

Chapter 2045: Keep An Eye On You

“Here.” Jiang Yao handed the bottle to Lu Xingzhi. Then, she reached out and touched it. After confirming that the water was not hot, she smiled at Lu Xingzhi.

Lu Xingzhi lowered his head as he filled the bottle. When he raised his eyes, he saw Jiang Yao’s sly smile. He curled the corners of his lips and glanced at Jiang Yao. Then, he said, “I’ll ask the nice lady to keep an eye on you. You’re not allowed to consume any ice.”

She must have thought that he could not control her when he stepped onto the stage. When he saw her eyeing the snack bar, he knew what she was thinking.

It was such hot weather, and she was basking in the sun. Jiang Yao, who was already greedy for cold beverages, would not be willing to touch the warm water in the bottle.

The old lady nodded in agreement when she heard that. “Colone Lu is right. Support our

You should not drink too many cold beverages, even if you are not pregnant. Regardless of the season, you have to drink warm water. It is the best for your body and great for maintaining your health. Look at me. I’m already so old, but I am still in good health. It’s because I care about that.”

“That’s right.”

Lu Xingzhi handed the bottle to Jiang Yao. “Let this nice lady keep an eye on you.”

“Sure, don’t worry. I’ll keep an eye on you.” The old lady was enthusiastic. She did not think Lu Xingzhi was fussy, so she agreed with a smile.

The competition had just started, and it was not Lu Xingzhi’s turn yet, so he was not in a hurry to leave. He stood beside Jiang Yao and chatted with the old lady. Lu Xingzhi had just joined the army base, but he had been training outside for a long time. Therefore, he was unfamiliar with many people who lived on the base. However, from the conversation, he could feel the woman was a cultured person. Therefore, he asked a few more questions during the conversation. He discovered that the woman was Commissar Lin’s mother; she was a school teacher before she retired. Lu Xingzhi felt that that should be the

case.

As the three of them chatted, the old lady talked about many interesting things she had taught her students. When she spoke of that, she even laughed out loud. It was apparent that she had a cheerful personality.

When someone called her from behind, the smile on her face did not disappear.

“Auntie, are you chatting with someone? Have you used up the water? I’ve sent another pot.”

The three of them looked over when they heard the voice. A man in his forties came over with a big pot of water.

“No, it’s still early. Not many people have come to get water,” the old lady replied. “There aren’t many people here either. Maybe you can see if other stations need a refill? There are probably more people in the field. Go there and take a look.

The man looked at Lu Xingzhi and Jiang Yao. Perhaps he was curious, so he took a few more glances. He did not recognize them, nor did he greet them. Then, he left with the water.

When he was far away, Jiang Yao clicked her tongue and said, “He’s so strong.”

“Is that so? I heard that he used to be a soldier in the north for two years. He came here to visit his son. However, he’s a diligent man. He said that he would help deliver the water. The women aren’t strong enough to carry the water; we can only help dispense it. The pots are big and hot, so we need strong men. The man volunteered because he knew that we were short-handed.” The old woman had only praises for the man. “I heard that his son will be transferred end of this year. It’s his son’s last year in the army..”

Chapter 2046: Serious Defeat

“People like him felt different about the army.” Jiang Yao looked at Lu Xingzhi. He was the same; his feelings for the army were no less than his feelings for her.

Well, in other words, he valued the army more.

He was very swift with his words. Lu Xingzhi glanced at the clock before leaving Jiang Yao alone. He did not let Jiang Yao go to the front to watch his match because he knew she had excellent eyesight.

In the first preliminary match, Lu Xingzhi did not go up against Shao Fucheng. Instead, he went up against Shao Fu Cheng’s subordinate. When the soldier saw Lu Xingzhi, he frowned and thought, ‘What bad luck!’ He was pitted against the renowned Hades Lu in the first round.

Other people did not know Lu Xingzhi’s capability, but he knew. He had seen Hades Lu’s skills with his own eyes during the drill back then. Support our FreeWebNovel.com

If not for his fear of losing dignity, he would have directly forfeited the match.

People who had been conversing and not paying attention to the match instantly surrounded the center as soon as Lu Xingzhi went onto the stage. The majority of them were army troops.

“Colonel! You can do it!” Xiao Shan’s voice was so loud that even Jiang Yao, who was sitting at the water station, could hear it clearly without using her special ability.

Even though Jiang Yao could see the stage, she could not feel the exciting atmosphere. After sitting for a while, Jiang Yao could not sit still anymore. She carried the bottle and walked forward.

“Mrs. Lu! Mrs. Lu!” When Xiao Shan and the others saw Jiang Yao, they immediately made a path for Jiang Yao. Then, a few young men surrounded Jiang Yao to protect her. “Mrs. Lu, wait and see how our team leader will kill everyone! He will be able to take that weak opponent down in a few moves!”

Lu Xingzhi used a shoulder throw to lift and toss his opponent to the ground, presumably to validate Xiao Shan's comments. He did not give his opponent a chance to fight back. Instead, he used his knee to force his opponent to the ground.

"The opponent is too weak. There's nothing to see." Xiao Shan explained to Jiang Yao like a live commentator. "That person's arm and leg strength are too weak, and he has no tension. I think he had given up when he realized he had to go against Colonel Lu. He must have felt discouraged, so he was a little absent-minded when fighting. He just wants to finish the match."

"With a match like that, even if they don't die, they'd be so embarrassed!"

The person beside Xiao Shan laughed out loud. "Colonel Lu will skin us alive."

Jiang Yao pressed her lips so that her smile was not too noticeable. Lu Xingzhi must have known what was happening with his opponent, so he pulled him up. Then, he said coldly, "Stand up and start over. This is a competition. Why are you retreating before you even start? Will you do the same on the battlefield?" Lu Xingzhi would always be serious in any competition, regardless of his opponent. He believed in having the right spirit for the competition. That kind of attitude was only fair for him and his opponent.

Xiao Shan watched as the competition resumed. He turned around and said to Jiang Yao, "Colonel Lu is so infuriating. He is unhappy that someone lost to him once; he had to make them lose the second time. If I were that person, I would probably be so angry that I would want to kill myself.."
