

Chapter 2429– 2430 of A Dish Best Served Cold Novel

Chapter 2429

Finally, after a night of fighting, in the early hours of the morning, everyone found Zhu Rong's tragic and terrifying body in the ravine.

If it is an ordinary person who has been injured in such a way, I am afraid that he would have died and disappeared long ago.

But this Zhu Rong is worthy of being a martial artist. He suffered such a heavy injury and was buried in the ground for such a long time. When he was dug out, he was still hanging a bite.

This has to make people marvel at Zhu Rong's strong vitality.

“Manager Li, where's instructor Han Ping, are you still looking for it?”

After finding the bodies of Zhu Rong and Lan Xing, someone asked the head of Xiang Jiangbei defense area.

The general manager did not speak, but looked back at the dry blood in the palm prints, shook his head and sighed, “Look?”

“How else to find?”

“In a moment, go to the place where the instructor Han Ping fell, dig a bit of soil, and send it to the Han family.”

The director was full of regret.

After all, who could have imagined that Han Ping, who had been chatting with him a few days ago, has now turned into a pool of flesh, and even the whole body has not been left.

“That instructor Chu, what on earth did it come from?”

“Don't say the methods are so strong, the strength is so powerful?”

“With one person, press down the entire military area!”

Thinking of yesterday's battle, the Jiangbei General Manager still feels ashamed.

In particular, Mark stepped on the scene of the three major instructors with one palm, one fist and one kick. Looking back, he is still sweating from his back.

To be honest, it stands to reason that Mark committed such a killing on his site yesterday. As the chief manager of the Jiangbei defense zone, he should capture Mark and avenge Han Ping.

However, the majesty that the young man showed was really terrifying. At that time, the chief executive was already scared to death, let alone ordering Mark to be captured. At that time, he was so scared that he didn't dare to talk nonsense, and he didn't dare to kick the air.

Regarding what happened in the Jiangbei defense zone, it has not yet been spread at this time.

The people in the major defense zones didn't even know that their instructors and teams had all been wiped out.

Just like today's Noirfork defense zone, there is even a big feast, waiting for Orell Lin and the others to triumph.

As early as the end of the game, Orell Lin called Wu Yang and told them that Noirfork had won the double championship.

The Flying Eagles completely dominated the entire competition.

He also told Orell Lin that he would return to Jiangbei Defense Zone today.

Wu Yang, who learned the news, stayed up all night with excitement.

Early in the morning of the next day, he informed the three armies to put out a feast and invite all guests to welcome the triumph of Orell Lin and others, and to celebrate their victory.

"Haha~"

"Manager Wuyang, congratulations, congratulations."

"I heard that this time, General Manager Wuyang's subordinates fought a big victory in Jiangbei."

"Team and individual double championships, this is an epoch-making event."

“Noirfork defense zone, under the leadership of Commander Wuyang, really made history.”

The hotel in the military area has been refurbished at this time.

There are not only military bands playing here to celebrate, but even the salute car is ready.

The brand new red carpet was spread from the hotel to the entrance of the defense zone.

The flowers bloom with brocade, and the fire is full of oil.

The entire defense area is immersed in a festive atmosphere.

The big guys from all walks of life who came to congratulate Wu Yang were also in an endless stream, expressing their admiration to Wu Yang.

Chapter 2430

“Haha~”

“Everyone is too acclaimed.”

“This is all the credit of Orell Lin.”

“If it weren’t for Orell Lin to help me plan the strategy, Noirfork, this time, would be in a dilemma that no one would be available.”

Wu Yang’s words were not humble, he put all the bets on the five members of Qinglong and Mark.

But the result undoubtedly disappointed him.

Mark left his post without permission, slackened his work, and indulged Qinglong.

In the end, both Mark and Qinglong left the military area.

To be honest, Wu Yang felt a little panicked at the time.

After all, Qinglong is gone. Who should they send Noirfork to participate in this military region competition?

Fortunately, Orell Lin had been prepared early and had been training flying eagles in secret, and also invited Solmen Chen to serve as an instructor.

In this way, Wu Yang's urgent need was solved.

Unfortunately, Solmen Chen fell under Mark later.

Therefore, in this competition, Wu Yang didn't report much hope, so he just wanted to be the last one.

But who would have thought that Orell Lin and the Flying Eagles team would give him such a big surprise.

Wu Yang has already decided that when Orell Lin returns this time, he must reward him heavily.

"Haha~"

"Manager Wuyang is humble."

"If you weren't for your wise leadership, knowing people and doing well, how could Feiying's achievements today?"

"As the saying goes, Chollima often has it, but Bole does not often have it."

"Manager Wuyang is the Bole of Zhanying and others."

In the hall, everyone complimented and flattered.

Although Wu Yang was humble again and again, he was undoubtedly happy when he heard such praise.

After all, the achievements of Feiying, but the honor of their entire Noirfork, are the strongest stroke in Wu Yang's personal resume.

"By the way, Chief Wu. I remembered that the chief instructor of the defense zone was not an instructor surnamed Yi Chu?"

"But why is Deputy Commander Lin leading the team this time, what about the Chu instructors?"

At this time, someone asked in doubt.

"Hey, don't mention it."

"What shit Chu instructor, it's just a whole lot of rubbish."

"You don't know, I handed over one of my teams to him for training."

"As a result, he didn't teach any real ability, just teach them how to eat, drink and have fun."

“I heard that ginseng and abalone are offered every day, and they are better than what I can eat!” The genius remembers the Chinese in one second.

“If it weren’t for Orell Lin to find out in time, this time our Noirfork defense zone would be too embarrassed for fear.”

As soon as he mentioned Mark, Wu Yang felt angry.

However, Wu Yang was also somewhat fortunate.

Fortunately, he found it early and corrected the mistake in time.

Otherwise, they are afraid that they will be in Jiangbei this time and make a fool of themselves!

“what?”

“Is there anything else?”

“This Chu instructor is so foolish?”

“It’s so bold.”

“This kind of person should be caught and shot!”

When the others heard it, they were filled with indignation and talked again and again.

Wu Yang waved his hand: “I am not familiar with this kind of waste.”

“Alright, let’s not mention him.”

“Everyone drink first.”

“In a while, it is estimated that Orell Lin and the others will be back.”

“At that time, everyone will go out with me to greet.”

Wu Yang laughed, and he was so happy.

“Manager, here they are, here they are~”

However, at this moment, someone rushed from outside anxiously to report.

Wu Yang was overjoyed when he heard this.

“Haha~”

“Our hero is here.”

“go!”

“Everyone will follow me to meet our hero~”
