

Chapter 275

In the rescue in the hospital, generally only one doctor can speak, and then several or even a dozen nurses can help. After the operation is confirmed, we can only do a basic first aid, but we can't operate yet. In fact, it's best to operate quickly. It's the best and most appropriate to correct the shock while operating, but now we can't operate immediately.

Because the patient's family didn't come! No one signed, let alone the doctor, even Ouyang dared not order the operation! Don't say it when you die. If people live after the operation, people who will make sense are estimated to be very grateful to the hospital and doctors, but there are special people who not only don't thank the hospital, but may also deny the treatment fee! So this general first aid principle is a little different from that in textbooks! Just graduated students are not very used to dolls!

However, Lao Yang is much simpler. The elderly, alone and widowed, have no immediate relatives, have units to contact units, and have no units. The hospital can directly decide whether to do surgery or not! China's medical system is full of shortcomings, but I have to admire this. When there are no immediate relatives or can't contact relatives, hospitals can decide to operate. They will do it whether they have money or not! But if you can contact your family, you must be careful!

This kind of serious impact injury is very difficult. Sometimes it looks harmless on the surface, but the internal organs may have been shocked to pieces by the impact energy! For example, the liver, needle pricking and tissue forceps to clamp a little living tissue are not afraid. People will grow automatically and don't care at all. But the liver is afraid of this impact injury. It directly impacts the liver. The very fragile liver directly becomes broken slag, just like instant noodles crushed through a plastic bag, which is the outer membrane of the liver. This is also the reason why the liver is hidden in the ribs. During evolution, it is estimated that ape people whose liver leaks outside the ribs did not have the opportunity to check the gene!

Lao Yang's leader is a small boss. A phone call from the police scared him to pee in his pants! It's not easy to earn money and live. Can he not be afraid of a car accident involving more than a dozen people? Even if the division of responsibilities in the later stage has little to do with him, what he has determined now is that he can't do the sanitation contract in the future.

After confirming that Lao Yang has no family, he is ready to go out of the emergency department and enter the operating room. The emergency room door was opened, and a rich woman and a man with a little gas came in.

At the sight of the little girl lying on the emergency bed, the daughter of blood Hula wipe, the rich woman collapsed directly "Yaya! Yaya! It's mom. What's the matter with you. Yaya! Mom, I'm sorry for you. " Crying, I'm going to rush!

"Stop, she's very dangerous now. She can't lean over. She's going to have an operation now. Get ready to sign!" The head nurse immediately stood in front of the woman and blocked her. Her ribs would have been broken. If the woman didn't pay attention, she rushed over and pressed, and the broken bone stubble would directly pierce into her heart and lungs, there was no need to rescue! Go straight to the morgue.

The man with a little aura didn't care about the woman. He went directly to Ouyang. This man is the little girl's uncle and the vice president of the largest state-owned enterprise in chasu city. He has some identity. The level is enough. This state-owned enterprise is very large. The boss may be at the same level as the leaders of tea vegetable city.

"Dean Ouyang, this is my niece. Hey! Please! " The posture is low, quite low. This time is the time to save people. He doesn't dare and won't appear in a high posture.

"Mr. Chen, don't worry. We go all out. Sign quickly. Don't delay. " Ouyang is also very polite!

"OK." Then he pulled the rich woman to sign. Lao Yang had been pushed out of the emergency department. When Zhao Quanping, the director of general foreign affairs, and they were ready to leave, the vice president said, "President Ouyang, isn't director Zhao operating on my nephew?"

"Doctor Zhang operated on the little girl! Don't worry, Doctor Zhang is very powerful. " Speaking, Ouyang pointed to Zhang Fan.

The boss of an enterprise inquired early when he came. There were two wounded, one was an employed sanitation worker and the other was his niece. Then after entering the emergency department, he took a look. There was a wheel on Lao Yang's stomach, a bloody wheel! The white steel bar is inserted into the belly. And his niece is full of tree branches! In my opinion, Lao Yang is much heavier than his niece!

There are green leaves on the branches of the tree. Glass shards all over your face! The blood on her face is not that the doctor doesn't deal with it, but that she can't take care of it. At this time, saving lives is the main thing. How can she take care of the glass debris on her face!

Lao Zhao and Zhao Pingquan, the director of general foreign affairs, are more famous than Zhang Fan among the ordinary people in tea vegetable city. I don't know how many times. This rich woman may have heard of it even if she didn't know it. In small cities, a famous doctor has a good market. If you have some friends or relatives with these famous doctors, you can boast!

The rich woman also felt that Lao Yang was more serious than her daughter. In addition, she knew that

her brother was powerful. She turned around and looked at her daughter. Such a young doctor is estimated to be no more than a few years older than her girl.

She blew it in her head! The sky is falling. Can this doll have an operation! Without speaking, he immediately turned to face Ouyang and knelt down directly " Dean, Dean, please, help me! Dean! Please, please. Let director Zhao operate on my Yaya. She's only in her teens! "

This is really difficult for Ouyang. If you quarrel, turn your face and threaten, it will not defeat Ouyang, because she is a famous steel company and will directly confront you. But she was a woman after all. She was soft hearted to see the woman crying in front of her. Even if his heart is soft, he can't say bluntly: "Dr. Zhang is the first knife!"

"Don't worry about signing. Don't procrastinate. Earlier surgery will give you more opportunities, and Doctor Zhang is really powerful!" Ouyang gave a rare explanation.

"Dean! I beg you! I kowtow to you! " As he spoke, his head banged directly on the hard cement ground, blood! He just broke his head! The boss of state-owned enterprises is also distressed. This is his own sister and niece, and the person who just went out is just a person!

"Dean Ouyang, please. Really, please. " Anxious eyes! This is soft talk. If Ouyang doesn't agree, he will definitely find someone to put pressure on Ouyang now! Because doctors, especially high-end doctors, are also a rare resource. Can they not compete for this moment!

Zhang Fan doesn't care at all. It's not his fault to be young, and everyone has parents. He can feel the pain through his heart. Although Lao Yang looks dangerous, in fact, Lao Yang's condition is not as serious as that of the little girl. So this is also the reason why Zhang Fan asked Lao Zhao to do the operation.

Ouyang, although she doesn't know the specific situation, she knows Zhang Fan. Zhang Fan is not a picky person. This operation arrangement definitely has his idea. Ouyang doesn't want to change Zhang Fan's plan!

"President Ouyang, let director Zhao do it. This is also the right of our family members. We have the right to choose doctors. We have to pay how much. And anyway, it has nothing to do with the hospital. " Seeing Ouyang hesitant, the man was a little angry. He had a bit of identity, both hard and soft!

"Good!" Since all this is said, it is a tearing speech. Ouyang has ignored it. The choice of family members must be respected.

"Zhang Fan, go to the operation and give this operation to Director Zhao!"

"Well!" Zhang Fan wanted to say something. As a result, the woman turned to face Zhang Fan and began to kowtow! Although he didn't speak, his meaning was very clear, "you let my girl go!" Looking at the bloody woman and the mother of a child, Zhang Fan really has no choice. If he insists again, he doesn't know what the woman can do at this time.

"Hey!" Zhang Fan is a little helpless. What can he do? The hard and soft ones are coming! We can only speed up Lao Yang's operation and try to help Lao Zhao and them! The patient is right or wrong. At this time, no matter what the family members do, Zhang fan can understand that this is life. It's not too much to pay attention to. If you don't care about life, what else can you do!

Without saying anything, Zhang Fan turned and left the emergency department. Caught up with Lao Zhao.

"Director Zhao, we have changed, and my family can't see me!" Zhang Fan said.

"Ah! Hooligans! " Lao Zhao also knows that this matter is not up to the doctor! I can only do my best. There is no other way.
