. Need to worry about them.”

Lu Yang raised his eyebrows, looked at the angels of the first legion of archangels, and whispered to Quadli, “Are you interested in killing a few and robbing them?”

He praised Li’s expression of contemplation and said: “This is probably a bit difficult. Let’s be more pragmatic and figure out how to get more ordinary angels.”

Lu Yang raised his eyebrows and said, “I have a stone monument of sleepy gods, which can trap the upper gods, but I can only trap one at a time. Is there any way to delay more time? Let’s work together to kill a few first .”

Kuadeli’s surprised eyes widened, and said, “You have the heart of a devil?”

Lu Yang nodded, complimented Li and suppressed his laughter, and said, “Okay, based on your ability, we will cooperate, God will give me the core, and the rest will be given to you.”

“Happy cooperation.” Lu Yang said.

Quandli thought for a while, and said: “It is not so easy to kill the angels of the upper **** level. In this way, let’s go to Simenkodo to see. He should be fighting with the upper gods of the Archangel Legion. We Try to kill a few in a sneak attack.”

There are also many archangels at the upper **** level under Ximing Kodo. has more mid-level gods, and countless lower gods. When the two sides fought, almost the entire Gale Fortress fell.

Lu Yang and Simin Kodo hide their skills. Sometimes they can’t hide. Simin Kodo will summon a protective cover to block the damage for Lu Yang.

The two of them walked all the way to the front of Simin Kodo's bedroom. What Lu Yang and Simin Kodo did not expect was that Simin Kodo, who should have been defeated by 50 archangels, was mad at this time. His whole body changed from pure white to dark purple. He used a lot of foreign gods' attack skills, and the elites of the Archangel Legion were miserable. Many people were beaten into remnants of blood and fell into the pool of blood.

And Shimin Kodo more than one person became a slave to another world god, and a large number of elite archangels under him were also slaves to the devil. Not only did the Archangel army fail to suppress Himin Kodo, but the slain steadily retreated.

"Opportunity is here." Lu Yang looked at the chaos army, no one was going to help the archangel who fell to the ground and couldn't get up. He suddenly rushed in front of the opponent, chanting a spell.

"Sleep God Stone Tablet"

A black hole appeared out of thin air in front of Lu Yang, and numerous scarlet gold chains drilled out of it. After trapping the archangel, it was pulled into the special space in the blink of an eye.

Chapter 1898 - 2 robbers

Lu Yang followed into the special space, and the same came in with praise. Seeing that Lu Yang had really trapped the Remnant Blood High God, his face showed a complicated expression.

"Don't worry, we are friends, besides, this chain still can't hold the main god, otherwise I will single out the main **** myself." Lu Yang said with a smile.

Zandli chuckled, showing a look of relief, otherwise he was really afraid of being taken into the stele by Lu Yang someday.

“Kuadaeli, Lu Yang, why are you two trapped? What are you doing?” The badly injured archangel had not lost consciousness, but felt something was wrong. Seeing Lu Yang and Kuadeli looked hideous.

Archangel (elite)

Level: Upper God

Qi and blood: 50/500000

Boasting a smile, his right hand pointed to the archangel, a light flashed, and the archangel of the upper **** level fell to the ground and died instantly.

Lu Yang looked at the explosion, but it was an elite monster, unlike the higher **** lord monster Lu Yang killed before, only three items were exposed to Lu Yang.

Recipe: Wind element resistance potion, description: Increase wind element resistance by 100 points after use!

Material: angel wings

Material: God Core

Kuadaeli took the divine core directly, he didn't even need the angel's body, and Lu Yang raised his eyebrows at Kuadeli and said, “Let's continue.”

“Go on.” Kuadli found Lu Yang Tebei's appetite for him. The two left the Demon God space and returned to the Gale Fortress, and continued to stare at the upper god-level archangel to kill him. When passing by the lower **** archangel, he would also Following the attack, they killed the angels on both sides and took away their wings and crystal cores.

This war lasted a whole day and night. Lu Yang and Kua Deli both killed them and obtained more than 13,000 crystal cores and wings.

When Shiminkodo was killed, Kuadli looked at Shiminkodo's body and sighed. He really wanted to take away the main god's crystal core, but the main god's body must be completely handed over to the wind element **** king. .

He could only order the Archangel Legion to put away the corpse of Shimin Kodo, and he personally took the things that the Wind Elemental King gave him, and went to a duel with the otherworld lord King Karavat.

King Karavat was the young alien master **** who plunged into this world when the alien gods invaded. No one thought that alien gods would be defeated so quickly. Karavat hadn't waited for adulthood, the whole army of alien gods Defeated.

When he was hunted down by the enemy, King Karavat was the main god. Although he fought with the wind element god, he was hit hard.

When escaping, he was overtaken by Simin Kodo at the location of the Gale Fort. The two sides fought for half a year. King Karavat lost to him and was captured by Simin Kodo.

Then there was the Corruption of Simin Kodor, and King Karavat separated two-thirds of his body and gave it to Simin Kodor, so that he would hand it over to the Wind Elemental Lord God to escape.

Today's King Karavat's physical strength has returned to the upper god, and his spirit has only just reached the early stage of the main god. Facing the main **** who has the artifact given by the wind element god, he has no chance of winning. He is beaten to pieces, but he Before his body died completely, it burst into countless fragments, and the entire Gale Fortress was contaminated, including the two archangels who were fighting in the fortress.

For a time, countless archangels were corroded by the unique blood. Seeing this scene, praised Li without any mercy and ordered his subordinates to kill all the corrupted archangels, including their own archangels.

King Karavat's unique skills can corrode the mind of the archangel, and the reason why Quandli hadn't reminded him before was because he wanted to find an unfinished excuse for the archangel who was killed by him and disappeared.

"The flame is burning, don't use the elements, these **** evil blood, even the elements will contaminate." Quadli looked disgusted.

But none of the surrounding archangels dared to step forward, and they all hid from a distance. Seeing this scene, praised profit and felt a little helpless.

Lu Yang said, "Leave this matter to the Jagged Brotherhood, let them handle it."

"That's not good, how can human beings help us in the matter of our archangels." praised Li's expression of disgust.

"I think this is very good." The commander of the Archangel First Legion, Hil Sima, looked at praisedly, and then he said to Lu Yang: "We are very happy that you have the heart to serve our Archangel. The matter is left to you, and come to me to receive the reward later."

Lu Yang held back a smile in his heart, nodded excitedly, and said: "Thank you for the trust of Commander Hill Sima, I am willing to serve the archangel family."

Hirsimah nodded with satisfaction, and said: "I heard that the relationship between Gale Fortress and the Pure Spirit is very special. I think it is necessary to purify the Pure Spirit as well. I will take the Legion to do this. You stay here. Right."

Only less than 4,000 of the ten thousand archangels were left, and all the others died in the battle. Quandeli and Lu Yang looked at the archangel disappearing in the air, and both were relieved.

Kuadeli gritted his teeth and said: "You see, even though I'm the Lord God, the purebred archangel still looks down on me. This is what I experienced in the Fengshen clan."

Lu Yang said: "In this case, it's better to apply to take your hands down to station in the Gale Fortress. Anyway, there is no one here. If you stay here, it will be safer."

Kuadli thought for a while, and said, "This is a good place. It takes some effort to rebuild. When I turn around, I will ask the king of gods. By the way, I will search for some here to see if there are other foreign gods."

Lu Yang smiled and looked at Kuadli, and said, "I feel that you are not a person who is fully loyal to the King of Gods. Why have you never thought about getting power from otherworld gods?"

Quadli snorted, he and Lu Yang are already in a life-and-death alliance. Whoever is discovered by the Wind Elemental God King will have to be hunted down for a lifetime. said, "You treat me like I don't want to. , But I don't have a place or a chance. Let's take a look this time and talk about it if I can."

Lu Yang smiled. He knew the idea of Quanduli. If so, he would help him, and help Quanduli, that is, to help himself. As long as Quanduli can gain control of Gale Fortress, he can Let Kuadli find the master **** of the alien world and gain the power of the alien god.

While the two were chatting here, Lu Yang sent a message to Xiao Liang. Soon, Xiao Liang brought 10,000 prepared Prismatic Shield Armor Corps to the Gale Fortress and piled up the corpses. After they were lit, they were all burned. Became ashes.

Xiao Liang said in surprise: "Boss, why did you find such a task with such a huge background? Even the main **** of the wind element has been dispatched."

Lu Yang smiled and thought. He didn't tell Xiao Liang about the God King. If he said it, it would make them even more shocked. He said: "After finishing packing up, I will return to the fort and wait for me. The boss will take you to play equipment. It is the lower god-level prismatic shield armor equipment, guaranteed to surprise you."

"Yeah." Xiao Liang led people away.

The ten thousand prismatic shield and armor warriors were all in a state of excitement, able to become masters without any effort, and they all happily left wherever such a good thing happened.

Chapter 1899 - Dingfeng Tianjing

Here Xiao Liang left, and Kuadli returned to the Sky City to report on the situation. News has been sent from the archangel that all the pure spirits have been killed, and none of them survived.

Lu Yang sighed a little. For the upper race, the lower race were nothing more than ants. They would kill if they wanted to kill them, without any mercy.

The second elder of the poor pure spirit clan, the entire race was killed before the organization was exhausted, and even he died along with it. It was really sad and deplorable.

However, in the official history, the pure spirits are not dead. The man of the pure spirits who was dunked with the green hat by Simin Kodo is still alive.

Not only was he alive, but in the village of the Pure Spirit Clan, he also hid another **** in another world, and he also survived because of the carelessness of the archangel legion.

Later, the man of the pure spirit family dedicated his body to another **** of another world who remained in this world. After obtaining the supreme divine power, he established a revenge organization to kill all the creatures under the seat of the master **** of the wind element.

As for the reason for revenge, it was not because of the destruction of the pure spirits, but simply because his wife and Simenko had felt the uselessness for so many years, so he hated all wind elemental creatures.

However, what is even more sad is that the wife of this pure-spirited man did not die. The reason why he was able to escape to find the lord **** of the otherworld has a lot to do with the escape treasure given by Shimin Kodo on his wife. This incident was not thankful to his wife, but was full of hatred.

This is the follow-up mission of the Pure Spirit Clan, but if you want to start it, you need to wait for a while. Lu Yang guessed it would take at least an hour.

Taking advantage of the end of the matter here, he took out the teleportation scepter and flew to the camp of Prince Boggs of the Ten Thousand Realms. Looking at Boggs who was greeted with a smile, Lu Yang smiled and said, "I will give you the wings you want. I found it."

Boggs didn't take Lu Yang seriously. After all, the archangels are the main combat power of the Fengshen clan. It's harder to get their wings than ascend to the sky. He thought that Lu Yang just got one or a few pairs, and said with a smile. : "My friend, thank you very much, you will get a very good reward."

Lu Yang raised his eyebrows. He felt that there was something wrong with what Boggs said. The words spoken by the NPC in the game had several special meanings.

Generally speaking, it is in Mandarin. For example, what tasks are given are fixed. The second is Boggs's way of speaking. The rewards given are not fixed. They may be excellent or extremely difference.

Lu Yang asked, "What reward can I give."

Boggs said proudly: "Although you don't get many wings, our Ten Thousand Realms Foundation will never treat friends who are willing to help us badly. For a pair of wings, I will give you a Dingfeng Tianjing."

Dingfeng Tianjing

Level: Lower God Level 9

Power of God: +10

God's Stamina: +10

God's physical strength: +10

God's Intelligence: +10

God's Agility: +10

Wind spell resistance: +50

trick:

Fixed wind: immune to 100 damage from wind spells, duration 60 seconds, cooling time 5 minutes!

Lu Yang couldn't help but smile. He knew that this profiteer would definitely give good things. Sure enough, if he directly gave him a lot of wings, he would never exchange such good things.

You know, Lu Yang killed the archangel because he knew the plot. Without this plot, how difficult it would be to kill the archangel alone, not to mention that the archangels are marching in groups of 12 people.

With Lu Yang's current equipment, it's hard to beat 12 archangels at a time. With its super high reaction speed, it takes a long time to kill a team. If you bring a team of players over, the task reward is definitely not this. , It must be other garbage.

Lu Yang smiled and looked at Boggs and asked, "Are you sure you have a pair of wings to exchange for a Dingfeng Tianjing?"

"Yes, as long as you can find them, no matter how many, I will give you as many Dingfeng Sky Crystals." Boggs said triumphantly, not paying attention to Lu Yang's expression.

Lu Yang said, "Well, I have 13,000 pairs of wings here, please give me 13,000 Dingfeng Celestial Crystals."

“Huh?” The Prince of Ten Thousand Realms showed a very human expression, and said in shock: “So many?”

Lu Yang poured out 13,000 pairs of wings from the Demon God Temple and said, “Yes, that’s all.”

Boggs looked at Lu Yang with a distorted expression, and said, “How did you do it.”

Lu Yang smiled and said, “Secret, you cash out my reward first.”

Boggs looked at Lu Yang depressed and said, “Humans, you are really a cunning race. I will exchange it for you. The above will definitely feel that I am crazy and give you so many treasures.”

Lu Yang smiled and said, “With each other, you still let me do this kind of task that is easy to be chased and killed by the wind element master forever.”

Wishful thinking, don’t blame anyone else. If Lu Yang doesn’t do this, he might specify what **** he gave.

Boggs shrugged his shoulders helplessly. As the Prince of Ten Thousand Realms, he found that he was scammed for doing business for the first time, but he admired Lu Yang even more, smiled and gave Lu Yang 13 storage bags, and said: “Inside They are all Dingfeng Tianjing, and I hope there will be a chance to cooperate next time.”

Lu Yang smiled and nodded, then turned and left. In fact, he still had thousands of pairs of upper and middle **** wings in his backpack, but he couldn’t trade now. He hit this thing too early, and he had to wait until level 190 and Only at level 200 can the exchanger be found.

He sent a message to Xiao Liang and said: “After leaving the fortress, take everyone to the 50 kilometers east of the town of the Pure Spirit Clan, where we will gather.”

“Yes.” Xiao Liang replied.

50 kilometers to the east of the town is the place where the alien gods hide. In fact, Shimin Kodo found two alien gods, one is the severely injured **** of Karavat, the other is completely uninjured and in strength Volvara at the pinnacle.

At that time, facing the defeat of the entire alien god, Volvara and Karavat discussed countermeasures and decided that Karavat would go to the Gale Fortress with Simenkodo after his suspended animation. He stayed underground and relied on his strength and the remaining tribe to multiply offspring.

After these offspring are reproduced, once they reach adulthood, they will obey Volvara's will and seal their bodies in their own pupas.

The pupa skin will cut off their power from the outside world, which will not allow their alien gods to be perceived by the outside world, so that Volvara will counterattack the new world in the future and open the space-time channel to welcome the arrival of the alien gods. .

After the two decided to divide their labor, they only used their consciousness to communicate for tens of thousands of years. Because of their worship of their power, Shimin Kodo became their slaves.

In order to reward the servants, the two would personally teach Shiminkodo how to use otherworldly energy every once in a while. Karavat is easy to find in Shiminkodo's palace, while Volvara is too far away. Created a teleportation badge for Simin Kodo.

After learning how to use otherworldly energy, Shimin Kodo made a necklace like this and gave it to this woman. The woman has never used it before. He has only heard from Shiming Kodo that if you encounter a crisis, you must use this immediately. Something escaped.

Chapter 1900 - Poor ghost plot

After this escape use, although the woman rescued her husband, the husband was even more angry, because even if Simin Kodo died, he would still use the treasure given to his wife by Simin Kodo in order to survive. This made the man wish he was not alive. , But die.

On the other side, Volvara knew about Gale Fortress the first time he died in Karabag, which made Volvara lose his spokesperson in the New World. It happened that this man also wanted to gain strength. People hit it off.

The man chose to become Volvara's servant. After gaining new power, he found that he became extremely powerful. He even felt that he was stronger than Shimin Kodo. Therefore, he wanted to kill his wife, but he couldn't do anything. , Just when he hesitated and didn't know what to do, his wife chose to commit suicide, which made the man mentally breakdown.

Lu Yang remembered that the complete story line of this story is like this, and in this complete story line, there is something called the diary of pain. This diary records the pain in the heart every time a woman serves Simin Kodo and countless He wanted to commit suicide again to express his humiliation to her husband, but he was worried that his death would offend Himin Kodo and kill her husband, because Himin Kodo threatened a woman with this incident more than once.

The entire diary describes in detail the woman's love for her husband and family, as well as her deep helplessness. This diary is the trigger point of the follow-up plot. The hidden location is in the woman's home in the former site of the Pure Spirit.

Lu Yang came to the pure spirit town that had been destroyed so that no house was intact. He found the woman's home, and found this diary of suffering on the bookshelf in the woman's bedroom.

On the other side, Xiao Liang had already built the watch tower, and Lu Yang used the teleportation scepter to fly directly into the mountains 50 kilometers away from Chunling Town.

Xiao Liang had been waiting for Lu Yang's arrival, and when he saw Lu Yang appear, he stepped forward and said, "Boss, we found an entrance, and the sound of ghost crying and wolf howling has been coming from below."

Not far in front, there was a hole with a diameter of 50 meters. Lu Yang came to the entrance of the hole and looked down. The inside was bottomless and pitch black. He knew that Xiao Liang had not found the wrong place. This was the place he was looking for. It is exactly the same as in the memory of the last life.

Lu Yang said, "I'll go down first, and you will wait for me here."

The wind elemental archangel wings appeared on his back, and he flew into the cave with Ye Mingzhu in his hand.

System prompt: You have found an endless abyss!

Lu Yang smiled at the corner of his mouth and flew down for more than 100 meters. He found that he had fallen to the ground. At this time, the color around the cave had turned to a thick purple, and mucus dripped from the surroundings from time to time.

Directly in front of Luyang, there is a passage with a height of about 50 meters and a width of about 50 meters. On both sides of the tunnel, there are a large number of purple gems to illuminate the passage, and in this tunnel, there are quite a few A 1-meter-high purple spherical demon, patrolling back and forth.

Volvara Sphere (Elite)

Level: Lower God Level 9

Qi and blood: 18000/18000

A smile appeared on Lu Yang's face. He just wanted to test the Celestial Staff he had just received, aiming at a lonely spherical monster.

"God Flame Sky Burst"

Little pure golden fireballs hit the body of the spherical monster in the air like a bullet from a submachine gun at an attack speed of 0.1 seconds.

"-2686" (critical strike)

"-2678" (critical strike)

...

Almost every attack is bound to explode, because Lu Yang is still in the fifth rank of the lower god, and the additional critical strike value is extremely high for Lu Yang.

Volvara's sphere monster is a melee monster. He moved very fast. He arrived in front of him at a distance of nearly 50 meters in one second, but when he came to Lu Yang, he died.

Looking at the purple blood in one place, and the spherical monster like a dead balloon, Lu Yang looked at the falling of the spherical monster. In addition to a few copper coins, there was a heart.

Purple God Dessert

Description: A special material, as if the pharmacist needs it!

Lu Yang smiled. He didn't expect this thing to explode when the first monster was hit. This was a necessary material for the lower **** level auxiliary potion.

Generally speaking, the explosion rate of this kind of thing is not high, because in the lower **** stage, every increase of damage attribute is 6 million damage to players below the lower **** level, so there is rarely such a thing. appear.

It is estimated that the spherical creature was killed for the first time, and the explosion rate was extremely high, so Lu Yang exploded one. Normally, it can only be obtained when the spherical creature is killed in the instance.

Lu Yang picked up the purple god's crumbs and continued to move forward. He walked and attacked. In just a few minutes, he killed hundreds of spherical monsters in the tunnel. When he came to the end of the tunnel, he saw one. An extremely wide underground cave with a height of hundreds of meters.

On the left side of the cave, there is an underground river with a width of more than fifty meters. On the entire wall on the right side of the cave, there are countless holes as dense as honeycombs.

A large number of spherical monsters were appearing back and forth at the entrance of the cave, and under the wall, a man of the pure spirit family was standing there in a daze.

“you are dead?”

“You just died like this?”

“Did I allow it? I haven’t reported Himin Kodo’s hatred. You can’t die. You can only be killed by me. Why did you die?”

...

The man was in a state of extreme confusion. He clearly believed that he should hate his wife. For how many nights, he thought his wife was an unfaithful woman. He should strangle her at home with his own hands, but because of him He couldn’t provoke Himin Kodo, he could only swallow.

Now he finally has power, but his most hated Simin Kodo is dead, the elder who gave his wife to Simin Kodo is dead, the ethnic group is gone, and his wife is dead, this kind of spiritual world is lost and Fear made him feel that life has lost its meaning.

Gust Bu (Lord)

Level: Upper God

Qi and blood: 7000000/7000000

Lu Yang looked at Gust’s blood volume and level with emotion, came to him and said, “You are a survivor of the Pure Spirit Clan, I found one here...”

Just staring at Lu Yang, before Lu Yang finished speaking, he said: “I feel the smell of my wife in you, and say, what is your relationship.”

“Uh.” Lu Yang was embarrassed, he was still thinking about how to talk to Gosite, so as not to expose too many flaws, so as not to be discovered by the authorities. He didn’t expect that Gosite could smell his wife directly from the diary. Take out the diary from the backpack and hand it to Gust, “Is it because of this.”

“My wife’s diary!?” Gust picked up the diary and looked at the content on it, but when he turned the first page, his face showed a very horrified expression, and then he began to look through it quickly , When he finished reading the last page, Gust couldn’t help it anymore and suddenly looked up to the sky and let out a tearing scream.

“What did I do? What did I do? I personally killed my wife, I personally killed her, her heart is already so painful, I have to torture her, I damn, I damn.” Gou Si Shouted crazy.
