Chapter 2123

Although Xu Lei was born in a wealthy family, she did not have the bad habits of spoiled and spoiled children of the family.

She learned to be independent since she was studying outside alone.

Later, his parents had an accident, the family changed, and various setbacks made Xu Lei learn to be strong.

If a woman can't even cook and do housework, then how can we talk about independence, and how can we talk about being strong?

Therefore, even if Xu Lei had the conditions to hire a nanny, she would not do so.

What's more, Xu Lei used to dream about marrying Mark in the future.

She knows that her brother Mark is a thrifty person, and will definitely not waste money to ask for a nanny in the future.

Therefore, she naturally has to learn to do things like washing and cooking.

If this is the case, she will be able to take better care of her Mark brother in the future.

For Xu Lei, it is a very warm and happy thing to let her lover like the food she cooks.

But unfortunately, these fantasies of Xu Lei were only fantasies after all.

The woman who cooks for Mark's brother is not her!

However, Xu Lei had figured out that even if she could not be the woman of Mark's brother, it would be a good thing for Mark to be with her in silence like now.

"Go, beat the potato skins, and cut them into silk."

In the kitchen, Xu Lei gave orders to Mark.

When Mark heard it, he stared!

“Ciao, you dead girl, I haven’t called you yet, but you called me?” “It looks like you are going to be the chef yourself.”

“Okay, I’ll give you this opportunity.”

“I have to see, what is the cooking skill of the former Noifork goddess and today’s wealthy master?” Mark smiled helplessly, and was willing to succumb to the “second line” and gave Xu Lei his hand.

Just like this, in the room, the rice fragrant.

Xu Lei is very skillful in cooking a few home-cooked dishes.

“I’m going, Leier, okay?” “Unexpectedly, your daughter, you really know how to cook?” “In this society, there are not many women who can cook. “At least, Helen doesn’t know how to cook.”

At the dinner table, Mark could not help but secretly praised Xu Lei’s craftsmanship.

“That is, this lady went to the hall, and was a representative of the new era women in the kitchen.”

Hearing Mark’s praise, Xu Lei was undoubtedly very happy.

He looks happy, as if his dishes have won international awards.

Especially after hearing that Helen Qiu could not cook, Xu Lei’s pride and joy were undoubtedly more intense.

“Hey?” “Mark, who said that Helen can’t cook anymore?” “During the time you left, Helen’s craftsmanship has improved a lot.”

“On the day of my birthday banquet, the table was full of dishes. Helen did it alone.”

“She didn’t let me help when I helped, and she didn’t let me tell you, saying she wanted to surprise you.”

“You fellow, marrying such a good wife as Helen, will you be content? Next to him, Ye Ximei was fighting the injustice for Helen Qiu.

Mark was undoubtedly surprised when he heard it.

He and Helen Qiu have been living together for many years. Mark has been cooking for so many years. Helen Qiu doesn’t touch the spring water and rarely enters the kitchen.

Before, Helen Qiu thought about learning to cook, but Susie stopped her.

It is said that cooking harms the skin and accelerates the aging of women.

In short, let Helen Qiu stay away from the kitchen, and said that cooking is not something women should do.

Chapter 2124

Later, when I was busy with work, learning to cook and other things, it was all gone.

Now, Mark didn't expect that during the time he was going to Japan, that girl in Helen had already started cooking.

Mark was naturally moved in his heart, thinking about waiting for a while to finish eating, and calling Helen Qiu to report her safety.

That woman, she must be worried about him in Gritsberg at this time.

Mark ate very warmly for this dinner.

Since the disaster that day, Mark has been wandering outside for months.

Now that he returned to Noirfork again, the first meal he had with his relatives really made Mark feel a sense of belonging and warmth.

For so many years, he has cultivated so hard, so hard to become stronger, why?

Not just to protect this warmth.

Seeing that the time was right, Ye Ximei also began to talk about the situation in Noirfork.

"Mark, I heard that you are going to attack the two wealthy children of Fenghua Group?" "Huh?" Mark frowned, "Is it Ericson or Lei Lao San that told you?" "This Two old things, let's see how I go back to clean them up!" Mark never told them about these things about Noirfork, whether it was Helen Qiu or his mother Ye Ximei.

He didn't want them to worry about these things.

This is Mark, no matter how much pressure he faces outside, he will bear it alone.

A man will naturally stand upright!

For his wife and family, block all the wind and rain, prop up a world.

Therefore, Mark never let Helen Qiu know about career matters.

Now that Ericson's old things are carrying themselves to disturb their mother, this is undoubtedly a violation of Mark!

"Don't blame them, I forced you to ask."

"But Mark, my mother would advise you to be forgiving and forgiving."

"Since Lu Mingfeng has learned a lesson and knows that he is afraid, you don't have to cut it. Kill it all."

"Perhaps, you are not afraid of the Lu family or the Xu family."

"But Mark, you have to consider Helen, me and Xiaolei, and all those who follow you in Noirfork. consider."

"These days you are not here, the situation in Noirfork is precarious, and many people who care about you are implicated."

"Now that you are finally taking a breather, do you really want to intensify the conflict again."

"Let everyone follow you and get into danger again."

Let Helen, Xiaolei and others worry about you again!" "This time, it was a false alarm. You are back alive."

"But, next time?" "The gentleman doesn't stand the truth under the dangerous wall, you should Understand?" "During this time, Helen cried and dried up her tears for you, Xiao Lei stayed up day and night to take care of you."

"So, Mark, mother wants you to stop."

"Lu Mingfeng and the others have learned the lesson, you just No need, I'll kill it all."

In the room, Ye Xi brows earnestly persuaded.

Xu Lei also said softly: "Yes, Brother Mark. The family of Lu and Xu have a profound background in Vietnam, and the energy they master is terrifying."

"If you really kill Lu Mingfeng and Xu Shaohua, Jiang Dong will definitely fall into it again. A precarious state."
