

Campus Master Chapter 2871

“I hope so!”

That dignitary nodded and said, “No matter what, these few people have to die, and .....”

He glanced at the people from the Vicious Wolf Gang and the Cheetah Mercenaries who were attacking frantically in front of him, and his eyes went cold, “Besides, in the end, this is all their doing!”

The others all nodded, both taking out Ji Feng and putting the blame on him, even if the other side wanted to retaliate at that time, but without evidence, what could they do?

What can they do if they have no evidence?

It's not like they haven't sent someone to assassinate him before, but he's still alive and well!

Using all the forces to exert pressure on the top brass of Treasure Island?

What?

The faction that has the most power now is the one that is hostile to the mainland and insists that Treasure Island should be kept overseas and not have any relations with the mainland, but now they have a lot of people supporting them, and they have plenty of power and money, so they are not afraid of the pressure from other factions.

“Push them further, step up!” When that dignitary thought of his excitement, he couldn't help but say with a big swing of his hand and a lot of momentum.

At this moment, the people from the Vicious Wolf Gang and the Cheetah Mercenary Regiment were already getting closer and closer, seeing that they were about to approach the living room door, the pressure on Bai Zhu's body multiplied.

Especially, with a gust of wind blowing, the smoke from the smoke bombs was blown away, but it also made the vision clearer, and the same was true for the Bad Wolf Gang and the Cheetah Mercenaries.

In this way, the pressure on Bai Zhu became even greater!

The fierce fire towards her side left her with no choice but to try and fight back, but she was still pinned down behind the walls with little chance of a counterattack.

Bai Zhu was incredibly anxious in her heart, and while she was fighting back, she called Ji Feng through her communication device, “Young Ji, it's almost too much to carry!”

Ji Feng was still upstairs, if he didn't come down now, once the people outside attacked later, it would be a problem, and then they wouldn't be able to leave even if they wanted to, because the entrance to that underground passage was in the corner of the living room, and if the living room was taken over, then they would have nowhere to escape to.

“Calm down!”

Ji Feng's voice came out, still calm and unmistakable, without the slightest hint of panic. But at this moment, Ji YuYi was seeing that Ji Feng's hands were even faster, leaving a streak of shadows almost on the table top, it was impossible to see exactly where his hands were and what he was doing!

"You ....."

Ji YuYi wanted to say something but couldn't. She wanted to persuade Ji Feng to leave, but she knew it would be ineffective and was afraid of disturbing what Ji Feng was doing right now, so she could only swallow her words back down.

However, she was even more curious about what Ji Feng was doing, what exactly was he doing? At such a crisis, not only did he not think about how to fight back or how to escape, but instead he was hiding in this room and tinkering with what?

However, seeing those parts on the table and some bottles and jars that Ji YuYi couldn't understand and was completely confused, she became even more curious and even forgot that she should say something to the camera at this time.

"Young Ji, it's about to get carried away!" Bai Zhu's voice came over again, very urgently.

"Hold on for another minute!" Ji Feng said in a deep voice.

At this moment, the people outside, however, were almost all already smiling. The dignitaries, a few celebrities, Wang Yongsheng, the leader of the Vicious Wolf Gang, and the leader of the Cheetah Mercenaries, almost every one of them had smiles on their faces, because in their opinion, things were basically considered settled by this point.

It looked like they were about to fight their way in, Ji Feng and the others were dead!

The only person whose face changed dramatically was one person.

Ji Lihai frowned tightly, raising his hand to check his watch over and over again, and then looking back, but there was not the slightest movement, which made him vaguely a little anxious, and he was even sweating a little on his forehead, completely devoid of the kind of poise and decorum of Mr. Ji that he used to have.

"Dingdong!"

Suddenly, his mobile phone rang a little.

Ji Lihai immediately took out his phone and looked at it, yet the next moment, his face changed dramatically. It was a text message sent to him by his daughter, Ji YuYi, accompanied by a file, only to see that the text message contained a single sentence with only three words: I hate you!

Immediately Ji Lihai realized what was going on, he hurriedly opened that file attached to the text message, only to see that it was a video, and then he saw two people, one was his daughter Ji Yuhui, who was particularly close to the camera and appeared to have a large face ..... the other was Ji Feng, who was in the background, fiddling with something.

By this time, Ji Lihai's face had completely changed, and as for what exactly was being filmed in this video, he no longer had the heart to look at it, because seeing this video, he knew that at the moment Ji Yuhui was still in it, still with Ji Feng.

"This is a death wish!"

Ji Lihai's hand holding the phone couldn't help but shake violently twice and subconsciously roared, "Stop it!"

The bodyguards next to him were startled and were about to ask Ji Lihai what had happened, but they were shocked to find that Ji Lihai, who had always been steady and majestic, put the phone away in a panic and shivered, and then rushed towards the outside, while shouting, "Stop! Stop! I'm Ji Lihai, whoever dares to hit me again will not stop until he dies ....."

"Mr. Ji! Mr. Ji!"

The bodyguards were terrified, they could barely react to this sudden scene, but they were all extremely good elites and they instinctively went after Ji Lihai.

But Ji Lihai, who was already more than half a century old, moved swiftly at this moment, and in the blink of an eye, he ran forward several metres, so that the bodyguards could not stop him and could only hurry to catch up.

All he knew was that his daughter was still inside and had sent him a text message as if it were her last words, "I hate you!"

This made Ji Lihai's heart feel as if it had been yanked hard .....

He had to stop it! Yu Ying couldn't die!

That's his daughter!

"Ta-da-da ....." Up ahead, the gunfire was still so intense, showing how fierce the battle was, and Ji Lihai's heart grew even more worried.

"Mr. Ji!"

At this time, the bodyguard finally caught up with him and hurriedly pulled him back, "It's dangerous ahead, Mr. Ji, let's go back!"

Ji Lihai became furious and roared, "Let go of me, bastard ....."

"Hey!"

Suddenly, a loud shout, just like an explosion of thunder in the clear sky, immediately made many people jump, even, even the sound of gunfire was interrupted for a moment, looking around, but saw a man standing on the roof of the building at some unknown time, carrying something in his hand.

It was Ji Feng!

I don't know who shouted, and in the next moment, all the guns were almost subconsciously aimed at him, and then the trigger was violently pulled.

The person on the roof of the building was none other than Ji Feng. His roar of bio-current immediately attracted the attention of many people, and then he rolled on the ground, his body was as fast as lightning, and he instantly went to the other side, at the same time, a black object was thrown out by him violently.

“Fire!”

Someone shouted, and at the same time fired wildly at the object, the sound of gunfire instantly became so violent that it made people’s skulls tingle.

But at this time, the men of the Cheetah Mercenaries shouted, “Stay down! Everybody down! Danger!”

In a flash, the men of the Cheetahs fell down in the shortest possible time. Their rich combat experience made them realise immediately that what was flying through the air at this time was no good, so they chose the safest way, to fall down!

And so, the whole courtyard was filled with people from the Bad Wolf Gang standing around, and people shooting at the flying black thing!

Boom~!

The black thing was hit, but, to everyone’s surprise, the black thing burst open, but it wasn’t a bomb and didn’t explode, it just burst into a mist of water the moment it burst, as if a bottle filled with beer had been burst in one go.

The mist sank rapidly, splashing water everywhere, and almost everyone was splattered by the spot of water that fell from the sky. Yet, nothing seemed to have happened.

Everyone froze for a moment, what did this mean? Even the people from the Cheetah Mercenary Group, who were extremely experienced in combat, froze for a moment.

“Hey!”

The next moment, all that could be heard was another shout from the top of the building, and then, another black object was thrown out, while a gunshot sounded from the top of the building, “Boom!”

Boom!

The black object exploded once more, still with a splash, leaving all those below unable to help but be a little speechless.

But the next moment, a scene that everyone would never forget, happened!

Only to see that the moment everyone in the courtyard felt they were being teased by Ji Feng with two bottles of water, a second water mist fell, and the very moment the two waves of water mist met together, a fire snake abruptly burst into flames from the air, and with a boom, in an instant, the whole courtyard actually became a sea of fire!

An instant!

A mere moment!

Not even a blink of an eye, just a flash of lightning, a wave of fire that made people's skin tingle and their bodies stiffen, swept through the entire courtyard!

No one reacted to this scene, not even Yang Bin and Liu Zejun upstairs, or Bai Zhu at the entrance to the living room!

The fire had come so suddenly, even if an incendiary bomb had been thrown down, it would definitely not have been so swift, the speed of the burning, it was just too fast!

It was those two black things!

The three Bai Zhu instantly understood, they hurriedly backed up, fearing that the original splash would splash on them, and the next moment, they witnessed an inferno like burning!

"Ah...!"

The moment the fire instantly swept through the entire courtyard, the screams began, but the screams were so weak and only just rang out before they came to an abrupt end as the fire went straight down the mouth and into the abdominal cavity .....

Everything in the courtyard was swallowed up by the blaze in an instant!

Campus Master Chapter 2872

The sudden blaze was so sudden that it swept through the entire courtyard before anyone could react, causing the people in the courtyard to be directly engulfed by the blaze without even half a second to react!

What was even more shocking was that almost no one could describe how terrifying the fire was at this moment – there was nothing else in the courtyard except for the men of the Wolves and the Cheetahs, and it could be said that the fire was burning completely on the ground, but the tongues of fire were even higher than the courtyard walls, as if the air in the courtyard was burning. It was as if the air in the courtyard had been set on fire!

It was horrible!

"Ah...!"

There was a lucky man who had not attacked before, but only stood at the gate and hid outside the wall as a way to avoid the bullets, so when the sudden fire burst out, that man only just stretched out his hand to shoot and was burned.

The man screamed and subconsciously rolled to the ground, trying to use the dirt and his own body to put out the fire in his hand. But then a scene occurred that no one had expected. The man just rolled onto the ground and pressed his body against his burning hand, but instead of extinguishing the fire in his hand, his body suddenly ignited.

The next moment, he saw that the flames from his body had ignited the wall ..... that was a concrete and stone wall, there was nothing at all to burn, but now, the wall had just burst into flames!

This is unbelievable!

At the same time, the courtyard was in the same state, the ground was on fire, as if the ground wasn't made of a mixture of stone and concrete, but was full of petrol!

Hell on earth!

If I had to find a word to describe it, I'm afraid it would be the most appropriate, but that would only describe the ghastliness of the scene, but words cannot describe how terrible the flames really were.

The scene in the courtyard left everyone dumbfounded, even Yang Bin and Liu Zejun upstairs, and those outside.

Including Ji Lihai!

He was about to rush towards the courtyard, trying to stop the Vicious Wolf Gang and the Cheetah Mercenaries from continuing their attack, no one could stop him, but the scene in front of him made his body stiffen beyond belief, and his original angry roar froze on his face in an instant, replaced by a deep look of shock.

Ji Lihai looked at the blazing fire in the courtyard with his mouth wide open, his whole body was struck by lightning and he stood there in disbelief, unable to believe what he was seeing.

How could this fire be so violent and fierce?

Even if it was an ordinary incendiary bottle, no, even if it was an incendiary bomb, although it might be more powerful than this, the speed of burning was definitely far inferior, as well as the intensity of that burning, even more so than the incendiary bomb could compare.

The military's incendiary bombs could even burn water, and anything that caught the slightest spark would be burned to a crisp.

However, the intensity of that burning was nowhere near the sudden blaze in front of him.

A moment, just a moment!

The people in the courtyard had been burnt to death! If the people in the courtyard could not really see the fire because of the walls, but the few people at the entrance, they were watching it with their eyes.

It was too fast!

The fire was too fierce!

The fire was so intense that it seemed to have set the air on fire, it was so shocking that it sent chills down one's spine and fried one's scalp!

"Swoosh~!"

In the next moment, before anyone could react, Ji Feng directly flipped down from the roof of the building and landed firmly on the wall, avoiding the blazing fire as he shouted, "Shoot to kill!"

All of a sudden, everyone reacted, and a fear so intense that it instantly swept over everyone, making them feel as if they had fallen into an ice cellar, and their souls were on fire!

"Run!"

“Retreat! Retreat!”

Wang Yongsheng was so frightened that his face was pale and his lips had no blood on them at all.

Even he, who was so ruthless and accustomed to big scenes, was frightened like this, not to mention the others, especially the dignitaries, the celebrities and the rich and powerful, who did not even dare to get out of the car when the battle was fierce, let alone now, they were already so frightened that they could not use any strength, and they were completely limp in the car, with their fingers trembling and their lips trembling so much that they wanted to signal The driver had to go!

The people who were waiting outside to see what was going on felt that they had the victory in hand, and it was even as if they had already seen the building being broken into and Ji Feng being killed on the spot. ...

Run!

This was the only thought on everyone’s mind, no one cared to think about where the sudden blaze in the courtyard had come from, nor did anyone care what would happen to those who were engulfed by the flames in the courtyard, all of them had only one thought, to escape, to escape regardless!

In the face of this great danger, escape was the only thing on their minds!

“Buzz~!”

The car started, and then there was the sound of tyres rubbing violently against the ground, as some people were sharply steering the wheel and slamming on the accelerator, trying to escape.

But at this time, Zhang Lei and Yao Zhijian, who were also shocked by the blazing fire, had long since recovered from their shock, and had already started to act when Ji Feng shouted to kill them all.

So, when those people were ready to flee, they saw that Yao Zhijian had already gotten out of the car and started his sniping with one hand on the sniper rifle.

“Boom!”

In a flash, the side windshield of the driver’s seat of a rich man’s car instantly broke a hole, and the driver was directly blasted in the head, killing him on the spot, and the car immediately leapt suddenly, crashing into the car in front of it at once, and directly plunging to the ground!

At the same time, Zhang Lei did not stay idle, he also aimed at his target and pulled the trigger.

“Boom!”

A man was instantly put down on the ground.

At this moment, Ji Feng had already jumped off the wall and started to counterattack towards this side. Bai Zhu and Liu Zejun and Yang Bin also came back from their shock and climbed up the stairs, then jumped onto the wall and then onto the ground, and started to chase after them, because the courtyard was still burning with a blazing fire, which made them not dare to touch it either, so they had to jump onto the wall and then jump onto the ground outside the courtyard, and go around the wall to start the chase.

This was a waste of time, but for the men of the Wolves and the Cheetahs, who had been frozen in fear, this was not enough time for them to react.

Of course, the majority of the people outside, apart from the rich and famous and the dignitaries and their bodyguards, were from the Cheetahs.

However, the boss of the Cheetahs' mercenary group regretted it, because at the moment he turned to flee, he suddenly thought that if he had pressed all his men up, would he have taken the small building? Would there have been no subsequent sea of fire?

He didn't know! There were no ifs in this world either!

In the face of Ji Feng and the others who were poised for a frantic counterattack, with chaos outside and the sudden sound of gunfire coming from behind, the boss of the Cheetah Mercenaries also realized that Ji Feng and the others had still arranged ambushes outside, and at this time even though he still had people on his side, he couldn't fight anymore, God knows how many people Ji Feng had arranged outside!

And .....

The people around him looked like, even if they were not scared out of their wits by the hellish scene on earth just now, they were definitely scared out of their fighting spirit.

Therefore, he could only choose to flee!

"Ta-da-da ....." As fierce gunshots rang out, Ji Feng and the others had already chased after them, and there was no way out, the Cheetah Mercenaries could only escape.

"Don't let any of them get away!" Ji Feng's ice-cold voice reached the ears of Yang Bin and the others.

Thus, a chase of extremely asymmetrical scale and numbers began!

On this side, Ji Feng and the others only had four people in total, but they were chasing and killing dozens of people with guns, while those people were still frightened like dogs in distress, frantically and almost desperately fleeing back, not even looking at how many people Ji Feng and the others actually had!

Ji Feng caught a glimpse of the cars of the dignitaries and the rich and famous, and a sharp look flashed in his eyes as he was about to go after them, but at that moment, the people from the Cheetah Mercenary Group actually had people fighting back, impeding his speed.

"Yang Bin and Lao Liu, you two go after them and pester those people, you absolutely cannot let them get away!" Ji Feng yelled, "I'll get to you guys once I've finished here!"

Today, no matter what, we can't let these people get away!

Campus Master Chapter 2873

Frankly speaking, the people of the Cheetah Mercenaries were still very capable of fighting.

After the chase on the way and the exchange of blows just now, Ji Feng already had a clear understanding of the Cheetah Mercenaries' combat strength. If there were only two or three of them, it

would definitely not be a problem to hand them over to Liu Zejun, but the problem was that there were at least seven or eight people from the Cheetah Mercenaries now.

If Liu Zejun and the others were allowed to clean up the Cheetah Mercenaries, I was afraid that there would be damage.

Therefore, Ji Feng decisively chose to deal with the people from the Cheetah Mercenaries himself and let Liu Zejun and the others pester the others, especially those dignitaries and famous tycoons, who had caused all the trouble tonight, even if they let the people from the Vicious Wolf Gang go, they could not leave those dignitaries and famous tycoons!

Those people, they must die!

Liu Zejun and the others were ordered to go around from both sides without saying a word, they started to chase after the others, as soon as the Cheetah Mercenaries saw that an enemy had actually run ahead of them, they were about to attack Liu Zejun and the others who were worried about their retreat being cut off.

“Boom!”

Ji Feng raised his hand and shot, instantly taking down one, the others were suddenly shocked and could no longer care about attacking Liu Zejun and the others, but instead turned around and tried to attack Ji Feng.

Especially, in the midst of this chaos, they who had a lot of combat experience were the ones who noticed that in this chase that struck fear into their hearts, there seemed to be gunshots everywhere, whether in front or behind, the gunshots were all over the place, but the gunshots were not very dense  
.....

Some people then immediately came to the judgement that there must not be many people chasing them, which means that Ji Feng is definitely understaffed!

These mercenaries are themselves people who often roll on the tip of the sword, all of them are fierce, to say that they may not be as good as Liu Zejun and others in terms of single combat ability now, but I am afraid that the fierceness of this group of people is not lost to them in any way.

So when the people from the Cheetah Mercenary Group noticed the sign, quite a few of them surprisingly put their escape at full pace and then prepared to counterattack.

“Brothers, kill back, they’re empty!” The boss of the Cheetah mercenary group even had red eyes and roared viciously, while he got a machine gun from somewhere in his hand, stopped and turned around and burst towards Ji Feng.

“Finish him off!”

“Tear up that little bitch’s ass!”

They were all veterans, but they had just been stunned by the sudden sea of fire, and now that they had returned to their senses, they immediately became fierce mercenaries!

Ji Feng sneered, now he still didn't hurry up and run for his life, seeing that there were less people and his courage was strong!

As soon as the Cheetah Mercenaries turned around, he suddenly rolled on the ground, and while rolling on the ground he already pulled the trigger, bang bang bang .....

At the same time, the people of the Cheetah mercenary group did not panic, when it comes to playing with guns, who is a match for mercenaries?

They hadn't seen anyone who played guns better than them!

It's not like they had never seen such a way of shooting while rolling on the ground, although it was hard to hit, the opponent's bullets were certainly not accurate either.

The next moment, however, the faces of the Cheetahs changed – they heard a few gunshots, and the leader of the Cheetahs suddenly found that there were several muffled sounds around him, and four men fell to the ground in an instant.

He instantly changed his expression, how could this be possible, that guy's shooting skills were too terrifying, right?

At this moment, the courage he had just gathered instantly disappeared without a trace, and only then did he suddenly remember that a person who could create a sea of horrible fire by throwing two black objects could not be just an ordinary person!

Run!

With this realisation flashing in his mind, the Cheetah's leader's already small guts collapsed and he shouted, "Retreat!"

Now he had no one left, only two or three men left around him, and if they were lost here, he would really be a loner.

All the factors piled up and he no longer had the courage to resist, so he said that without saying a word, he would take his two men and flee.

However, at this time, he had already forgotten all about combat literacy and common sense on the battlefield, and naturally he was even more unaware that the more critical the situation, the more one should fight.

However, the boss of the Cheetah Mercenaries chose to flee, leaving his back to Ji Feng, which doomed their fate – how could they escape faster than a bullet?

Ji Feng steadily aimed at the two men beside the Cheetah Mercenaries boss and pulled the trigger without hesitation: "Boom!"

He fiercely turned his gun around and pulled the trigger once more, "Boom!"

As two bullets were fired, those two men fell down cleanly, and apart from letting out two muffled cries, they never made any other extra movements!

At this moment, the boss of the Cheetahs had already been scared to death, he had been the leader of a mercenary group for a long time, but he had not experienced this kind of feeling of being on the edge of life and death for a long time.

And at this time, he was even more desperate.

However, Ji Feng would not show him any mercy. After finishing off his two men, Ji Feng aimed his gun at the boss of the Cheetah Mercenaries again.

The gun slowly moved down and Ji Feng pulled the trigger, bang!

The boss of the Cheetah Mercenaries let out a low roar, but his body stumbled and fell head first to the ground. One of his legs was directly pierced by the bullet.

However, at this moment, Ji Feng didn't hesitate in the slightest, the gun slightly deflected a little and pulled the trigger once more, bang!

Poof!

The other leg of the Cheetah Mercenary Group's boss was also pierced by a bullet!

In the blink of an eye, both of his legs were ruined, at this time even if he wanted to escape, he could only crawl with his hands at most!

With his gun in both hands, Ji Feng quickly chased after him, and fired two more shots quickly when he was close to the Cheetah Mercenary Group boss: "Bang Bang!"

The next moment, the latter suddenly let out a low roar and screamed miserably, his two hands were also broken, the weapon was close at hand, but he didn't even have the ability to pick it up and resist. In fact, the moment he chose to flee, he had actually lost the ability to resist and his last chance to resist!

Ji Feng arrived in front of him, his gun aimed at his head, with a cold smile on his face, "Remnant of the Cheetah Mercenaries, you were able to escape once, and you still want to escape a second time?!"

"Let go, let me go, as long as you let me go, I can give you a fortune, it's a great fortune, only I can take it out ....." At this moment, the boss of the Cheetah Mercenary Group was full of fear, long gone was the mercenary boss's kind of fierce and brutal, and could only plead bitterly.

However, Ji Feng was sneering, "Sorry, I don't lack your little money!"

"Information, I can give you information!" The boss of the Cheetah Mercenary Group hurriedly said.

"Say!"

Ji Feng said coldly.

The boss of the Cheetah Mercenary Group, however, gritted his teeth and said, "You have to let me go, otherwise, I won't say anything even if I die ....."

"In that case, then you don't have to say anything!" The cold light in Ji Feng's eyes was so big that it made the Cheetah Mercenary Group's boss's heart go cold, as if he realized something, and he was just about to shout when he heard Ji Feng's cold words in his ears, "You are no different from a dog in my

eyes, but you, a dog, dared to run to China to wreak havoc, and afterwards dared to run here to wait for an opportunity to take revenge on China, you have no living reason!”

“No .....

“Boom!”

Ji Feng pulled the trigger, and the man’s shrieking came to an abrupt end! Being shot in the head at close range, a blood splash exploded!

After doing all this, Ji Feng acted as if he had done something insignificant, raised his gun and continued to chase towards the front, not even looking at the Cheetah Mercenary Group’s boss.

In his eyes, the boss of the Cheetah Mercenaries was really no different from a dog, these people were internationally known as the wild dogs of war, but in his eyes, they were actually just a dog, no matter if they were those dogs captive by the rich and powerful, or those who were now wretchedly stranded in Treasure Island and taken in by that dignitary, they would not be Ji Feng’s greatest enemy!

Even the state wouldn’t take them too seriously!

However, the existence of the Cheetah Mercenaries was just like the saying – a toad jumping on the back of a foot, not biting but disgusting!

The Cheetah Mercenaries are like cowpokes, they look powerful, but in reality, they are nothing after a single cut!

Ji Feng’s ultimate target today was the dignitaries and those few celebrities and tycoons who were already tightly bitten by Liu Zejun and the others in the distance!

These were the people who really deserved to die!

Ji Feng swept a glance and found that those people’s bodyguards actually had really high combat quality, Liu Zejun and the others were struggling to bite down, more importantly, there was another fire point in the distance, it was the sound of a sniper rifle, Ji Feng immediately reacted that it was Zhang Lei and Yao Zhijian.

So, without hesitation, Ji Feng rushed over, he had to stop them, he couldn’t let them get away!

Just like that, the boss of the Cheetah Mercenaries was lying dead in a place less than a hundred meters from the courtyard, thus, the Cheetah Mercenaries were completely wiped out!

Campus Master Chapter 2874

The destruction of the Cheetah Mercenaries seemed to have become insignificant in the midst of this chaos, hardly anyone was paying attention to it anymore, let alone caring whether the foreigners were dead or alive!

Except for the Wolves!

When they were fleeing, the men of the Bad Wolf Gang were actually paying special attention to the Cheetah Mercenaries, because after they had seen the powerful attacks of the Cheetah Mercenaries,

they understood how much difference they had with them! So, when they were fleeing, they hoped that the Cheetahs would be able to hold off their pursuers so that they could have more time to escape!

However, if they didn't pay attention to this, it would be better to pay attention to it, but it would make the people of Bad Wolf Gang's heart go cold, their hands and feet go cold and stiff – even the fierce Cheetah Mercenaries had been killed, or even wiped out, completely wiped out, even the boss of Cheetah Mercenaries had not escaped, let alone their Bad Wolf Gang.

Wang Yongsheng was in a state of shock, he didn't even care about the rest of the Wolves at this moment, he only had one thought in his mind, run! The farther he ran, the better! Whether or not the Wolves still existed, at least he had to make sure he wouldn't be killed!

Saving his life was more important than anything else!

“Boom!”

A shot rang out, only to see a man's head instantly explode into a blood splatter, the man flew straight out sideways, spilling a cloud of blood in the air.

Another man had been taken out!

Wang Yongsheng's heart trembled, he didn't even know how many this was anymore, he only felt that the dull sound of the gunshot was like the god of death in this dark night, as soon as the gunshot sounded, someone would fall down, moreover, the fallen person would never try to get up again!

Run!

At this moment, Wang Yongsheng no longer had the elegance of a wicked wolf gang leader, let alone the arrogance of his previous spirit.

In fact, Wang Yongsheng was only a microcosm of this chaos, and so were the others, especially the fat-headed dignitary and the few celebrities and tycoons with him, who were terrified to death, desperately scolding their bodyguards to hold on, and then desperately urging the driver to turn the car around and run away!

It was too dangerous here!

The rich and powerful were even more desperate for their lives, and they naturally did not want to die here, so in this remote place, there was an unbelievable bustle of noise and scolding, as well as shouts and screams.

However, the more they panicked, the harder it was to escape, especially when Zhang Lei and Yao Zhijian suddenly stopped behind them and directly blocked their way, then it was even more impossible for them to retreat, but it was equally impossible to go forward, because what was ushered in front of them was the pursuit of Ji Feng and the others.

“Block them, block!” A rich man panicked to the extreme and roared desperately, “Block them and I'll give you a reward of two million dollars, quick! Get out of here!”

“Get out of here quickly, get out of here .....”

A wild and frightening roar was enough to show just how terrified those tycoons were at this moment, at this moment, they had long forgotten that just a short while ago they had been sitting in their cars laughing as they watched the Cheetah Mercenaries and the Vicious Wolf Gang attack the small courtyard, even thinking that they could quickly take the small building, finish off Ji Feng, and then push the matter straight to the Cheetah Mercenaries!

But who would have thought that in the blink of an eye, not only would their good thoughts be shattered, but even their lives would be threatened with death, and they could be killed at any moment. This huge contrast instantly shattered the pride and poise of their so-called superiors and high society celebrities.

The richer they are, the more afraid they are of death, and these people cherish their lives even more, so they really wish they were on a plane and could fly away right away!

“Ta-da-da .....”

Liu Zejun and Bai Zhu followed closely behind, biting those rich and famous people, especially the dignitary, who was bitten to death and couldn't escape at all.

In front of them, Zhang Lei and Yao Zhijian were sniping, especially Yao Zhijian's sniper rifle, which was like a scythe of death, as long as the gun was pointed at anyone, that person would almost certainly die in the next second!

Zhang Lei is not bad either, although he is not holding a sniper rifle and his shots are not as accurate, but the key is that he shoots very fast and his accuracy is not very bad, the two of them are enough to crush the bodyguards of these rich and famous people that they dare not show their heads!

“Bang Bang Bang Bang .....”

However, these bodyguards were not completely defenseless, after all, in the final analysis, Ji Feng and the others were still too few in number, although the firepower was fierce, the fire points were not dense, these bodyguards gradually reacted after the initial fear and panic, the other side was not too many!

Then there was a chance of escape!

So, these bodyguards suddenly split into two groups and fired wildly towards the front and the back respectively to suppress the firepower.

Liu Zejun and Bai Zhu were immediately slowed down by the pressure, and Zhang Lei and Yao Zhijian could not help but give a beat, although their firepower was strong, they could not completely suppress each other.

Taking advantage of this gap, those celebrities and rich people had already scurried out a long way, and the vast majority of the cars had also started to turn around instantly and started to speed up and flee!

“Xiao Yao, hit the driver! Hit the tyres!” The most crucial thing was to keep the tycoons and celebrities involved in this matter, especially that fat-headed dignitary, he must not be allowed to escape!

“Boom!”

Hearing Zhang Lei's order, Yao Zhijian immediately flung a shot, instantly piercing the windscreen of the driver's seat of one of the cars, which lurched and then plopped down.

But as fast as Yao Zhijian was, there were too many people on the other side after all, and they weren't just standing there waiting for him to hit them, so a few cars still rushed out.

Zhang Lei immediately shouted lowly, "You stay here and block the rest of them, I'll go after them!"

Run?

Not a single person was going to get away today, especially these masterminds!

At the same time, the fat-headed dignitary that Ji Feng had been watching was also sitting in his car and trying to escape.

Bastard!

Ji Feng cursed and raised his hand to shoot again, but he couldn't help but give his hand a lurch, his face couldn't help but sink, Ji Lihai!

A few bodyguards were protecting Ji Lihai and running that way, but the route they took just blocked Ji Feng's line of sight that he was about to shoot, which made Ji Feng miss another opportunity!

Ji Feng's expression was so cold and frightening that if it wasn't for the sake of Ji YuYi, he would have shot Ji Lihai, the guy who was in the way, in the face!

But now, he could only continue his pursuit, and he had to speed up desperately!

However, no matter how hard Ji Feng and the others tried, there were still people escaping after all, and two of those cars drove away as well, but Ji Feng didn't have the extra energy to go over it, all he had to do now was to make sure that the dignitary was taken down!

"Boom, boom, boom!"

Ji Feng fired several shots in succession, taking out several of the bodyguards around the dignitary, and was about to shoot the fat-headed dignitary who had already hidden in the car, but the car suddenly started to rush out.

Ji Feng no longer had time to think about anything else, his legs suddenly shot up and he chased after him.

"Boom! Boom boom!"

While chasing, Ji Feng raised his hand and fired, yet he was shocked to find that the bullets hit the car, but there was no reaction ..... bulletproof car!

That dignitary was actually in a bulletproof car!

Ji Feng knew it was going to be bad, without saying a word, he casually put his gun behind his back, then raised his speed to the limit and began to chase with all his might!

Luckily, although the dignitary's car was very good, it was chaotic because there were cars all over the place, so he could not increase the speed of his car, and he had to ram through several cars that were in the way before he could rush out.

"Pop!"

Ji Feng suddenly leapt high up, stepped on the top of a car with his toes, and then his whole body landed instantly on the car that the politician was fleeing like a roc with wings spread, and instantly stepped on the roof of that car and made a crater.

"Bang Bang Bang!"

However, at that moment, someone inside the car was suddenly shooting at the roof, Ji Feng suddenly dodged it and smashed his fist viciously on the car window, the glass that could withstand bullets or even small bombs, but under Ji Feng's fist, it was hardened into spider web-like broken glass, and then hardened off the car door frame.

The next moment, Ji Feng reached out to grab the person in the car!

"Hoo~!"

Suddenly, a person suddenly rushed out and grabbed at Ji Feng, between lightning and fire Ji Feng fiercely clenched his fist and ruthlessly blasted past, hitting the person's hand exactly, with a bang, Ji Feng's body couldn't help but shake a little, but that person was directly knocked out from the other side of the car door, rolling on the ground a few times into a half-crouching position cushion, and jerked his head up!

Ji Feng took a look at him, but his face suddenly changed, reformer!

That man was a reformer!

No wonder he was able to throw a punch against him and still be fine!

"Roar!"

The reformer roared lowly and suddenly rushed over again, Ji Feng casually set up his gun and pulled the trigger, bang bang bang bang!

However, the bullets that were terrifying to a normal person could only make his body sway a few times, as if they were tickling him, and could not even slow him down for a moment, and in the blink of an eye, the Transformer caught up with him again.

Campus Master Chapter 2875

"Whew!"

Just then, a black shadow suddenly rushed out from the side, "Sir, I'll take care of him!"

It was Yang Bin!

Ji Feng, however, couldn't help but yell out, "Yang Bin, dodge, you're no match for him!"

That person was a reformer, extremely dangerous, just now Ji Feng attacked from the roof of the car, and had a hasty punch with this reformer, the other party was only knocked off the car, but looking at that movement so smoothly, obviously not injured, this was enough to show the strength of that reformer.

With Yang Bin's strength, I'm afraid that he might not be a match for that Transformer!

Especially, right now, Ji Feng didn't know what killer moves this Transformer had, but at least, every Transformer had a biological bomb on its body, while Yang Bin didn't know, whether Yang Bin could win the fight or not, he would be in danger!

"Sir, leave this place to me!"

Yang Bin confronted that Transformer, a look of determination flashed across his face, all this time he couldn't help Ji Feng much, now, stop this guy and buy time for Sir, this was the only thing Yang Bin could do!

From the urgency with which Ji Feng was chasing the man in that car, he could tell that it must be an important character, and Yang Bin knew that even if he left this man alone and went after the others instead, what he would end up taking out would only be some small fry. Therefore, he chose to stop this person in front of him!

"Go to hell!"

At this moment, the reformed man who was stopped by Yang Bin steeply lunged over, as soon as he moved, Yang Bin was abruptly surprised, this man's speed was too fast, even though Yang Bin had long been mentally prepared, he couldn't help but be taken aback by this man's speed, in just the blink of an eye, this man was right in front of him.

Without saying a word, Yang Bin pushed his body's true qi to the fullest and met him without fear.

"Boom!"

Yang Bin's body shook as he steeply retreated two steps, and he couldn't help but secretly say, "What strength!"

He couldn't help but say, "What a strength!" Looking at the reformer, he had retreated three or four steps!

Yang Bin's confidence suddenly increased, although this guy in front of him was powerful, however, he himself was not bad either, and with internal strength as support, Yang Bin felt that he would not lose to him!

At this moment, Ji Feng was frowning and shouted, "Yang Bin, get out of the way, let him come over!"

"Sir, you get busy with yours!" Yang Bin said loudly. He knew that at this moment Ji Feng was in a dilemma, but grabbing the guy in the car was the most important, no matter what was weird about this person in front of him and how powerful he really was, Yang Bin would not back down.

“You hold on, self-preservation is most important!” Ji Feng is also not indecisive, he shouted, and then turned a buckle on the roof of the car, two hands to support the roof, but the body is directly upside down, and then fierce drop ..... Boom!

This was also the case with the two bulletproof cars. Ji Feng’s strength was so great that even a stone could be broken into pieces under his full power of bio-current!

“Ah!”

“Quick, drive, drive faster!”

With the car door being kicked down by Ji Feng, an alarming cry came from the car, and the driver was ordered to drive faster in a panic.

Ji Feng’s face suddenly turned cold, this voice, it was the dignitary he was looking for!

It was you he was looking for!

Ji Feng suddenly rolled over and was ready to enter the car, however at this moment, several gunshots suddenly came from inside the car: “Bang Bang Bang .....”

But it was a hand stretched out from the car door that was kicked off, shooting at him.

Ji Feng grunted coldly and instantly rolled over to dodge, but missed a chance to grab that dignitary!

The hand that fired the shot hurriedly retracted after firing several shots in succession, and at this time, the driver also began to swing the steering wheel wildly, causing the car to sway violently and the car to start taking an S-shaped route.

But for Ji Feng, this was not a problem at all, no matter how hard the car swayed, it could not throw him off, this power was still far from enough for him!

However, at the moment, Yang Bin was having a bit of a hard time.

In particular, he was almost frightened.

Because, this guy in front of him, suddenly turned into a monster .....

Yang Bin was desperately trying to stop this guy, he was actually surprised in his heart, this bodyguard-like guy in front of him didn’t look very old, but his strength was incredibly strong, on the contrary, Yang Bin still couldn’t feel any signs of internal strength from his body, it was as if this guy was completely relying on his physical body to have such strength and speed.

This made Yang Bin feel a bit incredible, he had never seen someone who could achieve such a level of strength just by relying on his physical body.

However, what surprised Yang Bin even more was the next scene.

The next moment, a shocking scene appeared – the man slowly crouched down, and the suit, which looked to be of good quality, suddenly collapsed with a loud bang!

Then, it was seen that the man's arms and legs all began to thicken, his neck also began to thicken, his eyes gradually became red, and the clothes on his body were constantly being torn because of the changes in his body .....

In just a few breaths, what was originally a young and handsome bodyguard had turned into a monster ..... and a monster that could not be seen at all, which almost made Yang Bin mistakenly think he was in a movie!

It's really too subversive!

Yang Bin stared at the man in astonishment and subconsciously cursed, "What the hell is this?!"

"Damn you!"

Hearing Yang Bin's words, the man opposite seemed to be suddenly stimulated, a low roar came out from his throat, just like a wild beast, his legs fiercely stomped and instantly rushed to Yang Bin, at the same time, his hands unexpectedly turned into a pair of sharp claws and pressed straight to Yang Bin's throat.

"Well!"

Yang Bin snorted coldly and also instantly met him.

Boom!

The two crossed paths, but Yang Bin only felt his body shake, and his entire body steeply stomped back six or seven steps before he managed to stop, barely stabilizing his body, and when he looked at the monster again, Yang Bin's eyes were filled with shock.

What kind of monster is this? How could it be so terrifying?!

That tremendous force just now simply gave Yang Bin a feeling of being unable to defeat it!

"Roar!"

However, the monster did not give Yang Bin any chance to catch his breath, and instantly pounced again.

Yang Bin did not show any weakness in his fight.

But gradually, the more he fought, the more frightened he became. He found that he was no match for this monster, whether in terms of speed or strength, this monster was even better than him, and although he could barely resist, it was very difficult to defeat this monster.

Although his hands and legs were numb from the shock, and the true qi in his body was also greatly depleted, a look of determination flashed across Yang Bin's eyes.

No matter what kind of monster you are, don't even think about going after Mister, as long as I, Yang Bin, can still stand, I won't let you harass Mister!

With that, Yang Bin actually took the initiative to attack.

The two fought a vicious battle in this chaotic place, and in just a few moments, both of them were wounded, except that, to Yang Bin's astonishment, the monster had an arm broken by him and a piece of its flesh torn off, but the torn area was not bleeding .....

This monster has no blood?

Huffing~ Huffing~

Yang Bin was panting heavily, the true qi in his body was almost depleted, at this moment he was relying on the strength of his body to support him, relying on his true qi to support him was no longer possible, yet, he was still stopping the monster in front of him, steady as a mountain!

But the reformer couldn't help but be a bit scared, this kid was too desperate, he even had the chance to kill this kid several times, but this kid was completely careless and desperate, he didn't dodge at all, he also attacked his vital parts, clearly wanting to die with him!

Facing such a person, even the reformer could not help but have a headache, not to mention that Yang Bin was not just playing with his life, but also had great strength, which was very tricky!

Seeing that the car had disappeared into the darkness, the reformer roared, "Since you're looking for death, I'll send you to hell!"

Yang Bin sneered, "I'm afraid you don't have that ability!"

The two stood in a ball once again .....

"BANG!"

With a loud bang, the vehicle hit the roadside pole at once, the huge impulse made Ji Feng slide forward steeply on the roof of the car, taking advantage of this impulse, Ji Feng snapped the car door, his body dwarfed, squeezed directly into the car, when the people in the car reacted, his hand, already wiped from the neck of the bodyguard in the back of the car, crushed the man's throat, and at the same time took the pistol from the man's hand and against the driver's head.

At the same time, his other hand was on the body of another person beside him, a middle-aged man with a fat head and big ears, with a look of fear that could not be concealed on his face at the moment, it was the dignitary who had taken in the Cheetah Mercenaries!

Seeing Ji Feng, this fat-headed dignitary's face was white and had long been scared to death. He was just about to speak when he heard a bang, and Ji Feng had actually shot the driver's head off with one shot!

"Ah!"

Extreme fear made that dignitary scream in terror, but the next moment, the black hole of the gun pointed at his temple, causing his voice to come to an abrupt end.

Ji Feng laughed coldly, "I didn't expect it, but I actually ended up like this!"

"Ji, Ji Feng, you, you can't kill me .....,," the dignitary had long been scared to death, especially with the black hole of a gun pointing at him, and his body was shivering as he spoke!

Campus Master Chapter 2876

“Ji, Ji Feng, you, you can’t kill me .....,” the dignitary had long been scared to death, especially when he was pointed at by the black hole of a gun, his body was shivering as he spoke!

“Why can’t I kill you?!” Ji Feng asked, with a cold smile on his face and even more killing intent in his eyes, “Say a reason for me not to kill you!”

“I am a high ranking member of Treasure Island, if you kill me, then the relationship between Treasure Island and the mainland will definitely deteriorate, which will definitely not do your family any good!”

“What else?!” Ji Feng asked.

“.....”

That dignitary couldn’t help but be dumbfounded, he didn’t seem to expect this reaction from Ji Feng, but at this moment, he couldn’t allow him to have the slightest hesitation, God knows when the black muzzle of the gun in Ji Feng’s hand would shoot out a bullet, he hurriedly said, “And, there is also the fact that if you kill me, then you will never be able to leave Treasure Island, you will definitely be sentenced .....”

Ji Feng, however, shook his head and smiled, “Is that so?”

His eyes gradually became cold and his face was cold: “For someone who colluded with the dynasty, do you think I will let you off?”

The dignitary’s face instantly changed dramatically, a flash of shock and horror flashed deeply in his eyes, Ji Feng actually knew about his collusion with the dynasty? How did he know about it?

In his haste to escape just now, he did not hear Ji Feng shouting out to Yang Bin on the roof of the car to transform the man, otherwise, at this moment, this fat-headed dignitary would not have held such a fluke!

Ji Feng stared at this guy who was as fat as a pig, with an icy murderous look in his eyes, recalling that this person had made a series of vicious remarks about the Mainland, saying something in the media from time to time to damage the relationship between the two sides, and even, often jumping up and down to do something disgusting.

This kind of person is simply a clown. It is really a sad state of affairs for people to live like this!

But for China, the existence of such a person is a disgrace!

Whether he is a senior official of Treasure Island or a Chinese, he can claim in public that he is not a Chinese, but a descendant of the Kepong people, the offspring of a Kepong general and a local woman of Treasure Island when the Kepong invaded China and occupied Treasure Island .....

This kind of statement made Ji Feng couldn’t help but get goose bumps when he first heard about it!

Because according to the media’s digging into this person’s identity and background, it was found that he was not a descendant of any Kepong people at all, but a genuine Chinese, his father was a soldier who retreated to Treasure Island after the defeat, and his mother was a local of Treasure Island .....

He had nothing to do with Kepong’s lineage!

There is no doubt that this person is going around claiming to be a descendant of the Kepong people, obviously to show goodwill to Kepong, and also to use himself to influence other Po Islanders, especially since there is indeed a group of people on Po Island who are very inclined to be close to Kepong and Rice, etc., and are very much repulsed by the mainland due to a series of statements .....

If you can influence these people, then you can obtain the support of these people, and then you will certainly have a different influence in the political arena of Treasure Island.

Moreover, it would also be possible to obtain external support forces from Kepong!

In order to achieve such a goal, this person would not hesitate to fawn and grovel like a grandson to please his Kepong master, forgetting his ancestors, for such a person, Ji Feng felt disgusted even looking at him, how could he be spared?

“Ji Feng, you, you quickly let me go .....”

“Boom!”

A gunshot sounded, interrupting the fat-headed dignitary’s words.

In the next moment, he could see his eyes widen abruptly, his face turned red, his mouth opened dead wide, and an incomparable miserable scream almost roared out from his mouth, “Ah-”

Ji Feng shot him through the knee of his left leg, and the intense pain made him, who had always been pampered, scream out in agony.

“Didn’t you always claim to be the descendants of the KAI Peng people? Then what consequences can I have for killing a kid?!” Ji Feng, however, smiled coldly and aimed his gun at his head again!

“No, don’t ..... I’m a Chinese, I’m a Chinese!” That dignitary was scared to death, the intense pain and strong fear made his body shake like sieve chaff, but most of all, he panicked and begged for mercy, shivering and said, “My parents are Chinese, I am not a Kepong person ah .....”

Ji Feng coldly shouted, “Bastard!”

The next moment, he backhanded a slap at the back of that dignitary’s head, instantly knocking him out.

And then, he hurriedly took out his mobile phone and quickly dialed a number: “Old Zhou, where have you arrived?”

“On my way to your place, I’m almost there, ten minutes at most.” On the phone, came Old Zhou’s voice.

“No, ten minutes is too slow, be quick ..... I’ll give you five minutes at most!” Ji Feng said, “I have a very important person in my hands, you take the person away as soon as possible .....”

“Understood!”

Old Zhou’s voice was as calm as ever.

Ji Feng hung up the phone, his eyebrows locked, but in his heart he couldn’t help but be secretly anxious.

Old Zhou's speed was too slow!

Back when he had just returned to the landing site, Ji Feng had already informed Old Zhou to come over, not in the hope that Old Zhou could help in the battle, but in the hope that he could provide support on the periphery, and if something really happened on their side, then he hoped that Old Zhou could do something or do something in a critical situation.

However, it was not expected that the battle was almost over on their side and Old Zhou had not even arrived yet.

However, what Ji Feng was most anxious about now was the battle between Yang Bin and the Transformer. Although Yang Bin had kung fu in his body, he had never fought a Transformer before and was not experienced enough.

And there are also Liu Zejun and Bai Zhu, Zhang Lei and Yao Zhijian, he is worried, counting those rich and famous bodyguards at the scene, they are quite a few more people, there may be some danger .....

The good thing is, he didn't have to wait long before Lao Zhou rushed over in his car, but it was Lao Zhou who came alone.

Ji Feng frowned and said, "Just you?!"

Old Zhou said, "We all act alone, with a single line of contact, this ....."

He heard the fierce gunfire in the distance, and the harsh shouts and cries for help, "You escaped?!"

Ji Feng didn't have time to tell him more, he just said, "Long story short, I have a very important person here, I have given him a nerve poison, now he has turned into an idiot, but this state can answer questions, he has a close relationship with an organization called Dynasty, he also has a reformer around him to protect him, you take him to a safe and hidden place for interrogation, make sure you interrogate him carefully ....."

As he spoke, he had already led Lao Zhou to the car.

As soon as Old Zhou saw the person in the car, he was shocked, "It's ..... how is it him?!"

"If it wasn't him I wouldn't have had to call you here!" Ji Feng said, "All right, cut the small talk, hurry up and take the person away, I still have things to do on my side, I'll contact you again if I need to next!"

With that, he grabbed the fat-headed dignitary's belt with one hand, while his other hand clasped his shoulder and directly dragged him out of the car.

Old Zhou hurriedly said, "He's still bleeding?!"

Ji Feng said casually, "Just now I kind of didn't control my temper and gave him a little lesson, turn around and you can simply bandage him up, don't worry, he can't die before your interrogation is over ....."

He shoved the fat-headed dignitary into the back seat of Lao Zhou's car and waved his hand, "Get going, and remember to interrogate carefully!"

Without waiting for Lao Zhou to speak, he hurried back.

Seeing this fat-headed dignitary, Old Zhou's face still couldn't help but have a look of shock, he couldn't help but secretly staggered, under that sinister environment Ji Feng was able to catch this man, this is really .....

The first thing you need to do is to get the best out of it.

In the end, Old Zhou gave up the intention of immediately asking his superiors, because Ji Feng had told him that time was limited and that this fat pig was still bleeding and had to be interrogated as soon as possible.

In particular, a piece of information that Ji Feng had just said had shocked Old Zhou beyond belief, this fat pig had colluded with the dynasty?

Scum!

Bastard!

Old Zhou couldn't help but secretly curse twice in anger, and was so angry that he kicked this fat pig twice more before he hurriedly opened the car door and got into the driver's seat and hurriedly started the car to leave .....

.....

"Huffing~~huffing~~"

Yang Bin felt his eyes were blacking out, his body was weak, and if there wasn't still a huge threat in front of him, he wouldn't even have the strength to stand up.

At this moment, Yang Bin had seven or eight wounds on his chest, his clothes had long been torn and tattered, he was covered in mud, there was also a bruise on his forehead and a piece of skin had fallen off, one of his hands was even drooping and showed an abnormal twist at his arm, it was obviously a fracture!

At first glance, Yang Bin looked like a man who had just been in a major car accident, and the burning sensation in his nose and lungs reminded him that he was almost at the end of his rope and would not last much longer!

However, Yang Bin still bit the tip of his tongue, and the sharp pain made him wake up a bit, but he saw the monster in front of him walking slowly towards him, only a few metres away.

In fact, the monster was no better at the moment, half of the monster's left shoulder had caved in, half of its face was sunken in, and one of its eyes had burst, but it was not like normal human blood, but a strange liquid and something .....

The monster's one leg was also obviously fractured, one leg was dragging behind it, but he was bending and moving forward slowly, the only one left had a ferocious glint in its eyes, full of hatred for Yang Bin!

This damned brat, he was so tenacious, so fierce, but at this moment, this brat was obviously at his limit, and there was no one else around, the others had all run away, no one could help him anymore!

He was dead!

## Campus Master Chapter 2877

“Well .....

Yang Bin let out a muffled cry, the severe pain on his body made him unable to help but frown a little, however, it also made him a little more awake, the originally blurred scene in front of him gradually became a lot clearer, but soon, his expression that originally carried a hint of pain became a little gloomy.

He was almost at the end of his rope, his body's true qi had almost been depleted, his strength had also dropped, and he was still a little dizzy.

I'm afraid I won't be able to survive this last blow!

Yang Bin said in his heart, but it was nothing to be afraid of, at least, he had entangled the monster and even consumed it, and it was no better than him!

Moreover, it had also created an opportunity for Mister to buy time. I believe that with Mister's skills, the fat pig must have been caught by now, and might even have been finished off.

That's good!

Even if he died, he would have died worthy of repaying the kindness of the gentleman. Only, the old mother at home, and the revenge of the Yang family, were no longer necessary to think about.

It seemed that he could smell the strange smell coming from the monster's body between his nostrils, Yang Bin bit his tongue again, the sharp pain made him awake again, he suddenly grinned: “Bastard, I didn't think you would come to this point!”

The transformer's only remaining eye stared angrily at Yang Bin, his eyes filled with resentment and murderous intent.

It was this damned brat in front of him that had consumed him to this point, he had to kill this brat and then he had to escape as soon as possible, otherwise, any ordinary person might catch him now, and even if he was allowed to consume really too much, the biological bomb inside him might even explode on its own, and then, he would end up in pieces.

“You're going to die!”

The monster had caved in half of its face, and its words were somewhat slurred, but the killing intent in those words was unmistakable.

Yang Bin grinned, “If I'm going to die, I'll drag you down with me!”

The Transformer let out a low roar, but he seemed to have no energy left, but he still attacked.

All of a sudden, Yang Bin's eyes burst open, and he used all his strength, frantically pushing the remaining trace of internal energy in his body, and roared with all his strength, facing the monster.

“Boom!”

Once again, the two of them fought hard, and when their physical strength had reached this point, it didn't matter what techniques or moves they used, what they were fighting for now was who had better stamina, who had more perseverance, and who could hold on better. Whoever can hold on to the end will win.

There was a thud.

The two men fell to the ground at the same time, and Yang Bin only felt a spinning of the sky and the earth.

He looked sideways at the monster and couldn't help but laugh.

He found that the monster was actually not much better, also struggling on the ground, but not getting up after struggling for several times.

Phew!

Yang Bin exhaled quietly, he was more awake at this time, because the blow just now had caused another injury to his body, his ribs were broken, but to be able to fight the monster to this point, Yang Bin felt that it was worth it!

Moreover, this was because Yang Bin had relied on his instinctive martial arts moves to avoid the vital parts at the critical moment, otherwise, he would have been a dead man by now.

"Stomp stomp stomp ....."

Just at this time, there was the sound of hurried footsteps in the distance, along with Ji Feng's loud shout, "Bastard! I'll kill you alive!"

As soon as Yang Bin heard this voice he immediately laughed, Sir is here!

"Roar ....."

The monster gave a fierce low roar and then immediately struggled violently, someone was coming, he wanted to escape because without replenishing his energy, any one of them could now catch him and make him a prisoner not to mention that if he was caught, then he would have to wait for death!

Yang Bin's face, which was originally wearing a smile, immediately froze, the monster had actually gotten up, and it looked as if it wanted to run!

"Ah!"

Yang Bin shouted, also began to struggle desperately, but no matter how he struggled, but really could not lift the strength, in desperation, Yang Bin violently rolled over, and then a hand to hold the monster dragged behind the leg, he gritted his teeth, desperately hold just did not let go.

"Roar ....."

No matter how the monster roared in anger, Yang Bin just wouldn't let go of his hand.

The monster was furious and raised his hand to smash down viciously towards Yang Bin's head, he really hated this kid who had beaten him into this state to the extreme.

Yang Bin grinned, he wasn't afraid of death, but this monster wouldn't get away in his hands!

"Hoo!"

"Boom~" there was a sound.

Yang Bin only felt a sudden strong force coming from his hand, which instantly broke away from him, and even brought him forward with a violent creation, and the next moment, he saw the monster that he had originally held on to, flying straight across the air and hitting the ground with a heavy bang.

Immediately afterwards, Yang Bin saw Ji Feng.

But it was Ji Feng who, upon seeing the monster about to strike at Yang Bin, directly flew over with a kick in the air and kicked the monster out.

He hurriedly picked up Yang Bin and hurriedly asked, "Yang Bin, how are you?!"

Yang Bin gasped hard and said weakly, "Sir, I'm, probably going to die ....."

"Bullshit, I haven't allowed it yet, how can you die!" Ji Feng immediately drank: "Don't forget that your life is mine, you can only die if I let you die! Now, I want you to hold on to me!"

"....."

Yang Bin opened his mouth, but no words came out, only a ragged gasp.

Seeing this, Ji Feng immediately said, "Don't say anything, get some rest first!"

With that, he hurriedly took out a small bottle from his pocket, poured out two capsules of Special Effects Current and hurriedly fed them to Yang Bin, saying, "Hurry up and take the medicine!"

After letting Yang Bin take the special effects current, Ji Feng checked his condition again and found that his injuries were all external, although they were serious, they were not fatal enough, and with the special effects current hanging on for dear life, they would not be life-threatening, so he then put his mind at ease.

Then, only then did Ji Feng's gaze fall on the transformed man's body.

"Bastard!"

Ji Feng's voice was cold to the core as he walked over with big steps, seeing that Transformer lying on the ground and struggling, he stepped on the Transformer's head with one foot and said coldly, "An inhuman and inhuman thing, how dare you struggle!"

The reformer's body was on the verge of being smashed at the moment, and one hand was still struggling. With a cold light in Ji Feng's eyes, he kicked down and only heard a crunching sound, and the reformer's head directly lolled and did not move.

After that, Ji Feng immediately injected bio-current into him, first controlling the bio-bomb in this reformer's body, before throwing him aside and helping Yang Bin to sit in a car, then, he went after the others.

Before he went, Ji Feng looked back at the modified man again, although he had stepped on the guy's neck, the guy was not dead, this was an advanced modified man, all the bones in his body had been modified, except for his skull, what Ji Feng stepped on and broke was the combination of his cervical vertebrae and skull.

Ji Feng wanted to call Lao Zhou to come and take this guy away as well, but after careful thought he felt it was not right, Lao Zhou did not know if he had experience in dealing with reformed people, and ..... Ji Feng did not want to give both people who knew the inside story to Lao Zhou, he wanted to take one himself!

So, Ji Feng did not contact Old Zhou again.

“Buzz~~!”

At this time, the roar of an engine came from the distance, and two cars were seen driving over quickly, and Ji Feng immediately saw that the ones driving were Zhang Lei and Yao Zhijian respectively, and they each drove a car.

Squeak...!

The car stopped in front of Ji Feng, Bai Zhu got down from the car, followed by Yao Zhijian and Zhang Lei.

“Crazy, look what I brought back for you!” Zhang Lei laughed harshly.

“All get out!”

Yao Zhijian shouted.

At once, several people came down from the car, each one cowering and extremely wretched, but it didn't stop Ji Feng from recognising them.

These were a few of the rich and famous people who were joking around with that dignitary earlier.

These people were full of horror, especially because this was a picture of hell on earth in front of them, which made their legs tremble and their bodies shiver as if they were sieve chaff.

Ji Feng swept a glance at them, then turned his head and asked, “Where's Old Liu?”

Bai Zhu and the others had all come, but Liu Zejun was nowhere to be seen.

Zhang Lei said, “He went to invite someone! Someone is afraid that he doesn't want to come back, so I asked Old Liu to invite him back!”

Ji Feng asked, “Who?”

“Buzz~”

Just as he was talking, the car drove back, Ji Feng hit his eyes and took a look at the car and couldn't help but stare: “This is ..... Ji Lihai's car?!”

This was a Bentley, Ji Feng had seen it before, when he came to Treasure Island on the first day, when Ji Lihai approached him for a talk, he was riding in this car.

Ji Lihai was here too?!

Ji Feng couldn't help but put his hands behind his back and watched the cold-faced Liu Zejun get out of the car, then, gun in hand, he 'invited' Ji Lihai out of the car.

"Mr. Ji, we meet again!" Ji Feng's expression went cold, "You're also involved?!"

"What do you think?!" Ji Lihai, however, was not the least bit flustered, and even asked a faint rhetorical question.

Ji Feng smiled and ignored him first, but turned his head to look at several other tycoons, none of whom dared to look at him, whether they were the ones who had previously been fierce to put him to death, or the ones who were gloating.

Zhang Lei asked, "Crazy, what about these people?!"

Ji Feng said indifferently, "Their bodyguards all died in this melee, how do you think they will be dealt with?!"

Zhang Lei then laughed: "They were all killed by the Cheetah Mercenaries and the Vicious Wolf Gang!"

This meant that ..... had killed them all!

Those rich men instantly turned pale!

Campus Master Chapter 2878

"Ji, Ji Feng, you ....."

"How dare you!"

"You want to kill us? Do you know what you're doing?"

Once Ji Feng's words came out, all those rich and famous people immediately turned pale, their faces were pale, but in a whirlwind, they all couldn't help it, Ji Feng actually wanted to kill them all, who wanted to die!

The majority of them were actually using this madness to vent their fears, because the scene in front of them was too frightening, especially the corpses on the ground, and the scene of those people being devoured in the blazing fire, which made their stomachs churn and twitch.

Falling into the hands of Ji Feng, their hearts had already been filled with fear, and some of them had even been blank in their minds, and now when they heard Ji Feng say that he was actually going to kill them all, the kind of extreme fear in their hearts burst out at once.

"Shut the fuck up!"

Zhang Lei suddenly shouted, his icy gaze sweeping over these people, instantly causing their voices to stop abruptly, their faces pale, not daring to look at Zhang Lei at all, not even daring to touch Zhang Lei's gaze, especially when they saw Zhang Lei's icy look and that fierce look in his eyes, their hearts jumped wildly.

In the face of life and death, no celebrity or tycoon is any better than an ordinary person, especially when faced with the real threat of death, and they are not even as open-minded as ordinary people.

Money and status give these people the mentality of thinking they are superior, but when money and so on have lost their effect, they are instantly reduced to being worse than beggars.

“Whoever shouts nonsense again, I’ll chop him up and feed him to the dogs!” Zhang Lei said coldly, “All fucking scum one by one, usually look like a human being, what the hell!”

“.....”

The group of people, being scolded by Zhang Lei, none of them dared to talk back, and there was even someone who looked at Zhang Lei fawningly, as if hoping that Zhang Lei could give him a break.

He went up and kicked the man to the ground, saying in disgust, “I let you disgust me! You’re a celebrity, okay? I’m fucking disgusted!”

This is how these so-called celebrities, the rich and famous, just before this were thinking of killing them, but now, they would be fawning over them.

This huge contrast and intense disgust really gave Zhang Lei goosebumps all over his body!

Ji Feng was also disgusted by what he saw, and he waved his hand and said, “Old Liu, you handle it!”

The most suitable person present to handle these people would be Liu Zejun. He nodded his head and said, “Yes.”

At this moment, those celebrities and tycoons really couldn’t care less about saving face anymore, death was already at their heels, if they didn’t beg for forgiveness I’m afraid they would now have to be killed on the spot!

“Ji Feng, spare my life, I know I’m wrong!” A rich man said hurriedly, his face full of fear.

“You can’t kill me .....”

Everyone was anxious, no one could be that calm when death was coming, except for one person – Ji Lihai.

Zhang Lei bellowed, “Shut the fuck up! Don’t you think it’s too late to say this now?”

Everyone couldn’t help but blush again, and just as they wanted to speak, Zhang Lei waved his hand and said, “Old Liu, leave it all to you!”

Liu Zejun immediately nodded, and then without saying a word, he grabbed one of them by the hair and pushed his head down, his hands violently staggered, only to hear a crunching sound, that man’s head instantly drooped down, only to see his body twitching a few times, and then he was casually thrown to the ground by Liu Zejun as if he were a dead dog.

A wealthy man, who was extremely prominent in the northern city of Treasure Island, was killed just like a chicken!

The tycoon’s eyes stared dead, filled with horror and regret.

This scene sent chills down the spines of the others, and they couldn't help but shiver violently, unable to even say the words to beg for mercy, as soon as they opened their mouths, their teeth would fight and they couldn't speak at all.

However, just because they were afraid did not mean that Liu Zejun would stop moving. In a flash, the man fell to the ground trembling violently, and despite his efforts to cover the wound on his neck, the artery was severed, so how could his hands alone hold it down?

The others were terrified!

Watching two people of similar status and standing to themselves die in front of their eyes was no different from killing a chicken or a sheep, and the intense fear had already made them weak and they were about to fall to the ground.

At this time, Zhang Lei suddenly said, "If you want to live, it's not impossible!"

Swish!

It was as if these words carried some kind of magic power, instantly attracting the attention of those celebrities, causing their originally pale faces to take on a hint of blood, and their eyes were even filled with anticipation.

Zhang Lei said, "Why do you want to kill us?!"

"....."

No one answered, all of them were looking at each other, this question, it was not easy to answer.

Zhang Lei nodded his head and said, "Very well!"

He stretched out his palm and made a downward slashing gesture, and the next moment, Liu Zejun snapped another man's neck and threw that man aside with an expressionless face.

"....."

This scene sent chills down everyone's spine and made their bodies stiffen.

Immediately afterwards, every one of them desperately grabbed a reply, "We are under the compulsion of others ....."

"This is the meaning of the big brother from above ....."

"Actually, I didn't want it either!"

Zhang Lei did not deny it, just swept them a glance, at once, the scene was silent, Zhang Lei and Liu Zejun's cooperation, that cold tactics, the ruthlessness that did not take them seriously at all or even kill them if they wanted to, had long ago made the fear deep into their bone marrow.

"Next question!" Zhang Lei said coldly.

.....

Seeing this scene, Ji Feng couldn't help but shake his head and smile, this kid Zhang Lei was really skilled in fixing people, these so-called celebrity tycoons, although not all of them were straw men, but in the face of death, they could only bow their heads.

Ji Feng just looked at them for a few moments and then stopped bothering about them, his gaze, on the other hand, fell on Ji Lihai's body.

"Mr. Ji, I really didn't expect us to meet under such circumstances!" Ji Feng said in a deep voice, "I think you need to give me an explanation!"

"I didn't expect it either."

Ji Lihai said, he really didn't expect that in that critical situation, Ji Feng would still be able to turn the tables, especially that terrifying sea of fire, that was so terrifying that Ji Lihai didn't even think about it.

He asked, "What explanation do you want?!"

What explanation do you want?

Ji Feng stared at him and couldn't help but sneer. What explanation did Ji Lihai want that he wouldn't know?

"You're involved in this matter?!" Ji Feng asked.

"What if I were to say yes?!" Ji Lihai asked.

Ji Feng's eyes suddenly narrowed for a moment, a cold aura flashed from his eyes, Ji Lihai was admitting this? If that was the case .....

Ji Lihai suddenly said, "No matter if I'm involved or not, can you release my bodyguard first, even if I'm really involved, it's still my business and has nothing to do with my bodyguard!"

Ji Feng suddenly laughed, did Ji Lihai really think he was an idiot, or did he think he himself was an idiot? His bodyguard was innocent? Who would believe that?

However, Ji Feng couldn't help but be a little tricky. If it were anyone else, he wouldn't need to say anything at all, even if it was the leader of the Chuk Yuen Gang, if he dared to make a move against him, he definitely wouldn't care about anything, he would just kill him!

But the problem was that Ji Lihai was different, he was Ji Yuhui's old man!

"Ji Feng!"

Just as he was saying that, it just so happened that Ji YuYi's voice came, Ji Feng turned his head to look and saw Ji YuYi running over quickly, the evening gown on her body was torn down the middle and then tied directly to her legs ..... Ji YuYi ran quickly to follow, her eyes fell on Ji Lihai's body and then looked at the others, she immediately understood what was going on.

There was no doubt that Ji Lihai had been caught by Ji Feng!

Ji YuYi was just about to say something, but she saw Ji Feng suddenly smile, "YuYi, you're just in time, quickly take your father back, it's too messy here."

“You .....

“We’re leaving too!” Ji Feng smiled as he interrupted Ji YuYi.

“Ji Feng!”

Ji YuYi was a bit confused, she looked at Ji Feng and then at Ji Lihai, wondering what was going on in between!

Ji Feng smiled and nodded to her, saying, “That’s all for now, keep in touch!”

“.....”

Ji YuHai was really a bit unsure, but she also knew that at the moment Ji Feng must have a lot going on, and with such a big thing happening here, the police would have to come sooner or later, even if someone from above had said hello, the police would at most arrive later, but they would definitely come.

So it was best to leave before it was too late.

On the contrary, Ji Lihai, gave Ji Feng a deep look and suddenly smiled: “A hero comes out of a young man!”

Ji Feng also gave him the same look and said, “Mr. Ji, everything can be done once but not again, there are some things that I don’t want to have a second time!”

Ji Lihai laughed and said, “Young man, don’t be so arbitrary in everything, let’s get things clear first!”

Ji Feng frowned and moved in his heart, but he saw that Ji Lihai had already turned around to leave.

“Young Ji!”

Bai Zhu whispered beside him, “Just let him go?!”

Ji Feng nodded and said, “Release his bodyguard, return the car to him, and let him go!”

“But he’s a suspect!” Bai Zhu reminded.

“I know.”

Ji Feng nodded, of course he knew that Ji Lihai was highly suspicious and was probably involved in this matter just like the other rich and famous people, but when Ji YuYing resolutely took his mobile phone to record the video and was going to accompany him to meet the attack of the Cheetah Mercenary Corps and the Vicious Wolf Gang, it was already destined that regardless of whether Ji Lihai was involved or not, Ji Feng was going to let him off the hook!

However, the others were not so good at saying that!

Campus Master Chapter 2879

“Are there any questions that haven’t been accounted for?!” After Ji Feng watched Ji YuYing and Ji LiHai leave in the car, he couldn’t help but shake his head, but he saw that on this side Zhang Lei was gritting his teeth and scanning the few celebrity tycoons.

“..... No more!”

Those people shook their heads one after another, the questions Zhang Lei asked they answered honestly – in this situation where their necks could be wrung out at every turn, give them a few more guts they wouldn't dare to lie!

Zhang Lei nodded: “Very well!”

The rich and famous finally breathed a slight sigh of relief, and one of them was about to ask if they could be released when he heard Zhang Lei say, “Now that you've finished answering, that's it!”

Several people froze.

Zhang Lei's face turned cold: “Kill them all!”

Swish!

In the next moment, the faces of those few celebrities and tycoons, which had just eased up a little, instantly turned white again. However, at this moment, they no longer had the time to react, the moment they heard Zhang Lei's order, Liu Zejun and Yao Zhijian struck at the same time!

Ta-da-da .....

With a burst of suddenness, these few celebrity tycoons were all beaten into sieves, with fear in their eyes, and fell to the ground.

Ji Feng didn't even look at them, since he wanted to kill him, he had to be prepared to be killed by him, those who kill, people always kill!

“Crazy, where to next?!” Zhang Lei asked as he came to the front.

At the moment, they couldn't stay here, although the blaze in that courtyard was much smaller, but I'm afraid that the walls and the ground had been scorched, there was no way to live here, moreover, so many people had died here, should they stay and wait for the police to arrest them if they didn't leave yet?

Ji Feng looked back and said, “Go back overnight!”

Zhang Lei was stunned, “Go back?!”

Ji Feng nodded and said, “Yes, we have to go back. The situation on this Treasure Island is complicated, and since all our missions have been completed, there's no point in staying here anymore. And .....”

He smiled, “After killing so many people, if we still stay here, wouldn't that put the Treasure Island authorities on the spot? At that time, even if people don't want to arrest us, under the strong pressure of public opinion, but they can't not arrest us!”

Zhang Lei laughed, “That's true! All right then, let's go back!”

In his heart, he was quite proud that just a few of them had killed so many people on the other side, moreover, several celebrities and tycoons, including even that dignitary, had died in their hands!

But even if they had killed so many people, I am afraid that the Treasure Island authorities would not dare to arrest them easily, at least, not until they had solid evidence, and moreover, I am afraid that the Treasure Island authorities would not want to get into such a bad situation with the Mainland.

But what really made Zhang Lei feel excited was that a few of them had taken out the entire Vicious Wolf Gang, as well as those remaining members of the Cheetah Mercenaries, including the boss of the Cheetah Mercenaries!

This bunch of clowns had been jumping up and down on Treasure Island before, coming out from time to time to say things on TV and in the media to provoke the mainland, and even some of their words were seriously insulting, but these people were hiding on Treasure Island, so even if the mainlanders were annoyed, they couldn't put their hands up here.

And these people also know that their actions will definitely anger China, so they actually do not have a high profile on the island, and usually, apart from provoking China, more often than not, they live in seclusion and only work as bodyguards for that dignitary. And that dignitary also protects them and wants to use them to fight against the mainland, which makes some people who have the intention to get rid of the remaining members of the Cheetah Mercenaries even more helpless.

Now that the Cheetah Mercenaries had been completely wiped out, it gave them all a sigh of relief at once!

In fact, now they had to leave as well. With all the commotion here, the police would definitely come, and when they arrived if they found the scene here, I'm afraid they would all directly inform the army, and if they saw Ji Feng and the others here, even if Ji Feng had a background, they would have to arrest him!

There were too many dead people here, corpses all over the courtyard, outside the courtyard to the road and even all the way to the road, there were corpses all over the place, it was like a hell on earth, even in the war years, it was hard to see such a scene in the city!

It was a massacre!

So, in order to avoid unnecessary trouble, Ji Feng and the others simply packed up and then left immediately! Of course, Ji Feng didn't forget to take the transformer who was almost all beaten up with him.

For this Transformer, Ji Feng had not yet carefully observed and studied it, moreover, since this guy was that dignitary's bodyguard, then obviously he must know a lot, all these, Ji Feng had to ask out of his mouth!

"Buzz~~!"

With a roar of the engine, Ji Feng and the others quickly drove away, leaving only the still burning small building, and ..... the corpses all over the place!

After a big battle, none of those who came after Ji Feng survived, all of them, including the fat-headed dignitary, were killed!

When the police officers who arrived at the scene saw the corpses on the ground, the blazing fire, and the pungent smell in the air from the burning corpses, the police officers who were used to seeing black `gang fights, and even corpses, could not help but feel a fluttering in their stomachs, and some of those who were not able to withstand it, squatted on the ground holding their stomachs and vomited furiously!

And the officers who brought the team here were dumbfounded and shocked on the spot!

This ..... is too horrible!

So many people had died, this was a stab in the dark! It's been years since so many people have died in one go on Treasure Island, and there were several influential and wealthy celebrities in North City and even on Treasure Island!

This is simply a big earthquake!

The officer in charge of the team was in a state of shock, because from his professional point of view, he was even more shocked – just by looking at the weapons on the ground and the location of the people who had been killed, he could deduce that those people were attacking the building. How sudden the fire must have been!

In addition, the remaining people, looking at their posture at this time, it seems that they were turning their backs to the small building ..... The officer suddenly had a shock in his heart ..... Could it be that these people were running away at that time?

This is the only explanation that makes sense, because these people were clearly outnumbered at the time, and looking at the weapons on the ground, it is natural to say even less, these weapons are almost enough to fight a small war!

But with the superiority of numbers and weapons, they were running away?

This guess really freaked out the officer in charge!

Look at the corpses on the ground, the leader of the Wolf Gang, Wang Yongsheng, the officer recognized him right away, even though he had a bloody hole in his head, but having dealt with the Wolf Gang for such a long time, how could the officer not resist this guy who was so famous and vicious in the North City?

There are several other famous and rich people, this is surrounded by their bodyguards, and ..... this is the Cheetah mercenary group, right, unexpectedly all dead!

Suddenly, this officer noticed a problem ..... among these dead people, it seems that there is no that dignitary!

He immediately asked people to look carefully, but, in the end, no one was found, this officer immediately thumped in his heart, bad, does it mean that the dignitary was kidnapped away?

Considering this situation, he immediately reported it to his superiors, while he himself rushed to notify the relevant departments to come and deal with the scene, and then ..... he was thinking about how to take care of the aftermath!

That's right, the aftermath! And not solve the case!

The fact is that he already knew in his heart who did this today, not only he knew, many people above him knew, even, before this they had someone who knew, and then when the business salon was held in North City this evening, they all received the news that someone wanted to take Ji Feng's life tonight!

But who would have thought that ..... these people would die here?!

A dignitary had disappeared and was also the main protagonist of this matter, the top brass of Treasure Island were all startled at once, in fact, even if it wasn't this dignitary who had disappeared, just the mere fact that so many people had died at once, this was definitely not a small matter!

Late at night, Ji Feng had already activated the emergency contact method and successfully boarded the boat at a small pier, taking with him, at the same time, the reformer he had knocked unconscious.

However, before leaving Treasure Island, Ji Feng contacted a few people to set a few things in stone.

The first thing was to ask Old Zhou to make arrangements for the fishermen couple. If they were willing to settle in the mainland, then Ji Feng would do it for them, and if they were not, then he would listen to their wishes and see what they wanted and try to satisfy them.

Afterwards, Ji Feng called Ji Yuhui again and told her that he was going back, and didn't say much beyond that, but when Ji Yuhui was about to end the call, she suddenly said, "Ji Feng, I'm sorry!"

And then there was a busy tone on the phone and she hung up the phone.

Ji Feng was a bit stunned and wondered how much did Ji Yuhui mean by this sorry sentence and because of what she was saying sorry. Was it because she had invited herself to the salon and ended up in an ambush, or was Ji Lihai really involved in this matter?

Ji Feng did not know for the time being, but on second thought, he put the matter aside for the time being, as there were more important things to come – whether he could return to the Mainland safely was still an open question!

With such a big incident happening on Treasure Island, and many people knew who it was related to, it was impossible for the top brass of Treasure Island not to react at all. And Ji Feng didn't know if this emergency evacuation route arranged by the military was really foolproof or not!

According to the youngest uncle Ji Zhenping, this is an emergency route and nothing should go wrong, but is it really safe or not, as long as one minute does not reach the mainland, there is a minute of danger!

However, Ji Feng did not know that at this time, the Treasure Island had already exploded into a frenzy!

Campus Master Chapter 2880

Just as Ji Feng was initiating the emergency route back to the mainland, at this moment, the Treasure Island was already like an atomic bomb exploding in the sea, turning up huge waves and blowing up!

Six or seven tycoons, all of whom were among the top-ranked tycoons and celebrities in North City, had all been killed, and the deaths were so miserable!

Not only that, the scene was like a hell on earth, it was so shocking that people's hands and feet were tingling, the corpses on the ground, the blazing fire, it made people's scalps explode!

Not to mention the fact that there was also a very famous dignitary on the island who was missing and was tentatively suspected to be dead, but the corpses were like an inferno!

The whole island was in an uproar!

Within a very short time, the internet on the island was full of photos of the scene, which was so shocking that it was like a horror movie!

These photos were taken by some media reporters who arrived at the scene as fast as they could. Although the police had been informed by the top that they had to respond as late as possible and delay as long as they could, with so many media outlets on Treasure Island, it was impossible for the top brass to send out notices to all of them!

So, when the sound of explosions and fierce gunfire, as well as the blaze, drew the journalists to the scene, it had already become an inferno, and the journalists were stunned!

And then, a rush story was born.

Even though it was already late at night, the whole island was still shaken and in an uproar, and there were many people who were so shocked that they stayed up all night.

It was horrible!

Also ..... too shocking!

Many people guessed that this must be the result of a firefight between some black's gangs, so although this is a big news, for many people in Treasure Island, they are more interested in the photo itself, how many people died, how they died, how many weapons were used in the firefight, what type of weapons were used .....

These are the questions they are most concerned about, other than who won the fight between the two sides, but they don't care much, because the locals of Treasure Island have long been used to the existence of the black 'gang' in this kind of living environment, it's been decades, it's been like this for a long time!

They were more concerned about who won and who lost, as it might mean that they would have to pay protection money to someone early tomorrow morning.

These are just the reactions of ordinary netizens, but in fact, at this moment, the top echelons of the island have already exploded into a frenzy!

But they know that this is not a so-called gang fight at all, this is someone in the top echelons of Treasure Island who wants to make the Mainland look bad, who doesn't want the Mainland to get so close to Treasure Island, who wants to please his masters in Rice and Kepong, and who wants to work for his own interests, so he led someone to kill Ji Feng!

As a result, he failed to kill Ji Feng!

Not only did he fail to kill Ji Feng, but in the end, all of his men were involved, and there were corpses all over the place! The corpses were everywhere!

I don't know how many people were shaken by it!

Ji Feng, he was too strong! According to the information, it seemed that Ji Feng only had a few people with him, but he had killed so many people with just these few people!

You know, there was also the Cheetah Mercenaries among them! There was also the infamous Bad Wolf Gang! Not to mention the bodyguards of the rich and famous, some of whom were ex-soldiers with extraordinary combat skills, while some were top international bodyguards, some of whom had even attended the Siberian Devil Training Camp!

Such people, so many of them, but they were all taken out by Ji Feng with just a few people?!

It was simply unbelievable!

What's more, the pro-MI political leader was nowhere to be seen, as if he had disappeared into thin air!

Some of the top brass knew in their hearts that if all these people were really killed by Ji Feng, then that dignitary must have fallen into Ji Feng's hands at this moment, otherwise, it was impossible that he was the only one who escaped when everyone was dead, he was not that capable!

However, the top brass of Treasure Island couldn't just stand by and watch that dignitary fall into Ji Feng's hands like that. Moreover, with such a big 'case' happening, the officials definitely had to do something, otherwise this term in power would definitely have to be overthrown from power by popular protests!

So that night, the authorities of Treasure Island issued an emergency order and notice to put the whole city under martial law, to search for the dignitary and, at the same time, to arrest the suspect!

Many people were awakened from their sleep, and many people were alarmed by the police cars roaring through the streets and the rumbling sounds, and got up to see what was going on.

When the news spread, it was as if a massive earthquake had hit the whole of Treasure Island, and many people were so jaw-dropped that they could not speak for a long time.

Among them was the contemporary head of the Bao family – Bao Guoliang!

When he heard the news, he was on his way to the hospital, his face was so blue that he could almost spit fire out of his eyes, his own son had been beaten to death, and the news from the hospital still said that he was being resuscitated.

“Ji Feng!”

The company's main business is to provide a wide range of services and services to the public, including the provision of services to the public and the provision of services to the public. ”

He did not go on, but the fierce look and the cold light in his eyes were enough to show how ruthless he was inside!

“Dang it .....”

Suddenly, Bao Guoliang's phone rang, and after glancing at the caller ID, he immediately picked up the phone and said in a deep voice, "What about it?!"

An eager voice came over the phone at once, saying hurriedly, "Mr. Bao, something, something big has happened!"

Bao Guoliang frowned: "What's the big deal?"

"They're all, they're all dead!" The voice on the phone still carried a hint of trembling and said in a panic.

"What are all dead, say it clearly!" Bao Guoliang was very annoyed, he was in a bad mood now, the person on the other end of the phone was stammering and vague, he was instantly furious!

"Yes, it's the people who were after Ji Feng, all dead ....." The person on the other end of the phone immediately said what happened quickly, "Now there are reports on the net and in many media, all dead! "

"What did you say?!" Bao Guoliang couldn't believe his ears, even he thought he had heard wrong or the person on the other end of the phone had said it wrong.

"Mr. Bao, the people who were after Ji Feng are really all dead!" The person on the other end of the phone repeated once more.

Bao Guoliang said in a deep voice, "I know, keep me posted on any news!"

After saying that, he hung up the phone, then immediately dialed another number, as soon as the phone was connected, he heard him ask: "Hey, Lao Xu, it's me, can your police department receive any news about the commercial salon ..... in North City this evening?"

"Mr. Bao, you want to ask about the case that happened this evening, right? I can only tell you that a lot of people died at the scene, it was so tragic, it was like hell on earth!"

When Bao Guoliang heard this, his heart thumped, and he immediately asked, "Then, the side that was being chased, did anyone die?"

The man known as Old Xu said, "You're talking about those mainland boys, right? It's really evil, none of those people died, all those who died were from the Bad Wolf Gang and the Cheetah Mercenaries, and ....."

Bao Guoliang immediately asked, "What else?!"

Old Xu said, "There are also a few people from the North City ....." he said a few names.

"What?!"

Bao Guoliang lost his composure, he shouted in shock, "How is this possible?! Old Xu, you guys, have you made a mistake? How could they possibly ....."

Of course, Bao Guoliang knew too well who these few people were, these were all the wealthy people in North City, and could even be said to be some of the most influential people in the business community in North City, at the same time, they were also the ones who were closer to that dignitary, and they were also the masterminds to strike at Ji Feng this evening.

But how could these few people have died?

Did they personally go after Ji Feng with guns? Or did they feel too tired of living and too uncomfortable earning so much money, so they simply couldn't think of anything else and all committed suicide en masse?

This is simply a joke!

Old Xu said, "It's true, now their bodies have just been taken away by the white car, by the way, there's that one, the body hasn't been found yet, and I don't know if it's dead or alive ....."

The phone hung up at some point, and after hearing these words, Bao Guoliang was struck by lightning and his whole body was stunned. The old Xu's words, let him roughly understand the result of the matter, although still do not know how things went so, but such a result, is enough to make his shocked scalp tingling, goose bumps all over!

Those rich people are dead?

And that dignitary ....., In the words of Lao Xu, the body has not been found yet, whether it is dead or alive is still unknown ....., Bad Wolf Gang, Cheetah Mercenary Corps, the whole army was wiped out!

This is unbelievable!

How is it possible?

The fact is that the people of the country are not aware of this, but they are not aware of the fact that the people of the country are not aware of this.

The thing ..... is true!
