

## Wonder Doctor Chapter 2151

There was darkness all around.

When Lin Ran woke up, he only felt pain all over his body, and he even felt like he wanted to fall apart.

“Kid, bear with it for a bit and you’ll be fine soon!”

The voice of the Heavenly Thunder Lord came through.

Lin Ran nodded, so uncomfortable at this point that he didn’t even want to lift his eyelids.

“Flutter.”

Suddenly, Lin Ran felt as if he had been thrown into the water.

But the water was hot and very comfortable.

After falling into the water he could feel a surge of power drilling into his body.

It was making the tiredness in his whole body disappear rapidly.

“It’s almost time, time to go see the Thunder Lord!”

The voice of the Heavenly Thunder Lord rang out again, and before Lin Ran could open his eyes, he felt that everything around him had disappeared.

When he reappeared, he was already in the great hall of the Thunder Zun Pavilion.

Lin Ran opened his eyes to see that there were only two people within the entire hall, but there were only two people.

One of them was clearly none other than the Heavenly Thunder Lord.

And on the side next to him sat an old man, who should obviously be the Pavilion Master of the Thunder Dignity Pavilion.

“Kid has met Thunder Venerable!”

Lin Ran instantly saluted.

“Hmm, the Nine Heavenly Mystic Maiden is your ancestor, right!”

Lei Zun opened the door directly.

“Yes!”

Lin Ran was shocked in his heart, but he still nodded and admitted it, the other party could see this, so he obviously knew a lot about his ancestor as well.

“Not bad! The people who came out of that world of yours are all pretty good!”

Lei Zun laughed.

“You know about my ancestor, Zun Lei?”

Lin Ran asked busily.

“I know some, but not much, so I think you might as well focus on yourself!”

Lei Zun laughed.

“Er. Please also ask Lei Zun to clarify!”

Lin Ran was stunned, the other party clearly meant that he did not want to talk to himself about his ancestors.

There was nothing Lin Ran could do about this, but to be honest he already knew a lot about some of his ancestor’s experiences!

He just didn’t know whether his ancestor was dead or alive, and where he was!

It was useless even if one knew these things, so it was better to focus on the present.

“Don’t you want to know the result of the test just now?”

Lei Zun laughed.

“I want to!”

“Kid listen up!”

The Heavenly Thunder Lord on the side smiled and accounted for it.

“First of all you have a good divine sense and physical body hate, but your spiritual root is rather mediocre!”

“This can’t be helped because your small world and the immortal realm don’t belong to the same root and origin!”

“And the spiritual root has a very big impact on you, let me put it to you this way, if your spiritual root can be raised up, it can at least double your current cultivation speed!”

“The combat power can also go up by half!”

Lord Heavenly Thunder laughed.

“Double the cultivation speed?”

Lin Ran froze as he heard this.

What a sense of cultivation speed doubling was!

The higher the strength, the slower the cultivation speed.

By directly doubling one’s cultivation speed, one would likely break through to the Perfection realm in no time at all!

“Thank you, Thunder Venerable!”

Lin Ran was busy bowing respectfully, this was simply a great opportunity for himself!

“You are also a member of the Thunder Dignity Pavilion, no need for that!”

“Spiritual root cultivation takes time, I’ll give you an accelerating magic weapon, but even then I’m afraid it will take ten years!”

“You can go ahead and do whatever you have to do!”

Lei Zun said.

Lin Ran thought about it, it seemed like there was nothing really going on at the moment.

His own other doppelganger was in the small world of the Ancestral Lands, and once he got the flying shuttle he could crack the current anti-Alliance dilemma!

This doppelganger of his own was mainly looking for Song Nuan.

Thinking of Song Nuan, Lin Ran was busy asking.

“Lord Lei Zun, I wonder how much you know about the Divine Shadow Clan!”

“The Divine Shadow Clan? Why are you suddenly asking this?”

Lei Zun frowned slightly, seemingly shying away from the topic of the Divine Shadow Race.

“To tell you the truth, one of my most important friends has been captured by them!”

Lin Ran said.

“I’ve been poking around for news of her, only to never make much progress!”

“Captured by the Divine Shadow Clan! This matter is somewhat difficult!”

Lei Zun frowned and said.

“This Divine Shadow Race is very peculiar! They don’t have physical bodies, they’re all soul bodies!”

“According to the past, it’s impossible for their world to allow a physical body to survive!”

“And they need physical bodies, otherwise they’d be too disadvantaged in the Immortal World!”

“So, this friend of yours has a physical body that is probably still in Chaos Space!”

“The soul, it should have been brought into the world of the Divine Shadow Clan by them!”

“What?”

Lin Ran froze when he heard that.

The flesh was still in Chaos Space!

“Thunder Zun, I’m going to Chaos Space!”

Lin Ran said at once.

“Calm down, it’s useless for you to go now!”

Lei Zun said.

“First of all, your strength isn’t even at the Perfection realm, so you won’t be able to fight back against the people of the Divine Shadow Clan!”

“Even if you find out where the flesh is, you won’t be able to take it away!”

“To take a step back, even if you could really take the fleshly body away, so what!”

“Once the flesh body is too far away from the divine sense for too long, it won’t be able to keep it!”

“You can’t enter the Divine Shadow Clan now!”

“I am.”

Lin Ran was instantly dumbfounded.

Zun Lei was right, he had indeed been impulsive.

But knowing that Song Nuan’s physical body was in Chaos Space, if he didn’t do anything, he wouldn’t be able to stand it!

“Zun Lei, do you know of any way to send someone into the world of the Divine Shadow Clan!”

Lin Ran suddenly asked.

“You’re crazy, the world of the Divine Shadow Race is so dangerous and unpredictable that people are afraid of not being able to avoid it, and you actually want to go in!”

On the side, the Heavenly Thunder Lord was also a little anxious.

“Lin Ran, I advise you to think about this matter carefully!”

“The world of the Divine Shadow Clan isn’t an ordinary menace, even if you have a doppelganger!”

“Their methods are all aimed at the divine sense, even if you have a doppelganger, they can still wipe out your doppelganger as well through karma!”

Lei Zun also persuaded.

“I understand, I just want to know if there’s a way to enter the Divine Shadow Clan or not!”

Lin Ran said.

“There is a way!”

Lei Zun nodded his head.

“But now is not the time not to tell you! The most important thing for you at the moment is to raise your strength up!”

“And at the same time, raise your spiritual roots up!”

“I understand!”

Lin Ran nodded his head.

Having come all this way, he understood one thing profoundly, without strength you have no say in the Immortal Realm!

You couldn't even protect the people you wanted to protect.

So there were times when even though he was anxious in his heart, he could only hold back.

Because there was nothing else he could do.

◦ ◦ ◦ ◦

After chatting with Thunder Zun for a little longer, the Heavenly Thunder Lord took Lin Ran away.

....

In the Thunder Dignity Pavilion, there was a place called the Spirit Tower.

This was a place where every disciple of the Thunder Zun Pavilion had to come.

One's spiritual roots could not be raised overnight, let alone raised to the extreme.

The time magic artefacts that Lei Zun had rewarded Lin Ran with would also take ten years.

Without these time magic artefacts, the time required could be hundreds of years, or even a thousand years!

"The uppermost floor of this Spirit Tower has the best cultivation effect, but there is only one spot, and Zun Lei has already informed down that this uppermost floor is for you to use for ten years!"

"After ten years, if you haven't reached the top, then you'll have to let it out, after all, there are still many disciples in the Thunder Dignity Pavilion!"

The Heavenly Thunder Lord said.

"Thank you very much, Thunder Lord!"

Lin Ran was grateful, to be allowed to use it for ten years was already a great favour!

"Alright, get ready to go in, time waits for no one, look at you kid, you're in quite a hurry!"

The Heavenly Thunder Lord laughed.

### **Wonder Doctor Chapter 2152**

"Many thanks, senior!"

Lin Ran rushed at the Heavenly Thunder Lord and bowed respectfully, before he said no more and turned towards the Spirit Tower.

At this moment, there were quite a few people gathered around the Spirit Tower.

Many people had never seen Lin Ran before, and at this moment, seeing him enter the Spirit Tower they couldn't help but talk about it.

“Who is this kid!”

“He must be a new disciple!”

“A new disciple? Is he special? Why did the Heavenly Thunder Lord personally send him here?”

“I don’t know!”

The crowd was puzzled.

“Maybe it’s just a coincidence, even if it was sent by the Heavenly Thunder Lord then it’s useless, within the Spirit Tower one has to choose their position according to their strength!”

“Hey hey no, why did he go straight towards the top of the Spirit Tower?”

“Right!”

The crowd was confused as they watched.

“Is it hard to say that there is something special about this kid?”

Someone wondered.

“A special place? What could be so special about it?”

“Holy shit, how did he get right up to the top level!”

“He definitely can’t get in!”

“Holy shit, how come it’s still open!”

“This.... This is too unfair, how can he go straight up to the topmost Spirit Tower for a newcomer!”

The crowd of Thunder Zun Pavilion disciples all looked baffled.

“Hey hey, isn’t that Lin Ran?”

“Lin Ran you know him?”

Suddenly someone in the crowd shouted.

“I know him, he was the one who overpowered the two Golden and Silver brothers and refined the divine lightning in the chaotic space before!”

“Refining divine lightning? Holy shit no, this man is too fierce!”

“Even if he refined the divine lightning, he can’t just come and occupy the topmost spirit tower!”

“Hey! What’s the point of talking about this, the Heavenly Thunder Lord sent him here, obviously by default, this Spirit Tower mouth becomes, it seems that we can’t use it!”

The crowd sighed helplessly.

“Humph occupying the top layer of the Spirit Tower what can we do, when the powerful senior brothers return later, he won’t still be able to keep this position!”

“No, let’s wait and see!”

Some of the disciples were upset and said.

....

Lin Ran naturally had no idea about this.

When he arrived at the uppermost level of the Spirit Tower, Lin Ran sat down directly on the futon.

Within a short while, an inexplicable feeling swept over him.

The uppermost floor of this Spirit Tower was very empty, and apart from this futon, there was only a ray of light shining down from above.

There was nothing else.

Sitting here alone, Lin Ran could feel an aura of desolation.

But as this empty aura swept over him, Lin Ran clearly felt that he had entered a very subtle state.

It made him unable to help but start to run the spiritual qi around his body.

And as the aura ran, Lin Ran could clearly sense his own senses of the surrounding heaven and earth aura.

This was the first time that he felt that his sense of the surrounding aura had become very vague.

It was as if he was separated by a layer of window paper.

However, this feeling had clearly improved as Lin Ran continued to run his entire body through his spiritual energy.

Lord Tian Lei had said that spiritual roots were the degree of fit to this world.

Could it be that it was manifested through these auras?

Lin Ran pondered.

If that was the case, at this slow pace, I was afraid that ten years would really not be enough.

No wonder Zun Lei had to give himself the time acceleration spell!

“Another long ten years!”

Lin Ran sighed, he had sort of understood this whole journey.

Why the stronger the person was, the more they disliked trouble.

It was because the path of cultivation was too difficult, and the one who could reach an awesome level hadn’t given a lot.

Who would want to get involved in danger easily!

o o o o

The long cultivation began while at this time within the small world of the ancestral land.

Lin Ran and Pillow Book in also finally rushed out from within the first Jedi.

But the two did not have time to stay, and immediately rushed to the next Jedi.

There were at least a dozen Jedi that the Pillow Book had sorted out.

They could not be broken into in a few days or months.

Moreover, some of the Jedi were so dangerous that they could be trapped for years or centuries at a time!

So Lin Ran also had to deal with them carefully.

....

Time just went by day by day.

A month, three months, a year.

In the blink of an eye, a full three years had passed.

It seemed that the disciples of the Lei Zun Pavilion had already gotten used to the fact that Lin Ran was occupying the uppermost floor of the Spirit Tower.

Although there were still people who expressed their discontent from time to time, no one was bothered by it.

Lin Ran was still cultivating within the Spirit Tower and had not come out.

These three years had already brought the war in the Immortal World to its final tug-of-war.

The Anti-Alliance, after three years of wear and tear, had finally been unable to carry on!

Within the Alliance, without the supply of spiritual energy, apart from some powerful cultivators, the middle and lower level cultivators had completely lost their fighting power.

In desperation, the Lord of the Alliance had no choice but to initiate a breakout plan.

The ten strongest people in the alliance were asked to lead the others to start a breakout.

This breakout was undoubtedly very risky.

Countless numbers of people had all converged within the small world of one person.

Once this person was caught by an Immortal Emperor, the outcome could be imagined.

But this was the last chance for the Anti-Alliance, and they had no choice!

The plan to break out seemed simple but in reality, it was a long one to implement!

Another three years had passed.

Out of the ten people in the breakout plan, only five had managed to escape.

The other two perished!

At this point, the Anti-Alliance still had the last three breakouts left to make.

They weren't the ones being attacked, they were none other than Qin Bing, Ling Sa and Su Rou!

These three were the strongest, so Long Ya did not make the cut.

However, they all knew clearly in their hearts that apart from Ling Sa, Qin Bing and Su Rou would be the ones that Heaven and Earth would focus on, I was afraid.

After all, they had both been Immortal Emperors a flip before, but now.

"Lin Ran has already been there for six years!"

"We don't know how long it will take for him to come out, so we can only rely on ourselves!"

Qin Bing said.

The others didn't say anything, but they knew that they were afraid that Lin Ran wouldn't be able to make it back this time!

....

And at this time, within the small world of the Ancestral Land.

After a full six years of searching, Lin Ran and the Pillow Book had finally set foot through most of the Jedi Lands.

They had been quite lucky, and hadn't been trapped in a certain place for a long time.

But even so, it had taken them a full six years to explore most of the Jedi lands.

"This is the last place, if there is still no sign of the old Immortal Emperor in this place, then there is really nothing we can do!"

Pillow Book was standing in front of a lake at this point, with a hint of anticipation hidden in his eyes.

"Is there anything special here?"

Lin Ran asked.

"This is where the Immortal Emperor's final cultivation took place before he achieved the position of Immortal Emperor!" ,

"The Immortal Emperor once recorded that he had obtained a very important item here!"

"It was this item that allowed him to achieve the Immortal Emperor's throne!"

"If the Immortal Emperor had to choose a place to stay in the end, this is definitely the place to be!"

The Pillow Book said.

"Let's go in, I'm familiar with this place, I should be able to finish exploring it soon!"

Pillow Book said as he already took the lead and rushed towards the island.

Seeing this, Lin Ran didn't say anything and immediately followed.

### **Wonder Doctor Chapter 2153**

The entire island was not large, but there were many forbidden formations.

Lin Ran followed behind the pillow book, and it took him a full three hours to pass through the forbidden dots set up by the old immortal emperor and enter the island.

The entire island was filled with birdsong and flowers, and it seemed that the true qi here was very dense because of the formations.

And as the doppelganger had been practising his spiritual roots hard within the Spirit Tower for six years.

At this moment, Lin Ran's sense of these true qi had clearly become much sharper.

That feeling was like the relationship between a fish and water.

"There are three main places here, we'll each be responsible for one, and we'll go to the last one together!"

The pillow said.

"There is a cultivation platform, a scripture collection pavilion, and a chance pavilion here!"

"You take charge of the Hidden Scripture Pavilion, I'll go to the Cultivation Terrace, and finally we'll all go to the Chance Pavilion together!"

"Good!"

Lin Ran nodded his head, not having any objections.

The two agreed, and immediately moved on their own.

The so-called Hidden Scripture Pavilion was actually a temporary place for the old Immortal Emperor to store his tomes while he was in seclusion and cultivation here.

Moreover, because of the crude conditions here, many of the books were already yellowed, and some were even mouldy.

When Lin Ran arrived here, he barely found any substantial clues!

However, he was not willing to give up and radiated his divine sense out, searching the entire Hidden Scripture Pavilion.

But the result was not the slightest bit surprising, and he had indeed found nothing.

When he left the Scripture Collection, the Pillow Book also rushed back from the cultivation platform.

Now he had nothing to show for it either.

“Are you sure this is the old Immortal Emperor’s favourite place? Why do I feel as if he doesn’t like it here!”

Lin Ran said helplessly.

“You don’t understand!”

The Pillow Book, however, laughed.

“The Old Immortal Emperor is like this, the more he likes the place the less he keeps it too well!”

“In his words, this this is actually a kind of protection!”

“If we can’t even find a clue to him in this place, then we can give up!”

“This is already the most likely place to hide his clues that I could find!”

Pillow Book said.

“Forget it, let’s go and check out the last place!”

Lin Ran said.

The two of them immediately rushed towards the Pavilion of Chance.

The so-called Chance Pavilion was actually the place the old Immortal Emperor used to store some heaven and earth wonders.

However, the situation here and actually made Lin Ran a little disappointed.

It was because the entire Chance Pavilion was also filled with a musty smell.

It seemed that the old Immortal Emperor didn’t care about the preservation of the Heaven and Earth Wonder Materials here.

“You do it!”

The pillow seemed a little disappointed as well, not bothering to do anything at all.

Lin Ran had no choice but to emit his divine sense out.

He soon scoped out the entirety of the Chance Pavilion.

But this time he still found something!

“There’s a box here!”

Lin Ran said as he stepped forward and found a brocade box from behind a row of shelves.

The brocade box was covered in dust and it was possible to see that the whole box was very beautifully made.

Lin Ran gently opened the box.

Immediately several sheepskin scrolls appeared in front of the two men.

There were a total of three parchment scrolls in it.

On them were engravings of designs

The first of them had a ladder-like structure engraved on it.

Countless steps seemed to lead in one direction.

And on this ladder, the figure of a man can be vaguely seen.

Only the figure of this person was so tiny that it simply looked somewhat insignificant compared to the entire ladder.

“What is the meaning of this?”

Lin Ran looked puzzled, not understanding what exactly the old Immortal Emperor meant by leaving this parchment scroll behind.

“Let’s look at the second one first!”

The Pillow Book said.

Lin Ran instantly took the second parchment scroll out.

Only to see that the second parchment scroll had a design engraved on it.

What was engraved on it was that at the end of the stairs, a road appeared, and the road led endlessly to nowhere.

But around this road, there are countless stars in the sky.

On one of the bright stars there is a figure.

She seemed to be a woman, quietly encircling that bright star.

It seemed to have fallen into a deep sleep, but it could have seemed to be awake!

Lin Ran looked puzzled, and immediately took out the third parchment scroll.

And what was written on this third parchment scroll was even simpler.

There was a huge sphere carved on it.

It also emitted light, and a figure was standing in front of this sphere at that moment, but compared to the enormity of this sphere, the figure was pitifully small.

“What exactly are these three scrolls of parchment trying to express?”

Lin Ran couldn’t help but look at the pillow book and ask.

“How should I know, I’m not a roundworm in an immortal emperor’s stomach!”

“But it’s better to keep it for now, it might come in handy later!”

Lin Ran nodded and immediately put the box away.

“Let’s go, there’s nothing left here either, so it seems we’ll have to figure it out on our own!”

The pillow greeted, and prepared to leave.

This whole journey of chasing after the old Immortal Emperor had honestly made him a little numb.

He also seemed to have gotten used to this outcome in front of him.

“Wait a minute!”

Suddenly Lin Ran pointed to a shelf off to the side and said.

“This place, when I explored it just now, there was clearly nothing there!”

“Why is there more of the same now!”

“Huh?”

Pillow Book was stunned, and he was busy following Lin Ran’s gaze.

Only to see that where this guy was pointing, there was actually something the size of the palm of his hand sitting there.

This thing seemed to be made of metal and looked a lot like a small section of stairs.

Although it was only the size of a palm, it was within this Chance Pavilion.

With Lin Ran’s divine sense there was no way he could have missed it.

How did this guy just say he hadn’t seen this thing before.

“Are you sure you hadn’t seen it just now? Or did you give it a miss!”

The pillow asked

“I’m sure I’ve never seen it!”

Lin Ran said seriously, while emitting his divine sense again, and this time it didn’t take much for his face to change.

“There’s something odd about this thing, divine sense can’t detect it at all!”

“Eh?”

Pillow Book was also stunned at his words, and busily took over the object to check it out.

But looking at it left and right he couldn’t find out what was so special about this thing.

“It might be a magic weapon left behind by the old Immortal Emperor, try to refine it!”

The pillow said as he tossed the item to Lin Ran.

Lin Ran was not polite and immediately dropped a drop of essence blood onto it.

He then began to refine it.

The refinement of this thing was quite smooth.

It didn't take long for Lin Ran to feel that he had already refined this thing.

At the same time, he had also developed an extra sense of this thing.

With a thought, Lin Ran went along to sense what this thing really was.

Seeing that it was this instant, he suddenly felt a suction force on his consciousness, and the next moment his entire consciousness was directly sucked into this thing.

"Eh?"

The pillow beside him saw this and knew that Lin Ran then had discovered what was going on, and immediately gave Lin Ran protection.

But at this moment, Lin Ran was in great distress.

He only felt that his mind was spinning in the sky.

When he opened his eyes again, there was actually darkness around him.

Only a short distance in front of him was a white staircase that continued to stretch upwards.

There was no end in sight.

And on the first step there were a few large words carved on it.

"Stairway to Heaven!"

#### **Wonder Doctor Chapter 2154**

At this moment there was no one around except Lin Ran.

There was nothing but darkness around the empty place except for a flight of steps.

Lin Ran stood in place and waited for a few moments until his emotions calmed down, and then he slowly walked towards the steps.

This place seemed to be the inner space of that step magic artefact.

But what exactly was this magic artefact, and what was this stairway to heaven?

Lin Ran couldn't figure it out.

Moreover, he found that he seemed to have been cut off from the outside world ever since he had entered this space.

Whether it was the magic weapon itself, or the pillow book, he couldn't even feel it at all.

If he couldn't get out of here, wouldn't he be trapped here forever?

Lin Ran couldn't help but feel a little chill on his back as he thought of this, even though this place was rich in true qi and he wasn't trapped to death.

But being trapped here forever was no good, the battle was still going on outside.

His own doppelganger was in seclusion in the Spirit Tower.

Someone had to go out and help!

And only his own doppelganger was within the Anti-Alliance.

It was obviously not practical to have another doppelganger come back.

After sorting out the current situation in his mind, Lin Ran thought no more about it and continued to walk towards the top of the steps.

Apart from the first step, Lin Ran had not seen any other steps with the words "Heavenly Staircase" on them.

This at least meant that he was not going in circles.

As Lin Ran continued to go up, he gradually felt a faint aura appearing in the air.

This aura was clearly left behind by a cultivator.

But it was very faint for some reason!

Lin Ran didn't think much about it, this place seemed mysterious, but it was a matter of getting out or exploring what this place was really for!

He had to get out as soon as possible to do so.

The stairs under his feet seemed to go on forever.

And this place seemed to have even stood still in time except for the steps.

Lin Ran didn't know how long he had been walking.

Until even a man of his strength felt very tired when he moved his feet.

The stairs ahead finally appeared to change for a moment.

The steps beneath his feet gradually turned from black to white.

And the stars in the sky also began to multiply from the scattered ones at the beginning.

Many of these stars were also very large.

Lin Ran gradually realised that he seemed to have stepped into the world carved on those three parchments.

One of the parchment scrolls was inscribed with so many stars.

Only Lin Ran had not yet found the most special one.

On the parchment scroll, there was a woman holding a star.

But here, Lin Ran had not found it yet.

The aura around him was getting thicker and thicker.

This was what sustained Lin Ran as he continued to walk on.

It seemed as if there was someone standing not far ahead, waiting for him to pass.

Lin Ran's pace was already starting to become heavy.

But he was still holding on.

Suddenly, after stepping up a ladder, Lin Ran was shocked to find that the ladder in front of him had disappeared!

He had finally come to the end of it.

And at that moment, when he looked up, the stars in the sky had almost all turned out to be huge.

Rarely could one see the smaller stars.

Lin Ran didn't know what was going on, all he knew was that he was getting closer and closer to that aura!

He was so excited in his heart that he immediately ran towards the front.

The floor beneath his feet was white even now.

But his vision could not see far, and Lin Ran ran wildly all the way.

After only ten minutes, he suddenly froze.

Only to see that not far away, the star had actually appeared in the sky.

The star was very large, and on it a woman's figure was unusually clear.

A woman was seen holding the star in her arms as if it were an environmental baby.

She herself was frowning and her eyes were closed, as if she had fallen into a deep sleep.

Lin Ran looked at the star and, for a moment, actually felt a sense of familiarity.

It was as if he had seen this woman somewhere before.

And that feeling was very intimate, as if she was one of his own.

What the hell was this place!

Lin Ran's heart couldn't calm down.

If what he was seeing was real, then wouldn't the other picture on the parchment scroll also be real!

A figure was standing in front of a huge sphere, what the hell was he doing!

And what on earth was this place?

Lin Ran's heart was puzzled, but it seemed that there was nothing he could do at this point except move on.

Trying to calm his turbulent emotions, Lin Ran stepped forward and continued to walk!

And this time, with every step he took, he could feel the aura around him becoming thicker!

Five minutes, ten minutes!

Thirty minutes.

When Lin Ran could already clearly see that he was getting closer and closer to that particular star.

Suddenly a figure actually appeared in front of him.

This figure had his back turned to Lin Ran, standing motionless in place.

A hazy green light was emanating from around him.

If Lin Ran had not read the parchment scroll before, he would have thought that this green light was emitted by him.

In fact, he knew that the green light should have been emitted by a huge sphere not far ahead!

But who was this person?

He didn't know, and even if he wanted to ask the pillow book, he couldn't!

Lin Ran took one step towards the other side.

But with every step he took he found that the other person's aura was so overwhelming that he dared not go any further.

Finally when Lin Ran had taken five steps, he could not walk any further at all.

Although the other party's back was to him, it was as if they were staring at him.

Moreover, the other party's aura was too strong.

Lin Ran was still a certain distance away from the other party at this point.

But his legs couldn't help but start trembling already.

"Weng!"

Suddenly, just as Lin Ran was staring at the other party.

A white light actually appeared in front of him.

This white light swept right towards Lin Ran from afar.

Lin Ran did not know what this was about, he just felt that this white light was identical to the other party's aura.

And as it swept towards him, it clearly gave him a shaky feeling.

"Holy shit!"

Finally, Lin Ran felt an unsteadiness in his footing and instantly flew backwards towards the back.

At the same time, he also felt his head getting a little dizzy.

It became dizzy, just at that moment he saw.

The white light had ended up forming a human face.

There was no expression on the human face, only a towering pressure that overwhelmed him!

The next moment, Lin Ran felt his eyes go black and he lost consciousness.

◦ ◦ ◦ ◦

And at this moment, on the island within the small world of the ancestral land.

Lin Ran had finally woken up.

“What’s wrong with you kid?”

When Pillow Book saw Lin Ran wake up, he couldn’t help but ask.

“I don’t know, I seem to have just gone to the world within that parchment scroll!”

Lin Ran’s face was still a little pale at this point, obviously scared to death.

“The world within the parchment scroll?”

The pillow book listened with a slight frown.

“According to you, wouldn’t this ladder spell have a connection with that parchment scroll? What have you seen in it?”

Pillow Book was busy asking.

“This thing is called the Ladder of Ascension, and what I saw inside was the same as a smear on the parchment scroll!”

“There was a man inside, his aura was so powerful that I couldn’t even get close to him before his aura shook me back!”

Lin Ran said helplessly.

“Kid, did you see what that man Zhang looked like?”

The pillow suddenly became nervous.

“Nope! What’s wrong?”

“I suspect that the person you saw was the old Immortal Emperor!”

### **Wonder Doctor Chapter 2155**

“How is that possible, that place looks bleak, how could an old Immortal Emperor go to a place like that!”

Lin Ran was a little dumbfounded as he listened.

“Listen to my explanation, I know this matter is hard to understand, but it’s not impossible!”

“If I’m right, the place you went to is likely to be the World Origin Space!”

The pillow said with a serious face.

“World Origin Space? What the hell does that mean!”

Lin Ran sounded even more confused!

“Sit down, I’ll explain it to you, and later on, you’ll be trying to see if you can still get in! This is a matter of great importance!”

Pillow Book was busy saying.

The two of them casually found a place to sit down, and then Pillow Book spoke up.

“When I was first created by the Immortal Emperor, apart from recording what he had learned in his life, there was also a very important matter!”

“What was it?”

Lin Ran was curious!

“Don’t interrupt!”

The Pillow Book gave him a blank look without good grace before continuing.

“That matter is a feeling of the Immortal Emperor!”

“You should also know by now that Immortal Emperors and ordinary Immortal Realm cultivators are actually similar in strength!”

“And the reason why an Immortal Emperor can be called an emperor is because he has an extra Immortal Emperor’s position than others!”

“This Immortal Emperor’s position, you can look at it as a kind of Qi luck!”

“Once you achieve the Immortal Emperor’s position, under the aegis of this qi luck, your strength will naturally be able to pull away from others!”

“This is also the reason why Immortal Realm powerhouses can never match up to Immortal Emperors!”

Pillow Talk spoke here and fell into a memory.

Back when the old Immortal Emperor had just achieved the position of Immortal Emperor, there were no enemies back then!

The entire Immortal Realm was peaceful, and he had nothing to do but ponder where the hell this Qi luck came from!

“It’s not nonsense, it’s just naturally formed in heaven and earth!”

Lin Ran said breathlessly.

“No! You’re wrong!”

The Pillow Book looked at him with a serious face and said.

“Even if it’s naturally formed between heaven and earth, how does that heaven and earth know who will become an immortal emperor in the future?”

“It can’t know, can it!”

“This.... Then what does the Great Qi Lucker say?”

Lin Ran asked in a different direction.

It seemed that he himself was the Great Qi Lucker.

The Immortal World War was going to be its, as the saying goes, times make heroes, and there were bound to be some people who would come forward!

Whether it was someone from the Immortal Emperor, or someone from the Anti-Alliance, there would always be some wonderful and stunning people!

And these are the people who are regarded as having great qi luck.

Often, these people had great qi, and whether they went out on a journey or cultivated, they would be accompanied by a certain amount of creation.

Lin Ran had experienced this all the way over.

“This is not the same kid!”

The pillow said.

“A great qi player is just a choice!”

“You can see it as a necessity in the creation of heroes by the times!”

“Let’s say, for example, that if there really is a mastermind behind the Immortal World, it is he who has chosen you people as the Great Qi-bearers!”

“To change the course of this war and the future of the entire Immortal World!”

“Then you are the ones he has chosen!”

“But just imagine, if you were behind this, would you be willing to let someone challenge your authority?”

“I....”

Lin Ran was at a loss for words.

If someone was truly in control of the Immortal Realm, they naturally wouldn’t be willing to let a second person appear to enjoy this kind of power with themselves.

“But the Immortal Emperor’s position doesn’t necessarily mean that he is the strongest in the entire Immortal Realm, after all, the old Immortal Emperor didn’t lose the battle of the Immortal Emperors later on!”

Lin Ran said.

“You’re quite right, so there are two scenarios behind this!”

The Pillow Book said.

“First, if we assume that there really was a behind-the-scenes promoter, then he must have seen that the old Immortal Emperor was too powerful, and that’s why he had Fulong appear and replace him!”

“Secondly, there is no behind-the-scenes promoter, but this situation still occurs, then it can only mean that there is a protection mechanism in this Immortal Realm!”

“It won’t allow a person to be too strong, or else the rules that might affect the functioning of something will be broken!”

“In that case you should be able to understand!”

“Understood, but what does this have to do with the old Immortal Emperor creating you?”

Lin Ran chuckled.

“Stupid you to death!”

The pillow said without good humour.

“Why would I have such an idea! That’s because the old immortal emperor recorded it!”

“It’s not just him who has such thoughts, I’m afraid that even the current Immortal Emperor Voltron should have sensed it too!”

Speaking here, the pillow book collected its thoughts and continued.

“For people like them who are already standing at the peak of the Immortal Realm, how could they allow themselves to be pawns of someone!”

“So whether it’s the old Immortal Emperor or Voltron, they’ve always been looking for a place!”

“This place is known to them as the World Origin Space!”

“According to the Old Immortal Emperor’s records, this place should be the origin of the entire Immortal World!”

“Here, either there is a person who controls everything, or there is a rule that protects the functioning of the entire Immortal World to the extreme!”

“And what they want is to find this place and master this supreme power!”

“Think about it, if they took control of the rules that run the entire Immortal Realm, what would be the result?”

“The result...”

Lin Ran found himself not daring to think about it further.

If someone took control of the entire Immortal World, then the Immortal World would become this person’s little world!

Wouldn’t all the power of life and death within the small world be a matter of this person’s whim!

“Now you understand how serious this World Origin Space is!”

The pillow got up and looked at Lin Ran.

“We don’t know yet, who the person you saw in that place was, but if I’m right the place you went to is most likely the World Origin Space!”

“Why are you so sure?”

Lin Ran was puzzled.

“Because of her!”

The Pillow Book said as he took out the parchment scroll.

Lin Ran looked at it, and it was the very same parchment scroll of the star being encircled by a human woman.

“What does it have to do with her?”

Lin Ran was even more bewildered.

The pillow book, however, smiled and said.

“Kid, did you forget?”

“The Immortal World’s current medical dao is blocked! No one can cultivate the Dao of Healing! Don’t you think there’s a connection?”

“You!”

Lin Ran was momentarily stunned and seemed to have thought of something.

“You mean to say that each star inside that space represents a dao?”

“And that star ringed by a woman is the Dao of Healing, blocked by that woman?”

“How is that possible!”

Lin Ran suddenly felt like he had touched something!

It was something that he hadn’t dared to imagine at all before!

“I’m not sure, but I can’t send this possibility!”

“In case it’s true, we may well be in possession of a killer app!”

“If you can control everything inside, do you think the Immortal Emperor is still scary?”

“Even then, the Divine Shadow Clan would all be nothing but cannon fodder, and as long as they dared to enter the Immortal Realm, they would also be a dead man!”

The pillow said seriously.

“You’ve said too subtle, I need time to digest it!”

Lin Ran said busily.

“If you want to digest it, go in there too, we know too little about that place, you’re trying to see if you can get in!”

The pillow said.

“Fine!”

Lin Ran nodded, that place didn’t seem to be dangerous either, so he could go back and check it out.

However, when Lin Ran brought his consciousness closer to the Stairway to Heaven, this time the latter was unresponsive.

It was as if everything he had experienced before had been a dream!

“I can’t, I can’t get in!”

Lin Ran said helplessly.

### **Wonder Doctor Chapter 2156**

“Hey, I knew it, since that’s the case then forget it!”

The pillow said helplessly.

“This World Origin Space, are there any conditions for entering?”

Lin Ran asked busily.

“Maybe there are, or maybe not, because no one knows if there are conditions or not, or what the conditions are again!”

The Pillow Book said.

Lin Ran listened in awe and said.

“Isn’t that right, I’m afraid that apart from myself and the old Immortal Emperor, no one else has necessarily ever entered!”

This World Origin Space was so mysterious that it completely lived up to the saying that it could only be understood but not spoken!

“Where do we go next?”

Lin Ran put the Heaven Ascending Ladder away while asking.

“Let’s go to the last place, when we get out of there, it’s time to go find Yue Bei Shan!”

The pillow said.

Lin Ran nodded and didn’t say much, he just touched the Heaven Ascension Ladder in his arms.

This Heaven Ascending Ladder was also a good magic weapon in itself, plus he had obtained the Lingshang Armour this time.

His strength would soon break through to the Little Perfection realm.

On the whole, he could still have the strength to settle his grudge with Yue Bei Shan this time!

As for how exactly the final outcome would be, he didn’t dare to guarantee anything.

After all, there was a flying shuttle fragment in Yue Bei Shan’s hand.

The power of that thing was something that even Lin Ran was wary of.

....

Inside the Thunder Zun Pavilion, Lin Ran still stayed inside the Spirit Tower and didn’t come out.

And the disciples of the Thunder Zun Pavilion seemed to have gotten used to this state of affairs.

The entire Spirit Tower was unaffected, except for the topmost floor, where they could not go.

“Hey! It’s been six years, what exactly do you think the Exalted Lord means? Such a good Spirit Tower’s topmost layer is actually not allowed to be used by us!”

“What’s wrong with that, haven’t you heard? It’s said that His Holiness has ordered that the ground floor of this Spirit Tower should be used by that kid for a full ten years!”

“Ten years? Holy shit, I’ve never heard of such treatment for Senior Brother!”

“That’s normal, Eldest Brother had hardly ever descended the mountain until he reached the Perfection realm, and this kid is famous in the Immortal Realm!”

“Yes I know about that, I even asked around while I was out this time, it’s said that this kid is the one who burned down the Immortal Emperor’s Thousand Opportunities Tower!”

“Is I Cao so fierce? Even the Immortal Emperor dares to provoke, he’s a fierce man!”

.

A crowd of disciples were discussing, while in the middle of the main hall.

“You’re looking for me, Your Holiness?”

Heavenly Thunder Lord bowed respectfully.

“It will be exactly seven years in another month, has that brat not moved yet?”

Venerable Thunder opened his mouth and asked.

“No, there are still three years left it should be fine!”

The Heavenly Thunder Lord was not sure.

“Ten years is already the limit, if he can’t raise his spiritual roots to the extreme in more than ten years, then it’s only a pity!”

Thunder Lord lamented.

Lin Ran’s conditions were good in all aspects, except for this Spiritual Root which was a little worse.

But if he couldn’t raise it to the extreme in ten years, the Spirit Tower’s help for him would diminish further on.

It could almost be said that ten years was the maximum time, beyond that it was basically hopeless.

“Just keep waiting!”

Thunder Lord said and closed his eyes, no longer speaking.

The Heavenly Thunder Lord gave a salute and then left as well.

◦ ◦ ◦ ◦

Three months later, within the small world of the Ancestral Land.

Under the guidance of the Pillow Book, Lin Ran arrived at a place of ice and snow.

According to the Pillow Book, this was their last stop in the Ancestral Land Small World.

After going out from here, they would have to go in search of Mount Yue Bei!

And in these six or seven years, Lin Ran had no idea what the situation in the outside world was really like.

He could only pin his hopes on the Alliance’s autonomy.

Hopefully, he could resist the Immortal Emperor’s attack.

“The old Immortal Emperor shouldn’t come to this place, but we still have to make a trip for you kid!”

The Pillow Book led the way while saying.

“Why?”

Lin Ran didn’t understand.

“Because in this place, there’s a chance!”

The Pillow Book laughed.

“Back then, when the Old Immortal Emperor first came to this small world, this was the place he appeared in!”

“But he was badly injured and found a place here that was very helpful for cultivation!”

“I don’t have any good choices for this last stop, so I’ll come here!”

“You try to break through the Little Perfection realm here, and we’ll be ready to go!”

“What exactly is it?”

Lin Ran was a little curious.

“You’ll know when you get there!”

The pillow smiled and didn’t explain.

Seeing this, Lin Ran was also helpless and continued on his way without asking more questions.

The two of them walked for a whole day and finally reached their destination at night.

It was a cave, a cave carved out of the ice and snow.

The whole thing was covered in ice crystals, and it was not too much to call it an ice mountain.

It was on top of these ice crystals that the cave opened up, but by the looks of it it should have been formed naturally!

After all, this kind of ten-thousand-year cold ice could not necessarily be shaken without some strength.

“Let’s go! It’s inside!”

The pillow greeted and led Lin Ran inside.

Inside the entire ice crystal cave, there was nothing but ice.

However, as he walked further in, Lin Ran was gradually discovering that it was actually somewhat warm inside this cave.

The difference in temperature from the outside wasn’t small.

“Alright, it’s right there!”

Suddenly the pillow book stopped and pointed at a large ice crystal in front of him.

Lin Ran followed his gaze and froze as he followed.

“I’ve been walking with you for so long, and you’re inviting me to sleep on this lump of ice!”

At this moment, in front of Lin Ran, there was a large ice crystal, which had been carved out to look like a large bed.

It was lying quietly in front of him, and if the bed wasn’t carved out of ice, Lin Ran would really want to go up there and sleep!

It was too tiring!

“Kid, this is ten thousand year old cold ice, this ice carved bed was personally made by the old Immortal Emperor back then!”

“There’s a ten thousand year old cold ice marrow in here, the benefits of which I don’t even care to mention, go up and experience it yourself!”

The pillow said with a flash of his body, already disappearing in the same place.

“My Cao, you’re really something!”

Lin Ran couldn’t help but curse.

This shitty place, you went straight back to the small world and left yourself here to freeze.

Damn it, if he didn’t want to get out earlier, he wouldn’t bother freezing in a place like this.

Although his heart was not happy, Lin Ran was also clear that the pillow book would not be lying to him.

With a long breath, Lin Ran jumped onto the ice bed.

As soon as he sat down on it, Lin Ran instantly felt a cold qi burrow into his body.

This cold qi was not afraid of the fire qi in his body and had instantly travelled to all his limbs and bones.

And there was nothing in his body, whether it was True Qi or Divine Lightning, that resisted this cold qi!

Soon Lin Ran also discovered that as this cold Qi travelled throughout his body.

The true qi within his body actually began to become calmer.

And the consequence of this was that the true qi within his own body was running at a rapidly increasing speed.

“It really is a good thing!”

Lin Ran couldn’t help but be pleased and immediately began to close his eyes to cultivate.

◦ ◦ ◦ ◦

Outside, the sky had completely darkened.

The wind and snow were unbridled, seemingly wanting to freeze the entire continent.

And within the Immortal Realm, a great storm was similarly brewing.

The territory of the Anti-Alliance had been compressed to a full half.

Only a hundred people remained within the Anti-Alliance so far!

Among them were Su Rou, Qin Bing and Ling Sa.

### **Wonder Doctor Chapter 2157**

The Great War had been going on for so many years that the entire landscape of the Immortal World had begun to change quietly.

The demise of the Anti-Alliance became a trend that no one could stop, and no one stood up to stop it.

At the same time, the Beast King Domain was quietly shrinking its territory.

Countless numbers of magical beasts began to enter the small world under the gathering of Zhen Yan.

Everyone was not stupid, once the Anti-Alliance was completely taken over by the Immortal Emperors, the Beast King Domain was bound to be next.

And when that day did come, the battle would only get more bitter.

After all, the people in the Anti-Alliance were still human, but all the people in the Beast King's Domain were magical beasts.

Immortal Emperors were never soft on magical beasts.

This is what they subconsciously think. A magical beast is a magical beast, and even if it can take on a form, it is still fundamentally different from a human being.

In the Immortal World, countless ordinary people, cultivators at the bottom of the hierarchy, had to leave their homes because of this great battle.

But no one dared to say anything, the Immortal Emperor was the master of the entire Immortal World.

Many people were even praying for this great war to end as soon as possible.

But not many people really know the truth.

The reason why none of the senior greats had come forward was precisely because they knew the truth of the matter.

This battle is only the beginning, the real battle is yet to come.

The real battle was still to come.

Time soon passed for another year.

Within the Anti-Alliance, there was one less person in number.

Just a short while ago, Lindsay broke out.

The result was naturally very tragic, with Ling Sa escaping to the Beast King's Domain almost in a state of serious injury.

In the end, it was Zhen Yan who stepped in and scared off the people sent by the Immortal Emperor, and only then did the chase come to an end.

But it was clear in everyone's mind.

Escaping one person would only make it more difficult for the rest to succeed.

The Immortal Emperor's side would also naturally tighten the blockade.

Ling Sa was fine, after all, her feud with the Immortal Emperor could only be described as average.

But Su Rou and Qin Bing, who were left, had a grudge against the Immortal Emperor!

When the two of them break out, it was almost unimaginable how they would fare!

The time passed day by day.

Time passed day by day.

Lin Ran's two doppelgangers hadn't moved.

The ten-year period soon reached its eighth year!

Qin Bing was the first to break out.

The ninth year!

Su Rou had also broken out!

The two had paid a great price for this as well.

They had burned their origin to explode their strongest blow, and would not be able to cultivate for at least three years.

Su Rou's was the most serious, as the Chosen One.

After she had completely released the power of the seal within her body, her condition was destined to never return!

The sealed power within her body had given her great strength, but it had also made her body extremely bad.

Now she could be said to be just like a piece of ice crystal.

Sharp, yes, but once shattered, the consequences would be almost irreversible!

The tenth year!

The entire Anti-Alliance had completely run out of territory.

For there was only one palace left, the rest had been completely taken over by Immortal Emperors.

This last remaining palace was the very place where the Lord of the Alliance was located.

The Lord of the Alliance was reluctant to leave for a long time.

The Immortal Emperor's side could not do anything about it.

As an existence on the same level as the Immortal Emperor, if he did not want to leave, there was nothing they could do to him!

In the end, the Immortal Emperor only had to speak out, saying that he would personally come over!

Although on the surface it looked like the Anti-Alliance still had the last piece of territory left.

But in reality, the defeat was already sealed!

And at this time in the Beast King Domain, all the magical beasts had all entered the small world of the Beast King Domain.

The entire Immortal Realm continent had been unified by the Immortal Emperor, and there was almost no longer any doubt about it!

....

Ten years was not a long time, but it was not a short time either. ,

Lin Ran didn't know how many of these ten years he had experienced, but he knew that this one was definitely the longest!

Inside the Spirit Tower, the time magic artifact that was personally bestowed by Thunder Zun had allowed him to spend an unknown number of years in the Spirit Tower.

Even the people outside were on the verge of forgetting about him.

Many of the disciples of the Thunder Dignity Pavilion only knew that the topmost layer of this Spirit Tower could not be visited.

But as for why, not many people knew.

"Venerable Lord, the ten-year period has arrived!"

Lord Heavenly Thunder stood in the main hall at this moment and said with an arching hand.

"Has he come out?"

Venerable Lei slowly opened his eyes.

"Not yet!"

"No more waiting, go and bring him out!"

Lei Zun's voice breathed a bit of helplessness.

"Yes!"

The Heavenly Thunder Lord nodded his head and then left the place.

Lei Zun looked in the direction of the Spirit Tower and sighed helplessly.

The most demonic disciple in the history of the Thunder Zun Pavilion, ah, did he really have to lose to this Spiritual Root.

The Heavenly Thunder Lord's heart was equally uncomfortable, and to be honest he was equally full of expectations for Lin Ran.

But reality is like this, many times things don't work out the way they are supposed to!

Quickly arriving at the Spirit Tower, the Heavenly Thunder Lord went straight to the topmost floor.

"Bang bang bang!"

"Little friend Lin Ran, ten years have arrived!"

The Heavenly Thunder Lord opened his mouth.

But there was no one inside to respond to him at all!

“Hm?”

The Heavenly Thunder Lord frowned and opened his mouth to shout once more!

But there was still no one inside to answer him.

“Little friend Lin Ran?”

The Heavenly Thunder Lord was starting to get a little worried!

“Bang!”

Fearing that Lin Ran might have an accident, Heavenly Thunder Lord directly pushed the door and rushed in.

But the one that followed froze him.

Only to see that within the entire topmost floor of the Spirit Tower, it was actually empty of anything.

Where was anyone else on top of the futon!

“Lin Ran!”

Lord Sky Thunder was busy shouting, but there was still no one around to pay him any attention.

“What is this?”

The Heavenly Thunder Lord suddenly saw that there seemed to be something sitting on top of the futon!

With a wave of his palm, a letter actually flew over in an instant.

The envelope was written in four big letters, “From the Thunder Lord himself!”

....

Senior Lei Zun, by the time you read this letter, I will have already left the Lei Zun Pavilion!

I am sorry to leave in this way.

But you should know that if I don't leave like this, you won't let me go, will you?

I know that the Great War will start many powers are secretly brewing their strength.

Everyone is just trying to survive this war.

But I really have important things to do.

I am grateful to you for letting me use the Spirit Tower.

In my seventh year I have completely raised my spiritual roots to the limit.

Please forgive me for leaving in this way, Song Nuan is really important to me, I'm sorry!

I will return to Chaos Space, and if I can in the future, I hope you will help me and send me to the Divine Shadow Clan!

Lin Ran salutes!

....

“This brat!”

Zun Lei looked helpless and shook his head.

“Your Holiness, it’s been three years now I’m afraid I won’t be able to catch up with him even if I go after him now!”

The Heavenly Thunder Lord said helplessly.

“By leaving like this, he is afraid that we will leave him behind!”

“And I’m afraid that this kid’s strength has also increased a lot, so let him go!”

“It’s all his own choice!”

Lei Zun said.

The Spirit Tower was right under Lei Zun’s nose, but this was all left by Lin Ran.

He didn’t even notice it at all, this strength, it was already very good!

At least until he didn’t enter the Divine Shadow Clan, Lin Ran’s journey through the chaotic space would be safe!

Of course, there was no end to everything, but if this boy had gone straight to provoke the Divine Shadow Clan, then naturally, the outcome would have been the same!

....

And at the same time, in the small world of the Ancestral Land.

Lin Ran, who was on top of the ice bed, finally opened his eyes.

At this moment, the aura of his entire body changed.

Countless dao, as if a thousand rivers had converged into the sea in one, merged at this moment as if it was a conquering avenue.

“This is the perfection realm? Even a small perfection is like this, what if it’s a great perfection?”

Lin Ran didn’t dare to think about it, but he knew that he couldn’t wait any longer.

He had to go find Yue Bei Shan!

**Wonder Doctor Chapter 2158**

“Ready?”

The Pillow Book also came out from within the small world at this time, and looking at Lin Ran he couldn't help but have a happy face.

"Mmm!"

"How does it feel?"

Pillow Book asked.

"I'm just curious now about how wide the path to the Great Perfection realm is!"

Lin Ran chuckled.

"All I can say is that it's more powerful than the Small Perfection!"

The pillow-side book said with a guffaw and a greeting.

"Since we're done, let's set off, we've been delayed here for quite some time!"

"I don't know how the big battle is going outside! We need to hurry up and get out too!"

"Good!"

Lin Ran naturally had no problem with this.

However, there was a hint of regret in his heart.

That was that the Chaos Qi spiral within his own body was completely gone.

Ever since the Chaos Qi Spiral was shattered during the last refinement of the Divine Lightning, it had completely disappeared.

However, Lin Ran always felt as if the Chaos Qi Spiral had not completely disappeared, only that he could not sense its existence at all now.

However, there was nothing Lin Ran could do about it, this Chaos Cyclone was already very mysterious.

The Chaos Immortal had probably travelled west for an unknown period of time, so there was no way for him to find someone to ask.

Although there is some regret, one has reached the Little Perfection realm at any rate.

It was a bit of regret in the midst of perfection!

....

Lin Ran and Pillowbook left this last Jedi directly.

This time, the two of them did not hide their tracks and hurried all the way towards Fei Ling Mountain.

And at this moment, on Mount Fei Ling.

"Master, we've found the trail of the two of them!"

A henchman dressed in black robes respectfully said.

“Where is it?”

Yue Bei Shan opened his eyes and instantly two cold auras shot out.

“It’s in the Eastern Domain, and it’s coming towards us now!”

“That’s all you’ve found out?”

There was a cold aura in Yue Bei Shan’s eyes.

“Master, it’s really because their movements are too difficult to check!”

The handlers were frightened.

“Get lost!”

Yue Bei Shan said in a cold voice.

“Yes!”

The henchman was so frightened that he busily retreated.

Yue Bei Shan slowly stood up, and his gaze looked at a huge thing in front of the cave, and he couldn’t help but flash a cold glint.

“Ten whole years, you think that ten years of experience in this small world is my match?”

“Lin Ran, the grudge from last time, let’s put an end to it this time!”

Yue Bei Shan said with a wave of his palm, and instantly a formation rose out of thin air.

The moment this formation appeared, the scene inside the cave changed.

Originally, there was a huge metal thing inside the cave, but as the formation appeared, this huge thing was instantly covered up.

It made the whole cave look empty!

....

Fei Ling Mountain wasn’t far, and according to Lin Ran and Pillow’s speed of travel.

As long as Yue Bei Shan didn’t arrange for someone to intercept them, it would only take ten days at most.

But then again, even if he arranged for someone to intercept them, it was useless.

In this small world, apart from Yue Bei Shan, the strongest ones were Lin Ran and the two of them.

There was no way that some of the other natives would be their opponents.

....

Ten days was not a long time, but not a short time either!

Yue Bei Shan at least had some pride and did not let his men come to intercept and kill Lin Ran and the two of them.

In the end, this was a feud between him and Lin Ran, and even if those men had fought, they would have been cannon fodder at best.

Lin Ran did not delay and appeared at Fei Ling Mountain ten days later on time.

The moment he saw Yue Bei Shan, he couldn't help but sigh in his heart.

The grudge between him and Yue Bei Shan had been tangled up for a whole thousand years in real life.

"Lin Ran, long time no see! I didn't expect you to really be alive!"

Seeing Lin Ran, Yue Bei Shan couldn't help but smile as well.

"Yeah, I didn't think I'd actually live either, it's just that a thousand years have passed, do you still want to take revenge?"

Lin Ran looked at him and said blandly.

"What do you think? Can you let go of the revenge that wiped out your clan?"

Yue Beishan questioned in a cold voice.

"It's not up to me to let go of it, it's up to you!"

"And, even if I were to start all over again, I would still be the same as I was at the beginning!"

"But I'm sorry that I dragged so many innocent people into it in the first place!"

Lin Ran said indifferently.

Speaking of this matter, he was more or less guilty.

At the beginning, he had killed so many people in the entire Yue family when he had killed them, and it wasn't possible for everyone to be a cultivator.

But at that time, all the Yue family members were willing to fight for their lives as if they were dying.

What could he do?

"Good one, just like back then!"

"Lin Ran, the grudge between us is too deep, and there's no need for nonsense, today too, either you kill me or you'll be buried here!"

There was a chill in Yue Beishan's eyes.

"I, Yue Bei Shan, have never been clear about grudges and grievances, you saved my life in the first place!"

"If you die today, I will personally take you out of here and go home!"

"I'll pay with my life when the time comes!"

“Does it have to be like this?”

Lin Ran had helplessness in his eyes.

“You know, I don’t want to fight you, as long as you hand over the flying shuttle, the entire Immortal Realm is yours to take wherever you want!”

“You’re dreaming!”

Yue Bei Shan said in a cold voice.

“You can be so dashing, but I can’t, you are a knot in my heart, this battle is inevitable today!”

“If you can win, the flying shuttle will naturally be given to you!”

Yue Bei Shan said without any more nonsense, his eyes chilled instantly he had already rushed down from the flying prism mountain.

“Dodge!”

Lin Ran greeted, his body also moving.

The pillow book consciously ran to the side.

As a soul body, he couldn’t even intervene in this battle between Lin Ran and Yue Bei Shan.

“Hey! It’s all like this outside, there’s still going to be a battle here after all!”

The Pillow Book lamented.

The people who had come from their hometown in the first place were the only ones who had a grudge between Lin Ran and Yue Bei Shan.

Thinking about it they were still lucky, at least they were all still alive.

But what about Li Sheng?

His life had just arrived at the Immortal Realm and he had lost it, who would he find to talk to!

As he was thinking, Lin Ran and Yue Bei Shan were already fighting in front of him.

The bone sword in Yue Bei Shan’s hand was still the same one he had used back on Earth.

Seeing this bone sword, Lin Ran’s heart was also deeply moved.

The battle with the foreign devil at the beginning was something he remembered quite fondly even today.

“Yue Beishan, is there really no possibility of reconciliation between you and me?”

Lin Ran asked as he shook Yue Beishan away with his sword.

“I killed your entire family, would you be willing to reconcile with you?”

Yue Beishan asked in an angry voice, while killing again.

“You know very well in your own heart that if I didn’t kill you back on Earth, the foreign devils would have to kill you sooner or later!”

“And in the end it was also your Yue Clan that betrayed the Alliance!”

Lin Ran slashed out with his sword, while speaking angrily.

“Betrayal? Who exactly betrayed who, I grew up in the Fey Demon Realm, and you’re telling me about betrayal?”

“You people out there are bent on overthrowing the Fey Demon Realm, who exactly has intruded into whose home?”

Yue Bei Shan was not afraid in the slightest, as he swung his bone sword in the air in his hand and met Lin Ran’s sword mane with a flourish towards him.

“You say these words have already said the name you know very well in your own mind!”

“You think the Fey Demon Realm is your homeland, but what about the others?”

“They are just forced to live in the Other Demon Realm, a place where there is no sunlight all day long, do others consider it their hometown?”

“You’ve been poisoned too deeply by the Yue family! Since that doesn’t make sense, there’s nothing more to say!”

Lin Ran said, his entire body’s aura completely erupting, his entire body instantly turning into a stream of light as he charged towards Yue Bei Shan.

### **Wonder Doctor Chapter 2159**

“The Little Perfection realm? That’s what you’re relying on?”

Yue Beishan laughed.

“Lin Ran, you have indeed shocked me, after sleeping for a thousand years you have now actually reached the Little Perfection realm!”

“If I were to give you time, I, Yue Bei Shan, would ask myself that I am inferior to you!”

“But you don’t have time now!”

Yue Beishan said as his entire body’s aura also instantly exploded.

It was an aura that was even stronger than Lin Ran’s, the realm of great perfection.

“I never thought that after rolling over to the Immortal Realm, your strength would be lower than mine instead, this is what the heavens intended!”

“Prepare to die!”

As Yue Bei Shan’s words fell, the entire bone sword in his hand was instantly flung out.

This bone sword was exactly the one given to him by the foreign devil when he was in the foreign devil realm!

It was refined from human dragon bones.

This kind of magic weapon was not bad on Earth, but in the current Immortal World, it was not good at all.

It was just that Yue Bei Shan was so strong nowadays that he had kept it.

In order to use it to personally kill Lin Ran.

“Bang!”

As soon as the bone sword was flung out, instantly the entire sword body completely smashed apart.

The bone sword was exploded, but it was followed by an even tinier bone sword that appeared.

This time, the bone swords could not be called swords at all, they were simply the bones of dragon bones.

A single bone was incredibly sharp and stabbed towards Lin Ran in an instant.

“Divine Thunder Out!”

Lin Ran roared, and instantly divine lightning filled the area around him, surprisingly forming a giant net of divine lightning that blocked him.

“Divine lightning?”

Yue Beishan looked stunned.

Although Lin Ran had been in this Ancestral Land Small World for ten years, he had never really heard of anyone collecting divine lightning!

Could it be that this kid had collected and paid for it before entering the Ancestral Land?

But that was when his strength was.

Yue Bei Shan couldn't think clearly, except how could he know that this divine lightning was refined by another of Lin Ran's doppelgangers!

As his mind was thinking, the bone sword in front of him had already collided with the divine lightning.

The countless broken bones were so sharp that they could even penetrate the divine lightning.

But the divine thunder's coverage was too large, and soon these broken bones were struck down by the divine thunder and even some of them were directly chopped into pieces.

“You really surprised me, I was thinking I could kill you with my bone sword!”

Yue Bei Shan sighed helplessly.

“You can't kill me, hand over the flying shuttle, let go of the grudge in your heart and leave!”

Lin Ran said indifferently.

“In the entire Immortal Realm, only a few of us are from one place, does it have to be like this?”

“You tell me!”

Yue Bei Shan seemed annoyed that Lin Ran was playing this kind of affectionate card!

Your own family is gone, and you’re talking to me about kinship?

“Lin Ran, don’t think that we can’t go back without you!”

“I’ve been living without you for the past thousand years!”

“When I kill you, I will use the flying shuttle to cleave a path back!”

Yue Bei Shan said as his palm slowly lifted up.

Following this a greenish-white object appeared on his palm.

The moment Lin Ran saw this object, he felt his heart tighten.

It was an invisible intimidating force.

Although the object was very small, just a fragment, it was a constant indication of its unearthly nature.

“Haven’t you always wanted this?”

“Today, I’ll let you see how strong he really is!”

Yue Bei Shan sneered, and in an instant, the fragment in his hand flew straight out.

The speed of that fragment was extremely fast, so fast that Lin Ran could not even see it clearly.

He had to know that his speed itself was also fast, but in front of this flying shuttle debris, it was simply not comparable.

“Bang, bang, bang!”

Lin Ran did not react in the slightest, and in an instant, the divine lightning in front of him had been cut off directly by the flying shuttle debris.

Countless divine thunderbolts broke off and were instantly and directly obliterated.

Instead, it was as if the flying shuttle had never moved, appearing quietly in Yue Bei Shan’s hand once more.

“Do you think you’re my opponent?”

There was disdain on Yue Bei Shan’s face.

“I admit, this flying shuttle is very strong, and that’s why I must get it!”

“There’s no point in talking more, let’s do it!”

Lin Ran said indifferently.

The general had arrived at how powerful this flying shuttle was, and Lin Ran was even more determined that he had to get it for himself.

Otherwise how would he get out of the anti-Alliance predicament himself.

And it was likely that the people within the alliance were still waiting for him to bring the flying shuttle back!

Lin Ran put his heart into it, and in an instant a force emerged from within his body.

Soon a golden light coalesced on the surface of his body, and within a few moments this golden light had formed a golden armour.

This armour was only lines, not substance, as if it was an armour made of golden lines.

This armour was precisely what Lin Ran had specially prepared for this flying shuttle, the LING VINE ARMOUR!

“What is this thing?”

Yue Beishan looked stunned, the golden armour that appeared on Lin Ran’s body at this moment felt very unusual.

This couldn’t help but make Yue Bei Shan’s heart a little curious.

“This is the Ling Vine Armour!”

Lin Ran wasn’t afraid of Yue Bei Shan knowing and said it directly.

“You don’t stand a chance, if you don’t give up, I’m really going to be nonchalant!”

“You’re not polite? What can you do if you’re not polite, I’ve never even heard of any bullshit Lingsheng Armour!”

Yue Bei Shan said in a cold voice, following which the flying shuttle in his hand disappeared once more.

Lin Ran’s eyes chilled at the sight and he emitted his divine sense straight out.

This flying shuttle was incredibly sharp, but it was only useless against divine sense, after all, it was not a divine sense attack type magic weapon.

As his divine sense radiated out, Lin Ran quickly caught the location of the flying shuttle.

However, he was also helpless because the speed of the shuttle fragment was too fast.

Plus, it was only a fragment, so even his own divine sense could not follow it.

Lin Ran could only barely determine the direction of its attack and then parry it with all his might.

However, he had obviously underestimated the power of this flying shuttle fragment.

Lin Ran instantly waved out several seven-coloured sword arrows with both hands.

But as soon as they formed, they were instantly penetrated by the flying shuttle debris.

Then, before Lin Ran could react.

The flying shuttle debris had already blasted at his Ling Vine Armor.

“Bang!”

There was an instant muffled sound, and Lin Ran’s entire body instantly flew backwards towards the back.

At the same time, Lin Ran was also shocked to find that his Leng Vine Armour had actually been struck by this flying shuttle debris with a gaping hole.

“Leng Vine Armour is no better than that!”

Yue Bei Shan laughed, while the flying shuttle fragment was slashing directly towards Lin Ran’s neck.

With such a sharp object, I was afraid that it would only take a split second to directly obliterate Lin Ran.

Lin Ran’s entire body’s aura skyrocketed and the divine Lightning Transformation secret technique was instantly cast out.

His entire body slammed down, narrowly avoiding the flying shuttle fragment.

However, while his head was avoided, Lin Ran’s arm was not so lucky.

In an instant, the flying shuttle debris sliced through Lin Ran’s arm, and a piece of flesh and blood instantly broke away from his body.

“Lin Ran!”

The pillow on the side looked shocked.

But at this moment, Lin Ran didn’t have time to pay any attention to him.

He only saw a flash of white light all over Lin Ran’s body, and instantly the power on his body surface exploded away.

With Lin Ran as the centre, the instantaneous explosion of power swept directly in all directions.

“Eh?”

Yue Bei Shan watched with a slight frown as he clearly felt the direct remnants of the flying shuttle being shaken to the point of almost losing contact.

“Collect!”

Yue Bhusan instantly retrieved the flying shuttle fragment with a thought.

Looking at the direction of the explosion from afar, his face was terribly gloomy.

“You’re really willing to give up, exploding your own power even to heavily damage this flying shuttle fragment of mine!”

Yue Bei Shan said in a cold voice.

And at that moment in the smoke, a helpless laughter came over.

“What else, should we wait to die?”

The smoke soon dispersed and Lin Ran’s figure emerged once again.

Only at this moment, he looked rather miserable.

### **Wonder Doctor Chapter 2160**

“Tsk, Lin Ran, Lin Ran, I didn’t expect that after this thousand years, your strength has grown a lot, but this brain is getting worse and worse!”

Yue Bei Shan laughed coldly.

“You don’t even use your brain to think, how many times can you blow yourself up? Hmm?”

“In front of my flying shuttle, do you think you can resist all the attacks?”

Yue Bei Shan said as he slowly raised his palm, only to see the flying shuttle in his hand once again emerge as well.

Lin Ran looked at him, his brow furrowed without saying a word.

He knew very well that this flying shuttle fragment was so powerful that it could pierce through the Heaven Sealing Formation, let alone his own!

From the importance the Lord of the Alliance placed on him, one could see that this item was not ordinary.

It was just that Lin Ran hadn’t expected this thing to be so powerful.

He couldn’t even resist it himself.

“You can’t even resist a small flying shuttle fragment, and you still want to get the shuttle?”

“I think you’d better give up on that!”

There was disdain in Yue Bei Shan’s eyes.

To be honest, he also wanted to get this flying shuttle, otherwise he wouldn’t have built his lair in the cave where the shuttle was!

But this flying shuttle was simply not something that could be refined by ordinary people, and he had only obtained a mere fragment after staying here for so many years.

But the power of this fragment had already caused him to completely take possession of the flying shuttle.

Even Yue Bei Shan could feel that if he refined the flying shuttle, not to mention cultivators of the same level, even Immortal Realm powerhouses could completely fight.

“Are you done with your nonsense?”

Lin Ran wiped the blood off the corner of his mouth and looked at him blandly.

“I really don’t want to kill you, you’re still right about one thing, there are only so many of us from the outside world in the entire Immortal Realm!”

“But you caused all of this yourself, I still say the same thing, kill you for your life!”

Said Yue Bei Shan, his eyes fiercely cold, and in an instant the remnants of the flying shuttle in his hand had already disappeared once more to go.

Seeing this, Lin Ran didn’t dare to delay, and with a flash of green light behind him, he instantly cast out his divine wings.

His speed was not as fast as the flying shuttle fragment, so Lin Ran could only place his hopes on the divine wings.

However, the space in this cave was not very large, and the divine wings were of limited help to Lin Ran at this time.

As his body flickered, the shuttle fragment was already flying right up against Lin Ran’s face.

Lin Ran’s divine sense was still unable to fully lock onto this flying shuttle fragment.

It could only roughly spy its position.

However, just as Lin Ran was trying to dodge the flying shuttle fragment as much as possible.

Suddenly, his entire forward momentum gave a sudden jolt.

He saw a ripple suddenly appear in front of him.

This ripple seemed to appear out of nowhere, instantly stopping Lin Ran in his tracks.

Lin Ran’s entire body almost didn’t die of anger.

The space in this cave was already not large, and he had actually bumped into a formation at this moment.

Looking at the path in front of him, but he was unable to get past it at all, Lin Ran was also furious.

“Get a formation here, if I’m right the flying shuttle is inside!”

Lin Ran turned around and looked at Yue Bei Shan.

“So what if you know, do you think you’re my opponent?”

There was a cold smile in Yue Bei Shan’s eyes as he said.

And at that moment a strong sense of threat was already sweeping towards Lin Ran.

Lin Ran had no time for further nonsense and dodged with a dodge.

But his speed, even with the augmentation of his divine wings, was still no match for the flying shuttle.

The threatening sensation of that flying shuttle debris was getting closer and closer, and finally Lin Ran finally felt that he couldn’t dodge it!

“What the hell is this flying shuttle!”

Lin Ran was somewhat helpless in his heart, so he turned his heart around and instantly slashed out several sword maces.

The flying shuttle remnants could be said to have collided with the sword mangles almost instantly.

However, the sword mangles were still unable to resist the sharpness of the flying shuttle fragments.

In one glance, Lin Ran clearly saw that his own sword mane had been cut off in unison!

His own sword mane was so sharp, but against this flying shuttle fragment, it was like tofu.

There was no room for resistance at all.

“Ai!”

Lin Ran sighed helplessly, he was a little desperate after the fight had come to this state.

He had thought that the Ling Vine Armour would be able to resist this flying shuttle.

But he hadn't seen that he had still underestimated the power of this flying shuttle.

This was only a fragment of the flying shuttle.

If what Yue Bei Shan had mastered was a complete flying shuttle.

I'm afraid that with a single movement of his mind, he would have been killed in an instant!

“I'm afraid we'll have to find another way out of the alliance's predicament!”

Lin Ran sighed helplessly.

The pillow beside him wasn't saying anything either.

He could see very clearly that Lin Ran had indeed done his best, it was just that this flying shuttle debris was really somewhat insurmountable.

“It's over!”

There was a smile in Yue Bei Shan's eyes.

The flying shuttle debris had already reached Lin Ran as he spoke.

Although he had already given up somewhat in his heart.

But instinctively, Lin Ran still cast out his Lings Vine Armour.

“Bang!”

There was no surprise, and a moment later there was a muffled sound as the flying shuttle debris had already penetrated the Lingshutan Armour.

At this moment, Lin Ran clearly saw that the flying shuttle fragment was silvery white, just like a blade.

But this inconspicuous piece of debris had reached such a terrifying level of power.

“Poof!”

With a muffled sound, the shuttle fragment instantly penetrated Lin Ran’s chest.

The powerful impact sent Lin Ran’s entire body flying backwards towards the back.

Lin Ran could even feel the shuttle fragment desperately trying to penetrate his body.

But soon, Lin Ran was shocked to find that the flying shuttle remnant had actually stopped inside himself.

“Bang!”

Lin Ran’s entire body crashed heavily against the rock wall on one side.

And the flying shuttle debris actually stayed inside him.

Lin Ran stood up holding onto the wall, and the sharp pain in his chest caused cold sweat to appear on his head.

But compared to these, the fact that the flying shuttle fragment had remained inside his body was what made him was the most incomprehensible!

“Hm?”

Not far away, Yue Bei Shan also noticed this scene.

He knew very well how powerful the flying shuttle debris was, but how did it stay inside Lin Ran’s body.

It should have gone straight through him, by rights!

Yue Bei Shan was puzzled, and fearing that something might change, he immediately waved his hand to retrieve the flying shuttle fragment.

But as soon as he waved his palm, he instantly found that there seemed to be a force on the flying shuttle fragment that was resisting his control.

“What’s going on?”

Yue Bei Shan’s face also changed at this.

Without this flying shuttle remnant, there was no way he would have been a match for Lin Ran.

Although he was at the Great Perfection realm himself, Lin Ran’s combat strength was simply something he could match.

From the beginning until now, all he had relied on was just the power of this flying shuttle remnant.

“What have you done so far?”

Yue Bei Shan couldn’t help but ask, while rushing towards Lin Ran.

He was very afraid that this flying shuttle fragment would change.

“I want to know what I’ve done too!”

Lin Ran said with a bitter smile.

However, the moment his words fell, the flying shuttle fragment inside his body actually flew straight backwards.

A twinge of pain shot through Lin Ran's body, and even more so, a mouthful of fresh blood spurted out.

The blood stained the shuttle fragment red, and the blood-red shuttle fragment crashed through the formation not far away with a bang.

Then it disappeared.

Just a few moments later, a metallic clanging sound came from inside the cave.

The sound of metal clashing did not dissipate for a long time, causing Lin Ran and Yue Bei Shan to freeze in place.
