

Chapter 2055: Abortion Drugs

The most important thing was that, based on Lu Xingzhi's understanding of his comrade's wife, she would not do something like secretly taking random abortion medicine.

"They're almost here. There are already doctors waiting at the entrance. They are not in good condition either. One is over six months pregnant, and the other is about to give birth." The nurse frowned. "Your unit sent four pregnant women here today."

Before the nurse could finish her sentence, someone called out to her from afar. Then, she rushed into the emergency room and ran downstairs. From the conversation, it seemed that the two pregnant women had already reached the hospital entrance. Support our FreeWebNovel.com

Lu Xingzhi stood there and thought for a few seconds before he quickly followed her. When he found her, it was a mess. The cries of the two pregnant women were so loud that it almost made one's ears hurt. However, when he thought about the pain of losing a child, Lu Xingzhi did not feel disgusted at all.

"How's the situation?" Lu Xingzhi asked the nurse, who was about to leave after drawing blood from the women.

The nurse did not have the time to answer Lu Xingzhi. She shook her head, took the things, and immediately rushed away. She seemed to be in a hurry to send them to be tested.

The equipment there was a little unfamiliar to Lu Xingzhi. A few doctors surrounded the two pregnant women and used the instruments to test them.

"We need to send this woman to get a C-section immediately. If we delay, we will lose both mother and the baby. Send her to operating theater number 2 on the third floor. See if Chief Ma is already here; he will handle the surgery." A doctor with silver hair spoke with an icy expression.

"Doctor, where is my baby? Please save my baby." Another pregnant woman quickly pulled the doctor who was closest to her.

The doctor looked at the patient, whose face was covered in tears. He almost could not open his mouth.

"Don't delay. Induce the labor now." The doctor made a prompt decision.

Lu Xingzhi quietly retreated and did not cause any trouble for the people there. The woman was only six months pregnant. He knew that the baby's chances to survive were very low even if they induced labor.

The pregnant woman grabbed the doctor and asked him if he could save her baby. However, the doctor had no answer for her. Then, the doctor left the room. He spoke to the woman's husband and told him the cold truth.

Perhaps it was because he was also about to enter fatherhood that Lu Xingzhi continued to look at his comrade. The man's body trembled as he held a pen and signed the consent form for his wife's surgery. Lu Xingzhi thought he was lucky. He was glad that Jiang Yao and their baby were strong. He was glad that Jiang Yao protected their baby.

Lu Xingzhi was so frustrated that he felt like smoking. Out of habit, he reached into his pocket, but he found nothing. Only then did he let out a self-deprecating laugh. He thought he had suddenly become a fool. He had already quit smoking for so long; how could cigarettes be in his pocket?

The two pregnant women were quickly sent to different operating theaters. Lu Xingzhi followed them and waited outside the operating theater for a while.

...

Half an hour later, the head nurse, whom he had met once before, walked toward him with a puzzled look on her face. She said, "That's strange. The results showed that both of the women took the same abortion drugs. The situation is the same as the first woman. The results are the same." "Is the machine broken?" Lu Xingzhi's voice was hoarse.

"No." The head nurse shook her head and said, "At first, I suspected the machine was broken, so I asked them to rerun the test. The results are the same. All three took the same abortion drugs that caused the miscarriages.."

Chapter 2056: Nothing In Common

That seemed unusual to the head nurse. She had worked in the medical field for a long time, including in the obstetrics and gynecology department. She had never seen anything like that before. Even stranger, all the pregnant women taken there that day were from the army. They were there because of the abortion drugs.

"Based on the time of the attack, it must be meal time. Go back and check if it was something they ate." The head nurse scanned the room and realized that there was something wrong. Then, she handed the report to Lu Xingzhi. She felt that he should have the highest military rank.

After that, the head nurse left. Lu Xingzhi looked at the report in his hand. He could not understand it.

Lu Xingzhi said, "Do you want to take the report or leave it with me for now? If you want to take it, I will look for you when my wife wakes up. We can't understand it, but she is a doctor. She can understand it. I will help you talk to the military about that and get them to investigate."

There was no doubt that those three couples did not know each other. They were not even in the same regiment. They could not have eaten something bad together. Furthermore, the three women could not have agreed to eat abortion drugs together. [Support our FreeWebNovel.com](http://www.FreeWebNovel.com)

They were also sure that the three women wanted their pregnancies. They were looking forward to meeting and loving their children.

"Colonel Lu, please keep it. I'll have to bother your wife to help us check if there's something wrong with those results. It's fine. Why would it be because she took some abortion drugs?" The soldier clenched his fists. "My wife will not take any abortion drugs. I'm very certain about that. "

"Alright."

Lu Xingzhi agreed. Then, he took the papers and quickly walked toward Jiang Yao's ward.

Jiang Yao was in a single ward. Lu Xingzhi was afraid that she was still waiting for him to return, so he rushed back to the room. However, he saw Jiang Yao sleeping soundly when he entered the room. The corners of his lips curled up slightly. He sighed. How could he forget that Jiang Yao was different from usual?

She would have opened her eyes and waited for him to return if it was a usual circumstance. However, her body was weak, so she needed a good rest.

Lu Xingzhi called Zhou Junmin from outside the ward and told him about the situation with the pregnant women. Everyone, including Zhou Junmin, was shocked when they heard what the head nurse said.

“Go and check if the three women ate anything together today,” Lu Xingzhi said.

“Colonel, that is not right. One of the women came here because she was visiting her family, and the other five live on base. They must have cooked by themselves, and the woman who came to visit her family must have eaten in the canteen. They ate different things today. What could they have in common?” Zhou Junmin felt that it was unlikely.

“Tell the chief about this. The rest can wait until I go back tomorrow.” Lu Xingzhi thought about it and felt it was not easy to investigate. It was better to wait until Jiang Yao woke up and let her confirm the list’s contents first.

After hanging up the phone, Lu Xingzhi stood at the door for a while before returning to the ward. He took off his shoes and lay on the bed before hugging Jiang Yao in his arms.

...

Jiang Yao did not get a good night’s sleep. When she was at home, she would usually not wake up as long as she was asleep, no matter how he moved her. However, merely touching her then made her appear to be on the verge of waking up; it was as if she had been startled..
