

## Campus Master Chapter 2761

On the warship, everyone's heart was in their throat, whether they could fool the other side or not would determine whether they would be able to escape the encirclement of the Philippines and Vietnam. At the same time, it would also determine whether or not the entire Special Operations Brigade would be wiped out!

Even though not all the members of the Special Operations Brigade were on this mission, the outside world would not see it that way, if they died here, then the outside world would definitely think that the Special Operations Brigade was wiped out!

Xiang Yongzhan's face was tense and he did not say a word, his gaze was fixed on the warship outside.

He wasn't afraid of dying, but he was afraid that all his comrades present would die with him. If they all died here, it would definitely be a major blow to the prestige and face of China!

You see, China was so excited to send its best special forces on a cross-border mission to show that they were strong, but what happened? They were all killed on China's doorstep!

It's almost as if they were killed in front of the Chinese navy, in front of their eyes!

If this had happened, China would have been humiliated!

And how could China's navy hold up its head?

In just a few breaths of time, a series of mixed thoughts flashed through Xiang Yongzhan's mind, but what he was most concerned about was whether he could fool the other side!

The truth is, Ji Feng's excuse was too simple to stand up to scrutiny, and his tone was quite impulsive. If it really aroused the other party's anger and rebellion, the next scenario was almost predictable!

However, the other side's warship was still rushing towards this side, as if there was no reaction to the statement given by Ji Feng, which made many people's hearts sink continuously. There were only two possibilities for this situation to occur: one was that Ji Feng's excuse simply could not fool the other side, and they recognized it at a glance.

Another possibility was that they themselves already knew that the warship had changed owners!

But whichever possibility it was, it was extremely detrimental to the Special Operations Brigade!

The atmosphere was getting more and more tense, the air in this small communication room was almost frozen with tension, all the soldiers of the Special Combat Brigade were staring and holding their breath, although there was not the slightest fear on their faces, the high raised veins on the hands holding the steel guns were enough to show the tension in their hearts!

"Older brother, it looks like we're going to have to fight for our lives completely today!" Faced with this situation, Xiang Yongzhan could not help but smile and said, "This is good, soldiers, the ultimate destination is to die on the battlefield. It is you who ....."

"Wait a little longer!"

Ji Feng waved his hand and said, "Let's not talk about this now."

Xiang Yongzhan nodded while picking up the microphone and said in a deep voice, "Aim the guns and all firepower, all at the target ....."

"Slow down!"

Ji Feng immediately drank and frowned, "Old Xiang, don't rush first, wait a little longer."

He originally told Xiang Yongzhan to wait a little longer, meaning that he should not act rashly first, but Xiang Yongzhan understood that he should not give an account of the aftermath first, however, with this loud shout from him, Xiang Yongzhan's order was interrupted and he looked at Ji Feng.

Ji Feng said in a deep voice, "Calm down, even if the other side really recognizes it, don't fire the cannon, or you'll die faster out there!"

The special soldiers of the special operations brigade are all involved in the operation of warships and can handle them, but they are just barely able to do so, compared to the real navy, they are still far from being able to do so.

If they had to fight with each other, they wouldn't even know how to die!

Instead of that, it would be better to wait for the other side to get closer, or to fight them in close quarters, so that they can use the greatest advantage of the special battle brigade!

"You plan to wait for the other party to board the ship before you make your move?" Xiang Yongzhan was naturally not stupid, and with a little thought he understood Ji Feng's idea.

"I just think that the excuse I mentioned should be fine!" Ji Feng said.

He could not help but stare at this point in time, seeing that the other party was coming to the front, and Ji Feng was still so sure?

However, Ji Feng was holding his hands behind his back, calm and steady, as if he was oblivious to the approaching warship in front of him.

"Good!"

Infected by Ji Feng, Xiang Yongzhan's heart was also full of pride: "Since you are so confident, then I will watch with you, big deal, let's have a close combat, these few days really suffocated the old man, I want to kill a painful one later!"

Ji Feng smiled, "I'm afraid you won't have that chance!"

Xiang Yongzhan couldn't help but be slightly stunned, he was just about to speak when he was interrupted by a voice.

"Look! The other side is slowing down!" A soldier suddenly shouted, although his voice was very low, the hint of surprise contained in it still came out clearly.

"Huh?!"

The other soldiers also noticed that the warship on the opposite side had really slowed down!

Everyone's face couldn't help but reveal a hint of joy, the warship had slowed down, which meant that the excuse Ji Feng had just made should have fooled the other side.

The reason is that if the warships on the other side slowed down at this distance, they actually had no intention of making a move, because this distance was really a bit awkward.

Even if there were rifles that could reach such a range, but they were all in the cabin, so how could they be hit?

So it was clear that the other side was clearly not going to do anything about it.

"Don't be careless!"

However, at this time, Ji Feng, who had always been calm and composed to the point that Xiang Yongzhan was secretly admired in his heart, was throwing a pot of cold water on everyone, "Pay attention to the captives of the wheel crew, if there is a half-hearted accident at this time ....."

He did not say further, but everyone present understood what he meant, if an accident did occur at this time, then ironically it would be exposed!

Many people's faces changed and they were just about to inform their comrades in the wheeling group, but then they remembered that this was the moment to keep communication silent!

"Go to the wheel crew!"

Without saying a word, Xiang Yongzhan turned around and headed out.

Ji Feng said, "No need, I've already informed them just now, nothing should go wrong!"

Xiang Yongzhan then couldn't help but stare.

Ji Feng patted his shoulder and said, "Old Xiang, go and rest for a while, you're too tired now!"

Xiang Yongzhan opened his mouth, but he was hard pressed and didn't know what to say, his heart ashamed beyond measure.

Carelessness!

Really careless!

This kind of oversight, how could it possibly happen to him?

If Ji Feng hadn't arranged everything in advance ..... the consequences of this would really be unthinkable!

Ji Feng seemed to know the shame in his heart and said, "I didn't tell you just now because I was afraid you would be too nervous, old Xiang, there is still a long way to go next, you can't be so tired of rushing, go and rest!"

Xiang Yongzhan was too tired!

In fact from the moment he first met him, Ji Feng saw the deep sunken eye sockets and the blood in his eyes. To be tense and in a state of high tension for so long, even a man of iron could not bear it, not to

mention that Xiang Yongzhan not only had to be on high alert, but also had to lead the Special Operations Brigade to fight vicious battles against the enemy time and time again!

And Ji Feng knew that Xiang Yongzhan might not listen if he persuaded, so he used this method to remind Xiang Yongzhan.

As for the pirate's warship ..... Ji Feng could be sure that he had already tricked the other side, and so far, they had at least jumped out of the enemy's encirclement for the time being.

Xiang Yongzhan looked deeply at Ji Feng and couldn't help but say, "Older brother, it's fortunate that you were allowed to come from above, if another person ....."

He shook his head and didn't say anything further, but with a touch of happiness in his eyes.

Since Ji Feng's arrival, they hadn't had any vicious battles with the enemy, except for a fierce battle when they captured the ship. However, from making the plan, to capturing the ship, to now, almost every step in between was so thrilling, especially the capture of the ship, if it wasn't for Ji Feng, Xiang Yongzhan believed that even if they were able to snatch the ship, they would definitely have to pay a great price.

Moreover, he believed that in the process of snatching the ship, the pirates' lair would definitely be alerted and they would still be dead even if they managed to seize the ship.

But now Ji Feng was playing an extremely crucial role, every step of their plan, Ji Feng was the key to the key!

So Xiang Yongzhan was really extraordinarily glad that if it hadn't been Ji Feng, even a small naval fleet would have been a fierce battle, and not as easy as it was ..... now!

Just a few hours ago, how could they not have imagined the present scenario!

Ji Feng smiled: "I promised the top that I would bring you all back! However, if you are all so tired, I'm afraid I won't be able to complete the mission!"

Xiang Yongzhan nodded and didn't say anything else, he had all these things in mind, what Ji Feng had done for them was far from something that could be said in just a few words.

"After we make sure we jump out of the encirclement, I'll go and rest!" Xiang Yongzhan said.

"Soon."

Ji Feng nudged his mouth and looked towards Yongzhan, only to see that the other side's warship, after slowing down, started to turn around and head to the right, exactly the opposite of their direction!

"Cheating through!" Xiang Yongzhan said loudly, as if he wanted to let out the breath he was holding in his chest.

The other fighters also looked happy, no matter if the other side would find out next, but at least now they had tricked them, they had a chance to breathe!

"Target Treasure Island, full speed ahead!"

Ji Feng put his hands behind his back and said aloud without looking back, then, he came to the deck with big steps, looking at the warship that was furiously advancing, the corners of his mouth did not have a smile appearing, this, is only just the beginning!

Campus Master Chapter 2762

In the vast sea, the warship roared at breakneck speed.

The sky was already getting dark, but Ji Feng did not dare to slacken off in the slightest, because no one knew when the enemy would come after them, so they had to take advantage of the gap to hurry up.

The distance from the southern sea to Treasure Island was not close, even if it was just to the strait of Treasure Island, it would take two days at their current speed.

If it was in normal times, two days would of course be nothing, but at this moment, an hour would be enough to decide whether he lived or died.

In fact, even Ji Feng did not expect this rescue operation to go so smoothly. Many of the supplies and equipment he had originally prepared had not been used, except for the swimmer's ferry equipment he had brought with him, which had all been sent down, and the weapons and so on he had brought with him, which were all still in the cabin of the ship.

If it was possible, Ji Feng hoped that none of this equipment would be used until they returned home!

However, reality is not subject to one's will. When a whistling sound came from the sky, Ji Feng could not help but feel his heart sink, a reconnaissance plane!

It seemed that the enemy had reacted and knew that the prey at their mouth had escaped, so they sent a reconnaissance plane after them.

The only thing that puzzled Ji Feng was whether this was just a reconnaissance plane that inadvertently flew over here, or whether the enemy could accurately locate their whereabouts?

This reconnaissance plane, was it from the Philippines and Vietnam, or did it belong to those 'pirates'?

"What's going on?"

While Ji Feng was pondering, Xiang Yongzhan walked over with big steps, "Ji Feng, the enemy is catching up?"

Ji Feng pointed to the distant sky, Xiang Yongzhan followed the direction of his finger and couldn't help but look gloomy, "The chase is really fast!"

"Check all the equipment to see if there are any locating devices!" Ji Feng said in a deep voice.

"The positioning devices have already been removed!"

Xiang Yongzhan said, "We checked it when we first set off, there were two positioning devices, and they were all removed and thrown into the sea."

Ji Feng frowned and said, "Check again!"

The enemy's reconnaissance planes were able to chase them over so quickly, I'm afraid they didn't fly over unintentionally, how could they detect this place so coincidentally on this vast ocean?

Ji Feng suspected that there must be other positioning devices on this warship that had not been removed.

Xiang Yongzhan also realised this problem, he nodded his head and immediately led his men to carry out a careful inspection, however, the result was that nothing was found.

By this time, the reconnaissance plane had already spotted them and started circling back and forth over them.

Ji Feng frowned and said, "Can you think of a way to shoot it down?!"

Xiang Yongzhan shook his head and said, "It's difficult. The scout plane is flying too high and the ship's defensive firepower is too weak!"

Ji Feng nodded slowly, and suddenly he frowned, seemed to think of something, and asked, "Have those captives been checked yet?"

Xiang Yongzhan immediately reacted, "You suspect that someone among the captives is communicating with the other side?"

"It's better to check!" Ji Feng said. Although the people in the rotating crew were not combatants, in reality, since they belonged to the naval sequence, they should still have some combat power, and, on their bodies, they might carry some kind of equipment.

"I'm on my way!"

Xiang Yongzhan said with a sunken face and gritted his teeth, "If I let me find out, I'll shoot him on the spot!"

Ji Feng couldn't help but regret a little, he was still careless, he was so focused on how to escape, but didn't bother to examine those captives carefully!

Looking up at the reconnaissance plane in the sky, Ji Feng's expression became serious.

Now it was just a reconnaissance plane, so what would come next, would it be a bomber? Since the enemy had a reconnaissance plane, it wasn't impossible to send a bomber!

"No check!"

Ten minutes later, Xiang Yongzhan returned, and he said in a deep voice: "All the captives of the ship's crew didn't have the chance to contact the outside world, the equipment on them was confiscated a long time ago, and I asked about it, and all that equipment was also thrown away into the sea."

Ji Feng mused, "In that case, this reconnaissance plane should have inadvertently found its way here ....."

"Whether it was inadvertently found or not, we have been discovered!" Xiang Yongzhan said.

"Get ready to fight!"

Ji Feng nodded and said, "It's also been clear for most of the day, it's time to get active."

Xiang Yongzhan laughed bitterly, "I'm afraid that people won't give us the chance to move around, they're afraid that they won't send warships after us, if it was me, I'd definitely send planes directly!"

The large warships may not be able to catch up with them in terms of speed, and even if they discover their whereabouts now, it may not be too late to chase them. Even the smaller warships, which were faster, might not be able to catch up with them when they were already most of the way ahead. So the best thing to do would be to send planes right over to bomb them.

Or, drop a couple of torpedoes and that would be enough to blow them sky high!

"Whether there's a chance or not, it's never wrong to be prepared!" Ji Feng said.

Xiang Yongzhan nodded and did not say anything.

In fact, at this point, he had nothing to fear, this life was already going to be lost in the opponent's encirclement, now it was only half a day more to live.

As Xiang Yongzhan gave the order, the entire special battle brigade moved, including the soldiers who had been resting in shifts, and were all ready in high spirits.

Looking at these Special Chief soldiers who were full of fighting spirit again, Ji Feng couldn't help but secretly nod his head, the army's heart was available! It was only because the gap between China and the top countries in terms of technology and overall national power was too great that this was tolerated again and again, but, one day, China would catch up!

"Send a signal to the country!" Ji Feng suddenly said, "Tell them the current situation and our destination."

"Send it now?" Xiang Yongzheng was stunned.

"Since we've been exposed, there's no point in hiding any longer!" Ji Feng said, "I'll go and prepare something!"

Previously, in order to avoid the enemy detecting the signal, they had kept their communications silent and hadn't even contacted the country, but now, it was necessary to do so.

The enemy's plane, came even faster than expected.

About half an hour or so after Ji Feng left, the enemy planes had already arrived!

"Anti-aircraft fire ready!" Upon seeing the shadows of the two planes, Xiang Yongzhan's face changed, really looking up to them, to come with two planes at once!

"Send someone to inform Ji Feng to be ready to abandon ship!" Xiang Yongzhan drank again.

At this critical time Ji Feng had left, not knowing what he was busy with, which made him a little anxious, Ji Feng was not with them, if once the enemy planes attacked, they would easily be scattered, and it would be impossible to help each other then.

At the same time, Ji Feng was inside the cabin, quickly clearing out a counter top, dumping all the things he was carrying onto it in one go, and then started fiddling with it.

His face was extraordinarily serious, for this was an unprecedented crisis, and with this broken warship of theirs, it was almost impossible to withstand the bombing and attacks of the enemy planes. Unless the other pilot had a brain fart and headed straight for the sea!

As the plane approached quickly, Xiang Yongzhan shouted angrily, "Record this scene!"

A special forces soldier next to him nodded.

"All firepower!" Xiang Yongzhan shouted, "Fire!"

"Burst burst burst ....."

The dull anti-aircraft guns cut a line of fire, however, this was only a small warship, it was no match for destroyers and frigates, even with full firepower, the weak anti-aircraft guns were no different from setting off fireworks in front of the lightning fast aircraft.

"Boom~!"

A loud, earth-shattering boom, and the waves were soaring!

Enemy planes had dropped their bombs!

Although it missed, it tossed up huge waves around the warship, and the tremendous power caused the whole warship to shake a few times and shake violently.

"Boom!"

"Boom boom~~"

Next, several consecutive earth-shattering explosions exploded around the warship, and they were getting closer and closer.

Xiang Yongzhan's face was so gloomy that water was almost dripping out of it, he knew that if they waited for the next wave of attack, I was afraid that they would be blown up into the sky, and in the face of this, they had no ability to fight back!

"Filipino and Vietcong brats, I'll fuck you!" Xiang Yongzhan could not help but curse angrily, if he had been killed in a head-on fight, he would have nothing to say, but this way of dying made him extraordinarily stifled.

The other fighters were also furious, but they could do nothing but watch as the enemy planes circled around in a big circle in the air and aimed at them again .....

"All out of the way!"

Just then, only a loud yell came out, followed by two fighters being pushed straight out of the way, followed by a man rushing out.

Xiang Yongzhan was stunned: "Ji Feng?! ..... Ji Feng, where are you going?!"

However Ji Feng acted as if he hadn't heard his shout and rushed straight to the deck. It was only at this time that Xiang Yongzhan saw that Ji Feng was holding something in his arms, wrapped in a black layer of what seemed like cloth.

When he also followed and rushed out, he saw Ji Feng crouching on the deck, not caring about the violent swaying, forcing himself to stabilize his body, and then looking up at the sky.

"You ....."

"Buzz~~" Xiang Yongzhan was just about to speak when he saw the enemy plane flying over quickly, his face changed and he immediately rushed towards Ji Feng, trying to pull him back.

However, just at that moment, he heard Ji Feng coldly snort, "More annoying than flies, die!"

The next moment, Xiang Yongzhan saw a scene that would almost haunt him forever.

He saw Ji Feng crouching on the deck, and he didn't know what kind of movement he made with his hands, and the next moment, he only heard a poof, and Xiang Yongzhan saw a flash of intense blue-white light so strong that he could barely open his eyes, shooting out from the black thing in front of Ji Feng.

The next moment, that strong light instantly became a pillar of light, just like the light shining out from a torch on a dark night ..... shooting straight up into the sky.

"Boom~"

A scene that left Xiang Yongzhan dumbfounded appeared, the pillar of light, surprisingly, rushed into the sky at a speed that made him completely unable to react, and by the time he reacted, the plane in the sky that was still dive-bombing had exploded into a pile of fireballs, just like a meteor, streaking through the sky and crashing into the sea!

Campus Master Chapter 2763

"Boom~!"

With a shockingly loud sound, one could only see that the plane completely transformed into a huge ball of fire, as if it was a meteorite from beyond the sky crashing down, smashing straight into the sea, stirring up huge waves, while red-red flames were interspersed in those waves.

That scene was so shocking!

Everyone on the warship, including Xiang Yongzhan, looked dumbfounded and almost petrified!

The scene was really full of shock, how could the originally arrogant enemy aircraft turn into a huge ball of fire in just a flash?

The glare that shot out from the ship was simply terrifying, especially the kind of attack that was unheard of even by these special forces soldiers present, it was almost hard to believe that it was a weapon that existed on earth!

Especially the dazzling beams of light that seemed to be emitted in the darkness of the night, so that many of those present could not help but have images from some Hollywood science fiction movies

come to mind ..... that was like a laser weapon of the future world, so terrifying, that kind of power, really shocking!

This scene, not only shocked the special combat brigade and Xiang Yongzhan, but also scared the pilot of another plane in the sky, in fact, no one present saw it more clearly than he did, looking from high altitude, he only saw then a blindingly bright light suddenly shooting up, and then, in an instant, penetrated his companion's plane.

When he reacted, he saw that his comrade's plane had become a ball of fire. In between, there was no explosion, no other sound, only the explosion from his comrade's plane itself as it was burning .....

This really freaked him out!

What kind of weapon was this? No sound, no sign, no warning of being locked on, not even a radar scan ..... More importantly, not even he knew exactly how the weapon was fired, just a blink of an eye moment before his comrade's plane was shot down.

So fast that it didn't even give his comrade time to make an emergency ejection jump!

Looking at the plane floating on the sea, still burning with a big fire, the remaining pilot was really scared to the point that his hands and feet were cold and his whole body was a bit stiff and cold.

He had a strong feeling that if he had been a little slower, he would have been buried in the sea, just like his comrades.

No, not buried in the sea, the moment the light penetrated the plane, his comrades would have been burnt to ashes, not even the dregs left .....

"Get up, get up!"

The pilot's eyes widened in panic and his hands desperately pulled on the stick, hoping to get the plane, which was already in a dive-bombing position, to change direction and trajectory and get out of the way, or at least, out of the airspace around the warship underneath first!

Send it back!

To send back the footage from earlier!

At this instant, countless thoughts flashed through this pilot's mind, as he could already see that the dark object on the deck of the warship below seemed to be aimed at him.

In fact, it was impossible to see it too clearly at his height, except that he was now in a dive-bombing position and was close enough to the warship that he could see it.

Only the man on the deck seemed to look up at him.

The sight instantly made the pilot of the warplane's hands and feet go cold, and he shouted in terror, "Get up, get up ....."

But how could the plane's impulse be so easily manipulated? A sense of despair gripped him, and then, with a grit of his teeth, he pressed a button at the position of the instrument panel.

A new type of weapon!

This must be a new type of weapon from China!

The pilot of the warplane believed that this must be the latest terrifying weapon developed by China, so he must send this footage back to let the country know that China was not as unbeatable as they thought, nor was it so outwardly strong, but had secretly developed extremely powerful and already had such a terrifying weapon.

The fighter had its own camera and photo function, and it was instantly saved, so the moment he pressed it, the picture was already transmitted back.

The next moment, this pilot yelled out, not caring if he was aiming at the warship below, he was going to drop the bomb, he was going to die anyway, so let's die together .....

"Ah...!"

"Poof~"

In a flash, the screams of the fighter pilots came to an abrupt end.

It was impossible to tell just how short the light was, as if it was just a flash in front of his eyes, and the second fighter in the sky, which was swooping down, had already followed in the footsteps of the first one.

"Boom~~!"

Flames shot out in all directions, and huge waves were sent into the sky!

The second warplane, like the previous one, also plunged headlong into the sea like a meteorite hitting the earth with a loud bang. The huge waves caused the warship to shake violently, and Xiang Yongzhan and the others hurriedly grabbed something around them so as not to be thrown over.

However, their eyes were always so dumbfounded looking out, on that deck, the crouching figure of Ji Feng, looked so mysterious and shocking!

When the waves receded, without saying a word, Xiang Yongzhan rushed forward with his face full of excitement, however, he had just taken two steps when Ji Feng suddenly turned back and shouted, "All stand still, no one come over!"

Xiang Yongzhan abruptly stopped in his tracks, and because of the excessive force, he even stumbled and almost fell down. Even Xiang Yongzhan stopped, the other soldiers naturally did not dare to go forward, but they were staring at Ji Feng with eager eyes, at this moment, Ji Feng was in their hearts, they really did not know what words to use to describe it.

At this moment, Ji Feng, however, began to pack up the things in front of him. He wrapped the black canvas-like thing, repeatedly, until he was sure it was wrapped, then he picked it up and walked back.

Xiang Yongzhan immediately greeted, impatient to ask: "Ji Feng, just now ....."

"Get in and say more, you get out of the way first!" Ji Feng interrupted him, "What I'm holding is a bit dangerous, I'll deal with it first before I say anything else!"

“Dangerous?!”

Xiang Yongzhan was stunned, “What the hell is this thing?”

Ji Feng said, “A nuclear bomb!”

“.....”

Xiang Yongzhan choked for a moment, a nuclear bomb? He couldn't help but have some toothache, this answer from Ji Feng was a bit of a look down on people, if it was a nuclear bomb, he just launched it so lightly and deftly? If it was a nuclear bomb, would he have launched it so lightly? And after launching it, he came back with it in his arms.

But since Ji Feng was not willing to say, Xiang Yongzhan could not continue to ask questions. Looking at Ji Feng's cautious expression, he was somewhat uncertain that what was in Ji Feng's arms was definitely not a nuclear bomb, but he thought that it should have a certain degree of danger.

Thinking about the two warplanes, spare the bold Xiang Yongzhan, at this moment, can not help but some fear, what is this thing, how can it be so terrifying?

Could it be that ..... is some kind of powerful weapon newly developed by the military, and the top knew that Ji Feng was coming, so they asked him to bring it over, just in case, but it turned out to be really used!

Once I thought of this, Xiang Yongzhan immediately got excited, if this is really the latest high-tech weapon ..... his eyes flashed a flash of frenzy, with this kind of weapon, what more anti-aircraft guns and other anti-aircraft weapons ah, this single person can operate a strong weapon, simply strong pervert ah!

Thinking of this Xiang Yongzhan immediately became a bit restless, he did not care what Ji Feng said about going to deal with anything, he could not resist going to Ji Feng.

However, he just came to the hatch and knocked on the door: “Ji Feng, what are you doing inside, I'm coming in. ....” Then he heard Ji Feng's voice come out.

“Whether you come in or not is up to you, but don't blame me for not reminding you, if you come in now, don't blame me for any body mutations!” Ji Feng hummed.

“..... mutation?!”

Xiang Yongzhan couldn't help but be stunned and didn't react at all for a moment.

However, listening to Ji Feng's warning, he was a bit hesitant, not knowing whether he should enter or not, just wondering in his heart if Ji Feng was really up to something dangerous?

“Hula~”

The hatch was suddenly pulled open, and Ji Feng appeared at the hatch door, Xiang Yongzhan immediately asked, “You kid finally came out, what are you doing inside?”

Ji Feng said, “Didn't I tell you, a nuclear bomb!”

“Nuclear bombs? I think you’re bullshitting!” Xiang Yongzhan gave a heated laugh, “I say, just now you ..... what kind of weapon are you holding?!”

The shock from that scene just now was just too strong, Xiang Yongzhan really couldn’t wait to know what kind of weapon Ji Feng used just now, how could it be so powerful!

Without looking back, Ji Feng pointed behind him and said, “That’s the thing!”

Xiang Yongzhan’s gaze immediately crossed over to him and saw a box on the countertop inside the cabin, he recognized that it was the box that Ji Feng had brought with him when he came, there were originally two of them in total, one of them contained equipment, supplies and some other things, the swimmer’s ferry equipment inside of them had already been distributed, so in that case, the other big box should contain the weapon.

“What kind of weapons are these?” Xiang Yongzhan couldn’t help but come to the front, his heart was really like eating twenty-five little rabbits in one breath, it was like a hundred claws scratching his heart!

“Really want to know?”

Ji Feng looked at the cabin door to make sure no one could hear before he said, “Remember what I promised Chief Xiang before?”

Xiang Yongzhan blurted out, “Of course I remember, Laser .....”

His voice came to a screeching halt just as the words were spoken, and the next moment, he looked at Ji Feng with incomparable consternation and asked hesitantly, “Ji Feng, what did you just say? Are you using .....”

“No!”

Ji Feng shook his head and said, “What I used was indeed a nuclear weapon, to be precise, a small laser cannon that used nuclear energy as its energy source!”

Swish!

Xiang Yongzhan’s eyes lit up!

Campus Master Chapter 2764

“Ji Feng, you’ve developed it successfully?!” Xiang Yongzhan asked in surprise.

Ji Feng shook his head and said, “No.”

Xiang Yongzhan was stunned, “No? Then didn’t you just say that ..... that was something! Isn’t it a laser cannon?”

Ji Feng nodded and said, “It’s a laser cannon, well ..... put it this way, technically speaking, the thing I used just now can only be considered a simplified and simplified again version of a laser cannon that can be carried by a single soldier, but it’s only a defective product!”

If he didn’t explain, it was fine, but when he did, Xiang Yongzhan became even more confused: “What the hell does that mean? What’s all this?”

Faintly shaking his head, Ji Feng said, "To put it simply, I haven't developed the laser gun yet, I just thought of using nuclear energy as the energy source in the process of searching for it, and conducted some tests under the guidance of an old professor, but it didn't work!"

"Didn't you succeed here?" Xiang Yongzhan was a little puzzled.

"....."

Ji Feng gave him a look, causing Xiang Yongzhan's old face to redden, as there was a surprising feeling of looking at an idiot in Ji Feng's eyes.

"The energy source needed for a laser cannon is not at all on the same level as a laser gun, do you think that the amount of gunpowder needed in a pistol bullet can be on the same level as the amount of gunpowder in a cannonball?" Ji Feng asked.

"....."

Xiang Yongzhan finally understood somewhat: "You mean to say that you can develop a laser cannon, but not a laser gun?"

Ji Feng nodded and said, "That's right, that's what's happening for now."

"Why?" Xiang Yongzhan didn't quite understand, "Since you can use nuclear energy in a laser cannon, can't you narrow it down a bit and use it in a laser gun?"

The scene of Ji Feng shooting down two planes with two cannons just now really gave Xiang Yongzhan a great stimulation, that majestic look, strong combat power and terrifying might, there was no soldier who was not fascinated by it, and Xiang Yongzhan was likewise no exception.

Ji Feng smiled but hummed and said, "So in your opinion, it's just a matter of shrinking the energy source a bit?"

"What else?" Xiang Yongzhan asked.

"Ugh ....."

Ji Feng couldn't help but shake his head and let out a sigh, with a feeling of hatred.

Xiang Yongzhan's face instantly went up, "Ji Feng!"

"Do you know roughly how big the energy source used for the laser gun is?" Ji Feng asked, not waiting for Xiang Yongzhan to answer, he said, "It's probably only this big ..... almost the size of a matchbox, do you know how big the energy source for the laser gun I used just now is? So big that it was the size of an electric battery, do you think that to take a reactor the size of an electric battery and shrink it down to the size of a matchbox is just a matter of shrinking some portions?"

"Uh ....."

The reactor is not just a matter of reducing its size, but also a matter of how much technology is involved and how many hurdles have to be overcome in order to make the reactor smaller and still react properly and bring out the terrifying power of nuclear energy.

No wonder Ji Feng said he could now make a laser cannon but not a laser gun!

“Then how did you say that this laser gun you’re using, is a defective product?!” Xiang Yongzhan suddenly remembered what Ji Feng had said and couldn’t help but ask.

“Because up until now, I haven’t been able to control the radiation problem of the reactor!” Ji Feng said, “If you can’t even control the radiation, how can others use it?!”

“Radiation?!”

Xiang Yongzhan was stunned at the words, “You still use it when there’s radiation?! Then you .....”

“I’m fine!”

Ji Feng said, “Can’t you see I’ve been wrapped in isolation material!”

Xiang Yongzhan pointed at the black canvas-like thing in the box and asked, “Isolation material? That’s the thing?”

Ji Feng nodded and said, “Without that thing, do you think your bodies can withstand the amount of radiation at the moment of the reactor’s explosion?”

At this moment, Xiang Yongzhan finally understood why he wanted to get closer before, but Ji Feng repeatedly stopped him, but did not say to understand, it turned out that there was strong radiation, but there was the fear of news leaking out or causing unnecessary panic.

“Let’s go, go out for some air!” Ji Feng said.

“Haha! This time the brats lost two fighter planes in the blink of an eye, this is not a light blow to the head!” Xiang Yongzhan couldn’t help but laugh, “I’m afraid they won’t dare to send any more fighter planes here anytime soon, and even if they do, I’m afraid it’s too late!”

But Ji Feng said, “Don’t be so optimistic yet, it’s better to be cautious!”

Xiang Yongzhan laughed and waved his hand, saying, “Don’t worry too much, you’re not a soldier, so you may not know much about the military! You should not underestimate these two fighter planes, no matter for the Philippines or for Vietnam, losing two fighter planes at once is not a trivial matter, moreover, I am afraid that this will make their meat hurt, whether they will send fighter planes over next, I am afraid that they will have to think it over!”

Although he was not too proficient in the military, he knew one thing clearly: if there were more fighter planes coming, I’m afraid it wouldn’t be as easy as it was just now to deal with them.

The laser cannon he brought with him was actually only a defective product, and the number of firings was limited, otherwise the reactor would be unstable and would easily collapse, so there was actually not much left of their defence.

If the enemy sends another fighter over at this time, it might be really troublesome.

In fact, if it wasn’t for the urgency of time, from the time he knew Xiang Yongzhan was in trouble to the time he set out to rescue him, there were less than two days in total in between, Ji Feng wouldn’t have been willing to bring this defective laser cannon.

This was because the reactor was too unstable as an energy source, it was just like carrying an untimely bomb around, which might suddenly explode at any time.

If it was just an ordinary bomb, then at most it would just break an arm or leg, but if this reactor collapsed, when the time came that isolation material might not even be able to protect against it, and once it was irradiated, God knows what kind of mutation the body would produce!

But now, Ji Feng didn't expect that the laser cannon, which was just for emergencies, would really be used, and that it would have a big effect!

The next step was to think about what to do, if not in an emergency, the laser cannon could not be used again!

With his hands behind his back, Ji Feng pondered.

When the other soldiers saw him, they couldn't help but reveal a kind of admiration, just now Ji Feng was really too powerful, one person shot down two warplanes, and only in a split second, this simply had the horror of lifting his hand to move mountains and reclamation.

It is really shocking!

.....

At the same time, Ji Feng was unaware that his worry was, almost, superfluous.

When the footage taken on that warplane was sent back, it immediately caused a huge shock and ripple!

On some island, inside a secret military base!

"What?"

A man dressed in camouflage, very stout and exuding a pugnacious aura, was at the moment looking at the screen in front of him, his face full of shock, his eyes even widened: "This, how is this possible!"

On the screen in front of him, what was being played was precisely the image of Ji Feng crouching on the deck and instantly shooting down two fighter planes.

This image filled the brawny camouflage man's heart with shock and he could hardly believe his eyes, "How is this possible! This is the most advanced fighter plane just purchased from Rice, how could it be shot down so easily? What kind of weapons did they use?"

However, no matter how much he didn't believe it, the two pillars of light in the picture, which were so strong that one could not open one's eyes, showed that this was not an illusion, but real!

"Poof!"

The picture went dark and that was it for the video, which meant that the fighter plane that was filmed had also been shot down.

This left the pugnacious camouflage clad man both shocked and angry.

Two warplanes!

And they were both extremely advanced warplanes, so how could they be shot down so instantly? How could he explain this to his superiors?

Although this tough camouflage man was a pirate leader on the surface, in reality, his real identity was a secret Philippine infiltrator in the southern waters, and this time, he was following orders from his country to hunt down the Chinese special operations brigade.

But what he didn't expect was that the team had already been surrounded, but they escaped and stole one of their ships!

This incident had already made him severely reprimanded from above, and as a result, he requested to send warplanes to chase after them, as there were locating devices on the ship, so it was easy to chase after them, but who would have thought that two advanced warplanes would just ..... be lost!

"Bastards! Damn Chinese, what kind of weapons are they hiding?! How did they become so powerful all of a sudden?!" The camouflaged man couldn't help but curse angrily, just before, he was chasing after the Chinese Special Forces brigade, but now .....

"Boss, should we chase again?" One of his men asked cautiously.

"Chasing my ass!"

The camouflaged man said angrily, "Why should we let the Fijians go after them? It's about time those Vietcong monkeys put in some effort, it's because of them that the Chinese were let go ....."

In fact, he was afraid to apply to the top to send warplanes to chase them again. Although Rice strongly supports the Philippines in order to restrict China, but in reality, the military power of the Philippines is not very strong, two advanced warplanes, it hurts to think about it, if you send them again, in case they are shot down again, then the loss will be too big!

Advanced equipment, means high costs!

"Tell the Vietcong the location of the Chinese special operations brigade and tell them to send their men after them!" The man in camouflage said with hatred, at the same time, he couldn't help but have a bit of a headache, how should he report to the top?

He decided to send the video back first!

However, he had no idea just how much of a shock the footage had caused when it got out!

.....

"Damn it, it's finally almost here!"

On the warship, Xiang Yongzhan looked at the coordinate position and finally couldn't help but curse out.

After nearly two days of sailing since they had robbed the warship, they had finally arrived in the waters of the Treasure Island Strait! This meant that they were once again at China's doorstep!

"Report, there's a ship ahead, the target is suspicious!" Suddenly, a report made the whole ship immediately alert.

Campus Master Chapter 2765

With this report, Xiang Yongzhan immediately became alert, and the rest of the team also stood up in a huff, while grabbing their weapons.

If they were trapped by the enemy at this time, they would really have to fight for their lives – before, in the southern waters, they had also reached their doorstep, only to be blocked by the Philippines and Vietnam in the name of military exercises, with the naval forces of these two countries posing as pirates chasing them!

This kind of suffocation, no one wants to endure it again!

“Go over and take a look!”

Xiang Yongzhan just glanced at the signal on the radar display and said in a deep voice, and then he walked out with big steps.

Ji Feng also couldn't help but frown slightly, on this journey, since taking out the other two warplanes, there was no more movement from Vietnam and the Philippines, and China had even mobilized all the satellites it could to closely monitor all movements in the southern waters, but nothing had come in, apparently there was no special situation.

How could ships suddenly appear ahead?

He pondered for a moment and turned his head to a soldier next to him and said, “Keep a close watch and report immediately if anything happens!”

“Yes!”

The soldier immediately straightened his body and answered loudly.

Ji Feng nodded and walked out as well. When he arrived on the deck, he saw that Xiang Yongzhan was holding up his eyes with two special soldiers, he walked over and asked, “What's the situation?!”

Xiang Yongzhan shook his head and said, “It's not clear yet, look at .....” He pointed ahead.

Ji Feng followed the direction of his finger and saw that in the sea ahead, there seemed to be a ship sailing, he squinted his eyes and looked carefully and said, “This doesn't seem to be a warship, it seems to be just an ordinary ship!”

Xiang Yongzhan froze for a moment, and then he shouted, “Bring the binoculars!”

A soldier had long since prepared the binoculars, and Xiang Yongzhan took them and looked at them carefully for a moment, then put them down and couldn't help but look at Ji Feng with some consternation.

Ji Feng asked, “How is it?”

Xiang Yongzhan said, “Indeed it doesn't look like a warship, it seems to be just a large yacht .....”

What amazed him was that Ji Feng was able to tell that it was not a warship just by standing on the deck and squinting his eyes, this vision was too good, right?

Ji Feng nodded and said, "This is already the Treasure Island Strait, and it's not very far from Treasure Island, so it's not strange for fishing boats and yachts to appear. This yacht, it should belong to the rich and powerful people of Treasure Island or somewhere nearby, I think they are going out to sea for fun!"

As the saying goes, poor people play with cars and rich people play with watches, but in fact, for many rich people, there is another recreational activity that is quite favoured, and that is going out to sea on a yacht.

There are yachts that are not very big, but there are also yachts that are bigger than some small warships, and this one in the distance is quite big, otherwise the people in charge of surveillance would not have been alerted immediately when they saw the radar signal.

And the presence of this yacht here wouldn't be too surprising, after all, it's very close to Treasure Island and there are other islands nearby, it's not uncommon for some rich people to come here on their yachts for fun!

"It's better to be more careful!" Xiang Yongzhan said in a deep voice, "Order everyone, get ready for battle!"

"Yes!"

With Xiang Yongzhan's order, all the people on the entire ship went into battle readiness, Xiang Yongzhan stared at that ship in the distance and said in a deep voice, "It's coming our way!"

Ji Feng nodded, looking at the direction of that ship's movement, it should be coming this way, heading in the same direction as them. And looking at the speed of that boat, it seemed that it wasn't slow.

In about twenty minutes, the two ships could already clearly see each other's outlines, and in a little while, even the people on both decks could see clearly.

At this time, Ji Feng and Xiang Yongzhan also finally saw that on the deck of the yacht on the opposite side, there were two people wearing sunglasses and looking this way.

"Captain, Chief, the other side is signalling to us and wants to get closer!" A soldier said.

"Approaching?!"

Xiang Yongzhan and Ji Feng looked at each other and were both a bit puzzled, the other party was a yacht, while they were a warship, and it was also a warship that could not be seen to have a calendar, there were no markings on it, reasonably speaking when they encountered such a warship, these yachts should have tried to avoid it as far as possible, because in the sea, a warship without markings would probably be a pirate.

But now this yacht not only did not avoid it, but also took the initiative to signal that it wanted to approach, this is really strange!

"When things go wrong, it's a demon!"

Xiang Yongzhan said in a deep voice: "All hands on deck, prepare for battle!"

If the other side was going to lean up, there was a chance that they were not up to any good intentions, so Xiang Yongzhan had to be on guard. When it came to combat literacy and vigilance, the Special Combat Brigade was naturally not bad.

A soldier asked, "Then how should I reply to them?"

Xiang Yongzhan then looked at Ji Feng and said, "Ji Feng, what do you think? Should we fuck him up?!"

Ji Feng slowly shook his head and said, "Better not! There are wounded people wearing them now, and prisoners, if the other side takes advantage of the approach to forcefully board the ship, when the time comes ....."

"That's better!"

Xiang Yongzhan said at once: "As long as the equipment and weapons are not too far behind the other side, just close physical combat, my special combat brigade has never been afraid of anyone! And ..... I'm holding my breath in my heart, if the other side really doesn't have good intentions, then I'll be able to take out this bad breath!"

Ji Feng immediately smiled, nodded and said, "Then good, let them come closer!"

Even Xiang Yongzhan had said so, so Ji Feng naturally could not disagree.

He also knew that the combat power of the Special Combat Brigade naturally went without saying, not to mention whether the other party was really ill-intentioned, even if the enemy's elite special forces, or marines were coming, the Special Combat Brigade was definitely not afraid.

What's more, although this is at sea, if we don't rely on the warship's cannons and only rely on physical combat, the special battle brigade can definitely sweep the other side, invincible!

If that was the case, then let the other side come closer and see what they were up to!

Immediately afterwards, a soldier gave the signal to the other side. Then they saw the other side's yacht slowly approaching the warship.

A few moments later, the two sides were almost close together, so they both stopped moving forward, and that yacht even threw down its anchor and fixed it on, and then surprisingly, it also lowered a small boat from the side of the ship and transported two people over.

"Hullo~"

The men of the special operations brigade were on alert, and the turbine group was even a row of blackened guns pointing at the captives, as long as they dared to make any movement, then the next thing that awaited them would definitely be a cold and merciless bullet!

Ji Feng and Xiang Yongzhan both frowned, they really did not understand what the other side was up to. All they could see was that after the dinghy came over, two people quickly came up, two young men with Asian faces.

"Excuse me, where are you soldiers from?!" Before Xiang Yongzhan could speak to them, one of the young men asked in English.

“Why are you asking this?! What are you people?!” Xiang Yongzhan, also speaking English, asked in a deep voice.

“Oh, it’s like this, we’re from the Treasure Island, and we heard that a great war has broken out in the southern waters, so we want to go and have a look!” The young man said smilingly.

“Take a look?!”

Xiang Yongzhan really did not expect such a reply from the other party, he frowned and said, “See what? What is there to see in a war? Want to see the fun?”

The young man laughed twice, but asked, “May I ask, where are you soldiers from, are you from the Philippines or Vietnam?”

Xiang Yongzhan was a little uncomfortable hearing this and said in a deep voice, “Are there only Filipino and Vietnamese countries here? Couldn’t we be soldiers from China?”

“Soldiers from China?!”

The young man froze, and then he exaggeratedly laughed: “Haha ..... don’t be ridiculous, the Chinese navy can come here? Besides, you are not so much a special warfare brigade, are you? We heard that they are surrounded in the southern waters and are about to be dumpling! I guess you’re either from the Philippines or Vietnam, right?”

When Xiang Yongzhan heard this, his face couldn’t help but sink, and he said in a cold voice, “What exactly is your business, if there’s nothing, then please go back, we don’t have time to waste with you!”

“Please wait a moment! Please wait a moment!”

Another young man hurriedly said, “It’s like this, we, on the other hand, have heard that the special battle brigade of China is being chased like a lost dog, and is now surrounded by people in the southern sea, and is about to be wiped out, so we want to go and take a look!”

His face was smiling, but he didn’t notice that the faces of the several special forces soldiers of the special operations brigade around him had changed slightly, and the eyes that were originally wary had taken on an extra stern look.

Xiang Yongzhan and Ji Feng glanced at each other, both of them had a feeling of absurdity.

“What did he just say?” Xiang Yongzhan asked Ji Feng.

“Didn’t you hear it all?!” Ji Feng said with a wry smile, “People heard that the Special Combat Brigade was being chased like a dog in distress, and now they’re about to be taken out, so they’re rushing to see the fun!”

“.....”

Damn it!

Xiang Yongzhan really want to curse, I asked you, and did not ask you to repeat ah, I do not understand .....

Taking a deep breath, Xiang Yongzhan looked at the young man and asked, "I remember you guys said earlier that you were from Treasure Island, right?"

"Yes!"

The man nodded and said, "I see that the direction you are sailing in must be from the southern waters, right? How's the situation there, has the battle been fought?"

Xiang Yongzhan ignored his question, instead narrowing his eyes, he asked, "Since you are from the Treasure Island, you and China should be one, one glory, one prosperity, one loss, why do I find that you are happy and even as if you would like to see the Special Combat Brigade exterminated by the Filipinos and the Vietcong?"

Even though they had been conversing in English, Xiang Yongzhan's voice had visibly lowered. The words of these two young men really made him a little uncomfortable.

Campus Master Chapter 2766

"You're kidding!"

When that young man heard that, he reacted extremely strongly as if someone had stepped on his tail!

"Who the hell is one with those hillbillies? Those bumpkins can't even learn how to shut the door on their mother's toilet, to be one with them?"

He bristled and said disdainfully, "Cut the ..... I don't give a shit about the special warfare brigade, how can I miss such a big scene when I don't get to meet it once in a while? The actual fact is that you'll be able to get a lot more than just a couple of days to get a lot more than just a couple of days. If you know, please tell us, if not, then we'll say goodbye, and have to rush to see the action!"

"What did you say?!"

When Xiang Yongzhan heard this, his already gloomy face suddenly turned icy cold. His pair of eyes stared at the young man, his gaze blazing.

Ji Feng's gaze was also steeply stern, staring at the young man with a cold expression.

As for those special soldiers of the special battle brigade around them, that was even more so, hearing the young man's words, they were already in a murderous mood.

At this moment, those two young men finally sensed that something was wrong.

When they were angry, the murderous aura and the stern look in their eyes could not be resisted by ordinary people.

Those two young men instantly cackled in their hearts, they realized that it was not good.

"That ....."

One of the young men wanted to smile, but under the gaze of those cold eyes around him, he could not smile, so he could only show a smile that was worse than crying and said, "Everyone, I'm really sorry, we shouldn't have used profanity, we're just used to talking normally, we're sorry, sorry... .."

It turned out that when he saw Xiang Yongzhan and the others sink their faces, he thought it was because he had just said a swear word. In fact, he did not know that after all the words he had just said, those two swear words were the ones that the people present liked to hear the most, as for the rest ..... just by looking at their faces.

After taking a few deep breaths and trying to calm himself down, Xiang Yongzhan looked at the two young men and then at the yacht not far away and asked, "Does this yacht belong to you?"

The two young men immediately shook their heads, "No."

Xiang Yongzhan asked in a deep voice, "Then whose is it? And you guys, tell me honestly and clearly!"

One of the young men said, "May I ask where you are ..... the soldiers?"

He wasn't stupid, and seeing the unkind faces of these people, they realised that they seemed to be in the wrong place, so they couldn't help but ask.

"Now I'm the one asking you guys!"

Xiang Yongzhan's face sank abruptly, "Speak! Otherwise, I'll throw you two off now! And then sink this yacht!"

The two young men were startled and one of them said in a panic, "No! We're from the Bao Clan of Treasure Island, and that yacht has our young master Bao Weisheng on it!"

"The Bao Clan?!"

Xiang Yongzhan frowned, more or less surprised, he didn't expect this boat to belong to the Bao Clan, "You two, who are you from the Bao Clan again?!"

The two young men hesitated once they saw that Xiang Yongzhan had heard of the Bao family. If you think about it, there might be people in the world who don't know about the Bao family, but in Southeast Asia, if you mention the Bao family in Bao Island, there are really not many people who don't know about it.

You know, the Bao family has a good relationship with the President of Bao Island, and they are rich enough to rival the country.

Thinking of this, the two young men's original expressions of incomparable nervousness, which had been frightened, immediately disappeared and were replaced by a hint of arrogance flashing across their faces.

"Of course we are from the Bao Clan, and we are our young master Bao Weisheng's right-hand men!" A young man said very proudly.

"It's the heartthrobs!"

Another young man added from the side.

Xiang Yongzhan nodded and said, "Heartthrobs ..... Then in that case, it is your young master who is going to the southern sea today to see the action, and you are here to spy?"

“That’s right!”

A young man nodded and said, “Our young master heard that the Chinese Special Combat Brigade is going to be taken out, he likes the hustle and bustle, so naturally this kind of scene is impossible to miss!”

Hearing their words, the fury in Xiang Yongzhan’s heart heaved a few more points, but asked without moving, “In that case, your young master is equally keen to see the Special Combat Brigade destroyed?”

“You are not wasting ..... this is not obvious?!” The young man blurted out, originally wanted to say that Xiang Yongzhan was talking nonsense, but suddenly remembered that these people are soldiers, so heavy with the aura of fury, it is better not to mess with, so the words to the edge of the mouth and retracted.

“The company’s main business is to provide a wide range of products and services. If you don’t know, we’ll go back, we have to rush to the southern sea!” The young man was getting a little impatient.

“Heh!”

Xiang Yongzhan nodded and sneered, “Two total lapdogs, indeed! Son line of Zhongshan wolves, when they gain power, they run wild!”

These two men, when they first came on board, were very polite, especially when they later saw that they were angry, they were even more silent and scared to the point that their faces had no human colour left. But when they spoke of the Bao family and were only slightly surprised by themselves, they were suddenly rampant.

Such erratic changes, such attitudes, are really the behaviour of a total villain, which is really disgusting!

But what is even more disgusting is their attitude towards China!

You can’t close the door when you go to the toilet ..... dirtbag .....

These words are no longer just their prejudice against the mainland, they can be said to be a ‘naked’ insult!

Even if the quality of mainland people is poor, even if they are more rustic and uneducated ..... Could it be that they don’t understand such a truth as closing the door in the toilet that even primary school students understand?

This is simply extremely insulting!

However, when those two young men heard Xiang Yongzhan’s words, they instantly changed their faces at the same time and asked, “What do you mean?”

“What do you mean?!”

Xiang Yongzhan laughed coldly, “Aren’t you guys going to the south and still, wanting to see how the Special Combat Brigade was wiped out?”

Those two young men looked at each other, one of them opened his mouth and asked, “So what?!”

“No big deal!”

Xiang Yongzhan sneered and said word for word, “Then I can tell you that we are the Special Combat Brigade, what do you say?!”

Swish!

Those two young men abruptly changed their expressions and exclaimed at the same time, “What?!”

“We haven’t been exterminated, very disappointing for you guys, right?!” Xiang Yongzhan’s eyes flickered with essence, and with a cold face, he angrily said, “I’m sorry for delaying you guys from watching the fun!”

“You, you guys .....” The two young men were dumbfounded, how could they not think that these soldiers in front of them were the Special Combat Brigade of China!

“Throw them both down to me!” Xiang Yongzhan bellowed.

“Yes!”

The special forces soldiers around them responded loudly at once, they had long been listening to the fire in their stomachs, especially when they heard the insults these two bastards had hurled at the mainlanders! If neither Xiang Yongzhan nor Ji Feng had spoken up yet, they would have crushed these two bastards to death!

Now, when they heard the captain’s order, they couldn’t hold back, so they came up with four special forces soldiers, grabbed the two men and threw them off the boat.

“Ah...!”

“Help, ah—!”

The two men shouted in terror and misery, but they didn’t know whether they were frightened or in pain – with their nonsense and insults to the mainland, the four special forces didn’t pay any attention to the severity of their actions, and it would have been merciful if they hadn’t even messed with them a few times in the dark!

“Puff! Puff~”

The next moment, those two men fell into the sea with a miserable scream, splashing two waves.

“Hey! What’s wrong with you guys?!”

At this time, the people on the yacht that was parked not far away, also saw this scene, which seemed to surprise them, and the people on it stood up in a flash, pointing and shouting this way.

Xiang Yongzhan turned his head to look at Ji Feng and said, “Older brother, I can’t help it, what do you say?!”

Ji Feng said indifferently, “Since people think we are all dirtbags for not closing the door when we go to the toilet, then let’s show them dirt!”

“Good!”

Xiang Yongzhan heard this and immediately drank, "Did you all hear that?"

"Yes!"

All the special forces on the deck roared at the same time.

Xiang Yongzhan asked, "Then what are we waiting for?"

"Go!"

Having received permission from Xiang Yongzhan, the next moment, the few special forces soldiers instantly rushed out.

Xiang Yongzhan's face was gloomy as he looked at the yacht on the opposite side with a look of anger in his eyes. He was not only angry because he had been insulted, but if it was just an insult, he would not really care, let alone be so insensitive!

What really made Xiang Yongzhan feel angry was the identity of these people!

They are still Chinese at heart.

They were still Chinese at heart!

Yet, when they heard that the Chinese special operations brigade was about to be wiped out, instead of feeling desolate that a rabbit had died, they were gloating and even rushing to watch the fun!

It seemed that the Mainland was more of an enemy than an enemy in their eyes!

This is what made Xiang Yongzhan most furious!

So, he couldn't stand it anymore. Well, I'll send you there! Since you don't take us seriously and even look at us with such hostility, thinking that we are dirt bags, then we will show you dirt!

At Xiang Yongzhan's command, several special forces soldiers leapt out long ago, then quickly slid down the range ropes and rushed towards the yacht on the opposite side in the dinghy.

"Quick! Back up quickly!"

At this time, even the most stupid people on the opposite side knew that something was wrong, especially when they saw a few soldiers actually rushing towards them, they even shouted in panic!

Campus Master Chapter 2767

However, the yacht had already dropped its anchor, so how could it leave quickly now?

It was only a matter of moments before the special forces rushed up, and several people on the yacht seemed to think that they had been kidnapped or robbed or something like that, so they rushed out a few men dressed in black and took out pistols from their arms and were about to shoot at the special forces climbing up from below!

"Damn it!"

Xiang Yongzhan instantly cursed angrily.

Without saying a word, Ji Feng directly raised his rifle, turned around, aimed, and pulled the trigger!

Boom~!

A man dressed in black was instantly shot through the wrist, and the pistol in his hand fell down into the sea at once. When the others saw that their companion's wrist had been shot through, they instinctively crouched down to dodge. Ji Feng saw clearly that two of the men in black clothes grabbed a young man in a white suit and pinned him down.

Bao Weisheng!

Ji Feng's eyes narrowed slightly, even though he was still some distance away, he instantly recognised the young man in the white suit, who was the heir of the Bao family in Bao Island, Bao Weisheng, whom he had met twice before and even had a brief encounter with once!

But he didn't expect that the two would meet again under such circumstances!

While the other man was dodging, a few special forces soldiers had already boarded the yacht. Although the men in black were equally powerful, they were clearly not enough in front of the special forces soldiers, especially when the special forces soldiers had more powerful weapons than the men in black!

In just a few minutes, the men in black were under control, and the Special Operations Brigade warriors made a few hand gestures, signalling that everything was safe!

Xiang Yongzhan turned his head and said: "Ji Feng, let's go, let's go over and meet people from the upper class! Let's see how people close their doors when they go to the toilet!"

Ji Feng nodded slightly and said, "Let's go!"

"Help! Help—!"

Those two men who were thrown into the sea before were the ones who kept struggling in the seawater, fluttering hard, but the movement was getting smaller and smaller.

When Xiang Yongzhan and Ji Feng passed by in their dinghy, Xiang Yongzhan couldn't help but snort coldly, and Ji Feng said, "Pull them up, just two lapdogs, why bother with them!"

Of course Xiang Yongzhan didn't want them dead, otherwise he would have just finished them off, why bother throwing them overboard!

When those two guys were pulled up, their faces were all pale. They didn't even dare to look at Yong Zhan and Ji Feng, they could only hold their arms, shivering while they kept saying, "Thank you thank you thank you ....."

"Dare not!"

Xiang Yongzhan sneered, "How can us bumpkins afford your thanks?!"

Those two people immediately did not dare to speak.

Once they got to the side of the yacht, Xiang Yongzhan and Ji Feng quickly got on the yacht, but those two people looked at each other and both wanted to cry.

“Pop!”

Ji Feng and Xiang Yongzhan jumped down from the side of the boat and landed on the deck. At this time, they could see clearly that there were six or seven people on the deck, among them were two young men, one of them was none other than Bao Weisheng, whom Ji Feng knew, and the other was a young man dressed in the same gorgeous clothes, but Ji Feng had not seen him.

The rest, there were five men dressed in black, but they were all subdued, one of them was still covering his wrist, the one who was shot through the wrist by Ji Feng before.

These few men in black were bodyguards at first glance, so Ji Feng and Xiang Yongzheng’s gaze did not linger on them for too long before moving to Bao Weisheng and the other young man.

At this moment, both of them were pinned to the ground, and their faces were even being stomped on by military boots, they were in a mess!

“Who the fuck are you people?! How dare you kidnap us! Do you know who we are?” As soon as Xiang Yongzhan and Ji Feng got close, the gorgeously dressed young man cursed, “Hurry up and let us go, or else I guarantee you’ll die a horrible death!”

“Yoo-hoo?!”

Xiang Yongzhan snorted, “So many countries attacking in secret and the revenge of the mercenary corps didn’t kill me, but you, on the other hand, can make me die a miserable death!?”

“It seems you still don’t know what we are, right?!” The young man sneered, “I tell you, if we want to, any mercenary group in the world will work for us, then you will be endlessly hunted, even if you run to the ends of the earth!”

“I won’t run to the ends of the earth, I’m right here in China!”

Xiang Yongzhan said in a deep voice, “If those mercenary groups dare to come, I’ll destroy them again as usual! But you guys, I heard that you are planning to go to the southern sea to watch the fun?”

“So what if you are?”

The young man said nonchalantly, “Do you hear me? Let us go, no one has ever dared to trample me on the ground! Hurry up! Don’t do something you’ll regret!”

Xiang Yongzhan shook his head and said in a deep voice, “Do you guys want to see the Special Combat Brigade in action so badly?”

“Let go of me!”

The young man roared, “Or else I’ll get back at you, I’ll do what I say!”

“Listen to him!”

At this time, Bao Weisheng, who was trampled on the ground, also spoke, his voice carried an undisguised arrogance, “No matter what you are or where you are from, don’t make any more mistakes now, it won’t do you any good!”

Xiang Yongzhan laughed coldly at his words, "What a big mouth! I'd like to see what you have to fall back on to be so rampant!"

He waved his hand, and the two of them were immediately pulled up by Bao Weisheng.

"Slow down, do you know how much this suit of mine costs? You can't even afford to pay for it if you are sold!" The young man was pulled up, yet he was still cursing and swearing.

"Be honest!"

The soldier next to him kicked him, he didn't care who he was.

The young man's face was instantly distorted by the kick, and he sucked in a breath of cold air: "You ....."

"If you don't be honest again, it won't be a matter of one kick!" The warrior said coldly.

"....."

The young man gritted his teeth, but did not speak again. He knew that it was useless to say anything to these soldiers now, if he carried on to the end, at least it would be himself who would suffer now.

He secretly hated in his heart, just wait, no matter who you are, as long as I dodge this hurdle, I will make you regret it, for sure!

Meanwhile, Bao Weisheng was similarly blue in the face, no one had really treated him like this since he was a child, but today he was being trampled underfoot!

But he was different from the other young man, he didn't shout, let alone make threats, he just straightened his clothes.

There were some things that it was better to keep in mind than to say them out loud.

However, when he raised his head and his gaze fell on a person, he steepled his eyes and shrank violently: "Ji Feng?!"

From the moment he got on board, Ji Feng had been paying attention to Bao Weisheng, and when he saw Bao Weisheng's reaction, he couldn't help but narrow his eyes slightly, this person, wasn't as simple as an ordinary dude!

At least compared to the average dude, just compared to the young man next to him, Bao Weisheng all seemed much deeper and more calculating!

"It's me!"

Ji Feng nodded slightly and smiled, "I didn't expect to meet under such circumstances!"

Bao Weisheng's eyes instantly revealed a glint of essence and said, "It seems that old brother is trying to give me a very profound reunion!"

Ji Feng shook his head indifferently, he knew that Bao Weisheng had misunderstood, thinking that he knew he was on board and so he had deliberately brought someone to embarrass him. In this regard, Ji

Feng didn't explain, and he didn't bother to explain, because even if he did, Bao Weisheng would definitely not believe him.

This was a very confident, one might even say conceited person!

Although he hadn't been in contact with Bao Weisheng for long, Ji Feng knew him more or less and could tell!

"Are you guys going to watch the fun?!" Ji Feng asked.

"Yes and so what?!"

Before Bao Weisheng could say anything, the young man next to him immediately cursed angrily, "Fuck, who the hell are you people, what the hell are you up to, all of you get the hell down ....."

Ji Feng, however, ignored him, just stared at Bao Weisheng and asked, "Did the Special Combat Brigade offend you?"

"Kid, what are you chattering about!" The young man said angrily, "What the hell is a special warfare brigade, I'm just going to go over there and watch the fun. It's none of our business if the special operations brigade is killed! ....."

"Jian Yun! Cut the crap!" Bao Weisheng said with a frown.

"Very well!"

Xiang Yongzhan smiled angrily at his words, and he snapped his head around to look at a soldier next to the young man and said, "Shut him up!"

The soldier instantly responded, "Yes!"

"What do you want?" The young man's face sank, "You guys ....."

"Snap!"

Before he could finish his words, he was instantly interrupted by a loud slap, and the next moment, that warrior flung several slaps in succession, "Slap~Slap!"

The warrior didn't show any mercy when he slapped him, and with his strength, how could the young man stand it?

After a few slaps, the young man was already screaming and rolling back and forth on the deck!

Bao Weisheng said angrily, "That's enough!"

"Boom~"

The warrior, however, responded directly to him with a kick, which landed directly on the young man's body, sending him rolling to the side.

Bao Weisheng's face turned blue: "Good! Good! Ji Feng, you have guts! I'll write down this account!"

Ji Feng slowly shook his head, it didn't matter to him that Bao Weisheng had put this debt on his head. In fact, if Xiang Yongzhan didn't say anything, he was going to let that warrior do it, just for what they said before, they deserved to be beaten!

"You don't remember a thing!"

Xiang Yongzhan, however, snorted coldly and said, "I still have to settle accounts with you guys!"

Bao Weisheng smiled and looked at him coldly, saying, "What accounts do you want to settle? If I remember correctly, you guys were the ones who provoked us in the first place, where did we go wrong from the beginning to the end?!"

"If I tell you that they are the special combat brigade that you are bent on watching, and this one standing in front of you is the special combat brigade's first lieutenant Xiang Yongzhan ..... do you still think that you are not wrong?!"

Ji Feng asked with a sneer.

In an instant, Bao Weisheng's face changed!

Campus Master Chapter 2768

"If I tell you that they are the special combat brigade that you are bent on watching, and this one standing in front of you is the special combat brigade's first lieutenant Xiang Yongzhan ..... do you still think that you are right?!"

Ji Feng asked with a sneer.

In an instant, Bao Weisheng's face changed!

"Special Warfare Brigade?!" Bao Weisheng looked at Ji Feng, and then at Xiang Yongzhan, and couldn't help but be stunned, with a look of disbelief in his eyes, "You guys, you guys are really a special warfare brigade? Not that ....."

"We are surrounded by people in the southern sea and will be wiped out at any moment, so how come we are here, right?" Xiang Yongzhan interjected and asked.

Bao Weisheng then fell silent, and he suddenly realized that things were in trouble today!

At this moment he couldn't help but regret a little, how could he have thought of asking them for directions, God knows what kind of evil this had rushed into, this was asking no one else, the very person they were going to go to see!

Especially since his purpose was known to the Special Operations Brigade!

This is a real problem!

No matter who you were, if you were in great trouble and could even be killed at any time, and you happened to pass by someone who asked you about the situation, and was prepared to watch you laugh, I'm afraid you would be extremely angry in your heart. If they had been a little grumpier, they would have flipped out on the spot!

What's more, right now they were running into the Special Operations Brigade!

What could be more impulsive than a soldier's temper? These stupid soldiers, they don't care who you are!

Bao Weisheng's mind was turning rapidly, and a series of thoughts flashed through his mind, trying to find a suitable response, he knew that if he didn't respond well today, things would be a bit troublesome.

Of course, the trouble will certainly not be too big, after all, he is a treasure islander, not a mainlander, the special warfare brigade, no matter how bullish, that is only in the mainland, also do not dare to do anything to him, not to mention that he is also the heir of the Bao family, just this identity, the special warfare brigade will definitely have to scorn a few!

"This ..... Xiang Yongzhan brigade captain is it?"

As his mind raced, a smile appeared on Bao Weisheng's face as he said, "I'm sorry, perhaps our behavior was a bit inappropriate, here, I apologize to you all ....."

Before he could finish his words he was interrupted by Xiang Yongzhan, "What's not appropriate, tell us?!"

Bao Weisheng then couldn't help but choke, he couldn't help but say, we went over this time just to watch your hilarity and go gloat! If he said that, I'm afraid this Xiang Yongzhan in front of him would definitely flip out with him on the spot.

Although through Ji Feng's words just now, Bao Weisheng understood that they must already know what exactly they and the others were going to the southern sea for, but it was one thing to know, it was another to say it from his own mouth in front of their faces. This was a matter of face and steps.

Bao Weisheng smiled faintly and said, "Captain Xiang, how about this, my Bao family still has some influence in Bao Island, maybe nothing else, but we can still come up with some supplies and materials, I see that you all came from the southern waters, you must not have brought many supplies with you, right? We can provide some ....."

"I'm asking you where it's not appropriate!" Xiang Yongzhan interrupted coldly, his eyes shining sharply as he stared at Bao Weisheng and asked.

"....."

Bao Weisheng then couldn't help but have a sinking heart, some trouble, looking at this attitude of Xiang Yongzhan, it seems not very good to solve.

He said squarely, "Captain Xiang, why do you need to ask knowingly?"

"Yoo-hoo! You're still reasonable?!"

Xiang Yongzhan suddenly gave a cold laugh, and the cold light in his eyes intensified, "In that case, what those two men of yours said is true?"

Of course Bao Weisheng couldn't admit it, he smiled and said, "Captain Xiang, I don't know what my two untalented men have told you, but whatever happened, I think they must be more responsible, this is my poor discipline, I apologize to you ..... Let's do it this way, now I don't have anything around me I don't have anything to show for it, so when we return, I will definitely have an amends gift to send!"

"Reparation gift?"

Xiang Yongzhan frowned and asked.

When Bao Weisheng smiled at his words, he instantly revealed a smile and nodded, "That's right, I guarantee that it will satisfy Captain Xiang!"

"Pa!"

The next moment, a loud slap was slapped hard on Bao Weisheng's face, instantly sending him stumbling and almost sitting on his butt on the ground, but he was yanked by the two special forces soldiers, which prevented him from falling down.

However, Bao Weisheng was dumbfounded by the blow.

He froze and touched the face where he had been hit, as if he could not believe that it was true, that he had been hit?

In a flash, Bao Weisheng's face turned red as he jerked his head up to stare at Xiang Yongzhan, a grim glint in his eyes, "Captain Xiang, do you know what you are doing?!"

Xiang Yongzhan's eyes narrowed as a cold light flashed, "How dare you talk tough?!"

"Slap!"

Another slap across the face!

This time, Bao Weisheng was directly backed up, tripped over a recliner behind him and fell to the ground. "I'll let you talk tough! Don't you want to see what's going on? Now you can watch it!"

Bao Weisheng kept muffling his words, gritting his teeth but not letting out a scream, just holding his head with his hands and curling his legs as he rolled around from kick to kick.

"You guys, you stop!"

This scene stunned another young man, who shouted, "Do you know who he is? He's the heir of the Bao family on Treasure Island, you guys dare to hit him, you're dead!"

"Slap!"

The young man's response was a vicious slap from a special forces soldier next to him, and the young man was instantly dumbfounded. After that, there was a heart-breaking, miserable scream!

Ji Feng looked on and couldn't help but shake his head, but there wasn't the slightest bit of sympathy in his eyes.

These two were obviously extremely arrogant princes, relying on their family's wealth and power, they were not even afraid of the soldiers rushing onto the ship, and even threatened, threatening to invite

mercenaries from all over the world to avenge their deaths ..... It can be seen to what extent they were really arrogant!

However, this Bao Weisheng still has some brains and can see that things are not right, but he never knew that the real reason why he was beaten up was not because of his arrogance and previous rudeness, but because, also being a Chinese, he was not only extremely insulting to the mainlanders, but at the same time was in a hurry to see the destruction of the special operations brigade!

This was what really angered Xiang Yongzhan, and what Bao Weisheng really deserved to fight!

For such a person, Ji Feng would not give half a bit of sympathy!

However, Bao Weisheng's performance was more or less surprising to Ji Feng, looking at that young man, being beaten up and screaming miserably, he was no different from a lowlife!

But looking at Bao Weisheng, although he was also beaten and could not stop screaming, he did not let himself scream out.

He's quite a character!

But the more he is like this, the more he deserves to be beaten!

This is the kind of person who has the background and the power, who is capable, but who insults and belittles the mainland so much, and the effect he has is even worse.

Don't you like to insult people and your mouth is not cheap?

Well then, I'll let my fists and slaps respond to you and let you know that for every time your mouth is bitchy, your face will be slapped and swollen, and even your mouth will be torn apart!

I'll see just how long you can stay hard!

"Stop fighting ..... Well ..... really want to kill someone, huh?" Bao Weisheng was being stepped on by Xiang Yongzhan, with a painful voice, low yell.

"Kid, still tough-mouthed, are you?"

Xiang Yongzhan let out a fierce laugh, "You think, if I do away with all of you now and throw you into the sea, what can you do to me? What can your families do to me?"

Bao Weisheng winced abruptly!

He sensed a strong murderous intent in these words of Xiang Yongzhan, and he was instantly appalled ..... this son of a bitch, he really wanted to kill himself!

Bao Weisheng came to his senses abruptly and recognized the situation in front of him – if the special operations brigade really did away with himself and the others now and threw them into the sea, by then he and the others would be buried directly in the belly of the fish, who would know? Even if the family finally investigated clearly, but God knows what could be done to Xiang Yongzhan?

In this instant, Bao Weisheng suddenly felt a thick chill, and he was even thinking that originally, on the basis of the different systems on both sides, he was not at all afraid to state his position, that is, to look down on the mainland, and even if the other side knew, they could not do anything to themselves.

But if this was thought of the other way round, if Xiang Yongzhan got himself killed, how much could Xiang Yongzhan be held responsible even if this side of Treasure Island knew about it?

“I was wrong! I’m sorry!”

Bao Weisheng immediately shouted, “Captain Xiang, I was wrong, please forgive me ..... beg you to spare me!”

Ji Feng immediately frowned at his words, this Bao Weisheng, he was really something!

He could really put down his stance so easily and shout on the spot to apologize and beg for forgiveness, completely disregarding his face, it can be seen that this person is definitely able to bend and stretch!

At this moment, Ji Feng attached great importance to this Bao Weisheng. Originally, he only thought that Bao Weisheng only came from a better background, and because he had seen a lot of things when he was growing up, he naturally appeared to be more outstanding than others.

But now, it seems that he had underestimated him before!

However, Ji Feng only took it to heart, after all, he thought that he might not have many opportunities to deal with Bao Weisheng in the future, and with such a relationship between them, it was naturally impossible for them to have any more encounters, unless Bao Weisheng came over to take revenge!

“Humph!”

Xiang Yongzhan coldly snorted and waved his hand, and the soldiers next to him also stopped their hands. Of course, Xiang Yongzhan did not want to really beat Bao Weisheng to death, after all, the Bao family was really influential in Bao Island, and he could not possibly affect the relationship between the two sides because of his actions.

The reason he hit Bao Weisheng was because he was so angry that he struck out in a fit of rage!

Bao Weisheng and that young man went limp on the ground, uttering in pain, but they no longer dared to have a half-hearted arrogant stance!

Campus Master Chapter 2769

Looking at Bao Weisheng and the young man who were limp on the deck, moaning in pain, Xiang Yongzhan’s eyes were icy cold.

If he could, he really wanted to kick these two bastards to death!

But after all, the Bao family’s influence on Treasure Island was so great that Xiang Yongzhan could not do that. However, these two people dared to think of running to see how the Special Combat Brigade was destroyed, and even their words were full of insults, which Xiang Yongzhan could never tolerate.

“No matter how unbearable the Special Combat Brigade is, it is not something you can insult!”

Xiang Yongzhan said coldly, "No matter how unbearable the Mainland is, it is not something you can insult with impunity! Remember these two words of mine, it will do you good!"

Bao Weisheng and the young man whimpered, the beating they had just received was not light, and with their stature, they were lucky to be able to resist, so they had no strength to reply.

However, Xiang Yongzhan shouted coldly, "Did you hear me!"

"Listen, I hear you ....."

The young man answered in a panic, and Bao Weisheng also said, "Remember, yes, sorry, it was our mistake!"

Only then did Xiang Yongzhan give a cold snort.

Ji Feng couldn't help but secretly shake his head as he watched, some people, just don't know how powerful they are! If you don't teach them some lessons, they will always think you are weak and bullyable, not just Bao Weisheng and that young man, but likewise those countries that constantly bounce around China, and certain political figures in some countries that constantly bounce around like clowns all day long for the sake of their masters.

This time, the Special Combat Brigade went abroad to fight and struck hard to beat that mercenary regiment, just to make them understand this truth. Now, even a mercenary regiment has been destroyed, and these two young men are still talking shamelessly here, they simply don't know how to live or die!

"Remember, the person who beat you up is called Xiang Yongzhan!"

Xiang Yongzhan said coldly, "If you want revenge in the future, just come directly to me, no matter what means you have, I'll take it!"

Bao Weisheng and the young man said repeatedly that they didn't dare.

However, Xiang Yongzhan was not afraid, if he was even afraid of the revenge of the two playboys, he would not be the captain of the special operations brigade.

After a cold look at them, Xiang Yongzhan snorted again and waved his hand: "Go back!"

The special forces soldiers neatly and quickly retreated in formation, leaving only the two arrogant gentry lying on the deck in a wretched state, grunting and moaning in pain.

"Eh?!"

Just as he was about to leave, Ji Feng suddenly glanced at something out of the corner of his eye, and he jerked to a halt and said, "Wait!"

Xiang Yongzhan immediately stopped in his tracks and asked, "What's wrong?"

"Wait for me!"

Ji Feng didn't say much, but walked forward quickly.

Not far ahead of him, that was a mess, originally there was a small table as well as two reclining chairs set up here, a place for Bao Weisheng and that young man to relax, but just now it was knocked over by them and everything on the table was spilled all over the place.

The thing that Ji Feng saw was in the middle of that mess.

He took a few steps to the front and picked it up from the ground, finding that it was a small stone, about the size of an adult's fist, looking somewhat black but glowing with a crystal luster.

When Ji Feng lifted the stone up and looked at it against the light, he could notice the luster of several bits of the stone. If the colour was darker and more intense, people who didn't know would have mistaken it for a black gemstone, I'm afraid.

After looking at it for a moment, the expression on Ji Feng's face gelled, with a touch of excitement in his eyes.

"Wise Brain, quickly see what this is!" Ji Feng called out to Wisdom Brain in his mind.

"Master, what is it?" Wisdom Brain responded.

Ji Feng held the black stone closer to himself and said to Wisdom Brain in his mind, "Wisdom Brain, take a quick look, it seems to be an Alpha Ore!"

His heart was vaguely expecting something, this stone was too similar to the characteristics of Alpha Ore, whether from the colour, shape or crystallinity, it looked like Alpha Ore.

The only thing that prevented Ji Feng from confirming it was that he couldn't test on the spot if the stone was radioactive, if it was, he could almost confirm on the spot that it was Alpha Ore!

But now, he could only let the intelligent brain identify it.

Through Ji Feng's eyes, the intelligent brain could see what Ji Feng was seeing, and a moment later, the intelligent brain said, "Master, this is Alpha Ore, and it's of high purity, and based on the appearance characteristics, it's presumed that this has reached the excellent level!"

"Really?!"

Ji Feng was overjoyed when he heard that and asked excitedly, "Wisdom Brain, is this really Alpha Ore?!"

The intelligent brain said, "Yes, master, this is alpha ore."

It naturally could not understand Ji Feng's excitement at this moment, so it answered without any emotional fluctuations and was very sure.

"Beautiful!"

Ji Feng couldn't help but shout out in his heart, this was really something that he had stepped through iron shoes and found without any effort! He had asked many people and even thought of various ways to find this alpha ore, but there was no news, and he even doubted for a while whether this ore existed on Earth or not, after all, what the intelligent brain said was material from the Gamma system, and

although both Earth and the Gamma system were similar in terms of the development of human civilization, they were not on the same planet after all, and the ore contained might not be the same.

It was for this reason that Ji Feng began to study how to use nuclear energy to replace alpha ore, and for this reason he even went to the United University to consult the old professor who had an extremely deep study in nuclear physics!

However, Ji Feng could never have imagined that just when he was about to give up, he would inadvertently find a piece of alpha ore here!

This was really an unexpected pleasure!

It took a while for Ji Feng's excitement to calm down, but he couldn't hold back the joy in his heart.

Alpha Ore!

This was too significant for Ji Feng, and even for the whole of China!

With the Alpha Ore, Ji Feng would not only be able to make laser guns, but even small laser cannons!

This was definitely no less significant than using a nuclear reaction to create a nuclear bomb on the spot!

"Phew~"

Ji Feng took two deep breaths to calm himself down, as he examined the black stone, really liking it more and more the more he looked at it.

"Is this ore highly radioactive?"

Only after he calmed down did Ji Feng start to consider the rest and asked.

The intelligent brain said, "Master, the alpha ore is slightly radioactive, and according to the physique of earthlings, the radioactivity of the alpha ore will not be harmful to the human body."

Ji Feng asked, "What about this piece of ore?"

Ji Feng certainly knew what this meant, the excellent level meant that the purity of the ore was extremely high, and the higher the purity, the stronger the radioactivity it might have.

The intelligent brain said, "Master, the characteristics of the alpha ore determine that it will not be too radioactive."

Ji Feng then understood that what the intelligent brain meant was that even if the alpha ore was even purer, it would not cause any harm to the human body, in fact, it was like the x-ray used in hospitals, in fact, that was also something that was radioactive, but, slightly radioactive, it would not cause too much harm to people.

The radioactivity of the alpha ore, on the other hand, was even weaker than the x-ray, and according to Ji Feng's understanding, it should be the mildest of all the energy sources that could create a laser gun.

This was good news, at least for the past few days, nothing could be better than this news!

“Ji Feng, what are you looking at? What is this thing?!” Xiang Yongzhan’s voice pulled Ji Feng’s thoughts back to reality, and seeing Ji Feng alone holding a black object there, Xiang Yongzhan couldn’t help but be a little puzzled.

“Good stuff!”

Ji Feng said with a smile on his face, “At least for me, it’s good stuff! It’s the same for you!”

Xiang Yongzhan was stunned, “What kind of good stuff is this?”

“Phew~”

Ji Feng exhaled a deep breath of turbid air and did not answer Xiang Yongzhan’s words, but turned to Bao Weisheng and the young man, held the black stone and asked, “You two, where did this stone come from?”

At this moment, Bao Weisheng and the young man had more or less recovered, or at least the severe pain they had just been beaten with had lessened a little. Hearing Ji Feng’s question, the two of them looked up at the stone in his hand and shook their heads at the same time.

Ji Feng frowned: “What do you mean?!”

Bao Weisheng said, “I bought this from a fisherman’s hand, I saw that it looked a bit like coal, but after studying it carefully I realised that it was not coal, but a stone of some kind.”

Coming from the Bao family, Bao Weisheng was a very resourceful person. When he was out at sea, he happened to meet a fisherman returning from fishing near the pier, and seeing him with this in his hand, Bao Weisheng immediately thought it was something the fisherman had gotten from the sea, and he thought at first that it was something else good, but after looking at it, he thought it looked like coal again, and when his heart was moved, he offered money for it.

According to his thinking, whether it was ore or coal, as long as it had value, then he could invest in its development, but when he studied it for a while on the boat, he found that it was not coal at all, nor did it look like any ore. He immediately lost interest and casually put it on the table, ready to bring it to the experts for a look when he returned.

He didn’t expect that before they had time to go to the southern sea, they would encounter the Special Combat Brigade, and they were also stupid enough to receive a severe beating, which was really seeing a ghost in broad daylight.

If Ji Feng hadn’t mentioned it, he would have almost forgotten about it.

“So, you don’t know where this thing came from either?” Ji Feng’s heart sank and he asked with a frown.

Campus Master Chapter 2770

“I don’t know.”

Bao Weisheng shook his head and said, “Maybe that fisherman knows.”

He explained that although he thought it was something good at the time, he didn’t show anything different when he bought it from that fisherman’s hand at that time, and in order to avoid that

fisherman's suspicion, he only pretended to be slightly interested in it without being too particular about it.

Ji Feng's brow was furrowed and his eyes were fixed on Bao Weisheng, as if he wanted to see from his expression whether his words were true or not.

But Bao Weisheng was acting very truthful, with some vague expectation in his eyes, as if he wanted Ji Feng to believe what he said.

"What you said ..... is all true?!" Ji Feng asked in a deep voice.

"It's true, it's just such a small thing, there's really no need for me to lie to you!" Bao Weisheng said.

Ji Feng slowly nodded, no matter whether what Bao Weisheng said was true or not, he had no way to confirm it now, unless he was able to use bio-current to simulate neurotoxin and inject it into Bao Weisheng's body, but then Bao Weisheng would also become an idiot, and with Bao Weisheng's status, this would undoubtedly cause no small impact.

If it could be confirmed that Bao Weisheng really knew the source of the Alpha Ore, then he would not let Bao Weisheng off so easily.

However, this does not mean that Ji Feng will believe Bao Weisheng so easily, this person's cunning, Ji Feng is seen, this is also considered a person, but the more such a person, may be the more will not easily tell the truth to people.

So Ji Feng then gave a wink to Xiang Yongzhan, who immediately nodded knowingly, then waved his hand and said in a deep voice, "Ask the people below, see if they know!"

A special soldier immediately nodded, after they had rushed up just now, someone had already rushed into the cabin and taken control of the whole yacht, and at the moment there were soldiers below controlling the people who were driving the boat, and it was those who were responsible for driving the boat that Xiang Yongzhan wanted to ask.

Bao Weisheng had not communicated with them beforehand, and if they had known, then they would not have been able to conspire with Xiang Yongzhan.

At the same time, Ji Feng's gaze fell on the two men who were first thrown into the sea, these two men were completely bluffing and foxing, perhaps from their mouths, they could get some different information.

Xiang Yongzhan nodded slightly and immediately let the men walk over.

Those two were originally dripping wet, and when they saw that both Bao Weisheng and the young man had been beaten up by this group of wolf-like special forces, they immediately went down shivering, but were huddled in a corner not daring to move with the black muzzle of a special forces soldier pointing at them, and were immediately terrified when they saw that someone else was walking towards them.

"No, it's none of our business, you, what are you doing?!"

"You, don't you mess around ....."

Seeing that special soldier grabbed towards them with one hand, those two people were so scared that they almost lost their souls, and before that special soldier even touched them, they immediately screamed in miserable misery.

“Shut up!”

The special soldier’s eyes glared and he shouted coldly, and at once, the two men’s miserable screams stopped abruptly, only to snuggle together in fear and panic to the extreme.

But then, they were taken by the collar and brought to Xiang Yongzhan with weak hands and feet.

Xiang Yongzhan immediately said, “Take them aside and ask them nicely, if they dare not tell the truth, they will be shot!”

“Yes!” The special forces soldier shouted in response.

“Ah?!”

The two men were so scared that their livers trembled and they looked at each other, their faces pale.

They were then taken to the other side of the deck and began to be carefully questioned, especially, with that gun pointing in front of them, so that they couldn’t help but be frightened.

Ji Feng didn’t say anything, this kind of thing can’t be said to be easy for the special combat brigade to do, but it definitely won’t be difficult.

The only thing he cared about now was where the alpha ore came from and whether Bao Weisheng knew the origin of the alpha ore or not, there was nothing more important than that now!

He couldn’t believe Bao Weisheng’s words, so he could only look for a breakthrough from the others. Ji Feng didn’t believe that everyone else was as cunning as Bao Weisheng, or as bold as he was.

In the meantime, he had been staring at Bao Weisheng, but he saw that this man’s eyes were vaguely obscure, seemingly more or less uneasy and slightly resigned.

Ji Feng then couldn’t help but feel a twitch in his heart, it seemed that this Bao Weisheng seemed to be a bit tongue-tied!

Not only did he see it, but Xiang Yongzhan likewise noticed it, so he walked over and wanted to interrogate those two guys personally.

A few moments later, Xiang Yongzhan came back, and when he saw his face, Ji Feng knew that his guess was probably true, and that Bao Weisheng should have really lied.

As expected, he saw Xiang Yongzhan look at Bao Weisheng and said in a cold voice, “It seems that that lesson just now wasn’t enough for you, right?”

Bao Weisheng’s face changed slightly and he said, “I don’t know what you’re talking about!”

Xiang Yongzhan snorted coldly and glared at him, but did not say more to him, but turned and gave a wink to Ji Feng, who immediately understood and walked with him to the side, asking in a low voice, “How is it?”

Xiang Yongzhan said, "That guy is lying, he knows where this thing came from."

"I knew it!"

Ji Feng snorted coldly and asked again, "Did you ask where it came from then?"

Xiang Yongzhan said without moving his voice, "No! Those two guys said that Bao Weisheng did buy it from a fisherman. At that time, he said something to the fisherman, but the others were some distance away and didn't hear it clearly, but after he bought it, Bao Weisheng said that he would send it to their family group's research institute for research later."

Ji Feng asked, "And then what?"

"Next is the point!" Xiang Yongzhan whispered, "One of the guys explained that Bao Weisheng said to himself at that time, estimating that this small piece could not be researched, and if it was really valuable, he would go and mine some more when the time came ....."

Swish!

Ji Feng's eyes lit up steeply, indeed!

Bao Weisheng knew where this came from, and, most likely, he really knew where the alpha ore came from, or rather, where it was stored.

"This son of a bitch, his mouth is very strict at the moment!" Xiang Yongzhan couldn't help but curse, "He doesn't even know what it is yet, and his mouth is so tight!"

"That's because he saw that I was interested in this thing, so he thought it might be worth a lot of money!" Ji Feng said in a deep voice, he knew that he was not too calm just now, he could even say that he had lost his temper a bit, he rarely lost his temper, but this time when he saw the Alpha Ore, he was not able to control himself.

As a result, he let Bao Weisheng see the flaw. Speaking of which, this guy was really something, just by looking at it, he was able to immediately round up such a lie, and the key was that he was also telling half-truths, so it was easy to muddle through.

"This son of a bitch is really cunning!" Xiang Yongzhan cursed, and then he asked in a low voice, "Ji Feng, what exactly is this thing? Is it very important to you?"

"Very important!" Ji Feng said calmly, he didn't tell Xiang Yongzhan exactly what this black stone was, otherwise, Xiang Yongzhan certainly couldn't control his excitement either, and then if Bao Weisheng saw it, he would definitely be more convinced that it was something good.

Although Ji Feng didn't say it clearly, Xiang Yongzhan understood what he meant and said, "Then I'll think of a way and inquire about the origin of this thing."

Ji Feng shook his head and said, "No, it's best not to do anything now, unless, you can decide that you can take out Bao Weisheng afterwards so that I can do it!"

"Take out?!"

Xiang Yongzhan was stunned: "Ji Feng, the influence of the Bao family in Baodao is not ordinary, there is no impermeable wall in this world, taking out Bao Weisheng is not difficult, but once the news leaks out, the impact on the relationship between the two sides will be too bad ....."

Ji Feng said, "So ah, we can't do anything now, since we've taught the person enough, then let's go."

"Go?"

Xiang Yongzhan asked, "You're not going to inquire about where this thing came from?"

Ji Feng said in a deep voice: "Of course I have to inquire, but now is the time not to do anything, let's go, I'll tell you slowly when we get back to the ship."

Although Xiang Yongzhan was full of doubts, he could see that Ji Feng did not want to talk about this now, so he nodded and followed Ji Feng.

And then, Ji Feng didn't say anything, ignored Bao Weisheng and the others, just walked past in big strides, then jumped into the dinghy and left the yacht.

Xiang Yongzhan, on the other hand, said coldly as he walked past Bao Weisheng, "Remember, the person who beat you up is called Xiang Yongzhan!"

He then left as well.

The Special Operations Brigade came and went as quickly as they came, and in the blink of an eye, the yacht became cold and clear again, except that it was a wreck above, as if it had been swept by a storm.

"Fucking hell, bully! I ....." the young man who was with Bao Weisheng broke into a cursing rant, furious.

But Bao Weisheng didn't say a word, just a gloomy face, watching the special combat brigade all return to the warship in the dinghy, and then slowly leave again, from beginning to end, Ji Feng and Xiang Yongzhan didn't look at him again.

Bao Weisheng's face was sullen and he didn't say a word.

After a long while, Bao Weisheng turned his head and said in a deep voice, "Open the ship, let's sail back to Treasure Island!"

It was only at the moment he turned around that a touch of coldness and resentment of the most hostile kind flashed across his eyes, he clenched his teeth, and without another word, he turned around and went to the cabin with great strides.
