

Chapter 2181: Deserved To Die

“Previous experiments indicate that it should take around five minutes.”

Jiang Yao smiled to herself. That was a god-level question-and-answer session. She waited about five minutes before pretending to awaken. She looked around in a daze at the people in front of her. Then she revealed a terrified expression and leaned against the wall, trying to hide.

“Who are you people? Why did you kidnap my husband and me? What happened to my husband? Didn’t you say I could see him when I came here? Where is he?” Jiang Yao had looked into Lu Xingzhi’s location before she left. He was still in the original range. Even if he did move, he did not travel more than ten kilometers.

Therefore, it was certain that Lu Xingzhi was not there.

“Who am I?”

Qian Yunen laughed as if he had heard a stupid question. “I don’t know who [am, but I know who you are. You and Lu Xingzhi are my enemies who killed my entire family! You two are the enemies who caused me to be alone in this world. Who do you think I am?”Support our Bonnovel.c0m

‘Qian Yunen!’

Jiang Yao had a flash of insight, but it was fleeting as she quickly returned to her timid demeanor. “I did not hurt anyone. Did you hate me because of Chai Xianglong and Qian Zhibin’s deaths? However, didn’t Chai Xianglong and his mother deserve to die? How much blood did they have on their hands? How many people had to suffer? Qian Zhibin deserves to die. He has done enough to deserve death a thousand or ten thousand times.”

Jiang Yao remembered that she had to stall for time. She wanted to buy time for Liang Yueze and Master Cheng to search for Lu Xing, so she tried to find a topic on which Qian Yunen could talk to her more.

‘[It was their bad luck that those people died. It was fated. They deserved to die. In this world, the winner takes all. They were useless, a waste of resources. They are also polluting the air. What right do those ants have to live?’ Qian Yunen was infuriated, he clenched his fists and wanted to make a move, but he restrained himself. However, his eyes were filled with rage.

Jiang Yao added another word to that pervert, Qian Yunen, in her heart. He was temperamental and had no worldview at all.

“According to what you said, when a person died, it was fate. Then your parents and brother were also destined to die. What else do you have to hate? The winner takes all. What right does a fool have to live in this world? Isn’t that what you said? Those who lose are all idiots. Why should they get to live?”

Qian Yunen’s words enraged Jiang Yao even more than those of a crazy beast.

He regarded human lives with contempt—outside of the Chai family, other people’s lives were not lives.

Very good. That kind of person was selfish and vicious. As expected, he was Qian Zhibin’s son. As expected, he was also Madam Chai’s son.

“Young master, why are you wasting your breath with her? How can a person like her understand the thoughts of people with high IQs like us? She’s very good at twisting words and reasoning.” The man in the white coat took a pair of glasses from his pocket and put them on the bridge of his nose. He was dressed like a refined man, but he was just a beast in a suit. No matter how well he dressed, it could not hide his disgusting heart.

‘Birds of a feather will always flock together,’ Jiang Yao thought. Qian Yunen had the same interest, and he had the same outlook on the world!.

Chapter 2182: Twisting One’s Words And Reasoning

“I don’t know who’s twisting their words and reasoning.” Jiang Yao saw that Qian Yunen had stopped talking, so she started to bother him again. She wanted to stall for time. The more she spoke, the better she could stall for time.

One minute was another minute earned.

“Yes, the winner takes everything. A catfish that fell into my hands and at my mercy.” Qian Yunen was not angry anymore. When he spoke, he still showed an unattainable air of arrogance. Then, he said, “Didn’t we prepare a gift for her? Have someone bring it up.”

As soon as Qian Yunen finished speaking, someone came in and placed three cups of clear water on the table next to him.

“Don’t blame me for not giving you a chance. These are three cups of water. Only one cup of water has no extra seasoning. One of the two cups can kill, and one cup can save your wretched life.”

Jiang Yao laughed coldly in her heart. Did she not see how the people outside poured the same medicine into each cup?

The three cups of water were filled with the same medicine. None of the cups of water were fine.

“My baby is innocent.” Jiang Yao was not afraid, but she still deliberately shrank back and acted as if she did not want to choose.

“If you don’t choose, we will help you choose all three.” Qian Yunen smiled happily. “Choose? If you don’t want to choose, then I will help you.’

His laughter was like the devil. Jiang Yao shuddered at Qian Yunen’s cold laughter.

“Will I be able to see my husband after this?” Jiang Yao gritted her teeth and asked, “Where is he? Is he okay?”

“You should drink first. If you are lucky enough to survive, I will take you to see your husband,” Qian Yunen said.

“Keep your word.” Jiang Yao picked up the cup in the middle and gulped it down.

The group of people burst into laughter when they saw Jiang Yao’s fearless look.

Qian Yunen said, "Look at how scared she is. It's just a bowl of water with ordinary abortion drugs. Is there a need to be so afraid? I will reunite you with your family soon. Your child will die with you. I want Lu Xingzhi to see his child die with his own eyes. I feel wonderful when I think about it."

Jiang Yao rolled her eyes discreetly. That was a huge letdown for that little pervert. That water would not be able to poison her to death.

Qian Yunen and the others knew it was not an immediate abortion even if she drank the abortion medicine, so they did not urge her. They were still happy. It would be best if Jiang Yao could hold on until she saw Lu Xingzhi before she lost the baby.

Qian Yunen gritted his teeth. He had to let those two experience the pain of being separated from their own flesh and blood and feel the despair.

A concerned voice immediately came through the communication device after the group of people left.

"Are you alright? What did they give you to drink? What did they inject you with? What state are you in now?"

"I'm fine," Jiang Yao said. "I think they'll take me away in a helicopter later."

[It would be fine if she went to Danmu town, but what if she went elsewhere instead?

Or, if they discovered that the Liang and Chen families were looking for her, she would be a convenient sacrifice. She would not be able to respond to them every day..

Chapter 2183: Steal

She did not want to experience the panic and weightlessness of a plane crash again.

"You can't go. Young Master Liang and Master Cheng have already found where the captives are. They're ready to act in 15 minutes. So, you have to get out before Qian Yunen gets the news. Our people are already approaching the place you mentioned. They're all disguised as local farmers."

Jiang Yao nodded and started to inquire about the situation.

There were not many people there. Most were there to escort Qian Yunen on his helicopter ride, so only four or five people were guarding the front.

Jiang Yao considered everything she could still use in the medical system. Then, she made some medicine.

It was not anything dangerous like neurotoxins but rather some strange pranking powder.

Among them, the most common was the itching powder. Once a person touched it, they would itch so badly that they would want to scratch a layer of skin. The only way to relieve the itching was to bathe with mint water.

Those people probably assumed Jiang Yao could not escape because she had been fed some sleeping pills and abortion drugs. She would not leave without seeing her husband because she was there to see him. Jiang Yao was thrown into the room with her hands and feet untied. She would not be there if they did not do that. She would waste a lot of time if she were imprisoned.

Jiang Yao landed and checked to make sure she was not injured before proceeding to the door. A group of people was there, playing with crickets. It was good because Jiang Yao could handle them at the same time. A handful of powder would be sufficient to catch them all at once.

The people in the room had already quietly walked out and approached them while the group played very earnestly. They only realized it when their vision turned white. Their body itched terribly before they snapped back to their senses. They stopped playing with the crickets. They were scratching their ears like wild monkeys. They were constantly screaming, and their hands were constantly scratching.

Jiang Yao saw the opportunity and pounced on the driver. She took a key from the pocket of his coat and ran to the car.

She unlocked the car, got into it, and started the car. It only took Jiang Yao a few seconds.

When those people snapped back to their senses, she had already stepped on the accelerator and drove the car away.

“Did you get the car? The car that picked you up has already reached the intersection. They are going up, and you are going down. Be careful.”

“Okay,” Jiang Yao replied swiftly, and she put all her attention on the road.

At that time, Jiang Yao had to thank her experience from her past life. She focused her attention intensely so that she could drive the car steadily.

Jiang Yao could confidently state that while the road was not the most difficult she had ever driven, it was the most dangerous.

The people on the other side noticed that the car had been driven away, but they did not react.

They kept scratching until someone noticed that the door of the room where they held Jiang Yao was open. Only then did they rush in and realize who had stolen the keys and stolen the car.

Jiang Yao could see the car chasing her, so she had no choice but to accelerate. She was afraid that if she were not careful, she would crash into the cliff..

Chapter 2184: It Is Not Difficult

She could still hear the people behind her shouting for the young master to chase after her in the helicopter.

Jiang Yao became even more concerned when she heard that. The car’s speed gradually increased, and she nearly flew out several times. Fortunately, she only just managed to keep the car stable.

The helicopter was faster than the cars. Jiang Yao’s driving abilities were not inferior to theirs, so they could not catch up to her.

However, the helicopter was different.

After more than ten minutes, Jiang Yao could hear the helicopter’s propeller turning. Then, Qian Yunen’s voice came from the loudspeaker in the helicopter.

“Jiang Yao, if you don’t stop, I’ll drop a bomb to kill you.”

Jiang Yao did not care. She rushed forward with all her might, thinking that she must persevere until she could escape.

Her disobedience angered Qian Yunen. The young man said to the pilot, “Fly forward and drop two bombs. Give her a warning; blow up the road ahead of her.”

Qian Yunen thought that Jiang Yao could not hear him, but she did.

She gritted her teeth and picked up the heavy guns those people had left in the car. She controlled the steering wheel with one hand and pointed the muzzle of the gun out of the car window at the helicopter flying at a low altitude.

She had to thank Lu Xingzhi for teaching her. Shooting a gun was not difficult for her. With her powerful eyes, it was not difficult for her to hit her target.

Jiang Yao fired three or four shots at the helicopter. The recoil of the heavy gun numbed her wrist.

She looked up at the helicopter above her and saw that two shots had hit the propeller. The plane flew crooked, and it looked like it was falling. Then, she reached out her hand.

Jiang Yao gritted her teeth and increased the speed of her car again. She was so lucky that she dared to drive. In a few seconds, her previous location exploded. The blast affected her, too; she barely managed to stabilize the car to continue driving.

Qian Yunen appeared to be angry due to humiliation and was willing to kill her.

The helicopter’s propeller was damaged, reducing its speed. Jiang Yao was ahead, but the aircraft was still pursuing her.

Qian Yunen’s helicopter only turned around and flew in another direction when another military helicopter approached them.

Jiang Yao finally let out a sigh of relief and slowed her car.

“Mrs. Lu!”

A few minutes later, the people who had come to pick up Jiang Yao arrived. A group of people dressed in military green jumped out of the car and quickly surrounded Jiang Yao before escorting her to the car they were driving. They retreated quickly. The military helicopter continued to cover from behind, ensuring that the opponent’s helicopter did not return for a surprise attack.

For Jiang Yao, those few hours felt like a dream. She and the people who came to pick her up arrived in Danmu Town after more than 30 minutes.

Master Cheng was the first person Jiang Yao saw when she arrived in town.

“I finally see you. When I heard that you were injected with something, I was so scared that I almost had a heart attack. Are you okay? What drugs did they give you?” Master Cheng’s frown was so deep that it could kill a fly.

"I'm fine." Jiang Yao was in good spirits. To her, it was the best of luck that her baby was safe..

Chapter 2185: Where Is He?

With Qian Yunen's sleeping pills, injections, and abortion pills, if it were any other pregnant woman, any one of those might cause a miscarriage, let alone all three.

Jiang Yao had assumed that whether it was Qian Yunen or enemies who despised Lu Xingzhi, once she fell into their hands, they would inevitably torture her. However, she did not expect Qian Yunen to keep her medicated.

"Have they found Xingzhi?" Jiang Yao was most concerned about that.

"Some locals helped us find their hiding place. We've sent most of them to the hospital," Master Cheng replied.

Jiang Yao was about to ask if Lu Xingzhi was also injured and if his injuries were severe. The next second, Master Cheng's phone rang. It was Master Liang.

It was the same everywhere. It was useless to run. Support our Bonnovel.c0m

"I'll send you to the hospital for a check-up." Master Cheng led Jiang Yao into the car. "The search is important, but you are more important. If anything happens to you, your mother will cry herself blind.

He was referring to Madam Cheng. Master Cheng treated Jiang Yao as his own child because of his wife.

Master Cheng dragged Jiang Yao to the hospital. When she arrived at the hospital, she noticed Chen Feitang was carried from the car to a stretcher. She was unconscious. Her injuries appeared to be life-threatening.

Jiang Yao was not unfamiliar with such an injury. "Were her injuries caused by an explosion?"

Jiang Yao took a step forward to take a look. Before she could take a closer look at Chen Feitang, she was carried away by the doctors and nurses. However, her injuries sustained by the others were slightly less severe. At least some were still awake, but their heads were covered in dried blood; they looked horrifying.

"What is the situation? Chen Feitang was there with Xingzhi. She had suffered such severe injuries, so what about Xingzhi? Old Master Liang said that Xingzhi couldn't have left by himself with such severe injuries. How serious were his injuries?" Jiang Yao took another look at the car. That glance was almost terrifying.

Everyone in the car was injured. They had just carried the person with the least injuries into the hospital.

"Are you Colonel Lu's wife?" The soldier in front turned around to look at her. "Colonel Lu was also seriously injured. We were injured by an explosion. The bombs in those people's hands were aimed at us."

Chapter 2186: Where To Find Him?

Jiang Yao slowly turned her head to look at the soldier. "Where is he? Did you see him?"

The soldier shook his head gently. However, due to his injuries, he coughed up blood after performing such an effortless action. At first, he was fine, but he coughed up blood after that.

“Forget it, don’t talk anymore.” Jiang Yao wanted to know what he meant by shaking his head. Were they not captured with Lu Xingzhi? Why was Lu Xingzhi the only one missing? However, seeing the soldier coughing so severely, Jiang Yao could not bear to ask.

The soldier suffered quite severe internal injuries, so simply shaking his head caused him to cough up blood.

“Take this medicine.” Jiang Yao pretended to take a small bottle of liquid from her backpack and handed it to the soldier. “Drink it in one gulp.”

The soldier was stunned, but he took it. Without hesitation, he opened the bottle and drank it. The doctor next to him was even more taken aback.

“What are you giving him? Also, what’s wrong with you, soldier? Did you just drink whatever the other person gave you? Is your brain damaged?” The doctor cursed. He was also anxious.

“Mrs. Lu gave it to me. I don’t know what is in it either. It has to be some sort of medicine. It smells like medicine.” The soldier scratched his head. “Mrs. Lu won’t harm us. She’s also a doctor. She has excellent medical skills. She saved Colonel Shao.”

Therefore, the soldier did that almost subconsciously based on his trust in Colonel Lu and Mrs. Lu’s medical skills. When Mrs. Lu said that he had to drink it in one go, he drank it in one go.

There was no hesitation or doubt in his clear eyes. Even the doctor laughed when he heard it.

He said, “Are all soldiers sick in the head?”

“It’s something that can help heal internal injuries,” Jiang Yao said with a smile.

The soldier nodded repeatedly. “I feel warm after drinking that.”

The doctor cast a glance at Jiang Yao. He reasoned that because they knew each other, he could not be held responsible if something bad happened to the soldier. As a result, he said nothing else. He requested that someone continue to carry the patient inside.

Master Cheng stood to the side and observed. Following the doctor’s departure, he approached

Jiang Yao and said, “That soldier will be rewarded for his kindness.”

Jiang Yao might not have been in the mood to treat his injuries and give him medicine if he had not still been talking to Jiang Yao even though he was injured. Everyone in the room needed Jiang Yao’s help. However, she was only concerned about her husband, Lu Xingzhi.

When Master Cheng noticed Jiang Yao’s frown, he said, “Many people are still looking for him. They will find him. Do not worry.”

Jiang Yao remained silent for a few seconds before shaking her head. It was impossible for her to be concerned.

Even if Lu Xingzhi were like the soldiers dragged from the cars, she would know what was wrong with him and how to save him.

She knew Lu Xingzhi was still alive and in that small town, but she had no idea how serious his injuries were.

That small town appeared to be small, but when she stepped onto the land, she realized that no matter how small it seemed to be, if a person was hidden, where would she find him?

“Let’s get you something to eat.

Master Cheng asked tentatively. “You haven’t eaten for a long time, right? Call your parents to tell them that you’re safe while you eat.’

Jiang Yao did not even have the appetite for water, let alone eat. She followed Master Cheng into the hospital and got the nurse to draw her blood for various tests. Then, she sat in the corridor and called her parents, who were at the army base, to tell them she was safe..
