

Wonder Doctor Chapter 2291

From Lin Ran's understanding of Li, this fellow had gotten a chance near the Tide Snake Clan since the last time.

His strength could be said to have improved by leaps and bounds, and he had already reached the peak of Great Perfection before he left.

He was only one step away from the Immortal Realm.

I didn't expect that Zhen Yan would still be uneasy, it really is good to have someone to think about!

"Senior Zhen Yan said that the chances of him and the Lord of the Alliance winning this duel were not high, so he had to prepare early as well!"

Qin Bing said.

"If we can help Zhen Yan find a chance to completely break through to the Immortal realm, the Demonic Beast clan will also have a higher probability of surviving then!"

"Hm!"

Lin Ran nodded.

The Demonic Beast clan that Zhen Yan said he was leading was a large clan.

It was completely different from the clan forces among cultivators!

If a clan was overwhelmed, there would be other clans.

But if a clan of magical beasts was destroyed, then there would really be no more magical beasts!

So Lin Ran could understand Zhen Yan's delicate heart, except that they all wanted to survive the ultimate calamity!

"Do you have the exact address?"

Lin Ran asked as he looked at the three.

"No!"

Qin Bing shook his head.

"Senior Zhen Yan only said it was near here, but didn't say exactly where it was!"

"Said we'd be able to feel it when we arrived!"

"Er."

Lin Ran was also a little speechless at his words, this vast void was so big.

The probability of finding a chance here was simply conceivable.

"Are you going to go with oh us?"

Qin Bing asked with a smile.

“Together!”

Lin Ran thought about it and said.

“Is that okay?”

He said and looked at White Mist who was on the side.

White Mist nodded and didn't refuse.

It was just as well that she was interested in wanting to get in touch with these friends of Lin Ran's.

After all, if one liked someone one had to accept all of them.

Even if they were his friends they always had to get in touch with them themselves.

“Alright then, let's be their void ship!”

Lin Ran greeted, and with a sniff, White Mist collected the void ship.

“Where are we going now?”

Lin Ran asked as he looked at the crowd.

As a result, who knew that the crowd was actually looking at Lizzy who was on the side.

Lizzy spat out his tongue a little badly and then cartoned aside.

Apparently he could sense the general location.

Seeing this, Qin Bing didn't delay and immediately manipulated the void ship in the direction that Li pointed out and rushed over.

Lin Ran chatted with the pillow book, although he had only been away for just about half a year.

But the various things in the Immortal World still interested him.

On the contrary, White Mist, because he was not familiar with all the people, and because Lin Ran was talking to the pillow-side book, he seemed a little lonely.

Luckily this lasted for just a few moments before suddenly Lizzy spoke up.

“That's the place, that's the one small world!”

All the people smiled and looked in the direction Lizzy pointed.

Sure enough, they found a spot of light in that place again!

The crowd didn't feel anything, but when Lin Ran and White Mist saw that point of light, they all couldn't help but freeze.

“That! That's the Little World of Heavenly Demons!”

“Right! Li you're going to the Little World of Heavenly Demons?”

Lin Ran was also busy asking.

“I have a feeling that’s where it is!”

Li said.

“You guys know about this Heavenly Demon Small World?”

Qin Bing asked busily.

“I’m not too sure exactly, it was White Mist who talked about it!”

Lin Ran said and looked to the White Mist at the side, who understood and immediately explained it again.

Hearing this the crowd couldn’t help but be a little dumbfounded.

Finally White Mist said.

“This Little World of Heavenly Devils is very desolate, but there are devil beasts inside, and Li said that his chance is inside!”

“It’s also possible!”

“Lin Ran!”

Li looked towards Lin Ran with anticipation in its eyes.

Clearly it wanted to go!

The crowd couldn’t help but look at Lin Ran at this point.

He had basically been the one making all the decisions all along!

The crowd was also used to listening to his decisions, so naturally they all looked at him at this moment!

“Go on!”

Lin Ran spoke.

“Since Uncle Zhen Yan has decided so much, then he naturally has his considerations!”

“And since he’s gone to such great lengths to help Li look for a chance, I don’t think it will be a desperate place!”

“Good!”

Qin Bing nodded in approval at his words.

If there was anyone in this world who was most worried about Li’s safety, then I’m afraid there was no one else but Zhen Yan!

Therefore, Zhen Yan would definitely not harm Li!

With their minds made up, they all set off towards the Small World of Heavenly Demons at once!

With the Void Ship rushing along, the speed was naturally very fast.

In just a few moments, the group had already entered the Heavenly Demon Small World.

When the Void Ship passed through the world barrier and appeared in the Small World of Heavenly Demons, the crowd was shocked by the scene before them!

Looking down at the entire Heavenly Demon Small World from above.

It was a world of ice and fire.

The side covered with ice could be described as frozen for miles, not to mention people, not even a single magical beast could be seen.

On the other hand, the other side was surrounded by a blazing fire.

Countless magical beasts were killing each other, it was like a purgatory on earth!

“This little world is too crazy!”

This scene saw even Qin Bing couldn't help but be staggered.

“There are only demonic beasts in the Little World of Heavenly Demons, and this scene is indeed a little too shocking!”

Lin Ran said.

Although he had heard White Mist mention it before, but at this moment when he really saw it with his own eyes, the shock of it was still mind-blowing.

“Li, can you sense the location?”

Lin Ran turned his head to look at Lizzy who was at the side.

“About which location again, I'm not too sure exactly!”

Lizzy said.

“Good! Then we'll go over there!”

Lin Ran said.

Qin Bing didn't say anything, and directly piloted the void ship towards the front.

The direction Lizzy pointed at was suddenly the area covered in flames.

And all this way Lin Ran had noticed.

These magical beasts that were moving around in the flames were not very strong.

Technically speaking the strongest ones were only at the Small Perfection realm.

This kind of strength was no match for Lin Ran and Qin Bing.

Since Li's original body was a magical beast, he was naturally even less afraid.

It was just that Lin Ran was somewhat puzzled by the fact that the strength of the magical beasts in the small world of Heavenly Demons was generally not high.

Would such a small world really have a chance for Li?

With thoughts in mind, Lin Ran and the others had arrived at their destination.

The place that Li sensed was clearly the junction of ice and fire.

On one side was the world of fire and flames, while on the other side was the world of ice and snow.

Most of the magical beasts were gathered in the world of fire and flames, and there weren't many of them on the fringes here!

Lin Ran and the others were not disturbed.

After the void ship was parked, Lin Ran led the group to set off.

This was a temporary stronghold, but I was afraid that if they wanted to find a chance, they would still have to go through a lot of trouble.

And the most straightforward thing to do was to find some magical beasts to ask about.

At least get to know the world a little beforehand.

"Lin Ran, I feel that chance is straying!"

Just ten minutes into the rush, Li turned his head to look at the location of the void ship and said.

Apparently in his senses, the chance should be at the location of the Void Ship!

"Don't be in a hurry, that place is so big, there's no way we can find it!"

"Let's find the magical beasts here and ask about it first!"

Lin Ran said.

"Good!"

Li smiled at this and nodded in agreement!

Wonder Doctor Chapter 2292

The group immediately hurried towards the territory enveloped in fire and flames.

The void ship was left by the crowd at the place where they landed between.

That place was located at the junction of ice and fire, and it was also the location where Li felt the chance.

It was sort of a marker, lest they find it in the wrong place when they returned!

"Lin Ran, do you find these magical beasts very strange!"

Qin Bing asked on the road.

“Strange? Where is it strange?”

Lin Ran asked.

In fact, all this way over, they had only seen some magical beasts when they first entered the small world.

At this point, when they were really walking through this world of fire and flames, they were not seeing magical beasts anywhere at all!

“Before we just entered this world waving our hands, weren’t we stuck to many magical beasts all fighting and killing each other!”

Qin Bing said.

“Right!”

Lin Ran nodded his head, this they had indeed seen before.

“Don’t you feel that there’s something wrong with these magical beasts?”

“Even if the grudge is deep, they can’t be desperate!”

“Under normal circumstances, the side that doesn’t have an advantage would definitely choose to run for their lives!”

Qin Bing said.

Lin Ran and White Mist and the others were stunned at their words.

“Right!”

White Mist even exclaimed.

Although magical beasts weren’t as cunning as cultivators, they did have instincts!

Their instinct was undoubtedly to survive!

But before, they had clearly seen that those magical beasts were almost just fighting for their lives!

They had no intention of running away.

It seemed like it was either you or me today!

“This problem, we really didn’t notice it before!”

White Mist said also looking at Lin Ran at the side!

“This is indeed strange, but we haven’t seen these magical beasts either, so it’s hard to say exactly!”

“It would be best if we could find a magical beast and ask about the situation!”

Lin Ran said.

“Hm!”

The crowd all nodded at his words, while Li, who was at the side, was already full of joy at this point.

It was obvious that she was already looking forward to her chance.

Finding the magical beasts wasn't difficult, the strength of the magical beasts here were generally low.

And the strength of the crowd was high, so finding these magical beasts was almost a matter of time.

Plus Li was a magical beast himself and had a very high sense of them.

So after just ten minutes, they found a magical beast as they had hoped.

This magical beast was very strange looking.

It somewhat resembled a lizard, but was much stronger than a lizard.

But it should have just been through a fight, so it had wounds all over its body.

"You! Come here and talk!"

Li was not polite either, and directly released his aura out.

It instantly scared the magical beast's whole body.

"Who is the leader of your place!"

Li asked directly.

However, the magical beast was dumbfounded, as if it couldn't understand Li's words at all.

"I'm asking you a question!"

Li was somewhat helpless and chided once again.

However, the magical beast still had no intention of speaking, and only looked at the crowd in horror.

"He probably really can't understand!"

The white mist on the side said.

"You might as well just check his memories!"

"Fine!"

Li answered, and then sent a breath out, instantly wrapping the magical beast up.

And as Li's breath wrapped around it, a message was soon sent back.

"Boss! They actually can't really talk!"

Lizzy was shocked.

"Is the IQ that low? The Magical Beast clan doesn't seem to be so low!"

Lin Ran frowned.

"A magical beast isn't as stupid as he is, but he really doesn't seem to be able to speak!"

Li also said somewhat helplessly.

“Forget it we’re switching to another one!”

Lin Ran said.

The crowd nodded, and then they continued to search through the Flame Continent!

Soon they found a second and a third one!

However, the result was still the same.

Even one of these two had reached a very high level of strength.

But the intelligence was still pitifully low.

It was as if they were born without intelligence.

In the end, Lin Ran and the others had searched almost the entire Flame Continent.

Eventually, they were unable to find a magical beast with a higher IQ.

“Ai! Looks like these magical beasts won’t be able to help!”

The crowd returned to the void ship, somewhat very helpless.

“Will the Frozen Lands have magical beasts with a higher IQ?”

Qin Bing suddenly asked.

“Are there magical beasts in the Frozen Lands?”

Lin Ran looked at Qin Bing and asked rhetorically.

“I don’t know, but how will I know if I don’t go and try?”

Qin Bing said.

The crowd all fell into a state of helplessness at his words.

Previously, when they had just arrived in this Little World of Heavenly Demons, they had indeed not seen any magical beasts on the frozen side!

Even that place was somewhat deserted.

But now it seemed that they didn’t have any clues apart from the other half of the frozen world!

“Forget it, since we’re all here then let’s go take a look, or else we might miss it!”

Lin Ran said.

“But this frozen world isn’t easy to get to, so tomorrow Qin Bing and I will go, and you guys will stay on the void ship!”

“Good!”

The crowd didn't have a problem with that.

After all, the place where this void ship was located was the place where Li felt the chance.

That is to say, if Lin Ran and Qin Bing didn't gain anything outside.

When the time came, the crowd would have to think of other ways to get to this place again.

With their minds made up, the group did not delay any longer.

Early the next morning, Lin Ran and Qin Bing set off together!

Li and the others stayed behind in the void ship to wait for news.

However, when the two of them emerged from the vast ice field, the result was basically the same as what they had guessed before!

Not to mention the magical beasts, there was simply not even a single living creature to be seen above the entire ice plain.

"There's something strange about this little world!"

On the way back, Qin Bing said.

"It's indeed a bit strange!"

Lin Ran nodded his head.

"Even if half of this world is covered in ice and snow, then it's not like the magical beasts of the Flaming Flames Continent are fighting so much!"

"Furthermore, these fireflames could totally be taken to develop a new continent out!"

"This might be the reason why these magical beasts have a very low IQ!"

"Certain rules of this world might not want them to come and freely develop the entire world!"

Qin Bing said.

Lin Ran nodded at his words, thinking that Qin Bing had a point!

That might be the truth as well!

"I just don't know what this world is hiding!"

Lin Ran said to himself as he looked at the void ship that had already appeared to smash into his line of sight.

However, Qin Bing was looking stunned and was busy pointing ahead.

"That's not right, how come there are magical beasts there!"

Lin Ran smiled and was busy looking, and indeed, he found that a magical beast had actually appeared next to the Void Ship!

The magical beast wasn't very big and it looked like it was walking in a somewhat rusty posture.

It seemed as if it had been sleeping for years and had only just woken up.

"What the hell is going on here?"

Qin Bing couldn't help but say.

Li was on the void ship, and in order to avoid being disturbed by the magical beasts, his breath would be released from time to time.

He hadn't seen any magical beasts all day and night, so how come a magical beast had suddenly run over at this moment.

"Go over and see what's going on!"

Lin Ran greeted.

It was useless to speculate here, it was better to just go over and see what might be going on!

Wonder Doctor Chapter 2293

The two of them immediately ran towards the magical beast.

White Mist and the others on the void ship also sensed the scent and immediately followed.

"What's going on? Didn't you guys notice?"

Lin Ran asked, pointing at the magical beast not far away.

"No, we noticed something else, so we didn't notice the magical beast appearing next to the Void Ship!"

White Mist said busily.

"It's just a magical beast all the time, just chase it away!"

Li said, whirling about to step forward.

"It's not a matter of chasing it away, your aura is constantly outgoing, no magical beast here dares to come over at all!"

"But it's still appearing now, don't you guys think it's strange?"

Lin Ran said.

"It seems a bit strange haha!"

Li awkwardly scratched his head.

"Kid, haven't you guys noticed a problem?"

Suddenly the pillow actually spoke up.

"What do you see, hurry up and say!"

Lin Ran was busy urging.

The Pillow Book said with a bland smile.

“Look guys, this magical beast is walking very unsteadily, and it doesn’t seem to have noticed us!”

“The situation is like a newly born magical beast cub!”

“If I’m right, this magical beast is probably just born!”

“Just born?”

The crowd couldn’t help but freeze as they listened.

There was no sign of this magical beast’s parents here either, so how had he been born here!

And there was another thing, that was how this magical beast was still going in the direction of the Fiery Flame Continent!

So small, wouldn’t it be straight cannon fodder when it went to the Fireflame Continent?

“This magical beast is very strange! I think it’s best to go scout it out!”

The pillow said.

Lin Ran nodded at his words and said.

“Let’s go take a look!”

Naturally, all of the people had no objection, and immediately a group of people followed the place where the magical beast had appeared before and began to explore.

There was nothing strange about the magical beast itself, what was strange was where it had appeared from.

So they took the place where the beast had appeared as the centre and began to explore the surrounding area.

Sure enough, they soon discovered the problem.

There was a deep depression in the tundra.

This place was at the point where ice and fire meet.

And in the very dent, there was obviously just enough room for this one magical beast!

Lin Ran went up to take a look and found that inside this dent, there were actually a lot of corpses left over!

And all of them were the corpses of magical beasts.

From the looks of it, it should have been left behind by a magical beast!

Looking at this scene in front of them, the crowd couldn’t help but freeze.

“This magical beast, dare I say, was bred by heaven and earth!”

With such a situation, this magical beast indeed did not look like another magical beast that had been bred.

Instead, it was more like it had been naturally bred by heaven and earth!

“Take a look around, there might be other magical beasts!”

Lin Ran busily greeted.

The crowd heard this and immediately scouted around.

Under this search, they really found that there were many magical beasts in many places.

Only these magical beasts seemed to be in a deep sleep, and the whole thing was covered in ice!

“Ka-ching!”

Suddenly, just as the crowd was exploring, a crack appeared in one of the deep pits as well.

The magical beast inside then actually woke up straight away.

It instinctively broke free from the deep pit and then crawled out.

That look and form was just like the one before!

“Looks like we guessed right, the magical beast in this place was indeed birthed from the heavens and earth!”

Lin Ran said.

The crowd couldn't help but all be very impressed by what they heard.

We had seen a lot of natural landscapes in the heavens and earth, and there were many magical beasts bred by nature!

But this was the first time they had seen so many magical beasts bred in the heavens and earth!

“We still know too little about the world!”

“By the way, you said earlier that you had made a major discovery? What discovery?”

Lin Ran asked as he looked at the white mist with emotion.

“Ao, it's like this, when you guys went out during the day we discovered that the original position of the void ship had changed!”

“We later found out after careful research that it wasn't the Void Ship's position that had changed!”

“And the junction of ice and fire in this world is changing!”

White Mist said, pointing down at the Void Ship.

Only then did Lin Ran see it.

Originally, most of the place where the Void Ship was located was mostly ice.

But now it had actually turned into land!

Even the location of the ice layer had actually become very far away!

“This... Could it be that the two worlds of ice and fire in this world are constantly alternating?”

A very bold guess came to Lin Ran’s heart at once, Mao Long!

“We think so too!”

White Mist nodded his head and said.

“Lizzy, what about your chance?”

Lin Ran was busy looking at Lizzy!

If that was really the case, then that meant that soon, this place would probably be covered in flames.

By then, I’m afraid that Lizzy’s chance would be.

“I’ve just sensed it, and my chance has also shifted!”

“It seems like my chance is changing with the junction of ice and fire in this world!”

Li said with a serious look on her face.

Lin Ran couldn’t help but hear a startled look as well.

His own chance was actually changing with the ice and fire junction in this world of the world.

This was definitely a very important discovery!

“It seems that it’s impossible to rely on these magical beasts to solve your chance!”

“If we want to find your chance, we might have to relocate our position with the change in the junction of this world of ice and fire as well!”

Lin Ran said.

Although he didn’t know why the situation in this world was so special.

But it was undeniable that this made Lin Ran increasingly interested as well.

Wanting to see what kind of secrets were hidden within this world!

“Let’s go, let’s go back!”

Lin Ran greeted.

The crowd nodded at his words, and immediately all returned to the void ship.

However, the situation was probably understood.

But trying to implement it was extremely difficult.

Although it was already known that the junction of ice and fire in this world was in constant flux!

But what if it was possible to discover the chance of glazing?

The two would not really seem to intersect!

Days passed by day by day, and in the blink of an eye the group had been in the small world of Heavenly Demons for three months!

During these three months, they had been following the ice and fire junction point.

But there was never any harvest.

Every day, Li could sense that his chance was below.

But he could not get it, and no one was more helpless than him.

Three months had passed, and there was less than a year left until the final day of the battle!

And there were only five months left until the day White Mist would leave!

Although White Mist had some reluctance in his heart.

But it seemed that time would not stop for that!

“Hey! If it really doesn’t work, let’s just leave in the last three months left!”

Li said somewhat helplessly.

Chance wouldn’t run away, and he could totally come back later.

But if he missed the final showdown, obviously he would be even more unable to accept it.

Although the outcome might not be much of a surprise.

But seeing it with his own eyes and not being there were two entirely different emotions.

After all, this duel was likely to be one that would affect the entire future direction of the Immortal World!

“Weng!”

Suddenly just as the crowd was all a little helpless, they all even wanted to give up a little.

A buzzing sound however came from the deck of the Void Ship.

The crowd was busy looking and found that it was coming from exactly where Lin Ran was!

Wonder Doctor Chapter 2294

“What’s going on with Lin Ran?”

All the people could hear the commotion were busy running over.

Lin Ran also happened to wake up from his retreat at this moment.

The entire person’s entire body still carried a transcendent aura.

“I’ve understood the reason for this world!”

Lin Ran said.

“You understand? Tell me quickly!”

Li was busy urging.

“It’s nothing really, I found out that the rules of how this world works are actually a huge formation!”

Lin Ran said.

“A huge formation? Impossible, what kind of formation would that have to be to envelop the entire small world!”

“Right, if that’s really the case, then I’m afraid that the power consumed by the formation alone would have to be exceptionally huge!”

The crowd couldn’t help but say.

A formation that could directly envelop the entire small world, just hearing about it was unbelievable!

Let alone actually seeing it!

“None of this matters, what matters is, can you break this formation?”

Li asked anxiously.

“Naturally, I can!”

Lin Ran laughed, his attainment above the formation was very high.

“Then hurry up, what are you waiting for!”

Li was busy urging.

Lin Ran smiled blandly at this, and then stood up.

“This formation isn’t difficult to break, but you guys have to take the void ship away!”

“Otherwise, later on, we might all have to have accidents!”

“Accident? What do you mean?”

The crowd didn’t quite understand.

“This formation should be covered in the ground, if you want to forcefully destroy the formation, it’s almost impossible!”

“So, I will choose to tear a hole in the surface of the formation, and then we might all have to fall into the inside of this world!”

Lin Ran explained.

Only then did the crowd understand when they heard this.

However, at this moment, moving the void vessel was a secondary matter compared to breaking the formation.

The crowd immediately stopped talking and began to move.

Qin Bing put the Void Ship away, and then all of them entered Lin Ran's accompanying small world.

Only Lin Ran was left alone to sit in this place where ice and fire met and began to crack the formation.

It had been said before that Lin Ran's formation attainment was very high.

Although this formation was extraordinary, in his hands, he quickly discovered the breakage.

"Weng!"

As a voice rang out, instantly everyone saw that a layer of white light had actually emerged from the entire surface of the small world of ice and fire.

This glow was like a film that enveloped the entire surface of the small world.

Lin Ran didn't say a word, and his two palms instantly fired.

Following this, he actually tore a crack in the white film of light.

The crack was initially only the size of the palm of his hand.

But as Lin Ran kept on exerting force, the entire gap was rapidly growing larger.

From the initial size of only a fist, it gradually became at least two metres in size.

"That's almost it!"

Qin Bing said when he saw this.

This formation was obviously not as easy to break open as one would think.

At this moment, cold sweat was already breaking out on Lin Ran's entire forehead.

"Hm!"

Lin Ran nodded and whirled around to once again exert his strength.

And as this time, the crowd all clearly heard a loud noise.

"Rumble!"

The crowd then saw that under Lin Ran's feet, a gaping hole had actually appeared after him.

The size of the gap was actually the same size as the formation Lin Ran had torn open.

"It's simply amazing, it's like the entire world is wrapped in water inside this formation!"

"Once the formation broke open, the ground was torn apart as well!"

White Mist said excitedly.

This was also the first time she had come across such a thing.

Before, she simply didn't dare to think that there was such a thing!

"Let's go in and take a look!"

Lin Ran was also curious at this point as to what was underneath this surface of the earth.

Immediately, without delay, his entire body flickered violently, and he rushed in towards the inside of the crack in the ground below.

And almost as soon as he rushed into the surface, the formation above began to heal.

And the rift in the ground was also slowly healing.

Lin Ran was so fast that the speed at which this gap in the earth's surface was healing simply couldn't catch up with him.

Shuttling through the underground world.

Soon Lin Ran sensed two scents.

And these two scents even caused Li, who was still in the small world, to rush straight out.

"That's the feeling, that's the one! Lin Ran thank you!"

Li was very excited and said.

"Still saying thank you to me, hurry up and check it out!"

Lin Ran laughed.

The two of them quickly traveled through this underground world.

Originally, the crack the two were in was very small.

But as they continued to go deeper and deeper, the place the two were in was rapidly widening!

In just under twenty minutes, the two saw that the entire fissure was actually no longer visible as a rock wall.

It had turned into a huge space.

The whole space was pitch black.

But deep below, there were actually two vaguely different coloured rays of light rushing up into the sky.

"It's down there!"

Li said excitedly, and immediately rushed towards the bottom.

Lin Ran didn't dare to slow down either, and was busy following behind.

It only took the two of them five minutes this time before they were shocked by the scene that appeared before them!

They saw that there was a huge palace below.

The palace was carved out of ice crystals, and the ice crystals were extraordinary!

In some places there were lamps with flames burning on them.

But it had no effect on the ice sculpture at all.

These were just a few details.

What really shocked the crowd was that the palace was surrounded on all sides, and in the middle there was this huge square.

There were two huge round stone pillars on top of the square.

On top of the pillars, two red and one hundred stone eggs were floating around.

The red and white light emanating from the surroundings was also emanating from their bodies.

“What is this thing? It’s so beautiful!”

White Mist looked at these things with great excitement.

Qin Bing also had a glow in his eyes.

This red and white clearly corresponded to the entire surface of the Little World of Heavenly Demons, ten thousand miles of ice and a thousand miles of flame!

“This is the power of the dragon!”

Suddenly, Li next to him said excitedly.

The crowd listened in disbelief and were busy looking at him.

Only to see that at this moment he was looking not far away, his eyes full of shock.

The crowd was busy following his gaze, and following it, they actually found that there was actually a chair placed not far ahead.

There was a figure sitting on the chair.

It was a pity that he was already dead and only a skeleton remained.

But this skeleton was very extraordinary.

Because it was officially a dragon’s bone.

A dragon’s head, a dragon’s body! If it wasn’t a dragon or something!

“It’s really a dragon!”

“My goodness!”

Both Qin Bing and White Mist not only exclaimed in shock this time.

Both of them had never seen a dragon before!

“What’s so strange about that, when Master Shu was young, I even rode a dragon!”

Pillow Book said with a smug look on his face.

“Fuck off, you only got to ride a dragon because of the previous emperor, without the previous emperor the dragon wouldn’t have slapped you to pieces!”

Lin Ran retorted.

“What do you kid know, Master Book I am also very much there.”

“Hey! Don’t touch!”

Without saying a word, Pillow Book was busy shouting at the side.

It turned out that Li actually couldn’t resist trying to touch the dragon bone remains!

Wonder Doctor Chapter 2295

“What’s wrong?”

Lizzy asked, turning her head in confusion.

“Now that we’re in this place, shouldn’t we help this senior clean up his remains?”

“No need to clean up, he’ll be completely gone once you do!”

Pillowbook said busily.

“Gone? What do you mean?”

Lin Ran didn’t understand.

The pillow book explained.

“This place is actually maintained by two forces!”

“The first power is this remains as well as this entire ice crystal palace and those lamps!”

“There’s just nothing in this world that lasts forever!”

“Even the Immortal World is constantly changing!”

“Not to mention here!”

It turned out that everything in the entire Ice Crystal Palace was an obsession left behind by this predecessor of the Dragon Clan, before he was born!

In the entire underground world, there were only two things that didn’t rely on the power of this former member of the dragon race!

That was the two stone eggs on top of this square.

“What exactly are these two stone eggs?”

Lin Ran couldn’t help but ask.

These stone eggs were strangely shaped and were able to float in midair, constantly emitting power, so clearly neither was an ordinary thing!

“This is the Dragon Clan’s greatest treasure, the red one is a fire dragon soul! The white one is the Ice Crystal Seed!”

“Fire Dragon Soul? Ice Crystal Seed? What is it for?”

Li couldn’t help but ask as well.

He could feel that his chance was one of these two things!

“Dragons are the beings in Heaven and Earth that have the most and most relevant sense of the Heavenly Dao!”

“Even humans don’t have this advantage over the dragon race!”

“But because of this, the dragons have never had to worry about sensing the heavenly dao! So it makes it easy for them to sense the heavenly dao!”

“But after the sensing of the Heavenly Dao is over, there is somewhat no way how to increase strength!”

The Pillow Book explained.

“Dragons cultivate very fast, but they can’t reach the level of Immortal Emperor!”

“At most, they are at the Immortal realm!”

“And to break through this level of bondage, one has to pay a great risk!”

“It is rumoured that it is possible to break through this bondage by how the power of two dragons can be combined into one!”

“That’s why in the past, the fusion of the power of the Fire and Ice Dragons has always been more common!”

“Of course this was all in times of war, and who would be willing to sacrifice themselves in times of peace!”

“Looking at the situation, this senior should have fallen here during the Immortal Emperor War!”

The crowd couldn’t help but feel very emotional at the words.

It was because of the two Immortal Emperors fighting over each other that the tragedy had occurred.

If there hadn’t been so many things back then?

Perhaps the Immortal Realm now might have been a lively scene with masters gathering.

But where there are people, there will be strife, so there are times when there are things that one person simply cannot influence!

“Li, what’s your chance?”

Lin Ran turned his head to look at Lizzy and asked.

“That one!”

Lizzy pointed at the fiery red stone egg, with excitement in her eyes.

“This place is what it is now thanks to the constant checks and balances of the two stone eggs!”

“If you take away the stone eggs, this underground world will also completely collapse!”

“At the same time the world outside will return to normal!”

“It may also breed life after a long time!”

The pillow book explained.

“It’s quite hard to let go, but this dragon elder has been guarding this place for a thousand years!”

“Perhaps it’s also waiting for a later destined person!”

Lin Ran laughed.

The pillow did not say anything more.

Things were in the hands of the people who came after them, and all of them had to plan for themselves.

Nowadays, the situation in the Immortal World was complicated, so I thought that this senior of the Dragon Clan would not be blamed.

“Get ready to make your move!”

Lin Ran said.

“Good!”

Li was busy nodding, with anticipation in his eyes.

It was obvious that he had been somewhat impatient for a long time.

“You take the Fire Dragon Soul, and I’ll take the Ice Crystal Seed!”

Lin Ran said.

Li nodded and whirled around and went to the other stone egg.

“Get ready! Make your move!”

Lin Ran shouted, and immediately the two of them simultaneously removed the two stone eggs from the stone pillar.

As the stone eggs were taken down, a tremor instantly sounded throughout the underground world.

But the tremor was not loud!

So the crowd didn’t pay much attention to it.

“Hurry up and take the stuff and leave, this place will be ruined in a quarter of an hour at most!”

Pillow Book reminded.

Lin Ran and Li both didn't delay!

The two of them quickly opened the stone egg, and immediately a red and a white ball of light emerged.

Without saying a word, Li directly took the red fire dragon soul.

Lin Ran, on the other hand, looked at the ice crystal seed in front of him and finally handed it to Qin Bing!

"Me?"

Qin Bing looked stunned, although this ice crystal seed made her feel comfortable.

But it was so precious that she was honestly too embarrassed to take it!

"Take it, you're the only one here with pure ice attribute, it's the most suitable!"

Lin Ran laughed.

"But this."

"There's nothing to but, do you need to divide it so finely with me!"

Lin Ran laughed.

"Mmm!"

Qin Bing smiled and nodded, with a hint of delight in her eyes.

"Alright, it's time for us to go out too!"

Lin Ran said.

With a whirlwind wave of his hand, he gathered the crowd up and rushed out towards the top.

A few moments later when he emerged from the underground world, the formation outside had completely dissipated!

Lin Ran saw that countless flames had begun to melt the ice peaks.

And the great waters that had formed after the melting had extinguished the flames!

Countless magical beasts had fallen into the water, while some remained on land!

Others flew straight up into the sky because of the change!

The whole world was undergoing a huge change in a moment!

Lin Ran watched this scene indifferently, his heart trending with wireless emotions.

In a few hundred years, a few thousand years, perhaps a civilization of cultivators would be born here too!

"It's time to go too!"

Lin Ran sighed, and then he took out the void ship, and the group left this small world together!

....

The discovery of the Fire Dragon Soul as well as the Ice Crystal Seed had undoubtedly benefited Li and Qin Bing greatly.

Especially Li, who chose to fall into a deep sleep directly after obtaining the Fire Dragon Soul.

Qin Bing also began his retreat three days later!

Time waited for no man, and in the immediate situation, being able to have more strength was also an added hope of survival!

Lin Ran was envious, although after all he had gone through, he could already feel that he was close to reaching the peak of Great Perfection.

But there was still a long way to go before he could break through to the Immortal Realm!

And it was still a path that could not be filled with time!

He had to rely on his own chance!

Without chance, Lin Ran might have to remain stuck at the peak of the Great Perfection for the rest of his life.

He would not be able to enter the Immortal Realm for the rest of his life!

But chance was especially easy to find!

At this moment, there were only eight months left until the final battle for the Immortal Emperor!

“Let’s take a walk to the small world you’ve been to before!”

Lin Ran looked to the pillow beside him and said.

“Go to a small world I’ve been to before? There’s no need for that!”

The pillow side book was a little embarrassed.

“What? Are you being shy here?”

Lin Ran laughed at this.

“What do I have to be shy about, it’s just that so many years have passed and I’m afraid that all the deceased people are gone!”

The pillow said.

“You’re all there, how do you know that people are gone!”

Lin Ran asked with a smile.

The Pillow Book sighed and said.

“I’ve also heard that she seems to have chosen to detach herself from the vessel spirit, and that she’s considered a human after leaving the vessel spirit!”

“And with that comes longevity!”

Wonder Doctor Chapter 2296

“Thinking is thinking, how do you know if she’s still there without going to see!”

Lin Ran laughed.

“You’re not for real!”

The pillow said breathlessly.

“Of course it’s true!”

Lin Ran laughed, while the entire void ship rushed out towards the front.

Although the pillow side book said that it didn’t want to go, it didn’t really want to, it just lacked the courage before.

At this moment, Lin Ran helped him, so it naturally took advantage of the slope.

Li and Qin Bingren were in seclusion, so Lin Ran didn’t bother them.

On the way, he chatted with White Mist and told her about the events of the Pillow Book’s younger days.

It was shocking to hear that White Mist was also shocked, not thinking that the artifact spirit Pillow Book actually had such a relationship history.

“Don’t listen to his nonsense, we were all very pure in our feelings back then!”

Pillow Book said with a straight face.

“Pure? Ask yourself if you look pure?”

Lin Ran didn’t have a good temper.

“What do you kid know, nothing!”

Pillow Book retorted.

“Fine, I don’t understand! Anyway, we’ll be at the place soon, so let’s hurry up and let me go meet this senior!”

Lin Ran laughed.

Pillow-side Book actually didn’t pick up on his words, but Lin Ran and White Mist could tell that at this moment, he was afraid that he was also getting nervous.

With the Void Ship, the speed of the rush was naturally very fast.

Especially at this time within this small world, trying to resist somewhere was almost a matter of the blink of an eye.

According to the pillow book, the woman who had an affair with the Immortal Emperor back then was named Feng Suzheng Sa.

This Feng Ling Sa was also a strange person.

At a young age, she possessed an extremely high level of cultivation talent.

And their Feng family was even a powerful local clan.

But the changes inside such small worlds are usually very big.

It could be that today you are in power and tomorrow there will be an even more powerful ex-killing out.

So whether this Feng family is still around or not is a question, let alone being said that so many years have passed to find a contemporaneous person with Pillow Book!

This is if the reason why the pillow book has been reluctant to come.

If you don't see it, at least you have a glimmer of hope, but if you do see it and get bad news.

That result is sometimes really overwhelming.

"Chasing Wind City, was that the same name back then."

Lin Ran asked.

At this moment, not far in front of them, there was a huge city with the three words Chasing Wind City written on the plaque.

"No, back then it was all a town how could there be any city, I only know that they were from the Wind family!"

Pillow Book said.

Lin Ran nodded at his words.

He didn't bother to delay, this journey over he also found that the cultivators of this small world were most like those of the Immortal World.

But the strength was generally lower, it seemed that these small worlds that were dependent within the Immortal Realm were generally not as strong as the cultivators of the Immortal Realm.

Lin Ran didn't think much of it, and after entering the city, he made his way to a tavern and did so.

"What would you like, guest?"

The shopkeeper came over with a smile.

"A pot of wine and two taels of meat!"

Lin Ran said casually.

“Good!”

The shopkeeper was a little helpless, two taels of meat wasn't a little too little.

But he didn't say anything, and it was quickly brought up.

“Enjoy your meal, guest!”

He said and was about to leave.

“Wait!”

Lin Ran suddenly spoke.

At the same time, he had already placed a silver ingot on the table, the common currency in this world was not spirit stones, but this kind of silver ingot.

“What are you doing, grand master!”

Seeing the silver ingot, the shopkeeper's eyes went straight.

“Sit down and chat with me for a while!”

Lin Ran smiled blandly.

“Fine! Talk for as long as you like!”

The shop boy was busy sitting down at the side, his face full of excitement.

“Let me ask you, why is this Windchaser City called Windchaser City? And who is the city lord of the city?”

Lin Ran didn't bother with nonsense and asked directly.

“I know this, I know!”

As soon as the shop boy heard that it was such a simple question he immediately became excited and said.

“The largest family within this Windchasing City is the Windchasing Family!”

“The reason it's called Chasing Wind City is also, firstly, because it's the territory of the Chasing Wind Family!”

“The second is that the Wind Chasing Family has a divine weapon!”

“This divine weapon is very powerful, it is said that once it is used, it can kill people from millions of miles away!”

“So powerful?”

Lin Ran couldn't help but be interested even as he listened.

Although it seemed that the Wind Chasing Family was not the same family as the Wind Family mentioned in the pillow book back then.

But this divine weapon was something that wasn't seen very often, and Lin Ran had only seen this one divine weapon, Qing Zi, up until now.

The Pillow Book was only an immortal weapon.

I never thought that there would be a divine weapon in this Windchaser City.

Of course, Lin Ran also understood that the divine artefacts that people in this world were talking about might be a different concept from the divine artefacts in the Immortal World.

But one that could make even the people of Windchaser City so excited was obviously not an ordinary magic weapon either.

"Grand Master, looking at you, you are an outsider!"

The shopkeeper laughed.

"Around our Wind Chasing City, almost no one doesn't know about this divine weapon of the Wind Chasing Family!"

"Everyone calls it the Chasing Wind Divine Bow!"

"Of course, this is the name given by others, no one knows what it's really called, and the people of the Wind Chasing Family never call it by its name, they just address it as senior!"

"But this divine weapon is, indeed, a divine bow!"

"A divine bow?"

Lin Ran listened in thought, while the pillow inside him was already excited at this moment.

"That's right! It's the bow, her very being is the bow!"

The Pillow Book was busy saying.

"It seems that this Wind Chaser Family might be the Wind Family from back then, but whether it is or not, it seems that we still have to go on a trip!"

Lin Ran laughed.

"Hm!"

Pillow Book nodded at his words, but there was an unconcealable excitement in his eyes.

"Alright, this belongs to you!"

Lin Ran got up and laughed, before turning around and leaving.

The shopkeeper didn't even look at him, his attention was on the quick silver ingot at the moment.

Leaving the tavern, Lin Ran rushed straight towards the residence where the Chasing Wind family was located.

The family in this world was not very powerful, so Lin Ran didn't bother to delay and was going to look for it directly.

Could he find this Windchaser divine Bow!

“Get out of the way! Get out of the way!”

Just as Lin Ran was rushing along the crowd towards the front, suddenly there was actually a commotion coming from the back.

Following this, Lin Ran heard a sound of horse hooves, coming from far away.

He was busy turning his head to look, and following it, he actually found a large, snow-white, high-headed horse that was galloping towards him.

There were too many people, however, and some of them were about to be hit when they couldn't dodge.

Under normal circumstances, anyone would have slowed the horse down!

But the woman on the white horse had no intention of doing so!

“Get out of the way, we're in a hurry! I'm sorry!”

The woman shouted, clearly ready to do it the hard way.

“Nonsense!”

Lin Ran frowned slightly at this, and instantly dashed straight into the crowd with a flash.

The next moment, a scene that left everyone dumbfounded occurred.

Only to see that the people who were still in front of the horses had all disappeared in an instant.

By the time they reappeared, they had already reached the side of the road.

The crowd failed to bring the horses to a halt.

But this sudden scene caused the woman on the horse to freeze, and she scrambled to stop the horse.

Looking down at Lin Ran in the crowd below, she said warily.

“Who are you!”

Wonder Doctor Chapter 2297

“And who are you!”

Lin Ran looked at her, and her attitude wasn't too good.

“Who am I? You don't even know who I am, and you dare to stop me in this Windchaser City?”

The woman said angrily.

“You can't stop if you don't know? If you have something to do, other people's lives don't matter?”

Lin Ran retorted.

“You are unbridled!”

The woman said angrily.

“Do you know who is on the back of my horse? If something happened to him, ten of you wouldn’t be enough to cover your life!”

“These people are nothing more than injured, but delaying him could cost him his life!”

Only then did Lin Ran notice that there was a man lying on the back of the horse.

He must have been about forty years old, a middle-aged man.

He seemed to be injured, and was lying motionless on the horse’s back, with blood dripping down from time to time!

“You’re that anxious for him to die!”

Lin Ran laughed indifferently.

“What are you talking about!”

The woman’s face turned red as she listened, and she was very angry, as if she had been wronged.

“What? Did I say something wrong? He was only wounded for a good reason, and you say he’s dying!”

“Does he want to die himself, or do you want him to die?”

Lin Ran chuckled.

“You’re full of nonsense! This lady is too lazy to deal with you!”

Seeing that she simply couldn’t say anything to Lin Ran, the woman waved a long whip in her hand and instantly charged towards Lin Ran with her horse.

“Hey me Cao!”

Lin Ran was also taken aback, and dodged to the side.

The woman, however, rode her tall horse without looking back and disappeared without a trace.

The people around him were all looking at Lin Ran and pointing at him, not knowing what they were talking about.

Lin Ran felt very puzzled, he had saved them, how come they were pointing at him instead.

Was it because he was used to being bullied by this woman or something?

“Forget it, let’s hurry up and get going!”

Pillow Book suddenly said.

Lin Ran shook his head helplessly at his words, and didn’t bother to talk nonsense, turning around and continuing to rush towards the centre of the city.

In the entire Windchaser City, it was actually very simple to find the mansion where the Windchaser family was located.

As far as the eye could see, the tallest building was naturally the Windchaser's residence.

Lin Ran arrived at the entrance of the Windchaser Family's residence after ten minutes of unhurried walking.

When he saw the majestic mansion of the Windchaser family, Lin Ran could not help but be amazed.

The entire residence could be described as exquisitely built.

Although the materials used were not extravagant, every single piece of wood had obviously been carefully selected.

This was especially true for the entrance, which was made of the finest sunken thunder wood, something that many families could not do.

Even if one looked at the Immortal World, to find such a sunken thunder wood was something that no ordinary power could do.

This could also be due to the fact that this small world itself has a high yield of sunken lightning wood.

But the focus was still on being able to afford to use so many Sinking Thunder Woods.

This was enough to show that this Chasing Wind Family definitely had a very powerful force in this area.

It might even be considered a number within the entire Small World!

"What's that?"

Suddenly, Lin Ran noticed a notice that was posted on the entrance of the Windchaser family.

The notice wasn't very big, but it was filled with writing.

Upon closer inspection, Lin Ran realised that it was actually a list of requests for medicine.

It probably meant that there was a critically cold person at home who needed medical attention and if he could be cured, there would be a big thank you!

"Could it be that person just now?"

Lin Ran felt curious.

The woman on the horse just now was carrying a man who looked seriously ill on her back.

But this notice had obviously not just been put up, it should have been two days old!

This made Lin Ran a little strange.

"Go in and take a look soon to find out!"

The pillow said.

Lin Ran nodded at his words, and didn't bother to inform him again, so he walked straight towards the residence.

With his current strength, it was simply too easy for him to enter the mansion.

Even if he came face to face with someone, he might not even be able to see him.

As he entered the residence, he was greeted by a group of guards on patrol.

Each one was fully armed and looked very stylish.

However, in front of them, Lin Ran was as if he was transparent, no one even noticed him.

Lin Ran smiled lightly and then walked towards a side hall where there were the most people.

And at that moment, in the side hall.

“Father, how is it? Have you found the gentleman who can save your life?”

The woman asked anxiously, and if Lin Ran were here at this moment, he would definitely be able to recognise it at a glance.

The woman was no other than the one who had just ridden a horse and almost hit someone.

“Feng’er, it’s not that easy, the notice has been posted for two days and there’s no movement at all!”

“It’s not like you don’t know that it’s hard to find a healer!”

The old man said helplessly.

He was none other than the family head of this Wind Chasing Family, Feng Tian Ming.

“But father! If we delay any longer, father he.”

Feng’er said as his eyes unconsciously turned red.

“Feng Lie has fought for our Wind Chasing Family all his life, but I never thought it would end up.... I’m sorry for him!”

Feng Tianzheng said with tears coming down his eyes.

This Feng Lie was none other than his calf, and Feng’er was also Feng Lie’s only daughter.

The Feng family had always been a single heir, but who would have thought that their generation would be.

“If it’s not possible, let’s cut the land!”

Feng Tianjian said helplessly.

“No way!”

Feng’er, however, refused outright.

“Even if father falls, there’s still me! I will definitely not let them encroach on a piece of our Chasing Wind Family’s land!”

“But you’re a daughter after all, how can you be them.”

“I don’t care!”

Feng'er said and her eyes turned red.

"A woman that's actually so rigid, it's really rare!"

Lin Ran said helplessly, while an aura had wrapped Feng Lie up.

While probing his injuries, he had already probed through his memories.

The story of what had happened was also clear.

It turned out that the Wind Chasing Family was considered a large family within this small world.

It was only that they had always been a single family, and they did not like to fight.

So they had never been involved in any major wars.

But being in the jianghu, how can you stay out of it all the time?

So, after a force has risen and quickly taken over the whole place.

The final gaze fell on the Windchaser family.

If it wasn't for the fear of the Chasing Wind Family's divine weapon, the Chasing Wind Divine Bow.

I'm afraid this war would have been fought long ago.

"If we can't, we still have the Wind Chasing Divine Bow, I'll go beg her!"

Feng Tian Ming said.

"No!"

Feng'er said busily.

"Grandpa you have nothing left to give her, if you go on like this, you will die!"

"But what else can I do if I don't, let me watch you go to your death?"

Feng Lie said busily.

"But..."

Feng'er wanted to retort, but simply didn't know what to say instead.

The situation at hand was clear to her, apart from the Wind Chasing Divine Bow, no one could save their Wind Chasing Family.

Unless they actually escaped from here!

"I do have a solution, I wonder if the two of you are interested in hearing it!"

Just when both of them were somewhat desperate, a voice suddenly actually rang out.

At the same time a figure also appeared.

He was sitting on a chair drinking tea, if not Lin Ran or someone else!

Wonder Doctor Chapter 2298

“Who are you!”

The wind beside him was stunned at first, followed by a response.

“Why it’s you! Who let you in! Get the hell out of here!”

“Feng’er must not be rude!”

The Feng Tian Ming next to him was obviously more composed than Feng’er.

There was actually a hint of trepidation in his eyes as he looked at Lin Ran.

“Senior, I wonder what to call you?”

“Senior? How do you call him senior, grandpa! He was the one who tried to stop my horse on my way back just now!”

Feng’er said angrily.

“Stopping your carriage isn’t because you’re about to run someone over, in a hurry you can’t threaten someone’s life!”

Lin Ran said.

“You know me.”

“Feng’er shall not be rude!”

Feng’er still wanted to retort, but Feng Tianzheng, who was on the side, interrupted him directly.

“Grandpa, we don’t even know who he is, what do we have to say to him!”

Feng’er was also furious and confused at this moment, he didn’t even notice that Feng Tian Ming was making eyes at him one after another!

“Shut up!”

Feng Tian Ming could not hold back any longer when he saw this.

“Why are you so confused, to be able to appear here silently, is that an ordinary person!”

“Besides, this senior just said he has a solution!”

“What could he have.”

Before Feng’er could finish his retort, he stopped himself.

Leaving aside whether Lin Ran had a solution or not, just the fact that he could appear next to them silently was already an extraordinary skill.

She was very clear about her own grandfather’s strength, and to be able to be detected by him to appear directly here would already show that the strength of this youth in front of her was definitely not something that ordinary people could match.

“Who the hell are you!”

Feng'er stared intently at Lin Ran, as if she wanted to see him through.

“Lin Ran!”

Lin Ran laughed indifferently.

“Haven't heard of you!”

Feng'er said with a frown.

She basically knew all of the more famous talents in the entire small world, but was sure that she had never heard of the name Lin Ran.

“Little friend Lin Ran, please don't blame me for your granddaughter's ignorance... I wonder where you come from and what is the reason for your visit to our Wind Chasing Family?”

Feng Tianzheng asked.

“There's no need to say where you came from, as for what you came to the Wind Chasing Family for, it's naturally the Wind Chasing Divine Bow!”

Lin Ran didn't bother to hide it and got straight to the point.

“The Wind Chasing Divine Bow?”

Hearing this name, both Feng'er and Feng Tianzheng's faces changed, especially Feng'er's face was simply tinged with a bit of anger.

“You are dreaming, the Wind Chasing God Bow is our Wind Family's greatest treasure, even if you fight to death you will never take it away!”

“Feng'er!”

Feng Tian Ming was busy speaking up and scolding.

“Grandpa, he has already said that he is coming for our Wind Chasing God Bow!”

Feng'er said angrily.

“Then we have to wait for someone to make things clear!”

Feng Tianzheng said angrily.

“Humph!”

Feng'er snorted coldly, unwilling to say more.

Feng Tianzheng then looked towards Lin Ran.

“Little friend Lin Ran, I wonder if you want this?”

“I don't want to chase the Wind God Bow, I just came to take a look!”

Lin Ran laughed.

He didn't expect that his words would cause Feng'er to be so excited.

Luckily, he had only brought his pillow book to have a look.

If this had really come to take away the Wind Chasing Divine Bow, there would have been a fight.

"Take a look?"

Windy Heavenly Fate obviously didn't quite understand it when he heard that.

"That's right, just a quick glance!"

Lin Ran laughed.

"Then the way you said?"

Feng Tian Ming looked at Lin Ran, obviously waiting for him to say something about a solution.

"The solution is simple, I will send someone to help you with the external engagement!"

"In exchange, take me to see the Wind Chasing God Bow?"

Lin Ran smiled lightly.

"This..."

Feng Tianzheng clearly had some hesitation.

"You're here to solve the external engagement problem? Even my father can't do anything about it! What solution can you have!"

Feng'er said disdainfully.

Lin Ran was stunned at his words, then laughed.

"O, I forgot! There's also this illness of your father's, I can help treat it too!"

"What did you say? You can treat it?"

Feng'er and Feng Tianzheng froze at the sound of their words.

In order to cure Feng Lie, Feng Tian Ming had circulated the news two days ago.

He had even posted a search notice at the entrance of the mansion.

But until now, none of them had come looking for them!

Lin Ran, who had appeared at this moment, actually said that he had a solution.

"I'm warning you, this is my father, if you dare to mess around, I definitely won't spare you!"

Feng'er said angrily!

"Do I have to do this?"

Lin Ran looked at Feng'er and said blandly.

"Your father is only damaged by internal energy to his internal organs, it's not like it's a serious illness, is it hard?"

"What did you say? Damaged his internal organs? Isn't that serious?"

Feng'er became a little anxious when she heard that.

Damage to the internal organs could be absolutely fatal in serious cases!

As a result, Lin Ran actually said it wasn't serious!

"It wasn't serious in the first place! In my opinion, not dying with only half a breath left isn't even serious!"

Lin Ran said as he fished out a bottle from his arms and handed it over.

"Take the elixir inside and you'll be cured in ten minutes!"

After so many years of precipitation and accumulation, Lin Ran nowadays no longer needed to look at diseases one by one at all.

This elixir he had refined could almost be said to have combined a very large number of exotic herbs.

For ordinary diseases, just one pill could cure multiple diseases.

Only when he came across the kind of problems that were very toned down and even somewhat difficult, did he need to look at them carefully.

For a disease like Feng Lie's, he didn't even need to look at it, one pill was enough.

"Does this really work?"

Feng'er was a little suspicious as she took the elixir.

Feng Tianzheng was also frowning slightly, clearly a little uneasy.

Lin Ran, however, smiled blandly and said.

"It doesn't matter if you don't believe it, if you can find a better cure!"

"You!"

Feng'er instantly passed his mouth, if they could find it, they wouldn't be here.

They would have taken their own father to the doctor long ago.

"Alright, I don't have much time, so hurry up! I'm still waiting to see the Wind Chasing God Bow!"

Lin Ran urged.

"Grandpa!"

Feng'er was a little uncertain, and was busy looking at Feng Tianzheng, who was at the side.

“Trust him for once, after all, there’s nothing else we can do!”

Feng Tian Ming said with a helpless sigh.

“But....”

Feng’er still had some hesitation, but stopped before she finished her words herself.

Because she knew that there was nothing else she could do!

“If you dare to play me, I will absolutely fight you to the death!”

Feng’er turned her head to look at Lin Ran, her voice carrying a bit of anger.

Only then did she turn around and take the pill out, before putting it in her father’s mouth.

Lin Ran wasn’t angry either, he just sat quietly in his chair and sipped his tea, looking as if he was waiting to see a good show.

Luckily, it didn’t take long.

After only a few minutes, Feng Lie, who was lying on the bed, actually coughed violently and dryly.

At the same time, his sanity began to return.

“Father! How are you! How are you feeling?”

Seeing this, Feng’er hurriedly came closer and asked.

“Feeling very comfortable, what did you give me to eat? I feel very warm inside my body and my strength seems to be recovering!”

Feng Lie asked as he looked at his daughter.

Feng’er was the one who cried straight away at the sound of it, originally he had thought his father was likely to.

“It’s good that it’s okay, it’s good that it’s okay!”

Feng Tianzheng, who was on the side, was also full of excitement and said.

Wonder Doctor Chapter 2299

“This one is?”

Feng Lie noticed Lin Ran next to him and couldn’t help but ask with a frown.

“Father, he’s the one who cured you!”

Feng’er said busily, and at this moment the look in his eyes as he regarded Lin Ran clearly had a little more respect and a little less hostility.

“Thank you very much, little friend!”

Feng Lie busily said, while wanting to get up and salute, but was hastily stopped by Lin Ran.

“No need for a salute, your body will recover in two days at most, just don’t use your strength for these two days!”

Lin Ran reminded.

“Thank you, little friend, thank you very much!”

Feng Lie said busily.

“Father, let me help you to rest!”

Feng’er said and busily helped Feng Lie to the side to rest.

Feng Tianzheng, however, was very understanding and saw this and made a please pack at Lin Ran.

“Little friend, your words count, I’ve seen Feng Lie’s condition, I can take you to see the Wind Chasing God Bow!”

“Then, thank you, Master Feng Family!”

Lin Ran nodded in satisfaction, this Feng Tian Ming was quite quick to act without the slightest hint of procrastination.

“Grandpa!”

Suddenly, just as Lin Ran was about to follow Feng Tian Ming to check out the Wind Chasing God Bow, Feng’er actually ran back.

“Hm? Why are you here again if you’re not going to take care of your father?”

Feng Tian Ming also asked with some confusion.

“My father said he could rest on his own and asked me to come and accompany Lin Ran to take a look at the Wind Chasing Divine Bow!”

Feng’er bowed her head and said.

There was clearly some embarrassment on her face.

Lin Ran, however, heard and understood that it must have been this nee-san who had told Feng Lie about the matter.

Feng Lie was not at ease, which was why he had asked Feng’er to follow him over.

But Lin Ran didn’t care, to him it was the same who followed him, even if he wanted to take the Wind Chasing God Bow, there was nothing they could do.

As they spoke, they had already arrived at the garden located behind the Feng family.

They could only see that there was a very exquisite pavilion in this back garden.

The pavilion was not high, but one could tell that the entire pavilion had been carved with care, even some of the decorations were deliberately carved to look like chasing the wind and lightning.

“This loft looks good!”

Lin Ran couldn't help but laugh.

"Can it be wrong, this loft is Laozi's handiwork!"

The Pillow Book suddenly said.

"Your handiwork? You still know how to make such things, is it hard to be a token of love?"

Lin Ran couldn't help but laugh.

"I think it's 80% of the time!"

White Mist also laughed.

"Go away, what token of love, it was just that the bow didn't have a home at the time, so Master Shu made one by hand!"

Pillow Book was busy saying, but apparently it wasn't very convincing.

"This attic was also left behind by one of the seniors back then, it's considered the oldest object in our family!"

Feng Tianzheng laughed.

"Hm!"

Lin Ran nodded.

Seeing that Lin Ran seemed to have little interest, Feng Tian Ming smiled and opened the door of the attic, leading Lin Ran inside.

The attic had three floors in total.

The ground floor was somewhat similar to a living room, but it appeared somewhat empty, and many of the matching tables and cabinets were very clean with nothing on them!

"This attic is very precious, so we didn't dare to put anything in it!"

Feng Tian Ming was busy explaining.

The pillow book listened but was a little speechless.

"Old me made this loft very sturdy, what's there that we didn't dare to put in it, it's really a waste!"

"Haha, people are also respecting you!"

Lin Ran laughed.

"Hey! It's a waste of such a good material!"

The pillow said helplessly.

"Little friend Lin Ran up here please!"

Feng Tianzheng was busy greeting him.

Lin Ran nodded, and immediately walked up towards the upper floor with Feng Tianfei.

The first floor was somewhat similar to a rest area, and when he saw that there was a house and a bed here, Lin Ran couldn't help but smile.

"What, you've even prepared your life after marriage here, this attic wouldn't be your home, right!"

"Fuck off, having a bed is for other people, it's not mine!"

Pillow Book said breathlessly.

"Haha!"

Lin Ran, however, laughed and didn't say anything more.

"Little friend Lin Ran, what's wrong with you? You look so happy!"

Feng Tian Ming, who was next to him, saw Lin Ran giggling alone and couldn't help but ask.

"Ao, it's nothing, I'm asking if this Wind Chasing Divine Bow of your Feng Clan still has spiritual intelligence?"

"Yes, why do you ask that, little friend?"

Feng Tianzheng obviously didn't quite understand.

"It's alright, take me up and have a look!"

Lin Ran laughed, while Pillow Book couldn't help but get excited at his words.

The Wind Chasing God Bow still had a spirit, was it still the same as her back then?

But the pillow side book clearly said that the spirit of the Wind Chasing Divine Bow had detached from the artifact spirit back then, so it was reasonably impossible for it to have survived until now.

The Pillow Book did not say anything, but Lin Ran could feel that he was also unusually nervous at this moment.

And just as the two of them were talking, Lin Ran had already arrived at the third floor of the pavilion, led by Feng Tianzheng.

As soon as he entered this third floor, Lin Ran clearly felt the envelope of a formation.

It was obvious that there was a forbidden formation on the third floor.

The entire third floor was empty, not to mention the Wind Chasing God Bow, and there was not even a single table or chair.

This made Lin Ran look a little puzzled.

The pillow book, however, suddenly spoke.

"She's right in front!"

"Who's up front?"

Lin Ran asked with a rush.

“The Wind Chasing God Bow! Right in front!”

The pillow-side book said.

Lin Ran smiled and couldn't help but look towards the location the pillow side book said, empty indeed there was nothing ah.

“Little friend Lin Ran must be very surprised, don't worry, as I said before the Wind Chasing God Bow has its own spiritual intelligence, you can't see it on a normal day!”

Feng Tianzheng said with a wave of his palm, and immediately Lin Ran saw that a layer of ripples had actually appeared in the open space in front of him.

A light then diffused out from within the ripples.

In a flash the light flowed and at the same time, a divine bow appeared.

This divine bow was silver in colour, with a very fine wind and cloud pattern carved on it.

And at the body of the bow, there was also a silver silk thread, which was really a bowstring.

But compared to other bowstrings, this bowstring was simply terribly thin.

It was as if it could be broken with just a little force.

Although the bowstring was very thin, it looked just right when paired with the proper bow.

Moreover, the Wind Chasing Divine Bow in front of him also had a faint mist around it, as if it was wind-like, which was really the best-looking weapon.

“Look at people! The Wind Chasing Divine Bow is a delight to behold just in this style, and to actually look at a book like yours!”

“It's really a big cabbage that's been gored by a pig!”

Lin Ran couldn't help but lament.

“What do you brat know, when Master Shu was young, that was also suave and elegant understand!”

Pillow Book retorted unconvincingly.

“Fuck off, don't disgust me here!”

Lin Ran retorted.

At that moment, Feng Tianzheng looked at Lin Ran and laughed.

“Little friend Lin Ran, I wonder if I can go now?”

“Leave? Are you kidding, I haven't even seen the artifact spirit yet!”

Lin Ran said speechlessly.

He really thought he was here to take a look.

“Little friend Lin Ran, the artifact spirit can’t be disturbed easily, this.”

Feng Tianzheng looked a little embarrassed.

“It’s fine if you don’t want to call, I’ll do it!”

Lin Ran laughed at this.

Feng Tian Fate smiled but became anxious.

“No, no, it’s better if I do or I do! Be careful the artifact spirit is getting angry!”

Said Feng Tian Ming, before he walked towards the Wind Chasing Divine Bow.

Wonder Doctor Chapter 2300

I only saw Feng Tian Ming quickly arrive in front of the divine bow, but he didn’t dare to get closer.

Standing at a distance of two steps away from the divine bow, he bowed before taking out a white jade ring and then clasped it in front of him.

As the jade ring was snapped, a ripple of power instantly sent out.

Almost at the same time, Lin Ran distinctly felt an aura appear.

“Why is this aura so weak?”

The pillow couldn’t help but ask.

“It’s indeed a little weak, but do you feel familiar?”

Lin Ran asked.

Although Pillow Book hadn’t returned in many years, if it really was still the original artifact spirit, he would definitely be able to feel it.

“Not too familiar!”

The pillow-side book frowned and said.

“Anyway, let’s take a look! It’s all here!”

Lin Ran said, clearly somewhat comforting Pillow Book.

The aura felt different, it was likely that the consciousnesses inside the Wind Chasing God Bow had all changed as well.

If that was really the case, I’m afraid that the person that Pillow Talk knew back then is really gone.

At this moment, the artifact spirit inside the Wind Chasing Divine Bow was probably already a different her.

“Hm!”

Pillow-side Book nodded at his words.

Although he didn't say anything on the surface, Lin Ran could feel that he must have been more or less disappointed in his heart.

"Windy Heavenly Fate, you're looking for me?"

As the two were talking, a woman's voice suddenly actually rang out.

This voice seemed more or less breathless, as if she had just woken up.

Lin Ran also frowned a little as he listened, he could clearly hear that the owner of this voice did not seem to be very strong.

This was because the voice was too weak.

Under normal circumstances, there was also a relationship between the strength of the artefact spirit and its own quality.

For example, a powerful magic weapon, the artifact spirit born is very powerful.

For example, the Clear Purple Pillow Book and so on.

The weaker ones naturally have weaker artefact spirits.

Of course this is not absolute, for example, the artefact spirits that are just born are actually not strong.

And the Wind Chasing God Bow is from the same period as the Pillow Book.

Even the Pillow Book was so strong, which was why he had some doubts as to how the Artifact Spirit of the Wind Chasing Divine Bow could be so weak.

"Could it be that..."

Suddenly, something occurred to Lin Ran.

However, just at that moment, the Windy Heavenly Fate in front of him spoke up.

"Lord Artifact Spirit, it's not that I'm looking for you, it's that two guests have come looking for you!"

Feng Tian Ming was busy saying, in front of the artifact spirit he didn't dare to hide anything, he could only tell the truth.

"Nonsense!"

The artifact spirit looked a little angry at his words.

"I am a titled Weapon Spirit, how can I be treated as an exhibit for others to watch just because you are chasing the Wind Family's grudge?"

The Weapon Spirit said in an angry voice.

This reaction scared Feng Tian Ming on the spot himself.

"Lord Weapon Spirit, I can't help it! Please also."

“Alright!”

Lin Ran frowned as he looked and opened his mouth to scold.

“Get out!”

The artifact spirit’s voice was tinged with anger as he retorted.

“With your strength, don’t pretend to be noble with me!”

Lin Ran said indifferently, while waving his palm, and instantly the Wind Chasing Divine Bow actually flew directly towards Lin Ran.

“You! Who the hell are you!”

The artifact spirit within the Wind Chasing Divine Bow asked anxiously, its voice clearly tinged with a bit of panic at this moment.

“Who am I? I was going to ask who you are!”

Lin Ran laughed indifferently, while his palm was already on the bow and he smoothly pulled the bowstring.

“Stop it! Stop it, you’ll get me killed!”

The weapon spirit spoke up just as the bowstring was drawn.

“Little friend Lin Ran, stop it, the Wind Chasing God Bow cannot be pulled open casually!”

Seeing this, Feng Tian Ming next to him was also immediately anxious.

“You can’t just pull it? How so!”

Lin Ran asked.

But this time it was the pillow book that answered him.

“There’s a problem with the artifact spirit of this Wind Chasing Divine Bow!”

“What does that mean?”

Lin Ran frowned.

“You should have been like this as soon as it appeared!”

This time, Pillowbook didn’t answer, instead, he spoke directly to ask the other party.

“Why is there someone else!”

Feng Tianjian froze at the sound of his words!

“Don’t be nervous!”

Lin Ran looked at him and said blandly.

The Pillow Book had, however, already surfaced at this point.

When Feng Tianfei saw that the pillow-side book was actually a soul body, he couldn't help but be startled as well.

One had to know that there were only two possibilities for a soul body to be able to manifest in its entirety.

Either the physical body of a powerful cultivator had fallen.

Either the artifact spirit was strong enough to manifest itself.

And at this moment, the pillow in front of him showed his extraordinary nature in either case.

"You're also an artifact spirit!"

Seeing the Pillow Book, the artifact spirit within the Wind Chasing Divine Bow was clearly a little surprised.

"That's right! Who the hell are you!"

Pillow Book asked.

"Who am I? I am who I am, who else could I be!"

There was something unkind in the other's voice.

"You're not her!"

Pillow Book said.

"What her? And who is she!"

The other side was still confused.

"Hey!"

Pillow Book didn't answer this time, just sighed helplessly.

"Your scent is so much like hers that I thought she was still around, but now it seems she's gone!"

"I don't understand what you're talking about!"

The tool spirit said in a cold voice.

Lin Ran saw this and said helplessly.

"The last Vessel Spirit of the Wind Chasing Divine Bow, and he was a friend, so we came over here this time to meet her!"

"But unfortunately, she is no longer here!"

"Friend?"

The artifact spirit fell silent at her words, not opening her mouth.

Although she was a brand new artifact spirit, this Wind Chasing Divine Bow itself also had some sense of the pillow book.

It was inevitable that it would affect her emotions at this moment as well.

“What did you just say? You said he was a friend of the previous artifact spirit?”

On the contrary, the entire eyes of Windy Heavenly Fate, who was lying on the ground at this moment, changed.

“Yeah! What’s wrong?”

Lin Ran looked at Feng Tian Ming with some confusion.

“At last, at last!”

Feng Tianzheng, however, suddenly became excited.

“What do you mean wait until now?”

Lin Ran asked with a frown.

The Pillow Book was also looking at him with some confusion.

“You guys come with me, come with me!”

Feng Tianzheng was busy saying, his eyes full of excitement at this point.

Lin Ran and Pillow Side Book looked at each other, although they didn’t know exactly what Feng Tian Ming wanted.

But since this fellow had opened his mouth, he naturally still had to follow.

Feng Tian Ming led the way, while Lin Ran and Pillow Side Book followed behind.

Soon the three of them arrived at a corner of the entire third floor of the attic.

Lin Ran saw that Feng Tian Ming had actually fished out another jade ring from his arms.

This piece of jade ring was almost the size of a fist.

Feng Tianzheng did as he had done and also placed this jade ring in front of the brightness.

Soon in front of everyone’s eyes, a cabinet actually appeared.

The cabinet was only half a person high and there was no telling what was inside.

Windy Heavenly Fate turned his head to look at the crowd and said.

“Inside here are the things left behind by the previous owner of the Wind Chasing God Bow before he left!”

“There is an autobiography, as well as a letter!”

“And this letter is what he left for you!”

Windy Heavenly Fate said as he looked towards the pillow-side book.

But before the pillow side book could say anything, the Wind Chasing God Bow that Lin Ran was holding suddenly emitted a “weng” sound.

Then a delicate figure actually floated out of it.

Obviously it was the weapon spirit of the Wind Chasing Divine Bow that had come out!

When Pillow Book saw the appearance of the artifact spirit, he instantly froze, and his eyes went straight in an instant!
