

Wonder Doctor Chapter 1961

What the black puppet said was simple, but it was very clear in the minds of the crowd.

Of the three light pillars, only one was the correct answer, and if they chose the wrong one, it might seem that the stone door would not open.

But the consequence was that the black puppet would also die.

And after he died, this Immortal Palace space would also collapse, and when that happened, some weak cultivators would be afraid that they would also be trapped directly to death here.

Lin Ran, Xiao Jiu and Li all possessed the life-preserving scales given by Zhen Yan, so they wouldn't be worried at that time.

But what about the other cultivators?

Leng Qiu, Bu Er Swordsman and Fang Yan were all still in the Land of Opportunity.

So the pressure on Lin Ran's shoulders at this moment was also very great!

"Alright! I've said everything that needs to be said, so it's up to you to decide what to do next!"

The black puppet said, and then stopped talking.

Lin Ran slowly stepped forward and carefully surveyed the chess game.

After a few moments, Lin Ran asked.

"Was this chess game set up by your master?"

"Yes!"

"Then who did he play it with?"

Lin Ran continued to ask.

"Himself!"

The black puppet said.

"The master didn't like playing chess during his lifetime, it was only after one reached his twilight years that he grew to love it.

"The master had no personal disciples in his life, so his last years were very lonely!"

"At that time, my spiritual intelligence had just been born and I was unable to communicate with my master!"

"So the master used this game of chess against himself to pass the time!"

"This game of chess was left behind by the master in his last moments, when he discovered that I had been born with spiritual intelligence!"

"He said that if in the future I or someone else could unlock the game, I would be free!"

“Unfortunately, I don’t understand the art of chess at all!”

The black puppet said indifferently.

However, Lin Ran could tell that there was a deep buried longing in his eyes.

He must have longed for freedom too, it was just a pity that fate had made it so that the original Yu Chang was likely to uncover the game of chess!

Only he didn’t make a move.

The black puppet wasn’t speaking, neither was Wolf Ba and the others, all of them looked at Lin Ran.

Whether they would leave this space of opportunity in a mess or unravel the chess game with the help of the puppet, everything would be in Lin Ran’s hands.

“Boss, is there any clue?”

Li Ba came over and asked.

Wolf Ba had a wild nature and didn’t have much research into this kind of stuff, while Li Ba was different.

This guy had a quick brain and had done a lot of business in the clan in the past, and was later able to make the Li family in Baji City prosperous.

So there were some aspects that were still more flexible than Wolf Ba!

“I haven’t thought of it yet, but this chess game could be divided into three directions if we follow the hints given by the other side!”

Lin Ran frowned and said, while pointing to one of the hinted positions.

“Look at this position, if you play white first, then black will be disadvantaged!”

“On the contrary, if this position is taken, still with the white flag first, then black will have the upper hand!”

“On the contrary, it’s this one position in the middle that I can’t see through!”

“Boss, do you think it’s possible that these three squares represent the three situations where black and white can win, as well as a draw!”

Li Ba suddenly said.

Lin Ran was stunned at his words and nodded his head busily.

“There is indeed this possibility!”

“Then, Boss, let’s assume that it’s these three scenarios, so who exactly does the owner of this Immortal Mansion want to let win?”

Li Ba asked.

“Who wins? What’s the point of differentiating who wins when you play yourself against yourself, whoever wins isn’t winning themselves!”

Lin Ran said.

“Then what exactly does he mean by this game of chess?”

Li Ba wondered.

Lin Ran pondered for a moment and said.

“No matter who wins, white or black, the master wins, but he also gave three hints!”

“Then it means that what he wants is not to win! Rather, it means he wants us to move him!”

Lin Ran said as he took a seat on the sidelines.

“Imagine if you were the owner of this place and people reached their twilight years without any family around them!”

“How would you like to spend your time daily only by playing chess?”

“Me!”

Li Ba said after a moment’s thought.

“I would definitely have to go crazy, but it depends on the time, if I was only left with a month, I might do something I wanted to do before and didn’t have time to do!”

“But if it comes down to the last two or three days, I might just be quiet!”

Lin Ran nodded as he listened, then seemed to think of something and jerked up and said.

“I have understood!”

With that, Lin Ran picked up the white chess piece on the side and prepared to fall.

“Boss you’ve really thought about it?”

Li Baba asked as he busily got up.

“Mm!”

Lin Ran nodded and said.

“The owner of this Immortal Mansion must have gone through long years in his later years before his body eventually died!”

“So, his later years were very much time!”

“It may even have been much to the point of being long!”

“And in this case, he began to study playing chess, then what he wanted was inevitably a game of chess that would never be played!”

“So that he would not spend it in boredom again!”

“And what one wants at this point is perfection, whether white wins or the black flag wins, it’s not perfect!”

“The real perfection is definitely a draw!”

“Therefore, I deduce that the result of this game must be a draw!”

With a snap, Lin Ran had already placed the white pieces in one of the cue positions!

The crowd held their breaths, their eyes fixed on the huge stone door in front of them, anticipating the moment when it would open.

However, the crowd waited for a full two minutes, but the huge stone door in front of them did not react at all, not even the slightest rattling.

“Boss!”

Li Ba looked at Lin Ran, wanting to comfort him, but the words came to his lips but he couldn’t say them!

“Boss, it’s okay, if not, we’ll leave! It’s just a chance... just don’t!”

Wolf Ba also said.

Lin Ran, however, did not say anything, his eyes burning at the game of chess, and said to himself.

“It can’t be wrong, and even if it’s wrong there wouldn’t be no movement at all!”

“Could it be that something is wrong with this chessboard?”

Lin Ran said and at the same time kicked towards the stone pillar below the chessboard.

“Rumble!”

This kick landed, and instantly a rumbling sound came from within the entire chessboard.

Following this, everyone was actually surprised to see that the huge stone door had actually opened.

“Holy shit! Boss, this kick of yours is too fierce!”

Wolf Ba couldn’t help but exclaim.

“Go aside, Boss this is a correct guess!”

Li Ba was busy saying.

Lin Ran, on the other hand, felt a little speechless, luckily he had guessed correctly, the lack of movement just now had made him doubt his judgement a little!

The huge stone door opened, followed by a huge wall that appeared in front of the crowd.

The wall was carved with a lot of patterns that looked mysterious and unpredictable, not knowing what the purpose of the wall was.

And in the middle of the wall was a lattice with a brocade box inside, which looked very precious.

“That’s the one! Inside that is the small formation!”

The black puppet said, while getting up and taking the wooden box out, and then opening it!

At once, the crowd saw that a stone emitting a muddy aura was lying quietly inside.

There were clear lines on the stone, and at a glance it was inscribed with a formation!

“You hold on to it, change and we’ll leave!”

Lin Ran said, there was nothing here worth stopping for himself, the opportunity within the mansion was what he was most interested in.

Wonder Doctor Chapter 1962

The black puppet smiled without any nonsense and immediately sent the stone into his body, before beginning to refine it.

Lin Ran and the others sat on the side and waited quietly.

Now that Lin Ran was separated from Leng Qiu and the others, it was only natural that he was most worried about the safety of these few people.

After all, they were likely to be the first group of people to enter the Land of Chance.

It would be fine if they didn’t collide with those who came in from the front, but once they did, they were afraid that they would become a target.

Moreover, Fang Ye had also come in, and there was no telling where he was hiding now.

There was also Wang Mang, a group of people from the Heavenly King’s Castle, on the front side.

So Lin Ran was actually worried about the safety of Leng Qiu and the others.

“I also wonder how much of the mansion’s authority this puppet can actually hold!”

Lin Ran muttered to himself in his mind.

This black puppet was like the steward of this immortal residence at this point.

In the absence of the master, the one who knew the most about the authority here was also him.

This was also the reason why Lin Ran had spared no effort in wanting to work with him.

If he had this fellow’s help, his own movements within this Immortal Mansion would undoubtedly be much faster.

“Weng!”

Suddenly, the black puppet next to him shook and trembled all over, followed by an aura that clearly began to grow stronger.

There was a distinct difference from the dying feeling it had before.

“It’s done!”

The black puppet suddenly stood up, with excitement on its face.

“Since it’s better, can we move on?”

On the side, Wolf Ba urged.

He could still remember Lin Ran saying that he wanted this black puppet to find a chance for himself as well!

“There’s no rush, don’t you all want to hear what good places are within this Immortal Mansion before we move?”

The black puppet laughed.

“Tell me about it!”

Lin Ran didn’t bother with nonsense and greeted him directly.

The black puppet smiled and immediately waved his palm, and a curtain of light appeared in front of the crowd.

Only to see that on that light screen only, there were actually complex lines as well as structures, and even a few very dangerous places were marked.

“This is the floor plan of the Immortal Mansion!”

The black puppet said as it nodded a little on the top near the back of the Immortal Palace and said.

“This is where we are now! And within the entire Immortal Mansion, there are three best places!”

“They are the Medicine Garden in the back hall!”

Said the black puppet, nodding a little more not far from where the crowd was.

“The other even, respectively, is the Hall of Hidden Treasures within the Immortal Mansion, which contains all kinds of magic weapons, gong methods, weapons, secret arts and so on!”

Said the puppet a little bit in the middle of the whole immortal palace, thinking that there is where the immortal palace’s bedchamber is located.

“And the last location, is here!”

Said the black puppet, nodding a little more, landing not far behind the Immortal Palace’s bedchamber!

“There is a pool of water here called the Agaric Dew! If you sit in it and cultivate, your speed and enlightenment will increase several times!”

“It’s just a pity that no one has bothered to use it for so many years, and there isn’t much agar jelly and jade dew left in the pool that can only be used by one person!”

The black puppet said and looked at the crowd, the meaning was obvious, the place I have said so the distribution is your own business!

“This enlightenment pool boss use!”

Wolf Ba suddenly said.

“I have no problem with it!”

Li Ba was also busy saying.

Both of them were still strong, but Lin Ran’s strength was indeed a bit low.

This pool of enlightenment might have an average effect for them, but if it was used on Lin Ran, the effect would naturally be the best!

Lin Ran, however, did not care too much about this pool at this time and was busy asking.

“As the manager of the Immortal Mansion, can you see the locations of the other people who have entered it?”

“Of course you can!”

The black puppet said with a wave of his palm.

Instantly, small dots marked in two colours, one white and one black, appeared on the light screen.

And these dots were still moving non-stop.

“These four white dots, which came in using the same teleportation array as you, should be your friends!”

The black golem asked.

“Also yes and no!”

Lin Ran nodded his head, then told him about Fang Ye.

The black puppet smiled and waved his palm, and instantly one of the white lights turned into a red one!

“He’s lucky to be so close to the medicinal garden!”

The black puppet said.

Lin Ran, however, didn’t answer and instead asked.

“Can you do something so that the others won’t meet up with Leng Qiu and the others!”

Through the map Lin Ran saw at this moment that several people from Leng Qiu were scattered around the Immortal Palace, although they were still far away from Wang Mang and the others at this moment.

But according to their direction of travel, it was only a matter of time before they ran into each other!

“What’s so difficult about that!”

The puppet said with a wave of his palm, instantly changing the structure of the Immortal Mansion, so that the place where Leng Qiu and the others were was directly isolated from the direction Wang Mang and the others were coming from!

Seeing this, Lin Ran could already probably guess that the authority this puppet possessed within the Immortal Mansion was extremely high!

Thinking of this, he didn't delay at once and said.

"Let's move to the Pill Garden and then to the pool!"

"You isolate Leng Qiu and the four of them alone, don't let them meet up with the others, arrange for some chance treasures and send them away!"

"As for that Fang Night, leave him in the Pill Garden, I'm going to kill him!"

"As for the others, do as you please!"

"Understood!"

The puppet smiled at his words and instantly began to operate as Lin Ran had said.

At the same time a white light rose up in the sky over him, and the next moment had enveloped Lin Ran and the others all.

"Don't resist, let's go straight to the Pill Garden!"

The puppet warned, before the white light violently dissipated, and Lin Ran and the others had disappeared into the same place.

When the group reappeared, there were no more rocks around them, and there was actually a large expanse of herbs.

Lin Ran found that they were actually in a medicinal garden.

Amidst the rich medicinal scent around them, he even saw some very treasured herbal fruits.

"Damn it! This is the Dragon Winding Grass! Boss we're rich!"

"Boss, there are still Bijing fruits here!"

Wolf Ba couldn't help but say with excitement.

"This is just fucking open!"

Li Ba couldn't help but say as well.

At this moment, they all felt that Lin Ran had made this investment too worthwhile, having this black puppet, as long as he was willing.

He could almost raid the entire Immortal Palace space for all the treasures!

"Qing Zi! You go and find some herbs too!"

Had you Ran shouted out Qing Zi as well.

This ninny had just awakened and her divine sense was still quite stable, but it would naturally be best if she could find some divine sense herbs suitable for her here!

“Everyone start don’t be polite! We only want the most precious ones!”

Lin Ran greeted, while releasing Xiao Jiu and Li as well.

At once, a group of people were sweeping through the herb garden.

Some of the herbs that were relatively precious in normal times were no longer in the eyes of the crowd.

There were so many more precious herbs in the herb garden that people were staggered!

Lin Ran was also a bit excited at this moment, I was afraid that if he took out some of the herbs in this herb garden and auctioned them off, he would be able to make a lot of money.

Damn it! Finally, he didn’t have to be a poor bastard anymore!

Ever since he bought the black and white fruits for Qing Zi last time, Lin Ran’s pockets were cleaner than his face!

Thinking of this, Lin Ran was not polite and frantically swept the surrounding herbs.

Wonder Doctor Chapter 1963

It took a full half an hour for the group to sweep through the entire medicinal garden.

Looking at some of the herbs left behind, Lin Ran couldn’t help but feel a little pity.

He didn’t have much time, otherwise he would have wanted to take all the herbs here with him!

“Boss it’s almost time, we need to go clean up that Fang Night!”

Wolf Ba said with a smile.

This guy had gained quite a lot and was in a very good mood at the moment!

Lin Ran looked up at the curtain of light in mid-air and noticed that Fang Ye was actually hurrying in a direction away from him, as if he had sensed danger.

“Go!”

With a chill in his eyes, Lin Ran immediately greeted.

This Fang Ye was from an extraordinary background and had targeted himself five times and three times, so naturally Lin Ran would not spare him such a scourge.

There was still the black puppet leading the group on their way.

This puppet was able to use the power of the entire formation, so it was naturally fast, like an instantaneous movement.

Lin Ran and the others only felt a flash of white light around them, and within two minutes, they had already appeared in a pitch-black passageway.

The passage was flanked by high stone walls on both sides, except for a two-metre wide road that stretched all the way towards the front, with no end in sight.

“Two minutes at the most and he’ll be here!”

The puppet said.

Lin Ran nodded at his words and was just about to go out on his own, but who knew that Wolf Ba, who was on the side, had stepped forward.

“Boss, let me do it! This old bastard has extraordinary methods, even though his strength is suppressed here, I’m afraid he will have some means to save his life!”

Lin Ran nodded at his words, while seeing Li Ba gesturing for him to be careful as well.

If something changed later, everyone would make a move together, definitely not letting this Fang Night leave the Immortal Mansion alive.

After just a few moments, a figure came rushing towards us, if not Fang Ye!

Fang Ye seemed to be unaware of the presence of a few people and was running wildly without knowing what he was doing!

Suddenly, just as he was passing by Wolf Ba, Wolf Ba’s Wolf Soul Dagger in his hand slashed across his body.

It instantly slashed right towards Fang Ye’s waist!

“Who!”

Sensing the danger, Fang Ye’s entire body fiercely flipped over, which allowed him to avoid this slash from Wolf Ba.

However, the sharp blade still cut a gash in his abdomen, dripping with blood.

“How could you possibly be here!”

Seeing the sudden appearance of Wolf Bastard, Fang Ye’s face instantly turned pale!

“You’re wrong, he’s not the only one here, we’re all here!”

Lin Ran’s voice was bland, and then Li Ba and the others also appeared.

“You guys!”

Fang Ye’s face went pale at the sight, his face ashen.

He hadn’t even missed the absolute path before, but there were actually so many people here.

This was the end!

Fang Ye’s heart had already gone half cold.

“Aren’t you curious as to why we are here?”

Lin Ran looked at Fang Ye and asked with a smile.

“What’s there to be curious about, since we’ve fallen into your hands, just draw a line in the sand if you want!”

Fang Ye said in a cold voice.

“There is no path, there are two paths!”

Lin Ran said indifferently.

“First, tell me about the Death Gate, and I can consider leaving your body whole!”

“Second, I’ll kill you outright!”

Fang Ye’s face was icy cold as he listened and said.

“Then what you said is not nonsense! I’m going to die no matter what, do you think I’ll tell you?”

“That’s your business, say! You get to live a little longer, don’t tell! Then you’ll go to hell now!”

Lin Ran laughed.

“You!”

Fang Ye’s face turned blue with anger, while at this moment, Lin Ran was already greeting Wolf Ba with a strike!

“Go!”

Wolf Ba roared, and the Wolf Soul Dagger in his hand instantly slashed towards Fang Ye’s body!

Wolf Ba himself was stronger than Fang Ye, and although both of them were suppressed to the peak of the Extreme Dao Realm at this moment, the gap was still not narrowed.

However, the gap still had not narrowed.

In a single glance, Wolf Ba directly pressed Fang Ye to dodge, not daring to fight him hard!

In his heart, Fang Yang knew clearly that he would not be able to escape today.

After all, the fact that the other party could appear beside him unnoticed already said a lot!

But even if he did tell the truth about the Death Gate, would he be able to live?

Obviously it was impossible!

Leaving aside whether Lin Ran would really let him go, the Death Gate alone wouldn’t even allow such a thing to happen!

“Bang Bang Bang!”

As they spoke, the two were already exchanging blows.

Lin Ran was naturally aware that it was not that easy to get the matter of the Death Gate out of Fang Ye’s mouth.

So he simply did not hold out hope and stood by the side without saying a word and just waited quietly.

Time passed, and soon the fight between Wolf Ba and Fang Ye began to look one-sided.

Wolf Bastard was soon beating Fang Ye who was starting to feel a bit overwhelmed!

“What the hell do you want!”

Fang Ye’s face was bursting with veins, with anger!

“Don’t want what! You kill me and I kill you! Isn’t that a normal thing?”

Lin Ran laughed indifferently.

“I’m an emissary of the Death Sect, if you dare to kill me, the Death Sect will definitely not let you go!”

Fang Ye said angrily.

“Could it be that if I don’t kill you, your Death Sect will let me go?”

Lin Ran laughed.

“That’s why I didn’t hold out hope that you’d be willing to spill the beans about the Death Sect!”

“Rather than start guessing if what you’re saying is true, I’d rather just search your memories!”

Lin Ran’s voice was bland, but at this moment, it had a thick chill in Fang Ye’s ears.

Searching one’s own memories, then one was bound to die!

“Fine! Good! I, Fang Ye, have conceded today, but don’t get cocky either!”

“If you offend the Death Gate, you’ll be punished!”

“I’ll wait for you down there, I hope you don’t come too early!”

Fang Ye said as his whole body’s aura actually surged.

The next moment it actually chose to directly explode itself in place.

Wolf Ba retreated back in advance, and the crowd watched almost silently as Fang Ye chose to explode himself!

What surprised the crowd was that after Fang Ye chose to blow himself up, a vortex appeared in mid-air!

That vortex quickly swallowed up Fang Ye’s blood mist!

And when the vortex disappeared, the crowd clearly saw a unique ghostly symbol!

The sign was so conspicuous that it stayed in mid-air for half a day before finally dissipating.

“What the hell is this!”

Lin Ran’s brow furrowed slightly as he watched, especially because although the ghostly symbol looked simple, it seemed to contain a very large conspiracy!

“Why has this thing reappeared?”

Just as Lin Ran and the others were puzzled, suddenly the black puppet on the side spoke up.

“You recognize this symbol?”

Lin Ran asked busily at his words.

“I don’t recognise it!”

The black puppet said.

“But I’ve seen me! The master has studied this symbol before, and left some records behind!”

Said the black puppet, flipping his palm over and bringing out a book that was only half full.

Lin Ran immediately took it over and read it, but this time Lin Ran was helpless.

The entire book only had one sentence about this ghost symbol, written right next to a pair of ghost symbols.

“This symbol, represents a very terrifying force!”

That was the only sentence!

“A very terrifying force, who exactly is it?”

Lin Ran couldn’t understand it in his mind!

Wasn’t this symbol from the Death Gate? Or was there still a hidden force in the Death Gate.

Lin Ran only felt his head pounding!

Wonder Doctor Chapter 1964

The Ghost Mark was very mysterious, and Lin Ran had no idea what it really was.

However, judging from the current situation, it was feared that there was more than simply a force hiding behind the Ghost Mark, it was likely that it was also a conspiracy.

“What’s next, what’s the arrangement?”

The black golem asked from the sidelines.

“Go to the pool!”

Lin Ran said.

In the entire Immortal Space, the three most important treasures, he had already ransacked the Pill Garden himself, and with the remaining Hidden Treasure Hall and the Cultivation Pool, he naturally valued the Pool even more.

“Good!”

Without any nonsense, the black puppet was enveloped in light, and instantly led the crowd out of the place.

And just as Lin Ran and the others rushed to the pool, Leng Qiu Fang Yan and the Bu Er Swordsman, however, were under the control of the black puppet and began to obtain their own chances one after another.

Only where did they know that all these chances they had were the result of Lin Ran's help.

In front of a waterfall in the Land of Chance, Leng Han Bai Qiu as well as Mai Shen and the others frowned.

"What should we do now? Everyone is blocked in here, and later on, the people from the Heavenly King's Castle are afraid that they're going to make a move!"

On the side, Bai Qu frowned and said.

"What else can we do, we didn't expect that the Heavenly King Fort had made a bloody effort this time, so many people have actually barged in!"

"Later if they dare to use us as a shield, then strike!"

Leng Han's voice was icy cold.

"No Old Han, why are you in such a hurry to get in? Why don't we wait? After all, the Heavenly King Castle is dominated by one family, we are too disadvantaged here in the Land of Chance!"

Mai Shenmai mouth busy said.

Leng Han smiled but said with a frown.

"If you want to wait, you wait, I can't wait, my sister is still inside!"

Just now Leng Han clearly felt Leng Qiu's induction stone, he repeatedly told his sister not to come over before he left!

But who knew that, as a result, people were actually running ahead of him.

"Old Han, don't worry too much, right now the most important thing is to ensure our own safety, if we are captured by the Heavenly King Castle as a meat shield, then you really won't be able to see your sister!"

"I know!"

Leng Han's voice was cold as he looked at Wang Mang not far away without saying a word.

....

Meanwhile, in the middle of a garden, a white light flashed, followed by Lin Ran and the others.

"This is it!"

The black puppet spoke very blandly.

Lin Ran, on the other hand, was a little excited, his eyes busy glancing back and forth.

He soon saw that there was a stone monument not far ahead, and behind it was a pool of water.

He could only see a few large words carved on the stone tablet, "Pond of Agaric Jelly and Jade Dew!"

"Pond of Jade Dew? What does it mean?"

Lin Ran looked stunned, how could it be named like that.

"Look around!"

The black puppet said.

The crowd all looked around at his words, following which they noticed that there were actually a very large number of trees planted in this out garden, these trees didn't know what kind of trees they were, and they were also growing somewhat faded.

Some of them didn't even have a few leaves on them, and they looked quite desolate!

"These trees, are called agarwood trees! Its flowers contain very dense heaven and earth spiritual energy inside!"

"Every year when the flowers bloom, the flowers will all fall into the pool of rain and dew, and after dissolving the water in the pool, cultivation will be twice as effective!"

"It's just a pity that these agarwood trees are all dying!"

The black puppet said.

"Then there's no way to save them?"

Lin Ran asked busily, it would really be a shame if such a good place was destroyed like this.

"Save? The agarwood trees can only live for three thousand years!"

"These trees were planted back when the master returned, it was meant to try and break through unfortunately it failed in the end"

The black puppet sighed.

"Alright, it's getting late, there should be enough water in the agar pond for you to cultivate, there are too many cultivators breaking in from outside, I'm afraid the waterfall barrier won't be in place for long!"

"I have to go and take some things away too, so you can just stay here and cultivate!"

"That's fine, but you take them with you and send them to the Hidden Treasure Hall!"

Lin Ran pointed at Wolf Ba and the others.

The black puppet nodded and didn't say anything more.

"Xiao Jiu you and Li go too!"

Lin Ran said.

“Why are we going? I don’t need the chance!”

Xiao Jiu said, herself being the same demon stone she had little interest in the so-called chance.

“You don’t need it, but Lizzy does, what if there’s some kind of demon beast lining?”

Lin Ran laughed.

“That’s also true!”

Xiao Jiu nodded, and then went to the Hidden Treasure Hall with Wolf Ba and the others.

After sending the crowd away, Lin Ran side did not delay and directly leapt into the pool.

Only then did he see that the water in the entire pool was only a thin layer.

But even then, he still felt the rich spiritual energy of heaven and earth in the water.

“Let’s begin!”

Without any more nonsense, Lin Ran immediately began to mobilise the true qi in his body and fell into cultivation.

He had already felt the opportunity to make a breakthrough when he had obtained the heavenly thunder at Thunder Hulou Mountain earlier.

But at that time, he was pressed for time, so he could only suppress the feeling of a breakthrough.

Now that he still had plenty of time, Lin Ran naturally wanted to break through the Realm of Enlightenment and cross over to the Third Dao Realm in one go.

I wondered what kind of Dao he would achieve when he crossed into the Third Dao Realm!

Lin Ran had some anticipation in his heart.

The pinnacle of the Dao of Enlightenment realm was when one had practised the Dao one cultivated to its extreme.

Although the ultimate was not a great completion, it was still very close.

As the saying went, when a dao reached its extreme, it would give rise to other dao.

All powerful cultivators were even able to enlighten four dao in one breath when they crossed into the Three Dao Realm.

Lin Ran had learned from looking through the information at the Sword Immortal Sect that from ancient times to the present, there was a man who had once enlightened ten dao in one breath when he crossed into the Three Dao Realm.

The Three Dao Realm referred to more than just really three dao.

It is like the hundred thousand and eight thousand realms, does a cultivator really have to enlighten so many dao?

That was obviously impossible, if everyone was in the Hundred Thousand and Eight Thousand Realms, I'm afraid they would have been invincible long ago.

Lin Ran had read the classical mythology stories, and Nüwa had only mastered a mere one hundred thousand eight hundred thousand dao.

Therefore, in his opinion, the Three Dao Realm and the Hundred Thousand Eight Hundred Thousand Realm were only conceptual names, and it was not really necessary to master the three Dao and the Hundred Thousand Eight Hundred Thousand Dao.

I wonder how many dao I would have realized!

Lin Ran was looking forward to it, under normal circumstances, most people in the Three Dao Realm had enlightened three dao, if he could also reach that number, together with his medical dao, then he would be someone who had a full four dao.

Although the Medical Dao could not be used, there was no guarantee that one day the Medical Dao would be used again, and by then one's strength would certainly go to another level.

Weng!

Suddenly, just as Lin Ran was immersed in his cultivation.

A burst of white mist rose up from within the agar pond and wrapped Lin Ran's body in it.

At the same time, a voice actually sounded in Lin Ran's mind.

"Junior! Who are you? Whose camp do you belong to?"

"Whose camp?"

Lin Ran froze at the sound of his words, he looked around with caution in his eyes and asked after a moment of contemplation.

"Senior, I don't quite understand what you mean, belonging to whose camp? What camp are you referring to?"

Wonder Doctor Chapter 1965

"Hmm?"

The ethereal voice smiled and was visibly stunned, then said.

"Could it be that this wisp of old me has been asleep for too long?"

"Then I ask you, is the present-day Immortal Emperor still the Vulcan?"

"Yes!"

Lin Ran nodded his head.

Immortal Emperor Fulong was none other than the Immortal Emperor of the Immortals, the one in charge of the entire Immortal Realm.

That was why the name Fulong was almost unknown in the entire Immortal Realm Continent!

It was just like Zhen Yan's status in the Beast King Domain.

"That's not it! You're in the Fulong gang?"

The ethereal voice continued to ask.

Lin Ran laughed helplessly.

"Senior, you think too highly of me, he's an Immortal Emperor, I'm just an enlightenment realm cultivator, how can I be one of his people!"

"So what if you're at the Realm of Enlightenment! Even if you were an ordinary person, the old man would still ask that!"

"Tell me, in the future, are you going to join the Vulcans or travel on your own?"

"This..."

Lin Ran thought for a moment and said.

"If I could I would travel on my own, to be honest I don't like the Immortal Realm!"

"You're from the lower realms?"

The ethereal voice asked.

"Sort of!"

Lin Ran nodded his head and admitted.

After wandering around the Immortal Realm for all these years, he had learnt something.

That was that the Immortal World seemed to be a large world, and within this world, there were very many smaller worlds contained within it.

And this small world was known as the Lower World.

But his own homeland, Earth, seemed to be different from the smaller worlds yet.

After all, the Earth was not birthed from the Immortal World.

As evidenced by the very long distance between the two!

"In that case, if you make a vow that you will never be used by Vulcan forever, I will tell you a secret!"

The ethereal voice said.

Lin Ran was stunned at his words and said.

"Senior, can I not listen?"

Just kidding, a vow could not just be made, and the four Song Nuan daughters were now in Immortal Emperor City.

If he had to help them in the future, did he have to watch something happen to them because of this vow? Lin Ran asked himself if he could do that.

“You brat! Stop bargaining with me, you don’t have a choice!”

A misty voice rang out, and at the same time Lin Ran felt a majestic divine sense gushing towards him like a tidal wave.

“This.... Senior you are a divine sense practitioner!”

Lin Ran exclaimed in shock.

This terrifying fluctuation of divine sense aura, who else could do it if not a divine sense cultivator.

“No! It’s just that my divine sense is more powerful!”

The ethereal voice said.

“Kid, your divine sense qualification is also good, in the future as your strength increases your divine sense will also gradually become stronger, you better listen to me! Otherwise you’ll end up just like me!”

“The same as you? You are?”

Lin Ran asked in confusion, honestly after talking for half a day he didn’t even know who this old man really was!

“I am none other than the owner of this Immortal Mansion, Sixth Mans!”

“Senior!”

Lin Ran was instantly stunned at his words.

“Kid, you must have been helped by the puppet to come here, you and I are kindred spirits! The old man is willing to tell you this, if you don’t want to hear it then just forget I said it!”

“But if you also end up like this in the future, then don’t blame me for not reminding you!”

Liu Mang’s voice was bland.

Lin Ran couldn’t help but fall into deep thought.

After a moment Lin Ran spoke.

“Senior how about this, I can make an oath not to serve the Immortal Emperor directly, but if my friend is in trouble, then I must also step in! How about this!”

“As long as it’s not for Vulcan’s conquest of the Immortal Realm!”

Lioumang said.

“That’s fine!”

Lin Ran nodded his head busily, then took out the enlightenment stone and made a vow.

“Senior, you can speak now!”

Lin Ran asked busily.

“Mm!”

Lioumang nodded, and then said.

” I sense that you have my notes on you, and you have seen all the ghost marks on them!”

“Saw it! Could this still have something to do with the ghost markings?”

Lin Ran asked busily.

“Of course!”

“This Ghost Mark represents a force of strength, and all of their targets are divine sense practitioners!”

“Do you know why in the current Immortal World, divine Sense cultivators are all on one side of the divide? It’s because of the persecution of this compelling ghost force!”

Lin Ran was shocked to hear this and was busy saying.

“That’s not right senior, I’ve killed a person from the Death Sect before and he also had this ghost mark in his body, but they were targeting alchemists!”

“Death Sect?”

Lioumang was stunned at his words, and then actually laughed.

“Haha! The Deadly Gate, it’s actually the Deadly Gate! Why didn’t I think of that!”

“Senior?”

“Kid, you’re really good, I’ve been guessing all my life but I never guessed it, I didn’t think you’d actually point it out!”

Liu Mang was very excited, but Lin Ran was dumbfounded, not knowing what was going on.

“This ghost force is very mysterious, not only me but all the former great powers have been investigating them, but they never found out where they are!”

“You said you killed someone from the Death Gate and saw this kind of mark!”

“Then that means that behind this Death Gate must be standing the Ghost Force!”

“And you don’t even think about it, what is the strongest thing an alchemist has? It’s divine sense!”

“A powerful alchemist has a divine sense that can manipulate everything!”

“Pills strengthen the body, divine sense controls the mind do you understand?”

“I....”

Lin Ran was listening in the clouds, not really understanding.

“Let me put it to you this way, why do you think I fell? That was the path I chose for myself!”

“There are so many cultivators in the immortal world, how many of them actually live to the end of their lives? The vast majority die on the path of cultivation, and I am no exception!”

“But the black puppet said that you were.”

Lin Ran didn't dare to believe it.

“He doesn't understand! It was actually me who chose to fall, because I had no choice!”

With that said Lin Ran saw that a figure had actually suddenly appeared in front of him.

The figure was made up of white light, but what made him differ was that at this moment, on that white light only, it was covered with a black thread.

It was as if a spider's web was trying to wrap the white figure up.

“Now do you understand? I don't want to die either, but my divine sense has been invaded by them, and if I don't choose to fall, I will be under their control in a hundred years!”

“Old me, although I am not as powerful as Master, I still have a backbone and will never be their lackey!”

“That's why I chose to fall!”

Speaking of this here, there was clearly anger in Liu Mang's eyes.

“That's only why I made you take an oath not to pledge allegiance to Voltron.

“It's because of this spectral force that he brought back!”

“Back then, in order to fight for the Immortal Emperor's throne, he brought back a very mysterious force!”

“Stirring up the immortal world! And I'm not afraid to tell you that my master is from the old Immortal Emperor's camp, so there's no way I would let someone from a rival force, use the Qiongju Pond!”

“But it's good that you're not!”

Lin Ran listened with a pounding head, he had come to the Immortal Palace to seek a chance, how could he still be involved in such a big matter.

And he had to stand in line.

This was great, not to mention what he could get, at least the Immortal Emperor Voltron himself would not be able to be effective

But when he thought about it, Lin Ran was relieved. The Pillow Book and this Vulong were not going to die, and he could not possibly go against the Pillow Book.

So this oath doesn't really affect him!

One's future would be the same if one went to the Anti-Alliance and the Beast King domain to dash around!

But as a matter of urgency, one still had to find Dao Song Nuan and the others first!

Wonder Doctor Chapter 1966

"Alright kid, I've said all that needs to be said, the rest is up to you!"

Lioumang opened his mouth and said, while his entire figure was rapidly dissipating.

"No senior, don't leave! Can't we talk again?"

Lin Ran said busily.

It was so hard to come across the Lord of the Immortal Mansion, and to leave just after chatting these two sentences, without saying that he would leave himself a chance or something, this was too much of a deduction.

"What are you chatting about, this wisp of my obsession is long going to return to the red dust, so don't think too much about it you kid!"

"The way of cultivation always depends on yourself!"

"That's enough! One last thing to say to you properly, that black puppet has been with me old man for so many years, if you can take him away!"

"Alright!"

Lin Ran was helpless.

This Six Mang was clearly not prepared to leave himself some chance or anything, and as for the black puppet, he had promised him before, so naturally he didn't need Six Mang to say more.

Lioumang's figure quickly disappeared from the spot, and the entire Qiongju Jiu Dew Pond returned to calm once more.

Lin Ran sighed helplessly, knowing that this chance was gone, so he could only start cultivating at that moment.

At this time, in the Hidden Treasure Hall, the black puppet had already arrived with Wolf Ba and the others.

The Hidden Treasure Hall was divided into several areas by the black puppet.

A small part of it was reserved for Leng Qiu and the others.

The rest of the place was all for the few of them to search for treasures.

At this time, Wang Mang and the others were somewhat miserable, as the black puppet had arguably used all the opportunities in the Immortal Palace in order to buy time for itself as well as Lin Ran.

This not only greatly delayed their progress, but also caused them to suffer heavy losses.

Some of the weaker cultivators among them had simply given up and left before even finding the chance!

“Bastards! What the fuck is this place, there are traps everywhere, I’ve lost a dozen people!”

Wang Mang cursed angrily as he hurried along.

“Young master, it can’t be helped, we have the most people here this time, and losses are inevitable!”

A sturdy, strong man next to him said.

He was none other than one of the elders who had followed Wang Mang in this time and was responsible for protecting his safety.

“Bastard! Those scattered cultivators are simply looking for death one by one, actually making Laozi’s people use them as shields!”

Wang Mang had anger in his eyes as he said.

“Go and send someone to grab some weak ones to come over, and let them go through the lightning on the road below!”

“Is this the way the young master is going.”

“What is there not to do, do as I say!”

Wang Mang said angrily.

“But Young Lord, I’m afraid that this will cause public outrage when it goes out!”

The elders were busy saying, however Wang Mang didn’t even listen and said angrily.

“Then they have to have a life to get out before they do, if they all die halfway up this path, with no chance at all, what public outrage is there to talk about!”

“Yes!”

Seeing Wang Mang’s repeated insistence, the elders did not dare to say more, and immediately arranged for people to “catch the strong men!”

....

On Lin Ran’s side, he had soon entered a state of cultivation.

He had already reached a bottleneck in his senses when he captured the heavenly thunder before, and it had taken him quite a while to regain that feeling.

Luckily, there was no danger, and he had finally regained the peace of understanding of the breakthrough.

At this time, inside Lin Ran’s body, apart from the Chaos Qi Spiral, the entire body was almost completely occupied by lightning.

At this time, in the space of Lin Ran's Dao Seed, apart from the Dao pearl of the Medical Dao that he had first obtained, which was still grey in colour.

A purple dao pearl was gradually forming, and this dao pearl was no other than Lin Ran's sword dao pearl.

Because it was formed by sensing the Heavenly Thunder Purple Qiong Light, this Dao bead also became white.

However, this Dao bead clearly contained a small sword, and there were even wisps of sword qi emanating around it.

"This Sword Dao Dao pearl is really strong! It can actually cause the surrounding space to fluctuate!"

Lin Ran whispered softly to himself.

At this moment, he could see that within his Dao Pearl space, spatial ripples were clearly appearing around the Sword Dao Dao Pearl.

It was caused by the power of this Sword Dao Dao Pearl being too sharp.

"I wonder what kind of Dao I will come to understand!"

Lin Ran's heart was filled with anticipation.

Soon, Lin Ran felt a strange power appear within himself.

At first that feeling was very faint, but soon Lin Ran felt two very different forces that began to flow along his limbs and bones.

Because of the Heavenly Lightning in his body at this time, he could clearly feel that these two strands of power were different from the Heavenly Lightning.

The two forces were constantly moving around inside Lin Ran's body, and at first, Lin Ran was puzzled as to what they were!

But soon, Lin Ran felt it, two strands of power, one gentle and leisurely like the spring breeze, while the other this was moist and gentle like flowing water!

"Could it be the Dao of Water and the Dao of Wind?"

Lin Ran's heart was astonished.

In fact, in his speculation, it seemed that he had a better chance of perceiving the Dao of Lightning and the Dao of Fire and Inflammation.

After all, Li Ba was the Fire Inflammation Dao, and he had once observed those sword marks at Mount Baki, which also contained the power of fire inflammation.

Lin Ran had also learnt about the effects of these Dao.

For example, if the Dao of Fire and Flames was combined with the Dao of the Sword, it would make the Dao of the Sword even more powerful and rigid!

But how could he have sensed the Dao of Wind and the Dao of Water?

Was it because he had divine wings?

Even if that was the case, I would accept that I had perceived the Dao of Wind, but wasn't the Dao of Water a little bit of a disadvantage?

After all, he had the Dao of Medicine!

Lin Ran was surprised, but since he couldn't understand it, he didn't bother to think about it.

By now the two forces within his body had merged into the Chaos Cyclone, and then with the fusion of the Chaos Qi, they began to come towards the Dao Pearl space!

"Buzz!"

Suddenly, within the Dao Pearl space, two buzzing sounds were remembered.

Followed by a green and a white ball of light that actually appeared out of thin air, absorbing each of the two streams of True Qi that were pouring in!

"It really is the two dao of wind and water!"

Lin Ran said to himself, the end result was still pretty much what he had thought.

Although he was a little puzzled, Lin Ran quickly accepted the truth.

After all, enlightenment depended on fate, and it was not really up to Lin Ran to decide what dao he would achieve!

The two Dao of Feng Shui were not bad either!

Lin Ran laughed in his heart.

But soon he realised that he seemed to have thought wrong!

Because he found that a third force had started to appear within him!

This! What was going on here?

Lin Ran was a little confused.

Could it be that he had crossed into the Three Dao Realm and was actually able to comprehend four dao at once?

If that was the case, then he would have a full four dao!

No!

Very quickly, Lin Ran realised that something wasn't quite right, because this latest power that had come out actually felt familiar to him, it was clearly the power of lightning!

"Shit! How did I forget about thunder and lightning! This must be the Way of Thunder and Lightning!"

Lin Ran exclaimed, his heart seizing up at the same time.

If he had guessed correctly, it was likely because he had crossed into the Three Dao Realm and had sensed both the Water and Wind Dao at the same time.

So it had induced the Dao of Lightning to enter the Dao realm as well!

“That must be it, that would give me four Dao’s, if I count the Dao of Healing it would be five Dao’s!

Lin Ran was excited in his heart.

The greater the number of dao, naturally the higher the talent.

The fact that three of his own dao had appeared at the same time was simply a great surprise.

Wonder Doctor Chapter 1967

The simultaneous breakthrough of all three dao made Lin Ran very surprised.

However, he quickly calmed down after the surprise.

Surprises didn’t come often, but if they did happen calm down as soon as possible to allow himself to take advantage of them.

Lin Ran saw that there was still some water left in the Pond of Jade Dew, so he did not delay any longer and began to cultivate the Three Dao Realms.

He wanted to completely consolidate the Three Dao Realm before the black puppet and the others returned.

At the same time, now that he had crossed into the Three Dao Realm, he was unfamiliar with the characteristics of the three dao’s interfusion and mutual enhancement.

For example, if one fused the power of the Wind Dao into the Sword Dao, it might enhance the speed of one’s own Sword Dao, so the mutual fusion of these Dao’s only saw actually needed time to slowly become skilled!

Luckily, Lin Ran still had plenty of time.

At least the black puppet hadn’t moved yet!

At least the black puppet hadn’t moved yet!

At this moment, near the Medicine Garden in the Land of Chance.

Wang Mang and the others had finally arrived here after a lot of trials and tribulations.

“Young Lord, news has come from ahead, we’re about to arrive at the Pill Garden!”

The iron tower-like elder next to him said excitedly.

Wang Mang couldn’t help but have a glow in his eyes when he heard this.

“Good! Good! A long journey is worthy of my hard work! Quickly bring people over, the whole medicinal garden is for me to monopolise!”

“Young Lord, I’m afraid so.”

Elder Tie Ta looked around with some difficulty.

At this moment, the crowd of cultivators around them were all like hungry wolves.

This journey over, not only had they, the Heavenly King Fort, suffered heavy losses, some cultivators had also suffered equally heavy losses, and some had even given their lives directly.

Bai Qu had even lost his own puppet not long ago and had no choice but to leave.

The four major forces of East Flag City that remained here now had also all gathered together to take orders from Leng Han.

“Although the disciples of this East Flag City’s four major powers are not very strong, they are gathered together, and it would still be our time that would be wasted if we fought for a moment!”

Elder Tie Ta persuaded.

“Humph! A group of hairy boys, I wouldn’t put them in my eyes!”

Wang Mang had disdain in his eyes.

But disdain was disdain, he was not stupid enough to know that this was a time to hurry up and not suitable for a big tangle.

“This way, in the medicine garden you bring people to directly occupy one third of the area, leaving the remaining third for them!”

“These people are starving, they won’t risk coming to rob with us when the time comes, just leave them a bit of meat for their addiction!”

Wang Mang said.

“Young master is wise!”

Elder Tie Ta was busy agreeing, and immediately led his men and rushed towards the front.

“Pill Garden! I’m coming!”

There was excitement in Wang Mang’s eyes.

However, after only a few moments, when Wang Mang came to the Pill Garden with the large group, he was instantly dumbfounded.

He was instantly dumbfounded!

“What’s going on! How could this happen! Where are the herbs!”

“Where’s the fruit?”

“Young master!”

To the side, Elder Tie Ta busily ran back, with an alchemist by his side.

“You speak!”

The Tie Ta Elder yelled at the alchemist on the side.

The latter was terrified and said busily.

“Young Lord, the herbs here were swept away an hour ago!”

He said and took out the root of a herb and said.

“Look, the rhizome of this herb is still very fresh at the break, it has not been long since it was broken”!

“And this herb, the ripe fruits on it have all been picked, leaving behind some green melon eggs!”

“What did you say?”

Wang Mang’s face instantly changed and he grabbed the alchemist’s collar as his entire body trembled.

“Who is it? Find out for me! Who the hell is it!”

Wang Mang was so angry that his whole body was trembling.

He had come all this way, through many lives and deaths, and had easily found his way here, but someone had actually gotten the jump on him!

This simply made Wang Mang want to die!

“Young master! I’m afraid we won’t be able to find it, he even said it was an hour ago, by now that person will probably have already run off to the next place!”

Elder Tie Ta was still calm and said.

“The next place?”

Wang Mang’s face instantly went icy cold at his words, and he was clear that this was not the time to get angry at all.

He himself was already an hour behind, if he delayed like this, he was afraid that by the time he got to the next place, all the treasures would have been scavenged!

“Hurry up and get going! Hurry up and set off!”

Wang Mang said angrily.

“Yes!”

Elder Tie Ta answered and went to make arrangements.

Although this place had already been swept, the roots and stems of these herbs left behind as well as the unripe herbs could be taken away.

After all, these herbs could grow when they got outside too!

“What are they doing?”

Off to the side, Mai Shen frowned as he watched.

“I’m afraid that someone has arrived before us, look at these herbs and fruits, the best batch has already been taken!”

Leng Han was still calm and analysed.

“Holy shit! Then aren’t we one step slow and one step slow!”

Mai Shen couldn’t help but say.

“That’s the truth, so we have to hurry up and get going too!”

Leng Han greeted.

All of them were leaders of their own clans, so how could they possibly put up with being jumped ahead of others.

“Let’s go!”

After a brief thought, the crowd immediately followed the people from the Heavenly King Fort and continued to rush towards the front.

And at this moment, where they were, they were not far from the Immortal Mansion’s residence!

At this moment, within the mansion, the black puppet had regrouped Wolf Ba and the others together.

“It’s all done!”

The black puppet asked.

“All alive!”

Wolf Ba laughed, and several other people also had smiles on their faces.

“Good! Then let’s move to leave!”

With a wave of his hand, the black puppet instantly led the crowd and disappeared from the spot.

And a few moments later, when Wang Mang and the others had finally opened the door to the Immortal Mansion after going through a lot of trouble, they found the Hidden Treasure Hall.

There was wild joy on the faces of all of them.

“Young Lord! The Hidden Treasure Hall! The Hall of Hidden Treasures!”

“Laozi fucking saw it!”

“Quick! Go and open it for me, everything inside is mine, it’s all mine!”

Wang Mang had a frenzy in his eyes, as long as he could loot the treasure hall in the immortal palace, it was only a matter of time before the power of the Heavenly King Fort rose to a new level!

“Rumble!”

Soon, with an explosive sound, the door of the Hidden Treasure Hall was finally opened.

But the scene that appeared in front of the crowd caused everyone to freeze.

They saw that the rows and rows of shelves in the hidden treasure hall in front of them were empty.

There was not even a speck of dust left behind!

“Who! Who is it! Who the hell is it!”

Wang Mang looked up to the sky in anger, at this moment he simply wanted to explode himself.

At least he had a little bit of the Pill Garden left for himself, but this Treasure Hall was cleaner than his face!

Ten minutes later.

Inside the Pond of Jade Dew, Lin Ran had finally retreated from his closed state.

And by this time, the black puppet and the others had all rushed back.

“How did it go?”

Lin Ran asked as he looked at the group.

“Boss, the people from the Heavenly King Fort and those scattered cultivators have all arrived at the Hidden Treasure Hall, and they are afraid that the next stop will be here!”

Wolf Ba said.

“Hmm, how are your chances?”

Lin Ran asked with a smile.

Wolf Ba smiled heatedly and said.

“Don’t worry about that, we’ve raided the Hidden Treasure Hall all to hell! Haha!”

“Yes, at this point, that Wang Mang is afraid of dying, we got to the Medicine Garden first, and the Hidden Treasure Hall didn’t even leave any dust behind!”

“They are destined to go in vain this time!”

“Right, boss, what do we do next?”

Li Ba asked with a smile.

Lin Ran smiled at his words and said.

“The next step is to run away!”

Wonder Doctor Chapter 1968

“Haha! That’s a move I like!”

Wolf Ba laughed.

Lin Ran guffawed, and then jumped out of the agar jade dew pool, laughing.

“Are there any other places within this Immortal Mansion worth visiting?”

“No!”

The black puppet said.

Lin Ran didn't doubt it when he heard that and nodded and asked.

“Tell me how many ways there are to get out?”

“One, through the main gate!”

The black puppet said.

“Take the front door? Are you kidding, wouldn't going through the front door be a collision with the people from the Heavenly King Castle?”

Li Ba was busy saying.

Wolf Ba smiled at his words but laughed.

“Just in time for a collision, let's see how I'll slash that kid!”

“There's no other way to go?”

Lin Ran asked.

“No!”

The puppet shook its head.

Lin Ran frowned slightly as he listened, and after a moment of contemplation asked.

“Then if we leave, will Leng Qiu and the three of them collide with the people from the Heavenly King Fort?”

“No, they're already on their way out at this point!”

The black puppet said.

Because of the special care of the black puppet, the three of Leng Qiu had gotten their hands on the chance, and they were already on their way out at this point.

It was believed that it wouldn't be long before the three of them would leave the confines of this Immortal Mansion.

So there is no need to worry about them at this time, instead, it's these people themselves who are afraid that it will be a bit more troublesome to leave.

After all, Wang Mang and the others were rushing here from the main entrance, so if they wanted to go out, they would definitely bump into each other.

“Boss, what should we do now?”

Li Ba looked at Lin Ran and asked.

Wolf Ba definitely wanted to meet up with Wang Mang and the others, but Lin Ran didn't know what he thought.

"Let's go, go out through the main entrance!"

Lin Ran said straight away without even thinking about it.

"Boss be careful! We're worth a lot of money now!"

Li Ba was busy reminding him.

But Lin Ran smiled lightly and said.

"Even if you are carrying the skeleton of an Immortal Emperor, do you have any other choice at this point?"

"I..."

Li Ba was speechless at once.

"Let's go, this is destiny!"

Wolf Ba laughed.

Seeing this, Li Ba also said no more, and at that moment, a group of people led by the black puppet then directly disappeared in the same place.

The black puppet had said that his means of leading people to move directly was only useful in the vicinity of the Immortal Mansion.

In other words, once they were far from the Immortal Mansion's range, the black puppet could only use it on foot!

So the location where the black puppet could take the crowd away was actually near the Pill Garden.

"Weng!"

With a ripple in space, Lin Ran and the others had already appeared in the Pill Garden.

And at that moment, Wang Mang and the others had already rushed outside of the Qiongju Jiu Dew Pond.

"What people?"

In the Pill Garden, when they saw Lin Ran and the others suddenly appear, the people Wang Mang had left behind were all startled!

All of them were the weakest in strength, the strongest of them was only at the early stage of the Three Dao Realm, and most of the rest of them were at the Enlightenment Realm.

Lin Ran naturally had little interest in these people, the priority was to leave this Immortal Palace land.

"Don't tangle with them just go!"

Lin Ran greeted, and immediately took the lead and rushed out towards the front.

“Go!”

Seeing this, Wolf Ba and the others didn't say anything and one by one, they followed Lin Ran and rushed towards the front as well.

“Not good! Go and inform the young master!”

The leader of the Three Dao Realms quickly saw the problem and guessed what was going on.

Immediately, someone was busy going to inform Wang Mang.

At this moment, Wang Mang and the others were angrily looking at the pool of agar jelly and jade dew in front of them, which was currently empty, and even the last bit of true qi spirit liquid had been used up by Lin Ran.

“Bastard!”

Wang Mang was so angry that smoke was rising from his head.

The Hidden Treasure Hall had been raided, and to think that this Pool of Jade Dew had actually been raided as well!

“Young master! Wolf Ba is already running back with his men!”

“Young master!”

The news soon reached Wang Mang's ears, and hearing it made Wang Mang's entire being incomparably furious.

“Wolf Ba! It's that bastard again! Give me chase!”

At this moment, Wang Mang had already vaguely guessed what was going on, knowing that if he couldn't stop Wolf Ba today, he was afraid that this trip to the Immortal Palace would be completely done to someone.

Thinking in his mind, Wang Mang directly took out a four-pointed star jade talisman and instantly crushed it!

“Trying to leave, do you think you can still get out after coming in!”

Wang Mang had madness in his eyes, and immediately, without any more nonsense, he chased after them in the direction he came from.

When Leng Han and the others saw this, they also knew that things were not going to be easy, so they all followed them.

All the way here, all the opportunities had been looted by other people, so they could guess that if they were not stupid, someone must be extremely familiar with this place!

And if they still wanted to get the chance, they could only grab it from the person who had arrived before them!

But Lin Ran and the others, led by the black puppet, rushed towards the main entrance of the Immortal Palace.

The chance traps along the way had almost all been swept away by the Heavenly King's Fort and some of the loose cultivators!

At this point, the rush outwards was very smooth.

Together with the black puppet to guide them, the way out was very smooth.

After only ten minutes, the crowd had arrived at the exit.

Ahead of them was a white fog with no end in sight.

The white fog seemed to connect the sky and the earth, and there was nothing else but a blanket of white everywhere.

"What should we do down here?"

Li Ba asked.

"There!"

The black golem said, pointing in a direction of the mist.

"There is an altar where you can teleport out!"

"Go!"

Lin Ran heard this without any nonsense, and immediately greeted the crowd and led them out towards the altar.

But at that moment, suddenly there was a shuddering sound around them, followed by a red light that shot up into the sky and instantly enveloped Lin Ran and the others.

"Holy shit, we haven't even gotten to the altar yet, how come the formation has been activated!"

Li Ba couldn't help but exclaim.

"Idiot, this isn't an altar formation, this is a formation that someone deliberately set up!"

Wolf Ba said speechlessly.

"A formation set up by someone? Boss isn't it you!"

Li Ba looked at Lin Ran.

Lin Ran, however, shook his head.

"I didn't set up this formation, we're afraid that we've been ambushed!"

Lin Ran said.

An ambush?

The crowd was dumbfounded at his words, this journey out had gone so smoothly, how could they have ever thought that they would be ambushed when they reached the exit at this point.

“This Wang Mang of the Heavenly King Castle has really learned to be smart, he actually arranged for an ambush here!”

“Looks like it will be hard to get out this time!”

Entering the Land of Chance and leaving people at the entrance to fight an ambush, this was really the first time Lin Ran had come across such a thing.

However, this could also show that Wang Mang, a person with some brains, was not completely an idiot.

“Boss! What now?”

Wolf Ba was busy coming closer and asked.

Lin Ran pondered for a moment and said.

“You guys guard the surroundings first, I’ll see what kind of formation this is!”

Lin Ran said and sat down on the ground on his knees, and then began to carefully deduce the wonders of this formation.

Seeing this, Wolf Ba and the others didn’t dare to say much, and one by one they surrounded Lin Ran in the middle, looking around vigilantly.

And at this time, in the white mist around them, four figures appeared in unison in is direction.

“Big brother, what now?”

Among the four white-robed figures, the youth with the most sturdy figure opened his mouth and asked.

“No hurry first! This four-combined formation is a great enemy trapping formation, and with us all working together to set it up, it won’t be easy for that kid to get out easily!”

“We’ll hold off until the young master arrives and then we’ll decide!”

The leader of the youth said.

“Good!”

The others agreed with him.

Wonder Doctor Chapter 1969

The scene was at a standstill for a while.

Lin Ran sat on the ground with his knees crossed, and his divine sense quickly radiated out, sweeping towards the surrounding formation.

If he wanted to find out what this formation was, the most important thing was to understand what this formation was!

If you don't even know who or what the formation is, then naturally there is no way to talk about breaking the formation!

Although he was not a master, his understanding of formations was beyond the comprehension of ordinary people.

His divine sense quickly attached itself to the formation and invaded it with the flow of the formation.

Soon Lin Ran discovered some of the wonders of this formation.

There were four sources of power in the entire formation.

These four places corresponded to the metal, wood, earth and finally water attributes respectively!

"Isn't this a typical trapped four-combined formation!"

Lin Ran was shocked in his heart, the so-called Four Harmonies Formation was actually a great formation with four people joining forces to set it up.

There were four people within the formation discerningly managing different distinctions.

At the same time, power was sent to the formation.

Because it was a trapping formation, the power of the entire Four Harmonies Formation was not that strong!

What was strong was that the formation was so strong that it was not simple to break through for a while.

"Boss, how is it?"

Seeing Lin Ran snapping open his eyes, Li Ba was busy stepping forward and asking.

"This is a four-in-one formation, and there should be four people controlling it outside, so I'm afraid it will take some effort to break through!"

Lin Ran got up and said.

"Boss, is there any better countermeasures or something?"

Li Baba asked busily.

Lin Ran thought for a moment and said .

"It's not difficult to break this Four Harmonies Formation, but the difficulty lies in the fact that our frequencies must be consistent.

"In order to break this Four Harmonies Formation, we need to focus our strength on one point and tear a hole in the Four Harmonies Formation alive in order to escape from this battle method!"

"Boss, just tell us exactly what to do, we'll all listen to you!"

Li Ba said.

"Yes boss, just tell us what to do!"

Wolf Ba also agreed, the road had come to this point, there was nothing else they could do but choose to trust Lin Ran!

“Mhm!”

Lin Ran nodded his head, then said as he gazed towards the crowd.

“I’ll strike out towards the east, Wolf Ba Li Ba you guys choose another direction at random!”

“Puppet, the last position is yours!”

“Understood!”

The black puppet nodded.

At this moment, there were only a few people that Lin Ran’s side could use, so everyone had to coordinate with each other!

Otherwise, if they were really caught up by Wang Mang and the others, then things would probably be even more complicated!

Under Lin Ran’s arrangement, the crowd quickly chose their respective stations.

Lin Ran didn’t say anything, and immediately greeted.

“On my command, everyone prepare to attack, when I say strike! You guys just do it!”

“Yes!”

“Yes!”

“Understood!”

The three of them returned at the same time.

Lin Ran immediately stopped talking and began to wait for the right moment with full concentration.

Luckily, it didn’t take long, and after just a few moments, Lin Ran spoke up.

“Strike!”

“Bang bang bang!”

The moment the words fell, four attacks came out almost simultaneously, sweeping towards the red fog of the formation right in front of them.

At this moment, all four of them could clearly see that a light had actually lit up on the formation in front of them.

At the same time, the red ripples of the formation rippled directly up, as if the entire formation was becoming shaky.

“Very good! Do it again!”

Lin Ran was satisfied at the sight.

The crowd didn't slow down either, knowing that time was running out, they immediately followed Lin Ran's lead and continued to strike!

"Bang bang bang!"

The second attack was soon renewed.

This time, the crowd could clearly see that the red formation around them was shaking even more violently.

They could even faintly hear the crunching sound of "click" coming from the surroundings!

"Big brother, that kid can break through this Four Harmonies Formation!"

Outside the formation, a white-robed figure said, with a vague worry in his eyes.

"It can't be helped, the other party obviously knows about the Four Harmonies Formation, let's go out and stabilise the formation!"

The white robed figure in the lead was busy saying.

"Good!"

The other three hurriedly catered to this at his words, and immediately the crowd began to return to their respective positions and began to stabilise the formation.

"Strike for the third time!"

Within the formation, Lin Ran had already organised the men to begin a third attack.

However, although there was also an explosive sound after this attack, the red formation did not visibly shake, as if it could already resist their attacks.

Lin Ran frowned and did not say a word. The moment he had just struck, he clearly felt four channels of power pouring in from within the formation at the same time.

The attacks from him and Wolf Ba and the others were just about cancelled out!

"There really is someone out there!"

Lin Ran was even more certain of the suspicion in his mind, but a smile also appeared at the corner of his eyes.

He didn't explain either and greeted with a smile.

"Come again!"

"Good!"

The three Wolf Ba's replied at the same time, and immediately the attacks all brewed up.

This time, Lin Ran, on the other hand, was a little more mindful as he infused a wisp of divine sense into his Frost Condensation Sword.

"Strike!"

Soon, a fourth attack appeared, only to see Lin Ran's sword aura instantly disappearing into the white fog in front of him.

Although afterwards, it heavily stroked the red formation.

As expected, this time the red formation still did not fluctuate at all.

Wolf Ba and other people looking at it already began to be a bit drummed.

Apart from the first two times when there were obvious fluctuations, their own attacks were not effective at all.

For a while, even the black puppet had doubts about Lin Ran's ability!

But Lin Ran didn't explain, his face had a faint smile on it, and then he actually shouted out.

"Explode!"

The words rang out, and in an instant, a muffled "bang" sound was heard from ahead.

Then a young man's scream of "Ah!" rang out.

"Lao Er!"

Outside the formation, the white-robed boss had shock in his eyes.

At this moment, his companion had already fallen to the ground not far away from him, with pain in his eyes!

"It's really working!"

Lin Ran was pleasantly surprised in his heart, and was busy greeting the crowd.

"Quick! Keep striking!"

"Good!"

Wolf Ba and the others didn't dare to slow down at the words, and they all immediately struck again with desperation!

And this time, Lin Ran saw the right moment and slashed out with his sword.

In an instant, all four attacks slashed towards the red formation in unison.

The next moment, the entire red formation began to shake violently.

Then with a bang, the entire red formation instantly shattered, revealing the four white figures outside!

"The Four Harmonious Generals! It's really you guys!"

Seeing the four of them, Lin Ran instantly recognised them.

He had heard Feng Sui mention some of the power of the Heavenly King Fort, and this Four Harmonious Generals were a well-known existence among them.

It was just that he didn't expect that the Heavenly King's Fort would actually put down such a huge amount of blood money this time, allowing the Four Harmonious Generals to enter this Land of Opportunity.

Moreover, the ambition of this Heavenly King's Castle was really big.

By arranging the Four Harmonious Generals here, its intentions were simply more than obvious.

It was feared that even without his own shortcut and allowing his other cultivators to obtain the inheritance within this Immortal Mansion, he was afraid that he would not go out at all.

The exit had a four-way general handle, so who could easily leave without leaving something behind.

It was a pity that they had run into themselves this time!

Trying to get himself to hand over something was obviously impossible!

Wonder Doctor Chapter 1970

"Who are you?"

The youth leading the Four Heavies looked at Lin Ran with some doubt in his eyes.

They didn't know Lin Ran, instead they knew Wolf Ba.

They had thought that the person who recognized them would be him, but it turned out to be this kid.

But soon they were relieved, after all, Wolf Ba was in cahoots with that kid at first glance, so it wasn't surprising that he knew about himself.

"Kid, since you know about us, then be a good boy and surrender, no one is a match for the four of us in this land of Immortal Mansions!"

The youth at the head of the group opened his mouth and said blandly.

"Boss!"

Wolf Ba was busy looking towards Lin Ran and said.

"These four are all at the peak of the Extreme Dao Realm in strength, but the four of them work very well together, they were the ones who trapped me in the first place before I was sneakily attacked by Wang Mang and won!"

"Hm!"

Lin Ran nodded, and then looked at the four men and said.

"So?"

"So what? So if you want to get out, hand over what's on you, or else then you know the outcome today!"

The leader of the Four Horsemen had a morose look in his eyes.

"Boss or I'll go and hold them off while you guys take advantage of the opportunity."

Wolf Ba said.

Lin Ran, however, waved his hand.

“No need, leave the four of them to me, you have someone else to deal with!”

“Who?”

Wolf Ba was puzzled.

But before Lin Ran could say anything, a whistling sound came from the back.

At once, Wang Mang rushed over with the people from the Heavenly King Fort.

And behind the Heavenly King Fort, there was clearly Leng Han and the others following.

“Deceased brother?”

Seeing Lin Ran, Leng Han and the others couldn't help but be stunned.

In particular, there was shock in Mai Shen's eyes.

“Kid! So it's you! What a surprise, I didn't expect you to be the one who ended up first!”

When he saw Lin Ran, there was an icy killing intent in Wang Mang's eyes.

At this moment, some of the surrounding casual cultivators were also a little red-eyed.

If Lin Ran was really the one who had gotten there first, then he must have a lot of treasures on his body.

“Brother Deceased, where is my sister?”

Leng Han also reacted at this moment and busily opened his mouth to ask.

“She's safe, she should have gone out by now!”

Lin Ran said indifferently.

Leng Han couldn't help but breathe a sigh of relief at his words, hearing this news still made him very relieved.

“Humph! I'm afraid you arranged that too!”

Wang Mang sneered.

“Kid, you're really lucky to have obtained the puppet within this Immortal Mansion!”

“But it's time for everything to end!”

Wang Mang said as a cold mane was already drawn out, clearly ready to make his move!

“Wolf Ba! He'll be in your hands! Li Ba guard the perimeter!”

Lin Ran spoke, by now Li and Xiao Jiu had already been taken into his scroll space.

“Don’t worry boss!”

“Leave it to me!”

The two responded.

Lin Ran didn’t say anything, and immediately took a step across towards the quadruple general in front of him and rushed forward.

Since the black puppet was the steward of this land of immortal mansions, it was not allowed to make a move against these cultivators who had come looking for a chance!

Of course, if someone was not open-minded enough to make a move against him, then it was not his fault.

This point seemed to be clear to Wang Mang, so none of his men actually bothered with the black puppet.

“Make a move!”

It was unknown who shouted, and instantly the tense situation exploded straight away.

Lin Ran took the lead and directly met the Four Harmonious Generals.

Wolf Ba, on the other hand, fought with Wang Mang.

The rest of the Tianwang Fort’s men were trembling with Li Ba.

Li Ba was very strong, and at this time, he was facing some people who were only in the Extreme Dao Realm raw the Third Dao Realm, so the pressure was naturally minimal.

The ones who were having the hardest time were Lin Ran and Wolf Ba!

Wolf Ba not only had to face Wang Mang, but also that Tie Ta Elder.

In this Land of Immortal Emperors, the Hundred Thousand Eight Thousand Realms could not give Wolf Ba much there power at all.

This was because everyone’s strength was suppressed at the Extreme Dao Realm.

And an existence like Lin Ran at the Third Dao Realm could and would have some advantage since.

However, when faced with four well-matched peak Extreme Dao Realm powerhouses, Lin Ran still felt the pressure very quickly.

He saw that the four combined generals were all working together very well, both in attack and defence.

There was no time for Lin Ran to find their weaknesses, as two of them would end their attacks and another two would attack.

Lin Ran was always in a position of exhaustion.

Wolf Fighter was relatively easier, after all, he only had two opponents, but at this moment Lin Ran was really being pressured.

“Master, why don’t I make a move!”

Qing Zi’s voice suddenly rang out.

“No need!”

Lin Ran refused straight away without even thinking about it.

“It’s hard to wake you up, if you’re injured and slumbering I won’t have the money to buy you divine sense herbs!”

“Er....”

“Don’t worry, I’m not at the end of my rope yet!”

Lin Ran smiled, followed by a flip of his palm instantly a strand of purple thunderbolt was like a wild python, lunging directly towards the Four Harmonious Generals.

“Heavenly thunder?”

Seeing this purple thunderbolt from Lin Ran, the Four Harmonious Generals were all stunned.

Lightning was fierce, and especially Heavenly Lightning was an extremely fierce existence in Heaven and Earth.

Without the divine lightning, there was almost no other power that could match the rigidity of the heavenly lightning.

That was why some sword and sword cultivators were extremely fond of cultivating the way of thunder and lightning.

And the Realm of Enlightenment is the basic realm where one can collect and pay for Heavenly Lightning.

But without the help of a power like the great clans, almost no one could collect Heavenly Lightning at the Dao of Enlightenment realm.

If Leng Qiu could possess a weakened Heavenly Lightning at the Heavenly Mansion realm, that was also due to the greatness of the family behind him.

So when they saw that Lin Ran, a person who had just stepped into the Third Dao Realm, could possess Heavenly Lightning, the Four Harmonious Generals were all extremely shocked.

“This kid must have a lot of chances on him, we will definitely be rewarded heavily for taking him down and keeping him back!”

The leader of the Four Harmonious Generals said excitedly.

“Good!”

The other three people also came to their feet at the sound of his words.

If they could take Lin Ran down and receive a reward from the fortress lord, that was naturally the outcome they wanted the most!

“Rumble!”

The Four Harmonious Generals struck out one after another, and in an instant, they only saw a huge white formation actually emerge out of thin air in midair.

This formation was like a golden bell, steadily enveloping Lin Ran inside.

The four people outside were constantly attacking towards Lin Ran, trapping him inside for a while.

“Boss!”

“Boss!”

Seeing this scene, Wolf Ba and Li Ba both couldn't help but tense up.

They were both very strong after all, so they were able to handle it with ease even though they were struggling.

As a result, Lin Ran was directly surrounded by the Four Harmonious Generals, which was the worst possible situation for them!

Lin Ran had no idea what was happening outside.

The moment the golden bell enveloped him, he had lost all sense of the outside world.

In front of him, there was only a huge golden bell at the moment, constantly emitting a buzzing chime.

“Go!”

Lin Ran slashed out with his sword, and in an instant, the sword was like a waterfall, slashing directly towards the golden bell in front of him.

The next moment, only two loud thuds could be heard, and the golden bell trembled.

But in the end, that was all, the golden bell didn't show any sign of breaking open!

“This Golden Bell is in a bit of trouble!”

Lin Ran frowned slightly as the Qi within his body brewed and the first stance of the Lancang Sword Technique, the Sea of Immeasurable, instantly slashed out.
