

## Chapter 291

When Ye Xing returned to the hotel, Luo Xiaoyun had already checked out of the hotel there and returned to this side.

At noon, Rose was also awake and the group was eating together at noon.

“If there’s nothing unexpected, we’ll go back to Huaijiang tomorrow.” Ye Xing said.

“So soon, not two more days to play?” Haitang was a little surprised.

“The matter over here is settled, no need to stay any longer.”

“What about Ye Jiannan’s poison, didn’t you say you were going to stay and help him with it?” Rose asked.

“I already have the antidote in hand, Du Jiuniang will take it today, whether it has any effect will be seen tomorrow, if there is no problem. We can leave tomorrow.” Ye Xing said.

Qiang Wei didn’t say anything anymore, and skimmed her lips, obviously looking a bit reluctant.

But she also understood that she was not in any position to ask Ye Xing to stay.

After finishing the meal, Ye Xing returned to his room and spent the whole day in his room cultivating and did not come out.

During this period of time, he had been swayed by his children’s personal feelings and hadn’t practiced much.

Although with the Chaos Skill and the Tidal Wave Power, his strength had increased greatly, he still had too little chance of winning when he met powerful opponents.

Take Shangguan Lan, for example. He was still not sure if he could have a fight with her.

Early the next morning, Ye Xing went upstairs to find Du Jiuniang to check if her poison had been lifted.

Through some examination, all the compulsion poison on Du Jiuniang’s body was resolved.

“Here are two copies of the antidote, one billion each, you should give them to Cao Yu and Ye Jiannan and ask them to put the money into this account.”

Ye Xing handed over a slip of paper with a new account number.

These two, a billion was a small amount for them.

“A billion dollars for an antidote for father, this son is still really ruthless!” Du Jiuniang laughed.

“If I were truly ruthless, I wouldn’t even give the antidote.”

Ye Xing did not want to explain too much to her, left the room and went to Luo Xiaoyun.

The two of them took a car and went straight back to Huaijiang.

Luo Xiaoyun had not been back for a long time, and this time she came back and immediately went home.

Ye Xing was also happy to be at ease, ready to stay for two days and then go to Su Xiaoqiao to get rid of the hormones in his body.

That morning, Ye Xing was preparing to leave for the provincial airport when the phone rang, it was Beino calling.

“Chief, what brings you here?” Ye Xing laughed.

“Ye Xing, something has happened to Lin Wei.” On the other side of the phone. Bei Ye’s voice was serious.

“What has happened?” Ye Xing asked.

“It’s not convenient to talk on the phone, come to Tianhai for a while, let’s meet and talk in detail.”

Ye Xing hastily booked the fastest flight ticket and immediately flew to Tianhai.

After arriving at Tianhai, he did not go to look for Xiao Qiao right away, but went to the military area on the outskirts.

Lin Wei was his most loyal and trusted subordinate in his previous life, and the only one who knew that he could be reborn indefinitely.

In his heart, she held a very heavy position.

At the entrance of the military area, a familiar figure was already waiting, none other than Bei Fang.

Led by Bei Fang, Ye Xing arrived at the small two-storey building where he had come last time, and inside, Bei Ye had already made tea. It was waiting.

“Greetings, Chief.” Ye Xing went forward and saluted.

“Don’t be polite, take a seat!”

Only after Ye Xing sat down did Bei Ye then speak up.

It turned out that half a month ago, Lin Wei and four members of Dragon Soul went to the Sky Eagle Mountain to carry out a mission, but the whole team ended up missing without any news. Later, Northfield sent another team to investigate, but to his surprise, all the members who went there disappeared again, and almost all the Dragon Soul elites were wiped out.

“Where is the Heavenly Eagle Mountain?” It was the first time Ye Xing heard this name.

“It’s in the area of western Hunan, a dense primitive forest.”

“What did Lin Wei go there to execute?”

“There are a dozen villages near the Heavenly Eagle Mountain, and these villages have been missing people a lot recently. I sent some police officers to check it out earlier, but I didn’t expect that they couldn’t find anything, so I sent the Dragon Soul team there, but I didn’t expect that something would still happen.” Kitano said.

“I’ll take care of this, don’t worry, I’ll bring them back.” Ye Xing said.

“Do you need any help?”

“No, your people can’t help.”

After coming into contact with ancient martial arts, Ye Xing realised. Dragon Soul’s people were simply unbearable, and it was useless to bring them around.

At this moment, suddenly a person from downstairs walked up, his body straight, it was the new captain of Dragon Soul, Tu Long.

A few months ago, Ye Xing had fought with Tu Long, and at that time, he was not even a match for himself.

Now, he reckoned that with one finger, he could defeat him.

Tu Long glanced at Ye Xing with a strange gleam in his gaze.

This gaze Ye Xing could read, it was hate.

That time. Ye Xing had knocked him to the ground in front of countless recruits, causing him to lose his reputation, so he was afraid that he had already harboured a grudge.

“Chief. I’m applying to go to Heavenly Eagle Mountain to search for Lin Wei’s whereabouts.” Tu Long said.

“Good, you work with Ye Xing .....

“Chief, I don’t need people who get in the way.” Ye Xing said coldly.

“Who did you say was in the way?”

Tu Long’s face immediately changed and he angrily said, “I lost to you last time only because I was careless. If you have the guts, let’s fight again, I definitely won’t lose this time.”

“Last time you still had a 30% chance of winning, now well ..... 0.01% is not.” Ye Xing sneered.

“Then let’s do it, whoever loses calls whoever grandfather.” Tu Long shouted angrily.

“To fight with me, you are not qualified.” After finishing his contempt, Ye Xing’s gaze fell on Bei Ye, “Chief, I’ll leave first, I’ll leave for Soaring Eagle Mountain tomorrow, don’t worry, I’ll definitely find Lin Wei.”

“Chief, he’s too wild.” Tu Long said angrily.

“He’s a bit wild, if you can get Lin Wei and the others back, he’ll have nothing to say then.”

Kitano decided to take a two-pronged approach, with two teams having the same common strike, he believed that the chances of saving them were still high.

“Chief, I will definitely save Lin Wei and the others. Prove to him who is stronger.” Tu Long said resoundingly.

.....

A certain villa community.

Su Xiaoqiao returned from filming and was about to open her room.

Suddenly two hands reached out behind her and covered her eyes.

Su Xiaoqiao shivered in fear and said urgently, "I'll give you all the money you want, please don't hurt me."

"I rob people for sex, not money." Ye Xing laughed.

At the sound of his voice. Su Xiaoqiao turned to look at him, and suddenly her pink fist knocked on his chest.

"Why are you so bad, you're scaring me to death, you can't do that next time."

"If you don't have the guts for this, how can you hang out with me in the future!"

Ye Xing laughed and carried her in, opening the door and entering the room, a fragrant scene inside at once.

Suddenly, Ye Xing stopped and asked, "Won't there be anyone in the house?"

He was really afraid that like last time, when the two of them were making out, Su Xiaoqiao would scurry out with another friend.

"This is the new villa you bought for me, I'm the only one living here, Xiao Di won't be here, don't worry!" Xiao Qiao laughed.

"That's good."

Ye Xing carried on with what had stopped.

An hour later, the two were sitting side by side in the living room.

"First thing tomorrow morning, I'm leaving." Ye Xing said.

"So soon?" Su Xiaoqiao was very upset.

"I have a friend who has disappeared and her whereabouts are unknown, I am going to look for her."

Su Xiao Qiao was a person who understood things, and although she was reluctant to leave, she could only nod her head.

At this moment, Su Xiao Qiao's phone rang, and the number displayed on it was Cheng Yulin.

## Chapter 292

Su Xiaoqiao looked at Ye Xing and gestured with her eyes.

Ye Xing shook his head, if Cheng Yulin knew she was here, she would definitely want to come over.

"Yu Lin, looking for me for something?" Su Xiao Qiao asked as she picked up the phone.

“Xiao Qiao, is Ye Xing here yet?” Cheng Yu Lin asked.

“Ah ..... him .....”

Su Xiao Qiao glanced at Ye Xing. Stammering, she did not say anything further.

Ye Xing sighed, this little ninny was too simple. One glance said that she had been guessed.

Guess her usual attitude of talking to Cheng Yulin was not like this, that’s why the other party guessed it after she said a word.

“Looks like he’s really here, I was going to find you to go play, forget it. I won’t bother you anymore.”

Cheng Yulin said and immediately hung up the phone.

“How did she know you were here, did you tell her?” Su Xiaoqiao looked at Ye Xing curiously.

“Do you usually talk on the phone a lot?” Ye Xing asked.

“Yes!”

“That’s right, you just picked up the phone and asked: what do you want to see me about? Would someone who talks on the phone a lot ask such a question?”

Su Xiaoqiao spat out her tongue and made a face, feeling that she had really exposed herself with that comment.

“So do we want to have a meal with Cheng Yulin?” Su Xiaoqiao asked.

“I’m rather pressed for time, let’s do it next time, besides, it’s not like we have to have dinner with her.”

Xiao Qiao was still too innocent, in her mind, it was as if Ye Xing had come. It was as if not eating with Cheng Yulin was doing something wrong.

After spending a day with Xiao Qiao, the next day, Ye Xing left for Xiangxi alone.

It was not the first time that Ye Xing came to Xiangxi, he had been here some lifetimes ago as a doctor.

There was a large area of primitive forest, which was full of poisonous insects. It was a very dangerous place with rats and ants.

There are three major evil arts in western Hunan, namely corpse chasing, compulsion, and with the falling flower cave girl.

The most famous one among the Miao is compulsion, which is also proven to be one of the three evil arts that do exist.

At dusk, Ye Xing drove the car he bought into the chain of mountains. From a distance, he saw a mountain peak in the shape of a flying bird among the mountains, that was the Flying Eagle Mountain.

There were still about ten kilometres to go and the road was no longer accessible. Ye Xing had to get out of the car, carry a backpack, enter the mountain village and walk towards the Flying Eagle Mountain.

At twilight, a small, dilapidated village suddenly appeared in front of him, with three tents at the entrance. Two soldiers dressed in camouflage uniforms appeared.

One of them was none other than Tu Long.

Ye Xing frowned, and it so happened that Tu Long also saw him.

“Just you come to investigate a case with your bare hands. How to die without even knowing.” Tu Long sneered.

“You guys are making such a big show, be careful of dying faster.” Ye Xing retorted.

The people of Miaojiang were the most xenophobic. They were heavily armed, the people here must be wary of them, and it was too difficult to get information out.

“We’ll see, let’s see who finds the missing group members first.” Tu Long finished and waved his hand, “Go into the village and check it out, bring your stuff with you.”

The two soldiers carried two large bags and went into the village.

It seemed that they wanted to use the lure method to check for information.

Night had fallen. They could not continue into the mountains and had to stay here for the night.

Ye Xing headed into the village in the other direction, hoping to find someone’s house to stay for the night and leave tomorrow.

The entrance to the village. There was a house with its lights on.

He went up and knocked on the door, and a moment later, the door creaked open and a Miaojiang woman in her early twenties appeared at the door.

“Who are you looking for?” The woman looked at him with a wary expression.

“Hello, I’m going into the mountains to collect medicine, and as night falls, I’m looking for a place to stay, do you have family at home?”

“It’s just me and my mother at home, my father is out working.”

“Excuse me, may I ask if there is any family in this village where a man is at home?”

People’s mothers and daughters were at home, so naturally Ye Xing could not stay here, word would get out and disgrace their reputation.

The women of Miaojiang had a particularly high regard for reputation.

“My cousin Ah may be at home, I’ll show you.”

“I’ll trouble you, girl.”

The young girl closed the door and walked towards the centre of the village.

Ye Xing followed behind her, and had just reached a stone house when she suddenly heard noises coming from inside.

## Chapter 293

The two men walked into the stone house, and inside two special forces soldiers were arguing with a dark-looking burly boy.

The strong black guy's face was black with excitement and his fists were clenched tightly.

The two special forces soldiers, one of them pulled out a pistol and pointed it at the strong black guy.

"What for, put the gun down." Ye Xing said angrily.

The special forces soldier with the gun gave Ye Xing a look and did not immediately put it down because Ye Xing was not their superior at all.

"I will count to three, if you don't put the gun at ease, you will be responsible for the consequences, three, two ....."

Under Ye Xing's powerful gaze stare. The special soldier finally put his gun down.

The young girl hurriedly ran over and pulled the strong black guy and whispered, "Brother Ah Sang, why are you arguing with them?"

"They asked questions. I said I didn't know, and they pointed the gun at me." Ahsan scolded.

"We are trained soldiers, we don't point guns at people for no reason, it was him who tried to poison us." The special forces soldier barked.

"I didn't."

"I clearly saw a black centipede in your clothes."

"The black centipede was a pet I kept, I wasn't releasing poison at all."

The two had a conversation, and Ye Xing had understood that obviously both sides had misunderstood.

"You guys go out, I'll just be here." Ye Xing instructed.

"Ye Xing. You are not my superior and are not qualified to order me." The man holding the gun just now drank.

"Believe it or not, if I get you killed now, Kitano won't even dare to say a word?" Ye Xing's killing aura flourished.

Feeling his killing aura, the two special forces soldiers couldn't help but retreat one after another.

At this moment, a figure outside walked in, it was none other than Tu Long.

"Skywolf, Skypaw, what's going on?" Tu Long asked just as he entered.

Next, Sky Wolf added fuel to the fire and told them what had happened.

"Ye Xing, Sky Wolf defended himself and pointed a gun at him, I don't see any problem with that." Tu Long said coldly.

"Tu Long, are you really trying to cross me?" Ye Xing asked.

"I'm just being honest, but you, don't forget what you came here for this time."

The two men looked at each other, and several times, Ye Xing wanted to beat him up until his mother didn't even recognise him, but in the end, he held back.

After all, the goal of both sides was to save Lin Wei.

"Let's go." Tu Long waved his big hand.

"Kid, remember this, next time you try to set a poisonous insect to bite me, I'll shoot you in the head."

Sky Wolf let out a fierce sentence, before he followed Tu Long's lead and left.

Inside the house, only three people were left.

"This big brother. Thank you so much, if it wasn't for you, there is a chance that Brother Ah Sang would have been in trouble." The young girl said.

"Miao Miao, nothing will happen to me, if you dare to do it, they will be the ones to die." Ah Sang said defiantly.

"Ah Sang, did you really raise the poisonous insects?" Ye Xing asked.

Ah Sang held out his palm and a centipede burrowed out of his sleeve, its body dark black.

"I cut off the poison gland, it's not poisonous, I brought it with me because it can deal with many poisonous insects." Asan explained.

"That's good." Ye Xing nodded and asked, "Ah Sang. Is it okay if I want to stay with you for one night, I will start early tomorrow morning to go up the mountain to collect medicine."

"No problem." Ah Sang agreed immediately.

"You two have a chat and I'll go and get something to eat." Miao Miao walked out.

After he went out, Ye Xing then said, "Ah Sang, half a month ago, I had a friend who disappeared here, a very beautiful woman, have you seen her?"

"You're here to find that squad too, right?" Ah Sang looked around and suddenly lowered his voice, "I advise you not to look for her, it's too dangerous."

"She's my girlfriend and it's uncertain whether she's alive or dead, if you were me. Would you give up?" Ye Xing asked.

The Hmong people were most affectionate, and Ye Xing knew this well.

"If it is my beloved woman who is in trouble, I will go through fire to save her." Ah Sang said in a hurry.

"I am the same, so I hope you can tell me where she has gone?"

"I only know that they went to the ancient village, I really don't know anything else."

"Is the ancient village in the Flying Eagle Mountains?"

“Yes, it is rumoured to be Flying Eagle Mountain out there. But in the Hmong tribe, it is said to be Falling Eagle Mountain, meaning that even eagles can fall, and there are so many poisonous things in it, and the path is so difficult that not many outsiders who go in, can come out alive.”

“Do you know how to get to the ancient village?”

“The ancient village is full of poison, it is hell on earth, and the people inside the clan are very xenophobic, if I take you there and they find out, they will definitely not let me go. I’m sorry, I can’t take you there.” Ah Sang shook his head repeatedly, a look of fear on his face.

“It doesn’t matter, just tell me the direction.” Ye Xing said.

“It’s just to the west of the village. Keep going that way, it’s about twenty kilometres away, but the road is not easy to find.”

The two of them were chatting when Miao Miao came in. In her hand was a plate of sour soup.

“There’s nothing to serve at home, are you used to sour soup?” Miao Miao asked.

“I’m not picky about what I eat, it’s just whatever.” Ye Xing laughed.

Next, Miao Miao brought in rice and dishes, all of which were relatively simple.

It could be seen that the two of them did not have a good life.

Ye Xing took out a wad of banknotes from his body, a few thousand, and put it on the table.

“Ah Sang, a few days ago I went into the mountains to pick a ginseng plant and sold it for a lot of money, it’s a small amount.”

Ah Sang hastily pushed Sang and said sharply, “No, this is your hard-earned money, how can I take it.”

“I have to go up to the mountains a lot lately, and I may have to trouble you again, if you don’t take the money. I won’t even dare to bother you in the future.” Ye Xing laughed.

Hearing him say this, Ah Sang accepted it without any difficulty.

People all had a high and proud heart, if they gave it away with a condescending attitude, others would not necessarily want it.

Giving gifts is as much a discipline as giving money.

“Ah Sang, can you not draw a diagram?” Ye Xing suddenly asked.

“What kind of diagram?”

“I want you to help me draw the way to Flying Eagle Mountain, of course, if it’s difficult forget it.”

Ah Sang looked a little embarrassed. But having received the money, he did not quite feel like refusing.

At that moment, he took out the paper and scratched it on the table.

The paths into the ancient village were all small, sometimes even flying over the mountain walls, and the way was very difficult to follow.

Soon, Ah Sang wrote down the map and also explained a bit.

After remembering it, Ye Xing burned the map clean.

“Ah Sang, is there a dilapidated, uninhabited house around here, I’ll just go there and make do.” Ye Xing said.

Hearing that Ah Sang was so afraid of the ancient village, Ye Xing decided that it was better to stay away from him a little bit, because he was not sure, what would happen next.

In case something happened then, once the people of the ancient village checked and found out that Ye Xing had stayed at Ah Sang’s house, it would drag him down at that time.

“It’s alright, you don’t have to worry.”

“It’s better to be careful, it’s decided.”

Ah Sang had no choice but to point out a space for him to stay in.

There was no talk all night.

Early the next morning, Ye Xing set off towards the Flying Eagle Mountain.

From afar, he saw Tu Long with a squad of ten special soldiers, loaded with guns and ammunition, rushing ahead.

## Chapter 294

When he saw Ye Xing, Tu Long just glanced at him and continued on his way.

The direction they were heading was straight, and from the direction they were going, there was no one to point them out at all.

Ahead of them was a fork in the road, and while Tu Long led the way to the left, Ye Xing chose to go to the right.

According to Ah Sang, the road on the left would be very trapped with organs and very dangerous.

Although Ye Xing was confident that he could avoid it, but he was not afraid of the eventuality, it was better to be safe first.

As he remembered the map drawn by Ah Sang. Although it took a big detour, the two sides actually ran into each other again when nightfall was about to fall.

Only, earlier it was a squad of ten teammates. Only seven remained, and it was possible that three special forces soldiers had died during the day’s march.

“Ye Xing, did you know that there was danger on this road?” When he saw Ye Xing, Tu Long immediately rushed over and said angrily.

Two members of the team in front of him, one had broken his leg in a trap, and the other had been hit by a poisonous barrier. One was dead and one was injured, and in the end he had no choice but to let one of his team members send that injured man back, while the remaining seven continued on.

“That’s right.” Ye Xing did not deny it.

“Why didn’t you say so?” Tulong roared.

“I was going to say it, but when I saw the arrogant look in your eyes, I didn’t want to say it again.”

Brush!

A team member suddenly drew his gun and pointed it at Ye Xing: “Bastard, you didn’t say anything even if you were in danger, believe it or not, I’ll shoot you?”

Facing the black muzzle of the gun, Ye Xing coldly said, “I hate people pointing guns at me, put it down right now, or else you will pay the consequences.”

Instead of putting it down, the team member tightened the trigger.

Tu Long was watching from the side and had no intention to stop.

Ye Xing took a big step and walked towards that team member step by step, his gaze fixed on the finger he was holding the gun.

“Don’t move, come any closer and I’ll shoot.” The team member said angrily.

Instead of standing still, Ye Xing quickened his pace and soon arrived in front of his teammate over there.

Brush brush brush!

The rest of the team members suddenly all raised their guns and pointed at Ye Xing.

“Have you considered what the consequences of this will be?” Ye Xing stared coldly at Tu Long.

Tu Long thought for a moment and drank, “Put the guns down.”

Ye Xing was a figure that the chief valued, if something happened here, he would not be able to explain to the chief when the time came.

Only then did the surrounding team members put their guns down.

Only then did Ye Xing stride away. He headed deeper into the forest.

“Follow him.” Tu Long shouted.

Just now, Ye Xing kept changing lanes, his clothes were clean and dry on the way, so he obviously did not encounter any danger, so he thought for sure that Ye Xing should know how to get to the ancient village safely.

At that moment, a group of special soldiers followed behind Ye Xing.

On the way, Ye Xing went left and right at times, and even went around some cliffs, climbed over crags, and detoured quite a few turns, but on the way, he did not encounter any danger. The way was smooth.

In the blink of an eye, night had fallen again, the day had passed and the journey was only half over.

Just then, Ye Xing, who was walking in front of him, suddenly stopped.

A group of special forces soldiers, when the men were gathered in a group, guns facing outwards, stood at attention.

Everyone looked at Ye Xing, unsure of what to do.

“Let’s find a safe place to set up camp, or we won’t know how to die.”

Ye Xing’s eyes glanced around, then with a slight leap, he jumped onto a large tree seven or eight metres high. He lay down on the fork of the tree.

The special forces around them were all dumbfounded, looking at Ye Xing like a monster.

Jumping so high, was he still human?

Tu Long’s face was a bit ugly, if it was him, it would never be possible to jump that high, this guy seemed to know the legendary Lightning Skills.

Looking at him with that look like he had eaten shit, Ye Xing couldn’t say how comfortable he felt in his heart.

He felt uncomfortable lying on this tree and stomped his right foot on the tree. He swept across ten metres and landed on a bigger tree next door.

The special forces around him, their eyes were about to bulge out.

Tu Long’s face was already as black as it could be, his face pulled longer than a horse’s face.

Now he finally understood how big the gap between the two was.

However, it wasn’t over yet.

Next, Ye Xing still felt uncomfortable sleeping, took out his dagger from his body, and with luck on his blade, he cut off a few arm-thick branches like tofu, making himself an ordinary bed, before he fell down comfortably.

Those special forces soldiers. Already the town was numb with shock.

The invisible pretence was the most deadly, they were already looking at Ye Xing like God, where was there any half dissatisfaction.

Tu Long ordered the men to pick a safe place to set up camp in place and withdrew sulphur around the tents. He ordered the men to divide into three groups to keep watch.

Late at night.

Ye Xing was resting with his eyes closed when he suddenly heard a rustling sound coming, as if something was approaching.

He opened his eyes and found something in the darkness under the tree. A pair of yellow eyes flickered. He flung out two silver needles.

Only a hissing sound came and a black snake fell from under the tree and was gone in an instant.

Suddenly, a scream came from the side of the tent, and then the sound of gunfire came and rang out throughout the night.

Ye Xing made a few long leaps and was soon in the tent.

The scene in front of him stunned him.

He only saw countless poisonous snakes, colourful and innumerable, crawling densely around the tent.

The sulphur could only repel some of the smaller snakes, some of the larger ones were not afraid of the sulphur at all and kept attacking the tent.

The group of special forces soldiers had no choice but to shoot back.

“Grandma, what the hell is going on here?”

“Are these snakes possessed, or do they have a grudge against us?”

“Quickly use the flamethrower. Hide on the rocks.”

At once, some special soldiers took out their flamethrowers and burned towards the snakes around them, and under the burning fire, the attack of these snakes temporarily slowed down.

“Ye Xing, quickly think of a way.” Tu Long drank anxiously.

At this moment, he had completely forgotten that there was bad blood between him and Ye Xing, it was important to stay alive.

“Hang in there. I’ll get the man out.”

Even the most poisonous snakes would be afraid of people, let alone such people with heavy weapons in their hands.

There was only one possibility that these snakes were attacking like moths to a flame despite all this shooting: someone was manipulating them.

Among the Miao, there were many companions who could control snakes, insects and rats, and to control these things, they had to be nearby.

Ye Xing swept up in the air and leapt through the trees, heading towards where the tide of snakes was coming from.

From a distance, he saw a black-robed woman, standing behind a tree, constantly withdrawing something powdery and frothy from her hand.

There were countless poisonous snakes swimming under her feet, looking very terrifying.

The poisonous snakes that came into contact with the powder foam were like lost, attacking towards those special soldiers in a constant stream.

Ye Xing flung his right hand and two silver needles shot out.

Hearing only a shriek, the woman instinctively retracted her hand and stopped withdrawing the powder.

“Who is backstabbing me, come out.” The black-robed woman shouted.

Ye Xing leapt gently and landed ten metres in front of her, saying coldly, “If I wanted to backstab you, you would have been a dead corpse by now.”

Chapter 295

“Who are you?”

The woman in black asked, staring at him.

“That should be my question to you, who are you and why did you kill the people who entered the ancient village?” Ye Xing asked in return.

“I suggest you leave here immediately, or else you won’t even know how to die.” The woman in black snorted coldly.

“If you don’t tell me, then I will first arrest you and interrogate you slowly.”

After Ye Xing finished speaking, his body brushed off and rushed out.

The woman in black raised her hand and a cloud of powder foam enveloped over.

The Miao people were best at using poison, so Ye Xing dared not be careless and hurriedly held his breath while his body backed up.

The woman in black shot out several white arrows from her sleeves. They shot towards Ye Xing.

Ye Xing drew out his dagger and flicked out all the concealed weapons with a few dings.

Judging from the strength and speed of the concealed weapons, the woman in front of him should be of average strength.

At least she was not at the level of an ancient martial artist at all.

Taking advantage of this moment. Ye Xing had already closed in on her and a few cold flashes of light passed by.

The woman in black only felt her scalp go numb, and a bunch of hair had already fluttered down.

She knew very well in her heart that if Ye Xing really wanted to kill her just now, he would have already turned into a dead corpse.

“Don’t move well, otherwise, in case I don’t cut your face with this knife, you won’t be able to get married afterwards.”

Ye Xing said as he did so. While pulling out a torch, shining it on the other party’s face.

Without looking, I didn't expect that this girl was quite good looking, although she couldn't reach the level of Murong Xue and Luo Xiaoyun, but among the Miao tribe, she was considered a big beauty.

Her features were exquisite, not as dark as the average Miao girl.

"I am the Miao princess, if you kill me, you are making an enemy of the entire Miao tribe, even if you go to the ends of the earth, my mother will not spare you." The woman in black threatened.

"Huh, it's still a princess!"

Ye Xiong pulled a rope and tied her next to a large tree and walked around her.

"Next, I'll ask you an answer, if you can't answer or withdraw your lie, I'll cut off one of your clothes, when the clothes are done, I'll start cutting off your fingers, I hope you'll cooperate well oh!" After explaining the rules, Ye Xing then continued to ask: "What is your name?"

"Aya."

"How tall are you?"

"One meter six six."

"What's your circumference?"

"....."

"Can't say it can you!"

With a tearing sound, Ye Xing cut off her night clothes.

Aya was wearing a clothesline on the outside and a long green one-piece dress on the inside, if she continued to lie next, Ye Xing would return another one. Then she was about to have an underwear show.

"Are you a virgin?" Ye Xing suddenly asked.

Chen Ya's face instantly turned red and she said angrily, "Kill me, don't humiliate me like this."

"Answer truthfully, if you don't, I'll have to cut the clothes again."

Ye Xing said as he put the knife to her collar.

"No." Aya returned angrily, "I already have a husband."

Ye Xing took her hand and infused Chaos True Energy into it.

The next moment, his dagger slashed and cut directly her skirt from head to toe.

As her body was tied up, her skirt did not slip down, but a large piece of scenery was revealed in front of her, her underwear hidden.

"Lie once. Just take off one of your clothes, do you think I'm telling a lie?"

"I'm not lying."

“Your body can’t lie, do you want to verify it again?” Ye Xing sneered.

Aya immediately did not dare to speak, because to verify, that could only be .....

She really didn’t understand how this guy could tell that she was a virgin.

“There are only two pieces of clothes left on you, if you don’t come out again, you’ll have to strip the pig naked then.”

Having said that, Ye Xing then took out Lin Wei’s photo from his body and put it in front of her, “This woman, where is she now?”

“I don’t have .....

“You’d better think it over before you answer, of course. If you enjoy the feeling of being seen naked, you can continue to lie.” Ye Xing said coldly.

Aya felt her defenses, a little bit, being breached.

Instead of torturing her physically, this guy was torturing her in terms of dignity, a way of interrogation she had never seen before.

“She is being held in the dungeon, whether she is alive or dead now, I don’t know.” Aya said back.

“Which dungeon?”

“The ancient village dungeon.”

“Who put her in the dungeon and why did the other side do that?”

“Someone in the ancient village is making the Golden Silkworm Compulsion. This kind of compulsion is very malicious and domineering, and it can’t be controlled at all when it first comes on, so it needs a container to try it out, and when the trial is successful, then someone will take it in.” Aya said back.

“To actually use a person as a vessel for refining the compulsion, this is truly abominable.” Ye Xiong shouted angrily.

In that case, it was very likely that the people from the villages near the Miao tribe who had disappeared some time ago had been captured to refine the compulsions.

“The address of the dungeon, do you know it?” Ye Xing continued to ask.

“I don’t know, only the village chief of the ancient village knows.”

“Stay here well, after dawn, take us into the village.”

What should be asked Ye Xing had asked. At that moment, he went towards those special soldiers.

When they went there, the tide of poisonous snakes had already gone, and some people had been bitten a few times, although they were poisoned. But there was no serious injury.

“Have a good rest and set off again tomorrow.”

Leaving these words behind, Ye Xing turned back to Aya's side and took a slight leap. He jumped to the tree where she was tied up and went to sleep.

As for her, let her enjoy a good night tied up!

After just half a sleep, Aya shouted, "Hey, come down and untie me, there are too many mosquitoes, I can't stand it."

"Aren't you a parasite master, why are you afraid of bugs too?"

"The insect repellent I put on my body is not working."

Ye Xing jumped down, his eyes fell on her white and slender legs, and he was instantly amused.

Only to see that there were a dozen mosquitoes attached to those legs at the moment, the big ones as big as small beans, all desperately sucking blood.

A large lump had already formed on her leg.

If she hadn't been unable to bear it, she would not have asked for help.

"Where's the insect repellent?" Ye Xing asked.

"Inside the skirt pocket."

Ye Xing fished out a few small pill bottles from inside her skirt pocket.

"The white one."

When she opened the white bottle, a burst of aroma came over her.

Ye Xing smeared a little on her palm. He was about to wipe it on her leg when he suddenly stopped.

"Do you Hmong girls have that tradition of having to marry each other after being touched by a man?"

"No."

"Forget it, you'd better wipe it yourself!"

Ye Xing said as he cut off the rope tying her up and stood guard beside her.

There were too many strange Hmong traditions for him to risk. Being targeted by a Hmong woman was no different from being targeted by a poisonous snake.

"You don't have to watch out for me, I just want to stop you from entering the ancient village and sending you to your death, otherwise it would have been the poisonous snake I was controlling just now." Aya said.

Just now, a few special soldiers had been bitten by the snake, and although they were poisoned, they were not fatal, so that it could be seen that Aya really seemed to be just driving them away, and did not want to put them to death.

"Is the ancient village chief very strong?" Ye Xing asked curiously.

“She is the only person in my village who knows both compulsion and martial arts, and her martial arts are also very strong, so you guys are just sending yourselves to death if you go in.”

## Chapter 296

“Sending death, don’t see it!” Ye Xing sneered.

“I’ve said my piece, if you still decide to go and send yourself to your death, I don’t care.”

Hearing her say this, Ye Xing became more and more worried, one more moment he stayed, Lin Wei would be in more danger.

“Let’s not wait for dawn, let’s set off now.”

Although it was dangerous to rush at night, Ye Xing still chose to, after all, time waits for no man.

With Aya’s help, the two of them pushed on towards the ancient village.

After hurrying continuously all night, Ye Xing was fine. Aya was already exhausted.

Seeing that it was almost dawn, Aya suddenly led Ye Xing into a cave.

“Let’s rest here before we hurry!”

Aya said as she lay down on a piece of straw mat, and in a few moments she was whirring and sleeping.

This woman. It was really big-hearted, daring to sleep so much in front of herself.

Ye Xing was also quite tired and saw that there was another straw mat next to him, so he lay down and slept with her.

Tomorrow, when we go to the ancient village, if the village chief is really strong, I guess there will be a big battle.

He had just slept for a few moments when he suddenly heard a small sound coming from him.

He just pretended not to notice it. He went back to sleep.

Just then, a fragrance hit him.

Ye Xing’s head lolled and he passed out.

The next thing he felt was his body being tied up, and then, another burst of fragrance hit him.

Ye Xing opened his eyes and found Aya looking at him with a smile on her face.

“What do you want?” Ye Xing struggled, his face paling.

“What do you think I would want?”

Aya walked over, pleasure written right on her face.

She had been pinned down and almost stripped naked by her opponent earlier, and now she could finally raise her eyebrows.

“What do you really want?” Ye Xing continued to ask.

“Since childhood, this girl has never been seen by a man like this, you actually looked at my body, do you think I will let these eyes of yours stay?” Aya sneered as she walked over, a knife raised in her hand.

“Trying to gouge out my eyes, you woman is too ruthless!” Ye Xing backed up repeatedly.

“Not killing you, old mother has been merciful.”

Coming in front of Ye Xing, she raised her knife and slowly approached Ye Xing’s eyes.

Ye Xing’s eyes mimicked, and the hands tied behind his back had been loosened at some point.

This woman, if she really wanted to gouge her own eyes, then he would have to use his own way. To cure her.

The knife stopped a few centimetres from Ye Xing’s eyes and stopped.

Aya sighed, “Count yourself lucky to have met Old Mother, in a second woman, you would have been dead long ago.”

“Thank you for the kindness of not gouging out your eyes, Miss.” Ye Xing smiled.

“The sin of gouging out your eyes can be waived, but to let you off like this is too cheap.”

Chen Ya held her chin in thought for a moment and laughed, “Right, let you also taste the taste of being bitten by mosquitoes with your naked body.”

She walked over and was about to move her knife to cut off Ye Xing’s clothes, but she didn’t know that the knife in her hand, somehow, had disappeared.

“Huh. Where’s my knife?” She had an erratic look on her face.

“Are you looking for it?” Ye Xing waved the knife in his hand.

“How did you get it untied?” Aya’s face paled.

She had clearly tied her opponent to death and had tied him in several layers, so how did he break free?

“Are you talking about this?”

Ye Xing held a few thick rattan ropes from the ground in her hands, and pulled them with force as her strength reached her.

At once, the rattan ropes fell to the ground in pieces.

“This level of stuff still wants to tie me up, what a fool’s dream, let’s go!”

Originally, she thought that the other party was tired before taking a break, but she didn’t know that the other party was deliberately pretending, in order to give herself a bewitching drug while she was sleeping.

But fortunately, she didn't gouge her eyes in the end, otherwise. His attitude would not have been like this.

"Don't play tricks again, or else you'll get what's coming to you." Ye Xing warned beforehand.

The two continued walking towards the ancient village, and when they were halfway down the road, Aya couldn't help but ask, "Just now, if I really did gouge your eyes, what would you do to me?"

"It's possible to first? It's possible to kill afterwards, or the other way around."

Aya shuddered and cursed the pervert in her heart.

The journey continued. It was almost noon when a village suddenly appeared in front of them.

The village was built in the middle of a mountain stream, and was surrounded by countless huge trees that obscured it, so that if one did not go deeper into it, one could not tell from the outside that there was actually a village here.

"Up ahead is the ancient village, see that red hanging building in the middle of the village, there is the village head's house." Aya said, pointing into the distance.

"You said you are a Miao princess, a princess in the hall, are you still afraid of a village chief?" Ye Xing was a bit puzzled.

"I'm not a princess of any kind, I'm scaring you."

"Take me there."

"No, if I take you there. If the village chief finds out, he will kill me alive."

Aya shook her head repeatedly, a look of fear on her face.

Ye Xing was in a dilemma.

There were several problems at the moment, firstly. Lin Wei's whereabouts were unknown, whether she was dead or alive was unknown, he did not know where the dungeon was, if he ventured in at this time. If he was discovered, even if he won the battle, he would not have the upper hand.

Right now, the most important thing was to get Lin Wei out.

"You said that the village head was going to refine the Golden Silkworm Compulsion, there is always a place to refine it, right, where is it?"

"It is said that the stone cave at the back of the earth."

"What time did she normally refine it?"

"This is not sure, the Miao people are very private when they refine their compulsions, they won't let outsiders see it."

What should be asked, Ye Xing had already asked, the rest of the things, just do it yourself.

Ye Xing suddenly struck out, and before Aya could react, she was knocked unconscious.

Next, Ye Xing pulled her body into a bush. It was hidden, and only then did he slowly approach by the village.

From time to time, men and women came and went from the village, mostly into the mountains.

Ye Xing knocked a man with a body similar to his own unconscious, dragged him to the morning bush, and then stripped him of his clothes to change.

After taking out a small mirror from his body and looking at it, he felt that something was still missing from his body.

After a moment's contemplation, he grabbed a handful of mud from the ground. He smeared it on his face to make himself look less white.

Next, his hands and feet, all smeared with black mud, erasing all the feeling of being a city dweller, before he walked towards the village.

The village didn't look small, and there were other villages nearby, so even people who didn't know each other only thought he was from the next village, and didn't care much.

Ye Xing easily arrived at the village head's house and stuck to the wall.

Seeing that no one was around, he leapt gently and, with his hand on the wood, arrived at the first floor attic.

This kind of hanging building is a characteristic of the Hmong people, and there are especially many such buildings in the neighbourhood, some of them are connected rather closely, and this place is difficult to spot.

He was about to regally enter, when suddenly inside, a familiar voice came through.

"Alita, how is the refinement of your Golden Silkworm Compulsion going?"

Hearing this voice, Ye Xing's face changed greatly.

## Chapter 297

Ye Xing had never expected to meet Shangguan Lan here.

The voice coming from inside the room was none other than Murong Xue's mother, Shangguan Lan's. He was worried about not being able to find Xue'er, but he never thought that he would meet her here.

Since he had met her this time, he must find out the whereabouts of Xue'er from her mouth.

Ye Xing really wanted to rush in immediately and ask her where Xue'er was, but after considering it, he held back.

Not to mention whether he could beat her now, and even if he could, would Shangguan Lan tell him where Xue'er was?

Obviously not.

It wasn't like he could use the tactic of forcing a confession.

Ye Xing held his breath and ran his breath to its weakest as he continued to listen.

“Back to Lord Immortal Envoy. The Golden Silkworm Compulsion is extremely hostile and difficult to tame, I still have to use a human to study its characteristics, once I am familiar with its characteristics. It will then be able to be controlled with.” A middle-aged woman’s voice came.

This person should be the village head of the ancient village, the one Aya had mentioned, someone who was proficient in compulsion and ancient martial arts.

“How much longer do you need to tame it?”

“Please give me another month .....

“No, a month is too long, half a month at the most. Alita, the Immortal Sect is not that easy to enter, it has not recruited disciples in the mortal world for two years, can you become a disciple of the Immortal Sect. It depends on your achievement this time.” Shangguan Lan said.

“Please don’t worry, Lord Immortal Envoy, I will definitely tame the Golden Silkworm Compulsion and will never disgrace my mission.” Alita exclaimed.

“That’s good, then I will come back in half a month .....

Shangguan Lan shouted, the whole person rushed out from the compartment, a white mane shot out from his hand.

Ye Xing secretly shouted bad, is ready to meet the attack, suddenly the left attic, a white-clothed figure quickly fled, non-stop vertical leap, in the twinkling of an eye is already in tens of meters away.

Shangguan Lan would not let the other party go, his body was like a swallow, leaping between the pavilions, following closely behind.

Judging from the appearance of the white-clothed figure, the other party should only be around thirty years old, and his lightning skills were very good.

Ye Xing did not expect that someone other than himself was eavesdropping.

But at this moment, he didn’t even care about the other party, the most important thing now was to find Lin Wei.

Alita hurriedly went out and quickly ran towards the back of the hill, the sudden arrival of someone made her feel uneasy.

Ye Xing trailed behind quietly, unnoticed.

The other party was very shrewd and stopped several times halfway to reconnoiter. Luckily, Ye Xing’s anti-scouting power was very strong, so she was not discovered.

It was not long before Alita arrived at a valley in the middle of nowhere.

There was no way into the valley, Alita had jumped off the cliff, and if she hadn’t seen it with her own eyes, no one would have thought that she was actually hiding a cave here.

Only when the other party’s figure disappeared into the cave, did Ye Xing then arrive at the cliff.

Looking at the tens of metres high cliff, he couldn't help but feel a little creeped out in his heart.

Although he had cultivated Chaos True Elements and his strength was estimated to be far above Alita's.

However, as if a person who was armed with a treasure but would not use it, he had not undergone any systematic training.

Although The Tidal Wave Palm is a martial art. But it was not light kung fu.

Holding his breath, Ye Xing gently jumped down, manipulating the Chaos True Essence by feel.

Halfway down, he lent his palm on the stone protruding from the side.

This was troublesome, the stone simply could not withstand the force of the fall and caused a landslide.

Countless rocks fell from the half-cliff with a rumbling sound.

"Who is it?"

A loud shout came from inside the cave, Alita came out from inside the cave, seeing Ye Xing still in mid-air, she withdrew her hand at once.

A piece of green powder foam attacked, and at first glance, it was something highly poisonous.

Ye Xing was in mid-air and had nowhere to hide. He could only slap out his palm, and the Tidal Wave Palm brought up a gust of palm wind, causing the green powder foam to float back.

Alita dodged it in a hurry, and the powder foam fell to the ground and found a nuisance sound, even the stones were scorched black with decay.

"Old demon woman, you really hit hard!"

Looking at the extent of the rotting of the stones, Ye Xing could not help but be secretly horrified. If this powder foam were to be withdrawn on a person, that would be something else!

"Who the hell are you?" Alita stared at him with a blazing gaze.

"Hong Clan, Hong Tian."

Without a second thought, Ye Xing sold Hong Tian.

"People of the Hong Sect, do you think you can stop the Aura from returning to poverty, dream on."

Alita finished her sentence and struck again, her sleeves kept flicking out, a piece of medicinal powder floating in mid-air.

Ye Xing once again shot out his palm, slapping out with a slap, the wind of his palm stirring those powder droplets away from his side.

"You're not even a Hong Quan." Alita drank.

"Who said that the Hong Sect must be a Hong Fist, this is a Hong Fist. A new move created by our clan, eat a Hung Palm from me!"

Ye Xing shouted, his body bullying in, a continuous palm wind slapped out.

Under the return of the palm wind. Chen Rita's face was disfigured by the green powder that got on her face and found a zipping sound.

She did not dare to continue with the poison, that would only make herself suffer.

Martial arts wise. She was not even as good as Hong Tian, and if she went on without poison, that was Ye Xing's match.

After less than two minutes of fighting, Ye Xing kicked her in the side, sending her flying against the stone wall and sending stone chips flying everywhere.

Poof!

She spurted out a mouthful of blood, her eyes staring at Ye Xing with a face of hatred.

"The Hong Clan simply doesn't have such an exquisite palm technique, you're not from the Hong Clan at all, who the hell are you?" She gnashed her teeth.

Naturally, Ye Xing would not reveal his identity, suddenly remembering what he had just heard, he immediately moved his mind.

"With such strength as yours, you still want to join the Immortal Sect, foolish to dream." Ye Xing sneered.

"What do you mean by that?"

"The Golden Silkworm Compulsion has already been refined, you have spent so long without taming it, it is no longer useful. We'll just have to kill you and find another one to replace you. We can't wait that long."

"Did the Immortal Ambassador Lord instruct you to come here?" Alita's eyes bugged out.

"It's too late to know that now."

Ye Xing drew his dagger and stepped closer, pretending to be ready to kill.

Alita suddenly flung herself on her knees and said urgently, "Please beg for mercy from Lord Immortal Ambassador, I will definitely seize the time to tame the Golden Silkworm Compulsion and achieve a connection of intent. Please don't kill me. The Golden Silkworm Compulsion was refined by me, and if I can't tame it, it's even more impossible for others."

In order to plead for mercy, she kept kowtowing and blood was soon coming out from her forehead.

This bitch, she wouldn't really believe her own bullshit, would she?

Ye Xing was a little hesitant, after all, Miao women were the most tricky, what if she pretended to believe herself, but in reality, she was looking for an opportunity to strike back in a desperate way?

"Let me ask you, how many people are still inside the cave?" Ye Xing asked, suppressing his excitement.

The Golden Silkworm Compulsion had to be refined with people, so inside the cave, there were most likely still living people.

Whether Lin Wei was still in it or not, he was not even sure.

“There are eleven other living people.”

“How many males and how many females?”

“Three men and eight women.”

Eight women, could Lin Wei be among them?

“During the refining process, people would definitely die, how many men and how many women died?”  
Ye Xing continued to ask.

Alita wasn't sure what his reason for asking this was, but still answered back honestly, “I can't remember, less men died, ten or so, and there should be dozens of women, because the final host of the Golden Silkworm Compulsion was me, so there were more experiments with women.”

## Chapter 298

Hearing these words, Ye Xing really wanted to slap it over.

This woman was too vicious, for the sake of refining a single compulsion, she had actually harmed the lives of dozens of people.

Really, she would do anything to refine a compulsion.

If Lin Wei was among these women who had been killed, Ye Xing would definitely have let her die a miserable death.

“The golden silkworm compulsion is inside the cave, right?” Ye Xing continued to ask.

“Yes.”

“Take me in to have a look.”

Alita turned around and was about to go in when Ye Xiong called out to her.

He walked over, cut a few strips of cloth from the top of her skirt and tied her hands tightly, then searched all the clothes on her body and found a large push of vials of poison powder and other things. Only then did he push her into the cave.

Inside the cave, a paraffin lamp was lit on the stone wall, stretching all the way in.

“Don't play tricks. It couldn't be easier for me to get you killed.” Ye Xing warned.

The Hmong people had too many tricks to guard against.

With Rita leading the way, Ye Xing soon entered the cave.

The cave was deeper than expected, and after walking for almost five minutes, three stone chambers suddenly appeared in front of him.

Inside the stone chambers were two stone dungeons, and inside the stone dungeons were locked up men and women respectively.

In the remaining one, there was a quadrangle made of glass, which was transparent. The inside was empty.

Ye Xing's eyes fell inside the two stone chambers, one side held three men and the other side held eight women.

Seeing Alita enter, the people inside the stone chambers all wore fearful expressions as their bodies shrank inwards.

"Lin Wei, are you in there?" Ye Xing asked in a trembling voice.

He was really afraid that no one would respond.

It was at this moment that a black shadow in the corner stood up and slowly walked over to the iron door.

"Ye Xing, is that you?" The woman said.

"Thank God, you're alright, great."

Ye Xing sighed with relief and hurriedly walked over, seeing that the iron door was locked, he immediately barked, "Come here, open the door."

"I don't have the key with me." Alita said back.

"Do you think I'm stupid?"

Ye Xing put the dagger on her neck and ordered, "Open the iron door right now."

"I really don't have the key with me, and you searched my body just now ....."

Before she could finish her words, the white light on Ye Xing's hand flashed.

One of Alita's fingers was cut off raw, and blood gushed out like water.

Lin Wei had found it, so he naturally wouldn't be polite with the other party.

Alita screamed miserably, five fingers connected, so it was obvious how much it hurt.

"I don't want to say the same thing a third time, where is the key?"

Alita trembled her fingers. Pointing at the stone wall in the doorway.

Ye Xing had sharp eyes and saw a crack in the stone wall, and instantly walked over and took out a stone block, and there were indeed three keys inside.

He got the keys, walked over and opened the iron door, and a group of women rushed out in a hurry, excited beyond belief.

"It's all right, take it easy, walk slowly." Ye Xing said.

Lin Wei was the last one to come out, she was dirty and carried blood stains, her whole body had lost a few turns. The pretty look no longer existed.

Seeing her appearance, Ye Xing felt another burst of anger in his heart.

He kicked Alita and made her fall to her knees.

“Lin Wei, are you alright?”

“I’m fine.” Linwei shook her head and murmured, “It’s just that, they’re all dead.”

“Is the black bear dead too?”

Lin Wei nodded, her tone choked.

Suddenly, she snatched the dagger from Ye Xing’s hand and viciously plunged it into Alita’s back, stabbing her several times in quick succession, splattering blood on the spot.

Alita screamed in agony and soon fell to the ground. Dying.

“Didn’t you want us to feed the golden worm compulsion, I’ll let you try the taste of being penetrated by the golden worm compulsion now.”

Like a madman, Lin Wei lifted up Alita, who was covered in blood, and walked inside the stone chamber that contained a transparent glass-like shape.

“Ye Xing, throw the key over.”

Ye Xing knew she was heartbroken and instantly tossed the key over.

Lin Wei opened the iron door and then pushed Alita’s body inside.

“No .....

Alita hissed and screamed miserably, with endless fear in her voice.

Ye Xing walked over to the glass case. Only then did he find a finger-sized worm inside.

The bug was thumb thick, golden yellow in colour, with two pairs of fleshy wings on its back.

With a pair of red and white eyes, it did not look scary at all, and was even a bit cute.

If he had not seen it with his own eyes, he would not have believed that this was the golden silkworm compulsion that was rumoured to have frightened people.

According to the Miao people, the method of making the Golden Silkworm Compulsion is very perverted.

First, dozens of poisonous insects are locked inside a space, allowing them to bite and devour each other, and the last one to survive is the king of the parasites.

This is the king of the parasites. It is not a real golden silkworm compulsion, first it has to be starved for a few days, then all the poisons and poisons in the world are thrown into it for the compulsion king to eat. The king of companions is so hungry that he is weak. There is nothing left to eat but to eat these

poisons, most of the companions died in the process of eating the poisons, and there are almost no companions who survived. To refine the Golden Silkworm Compulsion. You have to take seventy-seven or forty-nine kinds of poisons, and finally become invulnerable to all poisons. In addition to stopping, but also outside the Buddha's altar, smell the Buddha's incense for seventy-seventy-nine days, to turn away its hostile nature, can be tamed by people .....

The difficulties involved cannot be appreciated by those who have not personally refined it.

When the Golden Silkworm Compulsion saw someone enter, it immediately turned into a golden light and entered her body, biting up continuously.

"Golden Silkworm Compulsion, you were refined by me, you can't eat me."

"Under my leadership. Only then can you grow to be the king of all compulsions."

"I know you can understand my words and feel what I mean, and don't forget, I was the one who made you listen to the human language for five years."

Once inside, Alita kept speaking up, like a divine woman, with her palms together in great devotion.

An amazing sight appeared.

It was only visible. The golden silkworm parasite that had originally entered Alita's body suddenly burrowed out and kept flying around her, spinning around as if it was listening to her words in pity.

Ye Xing and Lin Wei looked at each other, thinking to themselves that it couldn't be that unlucky, right?

I wanted to throw Alita in so that she would be eaten by the Golden Silkworm Compulsion and die of torture, but I didn't know that she had actually inadvertently taken in the Golden Silkworm Compulsion.

"Untie my hands, and I'll give you your favourite meatballs." Alita held out her bound hand.

The golden silkworm compulsion turned into a golden light and swept through her hands, and the rope instantly fell to the ground.

The biting power of this little thing was actually something that Ye Xing had never seen before.

"Very good, I'll give you the meatballs."

Alita was very happy and hurriedly reached for her clothes pocket, but she didn't know that she felt an empty one.

Only then did she remember that the contents inside her pockets had just been emptied by Ye Xing.

"Are you looking for this thing?"

Ye Xing took out a bottle with a sugar pill like thing inside from a pile of small bottles and waved it in front of her.

When the golden silkworm parasite saw the vial, its head kept hitting the glass bottle, hissing madly and hostilely.

“Want to eat it right, eat her up.” Ye Xing pointed at Alita and commanded.

The golden silkworm parasite revealed a row of sharp fangs and flew towards Alita.

“No .....

Alita screamed shrilly, her mouth just opened, and the golden worm compulsion flew in.

Chapter 299

The next scene that shocked the two men came to life.

Only to see a stream of blood continuously gushing out of Alita’s mouth, spraying all over the glass, and finally falling limply to the ground.

Only then did the golden silkworm compulsion come out of her and come next to the glass, hissing at Ye Xing repeatedly through the glass.

Those little red and white eyes were staring intently at the small bottle in Ye Xing’s hand.

“This little thing is really ferocious.” Ye Xing took a breath of cold air backwards.

“Yeah, that’s why every time we see that abominable woman come in, we all duck inside for fear of being screened, and basically everyone who is screened. The downfall is death.” Lin Wei was in shock.

“Luckily you weren’t selected.” Ye Xing also breathed a sigh of relief.

“I was selected once and thought I was dead at the time, but I didn’t expect that this little worm just burrowed inside my body once and didn’t bite and devour me at all. At that time, I thought it had had enough.”

“No matter what, this little thing can’t be escaped by it, otherwise, when the time comes, I don’t know how many innocent people will lose their lives.”

Ye Xing came next to the glass and looked at the golden silkworm compulsion, considering how to finish it off.

In the end, he decided to use fire.

He first went outside and carried some dry firewood back, this was a barren mountain. There was very much dry firewood.

This glass chamber, which Ye Xing had just checked, was made of high-density tempered glass, and the body surface was very slippery, even if the golden silkworm compulsion’s teeth were very powerful, it had nowhere to put its teeth.

After coming back, Ye Xing first threw some pills out of the small bottle in his hand and threw them inside the glass chamber.

The golden silkworm compulsion immediately bit into them, relishing them.

Just as it was getting into the taste, Ye Xing threw in the dry firewood in his hand and lit the fire at the same time.

The fire burned, but it did not burn very brightly due to the lack of air.

Ye Xing showed a tiny slit in the door to provide air and guarded it carefully for fear that the golden silkworm parasite would rush out.

Which knew that what made him vomit blood had happened.

The fire inside was blazing and the golden silkworm compulsion was still eating the meatballs as if nothing had happened.

Even though the fire had reached it, he just moved his body and flicked the ash off his body, as if nothing had happened.

The blazing fire didn't even half harm it.

"My god, this ghost thing is actually not afraid of fire." Lin Wei was speechless.

"I seem to have heard that before. The Golden Silkworm Compulsion is not invaded by water and fire, and its body is like gold and stone, I didn't believe it before, but now I don't believe it." Ye Xing was also speechless.

"What should I do?" Lin Wei asked.

Ye Xing was in a dilemma, this golden silkworm compulsion was so strong, killing it was impossible.

But staying here wouldn't work either, in case it escaped, there was no telling how many people around would be harmed.

"How about we take it away first and find a way to destroy it when the time comes?" Lin Wei suggested?

"The question is how to take it away?"

This guy's bite was so amazing that nothing could trap it at all.

"I remember that woman seemed to have taken it out with a small bottle, do you see if it's on you?" Luo Wei asked.

Ye Xing took out those vials from his body that he had retrieved from Alita. Looked at them.

"That's the one."

Linwei held out a clear, empty bottle.

Ye Xing squeezed it for a moment, the material seemed a bit different.

He drew out his dagger and chopped hard on the bottle.

Ding!

Fire flashed everywhere, and the bottle actually didn't move at all.

It was outrageously hard.

"This bottle should be fine, the question is how can I get the golden silkworm compulsion in?"

"I don't really understand it either, but I think I've seen that woman put a meatball in and the golden silkworm compulsion went in automatically." Lin Wei said.

"This little thing is so violent, has it ever been so obedient and willing to enter?"

Ye Xing didn't quite believe it, after all, the Golden Silkworm Compulsion gave him a feeling like it had a spiritual intelligence and even understood human words.

He looked at the Golden Silkworm Compulsion and found that it was lazily lying on the ground. He found that it was lying lazily on the ground, unwilling to move at all, and his brow furrowed.

He poured out a so-called 'meatball' from inside the vial and took a sniff.

"So that's it." It dawned on him.

"What's wrong?" Linwei asked curiously.

"This pill has addictive tai marijuana in it, and it seems to have narcotic power, this woman is really unscrupulous."

Whether it was a human or an animal, or a worm, all were addictive to Tai Ma.

In order to control the golden silkworm compulsion, he had actually fed it these things. To make it addictive and easy to control.

"No wonder the Golden Silkworm Compulsion is so hostile, so it's been conditioned to be like this." Lin Wei finally understood.

Ye Xing put a pill inside the small bottle and threw it inside the glass.

After smelling the pill, the golden silkworm compulsion immediately burrowed inside.

Ye Xing opened the door and easily picked up the bottle and put the lid on it.

"Let's go, we'll dispose of this little thing later."

Putting away the small bottle containing the golden silkworm compulsion, Ye Xing then walked out of the cave with Lin Wei.

Outside the cave, a group of people had long since run away without a trace.

Ye Xing took a look at Lin Wei and saw that not only was her face dirty, her body had also lost a round of weight. He was a little distressed.

Lin Wei turned her face away, not letting him see how she looked at the moment, she felt she was too ugly now.

"Go back and recuperate, you'll recover soon. You are already a beautiful woman, what are you afraid of." Ye Xing laughed.

It was barren in front of them, there was no way out, and every time Alita came in. It was all down from the cliff.

The people who had escaped from inside the cave just now had all run away without a trace.

“Can you walk, do you want me to carry you?” Ye Xing asked.

“I’m not that fragile.” Lin Wei immediately refused.

“Don’t be formal, come on!”

After being locked up inside for so long, Lin Wei was not in good health, and with such a barren area in front of her, she couldn’t just walk through it, could she?

Ye Xing walked up to her and bent down.

“I’ve said no, it’s not like I’m hurt.” Lin Wei still refused.

“It’s not a matter of being hurt or not, but you’re hindering my time too much.”

Seeing that she didn’t take the initiative, Ye Xing was not polite anymore and directly picked her up.

“What are you doing, put me down now.”

Although the two were good friends for two lifetimes, they had never been this close to each other before.

Ye Xing ignored her, lucked out on his feet and stomped hard.

He hugged Lin Wei. Rushing up into the sky, he leapt seven or eight metres in one bound, leaping over the barren parched ground and landing on a rock.

Lin Wei screamed in shock, her heart kept beating, and she looked at Ye Xing in disbelief.

She didn’t expect that after not seeing him for a while, he had actually become so strong.

A leap of seven to eight metres. This was a strength that only ancient martial artists had.

Next, Ye Xing carried her and kept leaping between the deep mountain and wild collars, slowly getting familiar with how to get lucky.

Finally, a path appeared in front of her, and only then did Ye Xing put her down.

“When did you become so powerful.” Lin Wei said in shock.

“I’ve come across some opportunities recently, let’s get going!”

The two walked towards the bottom of the mountain, and when they were about to reach the foot of the mountain, a white shadow suddenly swept through the air and landed in front of the two.

The visitor’s body was plump and beautiful, floating like a fairy descending from the earth.

It was Shangguan Lan, who had been lured away earlier.

“So it’s you.”

Seeing Ye Xing, Shangguan Lan was a little surprised.

## Chapter 300

“Shangguan Lan, how is Xue’er doing?” Ye Xing asked urgently.

He hadn’t seen her for a few months, he didn’t know anything about Xue’er’s current situation, and was worried.

“She’s very well now, her future potential is unlimited, so die to your heart! She is too high for you to climb.” Shangguan Lan said coldly.

“The relationship between us is not up to you, you are not qualified to control it.”

“She is my daughter, so I am qualified to be in charge.” Shangguan Lan put her hand out and said impatiently, “Don’t even bother to talk nonsense with you, hand over the Golden Silkworm Compulsion. Otherwise, don’t blame me for being ungracious.”

Seeing that the other party despised him so much, Ye Xing was also angry.

“The Golden Silkworm Compulsion is right here, if you want to take it, it depends on whether you have the ability or not.”

He held out the small bottle. Raised it in front of her and put it away again.

“I admire your courage, it’s good to have courage, but to have no strength is to seek death.”

Shangguan Lan coalesced a few finger-thick ice lozenges in her palm and flung them out fiercely.

Ye Xing drew out his dagger and struck out like lightning, dinging the ice lozenges twice and knocking them away.

“Lin Wei. You stay away.” Ye Xing commanded.

Lin Wei knew that she would only be a drag next to him, and instantly walked a long way away before stopping.

“It looks like the strength has increased into quite a lot.” Shangguan Lan was a little surprised, but his face was still scornful. “Unfortunately, no matter how much you gain strength, you are still just an ancient martial artist and will never be able to defeat me.”

“Then you should try.” Ye Xing snorted coldly.

Shangguan stretched his hands flat in front of his chest, cold Qi flowed in his palm, and with a speed visible to the naked eye, he condensed an ice sword.

Soon, a huge lifelike ice sword was suspended in front of her.

“I ask you once more, the Golden Silkworm Compulsion, will you give it or not?” Shangguan Lan asked.

“Give it to your sister.”

“Seek death.”

Shangguan Lan let out a soft shout, and the ice sword in her hand instantly shot out.

The icy cold sword, with the speed of breaking wind, shot towards Ye Xing, fast and furious.

Ye Xing took a deep breath and gathered Chaos True Energy in his palm, pushing it with all his might.

At this moment, it was his time to make a name for himself, even if he had to die, he could not retreat.

Tidal Wave Palm, striking out.

He slapped out with his palm, no wind and waves. A powerful aura met the ice sword.

The first wave of palm wind caused the ice sword to weaken in speed.

The second palm wind made the ice sword's speed even weaker.

Under the third palm wind, only a small bang was heard.

When the ice sword was about to break through his palm, it was still a few centimetres away from his palm when it shattered with a bang, turning into ice and falling to the ground.

Shangguan Lan's face instantly changed.

She had not expected that the other party could actually block her own ice sword. When had this guy become so strong?

"Immortal magic spells, it's just like that!" Ye Xing laughed coldly.

He was secretly smug, a soldier should be impressed after three days of separation, after leaving Murong Xue, he had already taken many pills and his strength had increased greatly, plus having opened the Third Nine Memory Fragments and learned the Chaos Skill and Tidal Wave Palm, his strength had taken a qualitative leap. Compared to a few months ago, it had long since been unrecognisable.

"You've progressed faster than I thought. However, if you think that. You can deal with me with this strength alone, it is no different from the sky."

Shangguan Lan raised his hands flat once again, and countless ice lozenges coalesced in front of him.

This time, not one, but hundreds of them, all as thick as a thumb, were suspended in mid-air, forming countless sword showers.

"I'd like to see. How will you block this move."

Shangguan Lan bellowed, his clothes moving without wind, countless ice lozenges densely packed, just like arrows, shot past.

The most terrifying thing was that these ice lozenges would turn in mid-air, as if they were alive and could attack in 360 degrees.

Ye Xing gritted his teeth and ran the Yuan Qi in his body, frantically running while holding his dagger to resist.

Ding ding ding!

Countless sounds rang out as a portion of the ice lozenges were knocked away by the dagger in Ye Xing's hand. But most of them shot at his body.

Poof, poof, poof!

In an instant, Ye Xing's body was covered with ice lozenges.

"Ye Xing, be careful." Far away. Lin Wei exclaimed.

"My sky full of ice lozenges is simply unstoppable, resign yourself to your fate!" Shangguan Lan coldly snorted.

With this move, she did not know how many Ancient Martial Arts experts she had defeated, not many of them were able to follow it.

Although Ye Xing was covered in blood. But soon, he laughed fiercely.

He pulled out the ice ling that was stuck in his body and took a look at it.

It was less than half a centimetre into the flesh, and although it hurt, it was only a superficial wound.

Just now he had run his Chaos True Essence through his body and blocked the attack.

If his true essence had been just a little bit stronger, these ice lozenges would not have been able to hurt him at all.

"That's it, it's more or less the same as me scratching an itch."

Ye Xing threw the ice lozenges to the ground and laughed coldly.

Shangguan Lan's brow furrowed, she had never expected that he would actually be able to block two of her own two major spells.

"You have been the one attacking just now, now it's my turn."

After Ye Xing finished speaking, his body abruptly rushed out and slapped out with a palm.

Chaos True Energy turned into a heavy palm strike and whistled away.

The ground. Countless leaves surged up and floated in mid-air.

"I don't have time to play with you."

Shangguan Lan suddenly swept up into the air and leapt towards Lin Wei.

How could Lin Wei, a mortal of the realm, be able to stop it, and was instantly tackled by Shangguan Lan.

An ice sword coalesced in Shangguan Lan's hand and pointed at Lin Wei's neck.

"Shangguan Lan, you are so despicable." Ye Xing was furious.

"Whatever you say, bite out the Golden Silkworm Compulsion. Otherwise, I'll kill her." Shangguan Lan threatened.

"You dare."

"Do you think that there is still something that I dare not do?" Shangguan Lan's hand exerted force.

The skin of Lin Wei's neck, was immediately pierced and blood seeped out.

Ye Xing had no choice but to take the bottle containing the Golden Silkworm Compulsion from his body and throw it out.

Shangguan Lan caught the small mirror and took a glance at it to make sure that what was inside was the Golden Silkworm Compulsion, before pushing Lin Wei away with one hand.

"For the sake of this woman, you don't even want the Golden Silkworm Compulsion, it seems that you have a not-so-simple relationship with her. That's quite good too, with your condition you can only be with these mundane people, as for Xue'er, you can die!"

Shangguan Lan laughed loudly, jumped a few times and disappeared into the line.

"Ye Xing, are you alright?" Lin Wei hurriedly ran over.

"It's fine, it's just a superficial injury." Ye Xing said back.

"I'm sorry for dragging you down." Lin Wei felt a little guilty.

"Even if she didn't threaten you, I still wouldn't be able to keep the Golden Silkworm Compulsion, I'm not a match for her right now."

Ye Xing knew very well that he was not yet a match for Shangguan Lan, his inability to defend against his opponent's attacks was an example.

Shangguan Lan grabbed Lin Wei to threaten him, just not because she wanted to waste Yuan Qi.

However, with time, he believed that he would definitely be able to surpass her.

When the time came, he would teach this woman a good lesson and let him know how good he was.

Next, the two of them hurried back, and on the way, they ran into Tu Long and his group.
