

## Chapter 1901 - Fallen angel

Recalling the past moments of his wife, he understood all this. After wailing crazily to the end of his strength, he relieved from the collapsed state, knelt on the ground and looked at Lu Yang, and said gratefully: "Thank you, my friend , You let me know the truth, I have nothing to thank you for, this is for you."

System reminder: You got a potion of magic blood and magical energy!

Recipe: Demon Blood Elixir

Description: A special medicine made from the blood of Volvara's descendants. After use, the flight and swimming time will be extended by 5 hours, and it can be used continuously for 5 times!

Lu Yang clenched his fist hard, what he was waiting for was this potion, which was like the auxiliary fuel tank on an airplane, allowing the player to last for up to one day and one night.

With this thing, he can not only bomb the area of Liu Jie, but also the area of Sanyou Eemon, Roland, and Chekova.

As for who to attack, he already had a plan in his heart. After building a guard tower nearby, Xiao Liang and 98 players teleported in with a flash of light. At the same time, Yun Yu also teleported over.

"Boss, my devil dragon career~!" Yun Yu rubbed his hands and looked at Lu Yang with a smile on his face, with a flattering look. He really loves this game now.

Ever since he lost the war against Liu Jie, he has carefully searched for the cause. As a result, he discovered that the enemy he was at war with turned out to be Ru Yue Taishan, also a retired officer, with a higher position than him.

Then he discovered that not only Liu Jie had under his control, but also Roland, Steiger, Sanyou Weimen, and Chekova had professional officers under his control. This made Yun Yu laughed and excited. Then he knew, it turned out, It is not ordinary people who are fighting against him on the battlefield, but the professional soldiers who have followed him, with a group of old fritters who have been fighting for decades in the system of playing people.

Yun Yu now very much hopes to fight against Ruyue Taishan again, so he urgently needs a high-end air combat career like Demon Dragon.

Lu Yang smiled and handed the transfer items to Yun Yu, and said, "Take this to the main city to exchange it. You can exchange it for 300 in total."

"I'm going now." Yun Yu turned around excitedly and left.

Lu Yang said, "Don't worry, look at this again."

He shared the formula of the devil blood \*\*\*\* energy potion to Yun Yu, and said, "Look at what it is."

"My God, there is this kind of baby." Yun Yu's excited eyes widened, and said, "Boss, do you have stock?"

Lu Yang smiled and shook his head, and said, "There is no stock for the time being. I also just got it. Recently, you will take the brothers to experiment with flying in the game for a long time. They will not be mentally tired for five hours. , What I want you to do is that one flight can last for 24 hours."

"So short?" Yun Yu was a little surprised. According to the size he measured on the map, it would take at least 28 hours to fly to Liu Jie's Tuntian area.

For the player, although there is no physical expense, the player can also sleep in the flight, but the long-term flight is a torture for the player.

Lu Yang said: "In the future, we will no longer bomb the areas of Liu Jie, Steiger, Chekova, and Roland, and will only focus on the area of Sanyou Eemon."

"Huh?" Yun Yu suddenly felt angry and said, "Boss, I want revenge."

Lu Yang smiled and said: "There are opportunities for revenge, but if you think about it, Liu Jie poses the least threat to our region. As long as you deploy an air combat brigade in the Heavenly Sword Fortress, Liu Jie's air force and ground forces will be both. I can't make it, but the Mitoemon area is different. Around a year ago, I will usher in a joint attack by Mitoemon, Chekova and Roland, Steiger and Liu Jie, and block Liu Jie at the Heavenly Sword Fortress. In the case of Steiger, I need to face the three guilds attacked by Sanyou Eemon. For this, I need you to help me blow up one. If there are one-to-two, I can handle it."

"Okay." Yun Yu knew the priorities, and said: "When I have a chance next time, I will find Ruyue Taishan to settle the account."

Lu Yang smiled and said, "Of course, but if you bomb Santoemon, you have to face several enemies. You need to pay attention. The first is Tanaka Jiro, who is in charge of Tuntian in area 1, and the second is Mukai Yuzou. , Tuntian is in area 7, and the third one is Yeyuan Xia, and the village is in area 9. They are all descendants of the criminals in the Jinling incident. My request for you is to blow up their Tuntian area every three days. They blow up the economic fortress they control once a day."

The fire in Yun Yu's eyes almost burst out, and gritted his teeth and said excitedly: "Boss rest assured, leave it to me and let him live, it is already my greatest shame, I will never let them go."

Lu Yang nodded and let Yun Yu teleport away. He looked at Xiao Liang next to him and said, "It's your turn. Come and match these things."

"What?" Xiao Liang asked curiously.

The Blue Wind Orb and the Blue Soul Sacred Crystal, two top treasures, were handed over to Xiao Liang by Lu Yang. With only these two items equipped on him, Xiao Liang's wind spell defense reached 500 points. The wind bead special effect adds an additional 500 points of wind spell defense after activation, and the total wind spell defense is up to 1000 points.

"The wind spell defense of these two items is so high!" Xiao Liang exclaimed.

Lu Yang smiled and said, "Let's go to the dungeon. With these two things, the wind elemental monster won't lose blood when hitting you."

Xiao Liang bright spot head.

Lu Yang led Xiao Liang into the depths of the cave and saw an enchantment with a light film attached. He came to the interface and touched the enchantment with his arm.

System prompt: Please select the difficulty of the copy and the number of personnel!

Lu Yang chose a 100-player nightmare difficulty copy, and the lord Xiao Liang and others walked to the copy.

A flash of light flickered.

Everyone appeared in a huge bluestone underground palace that was completely purple. The height of the underground palace was more than one hundred meters, and the width of the underground palace could not be seen at a glance.

On the ceiling of the underground palace, there are things like gems emitting light, shining the entire underground palace as if during the day, and on the ground of the underground palace, there are a large number of purple-red beetle creatures.

"What is this, it looks so strange, it looks a bit like an angel, but not like it." said a player behind him.

Lu Yang smiled and said, "They used to be the archangels of the wind element. They were all guards of the Lord Shimin Kodo. In order to let his subordinates gain strength, he sent these archangels here because these archangels did not have Shiming Kodo. His supernatural power was gradually corroded by King Volvat's purple blood and became what it is now."

These beetles, which can only fly close to the ground, have a pair of fleshy wings behind them, and they can be vaguely seen to be angel wings, but they are already \*\*\*\* and bloody. The original beautiful angel face has become an ugly purple-black face. , The purple bloodthirsty light exuded from his eyes.

Chapter 1902 - special material

Fallen Angel·Beetle Monster (Elite)

Level: Lower God Level 9

Qi and blood: 200000/200000

A large number of carapace has grown out of their bodies, layer by layer, making them look extremely armored.

"I feel the power. I control the power of the wind element and become stronger." A fallen angel let out a strange laugh as he walked.

Lu Yang was a little bit emotional. He recalled the scene when he came here to fight monsters in the previous life. At that time, the wind elemental spell damage of these fallen angels was more than 500 points, and Lu Yang and the players who entered the dungeon had only 500 health. Point, they didn't even have the Shenmu War Shield, so they dared to open up wasteland.

After encountering the fallen angels, the fallen angels randomly used a range of wind magic spells to fight the residual blood of the shield, and another spell, connected to the shield battle and the dozen players behind him all died, and then Lu Yang and the others began to run. When he ran out of the dungeon, more than 70 people were dropped by a range spell in seconds.

Until now, Lu Yang couldn't forget the tragic situation with his brothers at the time, and the strong and unreasonable appearance of the Beetle in front of him, but now it's different. This time he brought Xiao Liang over again. The equipment Xiao Liang wore was inferior. An eight-piece set of earth spirit gods of the 9th order of God.

The attack power attached to the equipment is 720 points, physical defense power is 460 points, spell defense is 320 points, and blood is 2880 points. With the addition of blue wind orb and fixed wind sky crystal, Xiao Liang's wind element spell resistance in normal conditions is At 820 points, even if you stand still, you won't be knocked out of blood.

"Come on, pull all the monsters by one person. After the hatred is established, I will attack again." Lu Yang said with a smile.

"Okay, look at me." Xiao Liang equipped the Blue Wind Orb and Dingfeng Sky Crystal, aiming at a group of fallen angels in the distance and rushed over.

"Guck~!"

More than a dozen fallen angels discovered Xiao Liang's existence when he ran 30 meters away from them, staring at Xiao Liang together, and chanting the same spell.

"Pillar of Heavenly Wind"

A tornado with a diameter of 1 meter appeared out of thin air around Xiao Liang, spinning around him frantically. Then, a dozen tornadoes with a diameter of 1 meter were spinning around Xiao Liang at high speed. This is a range attack skill, which is within 10 meters. All within will be attacked, the damage is 550 points.

"Miss"

“Miss”

...

Xiao Liang didn't lose a drop of blood, but walking in the gusty wind made him feel strenuous, but he was determined, and walked towards the nearest fallen angel in front of him.

Xiao Liang now loves the Jagged Brotherhood more than ever, and respects the big brother Lu Yang more.

Because of Lu Yang, his parents didn't dare to make trouble anymore, and they didn't dare to gamble anymore. Because of Lu Yang, he married such a beautiful girl as his wife.

Lu Yang gave him a luxury car and a mansion. All his family should spend on the company. He didn't need to spend a penny. But Lu Yang gave him an annual salary of 5 million after tax, and his wife also had 200. The annual salary of 10,000 yuan after tax, the two together, make a net income of 7 million yuan a year.

But he can't spend a penny in Game City, he doesn't know how to enjoy this life, and his status in the guild is extremely high. So far, even if you see Xiao Liang in black and white, you will respect him. plus.

Although Xiao Liang's strength is not ranked in the top 50 in the guild, his position in the guild has always been the closest person to Lu Yang. Many people asked Xiao Liang, why did Lu Yang trust him so much? What did Lu Yang do to make Lu Yang treat him so well?

Xiao Liang scratched his head every time and said that he had done nothing, just to accompany Lu Yang to this day. On the contrary, he needed Lu Yang's help in everything, as if he hadn't done anything to help Lu Yang.

But he didn't believe this, even his wife. He asked several times, but Xiao Liang said the same, because Xiao Liang really didn't do anything, but how did Xiao Liang know that in the previous life, if it wasn't for Xiao Liang Lu Yang blocked his gun, how could Lu Yang become the emperor of fire later.

Lu Yang Yongsheng will never forget the scene in which after Xiao Liang blocked his gun and persuaded Lu Yang to go hurry up, a person who can do his best to die for you, this kind of thing is beyond what his biological parents can do, who else Can do it.

Xiao Liang did it. Therefore, Lu Yang has the ability in this life. He wants to let Xiao Liang enjoy the glory and honor his life.

Xiao Liang himself is a grateful person. He doesn't know what he has done in his previous life. He only knows that six years ago, he was a poor boy who had to drop out of school and follow his parents to sell fruit six years ago.

It was Lu Yang who brought him to where he is today step by step. He knows nothing. Lu Yang taught him all of his things, but even if he tried his best to do something for Lu Yang, he found He could only see Lu Yang's back all the time, but couldn't push him anyway, so he gradually flattened his form and followed Lu Yang with peace of mind.

He couldn't help Lu Yang in terms of ability, so he helped Lu Yang deal with some messy things. Anything Lu Yang confessed to him, he was like an old tortoise, helping Lu Yang solve problems steadily, maybe very slowly, but He will definitely be able to handle this matter, and it will satisfy most people.

Many people in the gang compare Xiao Liang to a monkey version of the dirty wine dumpling, that is, the reduced version of the dirty wine dumping. In terms of resourcefulness, the dirty wine dumping is not limited to Xiao Liang's ten streets, but if you give it to Xiao Liang Enough time, the final result of some simple things, Xiao Liang did the same as dirty wine.

Of course, this simplicity is relative, and it is still difficult for ordinary people, but Xiao Liang can use the dumbest method to understand it bit by bit.

Standing behind Xiao Liang, Lu Yang nodded in his heart as he watched Xiao Liang's increasingly stable appearance. He felt that Xiao Liang could gradually entrust important tasks. In his heart, he had a complete plan. If Xiao Liang is added, although it is a risky move, but the confidence of victory is more than 60%, it can be tested.

"Boss, I'm done." Xiao Liang has already held more than 20 monsters.

There is almost no hatred in this kind of dungeon. The monster's attack speed, movement speed, and damage are extremely high. Xiao Liang can hold so many monsters at once. It was Lu Yang who broke through the treasure house of Simin Kodo. It's not that Xiao Liang's own ability is strong when he arrives at a pile of wind resistance treasures.

He watched Xiao Liang being submerged in the strange pile, smiling on the road, pointing his left finger forward, and chanting a spell.

"Focus"

"Clear the World and Sky Fire"

The first skill caused flames to appear 50 meters around Lu Yang, causing more than 1,300 spell damage per second, and the second skill was the initial skill that had just risen to the lower god, and it was also the spell damage, with more than 1,300 spell damage per attack. Point spell damage.

The total health of the fallen angels is only 200,000 points. Lu Yang can destroy the more than 2,600 health of these 20 fallen angels every second. A critical strike is more than 5,000 health. In less than 2 minutes, this is more than 20. All of the fallen angels died, dropping objects on the ground. Among them, Lu Yang cared most about a bunch of humble carapace fragments.

Chapter 1903 - Volvara Helmet

Fragment of Volvara Carapace

Description: An extremely hard material.

This fragment looks the size of a slap and doesn't look big, but this piece of material is extremely useful. It is an essential material for making Volvara armored beetle defense suit.

Lu Yang said to the 98 players behind him: "The captains of each team will come out to collect the fragments in my hand and pick up as many as they see."

“Yes.” 10 players behind him said together.

Lu Yang said to Xiao Liang, “Continue pulling monsters.”

“Okay.” Xiao Liang was full of confidence. Originally, he was worried that these monsters could kill him. He didn’t expect that the things his boss gave were so effective. Without setting the wind beads, he could not lose a drop of blood, making him excited to continue. Walked towards the front.

There were more than one hundred fallen angels on the copy square. Lu Yang and Xiao Liang fought together for more than 10 minutes, and they killed all these monsters. In the end, only one was left with purple all over. Armor bug.

Fallen Archangel Bonnard (Lord)

Level: Lower God Level 9

Qi and blood: 2000000/2000000

Bonnard’s appearance has also changed to the appearance of a bug. Behind him are six degenerated purple fleshy wings that are only one meter long. They look exceptionally disgusting. His body has become stronger and stronger. The appearance of the Elvara clan is covered with a hard carapace.

This kind of carapace is reflective. The carapace on the abdomen is the largest. It looks like a piece of one meter long, and the rest are 30 cm pieces. The whole thing looks like a beetle except for a trace of human form. .

“Ignorant humans, although you killed my subordinates, I don’t blame you. They are too weak. They have lost even the spirit of the wind element that was corroded. It is not a pity to die, but you killed me after all. My family, I convict you.” Bonnard let out a jealous laugh.

Lu Yang sneered. In his last life, he was beaten by Bonnard and fled. It took more than two months of hard work to kill Bonnard. But this life is different. Bonnard’s style is different. The spell damage is only

over 700 points, that is to say, he can knock out Xiao Liang's 200 points of blood at a time, not to mention relying on treatment, even if he increases his blood, Xiao Liang can resist.

"Come on," Lu Yang said.

"Okay." Xiao Liang carried the shield and rushed in front of Bernard. The two fought together. Sure enough, just as Lu Yang thought, Bernard said to Xiao Liang, who has more than 3,000 blood points. It doesn't cause much harm at all.

On the contrary, it was Lu Yang. After aiming at Bernard with both hands, the small pure golden fireball kept hitting Bernard's head, because the distance was 100 meters away, no matter how high the damage of Bernard's range spells, he could not hit Lu Yang. .

In less than 5 minutes, Bernard fell to the ground and exploded an 8X8 range of superb explosion for Lu Yang. Among these items, one of these items excited Lu Yang the most, and it was a drawing.

He quickly picked up the drawing and opened it.

Blueprint: Volvara Helmet

Description: The special helmets of the Volvara clan are all made from the carapace pieces of the Volvara clan and are extremely solid.

Need: Volvara Carapace Fragment X12

Lu Yang smiled and clenched a fist, and said to Xiao Liang next to him: "Wait for me first, I'll go back and make a helmet and come back."

He chanted the spell and flew back to the Tianyu God City, and found Han Zhong in the tailor shop. Mu Yi was still making golden dragon crossbows in the Wanshu Forest at this time. When he didn't have time to take care of this side, Han Zhong was responsible for him.

“Master, find a good tailor, I have superb equipment.” Lu Yang said.

“Okay.” Han Zhong called a girl and said, “This is our tailor’s best craftsmanship.”

“Hello boss, my name is Xiaoxi.” The girl said shyly and nervously.

Lu Yang smiled and said: “Don’t be nervous, I have more than 200 fragments here, and this drawing, make me a helmet, don’t be afraid of failure, no matter what you make.”

“Okay.” The girl hurried to make it.

This kind of helmet is not stitched with any material, but simply relies on the player’s control over magic to glue the fragments of Volvara’s carapace together through supernatural magic.

This bonding method is the strongest, unless the carapace is broken, otherwise, the helmet will never break.

The girl deserves to be the strongest tailor that Han Zhong praised. She ran back in less than 2 minutes and happily handed the helmet to Lu Yang, and said, “Boss, look, this will work.”

Lu Yang smiled and took the helmet. The whole helmet was like the head of an armor bug. It looked very arrogant, and he looked at the attributes.

Volvara Helmet

Level: Lower God Level 9

God’s physical defense: 80-80

Even magic defense: 90-90

God's Stamina: +40

God's physical strength: +40

Additional physical defense: +20 points

Additional spell defense: +20 points

Additional reduction of physical critical strike chance: +50 points

Additional reduction of spell critical strike chance: +50 points

Lu Yang nodded with satisfaction, and said, "It's very beautiful, and the attributes are perfectly displayed. Continue to make this helmet. There will be a lot of materials in a while. You have to bring your brothers and sisters to make it together. , This matter is absolutely confidential, you can't tell the public, you know?"

Xiaoxi nodded vigorously and said, "Boss, rest assured, I know the rules of the guild. I will not open the studio tonight. I live in the studio and eat in the studio. I will never return until you announce the lifting of the ban. Home, don't answer the phone."

Lu Yang smiled and nodded, and said, "It's not bad, keep working hard and go busy."

The girl ran away happily.

Lu Yang said goodbye to Han Zhong. He used the teleportation scepter to return to the bottom of the cave and re-entered the copy. handed the helmet to Xiao Liang, and shared it with the other soldiers present and said: "This This is your future equipment. A complete set of Volvara worm-shaped defensive equipment can be exploded here. After all of them are equipped, you, like the worm in front, have absolutely high physical defense and magical defense."

After Bonnard died, the wall behind him collapsed, revealing the monsters inside, one by one, two-meter-high large bugs standing on the ground. They looked like a robot, but they used a comparison. The robot's more bloated defense shell.

Volvara armor bug

Level: Middle God

Qi and blood: 100000/100000

"These bugs look very arrogant, they don't look like a bug at all," Xiao Liang said.

Lu Yang smiled and said, "The reason why they are called insects is that they look like a zerg, rather than that they are insects themselves. These monsters are extremely powerful and defensive, but they have a shortcoming, that is, defense against insects is defense. Bugs, attacking bugs is attacking bugs, defensive ones can't deal damage, and attackers will be cut in half even if they are wearing a Volvara armor and bug suit."

Chapter 1904 - Introductory shrine

However, this is when the player's wind spell resistance level is low, and an equipment like Xiao Liang is really not afraid of wind spell damage from attacking insects.

Xiao Liang looked at these armor insects carefully, scratched his head and said, "Boss, I can't tell which one is high damage and which is high defense."

Lu Yang smiled and said, "From the outside, I can't tell. You can turn on the Qingfengzhu and go for a while."

From the appearance point of view, the two insects were exactly the same, and Lu Yang didn't bother to experiment one by one. Anyway, with Xiao Liang's high wind resistance, he didn't care about this.

"charge"

Xiao Liang smashed into a group of Volvara armor insects in an instant. At the same time, dozens of insects launched wind magic attacks on Xiao Liang at the same time.

"Miss"

"Miss"

"-112"

...

The number of offensive bugs is very rare, and it is good luck to hit one out of a hundred, because they drop good things. This time, luck is good, there is one offensive bug.

Lu Yang aimed at the bug in an instant, activated the Focal Zone skill and Cleansing Skyfire, and quickly cleaned it up. In less than 2 minutes, a batch of bugs were cleaned up, and a large number of carapace fragments exploded on the ground.

After being picked up by Lu Yang, he continued to lead Xiao Liang forward and attacked until he reached the second lord monster. Lu Yang stopped. This lord could not be defeated, so he withdrew from the dungeon and restarted.

Just in time, he saw that Gust had recovered, and walked in front of Gust and said, "Man, are you okay."

Goust glanced at Lu Yang without a godly eyes, and laughed at himself and said, "What else is good or bad about me? I'm just an avenger now. I want to avenge my wind element family, and I want to kill myself. Their king."

Speaking of the end, Goust's face turned hideous and distorted again. Lu Yang shook his head. According to the story of the previous life, Goust finally failed and was beheaded by the main \*\*\*\* of the wind element on the temple in the sky city.

At that time, the players thought of various ways to keep Gosite, or use Gosite, but they were unsuccessful. However, when the players studied later, they found that there was a third way. There is a way to resurrect the dead in the game. NPC.

It's a pity that when the players knew the news, Just had already died. At that time, countless people were embarrassed by it. Many people wanted to see what other endings would have if Just resurrected his dead wife.

Lu Yang had always sympathized with Gust. He didn't want to use Gust to carry the damage from the Wind Elemental King in the future. He wanted to see what the third ending was like.

"Mr. Goust, maybe I should tell you something, I think you should be interested." Lu Yang said with a deep groan.

"What's the matter?" Gust still maintained his elegance as a pure-spirited nobleman.

Lu Yang said, "I don't know if you know it or not. In this game, there is something that can resurrect the dead. Do you want to experiment?"

"What?" Goust stared at Lu Yang instantly, and asked, "What can resurrect the dead, please tell me."

Lu Yang said: "Death gold coins, this is a gift left by the \*\*\*\* of death to this world. First, we need to raise the death god's heart to the lower \*\*\*\* level, and then find the altar where the death god's gold coins contribute to the death heart, so that we can enter the world of death. Find your wife and bring him back to the real world."

“Death coins? Where can I find this?” Goust asked quickly, if he could resurrect his wife, he would never do such a stupid thing again, but would love his wife well.

Lu Yang said: “Death gold coins are in the forbidden area of the New World. You can try to see it, but don’t be too impulsive. If you die, your wife really won’t be able to resurrect.”

“Forbidden area!” With a decisive expression on his face, Gust said: “Don’t worry, I will not die. In order to save my wife, I will definitely get the death coin. What about the Heart of Death?”

Lu Yang said: “It just so happens that I have the Heart of Death in my hands, but I have not yet entered the level of the lower gods. I am afraid that I will trouble you to help me. I don’t know if you want to.”

Lu Yang hadn’t used this method before. If he could hire Goust to help fight monsters, it would be too easy.

System reminder: You send out an employment invitation to Gust, the success rate is 70%!

Goust frowned and looked at Lu Yang, and asked, “How long will it take?”

Lu Yang smiled and said: “I know something about the Death God Realm. People will not dissipate in consciousness there, but will continue to live in another form. You don’t have to worry that your wife will not know you in the future. As long as you help me, I will Do your best to upgrade the Heart of Death.”

System reminder: You send out an employment invitation to Gust, the success rate is 95%!

Lu Yang knew that the chance of success was already very high, and he said, “If you agree, I will look for other materials.”

Gust thought for a while and said, “Well, anyway, I don’t have a place to go now. I am willing to help you. What is the first thing to do?”

Lu Yang pointed to the copy and said, "Help me kill the angels and insects inside. I need their carapace fragments."

"Leave it to me." Gust said.

A majestic power radiated from Gosite. This was the strength of the main god. Lu Yang was a little confused. He just wanted to try it. He didn't expect to hire Gosite. He said excitedly: "We Into the copy."

Xiao Liang and the players behind him watched all this Lu Yang had done dumbfoundedly. They didn't expect that this game could still be played like this, and they ran into the dungeon with excitement, but when they first entered the dungeon, all they saw were beetle fragments in one place.

"Boss, how did you do it?" Xiao Liang asked incredulously.

Lu Yang shrugged his shoulders and said, "Gust just pointed his finger, and then the entire dungeon died. My experience has improved a lot."

"Brother, we will only be responsible for picking up equipment in the future. You upgrade first. This is unimaginable. If you continue like this, you will easily become the middle god." Xiao Liang said.

Lu Yang shook his head and said, "It's not that easy. Goust's employment time is one week. After that, if he can't meet his conditions, he will leave. We can only use this week to collect materials. Let people pick things up. Let's split up. I will open the second copy. You come in batches to pick things up."

"Good." Xiao Liang immediately divided the team into 10 teams.

Lu Yang took Gust out of the dungeon, and began to brush it continuously. When Lu Yang reached the tenth time, Xiao Liang sent Lu Yang a picture, which was a recipe for crossbow arrows.

## Chapter 1905 - Lennon\'s crime and punishment

Volvara Crossbow

Level: Lower God Level 9

God's physical attack: 100-100

Power of God: +35

God's physical strength: +30

Additional physical attack: +50 points

Description: This is a strange crossbow, he can only shoot giant crossbow arrows, ordinary players can not use.

Lu Yang smiled and nodded. What he wanted was this crossbow. He didn't get the missile from the Prince of Ten Thousand Realms. What he wanted instead was this Volvara crossbow, which had the same power.

Normally, after this crossbow is made, it is very huge, almost two meters long and wide. The weight of the crossbow alone is enough to discourage players. Generally speaking, its weight is only a \*\*\*\* warrior can hold. , Because he needs at least 200 points of strength, and the \*\*\*\* warrior can only hold on to this state for 5 minutes when he opens the six-arm state, and then he will enter a 5-minute rest time.

"Continue to collect the drawings and materials of the crossbow, these things are necessary for the next battle." Lu Yang said.

"Yes." Xiao Liang had gradually understood Lu Yang's style of play, and he continued to take people to pick up things.

...

For six days, for six full days, Lu Yang dragged Gosite to help him make a copy. During this week, he received more than 6000 Volvara crossbow formulas and more than 10,000 Volvars. The formula for the pull suit.

The whole formula was handed over to Han Zhong, and Lu Yang received a call from Yun Yu.

“Boss, we will carry out the plan of air raid on Sanyou Eemon today, and hope to get your permission.” Yun Yu said.

Lu Yang smiled and said, “It seems that your training is very complete, and I will also participate in this battle.”

“Welcome to guide you.” Yun Yu said with a smile: “There are 300 dragons, and I have the confidence to destroy any enemies who come to stop him.”

Lu Yang smiled and said, “Wait for me at the Sky Screen Fortress, I will come here.”

He left Gust and handed it to Xiao Liang, first flew to the Heavenly Sword Fortress alone, and saw that the dirty wine was leading the players to perform the exercise, with a smile on his face.

No matter what, turbid wine is always his strongest line of defense in the Jagged Brotherhood. If the defense line is not broken, the Jagged Brotherhood will not fail. This is not only the bottom line in Lu Yang’s heart, but also in the hearts of all the Jagged Brothers players. The most important line of defense in the face is also the most annoying thing for national associations.

“Boss, why are you here?” Zhuojiu came to Lu Yang with a smile.

Lu Yang smiled and handed the extra wind elemental archangel wing to Zhuojiu, and said, “Cancel your wind elemental archangel transfer and change it to your preferred method of transfer. This wing has a higher flying speed than the archangel. The flight speed is fast, it’s for you.”

Zhuojiu took the wings in surprise, saw the attributes on them, and looked at Lu Yang in surprise and said, "Boss, this wing attribute is too powerful, is it energy-producing?"

Lu Yang shook his head and said, "There are only two, one for you and one for me. This is what I grabbed in the treasure chest of the wind element master Shimin Kodo. Before level 200, it is basically difficult to find the third one. ."

Zhuojiu was flattered and said, "These wings are too precious."

Lu Yang smiled and said, "You stay here to work hard, it should be given to you, and the other one, are you interested in fighting a big battle?"

Zhuojiu was a little surprised, and asked, "Of course, my brothers can't help it anymore."

Lu Yang smiled and said, "However, this battle is a bit risky. You have to be prepared. Xiao Liang will come here to replace you to defend the Tianjian Fortress. You will take the main force to defend the Sky Screen Fortress area."

Zhuojiu's eyes lit up and said, "You want to pit Liu Jie and Steiger?"

Lu Yang nodded and said, "We'll decide on the specific battle later. You should prepare for mobilization first, and I will leave."

"Send the boss respectfully." Zhuojiu bowed to Lu Yang excitedly.

Lu Yang laughed and used the teleportation scroll to fly to the Sky Screen Fortress. As soon as he landed, he saw the resting archangels and black iron war eagles everywhere in the inner wall of the fortress.

"Boss, 30,000 archangels and 30,000 black iron war eagles are ready, just wait for the dark." Yun Yu said excitedly.

Lu Yang swept his eyes around and saw that each player had an excited expression on his face, and asked Yun Yu: "How are the supply preparations? This flight is a non-stop flight, and there must be no shortage of supplies. ."

Yun Yu said: "The blood of the alien \*\*\*\* has been prepared enough, there is no problem with launching this attack."

"Okay, as night falls, we will fly to the area of Sanyouemon and conduct a big bombing." Lu Yang said.

"Yeah." Yun Yu, Zhou Yuntian, Shen Yu and others nodded one after another.

Lu Yang said with a smile, "We have a great chance of success this time, you don't know, Lennon's Archangel Legion, starting to fall apart today."

"Huh?" Yun Yu and the others were somewhat surprised.

Lu Yang said: "As I guessed, Chekova did not pay Lennon this month's salary in accordance with the contract after deceiving Lennon with the Archangel Legion, which led to the bankruptcy of Lennon's company. The angels' contracts were all voided, and they all became free men."

Yun Yu was surprised and said, "Then these 70,000 archangels have been robbed?"

Lu Yang nodded and said, "It should be in the period of snatching. 70,000 people will be divided equally by Chekova, Mitoemon, Roland, Steiger and Liu Jie on average, and they will stay in the end. There will never be more than 1,000 people around Lennon."

Yun Yu sneered and said, "Lennon deserved the crime. He shouldn't leave his brother's side. It's fine now, everything is gone."

Lu Yang said: "He didn't understand from the beginning to the end. Everything about him was given to him by his brother. Without his brother, he would be nothing. Looking at him, his uncomfortable place is behind, everyone will despise him. He, in Poland in the future, he will not even have the ability to stay in his house, and he will be scolded by players all over Poland."

Under an office building in a city in Poland, a large number of players gathered here, holding slogans in their hands and yelling at Lennon. In the villa of Lennon's home in the suburbs, a large number of players were constantly moving towards his home. Glass throw bricks.

Under such circumstances, Lennon no longer knows what to do. For the rest of his life, he will forever atone for his sins today, and he can atone for his sins. The biggest problem is Stephen, if Stephen forgive him and give Lennon a chance, Lennon can still live as a human being, otherwise, Lennon will live as a human and ghost in the second half of his life.

“Dididi”

Lu Yang was chatting and received Stephen's video call. He shook his head and pressed the connect button, and asked: “Stephen, you still can't let go of family affection. Let's talk about how you want me to help him.”

Stephen looked at Lu Yang on the other side of the video in surprise, and said with a sigh: “Boss, I didn't expect you to think of this a long time ago. Thank you for your understanding. I will return you with all my loyalty. I only ask you to give my cousin. A way to survive.”

Lu Yang thought for a while and said, “Stephen, I promised you that when this game returns to the old continent, I will allow you to redeem the guild. Now this proposal is still valid. As for Lennon, if you want to save him, let him Taking refuge under Chekova, I believe that Lennon will know what he should and should not do.”

“Yes.” Stephen bowed gratefully and said, “I will let him pay for his sins.”

Chapter 1906 - Wonderful air strike

Lu Yang hung up the phone and continued to fly towards Japan with Yun Yu and other 60,000 players. After Lennon was dismantled, according to existing intelligence, Sanyou Eemon had robbed more than 10,000 people. Counting the more than 30,000 people he has recently developed by himself, the number of Air Force players on the Mimo Gate side is about 40,000.

Roland and Sanyou Weimen are in the same location. There are more than 40,000 air combat players in the same Roland area. In other words, there are a total of 80,000 air combat players defending in the two fields.

Yun Yu looked at the intelligence and said to Lu Yang: "The air combat players of Sanyou Weimen and Roland have always trained their own. They are still in the game and the training level is not low, although both sides are very strong. But this time we hit 80,000 with 60,000, and I have the confidence to defeat the air combat players on both sides."

Lu Yang smiled and looked at Yun Yu, and said, "Listen to my instructions, this time we will only bomb the area of Sanyou Guardian, and will not touch Roland's area at all."

"Not touching it at all?" Yun Yu was a little surprised. He was thinking about raging and hitting rabbits. He even exploded the area with Roland, but he didn't expect Lu Yang not to let it. He asked curiously: "Let's kill two There is no problem with the area, why can't it be hit?"

Lu Yang said, "You'll know in a while, we will continue to fly."

Yun Yu blinked and could only continue flying behind Lu Yang. This kind of high-intensity flight that lasted for a day was very torturous. Lu Yang couldn't help but sigh that his current level is too low. If he reaches level 190, he will Even in the middle \*\*\*\* period, you can hit another demon god's blood. After drinking it, you can increase your movement speed by 100% to 300%. Although the duration is short, long-distance use can shorten the distance by one third. .

Because Lu Yang took off at night with the Jagged Brothers players, and Sanyouweimen thought that Lu Yang was still trying to bomb Liu Jie, because Lu Yang was on the Heavenly Sword Fortress and left two air combat careers, one It is a small number of Archangel Legions, one is the Condor Legion, it looks like the Jagged Brothers is going to concentrate all its efforts on Liu Jie's all-round bombing.

Liu Jie knew that he could not stop the Jagged Brotherhood's attack this time, so he was already asking for help, which made Sanyou Weimen and others paralyzed.

In fact, to put it plainly, the main problem is that the geographical location of Mitoemon is too poor. There are no mountains or fortresses around, only large deserts and grasslands. Such a map makes it very difficult for them to observe the situation in the sky, not to mention Santo. The ground-to-air reconnaissance players equipped by Goemon are all players from the two guilds of War Elephant and Blood Stele.

Lu Yang sent spies to instigate players in two of these areas. This time the Air Combat Corps of the Jagged Brothers entered the defense area of Sanyou Gate from these two air defense reconnaissance areas.

Seeing that more than 60,000 people on his side had all flown past the first line of defense set up by Sanyou Gate, which was half an hour away in front of Qingyue Fortress, Lu Yang took advantage of the night with the Jagged Brothers players along Qing Half an hour away from the right side of the Moon Fortress, he plunged into the gap area between Qingyue Fortress and Yangyan Fortress.

Normally, Lu Yang should walk through the Shenyue Fortress on the left side of Qingyue Fortress, but Lu Yang went around the Sunyan Fortress on the right side of Qingyue Fortress, the Firefly Fortress in front, and then around to the Fallen Leaf Fortress, and then turned around. Pass through the fortress of stars.

The reason for this was that Lu Yang had already figured out the defense area of Sanyou Gate. Along the line of Shenyin Fortress, there were investigators for the second, third, and even fifth lines of defense everywhere.

As long as there is a line of defense to detect the actions of Lu Yang and others, Sanyouweimen can let his men, by heads for heads, gradually intercept the Jagged Brothers air combat players outside the Tuntian area near the Sea of Clouds Fortress.

Unfortunately, it is easier to obtain intelligence in the game now than in the war. In the past, enemy countries were not allowed to enter, but now because this is the game, the player's appearance can be disguised. Besides, the major guilds also need to obtain benefits from the player, so , The defense area of each family is clearly seen by the opponent.

Even Lu Yang's defense area was clearly seen by the enemy. The only difference was that the Jagged Brothers' defense area was more comprehensive. Lu Yangken used 20% of his farm income to invest in this border defense zone.

Lu Yang's entire income from Tuntian is equivalent to not putting a penny in his pocket, and all of it is used on the players, but Sanyou Weimen can't do this, because his players are not pure and the cost of using his own family is high. , Using outsiders and disobedient, he only has the ability to deploy a line of defense on one side, and on the other side, he does not believe that there are players who can fly a long distance for 5 hours without falling.

Relying on the magic blood potion, Lu Yang kept flying forward with his subordinates. When one of the players was sleepy, Lu Yang asked some players to fly while sleeping while the other was on duty. The players on both sides switched shifts.

This kind of sleep starts during the day and sleeps for two hours every few hours, so that players can't feel sleepy at all.

Lu Yang flew from the side of the fortress of stars to the side of the fortress of Sun and Rain, and then flew along the fortresses such as dark clouds and clear skies to the vicinity of the fortress of sea of clouds, without encountering the enemy, and at this time, they also entered the enemy's Tuntian area. .

Hiding in a cloud layer, Lu Yang looked at Tuntian, which was getting closer and closer, and said to Yun Yu, Zhou Yuntian and the others: "Wake up everyone, and enter a combat state after 20 minutes, and bomb Sanyouweimen Tuntian area. "

"Yes." Yun Yu, Zhou Yuntian and others flew away from Lu Yang and went to the area of other flying brigade, waking up their players in batches.

When Lu Yang made preparations, on the other side, the men of Mimoemon and Roland who were farming in the Tuntian area did not notice the situation above his head.

No. 1 Tuntian area.

“Asshole, hurry up and work for me. What are you trying to do.” A player under Sanyou Eemon saw that the player of the Blood Tablet Guild was lazy, and rushed forward to yell at him, but the player of the Blood Tablet Guild did not bother to pay attention to the Japanese player. , Continue to lie down lazily.

“Damn it, didn’t you hear it?” Japanese players were furious. more than once. They couldn’t understand how players from Blood Stele and War Elephant Guild could be so lazy. , It can be said to be lazy to reach new heights.

But they have nothing to do. They can’t be killed. If you kill, no one will be there. The only thing they can do is to supervise and punish them.

Hearing the voice from here, Jiro Tanaka rushed over. When he discovered the situation, he showed a furious expression on his face. Then he hid it and looked at the players of the Blood Tablet Guild with a smile and said, “My friend, today is the harvest at noon. In the season of China, when you get the money, you can enjoy it. Why do you choose to be lazy at such a critical moment in the morning and make less money at noon.”

The players of the Blood Stele Guild heard it right, and got up and continued to work. The Japanese players around him bowed excitedly at this scene and said, “It is your prestige that made them submit. I sincerely admire you.”

Tanaka Jiro smiled triumphantly and said: “In the last few months, as long as we can succeed in farming, we can bring great benefits to the guild and reproduce the glory of our guild. China is just a rubbish. “

As soon as the voice fell, large black spots suddenly appeared in the sky.

“No, it’s from Huaxia~!”

Jiro Tanaka looked up and saw Lu Yang swooping down and throwing the scrolls himself. At that moment, Jiro Tanaka saw a set of weapons that he had never seen before, and the purple wings behind Lu Yang, Even more surprised Tanaka Jiro. He had a foreboding that Lu Yang had become much stronger again.

“The magic flame burns out”

Lu Yang’s voice rang in his ears, but this simple sentence made him feel like a sound from hell.

Demon Flame Burning is a great forbidden spell skill. The attack range is 2 kilometers away. When the scroll is crushed, the fire lights up. The next instant, centered on the location of Lu Yang’s crushing scroll, all the farming areas within 2 kilometers are around. , All lit up.

Large swaths of demonized corn, demonized rice and other plants were burned to ashes in the flames. When Jiro Tanaka saw this scene, his eyes widened and he roared, “Asshole.”

Because Jiro Tanaka is a lower god, he will not be killed by the skills below the lower god, but he cannot face this large scorched Tuntian area.

Tuntian group.

“For emergency rescue, the area on the 7th was attacked by the Jagged Brothers air combat.” Yuzo Mukai is the commander of the No. 7 Tuntian area.

“For emergency rescue, the area on the 9th was attacked by the Jagged Brothers air combat.” Nohara Xia Xia is the commander of the area on the 9th.

...

The news of the call for help screened the Tuntian channel almost at the same time. As the commander-in-chief of the entire Tuntian area, Tanaka Jiro was unable to face all this in a panic. He picked up the phone and called Sanyou Eemon with extreme grief and said: “Your Excellency Chairman Under the

leadership of Lu Yang, the Jagged Brothers Air Combat Corps raided our Tuntian area. The most important areas of No. 1, No. 7 and No. 9 were all bombed. Your Excellency President, please quickly summon the Air Combat Corps to repel the enemy.”

Sanyu Eemon is sitting leisurely in the field area watching his players fight monsters and upgrades for him. After two weeks of harvest, he has won more than 10,000 lower angels in the air battle under Lennon. This makes Sanyu Eemon recent Extremely proud, when he heard Tanaka Jiro’s words, Mitoemon stood up furiously and yelled at the phone: “How come you have been attacked, what’s going on.”

Jiro Tanaka couldn’t answer at all, because Lu Yang appeared suddenly, and he was only in charge of farming fields, not in charge of regional defense. For a while, he didn’t even know what to say.

Santoemon also found that the person who asked was not right, so he hung up and called Kitanomiya, the commander of the Archangel Legion under him.

“Asshole, how do you do the defense, the Jagged Brothers has bombed our Tuntian area, what are you doing, what are so many lines of defense for?” Sanyou Weimen was extremely angry.

How did Kitanomiya know what was going on? He was still conducting routine inspections. There were six lines of defense, and none of them found the Jagged Brotherhood.

“This, this, I’m extremely sorry, I’m going to defeat the Jagged Brotherhood and kill Lu Yang.” Beiye Palace’s cold sweat all over his body was scared, and his mental connection was almost unstable and dropped.

“Strike quickly, strike quickly, I want revenge, I want revenge.” Mitoemon’s roar became distorted.

Compared to ordinary people, this is just the result of ruining a week, but for large guilds like Santoemon, they need to rely on the products of these farms to feed a large number of veterans.

The so-called veterans are players who have joined the guild in the game for more than 2 years. Such players have a clear understanding of the guild’s battlefield play, and are fearless on the battlefield. They can be 3 times or even 10 times faster than new players. Ask to assemble and move.

This is an extremely important thing on the battlefield, and if you want to train veterans, you need at least 5 battles to train them.

But now that the game has been played, there are very few opportunities to train veterans. There will be no major decisive battles in the game. Once a major decisive battle occurs, when the scale determines the fate of a top gang, it can be said that the loser will lose the guild. Ownership and control of at least 300 fortresses, and even face loans of billions or even tens of billions of euros.

No one can afford to lose!

If you don't want to lose, you have to go to farm. Sanyou Weimen has just succeeded in farming for two weeks. He has just given his players two weeks of wages, so that his players can see a little hope. Lu Yang's attack was destroyed. It is the dream of Mitomoemon Guild and all management.

It is conceivable that not only will Mitomo Eemon face the problem of millions of players without wages next week, but also a large number of players under him will doubt whether the guild will be attacked in the next week.

But the problem is that now the Jagged Brotherhood has successfully destroyed the Tuntian area of Sanyou Eemon, which is equivalent to saying that his players have fallen into suspicion and asked him to give money to his 6 million people. He can't get it out. Now it's in Sanyou. What faced Eemon was an extremely difficult problem.

However, the most important thing now is to destroy these flying players from the Jagged Brotherhood, at least killing them can comfort their own players, otherwise, there is really no way to explain.

Kitanomiya also knew the importance of this matter, and he shouted excitedly: "Your Excellency, please rest assured, I will let Lu Yang come back and forth."

"Bang." Mitoemon directly hung up.

Kitanomiya was already anxious, dialed the phone again, and roared: "All the air combat players are gathering, the Jagged Brothers are attacking my Tuntian area, gathering."

More than 40,000 air combat players are upgrading near the Daze Fortress. They are all veterans supported by the Tuntian players, and they all returned to Daze Fortress upon hearing this.

On the other side, when the Iron Brothers bombed the Mitoemon area, Roland was on the opposite side. Compared with Mitoemon, Roland divided his air combat career into two parts, one in the Sand Sea Fortress of the Iron Brothers. The opposite Darkmoon Fortress was defended, and part of it patrolled over the Duke of Silgar Fortress in the Tuntian area.

Mitoemon and Roland agreed that the two sides will defend together, but the two sides will never enter the other's area to avoid disputes.

When Lu Yang bombed with Jagged Brothers players, Roland's Air Combat Corps commander Ogalie was patrolling the border area of Tuntian. He saw this scene with his own eyes, and he immediately ordered all air combat players to gather.

Lu Yangzheng and Yun Yu led people to bomb the Sanyou Guardian area. Seeing more and more Roland players gathering in the far border area, there was a conspiracy smile on their faces.

The reason why he chose to attack at this time is because it is 3 o'clock in the afternoon at this time, which is 3 o'clock in the morning in the Roland area. Roland is still sleeping. Therefore, players in the Roland area can only take orders from the vice president on duty at night. , As well as the commanders of the armed forces in their respective defense zones.

In other words, the top commander in this area of Roland's farmland is Ogalie, and Ogalie himself has always been known for his bravery. In terms of his IQ, among the evaluation teams of various countries, he is around 40. Numerical value.

This value is designed by actuaries. The highest value is 100 points, and currently it can reach 90 points or more. There are the Jagged Brothers' Zhuojuqiu, Xia Yuwei, White Lion, Zhou Tianming, and the bitter love half a lifetime, Liu Jie area Such as Yuetai Mountain, the Blood Butcher in the Steiger area, etc., but this number is not large and can be described as rare.

Generally speaking, commanders with an IQ valuation above 80 are all masters, while those in the 60-point area can only do well in defending the city, while those below 60 or even around 40 are loyal. A tough straight man.

In terms of loyalty, such a person is no better. In terms of courage, such a person is the most morale booster on the battlefield. But such a person is afraid of deception and will be deceived. Therefore, someone needs to guide them, and often guide them. The person is the president of the major guilds himself.

In fact, this means that such commanders are all guard commanders of the guild leader, and the guild leader refers to them as they fight. This is why O'Gale is not defending the front line of the Darkmoon Fortress facing the Jagged Brotherhood. It was the reason why he led his troops to train at the Duke of Silga Fortress.

Ogalie is indeed powerful. Facing tens of thousands of Jagged Brothers players, he was not afraid of it. Taking advantage of the time when his men assemble, he did not let them follow. One person flew into the attack area of the Jagged Brothers and wanted to test it. The strength of players of the Jagged Brotherhood.

But before he could attack, Lu Yang appeared in front of him suddenly and frightened Ogalie. Then he looked at Lu Yang in surprise, and said excitedly: "The overall champions of the five individual competitions, all saying that you are the best, I will compete with you today."

Lu Yang looked at Ogalier and said with a smile, "What are we going to do with this relationship?"

"Is it all related?" Ogalie frowned and asked, "What is my relationship with you?"

Lu Yang pretended to be surprised and said: "Don't you know, I have discussed with your boss, in the future, you and my family will no longer fight, I will only attack Sanyou Eemon and not hit you anymore, eh, I missed it. It seems that you don't know about this, please contact your boss quickly and don't make any misunderstandings."

"I, you, this..." Ougarie was dumbfounded on the spot, if someone else said something to him, he would not hesitate to believe it, but you can tell him this. The person from is the president of the Jagged

Brotherhood, a leader of the world's top guild with nearly 20 million players. What he said to him, he thought, should, possibly, probably, not lie to him.

Besides, the area where the Jagged Brothers attacked was indeed the Sanyou Eemon area, not the area where Roland was attacked. Ogalie thought for a while and said, "I will contact the boss first and ask what's going on."

"Go back quickly." Lu Yang said with a look of unwillingness, "What's the matter? If there is a conflict, how can Roland manage it."

In embarrassment, Ogalie hurriedly returned to call Roland to confirm that he was going, but Roland had already fallen asleep, and now it was the best time to sleep, how could Ogaline make a call.

Just as Ogalie called over and over again, his behavior was clearly seen by the Japanese players below. Therefore, after his subordinates reported to Jiro Tanaka, Jiro Tanaka immediately reported to Eemon Mitomo, which made him The door sat on the spot in horror, and began to think about the inner reason for this matter.

There is no room for negligence in the struggle between great powers!

## Chapter 1908 - The Air Combat Corps

"Boss, the air raid has been completed, and all the planned targets have been bombed. Santoemon's farm harvest this week is almost zero." Yun Yu called.

Because it was a sneak attack, the scrolls Lu Yang brought this time were mainly sub-forbidden curses and forbidden curses. The range of each skill was extremely large. Before launching the attack, he reached the designated position in advance. Therefore, the entire sneak attack The process was completed in less than 5 minutes.

“Om”

System reminder: Player Sanyouemon launches six reincarnation formations!

You cannot use any teleport skills!

30 minutes countdown!

Lu Yang couldn't help laughing, he guessed that Sanyou Eemon must have come up with some unknown assassin during this time, and he guessed it.

The six reincarnation formation, known as the first formation in the game, was also the main formation used by Liu Jie in the previous life when he sneaked into Lu Yang.

It needs a death heart and the death of 100,000 players as a sacrifice to trigger such a huge formation.

The role of the formation is very simple, that is, the player's body will be covered with the soul dust that sacrifices the player, and this soul dust will block all the player's transmission spells.

I have to admit that there are still many masters and lucky people in this game. Not only Lu Yang can upgrade the Heart of the Demon God and the Heart of Fengshen, but Sanyou Gate can also upgrade the Heart of Death.

It stands to reason that killing one hundred thousand players is a considerable project. It is estimated that it was made during the battle of Mitoemon against Radvedev. It may be too angry to guess that Mitoemon wants to use this skill as a killer. Only use it this time.

After all, Lu Yang ruined the confidence that Santoemon had worked so hard to build up for his players. On the day of the harvest, all the gains were ruined. Santoemon could not explain to his players, he could not explain to the board of directors, and did not know what to do next. How to deal with it.

Lu Yang looked in the direction of the fortress. He found that Sanyou Weimen had personally come to the west wall of the fortress in the sea of clouds, looking at him with a stern look, and the first batch of his air combat brigade had just taken off, and most of them were still there. Came over in batches to form the team.

A few hundred meters away, he smiled and hugged Mitoemon, and said loudly, "President Mitoemon, you are late, we will meet again."

Mitoemon had already fallen into a rage, if it weren't for his image, he would have cursed Lu Yang a long time ago.

"Chairman Lu Yang, you will pay a high price, a high price." Sanyou Eemon roared.

Lu Yang smiled. He has already angered Sanyou Eemon, so he doesn't need to tease him any more. He watched Yun Yu and Zhou Yuntian and others who had gathered players to Lu Yang's side and said: "According to the alternative plan, the archangel The Legion and the Dark Iron Warhawk Legion without the Golden Dragon Crossbow retreated to the Chaos Mountains between the Cloud Sea Fortress and the Daze Fortress, and the Demon Dragon Legion retreated with me."

Before the battle, Lu Yang had already talked with Yun Yu and others about possible encounters and made alternative plans.

It turned out that according to Lu Yang's vision, the enemy had deployed a large number of air combat occupations in the Sea of Clouds Fortress. If the two sides exchanged fire, then after the player completed the destruction of the Tuntian area, everyone would fly into the Chaos Mountains.

This mountain is a high mountain area, and there are few monsters inside. Sanyouemon does not allow ordinary players to fight monsters and upgrades here. Therefore, there are no ground players of Sanyouemon.

If a player is killed, the direction of resurrection will be the Chaos Mountains. After the Jagged Brotherhood defeats the air combat group of Sanyou Eemon in the air, all players use teleportation to leave.

It's just that Lu Yang didn't expect the bombing to go so smoothly, nor did he expect Sanyouemon to have such a big killer in his hands.

"The First to Sixth Army retreat, and the target is the Chaos Mountain Range." Zhou Tianyun and Shen Yu were responsible for leading the team away.

"The Demon Dragon Legion is assembled and ready to fight." Yun Yu shouted loudly.

"The Seventh Battalion of the Black Iron Warhawks is assembled and ready to fight." Both became upset and Debumeizu shouted at the same time.

A total of 400 members of the Devil Dragon Air Combat Team, and 4,000 players holding the Golden Dragon Crossbow in a group of two, formed a two-person formation.

The so-called two-player formation means that two players are separated by 20 meters and observe the situation in front and the left and right sides of each other.

In this kind of air combat, the two-person formation will automatically evolve into a three-squad formation, which is a six-person formation. The four people who join later are responsible for observing the rear and up and down directions.

This is the most classic offensive and defensive formation that has been demonstrated in the previous life. Six people share their vision and can know the enemy's direction to the maximum extent.

Lu Yang also shared his vision with Yunyu, Debumeishi and others. Looking at Kitano Palace, who was rushing towards him, he smiled and shouted, "Brothers, it's time for us to perform. let me try."

"Iron-Blood Brotherhood, kill~!" Debu tasted the corpse and became upset and the others roared. In an instant, the 4000 dark iron warhawks behind him entered the iron-blood mode.

Lu Yang watched a moment of speechlessness. Compared with ground combat, Lu Yang had an absolute advantage in air combat. The two professions of Golden Dragon Crossbow and Demon Dragon Man were all killing any other air combat player.

Lu Yang looked at Beiye Palace, who rushed over first. The moment he entered the opponent's range, his control wings suddenly accelerated in disguise.

“Boom”

Kitanomiya fired a shot at Lu Yang, but this shot was fired from 80 meters away. The flight time of 1 second in the air and the deviation caused by the bullet in the high-speed movement caused the single-shot Kitano Gong had nothing to do with Lu Yang.

The Ten Thousand Realms Artillery is like a useless waste weapon. It always hits far away from Lu Yang. On the other hand, Lu Yang, while avoiding Beiye Palace shooting, hangs upside down in the air, and the golden dragon crossbow appears in both hands at the same time.

“Swish”

“Swish”

“Swish”

...

Dozens of crossbow arrows flew in front of Kitano Palace in an instant. No matter how much Kitano Palace dodges, there is no way to avoid such a dense crossbow arrows. In less than 3 seconds, they were hit by three crossbow arrows in a row and their blood was emptied.

“Ah~!”

Free fall from a height of several hundred meters, even in the game, is very scary, accompanied by horrified screams, Kitanogu died in battle!

Lu Yang didn't take a look at Beiye Palace, and went on to attack the next target. The 400-person Dragon Legion and the 4,000-person Dark Iron Eagle Legion shot a group of archangels to the ground just like killing a white and beheading a chicken.

In less than ten minutes, more than half of the tens of thousands of players who rushed over were shot dead, and the resurrected Japanese players quickly lifted off to continue fighting, but the problem was that they still couldn't beat the players of the Jagged Brotherhood.

In the sky obliquely in front of the fortress of the sea of clouds, Jagged Brothers League of 4,400 players in groups of six, the divisions are too scattered, there will be no collision in twos, which leads to Ten Thousand Realms Artillery has almost no chance of hitting.

Occasionally, several players of the Jagged Brothers have been successfully shot down. This is only an occasional phenomenon, and the air combat players of the Jagged Brothers have soul stones tied to their bodies, and death will be resurrected immediately. They will have one more chance to survive. Necropolis.

Faced with this situation, after playing for 20 minutes, all the players on the Kitano Palace side died once, and Kitano Palace himself had died three times. After being resurrected again, the angry Kitano Palace threw away the ten thousand in his hand. Jie Artillery roared: "Listen to my order, everyone changes to Bill's fire crossbow, we don't use this unused weapon, follow me."

"Kill~!" Tens of thousands of archangels threw away the Ten Thousand Realms artillery and replaced them with a small fire crossbow.

Bill Dry Fire Crossbow

Level: Lower God Level 3

Fixed damage: 10-10

This weapon ignores physical defenses, but the damage it hits is more touching, one-fifth of the golden dragon crossbow, and it can only shoot 3 arrows at a time.

## Chapter 1909 - 3The Dilemma of Tomoemon

When Lu Yang was leading the team to retreat, he once again encountered Kitano Palace, who rushed up. He just raised his weapon and the opposite Kitano Palace opened fire first.

“Swish”

“Swish”

“Swish”

...

All three fire crossbows hit Lu Yang’s arm, shocking Lu Yang. Normally, when Bei Ye Palace and the others wanted to attack, they would aim, aim and aim again, and fire only when they were sure they could hit. , It’s not the opponent’s style at all to fire at this injury.

Lu Yang took a look at his blood volume and only lost 30 points. His total blood volume now exceeds 1,000 points. The 30 points of damage are just like tickles, but this is what Lu Yang knows. The opponent has changed weapons.

“Everyone, be careful, the other party has replaced Bill with a crossbow, don’t be killed.” Lu Yang said loudly.

In the game, there are not many that have the blood of Lu Yang. The whole game can’t find 100. A normal Black Iron Warhawk player only has more than 200 health. If a dozen people gather fire, it is very likely to be instantaneous. died.

Before Lu Yang could finish speaking, many Black Iron Warhawk players of the Jagged Brotherhood were raided and killed in mid-air. After they used the resurrection stone to resurrect, they quickly regrouped and faced the group of enemies with new weapons. .

Now the players of the Jagged Brotherhood know that they can't die easily, because the weapon they carry is a golden dragon crossbow. If this thing explodes, it will give the enemy a very powerful reinforcement.

Kitanomiya also knows this, so the way he chooses now is to fight hard for the players of the Jagged Brotherhood. He can earn a golden dragon crossbow if he fights to the death, and the fire damage of Bill's fire crossbow is also high. difficult.

"Kill them and \*\*\*\* the golden dragon crossbow." Kitano Palace roared loudly.

Lu Yang stared at Beiye Palace with a sneer, and he issued an order: "Continue to retreat, don't fall in love with it, it's not a big deal to throw a few golden dragon crossbows, retreat into the Chaos Mountains first."

"Yes." The Black Iron Warhawk and Demon Dragon players nodded one after another, and each led their teams to continue to retreat, no longer fighting with Kitano Palace.

The players on the Kitano Palace are mainly archangels, pseudo-dragons, black iron war eagles and vultures, and their flight speed is not faster than the air combat brigade of the Jagged Brothers.

In particular, more than 40,000 people on the Kitano Palace side were wiped out once, and the friendly Ogarlie next to them did not step forward to stop them. As a result, the main air combat force on the side of the Jagged Brothers has retreated a long distance, and Kitano Palace has been unable to catch up. , Can only chase behind the 4400 air combat players led by Lu Yang.

Both sides fled and chased. After flying for more than 20 minutes, they came to a big mountain in the Chaos Mountains. Looking at the resurrection point below, Lu Yang nodded in satisfaction and said, "Just call me here, all After annihilating Kitano Palace's air combat team, he would continue to kill as long as he dared to resurrect, killing at least 10 minutes."

The soul dust on Lu Yang is dissipating, and it will disappear within 10 minutes at most. As long as there is no soul dust, everyone can use the teleportation scroll to leave.

According to Mitoemon's existing air combat strength, it is absolutely impossible to stop him and his air combat team from leaving.

"Yes." Zhou Yuntian, Shen Yu and others roared at the same time. The 30,000 archangels and 30,000 black iron war eagles that came with the team had already arranged a pocket array over the Chaos Mountains.

When Lu Yang flew past the pocket formation, Kitano Palace happened to enter this pocket. According to Kitano Palace's idea, he only had to entangle the Jagged Brotherhood and prevent them from running away, but what he didn't expect was that Lu Yang didn't even have it. Want to keep running, but want to annihilate them.

"Call me." Lu Yang issued an order.

"Kill~!"

"Iron Brothers, kill~!"

...

The 60,000 air combat players ambushing in the clouds on both sides and above, covered like a big net, instantly besieged more than 40,000 players from Kitano Palace in the sky.

Under the fighting between the two parties, the melee advantage of Zhou Yuntian, Shen Yu and others showed up. Compared with the general strength of the players under Kitano Palace in air melee combat, Zhou Yuntian and others, who had received Han Zhong's rigorous combat training for 3 years, were very good at fighting. It's already commonplace.

In reality, they not only have theoretical foundations, but also have practical capabilities. As a group of three, they ended the air battle of more than 100,000 people in less than 20 minutes in close combat.

The player of Kitano Palace was killed clean, and even the killed Kitano Palace did not even have the ability to resurrect in the Chaos Mountains. As long as they were resurrected, they would be killed. After a large amount of equipment exploded, Kitano Palace worried that the players would fall to the lower \*\*\*\* level. Next, so he chose to stop the attack and retreated with his players.

At the same time, on the other side, the ground players led by Takeshi Furukawa just ran to the entrance of the Chaos Mountains and wanted to come to this resurrection point. Under such a complex terrain, even if it was a mad wolf army, it would take at least an hour. Above time.

Sea of Clouds Fortress.

With a crisp “pop”, Mitoemon slapped Kitanomiya with a loud slap, turned around half a circle where he hit him, and roared, “Asshole, what did you hit?”

“I’m sorry.” Kitano Palace was not ashamed, and quickly bowed to apologize.

Sanyou Weimen was already mad, but he really didn’t know who to blame. Lu Yang’s attack was like entering a man’s land, making every line of defense he had arranged before seemed so ridiculous.

“Six lines of defense, six lines of defense, tell me how Lu Yang broke through.” Sanyou Weimen roared again.

“There must be an insider who sent Lu Yang and the others over. I am patrolling every day, and I am also patrolling today.” Kitanogu said depressed.

“Who is the rape?”

“Who is the traitor?” Mitoemon was furious.

General Furukawa cast a three-dimensional map on the screen, and he came to Santoemon and said, “Your Excellency, I don’t think this matter has much to do with the rape. I suspect that Lu Yang’s departure is what we have been unaware of before. This area.”

“Let me see.” Mitoemon glared at Furukawa Takeshi. Now he is in a very bad mood and no one is waiting to see him.

Taken Furukawa didn't care. He had already mentioned this to Mitoemon, but Mitoemon cancelled it due to insufficient budget. He pointed to the map and said, “I believe in Kitanomiya's defensive ability, day and night. When there are people guarding the sky, it is impossible for the Jagged Brothers to fly over. The only possibility is to walk along the line of the fortresses of stars. We have no defense here.”

“How do you know?” Mitoemon asked coldly.

Takeshi Furukawa took out a photo,said: “This is a photo of an air combat player who is training in the Jagged Brotherhood suddenly stopped training. Someone just posted it on the forum. I suspect, This was when Lu Yang attacked, and we all knew the person in the photo. It was Zhou Yuntian. If you calculate the time, it should be at this time yesterday. That is to say, Lu Yang personally led the team to fly for 25 hours. After one-third of our fortress, we walked a big arc in the air before coming to us for a sneak attack.”

Mitoemon grabbed the photo, compared the time, raised his head and closed his eyes and sighed, and said, “It's all gone.”

Furukawa wanted to speak, but found that Mitoemon was a little bit emotional. Furukawa knew that if Lu Yang continued to do this, Mitoemon's guild would probably collapse, but Furukawa couldn't help it. defense.

Even if the Stars Fortress is guarded, what will Lu Yang do next time he walks through the Fallen Leaves Fortress? There is no way to defend against such a large air hole. On the contrary, they want to attack Lu Yang. Lu Yang would rather spend one-third of the farming funds. Used for investigation and spying purposes.

The Jagged Brotherhood has never united like it is today. It seems that Lu Yang has gathered the soul of Chinese players. Takeshi Furukawa feels that he now needs to find a way to help Sanyou Emon solve his immediate predicament, otherwise, Sanyou Wei The door cannot survive in the New World.

Chapter 1910 - The flaws of Jagged Brothers only 1

Sky Screen Fortress.

“We succeeded.”

“We blew up the Tuntian area of Santoemon.”

“The air raid was successful.”

...

The 60,000 air combat players of the Jagged Brothers are cheering loudly, flying for 25 hours, crossing 13 fortresses to perform bombing missions.

During this period, they can't make any noise, can't leave the game to eat and do other things, they can quit the game if their skin hurts or itchy, they can only sleep with one eye closed, and they have to get up whenever there is something.

Under such circumstances of fighting day and night and clenching their teeth, they have completed this almost impossible task, and they can't help but get excited.

Lu Yang's heart was also overwhelmed with excitement. When he calmed down, he called in Yun Yu, Zhou Yuntian, Shen Yu and other team leaders, and said, “Tell my brothers to rest. There are still many bombing missions like this in the future. Everyone is ready.”

“Yes.” The three Yun Yu nodded in response, and each summoned their players to go to sleep and rest.

When everyone was gone, Lu Yang sat on the wall of the Sky Screen Fortress to rest alone, watching the setting sun in the direction of the fortress where Sanyou Gate was in the distance, feeling a little sigh in his heart.

Tu Feng, Zhuo Jiu and others appeared next to Lu Yang, and Zhuo Jiu couldn't help asking, "Sanyou Weimen and Liu Jie, none of them contacted you?"

Lu Yang smiled and shook his head, and said, "No one."

Xia Yuwei said: "Obviously, these people are really ready to attack together at the end of the year and defeat us in one fell swoop."

The white lion said bitterly: "Let them dream, wait until the end of the year, not necessarily who will destroy who."

Lu Yang smiled and said, "The follow-up bombing work is entrusted to Zhou Tianming. We will continue to bomb the Sanyou Eemon and Roland areas. In addition, I will increase the number of Dark Iron Hawks and Archangels, but they are mainly used for defense. , The number of offenses is fixed at 60,000, and it will be gradually reduced, striving for the least number and the most thing.

Zhou Tianming nodded and said: "I understand that if I can use a small number of Devil Dragon to complete the bombing, I will not send out the 60,000 archangels."

Lu Yang said: "Tu Feng will follow you up with spies. All defense and offensive work will be carried out by the two of you."

Tu Feng said: "Boss rest assured, I will cooperate with Zhou Tianming."

Lu Yang smiled and said, "Starting today, I will lead a team to open up wasteland and build enough equipment for my brothers to deal with the upcoming war. You must also be prepared. The next battle is to decide. We and Liu Jie will be the decisive battle for the ultimate winner of this continent."

Zhuo Jiu, Bai Shi and the others glanced at each other, and they both showed resolute and excited expressions. They had incomparable confidence in the future war.

That night.

When Lu Yang took a rest, Liu Jie, Mitoemon, and Roland did not retaliate against Lu Yang's actions, because at this time only Mitoemon was fortunate, including Liu Jie, Chikova, Roland and Steiger are both sleeping.

In the African and European regions, it has only been around 5 o'clock in the morning, and none of the leaders of the People's Association has woken up.

After another four hours, Roland, Liu Jie and others woke up and entered the game before they knew the situation. Roland first beat Ogalie and withdrew his position as deputy commander of the Air Combat Corps. As a guard for the time being, Roland then personally went to apologize to Mitoemon.

"I'm so sorry, my subordinates are so stupid, I didn't expect such a thing to happen." Roland said while looking at Sanyou Eemon in the special space.

Mitoemon stared at Roland but did not speak. Chikova felt that the atmosphere was not right next to him. She frowned and said, "I believe Roland will not collude with Lu Yang secretly. This is too obvious. benefit."

Steiger gritted his teeth and cursed: "I also agree. Lu Yang is too cunning. I have been tricked by him many times before. He is best at deceiving people. He deceives ordinary players as a general manager. He always succeeds. Want to see, who would have thought that Lu Yang would deceive people in front of a legion commander. Is this what a top guild leader did? This is a shame."

Standing by Liu Jie's side, Suan Cao said with a smile: "In China, this kind of thing is called a strategy. As long as we can achieve the greatest results at the least cost, this is what we should do."

Steiger's eyes were full of coldness when he stared at the dead grass. In recent years, one-third of the wars with Liu Jie were with the dead grass. Every time, the dead grass was taken advantage of. Let Steiger hate this person, but this person usually doesn't come out and can't find any weakness. This time he came out. Steiger frowned and asked, "If you have any solution, just say it. Don't sell it here."

The dead grass smiled again and said: "I have a strategy, but this strategy will not have a big effect, but it can temporarily split the Jagged Brotherhood. What to do later depends on everyone's strength."

“Hurry up,” Mitoemon said.

The dead grass looked at Sanyou Eemon triumphantly, then at Chikova, Roland, Steiger and others, and finally glanced at Liu Jie. After getting permission, the dead grass smiled and said, “I ask you, if you are to take the air combat brigade to sneak an attack on the Tuntian area of the Jagged Brotherhood, is it possible for you to succeed?”

Everyone was embarrassed.

Chekova said depressedly: “Lu Yang’s line of defense is too strong. There are so many spies here. Often the air combat brigade flies together. Lu Yang knows that after passing the first line of defense, he will be discovered again. , I have tried many times, and every time I was blocked from the first line of defense. I dare not go deep.”

Roland said: “Me too.”

Steiger shrugged his shoulders and said, “It’s the same on my side. You know the strength of turbid wine, there is no chance at all.”

Suzuo Cao said: “My strategy is divided into two parts. The first part is a separatist strategy. I believe you all know that China has a large territory and people in every region have a chain of contempt. What Lu Yang is doing now is to keep the 6 million main force behind. Then we will form a chain of contempt among these 6 million people and let them have internal conflicts. Then we need to share the spy members and design together to cause civil unrest. Slightly drag Lu Yang.”

Compared with the iron-blooded brotherhood now, there is no good way to let a big adviser like a dead grass and an actuary.

Fortune Dead Grass now really feels that the Iron-Blood Brothers League is too terrifying. The eight main vice presidents, including Zhuo Jiu Qing, White Lion, Xia Yuwei, and Zhou Tianming, are loyal to Lu Yang. Fortune Dead Grass feels chill. Zhou The Tianming incident prevented all external enemies from daring to conduct separate activities against the Jagged Brotherhood.

I really don't know if it is the Jagged Brothers or the trap of the Jagged Brothers. The main players of the Jagged Brothers rely on Lu Yang to live. Their level of loyalty to Lu Yang cannot find any loopholes.

The most hateful thing is that now the Jagged Brothers is investigating a bunch of old men and old ladies in the border area. These people are the parents of the players in the game. They don't need money and take the initiative to participate in duty, just like a neighborhood committee.

Not only was he on duty in the game every day, he was also begging for seeds to plant with Lu Yang within the scope of his duty. While planting the land while looking at the sky, the Air Force simply couldn't make it through.

#### Chapter 1912 - Wolf King mission

According to official records, Fengshen obtained a secret technique. As long as the source of several other main gods was captured, the Moon God could be resurrected, and her mind would disappear, as if reborn.

When Fengshen was doing this, he was already in madness. He not only attacked the earth god, but also wiped out all the gods under the Moon God seat before that.

There are two main gods under the Moon God seat, one is the Moon Shadow Wolf Spirit family and the other is the Unicorn family. In the battle to protect the Moon God, the patriarch of the Unicorn family, the Unicorn Emperor, died in battle, and 90% of the race was killed. Slaughter.

The Lunar Shadow Wolf Spirit family is relatively better. The Lunar Wolf King did not die, but was seriously injured and endangered, but he could be rescued. However, the Moon God was bullied later, and the Fengshen who knew about it rushed to the place where the Moon God died. Next, they slaughtered the Lunar Shadow Wolf Spirit Clan, thinking that the Lunar Shadow Wolf Spirit Clan did not do a good job of protecting the owner, it should be killed!

At this point, all the Moonshadow Wolf Spirits of the entire Moonshadow Wolf Spirit Clan, except for the lowest-level moonshadow wolves, who were ignorant and above, were all obliterated by the Wind God.

The Moonlight Woodland has changed from a paradise to a \*\*\*\* land. Because the Moon God itself belongs to an existence other than the Nine Pillar God, and belongs to the excluded \*\*\*\* within the temple, no one will investigate what happened in the Moonlight Woodland.

After that, it was abandoned. No gods came to live. They were afraid of a curse left by the Moon God, and no other creatures came. The wraith spirits of the Moonshadow Wolf Spirit family have been wandering here. They hate all creatures, including all gods.

Because the Moon Shadow Wolf Spirit itself is known for its soul, the soul of the Moon Shadow Wolf Emperor still exists in this world, and he has been confessing.

Lu Yang came this time to find the Moon Shadow Wolf Emperor, because he could enable the mad wolf to learn one of the most important skills after entering the lower god-the energy cannon and night vision.

Along the way, Lu Yang was telling the story about the Moon Shadow Wolf Emperor with Haoqing Wanzong. When he arrived in the middle of the woodland, at a tombstone, Lu Yang stopped.

This tombstone was only one meter high, and it was broken in half, covered with moss, and it looked dilapidated.

There is a line of text on the tombstone, but this is the text of the lingua franca of the New World God Realm. The meaning written on it is very clear, just two words-shame!

Lu Yang knew how wronged the Moon Shadow Wolf Emperor was. While he was recovering from his wounds, the Earth God sneaked in. He didn't know what had happened. After this incident, his descendants knew, fearing that Moon Shadow Wolf Emperor and Earth God would die desperately. He deliberately concealed it, causing the Moon Shadow Wolf Emperor to be killed by Fengshen before he knew what had happened.

For Fengshen's eradication of the Moonshade Wolf family, Wolf Emperor Shanet did not complain at all. He even hated his own descendants, but he had no choice but to stay here as a confessor. Trying to recover the body in the woodland.

But this kind of recovery, the year of the monkey will not be able to recover, the best way to recover is to swallow the souls of other gods.

Lu Yang looked at the tombstone and whispered: "Lord Wolf, I know you sleep here. If you can hear my call, please come out and meet me. I am willing to help you escape the cycle of fate."

This summoning ceremony was found in the library inside the Tianyu God City, and it was the only way to summon the Wolf King.

In the previous life, no one knew how to find the Wolf King, but in the end, they saw the written record left by a prince who left the Ten Thousand Realms Consortium in the library.

Lofty Wanzong followed Lu Yang, scratching his head when he saw what Lu Yang did. When he was wondering whether Lu Yang's call was effective, suddenly, centered on the cemetery, a pale white light burst out fiercely. .

"Om"

The mighty power of the gods made Wangqing Wanzong and others almost unsteady. At the same time, the power of the gods formed a spherical enchantment within 100 meters, and then a werewolf soul with a height of more than 2 meters appeared. In front of Lu Yang and others.

Moon Shadow Wolf King Soul-Shanet (Main God·Weak)

Level: 200

Qi and blood: 30000000/30000000

"Human, how do you know about things in ancient times?" Moon Shadow Wolf Emperor's cheeks were twisted in pain, and a white soul sword appeared in his hand pointing to Lu Yang's neck.

Lu Yang said, "I saw it in ancient books. The Prince of Ten Thousand Realms, Batos, likes to study the history of this world. When he left, he copied a copy of Tianyu God City."

The Moon Shadow Wolf Emperor thought for a while and said, "It's that young man. I remember it. I can't think of him recording what I said to him. What do you want me to do?"

Lu Yang smiled and said, "I want to make a deal with you. You will help me improve the strength of my brothers. I will help you find enough \*\*\*\* crystal cores to provide you with strength."

With Fengshen's blessing and ember skills, Lu Yang used the Devil's Heart's sleepy \*\*\*\* stone tablet to catch the gods easily, as long as he was not a higher god, he could easily catch it.

The Moon Shadow Wolf Emperor glanced at Lu Yang carefully, nodded and said: "I feel two different ancient divine powers from your body. It seems that you also have many secrets. I recognize your strength. If you can help me find A \*\*\*\* core of a peak mid-level god, I will make your brother a member of the Moonshade Wolf Spirit."

Lu Yang smiled and said, "You said it, as long as it is the peak mid-level \*\*\*\* core."

"Not bad." The Moon Shadow Wolf Sovereign's voice was rough and long, and then said: "If there is no peak mid-level \*\*\*\* core, 10 high-level mid-level \*\*\*\* cores are fine."

System prompt: Do you accept the Lunar Wolf King mission?

Lu Yang chose to accept it and said, "Please give me some time, and I will catch it for you."

"Yes, will give you a transmission token, which can be transmitted to me at any time in the future. I hope you can show me the \*\*\*\* core as soon as possible. I am a little impatient of waiting recently." Said.

The Moon Shadow Wolf Emperor himself could not get out of the Moonlight Woodland. As long as he walked out of here, he might be discovered by the subordinate races of gods such as the Earth God, Wind God, and Fire God. Once such a situation occurs, the Moon Shadow Wolf Emperor must die in order to eliminate the evidence.

Lu Yang knew the difficulty of the Moon Shadow Wolf Emperor, otherwise he would never give such a generous offer. He arched his hand and said goodbye to the Moon Shadow Wolf Emperor. He turned around and said to the heroic Wanzong and others: "Follow me, let's go. Next copy."

"Well, where are you going?" Haoqing Wanzong asked.

Lu Yang said, "There is a copy outside of Moonlight Woodland. Let's go there."

After the Moonlight Woodland was destroyed, although no one of the gods in the New World wanted to care about this matter, the Earth God was worried that something would happen and secretly sent a middle-level \*\*\*\* army to hide in a cave outside the Moonlight Woodland.

"After going in, you are responsible for pulling all the mobs away. I will directly grab the peak mid-level god. When I exchange the moonshade wolf spirit's skills, you will know how strong this skill is." Lu Yang said with a smile.

## Chapter 1913 - Lu Yang resolves civil strife

Pride Wanzong was also a little curious about what skills his boss admired so much, and excitedly led the team in.

Underground palace.

Just under the root of a big tree that was cut off on the west side of Moonlight Woodland, half of the trunk connected to the root has been hollowed out. Standing next to the trunk and looking down, it was dark inside, as if there was no bottom.

In fact, this was a tunnel that was slanting downwards. Lu Yang was the first to jump down. The tunnel with a large inclination angle turned around. After more than ten seconds of descending, Lu Yang landed on the ground.

System prompt: You have discovered the Underground Palace!

“Ah~!”

Lofty Wanzong slid down, shouting all the way as if he had just taken a roller coaster. After landing, he quickly ran to the side and gasped and said, “I was scared to death. This is what I fear most.”

There was a row of exclamation points above Lu Yang, and everyone couldn't help laughing as the guards of the mad wolf looked at their pride.

“Boss wolf, you are too good.” The first legion commander said with a big smile.

Hao Qing Wan let out a sigh of relief before he came back, and looked at Lu Yang and the others depressedly and said, “I've been afraid of this since I was a child, it's terrible.”

The crowd burst into laughter again. Lu Yang shook his head with a smile, and looked around. It was a small underground cave with an area of about 200 square meters.

Surrounded by blue rocks, on the rock wall, there is a white crystal lamp every 10 meters, illuminating the entire underground palace.

On the north side of the underground palace, there is a huge door with an enchantment above it. This is the entrance of the underground palace copy.

Lu Yang led the heroic Wan Zong and others to the door of the dungeon, clicked to open the dungeon of the Hundred People Nightmare difficulty, and led the team into the dungeon.

The light flickered.

Lu Yang crossed the barrier and appeared in a huge metal palace. The entire palace was forged from bronze.

The ground is made of bronze, the reflective ground is like a mirror, the surrounding walls are also made of bronze, and the top of the palace nearly 100 meters high above the head is also made of bronze.

The area of this underground palace is small, and the end can be seen at a glance. Not far from the front is a square on which stands six 3-meter-high bronze giants.

The giant's arms seem to have muscle masses, and the bronze skin is raised high, but the body is mirrored, as if it can reflect all skills.

Lu Yang looked at the heroic Wanzong beside him, and said, "Remember, you must not fight these six bronze giants in this dungeon. Their bodies can reflect all skills, and a little carelessness will destroy the group."

Lofty Wanzong nodded.

Lu Yang continued: "The only way is to use six wolves to quickly pull them away. The giant's hatred is 0. Whoever beats him will go with him. Others must not provoke him. When running, There are many raised bronze floors on this ground. Don't step on such a floor. You will be forced to fix it for 1 second when you step on it. You know, the lower \*\*\*\* level, what is the result of freezing for 1 second."

"Must die." Wanzong said with pride.

Lu Yang said, "In a while, you will take someone to pull the monster, and I will clean up the last peak mid-level god."

Behind the square, there is a tall staircase. At the top of the staircase, there is a platform. On a bronze seat above, sits a bronze giant with his head down and sleeping.

This bronze giant is 5 meters high, holding a giant sword in his hand, and his facial expression is extremely fierce, as if he is waiting for something.

“For so many years, someone finally broke into here, let me see if it is a moonshade wolf spirit or a unicorn.”

“Oh, no, it turned out to be a human being. It makes me feel happy that such a humble race can come to our world. I can’t wait to kill him with my bronze sword.” The bronze giant woke up, mockingly. Look at Lu Yang and others, whispering.

Bronze General Vance (Middle God · Pinnacle)

Level: 190

Qi and blood: 5000000/5000000

Lu Yang said: “The other party has already written the challenge book, let’s go up, and you guys go and pull the blame.”

“Yeah.” Wanzong nodded vigorously, and led five people to the front. After pulling the six bronze giants, the lord bronze giant circled around.

Lu Yang took this opportunity to quickly come to the top of the bronze general’s stairs, only less than 2 meters away from the bronze general.

The reason why he chose Vance, the lord monster, was because Vance had a small bug, or attack delay.

In the official design of this mid-level god, the bronze general would not immediately stand up to attack the player who came to attack, but when the player attacked him, he appeared indifferent, stood up slowly, and sighed, The human attack is really too weak, and then launch an attack.

Lu Yang has a stone stele of sleepy gods. The most difficult thing is to make the high-level monster stand still in one place, but this bronze general happened to have this bug, so Lu Yang smiled when he faced the ridicule of the bronze general.

“Flaming Bull God Lock”

A space suddenly appeared out of thin air in front of Lu Yang, followed by eight pure golden flame chains, which simultaneously trapped the bronze general’s arms, shoulders, neck, abdomen, legs and ankles in the blink of an eye.

“Damn, what is this, let me go, I’m going to kill you.” The bronze general was struggling with unwillingness, but it was of no use at all, so he was pulled into the Demon God Space.

“The arrest is successful, come out with me.” Lu Yang shouted, first activated the Embers skill, and ran to the door.

Haoqing Wanzong and the others saw that Lu Yang was safe, looked at each other’s position, and after confirming that there was no problem, they ran to the door together.

They are also top-notch masters. They can also check the position of their teammates and make judgments quickly, which is not easy.

Lu Yang originally thought about whether or not to pick up the six of them, but it didn’t seem to be a problem, he turned and left the copy, so as not to mess with them.

Here Lu Yang just came out of the dungeon. Within 2 seconds, the six of them jumped out together. They saw Lu Yang standing in front of them, and said proudly, “What kind of boss, I didn’t give it to you. Shame on it.”

Lu Yang nodded in satisfaction, and said, “Follow me into the Demon God Space, and show you the biggest secret of the boss.”

Fan Zong and others all showed surprise expressions and nodded one after another.

Lu Yang opened the special space and brought in six people with pride and enthusiasm. In the next second, the six people found that they had entered a slightly dilapidated temple. In the middle of the temple, there was a huge stone monument on top of the stone monument. , Is the peak mid-level god, the bronze general Vance, trapped by the flame chains, and the two sacred cows that are burning with flames are pulling the flame chains.

“Sir.” Two sacred cows, Kate and Lake, bowed to Lu Yang at the same time.

“Damn human beings, have the courage to let me down, I will kill you.” The bronze general roared again and again.

Lu Yang acted as the wind in his ears, bowing slightly to the two \*\*\*\* cows, and said to the stunned pride Wan Zong and others behind him: “This thing is called the Stone Stele of the Sleepy God. Except for the main god, everyone can be trapped and kill people. I’m giving you six, I’ll take a break.”

Haoqing Wanzong and others have attack skills that ignore armor, and they all wear earthen spirit suits. When the six people add up, the output is not inferior to Lu Yang. After all, this is the pinnacle inferior god, and Lu Yang can’t beat his magic injuries. If the damage is too high, it is better to indulge their attacks with pride.

“Leave it to us.” This is the first time Wanzong with pride has eased monsters, and happily took five brothers to fight monsters.

Lu Yang was waiting next to him, but he was hitting him. Wan Zong looked back at Lu Yang depressed, scratching his head and then turned his head to continue fighting monsters, but he fought for a while and turned his head back again, Stop look.

Lu Yang couldn’t help but smile, and asked, “You always look back at what I am doing. If you have anything to say directly.”

“I...” The arrogance scratched his head, but couldn’t help saying: “Boss, some people say you want to replace me with your relatives.”

“Nonsense.” Lu Yang scolded with a smile, “Who told you.”

Wanzong said: “The brothers in the group don’t know where I heard the news, saying that you are going to let your cousin Lu Ze replace me.”

Lu Ze was indeed sent by Lu Yang to the heroes of Wanzong, but he had just become the team leader. He didn’t have much record. He couldn’t do this, and he didn’t think so.

Suddenly, Lu Yang’s eyes widened vigilantly. He realized that this was the next wave of alienation activities carried out by the enemy. You know, Lu Ze was precisely used by the enemy the second day he arrived. Obviously, the enemy had spies inside him. .

Lu Yang looked at the pride of Wanzong and said, “Let your brothers find the source. I want to know who is spreading this news. It seems that after the enemy has separated Zhou Tianming and Baishi and other high-level leaders, they have begun to study how to separate you. These mid-levels.”

“Is this a divorce?” Wanzong Haoqing asked with a wink.

Lu Yang couldn’t help kicking the thigh of Wan Zong and said, “Are you stupid? You can’t tell. I will treat you as my own brother. What good things are not given to you first. Is it appropriate for you to ask me?”

“Uh...” Wanzong Pride was embarrassed.

Lu Yang went on to curse: “Did you kid commit a second-rate crime? It makes me angry that you deduct half of your salary for half a month, so I am angry.”

“Hehe.” On the contrary, Wan Zong was very happy, his boss was so angry last time, because his brother was caught weak, and the countermeasures almost harmed the entire Jagged Brotherhood.

Although he also felt that he was a bit doglegged to do so, but the boss was so angry, it means that this matter is totally unreal.

Besides, the deduction of wages was not taken by the boss himself, but became the guild fund, which was spent together at the end of the year.

“Boss, I’m worried, I’m going to fight monsters.” Wanzong Haoqing quickly turned his head and continued to fight monsters.

Lu Yang smiled and shook his head, and said, “You are here to fight monsters. I will have an impromptu meeting. You will come over when you need to speak.”

Lu Yang sent a video to Liu Yunpeng, Chen Qiang, King of the Underworld, Wan Zhonghui and other members of the Iron-Blooded Brotherhood who have a special army in the midst of being confused.

The light flickered, and the three-dimensional projections of more than a dozen people appeared beside Lu Yang at the same time. The moment they saw Lu Yang, everyone’s expression was a little unnatural.

Lu Yang understood, he was careless, thinking that the previous incident was the enemy’s strategy, but he didn’t expect the real strategy to be here.

“Why, it’s all on my mind.” Lu Yang asked with a smile.

Liu Yunpeng scratched his head honestly and said, “Boss, some people say that you are going to replace a few of us with your relatives to be the commander of the army. Whether this is true or not, I feel unbalanced.”

The stupidest thing about counting the Jagged Brotherhood is that Liu Yunpeng, an iron man who is loyal to Lu Yang, can’t hide words in his heart.

If it were other rumors, Liu Yunpeng wouldn’t care, but Lu Yang’s several promotions were all relatives of his subordinates, and the fact that they did have relatives of Lu Yang and Shen Mengyao’s clan under them made Liu Yunpeng and the others a little suspicious.

Even if Lu Yang didn't look for Liu Yunpeng, Liu Yunpeng was ready to ask Lu Yang in front of him. This time when everyone was there, he asked directly. He didn't even think about whether Lu Yang would be embarrassed or not. This was diehard. Fault.

The Underworld King, Wan Zhonghui and others were also eager to know all this, so they all looked at Lu Yang, their expressions revealing anxiety.

Lu Yang was not in a hurry, he couldn't help but hum, and said, "Have you not noticed that one of you is missing?"

Everyone looked at each other and found that there was indeed one missing. Liu Yunpeng asked, "The pride has never come."

Lu Yang said, "Like you said, let me be replaced by my relative, and I will let him go."

Everyone's expressions were stagnant, but before waiting for a second, Wanzong with pride jumped up from the place where he was fighting monsters, smiling in the form of a giant wolf, stretching out wolf paws to greet everyone and saying, "Well, I'm here. Well, the boss is joking. I have asked about it just now. The boss has never thought about it. It's the enemy's divorce."

"Fuck off, explain it to me with you, go to fight monsters" Lu Yang cursed.

"Huh." Wan Zong turned his head and ran away.

Lu Yang looked at Liu Yunpeng and the others again, and found that everyone was showing a simple smile. Liu Yunpeng said with a smile, "Boss, what is that, I blame you."

"Boss, we are wrong." Wan Zhonghui bowed quickly.

The underworld king and others also admitted their mistakes one by one, but Lu Yang said with a smile: "Acknowledge your mistakes and you're done. Faced with the enemy's divorce, your heads are amused, huh? I don't want to advance this matter. I found out, you are still holding back, waiting for the enemy to separate you."

Everyone was ashamed.

Lu Yang went on to say: "This kind of big matter that involves the survival of the guild, you see it as a private matter. I trust you, and only then gave you the responsibility of the most important legions of the Jagged Brotherhood. Now each of you is responsible. The commander of the big army, why, start to be selfish?"

"Every one of you write a review of this matter. The first is to review why you don't trust me as the boss, and the second is to review the impact of this matter on the guild. I don't understand. I really withdrew your position as the commander of the army. Now you are facing the competition. It is not my relatives, the White Lions and Zhuojiu, but your deputy. Don't forget, any one of your deputy can replace you with a little training. The promotion of the Jagged Brotherhood is strict. The hierarchical selection system cannot be brought up by relatives."

"As for the promotion of the prince regiment, are you stupid? The next group will be your relatives and children of the grand regimental commander's family who will enter, and then you will select outstanding ones from these people to become regiment chiefs. This was originally what I gave One of the benefits of the Jagged Brotherhood players has become a threat to your status."

The organization itself was created by Lu Yang in order to balance the internal contradictions of the Jagged Brotherhood. Unexpectedly, more things would be done.

## Chapter 1914 - Moonlight Annihilation Cannon

Liu Yunpeng, Wan Zhonghui, Liu Ruohuai and others all shrank their necks when they heard this, and they all showed grinning expressions.

"Boss, what about that, we dare not in the future." Liu Yunpeng said, scratching his head.

Lu Yang looked at the embarrassed people and snorted, and said, "This time, there will be a second time, and I will leave the group directly. You accompany the boss to fight through the country and try my best. No one, I will not treat you badly. In the future, you will not only be the commander of the

army, but also have the opportunity to be promoted to the vice-chairman, have an independent fortress, and control shares. Don't think that this is the end of your position. If you just hold on to this thing, you are not sorry for me, but for yourselves. You don't want to work hard, the boss, I insist on holding you up, and I can't hold it up."

So far, all those who are promoted to the vice president of the Jagged Brothers League have at least 8 fortresses as their money-making area, as many as the main vice presidents such as Zhuojiu and Xia Yuwei, each of which has more than 50 fortresses. More than eighty seats.

Liu Yunpeng, Wan Zhonghui and the others were a little bit ashamed. They didn't expect that the life plan Lu Yang made for them was so high, which made them completely relieved.

"Boss, we really know that we were wrong." Wan Zhonghui and the others said together.

Lu Yang snorted and saw that these boys really realized the mistake, and said, "What I told you today, you are not allowed to publicize a word. Since the enemy has made a move, I am going to take it. For a while, I was playing skill books with the arrogant wolf army. After that, I will take Liu Yunpeng and Wan Zhonghui to play skill books in sequence. All of you are ready. The final battle is coming."

Everyone's eyes became solemn, and no one thought that Lu Yang would want to fight the final decisive battle. This made them fully understand that Lu Yang had no idea of replacing them at all.

"Boss rest assured, we must be tight-lipped." Liu Ruohuai said.

Lu Yang nodded and turned off the intercom. Then he picked up the phone and called Tian Feng. It was a bit uncomfortable for Tian Feng not to find out about this in the first time, but he just called, Tian Feng said: "Boss, the relevant personnel have been found, I just wanted to find you."

"It's fine to find out, and strengthen your guard. Once this kind of thing goes wrong, it will have too much influence on the guild." Lu Yang said.

Tian Feng was a little ashamed, and said, "I will increase the intensity of the intelligence personnel. Don't worry, I promise that there won't be another one."

Lu Yang shut down the phone with a hum, looked at the proud Wanzong beside him and said, "If you have merit, tell me early, otherwise, it's really easy to get into trouble."

Lofty Wanzong smiled and said, "Is our relationship with the boss good?"

Lu Yang didn't bother to pay attention to him, and said, "Accelerate the attack speed, how come your 0.1 second attack speed has become so slow."

To be promoted to the lower god, everyone's attack speed was planned in 0.1 seconds. Wanzong Haoqing had been paying attention to Lu Yang's call, and he immediately accelerated when he heard the words. He brought his 5 subordinates crazy output, less than 10 minutes. In time, the bronze general Vance fell to the ground, exploding a \*\*\*\* core and 3 pieces of equipment that can only be worn by middle gods.

"It's a pity that no one of us can wear this equipment." Lu Yang threw the equipment to the side of the hall, and put the core in his backpack, and said: "Follow me to find the Moon Shadow Wolf Emperor. After you exchange one, you The speed of killing monsters can be increased a bit."

Everyone was a little surprised. As Lu Yang returned to the tombstone of the Moon Shadow Wolf Emperor, after Lu Yang summoned, he handed the Divine Core to the Wolf Emperor and said, "How about this quality?"

"Really it is the \*\*\*\* core of the middle god!?" The Moon Shadow Wolf Emperor's expression was excited, he took the \*\*\*\* core and swallowed it, then looked at Lu Yang and asked, "Who do you want me to teach?"

Lu Yang patted the passionate Wanzong around him, and said, "It's him."

"Okay, stand still." The Moon Shadow Wolf Sovereign groaned. Suddenly, the sky turned into a dark night, and a beam of moonlight shone on the heroic body.

The heroic Wanzong suddenly turned into the form of a giant wolf, and the hair of the whole body changed from gray to silver gray, as if it could reflect light.

System reminder: You become a moonshade wolf clan and learn the skill Moonlight Annihilation!

Lofty Wanzong looked at the skills, then raised his head and looked at Lu Yang in disbelief, then shared the skills with everyone, and said, "Boss, this skill, this skill is too strong."

"Moonlight Annihilation"

Occupation: Moon Wolf

Damage: base damage 100 points + physical damage \* 50% pure damage

Distance: 100 yards

Cost: 50 mana

Description: Moonshade Wolf's unique skill, which converts the whole body damage into pure damage by the power of the Moon God and gathers it in the mouth. After ejecting a ball of light, it will cause pure damage every 0.1 seconds to the hit target for 5 seconds. Cooling time is 8 seconds.

Calculated based on the existing 0.1 second attack, in 5 seconds is equivalent to 50 attacks. The damage has not only increased by a large amount, it is completely increased by dozens of times.

"It's a pity that the cooling time of this skill is too long, it would be better if it were shorter." Wang Qing said depressedly.

Lu Yang smiled and said, "You are not satisfied with this injury. You are greedy enough. Go back. We will get 5 cores this time and come back again."

Everyone nodded and hurriedly ran with Lu Yang to fight the Bronze General. While fighting monsters here, on the other side, Lu Yang also started a countermeasure.

In the previous few days, Lu Yang took Gosite to kill the Volvara armor bug. Now, 50,000 sets of armor bug suits have been broken out, and Xiaoxi led the players to complete the production. .

These 50,000 sets of Volvara armor and insect suits with super high defense and magic resistance were all handed over to Xiao Liang by Lu Yang to control, that is to say, Xiao Liang has re-raised the Prismatic Shield Armor Corps of the year.

Although the equipment was not sent to the players, Lu Yang had asked Xiao Liang to start training outside the Heavenly Sword Fortress when he could train, and at the same time, he was trying to take over the work in the hands of Zhuojiu.

For three years, for three consecutive years, Zhuojiu was stationed at the Tianjian Fortress. Steiger and Liu Jie who suppressed did not have the slightest ability to attack the fortress. This not only shows that Zhuojiu has super strength, but also can see that it is muddy. The players under Jiu are all first-class masters.

In order to realize Lu Yang's vision of occupying the entire new continent, Lu Yang began to implement the plan he had set up from a very early time, letting Zhuojiu leave the Tianjian fortress with the main force and go to the front line garrison against Chekova.

The White Lions focused all their energy on dealing with Roland. Zhou Tianming specifically dealt with Sanyou Weimen. The team of Lu Yang, commander-in-chief, Xia Yuwei, and the lovely queen were used as backups to support the frontline battlefield at any time.

## Chapter 1915 - Underworld

The Jagged Brothers had just changed, and Steiger and Liu Jie on the opposite side opened their eyes in surprise at the same time.

Inside a special space.

Liu Jie looked excitedly at the Sanyou Eemon, Chekova and others who had been summoned by him. He suppressed the excitement and said: "According to reliable sources, Lu Yang has the intention of

replacing the dirty wine with Xiao Liang. After reporting to Zhuojiu's staff, I became familiar with everything about the Heavenly Sword Fortress."

Chekova, Sanyou Weimen, and Roland showed unbelievable expressions at the same time. Roland said: "How could it be that Lu Yang is stupid? With the two great gods of you and Steiger pressed, he dared to put the dirty wine down. Transfer from the Heavenly Sword Fortress?"

They all know who Xiao Liang is. As the first person to be with him since Lu Yang, Xiao Liang has always been one of the focus of discussions among players from all over the world. Many people think he is lucky. A good boss is right.

Liu Jie said, "Maybe you don't know. In recent years, Xiao Liang has made rapid progress. I also have a very deep spy hidden in the Jagged Brotherhood. Inside the Jagged Brotherhood, Xiao Liang has always been there. In recent years, many people think that Xiao Liang is a trumpet slurp, perhaps Xiao Liang is not capable of directing large-scale operations, but they think that it is entirely possible for Xiao Liang to garrison a fortress."

Steiger said with a serious expression: "This fortress has been managed with turbid liquor for more than three years. The defense facilities of the fortress are complete, and the players responsible for defense are stable and confident. As long as they continue to follow the turbid liquor plan, they will still not be breached."

Liu Jie nodded and said, "Exactly."

Santoemon looked at Liu Jie and asked, "You mean you want us to support you so that you have enough elite troops to fight down the Heavenly Sword Fortress with all your strength?"

Liu Jie nodded and said, "We are preparing for the war in January, and Lu Yang is also preparing. According to the current situation, Lu Yang will not give us the opportunity to delay until January. It is now the end of November. Lu Yang bombed Mitoemon a few more times, and Mitoemon had to disband the standing players and let them find jobs. If they were able to bomb Roland or Chekova again, the two of you might also do their best to disband your subordinates. get ready."

Under such circumstances, I think Lu Yang will take the lead in launching an offensive against us in December, before and after the Global Tournament. This is also the reason why the dirty wine was

transferred to your side. I mean, in exchange for space. Time, as long as Lu Yang was entangled when attacking you, I violently attacked the Heavenly Sword Fortress and cut the Iron-Blood Brotherhood into two pieces after the attack. Then Lu Yang would have to come back to rescue you. It was liberated. “

Chekova and Sanyou Eemon and the others looked at each other with solemn expressions on their faces. The most unlucky one was Chekova. She never expected that Lu Yang's air combat power could develop so quickly. Strong, if Lu Yang sneaks on her boundary, she doesn't think she can defend it.

If he had formed an alliance with Lu Yang, there would have been no such troubles, but similarly, if he had formed an alliance with Lu Yang, after all enemies were eliminated, his guild could only be incorporated into the Jagged Brotherhood. The affiliated guild, otherwise, what awaits her is the end that is eliminated.

“This matter will be decided later. If Xiao Liang decides to take over, we will do it in your own way. If he can't take over, we have to think about countermeasures.” Sanyou Weimen said.

Chekova nodded together with Roland and Steiger, each withdrew from the special space and continued to develop.

The other side.

In the dungeon, Lu Yang was still killing the peak mid-level \*\*\*\* with his pride. After a week, more than 10,000 of his staff had learned the Moonlight Annihilation skill.

There are still 290,000 blood wolves who have not learned Moonlight Annihilation, but Lu Yang doesn't need to worry about it anymore. From the second day to now, the Moonshadow wolves who Hao Qing Wanzong's subordinates learned Moonlight Annihilation ran to kill the next god. This was the result of more than 10,000 Moon Wolf in a week.

“The matter of fighting the \*\*\*\* core will be left to you. I have to go to the next house.” Lu Yang said.

“Boss has worked hard.” Wang Qing said seriously.

Lu Yang smiled, patted him on the shoulder, and said, "Go."

A ray of light flickered, bringing Lu Yang back to the Tianyu God City. At this stage, there were hundreds of thousands of lucky treasure chests accumulated under Lu Yang.

At the beginning, Lu Yang used the ability of the treasure chest to get the player's traitor status, so that the player and the monster became one camp, and then used Lu Yuming's space-time elf mage to use the link skills to teleport to the heavenly \*\*\*\* city with the lord monster. , Let the city lord kill them to obtain equipment.

Now, this opportunity has come again. The time and space wizard mage who has been transferred to the next \*\*\*\* still retains the time and space teleport skills.

In the guild hall, Lu Yuming asked triumphantly with his arms around the treasure chest: "Boss, who will be caught this time."

Lu Yang said: "One of the eight main gods under the seat of death, the main \*\*\*\* Bran who is in charge of hatred, you can't bring him, but we can kill the upper gods under him and get some death gold coins. At the beginning, Lu Yang promised to find the \*\*\*\* of death to help him resurrect his wife. Some of the \*\*\*\* of death gold coins were obtained from the quest in the new world, but this method was too slow. Any gold coin task of the \*\*\*\* of death would take more than a week. In order to obtain it, to redeem Gust's wife, at least 100 gold coins are required, and it takes 200 weeks to complete the task.

Even with the help of the subordinates, it will take at least two months. That is too slow. Now there is an easiest way to kill the main \*\*\*\* under the seat of the gods. They all have death gold coins on them. .

Lu Yang said, "You will wait for me here first, and you will send it back after I build the guard tower."

"No problem," Lu Yuming said.

Lu Yang smiled and flew to the Pluto fortress in the Orma area with the teleportation rod. He summoned the flying dragon and flew towards the northeast of the Pluto fortress.

After passing through a lush mountain range, I came to the back of a big mountain. Suddenly, the color of the ground suddenly changed to dark black. A large number of demons and undead wandered unconsciously. Some of them existed in the form of skeletons. They are huge, they look terrifying.

System prompt: You have discovered the underworld!

Underworld, that is, the area of the \*\*\*\* of death, this is the management area of the three-eyed Hades Bran. In the civilization of the new continent, the \*\*\*\* of death is the opposite of the nine pillars.

Most of the dead creatures have to enter the underworld reincarnation. According to the truth, the \*\*\*\* of death is stronger than any of the nine pillar gods. However, in the last war of the alien gods, the \*\*\*\* of death was hit hard. The land of spirit absorbs the soul and restores the body.

The Land of the Four Spirits is the place where all living things will eventually go, and the underworld is one of the entrances to the Land of the Four Spirits, so the guardian here is a main god.

Chapter 1916 - Root of all evil

As soon as Lu Yang controlled the flying dragon into the underworld, the flying dragon whined and quickly landed on the ground, his head crawling on the ground, showing respect for the \*\*\*\* of death.

“wing”

A pair of wings suddenly appeared on Lu Yang’s back. This was the only way to fly into the underworld. Even if the archangel and the black iron war eagle came, they could not fly there even in the face of the pressure of death and the unique barrier of the underworld. An altitude of more than 10 meters.

Only wings made by otherworldly gods could allow Lu Yang to fly up to 100 meters high, but the duration was limited, and he could only fly for 10 minutes at a time, after which he had to rest for half an hour.

Lu Yang slammed his feet on the ground, spreading his wings with the power of jumping, and flew him into the enchantment of the underworld. Without having to face these lower gods, he quickly flew to the northeast corner of the underworld. When passing a yellow river, he did not dare to cross the river, but walked up along the river. When passing a 50-meter-high yellow waterfall, he came to the edge of the waterfall.

System prompt: You have discovered the Styx Falls!

The river water full of death breath, as long as it is contaminated with a drop, it will fall into endless fear. If the player touches it, it will fall into a state of vertigo, and then submerge into the river water until death.

Even if he had wings, Lu Yang couldn't fly over the Styx Falls. If he was caught in the fog, he would be dizzy and fall into the Styx. Therefore, Lu Yang didn't fly over just now.

All creatures in the underworld, even dead demons, do not dare to approach the Styx. Including the upper gods, everyone lives far away from the Styx. However, a group of creatures are hiding behind the Styx waterfall. Creatures are alien gods.

Like the ancient demons in the lava sea, there are otherworldly gods in the underworld. According to official records, these otherworldly gods belong to a branch of the otherworldly death gods. They are naturally close to the breath of the underworld. Therefore, they will attack the underworld. .

After the failure, while the otherworldly \*\*\*\* fled, he passed by here and saw this waterfall. He cut a cave behind the waterfall, and then set up an enchantment. From the outside, there is no entrance.

When the Grim Reaper in the New World chased here, they found that the enemy was missing. After reporting to the Lord God, the Lord God ordered them to search the area around the Styx River, but if they dare to touch the Styx River, they went back and reported it after a simple search. Died in the Styx, this group of alien gods escaped a catastrophe because of this.

Lu Yang cautiously came to the side of the waterfall. There was a narrow path that climbed up to the waterfall area. If you didn't look carefully, you would never find this path.

Lu Yang almost came to the back of the waterfall next to the water of the Styx. Looking at the wall in front of him, he strode forward.

System reminder: You found the Kimis Refuge!

The light flickered, and Lu Yang looked around and found that this was a special space made entirely of blue metal, which had a sense of technology, as if he were inside a spaceship.

"Who?" A human form, with a face like a demon, a hairless man with a tail behind him suddenly appeared in front of Lu Yang, and the skull dagger in his hand touched Lu Yang's neck with a black light.

Undead Operator Didos (Middle God)

Level: 190

Qi and blood: 500000/500000

Lu Yang looked at Didos with a smile, and said, "We are not enemies, I am human."

"I know you are a human, otherwise you would have died just now." Didos tasted his tongue deep, licked his lips, and asked: "How did you find this place?"

"Tanlu, came in by accident," Lu Yang said.

"Are you not a subordinate of the Nine Pillars God?" Didos asked.

Lu Yang smiled and said: "The God of Nine Pillars sent the Gods of the New World to invade my homeland. After we humans defeated them, we took the initiative to lead the army into the New World

and counterattack the God of Nine Pillars. We and them could not be friends at all. I think we It's a friend, right."

He took out a badge from his backpack, which was obtained from the ancient \*\*\*\* in the lava sea. Didos was relieved when he saw the badge and said: "You really are our friend, what do you have? thing."

Lu Yang said: "I need to build a sentry tower here, let my brother use special skills to shuttle back and forth here to kill the middle and upper gods of the underworld."

Didos' eyes shone brightly and said: "Yes, I will let out of this area, I hope you won't let me down."

System reminder: Didos is open to you!

Your reputation in Kimis Refuge is 0!

Lu Yang smiled at the invisible Didos, summoned the robot to build, and began to build the sentry tower. This place is like a sea of lava. There is no way to build a sentry tower for transmission in a place of great power. The only way is to find A refuge for alien gods, so that it can be teleported.

A few minutes later, when the sentry tower was completed, Lu Yang sent a message to Lu Yuming and said, "Come on, let's 10 people first.

"Yes." Lu Yuming flew over with 10 regiment leaders. As soon as he landed, several people looked at the surrounding environment, and they were a little confused.

After a brief introduction, Lu Yang said, "Go out with me. I will tell you how to take this road. Remember, don't be touched by Styx. You will die once you touch it."

Lu Yuming, Huo Zong and the others nodded, and followed Lu Yang cautiously out of the waterfall to the land of the underworld outside.

Walking along the Styx line, shortly after crossing a wooden bridge, I saw a large number of 10-meter-high skeletons walking on the ground.

The skeletons of these skeletons are extremely large, the color of the bones is not white, but a dark golden color, and each skeleton holds a bronze long stick in the hand.

The Source of All Evil·Golden Devil (Middle God)

Level: 190

Qi and blood: 200000/200000

“What kind of skeletons are these? The name is so powerful.” Huo Zong asked.

Lu Yang smiled and said: “This thing is a race that sits on an equal footing with the Nine Pillars God in the early days of the New World. They are good at fighting enemies with their bodies. It is extremely difficult for the Nine Pillars God to kill them. As long as there is a little chance, they can be resurrected.

In order to get rid of them, the nine pillars had to turn to the \*\*\*\* of death. With the help of the \*\*\*\* of death, no one died in battle, the \*\*\*\* of death transformed them into a skeleton state, and under the curse of the \*\*\*\* of death, they could no longer reincarnate. They were resurrected, and then the \*\*\*\* of death made them a full-time guard, but once a golden devil turned into a normal state for unknown reasons, the \*\*\*\* of death was almost attacked, and then the \*\*\*\* of death exiled the group of golden devils to the land of the underworld. “

“Your task this time is to lead the source of all evils to the front of the city lord of Heavenly Region God City. I will give you the coordinates, and you are responsible for the transmission.”

“Yes.” Lu Yuming and Huo Zong knew their mission completely.

Chapter 1917 - Italian businessman

Lu Yang used the teleportation scroll to fly back to the Tianyu God City, and quickly ran into the City Lord's Mansion wearing a cloak. In the side hall of the City Lord's Mansion, he saw Lord City Lord who was dealing with affairs.

It has been 2 years since Tianyu God City appeared. So far, the city lord has been completely useless. He can't receive any tasks from him, so no one is here anymore.

Make sure there is no one left and right, dial the group video call to Lu Yuming, Huo Zong and others. He pointed to a small door in the side hall and said, "Just send it here. There are doors and monsters blocking you. "

Lu Yuming nodded and used the treasure chest to turn him into a player in the monster camp. Seeing that the red name on the top of Vanke's source had disappeared, he smiled and walked quickly to the source of all evil.

"Time and Space Link"

"Transfer"

A cyan light flashed, and the Source of All Evil hadn't figured out what was going on, and the next second it was teleported to the City Lord's Mansion.

The city lord himself is the 200-level lord god, and he slashed the Source of All Evil with seven or eight swords and killed him on the ground, but this time was different.

There was an official limit before. Lu Yang's reaction speed was 0.1 second. After the limit was removed, Lu Yang's reaction speed reached about 0.04 seconds. Therefore, before the city lord attacked the source of all evil, he used Shenyantian The explosion hit the source of all evil, so now he can directly pick up the things exploded from the source of all evil.

Lu Yang walked to the corpse of the Source of All Evil and looked at the things falling on the ground.

"Summon the Source of All Evil"

Occupation: Warlock

Distance: 50 meters

Cost: 100 god's mana

Description: Use the body of the dead to summon the source of all evils to come, and the resurrected source of all evils is in the lower \*\*\*\* state, with low strength, but two can be called at a time.

If you only look at the introduction of the skill book, you will feel that summoning the source of all evils is very useless, but in fact the summoned source of all evils is quite powerful. Even the lower gods of the same level can't beat them even if they wear the earth spirit \*\*\*\* suit. But one, besides, the warlock can summon the source of all evil infinitely as long as there is a dead body around him. This skill has no cooling time, only the limit of the number of summons.

Lu Yang looked at other objects again.

A pure black undead gem fell on the ground. After Lu Yang picked it up, a smile appeared on his face. This thing had no other use. The most useful thing was to upgrade the heart of death and promote the heart of death to the next god.

Lu Yang put away the gems, and the rest of the items were very ordinary, not of much use. He said to Huo Zong, "The second teleport."

"Okay." Huo Zong flew over with the second source of evil.

Lu Yang just waited aside, and followed the city lord to kill the Source of All Evil one by one. After killing all day, when he waited for the last one, Lu Yuming brought something exactly the same as the Source of All Evil and flew over. But when Lu Yang saw this strange appearance, a speechless expression appeared on his face.

"Brother, what you found is really accurate. Bring the rare boss here." Lu Yang said with a smile.

“Huh, rare boss?” Lu Yuming blinked.

Lu Yang said, “Let’s see, this source of all evil has turned into pure gold? He is the elder of the Golden Devil clan. If you are lucky, you should be able to explode something good.”

As soon as the voice fell, the city lord cut off the head of the Source of All Evil with a sword. Lu Yang looked at the explosion on the ground. A coffin-like thing made Lu Yang look surprised.

Celestial coffin

Level: Lower God

Description: The gods’ hearses that automatically follow the walking, the purpose is to transport the gods to the land of the four spirits, can store the dead body, each hearse 999.

Lu Yang smiled and said, “What is missing? I need this coffin. It broke out. I will rest tonight and continue tomorrow morning.”

Lu Yuming, Huo Zong and the others nodded their heads. After the next day, Lu Yang led Lu Yuming and the others to catch the source of all evil for a week.

Lu Yang actually upgraded from level 186 to 187. The reason was that the source of all evil who killed the middle \*\*\*\* had killed too many, which made Lu Yang laugh. After all, he was the first to attack, and the middle \*\*\*\* The strength is too strong, and the lower \*\*\*\* has never fought before, so the experience given is extremely high.

“This is a good way to upgrade. It’s a pity that this magic box for switching camps is too hard to find.” Lu Yang shook his head. Just to gather these magic boxes, Lu Yang spent tens of millions of dollars. Because this was collected from all over the world, it was collected for more than a year, and in the end it was only enough for one week.

However, this week was enough. Lu Yang now has more than 10,000 copies of the "Summon the Source of Evil" skill book. He gave them all to Chen Qiang and asked him to form a Sorcerer Group of the Source of Evil.

Furthermore, the source of all evils exploded to Lu Yang more than 10,000 sets of the lower god's 9th-order underworld suits, which matched the warlocks, and Lu Yang also gave them to Chen Qiang.

"Boss, rest assured, I must choose the best warlock player to replace this set of equipment and skill books." Chen Qiang couldn't help but said excitedly. This is the first time he has a special army under his hands. Ordinary players.

Lu Yangken handing over such an important thing to him is equivalent to starting to train ordinary players under him. The players in this big army under him are getting more and more attention.

Lu Yang said, "I only give you six weeks to prepare. You must not only choose good people, but also get enough bodies of the dead."

The gods' coffins had hit more than 2,000 in total, and Lu Yang also handed them to Chen Qiang.

"Yes." Chen Qiang knew that the war was about to start as soon as it started.

Lu Yang let Chen Qiang leave. He looked at Tu Feng next to him and asked, "Is there a way to buy enough Death's Heart."

Tu Feng said: "In this period of time, only 62 of them were collected, and the rest of the Death's Heart was kept by no one."

So far, the Jagged Brothers has used the poisonous heart to fight monsters after the upgrade, and it has not been discovered. However, the objects such as the death heart itself have a high collection value. Even in a few years, this It is unlikely that things will depreciate.

After a previous devaluation, a heart of death can also be sold for 10 million cash, which is more than 2 million US dollars.

If you can gather more than 100 Death Hearts, you can form a first-level Pluto formation. The Pluto formation is actually a very useless formation. It only increases the skills of warlocks and necromancers.

.

But now Lu Yang has the Summoning Source of All Evil in his hands, even if the increase is small, it is still quite large.

“I think about it, I feel, I know who has the habit of collecting these things.” Lu Yang said with a smile.

There are many collectors in this world. Although there are few collectors of game items, there are some people who are loyal fans of the game, so they are willing to pay a lot of money for them.

Among the many loyal fans of the game, there is an Italian rich man. In his previous life, he was the most successful guild boss in Italy, but now he should still be a businessman in the game.

Lu Yang felt that he could meet this person to lay a foundation for future cooperation. Thinking of this, Lu Yang headed towards the Italian region of Tianyu Shencheng.

## Chapter 1918 - Glass thoughts

The Tianyu God City is very large, and it can accommodate 4 billion players living together here, which shows how huge this main city is.

Because it is too huge, gradually, players from various countries have their favorite gathering areas, and these areas have become fixed locations in each country.

The gathering area where Italy is located is in the southern part of Tianyu God City, a place close to the river. It is very similar to the place where they usually live. The surrounding houses are all red and it feels like being in their own country.

In this area, there is one of the most famous chain stores called Swords and Roses, which is the largest sales location of level 100 to level 180 weapons and equipment in the entire Italian region.

In several large-scale battles, Sword and Rose participated behind the scenes. Although the guild they supported failed time and time again, Sword and Rose themselves made a lot of money.

At this time, in the office of the Sword and Rose Chain Chamber of Commerce, an old man was drinking the red wine in the game leisurely.

“Wow, every time I drink this kind of wine, it makes me feel like I can’t believe this is a game. I seem to be in a new world, with a new body, brewing from this world. Good wine,” said the old man.

Sitting across from him was a young man with chestnut hair, who shrugged his shoulders and said: “Maybe this is really another world. Only God knows how this game can cost half a million euros. The taste of the wine in the bottle is exactly the same.”

The old man took a sip again and looked at the sky with enjoyment. The chestnut-haired young man didn’t care much about the wine. He put down the wine glass and said, “After all, this is a virtual thing, the chairman, I think we should discuss the future of the guild. The war is about to begin. I don’t think the Legion of Order will be able to resist the attacks of Roland, Mitoemon and others.”

The old man was still enjoying the wine. After drinking it, he took a breath of fresh air and said, “My child, do you know? Don’t look at the surface of anything. You have to look at his inner and this Whether the event is successful or not, is it beneficial to us.”

“President Glass, do you think Lu Yang can win?” The young man couldn’t believe it, and said, “That’s the five guilds of the Jagged Brothers.”

Glass stood up and smiled and said, "Pace, you can also change your mindset. For example, Lu Yang teamed up with players from more than a dozen countries such as Ayala, Li Wenxing, and Pado to attack Roland. Players from three countries."

Pais shrugged his shoulders and said, "I have seen the statistics. Except for the Jagged Brotherhood, Ayala and their development have not changed much. They still enjoy the dividends Lu Yang gave them. If a battle occurs, The combat power of their players is not very sufficient."

Glass said: "Perhaps one or two of them can't do it, but quantitative changes will cause qualitative changes. With enough lower gods and enough special arms, Lu Yang's strength will surpass the enemy in some areas. If Lu Yang takes the initiative to attack, it will still Take more initiative."

Pais smiled and asked, "Your Excellency, do you have new news?"

Glass smiled and greeted him slightly, and said: "Everyone will have some friends, and they can always inquire about some secret and unknown news. This is no secret. Soon the Jagged Brotherhood will be made public, as soon as one month. You will be able to see it in the next battle."

Pais was surprised, and said, "Lu Yang will take the initiative to attack their five guilds in a month?"

Glass nodded and said: "That's the case, so we have to make preparations. I am not optimistic about Roland in this war. The soft guy is likely to lose the entire Italy. We have to figure out what to do in the future. ."

Pais smiled and said, "Your Excellency, you have been preparing for so long. I think we should act."

Glass shook his head and said, "It's not that easy. It involves a lot of questions. For example, will Lu Yang allow me and how we will get along with Lu Yang in the future must be studied and understood. Moreover, we We must find a way to win the hearts of Italian players and make them recognize us."

Pais asked, "What do your friends think?"

Glass said with a smile: "They said, if Roland fails, they are willing to support me."

Pais smiled helplessly and said, "God, who would have thought that Roland, who was fighting for the Italian players, would have been abandoned by the Italian players."

Glass smiled triumphantly. At this moment, his subordinates ran up and said, "Your Excellency, Lu Yang is here. He called to see you by name."

Glass was taken aback. He was thinking when he should find Lu Yang. He stood up and walked quickly to the meeting room. As soon as he opened the door, he saw a sculpture in the living room leisurely looking at him. He was the one on the Arc de Triomphe. It's just like a statue like a devil.

"It turned out to be President Lu Yang, how would you know me?" Glass said with a smile, he had already guessed Lu Yang's purpose.

Lu Yang looked back at President Glass and said, "Who doesn't know the famous President Sword and Rose."

Glass knowingly smiled, and asked unhurriedly, "You like this statue too?"

Lu Yang smiled and said, "Of course, President Glass should have carved it himself."

Glass was taken aback and asked: "How do you know."

Lu Yang smiled and said, "The second world in the world of death, the demon guarding the world-Panbas, I am very familiar with it."

Glass smiled and said, "Chairman Lu Yang, you really have a broad knowledge."

Lu Yang looked at Glass and said, "I heard that you have a lot of Death's Heart in your hands. Are interested in selling it to me."

Glass was taken aback, and asked, "Sell it to you? I like this thing very much. I'm not bad for money."

Lu Yang smiled and shook his head, and said, "I know you don't need money, but I want to cooperate with you. Are you interested in taking over Italy after Roland's failure?"

Glass smiled and looked at Lu Yang and said, "Chairman Lu Yang, I am not interested in this."

Lu Yang said, "We don't need to be probing, and we don't need to be detours. I know that several forces are secretly emerging in Italy, so I sent a spy to investigate. Although I can't find out who is behind the scenes, I have found out. If you don't mind their position, I will kill these forces first, although their equipment is of no use to me."

Glass's smile solidified, and he said awkwardly, "Chairman Lu Yang, this can be discussed."

These forces took more than a year of Grasse's time. He didn't want to lose it like this. Now it's no better than before. When there is no lower god, you can just pull up a team and you can fight. , If you want to occupy a country, you must have a sufficient number of lower \*\*\*\* players.

## Chapter 1919 - Son of Ancestral Dragon

Lu Yang knew that Glass was afraid of this, and said with a smile: "Sell me the heart of death in your hand. I allow you to buy it back at the market price in the future, and I support you to take control of the Italian region after the fall of Roland. ."

Glass smiled helplessly and said, "Well, President Lu Yang, since you have said so clearly, let's talk about the terms. What will be the benefits after I take over?"

Lu Yang said: "I believe that with your status in reality, you should have already heard that the war on the new continent is about to end. When we are all at level 200, everyone will return to the old

continent, and new expansions will be available for us. In the old continent, we still fight in the form of nations.”

The battle in the national mode is the ultimate battle template finalized by the official. Previously, the official thought of conducting a ten thousand offensive and defensive battle to add a new aspect to the audience. However, as the strongest guilds on the new continent were successively To eliminate, the government had to temporarily shelve this idea.

But players are still looking forward to exiting this battle mode. After all, the major guilds in the game can't fight every day, even once a week, they can't do it.

The best way is to return to the old continent, or fight in the form of a country. A guild represents a country and fights with another country in a special field.

Originally, this method was not easy to achieve. It is almost unrealistic for a guild to form a standing arena of 10,000 players. Take the Jagged Brothers as an example. Although the Jagged Brothers has more than 500,000 in the war studio, they Either life occupation or the management occupation of the guild, let them participate in the war, their strength is very likely not enough.

To conduct such a battle, there must be a corps dedicated to this kind of battle. It just so happened that after the military of various countries provided funds, Lu Yang adopted the farming mode, so that every guild had a fixed farming player, and he could also raise a profession. Players.

Therefore, under such circumstances, the government is very much looking forward to the players' rapid start of such a battle, but now there is the last question left. If the war in the New World is not over, countries will not be able to develop their own farming forces.

Glass knows this very well. This is also the reason why he intends to replace Roland after seeing that Roland is about to lose. What he is interested in is not the area occupied by Roland, but after returning to the Old World, Roland can Immediately take over the entire Italy.

Glass said: “I hope we can become friends. I like to do things with friends. I can help you, and in the same way, you can help me.”

“For example?” Lu Yang asked.

Glass raised his head slightly, opened his eyes slightly to look at Lu Yang, and said, “For example, you help me occupy the whole of Italy, and you are not allowed to attack me within a year.”

Lu Yang smiled and stretched out his hand and said, “In the future, when you return to the old continent, Italy is yours. Within a year, we are all friends.”

“Happy cooperation, I have 40 hearts of death here, you can give me 80 million US dollars.” Glass said.

This price is already a discount, but compared to the money he can earn in the future, it is completely insignificant. A country in the Old World has 36 main cities, more than 100 fixed fortresses and thousands of non-fixed fortresses.

With just these fortresses, Glass can earn hundreds of millions of euros in one month. Selling Lu Yang for a favor now will be worth the money in the next year, even if he quit the game, because he definitely earned more than 20 One hundred million euros.

Lu Yang smiled and shook Glass’s hand, and said, “In this war, you have to help me with one thing. You have to hold Roland’s back legs in logistics, raise the price, and let him lose. Earlier.”

“This is not something I can do alone. You need to go to several other countries and discuss with their businessmen.” Glass said.

“Of course, I will persuade them one by one, believe me, there will be many people joining us.” Lu Yang said.

Glass believes that he wants to overthrow Roland. Does anyone in Japan want to overthrow Mitoemon? Does anyone in Russia want to overthrow Chekova and Radvedev?

There are so many wealthy people, and there are more than a few of them. There are too many rich people who want to enter the “Second World” blog. This thing is faster than any other sports, and it can also make their business expand rapidly. Into a monster.

“Your Excellency, the Heart of Death is here.” Pais took a storage bag into the door and handed it to Lu Yang.

After reading it briefly, Lu Yang signed a friendly contract with Glass and left. Then, he quit the game and rested.

By the next morning, he upgraded all the more than 100 death hearts on his body, and then he flew to the winter fortress at the northeast corner of the New World map with these death hearts. This is the fortress in the Indian region, in the Frost Fortress. Above.

Previously, it was the fortress that Padu led the players to find. Outside the Bitter Winter fortress, is the area managed by the Chill-hearted Lord God under the Throne of Ice Elemental God, one of the famous nine pillar gods.

In the face of the snowstorm, Lu Yang summoned Chen Qiang and his men to temporarily form a team of more than 100 Necromancer players.

These more than 100 people are all members of the war studio, as well as old employees. Lu Yang is most assured of them.

“Boss!” Chen Qiang said respectfully.

Lu Yang said, “Take my brothers and follow me. This time I have prepared something good for you.”

After the Heart of Death is upgraded, the biggest feature is that it can enter the special creatures in the Death Realm to summon. However, in the period of the lower gods, the best Necro summon creatures are not in the Death Realm, but in this frosty land.

Lu Yang led Chen Qiang and more than 100 people into the wind and snow. Less than five kilometers away from the fortress, the whole world could be seen clearly, and there was howling wind and snow everywhere.

System prompt: you have entered the frost barrier

Fortunately, Lu Yang was prepared. He prepared a rope. He headed in front, and the others followed him holding the rope.

“Summon Wings”

Lu Yang controlled his wings to fly to an altitude of 200 meters. From here, he could see what the road around him was like. After determining the location, he returned to the ground and continued to lead the crowd forward.

Every 5 minutes, Lu Yang flew into the sky to determine if he had gone astray, and walked in the wind and snow for more than an hour. Finally, the wind and snow suddenly disappeared, and a piece of pure white ice appeared in front of everyone. The lake.

Below the surface of the lake, you can see an extremely huge corpse of white bones, the extent of this bone is beyond everyone’s imagination, as if the entire lake was used to freeze him.

“This is the edge of the wings.”

“This is the root of the wing.”

“The bones here should be the body.”

...

A group of players curiously checked the size of the bone on the lake. After looking around, Chen Qiang looked at Lu Yang in shock and said, “Boss, how come this corpse is as big as the whole lake.”

Everyone looked around. The lake was almost as large as tens of thousands of square meters. When they looked at the bottom of the lake, they all showed incredulous expressions.

“Boss, who is the white bone below?” Chen Qiang asked.

Lu Yang smiled and said, “The son of Ancestral Dragon——Garadamon.”

He brought everyone here this time, just to use 100 Death Hearts to summon Garadmund and activate Garadmund’s unique power of Hades.

“One person stands around the lake with a Heart of Death, and listens to my order to start the summoning ceremony in the Heart of Death together.” Lu Yang said.

“Can we control him when summoned?” Chen Qiang asked.

“Of course.” Lu Yang said with a smile.

“I’m going now.” Chen Qiang ran away excitedly holding Death.

## Chapter 1920 - Dark Dragon

The son of Ancestral Dragon, the son of this Ancestral Dragon, is not his own son, but the previous generation of Dragon God, the Dark Dragon God, who left the dragon egg before the world is shattered.

The new world was formed. The dragon king of this generation walked out of the world of refuge and found this dragon egg under the bones of the previous generation of dark dragon gods. After hatching, the ancestor dragon took the dark dragon Garadmund as his own child to raise.

The dark dragon Garadmund was born with the memory of his parents, and he did not need the ancestral dragon to teach him, and he could grow quickly by relying on his memory, and he became an existence under the ancestral dragon and above the Wanlong in a very short time.

The Ancestral Dragon therefore ordered the dark dragon Garadmund to command the entire black dragon clan, and when the Ancestral Dragon expedition to the new world, Garadmund led the main black dragon clan to follow.

The Black Dragon clan has a powerful ability to dedicate its power to the people he wants to give before dying.

During the battle with one of the nine pillar gods, the main \*\*\*\* of ice, the black dragon clan was completely inferior to the opponent. A large number of black dragons died in the battle, but with the death of the black dragon, each black dragon gave his power to Garadmund before he died. .

Therefore, when Garadmund was left with himself, his strength was comparable to that of the main god, but he was still vulnerable to the nine pillar god, and was sealed on a high mountain by the ice.

Later, the \*\*\*\* of death discovered Galademon, transformed it into a necromancer, and renamed it as Pluto, because Galademon had the ability to absorb the life of the black dragon. After the death \*\*\*\* transformed it, he had the ability to absorb the underworld. The strength of Qi.

During the strongest period of Pluto, he was able to bathe in the Styx. The flooding Styx water not only caused no harm to him, but also restored his body.

After the death of Pluto, there is no memory, but as Pluto's strength gets stronger and stronger, the powerful talent of the dark dragon reunites, and the soul of Galademon returns to the body of the pluto.

At this time, Mingya, that is, Garadmund, had already been promoted to the pinnacle god, only one step away from the \*\*\*\* king.

Seeing that he had turned into a boneless body, Garadmund fell into a rage, and gave Death sitting on his back a full blow.

The \*\*\*\* of death had never thought that the creatures in the old world had such abilities, and he had no defense against the fangs, and as a result, under a full blow, the \*\*\*\* core was almost crushed by Garadmund.

Just because the death \*\*\*\* was hit hard, the soul surging from the core of the \*\*\*\* made the most powerful golden devil regain the sanity. You must know that the golden devil was on the same level as the nine pillar \*\*\*\* before, and the death \*\*\*\* was injured more severely under the heavy blow.

Faced with the simultaneous rebellion of the two major minions, the \*\*\*\* of death exploded with power that surpassed the nine pillar gods and killed the golden devil, but Garadmund took the opportunity to escape.

Galadmon's revenge almost destroyed the foundation of the ice god, one of the nine pillar gods. After several failed captures, the ice \*\*\*\* set a trap to induce Galadmon to come to this lake.

In this battle, the four \*\*\*\* kings of the nine pillars came to the battle, which defeated Garadmund. However, facing the bones of Garadmund that could not be destroyed by the Styx, the four \*\*\*\* kings were also helpless. Choosing to seal with the Four Spirits trapped Garadmund under the lake.

Normally, if you want to resurrect Garadmund, you must have the Crown of Death, or the Scepter of the Ice God, but these two things are too difficult to obtain. The only simplest thing is more than a hundred death hearts. Borrow the power of death to bring Garadmund back to life.

Lu Yang saw that Chen Qiang and they all stood in position, and said, "This time the chant is a test of everyone's endurance. You need to keep chanting the mantra for more than an hour, and the summoning does not succeed every time. It fails in an hour. If you do, you need to do it again. The odds are very low. It depends on your luck."

Chen Qiang and others were already mentally prepared and nodded to Lu Yang.

"Go ahead." Lu Yang said.

A hundred people chanted the spell at the same time.

“The great \*\*\*\* of death, your humblest servant is here to pray to you...”

...

A person’s voice is very weak. When the voices of all of them are combined, a kind of ode to the soul and ears suddenly resounds through the entire ice lake like a burst.

“Om”

“Om”

“Om”

As the ode to the gods continued, the huge power of death turned into black inscriptions and poured into the frozen lake, into the body of the extremely huge Garadmund.

“Crack”

Suddenly numerous huge cracks appeared on the surface of the ice lake. As the clicking sound continued, finally, the entire lake began to vibrate violently, and a large number of ice blocks collapsed from the lake.

10 minutes

20 minutes

...

He chanted for six hours. After five failures, finally, on the sixth time, the entire ice lake exploded. Large pieces of ice shot out from the lake, and the lake swam to the surface. .

“Roar~!”

The roar of the dark dragon resounded throughout the world. Suddenly, a huge claw appeared from the lake, followed by a huge bone wing covering the sky and the sun, and there were dark blue and black lines on the wings.

Then came the second wing, two bone wings, covering the entire ice lake. Lu Yang, Chen Qiang and others were standing under the wings, facing the huge wings that covered the sun, without waiting for them. In response, a huge, hideous dragon head slowly rose from the lake in front of them.

Three dragon horns, arranged in a triangle, are extremely sharp, with black light attached. The dragon's head is terrifying, and the two hollow eyes suddenly turned blood red. The scared Chen Qiang and others almost took a step back. Everyone was forced to keep standing. In situ, I don't want to make Garadmund look down.

Gallademon's dragon mouth was exposed, and he snarled at Chen Qiang and the others fiercely. The huge airflow almost blew them away, but they still stood still.

“Boom”

Garadmund suddenly pressed his dragon claws hard, and his entire dragon body leaped out of the lake like a sharp arrow. At this point, a giant dragon with a diameter of more than two hundred meters flew into the sky. When he spread his wings and roared, Everyone was shocked by his aura.

Dark dragon Garadmund (the pinnacle high god)

Level: 200

Qi and blood: 5000000/5000000

Chen Qiang walked to Lu Yang's side, said with emotion: “Boss, this dragon is summoned successfully.”

Lu Yang smiled and nodded, and said, "It's successful. From now on, this dragon will only obey your orders, but he can't enter the dungeon. Besides, if you use him to fight monsters, all the monsters' hatred lies. With more than 100 of you, if one of you dies, Galladmund will return here and continue to be frozen, and when you want to use him, you must follow the pattern on the death heart. No one can move during the decoration."

Chen Qiang nodded and said, "Normally, this dragon is too strong under the current circumstances. Without these restrictions, he alone would push the area of Sanyouemon."

Lu Yang smiled and said, "Just so, remember that the maximum control distance is only 5 kilometers. You need to find a high position and not leave the attack range. This is very troublesome. You need to find a way to protect yourself."

"Boss rest assured, before the next attack, I must find a way." Chen Qiang said respectfully.
