

Chapter 289

Blood pressure continued to rise and heart rate continued to rise. A group of people stared at the ECG monitoring and kept their eyes on it. The doctor was a little better. In the words of ordinary people, he was very hard hearted! The nurses, especially the head nurse of the middle-aged aunt, were full of tears.

I don't know which nerve of her was touched by this scene, or which soft place in her heart was touched. She covered her mouth with her hands and stood behind Zhang Fan. When she saw that Sister Li's vital signs were stable, she burst into tears.

"Valid!" The director clenched his fist and roared like a wolf with a mouth!

Tired, finally there is a safe harbor for her to stop. More than half of the liquid has been input, and the pale face slowly appears ruddy, not morbid ruddy. It is like a spring moistening a field that has dried up for a long time.

The dead heart came alive. The pain of her body and the scars in her heart made her exert all her strength. Go to sleep. Go to sleep. The pear blossoms in the morning are dewy, and the sun shines on the dew. In the breeze, the flowers danced gently, and spring finally came!

When more than half of the liquid is input, doctors and nurses are relieved. What they are most worried about is that in the early stage of input, if the body does not tolerate it, there will be massive bleeding, which is really terrible. The major arteries and veins throughout the body may bleed.

After seeing that the patient could tolerate it, the director gently waved his hand, and the medical staff quietly rushed out.

"Shh!" After taking a long breath, the director said to the medical staff around him, "we've worked hard. Our efforts are not in vain. The effect is good, but! Now is not the time for guns to enter the warehouse and horses to release Nanshan. The long march has just started. The next treatment has just begun. Dr. Hu, Dr. Zhang, you two use more snacks and pay attention to bed nine. After the patient's vital signs are stable, contact the operation as soon as possible. The current situation is just an illusion, and surgery is still necessary. "

"OK, director."

Zhang Fan and Hu Jun dragged a little sleepy back to the ward. Although they stayed up all night, it's not time to rest. In the emergency, Zhang fan can take the patient directly into the operating room, but they have gone to work normally, so they must say hello to the general practitioner. Hu Jun was on the night shift, but he can't leave now.

"Dr. Zhang, I'll go to the duty room and squint a little. If you have something to call me, you can squint after you're busy ~!"

Zhang Fan gave a good doctor's order and secretly went over and looked in from the glass at the door. Fortunately, everything is so beautiful. The man slowly stroked Sister Li's hair with his big rough hand. Sister Li breathed up and down, very smoothly.

Mentality and mood are sometimes a feather on Libra. One step to the right is the dark willows and bright flowers, and to the left is the abyss.

No matter what you have experienced and how difficult it is, keep a fighting heart and go down with your teeth. Maybe the sunshine Avenue is three meters ahead.

Disease, in fact, is also a thing that eats soft and fears hard. When you are weak, when you complain about yourself, it bullies you to death. You bite your teeth and work with it, maintain a good attitude and face it actively.

Disease is like a dog at the door. You are afraid of it. It can eat you with the help of this atmosphere, but when you pick up a small stone in your hand, it will definitely run away.

What is the stone in your hand, which is your confidence, your courage. It is a reckless man who draws a knife and sees blood, not a warrior.

He smiled faintly in the face of suffering, rubbed his face gently, looked at the distance and said gently: "what is this! A piece of cake! " This is the warrior.

Zhang Fan is also happy to see Sister Li's ending. Who doesn't expect beauty. When Zhang Fan took the medical record back to the nurse station, he saw Lao Hu who couldn't sleep being chased and beaten by the nurse station.

"What's the matter?" Zhang Fan wondered and asked the little nurse that the doctors in this department are sultry men and rarely joke with the nurses. But what's the matter today? The 10000 year old single dog in the Department went to tease the fighter among the nurses: head nurse!

"When the head nurse saw that nine beds were saved by love, she was moved to cry. When we were persuading the head nurse, Dr. Hu came over." The little nurse saw that it was Zhang Fan. She hurried around and began to talk. The little nurse was also a talent. While talking, she also learned from the

head nurse and Lao Hu at that time.

"The head nurse's eyes are crying red, and her tears can't stop! Dr. Hu came over and looked at us and said, "head nurse, give me my duty fee. I'm going to buy books!"

The little nurse imitated the look of the head nurse: "wait a minute, I will be soft and can't stand up."

"Why are you crying! It's not that I haven't seen anyone rescued! "

"The heart is happy, this is happy and cry, okay!"

"Do you remember the past?"

"Yes!"

"OK, you are definitely happier than nine beds!"

The little nurse deliberately imitated the way the head nurse wiped tears, and then learned to say, "why?"

"You have such a big temper that you can burn the house. That man dares to bully you. Besides, your physique is not what ordinary men can bully! It should be your husband who wants to cry, okay! " Lao Hu meant to say that the head nurse was stronger.

But he said the wrong thing. The head nurse was angry. The person who was crying and soft stood up, "you bastard, what's wrong with my physique, what's wrong with me, what's wrong with me! How dare you laugh at my fat! Why is my husband crying, you bastard! " As he spoke, he ran after him.

The little nurse laughed while talking, and learned the situation at that time! Zhang Fan shook his head and smiled. At this time, he heard the head nurse at the end of the corridor say, "overtime pay has been confiscated!"

Before leaving work, Zhang Fan contacted the general foreigner and was ready for surgery when Sister Li was a little better. Once the operation is done, coupled with drugs, Sister Li's condition will be stable.

When he got home, Zhang Fan saw Shaohua's mother glowing red. While cooking, he hummed a tune, "Zhang Fan, it's time to get off work. Look, I said no, you're going to ask your friends for help. Really! How troublesome. Don't dare to do this next time. It's not good to pay back. "

Zhang Fan was puzzled by what he said, "what's the matter?" He asked Shaohua quietly. Shaohua hasn't spoken yet. Shaohua's father said, "last night, your friend sent four concert tickets. You see, it's on the table. It's still a VIP. Can she be unhappy!"

Zhang Fan walked over and saw four VIP tickets on the table. He wondered, "who sent this?"

"Don't you know? The ticket giver said, "you know, President Chen specifically explained it!" Shao Hua said.

"Oh! I see. " Zhang Fan understood, and then said to Shaohua, "I'll make a phone call. Thank you. It's estimated that this ticket will cost a lot of money. You see, it's in the first row! "

"Or return it to others." Shaohua asked anxiously. She was worried that Zhang Fan was not easy to do because she owed others.

"No, you don't care. I'll deal with it."

In the rheumatology department, Sister Li slept all day. At this time, the support teacher slowly fed Sister Li rice soup, "I don't want to drink. I'm full!"

"Good, have another drink!"

"Two?"

"Well, just two!"

"Well, two!"

Sister Li looked at the silly man gently, "why don't you find a woman younger, healthier and more beautiful than me? I'll drag you down."

"I will!"

"I will really drag you down!"

"I will! You have a rest soon. I'll wash the dishes and give you a massage! Just sick, what are you afraid of! "

One day twenty years later, grassland! Sister Li's face looks like plateau red and erythema, but it doesn't matter, because she and her husband were rated as the most favorite frontier teacher in China!
