

# Chapter 2415– 2416 of A Dish Best Served Cold Novel

## Chapter 2415

“Bald!”

“Bad son, I’m fighting with you~”

When I saw my fellow comrades who had been with each other day and night, vomiting blood and flying out, the remaining three of the flying eagles were blood red.

One by one, like a mad dog, rushed to the Qinglong people desperately.

“Why bother?”

“It’s like a moth fighting a fire, after all, it’s dead and alive~”

Among the Azure Dragon, Sara Ma shook his head and smiled, looking at the eyes of the flying eagles, full of pity.

Afterwards, the five Qinglong no longer retained, and finally shot.

The torrential attack, like a violent storm, poured towards the enemy in front of him.

Under Qinglong’s offensive, the strongest team that had previously topped the three armies was just like a chicken.

One slap in the air, one kick and a group.

On the other hand, the Flying Eagles team couldn’t even break the defenses of Denren Ye and others.

This is not a fight at all, but a one-sided crush.

Seeing the scene before him, everyone present went crazy.

Among the crowd, some even shouted out in shock!

“Damn, am I going to special?”

“These people are absolutely abnormal!”

“The champion team was beaten like a dog by Qinglong?”

Han Ping’s eyes widened, Zhu Rong couldn’t believe it, and everyone in the audience was dumbfounded.

From beginning to end, the so-called Flying Eagle team was being beaten by Qinglong!

Don’t say that you can fight back, you can’t even parry.

As for Qinglong, he is completely abusing the dog!

“Is this the waste in the mouth of Orell Lin?”

“Is this the mud that was expelled from the Noifork Military Region?”

“If this is a waste, then what is the flying eagle? Isn’t it, the waste is not as good?”

Among the crowd, someone was shaking and talking.

Even these onlookers are like this, not to mention Orell Lin, who is a flying eagle instructor.

Orell Lin was immediately stunned when he saw the Qinglong show his might.

He never thought that Qinglong’s strength would be so strong?

He didn’t even expect that the flying eagle he was so proud of was actually like a waste dog in front of Qinglong!

“This... how is this possible?”

“Mark is just a nasty bastard, how could he train such a team?”

“Impossible, this is absolutely impossible!”

Even now, Orell Lin didn’t want to believe the scene before him.

He definitely didn’t think that Mark, an unknown person, could train a few people without the power to bind chickens into such a strong person in such a short period of time?

You know, Feiyang can achieve today’s achievements, but also because of the practice of the secretary left by Solmen Chen.

And what does Qinglong rely on?

When everyone was trembling at Qinglong’s strength and majesty, Mark was calm.

Mark didn't have any surprises about the result before him.

Perhaps, he created Qinglong, but it took only a few months.

However, during this period of time, Mark not only let them practice the Azure Dragon Refining Body Jue, but also let his grandmother prepare a prescription, and let them take a medicated bath day and night to consolidate the foundation.

It can be said that the physical strength of Taishan and the others is far more than that of ordinary people.

Therefore, Mark didn't need to teach them the secrets of tricks at all. The five Azure Dragons only relied on their physical strength to make every move one after another.

You must know that the Azure Dragon Body Refining Judgment was created by Mark based on the Dragon Divine Body, even if it is a weakened version, for ordinary people, it is already a powerful secret technique that cannot be met.

## Chapter 2416

Coupled with his own grandmother's secret prescription, it will undoubtedly make Qinglong's strength even more leaps and bounds.

Under this circumstance, how can the trained Azure Dragon team be comparable to those of the rats like Lin Fan!

As for the violent blood technique, in front of Mark's Azure Dragon Body Refining Judgment, after all, it was just a trail.

Therefore, from the very beginning, Mark knew that this so-called Flying Eagle Team was completely vulnerable to Qinglong.

"Sure."

"Stop playing, just solve them with one trick."

Suddenly, in the battle ahead, Denren Ye's cold command voice came.

At this time, Denren Ye had already left the battle, standing on one side and staring blankly.

There is no need for him to take action at all. The flying eagle has been beaten to a half-disability, and it can be solved by any one among the Azure Dragon.

"Haha~"

“Great!”

“This last blow, give it to me.”

Naturally, Croven Li wouldn't let go of this moment of pretending highlights.

He laughed, then stepped on the ground and rose into the sky.

Everyone saw that under the sky, Croven Li's body was flying into the sky, like a big Peng spreading his wings, a beautiful whirlwind leg swept the remaining three flying eagles directly.

Bang bang bang~

There were three bangs in a row, and three lines of coquettish blood spurted out in the void.

As for the three flying eagles, they all crossed the sky and smashed to the ground like waste dogs.

Everyone's face was blurred by the blood and flesh of the kick, and the bones of the face were broken in half.

“hooligan!”

“Silently~”

“Asshole, how dare you beasts be so cruel?”

Seeing the flying eagles that he had carefully trained, they were all beaten beyond recognition.

At that moment, Orell Lin was almost bleeding in his heart.

He was full-faced, eager to crack, with a vicious voice, shouting over and over again between the heavens and the earth, shouting angrily at Denren Ye and the others.

However, no one responded.

After the Qinglong people abolished the flying eagle, they just stood there indifferently, condescendingly looking down at the dying Lin Fan, and at the red-eyed Orell Lin.

“Deputy Commander Lin, how?”

“Now, do you still think that my Qinglong is a waste rat generation?”

“Now, can you admit that you have no eyes?”

The cold laughter echoed slowly.

At this moment, Denren Ye and the others only felt that the long-suppressed breath finally came out, and the whole person felt refreshed and refreshed.

And everyone around was silent for a long time.

People from Han Ping, looking at the flying eagle team that was still majestic just now, are now lying on the ground dying. At that moment, they only felt a great irony!

The strongest team of the three armies is actually vulnerable in front of Qinglong?

This is not only an insult to Noifork defense zone, but also a humiliation to Jiangbei, Southwest, and all defense zones.

This slap was undoubtedly hit everyone's face.

"I really didn't expect that this Azure Dragon team, just a few months after its establishment, would it be able to do so?"

"It seems that this young instructor is really unusual."

Han Ping said with a sullen expression.

The old faces of the other instructors of the defense zone are undoubtedly very ugly.

They never dreamed that the Azure Dragon team that they had driven away just now would eventually defeat the champion team.

Moreover, with an overwhelming advantage, one-sided frenzy ended the battle.

Such a result undoubtedly made this military region competition a complete joke!
