

Campus Master Chapter 2881

Bao Guoliang, who was sitting in the car, was dumbfounded, his whole body in shock.

It was too shocking!

No one could understand the shock and feeling in Bao Guoliang's heart, nor could anyone understand how scared he was at this moment. It wasn't because he suddenly heard that so many people had died, nor was it because he was naturally timid, but because he was almost one of those people who died!

It was so close!

In fact, this matter was known to him before, and, the dignitary and several celebrities who were after Ji Feng had also talked to him and had received a certain degree of assurance from him, and perhaps in a way, it was this promise from him that gave that dignitary enough strength and good reason to go after Ji Feng.

From this point of view, he was actually involved in this matter, and moreover, could almost be considered as directly involved!

However, this was not what Bao Guoliang was most afraid of, all those people were already dead, while Ji Feng was not. No matter which way you look at it, Ji Feng should not pursue the matter any further, and even if he knew that he was involved in this matter, I'm afraid he wouldn't be too aggressive in his pursuit, at least, he still had hundreds of thousands of people under him to feed, of which there were 200,000 to 300,000 people in Mainland China alone!

Even the top brass of China would never stand by and watch 200,000 to 300,000 people lose their jobs at once!

What Bao Guoliang was really afraid of was that the result of this operation was so horrible that so many people had died!

However, Bao Guoliang is not a person who likes to be compassionate, the reason why he is so scared is actually because, today, if there is nothing unexpected, he should also be appearing to visit the scene of how the Cheetah Mercenaries and the Vicious Wolf Gang hunted down and took out Ji Feng, and be a spectator along with several other celebrities and rich people, and eventually will also be just like them, sprawled out on the spot!

If

If it wasn't for what happened at the venue earlier, Bao Weisheng and Gao Jianyun conspired to poison Ji Feng, and as a result, instead of calculating Ji Feng, they were severely injured and are still being resuscitated to this day!

However, no matter how Bao Guoliang could have imagined that it was because his son was injured by Ji Feng that he ended up avoiding a big disaster!

If it wasn't for the fact that he had to go to the hospital, I'm afraid that now, just like those few celebrities and tycoons, all of them would be dead on the spot!

“..... Go, go to the hospital, hurry up!”

Only after a long time did Bao Guoliang speak with difficulty and said.

But instead, he heard the driver say, “Mr. Bao, we’ve already arrived at the hospital.”

Bao Guoliang was stunned, and when the driver opened the door and helped him out of the car, a breeze blew in to make him shiver, and only then did he realise that answering that phone call just now had caused his back to be soaked in cold sweat!

With a sense of gratitude after the robbery and a strong sense of fear, Bao Guoliang hurriedly walked into the hospital to wait for the results of his son’s resuscitation.

However, his driver was careful to notice that Bao Guoliang, who had always walked with a tiger’s stride, was now as if he had been very ill, his face was pale and he was walking with some swaying. But when he thought of the seriousness of the young master’s injuries, the driver was relieved. However, he did not know that the reason why Bao Guoliang was like this was because he had been scared by that phone call just now.

Even rich people are human, and rich people are afraid of death! And compared to ordinary people, these rich and famous people are even more afraid of life!

In fact, at this moment, Bao Guoliang was not the only one who was shocked, almost the entire senior management of Treasure Island was shocked, it was really because too many people died this time, moreover, the people who died were also too influential.

What’s more, this time it was Ji Feng from the mainland who made a strong move, and there was just so much that was shown in this battle that one really couldn’t help but be shocked.

Even late at night, the news spread at such an alarming rate that a big wave stirred up, causing the whole of Treasure Island to shake uncontrollably.

All along the way, Ji Yu-yi didn’t say a word. When she arrived home, she opened the door and got out of the car straight away, saying without looking back, “There’s no second time! You’ve disgraced me!”

Ji Lihai, who was sitting in the back of the car, sniffed at her and looked at her with a calm expression.

Without waiting for his reply, Ji Yuethai simply left.

Looking at Ji Yuethai’s back, Ji Lihai suddenly shook his head and smiled, but his eyes were extraordinarily soft and filled with a kind gaze.

However, at this moment, Ji YuHui’s heart was extraordinarily sad, especially the scene where Ji Feng waved his hand at her when he was leaving and greeted her very politely, while smiling and releasing Ji LiHai, came to her mind from time to time, and she could feel that at that time, it was as if Ji Feng was returning her favour!

It gave her a sense of detachment, as if she was estranged from Ji Feng, and she disliked that feeling!

Ji YuYi pursed her lips and remained silent for a while before she finally took out her mobile phone with two deep breaths and called out Ji Feng’s number and dialed it.

However, the call came back with a busy tone, indicating that Ji Feng was talking to someone.

Ji YuYi was frustrated but did not have the courage to call again, so she sat on the sofa and stared blankly, not saying a word.

In fact, at this moment, Ji Feng was scratching his head and smiling bitterly. He was on the phone with his younger uncle, Ji Zhenping, but during the phone call, Ji Zhenping was scolding him.

“You kid are really getting bolder and bolder, how dare you kill so many people!”

These were the first words of his younger uncle when he talked to Ji Zhenping on the phone, and it was obvious that Ji Zhenping was a little upset about this time when he went on a killing spree.

Ji Feng could only smile bitterly and tell Ji Zhenping the situation at that time, explaining that he really had no choice but to go on a killing spree at that time, otherwise he wouldn't be able to resist the joint attack of the Cheetah Mercenary Group and the Vicious Wolf Gang.

Of course, as for those celebrities and tycoons and that fat-headed dignitary, even if Ji Feng had killed more people, he would definitely not be soft on them, he could spare anyone, but only they could not be spared!

But in Ji Zhenping's opinion, Ji Feng was now becoming more and more ruthless, especially when he learned through secret channels that Ji Feng had actually killed many people with fire, he was a bit worried whether Ji Feng's heart had changed.

Some people change after being immersed in the vat of society for a long time, some people can change from being kind and simple at the beginning to being ruthless and some people can change from being innocent and pure to being cunning and treacherous, Ji Zhenping was worried that Ji Feng would also become more and more ruthless!

Ji Feng could only smile bitterly as he explained in detail the situation and assured himself that the only thing he had on hand at the time that could attack on a large scale was this one method!

“You kid, don't let your father worry too much!” Ji Zhenping didn't say anything more in the end, just admonished.

“Don't worry little uncle, I definitely won't turn into a ten evil big devil!” Ji Feng laughed.

“Well!”

Ji Zhenping said, “But you kid did do a pretty good job indeed!”

Ji Feng just couldn't help but stare, how could this be such a big contrast between before and after? Just now, he was saying that he was too ruthless, how come he is now praising himself for doing a beautiful job?

But soon, Ji Feng understood what was going on. It turned out that his father also knew the news and felt that he was too ruthless, while his younger uncle praised himself because he was in the military and understood better the helplessness of having to use everything on the battlefield.

When he finally ended the call, Ji Zhenping said, "Little Feng, your father feels that what you did was not appropriate and it will probably be an excuse for others to attack you, but I think your father is being too protective of you, righteousness does not govern money and mercy does not govern soldiers, how can you fight the enemy if you are not ruthless! Don't worry, there's nothing to worry about, when you come back, I'll give you a celebration wine!"

After saying that, Ji Zhenping hung up the phone, leaving only Ji Feng with a stunned face.

But on second thought Ji Feng understood that it wasn't that his father didn't understand the truth that nothing is used in a fight between life and death, if you're not ruthless, it's you who will die! Only, what the father was worried about was what effect this ruthlessness would have on his reputation if word got out.

Ji Feng couldn't help but shake his head and smile, he looked at this very lightly. Reputation? The first thing you need is a good reputation.

What's more, what can a good reputation bring?

But, to Ji Feng's surprise, things finally developed in the direction that his father, Ji Zhenhua, had predicted, and the speed was even a bit unpredictable.

At dawn that day, Ji Feng and the others returned to the mainland without any problems and went ashore from Min Fu Province. Although they encountered patrols from the marine police of the Treasure Island along the way, they did not know what the people on board had shown to the pile, and the other side even let them go without even checking.

Just like that, Ji Feng and the others came back without any problems.

But they hadn't been ashore for long, and had only just arrived at the naval base of the Min Fu Province military division when a Rear Admiral hurriedly came over to inform them that an urgent notice had been sent from above, and after making sure that Ji Feng wasn't injured he was told to get on a plane straight away and take the reformed man with him and fly straight to Yanjing.

Anyway, no one was injured and there was no need to settle down, so Ji Feng first arranged for Zhang Lei and the others to rest here first, not rushing back to Jiangzhou for the time being and waiting for his news. Then, he took a military plane and flew straight to Yanjing.

When he arrived at Yanjing military airport, a special car picked up Ji Feng and the reformed man separately. Ji Feng was sent directly to the General Staff, and he met his younger uncle, Ji Zhenping.

"First, tell us the situation in detail!" Ji Zhenping said in a concise manner.

"Mm."

Ji Feng nodded and immediately went over everything he had done since arriving on Treasure Island in detail, especially some of the details, including the feud with the Chuk Yuen Gang and the conversation with Ji Lihai, he went over it all in great detail, as for Ji Yuoyi, he simply passed over it in a few words.

"Little Uncle, is there something wrong with calling me here in such a hurry?!" Ji Feng finally asked.

"Yes, there is a bit of a problem!"

Ji Zhenping listened, nodded slightly and said, "Calling you here is to understand the situation with you, you still don't know, now the Bao Island side is all over the city, many people have already spoken out to criticize your actions, there are even people condemning you"

Campus Master Chapter 2882

"Condemn me?"

Ji Feng couldn't help but be amused at his words, "Why condemn me? It's not like I'm some kind of unforgivable devil, I'm not a terrorist"

"But some people think that you set fire to dozens of people, your methods are very cruel and no different from terrorists!" Ji Zhenping said.

His expression was somewhat serious, he couldn't imagine that what his elder brother was worried about had really happened, the incident on the treasure island had really had a certain impact on Ji Feng's reputation, moreover, this was only the beginning, if he waited for things to continue to ferment, it might cause an even worse impact on a larger scale.

The first thing you can do is shake your head and smile indifferently.

Although he was more or less surprised by the current situation, he was not really surprised. In fact, when he set fire to it at that time, he had a plan in mind.

The death of so many people at one time was not a trivial matter in itself, and with the nature of certain people on the island, they would definitely add fuel to the fire and make a lot of noise, especially those who were hostile to the mainland, and I'm afraid they would hate to spread the word about this matter indefinitely.

Ji Feng was not particularly concerned about this at all.

So at this moment, when he heard this news from Ji Zhenping, instead of being angry, Ji Feng felt a little funny.

These people actually compared themselves to terrorists, this false accusation and smear tactics can really be said to be excellent!

However, Ji Feng only shook his head and laughed coldly at this, but had nothing to say.

Since he was said to be cruel, so be it!

Condemnation?

Please feel free!

Only, for certain people in this incident to deliberately ignore the cause of the incident and just desperately exaggerate and promote Ji Feng's cruelty and tyranny, instead of making Ji Feng feel scared, he was full of sneers.

He set fire to so many people, but how come no one said why so many people were burned to death? Why didn't anyone say what had actually happened at that time?

Who were the people who were burnt to death?

Why were those people there and why weren't others burned to death?

These questions were not mentioned in any of the rumors. According to what Ji Zhenping said, it was clear that someone was pushing behind the scenes, trying to deliberately smear him, and his purpose was really something that he could think of with his heels.

Ji Feng sneered: "Then why not just make me out to be the terrorist leader! Wouldn't that just serve their purpose?"

If the first grandson of the Ji family's eldest family was the terrorist leader, then what did the Ji family become? Isn't it the biggest terrorist organization? And with the status of the Ji family in the Mainland, what impression would the people of the Treasure Island have of the Mainland?

Despite the fact that bilateral flights are now open to the public and it is easy to travel to and from the Mainland, the vast majority of the people of the island have not yet been to the Mainland, and they are still at the stage of hearsay.

This is why some experts and scholars from the island often make thunderous remarks, such as one expert from the island saying that mainlanders cannot afford to eat tea eggs, which almost made people laugh, or another expert from the island saying that mainlanders can only use mobile phones to access the internet because they cannot afford to buy computers

This is like if someone told you that Yanjing and Jiangzhou are actually poor villages and people there are too poor to eat you would have laughed on the spot, if the people on the island knew about the mainland, they would have reacted the same way. would have reacted the same way!

In this way, when certain people deliberately ignore the cause and course of events and only proclaim the ferocity and heartlessness of Ji Feng and even the mainlanders he represents, many people on Treasure Island will believe it.

And this, obviously, had a great impact on Ji Feng's image and reputation.

But, Ji Feng didn't care!

If you are willing to believe you, they will believe you without explanation, and if you are not willing to believe you, even if you repeatedly explain, it will only be taken as a desire to cover up the truth!

"If things were really going to be just that simple, then it would be better the other way around!" Who knows, Ji Zhenping couldn't help but hum after learning of Ji Feng's thoughts.

"What, how much more serious can it be?!" Ji Feng asked, "Is it hard to say that Treasure Island is going to send someone to arrest me there? Or has a wanted notice been issued against me?!"

"That's not true."

"I forgive them for not daring to do so!" Ji Feng gave a cold laugh.

If Ji Feng didn't know what was going on, he would only be able to lie to children if he said that the top brass of the Treasure Island authorities didn't know. It was obvious that the fat-headed pig wanted him

dead, only to end up stealing the chicken and losing the rice, and all the people who followed him lost their lives.

But no matter what, the cause of this matter was because the VIPs of Treasure Island wanted to kill Ji Feng, if under such circumstances Treasure Island still dared to arrest Ji Feng or issue a wanted notice or something, then Ji Feng very much did not mind going to slap the authorities of Treasure Island hard in the face!

“However, things are a bit more troublesome than that.” Ji Zhenping said.

“How so?!”

Ji Feng frowned, more troublesome than Treasure Island issuing a wanted notice or directly trying to arrest someone? What kind of thing would that be? Ji Zhenping’s words made him a bit puzzled.

Ji Zhenping said, “Just before you arrived you just got the news, now privately there are already people saying that you have gone too far in this matter, not only has it seriously damaged the image of mainlanders in Treasure Island, but more importantly, it is likely to affect the consensus reached by both sides after years of effort and this great situation of increasing détente that has been formed”

“Heh! Then I’m really guilty!”

Without even hearing Ji Zhenping finish, Ji Feng couldn’t help but snicker as soon as he heard this, to say that he had affected the image of mainlanders in the minds of the people of Treasure Island was just fine, under the deliberate propaganda of certain people, there would definitely be Treasure Islanders who would believe that he, Ji Feng, and even the mainlanders he represented were this vicious, there was no way around it, unless it was possible to get rid of all those people with evil intentions, but that was obviously impossible!

But to say that his actions had actually ruined the great situation that both sides were working together to maintain, this really flattered Ji Feng a bit!

It was a big joke!

It turned out that the group of people from the Mainland who were hostile to the Treasure Island were desperately trying to make trouble, and were even frantically obstructing the two sides when they were establishing cooperation and reaching consensus, even going so far as to do a lot of extremely bad things.

Even, this has been that set of people have not stopped the secret small moves, and even often in the media every now and then to smear the mainland, but also did not achieve the effect.

And now, Ji Feng has only done away with one of the troublemakers and destroyed a black ‘gang’ in Treasure Island by hand, and he has ruined a great situation on both sides?

This is simply a travesty of the world!

It was a mistake to get rid of the troublemaker! Do we have to keep that fat pig in trouble to contribute to the good situation?

“Who said all this?!” Ji Feng couldn’t help but ask, he really wanted to know who was such an oddball, able to say blind things with his eyes open and still be able to say them without a blush, and to say them so outrageously!

“Who else could it be?!”

Ji Zhenping hummed and said, “It must be those people who have ill intentions towards Ji Feng!”

Ji Feng’s face sank, “Just a bunch of jumping clowns!”

“Although they are all jumping clowns, you can’t just sit back and do nothing, otherwise if the news spreads more and more, it will have a considerable impact on your reputation and affect the image of the family when the time comes.” Ji Zhenping said, “Moreover, I’m afraid there are certain people behind them too!”

Ji Feng nodded thoughtfully, it seems that some people really have a thief’s heart, really as long as there is the slightest breeze, those people will seize this opportunity to make some noise in the dark.

“This time, I’m in a hurry to get you here, just to ask you again about the specifics and see what countermeasures can be taken to get things sorted out in time.”

Ji Zhenping said in a deep voice, a stern aura flashed in his eyes, “There are some things that you must take the initiative to solve, you can’t be indifferent just because it’s the provocation and slander of some jumping clown, you yourself are clear, but others don’t know.”

Ji Feng smiled and nodded thoughtfully.

Although he didn’t care much about the slander that some people were deliberately trying to make, he felt that what Little Uncle said was not without reason.

After a moment of contemplation, Ji Feng said, “Little Uncle, let’s put this matter aside for now and leave it alone!”

There were more important things than this, and Ji Feng would not spend too much thought on this matter, moreover, it might not be that easy for some people to slander him.

Ji Zhenping, however, shook his head and said, “Little Feng, it’s better to deal with things early!”

Ji Feng laughed: “It’s alright, Little Uncle, I think we can let those people bounce around a bit more so that we can better see who’s behind this.”

Ji Zhenping smiled when he heard that, “You kid, you really have a lot of ghostly ideas, so you have a way to solve this matter?!”

“There is a 60% to 70% certainty.” Ji Feng nodded his head and said.

“Good then, then I’ll wait to see how you solve it!” Ji Zhenping laughed.

Ji Feng nodded and then started to ask about the Alpha Ore, and the fat-headed dignitary that was handed over to Old Zhou, the relationship between that person and the dynasty, Ji Feng was also very interested.

So, because of Ji Feng's deliberate indulgence, the rumors out there all of a sudden multiplied.

The news that Ji Feng had burned to death a full dozens of people in a firebreak on Treasure Island and had shot and killed quite a few people soon spread out. This kind of powerful news spreads faster than anything else, especially when it involves a young man from a powerful family such as Ji Feng, that was a cause for concern for many people.

When people heard the news, at first they didn't believe it and thought it was too exaggerated, but as the rumours grew, and even some few photos of the scene suddenly appeared on the internet, the scene was so tragic that it immediately shocked everyone.

There was an outcry!

Campus Master Chapter 2883

When the photos appeared on the Internet, public opinion was immediately in an uproar, the scene in the photos was really too frightening.

There were corpses all over the ground, and the charred traces left by the burning fire, and at the same time, there were also charred corpses next to places where smoke was even rising, and even through the photos, it made many people feel sick to their stomachs, what smell the charred corpses would give off, even if you can imagine with your toes!

It was too shocking and too disgusting!

There were dozens of them!

Just one glance was enough to make many people's scalps tingle and goosebumps rise, not from the excitement, but from an unbearable brutality.

At this moment, people who had originally thought that the rumours were exaggerated or even deliberately slandered began to believe them.

I don't know how many people were talking about how this magnificent young man was really a sinner, usually playing with women, taking `drugs' or even killing people, but these were not really news anymore, and the public could more or less accept it, even if in the end no convincing and just result was given, at most there would be a mass outcry, but not too much of an overreaction.

After all, not many people are involved in such matters, and a few people will definitely not be able to compete with the magnates, so naturally, eight out of nine times out of ten, the matter will not be settled.

But now it was different.

There were dozens of people dead, some set on fire, their bodies burnt to a crisp, some of them curled up and deformed so badly that their stomachs churned, and so many others lying outside that anyone who saw them couldn't help but feel horrified!

Moreover, although there are not many photos circulating on the internet, the person who uploaded them seems to have taken great care to include all the burnt bodies in the courtyard, as well as those

who were shot dead outside the courtyard, and those bodies strewn on the road, all from different angles!

If you put these photos together, or imagine them in your mind, you can immediately picture the scene – starting from the courtyard, the burned bodies inside, the shot dead outside, and the bodies strewn across the road beyond, stretching for who knows how far, and from the photos there are still bodies far away, and as for the The bodies are still in the photo, and the vehicles that were burnt or crashed are not even worth mentioning!

The tragedy of the scene was completely revealed by these photos!

And that's why many people were in an uproar!

The angle from which the photos were taken was too good, and they were also clear enough to show the scene, making people feel uncomfortable and chilled at the back.

It was for this reason that there were more and more questions and even accusations about Ji Feng from the outside world, and the voices were getting louder and louder.

At this time, Ji Feng was still in the General Staff, Ji Zhenping had already received the news from outside, his face suddenly sank and he coldly snorted: "Malicious intentions!"

Ji Feng was learning about the situation of the Alpha Ore, he was holding a document and reading it very carefully, he could not help but look up and asked, "Little Uncle, what's wrong, what's the matter that's so furious?"

"What else can it be?"

Ji Zhenping's face was not too good: "It's about you! Now the word has spread outside!"

Ji Feng instantly laughed: "It looks like some people are really eager, so impatient to smear me and stink me up? Is there any meaning to this?"

"Of course it makes sense!"

Ji Zhenping said, "If your reputation gets stinky, whatever you do in the future will be affected, and you might even change your future development direction because of it, if that's the case, some people's purpose will be achieved!"

Ji Feng just laughed, although his little uncle didn't say it too clearly, he was able to understand it. If his reputation really stunk up the street, then at least, if he wanted to go on a career path in the future, I'm afraid it would be very simple. Not only in the career, but also in other things, no one would want to work with someone who had a bad reputation or something like that!

Besides, if one really determines that one cannot go for a career in the future, then there will surely be people secretly laughing in secret, or even waking up from their dreams, right?!

Although Ji Zhenping was annoyed, but after all, with his status and cultivation, he was not so much as to jump into a thunderstorm, he just said in a deep voice, "Now it seems that some people this can't wait, since that's the case, then you should stay in the General Staff for the time being, just stay here with me to understand the situation, while I go out to make arrangements."

He wouldn't stand by and watch someone smear Ji Feng, since some people were going to bounce around, then he would naturally make the appropriate arrangements.

Ji Feng nodded and didn't care too much, and went back down to reading the document in his hand.

This was a list of the transactions between China and the two mining companies, while there was also a part of the list that was really internal to the military. On the last two pages of the document, there were also the results of the analysis of the alpha ore conducted by the military's internal research institutes.

For those results, Ji Feng just flipped through them casually and did not read them again after scanning a few eyes.

He knew everything about the properties of alpha ore and other indicators, and with the military's current technical means, the analysis results would definitely not be too in-depth and clear, so instead of having this time, it would be better to learn more about other situations.

And in addition, Ji Feng also intends to learn about the relationship between that fat-headed fat pig from Treasure Island and the dynasty, as well as that transformer, that guy's combat power is really not a cover, and even managed to fight Yang Bin to that point, if he hadn't arrived in time, Yang Bin would have been dead.

This combat power alone is worthy of Ji Feng's attention. However, this was something that Ji Feng only needed to understand, and the specific research would be done by the military experts.

In fact, if Ji Feng was allowed to study that transformer, he would still feel more or less uncomfortable. That transformer was transformed into a human being, it was a bit disgusting!

Ji Feng was immersed in this information when Ji Zhenping came back. However, at this moment, Ji Zhenping was frowning and sullen, looking very serious.

"Little Uncle, what's wrong?!" Ji Feng asked, "Is the situation serious?!"

"Is it serious, just take a look at this and you'll know!" Ji Zhenping walked to his desk and said, "You come with me to the lounge!"

"Hmm?!"

Ji Feng was slightly surprised, how come he still had to go to the lounge?

With Little Uncle's rank and position, his office was equipped with an independent lounge, of course, his office could not be as luxurious as some local leaders' offices, but the basic configuration was still there, just like now, Ji Zhenping casually picked up the remote control and turned on the TV hanging on the wall.

Ji Feng asked, "Little Uncle, why did you suddenly remember to watch TV? What does this have to do with the problem you're talking about?"

"Just take a look and you'll see."

Ji Zhenping didn't answer him, but made a few adjustments on the TV, and then a picture appeared, only to see that the picture was chaotic, with people everywhere, and looking at the background and the tall buildings on both sides, it looked like this was on a street.

However, Ji Feng could not hear clearly what all those people on the street were shouting together, however, from their excited looks and the fact that many of them were holding banners, Ji Feng guessed that they were marching, or having some kind of protest.

"Little Uncle, is this?" Ji Feng was a bit puzzled and wondered what Little Uncle was doing showing him these.

"This is from our reporter back from Treasure Island." Ji Zhenping said.

"Transmitted back from Treasure Island?!" Ji Feng couldn't help but stare at his words, then he immediately turned his head to take a closer look, and indeed, he found that on the banners that those people had pulled up, they were written in traditional Chinese characters, obviously not the simplified characters used in the mainland now er, a protest related to the mainland?

Ji Feng saw from one of the images on the TV that one of the banners read several words about severely punishing the murderer, and another banner read Mainland something or other, which could not be seen clearly from the TV because of the filming angle.

He suddenly thought of something in his mind and immediately asked, "Little Uncle, this protest of theirs, is it related to me?!"

Although he didn't know exactly what this protest had to do with in the Mainland, when he thought of Little Uncle's reaction, Ji Feng understood that it seemed that eight out of ten `9 times this protest had something to do with himself.

As expected!

Ji Zhenping nodded and said, "These people, the vast majority of them are employees of the companies under the names of those few tycoons in the northern city of Treasure Island, in addition to that there is a portion of the public, all protesting against this event!"

"Heh!"

Ji Feng couldn't help but sneer, they were protesting? He hasn't protested yet!

"This is someone instigating behind the scenes!" Ji Feng affirmed, "These people don't even know the cause and effect of the incident, the police haven't even spoken, what are they protesting against?"

"See these few people." Ji Zhenping pointed to a few people at the front of that parade, "These few people, the few MPs who are jumping around the most on Treasure Island, belong to the same faction as that dignitary who is going to lay hands on you!"

"Hmph! They can be considered to have caught a break!" Ji Feng sneered, no wonder, it turned out that there were so many MPs and government workers who hated the mainland organizing and guiding ah, I told you, it's only been a long time, there are so many people marching in protest, there must be a black hand behind it!

“Windless they still have to turn up three foot waves, not to mention there is such a good opportunity in front of them now, how could they not seize it?!” Ji Zhenping said in a deep voice, a look of mockery flashed in his eyes, he couldn’t see eye to eye with these underhanded tactics, and he could not see eye to eye with those jumping clowns from Treasure Island!

“However, after such a fuss from them, the matter will definitely become a complete mess, we must find a way to put things to rest as soon as possible, otherwise, it will really have a very bad impact on your reputation!” Ji Zhenping frowned, and it was for this reason that his face was somewhat grim, “Moreover, it’s not just Treasure Island now, there are some people on our side who can’t sit still!”

Campus Master Chapter 2884

No one had anticipated that this tide of protest would be so overwhelming and, moreover, spread so quickly!

The workers of those few companies in the northern city of Treasure Island, instigated by those who had a mind to do so, held a protest march, but soon, the march was not only limited to the employees of these companies, but some people in the community, after seeing some photos on the internet, were also greatly shocked and thus joined the march.

Under such circumstances, the police on Treasure Island were tight-lipped, neither coming out to explain the situation nor stopping the march, and even when asked by reporters and the media about this, the police on Treasure Island avoided answering questions. However, they were under some kind of pressure and were not in a position to say anything!

Although the North City Police did not say anything, the gesture of not being able to say anything clearly gave people too much room for reverie, and the direction of reverie all pointed to Ji Feng.

This is nothing to say, we are all adults, no one is stupid, seeing this situation, who can still not understand what is going on?

So, the procession grew in size and within a short period of time, this protest march spread rapidly from the northern city of Treasure Island and by evening, there were processions in several major cities throughout Treasure Island!

The main content of these people’s protest marches was to demand the police to severely punish the murderers and to condemn the Mainland’s magnates and aristocrats for wantonly brutalising the people of Treasure Island, killing so many people with extreme cruelty and tyranny, and then fleeing back to the Mainland with a pat on the back.

If this is the end of it, if it is all right like this, they cannot accept it and definitely will not accept it!

The murderers, the vicious murderers, must be severely punished!

There were even people who had already written Ji Feng’s name on the banners they had put up, pointing the finger directly at him! And, in front of the microphones and cameras of the reporters who had rushed to cover the case, the few people who were in the lead openly declared that they demanded that the authorities of Treasure Island must severely punish the murderer, and that they could not compromise or even let the matter drop just because the murderer was the son of a high-ranking mainland official.

“Dozens of people! Dozens of people!”

The man with glasses in the lead, wearing a white t-shirt with the words “Severe punishment for the murderer, justice” written in red paint on it, said loudly to the reporters’ cameras in righteous indignation, “The Treasure Island authorities have been tilting towards the mainland in recent years, repeatedly sacrificing the interests of the people of Treasure Island, and have lost all sense of autonomy, and now What have we got? What we get is wanton killing from the Second World

Following this report, the crowd became even more enraged, and the procession and scale of the march became larger and larger, with some small-scale riots breaking out in some places.

But even so, the Treasure Island police still did not step in, and even where riots broke out, at most, there were only police officers to shield ordinary people from harm, and as for the marches and protests, it was as if the police did not see them.

However, this is not the end of the story.

The police’s indifference was just a microcosm of this. The large number of media reporters who came to the scene and interviewed the marchers were also very sharp in their questions, and the people who answered naturally, needless to say, almost described Ji Feng as an unforgivable devil.

Between these questions and answers, it was natural to lead the people of Treasure Island in the direction of loathing Ji Feng and the mainlanders, and even, as for that murderous devil Ji Feng, too many people even started to demand that they take up the matter with the mainland and punish this person severely!

The trend on Treasure Island seems to have affected the mainland as well.

Although this incident did not have much to do with the mainland, as the case took place on the island and the people who died were all from the island, as well as those foreigners from the Cheetah Mercenaries, it also caused a lot of waves in the mainland, and the internet was almost overwhelmingly full of accusations against Ji Feng, especially since many netizens spoke on the internet, they were even more unscrupulous and used all kinds of expletives.

There are even people who subtly point out that from this kind of foppy and heartless behavior of Ji Feng, it can be seen that his tutor must not be very good either, and I am afraid that the Ji family is not much better.

Of course there were people who knew something about Elder Ji and couldn’t help but defend him a little, but they were quickly drowned out by the water army who were listening to the wind and the rain.

In a flash, from Treasure Island all the way to the mainland, from Yanjing and then to other places, it was almost all over the city!

At this time, Ji Feng had already returned to his home in Yanjing.

When he saw Ji Feng come back, his mother, Xiao Su Mei, was overjoyed and hurriedly asked him what he wanted to eat for dinner, and he also arranged to cook dinner with the nanny. However, Ji Feng was able to feel that what his father wanted to say was all in there.

“Come to the study!”

Ji Zhenhua stood up and walked towards the study, Ji Feng followed behind, looking at his father's mental state as well as his walking posture which seemed a bit more fit than before, he couldn't help but smile slightly, it looked like his father was insisting on practicing aerobics.

There is nothing more important than the health of parents, and Ji Feng was very happy to see that his parents were in good health.

However, I'm afraid that parents who are parents would not be as happy if they saw their children fighting for their lives outside.

"When will your kid's character change!"

As soon as he arrived at the study, Ji Zhenhua couldn't help but glare at Ji Feng, every time this kid went out, he didn't say which time he could come back smoothly, he almost always fought with people, this time even more so, he even died so many people

The actual fact is that you can't get a lot of people to do the job. After so many years of experience in the officialdom, Ji Zhenhua understands this truth better than anyone else, and understands that people's hearts are dangerous. It's just that when you see your son fighting for his life outside, you will always be worried as a parent.

"I'll try to restrain myself from now on!" Ji Feng said with a smile.

"You!"

Ji Zhenhua couldn't help but shake his head, Ji Feng rarely showed this kind of posture in front of him, so he immediately couldn't afford to criticize harshly anymore, so after a slight pause, he changed the topic, "You've heard all about the situation outside now, right?"

Ji Feng knew that his father should be talking about the protests and marches regarding this matter, so he nodded and said, "I've heard about it from my little uncle."

"Then do you have any plans?!" Ji Zhenhua asked.

"Not yet, I don't intend to pay any attention to it, the clearer the better in such matters, after all, haven't the authorities of Treasure Island taken a stand yet!" Ji Feng laughed: "What is really going on is definitely clear to the Treasure Island authorities, and if they don't take a stand, it's actually the same as holding their noses and admitting it!"

If it was true that he had brutally and indiscriminately killed the innocent, the authorities of Treasure Island would definitely make some gestures even if they were more scrupulous, and would not let the situation go on like this, because once it got out of hand, it would definitely not end well at that time.

But now, the authorities of Treasure Island are not reacting. Obviously, some people know what is going on in their hearts, so they can only hold their noses and admit it, but they are not willing to do so, so they will keep quiet and let the people outside to make a scene.

Ji Zhenhua, however, frowned slightly and asked, "You're going to let it go?!"

Ji Feng laughed, "No. I am thinking that since they want to make a scene, then let them do so, some people turn black and white upside down and will definitely end up making a mess!"

"You have a solution?!" Ji Zhenhua asked.

"There should be one when the time comes." Ji Feng laughed, there were some things that he was not at all unprepared for, only that he wanted to see just how far certain people could go to make a scene.

It was just as well that people on the island were making a fuss, because there were pro-Milanese and pro-Beijing Peng people leading the way, and they were openly smearing him, plus the bosses of those big groups did die at his hands, so it was not surprising that some people were making a fuss.

However, the mainland is actually also making such a buzz, and a large number of people have now started to attack him, which makes Ji Feng can't help but sneer.

Some people really have nothing better to do than to eat, they have nothing better to do!

However, Ji Feng had also heard from his younger uncle Ji Zhenping that there seemed to be some shades of people involved, and certain people were playing an unflattering role in it, pushing behind the scenes.

This is to completely stink him up, to ruin his reputation!

Ji Feng couldn't help but sneer, not to mention anything else, just his contributions to the country alone, providing the illusory three-dimensional light screen technology, providing the special effects current, saving the special operations brigade and Xiang Yongzhan several times, even capturing the transformed human alive to give to the military for research, and in the near future, there will also be a laser gun, an epoch-making weapon

This series of contributions, some people can turn a blind eye to, just for the sake of selfishness, to completely stink him up, and even go so far as to ruin his reputation, in many people's opinion, in fact, this is the same as ruining his future!

The fact is that some people are really heartless.

Since this was the case, he wanted to see who was behind it all!

The silence of Ji Feng made this trend intensify, and the protests on the island of Baodao naturally went without saying. Even on the mainland, some people began to propose whether an explanation should be given to the people of Baodao, after all, both sides are of the same root and the same ancestor, the matter is too appalling, and it is too unworthy to make such a mess.

The person who said this is also an expert scholar who carries considerable weight in the minds of the people and is also quite influential.

The moment this statement was made, it was immediately echoed and endorsed by many people.

However, at this time, the Ji family seemed to disagree and began to fight back

Campus Master Chapter 2885

The trend that has spread to the mainland has started to make some voices in the mainland, and even some well-known experts have openly declared that the protests in the island have a very bad impact on the relationship between the two sides, and that the mainland cannot just sit back and do nothing in this matter, it has to do something and give an explanation!

Although some people did not say exactly what they were going to do, their meaning was actually very clear – to give an explanation, to what? Naturally, it was to deal with Ji Feng.

However, because the Ji family is too powerful, so although some people have someone behind them to instruct and back them up, they do not dare to be too unscrupulous and openly accuse the Ji family, so naturally they do not dare to say exactly how to deal with it!

Yet, this is just the beginning. If more and more people speak up and accuse, then even if the Ji family is strong, as long as it still has regard for its reputation, it will have to be mindful of the world's long-standing reputation.

For example, before, the Wu family was bent on having its own way, and even ignored the personal talk of Elder Hong, and insisted that the Brilliant Group should cooperate with the Kepong people, as a result, the reputation of the Wu family was greatly affected, and now when the Wu family is mentioned among the public, many people still can't help but shake their heads.

If the Ji family did the same, I'm afraid they would also end up with the same reputation as the Wu family, which is not a good thing!

What's more, this is only the first step, if the Ji family really preferred to tarnish their reputation rather than do anything to Ji Feng, then this would give someone a handle and when the time comes, the top would definitely have something to consider.

And if the Ji family took the initiative to do something about Ji Feng, at that time, although the top might consider the Ji family to be fair in their dealings, it would sit on Ji Feng's brutality and his murderous crimes in Treasure Island, which would almost be tantamount to ruining Ji Feng's future!

This, coupled with the fact that the matter itself has now gone viral, will not do much to restore the reputation of the Ji family.

It can be said that no matter how the Ji family handles this matter in the end, the public opinion is now so fierce, it is already very unfavorable to the Ji family, the impact has already been created!

Xiang Yongzhan angrily came to his father Xiang Jiefang's office and said angrily, "Dad, you must say something about this matter, you can't just watch them wrong Ji Feng like this, otherwise, who will be willing to serve the country in the future, this will chill people's hearts!"

Xiang Jiefang frowned and said, "If you have something to say, say something, how can you lead soldiers so impulsively, have some captain's appearance?!"

Xiang Yongzhan stalked his head and said, "Dad! Ji Feng has saved my life several times, and, his contribution to the country others do not know, you still do not know? But now"

"What's wrong now?" Xiang Jiefang said.

“Now everyone is attacking Ji Feng everywhere, he’s almost a rat in the street everyone is shouting at!” Xiang Yongzhan said angrily, “Dad, what kind of people did Ji Feng take out, you are still not clear, the remnants of the Cheetah Mercenaries, in itself they deserve to die, and later ambushed and besieged Ji Feng, Ji Feng killed them can only be considered legitimate defense at most, how did it become a ten evil devils?!”

Xiang Jiefang’s face sank as he looked at his son and hummed, “You just know everything?!”

Xiang Yongzhan said, “Aren’t these circumstances clear enough?”

“Then do you think that even you know, the authorities on Treasure Island would not know?!” Xiang Jiefang asked rhetorically, “Or is it that Ji Feng is not clear about it and his family is not clear about it?”

“This

Xiang Yongzhan froze.

Xiang Jiefang glared at him and said, “You ah, see Ji Feng is far worse! Look, after such a big incident, has Ji Feng ever been as flustered as you? Did he ever lose his composure? Look at the people who have reacted in the outside world, those who are out and about obviously have the shadow of certain people in them, isn’t that enough to explain the problem?”

“What you mean is” asked Xiang Yongzhan hesitantly, he seemed to have thought of something too.

“Go back to leading your soldiers without fear!”

Xiang Jiefang said, “The country will certainly not forget the contribution made by Ji Feng, but it is not your turn to worry about how things should be handled!”

Xiang Yongzhan froze and instantly understood what his father meant, and he couldn’t help but blush a little. This time, he had indeed been too impatient.

“Then I’m relieved” Xiang Yongzhan laughed heatedly and said, “Originally I was thinking that if Ji Feng really couldn’t get past this time, I’d sweep up the companies in the mainland of those bastards in Treasure Island, but I didn’t expect”

“Brainless!”

Xiang Jiefang gave a glare, “Go back and lead your soldiers properly!”

Xiang Yongzhan immediately shrunk his head, thirty years old but scared like a kid, turned and ran:

“Okay, I’m on my way!”

“Brat!”

It was only when the office door was closed with a bang that Xiang Jiefang could not help but scold with a laugh, and it could be seen that he was not too angry.

In fact, for his son this kind of righteous behavior he is still very pleased, when the soldiers, although also must know politics know power, but the most important thing is not to lose the military that aura, otherwise, even if you sit in a very high position, but also just in vain.

Just

The actual fact is that you can't help but feel some emotion and envy when you think about Ji Feng's excellence, and you're also the son of the younger generation, look at the luck of others Ji Zhenhua, you really can't help but envy!

The fact that there is such an outstanding successor, if no major changes occur, I am afraid that the Ji family will only become stronger and stronger in the next few decades, which is not really good news for those who hold grudges against the Ji family and those people or families with grudges against the Ji family!

The only thing is that some people are taking advantage of this incident to make waves, thinking that they can ruin Ji Feng, or even smear the Ji family, and seriously damage the reputation of the Ji family, thinking that they are invincible, but in fact, I'm afraid no one has thought that this is likely to lift a stone and smash their own feet!

Xiang Jiefang is happy to see it happen!

He shook his head, some people still thought that this now widening wave had been able to do great harm to the Ji family, and even thought that this was a good opportunity to even use it as an opportunity to pry the Ji family's foundations.

This is a ridiculous idea!

If the Ji family was really that easily shaken to its foundations, how could it have developed to this point?

Some people na

The fact that the rumors are spreading so fast and this lone wave is spreading so quickly, there must be people with certain energy behind it who are secretly pushing it, otherwise, the biggest thing in the sky would slowly dissipate, where it would be like this, instead of dissipating as time goes by, it's even getting stronger!

However, it was as if Xiang Yongzhan had seen the wretched fate of some people, and he could not help but shake his head and sneer.

This trend was spreading so fast that in just a few days' time, the whole capital was already abuzz, and even the media had started to report on the incident.

The scale of the protest march on the island was getting bigger and bigger, and many people were getting more and more emotional. But at this time, a reporter interviewed those protesting the march and asked, "How are you sure that those people were all killed by Ji Feng?"

A few of the leaders couldn't help but be stunned, and to be honest, they hadn't really thought about how to answer this question from the beginning of the protest until now.

One of them was about to speak when he suddenly heard that reporter ask again, "No matter whether it was the police or the official of Treasure Island, no one has ever confirmed or publicly said that this matter was done by Ji Feng, so how come you guys are so sure and decided that it was done by Ji Feng before the matter was even investigated?!"

Several of the leading men couldn't help but freeze.

This question was really hard to answer, yeah, how on earth did they know? Even the police and the officials hadn't revealed a bit of information out, yet they came here to march and openly accused and attacked Ji Feng, this seemed a bit unreasonable!

The people behind the march and protest also seemed to realise this problem, who was the first one to spread the word that this was done by Ji Feng? And who proposed to protest and then strongly supported it?

Many people looked at the leaders and were more or less puzzled. After two days of protesting, the anger in their hearts had subsided and they were now able to see things in a clearer light.

The leaders looked at each other, but did not know what to say.

At this time, a man pushed the reporter away and shouted, "You are a reporter from the mainland, of course you help you mainlanders, get lost and don't interfere with our protest severely punish the murderer and give me justice!"

Several other leaders shouted together, "Punish the murderer severely"

They pushed aside the reporters and continued to start marching in protest. Those who followed the protest behind them, partly due to inertia, but partly because few people would think deeper, even if they found it a bit strange, did not think too carefully and went back to protesting.

However, the journalist's interview did fall into the eyes of some people who were interested and made them realise something.

The journalist in charge of the interview was from a well-known mainland media, and the whole interview, too, was filmed and reported in the media.

When this report came out, it immediately stunned a lot of people, yeah, from the beginning to the end there was no one to prove conclusively that it was Ji Feng who did it, so their protest

But soon, this 'not good for the general trend' report and remarks disappeared, that well-known media was warned and there was a greeting from some big person above, hinting to them, they immediately stopped doing reports about this.

This made many people sneer, the Ji family still wanted to fight back? Still want to struggle?

What a joke!

Did the Ji family really think that by sending a few media outlets to cover the story, they could set the record straight and clear Ji Feng of any wrongdoing?

No one can save Ji Feng under this great trend!

Campus Master Chapter 2886

What a joke!

Does the Ji family really think that by sending a few media to cover the story, they can set the record straight and clear Ji Feng of any wrongdoing?

Under this great trend, no one can save Ji Feng!

Even some people who were inclined towards the Ji family could not sit still any longer.

On the morning of the third day, Ji Feng received a phone call from Ji Shaojun, in which Ji Shaojun couldn't help but ask, "Old Third, you know everything about the situation outside now, right?"

Ji Feng smiled and said, "I know."

Ji Shaojun immediately asked, "So you're just going to watch those bastards smear you? Do you want me to do something about it?"

"What are you going to do?!" Ji Hu asked with a smile.

"I have connections in the press office, I'll go and find out, find a way to clean up all those messy rumors on the internet, and make some of the media all curb up a bit too!" Ji Shaojun said.

Although among the young generation of the top gentry families, he might not be as good as the top gentry like Wu Zhiyong and He Hongwei, but he was at least the grandson of the Ji family, so his connections were still quite strong! In particular, although Ji Shaojun was a fop, he never acted recklessly, and under the strict tutelage of the Ji family, he didn't just ask for what he wanted, so his connections were still quite good.

Ji Feng smiled but shook his head and laughed: "Alright, I appreciate your good intentions, let's leave this matter for now and talk about it later."

"Don't!"

Ji Shaojun immediately became anxious: "Lao-san, you can't, why are you still dragging this disgusting thing? Hurry up and deal with it!"

Ji Feng laughed: "How useful is it to shut down a few websites and silence a few news media?"

Ji Shaojun immediately said, "How useless, this is to let some people know that it is better not to create rumors, otherwise, what awaits them is the suspension of business and rectification, and even more serious consequences!"

These days outside the public opinion is raging, Ji Shaojun even if the more dull also know that this must be someone behind the push, shut down a few media and websites, this is not to let people talk, but in order to give some people a warning, to let them know that what they do is not no one knows, do not go too far!

However, Ji Feng shook his head and laughed, "All right, just do your own thing, I have a handle on this matter!"

When Ji Shaojun still wanted to say something, he heard Ji Feng say, "Shaojun, this matter has to be handled slowly, so you don't have to worry about it."

"Yes!"

Hearing Ji Feng's resolute tone, Ji Shaojun did not insist, "As long as you know what's in your heart then it's fine, Lao-san, if there's anything you want me to do just say so, I have nothing to do all day anyway!"

Ji Feng laughed, "Don't worry, you can't even be lazy if you want to when there's something for you."

Ji Shaojun listened and hung up the phone with a heated smile, but in his heart he was satisfied, knowing that his call had had the desired effect – even if Ji Shaojun was slow, he knew the truth that what even he could easily do, Ji Feng would not be able to do?

He could have found connections at the press office and the publishing office to shut down those websites and media that were creating disinformation, I'm afraid this kind of thing could have been done for Ji Feng with just one phone call, right?

But why didn't Ji Feng do that?

Well, this kind of thing was not in his scope of consideration, he made this call to Ji Feng just to express his concern, the rise of the first line of the Ji family was now something that was beyond doubt, even without Ji Feng, Ji Shaojun alone was enough to hold up the third generation of the Ji family, not to mention that there was now an even more demonic Ji Feng?

Therefore, Ji Shaojun naturally understood what to do, especially under the mention of his elder brother Ji Shao Hong, if he didn't know to lean on Ji Feng anymore, it would not be called retarded, but stupid!

However, although Ji Shaojun just wanted to show his heart, he was really a bit annoyed and angry when he saw that blind and nonsensical reports on the internet and some news media.

Although the reports did not seem to be too righteous and indignant, they only described the case that happened on the island and released photos of the scene, but the reports did not mention a single word about why the case happened, let alone the mainland reporters interviewing the leaders of the protest march on the island.

And, at the end of the report, there was a deliberate nod to how many people died in the case, how tragic the deaths were, and so on, and a vague reference to how much indignation the case had aroused among the local people on the island.

These bullshit words make Ji Shaojun look very annoyed, he has long heard, at that time in treasure island because someone wanted to kill Ji Feng, and, those who died among them is either the local black `gang members of treasure island, or is the cheetah mercenary group, that is, before that in Jiangzhou international exhibition centre committed the bloodshed of the mercenary group, Xiang Yongzhan led the special combat brigade heavy attack, directly crippled this mercenary group, but Their boss escaped with a small group of men.

As a result, these people were going after Ji Feng again in Treasure Island, so what was wrong with killing them?

How come none of the media reported the reason for this?

What kind of heart did they have?

Ji Shaojun's indignation represented the sentiments of many people who were inclined towards the Ji family, and they were all equally indignant, but anyone who understood the inside story knew that this was a smear campaign against Ji Feng, and that this was some people secretly pushing to ruin him.

Many of them also contacted the Ji family to ask what was going on, and even offered to help, but they were all politely rejected by the Ji family.

"Those who are clear will be clear!"

"Any slander or protest is just an attempt by people with a heart, they won't get away with it!"

This was the response given by the Ji family. However, after this response got out, it caused many people to snicker, since when did the Ji Family, a high and powerful family that overshadowed the sky, start believing in this?

Some people thought that this was a conspiracy by the Ji family, and that they must be plotting something, so they were holding back again and again, just like the dormant viper, fearing that when they saw their prey, they would suddenly strike out with lightning and kill it in one blow.

However, more people believe that the reason why the Ji family reacted in such a way is just a kind of cold treatment, just because the trouble on the island is too fierce, the Ji family's power in the island is not enough to calm down the situation, simply can not suppress it, so they can only pretend that nothing has happened, wait for a period of time, the group of people on the island is tired of protesting, bored, can not make any noise, everyone will gradually forget about this matter.

Hmph!

Want to end it so easily and just muddle through this matter? It's not that easy!

So, after just one more day, more voices emerged from the mainland. Some media started to talk about how tourism between the mainland and Treasure Island had been affected by this case in the past few days, dropping by several percentage points, and that this was just the beginning, and that a series of serious consequences and chain reactions would emerge one after another.

There is no doubt that this is a direct accusation that the Ji family is harbouring Ji Feng, causing the relationship between the two sides to suffer, and even warning that there will be more serious effects in the future.

And the person who spoke this time had even reached a certain weight!

However, the Ji family remained unmoved, allowing those people to make trouble, or using the same old trick – using journalists from the mainstream media to interview and dig up the so-called truth.

However, this tactic met with great resistance. The reporters interviewed the head of the police in Treasure Island to find out what had happened, but the answer was that the case was still under investigation and it was not convenient to disclose any details or information.

When the journalists interviewed the protesters, they were ignored by some of the leaders, while others who followed the protest were unable to give any details.

In this case, the story could not be reported. The more mainstream the media is, the more influential it is, but without any evidence or information, if it is reported, even if it is to clarify for Ji Feng, it will let more people know about the matter, but it will not be able to clarify for Ji Feng at all, but may make Ji Feng's reputation even more notorious!

This was completely counter-productive and therefore, the mainstream media came back with no success.

The result of this flimsy counterattack by the Ji family to return in defeat has given some people enough courage, so the mainland's treasure island is even more unscrupulous, some media even directly pointed out that whether this incident can be dealt with reasonably and justly will be directly related to whether the judicial construction of China is in a reasonable and legitimate range, which is related to the majesty of the law, the prestige of the government

At the same time, the protests on the island were even more violent. In addition to the leading protesters, the families and relatives of the bosses of several major groups who were killed, and even the relatives and families of their bodyguards, also participated in the protests and pointed their fingers at Ji Feng!

There was even a television station on the island with a very obvious background and colouring of the kai pong, and when this matter was mentioned in a news programme, it openly accused the Ji family on the mainland of trying to overshadow the sky by holding power in their hands, and even said how dark this side was.

This has caused a public outcry!

Although some people accused the TV station on Treasure Island of speaking irresponsibly, more people could not help but blame Ji Feng and the Ji family, believing that it was this fop who had committed a major crime outside the country, but instead of dealing with it impartially, the Ji family even covered up for it, resulting in the image of the mainland being greatly affected.

At one time, there was a feeling of a mountain rain coming to fill the building, both in the mainland and on the island, public opinion was raging, seeing that Ji Feng had simply become a beast that deserved to be lynched for all his evil deeds, a brute! And the Ji family has become the representative of a dark and corrupt family

The news media, certain so-called renowned experts and scholars, all talked about this matter on various occasions.

However, at this very moment, a news item from the Treasure Island shocked everyone!

This piece of news, a woman named Ji Yu Ying from Treasure Island, broke a video which instantly made all the protests and accusations disappear without a trace!

Campus Master Chapter 2887

With a glass of red wine in her hand, Ji Yuwen stood in front of the huge floor-to-ceiling window, looking at the twinkling lights outside, she could not help but frown. By now, the sun had already set, but the lights outside made the dark night of the entire northern city of Treasure Island as bright as daylight.

But to Ji Yuqing, this beautiful sight did not look at all as pretty as it used to be, instead it looked dirty.

In particular, the news programmes of the protest marches outside were still playing on the television behind her, which made Ji Yuqing feel even dirtier. Because she knew better than anyone how black and white those people outside were, and how some of them were turning black and white upside down, and could even be said to be deliberately smearing Ji Feng.

Ji YuYi knew better than anyone else how things were really like!

However, some people out there had ulterior motives, not only putting all the blame on Ji Feng and describing him as an unforgivable devil, but even the official authorities and the police on Treasure Island had an extremely ambiguous attitude towards the matter.

As a matter of fact, the police of Treasure Island must have known very well what this matter was all about, but they just didn't say anything, and they always intentionally or unintentionally said some ambiguous words, which further stirred up the speculation of the outside world, and at this time, with certain people deliberately leading the way, it was not difficult to understand that the public treated Ji Feng as a devil and a monster.

This made Ji YuYi very angry!

It was obvious that those people wanted to kill Ji Feng, even set up an ambush and sent people after him, only that these people were so incompetent that so many of them were routed in front of Ji Feng, and could even be said to have lost their armour and almost their entire army!

But as a result, these people became the victims instead, and Ji Feng became the murderer!

No one cared about the cause of the incident, nor did anyone care who was right and who was wrong in this matter, anyway, everyone pointed the finger at Ji Feng, some deliberately reversed black and white, some deliberately tried to confuse the public, but no one told the truth.

This kind of confusion and filth made Ji Yuhui feel sick!

A cold aura flashed across her eyes and her pretty face was as cold as ice frost, these people were attacking Ji Feng like this, she would definitely not sit back and do nothing!

So, she had to do something about it.

"Eldest Miss."

Just then, a voice from behind her brought Ji YuYi's thoughts back to reality, she slowly turned around and looked at the woman with a respectful face in front of her, she nodded slightly and said, "You're back, have a seat."

This was a woman of about thirty, with short hair, but not particularly short, a tall figure,*****, and a professional outfit, looking like a white-collar beauty.

However, she sat very casually on the sofa next to Ji Yuqing and said, "Miss, I have found out all the things you asked me to investigate."

At once, Ji Yuqing's eyebrows twitched, "Oh? Tell me quickly!"

The woman nodded and said, "The thing is this, according to my investigation, this matter is still mainly that faction's covertly stirring up trouble, and the few group bosses who were killed, their relatives were hinted by the top, if they could cooperate extremely well with that faction's actions in this matter, then they would also be supported in the matter of inheriting the family business"

"Hmph!"

Ji YuYi couldn't help but snort coldly at her words, her beautiful eyes containing fury, "I knew it, it must be that faction behind this matter, that fat pig was killed by Ji Feng, they are not happy about it, so they can only resort to such despicable means to take revenge on Ji Feng, how shameless!"

Of course she knew which faction this woman was referring to, it was the faction that that fat pig was in, the one that was close to the boundary ponies and Rice, and had been advocating the need to stay away from the Mainland and disassociate themselves from it, even making trouble from time to time for this reason.

They are obviously behind this so-called protest march now.

Obviously, it was because that fat pig had been killed by Ji Feng, which had hurt their vitality, and they could not swallow their anger, or there was some other ulterior motive, so there was such a protest march.

The role those people played in this was not very honourable!

How could I have stood by and watched you slander him like that? Ji Yuet said to herself in her heart.

"Eldest Miss, there are actually people from the Four Seas Alliance mixed in with this parade." The short-haired woman suddenly said again.

"Oh?!"

Ji Yuqing asked at once, "Are you sure?"

The short-haired woman said, "Sure, I saw this with my own eyes!"

"Humph!"

Ji Yueting sneered and said disdainfully, "The Four Seas Alliance is bent on surpassing my Chuk Yuen Gang, and for that reason, they can even do whatever they want, they really don't know how to write the word "death"!"

The short-haired woman said, "Miss, do you want me to do something?"

After a moment's deliberation, Ji Yuqing shook her head and said, "No need! This time, I'll do it myself!"

The short-haired woman immediately said at her words, "Eldest Miss, there is no need for you to do this yourself, you just need to instruct me if there is anything"

Ji Yuqing put up her hand and interrupted her, saying, "Sister Ru, you don't understand, this time I have to do it personally, and only I can do it! Sister Ru, it's hard work for you."

The short-haired woman even said it wasn't hard and asked again, "Missy, what do you need me to do then?!"

"Find a reporter!" Ji Yueting said.

"Hmm?!" The girl known as Sister Ru did not respond for a moment.

"Get lots and lots of reporters to come over, I want to hold a press conference!" An inexplicable look flashed across Ji Yuqing's beautiful eyes, and at the same time, there was a touch of mockery, "I want to let those people know how ridiculous this so-called protest of theirs, those little moves of theirs, is!"

Sister Ru was very efficient, in just half a day's time, in the conference room of a hotel, dozens of media reporters had come, almost all the incoming media in the whole northern city had been invited.

These journalists were all very excited, as the eldest daughter of the Chuk Yuen Gang, Ji Yuet has always kept a very low profile and it is usually very difficult to interview her.

I'm sure whatever it was, it wasn't just any news, otherwise, there would have been no need for her to hold a special press conference!

However, no one in the room was expecting it, and even though they were prepared, they were still dumbfounded by the announcement.

As soon as the press conference started, all the media reporters must have been wondering why I had to hold this press conference all of a sudden, and in order not to waste your time, I will now tell you why

The reason is that at this moment my friend is suffering from injustice, some people are turning black and white upside down and making my friend suffer from an injustice, I can't watch this happen and continue to develop, so I have to come out and prove for him So I have to come out and prove it for him, and let those who have wronged him, and let the ugly faces of those who are perverting the course of justice, be exposed to the sun!"

There was a buzz of chatter in the venue, and these words from Ji Yuoyi were enough to shock many people. Even though she hadn't said what exactly the news was up to now, but to be able to make the eldest lady of the Chuk Yuen Gang so angry, even using extremely intense words such as ugly face, it was obvious that it was definitely not something trivial.

"So, what exactly is the matter?!"

Ji Yueting's gaze swept around the venue, she suddenly pointed outside and said loudly, "It's the protest march that's being held on the street right now, those people, they're turning black and white, they're twisting the truth, they're shamelessly accusing my friends wrongly!"

Wow~!

The moment Ji Yueting said this, there was an outcry.

No one could have imagined that Ji Yuet-jen's special press conference would have anything to do with the most heated and rowdy protest march of the moment!

Moreover, what was even more shocking was what she said – she went so far as to say that those people out there were turning black and white and distorting the truth! How dare she say that those people are wrongly accusing her friend?

Wasn't her friend that Ji Feng?!

At this moment, it could be said that the whole room was in an uproar!

Everyone looked at Ji YuYi on the podium in shock, they couldn't believe their ears, what did Ji YuYi just say?

However, some of the reporters who reacted quickly were red with excitement at the moment, shivering their hands and taking out their mobile phones to call the editor-in-chief to the unit, big news, big news in the sky!

"I personally experienced that fierce battle and witnessed the whole thing from start to finish, so I dare say there is no one more powerful and qualified than me to prove what is really going on in this matter!"

Just as everyone was in shock, Ji Yu Ying continued, "First of all, let me say that this incident is purely the fault of those who died, my friend, only acted in self-defence!"

These words were simply even more shocking than the words just spoken, and some reporters were already shivering with excitement. At this moment, hearing Ji Yuet-jen's words, one reporter immediately stood up and asked loudly, "Excuse me, do you have any evidence to prove this claim of yours?"

"Of course I have evidence, and I will definitely show it to you, but before that, it is necessary for me to describe the whole process of what happened in detail and objectively, only then can you understand why I said that my friend was only defending himself justifiably!"

Ji Yuet said, "And I can guarantee that after listening to it, you will be greatly rewarded!"

Campus Master Chapter 2888

Looking at her expression, they had a premonition that she would probably break a big story!

But even though the media reporters present were prepared, they were still shocked beyond belief when they listened to what she said next!

"Perhaps it was because of the stance of the two sides, or because some people have always wanted to get Treasure Island completely out of the way, or because my friend comes from a very powerful family over there, which made some people think badly Of course, it could also be that my friend has done something excessive before!"

Ji Yuet said, "But, not accustomed to which possibility it is, but at least before this case happened, we hadn't heard of such bloodshed happening anywhere, right?"

The media reporters seated at the bottom nodded slightly, they all knew what case that Dior Kee was referring to, before that, there was indeed no such similar case happening bilaterally.

So, there was an inside story to this?

Many people were excited, Missy was Missy, there was something fierce to break as soon as she opened her mouth!

“So, no matter what was right or wrong before this, at least my friend didn’t do that kind of murderous thing, but just because he didn’t do it, doesn’t mean others didn’t!”

The reason why so many people died this time was because someone wanted my friend’s life, but they failed to steal the chicken and ended up being attacked by my friend instead, and that’s why many people died!”

What?!

All the media reporters present couldn’t help but stare at these words, and then they were greatly surprised, what did Ji YuYi say just now? It was those people who wanted Ji Feng’s life first? Only that they didn’t win against Ji Feng and ended up losing their lives instead, and that’s why so many people died?

This news left many reporters stunned beyond belief, this was completely different from what they had heard before!

“Buzz~~”

Just at this moment, the mobile phone that Ji Yuqing had placed on the table suddenly vibrated, the interference of the signal caused the stereo in the venue and the microphone in front of Ji Yuqing to emit a zippy and harsh sound, Ji Yuqing immediately picked up the phone and scanned it, and then hung up the phone quite naturally.

And then, she continued, “Some people may doubt whether what I said is true or not, whether I am talking out of my ass here, it doesn’t matter, next, I will show you a video, and you will know whether what I said is true or not!”

As she was speaking, Kitty had already arranged for someone to set up the playback device, as well as a makeshift projector.

Instead of faking other people’s hands, Ji Yuhui herself personally carried the computer over and placed it on the table, then took out a USB stick and plugged it into the computer ready to play.

“Bang!”

Suddenly, there was a scuffle outside the conference room, and then someone was seen walking in quickly, and some of the media reporters were surprised to find that it was the police who came in.

Ji Yu Ying also saw them, but instead of being the least bit nervous, her pretty face sank as she bellowed, “Who told you to come in, get out!”

The policeman in charge said loudly, “Miss Ji, isn’t that a bit inappropriate? What are you trying to do by calling a press conference?”

“I said for you to get out, didn’t you hear me?!” Ji Yuqing said in a cold voice.

“We are here about the case, Miss Ji, I don’t think you have the right to order us police yet, do you?!”
The policeman in charge said in an unkind tone.

“What are you doing here on a case?!” Ji Yuhui asked coldly.

The policeman in charge said loudly, “Of course we have our reasons for coming here, Miss Ji, we have solid evidence that you have some connection with the previous case, therefore, we have to ask you to go back and assist in the investigation! Please do, Miss Ji!”

There was a buzz.

Those media reporters below were instantly shocked again, the police officer’s words were like dropping a bomb on a calm lake, instantly bringing the place to a boil, Ji Yuqing was actually related to that case?

Yes, Ji YuYi had always acknowledged that Ji Feng was her friend, and if it wasn’t for the case, there was no need for her to come here and say that she wanted to clarify the case, and there was no need for her to hold this press conference!

Big news!

At this instant, all the reporters could not help but stare in awe at the development of the situation, not expecting to see such breaking news on their trip here.

However, Ji Yuhui’s face sank, and a flash of anger flashed across her eyes.

There was no doubt that someone present, or someone close to her, had snitched on the police, and there might even be others who had planted their eyes on her.

What exactly did these police officers come here for? Of course, Ji Yuqing knew clearly that these people were afraid that they would make the truth of the matter public, and as to why they were afraid, it was already self-explanatory.

Not even allowed to speak?

Just let them accuse Ji Feng so falsely?

A wave of anger flooded Ji YuYi’s heart as she sank her face and stared at the policeman, saying, “There is certainly no problem in cooperating with the investigation, but I need to finish the work at hand, and when this press conference is over, I will naturally cooperate with you!”

“Sorry, I’m afraid that won’t do!”

The police had come here to stop Ji Yuqing from continuing this press conference, so how could they wait until it was over?

With an icy expression, Ji Yuqing asked, “Is it compulsory?”

The policeman in charge nodded and said, “Yes! Please, Miss Ji, don’t make it difficult for us!”

A cold light flashed in Ji Yuqing’s eyes when she heard that! This policeman in charge actually dared to play with her words!

To deliberately say not to make things difficult for them in front of so many people, was this not deliberately showing everyone that the eldest lady of the Chuk Yuen Gang was extremely domineering and could openly not shrug off the police?

For this person, Ji Yuet-yeh instantly became disgusted to the extreme, and her voice became even colder: "Then, where are the formalities? Where's the arrest warrant?"

The policeman in charge couldn't help but choke, an arrest warrant? Of course he had the formalities, to ask someone to assist in an investigation, there must be formalities, this was simple, however, the arrest warrant he did not have.

Seeing the look on this man's face, how could Ji Yu-yi's intelligence not know what was going on? She immediately sneered and said, "Taking coercive measures against people without a warrant? Who gave you the right to do that? Also, from the time you came in until now, I haven't seen you take the initiative to show your papers, and I don't even know if you are police officers or not!"

"We"

"Get out!"

Ji Yueting shouted coldly and pointed her finger at the gate, "Are you going out by yourselves, or should I have someone ask you to go out!"

The police officer in charge looked extremely ugly and could not help but say, "Miss Ji, you have to consider the consequences"

"Ask them to go out!"

Ji Yuhui didn't listen to his nonsense at all and turned her head and said directly to the bodyguard beside her. Consequences? She had considered the consequences long before she came here, it was because of her hesitation that Ji Feng's reputation had been so damaged, how could she possibly back down now?!

"Miss Ji" The policeman in charge was still a bit reluctant and was just about to speak when he saw Ji Yuhui look over with a swish of anger and a stern look in her eyes, and even a touch of murderous intent! The policeman was hard pressed to speak, and looking at the bodyguards already surrounding him, he could only grit his teeth and said, "Miss Ji, I hope you won't be obstinate, otherwise it won't do anyone any good, that's all I have to say, we"

"Please!"

The policeman's words were not finished before he was interrupted by a cold shout from his bodyguard, which immediately made him hold his tongue again, but seeing the cold glint in Ji Yuqing's eyes, he could only leave in exasperation.

There was a buzz in the venue, these reporters were all extremely curious people, and now the situation was as exciting as a movie, and there was even a possibility that Ji Yuqing was involved, so how could they not be curious?

However, as if she was unaffected by the situation, she simply said, "After a little hiccup, let's continue! Everyone, this next video will clearly show what happened on that day, and I don't want anyone to interrupt during the viewing process."

All the reporters nodded, no one could be uncooperative at this time, didn't they see, Ji YuYing didn't even give face to the police, but no one would be brain-dead enough to think that they had provoked the Missy of the Chuk Yuen gang and do nothing about it.

"..... Ji Feng, how about it, as long as you fight the people I brought in, no matter who loses or wins, our past grudges will be written off, how about that?"

The projector shone on the wall and an image appeared, it seemed to be a meeting place and a party, there were a lot of people, and the person speaking on the image was a young man.

"It's Bao Weisheng!"

Even though the angle and quality of this shot was not very good, and the picture was shaking quite a lot, there were still many journalists present who recognised this Bao family's grandson at a glance.

"This is my friend Mr Ji Feng who accepted my invitation to accompany me to a business salon organised by the North City Chamber of Commerce, but, because of an old grudge, my friend was provoked by Bao Weisheng at the salon." Ji YuYing acted as a direct commentator, "However, that's not the point, the point is, let's pay attention to the other people in the picture"

The screen rotated and a scene from the salon surprisingly all appeared in the picture, however, the picture was not complete as it was clearly visible that it seemed to have been filmed by someone's mobile phone, but it was only a clip, and what played behind it was filmed by the security camera overhead.

However, it was enough for those present to understand exactly what was happening in the salon venue at the time.

Campus Master Chapter 2889

"Everyone should have seen what happened at the salon scene."

At the press conference, Ji YuYing continued to act as a commentator, while at this time those media reporters on stage were already showing their shock, something like this actually happened at the salon, Bao Weisheng and Gao Jianyun actually found someone to clean up Ji Feng, but it turned out to be a stolen chicken.

Could it be that this was the cause of the incident?

It is said that both Bao Weisheng and Gao Jianyun were seriously injured, and it is said that Bao Weisheng is still in the ICU.

However, among the several tycoons who died in that case, there was no Bao Guoliang, and it seems that the Bao family had nothing to do with it!

The journalists in the audience were shocked, but they still couldn't quite figure it out.

At this time, I heard Ji YuYing say: "However, what you are seeing now may not be the cause of the matter As I said before, what the cause of this matter actually is, in fact, I can't say too clearly, although I believe that my friend would never attack someone for no reason, let alone But after all, I don't know too much about the details of this, so I can only tell you what I know and what I have seen!"

Said Ji Yueting as she continued to play.

Soon, before the salon was over, Ji Feng left the venue early, at which point the footage played was taken from the hotel's lift and the lobby's cameras, and Ji Feng and Ji YuYi could clearly be seen walking out together, and then saying goodbye in the lobby.

And looking at the time on that video, it was the night of the crime a few days ago. Looking at the time carefully, I'm afraid it was only an hour or two before the crime took place, but of course, this was the relatively more accurate time given by the police for the crime to take place.

This is actually very relevant to the case already, at least from this video, we can see that at this time period, Ji Feng had no direct conflict with those tycoons and that missing dignitary, instead, he had a very violent conflict with Bao Weisheng of the Bao family, but this doesn't seem to have much to do with the later murder case!

So, how did that subsequent case happen?!

Just as everyone was wondering, they saw a flash of the screen and another clip was changed, which was obviously filmed by another camera, and Ji Yuet had not even edited it, but completely presented the most original thing, and in this way, it was also the most realistic.

Judging from the image and angle of the shot, it was not taken by a security camera, but rather by a mobile phone or video recording device, as the image was shaking and obviously moving while the filmmaker was holding the device.

At first there was nothing on the screen, but just then, there was just a boom, a sudden loud sound coming from outside the screen, a sound so loud that the media reporters present couldn't help but be startled, then they saw the screen shaking violently, spinning around, and the next moment, they saw the screen peeking out of a window, aiming at a street below for filming.

By this time the street outside was already rolling with smoke and dust, and some journalists who were familiar with this part of the terrain could not help but exclaim: "Ah?! Is this the road in front of the hotel where the salon is being held at?!"

"What?!"

The people who heard around could not help but exclaim, although they all later already knew that at that time there was also a melee in front of that hotel, and also used weapons to produce a violent explosion, but exactly what happened they did not know, but now, Ji Feng but just walked out not long ago ah!

At this moment, everyone knew that eight out of ten`nine of the explosions outside were related to Ji Feng!

"That's right!"

At this moment, Ji YuYi's voice rang out, "This is that road, everyone, please look, this is the footage captured by the roadside camera"

The image changed once again, and at this time, the media reporters could clearly see that a white light suddenly flashed by, seemingly trailing a flame.

“A rocket!”

One reporter exclaimed out of breath.

The others were immediately stunned beyond belief, it was a rocket? And the target of this rocket attack, was Ji Feng!

“Boom~!”

Although there was no sound in the footage captured by this surveillance camera, yet, when the rocket shot to the ground and exploded, this loud booming sound seemed to resound in everyone’s mind.

At this moment, everyone understood what was going on.

And next, the picture changed again, Ji Feng and the others fled in their car, with a large number of cars whistling behind them, and people shooting after them These images were all captured by the roadside surveillance video, although because that camera was far away, it was enough for everyone to know what had actually happened that day!

At this time even a fool would understand that it was not at all Ji Feng who was going to commit a bloodbath that day, but he was being chased and fled to that small building, and then a fierce battle took place.

As for the people who were chasing Ji Feng in the picture, whose cars were the drivers of those cars, there was actually no need to say much at all.

This would also explain the doubts that have been in everyone’s mind over the past few days – even if Ji Feng is as vicious and murderous as he is, but so many rich people, so many people have died near the small building, but how could all those people go there?

Could it be that Ji Feng knew some kind of magic and could make them all scramble to their deaths just by saying a random word?!

This was a question that many people who were a bit more sensible would have thought about. It was not like the small building was out of a busy area, nor was it a hotel, club or anything like that.

And now, it’s all clear!

The reason those people had gone to that small building was that they had actually taken someone to go after Ji Feng! Ji Feng was being chased and had no choice but to flee there.

Next, Ji YuYi took out a lot of videos and recordings, some from roadside cameras, some from the driving recorders on the vehicles, and others taken with mobile phones, of different kinds, but it was these miscellaneous videos that captured a near complete record of what happened that night!

All the way to the very end, when Ji Yuet Yi actually appeared in the video herself.

“..... This is Treasure Island, the gunfire outside, it’s the Bad Wolf Gang and the Cheetah Mercenaries attacking us, and yes, the rich and famous and the dignitaries”

The reporters present were on the verge of numbness with excitement when Ji Yuqing appeared in the video.

Big news!

This was sky-high news!

These videos given by Ji Yuet-jen were simply a direct slap in the face of the Treasure Island police, and even more so of those protesting and marching outside, and it wasn't just any big face, it was a direct slap in the face, a slap in the face!

If this news was released, one could imagine what kind of shock it would cause!

When Ji YuYing's final video was shown, the sound of gunfire was clearly audible to everyone, in fact, even without this video, everyone could imagine what happened next.

So many people were chasing after Ji Feng, it would definitely be a bitter battle, but in the end, those people did not win the battle against Ji Feng, instead, they were all killed by Ji Feng!

Killing people!

That's right, Ji Feng had killed someone!

But at this moment, the media reporters present, who love to pick on people, couldn't say anything because everyone knew that Ji Feng was attacked and killed, and in this kind of life and death struggle, no one can control it, it's either you die or I die, so it's really too normal for people to die!

As for how exactly did Ji Feng kill those people, at the end of this video, some of that is also presented – only to see Ji Feng fiddling with two buckets of something, throwing them outside, and the fire that made people's bodies cold and their hands and feet tingling, instantly burst into flames

Fire!

It seemed that the two devil-like blazes that Ji Feng threw out were a sign that this matter would continue to ferment, and even the news that was tied to this matter was on fire.

On the day the press conference ended, the entire media world of Treasure Island went crazy!

The paper media began to work frantically overtime to produce expedited newspapers, while the internet and TV media were the first to report on the press conference.

In particular, there was a smart reporter on the scene who used his mobile phone to capture the whole conference and the videos shown by Ji Yu-yi, and uploaded them onto the internet.

A shockwave that could almost be described as a big bang instantly swept across the entire Treasure Island, and it was instantly silent! Those who were originally in an uproar over this matter and did not know how many people were protesting and marching and verbally attacking Ji Feng were instantly as if they had eaten a hundred flies, with their mouths wide open, unable to utter a single word, no longer feeling the same indignation and righteous indignation as before!

Thinking about the impassioned protest march before, and saying that they wanted to severely punish the murderer and seek justice, but it turned out that the person they were defending was actually the perpetrator of the violence, only that they didn't beat him in the end and were abused into a dead dog

.....

Should we protest that Ji Feng is too powerful? Or should we protest that Ji Feng didn't show mercy in the first place?!

The video is a good example of how to protest against a person's failure to show mercy.

Now protesting that people are ruthless, isn't that a joke?

In fact, when the video came out, the protest march became a joke! It was a joke to the extreme!

However, because of certain regulations and controls, it was not first reported on the mainland, but the video that came over the internet spread throughout the internet in the shortest possible time at an alarming speed that no one could have imagined.

All of a sudden, the whole of China was quiet for a moment.

But immediately afterwards, it was instantly boiling again!

Campus Master Chapter 2890

The whole of China was almost instantly abuzz!

This sudden news was too explosive and sudden, and the content of the news was beyond everyone's expectation, no one expected that things would turn out like this!

It turned out that although this case was really done by Ji Feng, there was actually such a reason in the middle, it was those people from Treasure Island who provoked first, which led to the fierce battle later!

The video circulating on the internet shows Ji YuYing with a grave look on her face, as if she might be killed at any moment, so you can imagine how dangerous the situation would be. And those who want to kill themselves?

In that case, it was not so difficult to understand how many people were killed and injured at the scene and how many crimes were committed!

The internet was the first to boil over.

"Shit! Surprisingly, it turned out to be those bastards from Treasure Island who tried to assassinate Ji Feng, but ended up being beaten to death by Ji Feng instead, and actually came back to frame Ji Feng? What the fuck is all this!"

"That's right! Those rich and famous people who appeared in the video were originally all still human on TV and looked like decent people, but they didn't expect to be so despicable in private, ganging up to assassinate Ji Feng, this is shameless enough!"

"Shameless people don't end up well, look at them, aren't they all dead dogs now?"

"That's right! Although I don't know what the cause of this matter was, but, that pretty girl is right, at least we didn't see Ji Feng provoke first, moreover, it was Ji Feng who suffered the attack first and almost lost his life, and as a result, those people didn't even let him go when he was running for his life, so many people were chasing him, and when they were killed back they actually turned around and wronged Ji Feng, how shameless!"

“Hey, upstairs, if they wanted to be shameless they wouldn’t have done such a thing!”

“Right on! It’s not like it’s the first day we all know how shameless certain dignitaries and tycoons in Treasure Island really are, what can be the fuss about this?!”

.....

When the video and news circulated on the internet, it drew an overwhelming amount of comments, only, this time, unlike the comments from the previous days that were almost all denouncing Ji Feng, almost all the comments on the internet were one-sided, all in support of Ji Feng, and even, some netizens, after watching the video circulating on the internet, were even stirred up with a stomach full of fire.

It turned out that they had been abusing Ji Feng, who they thought had disgraced the mainlanders, and who had run away from the country because of his family background and committed crimes outside but did not dare to take responsibility. But now they realised that they had wronged Ji Feng!

And it was those shameless people from Treasure Island who had wronged Ji Feng. Are they really not afraid of being laughed off, or do they think mainlanders are easy to bully?

You were so aggressive when you were chasing and killing people, but you didn’t beat them and were killed by them, and then you had the face to protest and march, and you even said you wanted to punish the murderers severely. You are the murderers!

The news and the video on the internet were like a horrific whirlwind that quickly swept through the whole of China, whether it was the mainland or the island, almost all the media were reporting on the matter.

This, however, has caused some people on the island to turn black in the face and some of them are even turning blue in their guts.

The fact that things have come to this stage has really made them extremely passive!

In order to protest the march and put pressure on the mainland, certain people on the Treasure Island side had really used too many connections and paid a great price to silence the police and allow the truth to be covered up. However, who would have thought that Ji Yuet would break such a shockingly big story!

As a result, this instantly put an unknown number of people in their place, and the faces of an unknown number of people were slapped hard and slapped loudly!

This also included the Treasure Island Police!

It was because of the silence of the police that the matter was getting bigger and bigger, and the protest marches were even more rampant, but as soon as this press conference was held, the police were immediately wiped out!

Many of the video clips shown at the press conference were captured from roadside and hotel surveillance cameras, which are public equipment, so the question arose – if Ji Yuqing could get these things, could the police not?

At this point in time, if the police still dared to say that they didn't know what was going on, even a fool wouldn't believe it, and I'm afraid the police wouldn't have the face to say such a thing!

But since the police already knew what was going on, they still watched as the families of those who had almost become murderers incited the public to march and protest, and did nothing about it.

This ambiguous attitude could not be hidden from the eyes of the public!

So, the Treasure Island police really sat down!

On the same day the news came out, a high ranking official in the police system of Treasure Island issued a public statement, saying that the current protest march on the street was not licensed and was illegal, asking the crowd to disperse immediately, and that the police would interview the person in charge of organising the march and would be held accountable!

In fact, even if the police had not issued a statement, the protest march would not have been able to go on! The so-called march had already become a joke after Ji Yuqing's press conference.

Therefore, the statement from the police officer was, in the eyes of many people, dispensable and painless. It was simply not enough to express the police's attitude, and some people said that it was disappointing that the Treasure Island Police were still trying to hold on to that last layer of shame and still not admit their mistakes.

Perhaps the police also realised that this salty statement alone was simply not enough to say anything, so on the same day the statement was issued, the top head of the police system in the North City personally led a team to the major companies involved in the march and spoke to the heads of the companies, supposedly issuing a stern warning to those in charge.

Although the details are not known to the outside world, the parade was over that day.

But that was not the end of it!

The real mastermind behind this matter is obviously the pro-Kai Peng and Rice faction in the top echelons of Treasure Island, and it is obvious that such a big matter is not something that can be decided by the small people in the faction, without a certain amount of weight, they cannot decide on such a big matter!

The company has not yet been thrown into chaos, but those relatives who are eligible to inherit the estate are already fighting with each other, and it is certain that the company will be affected, and it is not certain that the support of the faction will be maintained. Even if it can be maintained, it will definitely not be as strong as it was.

The other factions will naturally seize this opportunity to attack violently, and this series of games will definitely make that faction furious but helpless.

Ji Feng did not pay attention to the series of reactions in Baodao, however, some news from the mainland came to his ears from time to time.

It seemed that after the news spread, the mainstream media in the Mainland started to report it.

At this time, some people were having a hard time.

You know, before this, some media and websites had commented and attacked Ji Feng almost to the point of being unscrupulous, especially when they saw that the Ji family did not react much, not even to defend themselves, some people really thought that what happened in Treasure Island was true and that Ji Feng was really so ferocious.

As a result, now that the truth has come out, some people were as embarrassed as if they had eaten flies.

The problem is that sometimes it is a blessing for some people, because some people can't even get it if they want it.

The previous unscrupulous remarks, even so many famous experts and scholars, so many so-called celebrities and famous people have attacked Ji Feng, and their attacks are not really to take up any social responsibility, they are for what, any fool knows, they deludedly want to attack Ji Feng, cause public anger and finally ruin Ji Feng, so as to win the master's heart and get enough benefits.

The most important thing is that they know very well that what they did before could never be concealed from the Ji family. In the past, when the Ji family ignored it, they thought it was because the Ji family was in the wrong and did not want to be caught in the act, but now

I don't know how many of those so-called experts and scholars who have bounced around on TV shows as well as some online programs and even in the print media are now all in a state of shock, and their faces look as if they have died!

Because they knew too well that with those actions of theirs, there was no way the Ji family would turn a blind eye to them and would definitely retaliate against them!

The thought of the Ji Family's possible retaliation made their hearts jerk violently.

The Ji family, that powerful behemoth that overshadowed the sky, if they really wanted to retaliate, then I'm afraid that even if they died ten thousand times, it wouldn't be enough!

At this moment, I don't know how many people wanted to bang their heads against the wall with regret! How could they have gotten carried away in the first place and had to attack Ji Feng without knowing what they were doing?

"..... old leader, it's me, Xiao Li hello, hello hello?"

A scholar of some fame took the phone and listened to the busy tone coming from the phone, his face turned white!
