

Wonder Doctor Chapter 1993

Lin Ran naturally didn't think as much as they did, he went himself purely because he didn't want to get others involved.

Once he had destroyed this Bear King, Liangcheng would be completely liberated.

"Tell me, how can you meet this Bear King!"

Lin Ran asked directly.

"The Garden of Ten Thousand Beasts!"

Lan Zheng said.

"The Garden of Ten Thousand Beasts?"

"Yes it's the Garden of Ten Thousand Beasts, this place is the Bear King's favourite place to go on a regular basis!"

"He said that as long as anyone can refine a Pulse Melting Pill, they can go directly to the Garden of Ten Thousand Beasts to find him!"

"Good, I know!"

Lin Ran smiled, then turned around and left the place.

"Hey! You're just leaving like that?"

Lan Qingtian was busy shouting up to him.

"Or what?"

Lin Ran looked at her and guffawed.

"That's right!"

Suddenly Lin Ran looked at both father and daughter Lan Qingtian and said.

"Although life is not easy, there is no need to seek death at every turn!"

"People always live to have hope!"

Said Lin Ran as he took out a book and handed it to Lan Qingtian.

"I'm not an alchemist, but I am a physician, so this book is for you! It might be useful to you!"

After saying that, Lin Ran left without looking back.

What he gave to Lan Qingtian was precisely that Xuan Yang Pill Dictionary.

This item could be said to be worth a lot of money back on Earth.

However, in today's Immortal World, it was simply worthless.

Although it was a bit excessive to say so, this was indeed the case.

With the inability to practise medicine in the Immortal World, many of the medical texts had been reduced to a scrap of paper.

But Lin Ran wasn't finished, his ancestor's former instructions had allowed him to practice medicine in the world.

Although the medical dao had fallen into decline in the Immortal Realm, who could guarantee that there would not be a day when it would rise again?

Lin Ran also saw the character and personality of Lan Qingtian in his eyes.

So he gave this Xuan Yang Pill Dictionary to her.

But how far she could grow in the future would depend on her own destiny!

The first thing he did was to leave the Lan family.

After leaving the Lan Family, Lin Ran rushed straight towards the Ten Thousand Beasts Garden.

The cool city was desolate and almost no one could be seen on the received.

It was evident how big of a battle the Bear King had staged this time, and it could be said that people were on edge.

"Have you heard of this Pulse Melting Pill?"

On the way Lin Ran asked Qing Zi.

"I've never heard of it, but it feels like it should have something to do with meridians!"

Qing Zi said.

Lin Ran was helpless, he didn't know what this Pulse Melting Pill was for at all.

When Wolf Ba and the others had swept through the Hidden Treasure Hall, they had seen whatever they could find, and had given away almost everything that felt useful.

So they didn't really know what this Pulse Melting Pill was for!

"This kind of elixir should be useful for magical beasts!"

Suddenly Li spoke up.

"It's useful for magical beasts? Why do you say that!"

Lin Ran didn't understand.

"Because ever since you took it out, I've been dying to eat it!"

Lin Ran was speechless as he listened, I'm afraid that even Lizzy could really come up with this reason.

"It's just that, although I don't know exactly what the use of this Pulse Melting Pill is, I can't just give it to that Bear King!"

Lin Ran said to himself, while raising his hand and injecting a wisp of divine sense into it.

This Pulse Melting Pill was very precious, and the Bear King would definitely not miss it, seeing as he had appeared suddenly after all.

It was obvious that poisoning was not feasible, so injecting a wisp of divine sense would not be easily detected.

As he spoke, Lin Ran had already arrived at the entrance of the Ten Thousand Beasts Garden.

He only saw two generals in black armour guarding the place, their auras surprisingly all at the peak of the Enlightenment realm.

“This Bear King’s men are not weak, the ones guarding the gate are actually at the peak of the Enlightenment Realm!”

Lin Ran thought to himself.

But when he thought about it, he was relieved, in such a poor countryside, a Bear King of the Third Dao Realm could already claim dominance.

These people at the peak of the Enlightenment realm wouldn’t have a chance of survival if they didn’t follow him.

“Who is this coming man!”

One of the armoured generals questioned.

“Burn!”

“What’s the matter?”

“To deliver the Pulse Melting Pill!”

“The Pulse Melting Pill?”

The armored general’s face instantly changed upon hearing this, and his original arrogance and disdain instantly turned into enthusiasm.

“Friend please also follow me!”

Said the armored general and led the way in front.

Lin Ran was also too lazy to talk nonsense, and immediately followed.

And only once he entered this Garden of Ten Thousand Beasts did Lin Ran finally understand why this place was called the Garden of Ten Thousand Beasts.

From the entrance onwards, there were dozens of magical beasts of all sizes in the entire courtyard.

Some of these magical beasts were poisonous snakes, some were birds, and there were even raptors, almost any common magical beast was found here.

“This bear king is good at playing!”

Lin Ran looked helpless, he had seen many magical beasts, but he had never seen one that kept so many.

This bear king wouldn't have a special fetish, would he?

Lin Ran thought to himself.

The closer he got to the Garden of Ten Thousand Beasts, the stronger Lin Ran found these magical beasts to be.

When the former guards led Lin Ran to the entrance of a courtyard, the magical beasts on both sides had reached the peak of the Enlightenment Realm.

And they were also the particularly hard to find Heavenly Poison Pearls.

This Heavenly Poison Pearl Lin Ran knew something about.

The venom of this Heavenly Poison Bead was extremely strong and the net woven out of it was exceptionally hard.

The only weakness was that this magical beast's eyesight was very poor, especially in the daytime, it was almost no different from being blind.

It is because of this drawback that this Heavenly Poison Pearl is hunted so much that it has somewhat tried to become extinct.

In the past, Lin Ran had only seen a few of them when he was in the Beast King Domain.

It was unexpected that there were so many in this Ten Thousand Beasts Garden.

"Lord Beast King, someone has come to deliver the Pulse Melting Pill!"

The guard stood at the entrance and shouted respectfully to fight.

"Let him in!"

Immediately, a man's strong voice came from inside.

The guard didn't say anything and looked at Lin Ran.

Lin Ran smiled, and immediately stepped inside.

As soon as he entered this courtyard, Lin Ran saw.

A majestic middle man was sitting on a reclining chair, while in front of him a snow-white raptor was glaring at him with two awkward eyes.

It was as if it was the king of beasts, and the period was extraordinary.

"Roar!"

Suddenly, the raptor roared at Lin Ran, seemingly showing off its aura.

Lin Ran smiled at this and did not want to bother with it.

But suddenly there was a flash of light beside him, and Li actually jumped out directly.

“Roar!”

Li’s sudden appearance startled the white tiger, and his roar came out almost instinctively.

But this roar was obviously somewhat lacking in strength, and the previous aura was all gone, and at this moment, looking at Li, his whole body even unconsciously began to tremble.

“What kind of magical beast is this! How dare it make even my white tiger king fear!”

The bear king looked with joy in his eyes.

What he liked most was magical beasts, especially those of huge size.

This White Tiger King was deeply loved by him.

But he never thought that today he would come across an existence that was even more fierce than his own White Tiger King!

“His name is Li!”

Lin Ran’s voice was bland as he then patted Lizzy, who promptly disappeared from his spot with a swirl of understanding.

Li had obviously been attracted by the aura of that King of White Tigers earlier and wanted to come out and compete with it.

However, Lin Ran could clearly see that the bear king had greed in his eyes and was afraid that he had already set his eyes on Li.

This time things were starting to get a bit interesting.

“And don’t let Li come out to talk!”

The Bear King was a little reluctant and spoke.

“No need, I’m the one who sent the Pulse Melting Pill, not it!”

Lin Ran refused outright.

The Bear King frowned slightly, but didn’t say anything else, although he liked Li, but this Melting Pulse but was more important to himself!

“There’s no rush! Get the Pulse Melting Dan first, and I’ll take that Lizzy today!”

The Bear King said to himself in his heart.

Wonder Doctor Chapter 1994

“What my friend said is true, I wonder what my friend’s name is?”

The bear king smiled and looked at Lin Ran.

“Burn!”

“Burn?”

The Bear King listened with curiosity as his gaze glanced around Lin Ran’s body and said.

“Brother Burn is not from my Liang City, is he!”

“First-timer!”

Lin Ran laughed.

“In that case, I wonder about this Pulse Melting Pill then.”

The Bear King didn’t say anything further, Lin Ran’s sudden appearance had still caused him a hint of alarm.

“I was travelling through here and heard that Lord Bear King needed a Pulse Melting Pill so I came here!”

Lin Ran didn’t say anything, he took out a wooden box with his backhand and opened it.

Immediately, a white pill was revealed.

“Pulse Melting Pill!”

The Bear King’s eyes immediately had a glow when he looked at it, and his body jumped up.

This was exactly what he had dreamed of.

“Hey! Lord Bear King, don’t be in a hurry!”

Seeing that the Bear King raised his hand to take it, Lin Ran was busy putting the lid back on.

“This Pulse Melting Pill is right here and can’t escape, but what will Lord Bear King take in exchange for me?”

Lin Ran looked at the Bear King and said with a smile.

“Exchange?”

The Bear King was stunned, and a stern aura flashed in the depths of his eyes, but followed by a return to calm.

He was the sky in this Cool City, but he wasn’t stupid either.

This kid in front of him dared to come alone, and even offered the matter of payment to his face, and he also possessed the kind of magical beast like Glaze that was even more powerful than his own White Tiger King.

All signs indicated that this boy was extraordinary.

But even if he was extraordinary, what would he be able to do when he arrived in his own territory?

Right now, the most important thing was to get the Pulse Melting Pill first, lest this kid ruin it again with a fish dead.

"I wonder what you like, little friend? Weapons? Kung Fu? Secret arts or even magical beasts! As long as little friend says it, I will be satisfied!"

The Bear King said with a smile.

"Don't look at the remote location of my Cool City, but there are still some things that I can get!"

"Haha! Lord Bear King naturally has this ability, and I don't need anything else, so why not just give the spirit liquid!"

Lin Ran laughed.

The weapons were honestly quite lacking themselves, but the weapons they wanted were certainly not looked at by the average ones either.

Moreover, Lin Ran heartily wanted to restore the Frost Condensation Sword, after all, it had followed him for so many years.

As for the secret techniques, he didn't lack them at all, so it would be most cost effective to just exchange them for spirit liquid.

"Spiritual liquid? Good point, I wonder how much you want?"

The Bear King asked with a smile.

"Five thousand cubes, that's not much!"

Lin Ran laughed.

"Not much! Not much!"

The Bear King laughed with him, but the icy cold in his eyes intensified.

Five thousand cubes? The total amount of spirit liquid he had saved in Cool City over the years was only forty thousand cubes!

This kid demanded five thousand cubes in one breath, and he was already looking at the face of the Pulse Melting Pill for holding back his anger.

"In that case, then, Lord Bear King, shall we pay with one hand and deliver with the other?"

Lin Ran asked with a smile.

"Little friend, is this because you don't trust me, Lord Xiong?"

The Bear King sneered.

"Naturally, I wouldn't dare, but this spirit liquid is also very important to me, so I hope Lord Bear King can understand my feelings!"

Can't trust? Lin Ran wasn't a fool, he would be really stupid if he trusted you, the Bear King.

Other things aside, the most important thing was to get the 5,000 cubes of spirit liquid first.

Other things can be put on the back burner, but this spirit liquid must be obtained first.

The two of them were each kicking around different goals, but they were talking in a very hot manner.

Those who did not know would have thought that the two were long lost friends.

The Bear King's side quickly brought over the five thousand cubes of spirit liquid.

Lin Ran took the storage bracelet and probed it, finding that there were indeed five thousand cubes of spirit liquid, before handing the Pulse Melting Pill to the Bear King.

"Alright! The deal is done I should leave too!"

Lin Ran got up and pretended to leave.

"Brother Burn, please stay! I'm afraid it's a bit inappropriate for you to leave like this!"

The Bear King spoke up.

"What do you mean by that?"

Lin Ran looked at the Bear King.

"You've inspected my spirit liquid, but I haven't inspected this Pulse Melting Pill yet!"

"Why don't you take a short rest, and after I've taken it, how about we have a chat?"

He could tell at a glance whether the Pulse Melting Pill was real or not, what he really cared about was his 5,000 cubes of Spiritual Liquid and the mysterious Demonic Beast Glass!

"Sure!"

Lin Ran smiled and nodded his head.

"In that case, please wait for a moment, little friend!"

The Bear King smiled and winked at the guard next to him, before he went to a side compartment alone.

The guards quickly brought a table of food and wine.

Lin Ran was not polite, so he took the wine and poured a glass and drank it.

"Boss, you're not afraid that this wine is poisonous!"

Wolf Ba was busy reminding him.

Lin Ran smiled at this but smiled and said.

"This wine is definitely poisonous, but if I don't drink it, this bear finisher will definitely get suspicious!"

"Then you drink its not."

Wolf Ba was confused, knowing that it was poisonous and still drinking it.

"You forget what I do, this kind of poison and you still want to deal with me?"

Lin Ran laughed.

“I...”

Wolf Bastard froze, yes! His own boss was a bang, and detoxification wasn't like a game.

“This Bear King has run into you, Boss, it's also bad luck in blood!”

“Haha!”

Lin Ran laughed as he had already drunk half of the pot of wine.

The guards next to him had a joyful look in their eyes at this.

In the box next to him, the Bear King was in no hurry to test this Pulse Melting Pill.

“My lord, that boy has already drunk it!”

A guard next to him was busy saying respectfully.

“Good!”

A chill flashed in the Bear King's eyes as he smiled coldly.

“Having been poisoned by my python, I'll see where you can run today!”

The Bear King was very satisfied in his heart before he opened the box and studied the Pulse Melting Pill.

The Pulse Melting Pill must be genuine, of this the Bear King was certain.

However, he was not sure if the Pill had been tampered with, so he had to check it carefully.

A few moments later, the Bear King tested all the methods he could use and saw that there were indeed no problems, and only then did he smile with satisfaction.

“With this Pulse Melting Pill, my strength will surely soar, and there is no worry that my ambitions will not be realised!”

With that, the Bear King raised his hand and swallowed the Pulse Melting Pill.

“Weng!”

As the effects of the Pulse Melting Pill emanated from the Bear King's body.

Instantly a warm sensation swam through his entire body.

At the same time, a message surfaced in the mind of Lin Ran, who was drinking to himself in the courtyard.

Under the probing of his own divine sense, he had finally discovered some of the secrets of this Bear King.

“The Pulse Melting Pill actually has this kind of effect, this Bear King is really deep!”

“Boss! What did you find out?”

Wolf Ba asked busily.

“Yes, what exactly is this Pulse Melting Pill for?”

Li Ba was also curious.

Lin Ran smiled and said.

“This Pulse Melting Pill is a fusion agent for the Bear King and the body to fit together!”

“A fusion agent? What does that mean?”

The two men did not understand.

Lin Ran smiled at their words but said.

“This Bear King isn’t a human at all, his original body is a magical beast! The human form is just an illusion!”

“A magical beast? Not a human?”

“Holy shit really? He’s been ruling Cool City for so many years, but he’s not a human! But a magical beast?”

Wolf Ba and Li Ba both froze, the people of a town being ruled by a magical beast, this was a joke!

But this joke was actually happening.
