

Campus Master Chapter 2891

“..... old leader, it’s me, Xiao Li ..... hello, hello hello?”

A scholar of some repute took the phone and turned pale as he listened to the busy tone coming from the phone!

This old leader, a few days ago, had personally called to hint at how he was going to speak on the news program and promised a lot of benefits, but now, just as soon as the call was answered, before he could even finish his words, the other party hung up the phone.

Obviously, even a fool would understand that he had been abandoned. Such a realistic and indifferent encounter made the famous scholar’s heart sink continuously and his lips were bloodless.

He had been abandoned!

What kind of punishment he would face next, what kind of treatment he would receive, there was no need to think about it.

At this moment, this famous scholar’s heart was filled with an emotion called regret, how could he have been so obsessed with hacking Ji Feng at that time?! How could he have disregarded even the personality of an intellectual for those benefits?

Unfortunately, there is no if in this world!

This scholar couldn’t help but grit his teeth, no, it can’t go on like this, since you have given me up, then don’t blame me for being unkind, you won’t save me, then I will find a way to save myself!

He picked up the phone, gritted his teeth and dialed a number: “Hey, I want to turn myself in .....”

This scene also happened in many other places, except that some of them turned pale after receiving the news and went straight to the ground, while others were trembling, but did not want to sit still and were prepared to actively turn themselves in for leniency .....

These experts and scholars might have only violated Ji Feng’s reputation by speaking irresponsibly, and there were no too serious consequences, at least, no bones would be broken as a result.

However, those people behind them are not so good at getting by.

Perhaps they can’t be convicted directly in such matters, but these people are themselves incorrectly established, and their asses are not that clean, so it’s almost like an investigation is accurate!

So, in just two days’ time, there were many people investigated and punished in China, including professors and leaders in universities alone!

In addition to this, there were also those in government departments and those with a high social profile, as long as they were involved in this matter, almost none of them escaped!

Everyone knew that the Ji family’s revenge was coming!

This made many people feel desperate in their hearts, originally expecting that the Ji family would not put him in their eyes and only hit the big tiger, but now it seemed so ridiculous.

In fact, only a very few of these self-righteous so-called experts and scholars could figure out that with what they had done, the Ji family would definitely retaliate against them because their actions had touched the Ji family's bottom line!

Perhaps to them, a few casual remarks on television or in the media may seem just a little irresponsible, but in fact, once such irresponsibility forms a trend, it can completely ruin a person, and even a son of a top-tier gentry family like the Ji Family can fall on his face in such matters.

For example, this time around, the matter had formed a trend, and there was a lot of public discussion and protests. Under such circumstances, if Ji Feng was unable to prove his innocence, then his reputation would be completely tarnished. And for someone like Ji Feng, once his reputation is stinky, what does that mean?

It means that maybe his career path will be cut short in the future, and he will never have the possibility of taking the career path again!

If a son of a powerful family loses his career, it's almost like his future is ruined and his life is changed!

This is not something that can be explained by a few irresponsible words, as those experts and scholars think, this is a hatred, almost like a life-and-death feud!

Just imagine, how could the Ji family not take revenge on them?

But no one expected that the revenge of the Ji family would come so fiercely, a large number of people fell, those who are in the system, is directly investigated to the end, and eventually will certainly be found out, and then will be directly transferred to the discipline committee, while not in the system, the unit is directly terminated with its contract, as for the people behind those people, it is a person did not escape!

This makes everyone's hands and feet cold and chilly.

This is the same as pointing the finger and hitting everywhere!

It is obvious that the Ji family has been watching these people for more than a short while, these people have been popping up continuously over the past few days, trying to form a wide range of influence from the south to the north.

If they didn't strike, they would hit them right in the seventh inch and beat their opponents so hard that they wouldn't even have the strength to breathe!

The Ji family's strike was so fierce that they barely gave their opponents half a second or a chance to react, and they struck directly, with a single blow.

Finally, the fall of a policy researcher in the centre of China made some people unable to sit still any longer.

The reason is that further up the ladder, the people to be moved are the people in the direct subordinate agencies of the Central Committee, which are almost all the right people of some factions and giants.

Some people finally couldn't stay silent any longer, and one of the incumbent bigwigs went to the ministry, visited Ji Zhenhua and gave in!

And then news came out that the hand of a city in Jiangnan had left due to illness, and it was rumored that someone from the Ji family line might take over ..... This was a complete softening of the hand, it was an economic town, and the position of the hand was naturally self-explanatory.

The next thing to do is to take down so many people, and then move on the impact will be too big, everything in moderation, so the next thing seems to be as if the matter has subsided.

However, at the moment, things are instead getting even more heated about Treasure Island.

On the internet and in the glad media, there are one-sided calls for the Treasure Island police to thoroughly investigate why exactly those people attacked and killed Ji Feng, they can't just attack and kill our people at will just because they are rich and famous, as well as the dignitaries of Treasure Island, right?

At this time, someone else broke the news, revealing the identities of both the Bad Wolf Gang and the Cheetah Mercenaries, which immediately ignited the fury of the mainland public.

Well!

A black` gang and the Cheetah Mercenaries, known as the Wild Dogs of War, who had committed bloodshed in China, and look who these people are! But they actually managed to get together with the dignitaries and wealthy celebrities of Treasure Island to attack and kill Ji Feng .....

In that case, what kind of good can the dignitaries and celebrities of Treasure Island be?

As soon as this comment was circulated, it made those people in Treasure Island furious, helpless and embarrassed. But they couldn't refute it because they didn't know how to do so!

For example, that fat-headed dignitary is trying to separate Treasure Island by all means, and that's not all. It seems that not only him, but also the entire pro-Kai Peng faction on Treasure Island, has some connection with the Dynasty.

These people are really afraid of chaos, because only when there is chaos do they have a chance!

Yet these things cannot be told to the people directly, they can only be revealed slowly and bit by bit, which is something that cannot be rushed.

Moreover, I'm afraid that in the end, this matter will only end up in the end, but this is a big profit for Ji Feng, not only did he destroy the Cheetah Mercenaries in one fell swoop, but he also incidentally did away with that fat pig that had been hated by the mainland people for years.

It was really a great pleasure!

What's more, Ji Feng had also captured a high-level reformer alive and handed it directly to the military, so his harvest from this trip was already not small.

The most important thing was that he had found the Alpha Ore!

This was the most important thing!

Therefore, Ji Feng felt that this trip to Treasure Island had been a success. This was also the main reason why he could still be in a good mood in the face of so many accusations.

What Ji Feng did not expect was that Ji Yuqing would once again openly stand up for him, and in doing so, she would be putting herself in opposition to those people, and Ji Yuqing might even be ostracised from within the Chuk Yuen Gang.

Ji Feng was very touched in his heart, so when the storm gradually subsided, he immediately contacted Ji Yuqing.

“YuYi, thank you.” Over the phone, Ji Feng could only use this to express his gratitude.

The kind of determination Ji Yuhui had shown back in Treasure Island in wanting to live and die with him, as well as the act of standing up for himself even at the expense of offending so many people now, made him extremely grateful.

Regardless of what happened when the news leaked out, Ji Feng was willing to trust Ji Yuqing.

However, Ji YuYi said in an angry voice, “Hey, if you say that again I can hang up the phone, you are just not treating me as a friend, so polite .....”

“Fine, fine, I’ll be more casual then!”

Ji Feng laughed, “YuYi, I’ve already found the skilled and experienced forensic doctor you want for you, see when you need him, I can always send him over.”

He hadn’t forgotten about Ji Yuqing’s request for him to help find a good forensic pathologist for her mother’s autopsy, and he was busy with this matter in the past few days, apart from keeping an eye on the Alpha ore.

But it was a bit of a problem to go to Treasure Island, and it was still protesting and marching, but luckily, through Ji Shaojun’s connections, he finally found one.

“Then let him come over as soon as possible, the sooner the better!” Ji Yuqing said immediately.

“You’re in such a hurry?”

Ji Feng smiled and asked, “YuYi, there’s nothing wrong on your end, right?”

He felt that Ji YuYi was too eager, moreover, what she had done for herself must have offended many people and there would be certain troubles, it was only right to solve those troubles first now, so rushing to have the autopsy done would instead attract the attention of people with an agenda.

Campus Master Chapter 2892

“Of course there’s no problem!”

Ji Yuhui said, “What problem can I have over here, I just want to know earlier what exactly my mother died for, so you hurry up and invite the forensic pathologist over yes.”

Ji Feng frowned slightly, despite Ji Yuqing’s clear words, he was not a fool, nor was he someone who had not seen the world, so he naturally knew what Ji Yuqing’s previous actions meant.

By openly standing up for herself, Ji Yuet-jen had in fact offended the pro-Boundary Pong and pro-Mi factions, and although that was only a small group of people, they had no small amount of energy, and the more such people who had demons in their hearts and did not follow the right path, the more unscrupulous and ruthless they were.

Despite being the eldest lady of the Chuk Yuen Gang, I am afraid that even Ji Li Hai may not be willing to offend that gang, and now that Ji has offended them, she will definitely be under great pressure.

The fact that Ji YuHy was so eager again made Ji Feng even notice something unusual.

But since Ji YuYi was unwilling to talk about it, Ji Feng knew it was useless for him to keep asking, so he could only say, "YuYi, since you treat me as a friend, remember that if you encounter any problems, you must call me at the first opportunity!"

Although they were in different places, Ji Feng could still use some of his power in Treasure Island, so if Ji Yuqing really encountered any unexpected situation, he might be able to help.

Ji Yuhui smiled and agreed, "OK! If there's something I can't handle, I'll definitely look for you, so don't be too annoyed by then!"

Ji Feng laughed, "That's good."

The two of them chatted for a few more minutes, and Ji YuYing talked about the situation on Treasure Island at this time, that several groups no longer had the energy to organize any protest marches, and several heirs were fighting with each other, so who had the energy to care about other things?

As for the top brass of Treasure Island, because the body of that fat-headed dignitary has never been found, even though everyone thinks that there is absolutely no possibility of him being alive, but the police have been looking for his body, after all, the identity of that fat pig is not ordinary, even if he is dead, it is always necessary to see the body.

The police have been looking for the body of the fat pig.

The neurotoxin he injected into the fat pig was simulated by bioelectricity, but it was the same as the usual dosage for transformers, so how could the fat pig possibly withstand it?

However, I think with Old Zhou's caution, he would never leave such a trouble on his hands, which would be a disaster if someone found out, and the other side would definitely be able to uncover many people by following the vine.

So Ji Feng speculated that at this moment, that fat pig was afraid that he had long since gone to see the King of Hell ..... no, he should have gone to see his Boundary Pontiff old man. Hasn't he been claiming that he is not a Chinese, but a descendant left behind by the KAI Peng people?!

Afterwards, the two ended the call.

Ji Feng shook his head and smiled, but in his heart, he couldn't help but think of Ji Lihai's reaction, he felt that Ji Lihai's reaction was strange, there was gas from the time he attended that business salon, Ji Lihai treated him as if he was a different person, even when he was finally caught by Zhang Lei and the others, instead of begging for mercy, Ji Lihai's reaction was even stranger.

“What kind of role did Ji Lihai play in this matter?!” Ji Feng deliberated secretly, but had no clue.

It had to be said that this person Ji Lihai was too old and cunning, from his reaction and his words, nothing could be seen at all, this was a real old fox!

Since he couldn't figure it out, Ji Feng didn't think about it anymore, no matter what role Ji Lihai played, he would always see it after a long time.

Now, Ji Feng only wanted to hurry back to Jiangzhou.

The furore of the past few days had been so big that it was impossible for Lei Lei and Yu Xuan not to see the news, but from the beginning to the end they hadn't called, obviously afraid that they would be distracted. Now that things have been resolved, Ji Feng has to rush back to keep them company. There were also Qin Shujie and Xu Yuan and the girls.

However, when Ji Feng was just about to go back, his younger uncle Ji Zhenping called him directly and said, “I've sent someone to pick you up, come to my place.”

Ji Feng froze for a moment and asked, “What's so urgent? I was just about to go back to Jiangzhou.”

Ji Zhenping said, “Don't worry, it won't take you too long, turn around and you can directly take the military plane back to Jiangzhou.”

He had no choice but to nod and agree. When he went downstairs, he saw that the people sent by Little Uncle were already waiting at the entrance of the district, and he walked straight over and got into the military jeep.

When he came to Little Uncle's office in the General Staff, Ji Feng saw that Ji Zhenping was not the only one in the office, the General Director Xiang Jiefang was also there, in addition to an old man with white hair, who was also wearing a military uniform, perhaps because he was old and wore glasses.

“Our great meritorious minister is here!” As soon as Ji Feng entered, he heard Xiang Jiefang laughing, “Great meritorious minister, please have a seat!”

Ji Feng greeted him with a smile and casually sat down on the sofa at the meeting, and before he could speak, he heard his younger uncle Ji Zhenping say, “Little Feng, this time I called you here to ask you, now that the raw materials are available, how is the research and development work going?”

At these words, both Xiang Jiefang and the old man with white hair also immediately looked at Ji Feng, obviously they were also very concerned about Ji Feng's answer.

Ji Feng already had an answer in his heart, and he smiled, “Three months at most!”

“Three months?!”

“It will still take that long?!”

Hearing Ji Feng's answer, Xiang Jiefang and the white-haired old man couldn't help but ask, especially the white-haired old man, who even asked directly, “Can't the time be advanced?”

Ji Feng looked at him in surprise, then looked at Xiang Jiefang and asked, “Chief Xiang, this old man is .....

“The old man is from the military’s Sixth Research Institute!” The old man said, and then immediately asked, “Ji Feng, can’t the time be shortened any further?”

The Sixth Research Institute?

Ji Feng was a bit bewildered, he had never heard of this unit, but since both Xiang Jiefang and his younger uncle Ji Zhenping were assured that this old man was staying here, it meant that this old man was qualified to access such secrets, so he answered bluntly, “It might be possible to shorten it, but it can’t be shortened too much, because this alpha ore has gone from refining to concentrating and making it into a qualified, mass-producible energy source, it takes time in between, and, there is also some preparation work to be done.”

“There is still preparation work to be done?”

Xiang Jiefang couldn’t help but ask: “What else do you need, just mention it!”

Ji Feng said at once, “Personnel, equipment! I need skilled workers, and high-precision equipment, otherwise, even if the energy source is produced, it won’t be stable.”

Before Xiang Jiefang had time to speak, the old man immediately said, “Okay, I promise you, tell me, how many people do you need and what equipment do you need!”

Ji Feng said, “I need about ten people or so, what are the specific requirements, when I return to Jiangzhou and consider them carefully, I will send you the requirements .....”

“How about this, I’ll give you ten people in weapon design, ten people in metallurgy and materials, and ten people in experiments as well as other talents, but whatever you need, you can have it!”

The old man said, “As for the equipment, I can’t get you the world’s top machine tools, but as long as it’s within my ability, it’s no problem!”

Ji Feng froze, a little surprised at this old man’s generosity, and he laughed: “It won’t take that many people, and the equipment doesn’t need to be top of the line, as long as it’s accurate enough .....”

“Then let the rest of the people give you a hand!” The old man waved his hand, “You don’t need to take care of them, just get the stuff out as soon as possible!”

Ji Feng smiled as he shook his head: “But I can’t need that many people, too many people will add to the mess instead .....” The words just came here he suddenly had an er, seemed to understand something, this old man so generous to stuff over so many people at once, it can’t be ....., want to come to steal the teacher, right?

Seeing Ji Feng’s expression, Xiang Jiefang suddenly chuckled and said: “Ji Feng, this time you have to work hard, to get something out as soon as possible, you may not know yet, now there is already very accurate information that the rice country has made great progress on the orbital cannon, and it may even have been developed successfully, while we, however, are still in the process of research, which has fallen behind Quite a lot, now we can only make up for it in light weapons first!”

“Rail guns?”

Ji Feng smiled and asked, “Is it an electromagnetic rail gun? Or a gravity rail gun?”

Xiang Jiefang was stunned, he just wanted to distract Ji Feng, but he didn't expect that two terms actually came straight out of Ji Feng's mouth, and ..... that what gravity rail gun, he hadn't heard of it!

Could it be a new technology?

The old man had a new technology, but the old man had a new technology.

However that old man was likewise a bit stunned and immediately asked, "Ji Feng, that gravity rail gun you just mentioned, is there any difference between it and an electromagnetic rail gun?"

"Of course there ..... seems to be!" Ji Feng scratched his head and said, "I remember reading a magazine that seemed to have mentioned these two kinds of railguns, so I just asked casually."

"Is that so?" Xiang Jiefang looked at Ji Feng and said, "Alright, let's not talk about that, Ji Feng, you can't stay too long in Jiangzhou this time, you have to come back and start the R&D work as soon as possible!"

"General Director Xiang, you wait first!"

Ji Feng hurriedly interrupted him on hearing this and asked, "You mean that I'm going to do the R&D work over here?"

Xiang Jiefang nodded and said, "Of course, such an important weapon can't just be developed anywhere, right? That would be too much of a child's play!"

Campus Master Chapter 2893

Xiang Jiefang nodded and said, "Of course, a weapon of such importance can't just be developed anywhere, can it? That would be too much of a child's play!"

To actually have the R&D location in Yanjing?

Ji Feng immediately shook his head when he heard that, and couldn't help but say, "Chief Xiang, I don't object to putting the R&D location in Yanjing, just that, I don't have much time to stay in Yanjing all the time, after all, I still have a lot of things to do in Jiangzhou ....."

"You little comrade!"

Before Ji Feng finished his words, he heard the white-haired old man say, "This weapon development is such an important matter, don't you understand the significance to the country? You can push it back if you have other things, don't worry, the country will definitely not treat you badly, no matter what losses you have or what help you need, you can just ask!"

"....."

My biggest request is to put the R&D location in Jiangzhou! Ji Feng secretly said in his heart.

In Yanjing research and development, not to mention the other, just time alone Ji Feng can not take out so much time, if there is nothing, Ji Feng is not willing to leave Jiangzhou for too long, because Lei Lei and Yu Xuan they are in Jiangzhou, more importantly, if placed in Yanjing for research and development, it is the same as he developed for the military, at most, count him as a contribution, but this ownership issue, can not be so good But this issue of ownership is not so good!

And if it is placed in Jiangzhou for research and development, even if it is in the military barracks, but at least the Tengfei Group can participate in it, at the very least, the rights and interests that should be there can more or less be fought for.

It's not that Ji Feng doesn't want to contribute to the country, but this kind of thing of working for nothing is something he is not willing to do.

What's more, this is not a healthy way of development. The old days when one could sacrifice one's ego and give up everything for the sake of the collective and the country are long gone, and it has also been proven that such a way cannot continue indefinitely, as one's enthusiasm will run out one day after all.

Only a reasonable profit, and a reasonable reward, can sustain longevity.

As for the white-haired old man's claim that he would give compensation and would not treat himself badly, Ji Feng was just listening, not because he did not believe the other party, but because, what he needed was not compensation!

The laser gun, and even the future laser cannon, and the rail gun and all kinds of weapons, these are all important products for the Tengfei Group to enter into the military industry.

Especially the laser gun, that will be the door knocker for Tengfei Group to enter the industrial field, but according to the meaning of the old man with white hair and Xiang Jiefang, it seems that they want to buy out Ji Feng's technology directly?

At this point, Ji Feng could not agree.

If he wanted to sell the technology, then no country in this world could buy those technologies in his head, nor could any country pay such a large price.

Besides, if he just wanted to sell the technology to the military, then why would he need to go to Treasure Island to help find the Alpha Ore? Moreover, a long time ago, he had brought back a defective laser gun from Rice and handed it over to the military for free, which was not a small contribution, right?

Not to mention the many times he had captured transformers alive and handed them over to the country for research!

"Chief Xiang, this old gentleman, frankly speaking, I intend to place the R&D base in Jiangzhou." After a moment of careful deliberation, Ji Feng still intended to come clean, there was no point in hiding some things, instead it was better to say it directly, "Moreover, I also intend to involve the Tengfei Group in this regard!"

Xiang Jiefang was not too surprised, he just smiled and said, "Tell us your reasons."

"It's simple, I can take the technology out to the military, but, the Tengfei Group can't not develop either!" Ji Feng said bluntly, "Besides, to manufacture laser guns, it might actually be better to use the new chrome alloy newly developed by the Tengfei Group!"

"Oh?!"

Xiang Jiefang asked at once, "Really?"

Ji Feng said, "Based on some of the current data, it is indeed true, however, whether the new chrome alloy is really suitable for manufacturing laser guns, further tests are needed."

In fact, there was no problem at all in using that new chrome alloy to make laser guns, only that Ji Feng didn't say it to death now.

Xiang Jiefang nodded thoughtfully and said, "Ji Feng, what about your thoughts, we can also understand, however, you should also understand that regarding the research and development of radium guns and other work, this will be top secret and absolutely cannot have the slightest leak, but this has to be placed in Jiangzhou ....."

Ji Feng immediately said, "Put it at my place, I believe there is certainly no problem in terms of security as well, and if the military is not at ease, they can send someone else over to take care of security."

"But your security equipment as well as some hardware facilities are not up to scratch!" Xiang Jiefang said.

No matter how powerful and rich the Tengfei Group was, it was only a private company, and it had only been a few years since its rise, unlike some of the military's research institutes, which were built under the premise of absolute secrecy and security from the start, plus tight security, so naturally security was not a problem.

The military certainly does a better job than the Tengfei Group in terms of security, but the problem is that even though the place is so secure, there have been times when foreign spies have gotten in, and I heard that once they even stole very important information.

However, he did not say these words, otherwise Xiang Jiefang's face would not be able to hold up.

When he saw that Ji Feng did not say anything, he thought he was still considering it in his heart, so he said, "Ji Feng, apart from that, if you have any other concerns, you can raise them all and we can solve them together, what do you think?"

Ji Feng shook his head and said, "I don't have any concerns, just that one request just now ....."

"Little comrade, you are too stubborn!" That white-haired old man couldn't help himself and couldn't help but say, "It's the right thing to do to contribute to the country, and besides, the country won't treat you badly, and will definitely make the technology you provide worthwhile. If you don't sell the technology to the country, can you produce it yourself? Or can you still sell it to other countries?"

Ji Feng then couldn't help but look at the old man, this old man spoke bluntly, but, if he couldn't produce it himself, how come he couldn't sell it to foreign countries?

Well .....

The actual fact is that you can't sell it to foreign countries, but I'm not going to give it to anyone, so I'm going to keep it for myself, right? The actual fact is that it's a research.

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.  
"

That old man immediately frowned, a look of displeasure flashed in his eyes, "You little comrade ....."

“Little Feng!”

Without waiting for that old man to speak, Ji Zhenping glared at Ji Feng first and reprimanded, “How to talk, this is the time to talk about things, not the time to make a scene of character!”

Xiang Jiefang waved his hand and said smilingly, “OK Zhenping, now we are talking to Ji Feng as equals, you should not press him with the status of an elder ..... However, Ji Feng ah, what your little uncle said is not unreasonable, now is not the time to play with character ah! ”

Just kidding!

Ji Feng took out the technology and handed it over to the state, it looks like everything is fine, but, didn't you hear him say just now that this is still just an immature technology, then there is definitely still room for research and development, the technology contained in this laser gun is very advanced, this has been said by more than one expert in the military.

So, in the future, if Ji Feng doesn't hear about it, the military will still be blinded with this immature technology? Even if it is possible to slowly make up for it and develop it, won't it take time? Three years, five years? Or would it take longer?

Seeing that the Dynasty's laser gun head has already been put into actual use, how can the country have that long to wait?

Therefore, if Ji Feng really wanted to play with his character, they really had no good way out. I'm not going to sell this technology, can't I?

If that was really the case, then there was really nothing they could do about it to Xiang Jiefang.

“Chief Xiang, I'm not playing with character, I'm just talking about the matter.” Ji Feng said, “I promised you that I would definitely develop the laser gun within a year, so I definitely won't go back on my word, but this follow-up .....”

“Ji Feng, I hear what you mean, however, this laboratory in the Tengfei Group will definitely not work, this is a matter of state secrets, there is no precedent for this before, even if I am the chief, I can't promise you easily!” Xiang Jiefang shook his head and said, “Besides, even if I promised you, but from the time the equipment is shipped over to the time when all the other series of preparations are done, I'm afraid it will take quite a short time, right?”

“So then, I have a suggestion for you to consider.”

“Please speak to you, Chief Director!” Ji Feng immediately said very politely.

“Jiangzhou also has a military research institute, and a separate piece can be set aside for you to use and manage, but it must be done within the military's research institute!”

Xiang Jiefang said, “As for the development of the Tengfei Group, it can be like this, didn't the Tengfei Group happen to develop a new type of chrome alloy? Then let the Tengfei Group act as a supplier and specialize in producing the casings as well as accessories needed for the laser guns, how about this?!”

“This way .....”

Ji Feng deliberated for a moment and then asked, "But this laser gun can be more than just a casing, there are also triggers, converters, energy sources and other accessories inside?"

"You kid, you don't want to have the whole laser gun produced by the Tengfei Group, do you?" Xiang Jiefang was instantly amused, "Kid, this is our last bottom line, the other accessories must be produced by a company designated by the military, only then can we guarantee sufficient safety!"

"..... Okay!" Ji Feng gave it a little thought and finally agreed.

Campus Master Chapter 2894

In fact, being able to secure the entire casing of the laser gun to be supplied by the Tengfei Group had already reached Ji Feng's heart's expectation.

As for the exclusive production of laser guns, that was simply impossible!

Not to mention the security measures of the Tengfei Group and whether the top-secret technology would be leaked, the state would never let the Tengfei Group master this kind of weapon alone.

At least for now, this weapon is definitely one of the most powerful single combat weapons in the world, even without the 'one' at the end, it is probably the most powerful single combat weapon in the world.

With such a powerful weapon, how could the state completely hand it over to a private enterprise to produce? Even with Ji Feng's background, it would definitely not be possible.

This is no longer a matter of background or not, even other factions, even the Xiang family, would never agree to completely hand over the laser gun to the Tengfei Group for production, because once time goes by, this is almost like letting the Tengfei Group grab the neck, and if the Tengfei Group wants to play something fishy at that time, no one can control it.

The country is not even willing to import weapons from just one country, let alone weapons that are still produced domestically.

Moreover, the security of the Tengfei Group is indeed inferior to that of the old military enterprises. This is not only a matter of the quality and ability of the security personnel, but also involves many aspects.

For example, those old military enterprises, especially those involved in the production of important weapons, are guarded by a large number of armed personnel, and even some of the most important and large-scale military enterprises even have small units of troops stationed nearby.

The current security force of the Tengfei Group is indeed enough, but if the production line of laser guns is added, it will definitely not be enough, and the recruitment of security personnel is not a quick fix.

Security personnel in the military industry have to go through a strict vetting process before they can be hired, and there are a series of complicated procedures to go through.

In addition, there is a great deal of profit involved.

Imagine, with such a powerful weapon as the laser gun, as long as it can be mass-produced, then it must be gradually replaced by the troops, then imagine how many armies there are in the country? How much would it cost to replace them?

Even if it was just to replace the equipment of the main field units, the cost would be astronomical!

How many people are staring at such a large piece of cake? It is absolutely impossible for a private company like the Tengfei Group to swallow it alone!

Even if this Tengfei Group is owned by Ji Feng and eats alone, as long as the cake is big enough to cause others to be red in the eyes, it will definitely attract many people who are red-eyed and want a piece of the pie.

The technology is in the hands, and the production and supply of the shell is qualified, so the profit is already considerable.

The most important thing is that with this opportunity, the Tengfei Group can finally enter the industrial field, which is of great significance.

However, the degree of cooperation with the military is something that needs to be grasped, at least not too much while contributing.

So Ji Feng asked with a smile, "Chief Xiang, so what, this cooperation thing ....."

Before Xiang Jiefang even spoke, the old man couldn't help but say, "You little comrade, thanks to you are still the child of Minister Ji's family, your little uncle is still here, how can you ....."

He didn't finish his words, but his meaning was clearly expressed, apparently thinking that Ji Feng was too much of a profit seeker and didn't know to think about making contributions to the country.

Ji Feng then couldn't help but scratch his head and said with a bitter smile, "This old man, relying on the proceeds of your own labor to get paid, I think this should be protected by law in our country!"

The old man was instantly angry and blew out his beard a bit, looking at Ji Feng and unable to speak.

Ji Feng just laughed and then stopped paying attention to him.

For this kind of old man, Ji Feng really didn't know what to say to them. Did everyone have to be passionate about making contributions to the country for free, so that it would work?

You have to eat even if you make contributions!

If ordinary workers can do a good job at their posts, that is also making a contribution, and they deserve to be paid and receive benefits, which is what they get for their labour.

So how can one's own provision of technology, and it's not too much to say that it's epoch-making technology, how can one not claim a certain amount of benefits for this?

If it wasn't for the presence of Xiang Jiefang and his younger uncle Ji Zhenping, Ji Feng really wanted to ask this old gentleman, could it be that you don't get a salary from the state for doing your job?

Seeing this, Xiang Jiefang could not help but say with a smile, "Ji Feng, you can rest assured about this, as long as you have contributed, the state will not treat you badly, what about these issues, someone will talk to you in detail!"

As the chief, he naturally would not negotiate with Ji Feng here like a businessman who was asking for money on the spot, there were naturally professionals to do these things.

The main reason was that this old man was the main person in charge of this laser gun project and had to come to meet Ji Feng, the person who provided the technology, and wanted to have a technical exchange, only that he didn't expect the conversation to be somewhat unpleasant before this exchange had even started.

Since this was the case, there was naturally no need for Ji Feng to stay here any longer, he greeted Xiang Jiefang and the others, and then left the General Staff.

For the next matter, Xiang Jiefang had already said that someone would contact him, so he would just wait. As for now, he just wanted to go back to Jiangzhou to keep Lilai and the girls company.

That afternoon, Ji Feng took a military plane back to Jiangzhou. On the plane, he couldn't help but secretly say, if that old man knew that he had even used a military plane for no reason, I'm afraid he would think that he was a moth and wasting the country's resources, right?

He couldn't help but shake his head, this is the difference in perception between two generations, he couldn't say that he was right and that old man was wrong, but at least he would do what he thought was right.

When he left the military compound, Xiang Yongzhan had already arranged for a car to take him. Originally, Xiang Yongzhan wanted to keep him for a good drink, but he was refused by Ji Feng.

"Ji Feng, when you have time you must call me, I must have a couple of drinks with you!" Xiang Yongzhan said, Ji Feng had exterminated the remaining members of the Cheetah Mercenaries with just a few people, and even wiped out the Vicious Wolf Gang, which was really a great pleasure.

The biggest regret in Xiang Yongzhan's heart was that he had let the boss of the Cheetah Mercenaries run away with a group of people at that time, but now they had died in Ji Feng's hands, so this was worth celebrating with a few drinks anyhow.

Ji Feng nodded and smiled, "No problem, it's not easy if you want to drink, I'll contact you in a few days!"

"With your words that's enough!" Xiang Yongzhan laughed, "I know you're eager to go home, a small farewell is better than a new wedding, understandable!"

"That's natural!" Ji Feng laughed, admitting it frankly.

The laughter of Xiang Yongzhan became even louder, and only after a few moments did he barely hold back his laughter and said, "Seriously, you really can't say anything about yourself, in a word, great! There's nothing you can't do, to describe you in the words of a chief, you're the omnipotent Sun Monkey, awesome!"

Ji Feng was surprised and asked, "Oh? Someone described me like that?"

“Of course!”

Xiang Yongzhan laughed, “Don’t think it’s anything derogatory, it’s a compliment to you! You don’t even know how big your reputation is in the military now, that fat pig was done away with by you, it’s definitely a great pleasure, made something that many people wanted to do but couldn’t!”

That fat pig politician who often jumped up and down and not only insulted the mainland, but also forgot his ancestors, I don’t know how many people in the mainland hated him, but they couldn’t do anything to him, but now, that fat pig was slaughtered by Ji Feng, although the body has not been found yet, but everyone knows that that fat pig will never live!

Ji Feng smiled at his words but shook his head and smiled, this kind of thing, even in private, could not be admitted, otherwise there could really be big trouble.

But Xiang Yongzhan also did not expect Ji Feng to admit, everyone has a number in mind on the line, he is instead more interested in another thing, only to see him lower his voice, mysteriously asked: “Older brother, that video I watched, at that time you threw down two black things from upstairs, instantly turned into a sea of fire, what the hell is that?”

Ji Feng casually said, “A little gadget, a simple incendiary bomb made by hand!”

Xiang Yongzhan looked at him speechlessly and asked, “Do you think I would believe that? The suggested incendiary bomb would be that powerful? Even military man-portable incendiary bombs are no match for the ones you made with your hands, right?”

The first thing that caught Xiang Yongzhan’s attention after he had seen that video was the blazing fire, an outsider looking in, an insider looking in, the first thing he could tell was that the burning thing was not simple, so he could not help but ask about it.

In fact, Xiang Yongzhan was not the only one who saw the video and noticed the burning object. In fact, when the video first came out, many professionals and even some military people noticed it, but the content of the video was something that people could not help but freak out.

Because, at that time, when Ji YuYing was filming, only one or two shots occasionally flashed by, capturing Ji Feng drumming up those things on the table, but most of the rest of the time, it was filming Ji Feng’s upper body, and ..... still as a background!

This really drove those professionals crazy!

Clap your hands ah! How come they didn’t know to film the movements of Ji Feng’s hands at that time! Those two black things were obviously improvised by Ji Feng, and it was obvious that the ingredients were on the table. If they filmed Ji Feng’s hands, it would be like filming the making of that horrible incendiary thing, and that would definitely be a huge fortune!

But now .....

Campus Master Chapter 2895

The video that circulated on the internet created another craze.

Especially when many people watched the blazing fire that later burned in the small courtyard, they were simply too shocked to contain themselves.

The flames were so intense that just a little spark splashed onto the body could actually burn the whole person to charcoal, and some people were even directly burnt to ashes!

This was truly terrifying!

How could a mere speck of fire have such a powerful burning power?

There was no doubt that the secret was hidden in Ji Feng's hands, and originally, many people had access to this technology, just by looking at the things on the table captured in the video, many people could deduce that those were not special ingredients, many were common ingredients on the market, but in Ji Feng's hands, these common ingredients ended up being able to exert such a terrifying power! But in Ji Feng's hands, these common ingredients ended up being so powerful!

This made a lot of people's hearts burning, if they could find a way to make that kind of incendiary material, then they would really be rich!

Some foreign weapons manufacturers were even alarmed when the video went abroad from the island, and some even said that it looked like it could be an incendiary that was even more terrifying than the most advanced modern incendiary bombs!

This conclusion was a shock to many people.

The most outrageous thing was that a foreign company had even sent an email to the Chinese embassy, wanting to contact the man in the video, hoping to buy the method and technology to make that incendiary from him.

This shows how much of a stir Ji Feng's incendiary product has caused, and Xiang Yongzhan is naturally extremely excited about it. But Ji Feng didn't want to talk about it, and he couldn't do anything about it. The technology was Ji Feng's, and no one could take it away if he didn't want to talk about it.

"Ji Feng, I'm afraid you still don't know the value of this incendiary, right?" Seeing that Ji Feng wasn't very interested, Xiang Yongzhan couldn't help but say, "You know what? This thing has even caught the attention of foreign weapons manufacturers, so if you think about it, you must be the first to find me!"

Ji Feng casually nodded his head and said, "OK! It's definitely no problem, if I really develop any incendiary bombs or other weapons that can shock the world, I'll definitely look for you." After a pause here, he continued, "Old Xiang, what about the matter I asked you to do last time?"

Xiang Yongzhan was stunned, "What is it?"

This was a sudden question without a head, and Xiang Yongzhan did not react for a moment.

"Of course it's the matter of the discharged female special forces soldier!" Ji Feng glanced at him and said, "I say, old Xiang, you didn't forget, did you?"

"How could I forget!"

Xiang Yongzhan suddenly dawned on him and couldn't help but say, "How could I forget such a thing?!"

Not long ago, that is, after the armed robbery at the International Convention and Exhibition Centre, Ji Feng asked him to help out and find a few more retired female special forces soldiers.

Ji Feng immediately asked, "Then how is your search going?"

Xiang Yongzhan shook his head and said, "Every special forces soldier is a treasure, and besides ....."

"Don't talk to me about these useless things!"

Ji Feng directly interrupted him and asked, "In one word, have you found it or do you plan to find it or not!"

Xiang Yongzhan was instantly choked and laughed bitterly: "You kid really talk ..... eat gunpowder? I tell you ah, special forces are not rare, but, female special forces are not many, but the gap is big, I wasted a lot of effort to help you find two."

Ji Feng looked at him and said, "You are so three objective two reasons, is it interesting?"

Female special forces are very rare, especially trained, really have combat power and combat experience of female special forces, that is even more rare, even if there are some retired, will be snatched up by the people above, the so-called near water platform to get the moon first.

The actual fact is that you can find a lot of people who are not able to do the job.

The reason why this guy said this is because on the one hand, it is difficult to find female special forces soldiers, especially those with good hands and combat experience are not many, and on the other hand, this guy is undoubtedly taking credit.

The reason for this is that it is very difficult to find female special forces soldiers, especially those with good skills and experience.

Xiang Yongzhan then was a bit speechless, choked for a moment, then said with a bitter smile, "Okay, you kid is ruthless, no way, who let me owe you! When you have time, I will take them to meet you, first of all, ah, I just help you introduce, but they are no longer soldiers, I do not have the power to order them, when the time comes, whether they are willing to stay, it depends on your ability!"

The first thing you need to do is to make sure that you have a good idea of what you are doing. You're still not sure? How long has it been?"

Xiang Yongzhan shook his head, "You have to understand, people have already retired, they must have their own intentions, I can't force them to stay and be your bodyguards, right?"

"Fine!"

Ji Feng nodded and said, "Then let's do it in three days, you arrange the people first, I'll contact you then."

In fact, Ji Feng also knew that although these special soldiers were usually strict in discipline, they were also high-minded and arrogant, and without orders from above, they might not really be willing to stay and take on the role of someone else's bodyguard.

However, Ji Feng also believed that as long as he could offer good enough treatment, as well as enough sincerity, he believed that he should be able to keep them.

After all, those girls would have to find a job after they retired from the army, wouldn't they?

When the two agreed on a time, Xiang Yongzhan suddenly remembered something and said, "By the way, there's someone I think is quite suitable, but she still has a few months to go before she retires, I just don't know if you can wait."

"A female special forces soldier too?!" Ji Feng immediately asked.

"That's right."

Xiang Yongzhan nodded and said, "But not from our special operations brigade, but a logistics soldier from the Jiangzhou military district, in a military competition of their regiment, showed extremely high martial arts skills, very strong hands, so she was directly transferred to the Jiangzhou military district's own unit, performed quite well in the unit, I was thinking of transferring her to me, just that she was about to retire, I also did not make a decision for the time being."

Ji Feng was instantly interested when he heard that, "Oh?! This female soldier is very good? How does it compare to your soldiers?"

Xiang Yongzhan said with a heated smile, "I've seen her hands, they're quite impressive, I reckon that if you don't care about other combat qualities or anything like that, if you just fight head to head, you should be able to reach a level of half and half with the average soldier of the special combat brigade."

Ji Feng couldn't help but be slightly moved at his words, "So powerful?!"

To be able to fight a general warrior of the Special Combat Brigade at about the same level, this was already quite impressive!

You should know that this female soldier has not undergone the kind of devilish training of the special combat brigade, although she entered the Jiangzhou Military Region's own unit – this so-called own unit, in fact, is the Jiangzhou Military Region's formation of special units that belong to the military region's internal, except for not officially called special units, other training and treatment and what not are all in the direction of Special forces.

The fact that she was able to fight with the average special forces soldier is enough to show how powerful that female soldier is.

If she goes through that kind of devilish training again, I'm afraid she will be even more powerful. If she learns those combat knowledge, has enough combat literacy and military theory, and so on, plus her ability to fight alone, I'm afraid she will have no problem even serving as a team leader in the special operations brigade!

This is already quite a good talent! And she was a female soldier, which was exactly what Ji Feng was looking for as a bodyguard! So Ji Feng immediately asked, "Then where is she? Where is she now?"

Xiang Yongzhan laughed: "Don't be in a hurry, this is just an intention of mine, I haven't informed her yet, I just want to wait until I've discussed it with you, if you agree then I'll inform her, if ....."

Ji Feng immediately said, "Nonsense, of course agree ah, where is she?!" Speaking of this he immediately waved his hand and said, "How about this, you inform her first, and when you bring her along with the other two female soldiers in a couple of days, we'll meet."

Xiang Yongzhan laughed, "But you have to be mentally prepared, it's not clear whether people are willing or not."

Ji Feng said, "That's why we have to talk about it."

"That's fine, as long as you're mentally prepared anyway." Xiang Yongzhan nodded his head.

"That's it then, let's go!" Ji Feng got into the car and waved his hand.

After leaving the barracks, Ji Feng immediately took out his mobile phone, he contacted Bai Zhu first.

"Young Ji?!"

Bai Zhu looked surprised, "You're back?!"

Ji Feng smiled, "I'm back, are you at home?"

Bai Zhu gave a hint and said, "At home, when will you arrive home?"

"About an hour or so, are Yu Xuan and the girls all home?" Ji Feng asked.

"No, Lei Lei has gone to her new school and Sister Yu Xuan has gone to the company." Bai Zhu said, "I'm the only one at home now."

She was Ji Feng's personal bodyguard, and since Ji Feng hadn't returned, she could only stay at home.

Ji Feng nodded and said, "Then you go to the company now and we'll meet there."

After hanging up the phone, Ji Feng couldn't help but smile slightly, Lei Lei went to school, she must have gone to work on setting up the school, going there now would in turn disturb her, so Ji Feng decided to go to the company first to look for Yu Xuan, and then check out the company by the way.

When he arrived at the company Bai Zhu was already waiting, seeing Ji Feng, a flash of joy flashed across Bai Zhu's face, but before Ji Feng could say anything, she said, "Young Ji, Sister Yu Xuan is not in."

"Not in? Where did she go?"

Ji Feng froze for a moment and didn't care, a boss who sat in the office all day was definitely not a qualified boss, he only thought that Xiao Yuxuan had gone out to talk about her work.

However, Bai Zhu's answer took him quite by surprise, "I just called Sister Yuxuan to ask, she is with General Manager Qin."

"General Manager Qin?"

Campus Master Chapter 2896

Bai Zhu nodded, "Yes, it seems that Sister Yu Xuan and Mr. Qin went shopping together."

“Is it Shu-jie?” Ji Feng asked, the General Manager Qin that Bai Zhu said, and the one who was shopping with Xiao Yuxuan, I think it was also Qin Shujie.

“Well, it’s her!” Bai Zhu nodded her head.

Ji Feng just couldn’t help but be flooded with a strange feeling, what does this ..... all say? Qin Shujie had actually gone shopping with Xiao Yuxuan? If Bai Zhu hadn’t told him, he wouldn’t have even thought about it.

You know, before this although Yu Xuan and Lei Lei had already sort of accepted Qin Shujie and Xu Yuan, but, it was still obviously awkward between them, how come the two of them are shopping together now?

Ji Feng really couldn’t believe it!

But after thinking about it, he couldn’t help but smile slightly, it was a good sign that they could shop together, it meant that the relationship between them must have gotten a step closer, although it didn’t matter who took the initiative to ask who out, but at least it was a lot better than before.

Well!

This is great!

For a while Ji Feng couldn’t help but feel good.

“Ji Shao, when General Manager Qin and Sister Yu Xuan and the girls are together, will .....” Bai Zhu hesitated for a moment, but still said, “Will there be any conflicts?”

“No!”

Ji Feng smiled at his words and waved his hand, saying, “Don’t worry, it definitely won’t.”

He understood Bai Zhu’s meaning, Bai Zhu was worried whether there would be any secret rivalry between Xiao Yuxuan and Qin Shujie when they were together, or any open conflict, but in Ji Feng’s opinion this was simply impossible.

The two of them are both very intelligent women, and unless they are in irreconcilable conflict together, they will not be in conflict at all. Besides, if it was really an irreconcilable conflict, then there would be no need for the two of them to go out together.

So Ji Feng was very assured that there would be no surface conflict between them, not even a secret rivalry.

Although it was a surprise to Ji Feng to suddenly hear the news that Xiao Yuxuan and Qin Shujie were going shopping together, he probably guessed what was going on after just a little thought, it must be because one of the two of them had taken the initiative to invite them, and the other one also wanted to improve the relationship between them, so they had a shopping date together.

“Let’s go, since they’ve gone shopping, let’s go around to the office!” Ji Feng was in a good mood, so he couldn’t help but laugh and pinch Bai Zhu’s tender face.

“Mmm.”

Bai Zhu gave a very docile mmm, with a smile on her pretty face, completely giving in to Ji Feng's almost molesting behavior, this intimate little action, on the contrary, made her heart very sweet.

Afterwards, Ji Feng went directly to Han Zhong's office and found that the office door was closed, so he didn't go to Han Zhong's assistant next door, but directly knocked on the door.

"Knock knock knock!"

"Please come in!"

Suddenly, a woman's voice came from inside, causing Ji Feng to freeze for a moment.

A woman?

He turned the lock handle and pushed open the door of Han Zhong's office, and saw a woman sitting on the seat that originally belonged to Han Zhong.

The woman sitting on Han Zhong's position was no other than Han Zhong's girlfriend, Wang Jun.

"Ji Feng?"

Wang Jun also looked a little surprised, she also did not seem to expect to see Ji Feng here, stood up even with a smile and said, "You're here to find Han Zhong, right? What a coincidence, he's not in the company right now."

Ji Feng was surprised, "Not here? Then where did he go?"

Wang Jun said, "He went out to talk business, he didn't say exactly, why don't you sit down and wait for a while, I'll give him a call?"

Ji Feng waved his hand and smiled, "No no, I just came to see, there is nothing important ..... that what, since Han Zhong is not here, I will not bother, when he comes back you just ask him to give me a call back."

Han Zhong is not in, just Wang Jun is alone in the office, it's not too convenient for him to go in, no matter what, there is only one girl in this office, it's not convenient for him to stay in there for a long time.

"That's fine, I'll be sure to pass it on to him for you!" Wang Jun said with a smile.

"Thanks."

Ji Feng nodded and said, "That's it then, I'll leave first, see you next time."

Wang Jun also nodded politely and said with a smile, "Take care."

Pop!

All the way until Han Zhong's office door closed, Ji Feng couldn't help but shake his head and smile, this Han Zhong, really didn't know what he was up to, however, it looked like during the time he went to Treasure Island, Wang Jun should have become Han Zhong's assistant, it seemed that Zhao Kai had carried out his orders as previously discussed.

Before Ji Feng went to Treasure Island, he had discussed with Zhao Kai, because Ji Feng felt strange about some of Wang Jun's behavior, and felt that it was a bit inappropriate for her to keep helping Han Zhong with his documents as an outsider, but also did not want to investigate or spy on Wang Jun secretly, so he discussed with Zhao Kai to let Wang Jun jump to Tengfei Group to be Han Zhong's assistant.

The only thing that makes Ji Feng feel strange is, does David Wang not have a separate office and always works at Han Zhong's place?

You know, it's normal business hours, if Wang Jun has really become Han Zhong's assistant, then she should be at work at the moment too .....

The actual fact is that you can find a lot of people who have been in the business for a long time.

Zhao Kai's office was in the general office, although there was a separate office, but the area was not big, but it was good that it was clean, when Ji Feng came, he saw that Zhao Kai was talking to someone on the phone, but it seemed that he was not very patient, he hung up without saying a few words.

"Ji Feng?!"

Seeing Ji Feng come in, Zhao Kai was surprised, "When did you come back?"

Ji Feng smiled, "Just got back." He casually pulled a chair and sat down, smiling as he asked, "Who was on the phone with just now?"

"My mother called!"

Zhao Kai shook his head with a bitter smile and said, "She called and insisted that I should come home, saying that she had introduced a girl to me in my hometown and insisted that I should go over and meet her."

Ji Feng was instantly amused, "A blind date?"

"Yes! Seeing that I never had a girlfriend, my mum got anxious." Zhao Kai shook his head with a bitter smile, "Let's not talk about that, what about you, you just came back, why don't you spend some time with your wife at home, what are you doing here at the company?"

"There's no one at home either!"

Ji Feng laughed, "Otherwise, you think I want to come, what's so good about you few stinky men!"

The two of them burst out laughing.

"Eh, by the way, just now I went to look for Han Zhong and saw him in his office, she has come over for induction?!" Ji Feng asked casually.

"Long time ago, I told Han Zhong after I came back that day, and then after about three days, I think, Wang Jun came." Zhao Kai said, "After he came, he became Han Zhong's full-time assistant, and has been until now."

"After three days and you're on board?" Ji Feng laughed, "That's pretty quick."

He certainly knew when Zhao Kai was referring to that day, the day he discussed with Zhao Kai whether to investigate Wang Jun, but what made Ji Feng a little surprised was that Wang Jun came on board after only three days, did she resign so smoothly over there?

According to Ji Feng's understanding, nowadays it is difficult to join the workplace, and it is actually not easy to resign.

Especially in some big companies, resignation that can have a strict process, for example, some companies require employees to resign must play a month in advance resignation report, and some responsible leaders above have approved, and then only when due can resign.

Only then can they receive their salary, bonuses and other benefits due to them. If you don't resign in advance, you won't get any of this.

And the most important thing is that in this information age, many companies pay special attention to the performance of the previous company and the reasons for resignation for new employees, or employees who come to look for a job.

But this Wang Jun unexpectedly resigned from his job in three days and came to join, which makes Ji Feng a little surprised, because he had previously heard that Wang Jun was working in a very large company, resignation so easy?

And .....

The fact that Wang Jun had often come to Han Zhong during working hours before this was even more strange.

I think so too!" He lowered his voice when he said this, "Ji Feng, do you want me to check it out?"

"It's still not necessary."

Ji Feng shook his head and said, "Just ask Han Zhong directly about this. As long as you tell Han Zhong what I said last time, I believe he will definitely have a good idea."

But Zhao Kai shook his head and said, "I don't think so! The IQ of a person in love can drop drastically, and Han Zhong must have a preconceived idea, he first decided from his heart that everything Wang Jun did was reasonable, then he will find a reason for her to do anything next."

Seeing Ji Feng pondering, Zhao Kai said, "I think, it's better to check it out."

Ji Feng narrowed his eyes and pondered in his heart. It wasn't really difficult to check on Wang Jun, one could even say it was easy, but the question was, what would Han Zhong think in his heart if he found out later?

Perhaps, Han Zhong would think that they didn't trust him and would even have more radical thoughts.

After a long time, Ji Feng still shook his head and said, "Let Han Zhong check it out! We can't get any ideas between brothers just for some catch-22 or even unwarranted speculation!"

In fact, Ji Feng did not want to make Han Zhong's heart thorny because of their malicious speculations.

"Alright!"

Zhao Kai nodded helplessly, although in his heart he actually wanted to check out Wang Jun, if he couldn't find out any problems then naturally it was best, so that he could also dispel the doubts in their minds, but if he found out any problems, then he had to prepare well in advance.

But since Ji Feng had made the decision, he had to carry it out.

However, in his heart, Zhao Kai felt that this time Ji Feng was too jaded, and since Ji Feng could talk to him about Wang Jun, it meant that Ji Feng was a little uneasy about Wang Jun. Coincidentally, Zhao Kai also had the same feeling!

Campus Master Chapter 2897

Ji Feng and Zhao Kai talked for a long time, of course they were not talking about the development of the company, this aspect is naturally done by Han Zhong and Xiao Yuxuan, Ji Feng talked to Zhao Kai, or Zhao Kai's professional work – intelligence collection!

Zhao Kai seems to be very interested in this, this only started not long ago, he has already collected a lot of useful information, and will provide some of the information to Han Zhong and Xiao Yuxuan, so that the Kang source of slimming powder and 3 d television sales on a lot more smoothly.

But this is definitely not all that Zhao Kai and the intelligence gathering and analysis department he has set up can do, but only a small part of it.

Just like many other large companies in the world, they all have a very efficient intelligence department, which is responsible for gathering detailed information about their competitors, investigating their own business conditions, sales channels of their products and all kinds of information related to the company.

In addition to this, the intelligence department is also responsible for investigating and collecting other sensitive information to better inform the company's top management in making decisions.

In some cases, the intelligence departments of large companies may even carry out some untoward operations in private, such as sending commercial spies to rival companies or other companies in the same industry, etc. ....

The intelligence department set up by Zhao Kai has only been able to investigate the internal operations of the Tengfei Group, as well as the sales channels of the Tengfei Group's products and the sales situation on the market.

They would summarise the results of the investigation, analyse them and then report them to Han Zhong or Xiao Yuxuan, at least in terms of the company's operations and the sales of its products.

For example, after they had previously fed back to Han Zhong and Xiao Yuxuan through some of the situations they had seen in the investigation, soon after that originally problematic distributor was severely punished and the company's sales channels were opened up.

So to put it bluntly, so far, the intelligence department led by Zhao Kai is only equivalent to a think tank of the company, but even if it is to investigate the sales situation and sales channels of the company's products, the intelligence department can only do so in the country now, not abroad.

Moreover, even in the country, the intelligence department does not have that much manpower, so many of their sources of information are the company's various reports.

This time, one of the dealers under the company was trying to embezzle the company's assets by falsifying the accounts, which was discovered by Zhao Kai after reviewing and analysing the dealer's quarterly statements.

After discovering the situation, Zhao Kai immediately sent someone to investigate the local sales of Kang Yuan slimming powder and confirmed the nasty behavior of that dealer.

Then Zhao Kai immediately reported it to Han Zhong and Xiao Yuxuan.

Thus, there was the subsequent clean-up action.

From this point of view, even though the intelligence department of the Tengfei Group was still too weak and could even be described as just starting out, just like a baby that hadn't even started toddling yet, still in its infancy so to speak, the intelligence department had already started to function!

This gave Zhao Kai a great deal of encouragement, and made Ji Feng feel relieved and look forward to the intelligence department growing even faster, and even eventually growing into a behemoth!

"Unfortunately, there's a serious shortage of manpower now, look, I only have five people in this department including me, and that's including the two you transferred over to me before you went to Treasure Island ....."

Zhao Kai was a bit helpless: "Now just analyzing the reports is enough to keep these people busy, and the group does the reports once a quarter, think about the sales of Kang Yuan slimming powder, and the 3d TV sets, how big is this workload you know, right?"

When it comes to the manpower problem, Zhao Kai has some headaches, the intelligence department has a serious shortage of manpower, now the five of them hate to break one person into two is not enough, and such a huge workload on the five of them, so that even if they want to go out to investigate they have to squeeze in time hard to do so.

With this alone, the situation in the intelligence department was very bleak.

Ji Feng smiled when he heard that, "I know you're working hard, but the analysis of the statements is also being given to you guys to do?" He was a bit strange, before the group's statements were also being analyzed by someone, it seemed to be handed over to someone in the office to analyze, other than that it was a few senior executives and their assistants who were also helping with the analysis and processing.

How come all these reports were given to Zhao Kai now?

Zhao Kai said, "I took the initiative to ask for them, there is too much information contained in the statements, and many things can be seen from them."

Ji Feng said, "Then you don't have to ask for all of them, this workload is so big, how can just a few of you be busy with it!"

“It can’t be helped, it’s because of the small number of people, so this is why we start by analyzing the reports.” Zhao Kai said, “Those assistants will only pay attention to the information they need to analyze the reports, but other information won’t bother them too much, so I had to have people pick it up!”

Ji Feng nodded slowly, indeed, it was normal that many people wouldn’t bother to do more work if it wasn’t within the scope of their own job.

And the people in the General Office used to be responsible for analyzing the reports, but perhaps because of the different focus, so a lot of information on the reports they didn’t notice, otherwise, it wouldn’t have been so bad that Zhao Kai had just taken over the reports for not long before he discovered the problems in them.

It seems that this aspect should have been neglected by Xiao Yuxuan and Han Zhong.

At the very least, it was also a dereliction of duty on the part of the General Office.

However, considering that the Tengfei Group was growing and developing through learning after all, Ji Feng did not intend to pursue responsibility, but the manpower in Zhao Kai’s hands was indeed too small, and this aspect was indeed a problem that needed to be solved urgently.

“Recruit people!”

Ji Feng immediately clapped his hands and made a decision, he looked at Zhao Kai and said, “Kai Zi, since you are in charge of this department, then you will be responsible for this recruitment, how about it?”

Zhao Kai was stunned, “I’ll do the recruiting? This is something that the HR department is responsible for, it’s not good for me to rashly interfere, right?”

In any large formal company, the pattern is quite complicated, each department has its own territory, if others rashly interfere, it will more or less cause conflicts.

Ji Feng said: “It’s okay. I’ll talk to Han Zhong about this later and recruit in the name of the personnel department, but your opinion will prevail on who is hired and who is not hired in the end!” He said, he thought about it and said, “In addition, how many people are suitable to recruit, what positions are they respectively, you think carefully and make a plan out, so that the personnel department can also cooperate with you!”

Ji Feng’s strong support and trust made a warm current flow through Zhao Kai’s heart, but his personality is somewhat feminine, but he does not like to reveal his true emotions, so at this moment he just nodded and said, “Yes!”

“Don’t be so quick to agree first, I do have a request!” Ji Feng smiled as he handed Zhao Kai a cigarette, and only after he had lit it did he say, “You can choose whatever you want for recruitment including the areas you are responsible for, but, the efficiency of work must go up, and, you must create an elite army out of it!”

Zhao Kai said confidently, “Don’t worry, as long as you give enough support, all these problems won’t be a problem!”

Ji Feng then smiled and nodded, stood up and said, "Then that's it, if you need anything you can go directly to Han Zhong or to Yu Xuan, then if you can't, call me, they're all brothers themselves, there's nothing bad to say."

Although Zhao Kai was working for the Tengfei Group in his position, but with the relationship between the two of them was naturally very different from other employees, he was also someone that Ji Feng could really trust, otherwise Ji Feng would not have given him such an important department as the intelligence department.

The company's main business is to provide the intelligence department with the resources and power of the Tengfei Group, and if he has second thoughts, it will be a big blow to the Tengfei Group, so the person who controls the intelligence department must be someone who can be trusted.

Zhao Kai naturally understands this, and knows that Ji Feng trusts him, and with the promise Ji Feng made just now, he is even more confident in creating a rather tough intelligence department.

However, I'm afraid that neither Ji Feng nor Zhao Kai could have imagined how far this intelligence department could grow in the future!

After coming out of the General Office, Ji Feng went to the Security Department again.

With the development of the Tengfei Group, the importance of the security department was undeniable and it was becoming more and more important within the Tengfei Group.

What is more important is that next, Tengfei Group will undertake the production of the military's laser gun casing, which is more important than Kang Yuan's slimming powder and 3D TV sets, at least, in terms of security level, it should be on par with the security level of the special effects current.

Don't look at just the production of laser gun casings, but when it comes to this unique weapon, it is top secret in terms of the state, and no single bit of data or information can be leaked.

For example, if the enemy got hold of a casing, based on the shape of the casing, together with other aspects of information, it might be possible to speculate on certain constructions inside the laser gun, and with the precise dimensions from the casing, other further gains might be made.

What's more, now that laser guns had appeared more than once in the dynasty, Ji Feng didn't believe that other countries hadn't received any news at all.

Therefore, tight security was a must!

But to Ji Feng's surprise, Yi Xingchen was not in his office, but went out for inspection, instead, Yao Zhijian was playing a game in front of his computer. After landing in Minfu Province at that time, Yao Zhijian and the others returned to Jiangzhou first, only Yang Bin remained in the hospital of Minfu Military District for treatment.

A few moments later, Yi Xingchen came back and when he saw Ji Feng, he said directly, "Boss, there are some issues that I happen to want to communicate with you."

Campus Master Chapter 2898

"Oh? What's the problem?!" Ji Feng smiled and asked.

Yi Xingchen said, "I recently found out that near our company, it seems like someone is spying!"

Ji Feng immediately frowned, "Can you be sure?"

Yi Xingchen said, "Eight out of ten`nine, two days ago when I was inspecting, I inadvertently saw something reflecting on that building to the southeast, stabbing my eyes, I paid attention, and then I found out that it was probably someone with binoculars watching us!"

Ji Feng was surprised and asked, "The building to the southeast? That's the direction where the Puder Medical Equipment Company is located?" He didn't doubt whether Yi Xingchen's judgment was correct, with Yi Xingchen's expertise and his vast experience, if this wasn't an accurate judgment, then he really had become the head of the mercenary corps for nothing.

The key question now was, who was watching them!

Yi Xingchen nodded and said, "It's over at Pude Medical Equipment, the reflection point is on that new building they built, on the seventeenth floor."

Ji Feng frowned and asked, "Is it really someone from Pude?"

Yi Xingchen nodded and said, "I privately asked someone to inquire with Pude's employees, that location on the seventeenth floor is the office of one of their new supervisors, and I heard that it is also a beautiful supervisor, in order not to alert the snake, I did not send anyone to monitor or follow it, but only temporarily strengthened the company's patrol, especially at night."

Ji Feng nodded thoughtfully, a new beautiful supervisor? It really looks a bit interesting!

The southeastern direction of that Pude medical equipment company, has settled here a long time ago, with the Tengfei Group can be said to be back and forth, this neighborhood to say that there are tall buildings of the company, but also the Pude company.

It was not too uncommon for office buildings to be placed directly in the factory, so when Pude built an office building of more than twenty storeys, Ji Feng did not care too much about it.

But now, after listening to Yi Xingchen, he was guilty of thinking ..... that although the company is still a bit far away from here, but, it can't help that their office buildings are high, and there are really not many tall buildings in this industrial area, especially in this vicinity, there are no tall buildings or obstacles between Tengfei Group and the company. If you stand on the upper floors of the company and look over here, you can really see everything in the courtyard of Tengfei Group clearly.

If one were to take a high powered telescope from there, one could even see the office building clearly.

This is a bit interesting!

"Don't act rashly yet, have someone privately check out what that beautiful supervisor is all about." Ji Feng said, "Don't alarm the other party, it's best to also check out the other people in the Poodle Company ....."

"Okay."

Yi Xingchen nodded his head. The workers in the factories nearby also like to drink and eat at the stalls after work, so some people who are not in the same field can get to know each other over time.

So it wasn't hard to get some information from the people at Puddle.

"Keep a close eye on it, I'd like to see who is actually beating us up!" Ji Feng sneered.

"Actually it's not just this time, I've noticed a few times before that someone is secretly watching our side." Yi Xingchen said, "The security guards at the entrance once found that someone was hanging around outside disguised as a worker, sneaking around with no ulterior motives when no one was around, and once, someone tried to sneak in during the rush hour, but was detected by the security guards at the entrance."

As Ji Feng listened, his brow gradually furrowed.

In the past, Tengfei Group had not been spied on much, and this was something that he was used to, and Yi Xingchen had also told him quite a few times, which was why he kept strengthening the security force of Tengfei Group, so he couldn't just kick people out or arrest them when he saw them being suspicious when they were sneaking around outside, right?

However, Ji Feng found that there seemed to be more people spying in recent times, and, from the original kind of small minions, small means, surprisingly began to more advanced development, and now even involved in the Puder Medical Equipment Company, and what a new beautiful director!

It seems that the Tengfei Group is really attracting more and more people, and attracting more than just some petty fights.

It's time to keep recruiting people!

Ji Feng secretly said, right now, the security force of the Tengfei Group seemed to be sufficient, but once the new production line was built to produce laser gun casings, then by then the security force would seem to be somewhat stretched.

Then, the recruitment of new staff had to be put on the agenda.

However, this is not something that can be done in a hurry, especially for the security force, it is necessary to have trustworthy people, or at least, they must be inspected and have absolutely no problems before they can be employed.

The company's main business is to provide a wide range of products and services to the public.

In fact, in the past, when he inquired about veterans with Xiang Yongzhan, Xiang Yongzhan even wished that Tengfei Group could recruit more veterans, but now, Ji Feng is not going to go through Xiang Yongzhan.

This is because the deeper the involvement with the military, the more the Tengfei Group must maintain sufficient independence, especially not the security forces sent over by the military!

After instructing Yi Xingchen to be careful, Ji Feng then left the Tengfei Group and took Bai Zhu straight back home with him.

However, to his consternation, when he returned home, he found that Xiao Yuxuan and Tong Lei were actually both at home, as well as Qin Shujie, and looking at their stance, it seemed that ..... they were waiting for him specifically!

“Yo! The big hero is back?!”

Seeing Ji Feng come back, Han Zhen and Xiao Ying’s pretty faces couldn’t help but reveal their joy, but Xiao Yuxuan’s smirking flirtation made Ji Feng couldn’t help but laugh twice and sweat a little, when did he become a big hero?

Bai Zhu whispered next to him, “Young Ji, the video on the internet, Sister Yu Xuan and the girls have also watched it.”

Ji Feng nodded, he thought at that moment that Xiao Yuxuan and the girls would definitely see it, after all, it had become a big deal, even the whole country knew about it, so how could they not see it?

Bai Zhu went on to say, “The video with Ji YuYi’s appearance, Sister YuXuan and the girls watched it several times over and over again!”

Ji Feng: “.....”

He suddenly understood why Xiao Yuxuan and the girls had this attitude, it was really because ..... Ji Yujie was acting too much like that in that video video.

If an outsider watched the video, he might not have felt anything, but when Tong Lei and Xiao Yuxuan watched it, it would be a lie to say that there was nothing at all in their hearts.

This made Ji Feng smile in his heart. There was really nothing between him and Ji Yujie, they were just good friends.

However, how could he explain this to them?

“Why are you still standing there, why don’t you come in when you’re back, don’t you even know your own family?!” Xiao Yuxuan saw Ji Feng standing there somewhat awkwardly and couldn’t help but angrily say.

“Old ..... Ji Feng, hurry in and sit down.” Qin Shujie modestly walked to Ji Feng, originally she blurted out that she wanted to call him husband, but the words came to her lips before she thought that Tong Lei and Xiao Yuxuan were still beside her, so she hastily changed her name.

“Hey, hey!”

Ji Feng laughed and wrapped his arms around Qin Shujie’s soft and elastic waist, causing the latter to let out a soft cry, her face flushed red and she wanted to break away, but she was wrapped in Ji Feng’s strong arms and walked towards the living room involuntarily, making her too embarrassed to look at Tong Lei and Xiao Yuxuan.

Ji Feng didn’t care about this, he wrapped his arm around Qin Shujie and came to the living room, then put his hands on her shoulders to make her sit down on the sofa, then he hemmed and hawed and cheekily sat directly between Xiao Yuxuan and Tong Lei, wrapping his arms around both of them in one go.

“No moving your hands and feet!”

Xiao Yuxuan’s face also turned red, in fact, at the moment when Ji Feng was hugging her, his big hand inadvertently slid over her upturned buttocks, which immediately made her body involuntarily shudder, just like an electric shock, and almost screamed out.

Tong Lei’s face was also flushed red, and she was no longer as cool as she had been earlier.

“Barf! Boo~”

Ji Feng directly kissed both Tong Lei and Xiao Yuxuan on their pretty faces, wrapped them in his arms and said with a heated smile, “Two good wives, have you missed me yet!”

Xiao Yuxuan couldn’t help but give him a white glance and snapped, “You, you only have this mouth, you only know to make us happy, but you don’t know how worried we are at home ..... No, I see that some people are very happy outside, there are women who are willing to live and die with you!”

Sweat!

Sure enough it’s because of this thing!

Ji Feng glanced at Tong Lei, saw that although she did not speak, but the inquiring look in her eyes was obvious, he could not help but laugh bitterly in his heart, in matters like feelings, no matter how clear and beautiful a girl is, in fact, they are all the same at heart, and they all like to be jealous the most.

He hurriedly explained, “Actually, there’s really nothing between me and Ji Yueting, it’s just a friend relationship, it’s just a mutual help, this is something Bai Zhu can testify .....”

“Alright, alright!”

Xiao Yuxuan gave him a scornful look and said, “We believe you still have this self-control, what’s strange is that you never take your own little life seriously out there and take reckless risks, but you don’t think about it, if something really happens to you and we’re left, what should we do?”

Ji Feng’s heart warmed up and hugged both Xiao Yuxuan and Tong Lei tighter, he didn’t say anything, he really couldn’t give them a guarantee for this kind of thing, because whether there would be trouble next, he himself didn’t know, at the very least the dynasty was getting stronger and stronger and there would be a battle with him sooner or later I’m afraid!

Xiao Yuxuan and Tong Lei both didn’t say anything else either, with Qin Shujie here, they were too embarrassed to sink so low, and just as they wanted to speak, they suddenly heard Qin Shujie’s mobile phone ring.

“Hmm? It’s from Yao Yao’s school .....” Qin Shujie glanced at the caller ID, then immediately picked up the phone, “..... This is... ..what?! What’s wrong?!”

Campus Master Chapter 2899

As soon as she picked up the phone without saying a few words, Qin Shujie’s face changed and she said hurriedly, “Fine, fine, I’ll go over there right now, right now ..... Thank you, thank you, thank you .....”

She then thanked the phone repeatedly, her expression filled with anxiety.

After hanging up the phone, Qin Shujie looked at Ji Feng, then looked at Xiao Yuxuan and the others and said, "There's something wrong with Yao Yao's school, I have to go over there first, you guys talk first!"

"What's wrong with Yao Yao?!" Ji Feng frowned and asked.

Just now, when Qin Shujie was on the phone, that kind of disorder was too obvious, even a fool would know that something must have happened. Moreover, to make Qin Shujie, who was always graceful, lose her temper like that, one could imagine that it was definitely not a trivial matter.

Xiao Yuxuan and the others also looked at Qin Shujie, and Tong Lei said softly, "Don't be anxious, speak slowly, it's easy to make mistakes in a hurry!"

"That's right!"

Ji Feng nodded and said, "Shu-jie, take your time, what's wrong, what happened to Yao Yao?!"

Qin Shujie said, "It was Yao Yao's teacher who called just now, saying that Yao Yao had injured another child, and she seemed to have suffered a little injury herself ....."

"Injured?!"

Once Ji Feng heard that, he immediately said, "Then let's go over together and take a look, if anything happens we can also deal with it in time!"

That little girl Yao Yao he loved so much, Xiao Yuxuan and Tong Lei loved it even more, now when they heard that Yao Yao was injured, they all immediately wanted to go over together.

Although Qin Shujie was anxious, she could not help but be touched by the enthusiasm of Tong Lei and Xiao Yuxuan and nodded her head in agreement.

Afterwards, the whole family went out and rushed towards Yao Yao's school.

Since the last outing held by the kindergarten, they had a conflict with the children of the Education Bureau official, and the headmaster of the kindergarten was obviously biased and favoured the other party, Qin Shujie had withdrawn Yao Yao from the kindergarten and found another kindergarten for her.

Of course, with Qin Shu-jie's condition, the kindergarten she went to was definitely not an ordinary kindergarten, but a private, aristocratic kindergarten that charged high fees, but because it was private, the management and education were more attentive, and there were some more humane services inside, so Qin Shu-jie was also very relieved.

But I didn't expect that something had happened again at this moment, and someone had been injured!

"Shu-jie, don't be anxious, since the teacher called and didn't say anything big, it must not be serious, children fighting and bumping around are inevitable, it must be nothing big."

In the car, Ji Feng held Qin Shujie's hand and comforted her.

Xiao Yuxuan also said next to her, "Shujie, Ji Feng is right, it shouldn't be a big deal, if it was really serious, the teacher would definitely have informed you to go straight to the hospital, now since it says that we should go to school, it means that it must be just a little bit of friction."

At this time, Qin Shujie had also slowly calmed down from the panic she had just felt, she knew that what Ji Feng and Xiao Yuxuan had said made sense, but, after all, it was her own child, that was flesh that had fallen off her body, she really couldn't suppress her nervousness.

"Zhen Zhen, drive faster!"

Tong Lei said softly, "Get to school as soon as possible."

Han Zhen nodded and immediately continued to increase the throttle, except to avoid some cameras, almost all other places are over the speed limit, but the good thing is that now is not the peak commuting period, the car can also run up to speed.

It probably took less than an hour for the car to arrive at the kindergarten entrance.

At this moment, they parked the car in front of the kindergarten, and immediately a security guard came over and said, "Friend, this is the entrance of the school, it is not allowed to park, please ....."

"We just came to your school on business!" Ji Feng took Qin Shujie and hurriedly got out of the car, she immediately said, "My child is studying in your kindergarten, her teacher called me to come!"

"Then please call your child's teacher and ask him to talk to us, please forgive us, this is our rule!" The guard didn't want to cause a conflict, so he said very politely.

"Okay, I'll call now!" Qin Shujie said with a nod.

But unexpectedly, when she called that teacher's phone number just now, she didn't get through, "There's no answer!"

Qin Shujie said, and dialed again, but still no one picked up.

The guard's eyes immediately became alert, Ji Feng gave him a look, patted Qin Shujie's shoulder and said, "Don't be anxious, since that teacher's number doesn't work, try calling another teacher's, or the headmaster's."

Usually when you send a child to kindergarten, you don't have only one teacher's phone number or know only one teacher, after all, the child is too young and there may be some unexpected situation, so it is necessary to keep the communication open.

Qin Shujie nodded and hurriedly dialed the other teacher's number. Luckily this time the call was answered, but before she could explain the situation, the person on the other end of the line seemed to tell her something that made her thankful.

A few moments later, the security guard at the entrance received the call and confirmed their identities, but insisted that they all register before entering. Their car, on the other hand, was parked in the adjacent space, which was reserved for the kindergarten's parents to park when their children were visiting.

But Qin Shujie had no time to pay attention to this at the moment; she hurriedly entered the kindergarten and immediately walked quickly towards one of the castle-like buildings, and as soon as she entered it, she saw that there was a lot of commotion inside, with children's cries and a woman's shrill voice.

“Little girl, how dare you cry?!”

A woman’s voice was very sharp and piercing, she seemed to be reprimanding someone, “Where are your parents, why haven’t they come yet? Are you afraid to come or don’t you have the face to come?!”

“Oooh .....

The sound of a small child crying came.

Ji YuYi, who was walking quickly, only felt her head buzz, her legs went weak and she almost didn’t fall to the ground at once, fortunately she was held by Ji Feng, “ShuJie, what’s wrong?”

“Yaoyao’s voice, it’s Yaoyao crying .....,” Qin Shujie’s voice was a little shaky as she spoke and her steps were faster.

Swish!

Ji Feng’s face was steeply gloomy, a cold aura flashed in his eyes, without saying a word, he walked over quickly side by side with Qin Shujie.

“Yaoyao! Yaoyao!” Qin Shujie started shouting from a long distance away, “Mum is here, don’t be afraid, Yao Yao, where are you?!”

“.....”

The little child’s cries seemed to break for a moment, and the next moment, at once, the cries got louder: “Mommy! Wooooo~~ mommy .....

Qin Shujie hurriedly ran over, at this time the crowd also heard Qin Shujie’s cries and made way for her to pass, she ran over and took a look, people were going crazy.

Only to see a little girl was crouching on the ground, her tiny body was shivering, her hair was even more disheveled, her face was full of tear marks and snot ....., This had simply become an orphan who was out wandering without anyone to take care of her!

“Yao Yao!”

Qin Shujie shouted, her heart was about to go crazy, this little girl was none other than Yaoyao, but what made Qin Shujie almost collapse was that before she sent Yaoyao to the kindergarten in the morning, she had carefully dressed the little girl in beautiful clothes and a pair of cute little boots, her hair was tied in a ponytail, and she remembered that she had also pinned a pretty little butterfly card on the little girl’s head.

But now .....

All this was gone not to mention, the little girl’s messy hair, it was like she had run out of the rubbish, and the clothes on her body were extremely messy, which made Qin Shujie’s heart hurt as she looked at it and was about to jerk over.

“Bastard!”

Ji Feng's throat let out a low growl, this scene in front of him, not to mention Qin Shujie, his own mother, even he couldn't stand it, originally Yao Yao was such a cute and beautiful little girl, it's only been a long time since we've seen her, but she has turned into such a look now, what the hell has she gone through?

"Mummy!!! Woooo~~" Yaoyao was held in Qin Shujie's arms, the little girl suddenly cried out loudly, that aggrieved look really made Qin Shujie's heart break.

"Shu-jie, see if the little girl is hurt anywhere!" At this time, both Xiao Yuxuan and Tong Lei walked over, and Xiao Yuxuan reminded beside her.

Only then did Qin Shujie react, she squatted on the ground and sat the little girl on her lap, then hurriedly checked the little girl while asking, "Yaoyao, tell mommy where you hurt!"

"Wooo~~"

However, all Yaoyao knew was to cry, her little hands wrapped around Qin Shujie's neck and wouldn't let go, her little head even wanted to burrow into Qin Shujie's arms.

Qin Shujie coaxed and comforted Yao Yao while examining her.

Ji Feng did not say anything next to her, but activated the bio-current to act on his eyes and used his penetrating eyes to observe Yao Yao's body.

However, after just a glance, Ji Feng's face turned abruptly gloomy and a cold aura flashed in his eyes.

On Yao Yao's tiny body, there were actually three or four bruises, especially, on her clothes, there was actually a large footprint, only that the footprint was not very obvious, and it was not known whether it had been knocked off, or because there was not much dust when the footprint was printed on.

This is not even the point, what really makes Ji Feng shocked is that this big footprint, just at the position of Yao Yao's stomach, and the size of that footprint, can completely cover her whole stomach, this is obviously a direct kick up by an adult, that toe is just below the little girl's chin, and the heel is on the little girl's small stomach .....

This was not only an adult's footprint, but also a grown man's footprint!

This discovery made Ji Feng almost instantly violent!

A grown man, to kick a little girl who was only five or six years old directly with his foot, how could he do it? This is simply heartless!

Ji Feng didn't say a word with a sullen face and continued to observe the little girl, she wanted to see how this girl was actually treated!

Campus Master Chapter 2900

The more he observed, the more gloomy Ji Feng's face became, almost so gloomy that water was about to drip out of it!

However, in the end, Ji Feng's face gradually calmed down instead, and the angry look on his face gradually disappeared, becoming expressionless, only that the glint of coldness and violence in his eyes

became more and more intense, those who were familiar with Ji Feng knew that this look was now the time when Ji Feng was most angry.

The thunderous jump and the angry roar were only anger, but the current Ji Feng was filled with a cold chill, even a desire to kill!

No matter what the cause of this matter was, and no matter what kind of mistake Yao Yao had made, a small child, and a small child of only a few years old, I am afraid that many words are still unclear, but to be treated like this by adults, a big foot just kicked directly on the child's stomach, no matter which family, which parents are afraid that they can not stand it!

What's more, how big a mistake could a child make?

"Bai Zhu!"

Ji Feng said in a deep voice: "Go and get their CCTV footage!"

Bai Zhu immediately complied, turned around and walked out.

Meanwhile, Han Zhen and Xiao Ying were standing around separately, on guard, their eyes stern.

At this time, Ji Feng walked over, sighed lightly and tried to pick Yao Yao up from Qin Shujie's arms, but the little girl didn't even raise her head and went into Qin Shujie's arms, that little body still trembling a little, obviously still scared.

"Yao Yao, it's daddy!" Xiao Yuxuan looked distressed at the side and couldn't help but say.

"Swish!"

When the little girl heard this, she suddenly raised her head, even her crying stopped, and when she saw that the person who wanted to hug her was really Ji Feng, she immediately deflated her little mouth and stretched out her two little hands to be hugged by Ji Feng, "Daddy~"

This cry really melted Ji Feng's heart, he picked the little girl up with a smile and asked with a smile, "Yao Yao, why are you crying?"

The little girl was very happy to see Ji Feng, but the aggravation just now hadn't passed, but she didn't cry anymore, she just deflated her little mouth and said with a crying voice: "Daddy, there are bad people bullying Yao Yao, woo~~"

Saying that, the little girl remembered the aggravation she had received, and suddenly she cried again.

Ji Feng hurriedly coaxed her and talked to her to divert her attention, "Yao Yao, do you want to miss daddy?"

The little girl's little face was marked with tears, and there were still teardrops on her long eyelashes, but she nodded her head vigorously and said, "Yes! Yoyo misses daddy so much! Daddy, where have you been, you haven't come to see Yoyo for so long ....."

The little girl's soft words could really make Ji Feng's heart ashamed and warm, he hugged Yao Yao with one hand and wiped her teardrops with the other hand, smiling, "Daddy went on a business trip, this is why he rushed over to see Yao Yao as soon as he came back ....."

Just as his words reached this point, there was a cold flash in his eyes and his voice came to an abrupt halt.

Because when he was wiping Yao Yao's teardrop, he found that Yao Yao's left cheek was surprisingly red and seemed to be a bit swollen, just covered by that messy hair, just now when Ji Feng used his perspective eye, he only looked at Yao Yao's body, because at first glance there didn't seem to be any injuries on Yao Yao's face and head.

But now, Ji Feng knew that he was wrong, on this left cheek of Yao Yao's, there were clearly a few finger marks!

He had a smile on his face, but the cold light in his eyes was full of murderous intent. His hand didn't stop, he touched a few times on Yao Yao's little head and immediately felt a few bulges, and the smile on his face got even bigger.

Then, Ji Feng stroked Yao Yao's hair again, and he saw some hair tangled in his hand, that was yanked off?

"You are Qin Yunyao's parents?!" Just then, a sharp and piercing woman's voice rang out, "Humph! You've finally come, I thought you were too scared to come! Since you're here, well, let's settle the score ....."

"Ms. Qin!"

At this time, a woman who was probably around thirty hurried over and said, "This is also a student's parent, Qin Yunyao is the one who started the conflict with their child."

Qin Shujie nodded and gazed at the woman who had spoken before. Ji Feng's gaze had already fallen on her body, and the man beside her.

This was likewise a woman who was probably around thirty years old, and because of the makeup on her face, Ji Feng couldn't tell her exact age, but it looked like she should just be in her thirties.

This woman was dressed very fashionably, and some of the brands that she was wearing Ji Feng had heard of, but at the moment this woman was staring at Qin Shujie and him with an arrogant face and some anger, seemingly very indignant.

The woman's face was so arrogant that she had to look at the man next to her, thirty-six or seven years old, dressed casually, but he looked like he had an aura about him, although he didn't have a suit, he looked like a successful person, and seemed to be somewhat extraordinary.

There were six or seven other people around, including a middle-aged man in his forties wearing glasses, who at the moment had a bitter and anxious look on his face.

Apart from that, there were a few security guards around, and a few young women, who, judging by their dress and the work tags hanging around their necks, should be staff or teachers in this kindergarten.

After scanning these situations and the surroundings for a few moments, Ji Feng had a good idea of what to expect.

After that, he looked at the woman. It seemed that this woman was also someone of a certain status and origin, otherwise, she wouldn't have sent her child to this kind of private, aristocratic kindergarten, after all, the fees here were not low, at least not affordable by ordinary working families.

But!

Ji Feng looked at that woman, since she was someone with status and origins, she could only be cleaned up thoroughly!

"Who's in charge here?!" Ji Feng asked indifferently.

"I am, I am the headmaster here, Zhang Xinju, may I ask if you are Qin Yunyao's father?" The middle-aged man wearing glasses immediately stood out and asked politely, because from Ji Feng's dress and that aura on his body, he was able to feel that Ji Feng was definitely not an ordinary person.

Those who were able to run such kindergartens must have a certain identity background and connections, so their vision would naturally not be bad.

"What's going on here?!" Ji Feng didn't answer Zhang Xinju, but continued to ask.

"....."

Zhang Xinju froze for a moment, this bland tone and look of Ji Feng seemed very kind, but his performance was so strong, which made Zhang Xinju couldn't help but thump in his heart, it looks like, this is another strong person, I'm afraid this matter is not easy to solve today!

"What, Principal Zhang is not sure what is going on?" Ji Feng looked at him and asked.

"No no!"

Zhang Xinju shook his head in a hurry.

It was really strange, Ji Feng's voice wasn't high, his speech wasn't fast, and he didn't seem angry, but it made Zhang Xinju feel an indescribable pressure, and when he was swept up by Ji Feng, he just felt all the sweat hairs on his body stand up, as if he was being targeted by a poisonous snake.

Naturally, Zhang Xinju did not know that the aura he felt was called killing aura!

"Humph! What a big stance, what's going on? What do you think is going on? It's because that dead girl of yours bullied my child and injured my child ....." the woman sneered, "and you still have the face to ask what's going on?"

"What did you say?!" Qin Shujie snapped and looked over, furious.

"What, still playing rough with me?!" The woman sneered, "You're that dead girl's mother, aren't you? Really, like mother, like daughter!"

"You ....."

"Cut the crap, be virtuous under your mouth!" Ji Feng faintly glanced at the woman and said, "Trust me, it's good for you!"

“What are you talking about?!” The woman was enraged by this attitude of Ji Feng, “Who are you to dare talk to me like that? Those who don’t know think you’re some kind of big shot, I’m telling you, it depends on who you’re talking to, to people like your family, you should be rebuked!”

“Every word you say, I’ll write it down for you!” Ji Feng nodded calmly, while patting the little girl who was so frightened from seeing the woman’s fierce appearance that she clung to her neck, and said indifferently, “Principal Zhang, go on!”

“You ..... are good! I’d like to see what kind of storm you can turn up!” The woman almost exploded with anger at this attitude of Ji Feng and said angrily.

Ji Feng, however, didn’t even look at her, while Xiao Yuxuan frowned and said, “Don’t be too presumptuous, say something, don’t go too far in front of children!”

Who knows, a disdainful voice came out of that woman’s mouth, “Cut~”

Xiao Yuxuan pulled the corner of her mouth and looked at that woman as if she was looking at an idiot.

On the other hand, the man beside that woman, when he saw Xiao Yuxuan and Tong Lei, he couldn’t help but have his eyes light up, that look was as if he had seen his prey!

For this kind of gaze, they had both seen it a lot and directly ignored it.

At this time, Ji Feng also listened to Principal Zhang Xinju’s introduction of the situation. According to Zhang Xinju’s introduction, it seemed that the two children had clashed and somehow got into a fight, and the fight between the children was nothing, but Yao Yao pushed a small table over and smashed it on the other child, injuring the other child.

Then the other parent came, and then ..... that’s what you see now.

“That’s it?!” Ji Feng asked.

“That’s roughly it!” Zhang Xinju nodded his head and said.

“Then what if it’s not roughly?” Ji Feng asked.

“..... eh?”

Zhang Xinju didn’t respond for a moment.

Ji Feng said indifferently, “Principal Zhang, don’t you think the situation you presented was too general? What exactly was the situation at that time? What exactly was the conflict between the two small children? When the children were fighting, was there a teacher on the scene? Since my child pushed over the table and injured the other child, where did the other child get hurt? How badly was he hurt?”

He looked at Zhang Xinju and said, “Principal Zhang, do I have to teach you how to speak? Or ..... are you not going to say it?”
