

## Chapter 1981 - Battle for glory

All the Celestial Array mages aimed their attack targets on the hilltop of No. 112 Heights, and they launched very high concentration of scarlet fireballs and landed on the position of No. 112 Heights.

Because both sides rushed out of the trenches and fought together, when the scarlet fireball landed, all those within the range were killed.

But even so, after the players of the Jagged Brotherhood were resurrected on the spot, they still picked up their equipment and stood up and continued to charge.

The century-old battle will always be at the forefront. For this battle, he deliberately put away his skin and exposed his original appearance. The fifty-three-year-old old man just fell down again and again with such an angry roar, standing again and again. Get up and charge forward.

Du Bin was broadcasting the war. Seeing the old man's desperate charge time and time again, he found Tu Feng and wanted to come to the life of the old man.

"Hundred years of warfare, an old man who was fifty-three years old joined the Jagged Brotherhood six years ago and fought the Bloodthirsty Overlord with Lu Yang. He participated in every war in the national service.

He is not a master, no super fast reaction speed, no particularly powerful game understanding ability, he is an ordinary to no more ordinary player.

But he has a sense of honor, a sense of honor that belongs to him hidden deep in his heart, national clothing, no one can provoke, no one can defeat the iron brothers.

He participates in every war in the New World. He knows that he can't play a big role, so he does what he can. Whenever the guild needs someone to come forward, he will always be the first. Whenever the guild pays benefits At that time, he will always stand at the back.

So far, his guild points have reached 1.2 million. He has worked hard for more than six years and has not actively asked Lu Yang for anything. He has only one request, that is, he hopes that Lu Yang can lead the national service to dominate the world and let the whole world All players in the world know that the national service needs them to respect.

Now, this is his last battle. It is the last battle before the old man retires. This is also the last thing he can do for the Jagged Brotherhood, which is inheritance.

He wants to pass on the will of their first generation of Jagged Brothers players, and let the players who join the Jagged Brothers see later. This is why the Jagged Brothers can stand on the top of the world on behalf of the national uniform. It is dedication and selflessness. The dedication is for the guild, for the dedication of the entire Game City, the game is their belief, and the Game City and the Jagged Brotherhood are their glory. “

This passage was temporarily written by Lu Yang, and it was his best compliment and honor from the chairman of the Iron-Blooded Brotherhood before his brother retired.

He wanted to let all the Jagged Brothers players know about this war, and they all knew this veteran who had been killed by flames and enemy attacks countless times, and got up and picked up equipment to continue fighting countless times.

“The veteran is immortal, and the will is inherited. As long as they are there, the Jagged Brotherhood will never decline. I believe that the future of the Jagged Brotherhood will only become more and more glorious.” Du Bin shouted excitedly into the microphone.

He is already crazy, and hundreds of millions of players watching the live broadcast are also crazy. The look of the old man fighting desperately has been deeply imprinted in their minds.

The point is that not only the old man is like this, all players who have followed the centuries-old battle are fighting the enemy in this state.

Players of the Jagged Brotherhood in other regions also want to do this, but without heavy artillery support, they have no way.

From the perspective of the sky, the 1.3 million players in charge of the Jagged Brotherhood's offensive have been completely mad, regardless of their level, they are rushing to die with the enemy.

Many people rushed to the enemy in front of the enemy with a bunch of slaying thunders in their hands. The scope of slaying thunders was too narrow, only about 1 meter, and there were terrain restrictions. If they failed to hit, there would be no effect.

If this was a unilateral struggle of the Jagged Brotherhood, it would not resonate much, but the enemy was Chekova, the Double-Headed Eagle Guild.

Facing the life and death of the double-headed eagle guild, it also burst out with a great desire to survive. Just after the loss of height 112, Chikova personally led the main force to counterattack. She did not resist after a century of fighting and resisted, and was beaten back.

But with Chekova's departure, the 486th Highland was defeated by Chang Shanhu, the commander of the Jagged Brothers League. This is a young player with a very good family environment. He has fought with the Jagged Brothers for four years in the war. He graduated from university and was admitted as a civil servant. He needs to work in the unit, so he also participated in this charge.

As they descended from Heights No. 486, Chekova carried the main force and began to counterattack. But this time, Chang Shanhu and the team were much stronger than they had fought for a hundred years, so that Chekova never came down. Not only did Chekova experience, also made all the national costume audience crazy cheer for him.

Chang Shanhu didn't know that he was being broadcasted at this time. He only knew that he was going to guard No. 486. He watched his companions who were resurrected one by one, and their level had fallen by 4, Chang Shanhu said with moist eyes: "Brothers, do not leave any regrets, let the brothers later know what is the glory of the Jagged Brotherhood, what is the glory of the national server player, doesn't Chekova want to counterattack? We don't need him to attack, let's continue. , Once again shout out the slogan Let's open."

“Iron Brothers, kill~!” Hundreds of people started a counter-charge towards Chekova who was attacking at the foot of the mountain.

Many of the hundreds of millions of national server players who were watching the war shed tears on the spot. Du Bin resisted the tears and said excitedly: “The national server has the Jagged Brotherhood and Lu Yang. It is an honor for our national server. I really want to know what kind of person Lu Yang is, letting so many brothers fight hard for him and for the iron-blooded brotherhood.”

Although there have been countless interviews, at this moment, it is still unimaginable that the Jagged Brotherhood and the War Studio are spiritual and a real existence, but these two things, how can you let them join the Jagged Brotherhood? Players will do so desperately.

As Chang Shanhu blocked Chekova, follow-up reinforcements came and temporarily laid down No. 486 Highland. Highland battles were successively won in other areas. Those who won the battle would attack from the highlands to both sides.

At this time, if it is Roland’s guild or Tom’s guild player, it will retreat, but this is the double-headed eagle guild, the guild of Chekova and Radvedev. It has always been fighting with blood and will It is famous all over the world.

Every area occupied by the Jagged Brothers was met with the fiercest counterattack from the double-headed eagle guild players, and the two sides were very glued.

Chapter 1982 - There is a problem with the affiliated guild

In the evening.

One day's \*\*\*\* battle ended, and the players of the Jagged Brotherhood stopped the war. There were more than 1,000 highlands in total. The Jagged Brothers took down more than 500, and more than 600 were under the control of the Double-Headed Eagle Guild.

In reality, when night falls, the players of the Jagged Brotherhood wear helmets to rest. They know that war may start at night at any time.

On the other side, Chekova personally took the players to touch the high ground. For the Jagged Brothers, this is an offensive battle. It doesn't matter if you lose, you are happier if you win. But for Chekova and the Double-Headed Eagle Guild For all players, losing means that their home is gone.

In order to protect their homeland, they desperately wanted to take back the high ground that was laid down by the Jagged Brothers at 3 o'clock in the morning.

"Swish"

Dozens of flare flares rose above these 1,000 highlands at the same time, and exploded after reaching the highest altitude.

Chekova held a two-handed sword and roared: "Brothers will attack with me and take back the high ground, Ula!"

"Ula~!"

Hundreds of thousands of double-headed eagle guild players roared towards more than 500 highlands occupied by the Jagged Brotherhood.

The centuries-old campaign has reached its twilight years, and he sleeps less. He is on duty at night, and when he sees the signal flare, he wakes up all his brothers.

"Brothers, the \*\*\*\* battle is here, rush with me." The first one in the century-old campaign launched a counter-charge to the enemy, and the two sides entered the \*\*\*\* battle again.

The live broadcast footage was instantly drawn to the battlefield on the top of the mountain. Not only the players on both sides who did not sleep at night, but also hundreds of anchors on both sides, and hundreds of millions of players around the world, they were all watching the battle.

“Sure enough, I’m hitting, the Iron Brothers, come on.”

“Ula, the two-headed eagle guild will win.”

...

Players who supported both sides started a scolding battle in the major live broadcast rooms, and on the battlefield, Lu Yang also appeared with some of the main players, but the other 1.7 million players were still resting and they were not online.

“Boss, if you only rely on these brothers for support, I’m afraid they won’t be able to hold it. Why don’t you replace them later in the night.” White Lion asked.

Lu Yang shook his head and said firmly: “Never change players, continue to let the brothers hold on, no one knows what the subsequent war will look like, we can’t be careless.”

Steiger did not act, and Liu Jie did not act. This is very abnormal. It stands to reason that the two of them will fight back with all their strength. Now they are not attacking. It can only be said that they are holding big moves. Otherwise, Chekova is dead. The next bad luck is the two of them, they will not fail to realize this.

But the problem now is that Lu Yang asked Tu Feng to mobilize all the spies, but Liu Jie and Steiger remained unmoved, but the main force under them was missing.

No matter how hard Lu Yang tried to find them, he couldn’t find these people. What was even more surprising was that the two of them didn’t even want the farming area, obviously they were going to make the last fight with the Jagged Brothers.

Lu Yang was also curious as to what the two of them wanted to do, but unfortunately, he couldn't find any clues, but there was such a news.

There are several behind-the-scenes consortia in Europe. They are trying their best to send funds to Liu Jie and Steiger, so that the two of them don't care about the development of money, and the news from the available information will match them with those dark warriors, Behind the scenes of organizations such as temples and saints.

Lu Yang originally thought that these bosses behind the scenes were people related to game developers, but now it seems that it is far more than that simple. Since these people can make the old European chaebols come up with money to support others, why Can't let them take money to support themselves.

If these big consortia started to throw money in, Europe would have flattened the whole world. As early as 3 years ago, the Jagged Brotherhood was far less rich than it is now. With the power of the ancient European chaebols at that time and fighting with cash, Lu Yang Lian Can't support it for a week.

Not to mention that you can't beat it head-on, just the other party spends money to buy it, and with the current funds of 50 or 60 billion euros, it also disintegrates the Jagged Brothers.

But they didn't have that many at the time, but they are doing it now, and not only their family, but also many consortia have been engaged in the game city model recently.

On the bright side, it looks like they are building their own game city, but how do you look at the architectural style, it feels like you are building an apocalyptic base? One of the special buildings is 50 meters underground and the whole building has 20 floors. , Extends to more than 200 meters underground, including swimming pools, gardens, vegetable bases and energy supply areas.

Lu Yang felt at a loss when he saw this news. He didn't know what the group of people were going to do. But obviously, with the increase of game cities, the power of various countries is gradually rising, which is why there are so many regional rebellions in the New World. .

Lu Yang originally thought that after returning to the old continent, he would sell the major guilds, but now he needs to put it on his agenda.

“This war will not come to fruition within a few days, so go ahead and fight, I’m going to negotiate with others,” Lu Yang said.

It was early morning in the country here, but it was noon in the European countries. Lu Yang left the battlefield, found a quiet place and entered the special space.

After a flash of light, Padu, Darvi and others appeared in front of Lu Yang first. Seeing their twinkling eyes, Lu Yang knew that Padu and Darvi had already discussed the details with the boss of their newly built game city in China. Plan.

“Tell me, what do you guys think.” Lu Yang asked with a smile.

Padu looked calm and looked at Lu Yang and said, “Boss, it’s time for me to run at the end of the year. You promised me and you will give me your full support.”

Darvi gave her a sneer and said: “Boss, tell you the truth, our country’s biggest rich people have found us and asked to jointly establish a game city. We have to give in. If we dare to say nothing, You won’t see us tomorrow.”

Lu Yang nodded clearly, frowned and asked, “As for a game, does it involve so many people?”

Darvi is the closest to Lu Yang. Back then, she also said that if Lu Yang sold their affiliated guild, she would join the Jagged Brotherhood with the main force. However, the reality of the domestic situation in China has changed, making this idea infeasible. Now that this scene is reached, Darvi is also very sentimental.

“We don’t know what’s going on, but the rich people who control this country in the country have all appeared. They talk to us together. We are not qualified to say no, and it is obvious that they will gradually take away our rights, but we still There is no right to say no.” Darvi said.

## Chapter 1983 - Lu Yang sells all affiliated guilds

Lu Yang was surprised, knowing that there was no point in discussing these things with Darvi and the others, and said with a smile: "Let your boss behind the scenes enter a special space. I'll talk to him about the follow-up."

Padu nodded, but Darvi gritted his teeth and said: "Boss, no matter what time you are, you are my boss. Following you for so many years is the happiest time in my life, so this time, I must stand on your side, I will bring him over, but I will not leave. The negotiation conditions must be in your favor, otherwise, I will never agree."

Lu Yang didn't expect Darvi to treat him so lovingly and righteously. He smiled and shook his head, and said, "Silly girl, you don't know how rich I am, don't get mixed up. You've been with me for so long. I will treat you badly. I will indicate in the contract that your rights cannot be reduced and your status cannot be changed. Otherwise, I will definitely not sign this contract and go out."

Padu and Darvi looked at Lu Yang in surprise. Padu's eyes flashed with a peculiar light, but she didn't say much to leave. Darvi wanted to say anything, but Lu Yang didn't agree and let her leave.

The next second, when the two of them quit, an elderly person with fair skin appeared in Lu Yang's special space. After seeing Lu Yang, he greeted him slightly, smiled and sat opposite Lu Yang, and said, "It's Rudlow, I have met the president of the Jagged Brotherhood."

Lu Yang smiled and said, "Just talk about the price. I know I can't find any news from you. Tell me how much money you can give me to purchase my affiliated guild."

At that time, Lu Yang made Pado and Darvi, as well as Ayala, and even Sidder and others established the guild, the shares were all owned by Lu Yang personally, with absolute controlling rights.

That's what Rudro was upset about, smiling and saying, "5 billion euros."

Lu Yang smiled, shook his head and said, "This is just one year's net income of my affiliated guild. The money I earn in a year, I want to buy my affiliated guild, it's too cheap."

Rudlow asked, "You make a price."

Lu Yang said: "20 billion euros."

Rudlow smiled and said, "Yes, that's it."

Lu Yang was stunned. He was purely fooling people. The so-called skyrocketing price and paying back the money, he called the highest price, why did Rudlow agree.

"There is one more requirement." Lu Yang thought for a while, and said, "Thank you for an explanation, or a suggestion, why you should do this."

Rudlow was still smiling and said, "My friend, what I can tell you is that you need to accumulate a lot of food. I buy your game city in our country. The reason is that your game city is built on food. In the harvest area, buying yours directly is more suitable than building another one by myself, and I can save a lot of trouble."

Lu Yang frowned. He didn't know what Rudro meant, but he knew that Rudro, among Tu Feng's spies, had infiltrated the mysterious organization in the game in their country called the Celestial Army.

Since the appearance of the Celestial Legion, Rudro began to be active around Padu and Darvi. Although they thought they were acting secretly, Tu Feng's spies had long been placed by Padu's side, so Lu Yang It is very clear about this matter.

"Well, the affiliated guild is yours. At the same time, Padu and Darvi are not allowed to change their positions. They still enjoy all the guild benefits, and you can't fight me within 1 year."

Rudlow looked at Lu Yang and smiled, and said, "Do you think we brought back the guild to fight the national war? You were wrong. We have no idea of fighting with you. Let's play your war game with peace of mind. Within, we will never have a war."

Lu Yang looked at Rudro's smile. This was the first time he felt that the negotiation was at a disadvantage. Moreover, Rudro didn't seem to care about the game very much, which gave him a way of acting on Rudro's side. Strong curiosity.

At the moment, the two signed the contract. In addition to the things mentioned above, the Jagged Brotherhood will still own 1% of their guild in the next two years to ensure that they are nominally Jagged. The affiliated guild of the Brotherhood.

At this point, in the Jagged Brotherhood, the affiliated guild established by Padu and Darvi and others, the northeast corner of the entire New World is no longer a territory of the Jagged Brotherhood, but has officially become Rudro's control area.

After signing the first contract here, without waiting for Lu Yang to think about it, the second person came to the door, Ayala.

"Boss, I'm sorry, I have no right to refuse." Ayala said desperately.

Lu Yang frowned, and said, "Padu and the others left is the behavior of the ancient chaebol in the country. What's wrong with you."

Ayala said: "The Babur family and the Cedina family found me together with more than a dozen large families in the United Nations. I can't afford them."

Lu Yang did not speak, but continued to look at Ayala. Ayala gritted her teeth and said, "Boss, tell you a secret. Although I don't know what they are going to do, they have already made a decision and are buying the guild. After that, new houses will be built around the game city we built. These houses are all built underground. The thickness of the cement is 10 meters, or the hardest cement. I don't know the specifics."

Lu Yang frowned. It was another organization that had begun to establish the dungeon model, giving Lu Yang the feeling that the world was about to explode.

He said to Araya: "The time we two cooperated is not short, and we are also good friends. Although I don't know the specific situation on your side, the relationship between our friends will not change. Will

agree to sell. I believe that with your appearance, I don't need to do anything. But there is one thing you have to remember. If there is any problem in the future, when needs help, find me as soon as possible. I will definitely not stand idly by."

This sentence was also quietly sent to Darvi when he left in Darvi, there is only so much he can do.

In the three-and-a-half years since the New World Service opened, Lu Yang swept the world, not only relying on the Jagged Brotherhood, but also benefiting from the full assistance of Darvi and Ayala.

Stability in the rear is the basis for Lu Yang to open up ahead. Now that the day of breaking up, Lu Yang can't help but remember their original credit.

Ayala didn't expect Lu Yang to say such words, and felt uncomfortable for a while, and said, "Thank you, boss, we will always be friends."

Lu Yang said, "Call your boss behind the scenes to send it."

Ayala gave a hum, and a ray of light flashed. A very handsome young man appeared beside Ayala. After landing, he took Ayala's arm very naturally and smiled at Lu Yang and said: "Chairman Lu Yang, thank you for your generosity. My name is Toure."

Lu Yang smiled and said, "I believe you have discussed it in private. I have different conditions between you and Padu. Padu's combat strength is not good, but your combat strength is the same. First of all, I ask you not only to put out the same cash, but also to help me win this war."

Toure said with a smile: "Of course, we also hope to use this war to increase mutual cohesion."

Lu Yang said, "Then sign the contract and end the war as soon as possible."

Toure naturally had no objection. At the moment, the two signed the contract, and the Toure side also took out 20 billion euros in cash to buy the affiliated guild of Ayala, and also reserved 1% for the Jagged Brothers.

“Let’s go back and prepare for war.” Tourey gestured to Lu Yang slightly, and left with Ayala.

#### Chapter 1984 - Make crazy

Immediately afterwards, Sidder and the presidents of the affiliated guilds of Pons and Mariano all approached Lu Yang and signed a contract with Lu Yang.

The eleven most powerful affiliated guilds in the New World were all found to be separated from Lu Yang, and Lu Yang also collected 20 billion euros in cash from them and asked them to fight the war with all their strength. .

On the frontal battlefield.

By the evening of the fifth day, both sides on the Aral Mountain were exhausted from the fight. Just when Chekova was confident that it could block the Jagged Brotherhood, just when Steiger was about to send troops to fight.

Throughout the Aral Mountain, a horn sounded that confused hundreds of millions of players watching the video.

They had never heard of the chaos and solemnity of the sound. When everyone reacted, they discovered that behind the Jagged Brotherhood, there were countless more legions with a total of three or four hundred. Million.

This is the case here in Mount Aral. In the Steiger area opposite the Hundred Flowers Fortress, under the Iron Peacock Fortress, three to four million players have appeared, and countless flags have also appeared.

In front of the Chiefs Fortress, three or four million people gathered quickly, but the patterns on these flags were different from the previous affiliated guilds of the Jagged Brotherhood, but they were obviously members of the affiliated guild of the Jagged Brotherhood.

Inside the live broadcast room.

Players watching live broadcasts from various countries constantly switch between live broadcast scenes, watching more and more Jagged Brothers players outside the three fortresses, they are a little confused.

“The last time Lu Yang launched a war like this was when he was fighting Tom, did he fight this way?”

“It feels like there is no need to fight so hard, bit by bit, Liu Jie, Steiger and Chekova will definitely be defeated.”

“It’s strange, I feel that this time the affiliated guild of the Jagged Brotherhood is extraordinarily murderous, and it’s different from the previous indifferent attitude.”

“Their leader seems to have changed. Ayala and Padu are both standing next to them. The others are standing in the middle.”

...

The bewildered crowd looked at the leaders of each affiliated guild carefully, and sure enough, they found that they had changed. For a while, everyone was wondering who these people were.

Not only were they curious, but the Zhuojiu and White Lion around Lu Yang were also curious, and gathered around Lu Yang to inquire.

“Boss, what’s the situation?” said bitterly for a while, a little depressed: “The New World we finally managed to defeat, why are they sold.”

Lu Yang smiled and looked at the white lion, Zhuojiu and others, all with a gloomy expression, sighed, and said, "No way, this world seems to be destroyed."

"Huh?" Everyone was a little confused.

Lu Yang recounted the fact that Padu and Darvi, Li Wenxing, Ayala and others were personally acquired by their top ancient rich in China.

"If this matter is false, I would never agree to sell it, but I personally checked it, and our intelligence personnel also checked it. These ancient families have emerged, such as the Rothschild you are most familiar with. The Elder family, the current patriarch personally talked to me. They asked me to buy the area controlled by Tom and the game city we built in Yingjiang in reality. I asked them for 20 billion US dollars. They even felt that I was missing. , I sold it to us on the spot without counter-offering."

Everyone continues to be confused. They are not stupid. They all know that the New World can never be controlled for more than a year, because now there is chaos everywhere, and it is a large-scale disorder. Only by destroying the Tuntian item, they can make the Jagged Brothers League. lost heavily.

According to the most perfect model, within one year, the affiliated guilds in various regions can hand in about 15 billion US dollars in cash without any problems. According to the current chaos, it would be good to give 10 billion US dollars in two years, but now the other party Directly gave 20 billion US dollars in cash, which made Zhuojiu and White Lion both know what to say.

Lu Yang went on to say: "Not only that, but Rudro, the current patriarch of the country's largest family during the founding period of Pado, also personally walked in front of me to complete the transaction and gave us 20 billion euros.

On Ayala's side, Patriarch Toure of the Babur family also gave me 20 billion euros. The other families are like this. It's not whether I sell or not, but if I don't sell, Ayala and Li Wenxing Even though I didn't say clearly when these patriarchs met with me, they were full of threats. "

"This is too much." Zhou Tianming said angrily.

Lu Yang said: "If only these threats are easy to solve, the problem is that they all easily put out 20 billion euros. This is both a sincerity and a provocation. When the eleven of them are offline We have already negotiated. From the beginning of the negotiations with the first person to the end of the negotiations with the last person, everyone is 20 billion euros. If we disagree, the sum of these money will become the root cause of our destruction. In the long run, let's forget it."

When everyone heard about the amount of money, head was already overwhelmed. The 20 billion euros had too much impact on them. The main reason was that this was not one family, but eleven. Together, it is 240 billion euros, or cash.

At the same time, these places that were sold by Lu Yang could not fight with the Iron-Blood Brothers. They needed to help the Iron-Blood Brothers attack Liu Jie, Steiger and Chekova. They felt that this was a good thing.

Lu Yang said: "There is another good thing. After the war, I am going to distribute this money to everyone according to 50% of the shares. You guys now have about 5% of the remaining shares. Go back and calculate it yourself. How much money can you get."

If half of the 240 billion euros is removed, there is 120 billion. Even if they only have 5% of the shares, they can still get 6 billion euros, which is more than 50 billion when converted into credit points.

It is equivalent to saying that after this war, Xia Yuwei and Zhou Tianming are financially free. Although they have already been financially free, their financial freedom this time is different from before. This time they can enjoy life happily, so much. Money, they can do whatever they want.

Zhou Tianming looked at Lu Yang blankly and said, "Boss, what are you doing? We don't know how to spend so much money for us."

Zhuoju said, "Yes, so much money."

Lu Yang smiled and said, "Reward your rewards for following me for nearly seven years. Get ready for war."

Zhuojiu, Baishi and others nodded heavily, and ran back to their area to prepare, their hearts were completely occupied by excitement.

Lu Yang sat alone in the rear. He no longer needed to come forward in this battle. In fact, there is no problem if the Jagged Brothers did not participate, because this battle was not the Jagged Brothers wanted to fight, and Toure and Rudro wanted to fight. .

Chapter 1986 - The final trap

, The fastest update to the latest chapters of Rebirth of Fury Fire!

“Dididi”

“Dididi”

“Dididi”

...

Lu Yang’s phone rang frantically, and countless calls came at the same time. He opened it and saw that they were all large-scale media from all over the world, as well as the big bosses he was familiar with. The news was celebrated by Lu Yang, who unified the New World.

If he were an ordinary person, he would be madly happy at this time. Looking back on this life, Lu Yang was an ordinary person. As an ordinary person, in less than 7 years, He flattened the entire New World and became a substantial king, earning money that people all over the world could hardly imagine.

It is a pity that Lu Yang himself knew that he had crossed back, only after jumping off the bridge, he crossed back 10 years ago.

Now that three years have passed, Lu Yang feels that he should go back under the bridge and take a look to see what secrets there is.

However, in order to paralyze the enemies outside, Lu Yang still had to pretend, he needed to let Liu Jie know that he had lost his mind.

...

That afternoon.

Lu Yang held a press conference in the press conference room of the War Studio at the headquarters of the Jagged Brothers League. Nearly 20,000 people from more than 2,000 media from around the world gathered downstairs in the War Studio.

As a result, Lu Yang had to temporarily change the conference to be held outside. He showed a proud expression. In fact, he was really proud of himself. Even if he was a traverser, he had no contacts and no resources. He just relied on his own efforts. With the help of his brothers, the entire New World was laid down, how could he be unhappy.

“Crack”

“Crack”

...

When Lu Yang stepped onto the middle of the stage, countless flashes lighted up, and Lu Yang looked triumphantly at the more than 4,000 reporters in front of him.

Tu Feng stood by Lu Yang and was in charge of the order of this press conference. The reporters of the blockbuster wanted to rush to Lu Yang frantically, but they were stopped by the security guards under Black and White.

“Everyone speaks in order, and we will ask all the questions you want to ask.” Tu Feng said.

Everyone settled down. They raised their hands and looked at Lu Yang eagerly. Lu Yang also knew how important this moment was. He did not hesitate to give Du Bin the first opportunity to ask questions. A loyal fan.

“Du Bin, you can ask questions.” Lu Yang said.

Du Bin was extremely excited and asked excitedly: “Chairman Lu Yang, you have now unified the entire New World, how do you feel now?”

Lu Yang laughed and said, “Of course I am happy. Today I officially announced that the China First Guild Jagged Brotherhood has officially occupied the new continent and commanded the whole world.”

This live broadcast is synchronized globally, the whole world cheered, and the Jagged Brothers players on the scene were even more excited.

Lu Yang went on to say: “Starting in a week, there will be a grand party event that lasts for one month. The Jagged Brothers will invest 10 billion yuan to invite players from the Jagged Brothers from all over the world to come and celebrate. All board and lodging will be reimbursed. Drink for a month.”

The cheers were even more intense, because the win was too sudden, and Lu Yang didn’t prepare any celebration ceremony. He could only express his respect to all the Jagged Brothers players in this way.

The Jagged Brothers players all over the world are excited, but the players who are not the Jagged Brothers are sour, especially Liu Jie who is hiding in the dark.

“Boss, do you really want to give up the guild?” Ruyue Taishan looked at Liu Jie unwillingly and asked.

Liu Jie felt extremely uncomfortable at this time. After Radvedev and Chekova were completely defeated and retreated to the north of Mount Aral, Liu Jie had a premonition that they would lose.

Before Liu Jie saw turmoil in the area controlled by the Iron-Blood Brothers, he also felt that he could have a chance to comeback, but he did not expect that the turmoil within the Iron-Blood League was over and replaced by a new group of bosses.

He didn't know how much money these people had signed with Lu Yang, but he knew that there was a one-year clause in the contract, which meant that within this year, Lu Yang could use all the guilds in the world to fight against He launched a siege.

Liu Jie has earned nearly 3 billion Euros in recent years. The money is used for warfare. He can't hold on for 10 days. But if it is not until the end of the contract period between the guilds of various countries and the Jagged Brotherhood, he will There will be another opportunity for revenge.

"Don't worry, we hide for a year. After one year, we will regroup, but before that, you have to train a group of commanding masters for me. Let's work hard together and find Lu Yang revenge in a year." Liu Jie gritted his teeth and said.

Seeing that he could still make money, Ru Yue Taishan said excitedly: "Boss rest assured, this matter is left to me."

Liu Jie turned his head to look at the complacent look in Lu Yang's live broadcast, and said with a grin: "Lu Yang, you won't be proud for too long, you won't be proud for too long."

The dead grass ran over and said excitedly: "Lu Yang really doesn't care about us anymore. He has removed all the spies stationed in Africa, and we are no longer in personal danger."

Liu Jie said: "Don't be careless, Lu Yang will never let me go. We are dead enemies and continue to hide. It is nothing more than a year. After a year, players from all over the world besiege the Jagged Brotherhood. Lu Yang definitely Can't hold it back. At that time, we attacked Lu Yang together in reality and in the game and let him lose all the money.

Although Lu Yang seems to be very rich it was during the New World Period. If he returned to the Old World, Lu Yang could only control over 10 million players in his hands, facing a dozen countries around the world. In the invasion, Lu Yang must let all these ten million people participate in the war.

The cost of a month is more than 50 billion euros. Lu Yang will be finished if he persists for too long. Unfortunately, although this plan is good, Liu Jie does not know that Lu Yang has already received more than 200 billion euros in cash from various countries.

Rudlow, Toure and others did not disclose this number. Instead, they claimed to be threatening Lu Yang to get it. After all, they wanted to save face. They just said that they bought it. Players would not be convinced by them, but only said that they won. Only by coming back can the players really admire him.

What Lu Yang said to the outside world was because he had already laid down the entire new continent, he had no desires and desires, and there was no point in keeping it.

Although both sides hold different opinions, Lu Yang's achievements are recognized internationally. He was the first person to occupy the New World. No one can be stronger than him. This is a fact.

Liu Jie thought he had mastered Lu Yang's weaknesses, and while no one was paying attention to him, he sneaked away to the southernmost tip of Africa and hid the cash in his hand.

Chapter 1987 - The heart of the devil really exists

The other side.

The Jagged Brothers League started a month-long carnival, and Lu Yang also joined it, but after a week of carnival, Lu Yang himself took bodyguards such as Black and White and Han Ying to the magic city by plane, and then transferred to a helicopter. Came to the deep mountains in the suburbs.

“Okay, stop here.” Lu Yang asked the pilot to park the helicopter at the foot of a mountain.

“Okay, the plane landed.” The pilot issued an order, and several other planes that followed also landed.

When the plane landed smoothly, Han Ying’s third sister and brother jumped off the plane and looked to the left and right, and found that this is an ordinary mountain, nothing special, Han Fei asked curiously: “Brother, why are you here.”

Lu Yang smiled and hammered Han Fei’s shoulder. For nearly 7 years, Han Fei has been taller with him for a long time. He looked at the mountain with emotion and said, “Come up with me, I like this. local.”

Lu Yang couldn’t be more familiar with this mountain range. In his previous life, he ambushed at the door of Liu Jie’s house. After killing him, he took his third sister and brother Han Ying to escape, but was overtaken by the enemy. Lu Yang found the enemy and died together. After being drugged by Lu Yang, he stunned the three of them, and ran out alone to lead away the enemy.

The third sibling and Xiao Liang in the previous life were the closest to him, but the last life did not give them a good life. In this life, Lu Yang felt very satisfied, and the third siblings were living well.

The eldest sister Han Ying is already an international female star, and Han Fei and Han Yu are both handsome and cool boys. They are well-dressed and drive luxury cars. They can scream with girls wherever they go.

Reborn for the first time, Lu Yang lived up to his life, but now he wants to know how he himself crossed over, this place he must come to.

Right now, he led everyone up the mountain. When he reached the cliff on the top of the mountain, Lu Yang looked at the abyss below and said, “Follow me.”

Black and White had already prepared a rope, and tied one by one person. Except for Han Fei and Han Ying guarding it, the other twenty people climbed down with Lu Yang.

All the way down more than a thousand meters, everyone felt like they were in an underground crack, black and white lit the magnesium rod, frowned and said, "It's dark enough here."

Lu Yang also lit one, illuminating the surroundings brightly, but found that nothing could be seen below.

"I'll go down and take a look first." Hei Dao volunteered and accelerated the downward speed.

"Don't worry." Lu Yang shouted at the black knife. The sweat on his forehead had already flowed down. It was not tiring, but frightening, and said, "No one is allowed to speed up. Go with me slowly. Be optimistic. The surrounding situation is very dangerous here."

Hei Dao didn't care, but when he climbed more than 100 meters down, he suddenly felt a strange feeling around him. Looking back, the space illuminated by the magnesium rod was so distorted.

"Strange, what is this?" The black knife irradiated the magnesium rod to the position of the space, but at the moment the magnesium rod passed through the space, the part that passed through the space disappeared out of thin air, leaving only a handle for the black knife.

"Oh my God, what's going on." The cold sweat of the black knife started at that time.

Lu Yang also noticed the situation of the black knife, and quickly climbed over with Black and White. The group of people shone the light on this distorted space, but when the light passed through this space, it was also sucked in.

"This, this." Black and white felt that what he saw was beyond the scope of his understanding, and said, "What is this."

Lu Yang smiled. He knew that he should have jumped in this distorted space, but this distorted space was too small, and said, "Everyone, go up, you don't need your help for the rest. I will find it by myself."

"How can this work?" Black and white quickly grabbed Lu Yang and said, "Boss, this is too dangerous."

Lu Yang smiled and shook his head, and said, "This is my destiny. I want to know what is going on. Don't worry, I won't die."

"Then we are waiting here." Black and White said.

Lu Yang thought for a while and agreed, let them stay nearby, he walked in a deep pit in front of him.

This tunnel is very deep, and there are many similar spaces that are distorted. Lu Yang cautiously walked to the bottom of the tunnel. Under the distorted space, there was a crimson thing.

This thing has never been familiar to him in his entire life. Isn't that the broken piece of the Devil's Heart in the game? He was dazed to find a pair of pliers to clamp the broken piece, but the broken piece seemed to be inductive and instantly turned into Pieces of fire glow poured into Lu Yang's body.

Lu Yang thought he was dead, but he realized that this thing was not useful, blinked his eyes, and returned along the same path.

Black and White and Hei Dao and others looked at the time for more than an hour, and they almost couldn't help it. Suddenly seeing Lu Yang come out, they all ran over excitedly.

"Boss, what's the situation inside, is it dangerous?" Black and white asked nervously.

Lu Yang smiled and said, "I don't know if there is any danger. I have to go back and have a physical examination. Let's go. The harvest here is only that for now. I guess if I want to harvest any more, I have to find another way."

Everyone nodded and hurriedly took Lu Yang out of the dangerous area and returned to the magic city. Then, he conducted a whole-body inspection of Lu Yang's body in the magic city. Of course, as Lu Yang had guessed, nothing was found, that demon god. After the fragments of the heart entered his body, it was as if it had really disappeared.

But Lu Yang didn't believe this statement at all. The time and space distortion appeared for no reason, and it appeared in the position he passed through, and the Demon God's Heart also appeared in reality.

Although Lu Yang didn't want to believe it, how did he feel that this matter was related to the game?  
The story here is relevant.

Lu Yang decided to go back to the game and look for it. After he returned to the hotel, he put on a helmet and entered the game, but he had just entered the body of the game, and he found that the attributes of the body had changed greatly in the game.

Player: Lu Yang

Level: 190

Qi and blood: 100000/100000

Magic: 1000000/1000000

Physical attack: 100000-100000

Spell Attack: 200000—200000

Defense: 200,000

Law defense: 200,000

skill:

Divine Flame Sky Explosion Instant Explosion Technique Divine Flame Blast Wave

Magic skills:

Demon God's Wrath Destroy the World God Flame Sun Storm

Lu Yang looked at his attributes and skills in a daze. It stands to reason that his blood volume is not so high, even if he wears special equipment such as the heart of the devil and the Code of Rebellion, his blood volume is not enough. 100,000 points, the magic value is not enough to 1 million.

What's more, in the column of magical skills, he unexpectedly had three more god-level skills, which made Lu Yang confused. He hadn't learned it. The only explanation was that the heart of the demon \*\*\*\* entered his body.

#### Chapter 1988 - Invasion of another world

Recalling the old man in the cave under the Great Rift Valley on the north side of the city of St. Gall in the old world when he first entered the game to obtain the Heart of the Devil.

I remember that old man told him that he would look for him when he reached level 200. Now he is level 190. Lu Yang feels that he is now qualified to look for an old man, because his attributes have far exceeded level 200. The attributes of the player.

“Teleport the Old World”

Lu Yang chanted the spell, a flash of light flashed, and he appeared in the safe area of St. Gall City in the Old World.

At this time, there are still a large number of players in the safe zone, especially after Lu Yang has laid down the new continent, it has caused a wave of domestic players.

Lu Yang put on a cloak and hid in the crowd, quickly came to the north side of St. Gall, took out the archangel wings, and flew straight into the Great Rift Valley.

The wings were fast. A few minutes later, Lu Yang came to the middle of the sunset canyon, where the old man was. Behind the big tree with golden fruits, a skinny old man was sitting on the ground with his eyes inward. It was sunken, but his eyes still shone with dazzling light.

In the memory of the previous life, the old man's name was Caldas, one of the four demon gods of hell. In this life, Lu Yang wants to know what the old man's name is.

"You finally came." The old man stood up and looked at Lu Yang with a smile. At this moment, the old man was a real person, not a data.

Lu Yang smiled. Although a little creepy, he was very excited and said, "You really are not an NPC. Tell me, what's the matter?"

"My name is indeed Caldas." The old man stared at Lu Yang and said, "I don't have a lot of time to talk to you. Soon I will fall into a deep sleep. Two and a half years later, you will be born again in the last life. At that moment, the world will change a lot."

"What do you mean?" Lu Yang asked.

Caldas said: "You already know the story of the battle between the old gods and the new gods."

Lu Yang said, "Indeed, the old \*\*\*\* was killed by the new god."

Caldas said proudly: "That group of traitors are not qualified to kill us. Tell you, I am one of the old gods, the Fire God Emperor Caldas."

Lu Yang frowned and said, "I still don't understand what is going on."

Caldas smiled and said: "The last time you got the news, the old \*\*\*\* was secretly calculated by the new god. This is true. In order to protect ourselves, we old gods can only use our entire lives to escape.

Among the smart planets we can find, the Earth is the fourth. That is to say, after our home planet was calculated by the new gods, the old gods fled to the old continent, which is a real continent, and some fled to the new continent. The same world is also real, and some people, such as me and the God of Time, fled to the earth.

The new gods of the last life chased the earth on the day you committed suicide. The God of Time chose to blow himself up in order to save a few of us. It just so happened that your suicidal behavior caused you to fall into the vortex of the God of Time blew up, causing you to cross. , It also gives us 10 more years of preparation time.

You don't know, but in the past ten years, we have been trying our best to train you and the players in the entire human world so that you can understand the operation principles of magic, light spells, dark spells, etc. Three years later, the old gods will Open the channel to invade the earth. At the same time, the magical energy of another world will fill the whole world, and you will officially have the ability to release magic. "

Lu Yang felt that what he had heard was a very absurd thing, but he was a rebirth. This is an indisputable fact. The blazing demon God Caldas in front of him can also explain his rebirth clearly. Obviously, this is not fake, but true.

If it is true, then there is one thing that Lu Yang fears the most. He quickly asked: "Is there any chance of rebirth for other people, such as Liu Jie rebirth and kill me."

Caldas shook his head sadly, and said: "This is absolutely impossible. The reason for your crossing is that the God of Time blew up the Godhead. Now the God of Time is dead."

Lu Yang felt relieved and said, "Then what do I need to do now, why are you looking for me for a showdown?"

Caldas said: "The first thing is to build a safe area as soon as possible. The new gods will definitely conquer this place when they come here, but in the same way, their bodies can't come temporarily, and high-level gods can't come temporarily. The wormhole space is too small, and it takes time to expand. They can only send the lowest-level creatures here. Of course, these lowest-level creatures are not easily killed by weapons in this world. Finally, they still need spells. Destroy them.

One more thing, I hope you can retrieve all my \*\*\*\* heart fragments for me and eliminate those \*\*\*\* new \*\*\*\* traitors. If you are willing to help me, I will teach you higher after the energy of another world flows into this space. Order of spells. “

Lu Yang smiled. Although he felt this incident was absurd, he can only choose to believe it now, and said, “I have two more questions. Why did you choose me? Do you have other agents?”

Caldas was silent for a while, and said: “The reason for choosing you is a coincidence. As for other people, I suspect that there are traitors among us God Emperors. I can’t contact them, but you are destined to me.”

Lu Yang said: “I understand, since you are willing to trust me, then I am willing to trust you and leave it to me to collect the fragments of the Demon God’s Heart for you.”

Caldas nodded with satisfaction and said: “Now I am going to sleep. Finally, I will tell you one thing. The dark warriors, saints, temples and other organizations you have encountered will be Everything is clear. As for your enemy, Liu Jie, he still doesn’t know that he is just a peripheral member of the Dark Warrior organization and has now been abandoned.”

“Thank you,” Lu Yang said.

Caldas with a smile turned into a ray of light into the heart of the demon in Lu Yang’s body, and said, “From now on I will sleep in your body. I will wake up in 2 years. During these 2 years, unless something special happens. Don’t wake me up.”

Lu Yang nodded and said, “Okay.”

Caldas stopped talking and was completely calm.

Lu Yang found a stone and sat down and began to review what had happened before. He now understands why the real behind-the-scenes chaebols of various countries have come out and started buying affiliated guilds of the Jagged Brotherhood to establish a base in the end.

It turns out that the players in the affiliated guilds are all top masters in the game. Three years later, it is the easiest to train them to become fighters, and the other is the most trouble-free. People are gathered together, and they only need to build the end-time base.

#### Chapter 1989 - Ready to work

Another thing is that when the game was built, it was to train players to prepare for the invasion of another world, and organizations such as the Dark Warrior and the Temple entered the game ahead of time. Obviously, these people are the most powerful people in various countries.

“It seems that the Heavenly Dao Organization has also found out about the affairs of the other world, but they are looking for other gods. It is completely accidental that they can form an iron blood brotherhood.” Lu Yang muttered to himself.

Obviously, organizations such as Heavenly Dao and the Temple have already begun to study the following things, and Lu Yang also needs to prepare for the following things.

At the moment, Lu Yang no longer wasted time. After quitting the game, he found Tu Feng, Xiao Liang and Zhou Tianming and went up to the 33rd floor. He smiled and said, “What I say next may make you feel unbelievable, but the truth is It’s like this, you must be mentally prepared.”

Zhou Tianming was celebrating, and he said with a smile: “Boss, what else is so solemn, please tell me.”

Xiao Liang said, “I will always believe what you say.”

Tu Feng asked curiously: “Yes, we have always been loyal to your words.”

Lu Yang nodded and said, "Then listen carefully. What I want to tell you is that the earth is about to be invaded by another world."

Zhou Tianming: "..."

Xiao Liang: "..."

Tu Feng: "..."

"Uh..." Tu Feng looked at Lu Yang thoughtfully, and said, "Boss, this, not quite, your span is too big."

Zhou Tianming and Xiao Liang nodded together, and both of them were dumbfounded. If they hadn't confirmed that Lu Yang really had no problem, they would both think that Lu Yang had lost his mind.

Lu Yang smiled and said, "I know you don't believe it. Let me tell you why countries all over the world started building dungeons."

He told Zhou Tianming what Caldas had said to him and the things he encountered with the distortion of space, including the fact that he was a rebirth.

Lu Yang patted Xiao Liang on the shoulder and said, "Why do I hate Liu Jie so much? I was framed by Liu Jie in my last life and almost died. You blocked a shot for me to save me. I know you are my life. Brothers."

Xiao Liang was a little confused.

Lu Yang smiled and looked at the three and said, "Believe it or not, now I need to explain your follow-up. You two are responsible for overseeing the underground city. All our remaining funds are invested in the operation of the underground city."

"Okay, no problem." Zhou Tianming, Xiao Liang and Tu Feng said together.

Lu Yang went on to say: “The second thing is to summon the retired brothers, civil servants, and use the relationship to get them to work in the area near us, the army, and let them be transferred to the nearby army, but you remember Live, don’t let the outside world notice that we have problems, just pretend to imitate other people.

Knowing what Lu Yang meant, the three nodded in agreement.

Lu Yang signaled that the three of them could leave. Right now, after the three of them walked out of the office, they immediately entered the existing construction site and started supervision. Lu Yang found the parents of Xia Yuwei, Baishi and others, and ordered their family to start a big family. Build dungeons in batches, especially those in the mountains.

On the other side, among the players celebrating the victory in the Jagged Brothers League, a large number of players retired from the 1.3 million people.

Lu Yang found them one by one and asked them if they would like to work in the area near the Jagged Brothers League. Many people were willing, but they were afraid of causing trouble to Lu Yang. Lu Yang decided to come. He tried his best to transfer them all over. .

One month later.

Lu Yang used all his personal relationships in his life to start this big mobilization. At the same time, Lu Yang began to visit the construction areas of various countries in the world, pretending not to understand, and asking them why they wanted to build such a dungeon.

The reasons given by the bosses of various countries varied, but Lu Yang pretended not to believe it, and after returning, he stepped up his efforts to start building more dungeons.

This kind of future dungeon is very scary. The first one needs to be very large and can accommodate a lot of people. The second is that this kind of dungeon must have an independent power generation system and supply system.

Two and a half years was not enough, but Lu Yang hired a large number of workers, and the large number made the internal players feel crazy.

Fortunately, this area was built in the mountains behind the Iron-Blood Brotherhood. Not many people really know it, but Xia Yuwei and White Lion felt it out. Lu Yang and Tu Feng were both in an extremely nervous state. .

Inside the game.

After Lu Yang ran around the world, he continued to develop with his men. Now his attributes are exploding, and he took a thousand people directly to the bottom of the cold sky sea, and handed in the secret letter that Moata had hidden on the monster before his death. It was given to Billius, the \*\*\*\* of the water system, which directly triggered the war between the \*\*\*\* of water and the \*\*\*\* of wind.

What people did not expect was that when the water \*\*\*\* and the wind \*\*\*\* went to war, the last trace of peace between the gods of the new world was also torn off.

The earth \*\*\*\* was the first to join the war and formed an ally with the wind \*\*\*\* to jointly deal with the water god. The tree \*\*\*\* did not express any opinions. His men were divided into two groups, one to help the water \*\*\*\* and the other to help the earth god.

The God of Water was not alone and helpless. Thor went out to help the God of Water in the battle. After that, the God of Time, the God of Space, and the God of Light also went to the battle. Neither Death nor Vulcan played, but the two gods attacked each other. .

For a time, the entire new continent became one, and players from various countries did not wait to lament the success of the Jagged Brotherhood and Lu Yang before they were attracted by this new event.

Players all over the world were shocked by this kind of war scene. Various main gods led several middle gods and hundreds of thousands of lower gods to fight against the other main \*\*\*\* team.

Lu Yang was among them. One year later, his level reached 200, and there were 50,000 to 60,000 people who followed him to 200.

At the same time, the official version was updated.

System reminder: The Battle of the Old Gods and the New Gods expansion is officially open. Players should be prepared. The game will close in half an hour.

Lu Yang got out of the game helmet, walked to the bed, smiled and looked at the dungeon outside, which has been under construction for a year now.

More than 50,000 workers are working at their full capacity. At the current rate, two years later, a dungeon capable of holding one million people will be officially completed.

Zhuo Jiu, Bai Shi, Xia Yuwei and others arrived on the 33rd floor. After seeing Lu Yang, Zhuo Jiu frowned and said, "Boss, the contracts between us and the guilds of various countries are coming together. I am afraid that countries are coming to trouble us, do we have to find a way."

Lu Yang smiled and looked at their anxious expressions, and said, "Of course, you should prepare. After returning to the old continent, we must be attacked, but I guess the map of the old continent will not be the same as the new one. The official is not a forecast. Yes, the map of the Old World will change a lot."

Everyone nodded.

Lu Yang said, "After we open a new map, let's discuss what to do."

Over the past year, he has not told Zhuojiu, Baishi and others the secret. It is not that he does not trust them, but that this matter requires a cover to deceive outsiders.

Zhou Tianming claimed to the public that it was because of physical reasons that he no longer manages the internal affairs of the game. Xiao Liang chose to return to his family because of his accomplishments. As for Tu Feng, he has always been mysterious and in line with the style of the three of them.

As for the dirty wine and others, they are all too conspicuous. If they are all involved in this matter, there will be other things that will be caused by the lack of integrity.

## Chapter 1990 - Early invasion of the Dark God

Zhuojiu and White Lion also felt that Lu Yang seemed to be hiding something from them. After all, so many dungeons did not seem to be simply built to follow suit. There were also urban defense systems being built by various countries, as well as domestic cities. The defense system seems to have something big to happen.

But years of trust made them not doubt Lu Yang's actions at all. They knew that Lu Yang would never harm them. There must be some other reason that led Lu Yang to do this.

Zhuojiu said, "Boss, there is another thing. The brothers of the Jagged Brotherhood that we can gather are here. The main players who retired are either serving as officials or doing business near us. Many people asked about the built underground. When will the city open, they want to treat it as a tourist attraction."

Lu Yang's eyes lit up, and he was thinking about how to let the dungeon not be suspected by outsiders that he knew about the invasion of alien creatures while letting players from the Jagged Brotherhood enter.

Now that happens to be this opportunity, he said: "First open the first batch of dungeons that have been built, let them visit and play at will, and those who want to open a shop will open a shop in it, temporarily free of rent."

"Yes." Zhuojiu said.

Lu Yang looked at a few people and felt that he was almost there, and he could gradually reveal something to them. He said, "Since the dungeon is open, you will have to prepare a form in the near future. If the world changes, we from the Jagged Brothers League How to get in for refuge."

"Refuge?" The four of Zhuojiu, White Lion, Xia Yuwei, and Half a Life of Love looked at Lu Yang in shock at the same time.

"Boss, you don't think there will be an end in this world," he said with a smile. He didn't believe in the end of the world at all, even though such things are spreading in many places abroad.

Lu Yang smiled and said, "I don't know. Don't ask if you shouldn't ask. Do things well."

For half a life of bitter love, he held his mouth and looked at the light bulb. Anyway, he would do whatever his boss said, and he didn't want other things.

Xia Yuwei smiled and said: "Boss, even if it really seems to be the end of the outside legend, we are the easiest to avoid here, because within a hundred kilometers, we live in the Iron-Blood Brotherhood or have a relationship with the Iron-Blood Brotherhood. The people and the officials are all ours. You can say that millions of people in the Jagged Brotherhood can directly enter the now built dungeon."

If it is said that which city is the easiest to enter the underground city to escape, the development zone is undoubtedly the easiest.

Because there are 620,000 Jagged Brothers players who live here permanently, the total population is more than 2 million, including the parents and wives who followed them, and the total number of people doing business with the Jagged Brothers is 300. More than ten thousand people.

In other words, in this development zone, official orders are useless, but what Lu Yang said can play a decisive role.

Lu Yang said, "There will be a celebration ceremony soon, and then let's open it."

Xia Yuwei nodded, and several people left separately. In the next few days, Xia Yuwei and Zhuojia started the dungeon project.

Outsiders have been curious about what Lu Yang did to build these dungeons, but he didn't expect Lu Yang to turn into a huge underground shopping mall, which made everyone feel dumbfounded.

Especially the domestic Tiandao organization and foreign organizations that knew about these things. They thought Lu Yang knew about it. Obviously, they thought that Lu Yang didn't know about it.

A few days later.

The underground city is also a huge underground shopping mall. Lu Yang personally is responsible for cutting the ribbon. Like the stupid son of a landlord, he cheerfully announced that the underground city will become a new business district. Those insiders who have been paying attention to Luyang from various countries and China, They were even more happy, but when they were happy, a video made them all unhappy.

Africa, deep in the Sahara Desert.

A sand wearer is a group of wild survival players who like to challenge nature and conquer the desert. They are holding their mobile phones to start the live broadcast.

One of them, a fair-skinned boy of about 20 years old, pointed at the desert behind him with an exaggerated expression and shouted: "It's crazy. It's raining in the Sahara Desert. It's still raining for more than ten days. Look here. The scenery is so weird."

In the desert, there should have been yellow sands everywhere. At this time, a variety of plants have grown, all of which have never appeared in nature. However, these plants, if they are the life occupation of "Second World" Players will definitely recognize it, isn't this the herbal medicine for refining life and magic potions in the game?

Lu Yang was engaged in the opening ceremony of the underground shopping mall. Tu Feng took this video to Lu Yang. When he saw what was inside, Lu Yang's first reaction was, how come it came a year in advance.

The second reaction is that this may be Liu Jie doing a ghost, hiding in the desert, and the only person who has the opportunity to come into contact with the Dark Warrior organization is Liu Jie.

Indeed, this is what Liu Jie did. In the center of the Sahara Desert, Liu Jie has used a distorted time and space to construct a huge teleportation circle.

All members of the dark warrior organization are busy with this formation, and Liu Jie is also among them. Looking at the huge black space-time vortex that has formed in front of him, he and the face of the dead grass both sneered.

“Who would have thought that the members of the Dark Warrior Organization were actually Destroyers, and they had already obtained the Source of Darkness which really excites me.” Liu Jie was so excited that he almost laughed wildly. .

The so-called Destroyer hopes that the world will be mainly green, the existing technological world will be completely destroyed, and everyone will return to their natural life.

The source of darkness is actually the \*\*\*\* of darkness under the seat of the death \*\*\*\* among the old gods. When the \*\*\*\* of darkness was betrayed by his men and blew himself away from the plane, the \*\*\*\* of darkness secretly sent a trace of the source of darkness into the \*\*\*\* of death.

The direct result is that after the \*\*\*\* of death has crossed this plane, the \*\*\*\* of darkness can still perceive the world by virtue of the source of darkness.

Facing such a new human world, the God of Darkness did not recklessly notify other gods immediately, but he secretly contacted the humans in this world through the source of darkness.

The Dark God knows that these gods will come here sooner or later, so teach the humans who have a relationship with him in advance, and the Dark Warrior Organization is the lucky one.

Liu Jie also just learned the news, and the gods of different worlds will gradually break through in a year, but the dark warrior organization has arranged a teleportation array here, which can transmit the more powerful gods under the seat of darkness in advance.

A woman walked to Liu Jie's side. Although her skin was dark and black, which proved that she was a typical African, her figure and appearance were similar to those of Europeans, especially the beautiful face of the woman, which looked extremely beautiful.

She stretched out her hand to caress Liu Jie's face, and said to Liu Jie obsessively: "My dear, when the dark \*\*\*\* comes, you can go back to take revenge. No matter who the opponent is, you can't resist the power of darkness."

Liu Jie resisted the nausea in his heart, looked at the woman with an extremely admiring look and said: "Weida, thank you, but I don't know how to use the power of darkness."

Weida smiled triumphantly, leaning in Liu Jie's arms, and said, "I'll teach you, I already have your child, and we are a real family. I will teach you everything I have learned. ."

Liu Jie was in ecstasy, not caring about the child at all, and said, "Thank you, thank you, let's start now."

Weida nodded and hit a black spell, turning her and Liu Jie into shadows and disappeared in place. The next second, the two appeared in a room not far away, Weida sat on the ground and started Teach Liu Jie how to use spells.

The dark warrior group, which was casting spells in the distance to continue to open up the space, didn't care about this side of things, especially the boss of the dark warrior organization, that is, Wei Da's father, who was more pleased with this.

After the dark warrior organization here started to take action, on the other side, members of the other organizations saw the situation in the Sahara Desert and couldn't sit still anymore.

The original idea of these organizations was to wait for the gods of different worlds to open up the space to come to the world, but the dark warrior organization is a believer of the dark god, but they are not, especially the saint organization, which believes in the holy light, and the dark warrior organization It's the enemy.

None of the parties wanted to lose to the other for a year from the beginning, so they all contacted the gods of their faith through their own methods, and the gods also gave a way to release energy by distorting time and space.

Major organizations here have started their research, and on the other hand, what no one knows is that many countries have also discovered distorted time and space.

While Lu Yang was watching the video, Tu Feng said: "Boss, it seems that something really happened. Some countries are blowing up the distortion space."

"Om"

Lu Yang suddenly felt the heart of the Demon God tremble in his body. He hurriedly signaled Tu Feng to guard outside. He sat on the ground, and in a blink of an eye he entered the familiar Demon God space, and was comfortable with the Blazing Demon God, who is no different from the game. Stretched out and sat back on the steps of the Demon Temple.

"Devil." Lu Yang bowed respectfully to him.

The Demon God was still in an old form at this time, but he showed a confident smile that only an adult could have, and said to Lu Yang: "You don't have to be polite to me. Whether I can recover my body depends on your help. Therefore, you and I help each other. Relationship, I will let you learn magic and divine art, and your reward is to help me kill those new gods."

Lu Yang nodded and accepted the offer, but he was an apprentice after all. He sat under the steps on which the Demon God was lying and asked with a smile: "Why did you wake up early?"

The Demon God sighed, and said with a bit of irritation: "The humans in your world are too arrogant. They even used heavy weapons to warp time and space, telling you the news from me, there are stupid humans who have opened up the channels of other planes. In other words, your world is not only invaded by another world, but also by other worlds."

"How did you know?" Lu Yang asked curiously.

The devil said: "I sensed it, be prepared, your world will usher in great changes."

"What great change?" Lu Yang asked.

The demon \*\*\*\* laughed and said: "Destroy the world, those stupid politicians and scientists, they don't know that they have done so many stupid things, and hide themselves well. The alien gods will invade ahead of time."

Although the Demon God is a creature in a different world, he is hidden in the game, received all the information of this world, and knows the world Lu Yang is in.

Lu Yang asked, "When will we start learning spells?"

The Demon God smiled and said: "I can't teach you now. Your identity is too special. You will definitely be scrutinized by the spokespersons of the alien gods. I will wait until they have reviewed you before teaching."

Lu Yang nodded in agreement. After all, he, the holder of the Demon God's Heart, swept across the world. Even if this had nothing to do with the Demon God's body, the spokespersons would think of him over time and examine and scan him.

Lu Yang said, "I'll go back and try to protect my brothers first, and then I'll wait for your news."

The demon nodded.

Lu Yang's consciousness left the Demon Temple and returned to his body. As soon as he reacted, his mobile phone started to ring frantically. Qing Qian Zimeng called and said in a panic, "Boss, you may not believe it, but it is true. , My sisters just got the information that the monsters in the game have appeared in the real world. A large number of bugs appeared in the northwest of our country, northeast of India, and the great deserts of the United States. They killed creatures when they saw them, and saw humans. Just swallow, this world is crazy."

Lu Yang could feel the panic of Qingqian Zimeng, and said, "Quickly order your sisters to come back. The dungeon of the Jagged Brotherhood has a place for them to rest."

He hung up the phone, walked to Tu Feng's side, and led him outside. The press conference had been suspended, and everyone was frantically looking at the three-dimensional display on his arm.

Various news about the invasion of monsters in the different world and the distortion of time and space are madly reported by reporters from all over the world, even domestically.

Zhuojiu, Baishi, Xia Yuwei and others ran up to Lu Yang. Everyone was flustered. Zhuojiu said, "Boss, have you watched the news? What shall we do?"

Lu Yang said: "It's easy, all of you enter the dungeon. Since such a thing happens, let's move in early."

Xia Yuwei reacted and said with a sigh of relief: "Fortunately, I have prepared in advance."

Lu Yang said: "Notify the brothers in charge, will follow us in command, and the underground city also has their home."

"Yes." Zhuojiu, Baishi, Xia Yuwei and others said at the same time, then took out the phone and called one by one.

The players who have been gradually transferred to the development zone since last year moved quickly, and the game players from the Jagged Brotherhood headquarters also quickly began to gather.

In the game, players of the Jagged Brotherhood, like a war machine, are like a machine in reality, starting to enter the dungeon in an orderly manner to find a place to live.

Now they, for the time being, don't think the otherworld zergs seen on TV will do any harm to the human world, they all regard this as an entertainment matter, so no one seems panicked.

For a whole week, these 3 million talents all entered the 6 connected dungeons. On the last day, people stopped laughing, because a large number of gargoyles they had seen in the game actually flew. It reached the top of their heads, and tore up dozens of people who did not obey the command.

Fortunately, the garrison came and drove into the dungeon, protecting this area.

#### Chapter 1992 - Changes in the dungeon

Next, for six months in a row, the whole world was in panic. The weird zerg and evil humanoids eroded the world and the cities, counties, and villages that could be seen everywhere.

Dozens of small countries have been wiped out, and large countries are too busy to take care of themselves. After the initial panic, the armies of major countries want to counterattack, but bugs are everywhere. Evil humanoids cannot be killed with light weapons and heavy weapons. difficult.

It's nothing more than the invasion of alien creatures. The key is that the magical energy of the alien world is transmitted to this world through the distorted space, causing various creatures on the earth to mutate, and this mutation almost all mutates toward the evil direction. .

Who can imagine that a ladybug that took a breath of magical gas expanded 20 times its body and grew a pair of giant mouthparts. A city close to a mountain was wiped out by these ladybugs in an instant.

The mouse that took a breath of magical gas became the size of a car and evolved like a human being. It looked like a rat man and had self-consciousness. Many cities were destroyed by the rat man.

There are so many such things. Human weapons don't wait to attack creatures in other worlds. First turn the muzzle to deal with mutated creatures on earth.

Lu Yang was able to see it because the underground city has a complete power system and a self-sufficient living system, and it can communicate with the outside world through satellites.

Several nearby legions stationed in the dungeon and protected the surrounding area. With their heavy fire support, the dungeon remained intact.

During this period of time, Lu Yang's personal prestige reached a peak. Residents in the dungeon saw the tragedy of various cities broadcast on TV and compared their current lives. Everyone expressed their sincere gratitude to Lu Yang.

Including the military, allowing the military to have a place to hide in the first place, and to protect a large number of civilians. This was prepared by Lu Yang in advance. Therefore, in this dungeon, everyone worships Lu Yang.

Lu Yang gave a unified answer to this. It was blind. Seeing that the top guilds of other countries were building dungeons, he also learned to build dungeons.

However, even so, the Heavenly Dao Organization still sent members to inspect Lu Yang, and various magical instruments were swept over Lu Yang dozens of times before he was sure that there was no trace of magic fluctuations in Lu Yang. It really had nothing to do with the old gods. Relationship.

In a room.

Zhuo Jiu, White Lion, Xia Yuwei, Zhou Tianming, and other former main vice-chairmen of the guild, all sat around Lu Yang.

Half a life of bitter love and angrily cursed: "What is the Heavenly Dao Organization? He sent dozens of people over and accepted our dungeon."

Zhuojiu showed such an angry expression for the first time and said: "They use the name of teaching magic in another world, but the invasion of another world is related to them. These people do not reflect on their faults, but treat us with a savior mentality. , I am not convinced."

Everyone glanced at the dirty wine and sighed again.

Since the twisted space was exploded by special weapons, the gods of different worlds directly used the way of blessing to improve the abilities of members of organizations such as Heavenly Dao, Dark Warrior, and Saints.

I don't know the other areas for the time being. It is the dungeon where Lu Yang is located. The more than 100 members of the Heavenly Dao organization sent by each of them are magicians from level 4 to level 6.

As for how the magician's level is divided, Lu Yang really doesn't know. In fact, there are not only magicians, but also professions such as paladins and warriors. They will teach talented people how to use the energy that flows into this world from another world.

Because the energy of the other world is too huge, almost the entire earth is filled with these energy, and these energy can ignore any metal and directly penetrate the past.

In the dungeon, these energies are now everywhere, which has also caused changes in the human body. Many people can experience this energy but don't know how to use it.

The purpose of the members of the Tiandao organization is to teach humans how to use these energies. As for why there are professions such as warriors and shamans, Lu Yang can't guess for the time being, but it looks like a combination of major gods in a different world. Together, against the Zerg who invaded this world.

Lu Yang had watched the introduction of the Zerg and Humanoids on TV and found that they all had extremely high IQs. According to Lu Yang's speculation, these worms were also looking for fragments exploded by the Blazing Demon God and other old gods.

Lu Yang looked at several people and said, "Don't be impulsive. Learn spells from the members of the Heavenly Dao Organization. When you get the power, you will eliminate the monsters around you. Everything depends on the living space of human beings."

If you don't kill these zergs and mutant creatures, humans will not be able to survive. Not to mention other things, the creatures around the dungeon are gradually squeezing the living space outside the dungeon. When the humans in the dungeon have no ability to get out of the city, it is when they attacked the dungeon.

Humans can't always live underground. The dungeon space is not that big. When the Zerg comes in, something big will happen. It's better to start a counterattack now.

Following the members of the Heavenly Dao Organization to learn spells, the people in the dungeon can fight out, gradually restore their homes, and even drive away creatures from other worlds.

The White Lion watched Lu Yang so calmly, gritted his teeth and said, "The members of the Heavenly Dao Organization are deliberately targeting us. I really can't swallow this breath."

Lu Yang smiled and said, "Swallow it down first. Sooner or later we will find them to settle the account."

Because the prestige of Lu Yang and White Lion is too high the hundreds of members of the Heavenly Dao Organization treat the senior members of the Jagged Brotherhood differently.

It has been more than a month since he taught spells, and he often ridiculed them, and often caused the White Lions to suffer. This is also the reason why the White Lions and the dirty wine are unhappy.

Lu Yang was also included, but through this month's understanding, he knew that the hundreds of members of the Heavenly Dao Organization did not vent their breath from one nostril, and they also had a competitive relationship with each other.

The members of the Tiandao organization in the dungeon are divided into six families, such as the Wang family who controls fire, the Xie family who controls mines, the Zhou family who controls ice, the Tao family who controls shadows, the Tang family who controls wind, and the Zheng family who controls power.

Xia Yuwei wanted to speak but stopped, and everyone sighed secretly. Suddenly, a bell rang in the distance.

“It’s time for class again, let’s go to class,” Lu Yang said.

Everyone nodded, and as Lu Yang walked out of the room, there were six large training grounds on the uppermost floor of the dungeon. This was originally used as a warehouse for war preparations, but was later transformed into a training ground for These six heavenly families cultivated magical talents. \_

### Chapter 1993 - Monitoring disappeared

Among the nearly 4 million people in the dungeon, there are about 40,000 people with cultivation ability, which is almost a 1% probability.

Because they are already on the verge of extinction, no one can escape this fate. Ordinary young and strong laborers are responsible for simple drudgery. These 40,000 people who can practice, regardless of men, women, young and old, must be taught and go out to fight.

And these 40,000 people are very average in the dungeon, and the six families are almost equally divided, and each family has about 7,000 people following them.

Lu Yang came to the first training ground on the left. At this time, the ground was full of people, all sitting on the ground meditating.

According to the teachings taught by the Wang family, if humans want to use the magical energy of another world, they must temper their spiritual power. The higher the spiritual power, the more magical energy can be driven, which can then be transformed into attack skills such as fire and frost.

Lu Yang sat in a very inconspicuous place among the crowd, sat cross-legged on the ground to practice, and soon he entered a state of meditation.

After more than half an hour, the sound of leather shoes stepping on the marble floor suddenly came from the extremely quiet room. Everyone looked up subconsciously and found a proud young man walking to the podium on the north side of the training ground.

This person Lu Yang already knew, called Wang Li, a Level 4 fire magician. Although there was a word of courtesy on his name, he was dressed like a dog, but his character was not very good.

I have always looked at all the residents of the dungeon with the attitude of being a superior person watching the inferior person. Even if he came to teach, Lu Yang had seen so many people's eyesight, I felt that this was an incompetent second generation ancestor, because With low strength, he was sent here to enjoy life.

His lectures were completely showing off and screaming. As for what he talked about every day, it was his own preference. It was his father, the 6th-level fire master Wang Xinpeng, who really taught him.

"Okay, now that the meditation time is over, I'll give you a lecture." Wang Li knocked \*\*\*\* the blackboard, focusing everyone's attention on him.

Lu Yang was looking at Wang Li, but suddenly he felt eyes staring at him on the second floor of the training ground. He had been accustomed to this stare. It was the censorship of the six major families.

Inside the monitoring room.

Wang Xinpeng stared at Lu Yang's expression, and said to several people around him: "Today is the last time, let me tell you, we didn't feel any fluctuations in the heart of the devil in Lu Yang."

Zhou Quan, a 6th-level Archmage of the Ice Element next to him, frowned and said: "I agree. It has been under surveillance for so long. Not only Lu Yang, but also the White Lion and Xia Yuwei, the surveillance of them can be withdrawn. These people It's just a group of ordinary people, there is no need for surveillance anymore."

"Damn it, where are the fragments of the Devil's Heart? Why can't I find it."

“Don’t worry about those first, clean up the bugs outside, and establish our prestige. For a long time from now, this is our brother’s home. If we want to expand our strength to compete with other people, we can’t be careless.”

“Hey, the task is completed, we can also enjoy it, but I have liked Xia Yuwei for a long time, don’t you guys fight with me.”

...

The members of the six families have already begun their own calculations. The orders they received were to take over the dungeon on the one hand, and to investigate whether there are fragments of the Devil’s Heart in Lu Yang and the surrounding area. trace.

Now it is not. They will formally manage this dungeon as the lord of the dungeon, but this dungeon is still under the control of the military. They are only teaching the humans here as instructors and have certain Right, but not great.

One more thing, Lu Yang and White Lion are the real power controllers in the dungeon, and it is precisely because Lu Yang and Xia Yuwei are so famous that they did not allow the six major families and the military to arrive at the first time. What a \*\*\*\* thing to do.

This is what Xia Yuwei wanted to say to Lu Yang but couldn’t say. She was threatened. Zheng Ziming, the eldest son of the Zheng family, who was in charge of strength teaching, wanted to take her. Fortunately, she was smart and did not give Zheng Ziming a chance.

When the six big families were sitting in the monitoring room chatting, they all showed a clear smile when they heard Zheng Ziming’s words. Wang Xinpeng said: “We can’t steal from you, but we can’t give you Xia Yuwei for nothing, such a beautiful beauty, you But think about what the price will be.”

Zheng Ziming gritted his teeth and said, “The price I paid will naturally satisfy you.”

Zhou Quan frowned and looked at the two of them, and said: “You can’t do things too much. Don’t use strong for a few months. We haven’t wiped out Lu Yang’s prestige here. If you do too much, it will

attract everything here. Residents are dissatisfied. In order to quell people's grievances, the family will send someone to replace it. Don't forget, this is a complete human dungeon."

This kind of dungeon is extremely rare. When the family sent them over, they didn't expect it to be complete to this level, but now the distribution has been completed and there are no excuses on it, so they stayed safely.

Zheng Ziming gritted his teeth and said, "This is what I worry about, otherwise Xia Yuwei would have been my person. Don't worry, I have a sense of measure."

All six of them know that if one of them is replaced, it must be a bigger family. This is a big fat, and no one wants to break the current evenly matched situation.

Tao Ze, the head of the Tao family, thought for a while, and said, "If you want to control the dungeon as quickly as possible, the best way is to kill Lu Yang and Zhuoju silently and find a way to send them out. , Kill them."

Zheng Ziming, Zhou Quan and others all agreed with this proposal. They believed that as long as Lu Yang died, the backbone of the dungeon would be gone. They erected a few family models to become people's heroes, and this dungeon would really be them. Forget it.

"With Lu Yang's current cultivation progress, the spells can only be released in one month. We will kill him within one month."

"Agree."

"Agree."

"Agree."

...

The six companies set up a plan After each took a last look at Lu Yang, they shut down the surveillance of Lu Yang.

Lu Yang, who was meditating, suddenly felt that the surveillance had disappeared. His expression remained unchanged, but his heart was agitated. At the same time, the blazing demon in his body pulled him into the Demon God Temple.

“Congratulations, they decided to kill you in a month, and then take Xia Yuwei.” Blazing Demon said jokingly like a friend.

After practicing in “Second World”, Blazing Demon also understood human computer technology. When Lu Yang set up the dungeon, he also reserved a back door. Blazing Demon could now control the operation of the entire dungeon.

Lu Yang showed a sneer at the corner of his mouth and said, “I guessed that they were going to kill me, but I didn’t expect them to take Xia Yuwei. What should I do next?”

The Blazing Demon said: “They don’t pay attention to you anymore, and I can officially teach you how to use magic. After a month, maybe your mental power is not as good as them, but your magical attack power is much better than them. Get ready, let’s start practicing.” \_

## Chapter 1995 - First time out

Unfortunately, what Wang Li and Wang Xinpeng didn’t know was what Lu Yang’s true strength had reached. His mental power could condense 50 consecutive fireball spells, or 25 pyroblast spells, the magical energy contained in the cells in the body. , 20 fireball spells can be mobilized by mental power.

In terms of skills, Lu Yang had already tried to release the four skills of Fireball, Pyroblast, Ring of Fire Resistance, and Blazing Speed in the Demon Temple.

Especially the last Blazing Speed is the strongest ability to save life. After it is turned on, the mental power in Lu Yang can support him to run for 5 minutes.

After using Blazing Speed, his movement speed is 100 meters for 5 seconds, and he can run an average of 20 meters per second. Running on the ground is phantom.

Only then did Lu Yang understand why the response speed was always emphasized in the later stage of the game, because it turned out to be a preparation for skills like Blazing Fast.

When Lu Yang turns on Blazing Speed and running at full force, his reaction speed is slower and he may hit a tree. If it is a battle situation, players with high reaction speeds can prepare to grasp the target position after turning on Blazing Speed. , And those with a slow reaction speed will see all kinds of afterimages.

In order to be able to use this skill proficiently, Lu Yang chose to run in his room with chairs, sofas, dining tables, and door frames. Lu Yang didn't know how many times he hit, but at the end of the month, he finally mastered it within 5 seconds of 100 meters. The reaction speed in the state.

Not only can he avoid obstacles proficiently, but also capture the actions of the target. This trick is Lu Yang's biggest killer.

However, this trick cannot be used easily. All the mental powers added together can last for a minute. This shows how difficult this skill is. The Demon God told Lu Yang that with his current mental power, it is only a level It's just a magician. If you want to deal with a higher-level enemy, this trick is a nirvana and you can't easily use it.

"Dididi"

When Lu Yang was still in contact here, the phone on his hand rang and he pressed the call button and asked, "What's the matter?"

"Lu Yang, apprentice fire mage, please go to the training ground immediately." The other party hung up after speaking.

Lu Yang looked back at Lan Yu, who was pretending to be fine, smiled and rubbed his head, and said, "Believe me, they are not your husband's opponent."

Lan Yu nodded.

Lu Yang turned around and left the room, and quickly came to the training ground. As soon as he arrived, he saw the patriarchs of six families gathered together, with thousands of students standing below.

Wang Xinpeng saw Lu Yang, but didn't take Lu Yang seriously, so he jumped his eyes contemptuously.

Lu Yang was in the crowd. He didn't see the dirty wine and the white lion. This made Lu Yang frowned. Over the past month, Lu Yang has gradually counterattacked the six of them. The military and the government have bothered the six families. Fortunately, the Jagged Brotherhood is close to the military and the government. Now the military and the government are united to temporarily suppress the six major families.

As a result, Xia Yuwei was spared from being bullied, and Zhuojiu and White Lion gradually gained some right to speak. Xiao Liang even returned directly to the military and obtained a position in the military.

Although everyone knows that this was planned by Lu Yang, they have no right to organize. Satellite phones in the dungeon can be used, and the equipment of the "Second World" can still be used. The country also has the actual management right of the dungeon.

Now that these flustered months have passed, the order in the dungeon has been restored to what it used to be, and everything has become orderly. Obviously, this is not what the six big families want to see.

"Ahem"

Wang Xinpeng coughed, looked at more than 1,000 people who had gathered, and said: "The students of the temple, you are the first batch of apprentices who can use basic spells. It's time for you to go

outside to practice. At the beginning, you will go out every day to cooperate with the military in moving supplies.”

An elderly soldier next to him took the microphone and frowned and said, “I’m sorry to tell you the truth. Our military’s supplies are insufficient. In the process of coming to support, we didn’t know the world would become like this. So, the materials we carry are only one-tenth of the warehouse. Now I need your help to cooperate with the military to clean up the mutant creatures outside the dungeon and open the way for the military to the warehouse.”

...

Lu Yang knew this person. His name was Fang Zhenshan. Before the world changed, he had a relationship with Lu Yang, and he was a friend.

Lu Yang also knows about the military. There is the Blazing Demon God who monitors the entire dungeon at any time. He has known about the lack of military supplies. As for why they are the master students who are dispatched instead of the six major families. People, the reason given by the six big families is very simple, they must reserve their strength at any time to deal with sudden disasters.

In fact, to put it bluntly, I just don’t want the military to be stronger. The individual strength of magicians and high-ranking fighters is very powerful, but their level is still too low. Before entering the gods, they still can’t resist the damage of human weapons.

They hope that the military is weak, but there are too many zergs outside, and they also need military support. Both sides are at a stage where one needs to use the other and more suspicious of the other.

The military commanded the six major families and could not move, but they joined the official pressure to command Lu Yang and the apprentices of the mage, and there was no problem. That’s why this action took place.

“Okay! I’m finished, everyone, let me go to the door.” Fang Zhenshan said with a sigh.

If the military can be used to solve the problem, Fang Zhenshan will definitely not want to use ordinary people on the battlefield. Unfortunately, the changes in this world are not something he can do now.

Lu Yang has understood his mission. According to Fang Zhenshan's words, the mutant bugs have now invaded near the entrance of the dungeon. Because these people are on the battlefield for the first time, their mission is from the monsters near the entrance of the dungeon. They started to attack, and when they got used to the battle with the insects, they could follow Fang Zhenshan's military to the material warehouse in the mountain.

Lu Yang walked towards the door with a group of more than 1,000 people, and then took the elevator in batches to the door of the underground city.

This is the first time Lu Yang has actually seen the outside with his own eyes. Outside the dungeon, there are three circular fortifications, turning the area within 80 meters around the dungeon into an isolation belt.

Outside of the isolation zone, the forest is different from what was seen before, becoming more luxuriant, with a large number of insects over one meter in diameter crawling on the ground.

Mutant Beetle, a black bug with eight legs, crawling on the ground like a wheel. \_

Chapter 1996 - Successful first battle

"I'm dizzy, isn't this the reptile that used to be common on the mountain? How did it grow to more than one meter long."

"This, how do you fight this."

"It's scary."

...

Among the more than 1,000 people, many people were frightened and their legs weakened. Lu Yang stepped forward, looked at Wang Li and Fang Zhenshan and asked, "How can we kill them?"

When Fang Zhenshan saw Lu Yang, he smiled happily and said enthusiastically, "Brother Lu Yang, why do you come in person? The Kyoto side has decided to award you a medal and recognize your contribution throughout the country. Besides, this underground city is you. Yes, you are the city lord here, why are you still on the front line yourself?"

Lu Yang smiled and said: "It is everyone's responsibility to protect the homeland. I also hope to make a contribution, otherwise it would be boring to be stuck in the underground city every day."

Fang Zhenshan smiled and said, "Well, you will go out in a while. I will send a few brothers to follow you. No matter who has an accident, you can't have an accident."

Lu Yang quickly pushed back. He didn't want to kill Fang Zhenshan's subordinates. If someone from the military followed, Wang Li would definitely be more careful. If he was alone, it would be simple.

"Don't worry, I won't go far, so I will practice hands first around here. After a few days, I will become proficient, and I will go deeper." Lu Yang gave up the idea of being accompanied.

Fang Zhenshan really wanted to protect Lu Yang. He had already noticed something wrong with the six big families. If these people want to fish in troubled waters, they must kill Lu Yang first. Therefore, he secretly sent a message to the sniper at the top of the dungeon: "Protect Lu. Yang, absolutely don't allow anyone to hurt him."

"Don't worry, we will protect the boss." Each of these snipers is a player of the Jagged Brotherhood. The family can hide in the dungeon in time, and it is also Lu Yang's help. Therefore, they are extremely grateful to their boss. .

Fang Zhenshan saw the reply, and then said to Lu Yang: "If you want to practice with these insects, it is a good choice. These insects are inherently afraid of flames. Other types of damage to them are not that great. Only flames can kill them. Kill, a small fireball is enough to ignite them all."

Lu Yang used the most primitive method to begin to condense his spiritual power, then sang two hymns from another world, and then converted the magical energy condensed by the spiritual power into flame elements. The whole time lasted nearly 4 seconds, finally.

“Boom”

A red fireball with a diameter of 30 centimeters and a little bigger than a basketball appeared above Lu Yang's palm, about 10 centimeters away from his palm.

Feeling the hot temperature of the flame, Lu Yang walked forward, aimed at a mutant beetle 30 meters away and threw it over.

The small red fireball drew a graceful arc in the air, centered on the black head of the mutant beetle, and a harsh scream sounded. The skin and tentacles on the mutant beetle's head were quickly ignited, and then within a few seconds Inside, was burned to ashes.

The crowd applauded.

Fang Zhenshan said with emotion: “These bugs killed them with guns with great effort. Their vitality was too tenacious. They made a few holes and thought they were dead. After a while, they healed themselves. Only by burning them can they be killed. Difficult problem.”

There are too few oil drums, they are all in the material warehouse.

Lu Yang said: “Don't worry, I believe that our group will soon have actual combat capabilities.”

Fang Zhenshan nodded and looked back at Wang Li, only to find that Wang Li had been staring at him and Lu Yang, and whispered, “Be careful of the Wang family, it's not a good thing.”

Lu Yang looked back and met Wang Li's eyes. He was able to cut out indifference in Wang Li's eyes. He smiled and said to Zhenshan, “The fox is fake.”

Wang Li didn't know what Fang Zhenshan and Lu Yang were talking about, he didn't care at all. He had been staring at Lu Yang, and now he saw Lu Yang's ability, he was relieved.

It only takes 2 seconds for Wang Li to release the fireball technique, which is twice that of Lu Yang. With Lu Yang's guiding speed, if he really fights him, he can easily defeat Lu Yang in seconds. Not only him, but his subordinates. Those apprentices who had been completely loyal to him could also kill Lu Yang in a sneak attack, because he only taught Lu Yang a fireball technique, but nothing else.

"You can now try to get out of the dungeon's defense circle and go outside to clear the bugs. I will wait for everyone here. I will not go with them. Five people form a small team. You must protect yourself." Wang Li shot He clapped his hands and said loudly.

Two men and two women walked to Lu Yang, and one of the strong men said, "Boss, we are members of your team. You are the captain. My name is Liang Ziqi."

Another thin and weak gentleman said: "Boss, my name is Zhang Lao."

"My name is Xue Lin."

"My name is Ding Jiajia."

The two girls looked like they were only seventeen years old. It was obvious that Lin Xue was an apprentice of the ice department, Ding Jiajia was an apprentice of the dark department, Liang Ziqi was a warrior, and Zhang Lao was a healer.

Lu Yang looked at them. None of these people was familiar to him. Obviously they were newly found by Wang Li and the others. He smiled and said, "Then let's go together, don't leave the military's sight, and communicate with you in time. ."

The four people smiled and nodded.

What annoyed Lu Yang the most was the current situation. He knew that among the four people, there must be a spy sent by the enemy, but he didn't know who it was, so he could only take a step forward.

The group of people entered the forest with the large group. When the groups dispersed, Lu Yang began to carefully observe the surrounding situation.

There is only one mutant beetle on the bright side. Are there any mutations in the poisonous spiders, poisonous mosquitoes, and earthworms hiding in the dark? This should be the affirmative answer, he doesn't want to end up being sucked up by the mutant blood-sucking mosquitoes.

"There are several mutant beetles over there, let's kill them." Liang Ziqi said eagerly, carrying a shield and a dagger.

Lu Yang looked in the direction of Liang Zi's seven fingers, and sure enough there were three mutant beetles. He said, "Alright, let's attack together."

Five people came to the vicinity of the mutant beetle cautiously. Lu Yang glanced at Ding Jiajia and Lin Xue and said, "Don't let the soldiers get on at this time. The three of us will kill one of them. On my left, In the middle of Jiajia, Lin Xue is on the right."

"Yes." The two girls nodded together.

Lu Yang raised his right hand to aim at one of the beetles, but his mental power was fully used on Liang Ziqi, Lin Xue, Ding Jiajia and Zhang Lao beside him, confirming who of these four wanted to kill him.

"Fireball"

"Frost Arrow"

"Shadow Arrow"

After more than 3 seconds of chanting the spell, the three skills were shot out almost at the same time, each hitting a mutant beetle. Lu Yang's was burned by flames, and Lin Xue's was frozen into ice sculptures. Ding Jiajia's damage was the most terrifying. The beetles withered and faded.

Liang Ziqi jumped up excitedly, ran in the direction of the three beetles, chopped the frozen beetle into ice sculptures several times in a row, and said triumphantly: "The first battle was successful."

Lin Xue and Ding Jiajia also showed expressions of relief. They also participated in the war for the first time, and it felt terrifying. \_

#### Chapter 1997 - The emergence of the academic

Liang Ziqi then jumped and shouted: "There are bugs ahead, everyone, come and we will chase after victory."

Lin Xue and Ding Jiajia glanced at each other, showing heroic expressions, and ran forward. After their first success, the two became more confident.

Lu Yang looked at Liang Ziqi vigilantly, and then walked over. If someone wanted to kill him, they would definitely lure him out of the military's protected area. Now these people have a bit of meaning.

"Boss, come soon." Liang Ziqi raised his hands and urged loudly, seeing Lu Yang not moving.

"Here." Lu Yang smiled and ran over.

While Lu Yang followed his teammates to eliminate the bugs, on the other side, a huge event happened inside the base.

The imperial capital, magic capital, Europe, America and other major protected areas suddenly issued a statement at the same time.

“To all mankind:

Regarding the relationship between magic and gods, the United Institute of Humanity has cracked the method by which magical energy from another world enters the body for humans. This is not only a method used by gods, but also a method that ordinary people can use.

Ordinary humans who want to learn spells have different aptitudes, but as long as they use our theory and guidance method, they can learn to use spells without belief...”

The eloquent notice of tens of thousands of words ended in an instant the sense of superiority of organizations such as the temple and heaven.

“So everyone can learn spells.”

“I can also learn spells? Then I can also go out to fight to protect my family and the human race.”

“Great, long live the Anthropology Institute, I want to sign up~!”

...

A large number of humans choose to sign up, and what is unimaginable is that the place of registration is in “Second World”, and the place of study is also in “Second World”.

What originally existed in “Second World” as a game has now become a place for all humans to learn and communicate.

Organizations such as the Temple and Saints panicked in an instant. For a while, the major organizations hurriedly sought the help of the gods behind them, but the gods behind them had nothing to do this time.

Lu Yang is fighting monsters. The mobile phones of him and Liang Ziqi and others rang at the same time. They received the contents of the warning letter and attached the military's request at the end. The first exercise can be over at any time and everyone can return to the game. Re-training inside, there is a sentence at the bottom, using the training speed in the game is three times the current training speed.

"Oh my God, how is this possible, the power of God will be cracked." Ding Jiajia's face was incredible.

Liang Ziqi said with a smile: "What \*\*\*\* power is just the power of human beings in other worlds. You take them as gods, but in their world, they are the same as ours on the earth, and they are the masters of their world. Just don't underestimate human beings."

Xue Lin nodded and said, "I also agree with this point of view. Let's go back. I want to know what a more systematic learning theory is."

Zhang Lao said, "I agree, it's too insecure here."

Lu Yang said, "Also, let's withdraw slowly."

Everyone had no objection. They were still within the scope of the military's sniper scope, and they all walked obediently towards the gate of the base.

As he walked, Lu Yang curiously communicated with the demon \*\*\*\* with mental power, and asked, "What's going on, how can someone use "Second World" to teach? Those university professors who study the energy of other worlds have learned the trick?"

The Demon God sneered and said: "Of course not. This is one of the means by which we old gods protect themselves. Do you think we have been in this world for so many years and have been sleeping? We don't know how to reserve some means to protect ourselves. ?

The method of using magic energy has long been stored in the data of the "Second World". They will not be triggered before the energy of the other world flows in. Once the energy of the other world comes in, they will automatically decrypt it and enter until they have been studying the other world. In the heads of those with world energy.

In fact, the human beings who first came into contact with these materials in your world may have obtained these materials in two years, but they have not exposed them. Although they have been exposed a bit late, I am afraid that the strength of these exposed humans has reached about level 5. , Not much worse than the human beings blessed by the new gods. “

Lu Yang smiled and said, “Now it’s okay, no one will pay attention to me anymore. The new god’s original idea of using thunder to control the world has failed, and I’m afraid they will have to think of a new way. .”

If Lu Yang guessed it, the Heavenly Dao organization was in chaos inside the base at this time. Several large helicopters landed on the apron of the base. The people who came out of it were the official practitioners.

Facing them, the six big families of Heaven’s Path were completely unprepared. With the support of the military, the official also had the ability to learn exercises and masters, The com Tiandao organization understands that they are going to be marginalized.

When Lu Yang returned to the fortress, the official academy had been completed, and there were more than 200 faculty members, and they also carried a large number of magic school supplies. Obviously, these were all in series, and only the old gods could do it. .

“Boss, let’s go to the official academy, I have had enough of the bird spirits of the Heavenly Dao Organization.” Said the bitter love half a lifetime.

Because of the sudden change, Zhuo Jiu, Bai Shi and others came to Lu Yang’s home to discuss. This time, Lu Yang and the others were treated better than before.

Once the government has the power, it has the right to speak again, and in order to maintain their authority, the previous official rules have to be implemented.

People like Lu Yang and Zhuojiu own the ownership of the dungeon, and they still own it now. The military and officials have made it clear that they are borrowing, and they will give Lu Yang and Zhuojiu the rent they leased.

However, it is a pity that official money does not have much effect in the dungeon. Another rule needs to be re-established. This is an official matter. Lu Yang doesn't need to think about how he can strengthen himself.

"We all declare to transfer to the college to study, and we will leave the temple first." Lu Yang said.

Everyone nodded. Right now, Lu Yang led them to the academy. From the sixth floor to the tenth floor of the dungeon, they were all transformed into the academy area.

After Lu Yang and the others came here, many people wanted to be courteous to Lu Yang and the others, but they were all stopped by Lu Yang. He also lined up like ordinary people.

When he waited for him, the instructors of the college didn't look at Lu Yang differently, because they were sent from other places.

Lu Yang was hoping that others would not pay too much attention to him, so he re-acquired his student number and entered the new college for classes.

## Chapter 1998 - 3 eyes magic flower

As the official said, the magic guidance method taught by the academy is several times faster than that of the temple. Suddenly, the prestige of the temple plummeted. People are not fools. Everyone knows that the temple is either hidden or private and wants to be treated differently. , Or the strength is really not as good as the academy.

The members of the Tiandao organization in the temple were sapped this time, and they are still the kind that they can't resist. If they launch more advanced cultivation methods now, they will obviously be

able to hide their privacy and treat them differently. After they come out, they will be compared to the academy.

Outstanding students will choose the academy as a place for further study because of the academy's strength and official prestige. Just like now, the number of students around Lu Yang has increased by several thousand.

After a short half-month of teaching, the academy decided to come forward to solve the supply problem for the military. Hundreds of teachers jointly dispatched and asked the temple to dispatch all of them to sweep the outside of the dungeon together.

In just one week, all the supplies were taken back, and the mutant bugs were also killed within 5 kilometers of the base and no one could be seen.

Just when the mentors of the academic school were ecstatic, and the humans in the dungeon thought that the world was about to change back to its original state, satellite TV broadcast a picture. In a very large and distorted space high in the sky, a large number suddenly appeared. Level 7 creatures.

More than this, level 7 creatures began to appear all over the world, and with their appearance, a large number of plant seeds in the warped time and space fell on the earth, and the original iron ore, silver ore and gold ore also followed. Mutation, they are beginning to be rich in magical energy.

As for the vicinity of the dungeon, it was once again surrounded by mutant creatures, and this time there was a trace of a demonized wolf among the mutant creatures, which proved that a 7th-level mutant demon wolf lord appeared near the base.

“With human weapons, you can kill the Demon Wolf Lord. Thinking about it, the Demon Wolf Lord who already has wisdom will not take the initiative to attack the dungeon.” Blazing Demon God said leisurely hiding in Lu Yang's spirit sea.

Lu Yang is taking the elevator to the exit of the dungeon. The government and the military now encourage all mages to go out and kill the insects to ensure the safety of the dungeon.

Now that a large number of human wizards and warriors go out hunting every day, Lu Yang also decided to respond to the call and go out for exercise.

Blazing Demon God said that if you want to practice fast, you still have to practice mental power in meditation, the speed is the slowest.

Lu Yang was also curious about his strength. The elevator reached the top floor, and the huge iron door of the dungeon opened, revealing the sunny weather outside.

Xiao Liang was on duty, and seeing Lu Yang coming, he stepped forward to salute him and said, "Boss."

Lu Yang nodded and asked, "Are you still used to it?"

Xiao Liang smiled and said: "I have no problem here. Be careful outside. Now there are many weird plants in the forest. They multiply fast. They also like to hide in the soil and around the trees to attack players. If caught by them, toxins will be there. Kill humans in 10 seconds."

Lu Yang was a little surprised, and said, "I will be careful."

He patted Xiao Liang on the shoulder, and walked towards the forest 500 meters away. The other magic in the group also followed the team to their planned route.

Lu Yang chose him alone, and soon he walked into the forest. There was no mutant beetle in the area connected to the dungeon.

Although Blazing Demon God couldn't help Lu Yang fight, he still had one special ability left, which was to perceive the surrounding situation.

"Don't worry, I can clearly perceive whether there are creatures within 50 meters around me. Pity me, a \*\*\*\* king. I was 100,000 kilometers a year. Whoever disrespect me, I knew it from the first thought, but now it's only 50 meters away. , Pitiful, 50 meters." Blazing Demon God murmured.

Lu Yang was a little speechless. He found that after getting acquainted with the Blazing Demon God, the old guy was getting more and more inked, and he liked to talk about how he was back then.

“Don’t miss it, the more you miss it, the more sad you will be. Think about the future.” Lu Yang said.

“Hehe.” The Blazing Demon God’s voice was helpless, and said: “There is a woolen future. When you have the strength to fight against the new god, I don’t know what’s the use in a few hundred years.”

Lu Yang rolled his eyes, what the Blazing Demon God was telling the truth, on the one hand, it was not an easy task for the alien gods to come over. I didn’t know where to find the Demon God’s Heart Fragments of the Blazing Demon. As for revenge, He doesn’t have a chance to cultivate for hundreds of years.

Just as the two were idle and bored facing contempt, suddenly, the Blazing Demon God stopped and said: “Don’t go forward, how do I feel the breath of the three-eyed magic flower nearby.”

Lu Yang stood on the spot and looked around vigilantly. The flames in his hands had already gathered. He asked, “What the \*\*\*\* is the three-eyed magic flower.”

The Blazing Demon scanned the surroundings and said, “The Three-Eyed Magic Flower is a kind of piranha. They can walk, hide in the soil, and hide in the trees as vines.”

Lu Yang said in his heart, , which is the same as the strange tree and vine described by Xiao Liang, frowned and asked, “Did you find it?”

Blazing Demon God’s perception ability was locked on a flat ground at 2 o’clock in Lu Yang, and said, “You’re very lucky. This should be the flower \*\*\*\* among the new gods, the seed thrown into this world through low-level creatures. When you grow up, I will teach you a way to make him recognize the Lord. From now on, he will be yours.”

Lu Yang was a little confused, and said with a smile: “Is this thing very strong?”

The Blazing Demon God sneered and said: “The Three-Eyed Demon Flower can grow up to a level 13 monster. It is the outermost guard in the Flower Temple where the Flower God is located, and the main force in the battle of Gods. Otherwise, you think I will Do you know him?”

Lu Yang understood that these three-eyed magic flowers must be quite powerful, which had caused a lot of influence on the old gods and them, but he frowned and asked, “If I let him recognize the Lord, will you be spent? God found it?”

The Blazing Demon God shook his head and said, “There is no spiritual connection between the Flower God and the Three-Eyed Demon Flower, especially these seeds. Moreover, I can say that the Flower God and the Wood God Spirit are not in good faith in doing so. I suspect They want to provoke a divine battle on the earth, so that the wood elements of this world will become the existence that controls the world.”

Lu Yang didn’t care about those things and said, “It’s fine if I don’t get threatened. What should I do now?”

The Blazing Demon said: “Burn him with your flame until he is dying.”

Lu Yang happily lit up flames, aiming at the open area, and small fireballs with extremely high temperature hit one by one.

“call”

“call”

...

The crimson fireball fell on the clearing and immediately ignited the surrounding vegetation, and the three-eyed magic flower hidden under the surface of the soil was burned by the high temperature suddenly, and its body suddenly jumped out of the vegetation, showing what he was originally. face.

## Chapter 1999 - Supply station

A green plant ball with three eyes around it, on the lower body of the ball, there are very thin wicker-like legs, a total of eight, and the height is about 1 meter. The upper part of the ball also has wicker-like tentacles, which are also eight. .

The appearance of the whole three-eyed magic flower, if you don't pay attention, is like a spider with elongated legs standing by the water, or the wicker of two trees is knotted together.

“Neigh~!”

The orb in the middle of the wicker suddenly opened its mouth, full of fangs, and roared at Lu Yang.

“Burn him.” Blazing Demon said.

The fireball reappeared in Lu Yang's hand, and he threw it at the three-eyed magic flower.

The three-eyed magic flower had a low IQ and hit the fire ball. In the blink of an eye, the ball was ignited by the flame, and the painful three-eyed magic flower rolled all over the floor.

“So simple?” Lu Yang said with a smile.

The Blazing Demon God snorted coldly and said, “This is the seed of the Three-Eyed Demon Flower. It hasn't been three days since it emerged from the ground. If you wait for him to become a juvenile body, look at it again. This kind of thing doesn't know how to avoid , Will only fight to the death with the enemy, if you become his master, he will be loyal to you throughout his life, there will be no betrayal, even if it is dead, they will not hesitate.”

Lu Yang walked closer and looked at the wicker that had been burned out, leaving only a round ball, the three-eyed magic flower in a dying state, and asked, "What should I do?"

The Blazing Demon God slammed a spell into Lu Yang's head, and in the next second, Lu Yang automatically learned how to use the spell.

Lu Yang dropped a drop of his own blood on the largest eye of the Three-Eyed Magic Flower, and then chanted a spell in his mouth, releasing a huge flame element in his body, forming a strange formation pattern.

"Become my servant in the name of the ancient contract!" Lu Yang put his right hand on the head of the three-eyed magic flower, and the formation diagram instantly flooded into the head of the three-eyed magic flower, the three eyes who were still struggling and howling. The magic flower settled down, rolling around in Lu Yang's palm in the shape of a ball, as if expecting Lu Yang to touch its head.

Lu Yang had a mental feeling connected with the Three-Eyed Demon Flower. He said to the Blazing Demon God: "How can I improve his strength?"

The Blazing Demon said: "There are two methods, one is to let the three-eyed magic flower continue to eat and practice, and the other enters the city boundary, where there are monsters. After killing the monsters, take out the magic core in the monsters to feed them. he."

Lu Yang said: "Then let's try to enter the city boundary. I think, with my current strength, killing ordinary monsters is not a problem."

With the three skills of blazing fast, resisting the ring of fire and fireball, as long as Lu Yang is careful enough, nothing will happen. He walked towards the depths of the forest.

As long as you walk through this forest, you will be on the outskirts of the city. There is a house built on the hillside, which has been abandoned for a long time.

For most of the day, Lu Yang came to the house. At this time, the house was occupied by mutant spiders and mutant beetles. He used fireball to kill all these monsters, and then opened the basement of the house.

The 10-centimeter-thick basement door panel made of stainless steel cannot be penetrated by the tentacles of mutant spiders and beetles. This is one of the backs that Lu Yang reserved when building the dungeon.

If something goes wrong in the underground city, or if he wants to do something in the city, the supplies stored in the basement below the house can provide Lu Yang with a good living space.

There are more than 200 such basements around the dungeon and more than 100 in the city. Almost every urban area is covered with such a place.

The basement has a large area, more than 200 square meters, surrounded by walls made of stainless steel, with reinforced concrete attached to the outside, and the walls are more than 2 meters thick.

A large number of oil drums are stored here, as well as six mountain motorcycles, along with food supplies, military binoculars and flares.

Lu Yang simply rested for one night, and waited until the next morning when he asked the Blazing Demon to scan the outside of the basement for no insects, then came out of the basement and rode a motorcycle to the edge of the city.

Originally there were a lot of abandoned residential buildings near the outskirts of Donghae City, because these buildings are too old and have a history of more than 100 years. They were red brick buildings built by Tsuru no Kuni in the 1920s and 1930s.

Lu Yang car came to the neighborhood of the residential building. After confirming that there were no monsters around, he came to the top of the building and took out the binoculars to look around.

It was around 10 in the morning, and the monsters in the city had begun to come out in groups. There were many weird red dragon-like hairless birds in the sky, and there were many wild boars on the

ground. It's a wild boar, because the fangs around their mouths are half a meter long, face is fierce, giving people a very cruel feeling.

Suddenly, a giant tiger with a height of more than 2 meters jumped in the distance, bit one of the wild boars, and dragged it into the ruins of a nearby house.

The battle was not over yet, just when Lu Yang thought that the wild boars would retaliate, suddenly, the wild boars seemed to have discovered something particularly fearful and ran towards the front frantically.

A weird, pale white insect crawled over. Their backs were all spikes. A wild boar ran into him, and the pale white insect shot out with a sharp tip. Stabbing, the wild boar's body was inserted into a cross, and the wild boar died instantly.

"The humble Margay thorn beetle, be careful of these bugs, their attack accuracy is very high, and the attack speed of the spikes is very fast, and they must not be close to their 30-meter range." Blazing Demon God said.

Lu Yang asked, "Do they have magic cores in their bodies?"

The Blazing Demon said: "Yes, but your current strength can't kill them with one blow. If you are dying against them, it is not appropriate to kill the wild boars and tigers first. The magic core has already been produced in their bodies. ."

Lu Yang nodded, and after identifying the nearest wild boar team, he went down to the residential building and came to the habitat of more than a dozen wild boars.

Among the rubble, twelve wild boars just lay on the ground to rest, and there were mutant wild pheasants beside them.

"Fireball"

Lu Yang is not polite. With his heart's ability, it is possible to release 12 consecutive fireball spells, and they are all instantaneous.

The small scarlet fireball with high temperature accurately hit the first wild boar. In an instant, the wild boar ignited flames. The pain caused the wild boar to roll all over the floor. The other wild boars immediately got up when they saw it. Yang's second fireball has arrived.

Chapter 2000 - Learn new skills

The wild boars didn't expect Lu Yang's output to be so fierce. In the blink of an eye, two wild boars were hit by the flames.

The other 10 wild boars were not only not afraid, but were aroused by ferocity and charged towards Lu Yang together.

The two fangs in front of the wild boar's mouth are nearly one meter long and emit a metallic color. If they are picked by the fangs, Lu Yang will definitely be picked and crossed. Moreover, the wild boar charges so fast that it rushes to Luyang's surface in the blink of an eye.

"Hot and Fast"

Lu Yang turned around and ran. Flames appeared under his feet, which more than doubled his movement speed. Behind him was an abandoned building. He rushed up from the unit door to the corner of the second floor.

Ten wild boars slammed into the unit door. Because the unit door was narrow and the wild boar's body was fat, a wild boar struggled to get in. The wild boar that had been irritated struck the unit door with metal fangs desperately.

The fragile aluminum unit door was pierced by the fangs of the wild boar three times, and then the wild boar slammed the unit door away, exposing a relatively large space, but at the same time, Lu Yang's fireball technique also arrived. .

“Go to hell.” Lu Yang continuously released flames, and the wild boar who opened the door was burnt blind on the spot, fell to the ground and rolled frantically, rubbing the skin off the concrete walls on both sides, but even so, the wild boar still didn’t Ways to extinguish the flames.

Lu Yang didn’t know what the flame temperature of his little fireball was, but it seemed that it would definitely not be less than the 1900 degrees of coal burning. This kind of high-density flame was very powerful.

The first wild boar blocked the door and was burned to death. The frightened other wild boar kept backing away. They couldn’t rush in, but Lu Yang was able to hit them.

Back to the stairwell between the first and second floors, there was a window. Lu Yang stood outside the window and could see the wild boar below.

“Fireball”

Three consecutive fireballs hit three wild boars. The other wild boars could only stand at the door and roar at Lu Yang behind the window. There was no way.

Lu Yang found that this was a bit of a strange meaning. Anyway, the Blazing Demon God helped him scan for enemies around him. Without worrying about being attacked, he used small fireballs to attack as much as he wanted.

After 1 minute, all 12 wild boars were burned to death. Lu Yang jumped out of the window on the second floor, and a dagger appeared in his hand. He inserted the wild boar’s brain without feeling uncomfortable. According to the teachings of the Blazing Demon God, Take out the magic core that is the size of a grain of rice from the head of the mutant wild boar.

“So small,” Lu Yang said silently.

The blazing demon’s laughter came and said: “The low-level people are lucky to have the magic core. I can’t think that your kid is ruthless, so I didn’t hesitate to use the knife.”

Lu Yang said, "Don't forget, I was a mercenary in my previous life for five years. Besides, you have trained players in the game for 7 years to get used to killing animals. The soldiers and thieves who came out in "should be more skilled than me."

The Blazing Demon gave a hum and said, "It looks good at the moment."

Lu Yang asked, "How should I use these magic cores."

Blazing Demon God suggested: "You should feed the three-eyed magic flower first, so that he can grow up first, even if he enters the juvenile body, it will be enough to be your support for the academy and the temple."

Lu Yang nodded, took out the magic core, and handed it to the three-eyed magic flower with only a spherical head in his arms. The three-eyed magic flower, which was already very weak, sensed the existence of the magic core, and instantly became excited, Zhang He opened his mouth wide, ate all the 12 magic cores, and narrowed his eyes, looking very enjoyable.

Three wicker-like limbs grew from the spherical head. Obviously, the three-eyed magic flower began to recover.

The Blazing Demon said: "Keep on killing, I can sense many creatures around me."

Lu Yang looked back at the unit door. He found that it was a good spot for monsters. There were so many wild boars in the suburbs. He started to pull monsters as if playing a game. They pulled them under the unit door and killed them in batches. .

In a whole day, Lu Yang killed more than 100 demonized wild boars, more than 30 demonized tigers, and more than 200 demonized wolves. The results were rich, and the body of the three-eyed magic flower returned to its original appearance. A lot stronger than before.

The Blazing Demon said: "When the three-eyed magic flower body just hatched, it was unable to kill the demonized wild boar solo. With your help, as long as there are three more days, he will enter the initial stage of the juvenile body. There are unexpected gains."

Lu Yang nodded, and drove back to the basement to rest. When late at night, he first called Shen Mengyao, and after he was safe, he fell asleep.

For the next three days, Lu Yang killed in the suburbs and upgraded the three-eyed magic flower. Finally, on the third night, the three-eyed magic flower entered the edge of evolution. With a magic core, his body swelled fiercely.

After swelling to the size of a football, it shrank back to the size of a tennis ball. The eight sticks that he had stretched out had already changed. The sticks gave Lu Yang a feeling of extreme toughness.

The Blazing Demon said: "Now it is no problem for him to restrain a demonized wild boar or a demonized tiger."

Lu Yang smiled and said, "Yes, in future wars, I can throw it out, let him trap the opponent instantly, and I will attack again."

Blazing Demon God smiled and said: "There was no such style of play before, but it seems to be possible."

Lu Yang received the three-eyed magic flower in his arms. would not be easy to use. It was only useful to throw it out at the most critical moment.

"Next, it's time for me to practice. I have mastered the three skills of Fireball, Ring of Fire Resistance, and Blazing Speed. I can feel that the magic in my body is stronger than before. I want to learn Pyroblast. The kind made." Lu Yang said.

Blazing Demon God said with a smile: "I guess you can't wait to learn this skill. Yes, meditate with peace of mind. I will teach you that the magical energy in the city is more abundant, so it is not difficult for you to learn."

Lu Yang found a place to sit down and began to accept the teachings of the Blazing Demon God. The benefits of the Blazing Demon God are here. All his skills, as long as he can learn them, the Blazing Demon God will teach him, just look at the magic in his body. It's just how much energy.

This time, the Blazing Demon God not only taught Lu Yang's fire explosion technique, but also both the Blazing Bird and the Flame Storm. However, it is a pity that the Flame Storm does not have the stun attribute this time. It is a large-scale fire attack skill. And the release speed of the flame storm is very slow.

The amount of magic in Lu Yang's body is too small, and the speed at which he extracts magic energy to form a spell has slowed down. To release a blazing bird or a blazing storm, you need to accumulate 3 seconds in advance before you can play it out. \_
